

Olson broadens affirmative action

University employees seeking broader administrative experience may apply to UMca's new management intern associates program.

UM President Olson recently announced the establishment of the program to enhance affirmative action and equal opportunity efforts at the University.

The new one-year associateships will be available in central administration during the 1980-81 academic year. The positions will provide mid-level and upper-level administrative experience.

"This program is a unique, positive and very active step on the part of the University to provide a viable answer to our continuing effort to hire the most qualified, capable persons and also to further our interest in achieving a more diversified and balanced work force," Dr. Olson said.

Associates will gain experience in committee activity, staff work and decision-making. A central administration staff member will coordinate the program.

Members of minority groups and women are encouraged to apply to the associates program. Applications, including resumes and statements of

purpose, must be submitted before Aug. 15 to Connie Wood at Personnel Services, 309 Hitt St., Columbia. A five-member screening committee of UMca personnel, faculty and staff will make recommendations to the president. Associates will be announced in the fall.

Curators approve UMSL program

Candidates for UMSL's master of arts degree in history soon will be able to select a new area of emphasis—historical agencies.

The new program will begin in September and represents a cooperative effort between UM-St. Louis and area agencies. Course work will include conventional historical research courses, collection and display for museums, historic preservation, site interpretation and historical agency administration. Practical experience in historical agencies will supplement classroom study.

Historical agency training equips students for careers as curators, park service historians, history education coordinators, historical society personnel and other history-related occupations in the public and private sectors.

UM changes rules governing athletes

Men and women athletes at the University will face identical academic eligibility requirements beginning this fall due to a Board of Curators ruling July 25.

In cases where intercollegiate eligibility rules have been different for men and women, the stricter requirements will apply to both sexes.

The new ruling applies to all University campuses, but UMC is most affected because of its membership in the Big 8 Conference.

In the past, policies governing male athletes have been more strict than those governing females. For example, women have had lower course-credit-hour and grade-point-average requirements, although women athletes overall have had higher grade-point averages than their male counterparts.

Students who are eligible to participate under the old rules and who enroll on the first day of classes for fall semester, 1980, will have until next academic year to comply with the new regulations.

Board considers campus projects

The UM system Board of Curators considered several physical-facility items for the Rolla and Columbia campuses at the July 25 board meeting. The board took the following actions on Rolla projects:

- Approved drawings for an addition to the Thomas Jefferson Residence Hall. Expansion of the building will increase its capacity from 529 to 889 students.
- Authorized a loan application to the U.S. Department of Housing and Urban Development to pay for the addition. The 40-year HUD loan will not exceed \$5 million at an interest rate of 3 percent.
- Awarded a \$1,580,000 boiler and baghouse construction contract to the low bidder, Henry Vogt Machine Co. of Louisville, Ky. The construction will allow UMR's heating plant to comply with clean-air standards by burning low-cost Missouri coal and wood chips. State appropriations will finance the project.
- Granted a \$159,283 contract to Spencer Truck Service of Rolla for two projects—a soccer field south of Jackling Field and an access to U.S.

Highway 63 at the southeast corner of Gale Bullman Multipurpose Building. Campus special projects and minor construction funds will finance the project. It is scheduled for completion late this year or early next year.

- Chose Hastings and Chivetta, Inc. of St. Louis to design the proposed engineering management building. The architect will receive a 6-percent fee from private funds the campus raised. UM will ask the legislature for \$53,000 in 1981-82 planning funds and 80 percent of the \$2.5 million in 1982-83 construction costs. Private funds will pay the remaining construction costs. Actions on UMC physical-facility projects included:

- Awarding a \$846,417 construction contract to low bidder Western Waterproofing Co. Inc. of St. Louis for installing a new Hearnes Multipurpose Building roof. Work is scheduled to be completed late this fall. The legislature has appropriated \$632,000 for the project.

- Reviewing plans to award contracts for building a sculpture garden west of Pickard Hall and a brick terrace with benches around the Francis monument at Ninth and Lowry streets. Knipp Construction Co., Columbia, submitted the low bids—\$8,918 for the Pickard Hall project and \$18,700 for the Francis monument project. These items do not require board approval.

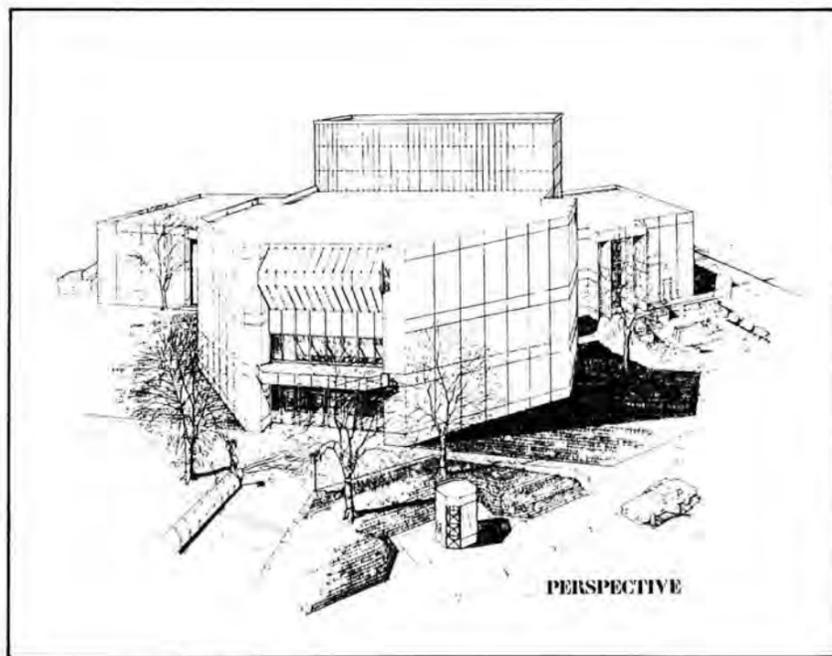

- Authorizing advertising for bids on a project to install elevators for the handicapped in Stanley and Stewart halls and the Fine Arts and Agriculture buildings. The \$400,000 project will be financed with state funds.

UM outside funds attain record level

The University of Missouri's record \$51.5 million in outside 1979-80 fiscal-year funding represents a 29-percent increase over last year's grants and contracts.

Funds from several federal agencies and the National Science Foundation account for much of the total. Other sources include industries, foundations and state agencies. Research support accounts for about 40 percent of the total, down slightly from last year's 46 percent.

UMC took the biggest jump in funds received—up \$10.2 million since last year. Other increases were \$516,000 at UM-Rolla; \$449,000 at UMSL; \$429,000 at Kansas City; and \$70,000 at UM-central administration.

Rolla's proposed auditorium/music/alumni building

Board reviews Rolla building plan

Kansas City architects Mantel & Teter unveiled preliminary plans for Rolla's auditorium-music-alumni building at the curators' July 25 meeting.

The proposed \$5.5-million building will feature an auditorium-performing arts theater; music department office, class and rehearsal space; and offices and meeting facilities for the

MSM/UMR Alumni Association and the UMR development program. State and private funds will finance the project.

The new facility will be located across the street from the Chemistry-Chemical Engineering Building.

Curators OK new degree programs

Kansas City and St. Louis got new fine arts degree programs and UMSL changed a program title during the UM system Board of Curators' meeting in Rolla.

UMKC now has a master of fine arts degree with two professional theater emphases—acting/directing and design/technology. The three-year program includes work with the Missouri Repertory Theatre located on the Kansas City campus.

UMSL has a new bachelor of fine arts program to supplement fine arts courses offered through the St. Louis Community College District. The UMSL art department hopes to begin its program next January. The three areas of emphasis are painting, design/graphic design and printmaking. A minimum of 60 hours' college credit and a satisfactory art portfolio are required for admission.

The board also granted UMSL's request for a program-title change. The master's degree in elementary education is now called a master of education degree in special education. The program has emphasis areas in behavioral disorders, early-childhood special education, learning disabilities and mental retardation. The name change does not alter the curriculum or require new faculty.

UMSL will open School of Nursing

A new UM-St. Louis School of Nursing will open in fall, 1980, at the Marillac campus's Education Office Building.

The University's curators approved establishment of the school at the July 25 board meeting.

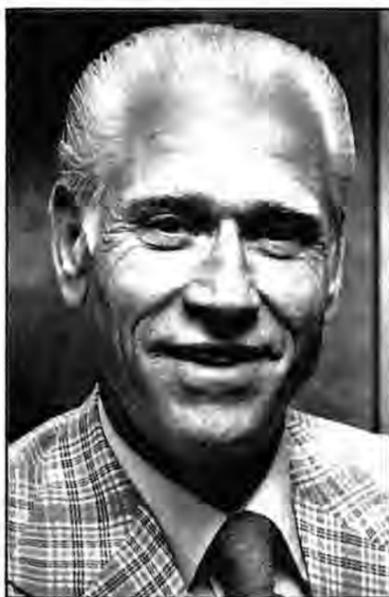

The nursing school will administer the recently approved bachelor of science in nursing program. Graduates with a BSN degree are trained to assume managerial, supervisory and clinical leadership positions. UMSL's program will increase the pool of personnel to work in ambulatory health-care facilities, health maintenance systems, community health services and nursing homes.

UMSL will admit 75 full-time and part-time students each year. Applicants must be registered nurses who have passed their state board exams and have 30 hours' college credit. The curriculum will complement programs presently offered in the St. Louis Community College District.

UMSL Chancellor Arnold Grobman said a dean for the new school will be appointed next fall. The faculty will cover medical-surgical, community, pediatrics, mental health and obstetrics nursing.

Med center changes name

The UMC medical center has a new name—University of Missouri-Columbia Health Sciences Center. The Health Sciences Center includes the hospital, outpatient clinics, the schools of medicine and nursing, some academic science departments and parts of the School of Health Related Professions.

Theodore J. Planje

UM-Rolla honors the late Dr. Planje

The Ted Planje Memorial Fund has been established in honor of the late Theodore J. Planje, UMR School of Mines and Metallurgy dean.

Dr. Planje, 61, died July 15 in Lexington, Ky., while attending a meeting of mining institute directors at the University of Kentucky.

Dr. Planje was a student, faculty member, department chairman and dean during his long career at Rolla. He recently received the Albert Victor Bleining Award from the American Ceramic Society and was a member of that society and many others.

Donations to the new Planje Memorial Fund may be made care of the MFM/UMR Alumni Association.

Curators name campus facilities

Columbia and Rolla campus buildings received names at the July 25 UM system Board of Curators meeting.

UMC's new three-story journalism addition has been dubbed Gannett Hall. Its construction was financed in part with a Gannett Newspaper Foundation gift of \$660,563 in Gannett Co. stock.

The newly named Dutton Brookfield Athletic Facility is a renovated UMC training building and athletic dressing room. The late Mr. Brookfield, a 1940 UMC graduate, basketball letterman and Unitog Corp. president, served several terms on UMC's intercollegiate athletic committee.

A UMC reserve-fund loan paid for the athletic-facility improvements. The \$1.2-million fund-raising campaign to repay the loan is near completion. A dedication ceremony for the facility will be held Oct. 4.

UMR's new chemistry-chemical engineering building has been named Walter T. Schrenk Hall, to honor the late professor emeritus of chemical engineering.

Dr. Schrenk joined the Rolla faculty in 1923 and retired in 1961. During his 27 years as chairman of the chemical engineering department, its number of degrees doubled, it acquired a new building and laid the groundwork for separate chemistry and chemical engineering departments.

Olson makes research awards

UM President James C. Olson recently awarded more than \$500,000 to faculty on all four campuses for research projects.

Investment income from the \$12.4-million sale of the University's Weldon Spring property to the state Department of Conservation provided the award money.

The University has invested the sale's proceeds and uses the income to support scholarly, artistic and creative activities of UM faculty.

1980 Weldon Spring Award recipients at UM-Columbia are:

- Soon Sung Cho, political science, \$10,000
- Gray S. Henderson, forestry, fisheries and wildlife, \$9,750
- Irving G. Joshua, poultry husbandry and Dalton Research Center, \$7,000

- Albert Leonard, Jr., art history and archaeology, \$8,300

- S. K. Loyalka, nuclear engineering, \$10,000

- Stanley E. Manahan, chemistry, \$3,000

- William D. Noteboom, biochemistry, \$12,225

- John T. Novak, civil engineering, \$7,000

- Stephen G. Pallardy, forestry, fisheries and wildlife, \$6,000

- John A. Paterson, animal husbandry, \$10,000

- Mark A. Prelas, nuclear engineering, \$10,000

- John F. Reinisch, surgery, \$10,680

- Eric J. Rinehart, geology, \$8,300

- Victor R. Stefanovic, electrical engineering, \$6,350

- Vincent V. E. St. Omer, pharmacology, and Dennis C. Wright, psychology, \$9,000

1980 Weldon Spring Award recipients at UM-Kansas City are:

- Jeffrey B. Berman, law, \$6,800
- Ronald P. Carver, education, \$17,000

- Raymond M. Coveney, geosciences, \$6,300

- Anthony J. Hancock, chemistry, \$14,065

- Jay Hewitt, psychology, \$6,950
- Rona Hirschberg, John DeSena, Edward Hsu and Marvin Rogolsky, biology, \$20,000

- Kenneth J. LaBudde, libraries, \$11,780

- Yudell L. Luke, mathematics, \$1,600

- Lewis S. Schanker, pharmacy, \$2,377

- Herbert A. Wenner, microbiology, \$7,400

- David M. Yourtee and Harvey J. Freedman, pharmacy, \$21,000

- 1980 Weldon Spring Award recipients at UM-Rolla are:

- R. A. Anderson, physics, \$2,000
- Ta-Shen Chen, mechanical and aerospace engineering, \$6,626

- S. B. Hanna, chemistry, \$10,000
- H. D. Keith and R. C. Batra, engineering mechanics, \$19,000

- R. T. Kellogg, social science, \$8,000

- R. M. Kluczny, engineering management, \$8,250

- A. I. Liapis and O. K. Crosser, chemical engineering, \$19,000

- A. Moutsoglou, mechanical and aerospace engineering, \$4,666

- J. B. Ridley, humanities, social sciences, music and art, \$15,000

- P. D. Stigall, computer science and electrical engineering, \$7,500

- M. A. Thayer and R. R. Bryant, social science, \$8,100

- D. C. Wixson, humanities, \$2,800

1980 Weldon Spring Award recipients at UM-St. Louis are:

- Lawrence Barton, chemistry, \$13,200

- Harry Bash, sociology, \$17,500
- Robert Bolla, biology, and Rudolph E. K. Winter, chemistry, \$11,250

- Sylvia Jenkins Cook, English, \$5,200

- Eugene Corey, chemistry, \$950
- Joyce Corey, chemistry, \$3,736

- Zuleyma Halpin, biology, \$10,000
- James Hunt, biology, \$2,660

- Donald Kummer, business, \$8,500

- Robert Nauss, business, \$9,200
- James Riehl and James Chickos, chemistry, \$15,000

- Paul Roth, Stephanie Ross and David Conway, philosophy, \$10,000

- Richard Schwartz, physics, \$2,500

- Jane Starling, biology, \$1,720
- Diane Touliatos-Banker, music, \$6,000

Recipients of joint campus awards are:

- Jack Boone, electrical engineering, UMR; Tom Van Doren, electrical engineering, UMR; and Bernard J. Feldman, physics, UMSL; \$25,000

- Tawfik M. A. ElAttar, biochemistry, UMKC, and Gordon Sharp, immunology and rheumatology, UMC, \$8,000

UM-Rolla meets campus housing crunch

UM-Rolla will be able to provide more short-term student housing because of a Board of Curators action July 25.

The board approved lease agreements with Judy's Wayfarer Inn and Rolla Rancho Motel to supply housing for 98 students. The agreements will run from Aug. 17 through May 17, 1981, at a cost of \$29,700 for Wayfarer, which will house 36 students, and \$54,000 for Rolla Rancho, which will house 62.

Similar agreements have been reached to accommodate 366 students at seven other Rolla motels—Little Piney

Motor Lodge, Interstate Motel, Plaza Motel, Rustic Motel, Coachhouse Inn, Manor Inn and Holiday Inn—and a private dormitory, Carnahan Hall.

Rolla's housing crunch has resulted from increased enrollment. UMR's enrollment is expected to increase again this fall, and applications for University housing are at an all-time high.

Existing University-owned housing at UMR can accommodate 1,212 students. Fraternities and sororities account for another 1,203. With the new agreements, there will be an additional 464 spaces in leased housing.

UM upgrades four benefit programs

University employees this fall will begin receiving benefits of a \$1.6-million improvement plan to UM's retirement, medical benefits, long-term disability and life insurance programs.

The UM system Board of Curators recently approved amendments to upgrade the University's staff benefits programs.

UM President James C. Olson called the benefits changes "the most comprehensive steps taken in any single year by the University to improve and restructure its benefit programs as related to its total employee compensation package."

Dr. Olson said the new compensation program will be competitive and attractive to present and prospective faculty and staff members.

Improvements include reducing to five years the length-of-service requirement for retirement-program vesting rights, removing the age requirement for vesting and increasing retirement benefits. Medical benefits and long-term disability coverage will expand. The amount of University-paid life insurance for employees will increase and employees will have the option to purchase additional life insurance.

The only significant cost increase to employees will be the annual adjustment in medical-benefit-plan rates due to rising medical costs.

Employees may elect to pay more for higher coverage. For example, employees will pay less for two-times-annual-salary coverage in the new life insurance program, but will pay more for the option of three-times-annual-salary coverage.

Improvements to the employee benefits plan are possible because the state provided a 9.5-percent increase in faculty and staff compensation for the current fiscal year. The UM Retirement and Staff Benefits Committee recommended a portion of these funds be used for upgrading benefits programs.

Donald S. Holm, Jr., chairman of the committee, said meetings will be held on the campuses beginning in September to clarify and invite participation in the programs.

Mr. Holm and Mike Reese, UM staff benefits director, will conduct the meetings with members of the campus retirement and staff benefits committee and representatives of staff benefits offices. Announcement of campus meeting dates will be made later.

Open-enrollment periods this fall will enable employees to enter programs or change their level of participation in benefits plans.

A new staff benefits handbook will be printed and distributed this fall. In March, employees will receive individualized "status of benefits" reports showing programs in which they are enrolled, amounts of coverage, values of various programs and other data. Individualized reports will be distributed annually.

Retirement, disability and death benefit

Effective date: Sept. 1, 1980

Changes:

- Removes age-35 requirement for vesting.
- Removes the benefit penalty for retiring employees who would have had more than 35 years' service at age 65.
- Reduces the vesting requirement from 10 to five years' continuous service. Permits employees who leave the University before age 65 to receive a sum not to exceed \$1,750 in final satisfaction of the vested benefit.
- Adds a break-in-service provision allowing an employee to leave and return to the University without losing the service accrued, unless the absence was longer than the period of initial employment.
- Provides a 10.37-percent increase in benefits for retirees who began receiving benefits before Sept. 1, 1977; provides a 5.46-percent increase for those who began receiving benefits on or after Sept. 1, 1977 and before Sept. 1, 1978.

Medical benefits

Effective date: Oct. 1, 1980

Changes:

- Eliminates requirement that employees enroll all eligible dependents.
- Extends coverage to dependent children who are mentally or physically disabled, regardless of age.
- Adds a provision for convalescent care immediately following hospitalization.

MEDICAL BENEFITS PROGRAM						
	EMPLOYEE COST (Monthly)		UNIVERSITY COST (Monthly)		TOTAL COST (Monthly)	
	OLD	NEW	OLD	NEW	OLD	NEW
\$50 Deductible:						
Employee only	\$10.84	\$12.54	\$21.25	\$24.59	\$32.09	\$37.13
Employee and child or children	14.57	16.86	28.57	33.05	43.14	49.91
Employee and spouse	23.05	26.67	45.20	52.30	68.25	78.97
Employee, spouse and child or children	27.68	32.03	54.30	62.82	81.98	94.85
Widow/widower	34.06	39.41	-	-	34.06	39.41
Widow/widower and child or children	47.81	55.32	-	-	47.81	55.32
\$200 Deductible:						
Employee only	7.55	8.74	14.82	17.14	22.37	25.88
Employee and child or children	10.10	11.69	19.81	22.92	29.91	34.61
Employee and spouse	15.62	18.07	30.62	35.43	46.24	53.50
Employee, spouse and child or children	18.21	21.07	35.71	41.32	53.92	62.39
Widow/widower	21.11	24.42	-	-	21.11	24.42
Widow/widower and child or children	28.78	33.30	-	-	28.78	33.30

- Increases outpatient mental and nervous-disorder treatment to maximum of \$30 a visit, with \$2,000 annual limit.

- Extends dependents' medical coverage from age 23 to age 25 for unmarried persons attending accredited educational institutions.

- Modifies the pre-existing medical condition exclusion for dependents. Allows coverage of a pre-existing condition that has not required treatment for three months, or covers the condition after 12 months' participation in the medical plan, whichever comes first. Adds a similar pre-existing condition requirement for employees.

- Increases medical-plan rates for employees and the University by 15.7 percent to reflect a 15-percent inflationary adjustment and a .7-percent adjustment for benefit improvements. (The new rates are shown in the accompanying table.)

Life insurance

Effective date: Dec. 1, 1980

Changes:

- Provides all eligible active employees one-times-salary coverage at University expense. (Cost is 29 cents per \$1,000 of coverage a month, with the University paying the total cost.)
- Allows a second one-times-salary coverage with employee and University sharing the cost. (Cost is 37 cents per thousand dollars coverage a month, with the employee paying 22 cents and the University paying 15 cents.)
- Allows a third one-times-salary coverage at employee's expense, with premiums as follows:

Age	Rate per thousand dollars per month
Less than 40	14 cents
40 - 49	30 cents
50 - 54	65 cents
55 - 59	\$1.05
60 - 64	1.60
65	2.70

NOTE: As the employee attains the ages of 55, 60 and 65, life insurance coverage is reduced to 75 percent, 50 percent and 35 percent, respectively. Coverage terminates on Dec. 1 following the 70th birthday.

Long-term disability

Effective date: Dec. 1, 1980

Changes:

- Conforms to the federal Age Discrimination in Employment Act by extending benefits to employees who become disabled after age 62:

Age	Maximum Benefit Period
62	3½ years
63	3 years
64	2½ years
65	2 years
66	1¾ years
67	1½ years
68	1¼ years
69	1 year
70	none

- Increases maximum annual benefit payable from the Long-Term Disability Plan from \$18,000 to \$36,000. (NOTE: The plan provides up to two-thirds of the enrolled employee's annual salary.)

- Eliminates the provision reducing long-term disability benefits when a cost-of-living increase is provided by non-University benefit programs integrated with the University's plan.

- Reduces from 100 percent to 85 percent of annual salary the maximum amount payable when Long-Term Disability Plan benefits are integrated with Social Security, Civil Service Retirement, University Retirement, or other federal or state disability programs.

- Adds a monthly minimum benefit of \$50 payable from the Long-Term Disability Plan.

- Modifies the payment plan. Previously, the employee paid the entire cost of coverage—88 cents per \$100 of coverage each month. Now the employee and University will share the cost—93 cents per \$100 of coverage. The employee will pay 70 cents, and the University 23 cents.

People

Lyman Francis, a Rolla engineering professor, has received the James H. McGraw Award in Engineering Technology Education. The American Society for Engineering Education gave the award and a \$1,000 prize in recognition of Dr. Francis' contributions to the field.

Donald Sorby, UMKC School of Pharmacy dean, is the new president of the American Association of Colleges of Pharmacy.

Wendell Smith, dean of Continuing Education-Extension at St. Louis, is president-elect of the National Adult Education Association. UMSL will host more than 2,000 educators at the association's annual conference this fall.

James Zahnd, director of university communications on the Kansas City campus, recently became a national trustee of the Council for the Advancement and Support of Education. CASE is the major professional association for college and university advancement personnel.

Rolla's **Chancellor Joseph Marchello** has received certification as a registered professional engineer in Missouri.

The National Society of Mural Painters includes UMKC art professor **Eric Bransby's** work in a new traveling exhibit.

William J. French became UM-Kansas City's interim vice chancellor for development on June 1. Mr. French has been assistant to the chancellor for the past seven years.

David Ray, UMKC English professor, was the subject of a film shown on KCPT-TV's "Kansas City Strip" in June. The film, part of the "Conversations with Missouri Writers" series, focuses on Dr. Ray's book, "The Tramp's Cup," which won the 1979 William Carlos Williams prize for poetry.

Glenn H. Eberhart, assistant dean of UM-Kansas City's School of Pharmacy, recently won his second AMOCO Distinguished Teaching Award. Dr. Eberhart first received the award in 1971.

Raymond A. Nabors has joined UM Extension as an entomology specialist in the Bootheel area.

Paul Agris, UMC associate professor of biological sciences, has received two research fellowships. Dr. Agris is developing new methods to analyze genetic mutations in living cells.

Eric Rinehart, UMC assistant professor of geology, has won the 1980 Langmuir Award for Excellence in Research. The New Mexico Institute of Mining and Technology makes its national award each year in recognition of the best technical paper written by an alumnus.

Donald Brooker, UMC professor of agricultural engineering, recently received the Massey-Ferguson Medal from the American Society of Agricultural Engineers. The award is the society's highest honor for educators.

Eleanor Brantley Schwartz will become dean of UMKC's School of Administration effective Aug. 1. Dr. Schwartz is currently associate dean of Cleveland State University's College of Business Administration. Dr. Schwartz's UMKC appointment will make her one of three women deans at accredited U.S. schools of business and administration.

Dan L. Wallace, former director of the Student Development Center at William Jewell College, is UMSL's new assistant dean of Student Affairs. Dr. Wallace will be responsible for operational, financial and personnel activities in his division.

The UMSL Alumni Association gave its highest award to **William F. Symes**, president of the Monsanto Fund. Dr. Symes has been a leader in providing industry support for public higher education.

Earl Wims, associate professor of marketing at UM-St. Louis' School of Business, received the UMSL Alumni Association's Outstanding Teacher Award.

Stig Friberg, UM-Rolla's chemistry department chairman, presented a paper at the Society of Chemical Industry symposium on non-aqueous foams in Glasgow, Scotland.

UM President James C. Olson has been re-elected chairman of the University of Mid-America board of trustees. Dr. Olson has chaired the UMA board for the past year.

Muriel Pumphrey of UM-St. Louis will have the title professor emeritus of sociology effective Sept. 1, 1980.

Kenneth Kincheloe, recently retired director of UMSL's Credit Programs for Continuing Education, has received

the Distinguished Service Award of the Missouri Association for Adult Continuing Education. The award recognizes contributions to the field of adult education.

Jerold Stark is acting director of UM Extension's business, industry and labor program. Dr. Stark has been the program's assistant director since 1972.

Mark D. Langford

Mark D. Langford became director of facilities management for the UM system July 1. Mr. Langford joined the UM system last November as the first director of energy conservation. As director of facilities management, Mr. Langford is responsible for construction activities, air fleet operations, and physical plant, energy and transportation management. Mr. Langford's new position was created during the restructuring of UM's business services offices.

David N. Klostermann, director of credit programs for UMSL Continuing Education-Extension, is the new advisory committee chairman for St. Louis Public Schools' Adult Basic Education program. The program provides basic education through high school equivalency for St. Louis residents.

Three members of the UMC Agricultural Editor's Office received national awards from the Agricultural Communicators in Education. **Debrah**

H. Jefferson, Orrine Z. Gregory and Paul H. Gwin won awards for professional excellence at the ACE's July convention in Berkeley, California.

The City of Mainz, Germany, and the Gutenberg Society have awarded the 1980 Gutenberg Prize to **Helmut Lehmann-Haupt**, UMC professor emeritus of library science. Dr. Lehmann-Haupt is an expert on old and rare books.

Harriet H. Werley, associate dean of the UMC School of Nursing, received the first award for Distinguished Contribution to Nursing Science from the American Nurses' Foundation. Dr. Werley won the award and a \$1,000 prize during the American Nurses Association convention in Houston June 16.

UMC graduate student of psychology **Benjamin L. Somberg** is one of three students chosen for a Honeywell Corp. \$20,000 internship. Mr. Somberg will spend 9-to-12 months at Honeywell's Systems and Research Center to study psychological aspects of the man-machine relationship.

James O. Davis, professor and chairman of physiology at the UMC School of Medicine, has been named president of the International Society of Hypertension in New Orleans. Dr. Davis is a founding member of ISH and has contributed to hypertension research.

C. Bruce Cornett, former director of planning and program development for Rural Missouri, Inc. in Jefferson City, is the UM system's new director of business operations.

The Department of Health, Education and Welfare has awarded \$260,000 to researchers at UMC's School of Nursing. Award recipients **Elizabeth Geden, Neils Beck and Gerald Brouder** are examining labor pain and methods to reduce the stresses of childbirth.

William A. Knox is this year's David Ross Hardy professor in trial practice at the UMC School of Law. Mr. Knox directs the school's trial practice program.

Richard Moore is the newly appointed clinical coordinator for the pharmacy at UMC Hospital and Clinics. Dr. Moore will develop a teaching program and clinical services.

Jobs

The following administrative, professional and academic vacancies were listed with *Spectrum* as of July 25. Those interested in a position should contact the appropriate academic department or personnel office.

UMC: Assistant supervisor, custodial services; coordinator, career planning and placement; financial advisor and auditor, student organizations; food service supervisor II; grants and contracts assistant; information specialist; manager, utilities; radio producer; research specialist; scientific programmer/analyst I; student services advisor (international student programs); student services coordinator (minority student programs); supervisor, broadcast engineering, KOMU-TV; superintendent, building trades; **UMca:**

Management intern associate (3); chemist (2); computer programmer/analyst I & II; computer project manager (4); executive assistant, business services; engineering project manager (2); investment specialist; research scientist (2); senior systems analyst; senior systems programmer;

UMC Hospital: Assistant director, hospital rehabilitation service; biomedical engineer; child life activity therapist; computer programmer/analyst II (2); head nurse (2); health care evaluation analyst; manager, IV therapy, malpractice/general liability, research and analysis; occupational therapist; pharmacist; quality assessment analyst; registered medical technologist (2); senior computer programmer/analyst; supervisors, hospital security, housekeeping, staff benefits;

UMR: Buyer; administrative associate I; adjunct faculty, civil, electrical, mechanical and aerospace engineering, engineering management, computer science; assistant dean, graduate affairs and research, engineering; assistant dean, undergraduate affairs, engineering;

UMSL: Manager, grants & contracts; radio news director; senior information specialist;

UMKC: Cashier; food service supervisor I; clerk II; secretary; senior secretary; computer programmer I; health physics technician.

SPECTRUM

is published every other week during the academic year and monthly during the summer session by University Relations, 400 Lewis Hall, Columbia, in cooperation with the Columbia, Kansas City, Rolla and St. Louis information offices.

Summer Editor: Rosalyn Morgan
Ph. 882-4591
