With a view to the preservation of the Edifice, heavy charges will be made for any damages wrongfully committed. It is to be hoped there will be no occasion to add this item to the expenditures of any Student.

### PAYMENT OF BILLS.

It is provided, by Ordinance of the Curators, that no Student be admitted by the President to the exercises of the University for any Session, until he present a certificate from the Treasurer of the Board that his bill for tuition and contingencies has been paid, and that no drawback be allowed for absence in any case.

### REMISSION OF TUITION FEES.

Indigent Students presenting a certificate of good moral character from the Curator of the Judicial District in which they reside, are admitted to all the exercises of the University, free of expense, except the contingent fee of one dollar per Session.

### DISCIPLINE.

Records are kept by the Faculty, exhibiting accurately the standing of each Student in scholarship and deportment. A low standing on either record will be followed by a private admonition, and notice of the same will be given to the parent or guardian. Unexcused absence from a public examination, or continued delinquency, may subject the offender to degradation to some lower class, or to separation from the Institution. It is believed, however, that a prompt and judicious co-operation on the part of parents or guardians, will relieve the Faculty from the necessity of resorting to severe measures; and that the ends of good government may be secured by means that will save the feelings and the character of the Student.

### LEAVE OF ABSENCE.

It is deemed quite unnecessary, during the Session, for Students to visit their friends beyond the immediate neighborhood of the University, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

## GENERAL REMARKS.

---

The University of the State of Missouri was chartered by the Legislature during the Session of 1838-9, and went into full operation under its present organization, on the first of January, 1844; since which time it has been in successful operation, affording to Students the educational advantages ordinarily enjoyed in similar Institutions.

The University Edifice, a spacious, tasteful and commodious building, was erected at an expense of about \$85,000, by the liberality of the citizens of the county of Boone, in which it is located.

The annual revenue of the Institution, exclusive of fees for Tuition, is the income of a State fund of \$100,000, being the proceeds of the sales of lands, donated by Congress to the State, for University purposes. The principal is well invested and is legally inviolable.

Columbia, the seat of the University, is situated near the center of the State, ten miles north of Providence on the Missouri river. The town contains about 1000 inhabitants. It is confidently believed that no location combines more advantages for the site of a Literary Institution. It is not surpassed in healthfulness; and in those social, moral and religious influences which are conservative of the character of young men, and promotive of good order and industrious habits of study.

The University is easily accessible by the river during the greater part of the year. At the landing in Providence carriages will always be in readiness to convey passengers to Columbia. There is also constant communication with St. Louis and with the upper counties by stage.

Should farther information be desired by parents or guardians, it may be obtained by addressing the President of the University or either of the Professors.
