## FOREWORD

The emphasis placed upon pictures and their use in newspapers and magazines in the program of the thirty-fifth annual Journalism Week is merely a sign of the times. The School of Journalism has long offered work in press photography and photoengraving. The development of that work in answer to the increasing journalistic emphasis upon pictures seemed to call this year for the Fifty-Print Exhibition, and that, in turn, for the present Bulletin. Students will be especially interested in the data which Mr. Edom has collected from the exhibitors concerning the cameras, films, and conditions of exposure of each photograph.

For nearly a hundred years now, there have been occasional critics to ask, "Hasn't this business of illustration gone far enough?" Some asked it when *Harper's New Monthly Magazine* came out in 1850 with what then seemed "copious" illustration. They asked it when newspapers began to try "full" illustration in the late sixties and the seventies. They really got steamed up over it when halftones were adapted to the use of perfecting presses in the early nineties. But nobody knew what really "copious" illustration of news was until the developments of recent years. Now when the familiar question is asked, the shrewd journalist must reply, "It can never go far enough until photography is perfect, engraving is perfect, press-work is perfect, editing is perfect." Today it is less a matter of how many than how good. Perfection is a goal that makes us all humble, but it is the only goal for the ambitious and the sincere.

FRANK LUTHER MOTT,  
Dean

# An All-American Exhibition

The First Annual Fifty-Print Exhibition was conceived with a three-fold purpose: to pay tribute to those press photographers and newspapers which, despite tremendous war-time difficulties, are doing a splendid job; to provide an opportunity for photographers of the nation to meet in open competition; and to compile and preserve, as a result of this contest, a collection of the best in current, home-front press pictures.

Grateful for the cooperation of all of those who have had a part in this First Annual show, the sponsors feel these objectives have been attained. One year or ten years from now, a person interested in news photography will be able to learn something of the style and of the techniques of the photographer of 1943-44, by referring to the School of Journalism's First Annual Fifty-Print Exhibition, the collection appearing in this Bulletin. Even if one is not particularly interested in photographic techniques as revealed in the data, he may yet find this Bulletin of value and of interest, for here he can catch a glimpse of the 1943-44 American scene as it unfolds itself in the pictures on the following pages.

Begun without fanfare, the Fifty-Print Exhibition early assumed All-American proportions. By closing date, April 30, 1944, 223 prints, the work of sixty photographers, representing thirty-four newspapers from eighteen states, had been received.

## Behind the Scenes at the Show

Responsibility of judging the prints was vested in the capable hands of John Field, associate editor, *Life*; George Yates, photo chief of the *Des Moines Register*; and Julius Klyman, editor of "Pictures," *St. Louis Post-Dispatch*. Grouped about the lighted black box in which each of the entries was displayed, their task was to select twenty-five of the best news and feature prints. Could they agree? Astonishingly well!

The first five news pictures included: the now famous Avery ejection, the amazing St. Louis glider crash in which ten persons were killed, firemen racing to escape a falling wall, a couple embracing in tragic bewilderment after their son was burned to death, and a sports picture portraying an intense moment in a boxing match. Among the other twenty news pictures, one could be classified as having "child appeal," six were of "persons in the news," three, sports pictures, and four were pictures of places or objects in the news.

News entries pleased the judges better than the feature pictures, although there were twice as many prints submitted in the feature group. Only seventeen feature pictures were put aside as "in" on the first showing, and a second survey was needed to bring the number to twenty-five. The judges, however, quickly agreed on the five best feature pictures, giving first award to "Scrap Jive," a humorous, adolescent, war-time picture. "Gay Rescue," the helmeted policeman helping the girl with the inside-out umbrella, also had a humorous appeal, as did the print, "Sinatra Rapture." "Line of March," a pattern picture, was effective in the tapering row of figures which suggested a long line extending indefinitely down the street.

Among the other feature pictures, two were of scenery; two, places or objects in the news; five,

persons in the news; five, animals; two, personalities; one, the woman diver, a sports picture. All feature pictures had the needed "story value" and physical or emotional action was the dominant theme in most.

One must conclude in observing the jury at work, that it is the trained eye of the photographer which counts most. It is this trained eye which almost unconsciously makes for the effective angle, mood, or action along with the ability to do a good technical job.

True physical or emotional action is of considerable importance, too, in press photography, and can raise humble persons to equal or even greater news value than celebrated personalities.

A picture which has only aesthetic value, which has beauty only, this jury believes, is out of place as a feature. It may be justifiably published, of course, if it has won a prize or has some other newsworthy reason for being. Some pictures openly commented upon as good photography were instantly rejected because the judges believed they were not true portrayals of life.

It was evident that long experience with newspaper pictures had given the jury of selection the ability quickly and impartially to evaluate each picture as a white-gloved hand placed it on the illuminated viewing easel. Looking at each print from a distance of eight feet, it was a rare occasion when one of the judges asked for the privilege of a "close-up" inspection. Each picture, they had decided at the outset, must stand on its own feet; it must be accepted or rejected upon the photographer's ability to tell his story.

Much of the success of the First Annual Fifty-Print Exhibition is, therefore, due to John Field, Julius Klyman, and George Yates. To these three, then, and to all persons who sent in prints, we give our sincere thanks.

# The Jury of Selection

GEORGE YATES  
*Des Moines Register*

JOHN FIELD  
*Life*

JULIUS KLYMAN  
*St. Louis Post-Dispatch*

**JURY OF SELECTION:** In complete harmony with the First Annual Fifty-Print Exhibition, the Jury of Selection like the Show it judged, was truly of All-American calibre. Representing three widely-known and totally different types of publication, each of which has pioneered in its respective field of picture journalism, this Jury brought to the University of Missouri campus a wealth of experience in the picture editing field. Adding to an already outstanding Journalism Week program, the picture judges made talks Thursday afternoon, May 11, in Jay H. Neff Auditorium, preceding the judging of the pictures, which also was open to the public.

**THE AWARDS:** First place winners in the News and Feature Divisions were given plaques similar to the one pictured at right. Certificates of Merit, four in each classification, each bearing the signatures of the Judges and of the Dean of the School of Journalism were awarded the eight photographers who earned Honorable Mentions. A specially designed sticker was affixed to the mount of all fifty prints hung in the School of Journalism's First Annual Show. This set of fifty prints, direct from the originals, is reproduced in this School of Journalism Bulletin.

## The Jury at Work

**ABOVE:** Students of the School of Journalism Photography Class assist in the judging by placing each of the 223 prints in the Shadow Box for an individual showing before the Jury of Selection.

**BELOW:** Voting "in" or "out" by the turn of a card, each of the judges could concentrate his attention upon the picture conveniently before him, without concerning himself with how his neighbor voted.

**Avery Gets Bum's Rush**

**WILLIAM PAUER**  
*Copyright by*  
*Chicago Daily Times*

**FIRST AWARD**  
*News Division*

Used as cover page in the Thursday, April 27, 1944 issue, and last entry in the First Annual Fifty-Print Competition. Data: 4 x 5 Anniversary Speed Graphic, Ektar lens in Supermatic shutter. Film, Eastman Panchro-Press (Type B). This picture was made at 1/400th second using a G-E No. 5 bulb.

**Glider Crash**

*JACK ZEHRT  
Copyright by  
St. Louis Globe - Democrat*

## **HONORABLE MENTION**

*News Division*

Taken August 1, 1943, at Lambert Field near St. Louis. Ten men, including the Mayor of St. Louis, were killed in the crash. Mr. Zehrt was standing in the center of the field with two other newspaper photographers and a commercial man when the glider, 1500 feet up and about 500 feet away, came apart. Data: 4 x 5 Speed Graphic, F:4.5 Carl Zeiss Tessar, 13.5 cm. lens. 1/440th second at F:8 on Ansco Super Pan Press film; developed at Naval Training Station at the field.

**Race For Life**

DWIGHT BOYER  
*Erie Daily Times*

Appearing in the April 15, 1944, *Erie Daily Times*, this picture was snapped the split second the century-old Presbyterian church wall began to collapse. Warned by shouts of hundreds watching the blaze, the firemen (at left) may be seen fleeing. A second after this picture was taken, the wall fell. Data: Speed Graphic camera, Zeiss Tessar 5¼ inch lens. Dull Day: Exposure 1/100th second at F:8 on Ansco Super Pan Press. Exhibition print on Kodabromide, No. 3.

**HONORABLE MENTION**  
*News Division*

## HONORABLE MENTION

*News Division*

Lew Woods and Jake La Mota battle it out to a state of utter exhaustion. Mann used a 4x5 Speed Graphic, Super Ortho Press Film and an aperture of F:11. The shot was made in Chicago Stadium at 1/1000 second (focal plane) with 2 No. 31 bulbs.

## Endurance

DAVID MANN  
*Chicago Sun*

**Tragic Embrace**

*RALPH FROST  
Chicago Sun*

Glenn Chapman helping Mrs. Chapman from Albany Park Police Station after fire in which their son was burned to death. Mrs. Chapman's hair and foot were also burned. The picture was made October 12, 1943, with a 4 x 5 Speed Graphic, equipped with Zeiss Jena lens. The exposure: 1/200th second at F:11, using Eastman's Super Ortho Press film.

**HONORABLE MENTION**

*News Division*

**Dynamic Tackle**

*DAVID MANN  
Chicago Sun*

Football game between Northwestern University, Evanston, Ill., and the University of Texas. Data: 4 x 5 Graflex, F:3.5 at 1/600th second, using Super Ortho Press film.

Appearing in the November 5, 1943, *Watertown Daily Times*, this picture shows firemen and volunteers pouring water into flames sweeping through an apartment house. Data: 4x5 Graflex, with 6 $\frac{3}{8}$  in. Kodak Anastigmat lens. Eastman Super XX film pack, developed in D-72. Exposure, under "fair" conditions, was 1/200th at F:8. Exhibition print on Velour Black, DL4, in D-72.

## Fire

PAUL SEVERANCE  
*Watertown N.Y., Times*

Data: Camera, 3¼ x 4¼ Auto-Graflex, Super XX film. Exposure, 1/195th second at F:11. Picture taken in Panoia, Calif., from top of a partially completed sewer disposal wall.

## Army Engineers

HELEN BRUSH  
*Los Angeles Daily News*

**Thin Fingers**

**EDWARD C. MEYERS**  
*St. Louis Star - Times*

Mr. Meyers, returning to the office from another assignment, chanced to see this squirrel wire-walking. Driving to the curb, he followed the squirrel about a hundred feet before getting his one and only shot. Data: 4 x 5 Speed Graphic, Carl Zeiss Tessar, F:4.5 lens. Exposure, 1/135th second at F:11, on Eastman Super Panchro Press.

**"36 Splash"**

ALTON KASTE  
*Chicago Tribune*

Mr. Kaste was not aware he had a picture in the First Annual Fifty-Print Exhibition as apparently some member of his staff had sent it in without his knowledge. Nevertheless, he writes, "it was a pleasant surprise." Data: Picture made with Speed Graphic camera, Zeiss Tessar 13.5 lens on bright June afternoon. Shutter speed 1/500th second at F:8. Film developed in *Tribune's* own formula.

Emanuel De Angelo, son of James De Angelo, identifies his father's body at the Cook County Morgue. The body had been stuffed in the luggage compartment of a car on LaSalle street. Data: A four-foot synchronized flash, made with No. 5 Midget bulb. Lens stop, F:16 with shutter speed 1/200th second.

## Morgue Identification

JOS. KORDICK  
*Chicago Sun*

## Battalion Chief Dies

SOL DAVIS  
*Chicago Daily Times*

Buried to his neck in debris, this battalion chief, Arthur Barcal, was trapped when the floor gave way in a blaze which cost the lives of nine firemen. Data: 4 x 5 Anniversary Speed Graphic, Ektar lens with Supermatic shutter. Eastman Panchro Press (Type B) film. Speed flash, 1/200th second using G-E No. 5 bulb.

**Defense Work**

*ELMER STAAB  
Milwaukee Journal*

**Data: 4 x 5 Speed Graphic, F:4.7 Ektar lens. Exposure, "open flash", at F:32. Three extensions, using Eastman Ortho Press film.**

**"I've Lost You"**

**RUSSELL LAPP**  
*Los Angeles Examiner*

Mrs. Mary L. Jameson hugging her granddaughter in tearful farewell as the child's mother, Mrs. Mary Lou Holly, tugs at her after the Los Angeles County Superior Court had awarded custody of the girl to Mrs. Holly. Data: 4 x 5 Speed Graphic with Carl Zeiss F:3.5, 13.5 cm. lens, in Compur shutter. Exposure, 1/200th second at F:16, using G-E No. 22 bulb and Ansco Super Pan Press film.

Smoke in the distance is from the Mid-Continent Petroleum Corporation Refinery, completely obscured by fog. From KVOO studios (radio station) where this picture was taken, only the smoke and the spires of the Boston Avenue Methodist Church and Holy Family Cathedral to the south were visible. Data: 4 x 5 Speed Graphic, Kodak Ektar, F:4.7 (127 mm.) lens. Shot at 1/200th second at F:8 on Super Panchro Press type B film. No filter. Negative developed five minutes in DK 60-A.

## Fantasy of Fog

LEE GILLETTE  
Tulsa Tribune

**Rickenbacker Testifies**

F. CLYDE WILKINSON  
*Washington D. C. Times - Herald*

Eddie Rickenbacker, ace of World War I, testifies before the Senate Military Affairs Committee. Data: 3¼ x 4¼ Speed Graphic, Carl Zeiss, Jena, Tessar F:4.5 (13.5 cm.). Eastman Super Panchro Press, Type B film. Camera, five feet from subject. Stop, F:16, at 1/200th second. Film developed four minutes in D-72, at 70 degrees. Printed on Velox paper.

**Fugitive**

**FELIX PAEGEL**  
*Los Angeles Examiner*

Mrs. Nellie Proctor prays for the release of Charles Proctor, who for twenty-three years had not disclosed to her that he was an escaped convict. Arrested June 2, 1943, Proctor faced extradition to Indiana when this picture was taken in the Los Angeles County jail. Data: 4 x 5 Anniversary Speed Graphic, Carl Zeiss 13.5 cm. lens in Compur. Flash shot, 1/200th second at F:11, using G-E lamp No. 22, and Ansco Super Pan Press film

As though fire itself weren't enemy enough, firemen battling a 5-11 fire which wrecked four war plants, found an equally treacherous foe in the 5 below zero setting which buttoned a brittle ice coat over equipment, and anchored hoses to the ground. Data: 4 x 5 Anniversary Speed Graphic. Ektar lens in Supermatic shutter. Eastman Panchro Press Type B film. Exposure: Five seconds at F:8, using flash powder.

## Pity The Poor Fireman

MICHAEL RITO  
*Chicago Daily Times*

**Lem Franklin KO'd**

*WILLIAM STURM  
Chicago Sun*

**Data: 4 x 5 Speed Graphic, Ektar lens stopped to F:8. Super Ortho Press film. Exposure, 1/1000th second using two No. 31 G-E bulbs.**

**U. S. S. Wisconsin**

*ROBERT H. DUMKE*  
*Milwaukee Journal*

Data: 4 x 5 Speed Graphic, 7¼ inch Wollensak Velostigmat  
F:4.5 lens. Exposure, 1/90th second at F:16, using Eastman  
Super Film Pack.

Jack Porter, who tripped over last barrier while leading the race, crawled toward the finish line to earn second place in high hurdles event at Patterson Field, Occidental College, California. Data: 4 x 5 old model Speed Graphic, with Zeiss F:3.5, 13.5 cm. lens in Compur. Exposure 1/1000th at F:8, in sunlight. Ansco Super Pan Press film.

## Favorite Falls

HAL JENSEN  
*Los Angeles Examiner*

## Scoop

SAMUEL SANSONE

Copyright by  
Los Angeles Examiner

Charlie Chaplin slips wedding band on Oona O'Neill's finger as Justice of the Peace looks on. This photograph was printed in the *Examiner* June 17, 1943. Data: 4 x 5 Anniversary Speed Graphic, Ektar F:4.7, 127 mm. lens. Super Pan Press film. Exposure: 1/100th second at F:11, using G-E No. 11 lamp with some diffused daylight.

## One for the Maroons

MICHAEL RITO  
*Chicago Daily Times*

Charles Hlad, University of Chicago, breasts tape to win the 100-yard dash in a Big Ten Red Cross benefit athletic carnival at Northwestern's Dyche Stadium. Data: 4 x 5 Anniversary Speed Graphic. Ektar lens in Supermatic shutter. Panchro Press, Type B film. Exposure: Outdoors, 1/400th second at F:11.

Taken during the Firemen's Rodeo and Thrill Show last fall when, "The Man Who Hangs Himself and Lives to Tell the Tale," was killed. Data: 4 x 5 Speed Graphic with Sol Heiland synchronizer, using a No. 22 bulb at 1/100th second. The lens opening was F:5.6. Super Pan Press film.

## Death on High

MARIO CAVAGNARO  
*St. Louis Star - Times*

## Emergency 'Chute Saves a Life

A. AUBREY BODINE  
*Baltimore Sun*

The parachute jump was made during maneuvers in North Carolina. This was the first time a full division was moved by glider, but at that time the *Sun* was not permitted to mention the leap was from a glider. When Mr. Bodine saw the man was in trouble, he followed him. Data: 4 x 5 Graflex with 18-inch telephoto lens and K-2 filter. Film, Eastman Super Panchro Press, developed in Harvey's 777. Exhibition print on Opal G, blue toned.

Scrap Jive

DAVID MANN  
*Chicago Sun*

## FIRST AWARD

### *Feature Division*

In a paper drive at Chicago's Harrison High School, a jitterbug contest was held to increase collections. Eight couples entered the "jive" competition. The winning couple is dancing among stacks of paper which had been collected. Data: 4 x 5 Speed Graphic, with Ektar F:4.7 lens. Super Ortho Press film, two No. 31 bulbs. Exposure, 1/1000th second, using focal plane.

**HONORABLE MENTION**
