

OUR PAPER.

For reasons which need not be discussed here, the "Alumni Quarterly" has not been issued since last June. Realizing the peculiar importance of an Alumni paper, particularly at this time when a movement has been inaugurated by which, it is hoped, the University will be placed on a stable financial basis, the Quarterly Board decided, unanimously, upon its reappearance. The Alumni Recorder was asked to assume the editorship temporarily until more definite action could be taken. The latter undertook this task, not because he felt his ability to do so, but because he wished to assist in an important work.

The editor feels certain that all good Alumni are anxious that our Association should have this means of obtaining information and also that it should have a medium through which it might express its views. Our University is becoming too large not to have such a paper. We should all know what is happening around the columns; we should also know what the sons and daughters of Old Missouri are doing abroad. The University has fulfilled its duty toward us, it now behooves us to fulfil our duty towards her. We all have the utmost disgust for the person whose attitude bespeaks this feeling: "I have attended your old institution, now what are you going to do for me?" We are fortunate in having but few Alumni whose deportment indicates such a disposition. We believe that all right thinking graduates from this institution will welcome the reappearance of a periodical, solely devoted to the good of Alma Mater.

The "Quarterly" as it was conducted prior to its discontinuance was a splendid production. It seems to us, however, that it did not appear frequently enough. In many instances the news was old before it reached the Alumni. We are firmly convinced that it should be issued monthly instead of quarterly. We believe also that the paper does not need to be so superb

from a mechanical standpoint as the old one was. It might well be printed on slightly inferior paper and if it appears monthly it is not necessary that it should contain more than thirty-five or forty pages in one issue. The news should include a recital of the important happenings at the University itself, it should include reports of all the local Alumni Associations, it should be a news letter, telling of the progress the individual Alumni are making, it should chronicle the fortunes as well as the misfortunes of our large University family, scattered throughout the world. The paper could serve still another purpose. For years it has been impossible for the University to issue an Alumni Directory, because of lack of finances. Would it not be well to have two issues annually devoted to nothing but an Alumni Directory? These issues should appear during the summer months when general University news is scarce. The first number should contain an alphabetical list of names, the second should be geographical. We feel certain, judging from the many requests that have come to the Alumni office, that such a directory would be most welcome. These two issues alone would be well worth the subscription price.

To accomplish the end above described it is imperative that there should be the necessary financial backing. At the coming Commencement there will be laid before the meeting of the Alumni Association the following resolution:

Be it Resolved, that this Association enact a resolution to read as follows:

Since it is the duty of every Alumnus to show some concern for the future welfare of our Alma Mater; since the Alumni magazine, the "Quarterly," has been discontinued for financial reasons; since an Alumni magazine is a necessary adjunct of our organization; we hereby impose upon ourselves an obligation of \$1.00 annually—said amount to be considered as annual dues to the Alumni Association and carrying with it a year's subscription to the Alumni paper, a monthly maga-

zine to be edited and managed by a person, or persons, elected at the annual meeting of the Alumni Association. It is further understood that all dues shall be handed or mailed to the management of the Alumni paper; that a strict account shall be kept of the same and reported on annually; and that the surplus in the Treasury of said magazine shall be, each year, placed at the disposal of the Alumni Association at its annual meeting during Commencement week.

Do you not think that this is a feasible plan? Come and discuss it with us Commencement week.

PERMANENT SUPPORT FOR THE UNIVERSITY OF MISSOURI.

For many years there has been agitated the question of securing permanent provision for the maintenance of the University of Missouri. Recent events have made it essential that an immediate solution of this problem shall be undertaken. The legitimate needs of other state institutions have made it impossible for the legislature to appropriate sufficient amounts for the necessities of the University. As a result the University of Missouri has a smaller income than any of the large state universities, most of which are located in states which are far inferior to Missouri in population and resources.

Not only is the amount received by the University inadequate but, what is of even more importance, it is uncertain every two years what amount will be available until after the legislature has acted.

Under these conditions it is difficult for this University to exercise all of its legitimate activities or to retain members of its faculty in competition with other institutions possessing more ample and certain resources. Only the unselfish devotion of President A. Ross Hill to his work in Missouri prevented the University of Minnesota from depriving us of his invaluable services.

After careful consideration of the entire situation by the Board of Curators, the Governor of the State, leading citizens and local Alumni Associations it has been decided to submit by initiative petition a constitutional amendment providing for a tax of three cents on the hundred dollars' assessed valuation for the maintenance of the University.

The proposed amendment is simple in its terms and requires little explanation. The tax is on the assessed value and as this averages only one-third of the real value the actual tax will not amount to more than one-tenth of a mill on the dollar, i. e., a man with property of the value of \$1,000 will

pay only 10 cents a year for the support of the State University.

The proviso regarding the apportionment of the proposed tax among the counties is inserted to meet the situation which will arise in case the plan for a separation of the sources of state and local revenues is adopted. In such case the state tax on property would be discontinued. If this plan is not adopted the proviso will not come into effect. The amount of the tax is the same in either case.

Most of the progressive Western states have adopted this plan of a definite tax for the support of the state university. The following figures will show that the rate of tax provided in some states is much higher than that which is proposed for Missouri.

PERMANENT TAX FOR SUPPORT AND MAINTENANCE OF STATE
UNIVERSITIES.

State	Rate of tax on \$100 valuation	
Colorado	20	(Includes University and College of Agriculture.)
Michigan	4½	(Includes University and College of Agriculture.)
Minnesota	1.5-1½	
Nebraska	10	
Wisconsin	5	
North Dakota	1.5-1½	(Includes University and College of Agriculture.)
Wyoming	1½	

In most of the above states the legislature appropriates large amounts for the University in addition to the income from the tax levy.

That the University of Missouri is maintained at a much lower cost in proportion to the population and wealth of the state than any other state university with which it can be compared, is shown by the following table, taken from figures prepared by the United States Commissioner of Education, which gives a comparison of the income of neighboring state universities, of the population, and the real and assessed value of property in the states in which they are located.

FINANCIAL STATISTICS OF STATE UNIVERSITIES, 1908.

State	Population	Number of Full- Time Teachers	Approved Value of Real Estate Property in State	Real Estate of State Property in State
Illinois	4,871,399	\$1,200,000	\$1,500,000,000	\$5,000,000,000
Indiana	2,570,402	750,000	1,700,000,000	1,500,000,000
Iowa	2,271,800	1,100,000	600,000,000	5,000,000,000
Kansas	1,470,400	940,000	2,000,000,000	2,000,000,000
Michigan	2,020,000	1,000,000	1,700,000,000	2,000,000,000
Minnesota	1,701,000	1,270,000	1,000,000,000	1,000,000,000
Missouri	2,100,000	600,000	1,000,000,000	1,000,000,000
Ohio	4,100,000	1,000,000	2,000,000,000	2,000,000,000
Nebraska	1,000,000	640,000	300,000,000	2,000,000,000
Wisconsin	2,000,000	1,000,000	2,000,000,000	2,000,000,000

The above figures for income include the total for purposes of higher education. In Michigan, as in Missouri, the School of Mines is located in a different place from that in which the University is situated. In four of the above states the Agricultural College is separate from the University.

The University has become unpopular with some people because of the collateral inheritance tax which is levied for its benefit. The adoption of the proposed amendment will enable the University to dispense with the collateral inheritance tax as a means of support. It will also place the institution in a position to render greater service to the people of Missouri.

ISAAC LOAN, '87.

PROPOSED AMENDMENT.

TO THE CONSTITUTION OF MISSOURI.

To be submitted to the *legal voters* of the State of Missouri for their approval or rejection at the regular general election to be held on the Tuesday next following the first Monday in November, A. D. 1910, providing for revenue for the support of the University of Missouri, by adding to Article X of the Constitution one new section to be known as section twenty-eight (28), which is in words and figures as follows:

SECTION 28. A state tax of three cents on each one hundred dollars' valuation shall be annually levied and collected on the assessed value of all property subject by law to taxation in this state. The proceeds of said tax shall be set apart in the State Treasury and applied to the support and maintenance of the University of the State of Missouri, including the College of Agriculture and the School of Mines, and shall be paid out in accordance with requisitions of the Board of Curators of the University, which requisitions shall be drawn in such form as is or may be provided by law; provided, that, if the general property tax for state purposes is discontinued the annual income heretofore provided for the support and maintenance of the University of the State of Missouri, including the College of Agriculture and the School of Mines, shall be secured by apportioning to each of the counties of the state and to the City of St. Louis an amount equivalent to three cents upon each one hundred dollars' valuation on all property taxable for local purposes. Such apportionment shall be made annually by the State Board of Equalization and the income arising therefrom shall be paid into the State Treasury and disbursed upon requisitions of the Board of Curators of the University, as heretofore specified, provided, that for the purpose of meeting such apportionment the county court of

each county and the municipal assembly of the City of St. Louis shall, if necessary, levy, in addition to the tax which may now be levied for local purposes, a special tax of not exceeding three cents on the hundred dollars' valuation on all property taxable for local purposes.

INITIATIVE PETITION FOR A CONSTITUTIONAL AMENDMENT.

For a tax of three-tenths of one mill for the support and maintenance of the University of Missouri, including the College of Agriculture and the School of Mines.

Blank petitions can be secured from the Alumni Recorder, University of Missouri, Columbia, Missouri, who will be glad to answer all inquiries.

DIRECTIONS TO SIGNERS AND CIRCULATORS OF THIS PETITION.

No one but legal voters can sign this petition and all signers of any one petition must reside in the same county. Each signer must write his own name, residence and postoffice address, with street and number if he resides in a city which has its streets numbered. If any signature is difficult to read the circulator of the petition should write the name with a pencil on the same line.

Names of all signers are to be plainly written or typewritten in the space for the affidavit at the bottom of the second page. The affidavit must be made by the person who circulates the petition. While it is desirable to secure 50 signatures to each petition any smaller number may be sent in. After the affidavit has been made the petition should be sent to the Alumni Recorder, University of Missouri, Columbia, Mo. This should be done as soon as possible and in no case later than June 30th.

A TASK FOR THE ALUMNI.

There are times when our Alumni have no definite task by which they can express their loyalty to the University. With the proposed mill tax amendment before us, however, there is no lack of work for every one. Wherever you are—men and women of Missouri—you can promote this movement. If you are in Missouri you should circulate the Initiative petitions; you should explain the plan to those who are uninformed; you should make friends for the institution; you should exert every legitimate effort to see that the amendment carries at the general election. If you are not in Missouri you still have an opportunity to do the University a service. Write to your friends in the State and interest them in the work. Send us the names of such persons whom you believe to be willing to circulate the petitions. Inform your acquaintances of the plan in general and urge them to vote properly next fall. Wherever you are you should do good to the University.

HOW MANY SIGNERS DOES THE INITIATIVE PETITION NEED?

The law requires that an Initiative Petition must be signed by five per cent of the legal voters in two thirds of sixteen Congressional Districts before it can be submitted to the voters for their approval or rejection. This means that we must obtain the signatures of five per cent of the voters in eleven Congressional Districts.

The following figures represent five per cent of the last vote cast for the Supreme Judges in each of the sixteen Congressional Districts. The vote for Supreme Judges being the basis upon which the calculation must be made.

First Congressional District	2062
Second Congressional District	2073
Third Congressional District	1937

Fourth Congressional District	2024
Fifth Congressional District	2941
Sixth Congressional District	1742
Seventh Congressional District	2934
Eighth Congressional District	1646
Ninth Congressional District	2235
Tenth Congressional District	3874
Eleventh Congressional District	2006
Twelfth Congressional District	1615
Thirteenth Congressional District	1701
Fourteenth Congressional District	2566
Fifteenth Congressional District	2271
Sixteenth Congressional District	1657

In the Tenth, Eleventh and Twelfth Congressional Districts, the Alumni have undertaken to superintend all the work of securing signers themselves. They will report their final results to the home office.

The total number of signatures received at the Alumni Office at the time of publishing this article is 5410. Although this is not as many as we should have at this time, the signs are good that we shall receive them. Let every one who reads this resolve that he will do something to promote this cause.

On July 1, 1910, 25,000 names must be filed with the Secretary of State at Jefferson City. Let the slogan be: *The Mill Tax for a Greater University!*

REUNIONS.

Why can we not have regular, traditional reunions of our classes? Other schools have them. Why not we? It should become a custom for the Alumni to come back at stated times. The pleasure of coming back to the scenes of youth, the association with old companions, the inspiration such meetings would give to the outgoing classes, the good it would do the institution would be well worth the trouble. Why not make the fifth, tenth, fifteenth, twentieth, and twenty-fifth years after

graduation the stated periods to return to the columns? It would be an uplifting and beautiful custom. It would be an easy matter to arrange a definite place on the Commencement program for the return classes.

A few years ago the writer had occasion to observe the twentieth reunion of the class of 1887 in America's oldest University. Of a class of 150, exactly 100 returned. Of the absent 50, twenty were accounted dead. The remaining thirty were in such remote quarters of the globe that it was impossible for them to return. At the roll-call letters of the absentees were read. Every man was accounted for. In the afternoon the class held its procession through the University grounds. Every man was attired in the unique costume representing the dress of Dumas' "Twenty Years After." A cocked hat decorated with the colors of the University, a short cape-like mantle, patent leather boots, and a sword constituted the distinctive parts of dress. They were led by the University Band. They visited all the buildings dear in their memory. When they passed through the iron gate which they, as a class, had dedicated to the institution, they uncovered their heads and sang the University Hymn. Solemn and impressive was this manifestation of love and loyalty. After all the buildings had been visited, they went to the athletic field where the Varsity was meeting an old-time rival in baseball. With enthusiasm they supported the team, and the spectators vowed that they outdid the undergraduates in their vigorous cheers. After the game they executed a drill upon the athletic grounds which was beautiful and impressive. All who had sons over ten years of age had brought them along and these youths, dressed in garbs resembling those of their fathers, took part in the various steps of the celebration. The conclusion of the reunion was a class banquet and, finally, attendance on the Commencement day exercises.

The whole was a scene, beautiful, impressive, solemn. Such meetings can not be other than beneficial to the institution.

Think it over and see if, in coming years, we can not do similar things. It is not weakness to imitate in matters so truly laudable. Each class can have its own unique celebration if it chooses.

In some institutions the chairman of the meeting reads a report in which the activity and attainment of each member of the class since graduation is given.

Should not Missouri's Alumni institute a similar custom? Give it your thought.

COMMENCEMENT.

Only a few more days and we observe once more the anniversary of our graduation. You have presumably all received the official announcements and invitations. If you have by accident been overlooked, inform us, and we shall cheerfully send you any information in our power to give. It is sincerely hoped that you can come and gather once again with us around the old Columns.

Let us reconsecrate ourselves to the lofty principles which prompted our forefathers to establish this institution of learning.

Alma Mater bids you come.

KEEP UP YOUR RECORD.

Enclosed in this issue you will find a return post card. Please fill it out *without delay* and mail it. Do not lay it aside and then forget where it is. If we are to carry out our plan in regard to a directory, as was outlined on the first pages of this paper, it is most essential that our records should be correct.

You will also find a separate publication giving the names of Alumni who have not been heard from for at least a year. Kindly examine it carefully and send us the information asked for in the brief preface.

CULTURAL FORCES AT MISSOURI.

The fine success of the three concerts recently given by the St. Louis Symphony Orchestra and the wide interest and appreciation shown in the present Bingham Exhibit quite clearly demonstrate that an appeal to artistic feeling is welcome in our midst and that in the past, Missouri University has not placed before its students all the opportunities that make for a large, liberal, and cultivated point of view. Missouri is largely a school for undergraduates who need intellectual training and liberal culture, and that on a basis as broad as possible. An appreciative attitude toward the masterpieces of the arts becomes at once a widening and a deepening interest in life itself. And what more can education, of whatever kind, be expected to give, than a vital interest in, and a vital contact with, life?

Two organizations have been mainly responsible for the renaissance in the study and appreciation of the arts of painting and music: The Art Lovers Guild of Columbia, and Phi Mu Alpha, the musical fraternity of the University. Both originated in the same year—1907, but were, and are, quite independent of each other, though both have virtually the same goal. The Guild has given our community over ten representative exhibitions of modern oils, water colors, and etchings, together with five art-displays in China, Indian-basketry, and Japanese prints. Its latest exhibition, the collection of Bingham paintings and engravings, has attracted very wide and favorable attention, as it represents, perhaps, the largest and most comprehensive collection of paintings of this our "Missouri Artists".

Phi Mu Alpha has done, and is doing, the University a fine, unselfish service in bringing here master-interpreters of the great musical compositions and generally promoting the cause of musical culture. The first concert under its auspices was given by Vladimir de Pachmann in a program composed entirely of Chopin numbers. It was the first effort and venture

and fixed the standard for those concerts which were to follow. The next two presentations, those of Lhévirme, and the St. Louis Symphony Orchestra, fully realized the hopes and ideals of all music lovers.

It is firmly believed that by thus bringing the opportunity of art gallery and concert of the large metropolis to his very door, and by thus fixing fine types of excellence in painting and in music, the student grows quietly, but surely, into a refinement and culture which moulds his ideals and increases his power of appreciating the beautiful in the life which he is living.

By a Member of the Class of '95.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION DURING THE PRESENT YEAR.

This has been the most eventful year in the history of the Young Men's Christian Association of the University of Missouri. The event of most importance was the completion and occupancy of its new building at the corner of Eighth and Elm streets. The Association moved into its new quarters at the opening of school last September. The building is well suited to the needs of the Association and affords the means by which the organization can be of great service to the student body. It is fitted with reading and game rooms, bowling alleys, auditorium, club rooms and a large dormitory. It has become a general meeting place for student organizations and is the largest social center for the men of the University.

Next to going into the new building the large membership for the present year has been the most significant fact. The membership is now double that of any previous year, being now approximately five hundred and fifty. This mark was reached by the first of November last when the dedicatory exercises were held. With its present membership this Association ranks among the leading associations in this country in the proportion of the student body enrolled. The larger accommodations and

increased membership have been accompanied by a more enthusiastic work on the part of the Association. There is no doubt that the organization has exerted a vital influence upon a large portion of the student body this year.

In February the Association celebrated its twentieth anniversary. On Sunday, the twentieth, Mr. Hanford Crawford of St. Louis delivered a very able and interesting anniversary address. The following Monday evening a dinner was held with nearly a hundred and fifty men present at which Rev. Dr. Sileo of Kansas City, and Mr. J. H. Warner of New York were the principal speakers. Other talks were made by Dean J. C. Jones, State Secretary J. H. Banks and J. S. Summers.

A word may be appropriate as to the financial condition of the Association. At the present time the organization owns a plant costing practically seventy thousand dollars, including grounds, building and equipment. Of these the grounds and building are entirely paid for and only a small amount remains due on the furniture. The Association will close the present school year with an indebtedness of about twenty-five hundred dollars. When we compare the present situation with that of a year ago at which time the building stood uncompleted and nearly fifteen thousand dollars were needed in order to open it for use, we have reason to congratulate the organization on what has been accomplished this year.

The Association was most fortunate last June in securing the services of Mr. John S. Moore of Louisville, Kentucky, as General Secretary. Mr. Moore is a graduate of the University of Nebraska, was formerly State Student Secretary of Missouri and previous to last June had been in the State work in Kentucky for three years. It is to him that much credit is due for the great stride which the Association has taken this year. Through his splendid generalship and persistent efforts enough funds were secured to insure the opening of the new building and the many details connected with that event were overcome. Now that the building has been successfully operated for a

year and since the Association's debt has been decreased to such a small amount, Mr. Moore will have time to devote to increasing the efficiency and effectiveness of his large working force. The new officers for the coming year are: Pres. J. W. Oliver; Vice-president, Stockton Fountain; Secretary, Thos. S. Haddaway; and Treasurer, H. B. Hill. A large committee force of one-hundred and fifty are being chosen to carry on the different lines of work for next year.

HENRY ELLIOTT, JR., '08.

THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION.

Facts furnished by Miss ALICE RICHARDSON, '11.

September of 1909 found the Young Women's Christian Association of the University of Missouri without a general secretary, without a president, without a room in the main building, and \$200.00 in debt. But the entire cabinet with the exception of the president had returned and it took matters in hand, determined to make a success of the year's work if possible.

The membership has been less this year than formerly on account of having no one person to devote her entire time to working among the girls, knowing them, and interesting them in the Association work.

Two events have brought into our midst a broader view of the meaning of Y. W. C. A. One of these was the Territorial Convention held in St. Louis in the latter part of October, which four girls attended. The other was the Student Volunteer Convention held in Rochester, N. Y., to which our full quota of delegates was sent.

An innovation in departmental work was made this year when the employment bureau for girls, which was formerly supervised by the Dean of Women, was transferred to the Association. The value of this department is apparent when it is known that in every instance where application was made employment was found. And knowing the efficient work of the various other departments one must say that although seriously

handicapped, this cabinet has made the Association in the largest and most vital sense a success.

THE GLEE CLUB.

Facts furnished by Mr. E. E. CHILES, '10.

It is with sincere regret that we report a rather trying year for the Glee Club. Unfortunately the club was financially handicapped, but more unfortunately still there was a lack of esprit de corps among the men who had in previous years served on the Club. Such odds are hard to overcome. Despite these hinderances, Prof. W. H. FOMMER succeeded in selecting a well balanced organization.

In addition to the annual concert in the auditorium the club sang at Jefferson City, Sedalia, Warrensburg, Kansas City, Carrollton, and Moberly. In each instance the concert was well received.

The organization deserves the enthusiastic support of students and Alumni. It is a splendid means of advertising, a fine training and an excellent diversion from the humdrum of routine work.

ATHLETICS AT MISSOURI 1909-10.

Data furnished by Mr. CARL L. RISTINE, '10.

From almost every point of view this must be regarded a most successful athletic season. A large per cent of the games has been won, the student body has been united, as never before, largely through their common interest in athletics, and the financial side of the department is well supplied for the coming year.

In football our team has been more successful than any other team since the oft-mentioned team of 1895. It played a very hard schedule and did not suffer a single defeat. This achievement is due to a number of causes. The doctrine of unity which had been preached by the old fellows for years finally manifested itself in what is generally known as the

"New Spirit." Never before have the students and Alumni been so determined on any one thing as they were on the success of this team. We had a squad of men who were willing and able and who worked as a unit. In former years some of the best players have reduced the efficiency of our team by their indifference and the rebellious spirit which they instilled into the squad. Only few of the players had much experience, but the new men were tractable and had much of what might be called 'football sense.' A new element was ushered in when Dr. Wright of Philadelphia was brought here as trainer to superintend the conditioning of the team before the last big games. Dr. Wright applied the valuable experience he had gained during years of training at Princeton, and it must be admitted that part of Missouri's phenomenal showing was due to the superb condition the men were in. Finally there was Coach W. W. Roper, a born executive, a general, whose reputation and unquestioned ability at once instilled confidence into the men. He observed the strictest discipline in regard to training and brought out all there was of ability in a man. He was assisted by two men of our regular faculty, Mr. G. S. Lowman, whose thorough training in the sport and whose executive ability measure up well with Roper's, and Mr. J. A. Gibson, whose unselfish devotion to the cause has hardly an equal. Then Missouri had a captain, Carl L. Ristine, in whom all the men had the greatest confidence and who, as a player and by his strict obedience to the rules of training, set an example which the team was compelled to respect. Never in the history of the game at Missouri has money been so freely given for its support by students, Alumni, faculty, and townspeople as last fall. With such a spirit pervading the school, with such trainers and such general devotion to a cause success was inevitable.

Four of Missouri's team were given places on the All Missouri Valley team: Warren Roberts as guard, J. R. Buck as tackle, G. A. Alexander as full-back, and T. E. Hackney as half-back.

Here are subjoined the results of the games of the season :

Date	Place	Opponent	Missouri	Opponent
October 1	Columbia	Missouri	15	8
October 5	Columbia	Kansas Agricultural	5	9
October 12	Columbia	Iowa	13	9
October 22	Ames, Iowa	Iowa Agricultural College	4	8
October 26	Iowa City, Iowa	Iowa	13	12
November 4	St. Louis	Washington	3	9
November 11	Columbia	Drake	22	9
November 21	Kansas City	Kansas	12	8

The basketball season was not quite so successful in regard to the number of games won. This was due to several reasons: in the first place owing to Coach G. S. Lowman's sickness at the beginning of the season the team had to be coached by one of the star players of last year. The change of styles of coaching is always detrimental. Then the material was not as strong as it has been in former years. Moreover, two of the best men were unable to participate in the last games because of sickness and accidents.

The following are the scores :

Date	Place	Opponent	Missouri	Opponent
January 10	Columbia	William Jewell	42	19
January 11	Columbia	William Jewell	57	55
January 13	Columbia	Washington	35	19
January 14	Columbia	Washington	39	9
January 21	Columbia	Orchard College	30	24
January 22	Columbia	Orchard College	8	32
February 5	Columbia	Kansas Normal School	32	8
February 9	Warrensburg	Warrensburg Normal	28	27
February 10	Warrensburg	Warrensburg Normal	28	19
February 11	Lawrence, Kansas	Kansas	39	15
February 12	Lawrence, Kansas	Kansas	13	37
February 14	Des Moines, Iowa	Drake	35	7
February 15	Ames, Iowa	Iowa Agricultural College	11	11
February 19	Iowa City, Iowa	Iowa	9	20
February 21	Columbia	Kansas	21	20
February 22	Columbia	Kansas	22	55
February 25	St. Louis	Washington	17	24
March 1	St. Louis	Washington	19	55

On the track Missouri has made a good showing this year. It is true that the meet with Illinois was lost by the score of 23 1-2 to 53 1-2. But when it is remembered that Illinois has a very strong track team, as is evidenced by the fact that they defeated Chicago University by about the same score, it does not look discouraging.

The indoor meet at Kansas City was again a victory for the Old Gold and Black. It is a source of pride that not in a single indoor meet has our team been defeated by Kansas. The

score made in Kansas City on March 11th was 55 1-2 to 29 1-2.

On May 21 Missouri met Kansas on Rollins Field in the annual Track and Field meet. The final score was 55 1-2 to 53 1-2 in favor of Kansas. The meet was not decided until the relay race was run. This is only the second time since the inauguration of this line of sport that Kansas has defeated Missouri on the track, and each time the score was a close one.

These track records have been broken this year: the record in the 440 yard race was reduced from 50 4-5 to 50 3-5 by Lester Bermond, who also reduced the 880 yard race from 2 00 1-5 to 1 59 1-5; the record of the pole vault was raised from 10 ft. 9 in. to 11 ft. by H. C. Stevens; the record of the high jump was raised from 5 ft. 8 1-2 in. to 5 ft. 9 1-2 in. by O. A. Herzog.

The recital of the history of the baseball season is also quite pleasant. By winning the championship in this sport Missouri has, this year become champion in two major sports. Too much praise can not be given to Coach G. S. Lowman. He has the ability of putting vim into his team. He manages the men without friction. He knows the game he is coaching and familiarizes the team with all the legitimate tricks of the game. His men fight hard from start to finish and never wrangle. Missouri can justly be proud of the splendid company of clean athletes that has represented it in all its athletic events this year.

The scores follow:

May 21	Columbia	Kansas	5	0

MISSOURI'S NEW FOOTBALL COACH.

When William W. Roper decided not to come back to Missouri, because of the flattering offer from Princeton, the Committee on Inter-collegiate Athletics found itself confronted by no easy task. There are but few coaches available who measure up to the standard of the strenuous man from Princeton. It is confidently believed, however, that the best choice possible was made when the Committee closed a contract with William Hollenbach of the University of Pennsylvania. There are a number of qualifications that recommend Hollenbach to this position. He is an amiable gentleman who understands men; he was a star player under the new style of football, being accorded the position of fullback on the All American Team by the severest critics of the sport; he has played in every position of the team, save one; he was trained under a system that measures up to the best, and had as his advisor the greatest American physical trainer—Mike Murphy; he is a graduate of the School of Dentistry at the University of Pennsylvania, and, as such, has had thorough courses in Anatomy—knowledge which should come in good stead as a coach; and finally he has had successful experience as a football coach, having brought the team of State College, State College, Pennsylvania, a team which met some of the big teams of the East, through an undefeated season.

So, all in all, we have just reason to feel satisfied that the duties of coach are in good hands for the coming season. If the students and Alumni will support Hollenbach as they supported Roper there is no reason whatsoever that we should not have a season like the one of 1909.

ATHLETICS IN THE BALANCE.

It will be of interest to the Alumni to know just what action was taken in regard to athletics at the meeting of the Heads and Governing Boards of Institutions in the Missouri Valley Conference. This meeting took place at the Coates

House, Kansas City, Missouri, April 19, 1910. There were present representatives from Drake University, Iowa State College of Agriculture, University of Kansas, University of Missouri, University of Nebraska, and Washington University. The call for this meeting was issued by the Board of Regents of the University of Kansas. In the language of the resolutions the purpose of the meeting was "to confer upon and take permanent action in regard to the betterment of the present game (of football). If that cannot be accomplished satisfactorily, to require the adoption of the rules governing the Rugby Game in the Missouri Valley Conference; or in case that cannot be done, to abolish football as an intercollegiate game in our University life."

The following motions were adopted: "that the president of each institution in the Missouri Valley Conference shall appoint one member of a joint committee to consider the revision of the football playing rules and report back to this Conference after December 1st, 1910, provided that no professional coach or manager shall be eligible to appointment on this committee; that any formal action taken by any institution represented in this Conference with reference to the football playing rules be referred to the committee authorized to consider the revision of such rules; that the training table be abolished; that freshmen be limited to athletic competition within their own institution; that after September 1st, 1910, no student shall be a member of more than two intercollegiate athletic teams in any one academic year; that except in so far as it may affect the existing contracts, athletic competition on Thanksgiving day be abolished, provided that all existing contracts shall be faithfully observed; to request all institutions having contracts for games on Thanksgiving day to abrogate the same after December 1st, 1911; that after December 1st, 1910, no athletic coaches be allowed except such as are regular members of the teaching staff employed by the governing board of the institution for the full academic year; that after December 1st, 1910, no in-

tercollegiate football games be played except on college grounds; to refer to the committee appointed for the consideration of the revision of football playing rules, the whole question of other athletic sports as regards time consumed, amateur standing, limitation of schedules, and especially playing rules of basket-ball."

AN ACTIVITY TICKET.

Recently the student body in mass-meeting assembled declared itself unanimously in favor of a general activity ticket. This ticket it to apply to all intercollegiate contests—athletics as well as debating. Its purpose is to reduce the expenses of the students, to unite them more closely as a corporate body, to insure better attendance at the minor sports, and to give better support to the cause of debating. It is proposed that two per cent of the income from this ticket be given to the body having in charge intercollegiate debating.

DEBATING.

Following a tendency which is fast taking on the aspect of a well defined habit, Missouri once more defeated each of her opponents in Inter Collegiate Debate. Defending the negative side of the question "Resolved, that a tax upon incomes is a desirable means of raising revenue within the state," J. A. McCollum, with J. C. Young as his colleague gained a unanimous verdict over Washington University in St. Louis, April 25. On April 30, A. P. Priestley, with C. C. Byers, Jr., as his colleague took the affirmative of the same question and defeated Kansas University in Lawrence, Kansas. On the same night, E. W. Clausen, with Orville Zimmerman as his colleague, successfully maintained the affirmative of the same question against Texas University, winning the deciding contest in a series of seven debates from Missouri's strongest forensic rival. While the men who represented Missouri receive and deserve commendation upon their effort, too much praise cannot be

given to the efficient system of training, and the untiring efforts of Mr. J. J. Steffens, the debating coach.

At this time the writer cannot but indulge in a brief retrospect. It must be a matter of pride to all interested alumni, that Missouri triumphed in the last ten consecutive Inter-collegiate debating contests in which she has participated, winning seven unanimous decisions, and three by a vote of two to one. When, in this connection, it is remembered that in seven of these contests, Missouri's opponents were accorded the privilege of choosing the side which they preferred to defend, the performance appears even more note worthy.

Missouri has now won four out of seven debates from Texas, seven out of eleven from Kansas, three out of four from Illinois, four out of six from Nebraska, two from Colorado, and one from Washington.

This record is so brilliant that it is quite likely that an invitation will soon be received from the Pentangular Debating League, composed of the Universities of Illinois, Iowa, Minnesota, and Nebraska, to take the place left vacant by the withdrawal of Wisconsin from Inter-Collegiate Debate.

E. W. CLAUSSEN, '10.

MISSOURI ALUMNI IN ST. LOUIS.

The St. Louis Alumni of the University of Missouri have rounded out an organization that is doing much good work this year. There are now on the official roll considerably more than three hundred members and a very gratifying per cent of them are active. Some two years ago a movement was started to have a regular weekly luncheon. This has now become such a habit with a number that whenever they meet a Missouri man, the first thought is to invite him to come to the luncheon. Thus by word of mouth the publicity of the luncheon has grown until at the present time, every Saturday there is a representation ranging from two dozen to fifty in number.

Last Commencement a very fair percentage of St. Louis Alumni attended the annual business meeting in Columbia. Last fall when it became known that funds would perhaps be needed to insure the additional coaching and conditioning of the football team necessary to win the Thanksgiving Game against Kansas, the St. Louis Alumni not only pledged their support but backed it up with a substantial subscription of several hundred dollars. After the great game, Coach Roper was invited to St. Louis and every inducement possible was offered him in the effort to retain his services for the coming year.

This year when the first rumors of Minnesota's offers to President Hill came out in the newspapers, the St. Louis Alumni immediately set to work. Members did not hesitate to sacrifice time from their business to attend meetings, to take care to correspondence, or to make special trips in the interest of retaining our President. When the gratifying news came back that President Hill had decided to stand by Missouri, the St. Louis Alumni Association at once began a movement to see to it that Missouri should stand by President Hill. Plans were made for a banquet early in March at which this movement was to be launched. President Hill and members of the University faculty were invited to attend, also Governor Hadley, the Board of Curators and prominent citizens throughout the State. The attendance at the banquet was almost double that of any gathering ever held by the Missouri Alumni in St. Louis at any previous time.

When the present Mill Tax proposition was launched, the St. Louis Alumni promptly pledged themselves to secure the requisite number of signatures in the City of St. Louis and the surrounding county. The work was taken up immediately and has been progressing up to date in a very satisfactory manner. It has been gratifying to note that many of the Alumni who have never before been particularly active, have responded to this call and are helping to carry on the work. Through the efforts of the Alumni Association several business organiza-

tions have been led to endorse the movement, and no stone will be left unturned in the effort to carry this amendment at the general election.

In the upbuilding of this new Alumni spirit in St. Louis a great deal of credit must be given to the younger members who have recently been graduated from the University and have come to make St. Louis their home. It is expected that this spirit will continue to grow and in the near future the University of Missouri can look to the St. Louis Alumni Association for the same loyalty and enthusiastic support it now gets from the student body.

The following are the toasts that were given at our banquet on March 11:

William T. Jones, Toastmaster.

"Our University," President A. Ross Hill.

"Our Imperial State—Its Relation to Our University," Governor Herbert S. Hadley.

"The Value and Cost of the University to Our People," Hon. David R. Francis.

"Education and Reform," Hon. Joseph W. Folk.

"Problems of Properly Supporting Our University," Hon. Fred W. Lehmann.

"College Days," Hon. Shepard Barclay.

"Athletics," Prof. Wm. G. Manly.

"Our School of Mines," Director L. E. Young.

"Our Alumnae," R. E. Blodgett.

J. H. CRAIG, '06.

THE MISSOURI ALUMNAE ASSOCIATION IN ST. LOUIS.

The Missouri Alumnae have an association of fifty members in St. Louis. They meet on the last Saturday of each month. Most of the meetings are social in nature. On the 19th of April they celebrated University Day by a lawn picnic patterned after the University girls' May Day.

which was preached the Roper doctrine of Faith, Hope and Victory. The Missouri spirit was felt, and at the last luncheon before the Thanksgiving game, a resolution was passed instructing the secretary to prepare for a luncheon the Saturday after the game, whether we won or lost. Of course we held that luncheon. We wanted to do something for Missouri, and seized every opportunity to show our patriotism.

When the Minnesota call for President Hill was announced we held weekly meetings and discussed ways and means for wiping Minnesota from the map.

A stadium was proposed and we immediately began to draw plans for one.

Finally, as if to give us something on which to expend our enthusiastic devotion, the Constitutional Amendment was proposed. We favored it and decided that its passage depended upon us. It was made the theme of the program at our Founders' Day Banquet, which, by the way, was the largest Missouri Banquet ever held in Kansas City, one hundred and fifty guests being present. Hon. W. S. Cowherd acted as Toastmaster, and Dean Isidor Loeb delivered the principal address. Short speeches were made by Chancellor Strong of Kansas University, Mr. J. W. Gleed, a regent of that school, Hon. Gardiner Lathrop of Chicago, Hon. C. E. Yeater of our Board of Curators, and Hon. J. V. C. Karnes, President of the Board and the leader of our Kansas City Alumni. Mr. James E. Gibson, President of our Association, read several letters endorsing the amendment, among which were messages from Senator Stone, Senator Warner, Congressman Borland, Ex-Governor Folk, Governor Hadley, and Hon. James A. Reed.

Our Association owes some of its renewed activity to the new men in the ranks, among whom should be mentioned R. B. Caldwell, '03, J. A. Kurtz, '07, Jay V. Holmes, '08, B. D. Davis, '08, W. B. Bostian, '08, W. F. Woodruff, '03, and W. W. Wright, '03.

Ed S. NORTON, '05, Secretary.

MISSOURI ALUMNI ASSOCIATION IN CHICAGO.

The long felt desire of having an Alumni Association among former Missourians in and around Chicago was fulfilled when in February, 1909, a small body of men and women met, adopted a constitution, and elected the following officers: President, Mr. R. R. Kern, '05; Vice-President, Mr. Arthur R. Eitzen, '04; Secretary-Treasurer, Miss Clara Schmidt, '09. Around this body there soon gathered others and at a luncheon, held at the Tip Top Inn, the twenty-three former students of Missouri assembled decided to observe University Day in due form. Arrangements were made for a banquet at the Great Northern Hotel on April 17. Dean Isidor Loeb, of the School of Education of the University of Missouri, who was the

guest of honor, described in detail the remarkable growth which the University had enjoyed since the days of the A. B. Club and the Choral Union.

During the summer of 1909 the Alumni gathered for a spread on historic Wooded Island. This meeting was a success in every respect even down to the military parade executed in memory of the days of Commandant Turner and Captain Chitty.

In October, 1909, the following officers were chosen: President, Mr. J. C. Baird, '05; Vice-President, Mr. V. A. Hain, '06; Secretary-Treasurer, Miss T. Jennie Green, '08. At an informal luncheon at the State's Restaurant, in January, 1910, Mr. Russell Field, brother of Eugene Field, was present and favored us with a reminiscent talk of the days when he and Eugene decorated a choir at Columbia. He admitted that, while his brother had been registered as a student at the University, Eugene's record hardly bore out the fact. He said, however, that the story that they jointly held a three days' ball at the Powers House was without foundation, and in the very nature of the case could not have been true, as they both were leading a real student life, so far as money was concerned. It was decided to observe University Day again. It was thought best to hold it on April 16 instead of the 15th as we could possibly get a faculty representative better at that time.

Thirty former students sat down to the banquet on Founders' Day which was observed at the Grand Pacific Hotel. Many more would have been present but for the advent of inclement weather upon that day. Dean Walter Williams of the School of Journalism of the University of Missouri was the guest of honor. Nothing could have made the old students feel more that they were getting back into the University atmosphere than the magnetism of Dean Williams. He visited with all and had as many messages. In his magnificent toast he reported the progress of the University, and referred to the impetus that had been given by reason of Pres-

THE 1910 SAVITAR.

ident Hill's decision to remain there. His address was beautiful and inspiring and everyone felt better for having heard it.

So far the Association has served to bring together many old acquaintances and friends who would ordinarily not meet; it has brought together many strangers who find themselves interested in a common cause. We expect to keep up this interest and good feeling in the hope that we may add a tinge to the glory of our Alma Mater.

THE JASPER COUNTY ALUMNI.

The Jasper County Alumni Association of the University of Missouri has gone on record as in favor of the re-establishment of the Missouri-Kansas Thanksgiving day game at Kansas City and a vigorous athletic policy along all lines of inter-collegiate athletics. At a meeting held recently in the parlors of the Connor Hotel here, strong resolutions embodying these points were unanimously adopted.

The Association is vigorously pushing the tax petitions. In Joplin, Carthage, Webb City and Cartersville the petitions are being circulated. One Alumnus filled a petition of fifty names in a single day while at his regular business. The signers include newspaper editors, the two circuit judges of the county, mayors of the several cities and public men of influence. It is hoped by so doing to align these men in favor of the tax and to create a popular sentiment for the proposed measure.

Officers elected at the recent meeting and who will serve for one year are: Fred W. Kelsey, President; Clark Nichols, Vice-President; Walter Stemmons, Secretary; E. Frank Cameron, Treasurer. A campaign of activity the coming year is promised. The Association will endeavor to carry the county by a safe majority in favor of the mill tax and will work in harmony with the Jasper County Club at the University in enrolling new students from this county next fall.

Early in September the annual dance and picnic of the two clubs will be given at Lakeside Park near here for the High School students of the four accredited schools of the county. These affairs have been highly successful in the past and have been a potent factor in building up the enrollment at the University from Jasper county. Joplin High School has a promising bunch of track athletes, winning the State meet in "B" class at Columbia and carrying off practically all the honors at the Southwest Missouri Normal School meet at Springfield. Every town in the county has a good High School Baseball team, and the Alumni of the Varsity are determined that Missouri shall lose none of these athletes.

successful and loyal, and are praying that they will again have opportunities to see the Jayhawkers worsted and that the tax amendment may carry by a large majority.

WALTER STEMMONS.

THE LIVINGSTON COUNTY ALUMNI ASSOCIATION.

It is the custom in Livingston County, at the annual celebration of University Day to hold an open meeting of the Association, to which meeting are invited all persons interested in the University and all who should be interested.

The Association was fortunate this year in having with them on this date Prof. J. C. Whitten of the Horticulture Department of the University. Prof. Whitten made a splendid talk. Filled with enthusiasm, as he is, for the work in which he is engaged and for the greater good of the University as a unit, Prof. Whitten did not fail to arouse the greatest interest of his audience. Andrew Jackson, Jr., the President of the Association presided over the meeting.

The Livingston County Alumni Association is active and boosting for the University on each and every occasion. Petitions for the mill tax are being circulated by several of the members and will be filed before long. When the matter is properly laid before people, there is no trouble in securing signers. Therein lies the difficulty—in getting next to the people. We feel confident that the authorities in charge of the movement have not overlooked this phase of the question and when called upon, the Livingston County Alumni Association is ready to bear its share of the task.

DOUGLASS STEWART, JR., '07, Secretary.

PERSONAL COMMENT.

The editor regrets sincerely that it is impossible for him to make use of a large quantity of personal items, in which, he feels certain, the readers would be interested. Our space is too limited for the insertion of these items at this time. If the Alumni decide to have the paper continued good use will be made of such news.

THE MANAGER.

Missouri Alumni Patronize our Advertisers

SEVEN HUNDRED AND SIXTY UNKNOWN

The pages of this pamphlet will inform you that seven hundred and sixty Alumni addresses are unknown to the Alumni Recorder. We solicit your assistance in this matter and will be grateful for early responses. A number of the persons whose names are here given, we feel certain, are no more living. In all such cases positive knowledge of such deaths, and, if possible, the date of death is desired. By the term "unknown" we mean that no information has been received since June, 1909. Since a body like our Alumni body shifts very quickly, it becomes necessary that the records should be corrected twice a year. Twice each year we send return postal cards, to all the Alumni. These cards are so arranged that the response can be made in a single minute of time. We need a more spontaneous response to these calls for information. If our Alumni body is to be of real value to the institution, especially during this critical time when we are working for a stable support of the University, we must be in direct touch with all the forces we can master. Whether you are in the state or out of the state we should know where you are and what you are doing.

You will observe that many of the "unknowns" are graduates from the Medical School prior to the sixties. This Medical School was situated in St. Louis and was known as McDowell Medical College. The men who received degrees from this branch of the University never felt themselves attached to the institution as a whole. As a matter of fact most of these men are dead. We make this last appeal to learn something concerning them. Unless information is received to the contrary all names dated prior to 1860 will be classed with the dead.

Please look the accompanying list over carefully and send us whatever information you have concerning these names. The Association will be indebted to you for this service.

Very truly yours,

WILLIAM G. BEE, '03,
Alumni Recorder.
