About the cover: Portrait of a young woman, detail from an Egyptian mummy shroud of the second century A.D., introduces this month's special section on the University's Art Museum and its many fine acquisitions, as presented by Dr. Saul S. Weinberg, Professor of Classical Archaeology, chairman of the Department of Art History and Archaeology, and director of the Museum.

THE MISSOURI ALUMNUS is published monthly except July, August and January by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council.

ART MUSEUM

1961

FIG. 1. Egyptian painted linen mummy shroud of the Roman period, second century A.D. The piece of cloth is almost seven feet long and three-and-a-half feet wide. Gift of Mr. Leonard Epstein.

View of the Kress Study Collection Gallery.

1961 was a record year for the Museum of Art and Archaeology; the value of gifts received is almost double the total value of those previously donated since the formation of the Museum in 1957. This is exclusive of the extremely important and highly valuable Study Collection of fourteen Italian Renaissance paintings which the Museum received in April, 1961, from the Samuel H. Kress Foundation and which was reported separately in the *Missouri Alumnus* for May. In 1961 nineteen other donors gave 165 art objects to the collections, and the Hasseltine Garnett Chorn and Samuel K. Chorn Memorial Fund was further increased by another substantial sum from Mr. and Mrs. Leland Hazard of Pittsburgh. The objects received as gifts, or purchased with the Chorn Fund, include material dating from 5000 B.C. to the twentieth century and coming from every continent and numerous islands.

Again this year the gifts of Mr. Leonard Epstein to the collections of Egyptian Art rank among the most interesting and most important. These include a large and unusually well preserved painted linen mummy shroud, with a vivid portrayal of a young woman and several bands bearing scenes relating to the dead (Cover and Fig. 1). The background for these scenes is of a purple color, except for the lowest one which has a pinkish tone. The painted zone is bordered on either side by a band carrying demotic inscriptions which record prayers that the soul of the dead woman, Tenet-Het-Her, may live forever in the presence of the great god Osiris-Sokar. The shroud is of Egypto-Roman style, dating most probably in the early second century A.D. Perhaps of even greater rarity is a small bronze sacred boat, a little over 10" long, with a shrine at the center and figures of the Egyptian deities Horus and Anubis in front of it, the Horus falcon on it and behind it the ape god Thoth wearing the moon-dress (Fig. 2); it is of the Saite period, most probably of the fifth or fourth century B.C. The third piece given by Mr. Epstein is also

Egyptian in a sense, for it was found in Alexandria and represents the great Hellenistic art of that city. It is a life-size marble head of a woman (Fig. 3), her hair tightly drawn into a roll that frames the face and then hangs down the nape. Despite the harsh treatment the head has suffered, it retains much of its charm. It was probably made in the second century B.C.

A highly important Egyptian wooden sarcophagus (Fig. 4) has come to the Museum as the gift of Mr. and Mrs. T. E. Bachman of Scarborough, N. Y. It is a well known piece, dating from late in the First Intermediate Period, or about 2100 B.C. Hieroglyphic inscriptions, cleanly and deeply cut into the wood and originally bearing color, run around the top of the sides and ends as well as down the center of the lid. These, as published by Dr. Henry G. Fischer in the *Journal of the American Oriental Society* for 1956, give the various titles and epithets of the noblewoman who was buried in this coffin. This is a major addition to the Egyptian collections, to which several smaller pieces were also added through gifts from Mr. and Mrs. Egon Bernath and Dr. and Mrs. Renato Almansi, all of New York.

One large group of material, the gift of Mr. J. D. Fink of Minneapolis, has greatly strengthened the Near Eastern collections. Numerous pieces of Luristan art from early in the first millennium B.C. (Fig. 5) are fine examples of the excellent craftsmanship and exquisite sense of design of the metallurgists of this region of northern Iran. The group also includes a number of cylinder and stamp seals from the Near East of the second millennium B.C. The gift of Mr. Bernard Richter of Charlotte, North Carolina, includes a group of terracotta figurines from still farther east, from Pakistan. A terracotta figure of Syrian type came from Dr. and Mrs. Werner Muensterberger of New York.

The most important additions to the Classical collections were obtained with the help of the Chorn

2

FIG. 2. Bronze sacred boat from the top of a standard. A figure of the god to whom it was dedicated probably stood in the "naos" at the center. Upon this is the falcon of Horus, before it stand Horus and Anubis, and behind it is Thoth, the ape wearing the moon disc. Bronze loops at the back are for the steersman's oars. Gift of Mr. Leonard Epstein.

FIG. 3. Life-size marble female head of the second century B.C., found in Alexandria. It is cut to fit into a socket in the body, which was probably draped. Gift of Mr. Leonard Epstein.

FIG. 4. Inscribed Egyptian wooden sarcophagus of the Late First Intermediate period, about 2100 B.C. The mitered ends of the boards of the four sides were originally lashed together at the corners by leather thongs; mortise and tenon joints held together the boards of the lid and of the sides. The sarcophagus is 83 inches long, 26 inches wide and about 19 inches high, including the lid. The boards, probably of cedar, are almost two inches thick. Gift of Mr. and Mrs. T. E. Bachman.

3

4

5

6

FIG. 5. Three objects from Luristan, Northern Iran, dating to the early part of the first millennium B.C. The bronze sword is almost 22 inches long, the whetstone with its bronze handle in the form of an ibex has a total length of about nine inches, while the small bronze bracelet is only three inches in outer diameter. Gift of Mr. J. D. Fink. FIG. 6. Vase of the Chalcolithic period, about 5000 B.C., from Hacilar, in Turkey. The small clay jar is a little over four inches high. Chorn Memorial Fund purchase.

FIG. 7. Attic black-figured pelike of the late sixth century B.C. showing musical scenes on both sides; it is over 13 inches high. Chorn Memorial Fund purchase.

7

ART MUSEUM *continued*

Memorial Fund, though one piece purchased through the fund belongs rather in the field of Near Eastern archaeology. This is an unusually fine example of a painted jar (Fig. 6) of the type found recently in the topmost level at Hacilar in Turkey, dating about 5000 B.C. The vase is of the rather rare type decorated with white painted lines on the reddish-brown surface. Of much later date is the large pelike of Greek origin decorated on either side with scenes of musicians, probably the gods Apollo and Artemis, done in the Attic black-figured technique of the late sixth century B.C. (Fig. 7). Most important is the unique Hellenistic bowl (Fig. 8) of the class termed "Homeric bowls." While only some fifty such vessels or fragments of them are known, over forty different subjects are represented on them. The scene of Achilles dragging the body of Hector, seen on this new bowl, is unique and forms an important addition to the repertory of Homeric scenes. With the Chorn fund were also purchased two pieces of sculpture, a marble statue of a maenad and panther (Fig. 9) of late Hellenistic type and probably made in the first century A.D., and an unusually fine Roman bronze statuette of Aphrodite (Fig. 10) which has the arms cast separately; the latter is to be dated in the second century A.D.

Before leaving our account of the art objects which are the products of ancient civilizations, we must turn to those from Central and South America, largely from Mexico and Peru. An outstanding piece of Mexican stone sculpture is the squatting figure with a large water jar on its back (Fig. 11), the gift of Mr. N. Richard Miller of New York. The jadeite figure, which probably represents a water god, was made in the Guerrero region about 800 A.D. Several pieces, both stone and terracotta, of the Mescala and

Totonac periods, were included in the Almansi gift, of which we illustrate only a large terracotta figure from the Vera Cruz area that is to be dated about 800-1200 A.D. (Fig. 12). Nazca and Mochica pottery from Peru is well represented in the Almansi group, which also includes some terracotta figures in the Chancay style; we single out for illustration an anthropomorphic plastic vase of the Nazca style (400-1000 A.D.) (Fig. 13). The rarest piece from South America, however, is a vessel from Santarem, Brazil, included in the Richter gift; this group also contained Mayan and Zapotec copper bells.

Of more recent art, it is in the field of primitive art that this year's gifts have made the greatest contribution to the Museum collections. Eight gifts included or were comprised exclusively of primitive pieces, eighteen from Africa and forty-four from the South Sea Islands and Australia. The African objects represent a very wide area and include such beautiful pieces as the Benin bronze plaque from Nigeria (Fig. 14) of the Almansi gift, the exceptionally fine wooden door (Fig. 15) made by the Senufo tribe of the Ivory Coast about 1800 A.D. and the Bambara wooden antelope with a baby antelope on its back from the West African Sudan (Fig. 16), both part of the gift from Mr. Samuel Rubin of New York, the wooden mask (Fig. 17) used by the women's secret society among the Mendi people of Sierra Leone, included in the gift from Mr. George Lazarnick of New York, the wooden figure of the Baulé tribe of the Ivory Coast (Fig. 18, left), gift of Mr. and Mrs. Kurt Delbanco, Larchmont, N.Y., and a Senufo figure (Fig. 18, right), one of three African figures in the Richter gift.

Much of the South Sea Island material is from New Guinea, but New Britain, the Solomons, the Trobriands and Fiji are also represented. The largest

ART MUSEUM

continued

FIG. 8. Pottery "Homeric bowl" with a unique representation of Achilles dragging the body of Hector; the height is almost three inches. Chorn Memorial Fund purchase.

FIG. 9. Statue of fine white marble portraying a maenad with a panther; the preserved piece is almost 17 inches high. Chorn Memorial Fund purchase.

FIG. 10. Bronze figure of Aphrodite, Roman work of the second century A.D., with arms cast as separate pieces; the height is about eight inches. Chorn Memorial Fund purchase.

FIG. 11. Mexican jadeite figure of a "water god" with a large jar on his back, dating around 800 A.D.; the height is somewhat over five inches. Gift of Mr. N. Richard Miller.

FIG. 12. Terracotta figure from Vera Cruz, Mexico, of the Totonac period, 800-1200 A.D.; the height is about 11 inches. Gift of Dr. and Mrs. Renato Almansi.

FIG. 13. Peruvian clay vessel in the form of a man, Nazca style (400-1000 A.D.), with bright polychrome decoration; height almost nine inches. Gift of Dr. and Mrs. Renato Almansi.

FIG. 14. Benin bronze plaque from Nigeria, probably for attachment to a door or rafter; it is over eight inches wide. Gift of Dr. and Mrs. Renato Almansi.

FIG. 15. African wooden door of the Senufo tribe, Ivory Coast, made about 1800 A.D. It shows a horse and rider flanked by standing figures in the top zone, a turtle and birds in the bottom panel and abstract incised designs in the center. The height of the door, including the hinges, is 53 inches. Gift of Mr. Samuel Rubin.

FIG. 16. African wooden figure of a long-horned antelope with a baby antelope on its back, work of the Bambara tribe of the Sudan; the total height is 30 inches. Gift of Mr. Samuel Rubin.

FIG. 17. African wooden mask used by the Mendi tribe of Sierra Leone; the height is 15 inches. Gift of Mr. and Mrs. George Lazarnick.

FIG. 18. Two African wooden figures: that on the left, over 12 inches high, is from the Baulé tribe, Ivory Coast, and is the gift of Mr. and Mrs. Kurt Delbanco; that on the right, almost 13 inches high, is of the Senufo tribe and is the gift of Mr. Bernard Richter.

FIG. 19. Wooden shield with carved abstract designs painted in ocher and white, made by the Asmat tribe of Dutch New Guinea; the height is almost 39 inches. Gift of Mrs. Ingeborg de Beausacq.

FIG. 20. Wooden ceremonial paddle from the Solomon Islands, decorated with carved human figures and geometric designs against a whitened background; the length is almost 70 inches. Gift of Mr. Allan Gerdau.

FIG. 21. Two brightly painted wooden figures, a man on the left and a woman holding a child on the right; each is a little over 37 inches high. Gift of Mr. and Mrs. Cedric H. Marks.

FIG. 22. Japanese wood block for making color prints, this one portraying a wrestler; the block is about 15 inches long and, like many others, has a design carved on the other side as well. Gift of Dr. and Mrs. Martin J. Gerson.

FIG. 23. Pen-and-ink drawing, "Cubist Study," by Roger de la Fresnaye; it is 10 by 13 inches. Gift of Mr. and Mrs. Alexander L. Berliner.

ART MUSEUM continued

group, from New Guinea, came from Mrs. Ingeborg de Beausacq of New York; we have chosen to illustrate the wooden war shield, decorated with carved patterns painted with ocher and white (Fig. 19), made by the Asmat tribe of Dutch New Guinea. Another large group of South Sea Island material came from Mr. Allan Gerdau of New York, from which we illustrate a very fine ceremonial paddle with carved stylized human figures and geometric designs silhouetted against a white background (Fig. 20); this piece, almost 70" long, is from the Solomon Islands. Two painted wooden figures, a woman and child and a very thin male figure (Fig. 21), are from the gift of Mr. and Mrs. Cedric H. Marks of New York. Among the Australian pieces, all the gift of Mr. Gerdau, are two fine bark paintings.

The art of the Far East is represented in a number of gifts. From Dr. and Mrs. Martin J. Gerson of New York has come a group of Japanese wood blocks used in the making of color prints in the late eighteenth and nineteenth centuries; that shown in Fig. 22 represents a wrestling scene. Several ivory Netsuke were included in the Almansi gift, which also contained some Chinese enamelled silver. A large Kang Shi vase, the gift of Mr. William Olden of New York, is most welcome in the Chinese collections. Two very fine Siamese shadow figures of the eighteenth century came on loan from Mr. and Mrs. Samuel L. Zeigen of New York.

It is encouraging to note that building of the collections of modern and contemporary art has begun in the last few years and to acknowledge the gift by Mr. and Mrs. Alexander L. Berliner of New York

of the important pen and ink drawing—"Cubist Study" (Fig. 23)—done about 1912 by Roger de la Fresnaye. This is a fine companion piece to the early cubist work of Abraham Walkowitz acquired in 1961.

In this brief survey, we have singled out only a few of the more than 250 objects accessioned in 1961, but they are representative of the areas which have been strengthened during the year. The Kress Foundation gift of Italian Renaissance paintings has only been mentioned, for its great importance warranted a separate report. The year has indeed seen a marked acceleration in the growth of the Museum collections in a wide variety of fields. But the Museum is still very young and there is much room for further growth in all areas. It is in the ancient fields that we have done the best, and this year has seen a truly exceptional development of the collections of primitive art. The Kress paintings form a rich kernel about which to build, but we must have special concern in this and coming years for the development of the collections of Mediaeval, Renaissance and post-Renaissance art, for it is in this area that much of our teaching is done. With the very generous cooperation of donors such as we have enjoyed in 1961 and hope to continue to merit, and with the expectations of growth as great as that noted for 1961, we have every reason to expect that the Museum of Art and Archaeology will become an ever more important part of the University both as an instrument in teaching and as an adjunct to its cultural activities.

*Saul S. Weinberg, Director
Museum of Art and Archaeology*

FREEDOM

ON THE

CAMPUS

By W. Francis English
Dean, College of Arts and Science

In 1824 an old man, broken in body and pocket-book, each day mounted his horse and rode three miles down a beautiful mountain and across a verdant valley to a village where he was supervising the construction of an unusual institution. He was the architect of its physical plant and more important, of its fundamental purpose. This man had had this institution in his mind's eye since his youth. He had held every high office that his state and nation could bestow upon him. Now he was old, almost forgotten, financially embarrassed, misunderstood, and in some places, despised and feared. When he was a young Virginia assemblyman he had tried to get his state to adopt his plan of public education. He felt quite sure that self-government and freedom would never become realities until all men were educated for freedom. It is true that he was just as fascinated with science and thought that free men should be acquainted with science, but his primary purpose in designing a state educational system that led from the elementary school through the university was to fortify virtue and keep man free.

On July 4, 1825, he died and his great ideal was left to the future generations to plan, build, and expand.

In 1787 Jefferson had published his *Notes on the*

State of Virginia. In this interesting and vital book Jefferson describes the educational system that he thought a free society required. It is not the pattern that we have used in building our educational edifice. Jefferson's plan was universal only in the sense that the first three grades would be free. He was confident that all that was needed to keep men free was to open the books and make information accessible to all. Since man's basic judgments were good, each or at least a majority, would be capable of protecting freedom. Their reason and good judgment would make it possible to recognize chicanery, selfish ambition and dangerous policy.

Jefferson knew that the families of the poor and the lowly sometimes produced children that were brilliant and worthy. His plan would have selected only the superior ones for advanced secondary and higher education. His plan was more in line with the English scheme of the 20th Century than the plan we have evolved in the United States. He sets down this fundamental premise for the education of free men,— "But of all the views of this law none is more important, none more legitimate, than that of rendering the people the safe, as they are the ultimate, guardians of their own liberty. For this purpose the reading in the first stage, where they will receive their whole

Photography by George W. Gardner

education, is proposed, as has been said, to be chiefly historical. History by apprising them of the past will enable them to judge of the future; it will avail them of the experience of other times and other nations; it will qualify them as judges of the actions and designs of men; it will enable them to know ambition under every disguise it may assume; and knowing it, to defeat its views. In every government on earth is some trace of human weakness, some germ of corruption and degeneracy, which cunning will discover, and wickedness insensibly open, cultivate, and improve. Every government degenerates when trusted to the rulers of the people alone. The people themselves therefore are its only safe depositories. And to render even them safe their minds must be improved to a certain degree. This indeed is not all that is necessary, though it be essentially necessary."

I WILL NOT HAVE TO BELABOR THE POINT THAT FREEDOM is in danger. It certainly was in danger in Jefferson's time and had been through the whole sweep of history. We are aware of the long struggle of the English-speaking people to establish and protect their individual rights. The struggle for equality and fraternity in France had been a sharp, bloody, and frustrating one. The American Colonies had experienced

most of the disappointments and heartaches that their English and western European ancestors had known.

In 1825 Freedom in many ways was still a dream and not a reality in the American republic. The rocky row ahead was filled with boobytraps, dangers, dreams, and heroic struggle. Thus has it been since Jefferson's time and the present age seems to be one in which freedom's condition is not good and its future doubtful. Even in the citadel of freedom, in the America that you and I serve and love, doubters are plentiful. They are to be found in the radical groups of the extreme right and the extreme left. More disturbing than these fringe groups is the lethargy of the mass of us who may be looking the other way when liberty is desecrated.

How has this ideal of freedom fared in the last 170 years? What has been its history in the last forty years? How firmly is it established as a cornerstone of our American life today? How highly do the students on your campus value it? More important, what do they know about it? Do they really believe in a free society? If so, what do you believe about it? What do the members of your faculties believe? If we are tested by another holocaust of war will we be struggling just for the right to call the umpire a fool and

FREEDOM continued

a crook? Really, how solid is the edifice of liberty and freedom? How many of the people of the world, outside the Communistic orbit, understand it, respect it, love it, and know what the price of freedom really is? The nations that attempt to hold a free society are a minority in number and their total population is a small minority of the world's total.

Let us return to our recent graduates. How many of them have a reasonable familiarity with the Bill of Rights and the Fourteenth Amendment? Could they pass a rather simple objective test on how the Fourteenth Amendment is applied today in civil rights cases? Would we dare examine them on the facts and issues of the history of this amendment from 1870 to the present? Do most academic people know what is implied in "taking the Fifth?" Do they realize that the very foundations of what they say in their AAUP resolutions are involved in over thirty civil rights cases that are now on the Supreme Court docket? Is there a chance that the principle announced in the Barenblatt case decided by a 5-4 vote of the Supreme Court will be the governing rule for the future? The fundamental point in this case seems to be that freedom is a divisible thing and that it depends on the action of the public reflected through public opinion on legislation and not by the protection of the courts. In the Barenblatt case it was decided that a Vassar instructor had to reveal to the Un-American Activities Committee his political beliefs and past associations. He spent a year in jail for his refusal to testify, after refusing to answer under the Fifth Amendment.

LET US REMEMBER THAT THE HISTORY OF FREEDOM has always been one strewn with bitterness, doubt, and total or partial defeat. We all remember the Alien and Sedition Act of the late 18th Century. They were passed to shut off criticism, "save the nation," "protect good men and public decency." We cannot forget the American or "Know-nothing" Party of the 1850's or the horrors of the Ku Klux Klan and the Radical Reconstructions acts after the Civil War. Nor can we forget the hysteria of World War I and the actions of Attorney General A. Mitchell Palmer following that conflict. In that episode, Palmer, Woodrow Wilson's Attorney General, was going to save freedom by filling the jails and the deportation ships with radicals, Communists, and revolutionists. Then we had the Ku Klux Klan again in the 1920's. They called themselves "100% Americans." One Klansman is supposed to have lettered on his place of business, "I am a 100% American. I hate Negroes, Jews and Catholics." A competitor put on his window, "I am 200% American. I hate everybody." But let us not forget the Gerald K. Smiths, the Father Coghlines, the McCarthy episode, the German-American Bund, and many other hate mongers in the last thirty years. Nor must we forget how candidates, public officials,

and even presidents have stood mute in face of these pressure groups.

We can say that freedom has quite often hung by a thread. Often Americans have stood mute and palsied before the bitter blandishments of freedom's enemies. Even the courts have fumbled and retreated. In fact the most eloquent court records have been dissenting opinions speaking for freedom rendered by justices like Oliver Wendell Holmes, Louis D. Brandeis, Charles Evans Hughes, Harlan Fiske Stone, Hugo Black, William O. Douglas, Earl Warren or William J. Brennan.

The issues dividing the justices on the issue of civil rights are deep and sharp. The division is not petty matters but the basic problems of individual liberty and public safety. They are the issues on which public opinion is divided also. Justice Black feels that the court is granting government so much power that the rights of the individual will be smothered. Justice Harlan thinks that those who support Black's views are stripping the nation of the powers it needs to survive in a time of crisis. Harlan's views usually prevail in this court by the slim margin of five to four.

Marquis W. Childs, Washington correspondent of the St. Louis Post-Dispatch, has written a series of articles in which he strongly supports the views of the minority. Childs is of the opinion that the drift of events during the last decade and a half has been toward the gradual whittling away of individual rights and that the edifice of freedom and liberty are being eroded speedily and tragically. The investigating power of Congress has been used as a method to get around many fundamental rights of individual liberties. They are Star Chamber proceedings to pillory individuals and organizations and convict them in the eyes of the public and their employers without any regard to the principles on which the British-American traditions have been constructed. Fear, unreasonable fear, is the great force behind this drift. It is popular because citizens do not believe in their inheritance of constitutionalism and their "rights as Englishmen."

Ralph McGill, Editor of *The Atlanta Constitution* and Pulitzer Prize winner, has written: "Historians have noted that our revolution, long before the fighting began at Lexington, was engineered by men who knew the law, men whose minds moved not in terms of violence and quick results but in terms of law and the courts and the reasoned disciplined action that lies behind the law and the courts. Since the greatest social reform of our time is being implemented by courts, they and the legal profession inescapably are a focus of attention. . . . In the past 20 years, but more particularly since the United States Supreme Court decision of May, 1954, the leadership of the Southern Bar has not lived up to its responsibility. It was not until the spring of 1960 that the Georgia Bar Association heard one of its members publicly state the truth about necessary compliance with decisions of the court. Nor was his heart lifted up by the considerable number of fellow members who later

came to him to express appreciation and to say they wished they could have said what he did. 'My clients do not want to be in controversy,' they told him.

OUR KIND OF NATIONAL COMMUNITY, therefore, depends partially on law but in a larger measure on the private decisions of millions of people. Our government has a limited authority but within these limits it must be obeyed. Large areas however are left open for private action and choice. If a free society is to reach an established goal, across the board, it must do so to a great extent through individual decisions anchored on a moral code that is held in high respect. Free business, a free labor, free civic groups, a free bar, a free press and free educators equal a country blessed and bathed in liberty.

Peter F. Drucker points up the problem in this fashion in *American Higher Education: Cornerstone of Free World Unity*.

"I have a very simple theme. My theme is that the American college and university has become the most effective international force today, far more effective, far more important than things which are a great deal more visible and cost a great deal more money, such as military aid or economic aid.

American higher education is rapidly becoming the basic resource of the free world; the main supplier of effective people. My question is, what does this mean for us in American higher education? Do we, really, yet understand what function has devolved upon us, not because we wanted it, but because we are the only ones to discharge it?"

Adolph A. Berle, Jr. has put it this way:

"In the first and deepest issue, universities and American intellectuals have, I am clear, been running away from the greatest and most constant of all human issues. This is, quite simply, whether life has an enduring significance, or whether it is an anarchy of chance, meaning nothing."

For us it is a professional problem. It hangs heavily on the shoulders of the lawyer and jurist, the journalist, the public official and the clergy also. But the teaching profession is particularly burdened by the responsibility for freedom. This is because the educational institutions were planned and constructed by society to produce a body of citizens who would be worthy and skilled free men. In every great educational effort that we have made, this purpose and idealism has stood forth sharply and clearly. From the Northwest Ordinance of 1787, through the Morrill Act of 1862 and the many actions of state constitutional makers, the idea that these institutions were to foster and perpetuate freedom is expressed in direct and unmistakable language. The charters issued to the private and denominational institutions reflect the same basic purposes. We are charged to make individuals strong morally, to perpetuate virtue, and to change them into competent citizens. The purpose is not just to make them smart voters, it is to make of them competent statesmen in every sense of the word.

Continued on page 17

Journalism spreads

Housing for the University School of Journalism now comprises three buildings, the newest being a two-story addition just north of Jay H. Neff Hall. The two buildings are connected by an attractive lobby with outside entrances on the east and west sides and a corridor extending from Neff Hall.

The brick and stone structure, which gives a solid, blocky appearance, is the new home of the Columbia Missourian. All the facilities required to produce the daily newspaper are now conveniently arranged under one roof, having been moved from Neff Hall and Walter Williams Hall. With this move a chain

reaction of other reshufflings set in; more space for classrooms and offices was the immediate result.

A visitor strolling through the new building will find students and faculty members eager to point out the physical improvements they now enjoy. Superb lighting has been provided. Partitions setting off various departments and offices are glass-paneled, so that all personnel involved in the daily newspaper production know where everyone else is. In convenient proximity are the city desk, women's department, news room, copy desk, and sports desk; offices of half a dozen instructors are nearby. The business office is

At left, the new addition to the University's School of Journalism as seen from a point northwest of the area; below, west side of the entrance-lobby joining Jay H. Neff Hall and the new building to the north which houses the Columbia Missourian.

Photos by George W. Gardner

Associate Professor J. P. Norman (wearing dark shirt) is shown conferring with journalism students in newsroom.

Journalism continued

just off the lobby. Close by is the ad sales department. The composing room is on the north side of the building, and the press room on the east. All these facilities are on the top or main floor. The photography department enjoys more space in the basement, where the circulation department is located. The new building was designed and built for practical use. It is not elegant or luxurious—the concrete blocks forming its interior walls are still exposed—but it is efficient and comfortable.

Among the changes in the two older buildings:

In Neff Hall, Dean Earl F. English moved his office to more spacious quarters, leaving more room for the placement office; a student-faculty lounge is a new development, being located in the old copy room; the old news room will become a classroom and laboratory for the magazine sequence and radio news writing; and the linotype school has moved into the basement. In Walter Williams Hall, the library will expand to the basement, and the Missouri Press Association will acquire the former *Missourian* business office area.

Don Faurot

In Football Hall of Fame

Don Faurot, the University's director of athletics and its head football coach through nineteen seasons, was inducted into the Football Hall of Fame at the National Football Foundation's annual Awards Dinner on December 5 at the Waldorf-Astoria in New York City. It was on that occasion that President John F. Kennedy delivered his speech on the need for physical fitness in this country.

One other football coach was selected by the Honors Court of the Foundation—the late Charlie Caldwell, who was head coach at Princeton and at Williams. Eight former players were also voted into the Hall of Fame.

Faurot, a fullback at Missouri from 1923 through 1925, coached at Kirksville State Teachers College and then came to M.U. where he was head coach from 1935 until 1956, with three years out for Navy service. His Missouri record was 101 victories, 79 losses and 10 ties. His team won three Big Six titles and went to four major bowl games. At Kirksville he compiled a 63-13-3 record, for a combined career mark of 164 victories, 92 losses and 13 ties.

When notified of his selection to the Hall of Fame Mr. Faurot said: "It is one of the highest honors that can come to a coach. I have always had a deep interest in the Hall of Fame. I want to give thanks to the assistant coaches and many players who helped me to achieve this honor."

Faurot, the originator and developer of the Split-T formation, is a past president of the American Football Coaches' Association, a member of Missouri's Sports Hall of Fame, and the author of a book on the Split-T. As an undergraduate at Missouri, Faurot lettered in baseball and basketball as well as football.

Concert band to St. Louis

The University of Missouri Concert Band will give a concert of popular music for a limited audience at 8:30 p.m., March 31, in the Khorassan Room of the Chase Hotel, St. Louis. The concert will conclude the Band's regular spring tour of high schools, to be made this year in St. Louis and St. Louis County.

Proceeds of the fund-raising program will go into the University of Missouri Alumni band and orchestra scholarship fund, for students from the St. Louis area, it was announced by Charles L. Emmons, University director of bands and orchestra and associate professor of music.

Assisting in the concert will be the University Men's Glee Club under the direction of Thomas L. Mills, professor of voice.

Co-sponsors of the event are the University of Missouri Alumni Chapter of St. Louis and the Carondelet Savings and Loan Association, St. Louis. Roy L. Tarter, president of the Association, says this is the first of a proposed series of annual popular concerts for the benefit of the music scholarship fund.

The high school tour, scheduled for March 28, 29 and 30, will include daytime programs in eight St. Louis area schools, and evening workshop sessions for music students of the schools.

The Concert Band is composed of 86 students, chosen from "Marching Mizzou," the University's marching band. Many Band members are from the St. Louis area. Several will be featured in special numbers.

They work out arrangements for St. Louis concert of University Concert Band: (seated) Prof. Rogers Whitmore, music department chairman; Roy L. Tarter, president of the Carondelet Savings and Loan Association; (standing) Norman Sherman, member of St. Louis Alumni board; Dwight Schubel, '35, of the Carondelet board; and Prof. Charles L. Emmons, director of the band.

Mrs. Hicks G. Griffiths, A.B. '34, first woman member of the powerful House Ways and Means Committee.

Fearless alumna into male stronghold

Martha Wright Griffiths of Detroit, a noted Missouri graduate, is a mailman's daughter who has been debating foreign trade since high school, and now she has invaded the male stronghold of the powerful House Ways and Means Committee. The Democratic congresswoman, who answers to Mrs. Hicks G. Griffiths, says: "My father always was adamant against high protective tariffs years ago in Pierce City, Mo. That's how I got interested in it. I debated the subject for the high school debating team and have been following it ever since." She says that foreign trade and tariff agreements will be her main concern on the Ways and Means group. Mrs. Griffiths soon will have her chance to debate the matter where it counts—on the 25-member tax-writing Ways and Means Committee. Elected to the post by a party caucus,

she is the first woman ever to serve on the committee.

Mrs. Griffiths is serving her eighth year in the House, representing a middle class suburban area with a population of more than 500,000. A "tower of strength" behind her legal and legislative career, she says, is her husband, to whom she was married in 1933 while the two were undergraduates at the University of Missouri.

"He cheered me on," she says. "He insisted I go to law school, and he insisted I get into politics." After leaving Missouri, both enrolled in the University of Michigan law school. The Griffiths, who are childless, were partners in a law firm in the 1940s. She developed a reputation as a sharp trial lawyer and for ten months held an interim appointment on the bench of Recorder's Court in Detroit—a catch-all criminal court. She served in the Michigan General Assembly from 1948 to 1952.

Mrs. Griffiths lives alone in a small apartment near the Capitol when Congress is in session, returning to Detroit nearly every weekend. Her husband frequently visits her in Washington. She reads a lot in her spare time—"everything but fiction." She is an avid summer gardener at her farm near Romeo, Mich.

In December, 1958, Mrs. Griffiths, accompanied by Mr. Griffiths, returned to the Missouri campus where she received a Citation of Merit during Arts and Science Week; the award was presented by the University Alumni Association and the College of Arts and Science. She has received many honors. Awards for outstanding service were presented to her by the United Church Women of America, the National Council of Churches, and the Business and Professional Women's Club. In 1953 she was chosen by the Detroit Free Press as one of the twelve outstanding Women of Achievement in Detroit, and in 1956 Redbook magazine chose her as one of ten members of Congress who have done the most for young people. Mr. and Mrs. Griffiths each earned A.B. degrees at M.U. in 1934.

The Detroit News, in a recent editorial, "Victory for Women," had this to say about her new post:

"Michigan's first big 'first' of the New Year and this nation's 'first' in all history today is Congresswoman Martha W. Griffiths, of Detroit's 17th District. She becomes the first woman to sit on the House Ways and Means Committee, the most powerful revenue-raising, tax-assessing, budget-adjusting group in Congress.

"Housewives are going to look up from wrestling with the problem of stretching their husband's income over the expenses of their families and snap, 'It's about time!' Women won the right of national suffrage 42 years ago this year, do more than half the unpaid chores in every political campaign.

"When Mrs. Griffiths, thoroughly qualified and widely admired, became a candidate for one of the two vacancies on the 25-member committee, in a congressional election year, veteran congressmen fled the barricades they had held against women for 173 years."

This George Caleb Bingham portrait of Major James S. Rollins (1812-1888), "Father of the University" and lifelong friend of Bingham, was presented to the State Historical Society of Missouri by James S. Rollins II and James S. Rollins III, shown at right. At left of portrait is Governor John M. Dalton, and at extreme left, E. L. Dale, Carthage publisher and Society president.

FREEDOM

from page 11

If this is our heritage, if this is our place in the great plan of this age, how can we fulfill our basic professional duty? We certainly cannot do it by neglecting to teach the ways of freedom, its history, its legal base, and its central place in our culture. We cannot strengthen it by slick propaganda. We cannot "teach by example" if we make our institutions small dictatorships. Freedom will be learned in a society that protects it and literally spawns it. Our campuses must be free societies. Students will learn to be free by living in the freest atmosphere possible. This is not a society in which anarchy, license and lethargy prevail. It is a responsible society where ideals, purpose, intelligence are rampant. It is well-regulated society where the competent and the thoughtful are protected and encouraged.

If these last two centuries are to be no more than mankind's fitful and foolish flirtation with freedom, these remarks are only the pitiful and pallid prayer of a believer who followed a philosophy that is hollow. He and his kind can in future years be a stoic or an existentialist. But if the ideals behind liberty and freedom have validity they are worth our best professional effort in the next four decades. This issue will undoubtedly be decided before the year 2000.

And it will be decided in the educational institutions of the world. Public opinion will decide it. The institutions of government will reflect the opinions of mankind in the last analysis. Mankind will not demand freedom unless he wants it. He will not want liberty and freedom unless he is prepared in mind and spirit for it. The realm of the mind is the province of the educator. It is possible for the educator to completely miss his greatest assignment.

The foregoing article is based on an address given by Dean W. Francis English before the Conference of Academic Deans, at Oklahoma State University.

Bradshaw heads study group

Dr. William L. Bradshaw, dean emeritus of the School of Business and Public Administration at the University, has been chosen chairman of a committee to study the need for calling a new Constitutional Convention in Missouri. Dr. Bradshaw was a delegate to the convention in 1943-44. The committee has 23 members, who were appointed by Governor John M. Dalton. A four-member steering committee was chosen to determine the need for a convention.

Victor D. Brannon, Ph.D. '38, director of the Governmental Research Institute in St. Louis, was named secretary of the steering committee.

missouri memo

Mike Graznak, B.S. Agr. '48, is a sales specialist for the John Blue Co. at Huntsville, Ala., where he lives at 1201 Woodall Lane. He has not lived in Huntsville very long but is now well known there because of his heroism in a fatal blast and fire which destroyed a neighbor's home and took the life of a 30-year-old man. Graznak ran to the scene when he heard the blast, and as a score of other persons looked on, dashed into the flaming, tilting structure to rescue a 6-year-old boy whose hair was aflame. Then Mike dashed back into the inferno and pulled out the boy's 3-year-old brother. He made a third trip and yelled, but no one answered, for it is assumed the boys' father was already dead. Then the building crumbled to earth. In an editorial, praising Graznak's heroic action, the Huntsville Times concluded: "In his months here, Michael Graznak has made more friends. But in the blazing, crumbling remnants of a Woodall Lane home, Mike created more Huntsville admirers than he ever will meet personally."

Frank B. Scheetz, at the age of 94 one of our oldest graduates, had a wonderful trip to Europe in the fall. This information has been forwarded by Forest Lyman who had a letter from the noted engineer who now lives in Washington where he continues to serve as sergeant-at-arms of the alumni club. Mr. Scheetz sailed from New York in September and returned a month later by jet. He bought a car to be delivered in Paris, and covered a lot of ground in Europe. Mr. Scheetz was in England and Scotland before arriving in Paris, then went to the Netherlands, Germany, back to France and then to Barcelona. In his letter to Mr. Lyman, Mr. Scheetz (whose 94th birthday was Dec. 14) said, "I am feeling about 80% physically, with the usual handicaps expected of a young man at my age."

Mrs. Peggy Phillips and Mrs. Betty Cook Rottmann

Betty Cook (Mrs. Leroy) Rottmann, B.J. '58, received the 1961 award of excellence from Theta Sigma Phi, national fraternity for women in journalism for "consistent excellence in programming and projects" as immediate past president of the Columbia Alumnae Club. The presentation was made by Peggy (Mrs. J. Webster) Phillips, former J-School student who is director of public relations at Christian College and is former national vice-president of Theta Sigma Phi. Mrs. Rottmann, news-writer in the University Office of Public Information, is a free lance writer and photographer who in the past three years has won sixteen Missouri Press Women awards, five National Press Women awards.

Andrea Herman, who received a B.J. in 1960, is on the society news staff of the Chicago American. Recently she did an interview with Tennessee Williams, which resulted in a lively feature story in her paper. The playwright, who was known as Thomas Lanier Williams when he attended the University (his last year was '32, when he was in journalism) reminisced about his campus days. He recalled his dislike of ROTC, which he

flunked three times; he found Latin a bore, and in J-School he wrote the wrong obituary. Williams, whose solid stage hits form an impressive string, came out third in the playwriting contest at Mizzou. "After this contest I stopped writing plays for the University," he told Andrea. During the interview—in a swanky cafe—he got up to demonstrate a dance called "The Fish" which he said was popular in his student days. He conceded that he could be considered a prankster "if you want to count stealing books, paddling pledge brothers and writing bad checks."

Guy B. Davis, BS BA '59, and a fellow pilot are co-holders of a new world sailplane endurance record which they set in Hawaii. In their small glider the two men stayed aloft 71 hours, 5 minutes, which is nearly 14 hours longer than the previous mark. Davis is a former resident of Webster Groves, Mo. and is a former Navy flight instructor. He has made his home in Hawaii since his graduation and is associated with the firm of Castle & Cooke in Honolulu. With his wife and three children Davis lives at 248 Pouli Road, Kailua, Hawaii.

class notes

09 ALLAN VAUGHAN ELSTON, BS CE, has produced his 25th western novel, *Treasure Coach from Deadwood*, published by J. B. Lippincott Co. It is a story of the robberies of the gold laden armored coaches that rocked day and night from Deadwood City in the Black Hills of South Dakota to Cheyenne, Wyoming. There is plenty of the shooting that the western fans demand, but in addition there is a cleverly worked out plot, this time the villain known from the beginning, with suspense provided as to how and when he will meet his deserved end. A highly satisfactory book for readers of this type, for whom Elston provides top-notch productions. The history and the legend of this area is authentic and well done. Elston lives at 2121 N. Flower St., Santa Ana, Calif.

10 ALEX F. SACHS, BS CE, who retired as postmaster of Kansas City in 1957, recently moved to a new address: 4550 Warwick Blvd., Kansas City 11, Mo.

11 Mrs. Clyde Green (MARY EDNA TWEEDIE), BS Ed., and Mr. Green are spending the winter in California where their address is 4323 Shady Glade, Studio City Sta., N. Hollywood; they will return March 1 to their home at Beaver, Okla. They have lived in Beaver County since 1911, and Mrs. Green taught in the Beaver primary schools for 24 years.

ARTHUR BEVAN is a geologist, semi-retired, currently making a geologic map of Augusta County, Va., and lives at Churchville, Va.

12 ROSCOE BRITTE RUTLEDGE, BS EE, who served in World War I, then went into the oil business and later in real estate development for himself, has retired as president of Roanoke Investment Co. but maintains an office at 7749 Wornall Rd., Kansas City, Mo. His residence is at 3608 Charlotte St.

CLARENCE C. RODGERS, BS Ed., now retired, has taught in high schools in Iowa, Kansas, Missouri, Colorado and Illinois for about 25 years. During WW I he served in the Air Force Signal Corps and the Civil Air Patrol in WW II. He and his wife have two daughters, Helen and Ueda Marie. Their home is at 932 Kingston St., Denver 8, Colorado.

ELMER CLINTON ROBINSON, BS EE, has retired after 40 years with Century Electric Company of St. Louis. While at the University, Mr. Robinson lettered in track in 1910 and 1911. His brother, the late CHARLES C. ROBINSON, also graduated from the University with a BS EE in '01. The Robinsons have one daughter, Frances C. Dale, of Detroit, Mich. They make their home at 604 W. 8th St., Bristow, Okla.

LINDON BURKE PHIFER, BJ, AB edits and writes daily prayers syndicated by National Religious Features, a publication of the National Council of Churches. His son Gregg and wife and two granddaughters live in Cincinnati, Ohio. Mr. Phifer makes his home at 1505 Colonial Dr., Tallahassee, Fla.

ERNST J. GUENGERICH, EE, a telephone consultant, lives on Lambert Rd., New Canaan, Conn.

ADAM C. REMLEY, BS CE, is retired and lives at 225 River Dr., Appleton, Wis. He and his wife have two sons, Arthur and Samuel.

HENRY FRIEDE, BS EE, is a retired lawyer and professor of engineering, Lake Erie School of Law. He makes his home at 2585 Idlewild Rd., Olive Heights 18, Ohio.

JOHN MCKINLEY JONES, AM, with Texas Agriculture Station from 1914-1956, was on leave as agricultural officer in Ecuador in 1951-52, and livestock adviser with ICA in Washington D. C. from 1956-57. He served as consultant in animal husbandry, Bureau of Animal Industry, USDA, from 1928-55. Mr. Jones makes his home at 812 Ennis Ave., Bryan, Tex.

Mrs. MILDRED MAXWELL Johnston, AB, BS Ed., AM '14, makes her home at 100 N. Sycamore, Los Angeles 36, Calif. She has two married daughters, Mrs. Marion Koester and Mrs. Judith Ostrup.

DELTON L. CARTER, AB '10, BS Ed. LL.B., is a practicing lawyer in Weiser, Idaho. He and his wife, the former ELLA MAE WILSON, BS Ed. '12, have two sons. The Carters reside at 1009 N. State, Weiser.

NOEL DANIELL, Manager

KANSAS CITY MISSOURI

FRANCIS EDWARD LONGMIRE, BS Agr., for 42 years in agricultural extension work, has retired. From 1930 to 1957 he served as assistant state leader of farm advisers in Illinois. His wife is the former NELLIE DANIELS, Arts '16. The Longmires have one daughter, Frances Helen. Their home is at 710 W. Vermont, Urbana, Ill.

ARTHUR STRATTON HURT, BS Ed., AM '16, AB '17, now retired, served as school superintendent in Missouri from 1906-1919. Subsequently he was active in the labor relations field with Standard Oil Company at Sugar Creek, Mo. until 1915. He and his wife have been married over 52 years and make their home at 901 S.W. King Ave., Portland 5, Ore.

ALBERT ARTHUR HUGHES, Eng., retired, lives at 2911 Lowell Ave., Richmond, Calif.

BENNETT J. LAY, BS Agr., is retired. He and his wife live at 578 S. Grand, Orange, Calif.

ANNA CHRISTINE McBRIDE, AB, BS Ed., AM '19, is professor emerita of Carnegie Institute of Technology, Schenley Park, Pa. She lives in the Ruskin Apts., Pittsburgh 13.

JOHN SHEEKS MARLEY, LLB, and his wife make their home at 485 E. 53th St., Kansas City 10. Their daughter KATHLEEN MARLEY, Law '48, (Mrs. Ronald Somerville), resides at 1608 Clay, Chillicothe, Mo.

LLOYD RANDOLPH KILLAM, Arts Educ., is president of Pacific Properties, Ltd. His wife is the former SADIE CRAIG, AB '10. They have two sons and a daughter, Robert C., Douglas, and Margaret. Their address is 802 Kapiolani Blvd., Honolulu.

R. ADAMS DUTCHER, AM, is head of the Department of Biochemistry and professor emeritus at Pennsylvania State University. During WW I he served in the Medical Corps and in WW II in Scientific Intelligence in Germany. The Dutchers have a son and a daughter. Their home is at 254 E. Hamilton Ave., State College, Pa.

CHARLES ASBURY HARVEY, BJ, has retired as newspaper editor. He served as auditor in the State Department of Finance. Other organizations he contributed to are the Board of Education, for 27 years, his local Veteran's Training Program and the Dana Press Club. Mr. Harvey makes his home in Maysville, Mo.

JOHN HUBBELL HUDSON, Agr., farms near Norborne, Mo. The Hudsons have a son and daughter. Their address is RFD 3, Norborne.

ELMER LEE ANDERSON, BS CE, was chief engineer with Frisco Railroad be-

Elmer Lee Anderson, '12

fore his retirement. The Andersons have two sons. Mr. Anderson is City Councilman, chairman of the ethical practices committee, Springfield, Mo., and a member of the Society of Professional Engineers. Their home is at 1040 East Grand, Springfield.

15 RAYMOND W. HALL, AB '13, LLB, board chairman of the Federal Reserve Bank of K. C., announced his retirement in December. He has been with the bank for almost 13 years and was appointed chairman of the board in 1953. Mr. Hall makes his home at 6720 Tomahawk Rd., Kansas City 15, Mo.

SAMUEL M. RUDDER, CE, was honored with a dinner and Life Membership by the Missouri Section of the American Society of Civil Engineers in December for his long service to the Missouri State Highway Commission. Mr. Rudder is a former president of the section and president last year of the Engineering Alumni of the University of Missouri. Three of his four children also are graduates of the University. He makes his home at 1120 Moreau Dr., Jefferson City.

20 KOSS W. BLOMEYER, LLB, has been appointed co-chairman in the St. Paul School of Theology Methodist Crusade for Capital Funds. He is a member of the Official Board and lay leader of the Bloomfield Methodist Church. An attorney in Bloomfield, Mo., Mr. Blomeyer is also active in Boy Scouting and a member of various Masonic bodies.

Mrs. ANN RHODES Jackson, BS Ed., clothing specialist in the Extension Service at Colorado State University, lives at 304 Gordon, Ft. Collins, Colorado.

23 Mrs. RICHARD B. RUTLEDGE, the former AGNES THUMSER, BS Ed., has a notable record of civic activities in Tulsa, Okla., where she and her husband live at 1231 East 24th St. During the last 15 years she has been a member of the Tulsa City Library Board. She was state chairman of Citizens for Library Development which led the drive for a constitutional amendment to permit counties to vote bonds to build libraries and millage to maintain them. She was on the Town Hall Council and served as president two years. Mrs. Rutledge was president of A.A.U.W. and helped to organize a chapter of Mortar Board at Tulsa U. At Missouri she was a member of Mortar Board and was founder and chapter president of Alpha Chi Omega. Later she taught physical education for three years at Kansas State Teachers College, Emporia. She has held various district and national offices in her social sorority. Her husband, Dr. RICHARD B. RUTLEDGE, AB '17, AM '21 and Ph.D. '24, has been with Skelly Oil Co. for 32 years and recently retired from his position as Division Geological Exploration Manager. He is now consulting geologist. On the campus he lettered in baseball and football under Coach Schulte and became an instructor in geology. Mrs. Rutledge recently resigned from the Library Board and accompanied her husband on an extensive trip to Australia, where he went in a consulting capacity. Now that the Rutledges have given up some of their responsibilities, they expect to take life easier and devote more time to their golf games.

24 Mrs. IRENE RHODES Baird, BS, AM '26, teaches Business Education in the Alamogordo High School and lives at 2413 Pecan Drive, Alamogordo, N. M.

26 Mrs. G. C. (DORIS RHODES) Monroe, BS Ed., AM '30, makes her home at 705 S. National, Springfield, Mo.

28 JAMES B. KEITHLEY, BJ, has been elected vice-president of the J. Walter Thompson Company. A member of the account service group in the Chicago office, he has been with the company for 16 years. Keithley also holds degrees from Drake University and is active in various professional clubs. He and Mrs. Keithley reside at 505 South Hi-Lusi Ave., Mount Prospect, Ill. They have two sons.

29 Mrs. Bessie Borchers, the former BESSIE WARD POINDEXTER, BS Ed., lives at 2343 Ellsworth St., Berkeley, Calif. Her son, Dr. WEBSTER RAY POINDEXTER, attended the University as a pre-med student in 1945. Her brothers are

THESE 3 VITAL STEPS

bring you the world's best telephone service

1 • RESEARCH

The telephone was born of research and grows ever more useful the same way. *Bell Telephone Laboratories* conducts a far-reaching research and development program—most of it in communications, but much of it devoted to defense.

Basic Bell inventions such as the Transistor and the Solar Battery have benefited man in many ways. And constant development of new equipment is revolutionizing telephony. But research alone doesn't bring service improvements and economies.

2 • MANUFACTURE

Research-created equipment must be manufactured, held to high standards at low cost, and made available anywhere in the nation.

That's *Western Electric's* job. Working closely with Bell Laboratories, Western Electric makes the vast amounts of high-quality equipment required for the telephone network. But the task still remains of putting this research and equipment to work—so they can make daily living easier and more pleasant for you and your family.

3 • OPERATION

Here, twenty-one *Bell Telephone Companies* step in. They take the results of Bell Laboratories research and Western Electric production and bring them to useful life on your bedside table or kitchen wall or office desk.

All three—research, manufacture, operation—are interdependent and indispensable. Working as a team with a common goal, they give this country the world's finest telephone service and more telephones than all other countries combined!

BELL TELEPHONE SYSTEM

Owned by more than two million Americans

WILLIS A. WARD, Med. '28 and WILLIAM A. WARD, BS Ed. '29, AM '37.

Col. C. W. G. CRAIG, BS Agr., retired from the U. S. Air Force in October 1951 after 37 years of military service in the United States and Hawaii, principally in the dental career field. Colonel Craig received numerous decorations and service awards including the WW II Victory Medal and the Air Force Longevity Award with three Oak Leaf Clusters. His address is P. O. Box 768, Danville, Calif.

J. J. STADTHERR, BS Ed., is training director for the Pure Oil Company. The Stadtherrs have three children, John 22, Sylvia 20 and Paul 17. They live at 165 S. Craig Place, Lombard, Ill.

JOE M. HANSMAN, BJ, has been appointed comptroller of the Veterans Administration in Washington, D. C. He has had 28 years of government and military experience, primarily in staff and research positions. He and his wife, the former LOUISE ENYART, AB '27, BS Ed. '32, make their home at 3709 N. Wakefield, Arlington, Va.

31 R. E. L. LAMKIN, Jr., AB, was elected president of the Chamber of Commerce board of directors in Cape Girardeau in December. He is secretary-treasurer of the Buckner-Ragsdale clothing store company. A native of Cape Girardeau, he has been a member of the C. of C. since graduation from the University. He lives at 345 N. Pacific St., Cape Girardeau.

33 WILLIAM NATHAN McDONALD, Jr., BS BA, is credit manager of the Hercules Powder Company. He and his wife, the former ESTHER KITTY PRATT, BS Ed. '37, have two children, Kitty, 20, and W. N. III, 19. They reside at 1206 Covington Rd., Carcroft, Del.

LENA SPALDING Jones, who attended the University in 1932 and 1933 teaches speech, publications and English II, III, and IV at the Russellville High School. She had been teaching at Linn, Mo. for six years. Mr. and Mrs. Jones have one son and live near Russellville, Mo.

34 EDWARD R. ELLIS, BJ, is on a six-month leave of absence from the New York World-Telegram & Sun to write a biography of Steve Hannagan, the famous press agent who died in 1953. Ellis is the author of the recently published "Traitor Within: Our Suicide Problem."

35 CAL ABRAHAM, BJ, is editor of publications and director of product publicity for the Coca-Cola Export Corporation, New York City.

Col. Charles W. G. Craig, '29

37 ELMER EDWARD FICK, BS Agr., has been county supervisor with Farmers Home Administration, U.S.D.A. since 1938. He is active in many civic organizations and has been president of the Trenton Lutheran Church for ten years. Mrs. Fick is clerk with the Grundy Electric Cooperative. They have one daughter, Linda Sue, 19. The Ficks make their home at 1009 Rural St., Trenton, Mo.

JESS FRANKLIN GRIDER, AM, is superintendent of schools in Chouteau, Okla. His address is Box 312, Chouteau.

WILLIAM ARTHUR HOWARD, BS BA, is secretary-treasurer for Williamson Stores, Inc., an export-import company in Oswego, Kan. Mrs. Howard is county clerk, FHA office, in Altamont. The Howards have two children, Celeste E., 7, and William A. III, 6 years old. They reside at 715, 4th St., Oswego, Kan.

R. EARL FARNSWORTH, AM, is principal of Northside High School in Fort Smith, Ark. He and his wife have three children, Patricia Jean, Rosemary Mildred and Justin Earl. They live at 605 N. 14th St., Fort Smith.

RITA DEY FIELDS, BJ, is advertising director for Nelly Don, Inc. She makes her home at 209 Brush Creek, Kansas City.

GLENN ERMAN HEAD, BS Agr., is with Farmers Home Administration, Memphis, Mo. The Heads have two children, John, 10, and Christy, born in 1951.

HERBERT H. HUTSELL, AM, is principal at Central High School in St. Louis. Mrs. Hutsell manages the lunchroom and does secretarial work at a school in Webster Groves. The HutSELLs and their daughter Susan, age 13, make their home at 3616 N. Garrison Ave., St. Louis, Mo.

ATHEL BANGERT, AB, is an officer in the U. S. Army, in the office of the Joint Chiefs of Staff, Pentagon, Washington, D. C. Mrs. Bangert teaches school. They have a son and a daughter, Judith Kaye 18 and Jack T. 10. Mr. Bangert's brother, KEITH BANGERT, also graduated from the University with an AB degree, 1946. The Bangerts reside at 9305 Maplecrest Dr., Annandale, Va.

ROBERT EDGAR FORBIS, AB, BS Med. '38, is an orthopedic surgeon in Albuquerque, N. M. He has three children, Diane 18, Michael 15 and Donna Lee 13. The Forbis family lives at 5102 4th St. N.W., Albuquerque.

HOWARD ELLIS HARNESS, BS Agr., farms in Bowling Green, Mo. He has three daughters, Judith Ann, Janet Louise, Margaret Ellis and one son, William Howard. The Harness home is in Bowling Green.

GRACE MAURER Hervey, Educ., is presently doing graduate work in occupational therapy at Texas Woman's University. Her husband Ralph J. Hervey is associate research professor in soil microbiology at Texas A & M. The Herveys are at home at 1501 North 11th, Temple, Tex.

JOHN WEST HAMPTON, Arts Eng., is a building contractor. During WW II he served in the USNR for five years as pilot of multi-engine patrol aircraft. He left the service a Lt. Commander. The Hamptons have three children, Roberta, 13, Katherine, 10, and John, 6. Their home is at Prospect Heights, Onancock, Va.

CYTHA RICKHOFF Fielder, AM, is substitute teacher and housewife. She and her husband live at 38366 17th St. E., Palmdale, Calif.

WILLIAM DULANEY GWINN, AB, AM '39, is professor of chemistry at the University of California, Berkeley. He has three children, Robert 7, Ellen, 5, and Kathleen, 3. The Gwinns reside at 8506 Terrace Dr., El Cerrito, Calif.

JULIA GREENFIELD Hauber, AB, whose husband is owner of Hauber Implement Company, does volunteer work in the Winfield High School English department. The Haubers have seven children, ages seven to twenty-one. They are James E., Mark S., Julie E., Richard A., Robert K., Eric J., Charles G. The Haubers reside at 1105 E. 8th, Winfield, Kan.

HAROLD W. THIEMAN, BS Agr., is a farmer and cattleman. He has exhibited polled shorthorns at leading fairs and exhibitions in the U. S. for 30 years and judged cattle at many state fairs and exhibitions here and at the Royal Easter Show at Sidney, Australia. He exports cattle to Canada, Scotland, Australia, New Zealand, Argentine and South Africa. The Thiemans herd has won 40%

of all International Grand Champions on Polled Shorthorn cattle during the past 30 years. The Thiemanns live in Concordia, Mo. They have a son and a daughter, 11 and 10.

DAVID SKEER, AB, is attorney with the law firm Sheffrey, Ryder and Skeer in Kansas City. He is president of the Missouri Association of Mental Health. He and his wife have a son and a daughter, Maurice, 23, and Rebecca, 21. Their address is 6,110 Wyandotte, Kansas City, Mo.

GUTH KENNETH SHEPHERD, Eng., is regional general manager for the Continental Oil Company in Oklahoma City. He started work for the company in 1937 and moved through various jobs in the mid-continent area to exploration manager of the Rocky Mountain region. Subsequently he was sent to Egypt in 1955 as exploration manager for Sahara Oil Company, a subsidiary of Conoco and became president of Sahara Petroleum Company from 1957 to 1960. He returned to the States to become central regional manager. Mr. Shepherd is active in Boy Scouts and the Chamber of Commerce. He and his wife have a son and a daughter, Carol Sue, 21, and William Kenneth, 14. They reside at 8321 Glenwood Ave., Oklahoma City.

SIMON REZNIKOFF, AB, is associate professor of business law at San Diego State College. He and his wife, the former RUTH SHEAR, BS HE '39, have three children, Carolyn 14, June 13 and Laura 9. They make their home at 4786 62nd St., San Diego, Calif.

Mrs. Paul J. Jones, the former DOROTHY MARION YALOMSTEIN, BJ, has a daughter Suzanne Ethel, 4 years old. The Jones' make their home at 2322 Iris, Imperial Beach, Calif.

ROBERT DOUGLAS RIPPETO, AB, is superintendent of social services in the San Mateo County Department of Public Health and Welfare. A Lt. Colonel in Army Reserve, he served as captain in the Air Force during WW II. The Rippetos have one daughter, Cheri Ann, 10 years old. Their address is 175 W. Hillsdale Ave., San Mateo, Calif.

JOHN E. HARRINGTON, AB, operates an insurance, real estate, tax return service and farm management agency in Lathrop, Mo. He is married and has five children. His oldest son, Samuel T. is a freshman at the University in the School of Arts and Science. The Harringtons make their home at 210 N. Maple, Lathrop.

RALPH WALTER KUMMER, BJ, is management consultant with Ralph W. Kummer Associates in San Mateo, Calif. He received his reserve commission in the ROTC in 1937 and was on active duty as Army Artillery Liaison Pilot from

1942-44 and flew on combat missions in the Pacific from 1944-'45. He left the service a major, decorated with the Air Medal with Oak Leaf Cluster. Currently he holds commercial instructor pilot rating and is active in aviation industry. His hobbies are music, mountain climbing, hiking and swimming. He and his wife have two children, Garrett 14 and Nelson 9. A daughter died in 1958. The Kummers live at 278 La Casa Ave., San Mateo.

JAMES P. KELLY, BS Ed., is a Missouri state senator and engaged in farming. His wife also attended the Univer-

sity. During WW II he served as Lt. Colonel in the 8th Air Force and is decorated with the Bronze Star. He and his wife live at 201 Linn St., Trenton, Mo.

Dr. RICHARD FRANCIS LaFORCE, AB, received his MD degree from Washington University, St. Louis in 1911. A Lieutenant Colonel during WW II, he served in the European Theatre four years and was decorated with the Bronze Star. The LaForces have four children, James, 18, Robert, 15, William, 11 and Mary, 9. They reside at 417 Fairhurst St., Sterling, Colo.

When you
cook better... live better... **Electrically!**

"It's like having a whole staff of chefs cook dinner for you . . ." That's what homemakers say after they try one of the new automatic electric ranges.

And you'll agree with them! Imagine a wonderful world where all the work and worry of cooking is gone forever—with an electric range that almost thinks for itself. Time and temperature controls cook delicious meals without your even having to watch . . . when you live better—cook better electrically.

See the new electric ranges at your dealer's right away . . . and

LIVE BETTER...Electrically

KANSAS CITY POWER & LIGHT COMPANY

Dean Mott Portrait Presentation

Participating in the ceremony were, from left: Ned Etheridge, artist; Dr. Frank L. Mott, Mrs. Mott, Governor John M. Dalton, Mrs. Mildred Mott Wedel (daughter of the Motts), and President Elmer Ellis.

A portrait of Dr. Frank Luther Mott, dean emeritus of the University School of Journalism, has been presented to the School as a gift of friends, colleagues, former students and admirers. The presentation took place at the annual Kappa Tau Alpha recognition dinner held December 10 at the Memorial Student Union. Missouri's Governor John M. Dalton was among the 200 friends and guests present. Also present was the Motts' daughter, Mrs. Mildred Wedel.

The portrait, 40 by 48 inches, is to hang at the School of Journalism. It was painted by Edward B. (Ned) Etheridge, Columbia artist who is a graduate of the School and an associate agricultural editor at the University. Funds in excess of the cost of the portrait will be used for annual research prizes in journalism in honor of Dean Mott. The honored guest was also presented a collection of numerous testimonial letters from those who have been associated with him in all parts of the world. Dean Mott, featured speaker at the dinner, gave his annual Kappa Tau Alpha initiation address. He spoke on "A Revolution in Newspaper Journalism" in continuing the theme of an outline of journalism history which was begun in past initiation addresses.

In addition to Governor Dalton, special guests included Dr. Elmer Ellis, president of the University; L. Mitchell White, publisher of the Mexico Ledger, representing the Missouri Press Association; Prof.

Frank Rucker, speaking for the alumni and the journalism faculty; and Linda Boeser, president of Kappa Tau Alpha. Dr. Earl F. English, dean of the School of Journalism, introduced Dr. Mott. All spoke briefly of the contributions Dr. Mott has made in various fields. Dr. William H. Taft, professor of journalism, was toastmaster.

Dr. Mott was appointed dean of the School of Journalism in 1942 and served until his retirement age in 1951; thereafter he taught full time for another five years, and has since been a member of the faculty as dean emeritus and professor emeritus on "limited service." Dean Mott is a fellow of the Society of American Historians, an honorary member of Phi Beta Kappa, and a fellow of Sigma Delta Chi. He served twice as president of the American Association of Schools and Departments of Journalism, and has long been national treasurer and chief of the central office of Kappa Tau Alpha. Dean Mott is the author of twelve books and the editor or co-editor of twelve more. Best known are a four-volume work, the *History of American Magazines*, certain volumes of which have received the Pulitzer and Bancroft Prizes in history; *American Journalism* (second revised edition now in press); and *Golden Multitudes*, a history of best sellers in the United States. Before coming to Missouri, Dr. Mott was director of the School of Journalism at the State University of Iowa.

38 MARY LOUISE RHODES, AB, AM '39, with offices at 418 Petroleum Tower, Corpus Christi, Texas, is geologist for Standard Oil Company.

39 CEDRIC SIEGFRIED, AB '38, LL.B., was elected president of the Independence (Mo.) Bar Association recently. He has been a member of the association more than twenty years. After completing a tour of duty with the Air Force in WW II, he served as assistant Jackson County prosecuting attorney and counsel to the county zoning and planning commission. He is a member of several civic and professional organizations. The Siegfrieds have three children and reside at 1600 W. Lexington, Independence, Mo.

HELEN BELLOWS, BJ, has received a Doctor of Social Work degree from Washington University.

Col. ROBERT S. DALE, BS BA, completed the 16-week associate course at the Army Command and General Staff College, Fort Leavenworth, Kan. in December. He is assigned to Headquarters Detachment of the 35th Infantry Division Trains, and Army National Guard unit in Joplin, Mo. He also is co-editor of the Carthage Press. He and his wife make their home at 1406 S. Maple, Carthage.

LLOYD ADAMS, BS Agr., AM '41, is professor in extension entomology at Penn State University. Prior to his move in 1949 he was Missouri State Entomologist with the Department of Agriculture in Jefferson City. His wife, an extension clothing specialist with the University in 1944-'45 is instructor in Clothing and Textiles at Penn State. Their second set of twins, Rosemary and Rosalie, were born December 19, 1961. Lloyd Jr. and Loretta are 7 years old, Theresa is 9 and Kathleen 12.

40 LEHMAN FINCH, AB '37, LL.B., of Finch, Finch & Knehaus in Cape Girardeau, Mo. has been a leader in many civic activities and fund drives. At present he is director of the First National Bank and president of the Cape County American Red Cross Chapter. Mr. and Mrs. Finch have a daughter and a son, Nadean Louise and Charles Lehman. They reside at 333 N. Ellis, Cape Girardeau.

Mrs. Warren M. Griffith, the former LULA BETH JACOBS, BS Ed., is a new member of the staff at Louisiana (Mo.) High School. She taught at Licking and at Clopton High School, with time out for rearing four children. Her husband WARREN M. GRIFFITH attended the University in 1947.

41 WILLIAM H. PARKER, BJ, has been appointed national advertising manager of the Au-

gusta (Ga.) Chronicle-Herald. He has moved from Memphis, Tenn. where he has been with a daily newspaper as national advertising representative for eight years. Bill previously was secretary-manager of the Arkansas Press Association and was affiliated with a Little Rock advertising agency. He is married and the father of two sons, Jack, 15, and Steve, 10. The Parkers' address is 920 Medlie Ave., North Augusta, S. C.

CHARLES W. GRUBE, BS ME, formerly of Independence, Mo., has joined Penn-Dixie Cement Corporation as assistant chief engineer, with headquarters at Nazareth, Pa. He has had 15 years of cement industry experience.

EMMETT R. NORMAN, AM, lives at Ava, Mo., where he recently staged a whirlwind campaign to get more active members from his county into the University Alumni Association. "I saw a few of the guys around here and home we can get our alumni group in a higher rating," he wrote the Alumni Office. Emmett was referring to the Honor Roll of clubs which appears on the back cover of the magazine monthly, and which has listed Douglas County in the "Distinguished" column. Soon he had secured eight new active members and his county jumped into the "Honor" club rating.

RUSSEL F. BRIGHT, BJ, has been named to the board of directors of the Tek-Hughes division of Johnson & Johnson. He joined the company as a sales representative in 1946, and transferred to Canada in 1953. Since 1958 he has been director of special brand sales of the Tek-Hughes division at New Brunswick, N. J.

DARWIN K. FLANIGAN, BJ, is general advertising manager of the Las Vegas Review-Journal.

Lt. Col. WILLIAM W. BARNETT Jr., BS BA, AM '49, received the General George C. Marshall award from former President Harry S. Truman, during recent graduation ceremonies of the associate officers course at the Command and General Staff College, Fort Leavenworth, Kan. The award was presented to Colonel Barnett in recognition of his scholastic achievement as honor graduate of the class. Mr. Truman was guest speaker for the graduation exercises for the 410 U.S. Army officers and 36 officers from 16 allied nations who completed the 16-week course at the college. Colonel Barnett is assigned to Headquarters of the U. S. Army Training Center, Fort Gordon, Ga. He entered the Army in 1942. The colonel, whose parents live at 1801 Forest Ave., Lexington, Mo., is a graduate of Wentworth Military Academy

Army Reserve Lt. Col. ROBERT F. HOPPER, BS ME, is attending the 16-week associate course at the Army Command and General Staff College, Fort

Charles W. Grube, '41

Leavenworth, Kan. He and his wife live at 10 Black Oak Dr., St. Louis. He is employed by the Westinghouse Electrical Corporation in St. Louis.

42 RUTH R. RAGSDALE, BS Ed., makes her home at 1520 S. Troost, Tulsa, Okla. Her sister, ELIZABETH RAGSDALE, BS BA '14, now Mrs. Don Fretz, lives at 1421 W. 20th St., Merced, Calif., and another sister, JEAN RAGSDALE, BS Ed. '41, now Mrs. B. R. Burch, lives at 6258 Newbury Ave., San Bernardino, Calif. They are the daughters of Dr. A. C. RAGSDALE, BS Agr. '12, and his wife, who reside at 1511 Boucheille Ave., Columbia, Mo. He is professor emeritus of Dairy Husbandry and was honored with a recognition dinner in April 1961.

LULA BARTLOW, BJ, is a television editor for CBS in Chicago. Her address is 1512 Thorndale Ave., Chicago.

43 EDWARD CLAYTON HARTWIG, BS EE, is engineer at the Radiation Laboratory of the University of California, Berkeley. He and his wife (PHYLLIS DAVENPORT, BS BA '37), have three daughters, Patricia Ann, age 17, Elaine Louise, 14, and Diane Marie 9.

Lt. Col. KEITH A. FRENCH, BS Agr., was recently awarded the U. S. Army Commendation Medal (second award) for exceptionally meritorious service as Chief, Army Aviation Division, National Guard Bureau, Washington, D.C. Lt. Col. French is a master Army aviator, veteran of 19 years of active Army service, logging more than 5,000 military flying hours. He wears the Distinguished Flying Cross with Oak Leaf Clusters and the Air Medal with nine Oak Leaf Clusters. He is a member of the National

Board of the Army Aviation Association and the American Helicopter Society. He and his wife Eula Mae live in Hampton, Va.

44 ORLAND M. SCOTT, BS BA, of International Business Machines has been elected an IBM vice president and group executive. He has also been named a member of the company's corporate management committee. As group executive he will be responsible for operations of IBM's Federal Systems and Data Processing Divisions. Mr. Scott joined IBM in 1938 as a sales representative in St. Louis. He subsequently served in sales posts in the company's offices in Oklahoma City and Indianapolis, and in 1949 was made branch manager in Terre Haute. Later the same year he assumed a similar position in Fort Wayne. In 1952 Mr. Scott was advanced to district manager, with headquarters in Cincinnati. The following year he was named accounting machine sales manager for the company, and in 1955 became general sales manager. Mr. Scott was elected president of The Service Bureau Corporation—an IBM subsidiary—in 1957, and in 1959 he returned to the parent company as president of the General Products Division. Mr. and Mrs. Scott reside in Bronxville, N. Y. They have two children.

46 JOHN MOELLING, BJ, has been elected vice-president for Webster Publishing Company, textbook publishing firm in Kirkwood, Mo. He has served the company in various capacities since 1955. Prior to joining Webster, Mr. Moelling was with Look magazine and was an account representative with advertising agencies in both New York and St. Louis.

ADOLPH BUESCHER, Jr., BS ME, is the new manager of Business Develop-

Adolph Buescher, Jr., '46

Orland M. Scott, '44

ment at General Electric's Missile and Space Vehicle Department in Philadelphia, Pa. A Wentzville, Mo., man, he has served General Electric's space team for the past five years, starting as program manager for Atlas nose cones. He has managed the System Design and Evaluation Section and Business Planning for Marketing operation and acted as space technology adviser at MSVD. He also holds a degree from Stanford University and is a member of the Atomic Rocket Society and an associate fellow of the Institute of Aeronautical Science. He and his wife and two sons live in the Philadelphia suburbs of Lafayette Hill.

WILLIAM G. LONG, BS Agr., AM '48, Ph.D. '52, is now leader of the Fresh Fruit Section of the Citrus Experiment Station at Lake Alfred, Fla. It is part of the University of Florida, and Dr. Long's rank is that of associate chemist. His new address is P. O. Box 215, Lake Alfred, Fla.

E. ALLAN GASPERSON, BJ, has been appointed retail advertising manager of the Daily Monitor-Leader in Mt. Clemens, Mich.

47 RAYMOND KLEIN, BS BA, teaches school in Arizona. His wife Dixie is also engaged in teaching. Their son Kent is a senior in high school and their daughter Emily (Mrs. Edward Suddath) lives in San Francisco. The Kleins make their home at 1546 W. Earll Dr., Phoenix 15, Arizona.

J. P. MORGAN, LLB, has been appointed judge of the 3-A circuit, composed of Livingston, Daviess and Caldwell counties. Mr. Morgan taught school for three years after his graduation from Northwest Missouri State College and served in the Army Air Force in China for several years. Upon graduation from

the University and admittance to the Missouri Bar in 1947, he began his law practice in Chillicothe. He is active in civic, church and professional organizations and on the board of regents of Northwest Missouri State College in Maryville. Mr. and Mrs. Morgan have three children: Bill, a student at the University, Betty, a high school student and Johnny, who attends Dewey elementary school. The Morgans make their home at 1713 Calhoun St., Chillicothe.

WILLIAM J. CLARK, BS BA, has been promoted to director of agencies, a senior officer status in the Massachusetts Mutual Life Insurance Company. His home is at 35 Viscount Rd., Longmeadow, Mass.

DRURY CARGILL, BJ, has joined the staff of the New York State College of Agriculture at Cornell University as a news writer. He is a former instructor at the School of Journalism and advertising salesman for the St. Joseph (Mo.) News-Press and Gazette.

48 WILLIAM JOSEPH UNDERWOOD, M Ed., Ed.D., '56, assistant superintendent of schools in charge of curriculum, Lee's Summit, Mo., has received Central Missouri State's annual outstanding educator award. Dr. Underwood began his teaching career in a rural school in St. Francois County, Missouri, later teaching in the Desloge elementary school, and the Flat River junior high school. He was instructor in education at Flat River Junior College before becoming director of curriculum in Reorganized District No. 7, Lee's Summit, and later, assistant superintendent of schools at Lee's Summit. He has been a part-time instructor at the University of Missouri College of Education, and is now an instructor of campus and extension classes for Central Missouri State. He attended schools in Bonne Terre and Flat River and is a graduate of Flat River J. C. Dr. Underwood is president of the Central Missouri State Teachers Association and is chairman of the International Reading Association. He is married and the father of three children.

LESLIE K. MARVIN, AB, AM '50, has joined the production and exploration department of Monsanto Chemical Company's Hydrocarbons Division at Shreveport, La. after serving with Sohio Petroleum Company in Lafayette.

Dr. EDWARD I. SHAW, AB, AM '50, is associate professor of Radiation Biophysics at the University of Kansas. He participated recently in operations in the U. S. Atomic Energy Commission's Nuclear Test site in Nevada.

HARVEY DUNN, BJ, has been named Chicago District sales manager for Chemical Engineering, a McGraw Hill publication. Previously he was advertising

salesman for Hydrocarbon Processing Petroleum Refiners. He has also worked for the Tulsa World Tribune and the Chicago American as a space salesman. His wife is the former JAQUELINE SNETHEN, B PA, Arts '48.

B. H. BOBBITT, BS CE, will assume Milwaukee Road industrial development activities in Wisconsin. Since April 1959 he has been industrial engineer, with duties mostly in Illinois, Indiana and Wisconsin. His headquarters will continue to be in Chicago. His home address is 117 Park Lane, Bloomington, Ill.

WILLIAM GILL, BJ, for the second year in a row was the only winner of two top awards in the Golden Quill competition sponsored by Sigma Delta Chi and the Press Club of Pittsburgh. A member of the editorial staff of the Pittsburgh Press and area correspondent for Life Magazine, Mr. Gill won first prize in the general reporting category for his exclusive story on the theft of ten paintings, including six Picassos, from the home of collector G. David Thompson last July. His article, "The Great Art Robbery," appeared in the Nov. 18 Saturday Evening Post. Mr. Gill is married to novelist Josephine Eckert Gill, an instructor in the University's English Department, 1916-'48. They have two children, Brian, 8, and Christopher, born last April 17. They reside at 93 Highland Road, Bethel Park, Pa.

49 JOHN J. CAIN, BJ, general manager of Redbook magazine, has been elected vice-president and director of the McCall Corporation, New York City. Prior to his appointment to Redbook this year, he was advertising manager of Flower and Garden magazine and assistant to the president of McCall's.

William Gill, '48

Harvey W. Dunn, '48

Hess was admitted to the Missouri Bar in 1957 and for the past three years has been a member of the legal staff of the Public Service Commission in Jefferson City. A member of numerous professional organizations, he served in the Korean Conflict. He is married and has three children. The Hesses make their home in Festus.

BETTY BERNARD, Arts, was married to Dr. Bascom F. Anthony, June 17, 1961. She graduated from the University of Southern California School of Medicine in 1960. Both she and her husband are residents in Pediatrics at the University of Minnesota Hospital. Their address is 2054 Brewster Ave., St. Paul 8, Minn.

WILLIAM B. (Bucky) KESSINGER, BS BA, has been named vice-president of John A. Moore and Company. He specializes in commercial and industrial property sales and leases. He joined the

Arts and Science Week honors for three graduates

Three graduates of the University were awarded Citations of Merit by the University Alumni Association and the College of Arts and Science for their outstanding contributions to society and to the American way of life. The awards were presented at the annual banquet in Memorial Student Union during Arts and Science Week to: Miss Mary Adeline McKibbin, Director of Art in Pittsburgh (Pa.) public schools and recipient of the Art Educator of the Year award of the National Art Education Association; T. Hartley Pollock, prominent St. Louis attorney and civic leader; and Dr. Joseph Wyan Chamberlain, Professor of Astrophysics and Associate Director of the Yerkes Observatory at the University of Chicago.

Mr. Pollock gave the principal address at the banquet, speaking on "A Lawyer Looks at Liberal Education." He received his A.B. degree from the University in 1928, with distinction in history, and his LL.B. degree from Harvard University in 1934. He also took post-graduate work in taxation and trial techniques at Northwestern University and New York University. As a student here, he was a member of the freshman and varsity debate squads; president of the Student Association; member of the Student Council; member of the board of the Missouri Student, campus weekly publication; and a cadet colonel in the University ROTC. He was also elected to Delta Sigma Rho, national honorary forensic fraternity; and to Mystical Seven, honorary senior service society. He is a member of the Missouri Law School Foundation, and a member of the executive committee and Board of Directors of the Friends of the Uni-

versity of Missouri Library. He had served as president of the Missouri Alumni Association of St. Louis. During World War II, Mr. Pollock served as an officer in the U.S. Air Force flying combat missions over Germany, and was later on the staff of Gen. Curtis LeMay, then commanding officer of the 3rd Bombardment Division. Returning to private practice in St. Louis, he has served as president of the St. Louis Bar, and as first chairman of the Committee on Continuing Legal Education of the St. Louis and Missouri Bar Associations. He has been an active member of the national committee directing a program of Continuing Legal Education, and an organizer and lecturer of many Legal Institutes. He was presented the Spirit of St. Louis Award by the St. Louis Business Council for outstanding civic contributions to the community, and the Award of Merit by the American Bar Association for leading the outstanding large city bar association in the United States when he was president of the St. Louis Bar in 1955-56. He is author and co-author of many published works in law, and is in frequent demand as a speaker and lecturer.

Dr. Chamberlain, who gave an address during Arts and Science Week on "The Origin of the Aurora," was born at Boonville, Mo., in 1928. He received an A.B. degree at the University in 1948, and a Master of Arts degree in 1949, going then to the University of Michigan, where he received M.S. and Ph.D. degrees, the latter in 1952. He served as Project Scientist at the Air Force Cambridge Research Center in Bedford, Mass., from June, 1951 to December, 1953, and

Dr. Joseph W. Chamberlain, Miss Mary Adeline McKibbin and T. Hartley Pollock, distinguished alumni who were presented Citations of Merit.

then became research associate at the Yerkes Observatory at the University of Chicago. He became an assistant professor at Chicago in 1955, associate professor in 1959, and professor this year. He was also named associate director of Yerkes Observatory in March, 1960, and he has been consultant to the director of the Boulder Laboratories at Boulder, Colo., since March, 1957. An avid researcher and prolific author, Dr. Chamberlain is author or co-author of scores of published works in astrophysics. At Yerkes, he has taught graduate courses in Theories of the Aurora; Atomic Molecular Physics; Classical Theories of Radiation; Electromagnetism; Interstellar Matter; Physics of the Upper Atmosphere; and Cosmical Electrodynamics. He has served as associate editor of the *Astrophysical Journal*; as chairman of the Upper Atmosphere Committee of the American Geophysical Union; panelist on the Aurora-Airglow conference of the U. S. National Committee for the International Geophysical Year; and the Space Science Board. He is also a Fellow of the American Association for the Advancement of Science, and is a member of numerous professional societies, including the American Association for the Advancement of Science; the Royal Astronomical Society of England; the American Physical Society; the American Astronomical Society; and the International Astronomical Union, which has headquarters in The Netherlands. He has also participated in many international conferences and symposia all over the world. He is presently engaged in research on interplanetary gas, planetary atmospheres, and the aurora and airglow.

Miss McKibbin is internationally recognized as an authority in art education, and was named last year as the "Art Educator of the Year" by the National Art Education Association, a department of the Na-

tional Education Association. She is the first woman and the first educator from the public schools to be so recognized. Miss McKibbin graduated from Pittsburgh's Peabody High School and then received her A.B. degree from the University in 1919, being elected to Phi Beta Kappa. She took graduate work at Columbia University Teachers College, receiving her A.M. degree there, and took additional post-graduate work at Carnegie Institute of Technology; the University of Pittsburgh; Harvard, and Columbia. Miss McKibbin has served as president of the Eastern Arts Association, is a member of the National Art Education Association Council, and originator of the International School Art Program and its first national chairman. She was one of three American art educators elected to the Council of the International Society for Education Through Art, and a member of the editorial board of that organization. Under a UNESCO contract, she contributed a set of slides and text on Art of the Adolescent for international circulation, and for the United States Information Agency she prepared an exhibit of high school student art work for the recent Berlin Trade Fair. Last summer, again for the USIA, she prepared an exhibit of children's paintings which is being circulated by the USIA in leading cities of Japan. She is a member of the National Commission on Art Education, a committee of twelve appointed to publish a statement on art education in the United States. She has contributed as speaker, panel leader, or consultant to many national education convention programs, and has lectured to college art education groups and to school administration meetings. Miss McKibbin is author of many published articles, and is on the advisory board of *School Arts* magazine. She is president of Altrusa, international women's service club.

Dr. James W. Cobble

Alumnus to be agricultural dean

An alumnus who holds three degrees will become dean of the College of Agriculture at the University of Rhode Island in July. He is Dr. James W. Cobble, a native Missourian who came to the University following military service and earned B.S., M.S. and Ph.D. degrees from 1947 to 1951. He went to Rhode Island in 1951 as head of the animal and dairy husbandry department, and since 1959 has been associate dean of the college. The new dean will also hold the titles of director of the Experiment Station and of the Cooperative Extension Service. The man he is succeeding has resigned to become agricultural dean at Clemson College.

Dr. Cobble, who is 41 years old, served in the U.S. Coast Guard from 1941 to 1945 after having attended Southeast State College in Cape Girardeau and serving as an elementary and junior high school teacher. He is a member of many professional and scientific organizations, including Sigma Xi, Phi Kappa Phi, the American Dairy Science Association, and the National Association of Milk and Food Sanitarians. President Francis H. Horn said Dr. Cobble's selection as dean is in "recognition of the marvelous work he has done since coming to URI, both as teacher and administrator." Dr. Cobble is married and has two daughters.

Moore company in 1957, following Navy service. His home is at 6138 Washington, Kansas City.

Capt. WILLIAM H. KREUGER, BS Agr., recently received the Army Commendation Medal for his outstanding performance of duties as commander of the artillery's Battery A, a Nike Hercules missile unit at Travis Air Force Base, California. His wife, Sandra, is with him at the air base.

- 21—Classes end.
- 26—Finals begin.

JUNE

- 2—Second semester ends.
- 5—Tuesday, Commencement.

deaths

CHARLES B. LAMB, '00, Dec. 27, in O'Fallon, Ill. Mr. Lamb trained teachers in industrial arts education at Southeast Missouri State College for nearly 50 years before retiring in 1952. An article in the Missouri Industrial Education Association magazine stated that there were "few men in the nation who could exceed or even match his achievements in industrial arts education." Surviving him are four daughters and a son.

ROSCOE S. POTTS, '01, a co-founder of Baseball Magazine, at Pinehurst, N. C. Jan. 23. He had undergone surgery and later suffered a heart attack. He was a native of Vermont, grew up in Missouri and attended the University two years. Potts graduated from Harvard in 1906.

In the death of Dr. AXEL ISADORE ANDERSON, AB '04, on Sept. 6, 1961, in Kansas City, Mo., the University lost one of its best known and highly respected graduates. "Izzy" Anderson was a prominent student and athlete who later served his alma mater as a coach. He was an officer in the campus Y.M.C.A. and was devoted to the "Y" throughout his life. As a student who was on his own, he developed a deep interest in young people and later was able to help needy students in their education. He was a member of QEBH. He was Missouri's first head coach of basketball—in 1907. He also was a coach in track and wrestling. A halfback on Missouri football teams, he also became an assistant football coach. For 30 years he was a football referee in the Missouri Valley. In answering a news questionnaire ten years ago, Dr. Anderson wrote: "I never forget the Golden Years at the University of Missouri for me. The great debt that I owe the faculty, townspeople, the

University student body for the spirit and helpfulness that they gave me in those nine years. I have tried to pass these good things and spirit on to others. It would be thoughtless if I did not also thank the taxpayers who helped support the University." Dr. Anderson received an M.D. degree in 1909 from the University Medical College of Kansas City; the school is now defunct. He had been a member of St. Luke's Hospital staff for 47 years and an anesthesiologist since 1910. He retired four years ago. Dr. M. Pinson Neal, who used to make fishing trips to Minnesota with Dr. Anderson, praised him as "a grand man of high ideals and principles, devoted to his family, young people, and athletics." Mrs. Anderson, the former Elizabeth Heckert, died in 1949. Dr. Anderson is survived by a son, who is a dentist, and seven daughters including SUZANNE ANDERSON (Mrs. Vernon Baker), Arts '47, of 407 W. Webster, Pittsburg, Kan. In recent years he had made his home with his daughter Martha (Mrs. Bob Obenland), at 723 W. 45th St., Kansas City, Mo. He also leaves 23 grandchildren and a great grandchild.

FRANK L. WILEY, AB '05, BS Ed '05, January 5, at Cleveland Heights, Ohio. Mr. Wiley was superintendent of the public school system of Cleveland Heights more than a quarter century, retiring in 1951. The skill and excellence of his leadership attracted many new residents to the area who heard about the school system's high quality. The Frank L. Wiley Junior High School was named in his honor. He was a member of numerous educational groups. Surviving him are his wife, a daughter and two grandsons and his mother who is 101 years old. The family home is at 3302 Berkshire Rd., Cleveland Heights, Ohio.

Dr. C. D. PICKRELL, AB '08, Dec. 18, in St. Louis. He practiced medicine in St. Louis since 1910 and was on the faculty

of the St. Louis University of Medicine and on the staff of Deaconess Hospital. Dr. Pickrell was a member of the American Medical Association and various other professional organizations. He is survived by his wife, of 329 North Central Ave., Clayton, Mo., two daughters and one grandson.

WILLIS J. BRAY, AB '09, BS Ed. '09, AM '10, Ph.D. '31, Dec. 17, in Ft. Worth, Tex. Dr. Bray was a faculty member of the Northeast Missouri Teachers College for 45 years, serving as chairman of the science department during most of his teaching career. He was in demand as a public speaker and active in church work and the Masonic order. He is survived by his wife, the former VIRGINIA GRAHAM, Educ. '08, of 3909 West 4th St., Ft. Worth, two sons, a daughter, one brother, five grandchildren and three great-grandchildren.

WARREN H. ORR, AB '09, LL.B. '11, died recently in Evanston, Ill. He was a partner in the firm of Orr, Lewis and Orr, Chicago, retiring in 1958. From 1930 to 1939 he was a member of the Illinois Supreme Court, including one year as chief justice. He was a candidate for the Democratic nomination for governor in 1948, but lost to Adlai Stevenson. In WW II he was president of the Fathers of Sons in Service, the largest organization of its kind in Chicago. He is survived by his wife, Dorothy Orr, of 1415 Ashland Ave., Wilmette, Ill., three sons and eight grandchildren. One son, WALLACE W. ORR and his wife, the former FRANCES H. STEDMAN, graduated from the University with bachelor of arts degrees, in 1936 and 1934 respectively.

JAMES A. JACKSON, AB '10, retired banker and a director of corporations, died Jan. 2 in New York. He joined National City Bank of New York in 1917 and became vice-president before he left

in 1935. Later he was a partner in Lazard Freres & Co., member of the New York Stock Exchange. In 1911-15 he was president of the old Continental Bank and Trust Co. in New York. Mr. Jackson was a director of American Airlines, New York; Old Ben Coal Corp., Chicago; the Guardian Life Insurance Company of America, New York; and Consolidated Electronics, New York. He is survived by his wife, Mrs. Hazel Wilson Jackson, 784 Park Ave., New York City, a daughter, Mrs. Jonathan Slocum, Beacon, N.Y., and three grandchildren.

Mrs. Thomas Smith Simrall, the former EDNA WILLIAMS, AB '11, Dec. 5, in Columbia. A daughter of former Missouri Supreme Court Justice William Muir Williams, she was the niece of Walter Williams, founder of the School of Journalism and former president of the University of Missouri. Mrs. Simrall was active in many civic and social organizations. She was a 50 year member of Kappa Kappa Gamma. She is survived by two daughters, four sisters, a brother and six grandchildren.

K. C. SEARS, AB '13, Dec. 23, in Santa Barbara, Calif. He taught law at the University of Chicago for 30 years before his retirement in 1955. He also taught at the University of Missouri and published several books on criminal law. He is survived by his wife, a daughter and a son. Mrs. Sears' address is 3010 Foot-hill Rd.

ROE M. LOTZ, BS ME '14, ME '16, Aug. 11, 1961. He is survived by his wife, Mrs. Elsie C. Lotz of Boulevard Park, Lot 125, Clearwater, Fla.

MILTON R. STAHL, AB '14, Dec. 23, 1961, in Dayton, Ohio. While at the University of Missouri, he was elected to Phi Beta Kappa. He earned his law degree at Washington University. During WW I he served as lieutenant in the 340th Field Artillery of the 89th Division and with the Army of Occupation. After the war he was associated with the law firm of Nage and Kirby and later with Koerner, Fahey and Young. From 1929 to 1933 he was chairman of the Missouri Public Service Commission, and trust officer of the Mississippi Valley Trust Company from '33-'42. A major in WW II, Stahl served with the Combat Intelligence Division of the 446th Heavy Bombardment Group of the Eighth Air Force. He gained fame as a volunteer crew member on bombing runs over Berlin and later accompanied noted photographer Margaret Bourke-White on photographic surveys in Germany of bombing damage. As his friend Daniel Bartlett writes: "... It was his choice to be a combat officer in the second World War. . . . At 50 he flew on bombing missions over Germany, usually as a waist gunner (there was no room for

guest passengers)." He is survived by his wife, Isabell Rader Stahl of Dayton, and one brother.

WARREN M. MOORE, BS EE '20, Dec. 23, 1961, at St. Louis, Mo., where he had gone for the holidays. He was a retired sales engineer of Century Electric Company of St. Louis and made his home in Rocky River, Ohio. He is survived by his wife, Mildred, and two sisters.

JOHN N. CROCKER, BS Ed '20, December 22, at the age of 81, in Columbia, Mo. Mr. Crocker was superintendent of Cape Girardeau schools, Sedalia and Columbia and later was the Columbia representative for the Ladlow Publishing Company. He is survived by a son and three grandchildren of Indianapolis.

LAURENCE W. DeMUTH, AB '20, AM '21, LL.B. '24, professor of law at the University of Colorado, on Dec. 25 at Boulder after a brief illness. A nationally recognized legal educator, he served on numerous committees of the Association of American Law Schools. He had served as president of the Western Conference of Law Schools, as commissioner from Colorado on the National Conference Commission on Uniform State Laws, and as adviser to the section on local education and admission to the Bar of the American Bar Association. Prof. DeMuth was national secretary-treasurer of Phi Delta Phi, national legal fraternity, for more than 37 years. He was quite prominent in civic affairs in Boulder, where he had been on the faculty since 1928. He was a colonel in the Air Force Reserve. At M.U. he was student body president in 1923-24. Surviving are his wife, Mrs. EUGENIA ROACH DeMUTH, AB '21, who lives at 2237 Sixth St., Boulder, Colo., and three sons who graduated from Colorado U. and are practicing law in Denver.

Mrs. FAYNE WITHERUP Steinbeck, BS Ed. '26, was fatally injured in an automobile accident last year. Her husband, John W. Steinbeck, lives at 820 East 1st St., Bloomington, Ind.

HERBERT W. FICK, Arts '29, in Pasadena, Calif. on Dec. 11, 1961. He was a widely known personality back in the days of the big dance bands, and his orchestra in the late 20s was one of the finest ever assembled on the campus. The Herb Fick band was in demand, and bookings had to be made well in advance. During holidays his group played on the Orpheum theater circuit; later some members of the band played with such greats as Tommy Dorsey and Glenn Miller. Mr. Fick was vice-president of the Arts and Science School, vice-president of the Junior class, a member of Panhellenic Council, Chi Chi Chi, and Missouri Razzers. He was a native of Quincy, Ill. and had lived in California

since leaving the campus; he was associated with Youngi Markets in Greater Los Angeles. He is survived by his mother, in Pasadena, Calif.

R. JASPER SMITH, AB '31, Jan. 8, at his home, 1000 West Sixty-eight Street Terrace, Kansas City. A judge of the U. S. District Court for Western Missouri, he was appointed to the federal bench in 1936 after serving as state senator 12 years. He practiced law at Springfield for 25 years. As a senator he wrote several bills and felt that his handling of the state school reorganization bill was one of the high points of his Senate service. He is survived by his wife, a son, two daughters and his mother.

Word has been received of the death of JAMES F. GRESSLER, BS Ed. '31, of a heart attack on Nov. 1, 1960 at White Plains, N. Y. He was editor and vice-president of the White Plains Reporter Dispatch. Survivors include his wife, Mary, twin sons and a daughter, of the home, 108 Smith Ave., White Plains, N.Y.

BEULAH E. BEGGS, Grad. '41, Dec. 23, in Moberly, Mo. Miss Beggs was a retired teacher, having taught in the commercial department of the Hannibal High School for 25 years before coming to Moberly. She was active in civic and church affairs. Miss Beggs lived at 900 West Reed St. with two sisters. She is survived by another sister of Moberly, and by nephews and nieces.

GEORGE WINSTON (Bud) PEELER, BS Agr., '46, Dec. 17, 1961. While attending the University, he was president of the YMCA, a member of Agriculture Club, Farm House Fraternity and Order of O.E.B.H. A resident of Platte Woods, he was active in civic affairs and a member of the R-5 School District school board. He is survived by his wife BETTY BRENNER Peeler, BS HE '45, his daughter Linda, 15, and son Winslow, 12. Their home is at 7210 Maple Lane N.W., Platte Woods, Parkville, Mo.

Maj. JACOB T. BATTENBERG, Jr., BS Ag.E. '58, died in the crash of an Air Force C-124 cargo plane near Grandview, Mo. Dec. 19. He was recalled to active duty last July and was stationed at Richards-Gebaur Air Force base near Kansas City. In World War II he was a captain in Japan. After graduation he had been employed by Butler Bros. in Kansas City. While in Columbia, he was employed in the Field Crops Department of the University and his wife, Mrs. Jowilla Battenberg, was employed by the Seed Improvement Division. Maj. Battenberg is survived by his wife and five children, who live at 10404 E. 59th St., Raytown 33, Mo.

page thirty-six

About a decade ago, this writer along with George C. Scott, former student, and several other persons, would gather periodically in the studio of a local advertising agency to tape-record radio commercials. The main client was a bakery which was proud of the vitamin richness and locked-in goodness of its bread. Each of the "actors" lending voice to the commercials, which were one-minute dramatizations, received \$2 for his performance; half a dozen or more of the recordings were made at a session. Scott invariably gave an excellent performance and showed great promise, but so far as we know he dropped out of the radio commercial business and has never been heard of in that connection since. What a waste. Meanwhile, we went ahead with the sideline career and in a few months gained a starring role (still at \$2 for each plug) on a series of commercials for an oyster shell product. Scott, too, could have achieved similar stardom had he applied himself, but he traveled in another direction. Last we heard, he was beginning to recoup on those lost opportunities of a decade ago. According to *Variety*, he has signed a three-year TV contract that will pay him more than \$300,000 annually for working six months a year. You may have seen Scott in the movies, "The Hustler" and "Anatomy of a Murder," or in the television shows, "The Picture of Dorian Gray" and "The Power and the Glory." But he remains a nonentity in the world of recording commercials for oyster shell.

These are times when students surely must be losing or abandoning personal belongings at a higher rate than ever before. Apparel and other articles are left behind every day in classrooms and other buildings. (We are told this phenomenon exists even in elementary schools). On the campus these forgotten items are collected daily and routed to a clearing house. Most of the stuff is never reclaimed. That is why, twice a year, a public auction is held in the Student Union; hundreds of articles—raincoats, jackets, hats, umbrellas—are sold and the proceeds given to the Campus Chest fund. (The grade schools each year send boxes of children's lost apparel to the Salvation Army). In contrast to the people who leave things behind are the people who pick up things that don't belong to them. You have to call it petty thievery, which probably is no more prevalent now than it has been in past generations on campi everywhere. Articles are taken that the takers have no earthly use for. These people who pick up things (and they are a tiny minority, of course) are rarely hardship cases. In both the leavers and the takers there is an apparent disregard for property, and maybe this stems from these so-called prosperous times, in which young people come into easy possession of material goods without earning them or realizing their value. Possibly what is called for is a period of austerity during which the young, through some privations, may develop a better appreciation of possessions and the rights

of others. But let us not insist on another Great Depression. Our problem involves two types of people—those who swipe things mostly for kicks, and those who leave things behind because they don't care. Surely you have preceded us to the obvious solution: Provide the petty thieves with a choice of items abandoned by the careless. The lost articles—there'll be plenty left over for the auction—can be temptingly placed so that the thief may do his work surreptitiously and thus get as much thrill as if the stuff hadn't been planted for him. Well, there you have it, page thirty-six's plan whereby two wrongs make a right.

Underway in St. Louis County is a campaign to reduce or wipe out illiteracy, and the University is lending a hand in the preparation of teachers for the mission. In the same spirit that we stand four-square for motherhood, we hold to the proposition that all our citizens should learn to read and write, regardless of the consequences, and particularly if they are college or university students. This is a popular position to take, for it is widely accepted that the benefits of literacy outweigh the blessings of illiteracy; this belief persists although some persons, by the things they read and write, demonstrate they are not getting the most from their skills. In a way, we envy these people who are going to be led into a new world; we envy them the joy and delight they will surely experience when, for the first time, they read *The Wizard of Oz*, *Mrs. Wiggs of the Cabbage Patch*, *Tom Sawyer* and *Huckleberry Finn*. The newly enlightened will make many wonderful discoveries; they will learn that those marks in the little balloons in the drawings of Dick Tracy and Little Orphan Annie are words, and that these add significantly to the goings-on of these and other drawing board characters. It is assumed that as time goes on the new readers will graduate to more substantial literature, even though many persons have not made that advance in a lifetime of reading. Another hope is that the newly literate, upon reading about horrendous and sordid events recorded in the public prints, will not be crushed with despair and pessimism and seized by a desire to retreat to their former sheltered existence. It is conceivable that an overdose of chronicled chaos might drive the uncalloused reader, desperate and hopeless, into a life of crime. This would be most unfortunate, for statistics show that among the illiterate, forgery (for example) is non-existent; the same is true of crayoned threats and ransom notes. It is our suggestion that the literacy program include psychological conditioning of the student that he may better cope with the new world opening up to him. One of our main concerns is that the newly literate will immediately reach for a copy of *Tropic of Cancer* or other garbage, when there is so much worthwhile stuff to be digested; or that they will take pen in hand and write anonymous letters to the editor, as illiterates have always done.

J.C.T.

Park named for S. P. Reynolds on 100th birthday

On his 100th birthday anniversary, Sterling Price Reynolds, the University's oldest living alumnus, was honored in his home town of Caruthersville, Mo., where he continues daily activities of an engineer.

The veteran engineer who helped bring the Missouri Bootheel out of the swamps was honored with a massive civic luncheon and subsequent service and dedication of a new city park named in his honor. As the climax of the program at the park, a 10-foot high marble marker was unveiled. Under a gold-plated sculpturing of Mr. Reynolds facing toward the nearby Mississippi river which he helped harness is this inscription:

"In honor of Sterling Price Reynolds to whom this park is dedicated on his 100th birthday Nov. 9, 1961. Born in Callaway County, Mo., graduated from the University of Missouri in 1883 with highest honors.

"Settled in Caruthersville in 1896. Levee district engineer since 1900. Little River Drainage District board member since 1907. Presented in appreciation of his vision and service to drainage and flood control."

Mr. Reynolds was also presented a Certificate of Appreciation on behalf of the University Alumni Association by Dr. Joseph C. Hogan, dean of the College of Engineering.

Upon graduation, Mr. Reynolds found that jobs in engineering were scarce, and turned to teaching, first at Gray Summit in Franklin County where he met his wife, and then in Woodland, Calif. He returned to Missouri, worked as an engineer in the Lead Belt, then turned to selling property in the Bootheel. Since 1900 he has been chief engineer of the levee district, a position he took the year after completion of the railroad from Caruthersville to Blytheville, Ark.; he had directed the surveys and engineering work for the line.

Promotion of the park formally was launched last March 6 at a dinner meeting at the First State Bank in Caruthersville. Presiding was Horace Dunagan, Jr.,

Mr. Reynolds, veteran engineer, as he appeared during class reunions on campus in 1960

executive vice-president, who outlined the preliminaries that had been accomplished to that point. Subsequent development has been carried forward by a nonprofit Reynolds Park Association. A landscaping plan for the park was made by Willard S. Summers, landscape architect in the University's Department of Horticulture.

Stringfellow Barr to lecture

Stringfellow Barr, noted author, lecturer and educator, will deliver a series of Paul Anthony Brick Memorial Lectures at the University on April 2 and 3. He will speak on "The Three Worlds of Man." The lectures are in the name of Paul Anthony Brick of Buffalo, Mo., who bequeathed a sum of money to finance lectures "to advance the science of ethics." Mr. Brick did not attend the University, but "loved the state and wished to further education," according to Dr. A. Cornelius Benjamin, John Hiram Lathrop Professor of Philosophy, who is chairman of the lectures committee.

Mr. Barr is currently a humanities professor at Newark College, Rutgers University. He is the author

of a number of books, including *The Will of Zeus*, a history of ancient Greece; *The Pilgrimage of Western Man*, *Let's Join the Human Race*, and *Citizens of the World*. His Brick Lectures will be published.

Coach Stalcup testimonial

A testimonial dinner for Wilbur (Sparky) Stalcup, veteran Tiger basketball coach who is retiring at the end of this season to become assistant director of athletics at the University, will be held at the Tiger Hotel in Columbia at 6:15 p.m. March 31. Many of his former players are expected to attend. Scheduled to speak are Hank Iba and Phog Allen.

Mahlon Aldridge will be master of ceremonies.

HONOR ROLL

OF ALUMNI CLUBS

These University of Missouri Alumni organizations, by Missouri county and locality outside the state, which have earned recognition by strength of paid membership and participation in national and local programs.
