

School Profile Activity

Team Directions

1. This activity is to be completed by the whole team; please do not split up the different profiles among team members in order to save time.
2. As a team, review the provided directions and definitions before beginning work.
3. As a team, complete your profiles for each critical school improvement dimension.
4. Please make your dots dark, and connect them with dark lines, as we will be collecting and copying them for you or making two copies so you have one for your team and we have one for our files.

Thanks
Jerry
