

Fun With Food and Fitness

First-grade nutrition education newsletter

Lesson **1**

Variety + being active
+ keeping hands clean
= **good health**

For good health, choose a variety of foods, be physically active and wash hands to remove germs. Your children learn by watching you. Do these things and they will too!

What can you do to help your child choose a variety of foods?

Children love to be involved in choosing food. Make the recipe on the back of this newsletter together. It uses foods from most of the food groups.

Don't Forget!

Move More - together!

Physical activity is an important part of good health. Make family time, active time. Do things together such as walking in the park, playing games and swimming. Here are

other ideas to help you get movin' with your child:

- Play music and dance together.
- Move like the animals. Prowl like a tiger, fly like a bird, hop like a bunny, slither like a snake.
- Walk together in every season. Look for tracks in the snow or new flowers in the spring. Find fun shadows in the summer. In the fall, collect leaves.

U.S. Department of Agriculture. ChooseMyPlate.gov

MyPlate is your plate!

Use MyPlate to remind you and your family to choose a variety of foods when planning a meal.

A healthy meal starts with half your plate fruits and vegetables and with smaller amounts of grains and protein foods. Dairy foods can be in the form of a drink, low-fat foods like cheese, or low-fat, nonfat yogurt with fruit as a dessert.

**Make family time,
active time**

Recipe

Kids in the Kitchen

Your child gets to practice skills like:

- spoon ingredients into serving bowl
- mix ingredients

Nearly All Food Groups Sundae

Ingredients:

- Low-fat vanilla yogurt or other flavor, or plain nonfat yogurt
- Nuts such as peanuts or seeds such as sunflower seeds
- Fresh fruit in season, canned fruit in light juice, or frozen fruit without sugar added
- Crushed graham crackers or vanilla wafers

Directions:

1. Wash hands and surfaces.
2. Place ingredients in bowls. Open yogurt containers.
3. Spoon ingredients into serving bowls.
4. Refrigerate leftovers immediately.

For a special treat:

Use glass serving bowls. Encourage your child to spoon the ingredients into different layers to make a pretty sundae!

Layer or mix: Which sundae do you prefer?

Have your child mix the sundae ingredients together in a serving bowl and taste. Ask: Do you like this better than when you layered the ingredients in your dish?
