THE MISSOURI ALUMNUS is published monthly except July, August and January by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council.

About the cover: "Quartet of Musicians" is a ceramic sculpture by Robert F. Bussabarger, assistant professor of art at the University. Arthur B. Pine's article on the teaching philosophy of Professor Bussabarger begins on page 2. Photographs by Lee Battaglia.

MISSOURI ALUMNUS

NOVEMBER 1960
VOL. XLIX, NO. 3

The University and football

After Missouri's Tigers defeated Oklahoma's Sooners at Norman, some students urged that the entire University be granted a special holiday to celebrate. President Elmer Ellis, declaring that such an action "would be a very poor and unworthy recognition of our team," issued the following excellent statement:

"It has been called to my attention that some of the students are asking for a 'stop day' as a means of recognizing the fine job our football team has done this year.

"If this team represented some type of organization other than an institution of higher learning, it might be that such a holiday would be in order. But this team represents the University of Missouri.

"It is characteristic of a good university that it maintains a calendar that is published, serving as a contract with students and their parents, and with prospective employers, and giving a guarantee of the amount and quality of instruction. Universities that take their responsibilities seriously do not invade the teaching program set forth in the calendar except for the gravest reasons: epidemic, widespread disaster, or some other compelling force.

"In such circumstances, quite clearly, a holiday taking us away from our main purpose would be a very poor and unworthy recognition of our team. The University of Missouri has no 'stop days' and has had none for a half century since it became a real university.

"These are times when all citizens, and especially those being trained for positions of leadership, should see higher education as one of the chief bulwarks of our survival in an anxious world. Our universities are being asked to adopt accelerated programs, to study carefully the ways in which our physical plants may be more efficiently used, and to improve and speed up our programs in all possible ways. The whole idea of a 'stop day' runs counter to the spirit and the crying needs of this generation.

"The idea, moreover, does not commend itself upon rational inspection under any circumstances. What honor is it to a squad, which has been forced to miss many of its regular classes because of the playing schedule, to turn 11,000 students loose from classes for a day? Logically, this only makes the players' task more difficult.

"Nor does the University look with favor upon concerted and unauthorized action by students to stay away from classes. Over fifty years ago, the University faculty adopted a rule, still in force, which authorizes the assessing of negative hours up to a total of six hours upon all students who miss classes as a part of such concerted action. Only once in the last thirty years has it been necessary to assess such penalties.

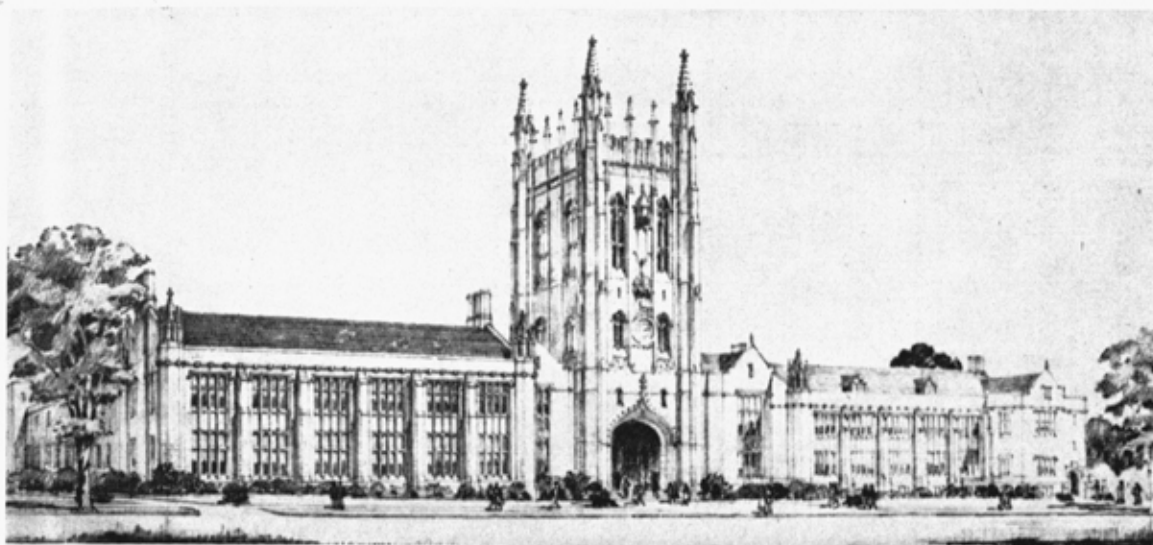

"The officers of the University are rightly proud of this football team and commend it for a magnificent season. But if we did not maintain the University as a sound academic institution where educational values come first, I do not think that they and many of their fellow students would want to attend this institution at all.

"Intercollegiate competition is a fine thing that adds real values to our system of higher education. But a university is a center of learning, and must always keep its eyes on its main purpose—the quest for knowledge."

At the annual football banquet sponsored by the 33rd Degree Fans of Columbia, President Ellis made these additional remarks:

"Intercollegiate athletics have always been a problem for university administrations and faculties. So much emotion is involved in winning or losing that often common sense is lost in any consideration of these matters. So you find coaching staffs under tremendous pressure to win even to the extent of abusing their players. On the other hand you

As the Memorial Student Union Building will appear when a south wing is added. Also planned is a Student Union Annex on the Mall.

University plans south wing to Student Union

The University is planning to construct the south wing of the Memorial Student Union Building in the near future. President Elmer Ellis said the three-story addition will conform to the architectural design of the north wing which was added to Memorial Tower in the early 1950s, and will provide facilities for some of the student activities still housed in other buildings on the University campus. The project will also include some remodeling and renovation of the food service facilities in the present Union Building.

If present plans materialize, there will also be a two-story Student Union Annex constructed on the Mall at Rollins St., to house additional all-student activities and to provide for the expected enrollment increase of the years immediately ahead.

President Ellis said the U. S. Housing and Home Finance Agency has approved the preliminary plans for the construction to the extent that it has made reservations of \$1,800,000 for a loan to the University to help finance the construction.

Architects for the project estimate the entire project will cost approximately \$2,605,000. In addition to the loan from the Federal government, the University would also issue general revenue bonds of \$600,000 for sale on the open market, and would provide about \$205,000 from non-appropriated University funds to complete the financing. The costs would be repaid with income from operation of the Student Union and with Student Union fees paid by students. No state-appropriated funds would be used.

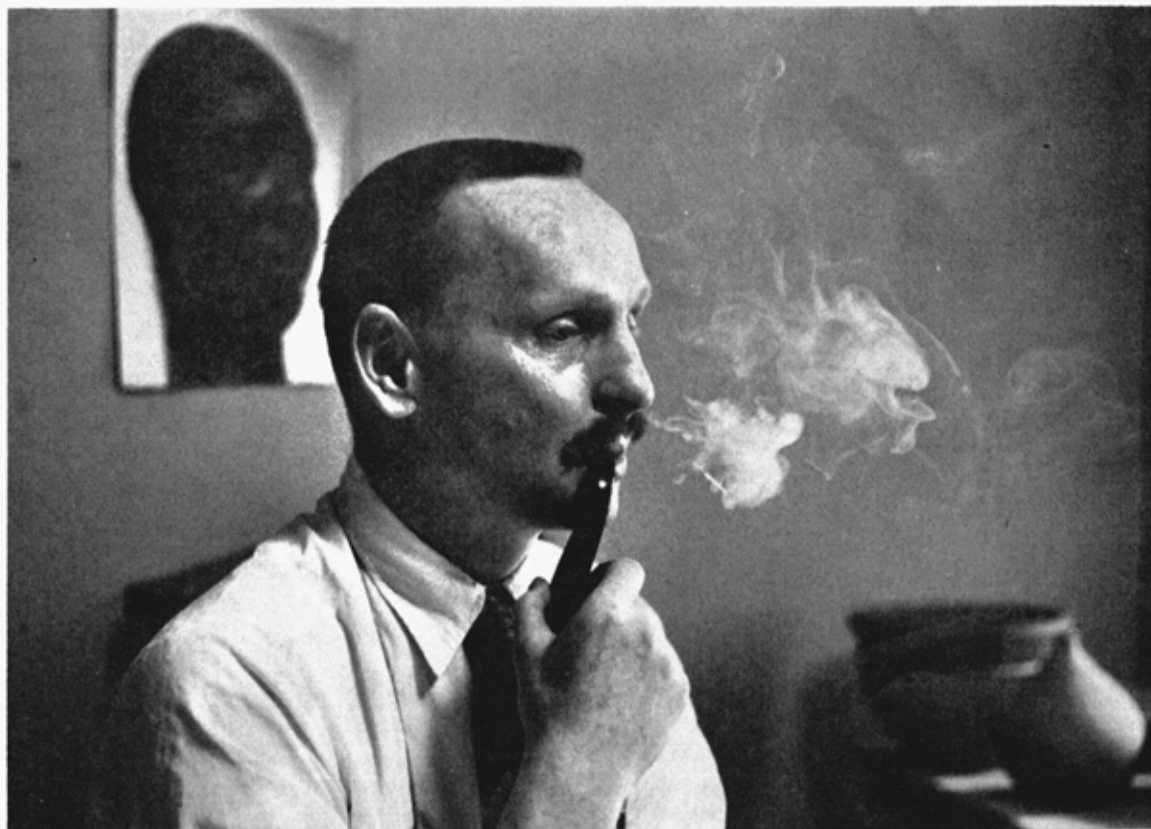

According to the architect's present plans, the new south wing will be three stories above the ground floor; its first floor will include a 240-seat auditorium at the south end. The exterior walls will be of

native limestone rubble with Indiana limestone trim to match the north wing. The A. P. Green Chapel will be adjoined to the new wing as was planned when it was built two years ago. Overall dimensions of the new wing to the Student Union will contain more than 33,000 square feet of floor space.

The proposed Student Union Annex will be a building of approximately 112 x 192 feet, with approximately 57,330 square feet of floor space. It will have two stories above the ground floor. The first floor of the annex will include administrative offices of the Student Union, and the University Book Store. The ground floor will have a 16-lane bowling alley and a billiard room. It is planned to advertise for bids for construction of the buildings as soon as architects' final plans and specifications are approved by the Board of Curators.

More hospital beds available

Dean Vernon E. Wilson of the University's School of Medicine announced that 56 beds in the east end of the sixth floor of the University Teaching Hospital would be made available for patient occupancy during November. The Hospital now has 318 beds available, including the psychiatric ward; those to be added this month will bring the total to 374 beds. Dean Wilson said the present Hospital schedule calls for bringing the Hospital to its full 441-bed capacity early in January. When the Hospital opened four years ago, 113 beds were available.

Professor Robert F. Bussabarger: "I'm not trying to teach a set of rules or methods so much as a spirit of doing things."

Photos by Battaglia

Bussabarger and ceramic art

By Arthur B. Pine

If you can give students a purpose, says Prof. Robert F. Bussabarger, they'll go to great lengths to do their best—but you have to create for them a need to learn.

Each morning, while his ceramic art classes look on, Bussabarger dons a clay-stained apron, puts his hands on a spinning potter's wheel and tries to create both a purpose and enthusiasm. By the time the next class bell rings, his students have been molded by correct fundamentals, fired with enthusiasm and glazed with plans for their next projects. And, above all, almost all of them have an honest desire to learn.

Making education the student's own job is part of Bussabarger's personal idea of teaching: "I'm not trying to teach a set of rules or methods so much as a spirit of doing things," he says. "Students need a feeling for what they're doing. Many of them learn nothing but superficial aspects of art. But the only way to learn art is to feel it."

"I try to convey that spirit to them on a person-to-person basis," he says. "In another division of the

University, you can take a test—either you know the material or you don't. But in the art department, we're working with the individual person. A student will follow you only superficially if he has no purpose. In the beginning, he needs that more than all the proficiency in the world."

Bussabarger carries both his enthusiasm and his proficiency beyond the classroom. Winner of several prizes for his ceramic exhibits, he has just received a \$50 merit award in sculpture for his work, "Warriors," recently shown at the Springfield, Mo., Art Gallery. He also has won prizes in painting: for oils, in St. Louis, and for water-colors, in San Antonio, Tex. Both Stephens College and the Wichita Art Association have purchased his sculptures. And his paintings hang proudly in the homes of some of his most fervent supporters: his friends and colleagues in Columbia.

To his friends and students, Bussabarger is a short, rusty-haired man with a bright reddish moustache and blue eyes that seem to be sculpted into a permanent warmth.

(continued on page 3)

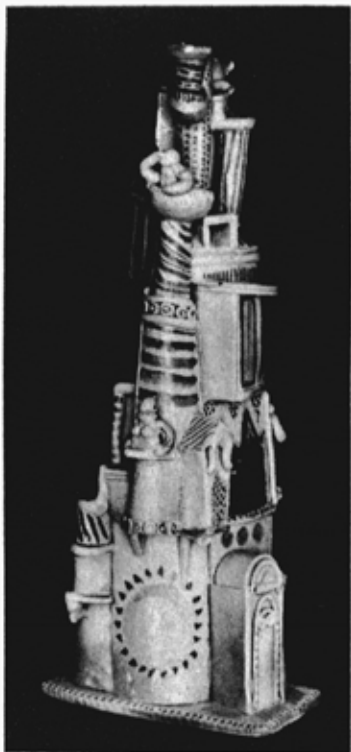

Bussabarger *continued*

Bussabarger wears the moustache—an object of controversy among his students—for two reasons: “First,” he says, “it’s for color. Because my face is so pale, I’ve often heard that it’s hard to see me from a distance. Then, I wear it to avoid looking too much like a student. I chaperoned a dance here once and had a hard time convincing the housemother I was on the faculty.”

The same reddish color that stands out so well on Bussabarger covers his office and classroom, in another form: dust from the clay he uses for pottery. A sink, several magazines, a desk and chair, an old discarded tuba that Bussabarger plans to use as a model for a still-life, and rows of tables with potter’s wheels all are coated lightly with clay dust. But the clay is evidence of people turning ideas into objects of art.

“Ideas,” Bussabarger says, “evolve in a poetic way. You can be shaving or walking or shoveling snow and all of a sudden you start thinking of something. You start with the basic idea and just go along, trying it out. Sometimes you don’t even know until you’ve finished an object exactly what you want it to be. The idea develops more as you work it out.”

An example is the idea he got for a sculpture he
continued on next page

Some of Bussabarger's ceramic sculptures include, above, a castle-like structure with a whistle (not visible in photo) on top; right, "Brass Duet," a commentary on the pomp and circumstance and militarism of brass bands, spoofed by the informality and poor posture of the figures; opposite page, a composite photo showing a knight, a Mediterranean relief, a head, a trio, and the "Quartet of Musicians" which is this month's cover picture.

did recently of a building with an actual whistle on top of it. "The whistle idea wasn't necessarily directly related to what I was first trying to do," he says. "I had an idea of building a castle-like structure, in a kind of satirical way, making fun of human beings who were conglomerated together. These human beings, I thought, would be doing things in different ways, inside of tall buildings. All of these things were to represent the fact that architecture today is a problem. To me, one of the basic problems existing today is how to insulate one's self from everyone else and yet contribute something to society.

"I added the whistle at the top as kind of a last touch. I had been fooling around with sculptured whistles and also had been working with groups of figures in clusters. These were to stand for people being bottled up together, having problems, of which architecture was one of the biggest. You may think, I guess, that the whistle almost puts a final mockery on the entire plight."

An artist, Bussabarger says, isn't conscious of his audience as much as a writer or an actor. "I don't care whether you understand the message I try to convey in something. There always will be a basic essence in the work, though, that will convey the idea to the audience. But the artist doesn't try to be understood."

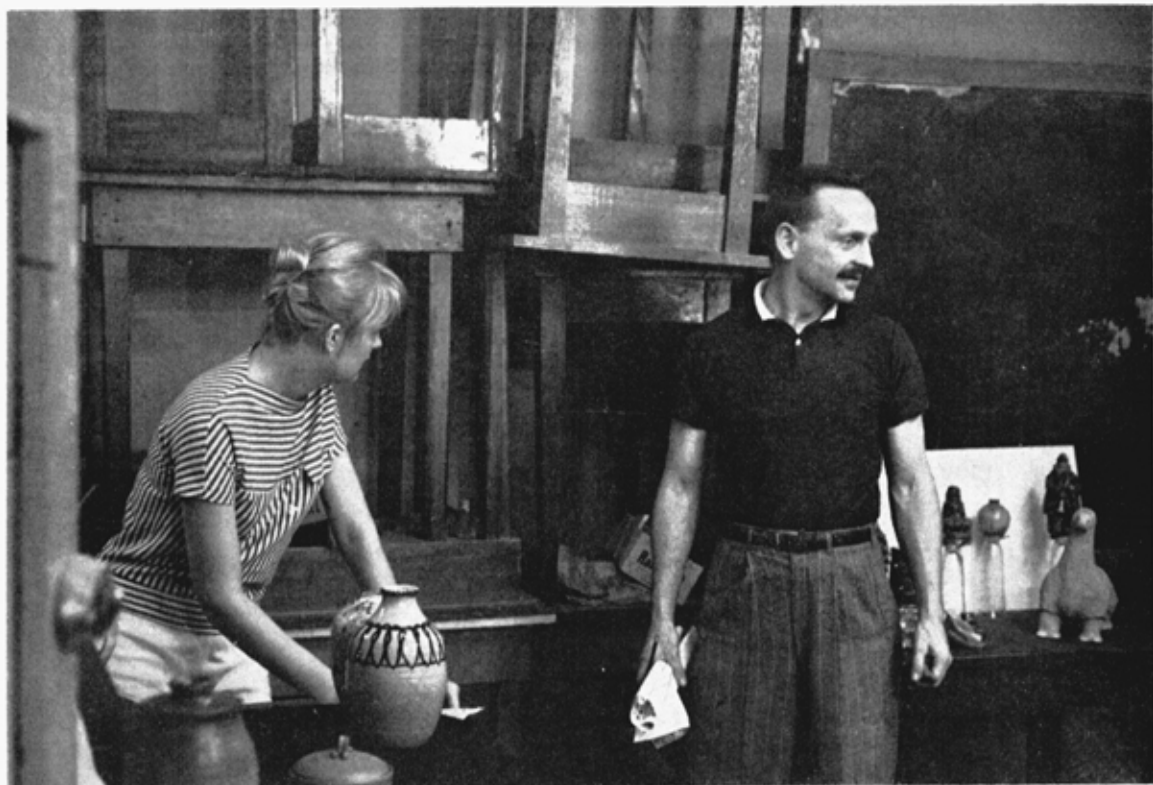

If he does not worry about his "art audience,"

Bussabarger makes a special effort to please his "home audience"—his wife, Mary, an assistant instructor in English at the University, and their children, David, 10, and Wendy, 13. Besides trying to be a good husband and father, Bussabarger is active in Columbia civic affairs. He just completed a year's term as president of the local P.T.A., is adviser to the Columbia Art League and is a "dugout participator" in the Cub Scouts, Campfire Girls, school and playground activities and family events that the Bussabargers enjoy sharing.

In their pre-Civil War Georgian home, one of the oldest in Columbia, the Bussabargers enjoy a blending of both old and new art and furniture. "Our taste is for anything we think is good," Bussabarger says. "I like complete honesty in art. Perhaps that's why I'm not too at home in commercial areas, although I guess they probably have a greater fight to be honest in business. In art, unlike in business, honesty has been so idealized. I want to be avant-garde by not being avant-garde; do you see what I mean? So many artists are concerned with superficial things. But honesty is seeing things for what they are."

Bussabarger's admiration for honesty began in his childhood. Born in Corydon, Ind., in 1922, he lived close to farm areas until he was six. As a Lutheran minister, his father traveled quite a bit, and when Bussabarger was six, his family moved to Springfield,

"Students need a feeling for what they are doing. Many of them learn nothing but superficial aspects of art. But the only way to learn art is to feel it."

Bussabarger continued

O. After further traveling, Bussabarger was graduated from Covington, O., High School, and enrolled in Wittenberg College, Springfield, O. From the beginning he knew he wanted to teach art in college. "That's the only way an artist in America can survive," he says.

As a member of the Navy V-12 college program, he was transferred to Denison University for midshipman's school. He received an A.B. in art in 1944 and was commissioned an ensign in the Naval Reserve. Aboard ship, he continued his art, making sketches of battle scenes and Navy life.

"My Navy experience was a good thing," he says. "When I got out of midshipman's school, all the discipline I learned fell apart. Life actually wasn't as spit-and-polish as they had taught us. That made me more realistic. It showed me how 'the system' permeates the atmosphere of our living—how an individual survives through all this. I'm kind of a fanatic on individualism; I conform very slowly."

In 1946 Bussabarger married Mary L. Sterling, a girl whom he had met in Chicago. Together, they moved to Michigan State College (now Michigan State University), where Bussabarger enrolled as a

graduate student. When he received his A.M. in 1948, he was an assistant instructor.

After teaching for a year at Benton Harbor, Mich., High School, Bussabarger enrolled for more graduate work, this time at Ohio University—one of the nation's leaders in ceramic art. There, he said, he first discovered and fell in love with ceramics.

From 1951 to 1953, Bussabarger taught at Stephen F. Austin State College, in Nacogdoches, Tex. In 1953, he came to the University of Missouri as an assistant professor.

"Teaching ceramics," he says, "is a good deal creating a situation. There's no real separation between what an artist creates and what he believes. That's what students must be shown."

Combining fundamentals with purpose, desire to learn and feeling, Bussabarger hunts for new ways to express ideas *with* his students, not *to* them. Someday, he says, he'd like to see pottery raised from its relatively low position in public prestige and unseat painting as the most popular form of art.

Homecoming Royalty

Miss Dusene Alee Vunovich of Kansas City, Missouri's 1960 Homecoming Queen, and her attendants, Miss Sue Brace of Hyattsville, Md. and Miss Dorothy Diane Lewis of Fulton, made a two-day tour of the state in addition to officiating at Homecoming festivities on the campus. They were guests at a dinner given by the St. Louis Alumni Club on November 16. The next day they went to Jefferson City to meet Missouri's Governor-elect John M. Dalton and to attend a luncheon given by the Cole County Alumni Club. That evening the royal visitors were guests at the dinner and pep rally given by the Kansas City Alumni Club. The Queen and her party also made television appearances in Kansas City and Columbia.

The University's residence halls system

As innkeeper to 36 per cent of the student population, the University provides living quarters for more students today than were on the campus in the early 30s.

In developing and operating a system of residence halls, the University has taken on a responsibility that is a common necessity in modern higher education; since World War II students generally have overflowed the housing available to them in educational communities.

For more than a decade the race to have enough housing space ready for incoming students each year has been a touch and go struggle. At the moment the University can claim a temporary victory, with students and housing units coming out about even this fall. But there is no time to sit back and relax. The fleeting situation is somewhat like that of an individual who finally gets all his bills paid on the first of the month; he is unable to enjoy the relief because he knows another first of the month is imminent.

There can be no letup in the housing program because the enrollment increase is shifting into high gear. By 1970 the student population at Columbia is expected to be around 17,000, which is a gain of 6,000 over the current total. For each of the past three years the University has provided housing accommodations for approximately 500 additional students, and it can be expected that at least that many new students will be looking for a place to stay next fall. If the University could start construction today

on a new residence hall, as it would like very much to do, the building could not be ready in time to provide housing for next year's increase in students.

How large is the University's present dormitory system? There are 16 residence halls for single men and women students, and 32 apartment buildings for married students, for a total of 48 permanent buildings. In all, 3,564 single students (1,543 women and 2,021 men) have been accommodated in University-operated facilities this fall, all of them in permanent halls except for 68 women and 82 men who are in temporary dormitories. (Fraternities, sororities and cooperatives housed 2,141 students.) The 360 apartments for married students are all occupied; 25 families who applied for the apartments had to seek quarters elsewhere in Columbia.

Off-campus single student housing is practically filled, too. The 416 residences on the University's approved list have accommodations for approximately 1,700 single students. On September 17 all but thirty spaces had been taken.

"To my knowledge, no one was prohibited from attending the University this year because of the housing situation," says Harold Condra, Director of Housing. "We have filled all available University-operated housing except Temporary Dormitory 4 which is being used this year by the University Hospital.

"Although we are caught up right now, we know that student housing is going to be critical for the

next ten years, and we face a shortage for the next school year. We are now trying to determine just how many additional students can be crowded into existing facilities next year."

More dormitories are planned to meet the approaching new demands, and the University is in process of launching one project as soon as possible. Condra said the University has about half a million dollars in state bond issue funds for use in new construction. Application has been made to the Federal government for a loan of \$2,100,000 which, with funds on hand, will be used to build a group of residence halls to accommodate 516 men students. Also envisioned is a new group of residence halls for both men and women, but the start on that may be at least a year off.

"Actually, we'd like to start immediately on a big project that would eventually house and feed approximately 2,000 men and women students," Condra said. "We cannot hope to put up all of the buildings at one time, but we'd start with a few residence halls and a cafeteria building designed to permit expansion as additional residence halls are added."

The residence halls, a multi-million dollar investment, are self-liquidating. Rentals are set at a rate to provide enough money to repay funds borrowed for construction, pay interest on such loans, and pay operating expenses. Married student rentals must meet similar costs.

University policy is to obtain some state appropriated funds which it can apply toward the initial cost of a dormitory. In this way the annual debt service is reduced, lowering the rental that must be charged the students. If it were possible for the University to borrow the full amount of the costs, the students could not afford to pay the rental necessary to meet the annual debt service. The housing director said this is one reason why legislative funds are urgently needed—to pay part of the costs and keep rentals within reach of the students. It is also necessary for the University to have funds to pay for the furnishings, on which government loans are not available. The University needs about one dollar for each \$3 or \$3.50 it borrows for construction.

With constructions costs and interest rates on the

Missouri and Navy in Orange Bowl

The Orange Bowl classic in Miami on January 2nd should produce the most exciting and possibly the best football in America on that big football day.

Our nationally-ranked Tigers will meet the Midshipmen of the United States Naval Academy in what promises to be a well-matched game.

Both teams made it the hard way with Navy hanging on to weather a second half Army storm, finally winning their traditional battle 17-12. The Tigers were not so fortunate in their traditional windup with Kansas. The strong Kansas defense took away the Tigers' vaunted power sweeps and won the Big Eight championship for K. U. The loss not only cost Missouri a possible mythical national championship but dropped it to the runner-up spot in the conference. In winning 23-7 the Jayhawks allowed Missouri only 61 yards rushing, compared to an average of over 270 yards up to this game. Our inability to take advantage of K. U. fumbles, our own rash of fumbles (3 lost in this game against only 8 in the other 9 games), the strain and tension riding on this big game, and the standout play of Kansas backs Hadl and Coan were all factors in the disappointing loss; but the big difference was the strong nine-man line which kept us bottled up till late in the game.

The two tough finales are behind both teams now, though, as they get ready to match their 9-1 season records and their high national rankings in the Orange Bowl. Incidentally, we expect that the Orange Bowl Committee and the Miami press will be a little happier with the Big Eight agreement this year than they were last. Though they played a fine, if losing, game against Georgia last year; the Tigers were treated a little like poor cousins from the country before the game. This year, however, the same agreement has made possible the game that shapes up as the best in the nation.

A comparison of the two teams stirs the imagination. Navy's great record is built on the exciting, jitterbug running of All American halfback Joe Bellino and the wide open passing of quarterback Hal Spooner. Missouri's strength on the other hand, has been a rugged defense and a powerful ground attack built around a bevy of hard running backs. The two All Americans representing their teams on the field are as different as their teams: short, squat Bellino is bound to literally run into his All American teammate big, rangy Danny LaRose many times before the memorable afternoon is over.

The only common opponent offers little basis for

Seniors on the 1960 Missouri Tiger team who play their final game in the Orange Bowl at Miami on January 2: From left—Rockne Calhoun, Mel West, Donnie Smith, Skip Snyder, Fred Brossart, Ed Mehrer, Norvis Stevenson, Max Moyer, Mike Langan, Tom Carpenter, Gordon Smith, and Danny LaRose. A thirteenth senior, Jim Miles, not shown in the group, is pictured on the following page.

comparison. Navy beat service academy rival Air Force 35-3, and the Tigers downed the Falcons 34-8. Even the season's point totals differ little. In ten games against comparable opponents the Tigers scored 274 points and gave up just 79, while Navy scored 248 and allowed 82. In fact, the only game we can imagine that would be as close as this one would be one between Cotton Bowl representative Duke, the sole vanquisher of Navy, and Bowl ineligible Kansas, Missouri's nemesis.

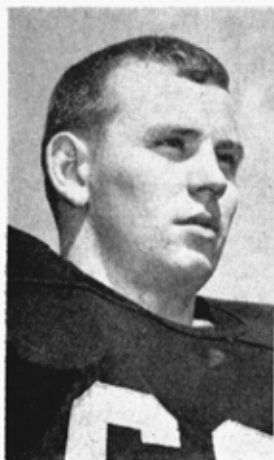

That's the immediate future; now let's take a look at the second half of the season that made this trip to the land of sunshine possible.

The five early season victories reported in the last issue focused national attention and brought sixth place in the national ranking to the Tigers. As the ensuing weeks brought Big Eight Conference victories over Iowa State 34-8, over Nebraska 28-0, and over a fired-up Colorado team 16-6; the Tigers climbed a peg at a time. As they moved to the big one with Oklahoma in the "snake pit" at Norman, the ranking reached number three. Our best and most exciting game of the year produced a 41-19 victory over Oklahoma, our first win over the Big Red since 1945, the first win for any Big Eight team in Norman since

'45, and our first win at Norman since 1936. Dan Devine had kept his promise of retribution for his first, young Tiger squad which had been humiliated 39-0 by the Sooners in Norman in 1958.

This impressive victory over Oklahoma coupled with Minnesota's loss to Purdue put the Tigers on top of the heap nationally, but the all-out effort also sowed the seeds of the Tigers' undoing the following week against Kansas. Then they dropped from the No. 1 spot to No. 5. Nevertheless, for one week, at least the Missouri alumni and fans enjoyed, in fact, they revelled in this heady atmosphere. After the first pangs of the disheartening loss, they found plenty to exalt in the outstanding and quite unexpected 9-1 season (the second best in 70 years of football at Missouri) and looked forward to a fine Orange Bowl game.

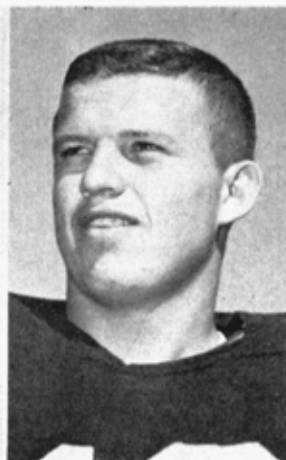

The loss to Kansas could turn out to be the tempering of the sword. The seniors pictured together in this article, and the rest of the Tigers should seize on this opportunity to do what their state is famous for, to "show 'em" that this is a truly great Tiger team, and that the Kansas loss was just one of those things that can happen to any great team on any given Saturday. As Dan Devine has said, "We can yet close the 1960 books on a happier note—and I know that the Mis-

Paul Henley

Bruce Geiger

Ron Taylor

Paul Garvis

souri squad welcomes that chance." The Midshipmen will meet an aroused Tiger in Miami, and you can bet you'll be proud of your team.

Looking back on the season, the Tigers could point to a number of "firsts" and honors that help make it a memorable year. This was the first Tiger team in history to win nine consecutive games. Only the 1899 team had won nine games, but it had two defeats as well. The 1909 Tigers went undefeated, but there was one tie to go with its seven victories.

In the Big Eight Conference the Tigers amassed the highest total yardage—2991 yards, all but 498 on the ground. In defense, they yielded 1951 yards, ranking third (behind Kansas and Colorado). Donnie Smith led the conference in punt returns, averaging 23 yards on 10 returns; one of these was for 88 yards and another for 90. Norm Beal was fourth and Fred Brossart tenth in this department. Donnie also was the leading scorer in the Big Eight with 13 touchdowns for 78 points. In fifth place was Bill Tobin with 39 points from three field goals and 30 points

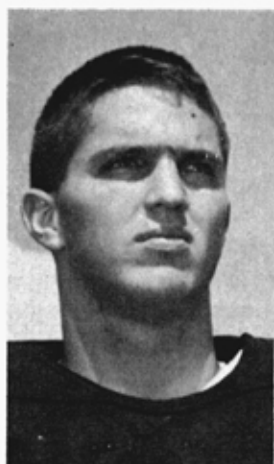

after touchdowns. Norris Stevenson with six touchdowns and Mel West with five ranked seventh and tenth, respectively.

West finished third in the conference among ball carriers, gaining 650 yards on 138 carries for a 4.7 average; and Stevenson ranked fifth with 610 yards on 85 tries—his 7.2 average helped by runs of 44, 69, 77 and 60 yards. Smith was 13th with 357 yards on 86 carries, averaging 4.2.

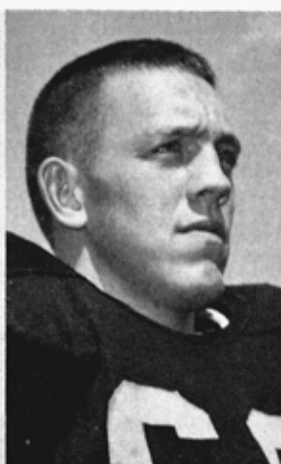

While Missouri stayed mostly on the ground, Quarterback Ron Taylor wound up as the conference's fifth leading passer, with 23 completions on 44 throws for a total of 302 yards gained in the air. Jim Johnson had eight completions in 14 attempts for a total of 143 yards, before he was injured at mid-season, and finished ninth.

Danny LaRose was sixth in pass receiving, grabbing ten for 151 yards. In punting, LaRose was fifth with an average of 35.7 yards on 33 kicks. Skip Snyder was 13th with 15 punts for a 28.3 average.

Other statistics show that Missouri chalked up 155

Andy Russell

Norm Beal

first downs to the opposition's 102; 2493 net yards rushing to 1100 for its ten opponents; 498 yards by passing to 851 yards by their foes; scored 274 points to 79 and 38 touchdowns to 11; intercepted 15 passes and lost 8 on interceptions. After the first eight games no team had scored more than 8 points against the Tigers, and only in the ninth game did an opponent score on the ground. Oklahoma's 19 points and Kansas' 23 points ended both phases of this trend. In attendance, home games averaged 33,100 and the total for the ten games was 322,500.

LaRose seemed on his way as everybody's All America choice for end. Shortly after season's end he had made the NEA, Look, UP-I, AP, and the Coaches' All America teams. The Associated Press Big Eight All Star team listed three Tigers on the first team: LaRose, West, and guard Paul Henley. On the second team were tackle Ed Blaine and Donnie Smith, with honorable mention going to Rockne Calhoun, Gordon Smith, Paul Garvis, Mike Langan, Stevenson, Beal and Taylor.

The United Press-International Big Eight All Star selections had LaRose, West and Calhoun on the first team; Henley and Donnie Smith on the second; and Ed Blaine and Stevenson on the third team.

The twenty-eight players pictured on these pages received varsity letter awards; since 13 are seniors, the Tigers will have 15 returning lettermen next year.

Missouri's 1960 team was honored November 22 at a ceremony in Jesse Auditorium, which was filled with students. Speakers included President Elmer Ellis and Coach Dan Devine. That evening the annual football dinner given by the Columbia Thirty-Third Degree fans again honored the Tigers, the thirteen seniors receiving personalized trophies. The featured speaker, Joe Garagiola, kept the audience laughing with his quips and did much to cause the players to forget, for a while at least, their Homecoming loss.

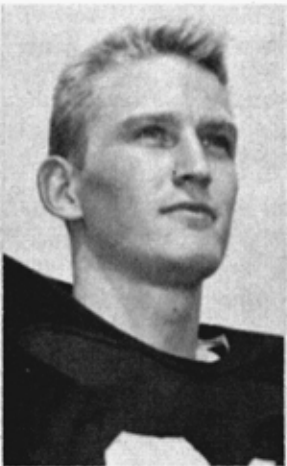

But as Sports Editor Tommy Devine said in an eight-column banner in his Miami News: "Missouri Defeated 23-7 by Kansas; And What's So Bad About a 9-1 Record?"

Briefs by Bus

Though still short of attainment of our ideal, America has built over the past three and one-half centuries a system of higher education that, for sheer numbers of educational institutions, for the range of their curricula, for the universality of educational opportunity, and for diversity of control, is unique.

Educational opportunity extends through college. More and more young people, in total number and in proportion to their age group, are taking advantage of college education today. Three times as many 18-21 year-olds go on to college now as in 1930. Here are interesting figures from the Council on Financial Aid to Education.

School Year ending	Students			18-21 Yr. Age Group in College
	Elem. School	Secondary School	College	
1930	23,718,000	1,804,000	1,101,000	12%
1960	33,466,000	9,240,000	3,742,000	36%

Roughly three-fifths of the students go to publicly controlled, tax-supported colleges and universities and the other two-fifths to the privately controlled and financed institutions of higher learning.

College and University Enrollment

Colleges and Universities	1959 Fall
Publicly controlled	669 2,002,868
Privately controlled	1,268 1,399,429
	1,937 3,402,297

Historically, due in large measure to the high educational level of its populace, America has succeeded

with the great experiment of representative government. The discipline and value judgments of college-trained people will be required to hold our success in the complex world of tomorrow. We have both the highest standard of living of any country in the world and the blessings of freedom. This is directly attributable to education. A ten-nation study of UNESCO made this clear in 1953. The earning power of a people went up as the educational expenditures went up. The United States was found to have the highest income and educational level of any country.

WHAT CAN YOU DO?

You can help by "talking up" the importance of college teaching to assist the profession to attract and hold as many able people as it needs.

As a citizen, you can support public officials and legislative or other agencies responsible for adequate public appropriations to colleges and universities which are dependent upon tax support.

You can make yourself familiar with the educational programs and public service provided by these institutions, and help to create a favorable public attitude toward adequate provision of the resources they need to make education of high quality broadly available.

You can make your voice heard in public councils when political or pressure groups threaten freedom of teaching and of inquiry.

Decide what you can do to help. That help is needed. You, the individual, have the choice of determining just what you can do and how much you can do for the cause of higher education.

BUS ENTSMINGER

Rucker's third book

The third book on various phases of newspaper management, of which Frank W. Rucker is the author or co-author, has recently been published by the Iowa State University Press at Ames. It is entitled "Tested Newspaper Promotion." Collaborating with Mr. Rucker in this book is Bert Stolpe, former promotion manager of the Des Moines Register and Tribune and now publisher of two weekly newspapers in suburban Los Angeles.

The other books are "Newspaper Organization and Management" with Herbert Lee Williams (Ph. D. '55) as a co-author, and "Newspaper Circulation—What, Where and How," of which Rucker (B.J. '13) is the sole author. All three books have been written since the former Independence publisher joined the faculty of the M.U. School of Journalism in 1951.

Gardner Cowles, president of Cowles Publications,

in the introduction to "Tested Newspaper Promotion" cites the book as of tremendous value to newspaper publishers, advertising managers, circulation managers and promotion directors, and he recommends it as an excellent basic text for journalism instruction.

"Since a newspaper is a community institution," say the authors, "promotion is not a selfish interest but a genuine obligation to the community the newspaper serves. Promotion must be tuned to the service theme and backed by truth through research. The important part of selling a newspaper doesn't take place on a street corner—it takes place over the years as a newspaper becomes part of a community and an essential part of the customer's daily life."

Scores of everyday questions about promotion and its functions are answered as the authors explain organization, required personnel and costs.

Big Northwest Barnwarmin'

The 28th annual Northwest Missouri Aggies Barnwarmin' held at St. Joseph on October 8 has been reported as "a tremendous success." It was the largest one ever held, attended by 251 persons.

Guests were Dean Elmer Kiehl of the University's College of Agriculture and Dean C. B. Ratchford of the University Extension Division.

Two honorary Northwest Missouri Aggies were named: Arch McClure, manager of Quaker Oats, and Ernie Justus, manager of Swift's, in St. Joseph.

Lee Wells, Class of 1928, was elected chairman for the next year. He is with Swift & Company. John Grace was chairman for the 1960 event, which was held at Clarkie's New Edgewood.

Denver alumni enthusiastic

The Alumni Office has had glowing reports on the successful gathering of Denver alumni following the Tiger victory over the Air Force on October 8. The reports have come from Frances Crane Becker, Bill Breneman and Gordon Blackmore. The affair was a buffet at the Denver Press Club, and while estimates of attendance vary, it appears that about 150 Missouri alumni were on hand. Blackmore, president of the University Alumni Association, spoke to the group on the University and alumni programs.

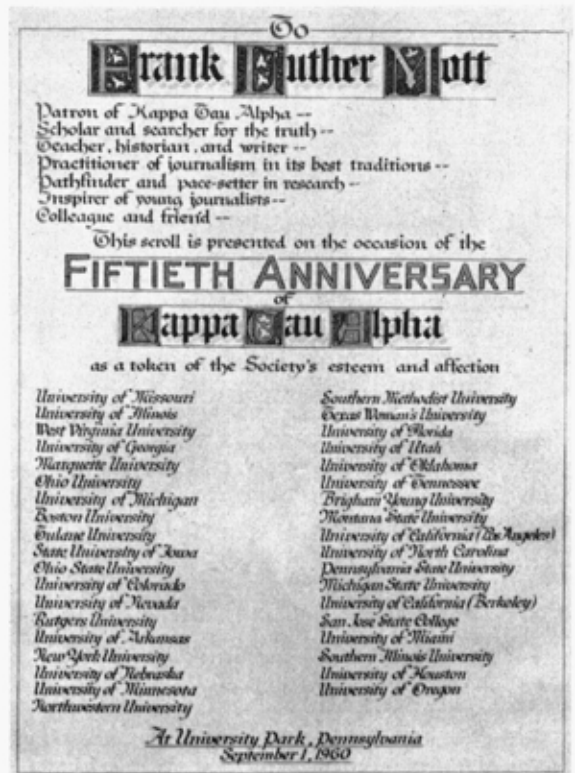

C. W. "Chuck" Henning was elected president of the Denver Alumni Club and the other officers were re-elected: Lee Fisher, vice-president; Frances Becker, secretary; and J. F. Baxter, treasurer.

Air trip for cheerleaders

Two of the biggest fans of Missouri's cheerleaders are Mr. and Mrs. Douglas G. Burrill, Jr. of Kansas City. They made it possible for all nine of the cheerleaders and the two "Little Tigers" to be on hand for the Oklahoma-Missouri game at Norman on Nov. 12. In making their annual contribution this year to the Alumni Achievement Fund, the Burrills earmarked \$500 to provide air travel to Norman for the eleven-member pep group. Ordinarily, because of limited funds, it is possible to send only two to five of the cheerleaders to games away from Columbia.

Burrill, a Kansas City business man residing at 6446 Belinder Circle, attended the University in 1946 and 1947.

The nine cheerleaders are: Martha Freeman, Springfield; Joanne L. Eggeman, and Susan Jones, St. Louis; Sandra Russell and Zelma Ann Rowley, Kansas City; Susan Bras, Prairie Village, Kan.; Paul Chapman, St. Joseph; Michael Jackoway, University City; and Robert Denckhoff, Webster Groves. The "Little Tigers" are Mary Joan (Jo) Fenton and Susan Cohen of Kansas City.

Scroll presented to Dr. Mott at anniversary banquet of Kappa Tau Alpha. The scholarship society was founded at Missouri 50 years ago.

Research award named for Mott

Frank Luther Mott, Dean Emeritus of the University's School of Journalism, was recently honored by Kappa Tau Alpha as it began its second half century. The scholarship society for education in journalism renamed its research award for Dr. Mott and presented him a scroll honoring him as "patron of Kappa Tau Alpha, scholar and searcher for the truth, teacher, historian, and writer." The dinner was held at Pennsylvania State University during the annual meeting of the Association for Education in Journalism.

The society's national president, A. L. Higginbotham of the University of Nevada, said during the ceremony: "If Kappa Tau Alpha is the shadow of any man it is that of Frank Mott."

Dr. Mott has been Chief of National Office for 15 years and was national president of KTA while he was still at the State University of Iowa, before coming to the University of Missouri as journalism dean. The society was founded here in 1910 by Walter Williams, first dean of the School of Journalism. In 1936 the national president was Frank L. Martin, who succeeded Williams as School of Journalism dean.

Dr. Mott this semester has been Distinguished Visiting Professor of Journalism at Southern Illinois University. Dr. Howard R. Long is chairman of the Department of Journalism at SIU.

Alumni recreation project

The Board of Directors of the University of Missouri Alumni Association has voted to contribute \$5,000 to the Alumni Achievement Fund to be used in developing a recreational area on the campus for students, faculty and alumni.

The development of such an area has been in the discussion stage for several years. The probable location would be in the wooded section south of Memorial Stadium. The project envisioned by the alumni board would be a rustic outdoor recreational area suitable for picnics and other gatherings. A shelter house, barbecue ovens, and water and sewerage facilities are some of the improvements considered.

This is the second \$5,000 amount allocated by the Alumni Association for University uses. Last year the board set aside \$5,000 to be applied toward lighting the Memorial Tower and Columns.

"These are projects on which the University cannot use state funds, and that's where the alumni come in," said G. H. (Bus) Entsminger, University director of alumni activities. "The alumni are particularly interested in improving or expanding facilities that will aid University programs and thus benefit students, faculty and the state."

Entsminger said the need for additional recreational facilities for students and faculty is one that has long been recognized by the alumni. He pointed out that the \$5,000 allocation would be a good start on the proposed improvement. The development would not be so extensive as to destroy the rustic setting of the area, but would still be adequate and convenient for a variety of outdoor recreational activities open to students, faculty and alumni.

First annual M.D. Day

The first annual M. D. Day at the University of Missouri Medical Center on October 21-22 had a successful start with promises of growing as a yearly event. It was sponsored by the School of Medicine and the alumni of the School.

The first day was a full schedule of technical sessions in the Medical Center Auditorium where the visitors were welcomed by Dean Vernon E. Wilson, M.D. Presenting the discussions were seven members of the School of Medicine faculty and four guest faculty members, including E. T. Bell, M.D., who holds three degrees from the University and is Professor Emeritus of Pathology, University of Minnesota School of Medicine. The day ended with the alumni banquet at the Daniel Boone Hotel presided over by Dr. John W. McHaney of Jefferson City, the medical alumni president who also presided at a meeting October 22 of the Medical School Alumni Board of Governors. That meeting followed tours of the Medical Center. After a luncheon the M. D. Day visitors attended the Iowa State-Missouri football game.

John Sam
Williamson

Citation for Williamson

The University of Missouri Alumni Association Citation of Merit was presented to John Sam Williamson, Commissioner of Agriculture for the State of Missouri, at the annual banquet of the Association of Missouri Agricultural Alumni. The banquet was held in the Student Union October 21.

Mr. Williamson, a Boone County farmer who still operates the farm on which he was born, received a B.S. degree in Agriculture from the University in 1925. On the campus he served as vice-president of the Ag Club and was a member of the Livestock Judging Team. He was a member of Alpha Zeta and Gamma Sigma Delta, agricultural fraternities.

He was vice-president of the Missouri Farm Bureau from 1944 to 1955. He is vice-president of the National Association of State Departments of Agriculture Commissioners and a member of the Executive Committee. Other offices held by Mr. Williamson include: Chairman of the Missouri 4-H Club Foundation, secretary-treasurer of the Mid-Missouri Flood Control and Conservation Association, secretary of the State Board of Training Schools, and a member of the Board of Governors of the American Royal. He heads the school board of his district and is a former president of the Boone County Fair. Mrs. Williamson is the former Quanah Kyle; they have a son, Johnny, 11 years old.

Jacksonville elects officers

The new president of the Jacksonville chapter of the University Alumni Association is Bill Nimnicht, who is a 1939 M.U. graduate of the B & PA School. He succeeds Frank E. Jennings. Bill is this year's president of the Jacksonville Area Chamber of Commerce and owns the Riverside Chevrolet Co. Mrs. Nimnicht, the former Barbara Ann Browne, is M.U. '39.

Other officers are W. F. Hooten, first vice-president, who is district manager of Western Auto; Mrs. Allen Poucher, second vice-president; and C. Howard Hill, secretary, who is secretary of the Jacksonville Area C. of C.

The election took place at a meeting October 12. During the meeting, attended by 24 persons, a message from President Elmer Ellis was read, and A. P. "Jack" Frost gave a report on recent changes on the campus.

Alumni Miami headquarters

The Shamrock Isle Hotel, on the north side of Miami Beach, will again serve as Missouri alumni headquarters during Orange Bowl festivities. The hotel was the center of M. U. alumni activities a year ago and is managed by Phil Young, former Missourian.

G. H. (Bus) Entsminger, University director of alumni activities, said organized alumni events at the hotel will include an "Ole Mizzou Reunion" on Sunday afternoon, Jan. 1, a Mizzou "Kick Off" brunch the following morning, and the Mizzou Caravan with special busses taking Missouri fans to the Orange Bowl game on a round trip from the headquarters hotel. Brunch and special bus tickets are being handled by the Alumni Office.

Entsminger said all Missouri alumni and fans, regardless of where they stay in Miami, are urged to gather at the headquarters hotel for any of these activities. Room reservations should be made direct with the Shamrock Isle Hotel, which offers special rates to Missouri alumni and fans.

Entsminger said the University Alumni Association is not sponsoring any "official" travel plans.

Cagers begin stiff schedule

Coach Sparky Stalcup's basketball Tigers launched a 21-game schedule with a victory over Washington at St. Louis. The 1960-61 edition, built around top scorers Charlie Henke and Joe Scott, is in the midst of a terrific slate of non-conference games. Before the Big 8 Tourney at Kansas City, which opens Dec. 26, the Tigers will have faced Arkansas, Minnesota and Loyola at home; Washington, Northwestern and Indiana away and, right after the tournament, they go to Lexington to play Kentucky on Dec. 31.

The conference schedule: At Columbia—Oklahoma State, Jan. 14; Oklahoma, Jan. 21; Colorado, Feb. 4; Kansas State, Feb. 18; Iowa State, March 2; Nebraska, March 6; and Kansas, March 11. Away from Columbia—Nebraska, Jan. 7; Iowa State, Jan. 9; Oklahoma State, Feb. 1; Oklahoma, Feb. 11; Kansas, Feb. 13; Kansas State, Feb. 25; and Colorado, Feb. 27.

Ron Cox, Don Sarver, and sophomore Ken Doughty were in the starting lineup for the opening game in St. Louis. Six rookies and Jackie Gilbert should give M.U. a deeper bench, as well as more flexibility and height on the front line. The newcomers who have impressed Stalcup and Thornton Jenkins, his coaching aide, are: Doughty, 6-0, Herrin, Ill., a cool back-liner; Howard Garrett, 6-7, Poplar Bluff; Lyle Houston, 6-5, Grandview; Jime Dinsdale, 6-3, Maryville; Jim Winscott, 6-3, Columbia; and Don Wright, 6-2, Gallatin.

Sparky terms his squad "stronger than a year ago," underscoring the point that his sophomores are the stimulus. As for the Tiger defense, he says flatly "We've got to be better to go anywhere in the Big Eight."

A colorful new trophy for Missouri is this Bengal tiger skin presented to the University by Wynne M. Casteel (right), Fort Lauderdale, Fla. The skin is from a nine-foot animal which Casteel killed on a hunt in India. Helping him display the gift is Bus Entsminger, director of alumni activities for the University. The skin was on exhibit in the new Agriculture Building during Homecoming.

Casteel donates tiger skin

Wynne M. Casteel, Fort Lauderdale, Fla., has presented a Bengal tiger skin to the University of Missouri through the Alumni Achievement Fund. The skin is from a tiger killed by Casteel on a hunt in India in 1949. It was on display during Homecoming in the lobby of the University's new Agriculture Building, and a permanent place for it will be decided later.

Casteel is in the land development business at Fort Lauderdale, where he is president of Jupiter Cresta. He played football at Missouri in 1923-24-25 and received a B.S. degree in Education in 1927. Mrs. Casteel is the former Mona Carnahan, A.B. '28. They have two sons: Wynne Casteel, Jr., '54, who was a member of the Tiger basketball team and is now an attorney in Fort Lauderdale; and Robert Russell Casteel, graduate of Florida State where he played basketball. Mrs. Wynne Casteel, Jr. is the former Sandra Lee Smith, B.S. in Home Economics, '54.

Wynne M. Casteel, widely known for years as a hotel operator in Florida, was back in Missouri for several days in November. During that time his parents, Mr. and Mrs. E. R. Casteel, observed their sixty-fourth wedding anniversary. His father is an avid Tiger fan.

Mueller on foreign tour

Dr. Hilbert E. Mueller, associate registrar of the University of Missouri, last month began a 39-day trip to Europe, Africa, and the Near East. Dr. Mueller and J. Fred Murphy, principal of Broad Ripple High School, Indianapolis, Ind., make up a two-man accrediting team of the North Central Association of College and Secondary Schools. The purpose of their trip is NCA accreditation of secondary schools operated by the military services. Chairman of the North Central Association since 1955, the year he received his Ed.D degree from the University, Dr. Mueller has been associated with the Admissions Office at the University since 1951. Dr. Mueller's itinerary included Spain, France, Italy, Libya, Greece, Turkey, Germany, and England.

Fulbright for Waidelich

Dr. Donald L. Waidelich, professor of electrical engineering has been awarded a Fulbright Research grant by the U. S. Educational Foundation in Australia for a year of special studies at the University of New South Wales in Sydney, Australia. He has been granted a sabbatical leave for a year beginning next Sept. 1. This is the second Fulbright grant for Prof. Waidelich. In 1951 he was awarded a professorship grant under the U. S. Department of State to lecture at Cairo University in Cairo, Egypt, for that academic year. At the University of New South Wales, Dr. Waidelich will study some newly developed materials

known to absorb microwaves, extremely short electromagnetic waves now being used widely in electronic devices. He said these materials will be important in the protection of personnel and equipment from microwaves radiation. Mrs. Waidelich and their 6-year-old daughter, Ann, will accompany him on the trip.

Watch for Mizzou band

The first 1960 television appearance of "Marching Mizzou," the University's marching band, was at the Orange Bowl on New Year's Day. The band's performance was televised again when the 185-member group was featured at half-time at the St. Louis Cardinals football game in St. Louis on October 23. Next national television appearance: Orange Bowl, Miami, Monday, January 2.

A scholarship in memory of the late Harry S. Jewell, president of the Springfield (Mo.) Newspapers, Inc., who died in 1945, has been established at the University School of Journalism by his daughter-in-law, Mrs. John W. Jewell, Springfield, Dean Earl F. English of the School of Journalism has announced. Mrs. Jewell has given the University \$5,000 to establish the scholarship. The scholarship, which will be awarded for the first time in September, 1961, will provide about \$150 annually to assist a student in the School of Journalism.

Residence halls from page 11

rise, any delay in starting needed dormitories can result only in higher rentals to be paid by the student tenants.

Although increases in rentals have been invoked from time to time and appear to be inevitable under today's economic conditions, the University can make a good case for itself in the effort to hold costs to students in line. As an example of efficient management, it can point to the fact that this year's dormitory residents are getting room and board—20 meals a week—at a cost of \$2.82 a day. This figure compares favorably with that of other Midwest state universities and is lower than some. The residents are served in cafeterias that are located in the dormitories or in the immediate vicinity. Two meals are served on Sunday, three meals on other days. The students sign housing contracts at the start of the year, and can pay the full amount, or make one payment each semester or four payments in each semester. Most of the students are assigned two to a room; a limited number of single rooms are available at higher rates.

The two oldest of the permanent dormitories were built in 1940—Gentry Hall, south of the Student Union, and Defoe Hall, south of Rothwell Gymna-

sium. Virtually all of the other residence halls have been built in the past decade, several of them completed in the past year or two. Most striking in appearance are the three nine-story residence halls for women, north of Memorial Stadium, and these, along with the three groups of apartment buildings for married students, present modernistic features. Basically, however, all the permanent buildings were designed for functional use. Palatial or luxurious quarters were never in the design, but the buildings are modern, comfortable and practical.

The plans included, however, the University's definite interest in the student residents living in small groups and having their own organization. For this reason, the residence halls are divided, by floors or sections, into separate residential units or "houses" consisting of about fifty-five students. Each unit elects its own officers and creates its own governing council or association. With the guidance and assistance of the Head Resident and Personnel Assistant, the elected officers help in planning the social, athletic and educational program. Representatives from each unit or "house" form overall cabinets for men's halls and for women's halls, helping to formulate rules and policies for the residence halls system. Each resident pays an annual fee of \$5 which is used to finance the activities program.

Success stories...

Bennett Cerf, President of Random House, Inc., world famous publishers of fine books including The Modern Library and The American College Dictionary; Henry Moyer, Jr., of New England Life.

Bennett Cerf and Henry Moyer, Jr. collaborate on a Profit Sharing Plan for Random House

Meeting and working with interesting men like Bennett Cerf is one of the most satisfying things about his career with New England Life, according to Henry Moyer, Jr. (Dartmouth '35).

Recently, he presented to Mr. Cerf his proposal for a revised Profit Sharing Plan for the staff of Random House. They went over the details together and developed a program which will benefit employees in every salary bracket — providing more life insurance protection for less money than was previously possible.

Henry will, of course, work closely with company officials in servicing this plan through the years. And he'll continue the personal programming for a number of the executives at Random House. This one aspect of Henry's

activity is just a part of the outstanding job he's been doing for New England Life, ever since he joined us in 1952.

If a career of this sort appeals to you, investigate the opportunities with New England Life. You get a regular income from the start. You can work anywhere in the U. S. A. Your future is full of substantial rewards.

For more information, write to Vice President L. M. Huppel, 500 Boylston Street, Boston 17, Massachusetts.

NEW ENGLAND

Mutual **LIFE** Insurance Company
BOSTON, MASSACHUSETTS

Bill McDonald, New England Life field agent with Nicholas Corbin, President, Corbin Steel Service, Inc., Sacramento, Calif. The discussion centered with Corbin attorney George Parks. The company owner, Mr. A. W. Corbin, and associates attend their construction coverage, and are pleased to see Bill's services to meet the needs of their expanding business interests.

Bill McDonald delivers a policy for \$250,000 after only 8 months of selling life insurance

Bill McDonald had a fine record as an enlisted man and commissioned officer in flight engineering. After his discharge, Bill wanted a career where his initiative would enable him to get ahead fast. A job where his earnings would be directly related to his efforts and ability.

A leading Sacramento employment agency told Bill that life insurance selling — and specifically, life insurance selling with New England Life — would give him the best opportunity to realize his ambitions. He went to our General Agent in Sacramento and was impressed by what this company could do for him. He was especially interested in the training and supervisory support which would quickly prepare him to enter the more challenging areas of estate and business security planning.

Bill has done an outstanding job. This quarter-million dollar policy is representative of the kind of performance

that brought him our Rookie of the Year Award for 1959.

If a career like Bill McDonald's appeals to you, there may be a place for you with New England Life. Men who meet and maintain our requirements get a regular income right from the start and can work practically anywhere in the United States.

For more information, write Vice President John Barker, 500 Boylston Street, Boston 17, Massachusetts.

THE COMPANY THAT FOUNDED MUTUAL LIFE INSURANCE IN AMERICA — 1825

125th Anniversary of Our Charter

These University of Missouri men are New England Life representatives:

Paul J. Harris, '23, Jefferson City
Robert L. Casebolt, '24, Kansas City
Frank T. Kreutz, '47, Portland, Oregon

Robert E. Hall, '49, Duluth
Alfred A. Gelfond, '51, Newark

class notes

98 C. M. BARNES, BL., writes that he broke his right instep in August, and had it set by his son, Dr. SETH S. BARNES '31, 1854 Broadway, Cape Girardeau, Mo., and is recuperating at his home in Marston, Mo. He plans to spend most of the winter months with his son, C. M. BARNES, Jr., AB'25, BS BA'26, 40 Warbler St., New Orleans, who is with Armstrong Cork Co.

08 CLARENCE CANNON, LLB, LLD '54, dean of the Missouri delegation and congressman from the 9th District, is chairman of the Appropriations Committee. He has been parliamentarian of the House during both Democratic and Republican administrations, and has authored several publications on parliamentary procedure in Congress. He is married, has two daughters, and lists his permanent home address as Route 1, Elsberry, Mo.

09 WILLIAM THOMAS MYERS, LLB, Hannibal, Mo., in June finished his first stint as the first Hannibal municipal judge under the new home rule charter. Prior to WW I he was appointed local officer of the government under the Mann act, and was promoted to special agent of the FBI. From 1932 until 1948 he was a U. S. Commissioner, and in 1956 was elected Hannibal city recorder.

12 WALTER C. STEMMONS, BJ, president of the first graduating class from the School of Journalism, represented the University at the 25th anniversary of Albert N. Jorgensen as president of the University of Connecticut at Storrs on Nov. 12. Mr. Stemmons retired in 1953 after 35 years as director of publications at the University of Connecticut. While attending the University, Stemmons was a member of QEBH and editor of the 1909 Savitar. He has written three farm plays and a book entitled "Connecticut Agricultural College's History." Mr. and

Mrs. Stemmons (LORA DAVIS, '08) live at Mansfield Center, Conn., and they have two sons, Ralph and Robert.

CLEO C. WIGGANS, BS Agr., MS '13, Ph.D. '18, is Emeritus Professor of horticulture, University of Nebraska. Mr. and Mrs. Wiggans (MARTHA CHINN, BS Ed. '13, AB '14) have two sons; Sam is associate professor of horticulture at Oklahoma State University, and Don is associate professor of biochemistry at Southwestern Medical School, Dallas. Mr. and Mrs. Wiggans live at 1220 N. 37th, Lincoln, Neb.

14 Dr. ROY ELLIS, AB, BS Ed., president of Southwest Missouri State College, Springfield, Mo., is planning to retire in August, 1961. He is believed to have the longest tenure of office of any college or university president in the country; he became president of the college in February, 1926. Dr. and Mrs. Ellis have a son, David, who lives in Los Angeles.

15 Dr. HARL R. DOUGLASS, BS Ed., AM'21, 4185 Pinon Dr., Boulder, Colo., was honored in April at a program in recognition of the renaming of Fairview Junior High School now known as Douglass Junior High School. Mrs. Douglass is the former ZANNA MAE MITCHELL, AB'14, BS Ed'15.

16 LOUIS H. STRUNK, BS Ed., and Mrs. Strunk (MINNIE SHAEPERKOETTER '15) celebrated their golden wedding anniversary in October. They are active in many educational, church and civic organizations; Mr. Strunk has completed almost 30 years as secretary of the Southeast Missouri Teachers Association, is the 1959-60 president of the State League (Credit Union), and current president of the official board of Centenary Church where, for 14 years, he was superintendent of the Sunday School. For almost 10 years Mrs. Strunk has been executive secretary of the Cape Girardeau County Tuberculosis Association. They have two sons: Norman, executive vice president of the U. S. Savings and Loan League of Chicago; and Marvin, assistant president of the Madison Bank and Trust Co., Chicago. Mr. and Mrs. Strunk live at 512 North Boulevard, Cape Girardeau, Mo.

Mr. and Mrs. CLAUDE D. MARSHALL celebrated their 63rd wedding anniversary in June. Mr. Marshall taught his first school at the age of 17, became principal of Cairo, Mo., school and in 1901 went to Moberly, Mo., as principal of West Park school, then to Central school, and later to West Park school, serving there until his retirement in 1949. The Marshalls live at 502 S. Williams St., Moberly, Mo.

EDWIN PHILIP FISHER, BS Ed., formerly superintendent of schools at Pleasant Hill, Mo., is a teacher at Missouri Valley College, and lives at 604 E. Summit, Marshall, Mo.

17 W. E. RANDOL, BS Ed., has retired from teaching and is living on a dairy farm on Route 2, Versailles, Mo. He taught for 20 years, mostly as high school principal or superintendent in the schools of North and South Dakota, Oklahoma and Missouri. Mr. and Mrs. Randol have a son, Stanley, who lives with his wife and daughter in California.

JAMES KNOX JONES is a farmer on Route 1, Stotts City, Mo. Mr. and Mrs. Jones have a son, Ray E. Jones, who is a retired Major, U. S. Army; and a daughter, Mrs. Margaret Danielson, Davenport, Ia.

WILLIAM J. LOEFFEL, BS Agr., is professor of animal husbandry at the University of Nebraska. His home address is 1401 N. 41st St., Lincoln 3, Neb.

WILL CARLETON HACKLEMAN, BS Agr., is district supervisor for the Agriculture Marketing Service, USDA. His home address is 3740 85th St., Jackson Heights 72, N.Y.

20 Dr. WILLIAM W. RUBEY, AB, DS '53, who recently retired from the Geological Survey after 30 years' service, has been appointed to the faculty of the University of California at Los Angeles. He was elected to the National Academy of Sciences in 1945, served as chairman of the Division of Geology and Geography of the National Research Council from 1943-46, and was chairman of the National Research Council from 1951 to 1954. He has received many honorary degrees, and his scientific eminence has been recognized by invitations to deliver the Silliman lectures at Yale and to be a visiting professor at Johns Hopkins, in addition to lecturing at the California Institute of Technology. Mrs. Rubey is the former SUSIE ELSIE MANOVILL '19.

NEWTON T. GOTTSCHALL, BS Ed., AB '21, is a retired associate minister of the Congress St. Methodist Church, Lafayette, Ind. His home address is 1203 Parkway St., Lafayette.

JAMES EDWARD HOOK, BS BA, is eastern sales manager with the Unitog Company, and is headquartered in Bridgeport, Conn. His address is 80 Barton Dr., Stratford, Conn.

San Francisco alumni planning organization

Judging from the turnout for a Sunday picnic, M. U. alumni in the San Francisco area are well on their way to establishing an enthusiastic organization. The outing was held at Sigmund Stern Grove on September 25 and approximately 150 persons attended.

Talks on holding further meetings were made by Glenn Flanders and Joe Bortin. They, with Don Houck and Louis Long, made arrangements for the picnic, putting in a lot of spade work to bring it about. Following the talks there was open discussion during which several alumni expressed interest in future meetings.

In a follow-up meeting, a steering committee met on October 10 at a luncheon. G. H. Entsminger, University director of alumni activities, was present to consult with the leaders on furthering the organization. Tentative plans call for a meeting of the Executive Committee either late in November or early in December to plan an area meeting after the first of the year.

CHARLES H. DITTMAR, BS Agr., is an insurance agent with the H. F. Borkenhagen Agency. He and Mrs. Dittmar and their three daughters, Debra, Janet and Sue Beth, live at 310 E. Calumet Rd., Milwaukee, Wis.

Susan Cynthia Shaffer and ROBERT DALE FORREST, AB, July 5, in Houston, Tex. He is employed as assistant office manager of a real estate company in Houston.

The University and football

continued from inside front cover

find people who are so opposed to athletics in universities that they, as one recently did, compare athletic scholarships to embezzlement and the National Collegiate Athletic Association to a National Board of Peculation because it polices our rules.

"Even worse are the gamblers who place bets on points and, as Bob Burnes recently pointed out, they are not satisfied to have our team win but complain unless it wins by a certain number of points.

"I would remind all of them that we at Missouri are committed to a program that is within the rules of the National Collegiate Athletic Association and the Big Eight Conference. There can be no sports without rules and the violator of rules is the worst enemy of sport, intercollegiate or professional. The University of Missouri wants no over-ambitious fan trying to help us secure good athletes by other means than those within the spirit and letter of the rules.

"At the same time student athletes who want more than the rules permit have no place at Missouri. In spite of your emotion-charged days of late, you all realize that you are here primarily to develop your mind and strengthen your character and not just to play football. Football played within the rules can help you toward both of these educational goals. If it is not played within the rules it is more harmful than useful to the players and to the University.

"In speaking to the squad only, it seems to me you have a difficult problem this semester. Your primary purpose here is to get an education. You have had a hard, grueling season and I know, from observation for many years, that it is difficult to keep up with your work during a regular season. Now the season is being extended for seven weeks through a period when football squads usually recoup their losses in the classroom, the library and the laboratory. You, all of you, will have to be especially diligent to be sure that in spite of the length of the season you do not neglect the most important part of your studies—not merely to keep you eligible, although to you that is important, but to be sure that when you finish your fourth year here you will graduate and move on with the kind of education that will enable you to have a successful career and be a valuable citizen—a credit to your University, your State, and your Country."

59

MARY JO FOX, BS Ed., and James Arnold Bush, July 30, in Charleston, Mo. Mr. Bush is construction engineer for Phillips Petroleum Co., in Kansas City. They live at 4901 E. 26th St., North Kansas City, Mo.

PATRICIA ANNE UTTERBACK and Lt. JAMES POWELL CARMAN, BS Agr., August 12, in Monroe City, Mo. They live at Quantico, Va., where he is stationed with the Marines.

SUZANNE HOLST, BS Ed., and ROBERT DODGE, Jr., AM, BS Ed. '58, July 24, in Sedalia, Mo. He is an instructor in mathematics in the Park Ridge (Ill.) high school, and they live at 933 Grace-land, Apt. 204, Des Plaines, Ill.

Patricia A. Finley, a student at the University, and EDGAR VANDIVER, BS, August 13, in Southfield, Mo. Both are attending the University, and they live at 1400 Porter St., Apt. 9, Columbia, Mo.

PAULA WINGATE, BS Ed., and KARL YEHLER, BJ '59, August 13, in Webster Groves, Mo. Mrs. Yehle is teaching consumer economics and typing in Wyandotte High School, Kansas City, and Mr. Yehle is director of public relations at Valentine-Radford Advertising Agency. Their home address is 708 W. 48th St., Kansas City, Mo.

CAROLYN ANNE BEIMDIEK, BS Ed., and John O'Keefe Phelps, enrolled in Law School at the University, August 6, in Carthage, Mo. Mr. O'Keefe is a graduate of Harvard.

Judith Ann Johnston and J. LISLE REED, July 24, at Fulton, Mo. They live in Rolla, Mo., where Mr. Reed is enrolled in the Missouri School of Mines.

GLENDIA LEA McINTYRE, AB, and RICHARD M. MOON, AB, August 13, in St. Louis, Mo. They live in Louisville, Ky., where the groom is attending the Louisville Presbyterian Theological Seminary.

Beverly Ann Decker and ROBERT H. MOW, AB (WD), August 28, in Centralia, Mo. Mr. Mow is attending the Southern Methodist University School of Law, and the couple lives at 3120 Fondren, Dallas.

Sondra Watson and JAMES R. BEILSTEIN, BS Agr., August 21, in Canton, Mo. He is employed by Adams County Shippers, Quincy, Ill.

PATRICIA ANN PATTERSON, BS Ed., and Paul William Knoop, enrolled in the University School of Medicine, August 27, in Poplar Bluff, Mo. She is teaching kindergarten in Columbia, where they live at 206 Ruby Lane.

SUZANNE LEACH, BS Ed., and WILLIAM HUDSON SMOOT, AB, August 14, in Memphis, Mo. He is enrolled in the University School of Medicine, and she is teaching school in Ashland, Mo.

JUDITH GILLILAN, BS HE, and Richard Frame, attending the University, July 2, in St. Louis. They live at 601 L. University Village, Columbia.

JUDITH LEE MEACHER and Ens. GEORGE DIX PETERS, BS BA '60, June 19, at Fredericktown, Mo. They live in San Diego where Ens. Peters is stationed.

Sylvia Troutt and JOHN EDWARD CONDON, BS BA, June 12, in Sullivan, Mo. They live at 472 Euclid Ave., Kansas City, Mo.

VENELIA ANN CARTER, BS Nur., and Worley K. Stewart, June 5, in Lebanon, Mo. The couple is living in Columbia while Mr. Stewart completes his studies in Medical School.

BARBARA ANN BARNEY and JAMES MILTON WILLIS, both of whom received MS degrees in June 1960, were married in Fayette, Mo., June 8. They live in Osawatomie, Kan., where they are both on the staff of the Kansas State Mental Hospital.

deaths

FLORENCE M. NESBITT, AB '02, former assistant executive director of United Charities of Chicago, Ill., June 4 in Tucson Medical Center. She retired after nearly 30 years in Chicago welfare work to move to Tucson in 1949. Miss Nesbitt was a member of the Tucson Fine Arts Assn., and had painted professionally for a number of years. She is survived by two sisters and a brother, NELL NESBITT, BS Ed. '09, AB '10, 211 E. 2nd St., Tucson, Ariz.; Mrs. J. W. Hopkins, ETHEL NESBITT, BS Ed. '08, 203 E. 2nd St., Tucson; Dr. P. P. NESBITT, BS '01, 1565 Swan Dr., Tulsa, Okla.

R. DuVAL SMITH, AB '10, Oct. 13, unexpectedly at St. Joseph, Mo. He was stricken at his home and died in an

ambulance en route to the hospital. He was a former circuit judge and prosecuting attorney as well as a Masonic leader. Judge Smith was first associated in the practice of law in St. Joseph shortly after graduation, was appointed evidence officer to the prosecuting attorney in 1915, and in 1916 was advanced to assistant prosecuting attorney. As circuit judge he had jurisdiction over the juvenile division, where his interest and competence earned recognition by the St. Joseph Junior Chamber of Commerce, which presented him the organization's award for outstanding civic service during 1956. In 1956 and 1957 he was chairman of the juvenile laws committee of the Missouri Bar, which drafted the new juvenile code, and in 1958 he was elected president of the Council of Missouri Juvenile Court Judges. He was also a past president of the St. Joseph Bar Association, and had held numerous offices in the Masonic Order. His survivors include his wife, 2625 Frederick St., St. Joseph, and a daughter, Mrs. William A. Schmalz.

DAVID H. WALSH, '11, October 21, in Oklahoma City, after a short illness. He had been a mortician in Cedar Springs, Michigan, since 1928, and had been active in club, civic and church affairs. He is survived by his wife, Mrs. Ida H. Walsh, 127 S. First St., Cedar Springs, and a son, Richard.

Mrs. ETHEL JOHNSON Chilton, '14, Oct. 17, in Ripley County, Mo., Memorial Hospital at Doniphan, Mo. She taught schools at a number of places, being in the Doniphan high school 13 years before her retirement in 1943. She was very active in church and lodge work, and was active in the management of two theatres she established in Doniphan. She is survived by a daughter, Mrs. Don Dowdy, of Doniphan. Mrs. Chilton's husband died in 1927, and their son Alan was killed in Germany in WW II.

Dr. J. D. BLACKWELL, BS Agr. '14, Nov. 5, at Baltimore, Md. He had served for 20 years as president of the State Teachers College at Salisbury, Md. Dr. Blackwell had served for several years as Director of Vocational Education in Baltimore before going to State College as president. He is survived by Mrs. Blackwell, Route 1, Lutherville, Md., and three children, Edith, Dick and David.

Mrs. Frances Guillotte, the former BERTHA FRANCES BRANDT, BS Ed. '17, April 14, at Long Island City, New York.

MURRAY E. THOMPSON, '17, Oct. 10, of a heart attack at Marshfield, Mo. He was a former State Representative and co-author of the King-Thompson anti-strike law. He had been retired since 1948. Mr. Thompson operated a furniture

store in Marshfield, Mo., for 20 years before his election to the House of Representatives in 1940; he served four terms, was elected Speaker pro-tem in 1943 and 1945, and was Speaker of the House in 1948. He is survived by his wife and a sister.

R. KIP BRINEY, '19, Nov. 2, of a heart condition, at his home in Bloomfield, Mo. He had served as prosecuting attorney of Stoddard County three terms between 1927 and 1946; was county treasurer from 1935 to 1936; director, secretary and co-founder of the Bank of Bloomfield; president of the Bloomfield Tractor Sales; former owner of the Bloomfield Vindicator; partner in the Briney and Welborn law firm and was interested in other enterprises, as well as being active in civic, lodge and political affairs in Stoddard County. He is survived by his wife and three daughters.

GLEN R. DEATHERAGE, BS Ed. '21, M Ed. '13, a retired principal, Dec. 3, 1959 at his daughter's home in Dayton, Ohio.

BERT EVANS, BS BA '23, July 6, Mr. Evans, a former M-Man, is survived by his wife, 723 W. 8th St., Taylor, Tex.

J. GORDON WAKEFIELD, '23, Oct. 5, at Taos, N. M., after a year's illness. He was for many years in charge of leasing oil land for a Tulsa, Okla., firm, until his retirement five years ago. Mr. Wakefield is survived by his wife and two stepdaughters, and a sister, Mrs. ETHEL WAKEFIELD Bundschu, BS Ed. '21, 1815 Vassar St., Independence, Mo.

Mrs. Frank M. Dobkins, MILDRED M. BOUCHER, BS Ed. '23, March 1, at Joplin, Mo.

OLIN R. TRIPP, BS Agr. '21, M Ed. '39, Nov. 10, at an Aurora, Mo., hospital after a long illness. He had taught vocational agriculture at Aurora High School since the fall of 1932, until his illness about a year ago. Mr. Tripp and his students have won many honor in the field of vocational agriculture, and "O. R. Tripp Day" at the junior livestock show in September was attended by about 600 people. He was superintendent of every Tri County fair held in Aurora, Mo., superintendent of every junior livestock show except the last one, held since his illness, and had been widely acclaimed for the student loan fund set up under his leadership for FFA students. Mr. Tripp is survived by his wife, a son Don, who is a sophomore in the College of Agriculture, and a daughter Mrs. Janet Andrews.

Mrs. MARY OLIVER Jacks, who attended the University many semesters from 1890 to 1925, Sept. 24, at her home,

in Columbia, Mo. During her lifetime, Mrs. Jacks taught in 12 Boone County rural schools over a span of 50 years, reared three foster daughters, one of whom is Mrs. Ernest Gholson, 707 N. Fourth St., Columbia. Her former students raised money to build the Mary Oliver Jacks steeple at Oakland Church in 1958, and in 1951 she was awarded the Optimist award for the outstanding woman of the year, later was given the distinguished citizen award by the Cosmopolitan Club and a Good Neighbor award by a New York City organization.

ALMA LUEDERS, AM '27, August 18, at LaGrange, Tex. A member of the teaching profession for 49 years, Miss Lueders served as teacher and principal at LaGrange High School before going to Southwest Texas State College where she taught for more than 30 years before her retirement in 1957.

ROBERT MARTIN BOONE, AM '27, Oct. 27, at Rolla, Mo. He was educational advisor at the center at Fort Leonard Wood, and had been associated with the Civil Service for the past 20 years, formerly with Veterans Administration and Social Security divisions in Kansas City for many years. Mr. Boone was a veteran of WW I, and served as a captain in the National Guard for 18 years. He is survived by his wife, Mrs. Fern Boone, 1116 Joyce, Rolla, Mo.

Dr. HOMER E. BYRD, BS Med. '28, Oct. 27, in Methodist Hospital, Rochester, Minn. He was a graduate of the University of Louisville School of Medicine and practiced medicine in Carthage, Mo., where he was also on the staff of McCune-Brooks hospital. He is survived by his wife, 1327 S. Main, Carthage, and two daughters, Carolyn, of the home, and Mrs. William Shilkett (BARBARA ANN BYRD, '51) of Overland Park, Kans.

WILLIAM H. JOHNSON, BS Ed. '30, AM '35, Oct. 9, in Independence, Mo. He graduated from Valparaiso Normal School in Indiana in 1892, taught in Oak Grove, Mo., from 1894 to 1898 when he was appointed Jackson County (Mo.) superintendent of schools. He was in the Kansas City school system from 1908 until retirement in 1938, at which time he was principal of Manchester school. He received his Master's degree from M. U. at the age of 73. An elementary school in consolidated district No. 1, Hickman Mills, Mo., was named in his honor. He leaves two daughters, Mrs. Jeanette Sands, 1905 Drumm, Independence, and Mrs. Jessie Ruth Walsh, 1201 Romany Rd., Kansas City, Mo.

WILLIAM L. AYERS, BS CE '38, Nov. 1, of a coronary condition. He is survived by Mrs. Ayers, 825 W. Gregory Blvd., Kansas City, Mo.

HAROLD G. BIERMANN, LLB '40, Nov. 10, of a heart attack. He was director of industrial relations, Capital Airlines, in Washington, D. C. In WW II he served in the Navy as commanding officer of gun crews on merchant vessels, and was an attorney for the U. S. Dept. of Labor, and on the National Labor Relations Board, in addition to spending a year as director of labor relations for the Baltimore Transit Co. He is survived by his wife and three children, Melanic, Bonnie and James, of 503 Fordham Dr., Alexandria, Va.

WARREN REPPERT '42, Aug. 8, of a heart attack in Concordia, Kans., returning to St. Joseph, Mo. from a business trip to Colorado. He was Assistant Controller of Dannen Mills, St. Joseph, Mo., and had worked for 3 years for the Desert Gold Co. in Liberty as controller. He is survived by his wife and son David, 8, of 2703 South East Trail, St. Joseph.

GEORGE LINDSAY GIFFORD, BS BA '47, July 8. His home was 704 Houchin St., Jefferson City, Mo.

Mrs. Michael Ryan, the former BILLIE JEAN FRENCH, BS Ed. '51, October 9, in an automobile accident in which the Ryans' two-year-old son was also killed. She is survived by her husband, Hollywood, Calif. and by her parents, Mr. and Mrs. William A. French, of Eminence, Mo.

PAUL BICKEL, AM '51, Oct. 8, at West Valley Community hospital in Encino, Calif., of a cerebral hemorrhage. He served in the Navy during WW II and the Korean conflict, moved to California in 1954 and was working for Atomics International in Canoga Park, Calif., as a physicist. He is survived by his wife and three children, John Robert, 14 Jona Sue, 8, Dennis Lee 2, of 20428 Sherman Way, Canoga Park, Calif.

Mrs. ADA WILLIAMSON Larkam, '52, Nov. 5, at St. Joseph, Mo. A native of Lathrop, Mo., Mrs. Larkam taught schools in St. Joseph, Maitland, Osborn, Guilford and Barnard. She was active in church, lodge, home economics work, Red Cross, and was a nurse's aid at the Missouri Methodist Hospital. Mrs. Larkam is survived by two sons, John and Dana.

WILLIAM L. MODERSBACH, BS BA '58, Aug. 20. He is the son of Mr. and Mrs. Milian Modersbach of 620 Sheridan Rd., Evanston, Ill., formerly of Sikeston, Mo.

DENNIS A. HUGHES, enrolled in September, Oct. 20, of an accidentally, self-inflicted gunshot wound. He was enrolled in the College of Engineering, and had attended Texas A & M. Surviving are his parents, Col. and Mrs. Louis R. Hughes, 1315 Maple Lane, Sedalia, Mo., and a sister, Linda, also of the home.

HERE LATELY BOTH CLOCKS ON Memorial Tower have been adjusted to show the correct time. This has caused no end of confusion to passersby, mostly because of the novelty. All summer and far into the fall season the hands of the east clock and the west clock spun around wildly in all directions. Telling time then was a game, stimulating and exciting. Soon one learned that when the clock on the west side said 3:20, and the clock on the east side said 11:40, it was actually 12:50. After one had made his computations and things came out right, he had a sense of accomplishment. He had devised a system of additions and subtractions, arriving at a truth distorted by capricious indicators. Naturally, when the clock hands were finally set on their proper course, the immediate reaction of passersby was one of befuddlement. As the pointers persisted in their correct pattern the story they told had to be accepted, but there was a letdown: the fun of determining time was gone. Here, we think, is an incipient danger on the campus: if our clocks indicate the time correctly, will this not defeat one of the purposes of education, that of developing a doubting mind? Clocks that are always right can easily lull us into a sense of security. If our students go out into the world accepting what clocks everywhere say at face value, they may become soft, too trusting and therefore easily misled. It is more desirable that our clocks continue in their eccentric ways, with erratic hands that spur the mind to question and to investigate. We must not produce a race of credulous alumni who only *think* they know what time it is.

FAITHFUL READERS will recall the conceit expressed in this space recently about the lack of a freight elevator or other device by which 33 pianos could be moved into the new Fine Arts Building. As the accompanying illustration shows, the job was accomplished by rope, pulley and other means. It is a pleasure to report that the task of hoisting the blanket-wrapped music boxes up to the second floor, after removing part of a banister, went along without a discordant sound and was virtually unnoticed by people in the vicinity. Thus, ingenuity once more overcomes needless alarm.

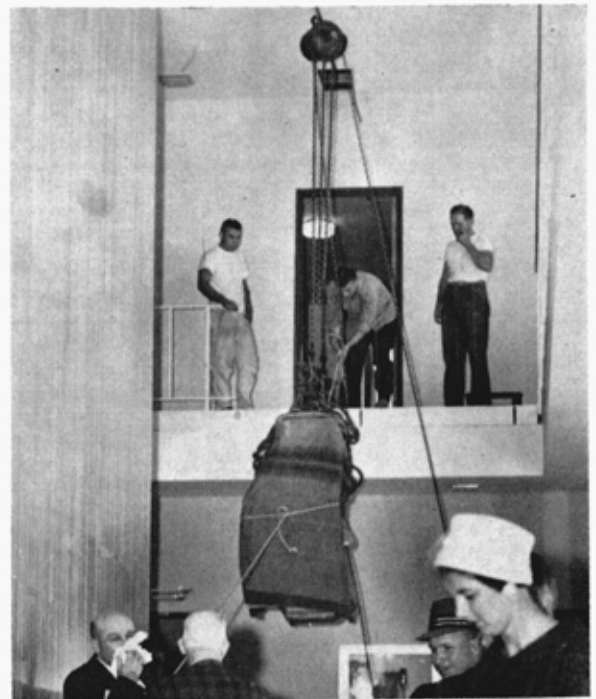

THE ALUMNI OFFICE prides itself on answering letters promptly, although at times out of town trips and other circumstances interfere. One of the unusual "other circumstances" began last May when a mailing list of alumni in the Fresno, Calif. area was dispatched to Harry L. Robinson. Months went by and he had not received the list. Eventually it developed that the mailing list somehow reached his son, Harry B. Robinson. It was in good hands, but it so happens that H. B. was a fire lookout for the summer, stationed on

a high mountain in the Sequoia National Park, and had no connection with the outside world until he came out after the fire season was over in the fall—bringing the mailing list with him. So, if you're expecting a letter and it hasn't arrived, please be patient. It may be languishing in some lonely light-house.

AT A RECENT M. U. alumni gathering, a welcome guest was Ike Edwards, the genial alumni secretary of the School of Mines and Metallurgy at Rolla. Following his custom, Ike thrust a fine cigar into our upper coat pocket as we shook hands. This is as it should be. As a non-smoker, Ike can well afford to indulge in this courtesy. As an inveterate victim of the stogie, we are in no financial position to buy good cigars for personal use, much less pass them around. Who is better able to buy quality cigars? The non-smoker, of course. He has stored away vast savings because of his abstinence. His clothing does not reek of the weed. He has strong character. But, with all these advantages, he is likely to become smug. If he is any kind of a humanitarian at all, he will carry a supply of good cigars to hand out to indigent puffers. And what better way to stamp out smugness? It has been our contention that the burden of buying cigars too long has fallen on the drained resources of the cigar smoker himself. And if there is anything a cigar smoker enjoys more than a cigar, it is a free cigar. Ike Edwards can't help but go a long way in this world.

J. C. T.

Light up and listen to "Old Mizzou"

You'll enjoy this practical, attractive attention-getting novelty

Have fun when you light up and listen to this amazing musical lighter that actually plays "Old Missouri." This sturdy, windproof lighter is made of polished stainless steel with gold sides and black lettering. Lighter is approximately size indicated in accompanying sketch.

**A
Conversation piece
For any
Alumni Gathering**

Whenever you get together with other University alumni, you'll find this lighter an ideal conversation piece. The gold sides and black Tiger tie in perfectly with the light strains of the "Old Mizzou" melody that flows from this compact lighter. Don't be without one at your next Missouri alumni meeting.

Send your order today

Only \$7.50

Send in this order blank for your official "Old Mizzou" musical lighter to the Alumni Office, 101 Read Hall.

- I enclose \$7.50 for one "Old Mizzou" musical lighter
- I enclose \$ for "Old Mizzou" musical lighters
