MU to Host Symposium on Zoonotic Disease Research

The University of Missouri College of Veterinary Medicine and Mizzou Advantage will bring several experts on zoonotic diseases to campus this May for an interdisciplinary research symposium. The symposium, "Infectious and Zoonotic Disease Emergence: Recognizing Challenges and Identifying Opportunities for Impactful One Health Research," will take place May 23-24 at the Bond Life Sciences Center.

CVM Research Day

Sponsored by Phi Zeta

Zoonoses are infectious diseases of animals that can be transmitted to people. The symposium will focus on raising awareness about zoonoses through the exchange of scientific information about these diseases, and provide an opportunity for scientists to work with policymakers and stakeholders to identify priority areas for research. The symposium is open to clinicians, veterinarians, students, other health professionals and scientists interested in research and clinical topics on the growing risks of zoonotic diseases.

Featured speakers will include physicians, veterinarians, scientists and educators, who will provide insight into zoonotic disease emergence and opportunities to integrate human and animal health, particularly in settings where resources are limited. The keynote speakers are Tony L. Goldberg, PhD, DVM, MS; John A. Crump, MB ChB, MD, DTM&H, FRACP, FRCPA, FRCP; and M. Kariuki Njenga, BVM, MS, PhD.
