

The Way Forward

- **More basic studies (“Scientific method”)**
- **Greater involvement of the younger generation**
- **Repeatable Experiments (MFMP)**
- **Attract funding (Crowd funding has limitations)**
- **Change mindset of funding bodies/govt. agencies**
- **Skepticism of the “mainstream Scientific community” needs to change;**
- **A “breakthrough” theory/”Breakthrough” Expt?**
- **Or KW level demos such as Rossi or Defkalion**
- **Public perception -> Politicians - > Govt. agencies**
- **Whether we like it or not latter is having an effect.**

- **Positive Developments :**
- **SKINR : Youngblood and collaboration**
- **Italy-US Collaboration**
- **Recognition of Role of Industry (Katinsky/Nagel)**
- **Organizers of ICCF 15 have recognized**
- **Dialog between start ups and Academicia**
- **Private funding agencies/venture capitalists seem to be taking note**
- **Patent Laws : Hindrance ?**
- **Like to hear from representatives of major countries their perspectives on this.**
- **What is happening/likely to happen : A realistic assessment/extrapolation .**
