Working Hand in Hand

Reddy Kilowatt, your electric servant, is working day and night to keep the machinery humming in war plants so that Uncle Sam will have "what it takes" to get the job done.

With business management of your local electric company planning adequate capacity even before the war, there has been ample service for both industrial and residential needs. When the post-war era arrives, this same planning will mean much in helping the world return to peace time basis.

THE ALUMNI ASSOCIATION of THE UNIVERSITY of MISSOURI, Columbia, Missouri

JANUARY, 1945

DEAR ALUMNI AND UNIVERSITY FRIENDS:

We want to urge every alumnus and former student of the University to send any and all news regarding themselves or their classmates to the Alumni office. Each of you has a complete file here in our office. This record has been kept up-to-date insofar as is possible since the date you last were on campus.

We need the cooperation and active participation of every one of our readers and friends. We thank those of you who have been so faithful in the past and appreciate your help and interest. We hope you will continue to write often.

Many inquiries have been received about members in the classes of 1900 to 1905 and 1910 to 1920. We'd like to hear from you.

Keeping up with our Alumni in the Service, whether in the States or overseas, isn't as difficult as trying to keep track of our civilian Alumni right here at home. We wish all of you would take off a few minutes to drop us a note and let us know where you are and what you're doing—unless it's a military secret. If a Missouri man in a fox hole in Italy or New Guinea finds time out of battle to drop us a hello and ask about some of you civilian classmates of his, it's only fitting that you classmates write us so we may give the man on the battlefield some news that's up to the minute.

There seems to be little enough that we can do for the boys who have been called away from their educational enterprises and civilian jobs to serve our country in this war. The least we can do is provide them with adequate facilities, both in institutions and in compensation, to enable them to con-

tinue their college work when they return from the battlefield.

Not only should this privilege be extended to those who have been drawn out of college, without the chance to complete their work, but it should also be provided those who desire higher education and were not able to begin such work.

The Veterans Service Committee has been instituted for the purpose of assisting veterans who attend the University in making the most of their opportunities here. This Committee offers the Veteran guidance and counseling on all matters concerning the University, by helping him establish his claim to college benefits and assisting in every way to further his education and rehabilitation.

Those of you who have sons and daughters, brothers, husbands, or classmates in the service who are interested in coming to the University later on should fill in the blank form on the other side of this page and mail it along when you write us. We will forward it to the Committee and they will send the bulletin direct from their office.

Missouri Tigers have made many, many tracks all over the world, tracks which will be retraced by the University men and women in the years to come. Some of these imprints have made you alumni famous and very important, others not quite as prominent publicly but certainly just as deep an imprint has been made. To keep hunting down you civilian alumni is a problem, especially with the ODT on our trail, with the OPA keeping watch on us (we threatened to offer five red points for every letter from one of you alumni), and with the man-power shortage. We want to hear from you.

NEW BULLETIN FOR VETERANS

As you were informed last spring, a Veterans Service Committee was appointed to prepare for the handling of special problems concerning the re-enrollment of men and women who had been in Service. This Committee assists in setting up veterans' education benefits, instituting advising programs, and recommending certain changes in administration and in curricula which are for the benefit of those who have been in Service.

A new bulletin has been published in the regular University series, designed as an aid to those in Service and those who have been discharged. After a message to veterans written by the President of the University, the bulletin consists of three main sections. In Section I, the federal benefits for veterans are explained in some detail in regard to education. This includes a discussion of the provisions of the rehabilitation training and also of the G. I. Bill of Rights under which practically all veterans can get some time in school. In this section, we give instructions to those discharged from Service in how they may proceed in setting up their benefits and in entering the University. Section II deals with the training which the University offers. Rather complete information is given on the rules of admission, the

evaluation of credits for work done while in Service. The remainder of the section describes briefly the various agencies in the University which function for the benefit of students, such as Directors of Student Affairs; Student Health Service; Financial Aid Service; the various counseling and advising agencies; and cooperative, religious, musical, and athletic organizations. Here, too, appears a brief discussion of the offering of each of the nine divisions of the University, a brief discussion of short non-degree programs, and a chart giving the requirements for entrance in all the divisions, the degrees granted, and the length of time required to obtain these degrees. Section III is set up on a plan entirely new to college announcements. It concerns jobs for which the University's training fits the veteran. An important part of this Section is the list of job titles which corresponds to their listing in the *Dictionary of Occupational Titles*, published by the Federal Government. This listing of job titles and the departments giving the needed training have given us much valuable information concerning possible employment services. We shall be able to advise the veteran as to what kinds of jobs are available, what qualifications he must have to hold any of these

positions, and how much training is necessary. We shall be able to advise him as to the fields in which there will likely be openings when he finishes his education and training, whether certain fields are more crowded than others, and whether his talents or handicaps will be benefits or detriments to him in the field of his interest.

Many of you alumni who are employers or who hold important professional jobs may receive requests from us about occupational opportunities, job analyses and requirements, etc. We will appreciate any assistance you may wish to give us along these lines.

We are very anxious to have the assistance of all University alumni and friends in making our service as helpful as possible. We are anxious to help all eligible veterans.

If you are in the Service and are interested in the training the University offers you, please fill in the attached form and mail it to Prof. T. A. Brady, Director of the Veterans Service Committee, 311 Jesse Hall, University of Missouri, Columbia, Missouri. To those of you not in the Service or without previous Service record, we suggest that you fill in this form for someone you feel would be interested in having this information.

UNIVERSITY MAKES PLANS

Leslie Cowan

Leslie Cowan, secretary of the University, and Maj. Elmer Ellis, professor of history on leave, were appointed University vice-presidents by the Board of Curators recently to fill two new administrative positions created by the Board on recommendation of President Frederick A. Middlebush in a move to prepare for postwar problems.

Mr. Cowan was appointed vice-president in charge of Business operations, and Maj. Ellis, who will assume his duties when released from military service, will be vice-president of the University in charge of the extra-divisional educational activities, which will be concerned with offices and activities not under the supervision of the deans. Both will be members of the committee of deans and will be responsible to the president.

Maj. Ellis will supervise the following activities: Library extension division, registrar, bureau of public information, physical education, military science and tactics, student affairs for men, student affairs for women, student advisement program, student health, educational investigations and surveys.

Maj. Ellis will also direct all standing annual committees appointed by the president, the University faculty, and the Board of Curators, except the committee on University policy, the committee on educational policy of the graduate school, committee on honorary degrees, committee on intercollegiate athletics, committees of the School of Mines and Metallurgy, and any committee specifically made responsible to another officer.

"The establishment of these two positions does not change the educational procedure of the institution," Dr. Mid-

Elmer Ellis

dlebusch said, "nor does it affect the direct relationship between the departments, divisional deans and the president."

"This action by the Board is another step on the part of the University administration to prepare for the post-war period with its complex educational and business problems accompanying a great increase in enrollment and the expansion of the University's activities," he added.

The president said the plan was also intended to relieve, to some extent the deans, members of the faculty and the president of some of the increasing load of general administrative details, thus allowing these officers more time for basic educational administration, teaching and research.

Some time ago, in the interest of greater efficiency, the work in the University business office was reassigned to different members of that staff. The present action, extended to other offices, is a continuation of this re-organization of the general administrative work of the University.

Maj. Ellis, who entered the Army in the fall of 1943, is now in Washington, D. C., in the military intelligence division of the general staff of the War Department, where he is working with historical material of the war. He received his Ph.D. degree from the University of Iowa in 1930 and his A.B. and A.M. degrees from the University of North Dakota in 1924 and 1925. He has been acting dean of the graduate school during some summer sessions of the University.

Mr. Cowan received a B.S. in Civil Engineering from the University in 1913 and has been secretary of the University since 1920.

Campus Bond Sales Buy a Bomber and a Hospital Ship

Dr. DR Scott, chairman of University faculty sales in the Sixth War Loan Drive, presented two pictures of planes purchased by University Bond sales at a cost of \$213,500, to the student body during Coffee Hour in Read Hall December 15th. One picture is a Hell-Cat Fighter Bomber costing \$88,500; the other is a hospital ship costing \$125,000.

Dr. Scott praised the faculty, who contributed \$60,000 of the campus total, and students, whose sales amounted to over \$146,000. All campus organizations participated in this drive. Special merit goes to KEA, Eagles and Anchors, and the War Board, the organizations who had charge of the sales.

New Member on Board of Curators

Mr. Elton L. Marshall, an attorney with the Watson, Ess, Groner, Barnett & Whittaker Firm in Kansas City, Missouri, has been appointed to the Board of Curators of the University, replacing Mrs. Henry J. Haskell, also of Kansas City. Mr. Marshall will serve until the expiration of this term, January 1, 1947.

Judge Otis Dies

JUDGE MERRILL E. OTIS, A.B. '06, A.M. and LL.B. '10, LL.D. '41, of the federal district court died on December 23, 1944, at Menorah Hospital of complications following a heart attack. The 60-year old jurist entered the hospital Nov. 1. Judge Otis had been a federal judge since April 25, 1925, having been appointed by President Coolidge.

As a boy he attended school at Hopkins and Maryville, Mo., then entered the University. His first law practice was in St. Joseph as a partner of Louis V. Stigall. He was an active Republican and in 1914, as that party's nominee for representative in Congress from the Fourth district, he was defeated. He served as assistant city counselor of St. Joseph in 1915 and as assistant prosecuting attorney of Buchanan County in 1917-1918. From 1921 to 1923 he was first assistant attorney general of Missouri.

Judge Otis had become a state figure when he served as chairman of the Missouri Public Service commission. Later he became assistant to the solicitor general of the United States.

Surviving are his wife, a daughter, and two grandsons.

Missing or Dead

"He who loathes war, and will do everything in his power to avert it, but who will, in the last extremity, encounter its perils, from love of country and of home . . . who is willing to sacrifice himself and all that is dear to him in life, to promote the well-being of his fellowmen, will ever receive a worthy homage."

Dead

SGT. RAYMOND T. MURPHY, f. s. '41, was killed in action in Germany, December 3. Overseas since September, he had been in combat in Germany for five or six weeks. Sgt. Murphy was serving with the 415th Infantry, attached to Allen's famous Timber Wolves.

Born in Timber Lake, S. D., Sgt. Murphy moved to Columbia with his parents in the fall of 1941 to attend the University after completing one year of work at the Rapid City School of Mines. He was inducted into Service Aug. 29, 1942.

Sgt. Murphy was first trained in artillery at Camp Selby, Miss., the Universities of Alabama and Louisiana, and then was transferred to the infantry at Camp Carson, Colo. From there he left for overseas duty.

Sgt. Murphy's wife, Mrs. Lou Evans Murphy, is now taking graduate work in the library school of State University of Louisiana. He is also survived by a sister, MAXINE MURPHY, a senior in the University.

PVT. AL HOLMAN, f. s. '43, was killed in action November 22, in France. On Dec. 9, he had been reported missing. Pvt. Holman, who had been overseas only 17 days, was in Gen. Patton's Third Army, in the 318th regiment, of the 80th Infantry Division, one of those which rushed to the relief of the beleaguered American units at Bastogne, Belgium.

Entering the armed services in late December a year ago, Pvt. Holman was stationed at Jecerson Barracks; Camp Fannin, Texas; Camp Campbell, Kentucky; Camp Van Doren, Miss.; and Ft. Meade, Maryland.

PVT. DONALD FOREST EWING, f. s. '42, died in Belgium November 10, of wounds received as a result of a vehicle accident. Pvt. Ewing served in the Signal Corps.

ENSIGN JAMES EDWIN DAVIS, B.S. in B.A. '43, has been reported killed in action in the South Pacific area.

Shortly after graduation he was called to active duty under the V-7 program of the Naval Reserve. Ens. Davis received his commission at Columbia University late in '43 and had been on duty in the South Pacific for almost a year. His sister, **MARY MARGARET DAVIS**, is a senior in the College of Arts and Science.

Missing

LT. WOODROW CORNELISON, f. s. '40, has been reported missing in action over Germany since Nov. 30. He was first pilot on a B-17 bomber. Prior to his enlistment, Lt. Cornelison was employed by the Consolidated Aircraft Corporation. His wife, the former Miss Betty Ann Searcy, is making her home in Columbia.

CAPT. LINDEN O. BRICKER, f. s. '39-'40, pilot of a B-20 bomber, has been reported missing in the Central Pacific area since Dec. 18 while on his way to his station. In 1941 he received his lieutenantcy at Randolph Field, Texas, and was promoted to captain just before he left this country. Capt. Bricker's wife and 10-month old daughter, Gay Chyrl, have been living in Columbia where Mrs. Bricker is a student at Stephens College.

S/SGT. PAUL S. FINOT, f. s. '40, AAC, who was tail gunner on a B-17 based with the 8th Air Force in England, has been missing in action since Nov. 5, 1944. He had been awarded the Air Medal and presidential citation.

Prisoners of War

LT. ARTEMON P. JOHNSTON, navigator on a Flying Fortress which was shot down over Germany Sept. 30, is now a prisoner of the German government.

Relatives of **CAPT. ARTHUR E. STRANG**, B.J. '34, who has been a prisoner of the Japanese since April '42, received a letter from him Dec. 23, written from the prisoner of war camp Zentsuji, on Shikoku Island.

Japanese prisoners of war were permitted to write one extra letter the contents to pertain to business matters. Capt. Strang's letter concerned his newspaper interests at Bunker Hill, Ill. The letter conveyed the impression that his health was good and that he hoped to be home soon. His last previous letter was received in August.

SGT. BOB HARRIS' parents received word from him Dec. 24th, their first communication from him since September 1st. Sgt. Harris, f. s. '41-'42, a gunner in the Army Air Forces, was reported as a prisoner of war in Germany June 30, 1944, previously reported as missing in action since April

4th. The letter was written on the regular form which the Germans provide for such correspondence and apparently came directly from the German camp.

Joe Simpich Dies At New Orleans

Joe Simpich, B.J. '25, veteran of the first World War and an active leader in establishing the War Memorial Fund for the Tower, died Dec. 31 in New Orleans.

Mr. Simpich went into the last World War in 1917 with the 138th Infantry of the 35th Division. He was wounded four times and captured by the Germans. It took him a dozen hospitals, four operations, and what little remaining of his right leg after the "Argonne Drive" to get him back to his home in New Franklin, Mo., three years later. He returned to school again in 1920 in spite of these serious handicaps.

After leaving the University he worked for the Globe Democrat in St. Louis for several years. In 1937, Mr. Simpich went to New Orleans where he worked as a copyreader on the Times-Picayune.

Burial was in the Arlington National Cemetery.

R. W. Brown Dies In Jefferson City

R. W. Brown, who retired in November after 19 years as president of the Missouri Farm Bureau Federation, died at his home in Jefferson City Dec. 20.

Mr. Brown was a delegate to the recent Constitutional Convention. He was director of the Farm Credit administration at St. Louis from 1934 to 1940 and was president of the American Royal Live Stock show at Kansas City in 1910.

Born in Australia, he was brought to the United States when a child and attended rural schools in Missouri. In 1894-96 he was a student of the University. Mr. Brown was a veteran of the Spanish-American War.

Surviving are his wife, two sisters, and a brother.

Funeral services were held at Carrollton, Mo., his former home.

Mrs. Emma Ganson Bequests \$5000 to University

The late Mrs. Emma S. Ganson, of Montgomery City, and formerly of Kansas City, who died November 22nd, left among her bequests \$5000 to the University of Missouri. The fund, in memory of her son, **STEVENS GANSON**, LL.B. '00, A.B. '01, attorney, will be used to help students in need of financial assistance. Under the terms of the bequest, the Board of Curators will select the students eligible for aid.

IN THE BENGAL'S LAIR

BASKETBALL SEASON OPENED

Coach George Edwards' 19th Missouri basketball team looked smooth part of the time but ragged at others as it opened the season Dec. 15th with a 40-26 victory over Westminster's Blue Jays at Fulton.

Missouri scoring honors were divided between forward Earl Stiegemeier and guards Paul Collins and Gene Kurash. Each made eight points. High man with nine was Capt. George Wrape of Westminster.

Edwards, who put everyone but the injured Bill Dellastatious into the game, said the Blue Jay team wasn't up to the 1943-44 outfit which was nosed out 30-28 by the Tigers.

The Tigers committed 13 fouls, on which the Jays capitalized for 10 points.

Gene Kurash put the Bengals out in front during the first minute of play when he scored two free throws. They were the only charity shots Missouri scored.

In the next minute Jack Painter came back to score a free throw for Westminster on Heinsohn's foul. A goal by Miller and another free throw put the Jays ahead, but Stiegemeier roared back with two goals, and the Tigers were in front 6-4. The teams battled on even terms throughout the first 20 minutes.

Midway through the quarter, Heinsohn was relieved by Mickelson, and the big freshman center scored two quick setups.

In the last two minutes of the half, Collins arched a one-handed shot from the right side of the court to break a 14-14 tie. A foul by Kurash gave Miller another free shot and he reduced the Tiger lead to one point. In 20 seconds, Wrape scored to put the Jays ahead.

In the meantime, Edwards had substituted John Heimbürger and Skip Schrader at the forwards and put Dale Freeman in Gene Kurash's guard spot. As the half-time buzzer blew, Schrader's long shot arched through. Umpires Jack Tamblin called it good.

The starting team, which had a chance to size up its opponent in the closing minutes of a badly played half came back strong early in the second period.

A long set shot by Kurash put the

Bengals three points ahead, but Miller scored another free throw. However, the lead was hiked to ten points as Stiegemeier, Heinsohn, Kurash, and Red Weir came through with successive baskets.

Edwards took his first-stringers out again and replaced them with the secondary. For the first time in the game, Collins was relieved by Ozzie Sherman.

The two teams exchanged points on two Jay charity shots and Heimbürger's goal.

Wrape and Milt Parks, Westminster's only civilian cager, scored goals that put the Jays within six points of the Tigers, and Edwards threw back his first team.

Collins scored twice, Heinsohn and Kurash once each as Missouri hiked its lead to 14 points. Then in the last 20 seconds, Edwards put Lane Bauer and Leonard Brown at forwards, Jim White at center, and Mike Walsh at a guard. In the last five seconds, Walsh arched a long shot to make the score 40-26.

J. O. "Smoky" Keller of Missouri was the referee.

TIGERS WIN SECOND

Speed and a sharp scoring eye were the main weapons used by the Missouri cagers December 18, at Brewer Field House as they inaugurated their home season by topping Westminster, 50-35, before a crowd of 500. It was the second win over the Blue Jays in four days.

Coach George Edwards pulled a last minute switch in the lineup and sent his short guard, Gene Kurash, up to forward. At the same time, Earl Stiegemeier was moved from forward to guard.

Edwards had considered this move after more defensive balance with Stiegemeiers six feet plus in the safety zone. It would also give Kurash more cracks at the basket. The move paid dividends as the five foot, eight inch Kurash came through as high score man with 11 points. Eight of them came in a four-minute span midway in the second half.

Paul Collins, temporary captain, scored eight points, while guard Johnny Miller paced the Jays with ten. George Wrape who topped all scoring in the Dec. 15th game, was held to one point.

The Tiger coach subbed freely again in this game, using three complete teams. The first-stringers saw action only 18 minutes, with the third-string playing half of the second period.

Collins put Missouri out in front in the first minute of the game with a charity shot. A few seconds later he scored a set-up to give the Tigers a three-point lead. The Jays came back to tie it quickly as Miller made good on a free throw resulting from Bob Heinsohn's foul, and Jack Painter scored.

Collins came back for the Tigers and made good on three more free throws within a minute's time to give his team a 6-3 lead; but a one-handed arched-shot by Miller of the Jays made it 6-5.

Red Weir, Stiegemeier, and Heinsohn tallied to make the score 12-5, and the Tigers were never threatened again.

After seven minutes of playing time, Edwards tried another experiment and put Ed Mickelson in at forward in place of Weir. This gave the Tigers their greatest first-string height ad-

vantage, with two centers as well as 6 feet, 1 Stiegemeier on the floor.

Mickelson moved back to center midway through the period as John Heimburger and Skip Schrader took over at forwards, with Ozzie Sherman and Dale Freeman at the guard posts.

Of the secondary, Heimburger shone with three goals and six points during his eight minutes in the half. Mickelson made good on two set-ups. The score at halftime was 31-19.

Both teams threw their starting lineups back onto the floor to open the second half, and the game went on even terms until Kurash began hitting midway in the period.

The Jays rang up three points quickly, on Wrape's free throw and Miller's set shot. Heinsohn came back with a goal for the Tigers, but this was matched by a score by the Westminster center, Gay Dowis.

Collins made a set-up good for Miz-zou, then Painter scored on a charity shot. This was followed by the first of Kurash's four quick scores.

Following Kurash's last goal, Weir made one, and Edwards threw in his third team which had Leonard Brown and Lane Bauer at forwards; Jim White at center; and Gerald Patterson and Mike Walsh at guards. The score was then 45-28.

The score was 47-33 before the Tiger second team came in to play the last two minutes. Freeman made good on a long shot and a free throw but Miller scored two free throws for the Jays.

Coach E. F. Kimbrell of Westminster brought only ten men to Columbia for the game, and all of them saw action.

The Tigers again were a little too eager to get their hands on the ball, amassing 18 fouls. Three of them could be attributed to football tactics, and were called on blocking for the shooter.

TIGERS TAKE JAYHAWKS 48-39

Missouri's surprising and fast improving basketball team wrapped up its contribution to Coach George Edwards' Christmas stocking in Kansas City Dec. 23 by walloping Phog Allen and his Kansas Jayhawks, 49-39.

Against the Jayhawks, two factors were outstanding. The Tigers came through with a consistent scorer, and what is probably more important, they found someone who could and did stop Charlie Moffett, Kansas ace who only the night before had scored 25 points against Kansas State.

It was Gene Kurash, who holds two letters from Rockhurst College, who gave the Bengals their scoring punch against Kansas. Playing once more in his home town, Kurash accounted for eight field goals for a 16-point total.

Paul Collins, Missouri captain, and all Big Six guard last year, held the high scoring Moffett in complete submission as he allowed the Kansas flash only one field goal for two points. Collins himself accounted for nine of the Tiger points.

The Tigers had moved into a nine point lead, 25-16, at the half and maintained the lead throughout the second half.

K. U. AT COLUMBIA

Phog Allens Kansas Jayhawks didn't have one of their "hot" nights as the Big Six basketball season opened at Brewer Field House January 5, but they played less sloppy ball than the Missouri Tigers and "muddled through" with a 45-28 win.

The final gap could have been larger. Many times Jayhawks would make the Tiger defense look pale and dribble in for set-ups, which missed. On long, set shots, Kansas was best.

The Kansas team's lone civilian starter, sophomore Charley Moffett, who developed asthma in the Army, was again high score man with 11 points. His teammate, Kirk Scott, a V-12 naval cadet, was close behind with ten. Gen Kurash again topped the Tigers with nine.

Allen revealed some interesting strategy in starting his shortest man, Dean Corder, at center. The 5 foot, 10 inch Corder lost both tip-offs to Missouri, but throughout the game Kansas controlled the rebounds both on offense and defense, since their tallest men were playing close to the baskets.

The most sparkling factors of the game were the Kansas defensive play and the performance of rookie Dale Freeman for the Bengals.

A close man-to-man protection of the Kansas goal didn't allow the Tigers to execute any plays under the basket. They scored only one field goal in the first 16 minutes, that on a long set shot by Gene Kurash in the ninth minute. Throughout the fray, they made only eight baskets.

Freeman played about 20 minutes, replacing Earl Stiegemeier. Although he scored only one basket and committed three fouls, the 17-year-old freshman guard from Mansfield was the best floorman on either quintet. He may be the man to move into the starting lineup when Collins is graduated in February.

The Bengals, in close guarding and attempting to gain control of the ball, committed 24 personal fouls. Stiegemeier and Collins fouled out with five each. The Jayhawks took advantage of charity shots for 17 points.

Heinsohn won the tip-off and the Tigers took the ball into K. U. territory as the game started, but a bad pass handed the Jayhawks the ball, and Corder scored a long goal in the last minute.

Paul Collins scored on a charity shot, but Gordon Reynolds countered with another basket. Two more free throws by Collins narrowed the margin to 4-3, but Reynolds scored again before the Tiger captain made good on another charity try.

Moffett sank a free throw, and Scott

hit a long set shot before Kurash came through with the first Missouri goal.

Scott's basket was unusual as it was awarded on the first Tiger infraction of the rules this season. Heinsohn leaped up and retarded the course of the basket. Touching a slot before it hits the basket was outlawed last March.

Owen Peck's goal and free throw, a charity shot by Reynolds, and another basket by Scott put Kansas out in front 15-6. The Bengals didn't hit any goals until the last four minutes of the period, when Freeman, Mickelson, and Collins came through. The half-time score was 22-13.

Coach George Edwards' pep talk at intermission had a short-lived effect. Kurash made good on a free throw, and Mickelson broke close to the basket to lop a one-handed shot, but Corder came back with two quick ones for K. U.

Mickelson tallied on two free throws but Herb Heim and Moffett countered with goals, followed by free throws by Scott and Corder.

The Kansas coach used only one sub, Owen Peck at center, before the final two minutes of play when he threw the other four members of his traveling squad into the game.

LOOKING AHEAD

UN**TIL VICTORY** is won, Missouri Pacific Lines will devote all their efforts to meeting the tremendous transportation needs of a nation at war. They are looking ahead, however, to the opportunities and challenges of peacetime service.

As an aid to more efficient and effective planning for the future, a Missouri Pacific Research Bureau was recently established to study the railroad's economic and technical problems and to direct its continuing efforts to discover and develop new and improved equipment, facilities and service.

Research is, of course, not new on the Missouri Pacific Lines. It has preceded every

step in this railroad's progress and expansion for more than 90 years. Nor does the creation of a central research organization shift from any other railroader responsibility for seeking new and better ways to serve Missouri Pacific patrons. The task will always require the knowledge, experience and imagination of every employe.

But this new Research Bureau is another evidence of the Missouri Pacific Lines' determination to find and provide the kind of transportation that travelers and shippers will need and want in the future. They invite and will appreciate your cooperation and suggestions.
