

MU ITC Grant Status Report – KCOU

Project Summary

KCOU is in the completion stages of the relocation of KCOU's facilities to the MU Student Center. All equipment purchases for the new studio are complete and process on the construction of the new studio is about ninety percent complete, to be completed by the end of the summer. The carpet, furniture and casework in the studio have been installed, as has the majority of the on-air equipment. At this point, we can play music in the studio and are a few steps from taking the studio feed live on air. The FCC requires the station to have an Emergency Alert System (EAS) to be fully operational. The EAS system is being installed on June 22nd. In the meantime, KCOU continues to broadcast out of Lower Pershing. All staff members are excitedly waiting the completion of the project. We anticipate full installation of all furniture and equipment and relocation of the KCOU studio, library and office materials by July 31, 2011.

Invitation to Review

KCOU's new studio space is open for tour and evaluation at this point. Please contact Erin Gregory—KCOU General Manager—to schedule a time that will work for the Committee at your convenience.

Itemization of Costs

Please see the attached spreadsheet for an itemized list of items purchased for the new studio and corresponding cost.
