With the Editor

THE splendid turnout and prevailing spirit of loyalty which characterized the St. Joseph alumni meeting marked it as one of the most successful rallies of the past several years. The personnel of the program was in itself enough to gain goodwill for the University. It is noteworthy at this time, when the success of this northwest Missouri meeting is so evident, to comment on the wisdom of the Board of Directors of the General Alumni Association for its idea of an extension committee to promote such regional gatherings for the best interests of the University.

WE hope that many heard the New York Alumni radio broadcast over NBC. It came in over our radio as clearly as the local station programs. We have often thought that it must be difficult to arrange a program which would appeal to persons of different ages and living in various sections of the country. This broadcast from New York undoubtedly captured and held the attention of every listener.

REMEMBER those chapel exercises when we used to group together in the auditorium according to our division? Naturally we think that we got a lot out of college that the students of today do not get, but on second thought undergraduate life is as full and rich today, perhaps more so, than it has ever been before. Unsolicited advice is not only trite, but a frequent waste of words, so rather than encourage students to go to Convocation we will compliment those who do.

WE are sure that all Missouri alumni and former students throughout the land join us in extending greetings to Allen Mandevill Elston who celebrates his ninetieth birthday this Christmas Eve. Mr. Elston and Mr. Gardiner Lathrop of Chicago share the honor of being the oldest graduates of the University of Missouri, both being members of the class of 1867.

This is a fitting occasion to congratulate Mr. Elston on his years of service. The University is proud of having been an influence in the life of a man who was the able president of Hesperian College and later the pastor of the Berkeley Christian Church and who is now in after years enjoying the grace that comes to those who have served well. The best wishes of the season and of the day, Mr. Elston. May you continue in good health and happiness at your home in Berkeley, California.

We are happy over receiving cards from so many friends this season, and we regret there is not space enough in this column to repeat a few of the messages and list the names and addresses of our mutual friends.

To all a glad and Happy New Year—

ALUMNI MEETINGS

Over Sixty Attend D. C. Alumni Luncheon

"As soon as we were informed Dr. Frederick A. Middlebush, acting president of the University of Missouri, and Dr. F. B. Mumford, dean of the College of Agriculture, would meet with us we passed the word around among our Washington, D. C., Alumni, and the visiting alumni attending the Land Grant College. As a result we had more than sixty persons out to enjoy the luncheon and the messages from 'Old Missouri,'" writes Roy E. Miller, secretary of the Washington, D. C., Alumni in his report on the meeting of Nov. 21st.

Other speakers at the luncheon included Dean Ernest L. Anthony of Michigan Agricultural School; O. E. Reed, F. B. Scheetz, and President F. F. Espenschied, of the Washington Alumni, who presided.

It was pointed out by John B. Gordon that of the thirteen chiefs of Bureaus in the Department of Agriculture, Missouri University furnishes three: Dr. Louise Stanley, of Home Economics, O. E. Reed of the Dairy Bureau, and Frederic A. Richey recently named chief of the Bureau of Plant Industry.

It was a revelation to Washingtonians that at least thirty members of the College of Agriculture staff have been called to extra duties in service of the State and the Federal Government in land-use and related studies and administration.

Some of the alumni at the luncheon were so engrossed in the speeches that they did not notice the "register" when it passed their table. However, the following is a list of those not previously mentioned who registered:

Dean C. B. Hutchinson, U. of California College of Agriculture; Dean Paul Chapman of the Georgia Agricultural College; James S. Williams, Geological Survey; F. F. Hanley; Capt. Edgar A. Parman of the U. S. Army; W. W. Rubey; J. F. Rooker; Herman Hagg; Capt. Garland C. Black; T. F. "Rob" Robinson; J. F. Lutz; H. H. Krusekopf; Belmont Farley; J. M. Pohlman; Dr. H. F. Winterkorn; Dr. N. Stafford; Howard E. Golden; Dr. Charles R. L. Halley; David R. Scott.

Donald R. Dawson; E. R. Shade; Preston Richards, Bureau of Agricultural Economics; Richard Bradford; Franklin L. Davis; George M. Browning; R. M. Woodruff; Mrs. George B. Scheetz; Mrs. E. John Long; Craig L. Reddish; P. C. Alexander; J. C. Spotts, department of the Interior;

St. Louis Journalists Give Gridiron Banquet

At their fourth annual gridiron banquet Dec. 7 at the Elks Club the St. Louis alumni of the School of Journalism presented a series of skits entitled, "The Headaches of 1934", satirizing the news events and foibles of the year.

There were eighty-seven journalists in attendance at the banquet, at which Ed Staples, president of the association and member of the staff of the Globe-Democrat, presided. Associate Dean Frank L. Martin of the School of Journalism and Mrs. Martin were guests of honor. Dean Martin gave a brief address.

The sun room at the Beta Theta Pi fraternity at the University was dedicated Dec. 7 as a memorial to Rogers Crittenden, B.S. in Ag. '20, a former member from Kansas City who died in 1929.

Gov. Park Urges Loyalty to University

Gov. Guy B. Park in addressing fellow alumni and friends of the University assembled at the Northwest Missouri mixer at St. Joseph Dec. 7th said that Missourians should be as loyal to the flag of Missouri as to that of America and as loyal to the University as that of any other state institution.

The reorganization of the system of state institutions of higher learning which has been proposed by Gov. Park and which he will suggest at the next session of the legislature was discussed by him in his address. He would make the University the one great institution of the state with the five state normal schools as part of that University, all controlled by one governing body.

A Greater University

The governor brought a message from President Walter Williams of the University saying that President Williams favored a greater university, and Governor Park later made the statement that more funds had gone to the state school system in the last year than ever before.

The governor had been introduced by Mrs. G. L. Zwick, of St. Joseph, member of the Board of Curators, who asked the people interested in the University to make any suggestions they wished in connection with the school.

Mrs. Park accompanied the governor.

Ray E. Miller, secretary-manager of the Illinois Livestock Marketing Association, was in charge of plans for the breakfast. Homer Croy Announced N. Y. Alumni Broadcast

Alumni and former students throughout the country have written in telling us how much they enjoyed the University of Missouri Radio Dinner Dance broadcast under the auspices of the New York Alumni Association with Homer Croy, one of the country's best novelists and scenario writers, acting as master of ceremonies.

This broadcast featured Missouri's own Jane Froman, beautiful soloist of the Ziegfeld Follies and sensational NBC entertainer; Martha Mears, petite NBC singing star; and Robert Simmons, the Missouri tenor who is featured on the Cities Service hour. These entertainers were introduced Dec. 5th, 11:30 to midnight over NBC-WJC network. The arrangements for the broadcast were made through Barry T. Holloway, a former student.

The party, of which the broadcast was a part, was the first feature program of that kind ever attempted on such a scale by an alumni organization. The alumni, former students, and friends of the University throughout the land, who heard the program as well as the 135 persons who attended the dinner party are grateful to Volney McFadden and Judson S. Corbin, president and secretary respectively of The New York Alumni Association for providing fine entertainment and spreading good will for the University.

St. Louis Alumnae Have Annual Christmas Party

The University alumnae in St. Louis held their Christmas meeting at the College Club, Dec. 13th. Mrs. J. L. Orten, Mrs. P. E. Briscoe, and Mrs. Charles Long presented a most enjoyable program. Delightful refreshments were served following the program.

The next meeting will be a downtown luncheon in February. All alumnae and friends of the University are cordially invited to attend the group meetings. Mrs. E. L. Ocker is secretary of the association.

Honors Dr. Marbut

Dr. Curtis F. Marbut, B.S. '89, LL.B. '16, was honored at a banquet and presented with a gold watch by the members of the Bureau of Chemistry and Soils and by the Professors and Research members of Land Grant Colleges at the Wardman Park Hotel in Washington, D. C., Nov. 20th.

Dr. Marbut recently retired as Chief of the Division of Soil Survey in the Bureau of Chemistry and Soil Department of Agriculture to return to the University of Missouri faculty as professor emeritus.

nor to St. Joseph, where they were the guests of Judge and Mrs. G. L. Zwick.

Alumni President

Sam T. Utz, president of the St. Joseph alumni association, presided at the meeting and introduced Richmond C. Coburn, president of the General Alumni Association, who advocated the establishment of a coaching school in the college of education pointing out that other universities and normal schools already have added such courses. He explained the setup of the committee on intercollegiate athletics at the university and the advisory committee on athletics.

R. L. Hill, director of alumni activities, defended the boys and girls of today for their honest and above-board actions in his address to alumni, former students and friends of the university who were assembled that evening at Central High School auditorium.

The Cameron High School Band which is directed by Ivan Roberts and composed of over a hundred members is considered one of the best bands of its kind in this section of the country furnished music worthy of their reputation. They gave so much color and zest to the program that Gov. Park named them the honorary official band of the state. Fifty or more Cameron residents accompanied the band to the rally.

After the speeches which followed the half an hour band concert the crowd adjourned to the High School Cafeteria where refreshments were served.

The following is a list of those to whom is due much of the success of the rally: Sam T. Utz, Kenyon Ballard, Orestes Mitchell, Jr., Carl Goetz, Ed Wilkinson, Harry Broadhead, Miss Calla E. Varner, Fred E. Vandersloot, A. L. Dailey, Ezra Harrison, W. S. Aldrich, Dr. J. C. Whittsell, Dr. G. W. Sherman, Carl Gross, and Leonard Hossman.

Utz, president; Orestes Mitchell, Jr., Nancy Broadhead, vice-presidents; Leah Spratt, secretary; Conger Beasley, treasurer. Mr. Coburn and Mr. Hill spoke at the Benton High School of which Fred E. Vandersloot, an alumnus, is principal; the Central High School of which Miss Calla E. Varner, an alumnae, is principal; and the Lafayette High School of which Arthur L. Dailey, also a graduate of the University, is principal.

At noon Mr. Hill spoke at the Rotary Club at which there was a special table for alumni of the University. Later Mr. Coburn and Mr. Hill were guests of Carl Goetz, A.B. '31, who took them on an inspection tour of the brewing plant. They were also guests at the Benton Club of Harry Broadhead, an alumnus.

MANY ALUMNI PARTICIPATE IN FULL HOMECOMING PROGRAM

Tigers Lose to Jayhawks

ALUMNI from all sections of the country came to Columbia on Homecoming day to take part in the full program. The Governor, Guy B. Park, came over to visit his alma mater from his mansion in Jefferson City, the Class of 1909 and the famous football team of that year were constantly in the spotlight, the "M" Men held one of their largest gatherings to date, delegations of outstanding alumni were on hand from all parts of the country, and among those of recent vintage was Jane Froman, of national radio fame. The attendance at the game of 10,000 was the biggest crowd of the year—but at that it was a disappointment for the Missouri-Kansas Classic. A drizzling rain handicapped the lighter Missouri team. Unquestionably Kansas has a more finished and powerful eleven and they deserved the 20 to 0 victory.

At the half the Homecoming prizes were presented. Lakenan Price, Columbia, the first alumnus to register, received an Eversharp pen donated by the Coffman Jewelry Store.

John B. Gordon, who registered from Alexandria, Virginia, won a traveling bag offered by Barth Clothing Company to the Alumnus coming the greatest distance.

Mrs. J. B. Hanson of Cleveland, Ohio, was awarded a purse from Greenspon's for being the alumna coming the greatest distance.

The pennant offered by the Missouri Store for the first out-of-state graduate to register was presented to C. C. McCollum of Pawnee, Okla.

D. Lee Shawhan, sixty-five years old, Lees Summit, was over early Homecoming morning to register and successfully nominate himself for the prize of being the oldest alumnus to register. He was twice-captain of the Tiger eleven in the days when teams did not take time out and substitutions were rarities.

Aubrey Alexander, who drove up from Ft. Worth, Texas, was the first member of the 1909 football team to register and consequently won the football used in the first half of the Homecoming game.

The trophy for the best decorated sorority house was taken home to the mantle of Kappa Kappa Gamma, and the fraternity award for the house decorations was presented to Sigma Nu.

The honor of Miss Mizzou went to Miss Jean Lightfoot, a member of Pi Beta Phi. She was given a large silver loving cup.

In honor of Coach William Roper, K. P. Gilchrist, J. R. Bluck and Jimmie Shuck, the coach and deceased members of the undefeated team of 1909, and of Tommy Johnson, the great player of all time for the University of Kansas, the spectators bowed their heads for several moments as taps were sounded.

1909 ACTIVITIES

Rain or shine it was a grand day for the 1909ers when they assembled again

after a quarter of a century's absence. On Homecoming morning after their business meeting and election of officers, they had their pictures taken at the Columns and were then received for a brief visit at the home of President Walter Williams.

The class as they journeyed through Jesse Hall and about the campus were led by John W. MacLeod, now of Kansas City, who wore his Scotch costume and played a bagpipe. He served in Egypt and South Africa with the 79th Cameron Highlanders.

The morning activities concluded with the planting of an elm tree from Monticello close to the Jefferson monument on the campus, and the planting of ivy from Mt. Vernon, at the Memorial Tower.

BANQUET

One hundred and sixty people gathered Thanksgiving eve at the Tiger Hotel to celebrate the silver anniversary of the class of 1909. Dr. F. A. Middlebush, acting president of the University, and Lloyd Hanley, Homecoming chairman, extended official greetings to reunion guests.

John Gordon, chairman of the class, presided, and introduced Richmond C.

Coburn, president of the General Alumni Association; Carl Ristine, captain of the 1909 team and now assistant attorney general of the United States; Louis V. Stigall, student body president in 1909, now Chief Counsel, Highway Commission, Jefferson City; and W. F. Woodruff, an attorney of Kansas City who represented the class.

ROPER TEAM

The members of the famous Roper Team of 1909 were introduced individually. See page 9 in this issue for their group picture. Dr. James A. Gibson, now with Coffeerville Kansas Chamber of Commerce, and Dr. Isadore Anderson, Kansas City physician, who were on the coaching staff twenty-five years ago were also introduced.

On this occasion, which was the largest reunion banquet in years, the class had as special guests the members of the Board of Curators and the members of the Board of Visitors who were in Columbia attending their respective meetings. The Curators present were: Senator F. M. McDavid, president of the Board; H. W. Lennox, H. J. Blanton, A. A. Speer, Mercer Arnold, Charles F. Ward, and George C. Willson.

Those members of the Board of Visitors who were in attendance were: Charles Baird, chairman; William P. Brinkley, John F. Case, and Charles E. Prettyman, Jr.

For the first time the "M" men's Club entertained their returning members at their club rooms in Rothwell Gymnasium with a buffet luncheon on Homecoming morning. The attendance at this luncheon (Continued on page 6)

cheon exceeded 150 guests and was the largest "M" Men's Homecoming gathering in the history of the club. That organization maintains exclusive club rooms, well equipped with reading matter and a radio.

School of Medicine

Dean Dudley S. Conley of the School of Medicine told the alumni at their annual meeting of the progress of the school and spoke particularly of the inauguration of the ten-year reunion of each retiring sophomore class. Harvey Jennett, Kansas City; Dr. and Mrs. J. S. Knight, Kansas City; Dr. and Mrs. Frank G. Mays, Washington.

After the routine business had been transacted at the general meeting different alumni were called on who gave interesting and enthusiastic talks. Dr. Ralph K. Wilson of Kansas City reported on the activities of the Executive Committee of the General Alumni Association.

The most outstanding social events of the Medical Homecoming were the luncheon given by Dean and Mrs. Dudley S. Conley to the returning members of the Class of 1924, and the tea honoring the same group at the home of Dr. and Mrs. C. R. Bruner after the homecoming game.

Dr. Louis O. Kunkel, pathologist, of Rockefeller Institute for Medical Research, Princeton, N. J., was chosen to serve as president of the class of 1909 until their golden anniversary in 1959. Patterson Bain, Jr., of Columbia was elected secretary-treasurer and Lakanan Price, also of Columbia, was named historian.

The following vice-presidents were elected from their divisions: Agriculture, Turner R. H. The Board of Curators of the University of Missouri has asked Dr. Walter Williams to continue as president of the University until April 1 of next year, and "indefinitely if possible."

INTERESTING PEOPLE . . .

. . . Among Missouri Alumni

ELMER VERNE ELLINGTON, B.S. in Ag., 1910, QEBH, Farm House, Beta Theta Pi (Idaho), has been promoted to the position of vice dean and assistant director of the College of Agriculture, Washington State College at Pullman.

According to the current issue of *Who's Who in America*, Mr. Ellington, born in Peru, Missouri, in 1888, became Extension Specialist at the University of Idaho in 1910. In 1916 he relinquished his duties as professor of Dairying at the Experiment Station to become assistant in charge of the dairy extension for the U. S. Department of Agriculture at the Nation's capital. Twelve years ago he returned to the West Coast as head of the department of dairy husbandry at Washington State College.

Mr. Ellington, who is the author of numerous scientific papers and pamphlets, has maintained his role as a progressive citizen. Among his many activities he has served as the president of the Pullman Chamber of Commerce. Commenting on his recent promotion is the following quotation from a Pullman newspaper editorial column: "He is the kind of man who does well and thoroughly whatever he undertakes, as has been demonstrated many times by the way he has handled civic projects in the community."

Mrs. Ellington was formerly Miss Ruth W. Broman of Moscow, Idaho. They have a daughter, Lois Elizabeth Ellington.

LOUIS OTTO KUNKEL, B.S. in Ed. '09, A.B. '10, A.M. '11, Phi Beta Kappa, is a member of the Rockefeller Institute for Medical Research and is in charge of the division of plant pathology located at Princeton, New Jersey. The work which he supervises is devoted entirely to the study of diseases of plants.

Dr. Kunkel, a native of Mexico, Missouri, received his Ph.D. degree from Columbia University and studied at the University of Freiburg in Germany before assuming duties as pathologist for the United States Department of Agriculture. Then from 1920 to 1923 he was associate pathologist at the experiment station of the Hawaiian Sugar Planters Association in Honolulu. On his return to the States he accepted a position with the Boyce Thompson Institute for Plant Research, Yonkers, N. Y.

He was named permanent president of the class of 1909, which held their silver anniversary this Homecoming.

Dr. Kunkel married Miss Johanna C. Wortmann in the fall of 1915. They have four children; Henry Kunkel, Otto Kunkel, and twins, Walter R. and Paul S. Kunkel.

Mr. Brandt and Mr. Ross are native Missourians, members of Sigma Chi, Sigma Delta Chi, and both served on the *Savitar* staff in their undergraduate days. The former was a student under Mr. Ross when he was a member of the faculty of the School of Journalism.

Mr. Brandt's career with the *St. Louis Post-Dispatch* began in the summers of 1917 and 1918. In 1918 he enlisted in the army, serving with the Thirty-ninth Field Artillery as a second lieutenant. The following year he received a Rhodes Scholarship. He was a student at Lincoln College and in 1922 received his B.A. degree from Oxford University.

While his Oxford vacation in 1920 he joined the American Relief Administration at Vienna, and two years later was district supervisor for that administration, stationed at Vitebsk, White Russia. This sojourn in Russia prompted the *Post-Dispatch* in 1930 to send Mr. Brandt to the Soviet Union to write about the great socialistic experiment. The next year he revisited the U. S. S. R. for the *Post-Dispatch* to get material for a series of 38 articles, titled "Russia in Transition."

Mr. Brandt, who is recognized for his journalistic insight into national and international affairs, is a past president of the National Press Club.

He married Miss Adele Harrison in the fall of 1926.

General Alumni Board Favors Committee Plan

The President of the General Alumni Association, Richmond C. Coburn, presided at the annual Homecoming meeting of the Board of Directors and suggested the appointment of three special committees to work for the welfare of the University in regard to The Missouri Alumnus Magazine, The Alumni Fund, and an extension project. The board authorized the appointment of these committees.

The Magazine Committee will make suggestions for the improvement of the publication and its service to the alumni as well as plans to stimulate circulation.

The Alumni Fund Committee will assist in formulating policies regarding this particular fund and will supervise plans for a more substantial endowment, which is of special importance in view of the approaching centennial of the University.

It will be the work of the Extension Committee to maintain contacts with alumni and friends of the University, to sponsor regional meetings for the best interest of the University and to formulate and supervise similar projects.

President Coburn announced the appointment of Col. A. M. Hitch and Dr. Ralph K. Watkins to membership on the Executive Committee of the Alumni Association. The President of the Association, Mr. Coburn, and the Director of Alumni Activities, R. L. Hill, are also

Astronomical Discoveries

The discoveries of 1,700 new variable stars, each a new "yardstick" for fathoming the depths of space; a remarkable new twin star, with an eclipse lasting thirty days, observed for the first time last month, and bringing up to a total of 125,000 of the census of the faint nebulae, each composed of billions of suns bigger and brighter than our sun, were reported on November 20 as the latest discoveries of Dr. Harlow Shapley, A.B. '10, A.M. '11, LL.D. '27, director of the Harvard Observatory, in a talk given by Dr. Shapley before the autumn meeting of the National Academy of Science at Cleveland, Ohio.

The "M" Men's Club has been presented with a large framed picture of a Bengal Tiger for their club rooms in Rothwell Gym. The donor is none other than the ardent Tiger fan, Col. Walter Robertson, of Moberly.

All Conference Basketball Schedule

This month the Tigers begin an interesting cage season and schedule. The Big Six schools are trying out a new arrangement whereby every game will be a conference championship match. In this new round of play Missouri will play eight of her sixteen games on the home court.

Coach George Edwards, himself a former Tiger star and captain, directed the Missouri team to a second place tie last season. They lost the championship tie being defeated in the final game with Kansas.

In all-time Big Six ratings Missouri places second to Kansas. Edwards doesn't have much to say about Missouri's chances to produce a championship team this year, but he does admit the Tigers have an outside chance.

"Look at Kansas," Edwards said, "They were the champions last year and the Jayhawkers have lost only one man of that championship team. Dr. Allen has a splendid opportunity to turn out another championship team this season.

"Then there's Oklahoma. The Sooners will be just as strong this year as they were last season. And there's Nebraska. The Cornhuskers are the dark horse of the Big Six race.

"Of course, Missouri has a chance. We'll be in there fighting. But the competition is going to be plenty tough."

Rhynsburger Has Lead In "Abraham Lincoln"

"Abraham Lincoln" should be one of the Workshop's outstanding productions of the year, having Don Rhynsburger in the lead supported by a cast of thirty-five men and seven women. Harold Koppel is now busy designing the many sets needed for this Drinkwater production.

"Ten Minute Alibi" obviously poked fun at the melodrama, but the good theatre of Anthony and Amstrong was realized by sincere interpretation of the parts. David Skeer stole the show in his minor role. Harold Koppel built a modernistic set that brought spontaneous applause from the audience on the curtain rise. This second major production with its small cast and simple technicalities was staged after less than three weeks' rehearsing.

Immediately after Christmas vacation, Bown Adams will present "Odd Idea", which has been in rehearsals for the past several weeks.

Arts and Science Week

Arts and Science Week at the University, Dec. 4-8, was climaxed with the joint participation of Phi Beta Kappa and the Missouri Academy of Science at the Arts and Science Dinner. Prof. A. L. Hughes of Washington University made the principal address of the evening, "The New Physics".

This is the first time the Missouri Academy of Science and its affiliated organizations have been able to meet as a part of Arts and Science Week.

Phi Beta Kappas

Five seniors and five juniors were chosen to membership in the oldest Greek-letter society, Phi Beta Kappa. The seniors who gained the coveted key are Cornelia Ellis, William Alfred Harvey, Margaret Moody, Elbert Hubbard Green and Lester Silbernagel.

The junior five of Phi Beta Kappa are Florence Kaufman, Robert Manley Ochs, Betty Johnson, Charles Edward Boykin, Jr., and Jerome Jesse McCullough.

Mahan Poetry Winners

Peggy Carol Elsea and Vernon Louis Meyer, journalism students, tied for first place in the fifth annual Mahan Poetry Contest. Jetta Carleton took third place and the following received honorable mention: Mary Frances Owsley, William R. Higginbotham, Stella B. Durham, Selma R. Osterman, May Helen Hirshfield, Zelma B. Whiteside, Joseph F. Jacobucci. There were 247 poems submitted in this year's contest.

Phi Mu sorority won the W. S. G. A. Doll Show with a miniature scene made of candy illustrating the fairy story, "Hansel and Gretel". Alpha Phi, Tri Delta, and Theta placed second, third and fourth.

Howard Harness recently won the Alpha Zeta award for 1933-'34 which is given the highest ranking freshman in the College of Agriculture. He was salutatorian of the Bowling Green High School graduating class of 1933.

What is the oldest building on the campus, and when was the cornerstone laid?

What world famous poet attended the University?

What favorite juvenile poem was written by him when he was a student?

What is the derivation of the word MISSOURI?

What does it mean?

Had you ever wondered just what is in a cornerstone? Sometimes cornerstones are as stuffed as a school boy's pockets, and in some incidences the collection is as heterogeneous.

Back in 1871 the cornerstone of the "New Scientific Building," now Switzer Hall, was laid. Incased were the usual contemporary newspapers, coins, The American Flag, the University Catalog, to say nothing of one box of 888 pills, one bottle of Stimulating Cream and a box of Tasteless Worm Powders.

Two brothers had ridden horseback to Columbia from St. Joseph to attend the University. That was more than sixty years ago. At the end of the school year their landlady, Mrs. Powers, permitted them to store their belongings in the attic of her home, "Just put them any place except in that corner," she said as she pointed to a pile of old toys which she told the boys not to disturb. Then she added, "They belonged to my little boy who died a few years ago."

After the boys returned to their room one of them sat at a table and began writing:

"The little toy dog is covered with dust,
But sturdy and staunch he stands;
And the little toy soldier is red with rust,
And his musket moulds in his hands."

When Eugene Field had finished his poem which he called, "Little Boy Blue," he read it to his brother, Roosevelt.

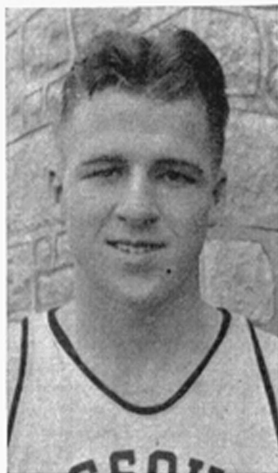

Both the brothers are dead. The rooming house which stood on the lot across from the Business and Public Administration School on Ninth Street has burned. Today thousands and thousands of men and women recite their favorite juvenile poem, "Little Boy Blue," to their children.

The word Missouri is of Indian derivation and is said to mean, "the town of large canoes," and came into the English language by way of the translation of French explorers.

Dr. J. Brewster Berry, professor of sociology and director of the Anthropological collation at the University, in speaking of the *Missouri* Indian says that important and interesting things were happening here when Alexander the Great was marching through Asia, and when Moses was leading the Hebrews out of the Wilderness.

All the early explorers testify to the strength, courage and the keen sense of humor of the *Missouri*. One one occasion a French trader found the *Missouri* well supplied with gun powder and unwilling to trade for their furs. "They were curious, however, about gunpowder, and the Frenchman, seeing his opportunity, explained that gunpowder was planted and cultivated just as were the other products. The *Missouri*

Appointed Commissioner

Walter H. Bohling, LL.B. '10, Sedalia, was sworn into office as supreme court commissioner Nov. 20th to fill an unexpired term which ends April 1935. In 1923 he returned to Sedalia from New York where he was assistant editor of *Corpus Juris*, an American legal encyclopedia, and became associated in the practice of law with his father, the late John D. Bohling. In 1928 he was elected prosecuting attorney of Pettis County. As chairman of the County Democratic Central Committee he conducted the county campaigns in 1928 and 1930.

Fellowship to Yale

Dr. Robert V. Boucher, A.B. '27, A.M. '29, former instructor in Agricultural chemistry at the University, has gone to New Haven, Conn., to accept a fellowship at Yale University under a grant of the American Research Council and will carry on advanced studies for a year in physiological chemistry. Mrs. Boucher, formerly Miss Ruth Beryl Baker, graduated from the University in 1925.

Dr. William Allen Hensley, A.B., Ph.D., has taken a position in the experimental laboratory of the Western Cartridge Company in Alton, Illinois.

accordingly, scattered their gunpowder in their fields, and were forced to trade for more. Before long they concluded that they had been deceived, and they determined to have revenge upon the next trader who visited them. Soon another Frenchman arrived, but the *Missouri* helped themselves to his wares, and refused to pay. The trader took his complaints to the chief, who is reported to have said: "You shall receive justice. If you will only wait for the gunpowder harvest, I shall declare a great hunt; and every skin that is taken shall be yours."

Home Economics
Alumnae Employed

There are only thirteen out of 603 known living graduates of the economics department of the University who are without employment. In a recent survey covering the graduating classes of the last eight years it is shown that seventy-eight are teaching in public schools, 176 are employed in professions for which home economics has equipped them, and ninety-six are married.

Fifteen graduates who majored in home economics now have teaching positions in the public schools of Missouri. Frances Urban in Aurora; Margaret Houchins in Houston; Marion Edgar in Keytesville; Letha Knight in Vandalia; Mary Sharp Harrison in Eldon; Marjorie Banks in Wellsville; Irma Blackmore in Hamilton; Clara Brown in Memphis; Helen Manley in Ava; Mrs. Ruth Miller in Kirkwood; Mary Catherine Sears in Tarkio. Anita Dickson in Tusculumbia; Deva Montgomery in Gideon; Anna May Smith in Cooter; and Mary Wellman in Richland.

M. U. Horticulturists
Head Departments

According to T. J. Talbert, B.S. in Ag. '13, A.M. '17, chairman of the horticulture department of the University, there are five other M. U. graduates who head horticulture departments in outstanding colleges.

The others are as follows: Earl Overholser, B.S. '13, now at Washington State College, Pullman, Wash.; W. L. Howard, B.S. '01, M.S. '03, now vice-dean and director of the experiment station, as well as the head of the pomology department at the University of Southern California, Los Angeles; A. J. Heinicke, B.S. '13, A.M. '14, now at Cornell University, Ithica, N. Y.; C. C. Wiggins, B.S. '12, A.M. '13, and Ph.D. '18, now at the University of Nebraska, Lincoln, Neb.; and Richard V. Lott, B.S. '25 A.M. '26, now head of the department at Mississippi State College. All of these schools are noted throughout the country for their progress in horticultural education.

Ten of the 1933-1934 graduates of the College of Agriculture who specialized in horticulture have positions with the Missouri State Relief and Reconstruction Work in Home and Municipal Gardening. Those graduates who are organizing the districts and the counties for garden and truck crop relief are Armstrong Talbert, V. W. Embrey, E. J. Gillihaus, Aubrey Hibbard, Lisle Jeffrey, William Harrison, A. C. Northrup, W. L. Tayloe, Eugene Brasher, and Earl Allen.

Dr. Charles W. Greene and Dr. Robert W. Siddle, both of the faculty of the School of Medicine, were guests speakers at the Pettis County Medical Society meeting, Nov. 5th, in Sedalia.

Dr. Dora Louise Cockrell, former student in the University Graduate School, has been appointed director of the program of parent-education in the Fort Worth public schools.

GOSSIP FROM THE CLASSES

1898

LIEUT.-GOVERNOR FRANK G. HARRIS, LL.B. '98, was initiated in Mystical Seven as an honorary member at their annual Homecoming Banquet.

1904

"Trust Department Policies as Seen by the Bank President" was the title of the address given by TOM K. SMITH, AB. '04, president of The Boatman's National Bank of St. Louis, at the Annual Meeting of the American Bankers Association at Washington, D. C., on Oct. 23rd.

1908

Several weeks ago we met DR. CLAUDE B. HUTCHINSON, president of last year's reuniting class of 1908. He had been to Washington, D. C., to attend a meeting and was then en route to Chillicothe to spend Thanksgiving with his parents, before returning to his post as Dean of the College of Agriculture at the University of California.

1909

JOHN GORDON, B.S. in Ag. '09, visited in Columbia during Thanksgiving to preside as chairman of the class reunion, and is now continuing his trip around-the-world.

MISS MARY FRANCES FORD, of the Class of 1909 won the prize for submitting the best Homecoming song for her class.

On Homecoming morning JUDGE GEORGE S. STARRETT of Columbia arrived almost a half hour late to the meeting of the class of 1909. He slipped into the room and took a place on the front row. Classmate ANGELLO SCOTT, who was unmarried, of Kansas City, was speaking—

"It is said that married men live longer than bachelors. One married man made the

remark that it wasn't that they lived longer, but that it just seemed longer."

JOHN GORDON introduced the next speaker, A. F. PORZELIUS of Chattanooga, Tenn., who told his classmates that he was a bachelor, "wasn't able to make a sale."

Then the chairman turned to Judge Starret and asked him for a few words.

"I wonder if I have come to the right room. I am a happily married man, I thought I was attending a meeting of the class of 1909. I am sorry I have no confessions to make . . ."

1911

To quote an editorial from the San Jose News, California, November 2—

"San Jose came near losing one of its best citizens during the past week. It is good to know, however, that he will remain a resident of San Jose. Jim Dunn—one of our most beloved and best citizens and who for the past 12 years has been general manager as well as secretary and treasurer of the Canelo Motor Company, has disposed of his interest in that company and has purchased outright the Ford agency in Santa Clara from R. Pahl and Company. The Ford company tried to persuade him to take a large agency elsewhere, but he couldn't entertain the thought of leaving Santa Clara County."

JAMES DUNN graduated in C.E. in 1911.

1915

DAVID E. HUDSON, A.B. '15, has been appointed special assistant to the attorney general of the United States. He is a member of the John W. Davis law firm in New York City.

JAMES S. TIPPETT, B.S. in Ed. '15, is now living in Greenville, S. C.

1916

This is FRANCES DORIS STEVENSON, age 12 years old, and her brother, HARLAN QUINN STEVENSON who is five years younger. It won't be many years before we'll be looking for them to enroll in the freshman class. They are the son and daughter of MR. and MRS. W. H. STEVENSON, of "Glen Afton Farm," Midvale, Franklin County, Pennsylvania. Mrs. Stevenson was formerly Miss E. Roberta Quinn, A.B. '09. Stevenson, B.S. in Ag. '16, came to the University after attending Pennsylvania State College.

1920

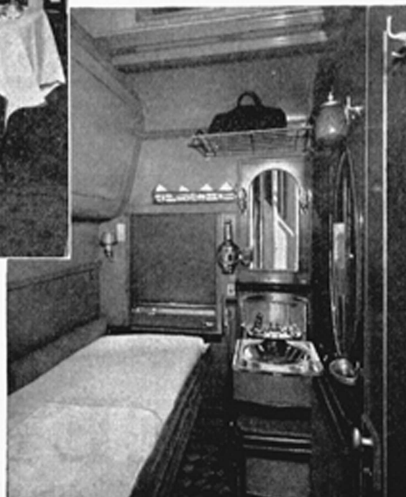

JOHN W. HUDSON, A.B. '20, has announced the formation of a new law partnership with Hon. J. L. "Tuck" Milligan, former student, under the firm name of Milligan and Hudson, with offices at 616-17-18 Commerce Bldg., Kansas City.

This picture of health is the likeness of JEAN FRANCES and her twin brother, HARRY CLAXTON McCRAY, JR., who celebrated their first birthday October 25th. Their father, a former student, is with H. B. McCray Lumber Company in Kansas City. Mrs. McCray (Jeanette Asbury) graduated in Education in 1924.

EDWARD G. ENGLISH, B.S. in Eng. '25, son of Col. George H. English, is in Seattle Washington, with the Bethlehem Steel Corporation.

MR. and MRS. DUNCAN WALL, graduates of the School of Journalism '25, visited in Columbia on their way home from a business trip to Washington, D. C. Wall is working with the cotton section of the A.A.A.

1926

This January JACK ENGLISH, A.B. '26, and his bride will sail for Calcutta, India, where he is with the Standard Oil Company. Jack gets a six month's vacation every three years. If you take a glance at the world globe you'll see that a trip from Calcutta to Kansas City would absorb most of anyone's vacation, but Jack saved over two weeks by taking a Royal Dutch Air Mail Plane from Calcutta to Paris, a three weeks trip made in five days. At Karachu in Northwest India O. W. Bond, A.B. '22, also with Standard Oil Company, was at the airport for a short visit.

We received an interesting letter from LAURA FRANCES COTTINGHAM, B.S. in Ed. '26, who is with the Canadian Academy, Kobe, Japan. She gives some graphic impressions of the typhoon which killed over 2500 Japanese in and near Osaka.

The people in the region of Kobe were in grave danger and many of them saw their homes washed away by tidal waves which swept away the protective sea walls made of stone two to three feet thick and towering over twenty feet high.

"If the real blow of the wind had struck near Kobe any earlier than shortly after seven in the morning, the death toll among foreigners would have indeed been great. As it happened people were up and able to get to the hills just in time. The reason for the loss of only one foreigner (who was on a week's yatching cruise) is because very few live in Osaka. They work there but commute from Kobe and nearby foreign settlements on the Island Sea."

1927

FIRST LIEUT. CHARLES A. ROSE, JR., graduate of the B. & P. A. School '27, has received the Army and Navy Journal Medal for being the most outstanding C. C. C. officer in the Seventh Corps area. He has been stationed at Roaring River Park since Dec. 15th, 1933.

ENJOY

A Winter VACATION in MEXICO

MEXICO, right across our southern frontier, has all the requisites for as glorious a vacation as can be found anywhere: a perfect, springtime climate . . . scenery that is inspiring, ever-changing . . . a native life that is colorful. . . fascinating old customs and ceremonies . . . beautiful handicraft and art . . . ancient pyramids and ruins to entrance alike the student and the "sightseer" . . . a treasure box of a country, foreign and yet so near . . .

SIX SPECIAL ESCORTED TOURS OF MEXICO will leave from Chicago on December 21, January 4 and 18, February 1 and 15 and March 1 and 15 respectively. The tours are of 14 days' duration, and include the most interesting places and most worthwhile sight-seeing trips:

Monterrey, Mexico City (where 7 days will be spent in the capital and its environs). Cuernavaca, Taxco, Puebla, San Juan Teotihuacan, Guadalajara, El Paso and Juarez.

AN EXPERIENCED DIRECTOR, familiar with the territory, language, history and background of Mexico, will accompany the tour groups. The long experience of the American Express Company in the field of Mexican travel has gone into the planning of every detail of these Escorted Tours as well as the

INDEPENDENT, PRE-ARRANGED "CIRCLE TOURS" OF MEXICO, of 11 days' duration, which can be arranged for departure any day this winter. There are four tours and eleven different combinations of routes to choose from.

MEXICO FOR YOUR WINTER HOLIDAY is a wise choice this year. In addition to all its attractions, the monetary exchange rates are at present very favorable to travelers from the United States. The prices of the escorted and the independent, all-expense tours are consequently moderate.

Send for literature giving complete details, signifying your interest in the ESCORTED or INDEPENDENT Tours.

As one of their candidates for Savitar Queen
the Kappa Alpha Thetas have named ANN
TUCKER of Fort Smith, Ark. Her father
is T. J. Tucker, a former student.

PAUL VAN OSDOL, Jr., Phi Delta Theta,
was elected president of the Hope O'Tomorrow
Club on Nov. 21st. His name will sound
familiar to his father's classmates of the law
class of 1912. Paul Van Osdol, Sr., is prac-
ticing law in Brookfield.

As vice-president the group chose DORO-
THY LA RUE, Tri Delta. Her father (H.
A. LaRue, B.S. in C.E. '07, C.E. '09) is on
the faculty of the School of Engineering. Her
mother was formerly Mabel Moore, A.B. '14.
Dorothy's brother, Wallace, A.B. '31, is in the
law school. So all the members of her im-
mediate family attended the University except-
ing a younger sister who will enroll within the
next couple years.

ROBERT CASE, a Sigma Chi, was elected
secretary. His father, Clarence T. Case, is
practicing law in St. Louis.

CLARA CURRY ABINGTON is the newly
elected treasurer, is a member of Pi Beta Phi
and is from Poplar Bluff. Her father was
the late Carl C. Abington.

The University has every reason to be proud
of the Hope O'Tomorrow Club with its 224
members. Think what a representation it is
of alumni and former students who are send-
ing their children to Missouri. Just as a
cross-section take the sons and daughters of
the Class of 1909—

Spencer G. Dakan, Seattle, Washington, son
of Carl S. Dakan; Ethel Jean Davis, Dillon,
Montana, daughter of S. E. Davis; Richard
Gildehaus, Clayton, Missouri, son of R. F.
Gildehaus; R. Louis Johnson, Columbia, son
of Roy Ivan Johnson; Charles Leonard Kirk,
Sikeston, son of G. W. Kirk; Dorothy and
Grant W. LaRue, Columbia, daughter and son
of H. A. LaRue and Mabel Moore LaRue.

John P. Miller, Kansas City, son of Dr.
E. Lee Miller and Faith Pearce Miller; Lola
C. Oliver, St. Charles, daughter of A. R. Oliver
and Lola Castilo Oliver; Wallace W. Orr,
Rock Island, Illinois, son of Judge W. H.
Orr; Alice J. Shepard, Columbia, daughter of
N. H. Shepard and Ophelia Robinson Shep-
ard; Edith and Bernard D. Simon, Jr., Co-
lumbia, daughter and son of B. D. Simon;
Marvin E. Fawks, Jr., Columbia, son of Mar-
vin E. Fawks.

GUY C. MILLION,
Managing Owner

A man and his wife
who had just returned from a
round-the-world cruise spoke of
Chesterfield as "an international
cigarette."

It means something

... that Chesterfield Cigarettes
are on sale in 86 countries all
over the world.

It means something that
Chesterfields may be purchased
on nearly all ships and at almost
every port.

It means that for a cigarette
to enjoy such popularity, it must
have merit. We do our level best
to make Chesterfield as good a
cigarette as can be made.
