- Jerry Valentine...Q/A and Closing Comments
Study Overview

- Sponsored by Middle Level Leadership Center, University of Missouri
- Comprehensive state-wide two-year study of 224 of the 325 middle level schools across the state of Missouri
- Largest study known with common measurement of student achievement
- Findings about leadership, culture, climate, efficacy, commitment, assessment, and programs and practices.
- Detailed findings will be available soon on the web site of the Center (www.MLLC.org)
Selected Principal Leadership Factors

- Interactive processes
- Instructional improvement
- Curricular Improvement
- Vision
- Modeling
- Group Goals
- Individualized Support
- Intellectual Stimulation
- Holding High Expectations

NASSP 2008 Principal Impact on MS Success
Principal Leadership
Factors

Findings – Principal Leadership does relate directly to student achievement.

Factors:
Interactive Processes
Identifying and Articulating a Vision
Providing Intellectual Stimulation
Instructional Improvement
Principal behaviors that influence student achievement:

- Maintain high levels of day-by-day organizational effectiveness
- Engage significantly with the instructional issues of the school
- Facilitate faculty development of a comprehensive vision for the school
- Maintain currency of knowledge of best practice and support teacher maintenance of the same knowledge
School Culture Factors

- Collaborative Leadership
- Teacher Collaboration
- Professional Development
- Unity of Purpose
- Collegial Support
- Learning Partnership
Transformational Leadership Factors

- Vision Identification
- Modeling
- Goal Acceptance
- Individualized Support
- Intellectual Stimulation
- High Performance Expectations
The more principals provided quality leadership for EACH transformational leadership factor, the greater the increase in school culture for EACH culture factor. (All relationships were statistically STRONG)
Principal Impact on Culture

- Facilitate the creation of a school mission that is in line with faculty values and that is understood, supported, and will serve as a guide for teaching and learning.
- Create school structures and opportunities for dialogue that will allow teachers to share ideas for improving teaching and learning and be involved in the decision-making process.
- Create time for teachers to professionally dialogue, plan together, observe each other, and analyze effectiveness of practices in order to facilitate teacher collaboration.
- Support, reward, and praise significant risk-taking teacher behavior.
- Provide structures and opportunities so the knowledge gained through professional development is shared and used for school improvement.
Teacher Efficacy, Commitment, Trust Factors

- Teacher Efficacy
  - Efficacy Regardless of External Circumstances
  - Personal Efficacy
  - Collective Efficacy

- Teacher Commitment
  - Committed Teacher Behavior

- Trust
  - Faculty Trust of Principal
  - Faculty Trust of Colleagues
  - Faculty Trust of Clients (parents and students)
Teacher Efficacy, Commitment, and Trust with Achievement Findings

- Teacher Collective Efficacy (Large $r$ w/ CA & Math)
- Teacher Personal Efficacy (Small $r$ w/ CA & M)
- Committed Teacher Behavior (Moderate $r$ w/ CA; Small $r$ w/ Math)
- Teacher Trust in Clients (Moderate $r$ w/ CA & Math)
What Principals can do...

- Lead faculty conversations about the importance of individual and collective efficacy.
- Lead small groups in a study of the impact of efficacy.
- Lead faculty discussions and problem-solving dialogues about academic support before school and after school.
- Find resources to create after school academic tutoring and support experiences.
- Facilitate faculty discussions about dedication to student success and strategies about how to go the extra mile to support and encourage students during and after school.
- Develop programs and activities to engage teachers with parents for discussions about students’ academic work.
Assessment Concepts/Factors

- Teachers’ Assessment Practices
  - Preparation for Formative Assessments
  - Application of Formative Assessments
  - Collaboration through Assessments
  - Impact of Summative Assessments
  - Overall Collective Assessment Practices
The more principals provided quality instructional and curricular leadership, the following assessment practices increased:

- Application of Formative Assessments
  - Re-teaching (low $r$)
  - Providing feedback to students (low $r$)
  - Self & peer assessments (mod. $r$)

- Collaboration through Assessments
  - Use formal data to plan instruction (mod. $r$)
  - Use classroom assessment data to plan instruction (mod. $r$)
  - Use classroom data for individual students’ needs (mod. $r$)

- Impact of Summative Assessments
  - Changes in instructional delivery for individuals and collective faculty (mod. $r$)
  - Changes in curriculum for individuals and collective faculty (low $r$)

- Collective Faculty Beliefs about Assessment Practices (mod. $r$)
Principal Impact on Assessment

- What Principals can do...
  - Develop “assessment leadership”
    - Develop an intimate knowledge of what occurs in classrooms.
    - Develop a clear focus on the desirable educational outcomes targeted by current curricular programs.
  - Develop familiarity with the purposes of assessments and the intended audience for the results.
  - Develop an understanding of fundamental assessment concepts to create a vision for assessment in your school.
  - Communicate an “assessment vision”
    - Collaborate with teachers on assessment data with a focus on improving student achievement.
    - Give teachers permission to teach students over content.
    - Give teachers time to change teaching philosophies—accept “slow to grow.”
MS Programs and Practices

- The selection of pertinent survey items was informed by
  - Turning Points 2000 (Jackson & Davis, 2000)
  - NASSP’s National Study of Middle Level Leadership (Valentine, Clark, Hackman, & Petzko, 2002)
  - Schools to Watch Criteria (National Forum, 2005)
  - This We Believe (NMSA, 2003)
Ensure Success for Every Student

Teach a Grounded Curriculum

- Use instructional methods that prepare all students to achieve high standards

- Involve parents and community in supporting learning and development

- Provide a safe and healthy school environment

- Staff schools with teachers who are expert on middle level students

- Organize relationships for learning

- Govern democratically, involving all school staff members

NASSP 2008 Principal Impact on MS Success
What principals can do to influence the TEAMING Factor

- **Goal setting**
  - Use problem solving to generate school goals
  - Work toward establishing consensus for goal priority
  - Encourage faculty members to evaluate progress toward the achievement of school goals

- **Facilitate teachers working together**
  - Value teacher ideas, praise those that perform well, and reward those that experiment with new ideas and techniques

- **Keep teachers informed of current issues in the school**

NASSP 2008 Principal Impact on MS Success
What principals can do to influence the LEARNING ENVIRONMENT factor

- **Direction Setting**
  - Assist faculty in developing an understanding of, and support for, the beliefs and attitudes that form the basis of the educational value system of the school
  - Provide for the identification of, and the reaching of consensus on, the educational goals of the school
  - Set high, professional expectations and standards for self, faculty, and school
  - Encourage changes in school programs that lead to a better school for students
  - Communicate to teachers the direction the school’s programs need to take for growth
What principals can do to influence the LEARNING ENVIRONMENT factor

- Individualized Support
  - Provide extended training to develop relevant knowledge and skills for being a faculty member
  - Provide necessary resources to support the implementation of the school’s program
  - Treat faculty members as individuals, recognizing their unique needs and expertise
What principals can do to influence the LEARNING ENVIRONMENT factor

- **Intellectual Stimulation**
  - Help teachers think of ways to implement the school’s program
  - Stimulate teachers to think about what they are doing for the school’s students
  - Challenge teachers to reexamine basic assumptions they have about their work in the school
  - Don’t burden teachers with what they perceive as “busywork”
What principals can do to influence the LEARNING ENVIRONMENT factor

- **Principal Influence**
  - Teachers have perceptions of the principal’s ability to influence superiors (i.e., central office administrators)

- **Ability to**
  - Get what you want
  - Influence superior’s actions
  - Have your recommendations receive serious consideration
  - Secure appropriate approval for programs and activities

NASSP 2008 Principal Impact on MS Success
Synthesis of Key Findings

- Provide efficient **day-by-day** management
- Maintain currency in **knowledge** of best practices
- Maintain focus on **values, beliefs, and vision**
- Facilitate faculty **collaborative conversations**
- Facilitate **teacher and parent** engagement
- Stand up for the **key programs and practices**
- Understand the importance of **second-order change**
- Keep your eye on the **comprehensiveness** of true school improvement
Recommended Resources

- See the Wayne Hoy website at (www.coe.ohio-state.edu/whoy/). Dr. Hoy and his colleagues at The Ohio State University have completed some outstanding research on the relationships between leadership and selected school variables, including school climate, efficacy, and trust. From Dr. Hoy’s home page, select current research and consider the PDFs on Collective Teacher Efficacy and Teacher Trust. In addition, go to Research Instruments to view the myriad of leader and school improvement surveys and tools developed by Dr. Hoy and his colleagues. This is an exceptional website for a school leader. Dr. Hoy has been a leading scholar in education for decades and his site provides valuable resources for school leaders.

- See the website of the Middle Level Leadership Center located at (www.education.missouri.edu/orgs/mllc/) or (www.MLLC.org). Watch for the posting of research from this study in the coming months. Though the website is currently being rebuilt, at this time we have uploaded papers and presentations from selected conferences. In those papers and presentations you will find information designed specifically for principals and teacher leaders. The papers can be found under the heading Conference Research Papers/Presentations.
Questions, contact the presenters at:
