COLUMBIA, MISSOURI 65201
MP99 REVISED MARCH 1969

These bulletins publish the results of fundamental investigations made at the Agricultural Experiment Station of the University of Missouri - Columbia. They are written primarily for research people. Address request for copies to Technical Education Services Building, 417 South Fifth St., University of Missouri - Columbia, Columbia, Mo. 65201.

AGRICULTURAL CHEMISTRY

635. Application of Ion Exchange to Flame Spectrophotometry and Determination of Potassium in Fertilizers.
679. Nicotinic Acid, Lysine, Tryptophan and Threonine as Supplements to High-Protein Corn.
783. Effect of Female Sex Hormones, Thyroxine and Vitamin B12 on Embryonic Mortality in Rats.
878. Removal of Radioactive Fission Products From Surface Water Supplies.
904. Relative Value of Certain Economic Traits and Blood Components as Selection Indices in Beef Cattle.
926. Packaging and Handling Silage in Bags.

AGRICULTURAL ECONOMICS

661. Resources and Levels of Income of Farm and Rural Nonfarm Households in Eastern Ozarks of Missouri.
707. Producer Attitudes Toward Adjustment of Milk Production in the Kansas City Milkshed.
708. Trends in Contributions to Missouri and U.S. Cash Farm Income, 1924-1957.
714. Equity Financing in Agriculture.
730. Opportunities for Reducing Farm Machinery Costs in the Ozarks of Eastern Missouri.
745. Profitable Adjustments on Farms in Eastern Ozarks of Missouri.
746. Farming Opportunities in Missouri Projected Through 1975.
753. Wheat Problems and Programs In the United States.

755. A Quality-Price Study of Wheat at the Country Elevator Level.
780. Determining Maximum Net Returns For Croppings Systems on Marshall Soil Using Linear Programming.
781. Characteristics of Missouri Livestock Auction Markets.
795. Irrigation Practices and Costs in Southeastern Missouri-1960.
811. How Surplus Grade A Milk is Marketed in the Midwest.
812. Irrigation Practice and Costs in S. E. Missouri II.
813. Consumer Preferences and Their Application to Egg Grading Standards and Marketing Procedures.
825. Shoulder Clod (beef cooking).
835. Usual Preferences for Interior Egg Quality.
840. Financial Progress of Beginning Farmers in North Central Missouri, 1953-1959.
843. Descriptive Analysis of the Missouri Restaurant.
845. Some Factors Affecting Turkey Growers' Attitude Toward the Proposed Turkey Marketing Order.
861. An Evaluation of Government Purchase Programs for Poultry.
867. Consumer Acceptance of Loin Steak from Young Bulls.
872. Production of Corn, Hogs, and Beef Cattle with Optimal Farm Organization.
873. Costs of Hauling Bulk Milk from Farm to Plant.
877. The Importances of Consumer Competencies for Women.
879. Cost Minimizing Plans for Various Types of Farms in Northeast Missouri.
884. Cost Factors in Milk Assembly Bulk or Can Handling.
886. Optimal Organization for Representative Farms in North Central Missouri.
888. Developing Adequate Farms in the Eastern Ozarks of Missouri.

891. Bulk Density of Chopped Alfalfa Hay.
894. Aggregate Production Functions for Farms in Northern Missouri-1962.
895. An Economic Analysis of Alternative Beef Cattle Systems for a Large Farm in Central Missouri.

897. Alternative Systems of Farming for a Medium-Size Farm in Central Missouri.
899. An Evaluation of Retail Yield Influence on Beef Pricing and Transportation Costs of Dressed Beef.
900. Modes of Transport Used by Country Buyers for Shipment of Grain.
901. Farm Plans for a 200-Acre Central Missouri Farm.
906. Consumer Preference for Exterior Egg Shell Characteristics.
907. Effects of Urban Expansion of Ownership, Use and Taxation of Agricultural Land.
910. An Analysis of the Impact of Industrialization on a Small Town Economy, A Case Study of Ava, Missouri.
911. A Study of Relationships Used in Farm Record Analysis.
919. Testing Cotton Varieties.
921. Beef, Pork, and Beef Grains in the Corn Belt: Supply Response and Resource Adjustments.
925. Agricultural Adjustment in Northern Missouri.
929. Effect of Capital Rationing and Time on Optimal Farm Organizations.
931. Farm Machinery Investment Decisions Using Mixed Integer Programming.
933. An Annotated Bibliography on Economic and Social Development in Missouri: 1960-67.
935. A Profile of Rural Home Buyers and Builders and Their Use of Housing Credit.
941. An Investigation of the Effects of Urban Expansion on the Taxation of Real Property in West Central Missouri.
944. Insurance Coverage of 200 Families in Henry County, Missouri.
945. A Method for Evaluation of Alternative Milk Pricing Plans.

AGRICULTURAL ENGINEERING

643. Environmental Physiology and Shelter Engineering XLIII. Energy Metabolism and Cardiorespiratory Activities in Shorthorn, Santa Gertrudis, and Braham Heifers During Growth at 50° and 80°F. Temperature.
645. Environmental Physiology and Shelter Engineering XLIV. Stable Heat and Moisture Dissipation with Beef Calves at Temperatures of 50° and 80°F.

646. Environmental Physiology and Shelter Engineering XLV. Comparison of the Effects of Environmental Temperatures on Rabbits and Cattle. Part 1-Influence of Constant Environmental Temperatures (50° and 80°F.) on the Growth Responses and Physiological Reactions of Rabbits and Cattle.
701. Environmental Physiology and Shelter Engineering L. Vaporization Rates and Heat Tolerance in Growing Shorthorn, Brahman, and Santa Gertrudis Calves Raised at Constant 50° and 80°F. Temperatures.
704. Environmental Physiology and Shelter Engineering LI. Effect of Constant Environmental Temperatures of 50° and 80°F. on Ovarian Activity of Brahman, Santa Gertrudis, and Shorthorn Calves With a Note on Physical Activity.
705. Environmental Physiology and Shelter Engineering LII. Effects on Constant Environmental Temperatures of 50° and 80°F. on the Growth Responses of Holstein, Brown Swiss, and Jersey Calves.

715. The Tractive Force Theory Applied to Stability of Open Channels in Cohesive Soils.
741. The Flow of Colloidal Suspensions Through Porous Media.
758. Comparison of Irrigation Systems for Alluvial Soils.
770. Environmental Physiology and Shelter Engineering LVII. Surface Area Determination of Beef and Dairy Calves During Growth at 50° and 80°F. Environmental Temperatures.
785. Environmental Physiology and Shelter Engineering LVIII. Metabolic Reactions During Thermal Stress (35° to 95°F.) in Dairy Animals Acclimated at 50° and 80°F.
786. Environmental Physiology and Shelter Engineering LIX. The Effects of Constant Environmental Temperatures 50° or 80°F. on the Feed and Water Consumption of Holstein, Brown Swiss and Jersey Calves.
791. Environmental Physiology and Shelter Engineering LXII. Effect of Various Temperature–Humidity Combinations on Milk Production of Holstein Cattle.

794. Environmental Physiology and Shelter Engineering LXIII. Effect of Humidity on Total Room Heat and Vapor Dissipation of Holstein Cows at 65°, 80° and 90°F.
795. Irrigation Practices and Costs in Southeastern Missouri–1960.
802. Environmental Physiology and Shelter Engineering LXIV. Physical Factors Affecting Thermal Insulation of Livestock Hair Coats.
808. Environmental Physiology and Shelter Engineering LXV. Influence of Radiant Heat Sink on Thermally-Induced Stress in Dairy Cattle.
817. Sealing Farm Ponds in Missouri.
837. Weather Analysis for Crop Drying.
851. A Hydrodynamic Analog Study of Grain Aeration Cooling.
855. Characteristics of Flow in Trapezoidal and Triangular Irrigation Furrows.
863. Hydrolic Investigations of the Burge Branch Watershed.
864. Resistance of Hay to Air Flow.
865. Environmental Physiology and Shelter Engineering LXVIII. Age and Temperature Effects on TDN, Water Consumption and Balance of Dairy Calves and Heifers Exposed to Environmental Temperatures of 35° to 95°F.
882. Limited Feeding of Finishing Swine.
892. Non-Linear Air Flow Patterns in Grain Drying Systems.
904. Relative Value of Certain Economic Traits and Blood Components as Selection Indices in Beef Cattle.
922. Effect of Erosion on Water Infiltration Rates.
926. Packaging and Handling Silage in Bags.
936. Evaluation of Spray Deposits from Low Volume Spray Nozzles.
939. Reservoir Sedimentation Survey Methods.

AGRONOMY

Field Crops

737. Rate-Of-Planting Studies with Prolific and Single-Ear Corn Hybrids.
769. Root Development and Lodging Resistance in Oats.
797. Nitrogen Fertilization of Soybeans.

847. Market Organization of Grain Industries in the North Central Region.
942. Fertilizing Hay and Pasture Crops in Missouri.

Soils

619. Soil Fertility and the Quality of Seeds.
623. Mineralogical Study of Lindley Soil in Missouri.
669. Excess Manganese Nutrition of Ornamental Plants.
671. Solar Energy—A Summary of Records at Columbia, Missouri.
696. Establishment and Management of Ladino Clover in Missouri.
765. The Soil—Its Broader Implications. Proceedings of the 1959 Soil Fertility and Plant Nutrition Short Course Presented in Recognition of Dr. William A. Albrecht.
787. Removal of Radioactive Fission Products From Surface Water Supplies.
797. Nitrogen Fertilization of Soybeans.
818. Forest Soil Areas of the Ozark Region in Missouri.
822. Background and Community Orientation of Rural Physicians Compared with Metropolitan Physicians in Missouri.
832. Relationship of Certain Blood Composition to Rate of Gain in Hereford Heifers.
920. Nitrate Accumulation in Vegetable Crops as Influenced by Soil Fertility Practices.

ANIMAL HUSBANDRY

611. Studies on the Microflora of Prepackaged Meats.
637. The Etiology of "Nitrate Poisoning" in Sheep.
652. St. Louis Consumers' Eating Preferences for Beef Loin Steaks.
672. Physical Composition of Swine During Growth and Fattening.
679. Nicotinic Acid, Lysine, Tryptophan, and Threonine as Supplements to High-Protein Corn.
693. Economic, Social and Government Problems Encountered in the Development of the Wappapello Flood Control Area in Missouri.
717. Etiology of Dark-Cutting Beef.
762. Leucocyte Numbers in Normal and Dwarf Beef Cattle Before and After Insulin Injections.
763. Studies on Calcium Requirements of Ewes.

764. Dwarfism in Beef Cattle and the Influence of Dwarfism Genes on Physiological Response to Hormone-Induced Stress.
775. The Leucocytic Responses of Swine to Stilbestrol and a Progesterone-Estradiol Combination.
783. Effect of Female Sex Hormones, Thyroxine and Vitamin B12 on Embryonic Mortality in Rats.
801. The Influence of the Thyroid Gland and Ambient Temperatures on Fertility of Rams.
823. Genetic and Environmental Factors Influencing the Weaning Weight of Beef Calves.
827. Studies of Factors Affecting Performance of Growing-Finishing Lambs.
831. Selection of Thinner Backfat in Swine.
834. Consumer Acceptance of Pork Chops.
838. Pork Consumption by Selected Socio-Economic Groups.
849. Effect of Salmonella Choleraesuis Infection on Immunity to Hog Cholera.
859. Seasonal Variation in Levels of Some Chemical and Hematological Components in the Blood of Hereford Cows.
867. Consumer Acceptance of Loin Steak from Young Bulls.
869. An Evaluation of the Roasteak Procedure and Modifications of the Procedure for Cooking Bottom Round of Beef.
870. Alteration of the Estrous Cycle of Swine with Exogenous Pituitary Gonadotrophins.

876. Measurements of Muscle and Retail Cuts of Lamb.
880. Factors Affecting Longissimus Dorsi and Subcutaneous Fat Measurements and Indices of Beef Carcass Cut-Out.
882. Limited Feeding of Finishing Swine.
904. Relative Value of Certain Economic Traits and Blood Components as Selection Indices in Beef Cattle.
927. Practical Tests with Authelminutics for Grazing Lambs.
928. Bovine Growth and Composition.
938. Changes in Free Amino Acid Levels in the Blood of Growing Swine as an Index to Protein Quality and Availability.

CLIMATOLOGY

771. Weather Variability and Economic Analysis.
836. Incidence of Drouth Conditions in Southeastern Missouri.

DAIRY

617. The Effect of Thyroxine on Thyroid Function.
622. The Thyroid Hormone Secretion Rate of Domestic Fowls as Determined by Radio-Iodine Techniques.
639. Influence of Temperature on Vitamin Levels in Bovine Blood.
643. Environmental Physiology and Shelter Engineering XLIII. Energy Metabolism and Cardiorespiratory Activities in Shorthorn, Santa Gertrudis, and Brahman During Growth at 50° and 80°F.
645. Environmental Physiology and Shelter Engineering XLIV. Stable Heat and Moisture Dissipation with Beef Calves at Temperatures of 50° and 80°F.
646. Environmental Physiology and Shelter Engineering XLV. Comparison of the Effects of Environmental Temperatures of Rabbits and Cattle. Part 1—Influence of Constant Environmental Temperatures (50° and 80°F.) on the Growth Responses and Physiological Reaction of Rabbits and Cattle.
648. Environmental Physiology and Shelter Engineering With Special Reference to Domestic Animals. XLVI. Comparison of the Effect of Environmental Temperature on Rabbits and Cattle. Part 2. Influence of Rising Environmental Temperature on the Physiological Reactions of Rabbits and Cattle.
650. Effect of Potassium Nitrate Intake on Lactating Dairy Cows.
683. Environmental Physiology and Shelter Engineering XLIX. Effects of Constant Environmental Temperatures of 50° and 80°F. on the Feed and Water Consumption of Brahman, Santa Gertrudis, and Shorthorn Calves During Growth.
690. Effect of Biological and Therapeutical Agents Upon Brucella Titers in Cattle.
697. The Experimental Induction of Growth of the Cow's Udder and the Initiation of Milk Secretion.

701. Environmental Physiology and Shelter Engineering L. Vaporization Rates and Heat Tolerance in Growing Shorthorn, Brahman and Santa Gertrudis Calves Raised at Constant 50° and 80°F. Temperature.

704. Environmental Physiology and Shelter Engineering LI. Effect of Constant Environmental Temperatures of 50° and 80°F. on Ovarian Activity of Brahman, Santa Gertrudis and Shorthorn Calves with a Note on Physical Activity.

705. Environmental Physiology and Shelter Engineering LII. Effects of Constant Environmental Temperatures of 50° and 80°F. on the Growth Responses of Holstein, Brown Swiss, and Jersey Calves.

727. Thyroxine Secretion Rate of Cattle Utilizing Radioactive Iodine (1^{131}) as a Tracer.

742. Survival of Bovine Spermatozoa in Media Containing a Lipoprotein Complex Isolated From Spermatozoa and Other Sources.

767. Metabolic Rate and Food Utilization as a Function of Body Size.

770. Environmental Physiology and Shelter Engineering LVII. Surface Area Determination of Beef and Dairy Calves During Growth at 50° and 80°F. Environmental Temperatures.

785. Environmental Physiology and Shelter Engineering LVIII. Metabolic Reactions During Thermal Stress (35° to 95°F.) in Dairy Animals Acclimated at 50° and 80°F.

786. Environmental Physiology and Shelter Engineering LIX. The Effects of Constant Environmental Temperatures of 50° and 80°F. on the Feed and Water Consumption of Holstein, Brown Swiss and Jersey Calves.

791. Environmental Physiology and Shelter Engineering LXII. Effect of Various Temperature-Humidity Combinations on Milk Production of Holstein Cattle.

794. Environmental Physiology and Shelter Engineering LXIII. Effect of Humidity on Total Room Heat and Vapor Dissipation of Holstein Cows at 65°, 80°, and 90°F.

802. Environmental Physiology and Shelter Engineering LXIV. Physical Factors Affecting Thermal Insulation of Livestock Hair Coats.

808. Environmental Physiology and Shelter Engineering LXV. Influence of Radiant Heat Sink on Thermally-Induced Stress in Dairy Cattle.
846. Environmental Physiology and Shelter Engineering LXVI. Temperature-Humidity Effects Including Influence of Acclimation in Feed and Water Consumption of Holstein Cattle.
862. Environmental Physiology and Shelter Engineering With Special Reference to Domestic Animals. LXVII. Thermal Effects of Various Temperature-Humidity Combinations on Holstein Cattle As Measured By Eight Physiological Responses.
893. Environmental Physiology and Shelter Engineering LXIX. Acclimation of Holstein Cattle to 84°F. (29°C) Temperature: Changes in Heat Producing and Heat Dissipating Functions.
902. Environmental Physiology and Shelter Engineering With Special Reference to Domestic Animals, LXX. Temperature and Controlled Feeding Effects on Lactation and Related Physiological Reactions of Cattle.
913. Environmental Physiology and Shelter Engineering with Special Reference to Domestic Animals, LXXI. Energetic Efficiency of Lactating Dairy Cows: Effects of Controlled and Ad Libitum Feeding at 18°C and 31°C Temperatures.
916. Environmental Physiology and Shelter Engineering LXXII. Heat and Acclimation Influences on Lactation of Holstein Cattle.
918. Low and High Moisture Silage Studies with Dairy Heifers.
924. Environmental Physiology and Shelter Engineering LXXIII. Methods for Use and Maintenance of Heifers.
932. Effect of Two Levels of Estradiol Benzoate on Reinitiation of Lactation in Dairy Cattle.

ENTOMOLOGY

726. Biology, Ecology, and Taxonomy of Insects Infesting Acorns.
757. The Biology and Control of the European Corn Borer in Missouri.
803. Soybean Insects and Related Arthropods in Missouri.
833. Nematode Research From 1956-1962 in Missouri.

903. Parasites and Predators of Grasshoppers in Missouri.

914. Persistence and Degradation of Dieldrin and Heptachlor in Soils and Effects on Plants.
934. Genus Culicoides in Central Missouri.

FORESTRY

640. Effects of Burning on Ozark Hardwood Timberlands.
744. Mechanism of Veneer Formation at the Cellular Level.
750. Pin Oak Acorn Production and Regeneration as Affected by Stand Density, Structure and Flooding.
824. A Method of Classifying Shortleaf Pine Sites in Missouri.
841. Growth-Quality Evaluation of Shortleaf Pine.
883. Trends in Forest Taxes in South Missouri.
912. Growth-Quality Evaluation of Black and Scarlet Oak Grown in Missouri.

HOME ECONOMICS

825. Shoulder Clod (beef cooking).
868. Effects of Freezing on a Modified Cream Pie Filling.

HORTICULTURE

698. Lindane Residue in the Fermentation and Processing of Pickles, Part II—Brinning and Curing of Cucumbers.
703. Lindane Residue in the Fermentation and Processing of Pickles, Part III—Pickle Flavor Changes Due to Lindane Residue.
756. The Missouri Vegetable and Strawberry Industry.
839. An Appraisal of Food Intake by Three Groups of Senior Citizens.
850. The Sugar-Acid Ratio of Selected Tomato Varieties.
908. Fruit Quality Attributes of 250 Foreign and Domestic Tomato Accessions.

POULTRY

634. Vitamins Required by the Chick.
747. Effect of Varying Day-length on Time of Oviposition in Domestic Fowl.
856. A Modified Monomolecular Film Test for Microquantities of Lipids in Foods.
875. An Economic Evaluation of Market Functions and the Evolution of Grade Standards for Table Eggs.

RURAL SOCIOLOGY

631. Social Structure and Diffusion of Farm Information.
B633. The Church in Rural Missouri, Part II–Rural Religious Groups.
C633. The Church in Rural Missouri, Part III–Clergymen in Rural Missouri.
D633. The Church in Rural Missouri, Part IV–Index of Religious Group Action.
E633. The Church in Rural Missouri, Part V–Rural-Urban Churches Compared.
F633. The Church in Rural Missouri, Part VI–Spatial and Social Relationships.
G633. The Church in Rural Missouri, Part VII–What Rural People Think of Church.
647. Extent of Illness and Use of Health Services in a South Missouri County.
653. Relationships of the Public to Physicians in a Rural Setting.
665. Rural Social Areas in Missouri.
699. Family Health Practices Among Open-Country People in a South Missouri County.
754. The Families–Their Physicians–Their Health Behavior in a Northwest Missouri County.
790. Selected Environmental Factors Associated With Farm and Farm Home Accidents in Missouri.
874. Information and Beliefs About Heart Disease Held by the Public in Five Areas of Missouri.
885. Comparative Characteristics of Inovators, Communicators, and Legitimators in Two Missouri Communities, Ozark and Prairie.
887. Migration in Missouri 1950-1960.
896. Role of the Local Public Health Nurse.

915. Community Leadership in a Rural Trade-Centered Community and Comparison of Methods of Identifying Leaders.
917. Distribution of Health Services in Missouri.
923. Educational Choices and Expectations of Male Students Entering a Midwestern University.
937. Occupational and Educational Plans of Male High School Seniors.
940. Communication and Use of Scientific Farm Information by Farmers in Two Taiwan Agricultural Villages.

2532 6571
