In 2012, VAC was hard at work every day to bridge the gaps of need for low-income families in Boone County. Providing services in the areas of health, employment, education, and housing meant that VAC provided assistance with — among other things — the following:

- 742 prescription medications
- 223 medical and dental copays
- 446 food pantry visits
- 445 fans
- 85 air conditioner window units
- 98 clothing items for work
- 4,720 bus tickets for work
- 31 computers for families with school-age children
- 235 scholarships for children’s extracurricular activities
- School supplies for over 700 children
- Over 5,000 winter items (coats, blankets, etc.) for over 700 families
- 3,119 lunches provided for children in the summer
- 73 families provided rental assistance, preventing homelessness
- 29 short-term emergency motel stays

Not to mention responding to over 7,000 phone calls and over 10,000 in-office visits requesting information about other resources in Boone County.
All this points out that VAC is worthy of your ongoing financial donations — all year long, as well as during Christmas! It’s because of such support that VAC is able to provide these basic needs services.
