Graduates

University of Missouri School of Medicine

1841-1997

(Names listed in this chapter are not included in Index.)

Class of 1841: The first commencement of the medical department of Kemper College was held on February 23, 1841. McDowell, the school's founder, made an address as did The Rev. S. A. Crane, president of Kemper College. We have no information regarding the graduates as they were not published.

Class of 1842: The second commencement was held at the Concert Hall in St. Louis on February 26, 1842. Receiving diplomas were: J. M. Perry, John Edgar, A. H. Illinski, Douglas Stevens, John Morrison, J. S. Peacock, Nathan Watson, J. D. Belt, E. Hildreth, Charles W. Stevens, Samuel Thompson, Beriah Graham and George Tevman.

Class of 1843: Graduation exercises were held on February 25, 1843. A list of graduates was not published but it is known that Drs. Pimm, Banks, Horton, Allen, Harrington, Barbee, Thompson and Thornton received degrees.

Class of 1844: Graduation exercises were held on March 2, 1844. Twenty-seven students received the degree of doctor of medicine. No list of graduates was published.

Class of 1845: No account of the graduation exercises of 1845 can be found.

Note: In the yearly education issue of the *Journal of the American Medical Education*, it is generally the custom of each medical school to list its year of origin to include the date of origin of the school from which it evolved. Therefore, the case can be made as Dr. Neal stated, that the origin of the University of Missouri is 1840-1841.

Addendum:

Since 1957, 3,462 M.D. degrees have been awarded at Mizzou's School of Medicine, including the class of May 1997. Altogether, there have been 6,171 students who have graduated from the medical school since it was re-established on the Missouri campus in 1872. This includes 333 who graduated in Division 2, from St. Louis. There are 300 known graduates who received the M.D. degree from the university medical school program in St. Louis beginning in 1846. This brings the grand total to 6,471. It should be noted that there is no list available naming the class of 1847. It is probable that there were at least thirty graduates, so these too could be added to the grand total which would be over 6,500 total.
