CHANCELLORS

HERBERT W. SCHOOLING, Columbia Campus

WESLEY J. DALE (*Acting*), Kansas City Campus

RAYMOND L. BISPLINGHOFF, Rolla Campus

ARNOLD B. GROBMAN, St. Louis Campus

The University of Missouri is one university with four campuses—Columbia, Kansas City, Rolla, and St. Louis. Established in 1839 at Columbia (oldest and largest of the four campuses), the University is recognized as the first state university west of the Mississippi River. Designated a land-grant university in 1870, it has extended its educational benefits to all sections of Missouri in addition to its traditionally assigned tasks of teaching and research within the campus settings. The University is governed by a Board of Curators. The President of the University and his staff coordinate programs of all four campuses. The Chancellors are the chief academic and administrative officers for their respective campuses.

All statements in this publication are announcements of present policies only and are subject to change at any time without prior notice. They are not to be regarded as offers to contract.

an equal opportunity institution

TO FUTURE UMC STUDENTS

This booklet will answer your questions concerning requirements and application procedures for admission, housing, educational costs, and the broad scope of educational opportunities offered by the University of Missouri-Columbia.

School and College announcements discuss specific courses offered and detailed material on requirements and degrees. After you have studied this information *Bulletin*, we hope you will write for the announcement of the school or college in which you are most interested. Each student upon registration will receive an *M Book*, which includes valuable information on regulations, procedures, services, and activities at UMC.

An application for admission is included in the center-fold. You may obtain additional applications, or arrange a visit to the campus, by writing Office of Admissions, 130 Jesse Hall, University of Missouri-Columbia, Columbia, Mo. 65201.

Administrative Officers

Herbert W. Schooling, Ed.D., Chancellor

Walter C. Daniel, Ph.D., Vice-Chancellor

G. H. Entsminger, M.A., Vice-Chancellor for Alumni Relations and Development

James H. Banning, Ph.D., Vice Chancellor for Student Affairs

Owen J. Koeppe, Ph.D., Provost for Academic Affairs

John F. McGowan, Ed.D., Provost for Administration

Joseph M. White, M.D., Provost for Health Affairs

Leonard C. Douglas, Ed.D., Dean of Extension

Lloyd E. Berry, Ph.D. (Cantab), Dean of the Graduate School; Director of Research

Gary L. Smith, Ed.D., Director of Admissions and Registrar

Dean of the Faculty of the College of Business and Public Administration

Elmer R. Kiehl, Ph.D., Dean of the Faculty of the College of Agriculture

Armon F. Yanders, Ph.D., Dean of the Faculty of the College of Arts and Science

Bob G. Woods, Ph.D., Dean of the Faculty of the College of Education

William R. Kimel, Ph.D., Dean of the Faculty of the College of Engineering

Margaret W. Mangel, Ph.D., Dean of the Faculty of the College of Home Economics

Roy M. Fisher, B.S., Dean of the Faculty of the School of Journalism

Willard L. Eckhardt, J.D., Dean of the Faculty of the School of Law

Edward P. Miller, Ph.D., Dean of the Faculty of the School of Library and Informational Science

Charles C. Lobeck, Jr., M.D., Dean of the Faculty of the School of Medicine

Gladys A. Courtney, Ph.D., Dean of the Faculty of the School of Nursing

H. George Frederickson, Ph.D., Dean of the Faculty of the College of Public and Community Services

Kenneth D. Weide, D.V.M., Dean of the Faculty of the College of Veterinary Medicine

A WELCOME

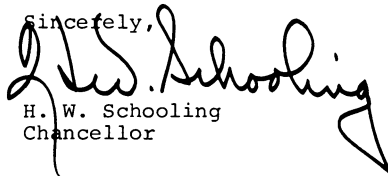

.....to students of the University of Missouri-Columbia

Whether you are returning to the campus or are here for the first time, we welcome you. The months and years ahead will include many significant experiences. We hope you will receive much from your University since your development is a major concern of the institution.

At the University of Missouri-Columbia exciting things are made to happen. It is more than a place of beautiful structures, of faculty and students, of courses and curricula, of organizations and events. It is a dynamic institution where individuals can grow in stature of intellect, in breadth of experience, in cultural awareness, and in self-realization.

The University of Missouri-Columbia is so rich in educational, cultural, social and recreational opportunities that it would take a lifetime to avail oneself of them all. Our task is to help you develop your interests and aspirations, and assist you in becoming so fully acquainted with the resources of the University that our campus will be of utmost benefit to you.

Working directly with today's college student is an opportunity that faculty, staff and administrators enjoy. I hope that sometime during your career here it will be my good fortune to meet with you personally.

Sincerely,

H. W. Schooling
Chancellor

The University

The University of Missouri is one university with four campuses—Columbia, Kansas City, Rolla, and St. Louis.

The campus, established at Columbia in 1839 (only 18 years after Missouri became a state), is recognized as the first state university west of the Mississippi River. Designated a Land-Grant University in 1870, it since has extended its educational benefits to all sections of the state of Missouri in addition to its traditionally assigned tasks of teaching and research within the campus settings.

The University remained a single campus institution until 1870 when the University of Missouri School of Mines and Metallurgy was established at Rolla. Campuses at St. Louis and Kansas City were added to the University in 1963.

With the opening of the 1977-78 academic year, the University of Missouri-Columbia, largest and oldest of the four campuses, will begin its 139th year.

Curricula and Degrees

With 16 divisions, UMC offers an excellent opportunity for interdisciplinary studies and research. As an entering freshman, you may elect to enter the College of Agriculture; the College of Arts and Science; the College of Education (includes the Allied Health Sciences*); the College of Engineering; the College of Home Economics; the College of Public and Community Services; the School of Forestry, Fisheries and Wildlife; or the School of Nursing.*

With junior standing, you may enter the College of Business and Public Administration (requires 2.0/4.0 GPA), or the School of Journalism (requires 2.75/4.0 GPA).

Advanced study is available in the School of Library and Informational Science, the Graduate School, the College of Veterinary Medicine* (a minimum of two years of pre-professional studies required), and the Schools of Medicine* and Law.*

COLLEGE OF AGRICULTURE

The College of Agriculture gives students an excellent opportunity to prepare for productive professional careers in agriculture and related areas. Using the total University facilities and faculty, the College offers the Bachelor of Science (B.S.) degree in program areas under agricultural economics, agricultural education, agricultural journalism, agricultural mechanization, agronomy, animal husbandry, atmospheric science, biochemistry, dairy husbandry, environmental science, extension education, food science and nutrition, horticulture, pest management, poultry husbandry, or rural sociology, and a pre-veterinary medical program. The College offers Master of Science (M.S.) and Ph.D. degrees in entomology, plant pathology, and the above program areas, except for agricultural education, agricultural

journalism, and pest management, and the pre-veterinary medical program.

Within the college, a personalized counseling service helps students in choosing not only a career, but also particular courses and activities that contribute to their career and educational objectives. Flexibility to meet individual needs is provided through the Honors Program, available to students with at least a 3.0 GPA. Honors students, in cooperation with faculty advisers, design programs tailored to meet their specific educational objectives.

In the special student non-degree program, students enroll in a series of practically designed and applicable courses. Upon completion of two years of full-time work, a special certificate is awarded. Special students achieving satisfactory college work may qualify as regular students and become candidates for a degree.

The College of Agriculture's educational programs prepare graduates for professional careers in a wide variety of agricultural areas, including agriculture-related business. Some students continue their studies in fields such as law, medicine, veterinary medicine, international agriculture and relations, or for an advanced degree in some phase of agriculture.

**Because of limited enrollment and/or higher minimum standards, general acceptance as a student at the University of Missouri-Columbia does not guarantee acceptance to specialized or professional programs.*

COLLEGE OF ARTS AND SCIENCE

The College of Arts and Science offers baccalaureate degrees (A.B.) in the following areas: anthropology, art, art history and archaeology, biological sciences (including emphasis on biology, microbiology, and ecology), chemistry, classical studies (including classical civilization), economics, English (including creative writing), French, geography, geology, German, history, interdisciplinary studies, Italian, Latin American studies, library science, mathematics, music, peace studies, philosophy, physics, political science, psychology, Russian, Russian area studies, sociology, South Asian Studies, Spanish, speech and dramatic art, and statistics. For those desiring more highly specialized training, a Bachelor of Music degree and Bachelor of Science degrees in chemistry, geology, and physics are also offered. The College also offers on an experimental basis a special baccalaureate degree in General Studies; only a limited number of students are accepted each year.

In addition, several of the above listed Areas of Concentration may be arranged with minor emphasis on black studies.

Students planning to enter the Colleges of Business and Public Administration and Veterinary Medicine, or the Schools of Journalism, Law, and Medicine are often enrolled in the College of

Arts and Science for their pre-professional training.

All departments in the College of Arts and Science have graduate programs leading to the Master's degree; in addition, fifteen departments offer programs leading to the Ph.D. degree.

COLLEGE OF EDUCATION

The College of Education offers programs for students interested in preparing for teaching careers in public and private schools from the kindergarten level through college. Preparation is provided also in such specialized fields as school administration and supervision, teaching the handicapped, guidance and counseling, and school psychology. A Certificate of Secretarial Proficiency that provides both a general education background and the essential secretarial skills is also offered.

At the undergraduate level, the College of Education confers the following degrees: Bachelor of Science in Education (B.S. in Ed.), Bachelor of Education Studies (B.E.S.), and the Bachelor of Science (B.S.) in respiratory therapy, medical technology, occupational therapy, physical therapy, and radiologic technology. The B.E.S. is a new degree program that provides preparation for educational planning and leadership in non-school settings.

The College of Education provides programs for students pursuing work leading to the Master of Education degree (M. Ed.), Master of Arts degree with a major in education (M.A.), the six-year Certificate of Specialization, and the Doctor of Philosophy (Ph.D.) with a major in education and Doctor of Education (Ed.D.) degrees. Comprehensive graduate programs are offered in such fields as counseling and personnel services, curriculum and instruction, educational administration, educational psychology, health and physical education, higher and adult education, practical arts and vocational-technical education, special education, and social and philosophical foundations of education.

COLLEGE OF ENGINEERING

The College of Engineering offers innovative, individualized, interdisciplinary programs.

Students specialize in health care, soil conservation, electric power production, image analysis, water resources, graphic communications, food processing, and more.

Fully accredited by the Engineers' Council for Professional Development, programs lead to a Bachelor of Science degree in agricultural, chemical, civil, electrical, industrial, or mechanical engineering.

Master of Science and Doctor of Philosophy degrees are also offered in these disciplines as well as in nuclear engineering. A Master of Science degree is offered in sanitary engineering.

COLLEGE OF HOME ECONOMICS

The College of Home Economics is organized to provide professional education at undergraduate and graduate levels for students in one or a combination of five subject areas: child and family development; clothing and textiles; family economics and management; housing and interior design; or human nutrition, foods and food systems management. Students may plan programs offered in conjunction with the College of Education, the College of Business and Public Administration, the School of Medicine,

and the School of Journalism. Both master's and doctoral degrees are offered with emphases in any of the five subject areas. Master's degrees are also offered in home economics communications.

A student in any of the majors may plan a professional emphasis oriented to business or industry, education, extension, government, rehabilitation, journalism, graduate study, or research. A great variety of jobs are available, particularly for those with graduate degrees.

Students in Family Economics and Management may now emphasize management in rehabilitation, a relatively new field.

Two dietetics programs, Medical Dietetics and Food Systems Management, include hospital experience and qualify the student for membership in the American Dietetic Association and eligibility for registration with the American Dietetic Association upon graduation with the B.S. degree. Another dietetics program offered requires an internship or supervised experience following graduation.

In the College of Home Economics undergraduate professional programs are accredited by the American Home Economics Association. In addition, the Housing and Interior Design program is accredited by FIDER (Foundation for Interior Design Education Research), and the coordinated dietetics programs are accredited by the American Dietetic Association.

COLLEGE OF PUBLIC AND COMMUNITY SERVICES

Within the College of Public and Community Services there are three academic units: the Department of Recreation and Park Administration, the Department of Regional and Community Affairs, and the School of Social Work. The College also includes two non-academic units, the Institute for Public Safety Education and the Center for Aging Studies.

The Department of Recreation and Park Administration offers a Bachelor of Science degree in Recreation and Park Administration. The graduate program in this Department leads to a Master of Science degree.

The Department of Regional and Community Affairs offers a two-year graduate program leading to a Master of Science in Community Development. The Department also offers a nine-month diploma program in Community Development.

The School of Social Work offers both undergraduate and graduate programs in professional social work education. Students receiving the B.S.W. degree and meeting the criteria for admission can complete the M.S.W. program in one additional year.

The Institute for Public Safety Education is a training, research, and technical services organization in law enforcement and fire safety.

The Center for Aging Studies provides graduate stipends for students interested in gerontology and encourages the development of aging related course work across the campus.

SCHOOL OF FORESTRY, FISHERIES AND WILDLIFE

The School of Forestry, Fisheries and Wildlife offers undergraduate education in five curricular programs: (1) forest management, (2) forest science and specialization, (3) urban and recreational forestry, (4) wood products, and (5) fisheries and wildlife. The first four of

these lead to the B.S. degree in Forestry and the fifth to a B.S. degree in Fisheries and Wildlife.

The forestry education prepares students for:

1. professional and administrative positions in wildland management;
2. graduate work or limited specialization at the undergraduate level;
3. recreational forest land management and planning, or forestry positions in the wood-using industries.

Considerable flexibility is available within each option. These programs are accredited by the Society of American Foresters.

The fisheries and wildlife curriculum prepares students primarily for positions with federal agencies and state departments of conservation. Limited opportunities are also available in consulting and teaching.

Graduate work leading to the M.S. and the Ph.D. is offered for students having an undergraduate degree in forestry, fisheries and wildlife or a related field, and an interest in either professional activity or a science basic thereto. Several research and teaching assistantships are available to students pursuing graduate work.

SCHOOL OF NURSING

The School of Nursing offers both undergraduate and graduate programs in nursing. The undergraduate program offers preparation for general professional nursing and leads to the degree Bachelor of Science in Nursing. (Admission to another division of the University does not guarantee admission to the B.S. program.) The graduate program leads to a Master of Science degree. The four-semester program provides opportunity for clinical specialization and functional preparation in teaching, administration, or clinical research. The program can be individualized according to background experience and future professional goals.

COLLEGE OF BUSINESS AND PUBLIC ADMINISTRATION

Undergraduate students in the College of Business and Public Administration select one of the 17 curricula offered by the College. These include accountancy, business logistics, finance and banking, general business, management (administrative, operations, personnel), marketing, real estate, risk and insurance, secretarial science, public service, public affairs, practical politics, administration, economic planning, and measurement in the public sector. Students who complete the requirements in the Public Administration curriculum receive a Bachelor of Science in Public Administration (B.S.P.A.); those who complete the requirements in the other curricula are awarded a Bachelor of Science in Business Administration (B.S.B.A.).

The College has graduate programs leading to the following degrees at the Master's level: Master of Business Administration (M.B.A.), Master of Arts (M.A.) in Accountancy, Master of Science (M.S.) in Accountancy, and Master of Science (M.S.) in Public Administration. The College also offers programs which lead to the degree of Doctor of Philosophy (Ph.D.) in the fields of accountancy and of business administration.

SCHOOL OF JOURNALISM

The course of study leading to the Bachelor of Journalism (B.J.) degree requires students to spend approximately three-fourths of their time in the liberal arts and sciences and one-fourth in professional journalism work. The student may choose a major area in journalism from among six sequences and several related areas of concentration.

The sequences, all accredited by the American Council on Education for Journalism, are advertising, magazine, news-editorial, newspaper publishing, photojournalism, and radio-television. Journalism students do their laboratory work on a community daily, *The Columbia Missourian*; an educational radio station, KBIA; and KOMU-TV.

The objective of graduate work leading to the Master of Arts degree in journalism is to build a broad understanding of the profession on the student's undergraduate education by study in professional courses, in communication theory, and in the liberal arts and sciences; and (under Plan A) by development of the ability to conduct research reflecting independent thought; and (under Plan B) by development of a high level of professional competency in a designated area of journalism.

The main objective of doctoral study in journalism is to develop advanced re-

search facility and to integrate this skill and orientation with a depth of general scholarship in mass communications.

SCHOOL OF LIBRARY AND INFORMATIONAL SCIENCE

The objective of the School of Library and Informational Science is to educate persons to serve libraries and other information services of the future. The undergraduate program leads to the degree of Bachelor of Arts in the College of Arts and Science. The program leading to the degree of Master of Arts is accredited by the American Library Association. It provides for a number of sequences, including specialization in school, public, and academic libraries; special librarianship and technical information center administration; work with children and youth; health science librarianship; automation and technical services; and information systems.

The curriculum is based upon the premise that the best education of a librarian includes a broad, substantial background in the liberal arts and sciences and some specialization in a particular academic subject, in addition to specific professional courses in librarianship. Cooperative programs providing for subject specialization in other disciplines are available in individual programs.

GRADUATE SCHOOL

Students from the various colleges and schools of UMC wishing to pursue advanced degrees are enrolled in the Graduate School. Students pursuing the first professional degree, however, are enrolled in the School of Law, the School of Medicine, or the College of Veterinary Medicine.

See the *Graduate School Bulletin* for admission and degree requirements.

COLLEGE OF VETERINARY MEDICINE

The College of Veterinary Medicine offers instruction at the professional level leading to the Doctor of Veterinary Medicine (D.V.M.) degree. Only 72 students are admitted each year. Good academic performance in the pre-veterinary program is required to be considered for

admission. Students with less than a 2.5 ($A=4.0$) GPA are not considered.

A program leading to a Master of Science (M.S.) degree is offered in veterinary anatomy-physiology, medicine and surgery, microbiology, and pathology. The D.V.M. is usually a prerequisite for graduate study, but in some departments a B.S. degree in an allied field is acceptable.

Graduate work leading to the Ph.D. degree is now offered in veterinary anatomy-physiology, microbiology, and pathology. Some assistantships and scholarships are available to qualified graduate students.

Residency programs are offered in the specialty areas, such as surgery, radiology, public health, anesthesiology, and theriogenology. This program is designed to qualify the individual for the specialty board examinations.

Students learn clinical veterinary medicine in the Teaching Hospital. Instruction and experience are provided in the diagnosis and treatment of diseases of companion, laboratory and food producing animals and equines.

SCHOOL OF MEDICINE

The Doctor of Medicine (M.D.) degree is offered upon successful completion of the four-year program in the School of Medicine. To be eligible for admission, a student must have completed three years of college or 90 semester hours; however, while an undergraduate de-

gree is not required, it is strongly recommended.

Qualified individuals are encouraged to work toward a dual-degree program, combining the M.D.-M.S. or M.D.-Ph.D. degrees.

Master's-M.D. programs are available in all the biomedical sciences—anatomy, biochemistry, microbiology, pathology, pharmacology, and physiology, as well as in public health, health services management, and community health education.

An M.D.-Ph.D. six year program is offered for the student seeking a biomedical research career. Ph.D. programs are available in anatomy, biochemistry, microbiology, nutrition, pathology, pharmacology, medical psychology, and medical sociology, and in various disciplines of other schools and colleges on campus.

After completion of the M.D. degree, first-year graduate medical education programs are offered in the clinical areas of anesthesiology, child health (pediatrics), family practice, internal medicine, obstetrics/gynecology, pathology, physical medicine and rehabilitation, psychiatry, radiology, and (general) surgery.

Residency training is offered in the above-mentioned clinical specialities and in dermatology, general preventive medicine, ophthalmology, child psychiatry, neurological surgery, orthopedic surgery, otolaryngology, plastic surgery, thoracic and cardiovascular surgery, and urology.

Bachelor of Science degrees are offered in six allied health professions, through cooperative programs with other divisions on campus. Students take their clinical training in the Medical Center complex in medical technology, radiologic technology, occupational therapy, physical therapy, respiratory therapy, and nutrition and dietetics.

A hospital-based two-year program leading to certification, but not to a degree, is also offered in radiologic technology.

Seminars and workshops for practicing physicians and other health professionals are held throughout the year as part of the program for continuing education.

SCHOOL OF LAW

The School of Law offers a professional curriculum, which extends through three full academic years of work, leading to the degree of Juris Doctor (J.D.). Students entering without a baccalaureate degree must receive an undergraduate degree before or concurrently with graduation from Law School.

Students entering Law School must have completed in residence at least 90 hours of approved college work acceptable toward a baccalaureate degree (for courses that cannot be used to satisfy this requirement consult the *Law Bulletin*; applicants with a baccalaureate degree are given preference for admission to the School of Law.) In addition, an applicant for admission must have a sufficiently high undergraduate grade point average, writing ability, and a Law School Admissions Test score to indicate reasonable probability of success in Law School. Currently, all qualified applicants cannot be admitted because of limited facilities; therefore, admission is on a selective basis.

UNIVERSITY EXTENSION DIVISION

Students who wish to enroll for undergraduate or graduate credit courses may do so through Independent Study by correspondence instruction, or the Off-Campus Credit Program, administered by the Extension Division. Thousands of students enroll annually in correspondence study courses or in credit courses administered through the Extension Teaching Program in various locations throughout the state. The Extension Division also administers a variety of non-credit courses, both on and off campus, from most academic departments of the University.

For information concerning credit courses offered off campus via extension, contact the Extension Teaching Program, 105 Whitten Hall; College of Education Off-Campus Credit Program, 203 Hill Hall; and for courses offered via correspondence, contact the Center for Independent Study through Correspondence, 514 South Fifth St. Non-credit program information may be obtained from the campus Extension Dean's Office, 108 Whitten; Conference & Short Course Center, 344 Hearnes Bldg; and divisional dean or departmental offices.

GENERAL REQUIREMENTS

Program of Studies—Credit Hours

Undergraduate students wishing to carry fewer than 12 credit hours in any semester should contact the Dean of their School or College. Normal registration is 15 or 16 credit hours.

The unit of credit given in the University of Missouri-Columbia, the semester or credit hour, is the equivalent of a subject pursued one period per week for one semester. Thus, a two-hour course meets two periods per week for a semester—a five-hour course meets five periods per week for a semester. The lecture or recitation period is fifty minutes in length, and the usual laboratory period an hour and fifty minutes.

State Requirement

Each candidate for an undergraduate degree at the University of Missouri-Columbia must present as a requirement for graduation a course or courses in American History, Institutions, and National and State Constitutions.

If a student is working for two baccalaureate degrees, this requirement will apply to the first degree only. Transfer students should inquire at the office of the dean of their respective school or college to determine whether this requirement has been satisfied.

Grading System

The grades used to report courses taken toward a bachelor's degree are *A*, *B*, *C*, *D*, *F*. The grade *A* indicates superior work; the grade *B*, above average work; and *C*, average work. The grade *D* indicates that the student's work is below average, the grade *F* that the work done is undeserving of credit. The Schools of Law and Medicine use *S* and *U*, with *U* receiving no credit.

The grades of graduate students in all courses which count toward an advanced degree are reported as *A*, *B*, *C*, or *F*. The grade *A* means that the student's work in a course is of outstanding merit and is an honor grade. The

grade *B* means that the student's work in a course is entirely satisfactory. The grade *C* means that the student's work in a course will be considered satisfactory to limited extent in fulfilling the requirements for advanced degrees. There is no *D* grade for graduate students. The grade *F* means that the student's work in the course has not satisfied the minimum necessary for passing the course.

Under certain conditions undergraduate students may be permitted to carry a limited part of their academic program on a Satisfactory-Unsatisfactory grading system. Under this plan, Satisfactory (*S*) means *C* or better. Unsatisfactory (*U*) means *D* or *F* and carries no credit. *S* and *U* grades are not incorporated in the grade point average.

The grade point average for any period is obtained by dividing the total number of grade points earned ($A=4$ points, $B=3$, $C=2$, $D=1$, $F=0$) by the total number of hours for which the student was enrolled during that period. Courses in which a student receives the grade of *S* or *U*, certain ROTC credit, and courses from which a student has been excused or in which the grade is "delayed" are not included in the grade point average.

Both grades are included in the GPA in the case of courses repeated; no grades from other University of Missouri campuses, or other institutions of higher learning, are included; all ex-

tension and independent study credits are included. Since advanced credit awarded on the basis of superior performance on either University or departmental examinations is not graded, the credit is not included in the compilation of the grade point average.

Scholastic Penalties

Students who do not maintain satisfactory scholastic averages become subject to scholastic penalties. While University faculty regulations govern the minimal scholastic record required to continue in good standing, individual divisional faculties have their own regulations governing scholastic status. These regulations are printed in many of the divisional announcements, but students should consult their divisional dean's office for specific information about scholastic penalties. Students who do not maintain satisfactory scholastic averages may become subject to dismissal.

Dual Graduate and Undergraduate Enrollment

Seniors who at the beginning of their last semester rank in the upper half of their class and who need fewer than 15

hours to graduate may be permitted, with the approval of the appropriate deans, to register simultaneously in the Graduate School for courses sufficient to make a full program. Students pursuing such a program are said to be dually enrolled.

Qualified undergraduates who do not avail themselves of the opportunity of dual registration will not receive credit in the Graduate School for credit above graduation requirements earned in the undergraduate divisions.

ADDITIONAL PROGRAMS

Credit by Examination

The University of Missouri-Columbia offers the opportunity for advanced credit by examination to any student with fewer than 90 semester hours of college credit. (CLEP General Examinations are limited to students who have fewer than 30 semester hours of college work.) Credit is awarded, but no grades or honor points are recorded.

The following four programs are used at UMC to award credit by examination:

I. *The Advanced Placement Program (APP)* of the College Entrance Examination Board is accepted by UMC in 12 areas. The English examination is not accepted, because a similar test is required through FPT. Those students who receive a score of 3 or higher (out of a possible 5) are eligible for college credit, with a maximum of 5 semester hours for each examination completed.

II. *Freshman Placement Tests (FPT)* are required of all entering students who have completed fewer than seven semester hours of college credit. An English placement test and a mathematics placement test are a basis of credit in English and college algebra. Those who qualify in English will be assigned to Honors Exposition GH65. Advanced credit (3 hours) will be assigned to all students satisfactorily completing the course. Those who qualify in Mathematics 10 may obtain advanced placement in mathematics, and are awarded advanced credit (3 hours) as well.

III. *The College-Level Examination Program (CLEP)* of the College Entrance Examination Board provides two series of examinations:

A. *The General Examinations* cover five broad subject matter areas. They are limited to

students who have fewer than 30 semester hours of college credit. *The College of Arts and Science and the College of Business and Public Administration do not accept this credit, but the other undergraduate schools and colleges will accept from 18 to 30 hours.*

B. *The Subject Examinations* cover 31 specific subjects and are generally accepted by all schools and colleges at UMC. Credit from 3 to 6 semester hours is granted for each semester for which the examination is designed.

Credit may be awarded for the General Examinations and/or the Subject Examinations. However, the credit must be applicable in a student's program of study, and if results of both General Examinations and Subject Examinations are submitted, duplicate credit will not be awarded in the same subject. Students placing in the 50th percentile or higher (on college sophomore norms) on either examination are eligible to receive advanced standing credit.

IV. *Departmental Examinations (DE)* are comparable to final examinations given in the various courses offered on the campus. The examinations are objective or essay formats, and are prepared and graded by the faculty of the subject matter departments concerned and the UMC Counseling Services.

For reasons of advisement and course selection, it is suggested that the APP and the CLEP forms of credit by examination be taken prior to registration at the University of Missouri-Columbia. Arrangements for Departmental Examinations should be made through UMC Counseling Services, 1 Parker Hall. For further information, you may request the brochure, "Credit by Examination."

The Honors College

The Honors College offers a variety of special courses and degree programs to all undergraduates who maintain a cumulative grade point average of 3.30 or higher. (Entering freshmen are eligible for most Honors courses if they ranked in the upper 15 per cent of their high school classes and scored in the upper 15 per cent on the Freshman Placement Tests.) These offerings include General Honors courses, small interdisciplinary seminars not duplicated in the regular curriculum; opportunities for independent study and participation in a pro-

fessor's research; and special Honors sections in large departmental lecture courses. Students may earn a General Honors Certificate, notation of which appears on the transcript, by taking a broad distribution of Honors courses in several academic areas.

In addition, the Honors College coordinates a number of special departmental Honors degree programs within the College of Arts and Science. Completion of such a program earns the student a notation "B.A. with Honors" on both the transcript and the diploma. The following departments offer Honors degree programs: anthropology, art history and archaeology, biological sciences, chemistry, classical studies, economics, English, geography, geology, Germanic and Slavic studies, history, mathematics, philosophy, physics, political science, psychology, Romance languages, sociology, speech and dramatic art, statistics, and the area of linguistics. The departments of art, computer science, and music have Honors courses, but do not currently offer Honors degrees.

For further information on any of these programs, students should contact the Honors College, 612 Kuhlman Court.

Interstate Agreements with Kansas and Nebraska for Exchange of Students on Resident Fee Basis

By joint agreement of the Board of Curators of the University of Missouri, and the Boards of Regents of the Universities of Nebraska and Kansas, qualified Missouri residents may enroll in certain programs in Kansas and Nebraska and be charged at the rate paid by students residing in these states. Conversely, qualified Kansas and Nebraska students may enroll in certain programs on one of the campuses of the University of Missouri and be charged fees at the rate paid by Missouri residents.

Those programs covered at the University of Nebraska are architecture, community and regional planning, construction science, and actuarial science.

The University of Kansas-Lawrence offers programs in foreign language (Oriental language and literature) and architecture. Kansas State University-Manhattan programs covered are architecture, grain milling and technology, and nuclear engineering.

Interested students should apply directly to the above-mentioned schools.

Study Abroad

Students from all fields of study (including language, education, journalism, agriculture, and the liberal arts) are encouraged to consider a Study Abroad experience. UMC language departments offer both summer school and yearly programs abroad. The College of Education sponsors a spring semester at the University of Reading, England. The College of Agriculture organizes a winter study session which travels to Latin-American agricultural research stations and a spring session in Europe to focus on their agricultural methods. Study abroad programs have been approved from a variety of other institutions including the Experiment in International Living, the Institute of European Studies, Interfuture, and others. Early planning is essential for a successful Study Abroad program during upperclass years. Interested students should contact the Study Abroad Adviser, 114 Read Hall, for further information about University-sponsored programs and independent study areas.

Admission

Inquiries regarding entrance to *all* divisions of the University of Missouri-Columbia should be addressed to the Director of Admissions, 130 Jesse Hall.

All new students are required to submit an application for admission to UMC.* There is no fee charged for application evaluation.

Upon notification of acceptance to the fall or winter semester, all new students will be requested to submit a non-refundable advance payment of fees. A pre-payment of \$20 is required in all schools and colleges except the School of Law (\$50); the School of Medicine (\$100); and the College of Veterinary Medicine (\$100).

FRESHMEN

Admission to the freshman class is determined by a combination of the applicant's high school class rank and a required aptitude test score. Results from one of the following tests must be submitted: School and College Ability Test (SCAT, Series II, Form IC or Form IIB); American College Test (ACT); Scholastic Aptitude Test (SAT) of the College Entrance Examination Board; or the Ohio State University Psychological Examination (OSUPE). In addition to an admission test, freshmen are required to take the Freshman Placement Tests prior to registration.

An out-of-state freshman applicant must be a graduate of an accredited high school, and the combination of the class rank and aptitude test score must indicate an appreciably higher probability of success than the standards applied to Missouri freshman applicants.

A student who is not a graduate of a four-year high school and who is at least 21 years of age may qualify for admission to the freshman class by examination. The examination will presume training and experience compensating for

**Supplemental applications are required for admission to the School of Nursing, the College of Veterinary Medicine, the School of Medicine, and the School of Law.*

the lack of formal training in an accredited high school. Adults, military personnel, and veterans may qualify for admission by satisfactorily passing the high school level General Education Development tests.

Entering freshmen must submit an application for admission, a high school transcript certified by the proper official of the school in which the credits were earned, and an official test score. (A report of medical history will be required after acceptance and prior to enrollment.)

Credentials for entering freshmen should be submitted according to the following schedule:

Fall Semester—after October 1, before May 1
Winter Semester—before December 1
Summer Session—before May 1

TRANSFER STUDENTS

Transfer applicants must present college transcripts indicating an overall 2.0 grade point average to be eligible for admission. In addition, the final semester record must show grades of C or better in each course attempted. UMC may not admit any student who is under suspension or dismissal, or whose previous record shows work of an inferior or unsatisfactory quality.

Credit hours in the form of advanced standing may be allowed for work satisfactorily completed in another college or university of recognized standing. Evaluation of course work applicable toward a degree is determined by the Dean of the school or college in which the student enrolls. Courses with grades of *D* are not generally accepted. Advanced standing for senior-year work will usually not be granted.

Credit by examination (i.e., APP, CLEP) and pass/fail type credit should be clearly identified on the student's transcript and will be accepted by UMC only to the same extent that they are accepted for transfer from any other institution or among the campuses of the University of Missouri. Students should consult the Dean of their school or college for further policy information.

Students transferring to UMC from an accredited Missouri junior or community college with an Associate of Arts degree must have at least 60 hours of college-level work oriented toward the baccalaureate degree, including no less than 36 hours distributed as follows:

Communication Skills	6
Humanities—Fine Arts	Not less than 9
Social-Behavioral Science	Not less than 9
Science—Biological & Physical	Not less than 9
Mathematics	3

These junior college transfers will be enrolled under the following policy:

A student admitted to the University, holding the Associate of Arts Degree with a certified C average will be accepted by the University (except for the professional schools of Law, Dentistry, Veterinary Medicine, Pharmacy, Medicine, and Journalism) as (1) having junior standing, and (2) having completed "General Education Requirements."

This action does not waive nor alter any course requirements, elementary or otherwise, that are required for the particular degree sought.

Students transferring to UMC without an A.A. degree oriented toward a baccalaureate degree will have their transcripts evaluated on a course by course basis.

Official transcripts from each college attended should be filed with the Director of Admissions. Students entering the College of Arts and Science or the School of Journalism must submit a high school transcript. All credentials submitted for admission will be retained by UMC.

Credentials for transfer students should be submitted according to the following schedule:

- Fall Semester—before July 1
- Winter Semester—before December 1
- Summer Session—before May 1

GRADUATE STUDENTS

Admission to Graduate School at UMC requires graduation with a satisfactory record from a college or university accredited by the North Central Association of Colleges and Secondary Schools, or other similar regional accrediting associations. All entering graduate students, except those in departments requiring Miller Analogies, Terman Concept Mastery, or ATGSB scores, must submit Graduate Record Examination scores.

Admission to the Graduate School does not in itself entitle the student to candidacy for an advanced degree. The *Graduate Catalog* should be consulted for more details regarding requirements for the various degrees. Applicants should write the Director of Graduate Studies in the department or area of their in-

terest for specific details of programs, entrance requirements, and available fellowships.

Credentials for graduate students should be submitted according to the following schedule:

Fall Semester—before July 1

Winter Semester—before December 1

Summer Session—before May 1

OTHER CLASSIFICATIONS

FORMER STUDENTS

Former UMC students (not currently enrolled) should file requests for permits to re-enroll with the Director of Admissions at least 15 days in advance of registration so that registration materials can be prepared.

HANDICAPPED STUDENTS

Essential physical facilities have been modified to enable the enrollment of severely handicapped students at UMC. This project was supported in part by funds from the Vocational Rehabilitation Administration, U.S. Department of Health, Education, and Welfare. Curbs have been cut down, ramps constructed,

essential elevators installed, and housing facilities modified. Many classrooms, major administrative offices, and student services are equipped for handicapped students. Students must be able to communicate in a manner which will allow instructors to evaluate their classroom performance.

Although any application will be accepted for consideration, preference will be given to applicants from Health, Education, and Welfare Region VI, which consists of the states of Missouri, Iowa, Minnesota, North Dakota, South Dakota, Nebraska, and Kansas. Application materials will be reviewed by the Special Admissions Committee for Handicapped Students.

For additional information and complete application materials, write directly to the Coordinator, Handicapped Student Programs, 125 Gentry Hall.

FOREIGN STUDENTS

Prospective students living outside the United States and its possessions are advised to write the Foreign Student Coordinator, 107 Read Hall, Columbia, Mo. 65201, at least a year prior to the date of desired admission. Information and blanks concerning admission, scholarships, housing, and approximate expenses will be sent to the students. Application papers and official records of previous school work should be furnished to the Director of Admissions, 130 Jesse Hall, Columbia, Mo. 65201. Upon approval, the student will be notified by an official letter. Prospective students should *not* make plans to leave their countries without first obtaining this permission to enter UMC. All students will be required to take the Test of English as a Foreign Language; applicants should write to: Test of English as a Foreign Language, Educational Testing Service, Princeton, New Jersey 08540.

A foreign student now studying in the United States may be admitted to UMC only after completion of at least 9 semester credit hours of acceptable work on the graduate level, or 12 semester hours

on the undergraduate level at the school whose letter of admission was the basis for issuance of the student's visa.

Prior to arrival, all students from other countries must make necessary financial arrangements to have sufficient funds to pay tuition and fees at the time of official registration.

All students from other countries should contact the Director of Housing for housing applications and information when notified they are eligible for admission. New students from other countries are urged to arrive in Columbia five days before the opening of the semester in which they first enter UMC. This enables them to attend orientation programs and meetings designed to acquaint them with the campus, the city of Columbia, and the operation of UMC, and to obtain suitable living quarters.

Upon arrival in Columbia, a new student from abroad should contact the Foreign Student Coordinator (at the above address) who will provide guidance concerning registration procedure, campus locations, and other matters except those of a strictly academic nature.

SPECIAL/UNCLASSIFIED VISITORS/HEARERS*

Special Students: An applicant over 21 years who does not qualify for admission as a regular student, but who by reason of special preparation or attainment may be judged qualified to pursue certain courses, will be admitted as a special student although not as a candidate for a degree.

Unclassified Students: Individuals qualified for admission, but who do not desire to work toward a degree, may be admitted as unclassified students.

Visitors: Visiting students at UMC are eligible to enroll for the summer session only. Each must have established at least seven semester hours of college credit, be in good standing, and be eligible to

*A person who is unable to satisfy the requirements for admission as a regular student will not be admitted to the Schools of Journalism, Law, Medicine, or College of Veterinary Medicine.

return to the last college attended. In addition, the student must possess the necessary prerequisites for enrollment in any course and must maintain a 2.0 grade point average or above to reapply as a visitor.

Hearers: With the consent of the dean and of the teacher concerned, students may be admitted to any courses as hearers if they have the necessary prerequisites. Hearers are registered and required to attend at least one-half of the sessions, but are not required to participate in any of the work of the courses. They receive no credit toward a degree.

SUMMER WELCOME PROGRAM

The University encourages new students to attend the "Summer Welcome" Registration and Orientation Program during the summer before entering UMC. Designed to help new students become a part of the University community, the program is conducted in two-day sessions. It enables an entering student to meet fellow freshmen, upperclassmen, faculty, and staff; take the required Freshmen Placement Tests; and complete, with an adviser's assistance, all necessary registration procedures for the fall semester. Participant evaluations of the program from previous summers have shown that "Summer Welcome" is a valuable and enjoyable experience for all incoming UMC students.

Fees and Expenses

UMC attempts to keep required expenses at a minimum. The following table gives an *estimate* of the necessary school expenses:

ACADEMIC YEAR (August-May)	Semester	Year
Incidental Fee*	\$300	\$600
Basic fee includes laboratory fees, library privileges, health services.		
Student Activities Fee22	.44
Includes student government, student activities, programs, guest lecturers, etc.		
Room and Board**610	1,220
Includes double room in a residence hall, plus 20 meals per week (no Sunday evening meal).		
UMC Annual Cost		\$1,864
Books and Supplies (Estimated)90	180
Includes necessary books and miscellaneous supplies.		
Personal Expenses (Estimated)328	.656
Estimated sum for personal items, entertainment, laundry, limited transportation, etc.		
Estimated Total		\$2,700
Out-of-State Tuition	\$600	\$1,200
Applies <i>only</i> to out-of-state residents (and residents of Missouri for less than one year) attending the University of Missouri, and is to be paid <i>in addition</i> to the Incidental Fee.		
SUMMER SESSION (June, July, August)		
Incidental Fee*	\$150	
For one 8-week term, 5 or more hours.		
Student Activities Fee11	
(\$2 per credit hour for partial enrollments and intersession.)		
Room and Board**260	
Eight-week session, double occupancy (\$130 for 4-week session).		
UMC Summer Session Cost		\$421
Books and Supplies (Estimated)60	
Includes necessary books and miscellaneous supplies.		
Personal Expenses (Estimated)119	
Estimated sum needed for personal items, entertainment, laundry, limited transportation, etc.		
Estimated Total		\$600

*For partial enrollments the incidental fee shall be calculated at the rate of \$34 per credit hour or fraction thereof.

**See Housing

Out-of-State Tuition

(4-, 6- or 8-Week Session)

5 or more hrs.	\$300
4 hrs.	155
1-3 hrs. inclusive	0

Applies *only* to out-of-state residents (and residents of Missouri for less than one year) attending the University of Missouri, and is to be paid *in addition* to the Incidental Fee.

EXPLANATION OF FEES

Incidental Fee: All students enrolled in the University are required to pay an Incidental Fee as follows:

For one semester of approximately 16 weeks (9 or more hours)

For one term of approximately 4, 6 or 8 weeks

(5 or more hours)

For any other sessions not specified above and for partial enrollments, the Incidental Fee shall be calculated at the rate of \$34 per credit hour, or fraction thereof.

Candidates for an advanced degree who have completed in a previous semester or term all requirements but the final examination and the submission to the graduate faculty of a thesis (if required), and who are not regularly enrolled in the Graduate School, must enroll in the Graduate School before the examination may be given or the thesis read. Such students must enroll for examination for no hours credit and pay a fee of \$34. Students who enroll under this rule are not entitled to Student Health Service benefits.

Courses taken as a hearer and courses taken for reduced credit will be counted at their normal credit value in computing the amount of fees to be paid. Students enrolling in zero-credit courses are required to pay fees according to the number of hours of instruction.

Student Activities Fee: Each student registered for resident work on the Columbia campus is required to pay a Student Activities Fee as follows:

For one semester of approximately 16 weeks

(11 or more hours)

For one term of 4, 6 or 8 weeks

(6 or more hours)

For any other sessions not specified above and for partial enrollments, the Student Activities Fee shall be calculated at the rate of \$2 per credit hour or fraction thereof.

UNIVERSITY OF MISSOURI-COLUMBIA

APPLICATION FOR ADMISSION

Instructions

Read Carefully

1. APPLICATIONS for admission and complete transcripts for ALL schools and colleges of the University of Missouri-Columbia should be sent to the Director of Admissions, 130 Jesse Hall, Columbia, Missouri 65201 and should be on file not later than May 1 (Freshmen) and July 1 (Transfer and Graduate Students) for Fall Semester; December 1 for Winter Semester; and May 1 for Summer Session. (Supplemental applications are required for admission to the School of Nursing, the College of Veterinary Medicine, the School of Medicine and the School of Law.)
2. FRESHMEN applicants must submit an official high school transcript (with class rank) and required test scores.
3. UNDERGRADUATE TRANSFER applicants must submit official transcripts from each college attended. (Transfers entering Arts & Science or Journalism must also submit a high school transcript.)
4. GRADUATE applicants must submit an official transcript showing baccalaureate degree and transcript(s) showing any additional graduate work.
5. OUT-OF-STATE APPLICANTS: It is the duty of each applicant to apply and register under the proper residence and to pay the proper tuition fees. A pamphlet giving detailed information on tuition and residence rules may be obtained from the Admissions Office, 130 Jesse Hall or the Cashier's Office, 123 Jesse Hall.
6. FINANCIAL AID: An application for admission to UMC *does not* serve as an application for financial aid. UMC student financial aid applications will not be printed before December of the preceding year and should be obtained in counselor's offices for Missouri high school students and in Student Financial Aid Offices for Missouri community college transfer students. (Please do not duplicate requests).
7. HOUSING: An application for admission to UMC *does not* serve as an application for housing. If housing information (including an application for University owned facilities) is desired, check question 22 or write to the UMC Housing Office. (Please do not duplicate requests.) Brochures and applications for single student housing are printed and mailed beginning in February. Married student forms are available throughout the year.

NOTE: No transcript can be accepted directly from the student; admission status cannot be determined until complete credentials are on file in the Admissions office. Failure to complete this form fully (except questions 18 and 23) or giving of misinformation concerning previous enrollment in other colleges or universities will void your admission. All transcripts become the property of UMC.

Because of limited enrollment and/or higher minimum standards, general acceptance as a student at the University of Missouri-Columbia does not guarantee acceptance to specialized or professional programs.

Some information requested is required by Title VI of the Civil Rights Act of 1964 and Title IX of the Higher Education Amendments of 1972 and is for the purpose of reporting to Federal Compliance Agencies concerning equal education opportunity, in order to keep the records required by the Federal Government, and to assure that there will not be discrimination on the basis of race, color, religion, national origin or sex.

Columbia, Missouri 65201

This \$22 Student Activities Fee is allocated to the following:

Memorial Union Bond Retirement	\$ 6
Warren E. Hearnes Multipurpose Building Bond Retirement	4
Missouri Students Assn. Student Activities	5
Divisional Student Council Programs	1
Student Activities Capital Improvements	4
Associated Students of the University	1
Intramural Program	1
Total	\$22

The \$11 fee for a term of 4, 6, or 8 weeks is allocated in the same proportion to the above.

No additional Student Activities Fee is charged if the student is enrolled simultaneously in a session or semester and in a special intersession.

No Student Activities Fee is charged during the period beginning with the close of regular summer session and ending with the beginning of the fall registration.

No Student Activities Fee is charged if the student is enrolled in courses which are offered off campus, or if the student is enrolled in evening courses.

Non-Resident Tuition: In addition to the Incidental Fee, tuition will be charged to any student who is not a Missouri resident at the time of original registration or who has not been a resident for at least one year immediately preceding such registration. Aliens who are Missouri residents and who fulfill other requirements in the detailed pamphlet, *Tuition and Residence Rules*, may be exempted from paying tuition.

No tuition is charged to a non-resident student who is a full-time academic or administrative staff member of this University, or is the unmarried minor child or spouse of such staff member. Non-resident graduate students on a 25 per cent full-time equivalent or more appointment, or on full-time hourly status, or holding a fellowship which does not include payment of tuition, will not be charged tuition. Graduate students should contact the Graduate School or chairman of the department in which they are interested to determine the fees that might apply in each case. Most

other students who are not residents of Missouri are charged tuition, but in some cases non-residents are exempt from tuition, or tuition is a reduced amount.

It is the responsibility of students to register under the proper residence and pay proper tuition fees, and it is their responsibility to raise the question if there is a possibility that they are subject to such fees.

The Manager of Cashiering, 123 Jesse Hall, or the Director of Admissions, 130 Jesse Hall, will furnish, on request, the pamphlet *Tuition and Residence Rules*, which covers in detail the various cases.

Most non-resident students must pay tuition as follows:

**REGULAR SEMESTER
(APPROXIMATELY 16 WEEKS)**

<i>Number of Semester hours</i>	<i>Non-Resident Fee</i>
10 or more	\$600
9	450
8	350
7	175
1-6 inclusive	none

SUMMER SESSION (4, 6 or 8 WEEKS)

5 or more hours	300
4 hours	155
1-3 hours inclusive	none

TIME AND METHOD OF PAYMENT

All University fees must be paid at the time of registration as a condition of admission to classes. Students who pre-register must pay fees by the announced deadline, or the advance registration will be cancelled and the student will be required to register again and pay fees during the regular registration period.

Fees for room and board may be paid in one of the following ways: one payment for the entire year; one payment in each semester; four payments in each semester.

Personal Checks: Personal checks in payment of fees or other obligations to the University will be accepted only when the amount of the check does not exceed the amount due from the student. Students whose checks remain unpaid after they have been notified,

will be reported to the Office of the Vice Chancellor for Student Affairs for disciplinary action. Furthermore, if the check must be turned over to the General Counsel's Office for collection, a service charge of \$3 will be assessed.

A student presenting a check to the University in payment of student fees which is returned unpaid and remains unpaid after the close of the regular registration period shall be considered a late registrant, and shall be subject to the late registration fee.

Master Charge and BankAmericard credit cards are acceptable toward payment of fees to the credit limit of the cardholder.

SUPPLEMENTAL FEES

School of Medicine \$270 per sem.

College of Vet. Medicine . \$270 per sem.

Music Instruction: In addition to the Incidental Fee the following is charged at UMC for each subject in applied music to cover private instruction of two half-hours per week:

16-week semester \$30
4- or 8-week summer session 15

For one half-hour, when approved:

16-week semester 18
4- or 8-week summer session 9

School of Social Work— Field Instruction

Students enrolled in the following Social Work courses will pay Field Instruction practice fees each semester as follows:

390 Field Instruction I \$25
391 Field Instruction II 25
491 Field Instruction III 40

Late Registration: Any student registering after the close of the regular registration period must pay a late registration fee of \$25.

Residence Hall Social Fee: A fee at the rate of \$3.75 per student per semester for social functions within the University residence halls will be assessed students living in University Residence Halls.

Auto Registration: Students who wish to operate an automobile on campus

must obtain at no charge a registration permit. UMC dormitory residents may purchase reserved parking in the lots adjacent to the residence halls for a non-refundable fee of \$12 per semester. Other parking is available in UMC lots at a cost of \$20 per academic year.

Laboratory Breakages: Breakage or loss of laboratory equipment at UMC due to personal negligence on the part of the student is assessed against the student when the actual value of the supplies exceeds \$1. The amount of this charge is determined by the department chairman.

Military Deposit: Military equipment, including a uniform, is furnished to each student at UMC taking a course in ROTC. A deposit of \$10 is required for all freshmen and sophomores enrolled in the Army and Air Force ROTC courses. The deposit will be returned to the student upon return of the uniform and equipment in satisfactory condition. Students enrolled in the Army courses who fail to complete the first year of enrollment will have withheld from their deposit an amount equal to 50 per cent of the Army Quartermaster Corps price of shoes (approximately \$4) which have been issued to the students. Students enrolled in advanced courses are required to sign an agreement to reimburse UMC for any loss or damage. Freshmen and sophomores enrolled in Army and Air Force ROTC courses are required to sign an agreement to reimburse UMC for any loss or damage in excess of their deposit.

Student Insurance: An accident and sickness insurance plan is available at reasonable cost to students and their dependents. This optional insurance plan is offered to help pay the expense of hospitalization, and emergency medical care and treatment not provided by the Student Health Service while the student is at UMC, and to give further protection while the student is away from campus, such as on weekends and during the summer months. Informa-

tion concerning premiums and coverage is available upon request from the Center for Student Life, the Student Health Service, or the Cashier's Office, 123 Jesse Hall. The majority of students will find it to their advantage to enroll in this insurance plan.

Fees for Special Field Trips at UMC

Field trip fee for Geology (8 weeks)\$67.50
 Field trip fee for Forestry (6 weeks)35.00

In addition to the above, students enrolled for such field trips will pay the regular Incidental Fee.

For various summer camps and field trips other than trips during a regular term, an incidental fee of \$34 per credit hour or fraction thereof is charged. Students who have not been bona fide residents of the state of Missouri for one year, as outlined in the pamphlet *Tuition and Residence Rules*, are required to pay the additional nonresident tuition.

The cost of transportation for any field trip may be charged if furnished by UMC.

Fee for Change in Course: A fee of \$5 must be paid for one or more petitions for change in course filed at any one time.

Fee for Transferring to Another Division: The fee for transferring from one division to another shall be \$5 and shall become effective the day classwork begins. In such cases there is no additional fee for adding or dropping courses.

Reinstatement Fee: A student whose enrollment is terminated for any reason and who later requests readmission within the same semester or term shall be required to pay a \$5 reinstatement fee in addition to regular fees.

Transcript Fee: A fee of \$1 is charged for each official transcript of credits. A fee of 50 cents is charged for all unofficial copies of credits.

Fees for Diplomas and Certificates: A diploma fee of \$5 must be paid for each degree conferred by the University,

and a fee of \$2 for each certificate except the certificate for the completion of the two-year course in agriculture, for which the fee is \$1. Those granted Ph.D. or Ed. D. degrees are furnished hoods, for which the fee is \$20.

Diplomas Held for Delinquent

Indebtedness: A student is required to clear all delinquent indebtedness to the University before a diploma may be released or transcript issued.

Fees for Thesis or Dissertation: The following fees are charged in connection with the submission of a thesis or dissertation:

Master's Degree
 Thesis binding fee\$2
 Microfilming fee3

Doctor's Degree
 \$31 Doctor's dissertation, microfilming, and binding fee.

Refund of Fees: Students leaving school or dropping courses for which they have paid fees will, subject to certain exceptions, receive upon written request to the Manager of Cashiering a refund of fees paid in accordance with the following schedule:

TIME OF WITHDRAWAL	AMOUNT OF FEE TO BE REFUNDED
<i>16-Week Semester</i>	
Before day classwork begins	Full Refund (less \$10 for cost of handling registration)
Within two calendar weeks from day classwork begins	70% Refund
After two calendar weeks and up to and including six calendar weeks	50% Refund
<i>8-Week Summer Session</i>	
Before day classwork begins	Full Refund (less \$10 for cost of handling registration)
Within one calendar week from day classwork begins	70% Refund
After one calendar week and up to and including three calendar weeks	50% Refund
After three calendar weeks	No Refund

For any session other than those specified the refund fee shall be calculated in the same proportion as the above schedule which is 70 per cent refund within approximately the first one-eighth of such session.

Deductions may be made from the above refund for any financial obligation due UMC.

A student who pre-registers and pays the regularly established fees but later reduces enrollment during the period established for free petitioning (with the result that fees are reduced) is entitled to a full refund of the difference in fees.

FINANCIAL AID

The primary purpose of financial aid at UMC is to encourage worthy students to obtain a higher education and assist those for whom college financing is a problem. This goal is accomplished through two means. First, where the best efforts of the student and family fall short of meeting the necessary costs, the financial aid program helps to make up that difference. Second, the various scholarships, fellowships, and awards give recognition for excellence in the various academic fields of study and related activities, both in high school and at UMC. The following types of financial aid are available to UMC students.

SCHOLARSHIPS:

Curators Freshman Scholars. A Curators Freshman Scholar is designated to all qualified Missouri high school graduates. To qualify, a student must be a Missouri resident, score at or above the 90th percentile on a nationally standardized college aptitude test, and graduate in the upper three per cent of the class. One Curators Freshman Scholar is named for each 100 high school graduates, or any fractional part thereof. Recommendations for a Curators Freshman Scholar are made by the high school principal and/or counselor to the Curators Scholars Committee of the University of Missouri. Each Curator Freshman Scholar designee receives a scholar's warrant which when presented to the cashier's office waives the incidental fees for the freshman year. In subsequent years, students may be eligible for University Scholar designation.

University Scholars. University Scholar designation is made to all students who maintain a grade point average that places them in the upper five per cent of their University class. Missouri residents designated as University Scholars receive a scholar's warrant which when presented to the cashier's office waives \$100 of the incidental fee. This designation is made without benefit of an application. Transfer students should contact the Office of Student Financial Aids directly relative to their eligibility.

Waiver of Fees. Limited funds may be available to provide financial assistance to Missouri residents who are high school graduates and have scored at or above the 75th percentile on a nationally standardized college aptitude test

and graduate in the upper 25 per cent of their classes. Applicants must also demonstrate calculated need. Recipients receive warrants which when presented to the cashier's office waive the incidental fees in an amount from \$100 to full incidental fees, depending upon the calculated need and availability of funds.

National Merit and National Achievement Scholars. National Merit & National Achievement Scholars are recommended to UMC by the National Merit Office, Chicago, Ill. National Merit and National Achievement Scholars not sponsored by an industrial organization receive a minimum stipend if the student has no calculated need. Should there be a calculated need the scholar receives one-half of that need in a National Merit or National Achievement Scholarship and one-half of that need from other University-controlled funds, such as loans and employment. A financial aid application is requested.

Science Fair Scholarships. Each year the University names as scholars a number of high school seniors who are high ranking participants in Science Fairs. Selection is made by a committee on the basis of the student's academic record, college aptitude test scores, interest in science, and a personal interview. Scholars may enroll at the University campus of their choice with a full waiver of the incidental fees for one year. Conditions for renewal of these scholarships are the same as those for University Scholars.

Special Events Scholarships. Several scholarships in the amount of incidental fees are awarded to state contest winners by the College of Agriculture, the College of Arts and Science (Departments of Music, and Speech and Dramatic Art), and the College of Education (Department of Industrial Education). For further information students should contact the given department.

Other University Scholarships. Scholarships listed in the *Scholarship, Aids and Awards Bulletin* under a specific college, school, or division are administered by that college, school, or division, and all inquiries regarding them should be directed to the appropriate Dean's office.

EMPLOYMENT:

Work-Study. In 1964, the federal government authorized the College Work-Study Program. This program provides that the federal government pays 80 per cent of the wages of students from low income families who need to work in order to earn money to attend college. The University pays the other 20 per cent for on-campus jobs, and assists in arranging off-

campus jobs on community projects and with non-profit organizations and agencies which work for the good of the public.

Full-time summer jobs of 40 hours per week at a minimum of \$2.30 per hour enable students to save money for the following school year. In addition, part-time work on campus can be arranged to fit into the regular class schedule. Beginning wage rates depend upon skills and qualifications of the worker and are \$2.30 per hour and up. Jobs are available in libraries, laboratories, cafeterias, maintenance, offices, farms, etc., and are assigned by the Student Financial Aids Office in accordance with the interest and experience of the eligible applicant.

Student Employment. On the Columbia campus there are 1,800 to 2,000 part-time jobs regularly filled by students needing work to help with their college expenses. Compensation ranges from \$2.30 per hour for a beginning freshman to over \$3.50 per hour for skilled upperclassmen.

Advanced students frequently may find work on various research projects in the division of their major study. Interested students should make application at the office of the prospective employer.

Hundreds of part-time jobs are also available in downtown Columbia and throughout the community--in restaurants, hotels, stores, warehouses, theatres, and other business firms. Many householders employ students to do odd jobs and babysitting, usually during the afternoons and evenings, and on weekends. Many job opportunities are listed on the employment bulletin board at the Student Financial Aids Office.

LOANS:

Student Loan Funds. The University of Missouri-Columbia student loan funds have come as gifts from alumni, business firms, foundations, trusts, and friends of UMC. These

monies have been entrusted to UMC for the purpose of aiding worthy students to obtain a higher education. The loans are handled without charge to the donor in such a manner as to be of greatest benefit to the largest number of students. All borrowers under this program must be citizens or permanent residents of the United States.

Students in the School of Nursing in need of financial help may borrow under the provisions of the Nurses Loan Program which is very similar to the NDSL loans for teachers. After graduation, all or part of the loan is cancelled for each full year of service as a nurse in a public or non-profit agency.

The Health Professions Act of 1964, as amended, provides funds for loans to students in the School of Medicine who need assistance. Loans are repayable after the medical education, including internship, is completed. No interest is charged while the student is in school and the loan is repayable in monthly installments.

In 1967, loans under the Health Professions Act were made available for students in the College of Veterinary Medicine. Loans are repayable after the veterinary medical education is completed. No interest is charged while the student is in school and the loan is repayable in monthly installments.

National Direct Student Loans (NDSL). Title II of the National Defense Education Act of 1958 (Public Law 85-864), as amended, provides funds for student loans on very favorable terms. The loan fund is composed of money, provided 90 per cent by the federal government and 10 per cent by the University. The usual maximum loan is \$1,250 per year for undergraduate study, \$2,000 for graduate study. Repayment begins nine months after leaving school with three per cent interest starting then. There are some cancellation provisions for teaching in schools in some areas and/or under certain conditions of service in the Armed Forces of the United States.

Federally Insured Student Loans (FISL). Under the provisions of the Federally Insured Student Loan program, a student may arrange a loan of reasonable size with a hometown bank, or other eligible lender; the note will be endorsed by the federal government. Thus, the student need not provide collateral and the lender is assured that it will sustain no losses on student loans. For qualified borrowers, the federal government pays the interest while the borrower remains in school and up to nine months thereafter. At that time the qualified borrower begins repayment with an interest rate of 7 per cent. No cancellation feature is associated with this loan program. Applica-

tions may be obtained from the Student Financial Aids Office, or a local lender, and submitted to the Student Financial Aids Office for certification.

GRANTS:

Supplemental Educational Opportunity Grants (SEOG). Under the provision of the Higher Education Act of 1965, as amended, grants from \$200 to \$1,000 annually will be provided by the federal government to those students in greatest financial need. All undergraduate students are eligible for consideration. This program is not limited to those in the top academic ranks. However, applicants' past scholastic records and test scores must show them capable of maintaining satisfactory college work.

Missouri Educational Grants. These grants are provided by the State of Missouri for undergraduate students who are Missouri residents, working toward their first baccalaureate degree, and who need financial help to attend college. The amount of the grant at the University cannot exceed \$250, or the amount of the student's need, whichever is less. Applications should be submitted to the address listed on the self-addressed envelope accompanying the application.

Basic Educational Opportunity Grants (BEOG). Since 1973, the federal government has offered grants to students from low income families to encourage them to extend their educational training beyond high school graduation. These grants are cash gifts which do not have to be repaid and are available to all undergraduate U. S. citizens who qualify. Applications should be submitted to the address listed on the self-addressed envelope accompanying the application.

At the present time, students seeking financial aid at the University of Missouri-Columbia must complete the following: UMC Student Financial Aid Application (this form also serves as an application for the Missouri Student Grant Program and should be filed by April 30)* and Basic Educational Opportunity Grant Application. *Both forms are available in school counseling offices throughout the state and from the Office of Student Financial Aids, 11 Jesse Hall, UMC, Columbia, Mo. 65201.*

*Out-of-State students are not eligible for Missouri Student Grants.

Housing

Students interested in University-owned residence halls can request that information (including a housing application/contract) through the UMC Application for Admission *or* by writing the Housing Office, 123 Jesse Hall. Requests should not be duplicated. Brochures and applications for single student housing are available the beginning of February. Married student housing applications are available throughout the year.

Although the University recommends that unmarried freshman men and women reside in University-supervised housing, all students may reside in any available housing they may select: (a) University-supervised housing or (b) off-campus housing.

University supervision of student housing is limited to:

(a) residence halls operated by the University of Missouri-Columbia (UMC);

(b) houses operated by groups (cooperatives, fraternities and sororities) recognized as student organizations by the Committee on Student Organizations, Government and Activities; and

(c) the privately-owned residence hall (Mark Twain Residence Hall) whose owners have agreed to provide supervisory personnel satisfactory to UMC and to enforce in their facilities the same rules and regulations regarding conduct that are observed in facilities operated by UMC.

Some operators of off-campus housing list with the Housing Office their available rooms and apartments, and these listings may be obtained at the Housing Office. However, the University does not serve as a rental agency for these accommodations.

The Housing Office does not inspect or approve off-campus housing and assumes no responsibility for the accuracy of information given by the householder; and it should not be assumed that accommodations listed with the Housing Office are considered to be more desirable than those that have not been listed.

Most students find that a trip to Columbia well in advance of the date

housing is required will aid them in making more satisfactory arrangements for off-campus housing. For this reason and because lists of available accommodations in off-campus housing are frequently amended, the lists are not made available by telephone or by mail.

University-Owned Residence Halls. Residence halls are available to men and women freshmen, upper-class, and graduate students.

Head residents and student assistants supervise all programs in the residence halls, interpret policies and regulations, provide assistance to individual residents and to house governments, and strive to create an atmosphere which is conducive to the intellectual, social, cultural, and personal growth of the residents. Residence hall counselors provide vocational, educational, and personal counseling in the residence halls.

Students enter into contracts with UMC for accommodations in University residence halls on a room and board basis for the entire academic year. The current rate (1976-77) for one-half of a double room and 20 meals per week is \$1,220 per academic year. Payments may be made in installments.

Mark Twain Residence Hall. The Mark Twain Residence Hall, 515 South Fifth Street, is air-conditioned and is divided to house both men and women. The current rate (1976-77) for room and board (including taxes) is \$1,720 for the academic year. The owners operate this facility under the general supervision of the Housing Office and in accordance with the rules and regulations pertaining to conduct and supervision in University-supervised housing. However, contractual arrangements regarding residence are entered into between students and the owners of the hall; the University does not take part in these contractual arrangements. Students interested in living in the privately-owned residence hall should write to the hall and should not submit application-contracts for accommodations in University-owned residence halls.

Fraternities and Sororities. Fraternities and sororities are private, self-governed groups that have University-approved resident directors. Monthly charges for room and board range from \$120 to \$165. These charges do not include pledge fees, initiation fees, or building fees (if any). Inquiries concerning fraternities should be addressed to the I.F.C. Rush Chairman, 212 Read Hall. For additional information concerning sororities, write to the Panhellenic Advisor, 200 Read Hall, Columbia, Mo. 65201.

Cooperatives. Women who live in cooperative houses have an opportunity to reduce room and board expenses by sharing some of the work in the house. The cost of room and board in women's cooperatives approximately \$100 per month. Inquiries should be addressed to Templecrone, 1404 University Ave., or

Rochdale Co-op, 607 S. Fifth St., Columbia, Mo. 65201.

Campbell-Harrison accommodates approximately thirty women students enrolled in Home Economics. Applications may be made directly to the President, Campbell-Harrison House, 1415 University Ave., Columbia, Mo. 65201.

There are no cooperatives for men.

Married Student Housing. UMC has 360 unfurnished apartments for married students. There are 112 one-bedroom apartments and 56 two-bedroom apartments renting for \$85 and \$100 per month respectively, located in an area known as University Village; and 52 one-bedroom apartments and 140 two-bedroom apartments, renting for \$90 and \$105 respectively, located in two areas named University Terrace and University Heights. Application blanks may be obtained from the Housing Office.

Student Services

STUDENT HEALTH SERVICE

UMC offers a two-part health program consisting of (1) a Student Health Service and (2) a supplementary sickness and accident insurance policy.

Medical Information. All students enrolling in UMC for the first time are required to submit satisfactory medical information by completing the Report of Medical History. In some instances the Student Health Service may require additional information in the form of medical reports from physicians who have treated the applicant. All medical information should be sent directly to the Director of the Student Health Service, since it is confidential. A delay in accomplishing this requirement may result in a delay in enrollment.

The Report of Medical History form will be mailed from the office of the Director of Admissions.

Services Rendered. All students enrolled for 1 hour credit or more, except for employees on the Educational Assistance Program, are entitled to Student Health Service care. This medical service is provided only at the Student Health Center and includes at a small charge the usual ancillary services, such as laboratory, X-ray, and pharmacy. Medical care is provided between 8 a.m.-5 p.m., Monday-Friday, and 8 a.m.-12 noon on Saturday at the Student Health Center for the usual and ordinary illnesses and accidents. The services provided are in accordance with established UMC regulations.

Services Not Rendered. In circumstances where services are not provided at the Student Health Center, responsibility reverts to the student; however, the Student Health Service will assist the student in arranging for these services if so requested by the student. Students requiring emergency care after 5 p.m. or on weekends should go to the emergency room at one of the local hospitals.

Supplemental Sickness and Accident Insurance Plan. This plan, sponsored by the University of Missouri, is obtainable at a reasonable cost and will for the most part cover the student's needs for hospitalization and surgery, but not outpatient laboratory or X-ray studies or medications. Also see Student Insurance under Fees and Expenses in this *Bulletin*.

Special Cases. The Director of the Student Health Service is authorized:

1. to recommend allowing students to withdraw from the University at any time if they have medical conditions that significantly interfere with their attendance or progress at school, or
2. to require students to withdraw from UMC at any time if they have medical conditions that constitute a hazard to themselves, to other students, or to the campus community.

In addition, students may be suspended if they do not comply with requirements concerning the medical information or special examination deemed necessary for the health and safety of the campus community.

COUNSELING SERVICES

Counseling Services offers students help in extending their understanding of themselves and others, planning for their future, gaining a perspective on troubling aspects of their lives, and developing skills to promote effectiveness as students. Individual and group counseling, personal growth groups, study skills and

tutorial help, and various other programs are offered by Counseling Services.

Counseling Services also includes a Career Planning and Placement Center which helps students who have not yet decided on vocational plans choose major fields of study and decide upon career patterns after college. Vocational exploration groups form a part of this center. They provide a relaxed group atmosphere for exploring one's interests in various occupations, as well as the opportunity to investigate what various occupations are all about.

PLACEMENT SERVICES

UMC offers job placement services for students through the Colleges of Agriculture, Education, Business and Public Administration, and Engineering, and the School of Journalism. In addition, the Career Planning and Placement Center (CPPC) maintains a vocational assistance program.

Data on employment and salary potential for specific fields, based on previously enrolled students, may be available in the respective undergraduate Deans' offices. Graduate students desiring these same kinds of data should contact the appropriate departmental offices.

SPEECH AND HEARING CLINIC

The Department of Speech and Dramatic Art conducts a clinic in which students may be examined and advised regarding the correction of minor as well as major speech or hearing defects. The Clinic is located in Parker Hall.

LIBRARY CENTER FOR THE HANDICAPPED

The Library Center for the Handicapped offers support services to handicapped students. Equipment includes braillewriters, braille typewriters, microfilm readers, and tape recorders. The Center is located in the Education section of Ellis Library.

RESERVE OFFICERS TRAINING CORPS

The Army, Navy and Air Force ROTC programs at UMC offer students the opportunity to become commissioned officers in the military service of their choice. ROTC is our country's unique method of producing—on civilian college campuses—officers for our national defense. Upon completing ROTC course requirements and receiving a bachelor's or advanced degree, the student is commissioned.

There is no obligation connected with taking ROTC during the first two years of the four-year ROTC Program. When students wish to attain a commission, they enter the second two years of training. Two to six years of active duty obligation is incurred depending on which service they enter and what options, such as flight training, extend active duty time. The officer will serve in the active or inactive reserve after completion of active duty obligation until total service time equals six years, as required by the Universal Military Training and Service Act.

Each service has a two-year program designed for students not taking ROTC during the first two years of their college training.

Women are admitted into all ROTC Programs at the present time.

EDUCATIONAL AND CULTURAL FACILITIES

Libraries

The University of Missouri-Columbia libraries, consisting of more than 1,800,000 volumes and more than 20,000 current periodicals, provide outstanding facilities for course preparation and scholarly creative work. The Library's microform collection, numbering more than a million units, is the largest in the United States.

The Ellis Library Building provides seating for 1,800 in its reading rooms. In addition, there are a number of carrels and studies for graduate and faculty research.

Branch libraries, situated on the campus at strategic points to serve the faculty and students of the various divisions, contain the most useful and most recent material in their respective fields. Branch libraries include: Research Park, Engineering, Geology, Journalism, Law, Mathematical Sciences, Medical, and Veterinary Medicine.

UMC is also the location for the Western Historical Manuscripts Collection and the Library of the State Historical Society of Missouri.

Museums

Over a million specimens, providing valuable material for research, are included in a number of collections and museums administered generally by departments of the University of Missouri-Columbia. Most important are the following: the Museum of Anthropology, the Museum of Art and Archaeology, the Entomology Museum, the Geology Museum, the Herbarium, the Zoology and Wildlife Collections, and the Art Collections.

Media

UMC operates television and radio stations in Columbia, which serve as laboratories for students majoring in broadcasting in the School of Journalism and the Speech and Dramatic Art Department's radio-TV-film curriculum and

two campus television, and radio studios for student "hands on" experience and for use by faculty in development of educational materials for their teaching responsibilities.

KOMU-TV. An NBC affiliate, KOMU-TV provides students with an opportunity to gain practical experience in a typical network-affiliated station. Students cover stories, meet real deadlines, and produce public affairs and other broadcasts, as well as work closely with the professional staff in other aspects of television station operation and management.

KBIA (FM). The 100,000-watt stereo voice of the Columbia campus is a member of National Public Radio. The station also utilizes reports from CBS News, the BBC, Deutsche Welle, Radio Netherlands and other international broadcasting organizations. Volunteers from all academic areas are encouraged to work at the station.

The Columbia Missourian. The *Missourian*, a daily-Sunday teaching newspaper, is published by the Missourian Publishing Association, and has general circulation for the city of Columbia and for Boone County. Students, under faculty supervision, do all news, editorial, feature, photographic, and advertising work on the paper.

COMPUTING FACILITIES

Instruction and research programs, as well as medical and management systems computer processing needs, are supported by the University computer services delivery system, consisting of a communications network and a central facility equipped with an integrated IBM 370/168 and IBM 370/158 computer system. The Columbia Campus Computing Center provides the user interface to the computing facilities, as well as direct access to those facilities through several remote job entry sites, including one site open 24 hours per day. Also, several departments and divisions support specialized mini-computers as well as other computer-based support facilities.

Student Activities

Center for Student Life

Many campus activities at UMC are initiated or coordinated through the Center for Student Life. Located in Read Hall, CSL operates on a concept of student development and self-realization and encourages all students (as well as faculty and administration) to become involved in any or all of the available programs. Through student government, clubs, and organizations, students have input into University decision making and help themselves and others meet educational, cultural, recreational, and developmental needs. Opportunities for involvement include student governance (Missouri Students Association, Panhellenic and Interfraternity Council), international student programs, minority student programs, the media center (*The Maneater*, *Savitar*, and other student publications), women's programs, volunteer programs, and travel and recreation programs. For further information, you may request the brochure "Something for Everyone."

Religious Activities. Although the University, as a state institution, is prohibited from sponsoring religious activities, it realizes the importance of religion in the life and education of students. The Association of Religious Campus Advisors, an interfaith organization of campus religious workers, acts as the liaison body between UMC and the various campus ministries.

Athletics and Recreation. The University of Missouri *Tigers* have had a long and exciting tradition of athletic competition. Mizzou students avidly support inter-collegiate teams in football, basketball, baseball, volleyball, golf, tennis track and field, cross-country, field hockey, swimming, and wrestling.

Intramural programs are set up for male, female, and co-educational competition so everyone can enjoy them. The Sports Club Council provides further opportunity to participate in chess, gymnastics, rugby, soccer, swimming, fencing, and scuba.

With a basketball arena seating 13,600 and a separate auditorium for track and field events, the \$11 million Hearnese Multipurpose Building is the home of *Tiger* athletics. Athletic facilities at UMC also include Memorial Stadium, newly remodeled Brewer Fieldhouse, Rothwell and McKee gymnasiums, the baseball diamond, football practice fields, an 18-hole golf course, lighted tennis courts, a natatorium, handball courts, indoor track and field areas, basketball and volleyball courts, weights room, and a wrestling room.

Musical Organizations and Concerts. Most everyone has seen or heard of "Marching Mizzou", but there are many other musical groups and organizations at UMC: the University Symphony Orchestra, the University Singers, the Concert Band, Choral Ensembles, the Collegium Musicum, the Esterhazy String Quartet in Residence, and other small ensembles and chamber music groups.

You will also find a variety of concerts at UMC. Big-name rock groups, symphonies, and folk, blues, and jazz groups, as well as local ensembles, bands, orchestras, and singers, perform throughout the year. Most performances are free to students. Whatever your taste in music, you will find it here at UMC.

Theatre. All students are eligible to participate in the dramatic presentations of the University Theatre. During the school year several major productions ranging from contemporary plays to the

classics are presented. The Summer Repertory Theater presents a paid company of student actors in three plays in nightly rotation during July. In addition, Broadway touring companies come to UMC during the year to present one-night performances of current plays.

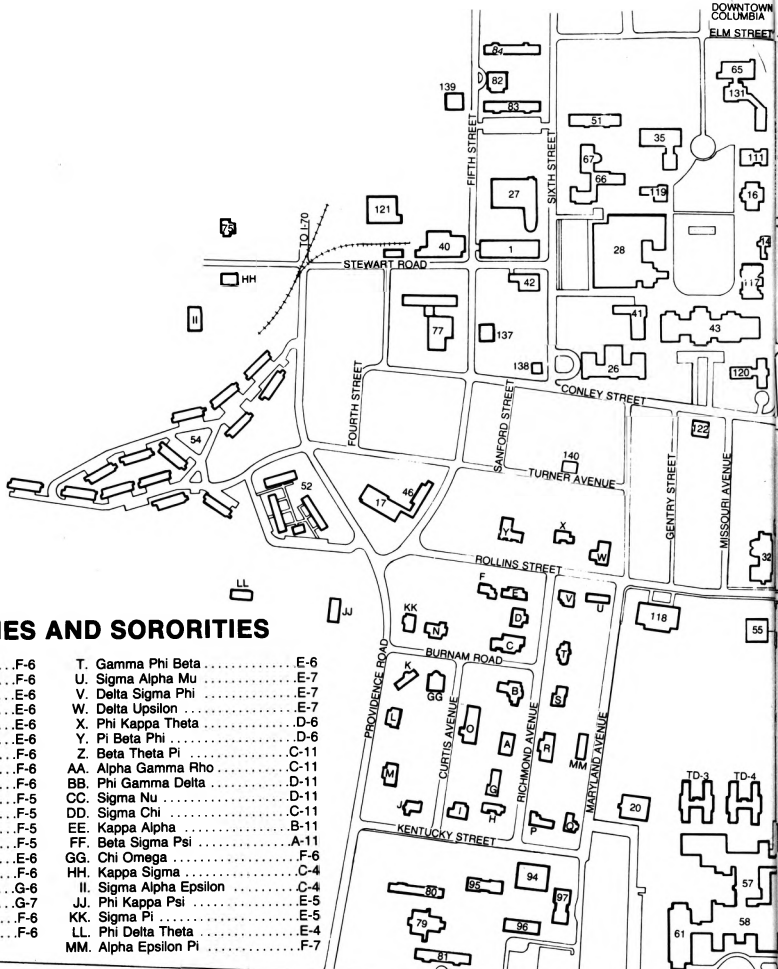

City of Columbia. There are many activities available off campus, too. Known in Missouri as "Collegetown," Columbia is a small city geared for students. Movie theaters, parks, and lakes, restaurants with various cuisines, specialty stores, and recreational enterprises are but a few features of Columbia—an exciting place to live.

BULLETINS

Students desiring detailed information not included in this publication may obtain the announcements of the divisions, the scholarships, aids, and awards brochure, and other UMC bulletins from the UMC Publications Office, 311 South Fifth St., Columbia, Mo. 65201.
