SARLA DEVI NAGAR

Co-Project-Directors

With Compliments From
DR. THOMAS W. SHAUGHNESSY
Director of Libraries
University of Missouri - Columbia

International Library Center
Columbia, Missouri
1988
The long-range search and research on this "Million Dollar Project" was partly funded by several grants from the Research Council of the Graduate School, University of Missouri—Columbia. In fact, the UMC has contributed more to the origin and growth of TULIP than any other agency or institution in the world.

COMPLIMENTS

These volumes are the result of a determined and unwavering commitment to an ideal, an ideal which is fundamental to the practice of librarianship. The creation of bibliographies and the subsequent improvement of access to information have been traditional concerns of the library field. Obviously, the more accurate and complete such listings are, the more useful they will be. The goal of Dr. and Mrs. Nagar in the volumes they have thus far completed is to develop as perfect a bibliography as possible.

The project began as an attempt to systematize the bibliographic records of Indian periodicals held by American libraries. Because of the innate difficulty of tracking serial publications—difficulties caused by title changes, incorrect numbering, changes in the name of the issuing agency, etc., Dr. Nagar developed a "bio-biblio-data-recorder" (BBDR). This device is able to accommodate more than one hundred categories of bibliographic information. After it was thoroughly tested on a sample of 10,000 serial titles, the Nagars proposed to expand their efforts to encompass Indian serials held by libraries throughout the world.

Each data element contained in the TULIP record has been checked and verified to the extent possible. Hindi and Sanskrit titles have been transliterated, and all of the data exists in machine-readable form. Thus far, titles beginning with the letters A through F have been compiled and formatted using the BBDR. But what is quite amazing is that this was accomplished without grant support or external funding! These volumes are a testimony to what commitment, dedication and hard work can achieve.

I have known Dr. and Mrs. Nagar for four years. For more than 20 years, Dr. Nagar has served the University of Missouri - Columbia Libraries as South Asian and International Studies Bibliographer. He has an extraordinary grasp of the literature of India, its libraries and intellectual traditions. It has been a pleasure for me to be associated with a person of such scholarship and vision. His work and many achievements are in the very best traditions of librarianship.
