The long-range search and research on this "Million Dollar Project" was kindly funded by several grants from the Research Council of the Graduate School, University of Missouri-Columbia. In fact, the UMC has contributed more to the origin and growth of TULIP than any other agency or institution in the world.

COMPLIMENTS

These volumes are the result of a determined and unwavering commitment to an ideal, an ideal which is fundamental to the practice of librarianship. The creation of bibliographies and the subsequent improvement of access to information have been traditional concerns of the library field. Obviously, the more accurate and complete such listings are, the more useful they will be. The goal of Dr. and Mrs. Nagar in the volumes they have thus far completed is to develop as perfect a bibliography as possible.

The project began as an attempt to systematize the bibliographic records of Indian periodicals held by American libraries. Because of the innate difficulty of tracking serial publications—difficulties caused by title changes, incorrect numbering, changes in the name of the issuing agency, etc., Dr. Nagar developed a "bio-biblio-data-recorder" (BBDR). This device is able to accommodate more than one hundred categories of bibliographic information. After it was thoroughly tested on a sample of 10,000 serial titles, the Nagars proposed to expand their efforts to encompass Indian serials held by libraries throughout the world.

Each data element contained in the TULIP record has been checked and verified to the extent possible. Hindi and Sanskrit titles have been transliterated, and all of the data exists in machine-readable form. Thus far, titles beginning with the letters A through F have been compiled and formatted using the BBDR. But what is quite amazing is that this was accomplished without grant support or external funding! These volumes are a testimony to what commitment, dedication and hard work can achieve.

I have known Dr. and Mrs. Nagar for four years. For more than 20 years, Dr. Nagar has served the University of Missouri—Columbia Libraries as South Asian and International Studies Bibliographer. He has an extraordinary grasp of the literature of India, its libraries and intellectual traditions. It has been a pleasure for me to be associated with a person of such scholarship and vision. His work and many achievements are in the very best traditions of librarianship.

INTRODUCTION

SOME EDITORIAL NOTES AND EXPLANATIONS

Our full "Introduction" appears in the beginning of Bouquet one. Following the suggestion of a critic, we are giving below some extracts for easy reference in this Bouquet five.

Arrangement of Entries

The arrangement of entries is strictly alphabetical, disregarding all the punctuation marks, such as . , - etc. etc. All the acronyms and initialisms in the title of a periodical publication are kept as they appear in the title of a periodical, but the initial letters standing for the name (acronyms) of a Corporate Body are separated by a full stop (period). This was necessary if we wanted to provide them with the priority they deserve. All this was dictated by the mechanism of our computer software.

Example of a title:
1. A.I.R. miscellany
2. ABC social science

Example of a corporate body:
1. A.P.O.
2. A.I.M.O.

Some General Guidelines

All the institutions are entered under their names and individualized with the name of the city at the end. For example, Agra. Kendriya Hindi Samsthanas is listed as:
Kendriya Hindi Samsthanas, Agra.

The names of such cities that were states as well as cities are differentiated from the states by the addition of the word "city" in parenthesis ( ). For example, Bombay state is entered as Bombay, while Bombay city is represented as Bombay (City).

210 and 212 = Individualization of Titles

Unless there were two periodical publications bearing identical titles, we did not need any further individualization. However, even if we had to add an individualizing characteristic, we added the year of commencement rather than the place of publication or language, etc. as some other compilers have done, e.g. PiH, which adds the place-name, e.g. Bharati (Varanasi).

Volume-Numbering

Now, sometimes we have to denote or designate a specific constituent number or issue of a volume. For example, Asian labour.
INTRODUCTION

V.11(8) – sept. 1963. Here the specific figure representing the specific number or issue (8) is enclosed in circular brackets. Some other UL's, e.g. BUCOP, use the superscript. It was not easily available on our computer system and we could not afford the heavy expenditure involved in providing it. The word "number" or its abbreviation "no." does not appear in such cases.

On the other hand, when a set of numbers or issues, constituting an alternative or parallel numbering as a substitute for volume numbering is to be denoted, the abbreviated form "no." is also used along with the figures of numbers, all being enclosed in circular brackets. For example, Adhyeya. v.1-4(no.1-45); –Feb. 1973.

252 = Change of Title

ALC76 has two separate entries for the same title when there is a change either in the name of the corporate body (author) or title. The question is, why to bring all the details of the earlier title in the later title? For further explanation and examples see under field no. 601 and 602.

470 = Current/Ceased

Unless otherwise stated, it is assumed that the PP is current.

480 = The Address of the Publisher <Including PIN CODE>

The Joint Committee on the Union List of Serials had emphasized the need for drawing regionalized lists from major union catalogs. Ranganathan did not want to make his UC "an address-book." We have made our TULIP not only an address-book, but we have gone way beyond. We have tried to ascertain India's PIN CODE (Postal Index Number, similar to the Zip Code in U.S.A.) in as many cases as possible and have incorporated it into our entries. We believe this PIN CODE may achieve something highly desirable. It has potential for helping us to derive regionalized lists to any depth—state, district, city, even the locality (Mohalla). This PIN CODE reaches great depth in geographical subdivisions.

520 = Frequency

These symbols denoting frequency of publications are currently used by MARC and its followers. We have adopted them for uniformity. Also because they did not generate any conflict with our way of doing. There is only one exception. We have used i for "irregular," since the symbol for it was not available on our computer system (and hence it could not be shown here under either!)

i = b irregular
   u unknown
   z other

- v -
The two phenomena of "Continuation" and "Succession" were identified, isolated, and differentiated by us on the basis of whether there is continuity in volume-numbering or not. If the volume-numbering is continued, it was regarded a case of "continuation." In such a case, only one entry was made for the preceding as well as the succeeding title. These (titles) were linked by the phrases "Continued by" and "Continued from." If there was a new sequence in volume-numbering, the PP was regarded as a new title and a new (separate) entry was made.

However, the new rules of the AACR-II disturb the whole line of our thinking and procedure. If there is a change in the title or the name of the sponsoring body (as author) AACR-II regards it a new title, a new personality, even if the volume-numbering is continued. Of course, both the entries are linked by suitable references.

Examples:
1) March of Mysore, and
2) March of Karnataka
and
1) Institute of History of Medicine, and
2) Indian Institute of History of Medicine.

Of course, if our procedure is followed, we would give a "see reference" for the preferred (i.e. latest) title, which will have full data. On the other hand, if the authority of the AACR-II is followed, both will have full details and there will be a "see also" references from both to both.
INTRODUCTION

This is an example of the changes that will have to be made if we decide to follow the AACR-II strictly and rigorously. A great deal of revision and reorganization will be called for. But we are not in a mood to do it now. We will do it only if our patrons tell us, or a granting agency provides the needed funds and makes it possible for us to do so.

Here is a Case of Succession
1) Nagpur law journal.
   v.1-45; 1918-1962.
2) Maharashtra law journal.
   v.1- 1963-

This is a case of succession because a new era begins. Even if we make two separate entries in both the cases, still we can use our own terminology, i.e. "Continued by" and "Continued from" or "Succeeded by" and "Succeeded from."

The question naturally arises: When is a title a new title? The answer is: When a new personality emerges. And when does a new personality emerge? Well, we will have to think about it!

SSDC makes a distinction between "continuation" and "supersession." If the original volume numbering is continued, even after the title is changed, they would use the term "contd. from" or "contd. as." But if a new sequence in volume numbering is adopted, and there is also the change in title, they would say "supersedes" or "superseded by."

ALC76 lists one title:

Van vikas.
   Hyderabad, India.
   Supersedes Aranya vikasa and continues its volume numbering.

The question is: Why to use "supersedes" when the volume numbering is continued? They do not make any distinction between "supersedes" and "continues."

The Random House Dictionary gives the meaning of "supersede" as to set aside as void, useless or obsolete, usually in favour of something maintained."

The great OED says: "be superior"; "to render superfluous or unnecessary"; "to be set aside as useless or obsolete"; "to be replaced by something which is regarded as superior."

Thus the term "supersedes" is not appropriate, unless we regard what is dubbed as "superseded", to be void, useless, or obsolete.

TULIP

654 = Abbreviations for Indexing Periodicals

Ann. bibl. of Eng. = Annual Bibliography of English Language and Literature
Bibliog. of agr. = Bibliography of Agriculture
Biolog. abstr. = Biological Abstracts
Chem. abstr. = Chemical Abstracts
FACT = Fuel Abstracts and Current Titles
GIPL = Guide to Indian Periodical Literature
Index India = Index India
Index to Indian legal period. = Index to Indian Legal Periodicals
Ind. sc. abstr. = Indian Science Abstracts
MLA abstr. = Modern Language Association Abstracts
PAIS = Public Affairs Information Service (Bulletin)
Psycho. abstr. = Psychological Abstracts
RZ = Referativny Zhurnal
Weed abstr. = Weed Abstracts
XUM = Xerox University Microfilm

828 = Geographical Component of TULIP CODE

The constituent element of space used in constructing our TULIP CODE has been represented by a capital letter and an additional lower case letter wherever necessary. For example,
M = Madras
Mi = Madurai.

Since the names of the states and cities are also given in the address component (field # 480), there will be no ambiguity at all.

This TULIP CODE NO has also the potential of generating linguistic and chronological divisions. TULIP CN is fully discussed on pages 184-190 of the TEST. Examples appear in TULIP Bouquets. See at the end of this BBDR.

The following Abbreviations for the states in India have been used in constructing the TULIP CODE.

Andhra Pradesh A A Kashmir
Arunachal Pradesh Ar Ar Kerala
Assam As A Madhya Bharat
Bengal B B Madhya Pradesh
Bihar Bi M Madras
Bihar and Orissa Mt Maharashtra
### INTRODUCTION

### 850 = CITATIONS

Arranged in the descending order of authenticity and reliability, 851 being the most authentic and reliable. We have given due prominence to our primary source. Most of the data are derived from it. That is why it is designated as the primary. Whenever and wherever we have found some variation, or additional information, it is shown as "reference," together with the citation of its specific source, its abbreviated symbol being enclosed within < >. We have shown elsewhere how this process has helped us (see page 239 of the TEST).

We have just now realized—but it is quite late now—that we have not given the vol./no./year specification a separate seat and a separate tag number! We don't know why? This field is kept as an integral part—an adjunct—of the title. We may correct it if and when we reappear. Until then the "title" is to be interpreted in its widest sense including all the data that go along with it in normal circumstances.

Companion Publications

Two companion publications were released along with the first two bouquets of TULIP. In fact the release of the bouquets was considerably delayed because the full beauty of the TULIP cannot be visualized without consulting the two companion volumes; the essence of TULIP can be well appreciated only if the other two volumes are kept to the left and right! These two volumes may serve as the vases. They will hold the TULIP bouquets quite well.

1. The first publication is entitled: TULSI: The Union Lists of Serials: History: Literature: Philosophy. It discusses briefly the preparation and publication of union lists all over the world.

2. The second publication is entitled: TEST: The Eternal Saga of TULIP or Composing a Union List of Serials in the Computer Age.

Why Publish TULIP?

We cannot claim by any means that TULIP as published now is perfect or complete. Far, far from it. The question then naturally arises: Why did we publish it at all? There are many reasons. The

\[1\] While UC = Union Catalogue of Periodicals of the Social Science Documentation Centre of the Indian Council of Social Science Research, UCS = Union Catalogue of Serials of the same. The following letter/s stands for the geographical area covered, full names of which appear in the table presented on page 36-37.
INTRODUCTION

first is: Something is better than nothing! We just wanted to demonstrate in concrete form what can be achieved if an adequate cluster of resources is mustered. The other reasons are:

We wanted to create a favorable atmosphere conducive to the growth and development of TULIP. We approached many granting American agencies during the past six years for adequate funding, but the outcome was negative. Maybe, the times change. Some new Indo-US cooperating agency emerges and gives us the needed money to enable us to show in full the value and beauty of TULIP. We also wanted to draw the attention of the Government of India and her granting agencies, such as the University Grants Commission and the Ministry of Education. After all, as we have pointed out also in our TEST and TULSI, we are working towards the preparation and publication of a comprehensive universal/union list of India's periodical publications, the embodiments of her cultural heritage, preserved and being served in major libraries of the world. TULIP may lead us toward this great goal. We believe any Indian agency interested in the promotion of Indian culture should find TULIP a worthy object of support and promotion!

And finally we wanted to explore the possibilities of getting the support also from the users and consumers, who are our ultimate resort—the final refuge. They are the final judges of the internal and external values of TULIP. All our talk about the beauties and usefulness of TULIP are meaningless if this class of patrons is not satisfied.

So, these are some of the reasons for us to go out and stand the test. We are reminded of a great sadukti (wise saying) of one of the greatest poets of the world, Kalidasa:

Tam santah srotum arhanti sadasadvyaktihetavah.
Hennah samlakyate hyagnau visuddhih syamikapi va.

The noble critics may now hear and judge my composition, because they are blessed with the power of discerning what is worthy and what is not. The purity or blemish of the gold distinctly comes out in fire.

We are ready to stand the fire—get tested and evaluated. That is the only way to provide any justification for prosperity—nay, even the survival.

May the readers and users be blessed with eternal bliss:
