About the cover: Fall is the big season for the bandmen. Football games, Homecoming, Band Day—these are some of the events where bands have their moments in the spotlight. This closeup of a tuba player with the Marching Mizzou Band was made by George Gardner.

THE MISSOURI ALUMNUS

is published monthly except July, August and January by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council.

Briefs by Bus

The changing face of the campus is still a surprise to alumni who are fortunate enough to return to campus for a brief visit. No matter how many articles are written, it is impossible to interpret the wonderful improvements that all the new buildings are making to the University campus. The external changes are, of course, easily recognized, but one building still remains pretty much the same as it was 25 or 30 years ago and that is good ole' Jesse Hall. Jesse probably brings back as many nostalgic memories as any building on campus to most of you. However, it will interest you that I have just returned from taking my first elevator ride in Jesse. The elevator is not an indication of excessive expense, but was provided specifically for handicapped students by a grant from one of our national philanthropic foundations. It will also answer the hopes and dreams of all of you who used to congregate on the first floor of Jesse and bemoan having to walk up four flights of stairs.

The entire academic world is off to another hectic year, and of all the serious problems confronting the University, adequate and sufficient housing for all the students who request it, still remains No. 1. Even though University housing is expanding about as rapidly as the local labor market and available funds will allow, by this time next year there will only be space for approximately 500 more students and it is anticipated that 1,000 additional students will seek admission.

Today's chuckle: We hear so much about colleges getting so selective, it might be of interest to know that there are still high school students who exercise their rights of selection, also. Many important and soul-searching questions are asked by potential freshmen when they apply for admission, but one that must take "first place" came from a prospective freshman who asked, "What size diploma does the University award upon graduation?"

Criticism is leveled at the University on various matters and one that you hear quite often is that the University is so big and cold to new students! This criticism is hardly just when one realizes the effort the University makes in trying to assist *all* students to attain their degree. It is true that all high school students in the lower third of their class are asked to take a "probable success" series of tests. On the basis of these tests, they are advised how good their chances are for completing degree requirements. These students are usually allowed to enroll on some degree of "provisional" admittance and will number about 300 each year. What is the success of this program? Statistics show that about one-sixth of this group *do make it*. So it is evident that the University does have a heart and provides every benefit of doubt to the student. Because of this effort, some 50 to 60 students each year complete degree requirements even though the ability tests indicate negative. BUS ENTSMINGER

University enrollment has reached an all-time high. On September 25 the registrations for all divisions had reached 16,124. Of this record total, 12,815 students registered in the Columbia divisions, with 821 attending classes in University resident centers at other points. The University's School of Mines and Metallurgy at Rolla also has a record enrollment—3,309 students.

The University of Missouri Singers, directed by Thomas Mills, will be heard on the NBC radio network program, "Great Choirs of America," on Sunday, November 12, from 8:05 to 8:15 a.m. EST. The selection to be presented will be "How Lovely Is Thy Dwelling Place."

Governor John M. Dalton, Secretary of State Warren E. Hearnes (left) and Allen L. Oliver (right) hold official state flag which was originated by Mr. Oliver's mother and is now on display at the State Capitol.

Alumni family presents official state flag

Missouri's original state flag has been presented to the state by a prominent Missouri alumnus who is the son of the woman who designed it. In a Flag Day ceremony before a joint session of the House and Senate in the Missouri capitol, Allen L. Oliver, Cape Girardeau attorney, handed the flag to Secretary of State Warren E. Hearnes. The flag is to be preserved in an air-proof case and displayed in the State Capitol.

The original state flag was designed fifty years ago by Mr. Oliver's mother, Mrs. Marie Elizabeth Watkins Oliver, who died in 1944 at the age of 90. By common consent the flag had been in her family's possession since it was officially adopted by the state in 1913.

Mr. Allen's mother conceived, designed and created the flag. His father, Robert B. Oliver, an 1877 law graduate of the University, wrote the bill, which was introduced in the House of Representatives in 1913 by Rep. Charles C. Oliver, a Missouri alumnus, after his brother, Senator Arthur L. Oliver, had introduced it in the senate in two prior sessions of the General Assembly.

Governor John M. Dalton introduced Mr. Oliver at the joint legislative session as "one of the great lawyers of our state and my personal and professional friend for more than forty years." Mr. Oliver, who received an A.B. in '08 and the LL.B. in '09, told of the efforts of his mother and father to obtain of-

ficial recognition for the flag.

He explained the "meaning and interpretation" of the flag's various emblems, as authorized by his mother when she made the banner. He said the great seal of the state was "placed in the center of the flag, emblematic of the then geographical center state of the union." Mr. Oliver continued:

"The blue band encircling the coat of arms has 24 stars because Missouri was the twenty-fourth state to enter the Union. This flag embraces all the colors of our national flag, indicative of our beginning part and parcel of the United States. The red at the top signifies valor and courage; the white, purity, and the blue, vigilance, permanence and justice.

"The crescent on the shield, in heraldry, represents the second son, so our crescent denotes Missouri as the second state formed out of the great Louisiana Purchase. The helmet indicates enterprise and hardihood and signifies state sovereignty.

"The great grizzly bears signify the size of the state, its strength and the courage of her people and further represent protection to the state from invasion from every source.

"The design of this flag represents that while we are an independent sovereignty, we are also part of and in harmony with the national government. The Latin motto then, as now, recites that the will of the people is the supreme law of the state."

Your Child

NOT LONG ago, the head of a large testing agency told college educated parents of college bound students: "Enough is now known about evaluating individual abilities and achievements so that any parent who really wants to may view his child as the child will be viewed by the college."

Now this advice seems to be sound and simple. After all, you do receive regular reports from schools on your child's achievement in each subject. National agencies which offer standardized tests provide with the individual test results a manual of interpretation, so that you may know not only your child's scores, but how these compare with state or national groups of students.

You and your child can also discover through material in the school guidance office information on the range of test scores in freshman classes at many colleges.

In spite of all this information, you can't think as an Admission Committee thinks, you can't outguess an Admission Committee, and if you try you may expose your child and yourself to needless disappointment.

This counsel to think as an Admission Committee thinks reminds me of the advice I received once in a deer hunting lodge on the night before the opening of the deer season, when a veteran deer hunter explained to me that "the way to get a deer is to think like a deer." His elaboration of this philosophy was so convincing that I asked and received permission to hunt with him the next day. What a time we had! He studied the wind, the ground, the trails, and then he explained to me how with such weather conditions the deer would probably do this. He stationed me on one old log and he went in another direction.

To make a long story short, I heard a lot of shooting around me; I saw a few deer killed by other hunters, but the expert and I never saw a deer. Apparently some deer were thinking as humans think.

HERE ARE some of the reasons why you can't think as an Admission Committee thinks:

1. Admission Committees act differently each year according to the quantity and "quality" of applicants and the needs of the institutions involved. The ever swelling host of candidates has brought rapid changes in admission standards at every institution.

2. The weight given marks and test scores varies so much among institutions that even veteran school counselors hesitate to make firm predictions on individual cases. I have heard admission officers for

Yale, Wellesley and Harvard state that test scores do not have the importance they once had in selection procedures. The reason is that at the most popular institutions too many candidates look alike when measured by either marks or test scores.

3. You can't know from year to year how much weight admission committees will give to certain other factors: i.e., school and geographical distribution, extra-curricular achievement in art, music, drama, sports or community service, and occupational choice (some institutions limit the number in a class who want medicine, engineering, math or science).

4. You may be able to understand the strengths and weaknesses of your college bound child, but you can't know the quantity and quality of the other candidates at the college chosen by your child. At co-educational colleges girls often meet higher competitive admissions standards than boys—and within a university some schools have higher entrance requirements than others.

Whether your child is accepted or rejected at any college depends not only on his credentials, but even more on how his credentials compare with those of the other applicants.

What then can you do when you want to help your child prepare for college—when you want to guide your child to an institution that will stimulate him fully?

THERE IS only one safe workable program regardless of your child's test scores, his marks, or his other achievements. This is a program that introduces your child to the mysteries of the world and to the excitement of discovery. This program should be started as soon as your child begins to talk and read.

Most children are born with a full measure of curiosity. They want to know what is going on about them and, as you know, the early years are filled with "What?" and "Why?" and "Where?"

If you have the time and the patience to answer these questions, you will nourish this curiosity that is the tap root of all learning. Only the curious learn.

Your child won't be many years old before you will encounter the first question you can't answer. You can shrug your shoulders and say, "Go away and stop bothering me" or "I don't know" or "Let's find out."

If you have the time and patience to lead your child in his probe of the unknown, in his search for knowledge, you will encourage the maintenance of a habit of inquiry. You may also rediscover for yourself the fun of learning.

But this nourishment of curiosity means that a mother cannot be too occupied with community affairs, social teas or bridge parties, and that on some mornings she may have to leave the beds unmade or

Prepares for College

By Eugene S. Wilson

the dishes unwashed until naptime, and Dad may have to miss a golf game. Priorities must be established.

Today there are so many forces working against the development and maintenance of curiosity in a child, forces like the radio, television, the automobile and hundreds of sporting events. All too often curiosity is throttled by spectatoritis, by parents who are too busy, and even, alas, by the rigidities of the school system and the desire of teachers to cover a certain amount of material so that students will do well on their tests.

If you want to help your child get into a college, you will always be aware of what your child is studying in school and especially what he is reading. Your reading will supplement his reading and your learning will mesh with his so that you will be in a position to stimulate his further learning by your answers to his questions. Learning becomes even more fun when it is shared by all members of the family.

The child who is a natural reader presents no great problems. If your family includes a non-reader you have a special problem, but one which can sometimes be solved by introducing him to books which feed his natural interest. A librarian will help you select books which deal with baseball, with the mechanical world, with birds or animals, and, later on, books on electronics, chemistry, music or art. Once your child has learned the fun of reading in the field of his special interest, there is a chance that he can be led into an exploration of other fields.

YOU MAY wonder at this point why I have said nothing about marks and test scores. The omission of these two tyrannies is intentional. When learning is in its rightful place, marks and test scores follow learning. Today so much emphasis is placed on the difficulty of winning admission to college and on the importance of tests and marks that all too often marks and tests have become the goals of learning rather than the by-products. When marks and test scores are made the primary target of learning, real learning is lost.

The school report cards give you an opportunity to place marks in proper perspective. Instead of asking "What did you get?," try, "What have you learned?"

It is up to you to de-emphasize the marks and test scores and to help your child focus on reading, writing and learning. An approach like this as preparation for college helps your child to understand that learning is something he does where he is and that all about him are people and books which will help him learn. Under such a program your child will see that his understanding of the world does not depend on whether he is in Boston, or in San Francisco, or in

Yankton, but on how much advantage he takes of the opportunities around him. If your child is reared in this manner, neither he nor you will worry about whether he gets into Harprince, Dartale or Calford, but only that he gets to a college where he can talk to teachers, where he can read books, where he can work in the laboratory.

And now you may want to say, "Yes, but he may not get into a good college. He may not get into the best college. He may not get into my college." Actually, no one knows what a good college is. No one knows which colleges are best. Harvard does have more graduates in *Who's Who* than any other institution, but considering the human material that has poured into Cambridge, Massachusetts, from all over the world for centuries, why doesn't Harvard have twice as many graduates in *Who's Who* as it does? Harvard could be doing a very poor job educationally and yet seem to be the top educational institution because of the intellectual drive and ability of the students who go there.

The head of the Department of Religion at Yale University is not a Yale man. He came from Dakota Wesleyan. The head of all health services at Harvard is not a Harvard man. He came from the University of West Virginia. The former president of Princeton was not a Princeton man, but a graduate of Grove City College in Pennsylvania. The misery and torture of today's college admission comes because parents have taught their children to think that learning is a matter of geography; that learning can take place only in certain institutions.

The wise parent who has created in his child a desire to learn will approach the whole problem of college admission with one philosophy: "Go where you can get in, my son, and know that a great opportunity awaits you to discover more about people, more about ideas, more about things—more knowledge than you will ever master in the four years you are in college."

When this approach to college admission is taken by an entire family there can be no heartbreaking letters in the mail, no crushed egos, nothing but delight at any letter that brings news of acceptance, news than an adventure in learning lies ahead.

'Kickoff' time for alumni activities

The second annual Alumni Day, held on the campus September 23, resembled in many respects the first such event staged a year ago. The same high attendance—around 300 persons—was on hand; the degree of interest and enthusiasm appeared to be equally as high as last year; and the setting was the same: business session in the Fine Arts Building's recital hall (its first public use was by the Alumni Day delegates in 1960) and luncheon at Memorial Student Union.

Each section of the state was represented as county chairmen and committee members came to Columbia for the gathering which traditionally starts off a new year of alumni activities. This time leaders from Indiana, Oklahoma, Illinois and Tennessee were in the group. After registering in the lobby of the Fine Arts Building, the alumni entered the recital hall for the business meeting. There they heard talks by the national president, J. Gordon Blackmore of Trenton; G. H. Entsminger, director of alumni activities; and Jean Madden, assistant director. The speakers told what progress the University of Missouri Alumni Association has made in the past year, explained operations and programs of the association, and called upon the leaders to be ready to help the University in

its programs at all times. A recent brochure, "New Alumni Frontiers," was discussed; this publication reviews Association activities and includes a personnel directory.

The large ballroom of the Student Union, scene of the annual President's Luncheon, was virtually filled. The alumni's host, President Elmer Ellis of the University, addressed the group, telling of University advances and needs, and stressing the role that alumni play in the institution's progress.

Six awards were presented at the luncheon. Mr. Blackmore presented the Past President's Award to William R. Toler of Columbia, who preceded him in office, and Consulate awards to two former University Curators, Fred V. Heinkel and Randall R. Kitt.

President Ellis presented certificates of appreciation to three Kansas Citians who led a fund solicitation campaign. Honored were Douglas Burrill, Jr., who had a big role in the drive; Curator Doyle Patterson, and Charles T. Daniels. The Kansas City campaign resulted in a considerable contribution to the University from alumni in the Kansas City area.

The alumni leaders were also guests of President Ellis at the opening football game that afternoon.

William R. Toler, former president of Alumni Association, with two former Curators, Fred V. Heinkel and Randall R. Kitt.

John Smith and Mr. and Mrs. John Cassell, of Stockton, Mo.

Honored for special alumni project in Kansas City were Doug Burrill, Jr., Curator Doyle Patterson and Charles T. Daniels.

Mrs. Pat Jones and Mrs.
Mary Lee McHenry of
Jefferson City.

The 'Kickoff' continued

Among those introduced at the luncheon were Mr. and Mrs. Joe C. Hoover of Chicago. Joe has spearheaded concerted drive to get Chicago area alumni together on organized basis, and big meeting is set for November 1.

Miss Pauline Hamra, Indianapolis,
Mr. and Mrs. A. G. Eddy, and
Vic Swyden of Kansas City.

Howard Broemmelsick of Memphis,
Tenn., greeted by Cullen Coil,
Jefferson City, at left.

McNeely A. T. & T. president

Eugene McNeely

For the second time in recent years, the largest public utility corporation in the world is headed by a Missourian who is an alumnus of the University.

Eugene J. McNeely of Jackson, Mo., who received a bachelor's degree in electrical engineering in 1922, has been elected president of the American Telephone and Telegraph Company in New York. His predecessor, Frederick R. Kappel, now chairman of the board, succeeded Cleo F. Craig of Rich Hill, Mo., who graduated from the University in 1913 with a bachelor's degree in electrical engineering.

Mr. McNeely came up all the way through the ranks after he began his career as a student engineer with Southwestern Bell Telephone Company at St.

Louis in 1922. He rose through its plant department in Missouri and Arkansas and was appointed general plant manager at St. Louis in 1947. He joined A. T. & T. in 1948 as assistant vice-president for personnel and was named president of Northwestern Bell Telephone Company at Omaha, Neb. the following year. Mr. McNeely returned to A. T. & T. as a vice-president in 1952 and was appointed executive vice-president in 1955. In 1957 he received the University's award for Distinguished Service in Engineering. He is a director of several Bell Telephone companies, the Continental Oil Company, and is a trustee of the Columbia University Teachers College.

Mrs. McNeely is the former Eunice Miller of Kansas City, Mo. They make their home in Manhattan, New York.

When he was a youth, McNeely truly had a difficult time. His mother died when he was 16, his father died two years later. He sold magazines, did household chores for neighbors and worked in a canning factory. Today, in the huge building occupied by A. T. & T. at 195 Broadway, he is head of an organization that employs 730,000 persons, provides 61 million telephones and has two million stockholders. At present Mr. McNeely is involved with space matters. Satellites will play an important part in communications, and his company is eager to be out in front of the new developments. He said A. T. & T. has a contract with the National Space Agency to put up a satellite in April to test the durability of the 'hardware' in it.

LaPierre moves up at G.E.

Cramer W. LaPierre, who attended the University's College of Engineering from 1922 to 1924, has been elected executive vice-president and a director of General Electric Company.

Mr. LaPierre was born in Jackson, Mo., the same town that produced another top executive, Eugene J. McNeely, M.U. alumnus who has become president of A. T. & T. Mr. LaPierre joined the General Electric Engineering Laboratory in Schenectady, N. Y. in 1924 after attending the University.

He left G.E. in 1947 to become vice-president in charge of engineering for the American Machine & Foundry Company in 1947 and a director in 1948-49. After two years he rejoined General Electric Company to be assistant manager of the aircraft gas turbine division. When he was elected a vice-president he became general manager of this division at Evandale, O. That was in 1953, another step in his steady advancement.

Mr. LaPierre returned to the University campus in 1955 to receive the Missouri Honor Award for Distinguished Service in Engineering. He was cited for "outstanding achievements in the fields of engineer-

Cramer W. LaPierre

ing design and management; his leadership in the development of atomic energy apparatus and aircraft gas turbines; his high ability to understand his fellow men, to provide effective and responsible leadership in large engineering undertakings in the field of national defense."

In 1937 Mr. LaPierre received the Charles A. Coffin Award, General Electric's highest recognition for outstanding service, for his development of the photoelectric recorder.

Impressions from afar

By Ram Nandan P. Singh

I was busy securing my passport and necessary paraphernalia for my trip to the United States. What clothes I would need, gifts I needed to buy, people I would have to visit before I left—these and lots of other ideas occupied my mind. As the final days approached I went to my village home. The old, the young—most of whom had not even visited a big town—thronged around me. I could see excitement written on their faces. Going to the United States was to them like going to the moon. They had vague ideas of how great, wealthy and fascinating this country is. America was located exactly on the other side of the globe. The elders warned me, "Do not get lost with the *mem sahebs* (the white ladies)."

I touched my father's feet in great reverence. Mother was visibly moved. I could see tears trickling down her eyes. Finally she said, "Go well, do well and return well." The Air India plane roared up into the air, with my mind heavily occupied with thoughts of those behind and uncertainty of events ahead. The plane touched Bombay and hours later I was quite a way through my journey to the fabulous United States.

On the plane, I recollected some of the hasty orientations given by the American personnel in India. The country with its great ideals of democracy, free enterprise, and great technological advances. The colleges in the U.S.A., I was told, were like banks "where you can cash your earned credits" just like you cash your money. This seemed very pleasant, for in India if the continuity in your college work was broken or the institution changed, that meant wastage of the entire effort. I was also told that American women had more freedom; "the hands that rock the cradle rule the United States."

Finally, as I landed at the New York Air Terminal, I saw the land was all white (I had never seen a snowfall before). Greeted by pretty looking girls who wore badges labeled "American Friends for Foreign Students," I passed through the exhausting ordeal of the customs officials and was taken to a

hotel. I looked around the hotel room, which was automatically heated. In London even in good hotels you have to drop a coin to get an hour or so of heating. But food was not served in the hotel.

I went around to see the U.N. and the Empire State Building. What fascinated me most during my stay was this inscription on a wall opposite the United Nations Building: "They shall beat their swords into plough shares and spears into pruning hooks. Nations shall not raise swords against nations and they shall not know of war any more."

As I mixed with fellow foreign students, I felt comfortable. After all, they had the same problems as I had—the homesickness, the sandwich sickness and the cold sickness.

As days passed, the spectacular phase slowly came to an end, as I attended classes, visited stores and met people. Here everything was in a sort of hurry, people were busy. Courses were condensed to finish within a semester, and added to all these was the system of "pop quizzes" and term papers. I must, however, add that the Student Union was so attractive with television, magazines and easy chairs.

I went into a store and to my utter surprise, the gate opened automatically and closed by itself. Very much excited I asked an American friend as to what this magic could have been. He told me this worked on the principle of photo-electric cells. There were two lights on each side of the gate and, as I passed, explained my friend, I broke the light beams and so the circuit was broken and thus the gate opened. I immediately wrote to my younger brother, then a junior in a science college, about it and how it worked.

In and out of class I met curious and smiling young Americans. They were all very eager to know. It is a truism that Americans have developed a fine sense of humor, actually have developed it as a national character. This, it seems to me, helps them in easing the tension and avoiding conflicts. Surely a lesson for others to learn.

I would suggest that foreign students, instead of being shy and withdrawn, should actively associate with the American boys and girls and treat them with a smile and warmth.—Mahn Je Kim, Korea; Ph.D. candidate in economics.

Since I came to this country I became an ardent fan of major league baseball games and football. Last year I was one of the loyal fans of Mizzou football team, though I was deeply hurt when they lost a game to K. U.—Oscar L. Cross, Mexico.

The people of Columbia opened their doors for foreign students (have also opened their closet doors when needed). In many of these situations one gets a great boosting of his or her ego. One feels wanted and even honored. How strange it looks, but people wearing different clothes, speaking different languages and professing different creeds respond with equal friendliness and strive for noble ideas with equal force. In this and in many other ways I found a familiar and uniform pattern in the adjustment process of a foreign student (I still like this name and think it is very appropriate, at least for administrative purposes). I feel the University of Missouri truly represents a miniature world laboratory.

I strongly believe that considerable progress has been made in breaking up educational and cultural barriers and, with the exceptions of a few maladjusted individuals, the international exchange has functioned very well. Generally speaking, most of the students do honest labor and try their best to learn the skills and knowledge given them by the host country. However, there are a great deal of lighter sidelights. One, for instance, was when I overheard a foreign student, a girl, complain the other day: "People are always asking me 'Is Argentina the capital of Brazil, or Brazil the capital of Argentina?'"

As I prepare to leave, several ideas come to mind. Someone had rightly said, "If you stay at a new place longer than a year you are used to it." The lovely familiar campus surroundings, even small pebbles, were so familiar and friendly. The teachers, the friends were all so cordial; it seems terrible to leave them. Then also the uncertainty of home environment, the surprise of newcomers, the changed expectations of friends (due to my sojourn abroad) and the fact that even children in my family and others would have grown up—these create tensions in the mind. What will it be like to be back home after a couple of years in the United States? Almost everything would have changed a lot. But I have to be prepared for the change.

I have been in this country for about three years. Since I came from a British colony (Fiji Islands) I did not encounter any difficulty in language. However, when I first came to Missouri, one of the girls asked me to have a "date;" I was so much confused, that I said it was the 12th of September. Another incident, after having a cup of coffee in a cafe, I paid the cashier, who said "Thank you, come back." Then I returned back, astonished, only to learn that this was an American gesture.—Shiv Shanker, Fiji Islands (Br.)

One thing that impressed me in America is the ability of the American women in doing efficient and rather hard work, in their homes, offices, also in the other fields. Still they appear to enjoy their life well. The Americans in general respect the dignity of labor. I have seen here a minister of the church who did not hesitate to take up a janitor's job. Certainly this is a lesson to the people of my country.—Mrs. Amminy Chaco, India.

It is suggested that the American people should encourage more students from abroad, especially from the Far East and the Middle East, to come and further their education. I think this is the only approach toward peace and understanding.—Joseph G. Uy, Manila, Philippines (Department of Physics).

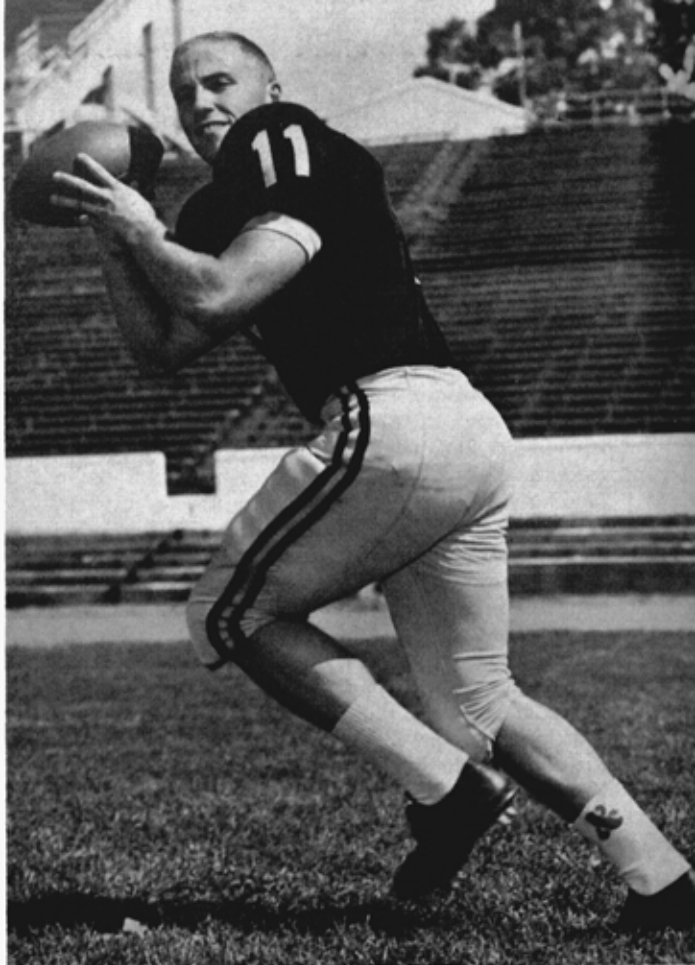

Ram Nandan P. Singh, India, the author of the foregoing article, is a candidate for a doctor's degree in rural sociology at the University.

The average American individual is very nice and inquisitive. When I came here the difficult job was to adapt to food without spices, absence of rice and, of course, to the language. Let me add however, people often ask me, "Is Arab the same as Israel?"—Hashim A. Dabbas, Amman, Jordan; Ph.D. candidate in political science.

Carl Crawford

Daryl Krugman, injury-plagued quarterback, has been used mainly for punting, which has played a big role in the Tiger defense, especially in the game at Minnesota, played in rain and mud.

Quarterback Ron Taylor surrounded by some of Missouri's key linemen and backs. From left are tackle Ed Blaine (66), fullback Andy Russell (30), halfback Norm Beal (21) and end Conrad Hitchler (83). Beal and Russell play some defense as well as offense.

Tigers build slowly for Big Eight race

The Missouri Tigers finished their pre-conference intersectional schedule with two wins and one tie, certainly a respectable beginning, but they gave no clear indication of how far they might go in the Big Eight campaign. Most fans were convinced that Miz-zou in 1961 is a team of considerable potential, retaining much of its poise of a year ago and possessing a better passing threat. Those who were almost ready to go all-out with exuberant forecasts of great things to come, after the two opening victories, were more somber and realistic after the third game, in which Missouri came from behind to gain a tie. They were hopeful, but reserving judgment, as conference play got underway with prospects of a rough and tumble season in which four or five upcoming opponents could easily prove tougher than the teams faced by Missouri outside the Big Eight.

Before a crowd of 37,000, an all time high for a home opener, the Tigers disposed of Washington State 28 to 6. On that warm day the Tigers were a bunch of opportunists, profiting greatly by four interceptions and three recovered fumbles. Carl Crawford had two interceptions, Jim Vermillion and Andy Russell one each. The Tigers' spunky little quarterback, Ron Taylor, displayed his usual confident leadership as well as more effective passing. Actually, Missouri gained one more yard through the air than on the ground—165 to 164—on nine completions in 19 attempts. The power sweeps of a year ago were missing; eight yards was the longest run of the day for the Tigers. The Cougars' famed aerial duo—Melin to Campbell—was reasonably checked, although 156 yards were marked up on 17 passes in 34 attempts. Missouri had a comfortable lead in the fourth quarter, a luxury that allowed many reserves, including 11 sophomores, to get in the game.

It was an expensive victory, however. Jefferson City's Keith Weber was lost for the season after seeing only six minutes of action. The triple threat quarterback suffered torn ligaments and had to undergo knee surgery, which was termed successful. Head Coach Dan Devine said: "In losing Keith Weber, the most promising and exciting sophomore back I've ever coached, I feel that we lost a fine athlete who would have contributed much to our football squad this season. It is always tragic when a crippling injury cuts down a brilliant, young athlete—particularly a boy like Keith who had looked forward to the day when he would quarterback a University of Missouri team."

The second game, against Minnesota, was played at Minneapolis in the worst possible weather conditions—rain, cold and snow. This hard-fought defensive struggle went to the Tigers, 6 to 0, an advantage gained in the second quarter on a quick 30-yard drive highlighted by Hunter's 24 yard pass to Crawford on the six, with Bill Tobin going over from the one. The pass was similar to one tossed by Hunter in the W.S.U. game to Tobin for a 26-yard score, each play originating as a pitchout from Taylor.

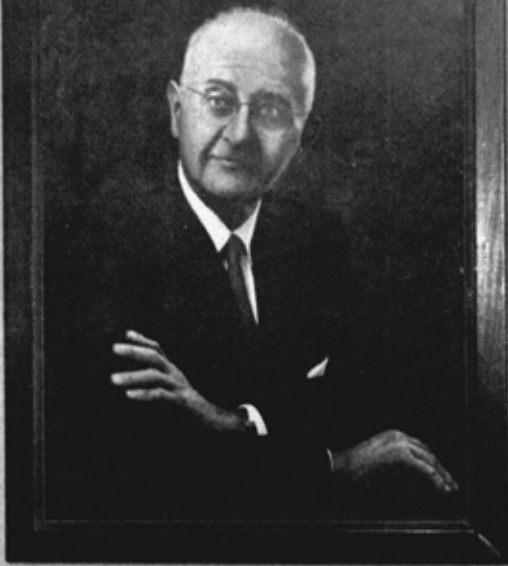

Devine said there were all kinds of muddy heroes in the win over the Gophers, and at the top of the list would have to be Daryl Krugman, clutch punter, quarterback Taylor, and halfback Crawford, whose two interceptions and catch of Hunter's pass were big plays. Krugman punted the heavy, slippery football eleven times for a 34½ yard average. Once a 47-yard kick rolled out on the Minnesota 1½ yard line to set up the lone touchdown. Another time, Krugman handled a wide snap from center, ran to his right and kicked the ball beautifully while on the run.

Two games and two victories, but still there was no evidence of a running game to compare with last year's; the Minneapolis mud kept Tiger ball carriers down to a net of 72 yards. A statistical oddity: Andy Russell alone gained 75 yards, but other ball-carriers had a cumulative loss of 43 yards.

California was the next opponent, coming into Memorial Stadium Oct. 7 to wind up the intersectional games. The Golden Bears had met two highly ranked teams, Texas and Iowa, and lost by more than 20 points to each, but they had played without the services of their injured quarterback, Randy Gold. Tiger coaches tried to sound the alarm at his return and at the same time to point out that California held its first two opponents very close well into the second half. But optimism was running high, and the gamblers whose odds are featured heavily in the daily prints were figuring Missouri to win by 20 points.

The Tigers scored in the first quarter on a long march and few of their followers minded too much when a two-point conversion attempt failed. For the next two quarters more than 42,000 fans sat surprised and subdued as California increased its one-point lead at halftime to 14 to 6 in the third. Well into the fourth quarter, the Tigers made their move;

Oil portrait of Dean Emeritus Bradshaw which was presented to University by Alpha Kappa Psi.

Sizing up a retired dean

Dr. William L. Bradshaw, Dean Emeritus of the University's School of Business and Public Administration, where he continues to teach classes, is the subject of the lead article in the September-October issue of *Business and Government Review*, published by the School's Research Center. The article, written by Oliver F. Fink, assistant director of the University's Office of Public Information, traces the great expansion of the School under the deanship of Dr. Bradshaw. It also includes the following personality sketch:

"The man who saw the School through 15 years of unparalleled growth—in students, in staff, in facilities, and in prestige—is one of the best-known personalities on the campus. Outspoken, positive in his views and ready to express them, though also equally ready to debate them, he presents a first impression of sharpness that actually covers a kindly, understanding, perceptive nature—a man who likes people, is interested in their problems, has an extraordinarily wide acquaintance, and is at any time ready to help out with public or private affairs where help is needed.

"Members of his staff have almost always felt they could get a sympathetic hearing from him and a decision in the interest of the School. He never turned down a proposal from one of them without first wanting to know how it could be carried out and what the results would be, and if he accepted it, he backed it fully. The faculty always felt free to go to him with new ideas.

"Anyone who wants to see him has ready access to his office, whether faculty, students or visitors. He likes to talk to people, and his conversation is inter-

laced with humor, witticisms that often touch on sarcasm, outspoken and sometimes caustic appraisals of people or situations, and sharp observations; he never fails to hold the attention of his listener. He has always been in great demand as an after dinner speaker and lecturer. Because he can keep his lectures alive, many students who have taken his courses look on them as among the most interesting in the School.

"He is held in high respect by the B&PA students. He does not hesitate to criticize and scold if he feels such action is needed, but he always tries to understand their problems and is always ready to help and advise. He has set high standards of achievement for the students, and he expects them to come up to those standards; if they do not, he 'takes them apart' as one staff member described it. Then he is ready to work with them, if they show willingness to try. If he suspects they are trying to get by without working, he loses patience.

"He is credited by his staff and friends with a 'phenomenal' memory, which covers individual students' records, the smallest details of events and people throughout the state for many years, and the major changes in the University. He keeps in close touch with School activities. If he delegates a responsibility to a staff member or student, he does not interfere.

"The secretarial staff in the School, like most people who work closely with him, has come to regard him with considerable affection because of his interest in them, lack of stuffiness and pretense, and failure to blame them unduly for mistakes. He enjoys having coffee with them in the conference room adjoining the office.

"Essentially modest despite his extrovert character, he shows embarrassment when praised, and is inclined to pass off tribute in public with a humorous quip. Nevertheless, he is proud of the honors he has received, especially of the tribute paid him by alumni, students and faculty in awarding him the Alumni Citation (April, 1961). Another thing that touched him deeply was receipt of an appreciation award in 1959 from Alpha Kappa Psi, national professional business fraternity, and its University chapter. The award was presented to him and six other faculty members with at least 25 years of service.

"Second only to his interest in the School of Business and Public Administration and its progress as a teaching and research institution is the Dean's interest in politics. Not as a *politician* but as a student of politics and political science, and his interest covers the entire field, with emphasis on political parties (his first love), legislation, and local government. He is a partisan in party politics, and doesn't hesitate to make it known.

"That partisanship does not enter into his teaching, his judgment of issues, or of his appraisal of political trends and politicians. His overall attitude toward politics is thoroughly objective, and he discusses politics—one of his favorite conversation pieces—with shrewd insight, lively and sometimes caustic comments on politics and politicians, and perceptive, non-partisan analysis."

W. B. Smith

Titan vs. Taboo

Warren Browne's *Life of William Benjamin Smith*

Book Review by Harry Rubey

Unfortunately no institution can boast of many scholars of really outstanding ability for great intellects are and always have been relatively rare. Our own university has a number of such to its credit. William Benjamin Smith, in particular (1850-1934), is a shining example, if the attention given to his published works in many subjects, the comments of his colleagues and reports from his students are competent criteria. He taught physics and mathematics at the University of Missouri from 1885 to 1893, before joining the faculty at Tulane University, where he went on to win renown in many fields, especially in mathematics and Biblical criticism. The University of Missouri awarded him an honorary degree of LL. D., in 1931.

Smith is receiving attention at this time because an interesting biography of this great scholar has recently been published* entitled *Titan vs. Taboo: The Life of William Benjamin Smith*. The author is Warren Browne, a former student, 1912-1915. While attending the University of Missouri, Mr. Browne was Business Manager of the 1915 *Savitar* and won his letter in track as a pole-vaulter. He has had a varied career as an athletic coach, investment banker and Professor of Finance at Northwestern University, from where he was retired recently with Emeritus rank.

The book presents an easy-reading word picture of Smith's remarkable career. It is a story of a precocious child of indomitable disposition, soaring ambition, a photographic memory and an inventive imagination. From his paternal grandfather, who wrung a sizable fortune from the Kentucky wilderness at the beginning of the nineteenth century, farming and trading in land, cattle and slaves, he apparently inherited his strong-willed, determined nature; and from his father, a lawyer-turned-farmer, who was known as the "walking encyclopedia," he received his incredible intellect.

Mr. Browne has done a massive research on the life activities of the late mathematician, philosopher, poet, linguist, and Biblical critic of Missouri and Tulane Universities; his story reveals that Smith's scholarly

achievements have merited praise from highly-competent judges which can be adequately described only as fantastic. Here are some samples among many:

From the *Town and Country Review*, London:

In the intellect of William Benjamin Smith, America seems to have produced the nearest approach to the universal mind since the other hemisphere was illumined by that mental meteor Johann Wolfgang von Goethe.

From the late Cassius Jackson Keyser, Adrain Professor Emeritus of mathematics, Columbia University:

Of William Benjamin Smith it may, I think, be said, without extravagance, that our country has had no greater scholar, no profounder or more productive investigator, no more versatile genius, and none more completely devoted to the higher interests of the human spirit.

Eulogistic editorial in the New Orleans *States* at the time of Smith's death:

His was one of the most remarkable minds that has ever shed its brilliance in this world—many-sided as a diamond. He was a colossal mathematician, an erudite philosopher, a deep Greek scholar, and a poet of astonishing richness. . . . His knowledge was world-wide in scope, his mind as keen for modern discovery and speculation as for ancient lore.

Smith grew up on a farm in northwestern Missouri near St. Joseph. He learned his three R's plus Latin in a private school where the one instructor was so busy with excess enrollment that Smith literally taught himself. But he did so well that when he took the entrance examinations in 1867 at Kentucky University, which later became the University of Kentucky, he received advanced standing in every subject. Three years later he graduated with highest honors.

An appointment to the faculty followed immediately and permitted Smith to continue his own studies, culminating in a Master's degree in 1871, and carrying a citation "for special proficiency in German, Italian and Hebrew." By this time he was already well-grounded in Latin and Greek, and later became skilled in Sanskrit. He continued as a teacher and during the next three years built up an enviable reputation. He next taught mathematics and Latin for two years (1874-76) at St. John's College, Prairie du Chien, Wisconsin, and then decided to obtain

*The Diogenes Press, P. O. Box 593, Columbia, Missouri.

his Ph.D. degree abroad. After careful consideration of various German universities he chose Göttingen, and three years later in 1879, he received the degree, again with highest honors.

On his return to the States his first important teaching experience was as Professor of Mathematics at General College, Fayette, Mo. In 1885, he moved to the University of Missouri. During this period he wrote several mathematical texts which established his reputation as a competent mathematician. He also gave attention to the subject of Biblical writings and wrote and published a number of articles in the *Unitarian Review* of Boston. During his time at Missouri, he wrote a biography of James Sidney Rollins (Father of the University of Missouri) and further to show his intellectual versatility he produced an article on the subject of the Protective Tariff which received praise from high places. At this period he participated in some of the University's administrative problems which earned him both enemies and many devoted friends. The cleavages resulting from these issues were the cause of him casting his lot with Tulane University in 1893.

At Tulane he became more and more interested in the study of Christian scriptural literature and his writings in that field soon earned him a deserved reputation as a Biblical critic. In this capacity he spoke before the Congress of Arts and Science, Section of the New Testament, at the Louisiana Exposition in St. Louis, in September 1904. In the audience sat the distinguished Liberal theologian, Dr. Otto Pfleiderer, of the University of Berlin. He was astounded over Dr. Smith's declarations and not only urged him to carry on his investigations but promised to aid him in finding a German publisher; thus it was that his views were incorporated in the German language and printed in Germany under the title of *Der vorchristliche Jesus* (The Pre-Christian Jesus).

The publication of this book not only created a tremendous furore in German Biblico-critical circles but established Dr. Smith as a scholar of phenomenal magnitude. When President Jesse went abroad in 1907, he was besieged by European scholars for information about the great scholar, "The American," William Benjamin Smith. Other scholarly laurels at this period of his life were commissions for articles on New Testament Problems, and the Infinitesimal Calculus, from the *Encyclopedia Americana*; still later they engaged him to write a comprehensive series on the Bible. These he accomplished in such a manner that they stood the test of inclusion in that compendium of human knowledge for more than three decades. Also about the same time he wrote the mathematical definitions for Webster's *New International Dictionary*, another colossal scholarly achievement.

Still later (1911), he amplified his views on the origins of Christianity in another German-printed book bearing the title of *Ecce Deus* (Behold God). This work was subsequently translated into English and ran to two editions.

Many other achievements added to Dr. Smith's stature. He won a national poetry competition in 1906; in 1908, he was signally honored by President Theodore Roosevelt by an appointment as one of ten delegates to represent the United States at the Pan-American Scientific Congress, held at Santiago, Chile; and his published translation of Homer's *Iliad* from the difficult dactylic hexameter of the Greek into a homometrical line for line English version is hailed as a marvelous achievement by Greek language specialists.

Dr. Smith was the antithesis of a materialist; he believed implicitly in a spiritual universe. To him there was a definite purpose in the universe around us and he would unhesitatingly defend such a view against any and all materialistic arguments. In fact, his entire philosophy was a version of Berkeleyan Idealism, the view that so-called material things exist only in being perceived.

As he grew older Dr. Smith became more and more a philosopher and this caused him to transfer from the Chair of Mathematics at Tulane to that of Philosophy in 1907. When the change was made the enrollment in the Department of Philosophy increased fifteen hundred percent, as not only students but faculty members as well flocked into his courses to listen to his gifted expositions of the fundamental verities. And when he retired, the enrollment dropped back to its former levels in spite of an excellent successor.

William Benjamin Smith retired Emeritus at 65 in 1915, and continued to live in New Orleans, but, when his oldest son died in 1924, he returned to Columbia in order to be near his son's widow and his granddaughter who lived at Fayette. He resided in Columbia until his death on August 6, 1934.

Dr. Smith entered the arena in many of the controversial issues of his day but, since no one has successfully argued against or disproved his scholarly and objective contentions that often ran contrary to the taboos of his generation, and since he made no attempt to present them popularly, his name has been allowed to fade away. The author of *Titan vs. Taboo* is to be commended for excellently and attractively re-creating and reporting the essential features of the life of William Benjamin Smith; the reader of the book should find inspiration and pleasure in following the career of a great scholar whose work covered so many facets of widely varying fields. Scholars, students and librarians will appreciate the thorough footnotes and index as well as the extensive bibliographies covering the fields of Dr. Smith's writings and interests.

This reviewer was privileged to know Dr. Smith intimately during the last decade of his life and found him, as did his many friends, to be an interesting, amiable and entirely admirable character as well as a gentleman and scholar of the old school in the finest interpretation of that somewhat outmoded cliché. He retained his keen interest and intellect to the end.

Lorantos' work for blind

George Gean Lorantos, A.B. '53, is assistant director of the National Braille Press, Inc., printing house for the blind, at 88 St. Stephen St., Boston, Mass., a position he has filled since 1955. For two years after his graduation Mr. Lorantos was employed by the State Division of Welfare in Jackson County, Missouri, where his work was typing case histories.

In his present work with the charitable organization, Mr. Lorantos says his University training has been most beneficial. He has made use of courses he had in business administration and in public speaking. He has addressed many service clubs and other organizations. Mr. Lorantos' duties also include editing *The Weekly News*, said to be the only current events magazine for the blind in the western hemisphere. It is published for free distribution in the United States and fifty foreign countries.

As assistant director and National Braille Press representative, Mr. Lorantos has established recording units in various localities. Twelve men at the Massachusetts Correctional Institution, Norfolk, were trained to read for the blind on magnetic tape recorders. Thirty-seven men at Walpole Prison have been formed into a similar project. At Framingham Women's Correctional Institution, twelve women are learning hand transcription in braille in order to transcribe books into braille for blind children in the public schools. These services are offered to the blind free of charge. Last year the twelve men at

Norfolk completed 1900 two-hour tapes covering 317 books.

Mr. Lorantos and his wife live at 23 Hillcrest Road, Medfield, Mass.

Geologists tour Britain

A member of the University geology department and three M. U. alumni were among twenty geologists chosen from the United States for a six-week geological tour of the British Isles. They were chosen by the American Geological Institute and the trip was sponsored by the National Science Foundation. The four, recently returned from the International Field Conference for Geology Teachers, are Dr. J. W. Valentine, assistant professor at the University; Marvin J. Andresen, Ph.D. '60, assistant professor at the University of Alaska; Frank D. Holland, A.M. '50, professor at the University of North Dakota; and Leo A. Thomas, A.M. '42 and Ph.D. '48, professor at Iowa State University.

In England they studied the classic type sections described and studied by the early British geologists, and which have become the reference standard for all the world. The group was guided by geologists from British universities and from the Geological Survey of Great Britain.

Geology alumni from the University will attend a breakfast in Cincinnati in connection with the meetings of the Geological Society of America. The breakfast will be at 7:45 a. m., Nov. 3 at Mills Cafeteria.

University President Elmer Ellis (center rear row), members of the Alumni Liaison Committee of the University Veterinary Medical Alumni Organization, and members of the Advisory Board of the School of Veterinary Medicine meet in Dr. Ellis' office for a conference on coordinating activities for future growth of the School of Veterinary Medicine. From left are: Front row—Dr. G. T. Barrows, Macon, Mo.; Dr. E. R. Price, Jefferson City, Mo.; Dr. Robert Hertzog, Lee's Summit, Mo., president elect of the Alumni Organization; Dr. James Evans, St. Charles, Mo.; Dr. Laurence Greer, Centralia, Mo.; Dr. C. R. Omer,

Jefferson City, Mo.; and Dr. Elmer Blum, Crystal City, Mo. Rear—Dr. F. D. Gentry, Springfield, Mo.; Dr. L. A. Rosner, Jefferson City, Mo., Missouri State Veterinarian; Dr. L. N. Atkinson, Kirkwood, Mo., chairman of the Advisory Board; Dean A. Holland Groth of the School of Veterinary Medicine; Dr. Ellis; Dr. John P. Hickcox, Kansas City, Mo., chairman of the Liaison Committee; Dr. W. R. Sheets, Farmington, Mo.; Dr. Paul Spencer, Jefferson City, assistant State Veterinarian; and Dr. James McCrea, Platte City, Mo.

Joins staff of *Alumnus*

Elly Ellzey is the new class notes editor of the *Missouri Alumnus*. Her husband, W. Clark Ellzey, is a former student of the University, and a member

Elly Ellzey

of the Stephens College faculty. Mrs. Ellzey succeeds Betty Griffin, who resumes full-time office duties. The new class notes editor recently was selected as executive director of the University YWCA, which has offices in Read Hall, home base also for the Alumni Office. She has studied in Europe and in this country. Mr. and Mrs. Ellzey live at 1626 Bass Avenue in Columbia. They have a daughter, Sandy, who is a student in Stephens College and a son, Bill, who is a junior at Hickman High School.

Homecoming events are set

The 1961 Homecoming weekend of Oct. 27-29 is organized around the theme, "Tigers Roaring With the 20s." Nebraska will be the Tigers' football foe on Oct. 28. Activities include a snake dance before Romp, Stomp and Chomp—a combination rally, dance and dinner—which starts at 6 p. m. Oct. 27 at Brewer Field House with Marching Mizzou providing the music.

The annual Homecoming parade will begin at 9 a. m. Oct. 28 from Memorial Stadium. The coronation ball starts at 8 p. m. at Rothwell Gymnasium.

Judges picked these seven finalists for Homecoming Queen: Carolyn Bear, Columbia; Anne Flanery, St. Louis; Margie Isbell, Columbia; Gerre Kaller, St. Louis; Sandy Morris, Liberty; Sharon Raftery, St. Louis; and Jan Vollenweider, Seymour.

Honors, new job for Jaeger

Chester G. Jaeger recently completed thirty years as chairman of the mathematics department at Pomona (Calif.) College upon reaching 65, the mandatory retirement age there. At Commencement Dr. Jaeger was given a \$1,000 Distinguished Professor Award for outstanding service to the college. In addition he received a gift of \$1,000 from the men's alumni group for travel. He and Mrs. Jaeger went to Hawaii during the summer.

Dr. Jaeger this fall became professor of mathematics at Claremont Men's College, another one of the colleges in the group of colleges at Claremont.

He holds four degrees from the University: A.B., '20; B.S. in B.A., '21; A.M., '24; and Ph.D., '27. He was a member of the Claremont city council for eight years and mayor for four. He was chairman of the Los Angeles County Committee of Mayors for a year,

and chairman of the Southern California Athletic Conference, 1941 to 1961. He is co-author of a college textbook, *Introductory College Mathematics*, published in 1953. Dr. Jaeger has taught at M. U., Tulane University and Wayne State University.

Upon his return from Hawaii he found two fine boxes of mathematics books to be given to Pomona College, but no one obtained the name of the woman who gave them, and he has been unable to thank her.

Kinder serving in India

Quinton B. Kinder, professor of poultry husbandry at the University left for India last month to serve for two years as a poultry consultant under the University of Missouri India contract at Assam Agricultural College at Jorhat, Assam, in eastern India. He will also serve as consultant in the four states of Bihar, Assam, Orissa, and West Bengal.

The University maintains a staff of educators in India under contract with the International Cooperation Administration to provide technical assistance and aid in improving food production.

Prof. Kinder's service there will consist of preparing operational plans in teaching and research in poultry husbandry, and aiding in Indian extension work.

Prof. Kinder, a native of Fredericktown, Mo., has been on the University teaching staff since 1947, and is a widely recognized authority on poultry farm management and on poultry breeding. One of his bulletins, "Experiments in Chick Feeding," was presented in part at the World Poultry Congress in Scotland in 1954 and won him election to the Society of Sigma Xi, honorary scientific society.

Prof. Kinder is a graduate of the University and received B.S. and M.S. degrees in agriculture in 1932 and 1933. He taught vocational agriculture in Texas County and in the high school at Warsaw, Mo., before joining the Missouri Poultry Improvement Association staff in 1945 and the University faculty in 1947.

John W. Emison, an Agricultural student at Missouri in 1913-15, chairman of the board of the Texas Pipe Line Company, wholly-owned subsidiary of Texaco, Inc., has retired after more than 40 years service in pipe line transportation with the company. Emison, a native of Higginsville, Mo., started with the company in 1920 as a clerk in the Houston general office. Promotions came rapidly: chief accountant in 1929, assistant secretary the next year, treasurer in 1939 of the Texas Pipe Line Company and the Texas-New Mexico Pipe Line Company. He became vice-president and assistant general manager of the companies in 1947. Emison was elected president of the Texas Pipe Line Company in 1952 and also was made president of Texas-New Mexico, Texaco-Cities Service and Kaw Pipe Line companies. Mrs. Emison is the former Miss Esther Koppenbrink of Alma, Missouri.

Award honors Morris Jacobs

The "Morris E. Jacobs Fellowship," to be awarded annually to a graduate of the School of Journalism of the University of Missouri studying for a Master's degree in Journalism, was announced as a climax to the 40th anniversary annual meeting of Bozell & Jacobs, Inc. at Omaha. The award by the Key Men's Foundation of the advertising and public relations agency honors its chairman, Morris E. Jacobs, nationally known civic and philanthropic leader. He was a student at Missouri (Arts, '16), was general chairman of the university's School of Journalism 50th anniversary observance two years ago, and received the school's distinguished service award in 1959.

Each recipient will be given \$500 cash and an opportunity to work in one of the 13 Bozell & Jacobs offices during the summer prior to his graduate year. Upon receiving his master's, each recipient will be offered a position with the firm as a trainee in either advertising or public relations. Each fellow will receive a duplicate copy of a trophy featuring the University of Missouri columns, with master trophies being placed in the Omaha office of Morris Jacobs and in the School of Journalism.

"The proposed Morris E. Jacobs Fellowship encouraging graduates of our School of Journalism to continue their educations in the field of advertising is a most appropriate and timely undertaking," Journalism Dean Earl F. English said in commenting on the award. "Not only does it provide an incentive for our own students, but it appropriately points up the profession of advertising and honors an alumnus who has distinguished himself as an advertising practitioner."

The Squires and M.U.

Of the ten new members of the Missouri Academy of Squires, five are University-connected. They are: President Elmer Ellis, Dr. William L. Bradshaw, Don Faurot, Dr. Floyd C. Shoemaker, and Russell L. Dearmont. All but President Ellis are alumni of M.U. The Academy of Squires was founded a year ago by James T. Blair, when he was governor, to recognize Missourians who have made outstanding achievements at local, state and national levels. Only ten new members may be elected each year and the governor becomes a member by virtue of his office.

The new members and their citations:

President Ellis—"For his achievements in education and his distinguished administration as president of the University of Missouri."

Dr. Bradshaw—"For his distinguished career as a political scientist and dean of the School of Business and Public Administration at the University of Missouri."

Don Faurot—"For his service as football coach and athletic director at the University, his unsurpassed

Morris E. Jacobs (right) receives plaque on which names of Fellowship recipients will be recorded. Presentation made by Roy H. Wensburg, Seattle, acting on behalf of Key Men's Foundation.

good sportsmanship and his contribution toward sane and sensible recruiting policies in college football."

Dr. Shoemaker—"For his many years of service as executive secretary of the State Historical Society of Missouri and his contributions to Missouriana that earned him the unofficial title of 'Mr. Missouri.'"

Mr. Dearmont—"For his career as a lawyer, state senator, railroad president and civic leader."

The other new Squires are Arthur V. Burrowes, St. Joseph editor; Judge Albert L. Reeves, Kansas City; Senator Stuart Symington, Creve Couer; and Gerald Massie, well known photographer of Jefferson City.

The new Squires were honored at a luncheon at the executive mansion with Governor John M. Dalton, who became a member of the academy upon taking office. All received gold headed canes, lapel pins and parchment scrolls in recognition of their achievements.

The original ten Squires included former President Harry S. Truman, Rep. Clarence Cannon of Elsberry, and Tilghman R. Cloud, former editor of the Pleasant Hill Times.

The Department of Horticulture at the University is now receiving contributions to the Paul H. Shepard Memorial Scholarship Fund to aid students in horticulture. The fund is to be administered by the University and the department. Checks should be made payable to the University of Missouri, Paul H. Shepard Scholarship Fund.

class notes

98 A Polled Hereford dispersal sale on Sept. 23 marked the retirement of THOMAS HOLMAN, BS, farmer and community leader who lives on Licking Route, Salem, Mo. He graduated when the College of Agriculture was still on the Red campus. A neighbor writes: "The story of his life is a tribute to the ideals and purposes of our University and the influence it has in improving country life."

06 JAMES D. ELLIS, AB, lives at 6000 Nickerson Ave., Chicago 31, Ill. He is Assistant Supervisor, Services for Aging, Illinois Public Aid Commission.

10 JESSE JAMES BOOTH, BS EE, for 40 years with U.S. Steel Corp., is a past president of the Association of Iron and Steel Engineers and a Fellow of the American Institute of Electrical Engineers. He is a life member of both groups. Mr. Booth lives at 1213 Girard Rd., Pittsburgh 27, Pa., and will be glad to see fellow alumni.

12 WILLIAM LEAVELL BAUGHMAN, BS Ed., is a retired principal of the East St. Louis Senior High School. He and his wife live at 1341 North 31st St., East St. Louis, Ill.

18 MISS ESTHER WEIGHTMAN, BS Ed., retired after 42 years of high school teaching, 38 of them at the University of Wisconsin High School. A gold bordered parchment scroll, the citation by students for a beloved teacher, was presented at the school's honors assembly to Miss Weightman, Latin teacher, assistant professor of education, and dean of girls at Wisconsin High. Miss Weightman plans a European trip.

DR. RUDOLPH JAEGER, distinguished neurosurgeon, was honored at a

banquet at Clopton, Mo. recently. He received his MD degree from the University of Pennsylvania and post graduate surgical training in the specialty of surgery of the brain, spinal cord and nerves under the late Professor Walter Dandy. At M.U. he earned the 2 year certificate in medicine. Many honors were bestowed upon Dr. Jaeger throughout his career in which he is still active, but he believes that his greatest sense of pleasure and achievement has come from the satisfaction and privilege of having assisted in the active teaching of more than 3,500 students to become good doctors. He lives in Philadelphia where he is professor of neurological surgery and chief of the department, Jefferson Hospital, Jefferson Medical College, which he joined in 1913 after long service with the Medical School, University of Colorado. He received a distinguished citizen's award from the city of Denver in 1958. At one time he was president of the International College of Surgeons.

21 STANLEY ANDREWS, BJ, recently represented the University at the inauguration of James W. Miller as president of Western Michigan U., Kalamazoo. Mr. Andrews became consultant to the Secretary of Agriculture in '47 and in '52 he was appointed special consultant and later the head of the Point 4 program. Since 1953 he has been on the Michigan State U. staff as director of the National Project in Agricultural Communications, Kellogg Foundation.

R. J. ERVIN, Eng., '21, has been promoted to the main office of the State Highway Department at Jefferson City, Mo., where he will be chief of the division of maintenance.

23 GERALD N. WADDELL, BS Eng., operates Waddell Cadillac-Oldsmobile, Inc., in Salina, Kans. Mrs. Waddell is the former KATHERINE DAVIS, AB '22. They live at 106 Overhill Rd., Salina.

24 F. E. (JACK) ROGERS, BS Agr., state extension agent and chairman of the department of extension education at the University, received the U.S. Department of Agriculture superior service award in recent ceremonies in Washington, D. C. Rogers has been with the Missouri Extension Service for 34 years.

27 Mrs. Henry A. Boone, AM, born MINNIE SPEER, was the subject of an article, "Pioneer Citizen of Our Community," in the Hayti (Mo.) Herald. She has a long, colorful history of teaching, beginning at Pinhook School in the Little River district before she was sixteen. In 1908 Minnie Speer went out west and homesteaded 160 acres in Eastern Colo-

rado. Her first school was on a big ranch 20 miles from a post office. There were only five pupils. As a child, she was in the second reader when she started to school. Her mother had taught her at home. She walked the three miles to school and back every day. Mud was often shoe top deep in winter; dust and sand ankle deep in summer. She was honored for 50 years of teaching service when she retired in 1951.

DR. ELIO MONACHESI, AB, AM '28, sociologist and chairman of the department at the University of Minnesota, spoke in Kansas City in August on delinquency. He said findings show that boys who fail to make satisfactory social contacts and show excitable personality traits are potential delinquents. Delinquent girls show the same symptoms as boys, but girls are much less likely to become delinquent than boys, Dr. Monachesi noted.

TOM MAHONEY, BJ '27, author of a book on the pharmaceutical industry, "Merchants of Life", has word that it has been published in German by Econ Verlag of Dusseldorf. A Japanese edition appeared last year. Published originally by Harper & Brothers, the volume contains an account of how Aureomycin, first broad-spectrum antibiotic drug was found in soil from the University's Sanborn Field. The German title is "Vom Heftpflaster bis zum Anti-histamin."

28 Lt. Col. FRED MAY, BJ, AB '27, former officer in charge of the Pacific Stars and Stripes, retired from the Army August 14, after 37 years of service. May also served as military attache in Beirut and Damascus. He and his family will make their home in Monterey, California.

The conference is to assist the President, the congress and the administrative agencies and executive departments in improving existing administrative procedures. Fane lives at 800 West Fifty-first St., K. C.

Dr. WILLIAM CREWS MCGAVOCK, AB, AM '29, attended a seminar on colloid chemistry in August at the University of Southern California, which was sponsored by the National Science Foundation and U.S.C. Dr. McGavock, chemistry professor at Trinity U., San Antonio, Tex., has attended other special seminars at Massachusetts I.T. and Oxford and Cambridge Universities in England.

NEWBY L. MILLER, BS Eng., who has served as Montrose Station superintendent, K. C. Power and Light Co., since '59, has been appointed to work

with the manager of production on operating problems in the Company's various power plants in Kansas City.

HARRY ROBINSON, AB, BS Ed. '33, has accepted the promotion and transfer to Regional Chief National Park System Planning. He has been in the NPS since 1940 in positions such as museum assistant, park naturalist, museum curator and historian. He and his wife Millie can be reached through National Park Service, Federal Office Bldg., Omaha 2, Neb.

EDWIN B. BURNHAM, BS Eng., received a Master's degree in Public Administration from St. Louis University on June 3.

29 Members of the J. ED RUTTER family form a solid M.U. alumni group: Mr. Rutter, BS Agr. '29, Mrs. Rutter, Agr. Arts '37, and their sons, JAMES G. RUTTER, BS Agr. '51, who is farming at Shelbina, Mo., and DON E. RUTTER, BS Agr. '53, with Wilson & Co., Memphis, Tenn. Mr. Rutter is now at the home office of Prudential Insurance Co. in Newark, N. J. following his transfer from Chicago and promotion to general manager of the Mortgage Loan and Real Estate Department.

30 EVERETT R. HALBROOK, BS Agr., of Bozeman, Mont., is with the U. S. International Cooperation Administration mission at Khartoum, Sudan, where he has been helping the Sudanese raise better poultry. Last summer he and his family returned to the United States for a vacation. In addition to training Sudanese "on the job," Halbbrook has helped to select Sudanese who are sent to the United States to study poultry management. His tour in Sudan is his third foreign tour for ICA. He previously served in India and Iran. Previously he was poultry extension specialist at Kansas State University and head of the department of poultry industry at Montana State College.

HERBERT C. HOFFMAN, LLB, is with the firm of Schwartz, Hoffman and Brockus, and is Associate City Counselor, in Kansas City, Mo. His home address is 7543 Grand Ave., Kansas City.

31 E. E. NEELEY, AM, has been employed as a teacher in an expanded science program in the Steelville (Mo.) elementary and junior high schools. He will train elementary teachers in proper methods of teaching science.

Mrs. HELEN DAVIES, BS Ed., has assumed her new position as Home Economist in Food Marketing for the St. Louis County Extension Council. Mrs. Davies, a graduate of Christian College and the University, has had wide experience as teacher of home econom-

Charles Nutter

Nutter with Hallmark Foundation

Charles Nutter, who recently joined the executive staff of the Hallmark Foundation in Kansas City, Mo., is a specialist in international public relations, trade and travel, and is a newspaper publisher and public speaker on current events in the international field.

Nutter is a native of Falls City, Neb. He was graduated from the University of Missouri School of Journalism in 1924. Subsequently he worked on the Kansas City Star, newspapers in Texas and Nebraska, and then served the Associated Press for 19 years in Kansas City, Mexico City, New York, Washington, London, Moscow, Madrid, New Orleans. During World War II he was in charge of the Latin American service of the Associated Press.

Nutter has covered many stories of world significance, including the Spanish Civil War, the big purge trials of the Soviet Union in 1936-37, Hitler's reoccupation of the Rhineland and the coming of the New Deal to Washington. He has traveled in more than forty countries, and escorted more than thirty trade missions abroad while serving as Managing Director of International House in New Orleans for 15 years. He left that post last June to join Hallmark. With the Foundation he will develop an international public relations program with emphasis on human relations rather than trade.

Nutter was in the Philippines on a trade mission when his appointment was announced. He said in a statement he was deeply concerned about our reverses in the cold war, and he felt that he could be of service in helping to preserve our way of life.

Nutter is co-publisher of the Minden, Louisiana Press and Herald. He won the Honor Medal for Distinguished Service in Journalism given by the Missouri School of Journalism in 1944. He was chairman of the Press Congress of the World held on the campus in 1958. He was the administrative officer of the House Ways and Means sub-committee on Foreign Trade, which held hearings in Europe in 1956, and a member of the United States Trade Mission to Spain in 1959.

ics, home adviser, district home management supervisor with the Farm and Home Administration, regional home economist and home economist with the University Extension Service. Her office will be at the Normandy Residence Center, 8001 Natural Bridge Rd.

WILLIAM H. BURRELL, AB, Orangevale, Calif., is employed as a development engineer on the Polaris missile project with Aerojet-General Corporation, Sacramento, Calif. His son, William H. Burrell Jr., received a marine engineering degree from the California Maritime Academy in August.

LEO A. SCOTT, AB, BS Eng., vice-president for manufacturing of the Colgate-Palmolive Co., marked his thirtieth anniversary with the organization this summer. Mr. Scott who lives in Ridge-wood, New Jersey, has served as vice president since 1957. In this capacity he provides functional guidance for all manufacturing activities throughout the company. He began his career in 1931 as an assistant chemist in the Kansas City plant.

33 ELMER W. LOWER, BJ, former manager of NBC News in Washington, has been named NBC's Director of News and Public Affairs with headquarters in New York. Since he joined NBC News two years ago, Mr. Lower has played a major role in many of the network's top news projects. He was producer of the coverage of Soviet Premier Khrushchev's arrival in Washington in '59, and was manager of operations for the NBC-TV coverage of the '60 national conventions and elections. Besides his degree from M.U., Mr. Lower has an M.A. in public law and government from Columbia U.

35 VINCENT DALE, LLB, and his brother **DON DALE, BJ Agr.** '41, (later LLB, from Oklahoma U.), are in their fathers' law firm at Guyton, Okla. The father, **F. HINER DALE, LLB '06**, now retired from active practice, also has a daughter who married a lawyer. Mr. Dale, now 80, has written the history of his life, entitled "An Oklahoma Lawyer," which will be off the press soon.

36 Dr. LELAND E. TRAYWICK, AB, AM '39, succeeded Dr. Roy Ellis as president of Southwest Missouri State college this September. Dr. Traywick, former professor of economics and assistant dean of the college of business and public service at Michigan State U. is the author of "Get Good Grades in College," and co-author with W. Adams of "Readings in Economics." With George Soule he is writing "Principles of Economics" and has written many articles for magazines and professional journals. Dr.

Traywick is married and has two children, a boy 12 and a girl 10.

37 ARTHUR E. STRANG, BJ, secretary-manager of the Illinois Press Association with headquarters at the University of Illinois, has been elected president of Newspaper Association Managers, Inc. Strang, a former publisher, has been IPA manager since 1949. NAM sponsors national newspaper week each year.

ATHEL BANGERT, AB, has been commissioned a full colonel in the U. S. Army. Col. and Mrs. Bangert, the former Maxine L. Tising, have two children. They maintain a home at 1303 S. Montau, Sedalia, Mo.

Capt. R. PAUL WESTPHELING JR., BJ, Army Reserve, publisher of the *Fulton (Ky.) News*, received two weeks of annual active duty training at Camp Perry, Ohio, last summer.

38 FRANCIS M. WILSON, B PA., U. S. Marshal for the Western District of Missouri, assumed his duties May 5. He makes his home in Platte City with his wife and three daughters.

GLENN A. WELSH, BS PA, is a participant in the 40th session of the Advanced Management Program at the Harvard Business School, a 13 week course designed for men who are now in top management positions or who are likely to be there in the near future. Welsh, who lives at 4102 Homestead Dr., Prairie Village, Kansas, is vice-president, Great Lakes Pipe Line Co.

39 JOHN E. COOPER, BS Agr., has been appointed executive vice-president of the Adams Dairy Co. A native Missourian, Cooper has been with the Holstein-Friesian Association of America and previously was associated with the Adams organization for several years.

ROBERT S. DALE, BS BA, 1406 S. Maple, Carthage, Mo., is attending the associate course at the Command and General Staff College, Fort Leavenworth, Kan. Col. Dale, a unit commander with the 35th Infantry Division Trains, an Army National Guard unit in Joplin, Mo., is a member of the Carthage Press staff. Mrs. Dale is the former **ALICE MAUGHS, BS HE '40**.

40 WARREN A. POTTGEN, BS BA, of 5950 Kessler Ridge, Indianapolis, has been selected by Johnson and Johnson as a sales trainer. Mr. Pottgen will train new salesmen in all phases of sales representative's work. He joined the firm in 1952.

FREDERIC H. KLEIBER, AM '40, has been principal of Stowell school in

Hannibal, Mo. since 1955. Mr. Kleiber has served as principal and superintendent of schools in Iowa, Illinois, Wisconsin and Missouri.

41 SAMUEL GEORGE ROBERTS, BS, of 6845 Goodwood Ave., Baton Rouge, La., has been selected as participant in the 40th session of the Advanced Management Program at the Harvard Business School. The concentrated course of study began September 10 and lasts thirteen weeks. The AMP, one of the oldest senior management development courses conducted by a university has been in continuous operation since 1943. Roberts is Director of General Engineering, Ethyl Corporation.

JOHN DOUGLAS, BS Agr., county agent of Shelby County since '48, is the new county extension agent of Randolph County. Douglas received the distinguished service award for outstanding service to the people of Shelby County and the agricultural extension service in 1957, and was awarded the national distinguished service award in 1958. The Douglas family will live in Moberly, Mo.

the faculty of Wellesley College in Wellesley, Mass. as associate professor of art. He is a specialist in the study of early Greek art, particularly the pottery of the Grecian area. While holding Guggenheim and Fulbright fellowships from '56 to '58, he did research at the American School of Classical Studies in Athens. He also has participated in archaeological excavations in Turkey and Cyprus. Mr. Benson is a member of the Archaeological Institute of America, of Phi Beta Kappa, and of Eta Sigma Phi, the national honorary classical society.

42 Army Lt. Col. LLOYD E. JONES, Jr., AB, whose wife Miriam lives at 5885 McCully, Killeen, Texas, attended the associate course at the Command and General Staff College, Ft. Leavenworth, Kan. in summer. He is a member of Combat A, 1st Armored Div., Fort Hood, Tex.

FRANCIS LEE NEEL, BS Ed., AM '47, has been promoted from assistant professor to associate professor in the art department at East Carolina College, Greenville, N. C. Mr. Neel has, for the past four years, been in charge of the program in textile design and weaving. He begins his 14th year in the Department of Art.

45 Dr. JOHN H. HOOKER, Arts, practiced medicine in Clarksville, Mo. for six years and served as secretary and president of Pike County Medical Society. Recently he joined the staff of Alton (Ill.) Memorial Hospital in the radiology department. Dr. and Mrs. Hooker and daughter Jennifer have moved to Alton where they have purchased a home at 709 Riverview Dr.

46 Col. MAX L. PITNEY, AB, Louisiana, Mo., recently became the recipient of the Army Commendation Medal (1st Oak Leaf Cluster) after meritorious service during his most recent assignment as Chief of Staff of the 2nd United States Army Missile Command, Fort Carson, Colorado. After a language course in Washington, D. C., Col. Pitney will become Chief of the U. S. Army Mission in Paraguay.

E. ALLAN GASPERSON, BJ, has been promoted to retail advertising manager of the Daily Monitor-Leader at Mt. Clemens, Mich. A former Sedalia, Mo. resident, he has been on the staff ten years.

47 KAY K. COWAN, BJ, AM '48, is attending the Army War College at Carlisle Barracks, Pa. The ten months course is scheduled to be completed in June 1962. He entered the Army in 1937 and was last stationed in Germany.

Col. Glenn Crane receiving silver eagles from General Zierdt and happy congratulations from Mrs. Crane.

Zeus project chief becomes colonel

The Army's project chief for development of the Nike Zeus anti-missile missile system has been promoted to Colonel.

Brigadier General John G. Zierdt, Commander of the Army Rocket and Guided Missile Agency, presented silver eagles to Col. Glenn Crane, BS EE '46 as of '41.

Colonel Crane, Deputy Commander ARGMA for Ballistic Missile and Space Defense, has been chief of the Zeus project since July, 1960. He succeeded Gen. Zierdt when the latter left the vital post to move up to command of ARGMA.

Col. Crane has had more than a decade of experience in missile development encompassing almost all of the Army's major missile projects. He entered the Army soon after receiving his degree in electrical engineering in 1941. He served overseas during World War II in Africa, Sicily, Italy, France and Germany and was awarded the Bronze Star Medal in Germany in 1945.

His assignments in missile work began after a three year stint as an ROTC instructor at the University of Oklahoma which ended in 1949. Succeeding tours of duty included Chief of the Systems Test Division of the Army's White Sands Missile Range and resident ordnance officer at the Bell Telephone Laboratories in Whippany, N. J., then engaged in development of the earlier Nike air defense missiles, Ajax and Hercules, which proved principles now being applied to Nike Zeus.

Col. Crane was assigned to the Army Ballistic Missile Agency's west coast office in 1955 after service in Paris with Dr. Von Karman on the North Atlantic Treaty Organization Advisory Group for Aeronautical Research and Development.

In 1958 when the Army Ordnance Missile Command was activated, he was ordered to Redstone Arsenal, Huntsville, Ala., to become special assistant to Major General John B. Medaris, AOMC Commander (now retired). Col. Crane became General Zierdt's deputy when the ARGMA Commander, then a Colonel, was named to quarterback the Nike Zeus project in February 1960. The colonel is a graduate of the Command and General Staff College at Ft. Leavenworth, Kan., and the Guided Missile School at Ft. Bliss, Tex.

Dr. JACK D. KERR, AB, Ph.D. '51, has been transferred to the Louisiana Division of the Dow Chemical Co., at Plaquemine, La. Dr. Kerr will be active in long-range planning for the Louisiana Division, working with other Dow divisions and corporate offices.

HUGH KEITH, BS Agr., MS '56, resigned as county extension agent of Randolph County to become county agent of Audrain County, effective August 1. He lives in Mexico, Mo.

RALPH DOBBS, BS Agr., AM '48, West Plains, Mo., rural development supervisor for Howell County, has been assigned to a new position as area development supervisor of a ten-county area with headquarters in Farmington, Mo.

Dr. CARL N. SCHENEMAN, BS Agr., MS '55, a veteran extension worker with 14 years experience, has been named assistant director of the University of Missouri Extension Division, it was announced by C. B. Ratchford, dean of the Extension Division.

CARL E. KLAMM, BS CE, has assumed his new duties as State Highway Department District Engineer at Willow Springs. He joined the department in 1947 and most recently was serving in the main office. Mr. and Mrs. Klammer and their three children have moved to Willow Springs.

FRANK FOSTER HASH, BJ, received an AM degree from the State University of Iowa in the summer.

Lt. Cmdr. JOSEPH WARRIOR, now stationed at Seattle, Wash., delivered the May commencement address at Drumm Institute, Lee's Summit Rd., Kansas City. Cmdr. Warrior graduated from Drumm Institute in 1940, enlisted in the Navy in WW II, and as a Navy flier won two medals for distinguished service. He attended the University for a year after the war, then re-entered the Navy as a career man.

49 GEORGE L. HERRELL, AB, AM '50, has been promoted to district geologist, Monroe District, by the Union Producing Co., production subsidiary of United Gas Corp. Originally from Adrian, Mo., he joined the company in 1950.

FRANK A. MUTH, BJ, AB '50, has become a Life Member of the Missouri Alumni Association. Formerly of Cleveland, Ohio, he now lives at 5048 Pershing St., Dallas 6, Texas. Mr. Muth is execu-

Jack D. Kerr, '47

tive vice-president and general manager of W. J. Winters Publications, a division of Business Directory Service.

LLOYD R. BROWN, BS EE, has been appointed associate professor of electrical engineering at Washington U. in St. Louis. Professor Brown holds the bachelor of arts degree from Missouri Valley College, master of science and doctor of science from Washington U. He is married and lives at 1207 Cabot Dr.

Dr. MERVILLE L. MEVERDEN, M Ed., Ed.D. '56, has been named director of the physical plant at Central Missouri State College. He taught in Wisconsin and Illinois high schools and was a school superintendent in Iowa before becoming physical plant director at Northern State Teachers College, Aberdeen, S. D. five years ago.

ROBERT L. SEIDNER, BS BA, "Chicago's American" former research statistical manager, is now manager of the sales promotion department. He joined the newspaper in '49 and has been associated with its research, statistical, and sales promotion staff ever since.

Dr. A. E. BLUM, BS Agr., MS '53, DVM '54, is a veterinarian at Crystal City, Mo.

LEONARD ROBERT DAVIDS, BJ, AM '51, was graduated from Georgetown U., Washington D. C. with a Ph.D. degree last summer. The degree was in international relations. Dr. Davids had been attending Georgetown on a part-time basis while continuing his work with the Federal Government. From 1954 to 1958 he was editor of the Navy Civil Engineer Corps Bulletin. For the past three years he has been a Reports Officer for the Atomic Energy Commission.

Army Lt. Col. WILLIAM W. BARNETT, Jr., BS BA, has been attending the associate course at The Command and General Staff College, Fort Leavenworth, Kan. His wife Ann lives in Rogers, Tex.

Capt. MELVIN KESLER STONER, BS Ed., of Route 2, Hedrick, Iowa, is a Captain in the U. S. Air Force.

PORTER T. WALTON, BS BA, received a Master of Business Administration degree from Ohio State University, Columbus, in March.

HERBERT H. WAECKERLE, BJ, AB '48, has joined the staff of Thomas W. Parry and Associates, St. Louis public relations firm, as an account manager. Mr. Waeckerle has had 12 years of newspaper and public relations experience, and has held positions with Falstaff Brewing Corp., International Shoe Co., St. Louis Globe-Democrat, and the Pet Milk Company. Mrs. Waeckerle is the former ALICE LINDSAY MORROW, BS HE '47.

JAMES A. LAW, BJ, 14509 Dublin Ave., Gardena, Calif., is a teacher in Lawndale High School.

JACK WILLNER, BJ, is a reporter for the Chicago Daily News. His home address is 2725 Oak St., Highland Park, Ill.

WILLARD A. LARSEN, BJ, is a general agent for Massachusetts Indemnity Insurance Co. He lives at 4821 W. Woodlawn Ct., Milwaukee 8, Wis.

GLENN L. FELNER, BJ, 290 Drexel Lane, Glencoe, Ill., is an insurance broker with Aetna Life Insurance Company.

ARNOLD ROGOFF, 1416 N. Beverly Glen, Los Angeles 24, Calif., is president of Opus Productions.

L. Robert Davids, '49

I

SELL INSURANCE — AND LIKE IT!

With new uses developing for life insurance, both business and personal, an agent's career can be a creative and satisfying one for HBS alumni.
Norman M. Wallack '48, New England Mutual Life Insurance Company, Boston

STANDARD EQUIPMENT for a B-School alumnus is a built-in image of the ideal HBS man: keen, tough-minded, analytical, imaginative, farsighted and resourceful. At the same time, most of us have a mental picture of a life insurance agent: unimaginative, plodding, high-pressure, ill-informed, persistent and annoying.

Given the clash between these two pictures, my Business School friends really raise an eyebrow when they find out that I am one of those "people with endurance" — a man who sells insurance. There are very few graduate business school alumni in my end of the business, much less HBS types, though

of course we have many alumni among the managerial personnel in the industry. So they immediately want to know how I ever ended up in such an occupation, and sit sadly expecting some horror story of a misspent youth and wasted opportunities.

Actually, the facts bear no resemblance to their assumptions. I am in this business because I like it, because I chose it after trying several other types of work, because it offers all kinds of opportunities for ingenuity in developing special insurance programs for particular companies and individuals. In so doing, I have come to the conclusion that businessmen are so

in industry to start one in life insurance

Norman Wallack had good reasons.

Here's the first-hand account he gave us after his article had appeared in the Harvard Business School Bulletin —

"After graduation from Harvard Business School, I did well during the next nine years in two different areas of business. First, as merchandise manager for a large Midwest manufacturer. Next, as developer and owner of a camping-equipment company. But after five years of having my own company, I sold out at a substantial profit. Six months later I had decided to sell life insurance for New England Life.

"I had plenty of confidence by this time in my business ability. Now I wanted to find an area where it would pay off on its own and require little reliance on others. I wanted a field that offered increasing income as I grew older without suddenly dropping off when I reached 65 . . . that held fewer

of the frustrations encountered in industry . . . that could put to best use my training at the School, experience and capabilities.

"Life insurance seemed to come closest to this ideal. So I picked out the company with one of the finest reputations and cost pictures in the industry and sought out one of the most outstanding training agencies in the business.

"It adds up to this: I'm in this business because I like it. Because I chose it after trying other types of work. Because it offers all kinds of opportunities for developing special insurance programs for companies and individuals. It's the unusual combination of freedom and variety that appeals to me. Perhaps it will appeal to you."

If you'd like a reprint of the 5-page article by Norman Wallack, "I Sell Insurance — And Like It!" just send along the coupon. We'll also mail you our free booklet, "Careers in Life Insurance," which describes the opportunities with New England Life for those men who meet our requirements.

Hill, Assistant to the Dean, Extra-Divisional Administration and Lieutenant Colonel Peter A. Helfert, Associate Professor of Military Science at the University.

Beneath a field like this...

is a complex communications center

In minutes, an enemy attack could level some of our sprawling cities.

Because of this, the Bell System is now supplementing its great reaches of buried cable with a network of underground communications stations.

Under the protection of a thick earth and concrete cover, and away from major target areas, several Bell System communications centers are already in

operation. Many more are to come.

The walls for these installations are huge, reinforced concrete slabs. Ventilation systems filter air so fine that even radioactive fallout cannot enter. Food and water are stockpiled. Living quarters are provided for all operating personnel.

These buildings are costly. Tough to build.

Yet, the Bell System recognizes that communications are the lifelines of our

defense systems. And so we took the lead in establishing these underground centers with our own money.

There are many other ingenious projects in our "Survivability" program for America's communications. Many cannot be mentioned here.

Because of them, ambitious command, control and defense systems are feasible. And our vast existing communications network is one of America's most *ready* defense weapons.

BELL TELEPHONE SYSTEM

Robert C. STOCKWOOD JR., BS BA '53, AB '56, MD, who was promoted to captain while a medical intern at Fitzsimmons General Hospital, Denver, has completed the military orientation course at Brooke Army Medical Center, Fort Sam Houston, Tex. JOHN W. RINGER, LLB, is associated with the law firm of Powell and Jones, Dexter, Mo. He was recently elected president of the Stoddard County Bar Assoc., was 1961 campaign director for the Stoddard County March of Dimes, and is adult choir director at the 1st Baptist Church in Dexter. The Ringers have a small daughter, Lisa Denise.

JOHN RACKERS, BS CE, 123 N. Eddy, Fort Scott, Kan., is an engineer with the Frisco Railway.

BETTY SCONCE Rader, BS Ed., and JOHN M. RADER, BS EE, announce the birth of a son, Timothy John, in August, 1960. They live at 2315 N. 11th St., Apt. 203, Arlington 1, Va. Mr. Rader is a telephone engineer for REA.

RICHARD GLEN RHODES, BS Agr. E., is an engineer with the Division of Health of Missouri, and lives at 404 Hughes, Jefferson City, Mo.

DAVID L. POOLE, BS BA, is in the change control department of the Ford Motor Company, Kansas City. Mr. and Mrs. Poole and their year-old son, Jeffrey David, live at 700 W. 47th, Kansas City, Mo.

BYRON LANDER, 814 N. Ottawa, Lincoln, Ill., is an instructor in business and social science, Lincoln College. Mr. and Mrs. Lander have a son and daughter.

PAUL B. KOCH, BS Agr., 525 E. Capitol, Jefferson City, Mo., is a chemist, Missouri Department of Entomology.

SQUIRE G. LUTTRELL, BJ, 207 E. Cedar, Olathe, Kan., is a Captain in the Air Force Reserve and is in his third year as librarian in Olathe Junior High School. He is serving as business manager for the Kansas Association of School Librarians.

Mrs. LEONOR A. LAREW, Ph.D., is associate professor of Spanish and Education, State University College of Education, Geneseo, N. Y. She taught this summer at an NDEA Language Institute as a Master Demonstration Teacher, at Rosary College, River Forest, Ill. She published six articles this past academic year in Hispania, Modern Language Journal, and Elementary School Journal.

ROBERT N. LANSER, BS Agr., 6309 Bancroft, St. Louis 9, Mo., is in the research division of the Ralston Purina Company.

PAUL E. TOOPS, BS Ed., 1133 York St., Denver 6, Colo., has been rehired to teach science at Hill Junior High School. He attended summer session at Denver University, in graduate school.

DONALD C. WILDE, AB, 13602 Verano, Garden Grove, Calif., is a management trainee for Bank of America, and working with another Missouri grad, JOHN P. CRAIG, BS BA '38, who is assistant manager-assistant cashier.

AVON WILSON, AM, 3820 Rosedale, Houston 4, Tex., is acting head, Department of Journalism, Texas Southern University.

DORIS ELAINE ASSELMEIER, BS Nur., has been promoted to Head Nurse, Pediatric Division, University of Missouri Medical Center. Her home address is 409 Turner Ave., Columbia, Mo.

LARRY DOWELL, MD, AB '55, has leased the Medical Clinic at Pattonsburg, Mo. He completed his internship at the Weld County General Hospital, Greeley, Colorado in July.

CARL WEIGEL, Jr., BS ME, is a test engineer in Greenwich Engineering Division of American Machine and Foundry Co. Mr. and Mrs. Weigel (MADGE DELORES BARKER, BS Ed. '59) live at 65 Bracewood Lane, Stamford, Conn.

61 VIRGINIA ELIZABETH HOUSER, BS Ed., who was graduated in August, is teaching at South Center School District, Kansas City, Mo. She is the daughter of Mr. and Mrs. NORWIN D. HOUSER, 1103 Moreau Dr., Jefferson City, Mo. Judge Houser, AB '29, LLB '31, is a Commissioner of the Supreme Court of Missouri.

Dr. R. E. HESS, DVM, BS Agr. '52, has opened an office in LaBelle and has begun his practice there. Dr. and Mrs. Hess have three children.

Army Pvt. SAMUEL P. WILKINSON, BJ, has recently completed eight weeks of military police training at the Provost Marshal General's School, Fort Gordon, Ga. His wife Caroline lives at 481 Homestead Rd., La Grange Park, Ill.

EDMUND M. BARTEL Jr., BS BA, recently completed the eight week radio relay and carrier operation course at the Southeastern Signal School, Fort Gordon, Ga. Pvt. Bartel entered the Army last March and completed basic training at Ft. Leonard Wood, Mo.

ROBERT HEABERLIN, M Ed., is a counselor at Stephens College. He has a BS from Kansas State U. and also attended Fort Hays Kansas State College.

ROBB L. MONROE, BS CE, Army 2nd Lt., completed the eight-week field artillery officer orientation course at the Artillery and Missile School, Fort Sill, Okla. He was employed by the Missouri Highway Department.

Army Pvt. MORRIS L. GLASER, BS Agr., recently completed eight weeks of military police training at the Provost Marshal General's School, Fort Gordon, Ga. His parents, Mr. and Mrs. Chester A. Glaser live on Rt. 1, Meta, Mo.

BILL F. KELSO, Ph.D., has been named dairy extension specialist at Pennsylvania State U. from where he received a master of science degree in '58. Dr. Kelso is married and they have two children.

PAUL R. NALAND, BSF, of Columbia, Mo. has been appointed assistant district forester by the Missouri Conservation Commission. He will be assigned to the Meramec Fire District.

SUZANNE MARS, BJ, has joined the advertising staff of the Chicago Tribune. She is a native of Evanston, Ill. and the daughter of Dr. and Mrs. Martley F. Mars, Forsyth, Mo.

weddings

57

Mary Catherine Hartzler and CHARLES F. BARNETT, Jr., BS BA, March 19. They live at 4219 West Fifty-fourth St., Shawnee Mission, Kan.

Ada Jane Wheeler and EUGENE KENT JOHNSON, BS Agr., July 22, in Lebanon, N.H. Mr. Johnson is an engineer in the Agricultural Research Service of the U.S.D.A., Beltsville, Md.

58

MARY WILSON, BS Ed., and JAMES H. ORR, Jr., AB '57, Aug. 9, 1958. Dr. Orr, a dentist, is a staff member of Jewish Hospital, St. Louis, and Mrs. Orr has

Sam P. Wilkinson, '61

Edmund M. Bartel, Jr., '61

taught in St. Louis public schools. They live at 4512 Laclede Ave., St. Louis, Mo.

BARBARA L. McCORMICK, BS Nurs., to Nicholas J. Haring of Denver, on June 28, in Columbia, Mo. Mrs. Haring is an office nurse and the couple lives at 3255 W. 19th Ave., Denver, Colo.

BARBARA LORENE MAXWELL, BJ, and Walter A. Hackett, who was assistant professor at the M.U. School of Journalism during the last year, Aug. 12, at the home of her parents in Jennings. They will live in Dublin, Ireland.

59

SHIRLEY E. TURNER, BS Ed., and BROCK L. HESSING, BS Agr. '60, Aug. 14, 1960. Mr. Hessing is a sales representative for Smith-Douglass Company, and the couple lives at Monticello, Ind.

MARY MARGARET HEDGES and Marine 2/Lt. Larry Ray Ogle, June 17, at St. James, Mo. They live at Quantico, Va.

Carol Joy Graves and ROBERT W. HARTNAGEL, AB, Aug. 27, 1960. Mr. Hartnagel is in the public relations department, Chevrolet Division, General Motors, St. Louis. They live at 4609 Jamieson Ave., St. Louis 9, Mo.

Verna Nancy Bulchik and Lt. (jg) MORRIS KEN RASPBERRY, BS BA '59, July 8, in San Diego, Calif. Mrs. Raspberry is a graduate of Bowling Green State U. and will live at 2089 Chatsworth Blvd., San Diego, while Lt. Raspberry is serving aboard the USS Helena.

60

Sue Newkirk and J. H. NUTT, BS Agr., June 18, at California, Mo.

ANN ELIZABETH JACKSON, BS Ed., and THOMAS E. ALLEN '59, June 24, in Columbia, Mo. She teaches in the public school system in Champaign, Ill., where the couple lives, and he is with the Air Force at Chanute Base, Rantoul, Ill.

Alice Odneal and RICHARD W. LANGKOP, BS Agr., May 6, at Bunce-ton, Mo. Mr. Langkop is a territory manager for the J. I. Case Co., Boonville, Mo.

CAROLE ANN HACKER, AB, and Thomas Ray Gilmore, a Yale grad, June 17, at Jackson, Mo. Ens. Gilmore is serving two years in the Navy, stationed in Washington, D. C., where they will make their home.

DARLENE S. ROBERTSON, BS Ed., and HAROLD E. JOHNSON, Jr. '58, May 28. Mrs. Johnson is secretary to Dean Eubank of the University, and the couple lives at 203 S. Greenwood, Columbia, Mo.

PHYLLIS ELIZABETH JACKSON, BS Nur., and Joseph C. Follmer, March 12, in St. Louis. Mrs. Follmer is a nurse at Veterans Administration Hospital in St. Louis. They live at 6007 Juniata Ave., St. Louis 39.

SANDRA POLSKY, AB, and Dr. Alfred Leitner, July 9. Their mailing address is 3306 Perry Lane, Austin 3, Tex., but they are living in England for a year, where Dr. Leitner will continue his hematology research at Oxford under a postdoctoral research fellowship from the National Foundation.

JANICE RINGER, BS BA, and Lawrence W. Bender, June 10, in Sedalia, Mo. They live at 3632 Walnut, Kansas City 11, Mo. Mrs. Bender is an accountant for TWA.

JANET CRAWFORD, BS Ed., and Vincil Lou Kaylor, June 23, at Shelbina, Mo. They live at 1613 Willow, Topeka, Kan.

JANE E. HALL, BS Ed., and JOHN T. GRANT, BS BA, Nov. 23, 1960, in Kansas City. They live at 1208 W. 45th, Kansas City, Mo.

Erma R. Kleinsorge and JOHN F. SANDERS, BS BA, June 12. They make their home at 7116 E. 46th St., N., Kansas City 19, Mo.

Karol A. DeGross and DANIEL R. BURNS, BS, Feb. 12. He is in the Navy (USS Floyd B. Parks), and the couple lives at 5889 Shasta St., San Diego 9, Calif.

JUANITA SUE WINDSOR, BS Nur., and THOMPSON TATE, Jr., BS EE '61, Aug. 21, 1960. They live at 9513 Harmony Dr., Indianapolis 31, Ind., where Mr. Tate works for the Hazeltine Technical Development Center.

HELEN MARTIN and RALPH GOETTING, BS Agr. '61, June 24. They live on a farm, Route 1, Ashland, Mo. Mrs. Goetting is secretary to Harry Ice, at the University.

Anna Jo Brown and M. DENNIS GLEIM, AB, Jan. 28. He is manager of Gleim's 5 & 10c Store, and writes a column in the Jellico Gem, weekly newspaper. Their mailing address is Box 240, Jellico, Tenn.

61

IDA ODOM, BS Ed., and KENNETH MALL, BS CE, in July, in Hillsboro, Mo. The couple is now at home in Borger, Tex., where Mr. Mall is associated with Phillips Chemical Co.

JERENA LEE ARTHUR, BS Ed., and ROBERT HARRIS, MD, Aug. 20, in Rolla, Mo. Mrs. Harris is employed this year in Fulton, Mo. as a high school math instructor. Dr. Harris is an intern at the University School of Medicine. The couple is at home at 406 Turner, Columbia, Mo.

DONNA SMALL, BA, and Loren Wayne Reynolds, Aug. 27, in Columbia, Mo. She is employed in her father's business. Mr. Reynolds has one more semester in the School of Education and is employed by the University. They live at 1407 Windsor St.

Beverly Joyce Cook and NORMAN E. GAUTIER, BS BA, Aug. 26, in Boonville, Mo. Mr. Gautier is a candidate for an AM degree in accounting at the University. The couple are living at 522 South Williams, Columbia.

Barbara Lois Ball and WILLIAM J. BAUMGARDNER, AB, Aug. 5, at Columbia, Mo. He received his commission as a Second Lieutenant in the Army and will report for active duty in the near future.

JOAN GOODDING, BS Ed., and Lt. Bud Broerman, July 22, in Atlanta, Mo. The couple will be at home at El Paso, Texas. Lt. Broerman is stationed at Ft. Bliss with the U.S. Army Second Missile Battalion.

Phyllis Winfrey and RICHARD WILLIAM BUCKMAN, Jr., BS Ed., Aug. 26, in Columbia, Mo. Mr. Buckman worked toward a master's degree during the summer and is teaching art at Ferguson High School this fall. Mr. and Mrs. Buckman will be at home at 825 Central Parkway in Florissant.

Mary Gale Hebert and WILLIAM ANTHONY SCHRAM, Aug. 26, at Midlothian, Ill. The bride is a senior in the School of Education this fall. Mr. Schram is on the faculty at Fulton High School, serving as coach and drivers training instructor. The couple make their home at 106 West Oliver St.

MARTHA L. MORRIS, BS Ed., and WILLIAM E. DORWARD, BS Agr. '60, May 20, in Appleton City, Mo. Mrs. Dorward is employed at Outdoor Vacations, Inc., and Mr. Dorward is employed at Missouri Farmers Association, Columbia, Mo.

CAROL JOY FREEMAN, AB, and JOHN RICHARD HARVEY, BS Agr. J '57, June 24, in St. Joseph, Mo. They live in Columbia, Mo., where Mr. Harvey is field editor of The Missouri Farmer magazine.

BARBARA ANN ECKLEY, BS Ed., and 2/Lt. MARK A. BAKER, BS Agr. '60, June 24. Lt. Baker is stationed with the Army at Fort Bliss, Tex., as senior instructor in the electronics department. Lt. and Mrs. Baker live at 1212 St. Johns Drive, El Paso, Tex.

Barbara Ann Wheeler and ORION W. BECKMEYER, BS Agr. June 11, in Jefferson City, Mo. They live at Hartsburg, Mo.

Lea Ann Watson and HOMER L. HALL, BS Ed., Sept. 4, 1960, in Kansas City. Mr. Hall whose home address is 5314 Lowell, Merriam, Kan., is currently serving a two-year tour of duty in the Army.

Carol Raye Cuning and JOHN DAVID RHOADES, DVM, BS Agr. '59, June 7, in Columbia, Mo. They live at 2852 Telegraph Rd., Lemay 25, Mo. Dr. Rhoades is associated with Dr. R. A. BINDER, DVM, '56, and Dr. W. C. DIERBERG, DVM and BS Agr. '58, in the practice of veterinary medicine.

Letters

To the Editor:

It was with great interest that my wife and I (Virginia L. Hughes, BS in ED degree, '49. Harold L. Carter, AB, '49) read about two of our former classmates, Greg Roberts and Wesley P. Newton, in the June, '61 issue of *MISSOURI ALUMNUS*. We hadn't heard much about our former classmates in the previous issues of our magazine heretofore, then two in one issue!

As for ourselves, Virginia and I arrived in Quito, Ecuador on the 22nd of July with our three children, Chris, 10, Marc, 9, and Barbara, 7, after a three-week orientation and vacation stay in the Panama Canal Zone. We will be here for at least two years with the Inter-American Geodetic Survey, which is helping the Ecuadoreans map their country.

Before this time I spent from August, 1951, till June, this year with the Army Map Service, Kansas City branch, working in the Photogrammetric Branch as a supervisor most of that time. Virginia also worked there, from 1953, in the Photogrammetric Branch as a Multiplex operator (mapping with aerial photography).

Our impression of Quito so far is definitely a good one. It is very scenic with palm trees and Evergreens growing side by side here on the Equator at 9,300 feet in the Andes mountains. On a clear day, which is very much of the time, we can see four snow-capped volcanoes towering at a distance, above the surrounding hills and planted ridges. Pinchincha, the extinct, we hope, volcano looming directly above the city, is frequently snow-covered after a rainy day and a cool night.

We can describe as definitely picturesque the Poncho-clad Indians and the Donkey beasts-of-burden in this Capital called "The Colonial Jewel of the Andes." A common sight is an unencumbered husband and a wife acting as beast-of-burden carrying a huge sack, nearly as large as she is, on her back secured with some material wrapped around her forehead and the load acting as a stabilizer, walking along the streets.

Sincerely,

HAL AND VIRGINIA

P.S. Our address for letters is:

Harold L. Carter,
c/o U.S. Army Caribbean,
Inter-American Geodetic Survey,
U.S. Embassy,
Quito, Ecuador, S.A.

deaths

Dr. CHARLES T. BELL, AB '99, Aug. 27 at Maryville, Mo. He had been a resident of Maryville since 1903 and had practiced medicine there for almost 50 years. In April '59, he was honored at the annual convention of the Missouri Medical Association for 50 years of service to the public. His wife preceded him in death in 1954. Survivors include a son, CHARLES R. BELL, AB '35, LLB '38, and two granddaughters, of Maryville.

Upon the death of ELMER ALEXANDER MCKAY, AB '07, AM '28, on Aug. 26 in Columbia, Dr. Neil C. Aslin, superintendent of schools, said of the veteran educator: "He made a great contribution to a great number of students at Hickman High School. He was dearly loved by his students and by those with whom he worked." Mr. McKay had retired in 1952 from the high school after 29 years as a teacher and assistant principal. From 1938 until his retirement he was coordinator of diversified training, and for many years he was also in charge of the adult education program. He began teaching at Columbia High School, the forerunner of Hickman High, in 1921 and remained there until 1925 when he went to New York as a research economist, returning to Columbia in 1927. He was interested in athletics, and officiated at more than 400 track meets. He and Mrs. McKay, the former MARY ELLEN ASBURY, BS Ed. '20, met as students in the University and were married in 1907, and she received her degree after their return here from Springfield in 1920. Mr. McKay is survived by his wife, of 702 Maryland Ave., Columbia, and a son, JAMES ASBURY MCKAY, BJ '34, of Woodbridge, Va., and two grandchildren.

LEE WALKER, AB '10, LLB '12, at Claremont, Calif. Sept. 17. A prominent attorney, he had headed the legal department of the Chicago office of the Reconstruction Finance Corporation until his retirement in 1952. He is survived by his wife, of the home at 459 Stanford Dr., Claremont, and two sons, John C. and Robert Lee, and a daughter, Marilyn.

EDWARD J. BURGER, BS EE '16, at Lorain, O. Aug. 19 of injuries received in an automobile accident. He was a retired manager of the Lake Erie Division of the Ohio Edison Co. and a leader in Lorain civic affairs. He served as a vice-president and division manager of the Ohio Public Service Co. of Lorain for 18 years. Mr. Burger had been the first president of the Lorain County Regional Planning Board. He was a member of the executive committee of the Lorain County Industrial Development Committee, and had been chair-

man of the Lorain Port Commission. He was a director of the Central Banking Co. of Lorain for 22 years. As an authority in the field of electrical power supply, he had served as a civilian consultant in the Occupational Forces in Japan on two occasions. Mr. Burger was a district governor of Rotary International and a past president of the Lorain Chamber of Commerce. An editorial in the Cleveland Plain Dealer said in part: "Mr. Burger had participated in an exceptionally high percentage of major community projects, often as the head man. His hard work, vision and inspiration helped bring results that would have been difficult, and perhaps in some cases impossible, without his aid and guidance." Mr. Burger is survived by his wife, of 915 Mildred Ave., Lorain; a son, Dr. Edward J. Burger, Jr., a Lorain physician; and a brother, RUDOLPH E. BURGER, BS EE '07, of Sands Point, Long Island, N.Y.

PAUL H. SHEPARD, BS Agr. '16, on August 28 at Lafayette, Ind. where he was stricken while attending a meeting of the American Society for Horticulture Science at Purdue University. He had been director of the Missouri State Experiment Station at Mountain Grove since 1934, and his work brought national recognition to the station. He had been most active in the breeding and testing of new fruit varieties, and several of these are now generally grown throughout the United States. He did graduate work at Cornell and Washington State U. He was a veteran of World War I. Mr. Shepard was a member of Gamma Sigma Delta, honorary society in agriculture, and among the many offices he held in horticultural organizations was his recent term as president of the American Pomological Society. During his undergraduate days he was an outstanding football player. Members of the family have suggested that a Paul H. Shepard Memorial Scholarship in Horticulture be established to assist worthy horticultural students at the University. Mr. Shepard is survived by his wife, of Mountain Grove, Mo., and two sons, PAUL H. SHEPARD, Jr., AB '49, Galesburg, Ill., and RICHARD G. SHEPARD, Arts '48, New York City. He also leaves four grandchildren, two brothers and a sister.

VIRGIL SMITH GARNETT, BS Eng. '18, Monroe, La., of a heart attack on Aug. 3. A native of Missouri, he worked in Illinois and St. Louis before moving to Monroe. He worked for the Missouri Pacific railroad. Later, for many years, he was associated with the Interstate Gas Co., which was merged with the Olin Gas Transmission Corp., and at the time of Mr. Garnett's retirement last July 1, he was chief engineer of that corporation. He is survived by his wife, Mrs. Lela Windsor Garnett, 1606 N. 2nd., Monroe; a son, Windsor; and two sis-

ters, Mrs. R. B. Galbraith, Washington, Mo., and Mrs. L. L. Lowery (BESSY MAY GARNETT, BS Ed. '09), Canton, O.

WILLIAM N. COLLINS, BS Agr., 21, at his home at Cameron, Sept. 2. Mr. Collins played half-back on University football teams in 1916, 1917 and 1919 and later served as a member of the University's physical education department faculty and as director of the city's recreation department. Mr. Collins is survived by his wife and one son.

Mrs. H. C. Gallatin, the former GLADYS L. WARREN, BS Ed., '24, Aug. 30, at Chillicothe, Mo.

JOHN FINIS BROWN JR., Arts '43. Funeral services were held September 7 in Mexico, Mo. Mr. Brown is survived by his wife and son and two children by a previous marriage.

CYNTHIA PRESS, AM '46, September 2, at Boone County Hospital, Columbia, Mo. Miss Press taught Spanish in Texas high schools before coming to Stephens College in 1944. While instructor during the summer term at the Instituto Tecnológico de Monterey in Mexico from 1952 to 1959. Miss Press continued to serve as a faculty advisor to Stephens College student groups touring Mexico and attending the institute. Miss Press has done graduate work at the University of Missouri, in 1951 as well as private study in France and Italy. Articles by Miss Press have appeared in the Modern Language Journal and Hispania.

TAVNER P. WISDOM, M Ed. '51, May 31, at Milford, Iowa. He was band director for several years at Milford Public Schools.

WINSTON KISER, M Ed. '51, June 26, at Poplar Bluff, Mo. He had been an educator for 22 years, serving as superintendent of schools in Grandin, Williamsville, Oak Ridge, and Bradleyville, all in Missouri. Mr. Kiser is survived by his wife and two sons, of the home at Grandin, Mo.

JEANNETTE QUAINANCE Kassen, Arts '53 and her husband Jack Kassen, September 4, in an auto accident near Richmond, Missouri, on Highway 10. They were en route to Kansas City to attend a baseball game. Mr. Kassen was associated in the B. F. Kassen Motor Company and Kassen-Earickson Ford agency in Carrollton. The Kassens are survived by four children.

JOHN GARDNER MEREDITH, a '60-'61 student, September 25, at the age of 33. He had been wire editor of the Kewanee (Ill.) Courier before coming to the University to work toward a master's degree in journalism and education.

Campus planners Ace Stotler and Bill Wickersham, whose architectural triumphs have been heralded in this space, will be remembered as the designers of the Memorial Tower bicycle rack. This modern hitching post, with spaces for ten parked bicycles, was installed last winter. At the time there were doubters who said this was folly, there would be no demand for such a contraption. As the accompanying photo brings out so graphically, the rack is doing an overflow business; Stotler and Wickersham are vindicated as prophets. But now their detractors say they showed lack of vision by not planning for more spaces. This reaction would be a blow to architects of less firmly established stature.

At most meetings of alumni, information cards are distributed for filling out by old grads, but what they write about themselves in the blank spaces cannot always be taken literally. At one such meeting, in the space for listing of occupation, one alumnus dashed off "farming for peanuts." To the person who was then in charge of class notes for the magazine, that seemed a perfectly reasonable calling, perhaps a noble one, and in due time the alumnus was hailed in the news columns as a peanut farmer. This was wholly inaccurate, a letter from the prankster was quick to point out. At these meetings it is also customary to hand out various printed materials; after everyone else is gone, a representative from the Alumni Office with a built-in yen for economy goes around gathering up any of these materials that have been left behind. A folder reclaimed from a recent meeting carried in a margin this handwritten note: "Do you want to slip out between speeches?"

That message conjures up a number of intriguing possibilities. We like to think the writer of the note merely wanted to confer in private over some impending plan to aid his alma mater, perhaps a large personal contribution or a campaign to bring in funds for special research. A grand gesture of some sort. Naturally, this kind of important business could not be carried on during a speech. It must be

assumed that the writer is a diplomatic type person. He puts the question, "Do you want to slip out between speeches?" He does not demand action, but merely inquires as to the other person's wishes. If the note met with a shake of the head, we feel certain that the writer would accept the decision and drop the matter then and there. The wording leaves some room for slight suspicion; this is the choice of the phrase "slip out." Ofttimes people who "slip out" are up to no good. The term infers a stealthy maneuver that needs watching. But we are splitting hairs. Generally the question has good expression, and you feel that the writer is a person of extraordinarily fine manners, since he obviously would not slip out during a speech, but between speeches. And there is nothing crude about the message. You notice that it does not say, "Let's scam outta here." Some alumni might write things of that caliber during a serious meeting, but not Missouri alumni.

Work is about completed on the huge new wing to the University Library, and it is said that in a short time everything will be arranged efficiently again. A few months ago we went over there to get a book. An attendant told us: "The book you want is on the second floor, and to get to the second floor you have to go to the fourth floor." Backing away cautiously we soon became involved with circuitous routes to the open stacks and with an elevator that kept letting us off on the wrong floor and into the midst of carpenters and plasterers. Recently, having grown stronger again, we returned to the scene to find someone higher in authority, to get to the bottom of this business of going to the fourth floor in order to reach the second floor. The situation seems to be something like this: There are two floors of stacks to each floor in the old or west wing; thus, for example, the fourth floor of the stacks is on the second level of the building. This confusion has been eased by a renumbering job—1, 1a, 2, 2a, and so on. Another matter: While the two wings come out at the same height, the old building has four floors and the new one has five floors. This means an extra floor was squeezed in on the new construction, where the third floor is five feet below the level of the third floor of the old wing. Still something else: The elevator has a front door, opening into the old wing, and a rear door, opening into the new wing. Inside the elevator is a row of black buttons for the old wing and a row of red buttons for the new wing. It takes a few near misses to get the hang of the proper button to be pushed. Anyway, we were reassured that when work is finished on both wings everything is going to work out just fine. On our tour we noticed numerous students at study tables, and they had books before them; this is a very encouraging commentary on the resourcefulness of our youth.

J.C.T.

Warren Browne

Author, teacher, Tiger fan

Warren Browne, whose book on the life of William Benjamin Smith is reviewed in this issue by Harry Rubey, Emeritus Professor of Civil Engineering, attended M. U. in 1912-15 and then spent three years teaching and coaching football and track in Missouri high schools. Entering the investment banking field in St. Louis, he eventually had his own investment banking firm. After earning a master's degree in business administration at the University of Chicago in 1943 he taught finance at the University of Puerto Rico, and the U. S. Army University at Shrivensham, England. Returning to the United States he joined the faculty of Northwestern University where he taught finance until retired with Emeritus rank at 65. He has since served as visiting professor of finance at the University of Texas and Sacramento State College.

Mr. Browne's interest in Smith dates back to 1918, when as a securities salesman for a St. Louis firm he was sent to New Orleans to work in its branch office. He resided some eighteen months in the same house where the Tulane scholar made his home. In addition to his biography of Smith, Mr. Browne is joint author of a text on Insurance and Investments. An avid follower of Tiger football fortunes, he is presently making his home in Columbia.

TIGERS BUILD SLOWLY

from page 11

their 53-yard march included Taylor's 19-yard pass to Russell and another 17-yarder to Larry Nichols. Taylor raced into the end zone for his second score of the day. Krugman came in to replace him, rolled out to his right and drove in for the two points that tied the game 14-14.

Randy Gold demonstrated his value to the Bears, the tall quarterback running and passing effectively. His alternate, Larry Balliett, intercepted three Tiger passes. Missouri stopped the Bears' big fullback, Pierovich, but their halfbacks overpowered the Tigers at places that had been considered strongpoints. Mizou made several mechanical errors and was not sharp. But the team showed its mettle in staging the comeback 8-point drive that averted defeat. Most encouraging was the indication that the running game was finally coming around. Russell had 42 yards in 6 tries, and Norm Beal, the 171-pound halfback who doubles on offense and defense, picked up

47 yards in 8 carries. Hunter collected 47 yards in 10 trips. Gerald Stevenson, who gave signs of becoming the successor to his brother Norris on the sweeps, netted 46 yards in 11 carries. After three games, Russell, the workhorse among Tiger ball carriers, had an average of 5 yards per carry. Other averages were: Stevenson, 3.9; Mack Gilchrist, 2.7; Hunter, 3.1; Beal, 3.1; and Tobin, 2.3. In Tiger line play, Ed Blaine continued to be among the standouts.

As the conference schedule began for the Tigers there was much for the team to think about. Some of the luster from the victory over Washington State vanished when the Cougars subsequently lost to Utah State by 20 points and were humiliated by Texas 41-8. While Minnesota undoubtedly has another powerful team, the Gophers had to come from behind to defeat Oregon 14 to 7. And, considering the early performances of Big Eight teams, there is not a weekend in sight when any member can dare contemplate enjoying a breather. As Dan Devine has said, "This looks like the most unpredictable race in many years."

Sally to athletic committee

The Alumni Advisory Committee's new representative to the University Athletic Committee is Gene Sally of Rolla, who succeeds John P. Miller of Kansas City. Miller continues as a member of the advisory group, of which he has been chairman. Sally is Phelps County representative in the Missouri General Assembly.

Warren O. (Zeke) McIntyre of Mexico, the other alumni representative on the University Athletic Committee, is the new chairman of the advisory committee.

The advisory group's first alternate representative to the University committee is Roland A. (Bud) Orf of St. Louis, and second alternate is Buddy Cox of Sikeston.

Eugene S. Wilson, author of "Your Child Prepares For College," which starts on page two, is dean of admission at Amherst College, a position he has had for 15 years. He has been a member of the College Entrance Examination Board since 1946, and was chairman of its committee on inaugurating the "sample of writing" test. He was president of the Association of College Admission Counsellors in 1960-61. His articles have appeared in the *Saturday Review*, the *College Board Review*, *College and University*, and other journals.

CAMPUS NOTES. A Broadcasting News Seminar has been scheduled for Nov. 4-5 at the Student Union . . . Dr. Robert W. Habenstein, associate professor of sociology, has been granted a leave of absence for the academic year to do research in Kansas City under two grants . . . A Working Conference on Health Education will be held here Nov. 2-3 . . . The University Theater presents "Look Homeward, Angel" in eight performances, Nov. 1-4 and Nov. 8-11, under the direction of Prof. Donovan Rhynsbarger.

HONOR ROLL

OF ALUMNI CLUBS

Those University of Missouri Alumni organizations, by Missouri county and locality outside the state, which have earned recognition by strength of paid membership and participation in national and local programs.
