Research Focus

[Testosterone May Contribute to Colon Cancer Tumor Growth](#)

Formed in 1976, the VCS has a membership of nearly 1,000 people, including specialists in medical, surgical and radiation oncology, internists, pathologists, pharmacologists and general practitioners worldwide. The nonprofit's mission is to disseminate information to members, inspire collaboration by connecting individuals with diverse interests in oncology, and foster awareness of scientific information among the public, cancer care providers and investigators.

Selting will serve the VCS executive committee for two years as president-elect before becoming president. After two years in that role, she will spend another two years on the committee as the past president.
