W E E K L Y

University of Missouri-Columbia / Oct. 30, 1990

## Planning the future

*Eight sessions scheduled next week to discuss Mizzou's long-range plan.*

Faculty and staff are being urged to attend an open hearing next week on the draft of MU's long-range plan. Eight sessions are scheduled, and at a variety of times to accommodate the University community.

In addition, sessions will be "division-related;" representatives from two schools, colleges or non-academic divisions will be on hand at each session to explain how the plan would affect his or her unit. For example, Larry Clark, dean of arts and science, and W.R. Miller, dean of education, will help present the session at 1:40 p.m. Nov. 6. All hearings will be in the Alumni-Faculty Lounge in the Memorial Union (See the accompanying story for a complete schedule).

The plan is composed of the mission statement, goals and objectives of the University, and actions or strategies designed to enable MU to reach those objectives (Please turn to pages 6 and 7 to see a copy of the plan). It was written by the University's 14-member long-range planning committee, of which Gerald Brouder, deputy chancellor and interim provost, is the chairman.

"The long-range plan is one of our most important documents," Brouder says. "Indeed, it sets the very tone for the University's activities over the next several years.

"We want to make it clear that the current document is a draft. Input we receive from faculty and staff at the hearings will help us fashion the final version of the plan. That is why broad-based participation is so vital."

Brouder says faculty and staff are welcome to attend any session they wish. "However, if they want to hear how the plan addresses their particular area, they should attend that hearing," he adds.

The plan covers subjects ranging from enrollment to physical facilities and from salaries to library acquisitions. The final version of the plan will be submitted to the UM System in December.

"This has to be a dynamic plan — one that changes as external situations change," says committee member Allen Hahn, professor of veterinary medicine and surgery and chairman of Faculty Council. The group notes that the achievement of some objectives could be dependent upon additional funding for the University. "We may need a tax increase, for instance, before some of our plans for the library could be realized," Hahn adds.

Other members of the committee are: Roger Gafke, vice

## Medical premiums to increase Jan. 1

Beginning Jan. 1, medical insurance premiums for all employee groups in the UM System will increase by 10 percent. At its October meeting, the Board of Curators approved the increase and also increased the maximum lifetime benefit level of the medical plan from \$1 million to \$2 million.

Plan administrators say the increase is necessary to offset the continuing climb in the cost of health care. For example, premiums will rise by 10 percent, but the University is expecting a 15 percent increase in medical claims this year and another 15 percent next year, says Michael Paden, director of Faculty and Staff Benefits.

During the enrollment change period, from Nov. 5 through Nov. 16, employees will be able to make changes to their insurance plans for 1991.

Future issues of *Mizzou Weekly* will carry additional information.

chancellor for Development, University and Alumni Relations; Suzanne Holland, assistant vice chancellor for Student Affairs; Walter Johnson, associate professor of economics; Peter Markie, professor of philosophy; Roger Mitchell, dean of agriculture; Bill Noteboom, associate professor of biochemistry; Diane Oerly, director of Institutional Research and Planning; M. Gilbert Porter, professor of English; Tom Ray, president of the Missouri Students Association; Truman Storvick, professor of chemical engineering; Susan Taylor, associate professor of nursing and vice chairwoman of Faculty Council; and Karen Touzeau, assistant vice chancellor for Personnel Services/Affirmative Action.

## Hearings scheduled on long-range plan

Following is the schedule for open hearings on the draft of MU's long-range plan. All sessions will be in the Alumni-Faculty Lounge on the third floor of the Memorial Union. The schedule also lists deans and vice chancellors who will address the plan as it relates to their particular areas.

Nov. 5 — 3:40 to 5 p.m., Dean Mills, dean of journalism, and Bea Smith, dean of human environmental sciences.

Nov. 6 — 1:40 to 3 p.m., Larry Clark, dean of arts and science, and W.R. Miller, dean of education; 3:40 to 5 p.m., Anthony Hines, dean of engineering, and Bruce Walker, dean of business and public administration.

Nov. 7 — 8:40 to 10:30 a.m., Roger Gafke, vice chancellor for Development, University and Alumni Relations, and Kee Groshong, vice chancellor for Administrative Services; 1:40 to 3 p.m., Lester Bryant, dean of medicine, and Robert Kahrs, dean of veterinary medicine; 3:40 to 5 p.m., Timothy Heinsz, dean of law, and Toni Sullivan, dean of nursing.

Nov. 8 — 8:40 to 10:30 a.m., Mary Lenox, dean of library and informational sciences, and Dave McIntire, vice chancellor for Student Affairs; 3:40 to 5 p.m., Roger Mitchell, dean of agriculture, and Judson Sheridan, dean of the Graduate School.

**Peggy Loy explains the need for more storage space for archaeological artifacts on campus. Loy is an administrative assistant and facilities manager for collections in the Archaeology Department.**

## Preserving the past

Rob Hill photo

*MU, Army corps combining efforts to store, display University's huge collection of artifacts.*

MU's natural history collections represent hundreds of years of scholarship, but

now some of those collections are moldering away in file cabinets and cardboard boxes and basements all over campus.

At Sinclair Farm, thousands of boxes of archaeological specimens are stored on long shelves in three metal buildings. Mice have worked their way into some of the boxes, tearing up the paper storage bags to build their nests. MU's collection of fish specimens is kept in the basement of Stephens Hall, preserved in jars of formaldehyde. Over the years the formaldehyde has evaporated

from many of the jars, leaving the specimens to dry out or to rot.

"Proper conservation and curation of items in natural history collections are major problems facing all museums and universities. Both endeavors are expensive, time-consuming and require significant space," says Michael O'Brien, associate dean of arts and science and director of the University's Museum of Anthropology. O'Brien headed a committee that this summer reported on the various problems of deterioration that

affect the University's collections.

Now campus planners are putting together a program to ensure a safe environment for the nearly 100 million artifacts and archaeological items stored at the University. One key to the plan is converting MU's old livestock arena into a modern, climate-controlled repository.

The building, which now houses farm machinery, is southeast of the Agricultural Engineering Building. The cost of the renovation will be shared by the University and the St. Louis district of the U.S. Army Corps of Engineers. The corps maintains its own archaeology collection on the campus, and has agreed to provide Mizzou with slightly more than \$1 million to help build the repository as well as to upgrade its collection.

When renovations are completed in 1992, the repository will include 25,000 square feet of storage space, a conservation laboratory, classrooms and work rooms. Through an agreement with Native American groups, MU's collection of human skeletal remains will be housed in a special mausoleum that will permit access for researchers.

While most faculty recognize the need to preserve MU's natural history collections, some question spending scarce dollars on collections that might be used by only a handful of scholars each year. O'Brien argues that the University has a "moral, legal and ethical responsibility" to protect the collections from further deterioration.

"When we dig up an artifact or collect some object, our obligation is to take care of it in perpetuity — or else, don't dig it up or collect it in the first place," O'Brien says. "These specimens are no different than library books. We don't go into the library and throw out all the books that haven't been checked out in the last five years."

## HALLOWEEN AND HOOPS

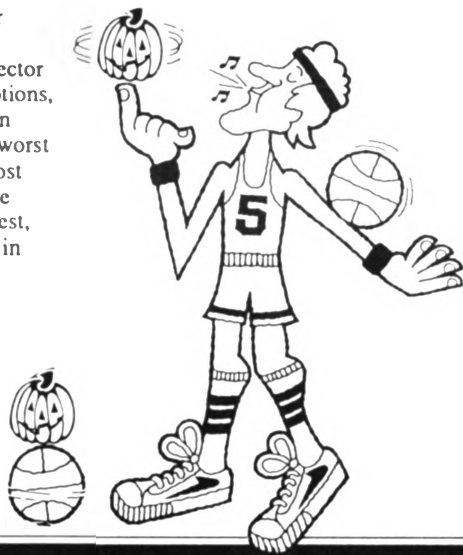

Dress up the kids in their wildest costumes and put on one yourself. Then come to the Hearnes Center at 6 p.m. Oct. 31 for the biggest halloween party in town.

And you'll get a preview of the 1990-91 men's basketball team as well.

Intercollegiate Athletics is once again presenting the Haunted House of Hoops. Doors open at 5:30 p.m., and judging of children's costumes will be from 6 to 6:30 p.m. The basketball team will be introduced and will have a scrimmage beginning at 7 p.m., and adult halloween costumes will be judged at half time. Treats will be given out, and several

Columbia businesses will offer prizes.

Tanja Dunbar, assistant director of sports marketing and promotions, says costume-judging will be in several categories, including "worst excuse for a costume" and "most earthquake-safe costume." "We consider this the biggest, the best, and the safest halloween party in town," she adds.

## SAFE-SEX TALK GEARED TO EDUCATORS

James Rothenberger, the featured speaker for Health Related Professions Week, will address students on safe sex the afternoon of Nov. 8. Earlier that day, however, he will present a talk especially for faculty and staff.

Rothenberger, of the school of public health at the University of Minnesota, will speak on "Teaching STD/HIV Behavior Change to Students: Is It Possible?" at 10:30 a.m. in M105 Medical School Aud. At 4 p.m. that day in Memorial Union Aud., he will address students on "Safe Sex in the Heartland."

"We consider the afternoon talk to students important," says Rich Oliver, director of health related professions.

"But faculty and staff can play a part in promoting safe sex, and the morning talk deals with that."

The special week will begin with an open house from 3:30-6 p.m. Nov. 5 in 504 Lewis Hall. Other events include a job opportunity forum from 9 a.m. to 2 p.m. Nov. 6 in the Memorial Union Lounge; a blood drive and health screening from 10 a.m. to 3 p.m. Nov. 7 in the Clark Hall lobby; various displays from 10:30 a.m. to 1:30 p.m. Nov. 8 in the Jesse Hall rotunda; and HRP displays from 10 a.m. to 2 p.m. Nov. 9 in the School of Medicine atrium.

# Cancer center to join hospital Nov. 1

On Nov. 1, the University family will grow by about 230 members.

That's when the Ellis Fischel Cancer Center, 115 Business Loop 70 E., becomes a part of University Hospital and Clinics. The doctors, nurses, technicians, housekeepers and other employees will become University staff members. The Board of Curators approved the acquisition of the hospital earlier this year.

"The merger of Ellis Fischel and University Hospital marks a new era for cancer care in the state of Missouri," says Robert Smith, executive director of University Hospital and Clinics. "The 50-year tradition of Ellis Fischel, combined with the technology of University Hospital, is a combination that can't be beat. We're working together to provide Missourians with the most

advanced cancer care possible."

A ceremony will take place at 9 a.m. Nov. 5 at Ellis Fischel. The MU flag will be raised in front of the building, and a reception will follow at the Ellis outpatient clinic. Guests will include Chancellor Haskell Monroe; Lester Bryant, dean of medicine; Smith; state Sen. Roger Wilson, D-Columbia; and state representatives Chris Kelly and Ken Jacob, both Columbia Democrats.

Tours will follow the ceremony. Parking will be available in the Ellis Fischel parking lot off Garth Street.

Smith credits the hard work and efforts of the transition team and the Ellis staff for the successful changeover. "It has not been easy working out the details of job titles, salary schedules, benefits, organizational charts, paperwork and all the other 1,001 details it

takes to make a smooth transition," he says.

When Ellis Fischel State Cancer Hospital opened on April 26, 1940, it was the first cancer hospital established west of the Mississippi River and only the second such institution of its kind in the United States. It is the only free-standing cancer center in Missouri.

Since its inauguration, more than 58,000 cancer patients — Missourians for the most part — have received treatment at Ellis Fischel. The hospital achieved its goal of becoming a comprehensive cancer center in 1982 when the Missouri legislature altered the institution's status.

The 200,000 square feet of the center available for diagnostic treatment includes facilities for radiology, nuclear medicine, radiation therapy, chemotherapy and surgery.

## More there than meets the eye, consultant says

When the Ellis Fischel Cancer Center becomes a part of University Hospital and Clinics Nov. 1, the acquisition will do more than give MU another health care facility, the campus planning committee was told Oct. 24.

"It will make the University a part of the north side of Columbia in a way it never has been before," consultant Jack Robinson, who advises MU officials on planning matters, said. "The possibilities are almost unlimited."

Robinson pointed out that in addition to the hospital itself, MU will acquire the accompanying grounds, which include parking lots and green areas.

"There's a lot of land out there, and some of it could be used for commuter parking," he told the committee. "Some of it could be used for recreation and intramurals. These are just a couple of ideas.

"I realize that the main purpose of this

acquisition is to provide improved health care, and I certainly do not want to detract from that. But if the acquisition offers us other possibilities, we should take advantage of them."

Robinson noted that the center sits between I-70 and Business Loop 70, and can be seen from both thoroughfares. "We can provide a new window on the world for people traveling across the state," Robinson told the committee. "Here is a part of the University that you will be able to see from I-70. We could put up signs, maybe run a shuttle from Ellis Fischel to campus, maybe use something like that for tours. We're only limited by our imagination."

He said the committee would continue to discuss the issue.

This marked the first meeting of the year for the committee, which advises Kee Groshong, vice chancellor for Administrative Services, on the facility needs of the campus. Osmund Overby, professor of art history and archaeology, is chairman of the group.

Groshong welcomed members of the committee, telling them that the group meets about once a month during the academic year. He noted that the committee helps to

present hearings in the spring on the Campus Master Plan, which is printed in *Mizzou Weekly* and *The Maneater*. The publication date for this academic year is tentatively scheduled Jan. 29, 1991.

Groshong reviewed building projects on campus in recent years, and noted that the School of Journalism, the School of Natural Resources and Ellis Library, among others, are planning major additions or new structures in the coming years. "One project we've been proud of is Lowry Hall, where we put a nice modern facility inside a classic, traditional building," he told the committee. "We kept three walls of the old building and put in a new one, because it was needed. The building is both functional and attractive."

In response to a question, Groshong said the temporary parking lot across Ninth Street from Walter Williams Hall, when a library annex once stood, is "in transition."

"We need it as a parking lot this year, because of the parking crunch on campus, but we aren't sure yet of the long-term prospects," he said. "Time will tell how it works out."

The committee will meet again in November. Members are James Irvin, associate professor of health services management; Gregory Renner, associate professor of surgery; Loretta Hoover, professor of human nutrition and foods; Daryl Moen, professor of journalism; Ray Rothenberger, professor of horticulture; Jim Joy, director of Parking and Transportation Services; Jim Stevenson, director of Procurement/Materials Management; Robin Deters, administrative assistant in agriculture; David Klute, a sophomore agriculture major from Blanchard, Iowa; and Jon Gribble, a sophomore engineering major from Kansas City. Ex-officio members are Roger Fisher, director of Residential Life; Jeanette Mueller, a graduate assistant in the Access Office; Alan Warden, assistant vice chancellor for Facilities; and Chris Koukola, assistant vice chancellor for University Relations.

## LEARN ABOUT THE FULBRIGHTS

Faculty are invited to attend an informational meeting on the Fulbright-Hays Seminars Abroad Program at 3:40 p.m. Nov. 6 in S204 Memorial Union.

Faculty members teaching undergraduate, introductory courses in social sciences or humanities are eligible to apply for the summer 1991 awards. The seminars last five to six weeks and are scheduled from late June through early August. The award covers all fees, room and board and travel from Columbia to the seminar site.

Applicants must choose from the following countries and topics: Southern Africa: Botswana, Malawi

and Zimbabwe, social and economic change; Czechoslovakia and Yugoslavia, transition; Indonesia, development; Central America: Mexico, Honduras, Nicaragua, and Guatemala, development; Pakistan, Islam in its history and culture.

The application process is relatively simple, and the eligible fields may be broadly defined. Applications are due Nov. 26. With questions, contact Vice Provost Jeff Chinn at 882-6598.

## CLOSER THAN YOU THINK

Ashland and Rocheport may be long walks from Francis Quadrangle, but they're not outside the local calling area. That may surprise some people, says Terry Robb, assistant manager in Telecommunications.

"We have noted that some University employees are using their WATS authorization numbers to place calls to Columbia, Ashland, Rocheport, Hallsville and Harrisburg, which should be dialed as local calls," he says. "Calls from campus using an authorization number are charged as long-distance calls, whatever their destination."

Local prefixes include the following: 442, 443, 445, 446, 449,

474, 499, 874, 875, 876, 882, 884, 886, 657, 696 and 698. To dial a number with one of those prefixes from a University telephone, dial 9, plus the seven-digit number.

## AG SCHOLARSHIPS ARE AVAILABLE

The College of Agriculture has more than 100 scholarships available, worth a total of \$250,000.

"We're urging interested students to apply for these scholarships by Dec. 1," says Charles Cramer, associate dean. Faculty and staff knowing students who could be eligible for the awards should encourage them to apply. Application forms may be obtained from Cramer's office, 2-64 Agriculture Building.

# Hahn boosts long-range plan hearings

Faculty are urged to attend one of the eight hearings scheduled next week on MU's long-range plan, Allen Hahn, professor of veterinary medicine and surgery and chairman of Faculty Council, told council members at a meeting Oct. 25.

Hahn is a member of the 14-member committee that has been working on the plan during the past several months. "It is imperative that we have faculty input into this," he told the council. "We hope you will attend and will urge your colleagues to attend." A schedule of the hearings appears on Page 1. The draft of the long-range plan appears on pages 6 and 7.

The council held a 40-minute meeting

before going into closed session to discuss personnel items. In other matters:

•The council may invite St. Louis businessman Fred Kummer, a member of the Board of Curators, to campus to meet with faculty members. In a presentation to the board Oct. 18, Kummer said a number of things with which council members disagreed.

"The University of Missouri is the most nationally and internationally competitive institution in the state," Rob Logan, associate professor of journalism and the council's observer of the board, told members. "I don't understand how he can say that we are underperforming." Council member Andrew Twaddle, professor of sociology, suggested that the council invite Kummer to MU "to see what we're all about." He noted that curator Peter Raven met with the council last year on the subject of assessment. Hahn said he would check into the feasibility of such a request.

•Members of the council's fiscal affairs committee will meet with MU budget offi-

cers this week to discuss the distribution of funds for 1990-91 and the budget planning process, Twaddle, chairman of the committee, told the council.

•The council's special projects committee is seeking suggestions on possible changes in the University's smoking policy, Chairman Ed Hunvald, professor of law, told members. "If you have any suggestions, see me," he added.

•A new, tougher admissions policy that goes into effect next year will tighten fresh-

man enrollment, Irv Cockriel, professor of education and chairman of the council's academic affairs committee, said. He distributed a chart showing the new class-rank and ACT-composite requirements, and noted that this fall's freshman class totals 3,851. "If the new requirements had been in effect this year, 375 of these freshmen would not have been admitted," Cockriel told the council.

The council will meet next at 3:40 p.m. Nov. 8 in S110 Memorial Union.

# Smoking policy discussed

Staff Advisory Council discussed two environmental issues — campus recycling efforts and the University's smoking policy — at its regular meeting Oct. 25.

The council had been asked earlier by Chancellor Haskell Monroe to comment on MU's smoking policy. Monroe added to that charge Thursday by asking the council for comments on a smoking policy approved by the Board of Curators Oct. 19.

ourselves up for problems," Wimmenauer said. "Since this is now policy, I question how enforcement is going to be applied."

Michael Akers, general stores attendant in Materials Management, also questioned whether the policy would set up "two standards of punishment."

Council members heard a report on recycling efforts at Mizzou from Phil Shocklee, assistant director of Campus Facilities and chairman of the campus recycling committee. Shocklee said the committee was "looking at what we can do to improve current operations and expand" the recycling program at MU.

"I think recycling is here to stay," Shocklee said. "We've been a throw-away society for too long. I think people recognize that."

In other action:

•Council members approved the recommendations of the staff development award committee to provide 19 individuals with a total of nearly \$19,500 in the second round of the new Staff Development Awards. Suzanne Schoonover, administrative assistant in agricultural engineering and chairwoman of the awards committee, said 57 people had applied for the awards and they would be notified of the results early this week. The winners will be listed in a future edition of *Mizzou Weekly*.

•Shirley Calvin, senior secretary in Extension Information, was selected to serve the unexpired term of Frances Williams, administrative assistant in Campus Facilities, who resigned earlier this month. Calvin was runner-up in the secretarial/clerical category in the last Staff Council election.

## CLASSIFIEDS

### FOR RENT

FURNISHED THREE-BEDROOM house with garage, close to Russell Boulevard Elementary School. January-April (mid-May if necessary). Must love cats as one comes with house. 449-2290.

### FOR SALE

3,600-SQUARE-FOOT brick home on 19.6 acres within city limits. Four-car garage, 36x52 workshop, 36x60 livestock barn, lake, mobile home and two ponds. 449-4031.

FIVE-ACRE HOME SITES: Woods and/or meadow, southern exposures, 4 miles southwest of city limits. \$14,000 & up, w/\$1,000 down, remainder over 10 years. All underground utilities; no trailers. 449-5620 before 7 p.m.

The Classified Advertising Section is open only to faculty and staff members. A home phone number is required in all classified ads.

### Ads must be typed.

Rates: 30-word maximum \$3.

### Publication deadlines:

WORKING FOR YOU

The new policy will ban tobacco sales on all four campuses after Jan. 1, 1991. It also bans smoking in all nonresidential buildings except in designated smoking areas and calls for health education programs and counseling to discourage the use of tobacco.

Several council members questioned how the policy would be enforced equally among faculty and staff. Lisa Wimmenauer, council vice chairwoman and administrative associate II in Business Services, said that while staff members could be disciplined for violations of the smoking policy, there would be few options to discipline tenured faculty. "I'm concerned that we could be setting

# New horizons

*Commissioner says institutions must work together to bring about change, additional funding.*

Colleges and universities in the state must put aside their differences and work together to create a "new vision" for higher education in the 1990s, says Charles J. McClain, Missouri's commissioner of higher education.

"The presidents and chancellors of every public institution in the state are going to have to sit down together and try to come up with a plan that will be persuasive to the people," McClain told about 75 members of the University Club at a luncheon meeting Oct. 22 at the Alumni Center.

"It is imperative that we have additional resources for higher education in Missouri. How we make the case will require great ingenuity."

McClain noted that the effort is growing for a tax increase in 1991, and he said the state's Business and Education Partnership Commission is scheduled to report on the status of higher education in December. Following that report, he said, state leaders will have a clearer idea on which direction to take.

"We need to redesign the process so ineffectual programs are either improved or

shifted or eliminated as a matter of course, without the need of a political solution," he said. "We need to change the system so the system changes itself. I firmly believe that funding would follow this kind of performance."

Consultants to the partnership commission recently identified five critical, unmet needs in Missouri that McClain said could be addressed through refinements in institutional missions. They are:

- teachers prepared to deal with, and help resolve, the issues of elementary and secondary education.
  - baccalaureate program graduates possessing better skills and an understanding of how to employ those skills in the work place and community.
  - graduate and research programs of distinction in selected areas that reinforce strengths and address priority needs in the state.
  - widely accessible programs below the baccalaureate level designed to provide individuals with the skills necessary to fill technical positions in health care, manufacturing and other industries central to the state's economic well-being.
  - a work force composed of literate adults.
- "All five of these cannot, and should not,

Charles J. McClain, left, Missouri's commissioner of higher education, discusses a point with Rob Logan, associate professor of journalism. Behind Logan are, left, Mark Burkholder, associate vice president of Academic Affairs for the UM System, and Dave Lendt, director of University Relations for the UM System.

be addressed by the University of Missouri-Columbia," McClain said, adding that MU's strength lies in its graduate and research programs. "For instance, it is clear to me that the University of Missouri needs to increase its production of PhDs in foreign language, mathematics and science. This is, after all, part of its unique mission for the state.

"The fact is, this mission has not been fulfilled. If somebody had said five years ago that these were high priorities which should be supported, and if there were a clear plan for the achievement of those objectives, they probably would have come to pass."

McClain, who was president of Northeast Missouri State University 19 years before

his appointment as commissioner in 1989, received two degrees from MU: a master's in education in 1957 and a doctorate in education in 1961. In a question-answer session after the talk, he said any tax-increase effort should "paint a vision of the future."

"I don't think it will work if we go out there and say, 'Our microscopes are 30 years old,'" he told the group. "That won't convince people. We can't look back; we have to look ahead.

"The No. 1 problem facing us in the next five years will be attracting qualified faculty. Recently, some other states have cut back in their support of higher education. Wouldn't it be great if we went forward?"

If you expect only the bare essentials from your first computer, get ready for an unexpected value.

Introducing the Macintosh® Classic computer. It's the most affordable Macintosh, and can easily handle word processing, spreadsheet analysis, and a variety of other home, office, and classroom applications.

The Classic is a complete Macintosh. Its monitor, keyboard, mouse, and system software are all included, as are extras you

might not expect—such as networking capabilities and the Apple® SuperDrive™, which lets the Classic read from and write to MS-DOS, OS 2, and ProDOS® files.

And software you buy for the Classic can be used with other members of the Macintosh family.

Stop in for a demonstration, and see affordable power at work. And see a value that's, basically, unbelievable.

COMPUTER SPECTRUM

# ABC anchor to headline Journalism Banquet

Carole Simpson, anchor of ABC's *World News Saturday*, will be among 11 recipients of the 1990 Missouri Honor Medal for Distinguished Service to Journalism during Journalism Week Nov. 6 through 9.

Simpson, ABC's senior correspondent in Washington, also contributes reports concerning family issues for the "American Agenda" segment on *World News Tonight With Peter Jennings*.

Simpson will be the featured speaker at the annual Journalism Banquet, scheduled at 7 p.m. Nov. 9 at the Holiday Inn Expo Center.

Other 1990 medalists are: Tad Bartimus, award-winning Associated Press correspondent; Thomas J. Burrell, chairman of Burrell

Communications Group in Chicago; John C. Ginn, president and publisher of the *Anderson (S.C.) Independent-Mail*; John Hersey, Pulitzer Prize-winning author of *A Bell for Adano* and a former writer for *Time* and *The New Yorker*; Wesley H. Maurer, journalism scholar, editor and publisher; Amy McCombs, president and general manager of KRON-TV in San Francisco; Gordon Parks, photojournalist, film director, author, choreographer and composer; and Betty Simpson Spaar, publisher of *The Odessan*, Odessa, Mo. Publications to be honored are the *Gazeta Wyborcza*, Eastern Europe's largest independent newspaper, and *The Chronicle of Current Events*, the underground newspaper published in the Soviet Union by

democratic dissidents during the 1960s and 1970s.

Five of the medalists are MU alumni: Bartimus, BJ '69; Ginn, BJ '59; Maurer, BJ '23; McCombs, BJ '69, MA '72; and Spaar, BJ '54.

Missouri Honor Medals have been presented annually since 1930 for lifetime accomplishments in journalism. The medals are awarded by the School of Journalism, the world's first, founded in 1908.

Tickets for the banquet are \$16.50 for students and \$20 for faculty, staff and the public. For tickets, call Toni Hahn at 882-4821. For additional information about the week's activities, contact Michael Hoeflerlin, Journalism Week chairman, at 882-1908.

Carole Simpson

## Watch your stress level

People who are run down from high-stress jobs are prime candidates for the flu, an MU health education specialist says.

"If you've been putting in extremely long hours and are generally not eating well, you're susceptible to all forms of illness, including the flu," says Extension specialist Gail Carlson. She advises people to eat well, get enough rest and exercise, and try to keep your stress level under control. "And get a flu shot," she adds.

## ELECTRONIC INSTRUMENT LAB

#17 Physics Bldg.  
882-4024  
8 a.m.-5 p.m., Monday-Friday

Your campuswide research service facility offering:

### CARRY-IN TIME + MATERIALS SERVICE ON:

- IBM and IBM-compatibles (pc, xt, at, ps/2)
- "Hard" Disks (drive repair and reconditioning)
- Monitors
- Printers
- Special Interconnect Cable Fabrication
- Apple II and other brands of computers
- Terminals and Peripherals (many brands and models)

Ask for "Kent" when inquiring about computer repair.

# DRAFT OF MU'S LONG-RANGE PLAN

This draft of MU's long-range plan will be discussed at open hearings next week. A schedule of hearings may be found on Page 1. Items listed in bold face are those found to have the highest priority in their given category.

## A NEW ERA OF EXCELLENCE

*Program Promotion for MU for the 1990s*

Goals and Objectives for Planning, Budgeting and Evaluation  
Revised Oct. 23, 1990

### MISSION

The primary purpose of the University of Missouri-Columbia is education and the development and dissemination of knowledge. Learning is the predominant activity at MU. All other activities enhance, support, or derive from that vital center. MU will continue to serve all Missourians through its programs in teaching, research, extension, and service. It will ensure relevance in these activities through periodic evaluation and redirection consonant with the needs of the citizens of the state and society in general. The University remains committed to excellence in undergraduate, graduate, and professional education, and to the service of society through research and creative activity. As the state's major land-grant institution, the University continues responsible use of its resources to provide knowledge to the people of Missouri for the enrichment of their lives. The development of programs in human potential will be enhanced through a continued commitment to equal opportunity. The University also remains committed to participating in the national and international scholarly, scientific, and economic communities.

### TEACHING/LEARNING

- GOAL** (1) The University will deliver a broad educational experience that encourages individuality, curiosity, and creativity and provides students with the intellectual tools to evaluate the quality of their lives and the relative value of ideas.  
(2) MU will develop students who are prepared for life-long learning and who are capable of leadership in an increasingly interdependent multicultural world.  
(3) MU will continue to function as the dynamic center for graduate and professional education in the state, maintaining and developing programs in which distinguished faculty pass on to promising graduate and professional students the traditions, the knowledge, the technology, and the human values necessary for the shaping of an informed and responsible world of tomorrow.

OBJECTIVES	ACTIONS / STRATEGIES	MU	DIVISION
<ul style="list-style-type: none"> <li>maintain a distinguished faculty</li> </ul>	<ul style="list-style-type: none"> <li>assure that within 5 years faculty salaries at all ranks are maintained at levels competitive with Research I institutions</li> </ul>		
<ul style="list-style-type: none"> <li>have a library of quality which effectively supports teaching and research</li> </ul>	<ul style="list-style-type: none"> <li>improve ARL rankings related to acquisitions, holdings, staff, and technology</li> </ul>		
<ul style="list-style-type: none"> <li>make available current computing and information processing technology</li> </ul>	<ul style="list-style-type: none"> <li>within 3 years have computer network connections and accessibility in all residence halls, faculty offices, and classrooms</li> </ul>		
<ul style="list-style-type: none"> <li>evaluate and establish a desired balance between undergraduate, graduate, and professional education</li> </ul>	<ul style="list-style-type: none"> <li>limit enrollment of undergraduates to between 17,000 - 18,000; increase graduate education by 20 percent and maintain professional enrollment at current levels; increase the size of selected doctoral programs by vigorous recruitment of high quality students</li> </ul>		
<ul style="list-style-type: none"> <li>bring into balance teaching and research activities</li> </ul>	<ul style="list-style-type: none"> <li>reward teaching equally with research; review and revise as appropriate promotion and tenure guidelines and practices</li> </ul>		
<ul style="list-style-type: none"> <li>enhance students' adjustment to the higher education environment, fulfillment of their educational objectives, and provide guidance in career choices</li> </ul>	<ul style="list-style-type: none"> <li>provide more classrooms for undergraduate seminars; improve advising system; expand offerings for First-Year-Experience classes; strengthen development of and access to career planning and placement</li> </ul>		
<ul style="list-style-type: none"> <li>maintain currency and relevance through a system of periodic program reviews and assessment of students</li> </ul>	<ul style="list-style-type: none"> <li>prepare for North Central Accreditation in 1994; refine assessment program; annual review of Long Range Plan</li> </ul>		
<ul style="list-style-type: none"> <li>enrich the education of the University's most able students through special opportunities that capitalize on the scholarly and creative environment of MU</li> </ul>	<ul style="list-style-type: none"> <li>strengthen and expand the Honors College; increase financial assistance for highly qualified students</li> </ul>		
<ul style="list-style-type: none"> <li>enhance instructional quality through faculty development</li> </ul>	<ul style="list-style-type: none"> <li>establish ten endowed professorships over the next five years; increase funding for faculty and development awards; expand the program for Excellence in Teaching; implement a multifaceted evaluation of teaching effectiveness</li> </ul>		
<ul style="list-style-type: none"> <li>create a campus of sensitive and responsive groups and individuals</li> </ul>	<ul style="list-style-type: none"> <li>expect all faculty, students, and staff to attend a multicultural awareness seminar; develop educational</li> </ul>		

- programs dedicated to an understanding of the environmental ethic
- revise curricula to reflect the diversity in the multicultural MU environment and beyond
- add survey courses in multicultural awareness; integrate multicultural awareness into coursework via special discussion sections, added readings, and cultural sensitivity on behalf of professional and graduate teaching assistants; help international students and visiting scholars become integrated into the community and take full advantage of their American experience, while sharing their knowledge and experience with the campus and the community; help all students gain a global understanding and create opportunities for interested students to pursue the study of international issues in depth; expand the proportion of the student body taking advantage of study abroad
- increase the participation of ethnic and racial minorities in higher education
- assist students in developing the discipline, values, and skills necessary to function as productive citizens of a complex, diverse, and competitive world
- increase the number of ethnic and racial minorities, women and other underrepresented groups on the faculty and staff; offer more pre-college and outreach programs at MU; increase the recruitment of ethnic and racial minorities to the student body
- offer a variety of informal learning opportunities which complement the formal learning experiences provided at MU
- job placement; financial aid; work study

### UNDERGRADUATE EDUCATION

- ensure that primary teaching responsibility for all undergraduate courses is assigned only to those with advanced degrees
- hire necessary number of faculty; increase undergraduate teaching assignments of ranked faculty
- provide all students regardless of discipline with proficiency in composition, mathematics, and computing and information literacy
- develop, implement, and fund a general education architecture; designate the College of Arts and Science as the recipient of special funding over the next five years to strengthen its role as the basic core of the University

### GRADUATE AND PROFESSIONAL EDUCATION

- improve selected existing programs and develop new and encourage interdisciplinary areas
- obtain final approval to Ph.D. programs in Nursing and Computer Science; increase the number of doctoral degrees awarded by 20 percent
- provide competitive compensation necessary to attract high quality graduate students
- evaluate and modify fee remission practices; increase graduate assistants stipends
- prepare outstanding students to assume professorial roles at every educational institution in the state
- enhance the training that prepares graduate instructors and assistants for their teaching responsibilities

### RESEARCH AND CREATIVE ENDEAVORS

**GOAL** MU will develop a level of research and creative activity consistent with the requirements of education, advancing knowledge, and the evolving needs of the state and the nation.

OBJECTIVES	ACTIONS / STRATEGIES	MU	DIVISION
<ul style="list-style-type: none"> <li>maintain our Research I status by supporting faculty in their development and research</li> </ul>	<ul style="list-style-type: none"> <li>increase extramural support and obtain additional state support for faculty effort; expand methods of faculty communication and interaction through the use of computing and communications technology; assist faculty to develop international expertise and to pursue international opportunities for study, research, technical assistance and creative activity; make available matching funds</li> </ul>		
<ul style="list-style-type: none"> <li>improve facilities for research</li> </ul>	<ul style="list-style-type: none"> <li>expand the multi-user facilities for research and creative endeavors; expand and improve research laboratories</li> </ul>		
<ul style="list-style-type: none"> <li>promote interdisciplinary and collaborative research and creative activity</li> </ul>	<ul style="list-style-type: none"> <li>set aside funds to provide interdisciplinary collaborative research and programs; review and revise as appropriate the promotion and tenure and salary reward guidelines to promote interdisciplinary research</li> </ul>		

### OUTREACH

**GOAL** MU will develop and nurture the programs necessary to meet the educational needs of the citizens of Missouri in order to strengthen the state's economic competitiveness and quality of life in the global environment, ensuring that the people of the state have access to academic resources and the practical applications of the research of the University.

OBJECTIVES	ACTIONS / STRATEGIES	MU	DIVISION
<ul style="list-style-type: none"> <li>assist the private sector and government to improve economic development and take advantage of international opportunities</li> </ul>	<ul style="list-style-type: none"> <li>market faculty and staff expertise throughout the state; revise the patent policy in order to expedite the delivery of expertise and technology transfer</li> </ul>		
<ul style="list-style-type: none"> <li>extend the educational, creative, and research efforts of the campus to citizens throughout the state</li> </ul>	<ul style="list-style-type: none"> <li>deliver statewide educational programs, off-campus programs, and telecommunications technology</li> </ul>		
<ul style="list-style-type: none"> <li>use MU's expertise to define and address the important public policy issues facing the state, the nation, and the world</li> </ul>	<ul style="list-style-type: none"> <li>provide consultation and professional continuing education programs; maintain the services provided by the faculty in consultation with public bodies in the state</li> </ul>		
<ul style="list-style-type: none"> <li>increase availability of unique facilities and programs to appropriate constituents</li> </ul>	<ul style="list-style-type: none"> <li>widely disseminate policy guidelines, market uniqueness of and accessibility to our facilities e.g. health sciences, experiment stations, Missouri Scholars Academy, and intercollegiate athletics</li> </ul>		

### SUPPORT OF THE UNIVERSITY'S MISSIONS

**GOAL** (1) To provide the structures, resources and environment for the University to fulfill its missions.  
(2) To allocate the maximum amount of resources possible to achieve the teaching/learning, research/creative achievement, and outreach objectives.

OBJECTIVES	ACTIONS / STRATEGIES	MU	DIVISION
<ul style="list-style-type: none"> <li>develop and maintain effective relationships with external constituencies</li> </ul>	<ul style="list-style-type: none"> <li>complete successfully the current capital fund campaign and operate the fund raising program at that higher level of volume and productivity thereafter; communicate effectively with the many constituencies of the University to achieve increased understanding, recognition and support for its programs and to involve them effectively in the activities of the University; support the work of alumni and friends of the University in their efforts to win greater financial support from the state in response to the Board of Curators' decision to seek a tax increase; demonstrate convincingly to the constituencies of the University that present faculty, staff, and students are good stewards of its resources</li> </ul>		
<ul style="list-style-type: none"> <li>provide effective and efficient administrative support systems and services for the faculty, staff, and students</li> </ul>	<ul style="list-style-type: none"> <li>establish a schedule for systematic review of these systems; review systematically the efficiency and effectiveness of these services and implement a plan for their improvement</li> </ul>		
<ul style="list-style-type: none"> <li>provide attractive and effective facilities for the educational, cultural, and service activities of the University</li> </ul>	<ul style="list-style-type: none"> <li>develop and carry out a plan for the renovation, repair and improvement of the classrooms, laboratories and other facilities; review and affirm the division of responsibility for financing these improvements among funds available at the campus level and those available to schools and colleges and other programs</li> </ul>		
<ul style="list-style-type: none"> <li>provide information, computation and communication services to serve the academic and support functions of the University</li> </ul>	<ul style="list-style-type: none"> <li>review systematically the efficiency and effectiveness of these services and implement a plan for their improvement</li> </ul>		
<ul style="list-style-type: none"> <li>engage in a planning process which guides the allocation of resources and decision making including an annual evaluation and accountability of progress toward achieving the objectives of the plan</li> </ul>	<ul style="list-style-type: none"> <li>report annually on actions taken to achieve the objectives and the results; tie spending plans for new budgets to achieve the objectives of the plan; require the Long Range Planning Committee to review at least annually the goals, objectives and the annual reports and recommend revisions of the plan to the University community</li> </ul>		
<ul style="list-style-type: none"> <li>promote employee excellence and provide developmental opportunities</li> </ul>	<ul style="list-style-type: none"> <li>achieve competitive salaries for all staff; celebrate faculty, staff, and student achievement with public recognition ceremonies; provide comprehensive program of professional development and personal counseling services; encourage financial support for greater use of the faculty and staff development leave program</li> </ul>

Friday  
7:30 a.m. to 7:30 p.m.

Tom Gray, general manager of KOMU-TV, is vice chairman of the Columbia Area United Way this year.

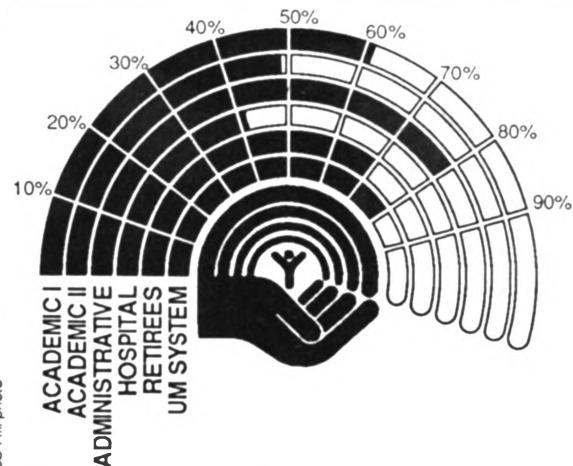

## Drive at 62 percent

Bob Bailey, assistant dean of law and co-chairman of this year's MU United Way drive, says the campaign is at about the same place it was at this time last year. And that's good news.

With two reporting periods left, MU's drive stands at 62 percent of its \$200,000 goal. The University's campaign is part of the Columbia Area United Way's drive toward \$1.07 million.

"The campaign committee is optimistic that the campus will once again reach its goal," Bailey says. He asks people who have not filled out their pledge cards to please do so and return them to their unit leaders.

The next report meeting will be at 7:30 a.m. Oct. 31 in N243 Memorial Union. The campaign awards ceremony will be at 7:30 a.m. Nov. 28 in N214-215 Memorial Union.

The University's United Way contributions stand at 62 percent of the goal after the third reporting period.

## Having fun with volunteer work

Most people would agree that a fundraising campaign is serious work, especially one such as the Columbia Area United Way — in which thousands of volunteers are working toward a goal of \$1.07 million. But as campaign vice chairman Tom Gray has discovered in his many years of volunteering for the United Way, the campaign can be fun, too.

Not only can supporting the United Way help bring out the best in all of us, it also can bring out the creative in people such as Gray. As general manager of KOMU-TV, he has been able to lend a creative touch to the community effort.

Last year, working with the UW commu-

nications committee, Gray came up with the idea to have the three network affiliates in Columbia simulcast the campaign kickoff, which was a parody of Batman, bat signal and all. This year, the kickoff theme was Dick Tracy.

"We've done things like 'The Wheel of Fortune' as a theme," Gray says. And in 1988 the Olympics was the kickoff theme.

"You have to admire the tenacity of people who volunteer. But it is possible to have fun with the work.

"As a TV station, our primary obligation is to serve the public. We look at the United Way as part and parcel to that. It helps make us an integral part of the community. It's nice

to be a part of the University drive, which is a big part of the whole campaign."

Gray, who has been with KOMU 28 years, has given his time and talents to many civic organizations. He is chairman of the Muscular Dystrophy Association, Community Communications Committee and a board member and secretary for Regional Economic Development Inc. Gray also has been president of the Boy Scouts of America Great Rivers Council, and served on the board of directors for Boone County's Woodhaven Sheltered Workshop.

Gray anticipates that the United Way will meet its goal this year. "Columbia is a very giving community," he adds.

## "Any music they sing becomes a classic."

# FORUM

## Questions answered on military leave

Because of the continuing Persian Gulf crisis, you may be wondering "What happens to me?..." if you are called into active duty as a reservist, guardsperson or enlistee.

The following questions and answers address some common concerns that may surface as you face the possibility of being called into active duty. This information has been culled from a recent interview with William Bolts, regional administrator for the U.S. Department of Labor, Veterans Employment and Training Service; the Veterans' Re-employment Rights Handbook; and University policy.

*Q. Are all employees who are called into active duty granted a military leave of absence?*

A. All full-time, part-time, probationary or other permanent employees will be granted a military leave. Temporary employees are not entitled to military leave.

*Q. Are you eligible to receive vacation, sick leave and personal day benefits while you are on military leave?*

A. While the period of the leave is counted as length of service in computing vacation accrual rates, you do not accumulate vacation or sick leave during the leave. You accumulate personal days during your military leave, but you may not use these personal days until you return to active employment. All unused personal days are lost at the end of the anniversary year.

*Q. Upon returning from military leave, are you entitled to have the same job back?*

A. Yes. You are entitled to have the same job, or one of similar seniority, status and pay. If another person is occupying your position or a position of similar status and pay, you are entitled to that job, even if it means bumping or removing the replacement person.

*Q. How long must a job be held for you once you leave active duty with the military?*

A. You must apply for re-employment within the statutory time frame. Failure to do so will eliminate your re-employment rights. This time frame is 90 days if you are an enlistee and 31 days if you are a reservist. It may be extended by one year if you have been hospitalized or injured while on active military duty.

*Q. What effect will military leave have on seniority?*

A. Seniority and issues associated with seniority continue to accrue while you are on active military duty. For example, longevity increases will be included when determining your rate of pay when you return to active employment.

*Q. What benefits coverage is available to you and your dependents while you are on military leave?*

A. You are entitled to continuous enrollment in the benefits program while on military leave. However, some coverage restrictions apply. You also are automatically covered by the military health plan when you enter active duty, and you also can enroll your family in a separate health plan (CHAMPUS) if you are called into active duty for more than 30 days. You should speak to your benefits representative as well as armed forces personnel for additional information.

*Q. Can you continue University insurance coverage for your spouse and children only?*

A. No, employee enrollment is required.

*Q. Can you suspend coverage while on military leave?*

A. Yes, and upon re-employment you could resume coverage without evidence of insurability. However, you and your dependents would be subject to pre-existing condition limitations for the respective plans.

*Q. Will service credit under the retirement plan be earned while on military leave?*

A. Yes.

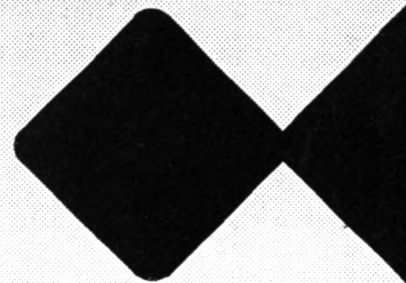

This is only a partial list and obviously will not cover all the issues that may be of interest to you. If you are called into active duty or anticipate being called into active duty, I strongly encourage you to meet with your Personnel and Staff Benefits representatives to obtain more information.

### A REMINDER

The Mizzou Weekly news deadline is Tuesday, one week before publication. Please let us know about your upcoming event as soon as possible so we may include it in our Calendar.

M I Z Z O U  
**PEOPLE**

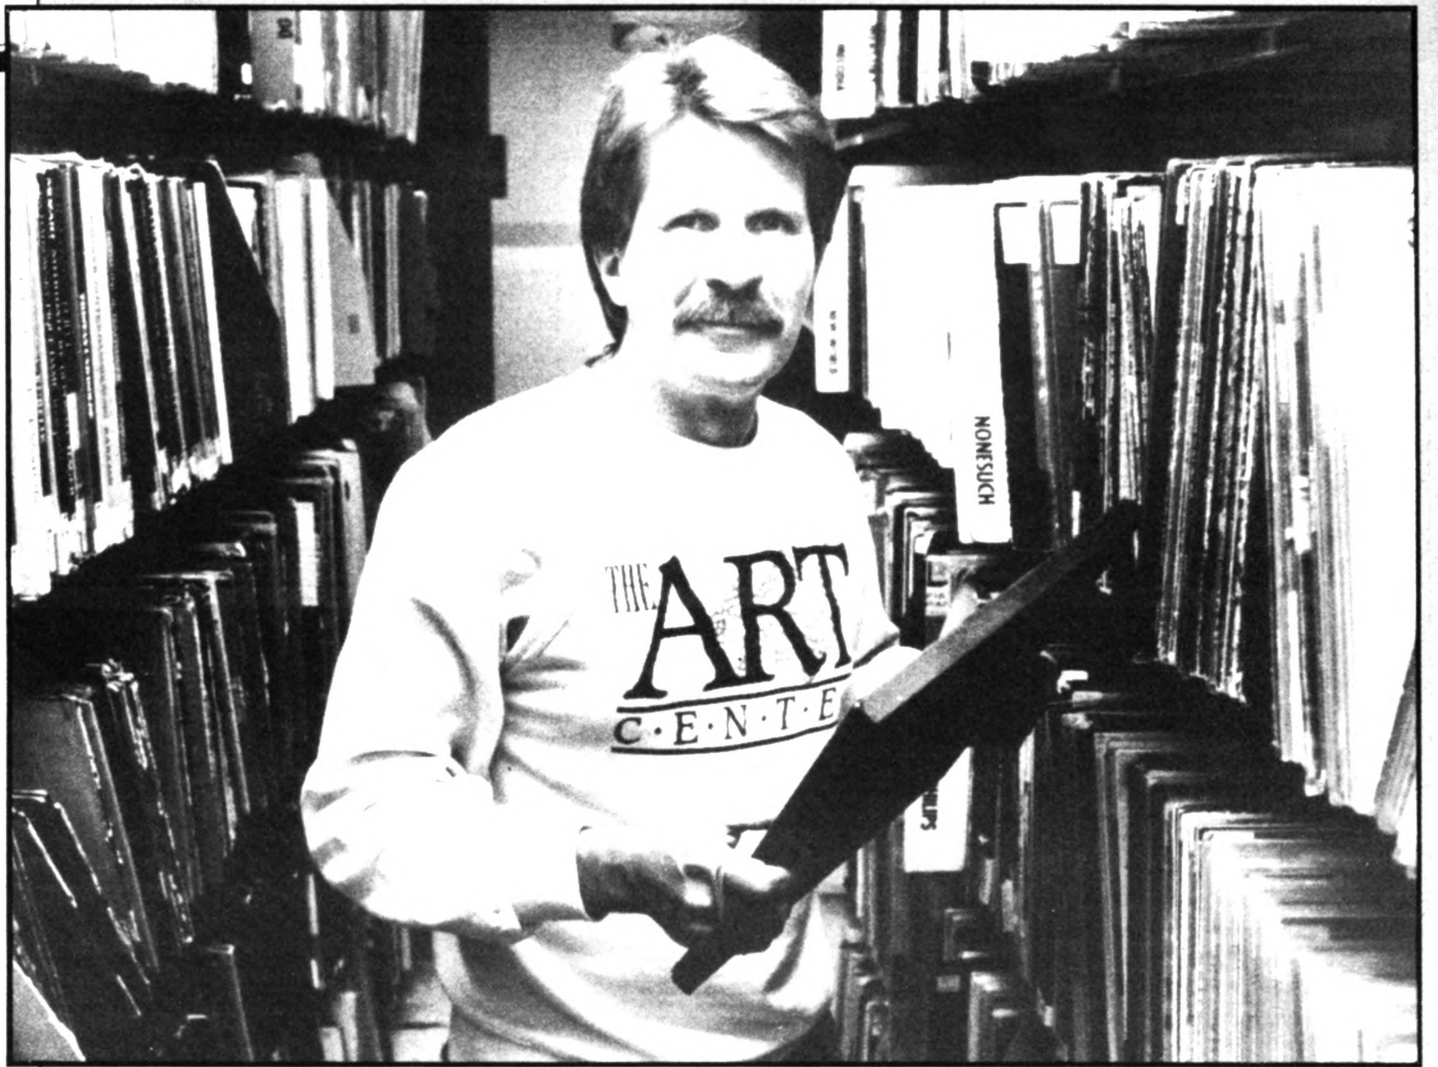

Charles Goosey, prepress, has been selected Printing Services' Employee of the Month for November.

James N. Guinn, a doctoral candidate in sociology, has been appointed to the executive committee of the American Sociological Association's Honors Program Student Association. Guinn presented a paper, "Is An Ounce of Prevention Worth a Pound of Cure?" at the Contemporary Issues in the Sociology of Health and Illness Roundtable. He also was a discussant for a paper, "Tight-rope Walking in Prison Setting Research," at the ASA's annual meeting in Washington in August.

Howard Marshall, associate professor of art history and director of the Cultural Heritage Center, has published "The British Single-Cell House in the American Cultural Landscape" in the current volume of *Folk Life: Journal of Ethnological Studies*. In September, Marshall attended the annual conference of the Society for Folk Life Studies at St. Andrews University, Scotland, and presented a paper on his research in Anglo-American vernacular architecture. He also was elected to the Council of the Society.

Edward Mullen, professor of Spanish and chairman of romance languages, presented a paper, "Constructing the Teaching Anthology: An Editor's Perspective," at the fifth annual International Halt Conference in Honolulu in March. He also has had two papers published: "La Loma del Angel: La reescritura de la historia en la novelística contemporanea," in *Mundi*, and "Interpreting Puerto Rico's Cultural Myths: Rosario Ferre and Manuel Ramos Otero," in *The America's Review*.

William Stark, professor of biological sciences, presented a poster at the ninth International Congress of Eye Research in Helsinki, Finland. He is contributing a chapter for the pregress satellite (Symposium on Retinal Degenerations in Saltsjobaden, Sweden) and presented a paper at the post-congress satellite (Symposium on the Ocular Effects of Eicosanoids and Other Lipid Mediators in Haikko, Finland). He also presented a poster at the International Symposium on Signal Transduction in Photoreceptor Cells in Julich, Federal Republic of Germany.

David Truesdell has been in charge of the recorded sound collection at Ellis Library for 10 years.

## Librarian with a noteworthy career

**M**  
**YOU**

David Truesdell's job is music to the ears of MU. He is librarian of the recorded sound collection for Ellis Library.

Tucked in a corner on the fourth floor of Ellis, the sound collection is a place where musicians, historians and music lovers may search through more than 10,000 LPs, 1,000 compact discs and audio and video tapes for class, research or recreation.

"There are people who use this collection for recreation, but it exists primarily for academic use," says Truesdell, who has headed the collections since 1980. The collection is used to support academic work in the Music Department, but other units use it also, Truesdell says.

The collection is composed of classical works with some popular music selections. It is growing, in part, from donations from the Friends of the Library.

"Beginning in about 1983, we acquired a patron of

sorts in Joe E. Covington, dean emeritus of the Law School," says Truesdell. "Since then, he's more than doubled our collection." Truesdell has been able to add CD players, headphones, a television and a video cassette player for the video opera collection. The library also has four listening rooms for material placed on reserve.

"It's nice to meet and work with people who are really involved in music," says Truesdell, who doesn't read music but enjoys listening to classical works, particularly by composers of the late 19th and early 20th centuries. His interest in music extends into a second job at a local record store.

Truesdell's only personal experience playing, in grade school, didn't endear him to music teachers or enhance his interest in music, he says. "I played clarinet for two years and just faked it. They finally caught on to me." — *Text and photo by Rob Hill*

## Q&A

Q. I recently learned that some staff have to work on Martin Luther King Jr.'s

birthday in 1991, while faculty and students have the day off because classes are cancelled. I am in an academic position with some teaching and some clinical responsibilities. Do I work on Jan. 21, 1991?

A. "Chancellor Haskell Monroe has cancelled classes for Dr. Martin Luther King Jr.'s birthday," says Karen Touzeau, assistant vice chancellor for Personnel Services/

Affirmative Action. This means that all faculty and teaching assistants will not teach on Monday, Jan. 21, 1991. However, if you have other clinical, research or administrative duties, you are required to perform those functions on that day. For example, faculty who provide library services, clinical services or are involved in other non-teaching activities will be required to fulfill their

commitments on that day. Administrative, service and support employees are also required to work on Jan. 21.

Send your questions about campus matters to *Mizzou Weekly*, 1100 University Place. You must include your name and phone number so we can reach you, if necessary. All questions remain anonymous.
