The College Farmer

has completed an entirely successful year of publication---
The First Since the War

It is no longer an experiment—it has delivered the goods. During the eight months of the past school year it printed

200 magazine size pages
 24 feature stories

5 of which were of successful alumni
 6 of past or present school activities
 3 of faculty members

In addition to these, 264 separate alumni notes, a concise monthly sport digest, many other articles of direct interest to you.

You want the news of your classmates and the Ag School. Subscribe now, get the first issue this fall and help us make The College Farmer the best Ag School paper in the United States.

For the Advancement of Education

Dean Walter Miller, who has just returned from his tenth trip to the Orient in the interest of University Travel work, states that the crying need of the Graduate School of the University of Missouri is more fellowships and scholarships to enable young men and women to continue their advanced study, and realize on their life's work.

To broaden the view of those who are completing their scholastic work or going into the higher phases of learning, Dean Miller has made ten trips to the Orient as conductor for the University Bureau of Travel which was established in Massachusetts.

This is one link between school and the world. The Graduate School of your Alma Mater is Missouri's final training for the person who is trying to get somewhere. It is the least endowed division of the University, and the problem of those who are striving to take advantage of it is a matter for your personal consideration as you look back on the institution that gave you your start.

You can provide such a Fellowship at a **comparatively small cost**, with the assistance of a **NORTHWESTERN MUTUAL CONTRACT**.

THE MISSOURI ALUMNUS

Vol. XI. No. 1.

SEPTEMBER, 1922

COLUMBIA, MO.

There Is a Tide in Our Affairs

HIS recent strong interest of a number of alumni and others in the developing of graduate work in education at the University—what does it all mean? I wish you would write an explanation for THE MISSOURI ALUMNUS." These words addressed to the writer by the Editor of the ALUMNUS are responsible for this article.

The serious need of developing at the University graduate work for the professional training of the highest type of educational leaders is now clearly recognized by those familiar with the educational situation in the State. The rapid growth of Missouri schools and the great improvement of the scientific technique for conducting educational work with efficiency and economy demand as never before highly trained leaders. In view of this fact, it has become a matter of deep concern that Missouri schools are losing the professional service of a number of the most capable teachers and administrators, who, recognizing the need of further professional training, leave the State for graduate work elsewhere and do not return. The comparatively few students preparing for educational leadership who are attracted from other states to Missouri do not compensate for this loss.

The schools of Missouri are developing with remarkable rapidity. In fifteen years the number of first class, or fully accredited, public high schools has increased from 78 to 387. Elementary schools also have advanced. The county unit organization of rural education promises to be an achievement the value of which to the State cannot be overestimated. Financially education has become the State's biggest business. In the interest of economy, in order to get the best results for the millions of dollars expended, the schools must be controlled by well-trained experts. In response to the needs apparent in the rapid growth of education throughout the country, the scientific technique for educational administration and for teaching has developed by leaps and bounds. Schools require scientific management and educational account-

By J. H. COURSAULT

Dean of the Faculty of Education

ing just as truly as factories require expert management and production accounting. The efficiency of our schools could be immeasurably increased if superintendents, principals, and other leaders in the several school systems were prepared to improve the work of teachers by training them in service, where

Dean J. H. Coursault.

educational problems are immediate and vital, and the conditions for directing the professional growth of teachers are most opportune.

The great change now taking place in the educational situation demands a corresponding change in the training of teachers and educational administrators; it places grave responsibilities upon the state institutions obligated to provide this training. The University, State Teachers Colleges, private colleges in the Missouri College Union, junior colleges, and teacher-training high schools are working to meet these new demands. As state institutions for the higher training of teachers and school administrators, the University and the five Teachers Colleges are standing shoulder to shoulder in most cordial co-operation. They have agreed upon uniform standards whereby students may freely transfer from one institution to another and whereby gradu-

ates of the four-year curriculum of the Teachers Colleges may be admitted to the Graduate School of the University. Representatives of the State Department of Education, the Teachers Colleges, and the University hold conferences in the interest of training workers in the field of education. A real system for such training is now being perfected.

This system, however, is failing in one important particular to meet the educational needs of the State. Through this failure Missouri out of her much needed educational resources is now unduly contributing to the educational wealth of other states. Recognizing the new demands and consequent new opportunities, many men and women are seeking advanced professional training beyond that required for the bachelor's degree. Opportunities for graduate training offered by institutions in other states are attracting from Missouri many of these advanced students who are training for educational leadership, whereas comparatively a small number of such students is being attracted from other states to Missouri. Those who go to other states frequently form new contacts which prevent their return. The State of Missouri trains these students through the elementary school, the high school, and the college—sixteen long years of expense—and then by permitting them to be attracted to other states for one or two years of graduate work loses entirely their life service.

Graduate work for the advanced training of teachers should be centered in the University. The clear recognition of this fact is evidenced by the following representative quotations:

"We desire particularly to call attention to the need of a large Graduate School of Education of the University, properly articulated with the various Teachers Colleges and other colleges of the State."—*Resolution unanimously adopted by the Missouri State Teachers' Association last November and by the Missouri Association of City Superintendents last February.*

"With the increased number of graduates from the teachers colleges, the demand for a graduate school of education is imperative. I earnestly feel that the University of Mis-

souri will miss a great opportunity for service if it does not at once take steps to meet this demand. The best men and women in our profession are forced to leave the state for graduate study and many of them never return. In my opinion the provision by the state for opportunities for graduate study second to none in the country is subordinate only to the state's responsibility in the training of teachers for the elementary schools."—President Clyde M. Hill, Southwest Missouri State Teachers' College.

"The Teachers' College at Warrensburg will support any attempt on the part of the University to develop its graduate work in the

field of education. We observe many of our graduates looking about for the best field in graduate work. We greatly appreciate the advantages which they have been able to secure at our own University, and at the same time, we would appreciate highly seeing the opportunities extended. We would like to see the products of Missouri's public schools and State Teachers Colleges remain in Missouri for their final training in the graduate school."—President E. L. Hendricks, Central Missouri State Teachers College.

"I favor the largest available investments in a faculty for a graduate School of Education in the University of Missouri. I will

do all I can to secure co-operation of the teachers colleges with the University for the upbuilding of that college of education. I will seek to persuade the graduates of this teachers college to take their graduate courses in our University."—President John R. Kirk, Northeast Missouri State Teachers College.

"This [graduate School of Education in Missouri] is one of the state's greatest educational needs."—President Joseph A. Sereno, Southeast Missouri State Teachers College.

(Continued on page 6)

RESOLUTIONS

ADEQUATE FACILITIES FOR GRADUATE WORK IN EDUCATION IN THE UNIVERSITY OF MISSOURI

Whereas, There is a continually increasing number of bachelor's degrees with Education as a major being granted in the teacher training institutions in the State of Missouri;

Whereas, There is an increasing recognition by society in general of the value of advanced professional training for our educators;

Whereas, There is increasing alarm being expressed by all members of society that so many of the best young men and women leave our state to pursue graduate work in Education and form contacts that prevent their returning to assist in the solution of our pressing educational problems;

Whereas, There is recognition by society in general and the school people of our state in particular that the facilities for graduate work in Education in the University of Missouri are inadequate to meet the educational needs of our great state;

Whereas, There is an increasing evidence on every hand that the time has come when it is possible to obtain the cooperation of our educators and of all other members of society in presenting effectively to the proper authorities the needs for adequate facilities for graduate work in Education in the University of Missouri;

Therefore, Be It Resolved, That we, the members of the local chapter of Phi Delta Kappa, a national honorary educational society, whose members have pledged their lives to Research, Service, and Leadership in the field of Education, are in sympathy with the rising demand for adequate facilities for graduate work in Education in the University of Missouri; and that we offer our active assistance in this most commendable and timely project.

RESOLUTIONS

by Former Students of Central Missouri State Teachers College Who Are Now Attending the Summer School of the University of Missouri

Whereas, at the present in the state of Missouri as never before there is a need in the public schools for teachers, supervisors, principals, and superintendents who have had advanced graduate training, and this need is growing year by year;

Whereas, the five teachers colleges of the state, the School of Education of the University, and the many denominational schools of the state are conferring yearly hundreds of bachelor degrees;

Whereas, hundreds of these students wish to do graduate work in Education that they may be prepared to serve better the state;

Whereas, the University of Missouri is unable to care for these people, because the Graduate School in Education has not been and is not now supported with sufficient funds to keep the number of professors needed, to purchase the needed equipment, and to establish a bureau of educational statistics and research;

Whereas, a majority (nearly all) who do graduate work are forced to leave their home state to do it;

Whereas, Missouri sustains an enormous loss in money and service, because most of those people who leave the state to do graduate work never come back into the Missouri schools;

Whereas, we are proud of the work being done by our small faculty of devoted men working with overcrowded classes and insufficient funds;

Whereas, we wish to be able to do advanced graduate work in our home University;

Whereas, There is a commendable spirit of co-operation between the state teachers colleges, the denominational schools of the state, and the University of Missouri;

Whereas, our state pride demands that our graduate school be the equal

of the foremost graduate school in the country;

Whereas, our state pride demands that our graduate school be the equal of the foremost graduate school in the country;

Whereas, several of our neighbor states far surpass us, because they have the financial support;

Whereas, a large graduate school in Education is the thing most needed by the University at the present time; and

Whereas, the Missouri State Teachers' Association indorses a movement to build a larger graduate school in Education at the University of Missouri and to establish in it a bureau of educational statistics and research; therefore,

Be It Resolved, that we, the members of the Warrensburg Club in the University of Missouri, unanimously indorse any action proper to secure the financial support necessary to build our graduate school in Education to a position commensurate to the needs and dignity of the state, and that we pledge our support to the School of Education and to the University in the effort to accomplish this end; and

Be It Further Resolved, that copies of these resolutions be sent to the Dean of the School of Education, to the President of the University and by him to the Board of Curators, to the Secretary of the State Teachers' Association, and to the State Teachers College at Warrensburg.

Committee on Resolutions,

A. O. BRISCOE
SADIE G. YOUNG
ELMER H. WHITE

Adopted, this the 22nd day of July, 1922,

ROSCOE V. CRAMER, Pres.
RUBY V. HOLT, Sec'y.

Resolutions identical with the above were also adopted August 3, 1922, by the Kirksville Club in the University of Missouri and signed by C. E. Stephens, Edna B. Stauterman, F. A. Thompson, F. E. Bolander, President and Bessie K. Crystal, Secretary.

The Need of a New Auditorium

THE vote is unanimous that the University should have a larger auditorium. The present one does not hold half the students, and of that half a large part when assembled can not see nor hear, such is the atrocious architecture of the room.

How can the University function when it is impossible to gather all the students and professors together at one time? Such gatherings are necessary not once but many times during the year.

If it will not accommodate the University community, what chance has the outsider, the parents and friends and patrons, the public at large who have built the University and to whom it belongs, and who would be glad and who have a right to witness now and then what is going on?

Those of us who remember the former old auditoriums from 1843 to 1885; and from 1885 to 1892, recall with delight the inspiration and enthusiasm of the great audiences which gathered within them and the history there made which told so vitally upon the institution in the years that followed. As the University has grown from 100 to 4,000 or more students the buildings and departments have kept some sort of pace with it. But the auditorium is what it was in the day of small things. It is not so good. The two old auditoriums in architecture, as places in which to see and hear, in spectacular and imposing features, were far superior to the present one in addition to corresponding in magnitude to the crowds which gathered within them.

Those who sat within the "chapel," as we called it, of the old University prior to 1885, can not forget the great audiences, the assemblies of distinguished citizens, the dignity, the eclat and glory of its public occasions. It is a life-time memory and inspiration. Of course, it was smaller than the present auditorium, but vastly larger in proportion to the number of students and the size of the community. It held about a thousand, but the students did not average 250 during the period and the population of Columbia not 3,000.

A few facts furnished the writer by members of the faculty indicate the inadequacy of the present auditorium and the injustice done the student body by not providing a larger one.

There are now enough members of

By E. W. STEPHENS

A. B. '67, A. M. '70, LL. D. '05
Formerly Pres. Board of Curators

the Freshman Class alone to fill it. If all the members of that class were admitted at one time, all the other classes would be shut out.

It is estimated that the lower floor accommodates about 750, while the balcony holds but 500 more. Even all of this total number of 1,250 can not see and hear. There are over 4,000 students

E. W. Stephens.

in the University and over twice that many people in the community who would enjoy attending important occasions there.

If the parents of all the seniors come to Columbia this year to attend commencement they will not be able to witness it.

On a recent visit by the Governor, approximately 4,000 people were unable to secure entrance. There are enough members of the R. O. T. C. Corps to fill the entire room, balcony and lower floor. Most of them were crowded out upon the visit of the Governor.

The present auditorium is unsafe. It has not enough exits in case of fire and is otherwise at all times hazardous to audiences.

These are some of the many reasons why a new and larger one is imperative. There should be no delay about getting it. It is a gross injustice to bring students to the University and to tax the people to sustain the institution and to shut out both the students and the people from its most important functions.

Whenever a speaker of prominence comes to the University, hundreds are denied even standing room. For years accommodations have been inadequate to accommodate commencement crowds.

The University of Michigan counts one of its greatest advantages the magnificent Hill Auditorium, incidentally an alumni gift, in which it is possible to assemble the entire student body on occasion.

Whatever the arguments for or against the oldtime "Compulsory Chapel" that is still observed in many colleges, there than be little doubt that it was a real factor in building college spirit. The college campus, above all, should be the seat of an idealized and intimately sympathetic "community spirit" and one of the surest ways to nurture such a spirit is in common conclave, now and then. At the University of Missouri the only chance to "get together" now is at a football game.

The agricultural interest of the state which meet annually on the campus by the thousands during "Farmers' Week" are voicing the same need for an auditorium at the University.

There should be a fire-proof auditorium with two or three balconies above the ground floor, all capable of seating an audience of 10,000 and so constructed that portions of it could be utilized for smaller audiences. We must build for the future. The University will have 10,000 students within ten years; Illinois has nearly that many now. It should be centrally and accessibly located near the center of the main campus. A position just east of the President's mansion would be appropriate.

Such a great assembly room would make the University the most attractive place for large conventions and convocations of all kinds in the state and would do more to stimulate organization and enthusiasm and college spirit

among the students than anything else, not excepting football. Have we not gone far enough in athletics to turn back somewhat to the good old days when intellectual contests were the attractive features of the University? Why not give the forum a chance along with the athletic field?

If we had a great auditorium not only would the literary, the debating, the oratorical and dramatic contests become leading features of the University, but the finest attractions, the most distinguished orators, lecturers and dramatic organizations could be brought to it. On commencement and other occasions both the present student body and thousands of alumni and representative citizens would gather and give impulse to the University as a potential factor in the prosperity of the state.

Let us all pull together to induce the next legislature to make this indispensable, popular addition to the University. The students, the alumni, the public demand it.

The present auditorium can be utilized for business offices or recitation rooms or laboratories. It occupies three stories, each of which if floored and divided into rooms, would supply a need of the educational and business work of the University only second in importance to that which the new auditorium would afford for public functions. The institution is badly hampered for rooms for recitation and business purposes. The auditorium as it now stands occupies a large area which could be cut up into rooms at a minimum price, far less than the same space could be provided in a separate building of equal size. The wall, lower floor, and roof as well as heat and light are already provided. Its intimate relation to the remainder of the building of which it is a part renders it more accessible and adaptable than the same space would be in a separate structure.

The money expended for the new auditorium, and in reconstructing the old one would bring to the University more benefit in more ways than the same amount spent for any other purpose.

A TIDE IN OUR AFFAIRS

(Continued from page 4)

"Missourians should be able to find at the University of Missouri the strongest graduate school of education in the country."—*President Uel W. Lamkin, Northwest Missouri State Teachers College.*

It is not the purpose of this article to raise any question regarding the organization and administration of grad-

uate work in education at the University, but merely to show the recognition of the need for the further development of such work.

There was a time when the University of Missouri ranked with Columbia University and the University of Chicago as a pioneer institution in the training of teachers. It is still doing good work in this field. In the last six years 914 students have been graduated with the degree of B. S. in Education, despite the unfavorable influences due to war conditions. Opportunities for the service of the University in the educational affairs of the State are now, however greatly increased. Many institutions in other states have already taken advantage of similar opportunities for service.

Fortunately the new demands can, for the present, be met with comparatively little increased expense to the State. Some readjustments in the work of the teaching force in education together with assistance in some of the more elementary professional courses would free the present faculty for additional graduate work. There is an imperative need, however, for the addition to the faculty of a man especially well qualified to conduct graduate work in educational administration, because the demand for work in this field is greatest. A bureau of educational service of far-reaching and direct advantage to graduate students as well as to the schools of Missouri could be established under the direction of the faculty, if the State would make provision for the necessary clerical assistance and office expenses. This bureau would help progressive educators to increase the efficiency of their work while in service; it would secure useful information regarding the educational situation in the State as a whole, and furnish a basis of facts for the guidance of those responsible for the direction of the larger educational affairs of Missouri. To graduate students in residence, it would bring vital educational problems. Special provision should be made furthermore to secure the needed amount and quality of graduate instruction in the summer term, when the demand for such instruction is largest.

The welfare of the University depends primarily upon its service to the State. Every educational leader sent out by it becomes a potent missionary in a strategic position to preach the gospel of education, both academic and professional, and to lead the various communities of Missouri to a more genuine appreciation of the value of education as a social investment. The de-

velopment of graduate work in education commensurate with the needs of the State will mean much to our public schools, both rural and city; it will mean much to the Teachers Colleges, many of whose loyal alumni will receive in the University advanced training for leadership; it will mean much also to the University. But last and most important of all—the end which gives significance to the whole opportunity—it will mean much to the Commonwealth of Missouri.

The "Columns" Are Known in South America.

By EUGENIA DODD

If you were scouting around the recesses of South America, two days journey on horseback from any town of considerable size with no English-speaking person in that vicinity and you found the "Columns of Missouri" on the wall of a native hotel wouldn't you turn a handspring or two?

Gilbert Moore almost did when he had that experience. Mr. Moore spent a week or so in July at his home in Columbia after three years as a geologist for the Standard Oil Company in Buenos Aires, Argentine.

"A man that I met in Lima, Peru, while I was there on business one time," says Mr. Moore, "had occasion to go up into the mountains to a village two days' journey from Lima and he asked me to go along. I made use of the opportunity to see the country and have a little outing and I went. Arriving at the village we went to the only hostelry the town afforded, a small place run by a Peruvian woman. As we were waiting for accommodations to be made for us, my eye was caught by a collection of post-cards in a rack beyond the register. I wandered over and found among them, to my great surprise, a card bearing the picture of the Missouri columns with the Geology building beyond.

"The landlady told me she had picked up the card in a shop there not long before."

The day before Mr. Moore sailed, June 1, for this country, he had lunch in San Paulo, Brazil, with Harry F. Covington, a former student in the College of Agriculture who is now with the Federal Express Co., in South America.

Fred Suddarth, A. B. '19 and his wife Dorothy Baker, B. J. '18, Mr. Moore saw in Buenos Aires a short time ago.

(Continued on page 8)

News From Alumni Centers— Reunion at Arkansas Fair

The Arkansas Fair.

University of Missouri alumni, former students and their families living in Arkansas are going to have a meeting at the Arkansas State Fair in Little Rock, Wednesday, October 11. This is to be a state-wide rally of Missouri Tiger supporters according to H. K. Thatcher, B. S. Agr. '15, Mr. Thatcher is district agent, Agriculture Extension Service, University of Arkansas and has his headquarters at 310 Donaghey Building, Little Rock. "Thatch" was elected temporary president of the Little Rock alumni. Claude A. Brown, B. J. '11, was elected secretary. The program for the day calls for a parade on the State Fair grounds and a banquet at the Marion Hotel on Wednesday evening at 7 o'clock.

"We especially invite any and all transient alumni and former students whom may be within the State at that time," writes Mr. Thatcher. "Here in Arkansas we are a little behind in forming alumni associations but at the time of our meeting on October 11, we plan to perfect a state-wide Alumni Association. Come prepared to talk and listen; come with the old time Tiger spirit; come, if you have to walk—Come!" he concludes.

They are making arrangements for a radio program from the University to be broadcasted from Columbia. Joe Eliff, A. B., B. S. '14, '15, of Little Rock, son of Dr. J. D. Eliff of Columbia and J. A. Whitlow of Pine Bluff, B. S. Eng. '08, E. E. '10, formerly a resident of Columbia, will have the Little Rock program in charge. Major Lloyd Jones, University of Missouri, R. O. T. C., will relay the message to the State Board of Agriculture Wireless, at Jefferson City. They in turn will send to Little Rock. Mr. Brown writes that they expect a hundred former students and alumni of the University of Missouri, to attend the banquet. Plans for the program at the Arkansas State Fair grounds call for registration of the alumni and former students, a reception at ten o'clock in the morning for the Missouri people in attendance, and a parade. Stanley Andrews, B. J. '21, of the El Dorado, Ark., Daily News, is helping to boost this meeting. So is Harry Reed and Milt Muldrow.

The Arkansas State Fair Secretary, E. G. Bylander, was for several years Secretary of the Missouri State Fair at

Sedalia. This is the first Arkansas State Fair. The Arkansas alumni say that Bylander has a wonderful out-lay for one of the best expositions in the South. All Arkansas alumni and former students are urged to attend this meeting and to notify Thatcher or Brown at once. Help put this over big! It's going to be a dandy stunt! President Jones is planning to attend.

In New York.

From OSCAR E. RILEY, President,
New York Alumni Association

Homer Croy until recently president of the New York alumni, went to Gloucester, Massachusetts, on July 4, and will return to New York on November 1. His address at the seaside resort north of Boston is Rockliffe Street.

Russell S. Sims moved to Philadelphia in August, giving up his reportorial post on the New York Tribune to become assistant Sunday Magazine Editor of the Philadelphia Public Ledger.

Gustav M. Oehm, former cable editor of the United Press in New York, is now in Germany as assistant manager of the Berlin bureau of the United Press, thus satisfying an old ambition. He visited London, Paris and Rome en route.

Hobart F. Williams has moved to Minneapolis, where he has opened his own office to make loans to farmers. For several years he has been making farm loans, spending several months a year touring the South for the Mutual Benefit Life Insurance Company of Newark.

Miss Mary Alice Hudson, Class of '16, has moved to New York City and is living at 57 West 12th Street.

Miss Mary Carmack McDougal, who is now a writer in New York, spent August in the artists' colony at Provincetown, Mass.

John H. Shapley, professor of Art at Brown University, Providence, R. I., and frequent lecturer at the Metropolitan Museum of Art in New York, has been spending the summer and early fall in Rome. While at the University, he was assistant to Prof. John Pickard. His brother, Harlow Shapley, and wife, formerly Miss Martha Betz, also have spent several months in Europe, visiting different countries.

Henry H. Kinyon visited New York in September after returning from Tokyo, where he had been editor of the

Trans-Pacific for four years. He visited in Columbia before coming to New York. Same old Henry!

Missouri Alumni in the City of Saints.

By WILEY PADAN.

Clay C. Boswell, who received his bachelor's degree in engineering, 1916, is now assistant commercial manager of the Utah Light and Power Company of Salt Lake. After leaving Columbia he went to Utah as a station operator for the company with which he is now associated. January 2, 1916, he married Miss Lillian Fowler of Kansas City. While in college, Clay was active as a member of the Sigma Nu fraternity. Mail addressed to 520 Kearns Building, Salt Lake, will reach him.

Leo Brandenburger is also an engineer, having received his B. S. in E. E. in 1903. His first activities were with the Telluride Power Company, which was later absorbed by the Utah Light and Power Company. In 1915 he opened an office of his own as a Sales Engineering and Manufacturer's Representative. Leo married a Denver girl in 1909 and has two fine children—"One of each," as he says. While at Missouri he was an "M" man at track, a Tau Beta Pi, and a spirited St. Pat. Recently an Honorary Knighthood was bestowed upon him, and this year he helped install the University of Utah chapter of St. Patrick. His address is 1523 East 9th South, Salt Lake.

Walker Thomas Gunter, who came to Columbia with an A. B. from the University of Arkansas, has a Bachelor of Laws degree which he received in the scholastic year of 1889-90. While on his way to the northwest, Mr. Gunter stopped in Salt Lake City. Later he opened an office and has been practicing there ever since. He married in Colorado in 1897. His daughter is eighteen years old. Mr. Gunter is a member of the Beta Theta Pi and the Phi Delta Phi fraternities. Suite 409, Utah Savings and Trust Building is his present address.

H. S. Kleinschmidt has a diploma in his office bearing the words Bachelor of Science in Civil Engineering, 1903. He, like many of his class, went out west following graduation. After working with the U. S. Reclamation Service, and spending five years with the State Engineer of Utah, he opened a Civil Engineering office of his own; his present address being 222 Felt Building, Salt Lake. In 1908 he married and has one son. Klein-

schmidt was one of the founders of the St. Patrick day celebrations. During the war he was a captain in the army at Camp A. A. Humphreys, Virginia.

Walter James McMinn, B. S. in E. E. graduated in 1908. He left immediately for Utah, where he entered the employ of the Telluride Power Company. Like Brandenburger, he went with the Utah Power and Light Company when it succeeded the smaller enterprise. Out in Los Angeles, four years ago, he married a girl from Minnesota. "Mac" was a member of the Tau Beta Pi and Sigma Xi fraternities and also editor of the Engineering Quarterly while at the University. He has two children—both boys. Mail may be sent to him in care of the company at Salt Lake.

James McPherson Thomas has an L.L. B., which he received with the class of 1885. He practiced law out in western Kansas for a few years and then went to Utah. He married a girl from New York in 1889. During the war he lost a son who was in the Navy. The remaining children are two daughters and one other son. Mr. McPherson's address is 418-19 Continental National Bank Building, Salt Lake City.

E. F. Johnson, B. S. in E. E., '11, went to Salt Lake very soon after finishing his course at Missouri. He is now with the Phoenix Utility Company of Salt Lake. Two years ago he married a girl from Northwestern University. Johnson was an "M" man in football and a member of the Stienmetz and Quo Vadis Societies.

Alumni Rally Banquet at the Gym.

No money will be asked for.

Churchill J. Blackburn, M. D. '83, of Blackburn, Mo., visited the University September 7. He is vice-president of the Missouri Alumni Association and President of the Saline County Alumni Association. Dr. Blackburn originated the plan of having the alumni rally banquet with the "M" men and women at Rollins Gymnasium the night before the Homecoming football game with Kansas Thanksgiving Day. This banquet is to be made an annual affair the night before the Homecoming football game. Dr. Blackburn, Frank B. Rollins, Sam B. Shirkey, Secretary "M" Men's Association, Z. G. Clevenger and others are making plans for the banquet. Talks are to be few and brief. Stunts by students and alumni will predominate. The Gym will be decorated to represent the lair of a Tiger, with the pro-

gram in keeping with Missouri Tiger spirit. Fraternities, sororities and townspeople will be requested not to have any parties the night before the Thanksgiving game that will detract visiting alumni from the banquet. It is planned to have the Kansas game mass meeting on Rollins Field, see the last football practice, burn freshmen caps, have the pow-wow and motion pictures and then alumni will go to the banquet at the Gym. Seats will be provided for between eight and nine hundred at the banquet. "This will be the best and most outstanding gathering that the alumni of the University of Missouri have ever had at any time," said Frank B. Rollins, president of the Alumni Association. "It is not to be a banquet in the true sense of the word. It is to be a time and place for fun and frolic. Every alumnus will enjoy this meeting and will not miss one in the future. Reservations will be offered early for tickets."

Three Hundred Alumni Parade at State Fair.

Approximately 300 alumni, former students and members of the faculty of the University of Missouri marched in the University of Missouri Day Parade and had luncheon together on the State Fair grounds at Sedalia, Thursday, August 24, the big day of the Fair.

The Alumni Association maintained a booth in the University of Missouri Building for the comfort of alumni and former students. The booth was furnished with material from the furniture store of Jack McLaughlin of Sedalia, a freshman in the University, and the booth was also furnished with Missouri colors, pennants and athletic trophies and a cooler of ice water. The booth was in charge of W. T. (Bill) Angle, B. S. in Agr. '21, County Agent of Pettis County and Secretary of the Pettis County Alumni Association. Over 500 alumni and former students registered at the booth during the week. The parade started at eleven o'clock led by the band, President and Mrs. J. C. Jones, Dean F. B. Mumford and Dean Tisdell, Dr. Guy Titsworth and T. (Bill) Angle, President and Secretary respectively of the Pettis County Alumni Association.

Banners were carried in the parade representing each division of the University. The line marched to the tune of "Hail, Hail, the Gang's All Here" and "Dixie" out in the crowded portions of the Fair Grounds and through the Live Stock Pavilion. Motion pictures were taken of the paraders with

the camera recently purchased by the alumni and former students and presented to the University. Pictures will be taken of all the athletic contests this year and of all the interesting student activities thus depicting in motion pictures, student life for an entire year at the University. These pictures are to be shown at alumni meetings and to high school students all over this and adjoining states. Alumni and former students will be asked at a later date to contribute a dollar each toward payment for this machine and equipment.

Dean Mumford presided as toastmaster at the University of Missouri Day luncheon. Talks were made by Ira D. Mullinax, A. B. '03, Editor of the Twice-a-Week Globe Democrat; J. Kelly Wright, B. S. Ag. '09, Secretary of Christian College; W. T. (Bill) Angle, B. S. Agr. '21, Mrs. Henrietta Stewart Brown, B. S. in Ed. '21, and President J. C. Jones.

It was said to be the hottest day that Missouri has had since 1919. The alumni and former students and members of the faculty were loyal. They marched, carried banner, sang songs and made the occasion worth while. The University of Missouri was indeed well advertised.

Make application now for the motion pictures to show at your alumni meeting or to the high school students of your county.

COLUMNS IN SOUTH AMERICA

(Continued from page 6)

Mr. Suddarth is with the American Express Company.

Vincent "Red" Vandiver, A. B. '19, met Mr. Moore upon his arrival in New York. Mr. Vandiver is able to walk again after spending many weeks in the hospital as the result of a gun wound in the leg which he received when he was doing geology work in Mexico.

Gilbert Moore returned to South America in August. He may be reached from his forwarding address, The Standard Oil Co., 322 Broadway, New York City.

ALUMNI, NOTICE!

The important thing for the alumni and former students of the University of Missouri to do is to stand behind President Jones and the members of the Board of Curators in their efforts to secure proper maintenance for the University of Missouri. The University needs many things, but maintenance, above all, is the one thing which must be stressed now. Let us all stand behind this program.

Echoes From the Tiger Camp

Past, Present and Future Dope

By J. P. HAMEL.

Tiger hopes are looking up.

There are a lot of formulas for winning football season, but here's the best—good coaches, good material, good spirit. Put one first or another first, or put them all first, as you will, the squad that hasn't all three isn't starting out with roseate hopes.

And here's what Missouri has—

Coaches—Tom Kelley, who built that never-to-be-forgotten Tiger line of 1919 which was featured in that feast on Jayhawk meat at Lawrence, and Henry Garrity, Princeton star, who is a great football player, a splendid gentleman, and is bringing with him a fund of that Bill Roper spirit of 1909.

Material—Captain Herbert Bunker, one of the greatest athletes Missouri has ever known; Al Lincoln, who is expected to show himself the most

powerful backfield man in the Valley this year, and who is in better shape than he has been since he first reported for Varsity football; Red Kershaw, who has for two years in succession snared a forward pass from the ether to trounce Washington, and whose fleetness of foot make him dangerous in any football game; Roscoe Hill, a great end and a great tackle, who played against tremendous odds of injuries last year and looms already as a Conference star; Tony Bundschu, one of the fightingest and hardest hitting backs in the Valley, and Johnny Knight, husky, scrapping backfield man of two years' experience.

So much for the veterans.

As to the recruits, there are a number who look good, but the test of the game must give the final verdict. In the backfield Fowler's toe will undoubtedly be called into play to back up the kicking of Knight and Lincoln, and Walsh, Adams and Bond are all smashing ball luggers. Clyde Smith, from the frosh crew of last year, seems likely to replace Bunker at center, the big Tiger captain going to Blumer's tackle, and Dunn, Warren and Wallace Smith are also likely candidates for the line positions.

And spirit—it's the same old Tiger spirit that backs the team when it wins and when it loses, and fights and fights and fights.

The Tigers, as things look now, should make a strong bid for the Missouri Valley Conference championship. Nebraska is, of course, the most formidable obstacle to a Missouri championship, but, on the other hand, the return of the Huskers to the Tiger schedule makes for a clean-cut championship battle. The team which wins the title must defeat the best teams in the Conference, under the 1922 schedule.

The question of a quarterback is perhaps the most perplexing problem which Coaches Kelley and Garrity have to face. Just now it looks like Kershaw. Kershaw has never played the position, but he does know football and has had the experience of competition which the man who runs

the team must have. Forest Fowler, star freshman punter of last year, will also get a chance to call the signals.

Perhaps the most important shift in lineup which Coach Kelley is considering is the shifting of Captain Bunker to tackle to fill the gap left by graduation of Herbert Blumer. Clyde Smith, a big, scrappy football man from last year's freshman squad, will take Bunker's place in the middle of the line, and with Bunker at one tackle and Hill at the other the Tigers will have the ground work of a mighty strong line.

And, even though the 1923 football season is a long ways ahead, a glance at the 1922 freshman squad brings a lot of joy to the Tiger followers. More than 150 youngsters reported at the first of the season, and when the culling down is finished, there are going to be 25 or 30 really promising

Tom Kelly, coach; Director of Athletics, '11-'12-'13, Muhlenberg College, Allentown, Pa.; Director of Athletics, '14-'15, Missouri School of Mines, Rolla; Director of Athletics, '15-'16-'17, University of Alabama; Line Coach, University of Missouri, '19; Director of Athletics, '20-'21, Idaho University.

Henry Garrity, assistant coach; Halfback at Princeton, '19-'20-'21; quarterback '20; All-American halfback '20. Played third base on Princeton team, '19-'20-'21. He is married and has a baby girl.

The Tiger Squad—With the Thermometer at 98°

men for Captain Bill Dunckel to drill with fundamentals and get into shape to take up the battle next year.

Six Have Fifteen Degrees.

Fifteen degrees from the University of Missouri, to six members of one family equals two and three-fifteenths degrees a person. This is the quota of the Rusk family, probably the best record on the books of the school as far as degrees are concerned. Henry Perly Rusk, who has been professor in the beef cattle department of the University of Illinois, and who was recently made head of the department of animal husbandry at that institution, holds a degree from Missouri. He received the degree of B. S. in Ag. in '08. Rusk succeeds H. W. Mumford, who has been elected head of the college of agriculture at Illinois. Mr. Mumford is a brother of Dean Mumford of the Missouri College of Agriculture. Professor Rusk is the son of W. H. Rusk, who is extension assistant professor in the College of Agriculture here. Of the seven children of the elder Mr. Rusk, six are Missouri graduates, the other receiving a degree from Illinois. Besides H. P. Rusk, the Missouri alumni are: E. W. Rusk, county agent of McCoupin County, Illinois; Mrs. Fern Shapley, whose husband is a professor in the art department at Brown University, Providence, Rhode Island; Mrs. J. Sullens, the wife of a minister who holds degrees from Central College and Yale; Ruth Rusk, now taking graduate work in the University, and Edna Rusk Dalton, Cape Girardeau, Mr. Dalton is a graduate of the School of Law of the University. Ralph L. Rusk, who is assistant professor of Engineering at the University of

Indiana, was graduated from the University of Illinois.

Many University Grads Get Good Positions.

Many former students of the University are beginning work this fall in new, attractive positions as teachers and educational administrators. The Committee on Recommendations has thus far received reports of 268 University students who were recently appointed to such positions. A number of these teachers received the degree of B. S. in Education last April or completed the requirements for this degree in the summer term.

Reports received show that 216 of the positions are distributed as follows: Superintendents of schools, 16; teachers in colleges and normal schools, 19; high school teachers, 177; grade teachers, 4. In the remainder of the cases the exact kinds of positions secured are not mentioned in the reports.

Among those appointed superintendents of schools are the following: Fred Bruner, Boone, Terre; E. Cleveland Hollar, Kohoka; Lee D. Ash, Palmyra; A. O. Briscoe, Fredericktown; William Gardner, Huntsville; B. I. Lawrence, Fayette; Harry R. Landis, Gower; Geo. Husted, Portageville; Thos. Denby, Quimby, Iowa; George Stuckenbroeker, Blue Mound, Kansas; and Henry B. Witham, Ocheydan, Iowa. W. R. Boucher, E. O. Wiley, and P. G. Buckles have accepted positions on the faculty of the Southwest Normal College at San Marcos, Texas, where Mr. Bertram Harry, a former graduate of the University, has been teaching for several years. Miss Lena A. Barber and Miss

Olga M. Tetley have been appointed to positions on the Faculty of Missouri Christian College at Camden Point. Leonard M. Wright is principal of the Fulton High School, Stephen Cornish is principal of the Junior High School at Flat River, and T. D. Glaze is principal of a grade school in St. Joseph. Among those accepting positions as high school teachers are: Nola Anderson, St. Charles; Artemesia Coil, Catherine Bush, Alma L. Hoeker, and Ruskin Hawkins, Kennett; Mr. and Mrs. R. J. Clinton, Sedalia; Katherine Hillix, Brookfield; Harriett Blanton, Paris; Sarah E. Cheavens, West Plains; Leslie K. Grimes, Purdy; Mildred Hudson, Marceline; Lena May Lacy, King City; Flossie Belle McDonald, Hopkins; Florida Parsons and Maude Thompson, Cape Girardeau; Vesta Rhodes, Cameron; Fay Samuel, Lebanon; Gertrude Waers, Okmulgee, Oklahoma.

All of the thirty teachers trained to teach Vocational Agriculture who were graduated in the academic year just closed have been appointed to positions in high schools. The minimum salary for these teachers is \$2,000 with \$250 in addition for traveling expense, and the maximum salary is \$2,400 with \$250 in addition for traveling expenses.

Four teachers of vocational trades and industries trained in the extension center of the School of Education at St. Louis have accepted positions in the St. Louis school. Of the forty-five foremen who received instruction in this center to teach new employees in shops and factories, a considerable number have been retained by their employers in more advanced positions.

A Graduate of '78 Returns.

Mrs. Jonathan H. Davis, who graduated from the University in 1878 returned after a vacation of many years to Missouri and enrolled in summer school.

Mrs. Davis, who was Miss Elizabeth McDowell Field, was one of two girls to graduate from the University in her class. Mrs. Mary Neil Gentry, who died many years ago, was the other.

Following her graduation Miss Field was married to Jonathan H. Davis, of the same class and has made her home until this summer in St. Louis. Mr. Davis died four years ago in Florida where he had been taken on account of ill health.

Of the eleven members of the class who graduated in Arts and Science with

Mrs. Davis, she believes only two others are living, D. P. Kemble of Hillcrest Farm, Bowling Green, Mo., and William B. Marshall who is believed to be living in Montana.

Mr. Davis was also graduated in '78 with a degree in Engineering; the first year that such a degree was granted. One other member of the class, James P. Bates, also received a degree from the School of Engineering.

This fall Mrs. Davis will be hostess at the Episcopal Rectory in Columbia. Her daughter, Frances E. Davis, who attended Washington University last year will enter the University.

Sixty Missouri Grads Are Employed by State.

Sixty students and alumni of the School of Engineering of University of Missouri are employed by the Missouri State Highway Commission, headquarters at Jefferson City, Mo.

B. H. Piepmeier.

Piepmeier is Chief Engineer. Below is a list of the names of the men in that service:

Piepmeier, Perry A. LaRue, Guy N. Clark, V. B. Saville, Wilbur Ford, M. S. Lattimore, R. F. Dicking, E. Brown, Ray Dunlap, C. P. Owens, Dan Wilson, Ralph Wisdom, Rex Whitton, George Crews, Frank L. Stuekey, Chester D. Mann, Lloyd E. Greathouse, H. C. Hailey, Robert L. Tatum, S. M. Kudder, N. R. Sack, M. S. Gwinn, E. R. Axon, G. C. Broadhead, R. W. Hodson, F. D. Harris, J. T. Grigsby, Earl Denny, W. P. Divers, O. D. Chrisman, Francis B. Stewart, W. W. Mitchell, I. C. Mueller, R. F. Lofland, R. C. Kealey, J. H. Long, C. W. Brown, E. C. Bailey, J. W. Fothergill, C. E. Stuckey, G. S. Ross, F. Wilkens Smith, H. R. Conkey, Wm. Deaton, G. A. Ridgeway, J. J. Leslie, Amy C. Fairbrother, G. S. Huddleston, Chas. A. Morgenthaler, H. B. Anderson, J. T. Willis, V. L. Johnson, Jr., E. D. Brasfield, C. F. Wasser, T. F. Marbut, J. H. Leasley, E. S. Glenn, Proctor Pierce, J. Max McCann.

HAMILTON-FORD

The marriage of Miss Kimball Hamilton, Excelsior Springs, a former student and a member of Delta Delta Delta sorority, to Frank Ford, St. Paul, was announced recently. At home in St. Paul. Mrs. Ford was a Savitar Queen in 1921.

MCDONALD-SLOAN

The engagement of Miss Julia McDonald, Independence, Mo., '18, Phi Beta Kappa, Kappa Alpha Theta, a Savitar Queen '19, and Waldo Sloan, Independence, Mo., a former student and a member of Kappa Alpha, was announced recently.

MENEFFEE-ALLISON

Miss Katherine Menefee '20, Kappa Kappa Gamma, and William Newton Allison '18, Sigma Nu, both of Sedalia, were married in their home city September 6. Miss Patsy Bartlett of Hannibal was bride's attendant and Raymond Boyle of Kansas City acted as Mr. Allison's best man. The wedding march was played by Miss Jane Rodgers of Columbia. Harold Dean, Jack Crawford, and David Powell of Sedalia were ushers. All of these are former students.

HARYMAN-LAFORE

Miss Emma Hartman, a former student and a member of Chi Omega, Glee Club and Women's Pan-Hellenic Council, was married to John T. LaFore of Webster Groves August 22. They are at home in Webster Groves.

WHITE-PUTNEY

Miss Alice Frances White, a former student in the University and Lyman Becher Putney were married Sept. 6 at Albuquerque, New Mexico. Mrs. Putney is a member of the Phi Mu sorority and formerly lived in Columbia.

SIMONS-MITCHELL

Miss Adelaide Simons, a former student and a member of Kappa Kappa Gamma and Samuel Caldwell Mitchell, both of St. Louis, will be married September 26, in that city.

BROWN-WELCH

Miss Lena Brown, a former student in the University and a graduate of Christian College, was married to Francis Welch August 28. Mr. Welch is a member of Beta Theta Pi at the University of Oklahoma. Miss Brown, whose home was in Shreveport, La., is a member of Kappa Kappa Gamma. They are at home at 1223 W. 33 St. Oklahoma City.

WELLS-WHITELY

Miss Anna Edna Wells A. B., B. S. in Ed. '15, Alpha Phi, assistant director of

chapter service, Southwestern Division, American Red Cross and Edmond Whitely were married July 29 in Kansas City.

PITTS-MIZE

Miss Augusta Josephine Pitts of Moberly, Mo., and Maynard Mize, B. S. '11, Alpha Tau Omega, Tau Beta Pi and Chi Chi Chi were recently married. They will be at home at 4510 Tracy Ave., Kansas City.

HARDESTY-KENAGY

Announcement has been received of the engagement of Miss Emily Hardesty, B. S. Ed. '19, Chi Omega, to Herbert C. Kenagy A. B., B. S. Ed. '16, Carnegie Institute of Technology, Pittsburgh, Pa. Neither party was aware of the others existence while students at the University of Missouri. Miss Hardesty went to Carnegie last year as research Assistant to Dr. W. W. Chubb where Mr. Kenagy "found" her. He is now Assistant Director of the Bureau of Personal Research business service bureau of scientific ideals. Dr. Charters was a Columbia visitor this fall.

PUCKETT-MANN

Harry S. Mann, B. J. '21 was married this year to Miss Elizabeth Puckett. He is publicity director, Inter-Mountain Div., Universal Film Exch., 56 Exch. Pl., Salt Lake City. Mann was a member of Sigma Chi, Scabbard and Blade, Sigma Delta Chi, Tomb and Key, Tri Chi, Student Council.

WOLF-GENTRY

Dr. W. H. Gentry, Graduate of School of Medicine and Miss Katherine Wolf, also a graduate, were married at the home of the bride's father, fourteen miles northeast of Carthage, Mo., recently. Dr. Gentry was a major in the World War and his wife, who is a graduate nurse, also served in France during the war. Dr. and Mrs. Gentry will make a trip to Vienna soon. They will make their home in Carthage.

COTTON-FISCHER

Announcement has been received of the engagement of Miss Alma LaCossett Cotton of Kansas City to Clifford Hess Fischer of Jefferson City. Miss Cotton was a former student of the University and a member of Kappa Kappa Gamma sorority. She was graduated from Vassar in 1921. Mr. Fischer is a former student of the University and a member of Kappa Alpha fraternity.

HOKE-KEATH

Announcement has been received of the engagement of Miss Mary Hoke, St. Louis, graduate of Hosmer Hall to Howard Keath, B. S., Eng., '17. The marriage will take place October 7 at the home of the bride in St. Louis.

JOHANNES-MARLEY

Harold P. Marley, A. B. '21, and his wife, who was Miss Faye Johannes, B. J. '21, are at 1329 49th St., Brooklyn, N. Y. Mr. Mar-

(Continued on page 13)

The Missouri Alumnus

Established 1912

R. L. (BOB) HILL, Editor and Manager
GERALD F. PERRY, Assistant Editor

Member of the Alumni Magazines Associated.

OFFICERS OF THE UNIVERSITY OF MISSOURI ALUMNI ASSOCIATION

Frank B. Rollins, Columbia, President.
Mrs. Frances W. Anderson, St. Louis, Vice-President.
Dr. J. C. Blackburn, Marshall, Vice-President.
S. F. Conley, Columbia, Treasurer.
R. L. (Bob) Hill, Columbia, Alumni Recorder and Secretary of Alumni Association.

Subscription to the Alumnus is \$3 a year. Changes of address should be received by the Missouri Alumnus before the fifteenth of the month to insure prompt delivery of the magazine for that month.

Checks, drafts and money orders should be made payable to the Missouri Alumnus and all business correspondence should be so addressed. Address all news items to the Managing Editor of the Missouri Alumnus, 114 Jesse Hall, Columbia, Mo.

ORGANIZE NOW

As the date of the next session of the Missouri Legislature approaches, alumni and former students of the University of Missouri are reminded that the time is at hand for them to be of extraordinary assistance to their Alma Mater.

President Jones and the members of the Board of Curators have an ambitious program to present to the next Legislature and they appeal to the alumni and former students for their united support.

No stronger force for power can be built up now than through their organization of these alumni and former students by counties in Missouri. Already many counties have perfected organizations of the alumni and former students. To get the greatest possible support it is important that there be a county alumni association in every county in Missouri.

The next session of the Legislature is in January. The time to organize county alumni associations is limited. Prompt action is necessary to cash in on the most opportune time to be of assistance. The alumnus or former student who waits for some one else to perfect his or her county organization shirks a duty. Don't wait. Take the initiative, now!

THE MOVIE CAMERA

A motion picture camera has been purchased by the Alumni Association and presented to the Board of Curators of the University of Missouri. For several years there has been an unusual need for such a camera at the University but lack of funds prevented the purchase. The popularity among the alumni of the pictures "The Tale of the Tiger", "Tigertown" and others, financed by the student body at heavy expense, suggested to the alumni that the University should own a camera.

The camera has been on duty since "University of Missouri Day" at the Missouri State Fair at Sedalia, August 24, when pictures were taken of the many alumni who celebrated that day.

Since that time pictures have been taken of student stunts and activities. Pictures will be taken of the football games, the Class-Rush, the Barnwarming, St. Pat's Day exercises, The Farmers' Fair and everything else of interest to alumni. Plans are in the making for special pictures to be made and shown in the high schools of Missouri and many pictures will be made for showing at county and city alumni meetings. The athletic department will use the camera in their coaching work. The field of motion picture making at the University of Missouri is unlimited.

Enclosed in the last News Letter was a blank check for \$1. Each alumnus is expected to contribute this amount to the motion picture fund.

THE SCHOLARSHIP CUP

The Tom K. Smith cup offered each year to the social fraternity at the University of Missouri having the highest scholastic standing was awarded last spring to the Phi Delta Theta fraternity. The spirit of enthusiasm with which the different fraternities entered into the competition for this cup demonstrated the wisdom of Mr. Smith's offer and the manifest need for such a trophy for the social sororities.

Tom K. Smith was graduated from the University in 1904 and is a member of the Phi Gamma Delta fraternity. He has always kept alive enthusiasm for his Alma Mater and like the course of his business career, he has tried to do constructive things for the University of Missouri. Certainly he must take pride in the splendid scholastic records of the social fraternities last year as a result of his liberality and foresight.

Here, then, is an opportunity for

some alumnus to do something to stimulate scholastic standing among the social sororities. True, the expense is little, but the results are big. Is there not a woman among the thousands of our alumni who will offer a cup to be awarded annually to the social sorority having the highest scholastic standing?

PLEASE REMEMBER

Please remember that every man and woman who has attended the University of Missouri is a member of the Missouri Alumni Association. This includes those who received degrees as well as those who did not and includes, too, the summer school and short course students. All are referred to as "alumni" without regard to length of attendance or degrees attained, and without regard to sex. Every effort is being made to be broad and liberal in the alumni organization work. There are no membership dues in the Missouri Alumni Association. It is important that all alumni subscribe for the ALUMNUS which costs \$3.00 per year.

The Alumni Association is making an effort to establish in the office of the Alumni Recorder a library containing books written by alumni and former students. Those of you who have written books are urged to send copies to this office. Your kindness and promptness in this work will be appreciated.

Simpson to Enter Contest.

Robert I. "Bob" Simpson, world's champion hurdler, to his present intentions, will hurdle once more in contest all probability for the last time. An urgent request from Colgo graduate, former Tiger football Coach Simpson has agreed to run hurdles in the athletic carnival which will be held at New Orleans next month in connection with the national convention of the American Legion. Simpson will represent the local post of the American Legion, of which he is a member.

He has been working out on the track in preparation for the coming event, and expects to devote all his attention to regain his old hurdling form.

The Missouri Geologist Page will be resumed in the October issue instead of the September issue as was previously announced.

WEDDINGS

(Continued from page 11)

ley is a Christian minister. They were married August 15, '22 in Mr. Marley's church. Mr. Marley was a member of Athenaeon Society and Alpha Zeta Pi, Mrs. Marley was a member of Theta Sigma Phi, Mortar Board, Bethany Circle and Delta Tau Kappa. Dr. Gibbs, acting dean of the Bible College gives a glowing report of the accomplishments of Mr. and Mrs. Marley. "If we do anything worth while it is due to the excellent background our lives received 'neath the columns of Old Missouri," writes Mr. and Mrs. Marley. When you go to New York be sure to call on them.

OVERSTREET-PROCTOR

Hugh Proctor, Student Secretary Y. M. C. A. and Miss Martha Overstreet of Jefferson City, a former student of the University, are to be married September 21.

BIRTHS

Announcement has been received of the birth of a daughter, Mary Milster Mitchell, at Cambridge, Mass., Aug. 29, to Lieut. Mason E. Mitchell, Supply Corps, U. S. Navy and Mrs. Mitchell who was formerly Dora Otis, A. B. '08, A. M. '16. Mrs. Mitchell is a sister of Merrill E. Otis, A. B. '06, A. M., LL. B. '10, Assistant Attorney General of the State of Missouri, Jefferson City. Mrs. Mitchell was the first Missouri woman to receive a Master's degree from Harvard. It is conferred last spring.

and Mrs. William E. Price of Oklahoma, Okla., announce the birth of Edmund Price, Jr. August 28. Mr. Price was formerly secretary of the Chamber of Commerce at Oklahoma City and is building contractor in that city. He received his degree in civil engineering in '07. Price was Miss Mary Grace Temple.

Mr. and Mrs. Lyle Johnston, St. Louis, students '20, announce the arrival of a daughter, Joan. Mrs. Johnston was Sue Rosenberry, Kappa Kappa Gamma. Mr. Johnston was a member of Sigma Nu fraternity.

Edwin J. McKee, B. S., Delta Tau Delta, and Mrs. McKee, '19, who was Miss Adlyn Faris, of Jefferson City, Pi Beta Phi and Theta Sigma Phi, announce the arrival of a son, Charles Faris, Sept. 4, at their home in Excelsior Springs.

Albert Ray Evans '13-'15 and wife, who was Miss Elsa Marianne Holekamp, B. S.

Ed. '17 announce the arrival of a daughter, Elsa Marie, born May 25, 1922, at their home, 606 East 41st St., Kansas City, Mo. Mrs. Evans was a member of Alpha Phi, Pi Lambda Theta, Friar, Y. W. C. A., Athletic Assn. and a Pan-Hellenic representative.

DEATH NOTES

Robert Terrine Boulton, LL. B. '77, LL. M. '80, died of heart disease August 5, at the home of his brother John W. Boulton, Pe.P. '86 of Slater, Mo., where he was visiting. He taught in Canton University for several years and later became president and manager of the Litchfield Herald, Litchfield, Ill. During the last few years, he was engaged in real estate and insurance business at Decatur, Ill.

P. P. Galloway, former superintendent of schools at Moberly, died September 7 at his home at Marshfield. Mr. Galloway suffered from influenza several years ago from which he never fully recovered. Mr. Galloway received a degree from the University of Missouri in '12 and later took graduate work at Columbia University in New York City.

WHAT THE OLD GRAD IS DOING

319 Hillwood Drive
Akron, Ohio.
August 22, 1922

Dear Bob: The rubber city has its share of Missouri alumni. Last night we were delightfully entertained with a swimming party and corn roast at the summer cottage of Mr. and Mrs. "Bill" Preston on the Portage Lakes. Those present were Hugh Finlayson '13, Mrs. Hugh Finlayson (Hildegrade Waugh) '14, Mr. and Mrs. Lowell Leake (Mrs. Leake was formerly Miss Frances Ross '21), Webster N. Jones '08, William C. Preston '17, and Mrs. William C. Preston (Eloise Steenson) '17.

The following people were on their vacation or unable to be present: the Surber family—"Bud" '11, John and Carrie, all former Missouri students, Courtney Campbell ex '17, Mrs. Edmund Burroughs (formerly Miss Esther Swinehardt), "Bobby" Lamb, and Mrs. Webster N. Jones (Nettie D. Haire) '14.

During the past winter we have held meetings at the various homes. There is talk now of organizing an alumni chapter. What are the steps in the organization of a chapter? It sure brings back visions of the good old days, when the gang under the direction

of Hugh Finlayson, former glee club star, turns loose on "Old Missouri".

Do not forget me on the first issue of the ALUMNUS. When will the new directory be out? Sincerely, WEBSTER U. JONES.

New Brunswick, New Jersey

Sept. 2, 1922

Dar Bob. I do not subscribe to the ALUMNUS. It seems to me like I sent in a check about six weeks ago, but anyway, here's another one. Rather than go without the ALUMNUS, I would be glad to send you a check for \$3 every six weeks. However, in the future do not send it here but send it to Davis, California. I am going out there October 1 to take charge of the dairy cattle work. As you know, I am not going to be lonesome out there as there are already a bunch of Missourians on the grounds, including such illustrious names as Cy Hutchins, Chester L. Brewer, Dr. Howard, Elmer Hughes, Prexy Howell and several others that I do not recall at present.

I almost died of heart failure last week. It was the seventh inning of the game between the Browns and the Yanks. Bases were full and nobody out. Babe Ruth at bat. They pulled Dixey Davis out of the box and put Pruett in. Pruett had a sore arm and everybody expected that it was all over, Ruth would knock a home run and the Yanks would win in a walk. It would have done your heart good to see the hand that the New York crowd gave Pruett when he fanned Ruth. The next man up, Pipp I believe, was put out on a pop-fly and it looked as though Pruett was going to pull out of a bad hole but the next man up got away with a single base hit and two men scored. Let me tell you it was some exciting time for the few Missourians that were present.

I rather expect to be in Columbia around the middle of October in which case I shall surely stop in and tell you about Hale. He has been back here a year and has certainly made good. He took hold of a large certified dairy that was losing from \$2,000 to \$3,000 per month for its owners and in the past year they have, under his direction, realized a profit very close to \$50,000. Sincerely yours, W. M. REGAN, B. S. '12, M. S. '14. Member Dairy Judging Team, Dairy Husbandryman.

I have just finished reading the last ALUMNUS and enjoyed it as always. Especially interesting were Merrill Otis' "Reminences." At the recent Missouri dinner in Boston I had the pleasure of meeting his sister, Dora Otis Mitchell, who recently got her Master's degree in Education from Harvard.

There was one suggestion made that ought to be acted upon at every alumni gathering, and that was that those attending ought to have to shake hands with every other person. If that isn't done someone may come and go, only speaking with those on either side of him, and he'll hardly think it worth while to attend another. How often it happens when one reads the report of such a gathering, that he exclaims, "Why, I didn't know so-and-so was there!"

When are we going to have that plan of the campuses in the ALUMNUS? It need not be a finished production drawn to a scale, you know. HELEN SEWALL HUNTER, '04, 41 Wren St., Boston 32, Mass.
P. S. Check enclosed for ALUMNUS.

Change my address from Brownsville, Tex., to Rio de Janeiro, Brazil, Caixa Postal 49. I'm down here with five other Public Health nurses trying to show the Brazilians what a Public Health Nursing Service should be like.

We came down for the Rockefeller Foundation and are working with the National Department of Health here.

It's a great place and aside from the fact that we must struggle daily with the Portuguese Language, we find the same types and the same material to work on that we would find anywhere in the States.

I'm hungry for a word from M. U., so hasten the little old paper along—please—because I'd like to hear from some of my old friends. ANNE SHAW, A. B., B. S. '13, Caixa Postal 49, Rio de Janeiro, Brazil.

Albert Heinz, A. B., B. S. Ed. '10, A. M. '16, teacher Tsing Hua College, Peking, China was married in 1912 to Clara B. Alexander who was a former student in 1915-1916. They have one boy. Heinz was a Phi Beta Kappa and Sigma Xi. He was with the Y. M. C. A. one year during war in Siberia with Russian and Italian troops. He writes as follows:

"The Alumni Association should have privilege of sending every alumnus the magazine and drawing checks on him accordingly and automatically. As to news—no new wives or children in my family. Same wife, same son, now about nine years old, with a record of six crossings of Pacific before he was eight years old. F. E. Bruce, Wilmot Boone and wife (Nell Burgess), J. B. Powell and wife, are only Missouri people of about same vintage here in China that I know of."

George A. Bond, Jr., B. S. Ag. '22, is with the Missouri State Life Insurance Co., 301 Commerce Bldg., Kansas City, Mo. George was a member of Phi Delta Theta and Q. E. B. H. and M men's associations. He was a forward on the basketball team in 1920-21-22 and captain in 1922. His boss, F. J. McCaslin, L.L.B. '02, and manager of the Missouri State Life Insurance Co., Kansas City branch was a member of Sigma Nu fraternity and Theta Nu Epsilon. McCaslin played football in 1898-99-00 and 1901, in the days when freshmen were allowed to play. He played baseball in 1899-00-01 and '02 and was captain of baseball in 1902. McCaslin won track team in 1899-00-01-02. McCaslin won 12 letters, said to be the record of any Missouri athlete. Does anybody know of a better record? He entered the army in May 1917 and was discharged in August 1919 with the rank of Major of Infantry. McCaslin won the first one hundred yard dash ever staged between Missouri and Kansas.

Jack Crawford A. B. '22, Phi Delta Theta, is in the bond banking business with his father at Sedalia, Mo. According to Dr. Guy

Titsworth, president of the Pettis County Alumni Association, Jack is the "official entertainer" of that organization.

Willard F. Wilkinson, B. S. in B. & P. A. '22, Stewartville, Mo., called at the office of the ALUMNUS in September. During the year 1922-23 he will be a student in Chicago University. His address, 5463 University Ave., Chicago, Ill.

Nothing gives me more pleasure than to look over the ALUMNUS and learn where the old M. U. boys are and what they are doing, who they married, how many children they have, etc. I will anxiously await the next number. PAUL BIGGS, Cashier, Arrow Rock Stock Bank, Arrow Rock, Mo.

June 21, 1922

Alma Mater: In your "Help, Help" column of the *Alumni News* letter C. C. Taylor appears to be lost. Not so; he just removed "dike" (Goatee) and is no more an outcast at West Raleigh, N. C. where he can now be found in the chair of Professor of Rural Economics.

Your servant "Gran Pa" '16 Johnson, quasi athlete, B. S. in Agr., etc., has just lately "found himself" and expects to visit the old blue book establishment this year. He is the only alumnus in the county of Johnston, N. C. and boasts of having the best Alumni Association in the U. S., he being the president, vice-president, treasurer, secretary, business manager, librarian, janitor and office boy; his son, 2-years old, the boss, who will attend the University in 1940, has applied for membership. That's all. I beg to remain, with kind regards for all colleague friends and enemies, Very sincerely yours, A. M. JOHNSON, Vice-President, The Farmers Bank and Trust Co., Smithfield, N. C.

Frank Leslie Wiley, A. B. & B. S. Ed. '05, is director of Tests and Measurements, St. Louis Public Schools. He lives at 1570 S. Grand Ave., St. Louis, Mo. He was married to Imogene Stewart Hoss in 1910. While in school he was a member of Phi Beta Kappa and Athenaeum Literary Society.

A. O. Briscoe, B. S. Ed. '19, is superintendent of the public schools at Fredericktown, Mo.

Fred R. Deaton A. B. '14, L.L.B. '16, visited in Columbia recently. He is with Stern Brothers & Co., Bonding Business, Kansas City, Mo. His home address is 432 W. 58th St. Terrace. He was married in 1917 to Miss Elizabeth Abernethy, a Kansas City girl. They announce the arrival of a daughter, Dorothy Lee, born June 26, 1922.

Edgar George List, B. S. in E. E. '14 is an electrical engineer, 516 S. W. Temple St., Salt Lake City.

Mrs. Guy R. LaCoste, B. J. '13, who was formerly Miss Amy Armstrong, lives at 339 E. 2d St., Salt Lake City, Utah.

Ivan Forrest White, B. S. in C. E. '06, is a draftsman, 409 Federal Bldg., Salt Lake City.

Daniel Lee Brundige, B. S. in M. E. '06, B. S. in E. E. '07, is Superintendent of Maintenance, Utah Power & Light Co., Kearns

Bldg., Salt Lake City. He was married in 1915 to Miss Amber Bordsley.

James Robert Jarvis, B. S. in E. E. is Valuation Engineer with the U. Power & Light Co., Salt Lake City. He was married in 1918 to Miss Emma Watkins. He was a member of Knu Stein Metz. He visited in Columbia last summer.

Tzaritzin, Volga, Russia, is the newest town to be added to the mailing list of the alumni office of the University. Hugh J. Luck, a student in the School of Journalism in 1920-21, now with the American Relief Administration in Russia, writes that he has been "feeding the Russkies here for three years." He says that the monotony is broken by an occasional tiff with the Bolsheviks or a run-in with the bandits when he is out inspecting on the steppes in the ruins of a Ford. "The remarkable thing about the Russians is their laziness and their vodka," says Mr. Schuck.

Mr. Schuck's home is in Des Moines, Ia. After leaving the University here, he spent eight months studying journalism at the University of London. His business address is A. R. A., 67 Eaton Square, London, S. W. 1, England.

Mr. Schuck offers Russian rubles in payment of a subscription to the Missouri Alumnus.

Mary Rogers will be instructor in home economics at Colorado University this year. Her address is 985 E0th St., Boulder, Colo. Last summer she taught in the home economics department of the State Teachers' College, Maryville, Mo.

Blanche Messick '19, in school winter term '22, will teach vocational home economics, Nogales, Ariz.

Fay Samuels '22, teaches vocational home economics at Lebanon, Mo.

Lottie Creelcis '22, teaches vocational home economics at Jameson, Mo.

Thomas S. Hudson, B. J. '15, United Publishers Corporation of New York has loaned by them to manage the War Department's million dollar advertising campaign in the sale of surplus war material headquarters at 1903 F. St., N. W. Washington, D. C. He was recently married Amelie M. Leonard of Ely, Scotland, the war Mrs. Hudson was with ish forces as a nurse, wounded gassed twice. Mr. Hudson is a member Alpha Tau Omega fraternity.

George Wilkerson Allison, L.L.B. '77, practicing law in McPherson, Kan. He was married on Nov. 9, 1880 to Mary Ellen Lenoir. They have one child. Home address when a student, Sturgeon, Mo.

William Kennedy Amick, L.L.B. '89, is practicing law at 7th Felix St., St. Joseph, Mo. He married Miss Mabel Mullins of Linneus, Mo. in 1893. They have two children. Home address, 2729 Frederick Blvd., St. Joseph, Mo.

Porter William Baker, former student in Arts and Science, is a banker at Leeton, Mo. He was a member of Kappa Alpha while in school. On June 29, 1919 he was married to Miss Ola Marie Cooper. They have one boy.

James Sanford Barnett M. D. '96, is a

practicing physician in Hitchcock, Okla. He was married Aug. 1, 1901 to Miss Julia B. Thomas. They have four children.

Carrie Barnett A. B. '08, B. S. '10, is teaching in Enid, Okla.

William Edward Barton LL.B. '94, is practicing law in Houston, Mo. He was married Dec. 19, 1900 to Marietta Tweed.

John Thomas Butler M. D. '77, is living at 503 S. Jackson St., Brookhaven, Miss. He was married to Miss Maggie Thompson on April 18, 1883. They have one boy and two girls. While in school he was a member of Union Literary Society, Phi Zeta Phi.

James T. Cross, Pe.P. '81, is a lumber dealer in Moberly, Mo. In 1893 he was married to Miss Cora Woods. They have one girl and one boy. Mr. Cross is a former mayor of Moberly.

Harland F. Mayes A. B. '22 and Edwin A. Mayes B. S. Ag. '21, members of graduate school, Harvard University, Cambridge, Mass., visited in Columbia the first part of September.

Joseph B. Davis, former student, is principal of the high school at Bonne Terre, Mo. His former home address was Arcadia, Mo.

WE want you to bear in mind the business firms of Columbia that are boosters of Missouri in every way. Their names are household words in Columbia. They help the University in every manner possible and you should remember them when you are in Columbia. They are:

Missouri Store.
Northwestern Mutual Life Ins. Co.
Richards Market.
Rosenthal School of Commerce.
Boone National Savings & Loan Ass'n.
Co-Op.
Miller Shoe Co.
E. W. Stephens Publishing Co.
Victor Barth Clothing Co.

Herald-Statesman Publishing Co.
Daniel Boone Tavern.
Dorn-Cloney Laundry Co.
Harris' (Millard & Sisson).
Tavern Drug Shop.
Parker Furniture Co.
Brasletton's Shoe Store.
Parson's Studio.
Wolf-Berger.

Richard's Market is, in Columbia, noted for the extreme care given to sanitation in the handling of all meat products.

American and Annex Hotels

(Absolutely Fireproof)

7th & Market, 6th & Market
ST. LOUIS, MISSOURI

On direct car line with the Union Station and surrounded by all the leading places of amusement. 500 rooms with all the conveniences of a home. Bath (tub or shower) in every room. Running ice water. Telephone. In fact, everything necessary to make you comfortable and feel at home.

Our "nation-famed" cooking at reasonable prices will attract you to our cafe.

The Wabash Railway

has for many years been interested in the growth and prosperity of the University of Missouri. It has been its privilege and pleasure to cooperate with both faculty and students whenever an opportunity has offered itself, and, with that end in view, the Wabash Railway has endeavored to arrange its regular train service to St. Louis, Kansas City and beyond, as well as the special service during the holidays and at the close of school to accommodate everyone.

The patronage of the faculty, students and alumni is solicited by the Wabash Railway in the same friendly spirit of cooperation, as in the past.

H. E. Watts

Passenger Traffic Manager St. Louis

A Pioneer Railroad that Presaged a Great State

In 1849, the Pacific Railroad was organized. Then there was not a mile of steam railways west of the Mississippi. The state of Missouri was a vast barren area, but the railroad pioneers foresaw the development of a Great Commonwealth, and undertook the construction west from St. Louis of trackage which proved the nucleus of one of the important western railway systems—the

Missouri Pacific Railroad

Today this company operates 7,300 miles of trackage traversing nine states, and 23 per cent of this mileage traverses the great state of Missouri.

The Missouri Pacific Management is proud to have been a participant in the development of Missouri, and still strives to function efficiently and constructively in providing transportation service.

When Opportunity Knocks

The average young man begins life poor. His salary is comparatively small and consequently his possibilities are limited. But to every man there comes a golden opportunity whereby a sum of ready cash will enable him to realize more from life. With ordinary intelligence he can earn more than enough to supply the necessities of life. What will he do with that surplus amount? He can spend it and live as he goes; but he can save it and realize on it in a larger way when the opportunity presents itself.

We have a plan whereby every young man can invest his small savings and in time realize on his thrift in a substantial manner.

Here is the table which shows the result of monthly deposits:

Deposited Monthly	In About 10 Years Yields
\$ 6.00	\$ 1,000.00
12.00	2,000.00
30.00	5,000.00
60.00	10,000.00

STEPHENS COLLEGE

(The Junior College for Women)

COLUMBIA, MO.

(The Educational Center of the State)

The following table shows the growth of Stephens College in the last ten years:

Year	Enrollment	Year	Enrollment
1912-13	156	1917-18	322
1913-14	227	1918-19	382
1914-15	232	1919-20	451
1915-16	275	1920-21	526
1916-17	282	1921-22	532

There's a Reason

And that reason is the fact that Stephens College has a real educational program and a faculty capable of putting this program through.

If you are interested in the Junior College idea as developed at Stephens College, write to

JAMES M. WOOD, Pres.
