
**FRENCH 7110. Advanced oral French for Teachers. 1-99 Credit.**

Advanced speaking practice primarily for teachers with emphasis on pronunciation, syntactical accuracy and vocabulary expansion. Prerequisite: graduate standing and French [FRENCH] 3160 or equivalent. May not be used toward A & S Major. May be repeated for a maximum of 12 hours credit.

**FRENCH 7120. Foreign Language Teaching Methodology. 3 Credits.**

(same as Spanish [SPAN] 7120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. Prerequisite: graduate standing or departmental consent. May not be used toward Arts & Science major.

**FRENCH 7130. Stylistics. 3 Credits.**

A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis. Prerequisites: graduate standing and French [FRENCH] 3160 or 3280 and 3420 or 3430.

**FRENCH 7410. French Medieval Literature. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7420. French Renaissance. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7430. Seventeenth-Century French Literature. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7440. Eighteenth-Century French Literature. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7450. Nineteenth-Century French Literature. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7460. Twentieth-Century French Novel. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7470. Introduction to the Contemporary French Theatre. 3 Credits.**

Prerequisites: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7480. Introduction to Modern French Poetry. 3 Credits.**

Introduction to major currents of French poetry from beginning of the 19th century to the present. Students will write explications of poems, present oral analyses and will be tested on poetic terms and poetic content/styles of various poems and poets. Prerequisite: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7490. Nineteenth-Century French Novel. 3 Credits.**

Prerequisite: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7510. African Francophone Literature. 3 Credits.**

Course introduces contemporary African Literature to students via readings and detailed analysis of literary texts by Francophone African writers. Prerequisite: graduate standing and French [FRENCH] 3420 and 3430.

**FRENCH 7710. History of the French Language. 3 Credits.**

(same as Linguistics [LINGST] 7710). Required of M.A. candidates  
Prerequisites: French [FRENCH] 3420 and 3430.

**FRENCH 7720. Structure of Modern French. 3 Credits.**

(same as Linguistics [LINGST] 7720). An introductory presentation of the phonological and syntactic systems of contemporary standard French. Prerequisites: graduate standing and French [FRENCH] 3160 or equivalent or instructor's consent.

**FRENCH 7820. Blogging the World: The Web in Cultural Context. 3 Credits.**

(same as Russian [RUSS] 7820 and German [GERMAN] 7820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context. Working in cross-disciplinary teams, students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal

of this course is two-fold: students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concepts of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contexts?.

**FRENCH 7960. Special Readings in French. 1-3 Credit.**

Independent study through readings, conferences, reports. Prerequisites: departmental consent.

**FRENCH 7980. Special Themes in French. 3 Credits.**

Subject varies according to instructor.

**FRENCH 7993. The Capstone Experience in French. 3 Credits.**

This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in French, and the ability to think critically and analytically. Prerequisite: graduate standing required.

**FRENCH 8080. Readings in French. 1-3 Credit.**

Independent readings in preparation for MA or MALT comprehensive examination in French. Graded on A/F basis only.

**FRENCH 8085. Problems in French. 1-99 Credit.**

Prerequisite: graduate standing.

**FRENCH 8087. Seminar in French. 2-3 Credit.**

Subject varies according to instructor. Prerequisite: graduate standing.

**FRENCH 8090. Research in French. 1-99 Credit.**

Leads to preparation of MA or MALT thesis. Graded on S/U only.

**FRENCH 8120. Bilingualism and Language Contact. 3 Credits.**

(same as Spanish [SPAN] 8120 and Linguistics [LINGST] 8120). Global analysis of the study of Bilingualism from a combined sociocultural, sociolinguistic and psycholinguistic perspective based on current research and examination of various phenomena of language contact (taught in English.). Prerequisite: graduate standing.

**FRENCH 8411. Old French. 3 Credits.**

Recommended: French [FRENCH] 4710/7710 and some knowledge of Latin.

**FRENCH 8412. Studies in French Medieval Literature. 3 Credits.**

Recommended: French [FRENCH] 4410/7710. Prerequisite: graduate standing.

**FRENCH 8416. Studies in the French Renaissance. 3 Credits.**

Prerequisite: graduate standing. Recommended: French [FRENCH] 4420/7420.

**FRENCH 8417. Studies in Seventeenth-Century French Literature. 3 Credits.**

Prerequisite: graduate standing. Recommended: French [FRENCH] 4430/7430.

**FRENCH 8418. Studies in Eighteenth-Century French Literature. 3 Credits.**

Prerequisite: graduate standing. Recommended: French [FRENCH] 4440/7440.

**FRENCH 8419. Studies in Nineteenth-Century French Literature. 3 Credits.**

Prerequisite: graduate standing. Recommended: French [FRENCH] 4450/7450 or 4490/7490.

**FRENCH 8420. Studies in Twentieth-Century French Literature. 3 Credits.**

Prerequisite: graduate standing. Recommended: French [FRENCH] 4460/7460, 4470/7470 or 4480/7480.

**FRENCH 9080. Readings in French. 3-6 Credit.**

Independent readings in preparation for the PhD comprehensive examination in French.

**FRENCH 9090. Research in French. 1-99 Credit.**

Leads to preparation of PhD dissertation in French. Graded on S/U basis only.

---

---

## General Human Environmental Sciences (GN\_HES)

---

---

**GN\_HES 1100. Introduction to Human Environmental Sciences. 1 Credit.**

Introduction to Human Environmental Sciences.

---

---

## General Studies (G\_STDY)

---

---

**G\_STDY 3301. Topics in General Studies. 1-99 Credit.**

Experimental and/or interdisciplinary. Subjects and earnable credit may vary from semester to semester.

**G\_STDY 4940. Internship in General Studies. 1-6 Credit.**

Internship limited to students pursuing the Bachelor of General Studies degree. S/U graded only.

**G\_STDY 4950. Special Project in General Studies. 1-6 Credit.**

With adviser's approval, student works with a faculty member on a major reading, research, or creative project, usually of interdisciplinary nature.

**G\_STDY 4960. Readings in General Studies. 1-6 Credit.**

Independent readings with supervisory faculty member. Open only to General Studies majors. May be repeated to a maximum of six hours.

**G\_STDY 4970. Directed Readings in General Studies. 1-6 Credit.**

Independent readings with supervisory faculty member; this course serves as the student's capstone experience. Open only to General Studies majors only.

**G\_STDY 4971. Internship in General Studies. 1-6 Credit.**

Internship experience which serves as the student's capstone experience. Program advisor must approve internship. Graded on S/U basis only. Section 2 of this course will be designated for Service Learning Capstone experience.

---

---

## Geography (GEOG)

---

---

**GEOG 1050. Introductory Meteorology. 3 Credits.**

(same as Atmospheric Science [ATM\_SC] 1050). Physical processes of atmosphere in relation to day-to-day changes in weather.

**GEOG 1100. Regions and Nations of the World I. 3 Credits.**

Introductory analysis for general education. Regional character, spatial relationships, major problems of Europe, North America (United States and Canada) and Latin America. Organized around basic concepts in field of geography.

**GEOG 1100H. Regions and Nations of the World I - Honors. 3 Credits.**

Introductory analysis for general education. Regional character, spatial relationships, major problems of Europe, North America (United States and Canada) and Latin America. Organized around basic concepts in field of geography. Honors eligibility required.

**GEOG 1200. Regions and Nations of the World II. 3 Credits.**

Introductory analysis for general education. Regional character, spatial relationships, problems of environment and development of the former Soviet Union, Pacific World, South and East Asia, Africa and Middle East. Organized around basic concepts in the field of geography. May be taken independently of Geography [GEOG] 1100.

**GEOG 1205H. Regions and Nations General Honors. 3 Credits.**

Honors eligibility required.

**GEOG 1550. Introduction to the Humanized Earth. 3 Credits.**

Examines human culture as a geographical element; the power of culture and human institutions in human-environmental interaction and the creation of agriculture, folk culture, popular culture, cities, and a broad range of cultural landscapes. Prerequisite: GEOG 1100 or GEOG 1200.

**GEOG 1600. Climate Change: Science and Public Policy. 3 Credits.**

This course will explore the role of physical science, environmental politics and public policy in shaping contemporary debate concerning climate change, mitigation, and adaptation strategies. We will examine the scientific rationale and statistical basis underwriting the concept of climate change, why aspects of the science remain controversial, the prospects of institutional action and the difficulties inherent in developing public policies targeting mitigation and adaptation. Course includes a role-playing simulation where students will play roles based on 2009 climate negotiations in Copenhagen, Denmark. Prerequisites: freshman and sophomores only. Graded on A/F basis only.

**GEOG 1800. Digital Earth: Introduction to the Geospatial Technologies. 3 Credits.**

Introduction to technologies used to map a changing world, with an emphasis on digital mapping explorations of human and environmental interactions on Earth. Course includes lab and fieldwork to introduce geographic information data collection and analysis techniques. Graded on A/F basis only. May be repeated for credit. Prerequisite: Freshman and sophomore standing or instructor's consent.

**GEOG 1840. Global Environmental Change. 3 Credits.**

Course uses a geographic framework to study patterns and processes related to global environmental change. Topics include environmental reconstruction, water resources, human-environment interactions, glaciers, fire, and climate. Prerequisite: freshman or sophomore standing.

**GEOG 2120. United States and Canada. 3 Credits.**

Intensive examination of selected areas and distributions. Regional systems, problems and planning. Prerequisite: sophomore standing.

**GEOG 2130. Geography of Missouri. 3 Credits.**

Physical, human, economic, and political geography of Missouri; regions of the state; geography applied to current state issues. Prerequisite: Geography [GEOG] 1100.

**GEOG 2210. Geography of Europe. 3 Credits.**

Survey of Europe's lands and peoples; emphasis on historical areal relationships as reflected in Europe's changing economic and political organization. Prerequisite: sophomore standing.

**GEOG 2260. Geography of East Asia. 3 Credits.**

Cultural, physical and economic geography of China, Japan, and Korea, with emphasis on China. Landscape analysis, determination of regional identities, and study of political forces evident in the development of the contemporary scene are stressed. Prerequisite: Geography [GEOG] 1200.

**GEOG 2270. Geography of Asia. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 2270). An introductory survey of the geography of Asia from India through Southeast Asia to China and Japan, emphasizing factors contributing to cultural similarities and variations, conflicts of interest, and current development.

**GEOG 2340. South America. 3 Credits.**

Physical environment and culture in the regional development of South America. Prerequisite: one course in Geography or instructor's consent.

**GEOG 2450. Themes in the Geography of Africa South of the Sahara. 3 Credits.**

(same as Black Studies [BL\_STU] 2450). Major concepts of African geography in current and historical perspective. Case studies of major African countries.

**GEOG 2580. Geography of Cemeteries. 3 Credits.**

Cemeteries have a discernible spatial and temporal pattern providing a foundation for geographical study. Migration, demographics, spatial analysis and basic mapping skills will be used to investigate cemeteries and their pattern. Prerequisite: freshman and sophomores only.

**GEOG 2610. Climate, Landforms and Vegetation: Introduction to Physical Geography. 3 Credits.**

Examination of the interacting natural systems that comprise the Earth's physical environment, including the atmosphere, biosphere, and landforms. Focus on relating fundamental physical, chemical and ecological processes to the global geographic patterns they produce.

**GEOG 2660. Environmental Geography. 3 Credits.**

Historical perspectives on the human agency in transforming the earth, with emphasis on international environmental problems. Topics include basic biogeography; environmental impacts of population growth, underdevelopment and overdevelopment; and new approaches to management of global resources.

**GEOG 2710. Economic Geography. 3 Credits.**

Geographical location and organization of world's major economic activities. Emphasizes agricultural and industrial patterns, commodity flows, transport networks, geographical principles of market and industrial location, internal spatial organization of cities, land-use models, geographic aspects of economics growth. Prerequisites: Geography [GEOG] 1100 or 1200 or sophomore standing.

**GEOG 2720. Urban Geography. 3 Credits.**

Study of cities: origin, development, distribution; social, economic, and demographic significance. Consideration of theories of structure, urban hierarchies, and land use planning. Prerequisites: Geography [GEOG] 1100, 1200 and two other Geography courses, or instructor's consent.

**GEOG 2840. Introduction to Mapping Science. 3 Credits.**

Introduction to basic map concepts, reinforced through lab exercises, lecture material and field work.

**GEOG 2904. Topics in Geography-Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: sophomore standing, departmental consent for repetition.

**GEOG 3040. Introduction to Geographic Information Systems GIS. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 3050). Introduces theory, concepts and techniques related to the creation, manipulation, processing, and basic analysis of spatial data using GIS. Data management, current data models, GIS applications and course topics are reinforced through hands-on computer laboratory exercises. Prerequisite: sophomore standing or instructor's consent.

**GEOG 3140. Mexico, Central America, and the Caribbean. 3 Credits.**

Physical environment and culture in the regional development of Mexico, Central America, and the Caribbean. Prerequisite: one course in Geography or instructor's consent.

**GEOG 3260. Southeast Asia. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 3260). Physical, cultural, historical and regional geography of Southeast Asia, with an introduction to East Asian geography. Emphasizes the problems of tradition and development.

**GEOG 3270. Geography of the Middle East. 3 Credits.**

Cultural, physical and historical geography of Middle East, with emphasis on cultural adaptations to environments and conflicts over the resources.

**GEOG 3280. Geography of South Asia. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 3280). Topical and regional analysis of India, Pakistan, Sri Lanka. Historical development of distinctive cultural regions. Relations with neighboring areas. Impact of Westernization on economic activities, settlements, population.

**GEOG 3290. Geography of Russia and the Newly Independent States of Eurasia. 3 Credits.**

Geographic analysis of social, economic and political issues confronting Russia and the NIS, including environmental problems, economic interdependence and prospects for regional economic development, population change and migration, inter-ethnic relations and ethno-territorial conflict.

**GEOG 3385. Special Problems in Geography. 1-3 Credit.**

Independent investigation leading to a paper or project. May be repeated to a maximum of 6 hours. Prerequisite: instructor's consent.

**GEOG 3450. Geography of Africa. 3 Credits.**

Major concepts of African geography in current and historical perspective.

**GEOG 3510. Historical Geography of North America. 3 Credits.**

Analysis of selected geographical patterns and themes in the continent's past. Focus is explicitly geographical, stressing extensive use of maps and recent scholarly work by historical geographers. Prerequisites: junior standing, or instructor's consent.

**GEOG 3540. Geographies of Sexualities. 3 Credits.**

(Same as Women and Gender Studies [WGST] 3540) This class will explore the relationship of sexuality and space. The class will focus on the ways that sexuality creates particular spaces, and the ways that sexuality and space shape one another in the midst of nation, gender, religion, race, class, and generation. Sophomore standing required.

**GEOG 3560. Native American Geographies. 3 Credits.**

A survey of the Native American geographies in the United States. Historical and contemporary topics are covered employing cross-cultural perspectives including some philosophical views of the Earth and society, sense of place, memory, sacred land, colonialism and GIS representations, and natural resources.

**GEOG 3600. Climates of the World. 3 Credits.**

(same as Atmospheric Science [ATM\_SC] 3600). A study of the world distribution of climates based on "cause and effect" relationships. Special attention is given to the impacts of climate on humanity. Prerequisites: Geography [GEOG] 1050 or equivalent or graduate standing.

**GEOG 3610. Physical Geography of the United States. 3 Credits.**

Study of natural regions of the United States by integrating topics from landforms, geology, climate, soils, vegetation, resources, and land use. Prerequisites: geography [GEOG] 2610.

**GEOG 3630. Earth Surface Systems. 3 Credits.**

Systematic study of landforms geomorphic processes governing them. Provides a foundation for the theoretical, technical, and practical understanding of environmental systems. Prerequisites: Geography [GEOG] 2610 and junior standing or instructor's consent.

**GEOG 3740. Geography and Planning. 1-3 Credit.**

Emphasis on geographic techniques for gathering and generating environmental information for planners. Principles of land use planning will be applied to selected regions. Prerequisites: Geography [GEOG] 2840 and instructor's consent.

**GEOG 3760. Geography of the World's Religions. 3 Credits.**

(same as Religious Studies [REL\_ST] 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion. Prerequisite: 1000/2000 level Geography course; junior standing or instructor's consent.

**GEOG 3780. World Political Geography: Patterns and Processes. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3780). Geographic factors in the development of political boundaries traditions, and societal perspectives. Spatial patterns and geopolitical processes are explored in selected regions of the world. Prerequisites: Geography [GEOG] 1100 or 1200 or sophomore standing.

**GEOG 3830. Remote Sensing. 3 Credits.**

Introduction to the principles of remote sensing of the environment. Digital imagery from spacecraft, conventional and high-altitude aerial photography, thermal imaging, and microwave remote sensing. Prerequisite: Geography [GEOG] 2840 and instructor's consent.

**GEOG 3840. Cartography. 3 Credits.**

Principles of computer-assisted cartography. Automated cartographic display. "Hands on" experience with computer-mapping software and hardware systems. Role of computers in map design. Digital encoding of geographic data. Prerequisite: Geography [GEOG] 2840.

**GEOG 3904. Topics in Geography - Social Science. 1-12 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated up to 6 hours credit. Prerequisites: sophomore standing; departmental consent for repetition.

**GEOG 4130. The Geospatial Sciences in National Security. 3 Credits.**

(Same as Civil Engineering [CV\_ENG] 4175). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. Prerequisite: junior standing or above required; instructor's consent. May be repeated for credit.

**GEOG 4390. Special Readings in Geography. 1-3 Credit.**

Independent readings selected in consultation with supervisory faculty member. May be repeated to a maximum of 6 hours. Prerequisite: instructor's consent and independent study contract.

**GEOG 4520. Environmental Biophysics. 3 Credits.**

(same as Atmospheric Science [ATM\_SC] 4520). Students will learn techniques and principles used to describe the microenvironment of living organisms and use quantitative expressions to estimate missing values, and mass transfer laws to estimate flux of energy, water and gas. Prerequisites: College Physics and Calculus I.

**GEOG 4550. Selected Themes in Cultural Geography. 3 Credits.**

Case studies in the patterns and processes of human-environmental interactions. Study of the cultural forces responsible for the continual transformation of the earth's cultural landscapes.

**GEOG 4560. Resources and Indigenous Peoples. 3 Credits.**

This is a survey of indigenous peoples' struggle to control and use natural resources, to have a say in determining the path of economic development, and to restrain the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations. Junior standing required. Cross level with Geography [GEOG] 7560.

**GEOG 4620. Biogeography: Global Patterns of Life. 3 Credits.**

Analysis of the patterns and processes of plant distribution in the contemporary landscape, stressing environmental influences and vegetation dynamics, particularly as they relate to North American vegetation. Prerequisite: Geography [GEOG] 2610 and junior standing, or instructor's consent.

**GEOG 4630. River and Stream Dynamics. 3 Credits.**

Systematic study of river mechanics, stream-channel form, river management and restoration. Provides a theoretical and practical understanding of stream systems. Prerequisite: Geography [GEOG] 2610 and 3630, or instructor's consent.

**GEOG 4710. Spatial Analysis in Geography. 3 Credits.**

Application of statistical methods to geographic research. Prepares students to utilize advanced methodologies and models in spatial analysis. Includes computer analysis of geographical data. Prerequisite: Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**GEOG 4720. Seminar in Geography Education. 3 Credits.**

Study and research on fundamental themes in geography. Integration of these themes into regional and systematic approaches to the teaching of geography. Enrollment is restricted to students pursuing or considering careers in teaching. Prerequisites: junior standing and instructor's consent.

**GEOG 4740. Location Analysis and Site Selection. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 4185). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.

**GEOG 4770. Migration and Immigration. 3 Credits.**

Explores demographic, economic, and social issues surrounding immigration and migration. The course focuses on the global labor migration system, immigration to the United States, and internal migration within the US, as well as the linkages between these systems.

**GEOG 4780. Selected Themes in Political Geography. 3 Credits.**

Study of basic writing, dominant geographers, case studies, bibliographies and development of research methods.

**GEOG 4790. Geographic Information Systems for the Social Sciences. 3 Credits.**

Designed for social science students interested in learning about the tools available in GIS for linking to and analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research. Prerequisites: juniors and seniors only.

**GEOG 4810. Landscape Ecology and GIS Analysis I. 3 Credits.**

(same as Natural Resources [NAT\_R] 4385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes. Prerequisite: Geography [GEOG] 4840, or instructor's consent.

**GEOG 4850. Transportation Geography. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 4155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.

**GEOG 4860. Advanced Remote Sensing. 3 Credits.**

Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved. Prerequisite: Geography [GEOG] 4830.

**GEOG 4904. Topics in Geography-Social Science. 1-12 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: junior standing and instructor's consent; departmental consent for repetition.

**GEOG 4940. Advanced Geographic Information Systems (GIS II). 3 Credits.**

Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems technology. Focus on project management, research applications, and geostatistical analysis through independent research projects. Prerequisite: Geography [GEOG] 3040 or instructor's permission.

**GEOG 4945. Internship in Applied Geography and Cartography. 1-3 Credit.**

Regularized individual work experience with local, regional, state or national agencies, with guidance and readings supplied by faculty coordinator. May repeat to maximum of 6 hours. Prerequisites: upper-level standing in Geography, cartographic training, and departmental consent.

**GEOG 4990. Senior Seminar in Geography. 3 Credits.**

A seminar in selected themes in Geography. Class will focus on research, writing, presenting, and discussing themes in contemporary geography. Required of all majors prior to graduation. Prerequisite: 5 courses in geography or instructor's consent.

**GEOG 4996H. Honors in Geography. 3 Credits.**

Special work for Honors candidates in geography. Honors eligibility required.

**GEOG 4997H. Honors in Geography. 3 Credits.**

Special work for Honors candidates in geography. Honors eligibility required.

**GEOG 7130. The Geospatial Sciences in National Security. 3 Credits.**

(Same as Civil Engineering [CV\_ENG] 7175). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. Prerequisite: junior standing or above required; instructor's consent. May be repeated for credit.

**GEOG 7520. Meteorology of the Biosphere. 3 Credits.**

(same as Atmospheric Science [ATM\_SC] 7520). Energy balance and mass transfer microenvironment of plants and animals. Effects of weather events on plants and animal production discussed. Prerequisites: graduate standing and Mathematics [MATH] 1400 or equivalent; one year of college physics; or instructor's consent.

**GEOG 7550. Selected Themes in Cultural Geography. 3 Credits.**

Case studies in the patterns and processes of human-environmental interactions. Study of the cultural forces responsible for the continual transformation of the earth's cultural landscapes. Prerequisite: graduate standing.

**GEOG 7560. Resources and Indigenous Peoples. 3 Credits.**

This is a survey of indigenous peoples' struggle to control and use natural resources, to have a say in determining the path of economic development, and to restrain the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations. Prerequisite: graduate standing.

**GEOG 7620. Biogeography: Global Patterns of Life. 3 Credits.**

Analysis of the patterns and processes of plant distribution in the contemporary landscape, stressing environmental influences and vegetation dynamics, particularly as they relate to North American vegetation. Prerequisite: graduate standing and Geography [GEOG] 2610 or instructor's consent.

**GEOG 7630. River and Stream Dynamics. 3 Credits.**

Systematic study of river mechanics, stream-channel form, river management and restoration. Provides a theoretical and practical understanding of stream systems. Prerequisite: graduate standing and Geography [GEOG] 2610 and 3630, or instructor's consent.

**GEOG 7710. Spatial Analysis in Geography. 3 Credits.**

Application of statistical methods to geographic research. Prepares students to utilize advanced methodologies and models in spatial analysis. Includes computer analysis of geographical data. Prerequisite: graduate standing and Mathematics [MATH] 1100/1120.

**GEOG 7720. Seminar in Geography Education. 3 Credits.**

Study and research on fundamental themes in geography. Integration of these themes into regional and systematic approaches to the teaching of geography. Enrollment is restricted to students pursuing or considering careers in teaching. Prerequisites: graduate standing and instructor's consent.

**GEOG 7740. Location Analysis and Site Selection. 3 Credits.**

(Same as Civil Engineering [CV\_ENG] 7185). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.

**GEOG 7770. Migration and Immigration. 3 Credits.**

As fertility and mortality decline to record low levels, immigration and migration have become the primary components of population change. Changes brought on by immigration to a country and the internal redistribution of population via migration pose challenges to

governments, economic development, social and cultural relations, and environmental sustainability. This course explores issues surrounding immigration and migration. Beginning with the demographic overview of immigration, it focuses on the challenges faced by immigrant, sending, and receiving nations in the global migration system. The second part of the course focuses on the array of issues surrounding immigration to the United States, including the socio-economic adaptation of immigrants, the economic and cultural impacts of immigration, and illegal immigration. The third part of the course focuses on internal migration within migration within the US, discussing topics such as migration to the Sunbelt, Great Plains depopulation, poverty migration, migration to the suburbs, and migration's impact on community. Linkages between domestic migration and immigration will also be explored.

**GEOG 7780. Selected Themes in Political Geography. 3 Credits.**

Study of basic writing, dominant geographers, case studies, bibliographies and development of research methods. Prerequisites: graduate standing.

**GEOG 7790. Geographic Information Systems for the Social Sciences. 3 Credits.**

Designed for social science students interested in learning about the tools available in GIS for linking to an analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research. Prerequisites: graduate standing.

**GEOG 7810. Landscape Ecology and GIS Analysis I. 3 Credits.**

(same as Natural Resources [NAT\_R] 7385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes. Prerequisite: graduate standing and or instructor's consent.

**GEOG 7840. Geographic Information Systems I. 3 Credits.**

Introductory study of theory, concepts and techniques related to basic analysis, creation and processing of geographic and spatial data using Geographic Information Systems (GIS). Independent learning and computer-based laboratory exercises supplement theoretical lectures and discussion. Prerequisite: graduate standing.

**GEOG 7850. Transportation Geography. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 7155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.

**GEOG 7860. Advanced Remote Sensing. 3 Credits.**

Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved. Prerequisite: graduate standing and Geography [GEOG] 4830.

**GEOG 7904. Topics in Geography-Social Science. 1-12 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: graduate standing and instructor's consent; departmental consent for repetition.

**GEOG 7940. Advanced Geographic Information Systems (GIS II). 3 Credits.**

Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems technology. Focus on project management, research applications, and geostatistical analysis through independent research projects. Prerequisite: Geography [GEOG] 7840 or instructor's consent.

**GEOG 8080. Research in Geography. 1-6 Credit.**

Research not leading to thesis. May be repeated to a maximum of 6 hours. Prerequisite: instructor's consent. Graded on a S/U basis only.

**GEOG 8085. Special Investigations in Geography. 1-3 Credit.**

Advanced studies to meet the needs of the individual student. May be repeated to a maximum of 6 hours. Prerequisite: instructor's consent and independent study contract.

**GEOG 8090. Research in Geography. 1-8 Credit.**

Research leading to a thesis. May be repeated to a maximum of 8 hours. Prerequisite: instructor's consent and independent study contract. Graded on a S/U basis only.

**GEOG 8100. Seminar in World Regional Geography I. 1 Credit.**

Problems in the teaching of world regional geography on college level. Prerequisite: instructor's consent.

**GEOG 8120. Seminar in the Geography of Anglo-America. 1-3 Credit.**

Readings and research on problems in the geography of the United States and Canada. Prerequisite: graduate standing in Geography or instructor's consent.

**GEOG 8200. Seminar in World Regional Geography II. 1 Credit.**

Continuation of course Geography [GEOG] 8100. Prerequisite: instructor's consent.

**GEOG 8270. Seminar in the Geography of the Middle East. 3 Credits.**

Advanced readings and analysis of topics in the geography of the Middle East. Prerequisite: instructor's consent.

**GEOG 8710. Seminar. 1-3 Credit.**

May be repeated to a maximum of 6 hours. Prerequisite: departmental consent.

**GEOG 8750. Research Design. 3 Credits.**

Application of scientific methods in geographic research. Critical evaluation of current geographical methodology. Prerequisite: graduate standing in Geography or instructor's consent.

**GEOG 8760. Geographic Thought. 3 Credits.**

Discussion of the historic roots of the discipline, especially the ideas, theories and underlying philosophies that have defined Geography in the past century and a half. Students will also explore the philosophical and theoretical ideas that shape the way geographers approach the study of the world. Prerequisite: instructor's consent.

**GEOG 8815. Landscape Ecology and GIS Analysis II. 3 Credits.**

(same as Natural Resources [NAT\_R] 8395). Provide students with principles and applications of landscape ecology and firm understandings of spatial analysis techniques using GIS. Discuss metrics for spatial pattern and models for landscape-scale dynamics. Prerequisite: graduate standing and Natural Resources [NAT\_R] 4365/7385; Forestry [FOREST] 4302/7302 or equivalent; basic statistics; Geography [GEOG] 4810/7810 recommended; instructor's consent.

**GEOG 8820. Field Geography. 3 Credits.**

Techniques of geographical investigation in the field. Prerequisites: graduate standing in Geography or instructor's consent.

**GEOG 8840. Seminar: Applied Remote Sensing. 3 Credits.**

Applied project in remote sensing. Data selection, image processing, land use and land cover change, and quantitative biophysical information extraction from remotely sensed data. Prerequisite: Geography [GEOG] 4830 or instructor's consent.

**GEOG 8902. Topics in Geography-Biological/Physical/Mathematical. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: instructor's consent; departmental consent for repetition.

## Geology (GEOL)

---

**GEOL 1050. Planet Earth. 3 Credits.**

An introduction to Earth Science. Topics include: evidence for continental drift and plate tectonics, causes and prediction of natural hazards, the scale of geological time.

**GEOL 1100. Principles of Geology with Laboratory. 4 Credits.**

Three lectures, 2-hours lab. Earth processes and products and their impact on human needs and the environment. One field trip.

**GEOL 1100H. Principles of Geology with Laboratory - Honors. 4 Credits.**

Three lectures, 2-hours lab. Earth processes and products and their impact on human needs and the environment. One field trip. Honors eligibility required.

**GEOL 1150. Physical Geology for Scientists and Engineers. 4 Credits.**

Introduction to physical geology and basic earth processes with a focus on applications and societal relevance. In addition to basic geologic processes, basic physical principles will illustrate the interactions between geology and engineering Prerequisite: Mathematics [MATH] 1500. Instructor's consent required.

**GEOL 1200. Environmental Geology with Laboratory. 4 Credits.**

The interaction between geologic processes and human society. Topics include mineral, water, and energy resources, volcanic hazards, earthquakes, landslides, floods, coastal erosion, pollution problems and environmental management.

**GEOL 1250. The World's Oceans. 3 Credits.**

An interdisciplinary introduction to oceanography. Topics include: geologic evolution of ocean basins, properties of seawater, ocean circulation (waves, tides, and currents), marine ecosystems, instability of beaches and coastlines, coastal development and engineering.

**GEOL 1400. Themes in Geology. 1 Credit.**

5-week course organized around a central theme or topic, up to 3 different sections can be taken for credit.

**GEOL 2100. Independent Study in Geology. 1-3 Credit.**

Directed Library research in geological topics, under the supervision of faculty sponsor. May be repeated for a maximum of 3 hours credit. Prerequisite: instructor's consent.

**GEOL 2110. Introduction to Soil Science with Laboratory. 5 Credits.**

(same as Soil Science [SOIL] 2110). Introduction to Soil Science with emphasis placed on physical, biological, and chemical properties and applications to land use, plant growth, and environmental problems with

laboratory application of these concepts. Prerequisite: Chemistry [CHEM] 1320.

**GEOL 2120H. Faults and Earthquakes: Past, Present, and Future. 3 Credits.**

Seminar in science and societal ramifications of earthquakes. Geologic background includes causes, behavior, and distribution of faults. Student-led discussions cover historical disasters, economic, political, psychological, and cultural perspectives. Prerequisite: English [ENGLSH] 1000. Honors eligibility required.

**GEOL 2150. The Age of the Dinosaurs. 3 Credits.**

Study of the evolution of dinosaurs during the Mesozoic Era. New information on dinosaur life habits, food resources, dispersal by plate tectonics, and theories of extinction will be covered. Prerequisite: 1000-level science course.

**GEOL 2160H. Volcanoes and the Human Environment - Honors. 3 Credits.**

(same as Honors [GN\_HON] 2450H). This course gives students an understanding of how volcanoes work, how they are studied, and how they have impacted human cultures. Students will gain appreciation of volcanology as a broad scientific discipline within geology and the role that science plays in public policy. Honors eligibility required. Graded on A/F basis only.

**GEOL 2200. Oceanography. 3 Credits.**

Topics include: history and methods of marine research, properties of seawater, ocean circulation, biological productivity and zonation, origin and classification of marine sediments, character of major coastal and open-ocean environments, economic resources and environmental hazards. Prerequisite: Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**GEOL 2220H. Honors Seminar: Headline Topics in the Geological Science. 3 Credits.**

Seminar organized around a central theme that is the focus of intense ongoing research and public debate. Prerequisite: English [ENGLSH] 1000. Honors eligibility required.

**GEOL 2300. Earth Systems and Global Change. 3 Credits.**

Study of the earth as a whole, taking into account the many interwoven components of the geosphere, hydrosphere, atmosphere and biosphere. Prerequisite: 1000-level Science course.

**GEOL 2350. Historical Geology. 3 Credits.**

Summary of principles and techniques used in reconstructing Earth's history. Survey of major events that have affected Earth and its inhabitants. Review of geologic history of North America. Prerequisites: Geology [GEO] 1100 or 1200 and English [ENGLSH] 1000.

**GEOL 2360. Historical Geology Laboratory. 1 Credit.**

A laboratory course designed to improve understanding of Earth History by examination of maps and mineral, rock, sediment and fossil samples. Prerequisites: Geology [GEO] 1100 or 1200, Co-enrollment in 2350.

**GEOL 2400. Surficial Earth Processes and Products with Laboratory. 4 Credits.**

Semiquantitative analysis of geologic processes that shape the earth's surface. Includes topics in sedimentation and geomorphology. Prerequisites: Geology [GEO] 1100 OR 1200 and Mathematics [MATH] 1100/1120.

**GEOL 2450. Global Water Cycle. 3 Credits.**

Study of environmental geochemical factors controlling the composition of natural waters, and sources of water's constituents (natural or

human-produced). Prerequisites: Geology [GEOL] 1100 or 1200 and Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**GEOL 2500. Regional Geology Field Trip. 3 Credits.**

Field based study of a particular geologic region, including classroom preparation prior to the field trip. The trip will last 7-10 days, either during Spring Break or immediately after finals week. Prerequisite: Geology [GEOL] 1100 or 1200. May be repeated for credit.

**GEOL 2600. Mineral and Energy Resources of the Earth. 3 Credits.**

This course examines the geology of Earth's major mineral and energy resources--their origin, distribution, and characteristics--and societal implications of their use and abundance. Major topics: fossil fuels, nuclear energy, base & precious metals, non-metallic minerals, water. Prerequisite: Geology [GEOL] 1100 or 1200.

**GEOL 3085. Problems in Geological Sciences. 1-5 Credit.**

Prerequisite: instructor's consent.

**GEOL 3110. Geology of Missouri. 3 Credits.**

The physical, historical, and environmental geology of Missouri are described, discussed and interpreted. Prerequisites: English [ENGLISH] 1000 and either Geology [GEOL] 1100 or 1200.

**GEOL 3115. Geology of Missouri Laboratory. 1 Credit.**

A field based and laboratory based course that uses standard geological techniques to interpret the rock record of Boone County and Missouri. Corequisite: Geology [GEOL] 3110.

**GEOL 3200. Rocks and Rock-Forming Minerals: Identification, Occurrence and Origin. 3 Credits.**

Introduction to the classification, occurrence, and origin of rocks and rock-forming minerals. Prerequisites: Geology [GEOL] 1100 or 1200 and Chemistry [CHEM] 1310.

**GEOL 3210. Rocks and Rock-Forming Minerals Laboratory. 1 Credit.**

Identification of rock-forming minerals and rocks in hand specimen by their physical properties. Corequisite: Geology [GEOL] 3200.

**GEOL 3250. Mineralogy. 5 Credits.**

Introduction to crystallography, crystal chemistry and crystal structures. Systematic study of mineral groups. Includes identification of minerals by physical, chemical and optical properties. Prerequisite: Chemistry [CHEM] 1310.

**GEOL 3300. Introduction to Geochemistry. 3 Credits.**

Fundamentals of chemistry as applied to geology. Includes phase diagrams, thermodynamics, redox chemistry, aqueous chemistry, stable and radiogenic isotopes. Computer-based homework problems (satisfies computing requirement for Geology majors). Prerequisites: Chemistry [CHEM] 1330 (may be co-enrolled), Mathematics [MATH] 1400 or 1500, and Geology [GEOL] 1100 or 1200, or instructor's consent.

**GEOL 3800. Sedimentology with Lab. 4 Credits.**

Mechanics of sediment transport by fluid flow and gravity flow, origins of stratification and sedimentary structures, facies characteristics depositional environments. Prerequisite: Geology [GEOL] 2350 and 2400 and either Geology [GEOL] 3250 or 3200 and 3210.

**GEOL 4002. Topics in Geological Sciences-Biological/Physical/Mathematics. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent. Prerequisite: instructor's consent.

**GEOL 4100. Groundwater Hydrology. 3 Credits.**

Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust. Prerequisites: Geology [GEOL] 1100 or 1200, Physics [PHYSICS] 1210, Mathematics [MATH] 1400 or 1500.

**GEOL 4110. Karst Hydrology. 3 Credits.**

The hydrology of karst terrains is taught from the perspective of integrated drainage basins. Discussion addresses the origin and hydrogeology of karst aquifers and the biology of the animals that live in karstic aquifers. Prerequisite: instructor's consent.

**GEOL 4120. Engineering Geology. 3 Credits.**

Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering. Prerequisite: GEOL 1100 or 1200 and MATH 1700 or 2100, or instructor's consent.

**GEOL 4130. Groundwater Modeling. 3 Credits.**

Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems. Prerequisite: Geology [GEOL] 4100 or equivalent.

**GEOL 4150. Structural Geology. 4 Credits.**

The mechanical behavior of earth materials. Analysis of the geometry and mechanics of faults, fractures, and folds. Laboratory includes problems on stresses and strains associated with deformation, geometric analysis of deformation structures, and interpretation of geologic maps. Prerequisites: Geology [GEOL] 1100 or 1200 and Mathematics [MATH] 1500 or 1400.

**GEOL 4180. Solar System Science. 3 Credits.**

(same as Physics [PHYSICS] 4180 and Astronomy [ASTRON] 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution. Prerequisites: Mathematics [MATH] 1700 and Physics [PHYSICS] 1220 or 2760 or instructor's consent.

**GEOL 4200. Economic Geology with Laboratory. 4 Credits.**

Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types. Prerequisites: Geology [GEOL] 3900.

**GEOL 4210. Marine Geology. 3 Credits.**

Comprehensive examination of the geology of the oceans. Topics includes techniques of data collection and interpretation, physical oceanography, origin of marine sediments, marine tectonics, and ocean history. Prerequisites: Geology [GEOL] 3800 Chemistry [CHEM] 1330 and Physics [PHYSICS] 1220.

**GEOL 4300. Introduction to Low-Temperature Geochemistry. 3 Credits.**

Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water. Prerequisite: Geology [GEOL] 3300 or instructor's consent.

**GEOL 4318. Environmental Soil Chemistry. 3 Credits.**

(same as Soils [SOIL] 4318 and Environmental Science [ENV\_SC] 4318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption

processes. Prerequisites: Soil Sciences [SOIL] 2100 or Geology [GEOL] 2400, Chemistry [CHEM] 1320 and 1330. Junior standing or instructor's consent.

**GEOL 4400. Geomicrobiology and Microbial Biogeochemistry. 3 Credits.**

Roles of microbes in a variety of geological settings through time. Microbial roles in degradation of organic pollutants and transformation of toxic metals and radionuclides in contaminated environments. Prerequisite: Geology [GEOL] 3300 or instructor's consent.

**GEOL 4500. Organic Geochemistry. 3 Credits.**

Topics include chemistry of petroleum-forming reactions and their kinetic parameters; use of organic-chemical criteria in source-rock evaluation; carbon isotope fractionation in organic precursors of biological molecules; early history of earth's atmosphere. Prerequisite: instructor's consent.

**GEOL 4550. Introduction to Paleontology with Laboratory. 4 Credits.**

Study of the morphology, paleontology, patterns of evolution, and causes of extinction in geologically important groups of invertebrate and vertebrate fossils. Lab concentrates on identification of biostratigraphically important fossils (mostly invertebrates). Several half-day field trips. Prerequisites: Geology [GEOL] 1100 or 1200.

**GEOL 4650. Plate Tectonics. 3 Credits.**

Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features. Prerequisites: Geology [GEOL] 3250, 4150 or instructor's consent.

**GEOL 4680. Neotectonics and Earthquake Geology. 3 Credits.**

Introduction to techniques and concepts of active crustal deformation from the geological and geodetic perspectives. Topics include tectonic geomorphology, paleoseismology, Quaternary dating, tectonic geodesy, numerical models of faults, and earthquake hazard assessment. Prerequisites: Geology [GEOL] 4650 or 4150 and instructor's consent.

**GEOL 4700. Theoretical Geochemistry. 3 Credits.**

Introduction to theoretical concepts in low and high temperature geochemistry. Topics include thermodynamics of fluids, gases and solids in geological materials, phase diagrams, equilibrium constants, electrolyte theory, oxidation-reduction reactions. Prerequisites: Geology [GEOL] 3250, Chemistry [CHEM] 1330 and Mathematics [MATH] 1700.

**GEOL 4800. Introduction to Geophysics. 3 Credits.**

Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods. Prerequisite: Physics [PHYSICS] 1210 or 2750 and Mathematics [MATH] 1700.

**GEOL 4900. Igneous and Metamorphic Petrology with Laboratory. 4 Credits.**

Introduction to igneous and metamorphic rock associations and rock-forming processes. Emphasis on understanding the evolution of the Earth in view of igneous and metamorphic rock petrogenesis. Prerequisites: Geology [GEOL] 3250 and 3300.

**GEOL 4950. Senior Thesis. 1-3 Credit.**

Research conducted in an area of the Geological Sciences under the auspices of a member of the faculty. Under normal circumstances, this research should be completed over two semesters. May be repeated for a maximum of 3 hours credit.

**GEOL 4990. Communicating in the Earth Sciences. 3 Credits.**

Synthesis of Geology curriculum through study of classic Earth Science papers. Emphasizes critical analysis of scientific papers, data interpretation, science writing and oral presentations. Prerequisites:

Geology [GEOL] 3800 and senior standing or instructors permission. Satisfies Capstone for BA in Environmental Geology.

**GEOL 4991. Capstone in Environmental Geology. 1-3 Credit.**

Readings and discussions in selected areas of environmental geology. Subject depends on instructor. Restricted to Environmental Geology students. 3 credit hour Capstone must be completed unless student completes a Senior Thesis. In that case, Capstone + Senior Thesis credit hours must equal 3.

**GEOL 4992. Field Course. 6 Credits.**

Field study of sedimentary, igneous and metamorphic rocks. Facies analysis of sedimentary rocks, mapping of folded and faulted sedimentary strata and fabric analysis of an igneous-metamorphic terrane. Excursion to Yellowstone and Grand Teton National Parks. Prerequisite: Geology [GEOL] 2350, 4150, and 3800.

**GEOL 7002. Topics in Geological Sciences-Biological/Physical/Mathematics. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent. Prerequisite: graduate standing and instructor's consent.

**GEOL 7085. Problems in Geological Sciences. 1-8 Credit.**

Prerequisites: graduate standing and instructor's consent.

**GEOL 7100. Groundwater Hydrology. 3 Credits.**

Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust. Prerequisites: Geology [GEOL] 1100 or 1200, Physics [PHYSICS] 1210, Mathematics [MATH] 1400 or 1500; graduate standing required.

**GEOL 7110. Karst Hydrology. 3 Credits.**

Study of the mechanisms of groundwater flow in Karst terrains. Emphasizing several scales including that of a conduit, a catchment, and regional framework. Prerequisite: instructor's consent; graduate standing required.

**GEOL 7120. Engineering Geology. 3 Credits.**

Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering. Prerequisite: graduate standing and Geology [GEOL] 1100 or 1200 and Mathematics [MATH] 1700 or 2100, or instructor's consent.

**GEOL 7130. Groundwater Modeling. 3 Credits.**

Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems. Prerequisite: Geology [GEOL] 4100 or equivalent.

**GEOL 7150. Structural Geology. 4 Credits.**

The mechanical behavior of earth materials. Analysis of the geometry and mechanics of faults, fractures, and folds. Laboratory includes problems on stresses and strains associated with deformation, geometric analysis of deformation structures, and interpretation of geologic maps. Prerequisites: graduate standing, instructor's consent and Geology [GEOL] 1100 or 1200 and Mathematics [MATH] 1500 or 1400.

**GEOL 7180. Solar System Science. 3 Credits.**

(same as Physics [PHYSICS] and Astronomy [ASTRON] 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution. Prerequisites: Mathematics [MATH] 1700 and Physics [PHYSICS] 1220 or 2760 or instructor's consent.

**GEOL 7200. Economic Geology with Laboratory. 4 Credits.**

Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types. Prerequisites: Geology [GEOL] 3900.

**GEOL 7210. Marine Geology. 3 Credits.**

Comprehensive examination of the geology of the oceans. Topics includes techniques of data collection and interpretation, physical oceanography, origin of marine sediments, marine tectonics, and ocean history. Prerequisites: graduate standing and Geology [GEOL] 3800 Chemistry [CHEM] 1330 and Physics [PHYSICS] 1220.

**GEOL 7300. Introduction to Low-Temperature Geochemistry. 3 Credits.**

Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water. Prerequisites: Geology [GEOL] 3300 or instructor's consent; graduate standing required.

**GEOL 7318. Environmental Soil Chemistry. 3 Credits.**

(same as Soils [SOIL] and Environmental Science [ENV\_SC] 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes. Prerequisites: SOIL 2100 or Geology [GEOL] 2400, Chemistry [CHEM] 1320 and CHEM 1330. Graduate standing or instructor's consent.

**GEOL 7400. Geomicrobiology and Microbial Biogeochemistry. 3 Credits.**

Roles of microbes in a variety of geological settings through time. Microbial roles in degradation of organic pollutants and transformation of toxic metals and radionuclides in contaminated environments. Prerequisite: Geology [GEOL] 3300 or instructor's consent; graduate standing required.

**GEOL 7500. Organic Geochemistry. 3 Credits.**

Topics include chemistry of petroleum-forming reactions and their kinetic parameters; use of organic-chemical criteria in source-rock evaluation; carbon isotope fractionation in organic precursors of biological molecules; early history of earth's atmosphere. Prerequisite: graduate standing and instructor's consent.

**GEOL 7650. Plate Tectonics. 3 Credits.**

Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features. Prerequisites: Geology [GEOL] 3250, 4150 or instructor's consent.

**GEOL 7680. Neotectonics and Earthquake Geology. 3 Credits.**

Introduction to techniques and concepts of active crustal deformation from the geological and geodetic perspectives. Topics include tectonic geomorphology, paleoseismology, Quaternary dating, tectonic geodesy, numerical models of faults, and earthquake hazard assessment. Prerequisite: Geology [GEOL] 4650 or 4150.

**GEOL 7700. Theoretical Geochemistry. 3 Credits.**

Introduction to theoretical concepts in low and high temperature geochemistry. Topics include thermodynamics of fluids, gases and solids in geological materials, phase diagrams, equilibrium constants, electrolyte theory, oxidation-reduction reactions. Prerequisites: graduate standing and Geology [GEOL] 3250, Chemistry [CHEM] 1330 and Mathematics [MATH] 1700.

**GEOL 7800. Introduction to Geophysics. 3 Credits.**

Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods. Prerequisite: graduate standing and Physics [PHYSICS] 1210 or 2750 and Mathematics [MATH] 1700.

**GEOL 7990. Research in Geological Sciences-Masters. 1-8 Credit.**  
Does not lead to dissertation.

**GEOL 7991. Investigation of Earth Materials. 3 Credits.**

Hands-on experience in all facets of quantitative field and laboratory analyses of near-surface earth materials. Prerequisite: graduate standing Geology [GEOL] 2350, 4100, and 3800.

**GEOL 8002. Topics in Geological Sciences. 3 Credits.**

Organized study of selected topics. May be repeated with departmental consent. Prerequisites: PhD standing, instructor's consent.

**GEOL 8050. Research in Geological Sciences-Masters Non-Thesis. 1-3 Credit.**

Research leading to a non-thesis Masters project. Graded on S/U basis only.

**GEOL 8085. Problems in Geological Sciences. 1-8 Credit.**

Prerequisites: graduate standing and instructor's consent.

**GEOL 8090. Research in Geological Sciences-Masters Thesis. 1-99 Credit.**

Preparation of dissertation. Graded on a S/U basis only.

**GEOL 8100. Continental Tectonics. 3 Credits.**

The structural, metamorphic, and igneous evolution of mountain belts and continental rifts with emphasis on convergent margin settings and terrane accretion processes and products. Case studies are considered from the Precambrian to the recent. Prerequisites: Geology [GEOL] 4150 and 3900.

**GEOL 8140. Metamorphic Petrology. 3 Credits.**

Petrography and petrology of metamorphic rocks. Emphasis on textures, mineral assemblages, and mineral chemistry in order to determine the physico-chemical condition of metamorphism. Prerequisites: Geology [GEOL] 3250 and 3900.

**GEOL 8150. Earthquake Seismology. 3 Credits.**

Theory and techniques used in analyzing earthquake seismograms and seismicity data. Ray theory and phase identification for the whole earth. Epicenter determination. Frequency-magnitude relationships. Earthquake source mechanisms and parameters. Prerequisites: Geology [GEOL] 4320.

**GEOL 8160. Igneous Petrology. 3 Credits.**

Studies of the origin and evolution of magmas with use of phase equilibria, physical properties, and kinetics. Prerequisites: Geology [GEOL] 3250 and 3900.

**GEOL 8170. Radiogenic Isotope Geochemistry. 3 Credits.**

Studies of the application of trace element and radiogenic isotope systematics to petrogenesis of rocks. Prerequisites: Geology [GEOL] 3900.

**GEOL 8190. Advanced Paleontology. 3 Credits.**

Principles of taxonomy, biostratigraphy, functional morphology and paleoecology are illustrated by individual projects that combine field collecting, laboratory examination and literature research. Prerequisite: Geology [GEOL] 3500.

**GEOL 8200. Advanced Structural Geology. 3 Credits.**

Advanced analysis of deformation structures in rocks. Theory and techniques of stress and strain analysis and their application to the mechanics of formation of faults, folds, shear zones, and rock fabric. Techniques of multideformation structural analysis. Prerequisite: Geology [GEOL] 4150/7150.

**GEOL 8210. Advanced Aqueous Geochemistry. 3 Credits.**

Study of mineral-water interface geochemistry. Course will cover dissolution and precipitation kinetics, sorption reactions, and current theories. Prerequisites: Geology [GEOL] 4300/7300 or instructor's consent.

**GEOL 8230. Groundwater and Subsurface Geomicrobiology. 3 Credits.**

Distribution of microorganisms in subsurface environments and the effects of microbial activity on groundwater chemistry. In situ bioremediation of contaminated aquifers by subsurface microorganisms. Prerequisite: Geology [GEOL] 4400.

**GEOL 8240. Hydrogeologic Processes. 3 Credits.**

Quantitative analysis of role of groundwater in major geologic processes. Theory review of fluid flow, heat transport, reactive solute transport in porous media. Applications to sedimentary diagenesis, hydrothermal ore deposits, petroleum migration, earthquakes, magmatism, metamorphism. Prerequisite: Geology [GEOL] 4100/7100 or equivalent.

**GEOL 8300. Precambrian History. 3 Credits.**

Evolution of the coupled ocean, atmosphere, and biological systems over the span of Precambrian history. Topics will be discussed in the context of tectonic models and crustal evolution with a focus on geochemical/stratigraphic records.

**GEOL 8320. Introduction to Seismology. 3 Credits.**

Principles of wave propagation in layered elastic media. Applications of digital signal processing to seismological problems. Emphasis on theoretical basis behind modern analysis techniques. Prerequisites: graduate standing and Physics [PHYSICS] 2760, Mathematics [MATH] 4500 and Computer Science [CMP SC] 1050.

**GEOL 8350. Marine Chemistry. 3 Credits.**

Survey of biogeochemical processes in shallow and deep marine settings. Topics include sediment diagenesis, geochemical tracers, nutrient patterns and pathways, global biogeochemical cycles, paleoceanographic proxy records, and integrated paleoenvironmental reconstructions of ancient marine sequences.

**GEOL 8400. Ancient Greenhouse Climate. 3 Credits.**

Will explore a wide range of data concerning greenhouse climates and different techniques used in paleoclimatology. Graded on A/F basis only. Prerequisites: Geology [GEOL] 3800, 3500 and 4300.

**GEOL 8450. Tectonics and Sedimentation. 3 Credits.**

Global survey of modern and ancient convergent plate boundaries with an emphasis on sedimentary facies and structural styles. Prerequisites: Geology [GEOL] 4150/7150, 3800 and instructor's consent.

**GEOL 8510. Geodynamics. 3 Credits.**

This course is designed to cover the fundamentals of the quantitative aspects of Plate Tectonics. The study of these subjects is generally referred to as Geodynamics or Geodynamic Theory. This theory revolutionized the earth sciences and the way people think of earth processes. By definition Geodynamics is an interdisciplinary paradigm therefore it is necessary to cover a wide range of topics from heat transfer to gravity. This course will overlap with subjects covered in both Plate

Tectonics and Geophysics but we will emphasize the quantitative aspects of this theory in this course. Prerequisites: MATH 1700, PHYSICS 2760.

**GEOL 8550. Stable Isotope Geochemistry. 3 Credits.**

Mechanisms and fundamental concepts of fractionation of light stable isotopes in nature. Emphasizes application of hydrogen, carbon, oxygen and sulfur isotopes to igneous, metamorphic and sedimentary rocks, metallic ore deposits, and to natural waters. Prerequisites: instructor's consent.

**GEOL 8600. Quaternary Environments. 3 Credits.**

Study of the Earth's most recent glacial/interglacial cycles. Prerequisites: instructor's consent.

**GEOL 8650. Thermal Processes in the Solid Earth. 3 Credits.**

Principles of heat transfer in solid earth by conduction, advection and convection. Basic analytic and numerical solutions. Application in Earth's dynamic system, environmental sciences, and geological problems. Prerequisites: Mathematics [MATH] 1700, Physics [PHYSICS] 1220 or 2750.

**GEOL 8750. Silicate Glasses, Liquids and Magmas. 3 Credits.**

Theory of silicate liquid viscosity, heat capacity and configurational entropy, emphasizing the role of volatile components. Applications to magma rheology and eruptive behavior. Lab instruction in viscometry techniques. Prerequisites: Geology [GEOL] 3900 and 4700, or instructor's consent.

**GEOL 8800. Applied Numerical Analysis. 3 Credits.**

A study of applied mathematical analysis of spatial and temporal data as applied in the geosciences. Prerequisites: Mathematics [MATH] 1700 or MATH 2300, Physics [PHYSICS] 1220 or PHYSICS 2760.

**GEOL 8990. Research. 1-8 Credit.**

Does not lead to dissertation.

**GEOL 9090. Research in Geological Sciences-Doctoral Dissertation. 1-99 Credit.**

Preparation of dissertation. Graded on a S/U basis only.

## German (GERMAN)

---

**GERMAN 1100. Elementary German I. 5 Credits.**

For beginners with no prior knowledge of German. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication--oral and listening skills, reading and writing.

**GERMAN 1100H. Elementary German I - Honors. 5 Credits.**

This course is designed for Honors students with little or no German language background and will provide students with a foundation in vocabulary and grammar in order to develop communication proficiency in German. Students will be trained using the five skills: listening, speaking, writing, reading and cultural knowledge. The course will be taught as a total immersion class and thus differs from the standard elementary German sequence. Furthermore, students will be required to complete lengthier reading and writing tasks as well as present a final oral multimedia project at the end of the semester. Honors eligibility required.

**GERMAN 1150. Freshman Introduction to German Studies. 1 Credit.**

Introduction to German Studies as academic field. Small seminar setting with senior faculty, their favorite texts, and questions pursued in the

research and teaching. Recommended for all students interested in integrating German studies into their academic career, conducted in English. Restricted to Freshman students only.

**GERMAN 1200. Elementary German II. 5 Credits.**

A continuation of GERMAN 1100. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication - oral and listening skills, reading and writing. Prerequisite: C- or better in GERMAN 1100, or equivalent.

**GERMAN 1200H. Elementary German II - Honors. 5 Credits.**

This course is designed for Honors students who either took the German 1100H section or are placing into German 1200 as honors eligible students. The main focus of this course is on further development of basic communication skills in speaking, listening, reading, and writing in German adding more nuanced cultural and sociolinguistic competencies in a total immersion environment. Honors eligibility required.

**GERMAN 2001. Undergraduate Topics in German-General. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent.

**GERMAN 2005. Undergraduate Topics in German-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent. No language credit.

**GERMAN 2100. Intermediate German I. 3 Credits.**

A continuation of German [GERMAN] 1200. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication - oral and listening skills, reading and writing. Prerequisite: C- or better in German [GERMAN] 1200, or equivalent.

**GERMAN 2260. Intermediate German II: Language and Culture. 3 Credits.**

This course continues to help learners develop the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life. Prerequisite: C- in German [GERMAN] 2100 or equivalent.

**GERMAN 2310. German Civilization: Beginning to 1850. 3 Credits.**

Major historical, social, artistic, literary themes from beginnings to end of Revolution of 1848. Films and recordings. May be taken independently of German [GERMAN] 2320. No foreign language credit.

**GERMAN 2320. German Civilization: 1850 to Present. 3 Credits.**

Second Empire, Weimar Republic, Nazi era, two Germanies after 1949. Historical, social, artistic, literary themes. Films and recordings. May be taken independently of German [GERMAN] 2310. No foreign language credit.

**GERMAN 2480. Monstrous Births: Tales of Creation in 19th Century Literature. 3 Credits.**

Examines literary and other cultural works which explore the creation of human beings by traditional, technological, or magical means. Course and readings in English translation. Prerequisites: English [ENGLSH] 1000 or equivalent.

**GERMAN 2820. Trends in World Cinema. 3 Credits.**

(same as Film Studies [FILM\_S] 2820 and Romance Languages [RM\_LAN] 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production. Prerequisite: sophomore standing, English [ENGLSH] / Film Studies [FILM\_S] 1800 or instructor's consent.

**GERMAN 3001. Topics in German-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisites: sophomore standing and instructor's consent.

**GERMAN 3005. Topics in German-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisites: sophomore standing and instructor's consent.

**GERMAN 3160. German Conversation and Composition. 3 Credits.**

This course expands communicative competence in German and provides a review of advanced grammar concepts. Primary emphasis is on the further development of oral and written skills, reading comprehension, vocabulary expansion, and a broad exposure to relevant topics of contemporary German culture and society. Conducted in German. Prerequisite: German [GERMAN] 2260, or equivalent.

**GERMAN 3180. Business German. 3 Credits.**

Examines language within the economic and professional context of German-speaking countries. Introduces different economic concepts of Germany's turbulent 20th century, modern-day business systems and everyday commercial activities such as job applications, professional routines, capital investment and banking. Provides students with vocabulary, cultural knowledge and communicative abilities in order to participate in the professional German-speaking world using linguistically-solid and stylistically-persuasive writing and speaking skills. Prerequisite: German [GERMAN] 2260 and 3230 or equivalent.

**GERMAN 3190. Contemporary German Culture. 3 Credits.**

This content-driven course provides insights into essential subjects of 20th century German history and contemporary society, using a variety of literature, journalistic sources and film. The course will improve German conversation and literacy skills, and will strengthen critical reading and writing, as well as interpretative abilities. Significant grammatical concepts will be throughout the semester. Conducted in German. Prerequisites: German [GERMAN] 2260 or instructor's consent.

**GERMAN 3230. Introduction to German Literature. 3 Credits.**

This course introduces students to German-language literary texts, images, and films in their cultural and historical context through exposure to major genres (poetry, drama, short stories, and the novel). It further builds their vocabulary and teaches them critical interpretive skills as preparation for the analysis of literary texts in upper-division courses - and in life. Prerequisite: C- or better in German [GERMAN] 3160, or 3190.

**GERMAN 3320. Readings in German Literature. 3 Credits.**

Readings in English of selected works of German literature from Goethe to the present, with a particular emphasis on writers and texts that have had a strong influence on European thought and culture. Prerequisite: sophomore standing, English [ENGLSH] 1000.

**GERMAN 3440. After the Fact: Holocaust in Contemporary History, Art & Literature. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3440). Explores responses to the Holocaust from numerous perspectives. Considers how the Holocaust is remembered, memorialized, and debated in a variety of national contexts. Touches on historical, philosophical, and aesthetic points of view. Prerequisites: sophomore standing or instructor's consent.

**GERMAN 3460. Marx & Nietzsche: Labor, Power, & the German Mind of 19th Century. 3 Credits.**

Examines writings of Germany's two most radical nineteenth-century thinkers. Explores key terms of political economy and philosophy developed by Marx and Nietzsche. Journal and three papers. Prerequisite: sophomore standing, English [ENGLSH] 1000.

**GERMAN 3510. Think Global: Fundamentals of Globalization and Digital Technologies. 3 Credits.**

(same as JOURN 3510 and PEA\_ST 3510). This interdepartmental course serves as the introductory seminar for students pursuing the Certificate of Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives.

**GERMAN 3510H. Think Global: Fundamentals of Globalization and Digital Technologies - Honors. 3 Credits.**

(Same as JOURN 3510H). This interdepartmental course serves as the introductory seminar for students pursuing the Certificate of Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. Prerequisite: Honors eligibility required.

**GERMAN 3520. Folk and Fairytales in a Global Context. 3 Credits.**

Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English. Prerequisite: Sophomore standing required.

**GERMAN 3830. History of the German Film. 3 Credits.**

(same as Film Studies [FILM\_S] 3830). Introduction to the development of the German film. Old and recent films are viewed and discussed in terms of techniques, artistry, psychology and social impact. English dubbing or subtitles. No foreign language credit. Prerequisites: sophomore standing or instructor's consent.

**GERMAN 3840. German Film After 1945. 3 Credits.**

(same as Film Studies [FILM\_S] 3840). Examines a selection of post-War films by German directors, as well as historical, literary, and theoretical texts. Prerequisite: sophomore standing, or instructor's consent.

**GERMAN 3865. The Holocaust on Screen. 3 Credits.**

(same as Film Studies [FILM\_S] 3865). This course explores how the Holocaust has been depicted on film in a variety of national and historical contexts. Drawing on films from 1945 to the present, from the U.S., Germany, Poland, France, and Italy, we will consider to what end images

of the Holocaust have been used. Prerequisites: sophomore standing. Graded on A/F basis only.

**GERMAN 3895. Service Learning in German Studies. 2 Credits.**

Service learning offers students a chance to put into practice what they have learned in theory. Students work as teacher-aids or tutors in foreign language/culture classes at area schools. Graded on S/U basis only. Does not meet A&S foundation requirements. Prerequisites: German [GERMAN] 2260, or instructor's consent.

**GERMAN 4001. Topics in German-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisites: junior standing and instructor's consent.

**GERMAN 4005. Topics in German-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisites: junior standing and instructor's consent.

**GERMAN 4070. Intensive Beginning German. 3 Credits.**

Designed to lead to a reading knowledge of German. Cannot be taken to fulfill undergraduate language requirement. Prerequisites: graduate standing or instructor's consent.

**GERMAN 4160. Advanced Language Proficiency. 3 Credits.**

A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life. Prerequisite: German [GERMAN] 3230, or equivalent.

**GERMAN 4180. Advanced German: Conversation and Stylistics. 3 Credits.**

This course continues to emphasize all communicative skills in German: oral and listening skills, reading and writing. There is also an emphasis on advanced grammar. The content focuses on contemporary German culture and social life. Prerequisite: senior or graduate standing, or instructor's consent.

**GERMAN 4220. Eerie Tales: Classic German Narratives. 3 Credits.**

In this class, we will read classic uncanny tales in German by major authors, and will explore the traits of this category across a variety of literary movements. Prerequisites: German [GERMAN] 3230 or equivalent language capacity.

**GERMAN 4230. Enlightenment and Revolution. 3 Credits.**

Reading and discussion of selected works by major German writers from 1740 to 1870. Prerequisite: German [GERMAN] 3230 or equivalent.

**GERMAN 4240. Modernism and Modernity. 3 Credits.**

Reading and discussion of selected works by major German writers from 1870 to the present. Prerequisite: German [GERMAN] 3230 or equivalent.

**GERMAN 4260. Recent German Literature. 3 Credits.**

This course examines 'post-unification' works (i.e. by formerly East and West German authors) of literature and film written since 1989 that addresses social and political changes leading to or resulting from unification and the experience of WWII. Students will analyze the diverse cultural, political and economic factors that influence writers and filmmakers whose aesthetic production in turn helps shape contemporary German society.

**GERMAN 4440. Enlightenment and Sturm und Drang. 3 Credits.**

Survey of literature and thought of 18th-century Germany, with emphasis on the works of Lessing, Wieland, Herder and the younger Goethe. Prerequisite: German [GERMAN] 4230 or equivalent.

**GERMAN 4450. German Romanticism. 3 Credits.**

Prerequisite: German [GERMAN] 4230 or equivalent.

**GERMAN 4530. The German Novelle. 3 Credits.**

Prerequisite: German [GERMAN] 4230 or equivalent.

**GERMAN 4650. Faust. 3 Credits.**

Prerequisite: German [GERMAN] 4230 or equivalent.

**GERMAN 4670. Medieval German Literature 1170-1210. 3 Credits.**

Analysis of major narrative and lyric poetry of the Age of Chivalry. Prerequisite: German [GERMAN] 4230 or equivalent.

**GERMAN 4730. German Internship and Methods. 3 Credits.**

Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment. Prerequisites: junior standing, German [GERMAN] 4230, or instructor's consent.

**GERMAN 4820. Blogging the World: The Web in Cultural Context. 3 Credits.**

(same as French [FRENCH] and Russian [RUSS] 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contexts? Prerequisite: sophomore standing required.

**GERMAN 4960. Special Readings in German. 1-3 Credit.**

Independent study through readings, conferences, and reports. Prerequisites: junior standing and instructor's consent.

**GERMAN 4980. German Capstone Seminar. 3 Credits.**

Required of all senior German majors. Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program. Prerequisites: senior standing, one 3000-level literature course or equivalent or departmental consent.

**GERMAN 4996. Honors in German. 1-3 Credit.**

Special problems in Germanic literature or linguistics. Prerequisite: consent of departmental Honors director.

**GERMAN 7001. Topics in German-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**GERMAN 7005. Topics in German - Humanities. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**GERMAN 7085. Problems in German. 1-3 Credit.**

Prerequisites: graduate standing and chairman's consent.

**GERMAN 7160. German Conversation and Composition III. 3 Credits.**

A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life. Prerequisite: graduate standing and German [GERMAN] 3130 or equivalent.

**GERMAN 7180. Advanced German: Conversation and Stylistics. 3 Credits.**

This course continues to emphasize all communicative skills in German: oral and listening skills, reading and writing. There is also an emphasis on advanced grammar. The content focuses on contemporary German culture and social life. Prerequisite: senior or graduate standing, or instructor's consent.

**GERMAN 7440. Enlightenment and Sturm und Drang. 3 Credits.**

Survey of literature and thought of 18th-century Germany, with emphasis on the works of Lessing, Wieland, Herder and the younger Goethe. Prerequisite: graduate standing or German [GERMAN] 3630 or equivalent.

**GERMAN 7530. The German Novelle. 3 Credits.**

Prerequisite: graduate standing and German [GERMAN] 3630 or equivalent.

**GERMAN 7650. Faust. 3 Credits.**

Prerequisite: graduate standing and German [GERMAN] 3630 or equivalent.

**GERMAN 7660. Recent German Literature. 3 Credits.**

Prerequisite: graduate standing and German [GERMAN] 3630 or equivalent.

**GERMAN 7670. Medieval German Literature 1170-1210. 3 Credits.**

Analysis of major narrative and lyric poetry of the Age of Chivalry. Prerequisite: graduate standing and German [GERMAN] 3630 or equivalent.

**GERMAN 7730. German Internship and Methods. 3 Credits.**

Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment. Prerequisites: graduate standing and German [GERMAN] 3630, or instructor's consent.

**GERMAN 7820. Blogging the World: The Web in Cultural Context. 3 Credits.**

(same as Russian [RUSS] 7820 and French [FRENCH] 7820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context. Working in cross-disciplinary teams, students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold: students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And

how do new social networks amplify or alter certain features or culture across national and international contexts?.

**GERMAN 7960. Special Readings in German. 1-3 Credit.**

Independent study through readings, conferences, and reports. Prerequisites: graduate standing and instructor's consent.

**GERMAN 7980. German Capstone Seminar. 3 Credits.**

Required of all senior German majors. Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program. Prerequisites: graduate standing, one 3000-level literature course or equivalent, or departmental consent.

**GERMAN 8001. Topics in German-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**GERMAN 8005. Topics in German - Humanities. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**GERMAN 8007. SEMINAR:GERMAN. 3 Credits.**

**GERMAN 8050. Research in German. 1-3 Credit.**

Translations or creative work not leading to thesis. Credit hours arranged. Prerequisites: graduate standing or departmental consent.

**GERMAN 8085. Problems in German. 1-3 Credit.**

Prerequisites: graduate standing and chairman's consent.

**GERMAN 8087. Seminar in German. 3 Credits.**

Course content varies. Prerequisites: graduate standing or instructor's consent.

**GERMAN 8090. Research in German. 1-3 Credit.**

Prerequisite: graduate director's consent. Graded on S/U basis only.

**GERMAN 8450. Reformation and Renaissance Literature. 3 Credits.**

The course investigates significant works of German literature of the late 15th and 16th Centuries. Prerequisites: graduate standing or instructor's consent.

**GERMAN 8520. German Poetry from Sturm und Drang to 1848. 3 Credits.**

Reading of selected poetry by German writers of Sturm und Drang, Classicism, Romanticism, and Vomarz.

**GERMAN 8615. History of the German Language. 3 Credits.**

(same as Linguistics [LINGST] 8615). Prerequisites: graduate standing or instructor's consent.

**GERMAN 8625. Middle High German. 3 Credits.**

(same as Linguistics [LINGST] 8625). Prerequisites: graduate standing or instructor's consent.

## Graduate School (GRAD)

**GRAD 4010. Preparing To Be A Graduate Teaching Assistant. 1 Credit.**

Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only.

**GRAD 7010. Preparing To Be A Graduate Teaching Assistant. 1 Credit.**

Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only. Prerequisite: graduate standing.

**GRAD 7020. Learning Across Borders Seminar. 1 Credit.**

Social, cultural, and economic problems--and their solutions--are increasingly global and interdisciplinary. Global awareness is essential, therefore, in order to compete in the increasing global marketplace. Coupling professional knowledge and skills with international experience gives graduates a competitive advantage, as employers look beyond the academic transcript for additional skills. The Learning Across Borders seminar (LAB) creates opportunities for graduate students to work across cultures and disciplines. Throughout the academic year students will participate in a series of Think Tanks (interactive discussions facilitated by MU faculty and special guests) and LAB-approved events. Prerequisites: Students must register for both semesters. Graded on S/U basis only.

**GRAD 7070. Academic Interactions in the American University. 3 Credits.**

This course is designed to give graduate students new to the western academic environment an overview of classroom and departmental activities and expectations. Specifically, it will give students cultural insight into academic tasks and some of the linguistic tools necessary to accomplish those tasks. This course is recommended for any students who have not previously studied in a western academic environment and strongly recommended for students with an overall TOEFL score of 80 or below or sub-scores in listening and/or speaking of 20 or less. Prerequisites: ibt TOEFL of 60, graduate standing required.

**GRAD 7302. Tools for Teaching American Students. 3 Credits.**

Emphasis on advanced academic listening, discrete pronunciation skills, techniques for laboratory teaching and one-to-one interactions. Integrated with a general overview of American classroom culture.

**GRAD 7303. Communication and Culture for American College Teaching. 3 Credits.**

This class will focus on the linguistic aspects of teaching, as well as specific pedagogical; and cultural aspects of the American classroom. It will emphasize fluency development at the suprasegmental level, and interactive teaching skills, like organizational, questioning and compensation strategies.

**GRAD 9001. Topics in Graduate School. 1-99 Credit.**

Organized study of selected professional and career development topics. Subjects and course credit may vary from semester to semester. Prerequisite: instructor's and academic advisor's consent.

**GRAD 9010. Preparing Future Faculty I. 1 Credit.**

First course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Prerequisite: instructor's consent. Graded on S/U basis only.

**GRAD 9020. Preparing Future Faculty II. 1 Credit.**

Second course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Topics build upon those presented in Graduate School [GRAD] 9010 and focus on the job search and career development processes. Prerequisite: GRAD 9010. Graded on S/U basis only.

**GRAD 9030. Teaching with Technology-Strategies for Your Online Classroom. 1 Credit.**

(same as Information, Science and Learning Technology [IS\_LT] 9477). Designed to assist current and future course instructors to integrate learning technologies into a traditional face-to-face course. Graded on A/F basis only.

**GRAD 9304. Instructional and Communication Strategies for Effective College Teaching. 3 Credits.**

This class will focus on teaching and presentation strategies such as lesson design, using case studies and problem based learning, interactive learning, and classroom and course management. The linguistic emphasis will be on reduction, linking and speech patterns as well as pragmatic issues of organizing, clarifying and emphasizing ideas. Requires an MU Oral Language Proficiency Assessment score of 3 and course consent. Prerequisite: ITAP language level 3P or Graduate School [GRAD] 7303 and level 2; consent required. Graded on A/F basis only.

## **Greek (GREEK)**

---

**GREEK 1100. Elementary Ancient Greek I. 5 Credits.**

Study of forms, grammar, syntax. Early attention to reading in simple Attic prose.

**GREEK 1100H. Elementary Ancient Greek I - Honors. 5 Credits.**

Study of forms, grammar, syntax. Early attention to reading in simple Attic prose. Honors eligibility required.

**GREEK 1200. Elementary Ancient Greek II. 5 Credits.**

Continuation of Greek [GREEK] 1100. Readings in Attic prose. Prerequisite: grade of C or higher in Greek [GREEK] 1100 or equivalent.

**GREEK 1200H. Elementary Ancient Greek II - Honors. 5 Credits.**

Continuation of Greek [GREEK] 1100H. Readings in Attic prose. Prerequisite: grade of C or higher in Greek [GREEK] 1100 or equivalent. Honors eligibility required.

**GREEK 2000. Greek Reading. 3 Credits.**

Selected works of Greek literature. Prerequisite: grade of C or higher in Greek [GREEK] 1200.

**GREEK 2000H. Greek Reading - Honors. 3 Credits.**

Selected works of Greek literature. Prerequisite: grade of C or higher in Greek [GREEK] 1200. Honors eligibility required.

**GREEK 4120H. Intensive Beginning Greek II - Honors. 3 Credits.**

Continuation of Greek [GREEK] 4110H. Attention to ability to read rapidly and accurately. Course meets five hours weekly for three hours credit. Prerequisite: graduate standing or Honors eligibility required.

**GREEK 4300. Intermediate Readings. 3 Credits.**

Selected advanced readings in prose and poetry. Introduction to Homer. Prerequisite: Greek [GREEK] 2000 or equivalent.

**GREEK 4350. The Greek New Testament. 3 Credits.**

(same as Religious Studies [REL\_ST] 4650). Readings in the Greek New Testament and similar literature, e.g., the Septuagint. Prerequisite: Greek [GREEK] 4300 or instructor's consent. Graded on A-F basis only.

**GREEK 4400. Homer. 3 Credits.**

Reading, discussion, and literary analysis of Iliad and Odyssey. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4500. Greek Stylistics. 3 Credits.**

Study and practice of Greek prose, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.

**GREEK 4505. Topics in Greek. 3 Credits.**

Topics course involving Greek texts. Prerequisites: Greek [GREEK] 4300 or equivalent. May be repeated for credit.

**GREEK 4510. Greek Tragedy. 3 Credits.**

Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4520. Greek Comedy. 3 Credits.**

Selected plays of Aristophanes and Menander, with special attention to cultural contexts. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4530. Greek Lyric Poetry. 3 Credits.**

Selected readings from lyric poets, with attention to verse forms, and dialects. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4540. Greek Oratory. 3 Credits.**

Selections from Greek orators, with emphasis on Lysias and Demosthenes. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4550. Greek Philosophers. 3 Credits.**

Emphasis on readings and analysis of selected texts of major Greek philosophers. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4560. Greek Historians. 3 Credits.**

Reading and analysis of selected texts of major Greek historians. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4570. Greek Epigraphy. 3 Credits.**

Introduction to study of Greek inscriptions and their contribution to the understanding of other aspects of ancient culture. Prerequisite: Greek [GREEK] 2000.

**GREEK 4700. Survey of Greek Literature. 3 Credits.**

Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres. Prerequisite: two years Classical Greek or equivalent.

**GREEK 4960. Special Readings in Greek. 3 Credits.**

Readings in authors and texts not covered in other courses. Prerequisites: departmental consent, two years Classical Greek or equivalent.

**GREEK 7300. Intermediate Readings in Greek. 3 Credits.**

Selected advanced readings in prose and poetry. Introduction to Homer. Prerequisite: graduate standing and Greek [GREEK] 2000 or equivalent. Available to students for graduate credit in departments other than Classical Studies.

**GREEK 7350. The Greek New Testament. 3 Credits.**

(same as Religious Studies [REL\_ST] 7650). Readings in the Greek New Testament and similar literature, e.g., the Septuagint. Graduate students read significantly more Greek than do undergraduates and testing is accordingly more rigorous. Prerequisite: graduate standing and Greek [GREEK] 4300 or instructor's consent. Graded on A/F basis only.

**GREEK 7400. Homer. 3 Credits.**

Reading, discussion, and literary analysis of Iliad and Odyssey. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7500. Greek Stylistics. 3 Credits.**

Study and practice of general Greek prose tendencies, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices. Prerequisite: graduate standing.

**GREEK 7505. Topics in Greek. 1-99 Credit.**

Organized study of selected authors or eras. Subject and earnable credit vary from semester to semester. Prerequisite: graduate standing and two years of Classical Greek or equivalent.

**GREEK 7510. Greek Tragedy. 3 Credits.**

Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7520. Greek Comedy. 3 Credits.**

Selected plays of Aristophanes and Menander, with special attention to cultural contexts. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7530. Greek Lyric Poetry. 3 Credits.**

Selected readings from lyric poets, with attention to verse forms, and dialects. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7540. Greek Oratory. 3 Credits.**

Selections from Greek orators, with emphasis on Lysias and Demosthenes. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7550. Greek Philosophers. 3 Credits.**

Emphasis on readings and analysis of selected texts of major Greek philosophers. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7560. Greek Historians. 3 Credits.**

Reading and analysis of selected texts of major Greek historians. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7570. Greek Epigraphy. 3 Credits.**

Introduction to study of Greek inscriptions and their contribution to the understanding of other aspects of ancient culture. Prerequisite: graduate standing and Greek [GREEK] 2000.

**GREEK 7700. Survey of Greek Literature. 3 Credits.**

Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres. Prerequisite: graduate standing and two years Classical Greek or equivalent.

**GREEK 7960. Special Readings in Greek. 1-3 Credit.**

Readings in authors and texts not covered in other courses. Prerequisites: graduate standing and departmental consent, two years Classical Greek or equivalent.

**GREEK 8000. Proseminar in Greek Texts. 3 Credits.**

This is a seminar-level introduction to Greek literary and historical texts. The emphasis in this course will be on wide and intensive reading, with the objective of helping the new graduate student quickly develop a sound literary and linguistic competence.

**GREEK 8010. Greek Rough Guide. 3 Credits.**

Intensive exploration of Greek Literature from its earliest appearance through the Roman period. Emphasis upon texts as both literary and cultural artifacts whose interpretation requires familiarity with the historical

and archaeological legacy of antiquity as well as modern exegetical strategies. Graded on A/F basis only.

**GREEK 8100. Greek Historiography. 3 Credits.**

(same as History [HIST] 8500). Study of the major contemporary historians of Classical Greece and their methodology. Differential readings available to both students with a reading knowledge of Greek and also those without Greek.

**GREEK 9287. Seminar in Greek Drama. 3 Credits.**

May be repeated to a maximum of 6 hours.

**GREEK 9387. Seminar in Greek Lyric Poetry. 1-99 Credit.**

Prerequisite: graduate standing.

**GREEK 9487. Seminar in the Greek Philosophers. 3 Credits.**

Prerequisite: graduate standing.

**GREEK 9587. Seminar in the Greek Historians. 3 Credits.**

Prerequisite: graduate standing.

**GREEK 9687. Seminar in Greek Epic Poetry. 3 Credits.**

Prerequisite: graduate standing.

**GREEK 9787. Seminar on the Age of Pericles. 3 Credits.**

Study of Greek culture of mid-fifth century B.C., including law, religion, art, philosophy, science, and other aspects of the culture, to give students an integrated view of life of the period.

**GREEK 9887. Seminar in Special Fields. 3 Credits.**

Prerequisite: graduate standing.

## Health Management and Informatics (HMI)

---

**HMI 2210. The American Health Care System. 3 Credits.**

Student is provided with a basic understanding of the major components (financing, planning, and regulating) of the American health care system. Emphasis is placed on current issues and their impact on the delivery system.

**HMI 3310. The Health Care System. 3 Credits.**

Overview of health care system and relationship between its components. Focuses on changing nature of the system and issues confronting the future health care system. Prerequisite: senior standing.

**HMI 6495. Health Care Management. 5 Credits.**

Health Care Management.

**HMI 7410. Design of Health and Human Service Systems Evaluation. 3 Credits.**

Critical overview of issues, responses, and challenges in health services delivery, population health, and health policy in the U.S. to better respond, organize, deliver, and finance quality, cost-effective health care. Prerequisite: consent required.

**HMI 7420. Fundamentals of Bioinformatics. 3 Credits.**

Fundamentals of Bioinformatics.

**HMI 7430. Introduction to Health Informatics. 3 Credits.**

(same as MU Informatics Institute [INFOINST] 7430). Introduction to the use of clinical information systems in healthcare. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications. Prerequisites: graduate standing, departmental consent.

**HMI 7564. Health Ethics Theory. 3 Credits.**

An introduction to health ethics theory and methodology. We discuss metaethics and normative ethics theories, normative ethics in health ethics and methods of ethics case work up. Graduate standing required.

**HMI 7566. Health Informatics Ethics. 3 Credits.**

An introduction to ethical issues arising in the use of computers and information technology in clinical contexts in health care. Prerequisite: graduate standing, Health Management and Informatics [HMI] 7564 or equivalent course or permission of instructor.

**HMI 7567. Health Organizational Ethics. 3 Credits.**

An introduction to the ethics of administrative, managerial, and related business issues that arise in healthcare organizations. Prerequisites: graduate standing, Health Management and Informatics [HMI] 7564 or equivalent course, or permission of instructor.

**HMI 7750. Physical Function and Older Adults. 3 Credits.**

(Same as Family and Community Medicine [F\_C\_MD] 7750, Architectural Studies [ARCHST] 7640, Human Development and Family Studies [H\_D\_FS] 7750, Nursing [NURSE] 7750, Public Health [P\_HLTH] 7750, and Social Work [SOC\_WK] 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded A-F only. Graduate Standing Required.

**HMI 7751. Psychosocial Function and Older Adults. 3 Credits.**

(same as Architectural Studies [ARCHST] 7650, Family Community Medicine [F\_C\_MD] 7751, Human Development and Family Studies [H\_D\_FS] 7751, Nursing [NURSE] 7751, Public Health [P\_HLTH], 7751 and Social Work [SOC\_WK] 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

**HMI 8090. Thesis Research in Health Management and Informatics. 3 Credits.**

Research leading to a thesis. Maximum of 9 hours. Prerequisite: Adviser's consent. Graded on S/U basis only.

**HMI 8401. Topics in Health Management and Informatics. 3 Credits.**

Organized study of selected topics. Subjects will vary from semester to semester. Prerequisite: departmental consent for repetition.

**HMI 8435. Information Security, Evaluation and Policy. 3 Credits.**

The purpose of this course is to provide an extensive overview, practical applications and analyses of functionality and usability evaluations of health care information technology, and to discuss the impact of security on the present and future health care settings.

**HMI 8437. Data Warehousing and Data/Text Mining for Health Care. 3 Credits.**

An introduction to the basic concepts of data warehouse and data/text mining, creating an understanding of why we need those technologies and how they can be applied to healthcare problems. Prerequisites: Computer Science [CMP\_SC] 4380/7380, Health Management and Informatics [HMI] 8441.

**HMI 8441. Controlled Terminology Theory and Application. 3 Credits.**

Basic and advanced concepts of controlled terminologies and their use in the representation of biomedical information and knowledge, with emphasis on terminology management in the health care enterprise.

Syntactic and semantic structure of controlled terminologies are examined and a number of representative terminologies are analyzed.

**HMI 8443. Enterprise Information Architecture. 3 Credits.**

Organization and development of infrastructure necessary to support an enterprise information system for patient care. Components of architecture are introduced in a problem-based approach, case examples are presented as the basis for addressing specific attributes of the components, as well as problems facing the design of an enterprise information system for health care.

**HMI 8450. Methods of Health Services Research. 1-99 Credit.**

Writing intensive course provides students with basic understanding of literature search, experimental designs, evaluation methods, ethics, reporting and application of health services research. Practical research problems are discussed and students prepare a professional, managerially relevant research proposal.

**HMI 8460. Administration of Health Care Organizations. 3 Credits.**

Analyzes health care organizations, emphasizing organizational structure, and strategy, and managerial leadership. Topics include governance, adaptation, design, interorganizational networks, and organizational performance.

**HMI 8461. Human Resources Management. 3 Credits.**

Provides a framework for understanding and thinking strategically about employee relations and management of people in organizations, drawing on insights from social sciences to explore how psychological, economic, social, and cultural forces influence human resources management in health care.

**HMI 8470. Strategic Planning and Marketing for Health Care Organizations. 3 Credits.**

Analysis of strategic planning and services management and marketing concepts, techniques, and tools in the health care industry. Includes analyzing the environment, assessing the organization's strengths and weaknesses, formulating strategy to achieve competitive advantage, and implementing strategy through service management and marketing.

**HMI 8472. Financial Management for Health Care Organizations. 3 Credits.**

Application of concepts, tools and techniques of financial management and their interrelationships as they apply to current and future operation of health care organizations. Prerequisites: Accounting and Finance.

**HMI 8478. Knowledge Management in Health Care. 3 Credits.**

Representing clinical terms, concepts and knowledge in a form for manipulation by intelligent systems. Theoretical formalisms and conceptual representations of medical information. Examination of knowledge engineering tools and decision support systems.

**HMI 8485. Problems in Health Management and Informatics. 1-3 Credit.**

Intensive study of an area of health services management. Prerequisites: graduate standing and instructor's consent.

**HMI 8524. Health Economics. 3 Credits.**

Building upon previous knowledge of basic economic theories, concepts, and tools, the structure, organization, activities, functions, and problems of health and medical care are considered from an economics perspective. Prerequisite: microeconomics.

**HMI 8544. Managerial Epidemiology. 1-3 Credit.**

Examination of basic epidemiological concepts and methods as applied to health services management. Equal emphasis on applications of epidemiology to health services planning, quality monitoring, planning,

policy development, system development, finance, and underwriting.  
Prerequisite: consent required.

**HMI 8565. Health Care Ethics. 3 Credits.**

Explores ethics issues and controversies facing clinicians and healthcare administrators. Topics may include end-of-life care, imperiled newborns, maternal-fetal conflict, procreative liberty, genetic screening and enhancement, organ procurement and allocation, rationing, public health, workplace relationships, and conflicts of interest. Prerequisite: graduate standing, Health Management and Informatics [HMI] 7564 or equivalent course, or permission of instructor.

**HMI 8571. Decision Support in Health Care Systems. 3 Credits.**

Applies principles and techniques of computer-assisted decision making to solve health care problems. Clinical and managerial applications of artificial intelligence, including expert systems reviewed. Advantages of integrating decision support programs with databases are discussed.

**HMI 8573. Decision Making for Health Care Organizations. 3 Credits.**

Applies and integrates marketing, operations, human resources, and financial management decision-making in health care organizations. Case studies, role playing exercises, simulations, and games are used to demonstrate the dynamic tension between operations efficiency and marketing effectiveness that characterizes decision-making directed toward achieving organizational financial integrity.

**HMI 8574. Health Care Law. 3 Credits.**

Survey of the function and methods of law as applied to health care administration and health care.

**HMI 8575. Health Policy and Politics. 3 Credits.**

Overview and critical analysis of health policy issues in the United States, including how the dynamics of the policy making process have shaped outcomes, successful and unsuccessful, of a number of important policy initiatives.

**HMI 8610. Consumer Health Informatics. 3 Credits.**

Consumer health informatics explores the branch of medical informatics that analyzes consumers' needs for information; studies and implements methods of making information accessible to consumers; and models and integrates consumers' preferences into medical information systems. Prerequisites: Health Management and Informatics [HMI] 7430/ Informatics Institute [INFO\_INST] 7430 or instructor's consent. Graduate standing required.

**HMI 8689. Field Experience in Health Management and Informatics. 1-99 Credit.**

Supervised field experience in approved health agencies and institutions. Opportunity for observation and service participation in various fields of health. Graded on a S/U basis only.

**HMI 8810. Research Methods in Health and Bioinformatics. 3 Credits.**

(same as Informatics Institute [INFO\_INST] 8810) Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Prerequisites: Statistics [STAT] 7450 or 7510. Second semester or later in PhD program or instructors consent. Graduate standing required.

**HMI 8870. Knowledge Representation in Biology and Medicine. 3 Credits.**

(Same as MU Informatics Institute [INFOINST] 8870) The main topics presented in the course are: logic systems, knowledge representation

methods, production systems and representation of statistical and uncertain knowledge. Prerequisites: Computer Science [CMP\_SC] 2050(Java), MU Informatics Institute [INFOINST] 7430. Graduate standing required. Graded A-F only.

**HMI 9440. Technology Evaluation in Health Care Systems Research. 3 Credits.**

(same as NURSE 9470). Examines technology applications and evaluator methods used to determine outcomes, efficiencies, effectiveness, satisfaction, and cost of using technology. May be repeated for credit. Prerequisites: 6.0 credit of graduate statistics; Prerequisite/Corequisite: NURSE 9410 or faculty consent.

## **Health Professions (HTH\_PR)**

---

**HTH\_PR 1001. Topics in Health Professions. 1-3 Credit.**

Organized study of selected topics in Health Professions. Particular topics and credit may vary each semester. Prerequisite: instructor's consent.

**HTH\_PR 2001. Topics in Health Professions. 1-99 Credit.**

Organized study of selected topics in health professions. Particular topics and earnable credit may vary from semester to semester. Prerequisite: sophomore standing and instructor's consent.

**HTH\_PR 2960. Special Readings in Health Professions. 1-3 Credit.**

Directed study of literature and research reports in the health-related professions. Prerequisite: instructor's consent.

**HTH\_PR 4085. Problems in Health Professions. 1-99 Credit.**

Prerequisite: instructor's consent.

**HTH\_PR 4250. Human Kinesiology. 3 Credits.**

(same as Physical Therapy [PH\_THR] 4250 and Occupational Therapy [OC\_THR] 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Application through analysis of daily functional performance, exercise and sport. Prerequisite: anatomy.

**HTH\_PR 4310. Health Policy for the Health Professional. 1-3 Credit.**

Seminar to facilitate understanding of health policy, the legislative process, and politics. Emphasis on health professions, including issues of workforce, funding, and advocacy in the context of current health policy issues.

**HTH\_PR 7001. Topics in Health Professions. 1-3 Credit.**

Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester. Prerequisite: instructor's consent.

**HTH\_PR 7300. Health Care in the United States. 3 Credits.**

Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A/F basis only. Prerequisite: graduate standing.

**HTH\_PR 7310. Health Policy for the Health Professional. 1-3 Credit.**

Seminar to facilitate understanding of health policy, the legislative process, and politics. Emphasis on health professions, including issues of workforce, funding, and advocacy in the context of current health policy issues. Prerequisite: graduate standing.

**HTH\_PR 8001. Topics in Health Professions. 1-3 Credit.**

Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester. Prerequisite: instructor's consent.

**HTH\_PR 8085. Problems in Health Professions. 1-3 Credit.**

Individual study not leading to thesis or dissertation. Prerequisite: instructor's consent.

**HTH\_PR 8960. Directed Readings in Health Professions. 1-3 Credit.**

Selected readings on specific topics. Prerequisite: instructor's consent.

## Health Sciences (HLTH\_SCI)

---

**HLTH\_SCI 1000. Introduction to the Health Professions. 2 Credits.**

Overview of various health science majors and careers, as well as the aptitudes and abilities needed to each career. Presents information regarding current health concerns, topics affecting the current and future state of health care, historical developments and basic information about the U.S. health care system. Assists with career planning and selection of appropriate major. Graded on A/F basis only.

**HLTH\_SCI 2100. Health Sciences Seminar. 1 Credit.**

Professional Development course for Health Science Majors. Topics include resume development/ revision, interviewing skills, applying to graduate/professional programs and/or jobs, professional communication, etc. Prerequisite: sophomore standing required; restricted to Health Science majors only. Graded on S/U basis only.

**HLTH\_SCI 2200. Nuclear Weapons: Environmental, Health and Social Effects. 3 Credits.**

(same as SOCIOL 2281 and PEA\_ST 2200). Environmental consequences of the nuclear arms race, "regional" nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A/F basis only.

**HLTH\_SCI 3300. Public Health Principles and Practice. 3 Credits.**

This course focuses on the basic structures of the public health system in the US and provides an introduction to the factors that influence and shape that system including financing, politics and global issues. Restricted to Health Sciences Majors during pre-registration. Graded on an A/F basis only.

**HLTH\_SCI 3400. Global Health. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3401). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded A-F only.

**HLTH\_SCI 3500. Mental Health. 3 Credits.**

This course provides a look at mental health problems with regard to influences, etiology, diagnosis, and treatment. Students learn theories of mental health, diagnostic criteria, treatment modalities, and community issues concerning the mental health system. Prerequisite: Health Profession [HTH\_PR] 2100. Graded A-F only.

**HLTH\_SCI 3600. Health Promotion Planning. 3 Credits.**

This course will provide a comprehensive introduction to health promotion programming by integrating a solid theoretical foundation of the discipline with hands-on experience in project planning, funding, implementation,

and evaluation. Graded on A/F basis only. Prerequisite: Restricted to Health Science majors during early registration.

**HLTH\_SCI 3900. Introduction to The Research Process and Evidence Base. 3 Credits.**

This course is an introduction to the basic quantitative and qualitative research techniques used in the health professions. Basic elements of research as well as strengths and weaknesses of various methodologies, Institutional Boards, research ethics, research design, validity and reliability will be covered. Restricted to Health Sciences Majors with junior or senior standing. Graded A-F only.

**HLTH\_SCI 4001. Topics in Health Professions. 1-3 Credit.**

Organized study of selected topics. Subjects will vary from semester to semester.

**HLTH\_SCI 4300. Health Care in the United States. 3 Credits.**

Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Restricted to Health Sciences Majors during pre-registration. Graded on A/F basis only.

**HLTH\_SCI 4300H. Health Care in the United States - Honors. 3 Credits.**

Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A/F basis only. Honors eligibility required.

**HLTH\_SCI 4400. Culture and Health Literacy for the Health Professions. 3 Credits.**

This course will explore differences and attitudes towards the health care industry across various social, cultural and ability groups. This exploration will result in more culturally competent health professionals by promoting self-awareness and challenging the existing assumptions and biases of the health care system. Prerequisite: junior or senior standing or instructor's consent.

**HLTH\_SCI 4410. Humanism and Health Literacy. 3 Credits.**

This class will teach how the humanities can help students become better health professionals. Topics include: spirituality and health; non-medical factors that impact health; representation of disability in art history; and literature and health. Graded on A/F basis only.

**HLTH\_SCI 4420. Health Literacy and Behavioral Compliance. 3 Credits.**

Students will learn about the behavioral, psychological, and cognitive factors that impact health literacy and the ability to follow healthcare recommendations.

**HLTH\_SCI 4480. Clinical Ethics. 3 Credits.**

(same as Cardiopulmonary and Diagnostic Science [CPD] 4480) Exploration of important global bioethics issues in health care systems with emphasis placed on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare. Restricted to Health Science Majors.

**HLTH\_SCI 4500. Health Care Management. 3 Credits.**

Examines various management concepts as they relate to the unique environment of health care. Concepts include planning, decision making, budgeting, staffing, organizing, and motivating for working with individuals or teams. Prerequisites: Health Professions [HTH\_PR] 2100; junior standing. Graded on A/F only.

**HLTH\_SCI 4975. Internship in Health Sciences. 1-6 Credit.**

Focuses on knowledge, skills and attitudes that enhance personal effectiveness and professional success. Opportunities to research selected career paths and related topics in health sciences and participate in directed service learning projects or internships in selected emphasis area. Prerequisite: Health Professions [HTH\_PR] 2100. Graded on A/F basis only.

**HLTH\_SCI 4985. Healthcare Organization and Leadership. 3 Credits.**

(same as Cardiopulmonary and Diagnostic Science [CPD] 4985) In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Prerequisites: Health Professions [HTH\_PR] 2100. Senior standing required. Graded A-F only.

---

## Hebrew (HEBREW)

---

**HEBREW 1100. Elementary Hebrew I. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly.

**HEBREW 1200. Elementary Hebrew II. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly. Prerequisite: C- or better in Hebrew [HEBREW] 1100, or equivalent.

**HEBREW 2001. Topics in Hebrew-General. 1-3 Credit.**

Organized study of selected topics. Subjects and topics may vary semester to semester. May be repeated with consent of department.

**HEBREW 2005. Topics in Hebrew - Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and topics may vary semester to semester. May be repeated with consent of department. No knowledge of Hebrew required. No language credit.

**HEBREW 3085. Problems in Hebrew. 1-3 Credit.**

Supervised study of Hebrew language and/or culture. Prerequisite: instructor's consent.

**HEBREW 3310. Introduction to Israeli Culture. 3 Credits.**

Examines unique qualities that shape modern Israeli culture; looks at major social and political events that have shaped ethnicity, ideology, religion, identity, and diversity of the State of Israel. Discusses literature, the fine arts, language, and the mass media. No Foreign Language credit. Prerequisite: sophomore standing or instructor's consent. Graded on A/F basis only.

**HEBREW 3845. Modern Israeli Film. 3 Credits.**

(same as Film Studies [FILM\_S] 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israeli culture. Prerequisite: sophomore standing or consent of instructor required. Graded on A/F basis only.

---

## History (HIST)

---

**HIST 1004. Undergraduate Topics in History-Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. Prerequisite: departmental consent for repetition.

**HIST 1100. Survey of American History to 1865. 3 Credits.**

Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people.

**HIST 1100H. Survey of American History to 1865 - Honors. 3 Credits.**

Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. Honors eligibility required.

**HIST 1200. Survey of American History Since 1865. 3 Credits.**

Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people.

**HIST 1200H. Survey of American History Since 1865 - Honors. 3 Credits.**

Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. Honors eligibility required.

**HIST 1400. American History. 5 Credits.**

Broad survey of political, economic, social, intellectual, diplomatic and constitutional development of American people from first English settlements to present day; emphasizes evolution of American culture and institutions. Students may not receive additional credit for History [HIST] 1100 and/or 1200.

**HIST 1410. African American History. 3 Credits.**

(same as Black Studies [BL\_STU] 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.

**HIST 1420. Globalization and History. 3 Credits.**

This course will explore the contemporary phenomenon of globalization in historical perspective. Our goal will be to help students come to terms with the origins and dynamics of this process, which is transforming our economy and society more rapidly and thoroughly than ever before.

**HIST 1500. Foundations of Western Civilization. 3 Credits.**

Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century.

**HIST 1500H. Foundations of Western Civilization - Honors. 3 Credits.**

Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century. Honors eligibility required.

**HIST 1510. History of Modern Europe. 3 Credits.**

Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.

**HIST 1510H. History of Modern Europe - Honors. 3 Credits.**

Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity. Honors eligibility required.

**HIST 1520. The Ancient World. 3 Credits.**

Survey of institutional and cultural development of ancient Near East, Greece, Rome, and Asia.

**HIST 1540. England Before the Glorious Revolution. 3 Credits.**

Survey of English institutions, culture and politics from the Roman invasion to the Revolution of 1688.

**HIST 1550. Britain 1688 to the Present. 3 Credits.**

Surveys British history from 1688 to present. Emphasizes social and economic change.

**HIST 1560. The World of the Middle Ages. 3 Credits.**

Survey of European development from the fall of Rome to the 16th century.

**HIST 1570. Survey of Early Modern Europe, 1350-1650. 3 Credits.**

Survey of Western and Central Europe (including Britain) from the Black Death to the end of the Thirty Years' War. This period comprises late medieval crises, the Renaissance, Reformation, Counter-Reformation, Exploration and the New World, the Confessional Age, early modern state-building, and the Thirty Years' War.

**HIST 1580. History of Christianity. 3 Credits.**

Origin, diffusion and development of Christianity, with special attention to its influence on Western civilization. Major emphasis on period up to French Revolution.

**HIST 1590. Women and the Family in the Pre-Modern West. 3 Credits.**

Examines the changing roles of women and familial structures from the Ancient Mediterranean World to the Protestant Reformation and the effects of religious, political and economic change on the family.

**HIST 1600. Foundations of Russian History. 3 Credits.**

A survey of the Kievan and Muscovite period to the end of the 17th century.

**HIST 1610. Russia in Modern Times. 3 Credits.**

(same as Peace Studies [PEA\_ST] 1610). Survey of Russian history from 1801 to present.

**HIST 1790. History of Early Africa. 3 Credits.**

(same as BL\_STU 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.

**HIST 1800. The Making Modern Africa. 3 Credits.**

(same as Black Studies [BL\_STU] 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.

**HIST 1810. History of South Africa. 3 Credits.**

(same as Black Studies [BL\_STU] 1810). Surveys the social, cultural and economic dynamics of South African society from the 16th century to the present with an emphasis on the last two centuries and the consolidation of the apartheid state.

**HIST 1820. Asian Humanities. 3 Credits.**

(same as Religious Studies [REL\_ST] 1820, Art History and Archeology [AR\_H\_A] 1230 and South Asian Studies [S\_A\_ST] 1152). This course in an introduction to the literature and visual arts of Asia through selected master works. It focuses principally on India and China and investigates the distinctive features of their cultures.

**HIST 1830. Survey of East Asian History. 3 Credits.**

Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their

cultural, economic, and political traditions as well as their transformations in the modern era.

**HIST 1840. Colonial Latin America. 3 Credits.**

Survey of Latin America, 1492-1825; Exploration and conquest; European settlement; colonial government and institutions; economy and society; cultural and intellectual life, independence movements.

**HIST 1850. Latin America Since Independence. 3 Credits.**

Political, social and economic developments; nationalism; revolutionary movements; U.S. influence.

**HIST 1860. History of Ancient India. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 1860). This course surveys the history of South Asian history. The course begins with the Indus Valley Civilization (fl. 2600-1900B.C.) and ends with an analysis of Islamic impact on India culture around 1200-1350. Emphasis will be placed on cultural and social history, religion, arts and literature, and the sources used for the study of premodern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

**HIST 1861. History of Modern India. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 1861). This course surveys the history of the South Asian subcontinent from the early seventeenth through the twentieth century. Emphasis will be placed on cultural and social history, religion, arts and literature, imperialism and colonialism, and the sources used for the study of modern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

**HIST 1862. History of India: 1000-1750. 3 Credits.**

(Same as South Asia Studies [S\_A\_ST] 1862) This course surveys the history of the South Asian subcontinent from the eleventh through mid-eighteenth centuries. Emphasis will be placed on cultural and social history, religion, arts and literature, and the sources used to study civilization. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

**HIST 1870. Imperial China: China to 1600. 3 Credits.**

This course offers a broad introduction to Chinese history and culture from antiquity up to the later imperial period (around 1600). It is designed to provide the student with an understanding of the historical development of China's culture, economic, political, and intellectual traditions.

**HIST 1871. History of China in Modern Times. 3 Credits.**

This is a lecture course designed to introduce to beginning level students the epic journey of China's historical transformation since c. 1600. This survey provides a basis for understanding the painstaking transition from "tradition" to "modernity" in China.

**HIST 1872. Mao's China and Beyond: China Since 1949. 3 Credits.**

Through a series of readings, images, and film we will look at the dramatic cultural, economic, social and intellectual changes the People's Republic of China has experienced since 1949, and look at the interrelated, yet often contradictory, challenges facing Beijing in regards to the task of furthering economic prosperity while promoting policies of integrating with the international society.

**HIST 2004. Topics in History-Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition.

**HIST 2210. Twentieth Century America. 3 Credits.**

Survey of American development from 1900 to present. For students who have not taken advanced courses in American history, especially History [HIST] 4210, 4220, or 4230.

**HIST 2220. America in the 1960's. 3 Credits.**

(same as Peace Studies [PEA\_ST] 2220). Examines the political and cultural main currents of the 1960s. Emphasizes the challenges mounted by protest groups and the responses of America's political leadership to the ferment of the period. Prerequisite: sophomore standing.

**HIST 2230. Walt Disney and American Culture. 3 Credits.**

Examines Walt Disney's influence on shaping of modern American culture.

**HIST 2400. Social History of U.S. Women. 3 Credits.**

(same as Women's and Gender Studies [WGST] 2400). This course, the social History of US Women, offers a general overview of US Women, beginning with the colonial period up to the present day.

**HIST 2410. African American Women in History. 3 Credits.**

(same as Black Studies [BL\_STU] and Women's and Gender Studies [WGST]2410). African American Women in history is a topics course covering major issues affecting black women since their introduction into english-speaking North America to the present.

**HIST 2420. Conspiracy Theories & Conspiracies in American History & Culture. 3 Credits.**

From the Salem witch trials to the present-day obsessions with the JFK assassination, UFOs, and the like, Americans have often embraced conspiracy theories to explain mysterious events and wrenching social changes. The primary objective of the course is to help students deal more intelligently with the conspiratorial fears and political paranoia that pervade modern American culture, by placing them in a broad historical context. Prerequisite: sophomore standing or instructor's consent.

**HIST 2430. History of American Religion. 3 Credits.**

This course focuses on the overall development of American religion from the 17th century to the present. Students will be invited to think about the larger questions concerning American religion, including why religion in America has developed in the way that it has, and how and why it continues to thrive in American popular culture.

**HIST 2440. History of Missouri. 3 Credits.**

Survey of Missouri's development from the beginning of settlement to present.

**HIST 2520. Europe in the Nineteenth Century. 3 Credits.**

Political, social, economic, and cultural development of Europe from French Revolution to outbreak of World War I. Prerequisite: sophomore standing required.

**HIST 2530. Ukrainian History from Medieval to Modern Times. 3 Credits.**

A successor state of the former Soviet Union, Ukraine occupies a strategic position in Eastern Europe. The course will trace the long, turbulent history of this East Slavic nation, culminating the independence in 1991.

**HIST 2531. Women in Russian History. 3 Credits.**

This is a survey course which is designed for students who have not previously taken in course in Russian history, and who are interested in how women experienced the period from the formation of the Kievan state in the ninth century to the fall of the Soviet Union in 1991.

**HIST 2600. Early Christianity. 3 Credits.**

(same as Religious Studies [REL\_ST] 2600). History of Christian practices and teachings from Christian origins through the 8th century, including Eastern Orthodoxy Syrian Christianity, Roman Catholicism. Themes such as interpretation and creation of Scriptures, worship style, central rituals, debates about right teaching (orthodoxy) mysticism and developing lifestyles both in and apart from the world. Prerequisite: sophomore standing.

**HIST 2610. Medieval Christianity. 3 Credits.**

(same as Religious Studies [REL\_ST] 2610). Study of the doctrinal developments, major theologians and schools, institutional formation and dissolution, mysticism, and liturgical expression within the context of cultural and political history. Beginning with Augustine and concluding with the 15th century. Prerequisite: Religious Studies [REL\_ST] 2600.

**HIST 2620. History of Christianity, 1500-Present. 3 Credits.**

(same as Religious Studies [REL\_ST] 2620). Protestant and Catholic Christianity in age of European expansion; enlightenment; 19th and 20th-century challenges and responses. Prerequisites: Religious Studies [REL\_ST] 2600 and 2610.

**HIST 2630. History of Christian Traditions. 3 Credits.**

(same as REL\_ST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topics will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy.

**HIST 2800. Women in Indian History. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 2800). This course examines the role of women in Indian (South Asian) history, focusing on women in British India from the eighteenth century up to the Partition of 1947. While previous knowledge of South Asian history may be beneficial, it is not required for this course.

**HIST 2950. Sophomore Seminar. 3 Credits.**

This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary. Prerequisites: sophomore standing required; departmental consent required.

**HIST 3000. History of Religion in America to the Civil War. 3 Credits.**

(same as Religious Studies [REL\_ST] 3000). Studies major American religious traditions from the Age of Discovery to the Civil War, especially the evolution of religious practices and institutions and their influence upon American social, intellectual and political developments. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3010. Colonial America. 3 Credits.**

This course will examine major colonial American events from a cultural history standpoint. We will explore the ways in which the famous and not so famous shaped and were shaped by events of the seventeenth and eighteenth centuries and how these people understood the changing meaning of American liberty.

**HIST 3200. Black Freedom Movement, 1955-1973. 3 Credits.**

(same as Black Studies [BL\_STU] 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power. May be restricted to History majors only during pre-registration.

**HIST 3210. History of Religion in Post-Civil War America. 3 Credits.** (same as Religious Studies [REL\_ST] 3210). Surveys major American religious traditions from 1865 to the present. Focuses on the evaluation of religious practices and institutions and their interaction with and influence upon American social, intellectual and political developments. May be restricted to History majors only during pre-registration.

**HIST 3220. U.S. Women's Political History, 1880-Present. 3 Credits.** (same as Women's and Gender Studies [WGST] 3220). This course explores American women's engagement with American politics (broadly defined) over the course of the twentieth century. It addresses issues of political identity, organization, ideology, and division. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3230. Individualism and Success in Modern America, 1830-Present. 3 Credits.** This course explores changing notions of individualism and success in American culture during the 19th and 20th centuries. Standards defining achievement, gain, and happiness for the individual citizen have evolved over time, and we will examine a wide variety of sources - advice literature, essays, novels, historical texts, plays and movies, political and religious texts, social criticism - to analyze this broad evolution. The resulting insights into a variety of historical issues and values, problems and possibilities, promise to forge a deeper understanding of what it has meant to be a successful individual in the United States over the last two hundred years. May be restricted to History majors only during pre-registration.

**HIST 3400. Religious Biography: Black Religion. 3 Credits.** (same as Black Studies [BL\_STU] 3590). Studies black American religion through the biographies of representative and influential figures of the 19th and 20th centuries, including Nat Turner, W.E.B. Du Bois, and Marcus Garvey, M.L. King, Malcolm X. May be restricted to History majors only during pre-registration.

**HIST 3420. America's Environmental Experience. 3 Credits.** (same as Peace Studies [PEA\_ST] 3420). Team-taught analysis of American thought and action on physical environment during 19th-20th centuries. Relation between politics, economics, technological change, environmental quality; roles of science, law, regulatory agencies, grassroots action. May be restricted to History majors only during pre-registration.

**HIST 3430. Sex Radicals in U. S History. 3 Credits.** (same as Women and Gender Studies [WGST] 3430). Survey of the history of sexuality in the United States. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3510. The Ancient Greek World. 3 Credits.** Political and social institutions, intellectual life of Greek city-states to time of Alexander. May be restricted to History majors only during pre-registration.

**HIST 3520. The Roman World. 3 Credits.** Rise and development of Roman institutions, Rome's imperialism and culture through reign of Marcus Aurelius. May be restricted to History majors only during pre-registration.

**HIST 3530. Alexander the Great and the Hellenistic World. 3 Credits.** Alexander's conquest of the East to 323 B.C.; political, social, economic development of Hellenistic kingdoms from his death to 31 B.C. May be restricted to History majors only during pre-registration.

**HIST 3540. 20th Century Europe. 3 Credits.** Political, social, and economic development of Europe from 1900 to the present, with emphasis on the period between the two world wars. May be restricted to History majors only during pre-registration.

**HIST 3550. The Origins of Scientific Thought. 3 Credits.** This course will trace the evolution of Western science from its Egyptian-Babylonian roots to the "Copernican Revolution" of the mid-sixteenth century. Prerequisites: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3560. The Scientific Revolution: 1550-1800. 3 Credits.** This course covers the history of science, or natural philosophy, from late Renaissance to the beginnings of the "Darwinian Revolution." Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3570. European Women in the 19th Century. 3 Credits.** (same as Women's and Gender Studies [WGST] 3570). Examines the history of European women from 1750 to 1900. The course focuses on how industrialization, the French Revolution and nation-formation changed women's roles in the family, workplace and the state. Grading: exams, papers and discussions. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3580. Modern Italy, 1815 to the Present. 3 Credits.** Political, cultural and social history of Italy since 1815. Looks at how Unification, World War, Fascism, the Cold War, Student protests, the women's movement and the end of the USSR shaped contemporary Italy. May be restricted to History majors only during pre-registration.

**HIST 3590. The Early Middle Ages. 3 Credits.** This course will focus on the social, political, economic, and cultural development of Europe from roughly 300 to 1050. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3600. The Later Middle Ages. 3 Credits.** This course will focus on the social, political, economic, and cultural development of Europe from roughly 1050 to 1500. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3610. Ireland, 1100s to 1850. 3 Credits.** (same as Peace Studies [PEA\_ST] 3610). Ireland, from Conquest to Famine: Ireland's history as the first British Colony, from the conquests of the 1100s and 1500s-1600s to the Irish rebellion of 1798 and the Great Famine and mass emigration of 1845-50. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3611. Ireland, 1850-1923. 3 Credits.** (same as Peace Studies [PEA\_ST] 3611). Ireland, from Famine to Partition: Irish history from the Great Famine of 1845-50 to the revolutions of 1916-23 that brought partial independence from Britain but partitioned Ireland into two hostile and trouble states. May be restricted to History majors only during pre-registration.

**HIST 3612. Ireland, 1920-Present. 3 Credits.** (same as Peace Studies [PEA\_ST] 3612). Ireland, from Partition to the Present: After surveying the conflicts that led to Irish revolution and partition in 1916-23, the course focuses on the development of post partition Ireland and Northern Ireland, and on the violence that has scarred Northern Ireland since the 1960s. Prerequisites: History [HIST] 3610 and/or 3611 recommended. May be restricted to History majors only during pre-registration.

**HIST 3624. Comparative Approaches to Black Studies in History. 3 Credits.**

(same as BL\_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.

**HIST 3810. Imperial China. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3810). A survey of China under the Manchu Ch'ing dynasty. Within framework of the dynastic cycle, examines imperial rule, Chinese society, culture, art, internal rebellion, Western intrusion and modernization. May be restricted to History majors only during pre-registration.

**HIST 3820. Twentieth Century China. 3 Credits.**

History of China from Nationalist Revolution of 1911 to present. A problem-oriented course: special emphasis on Mao and Maoist ideology, social, literary and cultural history also receive attention. Prerequisites: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 3830. Chinese Women's History. 3 Credits.**

Historical analysis of Chinese women in family, community, ideology, and national politics from the Late Imperial period to the present. Prerequisites: sophomore standing or instructor's consent. May be restricted to History majors only during pre-registration.

**HIST 3850. Islam and the West. 3 Credits.**

This course provides a historical intellectual context for the raging debate on Islam and the West. It will discuss how Muslims conceived and reacted variously to the political and cultural challenge the West posed in the nineteenth and twentieth century. It will focus on the discourse on the reception of modernization in Islam. It will highlight the political and cultural energies invested by various Muslim elite communities to distinguish between modernization and Westernization. Islamic fundamentalism, the dominant Islamic expression of our time, will be usefully discussed in the context of this debate and praxis about modernization, authenticity, and Westernization. Prerequisite: junior/senior standing. May be restricted to History majors only during pre-registration.

**HIST 3860. History of Mexico. 3 Credits.**

Survey of Mexican history from Cortes to present day. May be restricted to History majors only during pre-registration.

**HIST 3870. Social Revolution in Latin America. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3870 and Sociology [SOCIO] 3870). Twentieth century social revolutions in selected Latin American countries. May be restricted to History majors only during pre-registration.

**HIST 3880. History of Caribbean America. 3 Credits.**

Comparative regional study of insular and mainland Caribbean nations. Emphasis on modern period. Independence; abolition of slavery; U.S. hegemony; economic, social, and political upheaval. May be restricted to History majors only during pre-registration.

**HIST 4000. Age of Jefferson. 3 Credits.**

Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions. May be restricted to History majors only during pre-registration.

**HIST 4001. Topics in History-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition.

**HIST 4004. Topics in History-Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition. May be restricted to History majors only during pre-registration.

**HIST 4010. The Age of Jackson. 3 Credits.**

This course will examine American Politics, society and culture in the 1820's, 1830's, and 1840's. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era, for better or worse. May be restricted to History majors only during pre-registration.

**HIST 4030. History of the Old South. 3 Credits.**

Study of the South to 1860. May be restricted to History majors only during pre-registration.

**HIST 4040. Houses Divided: Society and Politics in the Civil War Era. 3 Credits.**

(Same as Black Studies [BL\_STU] 4040) Houses Divided: Society and Politics in the Civil War Era examines the sectional crisis, the Civil War and Reconstruction through the lens of divided households. Considers the experience of soldiers and civilians, women and men, slaves and freed people. May be restricted to History majors only during pre-registration.

**HIST 4050. American Colonial History to 1760. 3 Credits.**

Study of colonial America; special emphasis on creation of a native American culture prior to 1760. May be restricted to History majors only during pre-registration.

**HIST 4055. Witchcraft in Seventeenth Century New England. 3 Credits.**

This course explores the social, cultural and intellectual aspects of witchcraft and witch-hunting in seventeenth century New England.

**HIST 4060. The Period of the American Revolution, 1760-1789. 3 Credits.**

Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789. May be restricted to History majors only during pre-registration.

**HIST 4070. Indians and Europeans in Early America. 3 Credits.**

A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada. Prerequisite: History [HIST] 1100 or equivalent. May be restricted to History majors only during pre-registration.

**HIST 4080. American Foreign Policy from Colonial Times to 1898. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4080). May be restricted to History majors only during pre-registration.

**HIST 4085. Special Problems in History. 1-99 Credit.**

Independent investigation leading to a paper or project.

**HIST 4100. American Cultural and Intellectual History to 1865. 3 Credits.**

Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics,

revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures. May be restricted to History majors only during pre-registration.

**HIST 4200. American Cultural and Intellectual History Since 1865. 3 Credits.**

Tensions and transformations in American culture to the present. Topics include: spiritual crisis in Christianity; rise of welfare state liberalism; socialist and feminist alternatives; literature and the arts. May be restricted to History majors only during pre-registration.

**HIST 4210. Origins of Modern America, 1877-1919. 3 Credits.**

Political, social, economic, and intellectual evolution of America into a modern society, 1877-1918. May be restricted to History majors only during pre-registration.

**HIST 4220. U.S. Society Between the Wars 1918-1945. 3 Credits.**

Detailed examination of American history from end of World War I to end of World War II. May be restricted to History majors only during pre-registration.

**HIST 4230. Our Times: United States Since 1945. 3 Credits.**

Detailed examination of American history from end of World War II to the present. May be restricted to History majors only during pre-registration.

**HIST 4240. History of the New South. 3 Credits.**

Study of the South since 1860. May be restricted to History majors only during pre-registration.

**HIST 4250. U.S. Foreign Relations, 1898-1945. 3 Credits.**

A history of American Foreign Policy from the Spanish American War to the end of World War II. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 4260. The Age of Ascendancy: U.S. Foreign Relations, 1945 - Present. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 4270. African-Americans in the Twentieth Century. 3 Credits.**

(same as Black Studies [BL\_STU] 4270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends. May be restricted to History majors only during pre-registration.

**HIST 4280. America in the Reagan Years. 3 Credits.**

Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over. May be restricted to History majors only during pre-registration.

**HIST 4310. Adoption, Child Welfare and the Family, 1850-Present. 3 Credits.**

(same as Women and Gender Studies [WGST] 4310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meaning of adoption since 1850; historical connections between adoption and poverty, family, gender race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption. May be restricted to History majors only during pre-registration.

**HIST 4400. History of American Law. 3 Credits.**

American law from English origins to present. Reviews common law, codification, legal reform movements, slavery law, administrative state,

formalism, legal realism, jurisprudential questions concerning rule of law. Prerequisites: History [HIST] 1100, 1200, or 1400. May be restricted to History majors only during pre-registration.

**HIST 4410. Introduction to U.S. Social History. 3 Credits.**

Study of daily life and the ways ordinary Americans experienced historical change. Considers such topics as work, leisure, family and community. Compares how people's experiences varied by region, class, gender, ethnicity, and race. May be restricted to History majors only during pre-registration.

**HIST 4415. African Americans and American Justice. 3 Credits.**

(same as Black Studies [BL\_STU] 4415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws. May be restricted to History majors only during pre-registration.

**HIST 4420. American Urban History. 3 Credits.**

Growth, development and implications of the city in American history; historical analysis of urban problems. May be restricted to History majors only during pre-registration.

**HIST 4430. The Great West in American History. 3 Credits.**

Historical development of major regions, with emphasis on response to environment, public land policy, role of government in economic and resource development, citizen action, and cultural pluralism. May be restricted to History majors only during pre-registration.

**HIST 4440. History of the American Environment. 3 Credits.**

A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects. May be restricted to History majors only during pre-registration.

**HIST 4470. Quantitative Methods in Historical Study. 3 Credits.**

Introduces quantitative approaches to the study of history. Emphasizes opportunities, limitations, and dangers involved in several common forms of quantitative study. Math Reasoning Proficiency Course. May be restricted to History majors only during pre-registration.

**HIST 4480. War Crimes and Genocide. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4480). This course will explore the development of international law, international consciousness, and U.S. Foreign policy on the two distinct but often related issues of war crimes and genocide during the late 19th and throughout the 20th centuries. May be restricted to History majors only during pre-registration.

**HIST 4500. Philip II and Alexander the Great of Macedonia. 3 Credits.**

Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period. Prerequisite: junior standing or instructor's consent. May be restricted to History majors only during pre-registration.

**HIST 4510. Crime and Punishment: Law in Classical Athens. 3 Credits.**

Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures. May be restricted to History majors only during pre-registration.

**HIST 4515. Power and Oratory in Ancient Greece. 3 Credits.**

Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC. May be restricted to History majors only during pre-registration.

**HIST 4530. The Roman Empire. 3 Credits.**

Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces. May be restricted to History majors only during pre-registration.

**HIST 4540. The Later Roman Empire. 3 Credits.**

Political, religious and cultural life in Late Antiquity, from the "soldier emperors," to the barbarian kingdoms and early Byzantium. May be restricted to History majors only during pre-registration.

**HIST 4550. Age of the Vikings. 3 Credits.**

Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement. Prerequisites: History [HIST] 1500, 1540, 1600 or 2560 recommended; junior standing required or instructor's consent. May be restricted to History majors only during pre-registration.

**HIST 4555. Medieval France. 3 Credits.**

This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasis on political and cultural developments. Junior Standing or consent of instructor required. Previous coursework in medieval history recommended.

**HIST 4560. The Crusades. 3 Credits.**

Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages. Prerequisites: junior standing or instructor's consent. May be restricted to History majors only during pre-registration.

**HIST 4570. Intellectual History of Europe, 17th and 18th Centuries. 3 Credits.**

The Enlightenment's attack on traditional Christian thought and values. Prerequisite: junior standing or departmental consent. May be restricted to History majors only during pre-registration.

**HIST 4580. Intellectual History of Europe, 19th and 20th Centuries. 3 Credits.**

Topics include: Romanticism, Darwin, Marx and Freud. Prerequisite: junior standing or departmental consent. May be restricted to History majors only during pre-registration.

**HIST 4610. Early Modern Britain, 1450-1688. 3 Credits.**

Study of English politics, society, economy, culture, and religion during primarily the Tudor and Stuart eras, from the establishment of the Tudor dynasty (1485) through the Glorious Revolution. Emphasis on social and religious history. Prerequisite: sophomore standing. May be restricted to History majors only during pre-registration.

**HIST 4620. Modern England. 3 Credits.**

Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change. May be restricted to History majors only during pre-registration.

**HIST 4625. The Idea of Social Evolution in the Age of Darwin. 3 Credits.**

The purpose of this course is to explore the impact of the Darwin revolution in the life sciences on ideas about social evolution, from the Victorian Era to the present.

**HIST 4630. The Age of the Renaissance. 3 Credits.**

Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The "Renaissance problem." May be restricted to History majors only during pre-registration.

**HIST 4640. The Age of the Reformation. 3 Credits.**

State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations. May be restricted to History majors only during pre-registration.

**HIST 4650. Revolutionary France, 1789-1815. 3 Credits.**

Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France. Prerequisite: junior standing or departmental consent. May be restricted to History majors only during pre-registration.

**HIST 4660. European Women in the 20th Century. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community. Prerequisite: junior standing. May be restricted to History majors only during pre-registration.

**HIST 4670. Germany in the Nineteenth Century. 3 Credits.**

Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism. May be restricted to History majors only during pre-registration.

**HIST 4680. Germany in the Twentieth Century. 3 Credits.**

Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany. May be restricted to History majors only during pre-registration.

**HIST 4700. Imperial Russia, 1682-1825. 3 Credits.**

Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I. May be restricted to History majors only during pre-registration.

**HIST 4710. The Russian Revolution. 3 Credits.**

Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed. May be restricted to History majors only during pre-registration.

**HIST 4800. Modern Japan and China--A Comparative Survey. 3 Credits.**

A structured, comparative examination of the histories and cultures of Japan and China, from the mid-19th century to the present. Orientation towards broad social, intellectual and political developments. May be restricted to History majors only during pre-registration.

**HIST 4840. History of the Mongols. 3 Credits.**

In the 13th century, the Mongols went from warring tribes to the largest Eurasian empire in history. This course examines the Mongol tribes, Chinggis Khan's unification of the tribes, the Mongols rapid military victories across Eurasian and their equally rapid decline. May be restricted to History majors only during pre-registration.

**HIST 4850. Traversing the Muslim World. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive seminar-style course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo. Prerequisites: restricted to juniors and seniors only. May be restricted to History majors only during pre-registration.

**HIST 4860. Indian Army as Colonial Army. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4860). This writing intensive seminar-style course examines how the Indian Army acted as a colonial army in the British Empire, including Africa, the Boxer Rebellion, and the World Wars. Focus is on the role of the Indian Army, impact of the Sepoy Mutiny, and martial race ideology. Prerequisites: restricted to juniors and seniors only. May be restricted to History majors only during pre-registration.

**HIST 4870. Southeast Asia Since the Eighteenth Century. 3 Credits.**

The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged. May be restricted to History majors only during pre-registration.

**HIST 4880. Chinese Migration Modern Times. 3 Credits.**

This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective activities. May be restricted to History majors only during pre-registration.

**HIST 4940. Internship in History. 3 Credits.**

Professional training in history and archive-related fields. Prerequisites: History Department Area of Concentration; junior or senior standing; departmental consent. Graded on S/U basis only.

**HIST 4960. Special Readings in History. 1-99 Credit.**

Individual work, with conferences adjusted to needs of student.

**HIST 4970. Undergraduate Seminar in Third World History. 3 Credits.**

Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion. Prerequisite: junior standing, departmental consent.

**HIST 4971. Undergraduate Seminar in European History. 3 Credits.**

Readings in problems in European history with reports and discussion. Prerequisite: junior standing, departmental consent.

**HIST 4972. Undergraduate Seminar in American History. 3 Credits.**

Readings in selected problems in American history with reports and discussion on selected topics. Prerequisite: junior standing, departmental consent.

**HIST 4980. Undergraduate Thesis in History. 3 Credits.**

Individually directed research leading to a senior thesis. Prerequisite: senior standing and departmental consent.

**HIST 4981. Undergraduate Thesis in History. 3 Credits.**

Continuation of History [HIST] 4980. Prerequisite: senior standing and departmental consent.

**HIST 4995. Honors Thesis in History. 3 Credits.**

Research and completion of the thesis required for graduation with Honors in History. Prerequisite: departmental consent.

**HIST 4996. Honors Thesis in History. 3 Credits.**

Continuation of History [HIST] 4995. Prerequisite: departmental consent.

**HIST 7000. Age of Jefferson. 3 Credits.**

Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions. Prerequisite: graduate standing.

**HIST 7004. Topics in History - Social Science. 3 Credits.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Graduate students will be expected to complete additional reading and writing assignments commiserate with graduate level course requirements. Prerequisite: departmental consent. May be repeated to maximum of 6 hours.

**HIST 7010. The Age of Jackson. 3 Credits.**

This course will examine American politics, society and culture in the 1820's, 1830's, and 1840's. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era, for better or worse. Graduate Standing Required.

**HIST 7020. United States History from 1800-1860. 3 Credits.**

American history from the Jeffersonian "revolution" in 1800 to the election of 1860 focuses on major discussion topics including the War of 1812, Jacksonian democracy, the growth of slavery, westward expansion, reform movements, and the coming of the Civil War. Prerequisite: graduate standing.

**HIST 7030. History of the Old South. 3 Credits.**

Study of the South to 1860. Prerequisite: graduate standing.

**HIST 7040. Houses Divided: Society and Politics in the Civil. 3 Credits.**

All major aspects of the period considered; rivalry between nationalizing and sectionalizing forces emphasized. Prerequisite: graduate standing.

**HIST 7050. American Colonial History to 1760. 3 Credits.**

Study of colonial America; special emphasis on creation of a native American culture prior to 1760. Prerequisite: graduate standing.

**HIST 7060. The Period of the American Revolution, 1760-1789. 3 Credits.**

Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789. Prerequisite: graduate standing.

**HIST 7070. Indians and Europeans in Early America. 3 Credits.**

A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada. Prerequisite: graduate standing and History [HIST] 1100 or equivalent.

**HIST 7080. American Foreign Policy from Colonial Times to 1898. 3 Credits.**

(same as Peace Studies [PEA\_ST] 7080).

**HIST 7085. Problems in History. 1-99 Credit.**

(same as South Asia Studies [S\_A\_ST] 8085). Individual work not leading to dissertation. Prerequisite: graduate standing and instructor's consent.

**HIST 7100. American Cultural and Intellectual History to 1865. 3 Credits.**

Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures. Prerequisite: graduate standing.

**HIST 7200. American Cultural and Intellectual History Since 1865. 3 Credits.**

Tensions and transformations in American culture to the present. Topics include: spiritual crisis in Christianity; rise of welfare state liberalism;

socialist and feminist alternatives; literature and the arts. Prerequisite: graduate standing.

**HIST 7210. Origins of Modern America, 1877-1919. 3 Credits.**

Political, social, economic, and intellectual evolution of America into a modern society, 1877-1918. Prerequisite: graduate standing.

**HIST 7220. U.S. Society Between the Wars 1918-1945. 3 Credits.**

Detailed examination of American history from end of World War I to end of World War II. Prerequisite: graduate standing.

**HIST 7230. Our Times: United States Since 1945. 3 Credits.**

Detailed examination of American history from end of World War II to the present. Prerequisite: graduate standing.

**HIST 7240. History of the New South. 3 Credits.**

Study of the South since 1860. Prerequisite: graduate standing.

**HIST 7250. U.S. Foreign Relations, 1898-1945. 3 Credits.**

A history of American Foreign Policy from the Spanish American War to the end of World War II. Prerequisite: graduate standing.

**HIST 7260. The Age of Ascendancy: U.S. Foreign Relations, 1945-Present. 3 Credits.**

(same as Peace Studies [PEA\_ST] 7260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy. Prerequisite: graduate standing.

**HIST 7270. African-Americans in the Twentieth Century. 3 Credits.**

(same as Black Studies [BL\_STU] 7270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends. Prerequisite: graduate standing.

**HIST 7280. America in the Reagan Years. 3 Credits.**

Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.

**HIST 7310. Adoption Child Welfare and the Family, 1850-present. 3 Credits.**

(same as Women and Gender Studies [WGST] 7310) This interdisciplinary U.S. history course will address topics such as: changing legal and social meanings of adoption since 1850; historical connections between adoption and poverty, family, gender, race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption. Graduate standing required.

**HIST 7410. Introduction to U.S. Social History. 3 Credits.**

Study of daily life and the ways ordinary Americans experienced historical change. Considers such topics as work, leisure, family and community. Compares how people's experiences varied by region, class, gender, ethnicity, and race. Prerequisite: graduate standing.

**HIST 7415. African Americans and American Justice. 3 Credits.**

(same as Black Studies [BL\_STU] 7415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws. Graduate standing required.

**HIST 7420. American Urban History. 3 Credits.**

Growth, development and implications of the city in American history; historical analysis of urban problems. Prerequisite: graduate standing.

**HIST 7430. The Great West in American History. 3 Credits.**

Historical development of major regions, with emphasis on response to environment, public land policy, role of government in economic and

resource development, citizen action, and cultural pluralism. Prerequisite: graduate standing.

**HIST 7440. History of the American Environment. 3 Credits.**

A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects. Prerequisite: graduate standing.

**HIST 7470. Quantitative Methods in Historical Study. 3 Credits.**

Introduces quantitative approaches to the study of history. Emphasizes opportunities, limitations, and dangers involved in several common forms of quantitative study. Prerequisite: graduate standing.

**HIST 7480. War Crimes and Genocide. 3 Credits.**

This course will explore the development of international law, international consciousness, and U.S. foreign policy on the two distinct but often related issues of war crimes and genocide during the late 19th and throughout the 20th centuries.

**HIST 7500. Philip II and Alexander the Great of Macedonia. 3 Credits.**

Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period. Prerequisite: graduate standing or instructor's consent.

**HIST 7510. Crime and Punishment: Law in Classical Athens. 3 Credits.**

Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures. Prerequisites: graduate standing.

**HIST 7515. Power and Oratory in Ancient Greece. 3 Credits.**

Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC. Prerequisites: graduate standing required; instructor's consent.

**HIST 7530. The Roman Empire. 3 Credits.**

Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces. Prerequisite: graduate standing.

**HIST 7540. The Later Roman Empire. 3 Credits.**

Political, religious and cultural life in Late Antiquity, from the "soldier emperors," to the barbarian kingdoms and early Byzantium. Prerequisite: graduate standing.

**HIST 7550. Age of the Vikings. 3 Credits.**

Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement. Prerequisites: History [HIST] 1500, 1540, 1600 or 2560 recommended; graduate standing or instructor's consent.

**HIST 7555. Medieval France. 3 Credits.**

This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasize on political and cultural developments. Graduate standing required, consent of instructor required.

**HIST 7560. The Crusades. 3 Credits.**

Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages. Prerequisites: graduate standing or instructor's consent.

**HIST 7570. Intellectual History of Europe, 17th and 18th Centuries. 3 Credits.**

The Enlightenment's attack on traditional Christian thought and values.  
Prerequisite: graduate standing.

**HIST 7580. Intellectual History of Europe, 19th and 20th Centuries. 3 Credits.**

Topics include: Romanticism, Darwin, Marx and Freud. Prerequisite: graduate standing.

**HIST 7610. Early Modern Britain, 1450-1688. 3 Credits.**

Study of English politics, society, economy, culture, and religion during primarily the Tudor and Stuart eras, from the establishment of the Tudor dynasty (1485) through the Glorious Revolution. Emphasis on social and religious history. Prerequisite: graduate standing.

**HIST 7620. Modern England. 3 Credits.**

Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change. Prerequisite: graduate standing.

**HIST 7630. The Age of the Renaissance. 3 Credits.**

Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The "Renaissance problem." Prerequisite: graduate standing.

**HIST 7640. The Age of the Reformation. 3 Credits.**

State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations. Prerequisite: graduate standing.

**HIST 7650. Revolutionary France, 1789-1851. 3 Credits.**

Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France. Prerequisite: graduate standing.

**HIST 7660. European Women in the 20th Century. 3 Credits.**

(same as Women's and Gender Studies [WGST] 7660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community. Prerequisite: graduate standing.

**HIST 7670. Germany in the Nineteenth Century. 3 Credits.**

Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism. Prerequisite: graduate standing.

**HIST 7680. Germany in the Twentieth Century. 3 Credits.**

Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany. Prerequisite: graduate standing.

**HIST 7700. Imperial Russia, 1682-1825. 3 Credits.**

Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I. Prerequisite: graduate standing.

**HIST 7710. The Russian Revolution. 3 Credits.**

Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed. Prerequisite: graduate standing.

**HIST 7800. Modern Japan and China--A Comparative Survey. 3 Credits.**

A structured, comparative examination of the histories and cultures of Japan and China, from the mid-19th century to the present. Orientation towards broad social, intellectual and political developments. Prerequisite: graduate standing.

**HIST 7840. History of the Mongols. 3 Credits.**

In the 13th century, the Mongols went from warring tribes to the largest Eurasian empire in history. This course examines the Mongol tribes, Chinggis Khan's unification of the tribes, the Mongols rapid military victories across Eurasia and their equally rapid decline.

**HIST 7850. Traversing the Muslim World. 3 Credits.**

The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

**HIST 7860. Indian Army as Colonial Army. 3 Credits.**

This writing intensive discussion-based course examines how the Indian Army acted as a colonial army in the British Empire, including Africa, the Boxer Rebellion, and the World Wars. Focus is on the role of the Indian Army, impact of the Sepoy Mutiny, and martial race ideology.

**HIST 7870. Southeast Asia Since the Eighteenth Century. 3 Credits.**

The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged. Prerequisite: graduate standing required.

**HIST 7880. Chinese Migration in Modern Times. 3 Credits.**

This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective activities. Graduate Standing Required.

**HIST 8000. Studies in American Colonial History. 3 Credits.**

Readings in American history from beginning of English settlements to adoption of the Constitution. May be repeated to a maximum of 6 hours.

**HIST 8001. Seminar in the History of Colonial America. 3 Credits.**

Directed research in the colonial and revolutionary period of American history. May be repeated to a maximum of 6 hours.

**HIST 8004. Topics in History-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: graduate standing, and department consent. May be repeated to maximum of 6 hours.

**HIST 8010. Studies in American Religious History, 1750-1850. 3 Credits.**

This class will examine important ideas and trends in the field, with an emphasis on popular religious movements. This is a reading-based seminar, revolving around discussion of influential recent books. May be repeated to a maximum of 6 hours.

**HIST 8015. Seminar in American Religious History. 3 Credits.**

The purpose of this course is for students to write an original work of scholarship, such as might be publishable in an academic journal or serve as a dissertation or book chapter. The field is open to topics in American religious history, including the social, cultural, political and

intellectual history of American religion. Graded on A/F basis only.  
Graduate standing required.

**HIST 8020. Seminar in the National Period of United States History. 3 Credits.**

Directed research in the period 1787-1861. May be repeated to a maximum of 6 hours.

**HIST 8021. Studies in the Age of the Federalists and the Jeffersonians. 3 Credits.**

Directed readings in American history from the Constitution to the election of Jackson; class periods devoted to critical evaluation. May be repeated to a maximum of 6 hours.

**HIST 8022. Studies in the Age of Jackson 1824-1850. 3 Credits.**

Continuation of History 8021, from election of Jackson to Civil War. May be repeated to a maximum of 6 hours.

**HIST 8030. Studies in Sectional Controversy, Civil War and Reconstruction. 3 Credits.**

Directed readings and discussions of major issues in the period of national unification of the United States, from 1850 through 1877. May be repeated to a maximum of 6 hours.

**HIST 8031. Seminar in United States Sectionalism, Civil War & Reconstruction. 3-12 Credit.**

Directed original research on political and related topics of the period 1848-1877. May be repeated to a maximum of 6 hours.

**HIST 8085. Problems in History. 1-99 Credit.**

(same as South Asia Studies [S\_A\_ST] 8085). Individual work not leading to dissertation. Prerequisite: instructor's consent.

**HIST 8089. Masters Research in History. 1-99 Credit.**

Work equal to research done for a dissertation, but not leading to thesis. Prerequisite: instructor's consent.

**HIST 8090. Masters Research in History. 1-99 Credit.**

Graded on a S/U basis only.

**HIST 8210. Studies in Recent United States History. 3 Credits.**

Critical evaluation of writing in American history in period 1929-present. May be repeated to a maximum of 6 hours.

**HIST 8211. Seminar in Recent United States History. 1-12 Credit.**

Advanced seminar in American history from 1929 to present. May be repeated to a maximum of 12 hours.

**HIST 8220. Studies in American Religious History, 1850-2000. 3 Credits.**

The purpose of this course is to discuss important ideas and trends in the history of American religion from about 1850-2000. This period is currently one of the richest fields in American historical scholarship, and this is particularly the case for American religious history. Prerequisite: graduate standing required; consent required. Graded on A/F basis only.

**HIST 8400. Studies in U.S. Women's History. 3 Credits.**

Reading, discussion, and analysis of the historiography of the field. May be repeated to a maximum of 6 hours.

**HIST 8401. Seminar in U.S. Women's History. 3 Credits.**

Directed research and writing in American women's history. May be repeated to a maximum of 6 hours.

**HIST 8405. Studies in Gender. 3 Credits.**

Studies in recent research material focused on the analysis of the intersections of gender, race and class in particular times and places. May be repeated to a maximum of 6 hours.

**HIST 8410. Independent Readings for History Ph.D. Comprehensive Examination. 1-99 Credit.**

Independent readings for Ph.D. Comprehensives. Open only to graduate students formally admitted to candidacy for Ph.D. in history.

**HIST 8415. Studies in African-American History. 3 Credits.**

(same as Black Studies [BL\_STU] 8415). Readings on selected topics in African-American history from 1619 to the present, with emphasis on conflicting interpretations. May be repeated to a maximum of 6 hours.

**HIST 8416. Seminar in African-American History. 3 Credits.**

(same as Black Studies [BL\_STU] 8416). Directed research in selected topics in African-American history. May be repeated to a maximum of 6 hours.

**HIST 8425. Seminar in United States Immigration History. 3 Credits.**

The course will focus on historiography of American immigration, mainly European immigrants during 1820-1920. Special attention given to books and articles published in the past 25 years. May be repeated to a maximum of 6 hours.

**HIST 8432. Studies in Rural Social History of the United States. 3 Credits.**

This course surveys the historiography of rural social history of the United States using a comparative regional perspective and presenting a chronological overview of the nineteenth and twentieth centuries.

**HIST 8435. Seminar in American Cultural and Intellectual History. 1-12 Credit.**

Directed research and writing in American cultural and intellectual history. May be repeated to maximum of 6 hours.

**HIST 8436. Studies in American Cultural and Intellectual History. 3 Credits.**

Reading and discussion designed to promote critical understanding of theoretical and historiographical problems in American cultural and intellectual history. May be repeated to maximum of 6 hours.

**HIST 8440. Studies in American Western and Environmental History. 3 Credits.**

Readings, class discussion, and written analysis on topics in American Western and environmental history from early settlement to the present. May be repeated to a maximum of 6 hours.

**HIST 8441. Seminar in American Western and Environmental History. 3-6 Credit.**

Directed research in problems in American Western and environmental history. May be repeated to maximum of 6 hours.

**HIST 8445. Studies in World Environmental History. 3 Credits.**

Readings explore relationship between human agency and environmental change over the courses of world history and on various continents. Prerequisite: graduate standing. May be repeated to a maximum of 6 hours.

**HIST 8450. Studies in the History of the South. 3 Credits.**

Group readings and appraisal of controversial interpretations in Southern history. May be repeated to a maximum of 6 hours.

**HIST 8455. Studies in the History of American Diplomacy. 3 Credits.**

Readings in evolution of American diplomacy from the Revolution to present. May be repeated to a maximum of 6 hours.

**HIST 8456. Seminar in Recent American Diplomatic Problems. 3 Credits.**

Directed research in problems of 20th-century American diplomacy. May be repeated to a maximum of 6 hours.

**HIST 8480. Historiography. 3 Credits.**

Acquaints graduate students with examples of modern historical thought and practice by examining various conceptual approaches to the study of history. Departmental consent required. May be repeated to a maximum of six hours.

**HIST 8510. Seminar in Ancient History. 3 Credits.**

Readings and research on selected problems in ancient history. May be repeated to a maximum of 6 hours.

**HIST 8511. Studies in Ancient History. 3 Credits.**

Reading of standard works and recent scholarship on selected problems in ancient history. May be repeated a maximum of 6 hours.

**HIST 8531. Studies in English History. 3 Credits.**

Readings in historical literature covering period since 1660; particular reference to new interpretations of political, social developments. May be repeated to a maximum of 6 hours.

**HIST 8540. Seminar in Medieval Culture. 3 Credits.**

Investigates cultural developments in the medieval period. May be repeated to a maximum of 6 hours.

**HIST 8541. Studies in Medieval History. 3 Credits.**

Readings in medieval history and historiography with emphasis on current scholarship. May be repeated to a maximum of 6 hours.

**HIST 8542. Seminar in Medieval Paleography. 3 Credits.**

This course provides an introduction to medieval and Renaissance manuscript-sources and their use as research-tools in a fairly wide variety of sub-fields (e.g., archival study, scholastic text-analysis, vernacular literature). Graduate Standing Required. Department consent and competence in Latin grammar required. Graded A-F only.

**HIST 8550. Seminar in the Renaissance and Reformation. 3 Credits.**

Analyzes problems of the period 1300-1600; emphasizes intellectual history. May be repeated to a maximum of 6 hours.

**HIST 8551. Studies in Early Modern European History. 3 Credits.**

Readings in historical classics and current scholarship on Renaissance, Reformation, Baroque, and Enlightenment periods. Problem of modernity. May be repeated to a maximum of 6 hours.

**HIST 8570. Studies in Modern European History. 3 Credits.**

Readings in recent research material on selected topics. May be repeated to a maximum of 6 hours.

**HIST 8800. Studies in Latin American History. 1-6 Credit.**

Readings in standard and recent historical literature, with critical discussion of reports on special topics. May be repeated to a maximum of 6 hours.

**HIST 8820. Studies on India in World History. 3 Credits.**

This course is designed to introduce graduate students to major themes of South Asian history as well as to show how South Asian history may be integrated into world history survey course. Graduate standing required, consent of department required. Graded on A/F basis only.

**HIST 8830. Studies in Muslim History. 3 Credits.**

This course is designed to introduce graduate students to major themes in Muslim history, to supplement their current studies, and to provide a background necessary to teach surveys in world history, the modern

world, or interdisciplinary studies. Graduate standing required, consent of department required. Graded on A/F basis only.

**HIST 9089. PhD Research in History. 1-99 Credit.**

Work equal to research done for a dissertation, but not leading to thesis. Prerequisite: instructor's consent.

**HIST 9090. PhD Research in History. 1-99 Credit.**

Graded on a S/U basis only.

## Honors-General (GN\_HON)

---

**GN\_HON 1010H. Career Explorations. 1 Credit.**

Colloquia in which experts from both the University and the Columbia communities discuss their specialties and answer students' questions on the nature and current status of their disciplines. Open primarily to freshmen. Graded on an S/U basis only. Honors eligibility required.

**GN\_HON 1030H. Honors Discussion Groups. 1-2 Credit.**

Informal discussion between students and faculty on various academic topics. Honors eligibility required. Graded S/U only.

**GN\_HON 1050H. Honors Seminar. 1-3 Credit.**

Freshman-sophomore seminar offering a small group opportunity to write about and discuss basic works chosen by instructor. Honors eligibility required.

**GN\_HON 1070H. Honors Elective Colloquium. 2-3 Credit.**

Honors eligibility required.

**GN\_HON 1080H. Honors Internship. 1-3 Credit.**

Independent study under the supervision of a regular faculty member. Prerequisite: written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required.

**GN\_HON 1090H. Independent Study-Service Learning. 1-3 Credit.**

Students participate in community service activities, attend regular meetings, conduct research, submit four journals, a short bibliography and a research paper on their service in the community. Honors eligibility required.

**GN\_HON 2010. Honors Tutorial. 1-3 Credit.**

Small group of students (2-5) engage in collaborative work under faculty guidance. The focus is determined in advance by a faculty member and shaped through discussion with the enrolled students. Prerequisite: instructor's consent. Course may be repeated for credit.

**GN\_HON 2010H. Honors Tutorial. 1-3 Credit.**

Small group of students (2-5) engage in collaborative work under faculty guidance. The focus is determined in advance by a faculty member and shaped through discussion with the enrolled students. Course may be repeated for credit. Prerequisite: instructor's consent. Honors eligibility required.

**GN\_HON 2015H. Theory and Practice of Tutoring Writing Seminar. 3 Credits.**

(same as English [ENGLSH] 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writery tutors in future semesters. Prerequisites: English [ENGLSH] 1000; instructor's consent.

**GN\_HON 2021. MU Community Engagement Project. 2-3 Credit.**

The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections

include tutoring and mentoring, public health policy and outreach, international services, and community development.

**GN\_HON 2021H. MU Community Engagement Project - Honors. 2-3 Credit.**

The MU Community Engagement Project offers students the opportunity to engage in academically-based community services; project sections include tutoring and mentoring, public health policy and outreach, international services, and community development. Honors eligibility required.

**GN\_HON 2022. HCCIP Head Start. 3 Credits.**

Students provide individualized attention to high-risk, low-income pre-school children 3-5 hours per week directing enrichment activities.

**GN\_HON 2022H. HCCIP Head Start - Honors. 3 Credits.**

Students provide individualized attention to high-risk, low-income pre-school children 3-5 hours per week directing enrichment activities. Honors eligibility required.

**GN\_HON 2024. HCCIP Public Health. 3 Credits.**

HCCIP Public Health course enhances and supports the service learning experience by exploring areas of public health and volunteerism for students considering health-related careers. Students work 3-5 hours per week on service projects.

**GN\_HON 2024H. HCCIP Public Health - Honors. 3 Credits.**

HCCIP Public Health course enhances and supports the service-learning experience by exploring areas of public health and volunteerism for students considering health-related careers. Students work 3-5 hours per week on service projects. Honors eligibility required.

**GN\_HON 2027. Honors College Community Involvement Program. 3 Credits.**

Course offers students the opportunity to become involved in the community, study service ethics, citizenship and leadership, and participate in the FIG program.

**GN\_HON 2027H. Honors College Community Involvement Program - Honors. 3 Credits.**

Course offers students the opportunity to become involved in the community, study service ethics, citizenship and leadership, and participate in the FIG program. Honors eligibility required.

**GN\_HON 2029. HCCIP Literacy Project. 3 Credits.**

A service-learning outreach program designed to assist members of the community and offer students problem solving and leadership. Graded on A/F basis only.

**GN\_HON 2029H. HCCIP Literacy Project - Honors. 3 Credits.**

A service-learning outreach program designed to assist members of the community and offer students problem solving and leadership. Graded on A/F basis only. Honors eligibility required.

**GN\_HON 2085H. Honors Problems. 1-3 Credit.**

Independent study under the supervision of a regular faculty member. Prerequisite: written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required.

**GN\_HON 2111H. The Ancient World. 3 Credits.**

The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark. Honors eligibility required.

**GN\_HON 2112H. The Middle Ages and the Renaissance. 3 Credits.**

The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras. Honors eligibility required.

**GN\_HON 2113H. The Early Modern World: The 17th-19th Centuries Enlightenment. 3 Credits.**

The third segment of the Sequence treats the cultural developments in the West from the Baroque to the Enlightenment through Romanticism. The works of Cervantes, Descartes, Milton, Voltaire, Kant, Austen, Goethe, and Dickinson are among those studied. The music and visual arts of these periods are also included. Honors eligibility required.

**GN\_HON 2114H. The Modern Era. 3 Credits.**

The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period. Honors eligibility required.

**GN\_HON 2117H. The Emerging Canons of the Americas. 3 Credits.**

Students will explore the issues of canonicity and the emerging works of Native American, Caribbean, Afro-Latin American, Asian American and Latino writers comparatively on the conceptions of colonialism, power and resistance, cultural and racial identity, hybridity, tradition and change. Honors eligibility required.

**GN\_HON 2120H. Honors Humanities Colloquium. 2-3 Credit.**

Honors eligibility required.

**GN\_HON 2230H. Honors Social Science Colloquium. 2-3 Credit.**

Honors eligibility required.

**GN\_HON 2243H. Human Sciences Sequence I: Personal Identity. 3 Credits.**

Part of the Honors College sequence on human nature, this course focuses on behavioral scientific studies of personal identity. Will draw on classic and modern works that investigate the self, its development, and its relationships to others. Honors eligibility required.

**GN\_HON 2244H. Human Sciences Sequence II: Identity in Groups. 3 Credits.**

Part of the Honors College sequence on human nature, this course focuses on behavioral scientific studies of identity in relation to groups. Will draw on classic and modern works that examine how people identify and are identified with groups, and the effects of those processes. Honors eligibility required.

**GN\_HON 2245H. Human Sciences Sequence III: Identity in Modern Nations. 3 Credits.**

Part of the Honors College sequence on human nature, this course focuses on social scientific studies of modern society and the individual's role in it. Will draw on classic and modern works that investigate the rise of modern society and its influences on its members. Honors eligibility required.

**GN\_HON 2246H. Human Sciences Sequence IV: Globalization and Social Identity. 3 Credits.**

Part of the Honors College sequence on human nature, this course focuses on social scientific studies of the forces of globalization and

their influences on the individual. Will draw on classic and modern works that investigate the interdependencies of modern global society. Honors eligibility required.

**GN\_HON 2310H. Honors Behavioral Science Colloquium. 2-3 Credit.**  
Honors eligibility required.

**GN\_HON 2450H. Hnrs Biological, Physical, Math (Computer Sci) Science Colloquium. 2-3 Credit.**  
Honors eligibility required.

**GN\_HON 2461H. Environment: From Molecules to the Cosmos. 3 Credits.**

Inquiry-based exploration of how the world was made, environments formed, life evolved, and how it works together to sustain life on Earth. Graded on A/F basis only. Honors eligibility required.

**GN\_HON 2462H. Energy: From Particles to Civilizations. 3 Credits.**  
Inquiry based exploration of energy, what it is, how it is used, and how it sustains our life on Earth. Graded on A/F basis only. Honors eligibility required.

**GN\_HON 2950H. Honors Preceptorship. 2-3 Credit.**  
Active participation in a professor's research for up to six hours a week. Prerequisite: written description of the work with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required.

**GN\_HON 3028. Civic Leaders Internship. 3-6 Credit.**  
Students in any major may enroll in 3-6 credit hour internships with state government offices and agencies. Prerequisite: consent and application required.

**GN\_HON 3028H. Civic Leaders Internship - Honors. 3-6 Credit.**  
Students in any major may enroll in 3-6 credit hour internships with state government offices and agencies. Prerequisite: consent and application required. Honors eligibility required.

**GN\_HON 3070H. Honors Electives Colloquium. 2-3 Credit.**  
Honors eligibility required.

**GN\_HON 3120H. Honors Humanities Colloquium. 2-3 Credit.**  
Prerequisite: junior standing. Honors eligibility required.

**GN\_HON 3210H. Honors Behavioral Colloquium. 2-3 Credit.**  
Prerequisite: junior standing. Honors eligibility required.

**GN\_HON 3230H. Honors Social Science Colloquium. 2-3 Credit.**  
Prerequisite: junior standing required. Honors eligibility required.

**GN\_HON 3450H. Honors Biological, Physical, Math (Computer Sci.) Science Colloquium. 2-3 Credit.**  
Prerequisite: junior standing required. Honors eligibility required.

**GN\_HON 4070. Advanced Honors Elective Colloquium. 2-3 Credit.**  
These courses may be cross-listed with courses in graduate or professional programs or one-of-a-kind courses which may have no other more appropriate academic home. Interdisciplinary or experimental courses are encouraged. Limited to juniors and seniors.

**GN\_HON 4950H. Honors Preceptorship. 2-3 Credit.**  
Active participation in a professor's research for up to six hours a week. Prerequisite: written description of the work with professor's approval submitted in advance to Director of the Honors College. Prerequisite: junior standing required. Honors eligibility required.

## Hospitality Management (HSP\_MGMT)

---

**HSP\_MGMT 1043. Introduction to Hospitality Management. 3 Credits.**

A basic course in hospitality management operations. Review development of the industry, current trends and an analysis of the various types of operations in the hospitality industry. Restricted to students with 75 hours or less.

**HSP\_MGMT 1133. Hospitality Law. 3 Credits.**

Law as it relates to the hospitality field; theories of recovery/liability; lawsuits and their prevention; familiarization with legal arguments, lawyers, litigation and threats of litigation. May be taken concurrently with HSP\_MGMT 1043.

**HSP\_MGMT 1505. Fundamentals of Sport Venue Management. 3 Credits.**

Familiarization of the history of sport venues, types of sport venues, governance, the operations of various departments commonly found in a sport venue, design and flow of sport venues, and the concept of the Total Guest Experience. Graded A-F only.

**HSP\_MGMT 1723. Private Club Management and Operation. 3 Credits.**

Clubs as a legal entity. Organizational structure, creed, charter, and by-laws; athletic activities, master and club calendars; food and beverage departments, budgets, taxes, and the future of clubs are discussed. Field trips to local area clubs are planned.

**HSP\_MGMT 1991. Food Service Sanitation Management. 1 Credit.**

Basic principles of food service sanitation safety. Meets Standards for National Sanitation Certification. Graded on S/U basis only.

**HSP\_MGMT 1995. Culinary Fundamentals. 3 Credits.**

Basic principles of food purchasing and selection, scientific principals and culinary fundamentals of food products in commercial food service operations. Prerequisite: Hospitality Management [HSP\_MGMT] 1991.

**HSP\_MGMT 2123. Food Service Operational Fundamentals. 2 Credits.**

A basic training and directed work experience in selected entry-level positions, allowing students to develop skills sets in service, point of sale systems, food production, inventory and storage, performance evaluation, professionalism, and positive work relations in both the "Front" and "Back of House". Prerequisites: HSP\_MGMT 1991; concurrent enrollment with HSP\_MGMT 2143 for Food and Beverage Management Emphasis students.

**HSP\_MGMT 2143. Introduction to Food Production and Service Fundamental. 2 Credits.**

This course provides students with information on the basic principles of effective food production and service management. The primary focus is on service management, menu planning, development and maintenance of quality standards throughout the food manufacturing cycle, and determination of recipe and total food costs. Prerequisites: HSP\_MGMT 1043; concurrent enrollment with HSP\_MGMT 2123 for Food and Beverage Management Emphasis students.

**HSP\_MGMT 2385. Problems in Hospitality Management. 1-99 Credit.**

Supervised study in a specialized phase of hospitality management. Prerequisite: Hospitality Management major and departmental consent. Open only to Freshman and Sophomore students.

**HSP\_MGMT 2401. Topics in Hospitality Management. 1-99 Credit.**

Instruction in specific subject matter areas in the field of hospitality management. Open only to Freshman and Sophomore students. Instructor's consent required.

**HSP\_MGMT 2550. Practicum in Sport Venue Management. 3 Credits.**

200 hours of practical experience in a minimum of 4 components/functions of a sport venue. Prerequisite: HSP\_MGMT 1505. Restricted to Hospitality Management Majors only. Graded S/U basis only.

**HSP\_MGMT 3153. Food Service Operations Management. 3 Credits.**

In-depth study of management of systems/techniques utilized to control food, beverage and labor costs in hospitality industry with emphasis on computer applications/problems solving. Prerequisites: HSP\_MGMT 1043, HSP\_MGMT 2143.

**HSP\_MGMT 3193. Hotel Organization and Structure. 3 Credits.**

Analysis of the operating and functional departments in a modern hotel and the study of the interrelationships among the departments; five-day off-campus seminar. Prerequisites: HSP\_MGMT 1043 and instructor's consent.

**HSP\_MGMT 3233. Professional Beverage Management. 3 Credits.**

This course provides an overview and analysis of the bar and beverage industry. Students will learn and explore the managerial and operational elements of professional beverage management. An emphasis will be placed on the legal aspects of beverage services, as well as provide training on responsible service of alcohol. In addition, sensory analysis will be used to pair food and beverages. The course will also give a better understanding of world beverages and the differences within each area. Students will apply knowledge and techniques of beverage service to menu and operational development.

**HSP\_MGMT 3343. Hotel Operations and Management. 3 Credits.**

An in-depth study of management processes in non-food functions of hotels. Prerequisites: HSP\_MGMT 1043.

**HSP\_MGMT 3385. Advanced Problems in Hospitality Management. 1-99 Credit.**

Advanced study in a selected field of Hospitality Management. Prerequisite: Hospitality Management major; open only to junior and senior students; instructor's consent required.

**HSP\_MGMT 3401. Advanced Topics in Hospitality Management. 1-99 Credit.**

Instruction in specific subject matter areas in the field of hospitality management. Open only to juniors and senior students; instructor's consent required.

**HSP\_MGMT 3410. Conference and Meeting Management. 3 Credits.**

An overview of convention and meeting planning to include group business market, the role of the event planner, the various techniques and services used to meet their needs, and technology used in the convention and meeting industry. Prerequisite: HSP\_MGMT 1043 (concurrent enrollment is allowed).

**HSP\_MGMT 3415. Current Issues in Meeting and Event Management. 1 Credit.**

A 1-credit guest speaker lecture class which provides a variety of professional topics for students who focus on convention and event

management area. Prerequisite: HSP\_MGMT 1043 (concurrent enrollment is allowed).

**HSP\_MGMT 3510. Guest Service Management: Delivering the Fan Experience. 3 Credits.**

Deliver the total sport fan experience through customer service from "driveway to driveway." Leadership in delivering customer service and meeting guest expectations. Service compliance standards, communication with patrons, and proper use of technology. Prerequisite: HSP\_MGMT 1043. Instructor's consent required. Graded A/F only.

**HSP\_MGMT 3515. Sport Venue Operation Management. 3 Credits.**

Management of the departments commonly found in sport venues: box office operations, food and beverage, maintenance and housekeeping, engineering, sales and sponsorship; technology, event production and game day operations; public vs. private events; crowd control; and legal compliance. Graded on A-F basis only. Prerequisite: HSP\_MGMT 1505; open only to junior and senior students.

**HSP\_MGMT 3525. Principles of Live Entertainment Management. 3 Credits.**

An in-depth study of business practices associated with the presentation of live entertainment events including family shows and musical performances. Course topics will include artist management, contracts and riders, financial management, event production, and tour scheduling. Graded on A-F basis only. Prerequisites: HSP\_MGMT 1505 or instructor's consent; junior or senior standing.

**HSP\_MGMT 3777. Management of Gaming Operations. 3 Credits.**

Examines the history and development of gaming operations including legal, economic and psychological forces. Prerequisite: Students must be age 21 or older.

**HSP\_MGMT 4191. Seminar in Professional Development. 1 Credit.**

Readings and discussion related to professional development for the industry. Prerequisite: HSP\_MGMT 1043.

**HSP\_MGMT 4243. Strategic Management in the Hospitality Industry. 3 Credits.**

Applies functions and tools of business management to the hospitality field. Prerequisites: HSP\_MGMT 3343, HSP\_MGMT 3153 and ACCTCY 2036.

**HSP\_MGMT 4253. Hospitality Human Resources Management. 3 Credits.**

Recruitment, training, management of personnel required for operations in a hospitality business at all employment levels. Prerequisite: HSP\_MGMT 1043 or instructor's consent. Restricted to Hospitality Management Majors during early registration.

**HSP\_MGMT 4273. Hospitality Sales and Marketing Management. 3 Credits.**

Marketing of hospitality services: human factors, consumer demand, planning, professional considerations. Discussion of traditional and current marketing methods. Prerequisites: Hospitality Management [HSP\_MGMT] 1043 and completion of a minimum of 45 hours. Restricted to Hospitality Management majors during early enrollment.

**HSP\_MGMT 4320. Destination Management. 3 Credits.**

An overview of the optimal planning, development, and marketing of destination image and position in the context of the overall management plan. Prerequisites: HSP\_MGMT 1043 (concurrent enrollment is allowed).

**HSP\_MGMT 4343. International Hotel Management. 3 Credits.**

This is an international hotel management course, which covers cultural aspects of hotel management, and current trends in the hotel

management worldwide. Prerequisites: Hospitality Management [HSP\_MGMT] 1043.

**HSP\_MGMT 4353. Hotel Finance Management. 3 Credits.**

This is a finance management course designed for students who may pursue a management career in the hotel industry. Prerequisites: HSP\_MGMT 1043, 3343.

**HSP\_MGMT 4390. Optimization and Management of Food and Agricultural Systems. 3 Credits.**

(same as F\_S 4390 and AG\_S\_M 4390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function. Prerequisite: MATH 1100.

**HSP\_MGMT 4520. The Business of Sport Venue Management. 3 Credits.**

Financial and accounting practices, understanding the economic impact of events on the community, HR and labor relations, venue sales & marketing, contracts, working with promoters, tenant and vendor relations, negotiations and conflict resolution as related to sport venues. Prerequisites: HSP\_MGMT 1505, HSP\_MGMT 3515, HSP\_MGMT 4253, HSP\_MGMT 4273, ACCTCY 2036 or FINANC 2000. Instructor's consent required. Graded A/F basis only.

**HSP\_MGMT 4525. Sport Venue Design and Risk Management. 3 Credits.**

The study of sport venue design and flow, creating and understanding computer-aided drawings (CADD). Emergency planning and preparedness strategies to include crowd control, law enforcement coordination, first responders and security & safety. Prerequisites: HSP\_MGMT 1505, HSP\_MGMT 3515. Instructor's consent required. Graded A/F only.

**HSP\_MGMT 4940. Field Training in Hospitality Management. 1-99 Credit.**

Advanced study, observation and employment in an area of hospitality. Written reports, faculty evaluation. Prerequisites: junior or senior standing and instructor's consent.

**HSP\_MGMT 4941. Internship in Hospitality Management. 1-12 Credit.**

Combines study, observation and employment in an area of hospitality. Written reports, faculty evaluation. Prerequisites: Completion of at least 75 hours.

**HSP\_MGMT 4963. Recent Trends in Hospitality Management. 1-2 Credit.**

For upper-level and graduate students who wish additional knowledge and understanding in specific subject matter areas.

**HSP\_MGMT 4980. Special Events Management. 3 Credits.**

An overview of managing special events to include event design feasibility studies, legal compliance, promotion, safety and security, logistic, staffing, financial control and technology. Prerequisite: HSP\_MGMT 3410 and HSP\_MGMT 4320.

**HSP\_MGMT 4985. Commercial Food Production Management. 5 Credits.**

Identifies and applies the skills necessary to plan, produce, and serve meals to customers in a commercial setting. Prerequisites: HSP\_MGMT 2123 and HSP\_MGMT 3153.

**HSP\_MGMT 4994. Lodging Management Leadership. 3 Credits.**

Capstone course for Hospitality Management majors focusing on lodging management. Applies previously learned hospitality theories and

principles to solving problems found in the lodging industry. Prerequisites: HSP\_MGMT 4253.

**HSP\_MGMT 7253. Hospitality Human Resources Management. 3 Credits.**

Recruitment, training management of personnel required for advanced position in hospitality operations. Prerequisites: graduate standing; instructor's consent.

**HSP\_MGMT 7273. Hospitality Sales. 3 Credits.**

Marketing of Hospitality services: human factors, consumer demand, planning, professional considerations. Promotional methods, advertising, selling, merchandising, public relations and sales promotion. Prerequisites: graduate standing; instructor's consent.

**HSP\_MGMT 7320. Destination Management. 3 Credits.**

This course provides an overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and business. Prerequisites: HSP\_MGMT 4980 or equivalent. Consent of instructor required. Graduate standing required. Graded A/F only.

**HSP\_MGMT 7343. International Hotel Management. 3 Credits.**

Course designed for graduate students pursuing a managerial position in the Hospitality Industry to understand the value and the competitive advantage of global hotel management. Prerequisites: HSP\_MGMT 1043 and FINANC 2000. Instructor's consent required. Graded on A/F basis only. Graduate Standing Required.

**HSP\_MGMT 7353. Hospitality Financial Management. 3 Credits.**

A finance management course designed for students who may pursue a management career in the hospitality industry. Prerequisites: graduate standing; instructor's consent.

**HSP\_MGMT 7390. Optimization and Management of Food and Agriculture Systems. 3 Credits.**

(same as F\_S 7390 and AG\_S\_M 7390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function. Prerequisite: graduate standing; instructor's consent.

---

## Human Development And Family Studies (H\_D\_FS)

---

**H\_D\_FS 1520. Drop-In Child Care Programs. 3 Credits.**

Examination of appropriate planning for and experience in a drop-in child care program. Prerequisites: Human Development and Family Studies [H\_D\_FS] 3420 or equivalent and instructor's consent.

**H\_D\_FS 1600. Foundations of Family Studies. 3 Credits.**

Introduction to family studies discipline and profession. Introduces historical changes in families, diversity by race, ethnicity, class and sexual orientation, and interaction of families with neighborhoods, schools, the workplace, and larger systems.

**H\_D\_FS 1600H. Foundations of Family Studies - Honors. 3 Credits.**

Introduction to family studies discipline and profession. Introduces historical changes in families, diversity by race, ethnicity, class and sexual orientation, and interaction of families with neighborhoods, schools, the workplace, and larger systems. Honors eligibility required.

**H\_D\_FS 1610. Intimate Relationships and Marriage. 3 Credits.**

Examination of issues pertaining to intimate and marital relationships such as relationship foundation and dissolution processes, love, sex, behavioral scripts, and conflict. Diversity related to race, ethnicity, gender, and sexual orientation is explored.

**H\_D\_FS 2085. Problems in Human Development and Family Studies. 1-99 Credit.**

Graded on S/U basis only.

**H\_D\_FS 2200. Research Methods in Human Development and Family Studies. 3 Credits.**

Introduction to research methods in the social sciences. Emphasis on both qualitative and quantitative methods, as well as applied research and program evaluation. Prerequisite: sophomore standing.

**H\_D\_FS 2300. Multicultural Study of Children and Families. 3 Credits.**

Study of cultural variation in family life around the world and within America (e.g.: African-American, Hispanic American). Attention is paid to the external conditions that affect the internal workings of these families.

**H\_D\_FS 2400. Principles of Human Development. 4 Credits.**

Concepts and principles basic to an understanding of human development and learning throughout the life span. Prerequisite: English [ENGLSH] 1000.

**H\_D\_FS 2400H. Principles of Human Development - Honors. 4 Credits.**

Concepts and principles basic to an understanding of human development and learning throughout the life span. Prerequisite: English [ENGLSH] 1000. Honors eligibility required.

**H\_D\_FS 2450. Human Sexuality Across the Life Span. 3 Credits.**

An introductory survey of human sexuality including gender, love and intimacy, sexual expression and variation, sexual orientation, contraception, pregnancy and birth, sexually transmitted infections, sexual coercion, and sex in society. Sexuality within the context of intimate relationships across the life course will be emphasized.

**H\_D\_FS 3085. Problems in Human Development and Family Studies. 1-99 Credit.**

Independent work on special problems in human development and family studies. Prerequisite: instructor's consent. Graded on S/U basis only.

**H\_D\_FS 3090. Research Experience in Human Development and Family Studies. 1-6 Credit.**

Student training and engagement in research with a H\_D\_FS faculty member. Students learn about the research process and methods, and develop research skills (e.g., data collection, entry, coding, analysis) through hands-on work. Prerequisite: Human Development and Family Studies [H\_D\_FS] 2200; instructor's consent. Graded on S/U basis only. May be repeated for credit.

**H\_D\_FS 3420. Early and Middle Childhood. 3 Credits.**

Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: Psychology [PSYCH] 2410, Human Development and Family Studies [H\_D\_FS] 3420, or Education, School and Counseling Psychology [ESC\_PS] 2500. Restricted to Education, HDFS and Pre-HDFS majors during preregistration period.

**H\_D\_FS 3430. Adolescence and Young Adulthood. 3 Credits.**

Physical, intellectual, and psychosocial maturation of adolescents and young adults within the context of life long developmental sequelae. Restricted to HDFS and Pre-HDFS majors during pre-registration period.

**H\_D\_FS 3440. Adulthood and Aging. 3 Credits.**

Examination of biological, cognitive, psychological and social changes experienced across adulthood.

**H\_D\_FS 3500. Infant-Toddler Development and Programs. 6 Credits.**

Applied cognitive, language, and social development of infants and toddlers. Emphasizes development in a child care setting and staff relations. Co-requisites: Human Development and Family Studies [H\_D\_FS] 3420.

**H\_D\_FS 3510. Curriculum and Activities for the Early Childhood Setting. 3 Credits.**

Development of curriculum for children birth through 5 in preschool setting. Also emphasizes the development of program activities for children birth through 5; and 6 through 10 in after-school care settings. Prerequisites: may be taken concurrently with Human Development and Family Studies [H\_D\_FS] 3420 and 3500 and instructor's consent.

**H\_D\_FS 3530. Foundations of Community-Based Programs for Children and Youth. 3 Credits.**

Examines non-academic community-based programming for children and youth. Experience working with these age groups. Prerequisites: Human Development and Family Studies [H\_D\_FS] 3420 or equivalent or instructor's consent. Graded on A/F basis only.

**H\_D\_FS 3600. Working With Parents. 3 Credits.**

Lecture format presenting stages of parenthood, parenting styles, the impact of relationships and culture on parenting and challenges of parenting. Developing practical field skills working with families in a service learning experience. Prerequisite: Human Development and Family Studies [H\_D\_FS] 3420.

**H\_D\_FS 3700. Child Development Laboratory. 6 Credits.**

Experience working with young children (ages 2-6 years), and applying developmentally appropriate practice. Focus on general guidance, curriculum planning, family and staff relations. Prerequisites: Human Development and Family Studies [H\_D\_FS] 3500 or equivalent and instructor's consent.

**H\_D\_FS 3720. Student Teaching Prekindergarten. 6 Credits.**

Experience working with children (2-5 years), using general guidance principles and methods for fostering creativity. Prerequisites: Human Development and Family Studies [H\_D\_FS] 3420 or equivalent and instructor's consent.

**H\_D\_FS 3730. Field Training Practicum. 3 Credits.**

Field training experiences under supervision. Prerequisite: advisor's consent. May be repeated for credit. Graded on A/F basis only.

**H\_D\_FS 3800. Children's Play. 3 Credits.**

This course is an examination of the complex phenomenon of play in children's lives. Emphasis is placed on the value of play in developmental, social, and cultural contexts. Topics include the exploration of play theories and supporting empirical evidence, play materials, various environments, violence and conflict resolution, and therapeutic uses of play. Observation and assessment of children at play and analysis of play environments is required. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2400, 3420, Psychology [PSYCH] 2410 or Education, School and Counseling Psychology [ESC\_PS] 2500 or equivalent, junior standing. Enrollment is restricted to H\_D\_FS and Pre H\_D\_FS majors during preregistration period.

**H\_D\_FS 3960. Readings in Human Development and Family Studies. 1-99 Credit.**

Readings in recent research; critical discussions.

**H\_D\_FS 4001. Topics in Human Development and Family Studies. 1-99 Credit.**

Selected current topics in field of interest.

**H\_D\_FS 4085. Problems in Human Development and Family Studies. 1-99 Credit.**

Independent work on special problems in human development and family studies. Prerequisites: instructor's consent. Graded on S/U basis only.

**H\_D\_FS 4090. Advanced Research in Human Development and Family Studies. 1-6 Credit.**

Advanced training and engagement in research with a H\_D\_FS faculty member. Student develops research skills (e.g., data collection, entry, coding, analysis) and works semi-independently on own research project. Prerequisite: Human Development and Family Studies [H\_D\_FS] 2200 and 3090; instructor's consent. Graded on S/U basis only. May be repeated for credit.

**H\_D\_FS 4100. Children in Health Care Settings. 3 Credits.**

Overview of the medical conditions and treatments commonly encountered by children and adolescents in health care settings and their typical reactions to them. Introduction to the philosophy and the role of the child life profession. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200, 2400 and 3420, or equivalent. Restricted to Human Development and Family Studies [H\_D\_FS] and Pre- Human Development and Family Studies [H\_D\_FS] majors during pre-registration period.

**H\_D\_FS 4110. Child Life Theory and Practice. 3 Credits.**

Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200, 3420, 3500 or 3700, and instructor's consent.

**H\_D\_FS 4130. Child Life Practicum. 3 Credits.**

Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization. Prerequisites: Human Development and Family Studies [H\_D\_FS] 3500 and 3700, consent required.

**H\_D\_FS 4200. Latino/a Youth and Families. 3 Credits.**

Current issues in theory, methods, and research in U.S. Latino/a youth and families are examined from a social and developmental psychological perspective. The course is an advanced level study, with a particular focus on history, theories, methods, research, and applied social issues. Topics will include, parenting, siblings, youth development and adjustment, stress, risky behaviors, gender issues, assessment, study design, cultural values, intervention programs, and immigration issues. Prerequisites: Pre-H\_D\_FS and H\_D\_FS majors must complete H\_D\_FS 1600, H\_D\_FS 2200, H\_D\_FS 2300, H\_D\_FS 2400 .

**H\_D\_FS 4300. Black Families. 3 Credits.**

(same as Black Studies [BL\_STU] 4300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the Black family. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200 or equivalent, and junior standing.

**H\_D\_FS 4400. Childhood Death and Bereavement. 3 Credits.**

An exploration of issues that arise for children and families when facing life-threatening illness and death. The course also includes an examination of coping and helping strategies for dying and grieving children. Prerequisites: Human Development and Family Studies

[H\_D\_FS] 2200, 2400, 3420 and instructor's consent. Restricted to HDFS and Pre-HDFS majors during pre-registration period.

**H\_D\_FS 4420. Environmental Influences on Lifespan Cognition. 3 Credits.**

This course covers the change and growth of cognition through the lifespan with particular attention to how the environment influences cognition (including perception, language memory, attention executive functions, and problem solving). Prerequisite: Pre-HDFS and HDFS Majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300, 2400 and 3420.

**H\_D\_FS 4570. Development and Administration of Child Services Programs. 3 Credits.**

The development of leadership and management skills for administering community-and hospital-based programs for children. Includes an overview of office policy and procedure, staff and volunteer management, public relations, budgeting, accounts, accountability, and quality assurance. Prerequisites: Pre-HDFS and HDFS Majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300, 2400 and 3700.

**H\_D\_FS 4610. Stress in Families. 3 Credits.**

Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping. Prerequisites: Pre-HDFS and HDFS majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300 and 2400.

**H\_D\_FS 4620. Family Interaction. 3 Credits.**

Analysis of intrafamilial interaction from a systems perspective; includes comparative study of family paradigms, family subsystems, goals, and resources, boundaries, and patterns of feedback. Prerequisites: Pre-HDFS and HDFS majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300 and 2400.

**H\_D\_FS 4630. The Process of Divorce. 3 Credits.**

Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies are considered. Prerequisites: Pre-HDFS and HDFS majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300 and 2400.

**H\_D\_FS 4640. Interpersonal Relationships. 3 Credits.**

In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students are introduced to the field of close relationships. Prerequisites: Pre-HDFS and HDFS majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300 and 2400.

**H\_D\_FS 4655. History of the Family in Russia. 3 Credits.**

Survey of family relations in Russia from the Kievan period. Materials drawn from child development and family studies, education, history, sociology, and literature. Prerequisite: 3 hours in Social/Behavioral Sciences.

**H\_D\_FS 4655H. History of the Family in Russia - Honors. 3 Credits.**

Survey of family relations in Russia from the Kievan period. Materials drawn from child development and family studies, education, history, sociology, and literature. Prerequisite: 3 hours in Social/Behavioral Sciences. Honor eligibility required.

**H\_D\_FS 4680. Family Communication. 3 Credits.**

(same as Communications [COMMUN] 4520). Analysis of the functions and processes of communication within families. Prerequisite: junior standing or departmental consent. May be restricted to Communication majors only during early registration.

**H\_D\_FS 4700. Children and Families in Poverty. 3 Credits.**

Study of the extent, distribution, and implications of poverty on children and families. Examination of myths and realities, social conditions, policies, and programs that contribute to or reduce poverty and its consequences. Prerequisites: Pre-HDFS and HDFS majors must complete Human Development and Family Studies [H\_D\_FS] 1600, 2200, 2300 and 2400.

**H\_D\_FS 4720. Child and Family Advocacy. 2-3 Credit.**

Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state and federal levels. The course emphasizes current issues and need for citizen involvement. There will be sections restricted to Human Development and Family Studies [H\_D\_FS] majors and to Education majors. The H\_D\_FS section will be for 3 credits and the Education will be for 2 credits. Prerequisites: Pre-HDFS and HDFS majors must complete H\_D\_FS 1600, 2200, 2300 and 2400.

**H\_D\_FS 4800. Program and Curriculum Design for FACS Education in Middle and Secondary Schools. 3 Credits.**

What should a teacher do about planning for student learning in FACS? Includes objectives, lesson designs, resources, learner diversity, thinking skills, reasoning processes, articulation, legislation. Prerequisites: Teacher Development Program [TDP] 2000 and Teacher Development Program [TDP] 2020 or equivalent. Admission to Phase II, and instructor's consent.

**H\_D\_FS 4820. Assessment in Family and Consumer Sciences Education. 2 Credits.**

What should a teacher do to determine the extent to which program/lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design. Prerequisites: admission into Phase II, Human Development and Family Studies [H\_D\_FS] 4800, and instructor's consent.

**H\_D\_FS 4830. Methods of Teaching FACS in Middle and Secondary Schools. 3 Credits.**

What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations. Prerequisites: admission into Phase II, and instructor's consent.

**H\_D\_FS 4940. Field Experience in Family and Consumer Sciences. 1 Credit.**

Students will observe and assist in FACS classroom. Prerequisite: to be taken concurrently with Human Development and Family Studies [H\_D\_FS] 4800, and instructor's consent.

**H\_D\_FS 4941. Field Experience in Family and Consumer Sciences. 1 Credit.**

Students will be involved in real-world experiences in a FACS classroom. Prerequisites: to be taken concurrently with Human Development and Family Studies [H\_D\_FS] 4830; requires instructor's consent.

**H\_D\_FS 4942. Student Teaching FACS in Middle and Secondary Schools. 1-15 Credit.**

What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher. Prerequisites: Human Development and Family Studies [H\_D\_FS] 4800, 4820, 4830, English [ENGLSH] 1000, admittance to Phase III, and instructor's consent.

**H\_D\_FS 4970. Families and Lifespan Development Capstone. 4 Credits.**

Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Prerequisites: senior standing and instructor's consent. Graded on A/F basis only.

**H\_D\_FS 4971. Child Development and Education Capstone. 9 Credits.**

Practical experience working with young children (up to 10) in out-of-home care facilities. Program planning for children and working with parents. Lab hours required. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200, 3500 and 3700, or equivalent and instructor's consent.

**H\_D\_FS 4993. Internship in Human Development and Family Studies. 1-99 Credit.**

Internships or field training experiences under supervision. Graded on S/U basis only. Prerequisite: Human Development and Family Studies [H\_D\_FS] 2200 or equivalent and instructor's consent.

**H\_D\_FS 7001. Topics in Human Development and Family Studies. 1-99 Credit.**

Selected current topics in field of interest. Prerequisite: Graduate standing required.

**H\_D\_FS 7085. Problems. 1-99 Credit.**

Independent work on special problems in human development and family studies. Prerequisites: instructor's consent. Graduate standing required. Graded on S/U basis only.

**H\_D\_FS 7100. Children in Health Care Settings. 3 Credits.**

Overview of the medical conditions and treatments commonly encountered by children and adolescents in health care settings and their typical reactions to them. Introduction to the philosophy and the role of the child life profession. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 2400 and 2420, or equivalent.

**H\_D\_FS 7110. Child Life Theory and Practice. 3 Credits.**

Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 2420, 2500 and instructor's consent.

**H\_D\_FS 7130. Child Life Practicum. 3 Credits.**

Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 2500 and 3500, consent required.

**H\_D\_FS 7231. Foundations of Youth Development. 1 Credit.**

This course provides an introduction to the field of youth development and the professions that include youth work. This course is designed to provide a foundation of knowledge that students will need to begin any course in the Great Plains IDEA Youth Development programs. Graduate

standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7233. Basic Grant Development and Management. 3 Credits.**

This course introduces students to grant development and management. This short-course is not intended to cover all aspects of grant development and management, but it will help students gain confidence in their grant development abilities and inspire them to learn more. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7252. Adult Development. 3 Credits.**

This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7253. Physical Health and Aging. 3 Credits.**

This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7255. Aging Policy. 3 Credits.**

Policy development in the context of the economic status of the elderly populations. Retirement planning and the retirement decision; Social Security and public transfer programs for the elderly; intrafamily transfers to/from the elderly; private pensions; financing medical care for the elderly; prospects and issues for the future. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7256. Environments and Aging. 3 Credits.**

Examination of attributes of physical environments that support special needs of older people and application of this knowledge to the design and management of housing, institutional settings, neighborhoods and communities. Graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7257. Aging and the Family. 3 Credits.**

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics are also examined through the use of current literature. Graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7259. Mental Health and Aging. 3 Credits.**

Student is introduced to the range of issues utilizing several theoretical perspectives and the systems framework. Major mental, emotional, and psychiatric problems encountered in old age are examined, along with normal processes of aging individual's personality, mental and brain functions. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7260. Women and Aging. 3 Credits.**

Women and aging is the study of theory, research and application of issues related to women and the aging experience. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7261. Biological Principles of Aging. 3 Credits.**

This course will give an overview of the normal aging process of the human body systems, environmental factors influencing normal aging, diseases and disorders associated with aging. A special topics unit will include but is not limited to interviews and observations dealing with the aging process in humans. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7262. Long-Term Care Administration. 3 Credits.**

Provides information for persons interested in leadership role in long-term care, or for those considering careers intersecting with senior living organizations. Also considers long-term care options. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 7300. Black Families. 3 Credits.**

(same as Black Studies [BL\_STU] 7300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the black families. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200 or equivalent, and graduate standing.

**H\_D\_FS 7400. Childhood Death and Bereavement. 3 Credits.**

An exploration of issues that arise for children and families when families when facing terminal illness or death. The course also includes an examination of coping and helping strategies for dying and grieving children. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 2400 and 2420.

**H\_D\_FS 7470. Problems of Development in Multicultural Context. 3 Credits.**

Within the context of socio-cultural diversity, this course covers developmental problems from conception to early adulthood. Theoretical and empirical contributions to classification, assessment, intervention, and public policy are emphasized. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2400, 1600, 2300, and 2420, or instructor's consent.

**H\_D\_FS 7500. Developing Plans of Care for Community-Dwelling Older Adults. 3 Credits.**

This applied course focuses on conducting geriatric assessments across multiple domains in order to develop holistic plans of care for older adults. Designed for students with some familiarity with the large age-graded income and health programs (e.g., Social Security, Medicare), the course examines the broad range of community resource programs designed to support more specific medical, psychosocial, and functional needs. Although service delivery varies by community, students will be trained to seek out those that are locally provided, up to and including resources providing a transitional bridge to respite and long-term care services. Prerequisite: Bachelor or Master's degree in Human Services, Social Work, Mental Health, Nursing, Physical Rehabilitation, or Psychology. Must be enrolled in Graduate Certificate in Geriatric Care Management Program. Graded on A/F basis only.

**H\_D\_FS 7520. Ethical, Legal, and Business Considerations in Geriatric Care Management. 3 Credits.**

This applied eight-week course addresses multiple issues that geriatric care managers must consider in their work with the vulnerable older population. Topics include the ethics of care management, developing cultural and spiritual competencies, legal requirements in both the fee-for-service and nonprofit settings, as well as business aspects for those considering independent practice in this growing field, including

national certification. May be repeated for credit. Prerequisites: Human Development and Family Studies [H\_D\_FS] 7500, 8021 and Personal Financial Planning [FINPLN] /H\_D\_FS 7510; Bachelor or Master's degree in human services, social work, mental health, nursing, physical rehabilitation or psychology required; must be enrolled in Graduate Certificate in Geriatric Care Management program. Graded on A/F basis only. Graduate Standing required.

**H\_D\_FS 7570. Development and Administration of Child Services Programs. 3 Credits.**

The development of leadership and management skills for administering community-and-hospital-based programs for children. Includes an overview of office policy and procedures, staff and volunteer management, public relations, budgeting, accounts, accountability, and quality assurance. Prerequisites: Human Development and Family Studies [H\_D\_FS] 2200 or equivalent, 3600 or 3700, or instructor's consent.. Graded A/F only. Graduate Standing Required.

**H\_D\_FS 7583. Personal Financial Issues of Older Adults. 3 Credits.**

(same as Personal Financial Planning [FINPLN] 7583). Principles and practice of personal finance relevant to assessing and improving the financial security of older individuals. Topics covered include sources of income, management of cash flow, credit use and abuse, risk exposure, investment management, housing, and financial planning. Financial vulnerabilities of seniors will be explored. Prerequisites: Bachelor or Master's degree in human services, social work, mental health, nursing physical rehabilitation or psychology; must be enrolled in Graduate Certificate in Geriatric Care Management program. May be repeated for credit. Graded on A/F basis only.

**H\_D\_FS 7600. Resilience in Families. 3 Credits.**

Exploration of the evolution of a resilience approach to the study of families and human development. Using a lifespan approach, students will explore resilience across time as well as within special populations such as families experiencing crisis and trauma, culturally diverse families, and military families. Graded on A/F basis only.

**H\_D\_FS 7610. Stress in Families. 3 Credits.**

Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping. Prerequisite: graduate standing.

**H\_D\_FS 7630. The Process of Divorce. 3 Credits.**

Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies will be considered. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 1600, and 2200 or equivalent; or instructor's consent.

**H\_D\_FS 7640. Interpersonal Relationships. 3 Credits.**

In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students will also be introduced to the field of close relationships. Prerequisites: graduate standing.

**H\_D\_FS 7650. Family Crisis Intervention. 3 Credits.**

Individuals and families in crises are examined. Focus is on grief and loss, substance abuse, family violence, and suicidal ideation. Examination of evidence-based preventions and treatments and community resources for those affected by stress, trauma, and crises. Graded on A/F basis only.

**H\_D\_FS 7690. Family Resource Management. 3 Credits.**

Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment. Graded on A/F basis only.

**H\_D\_FS 7720. Child and Family Advocacy. 2-3 Credit.**

Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state and federal levels. The course emphasizes current issues and need for citizen involvement. There will be sections restricted to Human Developmental and Family Studies [H\_D\_FS] majors and to Education [EDUC] majors. The Human Developmental and Family Studies [H\_D\_FS] section will be for 3 credits and Education [EDUC] will be for 2 credits. Prerequisite: graduate standing.

**H\_D\_FS 7750. Physical Function and Older Adults. 3 Credits.**

(Same as Family and Community Medicine [F\_C\_MD] 7750, Architectural Studies [ARCHST] 7640, Health Management and Informatics [HMI] 7750, Nursing [NURSE] 7750, Public Health [P\_HLTH] 7750, and Social Work [SOC\_WK] 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded A-F only. Graduate Standing Required.

**H\_D\_FS 7751. Psychosocial Function and Older Adults. 3 Credits.**

(same as Architectural Studies [ARCHST] 7650, Family Community Medicine [F\_C\_MD] 7751, Health Management and Informatics [HMI] 7751, Nursing [NURSE] 7751, Public Health [P\_HLTH], 7751 and Social Work [SOC\_WK] 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

**H\_D\_FS 7800. Program & Curriculum Design for FACS Education in Middle & Secondary School. 3 Credits.**

What should a teacher do about planning for student learning in FACS? Includes objectives, lesson designs, resources, learner diversity, thinking skills, reasoning processes, articulation, legislation. Prerequisites: graduate standing and Teacher Development Program [TDP] 2000 and 2020 or equivalent. Admission to Phase II, and instructor's consent.

**H\_D\_FS 7820. Assessment in Family and Consumer Sciences Education. 2 Credits.**

What should a teacher do to determine the extent to which program/ lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design. Prerequisites: graduate standing and admission into Phase II, Human Development and Family Studies [H\_D\_FS] 4800, and instructor's consent.

**H\_D\_FS 7830. Methods of Teaching FACS in Middle and Secondary Schools. 3 Credits.**

What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations.

Prerequisites: graduate standing and admission into Phase II, and instructor's consent.

**H\_D\_FS 7940. Field Experience in Family and Consumer Sciences Education. 1 Credit.**

Students will observe and assist in FACS classroom. Prerequisite: to be taken concurrently with Human Development and Family Studies [H\_D\_FS] 4800, graduate standing, and instructor's consent.

**H\_D\_FS 7941. Field Experience in Family and Consumer Sciences. 1 Credit.**

Students will be involved in real-world experiences in a FACS classroom. Prerequisites: to be taken concurrently with Human Development and Family Studies [H\_D\_FS] 4820, 4830, graduate standing; requires instructor's consent.

**H\_D\_FS 7942. Student Teaching FACS in Middle and Secondary Schools. 15 Credits.**

What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 4800, 4820, 4830, instructor's consent. Graduate standing required.

**H\_D\_FS 8001. Topics in Human Development and Family Studies. 1-99 Credit.**

Selected current topics in field of interest.

**H\_D\_FS 8012. Family Dynamics and Intervention. 3 Credits.**

(same as Nursing [NURSE] 8010). Theories of family function and dysfunction; techniques of assessment; models of family intervention. Practicum with selected families. Prerequisite: Nursing [NURSE] 7100.

**H\_D\_FS 8085. Problems in Human Development and Family Studies. 1-99 Credit.**

Independent work on special problems in human development and family studies. Prerequisite: instructor's consent. Graded on S/U basis only.

**H\_D\_FS 8087. Seminar in Human Development and Family Studies. 1-99 Credit.**

Seminar in selected topics in human development and family studies.

**H\_D\_FS 8090. Research in Human Development and Family Studies. 1-99 Credit.**

Independent research not leading to a thesis. Report required. Graded S/U Only.

**H\_D\_FS 8100. Foundations and Principles of Family and Community Services. 3 Credits.**

This course provides an introduction to the field of family studies and related professions that involve working with individuals and families in communities. This course is designed to provide a foundation of knowledge that students will need in the Great Plains IDEA family and Community Services program. This course is organized around theory, research, and practice of Family Studies. Graded on A/F basis only.

**H\_D\_FS 8110. Developmental Perspectives on Health and Illness. 3 Credits.**

Seminar on child and adolescent development as applied to illness and hospitalization, with a focus on applying psychosocial research and theory in work with pediatric populations. Prerequisite: instructor consent; coursework in human development and experience with pediatric populations. Graded on A/F only. May be repeated for credit.

**H\_D\_FS 8200. Research Methods in Human Development and Family Studies. 3 Credits.**

Examination of the rationale for conducting scientific research; various research methods pertinent to the study of individuals over the life span, close relationships, marriages, and families; hypothesis formulation; selection of appropriate designs, instrumentation, and analysis. Prerequisite: instructor's consent.

**H\_D\_FS 8210. Theories of Human Development. 3 Credits.**

Major theories of life span human development. Attention given to structure, content, and major research critiqued for theoretical strengths. Prerequisite: 6 hours of 300-level Behavioral Sciences courses or instructor's consent.

**H\_D\_FS 8220. Family Theories. 3 Credits.**

Reviews existing family theories, their assumptions, values, propositions, and applications. Examines processes of theory testing and construction and linkages between theory and research. Prerequisite: graduate standing or instructor's consent.

**H\_D\_FS 8221. Gerontechnology. 3 Credits.**

Population aging is combining with technological advancement to create and change the world of modern older people, their families, and their communities. This course takes an interdisciplinary approach to the understanding of the biological, environmental, and social spheres where technology and gerontology meet. Graded on A/F basis only. Graduate standing required.

**H\_D\_FS 8222. Creativity and Aging. 3 Credits.**

What happens to creativity as a person ages? This unique class will help students to understand developmental and pathological changes in the brain that can lead to changes in creative output over time. Through hands-on experiences and direct association with older adults, students will grow an appreciation for creativity produced and inspired by older people. This course is intended to provide experiences that will help the student to be able to create art programs for older adults. Graded on A/F basis only.

**H\_D\_FS 8231. Management and Leadership. 3 Credits.**

This course serves as an overview of management and leadership concepts related to the operational and administrative competencies necessary in effective community-based family and youth organizations and agencies. It is designed to provide students with foundational skills and knowledge to manage day-to-day functions related to organizational systems such as human resource management, financial management, risk management, strategic planning, governance and advisory structures, and marketing. Graded on A/F basis only.

**H\_D\_FS 8232. Youth Professionals as Consumers of Research. 3 Credits.**

This course will help youth development professionals understand and evaluate the quality of research reports. Students will learn the basics of quantitative and qualitative research approaches that will enable them to understand, evaluate, and critique research articles reported in newspaper, journals or other sources. Prerequisites: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8234. Adolescents and their Families. 3 Credits.**

This course explores adolescent development in the context of the family. The bi-directional influences between adolescents and their families will be examined. Implications for professionals working with youth and families will be explored and highlighted. Prerequisite: graduate

standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8235. Administration and Program Management. 3 Credits.**

This course introduces students to the development, administration and management of youth-serving organizations. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8236. Federal and State Policies that Impact Youth Development. 3 Credits.**

This course examines various federal and state policies that effect developmental opportunities for youth. Course participants will also examine not only how policies are developed, but also why. Prerequisites: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8237. Youth Cultures and the Cultures of Youth. 3 Credits.**

This course examines the cultural contexts that affect youth from within and outside the family. Students will study social, ethnic, and educational processes that affect youth, and they will examine how history has shaped the current cultural climate of the U.S. Prerequisite: graduate standing. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8238. Program Design, Implementation and Evaluation. 3 Credits.**

The course will discuss program design, implementation, and outcome evaluation. This course will focus on planning, designing logic models, and evaluating program. Students will evaluate a community-based project. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8239. Community Youth Development. 3 Credits.**

This course focuses on community youth development from a strength-based or developmental asset approach. This approach encompasses both individual development and interrelationships with social environments. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8240. Youth Development. 3 Credits.**

This course introduces the developmental period of adolescence. Emphasis will be on developmental tasks of this life stage and influences of family and home, school, peers and other contextual forces. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8251. Perspectives in Gerontology. 3 Credits.**

An overview of current aging issues including the prevailing focus of gerontology theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8253. Physical Health in Aging. 3 Credits.**

This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate program.

**H\_D\_FS 8254. Gerontology Research Methods and Program Evaluation. 3 Credits.**

Overview of program evaluation, research methods and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. Prerequisite: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8258. Professional Seminar in Gerontology. 3 Credits.**

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier course work, students strengthen skills in ethical decision-making behavior, apply these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Prerequisite: Completion of all other gerontology program coursework. Graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**H\_D\_FS 8300. Advanced Seminar on Multicultural Families. 3 Credits.**

Advanced study of multicultural (racial, ethnic, social) families within American society. Attention is focused on each group's unique cultural heritage and social environment. Prerequisites: graduate standing and instructor's consent.

**H\_D\_FS 8400. Programs for Young Children. 3 Credits.**

An examination of program models that serve as a framework for curriculum in programs for children birth through age 5.

**H\_D\_FS 8420. Cognitive Development. 3 Credits.**

(Same as Psychology [PSYCH] 8420). Study of the development of reasoning, perception and language. Prerequisite: graduate standing.

**H\_D\_FS 8430. Temperament and Personality Development. 3 Credits.**

(same as Psychology [PSYCH] 8430). Intended for graduate students in psychology and related fields. This course is a survey of theory and research in the area of temperament and personality development, with emphasis on child development. Prerequisite: instructor's consent.

**H\_D\_FS 8440. Social and Emotional Development. 3 Credits.**

(Same as Psychology [PSYCH] 8440) Seminar on emotional and social development in children, with focus on research and theory on the impact of various family, school, and societal factors. Prerequisite: graduate standing.

**H\_D\_FS 8450. Adolescence and Emerging Adulthood. 3 Credits.**

Seminar on development during adolescence and emerging adulthood from biological, cognitive, psychsocial, and cultural perspectives, and with a focus on health-related attitudes and behaviors. Prerequisite: graduate standing.

**H\_D\_FS 8460. Life Course Perspective. 3 Credits.**

Seminar on the life course perspective, an interdisciplinary approach to the study of lives over time and the interplay between human lives and social institutions. Deals with how individual lives are shaped by social change and social structure. Prerequisite: graduate standing.

**H\_D\_FS 8470. Identity Development. 3 Credits.**

Uses an Eriksonian framework to explore research regarding developmental tasks related to identity, such as attachment, self-esteem, moral behavior, achievement, and the formation of an abstract sense of self. Also considers such issues as gender identity, ethnic identity, and sexual identity. Prerequisite: graduate standing or instructor's consent.

**H\_D\_FS 8510. Parenting Education. 3 Credits.**

Study of theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western and Eastern cultures. Included are comparisons of the relative strengths and weaknesses of various parenting approaches, historical perspective on parenthood and children, parenting roles, strategies for contemporary parenting, developmental interaction from infancy through adulthood and selected special concerns of parents. A Bio-Ecological Systems approach will be utilized in this course. Graded on A/F basis only.

**H\_D\_FS 8520. Lifespan Development. 3 Credits.**

This course covers the human development including the cognitive, social-emotional, motor, language, and moral domains from both a lifespan and a bio-ecological perspective. Course content focuses on the major theories of development as well as current research on the micro-macro interrelationship. Students who complete this course will have a better understanding of individual human developmental processes and their relationship with context and within family and community matters. Graded on A/F basis only.

**H\_D\_FS 8610. Remarriage & Stepfamilies: Development, Dynamics, & Intervention. 3 Credits.**

The processes of remarriage and reconstituted family dynamics; special developmental needs and intervention models will be studied. The impact on children is considered. Prerequisite: instructor's consent.

**H\_D\_FS 8630. Gendered Relations in Families. 3 Credits.**

(same as Women and Gender Studies [WGST] 8630). From a feminist perspective, the roles of gender in shaping family life experience and of family life experience in shaping gender will be explored. Prerequisite: graduate standing; instructor's consent. Graded on A/F basis only.

**H\_D\_FS 8640. Family Interaction. 3 Credits.**

Examination of intrafamilial interaction. Includes an overview of theories used to study family interaction, critical review of the assessment of family interaction; and examination of contemporary research on family interaction focusing on intra and intergenerational relationships. Prerequisites: graduate standing and Human Development and Family Studies [H\_D\_FS] 1600 and 2200 or equivalent; or instructor's consent.

**H\_D\_FS 8710. Children, Families and Public Policy. 3 Credits.**

Seminar on societal issues relating to children and families, with focus on the development of public policies. Prerequisites: graduate standing and instructor's consent.

**H\_D\_FS 8770. Poverty. 3 Credits.**

Implications of poverty for child, adult, and family functioning. Poverty-related policies and programs.

**H\_D\_FS 8960. Readings in Human Development and Family Studies. 1-99 Credit.**

Readings in recent research; critical evaluation. Prerequisites: graduate standing and instructor's consent.

**H\_D\_FS 8972. Internship in Human Development and Family Studies. 1-99 Credit.**

Internships and/or field training experiences under supervision. Prerequisites: graduate standing and instructor's consent. Graded on S/U basis only.

**H\_D\_FS 9090. Research in Human Development and Family Studies. 1-99 Credit.**

Independent research leading to thesis or dissertation. Graded on S/U basis only.

**H\_D\_FS 9100. Teaching Practicum. 2-6 Credit.**

Supervised experience in teaching various audiences, including college students, professionals, and community residents. Prerequisite: graduate standing and instructor's consent. Graded on S/U basis only.

**H\_D\_FS 9130. Writing Research Proposals: Skill Building. 3 Credits.**

(same as Nursing [NURSE] 9132) This course teaches the components of writing a research proposal for external funding. Prerequisites: Human Development and Family Studies [H\_D\_FS] 9200 and graduate level statistics course. Instructors permission required. PhD Students only. Graded on S/U basis only.

**H\_D\_FS 9131. Responsible Conduct of Research in Health and Social Sciences. 1 Credit.**

(same as Nursing [NURSE] 9131) This course examines professional research ethics including the rights of human subjects. Graded on an S/U basis only. Graduate Standing Required. Instructor's permission required.

**H\_D\_FS 9200. Advanced Research Methods in Human Development and Family Studies. 3 Credits.**

(same as Nursing [NURSE] 9410). Examination of issues related to the study of individuals and their families: measurement, designs, and interpretation of statistical analyses. Statistics are placed in perspective through readings and discussions of the relationships between theory, research design, and data analyses. Prerequisite: Human Development and Family Studies [H\_D\_FS] 8200 or instructor's consent.

**H\_D\_FS 9210. Research Practicum in Human Development and Family Studies. 2-6 Credit.**

Independent research activities in conjunction with faculty. Prerequisite: instructor's consent. Graded on S/U basis only.

**H\_D\_FS 9400. Macro Social Theory. 3 Credits.**

(Same as SOC\_WK 9400) An in-depth examination of human development and social environmental theories appropriate to social welfare practice in formal organizations, interorganizational combinations, communities, and larger political entities. Students may not receive credit for both H\_D\_FS 9400 and SOC\_WK 9400.

**H\_D\_FS 9420. Qualitative Methods. 3 Credits.**

(same as Nursing [NURSE] 9420) Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Prerequisite: Nursing [NURSE] 7150 and doctoral status (or permission of faculty). Graded on A/F basis only.

**H\_D\_FS 9550. Meta Analysis Research. 3 Credits.**

(Same as Nursing [NURSE] 9550). Examines quantitative synthesis including research questions, search strategies, coding issues, meta-analysis statistical procedures, and interpretation of findings. Emphasizes conceptual understanding and practical methods. Prerequisites: 6 hours of graduate statistics; Human Development and Family Studies [H\_D\_FS] 9200 or graduate level quantitative methods course. Graded on A-F only basis.

**H\_D\_FS 9560. Qualitative Systematic Reviews. 3 Credits.**

(Same as Social Work [SOC\_WK] 9560 and Nursing [NURSE] 9560) Examine and carry out elements of qualitative systematic reviews: topic/problem identification, data collection, and analysis. Understand how to limit threats to validity and maximize generalizability. Prerequisite: Human Development and Family Studies [H\_D\_FS] 9420 or equivalent.

**H\_D\_FS 9700. Social Welfare Policy Seminar. 3 Credits.**

(Same as Social Work [SOC\_WK] 9700) Critical examination of comparative models of social policy development; preparation of a professional social work policy analysis in the student's area of interest/specialization. Graduate Standing Required.

---

## Industrial And Manufacturing Systems (IMSE)

---

**IMSE 1000. Introduction to Industrial Engineering. 1 Credit.**

Introduction to industrial engineering profession, the IMSE department, and the core topics of industrial engineering. Introduction to problem solving, ethics and industrial engineering design and analysis techniques.

**IMSE 1010. Experimental Course. 1-99 Credit.**

For freshman-level students. Content and credit to be listed in the Schedule of Courses.

**IMSE 1087. Undergraduate Seminar. 0 Credits.**

Seminars are held monthly to provide a forum for departmental communication of upcoming opportunities (jobs, speakers, deadlines, etc.), speakers from industry to provide educational context, and student interaction. Required every semester of enrollment for graduation. Graded on S/U basis only.

**IMSE 2030. Fundamentals of Systems Design and Analysis. 3 Credits.**

Develop an understanding of a systems approach to the design and operation of modern industrial organizations: systems structure and function, system specification, structured problem solving and system design methodology.

**IMSE 2110. Probability and Statistics for Engineers. 3 Credits.**

Introduction to data analysis, probability concepts, random variables, parameter estimation and hypothesis testing. Prerequisite: Mathematics [MATH] 1500.

**IMSE 2210. Linear Algebra for Engineers. 3 Credits.**

Study of quantitative methods necessary for analysis, modeling and design of optimal industrial systems. Prerequisite: Computer Science [CMP\_SC] 1001, 1040, 1050 and Mathematics [MATH] 1700.

**IMSE 2410. Introduction to Information Technologies. 1 Credit.**

A survey of current technologies and their use. Different technologies will be reviewed. Examples: web search strategies, common application tools, searching and sorting on the WWW, upcoming trends and directions in information technologies. This is a web-based self-study course with instructor's guidance.

**IMSE 2710. Engineering Economic Analysis. 3 Credits.**

Fundamentals of engineering economic decision making. Includes time value of money, breakeven analysis, capital budgeting, replacement, after-tax analysis, inflation, risk, sensitivity analysis and multi-attribute analysis. Prerequisite: sophomore standing.

**IMSE 2810. Performance Measurement and Ergonomics. 3 Credits.**

Design of man-machine systems considering capabilities and limitations of the human component. Method of measuring human performance in man-machine systems; includes lab. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 2110.

**IMSE 3001. Topics in Industrial and Manufacturing Systems Engineering. 0-4 Credit.**

Current and new technical developments in industrial engineering. Prerequisite: instructor's consent. May be repeated to 6 hours.

**IMSE 3030. Manufacturing and Supply Systems. 3 Credits.**

Provide a structured approach for the design and optimization of a system throughout its lifecycle: techniques following the logical sequence of strategic analysis, system design, implementation, and monitoring. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 2030.

**IMSE 3810. Ergonomics and Workstation Design. 3 Credits.**

Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab. Prerequisites: Engineering [ENGINR] 1200.

**IMSE 4001. Topics in Industrial and Manufacturing Systems Engineering. 3 Credits.**

Current and new technical developments in industrial engineering.

**IMSE 4085. Problems in Industrial Engineering. 1-4 Credit.**

Supervised investigation in industrial engineering presented in form of an engineering report.

**IMSE 4110. Engineering Statistics. 3 Credits.**

Understanding and application of statistical analysis techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE). Prerequisites: Grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 2110.

**IMSE 4210. Linear Optimization. 3 Credits.**

Theory and application of linear optimization. Prerequisite: grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 2210.

**IMSE 4230. Operations Research Models. 3 Credits.**

Formulates probabilistic models and determines optimal control policies for queueing and inventory systems. Introduces Markov chains and dynamic programming. Prerequisites: grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 2110 and 2210.

**IMSE 4280. Systems Simulation. 3 Credits.**

Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies. Prerequisites: grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 4110, Computer Science [CMP\_SC] 1040 or 1050.

**IMSE 4310. Integrated Production Systems Design. 3 Credits.**

Design and operation of production systems, including lean production concepts, just-in-time/kanban, facility layout and material flow issues. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4210, 4280.

**IMSE 4330. Material Flow and Logistics System Design. 3 Credits.**

Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4210, 4280.

**IMSE 4350. Production and Operations Analysis. 3 Credits.**

Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource

Planning (ERP) systems. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4210 and 4230.

**IMSE 4385. Lean Six Sigma Green Belt Project. 1 Credit.**

Application of the Lean Six Sigma methodology in an industry-based project. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4310.

**IMSE 4410. Management Information Systems Design. 3 Credits.**

MIS concepts and management issues, HTML for web pages and eShop (front-office operations), back-office operations using relational databases, introduction to SQL. Prerequisite: Computer Science [CMP\_SC] 1040 or 1050 and junior standing required.

**IMSE 4420. Web-Based Information Systems. 3 Credits.**

Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4410 and instructor's consent.

**IMSE 4550. Computer Aided Design and Manufacturing. 4 Credits.**

Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods. Prerequisites: Junior Standing.

**IMSE 4560. Introduction to Rapid Prototyping. 3 Credits.**

Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only. Prerequisite: Sophomore standing or higher.

**IMSE 4570. Computer Integrated Manufacturing Control. 3 Credits.**

Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking. Prerequisite: Junior Standing.

**IMSE 4610. Engineering Quality Control. 3 Credits.**

Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4110.

**IMSE 4750. Entrepreneurial Innovation Management: Enterprise Conception. 3 Credits.**

(same as Management [MANGMT] 4750). Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course. Prerequisite: sophomore standing.

**IMSE 4755H. Entrepreneurial Innovation Management: Enterprise Conception-Honors. 3 Credits.**

Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course. Prerequisite: sophomore standing. Honors eligibility required.

**IMSE 4760. Entrepreneurial Innovation Management: Enterprise Design. 3 Credits.**

(same as Management [MANGMT] 4760). Expand on Industrial Manufacturing and Systems Engineering [IMSE] 4750 business/technology plan into an operations plan; advertising facilities layout,

selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes. Prerequisite: Industrial Manufacturing and Systems Engineering [IMSE] 4750.

**IMSE 4765H. Entrepreneurial Innovation Management: Enterprise Design-Honors. 3 Credits.**

(same as Management [MANGMT] 4765H). Expand on Industrial Manufacturing and Systems Engineering [IMSE] 4755H business/technology plan into an operations plan; advertising facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes. Prerequisite: Industrial Manufacturing and Systems Engineering [IMSE] 4755H. Honors eligibility required.

**IMSE 4770. Entrepreneurial Innovation Management: Enterprise Operations. 3 Credits.**

(same as Management [MANGMT] 4770). Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales and delivery. Prerequisite: Junior Standing.

**IMSE 4775H. Entrepreneurial Innovation Management: Enterprise Operations-Honors. 3 Credits.**

Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales and delivery. Honors eligibility required. Prerequisite: Junior Standing.

**IMSE 4970. Capstone Design I. 1 Credit.**

Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Prerequisite: Senior Standing.

**IMSE 4980. Capstone Design II. 3 Credits.**

Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering [IMSE] curriculum. Must immediately follow Industrial and Manufacturing Systems Engineering [IMSE] 4970. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 3810, 4310, 4970.

**IMSE 4990. Undergraduate Research in Industrial Engineering. 0-6 Credit.**

Independent investigation or project in industrial engineering. May be repeated to 6 hours.

**IMSE 4995. Undergraduate Research Industrial Engineering - Honors. 0-6 Credit.**

Independent investigation or project in industrial engineering. Prerequisite: honors student in Industrial Engineering. May be repeated to 6 hours.

**IMSE 7001. Topics in Industrial and Manufacturing Systems Engineering. 3 Credits.**

Current and new technical developments in industrial engineering. Prerequisite: graduate standing.

**IMSE 7110. Engineering Statistics. 3 Credits.**

Understanding and application of statistical analysis techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE). Prerequisites: grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 2110. Graduate Standing Required.

**IMSE 7210. Linear Optimization. 3 Credits.**

Theory and application of linear optimization. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 2210.

**IMSE 7230. Operations Research Models. 3 Credits.**

Formulates probabilistic models and determines optimal control policies for queueing and inventory systems. Introduces Markov chains and dynamic programming. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 2110 and 2210.

**IMSE 7280. Systems Simulation. 3 Credits.**

Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies. Prerequisites: grade of C- or better in Industrial and Manufacturing Systems Engineering [IMSE] 4110, Computer Science [CMP\_SC] 1040 or 1050. Graded on A/F basis only.

**IMSE 7310. Integrated Production Systems Design. 3 Credits.**

Design and operation of production systems, including lean production concepts, just-in-time / kanban, facility layout and material flow issues. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4210, 4280. Graduate Standing Required.

**IMSE 7330. Material Flow and Logistics System Design. 3 Credits.**

Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4210, 4280. Graduate Standing Required.

**IMSE 7350. Production and Operations Analysis. 3 Credits.**

Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4210 and 4230. Graduate Standing Required.

**IMSE 7385. Lean Six Sigma Green Belt Project. 1 Credit.**

Application of the Lean Six Sigma methodology in an industry-based project. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4310. Graduate Standing required.

**IMSE 7410. Management Information Systems Design. 3 Credits.**

MIS concepts and management issues, HTML for web pages and eShop (front office operation), back-office operations using relational databases, introduction for SQL. Class graded A-F only. Prerequisites: Computer Science [CMP\_SC] 1040 or 1050.

**IMSE 7420. Web-Based Information Systems. 3 Credits.**

Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4410 and instructor's consent. Graduate Standing Required.

**IMSE 7550. Computer Aided Design and Manufacturing. 4 Credits.**

Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods. Graduate Standing Required.

**IMSE 7570. Computer Integrated Manufacturing Control. 3 Credits.**

Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking. Graduate Standing Required.

**IMSE 7610. Engineering Quality Control. 3 Credits.**

Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology. Prerequisite: graduate standing and Industrial and Manufacturing Systems Engineering [IMSE] 4110/7110.

**IMSE 7750. Entrepreneurial Innovation Management: Advanced Enterprise Conception. 3 Credits.**

Develop a new business and technology plan (including marketing, finance, engineering, manufacturing, and production concepts) in this joint College of Engineering/College of Business course.

**IMSE 7760. Entrepreneurial Innovation Management: Advanced Enterprise Design. 3 Credits.**

Expand on Industrial and Manufacturing Systems Engineering [IMSE] 7750 business and technology plan into a business operation plan: advertising designs, facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and product prototypes. Prerequisite: IMSE 7750.

**IMSE 7770. Entrepreneurial Innovation Management: Advanced Enterprise Operations. 3 Credits.**

Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales, and delivery. Graduate Standing Required.

**IMSE 8001. Advanced Topics in Industrial & Manufacturing Systems Engineering. 3 Credits.**

Current and new technical developments in industrial engineering.

**IMSE 8030. Advanced Manufacturing and Supply Systems. 3 Credits.**

The design, regulation, and optimization of manufacturing and supply systems through systems analysis.

**IMSE 8070. Research Methods in Industrial & Manufacturing System Engineering. 1 Credit.**

Development of research approach. Selection of topic area including techniques of literature search with special emphasis on problem definition. Topics pertinent to planning, organizing and carrying out industrial engineering research or design project.

**IMSE 8085. Problems in Industrial and Manufacturing Systems Engineering. 1-99 Credit.**

Supervised investigation in industrial engineering to be presented in the form of an engineering report.

**IMSE 8087. Industrial Engineering Graduate Seminar. 0 Credits.**

Selected topics in industrial engineering; oral presentations and engineering reports.

**IMSE 8110. Engineering Experimentation. 3 Credits.**

Application of advanced statistical methods for the analysis of engineering design and experimental problems. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4110/7110.

**IMSE 8210. Operations Research-Discrete Models. 3 Credits.**

Applications of discrete operations research methods, including linear programming, fuzzy sets, integer programming, and meta-heuristics. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4210/7210.

**IMSE 8220. Nonlinear Optimization. 3 Credits.**

Introduces computational non-linear mathematical programming procedures their use in solving complex industrial systems design

problems. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4210/7210.

**IMSE 8230. Operations Research-Stochastic Models. 3 Credits.**

Theory and applications of stochastic processes; includes continuous time Markov chain, Markov decision process, queueing theory, and stochastic manufacturing systems. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4230/7230.

**IMSE 8280. Advanced Systems Simulation. 3 Credits.**

Theory and practice of dynamic modeling and statistical experimentation. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 3280.

**IMSE 8310. Advanced Integrated Production Systems. 3 Credits.**

Advanced study of the design and operation of flow shop, job shop, and cell-based production systems, including scheduling, layout and material flow issues. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4310/7310.

**IMSE 8370. Supply Chain Modeling and Analysis. 3 Credits.**

Theory and application of supply chain networks, integration of production and inventory control methods. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 8210, 8230.

**IMSE 8410. Advanced Management Information Systems Design. 3 Credits.**

Develops requirements for management information, staffing, cost estimating, evaluation, and the design of management communication systems; includes case studies. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 3410.

**IMSE 8550. Advanced CAD/CAM. 3 Credits.**

Covers the state-of-the-art in CAD/CAM and explores the latest developments, residual problems, and new direction in CAD/CAM. Includes sculptured surface modeling, rapid prototyping and manufacturing, integrated process planning, shape analysis, machine intelligence. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4550/7550.

**IMSE 8610. Advanced Quality Systems. 3 Credits.**

Advanced process control charts, empirical model-building, fractional factorial designs and Taguchi techniques as tools for process and product improvement, professional ethics in quality management; TQM and ISO 9000. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4610, 8110.

**IMSE 8730. Strategic Enterprise Management. 3 Credits.**

Topics including enterprise strategies, process and content models, strategy implementation, value chain analysis, business processes, systems engineering approaches, business process reengineering, and dynamic systems modeling.

**IMSE 8810. Human Factors. 3 Credits.**

Human factors inputs, outputs and environment and their influence on design and evaluation of man and machine systems.

**IMSE 8850. Health Care Systems Design and Analysis. 3 Credits.**

Health care systems design principles and major problems, basic organization within health care system, alternative system design strategies, factors affecting design process success.

**IMSE 8990. Research-Masters Thesis in Industrial Engineering. 1-99 Credit.**

Independent investigation in field of industrial engineering to be presented as a thesis. Graded on S/U basis only.

**IMSE 9210. Advanced Linear Optimization. 3 Credits.**

Advanced study of linear programming, including optimization and its application including large-scale optimization, primal-dual methods, decomposition, interior point methods, convex analysis, and integer programming. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 4210/7210.

**IMSE 9230. Stochastic Service Systems. 3 Credits.**

Development and application of stochastic models in the design of service systems in which either demands for service or services supplies, or both, have a probabilistic nature. Prerequisite: Statistics [STAT] 4750, Industrial and Manufacturing Systems Engineering [IMSE] 8230.

**IMSE 9250. Dynamic Programming. 3 Credits.**

Introduces theory and computational aspects of dynamic programming; its application to sequential decision problems. Prerequisites: Industrial and Manufacturing Systems Engineering [IMSE] 4210/7210 and 4230/7230.

**IMSE 9260. Integer and Combinatorial Optimization. 3 Credits.**

Theory, solution methodology, and application of integer and combinatorial optimization. Prerequisite: Industrial and Manufacturing Systems Engineering [IMSE] 8210.

**IMSE 9990. Research-Doctoral Dissertation in Industrial Engineering. 1-99 Credit.**

Independent investigation in field of industrial engineering to be presented as a dissertation. Graded on S/U basis only.

---

## Information Science And Learning Technologies (IS\_LT)

---

**IS\_LT 1111. Information Use and Student Success. 1 Credit.**

In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools.

**IS\_LT 1111H. Information Use and Student Success - Honors. 1 Credit.**

In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools. Honors eligibility required.

**IS\_LT 4360. Introduction to Web Development. 3 Credits.**

Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A/F basis only.

**IS\_LT 4361. Introduction to Digital Media. 3 Credits.**

Hands-on approach to multimedia production techniques. Develops understanding of image software, video software, scanners, digital cameras, digital video cameras, and graphics tablets. Graded on A/F basis only.

**IS\_LT 4364. Flash Authoring. 3 Credits.**

Teaches skills required to plan, develop and evaluate a multimedia project using digital authoring software. Emphasizes instructional design and user interface issues. Course is production-based. Graded on A/F basis only.

**IS\_LT 4370. Intermediate Web Development. 3 Credits.**

Development of design and web authoring skills. Interactivity through use of cgi scripts and javascript. Design capabilities using Style Sheets. Gain expertise required for the production of HTML documents incorporating these advanced techniques. Prerequisite: Information Science and Learning Technology [IS\_LT] 4360 or instructor's consent.

**IS\_LT 7085. Problems in Information Science and Learning Technology. 1-99 Credit.**

Independent, directed study on a topic in the field of information science and learning technologies. Prerequisite: graduate standing and departmental consent.

**IS\_LT 7301. Introduction to Information Technology. 3 Credits.**

The nature of information and information transfer in the institutional setting; covers the culture of information in society, standards for information processing and transfer, and networking in communications perspectives of information providing agencies. Prerequisite: graduate standing.

**IS\_LT 7302. Organization of Information. 3 Credits.**

An overview of the research that addresses information-seeking behavior and the history, background, and development of catalogs and indexes. Prerequisite: graduate standing.

**IS\_LT 7305. Foundations of Library and Information Science. 1 Credit.**

The course introduces students to the background, contexts, organizations, and key issues and terms related to library and information science and the information professions. Prerequisite: graduate standing.

**IS\_LT 7310. Seminar in Information Science and Learning Technology. 1-3 Credit.**

Discussion and critical study of current developments in the field of information science and learning technologies. Prerequisite: graduate standing.

**IS\_LT 7312. Principles of Cataloging and Classification. 3 Credits.**

Theory and practice of cataloging and classification of library materials using current standards and tools. Principles, developments, and trends in cataloging and access to library data. . Prerequisite: Information Science and Learning Technology [IS\_LT] 7305.

**IS\_LT 7313. Managing Collections and Access. 3 Credits.**

Selection of materials for libraries and information agencies, policies for collection management, freedom and diversity of information, access to information and evaluation of collections and access. Prerequisite: graduate standing.

**IS\_LT 7314. Reference Sources and Services. 3 Credits.**

General reference sources with emphasis on print sources. principles, developments and trends in reference services and reference service organization. Prerequisite: graduate standing.

**IS\_LT 7315. Management of Information Agencies. 3 Credits.**

Concepts of management applied to libraries and information systems; management tools, programming, models and simulation in an environment of an information producing or disseminating agency. Prerequisite: graduate standing.

**IS\_LT 7334. Library Information Systems. 3 Credits.**

Focuses on the automated library systems marketplace. Covers integrated online library systems from the systems, functional and user perspective. Includes management approaches for procurement and operation of such systems. Prerequisite: graduate standing.

**IS\_LT 7350. Special Readings in Information Science and Learning Technologies. 1-99 Credit.**

Prerequisites: graduate standing and departmental consent.

**IS\_LT 7357. Web Application Development I. 3 Credits.**

Students learn to develop Web applications to support online learning and collaboration using ASP.Net, PHP, or Java. In this course students will learn fundamental Web programming principles and develop web applications. Specific concepts taught in this course include: reading and writing files to a server, interacting with users through web forms, storing and retrieving data in relational databases (MS SQL, MySQL, or Oracle), objected-oriented programming, and web application security. Also available as 4357 for undergraduate credit. Prerequisites: Intermediate Web Development.

**IS\_LT 7358. Web Application Development II. 3 Credits.**

Building on Web Application Development I, this course covers advanced Web programming techniques and focuses on developing Web-based learning applications. With intensive programming, students will analyze and learn how the applications in existing learning environments operate and interact, and then develop learning applications of their own. Specific concepts covered in this course include task analysis, algorithms, APIs, user rights and permissions, data integrity, flexible design, code documentation, Web Services, Web for mobile handheld devices or Ajax. Also available as 4358 for undergraduate credit. Prerequisites: Web Application Development I.

**IS\_LT 7359. Database Development. 3 Credits.**

Students in this course will learn how to design and develop flexible and efficient data structures to support database driven web applications. Students will develop applications using database management systems, using the Structured Query Language (SQL), and using one of the following programming languages: Perl, PHP, or Java. Specific concepts covered in this course include database data types, table design, SQL statements, optimization, normalization, and security. Prerequisite: Information Science and Learning Technology [IS\_LT] 7357.

**IS\_LT 7360. Introduction to Web Development. 3 Credits.**

Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A/F basis only. Prerequisite: graduate standing.

**IS\_LT 7361. Introduction to Digital Media. 3 Credits.**

Hands-on approach to multimedia production techniques. Develops understanding of image software, video software, and scanners, digital cameras, digital video cameras, graphics tablets. Graded on A/F basis only. Prerequisite: graduate standing.

**IS\_LT 7364. Flash Authoring. 3 Credits.**

Plan, develop, and evaluate a multimedia project using digital authoring software (Macromedia Flash). Emphasizes scripting and user interface issues for web-based animations. Course is production-based. Graded on A/F basis only. Prerequisite: graduate standing.

**IS\_LT 7366. Technology Leadership in Schools. 3 Credits.**

Develop skills, knowledge, and values needed to provide leadership in schools. Analyzes characteristics of effective leaders, focusing on staff development. Explores technology and school reform, technology integration, and current issues. Online. Graded on A/F basis only. Prerequisite: graduate standing.

**IS\_LT 7368. Technology Across the Curriculum. 3 Credits.**

The emphasis in this course is on using technologies to enhance and support student collaboration and learning in K-23 classrooms. Prerequisite: admission to the Teaching Fellowship Program.

**IS\_LT 7370. Intermediate Web Development. 3 Credits.**

Development of design and web authoring skills. Interactivity through use of cgi scripts and javascript. Design capabilities using Style Sheets. Gain expertise required for the production of HTML documents incorporating these advanced techniques. Prerequisite: graduate standing and Information Science and Learning Technology [IS\_LT] 7360 or instructor's consent.

**IS\_LT 7377. Introduction to Technology in Schools. 3 Credits.**

Study of theories and practices associated with educational technology. Explores basic instructional design processes and strategies for integrating technology into teaching and learning. Provides an overview of the EdTech field and a survey of emerging trends. Prerequisites: teaching experience or instructor's consent; graduate standing required.

**IS\_LT 7378. Electronic Portfolio Development. 3 Credits.**

Prerequisite: graduate standing and instructor's consent.

**IS\_LT 7380. School Library Practicum. 1-3 Credit.**

Directed, project-based experience in school libraries. Prerequisites: admission to MA, initial certification or 24 completed LIS credit hours taken at MU; instructor permission.

**IS\_LT 7381. Practicum in Information Agencies. 1-3 Credit.**

Provides a supervised work experience for master's degree students in a public, academic, or special library. Prerequisite: Information Science and Learning Technologies [IS\_LT] 7301, 7302 or 7312, 7314, 7315. Graded on S/U basis only.

**IS\_LT 7466. Computers as Cognitive Tools. 3 Credits.**

Computer-based cognitive tools provide multiple formalisms for representing student knowledge and engage learners in critical, creative, and complex thinking. Cognitive tools include databases, semantic networks, spreadsheets, expert systems, systems modeling, and microworlds, information interpretation and visualization, knowledge construction, and conversation. Prerequisite: graduate standing.

**IS\_LT 7822. College Teaching with Technology I. 1 Credit.**

(same as Education Leadership and Policy Analysis [ED\_LPA] 7822). Examines the use of educational technologies, both classroom-based (e.g., student response systems) and online (e.g., course management systems), to assist in the dissemination of course resources and the facilitation of student interaction.

**IS\_LT 7823. College Teaching with Technology II. 1 Credit.**

(same as Education Leadership and Policy Analysis [ED\_LPA] 7823). Integrates learning technologies into the traditional framework of a face-to-face course by creating a course website and developing technical proficiency with relevant educational technologies. Prerequisite: College Teaching I or instructor's consultation.

**IS\_LT 9085. Problems in Information Science and Learning Technology. 1-99 Credit.**

Independent, directed study on a topic in the areas of information science and learning technologies. Prerequisite: graduate standing; departmental consent.

**IS\_LT 9090. Research in Information Science and Learning Technologies. 1-99 Credit.**

Dissertation research. Graded on S/U basis only. Prerequisite: Doctoral Committee Chair's consent.

**IS\_LT 9404. School Library Administration. 3 Credits.**

Program development, budget process, planning cycle, evaluation; resources and services for diverse school stakeholders. Effects of national, state, district guidelines, standards and policies on P-12 School libraries. Course maybe repeated for credit.

**IS\_LT 9406. Curriculum and the School Library. 3 Credits.**

Focuses in integrating the school library program and collections with curriculum emphasizes diverse student learning styles, role of the school librarian as teacher; use of electronic resources for research, teaching and learning.

**IS\_LT 9408. Information Policy. 3 Credits.**

Examination of the roles of private and public sectors in information policy formation. Includes consideration of social, economic, political and technological issues.

**IS\_LT 9409. Seminar in Digital Libraries. 3 Credits.**

This course is a project-based learning environment that combines Instructor-prepared content, group-based student projects, and threaded asynchronous discussions on selected topics relating to the design, development, and implementation of practical digital libraries. Research directives within the broad domain of digital library development are also covered.

**IS\_LT 9410. Seminar in Information Science and Learning Technology. 1-3 Credit.**

Discussion and critical study of current developments in information science and learning technologies.

**IS\_LT 9412. Information Storage and Retrieval. 3 Credits.**

Introduces students to concepts and terminology associated with the storage and retrieval of bibliographic information. Emphasizes design of applied database management systems.

**IS\_LT 9413. Management of Electronic Resources. 3 Credits.**

This course explores electronic resources (primarily subscription journals and databases) in terms of products, pricing, in-house management of resources, both technical and organizational, licensing, configuring databases and organizing websites for the end user, statistical reporting, and future trends. Graduate Standing Required.

**IS\_LT 9414. Internet Reference. 3 Credits.**

Learn to examine and evaluate web sites, about different search engines, and how to use web sites to answer basic reference questions. Prerequisite or corequisite: Information Science and Learning Technology [IS LT] 7314.

**IS\_LT 9417. Technology Action Research. 3 Credits.**

Study of concepts associated with action research; and the processes and procedures for conducting action research. Culminating project is the development of an action research project. Prerequisite: 12 credit hours completed prior to enrolling.

**IS\_LT 9420. Information in the Disciplines. 3 Credits.**

Provides an understanding of how and why information is produced, stored and communicated in various intellectual disciplines. Students evaluate examples of these activities in specific disciplines.

**IS\_LT 9423. Ethics and Information. 3 Credits.**

This course introduces basic concepts of ethics and focuses on applying ethical norms to the production, dissemination, and use of information. The information services offered by libraries are also examined within the context of ethics. Graduate Standing Required.

**IS\_LT 9428. The History of Books and Printing: The Printed Book. 3 Credits.**

Focuses on the social, cultural, intellectual, and religious elements of books and print culture. The impact on communication and society is especially emphasized. Prerequisites: departmental consent.

**IS\_LT 9431. Children's Library Materials. 3 Credits.**

Evaluation and selection of materials for children birth-age 13 (Grade 6). Early literacy, emergent readers, reader response theory; social, cultural contexts of readers and reading, trends in publishing.

**IS\_LT 9432. Online Searching. 3 Credits.**

Search strategies and techniques for commercial online databases. The course first covers the basic concepts of online information retrieval and then focuses on selection and online searching in the most prominent social science, science, humanities, and numerical databases. Prerequisite: Information Science and Learning Technology [IS\_LT] 4301/7301 and 4314/7314.

**IS\_LT 9433. Youth Services in Libraries. 3 Credits.**

Examines physical, mental, and emotional development of youth birth through high school. Emphasis on community analysis, outreach services, program design and techniques. Graded on A/F basis only.

**IS\_LT 9434. Teen Library Materials. 3 Credits.**

Evaluation, selection of print, alternate formats for teens, 13-18 (Grades 7-12). Personal, social, popular culture contexts of teen readers and texts; emphasizes reader response; challenges common assumptions about teens and reading.

**IS\_LT 9435. Adult Services in Libraries. 3 Credits.**

Library services to adults, including special populations. Emphasis on information needs of adults, organization and management of adult services.

**IS\_LT 9437. Reader Advisory Services. 3 Credits.**

Examination of value and role of leisure reading and leisure reading materials. Coverage of reader advisory techniques, support processes, and resources for providing reader advisory services to various audiences. Graded on A/F basis only.

**IS\_LT 9440. Learning with the Internet. 3 Credits.**

Explores the potential of the Internet to support inquiry-based learning through collaborative activities, research, and authoring/publishing. Investigates goals and strategies of online learning. Examines learning theories and models of teaching/learning in relation to selected Internet activities for K-12 students.

**IS\_LT 9443. The Academic Library. 3 Credits.**

Development, objectives, organization and structure, nature of the collections and responsibility for their development, philosophy of library services, measurement and standards of library effectiveness.

**IS\_LT 9444. The Public Library. 3 Credits.**

Objectives, relations with other institutions, scope of library services, public relations, standards. w, alt. s.

**IS\_LT 9445. Special Libraries and Information Centers. 3 Credits.**

Goals of special librarianship including information provision, management styles. Library functions as performed in special libraries. Contributions of special libraries, such as information analysis centers, information brokering, and accountability for and evaluation of services.

**IS\_LT 9446. International and Comparative Librarianship. 3 Credits.**

International libraries, intercultural information concerns, how information agencies differ between nations and global information issues. Course

presents various countries, their information infrastructures and the influence of information and communication technologies. Graduate Standing Required.

**IS\_LT 9449. Business Information Resources. 3 Credits.**

The course covers the basic concepts of business information and the information searching techniques used for specific business information needs (finding company information, industry information, investment information, statistical information, marketing information, etc.) Graduate Standing Required.

**IS\_LT 9450. Introduction to Research in Library and Information Science. 3 Credits.**

Examination of the nature, utility, and methodologies of research in the profession. Emphasis is on understanding and evaluating potential and actual research.

**IS\_LT 9452. Library Use Instruction. 3 Credits.**

This course considers learning theory applicable to instruction, learning styles, teaching methods, and appropriate evaluation of library use instruction. Students learn strategies for incorporating library instruction into the institutional curriculum.

**IS\_LT 9453. Planning and Evaluation of Information Services. 3 Credits.**

The course focuses on the complexity of the planning process in libraries and other information agencies, including the influence of external environments (upper administrations, user communities, information producers) on planning. Internal elements of the organization (staffing, services, finances) are discussed, as are external elements (requirements of a parent organization, legal constraints, etc.). The role of evaluation of personnel, budgets, facilities, access to information, and services is integrated into the process of providing service. Graduate Standing Required.

**IS\_LT 9454. Copyright in Libraries. 3 Credits.**

An introductory and practical course covering the foundations of copyright, fair use, e-reserves, related laws including DMCA and TEACH and managing copyright in the public and school environments. Graduate Standing Required.

**IS\_LT 9455. Formative and Summative Evaluation. 3 Credits.**

Study of the process of gathering data and making judgments about the effectiveness of instructional programs that uses technology. Covers techniques of a formative evaluation process to revise instruction. Culminating project is planning and conducting a portion of a summative evaluation of instructional program.

**IS\_LT 9456. Designing Computer Support for Collaborative Learning. 3 Credits.**

Students will examine the theoretical bases for using collaboration and social interaction as methods for learning, and learn key methods and approaches for designing computer supported collaborative learning. Graded A?F only.

**IS\_LT 9457. Designing Computer Support for Cooperative Work. 3 Credits.**

Study of the tools and methods of groupware and communities of practice, including their psychological, social and organizational effects. Students focus on designing and developing improved tools and methods. Graded on A/F basis only.

**IS\_LT 9458. Technology and Assessment. 3 Credits.**

Learn how to assess specific types of knowledge, using technology to enhance the process. Explore innovative tools and means of assessment

that help teachers individualize and differentiate instruction to improve learning. Develop technology-enhanced assessment of student learning. Graded on A/F basis only.

**IS\_LT 9459. Designing Direct Instruction. 3 Credits.**

This course focuses on strategies for implementing a systems approach to designing instruction. Emphasis is placed on learning-prerequisite analysis, part-to-whole content organization, and a presentation-practice-feedback instructional sequence. Prerequisite: graduate standing. Graded on A/F basis only.

**IS\_LT 9461. Interaction Design. 3 Credits.**

Students will learn the basic concepts of interaction design, then focus on usability engineering and prototyping principles to support the design process for learning and performance based technologies.

**IS\_LT 9467. Technology to Enhance Learning. 3 Credits.**

Strategies for integrating technology into the teaching and learning process, with a focus on enhancing how students think rather than what they think. Special attention given to supporting higher order thinking and problem solving with technology. Prerequisite: graduate standing.

**IS\_LT 9468. Learning and Task Analysis. 3 Credits.**

Multiple methods for conducting task analysis for learning to identify learning processes, learning topics, and learning experiences, including procedural, prerequisites, cognitive simulations, case libraries, environmental analysis, and decision making.

**IS\_LT 9469. Designing Electronic Performance Support Systems. 3 Credits.**

Performance support systems (PSS) are technology systems that support human activity within the complexities of organizational requirements and processes. Students build competency for designing PSS.

**IS\_LT 9471. Instructional Systems Design. 3 Credits.**

Development of skills and knowledge related to the systematic design of instruction. Emphasis is placed on content analysis, instructional strategies, and formative evaluation. Prerequisites: course in Curriculum or Instruction or instructor's consent.

**IS\_LT 9472. Designing and Modeling Systems. 3 Credits.**

Examination of living systems, general systems theory, and the art and practice of the learning organization.

**IS\_LT 9473. Project Management. 3 Credits.**

This course introduces the learner to the necessary and practical project management concepts and skills that lead to reductions in project cycle time while maintaining control over budget, resources, risk, and delivered value. This course proposes to integrate practical project management skills within the project management lifecycle (i.e., initiating, planning, executing, controlling, and closing).

**IS\_LT 9474. Needs Assessment for Learning and Performance. 3 Credits.**

Analyze learning and performance needs and opportunities using a systemic framework and associated strategies and techniques. Develop needs assessment instruments, collect data, and prepare recommendations for improvement. Prerequisite: graduate standing.

**IS\_LT 9475. Diffusion of Educational Innovations. 3 Credits.**

In-depth analysis of innovation development and adoption processes in educational organizations, including schools, universities, and training centers.

**IS\_LT 9476. Instructional Design Models and Strategies. 3 Credits.**

This course introduces learners to fundamentals concepts of instructional design strategies. To provide an anchor for the design concepts and strategies studied, the course offers a project and case-based approach to learning instructional design skills. Emphasis is placed on the design of learning resources most appropriate for the goals of the instruction being created and implementing these strategies and tactics in an instructional program.

**IS\_LT 9478. Designing Problem-Based Learning Environments. 3 Credits.**

Based on theories of situated learning, constructivism, everyday cognition, case-based reasoning, and activity theory, students will design and develop a learning environment that engages learners in constructive learning and problem solving with emphasis on assessing higher-order learning. Graded on A/F basis only.

**IS\_LT 9480. Internship in Information Science and Learning Technologies. 1-99 Credit.**

Provides internship experience under supervision in advanced levels of practical experience in Information Science and Learning Technology Research and Teaching. Graded on S/U basis only. Prerequisite: School director's consent.

**IS\_LT 9483. Capstone: Online Educator Focus Area. 1 Credit.**

Culminating course for Online Educator focus in Educational Technology graduate degree. Design/develop/evaluate an online course or rework existing course. Analyze evaluation data from two external reviewers (novice/expert). Write paper describing results and modifications. To be taken during last semester of student's program. Graded on S/U basis only.

**IS\_LT 9484. Teaching Online Courses. 3 Credits.**

Examines emerging issues in teaching and learning online; instructor and student roles; instructional strategies for supporting diverse learners; methods of student assessment; online communication; classroom management; characteristics of online learning management systems. May be repeated for credit.

**IS\_LT 9485. Designing and Implementing Online Courses. 3 Credits.**

Students will practice designing online lessons for meaningful learning outcomes such as knowledge construction, building models, knowledge transmission, and community building and working collaboratively, and learn essential online course implementation skills. Graduate standing required.

## **Information Technology (INFOTC)**

**INFOTC 1001. Topics in Information Technology. 3 Credits.**

Topics may vary from semester to semester. May be repeated upon consent of department.

**INFOTC 1610. Introduction to Entertainment Media. 3 Credits.**

This course is an introduction to the basic fundamentals of entertainment products such as postproduction technology, camera and lighting technology, audio creation and mixing technology, and broadcast technology. Computer programs designed for visual special effects are used.

**INFOTC 2001. Topics in Information Technology. 3 Credits.**

Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A/F basis only.

**INFOTC 2600. Digital Multimedia. 3 Credits.**

This course introduces broad views of concepts, software, hardware, and solutions in entertainment media applications. It will examine career options in fields such as information technology, news, film production and postproduction, website design, advertising, or communication.

**INFOTC 2610. Audio/Video I. 3 Credits.**

This is an introductory course on digital audio and video editing. Background presented in the course will include an overview of the techniques used in modern Non-Linear video editing, and understanding of block editing, and why it is essential when using modern digital technology. The course is hands-on with students at workstations, learning the software directly at the keyboard, and working on assignments in a lab context.

**INFOTC 2620. Computer Modeling and Animation I. 3 Credits.**

Introduction to the field of computer modeling and animation with an emphasis on tools. Learn programming methods for developing customized modeling and animation algorithms. Prerequisites: Computer Sciences [CMP\_SC] 1050, and 2050 concurrently. Graded on A/F basis only.

**INFOTC 2810. Fundamentals of Network Technology. 3 Credits.**

This course includes an overview of networking and the common wireless standards. Prerequisites: Computer Sciences [CMP\_SC] 1050. Graded on A/F basis only.

**INFOTC 2910. Cyber Security. 3 Credits.**

This course covers numerous platform-independent security topics including threats, problem ports and services, theory and practice of defense in security, intrusion detection, data security, securing remote access, user education and support, designing a secure network and security management. Prerequisites: Computer Sciences [CMP\_SC] 1050, Information Technology [INFOTC] 2810. Graded on A/F basis only.

**INFOTC 3001. Topics in Information Technology. 3 Credits.**

Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A/F basis only.

**INFOTC 3610. Audio/Video II. 3 Credits.**

This course presents broad professional techniques for completing an off-line edit and the progression to online and finishing, adding depth to topics introduced in A/V I. Students will gain experience in editing techniques involving dialogue, action, documentaries, music videos, and multi-camera projects. The course also introduces special effects, audio finishing, clip and media management, and use of various media formats. Prerequisites: Information Technology [INFOTC] 2610 and co-requisites Computer Sciences [CMP\_SC] 2050.

**INFOTC 3620. Computer Modeling and Animation II. 3 Credits.**

This course covers advanced methods for modeling and animation with an emphasis on computer science theory and virtual reality. Prerequisites: Information Technology [INFOTC] 2620 and Computer Science [CMP\_SC] 2050. Graded on A/F basis only.

**INFOTC 3630. Introduction to Game Design. 3 Credits.**

This class will focus on the theory, design, and implementation of games. Students will learn about designing and implementing vital components for modern game engines, with respect to data structures, algorithms, content, development tools, and optimization strategies. In addition, students will use the Valve Source Engine (used to power Half-Life 2) to develop their own mod. The final project is a fully functional game. Prerequisite: Information Technology [INFOTC] 2620, Computer Science [CMP\_SC] 2050.

**INFOTC 3640. Digital Effects. 3 Credits.**

This course is an introduction to the fundamentals of digital motion picture effects technology. This course is designed for a student interested in pursuing a career in information technology, news, film production and film postproduction, website design, or communication. Prerequisites: Information Technology [INFOTC] 1610 or 2610.

**INFOTC 3850. Computer System Administration. 3 Credits.**

This course will cover network management tools, network maintenance, data management, remote access management, management tasks, responsibilities and ethics, required plans and policies, design of a well-managed network. Some work will be done in both Windows and Linux environments. Prerequisites: Computer Science [CMP\_SC] 2050, junior standing. Graded on A/F basis only.

**INFOTC 4001. Topics in Information Technology. 3 Credits.**

Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A/F basis only.

**INFOTC 4390. Database Administration. 3 Credits.**

This course is designed to give a firm foundation in Database Administrators' tasks. The primary goal is to give necessary knowledge and skills to setup, maintain and troubleshoot an Oracle database. This is an instructor-led course featuring lecture and hands-on exercises. Online demonstration and written practice sessions reinforce the concepts and skills introduced. The course defined objectives are designed to support preparation for the Oracle Certified Professional examination. Prerequisites: CMP\_SC 4380.

**INFOTC 4400. C#/.NET Development. 3 Credits.**

Learn how to develop and debug multi-threaded Windows desktop applications based on the object-oriented (OO), Model-View-Controller (MVC), and Model View ViewModel (MVVM) paradigms using C#, .NET, Windows Presentation Foundations (WPF), and Visual Studio. Prerequisite: Computer Science [CMP\_SC] 2050. Graded on A/F basis only.

**INFOTC 4500. Team-Based Mobile Device Application Development. 3 Credits.**

This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Prerequisites: Computer Science [CMP\_SC] 2050 (for CMP\_SC/INFOTC majors) and instructor's consent. Graded on A/F basis only.

**INFOTC 4630. Game Design II. 3 Credits.**

This course explores 1) the manual and procedural development of static and dynamic game content, 2) programming for gameplay, interactivity, UI, game Artificial Intelligence, and 3) algorithms, ADTs, and research vital to game design. Prerequisite: Information Technology [INFOTC] 3630.

**INFOTC 4640. Digital Effects II. 3 Credits.**

This course builds on fundamentals of digital motion picture effects technology learned in Digital Effects I. Computer programs designed for digital visual special effects in film and broadcast are integrated throughout the course. Prerequisites: Information Technology [INFOTC] 3640.

**INFOTC 4650. Shader Programing. 3 Credits.**

The focus of this course is modern computer graphics algorithms and programming, with an emphasis on games, shader languages, (GLSL and Cg) and Graphical Processor Units (GPUs). Prerequisites: Computer Science [CMP\_SC] 2050, Information Technology [INFOTC] 2620.

## **Integrative Neuroscience (NEUROSCI)**

---

### **NEUROSCI 7990. Non-Thesis Research in Neuroscience. 1-3 Credit.**

The course is intended primarily for post-baccalaureate students who have not entered a formal graduate program but who are performing neuroscience research. Graduate standing required. Consent of instructor required. Graded on A/F basis only.

### **NEUROSCI 8020. Advances in Neuroscience and Neuropathology. 1-3 Credit.**

In depth review of recent advances in basic neuroscience research as well as pathological conditions affecting nervous systems at the cellular and systems level, and the methods and techniques used to study the nervous system. Graduate standing required. Graded on A/F basis only.

### **NEUROSCI 8090. Thesis Research in Neuroscience. 1-6 Credit.**

The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graduate standing required. Consent of instructor required. Graded on A/F basis only.

### **NEUROSCI 8187. Neuroscience Journal Club. 1 Credit.**

In depth readings and presentations/discussions of neuroscience journal articles including recent advances in basic neuroscience research, pathological conditions affecting nervous systems, and neuroscience techniques. Graduate Standing required. Graded on S/U basis only. May be repeated for credit.

### **NEUROSCI 8440. Integrative Neuroscience I. 3 Credits.**

(same as BIO\_SC 8440). Organization, development and function of the nervous system focusing on cellular and molecular processes. Graduate standing required. Graded on A/F basis only.

### **NEUROSCI 8442. Integrative Neuroscience II. 3 Credits.**

(same as BIO\_SC 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graduate standing required. Graded on A/F basis only.

### **NEUROSCI 9090. Thesis Research in Neuroscience. 1-6 Credit.**

The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graduate standing required. Instructor consent required. Graded on A/F basis only.

## **Interdisciplinary Studies (INTDSC)**

---

### **INTDSC 1001. Proseminar in Interdisciplinary Studies. 1 Credit.**

Lecture/discussion survey of time-management, note taking techniques, in the context of the three courses that are part of a Freshman Interest Group. Regular use of library, electronic mail and computing facilities is stressed. Elective credit only; students cannot receive credit for Interdisciplinary Studies [INTDSC] 2001 and Interdisciplinary Studies [INTDSC] 1001 or 1150. Graded on S/U basis only.

### **INTDSC 1020. University Freshmen Seminar. 1 Credit.**

(same as Student Success Center [SSC] 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. Prerequisite:

Restricted to first time college student. No credit for students who have earned credit for Agriculture, Food and Natural Resources [AFNR] 1115, Interdisciplinary Studies [INTDSC] 1001, Information Science and Learning Technology [IS\_LT] 1110, Education Leadership and Policy Analysis [ED\_LPA] 3100 or an equivalent first year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in Student Success Center [SSC] 1020 and Student Success Center [SSC] 1150 in the same semester.

### **INTDSC 1940. Internship. 0-1 Credit.**

Limited to freshmen/sophomores who are "undecided" or otherwise not accepted into a major. Graded on S/U basis only.

### **INTDSC 2001. Proseminar in Interdisciplinary Studies. 1 Credit.**

Lecture/discussion survey of a range of issues of special importance for transfer students new to the University. Elective credit only; no credit for Interdisciplinary Studies [INTDSC] 1001 and/or Student Success Center [SSC] 1150. Graded on A/F basis only.

### **INTDSC 2940. Internship in Interdisciplinary Studies. 1-6 Credit.**

Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only.

### **INTDSC 2960. Readings in Interdisciplinary Studies. 1-6 Credit.**

Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.

### **INTDSC 4940. Internship in Interdisciplinary Studies. 1-6 Credit.**

Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only. Departmental Consent Required.

### **INTDSC 4960. Readings in Interdisciplinary Studies. 1-6 Credit.**

Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.

### **INTDSC 4970. Service Learning Project.. 3-6 Credit.**

Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Restricted to Interdisciplinary [INTDSC], General [G\_STDY] and International [INTL\_S] studies students. Graded A-F only.

### **INTDSC 4971. Capstone Internship in Interdisciplinary Studies. 1-6 Credit.**

Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Graded on S/U basis only. Section 2 of this course will be designated for Service Learning Capstone experience.

## **Internal Medicine (IN\_MED)**

---

### **IN\_MED 6002. Internal Medicine Clerkship. 6 Credits.**

Internal Medicine Clerkship.

### **IN\_MED 6012. Rural Internal Medicine Clerkship. 6 Credits.**

Rural Internal Medicine Clerkship.

**IN\_MED 6102. Remediation 6002 Internal Medicine Clerkship. 6 Credits.**

Internal Medicine Clerkship Remediation. Prerequisite: 6002 Internal Medicine Clerkship, received unsatisfactory grade.

**IN\_MED 6261. ABS Medicine Investigation. 5 Credits.**

ABS Medicine Investigation.

**IN\_MED 6263. ABS Internal Medicine Research. 5-10 Credit.**

ABS Internal Medicine Research.

**IN\_MED 6265. ABS IN MED RSCH/REVIEW. 5 Credits.**

ABS in Medicine Research Review.

**IN\_MED 6267. ABS Quality Improvement and Patient Safety. 5 Credits.**

ABS Quality Improvement and Patient Safety.

**IN\_MED 6365. ABS Internal Medicine Research and Review. 5-10 Credit.**

ABS Internal Medicine Research and Review.

**IN\_MED 6450. DERMATOLOGY I. 5 Credits.**

Dermatology I.

**IN\_MED 6500. Cardiology Consultation Service. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: On the inpatient cardiology consultation block, the senior student gains experience in cardiology consultation at either the University Hospital or the Harry S Truman VA Hospital. Through active participation in the consult service the student is provided the opportunity to acquire knowledge of cardiovascular anatomy, physiology, cardiovascular pharmacology, prevention of cardiovascular disease, risk factors for cardiac disease, lipid disorders, chronic coronary artery disease management and its complications, cardiac arrhythmias and conduction abnormalities, hypertension, valvular heart disease, cardiomyopathy, pericardial disease, pulmonary heart disease, peripheral vascular disease, cerebral vascular disease, adult congenital heart disease, and pre- and post-operative assessment of patients with or without cardiac problems. Evaluations: Students will be evaluated using the standard department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment. Notes: Objectives will be met by: Student participation in M-F rounds with cardiology faculty and cardiology post-doctoral fellows. Students do not take call during this rotation and there are no required weekend hours. Students will have the opportunity to assist with patients on the cardiology service. Students are assigned patients and are expected to thoroughly review the patient's record (old & new), elicit a pertinent history, perform a physical exam, review pertinent laboratory, radiology and cardiology procedures and to present these findings to the attending cardiologist. Students are expected to follow assigned patients on a daily basis and to participate in the management plan. Students are expected to actively participate in Cardiology conferences from Monday through Friday at 7:30 a.m. On Mondays and Tuesdays interesting EKGs, echoes, graphic material or research efforts are presented. The Wednesday conference is a combined conference with Thoracic Surgery and Cardiology and centers around case presentations. The Thursday conference is Cardiology Grand Rounds where a clinical or

basic science cardiovascular topic is reviewed by the Cardiology faculty or guest faculty. The Friday conference is the Clinical conference in which a case is presented with a review of literature. Students also have the opportunity to learn to interpret EKGs with faculty and fellows after each morning conference held in Diagnostic Cardiology, room 1E-66.

**IN\_MED 6507. Endocrinology/Metabolism. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: The Endocrinology rotation is designed to enable the student to deal with clinical problems in Diabetes endocrinology and metabolism with particular emphasis on the more common problems in an ambulatory setting. During the rotation the student will have the opportunity to see patients with a wide range of endocrine disorders. These patients will be used as the focus for teaching with the emphasis placed on differential diagnosis, pathophysiology, management, and how the disorder affects the patient as a whole. By the end of the rotation the student should be able to evaluate and manage (with supervision) patients with: 1. Diabetes Mellitus 2. Hypoglycemia 3. Thyroid disorders including goiters, thyroid nodules, hyperthyroidism and hypothyroidism 4. Adrenal disorders including adrenal incidentalomas, Cushing and Hyperaldosteronism 5. Pituitary problems including hypopituitarism, conditions due to pituitary hormone excess that including Cushing's disease, acromegaly and prolactinoma. 6. Calcium abnormalities including hyperparathyroidism, hypoparathyroidism, hypercalcemia, hypocalcaemia and osteoporosis. 7. Polycystic ovarian syndrome. Evaluations: The course grade will be based on students' skill in performing a history and physical exam, the quality of the presentation, the quality of their knowledge base and the quality of their interactions. An exit interview will take place on the last day of the block. There is no exam at the end of this rotation. Notes: Students will have an orientation on the first day in room D109. During the elective rotation students will participate in all clinical activities of the division. Clinics: The Endocrine Service has a strong ambulatory curriculum with daily outpatient clinics held in the Cosmopolitan International Diabetes and Endocrinology Center. These clinics provide the student with the opportunity to evaluate patients with a wide variety of endocrine disorders. Students are assigned patients and are expected to thoroughly review the patients' record (old and new), elicit a pertinent history, perform a physical exam, and review pertinent laboratory and radiology testing and to present results to the attending endocrinologist.. If interested, students can get involved in inpatient consultations in conjunction with the fellow on call. The student may evaluate inpatients referred for consultation (UHC, VA hospital and MMMH) and present them to the attending physician during attending rounds. Students will be given interesting articles related to Diabetes Mellitus and Endocrinology to read during the rotation. The student will be given handouts about common Endocrine problems with case discussions. Tuesday afternoon - Students will participate in the following presented by faculty, Fellows and staff: 1) Case Conference 2) Journal Club 3) Research Conference and 4) Endocrine Board Review Recommended Reading and References: Williams Textbook of Endocrinology (up to date) Students are encouraged to do Medline and PubMed searches. Each student can have a 1/2 day per week for independent study.

**IN\_MED 6508. General Internal Medicine Outpatient. 5 Credits.**

General Internal Medicine Outpatient.

**IN\_MED 6509. Internal Medicine Off-Site Elective. 5 Credits.**

Internal Medicine Off-Site Elective.

**IN\_MED 6511. Quality Improvement and Patient Safety. 5 Credits.**

Quality Improvement and Patient Safety.

**IN\_MED 6513. Infectious Diseases. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: The goals of the Infectious Diseases elective will be to: 1. Teach the student how to be an effective consultant. 2. Assist the student in his/her knowledge of disease processes. 3. Help the student improve his/her history taking and physical examination skills. 4. Enhance the student's knowledge regarding the use of antimicrobial agents. 5. Improve the student's understanding of the diagnosis and management of commonly-encountered infectious diseases with attention to the use of the history and readily available laboratory tests. Evaluations: The student will be evaluated predominantly by his/her performance on the consultation service. In addition, at the end of the rotation the student will be given a written examination which will consist of multiple choice questions. The material covered on the examination will be comprehensive and is designed to test general knowledge of infectious diseases. The written exam constitutes approximately 10% of the grade. Notes: The student's major responsibilities during an infectious diseases elective rotation will involve participation in the consultation process. The student's experience will be supplemented by conferences and selected readings. Specific activities include the following: 1. Infectious Diseases Consultation Service The student will have the opportunity to see and evaluate at least one patient per day. Attending rounds will be held 6 days per week. At attending rounds, the student will present his/her patients to the attending physician. At the time of presentation, the student should also have a plan for diagnosis and therapy. The student will see patients in consultation, make daily rounds on his/her patients and be present at the attending physician rounds. He/she will be responsible for a daily update of his/her patients to the attending. 2. Student Lecture Series This 12-lecture series, specifically designed for students, features lecture discussions by faculty and fellows concerning the diagnosis and treatment of common infectious diseases. Topics included in the lecture series are: 1) use of antibiotics (I, II and III); 2) anti-tuberculosis and antifungal; 3) pneumonias; 4) skin/soft tissue infections; 5) sexually transmitted diseases; 6) urinary tract infections; 7) infectious endocarditis; 8) central nervous system infections; 9) acute infectious diarrheas; 10) AIDS. Conferences Case Review Conference During this conference, the consultation service presents cases that have been unusually perplexing or complicated for review by the entire division. Students may be called upon to present cases at this conference. Journal Club This conference consists of a review of recent journal articles pertaining to infectious diseases and is led by faculty and fellows. Didactic Conference The Didactic Conference is an in-depth review of a topic by a faculty or fellow. 4. Student Syllabus The infectious diseases student syllabus is a practical guide to the diagnosis and treatment of common infectious diseases. Written by the infectious diseases faculty, it parallels the student lecture series in scope and content. 5. Reprint File The Division maintains a reprint file of over 4,000 articles on various aspects of infectious diseases. Arranged topically, these reprints have become a popular and easily accessible resource for students rotating on the service.

**IN\_MED 6515. Problems in Medical Ethics. 5 Credits.**

Problems in Medical Ethics.

**IN\_MED 6517. Geriatrics-Internal Medicine Elective. 5 Credits.**

Geriatrics-Internal Medicine Elective.

**IN\_MED 6671. General Medicine - Offsite. 5 Credits.**

This course was established to accommodate fourth year medical students who wish to take an elective at another medical institution. There is no specific maximum number of students who will be permitted to enroll in this course.

**IN\_MED 6700. Cardiology Consultation Services - Rural. 5 Credits.**

Cardiology Consultation Services - Rural.

**IN\_MED 6702. Immunology/Rheumatology - Rural. 5 Credits.**

Immunology/Rheumatology - Rural.

**IN\_MED 6704. General Internal Medicine Outpatient - Rural. 5 Credits.**

General Internal Medicine Outpatient - Rural.

**IN\_MED 6705. Pulmonary Medicine - Rural. 5 Credits.**

Rural Pulmonary Medicine general elective. Prerequisites: Internal Medicine [IN\_MED] 6002. Restricted to fourth year medical student.

**IN\_MED 6707. General Internal Medicine Outpatient - Rural. 5 Credits.**

The 4th year medical student will work with an IM community-based faculty member at a rural training site. Students will see patients in clinic, perform the history and physical examination, and develop an assessment and plan for these patients on their own. They will then discuss with the community-based faculty member and see the patient together. The 4th year student will complete oral presentations and document encounters as directed by the community-based faculty member. Prerequisites: Internal Medicine [IN\_MED] 6002, 4th year medical student. Course may be repeated for credit.

**IN\_MED 6750. DERMATOLOGY 1-RURAL. 5 Credits.**

Dermatology 1 - Rural.

**IN\_MED 6800. Coronary Care Unit. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: During the Coronary Intensive Care Unit rotation, the medical student is provided the opportunity to acquire knowledge in the evaluation and management of acute and chronic coronary artery disease, life threatening cardiac arrhythmias, acute severe congestive heart failure, acute valvular disease, acute infective endocarditis, hypertensive emergencies, cardiac tamponade, aortic dissection, aortic pulmonary embolism, life threatening complications of cardiac therapy, hypotension, and shock. The Coronary Intensive Care rotation allows the student to evaluate and treat these patients in close conjunction with medical residents, cardiology fellows and cardiology faculty. Evaluations: Students will be evaluated using the standard Department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment. Notes: The objectives will be met by students functioning as a junior intern with responsibility for performing history, and physical examinations, and making daily assessments of patients in the Coronary Intensive Care Unit and the Cardiology Ward. Students will have the opportunity to assist with patients on the cardiology service. Students are assigned patients and are expected to thoroughly review the patient's record (old & new), elicit a pertinent history, perform a physical exam, review pertinent laboratory, radiology and cardiology procedures and to present these findings to the attending cardiologist. Students are expected to follow assigned patients on a daily basis and to participate in the management plan. Rotations are available at the University Hospital. Students will make daily rounds with residents, fellows, faculty, and nurses. Call is optional. Students are expected to actively participate in Cardiology conferences from Monday through Friday

at 7:30 am. On Mondays and Tuesdays presentations of interesting EKGs, echoes, graphic material or research efforts are presented. The Wednesday conference is a combined conference with Thoracic Surgery and Cardiology with case presentations. The Thursday conference is Cardiology Grand Rounds. A clinical or basic science cardiovascular topic is reviewed by the Cardiology faculty or guest faculty. The Friday conference is the Clinical conference in which a case is presented with a review of the literature. Students have the opportunity to learn to interpret EKGs with faculty and fellows after each morning conference held in Diagnostic Cardiology, room 1E-66.

**IN\_MED 6801. Diabetes Mellitus Externship. 5 Credits.**

Diabetes Mellitus Externship.

**IN\_MED 6802. Gastroenterology. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: Medical students will be assigned to the inpatient GI consultation service, where they will see and evaluate patients, read about their problems, and present them to the GI fellow and/or teaching attending. They should attend all endoscopic procedures on the patients they follow on the inpatient service. They should also attend a sampling of outpatient procedures each week in the Endoscopy Center. As time permits, they may be assigned to one or more GI clinics during the rotation as well. Medical students will be expected to attend all GI conferences during the rotation. These are held on Tuesdays, Wednesdays, and Thursdays, and are detailed on the monthly GI calendar. Students are also encouraged to attend Internal Medicine Grand Rounds and Internal Medicine Morning Report. They may also be assigned to give one formal presentation during their rotation. It is recommended that they read the entire GI-Liver section of the Internal Medicine textbook that they used on their third-year Internal Medicine Clerkship. Evaluations: Ongoing feedback is provided to the student during the rotation. At the end of the rotation, a formal written evaluation will be prepared by the inpatient attending, in conjunction with the GI fellow with whom the resident/medical student worked with. Conference participation is factored in. There is no written or oral examination. Notes: The following are the educational purposes of the rotation: 1. They will gain exposure and acquire experience in the evaluation and management of adult patients with a broad range of acute and chronic GI problems. 2. They will develop an appreciation of standard GI endoscopic procedures, such as how they are done, indications, contraindications, potential findings, limitations, and complications. 3. Medical knowledge is enhanced in a number of ways-- through patient care contacts, by attending teaching rounds, by reading about the problems and conditions their patients have, and through teaching conferences they attend and participate in during the rotation. It is also recommended that the student read the entire GI-liver section of the Internal Medicine textbook that they used on their third-year Internal Medicine rotation. 4. The rotation will provide medical students with exposure to practice-based learning and improvement that involves the investigation and evaluation of care for their patients, the appraisal and assimilation of scientific evidence, and improvement in patient care. The rotation will also provide them with exposure to systems-based practice as manifested by actions that demonstrate an awareness and responsiveness to the larger context and system of health care, as well as the ability to call effectively on other resources in the system to provide optimal health care. 5. As medical students go about their supervised clinical duties they will develop improved communication skills that result in effective exchange of information and collaboration with patients, their families, and other health professionals. 6. The rotation will provide medical students with the ability to develop competence in professionalism, manifested through a commitment to

carrying out professional responsibilities, adherence to ethical principles, and sensitivity to patients of diverse backgrounds. Teaching Methods-- The principle teaching method is case-based discussions by medical student with the fellow and attending physician on the consult service. Residents and medical students initially evaluate the patient, including performing a history and physical exam, and gathering appropriate laboratory and x-ray data. They should do preliminary educational reading about the case at this point. The case is then presented to the GI fellow and/or attending. The fellow/attending verify key portions of the history and physical exam. The fellow and attending also provides teaching and discussion on pertinent clinical and pathophysiologic aspects of the case. Medical students are also expected to attend various endoscopic procedures, such as EGD, PEG placement, colonoscopy, capsule endoscopy, and ERCP. Teaching on this rotation is also supplemented by conference attendance, conference discussions, and by independent self-learning. Lines of Supervision-- The inpatient service has a designated GI fellow and attending physician who are responsible for the supervision of the medical student. The GI fellow will assign inpatient consults for the medical student to see. Cases will generally first be presented to the GI fellow, and then later to the attending on teaching rounds. Educational Resources to be Used--Medical students are encouraged to read the entire GI-liver sections of the internal medicine textbook they own and use. In addition, GI division libraries contain a number of GI-liver textbooks and other educational resources. The University of Missouri Health Sciences Library contains a vast array of helpful reference books, journals, interlibrary loan services, and the like. Medline searches can be conducted on-line (via the internet) through the Health Sciences Library website. UpToDate Online is available to all medical students, and is a tremendous clinical and educational resource. Met Research and Writing Projects.-- Students interested in performing a research project, writing up a case report, or writing a review article for publication may discuss matters with a faculty member. Generally, this should be done well in advance of when the student wants to do the project. Contact information-- On the first weekday of the rotation, the medical student should report to Sharon Young in room M580 at 8:00 am for their schedule and rotation materials (phone number 882-7758). The student may also contact Dr. John Marshall or Dr. Jamal Ibdah if they have questions.

**IN\_MED 6803. Subinternship in Internal Medicine. 5 Credits.**

Prerequisites: Internal Medicine Clerkship and M4 status. Goals/Objectives: The internal medicine subinternship builds on the skills begun during the internal medicine clerkship and prepares the student for the internship year. 1. Students will refine and further develop skills in: a. Physical exam, history taking, chart review, and written notes; b. Problem list development and management plan; data interpretation and synthesis; c. Oral presentation; d. Interpersonal relations with patients, families, staff and peers ; e. Time management i. Self-directed learning ii. Evidence-based medicine 2. Expand knowledge base in general internal medicine 3. Assume primary responsibility for inpatient care 4. Further develop in the role of primary care giver Evaluations: Patient management skills, medical record keeping, presentation skills, knowledge base, and ability to handle responsibility will be carefully observed by both the senior ward resident and the attending physician. Students will receive constructive feed-back/suggestions for improvement throughout the rotation from both the attending and the senior ward resident. The attending, with input from the senior ward resident and the third year students, will report the final scores using the Department of Internal Medicine standard electives evaluation form. Students will meet with the attending physician at the end of the block to discuss their performance. Students will not receive elective credit for three

weeks rotations. Notes: CLINICAL COMPETENCIES Communication - Interns play a key role in communicating aspects of patient care to patients and healthcare providers, often in diverse clinical situations. Specific learning objectives: Coordination of care - Interns plan a central role in coordinating a patient's care, both during hospitalization and upon transition from the inpatient to outpatient setting. This involves communication between the patient and his/her family, colleagues, consultants, members of the health care team, and other hospital personnel. Appropriate management and coordination is essential to ensure optimal patient care. Specific learning objectives: Information management - The subinternship presents an opportunity for fourth year medical students to gain experience with procedures that are commonly performed by interns and residents. Specific learning objectives CURRICULUM 1. Core Reading: Students should have access to a comprehensive medicine text such as Harrison's or Cecil's and will be required to read on their patients' problems and present their conclusions in a clear and concise manner. Subinterns are encouraged to expand their data base by reading standard text and current journal articles on each of their patient's problems including the inactive problems. Additional topics may be assigned. 2. Conferences: Students will attend house staff morning report and resident noon conferences daily. In addition, faculty and residents will conduct teaching rounds 2-5 times weekly. 3. Training Problems: Students will work through a series of training problems of commonly encountered internal medicine chief complaints involving history taking and physical examination, test interpretation, communication and relationships with colleagues, and therapeutic decision making. Attendings and residents may incorporate these training problem modules in teaching rounds. The training problems are listed below: a. Abdominal Pain b. Acute Gastrointestinal Bleeding c. Acute Pulmonary Edema d. Acute Renal Failure e. Altered Mental Status f. Arrhythmias g. Chest Pain h. Drug Withdrawal i. Electrolyte Disorders j. Fever k. Glycemic Control l. Hypertensive Urgencies and Emergencies m. Nausea and Vomiting n. Pain Management o. Respiratory Distress p. Seizures q. Shock.

**IN\_MED 6804. Geriatrics - Internal Medicine @ VA. 5 Credits.**

Geriatrics - Internal Medicine @ VA.

**IN\_MED 6805. Hematology and Medical Oncology Chronic Care. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: The specific objective of the course is to assist the student in developing a greater understanding for the care of chronically ill patients with hematologic and neoplastic diseases. Evaluations: The student's evaluation is based predominantly on his/her performance in presentation and in written chart notes of patients under the student's care. This evaluation will be by the attending physician with whom the student has worked. The standard department student elective evaluation form will be used to document student performance. Notes: The curriculum in hematology and medical oncology chronic care consists primarily of the inpatient service on the Ellis Fischel Cancer Ward at University Hospital and outpatient experience at the Ellis Fischel Cancer Center. Conferences and an opportunity for independent study in the learning center will supplement the student's educational experience. When feasible, advance arrangements may be made for a student to work predominantly with an attending physician of his/her choice. Students will have the opportunity to assist with the management of patients on the medicine Hematology-Medical Oncology inpatient service. Students are expected to thoroughly review the patient's records (old and new), elicit a pertinent history, perform an appropriate physical exam, assemble pertinent lab data and present these findings to the attending hematologist/oncology.

Following a thorough discussion, a consensus opinion is written and recorded in the patient's chart. The student is expected to read the standard oncology or hematological textbook, and to present their conclusion in a clear and concise manner to the attending.

**IN\_MED 6806. Immunology/Rheumatology. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: Traditional education in medical school is oriented to acute episodic care. However, it should be appreciated that arthritis and musculoskeletal diseases constitute a significant percentage of the total visits to primary care physicians (published estimates range from 8 to 20%). The Immunology and Rheumatology elective provides a unique opportunity for medical students to increase their understanding regarding patients with these diseases. The overall curricular objectives of this elective include: 1. Basic Information. The student should be able to: a. Perform a medical history and screening physical examination with attention to symptoms and signs of rheumatic disease. Understand the basic pathophysiology and clinical diagnosis of common arthritic and musculoskeletal diseases in adults. b. Understand the natural history of rheumatic diseases, particularly rheumatoid arthritis, soft tissue rheumatism, degenerative joint disease, systemic lupus erythematosus and spondyloarthropathies. c. Understand the short and long term management of rheumatic conditions and apply these principles together with overall clinical judgment in the management of individual patients. These therapeutic measures include: 1. drug therapy, 2. physical rehabilitative measures, and 3. surgical intervention. d. Learn the uses and pitfalls of laboratory tests in practice. e. Formulate ways to approach the emotional problems of patients with chronic disease. f. Understand the value of the comprehensive approach in arthritis treatment including patient education, the role of the allied health professional and community resources. 2. Skills. The student should be able to: a. Perform a thorough musculoskeletal examination and be able to correctly interpret the physical findings. b. Identify the following changes on x-rays: i. Joint space narrowing ii. Erosions iii. Osteophytes and syndesmophytes iv. Chondrocalcinosis and other changes associated with crystal-induced arthropathies v. Juxta-articular osteopenia vi. Soft tissue swelling c. The student may get the opportunity to aspirate joints or inject soft tissue. The student should be able to interpret synovial fluid findings 3. Basic Attitudes and Behavior. The student should: a. Develop a positive approach to the patient with arthritis; learn to make specific diagnoses, to use optimal therapy, and to appreciate the necessity of patient education and attending to the emotional needs of the patient with a chronic disease. b. Recognize limitations and utilize consultation with the rheumatologist, orthopedist, psychiatrist, physiatrist, and other specialists as indicated. c. Be able to work with allied health professionals and utilize community resources effectively in managing patients. d. Take an interest in community health programs and in the education of professionals and the public. e. Develop a strong motivation for continuing education. "Evaluations: Personal discussions with faculty will be utilized to provide the student with an indication of progress or deficiencies. Students' skill in performing a history and physical exam, the quality of their knowledge base, and the quality of interactions will constitute the basis of grade assignment. We have a set of goals for teaching by fellows and faculty. Students will be asked to complete an evaluation form to provide us with their assessment of the effectiveness of this program in stimulating their learning in the area of arthritis and musculoskeletal disease. Notes: A four-week curriculum is offered. Specific experiences which will be utilized to pursue the above objectives include: 1. Rheumatology Inpatient and Outpatient Consult Service: a. The student will evaluate patients seen in consultation, present them to the Fellow and Attending physicians, and accompany the Rheumatology Fellow and Attending on

consult rounds in the University Hospital and VA Hospital. b. The student will be instructed in the proper examination of joints with appropriate "hands on" teaching. c. The student will learn the basic treatment for patients with rheumatic diseases. 2. Rheumatology Clinics: The student is expected to attend the UMC Fellows Clinic 2-3 times where he/she evaluates new patients, presents them to the attending, formulates a diagnostic and treatment plan, and follows up that patient as time allows. The student is encouraged to accompany an attending in one of their weekly clinics. 3. Student Didactic Sessions and Conferences: Didactic lectures and focus groups on common and important rheumatological topics will be presented by Immunology/Rheumatology Division members for students and house officers during the block during: a. Specifically appointed didactic sessions b. Rheumatology Grand Rounds c. Didactic Weekly Review Course d. Basic Science - Immunology Update - Journal Club Meeting ie. Rheum Team Conference Topics could include: RA, OA, antiphospholipid antibodies, MCTD, autoantibiotics, scleroderma, SLE, pediatric rheumatology, and psychological aspects of rheumatologic diseases. 4. Conferences include: a. Rheumatology Grand Rounds - (usually at 3:00 pm on Thursdays) features weekly case presentations that illustrate important aspects of adult and pediatric rheumatologic disease. This will also include some didactic sessions on radiology, pathology, physical medicine, and physical therapy. b. Rheumatology Basic Science Immunology Journal Club (Weekly on Thursday at 2:00 pm, see detailed schedule available in I & R Office).patient with rheumatic disease. (Usually monthly, Thursday at 4:00 pm--check detailed schedule available in I&R office). 5. Basic Educational Materials This monthly meeting focuses on the review, by faculty and fellows, of important articles from the Immunology and Rheumatology literature., basic science review, divisional research interests/topics. b. Rheumatology Conference This monthly multi-disciplinary offers the opportunity to observe the interrelationship of the disciplines most critical patient with rheumatic disease. The Primer on Rheumatic Disease, a syllabus on arthritis and rheumatism b. A CD ROM with selected readings, list of objectives, x-ray findings and problem cases c. The American College of Rheumatology (ACR) case curricula, x-ray collections and disease review CDs are made available for review and will be the basis of some specialty didactic sessions. d. CD-ROMs i. CD-ROMs for evaluating basic rheumatologic diseases and pathology, radiology of such diseases. ii. CD-ROM - Case Review (ACR) iii. CD-ROM - Radiology Review (ACR).

#### **IN\_MED 6807. Medical Intensive Care. 5 Credits.**

Prerequisites: Internal Medicine Clerkship; M4 status. Goals/Objectives: 1. Under the supervision of the medical critical care attending, the medical students are part of a team providing assessment, management, and follow-up of critically ill patients. Students will be intimately involved in this multidisciplinary approach to patient care. As a member of the ICU patient management team, the student will work collaboratively with residents, fellows, medical attendings, nurses, pharmacists, respiratory therapists and the nutritional support staff. The team will work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology and pathology laboratory departments, and chaplain services. 2. To become familiar with the basic pathophysiology and management of common diseases encountered in the critical care setting including: a. Multi-organ system dysfunction and acute respiratory distress syndrome (ARDS) b. States of hypoperfusion or shock c. Sepsis and other systemic manifestations of infection and inflammation d. Nosocomial and community acquired infections e. Gastrointestinal hemorrhage and ischemia f. Acute exacerbations of chronic airflow obstruction such as COPD and asthma g. Acute renal failure and means of renal replacement therapy h. Electrolyte abnormalities and acid-base disorders, including diabetic

ketoacidosis and hyperosmolar states i. Neurologic emergencies such as cerebral vascular accidents j. Toxicologic emergencies such as overdoses and poisoning k. Cardiac abnormalities such as pulmonary edema, and acute heart failure l. Acute and acute-on-chronic respiratory failure and mechanical ventilation management (noninvasive and invasive) 3. To gain experience and understanding (including indications, alternatives, and estimation of risks and benefits) of both invasive and noninvasive procedures used to monitor and manage critically ill patients. Common procedures include central venous lines, pulmonary artery catheters (Swan-Ganz catheters), and arterial lines. 4. To gain knowledge of the unique pharmacological agents including vasoactive, inotropic, sedative, analgesic, and neuromuscular blocking agents used in the critical care environment. 5. To understand the principles and gain experience in application of integrated physiology in: a. hemodynamic monitoring and concepts of oxygen delivery and consumption b. assisted ventilation, including principles of oxygenation, ventilation, and cardiopulmonary interactions c. renal replacement therapies d. nutritional assessment and support (enteral and parenteral) e. interpretation of radiographs and use of both invasive and noninvasive radiographic techniques f. application of echocardiography g. endoscopic studies 6. To gain insight and experience with the basic ethical principles such as patient autonomy and concept of futility care. To understand the humanistic aspects of death and dying and the psychosocial needs of patients and their families, as well as the special contribution of members of the health care team including nurses, social service workers, and chaplains. Assume role as a team member in end-of-life care and decision-making. 7. To develop and utilize interpersonal skills to work with and to communicate effectively with all team members, patients, and their families. Leadership skills necessary to direct the overall care of critically ill patients will be developed. 8. To integrate basic sciences, physiology, clinical sciences and bedside management, ethical, and socioeconomic aspects of patient care to allow delivery of comprehensive care to critically ill patients. 9. To gain insight in concepts of goal-directed care, cost effective care and resource utilization. Evaluations: Students are evaluated by their clinical performance during the month. Key aspects include: 1. Clinical knowledge, bedside skills, procedure skills, and admission and daily notes 2. Participation and contribution during rounds 3. Interpersonal skills with patients, family members, and other team members Evaluation is by means of the standard Department of Medicine student evaluation form. The attending and the fellow both contribute to this evaluation. There is no written examination. The final letter grade will be determined by all of the faculty. The course grade will be based on students' skill in performing a history and physical exam, the quality of the presentation, the quality of their knowledge base, and the quality of their interactions. Students will not receive credit for three weeks rotations. Notes: Conferences: Students are expected to attend and participate in the various conferences. (For a current list of conferences, see the monthly calendar in MA419.) Educational Resources: A variety of resources are available during this rotation. Each student will be expected to learn from: a. Attendance and participation in daily work rounds, attending rounds, conferences, didactic lectures, daily note writing and chart review. Students will have the opportunity to assist with patient management in the ICU. Students are assigned patients and are expected to thoroughly review the patients record (old and new), elicit a pertinent history, perform a physical exam, review pertinent laboratory, radiology, and other procedures and to present these findings to the attending and critical care team. Students are expected to follow assigned patients on a daily basis and to participate in the management plan for these patients. b. Experience from direct patient management, collaboration with team members and with consultants. In

addition, pertinent journal articles and standard critical care textbooks and monographs will be made available. Students will be expected to become familiar with the use of computerized literature searches in critical care medicine. While "handbooks," such as those authored by Marino or Marini and Wheeler, may be of benefit, these should be secondary references. c. Experience of patient-focused care and communication with family members and significant others, and surrogate decision makers.

**IN\_MED 6808. Nephrology Advanced Elective. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: This elective builds on the knowledge and skills students have acquired in the third year course in Internal Medicine. Students will have the opportunity to perform histories and physicals, participate in the decision-making process of patient management, and be responsible for daily follow-up in patients with fluid and electrolyte problems, acid-base disturbances, acute and chronic renal failure and a variety of renal diseases. The focus in these areas will be at a much higher level of responsibility and management than in the third-year course. Specific learning objectives: To develop the student's clinical skills in the diagnosis and management of patients with a variety of fluid and electrolyte, acid-based and renal problems in both the inpatient and outpatient settings. To expand the student's knowledge base in fluid and electrolyte disorders, acid-base disturbances, a variety of renal diseases including renal failure. To expand the student's knowledge of the proper use of special renal laboratory tests. To allow the student exposure to the treatment regimens for patients with renal failure and patients pre- and post-renal transplantation. Evaluations: Students will have direct discussions with their attendings about their performance at mid-block and at the conclusion of the block. The Department of Internal Medicine provides an evaluation form which is completed by the attendings with whom the student has worked. Students have the opportunity to review and discuss these evaluation forms. Evaluation is based on the student's skills in performing a history and physical examination, the quality of their presentation, the quality of their knowledge base, the quality of their interactions and input, and their overall interest and industry. Notes: CURRICULUM: Students will be assigned to a team consisting of one attending plus fellows and residents. Students will work up patients independently then review their findings with the team at attending rounds. Special division activities that impact on student education include the following: Nephrology Consultations: Students are assigned patients in which nephrology consultation is requested. The student will make the initial workup of these patients. This will include performing a chart review, physical examination and urinalysis on the patient, and studying any special radiological procedures that may have been performed. The student will be expected to make formal presentations to the attending physician on the consult service and then follow each patient on a daily basis as necessary. Students will participate in the management plan development on their patients. Attending rounds will be held on a daily basis. A variety of formats will be used by the attending physician, but attending rounds will encompass a review of old patients, presentation of new patients, and didactic conferences. Didactic Discussions: Students are expected to attend all conferences and lectures in the division. Students will have didactic sessions with faculty to discuss reading assignments and fluid and electrolyte problem solving. Conference descriptions along with the conference schedules are available in the Nephrology Office. Sample Conference Descriptions: Dialysis & Transplant Evaluation Conference: This conference is every Wednesday starting at 12 noon in the acute dialysis conference room, 4W40. The conference focuses on patients with chronic renal failure and in need of dialysis and or transplantation, who have recently been

evaluated by the nephrology service. Students will be expected to make patient presentations when they are assigned patients that are discussed at this conference. Pathology Conference: This conference is on Wednesday of every week at 12:30 pm, in room MA223. Students will be responsible for presenting patients and assisting with the organization of this conference. Biopsies will be presented when available. If biopsy cases are not available, teaching cases will be discussed. Night and Weekend Call: Students will have the option of being called for nighttime and weekend patient-care opportunities with the Fellow and/or Faculty member on call. Call is optional and not required. Learning Resources: Students will have access to the Nephrology Division Library containing Nephrology texts and journals.

**IN\_MED 6809. Pulmonary Medicine Diagnostic Services. 5 Credits.**

Prerequisites: Internal Medicine Clerkship. Goals/Objectives: The Pulmonary Medicine Service is designed to allow students to participate in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow up of existing known disease processes. This service evaluates and assists in management of adult patients at the University or VA Medical Centers. Either rotation includes intensive care unit patients with primary surgical or cardiac diagnoses, the rotation at the VA Medical Center also includes intensive care unit patients with primary medical diagnoses. The team consists of 1 Attending, 1 Fellow, and student(s). In general, 1-2 internal medicine residents are also team participants. The rotation will introduce the student to major clinical entities including the diagnosis and management of infectious lung disorders, neoplasms of the lungs, chronic obstructive pulmonary disease, asthma, acute respiratory failure, occupational pulmonary disease and interstitial lung disorders. The student will be introduced to the variety of diagnostic tests including radiographic studies, fiberoptic bronchoscopy, pulmonary function testing, cardiopulmonary exercise testing, surgical lung biopsy, thoracentesis and pleural biopsy, and arterial blood sampling. Students also participate in consultation on patients requiring outpatient pulmonary clinic evaluation. Each student is encouraged to spend extra time in the pulmonary function lab, and have pulmonary function tests and cardiopulmonary exercise tests done on themselves, depending on available time. Each student rotating through the pulmonary service will be expected to evaluate and present patients fully on a daily basis to the pulmonary consult team, including the attending physician. The student will have an opportunity to assist fellows and faculty with procedures such as bronchoscopy and thoracentesis. Students will have the opportunity to interpret pulmonary function tests, chest radiographs and other radiographic studies such as computed tomography and nuclear medicine studies of the thorax. 1. Conferences Chest Radiology Conference (1st Tuesday of each month, 12:00 - 1:00 pm in M253). Educational films and diagnostic dilemmas are presented in coordination with Pulmonary and Radiology Attending Faculty and Fellows in a clinically oriented fashion. Lung Pathology Conference (3rd Monday of each month, 12:00 - 1:00 pm in MA223). Common and unusual lung and pleural biopsy specimens of current clinical cases are reviewed in coordination with Pulmonary and Pathology Department Attendings, Residents, and Fellows. Chest/Thoracic Surgery Conference (1st & 3rd Wednesday of each month, 5:00 - 6:00 pm, MA406B). Routine and Challenging cases are openly presented with chest x-rays and CAT scan for a multidisciplinary approach to patient care management. Pulmonary Fellows Seminar (Monday and Wednesday, 12:00 - 1:00 pm in conference room C5005; July through September) . Fellows and faculty members discuss current didactic subjects, research interests, or review state-of-the-art literature in the field of pulmonary, critical care, and environmental medicine. Additional Weekly Conferences are available (See Monthly Calendar

in MA-419). 2. Reading A collection of pertinent articles, monographs and textbooks of pulmonary diseases are available for review. Students are encouraged to perform literature searches on matters of clinical concern on the service. An intensive review of the pulmonary sections of the internal medicine textbook each student has selected as a primary reference is recommended. 3. Ambulatory experience Three MU pulmonary and one weekly VA subspecialty clinic, are available to meet the various needs and interests of the students. Students are expected to participate actively in the VA clinic and in at least one MU pulmonary subspecialty clinic with fellows or faculty on the service. Evaluations: Students are evaluated by their clinical performance during the month rotation. Evaluation is by means of the standard Department of Medicine student evaluation form. The attending and the fellow both contribute to this evaluation. There is no written examination. The course grade will be based on students' skill in performing history and physical exam, the quality of the presentation, the quality of their knowledge base, and the quality of their interaction with patients, other students, residents, and faculty, and the quality of their written notes.

**IN\_MED 6820. General Medicine - Offsite. 5 Credits.**

This course was established to accommodate fourth year medical students who wish to take an elective at another medical institution. There is no specific maximum number of students who will be permitted to enroll in this course.

**IN\_MED 6821. Internal Medicine Off-Site Selective. 5 Credits.**

Internal Medicine Off-Site Selective.

**IN\_MED 6850. DERMATOLOGY 2. 5 Credits.**

DERMATOLOGY 2.

## International Studies (INTL\_S)

---

**INTL\_S 2940. Capstone Internship in International Studies. 1-6 Credit.**

Internship limited to students pursuing the AB in International Studies Degree. Graded on S/U basis only. May be repeated to a maximum of six hours.

**INTL\_S 2960. Capstone Readings in International Studies. 1-6 Credit.**

Independent readings with supervisory faculty member. Open only to international studies majors. May be repeated up to a maximum of 6 hours.

**INTL\_S 4290. Pre-Departure Seminar for the TaLK Program. 3 Credits.**

Prior to beginning the TaLK Program in Korea, students will explore Korean language, culture and educational system through seminars and workshops provided by the Asian Affairs Staff and guest speakers. Course is by instructor consent only. Graded A-F only.

**INTL\_S 4940. Internship in International Studies. 1-6 Credit.**

Internship limited to students pursuing the AB in International Studies degree. Graded on S/U basis only. May be repeated to a maximum of six hours.

**INTL\_S 4960. Readings in International Studies. 1-6 Credit.**

Independent readings with supervisory faculty member. Open only to International Studies majors. May be repeated up to a maximum of 6 hours.

**INTL\_S 4970. Special Readings in International Studies. 1-6 Credit.**

Independent readings with supervisory faculty member; this course serves as the students' capstone experience. Open only to International studies majors.

**INTL\_S 4971. Capstone Internship in International Studies. 1-6 Credit.**

Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Graded on S/U basis only. Section 2 of this course will be designated for Service Learning Capstone experience.

## Italian (ITAL)

---

**ITAL 1100. Elementary Italian I. 5-6 Credit.**

Intensive approach to beginning language. Designed to give students an overview of the grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet A&S or Journalism foreign language requirements.

**ITAL 1200. Elementary Italian II. 5-6 Credit.**

Continues basic grammar and syntax of Italian . Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet A&S or Journalism foreign language requirements. Prerequisite: grade of C- or better in Italian [ITAL] 1100 or its equivalent.

**ITAL 1200H. Elementary Italian II - Honors. 5-6 Credit.**

Continues basic grammar and syntax of Italian . Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet A&S or Journalism foreign language requirements. Prerequisite: grade of C- or better in Italian [ITAL] 1100 or its equivalent. Honors eligibility required.

**ITAL 2001. Undergraduate Topics in Italian-General. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. Prerequisite: departmental consent for repetition.

**ITAL 2004. Undergraduate Topics in Italian-Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. Prerequisite: departmental consent for repetition.

**ITAL 2005. Undergraduate Topics in Italian-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. Prerequisite: departmental consent for repetition.

**ITAL 2160. Intermediate Composition and Conversation. 3 Credits.**

Reviews main grammar components of Italian. Emphasis is on acquiring the communicative and compositional skills required to study and discuss Italian literature. Prerequisite: Italian [ITAL] 1200.

**ITAL 2310. Italian Civilization. 3 Credits.**

Open to any student interested. No knowledge of Italian required. Prerequisite: sophomore standing.

**ITAL 2850. Italian Cinema. 3 Credits.**

(same as Film Studies [FILM\_S] 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII

era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required. Prerequisite: sophomore standing.

**ITAL 3001. Topics in Italian-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition. No knowledge of Italian required.

**ITAL 3005. Topics in Italian-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition. No knowledge of Italian required.

**ITAL 3150. Advanced Italian Conversation. 3 Credits.**

This course will develop the student's ability to speak and understand the oral expression of Italian. Focus will be on learning new idiomatic expressions and an acquisition of new vocabulary. Prerequisite: Italian [ITAL] 2160.

**ITAL 3160. Advanced Italian Composition. 3 Credits.**

An advanced grammar course that endeavors to a) develop writing skills in connection with a variety of text types; b) refine study skills; and c) improve style through the study of contemporary Italian culture. Prerequisite: Italian [ITAL] 2160.

**ITAL 3310. 20th Century Italian Fiction in Translation. 3 Credits.**

This course is designed to present American students with a selection of Italian novels aimed at introducing them to some key issues in the historical, social, and literary developments of Italian life from the turn of the century to the 1960s. Prerequisite: sophomore standing or English [ENGLISH] 1000.

**ITAL 3420. Introduction to Italian Literature. 3 Credits.**

This course introduces students to the literacy terminology that will enable them to study Italian literature. Prerequisite: Italian [ITAL] 2310 recommended; basic reading knowledge of a Romance Language is also recommended.

**ITAL 3430. Survey of Italian Literature. 3 Credits.**

Designed to expose students to the rich variety of Italian letters. Emphasis will be placed on textual analysis as well as on authors, themes and stylistic features. Prerequisite: Italian [ITAL] 2310 recommended; basic reading knowledge of a Romance Language is also recommended.

**ITAL 3820. Films of Federico Fellini. 3 Credits.**

(same as Film Studies [FILM\_S] 3820). In studying the filmic career of one of the supreme stylists of the cinematic world, students will view films from each phase of Fellini's career. Prerequisite: Italian [ITAL] 2850 or English [ENGLISH] 1810 or 1820; instructor's consent.

**ITAL 4070. Intensive Beginning Italian. 3 Credits.**

Designed for rapid acquisition of a reading knowledge of Italian. Cannot be taken to fulfill undergraduate language requirement. Prerequisites: instructor's consent.

**ITAL 4960. Special Readings in Italian. 1-3 Credit.**

Independent study through readings, conferences, reports.

---

## Japanese (JAPNSE)

---

**JAPNSE 1100. Elementary Japanese I. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly.

**JAPNSE 1200. Elementary Japanese II. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly. Prerequisite: C- or better in JAPNSE 1100, or equivalent.

**JAPNSE 2001. Topics in Japanese-General. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester.

**JAPNSE 2005. Topics in Japanese - Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. No knowledge of Japanese required. No language credit.

**JAPNSE 2160. Japanese Conversation and Composition. 3 Credits.**

Prerequisite: C- or better in Japanese [JAPNSE] 1200, or equivalent.

**JAPNSE 2310. Japanese Civilization I. 3 Credits.**

Survey of Japanese culture and arts before 1868. May be taken independently of Japanese [JAPNSE] 2320. No knowledge of Japanese required. No foreign language credit.

**JAPNSE 2320. Japanese Civilization II. 3 Credits.**

Survey of Japanese culture and arts after 1868. May be taken independently of Japanese [JAPNSE] 2310. No knowledge of Japanese required. No foreign language credit.

**JAPNSE 2330. The World of Japanese Business. 3 Credits.**

Designed to assist the student to achieve successful business contacts with Japanese counterparts by understanding the characteristics of Japanese business in cultural, economical, and practical contexts and by learning useful Japanese terms and expressions in business. Prerequisite: sophomore standing.

**JAPNSE 3085. Problems in Japanese. 1-3 Credit.**

Supervised study in Japanese language and/or culture. Prerequisite: instructor's consent.

**JAPNSE 3160. Intermediate Japanese Composition and Conversation. 3 Credits.**

Further develops oral command of Japanese as well as listening comprehension and further essay writing skills. Prerequisite: C- or better in Japanese [JAPNSE] 2160.

**JAPNSE 3320. Classical Japanese Literature (in translation). 3 Credits.**

This course studies Classical Japanese Literature preceded by a brief historical survey of Japanese literature. Analyzes such works as "The Tale of Genji", "Essays in Idleness", "The Pillow Book", "Hojoki" and NO drama. Readings and lectures in English. Prerequisite: sophomore standing.

**JAPNSE 3360. Modern Japanese Literature (in Translation). 3 Credits.**

Surveys Japanese literature from 1868 to present. Analyzes works by such authors as Soseki, Tanizaki, Kawabata, Mishima, Oe, Murakami, and others. Readings and lectures in English. Prerequisite: sophomore standing.

**JAPNSE 3370. Intermediate Readings in Japanese. 3 Credits.**

Develops reading and speaking skills and acquisition of more Kanji, vocabulary, and complex structures. Prerequisite: C- or better in Japanese [JAPNSE] 3160, or equivalent, or instructor's consent.

**JAPNSE 3380. Intermediate Japanese II. 3 Credits.**

Continues development of intermediate reading, listening, speaking, and writing skills achieved in Japanese [JAPNSE] 3370, with attention to vocabulary acquisition, expansion of knowledge of kanji, and

understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multi-media materials also help students gain greater familiarity with Japanese culture. Encourages development of student autonomy in language learning with the introduction and use of appropriate reference materials. Prerequisite: Japanese [JAPNSE] 3370.

**JAPNSE 3850. Traditional Japanese Theatre. 3 Credits.**

Study of the history, scripts, and performance techniques of Japanese theatre from 14th century through late 19th century. Examines major plays (in English translations) and the culture that created them. Looks at staging and performance techniques of traditional puppet theatre. Course included stage performances and performances on campus and/or in the community. Prerequisite: Sophomore standing or consent of instructor.

**JAPNSE 3880. Japan and its Cinema. 3 Credits.**

Survey and analysis of selected Japanese films from the 1940s to present. Films will be viewed and discussed in terms of history, techniques, artistry, and social impact. English subtitles. No foreign language credit. Prerequisite: sophomore standing or instructor's consent.

**JAPNSE 4005. Topics in Japanese - Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken Japanese [JAPNSE] 3370 or equivalent. Prerequisites: instructor's consent, sophomore standing.

**JAPNSE 4160. Advanced Japanese I. 3 Credits.**

Continues development of reading, listening, speaking, writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature, exercises using authentic multi-media materials. Encourages development of student autonomy in language learning with introduction and use of appropriate reference materials. Prerequisites: Japanese [JAPNSE] 3380 or equivalent, or instructor's consent.

**JAPNSE 4180. Advanced Japanese II. 3 Credits.**

This course continues the development of reading, listening, speaking, and writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multimedia materials also help students gain greater familiarity with Japanese culture. The course encourages the development of student autonomy in language learning with the introduction and use of appropriate reference materials. Prerequisite: Japanese [JAPNSE] 4160.

## Journalism (JOURN)

---

**JOURN \_0900. News Practicum. 3 Credits.**

Instruction in fundamentals of newswriting for students entering the graduate program without an undergraduate degree in journalism.

**JOURN 1000. The News Media: Journalism and Advertising in a Democratic Society. 3 Credits.**

This course surveys the fields of journalism and advertising and discusses their role in a democratic society.

**JOURN 1010. Career Explorations in Journalism. 1 Credit.**

Colloquium in which experts discuss their specialties and answer students' questions on the nature and current status of their disciplines. Open primarily to freshmen. Graded on S/U basis only.

**JOURN 1010H. Career Explorations in Journalism - Honors. 1 Credit.**

Colloquium in which experts discuss their specialties and answer students' questions on the nature and current status of their disciplines. Open primarily to freshmen. Graded on S/U basis only. Honors eligibility required.

**JOURN 1100. Principles of American Journalism. 3 Credits.**

Course designed to acquaint students with concepts and functions of journalism in American society. Stresses the basic issues and problems facing journalists and the mass media. Prerequisites: Restricted to first-time college students with a high school core GPA of 3.0 or higher and 15 college credits (dual, AP, IB or other), or current students with 15 completed credits and UM GPA of 2.75. Restricted to Pre-Journalism, Journalism and Science and Agricultural Journalism students only.

**JOURN 1940. Pre-Sequence Internship. 0-1 Credit.**

Internship for Journalism students who have not yet entered their emphasis areas. Used to satisfy employer requirements. Prerequisite: journalism students only; instructor's consent required. Graded on S/U basis only.

**JOURN 2000. Cross-Cultural Journalism. 3 Credits.**

Cross-Cultural Journalism provides journalistic tools for the coverage of diverse ethnic, gender, ability and ideological groups inside and outside the United States. The critical role of diverse voices in a democracy will be discussed. Prerequisites: sophomore standing required; Journalism [JOURN] 1100 and UM GPA of 2.8. Should be taken concurrently with JOURN 2100 or 2150. Restricted to Pre-Journalism, Journalism and Science and Agricultural Journalism Students Only.

**JOURN 2100. News. 3 Credits.**

Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. Prerequisite: sophomore standing; English [ENGLSH] 1000 with "B-" grade or higher, Journalism [JOURN] 1100 and 2.8 UM GPA. Should be taken concurrently with Journalism [JOURN] 2000. May not be taken concurrently with Journalism [JOURN] 2150. Restricted to Pre-Journalism, Journalism, and Science and Agricultural Journalism students only.

**JOURN 2100H. News. 3 Credits.**

Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. Prerequisite: sophomore standing, English [ENGLSH] 1000 with "B-" grade or higher, Journalism [JOURN] 1100 and 2.8 UM GPA. Should be taken concurrently with Journalism [JOURN] 2000. May NOT be taken concurrently with [JOURN] 2150. Restricted to Honors-eligible Pre-Journalism, Journalism and Science and Agricultural Journalism students only.

**JOURN 2150. Fundamentals of Multimedia Journalism. 3 Credits.**

This course deals with the challenges faced by journalists and other communicators working with still photos, audio, video and print. Students learn the basics and ethics of cross-platform, multimedia storytelling. Prerequisites: sophomore standing and a UM GPA of 2.8. May not be taken concurrently with Journalism [JOURN] 2100. Restricted to Pre-Journalism, Journalism and Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 3000. History of American Journalism. 3 Credits.**

American mass media from colonial days to present in the context of social, economic and political change.

**JOURN 3510. Think Global: Fundamentals of Globalization and Digital Technologies. 3 Credits.**

(same as GERMAN 3510). This inter-departmental course serves as the introductory seminar for students pursuing the certificate of Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. Prerequisite: JOURN 1100 and a 2.75 GPA or instructor's consent.

**JOURN 3510H. Think Global: Fundamentals of Globalization and Digital Technologies - Honors. 3 Credits.**

(same as GERMAN 3510H). This inter-departmental course serves as the introductory seminar for students pursuing the certificate of Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. Prerequisites: Sophomore standing or instructor's consent required. Honors eligibility required.

**JOURN 4000. Communications Law. 3 Credits.**

Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas.

**JOURN 4050. Communications Practice. 1-3 Credit.**

Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4056. Intersession Colloquium. 1 Credit.**

Lecture portion of any course the student plans to take later during an intersession. Prerequisite: Dean's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4058. New York Program: Journalism Theory and Practice. 2-3 Credit.**

Interdisciplinary course offering on-site study at national media venues in New York. Journalism alumni working in Manhattan provide weekly discussions on contemporary practices, job networks and work experiences. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4116. Managing and Leading People. 1 Credit.**

Dramatic changes in technology and in the media's role in covering technologies requires new management and leadership techniques and paradigms based on new management theories. Students will write case studies examining these changes and applying these new theories. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4120. New Media Basics. 1 Credit.**

Students will learn how to use the Internet to communicate with others, find human and electronic sources for stories and publish on the World Wide Web. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4122. Fundamentals of Data Reporting. 1 Credit.**

Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. Prerequisite: Journalism [JOURN] 2100. This course is not to be taken by students who have already completed [JOURN]

4430/7430. Restricted to Journalism and Science and Agricultural Journalism Students only. Graded on A/F basis only.

**JOURN 4126. Digital Audio and Visual Basics for Journalists. 1 Credit.**

Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals. Restricted to Journalism and Agricultural Journalism majors only.

**JOURN 4130. Account Services. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in account services. Section topics vary. Restricted to Strategic Communications students only.

**JOURN 4136. Creative Techniques. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in creative work. Section topics vary. Restricted to Strategic Communications students only.

**JOURN 4138. Public Relations Techniques. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary. Restricted to Strategic Communications students only.

**JOURN 4140. Interactive Techniques. 1 Credit.**

Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary. Restricted to Strategic Communications students only.

**JOURN 4146. Strategic Communication Techniques. 1 Credit.**

Designed for advanced strategic communication students. Section topics vary. Restricted to Strategic Communications students only.

**JOURN 4148. Interviewing Essentials. 1 Credit.**

This class allows students to focus on the journalistic interviewing process, from spot news interviews to the sort of interviews required for personality, sports and in-depth work.

**JOURN 4150. Using Infographics. 1 Credit.**

An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics. Prerequisites: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4152. Concepts in Participatory Journalism. 1 Credit.**

Journalists need to know how to be in conversation with their communities rather than lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Prerequisite: Journalism [JOURN] 2100, 2150. Graded on A/F basis only.

**JOURN 4198. Area Seminar. 3 Credits.**

Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4200. Principles of Strategic Communication. 3 Credits.**

Foundation course familiarizing students with an array of strategic communication tools and how they are used in the field. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4204. Introduction to Strategic Writing and Design. 3 Credits.**

This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Prerequisite: junior standing; restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors only. Graded on A/F basis only.

**JOURN 4206. Strategic Writing I. 3 Credits.**

Students learn strategic writing for a variety of media such as print, radio, television, outdoor, new media, news releases, pitch letters and other persuasive messages. Prerequisites: Journalism [JOURN] 4200, 4226, 4952. Restricted to Strategic Communications students only.

**JOURN 4208. Strategic Writing II. 3 Credits.**

Advanced course in the creation of advertising and public relations materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining. Prerequisite: Journalism [JOURN] 4206. Restricted to Strategic Communications students only.

Course focuses on the role that research, sponsorship, advertising, public relations, social media, positioning, target marketing, psychographics, and other strategic communication processes play the promotion of the sports and entertainment industry. The course will critically analyze and examine how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage tickets sales, and attract large audiences.

**JOURN 4216. Media Sales. 3 Credits.**

Focus of this course is to familiarize students with how to sell a variety of media, including newspaper, radio, television, outdoor, new media, and others. Prerequisites: Journalism [JOURN] 4206. Restricted to Strategic Communications students only.

**JOURN 4218. MoJo Advertising Staff. 3 Credits.**

Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative media and research. Other electives required based on position. Application required. Prerequisites: Journalism [JOURN] 4206 or 7206. Restricted to Strategic Communications students only.

**JOURN 4220. Creative Portfolio. 3 Credits.**

Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity. Prerequisites: core courses and Journalism [JOURN] 4208. Restricted to Strategic Communications students only.

**JOURN 4226. Strategic Design and Visuals I. 3 Credits.**

Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts. Prerequisite: junior standing. Restricted to Strategic Communications students only.

**JOURN 4226H. Strategic Design and Visuals I - Honors. 3 Credits.**

Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts. Restricted to Strategic Communication students only with junior standing or higher. Honors eligibility required.

**JOURN 4228. Strategic Design and Visuals II. 3 Credits.**

Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Prerequisite: Journalism [JOURN] 4206. Restricted to Strategic Communication students only.

**JOURN 4236. Psychology in Advertising. 3 Credits.**

Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the "lifestyle" factor) to understand consumer wants and buying behavior. Prerequisite: Journalism [JOURN] 4200, 4952, 4226.

**JOURN 4238. Broadcast Advertising. 3 Credits.**

Broadcast advertising production. Emphasis on equipment, directing, script/storyboard preparation and commercial analysis. Students become familiar with procedures, techniques and facilities used in basic radio and television production. Prerequisites: Journalism [JOURN] 4206. Restricted to Strategic Communications students only.

**JOURN 4240. Direct and Mail Order Advertising. 2 Credits.**

Direct mail advertising and mail order promotion, retail and national; mailing lists, copy, production, postal regulations, strategy. Prerequisite: Journalism [JOURN] 4206. Restricted to Strategic Communications students only.

**JOURN 4248. Media Strategy and Planning. 3 Credits.**

Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media. Prerequisite: Journalism [JOURN] 4200, 4952, 4226. Restricted to Strategic Communications students only.

**JOURN 4250. Management of Strategic Communication. 3 Credits.**

How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths. Prerequisites: Journalism [JOURN] 4200/7200, 4226/7226 and 4952/7952. Restricted to Strategic Communications students only.

**JOURN 4256. Public Relations. 3 Credits.**

Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for profit organizations. Prerequisite: Journalism [JOURN] 4200. Restricted to Journalism Strategic Communication and Science and Agricultural Journalism students only.

**JOURN 4258. Global Communication. 3 Credits.**

Understanding global communication systems with an emphasis on planning and executing strategic communication campaigns. Particular attention will be paid to cultural, political and economic differences as they affect marketing and development communication. Prerequisites: Journalism [JOURN] 4200, 4226, 4952. Restricted to Strategic Communications students only.

**JOURN 4262. Interactive Advertising I. 3 Credits.**

Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Prerequisite: Journalism [JOURN] 4200, 4226 and 4952. Graded on A/F basis only. Restricted to Strategic Communication students only.

**JOURN 4263. Interactive Advertising II. 3 Credits.**

Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed for those who want a career in interactive advertising. Prerequisite: Journalism [JOURN] 4262. Restricted to Journalism Strategic Communication students only. Graded on A/F basis only.

**JOURN 4268. Strategic Communication Practicum. 3 Credits.**

Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms. Prerequisite: Journalism [JOURN] 4206 for Advertising students, JOURN 4306 for Broadcast students, JOURN 4450 for News-Editorial and Magazine students, JOURN 4556 for Photojournalism students. Restricted to Strategic Communication students only.

**JOURN 4270. Public Relations Writing. 3 Credits.**

Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Prerequisites: Journalism [JOURN] 4206 and 4256. Graded on A/F basis. Restricted to Strategic Communication students only.

**JOURN 4300. Broadcast News I. 3 Credits.**

Beginning reporting and news writing for radio, television and their on-line services. Introduction to use of audio and video recorders and editing systems in production of news stories. Consideration of ethical issues, economic factors, relationships with news sources and gender and ethnic diversity in the newsroom and in news stories. Prerequisite: Journalism [JOURN] 2100.

**JOURN 4301. Topics in Journalism. 1-3 Credit.**

Selected current topics in journalism. Specific topics to be announced at time of registration.

**JOURN 4306. Broadcast News II. 3 Credits.**

Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms. Prerequisite: Journalism [JOURN] 4300.

**JOURN 4308. Broadcast News III. 3 Credits.**

Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories. Prerequisite: Journalism [JOURN] 4306.

**JOURN 4310. News Producing. 3 Credits.**

Instruction in techniques of television newscast preparation. Emphasis on role of the television news producer. Prerequisite: Journalism [JOURN] 4308.

**JOURN 4320. Advanced Broadcast Reporting. 3 Credits.**

In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA. Prerequisites: Journalism [JOURN] 4308.

**JOURN 4328. Advanced News Communication. 1 Credit.**

This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students

will anchor KOMU-TV's morning newscasts. Prerequisite: graduate standing and Journalism [JOURN] 4306.

**JOURN 4330. From Murrow to Moore: What Good Journalists Read. 3 Credits.**

Introduces undergraduates to seminal works in broadcast and print Journalism that influences contemporary professional practices. Prerequisite: junior standing or instructor's consent. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior Standing required.

**JOURN 4350. Problems in Journalism. 1-3 Credit.**

Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be offered on either A/F graded or S/U graded basis only. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior Standing required.

**JOURN 4400. Introduction to News Editing. 2 Credits.**

Introduces the fundamentals of editing stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience. Prerequisite: Journalism [JOURN] 2100.

**JOURN 4406. News Editing. 3 Credits.**

Laboratory work on the Columbia Missourian plus lectures on ethics, page design and news decision making. Prerequisite: Journalism [JOURN] 4400.

**JOURN 4408. Magazine Editing. 3 Credits.**

Review of grammar, punctuation, style rules: measuring articles, copy fitting; writing captions, titles; editing, proofreading, condensing, rewriting magazine articles. Prerequisites: Journalism [JOURN] 4450/7450. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4410. Intermediate Writing. 3 Credits.**

In-depth research and writing techniques. Students produce articles for the Missouriian and school-produced magazines or other publications. Prerequisites: Journalism [JOURN] 4450 or equivalent and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4412. Lifestyle Journalism. 3 Credits.**

In-depth research and writing techniques focused on lifestyle journalism. Students produce articles for the Missouriian and school-produced magazines or other publications. Prerequisites: Journalism [JOURN] 4450 or equivalent and instructor's consent. Substitutes for JOURN 4410. Restricted to Journalism and Science and Agricultural Journalism majors only. Graded on A/F basis only.

**JOURN 4414. Field Reporting on the Food System and Environment. 3 Credits.**

[same as Science and Agricultural Journalism [SCI\_AG\_J] 4414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Prerequisite: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only. Graded on A/F basis only.

**JOURN 4415. Current Issues in Science Journalism. 3 Credits.**

(Same as Science and Agricultural Journalism [SCI\_AG\_J] 4415). Focuses on covering the interplay of one or more current issues of concern to journalists, scientists and society. The focus for any given

semester may be biotechnology, climate change, energy, food safety, global population growth, wildlife or another issue. Prerequisites: Journalism [JOURN] 2100 or instructor's consent. Graded on A/F basis only.

**JOURN 4416. Science, Health and Environmental Writing. 3 Credits.**

Advanced course in the reporting of science, health and environment. Write for publication. Prerequisite: Journalism [JOURN] 4450 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4418. Critical Reviewing. 3 Credits.**

A combination of theory and practice that covers the philosophy and craft of reviewing the arts, including books, movies, television, dance, painting, sculpture and architecture. Students must attempt to publish reviews and essays locally, regionally and nationally. Reviews published in VOX Magazine. Prerequisites: Journalism [JOURN] 0900 or 2100 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4420. Editorial Writing. 3 Credits.**

Emphasizes writing and thinking. Discussion of current problems. Correct and effective use of English language. Mission, obligations and history of editorial pages. Prerequisite: Journalism [JOURN] 4450. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4422. Sports Journalism. 3 Credits.**

A review of everything from "How to Watch Sports" to the history of sports writing. Prerequisites: Journalism [JOURN] 4450/7450 or 4804/7804 or 4306/7306. Restricted to Journalism and Science and Agricultural Journalism students only. Course graded on A/F basis only.

**JOURN 4426. Religion Reporting and Writing. 3 Credits.**

(same as Religious Studies [REL\_ST] 4418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture. Prerequisite: Journalism [JOURN] 4450 or its equivalent in professional writing experience and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4428. Health Reporting Skills. 2-3 Credit.**

This course focuses on research and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Prerequisites: Journalism [JOURN] 4450, 4306 or 4804. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4430. Computer-Assisted Reporting. 3 Credits.**

How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4436. Investigative Reporting. 3 Credits.**

Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions. Prerequisites: Journalism [JOURN] 4450 and instructor's consent.

**JOURN 4438. Business and Economics Reporting. 3 Credits.**

Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques. Prerequisites: Journalism [JOURN] 4408 and 4410 or 4506. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4440. Mapping for Stories and Graphics. 2 Credits.**

Learn mapping software to discover information for news stories and lay the foundation for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Prerequisites: Journalism [JOURN] 2100 and instructor's consent. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4450. News Reporting. 3 Credits.**

Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions. Prerequisites: Journalism [JOURN] 2100.

**JOURN 4460. Advanced News Reporting. 3 Credits.**

Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems. Prerequisite: Journalism [JOURN] 4450.

**JOURN 4462. Emerging Technologies in Journalism. 1-3 Credit.**

This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. Prerequisite: junior standing; restricted to Journalism and Science and Agricultural Journalism students only. May be repeated for credit. Graded on A/F basis only.

**JOURN 4464. Magazines Across Platforms. 3 Credits.**

The class covers content creation, storytelling, presentation and innovation for the Web and tablets. Students will explore magazine production methods, print-to-Web interaction, mobile initiatives and iPad app builds. They will learn to work as digital editors for Vox magazine. Prerequisites: Journalism [JOURN] 4450 and consent of instructor required. Restricted to Journalism and Science Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4480. Will Write for Food (and Wine). 3 Credits.**

(Same as Science and Agricultural Journalism [SCI\_AG\_J] 4480) Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Prerequisites: Junior standing, instructors consent and Journalism [JOURN] 4450. Restricted to Journalism and Science Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4500. News Design. 3 Credits.**

Continuation of desk editing with emphasis on page design, graphics and typography. Prerequisite: Journalism [JOURN] 4406, 4408 or instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4502. Multimedia Planning and Design. 3 Credits.**

Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages. Prerequisites: One of the following: Journalism [JOURN] 4804 or 4450 or 4306; instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4506. Magazine Design. 3 Credits.**

Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4508. Information Graphics. 3 Credits.**

Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software. Prerequisite: Journalism [JOURN] 4450 or the professional equivalent, or instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4510. Visual Communication. 3 Credits.**

How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4550. Basic Photography and Photo Editing. 3 Credits.**

A basic survey for non-photojournalism majors and others with no prior experience who desire a working knowledge of photojournalistic theory and practice. Prerequisite: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4554. Visual Editing for Multimedia. 3 Credits.**

This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Prerequisite: Journalism [JOURN] 4804 or 4550 or 4306 or 4406 or 4506 and instructor's consent; restricted to Journalism and Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4556. Fundamentals of Photojournalism. 3 Credits.**

A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession. Prerequisite: instructor's consent.

**JOURN 4558. Advanced Techniques in Photojournalism. 3 Credits.**

Advanced techniques and problem solving in photojournalism. Stresses lighting techniques--available, studio, electronic flash and color correction of color film. Strobed documentary, portraiture, fashion, food, architecture, sports. Prerequisite: Journalism [JOURN] 4556. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4560. Staff Photojournalism. 3 Credits.**

A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories. Prerequisite: Journalism [JOURN] 4558. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4562. Photojournalism Business Practices. 2 Credits.**

Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Prerequisites: Journalism [JOURN] 4558/7558 and 4566/7566 or consent of instructor; junior standing; restricted to Journalism and Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4564. Micro-Documentary Photojournalism and Videography. 3 Credits.**

This course extends student's understanding and abilities to produce short-form video journalism. They will produce, from concepts to web publication, two five-minute non-fiction videos that serves the public through engaging visual sound techniques and compelling narrative. Prerequisites: Journalism [JOURN] 4558/7558 or 4306/7306 or 4804/7804 or instructor's consent. Restricted to Journalism and Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4566. Electronic Photojournalism. 3 Credits.**

Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Prerequisite: Journalism [JOURN] 4556 and instructor's consent. Graded on A/F basis only.

**JOURN 4568. History of Photojournalism. 3 Credits.**

Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.

**JOURN 4650. International Issues Reporting. 3 Credits.**

An advanced professional seminar on how to recognize, report and write about the domestic influence of international political, economic and cultural problems and trends. Prerequisites: Journalism [JOURN] 4450.

**JOURN 4656. International News Media Systems. 3 Credits.**

A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed. Prerequisite: junior standing in Journalism or Science and Agricultural Journalism .

**JOURN 4658. International Journalism. 3 Credits.**

An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated. Prerequisites: junior standing. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4660. Media Forces Shaping the European Union. 3 Credits.**

Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor's consent. Course qualifies for EU Certificate Program. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4662. Global News Across Platforms. 3 Credits.**

Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce an international magazine, radio program, and website while working under weekly deadlines. Restricted to Journalism and Science and Agricultural Journalism majors. Instructor's consent required.

**JOURN 4670. Newspaper Photo Desk Management. 3 Credits.**

Survey of management of photographic journalism, art illustration and design in newspapers; includes work on graphics desk of Columbia Missourian. Prerequisites: Journalism [JOURN] 4560 or 4226 or 4408 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4700. Participatory Journalism. 3 Credits.**

An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of "news.". Students will work with the community on behalf of the Missourian. All interest areas welcome. Prerequisites: Journalism [JOURN] 4450, 4802, or 4300 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4706. The Community Newspaper. 3 Credits.**

The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state. Prerequisites: Journalism [JOURN] 2100. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4710. Newspaper Management. 3 Credits.**

Department-by-department organization, business practices, personnel, rate structures, equipment, production, laws and regulations of concern to newspaper management. Cases examine critical newspaper management issues.

**JOURN 4716. Women and the Media. 2 Credits.**

(same as Women's and Gender Studies [WGST] 4716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Prerequisite: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.

**JOURN 4718. Law and the Courts. 3 Credits.**

Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers with the cooperation of the Missouri Bar. Prerequisites: Journalism [JOURN] 2100. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4720. Internet Law. 3 Credits.**

This course will focus on how to avoid legal pitfall while doing e-mail or e-commerce or browsing the Web and how to use the law to your benefit. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4728. Confronting Controls on Information. 3 Credits.**

A review of actions by government, society and the communications media calculated to limit or alter the content of information in the United States and elsewhere around the world. Prerequisite: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4730. Journalism and Conflict. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4830). Introduction to the basic principles of conflict theory and negotiation, including the sources of conflict, why conflict escalates and what the conditions are for de-escalation, all with a special emphasis on the implications for the working journalist.

**JOURN 4734. Journalism and Chaos: How to Understand and Cover 21st Century Business Models. 3 Credits.**

The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom. Prerequisites: Junior Standing. Restricted to Journalism and Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 4736. Changing Media Business Models. 3 Credits.**

Analysis of the economic changes in news media industry. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4738. General Semantics in Journalism. 1-3 Credit.**

The everyday usefulness of the methods of science as applied to language and the practice of journalism. The course deals with the general effect of language habits on journalists and their readers/listeners. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4802. Fundamentals of TV, Radio and Photojournalism. 3 Credits.**

Skills, theory and ethics of broadcast news and photojournalism for non-broadcast majors. Prerequisites: Journalism [JOURN] 2100 with instructor's consent. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only. Sophomore standing required.

**JOURN 4804. Convergence Reporting. 3 Credits.**

Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Prerequisites: Journalism [JOURN] 2150, Graded on A-F basis only. Restricted to Convergence, Print and Digital and Photojournalism students, and Science and Agricultural Journalism students with junior standing.

**JOURN 4806. Convergence Editing and Producing. 3 Credits.**

Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Prerequisites: Journalism [JOURN] 4804 or 4450, or by consent of instructor. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4810. Advanced Global Converged News. 3 Credits.**

Internet news services offers real-world newsroom experience synthesizing worldwide news coverage and revealing alternative perspectives on current events. Prerequisite: instructor consent; junior or higher standing. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4812. Online Audience Development. 3 Credits.**

Experience in developing online audiences gained through hands-on work at an Internet site. Prerequisite: junior standing; instructor's consent. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4814. Multimedia Sports Journalism. 3 Credits.**

Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Prerequisites: Journalism [JOURN] 4450/7450 or 4804/7804 or 4556/7556 or 4560/7560. Restricted to Journalism and Science and Agricultural Journalism students only. Instructor consent required. Graded on A/F basis only.

**JOURN 4940. Internship in Journalism. 1-3 Credit.**

Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Prerequisite: Journalism students only. Graded on S/U basis only.

**JOURN 4950. Understanding Audiences. 3 Credits.**

Focuses on the recipients of journalistic efforts by teaching students to identify, analyze and address media audiences. Students will learn a

variety of research methods and gain hands-on experience with audience analysis through team-based practical projects. Prerequisites: Journalism [JOURN] 2000 and junior standing.

**JOURN 4952. Strategic Communication Research I. 3 Credits.**

Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research. Restricted to Strategic Communication students only. Junior standing or higher required.

**JOURN 4970. Strategic Campaigns. 3 Credits.**

This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities. Prerequisite: Journalism [JOURN] 4206 or 7206. Restricted to Strategic Communication students only.

**JOURN 4974. Advanced Internet Applications for Radio/TV News. 3 Credits.**

Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service. Prerequisite: Journalism [JOURN] 4306.

**JOURN 4976. Seminar in Radio/TV News. 3 Credits.**

Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions. Prerequisite: instructor's consent.

**JOURN 4978. Media Management and Leadership. 3 Credits.**

Dramatic changes in technology and the media's role in converging technologies require new management and leadership techniques and paradigms. Students will write case examining these changes. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4980. The Picture Story and Photographic Essay. 3 Credits.**

Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color. Prerequisite: Journalism [JOURN] 4560.

**JOURN 4984. Magazine Staff. 3 Credits.**

A laboratory course exploring the role of editorial staff in the magazine editing process. As staff for school-produced magazines, students plan, edit, write display type, proofread and coordinate with writers, photographers and designers. Prerequisites: Journalism [JOURN] 4410, 4408 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4986. Advanced Writing. 3 Credits.**

For those who wish to emphasize writing as a career. In addition to writing assignments, students discuss writings of well-known magazine and book authors. Prerequisites: Journalism [JOURN] 4450, 4410 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4988. Advanced Magazine Design. 3 Credits.**

Class critiques of spreads, sequences, and magazines are implemented by students who make typographic specifications and design individual spreads, and complete magazines for actual printed production. Prerequisite: Journalism [JOURN] 4506. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4990. Journalism and Democracy. 3 Credits.**

This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society. Prerequisite: Journalism [JOURN] 4450 and second-semester senior standing. Undergraduates only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4992. Reporting, Editing and Marketing of Converged Media. 3 Credits.**

Capstone course bring together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate longform, creative journalistic content. Prerequisite: Journalism [JOURN] 4806, senior standing and instructor's consent. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 4994. Magazine Publishing. 3 Credits.**

The audience, economics, job opportunities and content of the American magazine. Deals with general audience and specialized magazines, business and institutional magazines, news magazines, etc. Case histories of individual magazines, guest lecturers from various fields. Prerequisites: Journalism [JOURN] 4408 and 4410 or 4508. Graded on A/F basis only. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 7000. Communications Law. 3 Credits.**

Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas. Prerequisite: graduate standing.

**JOURN 7050. Communications Practice. 1-3 Credit.**

Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean. Prerequisite: graduate standing. Study Abroad sections require consent by International Program. Obtain consent in 76 Gannett. Some sections of the course may be offered on either A/F or S/U graded basis only.

**JOURN 7056. Intersession Colloquium. 1 Credit.**

Lecture portion of any course the student plans to take later during an intersession. Prerequisite: graduate standing and Dean's consent.

**JOURN 7058. New York Program: Journalism Theory and Practice. 2-3 Credit.**

Interdisciplinary course offering on-site study at national media venues in New York. Journalism alumni working in Manhattan provide weekly discussions on contemporary practices, job networks and work experiences. Prerequisite: graduate standing.

**JOURN 7120. New Media Basics. 1 Credit.**

Students will learn how to use the Internet to communicate with others, find human and electronic sources for stories and publish on the World Wide Web. Prerequisite: graduate standing.

**JOURN 7122. Fundamentals of Data Reporting. 1 Credit.**

Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. Graded on A-F basis only. Prerequisites: JOURN 2100; This course is not to be taken by students who have already completed JOURN 4430 or JOURN 7430. Restricted to Graduate Journalism students.

**JOURN 7126. Digital Audio and Visual Basics for Journalists. 1 Credit.**

Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals. Prerequisite: graduate standing.

**JOURN 7130. Account Services. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in account services. Section topics vary. Prerequisite: graduate standing.

**JOURN 7136. Creative Techniques. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in creative work. Section topics vary. Prerequisite: graduate standing.

**JOURN 7138. Public Relations Techniques. 1 Credit.**

Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary. Prerequisite: graduate standing.

**JOURN 7140. Interactive Techniques. 1 Credit.**

Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary. Prerequisite: graduate standing.

**JOURN 7146. Strategic Communication Techniques. 1 Credit.**

Designed for advanced strategic communication students. Section topics vary. Prerequisite: graduate standing.

**JOURN 7148. Interviewing Essentials. 1 Credit.**

This class allows students to focus on the journalistic interviewing process, from spot news interviews to the sort of interviews required for personality, sports and in-depth work. Prerequisite: graduate standing.

**JOURN 7150. Using Infographics. 1 Credit.**

An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics. Prerequisites: graduate standing and instructor's consent.

**JOURN 7152. Concepts in Participatory Journalism. 1 Credit.**

Journalists need to know how to be in conversation with their communities rather than lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Prerequisite: Journalism [JOURN] 2100, 2150. Graded on A/F basis only.

**JOURN 7198. Area Seminar. 3 Credits.**

Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs. Prerequisite: graduate standing.

**JOURN 7200. Principles of Strategic Communication. 3 Credits.**

Foundation course familiarizing students with an array of strategic communication tools and how they are used in the field. Prerequisite: graduate standing.

**JOURN 7204. Introduction to Strategic Writing and Design. 3 Credits.**

This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded

on A/F basis only. Prerequisite: Restricted to Journalism Strategic Communication and Science and Agriculture Journalism Majors.

**JOURN 7206. Strategic Writing I. 3 Credits.**

Students learn strategic writing for a variety of media such as print, radio, television, outdoor, new media, news releases, pitch letters and other persuasive messages. Prerequisites: graduate standing and Journalism [JOURN] 4200, 4226, 4952.

**JOURN 7208. Strategic Writing II. 3 Credits.**

Advanced course in the creation of strategic communication materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining. Prerequisite: graduate standing and Journalism [JOURN] 4206/7206.

**JOURN 7216. Media Sales. 3 Credits.**

Focus of this course is to familiarize students with how to sell a variety of media including newspaper, radio, television, outdoor, new media, and others. Prerequisites: graduate standing and Journalism [JOURN] 4206/7206.

**JOURN 7218. Mojo Advertising Staff. 3 Credits.**

Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative, media and research. Other electives required based on position. Application required. Prerequisites: Journalism [JOURN] 4206/7206.

**JOURN 7220. Creative Portfolio. 3 Credits.**

Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity. Prerequisites: graduate standing, core courses and Journalism [JOURN] 4208/7208.

**JOURN 7226. Strategic Design and Visuals I. 3 Credits.**

Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts. Prerequisite: graduate standing.

**JOURN 7228. Strategic Design and Visuals II. 3 Credits.**

Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Prerequisite: graduate standing and Journalism [JOURN] 4206/7206.

**JOURN 7236. Psychology in Advertising. 3 Credits.**

Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the "lifestyle" factor) to understand consumer wants and buying behavior. Prerequisite: graduate standing, Journalism [JOURN] 4200/7200, 4952/7952, 4226/7226.

**JOURN 7238. Broadcast Advertising. 3 Credits.**

Broadcast advertising production. Emphasis on equipment, directing, script/storyboard preparation and commercial analysis. Students become familiar with procedures, techniques and facilities used in basic radio and television production. Prerequisites: graduate standing and Journalism [JOURN] 4206/7206.

**JOURN 7248. Media Strategy and Planning. 3 Credits.**

Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media. Prerequisite:

graduate standing and Journalism [JOURN] 4200/7200, 4952/7592, 4226/7226.

**JOURN 7250. Management of Strategic Communication. 3 Credits.**

How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths. Prerequisite: graduate standing. Prerequisites: Journalism [JOURN] 4200/7200, 4226/7226 and 4952/7952.

**JOURN 7256. Public Relations. 3 Credits.**

Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for-profit organizations. Prerequisite: graduate standing; Journalism [JOURN] 4200.

**JOURN 7258. Global Communication. 3 Credits.**

Understanding global communication systems with an emphasis on planning and executing strategic communication campaigns. Particular attention will be paid to cultural, political and economic differences as they affect marketing and development communication. Prerequisites: graduate standing and Journalism [JOURN] 4200/7200, 4226/7226, 4952/7952.

**JOURN 7262. Interactive Advertising I. 3 Credits.**

Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Prerequisite: Journalism [JOURN] 7200, 7226 and 7952. Graded on A/F basis only.

**JOURN 7263. Interactive Advertising II. 3 Credits.**

Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed for those who want a career in interactive advertising. Prerequisite: Journalism [JOURN] 7262; graduate standing required. Graded on A/F basis only.

**JOURN 7268. Strategic Communication Practicum. 3 Credits.**

Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms. Prerequisite: Journalism [JOURN] 4206/7206 for Advertising students, JOURN 4306/7306 for Broadcast students, JOURN 4450/7450 for News-Editorial and Magazine students, JOURN 4556/7556 for Photojournalism students.

**JOURN 7270. Public Relations Writing. 3 Credits.**

Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Prerequisite: Journalism [JOURN] 4206 and 4256. Graded on A/F basis only.

**JOURN 7300. Broadcast News I. 3 Credits.**

Beginning reporting and news writing for radio, television and their on-line services. Introduction to use of audio and video recorders and editing systems in production of news stories. Consideration of ethical issues, economic factors, relationships with news sources and gender and ethnic diversity in the newsroom and in news stories. Prerequisite: graduate standing and Journalism [JOURN] 2100.

**JOURN 7301. Topics in Journalism. 1-3 Credit.**

Selected current topics in journalism. Specific topics to be announced at time of registration. Prerequisite: graduate standing.

**JOURN 7306. Broadcast News II. 3 Credits.**

Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms. Prerequisite: graduate standing and Journalism [JOURN] 4300/7300.

**JOURN 7308. Broadcast News III. 3 Credits.**

Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories. Prerequisite: graduate standing and Journalism [JOURN] 4306/7306.

**JOURN 7310. News Producing. 3 Credits.**

Instruction in techniques of television newscast preparation. Emphasis on role of the television news producer. Prerequisite: graduate standing and Journalism [JOURN] 4308/7308.

**JOURN 7320. Advanced Broadcast Reporting. 3 Credits.**

In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA. Prerequisites: graduate standing and Journalism [JOURN] 4308/7308.

**JOURN 7328. Advanced News Communication. 1 Credit.**

This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students will anchor KOMU-TV's morning newscasts. Prerequisite: Journalism [JOURN] 4306/7306.

**JOURN 7350. Problems in Journalism. 1-3 Credit.**

Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Prerequisite: graduate standing. Some sections of the course may be offered on either A/F or S/U graded basis only.

**JOURN 7400. Introduction to News Editing. 3 Credits.**

Introduces the fundamentals of editing of stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience. Prerequisite: Journalism [JOURN] 2100.

**JOURN 7406. News Editing. 3 Credits.**

Laboratory work on the Columbia Missourian plus lectures on ethics, page design and news decision making. Prerequisite: graduate standing and Journalism [JOURN] 4400/7400.

**JOURN 7408. Magazine Editing. 3 Credits.**

Review of grammar, punctuation, style rules: measuring articles copy fitting: writing captions, titles; editing, proofreading, condensing, rewriting magazine articles. Prerequisites: Journalism [JOURN] 4450/7450.

**JOURN 7410. Intermediate Writing. 3 Credits.**

In-depth research and writing techniques. Students produce articles for the Missourian and school-produced magazines or other publications. Prerequisites: graduate standing and Journalism [JOURN] 4450/7450 or equivalent and instructor's consent.

**JOURN 7412. Lifestyle Journalism. 3 Credits.**

In-depth research and writing techniques focused on lifestyle journalism. Students produce articles for the Missourian and school-produced magazines or other publications. Prerequisites: Journalism [JOURN] 4450/7450 or equivalent and instructor's consent. Substitutes for JOURN 4410/7410. Graded on A/F basis only.

**JOURN 7414. Field Reporting on the Food System and Environment. 3 Credits.**

(same as Science and Agricultural Journalism [SCI\_AG\_J] 7414)  
Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Prerequisite: instructor's consent. Graded on A/F basis only.

**JOURN 7416. Science, Health and Environmental Writing. 3 Credits.**

Advanced course in the reporting of science, health and environment. Write for publication. Prerequisite: graduate standing and Journalism [JOURN] 4450/7450 and instructor's consent.

**JOURN 7418. Critical Reviewing. 3 Credits.**

A combination of theory and practice that covers the philosophy and craft of reviewing the arts, including books, movies, television, dance, painting, sculpture and architecture. Students must attempt to publish reviews and essays locally, regionally and nationally. Reviews published in Sunday Magazine. Prerequisites: graduate standing and Journalism [JOURN] 0900 or 2100 and instructor's consent.

**JOURN 7420. Editorial Writing. 3 Credits.**

Emphasizes writing and thinking. Discussion of current problems. Correct and effective use of English language. Mission, obligations and history of editorial pages. Prerequisite: graduate standing and Journalism [JOURN] 4450.

**JOURN 7422. Sports Journalism. 3 Credits.**

A review of everything from "How to Watch Sports" to the history of sports writing. Prerequisites: Journalism [JOURN] 4450/7450 or 4804/7804 or 4306/7306. Restricted to Journalism and Agricultural Journalism students only. Graduate Standing required.

**JOURN 7426. Religion Reporting and Writing. 3 Credits.**

(same as Religious Studies [REL\_ST]7418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture. Prerequisite: graduate standing and Journalism [JOURN] 4450/7450 or its equivalent in professional writing experience and instructor's consent.

**JOURN 7428. Health Reporting Skills. 2-3 Credit.**

This course focuses on reporting, sourcing and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Course graded A-F only. Prerequisites: Journalism [JOURN] 4450/7450, 4306/7306 or 4804/7804 and instructor's consent.

**JOURN 7430. Computer-Assisted Reporting. 3 Credits.**

How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information. Prerequisite: graduate standing.

**JOURN 7436. Investigative Reporting. 3 Credits.**

Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions. Prerequisites: graduate standing and Journalism [JOURN] 4450/7450 and instructor's consent.

**JOURN 7438. Business and Economics Reporting. 3 Credits.**

Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques. Prerequisites: graduate standing and Journalism [JOURN] 4408/7408 and 4410/7410 or 4506/7506.

**JOURN 7440. Mapping for Stories and Graphics. 2 Credits.**

Learn mapping software to discover information for news stories and lay the foundations for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Prerequisites: Journalism [JOURN] 2100 and instructor's consent. Graded on A/F basis only.

**JOURN 7450. News Reporting. 3 Credits.**

Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions. Prerequisites: graduate standing and Journalism [JOURN] 0900 or 2100.

**JOURN 7460. Advanced News Reporting. 3 Credits.**

Assignments to more difficult beat areas, team reporting, and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems. Prerequisite: graduate standing and Journalism [JOURN] 4450/7450.

**JOURN 7462. Emerging Technologies in Journalism. 1-3 Credit.**

This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graduate standing required. Graded A-F only.

**JOURN 7464. Magazines Across Platforms. 3 Credits.**

The class covers content creation, storytelling, presentation and information for the Web and tablets. Students will explore magazine production methods, print-to-Web interaction, mobile initiatives and iPad app builds. They will learn to work as digital editors for Vox magazine. Prerequisite: Journalism [JOURN] 4450/7450. Restricted to Journalism and Science and Agricultural Journalism students only. Graduate standing required. Consent of instructor required. Graded on A/F basis only.

**JOURN 7480. Will Write for Food (and Wine). 3 Credits.**

(Same as Science and Agricultural Journalism [SCI\_AG\_J] 7480) Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Prerequisites: Junior standing, instructor's consent and Journalism [JOURN] 4450. Restricted to Journalism and Science Agriculture Journalism students only. Graded on A/F basis only.

**JOURN 7500. News Design. 3 Credits.**

Continuation of desk editing with emphasis on page design, graphics and typography. Prerequisite: graduate standing and Journalism [JOURN] 4406/7406, 4408/7408 or instructor's consent.

**JOURN 7502. Multimedia Planning and Design. 3 Credits.**

Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages. Prerequisites: One of the following: Journalism [JOURN] 4804 or 4450 or 4306; instructor's consent. Graduate Standing Required.

**JOURN 7506. Magazine Design. 3 Credits.**

Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities. Prerequisite: graduate standing.

**JOURN 7508. Information Graphics. 3 Credits.**

Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software. Prerequisite: graduate standing and Journalism [JOURN] 4450/7450 or the professional equivalent, or instructor's consent.

**JOURN 7510. Visual Communications. 2-3 Credit.**

How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers. Prerequisite: graduate standing.

**JOURN 7550. Basic Photography and Photo Editing. 3 Credits.**

A basic survey for non-photojournalism majors and others with no prior experience who desire a working knowledge of photojournalistic theory and practice. Prerequisite: graduate standing and instructor's consent.

**JOURN 7554. Visual Editing for Multimedia. 3 Credits.**

This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Prerequisite: Journalism [JOURN] 4804 or 4550 or 4306 or 4406 or 4506 and instructor's consent; restricted to Journalism and Science and Agriculture Journalism students only. Graded on A/F basis only.

**JOURN 7556. Fundamentals of Photojournalism. 3 Credits.**

A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession. Prerequisite: graduate standing and instructor's consent.

**JOURN 7558. Advanced Techniques in Photojournalism. 3 Credits.**

Advanced techniques and problem solving in photojournalism. Stresses lighting techniques--available, studio, electronic flash and color correction of color film. Strobed documentary, portraiture, fashion, food, architecture, sports. Prerequisite: graduate standing and Journalism [JOURN] 4556/7556.

**JOURN 7560. Staff Photojournalism. 3 Credits.**

A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories. Prerequisite: graduate standing and Journalism [JOURN] 4558/7558.

**JOURN 7562. Photojournalism Business Practices. 2 Credits.**

Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Prerequisites: Journalism [JOURN] 4558/7558 and JOURN 4566/7566, or consent of instructor. Restricted to graduate Journalism majors only. Graded on A-F basis only.

**JOURN 7564. Micro-Documentary Photojournalism and Videography. 3 Credits.**

This course extends students' understanding and abilities to produce short-form video journalism. They will produce, from concept to web publication, two five-minute non-fiction videos that serves the public through engaging visual sound techniques and compelling narrative. Prerequisites: Journalism [JOURN] 4558/7558 or 4306/7306 or 4804/7804 or consent of instructor. Restricted to Journalism or Science and Agricultural Journalism students only. Graded on A/F basis only.

**JOURN 7566. Electronic Photojournalism. 3 Credits.**

Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Prerequisite: Journalism [JOURN] 4556/7556 and instructor's consent; graduate standing required. Graded on A/F basis.

**JOURN 7568. History of Photojournalism. 3 Credits.**

Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well. Prerequisite: graduate standing.

**JOURN 7650. International Issues Reporting. 3 Credits.**

An advanced professional seminar on how to recognize, report and write about the domestic influence of international political, economic and cultural problems and trends. Prerequisites: graduate standing and Journalism [JOURN] 4450/7450.

**JOURN 7656. International News Media Systems. 3 Credits.**

A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed. Prerequisite: graduate standing.

**JOURN 7658. International Journalism. 3 Credits.**

An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated. Prerequisites: graduate standing.

**JOURN 7660. Media Forces Shaping the European Union. 3 Credits.**

Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor's consent. Course qualifies for EU Certificate Program.

**JOURN 7662. Global News Across Platforms. 3 Credits.**

Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce an international magazine, radio program, and website while working under weekly deadlines. Consent of instructor required. Restricted to Journalism and Agricultural Journalism majors.

**JOURN 7670. Newspaper Photo Desk Management. 3 Credits.**

Survey of management of photographic journalism, art illustration and design in newspapers; includes work on graphics desk of Columbia Missourian. Prerequisites: graduate standing and Journalism [JOURN] 4560/7560 or 4226/7226 or 4408/7408 and instructor's consent.

**JOURN 7700. Participatory Journalism. 3 Credits.**

An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of "news." Students will work with the community on behalf of the Missourian. All interest areas welcome. Prerequisites: Journalism [JOURN] 7450, or 7300 and instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only.

**JOURN 7706. The Community Newspaper. 3 Credits.**

The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students

experience in publishing newspapers in the state. Prerequisites: graduate standing and Journalism [JOURN] 0900 and 2100.

**JOURN 7710. Newspaper Management. 3 Credits.**

Department-by-department organization, business practices, personnel, rate structures, equipment, production, laws and regulations of concern to newspaper management. Cases examine critical newspaper management issues. Prerequisite: graduate standing.

**JOURN 7716. Women and the Media. 2 Credits.**

(same as Women's and Gender Studies [WGST] 7716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Prerequisite: instructor's consent.

**JOURN 7718. Law and the Courts. 3 Credits.**

Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers, with the cooperation of the Missouri Bar. Prerequisites: graduate standing and Journalism [JOURN] 0900 or 2100.

**JOURN 7720. Internet Law. 3 Credits.**

This course will focus on how to avoid legal pitfall while doing e-mail or e-commerce or browsing the Web and how to use the law to your benefit. Prerequisite: graduate standing.

**JOURN 7728. Confronting Controls on Information. 3 Credits.**

A review of actions by government, society and the communications media calculated to limit or alter the content of information in the United States and elsewhere around the world. Prerequisite: graduate standing and instructor's consent.

**JOURN 7730. Journalism and Conflict. 3 Credits.**

Introduction to the basic principles of conflict theory and negotiation, including the sources of conflict, why conflict escalates and what the conditions are for de-escalation, all with a special emphasis on the implications for the working journalist. Prerequisite: graduate standing.

**JOURN 7734. Journalism and Chaos: How to Understand and Cover 21st Century Business Models. 3 Credits.**

The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom. Restricted to Journalism and Agricultural Journalism students only. Graduate Standing required.

**JOURN 7736. Changing Media Business Models. 3 Credits.**

Analysis of the economic changes in news media. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.

**JOURN 7738. General Semantics in Journalism. 1-3 Credit.**

The everyday usefulness of the methods of science as applied to language and the practice of journalism. The course deals with the general effect of language habits on journalists and their readers/listeners. Prerequisite: graduate standing.

**JOURN 7802. Fundamentals of TV, Radio and Photojournalism. 3 Credits.**

Skills, theory and ethics of broadcast news and photojournalism for non-broadcast majors. Prerequisite: Journalism [JOURN] 2100; graduate standing required. Graded on A/F basis only.

**JOURN 7804. Convergence Reporting. 3 Credits.**

Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Prerequisites: Journalism [JOURN] 7802 or instructor's consent. Graded on A/F basis only.

**JOURN 7806. Convergence Editing and Producing. 3 Credits.**

Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Prerequisite: Journalism [JOURN] 4804/7804; graduate standing required and instructor's consent. Graded on A/F basis only.

**JOURN 7810. Advanced Global Converged News. 3 Credits.**

Internet news services offers real-world newsroom experience synthesizing world wide news coverage and revealing alternative perspectives on current events. Prerequisites: instructor's consent; graduate standing. Graded on A/F basis only.

**JOURN 7812. Online Audience Development. 3 Credits.**

Experience in developing online audiences gained through hands-on work at an Internet site. Consent of Instructor required. Graduate standing required. Graded A-F only.

**JOURN 7814. Multimedia Sports Journalism. 3 Credits.**

Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Prerequisites: Journalism [JOURN] 4450/7450 or 4804/7804 or 4556/7556 or 4560/7560. Restricted to Journalism and Science and Agricultural Journalism students only. Instructor consent required. Graded on A/F basis only.

**JOURN 7940. Internship in Journalism. 1-3 Credit.**

Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Restricted to Journalism students only. Graded on S/U basis only.

**JOURN 7952. Strategic Communication Research I. 3 Credits.**

Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research. Prerequisite: graduate standing.

**JOURN 7970. Strategic Campaigns. 3 Credits.**

This capstone course gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities. Prerequisites: Journalism [JOURN] 4206 or 7206.

**JOURN 7974. Advanced Internet Applications for Radio/TV News. 3 Credits.**

Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service. Prerequisite: graduate standing and Journalism [JOURN] 4306/7306.

**JOURN 7976. Seminar in Radio-TV News. 3 Credits.**

Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions. Not for students who have taken Journalism [JOURN] 8096. Prerequisite: graduate standing and instructor's consent.

**JOURN 7978. Media Management and Leadership. 3 Credits.**

Dramatic changes in technology and the media's role in converging technologies require new management and leadership techniques and

paradigms. Students will write case examining these changes. Graduate Standing Required.

**JOURN 7980. The Picture Story and Photographic Essay. 3 Credits.**

Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color. Prerequisite: graduate standing and Journalism [JOURN] 4560/7560.

**JOURN 7984. Magazine Staff. 3 Credits.**

A laboratory course exploring the role of editorial staff in the magazine editing process. As staff for school-produced magazines, students plan, edit, write display type, proofread and coordinate with writers, photographers and designers. Prerequisites: graduate standing and Journalism [JOURN] 4410/7410, 4408/7408 and instructor's consent.

**JOURN 7986. Advanced Writing. 3 Credits.**

For those who wish to emphasize writing as a career. In addition to writing assignments, students discuss writings of well-known magazine and book authors. Prerequisites: graduate standing and Journalism [JOURN] 4450/7450, 4410/7410 and instructor's consent.

**JOURN 7988. Advanced Magazine Design. 3 Credits.**

Class critiques of spreads, sequences, and magazines are implemented by students who make typographic specifications and design individual spreads, and complete magazines for actual printed production. Prerequisite: graduate standing and Journalism [JOURN] 4506/7506.

**JOURN 7992. Reporting, Editing and Marketing of Converged Media. 3 Credits.**

Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate long-form, creative journalistic content. Prerequisites: Journalism [JOURN] 4806/7806; graduate standing and instructor's consent. Graded on A/F basis only.

**JOURN 7994. Magazine Publishing. 3 Credits.**

The audience, economics, job opportunities and content of the American magazine. Deals with general audience and specialized magazines, business and institutional magazines, news magazines, etc. Case histories of individual magazines, guest lecturers from various fields. Prerequisite: graduate standing.

**JOURN 8000. Mass Media Seminar. 3 Credits.**

Concepts, functions and major problems of print and electronic media in the United States. Two hours lecture and one hour of discussion lab each week.

**JOURN 8001. Seminar on Topics in Journalism. 3 Credits.**

Problems, issues and approaches to research in selected topic areas. Specific content varies by needs of faculty and students and will be announced in advance. Master's students only. Prerequisite: graduate standing.

**JOURN 8006. Quantitative Research Methods in Journalism. 3 Credits.**

Research methods of utility in journalism and philosophy of science. Emphasis on understanding common quantitative methods and tools. Prerequisite: six hours of journalism or instructor's consent.

**JOURN 8008. Qualitative Research Methods in Journalism. 3 Credits.**

Course is designed to introduce graduate students to common qualitative approaches applicable to the study of journalism and mass

communication. Students will learn a variety of approaches, practical methodologies and tools that will help them conduct research.

**JOURN 8010. Advanced Qualitative Methods in Journalism. 3 Credits.**

Designed to familiarize doctoral students with qualitative approaches applicable to the study of journalism and mass communication. Students will be introduced to a variety of philosophical and conceptual approaches as well as to practical tools-oriented methodologies in four major areas of qualitative research.

**JOURN 8016. Advanced Quantitative Research Methods. 3 Credits.**

Experimental design, factor analysis, semantic differential and Q methodology as tools for the researcher in journalism, communication.

**JOURN 8018. Strategic Communication Research II. 3 Credits.**

Course reviews the latest principles of strategic communication with emphasis on the crucial role of research to develop informed strategy, monitor communication programs and evaluate overall campaign effectiveness.

**JOURN 8020. Principles and Tools in Strategic Communication Planning. 3 Credits.**

Introduces the latest principles of strategic communication and the importance of strategic planning in many contemporary communication fields. A significant operational component in the course introduces skills such as budgeting, scheduling objective-setting, organizing personal time, and managing people.

**JOURN 8026. Philosophy of Journalism. 3 Credits.**

Seminar deals with wide assortment of philosophical questions in journalism but concentrates on epistemology, political press theory and ethics. Such questions as "objectivity" in journalism, press responsibility, professionalism.

**JOURN 8028. The Literature of Journalism. 3 Credits.**

Reading of ten basic books about journalism. Several books are assigned to everyone; several are assigned on an individual basis, and several are electives. Oral reports, short papers, and class discussion.

**JOURN 8030. History of Mass Media. 3 Credits.**

American mass media from colonial days to present in the context of social, economic and political change. History research. Prerequisite: graduate standing.

**JOURN 8036. Historical Methods. 3 Credits.**

Graduate seminar in research methods and theoretical approaches used by media historians, including oral history, biography, quantitative and archival research.

**JOURN 8038. Seminar in Communications Law. 3 Credits.**

A graduate-level survey of issues in media law, as well as an introduction to First Amendment theory and scholarship. The course familiarizes students with fundamental concepts of mass media law through exposure to primary materials and provides students with the opportunity to analyze the issues discussed in class through individual research projects.

**JOURN 8042. Health News and Promotion. 3 Credits.**

This is an advanced seminar that examines and critiques the literature on health communication in news about health and its impact and health promotion campaigns.

**JOURN 8044. Strategic Conflict Management. 3 Credits.**

Strategic conflict management is a cross-disciplinary study that integrated organizational behavior, crisis management, conflict resolution and image repair. This course melds theory with practice, and is for those venturing

into media management, law, and strategic communication. Prerequisite: graduate journalism standing required.

**JOURN 8046. Controls of Information. 3 Credits.**

A detail of actions by government, largely the federal government, calculated to limit or alter the content of information in the United States.

**JOURN 8052. Case Studies in the Digital Globe. 3 Credits.**

This course seeks to broaden students perspective about how digital technology affects the world around us. Final course in the CDIG certificate. Inter-departmental course.

**JOURN 8054. Entrepreneurship and Media of the Future. 3 Credits.**

This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment. Graduate standing in Journalism or MBA program.

**JOURN 8056. Theory of Mass Communication. 3 Credits.**

Major communication theories and theorists. Interpersonal theories are included as they relate to mass communication.

**JOURN 8058. Communication in Media Organizations. 3 Credits.**

Covers key concepts in management and communication in media organizations, including print, broadcast, advertising and public relations. Topics include leadership, human resource management, managerial/employee communication, career success, financial decision-making, teambuilding and goal setting in media organizations. Open to students in the online master's program only.

**JOURN 8068. The Mass Media and the Presidency. 3 Credits.**

This seminar examines that historical triad of the free expression clauses of the First Amendment, the presidency and the American mass media through readings, class assignments and a project.

**JOURN 8070. Proseminar in Communications. 1-3 Credit.**

Seminar on professional and academic issues in journalism and communication. Specific discussion topics selected by faculty and students on a per class basis.

**JOURN 8080. Media Ethics. 3 Credits.**

An introduction to and application of ethical theory to their contemporary mass media. Prerequisite: graduate standing or instructor's consent.

**JOURN 8085. Problems in Journalism. 1-4 Credit.**

Individual work on chosen and specified problems not associated with the master's thesis or project. Topic must be arranged with supervising teacher prior to registration. Master's students only.

**JOURN 8090. Research in Journalism. 1-9 Credit.**

Guidance for graduate students engaged in plan A for the M.A. degree and for all doctoral candidates engaged in investigations looking toward production of thesis. Graded on a S/U basis only.

**JOURN 8092. Photography in Society. 3 Credits.**

Social and political dimensions of still photography with emphasis on critical thinking and analysis in visual communication. Prerequisite: graduate standing.

**JOURN 8098. MA Project Seminar. 1 Credit.**

Choosing and designing an appropriate profession project; preparation to carry out work successfully; discussion of trends and future directions in various areas of journalism. Must be completed before starting the professional project. Graded on S/U basis only.

**JOURN 8100. MA Thesis Seminar. 1 Credit.**

Choosing and developing an appropriate research topic for a thesis; designing a research strategy and learning appropriate investigative techniques. Must be completed before starting thesis. Graded on S/U basis only.

**JOURN 8106. The Magazine: Then and Now. 3 Credits.**

Examines magazines' history, role, economics and ethical practices, and the companies and people who produce them, particularly in the United States. It also reviews research perspectives that have illuminated this medium. Prerequisite: Journalism [JOURN] 8000.

**JOURN 8108. News Reporting and Writing for the High School Advisor. 3 Credits.**

Introduction to fundamentals of new writing. Provides training under deadline pressure in writing news stories for publication. Stories include several "live" reporting assignments.

**JOURN 8110. Editing and News Design for the High School Advisor. 3 Credits.**

Fundamentals of editing and headline writing for publication. Principles of design with emphasis on newspaper usage.

**JOURN 8120. Media Law and Ethics for the High School Advisor. 3 Credits.**

Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they related to print, broadcast, scholastic journalism, advertising and other areas. Includes examination of media ethics and practice.

**JOURN 8122. Graduate Proseminar for High School Advisors. 3 Credits.**

This seminar is designed to introduce students to the multiplicity of approaches to the study of journalism and mass communication. The course will focus on theories that relate to adolescents and children, plus other areas of interest to high-school educators. Restricted to students in the online College of Education Master's program for high school journalism instructors.

**JOURN 8185. Area Seminar in Journalism. 3 Credits.**

Seminar designed to accompany Journalism [JOURN] 8190, Area Problem. Through readings and discussions the master's student examines the special area related to the project.

**JOURN 8190. Area Problem in Journalism. 1-9 Credit.**

Work project enabling a master's student to demonstrate professional competence; may be one offered in a graduate reporting program or a creative project designed to meet a particular interest of student. Graded on S/U basis only.

**JOURN 9000. Doctoral Proseminar I. 3 Credits.**

First semester of a one-year course that covers theory and method in important topic areas. Each topic would be examined from several theoretical and methodological points of view. Required of doctoral students.

**JOURN 9006. Doctoral Proseminar II. 3 Credits.**

Continuation of Journalism [JOURN] 9000. Required of doctoral students.

**JOURN 9008. Readings in Journalism. 1-5 Credit.**

Directed readings for doctoral candidates. Designed to supplement work in other courses and to broaden student's knowledge of trends, interpretations and developments in the media.

**JOURN 9010. Doctoral Seminar. 3 Credits.**

This course is designed to meet the University requirement for a first-year qualifying examination process for doctoral students, involve students in research early in their programs and encourage students to recruit members of their doctoral committees.

**JOURN 9016. Advanced Seminar, Theory of Communication. 2 Credits.**

In-depth investigation of communication theory with emphasis on problems of theory building in communication. Prerequisites: Journalism [JOURN] 8056 or 8076 or instructor's consent.

**JOURN 9018. Media and Politics. 3 Credits.**

With a general premise that the mass media play a central role in American politics, this seminar seeks to answer how the class will examine various theoretical bases for that role and the ensuing political communications, the issues raised in covering American politics, and the types of effects both from politicians and from the mass media coverage on the American society.

**JOURN 9020. Risk Communication. 3 Credits.**

Designed to acquaint students from a variety of disciplines and with a variety of career goals with the scholarship of risk communication.

**JOURN 9026. Mass Communication and Cultural Theory. 3 Credits.**

Explores the relationship between mass communication and the idea of culture as it emerges during the second half of the twentieth century in the United States.

**JOURN 9085. Problems in Journalism. 1-4 Credit.**

Individual work on chosen and specified problems not associated with the doctoral dissertation or project. Topic must be arranged with supervising teacher prior to registration. Doctoral students only.

**JOURN 9087. Doctoral Research Seminar. 1 Credit.**

Weekly discussion session for doctoral students. Required of all doctoral students. Graded on S/U basis only.

**JOURN 9090. Research in Journalism. 1-9 Credit.**

Guidance for graduate students engaged in plan A for the M.A. degree and for all doctoral candidates engaged in investigations looking toward production of thesis. Graded on a S/U basis only.

## **Korean (KOREAN)**

---

**KOREAN 1100. Elementary Korean I. 6 Credits.**

Introductory course on Korean language. Five hours classroom instruction with one hour lab weekly.

**KOREAN 1200. Elementary Korean II. 6 Credits.**

Five hours classroom instruction with one hour lab work weekly. Prerequisite: C- or better in Korean [KOREAN] 1100.

**KOREAN 2160. Korean Language III. 3 Credits.**

Korean III continues to build on the skills students acquired in the first-year series with increasing work in authentic materials and situations in conversation and reading that encourage students to understand the use of language in its social and cultural context. Prerequisite: Korean [KOREAN] 1200.

**KOREAN 2310. Korean Civilization I. 3 Credits.**

Focuses on understanding traditional Korean people and culture through examining social, political, economic, and belief systems. Considers

literature, art, folklore, and history up to the late 19th century. May be taken independently of Korean [KOREAN] 2320.

**KOREAN 2320. Korean Civilization II. 3 Credits.**

Considers the situation and culture of Korea at the end of the Chosun Kingdom, and the period of modernization beginning about 1876. Investigates how modernization has changed Korea by looking at attitudes, behaviors, values, philosophies, and trends of Korea in the 20th and 21st centuries. May be taken independently of Korean [KOREAN] 2310.

**KOREAN 2330. Study Tour of Korea. 3 Credits.**

Study tour allows students to experience firsthand important cultural, historical, and education aspects of Korea. Visit key landmarks, museums, and other sites. Provides information and insight needed to cultivate greater understanding of Korea. Graded on A/F basis only.

**KOREAN 3001. Topics in Korean-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing and instructor's consent; departmental consent for repetition.

**KOREAN 3005. Topics in Korean - Humanities. 3 Credits.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing and instructor's consent; departmental consent for repetition.

**KOREAN 3160. Intermediate Korean Language II. 3 Credits.**

Continues to build on the skills students acquire in the third semester of Korean language with increasing work in authentic materials and situations in conversation and reading. Encourages students to understand the use of language in its social and cultural context. Prerequisite: Korean [KOREAN] 2160, or instructor's consent.

**KOREAN 3800. Korean Economic Development and US-Korean Free Trade Agreement. 3 Credits.**

Covers introductory theories of economic development and overviews Korean historical economic development plans. Aids with understanding how South Korean achieved high levels of economic development and what policies the South Korean Government implemented to spur growth. US -Korea Free Trade Agreement is a good example of how trade promotes the achievement of development goals.

**KOREAN 3850. Religion and Culture in Modern Korea. 3 Credits.**

Survey of religious traditions and culture in Korea within a broader context of world religions: Shamanism, Buddhism, Confucianism, and Christianity, as well as new religions that have sprouted since the late nineteenth century. Intended to help students understand how religious values, ideas and practices have been integrated into the modern contemporary Korean society and culture. Discussion of how religious traditions in Korea have interacted with each other and culture. No knowledge of Korean language or culture or history required. Prerequisites: sophomore standing or instructor's consent.

**KOREAN 3890. Korean Society Through Cinema. 3 Credits.**

(Same as Film Studies [FILM\_S] 3895). Examines the way in which Korean film reveals the cultural, political, and ideological orientation of the society in which it is created and circulated. Compares films from North and South Korea, considering modernity, gender, nation-hood, and class. Prerequisite: sophomore standing. Graded on A/F basis only.

**KOREAN 4001. Topics in Korean-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing and instructor's consent; departmental consent for repetition.

**KOREAN 4005. Topics in Korean - Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing and instructor's consent; departmental consent for repetition.

**KOREAN 4220. Korean Unification. 3 Credits.**

Explores many different topics related to Korean Unification. Studies North Korean ideology, political system, economic system, military, and negotiating behavior. Examines Unification policies of Koreas as well as past efforts toward Unification. Considers various scenarios of unification. Studies unification attitudes and values of Korean people including anti-American values, and the roles of neighboring countries. Junior Standing Required.

**KOREAN 4260. The Korean Diaspora in the U.S., Japan and China. 3 Credits.**

Interdisciplinary course related to the phenomenon of migration and settlement from Korea. Course seeks to deepen understanding of the ways in which Korean immigrants have shaped and continue to shape social thought as well as institutions in the United States, Japan and China. Draws upon literature, history and cultural studies to examine experiences of Koreans living in the U.S., Japan and China. Through reading critical literatures, students address issues such as immigration history, race/ethnicity, racism and resistance, gender and sexuality, culture and identity, labor, migration and globalization, class, education, religion. Sophomore standing or consent of instructor required.

## Labor Studies (LAB\_ST)

---

**LAB\_ST 4301. Topics in Labor Studies. 3 Credits.**

Organized study of selected topics in labor studies. Subjects may vary from semester to semester. May be repeated to a maximum of six credit hours. Graded on A/F basis only.

**LAB\_ST 7301. Topics in Labor Studies. 3 Credits.**

Organized study of selected topics in labor studies. Subjects may vary from semester to semester. May be repeated to a maximum of six credit hours. Graded on A/F basis only. Prerequisite: graduate standing required.

## Laboratory Animal Medicine (LAB\_AN)

---

**LAB\_AN 8085. Problems in Laboratory Animal Medicine. 1-99 Credit.**

Advanced studies not expected to terminate in a thesis.

**LAB\_AN 8090. Research in Laboratory Animal Medicine. 1-99 Credit.**

Research expected to terminate in a thesis. Graded on a S/U basis only.

**LAB\_AN 8450. Research in Laboratory Animal Medicine. 1-99 Credit.**

Research not expected to terminate in a thesis. Graded on S/U basis only.

**LAB\_AN 9085. Topics in Laboratory Animal Medicine. 1-99 Credit.**

Courses on various specialized topics in laboratory animal medicine or comparative medicine given on an as needed basis; content depends on faculty expertise and student need. Prerequisite: instructor's consent.

**LAB\_AN 9087. Seminar in Laboratory Animal Medicine. 1 Credit.**

Theme-oriented seminars and discussions in the field of laboratory animal medicine, comparative medicine or related areas. Prerequisite: departmental consent.

**LAB\_AN 9437. Pathology of Laboratory Animals. 4 Credits.**

Pathogenesis, pathology and diagnosis of naturally occurring diseases in animals used in research. Prerequisite: departmental consent.

**LAB\_AN 9468. Laboratory Animal Biology. 4 Credits.**

Anatomy, taxonomy, reproduction, genetics, nutrition, and behavior of common laboratory animals. Emphasis is placed on mice and rats, including genetically-engineered models with comparative discussions on other laboratory animals. Prerequisite: departmental consent.

**LAB\_AN 9469. Laboratory Animal Resource Management. 4 Credits.**

Policies, standards and regulations in the care and use of laboratory animals, including colony management, animal procurement, cost accounting, facility design, and supervisory skills. Prerequisite: departmental consent.

**LAB\_AN 9475. Methodology of Animal Experimentation. 3 Credits.**

Topics include experimental design, applied biostatistics, concepts of animal modeling. Prerequisite: departmental consent.

**LAB\_AN 9476. Grant and Manuscript Writing for Biomedical Researchers. 2 Credits.**

This course will teach students the essential steps of writing effective grant proposals and scientific manuscripts through both lecture/discussion-based and hands-on formats. Students will participate in a grant-writing exercise requiring development of individual proposals which will be reviewed by a mock study section. Prerequisite: Laboratory Animal Medicine [LAB\_AN] 9475; instructor's consent. May be repeated once for credit.

**LAB\_AN 9477. Laboratory and Project Management. 1 Credit.**

This course will provide graduates with professional development skills and career guidance including instruction in laboratory and project management. Topics will include job searching, start-up considerations, equipping a lab, personnel management and budget management. Prerequisite: enrollment in Comparative Medicine Area Program or approval of course coordinator. Graded on S/U basis only.

## Latin (LATIN)

---

**LATIN 1100. Elementary Latin I. 5 Credits.**

Forms, grammar, syntax.

**LATIN 1100H. Honors Elementary Latin. 5 Credits.**

Beginning Latin for Honors Eligible students. Honors eligibility required.

**LATIN 1200. Elementary Latin II. 5 Credits.**

Continuation of Latin 1100. Prerequisite: a grade of C or higher in Latin [LATIN] 1100.

**LATIN 1200H. Honors Elementary Latin II. 5 Credits.**

Continuation of Latin 1100H. Prerequisite: a grade of C or higher in Latin [LATIN]1100. Honors eligibility required.

**LATIN 2000. Latin Reading. 3 Credits.**

Readings in Latin prose and poetry. Prerequisite: grade of C or higher in Latin [LATIN] 1200.

**LATIN 2000H. Latin Reading - Honors. 3 Credits.**

Readings in Latin prose and poetry. Prerequisite: grade of C or higher in Latin [LATIN] 1200. Honors eligibility required.

**LATIN 4300. Latin Poetry. 3 Credits.**

Readings in selections from the Latin poets. Prerequisite: Latin [LATIN] 2000 or equivalent.

**LATIN 4350. Latin Prose. 3 Credits.**

Selections from various Latin prose writers; some composition at instructor's discretion. Prerequisite: Latin [LATIN] 2000.

**LATIN 4500. Latin Stylistics. 1-3 Credit.**

Study and writing of connected prose compositions. Prerequisite: two years classical Latin or equivalent.

**LATIN 4505. Topics in Latin. 3 Credits.**

Topics course involving Latin texts. Prerequisite: Latin [LATIN] 4300 or equivalent. May be repeated for credit.

**LATIN 4510. Age of the Scipios. 3-6 Credit.**

Critical readings in and integrated analyses of the culture of the second century B.C. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4520. Age of Cicero. 3 Credits.**

Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4530. Vergil. 3 Credits.**

Readings, discussion, and literary analysis of Vergil's Aeneid. Prerequisite: two years of Classical Latin or equivalent.

**LATIN 4540. Augustan Literature. 3 Credits.**

Critical readings in and integrated analyses of the culture of Augustan Rome. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4550. Latin Epigraphy. 3 Credits.**

Introduction to the study of Latin inscriptions and their contributions to ancient culture. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4560. Neronian Literature. 3-6 Credit.**

Critical readings in and integrated analysis of the culture of the age of Nero. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4570. Age of Pliny and Tacitus. 3-6 Credit.**

Critical readings in and integrated analyses of the ages of Domitian and Trajan. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4580. The Theodosian Age. 3 Credits.**

A survey of major literary works of the late fourth and early fifth centuries. Readings from Augustine, Ambrose, Prudentius, Paulinus of Nola, Ammianus Marcellinus, Claudian. Prerequisite: two years of Classical Latin or equivalent.

**LATIN 4590. Medieval Latin. 3 Credits.**

Selected texts of Middle Ages and Renaissance. For students with primary interest in history, literature, philosophy, religion, Romance philology, or the classical tradition, experience with Latin sources in their field. Prerequisite: two years of Classical Latin or equivalent.

**LATIN 4600. Survey of Latin Literature. 3 Credits.**

Latin literature from origins to end of Roman Empire; emphasis on authors not covered in other courses, to provide general view of styles and genres. Prerequisite: two years Classical Latin or equivalent.

**LATIN 4960. Special Readings in Latin. 1-3 Credit.**

Readings in authors and texts not covered in other courses. Prerequisites: two years Classical Latin or equivalent.

**LATIN 7300. Latin Poetry. 3 Credits.**

Readings in selections from the Latin poets. Prerequisite: graduate standing and Latin [LATIN] 2000 or equivalent. Available to students for graduate credit in departments other than Classical Studies.

**LATIN 7350. Latin Prose. 3 Credits.**

Selections from various Latin prose writers; some composition at instructor's discretion. Prerequisite: graduate standing and Latin [LATIN] 2000. Available to students for graduate credit in departments other than Classical Studies.

**LATIN 7500. Latin Stylistics. 3 Credits.**

Study and writing of connected prose compositions. Prerequisite: graduate standing and two years classical Latin or equivalent.

**LATIN 7505. Topics in Latin. 3 Credits.**

Prerequisite: graduate standing.

**LATIN 7510. Age of the Scipios. 3-6 Credit.**

Critical readings in and integrated analyses of the culture of the second century B.C. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7520. Age of Cicero. 3 Credits.**

Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7530. Vergil. 3 Credits.**

Readings, discussion, and literary analysis of Vergil's Aeneid. Prerequisite: graduate standing and two years of Classical Latin or equivalent.

**LATIN 7540. Augustan Literature. 3 Credits.**

Critical readings in and integrated analyses of the culture of Augustan Rome. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7550. Latin Epigraphy. 3 Credits.**

Introduction to the study of Latin inscriptions and their contributions to ancient culture. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7560. Neronian Literature. 3-6 Credit.**

Critical readings in and integrated analysis of culture of the age of Nero. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7570. Age of Pliny and Tacitus. 3-6 Credit.**

Critical readings in and integrated analyses of the ages of Domitian and Trajan. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7580. The Theodosian Age. 3 Credits.**

A survey of major literary works of the late fourth and early fifth centuries. Readings from Augustine, Ambrose, Prudentius, Paulinus of Nola, Ammianus Marcellinus, Claudian. Prerequisite: graduate standing and two years of Classical Latin or equivalent.

**LATIN 7590. Medieval Latin. 3 Credits.**

Selected texts of Middle Ages and Renaissance. For students with primary interest in history, literature, philosophy, religion, Romance

philology, or the classical tradition, experience with Latin sources in their field. Prerequisite: graduate standing or instructor's consent.

**LATIN 7600. Survey of Latin Literature. 3 Credits.**

Latin literature from origins to end of Roman Empire; emphasis on authors not covered in other courses, to provide general view of styles and genres. Prerequisite: graduate standing and two years Classical Latin or equivalent.

**LATIN 7960. Special Readings in Latin. 2-3 Credit.**

Readings in authors and texts not covered in other courses. Prerequisites: graduate standing and two years Classical Latin or equivalent.

**LATIN 8000. Proseminar in Latin Texts. 3 Credits.**

Prerequisite: graduate status or instructor's consent.

**LATIN 8010. Latin Rough Guide. 3 Credits.**

Intensive exploration of Latin literature from the Roman Republic through the Late Empire. Emphasis upon texts as both literary and cultural artifacts whose interpretation requires familiarity with the historical and archaeological legacy of antiquity as well as modern exegetical strategies.

**LATIN 9187. Seminar in Roman Comedy. 3 Credits.**

Prerequisite: graduate standing.

**LATIN 9287. Seminar in Latin Lyric and Elegiac Poetry. 3 Credits.**

Prerequisite: graduate standing.

**LATIN 9387. Seminar in Neronian Literature. 3 Credits.**

Prerequisite: graduate standing.

**LATIN 9487. Seminar in Roman Historians. 3 Credits.**

Prerequisite: graduate standing.

**LATIN 9587. Seminar in Latin Epic Poetry. 1-99 Credit.**

Prerequisite: graduate standing.

**LATIN 9687. Seminar in the Augustan Age. 3-6 Credit.**

Integrated studies in the culture of the age of Augustus--its literature, art and architecture, religion, political and social institutions. Prerequisite: graduate standing.

**LATIN 9787. Seminar in Late Antiquity. 3 Credits.**

Integrated studies in the culture of late antiquity with interdisciplinary focus. Prerequisites: graduate standing or instructor's consent.

**LATIN 9887. Seminar in Special Fields. 3 Credits.**

Prerequisite: graduate standing.

## Law (LAW)

---

**LAW 5010. Civil Procedure I. 1-3 Credit.**

Fundamental and recurrent problems in civil actions in federal and state courts; remedies; pleading; discovery; trials; jurisdiction; appeals; joinder; preclusion.

**LAW 5015. Civil Procedure II. 1-3 Credit.**

Continuation of Law 5010.

**LAW 5020. Contracts I. 1-3 Credit.**

Contract formation, insufficient and defective agreement, bases of promissory liability (including consideration and promissory estoppel), resolution, and abuse of bargaining process, Statutes of frauds, parole evidence rule and principles of interpretation, contract performance and risk allocation, remedies for breach.

**LAW 5025. Contracts II. 1-3 Credit.**

A continuation of Law 5020.

**LAW 5035. Criminal Law. 1-4 Credit.**

The purposes of criminal law; nature of criminal responsibility; characteristics of particular crimes.

**LAW 5050. Property. 1-5 Credit.**

Classification of real and personal property; rights to found goods; bailments; possession and adverse possession; estates in land and future interests; concurrent ownership; Landlord and tenant; easements, profits and licenses; covenants running with land and equitable servitudes; contracts for the sale of land; conveyancing.

**LAW 5070. Torts. 1-5 Credit.**

Principles and practices governing recovery of damages for injuries to person or property. Defamation invasion of privacy dignitary wrongs, products liability, fraud liability insurance, immunities and a survey of various "no fault" proposals.

**LAW 5080. Legal Research and Writing. 1-2 Credit.**

An introduction to the basics of legal research (using print materials), legal citation and legal writing. Each student writes two objective office memoranda, and a client letter.

**LAW 5085. Advocacy and Research. 1-3 Credit.**

An introduction to Computer Assisted Legal Research, written advocacy, oral advocacy, and the Missouri rules of appellate procedure. Each student writes a trial court motion and brief and then argues that motion. Each student also writes an appellate brief and presents an oral argument in the First Year Moot Court Competition directed by the Board of Advocates (BOA).

**LAW 5090. Legal Reasoning. 1-2 Credit.**

A limited enrollment course designed to assist first-year students to better understand the legal system, prepare for examinations and improve their legal analysis and reasoning skills. Graded on S/U basis only.

**LAW 5095. Lawyering: Problem Solving and Dispute Resolution. 1-2 Credit.**

This course is designed to provide students in introduction to critical lawyering skills; to give students an overview of the alternative processes that a lawyer can employ to resolve a client's problem; and to offer students an understanding of the lawyer's role as a problem solver. It includes an introduction to Interviewing, Counseling, Negotiation, Mediation, Arbitration, mixed dispute resolution processes and ways to choose or build dispute resolution process.

**LAW 5220. Constitutional Law. 1-4 Credit.**

Study of theories of judicial review and justiciability; sources of federal legislative power, commerce, taxing, spending, treaty, presidential, military powers; power of states to regulate and tax interstate commerce; preemption; state actions doctrine; due process, equal protection, First Amendment rights.

**LAW 5240. Criminal Procedure. 1-3 Credit.**

Constitutional and other limitations placed upon law enforcement officers and prosecutors.

**LAW 5260. Evidence. 1-4 Credit.**

The basic law of evidence; use in trials, relevancy, circumstantial proof and real proof; use of witnesses, methods of examination; presumptions and burden of proof; functions of judge and jury.

**LAW 5280. Professional Responsibility. 1-3 Credit.**

Responsibilities of lawyer to client, courts and the public. Topics include: organization of the legal profession, fees, conflicts of interest, the confidential relationship, advertising and solicitation, unauthorized practice and courtroom behavior.

**LAW 5310. Administrative Law. 1-3 Credit.**

(same as Public Administration 8864). Administrative Law is concerned with the process government agencies used to make decisions. As such it develops the requirements for establishing rules and policies. It also covers the means by which regulations and statutory provisions are enforced by agencies, and the means for securing judicial review of rules and enforcement actions.

**LAW 5311. Adoption, Assisted Reproductive Techniques and Guardianship. 1-3 Credit.**

This course covers history of adoption, procedure in modern instate and interstate adoptions, inter country adoption, who may adopt, confidentiality in adoption, post adoption disputes, procedure under the Indian Child Welfare Act and the Interstate Compact for Placement of Children, ARTs (assisted reproductive techniques), guardianship, and payment of money in adoption and collaborative reproduction.

**LAW 5313. Collateral Consequences of Sentencing. 1-3 Credit.**

This class will examine the collateral consequences of sentencing. In three-parts, the course will examine sentencing the consequences associated with sentencing (i.e. deprivations and disabilities that an offender encounters), and the process of restoration and reentry for offenders following their sentences. Given the scope of offenses and sentences, the courses will focus exclusively on felonies and the consequences from such convictions. Part I will provide students with a brief overview of sentencing history and its reform. Part II will focus on the plethora of deprivations and disabilities that offenders encounter upon being sentenced for a felony. And finally, Part III will discuss the various methods and processes for an ex-offender to regain their rights.

**LAW 5320. Advanced Legal Research. 1-2 Credit.**

Skill training in advanced research techniques and resources used in law practice. Designed to help students become critical legal information consumers with emphasis on developing effective, cost-efficient research strategies. Topics include advanced litigation research, legislative and regulatory history, audience research, research in transactional practices areas, and research in other practices areas including legal ethics, public interest law, and international law. In-depth practice with Lexis, Westlaw and free Internet sources, including appropriate and effective use of social networking tools to extend research.

**LAW 5321. Advanced Legal Writing. 1-3 Credit.**

This course is designed to help students to think purposefully about the process of writing and to practice writing and editing in a disciplined way. Students will do exercises involving rhetorical techniques, grammar, punctuation, and word usage. Students also will rewrite of portions of appellate briefs or judicial opinions to emphasize a particular technique, or critique briefs or opinions to do so.

**LAW 5323. Advanced Torts: Dignitary and Economic Torts. 1-3 Credit.**

The Advanced Torts: Dignitary and Economic Torts class will examine dignitary and economic torts covering but not limited to such topics as: defamation, invasion of privacy, tortious interference, misrepresentation and injurious falsehood. Unlike tortious conduct that results in an individual suffering physical harm or contact, the claims that arise from these torts represent one of two kinds of non-physical injury -

independent dignitary that are similar to or include emotional harms or independent economic or commercial harms. The purpose of the course is to provide students with an opportunity to explore tortious conduct and remedies available that are omitted typically from the First Year Torts course.

**LAW 5325. Advanced Trial Practice. 1-3 Credit.**

This course will expand student knowledge of opening statements, direct/cross examination witnesses, jury instruction, closing arguments and will focus significantly on the examination/cross examination of expert witnesses. Grading is based on student participation in examination of witness and semester-ending written trial brief. Prerequisites: Evidence; Trial Practice.

**LAW 5327. Advertising and Marketing Law. 1-3 Credit.**

This course will cover the regulation of false and misleading advertising under the Lanham Act, the FTC Act and state consumer protection laws. Students will examine advertising and analyze what claims are being made and whether those claims are false or misleading under applicable law. Students will examine the procedures available for competitors, the government and consumers to challenge false or misleading advertising and the remedies available through those procedures.

**LAW 5330. Advocacy, Family Violence and Public Policy. 1-2 Credit.**

Interdisciplinary presentations examine both the state of family violence in America and the cross disciplinary issues in effective intervention, including legal procedures. The seminar is open to 2nd or 3rd year law students and other professional graduate students with permission of the faculty. (Not available to students on probation, except for students classified as 3L students).

**LAW 5332. Advocacy and Government Agencies. 1-3 Credit.**

This course will begin with a brief review of the structure of government: what the various programmatic tools (such as different type of regulation and the delivery of services) are, when they are use, how they work, and why. It will look at how to advocate you cause before agencies, such as informal contacts, formal submittals, and the role of scientific and economic information. We will review the increasing use of the web and what it means for interacting with agencies. It will look at how agencies are managed and the reviews inside the government to ensure "quality" decisions. It will look at the ethical requirements on government employees and their effects on advocacy. It will also look at restrictions on the outside, with a brief review of the law of lobbying. A good portion of the class will be practical advocacy before agencies and how to challenge agency actin in court. We will also talk about the role of the President (or governor) and Congress (or the legislature) in achieving your goal before an agency. A general familiarity with Administrative Law is critical. Thus, a course in Administrative Law (5310) or its equivalent is required as a prerequisite.

**LAW 5335. Agricultural Law. 1-3 Credit.**

Economic and legal aspects of agricultural problems will be analyzed, along with the implications of alternative proposals. The agricultural issues to be covered include statutory restrictions on farmland ownership.

**LAW 5337. American Legal History to 1876. 1-3 Credit.**

This is a revision of Legal History. The course covers such topics as the impact of the English common law heritage; the development of law in the American colonies; slavery, race and gender in nineteenth century America. The course ends with the conclusion of the Civil War. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

**LAW 5338. American Legal History from 1876. 1-3 Credit.**

Historical study of the development of American law since the Civil War. The course will cover such topics as the Civil War amendments to the Constitution; Reconstruction and its aftermath; legal change during the rise of industrialism; race and gender in late 19th century and 20th century America; law in the Progressive Era; the growth of civil liberties and civil rights in the Supreme Court; the law during war and the Depression; jurisprudential trends; and the Civil Rights Movement of the 1960s. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

**LAW 5340. Antitrust Law. 1-3 Credit.**

Introduces antitrust and economic analysis and the role of competition, with emphasis on price fixing, horizontal and vertical restraints of trade, monopoly and merger problems.

**LAW 5345. Appellate Advocacy. 1-3 Credit.**

Enhances skills training for the preservation and presentation of matters on appeal. In addition, an introductory examination of extraordinary remedies (as a complement to appeal) and other unique actions filed in the Supreme Court of Missouri.

**LAW 5350. Arbitration. 1-3 Credit.**

Law, policy and practices relating to arbitration process as it is utilized in commercial and international sectors. Topics include modern arbitration statutes (e.g., the Federal Arbitration Act), enforceability of agreements to arbitrate, public policy defenses against enforcement of arbitration agreements, arbitrators and administering institutions, components of the arbitral process, arbitral remedies and awards, and the arbitration award in the courts.

**LAW 5360. Banking Law. 1-3 Credit.**

This course will review the current banking structure in the United States. The course will focus on the regulatory framework in which banks operate, including types of charters, permitted activities, capital structure and reporting requirements. The course will integrate changes enacted in regulatory reforms mandated by the Dodd-Frank Regulatory Reform Act of 2010, as well as new capital requirements that may be imposed by international agreements (Basel III).

**LAW 5365. Bankruptcy. 1-3 Credit.**

Focuses on rights of both secured and unsecured creditors under state and federal law. State law covers collective actions and such individual actions as execution, attachment, garnishment, and the law of fraudulent conveyances. Federal law concentrates on liquidation proceedings under Chapter 7 of the Bankruptcy Code and reorganizations for wage earners under Chapter 13 of the Code. Includes, as time permits, an introduction to the business reorganization provisions of Chapter 11.

**LAW 5370. Basic Business Principles for Lawyers. 1-3 Credit.**

This course is designed for students who want to understand the language and practices of business regardless of whether they contemplate being a business lawyer or not. All lawyers, regardless of their specialty, regularly encounter the language and concepts of business. The purpose of the class is to provide law students with little or no business knowledge or background with the information they need to practice law effectively in a business environment. This class is intended to educate students to be comfortable with business concepts regardless of their prior background. So liberal arts undergraduates should feel comfortable taking this class.

**LAW 5375. Basic Federal Income Taxation. 1-4 Credit.**

Federal income tax problems of individuals taxpayers; nature of income; when and to whom income is taxable; exclusion from tax base; deduction; tax effects of exchange or other disposition of capital assets. This course is designed to introduce students to the income tax considerations that arise in a variety of legal contexts and will benefit even those students not planning to pursue a career in tax.

**LAW 5380. Bioethics Seminar. 1-3 Credit.**

An examination of some of the legal and ethical issues presented by modern medical science, such as the redefining of death, the withholding or refusal of life-sustaining medical treatment, reproductive technology (which raises issues such as paternity, custody, safety and access), organ transfer, genetic counseling and the public health issues raised by the AIDS epidemic. (Not available to students on probation, except for students classified as 3L students).

**LAW 5385. BOA Competition. 1 Credit.**

While this is a late summer moot court competition directed by the Board of Advocates. The competition is open to 2Ls and 3Ls, but only 2Ls can advance to the final rounds. Students receive an assignment in the spring, submit their written appellate briefs at the end of July, and participate in oral arguments at the beginning of fall semester. The top six 2L competitors present their final arguments in Jefferson City before Missouri Supreme Court judges. These finalists are invited to represent the law school during the following academic year as members of our regional teams for the National Moot Court Competition. Regional team members must enroll in Moot Court I and Moot Court II. Prerequisite: LAW 5085. Graded on S/U basis only.

**LAW 5395. Business Organizations. 1-4 Credit.**

The law schools foundation course in business law; recommended for students in all areas of interest. Course coverage includes the study of agency, partnership, limited partnerships, limited liability partnerships, limited liability companies, and corporations. This course is a prerequisite for several advanced electives in business law.

**LAW 5410. Children and the Law. 1-3 Credit.**

This course covers the status, rights and obligations of children in contemporary American law; civil proceedings and criminal prosecutions alleging child abuse or neglect; foster care; termination of parental rights; juvenile protective legislation; and delinquency. Emphasis is placed on juvenile justice doctrine, policy and practice issues and the historical and contemporary operation of juvenile and family courts.

**LAW 5415. Constitutional and Civil Rights Litigation. 1-3 Credit.**

Advanced analysis of protection of civil liberties that derive from the United States Constitution and federal statutes. The statutes which will be covered most extensively include the Reconstruction Era laws now codified at 42 U.S.C. section 1981, 1983 and 1985, Rehabilitation Act of 1973, Titles IX of the Educational Amends. of 1972, and Titles II and VI of the Civil Rights Acts of 1964.

**LAW 5420. Client Interviewing and Counseling. 1-3 Credit.**

This course covers the nature and conduct of counseling process including basic interviewing techniques, psychological factors affecting the interview process, facilitating and structuring the interview, clarification of statements and ascertaining legal issues, and dealing with client resistance and hostility. Graded on S/U basis only.

**LAW 5425. Clinical Skills. 1-4 Credit.**

Skills training for students enrolled in the criminal clinic. Lectures and simulations designed to facilitate student skills in case preparation and presentation and client representation: ethical concerns, fact

investigation, interviewing and counseling, drafting legal documents, direct and cross exam, making and responding to objections. (Not available to students on probation).

**LAW 5430. Commercial Real Estate Leasing. 1-3 Credit.**

Seminar course that involves the study of selected topics involved in the negotiation, drafting, and Interpretation of commercial real estate leases. These topics will include (among others): rental provisions, defining the premises, use of the premises, condition of the premises, assignments and subleases, maintenance and repairs, casualty, insurance, default/remedies, and collateral lease documentation. The course focuses upon the various parties involved in the process of commercial real estate leasing, their respective interests, and the dynamics of the negotiation and drafting process in which these parties memorialize their respective interests in the lease document. There is heavy focus upon the careful reading, review, negotiation and revision of the lease document. Grading is based upon a series of exercises involving document review, negotiation, and drafting, and includes both individual and group work.

**LAW 5435. Comparative Law. 1-3 Credit.**

This course examines differences and similarities between the major legal systems of the world, focusing on distant areas of substantive and procedural law to demonstrate diverse methods of addressing similar legal issues. The course includes a discussion of the historical distinctions between the common and civil law traditions but also moves the analysis forward to address more recent legal innovations and the recognition of new groupings of legal systems. Students will leave the class with a solid understanding of (1) how U.S. legal principles compare to approaches used elsewhere and (2) the uses and benefits of the comparative approach. Principles taught in this course will be equally applicable to those who anticipate practicing domestic U.S. law as well as those who expect to develop an international practice. No foreign language skills are necessary for this course.

**LAW 5440. Complex Litigation. 1-3 Credit.**

Will examine principles and practical techniques relevant to complex civil cases. Building on civil procedure, the course will focus on litigation involving multiple parties and/or multiple jurisdictions. Each student will be required to complete several drafting assignments. Course may be repeated for credit. Prerequisite: Civil Procedure.

**LAW 5445. Conflict of Laws. 1-3 Credit.**

Study of how disputes, and transactions are affected by having contacts with more than one jurisdiction. The three principal areas of study are: Where can suit be brought? What law will be applied? What will be the effect of any judgment?.

**LAW 5450. Conflict and Conflict Management. 1-3 Credit.**

This course is designed to give lawyers a better understanding of the meaning and dynamics of conflict, so that they may better understand their client's situations, as well as the mechanisms that may be most appropriate to the resolution of any particular dispute. Course draws its theoretical teachings from a variety of disciplines beyond law: psychology, sociology, anthropology and economics. This course is also open to Journalism students.

**LAW 5451. Constitutional Faith. 1-3 Credit.**

Justice Hugo Black famously described his commitment to the Constitution as a "constitutional faith." The civil religion of the Constitution may well be the country's most widely held faith. This seminar explores the many meanings—and the dilemmas—of Americans' constitutional faith. We will begin by considering the Constitution's status as a "sacred text," one that performs the same sort of public functions in American life

that the Bible performed for western democracies in earlier centuries: binding together the populace and giving citizens a shared sense of meaning. We will begin by considering the Constitution's status as a "sacred text," one that performs the same sort of public functions in American life that the Bible performed for western democracies in earlier centuries: binding together the populace and giving citizens a shared sense of meaning. From there we will turn to a series of interlocking questions that the Constitution's sacred status poses: What, precisely, is the Constitution? Is it the test - or tradition- or something else? Who has authority to interpret the Constitutions (whatever it is)? Does it deserve veneration - or is it in fact flawed or inefficient or even immoral? Finally, how should one read the Constitution we have? Students will ultimately be asked to decide whether "constitutional faith" is really worth embracing. We will explore these questions together in a discussion-based format, drawing on readings from the fields of law, political science, and religion. There are not prerequisites for this seminar. Class attendance and participation is mandatory, and will account for 30 percent of the final grade. The remaining 70 percent will be based on a seminar paper, at least twenty pages in length, on a topic of the student's choosing (with instructor approval). This class will satisfy the writing requirement.

**LAW 5452. Constitutional Litigation. 1-3 Credit.**

This course will focus on federal constitutional adjudication from the viewpoint of the litigator and the law clerk with a view towards (among other things) preparing students for federal and state clerkships. Students will consider specific substantive questions of constitutional law currently pending before the Supreme Court. They will each argue two cases taken from the Supreme Court docket; participate in oral arguments as guest judges; write one petition for certiorari from an Eighth Circuit case; and draft a Supreme Court brief. Students will have an opportunity to argue at the Missouri Supreme Court before sitting Supreme Court Judges.

**LAW 5454. Contract Drafting. 1-3 Credit.**

Course teaches students the principles of drafting commercial agreements. Although the course will be of particular interest to students pursuing a corporate or commercial law career, the concepts are applicable to any transactional practice. Students will learn how transactional lawyers translate business deals into contract provisions, as well as techniques for minimizing ambiguity and drafting with clarity. Through a combination of lecture, hands-on drafting exercises and extensive homework assignments, students will learn about different types of contracts, other documents used in commercial transactions, and the drafting problems that contracts and other documents present. Course will also focus on how a drafter can add value to a deal by finding, analyzing and resolving business issues. Grades will be based on the graded assignments, good faith completion of the ungraded assignments, and class participation.

**LAW 5455. Copyright Law. 1-3 Credit.**

Nature of copyright law; common law misappropriation; scope of common law copyrights; Copyright Revision Act of 1976 as amended; formalities of registration (fixation, copyright notice): copyrightable subject matter; originality; exclusive rights of copyright owner; scope of copyright protection; substantial similarity and infringement; fair use; joint and composite works; duration, renewal, termination, transfer; remedies; artists moral rights; federal preemption; international protection; copyrightability of computer software; copyright issues on the internet.

**LAW 5460. Corporate Finance. 1-3 Credit.**

Legal principles of corporate finance, including: considerations of capital structure; characteristics of various types of corporate securities;

mechanics of securities issuance; principles of contract interpretation applied to securities; application of basic principles of fiduciary obligations in issuers having outstanding multiple classes of securities and in transactions affecting finance; distributions in respect of securities; as time permits, basic principles of valuation for legal purposes. This class is not duplicative of a class in the economics of corporate finance; and prior study of the economics of corporate finance is not a prerequisite. Prerequisite: LAW 5395 or professor's consent. Students cannot enroll concurrently in Corporate Finance and Deal Skills. Students who have completed Deal Skills and precluded from enrolling in Corporate Finance. However, students are allowed to enroll in Deal Skills even if they have already taken Corporate Finance.

**LAW 5465. Corporate Taxation. 1-3 Credit.**

This course will provide an in-depth study of the federal income taxation of corporations and their shareholders, including the tax aspects of forming and capitalizing a corporation, corporate distributions, redemptions, and taxable and tax-free corporate liquidations. This course will be taught using the problem methods of instruction. Prerequisite: LAW 5375. Must have taken or be currently enrolled in LAW 5325.

**LAW 5470. Criminal Clinic. 1-5 Credit.**

The Criminal Clinic is available during both the Fall and Winter semesters. It can only be taken once. Enrollment is limited to 8 students per semester. Students must also enroll in Clinical Skills and Criminal Clinic Writing Project and have completed, or be enrolled in, Professional Responsibility. Students must have prior permission of Professor Johnson to enroll. The companion Criminal Clinic Writing Project course will be graded but does not fulfill the "writing" requirement for graduation. (Not available to students on probation).

**LAW 5475. Criminal Clinic Writing Project. 1-2 Credit.**

This is the Writing Section accompanying course 5470.

**LAW 5477. Criminal Justice Administration. 1-3 Credit.**

This course will examine the justice system's processing of formal criminal cases from the point at which a defendant is formally charged forward. In other words, it will be a "procedure" course reviewing the processing and adjudication of criminal cases. Topics might include the defendant's rights under the Sixth Amendment (including jury trial, speedy trial, confrontation clause, and compulsory process rights), Eighth Amendment issues (including bail and cruel and unusual punishment), criminal discovery (including the prosecutor's Brady obligation to provide exculpatory evidence to defendants and notice requirements for alibi and insanity defenses), expert witnesses, pretrial and trial publicity, plea bargaining, sentencing (under discretionary, guidelines, and minimum mandatory systems), criminal appeals, and post-conviction relief (habeas corpus, pardons, and commutations). The course may also review advanced topics in the substantive criminal law, including such issues as fraud, other white collar crimes, conspiracy, and the expanding federal presence in investigation, prosecution, and incarceration. In other words, this will be both an advanced criminal procedure course (similar to "bail to jail" courses at other law schools) and an advanced criminal law course. It is strongly recommended that students successfully complete both Criminal Law and Criminal Procedure before taking this course.

**LAW 5480. Criminal Litigation Skills. 1-3 Credit.**

This skills course concentrates on the pretrial process in the criminal justice system. Topics include attorney-client decision making, interviewing, counseling, plea bargaining and voir dire.

**LAW 5485. Cross-Cultural Dispute Resolution. 1-3 Credit.**

The course will focus on the impact culture can have on the private ordering of disputes. Culture affects communication, perceptions regarding conflict and methods for resolution. As the world becomes more interrelated and Missouri and the U.S. more diverse, lawyers need to be prepared to resolve problems across cultural lines. 20-25% of the grade will come from timely attendance and class participation.

**LAW 5496. Deal Skills Class. 1-3 Credit.**

Introduces students to business and legal issues common to commercial transactions. Class will emphasize the thought process involved in, and required by, the practice of transactional law, skills as interviewing, counseling and communicating with your client, understanding business issues and drafting contract provisions to reflect those issues, negotiation deals and managing a transaction closing. Simulation exercise, in-class role-play and lectures, out-of-class due diligence, negotiation and other exercises. Prerequisite: Business Organization. Students cannot enroll concurrently in Corporate Finance and Deal Skills. Students who have completed Deal Skills are precluded from enrolling in Corporate Finance. However, students are allowed to enroll in Deal Skills even if they have already taken Corporate Finance.

**LAW 5497. Death Penalty Law. 1-3 Credit.**

The primary focus of this course will be on the Supreme Court's capital punishment jurisprudence over the past 35 years, with particular attention to how it has shaped state statutory schemes and legal argumentation in capital sentencing trials.

**LAW 5520. Drafting of Legal Instruments. 1-2 Credit.**

Problems frequently encountered in general office practice (land transfers, mortgages, leases, contracts, wills, business organizations, etc.), with drafting of the related instruments. Use and adaptation of legal forms. S/U graded only.

**LAW 5525. Education Law. 1-3 Credit.**

This course examines the application of discrete doctrines from criminal law, constitutional law, juvenile law, employment law, and disability law to the legal problems facing American schools. Students will explore the ways in which the objectives of these discrete legal doctrines either promote or interfere with our educational policies. Substantive areas of concentration include state regulation of education; freedom of speech, association and religion; equal educational opportunity; employment of teachers; and discipline of students.

**LAW 5526. Education Reform Law. 1-3 Credit.**

This class will explore the many legal and policy issues raised by efforts to reform American K-12 education. We will look at legislative proposals such as No Child Left Behind, Race to the Top, alternative teacher certification rules, penalties for failure to improve the performance of subgroups, authorization of charter schools and vouchers, expanded access to state-funded pre-K, fairer funding formulas, and expanding racial and economic integration through school attendance policies.

**LAW 5530. Elder Law. 1-3 Credit.**

This course address legal issues impacting older individuals, including discussion of government benefits (Social Security, Medicaid, Medicare, Supplemental Security Income), long-term care (types, contract issues, civil rights, and financial planning), guardianship and conservatorship, planning for incapacity, and health care decisions at the end of life. The course emphasizes planning techniques for the average client. Grade will be based on a short paper and take-home exam. The course may be taken for writing credit.

**LAW 5532. Election Law. 1-3 Credit.**

Election Law has become more important in recent years. This course will introduce students to the many theoretical and practical constitutional, statutory, common law, and policy issues that accompany the franchise, including: legislative districting, voting rights, campaign finance, political parties, interest groups, direct democracy, and alternative democratic structures. The course will emphasize federal law, but will also address Missouri state law as appropriate.

**LAW 5534. Electronic Discovery. 1-3 Credit.**

This course provides an in-depth treatment of the legal, technical, and cost management issues involving electronically stored information ("ESI") in civil litigation. Covers the 2006 FRCP ESI amendments (Rules 26 meet and confer, 34, production, and 37 sanctions), FRE 502 (privilege review and production), state e-discovery rules, the rapidly developing ESI case law, and emerging best practices from the Sedona Conference Cooperation Proclamation, the Electronic Discovery Reference Model, and other E-discovery authorities. Practice drafting litigation holds, preservation orders, and related e-discovery documents regularly used in civil litigation. Grading is based on student projects and a final examination.

**LAW 5537. Emotional Intelligence in Law. 1-3 Credit.**

Success in law requires more than substantive legal knowledge. It also requires self-awareness, or "emotional intelligence," by the lawyer in order to be able to operate effectively in a complex and nuanced legal environment. This course is designed to help students develop their emotional intelligence by cultivating such personal and social competencies as personal and social awareness, understanding of motivation, empathy and social skills.

**LAW 5540. Employment Discrimination. 1-3 Credit.**

This course examines the laws which prohibit discriminatory practices in employment. Title VII is the primary focus, but coverage is also given to the Equal Pay Act, the Americans with Disabilities Act, and the Age Discrimination in Employment Act. Additionally, the course addresses the administrative process available for dealing with employment discrimination complaints, the prima facie case requirement and burden shifting analysis fused in civil rights cases, and affirmative action requirements.

**LAW 5543. Employment Law. 1-3 Credit.**

Employment Law focuses on the legal relationship between employers and employees in the non-unionized workplace. The course will survey a variety of issues regarding the establishment, maintenance and termination of the employment relationship. For example, the course will cover the common law aspects of that relationship, particularly contracts and torts. It will examine statutory modifications of the common law in areas such as wage and hours, pensions, whistle-blower protection, unemployment insurance, workers compensation, and health and safety.

**LAW 5545. Environmental Law. 1-3 Credit.**

Federal and state regulation of the environment, including the economic and philosophical foundations of environmental regulation, the common law roots of environmental regulation, and substantive coverage of a number of environmental statutes, such as the Clean Air Act, Clean Water Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation and Liability Act, National Environmental Policy Act, and Endangered Species Act. Prerequisites: Estates and Trusts; Basic Federal Income Taxation (Estate Planning report suggests this course as co-requisite; Tax Group report suggests this course as prerequisite).

**LAW 5555. Estate Planning and Taxation. 1-4 Credit.**

This is a tax-oriented planning course, including discussion of federal estate and gift tax, income taxation of estates and trusts, and techniques for transferring property of a minimal tax cost both during life and at death. Grade will be based on the preparation of one or more projects. Prerequisites include LAW 5560 and 5375.

**LAW 5560. Estates and Trusts. 1-4 Credit.**

Wills: probate process and will contests, intestate succession; restrictions on testation; execution, revival of wills; integration, incorporation by reference, events of independent significance; will substitutes; will construction; family protection.. Trusts: elements and creations; modification and termination; beneficial interests; charitable trusts; trust construction; powers of appointment; trust administration and fiduciary duties.

**LAW 5565. European Union Law. 1-3 Credit.**

Introduction to the law of the European Union. Emphasis will be on the "constitution" of the Union: treaty structure, institutions including the European Court of Justice and its jurisdiction, relationship of EU law and institutions to those of Member States, and the role of the EU in external relations. Substantive topics include the four freedoms (free movement of goods, persons, services and capital among the Member States), competition policy, and harmonization of laws; others may include environmental protection social policy, gender equality and monetary union.

**LAW 5570. Externship. 1-3 Credit.**

The Externship offers students an opportunity to develop the skills necessary to bridge the gap between law school and law practice. Through the Externship, students prepare for "effective and responsible participation in the legal profession" (ABA std. 301) by applying the core concepts learned in law school courses to the challenges presented in the actual, in-office practice of law. Details concerning the requirements and structure of the course are available at the Externship webpage. Students cannot take more than 6 hours of Externship credits. Credits earned in the Landlord/Tenant Practicum count toward that 6-hour Externship limit.

**LAW 5572. Fair Housing. 1-3 Credit.**

The goals of this course are (1) to provide students with a conceptual framework for understanding the different forms that housing discrimination can take and how such discrimination affects our society, and (2) equip students with practical tools for analyzing and litigating fair housing cases. The course will focus primarily on the Federal Fair Housing Act of 1968, and the Fair Housing Amendments Act of 1988. We will examine the Fair Housing Act, its legislative history, early case law, and the development of the basic doctrine. We will progress to the "modern" era of fair housing law, after the Fair Housing Amendments Act added disability and familial status as protected classes. We will explore the ways in which the concept of what constitutes "housing discrimination" has expanded, and how the law has developed accordingly. For example, we will discuss sexual harassment in housing, and the requirements that new multifamily housing be built so that it is accessible to persons with disabilities. In addition, the course will cover more systematic ways in which housing discrimination can manifest itself, such as through municipal land use and zoning decisions, and the mortgage lending practices of financial institutions (including discriminatory refusals to lend, redlining, and predatory lending). In addition to these doctrinal issues, the course will cover the private and public enforcement mechanisms of the Act; theories of liability (including disparate treatment, disparate impact, and failure to reasonably

accommodate); damages; and issues of proof (including the uses of statistical and testing evidence).

**LAW 5575. Family Law. 1-3 Credit.**

After surveying the variety of family arrangements in contemporary America and central issues concerning the practice of domestic relations law, this course covers marriage; dissolution; distribution of marital property; alimony; child custody; visitation and support; post-dissolution disputes over custody and child-rearing; non-marital families and non-marital children; private agreements in family law; and alternative dispute resolution in collaboration with other professions in client representations, and ethical and policy issues.

**LAW 5577. Family Law Dispute Resolution. 1-3 Credit.**

This course involves students performing simulations of litigation and non-litigation dispute resolution procedures used in family law cases. The course begins with discussion of family dynamics (including issues such as child development and domestic violence), the family court system, and distinctive professional challenges for family lawyers. Exercises involve procedures such as interviewing clients, screening for domestic violence, working with other lawyers, engaging child custody evaluators and parenting coordinators, conducting and defending depositions, preparing for and conducting negotiation and mediation, arguing contested motions in court hearings, and drafting settlement agreements and court orders. Prerequisite: Law [LAW] 5575- Family Law.

**LAW 5580. Family Violence Clinic: Individual and Social Justice. 1-4 Credit.**

Rule 13 certified law students represent needy abused women and children in 13 rural Missouri counties. Students obtain orders of protection in adult abuse courts, and students appear in protective custody cases in juvenile courts. Weekly briefings may include interprofessional graduate students. Law students must complete 580L before or during their clinical experience.

**LAW 5584. Fiduciary Administration. 1-3 Credit.**

This course will cover key issues that arise in the administration of decedent's estates and trusts, including the necessity for probate, rights of creditors, the fiduciary obligations of trustees and personal representatives, investments, and accountings and distribution. Depending on class size, grading will be based either on an exam, a practice-oriented project, or both.

**LAW 5585. Federal Courts. 1-3 Credit.**

The role of federal courts and their relationship to state courts. Topics covered: justiciability; federal question and diversity jurisdiction, sovereign immunity; abstention; and habeas corpus.

**LAW 5589. The Fourteenth Amendment. 1-3 Credit.**

This course will build on Constitutional Law I by focusing on the constitutional revolution achieved by the Fourteenth Amendment. The course will begin by exploring the passage of the Amendment and its early interpretation, before turning to focus on the development of modern due process and equal protection law. Topics to be covered include incorporation, substantive due process and the right to privacy, race and gender equality, fundamental rights, and state action doctrine. Students will also be introduced to Section 5 questions regarding the scope of Congress' ability to enforce the Amendment.

**LAW 5590. Freedom of Speech and Association. 1-3 Credit.**

A study of the rights of speech and association under the First Amendment of the United States Constitution. Major Supreme Court decisions regarding freedom of speech, including content-based and content-neutral restrictions of speech, regulation of commercial speech,

regulation of obscenity and pornography, regulation of speech in public and private fora, libel and privacy law, forced association with persons or ideas, and subsidization of speech.

**LAW 5591. Food Law and Policy. 1-3 Credit.**

This course examines the laws that govern food safety and food labeling and considers how well this network works to protect American consumers. It also considers current issues affecting the global food system. Representative topics include recent food safety problems such as tainted meat and salmonella contamination of eggs; food labeling issues such as the use of the term "grass fed" in meat labeling and the use of GMO seed; organic standards; government efforts to address the obesity problem; urban food deserts; animal welfare concerns; the regulation of pet food, and the like. Specific topics addressed each semester will depend on current events and recent legal developments. Students will be graded on the basis of research paper and class participation.

**LAW 5595. Gender and the Law. 1-3 Credit.**

A study of the treatment of gender by the legal system. Topics will include a survey of writings by influential feminist legal scholars, historians and social scientists; a comparison of different theoretical frameworks; and an overview of substantive law and the latest legal developments involving gender. The primary aim of the course is to study various feminist theories to discern how gender is viewed by today's lawmakers and courts.

**LAW 5615. Health Care Law: The Doctor-Patient Relationship. 1-3 Credit.**

An examination of the law governing the interactions between patients and their health care providers (doctors, hospitals, and managed care organizations). It will focus on rules governing duty to treat, confidentiality, informed consent, medical malpractice liability, institutional vicarious liability, managed care liability, ERISA preemption, and medical malpractice reform. As time permits, the class may also cover selected elements of public health law.

**LAW 5616. Health Care Organization and Fiance Law. 1-3 Credit.**

This upper-level health law course focuses on the regulation, structure and financing of the U.S. health care system. Regulatory and structural issues include the legal organization of health care institutions, accreditation, medical staff dispute, managed care, fraud and abuse, tax exemption, health care transaction, and antitrust. Access and financing issues include private health insurance and Medicare and Medicaid. The Affordable Care Act and its effect on these various issues will be addressed.

**LAW 5620. Immigration Law. 2-3 Credit.**

A study of the development of U.S. immigration and refugee law and policy, with emphasis on current immigration problems and issues. Recent changes in the immigration laws, and future trends in dealing with increasing immigrant pressure.

**LAW 5630. Individual Employment Rights. 1-3 Credit.**

This course explores the legal environment in which non-unionized employees and their employers operate.

**LAW 5632. Innocence Project Clinic. 1-4 Credit.**

This is a joint clinic among the MU and UMKC law schools, the MU School of Journalism and a non-profit group and is called The Midwestern Innocence Project. Law students will work under the supervision of the Clinic Director, a practicing lawyer, on cases of possible actual innocence from six states. Prerequisite: Wrongful Convictions. Graded on S/U basis only.

**LAW 5635. Insurance Law. 1-3 Credit.**

A basic course in the fundamentals of insurance law. Topics covered include defining insurance; risk and the nature of the insurance relationship; insurable interest; indemnity; fortuity; subrogation; coordination of benefits; interpretation; rights a variance with policy provisions; contract formation; warranties, misrepresentation and concealment; condition; agents and brokers; introduction to regulation; introduction to insurance coverage.

**LAW 5640. Intellectual Property. 1-3 Credit.**

This course is an introduction to the four broad areas of intellectual property. Students will learn about intellectual property, contract, and tort knowledge gained for the first year curriculum. The course will cover trademarks, trade secrets, patent law, and copyright law. Thus, the course will cover how one obtains the special property rights called the copyright, patent, trademark contract. Further, the course will cover how these intellectual property property rights are protected from the tortious act of infringement, as well as any defense to infringement it is important to note that this introductory class cannot be used to satisfy any of the requirements for the Intellectual Property certificate; nor is this introductory course substitute for the more in-depth coverage offered by Patent Law & Policy, Copyright Law or Trademark Law. Rather, it is designed to allow students to explore basic intellectual property issues and to meet any prerequisites for Cyberspace Law, Software Law and International Intellectual Property,. Students may find that taking this introductory course complements the rest of the intellectual property curriculum. Class participation and preparations is required, as is class attendance. An exam and several small written projects will be required. Law students should anticipate that this course might be cross-listed, allowing other departments to register graduate students.

**LAW 5641. Intellectual Property Licensing. 1-3 Credit.**

Controversies about the laws surrounding management, use, and licensing of intellectual property frequently dominate the headlines. This course focuses on the realm of intellectual property licensing. Through theoretical discussions and practical exercises, we will examine the many facets of the licensing process, from determination of ownership to decisions on enforcement.

**LAW 5652. International Commercial Arbitration. 2-3 Credit.**

This course offers a study of arbitration as a dispute resolution process for international trade and business disputes. The course reviews ad hoc and institutional arbitration, the authority of arbitral panels, enforcement of agreement to arbitrate, challenging arbitrators, procedure and choice of law in arbitral proceedings, the enforcement of international arbitral awards. Special attention will be given to the international convention on the recognition and enforcement of international arbitral agreements and awards (New York Convention) and the UNCITRAL (U.N. Commission of International Trade Law) arbitral rules and model law. The course focuses on commercial arbitration as an international practice and not on arbitration under any particular national system. Students will participate in a hypothetical arbitration matter, beginning from the development of the claim to preliminary proceedings, the arbitration hearing, and ending with the arbitrators' award.

**LAW 5660. International Human Rights. 1-3 Credit.**

The purpose of this course is not enable students to develop a basic understanding of the concept of international human rights law and the role played by international and regional organizations, states and private actors in defining and enforcing human rights. Beginning with the historical origins of human rights, the course will examine the international regional human rights instruments and institutions that

form the sources of human rights law (the UN system, including the Charter and treaties, European, African and Inter-American human rights regimes). It will also examine the role of non-governmental organization, the International Criminal Court and International humanitarian law (the law of war), and the interaction between US civil rights law and International human right. Throughout the course, students ill be introduced to important critical themes of human rights, including: the distinctions between public and private acts, evolving theories of statehood, sovereignty immunity, cultural relativism, and the western tradition of individual rights, and the relationship between rights and duties. Issues examined will include: political participation and democratization, religious freedom, the use of torture, corporate liability, woman's rights, the right and status of refugees, genocide and war crimes.

**LAW 5665. International Law. 1-3 Credit.**

Introduction to the international legal system, with emphasis on relations between nation-states or international entities. Topics include statehood and recognition, legislative and judicial jurisdiction, human rights and the status of the individual, treaties and international organizations.

**LAW 5670. International Moot Court I. 1 Credit.**

The structure and jurisdiction of the International Court of Justice and the techniques and resources for research in international law. Purpose of the course is to prepare students for the Jessup International Moot Court Competition. Students are not precluded from taking International Law by taking this course. graded on S/U basis only.

**LAW 5675. International Taxation. 1-3 Credit.**

A study of the federal income taxation of international transactions. This course will explore both how the United States taxes income earned by U.S. citizens living overseas ("outbound transactions") as well as how taxes are imposed by the United States on income derived by foreign persons from U.S. sources ("inbound transactions"). Prerequisite: Basic Federal Income Taxation and prior or concurrent enrollment in Advanced Topics in Taxation.;

**LAW 5677. Internet Law and Practice. 1-3 Credit.**

This course will focus on preparing to advise business client dealing with electronic commerce an internet law issues. There is no technological background requirement or prerequisite to take the class. We will explore a variety of themes including the control over the internet by both government and private actors; how online activities differ from their off-line counterparts; and how the laws should react to new forms of interaction and social structures found online. Specific doctrinal topics include problems of digital authorship and publication including rights of anonymity, copyrights, trademarks, defamation and other torts; sales and licensing of products; marketing, advertising and data-mining, including privacy issues; jurisdiction over online actors; and cyber-squatting. Grades will be based on the final exam and an optional short paper.

**LAW 5680. Journal of Dispute Resolution. 1-3 Credit.**

Credit for work as prescribed by the faculty for members of the Journal of Dispute Resolution. S/U graded only.

**LAW 5690. Jurisprudence. 1-3 Credit.**

The major part of the course will cover classic jurisprudential questions about the nature of law - what law is-and related questions regarding judicial decision-making: Under what conditions is a rule a law within a legal system? Are there moral principles that are part of the law even though a legislature has not enacted them? How do judges actually interpret statutes and constitutional clauses? How should they interpret them and are there definitive right answers to disputes about what the

law is? Is it possible to refrain from "legislating from the bent." or does judicial decision-making necessarily involve making new law based on moral and political judgments? In the second part of the course, we will begin thinking about the proper function or aim of some core areas of substantive law. For example, questions might include: Does the criminal law aim to exact retributive justice, to achieve deterrence, or both? Is it legitimate for the legislature to use law to enforce morality of the community's moral belief? Does tort law aim to achieve corrective justice? Does corrective justices require reparations to groups for long past injuries? Reading will include Hart, Fuller, Dworkin, Raz, Ely, Holmes, Scalia, Feinberg, and others.

**LAW 5691. Jury Instructions. 1-3 Credit.**

Theoretical and practical aspects of jury instructions (including general and special verdicts) at trial are presented from the perspectives of the judge, counsel, the jury, and the court of appeals. The course will involve the students in researching and drafting instructions, using pattern instructions, observing or participating in a simulated jury instruction conference, and writing an appellate court opinion that describes what the student has learned during the course.

**LAW 5695. Labor Law. 1-3 Credit.**

The regulation of relations between employers and labor unions at common law and under federal and state legislation; primary emphasis on the National Labor Relations Act, as amended.

**LAW 5697. Landlord Tenant Law and Practice. 1-3 Credit.**

This course primarily focuses on litigation under the Missouri Landlord Tenant statute and under federal administrative regulations governing public entities which provide housing and housing subsidies to low-income people including the processes for litigating against such entities. The course will address pro per pleading, relevant evidentiary issues, and requisite settlement skills/strategies. This course is available to all 2L's and 3L's and is required for all students enrolled in an externship where placement is at Mid Missouri Legal Services for the purpose of Landlord Tenant representation. This course will teach the theory and practice points required to litigate public and private landlord tenant disputes in Missouri. It is a required companion course to the Landlord Tenant placement at Mid Missouri Legal Services Corporation. Together the Mid Missouri Legal Services Placement and seminar will prepare Rule 13 certified law students in the classroom and in the field to represent indigent clients in landlord tenant disputes under the supervision of licensed attorneys. This course and its Legal Services placement advance the law school goal of educating students to integrate the lawyering theory, skills and values required to solve authentic client problems.

**LAW 5698. Landlord/Tenant Practicum. 1-3 Credit.**

The Landlord-Tenant Practicum serves indigent individuals in Mid Missouri. A Mid Missouri Legal Services Corporation staff attorney supervises Rule 13 certified law students representing tenants including but not limited to those who are being evicted and/or who wish to sue their landlords for habitability or security deposit non-return. Students may also represent tenants who reside in public or subsidized housing in administrative actions brought by or against a Housing Authority. The practicum is graded and enrollment is limited. Landlord/Tenant Law and Practice is a pre or co-requisite. Credits earned in the Landlord/Tenant Practicum count toward that 6 hour Externship limit.

**LAW 5700. Land Use Controls. 1-3 Credit.**

This course focuses on laws governing the use and development of land. The course examines legal rules and policy considerations related to zoning, subdivision controls, building codes, historic

preservation, aesthetic regulation, growth management, eminent domain, nuisance law, regional land use conflicts, development exactions, and environmental land use restrictions.

**LAW 5720. Law and Literature. 1-3 Credit.**

Examination of the relationship between law and literature, falling into two main areas: law-in-literature (law, legal institutions and lawyers as depicted in literary works) and law-as-literature (legal documents as literary texts subject to literary techniques of textual analysis and criticism), with emphasis on the former. Readings will include literary and legal texts.

**LAW 5721. Law Practice Management and Technology. 1-3 Credit.**

Managing a successful law practice requires time and project management skills, as well as knowledge about the business of practicing law. This course explores the practical and ethical challenges that confront the solo or small firm lawyer. Students will be introduced to a range of resources for the solo and small firm lawyer, and gain practical experience in preparing a business plan, client welcome package, and policies and procedure manual. Material presented in relevant to both the litigation and the transactional lawyer. Prerequisite: Professional Responsibility.

**LAW 5725. Law and Social Sciences. 1-3 Credit.**

The course takes a social science approach to our understanding of the law, legal developments and legal institutions. Among the topics to be discussed are: historical, theoretical, and political science study of the law, courts, and the judicial process; the policymaking role and impact of the courts; the dynamics and determinants of judicial decisionmaking; and historical accounts of the development of private law.

**LAW 5726. Law and Society. 1-3 Credit.**

Law is a common and yet distinct element of daily life in modern societies, and not only shapes society but is also shaped by society. The creation, interpretation, and enforcement of laws occur in the context of historical changes, societal norms, and the subjective concerns and whims of those charged with its creation. Utilizing an interdisciplinary perspective, the course will explore the nature of law as a set of social systems, central actors in the system, legal reasoning, and the relationship of the legal form and reasoning to social change. By the end of the course, students should be able to evaluate the law and legal institutions, especially in relation to equality, justice, and fairness, and understand how law is involved in the processes of social control, social conflict, and social change.

**LAW 5727. The Law of Tax Exempt Organizations. 1-3 Credit.**

This course will briefly address theories and rationale for exempt organizations and examine in some depth the Internal Revenue Services' tests for tax-exemption and the major types of 501(c)(3) organizations and related contribution deductions, as well as a collection of other 501(c) associations. Attention will be paid to state law regarding formation and operation of Missouri Nonprofit corporations and the IRS application process for recognition of tax-exemption in addition to nonprofit corporate governance matters. Focus will be on Internal Revenue Code provisions, Treasury Regulations, IRS interpretive rulings and case law. Prerequisite: Basic Federal Income Taxation; Business Organizations helpful.

**LAW 5728. The Law of War. 1-3 Credit.**

According to Colonel Wang Ziangsui of the Chinese People's Liberation Army, developing countries should recognize that "the first rule of unrestricted warfare is that there are no rules, with nothing forbidden." Is this true, or can there be Jus in Bello (Justice in War)? In the first phase of this course, we will examine the philosophy of regulating the

law of war, the history of attempts to regulate warfare, and the United States' current posture on the law of war. In the second phase, we will examine laws governing the use of force during conflict (military necessity, proportionality, unnecessary suffering, and the targeting of civilians). We will conclude with a study of the laws governing post-submission opponents (the Geneva Conventions) and issues such as detention, lawful ruses, and unlawful perfidy.

**LAW 5730. Law Review. 1-3 Credit.**

Credit for work as prescribed by the faculty for members of the Missouri Law Review. S/U graded only.

**LAW 5745. Legislation. 1-3 Credit.**

Study of how statutes are drafted, adopted, and interpreted. The principal focus of the course is on the interpretation of statutes by courts.

**LAW 5746. Legislative Practicum. 1-3 Credit.**

Students will be assigned to work with individual lawyer legislators, or lawyer staff, at the Missouri General Assembly, averaging 7-10 hours per week. The students will assist members of the General Assembly by drafting legislation, preparing materials for hearing, conducting research and analysis to respond to broad public policy issues as well as constituent concerns. On occasion students may be assigned to legislative committees, legislative staff support services, or to groups lobbying for legislation. Students will be expected to meet periodically with the professor and to maintain a journal of their activities. Students must also enroll in the Legislative Clinic Seminar. Prerequisite: Professional responsibility. Graded on S/U basis only.

**LAW 5748. Life Skills for Lawyers. 1-3 Credit.**

Readings and discussions will focus on how members of the class want to live their lives as a lawyer. Students will be asked to examine their law school experience and visualize their place in the legal profession. Various problems faced by lawyers (e.g. the pressure to produce billable hours and dealing with clients) will be discussed. Some of the positive aspects of being a lawyer will be identified. The emphasis will be on what the problems and opportunities mean to you personally and the importance of taking responsibility for your own personal and professional life. (not available to students on probation, except for students classified as 3L students).

**LAW 5750. Local Government Law. 1-3 Credit.**

(same as Public Affairs 8866). Structure and powers of local government units; state-local relations, including "home rule"; local government finance, including taxation and indebtedness; incorporation and annexation; eminent domain; tort liability; land use controls; labor relations.

**LAW 5760. Media Law. 1-3 Credit.**

Primary focus will be on practice - what an attorney needs to know in order to represent media clients effectively or, conversely, in order to sue or gag the media. Areas of study include: Access, Damage Control, Prior Restraint, Privacy Protection, Broadcast Rules, Advertising and other issues.

**LAW 5765. Mediation. 1-3 Credit.**

A study of the process in which a neutral third party assists others in resolving a dispute or planning a transaction. The course addresses the mediation movement as regards public policy, politics, professional responsibility, malpractice, and negotiation. Students develop mediation and negotiation skills through readings, demonstrations, experimental exercises, and preparation of a case study.

**LAW 5770. Mediation Clinic. 1-2 Credit.**

(same as Law 6970). Students develop and refine mediation skills by observing and participating in simulated and real mediation cases. Prerequisites: LAW 5765 (or concurrent enrollment), or completion of an approved training. Limited to J.D. or LL.M. students in Designated semesters. Graded on S/U basis only.

**LAW 5775. Journal of Environmental and Sustainability Law (JESL). 1-3 Credit.**

Credit for work as prescribed by the faculty for members of the Missouri Environmental Law and Policy Review. Graded on S/U basis only.

**LAW 5780. Mental Disability and the Law. 1-2 Credit.**

Forensic psychiatry and forensic psychology are burgeoning fields. The news media frequently reports sordid details of heinous crimes that the general public believe could only have been perpetrated by a madman and simultaneously, calls are made to bring these individuals to justice. Social sentiments, and thus public policy initiatives, are becoming increasingly conservative and restrictive in the management of individuals who have a mental disorders and have become entangled in the criminal justice system. This course will explore the impact and interaction of mental disability and the law with a special focus on issues related to the criminal context. Topics will include: mental disorders: comparison and contrasts between clinical and legal definitions; functional implications of mental disorders; legal and clinical issues in the process of criminal forensic evaluations; competence to stand trial; insanity and related defenses; disposition of insanity acquittees; clinical predictions of dangerousness and sexually dangerous persons; competence to be executed; involuntary hospitalization; involuntary treatment; right to treatment; right to refuse treatment; Americans with Disabilities Act; confidentiality; rights of criminally committed persons; sexual predator legislation; and therapeutic jurisprudence.

**LAW 5793. Missouri Administrative Law. 1-3 Credit.**

The Missouri Administrative Law class will examine the philosophical underpinning for the creation of the Administrative hearing Commission (AHC) and the practical realities of prosecuting and defending cases in the venue as a primer for practicing administrative law in Missouri. The course covers such topics as: the history of the AHC, statutory policy considerations, state administrative rule making process and implications, evidence, burden of proof, particular aspects of professional licensing, Department of Natural Resources permitting issues, personnel and discrimination claims, tax cases, judicial review, and attorney fees. The purpose of the course is to provide students with an opportunity to explore the rich variances in Missouri administrative law and to be knowledgeable and confident when faced with an issue in a state administrative venue.

**LAW 5795. Modern Payment System. 1-3 Credit.**

A study of the mechanisms by which credit is extended and payment is made in our society, including coverage of negotiable and quasi-negotiable instruments, letters of credit, bank card systems, and electronic funds transfer systems.

**LAW 5800. Moot Court I. 1-3 Credit.**

Required only for those students participating in the National Moot Court or ABA Moot Court Competitions. Graded on S/U basis only.

**LAW 5805. Moot Court II. 1-2 Credit.**

Required only for those students participating in the National Moot Court or ABA Moot Court Competitions. Graded on S/U basis only.

**LAW 5808. Natural Resources Law. 1-3 Credit.**

Water Law--diffused surface water, groundwater, riparian rights, prior appropriation, permit systems, recreational rights, public trust doctrine, interstate allocation, federal project and regulatory powers; Mining, oil and Gas Law--severance and classification of mineral interests, mineral leases and royalties, implied covenants, regulation of oil and gas production, pooling and unitization, surface owner rights, surface reclamation.

**LAW 5810. Negotiation. 1-3 Credit.**

Negotiation is an essential skill for most lawyers, regardless of practice area. Lawyers must negotiate with their counterparts, clients, partners, staff, courts, and many others in the course of representing a client. This course provides an in-depth understanding of the different models of negotiation, and practical skill development for meeting the many challenges that negotiation presents.

**LAW 5815. Partnership Taxation. 1-3 Credit.**

This course will study the federal income tax treatment of partnerships and other entities treated as partnerships, including limited liability companies. The course will examine partnership formations, contributions to and distributions from partnerships, partnership operations, including special allocations of income and losses among partners, transfers of partnership interests, and partnership dissolutions. This course will be taught using the problem method of instruction. Prerequisite: Basic Federal Income Taxation.

**LAW 5820. Patent Law & Policy. 1-3 Credit.**

This course will provide comprehensive coverage of the U.S. Patent Laws for those interested in obtaining general information about patents, as well as for those interested in practicing before the Patent and Trademark Office. The course will trace an invention through the application, examination, reconsideration, re-examination and litigation processes. If time permits, there may also be coverage of international treaties that affect U.S. Patent Laws as well as some comparison of U.S. Patent Laws and the Patent Laws of select countries. There are no course prerequisites and a technical background is not required because the course primarily focuses on the Patent Act, its requirements and its jurisprudence. Thus, students need only be familiar with applying statutes and cases to a fact pattern. In lieu of an examination or a paper, up to six written projects, between 3-10 pages each (approx. 40 pages overall), will be due at the semester, giving students an intensive writing experience. The professor will review drafts of some of these projects during the semester and all of the projects will be discussed in class. These projects will allow students to help solve a clients hypothetical patent problem as we work through the Patent Act and its jurisprudence. Students may also have the opportunity to engage in client interviewing and counseling in order to complete the projects. There are no prerequisites and a technical background is not required.

**LAW 5830. Pretrial Litigation. 1-3 Credit.**

Focus on the study of the legal principles, techniques, strategies and skills which pertain to civil pretrial practice, including: Professional and Ethical Considerations, Case Selection Case Investigation, Development of a case theory, Pleading, Discovery, Pretrial Conference, Motion Practice, Settlement Processes and Alternative Dispute Resolution.

**LAW 5835. Products Liability. 1-3 Credit.**

A study of civil liability for personal injury, property damage, and economic loss caused by defective products. The study includes actions for negligence, strict liability, misrepresentation and the effect of state and federal legislation on those actions.

**LAW 5840. Public Policy Dispute Resolution. 1-3 Credit.**

Public Policy disputes", such as those that occur in the energy, environmental, education, and health industries, are complex and challenging to manage. This course will explore the intersections of the executive, legislative, and judicial branches of both state and federal government and legal strategies for shaping public policy, whether through litigation, legislation, regulation, alternative dispute resolution or a combination of processes. We will look at two case studies and at least one current issue.

**LAW 5845. Publicly Held Corporation. 3 Credits.**

This course focuses on legal issues most relevant to large public corporations. Recommended for students interested in pursuing a career in corporate law or for students desiring study in corporate law beyond the Business Organizations course.

**LAW 5856. Real Estate Finance. 1-3 Credit.**

This course examines legal and transactional issues relating to the financing of real estate. The course covers mortgage documentation; the use of mortgagee prior to foreclosure; transfers of mortgaged property; transfers of mortgages and securitization; payment and discharge of mortgages; default and impact of bankruptcy on real estate transactions. The grade will be based upon a final examination.

**LAW 5857. Real Estate Finance Skills Project. 1-3 Credit.**

Concurrent registration in Real Estate Finance is required. Students will participate in a weekly seminar class focused on the review, negotiation and drafting of mortgages, deeds of trust, assignments of rents and leases, and other collateral loan documentation (including commercial leases). The grade for the course will be based upon student performance on drafting and practice skills assignments. Projects may include the review, negotiation and drafting of a mortgage, deed of trust, or installment land contract; the review of a loan policy of title insurance; review and evaluation of commercial leases. Student projects will include both individual and group work.

**LAW 5858. Real Estate Transactions. 1-3 Credit.**

This course examines issues relating to the transfer of real estate and the practice of transactional real estate law. The course covers conveyance documentation, the recording system, title and survey review, title insurance, purchase and sale transactions, basis entity structure and tax considerations, environmental review, commercial leasing, valuation of real estate, and project cash flow. The grade will be based on a final examination.

**LAW 5859. Real Estate transaction Skills Project. 1 Credit.**

Concurrent registration in Real Estate Transaction is required. Students will participate in a weekly seminar class focused on contract drafting, negotiation, due diligence, and client management in the contest of a transactional real estate practice. The grade for the course will be based upon student performance on drafting and practice skills assignments. Projects may include the negotiation and drafting of a purchase contract; the negotiation and modification of a commitment for title insurance; survey review; review and evaluation of lease; lease drafting and negotiation. Student projects will include both individual and group work.

**LAW 5865. Religious Liberty and Church-State Relations. 1-3 Credit.**

A study of the protection of religious liberty and the structuring of church-state relations under the U.S. Constitution and selected federal statutes. Examination of how religious freedom developed and analysis of Supreme Court cases decided under the establishment, free exercise, and free speech clauses of the First Amendment.

**LAW 5870. Remedies. 1-3 Credit.**

Survey of damages, history of equity; coverage of various equitable remedies and their adequacy, practicability, defenses, procedural problems, enforcement of decrees, merger of law and equity, contempt.

**LAW 5875. Research in Law. 1-3 Credit.**

Independent Research with a faculty member is available during the Summer, Fall and Spring Semesters. Any student enrolling for Research credit must designate at the time of enrollment the professor who will supervise the research project. Credit is earned at the rate of 20 pages per credit hour. No more than three hours of Research may be taken or counted toward the law degree. Enrollment in 5875 may, but need not, be structured so as to satisfy the upper-level writing requirement. Enrollment in 5875 Research satisfies the Law School's writing requirement only if the project culminates in an individually authored paper of at least 20 pages, based on independent research, through a process that involves an initial draft, critique by the supervising faculty members, and rewrite.

**LAW 5880. Sales and Leases of Goods. 1-3 Credit.**

The law governing the sale and leasing of goods, primarily focusing on Articles 2 and 2A of the Uniform Commercial Code and related federal warranty legislation.

**LAW 5885. Secured Transactions. 1-3 Credit.**

The course focuses on the rights of secured creditors and debtors under Article 9 of the Uniform Commercial Code, and includes coverage of creditors with special rights (such as taxing authorities and artisans), documentary exchanges under Article 7, and bulk sales under Article 6.

**LAW 5890. Securities Regulation. 1-3 Credit.**

Financing of business through the sale of securities. Emphasis on federal securities acts, with some consideration of state statutes. Consideration of the registration process, exemptions from registration, the special antifraud rules, liabilities and criminal penalties; reporting, insider trading, and proxy solicitation problems.

**LAW 5895. Selected Seminar Topics. 1-3 Credit.**

Seminars are offered on communication law, (graded S/U), criminal law, criminal justice administration, environmental law, law and medicine, law and the aged, taxation, legal history, urban problems and other selected topics.

**LAW 5905. Sports Law. 1-3 Credit.**

Substantive areas of concentration include sports litigation, labor law, NCAA regulations, legal relationships in professional sports, anti-trust aspects of sports activities, and collective bargaining. Students are required to negotiate the length and subject matter of at least one graded, written assignment encompassing one or more areas of substantive sports law.

**LAW 5910. State Constitutional Law. 1-2 Credit.**

Since the departure of Chief Justice Warren, the U.S. Supreme Court and other federal courts have taken a less expansive view of the rights granted by the U.S. Constitution. Congress has also taken steps to turn over both funds and authority to states. Both developments have increased the importance of state constitutional law. The course would be taught in three parts: (1) History of state constitutions; their relationship to the U.S. Constitution and the major differences among them; (2) Individual rights; instances in which state constitutional provisions that are facially similar or identical to the Bill of Rights in the U.S. Constitution, have been interpreted by state courts to extend beyond the federal rights, and instances where state constitutions guarantee individual rights that are different from or in addition to those in the U.S. Constitution; and (3) Governmental obligations and authority; Constitutional provisions

allocating governmental authority, such as limitations on legislative authority, the authority of the people to act through referendum or initiative and the relative authority of independent constitutional and officers.

**LAW 5913. State Securities Law and Regulation. 1-3 Credit.**

This course is concerned with securities law and regulation for the Missouri attorney. With an emphasis on state "blue sky" law, topics covered will include securities regulations, registrations, exemptions, and regulatory enforcement actions. Topics will also include investment professional registration and compliance; broker-dealer and investment adviser regulation and compliance; an overview of causes of action in FINRA arbitrations; and an introduction to hedge funds.

**LAW 5915. Tax Research. 1-2 Credit.**

This course provides students with an in-depth exploration of methods and sources for researching tax issues. The course provides students an opportunity to gain experience in using tax research tools. While primarily applicable to tax research, the knowledge gained by students will be helpful in future practice, regardless of practice area. Grade will be based on written assignments to be completed throughout the semester and one final project.

**LAW 5916. Taxation Property Transactions. 1-3 Credit.**

This course will examine tax laws and policies fundamental to real estate investment. Topics include depreciation and recapture, cash and accrual methods of accounting, installments sales, non-recognition transactions, including like-kind exchanges and involuntary conversions, and discharge of indebtedness issues arising out of real estate transactions. This course is designed to provide a detailed analysis of complex tax provisions necessary for advanced tax planning and will be taught using the problem method of instruction. Prerequisite: Basic Income Taxation.

**LAW 5917. Topics in Law. 1-5 Credit.**

Various topics in law are explored in depth. Topics change each semester.

**LAW 5920. Trademark Law. 1-3 Credit.**

Nature of trademark law; common law and statutory trademarks and tradenames; Lanham Act of 1946; distinctiveness; types of marks; qualification of marks for registration (use in commerce, intent-to-use certification, secondary meaning, abandonment); registration procedures; exclusive rights of trademark owner; scope of protection; concurrent use; infringement (including "gray market" use); international protection; remedies; state trademark acts; related common law doctrines; trademark usage on the Internet; domain name issues.

**LAW 5925. Trial Practice. 1-4 Credit.**

Techniques of pleading, discovery, jury selection, opening statements, direct/cross examination of witnesses, preparing jury instructions, closing arguments. Each student participates in classroom problems selected from various phases of litigation, and in one complete trial. Some sections of this course may be offered as a graded section or graded on S/U basis only.

**LAW 5930. Voir Dire. 1-2 Credit.**

This course is designed to provide the students with hands-on experience in selecting a jury. Students will act as lawyers, jurors and one student presiding as judge in the concluding 2-1/2 hour courtroom simulation where a jury is selected after making challenges for cause and exercising preemptory strikes. An actual case involving a badly injured young plaintiff and a large corporate defendant--where liability is questionable--will be the basis for this exercise. The course will outline the purpose of voir dire and the law pertaining to jury selection. Students

will learn active listening skills and how to interpret non-verbal behavior. Examples from prominent, practicing lawyers will be presented. The ultimate purpose of the course is to bring recognition that jury selection is an art--not a science-- and should be tailored to the facts of the case and the witnesses the attorney expects to present. Graded on S/U basis only.

**LAW 5940. White Collar Crime. 1-3 Credit.**

Study of what are generally considered to be business or organizational crimes. General topics to be explored may include: mail and wire fraud, conspiracy, securities fraud, tax fraud, government contracting fraud (with particular emphasis on the False Claims Act), the Hobbs Act and the Racketeer Influenced and Corrupt Organizations Acts.

**LAW 5946. Wrongful Convictions. 1-4 Credit.**

This course offers students an insider's look into the operation of the criminal justice system. It should be of particular interest to any student interested in working in a prosecutor's office, public defender's office or for a firm doing defense work. It is a prerequisite for any student wishing to enroll in the Innocence Project clinic. The course is designed to help students gain insight into features of the criminal justice system that have a tendency to produce wrongful convictions. In addition to examining the causes of wrongful convictions, the course will consider systemic reforms that might minimize convicting the innocent. We will also work with the Midwestern Innocence Project on cases of possible actual innocence. Finally, the class will also focus on recurring ethical issues that confront prosecutors and criminal defense lawyers.

**LAW 6500. London Program. 1-16 Credit.**

Students enrolled in classes in London. Credit will count toward graduation requirements. Zero billing hours.

**LAW 6516. Art and the Law - London Program. 3 Credits.**

The goal of this course is to integrate three fields of knowledge - law, philosophy of aesthetics, and art history. The course will focus on how and why, for functional and other reasons, lawyers answer questions involving issues of art in a very different manner from the way in which philosophers and art historians answer the same questions. The course will concentrate on those areas of law implicated by a society's interest in acquiring and enjoying fine arts. Topics to be covered include, among others, The Law's Answer to the Question "What is Art?"; Artistic Freedom and its Limitations Art and the First Amendment; Rights of the Artist Santutory and Other Protections of Creative Works, including Copyright, the Visual Artists' Rights Act of 1990, and the Moral Right of Artists; Forgery - What's So Special About an Original?; Cultural Artifacts in the International Community The Elgin Marbles; and Stolen Art - Recovering Art Looted by the Nazis. Students will study and compare British Law relating to the fine arts.

**LAW 6710. Comparative Dispute Resolution. 1-2 Credit.**

South Africa Program.

**LAW 6720. Comparative Constitutional Law. 1-2 Credit.**

South Africa Program.

**LAW 6730. Comparative Criminal Justice. 1-2 Credit.**

South Africa Program.

**LAW 6905. LLM Arbitration Seminar. 3 Credits.**

(same as Law 6805). This course would cover law, policy, and practices relating to the arbitration in the U.S. under modern arbitration statutes as well as arbitration of international commercial disputes under international conventions and arbitral rules. Prerequisite: instructor's consent.

**LAW 6910. Advanced Dispute Resolution Practice. 2 Credits.**

(same as Law 6810). This course is designed to give students experience in the practice of dispute resolution skills, primarily focusing on mediation. In simulated cases of a wide variety of types of mediated negotiations, students will act as mediators, parties, and legal representatives. Open to LL.M. students. In extraordinary situations, J.D. students may enroll with the consent of the instructor. Graded on S/U basis only.

**LAW 6915. Advanced Survey of Dispute Resolution. 3 Credits.**

Study of dispute resolution processes to understand the theoretical and practical underpinnings of adjudicative (e.g., litigation and arbitration), evaluative (e.g., neutral evaluation and summary jury trials) and facilitative (e.g., negotiation and mediation) process. Emphasis on assistance to clients in choice of appropriate methods for preventing or resolving disputes and on ethical and professional responsibilities of advocates and neutrals in various processes. Prerequisite: instructor's consent.

**LAW 6920. LL.M. Externship. 1-99 Credit.**

Student will be placed (or secure placement) with attorney, professional mediator or arbitrator, or dispute resolution agency (government-based or private) for an externship ranging three to nine weeks. Students will observe and, to the extent possible, participate in dispute resolution activities of mentor. Journal entries form basis for credit. Externship placements will be local, national or international. Prerequisite: LL.M. students only. Graded on a S/U basis only.

**LAW 6925. LL.M. Independent Study. 1-3 Credit.**

Substantial research project on selected topic of choice. Prerequisite: LL.M. students only.

**LAW 6930. LL.M. Major Research Project. 3 Credits.**

(same as Law [LAW] 6830). Development and presentation of substantial research paper on current topic in dispute resolution. Supervision of this work by appropriate faculty will be determined according to the topic selected. Prerequisite: instructor's consent.

**LAW 6935. Dispute System Design. 3 Credits.**

(same as Law [LAW] 6835). Analysis of system design principles and the management of multi-party complex disputes. Course will include overview of statutes, regulations, court rules and general policy considerations for the development of systematic approaches to the resolution of disputes as well as the consultation process inherent in system design work. An underlying theme for this course will be issues of program quality. Students will review scholarly work evaluating the ADR field and study basic research/evaluation methodologies. Prerequisite: instructor's consent.

**LAW 6940. Negotiation and Mediation Perspectives and Skills. 1 Credit.**

Interactive training program that focuses on the role of the mediator in facilitating settlement. Topics include: theories of competitive and problem solving orientations to negotiation; strengths/weaknesses of mediation as a dispute resolution process; and overview of mediator tasks and responsibilities, such as framing issues, understanding party interest, generating options, and reaching agreement. This course is required for LL.M. students without mediation background and will be delivered in an intensive format during August before regularly scheduled courses begin. Prerequisite: instructor's consent. Graded on S/U basis only.

**LAW 6945. Non-Binding Methods of Dispute Resolution. 3-4 Credit.**

(same as Law [LAW] 6845). Negotiation and mediation of disputes, focusing on the theory, strategy, and skills, and public policy issues

involved in using non-binding methods of dispute resolution. The course addresses the role of attorneys in unassisted and mediated negotiation as well as the role of mediators. The course considers the professional responsibility of advocates negotiating for clients and of mediators.

Prerequisite: instructor's consent.

**LAW 6950. Practicum on Dispute Resolution Training and Education. 1-2 Credit.**

Structured training experience through participation in the first-year curriculum project; service as judges in J.D. student competitions, such as negotiation and client counseling; and assignments to appropriate upper division courses to assist with development of dispute resolution modules. Credit is earned for work over the entire academic year.

Prerequisite: LL.M. students only. Graded on a S/U basis only.

**LAW 6955. Topics. 1-99 Credit.**

Special and emerging topics in dispute resolution. Subject, content and credit varies, depending on available faculty and student interest.

Prerequisite: instructor's consent.

**LAW 6960. Understanding Conflict. 3 Credits.**

(same as Law [LAW] 6860). Study of the origins, nature, and functions of conflict, using perspectives from a variety of disciplines and from literature and religion. The course will include special attention to the idea of conflict as opportunity and will draw on contemplative practices, of the kind that have been developed in many religious traditions, to aid in understanding the relationship between inner and outer conflict. It will focus persistently on the connections between one's assumptions about conflict and one's attitudes and practices about dispute resolution and lawyering. Prerequisite: instructor's consent.

**LAW 6970. Mediation Clinic. 1-2 Credit.**

(same as Law 5770). Students develop and refine mediation skills by observing and participating in simulated and real mediation cases.

Prerequisites: LAW 5765 (or concurrent enrollment), or completion of an approved training. Limited to J.D. or LL.M. students in Designated semesters. Graded on S/U basis only.

## Learning, Teaching, & Curriculum (LTC)

---

**LTC 1100. Orientation. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options. Graded on S/U basis only.

**LTC 1110. Orientation: Art Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Art Education. Graded on S/U basis only.

**LTC 1115. Orientation: Social Studies. 1 Credit.**

The course familiarizes and orients students with MU resources, College of Education programs, expectations and career options, emphasizing Social Studies education. Graded on S/U basis only.

**LTC 1120. Orientation: Math Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Math Education. Graded on S/U basis only.

**LTC 1130. Orientation: Middle School Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Middle School Education. Graded on S/U basis only.

**LTC 1140. Orientation: Music Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Music Education. Graded on S/U basis only.

**LTC 1150. Learning Strategies for College Students. 3 Credits.**

Students' learning strategies are assessed, and their needs are given greatest emphasis. Learning through reading and listening are given major consideration as are the corollary skills of vocabulary expansion, studying and note taking.

**LTC 1155. Orientation: Science Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Science Education. Graded on S/U basis only.

**LTC 1160. Orientation: Special Education. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Special Education. Graded on S/U basis only.

**LTC 1170. Orientation: English/Language Arts. 1 Credit.**

This course familiarizes and orients students with MU resources, College of Education programs, expectations and career options, emphasizing English/Language Arts education. Graded on S/U only.

**LTC 1180. Orientation: Early Childhood Education. 1 Credit.**

The course familiarizes and orients students with MU resources, College of Education programs, expectations and career options, emphasizing Early Childhood education. Graded on S/U basis only.

**LTC 1190. Orientation: Elementary Education. 1 Credit.**

The course familiarizes and orients students with MU resources, college of Education programs, expectations and career options, emphasizing Elementary Education. Graded on S/U basis only.

**LTC 1200. Coordinated School Health. 2 Credits.**

This course will focus on the concepts of health from the school health perspective, while also incorporating consumer trends, personal health and wellness issues. Environmental health and behavior change theory will be explored.

**LTC 1300. First Aid. 2 Credits.**

Study of the theory and practice of first aid procedures. Certification available.

**LTC 1320. Scuba Theory. 3 Credits.**

The curriculum of the class includes bio-physics, hydrostatic pressures, physiology, fundamentals of compressed gases, environmental conditions, mechanics, first aid as it relates to diving, and planning speciality dives such as decompression, night, cave, ice, salvage and wreck diving.

**LTC 2040. Inquiring into Schools, Community and Society I. 3 Credits.**

This course focuses on schooling in American society, the school community, the school culture and students' lives and identities. Studied are the political, cultural, and economic conditions of the schools.

**LTC 2044. Inquiry into Schools, Community and Society: Field. 1 Credit.**

This field experience course supports the Inquiring into Schools, Community and Society (ISCS), component of Phase I. Graded on S/U basis only.

**LTC 3600. Aiding: Nursery/Day Care Programs. 1-2 Credit.**

Instructionally related duties in the preschool classroom during semesters and summer. Student works 30 hours with supervision for each credit. Prerequisite: instructor's consent.

**LTC 3610. Aiding: Kindergarten. 1-2 Credit.**

Instructionally related activities in kindergarten classroom during semesters and summers. Student works 30 hours with supervision for each credit. Graded on an S/U basis only. Prerequisites: instructor's consent.

**LTC 3620. Aiding: Primary Grades. 1-2 Credit.**

Instructionally related activities in primary grades. Student works 30 hours with supervision for each credit. Graded on an S/U basis only. Prerequisite: instructor's consent.

**LTC 3630. Aiding: Intermediate Grades. 1-2 Credit.**

Instructionally related activities in intermediate grade classrooms. Student works 30 hours with supervision for each credit. Graded on an S/U basis only. Prerequisite: instructor's consent.

**LTC 3640. Aiding: Secondary Schools. 1-2 Credit.**

Instructionally related clinical/administrative and monitorial activities in the secondary classroom during semesters and summer. Student works 30 hours with supervision for each credit. Graded on a S/U basis only. Prerequisite: instructor's consent.

**LTC 4010. Student Teaching. 1-99 Credit.**

Hours, credit must be arranged with director of student teaching. Must apply during February for following year. Prerequisites: special methods courses in area of specialization.

**LTC 4030. Methods in Coordinated School Health. 2 Credits.**

An examination of the Coordinated School Health (CSH) model, including best practices, methods, and assessments used in the elementary classroom to integrate school health into core content areas to support student wellness.

**LTC 4085. Problems in Curriculum and Instruction. 1-3 Credit.**

Studies professional programs and issues in health or physical education. Prerequisite: instructor's consent.

**LTC 4091. Early Childhood Seminar I. 2 Credits.**

Strategies for effectively observing and assessing young children and strategies for building positive family and community relationships, which support children's development and learning. Prerequisite: Admission to Phase II required.

**LTC 4110. Working with Infants and Toddlers. 2-3 Credit.**

Experience working with children aged 6 weeks to 2 1/2 years and their families. Opportunity to apply theories of cognitive, language, and social development. Prerequisite: course in child development and admission to Phase II; admittance to College of Education required.

**LTC 4120. Emergent and Developing Literacy in Early Childhood. 5 Credits.**

Strategies for assessing and supporting young children's literacy development. Must take concurrently with Learning, Teaching and Curriculum [LTC] 4200, 4210 and K-3 field experience. Prerequisite: admittance to College of Education required.

**LTC 4124. Emergent and Developing Literacy Early Childhood Field Experience. 2 Credits.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4120 component of Phase II. Field experience expectations are delineated in the LTC 4120 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4130. Teaching and Learning Math, Science and Social Studies w/ Young Children. 8 Credits.**

Strategies for assessing and supporting young children's math, science and social studies learning. Must take concurrently with a K-3 field experience. Prerequisite: completion of ECE Language/Literacy block; admittance to College of Education required.

**LTC 4134. Teaching & Learning Math, Sci & Soc Studies w/Young Children Field Experience. 3 Credits.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4130 component of Phase II. Field experience expectations are delineated in the LTC 4130 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4140. Early Childhood Seminar II. 3 Credits.**

Reflection on the relationship of theory and practice in ECE. Consideration of various topics including historical influences on early childhood curriculum, models of early childhood curriculum, classroom management, and individualizing curriculum. Prerequisites: Completion of first two semesters of Phase II.

**LTC 4160. Motor Development in Young Children. 2 Credits.**

For Early Childhood majors. Study of young children's motor development. Must be taken as part of the LTC ECE Motor/Art/ Music block. Prerequisite: Admission to Phase II.

**LTC 4170. Pre-Kindergarten Student Teaching. 6 Credits.**

Application of knowledge of child development in working with children aged 2-6 and their families. Emphasis on planning and implementing developmentally appropriate practice. Prerequisite: admission to Phase II and completion of Literacy Block; admittance to College of Education required.

**LTC 4194. Elementary Education Field Experience I. 1-3 Credit.**

Seminars and diverse 1-5 grade classroom experience focus is on the learner and learning in the elementary school. Prerequisites: Educational, School and Counseling Psychology [ESC\_PS] 2010, 2014 or Learning, Teaching Curriculum [LTC] 4085, 2040, 2044. Must be in Phase II. Graded on a S/U basis only.

**LTC 4200. Young Children's Emergent Language. 2 Credits.**

For Early Childhood and Elementary Education majors. Study of young children's language development and implications for teachers. Must take with Learning, Teaching and Curriculum [LTC] 4120, 4210, and K-3 field experience. Prerequisite: admittance to Phase II; admittance to College of Education required.

**LTC 4210. Children's Literature. 2 Credits.**

For Early Childhood and Elementary Education majors. Surveys the field of children's literature. Must be taken with Learning, Teaching and Curriculum [LTC] 4120, 4200, and K-3 field experience. Prerequisite: admittance to Phase II; admittance to College of Education required.

**LTC 4211. Essential Literacy: Reading. 3 Credits.**

A study of children's reading development encompassing writing, Children's Literature, and emergent language. Prerequisite: admittance into Phase II.

**LTC 4220. Emergent Literacy. 3 Credits.**

Emergent reading. Instructional methods, diagnostic procedures, and materials appropriate for learners in elementary grades 1-3. Prerequisite: completion of Phase I.

**LTC 4221. Essential Literacy: Writing. 2 Credits.**

A study of children's writing development encompassing reading, Children's Literature, and emergent language. Prerequisite: Admittance into Phase II.

**LTC 4231. Advanced Applications of Literacy. 3 Credits.**

Provides pre-service teachers with information about the current reading curriculum and practices in their on-site program. Topics will include assessment, diversity, children's literature, technology, planning and delivering instruction, professional development and management (classroom, behavior and lesson). Prerequisite: Admittance to Phase II of the Elementary Education Program; Education and graduate students only. Graded on A/F basis only.

**LTC 4240. Art for Children. 2 Credits.**

This course focuses on appropriate teaching methods and strategies for teaching art (studio, art history, aesthetic, and criticism), artistic development of children, and curriculum, instructional, and organization strategies for the art classroom; admittance to College of Education required.

**LTC 4241. Inquiry into Literacy Applications. 3 Credits.**

Provides pre-service teachers with opportunities to study literacy topics from a broad perspective. Topics will enable students to integrate literacy theory with field-based practice in relevant and meaningful ways through writing, discussion and self-reflection. Prerequisite: Admittance to Phase II of the Elementary Education Program. Education and graduate students only. Graded on A/F basis only.

**LTC 4250. Music for Children. 2 Credits.**

Preparation of early childhood and elementary education students with the skills, knowledge, and philosophical foundations necessary to integrate music into the early childhood and elementary curricula. Prerequisite: Music for Non-Majors [MUSIC\_NM] 1608, 1612, 1618 or competency test; admittance to College of Education required.

**LTC 4260. Elementary Social Studies. 3 Credits.**

To develop knowledge of social studies and the skills to teach social studies in the elementary school. The course is designed to provide the student with the skills to plan, implement, and evaluate both the teaching and learning processes for the elementary social studies classroom. Prerequisites: acceptance into Phase II, admittance to College of Education required.

**LTC 4280. Teaching Science in Elementary Schools. 3 Credits.**

Concepts, materials, methods in the elementary school program. Prerequisite: Admittance to Phase II and College of Education required.

**LTC 4294. Elementary Education Field Experience II. 1-3 Credit.**

Seminars and diverse 1-5 grade classroom experiences focus is on the teacher and instruction in the elementary school. Prerequisites: Education, School and Counseling Psychology [ESC\_PS] 2010, 2014; Learning, Teaching and Curriculum [LTC] 2040, 2044, 4194, must be enrolled in Phase II. Graded on S/U basis only.

**LTC 4300. Learning and Teaching Number and Operation in the Elementary School. 3 Credits.**

The purpose of this course is to (a) develop a deeper understanding of number and operation, (b) connect the mathematical knowledge of

number as described in (a) to the learning and teaching of number in elementary school. Prerequisites: acceptance into Phase II.

**LTC 4310. Learning and Teaching Geometry in the Elementary School. 3 Credits.**

The purpose of this course is to (a) develop a deeper understanding of geometry and measurement, (b) critically examine content and issues of the complexities in teaching and learning fundamental concepts of geometry and measurement in elementary schools. Prerequisite: acceptance into Phase II.

**LTC 4320. Middle School Social Studies I. 3 Credits.**

Curriculum decision making, instructional planning, techniques and strategies, materials selection, approaches to assessment in middle level social studies, all based upon early adolescent growth and development principles. Prerequisite: admittance to the College of Education required.

**LTC 4324. Middle School Social Studies Field I. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4320 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4320 course syllabi. Phase II admittance required. Graded on S/U basis only.

**LTC 4334. Middle School Social Studies Field Experience II. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4550 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4550 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4340. Middle School Science I. 3 Credits.**

Concepts, materials, methods in middle school program. Prerequisite: Admittance to Phase II and the College of Education required.

**LTC 4344. Middle School Science Field I. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4340 component of Phase II. Field experience expectations are delineated in the LTC 4340 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4350. Middle School Science II. 3 Credits.**

Concepts, materials, methods in the middle school program. Prerequisite: Admittance to phase II and College of Education required.

**LTC 4354. Middle School Science Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4350 component of Phase II. Field experience expectations are delineated in the LTC 4350 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4360. Intro. Teaching Mathematics in Middle and Secondary Schools. 3 Credits.**

Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Prerequisites: professional standing, Mathematics [MATH] 1360; admittance to College of Education required.

**LTC 4364. Intro. Teaching Math in Middle and Secondary School Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4360 component of Phase II. Field experience expectations are delineated in the LTC 4360 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4370. Teaching and Modeling Middle School Mathematics. 3 Credits.**

Major issues/topics of the course include: nature of middle school students, lesson planning, developing and utilizing teaching strategies, assessment alternatives, teaching via problem solving and mathematical modeling, interdisciplinary strategies and materials, and techniques for assessing mathematical understanding. Prerequisite: Learning, Teaching and Curriculum [LTC] 4360/7360 and at least 18 hours of required mathematics; admittance to College of Education required.

**LTC 4374. Teaching and Modeling Middle School Mathematics Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4370 component of Phase II. Field experience expectations are delineated in the LTC 4370 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4380. Teaching Middle School Language Arts I. 3 Credits.**

Integrates an understanding of literacy (highlighting reading) with content area demands, literature and other media texts, evaluation and inquiry within a context of diversity. Prerequisite: Admittance to Phase II of College of Education.

**LTC 4384. Teaching Middle School Language Arts I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4380 component of Phase II. Field experience expectations are delineated in the LTC 4380 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4390. Teaching Middle and Secondary English/Language Arts II. 3 Credits.**

Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking. Prerequisites: Admittance to Phase II of College of Education.

**LTC 4394. Teaching Middle School Language Arts II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4390 component of Phase II. Field experience expectations are delineated in the LTC 4390 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4400. Teaching Middle and Secondary English/Language Arts III. 3 Credits.**

Prepare prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts. Prerequisites: Learning, Teaching and Curriculum [LTC] 4380/7380 and 4390/7390; admittance to Phase II of College of Education.

**LTC 4404. Teaching Middle School Language Arts III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4400 component of Phase II. Field experience expectations are delineated in the LTC 4400 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4410. Teaching, Engaging and Assessing Middle-Level Students. 3 Credits.**

In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to

meet these needs. Prerequisite: admittance to College of Education required.

**LTC 4414. Teaching, Engaging & Assessing Mid-Level Students Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4410 component of Phase II. Field experience expectations are delineated in the LTC 4410 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4420. Adolescent Literacy. 3 Credits.**

Explores literacy implications of content areas. Topics include determining the difficulty of text, examining literature that supports content, creating alternative assessments, and evaluating reading/writing strategies as tools for learning. (Required of all students obtaining certification in middle school or concurrent certification in middle and secondary school area(s) except language arts. Prerequisite: admittance to College of Education required.

**LTC 4424. Middle School Literacy Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4420 component of Phase II. Field experience expectations are delineated in the LTC 4420 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4460. Teaching English to Speakers of Other Languages. 3 Credits.**

(Same as English [ENGLSH] and Linguistics [LINGST] 4650.) Linguistic and pedagogical principles of teaching English to speakers of other languages. Prerequisite: English [ENGLSH] 4600 and English [ENGLSH] 4610 or equivalent. Acceptance into Phase II of LTC. Graded A-F only.

**LTC 4470. Teaching Secondary English/Language Arts I. 3 Credits.**

Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, Primarily focusing on Young Adult Literature and critical thinking. Prerequisite: Admittance to Phase II of College of Education.

**LTC 4474. Teaching Secondary English/Language Arts I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4470 component of Phase II. Field experience expectations are delineated in the LTC 4470 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4480. Teaching Middle and Secondary English/Language Arts II. 3 Credits.**

Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking. Prerequisite: admittance to Phase II of College of Education.

**LTC 4484. Teaching Secondary English/Language Arts II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4480 component of Phase II. Field experience expectations are delineated in the LTC 4480 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4490. Teaching Middle and Secondary English/Language Arts III. 3 Credits.**

Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts. Prerequisites: Learning, Teaching and Curriculum

[LTC] 4470/7470 and 4480/7480; admittance to Phase II of College of Education.

**LTC 4494. Teaching Secondary English/Language Arts III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4490 component of Phase II. Field experience expectations are delineated in the LTC 4490 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4500. Emergent Language in Early Childhood. 3 Credits.**

Study of language learning in young children; how meaning of the environment is gained through language; implications for teachers working with children from varying language-learning environments.

**LTC 4510. Assessment in Early Childhood Education. 3 Credits.**

A study of formal and informal assessment instruments and procedures used to measure progress and determine developmentally appropriate curriculum for children in early childhood settings.

**LTC 4520. Literature in the Elementary School. 3 Credits.**

Surveys the field of literature for children and adolescents, with emphasis on selected readings of various types of literature. Prerequisites: junior standing or instructor's consent.

**LTC 4530. Introduction to Social Studies. 3 Credits.**

Will introduce prospective teachers to the profession of social studies teaching; to the bases for making curriculum choices in social studies and the process of choosing content; and the process of planning curriculum and instruction in social studies classrooms. Prerequisites: acceptance into Phase II and to the College of Education required.

**LTC 4534. Secondary Social Studies I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4530 component of Phase II. Field experience expectations are delineated in the LTC 4530 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4540. Teaching of Reading. 3 Credits.**

Materials, methods used in teaching reading in elementary grades. Prerequisites: Educational, School and Counseling Psychology [ESC\_PS] 2400 and professional standing.

**LTC 4541. Teaching Social Studies. 3 Credits.**

Is designed for the secondary social studies teachers to develop knowledge of social studies and the skills to teach social studies. The student will plan, implement and evaluate both the teaching and learning processes for secondary social studies classrooms. Prerequisites: acceptance into Phase II and to College of Education required. Graded on A-F basis only.

**LTC 4544. Secondary Social Studies II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4541 component of Phase II. Field experience expectations are delineated in the LTC 4541 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4550. Assessment in Social Studies. 3 Credits.**

Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals. Prerequisites: acceptance into Phase II and to College of Education required.

**LTC 4554. Secondary Social Studies III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4550 component of Phase II. Field experience expectations are delineated in the LTC 4550 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4560. Teaching Reading in the Content Areas. 2-3 Credit.**

For secondary school teachers. Specific ways teachers can help students improve reading skills in content areas and ways reading can be taught in reading classes. Prerequisite: Phase II admittance. Restricted to College of Education Majors with 60+ credit hours.

**LTC 4570. Organization of Public School Art. 2 Credits.**

Purposes, practices of art experiences in elementary and secondary schools. Designed for teachers, supervisors, administrators.

**LTC 4571. Introduction to Teaching Mathematics in Middle and Secondary Schools. 3 Credits.**

Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Prerequisites: professional standing, Mathematics [MATH] 2300.

**LTC 4574. Intro. Teaching Math in Middle and Secondary School Field Experience. 1 Credit.**

Field experience supporting the Learning, Teaching and Curriculum [LTC] 4571 component of Phase II. Field experience expectations are delineated in the LTC 4571 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4580. Social Studies in the Elementary School. 3 Credits.**

Problems in preparation, teaching of units with suitable materials, techniques. Prerequisites: Educational School, and Counseling Psychology [ESC\_PS] 2400, professional standing.

**LTC 4581. Teaching Mathematics in Secondary Schools: Algebra. 3 Credits.**

Major issues/topics of the course are: exploration of curriculum, teaching strategies, and assessment for algebra and pre-calculus/calculus. Lesson planning, integration of appropriate models, mathematical connections, calculators and computer technology will be developed. Prerequisite: Learning, Teaching and Curriculum [LTC] 4571/7571; admittance to College of Education required.

**LTC 4584. Teaching Math in Secondary Schools: Algebra Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4581 component of Phase II. Field experience expectations are delineated in the LTC 4581 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4587. Seminar in Curriculum and Instruction. 1-3 Credit.**

Seminar in Curriculum and Instruction.

**LTC 4590. Teach.Math in Sec.Schools: Focus on Geometry, Probability and Statistics. 3 Credits.**

Provides experience which advanced students' knowledge, understanding, and facility in engaging students in learning mathematics. Major issues/topics highlighted in the course are: exploration of curriculum, teaching strategies, and assessment for geometry, probability and statistics. Prerequisite: Learning, Teaching and Curriculum [LTC] 4571/7571; admittance to College of Education required.

**LTC 4594. Teach Math in Sec Sch: Focus on Geometry/Probability. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4590 component of Phase II. Field experience expectations are delineated in the LTC 4590 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4600. Diagnosis and Remediation of Learning Problems in Math - Middle. 3 Credits.**

The study of diagnostic and remedial instructional techniques for the teaching of mathematics. Emphasis is placed on alternative teaching methods and strategies.

**LTC 4610. Teaching Techniques and Curriculum in Elementary School Math. 3 Credits.**

The mathematics program in the elementary school from viewpoint of goals, content, techniques and evaluation.

**LTC 4620. Information Literacy in Teaching and Learning. 3 Credits.**

Discusses the nature, value, and power of information as product and process; organization, retrieval, and evaluation of information; explores the Internet and information superhighway; develops skills for resource based learning for classroom instruction; policy issues.

**LTC 4630. Health Education in the Elementary School. 3 Credits.**

Defines teacher's role in school health program; investigates health needs of school children; focuses on teaching strategies, health resources and development of elementary school health education curricula and materials.

**LTC 4631. Teach.Sci.Second.Sch.:Phil.,Hist., Sci.Inq.,Curr., Assm., & Teach I. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: professional standing; admittance to College of Education required.

**LTC 4634. Teaching Middle and Secondary Science I Field. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4631 component of Phase II. Field experience expectations are delineated in the LTC 4631 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4640. Motor Development in Early Childhood. 3 Credits.**

Motor development of infants and children with emphasis on: study of interaction between biological and environmental factors affecting development, motor assessment techniques, and designing programs to enhance motor development. Prerequisite: Educational, School and Counseling Psychology [ESC\_PS] 2400.

**LTC 4641. Teaching Middle and Secondary Science II. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: professional standing and Teaching Science in the Secondary School, Part I; admittance to College of Education required.

**LTC 4644. Teaching Middle and Secondary Science II Field. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4641 component of Phase II. Field experience expectations are delineated in the LTC 4641 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4650. Education in Human Sexuality. 3 Credits.**

The biological, psychosocial and educational aspects of human sexuality with special emphasis on instructional activities related to interpersonal communication, decision-making ability and clarification of values, course is designed for both teachers and health-care personnel. Prerequisite: Learning, Teaching and Curriculum [LTC] 1310 or equivalent.

**LTC 4651. Teach.Sci.Second.Sch.:Phil.,Hist.,Sci.Inq.,Curr.,Assm., & Tech III. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: professional standing and Teaching Science in the Secondary School, Parts 1 and II; admittance to College of Education required.

**LTC 4654. Teach Sci Second Sch: Phil,Hist,Sci Inq,Curr,Assm & Tech III Fld. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4651 component of Phase II. Field experience expectations are delineated in the LTC 4651 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4660. Drug Education. 3 Credits.**

The psychosocial, legal and pharmacological aspects of the recreational use of over-the-counter and street drugs are investigated with emphasis being placed on personal decision making, principles of school and community drug education, rehabilitation and community health services.

**LTC 4670. Teaching Music I. 3 Credits.**

Study of skills, knowledge, and philosophical foundations necessary to teach general music to children in grades pre-K, including methods, philosophies, and teach and learner behaviors. Prerequisite: junior standing; music education majors or instructor's consent; admittance to College of Education required.

**LTC 4674. Teaching Music I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4670 component of Phase II. Field experience expectations are delineated in the LTC 4670 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4680. Teaching Legal Rights and Responsibilities of Citizenship. 2 Credits.**

An introductory course for teachers and undergraduate students dealing with the teaching of the basic legal concepts which underlie effective citizenship.

**LTC 4681. Teaching Music II. 2 Credits.**

Study of a broad repertoire of music literature and instructional materials, including critical evaluation and analysis for use in the general music classroom. Prerequisite: Learning, Teaching and Curriculum [LTC] 4670/7670; admittance to College of Education required.

**LTC 4684. Teaching Music II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4680 component of Phase II. Field experience expectations are delineated in the LTC 4680 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4690. Teaching Music III. 3 Credits.**

A study of various strategies for the successful teaching of Middle and high school music programs. Prerequisite: Learning, Teaching and Curriculum [LTC] 4680/7680; admittance to College of Education required.

**LTC 4694. Teaching Music III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4690 component of Phase II. Field experience expectations are delineated in the LTC 4690 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4730. Overview of Art Education. 3 Credits.**

This is the first of a three course sequence and serves as the foundation for inquiries of methodological and philosophical approaches to the teaching of the visual arts at the elementary and secondary level. Prerequisite: admittance to College of Education required.

**LTC 4734. Overview of Art Education Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4730 component of Phase II. Field experience expectations are delineated in the LTC 4730 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4740. Inquiry into Art Education: Pre-School Through Middle School. 3 Credits.**

The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting. Prerequisite: admittance to College of Education required.

**LTC 4744. Inquiry into Art Education: Pre-School Through Middle School Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching Curriculum [LTC] 4740 component of Phase II. Field experience expectations are delineated in the LTC 4740 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4750. Inquiry into Art Education: Secondary. 3 Credits.**

The third of a three course sequence. Student will learn about secondary art education and make application to practice with emphasis on adolescent development, curriculum design, student assessment, instruction, diversity/equity, and professionalism. Prerequisite: admittance to College of Education required.

**LTC 4754. Inquiry into Art Education: Secondary Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 4750 component of Phase II. Field experience expectations are delineated in the LTC 4750 course syllabi. Phase II admittance required. Graded on a S/U basis only.

**LTC 4960. Special Readings in Curriculum and Instruction. 1-3 Credit.**

Directed study of literature and research reports in education.

**LTC 4971. Internship and Capstone Seminar. 1-16 Credit.**

Internship is a full-semester experience in the public schools, including a capstone seminar addressing problems of practice (integrating subjects, reading and writing across the curriculum, meeting all students' needs), and evaluation of the interns preparation for entering the profession. It is offered each Fall and Spring for 10-16 credit hours. Admittance to College of Education required. Prerequisites: Education, Leadership and Policy Analysis [ED\_LPA] 4060/7060 and admittance into Phase III.

**LTC 7010. Student Teaching. 1-99 Credit.**

Hours, credit must be arranged with director of student teaching. Must apply during February for following year. Prerequisites: graduate standing and special methods courses in area of specialization.

**LTC 7040. Inquiring into Schools, Community and Society I. 2-3 Credit.**

This course focuses on schooling in American society, the school community, the school culture and students' lives and identities. Studied are the political, cultural, and economic conditions of the schools. Prerequisites: graduate standing and Teacher Development Program [TDP] 2020 and completion of Phase I or enrollment in a graduate level program in the College of Education.

**LTC 7085. Problems in Curriculum and Instruction. 1-3 Credit.**

Studies professional programs and issues in health or physical education. Prerequisite: graduate standing and instructor's consent.

**LTC 7091. Early Childhood Seminar I. 2 Credits.**

Strategies for effectively observing and assessing young children and strategies for building positive family and community relationships, which support children's development and learning. Prerequisite: Admission to Phase II required.

**LTC 7110. Working with Infants and Toddlers. 3 Credits.**

Experience working with children aged 6 weeks to 2 1/2 years and their families. Opportunity to apply theories of cognitive, language, and social development. Prerequisite: graduate standing and course in child development and admission to Phase II; admittance to College of Education required.

**LTC 7120. Emergent and Developing Literacy in Early Childhood. 5 Credits.**

Strategies for assessing and supporting young children's literacy development. Must take concurrently with Teacher Development Program [TDP] 4200, 4210 and K-3 field experience. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7124. Emergent & Developing Literacy Early Childhood Field Experience. 2 Credits.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7120 component of Phase II. Field experience expectations are delineated in the LTC 7120 course syllabi. Phase II admittance required. Graded on a S/U basis only. Graduate Standing Required.

**LTC 7130. Teaching & Learning Math, Sci. & Social Studies w/Young Children. 8 Credits.**

Strategies for assessing and supporting young children's math, science and social studies learning. Must take concurrently with a K-3 field experience. Prerequisite: graduate standing and completion of ECE Language/Literacy block; admittance to College of Education required.

**LTC 7134. Teach & Learn Math, Sci & Soc Studies w/Young Children Fld Exp. 3 Credits.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7130 component of Phase II. Field experience expectations are delineated in the LTC 7130 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate Standing Required.

**LTC 7140. Early Childhood Seminar II. 3 Credits.**

Reflection on the relationship of theory and practice in ECE. Consideration of various topics including historical influences on early childhood curriculum, models of early childhood curriculum, classroom management, and individualizing curriculum. Prerequisites: completion of first two semesters of Phase II.

**LTC 7160. Motor Development in Young Children. 2 Credits.**

For Early Childhood majors. Study of young children's motor development. Must be taken as part of the TDP ECE Motor/Art/Music block. Prerequisite: Admission to Phase II.

**LTC 7170. Pre-Kindergarten Student Teaching. 6 Credits.**

Application of knowledge of child development in working with children aged 2-6 and their families. Emphasis on planning and implementing developmentally appropriate practice. Prerequisite: graduate standing and admission to Phase II and completion of Literacy Block; admittance to College of Education required.

**LTC 7200. Young Children's Emergent Language. 2 Credits.**

For Early Childhood and Elementary Education majors. Study of young children's language development and implications for teachers. Must take with Teacher Development Program [TDP] 4120, 4210, and K-3 field experience. Prerequisite: graduate standing and admittance to Phase II; admittance to College of Education required.

**LTC 7210. Children's Literature. 2 Credits.**

For Early Childhood and Elementary Education majors. Surveys the field of children's literature. Must be taken with Teacher Development Program [TDP] 4120, 4200, and K-3 field experience. Prerequisite: graduate standing and admittance to Phase II; admittance to College of Education required.

**LTC 7220. Emergent Literacy. 3 Credits.**

Emergent reading. Instructional methods, diagnostic procedures, and materials appropriate for learners in elementary grades 1-3. Prerequisite: graduate standing and completion of Phase I.

**LTC 7224. Emergent Literacy Field Experience. 2 Credits.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7220 component of Phase II. Field experience expectations are delineated in the LTC 7220 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate Standing Required.

**LTC 7240. Art for Children. 2 Credits.**

This course focuses on appropriate teaching methods and strategies for teaching art (studio, art history, aesthetic, and criticism), artistic development of children, and curriculum, instructional, and organization strategies for the art classroom; admittance to College of Education required. Prerequisite: graduate standing.

**LTC 7340. Middle School Science I. 3 Credits.**

Concepts, materials, methods in middle school program. Prerequisite: graduate standing and Phase I admittance; admittance to the College of Education required.

**LTC 7350. Middle School Science II. 3 Credits.**

Concepts, materials, methods in the middle school program. Prerequisite: graduate standing and Phase I; admittance to College of Education required.

**LTC 7360. Intro. Teaching Mathematics in Middle & Secondary. 3 Credits.**

Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Prerequisites: graduate standing and professional standing, Mathematics [MATH] 1360; admittance to College of Education required.

**LTC 7370. Teaching and Modeling Middle School Mathematics. 3 Credits.**

Major issues/topics of the course include: nature of middle school students, lesson planning, developing and utilizing teaching strategies, assessment alternatives, teaching via problem solving and mathematical modeling, interdisciplinary strategies and materials, and techniques

for assessing mathematical understanding. Prerequisites: Graduate Standing and Learning, Teaching and Curriculum [LTC] 4360/7360 and at least 18 hours of required mathematics; admittance to College of Education required.

**LTC 7380. Teaching Middle School Language Arts I. 3 Credits.**

Integrates an understanding of literacy (highlighting reading) with content area demands, literature and other media texts, evaluation and inquiry within a context of diversity. Prerequisite: admittance to Phase II of College of Education.

**LTC 7384. Middle School Language Arts I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7380 component of Phase II. Field experience expectations are delineated in the LTC 7380 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate Standing Required.

**LTC 7390. Teaching Middle and Secondary English/Language Arts II. 3 Credits.**

Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking. Prerequisite: admittance to Phase II of College of Education.

**LTC 7394. Middle School Language Arts II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7390 component of Phase II. Field experience expectations are delineated in the LTC 7390 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate Standing Required.

**LTC 7400. Teaching Middle and Secondary English/Language Arts III. 3 Credits.**

Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts. Prerequisite: Teacher Development Program [TDP] 4380/7380 and 4390/7390; admittance to Phase II of College of Education.

**LTC 7404. Middle School Language Arts III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7400 component of Phase II. Field experience expectations are delineated in the LTC 7400 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate standing required.

**LTC 7410. Teaching, Engaging and Assessing Middle-Level Students. 3 Credits.**

In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to meet these needs. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7414. Teaching, Engaging & Assessing Mid-Level Students. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7410 component of Phase II. Field experience expectations are delineated in the LTC 7410 course syllabi. Phase II admittance required. Graded on a S/U basis only. Graduate Standing Required.

**LTC 7420. Adolescent Literacy. 3 Credits.**

Explores literacy implications of content areas. Topics include determining the difficulty of text, examining literature that supports content, creating alternative assessments, and evaluating reading/writing strategies as tools for learning. (Required of all students obtaining certification in middle school or concurrent certification in middle and

secondary school area(s) except language arts. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7424. Middle School Literacy Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7420 component of Phase II. Field experience expectations are delineated in the Learning, Teaching and Curriculum [LTC] 7420 course syllabi. Phase II admittance required. Graded on a S/U basis only. Prerequisite: graduate standing.

**LTC 7460. Teaching English to Speakers of Other Languages. 3 Credits.**

(same as English [ENGLSH] 7650). Linguistics and pedagogical principles of teaching English to speakers of other languages. Prerequisite: English [ENGLSH] 7600 and 7610 or equivalent. Prerequisite: acceptance into Phase II. Graded on A/F basis only.

**LTC 7470. Teaching Secondary English/Language Arts I. 3 Credits.**

Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/ Language Arts, primarily focusing on Young Adult Literature and critical thinking. Prerequisite: admittance to Phase II of College of Education.

**LTC 7474. Teaching English/Language Arts I Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7470 component of Phase II. Field experience expectations are delineated in the LTC 7470 course syllabi. Phase II admittance required. Graded on S/U basis only. Graduate Standing Required.

**LTC 7480. Teaching Middle and Secondary English/Language Arts II. 3 Credits.**

Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/ language Arts, primarily focusing on the teaching of writing and critical thinking. Prerequisite: admittance to Phase II of College of Education.

**LTC 7484. Teaching English/Language Arts II Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7480 component of Phase II. Field experience expectations are delineated in the LTC 7480 course syllabi. Phase II admittance required. Graded on an S/U basis only. Graduate Standing Required.

**LTC 7490. Teaching Middle and Secondary English/Language Arts III. 3 Credits.**

Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts. Prerequisites: Teacher Development Program [TDP] 4470/7470 and 4480/7480; admittance to Phase II of College of Education.

**LTC 7494. Language Arts III Field Experience. 1 Credit.**

This field experience supports the Learning, Teaching and Curriculum [LTC] 7490 component of Phase II. Field experience expectations are delineated in the LTC 7490 course syllabi. Phase II admittance required. Graded on a S/U basis only. Graduate Standing Required.

**LTC 7500. Emergent Language in Early Childhood. 3 Credits.**

Study of language learning in young children; how meaning of the environment is gained through language; implications for teachers working with children from varying language-learning environments. Prerequisites: graduate standing.

**LTC 7510. Assessment in Early Childhood Education. 3 Credits.**

A study of formal and informal assessment instruments and procedures used to measure progress and determine developmentally appropriate

curriculum for children in early childhood settings. Prerequisites: graduate standing.

**LTC 7520. Literature in the Elementary School. 3 Credits.**

Surveys the field of literature for children and adolescents, with emphasis on selected readings of various types of literature. Prerequisites: graduate standing or instructor's consent.

**LTC 7540. Teaching of Reading. 3 Credits.**

Materials, methods used in teaching reading in elementary grades. Prerequisites: graduate standing and Education, School and Counseling Psychology [ESC\_PS] 2400 and professional standing.

**LTC 7541. Teaching Social Studies. 3 Credits.**

Is designed for the secondary social studies teachers to develop knowledge of social studies and the skills to teach social studies. The student will plan implement, and evaluate both the teaching and learning processes for secondary social studies classroom. Prerequisites: graduate standing and acceptance into Phase II, Term: Spring of junior year; admittance to College of Education required.

**LTC 7550. Assessment in Social Studies. 3 Credits.**

Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals. Prerequisites: graduate standing and acceptance into Phase II, Term: Fall of senior year; admittance to College of Education required.

**LTC 7560. Teaching Reading in the Content Areas. 2-3 Credit.**

For secondary school teachers. Specific ways teachers can help students improve reading skills in content areas and ways reading can be taught in reading classes. Phase II admittance required. Restricted to graduate students.

**LTC 7570. Organization of Public School Art. 2 Credits.**

Purposes, practices of art experiences in elementary and secondary schools. Designed for teachers, supervisors, administrators. Prerequisite: graduate standing.

**LTC 7571. Introduction Teaching Mathematics in Middle and Secondary. 3 Credits.**

Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Prerequisites: graduate standing and professional standing, Mathematics [MATH] 2300.

**LTC 7580. Social Studies in the Elementary School. 3 Credits.**

Problems in preparation, teaching of units with suitable materials, techniques. Prerequisites: graduate standing and Education, School and Counseling Psychology [ESC\_PS] 2400, professional standing.

**LTC 7581. Teaching Mathematics in Secondary Schools: Algebra. 3 Credits.**

Major issues/topics of the course are: exploration of curriculum, teaching strategies, and assessment for algebra and pre-calculus/calculus. Lesson planning, integration of appropriate models, mathematical connections, calculators and computer technology will be developed. Prerequisite: graduate standing and Teacher Development Program [TDP] 4570/7570; admittance to College of Education required.

**LTC 7587. Seminar in Curriculum and Instruction. 1-3 Credit.**

Prerequisite: graduate standing.

**LTC 7590. Teach.Math in Sec.Schools: Focus on Geometry, Probability & Stat.. 3 Credits.**

Provides experience which advanced students' knowledge, understanding, and facility in engaging students in learning mathematics. Major issues/topics highlighted in the course are: exploration of curriculum, teaching strategies, and assessment for geometry, probability and statistics. Prerequisite: Graduate Standing and Learning, Teaching and Curriculum [LTC] 4570/7570; admittance to College of Education required.

**LTC 7600. Diagnosis and Remediation of Learning Problems in Math-Middle. 3 Credits.**

The study of diagnostic and remedial instructional techniques for the teaching of mathematics. Emphasis is placed on alternative teaching methods and strategies. Prerequisite: graduate standing.

**LTC 7610. Teaching Techniques and Curriculum in Elementary School Math. 3 Credits.**

The mathematics program in the elementary school from viewpoint of goals, content, techniques and evaluation. Prerequisite: graduate standing.

**LTC 7620. Information Literacy in Teaching and Learning. 3 Credits.**

Discusses the nature, value, and power of information as product and process; organization, retrieval, and evaluation of information; explores the Internet and information superhighway; develops skills for resource based learning for classroom instruction; policy issues. Prerequisite: graduate standing.

**LTC 7630. Health Education in the Elementary School. 3 Credits.**

Defines teacher's role in school health program; investigates health needs of school children; focuses on teaching strategies, health resources and development of elementary school health education curricula and materials. Prerequisite: graduate standing.

**LTC 7631. Teach.Sci.Second.Sch.:Phil.,Hist., Sci.Inq.,Curr.,Assm., & Tech 3. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: graduate standing and professional standing; admittance to College of Education required.

**LTC 7640. Motor Development in Early Childhood. 3 Credits.**

Motor development of infants and children with emphasis on: study of interaction between biological and environmental factors affecting development, motor assessment techniques, and designing programs to enhance motor development. Prerequisite: graduate standing and Education, School and Counseling Psychology [ESC\_PS] 2400.

**LTC 7641. Teaching Middle and Secondary Science II. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: graduate standing and professional standing and Teaching Science in the Secondary School, Part I; admittance to College of Education required.

**LTC 7650. Education in Human Sexuality. 3 Credits.**

The biological, psychosocial and educational aspects of human sexuality with special emphasis on instructional activities related to interpersonal communication, decision-making ability and clarification of values, course is designed for both teachers and health-care personnel. Prerequisite:

graduate standing and Learning, Teaching and Curriculum [LTC] 1310 or equivalent.

**LTC 7651. Teach.Sci.Second.Sch.:Phil.,Hist.,Sci.Inq.,Curr.,Assm., & Tech 2. 3 Credits.**

An integration of the philosophy and history of science, technology, society; teaching science as inquiry; classroom management, strategies and curricula for teaching/learning science; and using technology in science learning. Prerequisite: graduate standing and professional standing and Teaching Science in the Secondary School, Parts 1 and II; admittance to College of Education required.

**LTC 7660. Drug Education. 3 Credits.**

The psychosocial, legal and pharmacological aspects of the recreational use of over-the-counter and street drugs are investigated with emphasis being placed on personal decision making, principles of school and community drug education, rehabilitation and community health services. Prerequisite: graduate standing.

**LTC 7680. Teaching Legal Rights and Responsibilities of Citizenship. 2 Credits.**

An introductory course for teachers and undergraduate students dealing with the teaching of the basic legal concepts which underlie effective citizenship. Prerequisite: graduate standing.

**LTC 7730. Overview of Art Education. 3 Credits.**

This is the first of a three course sequence and serves as the foundation for inquiries of methodological and philosophical approaches to the teaching of the visual arts at the elementary and secondary level. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7740. Inquiry into Art Education: Pre-School Through Middle School. 3 Credits.**

The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7750. Inquiry into Art Education: Secondary. 3 Credits.**

The third of a three course sequence. Student will learn about secondary art education and make application to practice with emphasis on adolescent development, curriculum design, student assessment, instruction, diversity/equity, and professionalism. Prerequisite: graduate standing and admittance to College of Education required.

**LTC 7960. Special Readings in Curriculum and Instruction. 1-3 Credit.**

Directed study of literature and research reports in education.

**LTC 7971. Internship and Capstone Seminar. 1-16 Credit.**

Internship is a full-semester experience in the public schools, including a capstone seminar addressing problems of practice (integrating subjects, reading and writing across the curriculum, meeting all students' needs), and evaluation of the interns preparation for entering the profession. It is offered each Fall and Spring for 1-16 credit hours. Admittance to College of Education required. Prerequisites: Graduate Standing and Educational Leadership and Policy Analysis [ED\_LPA] 4060/7060 and admittance into Phase III.

**LTC 8085. Problems in Curriculum and Instruction. 1-99 Credit.**

Prerequisite: graduate standing.

**LTC 8520. Tests and Measurements for Elementary and Secondary Schools. 3 Credits.**

Educational tests, measurements from points of view of teachers, supervisors, administrators.

**LTC 8600. Perspectives in Parent Education/Parent Involvement. 3 Credits.**

Consideration of the history and the influences of social, economic, political and educational changes leading to the development of parent involvement program components in the education of children in the primary grades.

**LTC 8610. Issues in Early Childhood Education and Curriculum Practices. 3 Credits.**

Focuses on historical and contemporary societal and educational issues affecting current curriculum decisions and practices in kindergarten and primary grades. Prerequisites: Classroom teaching experience or instructor's consent.

**LTC 8612. Advanced Early Childhood Curriculum. 2-3 Credit.**

Study of early childhood curriculum in contemporary educational settings along with selection of appropriate materials and development of instructional strategies for children, prekindergarten through early primary grades. Prerequisites: teaching experience or instructor's consent.

**LTC 8615. The Missouri Writing Project. 3-4 Credit.**

Focus on 1) current theory and research in teaching writing; 2) development of effective practice in teaching, writing and reading; and 3) experimentation with writing and response. Prerequisites: successful application to MWP.

**LTC 8616. The Teaching of Journalism. 3 Credits.**

The course focuses on the learning and teaching of middle, secondary, and post-secondary journalism/mass media course. Major strands of study include the theory and practice of journalism instruction, curriculum, and assessment.

**LTC 8617. Teaching Writing in Middle and Secondary Classroom. 3 Credits.**

This course will encourage the student as a writer and as a teacher of writing, especially in the middle and high school setting. We will explore various types of writing, with emphasis in English Education, including addressing national and state standards. Prerequisite: graduate standing.

**LTC 8618. Writing, Reading and Teaching Nonfiction. 3 Credits.**

Students will get more than their feet wet as they read and write a variety of nonfiction texts, explore nonfiction's value and relationship to other genres, and investigate its potential for learning. Prerequisite: graduate standing.

**LTC 8619. Media Literacy. 3 Credits.**

Teachers will learn how to incorporate visual images in the classroom while helping students "read" the images of our media-rich culture. Teachers will pair media with literature; analyzed and evaluate different media; and design several assignments. Prerequisite: graduate standing.

**LTC 8620. Whole Language Curriculum. 3 Credits.**

Whole Language Curriculum inquires into whole language theory, beliefs and practices. Students will explore and participate in classroom based inquiry projects, theme cycles, reflective practices, holistic assessment, and other learner-centered experiences such as literature study and writers workshop.

**LTC 8621. Talk in the Curriculum. 3 Credits.**

This survey of oracy examines talk's essential role in learning and the connections among language, power and cultural identity. Graduate Standing Required.

**LTC 8630. Teaching Reading Through Literature Response. 3 Credits.**

Teaching Reading Through Literature Response focuses on 1) reading as a personal and social process and 2) multiple responses to literature. Students will examine, use and critique; personalized reading, text sets (conceptually related materials), literature groups and other reading instruction experiences.

**LTC 8635. Literature for Children and Youth. 3 Credits.**

Systematic study of selected areas of particular importance to students of literature, teachers, librarians, supervisors, and school administrators. Prerequisites: instructor's consent.

**LTC 8640. Studies in English Education. 3 Credits.**

Exploration of the theory, research, and application of topics in the teaching of English, such as Writing/Thinking, Media, Literature, Language, and Creative Nonfiction. Topics announced at time of registration. May repeat to twelve hours with department's approval.

**LTC 8642. Teaching Writing and Reading in Content Areas. 3 Credits.**

Theory and practice of teaching reading and writing. Specific ways teachers can help students use writing to communicate about the course content, as well as to learn course concepts. Class also focuses on how to teach reading in reading classes, how to help students improve reading skills in content areas, and how reading and writing skills can reinforce each other. Graduate standing required.

**LTC 8645. Second Language Acquisition. 3 Credits.**

This course will examine the many theories of how humans develop first and second languages and how this knowledge can be used to educate English Language Learners. Graded on A/F basis only. Prerequisites: graduate standing required. Students must hold a valid teaching certificate.

**LTC 8646. Materials for and Assessment of English Language Learners. 3 Credits.**

This course will examine the appropriate classroom materials for and the methods, reasons, and tools for the assessment of English Language Learners. Graded on A/F basis only. Prerequisite: graduate standing required. Students must hold a valid teaching certificate.

**LTC 8647. Language and Culture for Educators. 3 Credits.**

This course will examine how to prepare educators to effectively educate students from a broad range of linguistic and cultural backgrounds. Graded on A/F basis only. Prerequisites: graduate standing required. Students must hold a valid teaching certificate.

**LTC 8648. Linguistics for Educators. 3 Credits.**

This course will examine how knowledge of the way languages work will directly benefit the teaching of English Language Learners. Graded on A/F basis only. Graduate standing required. Students must hold a valid teaching certificate.

**LTC 8649. Methods of Teaching English Language Learners. 3 Credits.**

This course will examine how to prepare teachers to develop the investigative, decision-making, and reflective teaching skills needed to work with English Language Learners. Graded on A/F basis only.

Graduate standing required. Students must hold a valid teaching certificate.

**LTC 8650. English to Speakers of Other Languages Practicum. 3 Credits.**

This culminating course toward ESOL certification will apply the theory and practice of teaching English for Speakers of Other Languages (ESOL) to non-native speakers. Graded on A/F basis only. Graduate standing required. Students must hold a valid teaching certificate.

**LTC 8651. Working with English Language Learners with Special Needs. 3 Credits.**

The course will assist educators with the decision to refer or not to refer an English language learner to special education services while helping identify the general framework for considering their special needs and preparing a comprehensive continuum of services. Course graded on A/F basis only. Graduate Standing Required.

**LTC 8652. Seminar: English: Its Grammar and Place in the World. 3 Credits.**

The course will familiarize learners with the grammatical features of English that have contributed to its global proliferation, explore the varieties of English used around the world, and delve into the concept of English as a global means of communication. Course graded on A/F basis only. Graduate Standing Required.

**LTC 8660. Reading Miscue Analysis. 3 Credits.**

The process in which readers construct meaning by relating their socio-psycholinguistic backgrounds to discourse. 15 studied miscues (text deviations) are analyzed at several linguistic levels. A comprehension centered reading program is developed. Prerequisites: Learning, Teaching and Curriculum [LTC] 7540 and 7560, or equivalent.

**LTC 8664. Practicum in Child Study I. 3-5 Credit.**

Practicum experiences in diagnosing educational problems of school children. Prerequisites: T315 or T316, T318, Educational & Counseling Psychology A303.

**LTC 8665. Practicum in Child Study II. 3-5 Credit.**

Practicum experiences in applying remedial procedures to children with educational problems. Prerequisite: T415.

**LTC 8670. Analysis & Correction of Reading Disabilities. 3 Credits.**

Diagnostic and corrective procedures in reading instruction that may be used for clinical study. Prerequisites: Learning, Teaching and Curriculum [LTC] 7540 or instructor's consent.

**LTC 8680. Issues and Trends in Reading Instruction. 3 Credits.**

Provides intensive study of significant issues and current trends in reading on all instructional levels. Prerequisites: Learning, Teaching and Curriculum [LTC] 7540, 7560 or equivalents or instructor's consent.

**LTC 8681. Making a Difference for the Struggling Reader. 3 Credits.**

Will help explore ways to help readers who have been unable to achieve success in reading--will learn how to access and evaluate strategies students are currently using. Prerequisite: graduate standing.

**LTC 8682. Focus on Writing in the Classroom. 3 Credits.**

The course focuses on theory, research and practices in teaching writing in the elementary classroom (K-6) while developing a critical understanding of process methods to teach writing.

**LTC 8683. Celebrating Reading Through Good Books. 3 Credits.**

Many people can read but do not. This course will explore ways to make reading a joyful, exciting experience. Assignments will include reading

journal articles that will help students meet self determined goals. Sharing books will be an important part of this course.

**LTC 8684. Integrating Literacy and Technology. 3 Credits.**

This will be a seminar course in which the students explore definitions of literacy, theoretical frameworks of educational technology, and literature that investigates the effectiveness of integrating literacy and technology. The students will also examine and evaluate a range of software used to integrate literacy and technology. Prerequisite: graduate standing.

**LTC 8685. Literature Opportunities: Using Children's and Young Adult's Literature in the Classroom. 3 Credits.**

This class examines genres in children's and young adult literature (grades 1-9). In-depth look at the work of children's authors and illustrators; explore issues of censorship, gender, and culture. Graduate Standing Required.

**LTC 8686. Theory of Instructional Strategies. 3 Credits.**

The course investigates instructional strategies in K-12 and higher education classrooms and the theories behind those strategies. Content includes large and small group strategies, inquiry-based learning, student-centered and direct instruction, and differentiated instruction. Graduate Standing Required.

**LTC 8687. Literacy and the Internet (Grades K-12). 3 Credits.**

The internet offers a myriad of opportunities to engage K-12 students in meaningful, purpose-driven reading and writing. Students examine their own literacy programs, examine ways they can incorporate the internet, and create a classroom web site. Graduate Standing Required.

**LTC 8688. Nature of Literacy in a Digital World. 3 Credits.**

New literacies are required to successfully engage in professional, civic, and personal lives that are imbued with technology. Students examine the literacy skills required to proficiently read and write with text messages, blogs, wikis, social networks, and virtual worlds. Graduate Standing required.

**LTC 8710. Nature of Science and Science Teaching. 3 Credits.**

Examines philosophical, historical and sociological views of the nature of science and implications for science education policy and science instruction.

**LTC 8712. Inquiry and the Science Curriculum. 3 Credits.**

Examines inquiry as the foundation of the science curriculum. Includes study of exemplary programs and curriculum materials, and provides models for curriculum development in science education.

**LTC 8714. Research in Science Education. 3 Credits.**

Studies appropriate research methodologies and reviews research and selected readings in science education. Allows option for elementary or secondary emphasis for specific areas: life, physical or earth sciences. Prerequisite: undergraduate course in Science Education.

**LTC 8716. Trends and Issues in Science Education. 3 Credits.**

Provides intensive study of current trends and significant issues of science affecting both the elementary and secondary levels of science education. Prerequisite: undergraduate course in Science Education.

**LTC 8717. Teaching, Learning, & Research in Middle & Secondary School Sci.I. 3 Credits.**

Course I is for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisites: graduate standing; Learning, Teaching and Curriculum [LTC] 8942. Graded on A/F basis only.

**LTC 8718. Teaching, Learning & Research Middle & Secondary School Sci.: II. 3 Credits.**

For Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisites: graduate standing; Learning, Teaching and Curriculum [LTC] 8942. Graded on A/F basis only.

**LTC 8719. Teaching, Learning, & Research Middle & Secondary. 3 Credits.**

For Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisites: graduate standing; Learning, Teaching and Curriculum [LTC] 8942. Graded on A/F basis only.

**LTC 8720. Advanced Teaching of Elementary Science. 3 Credits.**

A study of science curriculum and teaching in elementary school from viewpoint of research teaching strategies, evaluation, and developing trends. Prerequisites: teaching experience and science methods course.

**LTC 8722. Advanced Teaching of Secondary Science. 3 Credits.**

Studies secondary science curriculum and teaching from viewpoint of research strategies, teaching strategies, conceptual formats. Prerequisite: secondary science methods course.

**LTC 8724. College Science Teaching. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 8724). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.

**LTC 8725. Science Outreach: Public Understanding of Science. 1-2 Credit.**

(same as Biological Science [BIO\_SC] and Animal Science [AN\_SCI] 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.

**LTC 8726. Integrating Science with Outreach. 1-6 Credit.**

(same as Biological Sciences [BIO\_SC] 8726). This course provides an opportunity for students to earn credit for outreach activities in the community. Students will capitalize on their area of study and scientific expertise in developing, implementing, and evaluating related outreach activities. May be repeated for credit.

**LTC 8730. Survey of Art Education. 3 Credits.**

Provides survey of the development of art education and problems in the field by means of a critical inquiry. Prerequisite: graduate standing.

**LTC 8735. Visual Literacy and Visual Culture. 3 Credits.**

This course will investigate the intersection between art and language, exploring the connections between visual media and the written word—how these two areas inform and enrich each other.

**LTC 8740. Curriculum in Art Education. 3 Credits.**

Advanced study of art education curricula, with option for elementary or secondary emphasis. Study of exemplary art programs, standards of quality, curriculum models, curriculum design and construction, concomitant instructional methods and evaluation. Prerequisite: graduate standing.

**LTC 8745. Visual Thinking Strategies I. 3 Credits.**

This course will introduce regular classroom and art educators to Visual Thinking Strategies theory and methodology, building practical VTS facilitation skills through structured guidance and feedback as each participant implements VTS lessons within his/her own teaching context.

**LTC 8750. Review of Research in Art Education. 3 Credits.**

Studies appropriate research methodologies and reviews research and selected readings in art education. Prerequisite: graduate standing.

**LTC 8760. The Secondary School Curriculum. 3 Credits.**

For secondary school principals, teachers, superintendents. Presents trends in curricular change, methods of curricular investigation.

**LTC 8770. Curriculum Construction for Secondary Schools. 3 Credits.**

Designed for those engaged in curriculum revision work and construction of new secondary school courses. Prerequisite: Learning, Teaching and Curriculum [LTC] 8760 or instructor's consent.

**LTC 8780. Managing Classrooms for Learning. 1-3 Credit.**

Theoretical assumptions, goals, and research that inform various approaches to classroom management advocated for practitioners. Includes strategies for conducting action research on classroom management. Prerequisites: An educational psychology course or instructor's consent.

**LTC 8790. Patterns for Instruction in Social Studies. 3 Credits.**

Presents and evaluates strategies for planning, teaching, and evaluating social studies in elementary and secondary schools.

**LTC 8800. Secondary Social Studies Curriculum. 3 Credits.**

Examines current theory, trends and practices in secondary social studies curriculum with a practicum in curriculum development.

**LTC 8805. Inquiry into K-12 History and Social Science. 3 Credits.**

this course is designed as a directed study on a topic in social studies content for the K-12 classroom. The focus of the course is on what is taught in social studies. Graded on A/F basis only.

**LTC 8806. Issues in the Social Studies Classroom. 3 Credits.**

This course is designed to provide an intensive study of current trends and significant issues in social studies that affect the social studies classroom.

**LTC 8810. Elementary Social Studies Curriculum. 3 Credits.**

An in-depth study of objectives, goals, patterns and practices in elementary social studies curriculum. Focus will be upon instructional strategies and materials and current trends influencing curriculum development.

**LTC 8820. Advanced Techniques in Music Education-General. 2-5 Credit.**

A review and evaluation of teaching/learning strategies in selected areas and levels of music instruction. Prerequisites: Music methods or instructor's consent.

**LTC 8823. Advanced Techniques in Music Education-Early Childhood. 2-5 Credit.**

A review and evaluation of teaching/learning strategies in selected areas and levels of music instruction. Prerequisites: Music methods or instructor's consent.

**LTC 8825. Administration and Supervision of Music Programs. 3 Credits.**

A study of the organization, management, and supervision of music programs. Prerequisite: instructor's consent.

**LTC 8830. Curriculum Materials in Music Education-General. 2-5 Credit.**

A development of critical abilities in evaluation and selection of music education materials. Section 1: Elementary; Section 2: Secondary Vocal; Section 3: Instrumental. Prerequisite: instructor's consent.

**LTC 8831. Curriculum Materials in Music Education-Vocal. 2-5 Credit.**

A development of critical abilities in evaluation and selection of music education materials. Section 1: Elementary; Section 2: Secondary Vocal; Section 3: Instrumental. Prerequisite: instructor's consent.

**LTC 8840. Foundations of Music Education. 3 Credits.**

A study of the history, philosophy and rationale of music education. Prerequisite: instructor's consent.

**LTC 8845. Techniques in Instrumental Music Teaching. 3 Credits.**

A practical study of the organization and instruction of class teaching, with demonstrations by instructor and class. Prerequisite: instructor's consent.

**LTC 8850. Teaching Vocal Music. 3 Credits.**

Studies in voice development techniques and the organization of choral programs.

**LTC 8860. Mathematics Curriculum. 3 Credits.**

Evolution of the mathematics curriculum during the 20th century will be studied. Emphasis will be given to examining major factors influencing the changing mathematics curriculum and their impact. Prerequisite: teaching experience or the instructor's consent.

**LTC 8861. Teaching, Learning & Research in Middle & Secondary School Math I. 3 Credits.**

Course I for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisite: graduate standing. Graded on A/F basis only.

**LTC 8862. Teaching, Learning & Research Middle & Secondary School Math: II. 3 Credits.**

Course II for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisite: Learning, Teaching and Curriculum [LTC] 8861, graduate standing; Corequisite: LTC 8942. Graded on A/F basis only.

**LTC 8863. Teaching, Learning, and Research Middle and Secondary Math III. 3 Credits.**

Course III for Post-Baccalaureate Majors seeking Middle and/or Secondary teacher certification. Prerequisite: Learning, Teaching and Curriculum [LTC] 8861, and 8862, graduate standing; CO-Requisite: LTC 8942. Graded on A/F basis only.

**LTC 8865. Assessment in Mathematics Education. 3 Credits.**

Examination of assessment practices and the accountability movement. Emphasis is placed on significant research findings in assessment and implications for planning, implementing, and evaluating mathematics instruction. Prerequisite: Education, School and Counseling Psychology [ESC\_PS] 7100 and teaching experience.

**LTC 8870. Mathematics Teaching and Teacher Education. 3 Credits.**

Recent developments and research findings in mathematics teaching and mathematics teacher education will be studied. Open to masters and doctoral students.

**LTC 8875. Technology and Mathematics Education. 3 Credits.**

This course will focus on effective uses of technology in mathematics teaching and learning. Participants will experience different electronic technologies including computers, graphing calculators, and calculator based laboratories. Open to masters and doctoral students.

**LTC 8880. Advanced Survey of Theories of Learning Mathematics. 3 Credits.**

This course is designed for students to explore historical and current cognitive theories that frame research in teaching and learning of mathematics. Prerequisite: Education, School and Counseling Psychology [ESC PS] 7350 or instructor's consent.

**LTC 8885. Using Manipulative Materials in Teaching Mathematics III. 2-3 Credit.**

Mathematics laboratory is developed and integrated with experiences in setting. Emphasis on materials for primary and intermediate grades.

**LTC 8890. Mathematics Education Research. 3 Credits.**

Examination of major research efforts and significant findings on learning and teaching mathematics. Emphasis will be placed on becoming knowledgeable of research and on developing wise consumers of research in mathematics education. Prerequisite: teaching experience or instructor's consent.

**LTC 8893. Integrating Instruction in Science and Mathematics, Grades 5-12. 2 Credits.**

This course is designed to help middle and secondary mathematics and science teachers enhance student understanding of mathematics and science through integration of the disciplines.

**LTC 8895. Advanced Methods of Teaching Secondary School Mathematics. 3 Credits.**

Discussion and application of theories of learning, strategies of instruction, curriculum development, evaluation techniques and research to secondary mathematics programs. Prerequisite: Mathematics Secondary School Teaching Experience or equivalent.

**LTC 8900. Seminar in Curriculum and Instruction. 1-3 Credit.**

Seminar in Curriculum and Instruction.

**LTC 8910. Individual Research. 1-3 Credit.**

Independent research not leading to thesis. Prerequisites: consent required.

**LTC 8915. Classroom Research-Learning, Teaching and Curriculum. 1-3 Credit.**

Study of original classroom research and theories of instruction leading to plans for personal research and theory development. Prerequisites: advanced graduate standing.

**LTC 8920. Classroom Research-Early Childhood and Elementary. 3 Credits.**

Study of original classroom research and theories of instruction leading to plans for personal research and theory development. Prerequisites: T448 and advanced graduate standing.

**LTC 8930. Ethnographic Research in Education. 3 Credits.**

Investigate practical aspects, nature, and assumptions of ethnographic research in education. Pilot study required. Prerequisites: Education, School and Counseling Psychology [ESC\_PS] 7170 or equivalent.

**LTC 8940. In-Service Course in Curriculum and Instruction. 1-99 Credit.**

Course work adapted to current vocational needs. Prerequisite: instructor's consent.

**LTC 8941. Internship in Curriculum and Instruction. 1-99 Credit.**

Provides internship experience under supervision in advanced levels of curriculum and instruction. Prerequisite: departmental chairman's consent.

**LTC 8942. Advanced Internship in Curriculum and Instruction. 1-10 Credit.**

This internship is for students enrolled in MU COE Post-Baccalaureate Certification Programs. Prerequisite: instructor's consent. Graded on A/F basis only.

**LTC 8970. The Supervision of Student Teaching-Masters. 3 Credits.**

Theory, knowledge and practices involved in supervision of student teaching and other professional lab experiences. Offers assistance in all major aspects of supervision of student teaching.

**LTC 9090. Research in Curriculum and Instruction. 1-99 Credit.**

Graded on a S/U basis only.

**LTC 9970. The Supervision of Student Teaching-Doctoral. 3 Credits.**

Theory, knowledge and practices involved in supervision of student teaching and other professional lab experiences. Offers assistance in all major aspects of supervision of student teaching.

## **Learning, Teaching, & Curriculum - Vocational (LTC\_V)**

---

**LTC\_V 1050. Principles of Sales. 3 Credits.**

Provide the student with the concepts, tools and skills to become a professional salesperson. Emphasis is placed upon participation and performance of sales skills.

**LTC\_V 1070. Keyboarding and Word Processing Concepts. 3 Credits.**

Instruction in mastering the keyboard and operative parts of a microcomputer. Preparation of business communications: reports; and legal; medical; and government documents. Special emphasis on developing high standards of keyboarding speed and accuracy.

**LTC\_V 1110. Principles of Retailing. 3 Credits.**

Examines problems, opportunities and trends in retailing. Problems and cases deal with store organization, budgeting, control, personnel and operation.

**LTC\_V 1210. Introduction to Microcomputers. 1 Credit.**

An overview of the hardware and software components of a microcomputer system.

**LTC\_V 2050. Merchandising. 3 Credits.**

Develop basic competencies essential to successful merchandising. Studies skills essential in merchandising, and analysis of merchandising functions and activities.

**LTC\_V 2110. Business and Interpersonal Communications. 3 Credits.**

Study of communication theory and principles as applied to business situations and practices; development of communications skills in the area of communication such as speaking, writing, listening, and nonverbal communication.

**LTC\_V 2150. The Virtual Workplace. 3 Credits.**

Encompasses the management of alternative work environments and the unique situations that arise by addressing the use of email, computerized meetings, virtual office design, web page issues for business, and other technology for virtual work.

**LTC\_V 3110. Field Experiences in PAVTE. 1-4 Credit.**

Supervised observational and instructionally related activities within one of the PAVTE program areas at the secondary or postsecondary level.

Student participates 30 clock hours for each semester hour of credit. Graded on S/U basis only.

**LTC\_V 3150. Directed Occupational Experience. 1-4 Credit.**

Reports based on employment experience in selected occupations combined with related conferences and/or seminars. May repeat until four semester hours accumulated.

**LTC\_V 3510. Human Relations in Organizations. 3 Credits.**

Principles, theory, processes and problems of effective human relations in marketing organizations.

**LTC\_V 4085. Problems in Curriculum and Instruction - CTE. 1-99 Credit.**

Study of professional programs and issues or technical problems related to the field of career and technical education.

**LTC\_V 4387. Seminar in Workforce Education. 1-3 Credit.**

Seminar experiences for students in any workforce education discipline area; meets the capstone requirement for students in the Bachelor of Educational Studies program (minimum 2.0 credit hours). Prerequisite: instructor's consent.

**LTC\_V 4510. Coordination of Cooperative Occupational Education. 3 Credits.**

Problems and procedures in the operation of cooperative occupational education programs. Especially designed for those who can qualify as coordinators of occupational education programs of a cooperative nature.

**LTC\_V 4550. Utility Software for Microcomputers. 2 Credits.**

An introduction to major types of microcomputer utility programs, including desktop publishing, presentation, spreadsheet, and data base. Prerequisite: Learning, Teaching and Curriculum - Vocational [LTC\_V] 1210 or equivalent.

**LTC\_V 4570. Career Guidance. 2-3 Credit.**

Problems, methods, and procedures involved in assisting individuals in choosing, preparing for, entering upon, and progressing in their career. For workforce development and human resource professionals, employment counselors, and teachers, counselors, and school administrators.

**LTC\_V 4610. Field Study in Occupational Education. 1-4 Credit.**

Directed observation in a cross section of business and industry combined with reports, weekly seminars and/or conferences. May repeat until four semester hours accumulated.

**LTC\_V 4650. Document Planning and Design. 3 Credits.**

Using the hands-on approach, students will develop skills in the planning, design layout, and creation of various business documents, as well as the ability to evaluate various types of documents. Prerequisite: Learning, Teaching and Curriculum -Vocational [LTC\_V] 4550 or equivalent.

**LTC\_V 4710. Business Software Applications. 3 Credits.**

Advanced concepts, features, and applications central to the major types of business software--spreadsheets, database management, word processing, graphics, and communications. Prerequisite: Learning, Teaching and Curriculum -Vocational [LTC\_V] 4550/7550 or equivalent.

**LTC\_V 4750. Occupational Analysis. 2 Credits.**

Techniques, procedures of analyzing occupations into their basic elements. Required of trade teachers, coordinators.

**LTC\_V 4770. Methods in Vocational Education for the Disabled and Disadvantaged. 3 Credits.**

(same as Special Education [SPC\_ED] 4390). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of

support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities.

**LTC\_V 4780. Development and Assessment of Workforce Education Curriculum. 3 Credits.**

Curriculum development and assessment course focused on competencies, curriculum selection, organization, development, and assessment for instructors of workforce and professional education courses and human resource training programs. Educational, School and Counseling Psychology [ESC\_PS] 2400 and junior standing.

**LTC\_V 4790. Laboratory Planning and Management. 3 Credits.**

This course is designed to acquaint the student with the procedures, techniques and skills necessary for proper organization, management, care, and utilization of career and technical education facilities, programs, equipment, and materials. Prerequisites: Learning, Teaching and Curriculum -Vocational [LTC\_V] 1210 and 4550.

**LTC\_V 4801. Topics in Career and Technical Education. 1-99 Credit.**

Topics in the field of career and technical education and the CTE program areas.

**LTC\_V 4805. Principles of Leadership in the Workplace. 3 Credits.**

Course explores the foundational concepts of leadership and its impact on the organizational behavior of individuals in the workplace. Theories of leadership will be examined, and concepts will be applied to workplace situations based on differing organizational factors. Course graded on A/F basis only.

**LTC\_V 4811. Workforce Education Teaching Methods. 3 Credits.**

Develops specialized organization and administration capabilities for workforce education subjects. Topics include managing activities, individualized instruction, nontraditional students, students with disabilities, and emerging technologies. Prerequisite: senior standing.

**LTC\_V 4830. Curriculum Content in Marketing Education. 3 Credits.**

Curricular development process, knowledge of core area and competencies of Marketing Education Program. Selection of instructional material. Prerequisite: Educational, School and Counseling Psychology [ESC\_PS] 2400.

**LTC\_V 4840. Methods of Teaching Marketing Education. 3 Credits.**

Instructional materials, methods and techniques used to teach the marketing education curriculum. Includes evaluating delivery of instruction. Prerequisite: Learning, Teaching and Curriculum -Vocational [LTC\_V] 4780 and 4830.

**LTC\_V 7083. Teaching Personal Finance Literacy. 3 Credits.**

(same as Personal Financial Planning [FINPLN] 7083) Principles and practices of teaching personal finance with particular emphasis on income, money management, spending and credit, and savings and investing. Prerequisites: Graduate standing. Course graded on A/F basis only.

**LTC\_V 7085. Problems in Curriculum and Instruction-CTE. 1-99 Credit.**

Study of professional programs and issues or technical problems related to the field of career and technical education. Graduate Standing Required.

**LTC\_V 7387. Seminar in Career and Technical Education. 1-3 Credit.**

Seminar experiences for students within one of the career and technical education areas. Prerequisite: instructor's consent.

**LTC\_V 7510. Coordination of Cooperative Occupational Education. 3 Credits.**

Problems and procedures in the operation of cooperative occupational education programs. Especially designed for those who can qualify as coordinators of occupational education programs of a cooperative nature. Prerequisite: graduate standing.

**LTC\_V 7550. Utility Software for Microcomputers. 2 Credits.**

An introduction to major types of microcomputer utility programs, including desktop publishing, presentation, spreadsheet, and data base. Prerequisite: graduate standing and Learning, Teaching and Curriculum-Vocational [LTC\_V] 1210 or equivalent.

**LTC\_V 7570. Vocational Guidance. 2-3 Credit.**

Problems, methods, procedures involved in assisting individuals in choosing, preparing for, entering upon, progressing in their vocation. For teachers, counselors, school administrators. Prerequisite: graduate standing.

**LTC\_V 7610. Field Study in Occupational Education. 1-4 Credit.**

Directed observation in a cross section of business and industry combined with reports, weekly seminars and/or conferences. May repeat until four semester hours accumulated. Prerequisite: graduate standing.

**LTC\_V 7650. Document Planning and Design. 3 Credits.**

Using the hands-on approach, students will develop skills in the planning, design layout, and creation of various business documents, as well as the ability to evaluate various types of documents. Prerequisite: graduate standing and Learning, Teaching and Curriculum-Vocational [LTC\_V] 4550/7550 or equivalent.

**LTC\_V 7710. Business Software Applications. 3 Credits.**

Advanced concepts, features, and applications central to the major types of business software--spreadsheets, database management, word processing, graphics, and communications. Prerequisite: graduate standing and Learning, Teaching and Curriculum-Vocational [LTC\_V] 4550/7550 or equivalent.

**LTC\_V 7750. Occupational Analysis. 2 Credits.**

Techniques, procedures of analyzing occupations into their basic elements. Required of trade teachers, coordinators. Prerequisite: graduate standing.

**LTC\_V 7770. Methods in Vocational Education for the Disabled & Disadvantaged. 3 Credits.**

(same as Special Education [SPC\_ED] 4390). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities. Prerequisite: graduate standing.

**LTC\_V 7780. Development & Assessment of Vocational-Technical Curriculum. 3 Credits.**

Curriculum development/assessment course focused on competencies, curriculum selection, organization, development, and assessment in the context of the Missouri Vocational Instructional Management System. Prerequisite: graduate standing and Education, School and Counseling Psychology [ESC\_PS] 2400.

**LTC\_V 7790. Laboratory Planning and Management. 3 Credits.**

This course is designed to acquaint the student with the procedures, techniques and skills necessary for proper organization, management, care, and utilization of career and technical education facilities, programs, equipment, and materials. Prerequisites: graduate standing and Learning, Teaching and Curriculum-Vocational [LTC\_V] 1210 and 7550.

**LTC\_V 7801. Topics in Career and Technical Education. 1-99 Credit.**

Topics in the field of career and technical education and the CTE program areas. Graduate Standing Required.

**LTC\_V 7810. Technology and Industry Education Methods. 3 Credits.**

Develops specialized organization and administration capabilities for Industrial and Technology Education. Topics include managing activities, individualized instruction, nontraditional students, students with disabilities, and emerging technologies. Prerequisite: professional standing and graduate standing.

**LTC\_V 7830. Curriculum Content in Marketing Education. 3 Credits.**

Curricular development process, knowledge of core area and competencies of Marketing Education Program. Selection of instructional material. Prerequisite: graduate standing and Education, School and Counseling Psychology [ESC\_PS] 2400.

**LTC\_V 7840. Methods of Teaching Marketing Education. 3 Credits.**

Instructional materials, methods and techniques used to teach the marketing education curriculum. Includes evaluating delivery of instruction. Prerequisite: graduate standing Learning, Teaching and Curriculum-Vocational [LTC\_V] 7780 and 7830.

**LTC\_V 8085. Problems in Workforce and Professional Education. 1-99 Credit.**

Independent, directed study on a topic in the areas of workforce, professional, or technology education.

**LTC\_V 8190. Research Applications for Career and Technical Education. 3 Credits.**

Interpretation, evaluation, and application of research methodologies and findings in career and technical education.

**LTC\_V 8210. Foundations of Program Development in Adult Workforce Education. 3 Credits.**

The adult workforce and professional education movement; characteristics of and learning principles applied to adult students; instructional materials, methods and procedures in organizing and operating adult vocational education programs.

**LTC\_V 8250. Principles of Business and Marketing Education Methods. 3 Credits.**

Organization, curriculum, problems, and trends of business and marketing education in secondary schools and colleges. Prerequisites: Teacher Development Program [TDP] 4880/7880 or instructor's consent.

**LTC\_V 8287. Seminar in Career and Technical Education. 1-3 Credit.**

Seminar in Career and Technical Education.

**LTC\_V 8310. Foundations of Career and Technology Education. 3 Credits.**

Nature, purpose of practical arts and vocational education in modern school. For teachers of agriculture, business, home economics, industrial subjects, administrators.

**LTC\_V 8350. Curriculum Development for Workforce and Professional Education. 3 Credits.**

In-depth investigation of curriculum development theory, research, issues, and procedures for workforce and professional education in the public and private sectors. Prerequisites: graduate standing or instructor's consent.

**LTC\_V 8410. Improvement of Instruction in Using Technology. 3 Credits.**

Incorporates recent development in application of technology to methods, techniques, and materials of instruction in career and technical education classrooms and laboratories. Prerequisites: Learning, Teaching and Curriculum-Vocational [LTC\_V] 4550/7550 or instructor's consent.

**LTC\_V 8420. Improvement of Instruction in Business Skills Subjects. 3 Credits.**

Developments and trends in the instructional program of business skills courses.

**LTC\_V 8501. Topics in Workforce and Professional Education. 1-99 Credit.**

Topics in the field of workforce, professional, or technology education in the CTE program areas. Prerequisite: graduate standing.

**LTC\_V 8510. Evaluation in Workforce and Professional Education. 3 Credits.**

Development of evaluation procedures and the construction of evaluation devices for workforce and professional education. Emphasizes performance evaluation, improvement of instruction, and program review. Prerequisites: graduate standing or instructor's consent.

**LTC\_V 8520. Implementation and Administration of Career and Technical Education Program. 3 Credits.**

Types of organization, approved administrative and supervisory practices, and state and federal guidelines for programs of career and technical education. Prerequisite: graduate standing or instructor's consent.

**LTC\_V 8940. In-Service Course in Vocational-Technical Education. 1-99 Credit.**

In-Service Course in Vocational-Technical Education.

**LTC\_V 9090. Research in Practical Arts and Vocational Technology Education. 1-99 Credit.**

Graded on a S/U basis only.

## Linguistics (LINGST)

**LINGST 1060. Human Language. 3 Credits.**

(same as Anthropology [ANTHRO] 1060, Communication Science and Disorders [C\_S\_D] 1060, English [ENGLSH] 1060) General introduction to various aspects of linguistic study. Elementary analysis of language data, with some attention to application of linguistic study to other disciplines.

**LINGST 2001. Topics in Linguistics-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: consent of chair.

**LINGST 2040. Anthropological Linguistics. 3 Credits.**

(same as Anthropology [ANTHRO] 2040). Language in relation to other aspects of human behavior. Introduction to description and analysis of the basic units of language. Emphasis on non-Indo-European and preliterate languages. Prerequisites: sophomore standing recommended.

**LINGST 2700. Elementary Logic. 3 Credits.**

(same as Philosophy [PHIL] 2700). Introduces a symbolic language for representing the structure of arguments. Presents precise rules for demonstrating the validity of arguments. Covers natural deduction for sentence and predicate logic. Develops skill in constructing derivations. Prerequisite: grade of C or higher in Mathematics [MATH] 1100/1120 or equivalent.

**LINGST 2820. Introduction to Cognitive Science. 3 Credits.**

(same as Psychology [PSYCH] 2820 and Philosophy [PHIL] 2820). Cognitive science is the interdisciplinary study of the mind. After an overview of the foundations of cognitive science as a whole, we will see what particular sectors of it have to say about mental capacities such as vision, language, categorization, and social cognition. Prerequisites: Psychology [PSYCH] 1000: sophomore standing required.

**LINGST 3001. Topics in Linguistics-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: consent of chair.

**LINGST 3010. American Phonetics. 3 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 3010). Analysis of production and acoustics of the sounds of speech with an emphasis on American English; practice in broad and narrow transcription using the International Phonetic Alphabet.

**LINGST 3210. Anatomy and Physiology of the Speech Mechanism. 3 Credits.**

(same as Communication Science and Disorder [C\_S\_D] 3210). Introduction to anatomical and functional aspects of the speech mechanism. Prerequisite: must be taken concurrently with Communication Science and Disorder [C\_S\_D]/Linguistics [LINGST] 3220.

**LINGST 3220. Speech Acoustics. 2 Credits.**

(same as Communication Science Disorders [C\_S\_D] 3220). An introduction to the acoustic aspects of speech as they relate to the respiratory, phonatory, resonatory, and articulatory systems. Prerequisites: Must be taken concurrently with Communication Science and Disorders [C\_S\_D] 3210.

**LINGST 3470. Culture as Communication. 3 Credits.**

(same as Anthropology [ANTHRO] 3470, Communication [COMMUN] 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction. Prerequisites: sophomore standing.

**LINGST 3710. Survey of Minority and Creole Languages of the U.S. and the Caribbean. 3 Credits.**

(same as Spanish [SPAN] 3710 and French [FRENCH] 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers' attitudes toward them in context of ethnic, cultural, and national identity (taught in English). Prerequisite: sophomore standing.

**LINGST 3721. Spanish Phonetics. 3 Credits.**

(same as Spanish [SPAN] 3721). Introductory course to the study of Spanish phonological, phonetic and spelling systems, practice of pronunciation, phonetic transcriptions, and introduction to the variation of Spanish pronunciation in the Hispanic world. The course is conducted in Spanish. Prerequisite: Spanish [SPAN] 2160 or equivalent.

**LINGST 4001. Topics in Linguistics-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: consent of chair.

**LINGST 4100. Philosophy of Language. 3 Credits.**

(same as Philosophy [PHIL] 4100). Examination of contemporary views of the relationship between language, minds, and the world. Prerequisite: sophomore standing and Philosophy [PHIL] 2700 and one other course in Philosophy; or instructor's consent.

**LINGST 4110. Advanced Logic. 3 Credits.**

(same as Philosophy [PHIL] 4110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems. Prerequisite: sophomore standing and Philosophy [PHIL] 2700; or instructor's consent.

**LINGST 4200. Introduction to Old English. 3 Credits.**

(same as English [ENGLSH] 4200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge. Prerequisite: junior standing.

**LINGST 4400. Language and Culture. 3 Credits.**

(same as Anthropology [ANTHRO] 4400). Interrelations between language, thought, culture, and society; role of language in cognition; methods and concepts of linguistics in cultural analysis. Prerequisite: Anthropology [ANTHRO] / Linguistics [LINGST] 2040 or instructor's consent.

**LINGST 4412. Gender, Language and Communication. 3 Credits.**

(same as Communications [COMMUN] 4412 and Anthropology [ANTHRO] 4412). Relationships among gender, language, nonverbal communication, and culture. Prerequisite: junior standing or departmental consent.

**LINGST 4415. Language and Discourse. 3 Credits.**

(same as Communication [COMMUN] 4415). Analysis of the rules of social interaction and the functions of language in discourse.

**LINGST 4420. Historical Linguistics. 3 Credits.**

(same as Anthropology [ANTHRO] 4420). Methods of tracing the history of languages by glottochronology, and by comparative and internal reconstructions; cultural and linguistic implications of such reconstructions and of areal linguistics. Prerequisites: junior/senior standing or instructor's consent.

**LINGST 4600. Structure of American English. 3 Credits.**

(same as English [ENGLSH] 4600). Introduction to English linguistics. Study of the grammar and pronunciation of contemporary English, with the major focus on syntax. Prerequisite: junior standing.

**LINGST 4610. History of the English Language. 3 Credits.**

(same as English [ENGLSH] 4610). Historical changes in the grammar and pronunciation of the English language from Old English to the present. Introduction to Indo-European origins of English.

**LINGST 4620. Regional and Social Dialects of American English. 3 Credits.**

(same as English [ENGLSH] 4620). The study of regional and social variation in pronunciation, vocabulary, and syntax of American English. Prerequisite: Linguistics [LINGST] 4600 and 4610 or equivalent.

**LINGST 4630. Phonology. 3 Credits.**

(same as English [ENGLSH] 4630). Survey of the sound patterns of English, with some comparison to other languages. Prerequisite: Linguistics [LINGST] 4600 or another introductory course in linguistics or phonetics.

**LINGST 4640. Syntax. 3 Credits.**

(same as English [ENGLSH] 4640). Study of the properties of phrase and sentence-level grammar, emphasizing English, with some comparison to other languages. Prerequisite: Linguistics [LINGST] 4600 or another comparable linguistics course.

**LINGST 4650. Principles of Teaching English as a Second Language. 3 Credits.**

(same as English [ENGLSH] 4650 and Learning, Teaching and Curriculum [LTC] 4460). Linguistic and pedagogical principles of teaching English to speakers of other languages. Prerequisite: Linguistics [LINGST] 4600 and 4610 or equivalent.

**LINGST 4710. History of the French Language. 3 Credits.**

(same as French [FRENCH] 4710). Study of the French language from its Latin origin to the present. The course includes a survey of the external, social, political, and historical factors that have affected the development of French, followed by diachronic study of the internal structural features of the language. Prerequisites: French [FRENCH] 3420 and 3430.

**LINGST 4711. History of the Spanish Language. 3 Credits.**

(same as Spanish [SPAN] 4711). Diachronic analysis of phonological, morphological, and syntactical systems of Spanish, from Vulgar Latin to contemporary dialects. Prerequisite: Completed with passing grade any Linguistics course 3000 or above or by consent of instructor. Recommended: Spanish [SPAN] 3420 and 3430.

**LINGST 4720. Structure of Modern French. 3 Credits.**

(same as French [FRENCH] 4720). An introductory presentation of the phonological and syntactic systems of contemporary standard French. Prerequisites: French [FRENCH] 3160 or equivalent or instructor's consent.

**LINGST 4721. Structure of Modern Spanish. 3 Credits.**

(same as Spanish [SPAN] 4721). Synchronic analysis of phonology, morphology and syntax of spoken Spanish dialects. Prerequisites: four 3000-level courses in Spanish.

**LINGST 4722. Spanish Across the Continents. 3 Credits.**

(same as Spanish [SPAN] 4722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Graded on A/F basis only. Prerequisites: four 3000-level courses in Spanish.

**LINGST 4723. Language and Society: Spanish in the U.S.. 3 Credits.**

(same as Spanish [SPAN] 4723). This class surveys linguistic and social issues pertaining to Spanish in the U.S. (past, present and future). Topics include bilingualism, code switching (a.k.a. Spanglish), first language attrition, linguistic identity, and the role of Spanish in Education, services and media. Graded on A/F basis only. Prerequisites: four 3000-level courses in Spanish.

**LINGST 4730. Linguistic Theory and Language Acquisition. 3 Credits.**

The goal of this class is to study the implications of current linguistic theory for contemporary research on second language acquisition. In particular, the hypothesis that second language acquisition follows some of the same principles as first language acquisition is explored. Course is taught in English. Prerequisites: Linguistics [LINGST] 4720, 4721, 4600, or 4860.

**LINGST 4810. Psycholinguistics. 3 Credits.**

(same as Communication Science and Disorder [C\_S\_D] 4810). Examination of the knowledge and processes that underlie the human ability to produce and understand language. Prerequisite: instructor's consent.

**LINGST 4820. Speech Perception. 3 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 4820). Selected topics in the perceptual processing of spoken language. Prerequisite: senior standing.

**LINGST 4850. Practical Phonetics for Fieldwork. 3 Credits.**

(same as Anthropology [ANTHRO] 4850). Self-paced course using computer and tape recorded lessons from world's languages. Teaches practical articulatory and transcription phonetics. Weekly meeting with instructor to monitor progress, resolve questions. Prerequisites: junior standing or instructor's consent.

**LINGST 4860. Techniques in Linguistic Analysis. 3 Credits.**

(same as Anthropology [ANTHRO] 4860). Problems in analyzing data from various languages. Prerequisites: introductory course in Linguistics or instructor's consent.

**LINGST 4870. Field Methods in Linguistics. 4 Credits.**

(same as Anthropology [ANTHRO] 4870 and English [ENGLSH] 4670). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language. Prerequisites: 9 hours in Linguistics [LINGST] or instructor's consent.

**LINGST 4960. Special Readings in Linguistics. 1-3 Credit.**

Independent study through readings, conferences, reports. Prerequisites: 9 hours in Linguistics and instructor's consent.

**LINGST 4970. Studies in Linguistics. 3 Credits.**

Topic varies according to instructor. Prerequisite: 9 hours in Linguistics.

**LINGST 4991. Honors Thesis in Linguistics. 3 Credits.**

Based on an original research project in theoretical or applied linguistics. Topic, director, and second reader approved by Linguistics Committee, College of Arts & Science. Prerequisite: qualification for Honors degree.

**LINGST 7100. Philosophy of Language. 3 Credits.**

(same as Philosophy [PHIL] 7100). Examination of contemporary views of the relationship between language, minds, and the world. Prerequisite: Philosophy [PHIL] 2700 or instructor's consent. Some work in PHIL 1000, 3000 or 3200 recommended.

**LINGST 7110. Formal Logic. 3 Credits.**

(same as Philosophy [PHIL] 7110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness for formal systems. Emphasizes the theory of formal systems. Prerequisites: graduate standing and Philosophy [PHIL] 2700.

**LINGST 7200. Introduction to Old English. 3 Credits.**

(same as English [ENGLSH] 7200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge. Prerequisite: graduate standing.

**LINGST 7400. Language and Culture. 3 Credits.**

(same as Anthropology [ANTHRO] 7400). Interrelations between language, thought, culture, and society; role of language in cognition; methods and concepts of linguistics in cultural analysis. Prerequisite: graduate standing and Anthropology/Linguistics [ANTHRO/LINGST] 2040 or equivalent.

**LINGST 7412. Gender, Language, and Communication. 3 Credits.**

(same as Communications [COMMUN] 7412 and Anthropology [ANTHRO] 7412). Relationships among gender, language, nonverbal communication, and culture.

**LINGST 7415. Language and Discourse. 3 Credits.**

(same as Communication [COMMUN] 7415). Analysis of the rules of social interaction and the functions of language in discourse.

**LINGST 7420. Historical Linguistics. 3 Credits.**

(same as Anthropology [ANTHRO] 7420). Methods of tracing the history of languages by glottochronology, and by comparative and internal reconstructions; cultural and linguistic implications of such reconstructions and of areal linguistics.

**LINGST 7600. Structure of American English. 3 Credits.**

(same as English [ENGLSH] 7600). Introduction to English linguistics. Study of the grammar and pronunciation of contemporary English, with the major focus on syntax. Prerequisite: graduate standing.

**LINGST 7610. History of the English Language. 3 Credits.**

(same as English [ENGLSH] 7610). Historical changes in the grammar and pronunciation of the English language from Old English to the present. Introduction to Indo-European origins of English.

**LINGST 7620. Regional and Social Dialects of American English. 3 Credits.**

(same as English [ENGLSH] 7620). The study of regional and social variation in pronunciation, vocabulary, and syntax of American English. Prerequisite: Linguistics [LINGST] 4760/7600 and 7610 or equivalent.

**LINGST 7630. Phonology. 3 Credits.**

(same as English [ENGLSH] 7630). Survey of the sound patterns of English, with some comparison to other languages. Prerequisite: Linguistics [LINGST] 7600 or another introductory course in linguistics or phonetics.

**LINGST 7640. Syntax. 3 Credits.**

(same as English [ENGLSH] 7640). Study of the properties of phrase-and sentence-level grammar, emphasizing English, with some comparison to other languages. Prerequisite: graduate standing and Linguistics [LINGST] 4600 or another comparable linguistics course.

**LINGST 7650. Principles of Teaching English as a Second Language. 3 Credits.**

(same as English [ENGLSH] 7650). Linguistic and pedagogical principles of teaching English to speakers of other languages. Prerequisite: Linguistics [LINGST] 7600 and 7610 or equivalent.

**LINGST 7710. History of the French Language. 3 Credits.**

(same as French [FRENCH] 7710). Prerequisites: graduate standing.

**LINGST 7711. History of the Spanish Language. 3 Credits.**

(same as Spanish [SPAN] 7711). Diachronic analysis of Spanish phonology, morphology, and syntax from Vulgar Latin to modern period. Prerequisite: completed with passing grade any Linguistics course 3000 or above or by instructor's consent.

**LINGST 7720. Structure of Modern French. 3 Credits.**

(same as French [FRENCH] 7720). An introductory presentation of the phonological and syntactic systems of contemporary standard French.

**LINGST 7721. Structure of Modern Spanish. 3 Credits.**

(same as Spanish [SPAN] 7721). Synchronic analysis of phonology morphology and syntax of spoken Spanish dialects.

**LINGST 7730. Linguistic Theory and Language Acquisition. 3 Credits.**

(same as Romance Languages [RM\_LAN] 7730). The goal of this class is to study the implications of current linguistic theory for contemporary research on second language acquisition. In particular, the hypothesis that second language acquisition follows some of the same principles

as first language acquisition is explored. Course is taught in English. Prerequisites: Linguistics [LINGST] 7720, 7721, 7600 or 7860.

**LINGST 7810. Psycholinguistics. 3 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 7810). Examines the knowledge and processes that underlie the human ability to produce and understand language. Prerequisite: graduate standing and instructor's consent.

**LINGST 7820. Speech Perception. 3 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 7820). Selected topics in the perceptual processing of speech sounds and spoken language. Prerequisite: instructor's consent.

**LINGST 7850. Practical Phonetics for Fieldwork. 3 Credits.**

(same as Anthropology [ANTHRO] 7850). Self-paced course using computer and tape recorded lessons from world's languages. Teaches practical articulatory and transcription phonetics. Weekly meeting with instructor to monitor progress, resolve questions.

**LINGST 7860. Techniques in Linguistic Analysis. 3 Credits.**

(same as Anthropology [ANTHRO] 7860). Problems in analyzing data from various languages. Prerequisite: introductory course in Linguistics or instructor's consent.

**LINGST 7870. Field Methods in Linguistics. 4 Credits.**

(same as Anthropology [ANTHRO] 7870 and English [ENGLSH] 7670). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language. Prerequisites: 9 hours in Linguistics.

**LINGST 8000. Problems. 3 Credits.**

Independent study through readings, analysis of special linguistic problems, reports. Prerequisites: one Advanced Linguistics course and instructor's consent.

**LINGST 8100. Speech Science. 4 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 8100). Introduction to the physiological and acoustic aspects of speech production; instrumentation for speech analysis including computer-based speech processing techniques. Prerequisites: Communication Science and Disorders [C\_S\_D] 3010, 3210, and 3230 or equivalents. Graduate Standing Required.

**LINGST 8110. Speech Physiology. 3 Credits.**

(same as Communication Science and Disorders Program [C\_S\_D] 8110). Analysis of physiological features associated with speech subsystems; theories of encoding with special emphasis on speech motor control mechanisms.

**LINGST 8120. Bilingualism and Language Contact. 3 Credits.**

(same as Spanish [SPAN] 8120 and [FRENCH] French 8120). Global analysis of the study of Bilingualism from a combined sociocultural, sociolinguistic and psycholinguistic perspective based on current research and examination of various phenomena of language contact (taught in Eng.). Prerequisite: graduate standing.

**LINGST 8487. Seminar in Anthropological Linguistics. 3 Credits.**

(same as Anthropology [ANTRHO] 8487). Topics: Ethnolinguistics, linguistic prehistory, pidgin and Creole languages, linguistic theories and cultural and cultural analysis. French structural anthropology. May be repeated for 9 hours maximum.

**LINGST 8600. Seminar in the English Language. 3 Credits.**

(same as English [ENGLHS] 8600). Descriptive and historical studies of the English language. Topics (e.g., The Germanic Origins, Modern

Syntactic Analysis) announced at time of registration. May repeat to twelve hours with department's approval.

**LINGST 8615. History of the German Language. 3 Credits.**  
(same as German [GERMAN] 8615).

**LINGST 8625. Middle High German. 3 Credits.**  
(same as German [GERMAN] 8625). Prerequisites: graduate standing or instructor's consent.

## Management (MANGMT)

---

**MANGMT 1010. Contemporary Business Practices. 1 Credit.**  
Course coverage includes an overview of the accountancy, finance, management and marketing majors and careers in each of these fields as well as the integrated nature of business. Graded on A/F basis only.

**MANGMT 1050. Contemporary Leadership Issues in Business. 3 Credits.**  
Course focuses on contemporary business leadership practices and includes an overview of the accountancy, finance, management and marketing majors and careers in each of these fields. Prerequisite: instructor's consent.

**MANGMT 3000. Principles of Management. 3 Credits.**  
Introduction to the basic concepts of management and organization; their application to operations and personnel management. Prerequisite: Completion of 45 semester hours.

**MANGMT 3000H. Principles of Management - Honors. 3 Credits.**  
Introduction to the basic concepts of management and organization; their application to operations and personnel management. Prerequisite: Completion of 45 semester hours. Honors eligibility required.

**MANGMT 3100. Job Search Strategies. 1 Credit.**  
Provides relevant information and skills to help students interested in careers in business conduct an effective job search. Topics covered include self-assessment, company research, preparing a resume, interview skills, networking skills, and negotiation skills.

**MANGMT 3200. Business and Society. 3 Credits.**  
This course emphasizes the ethical implications of managerial decisions and the relationships between businesses and stakeholder groups. Major topics include corporate governance, social responsibility, rights and obligations, and international business. Prerequisite: Admission to upper level business program.

**MANGMT 3300. Introduction to Business Processes and Technologies. 3 Credits.**  
Introduces students to cross-functional business processes including both transactional and decision making forms. Current and emerging technologies used to facilitate efficient and effective action in these processes are explored. Prerequisite: Accountancy [ACCTCY] 2258.

**MANGMT 3540. Introduction to Business Law. 3 Credits.**  
The legal aspects of business related to society--introduction to the legal system; constitutional, criminal, tort law; contracts and sales law cases and problems; administrative regulation of business and consumer issues. Prerequisite: completion of 30 semester hours.

**MANGMT 3901. Special Topics in Management. 1-3 Credit.**  
Study of a selected topic in management taken as part of an organized short-term study abroad program. Prerequisites: instructor's consent.

Some sections of this course may be graded on either on A/F or S/U basis only.

**MANGMT 3975. Current Issues in International Management. 1-3 Credit.**  
Study of current issues and practices in international management taken as part of an organized short term study abroad program. Prerequisite: instructor's consent. Graded on S/U basis only.

**MANGMT 4010. Operations Management. 3 Credits.**  
Managerial analysis of operating problems, with emphasis on planning and control systems. Prerequisites: Management [MANGMT] 3000. Math Reasoning Proficiency Course.

**MANGMT 4020. Human Resource Management. 3 Credits.**  
Introduction to strategies and best practices in attracting, retaining, developing, and compensating employees. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4030. Organizational Behavior. 3 Credits.**  
Examines theoretical constructs and research findings on human behavior in work organizations such as businesses, especially individual differences, dyadic relations and small group behavior. Prerequisites: Management [MANGMT] 3000.

**MANGMT 4050. Management of Service Operations. 3 Credits.**  
Managing services, especially the operation's activity in service firms. Includes determining the service package, forecasting service demand, managing demand, capacity analysis and management, scheduling, cost control, service quality, and human resource management. Standardization, franchising, and service automation addressed. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4060. Project Management Fundamentals. 3 Credits.**  
Practical methods and techniques for managing projects with selective attention to human resource issues. Includes project breakdown analysis, task network scheduling, resource allocation, and assessment/evaluation of project performance. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4110. Total Quality Management. 3 Credits.**  
Introductory, comprehensive approach to quality planning, analysis, and control. Applications orientation. Integrates customer needs, product and service design and delivery, and continuous improvement into all organizational activities. Examines full range of behavioral, technical, and organizational aspects relating to quality. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4120. Human Resource Management Law. 3 Credits.**  
Analysis and evaluation of legal and administrative regulations of terms of employment; Fair Labor Standards, discriminatory practices, safety and health regulations, other regulations. Prerequisites: Management [MANGMT] 4020.

**MANGMT 4130. Advanced Organizational Behavior. 3 Credits.**  
Based upon behavioral science concepts and research findings directed toward understanding and explaining human behavior within organizations. Case studies, individual or team projects. Prerequisites: Management [MANGMT] 4030.

**MANGMT 4140. Business Communication. 3 Credits.**  
The course provides the fundamentals of business communication skills, including written, oral communication, listening, multicultural communication, and teamwork skills, with an emphasis on written communication skills as a methods to communicate with important stockholders. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4185. Problems in Management. 1-99 Credit.**

Undergraduate students may select topics for study and investigation. Selected sections of this course may be graded either on A/F or S/U basis only. Prerequisite: instructor's consent.

**MANGMT 4201. Topics in Management. 3 Credits.**

Selected current topics in management. Offered on an experimental, one-semester basis only. Prerequisite: will vary with different topics.

**MANGMT 4201H. Topics in Management. 3 Credits.**

Selected current topics in management. Offered on an experimental, one-semester basis only. Prerequisite: will vary with different topics. Honors eligibility required.

**MANGMT 4210. Management Science. 3 Credits.**

Further development of models and quantitative analysis as applied to production management problems. Management research design and experimentation; computer applications; quantitative case analyses; individual industrial field studies. Corequisite: Statistics [STAT] 3500 and Accountancy [ACCTCY] 2258 or Computer Science [CMP\_SC] 1050, junior standing. Math Reasoning Proficiency Course.

**MANGMT 4220. Compensation Theory and Practice. 3 Credits.**

Examines the empirical research and theory relating to the effect of compensation administration systems upon employee satisfaction and performance. Analysis of financial compensation systems and benefit programs in use in modern organizations. Prerequisite: Management [MANGMT] 4020.

**MANGMT 4310. Modern Manufacturing. 3 Credits.**

Contemporary qualitative and quantitative analysis of automation systems for production and inventory; robotics, digital data matrix and Q/R coding, PLC overview; uncertainty, risk, and policy considerations; analysis of networks; management problems in application. Pre/Co-requisite: Management [MANGMT] 4010.

**MANGMT 4320. Selected Problems in Human Resource Management. 3 Credits.**

Advanced studies in selected administrative and technical policies, practices in employee relations, with individual and group project work, research. Focuses on policy issues, research findings, advanced techniques. Prerequisites: Management [MANGMT] 4020.

**MANGMT 4330. Organizational Theory. 3 Credits.**

Elements of the managerial process; emphasis on theory of organization structure and design and the impact of technology and culture on organization systems. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4330H. Organizational Theory - Honors. 3 Credits.**

Elements of the managerial process; emphasis on theory of organization structure and design and the impact of technology and culture on organization systems. Prerequisite: Management [MANGMT] 3000. Honors eligibility required.

**MANGMT 4340. Crisis Management. 3 Credits.**

Management strategies for media relations, image and identify building, internal communication, government relations, and crisis communication are explored through case studies, film, literature, and current popular culture. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4350. Leadership Development. 3 Credits.**

Provides a comprehensive understanding of leadership development within the corporate environment. Examines causes and outcomes of different styles of leadership that are designed to fit the needs of individuals and/or specific situations. Prerequisite: Management 3000 [MANGMT] 3000.

**MANGMT 4420. Collective Bargaining. 3 Credits.**

Content, negotiation, administration of collective labor agreements and settlement of disputes. Prerequisites: Management [MANGMT] 3000.

**MANGMT 4450. Management of Electronic Commerce. 3 Credits.**

An introduction to electronic commerce. Topics covered include definition and scope of e-commerce, tools and technologies used, strategies, and understanding of this dynamic field. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4460. Electronic Commerce Security. 3 Credits.**

Comprehensive introduction to the concepts, technologies, and applications of security in electronic commerce. Topics include security policy, privacy, cryptography, types of attacks, protection, detection and response strategies. Prerequisites: Management [MANGMT] 3000 and Accountancy [ACCTCY] 2258.

**MANGMT 4480. Business Data Communication and Networking. 3 Credits.**

Introduction to fundamental principles of technical and managerial aspects of business data communications and networks. Basic concepts and principles, protocol layers, content distribution, routing, LAN, wireless, security, network management, multimedia networking, and new developments. Prerequisite: Management [MANGMT] 3000 and Accountancy [ACCTCY] 2258.

**MANGMT 4520. Change Management in Business. 3 Credits.**

Provides a comprehensive understanding of the processes of change in the corporate environment. Examines antecedents of change such as acquisitions, mergers, technology and new leadership as well as approaches to managing change using tools from organization development (OD). Prerequisite: Management [MANGMT] 3000.

**MANGMT 4540. Legal Aspects of Business Organization and Operation. 3 Credits.**

Includes agency and employment relationships, sole proprietorships, partnerships, and corporations, also operational aspects of business associations such as administrative regulation, taxation, bankruptcy, and trade regulation. Prerequisite: Management [MANGMT] 3540.

**MANGMT 4560. The Law of Commercial Credit Transactions. 3 Credits.**

Purchase and sale of goods, services and real property-discussion includes drafts, notes, security agreements under the Uniform Commercial Code, and credit financing of real estate. Prerequisite: Management [MANGMT] 3540.

**MANGMT 4620. Web Development Fundamentals. 3 Credits.**

An introduction to the fundamentals of design, technology and project management aspects of developing websites. Some web based programming languages including HTML, CSS, JavaScript and ASP/VBScript and an introduction to Adobe Photoshop and Macromedia Dreamweaver. Prerequisite: Management [MANGMT] 3000 and Accountancy [ACCTCY] 2258.

**MANGMT 4700. Principles of Entrepreneurship. 3 Credits.**

An introductory course designed to provide a solid foundation of the role of entrepreneurship. The focus is on the creation of new ventures, the decisions leading to their development, and the factors that lead to their success. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4710. The Entrepreneurial Process. 3 Credits.**

This course deals with critical thinking, logic, emotional intelligence, ethics and a problem solving/decision making frame in the context of the entrepreneurial business phases: opportunity identification; launch

after gathering resources; managing growth and harvesting rewards.  
Prerequisite: Management [MANGMT] 3000.

**MANGMT 4730. New Business Planning and Management. 3 Credits.**

Analysis of the major functional areas of the start-up firm including accounting, finance, human resources, information systems, logistics, management, marketing, production/operations, purchasing and sales. Focus is also placed on generating ideas, scanning for environmental trends, and critically evaluating opportunities. Prerequisite: Management [MANGMT] 3000.

**MANGMT 4750. Entrepreneurial Innovation Management: Enterprise Conception. 3 Credits.**

(same as Industrial Manufacturing Systems Engineering [IMSE] 4750). Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course. Prerequisite: sophomore standing or instructor's consent.

**MANGMT 4760. Entrepreneurial Innovation Management: Enterprise Design. 3 Credits.**

(same as Industrial Manufacturing Systems Engineering [IMSE] 4760). Expand on Management [MANGMT] 4750 business/technology plan into an operations plan; advertising facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes. Prerequisite: MANGMT 4750; sophomore standing or instructor's consent.

**MANGMT 4765H. Entrepreneurial Innovation Management: Enterprise. 3 Credits.**

(same as Industrial Manufacturing Systems Engineering [IMSE] 4765H). Expand on Management [MANGMT] 4750 business/technology plan into an operations plan; advertising facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes. Prerequisite: Management [MANGMT] 4750; sophomore standing or instructor's consent. Honors eligibility required.

**MANGMT 4770. Entrepreneurial Innovation Management: Enterprise Operation. 3 Credits.**

(same as Industrial Manufacturing Systems Engineering [IMSE] 4770). Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales and delivery. Prerequisite: Junior Standing.

**MANGMT 4940. Professional Management Internship. 3 Credits.**

Provides experience with management activities in business organizations (or, occasionally, in a governmental or not-for-profit setting). Students are required to prepare and execute a plan of study approved by the instructor and to complete written assignments detailed in the plan. Course only satisfies a professional elective requirement of the program. Prerequisite: COB student with a management concentration, and Internship Coordinator's consent. Graded on S/U basis only.

**MANGMT 4970. Strategic Management. 3 Credits.**

Enterprise-level case studies, simulations, similar exercises to integrate business functional decisions; assessment of environmental influences on business. Development, implementation of company strategies. Prerequisites: Management [MANGMT] 3000, Marketing [MRKTNG] 3000, Finance [FINANC] 3000 and 100 credit hours earned. Open only to seniors admitted to a professional program in the CoB.

**MANGMT 7010. Operations Management. 3 Credits.**

Managerial analysis of operating problems, with emphasis on planning and control systems. Prerequisites: graduate standing and Management [MANGMT] 3000.

**MANGMT 7020. Human Resource Management. 3 Credits.**

Introduction to strategies and best practices in attracting, selecting, retaining developing, and compensating employees. Prerequisites: graduate standing and Management [MANGMT] 3000.

**MANGMT 7030. Organizational Behavior. 3 Credits.**

Examines theoretical constructs and research findings on human behavior in work organizations such as businesses, especially individual differences, dyadic relations and small group behavior. Prerequisites: graduate standing and Management [MANGMT] 3000.

**MANGMT 7201. Topics in Management. 3 Credits.**

Selected current topics in management. Offered on an experimental, one-semester basis only. Prerequisite: graduate standing.

**MANGMT 7330. Organizational Theory. 3 Credits.**

Elements of the managerial process; emphasis on theory of organization structure and design and the impact of technology and culture on organization systems. Prerequisite: graduate standing and Management [MANGMT] 3000.

**MANGMT 7380. Organizational Behavior and Management: The Individual. 1.5 Credit.**

An examination of factors influencing behavior in organizations. An analysis of research, theory, and current practices dealing with managing people in work organizations. Focus on the individual within the organizational context. Prerequisite: graduate standing.

**MANGMT 7390. Organizational Behavior and Management: Dyadic, Group and Organizational Processes. 1.5 Credit.**

An examination of factors influencing behavior in organizations. Analysis of research, theory, and current practices dealing with managing people in work organizations. Focus on dyadic, group and system-wide processes. Prerequisites: graduate standing; Management [MANGMT] 7380.

**MANGMT 7400. Managerial Analytics. 1.5 Credit.**

Spreadsheet modeling procedures to address common business problems. Analysis of real-world cases and unstructured problems using basic and advanced features software and communication of results in managerial format. Prerequisites: Familiarity with spreadsheet software. Open to Crosby MBA students ONLY. Graded A/F only.

**MANGMT 7410. Management Information Systems. 1.5 Credit.**

A managerially-oriented, case-based introduction to information systems. Emphasizes how information systems technology can aid managers in improving organizational performance, group work, and personal productivity, thus providing competitive advantage. Prerequisite: graduate standing.

**MANGMT 7420. Managerial Statistics. 1.5 Credit.**

Overview of statistics as an aid in decision making. Emphasis on summarizing data, statistical inference, sampling techniques, and regression based forecasting as applied to problems in business.

**MANGMT 7430. Operations and Supply Chain Management. 3 Credits.**

Surveys problems common to operations within a complex organization. Emphasizes planning, control, and decision making.

**MANGMT 7470. Data Analysis for Managers. 1.5 Credit.**

Statistical thinking approaches to address common business data and problems. Analysis of real-world cases and unstructured data using statistical features of spreadsheet software and communication of results in managerial format. Prerequisite: Management [MANGMT] 7400 and 7420. Open to Crosby MBA students ONLY. Graded A/F only.

**MANGMT 7540. Legal Aspects of Business Organization and Operation. 3 Credits.**

Includes agency and employment relationships, sole proprietorships, partnerships, and corporations, also operational aspects of business associations such as administrative regulation, taxation, bankruptcy, and trade regulation. Prerequisite: graduate standing and Management [MANGMT] 3540. Restricted to COB students.

**MANGMT 8001. Topics in Management. 1-6 Credit.**

Selected current topics in management. Prerequisite: graduate standing.

**MANGMT 8054. Entrepreneurship and Media of the Future. 3 Credits.**

(same as JOURN 8054). This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment. Graded on A-F basis only. Prerequisite: graduate standing in Journalism or MBA program.

**MANGMT 8085. Problems in Management. 1-99 Credit.**

Graduate students may select topics for study and investigation. Selected sections of the course may be offered either on A/F or S/U basis only.

**MANGMT 8100. Exploring the Digital Globe. 3 Credits.**

Impacts of technological change and globalization are explored from the perspective of business, law and journalism. The first course required for the "CDiG certificate". Issues involving electronic commerce, digitization and globalization will be analyzed through online and in-class projects, class discussion and guest lectures. Prerequisite: enrollment in CDiG Graduate Certificate Program or instructor's consent.

**MANGMT 8300. Business and Society. 3 Credits.**

Interdependence of the business firm and its social, political, and legal environment; interrelationships with governments, interest groups, and the larger society; role of business in formulation of community, regional, national, and foreign policy.

**MANGMT 8310. Strategic Human Resource Management. 3 Credits.**

Analysis of research and practice in planning for attracting, selecting, developing, and disciplining of employees at work. Prerequisites: graduate standing.

**MANGMT 8320. Management of Labor Relations. 3 Credits.**

Managerial approaches to collective bargaining. Negotiation, grievances, agreement administration; emphasis on recent developments. Prerequisite: graduate standing.

**MANGMT 8330. Current Issues in Human Resource Management. 3 Credits.**

Exploration of current trends, issues, and controversies involving the managing of human resources in organizations, with an emphasis on how human resources can provide competitive advantage. Considers multiple perspectives, including that of employers, employees, and other stakeholders. Prerequisite: Management [MANGMT] 8310 or 7380 and 7390.

**MANGMT 8335. Human Resource Law. 3 Credits.**

The study of best HR practices from a legal point of view, including avoiding employer liability related to recruiting, interviewing, hiring, classifying, supervising and terminating employees. Prerequisites: graduate standing.

**MANGMT 8340. Organizational Design. 1.5 Credit.**

Principles of effective organizational design contingent upon contextual factors such as an organization's size, technology, and environment; dimensions of organizational structure; overall forms of organizational design. Graduate standing required.

**MANGMT 8345. Organizational Culture. 1.5 Credit.**

Concept of culture in an organizational context; models of organizational culture; culture's relationships with individual behavior, organizational effectiveness, and organizational change, especially change related to strategy implementation and to mergers and acquisitions. Graduate standing required.

**MANGMT 8350. Organizational Analysis and Change in the Public Sector. 3 Credits.**

Investigates the social and psychological dynamics of organizational diagnosis, feedback and learning, intervention, planned change. Students study organizational life from the viewpoint of experienced organizational analysts and consultants. The predominant theoretical approach offered in this course is clinical and psychodynamic.

**MANGMT 8360. Negotiations. 3 Credits.**

A structured overview of negotiations; includes the development of improved negotiation skills. Topics include power, distributive negotiations, integrative negotiations, maneuvers, tactics, strategies, conflict, complex negotiations, mediation, and negotiation ethics. Prerequisite: graduate standing.

**MANGMT 8370. Managerial Leadership. 3 Credits.**

An examination of the historical conceptions, definitions, theories, and research findings in the managerial leadership literature. The application of this literature to the development of analytical and leadership skills. Prerequisites: graduate standing, Management [MANGMT] 7380 and 7390.

**MANGMT 8400. Management Science Modeling. 1.5 Credit.**

Application of management science modeling procedures to organizational decision making. Topics include mathematical programming, queuing, and network models. Stresses managerial point of view with analysis of problems and interpretation of computer solutions. Prerequisites: Management [MANGMT] 7420.

**MANGMT 8410. Decision Making and Risk. 1.5 Credit.**

Managerial approaches to decision making under risk and uncertainty with emphasis on decision analysis, spreadsheet simulation, and computer solutions via other management science models. Discussion of rational and behavioral decision making and procedures for assessing risk and uncertainty. Prerequisite: Management [MANGMT] 7400 or equivalent.

**MANGMT 8420. Decision Support Systems. 3 Credits.**

The theory, methodology and implementation of Decision Support Systems (DSS). Topics include the DSS concept, applications, organizational issues, hardware and software technology, developmental methodology, data-model-user relationships, user interfaces, implementation strategies, and evaluation procedures. Includes hands-on building of a DSS. Prerequisite: graduate standing.

**MANGMT 8430. Database Management. 3 Credits.**

Data management, including database development, access, and administration. A focus on key issues and principles of managing organizational data, such as developing data models, creating relational databases, and formulating and executing queries. Prerequisite: completion of or concurrent enrollment in Management [MANGMT] 7410.

**MANGMT 8440. Topics in Electronic Commerce. 3 Credits.**

Fundamental principles of the technical and managerial aspects of business telecommunications. Basic concepts of telecommunication technology, TCP/IP architecture, LAN, WAN ZoS, client/server, security, wireless, issues related to the operational and strategic use of the technology, networked applications, and new developments in the area. Prerequisites: Management [MANGMT] 7410 and one other MIS course; graduate standing; departmental consent.

**MANGMT 8450. Information Resource Management. 3 Credits.**

Management issues and techniques involving information system/resource activities, with a focus on computer-based resources and IS development activities. Includes management of IS professionals and project teams, user relationships, emerging technologies, and planning processes. Prerequisite: completion of one required E-Commerce (Management [MANGMT] 8440, 8430) or IT (Management [MANGMT] 8460, 8001: Web Programming) MBA concentration course.

**MANGMT 8460. Systems Approach to Business Application Development. 3 Credits.**

Design and implementation of transaction-based business applications systems, utilizing structured analysis and design concepts. Course will emphasize database development and implementation and computer programming. Prerequisite: completion of or concurrent enrollment in Management [MANGMT] 7410.

**MANGMT 8470. Business Telecommunications. 3 Credits.**

Fundamental principles of the technical and managerial aspects of business telecommunication. Basic concepts of telecommunication technology, TCP/IP architecture, LAN, WAN, QoS, client/server, security, wireless, issues related to the operational and strategic use of the technology, networked applications, and new developments in the area. Prerequisites: Management [MANGMT] 7410 and one other MIS course; graduate standing; departmental consent.

**MANGMT 8480. Web Development. 3 Credits.**

An advanced introduction to the fundamentals of design, technology and project management aspects of developing websites. Several programming languages including HTML, CSS, JavaScript, CGI/Perl, PHP and ASP/VBScript and an introduction to Adobe Photoshop and Macromedia Dreamweaver. Requires Visual Basic knowledge. Prerequisites: graduate standing and Visual Basic knowledge; departmental consent.

**MANGMT 8510. Project Management. 1-3 Credit.**

An advanced introduction to methods and techniques for managing projects, with selective attention to human resource issues as required. Includes project breakdown analysis, task network scheduling, resource allocation, and assessment/evaluation of project performance. Prerequisite: graduate standing; departmental consent.

**MANGMT 8540. Entrepreneurial Ventures. 3 Credits.**

Analysis of management challenges facing entrepreneurial startups and alternative strategic responses to those challenges. Views issues from multiple functional perspectives to design cross-functional solutions to entrepreneurial problems. Prerequisites: graduate standing.

**MANGMT 8550. Launching a High-Growth Venture. 3 Credits.**

An experiential learning course using a business plan competition to simulate planning and securing capital for high-growth ventures. Participants with management, marketing or finance interests learn skills for preparing and presenting business plans to investors. Prerequisites: graduate standing.

**MANGMT 8560. Legal Strategies for Entrepreneurs. 3 Credits.**

The study of how legal decisions affect a business organization of various transitional states of development, from start up to going public. Designed for both MBA and Law students, who work together planning legal transitions of a business. Prerequisites: graduate standing.

**MANGMT 8970. Business Environment and Strategy. 3 Credits.**

Investigates alternative goals of business enterprises relative to internal resources and external environment; development and implementation of policies and strategies to achieve objectives. Cases, computer simulations, and/or field research may supplement published materials.

**MANGMT 9010. Research Methods in the Organization Sciences. 3 Credits.**

Identifying research questions, critiquing research ideas, planning, conducting, and communicating research using experimental, cross-sectional, survey and qualitative methods. Prerequisite: PhD student or instructor's consent.

**MANGMT 9020. Seminar in Micro Organizational Behavior. 3 Credits.**

Examination of theory and research on individuals within an organizational context, including individual perceptions, personality, attitudes, motivation, affect and behavior, and influences on outcomes such as job satisfaction and performance. Prerequisites: PhD students and instructor's consent.

**MANGMT 9030. Seminar in Macro Organizational Behavior. 3 Credits.**

This course is designated to introduce students to content areas within the organizational behavior literature. Topics in "macro" organizational behavior will be covered, including groups and teams, organizational culture, and national culture. We will also cover a number of topics outside of traditional organizational behavior topics, including negotiation and social conflict, creativity, empowerment, and other topics as the instructor sees fit. Readings will consist of a combination of recent and classic journal articles on the topics. Prerequisites: PhD Students and instructor's consent.

**MANGMT 9040. Seminar in Human Resource Management. 3 Credits.**

Intensive study of current research, issues and methodology of the applied science of human resource management. Topics include recruitment and selection, training, job performance and performance feedback, and career success. Prerequisites: PhD student or instructor's consent.

**MANGMT 9050. Seminar in Organization Theory. 3 Credits.**

Focuses on the organization as the subject of analysis with coverage of the effectiveness structure, environment, culture, and development of organizations. Prerequisites: PhD student or instructor's consent.

**MANGMT 9060. Seminar in Corporate Strategy. 3 Credits.**

The doctoral seminar in strategy focuses on the topics of strategy content research (what strategies are used by firms, and what is their effect on performance, corporate and competitive strategy, etc.) but also considering important related research streams of strategy process and implementation. Prerequisites: PhD student or instructor's consent.

**MANGMT 9080. Seminar in Entrepreneurship. 3 Credits.**

The doctoral seminar in Entrepreneurship is intended to provide students with a broad coverage of the literature. It focuses on the foundations and "cutting edge" research in entrepreneurship content research. Topics covered in the course include: a theoretical overview of entrepreneurship, identification of opportunities, the decision to exploit opportunities, resource assembly and new markets, founders and entrepreneurial teams, venture capital and venture capitalists, entrepreneurship and efficient governance, initial public offerings (IPOs), new ventures (strategy, growth, performance), entrepreneurial networks and alliances, and international entrepreneurship. Prerequisites: PhD student or instructor's consent.

**MANGMT 9087. Seminar in Management. 1-99 Credit.**

Intensive studies of current research and issues. Readings, independent investigations, reports. Prerequisites: open to Ph.D. students, or instructor's consent.

**MANGMT 9090. Research in Management. 1-99 Credit.**

Thesis research for Ph.D. degree. Graded on a S/U basis only.

**MANGMT 9101. Topics Seminar in Management. 1-3 Credit.**

Reading and critical evaluation of selected current management literature and research. Prerequisites: Ph.D. students only. May be repeated.

## Marketing (MRKTNG)

---

**MRKTNG 3000. Principles of Marketing. 3 Credits.**

Institutions, processes, and problems involved in producing and transferring goods and services from producer to consumers; emphasis on economics and social aspects. Prerequisites: 45 semester hours; Economics [ECONOM] 1014, 1024 or 1051.

**MRKTNG 3000H. Principles of Marketing - Honors. 3 Credits.**

Institutions, processes, and problems involved in producing and transferring goods and services from producer to consumers; emphasis on economics and social aspects. Prerequisites: 45 semester hours; Economics [ECONOM] 1014, 1024 or 1051. Honors eligibility required.

**MRKTNG 3901. Special Topics in Marketing. 1-3 Credit.**

Study of a selected topic in Marketing in a course taken for credit as part of an organized study abroad program. May be repeated for credit. Graded on S/U basis only.

**MRKTNG 3942. International Business Internship. 1-3 Credit.**

Internship in an international setting; Marketing Independent Study Coordinator must approve internship plan. Student and mentor reports required. See Marketing website for request form, internship requirements and details. Prerequisite: departmental consent; Marketing [MRKTNG] 3000. Graded on S/U basis only.

**MRKTNG 3975. Current Issues in International Marketing. 1-3 Credit.**

Study of current issues and practices in international marketing in a course taken for credit as part of an organized study abroad program. May be repeated for credit. Graded on S/U basis only.

**MRKTNG 3985. Problems in International Business. 3 Credits.**

Independent study associated with a course taken for credit as part of an organized study abroad program. See Marketing website for request form. Prerequisite: departmental consent; Marketing [MRKTNG] 3000. Graded on S/U basis only.

**MRKTNG 4000. Marketing Management. 3 Credits.**

Further examination of marketing issues: market analysis, market research, positioning, products, pricing, promotion, distribution, relationship management, other topics. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4000H. Marketing Management - Honors. 3 Credits.**

Further examination of marketing issues: market analysis, market research, positioning, products, pricing, promotion, distribution, relationship management, other topics. Prerequisites: Marketing [MRKTNG] 3000 and junior standing. Honors eligibility required.

**MRKTNG 4050. Marketing Research. 3 Credits.**

Procedures for defining marketing research problems; specifying information requirements; collecting, analyzing, interpreting, and presenting data for use in marketing decision making. Utilizes student projects and research-related computer assignments. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000, Statistics [STAT] 3500 and junior standing.

**MRKTNG 4185. Problems in Marketing. 1-3 Credit.**

In-depth independent study of marketing topic(s). Student must have course plan (assignments, evaluation criteria, etc.) approved by faculty sponsor. Contact Marketing Department office for details and enrollment permission. Selected sections of this course may be graded either on A/F or S/U basis only. Prerequisite: departmental consent, Marketing [MRKTNG] 3000, and junior standing.

**MRKTNG 4201. Topics in Marketing. 3 Credits.**

Selected marketing-related topics. Subjects may vary across semesters. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4220. Consumer Behavior. 3 Credits.**

Dimensions of the consumer market and decision-making process of consumers; analyzing economic, psychological and socio-psychological influences on consumer market and buying behavior. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4220H. Consumer Behavior - Honors. 3 Credits.**

Dimensions of the consumer market and decision-making process of consumers; analyzing economic, psychological and socio-psychological influences on consumer market and buying behavior. Prerequisites: Marketing [MRKTNG] 3000 and junior standing. Honors eligibility required.

**MRKTNG 4250. Retail Marketing. 3 Credits.**

Strategies, policies, tactics, and procedures of marketing in a retailing environment. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4250H. Retail Marketing - Honors. 3 Credits.**

Strategies, policies, tactics, and procedures of marketing in a retailing environment. Prerequisite: Marketing [MRKTNG] 3000 and junior standing. Honors eligibility required.

**MRKTNG 4350. Business-to-Business Relationships. 3 Credits.**

Strategies, tactics, and challenges involved in developing, organizing, and managing interfirm relationships in business/ industrial markets. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4380. Buying and Supply Chain Management. 3 Credits.**

Strategies, tactics, challenges, and issues involved in buying, industrial purchasing, and supply chain management. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4410. Personal Selling. 3 Credits.**

Modern selling methods that focus on solving customer problems rather than using manipulative techniques. Principles underlying the sale process. Practical methods for building long-term customer relationships in business-to-business contexts are emphasized. Graded on A/F basis only. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4420. Sales Management. 3 Credits.**

Methods and tools employed by salespeople and field sales managers; emphasis on underlying behavioral and quantitative theory. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4440. Services Marketing. 3 Credits.**

Challenges, problems, and strategies specific to marketing in service industries. Topics include the unique characteristics of services and managing service-oriented businesses; service design and service recovery; service quality and customer satisfaction service pricing issues and demand management; and management of service customers and employees. Graded on A/F basis only. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with an emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4450. Marketing Channels. 3 Credits.**

Development and management of the interorganizational or internal networks through which goods and services are provided to consumer and business markets. Particular emphasis on the relationship between channel activities and the implementation of market strategy. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4501. Topics in Marketing Strategies. 1-3 Credit.**

Selected topics related to marketing strategy. Subjects may vary across semesters. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing,

or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000, junior standing.

**MRKTNG 4550. Integrated Marketing Communications. 3 Credits.**

Design, coordination, and management of marketing communications. Focus on the role of integrated marketing communications in the overall marketing process, with emphasis on advertising and sales promotion strategies and tactics. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4650. e-Marketing. 3 Credits.**

Strategic and managerial challenges and issues related to use of the Internet and other electronic channels as marketing tools. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4720. Global Marketing. 3 Credits.**

Strategic and managerial issues associated with international trade and international marketing. During early registration, some section may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4720H. Global Marketing - Honors. 3 Credits.**

Strategic and managerial issues associated with international trade and international marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing. Honors eligibility required.

**MRKTNG 4750. Marketing, Society, and Government. 3 Credits.**

Interface between marketing, society, and government; emphasis on potential conflicts and issues such as competition, externalities, and regulation. During early registration, some sections may be restricted to College of Business students with an emphasis in Marketing, or International Business with emphasis in Marketing. Prerequisite: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4880. Contemporary Issues in Marketing. 3 Credits.**

Selected topical issues, their impact on marketing and marketers, and implications for firms and industries. Emphasis on scanning the external environment, projection of trends, and analysis; strategy development based on environmental analysis. During early registration, some sections may be restricted to College of Business students with emphasis in Marketing, or International Business with emphasis on marketing. Prerequisites: Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 4880H. Contemporary Issues in Marketing - Honors. 3 Credits.**

Selected topical issues, their impact on marketing and marketers, and implications for firms and industries. Emphasis on scanning the external environment, projection of trends, and analysis; strategy development based on environmental analysis. Prerequisites: Marketing [MRKTNG] 3000 and junior standing. Honors eligibility required.

**MRKTNG 4940. Marketing Practicum. 3 Credits.**

Course providing experience within ongoing business. Study plan, meeting, and written assignments required. See Marketing website for application, qualifications, requirements and details. Graded on S/U basis only. Prerequisites: instructor's consent; Marketing and international business-marketing majors only; Marketing [MRKTNG] 3000 and junior standing.

**MRKTNG 7201. Topics in Marketing. 1-99 Credit.**

The study of selected topics in Marketing. Subjects may vary from semester to semester. Prerequisites: Marketing [MRKTNG] 3000 and graduate standing or instructor's consent; departmental consent for repetition.

**MRKTNG 7460. Managerial Marketing. 1-3 Credit.**

Introduces concepts and theories for marketing decision making. Provides an overview of principles and tools to analyze and understand marketing situations in order to develop and execute appropriate marketing initiatives. MBA Program consent required.

**MRKTNG 7470. Advanced Marketing Management. 1-3 Credit.**

Develops knowledge and skills to manage marketing activities at the strategic and tactical levels. Course utilizes case studies, interactive class exercises, and advanced marketing readings. Students will learn to apply relevant concepts for effective marketing strategy development, marketing planning, and implementation of marketing mix decisions. Prerequisite: MBA program consent required; Marketing [MRKTNG] 7460.

**MRKTNG 8001. MBA Topics in Marketing. 1-3 Credit.**

Advanced study of selected marketing-related topics. Subjects vary across semesters. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8050. Marketing Strategy. 1-3 Credit.**

Builds on the foundations of Marketing [MRKTNG] 7460. This course focuses on how a firm can formulate a market-driven business strategy in a competitive environment and the planning and implementation of marketing programs based on this strategy. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8060. Competitive Marketing Strategy. 1-3 Credit.**

Builds on the foundations of Marketing [MRKTNG] 7460 and 7470. Focuses on quantitative market intelligence-based design, execution, and adaptation of a market-drive business strategy to improve a firm's financial performance over time in a competitive environment. Uses a competitive, multi-period, marketing simulation game in which students are assigned to manage one of several firms competing in an industry. Prerequisite: MBA Program consent required; Marketing [MRKTNG] 7460 and 7470. Cannot receive credit for both Marketing [MRKTNG] 8050 and 8060.

**MRKTNG 8070. Marketing Business Models. 1-3 Credit.**

Builds on the foundations of Marketing [MRKTNG] 7460 and 7470. Focuses on the formulation and analysis of marketing strategy and contemporary business models for creating and capturing value in different industries such as consumer goods, services, retailing, media, sports, entertainment, and online businesses. Business revenue and profit models will be evaluated in conjunction with marketing performance. Prerequisite: MBA Program consent required, Marketing [MRKTNG] 7460 and 7470. Cannot receive credit for both Marketing [MRKTNG] 8050 and 8070.

**MRKTNG 8085. MBA Independent Study in Marketing. 1-3 Credit.**

Advanced independent study of marketing topics(s). Student must have a course plan (assignments, evaluation criteria, etc.) approved by a marketing faculty member. Prerequisites: departmental and MBA Program consent required; Marketing [MRKTNG] 7460, 7470. Graded on S/U basis only.

**MRKTNG 8220. Customer Analysis. 1-3 Credit.**

Concepts and approaches for understanding customer needs and wants. Emphasis is on analyzing and predicting customer responses to marketing actions. Prerequisites: MBA program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8280. Research for Marketing Decisions. 1-3 Credit.**

Methods for generating and using information related to marketing decisions. The course is aimed at the manager who designs, conducts, and/or uses the research. Emphasizes the design of research studies to inform managers' decisions and techniques for gathering and analyzing primary and secondary data. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8350. Business-to-Business Marketing. 1-3 Credit.**

Advanced study of the marketing of goods and services to business customers; customer relationship management, and functionally integrated approaches to solving business problems. Prerequisite: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8420. Sales Force Management. 1-3 Credit.**

Basic tasks of sales management as well as the application of theories and concepts to effectively manage that function. Topics covered include salesperson effectiveness, deployment, motivation, organizational design, compensation and evaluation. Prerequisites: Marketing [MRKTNG] 7460; MBA Program consent required.

**MRKTNG 8480. Relationship Marketing. 1-3 Credit.**

Focuses on the development of relationship marketing strategies and programs. The course examines relevant business models, the concept of customer lifetime value and financial as well as behavioral aspects of managing customer relationships. Database marketing methods and interactive tools for profitably managing customer relationships are also discussed. Prerequisites: Marketing [MRKTNG] 7460; MBA Program consent required.

**MRKTNG 8520. Services Marketing. 1-3 Credit.**

Focuses on service marketing problems and strategies of goods and service organizations. Subjects covered include the nature of services, organizing for service delivery, managing demand, tailoring the customer mix and managing supply. Prerequisites: Marketing [MRKTNG] 7460; MBA Program consent required.

**MRKTNG 8580. Product Management. 1-3 Credit.**

Focus is on new product/service decisions and development processes. Discussion emphasized analytical approaches to new product portfolio decisions and the research needed as input to such decisions. Program strategy, opportunity creation, concept development, product testing, demand estimation, and results evaluation are stressed. Prerequisites: Marketing [MRKTNG] 7460; MBA Program consent required.

**MRKTNG 8620. Marketing Decision Models. 1-3 Credit.**

Quantitative tools and models used to analyze and solve marketing problems. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8650. Digital Marketing. 1-3 Credit.**

The use of the Internet and other electronic channels as marketing tools. Emphasis on integration of digital interactions and communication into the overall marketing strategy. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8680. Database Marketing. 1-3 Credit.**

A quantitatively-oriented, hands-on course regarding the use of customer data for making decisions about marketing campaigns and targeting of

individual customers. Concepts and applications in this course emphasize statistical analysis of large datasets involving customer records. The analytical and statistical programming skills learned in the course should be useful in any data-oriented business environment. Graded on A/F basis only. Prerequisites: MBA Program consent required, Marketing [MRKTNG] 7460, 7470, Management [MANGMT] 7400, 7420, and 7470.

**MRKTNG 8720. International Marketing. 1-3 Credit.**

Strategic and managerial issues associated with international trade and international marketing. The course focuses on managerial decision making in the differing and complex environments across foreign markets, alternative methods by which firms enter foreign markets and the development and implementation of international marketing strategies. Prerequisites: MBA Program consent required and Marketing [MRKTNG] 7460.

**MRKTNG 8750. Brand Management. 1-3 Credit.**

Focuses on the creation and execution of profitable brand strategies. Examines the practice of branding, the key components of brand equity, and how firms can build and sustain successful brands in competitive markets. Prerequisite: MBA Program consent required, MRKTNG 7460 and Marketing [MRKTNG] 7470.

**MRKTNG 8760. Marketing Engineering. 1-3 Credit.**

A systematic, analytical approach to marketing decision-making. Students will be able to build their analytical skills through a combination of lectures, Excel-based software tools, and business case studies. Emphasis is on hands-on approaches for solving real-world marketing problems in domains such as segmentation, targeting, positioning, and resource allocation. The course will help students understand the financial impact of marketing expenditures including ROI assessment. Graded on A/F basis only. Prerequisites: MBA Program consent required, Marketing [MRKTNG] 7460, 7470 and Management [MANGMT] 7400.

**MRKTNG 8770. Marketing Databases and SQL. 1-3 Credit.**

A user/analyst perspective to relational databases used in marketing applications. Fundamentals of relational databases, including database concepts, table design, views, normalization, and security. Hands-on training in SQL (Structured Query Language) on database tables and views to retrieve, change, join, filter, sort, group, and summarize data. Data analysis with SQL and Excel combined. Presentation of SQL results sets. Prerequisites: MBA program consent required, Management [MANGMT] 7410. Course graded on A/F basis only. Graduate Standing Required.

**MRKTNG 8780. Advanced Marketing Analytics. 1-3 Credit.**

Analytical methods for solving marketing problems. Emphasis on use of multivariate statistical techniques (e.g. regression models, time series models, principal components analysis, cluster analysis, discriminant analysis, ANOVA, survival/duration models, etc.) to aid marketing tasks and decisions in areas such as customer classification, segmentation, profiling, and targeting; prospecting with archival data; customer response to marketing interventions; customer acquisition/retention tactics; customer relationship management (CRM); sales forecasting; media allocation decisions; market basket analysis; etc. Graded on an A-F basis only. Prerequisites: MBA program consent required, MRKTNG 8680.

**MRKTNG 8880. Markets in Transition. 1-3 Credit.**

Analysis of selected industries with emphasis on marketing activities and environments. Particular emphasis given to forecasting major trends or changes anticipated in markets over the next decade. Prerequisite:

Business Administration [BUS\_AD] 7460 or equivalent; consent of MBS program required.

**MRKTNG 9010. Introduction to Research Methods in Marketing. 1-3 Credit.**

Introduces students to the research process. Examines philosophy of science, constructs and measurement issues regarding validity, and hypothesis-testing. Provides an overview of experimental and survey research methods, with introduction to qualitative research, model-building, and research using secondary data. Prerequisites: Ph.D. students only; instructor's consent.

**MRKTNG 9020. Seminar in Advanced Research Methods in Marketing. 1-3 Credit.**

Familiarizes students with advanced research methods in marketing, emphasizing problem developmental and conceptualization, operationalization of research questions, measurement, and survey research. Prerequisites: Marketing [MRKTNG] 9010 or equivalent; Ph.D. students only; instructor's consent.

**MRKTNG 9030. Seminar in Applied Multivariate Analysis in Marketing. 1-3 Credit.**

Familiarizes students with multivariate analysis of data used for research in marketing. Emphasizes application of multivariate methods, presentation of set, performing preliminary assessment of data quality and distribution, assessing measurement quality, and conducting a variety of multivariate and structural equation models, regression, logistic regression, discriminate analysis, cluster analysis, multi-way frequency analysis, and ANOVA. Prerequisites: basic course in multivariate statistical methods; Ph.D. students only; instructor's consent.

**MRKTNG 9090. Research in Marketing. 1-99 Credit.**

Thesis research for Ph.D. degree. Graded on a S/U basis only. Prerequisite: Ph.D. students only.

**MRKTNG 9101. Current Topics Seminar in Marketing. 1-3 Credit.**

Reading and critical evaluation of selected current marketing literature and research. Graded on S/U basis only. Prerequisites: Ph.D. students only. May be repeated.

**MRKTNG 9185. Doctoral Independent Study in Marketing. 1-3 Credit.**

Independent study of a marketing topic or research project. Arranged in consultation with a graduate faculty member. Prerequisite: Ph.D. students only; instructor's consent. Graded on S/U basis only.

**MRKTNG 9210. Seminar in Marketing Strategy. 1-3 Credit.**

Focuses on research topics that pertain to strategic marketing programs and decisions, such as marketing productivity, services marketing, product innovation management, and pricing, among others. Coverage is also given to defining the domain of research in marketing and to the development and use of related theories. Prerequisites: Ph.D. students only; instructor's consent.

**MRKTNG 9220. Seminar Marketing Models. 1-3 Credit.**

Familiarizes students with quantitative modeling approaches to address a variety of marketing problems. The focus is on the nature, relevance, and properties of mathematical models and analytical methods that are employed to address various types of marketing decisions. Students will gain an understanding of the process of model-building, testing and implementation. Prerequisites: Ph.D students only; instructor's consent.

**MRKTNG 9230. Seminar in Consumer Behavior. 1-3 Credit.**

Exposes doctoral students to perspectives on consumer behavior that draw from a variety of disciplines, including marketing, psychology, decision theory, sociology, and cultural anthropology. Students

also learn about the different methods researchers employ to study consumers. Covers both classic and contemporary literature. Students are encouraged to evaluate and synthesize existing literature in the pursuit of new research ideas. Prerequisites: Ph.D. students only; instructor's consent.

**MRKTNG 9600. Seminar in Marketing. 1-3 Credit.**

Readings, independent investigations and reports. May be repeated. Prerequisite: Ph.D. students only.

## Mathematics (MATH)

---

**MATH\_0110. Intermediate Algebra. 3 Credits.**

Mathematics [MATH] 0110 is a preparatory course for college algebra that carries no credit towards any baccalaureate degree. However, the grade received in Mathematics [MATH] 0110 does count towards a student's overall GPA. The course covers operations with real numbers, graphs of functions, domain and range of functions, linear equations and inequalities, quadratic equations; operations with polynomials, rational expressions, exponents and radicals; equations of lines. Emphasis is also put on problem-solving. Prerequisites: Elementary College Algebra or equivalent. Placement in Mathematics [MATH] 0110 based on the student's ACT math score or equivalent, in addition to other criteria.

**MATH 1100. College Algebra. 3 Credits.**

A review of exponents, order of operations, factoring, and simplifying polynomial, rational, and radical expressions. Topics include: linear, quadratic, polynomial, rational, inverse, exponential, and logarithmic functions and their applications. Students will solve equations involving these functions, and systems of linear equations in two variables, as well as inequalities. Prerequisite: Mathematics [MATH] 0110 or a sufficient score on the ALEKS exam. This course is offered in both 3 day and 5 day versions. See the math placement website for specific requirements. A student may receive at most 5.0 credit hours among the Mathematics courses 1100, 1120, 1140, and 1160.

**MATH 1140. Trigonometry. 2 Credits.**

Prerequisite: Math [MATH] 1100 or sufficient ALEKS score. A student may receive only 5 credits from among Math [MATH] 1100, Math [MATH] 1140, and Math [MATH] 1160. A Student may receive at most 5.0 credit hours from the Mathematics courses 1100, 1120, 1140, and 1160.

**MATH 1160. Precalculus Mathematics. 5 Credits.**

Review of elementary algebra. Background material for Mathematics 1500, including algebraic, trigonometric, logarithmic, exponential functions. Prerequisites: B+ or better in Math [MATH] 0110 (at MU), or Math 1100, or sufficient ALEKS score. A student may receive at most 5 credits from among Math [MATH] 1100, Math [MATH] 1140, and Math [MATH] 1160. A student may receive at most 5 credit hours from among the Mathematics courses 1100, 1120, 1140, and 1160.

**MATH 1300. Finite Mathematics. 3 Credits.**

A selections of topics in finite mathematics such as: basic financial mathematics, counting methods and basic probability and statistics, systems of linear equations and matrices. Prerequisites: Math [MATH] 1100, or Math [MATH] 1160, or both a College Algebra exemption and sufficient ALEKS score. Warning: without a College Algebra exemption, a sufficient ALEKS score will not suffice unless it is a proctored exam (for Math [MATH] 1100 credit).

**MATH 1320. Elements of Calculus. 3 Credits.**

Introductory analytic geometry, derivatives, definite integrals. Primarily for Computer Science BA candidates, Economics majors, and students preparing to enter the College of BUS. No credit for students who have completed a calculus course. Prerequisite: Math [MATH] 1100, or Math [MATH] 1160, or sufficient ALEKS score. A student may receive credit for Math [MATH] 1320 or 1400, but not both. A student may receive at most 5 credit hours among the Mathematics courses 1320 or 1400 and 1500.

**MATH 1360. Geometric Concepts. 3 Credits.**

This course is primarily for education majors. This course covers topics of Euclidean geometry such as the study of points, lines, angles, polygons, circles, congruence, similarity, transformations, symmetry, area, surface area, arc length, and volume. Polyhedra, spheres, cones, and other solids are discussed. The course includes constructions and proofs, and uses inductive and deductive reasoning throughout. Prerequisite: Mathematics [MATH] 1100 or 1120 or equivalent. Math Reasoning Proficiency Course.

**MATH 1400. Calculus for Social and Life Sciences I. 3 Credits.**

The real number system, functions, analytic geometry, derivatives, integrals, maximum-minimum problems. No credit for students who have completed a calculus course. Prerequisite: grade of C- or better in Mathematics [MATH] 1100 or 1160, or sufficient ALEKS score. A student may receive credit for Mathematics [MATH] 1320 or 1400 but not both. A student may receive at most 5 units of credit among the Mathematics [MATH] 1320 or 1400 and 1500. Math Reasoning Proficiency Course.

**MATH 1500. Analytic Geometry and Calculus I. 5 Credits.**

Elementary analytic geometry, functions, limits, continuity, derivatives, antiderivatives, definite integrals. Prerequisite: grade of C- or better in Mathematics [MATH] 1160 or both 1100 and 1140 or sufficient ALEKS score. A student may receive at most 5 units of credit among the Mathematics [MATH] courses 1320 or 1400 and 1500. Math Reasoning Proficiency Course.

**MATH 1500H. Analytic Geometry and Calculus I - Honors. 5 Credits.**

Elementary analytic geometry, functions, limits, continuity, derivatives, antiderivatives, definite integrals. Prerequisites: Mathematics [MATH] 1160 or both 1100 and 1140 sufficient ALEKS score. Honors eligibility required. A student may receive at most 5 units of credit among the Mathematics [MATH] courses 1320 or 1400 and 1500. Math Reasoning Proficiency course.

**MATH 1601. Selected Topics in Mathematics-General. 1-3 Credit.**

The special topics covered may vary from term to term. This course may be repeated. Prerequisite: instructor's consent.

**MATH 1602. Selected Topics in Mathematics-Biological/Physical/Math. 1-3 Credit.**

The special topics covered may vary from term to term. This course may be repeated. Prerequisite: instructor's consent.

**MATH 1700. Calculus II. 5 Credits.**

Definite integrals, applications and techniques of integration, elementary transcendental functions, infinite series. Prerequisite: a grade of C- or better in Mathematics [MATH] 1500. Math Proficiency Reasoning course.

**MATH 1700H. Calculus II - Honors. 5 Credits.**

Definite integrals, applications and techniques of integration, elementary transcendental functions, infinite series. Prerequisite: a grade of C- or better in Mathematics [MATH] 1500. Honors eligibility required. Math Reasoning Proficiency course.

**MATH 1800. Introduction to Analysis I. 5 Credits.**

This course will cover the material taught in a traditional first semester calculus course at a more rigorous level. The focus of this course will be on proofs of basic theorems of differential and integral calculus. The topics to be covered include axioms of arithmetic, mathematical induction, functions, graphs, limits, continuous functions, derivatives and their applications, integrals, the fundamental theorem of calculus and trigonometric functions. Students in this class will be expected to learn to write clear proofs of mathematical assertions. Some previous exposure to calculus is helpful but not required. No credit for Mathematics [MATH] 1800 and 1320, 1400 or 1500. Prerequisites: ACT mathematics score of at least 31 and ACT composite of at least 30 or instructor's consent. Graded on A/F basis only.

**MATH 1900. Introduction to Analysis II. 5 Credits.**

This course is a continuation of Mathematics [MATH] 1800. In this course we shall cover uniform convergence and uniform continuity, integration, and sequences and series. The topics will be covered in a mathematically rigorous manner. No credit for Mathematics [MATH] 1900 and 1700 or 2100. Prerequisite: MATH 1800 or instructor's consent. Graded on A/F basis only.

**MATH 2100. Calculus for Social and Life Sciences II. 3 Credits.**

Riemann integral, transcendental functions, techniques of integration, improper integrals and functions of several variables. No credit for students who have completed two calculus courses. Prerequisites: Mathematics [MATH] 1320 or 1400 or 1500. Math Reasoning Proficiency Course.

**MATH 2140. Geometric Axioms and Structures. 3 Credits.**

Euclidean Geometry, Axiom systems, spherical geometry, finite geometries, and explorations with technology. Prerequisite: Mathematics [MATH] 1340 or 1360.

**MATH 2300. Calculus III. 3 Credits.**

Vectors, solid analytic geometry, calculus of several variables. Prerequisite: grade of C- or better in Mathematics [MATH] 1700. Mathematics Reasoning Proficiency.

**MATH 2300H. Calculus III - Honors. 3 Credits.**

Vectors, solid analytic geometry, calculus of several variables. Prerequisite: grade of C or better in Mathematics [MATH] 1700. Honors eligibility required. Math Proficiency course.

**MATH 2320. Discrete Mathematical Structures. 3 Credits.**

Sets, functions, logic, relations, induction, recursion, counting techniques, graphs, trees, algorithms. Prerequisites: one of Mathematics [MATH] 1700, 2340, or 2140. Math Reasoning Proficiency course.

**MATH 2340. Algebraic Structures. 3 Credits.**

Introduction to axiomatic mathematics with emphasis on rings and groups. Applications to elementary number theory. Prerequisite: Mathematics [MATH] 1300 and 1320 or instructor's consent.

**MATH 3000. Introduction to Advanced Mathematics. 3 Credits.**

Gateway to theoretical math courses. Focus on reading and writing math proofs/rigorously developing background needed in Adv Calc/Abstract Alg. Topics include logic, set theory, properties of functions and integers, the real number system, completeness of the real numbers, sequences of real numbers. Prerequisite: Mathematics [MATH] 1700 or permission of the instructor/department.

**MATH 4001. Topics in Mathematics-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: Mathematics [MATH] 2300 and instructor's consent. Departmental consent for repetition.

**MATH 4002. Topics in Mathematics-Biological/Physical/Math. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: Mathematics [MATH] 2300 and instructor's consent. Departmental consent for repetition.

**MATH 4060. Connecting Geometry to Middle and Secondary Schools. 3 Credits.**

Euclidean foundations, logic, Euler Characteristic, congruence, area, Pick's Theorem, volume, Cavalieri's Principle, surface area, similarity, symmetry, transformations, matrices, introduction to spherical geometry. Prerequisites: Mathematics [MATH] 1360 or 1500.

**MATH 4070. Connecting Algebra to Middle and Secondary Schools. 3 Credits.**

A detailed study of integer and rational arithmetic and algebra. Topics include: Binomial Theorem, induction, division algorithm, Euclid's Algorithm, Fundamental Theorem of Arithmetic, Pythagorean triples, modular arithmetic and generalizations to polynomials, matrices and other axiomatic structures. Prerequisite: Mathematics [MATH] 1320, enrollment is restricted to Math Education majors.

**MATH 4080. Calculus Connections. 3 Credits.**

Course topics include: sequences, series, functions, limits, continuity, differentiation, optimization, curve sketching, antidifferentiation, areas of plane regions, lengths of plane curves, areas of surfaces of revolution, and volumes of solids. Prerequisites: Mathematics [MATH] 1160, enrollment is restricted to Math Education majors.

**MATH 4100. Differential Equations. 3 Credits.**

Traditional introductory course in ordinary differential equations. Includes 1st and 2nd order linear differential equations with numerous applications; Laplace transforms; power series solutions; numerical methods, linear systems. Prerequisite: Grade of C- or above in Mathematics [MATH] 2300.

**MATH 4110. Advanced Calculus With Applications. 3 Credits.**

Linear mappings, Jacobi matrices and determinants, change of variables, vector fields, line and surface integrals, theorems of Green, Gauss and Stokes, sequences and series of functions, uniform convergence, special functions. Prerequisite: Mathematics [MATH] 2300.

**MATH 4120. Combinatorics. 3 Credits.**

Study of a variety of topics from combinatorial mathematics, especially graph theory and enumerative combinatorics. Topics include graph coloring, matchings and coverings, generating functions, recurrence relations, Polya's Enumeration Theorem, introduction to Ramsey theory. Prerequisites: Mathematics [MATH] 2320, or instructor's consent.

**MATH 4140. Matrix Theory. 3 Credits.**

Basic properties of matrices, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and Jordan normal forms. Introduction to writing proofs. Prerequisite: Grade of C- or better in Mathematics [MATH] 2300 or 2320.

**MATH 4150. History of Mathematics. 3 Credits.**

This is a history course with mathematics as its subject. Includes topics in the history of mathematics from early civilizations onwards. The growth of mathematics, both as an abstract discipline and as a subject which

interacts with others and with practical concerns, is explored. Pre- or Co-requisite: Mathematics [MATH] 2300 or 2340.

**MATH 4300. Numerical Analysis. 3 Credits.**

Machine arithmetic, approximation and interpolation, numerical differentiation and integration, nonlinear equations, linear systems, differential equations, error analysis. Selected algorithms will be programmed for solution on computers. Prerequisites: Grade of C- or better in Mathematics [MATH] 2300 and 4100.

**MATH 4310. Numerical Linear Algebra. 3 Credits.**

Solution of linear systems of equations by direct and iterative methods. Calculation of eigenvalues and eigenvectors of matrices. Selected algorithms programmed for solution on computers. Prerequisites: Mathematics [MATH] 2300 and familiarity with software such as Mathematica, MatLab, Maple, etc.

**MATH 4315. Introduction to Mathematical Statistics. 3 Credits.**

(same as Statistics [STAT] 4710). Introduction to theory of probability and statistics using concepts and methods of calculus. Prerequisites: Mathematics [MATH] 2300 or instructor's consent.

**MATH 4320. Introduction to Probability Theory. 3 Credits.**

(same as Statistics [STAT] 4750). Probability spaces; random variables and their distributions; repeated trials; probability limit theorems. Prerequisites: Mathematics [MATH] 2300 or instructor's consent.

**MATH 4325. Linear Programming. 3 Credits.**

Linear dependence and rank in vector spaces in  $R^n$ , Farkas' Lemma, Polyhedral Decomposition. Strong duality and complementary theorems. The simplex method, revised simplex, and sensitivity analysis. Primal Dual simplex method and network simplex methods. Computational Complexity and Karmarkar's Algorithm. Prerequisites: Mathematics [MATH] 4140 or instructor's consent.

**MATH 4330. Theory of Numbers. 3 Credits.**

Divisibility, factorization, arithmetic functions, means value theorems, distribution of prime numbers, congruences, primitive roots, character theory, Riemann zeta function, and Dirichlet L-functions. Prerequisites: Mathematics [MATH] 2300; recommended 2320 or 2340, and 4940/7940.

**MATH 4335. College Geometry. 3 Credits.**

Euclidean geometry from an advanced viewpoint. Synthetic and coordinate methods will be used. The Euclidean group of transformations will be studied. Prerequisite: Mathematics [MATH] 2300.

**MATH 4340. Projective Geometry. 3 Credits.**

Basic ideas and methods of projective geometry built around the concept of geometry as the study of invariants of a group. Extensive treatment of collineations. Prerequisite: Mathematics [MATH] 2300.

**MATH 4345. Foundations of Geometry. 3 Credits.**

Coordination of affine, projective planes by means of various kinds of algebraic structures: planar ternary rings, Veblen-Wedderburn systems, divisions rings, skew fields, and fields. Prerequisite: Mathematics [MATH] 2300.

**MATH 4350. Introduction to Non-Euclidean Geometry. 3 Credits.**

Account of rise, development of non-Euclidean geometries. Intensive study of plane hyperbolic geometry. Prerequisite: Mathematics [MATH] 2300.

**MATH 4355. Investment Science I. 3 Credits.**

Deterministic cash flow streams. The present value. Bonds, bonds' yield, duration. The term structure of interest rates. Single-period random yield analysis. Random returns. Portfolio mean-variance analysis. Markovitz

model. Prerequisites: Mathematics [MATH] 2300 and either Statistics [STAT] 2500 or STAT 4710/ MATH 4315, or instructor's consent.

**MATH 4360. Actuarial Mathematics. 3 Credits.**

Basic actuarial methods, mathematical population studies and models of population growth. Compound interest and annuities certain. Values of endowment and annuities, calculation of premiums, surrender values. Stochastic models of populations growth. Prerequisite: Mathematics [MATH] 2300 and either Statistics [STAT] 2500 or STAT 4710/MATH 4315, or instructor's consent. No variable credit.

**MATH 4370. Actuarial Modeling I. 3 Credits.**

This course covers the concepts underlying the theory of interest and their applications to valuation of various cash flows, annuities certain, bonds, and loan repayment. This course is designed to help students prepare for Society of Actuaries exam FM (Financial Mathematics). It is oriented towards problem solving techniques applied to real-life situations and illustrated with previous exam problems. Prerequisites: grade of C-or better in Mathematics [MATH] 2300.

**MATH 4371. Actuarial Modeling II. 3 Credits.**

This course covers the actuarial models and their applications to insurance and other business decisions. It is a helpful tool in preparing for the Society of Actuaries exam M (Actuarial Models), and it is oriented towards problem solving techniques illustrated with previous exam problems. Prerequisites: Mathematics [MATH] 2300 and 4320 or Statistics [STAT] 4750. Students are encouraged to take MATH 4355 prior to this course.

**MATH 4400. Introduction to Topology. 3 Credits.**

Topics from topology of Euclidean spaces, generalizations to metric spaces and topological spaces. Fundamentals of point set topology. Prerequisite: Mathematics [MATH] 2300.

**MATH 4500. Applied Analysis. 3 Credits.**

Solution of the standard partial differential equations (wave, heat, Laplace's eq.) by separation of variables and transform methods; including eigenfunction expansions, Fourier and Laplace transform. Boundary value problems, Sturm-Liouville theory, orthogonality, Fourier, Bessel, and Legendre series, spherical harmonics. Prerequisite: Mathematics [MATH] 4100.

**MATH 4510. Higher Algebra. 3 Credits.**

Introduction to rings, integral domains, fields, groups. Prerequisites: Mathematics [MATH] 2300 or 2320.

**MATH 4520. Statistical Inference I. 3 Credits.**

(same as Statistics [STAT] 4760). Sampling; point estimation; sampling distribution; tests of hypotheses; regression and linear hypotheses. Prerequisite: Mathematics [MATH] 4320.

**MATH 4540. Mathematical Modeling I. 3 Credits.**

Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models. Prerequisites: 3 semesters of calculus and some exposure to ordinary differential equations or instructor's consent.

**MATH 4560. Nonlinear Dynamics, Fractals and Chaos. 3 Credits.**

Conceptual introduction to nonlinear dynamics, bifurcation and stability of steady states, chaos in nonlinear differential equations and maps, fractal dimension, strange attractors, and applications to physical science. Prerequisite: Mathematics [MATH] 4100/ 7100, 4140/7140, and familiarity with software such as MATHEMATICA, MATLAB, or MAPLE.

**MATH 4570. Fluid Dynamics. 3 Credits.**

Mathematical theory of fluid dynamics and applications. Prerequisites: Mathematics [MATH] 2300.

**MATH 4580. Mathematical Modeling II. 3 Credits.**

Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models. More general classes of problems than in Mathematics 4540 will be considered. Prerequisites: 3 semesters of calculus and some exposure to ordinary differential equations or instructor's consent. Mathematics [MATH] 4540 is not a prerequisite.

**MATH 4590. Investment Science II. 3 Credits.**

Derivative securities, forward and future contracts, forward prices, hedging. Mean-variance hedging. Stochastic models of asset dynamics, random walks and binomial models. Capital budgeting, optimal portfolios. Basic option theory, put-call parity. Prerequisite: Mathematics [MATH] 2300 and Statistics [STAT] 2500 or STAT 4710/MATH 4315, or instructor's consent. Recommended: MATH 4355. No variable credit.

**MATH 4700. Advanced Calculus of One Real Variable I. 3 Credits.**

Basic topology of the real line, numerical sequences and series, continuity, differentiability, Riemann integration, uniform convergence, power series. Prerequisite: Mathematics [MATH] 3000.

**MATH 4720. Introduction to Abstract Algebra I. 3 Credits.**

Basic properties of integers, fundamental theorem of arithmetic, introduction to groups, rings and fields. Prerequisite: Mathematics [MATH] 3000.

**MATH 4800. Advanced Calculus for One Real Variable II. 3 Credits.**

Continuation of Advanced Calculus for functions of a single real variable. Topics include sequences and series of functions, power series and real analytic functions, Fourier series. Prerequisites: Mathematics [MATH] 4700/7700 or permission of the instructor.

**MATH 4900. Advanced Multivariable Calculus. 3 Credits.**

This is a course in calculus in several variables. The following is core material: Basic topology of  $n$ -dimensional Euclidian space; limits and continuity of functions; the derivative as a linear transformation; Taylor's formula with remainder; the Inverse and Implicit Function Theorems, change of coordinates; integration (including transformation of integrals under changes of coordinates); Green's Theorem. Additional material from the calculus of several variables may be included, such as Lagrange multipliers, differential forms, etc. Prerequisite: Mathematics [MATH] 4700.

**MATH 4920. Introduction to Abstract Linear Algebra. 3 Credits.**

Study of vector spaces over arbitrary fields: topics include linear maps on finite dimensional vector spaces, bilinear and multi-linear forms, invariant subspaces and canonical forms. Prerequisite: Mathematics [MATH] 4720.

**MATH 4940. Introduction to Complex Variables. 3 Credits.**

Complex functions, contour integration, power series, residues and poles, conformal mapping. Prerequisites: Mathematics [MATH] 4110 or 4700.

**MATH 4960. Special Readings in Mathematics. 1-3 Credit.**

Prerequisites: Mathematics [MATH] 2300 and instructor's consent.

**MATH 4970. Senior Seminar in Mathematics. 3 Credits.**

Seminar with student presentations, written projects, and problem solving. May be used for the capstone requirement. Prerequisite: 12 hours of mathematics courses numbered 4000 or above.

**MATH 4980. Mathematics Problem Solving. 3 Credits.**

Creative advanced problem solving bringing together methods such as integration, probability and Euclidean geometry. Prerequisite: Mathematics [MATH] 4140 and another 4000 level Mathematics course, or instructor's consent.

**MATH 4996. Honors in Mathematics. 2 Credits.**

Special work for senior B.A. Honors and B.S. Honors candidates.

**MATH 7001. Topics in Mathematics-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: graduate standing and Mathematics [MATH] 2300 and instructor's consent. Departmental consent for repetition.

**MATH 7060. Connecting Geometry to Middle and Secondary Schools. 3 Credits.**

Euclidian foundations, basic concepts of symbolic logic, polyhedra, Euler Characteristic, congruence, area, Picks Theorem, volume, Cavalier's Principles, surface area, similarity, reflections, translations, rotations, symmetry, vectors, general transformations, determinants, matrices, transformations using matrices, brief introduction to spherical geometry. Prerequisite: Mathematics [MATH] 1360 or 1500, enrollment in restricted to Math Education majors.

**MATH 7070. Connecting Algebra to Middle and Secondary Schools. 3 Credits.**

A detailed study of integer and rational arithmetic and algebra. Topics include: Binomial Theorem, induction, division algorithm, Euclid's Algorithm, Fundamental Theorem of Arithmetic, Pythagorean triples, modular arithmetic and generalizations to polynomials, matrices and other axiomatic structures. Prerequisite: Mathematics [MATH] 1320, enrollment is restricted to Math Education majors.

**MATH 7080. Connect Calculus to Middle and Secondary Schools. 3 Credits.**

Course topics include: sequences, series functions, limits, continuity, differentiation, optimization, curve sketching, antidifferentiation, area of plane regions, lengths of plane curves, areas of surfaces of revolution, and volumes of solids, Prerequisite: Mathematics [MATH] 1160, enrollment is restricted to Math Education majors.

**MATH 7100. Differential Equations. 3 Credits.**

Traditional introductory course in ordinary differential equations. Includes 1st and 2nd order linear differential equations with numerous applications; Laplace transforms; power series solutions; numerical methods, linear systems. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7110. Advanced Calculus With Applications. 3 Credits.**

Linear mappings, Jacobi matrices and determinants, change of variables, vector fields, line and surface integrals, theorems of Green, Gauss and Stokes, sequences and series of functions, uniform convergence, special functions. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7140. Matrix Theory. 3 Credits.**

Basic properties of matrices, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and Jordan normal forms. Introduction to writing proofs. Prerequisite: graduate standing and one of Mathematics [MATH] 2300, 2320, 2120 or 2340.

**MATH 7150. History of Mathematics. 3 Credits.**

This is a history course with mathematics as its subject. Includes topics in the history of mathematics from early civilizations onwards. The growth

of mathematics, both as an abstract discipline and as a subject which interacts with others and with practical concerns, is explored. Pre- or Co-requisite: Mathematics [MATH] 2300 or 2340 and graduate standing.

**MATH 7300. Numerical Analysis. 3 Credits.**

Machine arithmetic, approximation and interpolation, numerical differentiation and integration, nonlinear equations, linear systems, differential equations, error analysis. Selected algorithms will be programmed for solution on computers. Prerequisites: graduate standing and Mathematics [MATH] 2300 and MATH 4100 or equivalent.

**MATH 7310. Numerical Linear Algebra. 3 Credits.**

Solution of linear systems of equations by direct and iterative methods. Calculation of eigenvalues and eigenvectors of matrices. Selected algorithms programmed for solution on computers. Prerequisites: graduate standing and Mathematics [MATH] 2300 and prior experience writing programs in Mathematica and /or in a computer language such as Fortran, Pascal, or C. Recommended: Mathematics [MATH] 4140.

**MATH 7315. Introduction to Mathematical Statistics. 3 Credits.**

(same as Statistics [STAT] 7710). Introduction to theory of probability and statistics using concepts and methods of calculus. Prerequisites: graduate standing and Mathematics [MATH] 2300 or instructor's consent.

**MATH 7320. Introduction to Probability Theory. 3 Credits.**

(same as Statistics [STAT] 7750). Probability spaces; random variables and their distributions; repeated trials; probability limit theorems. Prerequisites: graduate standing and Mathematics [MATH] 2300 or instructor's consent.

**MATH 7330. Theory of Numbers. 3 Credits.**

Divisibility, factorization, arithmetic functions, means value theorems, distribution of prime numbers, congruences, primitive roots, character theory, Riemann zeta function, and Dirichlet L-functions. Prerequisites: graduate standing and Mathematics [MATH] 2300; recommended 2320 or 2340, and 4940/7940.

**MATH 7335. College Geometry. 3 Credits.**

Euclidean geometry from an advanced viewpoint. Synthetic and coordinate methods will be used. The Euclidean group of transformations will be studied. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7340. Projective Geometry. 3 Credits.**

Basic ideas and methods of projective geometry built around the concept of geometry as the study of invariants of a group. Extensive treatment of collineations. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7345. Foundations of Geometry. 3 Credits.**

Coordination of affine, projective planes by means of various kinds of algebraic structures: planar ternary rings, Veblen-Wedderburn systems, division rings, skew fields, and fields. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7350. Introduction to Non-Euclidean Geometry. 3 Credits.**

Account of rise, development of non-Euclidean geometries. Intensive study of plane hyperbolic geometry. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7355. Investment Science I. 3 Credits.**

Deterministic cash flow streams. The present value. Bonds, bonds' yield, duration. The term structure of interest rates. Single-period random yield analysis. Random returns. Portfolio mean-variance analysis. Markovitz model. Prerequisites: Mathematics [MATH] 2300 and either Statistics

[STAT] 2500 or Statistics [STAT] 4710/Mathematics [MATH] 4315, or instructor's consent.

**MATH 7360. Actuarial Mathematics. 3 Credits.**

Basic actuarial methods, mathematical population studies and models of population growth. Compound interest and annuities certain. Values of endowment and annuities, calculation of premiums, surrender values. Stochastic models of populations growth. Prerequisite: Mathematics [MATH] 2300 and either Statistics [STAT] 2500 or Statistics [STAT] 4710/Mathematics [MATH] 4315, or instructor's consent. No variable credit.

**MATH 7370. Actuarial Modeling I. 3 Credits.**

This course covers the main probability tools applied to financial risk modeling, and the financial mathematics concepts used in calculating present and accumulated values for various cash flows. It is a helpful tool in preparing for the Society of Actuaries exams P (Probability) and FM (Financial Mathematics), and it is oriented towards problem solving techniques illustrated with previous exam problems. Prerequisites: Mathematics [MATH] 2300, Mathematics [MATH] 4320/Statistics [STAT] 4750. Students are encouraged to take Mathematics [MATH] 4355 prior to this course.

**MATH 7371. Actuarial Modeling II. 3 Credits.**

This course covers the actuarial models and their applications to insurance and other business decisions. It is a helpful tool in preparing for the Society of Actuaries exam (M) (Actuarial Models), and it is oriented towards problem solving techniques illustrated with previous exam problems. Prerequisites: Mathematics [MATH] 2300, Mathematics [MATH] 4320/Statistics [STAT] 4750. Student are encouraged to take Mathematics [MATH] 4355 prior to this course.

**MATH 7400. Introduction to Topology. 3 Credits.**

Topics from topology of Euclidean spaces, generalizations to metric spaces and topological spaces. Fundamentals of point set topology. Prerequisite: graduate standing and Mathematics [MATH] 2300.

**MATH 7500. Applied Analysis. 3 Credits.**

Solution of the standard partial differential equations (wave, heat, Laplace's eq.) by separation of variables and transform methods; including eigenfunction expansions, Fourier and Laplace transform. Boundary value problems, Sturm-Liouville theory, orthogonality, Fourier, Bessel, and Legendre series, spherical harmonics. Prerequisite: graduate standing and Mathematics [MATH] 4100/7100.

**MATH 7510. Higher Algebra. 3 Credits.**

Introduction to rings, integral domains, fields, groups. Prerequisites: graduate standing and Mathematics [MATH] 2300 OR 2320.

**MATH 7520. Statistical Inference I. 3 Credits.**

(same as Statistics [STAT] 7760). Sampling; point estimation; sampling distribution; tests of hypotheses; regression and linear hypotheses. Prerequisite: graduate standing and Mathematics [MATH] 4320/7320.

**MATH 7540. Mathematical Modeling I. 3 Credits.**

Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models. Prerequisites: graduate standing and 3 semesters of calculus and some exposure to ordinary differential equations or instructor's consent.

**MATH 7560. Nonlinear Dynamics, Chaos and Fractals. 3 Credits.**

Conceptual introduction to nonlinear dynamics, bifurcation and stability of steady states, chaos in nonlinear differential equations and maps, fractal dimension, strange attractors, and applications to physical science. Prerequisite: graduate standing and Mathematics [MATH] 4100/7100,

4140/7140, and familiarity with software such as MATHEMATICA, MATLAB, or MAPLE.

**MATH 7570. Fluid Dynamics and Geophysical Applications. 3 Credits.**

Mathematical theory of fluid dynamics and applications to meteorology and oceanography. Prerequisites: graduate standing and Mathematics [MATH] 2300 and instructor's consent.

**MATH 7580. Mathematical Modeling II. 3 Credits.**

Solution of problems from industry, physical, social and life sciences, economics, and engineering using mathematical models. More general classes of problems than in Mathematics [MATH] 7540 will be considered. Prerequisites: 3 semesters of calculus and some exposure to ordinary differential equations or instructor's consent. Mathematics [MATH] 7540 is not a prerequisite.

**MATH 7590. Investment Science II. 3 Credits.**

Derivative securities, forward and future contracts, forward prices, hedging. Mean-variance hedging. Stochastic models of asset dynamics, random walks and binomial models. Capital budgeting, optimal portfolios. Basic option theory, put-call parity. Prerequisite: Mathematics [MATH] 2300 and either Statistics [STAT] 2500 or Statistics [STAT] 4710/ Mathematics [MATH] 4315, or instructor's consent. Recommended: Mathematics [MATH] 4355. No variable credit.

**MATH 7620. Differential Geometry I. 3 Credits.**

Metric properties of restricted portions of curves and surfaces in three-dimensional Euclidean space. Prerequisite: Mathematics [MATH] 2300.

**MATH 7700. Advanced Calculus of One Real Variable I. 3 Credits.**

Series of real numbers, limits of functions, continuity and uniform continuity, differentiability, and Riemann integration. Prerequisite: graduate standing and Mathematics [MATH] 2300. Recommended Mathematics [MATH] 4140 and one other mathematics course number above 2300.

**MATH 7720. Introduction to Abstract Algebra I. 3 Credits.**

Basic properties of integers, fundamental theorem of arithmetic, introduction to groups, rings and fields. Prerequisite: Mathematics [MATH] 2300. Recommended: Mathematics [MATH] 4140 and one other Mathematics course numbered above 2300.

**MATH 7800. Advanced Calculus of One Real Variable II. 3 Credits.**

Continuation of Advanced Calculus for functions of a single real variable. Topics include sequences and series of functions, power series and real analytic functions, Fourier series. Prerequisites: Mathematics [MATH] 4700/7700 or permission of the instructor.

**MATH 7900. Advanced Multivariable Calculus. 3 Credits.**

This is a course in calculus in several variables. The following is core material: Basic topology of  $n$ -dimensional Euclidean space; limits and continuity of functions; the derivative as a linear transformation; Taylor's formula with remainder; the Inverse and Implicit Function Theorems, change of coordinates; integration (including transformation of integrals under changes of coordinates); Green's Theorem. Additional material from the calculus of several variables may be included, such as Lagrange multipliers, differential forms, etc. Prerequisite: Mathematics [MATH] 4700/7700.

**MATH 7920. Introduction to Abstract Linear Algebra. 3 Credits.**

Study of vector spaces over arbitrary fields: topics include linear maps on finite dimensional vector spaces, bilinear and multi-linear forms, invariant subspaces and canonical forms. Prerequisite: Mathematics [MATH] 4720/7720.

**MATH 7940. Introduction to Complex Variables. 3 Credits.**

Complex functions, contour integration, power series, residues and poles, conformal mapping. Prerequisites: graduate standing and Mathematics [MATH] 4110/7110 OR 4700/7700.

**MATH 7960. Special Readings in Mathematics. 1-3 Credit.**

Prerequisites: graduate standing and Mathematics [MATH] 2300 and instructor's consent.

**MATH 7970. Senior Seminar in Mathematics. 3 Credits.**

Seminar with student presentations, written projects, and problem solving. May be used for the capstone requirement. Prerequisite: 12 hours of mathematics courses numbered 4000 or above.

**MATH 7980. Mathematics Problem Solving. 3 Credits.**

Creative advanced problem solving bringing together methods such as integration, probability and Euclidean geometry. Prerequisite: graduate standing and Mathematics [MATH] 4140 and another 4000 level Mathematics course, or instructor's consent.

**MATH 8085. Problems in Mathematics. 1-3 Credit.**

Problems in Mathematics.

**MATH 8090. Master's Thesis Research in Mathematics. 3 Credits.**

Students will be required to complete an independent project. Topics are chosen in consultation with a faculty advisor and are subject to departmental consent. Graded on S/U basis only.

**MATH 8102. Topics in Algebra. 3 Credits.**

Advanced topics in algebra. Prerequisite: Mathematics [MATH] 8410.

**MATH 8190. Masters Project in Mathematics. 3 Credits.**

Masters Project in Mathematics.

**MATH 8202. Topics in Functional Analysis. 3 Credits.**

Prerequisite: graduate standing required.

**MATH 8210. Basic Algebra. 3 Credits.**

Accelerated problem solving course in linear and abstract algebra. Will prepare students for the algebra qualifying exam. Prerequisites: Mathematics [MATH] 4720, 4920, instructor's consent or equivalent. Corequisites: Mathematics [MATH] 8220 and 8250.

**MATH 8220. Basic Analysis. 3 Credits.**

Accelerated problem-solving course in advanced calculus and complex analysis. Will prepare students for the analysis qualifying exam. Prerequisites: Mathematics [MATH] 4700, 4900, 4940, instructor's consent or equivalent. Corequisites: Mathematics [MATH] 8210 and 8250.

**MATH 8250. Basic Topology and Geometry. 3 Credits.**

Topological spaces, differential manifolds, differential forms, integration of vector fields. Prerequisites: Mathematics [MATH] 4700, 4900, 4140, instructor's consent or equivalent. Corequisites: Mathematics [MATH] 8210 and 8220.

**MATH 8302. Topics in Harmonic Analysis. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 8402. Topics in Mathematical Physics. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 8410. Algebra I. 3 Credits.**

Theory of algebraic structures--groups, rings, fields, algebraic and transcendental extensions of fields. Prerequisites: Mathematics [MATH] 4720 and 4920, or equivalent.

**MATH 8411. Algebra II. 3 Credits.**

Theory of modules, Galois theory and additional topics to be selected by the instructor. Prerequisite: Mathematics [MATH] 8410 or equivalent.

**MATH 8420. Theory of Functions of Real Variables I. 3 Credits.**

Properties of functions of one real variable. Lebesgue measure and integration on the line. Prerequisites: Mathematics [MATH] 4700/7700 and 4900/7900, or equivalent.

**MATH 8421. Theory of Functions of Real Variables II. 3 Credits.**

Continuation of Mathematics 8420. General measure and integration theory. Elements of the theory of Hilbert and Banach spaces, linear functions and linear operators. Prerequisite: Mathematics [MATH] 8420.

**MATH 8425. Complex Analysis I. 3 Credits.**

Rigorous introduction to the theory of functions of a complex variable. Prerequisite: Mathematics [MATH] 4900/7900 or equivalent.

**MATH 8426. Complex Analysis II. 3 Credits.**

Analytic continuation, Riemann surfaces, entire and meromorphic functions, selected topics. Prerequisites: Mathematics [MATH] 8425.

**MATH 8440. Advanced Ordinary Differential Equations I. 3 Credits.**

Topics from existence and uniqueness theorems, plane autonomous systems, periodicity and boundedness of solutions of second order nonlinear equations, perturbation theory, Sturm-Liouville systems, behavior of solutions at singularities. Prerequisite: Mathematics [MATH] 4700/7700 or equivalent.

**MATH 8441. Advanced Ordinary Differential Equations II. 3 Credits.**

Continuation of Mathematics [MATH] 8440.

**MATH 8442. Calculus of Variations I. 3 Credits.**

Development of necessary conditions and of sufficient conditions for nonparametric and parametric problems. Hamilton's principle, related topics. Prerequisite: instructor's consent.

**MATH 8445. Partial Differential Equations I. 3 Credits.**

Fourier and integral transforms, first and second order partial differential equations, methods of characteristics, Laplace's equation, Dirichlet and Neumann problems, Green's functions and maximum principles. Prerequisite: Mathematics [MATH] 4500 or instructor's consent.

**MATH 8446. Partial Differential Equations II. 3 Credits.**

The Cauchy-Kovalevski theorem, the Lewy example, the heat operator, the wave operator, Sobolev spaces, local regularity of elliptic boundary value problems. Prerequisite: Mathematics [MATH] 8445, 8420 recommended.

**MATH 8450. Differential Geometry for Scientists and Engineers. 3 Credits.**

Tensors and multilinear forms. Connections, covariant differentiation, geodesics and curvature on Riemannian and pseudo Riemannian manifolds. Applications to special relativity and general relativity. Prerequisites: Mathematics [MATH] 4110 and some knowledge of Matrix Theory.

**MATH 8460. Mathematical Finance I. 3 Credits.**

(same as Finance [FINANC] 8340). Financial instruments and derivative: stocks, bonds, futures option prices on interest rates, swaps, etc. Mathematical models of stock price fluctuations. Interest rates and options on interest rates. Swaps. Open markets and properties of stock option prices. Stochastic models. Binomial trees. Continuous time stochastic modeling. No arbitrage modeling. European and American options. BlackScholes model and differential equation, for the price of European option. Exotic options. Interest rate models. Prerequisite:

graduate standing in Mathematics. Knowledge of elementary probability or instructor's consent.

**MATH 8461. Mathematical Finance II. 3 Credits.**

Diffusion Processes as models for stock price fluctuations. Contingent claims and arbitrage. Mathematical analysis of risk neutral valuation of contingent claims. Self-financing portfolios and hedging. Hedging contingent claims. Partial differential equations for valuation of derivative securities. Completeness of the markets and hedging. Parity relations and delta hedging. Several underlying assets. Prerequisites: knowledge of advance probability/stochastic processes or instructor's consent; recommended Mathematics [MATH] 8460.

**MATH 8465. Mathematical Methods of Risk Theory. 3 Credits.**

Probability aspects of Risk. Claim number processes. Accumulated claim number processes. Retentions and Reserves. Mathematics of reinsurance. Ruin probability calculations. Stability and dividends policy. Utility as criterion of stability. The problem of risk exchange. Prerequisite: knowledge of elementary probability or the instructor's consent; graduate standing.

**MATH 8470. Advanced Numerical Analysis. 3 Credits.**

Analysis and implementation of numerical algorithms selected from approximation theory, splines, quadrature, nonlinear systems, ordinary differential equations, and optimization. Prerequisites: Mathematics [MATH] 4700, 4300 or equivalent, and 4140.

**MATH 8480. Advanced Probability. 3 Credits.**

(same as Statistics [STAT] 9810). Measure theoretic probability theory. Characteristic functions; conditional probability and expectation; sums of independent random variables including strong law of large numbers and central limit problem. Prerequisites: Mathematics [MATH] 4320 or 8220; or instructor's consent.

**MATH 8502. Topics of Geometry. 1-99 Credit.**

Prerequisite: instructor's consent.

**MATH 8587. Topology Seminar. 1-99 Credit.**

Topology Seminar.

**MATH 8602. Topics in Financial Mathematics and Insurance. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 8615. Algebraic Geometry I. 3 Credits.**

Affine and projective varieties and schemes; nullstellensatz; Zariski topology, morphisms and rational maps; divisors and linear systems; topics from curves, surfaces, Grassmann varieties; commutative algebra and homological algebra as needed. Prerequisite: Mathematics [MATH] 8410.

**MATH 8616. Algebraic Geometry II. 3 Credits.**

Continuation of Mathematics [MATH] 8615. Prerequisite: Mathematics [MATH] 8615.

**MATH 8618. Introduction to Algebraic Topology. 3 Credits.**

Development of singular homology theory; reference to other homology and cohomology theories. Introduction to homological algebra. Prerequisite: Mathematics [MATH] 8250.

**MATH 8628. Functional Analysis I. 3 Credits.**

Linear topological spaces, Banach spaces, Hilbert spaces. Operator theory, including the Hahn-Banach, uniform boundedness and closed graph theorems. Prerequisite: Mathematics [MATH] 4900 and instructor's consent or Mathematics [MATH] 8420.

**MATH 8629. Functional Analysis II. 3 Credits.**

Topological vector spaces, duality theory, Banach algebras. Prerequisite: Mathematics [MATH] 8628.

**MATH 8630. Harmonic Analysis I. 3 Credits.**

An introduction to Fourier Analysis in one and higher Dimensions. Topics include Fourier Series, conjugate functions, Fourier transforms, distributions, interpolation, and maximal functions. Prerequisite: Mathematics [MATH] 8420.

**MATH 8631. Harmonic Analysis II. 3 Credits.**

Singular integrals, Littlewood-Paley theory, Hardy spaces, bounded mean oscillation, weighted norm inequalities, boundary value problems, and analysis on groups. Prerequisite: Mathematics [MATH] 8630.

**MATH 8642. Nonlinear Differential Equations. 3 Credits.**

Existence theorems; criteria for periodic solutions; boundedness of solutions; perturbation theory. Emphasizes second order equations. Prerequisites: Mathematics [MATH] 4100 and 4110 or 4700.

**MATH 8648. Advanced Mathematics for the Physical Sciences. 3 Credits.**

Study of selected topics in quantum and statistical mechanics. Schrodinger operators and their self-adjointness. Semi-classical methods and their application to estimation of eigenvalues. Partition functions in many body problems and methods of estimation. Prerequisites: instructor's consent, Mathematics [MATH] 4110, 4700, Physics [PHYSICS] 8660 recommended.

**MATH 8650. Differentiable Manifolds and Riemannian Geometry. 3 Credits.**

Tensor product spaces and tensor fields on manifolds. Differentiation and integration of differential forms. Riemannian geometry and applications. Prerequisites: Mathematics [MATH] 4700 or 4400.

**MATH 8655. General Topology I. 3 Credits.**

Introduction to axiomatic theory of general topology. Continuous functions and homeomorphisms. Convergence in abstract topological spaces. Compact and locally compact spaces. Connectedness. Metrizable spaces. Prerequisites: Mathematics [MATH] 4900, 4400 or instructor's consent.

**MATH 8680. Stochastic Processes. 3 Credits.**

(same as Statistics 9820). Markov processes, martingales, orthogonal sequences, processes with independent and orthogonal increments, stationary, linear prediction. Prerequisite: Mathematics [MATH] 8480.

**MATH 8702. Topics in Applied Mathematics. 1-99 Credit.**

Selected topics in applied mathematics drawn from variety of areas: partial differential equations, tensor analysis, calculus of variations, asymptotic methods, integral equations, advanced theory of transforms and distributions, numerical analysis.

**MATH 8787. Numerical Mathematics Seminar. 1-99 Credit.**

Numerical Mathematics Seminar.

**MATH 9090. Doctoral Dissertation Research in Mathematics. 1-9 Credit.**

Graded on a S/U basis only.

**MATH 9187. Algebra Seminar. 1-99 Credit.**

Algebra Seminar.

**MATH 9287. Functional Analysis Seminar. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 9387. Harmonic Analysis Seminar. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 9487. Mathematical Physics Seminar. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 9502. Topics in Topology. 1-99 Credit.**

Advanced topics in topology or topological algebra.

**MATH 9587. Geometry Seminar. 1-99 Credit.**

Geometry Seminar.

**MATH 9687. Financial Mathematics Seminar. 1-99 Credit.**

Prerequisite: graduate standing.

**MATH 9702. Topics in Numerical Mathematics. 1-99 Credit.**

Prerequisite: instructor's consent.

**MATH 9787. Applied Mathematics Seminar. 1-99 Credit.**

Applied Mathematics Seminar.

**MATH 9887. Analysis Seminar. 1-99 Credit.**

Analysis Seminar.

---

## Mechanical And Aerospace Engineering (MAE)

---

**MAE 1000. Introduction to Mechanical Engineering. 1 Credit.**

Introduction to the mechanical engineering profession, the Mechanical and Aerospace Engineering Department and curriculum, and the core disciplines of mechanical engineering. Introduction to engineering problem solving, ethics, and design. Restricted to engineering students only.

**MAE 1001. Experimental Course. 1-99 Credit.**

Experimental course. For freshmen-level students. Content and credit hours to be listed in Schedule of Courses.

**MAE 2001. Experimental Course. 1-99 Credit.**

Experimental course. For sophomore-level students. Content and credit hours to be listed in Schedule of Courses.

**MAE 2100. Programming and Software Tools. 2 Credits.**

Introduction to the use of computers, programming, and software. Topics include MATLAB syntax and programming techniques, algorithm design, and programming with Excel spreadsheets. Prerequisite: Mathematics [MATH] 1700. Restricted to Mechanical Aerospace Engineering Students Only.

**MAE 2300. Thermodynamics. 3 Credits.**

(same as Engineering [ENGINR] 2300). Fluid properties, work and heat, first law, second law, entropy, applications to vapor and ideal gas processes. Prerequisites: Physics [PHYSICS] 2750.

**MAE 2600. Dynamics. 3 Credits.**

Basic fundamentals of particle and rigid body dynamics; energy and momentum methods. Prerequisite: grade of C or better in Engineering [ENGINR] 1200. Restricted to MAE students only.

**MAE 3100. Computational Methods for Engineering Design. 4 Credits.**

Introduction to numerical methods for linear system analysis, curve-fitting, integration and differentiation, and optimization. The numerical methods are demonstrated through computer implementation and application to engineering design problems. Prerequisites: Mechanical and Aerospace

Engineering [MAE] 2100; Math [MATH] 4100 concurrent. Restricted to MAE students only.

**MAE 3200. Engineering Materials. 4 Credits.**

The nature of the structure of engineering materials. The relationship of material structure to physical properties. Mechanical behavior of engineering materials. Prerequisites: Grade of C or better in Engineering [ENGINR] 2200 and Chemistry [CHEM] 1320. Restricted to MAE students only.

**MAE 3400. Fluid Mechanics. 3 Credits.**

A basic course in fluid mechanics. Topics include: fluid properties, hydrostatics, conservation laws, infinitesimal and finite control volume analysis, Navier-Stokes equations, dimensional analysis, internal and external flows. Prerequisites: Mechanical and Aerospace Engineering [MAE] 2600; Engineering [ENGINR] 2300 concurrent. Restricted to MAE students only.

**MAE 3600. Dynamic Systems and Control. 3 Credits.**

Modeling and analysis of dynamic systems and introduction to feedback control. Topics include dynamic modeling and response of mechanical, electrical, fluid, and thermal systems; and feedback control systems analysis. Prerequisites: Mechanical and Aerospace Engineering [MAE] 2600; 3100; Engineering [ENGINR] 2100 concurrent. Restricted to MAE students only.

**MAE 3800. Instrumentation and Measurements Laboratory. 3 Credits.**

Design and reporting of experimental investigations. Topics include instrument design equations, sources of error, and calibration. Survey of instruments to measure: voltage, resistance, current, time, frequency, displacement, velocity, acceleration, strain, force, and torque. Prerequisites: Engineering [ENGINR] 2100; 2200; Mechanical and Aerospace Engineering [MAE] 3600 concurrent. Restricted to MAE students only.

**MAE 3900. Mechanical Design I. 3 Credits.**

Kinematics of machinery, and introduction to finite element analysis. Topics include linkage analysis and design, cam design, and numerical stress analysis. The course involves a major design project. Prerequisites: Engineering [ENGINR] 2200 and Mechanical and Aerospace Engineering [MAE] 2600. May be repeated for credit. Graded on A/F basis only.

**MAE 4001. Topics in Mechanical and Aerospace Engineering. 3 Credits.**

Current and new technical developments in mechanical and aerospace engineering. Prerequisite: instructor's consent. Restricted to MAE students only.

**MAE 4085. Problems in Mechanical and Aerospace Engineering. 1-99 Credit.**

Special design, experimental and analytical problems in mechanical and aerospace engineering.

**MAE 4210. Aerospace Structures. 3 Credits.**

Fundamentals of the mechanics and design issues of aerospace structures. Analysis of thin skins with stiffeners for external surfaces, bulkheads and frames for shape support, and fasteners for holding components together. Prerequisites: Grade of C or better in Engineering [ENGINR] 2200. Graded on A/F basis only.

**MAE 4220. Materials Selection. 3 Credits.**

Study of the physical and mechanical metallurgy of alloy systems of interest in engineering applications. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3200. Restricted to MAE students only.

**MAE 4230. Nanomaterials. 3 Credits.**

The primary goal of this course is to introduce students into the new field of nanostructured materials. The emphasis of the course is to introduce the students into synthesis and characterization of nanomaterials, the behavior of such materials with nanoscale structures, and their technological applications. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3200 or equivalent.

**MAE 4231. Transport Phenomena in Materials Processing. 3 Credits.**

(same as Biological Engineering [BIOL\_EN] 4231). Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3200, 3400, 4300 (or equivalent courses; and Mathematics [MATH] 4100. Graded on A/F basis only.

**MAE 4240. Diffraction Methods in Materials Science. 3 Credits.**

Introduction to crystal structure and the use of x-rays and neutrons to study materials aspects including phase analysis, structure determination, residual stress and texture. Prerequisite: instructor's consent. Restricted to MAE students only.

**MAE 4250. Composite Materials. 3 Credits.**

A survey of composite materials used in engineering emphasizing fiber-reinforced composites but including laminate and particulate composites. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3200. Restricted to MAE students only.

**MAE 4260. Experimental Stress Analysis. 3 Credits.**

The course introduces basic concepts of stress and strain using elasticity theory. Single point and full-field experimental methods for stress and strain measurement, such as strain gages and photoelasticity, are discussed. Application of experimental methods in transducer development and design of structures will be covered. Prerequisite: senior standing.

**MAE 4270. Nondestructive Evaluation of Materials. 3 Credits.**

The role of nondestructive evaluation (NDE) in engineering is explored. Ultrasonic NDE is studied in detail. Labs are used to support the study of ultrasonic NDE. Other NDE techniques are surveyed. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3200. Restricted to MAE students only.

**MAE 4280. Introduction to Finite Element Methods. 3 Credits.**

The application of matrix operations, energy concepts and structural mechanics to the development of the finite element method. Application of finite element method to beams, frames and trusses. Prerequisites: Engineering [ENGINR] 2200 and Mechanical and Aerospace Engineering [MAE] 3100. Restricted to MAE students only.

**MAE 4290. Welding Engineering. 3 Credits.**

Welding is the most common method of joining similar as well as dissimilar materials. This course thus introduces the basic science and engineering aspects of commonly used fusion and non-fusion welding processes. Stress analysis and failure to welded joints is also introduced to develop safe and durable welded structures. Prerequisites: senior standing.

**MAE 4300. Heat Transfer. 3 Credits.**

Fundamentals of conduction, convection and radiation. Use of nondimensional parameters. Theory and design of simple heat exchangers. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400, grade of C or better in Engineering [ENGINR] 2300. Restricted to MAE students only.

**MAE 4310. Intermediate Heat Transfer. 3 Credits.**

Advanced topics in conduction, convection, and radiation. Heat exchanges and their applications will also be analyzed. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300. Restricted to MAE students only.

**MAE 4320. Design of Thermal Systems. 3 Credits.**

Thermal systems are simulated by mathematical models (often on a digital computer), followed by optimization. Supporting topics include: economics, heat transfer, thermodynamics, and optimization. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 4340. Heating and Air Conditioning. 3 Credits.**

General principles of thermal science applied to the design of environmental control systems. Topics covered include heating and cooling load calculations, annual operating and life cycle cost estimating, duct and pipe sizing, and equipment selection. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4300. Restricted to MAE students only.

**MAE 4350. Industrial Energy Analysis. 3 Credits.**

Energy use in industrial systems: furnaces, boilers, compressors, motors, lighting, etc. Insulation in building envelopes. Renewable energy sources. Energy auditing and economic analysis. Graded on A/F basis only. Corequisite: MAE 4300 or instructor's permission.

**MAE 4380. Intermediate Thermodynamics. 3 Credits.**

Topics from classical and statistical thermodynamics. Prerequisite: Engineering [ENGINR] 2300.

**MAE 4390. Aerospace Propulsion. 3 Credits.**

Analysis of aircraft engines and spacecraft propulsion systems. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 4420. Intermediate Fluid Mechanics. 3 Credits.**

Topics in potential and viscous flow theory, and computational fluid dynamics. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 4430. Introduction to Computational Fluid Dynamics and Heat Transfer. 3 Credits.**

Introduction to the principles and development of the finite difference approximations to the governing differential equations of viscous and inviscid fluid flow, as well as heat transfer. Introduction to discretization methods and the calculation of flow fields, convection, diffusion and conduction. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400, 4300 and 4420.

**MAE 4440. Aerodynamics. 3 Credits.**

Presents fundamentals of wing and airfoil theory for incompressible flow, including fluid kinematics and dynamics, potential flow, flow about a body, thin-airfoil theory, and finite wing. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3100 and 3400.

**MAE 4450. Gas Dynamics. 3 Credits.**

One dimensional compressible flow with and without friction and heat transfer. Isentropic flow and shock phenomenon in nozzles and diffusers. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 4500. Manufacturing Methods. 3 Credits.**

Introduction to manufacturing processes with emphasis on those aspects most relevant to methods, problems in force analysis, and practicum and experimentation in machine tool applications. Prerequisite: Engineering [ENGINR] 1110; grade of C or better in Mechanical and Aerospace Engineering [MAE] 3200. Restricted to MAE students only.

**MAE 4520. Manufacturing Process Analysis. 3 Credits.**

Methods and techniques used in process analysis, optimization and control. These include deterministic modeling (slab, upper bound and FEM), physical modeling techniques and statistical process control. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4500.

**MAE 4550. Integrated Production Systems. 3 Credits.**

(same as Industrial and Manufacturing Systems Engineering [IMSE] 4550).

**MAE 4600. Advanced Mechanics of Materials. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 4600). Analysis of more complicated problems in stresses, strains. Prerequisite: Engineering [ENGINR] 2200.

**MAE 4620. Aircraft Flight Mechanics. 3 Credits.**

Analysis of aircraft flight dynamics and aircraft performance. Topics include airplane aerodynamics and propulsion, steady flight, flight performance, aircraft maneuvers, aircraft stability, and an introduction to flight controls. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600. Graded on A/F basis only.

**MAE 4630. Space Flight Mechanics. 3 Credits.**

Analysis of spacecraft motion. Topics include orbital dynamics, spacecraft attitude dynamics, satellite trajectory design, and spacecraft control system design. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600. Restricted to MAE students only.

**MAE 4650. Synthesis of Linkages. 3 Credits.**

Type, number and dimensional synthesis of linkages to produce a given input-output motion and/or force. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3100.

**MAE 4660. Vibration Analysis. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 4660). Vibration theory and its application to mechanical systems. Topics include free and forced vibration analysis of single- and multi-degree of freedom systems. Prerequisite: Mechanical and Aerospace Engineering [MAE] 2600 and Mathematics [MATH] 4100.

**MAE 4670. Vehicle Dynamics. 3 Credits.**

Analysis and prediction of the dynamic behavior of ground vehicles utilizing computer simulation. Mechanics of various suspension systems, tire-roadway interaction, vehicle aerodynamics, vehicle handling and steering characteristics. Special topics including nonholonomic constraint formulation and stability of motion. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 4680. Introduction to MEMS. 3 Credits.**

The course will start with a survey of the widespread applications of MEMS sensors and actuators. Micro fabrication methods used in conventional semiconductor industry will be introduced. MEMS-specific process will be emphasized. Fundamental principles in electric circuits and mechanics will be reviewed. Special attention is on mechanical issues encountered in MEMS design and fabrication.

**MAE 4710. Hydraulic Control System. 3 Credits.**

Analysis of hydraulic control components and systems. Topics include pumps, valves, actuators, and industrial and mobile control systems.

Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400 and 3600. May be repeated for credit. Graded on A/F basis only.

**MAE 4720. Modern Control. 3 Credits.**

Analysis and design of control systems using state-space methods. Topics include controllability and observability, feedback control using pole-placement, state observers, optimal linear-quadratic feedback control, and optimal estimation. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600. Graded on A/F basis only.

**MAE 4730. Mechatronics. 3 Credits.**

Design of systems which require the integration of mechanical and electronic components. Topics include microcontrollers, sensors, actuators, mechanical systems, real time control system programming, and modeling of electronic and mechanical systems. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 4740. Digital Control. 3 Credits.**

Design and analysis of control systems using discrete-time methods. Topics include z-transforms, sampling and reconstruction, stability analysis, and digital controller design. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 4750. Classical Control. 3 Credits.**

Study of feedback control design based on classical continuous-time methods. Topics include performance specifications, stability analysis, root locus compensator design, and frequency domain analysis and compensator design. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 4800. Thermal and Fluid Science Laboratory. 3 Credits.**

Continuation of Mechanical and Aerospace Engineering [MAE] 3800 with emphasis on: instruments to measure temperature, pressure fluid flow, fluid velocity, sound, and computer data acquisition. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300. Restricted to MAE students only.

**MAE 4820. Experimental Methods in Fluid Flow and Heat Transfer. 3 Credits.**

Laboratory experiments involving fundamental mechanisms and phenomena associated with fluid flow and heat transfer. Current experimental methods and techniques employed. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4800 and 4300.

**MAE 4900. Mechanical Design II. 3 Credits.**

Application of the fundamentals of stress analysis of structures and materials science to the design, durability, and selection of machine elements, such as fasteners, springs, shafts, and gears. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3900; grade of C or better in MAE 3200. Restricted to MAE students only.

**MAE 4920. Advanced Computational Design. 3 Credits.**

Development and application of modern simulation-based design methodologies. Topics include structural optimization, multidisciplinary design methods, reliability-based design, non-deterministic methods, design sensitivity analysis, and finite elements in design. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3100. May be repeated for credit. Graded on A/F basis only.

**MAE 4930. Applied Mechanical Optimization. 3 Credits.**

Introduction to mathematical programming techniques and applications to the design of mechanical systems and components. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3100. Restricted to MAE students only.

**MAE 4940. Aircraft Design. 3 Credits.**

Conceptual design of aircraft, from initial sizing and design layout to design analysis, optimization and trade studies. Fundamental theories for aircraft design including sizing, aerodynamic forces, airfoil selection, wing loading, configuration layout payloads, propulsion systems, landing gear, aerospace structures, and cost analysis. Prerequisites: Mechanical and Aerospace Engineering 3400, 3600 and 3900. Graded on A/F basis only.

**MAE 4980. Senior Capstone Design. 3 Credits.**

Senior design experience. Topics include reliability, safety, manufacturability, economic, and environmental constraints; design case studies; and industrial design projects. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600, 4500, 4900; Statistics [STAT] 4710 or Industrial and Manufacturing Systems Engineering [IMSE] 2110. Restricted to MAE students only.

**MAE 4990. Undergraduate Research in Mechanical and Aerospace Engineering. 0-6 Credit.**

Independent investigation or project in Mechanical Engineering. Prerequisites: senior standing in Mechanical Engineering and instructor's consent.

**MAE 4995. Undergraduate Honors Research Mechanical & Aerospace Engineering. 1-99 Credit.**

Independent investigation to be presented as an undergraduate honors thesis. Prerequisite: Honors student in Mechanical and Aerospace Engineering.

**MAE 7001. Topics in Mechanical and Aerospace Engineering. 3 Credits.**

Current and new technical developments in mechanical and aerospace engineering. Prerequisite: graduate standing and instructor's consent.

**MAE 7210. Aerospace Structures. 3 Credits.**

Fundamentals of the mechanics and design issues of aerospace structures. Analysis of thin skins with stiffeners for external surfaces, bulkheads and frames for shape support, and fasteners for holding components together. Prerequisites: grade of C or better in Engineering [ENGINR] 2200. Graded on A/F basis only.

**MAE 7220. Materials Selection. 3 Credits.**

Study of the physical and mechanical metallurgy of alloy systems of interest in engineering applications. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3200.

**MAE 7230. Nanomaterials. 3 Credits.**

The primary goal of this course is to introduce students into the new field of nanostructured materials. The emphasis of the course is to introduce the students into synthesis and characterization of nanomaterials, the behavior of such materials with nanoscale structures, and their technological applications. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3200 or equivalent.

**MAE 7231. Transport Phenomena in Materials Processing. 3 Credits.**

(same as Biological Engineering [BIOL\_EN] 7231) Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3200, 3400, 4300 (or equivalent courses) and Mathematics [MATH] 4100. Graded A-F only. Graduate Standing Required.

**MAE 7240. Diffraction Methods in Materials Science. 3 Credits.**

Introduction to crystal structure and the use of x-rays and neutrons to study materials aspects including phase analysis, structure determination,

residual stress and texture. Prerequisite: graduate standing and instructor's consent.

**MAE 7250. Composite Materials. 3 Credits.**

A survey of composite materials used in engineering emphasizing fiber-reinforced composites but including laminate and particulate composites. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3200.

**MAE 7260. Experimental Stress Analysis. 3 Credits.**

The course introduces basic concepts of stress and strain using elasticity theory. Single point and full-field experimental methods for stress and strain measurement, such as strain gages and photoelasticity, are discussed. Application of experimental methods in transducer development and design of structures will be covered. Prerequisites: graduate standing.

**MAE 7270. Nondestructive Evaluation of Materials. 3 Credits.**

The role of nondestructive evaluation (NDE) in engineering is explored. Ultrasonic NDE is studied in detail. Labs are used to support the study of ultrasonic NDE. Other NDE techniques are surveyed. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3200.

**MAE 7280. Introduction to Finite Element Methods. 3 Credits.**

The application of matrix operations, energy concepts and structural mechanics to the development of the finite element method. Application of finite element method to beams, frames and trusses. Prerequisites: graduate standing and Engineering [ENGINR] 2200 and Mechanical and Aerospace Engineering [MAE] 3100.

**MAE 7290. Welding Engineering. 3 Credits.**

Welding is the most common method of joining similar as well as dissimilar materials. This course thus introduces the basic science and engineering aspects of commonly used fusion and non-fusion welding processes. Stress analysis and failure of welded joints is also introduced to develop safe and durable welded structures. Prerequisites: senior standing or graduate level.

**MAE 7310. Intermediate Heat Transfer. 3 Credits.**

Advanced topics in conduction, convection, and radiation. Heat exchanges and their applications will also be analyzed. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7320. Design of Thermal Systems. 3 Credits.**

Thermal systems are simulated by mathematical models (often on a digital computer), followed by optimization. Supporting topics include: economics, heat transfer, thermodynamics, and optimization. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7330. Solar Energy Utilization. 3 Credits.**

Thermal aspects of solar radiation applied to human and industrial needs. Solar energy availability: hourly, daily, and seasonally. Space and water heating. Thermal storage. Passive and active solar design of buildings and homes. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7340. Heating and Air Conditioning. 3 Credits.**

General principles of thermal science applied to the design of environmental control systems. Topics covered include heating and cooling load calculations, annual operating and life cycle cost estimating, duct and pipe sizing, and equipment selection. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7350. Power Plant System Design. 3 Credits.**

Preliminary component and system design. Optimum design of boilers, steam turbines, condensers and cooling towers and their integration into a system to minimize production costs and impact on the environment. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7355. Industrial Energy Analysis. 3 Credits.**

Energy use in industrial systems: furnaces, boilers, compressors, motors, lighting, etc. Insulation in building envelopes. Renewable energy sources. Energy auditing and economic analysis. Graded on A-F basis only. Corequisite: MAE 4300 or instructor's consent.

**MAE 7360. Internal Combustion Engines. 3 Credits.**

Gas and oil engines. Thermodynamics of ideal and actual cycles, fuels and combustion, carburetor and injection systems, performance, construction. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 7370. Combustion Fundamentals. 3 Credits.**

Introduction to combustion principles. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 7380. Intermediate Thermodynamics. 3 Credits.**

Topics from classical and statistical thermodynamics. Prerequisite: graduate standing and Engineering [ENGINR] 2300.

**MAE 7390. Aerospace Propulsion. 3 Credits.**

Analysis of aircraft engines and spacecraft propulsion systems. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 7420. Intermediate Fluid Mechanics. 3 Credits.**

Topics in potential and viscous flow theory, and computational fluid dynamics. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 7430. Introduction to Computational Fluid Dynamics and Heat Transfer. 3 Credits.**

Introduction to the principles and development of the finite difference approximations to the governing differential equations of viscous and inviscid fluid flow, as well as heat transfer. Introduction to discretization methods and the calculation of flow fields, convection, diffusion and conduction. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400, 4300 and 4420.

**MAE 7440. Aerodynamics. 3 Credits.**

Presents fundamentals of wing and airfoil theory for incompressible flow, including fluid kinematics and dynamics, potential flow, flow about a body, thin-airfoil theory, and finite wing. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3100 and 3400.

**MAE 7450. Gas Dynamics. 3 Credits.**

One-dimensional compressible flow with and without friction and heat transfer. Isentropic flow and shock phenomenon in nozzles and diffusers. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 7520. Manufacturing Process Analysis. 3 Credits.**

Methods and techniques used in process analysis, optimization and control. These include deterministic modeling (slab, upper bound and FEM), physical modeling techniques and statistical process control. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 4500.

**MAE 7600. Advanced Mechanics of Materials. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 7600). Analysis of more complicated problems in stresses, strains. Prerequisite: graduate standing and grade of C- or better in Engineering [ENGINR] 2200.

**MAE 7610. Experimental Stress Analysis. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 7610). Photo elastic, electric strain gage, brittle lacquer methods of experimental stress analysis for static loads. Strain gage work includes strain rosettes. Prerequisite: graduate standing and Engineering [ENGINR] 2200.

**MAE 7620. Aircraft Flight Mechanics. 3 Credits.**

Analysis of aircraft flight dynamics and aircraft performance. Topics include airplane aerodynamics and propulsion, steady flight, flight performance, aircraft maneuvers, aircraft stability, and an introduction to flight controls. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600. Graded on A/F basis only.

**MAE 7630. Space Flight Mechanics. 3 Credits.**

Analysis of spacecraft motion. Topics include orbital dynamics, spacecraft attitude dynamics, satellite trajectory design, and spacecraft control system design. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 7640. Analysis of Mechanisms. 3 Credits.**

Kinematics and dynamic (bearing force, shaking force, and time response) design analysis of mechanisms: graphical, analytical and computer assisted techniques. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3100 and 2600.

**MAE 7650. Synthesis of Linkages. 3 Credits.**

Type, number and dimensional synthesis of linkages to produce a given input-output motion and/or force. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3100 and 2600.

**MAE 7660. Vibration Analysis. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 7660). Vibration theory and its application to Mechanical systems. Topics include free and forced vibration analysis of single and multi-degree of freedom systems. Prerequisite: graduate standing and grade of C- or better in Mechanical and Aerospace Engineering [MAE] 2600 and Mathematics [MATH] 4100.

**MAE 7670. Vehicle Dynamics. 3 Credits.**

Analysis and prediction of the dynamic behavior of ground vehicles utilizing computer simulation. Mechanics of various suspension systems, tire-roadway interaction, vehicle aerodynamics, vehicle handling and steering characteristics. Special topics including nonholonomic constraint formulation and stability of motion. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3600.

**MAE 7680. Introduction to MEMS. 3 Credits.**

The course will start with a survey of the widespread applications of MEMS sensors and actuators. Micro fabrication methods used in conventional semiconductor industry will be introduced. MEMS-specific processes will be emphasized. Fundamental principles in electric circuits and mechanics will be reviewed. Special attention is on mechanical issues encountered in MEMS design and fabrication. Graded on A/F basis only.

**MAE 7710. Hydraulic Control Systems. 1-3 Credit.**

Analysis of hydraulic control components and systems. Topics include pumps, valves, actuators, and industrial and mobile control systems. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 3400 and 3600.

**MAE 7720. Modern Control. 3 Credits.**

Analysis and design of control systems using state-space methods. Topics include controllability and observability, feedback control using pole-placement, state observers, optimal linear-quadratic feedback control, and optimal estimation. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3600. Graded on A/F basis only.

**MAE 7730. Mechatronics. 3 Credits.**

Design of systems which require the integration of mechanical and electronic components. Topics include microcontrollers, sensors, actuators, mechanical systems, real time control system programming, and modeling of electronic and mechanical systems. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600; graduate standing required.

**MAE 7740. Digital Control. 3 Credits.**

Design and analysis of control systems using discrete-time methods. Topics include Z-transformation, sampling and reconstruction, stability analysis, and digital controller design. Prerequisites: MAE 3600.

**MAE 7750. Classical Control. 3 Credits.**

Study of feedback control design based on classical continuous-time methods. Topics include performance specifications, stability analysis, root locus compensator design, and frequency domain analysis and compensator design. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600; graduate standing required.

**MAE 7820. Experimental Methods in Fluid Flow and Heat Transfer. 3 Credits.**

Laboratory experiments involving fundamental mechanisms and phenomena associated with fluid flow and heat transfer. Current experimental methods and techniques employed. Prerequisites: graduate standing and Mechanical and Aerospace Engineering [MAE] 4300 and 4800.

**MAE 7920. Advanced Computer Design. 3 Credits.**

Development and application of modern simulation-based design methodologies. Topics include structural optimization, multidisciplinary design methods, reliability-based design, non-deterministic methods, design sensitivity analysis, and finite elements in design. Prerequisite: Mechanical and Aerospace Engineering [MAE] 3100. Graded on A/F basis only. May be repeated for credit.

**MAE 7930. Applied Mechanical Optimization. 3 Credits.**

Introduction to mathematical programming techniques and applications to the design of mechanical systems and components. Prerequisite: graduate standing and Mechanical and Aerospace Engineering [MAE] 3100.

**MAE 7940. Aircraft Design. 3 Credits.**

Conceptual design of aircraft, from initial sizing and design layout to design analysis, optimization, and trade studies. Fundamental theories for aircraft design, including sizing, aerodynamic forces, airfoil selection, wing loading, configuration layout, payloads, propulsion systems, landing gear, aerospace structures, and cost analysis. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400, 3600, 3900. Graded A-F only. Graduate Standing Required.

**MAE 8001. Advanced Topics in Mechanical and Aerospace Engineering. 3 Credits.**

Advanced Topics in Mechanical and Aerospace Engineering.

**MAE 8085. Problems in Mechanical and Aerospace Engineering. 1-99 Credit.**

Supervised investigation in mechanical and aerospace engineering to be presented in the form of a report.

**MAE 8087. Graduate Seminar in Mechanical and Aerospace Engineering. 1 Credit.**

Reviews recent investigations, projects of major importance in mechanical and aerospace engineering. Graded on S/U basis only.

**MAE 8210. Physical Metallurgy. 3 Credits.**

Treatment of fundamentals of physical metallurgy, including metallurgical thermodynamics, macroscopic and atomic diffusion, interfaces, nucleation, solidification theory, and solid state transformations.

Prerequisite: Mechanical and Aerospace Engineering [MAE] 3200.

**MAE 8220. Fracture Mechanics. 3 Credits.**

Mechanics of flawed structure. Concepts include Griffith theory, Barenblatt's theory, Irwin analysis, energy analysis of cracked bodies, fracture toughness testing, plane strain, plane stress, transition temperature concepts, subcritical flaw growth. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3200 or instructor's consent.

**MAE 8230. Advanced Ceramic Materials. 3 Credits.**

(same as Chemical Engineering [CH\_ENG] and Biological Engineering [BIOL\_EN] 8230). To provide an advanced level understanding between processing, properties, and microstructure of ceramic materials.

Topics include crystallography, defect chemistry, transport properties, microstructure, and forming methods. Graded on A/F basis only.

**MAE 8270. Aeroelasticity. 3 Credits.**

Deformations of aerospace structures under static and dynamic loads, natural mode shapes and frequencies, aerodynamic and inertial loads, flutter analysis, dynamic response phenomena, and critical speeds and frequencies. Prerequisites: instructor's consent.

**MAE 8280. Finite Element Methods. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8208). The concepts and fundamentals of the finite element method with applications to problems in solid and fluid mechanics. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4280.

**MAE 8300. Microscale Heat Transfer. 3 Credits.**

Review of existing models. Concept of thermal lagging and the second-law admissibility. Applications to low temperatures, thermal processing of thin-film devices; amorphous materials; advanced composites.

Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 8310. Thermal Management in Electronic Systems. 3 Credits.**

Advanced heat transfer course focusing on the problems of cooling electronic systems such as microprocessors and other electronic devices where thermal management is needed. The advanced cooling technologies are introduced. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300. Graded on A/F basis only.

**MAE 8311. Heat Transfer-Convection. 3 Credits.**

Principles of heat transfer by convection, review of boundary layer theory, laminar and turbulent heat transfer, temperature-dependent fluid properties, high velocity heat transfer and an introduction to mass transfer. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4300 and 8410.

**MAE 8312. Heat Transfer-Radiation. 3 Credits.**

Advanced study of engineering radiation heat transfer. Concepts of electromagnetic theory. Development of thermal radiation laws from thermodynamic laws. Analysis of grey and non-grey systems with

intervening gases. Study of recent literature. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 8315. Multiphase Heat Transfer. 3 Credits.**

Fundamentals and application of heat and mass transfer and fluid flow with phase change; melting and solidification, sublimation and vapor deposition, condensation, evaporation, nucleate and film boiling, two-phase flow. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300. Graded on A/F basis only.

**MAE 8320. Continuum Mechanics. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8320). Introductory course in the mechanics of continuous media. Basic concepts of stress, strain, constitutive relationships; conservation laws are treated using Cartesian tensor notation. Examples from both solid and fluid mechanics investigated. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400, Mathematics [MATH] 4100, Engineering [ENGINR] 2200.

**MAE 8330. Theory of Elasticity. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8330). Stress and strain at a point. General equations of elasticity. Plane stress, plain strain problems; torsion of prismatic bars. Energy methods.

**MAE 8340. Theory of Plates and Shells. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8340). Rectangular and circular plates. Variational methods in the analysis of plates and shells. Plates of unusual shape. Shear deformation effects. Large deformation analysis. Analysis of cylindrical shells.

**MAE 8350. Theory of Elastic Stability. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8350). Buckling of Columns, frames, arches and other structural systems. Kinematic approach to stability. Large deflections. Energy approach to buckling. Plate and shell buckling. Inelastic buckling of columns. Creep buckling.

**MAE 8360. Theory of Plasticity. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8360). Plastic yield conditions and stress-strain relations. Behavior of elastic-perfectly plastic members. Plain strain in plastic members. Prerequisites: Mechanical and Aerospace Engineering [MAE] 8330 or instructor's consent.

**MAE 8370. Advanced Combustion. 3 Credits.**

Numerical modeling of combustion systems and advanced diagnostic techniques. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4370.

**MAE 8380. Advanced Thermodynamics. 3 Credits.**

Advanced topics from classical thermodynamics. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4380.

**MAE 8385. Heat Transfer-Conduction. 3 Credits.**

Distribution of temperature and temperature history within solids by the four essential methods of evaluation of these temperature fields. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 8390. Statistical Thermodynamics. 3 Credits.**

Statistical methods of evaluating thermodynamic properties. Elements of quantum mechanics, statistical mechanics and kinetic theory applied to topics of engineering thermodynamics. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4380 and Statistics [STAT] 4710.

**MAE 8392. Dynamics of Structures. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8392). Study of the dynamic behavior of structures. Analysis of equivalent lumped parameter systems for the design of structures in a dynamic environment. Prerequisites:

Civil Engineering [CV\_ENG] 8390 or equivalent, Proficiency in Digital Computer Programming, or instructor's consent.

**MAE 8410. Boundary Layer Theory. 3 Credits.**

Fluid motion at high Reynolds Number. Derivation of Navier-Stokes equations and boundary layer equations. Methods of solution. Transition to turbulent flow. Completely developed turbulent flow. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4420.

**MAE 8420. Computational Heat Transfer and Fluid Dynamics. 3 Credits.**

Introduction to numeric analysis techniques applied to heat transfer and fluid dynamics problems. Coverage will include, the development of discretization equations for the control volume approach and solution strategies of those equations. Results from numeric simulations will be compared with close form analytic solutions and commercial numeric code output.

**MAE 8430. Introduction to Two Phase Flow. 3 Credits.**

An introduction to the analysis of the mechanics and transport processes in two phase flows. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3400.

**MAE 8440. Physical Gas Dynamics. 3 Credits.**

Study of the flow of chemically reacting gases of interest in mechanical and aerospace engineering. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4300.

**MAE 8450. Introduction to Turbulence. 3 Credits.**

An introduction to the physical phenomena of turbulence, supported by mathematical and statistical descriptions. Especially appropriate for engineers involved in research of momentum, heat, and mass transport. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4420.

**MAE 8510. Manufacturing Design. 3 Credits.**

Design for manufacture methods, their capabilities and applications. Design of intelligent manufacturing systems using sensory systems and artificial intelligence techniques. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3100 and 4500.

**MAE 8520. Computer Integrated Manufacturing. 3 Credits.**

Modeling and simulation of manufacturing processes and advanced computer applications in manufacturing systems and machining processes, NC-programming. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4500 and 4700.

**MAE 8620. Advanced Dynamics. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8620). Fundamental principles of advanced rigid body dynamics with applications. Special mathematical techniques including Lagrangian and Hamiltonian methods. Prerequisites: Mechanical and Aerospace Engineering [MAE] 2600.

**MAE 8630. Vibrations of Distributed Parameter Systems. 3 Credits.**

(same as Civil Engineering [CV\_ENG] 8630). Vibration analysis of strings, cables, bars, rods, shafts, beams, membranes, plates, circular rings, frames; free and forced oscillation; miscellaneous loading; various boundary conditions; effect of damping; energy methods; method of difference equations. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4660.

**MAE 8660. Advanced Vibration Analysis. 3 Credits.**

Advanced topics in vibration theory and its application to Mechanical Systems. Topics include vibration analysis of multi-degree of freedom, distributed and nonlinear systems, random vibration analysis, and vibration control. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4660 or instructor's consent.

**MAE 8670. Advanced Vehicle Dynamics. 3 Credits.**

Applications of advanced dynamics, sensitivity analysis, and stability methods to analysis of complex vehicle dynamic systems. Modeling of pneumatic tire behavior, development and experimental validation of advanced vehicle computer simulations. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4670.

**MAE 8740. Robust Control. 3 Credits.**

Definition of the robust performance problem with the goal of achieving specified signal levels in the face of plant uncertainty; uncertainty and robustness, stabilization, design constraints, loopshaping, model matching and design for robust performance. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4700, and 8780 or instructor's consent.

**MAE 8750. Nonlinear Control. 3 Credits.**

Nonlinear systems analysis techniques including phase plane analysis, Lyapunov theory. Control design including feedback linearization, sliding control, and adaptive control. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4700 and 8780.

**MAE 8780. State Variable Methods in Automatic Control. 3 Credits.**

(same as Chemical Engineering [CH\_ENG] 8780, Electrical and Computer Engineering [ECE] 8780, Nuclear Engineering [NU\_ENG] 8408). State variables for continuous and discrete-time dynamic control systems; controllability and observability; optimal control of linear systems. Prerequisites: Mechanical and Aerospace Engineering [MAE] 4700.

**MAE 8910. Modular Machine Tool Design. 3 Credits.**

This course introduces necessary concepts and tools for modular machine tool design. Students will learn how to apply mechanical design knowledge and commercially available subassemblies and parts to design modular machine tools for mass production application. Prerequisite: Mechanical and Aerospace Engineering [MAE] 4980 or instructor's consent.

**MAE 8920. Reliability-Based Design of Engineering Systems. 3 Credits.**

Introduction to the methods that identify the ability of a system to perform its required functions for a specified period of time. Topics include failure mode and effects analysis, reliability prediction, Weibull distribution analysis, reliability testing, and accelerated life testing. Prerequisite: Graduate standing in Engineering.

**MAE 8930. Advanced Mechanical System Modeling and Optimization. 3 Credits.**

Calculus of variations is introduced as a basic tool. Hamilton's Principle is used for system modeling. Numerical solution methods are used for dynamic simulation. Genetic algorithm and other algorithms are applied for system optimization. Prerequisites: Mechanical and Aerospace Engineering [MAE] 3600 and 4980. Seniors will require consent. Graded on A/F basis only.

**MAE 8990. Research-Masters Thesis in Mechanical and Aerospace Engineering. 1-99 Credit.**

Independent investigation in field of mechanical and aerospace engineering to be presented as a thesis. Graded on a S/U basis only.

**MAE 9990. Research-Doctoral Dissertation Mechanical & Aerospace Engineering. 1-99 Credit.**

Independent investigation in field of mechanical and aerospace engineering to be presented as a thesis. Graded on a S/U basis only.

## Medical Pharmacology and Physiology (MPP)

---

### **MPP 2010. The Science of Sex, Drugs and Rock'n'Roll. 1 Credit.**

This course will examine the data and theories for how drugs affect the body, for the physiology of reproduction and, for how sound affects the body. These topics will be used to motivate an understanding, and provide training in applying, the key scientific principles. Graded on A/F basis only.

### **MPP 3202. Elements of Physiology. 5 Credits.**

Beginning course for sophomore and above designed to cover the basic functional aspects of major organ systems of the body. Prerequisite: sophomore standing.

### **MPP 3290. Undergraduate Research. 1-3 Credit.**

Laboratory experience and opportunity to explore research in medical pharmacology and physiology.

### **MPP 3333. Fundamentals of Human Physiology. 3 Credits.**

This course presents the basic concepts of physiology using a problem based approach. The major organs systems are discussed with the relevance to everyday physiology as well as clinical and animal applications discussed.

### **MPP 3337. Human Physiology Laboratory. 2 Credits.**

This lab course will involve experiments to illustrate basic physiology concepts.

### **MPP 4001. Undergraduate Topics in Medical Pharmacology and Physiology. 1-3 Credit.**

Selected topics not in regularly offered courses. Prerequisite: instructor's consent.

### **MPP 4085. Undergraduate Problems in Medical Pharmacology and Physiology. 1-3 Credit.**

This course is designed to provide well-qualified undergraduate students the opportunity to engage in advanced study in topics in pharmacology or physiology with individual faculty members. Topics will be drawn from recent primary literature. Graded on A/F basis only. Prerequisites: instructor's consent.

### **MPP 4202. Medical Physiology. 4 Credits.**

Medical Physiology is intended for health scientists. Fat, bone, digestion, nutrition, appetite and brain health will be emphasized for health reform and updates for nervous, muscle, heart, vasculature, liver, renal, lung and endocrine systems with analysis for preventative medicine. Graded on A-F only. May be repeated for credit. Prerequisite: Nutrition or Biochemistry.

### **MPP 4204. Medical Pharmacology. 5 Credits.**

Medical pharmacology teaches the science of drug actions in medicine today, and principles of pharmacokinetics/dynamics. Future health professionals will learn prescription judgment and quality/cost improvements for patient safety. An online laboratory will teach drug database information technology. Prerequisites: Biological Science [BIO\_SC] 3700 or Medical Pharmacology and Physiology [MPP] 3202.

### **MPP 4204H. Medical Pharmacology-Honors. 0 Credits.**

Medical pharmacology teaches the science of drug actions in medicine today, and principles of pharmacokinetics/dynamics. Future health professionals will learn prescription judgment and quality/cost improvements for patient safety. An online laboratory will teach drug

database information technology. Prerequisites: BIO\_SC 3700 or MPP 3202. Honors eligibility required.

### **MPP 4310. Mammalian Cell Function. 3 Credits.**

An overview of the structure and function of mammalian cells including topics in membrane physiology and transport, cell signaling, compartmentalization and metabolism, cell proliferation and differentiation and the structure and function of certain specialized cells (e.g. muscle cells, epithelial cells and neurons). Laboratory and/or discussion sessions will be included as part of the course with laboratory topics to be determined. We will devote approximately 75% of the lecture to generalized cell functions, and 25% to deal with topics concerning specialized cells. Graded on A/F basis only. Prerequisite: instructor's consent. For graduate credit, students will be required to participate in laboratory exercises.

### **MPP 6271. ABS Pharmacology Mechanism of Disease. 5-10 Credit.** ABS Pharmacology Mechanism of Disease.

### **MPP 6273. ABS Pharmacology Research. 5-10 Credit.** ABS Pharmacology Research.

### **MPP 6275. ABS Pharmacology Research and Review. 5 Credits.** ABS Pharmacology Research and Review.

### **MPP 6281. ABS Physiology Mechanism of Disease. 5-10 Credit.** ABS Physiology Mechanism of Disease.

### **MPP 6283. ABS Physiology Research. 5-10 Credit.** ABS Physiology Research.

### **MPP 6285. ABS Problem Solving in Pharmacology and Physiology. 5-10 Credit.** ABS Problem Solving in Pharmacology and Physiology.

### **MPP 6525. Pharmacology. 5 Credits.** Pharmacology.

### **MPP 6535. Ion Transport Changes During Hypertension. 5 Credits.** Ion Transport Changes During Hypertension.

### **MPP 6537. Control of Myocardial Energy Production. 5 Credits.** Control of Myocardial Energy Production.

### **MPP 7300. Physics in Cell and Developmental Biology. 3 Credits.** (same as Physics [PHYSICS] and Biological Sciences [BIO\_SC] 7310). Introduction to physical mechanisms and their modeling in cellular processes and development. Prerequisite: instructor's consent.

### **MPP 7302. Drug Discovery and Design. 1 Credit.** Crosslisted with General Honors [GN\_HON] 1030H.

### **MPP 7310. Mammalian Cell Function. 3-5 Credit.** An integrated course covering the structure and function of mammalian cells as relevant to clinical translational research including topics in membrane physiology and transport, cell signaling, cell proliferation, differentiation, compartmentalization and metabolism. Graded on A/F basis only. Prerequisite: instructor's consent.

### **MPP 7422. Medical Physiology. 4 Credits.** Medical Physiology is intended for health scientist. Fat, bone, digestion, nutrition, appetite and brain health will be emphasized for health reform and updates for nervous, muscle, heart, vasculature, liver, renal, lung and endocrine systems with analysis for preventive medicine. May be repeated for credit. Graded on A-F basis only. Prerequisites: Nutrition or Biochemistry.

**MPP 7424. Pharmacology and Translational Medicine. 5 Credits.**

Pharmacology teaches the science of drug actions in medicine today and principles of pharmacokinetics/dynamics. Future medical researchers will learn molecular probes for medical research and translational science to improve health care. An online laboratory will teach drug database information technology. Prerequisites: Biological Sciences [BIO\_SC] 3700 or Medical Pharmacology and Physiology [MPP] 3202. Graded on A-F only basis.

**MPP 8001. Graduate Topics in Medical Pharmacology and Physiology. 1-3 Credit.**

Prerequisite: instructor's consent.

**MPP 8050. Non-Thesis Research in Medical Pharmacology and Physiology. 1-5 Credit.**

Opportunities for graduate research in physiology or pharmacology not leading to dissertation. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 8085. Graduate Problems in Medical Pharmacology and Physiology. 1-3 Credit.**

Guided study to strengthen knowledge in physiology and pharmacology. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 8090. Thesis Research in Medical Pharmacology and Physiology. 1-99 Credit.**

Research in physiology or pharmacology, leading to dissertation. Graded on a S/U basis only. Prerequisite: instructor's consent.

**MPP 8410. Neural Control. 1 Credit.**

An integrated course covering the physiology and pharmacology of the autonomic nervous system and the central nervous system. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 8411. Mammalian Pharmacology and Physiology. 5 Credits.**

An integrated course covering the basic concepts in physiology and pharmacology of the cardiovascular, gastrointestinal, endocrine, renal, and respiratory systems with an emphasis of applying the key concepts to clinically relevant examples. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 8412. Seminar in Medical Pharmacology and Physiology. 1 Credit.**

Instruction in critical evaluation, review, and summary of scientific data and practice in oral presentation of scientific research seminar. Taught in conjunction with weekly department seminar series.

**MPP 8415. Ethics Education by Engagement, Entactment & Empowerment. 2 Credits.**

The emphasis is on the scientific research ethics problems in interdisciplinary work. Student involvement can include designing mock misconduct trials or writing advocacy letters to change current policy. Prerequisites: graduate standing required. Consent of instructor required.

**MPP 8417. Scientific Communication. 2 Credits.**

A course to foster and improve students ability to communicate orally and in writing. Student enrolled in the course will be expected to write a report and present a seminar on a topic related to one of the lab rotation projects to the mentor of the rotation and other interested faculty members and students. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 8420. Skills in Biomedical Research. 2 Credits.**

This course focuses on introducing graduate students to the basics of biomedical research. Course objectives are to provide new graduate students with a basic understanding of laboratory safety issues and

fundamental skills that are integral to research including principles of experimental design, theory and practical application of modern research techniques, written and oral communication of research information, and scientific record keeping standards. Prerequisites: Graduate standing required. Graded on S/U basis only.

**MPP 9090. Thesis Research in Medical Pharmacology and Physiology. 1-99 Credit.**

Research in physiology or pharmacology, leading to dissertation. Graded on a S/U basis only. Prerequisite: instructor's consent.

**MPP 9421. Neural Pharmacology. 1-3 Credit.**

Biochemical and behavioral actions of drugs affecting the nervous system. Effects of drugs on synaptic mechanism including neurotransmitter metabolism and receptor interactions. Graded on A/F basis only. Prerequisite: instructor's consent.

**MPP 9422. Medical Pharmacology and Physiology Journal Club. 1 Credit.**

On a weekly basis, individual students are assigned current high profile journal articles to present to their fellow students and faculty in a journal club setting. Each student in the course is required to read the paper in advance and participate in discussions of the figures and general topics that is being presented. Prerequisite: enrolled in MPP PhD graduate program. Graded on S/U basis only.

**MPP 9423. Oncological Pharmacology. 1-3 Credit.**

An in-depth study of the causes and treatments of cancers including discussions of mutagenesis and carcinogenesis, principles of cancer chemotherapy and recent developments with targeted therapeutics. The basis for genetic differences in cancer drug responsiveness including genetics predisposition's to disease and drug toxicity (pharmacogenetics) and genetic polymorphism's associated with disease susceptibility, adverse drug responses and drug resistance (pharmacogenomics) will also be discussed. Prerequisite: Medical Pharmacology and Physiology [MMP] 8411.

**MPP 9425. Receptor Pharmacology. 1-2 Credit.**

The goal of this course is to facilitate the student's efforts to obtain a solid working knowledge of receptor pharmacology, physiology and molecular biology that can be of benefit in the future. The course will explore a variety of receptor issues, primarily in a discussion format organized by the faculty members involved in the course. The course is divided into two related components. The first component will cover general principles of quantifying ligand - receptor interactions and subsequent responses, summarize some of the methods of receptor identification and characterization and evaluate the various schemes of receptor typing and subtyping. The second component will explore specific characteristics of receptors from some of the major receptor families with an emphasis on understanding mechanisms of receptor activation and regulation as well as exploring concepts about the structural basis for discrete receptor functions. A typical list of receptors to be covered in the course may include the tyrosine kinase receptors, G protein-coupled receptors, cytokine receptors, ligand activated transcription factors (nuclear receptors), adhesion receptors such as integrins, and ligand activated ion channels.

**MPP 9426. Transmembrane Signaling. 4 Credits.**

This course is for advanced level graduate students. The course is designed to develop state of the art knowledge and understanding of current research issues in the cell signaling. The major emphasis is on receptor and non-receptor mediated transmembrane signaling events underlying physiological and pharmacological responses of the cells.

Students are also involved in class presentations, and the development and critical review of new research proposals, all focused on cellular signaling. Prerequisite: basic courses in biochemistry and or cell and molecular biology or equivalent.

**MPP 9427. Drug Metabolism. 1-3 Credit.**

(same as Veterinary Biomedical Science [V\_BSCI] 9427). The course is concerned with the absorption, distribution, metabolism and elimination of drugs using a comparative approach. The pharmacokinetic aspects of elimination are stressed.

**MPP 9428. Clinical Biodetection. 2 Credits.**

Interdisciplinary approach to clinical translational applications of physiology and pharmacology and related life, physical, chemical, and engineering sciences. Graduate standing required. Consent of instructor required.

**MPP 9429. Principles and Frontiers of Molecular Pharmacology. 5 Credits.**

An in-depth examination of pharmacodynamics, structure-activity relationships, pharmacokinetics/drug metabolism, and toxicology, followed by a consideration of emerging concepts regarding membrane receptors and channels and their role in biology and medicine. Prerequisites: graduate standing required. Students must have completed a physiology, biochemistry or cell biology course.

**MPP 9430. Cardiovascular Physiology. 3 Credits.**

This course is designed to provide the student with an in depth knowledge of specific aspects of cardiovascular physiology with major emphasis on cardiac structure and function. Topics are covered in 1, 3-4 hour session per week and are based on reading assignments from the literature. The following topics have been addressed in previous offerings but the specific topics may vary from year to year: Heart muscle structure related to function; Contractile proteins structures and function; Regulation of protein synthesis; Regulation of myocardial hypertrophy; Regulation of myocardial metabolism; Myocardial mechanics systolic and diastolic function; Mechanisms of length dependent contraction; Control of electrical-mechanical coupling processes; Mechanisms for adrenergic regulation of myocardial function. Prerequisites: Medical Pharmacology and Physiology [MMP] 4310 and 8411 or the equivalent (e.g., UM first year medical school curriculum, Veterinary Biomedical Science [V\_BSCI] 8421, or Biological Sciences [BIO\_SC] 3700 with supporting courses).

**MPP 9431. Control of Energy Metabolism. 3 Credits.**

(same as Veterinary Biomedical Science [V\_BSCI] 9431). This advanced elective is in a lecture/discussion format using primary literature to explore how cells organize and regulate metabolism to meet energy demands. Prerequisite: instructor's consent.

**MPP 9432. Mammalian Membrane Physiology. 1-3 Credit.**

This course is designed to stimulate active learning of the concepts of modern membrane physiology. Throughout the course, a balance will be maintained between examining classic papers in the field and current literature, including not only theories that have held up over time, but areas in which there is current dispute as the best model that describes the observations.

**MPP 9434. Microvascular Circulatory Function. 4 Credits.**

(same as Veterinary Biomedical Sciences [V\_BSCI] 8370.) An in-depth study of microcirculatory structure and function in various tissues with emphasis on recent developments in the understanding of the mechanisms involved in nutrient supply, edema formation, lymphatic function and fluid balance. Prerequisite: Veterinary Biomedical Science [V\_BSCI] 8420 and 8421 or equivalent and instructor's consent.

**MPP 9435. Skeletal Muscle. 1-3 Credit.**

(same as Veterinary Biomedical Sciences [V\_BSCI] 9435). Skeletal muscle mechanics, contractions theories, transgenic models, development, gene expression regulation, adaptation to exercise, aging, metabolic functions, and inactivity induced chronic diseases. Prerequisite: course director's consent required for enrollment.

**MPP 9436. Renal Physiology. 1-3 Credit.**

Mechanisms in mammalian renal physiology presented with particular emphasis on current techniques and concepts. Prerequisites: Veterinary Biomedical Science [V\_BSCI] 8420 and 8421 or equivalent and instructor's consent.

**MPP 9437. Neural Control of the Circulation. 1-3 Credit.**

(same as Veterinary Biomedical Science [V\_BSCI] 9467). Course objectives include developing a general understanding of CNS mechanisms in the regulation of the cardiovascular system, including autonomic, neurohumoral and body fluid homeostatic mechanisms, gaining knowledge of the major advances and topics in the field and becoming familiar with some of the methods used to study CNS cardiovascular regulation. Graded on A/F basis only. Prerequisites: instructor's consent.

## Medicine-Interdisciplinary (MED\_ID)

---

**MED\_ID 5041. Structure and Function of the Human Body I. 6 Credits.**

Biochemical principles, cell biology, human development, histology and gross anatomy with clinical correlates utilizing patient examples and non-invasive techniques.

**MED\_ID 5042. Interviewing. 3 Credits.**

Development of skills needed to obtain a history of the patient's present illness, past medical history and other pertinent background information. Vitally important to medical practice, these skills are role modeled, practiced and evaluate with detailed feedback. Additional emphasis is placed on the doctor-patient relationship, ethics and the role of the physician as a therapeutic agent.

**MED\_ID 5043. Structure and Function of the Human Body II. 6 Credits.**

Study of the structure and function of the body's metabolic, nervous and muscular systems.

**MED\_ID 5044. Physical Examination. 3 Credits.**

Introduction to the doctor-patient relationship and systematic physical examination of the patient. Certification in basic life support is also included.

**MED\_ID 5045. Structure and Function of the Human Body III. 6 Credits.**

Study of the structure and function of the body's cardiovascular, gastrointestinal, and urinary systems.

**MED\_ID 5046. Psychosocial Aspects of Medicine. 3 Credits.**

A brief study of the history of medicine and the impact of key events on current medical practice. Study of the biopsychosocial model, biomedical ethics and specific psychosocial problems encountered by physicians such as compliance, problems based in human sexuality, substance abuse and death and dying.

**MED\_ID 5047. Structure and Functions of the Human Body IV. 6 Credits.**

Study of the structure and function of the endocrine, reproductive, vascular systems. The classification of pathogenic and non-pathogenic organisms, mechanisms of infection, the immune response and the interaction between pharmacologic agents and exogenous organisms.

**MED\_ID 5048. Clinical Epidemiology and Preventive Medicine. 3 Credits.**

Application of clinical epidemiology to understanding measurement of population characteristics and to the critical analysis of the literature through analysis of study designs and interpretation of the results and causal relationships. Study of prevention, screening and health maintenance as important aspects of health care.

**MED\_ID 5051. Ambulatory Clinical Experience 1. 1 Credit.**  
Ambulatory Clinical Experience 1.

**MED\_ID 5052. Ambulatory Clinical Experience 2. 1 Credit.**  
Ambulatory Clinical Experience 2.

**MED\_ID 5053. Ambulatory Clinical Experience 3. 1 Credit.**  
Ambulatory Clinical Experience 3.

**MED\_ID 5054. Ambulatory Clinical Experience 4. 1 Credit.**  
Ambulatory Clinical Experience 4.

**MED\_ID 5180. FULL-TIME ENROLLMENT FOR POST-SOPHOMORE FELLOWS. 18 Credits.**  
FULL-TIME ENROLLMENT FOR POST-SOPHOMORE FELLOWS.

**MED\_ID 5201. Summer Clinical Practicum Family Medicine. 0 Credits.**  
Summer Clinical Practicum Family Medicine.

**MED\_ID 5205. Individualized Study. 1-5 Credit.**  
Individualized Study.

**MED\_ID 5207. Summer Clinical Practicum Internal Medicine. 0 Credits.**  
Summer Clinical Practicum Internal Medicine. 4 week course. Zero credit hours, 4 FA hours.

**MED\_ID 5209. Summer Clinical Fellowship. 0 Credits.**  
Summer Clinical Fellowship.

**MED\_ID 5213. Leadership Practicum. 0 Credits.**  
Leadership Practicum.

**MED\_ID 5215. Summer Clinical Practicum - Medical Education. 0 Credits.**  
Summer Clinical Practicum - Medical Education- Zero billing hours and 4 FA hours.

**MED\_ID 5217. Summer Clinical Practicum - Rural Track. 0 Credits.**  
This represents non-credit clinical and research experiences that medical students may take during the summer following their first (M1) year of medical school. 8 weeks. Zero Credit.

**MED\_ID 5253. Post-Sophomore Fellowship. 3 Credits.**  
Post-Sophomore Fellowship.

**MED\_ID 5341. Structure/Function Human Body I - Remediation. 6 Credits.**  
Structure/Function Human Body I - Remediation.

**MED\_ID 5342. Interviewing - Remediation. 3 Credits.**  
Interviewing - Remediation.

**MED\_ID 5343. Structure/Function Human Body II - Remediation. 6 Credits.**  
Structure/Function Human Body II - Remediation.

**MED\_ID 5344. Physical Exam - Remediation. 3 Credits.**  
Physical Exam - Remediation.

**MED\_ID 5345. Structure/Function Human Body III. 6 Credits.**  
Structure/Function Human Body III.

**MED\_ID 5346. Psychosocial Aspects Med - Remediation. 3 Credits.**  
Psychosocial Aspects Med - Remediation.

**MED\_ID 5347. Structure/Function Human Body IV - Remediation. 6 Credits.**  
Structure/Function Human Body IV - Remediation.

**MED\_ID 5348. Clinical Epidemiology and Preventive Medicine - Remediation. 3 Credits.**  
Clinical Epidemiology and Preventive Medicine - Remediation.

**MED\_ID 5351. Ambulatory Clinical Experience 1- Remediation. 1 Credit.**  
Ambulatory Clinical Experience 1- Remediation.

**MED\_ID 5352. Ambulatory Clinical Experience 2- Remediation. 1 Credit.**  
Ambulatory Clinical Experience 2- Remediation.

**MED\_ID 5353. Ambulatory Clinical Experience 3-Remediation. 1 Credit.**  
Ambulatory Clinical Experience 3-Remediation.

**MED\_ID 5354. Ambulatory Clinical Experience 4- Remediation. 1 Credit.**  
Ambulatory Clinical Experience 4- Remediation.

**MED\_ID 5551. Pathophysiology I. 6 Credits.**  
Pathophysiologic mechanisms of cell injury, inflammation and repair, hemodynamic disturbances, genetic disorders, autoimmune response, immune deficiency and hypersensitivity reactions.

**MED\_ID 5552. Diagnostic Tests and Medical Decisions. 3 Credits.**  
Assessment of the appropriate use and interpretation of common diagnostic tests and their contribution to medical decisions and the care of patients. Includes emphasis on the review of systems, interactive hypothesis testing, differential diagnosis probability, sensitivity and specificity, and cost benefit and cost effectiveness analysis.

**MED\_ID 5553. Pathophysiology II. 6 Credits.**  
Pathophysiologic mechanisms of cardiovascular disease, diseases of the respiratory system, disorders of the blood, and nutritional diseases.

**MED\_ID 5554. Psychopathology and Behavioral Medicine. 3 Credits.**  
Presentation and discussion of the U.S. health care system and health care reform, financing and resource allocation, and the impact of change on individuals, communities, employers and the government. Included are analyses of the ethical and legal implications of health care and health care reform.

**MED\_ID 5555. Pathophysiology III. 6 Credits.**  
Pathophysiologic mechanisms of the digestive, endocrine and urogenital systems.

**MED\_ID 5556. Clinical Practicum. 3 Credits.**  
A continuation of Block 6 objectives and a clinical practicum and review comprise this block.

**MED\_ID 5557. Pathophysiology IV. 6 Credits.**

Pathophysiology of infectious diseases, reproductive disorders, musculoskeletal and soft tissues diseases, diseases affecting the nervous system and skin diseases.

**MED\_ID 5558. Physician as a Person. 3 Credits.**

Exploration of the physician as a person, the balance between professional and personal demands, family life, membership in a community, the stresses and rewards of the medical profession, professional ethics and the doctor-patient relationship. A four week clinical review completes this block.

**MED\_ID 5561. Advanced Physical Diagnosis 1. 1 Credit.**

Advanced Physical Diagnosis 1.

**MED\_ID 5562. Advanced Physical Diagnosis 2. 1 Credit.**

Advanced Physical Diagnosis 2.

**MED\_ID 5563. Advanced Physical Diagnosis 3. 1 Credit.**

Advanced Physical Diagnosis 3.

**MED\_ID 5564. Advanced Physical Diagnosis 4. 1 Credit.**

Advanced Physical Diagnosis 4.

**MED\_ID 5570. Advanced Clinical Skill Practicum. 0 Credits.**

This course is designed for MD/PhD students and other medical students away on research or post-sophomore fellowship leave. Approval to enroll must be obtained from the Director of the MD/PhD program or the Faculty Director of Clinical curriculum. Graded on S/U basis only. Prerequisite: Advanced Physical Diagnosis; must have satisfactorily completed the second year of medical school.

**MED\_ID 5751. Pathophysiology I - Remediation. 6 Credits.**

Pathophysiology I - Remediation.

**MED\_ID 5752. Diagnosis Test/Med Decision - Remediation. 3 Credits.**

Diagnosis Test/Med Decision - Remediation.

**MED\_ID 5753. Pathophysiology II - Remediation. 6 Credits.**

Pathophysiology II - Remediation.

**MED\_ID 5754. Psychopathology/Behavioral Med - Remediation. 3 Credits.**

Psychopathology/Behavioral Med - Remediation.

**MED\_ID 5755. Pathophysiology III - Remediation. 6 Credits.**

Pathophysiology III - Remediation.

**MED\_ID 5756. Clinical Practicum - Remediation. 3 Credits.**

Clinical Practicum - Remediation.

**MED\_ID 5757. Pathophysiology IV - Remediation. 6 Credits.**

Pathophysiology IV - Remediation.

**MED\_ID 5758. Physician as a Person - Remediation. 3 Credits.**

Physician as a Person - Remediation.

**MED\_ID 5761. Advanced Physical Diagnosis 1- Remediation. 1 Credit.**

Advanced Physical Diagnosis 1- Remediation.

**MED\_ID 5762. Advanced Physical Diagnosis 2- Remediation. 1 Credit.**

Advanced Physical Diagnosis 2- Remediation.

**MED\_ID 5763. Advanced Physical Diagnosis 3- Remediation. 1 Credit.**

Advanced Physical Diagnosis 3- Remediation.

**MED\_ID 5764. Advanced Physical Diagnosis 4- Remediation. 1 Credit.**

Advanced Physical Diagnosis 4- Remediation.

**MED\_ID 6100. Advanced Elective. 3 Credits.**

Advanced Elective - 0 Credit.

**MED\_ID 6200. ABS Advanced Basic Science. 5 Credits.**

ABS Advanced Basic Science.

**MED\_ID 6235. ABS DERMATOLOGY RSCH&REV. 5 Credits.**

ABS Dermatology Research and Review.

**MED\_ID 6243. ABS EMERGENCY MED RSCH. 5 Credits.**

ABS Emergency Medicine Research.

**MED\_ID 6244. ABS Quality Improvement and Patient Safety Elective. 5 Credits.**

The 4th year student will work with leaders in the Office of Clinical Effectiveness to identify an improvement project to be conducted during the elective. Students will have self-paced readings/didactic expectations, and will be expected to review and report on medical literature relevant to the care process(es) targeted for improvement. To complete their project, the student will present the improvement work to patient safety and quality improvement leaders, as well as stakeholders in the care process(es) identified for improvement efforts.

**MED\_ID 6390. ABS Individualized Study in Medicine-M1. 5 Credits.**

Prerequisites: M4s registering for PBL tutoring must be in good standing and not on probation. M4s must not have come before the CSP for an automatic vote for dismissal. Goals/Objectives: Participate in PBL as a tutor under the guidance of an experienced faculty tutor. Review the literature appropriate to each case. Update one PBL case that is used in the course of the block OR update a problem solving exam OR write a new problem solving exam. Students must submit the case or exam electronically to the course coordinator. Evaluation: Student's performance as tutor will be evaluated by the supervising faculty member and the tutor group members. Notes: During a four-week block, the fourth year student will tutor an M-1 PBL group (Monday, Wednesday, & Friday mornings) under the supervision of a senior faculty member. Contact course coordinator for case update details. Submission date for case update is set two weeks after the tutoring session ends. The student will attend all tutor preparation meetings and prepare for PBL through reading, self-directed study and discussions with faculty. Complete student mid-block and end-of-block evaluation as directed.

**MED\_ID 6391. ABS Individualized Study in Medicine-M2. 5 Credits.**

ABS Individualized Study in Medicine-M2.

**MED\_ID 6393. ABS Interdisciplinary Research. 5-10 Credit.**

ABS Interdisciplinary Research.

**MED\_ID 6394. ABS Cross-Cultural Medicine. 5 Credits.**

ABS Cross-Cultural Medicine.

**MED\_ID 6395. ABS Interdisciplinary Research and Review. 5-10 Credit.**

ABS Interdisciplinary Research and Review.

**MED\_ID 6396. ABS Medical Practice Organization. 5-10 Credit.**

ABS Medical Practice Organization.

**MED\_ID 6397. ABS Academic Tutoring for M1/M2 Students. 5 Credits.**

ABS Academic Tutoring for M1/M2 Students.

**MED\_ID 6398. ABS County Public Health. 5 Credits.**

ABS County Public Health.

**MED\_ID 6399. ABS Case Writing. 5 Credits.**

ABS Case Writing.

**MED\_ID 6690. Elective Individual Study in Medicine - M1. 5 Credits.**

Elective Individual Study in Medicine - M1.

**MED\_ID 6691. Elective Individual Study in Medicine - M2. 5 Credits.**

Prerequisites: M4s registering for PBL tutoring must be in good standing and not on probation. M4s must not have come before the CSP for an automatic vote for dismissal. Goals/Objectives: Participate in PBL as a tutor under the guidance of an experienced faculty tutor. Evaluations: the student's performance as tutor will be evaluated by the supervising faculty member and the tutor group members. Notes: During the four-week block, the fourth year student will tutor a M-2 PBL group (Tuesday and Thursday afternoons) under the supervision of a senior faculty member.

**MED\_ID 6692. Case Writing Elective. 5 Credits.**

Case Writing Elective.

**MED\_ID 6693. Simulation Preparation for Internship. 5 Credits.**

This course is meant to increase the medical students' knowledge and skillsbase in preparation for the first year of internship. In order to accomplish this, the students will be exposed to a variety situations common to first year residents through activities created with simulation. Throughout the course, students will demonstrate how to provide effective and efficient patient-centered care, while improving their communication skills and professionalism with patients and other healthcare providers. Students will understand the role of simulation in medical education and develop skills in debriefing of scenarios throughout the course. At the end of the course, students will be expected to complete a simulation capstone project. Prerequisite: Class level: 4th year medical student. Approval by Simulation Director and Completion of all Core Clerkship Requirements.

**MED\_ID 6890. Computer Applications in Medicine. 5 Credits.**

Computer Applications in Medicine.

## Microbiology (MICROB)

---

**MICROB 2800. Microbiology for Nursing and Health Professions. 4 Credits.**

This course will provide basic principles for understanding microbial growth, function, and control. This includes a survey of microbial cellular structure/functions, immunology concepts, epidemiology, specimen handling, and causes of microbial disease (bacterial, viral, and parasitic). Material is presented in lecture and corresponding laboratory exercises that will allow students to explore the microbial world around them. The overall content is "restricted to Freshman and sophomore Nursing and Health Related Professional students only". Other inquires contact department.

**MICROB 3200. Medical Microbiology and Immunology. 4 Credits.**

Focus on medically important viruses, bacteria, fungi and parasites with emphasis on their disease causing potential and mechanisms. Introduction to cells and molecules of the immune system with emphasis on their role in fighting infectious diseases. Discussion of treatment and prevention strategies. Lecture material will be reinforced with laboratory demonstrations and hands-on exercises. The course is intended for preprofessional students.

**MICROB 4300. Bacterial Pathogenesis. 2 Credits.**

This team taught course covers the biology and virulence mechanisms of bacterial pathogens, with emphasis on those causing human and zoonotic diseases. Topics covered include bacterial structure, genetics, physiology, and metabolism; antibiotic resistance; host-pathogen interactions; microbiomes and emerging pathogens.

**MICROB 4303. Fundamental Virology. 2 Credits.**

Classification of viruses, life cycles, genome organization and expression, host-virus interactions, oncogenes and cellular transformation, viral pathogenesis, viral gene therapy approaches, strategies for anti viral therapy. Prerequisite: undergraduates require instructor's consent. This course will include evaluation of current literature and require paper presentations.

**MICROB 4304. Immunology. 3 Credits.**

This is a comprehensive team-taught, basic immunology course covering cells and organs of the immune system, lymphocyte development, innate immunity, antibody production, antibody-antigen presentation, CD4+ and CD8+ T lymphocyte responses, cytokines, autoimmunity and immunodeficiency among other immunologically relevant topics. Completion of a biochemistry, genetics, or molecular biology course would be helpful. Prerequisites: Microbiology [MICROB] 3200 or Biochemistry [BIOCHEM] 4270 recommended.

**MICROB 4305H. Honors Bacterial Pathogenesis. 2 Credits.**

This team taught course covers the biology and virulence mechanism of bacterial pathogens, with emphasis on those causing human and zoonotic diseases. Topics covered include bacterial structure, genetics, physiology, and metabolism; antibiotic resistance; host-pathogen interactions; microbiomes and emerging pathogens. Honors eligibility required.

**MICROB 6291. ABS Microbiology Mechanism of Disease. 5-10 Credit.**

ABS Microbiology Mechanism of Disease.

**MICROB 6293. ABS Microbiology Research. 5-10 Credit.**

ABS Microbiology Research.

**MICROB 6295. ABS Microbiology Research and Review. 5-10 Credit.**

ABS Microbiology Research and Review.

**MICROB 7303. Fundamental Virology. 2 Credits.**

Classification of viruses, life cycles, genome organization and expression, host-virus interactions, oncogenes and cellular transformation, viral pathogenesis, viral gene therapy approaches, strategies for anti viral therapy. Prerequisites: Undergraduates require instructor's consent. This course will include evaluation of current literature and require paper presentations.

**MICROB 7304. Immunology. 2 Credits.**

Covers innate immunity, antibodies, antigens, MHC, antigen presentation, lymphocyte development, antigen specific receptors, lymphocyte activation and differentiation, immune effector mechanisms, hypersensitivities, tolerance, autoimmunity, immunodeficiencies. Prerequisites: Microbiology [MICROB] 3200 or Biochemistry [BIOCHEM] 4270 or 4272 recommended or instructor's consent.

**MICROB 7404. Bacterial Pathogenesis. 2 Credits.**

This team taught course covers the biology and virulence mechanisms of bacterial pathogens, with emphasis on those causing human and zoonotic disease. Topics covered include bacterial structure, genetics, physiology, and metabolism; antibiotic resistance; host-pathogen

interactions; microbiomes and emerging pathogens. Prerequisite: graduate standing.

**MICROB 8050. Graduate Student Survival Skills. 1 Credit.**

This course is an introduction to inform new graduate students about the Microbiology program and provide them with the knowledge to access resources and information needed for a successful transition into their course work and research. The course will also focus on guidelines in selecting mentors and their relationships, time management, good notebook practices, presentation and posters, comprehensive exams, and computer skills needed. Graduate standing required. Graded on S/U basis only.

**MICROB 9001. Topics in Microbiology. 1-99 Credit.**

Current topics, highly specialized topics taught infrequently, or courses taught by visiting professors. Prerequisite: graduate standing and instructor's consent.

**MICROB 9085. Problems in Microbiology. 1-99 Credit.**

Students assigned individual problems in microbiology for library or lab investigation. Prerequisite: graduate standing and instructor's consent. Graded on S/U basis only.

**MICROB 9087. Seminar in Microbiology. 1 Credit.**

Presentation and critical discussion of student and staff research, current literature, and guest lectures on subjects in various areas of microbiology. Prerequisite: graduate standing. Graded on S/U basis only.

**MICROB 9090. Research in Microbiology. 1-99 Credit.**

Original investigations in various areas of microbiology related to bacteria, fungi, rickettsia, viruses, and animal parasites, or immunology relating to antigens and antibodies of infectious and noninfectious nature designed for graduate thesis research. Prerequisite: graduate standing and instructor's consent. Graded on a S/U basis only.

**MICROB 9403. Advanced Medical Microbiology. 2 Credits.**

Similar to Molecular Microbiology and Immunology [MICROB] 4300 but treats medical microbiology and immunology in a more advanced manner. Methods of preparation and instruction stressed. Prerequisite: graduate standing and instructor's consent. Graded on S/U basis only.

**MICROB 9407. Advanced Immunology. 3 Credits.**

Lectures and discussions emphasizing theoretical aspects of immunology and detailed considerations of the more involved areas of this science. Prerequisites: Molecular Microbiology and Immunology [MICROB] 4304 or equivalent, graduate standing and instructor's consent.

**MICROB 9411. Responsible Conduct of Research. 1 Credit.**

Ethical, legal and sociological ramifications of research including data management, authorship, human and animal use, conflict of interest and misconduct. Round table discussions and interactive forums. Grading based on participation in discussions and assignments. Prerequisite: graduate standing. Graded on S/U basis only.

**MICROB 9430. Molecular Biology I. 4 Credits.**

(same as Biochemistry [BIOCHM] 9430). Detailed examination of current fundamental concepts of molecular genetics of bacteria, bacteriophages and yeast. Experimental approaches to analysis of the physical structures of genomic nucleic acids, the biochemistry and genetics of mutations, replications, gene transfer and gene expression will be examined in depth from reports in the current literature. Prerequisite: Biochemistry, genetics, and graduate standing.

**MICROB 9432. Molecular Biology II. 4 Credits.**

(same as Biochemistry [BIOCHM] and Biological Sciences [BIO\_SC] 9432). Detailed experimental analysis of eukaryotic cellular and molecular

biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic analysis and genetic determinants controlling developmental processes utilizing the current literature will be examined. Prerequisite: Molecular Microbiology and Immunology [MICROB] 9430, graduate standing.

**MICROB 9449. Infection and Immunity. 4 Credits.**

Writing, discussion, literature driven course, covering topics that focus on the interface between infectious diseases, cancer and the immune system. Prerequisites: 2nd year Graduate student with bacteriology, virology, microbial pathogenesis and immunology background only. 1st year graduate students require instructor approval. Graded A-F basis only. May be repeated for credit.

## **Military Science (MIL\_SC)**

---

**MIL\_SC 1100. Foundations of Officership. 1 Credit.**

Introduces students to issues and competencies that are central to a commissioned officer's responsibilities. Establish framework for understanding officership, leadership, and Army values followed and "life skills" such as physical fitness and time management.

**MIL\_SC 1110. Introductory Military Science Laboratory I. 1 Credit.**

Field application of skills taught in Military Science 1100, to include leadership, land navigation, tactical skills and basic soldier skills. Prerequisite: Military Science [MIL\_SC] 1100.

**MIL\_SC 1120. Basic Leadership. 1 Credit.**

Establishes foundation of basic leadership fundamentals such as problem solving, communication, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling.

**MIL\_SC 1130. Introductory Military Science Laboratory II. 1 Credit.**

Field application of skills taught in Military Science 1120, to include leadership, land navigation, tactical skills and basic soldier skills. Prerequisite: Military Science [MIL\_SC] 1120.

**MIL\_SC 2200. Individual Leadership Studies. 2 Credits.**

Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings.

**MIL\_SC 2210. Intermediate Military Science Laboratory I. 1 Credit.**

Progressively more challenging leadership scenarios presented in a field and classroom environment. Students practice basic military skills such as squad-level offensive and defensive operations. First aid topics and drill and ceremony are also taught. Prerequisite: Military Science [MIL\_SC] 2200.

**MIL\_SC 2220. Leadership and Teamwork. 2 Credits.**

Study examines how to build successful teams, various methods for influencing action, effective communication in selling and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback.

**MIL\_SC 2230. Intermediate Military Science Laboratory II. 1 Credit.**

Progressively more challenging leadership scenarios presented in a field and classroom environment. Students practice basic military skills such as platoon-level offensive and defensive operations. Practical application of night land navigation. Prerequisite: Military Science [MIL\_SC] 2220.

**MIL\_SC 3160. Death by a Thousand Cuts: Counterinsurgency/Insurgency the American Experience. 3 Credits.**

This course explores the problem of insurgency and counterinsurgency in terms of what we can learn from these conflicts. It examines counterinsurgency theory and practice, the Philippine Insurrection, Banana Wars, Vietnam War, Afghanistan, and Iraq.

**MIL\_SC 3161. The American Experience in Vietnam. 3 Credits.**

This course was developed to provide students the opportunity to examine the American experience in the Vietnam War, to search for meanings in this experience, and to arrive at their own conclusions concerning the impact of the war upon the nation. Moreover, it challenges the students to think critically about war and the use of military power to settle differences between nations. May be repeated for credit.

**MIL\_SC 3162. Counterinsurgency in Asia. 3 Credits.**

This course explores the problem of insurgency and counterinsurgency in Asia in terms of what we can learn from these conflicts. The course examines the insurgency in the Philippine Insurrection 1899-1902, the Vietnam War, the Soviet-Afghan War, in Thailand, Sri Lanka and Malayan Emergency. May be repeated for credit.

**MIL\_SC 3163. U.S. Military History in the Western Tradition. 3 Credits.**

Analysis of United States military history from the Colonial period to the present, (1609-2012). It is a comprehensive look into the evolution of warfare in America, military traditions and heritage, and technology. This course analyzes the following: American Revolution, War of 1812, Mexican American War, Civil War, Indian Wars, Spanish American War, World War I, Inter War Period, World War II, Korean War, Vietnam War, Gulf War, Afghanistan and Iraq. All cadets are required to take this course for commissioning. May be repeated for credit.

**MIL\_SC 3230. Leadership and Problem Solving. 3 Credits.**

Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. Prerequisite: departmental consent.

**MIL\_SC 3240. Leadership and Ethics. 3 Credits.**

Examines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, considerations of others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication ability. Prerequisite: Military Science [MIL\_SC] 3230.

**MIL\_SC 3250. Leadership and Management. 3 Credits.**

Develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques. Prerequisite: Military Science [MIL\_SC] 3240.

**MIL\_SC 3260. Officership. 3 Credits.**

Study includes case study analysis of military law and practical exercises on establishing an ethical command climate, service as an officer; capstone exercise. Leadership lab Students must complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, and demonstrate their leadership skills. Prerequisite: Military Science [MIL\_SC] 3250.

**MIL\_SC 3270. Advanced Transition to Lieutenant I. 3 Credits.**

Independent research, analysis and monthly discussion on related military topics. Personal, academic and professional goals and objectives, development and maintenance of an officer evaluation report support form. Prerequisites: Military Science [MIL\_SC] 1100, 2200, 3230, and 3250 or department head permission.

**MIL\_SC 3280. Advanced Transition to Lieutenant II. 3 Credits.**

Independent research, analysis and monthly discussion on related military topics. Personal academic and professional goals and objectives, development and maintenance of an officer evaluation report support form. Prerequisites: Military Science [MIL\_SC] 1100, 2200, 3230, and 3250 or department head permission.

## MU Informatics Institute (INFOINST)

---

**INFOINST 7005. Introduction to Bioinformatics: Tools and Applications. 3 Credits.**

Course will provide the introduction to the current directions in bioinformatics through the computational tools available to research community. Students will learn how to efficiently apply the tools and software packages as well as analyze and visualize the results. Instructors consent or Graduate standing required. A-F Grading Only.

**INFOINST 7010. Computational Methods in Bioinformatics. 3 Credits.**

(same as Computer Science [CMP\_SC] 7010). Fundamental concepts and basic computational techniques for mainstream bioinformatics problems. Emphasis placed on computational aspect of bioinformatics including formulation of a biological problem, design of algorithms, confidence assessment of software development. Prerequisites: Computer Science [CMP\_SC] 4050 and Statistics [STAT] 4710. Graduate Standing Required. Graded on A/F basis only.

**INFOINST 7430. Introduction to Health Informatics. 3 Credits.**

(same as Health Management and Informatics [HMI] 7430). Introduction to the use of clinical information systems in healthcare. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications. Prerequisite: graduate standing; departmental consent. Graded on A/F basis only.

**INFOINST 8001. Topics in Informatics. 3 Credits.**

Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department. Graduate Standing Required. Graded A-F only.

**INFOINST 8010. Problem Solving in Bioinformatics. 3 Credits.**

(Same as Computer Science [CMP\_SC] 8110). The course covers a variety of bioinformatics research topics such as biological sequence comparison, protein structure prediction, protein and gene function prediction, and inference and modeling of biological networks. Prerequisites: Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010. Graduate Standing Required. Graded on A/F basis only.

**INFOINST 8085. Problems in Informatics. 3 Credits.**

Independent, directed study on a topic in the area of informatics. Graduate Standing Required, Consent of Instructor Required. Graded on S/U basis only.

**INFOINST 8087. Seminar in Informatics. 0.5-1 Credit.**

Students attend and/or present at informatics seminars approved by the institute. Graduate Standing Required, consent of instructor required. Graded on S/U basis only.

**INFOINST 8088. Lab Rotations in Informatics. 1-3 Credit.**

This course is designed to train students in both computational/informatics and life science/hospital laboratories to foster critical research collaborations in biomedical informatics. Students are expected to write reports with their advisors and the mentor of the rotation. Prerequisite: graduate standing required. Graded on S/U basis only.

**INFOINST 8090. Dissertation (pre-candidacy) Research in Informatics. 1-99 Credit.**

Research leading to dissertation before comprehensive examination. Graduate Standing Required. Graded on S/U basis only.

**INFOINST 8150. Integrative Methods in Bioinformatics. 3 Credits.**

(same as Computer Science [CMP\_SC] 8150), Introduces the most popular experimental methods from the point of view of the information sources that can be used. Students will use data obtained directly from biological experiments and learn how to suggest new experiments to improve results. Prerequisite: MU informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010. Graded on A/F basis only.

**INFOINST 8180. Machine Learning Methods for Biomedical Informatics. 3 Credits.**

(same as Computer Science [CMP\_SC] 8180). Teaches statistical machine learning methods and applications in biomedical informatics. Covers theories of advanced statistical machine learning methods and how to develop machine learning methods to solve biomedical problems. Prerequisite: Computer Science [CMP\_SC] 7050 and MU Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010 or 7005. Graded on A/F basis only.

**INFOINST 8190. Computational Systems Biology. 3 Credits.**

(same as Computer Science [CMP\_SC] 8390). This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of causal relations from experimental data and reverse engineering of cellular systems. Graded on A/F basis only. Prerequisites: MU Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010; MU Informatics Institute [INFOINST] 8010.

**INFOINST 8210. Structural Bioinformatics of Proteins, Complexes, System. 3 Credits.**

(same as Computer Science [CMP\_SC] 8120). Main course objective is to provide an introduction to the state-of-the-art methods in structural bioinformatics. The course will cover the methods that are applied to a wide range of biomolecular objects from protein domains and small proteins to large biological systems. Graded on A/F basis only. Prerequisites: MU Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010; Computer Science [CMP\_SC] 4050/7050 is preferable.

**INFOINST 8310. Computational Genomics. 3 Credits.**

(same as Computer Science [CMP\_SC] 8130). This course introduces computational concepts and methods of genomics to students. The course covers genome structure, database, sequencing, assembly, annotation, gene and RNA finding, motif and repeats identification, single nucleotide polymorphism, and epigenomics. Graded on A/F basis only. Prerequisites: MU Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010. Graduate Standing Required.

**INFOINST 8350. Integrative Methods in Bioinformatics. 3 Credits.**

Course objective is to introduce the most popular experimental methods from the point of view of the information sources that can be used in. Students will learn to use data obtained directly from biological experiments and how to suggest new experiments to improve results. Prerequisite: MU Informatics Institute [INFOINST] Computer Science [CMP\_SC] 7010. Graduate Standing Required. Graded on A/F basis only.

**INFOINST 8390. Computational Systems Biology. 3 Credits.**

This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of casual relations from experimental data and reverse engineering of cellular systems. Prerequisite: MU Informatics Institute/Computer Science [INFOINST/CMP\_SC] 7010; INFOINST 8010 or instructors consent. Graduate Standing Required. Graded A-F only.

**INFOINST 8810. Research Methods in Health and Biomedical Informatics. 3 Credits.**

(same as Health Management and Informatics [HMI] 8810) Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Prerequisites: Statistics [STAT] 7450 or STAT 7510, second semester or later in PHD program or instructors consent. Graduate standing required. Graded A-F only.

**INFOINST 8860. Content Management in Biomedical Informatics. 3 Credits.**

(same as Computer Science [CMP\_SC] 8160). This course introduces theory and techniques for content extraction, indexing, and retrieval of biomedical media databases. Topics include biomedical media databases, feature extraction methods, advanced database indexing structures, query methods, and result visualization. Graded on A/F basis only. Prerequisites: Computer Science [CMP\_SC] 7380 and MU Informatics Institute [INFOINST] 7010. Graduate standing required. .

**INFOINST 8870. Knowledge Representation in Biology and Medicine. 3 Credits.**

(Same as Health Management and Informatics [HMI] 8870) The main topics presented in the course are: logic systems, knowledge representation methods, production systems and representation of statistical and uncertain knowledge. Prerequisites: Computer Science [CMP\_SC] 2050(Java), MU Informatics Institute [INFOINST] 7430. Graduate standing required. Graded A-F only.

**INFOINST 8880. Machine Learning Methods for Biomedical Informatics. 3 Credits.**

(same as Computer Science [CMP\_SC] 8180) This course teaches statistical machine learning methods and their applications in biomedical informatics. The course covers theories of advanced statistical machine learning methods and teaches how to develop machine learning methods to solve biomedical problems. Prerequisites: Computer Science [CMP\_SC] 7050 and MU Informatics Institute [INFOINST]/Computer Science [CMP\_SC] 7010 or MU Informatics Institute [INFOINST] 7005. Graduate standing required. Graded on A/F basis only.

**INFOINST 9090. Dissertation (post-candidacy) Research in Informatics. 1-99 Credit.**

Research leading to Ph.D. dissertation after comprehensive examination. Graded on S/U basis only. Graduate standing required.

## Music-Applied Music (MUS\_APMS)

---

**MUS\_APMS 1435. Studio Instruction for Majors. 1 Credit.**

Acceptable as a secondary applied subject on B.S. in music education and B.M. degrees. Materials varies according to educational purpose. May be repeated for credit. Prerequisite: instructor's consent.

**MUS\_APMS 2455. Studio Instruction. 1-5 Credit.**

Credit accepted toward all undergraduate music and music education degrees. May be repeated for credit. Prerequisite: instructor's consent.

**MUS\_APMS 3455. Studio Instruction. 1-3 Credit.**

Accepted as upperclass credit only in Music Education, music theory, history, or composition. May be repeated for credit. Prerequisites: 8 hours and 4 semesters of Music-Applied Music [MUS\_APMS] 2455 or equivalent; audition by committee, and instructor's consent.

**MUS\_APMS 3970. Junior Recital. 1 Credit.**

Preparation and presentation of Junior Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

**MUS\_APMS 4455. Studio Instruction. 1-5 Credit.**

For B.M. degrees in performance. Study of pedagogy in studio class. May be repeated for credit. Prerequisite: 8 hours and 4 semesters of Music-Applied Music [MUS\_APMS] 2455; audition; instructor's consent.

**MUS\_APMS 4970. Senior Recital. 1 Credit.**

Preparation and presentation of Senior Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

**MUS\_APMS 7435. Studio Instruction. 1 Credit.**

For music teachers needing instruction in secondary instruments or voice. Maybe repeated for credit.

**MUS\_APMS 7455. Studio Instruction. 1-5 Credit.**

For graduate credit on M.A., M.Ed., and Ph.D. degrees. Study of pedagogy in studio class. May be repeated for credit. Prerequisite: audition; instructor's consent.

**MUS\_APMS 8455. Studio Instruction. 1-5 Credit.**

Required for graduate credit as major applied study on M.M. degree. Acceptable for graduate credit on M.A., M.Ed., Ed.D., and Ph.D. degrees. Maybe repeated for credit. Prerequisites: audition by committee and instructor's consent.

**MUS\_APMS 8970. Graduate Recital. 1 Credit.**

Preparation and presentation of Graduate Recital. Appropriate applied music course to be taken concurrently. May be repeated for credit. Each recital must be approved by a committee at least two weeks before the recital.

## Music-Courses for Non-Majors (MUSIC\_NM)

---

**MUSIC\_NM 1005. Topics in Music-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects vary from semester to semester. May be repeated once for additional credit with departmental consent.

**MUSIC\_NM 1029. Music Travel Course. 1-4 Credit.**

Study tour designed to broaden perspective of persons interested in music. Stresses relationship of music to art and ideas in a variety of social and cultural contexts. Participant bears cost of course. Prerequisite: instructor's consent.

**MUSIC\_NM 1085. Problems in Music. 1-99 Credit.**

Independent investigation leading to a paper project. May be repeated for credit. Prerequisite: instructor's consent. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.

**MUSIC\_NM 1211. Fundamentals of Music I. 2 Credits.**

Introduction to rhythmic, melodic, harmonic, and structural elements of music. Designed for non-music majors. No credit for music majors or minors.

**MUSIC\_NM 1212. Fundamentals of Music II. 2 Credits.**

Continuation of Music - Courses for Non-Majors [MUSIC\_NM] 1211. No credit for music majors or minors. Prerequisites: Grade of C- or better in MUSIC\_NM 1211 or instructor's consent.

**MUSIC\_NM 1300. Experiencing Music Through Concert Attendance. 1 Credit.**

Development of music listening skills through concert attendance, reading and class attendance.

**MUSIC\_NM 1310. Masterpieces of Western Music. 3 Credits.**

Introduction to the Western fine-art tradition through the study of representative masterworks, emphasis on developing listening skills; directed to non-majors.

**MUSIC\_NM 1311. Jazz, Pop, and Rock. 3 Credits.**

Historical introduction to jazz (to approximately 1970) and the American popular song, including rock and roll (to approximately 1980); directed to non-majors.

**MUSIC\_NM 1312. History of Jazz. 2 Credits.**

Historical survey of American jazz from its origin to the present. No credit for students who have taken Music - Courses for Non-Majors [MUSIC\_NM] 1311.

**MUSIC\_NM 1313. Introduction to World Music. 3 Credits.**

Introduction to the musical traditions of selected non-Western societies; emphasis on developing listening skills; directed to non-majors, but music majors may enroll.

**MUSIC\_NM 1314. Orchestral Masterpieces. 3 Credits.**

In-depth study of selected symphonic works of masters from Joseph Haydn to Aaron Copland. Students develop critical listening skills to identify orchestral instruments and perceive the structure and character of selected orchestral works. Directed to non-music majors. Graded on A/F basis only.

**MUSIC\_NM 1315. Musical Profile-Bach. 1 Credit.**

Systematic study of the music of J.S. Bach directed to the general student. Graded on A/F basis only.

**MUSIC\_NM 1316. Music Profile--Wolfgang A. Mozart. 1 Credit.**

A systematic introduction to the music of Wolfgang Amadeus Mozart. Graded on A/F basis only.

**MUSIC\_NM 1317. Musical Profile-Beethoven. 1 Credit.**

Systematic study of the music of Ludwig van Beethoven directed to the general student. Graded on A/F basis only.

**MUSIC\_NM 1318. Music Profile--Claude Debussy. 1 Credit.**

A systematic introduction to the music of Claude Debussy. Graded on A/F basis only.

**MUSIC\_NM 1319. Music Profile--Igor Stravinsky. 1 Credit.**

A systematic introduction to the music of Igor Stravinsky. Graded on A/F basis only.

**MUSIC\_NM 1320. Musical Profile-Copland. 1 Credit.**

Systematic study of the music of Aaron Copland directed to the general student. Graded on A/F basis only.

**MUSIC\_NM 1330. Introduction to African-American Music. 3 Credits.**

Introduction to the history and scholarship of African American music from eighteenth through twentieth centuries. Focus on African legacies and retentions, slave culture, the black church, minstrelsy, folk traditions, spirituals, ragtime, blues, jazz, soul, R&B, and hip hop.

**MUSIC\_NM 1335. Introduction to Soul and Country. 3 Credits.**

Examination of musical cultures signified by "soul" and "country". Study of the evolution and aesthetics of these genres and how they deal with concepts like identity, class, race, and ethnicity; gender and sexuality; politics and patriotism.

**MUSIC\_NM 1340. Music of Love and Death. 3 Credits.**

Exploration of musical expression surrounding love and death in specific works of diverse styles and sociological contexts. Students will learn to listen to and appreciate music with informed ears and minds, develop strong perceptual skills, and cultivate a musical vocabulary.

**MUSIC\_NM 1341. Drama Through Western Music. 3 Credits.**

Introduction to the musical culture of the theater through the ages by examining specific works of diverse styles and sociological contexts. Students learn to listen to and appreciate music with informed ears and minds, develop perceptual skills, and cultivate musical vocabulary.

**MUSIC\_NM 1445. Studio Instruction. 1 Credit.**

Acceptable for non-majors and majors requiring a half-hour lesson with instructor's consent. May be repeated for credit.

**MUSIC\_NM 1608. Beginning Piano Class. 1 Credit.**

For non-music majors only.

**MUSIC\_NM 1609. Intermediate Piano Class. 1 Credit.**

For non-music majors only. Continuation of Music-Instrumental and Vocal Techniques 1608.

**MUSIC\_NM 1612. Elementary Folk Guitar Class. 1 Credit.**

Teaching correct hand position, strum patterns, and chords needed for accompaniment of popular and folk songs.

**MUSIC\_NM 1615. Beginning Classical Guitar Class. 1 Credit.**

Beginning Classical Guitar Class.

**MUSIC\_NM 1617. Beginning Drumset. 1 Credit.**

Fundamentals of the drumset, including an historical survey and biographical sketch of several performers. Also can be used as a pedagogical outline for future music teachers.

**MUSIC\_NM 1618. Basic Music Skills. 2 Credits.**

Development of music reading and performance skills, including study of pitch, rhythm, notation, structure and interpretation of music. Emphasis on performance. No credit for music majors or minors or students who

have completed Music - Music Courses for Non Majors [ MUSIC\_NM] 1211 or 1212.

**MUSIC\_NM 1651. Voice Class I. 1 Credit.**

Fundamentals of singing: posture, breath support, control, vocalization, concepts of tone quality, placement and resonance. Literature selected for students with no previous vocal training. Adapted to needs of drama and other interdisciplinary students.

**MUSIC\_NM 1652. Voice Class II. 1 Credit.**

Continuation of Music-Instrumental and Vocal Techniques 1651. Prerequisite: Music - Courses for Non-Majors [MUSIC\_NM] 1651.

**MUSIC\_NM 2306. Perceiving Musical Traditions and Styles. 3 Credits.**

An introduction to music from the late Baroque to the present day, including fine art, folk, and popular music. Designed to serve as a foundation for developing knowledge and skills of musical perception that will eventually lead to thoughtful written commentary on musical performances. Prerequisites: open only to Journalism majors with sophomore standing or higher. Graded on A/F basis only.

**MUSIC\_NM 2306H. Perceiving Musical Traditions and Styles - Honors. 3 Credits.**

An introduction to music from the late Baroque to the present day, including fine art, folk, and popular music. Designed to serve as a foundation for developing knowledge and skills of musical perception that will eventually lead to thoughtful written commentary on musical performances. Prerequisites: open only to Journalism majors with sophomore standing or higher. Graded on A/F basis only. Honors eligibility required.

**MUSIC\_NM 2445. Studio Instruction for Non-Majors. 1-2 Credit.**

Acceptable for non-majors only. Prerequisites: audition by examining committee and instructor's consent. May be repeated for credit.

**MUSIC\_NM 4445. Studio Instruction for Non-Majors. 1-2 Credit.**

Acceptable for non-majors only. Prerequisites: audition by examining committee and instructor's consent. May be repeated for credit.

**MUSIC\_NM 7029. Travel Seminar. 1-4 Credit.**

Selected topics for directed study in music undertaken in context of the tour. Emphasis on subjects with cross-disciplinary implications. Participant bears cost of course. Prerequisite: instructor's consent.

**MUSIC\_NM 7445. Studio Instruction for Non-Majors. 1-2 Credit.**

Acceptable for graduate s credit for non-majors only. May be repeated for credit. Prerequisite: instructor's consent.

## Music-Ensemble Courses (MUS\_ENS)

---

**MUS\_ENS 1841. Instrumental Ensemble. 1 Credit.**

Provides experience in instrumental performance and repertory. Open to all UMC students by audition. May be repeated for credit. Enrollment in Marching Band is limited to a maximum of five semesters. Prerequisite: Audition. Sections are: Philharmonic Orchestra, Chamber Orchestra, Symphonic Band, Wind Ensemble, Concert Band, Varsity Band, Studio Jazz Ensemble, Jazz Lab Band, Marching Band.

**MUS\_ENS 1842. Choral Ensemble. 1 Credit.**

Provides experience in choral performance and repertory. Open to all UMC students. May be repeated for credit. Prerequisite: audition required

for all but Choral Union; sections are: University Singers, Chamber Singers, Choral Union, Vocal Jazz Ensemble, Concert Chorale, Men's Chorus, Women's Chorus.

**MUS\_ENS 1846. Chamber Music. 1 Credit.**

Preparation and performance of chamber music. May be repeated for credit. Prerequisites: audition and instructor's consent. Sections are: String Ensemble, Woodwind Ensemble, Brass Ensemble, Percussion Ensemble, Jazz Combo.

**MUS\_ENS 1865. Opera Workshop. 1-2 Credit.**

Study, preparation and performance of selected operatic or musical theatre work in staged or concert versions. Open to all UMC students by audition. Credit arranged; may be repeated for credit. Prerequisite: audition and instructor's consent.

**MUS\_ENS 2843. Piano Ensemble. 1 Credit.**

Study, preparation, and performance of ensemble literature for piano. May be repeated for credit. Prerequisite: instructor's consent.

**MUS\_ENS 4866. Musical Theatre Performance. 3 Credits.**

(same as Theatre [THEATR] 4460). A practical study for the actor of theatrical songs through character analysis, lyric interpretation, and movement. A performance course. Prerequisite: instructor's consent.

**MUS\_ENS 8841. Instrumental Ensemble. 1 Credit.**

Research, preparation and performance of instrumental compositions. May be repeated for credit. Prerequisites: audition and instructor's consent. Sections and credit hours are: Philharmonic Orchestra, Chamber Orchestra, Symphonic Band, Wind Ensemble, Concert Band, Studio Jazz Ensemble, Jazz Lab Band, Marching Band.

**MUS\_ENS 8842. Choral Ensemble. 1 Credit.**

Research, preparation and performance of choral compositions. May be repeated for credit. Prerequisites: graduate standing, audition and instructor's consent. Sections are: University Singers, Chamber Singers, Choral Union, Vocal Jazz Ensemble, Concert Choral, Men's Chorus, Women's Chorus.

**MUS\_ENS 8843. Advanced Piano Ensemble. 1 Credit.**

Study, preparation and performance of standard piano literature for four hands. May be repeated for credit. Prerequisite: instructor's consent.

**MUS\_ENS 8846. Advanced Chamber Ensemble. 1 Credit.**

Study, preparation and performance of chamber music. May be repeated for credit. Prerequisites: audition and instructor's consent. Sections are: String Ensemble, Woodwind Ensemble, Brass Ensemble, Percussion Ensemble, Jazz Combo.

**MUS\_ENS 8865. Advanced Opera Workshop. 1-2 Credit.**

Study, preparation and performance of selected operatic or musical theatre works in staged or concert versions. Credit arranged; may be repeated for Credit. Prerequisite: audition and instructor's consent.

---

## Music-General (MUS\_GENL)

---

**MUS\_GENL 1091. Recital Attendance for Undergraduate Music Majors. 0 Credits.**

Required attendance of eleven music events from the Music Department listing. 0 credit, graded on S/U basis, and may be repeated until the total degree requirement is satisfactorily met. Undergraduate music majors only. No tuition charged.

**MUS\_GENL 3005. Topics in Music-Humanities. 1-99 Credit.**

Organized study of selected topics in music. Subjects and credit variable. May be repeated for additional credit with departmental consent. Prerequisites: junior standing in Music and instructor's consent.

**MUS\_GENL 3005H. Topics in Music-Humanities - Honors. 1-99 Credit.**

Organized study of selected topics in music. Subjects and credit variable. May be repeated for additional credit with departmental consent. Prerequisites: junior standing in Music and instructor's consent. Honors eligibility required.

**MUS\_GENL 3085. Problems in Music. 1-99 Credit.**

Independent investigation leading to a paper or project. May be repeated for credit. Prerequisite: instructor's consent. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.

**MUS\_GENL 4005. Topics in Music-Humanities. 1-99 Credit.**

Organized study of selected topics in music. Subjects and credit variable. May be repeated for additional credit with departmental consent. Prerequisites: junior standing in Music and instructor's consent.

**MUS\_GENL 4510. Career Development for Musicians. 1 Credit.**

Examination of professional opportunities available in the Creative Economy; development of a framework for career planning, professional portfolio, and personal business plan. Prerequisite: sophomore standing and instructor's consent.

**MUS\_GENL 7005. Topics in Music. 1-99 Credit.**

Organized study of selected topics in music. Subjects and credit variable. May be repeated with departmental consent. Prerequisites: graduate standing and departmental consent.

**MUS\_GENL 7510. Career Development for Musicians. 1 Credit.**

Examination of professional opportunities available in the Creative Economy; development of a framework for career planning, professional portfolio, and personal business plan. Prerequisite: instructor's consent.

**MUS\_GENL 8085. Problems in Music. 1-99 Credit.**

Independent investigation leading to a paper or project. May be repeated for credit. Prerequisite: instructor's consent. Sections are: Music Theory, Music Composition, Music History, Music Performance/Pedagogy.

**MUS\_GENL 8090. Research in Music. 1-99 Credit.**

Thesis course. May be repeated for additional credit. Graded on S/U basis only. Sections are: Music Theory, Music Composition, Music History, Performance/Pedagogy.

---

## Music-Instrumental And Vocal Repertory (MUS\_I\_VR)

---

**MUS\_I\_VR 3753. Piano Literature I. 2 Credits.**

Survey of keyboard music from ca. 1600 to ca. 1800. Prerequisites: junior standing and instructor's consent.

**MUS\_I\_VR 3754. Piano Literature II. 2 Credits.**

Survey of keyboard music from Beethoven's time to the present. Prerequisites: Music- Instrumental and Vocal Repertory [MUS\_I\_VR] 3753 or instructor's consent.

**MUS\_I\_VR 4767. Vocal Literature I. 2 Credits.**

Introduction to and study of song literature with emphasis on style and interpretation. Prerequisites: junior standing or instructor's consent.

**MUS\_I\_VR 4768. Vocal Literature II. 2 Credits.**

Continuation of Music-Instrumental and Vocal Repertory [MUS\_I\_VR] 4767. Prerequisites: MUS\_I\_VR 4767 or instructor's consent.

**MUS\_I\_VR 4776. Orchestral Excerpts. 1 Credit.**

Study and preparation of selected excerpts from the standard audition repertoire, culminating in a mock audition. May be repeated for credit. Instructor's consent required.

**MUS\_I\_VR 4780. Classical Guitar Repertory I. 1 Credit.**

Survey of guitar repertory and history from 1400 to present. Prerequisite: instructor's consent.

**MUS\_I\_VR 4781. Classical Guitar Repertory II. 1 Credit.**

Continued study of guitar repertory from 1400 to present, with emphasis on organological development of the guitar and performance practice. Prerequisite: Music - Instrumental and Vocal Repertory [MUS\_I\_VR] 4780; instructor's consent.

**MUS\_I\_VR 7767. Advanced Vocal Literature I. 3 Credits.**

Study of specific aspects of vocal repertory. Individual projects in research, analysis and performance. Prerequisites: Music - Applied Music [MUS\_APMS] 7455 or instructor's consent.

**MUS\_I\_VR 7768. Advanced Vocal Literature II. 3 Credits.**

Continuation of Music-Instrumental and Vocal Repertory [MUS\_I\_VR] 7767. Prerequisites: Music - Instrumental and Vocal Repertory [MUS\_I\_VR] 7767 or instructor's consent.

**MUS\_I\_VR 7776. Orchestral Excerpts. 1 Credit.**

Study and preparation of selected excerpts from the standard audition repertoire, culminating in a mock audition. Instructor's consent required. May be repeated for credit.

**MUS\_I\_VR 7780. Graduate Classical Guitar Repertory I. 1 Credit.**

Survey of guitar repertory and history from 1400 to present. Instructor's consent required.

**MUS\_I\_VR 7781. Graduate Classical Guitar Repertory II. 1 Credit.**

Continued study of guitar repertory from 1400 to present, with emphasis on organological development of the guitar and performance practice. Prerequisite: Music - Instrumental and Vocal Repertory [MUS\_I\_VR] 7780. Instructor's consent required.

**MUS\_I\_VR 8753. Piano Repertory I. 2 Credits.**

Study of specific aspects of Baroque and Classical keyboard music. Individual projects in research, analysis and performance. Prerequisites: Music - Applied Music [MUS\_APMS] 7455 or instructor's consent.

**MUS\_I\_VR 8754. Piano Repertory II. 2 Credits.**

Study of specific aspects of nineteenth- and twentieth century piano music. Individual projects in research, analysis and performance. Prerequisites: Music - Instrumental and Vocal Repertory [MUS\_I\_VR] 8753 or instructor's consent.

**MUS\_I\_VR 8765. Choral Repertory. 2 Credits.**

Survey of choral works from selected periods with an emphasis on various aspects of choral performance. May be repeated once for additional credit. Prerequisites: graduate standing and instructor's consent.

**MUS\_I\_VR 8770. Band Repertory. 3 Credits.**

To survey band and wind ensemble repertoire with emphasis on various aspects of performance practice in order to prepare the student for a career which includes conducting advanced high school and college bands and wind ensembles.

**MUS\_I\_VR 8773. String Instrument Repertory I. 1 Credit.**

Prerequisites: Music - Applied Music [MUS\_APMS] 7455 or instructor's consent.

**MUS\_I\_VR 8774. String Instrument Repertory II. 1 Credit.**

Continuation of Music-Instrumental and Vocal Repertory 8773. Prerequisite: Music -Instrumental and Vocal Repertory [MUS\_I\_VR] 8773.

**MUS\_I\_VR 8775. Orchestral Repertory. 2 Credits.**

A survey of orchestral repertory, emphasizing various aspects of performance practice. Appropriate for graduate music conducting majors who wish to pursue a career which includes conducting orchestras at the advanced high school, college, and professional levels. May be repeated. Prerequisite: Conducting experience at the high school or college level and instructor's consent.

---

## Music-Instrumental And Vocal Techniques (MUS\_I\_VT)

---

**MUS\_I\_VT 1610. Group Piano for Music Majors I. 1 Credit.**

Beginning piano for music majors and concentrations only. Prerequisite: instructor's consent.

**MUS\_I\_VT 1611. Group Piano for Music Majors II. 1 Credit.**

Continuation of 1610. Prerequisite: Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 1610 with a minimum grade of C- or instructor's consent.

**MUS\_I\_VT 1620. Jazz Piano Class. 1 Credit.**

Beginning piano technique and study of common jazz piano voicings for accompaniment and solo performance. Prerequisites: Music-Music Courses for Non-Majors [MUSIC\_NM] 1211 or Music - Music Theory [MUS\_THRY] 1220; instructor's consent required.

**MUS\_I\_VT 2610. Group Piano for Music Majors III. 1 Credit.**

Continuation of Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 1611. Prerequisite: MUS\_I\_VT 1611 with a minimum grade of C- or instructor's consent.

**MUS\_I\_VT 2611. Group Piano for Music Majors IV. 1 Credit.**

Continuation of Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 2610. Prerequisite: MUS\_I\_VT 2610 with a minimum grade of C- or instructor's consent.

**MUS\_I\_VT 2631. Basic Conducting and Score Reading. 2 Credits.**

To develop the basic psychomotor and score reading skills prerequisite to the art of conducting.

**MUS\_I\_VT 2632. Rehearsal Clinic: String Orchestra Conducting. 2 Credits.**

To develop musical and interpersonal skills requisite for successful rehearsal leadership, emphasizing strategies effective for rehearsal of string ensembles. Prerequisites: Grade of C- or better in Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 2631 and either 2640 or 2641; or instructor's consent.

**MUS\_I\_VT 2633. Rehearsal Clinic: Choral Conducting. 2 Credits.**

To develop musical and interpersonal skills requisite for successful leadership of a choral ensemble, emphasizing rehearsal strategies and repertoire. Prerequisite: Grade of C- or better in Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 2631 or instructor's consent. May be repeated once for credit.

**MUS\_I\_VT 2634. Rehearsal Clinic: Band Conducting. 1 Credit.**

To develop musical and interpersonal skills requisite for successful rehearsal leadership, emphasizing strategies effective for rehearsal of wind and percussion ensembles. Prerequisites: Grade of C- or better in Music- Instrumental and Vocal Techniques [MUS\_I\_VT] 2631 or instructor's consent. May be repeated for credit.

**MUS\_I\_VT 2637. Woodwinds I. 1 Credit.**

Class instruction in clarinet and saxophone; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2638. Woodwinds II. 1 Credit.**

Class instruction in flute and double reeds; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2640. Strings I. 1 Credit.**

Class instruction in violin and viola; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2641. Strings II. 1 Credit.**

Class instruction in violoncello and string bass; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2645. Brass I. 1 Credit.**

Class instruction in trumpet and horn; playing and methods/ materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2646. Brass II. 1 Credit.**

Class instruction in trombone, euphonium, and tuba; playing and methods/materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music or Music Education.

**MUS\_I\_VT 2648. Percussion. 1 Credit.**

Class instruction in percussion instruments; playing and methods and materials for teaching. Taught on a laboratory basis. Meets twice weekly. Prerequisite: major in Music Education.

**MUS\_I\_VT 2649. Percussion II. 1 Credit.**

Extension of Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 2648. Topics include marching percussion, drumset, Latin accessory instruments, and percussion ensemble literature. Prerequisite: MUS\_I\_VT 2648 or instructor's consent.

**MUS\_I\_VT 2661. Keyboard Skills for Piano Majors I. 2 Credits.**

Study of sightreading, harmonization, transposition, figured bass realization, and duet skills. Prerequisites: grade of C- or better in Music - Music Theory [MUS\_THRY] 1221 and 1231; instructor's consent.

**MUS\_I\_VT 2662. Keyboard Skills for Piano Majors II. 2 Credits.**

Study of score reading, duet performance, and collaborative experiences with voice and instruments. Prerequisites: grade of C- or better in Music - Instrumental and Vocal Techniques [MUS\_I\_VT] 2661; instructor's consent.

**MUS\_I\_VT 3640. Undergraduate Seminar in Vocal Techniques. 1 Credit.**

Discusses accepted techniques of singing, practical application to posture, breath support, tone placement, musicianship, diction, interpretation, stage deportment. Recognizing and solving specific vocal problems. May be repeated once for credit. Prerequisite: instructor's consent.

**MUS\_I\_VT 3642. Seminar in String Techniques. 1 Credit.**

In-depth study of publications, philosophies, repertory, grading, specific problems for the string player. May be repeated once for credit. Prerequisites: Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 2640 and 2641, or instructor's consent.

**MUS\_I\_VT 3643. Symposium in Instrumental Music. 2 Credits.**

Study of procedures, techniques and literature for variable combinations of wind, string, and percussion classes and the administration of instrumental music programs. Prerequisite: junior standing in Music or Music Education or instructor's consent.

**MUS\_I\_VT 3644. Jazz Methods and Materials. 1 Credit.**

Training and supervised practice in conducting Jazz Ensembles; study of administration, methods, and materials pertinent to teaching Jazz, Rock, and Commercial Music in high school and college. Prerequisites: junior standing or instructor's consent.

**MUS\_I\_VT 3646. Marching Band Techniques. 2 Credits.**

Study of techniques and procedures used in the development of field and street marching. Prerequisite: junior standing in Music or Music Education.

**MUS\_I\_VT 3670. Diction in Singing: Italian. 1 Credit.**

Study of the correct principles and application of Italian diction in singing the solo vocal, operatic and choral literature; the International phonetic alphabet; spoken language drill, study and recitation of representative literature. Prerequisite: sophomore standing.

**MUS\_I\_VT 3671. Diction in Singing: German. 1 Credit.**

Study of the correct principles and application of German diction in singing the solo vocal, operatic and choral literature; the International Phonetic Alphabet spoken language drill, study and recitation of representative literature. Prerequisite: sophomore standing.

**MUS\_I\_VT 3672. Diction in Singing: French. 1 Credit.**

Study of the correct principles and application of French diction in singing the solo vocal, operatic, and choral literature; the International Phonetic Alphabet spoken language drill, study and recitation of representative literature. Prerequisite: sophomore standing.

**MUS\_I\_VT 4645. Jazz Improvisation. 2 Credits.**

Creation of a melodic vocabulary for jazz improvisation through study and application of jazz chord-scale theory, solo transcription, and careful listening to the vanguard of jazz. Prerequisites: Music - Music for Non-Majors [MUSIC\_NM] 1211 or Music - Music Theory [MUS\_THRY] 1220, instructor's consent.

**MUS\_I\_VT 4661. Piano Pedagogy Survey I. 2 Credits.**

Study of approaches for teaching young beginning and intermediate student; survey of materials and resources. Prerequisite: instructor's consent.

**MUS\_I\_VT 4662. Piano Pedagogy Survey II. 2 Credits.**

Study of approaches for teaching older, more advanced and class piano students; survey of materials and resources. Prerequisite: instructor's consent.

**MUS\_I\_VT 4663. Piano Pedagogy Laboratory. 1 Credit.**

Supervised instruction in private and class piano . May be repeated once for additional credit. Prerequisites: Music-Instrumental and Vocal Techniques [MUS\_I\_VT] 4661 and 4662.

**MUS\_I\_VT 4680. Classical Guitar Pedagogy. 1 Credit.**

Basic anatomical and physiological aspects of guitar performance, setting technical and musical goals for students, repertoire development in

relation to age, level, and musical style. Career goals (building a private studio, lesson planning, organizational skills) are addressed. Prerequisite: Audition required and instructor's consent.

**MUS\_I\_VT 7645. Graduate Jazz Improvisation. 2 Credits.**

Creation of a melodic vocabulary for jazz improvisation through study and application of jazz chord-scale theory, solo transcription, and careful listening to the vanguard of jazz. Prerequisite: instructor's consent; graduate standing required.

**MUS\_I\_VT 7680. Graduate Classical Guitar Pedagogy. 1 Credit.**

Basic anatomical and physiological aspects of guitar performance, setting technical and musical goals for students, repertoire development in relation to age, level and musical style. Career goals (building a private studio, lesson planning, organizational skills) are addressed. Prerequisites: Audition and approval of instructor.

**MUS\_I\_VT 8646. Jazz Pedagogy I. 3 Credits.**

Study of historical and current trends in jazz education and pedagogy, including administration and curriculum, through assigned readings, supervised teaching, classroom discussion, survey of materials, and formation of an annotated bibliography. Graded on A-F basis only. Prerequisite: instructor's consent required.

**MUS\_I\_VT 8647. Jazz Pedagogy II. 3 Credits.**

Continuation of MUS\_I\_VT 8646; formulation of an extensive philosophy of jazz education. Graded A-F only. Prerequisite: MUS\_I\_VT 8646 and consent of instructor.

**MUS\_I\_VT 8671. Principles of Singing I. 2 Credits.**

Prerequisite: instructor's consent.

**MUS\_I\_VT 8673. Advanced Choral Conducting. 2 Credits.**

Advanced conducting techniques in the interpretation of choral literature; score analysis. May be repeated for additional credit. Prerequisites: Music - Instrumental and Vocal Techniques [MUS\_I\_VT] 2633 or instructor's consent.

**MUS\_I\_VT 8674. Advanced Instrumental Conducting. 2 Credits.**

Advanced conducting techniques in the interpretation of band and orchestral literature; score analysis. May be repeated for additional credit. Prerequisites: Music - Instrumental and Vocal Techniques [MUS\_I\_VT] 2634 or instructor's consent.

**MUS\_I\_VT 8681. Advanced Piano Pedagogy I. 2 Credits.**

A survey of materials and techniques of instruction for teaching the young beginner and the intermediate piano student. Prerequisites: graduate standing and instructor's consent.

**MUS\_I\_VT 8682. Advanced Piano Pedagogy II. 2 Credits.**

A survey of materials and techniques of instruction for teaching class piano, the older beginner, and the advanced student. Prerequisites: graduate standing and instructor's consent.

**MUS\_I\_VT 8683. Piano Pedagogy Internship. 1 Credit.**

Supervised teaching of individual and group lessons. Prerequisite: Music - Instrumental and Vocal Techniques [MUS\_I\_VT] 8681 and 8682 and instructor's consent. May be repeated once for credit.

**MUS\_I\_VT 8686. Choral Techniques. 3 Credits.**

Study of techniques for developing choral singing and musical interpretation. Prerequisites: graduate standing and instructor's consent.

**MUS\_I\_VT 8689. Band Techniques. 3 Credits.**

To develop individual conducting techniques as well as instrumental ensemble techniques. Emphasis is placed on the learning process to

give the student a perspective to improve the techniques of others. Prerequisites: graduate standing and instructor's consent.

## Music-Music History And Literature (MUS\_H\_LI)

---

**MUS\_H\_LI 1322. Introduction to Music in the United States. 2 Credits.**

Historical overview of American folk, popular, and fine-art music; emphasis on listening skills.

**MUS\_H\_LI 2307. History of Western Music I. 2 Credits.**

Historical survey of selected European practices up to 1700 following a consideration of the major fine-art traditions of the world. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 1322.

**MUS\_H\_LI 2308. History of Western Music II. 2 Credits.**

Historical survey of Western fine-art music from approximately 1700 to the present. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2307.

**MUS\_H\_LI 4311. Historical Studies in Art Song. 3 Credits.**

Historical survey of works for solo voice and instruments. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4312. Historical Studies in Choral Music. 3 Credits.**

Historical survey of works featuring choral ensembles. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4313. Historical Studies in Opera. 3 Credits.**

Historical survey of opera. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4314. Historical Studies in Large Ensemble Music. 3 Credits.**

Historical survey of works for large instrumental ensembles. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4315. Historical Studies in Chamber Music. 3 Credits.**

Historical survey of works for small ensembles, instrumental and vocal. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4316. Historical Studies in Keyboard Music. 3 Credits.**

Historical survey of works for solo keyboard instruments. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4317. Historical Studies in Jazz and Popular Music. 3 Credits.**

Historical survey of works from the realm of American jazz and popular music. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4318. Studies in World Music. 3 Credits.**

Advanced systematic study of musical activities in selected world cultures, with the emphasis on developing listening skills and understanding the role of music in a culture. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2307 and 2308.

**MUS\_H\_LI 4320. Historical Studies in African-American Music. 3 Credits.**

Exploration of history and current scholarship in African-American music from the eighteenth to twenty-first centuries. Genres include folk music, religious music, blues, ragtime, jazz, musical theater, art music, R&B, funk, soul, disco, house, hip-hop and rap. Prerequisites: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and Instructor's consent.

**MUS\_H\_LI 4335. Music of the Middle Ages and the Renaissance. 3 Credits.**

Systematic study of European musical practice before 1600. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4336. Music in the Baroque Era. 3 Credits.**

Systematic study of European musical practice from approximately 1600 to 1750. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4337. Music of the Classic Era. 3 Credits.**

Systematic study of European musical practice from approximately 1750 to 1800. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4338. Music of the Romantic Era. 3 Credits.**

Systematic study of European musical practice from approximately 1800 to 1900. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4339. Music of the Modern Era. 3 Credits.**

Systematic study of fine-art musical practice from approximately 1900 to the present. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and/or instructor's consent.

**MUS\_H\_LI 4340. Focal Composers. 3 Credits.**

Systematic study of the works of landmark composers: J.S. Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied in rotation. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent. Repeatable for up to 6 hours or credit.

**MUS\_H\_LI 4341. Advanced Studies in American Music. 3 Credits.**

Systematic study of the diverse streams of musical practice in the United States from the colonial time to the present. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4342. Contemporary Issues in Musicology. 3 Credits.**

Systematic study of single musicological problem of contemporary relevance. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308 and instructor's consent.

**MUS\_H\_LI 4350. Introduction to Ethnomusicology. 3 Credits.**

Study of theories, historical development, research methodologies, and practice of ethnomusicology, in an interdisciplinary approach. Topics include ethnographic research, oral and literate sources, transcription and analysis, critical analysis, and interpretative techniques. Prerequisites: grade of C- or better in Music - Courses for Non Majors [MUSIC\_NM] 2308; instructor's consent.

**MUS\_H\_LI 4352. Historical Studies in African Music. 3 Credits.**

Ethnomusicological introduction to the music and culture of countries and ethnic groups in Africa. Traditional and contemporary popular styles are explored, and influences of Islamic invasions, missionary arrivals, colonial conquests, neo-colonial trends, and globalization. Prerequisite: grade

of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2308; instructor's consent.

**MUS\_H\_LI 4376. American Musicals. 3 Credits.**

(same as Theatre [THEATR] 4720). Historical survey of the development of the 20th-Century American Musical in Theatre and Film.

**MUS\_H\_LI 4397. Honors in Music History I. 3 Credits.**

Special readings, directed research for graduation with Honors in music history. Prerequisites: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 2307 and 2308.

**MUS\_H\_LI 4398. Honors in Music History II. 3 Credits.**

Continuation of Music History and Literature 4397 leading to Honors thesis in music history. Prerequisite: Grade of C- or better in Music-Music History and Literature [MUS\_H\_LI] 4397.

**MUS\_H\_LI 4399. Graduate History Review. 2 Credits.**

Review of history for graduate students. Does not fulfil graduate degree requirements. Prerequisites: graduate standing required; instructor's consent. Graded on S/U basis only.

**MUS\_H\_LI 7307. Graduate Review of Music History I. 2 Credits.**

Survey of the history of Western music from ca. 600 A.D. to ca. 1750. Special readings; individual projects.

**MUS\_H\_LI 7308. Graduate Review of Music History II. 2 Credits.**

Survey of the history of Western music from ca. 1750 to the present. Special readings; individual projects.

**MUS\_H\_LI 7311. Historical Studies in Art Song. 3 Credits.**

Advanced historical survey of works for solo voice and instruments. Prerequisite: instructor's consent.

**MUS\_H\_LI 7312. Historical Studies in Choral Music. 3 Credits.**

Advanced historical survey of works featuring choral ensembles. Prerequisite: instructor's consent.

**MUS\_H\_LI 7313. Historical Studies in Opera. 3 Credits.**

Advanced historical survey of opera. Prerequisite: instructor's consent.

**MUS\_H\_LI 7314. Historical Studies in Large Ensemble Music. 3 Credits.**

Advanced historical survey of works for large instrumental ensembles. Prerequisite: instructor's consent.

**MUS\_H\_LI 7315. Historical Studies in Chamber Music. 3 Credits.**

Advanced historical survey of works for small ensembles, instrumental and vocal. Prerequisite: instructor's consent.

**MUS\_H\_LI 7316. Historical Studies in Keyboard Music. 3 Credits.**

Advanced historical survey of works for solo keyboard instruments. Prerequisite: instructor's consent.

**MUS\_H\_LI 7317. Historical Studies in Jazz and Popular Music. 3 Credits.**

Advanced historical survey of works from the realm of American jazz and popular music. Prerequisite: instructor's consent.

**MUS\_H\_LI 7318. Studies in World Music. 3 Credits.**

Advanced systematic study of musical activities in selected world cultures, with emphasis on developing listening skills and understanding the role of music in a culture. Prerequisite: instructor's consent.

**MUS\_H\_LI 7320. Historical Studies in African-American Music. 3 Credits.**

Exploration of history and current scholarship in African-American music from the eighteenth to the twenty-first centuries. Genres include folk

music, religious music, blues, ragtime, jazz, musical theater, art music, R&B, funk, soul, disco, house, hip-hop and rap. Instructor's consent required.

**MUS\_H\_LI 7335. Music of the Middle Ages and the Renaissance. 3 Credits.**

Advanced systematic study of European musical practice before 1600. Prerequisite: instructor's consent.

**MUS\_H\_LI 7336. Music in the Baroque Era. 3 Credits.**

Advanced systematic study of European musical practice from approximately 1600 to 1750. Prerequisite: instructor's consent.

**MUS\_H\_LI 7337. Music of the Classic Era. 3 Credits.**

Advanced systematic study of European musical practice from approximately 1750 to 1800. Prerequisite: instructor's consent.

**MUS\_H\_LI 7338. Music of the Romantic Era. 3 Credits.**

Advanced systematic study of European musical practice from approximately 1800 to 1900. Prerequisite: instructor's consent.

**MUS\_H\_LI 7339. Music of the Modern Era. 3 Credits.**

Advanced systematic study of fine-art musical practice from approximately 1900 to the present. Prerequisite: instructor's consent.

**MUS\_H\_LI 7340. Focal Composers. 3 Credits.**

Advanced systematic study of the works of landmark composers: J.S. Bach, Mozart, Beethoven, Verdi/Wagner, Debussy, or Stravinsky, studied in rotation. Prerequisite: instructor's consent. Repeatable for up to 6 hours or credit.

**MUS\_H\_LI 7341. Advanced Studies in American Music. 3 Credits.**

Advanced systematic study of the diverse streams of musical practice in the United States from the colonial time to the present. Prerequisite: instructor's consent.

**MUS\_H\_LI 7342. Contemporary Issues in Musicology. 3 Credits.**

Advanced systematic study of single musicological problem of contemporary relevance. Prerequisite: instructor's consent.

**MUS\_H\_LI 7350. Introduction to Ethnomusicology. 3 Credits.**

Study of theories, historical development, research methodologies, and practice of ethnomusicology, in an interdisciplinary approach. Topics include ethnographic research, oral and literate sources, transcription and analysis, critical analysis, and interpretative techniques. Instructor's consent required.

**MUS\_H\_LI 8313. Introduction to Graduate Study. 2 Credits.**

Introduction to library procedures, basic sources of information in music and techniques for research. Prerequisite: instructor's consent.

**MUS\_H\_LI 8314. Introduction to Graduate Studies in Music II. 1 Credit.**

The application of basic music bibliography, research techniques, and conventions of music scholarship. Prerequisite: Music - History and Literature [MUS\_H\_LI] 8313 or instructor's consent.

## **Music-Music Theory (MUS\_THRY)**

**MUS\_THRY 1210. Introduction to Computer Technology and Music. 2 Credits.**

Introduces Finale, music engraving and playback software, and introduces sequencing and other software applications that may impact students while they are in school and as professional musicians.

**MUS\_THRY 1213. Introduction to Music Theory. 2 Credits.**

Introduction to music notation and to rhythmic, melodic, harmonic, and structural elements of music. Emphasis on written skills, but ear training, sight singing, and keyboard components included as well. Prerequisite: consent required. Placement by exam. Graded on A/F basis only.

**MUS\_THRY 1220. Syntax, Structure and Style of Music I. 2 Credits.**

Review of fundamentals. Study of rhythm, melody, harmonic, structure and stylistic characteristics of various periods. Application through original composition projects. Prerequisites: none for Music majors; others: instructor's consent.

**MUS\_THRY 1221. Syntax, Structure and Style of Music II. 2 Credits.**

Continuation of Music Theory [MUS\_THRY]1220. Study of smaller forms and introduction to chromatic harmony. Prerequisites: Grade of C- or better in MUS\_THRY 1220 or instructor's consent.

**MUS\_THRY 1230. Aural Training and Sight Singing I. 2 Credits.**

Development of aural and sight singing skills. Prerequisite or concurrent registration: Music-Music Theory [MUS\_THRY] 1220.

**MUS\_THRY 1231. Aural Training and Sight Singing II. 2 Credits.**

Continuation of Music Theory 1230. Prerequisite: Grade of C- or better in Music-Music Theory [MUS\_THRY] 1230 and 1221 or 1221 concurrently.

**MUS\_THRY 2215. Composition I. 2 Credits.**

Fundamentals of composition and writing in small forms. Prerequisites: grade of B- or better in Music Theory [MUS\_THRY] 1220, 1221, 1230, 1231, and instructor's consent.

**MUS\_THRY 2216. Composition II. 2 Credits.**

Continuation of Music Theory [MUS\_THRY] 2215. Prerequisite: Grade of C- or better in MUS\_THRY 2215.

**MUS\_THRY 2220. Syntax, Structure and Style of Music III. 2 Credits.**

Chromatic harmony, variation techniques and contrapuntal genres. Study of traditional forms in instrumental, vocal and choral compositions. Applications through original composition projects. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 1221.

**MUS\_THRY 2221. Syntax, Structure and Style of Music IV. 2 Credits.**

Continued study of chromatic harmony and compositions in larger forms. Application through original composition projects. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2220.

**MUS\_THRY 2230. Aural Training and Sight Singing III. 2 Credits.**

Continuation of Music Theory [MUS\_THRY] 1231. Further development of aural and sight singing skills with an emphasis on chromatic harmony and decorative pitches. Introduction of structural perception. Prerequisites: Grade of C- or better in MUS\_THRY 1231 and 2220 or 2220 concurrently.

**MUS\_THRY 2231. Aural Training and Sight Singing IV. 2 Credits.**

Continuation Music Theory [MUS\_THRY] 2230. Prerequisites: Grade of C- or better in MUS\_THRY 2230 and 22210 or 2221 concurrently.

**MUS\_THRY 3215. Composition III. 2 Credits.**

Further development of creative writing in traditional forms. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2216.

**MUS\_THRY 3216. Composition IV. 2 Credits.**

Continuation of Music Theory [MUS\_THRY] 3215. Prerequisite: Grade of C- or better in MUS\_THRY 3215.

**MUS\_THRY 4210. Jazz Harmony and Arranging I. 2 Credits.**

Study of basic melodic and harmonic materials commonly used in jazz. Application through arranging projects for small jazz groups.

Prerequisites: Music Theory [MUS\_THRY] 1211 or 1220; instructor's consent required.

**MUS\_THRY 4211. Jazz Harmony and Arranging II. 2 Credits.**

Continuation of 4210. Study of advanced melodic and harmonic materials commonly used in jazz. Application through arranging projects for small and large jazz groups. Prerequisites: Music-Music Theory [MUS\_THRY] 4210; instructor's consent.

**MUS\_THRY 4215. Composition V. 2 Credits.**

Writing of works in larger forms for a solo instrument or chamber ensemble. Prerequisite: Grade of C- or better in Music-Music Theory [MUS\_THRY] 3216.

**MUS\_THRY 4216. Composition VI. 2 Credits.**

Continuation of Music-Music Theory [MUS\_THRY] 4215. May be repeated for additional credit. Prerequisite: Grade of C- or better in MUS\_THRY 4215.

**MUS\_THRY 4220. 20th Century Composition Techniques. 2 Credits.**

The study and application of analytical procedures to 20th century music literature. Special readings; individual projects. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221 or instructor's consent.

**MUS\_THRY 4221. Analysis of Music. 2 Credits.**

An analytical study of rhythmic, melodic, harmonic and structural aspects of 18th-, 19th- and 20th-century music. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221 or equivalent.

**MUS\_THRY 4222. Computer Technology and Music. 2 Credits.**

The introduction of music software for educational and professional use. Music notation software will be learned. Sequencing software will be studied in depth. Hands-on experience with Macintosh computers, multi-timbral synthesizers and various CD-ROMS. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 4220 or instructor's consent.

**MUS\_THRY 4223. Eighteenth-Century Counterpoint. 3 Credits.**

Study of contrapuntal procedures and representative works of the eighteenth century. Emphasis on compositions and style of Johann Sebastian Bach. Original composition projects: canon, invention, and fugue. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221 or instructor's consent.

**MUS\_THRY 4225. Sixteenth-Century Counterpoint. 3 Credits.**

Analysis of contrapuntal procedures and representative compositions of 16th century. Emphasis on styles of Palestrina, Lassus and Victoria. Stylistic writing in two, three or more voices. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4227. Orchestration. 2 Credits.**

Study of orchestral instruments and the process of scoring for various orchestral combinations. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4229. Band Arranging. 2 Credits.**

Transcription, scoring of solo and ensemble literature for band instrument combinations of varying sizes up to and including concert band. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4230. Choral Arranging. 2 Credits.**

Transcription and arrangement of music suitable for performance by various vocal ensembles. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4231. Schenkerian Analysis. 3 Credits.**

Techniques of musical analysis developed by Heinrich Schenker. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4232. Rhythmic Analysis of Tonal Music. 3 Credits.**

Introduction to rhythmic analysis, including context of current thinking, basic concepts, various approaches, selected topics, performance issues, and particular problems. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4233. Acoustics of Music. 2 Credits.**

The study of tuning systems and the properties, production and reception of musical sound. Prerequisites: instructor's consent.

**MUS\_THRY 4245. Introduction to Electronic Music. 2 Credits.**

Techniques used in the creation of music with tape recorders, voltage-controlled synthesizers and electronics. Prerequisites: Grade of C- or better in Music-Music Theory [MUS\_THRY] 4220 or instructor's consent.

**MUS\_THRY 4247. Introduction to Digital Synthesis. 2 Credits.**

Introduction to the techniques of digital synthesis, including the study of programming, and Musical Instrument Digital Interfacing. Prerequisite: instructor's consent.

**MUS\_THRY 4250. Analysis of Musical Styles. 2 Credits.**

Analytical study of specific rhythmic, melodic, harmonic, and structural factors which constitute the stylistic practices of a specific period or composer. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 4221 or equivalent. Departmental consent for repetition.

**MUS\_THRY 4252. Keyboard Harmony and Score Reading. 3 Credits.**

Study of idiomatic chord progressions and harmonization strategies at the keyboard, including figured bass, score reading, and score playing. Skills are reinforced by analysis, both at sight and prepared. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221; instructor's consent.

**MUS\_THRY 4267. Advanced Orchestration I. 2 Credits.**

Transcription for full orchestra of large works from different style periods. Scoring of original works for orchestra. Seminar, private lessons. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 4227.

**MUS\_THRY 4268. Advanced Orchestration II. 2 Credits.**

Survey of original works for orchestra.

**MUS\_THRY 4271. Pedagogy of Music Theory I. 2 Credits.**

Techniques and materials for teaching basic music theory courses for high schools and colleges. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4272. Pedagogy of Music Theory II. 2 Credits.**

Techniques and materials for advanced college courses in music theory. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 4271.

**MUS\_THRY 4284. Contemporary Analytical Techniques. 2 Credits.**

Study and application of various analytical systems for 20th century compositions. Analysis of music employing contemporary theories. Prerequisite: Grade of C- or better in Music Theory [MUS\_THRY] 2221.

**MUS\_THRY 4299. Graduate Theory Review. 2 Credits.**

Review of music theory for graduate students in music. Does not fulfill graduate degree requirements. Prerequisites: graduate standing required; instructor's consent. Graded on S/U basis only.

**MUS\_THRY 7210. Advanced Jazz Harmony and Arranging I. 2 Credits.**

Study of basic melodic and harmonic materials commonly used in jazz. Application through arranging projects for small jazz groups. Prerequisite: graduate standing; instructor's consent.

**MUS\_THRY 7211. Advanced Jazz Harmony and Arranging II. 2 Credits.**

Continuation of Music - Music Theory [MUS\_THRY] 7210. Study of advanced melodic and harmonic materials commonly used in jazz. Application through arranging projects for small and large groups. Prerequisites: graduate standing; instructor's consent.

**MUS\_THRY 7215. Composition I. 2 Credits.**

Fundamentals of Composition: Writing in small forms. For non-composition graduate students in music. Prerequisite: instructor's consent.

**MUS\_THRY 7216. Composition II. 2 Credits.**

Continuation of Music - Music Theory [MUS\_THRY] 7215. Prerequisite: Music - Music Theory [MUS\_THRY] 7215.

**MUS\_THRY 7220. 20th Century Composition Techniques. 2 Credits.**

Graduate review in the study and application of analytical procedures to 20th century music literature. Special readings; individual projects. Prerequisite: instructor's consent.

**MUS\_THRY 7221. Analysis of Music. 2 Credits.**

Graduate review in the analytical study of rhythmic, melodic, harmonic and structural aspects of 18th-, 19th- and 20th-century music. Prerequisite: instructor's consent.

**MUS\_THRY 7222. Computer Technology and Music. 2 Credits.**

Graduate-level introduction of music software for educational and professional use. Music notation software will be learned. Sequencing software will be studied in depth. Hands-on experience with Macintosh computers, multi-timbral synthesizers and various CD-ROMS. Prerequisite: instructor's consent.

**MUS\_THRY 7223. Eighteenth-Century Counterpoint. 3 Credits.**

Advanced study of contrapuntal procedures and representative works of the eighteenth century. Emphasis on compositions and style of Johann Sebastian Bach. Original composition projects: canon, invention, and fugue. Prerequisite: instructor's consent.

**MUS\_THRY 7225. Sixteenth-Century Counterpoint. 3 Credits.**

Advanced analysis of contrapuntal procedures and representative compositions of 16th century. Emphasis on styles of Palestrina, Lassus and Victoria. Stylistic writing in two, three or more voices. Prerequisite: instructor's consent.

**MUS\_THRY 7227. Advanced Orchestration. 2 Credits.**

Study of orchestral instruments and the process of scoring for various orchestral combinations. Prerequisite: instructor's consent.

**MUS\_THRY 7229. Band Arranging. 2 Credits.**

Advanced transcription, scoring of solo and ensemble literature for band instrument combinations of varying sizes up to and including concert band. Prerequisite: instructor's consent.

**MUS\_THRY 7230. Choral Arranging. 2 Credits.**

Advanced transcription and arrangement of music suitable for performance by various vocal ensembles. Prerequisite: instructor's consent.

**MUS\_THRY 7231. Schenkerian Analysis. 3 Credits.**

Advanced techniques of musical analysis developed by Heinrich Schenker. Prerequisite: instructor's consent.

**MUS\_THRY 7232. Rhythmic Analysis of Tonal Music. 3 Credits.**

Advanced study of rhythmic analysis, including context of current thinking, basic concepts, various approaches, selected topics,

performance issues, and particular problems. Prerequisite: instructor's consent.

**MUS\_THRY 7233. Acoustics of Music. 2 Credits.**

Advanced study of tuning systems and the properties, production and reception of musical sound. Prerequisites: instructor's consent.

**MUS\_THRY 7245. Introduction to Electronic Music. 2 Credits.**

Advanced techniques used in the creation of music with tape recorders, voltage-controlled synthesizers and electronics. Prerequisites: instructor's consent.

**MUS\_THRY 7247. Introduction to Digital Synthesis. 2 Credits.**

Graduate-level introduction to the techniques of digital synthesis, including the study of programming, and Musical Instrument Digital Interfacing. Prerequisite: instructor's consent.

**MUS\_THRY 7250. Analysis of Musical Styles. 2 Credits.**

Advanced analytical study of specific rhythmic, melodic, harmonic, and structural factors which constitute the stylistic practices of a specific period or composer. Prerequisite: instructor's consent. Departmental consent for repetition.

**MUS\_THRY 7252. Keyboard Harmony and Score Reading. 3 Credits.**

Study of idiomatic chord progressions and harmonization strategies at the keyboard, including figured bass, score reading, and score playing. Skills are reinforced by analysis, both at sight and prepared. Prerequisite: demonstrable keyboard proficiency at level of Bach invention; graduate standing; instructor's consent.

**MUS\_THRY 7267. Advanced Orchestration I. 2 Credits.**

Advanced transcription for full orchestra of large works from different style periods. Scoring of original works for orchestra. Seminar, private lessons. Prerequisite: Music - Music Theory [MUS\_THRY] 7227 or instructor's consent.

**MUS\_THRY 7268. Advanced Orchestration II. 2 Credits.**

Survey of original works for orchestra. Prerequisite: graduate standing.

**MUS\_THRY 7271. Pedagogy of Music Theory I. 2 Credits.**

Advanced techniques and materials for teaching basic music theory courses for high schools and colleges. Prerequisite: instructor's consent.

**MUS\_THRY 7272. Pedagogy of Music Theory II. 2 Credits.**

Advanced techniques and materials for advanced college courses in music theory. Prerequisite: Music - Music Theory [MUS\_THRY] 7271.

**MUS\_THRY 7284. Contemporary Analytical Techniques. 2 Credits.**

Advanced study and application of various analytical systems for 20th century compositions. Analysis of music employing contemporary theories. Prerequisite: instructor's consent.

**MUS\_THRY 8215. Composition VII. 2 Credits.**

Intensive work in larger forms. Seminar, private lessons. Prerequisites: instructor's consent. Departmental consent for repetition.

## Natural Resources (NAT\_R)

**NAT\_R 1040. Conservation Studies. 1 Credit.**

A one-week field experience in natural resource management issues—soil and water conservation, air pollution, fish and wildlife habitat requirements, importance of forest ecosystems. Limited to high school students who have completed their junior year and taken the PSAT or equivalent. Graded on S/U basis only.

**NAT\_R 1060. Ecology and Conservation of Living Resources. 3 Credits.**

Introduction to the principles of resource and conservation describing the foundation of the variety of living resources and conservation practices used to protect and maintain these resources.

**NAT\_R 1070. Ecology and Renewable Resource Management. 3 Credits.**

Introduction to ecological principles and their relationship to resource use and management. Introduces fisheries and wildlife management as a profession. Required for Fisheries and Wildlife and Forestry majors.

**NAT\_R 2002. Topics in Natural Resources - Biological/Physical/Mathematical. 1-99 Credit.**

Organized study of selected topics. Subjects and credit may vary from semester to semester.

**NAT\_R 2004. Topics in Natural Resources - Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and credit may vary from semester to semester.

**NAT\_R 2160. Contemporary Issues in Natural Resources. 3 Credits.**

Natural resources, their management, renewability, and sustainability. Discussion of contemporary issues.

**NAT\_R 3001. Topics in Natural Resources. 1-99 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester.

**NAT\_R 3110. Natural Resource Biometrics. 3 Credits.**

Sampling methods and analysis as applied to a variety of natural resources, including fisheries, range, recreation, forests, water and wildlife. Prerequisites: a course in Statistics or instructor's consent.

**NAT\_R 3220. Public Relations for Natural Resource Managers. 3 Credits.**

Introduction to the practical nature of public relations for those entering natural resources careers, emphasis on communication with target audiences through news media, publications and exhibits.

**NAT\_R 3290. Hydrologic Measurement Techniques. 1 Credit.**

Students will be introduced to field methods and tools used by water resource and environmental science professionals. Students will sample and measure hydrologic and environmental variables, learn about data storage systems, and access and analyze data. Prerequisite: Mathematics [MATH] 1100 or permission of instructor. Graded on A/F basis only. Course may be repeated for credit.

**NAT\_R 4000. Problems in Natural Resources. 1-99 Credit.**

Problems in Natural Resources.

**NAT\_R 4001. Topics in Natural Resources. 1-99 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester.

**NAT\_R 4320. Hydrologic and Water Quality Modeling. 3 Credits.**

(same as Environmental Science [ENV\_SC] 4320). Introduction to models for simulating hydrologic and water quality processes. Emphasis is placed on watersheds to provide experience with the use of simulation models for natural resource decision making. Prerequisites: ENV\_SC 1100 or Soil Science [SOIL] 2100 or equivalent.

**NAT\_R 4325. Introduction to Geographic Information Systems. 3 Credits.**

The course will cover basic theoretical and technical issues in GIS, discuss processing geographic information for research and application,

emphasis on the nature of spatial information, data models, input, manipulation and storage, and spatial analytic techniques. Prerequisites: Natural Resources [NAT\_R] 1070 or Geography [GEOG] 2840; NAT\_R 1080 and 1090; instructor's consent.

**NAT\_R 4353. Natural Resource Policy/Administration. 3 Credits.**

Principles of policy formation and analysis; relationship of organizational goals to structure, planning and budgeting. Historical background of present natural resource policies; examines current policy issues. Prerequisites: senior standing or instructor's consent.

**NAT\_R 4365. GIS Applications. 3 Credits.**

Introduces logical thinking and techniques in applying GIS to practical problems. Covers general GIS functionalities, Arc View Spatial Analyst including georeference, terrain analysis, hydrological analysis, grid, and remote sensing image processing. Prerequisite: Geography [GEOG] 4840, Natural Resources [NAT\_R] 1080 and 1090, or instructor's consent.

**NAT\_R 4385. Landscape Ecology and GIS Analysis I. 3 Credits.**

(same as Geography [GEOG] 4810). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes. Prerequisite: GEOG 4840, or instructor's consent.

**NAT\_R 4940. Natural Resources Internship. 1-12 Credit.**

Supervised professional experience with an approved public or private organization. Prerequisite: School of Natural Resources majors only, instructor's consent. Graded on S/U basis only. May be repeated for credit.

**NAT\_R 4970. Resource Practicum in Natural Resources. 3 Credits.**

Multidisciplinary planning of a natural resource management program. School of Natural Resources majors only. Prerequisite: senior standing or instructor's consent.

**NAT\_R 7001. Topics in Natural Resources. 1-99 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester.

**NAT\_R 7320. Hydrologic and Water Quality Modeling. 3 Credits.**

(same as Environmental Sciences [ENV\_SC] 7320). Introduction to models for simulating hydrologic and water quality processes. Emphasis is placed on Missouri watersheds to provide experience with the use of simulation models for natural resource decision making. Prerequisites: graduate standing and Natural Resources [NAT\_R] 1080 and 1090 and Soil Science [SOIL] 2100 or equivalent.

**NAT\_R 7325. Introduction to Geographic Information Systems. 3 Credits.**

The course will cover basic theoretical and technical issues in GIS, discuss processing geographic information for research and application, emphasis on the nature of spatial information, data models, input, manipulation and storage, and spatial analytic techniques. Prerequisites: graduate standing and Natural Resources [NAT\_R] 1070 or Geography [GEOG] 2840; NAT\_R 1080 and 1090; instructor's consent.

**NAT\_R 7353. Natural Resource Policy/Administration. 3 Credits.**

Principles of policy formation and analysis; relationship of organizational goals to structure, planning and budgeting. Historical background of present natural resource policies; examines current policy issues. Prerequisites: graduate standing or instructor's consent.

**NAT\_R 7365. GIS Applications. 3 Credits.**

Introduces logical thinking and techniques in applying GIS to practical problems. Cover general GIS functionalities, Arc View Spatial Analyst including georeference, terrain analysis, hydrological analysis, grid, and remote sensing image processing. Prerequisite: graduate standing and Geography [GEOG] 4840, Natural Resources [NAT\_R] 1080 and 1090, or instructor's consent.

**NAT\_R 7385. Landscape Ecology and GIS Analysis I. 3 Credits.**

(same as Geography [GEOG] 7810). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes. Prerequisite: graduate standing and GEOG 4840, or instructor's consent.

**NAT\_R 8001. Topics in Natural Resources. 1-99 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester.

**NAT\_R 8290. Hydrologic Measurement and Synthesis. 2 Credits.**

Students are introduced to methods fundamental to measuring hydrologic processes, and assessing physical data, including field measurement, and data logging and acquisition information systems. Students will gain experience analyzing and synthesizing hydrologic data using tools commonly used by water resource professionals. May be repeated for credit. Prerequisites: Mathematics [MATH] 1100, Statistics [STAT] 2530, Physics [PHYSICS] 1210. If deficient in prerequisite courses, or unsure of qualification, contact instructor for consent. Graded on A/F basis only.

**NAT\_R 8395. Landscape Ecology and GIS Analysis II. 3 Credits.**

(same as Geography [GEOG] 8815). Provide students with principles and applications of landscape ecology and firm understandings of spatial analysis techniques using GIS. Discuss metrics for spatial pattern and models for landscape-scale dynamics. Prerequisite: graduate standing and Natural Resources [NAT\_R] 4365; Forestry [FOREST] 4320 or equivalent; basic statistics; GEOG 4810/7810 recommended; instructor's consent.

**NAT\_R 8416. Applied Research Methodology. 2 Credits.**

Interrelated roles or logic, observation experiment in scientific method, research components, ethical aspects, scientific publication and communication, and research direction. Prerequisite: instructor's consent.

**NAT\_R 8448. Society and Ecosystems Research Seminar. 3 Credits.**

(same as Agricultural Economics [AG\_EC] 8448 and Rural Sociology [RU\_SOC] 8448). This seminar, capstone for the Graduate Certificate Program in Society and Ecosystems, exposes students to interdisciplinary research on interactions between social, economic and ecological systems.

## Naval Science (NAVY)

---

**NAVY 1100. Introduction to Naval Science. 3 Credits.**

This course serves as an introduction to the organization of the Naval Service, the varied career opportunities available, the long held customs and traditions of the service, and the duties of a Junior Officer.

**NAVY 1200. Seapower and Maritime Affairs. 3 Credits.**

Seminars examine the application of seapower as an instrument of foreign policy by the major nations of the world. Emphasis placed on role of the Navy.

**NAVY 2110. Naval Ship Systems I. 3 Credits.**

Ship construction, stability and damage control, basic thermodynamics, the steam cycle and engineering plant, including introduction to gas turbine, diesel and nuclear powered systems.

**NAVY 2130. Evolution of Warfare. 3 Credits.**

Evolution of strategy, tactics, weapons and leadership from earliest beginning through the Vietnam period. Development of military policy, the impact of warfare on the political, social and economic structure of nations.

**NAVY 2210. Naval Ship Systems II. 3 Credits.**

Naval weapons systems, their employment and control, including the basic fire control problem, with emphasis on new systems.

**NAVY 3120. Marine Navigation. 3 Credits.**

Theoretical and practical application of the principles of marine navigation. Includes fundamentals of dead reckoning, piloting, tides and current, celestial navigation, electronic navigation.

**NAVY 3130. Amphibious Warfare. 3 Credits.**

History and development of amphibious warfare, principles of amphibious warfare techniques; their application in selected examples from modern.

**NAVY 3140. Leadership and Management. 3 Credits.**

This course will provide a basic understanding of the interrelationship between authority, responsibility and accountability within a task oriented organization. Students will learn to apply leadership and management skills to prioritize competing demands and to attain mission objectives; the importance of planning and follow-up; and develop a basic understanding of communication and counseling as it pertains to personnel management. Prerequisites: sophomore standing or by consent of Professor of Naval Science.

**NAVY 3220. Naval Operations. 3 Credits.**

Principles and concepts of naval operations: rules of the road, command and control in naval operations, communications, ASW warfare, international maritime law, and practical solution of relative motion problems. Prerequisite: Naval Science [NAVY] 3120.

**NAVY 4940. Leadership and Ethics. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4940). The curriculum provides a foundation in leadership, ethical decision making, the Law of Armed Conflict and the military justice system. Course explores ethical theories and helps students to build an ethical framework for decision making. Topic areas include: Kant, Utilitarianism, Stoicism, Constitutional Paradigm, Uniform Code of Military Justice and Law of Armed Conflict. Designed as a capstone course for juniors and seniors enrolled in NROTC it is open to all MU students. Prerequisite: junior standing.

## Neurology (NEUROL)

---

**NEUROL 6003. Neurology Clerkship. 2-3 Credit.**

Neurology Clerkship.

**NEUROL 6013. Rural Neurology Clerkship. 2 Credits.**

Rural Neurology Clerkship.

**NEUROL 6103. Remediation 6003 Neurology Clerkship. 2 Credits.**

Neurology Clerkship Remediation. Prerequisite: 6003 Neurology Clerkship, received unsatisfactory grade.

**NEUROL 6301. ABS Neurology Mech of Disease. 5-10 Credit.**

ABS Neurology Mech of Disease.

**NEUROL 6303. ABS Neurology Research. 5 Credits.**

ABS Neurology Research.

**NEUROL 6305. ABS Neurology Research and Review. 5 Credits.**

ABS Neurology Research and Review.

**NEUROL 6755. Adult Neurology - Rural. 5 Credits.**

Adult Neurology - Rural.

**NEUROL 6756. Neurology - Rural. 5 Credits.**

Rural Neurology general elective. Prerequisites: Neurology [NEUROL] 6002, 6003. Restricted to fourth year medical students.

**NEUROL 6829. PEDIATRIC NEUROLOGY. 5 Credits.**

Pediatric Neurology.

**NEUROL 6845. Neurology. 5 Credits.**

Neurology.

**NEUROL 6850. Advanced Neurology. 5 Credits.**

Advanced Neurology.

## **Nuclear Engineering (NU\_ENG)**

---

**NU\_ENG 2201. Topics in Nuclear Engineering. 3 Credits.**

Current and new developments in nuclear engineering. Prerequisites: sophomore standing; Physics [PHYSICS] 1210 and 1220 and Mathematics [MATH] 1100 or 1120 or instructor's consent.

**NU\_ENG 2303. Harnessing the Atoms in Everyday Life: Fulfill M Curie's Dream. 3 Credits.**

Introduction to applications of nuclear science and technology, utilizing web-based learning scenarios.

**NU\_ENG 4001. Topics in Nuclear Engineering. 2-5 Credit.**

Current and new developments in nuclear engineering. Prerequisite: instructor's consent. May be repeated for credit.

**NU\_ENG 4302. Safe Handling of Radioisotopes. 1 Credit.**

Introduction of methods and procedures for safe handling of radioisotopes in the research laboratory. Intensive lecture and laboratory training sessions designed for persons planning to use radioisotopes at the University. Prerequisite: instructor's consent.

**NU\_ENG 4303. Radiation Safety. 3 Credits.**

(Same as Radiologic Sciences [RA\_SCI] 4303) Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection. Prerequisite: college physics, calculus based.

**NU\_ENG 4305. Survey of Nuclear Engineering. 3 Credits.**

Introductory topics in nuclear engineering. Atomic and nuclear physics; nuclear reactor principles under steady-state and transient conditions; heat removal; shielding; instrumentation; power generation; fusion. Prerequisite: concurrent with Mathematics [MATH] 4100.

**NU\_ENG 4306. Advanced Engineering Math. 3 Credits.**

(same as Chemical Engineering [CH\_ENG] 4306). Applies ordinary and partial differential equations to engineering problems; Fourier's series; determinants and matrices; Laplace transforms; analog computer techniques. Prerequisite: Mathematics [MATH] 4100.

**NU\_ENG 4315. Energy Systems and Resources. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 4020). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies. Prerequisite: Engineering [ENGINR] 2300 or equivalent.

**NU\_ENG 4319. Physics and Chemistry of Materials. 3 Credits.**

(same as Physics [PHYSICS] 4190 and Biological Engineering [BIOL\_EN] 4480 Chemistry [CHEM] 4490). Undergraduate/graduate level course offered every winter semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two mid term and one final exam. Graduate students will submit a term paper. Prerequisite: PHYSICS 2760 and Chemistry [CHEM] 1320 or equivalent and instructor's consent.

**NU\_ENG 4320. Natural Resources and Nuclear Energy. 3 Credits.**

Not for engineering students. Lecture, demonstration; describes physical environment, energy, power plants, nuclear reactors; radioactivity, its biological effects; health physics measures, rad-waste disposal; nuclear safeguards, nuclear explosives, societal implications. Prerequisite: high school algebra.

**NU\_ENG 4328. Introductory Radiation Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 4328, Radiology [RADIOL] 4328, Veterinary Medicine & Surgery [V\_M\_S] 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man. Prerequisite: junior standing, Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent.

**NU\_ENG 4330. Science and Technology of Terrorism and Counter Terrorism. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems.

**NU\_ENG 4331. Nonproliferation Issues for Weapons of Mass Destruction. 3 Credits.**

Nonproliferation and impact on technology and world events. Prerequisites: junior/senior standing or instructor's consent. May be repeated for credit.

**NU\_ENG 4341. Nuclear Chemical Engineering. 3 Credits.**

Principles and processes of importance in the field of nuclear technology.

**NU\_ENG 4346. Introduction to Nuclear Reactor Engineering I. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 4030). Engineering principles of nuclear power systems, primarily for the production of electrical energy. Prerequisites: Engineering [ENGINR] 1200, 2300 or equivalent.

**NU\_ENG 4349. Nuclear Engineering Materials. 3 Credits.**

Properties of materials for reactor components; radiation damage and corrosion; metallurgy of reactor materials. Prerequisites: upper division or graduate standing in Physical Sciences or Engineering, or instructor's consent.

**NU\_ENG 4350. Nuclear Forensic Analysis. 3 Credits.**

Principles/applications of nuclear techniques in solution of bioenvironmental problems. Uses of nuclear methods in studies of water/air pollution, biology, medicine, pesticides, geochemistry, ecological transport. Lectures, laboratory. Prerequisites: senior standing or instructor's consent.

**NU\_ENG 4353. Introduction to Fusion. 3 Credits.**

Basic plasma physics, principles of thermonuclear fusion, plasma confinement and heating, and devices. Prerequisites: senior standing in Engineering or Science or instructor's consent.

**NU\_ENG 4357. Nuclear Heat Transport. 2 Credits.**

Principles of heat transport in nuclear reactors. Brief review of the theory of flow coast down and convective heat transfer. Heat transfer loop experiments on flow coast down, steady state and transient forced convection heat transfer, boiling heat transfer. Prerequisites: Nuclear Engineering [NU\_ENG] 4305, 4346 or instructor's consent.

**NU\_ENG 4365. Nuclear Power Engineering. 3 Credits.**

Nuclear reactor heat generation and removal; nuclear reactor coolants; analysis of nuclear reactor power plants. Prerequisite: Engineering [ENGINR] 2300.

**NU\_ENG 4369. Principles of Direct Energy Conversion. 3 Credits.**

Principles and utilization of thermoelectric, thermionic, photovoltaic, magnetohydrodynamic generators and fuel cells. Prerequisites: Engineering [ENGINR] 2300, Mechanical and Aerospace Engineering [MAE] 3400, or equivalent.

**NU\_ENG 4375. Introduction to Plasmas. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 4550). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications. Prerequisites: ECE 4930 or instructor's consent.

**NU\_ENG 4379. Particulate Systems Engineering. 3 Credits.**

An introduction to natural and engineered particulate systems. Prerequisites: Chemical Engineering [CH\_ENG] 3234 or Mechanical and Aerospace Engineering [MAE] 4300 or equivalent.

**NU\_ENG 4382. Lasers and Their Applications. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 4570). Introduction to lasers, from both a conceptual viewpoint and from the application of Maxwell's equation, to develop the optical theory for lasers. Prerequisites: Physics [PHYSICS] 2760, and Mathematics [MATH] 4100.

**NU\_ENG 4391. Nuclear Radiation Detection. 3 Credits.**

(same as Chemistry [CHEM] 4600). Principles and application of radiation detectors and analyzers: ionization, Geiger-Muller, proportional, liquid and solid scintillation, semiconductor, pulse height analyzers, coincidence circuits, data reduction, tracer applications, activation analysis. Lectures, laboratory. Prerequisites: senior standing or instructor's consent.

**NU\_ENG 7001. Topics in Nuclear Science and Engineering. 2-5 Credit.**

Current and new developments in nuclear engineering. Prerequisite: instructor's consent.

**NU\_ENG 7080. Medical Ethics for Medical Physics. 1 Credit.**

This course will start with an introduction into medical ethics then transitions into research procedures with humans and animals. This course will cover research ethics, professional conduct, authorship, publishing, and plagiarism. Graduate Standing required.

**NU\_ENG 7085. Special Problems in Nuclear Science and Engineering. 1-5 Credit.**

Special Problems in Nuclear Science and Engineering.

**NU\_ENG 7087. Seminar in Nuclear Science and Engineering. 1 Credit.**

Reviews of investigations and projects of importance in nuclear engineering.

**NU\_ENG 7302. Safe Handling of Radioisotopes. 1 Credit.**

Introduction of methods and procedures for safe handling of radioisotopes in the research laboratory. Intensive lecture and laboratory training sessions designed for persons planning to use radioisotopes at the University. Prerequisite: graduate standing and instructor's consent.

**NU\_ENG 7303. Radiation Safety. 3 Credits.**

Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection. Prerequisite: graduate standing and college physics, calculus based.

**NU\_ENG 7305. Survey of Nuclear Engineering. 3 Credits.**

Introductory topics in nuclear engineering. Atomic and nuclear physics; nuclear reactor principles under steady-state and transient conditions; heat removal; shielding; instrumentation; power generation; fusion. Prerequisite: graduate standing and concurrent with Mathematics [MATH] 4100.

**NU\_ENG 7306. Advanced Engineering Math. 3 Credits.**

(same as Chemical Engineering [CH\_ENG] 4306). Applies ordinary and partial differential equations to engineering problems; Fourier's series; determinants and matrices; Laplace transforms; analog computer techniques. Prerequisite: graduate standing and Mathematics [MATH] 4100.

**NU\_ENG 7313. Nuclear Science for Engineering for Secondary Science Teachers. 3 Credits.**

This one-week course is for high school science and math teachers, and provides basic of nuclear scheme concepts and their applications, types of radiation (including radiation detection and protection), and industrial, medical and nuclear power generation application. Prerequisite: instructor's consent; actively engaged in STEM teaching at the secondary level.

**NU\_ENG 7315. Energy Systems & Resources. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 7020). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies. Prerequisite: graduate standing and Engineering [ENGINR] 2300 or equivalent.

**NU\_ENG 7319. Physics and Chemistry of Materials. 3 Credits.**

(same as Physics [PHYSICS] 7190, Biological Engineering [BIOL\_EN] 4460 and Chemistry [CHEM] 7490). Undergraduate/graduate level course offered every winter semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures or laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper. Prerequisite: graduate standing and Physics [PHYSICS] 2760 and Chemistry [CHEM] 1320 or equivalent and instructor's consent.

**NU\_ENG 7320. Natural Resources and Nuclear Energy. 3 Credits.**

Not for engineering students. Lecture, demonstration; describes physical environment, energy, power plants, nuclear reactors; radioactivity, its

biological effects; health physics measures, rad-waste disposal; nuclear safeguards, nuclear explosives, societal implications. Prerequisite: graduate standing and high school algebra.

**NU\_ENG 7328. Introductory Radiation Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC], Radiology [RADIOL], Veterinary Medicine & Surgery [V\_M\_S] 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man. Prerequisite: graduate standing, Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent.

**NU\_ENG 7330. Science and Technology of Terrorism and Counter Terrorism. 3 Credits.**

Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems. Prerequisite: graduate standing.

**NU\_ENG 7331. Nonproliferation Issues for Weapons of Mass Destruction. 3 Credits.**

Nonproliferation & impact on technology and world events. Prerequisite: junior or senior standing or instructor's consent.

**NU\_ENG 7335. Nuclear Safeguards Science and Technology. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 7335). This course provides an overview of nuclear materials management and safeguards, including physical protection systems, material accounting and control, monitoring, and regulatory issues. Prerequisite: Nuclear Engineering [NU\_ENG] 4303/7303. Graduate Standing Required.

**NU\_ENG 7341. Nuclear Chemical Engineering. 3 Credits.**

Principles and processes of importance in the field of nuclear technology. Prerequisite: graduate standing.

**NU\_ENG 7346. Introduction to Nuclear Reactor Engineering I. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 7030). Engineering principles of nuclear power systems, primarily for the production of electrical energy. Prerequisites: graduate standing and Engineering [ENGINR] 1200, 2300 or equivalent.

**NU\_ENG 7349. Nuclear Engineering Materials. 3 Credits.**

Properties of materials for reactor components; radiation damage and corrosion; metallurgy of reactor materials. Prerequisites: upper division or graduate standing in Physical Sciences or Engineering, or instructor's consent.

**NU\_ENG 7350. Nuclear Forensic Analysis. 3 Credits.**

Principles/applications of nuclear techniques in solution of bioenvironmental problems. Uses of nuclear methods in studies of water/air pollution, biology, medicine, pesticides, geochemistry, ecological transport. Lectures, laboratory. Prerequisites: Nuclear Engineering [NU\_ENG] 7303, instructor's consent.

**NU\_ENG 7353. Introduction to Fusion. 3 Credits.**

Basic plasma physics, principles of thermonuclear fusion, plasma confinement and heating, and devices. Prerequisites: graduate standing in Engineering or Science or instructor's consent.

**NU\_ENG 7357. Nuclear Heat Transport. 2 Credits.**

Principles of heat transport in nuclear reactors. Brief review of the theory of flow coast down and convective heat transfer. Heat transfer loop experiments on flow coast down, steady state and transient forced convection heat transfer, boiling heat transfer. Prerequisites: graduate standing and Nuclear Engineering [NU\_ENG] 4305, 4346 or instructor's consent.

**NU\_ENG 7365. Nuclear Power Engineering. 3 Credits.**

Nuclear reactor heat generation and removal; nuclear reactor coolants; analysis of nuclear reactor power plants. Prerequisite: graduate standing and Engineering [ENGINR] 2300.

**NU\_ENG 7369. Principles of Direct Energy Conversion. 3 Credits.**

Principles and utilization of thermoelectric, thermionic, photovoltaic, magnetohydrodynamic generators and fuel cells. Prerequisites: graduate standing and Engineering [ENGINR] 2300, Mechanical and Aerospace Engineering [MAE] 3400, or equivalent.

**NU\_ENG 7375. Introduction to Plasmas. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 7550). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications. Prerequisites: graduate standing and Electrical and Computer Engineering [ECE] 4930 or instructor's consent.

**NU\_ENG 7379. Particulate Systems Engineering. 3 Credits.**

An introduction to natural and engineered particulate systems. Prerequisites: graduate standing and Chemical Engineering [CH\_ENG] 3234 or Mechanical and Aerospace Engineering [MAE] 4300 or equivalent.

**NU\_ENG 7382. Lasers and Their Applications. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 7570). An introductory course in lasers. The course treats the subject from both a conceptual viewpoint and from the application of Maxwell's equations, to develop the optical theory for lasers. The course includes approximately 10 class-room hours of laboratory work with lasers. Prerequisites: graduate standing and Physics [PHYSICS] 2760 and Mathematics [MATH] 4100.

**NU\_ENG 7391. Nuclear Radiation Detection. 3 Credits.**

Principles and application of radiation detectors and analyzers: ionization, Geiger-Muller, proportional, liquid and solid scintillation, semiconductor, pulse height analyzers, coincidence circuits, data reduction, tracer applications, activation analysis. Lectures, laboratory. Prerequisites: graduate standing or instructor's consent.

**NU\_ENG 7422. Radiation Shielding. 3 Credits.**

Fundamentals of radiation interactions stressing neutron and gamma radiation transport; ray theory, removal theory, multi-group transport shield design principles. Prerequisites: Nuclear Engineering [NU\_ENG] 8409 or instructor's consent.

**NU\_ENG 7470. Fast Reactor Analysis. 3 Credits.**

Analytical methods for designing fast breeder reactor systems. Prerequisites: Nuclear Engineering [NU\_ENG] 8412, 8432, 8451 or instructor's consent. Graded on a S/U basis only.

**NU\_ENG 8001. Advanced Topics in Nuclear Science and Engineering. 3 Credits.**

Advanced developments in nuclear engineering. Prerequisite: instructor's consent.

**NU\_ENG 8085. Problems in Nuclear Science and Engineering. 1-6 Credit.**

Supervised investigation in nuclear engineering to be presented in the form of a report.

**NU\_ENG 8090. Research in Nuclear Science and Engineering. 1-99 Credit.**

Independent investigation in nuclear engineering to be presented as a thesis. Graded on an S/U basis only.

**NU\_ENG 8402. Nuclear Fuel Cycle. 3 Credits.**

Covers the nuclear fuel cycle from mine through enrichment, fuel element burn-up reactor physics, chemical reprocessing, waste disposal, with special emphasis on the newer proliferation-resistant fuel cycles.

Prerequisites: Nuclear Engineering [NU\_ENG] 4346 or 4305 and instructor's consent.

**NU\_ENG 8403. Applied Topics in Medical Physics & Health Physics. 1-6 Credit.**

Directed observations and experience in scientific aspects of daily operations in nuclear medicine, diagnostic radiology, radiotherapy and health physics. Prerequisite: departmental consent.

**NU\_ENG 8404. Nuclear Reactor Laboratory I. 3 Credits.**

Application of reactor physics principals to operation of and experiments with the University of Missouri Research Reactor. Neutron activation analysis, instrumentation, reactivity evaluation. Prerequisites: Nuclear Engineering [NU\_ENG] 4346 or 8411.

**NU\_ENG 8405. Nuclear Reactor Laboratory II. 3 Credits.**

Advanced experiments to measure diffusion length, Fermi age, material buckling, transfer function, neutron spectrum and other reactor characteristics. Reactor simulation with an analog computer. Prerequisite: Nuclear Engineering [NU\_ENG] 8411 or instructor's consent.

**NU\_ENG 8406. Clinical & Research Application in Medical and Health Physics. 1 Credit.**

To give students an understanding of the range of clinical practice and medical research involving the practice and nuclear physics/engineering. Prerequisites: Nuclear Engineering [NU\_ENG] 8409 and 4303, college calculus or equivalent and calculus based physics.

**NU\_ENG 8408. State Variable Methods in Automatic Control. 3 Credits.**

(same as Chemical Engineering [CH\_ENG] 8780, Electrical and Computer Engineering [ECE] 8780, Mechanical and Aerospace Engineering [MAE] 8780). State variables for continuous and discrete-time dynamic control systems; controllability and observability; optimal control of linear systems. Prerequisites: Chemical Engineering [CH\_ENG] 4370, Electrical Engineering [ECE] 4310, Mechanical and Aerospace Engineering [MAE] 4703 or instructor's consent.

**NU\_ENG 8409. Interaction of Radiation with Matter. 3 Credits.**

Theory/applications of radiation interaction processes. Reviews nuclear physics concepts; radioactive decay; sources/ spectra of ionizing radiation; collision mechanisms for charged particles, electromagnetic radiation, neutrons for interaction with matter. Prerequisite: Entrance requirements.

**NU\_ENG 8411. Nuclear Reactor Theory I. 3 Credits.**

Nuclear reactions; nuclear fission; introduces neutron transport; diffusion and slowing down of neutrons; steady-state homogeneous and heterogeneous reactor theory. Prerequisites: instructor's consent.

**NU\_ENG 8412. Nuclear Reactor Theory II. 3 Credits.**

Linear and non-linear reactor kinetics; perturbation theory; temperature and fission product effects; control rod theory; transport theory.

Prerequisites: Nuclear Engineering [NU\_ENG] 8411 or 4346.

**NU\_ENG 8421. Advanced Radiation Detection Electronics. 3 Credits.**

Principles of radiation pulse analysis with emphasis on applications.

Radiation detection devices; amplifying, shaping and discrimination circuits; nuclear pulse analysis; automated data analysis systems.

Lectures and lab. Prerequisites: Nuclear Engineering [NU\_ENG] 4346, 4391 or instructor's consent.

**NU\_ENG 8422. Radiation Shielding. 3 Credits.**

Fundamentals of radiation interactions stressing neutron and gamma radiation transport; ray theory, removal theory, multi-group transport shield design principles. Prerequisites: graduate standing and Nuclear Engineering [NU\_ENG] 8409 or instructor's consent.

**NU\_ENG 8429. Radiation Dosimetry. 3 Credits.**

Basis and applications of conventional and microscopic radiation dosimetry. Dose concepts and quantities; biological dose-response models; dose measurement principles; photon, charged particle, and neutron dosimetry. Prerequisite: Nuclear Engineering [NU\_ENG] 8409.

Recommended: Nuclear Engineering [NU\_ENG] 4328.

**NU\_ENG 8432. Nuclear Thermal Hydraulics and Safety. 3 Credits.**

Engineering topics from reactor heat transfer and thermal stresses, fuel cycle analysis, power plant thermodynamics, shielding, and reactor safety analysis. Prerequisites: Nuclear Engineering [NU\_ENG] 8411 or 4346, or instructor's consent.

**NU\_ENG 8434. Fracture Mechanics I. 3 Credits.**

(same as Mechanical & Aerospace Engineering [MAE] 8211). Mechanics of flawed structure. Concepts include Griffith theory, Barenblatt's theory, Irwin analysis, energy analysis of cracked bodies, fracture toughness testing, plane strain, plane stress, transition temperature concepts, subcritical flaw growth. Prerequisites: Mechanical & Aerospace Engineering [MAE] 3200 or instructor's consent.

**NU\_ENG 8435. Physics of Diagnostic Radiology. 3 Credits.**

Principles and applications of X-ray production and interactions. Images production concepts including X-ray film, intensifying screens, grids, fluoroscopy, image intensification and television monitors. Image quality analysis and assessment. Prerequisites: Nuclear Engineering [NU\_ENG] 8409 or equivalent or instructor's consent.

**NU\_ENG 8439. Clinical Physics in Radiotherapy. 3 Credits.**

Principles and applications of radiation producing units, exposure and dose measurements, and calibration. External beam physics parameters and application to fixed field and rotational field treatment planning.

Prerequisite: Nuclear Engineering [NU\_ENG] 8409 or equivalent or instructor's consent.

**NU\_ENG 8444. Fracture and Fatigue Prevention in Engineering Practice. 3 Credits.**

(same as Mechanical & Aerospace Engineering [MAE] 8290). Practical design problems. Introduction to retrofit design, maintenance, product improvement and new design from a fatigue and fracture prevention philosophy. Fail safe and safe life designs are presented. Prerequisite: Nuclear Engineering [NU\_ENG] 8434.

**NU\_ENG 8450. Superconductivity and Its Applications. 3 Credits.**

(same as Electrical and Computer Engineering [ECE] 8020).

Phenomenology and theory of superconductivity; cryogenic practice;

metallurgy of superconducting elements, alloys and compounds. Applications, present and prospective. Graded on an S/U basis only.

**NU\_ENG 8451. Computational Methods of Reactor Analysis. 3 Credits.**

Applies numerical analysis and digital computation to topics from multi-group diffusion theory, transport theory, reactor kinetics, reactor thermal hydraulics, radiation shielding, reactor safety. Prerequisites: Nuclear Engineering [NU\_ENG] 8411 and Mathematics [MATH] 4300.

**NU\_ENG 8452. Ultrasound and Magnetic Resonance Imaging. 3 Credits.**

The physical principles of MRI and ultrasound including clinical instrumentation, artifacts in images, biological effects and quality control. Images obtained with both techniques will be presented. Prerequisite: Nuclear Engineering [NU\_ENG] 4391, 8409, 4306 or equivalent.

**NU\_ENG 8453. Advanced Fusion Theory. 3 Credits.**

Plasma stability theory, charged particle diffusion, slowing down of charged particles, interaction of radiation with matter, direct energy conversion using charged particles, and engineering considerations. Prerequisites: Nuclear Engineering [NU\_ENG] 4353 and 4375 or Physics [PHYSICS] 8450 or instructor's consent.

**NU\_ENG 8454. Clinical Physics of Nuclear Medicine. 3 Credits.**

Physical principles, statistics of radionuclide decay and highlights into the most current instrumentation to utilize in vivo radionuclides for both diagnostic imaging and therapy. Also includes brachy therapy. Prerequisite: Nuclear Engineering [NU\_ENG] 4306, 8409 or equivalent.

**NU\_ENG 8455. Growth, Characterization & Appl. of Diamond & Related Materials. 3 Credits.**

This course explores the development of diamond films. Discussion of other wide band-gap materials are covered. Topics include Chemistry of Diamond Growth, Thermodynamics, Nucleation, Methods of Growth, Methods of Impurity Control, Characterization and Modification, Doping, and Applications.

**NU\_ENG 8461. Neutron Transport Theory. 3 Credits.**

The Boltzmann equation; general properties and solution; numerical methods of solving the transport equation; neutron thermalization and neutron spectra. Prerequisites: Nuclear Engineering [NU\_ENG] 8412; Mathematics [MATH] 4940, 4300, or instructor's consent.

**NU\_ENG 8470. Fast Reactor Analysis. 3 Credits.**

Analytical methods for designing fast breeder reactor systems. Prerequisites: Nuclear Engineering [NU\_ENG] 8412, 8432, 8451 or instructor's consent. Graded on a S/U basis only.

**NU\_ENG 8471. Radiation Protection. 3 Credits.**

Theory and applications of radiation protection and health physics. Radiation dosimetry methods and calculations, shielding evaluations, equipment surveys and inspection, environmental monitoring, radiation standards and regulations and administration presented. Prerequisites: Nuclear Engineering [NU\_ENG] 4303 and 4328.

**NU\_ENG 9090. Research in Nuclear Science and Engineering. 1-99 Credit.**

Independent investigation in nuclear engineering to be presented as a thesis. Graded on an S/U basis only.

## **Nuclear Medicine (NUCMED)**

---

**NUCMED 1000. Orientation to Nuclear Medicine. 1 Credit.**

An overview using a series of short rotations through local nuclear medicine departments and a self-directed review of a current text. Clinical rotations for this course are arranged on an individual basis. Graded on S/U basis only.

**NUCMED 3255. Orientation to Clinical Practice. 2 Credits.**

This course provides an introductory experience to clinical practice. Prerequisite: Must be accepted into Nuclear Medicine Program, restricted to Radiologic Sciences students, junior standing required. Graded on A/F basis only.

**NUCMED 3256. Clinical Nuclear Medicine I. 2 Credits.**

Introductory clinical course for senior level students. Introduces instrumentation, administration, procedures, and laboratory techniques. Includes supervised clinical participation. Prerequisite: Nuclear Medicine [NUCMED] 3263 and restricted to Radiologic Sciences students only.

**NUCMED 3263. Morphological Correlations in Nuclear Medicine I. 3 Credits.**

Anatomy, physiology, and pathology of the human body as assessed using medicine techniques. The first of two courses that address current clinical applications of nuclear medicine. Prerequisite: Nuclear Engineering [NU\_ENG] 4303, restricted to Radiologic Sciences students only.

**NUCMED 3328. Introductory Radiation Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 4328, Nuclear Engineering [NU\_ENG] 4328, Veterinary Medicine & Surgery [V\_\_S] 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man. Prerequisite: junior standing Sciences/Engineering; one course in Biological Sciences & Physics/Chemistry; or instructor's consent.

**NUCMED 4085. Problems in Nuclear Medicine. 1-3 Credit.**

Supervised investigation in an aspect of nuclear medicine technology, usually culminating in a written report.

**NUCMED 4232. Clinical In Vitro. 3 Credits.**

Detailed review of current regulations and procedures governing the use of open sources of radioactivity in a nuclear medicine setting. Restricted to Radiologic Sciences students.

**NUCMED 4268. Clinical Nuclear Medicine II. 3 Credits.**

Continuation of clinical series taught in conjunction with Nuclear Medicine [NUCMED] 3256 and 4232. Addresses advanced therapeutic and diagnostic procedures, computer applications, and quality assurance procedures. Prerequisite: NUCMED 3256. Restricted to Radiologic Science students only.

**NUCMED 4269. Clinical Nuclear Medicine III. 1 Credit.**

Final course in clinical series. Seminar discussion of the areas of professional ethics, current medical-legal considerations, and future nuclear medicine applications. Prerequisite: Nuclear Medicine [NUCMED] 3256. Restricted to Radiologic Science students only.

**NUCMED 4299. Morphological Correlations in Nuclear Medicine II. 3 Credits.**

Anatomy, physiology, and pathology of the human body as assessed using nuclear medicine techniques. The second of two courses that address current clinical applications of nuclear medicine. Prerequisite: Nuclear Medicine [NUCMED] 3263, restricted to Radiologic Sciences students.

**NUCMED 4327. Nuclear Medicine Instrumentation. 3 Credits.**

Radionuclide imaging systems and the use of computers. Topics include Anger camera systems, emission tomography, ultrasound, nuclear magnetic resonance, and bone absorptionmetry. Prerequisites: Physics [PHYSICS] 1220 and Mathematics [MATH] 1400, restricted to Radiologic Sciences students.

**NUCMED 4329. Radiopharmaceuticals in Nuclear Medicine. 3 Credits.**

Introduces concepts of radiopharmacy, generator systems, labeling of materials, quality control procedures and FDA regulations concerning radiopharmaceuticals. Prerequisites: Chemistry [CHEM] 1320 and instructor's consent.

**NUCMED 4330. PET in Nuclear Medicine. 3 Credits.**

Overview of special isotope production techniques for positron emitting agents; instrumentation concerns beyond standard Anger imaging; and image critique and analysis with morphologic correlation. Graded on A/F basis only. Prerequisite: Physics [PHYSICS] 1210 and Nuclear Medicine [NUCMED] 4327 or instructor's consent. May be repeated for credit. Restricted to Radiologic Sciences students only.

**NUCMED 4940. Clinical In Vivo I. 6 Credits.**

Practical experience in the clinical setting with imaging procedures performed in nuclear medicine. Restricted to Radiologic Sciences students.

**NUCMED 4941. Clinical In Vivo II. 7 Credits.**

Practical experience in clinical setting with advanced imaging techniques and instrument quality control. Prerequisite: Nuclear Medicine [NUCMED] 4940. Restricted to undergraduate Radiologic Sciences students.

**NUCMED 7085. Problems in Nuclear Medicine. 3 Credits.**

Supervised investigation in an aspect of nuclear medicine technology, usually culminating in a written report.

**NUCMED 7329. Radiopharmaceuticals in Nuclear Medicine. 3 Credits.**

Introduces concepts of radiopharmacy, generator systems, labeling of materials, quality control procedures and FDA regulations concerning radiopharmaceuticals. Prerequisites: Chemistry [CHEM] 1320 and instructor's consent.

**NUCMED 7330. PET in Nuclear Medicine. 3 Credits.**

Overview of special isotope production in techniques for positron emitting agents; instrumentation concerns beyond standard Anger imaging; and image critique and analysis with morphologic correlation. Prerequisites: Physics [PHYSICS] 1210 and Nuclear Medicine [NUCMED] 4327 or instructor's consent. May be repeated for credit. Graded on A/F basis only.

## Nursing (NURSE)

---

**NURSE 1000. Advisory Seminar for Nursing. 1 Credit.**

Orientation to the undergraduate nursing program, professional role development, and introduction to the professional milieu. Graded on an S/U basis only.

**NURSE 2000. Nursing as a Profession. 3 Credits.**

Introduces the structure of nursing knowledge and explores professional nursing role characteristics from historical, ethical, legal, economic, professional, occupational and social perspectives. Examines nursing as

subsystem of the health care system. Prerequisite: sophomore standing. Restricted to pre-nursing and clinical nursing majors.

**NURSE 2100. Psychosocial and Communication Issues in Nursing. 2-3 Credit.**

Reviews psychosocial and communication issues. Focuses on improving interpersonal communication skills and learning how to provide therapeutic interventions to people with selected mental health issues. An experiential model emphasizes personal skill development strategies. Prerequisites: Sophomore Standing. Restricted to pre-nursing majors only.

**NURSE 2100H. Psychosocial and Communication Issues in Nursing - Honors. 2 Credits.**

Reviews psychosocial and communication issues. Focuses on improving interpersonal communication skills and learning how to provide therapeutic interventions to people with selected mental health issues. An experiential model emphasizes personal skill development strategies. Prerequisites: Sophomore Standing. Restricted to pre-nursing majors only. Honors eligibility required.

**NURSE 3002. Topics in Nursing - Biological, Physical, Mathematical. 1-4 Credit.**

Specialized topics in nursing not available through regularly offered courses. Any semesters, no prerequisites. Sections may be offered either on S/U or A/F basis.

**NURSE 3006. Cultural Expeditions in Nursing. 3 Credits.**

Directed field experiences in varied settings exploring local customs and cultural/ethnic diversities influencing health care delivery. Prerequisite: Nursing [NURSE] 3670 and instructor's consent. Graded on S/U basis only.

**NURSE 3080. Communication and Computer Skills. 2 Credits.**

Introduces RN students to MU and MU Sinclair School of Nursing. Provides education in essential competencies needed for success in the RN-BSN Option including writing skills, computer literacy, library and Internet research. Prerequisite: clinical major.

**NURSE 3100. Pharmacology for Nursing. 3 Credits.**

This course will focus on pharmacological classification and the nurse's role in medication administration and patient education. Medication issues with special populations will be addressed. Prerequisites: Anatomy and Physiology or instructor's consent. May be repeated for credit. Graded on A/F basis only.

**NURSE 3170. Nursing Skills, Technologies, and Simulation. 4 Credits.**

Provides laboratory experiences for fundamental to complex nursing skills and procedures. Focuses on application of therapeutic interventions and procedure to provide safe, patient-centered care. Co-requisite: Nursing [NURSE] 3270.

**NURSE 3180. Role Transitions. 3 Credits.**

Explores returning-to-school issues important to adult learners. Links previous basic nursing courses with baccalaureate courses and begins building new knowledge on prior nursing education. Pre/Co-requisite: Nursing [NURSE] 3080.

**NURSE 3200. Pathophysiology and Therapeutics. 4 Credits.**

Focuses on commonly occurring alterations in health as a result of pathophysiological deviations. Developmental concepts, diagnostics, and treatment modalities are integrated throughout course content. Prerequisite: Anatomy and Physiology.

**NURSE 3260. Pathophysiology. 3 Credits.**

Focus is on commonly occurring alterations in health across the life-span. Development concepts, diagnostics, and treatment modalities are integrated throughout course content. Enrollment requires admission to the accelerated BSN option. May be repeated for credit. Graded on A/F basis only.

**NURSE 3270. Foundations of Nursing: Physical Assessment and the Nursing Process. 6 Credits.**

Provides knowledge and skills in physical assessment and applications of nursing process. Foundational knowledge is applied to individual patients in clinical settings. Pre/co-requisite: Nursing [NURSE] 2000, 2900, 3170, 3200, pharmacology.

**NURSE 3300. Pharmacology and Nursing Implications. 4 Credits.**

This course will focus on pharmacological classifications and the nurse's role in medication administration and patient education. Medication issues with special populations will be addressed. Prerequisite courses: Anatomy & Physiology or consent of instructor. Graded A-F only.

**NURSE 3350. Individual Study. 0-6 Credit.**

Independent study for qualified students in specific areas of interest in nursing under faculty guidance. Prerequisite: instructor's consent. Some sections may be graded A/F only or S/U only.

**NURSE 3470. Mental Health Nursing. 4 Credits.**

This course teaches behavioral, social, interpersonal, and systems dimensions of mental health nursing. Emphasis is on therapeutic use of self in assisting clients throughout the life cycle with mental health deviations. Prerequisite: Nursing [NURSE] 3270.

**NURSE 3570. Methods of Assisting II. 2 Credits.**

Expands on Methods of Assisting I. Focuses on application of selected complex nursing interventions to provide direct care in selected nursing situations. Prerequisite: Nursing [NURSE] 3170, corequisite: clinical course.

**NURSE 3670. Nursing of Adults I. 6 Credits.**

Application of nursing process to deliver care for hospitalized adults with health deviations. Evidence, technologies, professional standards and collaboration are used to enhance patient-centered, safe and effective care. Prerequisites: Nursing [NURSE] 3170 and 3270.

**NURSE 3750. Nursing of the Childbearing Family. 3 Credits.**

Provides learning experience with childbearing family. Applies nursing process to promote health and well-being for the childbearing family. Prerequisites: Nursing [NURSE] 3260, 3270, and admission to accelerated BSN option. Graded on A/F basis only. May be repeated for credit.

**NURSE 3760. Pediatric Nursing. 3 Credits.**

Provides learning experiences with children and their families from newborn to adolescents. Examines health alterations that interfere with self-care in and for children. Prerequisites: Nursing [NURSE] 3260, 3270, admission to accelerated BSN option.

**NURSE 3870. Gerontological Nursing Care. 3 Credits.**

Emphasis on normal aging processes, health promotion, disease prevention, and management of acute and chronic health problems in the older adult. Prerequisite: Nursing [NURSE] 3270.

**NURSE 3900. Introduction to Nursing Science. 3 Credits.**

Introduces nursing as a science from the perspective of knowledge development. Structures nursing knowledge from a selfcare deficit nursing theory perspective. Presents nursing research as a method

of knowledge development and validation. Prerequisite or concurrent: Statistics. Must be a clinical nursing major.

**NURSE 4200. Nursing Ethics and Law. 3-4 Credit.**

Analyzes clinical nursing situations using ethical principles and decision-making models. Examines the basic doctrines and principles foundational for providing legally sound nursing practice. Pre/Corequisite: Senior Clinical Major or Nursing [NURSE] 3080.

**NURSE 4270. Nursing of Children. 5 Credits.**

Nursing of children with acute and chronic health and developmental deviations. Self-care and dependent care abilities are emphasized. Content includes health promotion for infants and children. Prerequisites: Nursing [NURSE] 3670 and 3770.

**NURSE 4300. Nursing Issues/Leadership and Management. 2 Credits.**

Examines leadership and organizational theories in relation to resource management and effective delivery of nursing to sets of clients. Analyzes societal/political issues and trends related to nursing and contemporary health care. Pre/Corequisite: Nursing [NURSE] 3670 or 3180 or instructor's consent.

**NURSE 4380. Health Assessment and Pathophysiology. 4 Credits.**

Examines biologic basis for selected commonly occurring diseases throughout the life-span. Study and performance of health assessments with application of findings to adults and children.

**NURSE 4400. Nursing Leadership and Management. 2 Credits.**

Examines leadership, management, and organizational theories in relation to resource management and effective delivery of nursing to sets of clients. Analyzes societal and political issues and trends related to nursing and contemporary health care. Prerequisite: Nursing [NURSE] 3080; Pre/Co-requisite: NURSE 3180. Graded on A-F basis only.

**NURSE 4470. Nursing of Women and Newborns. 5 Credits.**

Focuses on newborn care, women's reproductive and postreproductive health, and health deviation concerns of women and newborns. Emphasizes development, implementation, and evaluation of nursing systems for families and their members. Prerequisite: Nursing [NURSE] 3270.

**NURSE 4600. Women's Health. 3 Credits.**

A survey of international and domestic women's health issues; considers historical antecedents and specific effects of socio-cultural variables and economic development on women's health in developing and developed nations.

**NURSE 4870. Nursing of Adults II. 7 Credits.**

Application of nursing process to care for adults with acute physiological health deviations. Leadership and management principles are integrated in delivering care for sets of clients. Prerequisites: Nursing [NURSE] 4270, 4370; or pre/corequisite: 4300.

**NURSE 4875. Principles of Public Health Nursing: Population-Based Practice. 4 Credits.**

Focuses on population-based concepts of public health nursing and application to practice through completion of a major project. Designed for practicing public health nurses employed in local public health agencies in Missouri. Prerequisites: RN license and employed in Public Health in Missouri. Course may be repeated for credit. Graded on A/F basis only.

**NURSE 4930. Evidence-Based Nursing Practice. 5 Credits.**

Concepts of evidence-based nursing practice are applied to clinical nursing questions, emphasizing use of research findings in practice

settings to generate best nursing practices and optimal patient care outcomes. Prerequisite: Nursing [NURSE] 4950.

**NURSE 4950. Nursing Theory and Research. 3 Credits.**

Addresses nursing research as means of acquiring and refining knowledge. Research utilization to impact nursing addressed. Examines development and utilization of nursing theory, primarily Self-Care Deficit Nursing Theory. Pre/corequisite: Nursing [NURSE] 3080.

**NURSE 4970. Nursing in Communities. 4-5 Credit.**

Examines roles and functions of nurses within community with emphasis on application of community/public health concepts and design and implementation of nursing systems of care for individuals, families, and populations. Prerequisite: Nursing [NURSE] 4270 and 4370; or 3760 or 4580.

**NURSE 4975. The Capstone Experience. 1 Credit.**

Community project-based course that integrates and applies principles previously learned in the RN-BSN curriculum. Open to students who have previously completed Nursing 4875. Prerequisites: Nursing [NURSE] 4875; RN license and employed in Public Health in Missouri. Course may be repeated for credit. Graded on A/F basis only.

**NURSE 7001. Special Topics in Nursing. 1-3 Credit.**

Specialized topics in advanced nursing not available through regularly offered courses.

**NURSE 7085. Problems in Nursing. 1-3 Credit.**

Guided readings, special study, and/or a practicum in an area of the student's interest or an area which the student needs to strengthen. Prerequisite: instructor's consent.

**NURSE 7087. Leadership and Technology Institute. 1 Credit.**

Introduction to knowledge and skills essential to support research and practice doctorates. Prerequisite: Admission to DNP or PhD program. May be repeated for credit.

**NURSE 7100. Theoretical Basis for Advanced Nursing. 3 Credits.**

Analysis, application and evaluation of a variety of nursing and non nursing theories used in advanced nursing practice and research.

**NURSE 7110. Advanced Nursing Role Acquisition. 3 Credits.**

An overview of the advanced nursing practice role and professional issues. Provides foundational knowledge on which other advanced nursing courses will build. Prerequisite: Admission to the graduate program or faculty consent.

**NURSE 7111. Trends and Issues in Nursing. 3 Credits.**

Issues and trends involving professional nursing practice are examined from socioeconomic, organizational, legal and ethical perspectives. Past, present and future roles and practice of nurses are examined.

**NURSE 7120. Advanced Physiology and Pathophysiology. 3 Credits.**

Focus on the normal and altered physiological functioning of body systems. Provides essential knowledge of human health and disease across the lifespan necessary for advanced nursing practice.

**NURSE 7130. Advanced Pharmacology and Pharmacotherapeutics. 3 Credits.**

Advanced practice nurse drug therapy management for health maintenance and treatment of acute episodic and chronic health problems in various populations over the life span. Prerequisite: BSN or instructor's consent.

**NURSE 7140. Advanced Health Assessment and Promotion. 3.5 Credits.**

Expands history and physical assessment techniques across lifespan. Addresses diagnostic reasoning, differential diagnosis, selection of common diagnostic test, disease risk factors, and health promotion strategies. Prerequisite: BSN or instructor's consent.

**NURSE 7150. Research Basis for Advanced Nursing. 3 Credits.**

Examines fundamentals of scientific inquiry. Addresses research design issues. Focuses on interpreting, critiquing, and synthesizing research findings. Prerequisites: Nursing [NURSE] 7100.

**NURSE 7211. Stress Management. 3 Credits.**

Review of contemporary research on the causes, prevention, and treatment of stress. Examination of utility and validity of a variety of stress reduction methods. Development of selected self-management skills.

**NURSE 7212. Legal Parameters of Nursing. 3 Credits.**

This course provides the basic doctrines and principles of the law foundational to legally sound nursing practice. Included among significant topics are tort law, nurse practice act, licensure, effect of contract law.

**NURSE 7310. Advanced Health Assessment for Pediatric Nursing Practice. 3.5 Credits.**

Comprehensive assessment of children through adolescence including those with significant health and/or developmental deviations using advanced diagnostic reasoning process. Emphasis on health history, cultural diversity, differentiation, interpretation and documentation of findings.

**NURSE 7320. Advanced Pediatric Pathophysiology. 3 Credits.**

Embryology of major organ systems and specific physiologic and pathophysiologic in children from birth through age 18 will be studied. Emphasis is on the relationship between altered physiologic functioning, decision making and standards of advanced nursing.

**NURSE 7330. Pediatric Pharmacology for Advanced Nursing Practice. 3 Credits.**

Clinical pharmacotherapeutics course that builds on prior pharmacology knowledge. Major focus is pharmacotherapeutics for primary care management of children to age eighteen. Emphasis on clinical critical thinking used to prescribe drugs.

**NURSE 7600. Women's Health. 3 Credits.**

A survey of international and domestic women's health issues; considers historical antecedents and specific effects of socio-cultural variables and economic development on women's health in developing and developed nations.

**NURSE 7750. Physical Function and Older Adults. 3 Credits.**

(Same as Family and Community Medicine [F\_C\_MD] 7750, Architectural Studies [ARCHST] 7640, Health Management and Informatics [HMI] 7750, Human Development and Family Studies [H\_D\_FS] 7750, Public Health [P\_HLTH] 7750, and Social Work [SOC\_WK] 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded A-F only. Graduate Standing Required.

**NURSE 7751. Psychosocial Function and Older Adults. 3 Credits.**

(same as Architectural Studies [ARCHST] 7650, Family Community Medicine [F\_C\_MD] 7751, Health Management and Informatics [HMI] 7751, Human Development and Family Studies [H\_D\_FS] 7751, Public Health [P\_HLTH], 7751 and Social Work [SOC\_WK] 7751). This course

takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

**NURSE 7854. Preparing Nurse Educators. 3 Credits.**

Explores the role of the nurse educator. Emphasis will be on the development, evaluation, differences and implementation of the nurse educator in the functional roles. Prerequisites: Admission to the Master Science in Nursing Program or instructor's consent.

**NURSE 8001. Topics in Advanced Clinical Nursing. 3 Credits.**

Specialized topics in advanced clinical nursing not available through regularly offered courses.

**NURSE 8010. Family Dynamics and Intervention. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 8012). Theories of family function and dysfunction; techniques of assessment; models of family intervention. Practicum with selected families. Prerequisite: Nursing [NURSE] 7100 (Nursing students).

**NURSE 8020. Advanced Statistical Methods in the Health Sciences. 3 Credits.**

Primary topics include a review of hypothesis testing, estimation and confidence intervals, general linear models, multiple logistic regression, and multilevel modeling. There will be an emphasis on application to the health sciences. Prerequisite: Statistics [STAT] 7020 or equivalent. Graduate Standing Required.

**NURSE 8030. Interpreting Statistical Evidence in the Health Sciences. 3 Credits.**

Students learn to critically evaluate statistical designs and data analysis methods used in health sciences research and scientific evidence for health care decision making. May be repeated for credit. Prerequisite: Graduate level statistics course.

**NURSE 8085. Problems in Nursing. 1-4 Credit.**

Guided readings, special study and/or a practicum in an area of the student's interest or in an area which the student needs to strengthen. Prerequisites: instructor's consent. Selected sections of the course may be offered on A/F or S/U basis only.

**NURSE 8090. Research in Nursing. 1-99 Credit.**

Original investigation for presentation as thesis or dissertation. Prerequisites: graduate statistics, instructor's consent. Graded on S/U basis only.

**NURSE 8100. Principles of Epidemiology. 3 Credits.**

Explores key concepts of epidemiology and epidemiologic methods for studying the distribution and determinants of health and disease in populations. Application to public health and population-based practice addressed. Prerequisite: Nursing [NURSE] 7150 or faculty consent.

**NURSE 8110. Concepts for Specialization in Public Health Nursing. 3 Credits.**

Key concepts fundamental to specialization in public health nursing, including core public health functions. Emphasis upon integrating public health science, nursing theory, and methodological/leadership skills. Pre- or corequisite: Nursing [NURSE] 7100.

**NURSE 8120. Community-Based Public Health Interventions. 3-4.5 Credit.**

Assessing and Diagnosing health-related needs of at-risk and vulnerable populations. Evaluating outcome-based research. Clinical practice implementing a public health intervention. Prerequisite: Nursing [NURSE]

8100, 8110, graduate level Statistics [STAT] course; Pre/Co-requisite: Nursing [NURSE] 7150.

**NURSE 8210. Special Health Care Needs of Children in the School Setting. 3.5-4 Credit.**

Perform developmental, neuro developmental, and psychosocial assessments of chronically ill children. Collaborate with families, schools; health care, community, family services to meet child's needs. Prerequisite: Nursing [NURSE] 7100 or instructor's consent.

**NURSE 8300. Public Health and Sociocultural Issues. 3 Credits.**

Explores concepts of public health with a focus on the advanced practice nurse in population-based/primary care practice; core public health functions will be addressed at three service levels--the aggregate, the family, and the individual. Prerequisite: Nursing [NURSE] 7100.

**NURSE 8310. Health Disparities of Rural and Other Underserved Populations. 3 Credits.**

In-depth examination of rural and other vulnerable populations and their interactions with the health care system including access, utilization, and outcomes. Prerequisites: Nursing [NURSE] 7087, 8300 or faculty consent. May be repeated for credit.

**NURSE 8400. Adult and Geriatric Primary Care I. 3.5-5 Credit.**

Advanced practice nursing clinical diagnosis and management of acute and chronic cardiovascular, respiratory, HEENT, renal, metabolic and musculoskeletal problems in adults, older adults and their families. Prerequisite: Nursing [NURSE] 7120, 7130, 7140.

**NURSE 8410. Adult and Geriatric Primary Care II. 3.5-5 Credit.**

Advanced practice nursing clinical diagnosis and management of acute and chronic gastrointestinal, endocrine, hematological, neuropsychological problems and bioterrorism and CAM issues in adults, older adults and their families. Prerequisite: Nursing [NURSE] 8400.

**NURSE 8420. Newborn Through Adolescence Primary Care. 3.5-5 Credit.**

Advanced nursing practice of newborn through adolescence of health maintenance/promotion, clinical diagnosis and management of common childhood illness, behavioral, developmental problems. Advanced knowledge of human growth, development, family dynamics, community resources, collaborative relationships. Integrated clinical practicum. Prerequisites: Nursing [NURSE] 7140 or 7310.

**NURSE 8430. Reproductive and Sexual Health Primary Care. 3.5-5 Credit.**

Reproductive, sexual issues, adolescence through aging. Design, delivery, evaluation of nursing management of women, reproductive health care of men. Stresses personal health promotion. Prerequisite: Nursing [NURSE] 7140, 8410 or instructor's consent.

**NURSE 8500. Primary Health Care Management of Aging I. 3 Credits.**

Health promotion, wellness, concepts of normal aging. Design, delivery, evaluation of primary health care management of aging adults from an advanced practice nursing perspective. Prerequisites: Nursing [NURSE] 7130, 7140, 8400 or instructor's consent.

**NURSE 8510. Primary Health Care Management of Aging II. 3 Credits.**

Continuing emphasis on health promotion, wellness, concepts of aging. Primary health care management of complex health care problems in aging adults from advanced practice nursing perspective. Prerequisite: Nursing [NURSE] 8410, 8500, instructor's consent.

**NURSE 8540. Advanced Diagnostics and Procedures. 3.5 Credits.**

Expands upon knowledge of advanced assessment, diagnostic, and procedural skills; Utilizes current technology in a cost-effective and patient-centered manner. Clinical component allows for increasing specialty-specific knowledge. Prerequisites: Nursing [NURSE] 7140, 7310, or equivalent. May be repeated for credit.

**NURSE 8610. Diagnostics and Psychopharmacology for Mental Health Nurses. 3.5-4 Credit.**

Emphasis is on the neurobiologic basis and diagnosis of mental health problems and advanced nursing management of psychiatric conditions using pharmaceutical agents. Prerequisites: Nursing [NURSE] 7120, 7130 and 7140.

**NURSE 8620. Brief Individual Psychotherapy for Mental Health Nurses. 3.5-4 Credit.**

Develops advanced skills in assessment, treatment, and follow-up evaluation of individuals experiencing acute mental health problems. Emphasizes brief psychotherapy based on frameworks from nursing and other disciplines. Prerequisites: Nursing [NURSE] 8610.

**NURSE 8640. Group Therapy and Social Skills Training. 3.5-4 Credit.**

Application of group and behavioral methods in mental health prevention, promotion, maintenance, and restoration. Designing, implementing, and evaluating mental health promotion groups and social skills training programs. Prerequisite: Nursing [NURSE] 7100 or concurrent.

**NURSE 8660. Mental Health Nursing Interventions for Families. 3.5-4 Credit.**

Application of nursing and family theories in advanced nursing management of families experiencing a variety of problems. Emphasis on designing, implementing, and evaluating advanced nursing interventions for families. Prerequisites: Nursing [NURSE] 8620 or consent of instructor.

**NURSE 8680. Pediatric Mental Health Assessment and Treatment. 3.5-4 Credit.**

Develops advanced skills in psychiatric assessment and follow-up evaluation of children and adolescents experiencing mental health problems. Explores diagnosis, treatment, and management of child and adolescent mental health disorders. Prerequisites: Nursing [NURSE] 8610 or faculty consent. Graded on A/F basis only.

**NURSE 8710. Clinical Management of Acute and Critical Care Problems. 3.5-5 Credit.**

Advanced practice nurse management of selected clinical problems across the lifespan commonly encountered in the acute and/or critical care settings. Patient safety, technology, and product selection addressed. Integrated clinical practicum with selected population and setting. Prerequisite: Nursing [NURSE] 7140. May be repeated for credit.

**NURSE 8720. Symptom Management in Acute and Chronic Illness. 3-4 Credit.**

Clinical management of symptoms of acute and chronic illness across the lifespan. Preparation for teaching patient self-management strategies. Integrated clinical practicum with selected population and setting. Prerequisite: Nursing [NURSE] 7140 or faculty consent.

**NURSE 8800. Leadership and Management in Healthcare Systems. 4 Credits.**

Prepares nurse leaders who facilitate and integrate complex structures and processes in health care systems. Understanding of partnerships, accountability, continuum-defined health care systems, self-managed

teams, and value-based organizations. Prerequisite: Nursing [NURSE] 7100.

**NURSE 8810. Management of Patient Care Services. 4 Credits.**

Management of Patient Care Services (4.0). Prepares nurses to effectively manage personnel, clinical operations, and quality improvement initiatives. Emphasizes techniques that facilitate sound nursing management across the care continuum. Multiple dimensions of managing patient care operations are considered. Prerequisite: Nursing [NURSE] 7100.

**NURSE 8820. Health Care Financial Management. 4 Credits.**

Prepares nurses to use the techniques that facilitate financial analysis and decision-making for patient care programs across the healthcare continuum. Focuses on efficient, effective management of resources for delivery of quality healthcare services. Prerequisite: Nursing [NURSE] 7100.

**NURSE 8850. Teaching Nursing. 3 Credits.**

Principles and methods of teaching, evaluation, and curriculum construction in undergraduate nursing education. Prerequisite: Educational School and Counseling Psychology [ESC\_PS] 4100 or equivalent.

**NURSE 8854. Teaching Strategies in Nursing. 3 Credits.**

Examines principles, issues, techniques, and evaluation methods in teaching nursing. Focuses on the development of a variety of teaching strategies and evaluation methods for didactic and clinical settings. Prerequisites: Nursing [NURSE] 7100 and 7110 or instructor's consent.

**NURSE 8864. Curriculum Development in Nursing. 3 Credits.**

Examines theoretical foundations, principles, and issues in curriculum design. Explores systematic evaluation of curriculum at all levels. Prerequisites: Nursing [NURSE] 7100 and 7110 or instructor's consent.

**NURSE 8890. Clinical/Scholarly Project. 1-3 Credit.**

Design, implement and evaluate nursing projects derived from theory, including written report with explanation or justification to support the empirical and/or theoretical basis for the project. Prerequisites: Nursing [NURSE] 7100, 7150, graduate statistics. Graded on a S/U basis only.

**NURSE 8900. Research Practicum in Nursing. 1-3 Credit.**

Selected independent research activities in conjunction with ongoing research programs of faculty. Prerequisites: Nursing [NURSE] 7150, graduate statistics, instructor's consent. Graded on S/U basis only.

**NURSE 8910. Translational Evidence-Based Nursing Practice. 3 Credits.**

Provides essential skills for utilizing research to support practice change: assessing practice based problems, analyzing current evidence, proposing practice changes, and developing plans for implementing evidence-based practice concepts. Prerequisites: Nursing [NURSE] 8100 or faculty consent.

**NURSE 8920. Quality, Safety, and Performance Outcomes. 3 Credits.**

Uses information systems to identify and analyzes patient safety and other clinical issues and recommend system-wide actions and measurement plans that result in safe, effective, efficient, equitable, patient-centered outcomes. Pre/ Corequisite: Nursing [NURSE] 8910. May be repeated for credit.

**NURSE 8930. Health Program Design and Management. 3 Credits.**

Designing, implementing and evaluating effective health programs. Addresses leadership and organizational change issues. Prerequisite: Nursing [NURSE] 8910 or instructor's consent.

**NURSE 8940. Nursing and Health Policy. 3 Credits.**

Designed to explore and critically evaluate the role of nursing and nurse leaders/scholars in health policy development and the organization and financing of health care in response to the health and social needs of the public. Prerequisite: graduate standing.

**NURSE 8950. Teaching Nursing Practicum. 4 Credits.**

Participation in application of principles and methods of teaching, learning, and evaluation to the education of nursing students. Prerequisite: Nursing [NURSE] 8854 and 8864. Graded on S/U basis only.

**NURSE 8954. Distance-Mediated Teaching Nursing Practicum. 4 Credits.**

Faculty-guided application of distance mediated teaching, learning, and evaluation methods with graduate &/or undergraduate nursing students. Prerequisites: Nursing [NURSE] 8854 and 8864 or equivalents. Course graded on S/U basis only. Graduate Standing required.

**NURSE 8960. Leadership in Nursing and Healthcare Systems Practicum. 5 Credits.**

Participation in application of principles and methods of leadership, management, and evaluation to facilitate patient care operations in various settings. Prerequisite: Nursing [NURSE] 8800, 8810, 8820. Graded on an S/U basis only.

**NURSE 8970. APN Role Transition Course. 1 Credit.**

Focus on refinement of knowledge and skills required for successful transition into an Advanced Practice Nursing career. Prerequisite: Nursing [NURSE] 7100, 7150, 7110, and instructor's consent. Concurrent: Nursing [NURSE] 8980.

**NURSE 8980. Advanced Clinical Nursing Practicum. 2-7 Credit.**

Intensive preceptor or faculty-guided clinical experience that synthesizes previous theory and clinical coursework. Refines knowledge and skills required to transition to an autonomous advanced nursing practice role. Prerequisites: Nursing [NURSE] 7110, 8910 or faculty consent. Graded on S/U basis only.

**NURSE 9070. DNP Clinical Residency. 1-6 Credit.**

Intensive clinical experience. Prepare experts in advanced nursing practice and leadership to effectively evaluate practice problems, translate evidence into practice, monitor outcomes, and implement innovative models of care. Prerequisites: Nursing [NURSE] 8930 and 8450 or 8610. May be repeated for credit. Some sections may be offered A/F or S/U only.

**NURSE 9080. DNP Residency Project. 1-3 Credit.**

Final synthesis of DNP coursework culminating in an in-depth practice change project or case analysis impacting a rural or other underserved population or critical healthcare system need. Pre/ Corequisites: Nursing [NURSE] 8930 and 9070. May be repeated for credit. Some sections may be offered A/F or S/U only.

**NURSE 9087. Leadership and Transformational Role Institute. 1 Credit.**

Synthesis of advanced nursing practice knowledge and leadership skills. Prepares DNP graduate to implement an advanced nursing practice role that will result in practice and/or policy change at the local, state, or national levels, Pre/ Corequisites: Nursing [NURSE] 9080 and 9070. May be repeated for credit.

**NURSE 9090. Research in Nursing. 1-99 Credit.**

Original investigation for presentation as thesis or dissertation. Prerequisites: graduate statistics, instructor's consent. Graded on S/U basis only.

**NURSE 9110. Conceptual Structure of Nursing. 3 Credits.**

Conceptualization and theoretical analysis of nursing phenomena; critical evaluation of nursing theories. Prerequisite: Nursing [NURSE] 7100.

**NURSE 9120. Developing Frameworks for Nursing Research. 3 Credits.**

Based on an understanding of the philosophy of science, develop conceptual models and theoretical frameworks for use in nursing research. Prerequisite: Nursing [NURSE] 7100.

**NURSE 9130. Philosophy of Science in Nursing. 3 Credits.**

Overview of foundational concepts of philosophy-history of science; development and evolution of science and philosophical perspectives of nature of science including logical, empiricism, historicism, post-structuralism as related to nursing science/nursing research.

**NURSE 9131. Responsible Conduct of Research in the Health and Social Sciences. 1 Credit.**

(same as Human Development and Family Studies [H\_D\_FS] 9131) This course examines professional research ethics including the rights of human subjects. Graded on S/U basis only. Instructor's permission required. Graduate standing required.

**NURSE 9132. Writing Research Proposals: Skill Building. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 9130) This course teaches the components of writing a research proposal for external funding. Graded on S/U basis only. Instructor's permission required. Graduate Standing Required.

**NURSE 9400. Macro Social Theory. 3 Credits.**

(Same as Social Work [SOC\_WK] 9400) Building on the foundation laid in Social Work [SOC\_WK] 9100, in depth examination of human development and social environment theories appropriate to scientific examination of social welfare practice with formal organizations, interorganizational combinations, communities and larger political entities. Prerequisite: Graduate Standing; consent required. May be repeated for credit.

**NURSE 9410. Advanced Quantitative Methods. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 9200). Study of explanatory and predictive quantitative designs in health-related research, including nested, double-blind, time series, casual models, retrospective cohort; secondary database use will be explored. Prerequisites: Nursing [NURSE] 9131, Advanced Statistics Course.

**NURSE 9420. Qualitative Methods. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 9420) Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Prerequisite: Nursing [NURSE] 7150 and doctoral status (or permission of faculty). Graded on A/F basis only.

**NURSE 9430. Measurement Issues. 3 Credits.**

Examines techniques used to estimate the various types reliability and validity of psychological and biological measures of nursing phenomena as well as the appropriate use of existing measures. Prerequisites: Nursing [NURSE] 7150, 9420. Graded on A/F basis only.

**NURSE 9450. Doctoral Seminar: Social Determinants of Health. 3 Credits.**

Doctoral seminar on defining, measuring and conducting research on social determinants of health. Prerequisites: Nursing [NURSE] 9120 and 9410. May be repeated for credit.

**NURSE 9460. Health Behavior Change Research. 3 Credits.**

(Same as Educational, School and Counseling Psychology [ESC PS] 9460) Doctoral seminar focusing on theories, measurement, and methods for conducting health behavior change research. Prerequisite: Nursing [NURSE] 9120, Pre/Co-requisite: Nursing [NURSE] 9410, or faculty consent.

**NURSE 9470. Technology Evaluation in Health Care Systems Research. 3 Credits.**

(same as HMI 9440). Examines technology applications and evaluation methods used to determine outcomes, efficiencies, effectiveness, satisfaction, and cost of using technology. Prerequisites: 6 credit hours of graduate statistics; Prerequisite/Corequisite: NURSE 9410 or faculty consent.

**NURSE 9510. Advances in Health Care Systems. 3 Credits.**

Guided in-depth exploration, analysis, and evaluation of selected nursing and other current literature in health care systems. Prerequisite: Nursing [NURSE] 9110, doctoral standing or instructor's consent.

**NURSE 9520. Advances in Health Restoration and Support. 3 Credits.**

Guided in-depth exploration, analysis, and evaluation of selected nursing and other current literature in health restoration and support. Prerequisite: Nursing [NURSE] 9110, doctoral standing or instructor's consent.

**NURSE 9530. Advances in Health Promotion and Protection. 3 Credits.**

Guided in-depth exploration, analysis, and evaluation of selected nursing and other current literature in health promotion and protection. Prerequisite: Nursing [NURSE] 9110, doctoral standing or instructor's consent.

**NURSE 9540. Seminar in Nursing. 1-99 Credit.**

Course content varies. Prerequisite: graduate standing or instructor's consent. May be repeated to a maximum of six hours.

**NURSE 9550. Meta-Analysis Research. 3 Credits.**

(Same as Human Development and Family Studies [H\_D\_FS] 9550). Examines quantitative synthesis including research questions, search strategies, coding issues, meta-analysis statistical procedures, and interpretation of findings. Emphasizes conceptual understanding and practical methods. Prerequisites: 6 credit hours of graduate statistics courses, Nursing [NURSE] 9410 or graduate level quantitative methods course. Graduate Standing Required.

**NURSE 9560. Qualitative Systematic Reviews. 3 Credits.**

(Same as Social Work [SOC\_WK] 9560 and Human Development and Family Studies [H\_D\_FS] 9560) Examine and carry out elements of qualitative systematic reviews: topic/problem identification, data collection, and analysis. Understand how to limit threats to validity and maximize generalizability. Prerequisite: Nursing [NURSE] 9420 or equivalent.

**NURSE 9700. Social Welfare Policy Seminar. 3 Credits.**

(Same as Social Work [SOC\_WK] 9700) Critical examination of comparative models of social policy development.; preparation of a professional social work policy analysis in the student's area of interest/ specialization that is suitable for submission to an appropriate referred

journal. Graduate Standing required, consent of instructor required. May be repeated for credit.

**NURSE 9710. Advanced Research Practicum in Nursing. 1-6 Credit.**

Supervised experience in nursing research before candidacy. Activities designed by student, faculty mentor, and program committee based on student's research expertise, substantive focus, and probable research trajectory. Includes seminar. Prerequisite: Nursing [NURSE] 9120, 9410, 9420, or 9430; instructor's consent. Graded on S/U basis only.

## Nutrition (NUTRIT)

**NUTRIT 7020. Monogastric Nutrition. 3 Credits.**

(same as AN\_SC7312 and NUTR\_S 7020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A/F basis only. Prerequisites: AN\_SCI 3212 and BIOCHM 3630.

**NUTRIT 7085. Problems in Nutrition. 1-6 Credit.**

Prerequisite: graduate standing.

**NUTRIT 7087. Masters Seminar in Nutrition. 1 Credit.**

Prerequisite: graduate standing.

**NUTRIT 7150. Readings in Nutrition. 1 Credit.**

Readings in current nutrition research. Graded on S/U basis only. Prerequisite: 15 hours work in field and instructor's consent.

**NUTRIT 7350. Nutrition During the Life Cycle. 3 Credits.**

Nutritional, physiological and environmental influences on the aging process of man from conception through senescence. Prerequisite: graduate standing.

**NUTRIT 7390. Medical Dietetics. 3-12 Credit.**

Prerequisite: graduate standing.

**NUTRIT 7650. Amino Acid and Protein Metabolism. 2 Credits.**

Prerequisite: graduate standing.

**NUTRIT 8060. Comparative Nutrition and Metabolism. 2 Credits.**

Prerequisite: graduate standing.

**NUTRIT 8090. Masters Research in Nutrition. 1-99 Credit.**

Investigation in any area of experimental nutrition. Thesis required. Graded on a S/U basis only. Prerequisite: graduate standing.

**NUTRIT 8310. Nutritional Biochemistry of Lipids. 3 Credits.**

(same as NUTR\_S 8310 and AN\_SCI 8431). Current concepts in the nutritional regulations of lipid metabolism. Emphasis on integrating information and interpreting current research data. Prerequisites: BIOCHM 4270 and BIOCHM 4272.

**NUTRIT 8320. Ruminant Nutrition. 3 Credits.**

(same as AN\_SCI 9432). Physiology, chemistry, microbiology, pathology of ruminants. Emphasizes digestion, absorption, metabolism, utilization of nutrients. Lecture, laboratory, assigned readings.

**NUTRIT 8340. Nutrition in Human Health. 3 Credits.**

(same as NUTR\_S 8340). Nutritional aspects of maintaining human health with emphasis on chronic disease prevention. Grades based on classroom participation and four exams. Prerequisites: BIOCHM 4270 and BIOCHM 4272; 4000-level nutrition course.

**NUTRIT 8360. Nutritional Biochemistry of Carbohydrates. 3 Credits.**

(same as AN\_SCI 8360, BIOCHM 8360 and NUTR\_S 8360). Current concepts with in-depth coverage of selected examples of key regulatory steps controlling carbohydrate metabolism; emphasizing molecular

mechanisms. Based entirely on research literature and taught in a tutorial format. Prerequisites: BIOCHM 4270 and BIOCHM 4272 and 4000-level nutrition course and departmental consent.

**NUTRIT 8390. Molecular Biology of Mineral Nutrition. 3 Credits.**

(same as BIOCHM 8390 and NUTR\_S 8390). Current concepts of metal ion transport, intracellular metal trafficking and metal-dependent regulation of gene expression. Based entirely on research literature and taught in a tutorial format. Prerequisites: BIOCHM 4270 and BIOCHM 4272; 4000-level nutrition course.

**NUTRIT 8400. Bioenergetics. 3 Credits.**

(same as AN\_SCI 9441) . Prerequisite: graduate standing.

**NUTRIT 8438. Nutrient Regulation of Gene Expression. 3 Credits.**

(same as AN\_SCI 8438, BIOCHM 8438 and NUTR\_S 8438). Current concepts with in-depth coverage of several minerals that illustrate themes in molecular mineral nutrition. Based entirely on research literature and taught in a tutorial format. Prerequisites: BIOCHM 4270 and BIOCHM 4272; 4000-level nutrition course.

**NUTRIT 8500. Investigations in Experimental Nutrition. 1-6 Credit.**

Written report required. Prerequisite: graduate standing.

**NUTRIT 9087. Doctorate Seminar in Nutrition. 1 Credit.**

Prerequisite: graduate standing.

**NUTRIT 9090. Doctorate Research in Nutrition. 1-99 Credit.**

Investigation in any area of experimental nutrition. Thesis required. Graded on a S/U basis only. Prerequisite: graduate standing.

## **Nutritional Sciences (NUTR\_S)**

**NUTR\_S 1001. Topics in Nutritional Sciences. 1-99 Credit.**

Supervised study in specialized topic of nutritional sciences.

**NUTR\_S 1034. Nutrition, Current Concepts and Controversies. 3 Credits.**

Basic nutrition principles and current controversies are presented. Emphasis on role of nutrition in maintaining health as well as exploring the scientific validity of popular nutrition beliefs. No credit if taken after Nutritional Sciences [NUTR\_S] 2340.

**NUTR\_S 1310. Basic Concepts of World Nutrition. 3 Credits.**

Transdisciplinary approach to nutrition, considering anthropological, physiological, geographical, socioeconomic and psychological elements in world nutrition.

**NUTR\_S 1340. Introduction to Exercise and Fitness. 3 Credits.**

This course is a survey of information in the fields of exercise science and physical fitness. It is a required course for students majoring in Nutrition and Fitness, but it is open to non-majors as well. The goal of the course is to provide students with practical information about exercise and how to be physically fit.

**NUTR\_S 2001. Topics in Nutritional Sciences. 1-99 Credit.**

Supervised study in a specialized topic of Nutritional Sciences.

**NUTR\_S 2085. Problems in Nutritional Sciences. 1-99 Credit.**

Supervised study in a specialized phase of nutritional sciences. Consent required.

**NUTR\_S 2222. Landscape of Obesity. 3 Credits.**

The societal, economic, medical, behavioral, and psychological causes and results of the obesity epidemic and potential modes of treatment and

prevention. Lecture course. Sophomore Standing Required. Graded A-F only.

**NUTR\_S 2340. Human Nutrition I. 3 Credits.**

Basic concepts of normal nutrition related to physiological/ chemical processes; changing nutrient needs during human life cycle, emphasis on adult; some social/psychological influences on dietary habits. Prerequisites: Organic Chemistry, Medical Pharmacology and Physiology [MPP] 3202 or instructor's consent.

**NUTR\_S 2340H. Human Nutrition I - Honors. 3 Credits.**

Basic concepts of normal nutrition related to physiological/chemical processes; changing nutrient needs during human life cycle, emphasis on adult; some social/psychological influences on dietary habits. Includes weekly discussion on controversial issues. Prerequisite: Honors eligibility; Organic Chemistry, Physiology, or instructor's consent. Graded A-F only.

**NUTR\_S 2380. Diet Therapy for Health Professionals. 3 Credits.**

Principles underlying normal nutrition and diet for health and disease. Prerequisites: sophomore standing. Graded on A/F basis only.

**NUTR\_S 2420. Biology of Healthy Living. 2 Credits.**

(same as Physical Therapy [PH\_THR] 2420 and Biomedical Sciences [BIOMED] 2420). Biology of inactivity as a causal factor in chronic disease.

**NUTR\_S 2450. Nutrition Throughout the Life Span. 3 Credits.**

Nutritional requirements, challenges, community nutrition programs, and eating patterns throughout the life span with emphasis on health promotion and disease prevention; Role of beliefs, culture, socio-psychological influences, and economic resources in food selection and nutrition/health status. Lecture/discussion course. Prerequisites: Nutritional Sciences [NUTR\_S] 1034 or 2340 or 2380 or equivalent.

**NUTR\_S 2460. Eating Disorders. 2 Credits.**

Definition, etiology, treatment, and research related to eating disorders: anorexia nervosa, bulimia nervosa and binge eating disorder/obesity. Graded on A/F basis only. Prerequisites: Nutritional Sciences [NUTR\_S] 1034 or higher level nutrition course.

**NUTR\_S 3001. Topics in Nutritional Science. 1-99 Credit.**

Instruction in specific subject matter areas in the field of food science and nutrition.

**NUTR\_S 3085. Problems in Nutritional Sciences. 1-99 Credit.**

Advanced problems in a selected field of food science and nutrition. Consent required.

**NUTR\_S 3131. International Nutrition and Exercise Physiology. 1-6 Credit.**

Immersion into and examination of selected cultures - beliefs, practices, policies and social structures around food, physical activity and health. Prerequisite: instructor's and advisor consent. Graded on A/F basis only.

**NUTR\_S 3280. Food Service I: Introduction to Food Service. 3 Credits.**

Organizational structure and relationships; policy making and implementation; budgeting and cost control; menu as a management tool; sanitation and safety; food preparation; and food delivery systems. Prerequisite: Hospitality Management [HSP\_MGMT] 1995.

**NUTR\_S 3290. Food Service I: Supervised Practice Experience. 1 Credit.**

A practicum designed to expose the student to concepts of quantity food production, evaluation of products and resources, personnel administration and application of food microbiological principles. 4 hours

of supervised practice per week. Prerequisites: concurrent enrollment in Nutritional Sciences [NUTR\_S] 3280; open to students enrolled in the Coordinated Program in Dietetics only.

**NUTR\_S 3360. Nutritional Assessment Supervised Practice Experience. 2 Credits.**

Supervised practice to develop skills in screening individuals for nutrition risk; use of dietary, anthropometric, laboratory, clinical and sociocultural criteria to assess nutritional status of individuals, 8 hours of supervised practice per week. Prerequisites: concurrently enrolled in Nutritional Sciences [NUTR\_S] 4360; Open to students enrolled in the Coordinated Program in Dietetics only.

**NUTR\_S 3370. Nutrition Therapy I: Supervised Practice Experience. 3 Credits.**

Practice and application of principles of nutrition care for selected disease states. 12 hours of supervised practice per week. Prerequisites: Concurrently enrolled in Nutritional Sciences [NUTR\_S] 4370; Open to students enrolled in the Coordinated Program in Dietetics only.

**NUTR\_S 3390. Teaching and Counseling Techniques in Nutrition. 2 Credits.**

Principles and theories of learning; Resources, methods and techniques for teaching food/nutrition principles and dietary guidelines; Group dynamics and facilitation; Introduction to counseling theories and methods used in nutrition care of individuals. Lecture course. Prerequisites: Psychology [PSYCH] 1000 and Nutritional Sciences [NUTR\_S] 2340.

**NUTR\_S 3400. Teaching & Counseling Techniques in Nutr. Supervised Practice Exp. 1 Credit.**

Skill development and practice in counseling individuals for health promotion and disease prevention and the teaching of food and nutrition topics to groups. 4 hours of supervised practice per week. Prerequisites: concurrent enrollment in Nutritional Sciences [NUTR\_S] 3390; Open to students enrolled in the Coordinated program in Dietetics only.

**NUTR\_S 3590. Community Nutrition Supervised Practice Experience. 1 Credit.**

A practicum which explores and applies the concepts and techniques of nutrition programming in a community setting. 4 hours of supervised practice per week. Prerequisites: Nutritional Sciences [NUTR\_S] 2590; Open to students enrolled in the Coordinated Program in Dietetics only.

**NUTR\_S 3800. Prevention and Care of Athletic Injury. 3 Credits.**

Theory, practice in prevention, emergency care, rehabilitation of injuries encountered in vigorous games. Prerequisite: Pathology and Anatomical Sciences [PTH\_AS] 2201.

**NUTR\_S 3810. Advanced Athletic Training. 3 Credits.**

Advanced study in areas of prevention, evaluation, care, and treatment and rehabilitation of athletic injuries at high school and college level. Graded on A/F basis only. Prerequisite: Nutritional Sciences [NUTR\_S] 3800 and instructor's consent.

**NUTR\_S 3900. Field Training in Nutritional Sciences. 1-99 Credit.**

Prerequisites: junior or senior standing and instructor's consent.

**NUTR\_S 4001. Topics in Nutrition and Exercise Physiology. 1-3 Credit.**

Instruction in specific subject matter areas in the field of nutrition science and exercise physiology.

**NUTR\_S 4020. Monogastric Nutrition. 3 Credits.**

(same as Animal Science [AN\_SCI] 4312 and Nutrition [NUTRIT] 7020). Principles of nutrition, feed formulation and recent research in

poultry feeding. Graded on A/F basis only. Prerequisite: Animal Science [AN\_SCI] 3212 and Biochemistry [BIOCHM] 3630.

**NUTR\_S 4200. Sports Performance and Conditioning. 3 Credits.**

Course utilizes scientific theory and applied instruction to teach procedures, techniques, and modalities used to improve physical sports performance. Prerequisites: Physiology and Anatomy, Kinesiology. Junior or Senior senior standing required. Graded on A/F basis only.

**NUTR\_S 4280. Food Service II: Advanced Food Service Management. 1 Credit.**

Issues related to marketing and financial control in the foodservice sector. Lecture course. Prerequisite: Nutritional Sciences [NUTR\_S] 3280, NUTR S 3290.

**NUTR\_S 4290. Food Serv. II: Adv. Food Service Manage. Supervised Practice Exp. 2 Credits.**

A practicum tailored to apply marketing and budgetary principles in the foodservice industry. 8 hours of supervised practice per week. Prerequisite: Concurrent enrollment in Nutritional Sciences [NUTR\_S] 4280; Open to students admitted to the Dietetics program.

**NUTR\_S 4330. Human Nutrition II Laboratory. 2 Credits.**

A techniques course in nutrition, usually taken concurrently with Nutritional Sciences [NUTR\_S] 4340. Prerequisites: NUTR\_S\_2340, Biochemistry and instructor's consent.

**NUTR\_S 4340. Human Nutrition II Lecture. 3 Credits.**

Physiological and biochemical aspects of nutrition; functions of methods of measuring nutritional status; various aspects of applied nutrition. Continuation of Nutritional Sciences [NUTR\_S] 2340. Prerequisites: NUTR\_S\_2340, Biochemistry or instructor's consent.

**NUTR\_S 4360. Nutritional Assessment. 3 Credits.**

Introduction to the nutrition assessment process. The identification of dietary, anthropometric, laboratory, clinical and sociocultural parameters used to assess nutritional status of individuals. Lecture course. Prerequisites: Psychology [PSYCH] 1000, Nutritional Sciences [NUTR\_S] 2340.

**NUTR\_S 4370. Nutrition Therapy I. 3 Credits.**

In-depth study of physiological/biochemical changes in selected disease states (cardiovascular disease, rehabilitation, diabetes and cancer); development of principles underlying nutrition therapy. Lecture course. Prerequisites: Nutritional Sciences [NUTR\_S] 4360.

**NUTR\_S 4380. Nutrition Therapy II. 2 Credits.**

Evaluation, design and monitoring of the nutrition care of complex health disorders such as renal disease, trauma, and multi-system organ failure; emphasis on nutrition support (enteral and parenteral nutrition). Lecture course. Prerequisites: Nutritional Sciences [NUTR\_S] 4370.

**NUTR\_S 4381. Nutrition Therapy II: Supervised Practice Experience. 4 Credits.**

Practice in the nutrition care of complex health disorders with emphasis on nutrition support. 16 hours of supervised practice per week. Prerequisites: concurrent enrollment in Nutritional Sciences [NUTR\_S] 4380; Open to students admitted to Dietetics program only.

**NUTR\_S 4390. Issues in Dietetic Practice. 1 Credit.**

Lectures and discussions focus on issues and trends in dietetics. Discussions are used to encourage the development of skills and attitudes which foster life-long professional learning. Lecture/discussion course. Prerequisite: Nutritional Sciences [NUTR\_S] 4950 and 4380; or instructor's consent.

**NUTR\_S 4590. Community Nutrition. 3 Credits.**

Public health nutrition and chronic disease prevention, food security, nutrition programs and food access, public policy, sustainable agriculture and food production systems, cultural food practices, needs assessment. Prerequisites: Nutrition course or instructor's consent. Graded on A/F basis only.

**NUTR\_S 4850. Physiology of Exercise. 3 Credits.**

Effects of exercise on the human organism; physiologic capacity and limitation for activity; role of exercise in health and fitness. Prerequisite: Medical Pharmacology and Physiology [MMP] 3202, Pathology and Anatomical Sciences [PTH\_AS] 2201 recommended.

**NUTR\_S 4860. Exercise Prescription. 3 Credits.**

Course investigates theory and methods of testing and prescribing exercise for circulatory fitness, body composition, muscle strength, joint and muscle ranges in motion, and posture. Prerequisites: Medical Pharmacology and Physiology [MPP] 3202 or 3333 and 3337, Pathology and Anatomical Sciences [PTH\_AS] 2201 and Nutritional Sciences [NUTR\_S] 4850 or concurrent. Restricted from Pre-Nutrition and Fitness majors.. Graded on A/F basis only.

**NUTR\_S 4940. Internship in Nutritional Science and Exercise Physiology. 1-6 Credit.**

Combines study, observation and employment in an area of exercise physiology and/or nutrition. Written reports, faculty evaluation . Prerequisites: GPA >3.0; 90 hours including four core courses in nutrition and exercise physiology and Nutritional Sciences [NUTR\_S] 4850; instructors consent.

**NUTR\_S 4950. Capstone: Research in Nutritional Sciences. 2 Credits.**

Introduction to research, including the types of basic, clinical, and outcomes-based research. Defining research problems related to nutrition and exercise sciences, developing hypotheses, reviewing scientific literature, writing research protocols, analyzing data. Lecture course. Prerequisites: Nutritional Sciences [NUTR\_S] 2340, statistics course, and senior standing or instructor's consent.

**NUTR\_S 4951. Nutrition Research Communication. 1 Credit.**

Analyze and interpret data; present results of a research study in manuscript and seminar presentation formats. Emphasis on effective communication of nutrition research to scientific and lay audiences. Prerequisite: Nutritional Sciences [NUTR\_S] 4950 or instructor's consent; Dietetics: 4 hours of SPE per week. Graded on A/F basis only.

**NUTR\_S 4960. Readings in Nutritional Sciences. 1-99 Credit.**

Prerequisites: 8 hours of course work in field of subject and instructor's consent.

**NUTR\_S 4970. Nutrition Capstone: Sports Nutrition. 2 Credits.**

Integration of research literature with knowledge from previous coursework, emphasis on sports nutrition research, nutrient requirements of athletes, critical evaluation of ergogenic aids. Prerequisites: Statistics [STAT], Nutritional Sciences [NUTR\_S] 2340, Physiology, Senior Standing, open to Nutrition and Fitness majors only. Graded on A/F basis only.

**NUTR\_S 4975. Practice of Dietetics Supervised Practice Experience. 10 Credits.**

Supervised practice in providing quality nutrition services in clinical, community, management and specialty settings. 40 hours of supervised practice per week. Prerequisites: Nutritional Science [NUTR\_S] 3590,

4280, 4290, 4380, 4381, and 4590; Open to students admitted to the Dietetics Program only.

**NUTR\_S 7001. Topics in Nutritional Science. 1-99 Credit.**

Instruction in specific subject matter areas in the field of food science and nutrition. Prerequisite: graduate standing.

**NUTR\_S 7020. Monogastric Nutrition. 3 Credits.**

(same as Animal Science [AN\_SCI] 7312 and Nutrition [NUTRIT] 7020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A/F basis only. Prerequisite: graduate standing Animal Science [AN\_SCI] 3212 and Biochemistry [BIOCHM] 3630.

**NUTR\_S 7085. Problems in Nutritional Sciences. 1-99 Credit.**

Advanced problems in a selected field of food science and nutrition. Prerequisite: graduate standing.

**NUTR\_S 7150. Readings in Nutritional Sciences. 1-99 Credit.**

Prerequisites: 15 hours course work in field of subject and instructor's consent.

**NUTR\_S 7200. Sports Performance and Conditioning. 3 Credits.**

Course utilizes scientific theory and applied instruction to teach procedures, techniques, and modalities used to improve physical sports performance. Prerequisites: Physiology and Anatomy, Kinesiology; junior/senior standing. Graded on AF basis only.

**NUTR\_S 7330. Human Nutrition II Laboratory. 2 Credits.**

A techniques course in nutrition, usually taken concurrently with Nutritional Sciences [NUTR\_S] 4340. Prerequisites: Nutritional Sciences [NUTR\_S] 2340, Biochemistry and instructor's consent.

**NUTR\_S 7340. Human Nutrition II Lecture. 3 Credits.**

Physiological and biochemical aspects of nutrition; functions of methods of measuring nutritional status; various aspects of applied nutrition. Continuation of Nutritional Sciences [NUTR\_S] 2340. Prerequisites: graduate standing and Nutritional Sciences [NUTR\_S] 2340, Biochemistry [BIOCHM] or instructor's consent.

**NUTR\_S 7360. Nutritional Assessment. 3 Credits.**

Introduction to the nutrition assessment process. The identification of dietary, anthropometric, laboratory, clinical and sociocultural parameters used to assess nutritional status of individuals. Lecture course. Prerequisites: graduate standing and Psychology [PSYCH] 1000, Nutritional Science [NUTR\_S] 2340.

**NUTR\_S 7370. Nutritional Therapy I. 3 Credits.**

In-depth study of physiological/biochemical changes in selected disease states (cardiovascular disease, rehabilitation, diabetes and cancer); development of principles underlying nutrition therapy. Lecture course. Prerequisites: graduate standing and Nutritional Science [NUTR\_S] 4360.

**NUTR\_S 7380. Nutrition Therapy II. 2 Credits.**

Evaluation, design and monitoring of the nutrition care of complex health disorders such as renal disease, trauma, and multi-system organ failure; emphasis on nutrition support (enteral and parenteral nutrition). Lecture course. Prerequisites: Nutritional Science [NUTR\_S] 4370.

**NUTR\_S 7500. Research in Nutritional Sciences. 1-99 Credit.**

Original investigations, usually in connection with one of the research projects of Agricultural Experiment Station. Written report required. Prerequisite: graduate standing.

**NUTR\_S 7590. Community Nutrition. 3 Credits.**

Public health nutrition and chronic disease prevention, food security, nutrition programs and food access, public policy, sustainable agriculture and food production systems, cultural food practices, needs assessment.

Prerequisites: Nutrition course or instructor's consent. Graded on A/F basis only.

**NUTR\_S 7840. Cardiovascular Health and Fitness. 3 Credits.**

Physiology underlying best methods for obtaining and maintaining cardiovascular health and fitness. Includes exercise and weight control, plasma lipids, energy metabolism, cardiovascular dynamics, and recent research findings. Prerequisite: graduate standing.

**NUTR\_S 7950. Research in Dietetics. 2 Credits.**

Introduction to research, including the relationship of basic, clinical, and outcomes-based research to dietetics practice. Defining research problems in a dietetics practice setting, developing hypotheses, reviewing scientific literature, writing research protocols, analyzing data. Lecture course. Prerequisites: statistics course, graduate standing or instructor's permission.

**NUTR\_S 7970. Sports Nutrition. 2 Credits.**

Integration of research literature with knowledge from previous coursework, emphasis on sports nutrition research, nutrient requirements of athletes, critical evaluation of ergogenic aids. Prerequisites: Statistics [STAT], Nutritional Sciences [NUTR\_S] 2340, Physiology; graduate standing, instructor's consent. Not open to Pre-Nutrition and Fitness students. Graded on A/F basis only.

**NUTR\_S 8001. Topics in Nutritional Sciences. 1-3 Credit.**

Instruction in specific subject matter areas in the field of nutrition science and exercise physiology. May be repeated for credit. Graded on A/F basis only.

**NUTR\_S 8030. Etiology of Obesity. 3 Credits.**

This course is designed to provide an understanding of the cause and implications of human obesity. General topic areas covered will include: methodologies of obesity research, physiology of obesity, behavioral and environmental factors influencing obesity, obesity and disease, therapeutic approaches to obesity, and emerging topics in obesity. The structure of this course will be mixture of lectures and interactive discussions/reviews of primary research articles in these areas. Students will be expected to present and critically evaluate research papers relevant to the field of obesity. Prerequisite: NUTR\_S 7340.

**NUTR\_S 8085. Problems in Nutritional Sciences. 1-99 Credit.**

Individual studies include a minor research problems. Prerequisite: graduate standing.

**NUTR\_S 8087. Masters Seminar in Nutritional Sciences. 1 Credit.**

Seminar features expert presentations of current research and issue-based applications that represent the breadth of nutritional sciences. Graduate Standing Required. Graded on S/U basis only.

**NUTR\_S 8090. Masters Research in Nutritional Sciences. 1-99 Credit.**

Original investigation of advanced nature, leading to thesis dissertation. Graded on a S/U basis only. Prerequisite: graduate standing.

**NUTR\_S 8310. Nutritional Biochemistry of Lipids. 3 Credits.**

(same as Animal Science [AN\_SCI] 8431 and Nutrition [NUTRIT] 8310). Current concepts in the nutritional regulation of lipid metabolism. Emphasis on integrating information and interpreting current research data. Prerequisites: Biochemistry [BIOCHM] 4270 and 4272.

**NUTR\_S 8340. Nutrition in Human Health. 3 Credits.**

(same as Nutrition [NUTRIT] 8340). Nutritional aspects of maintaining human health with emphasis on chronic disease prevention. Grades based on classroom participation and four exams. Prerequisites: Biochemistry [BIOCHM] 4270 and 4272; 4000-level nutrition course.

**NUTR\_S 8360. Nutritional Biochemistry I. 3 Credits.**

(same as Nutrition [NUTRIT] 8360 and Biochemistry [BIOCHM] 8360). Provides a critical understanding of current developments in lipid metabolism in animals and humans, particularly as it relates to nutrition and health. Prerequisite: BIOCHM 4270 and 4272; at least one 4000 level nutrition course.

**NUTR\_S 8390. Molecular Biology of Mineral Nutrition. 3 Credits.**

(same as Nutrition [NUTRIT] 8390 and Biochemistry [BIOCHM] 8390). Current concepts of metal ion transport, intracellular metal trafficking and metal-dependent regulation of gene expression. Based entirely on research literature and taught in a tutorial format. Prerequisites: Biochemistry [BIOCHM] 4270 and 4272; 4000-level nutrition course.

**NUTR\_S 8438. Nutrient Regulation of Gene Expression. 3 Credits.**

(same as Animal Science [AN\_SCI] 8438, Biochemistry [BIOCHM] 8438 and Nutrition [NUTRIT] 8438). Current concepts with in-depth coverage of several minerals that illustrate themes in molecular mineral nutrition. Based entirely on research literature and taught in a tutorial format. Prerequisites: BIOCHM 4270 and 4272; 4000-level nutrition course.

**NUTR\_S 8850. Advanced Exercise Physiology. 3 Credits.**

Lectures, laboratory experiences, and readings in current literature to provide reasonable depth in selected areas of physiology as applied to activity and health. Prerequisites: Nutritional Science [NUTR\_S] 4850 and Chemistry [CHEM].

**NUTR\_S 8870. Exercise Metabolism. 3 Credits.**

Review of major metabolic pathways and the effect of exercise upon them. Special topics include indirect calorimetry, EPOC, anaerobic threshold; weight control, ergogenic aids, and exercise nutrition. Prerequisites: Nutritional Science [NUTR\_S] 4850 and Chemistry [CHEM].

**NUTR\_S 9087. Doctorate Seminar in Nutritional Sciences. 1 Credit.**

Seminar features expert presentations of current research and issue-based topics that represent the breadth of nutritional sciences. Graduate Standing Required. Graded on S/U basis only.

**NUTR\_S 9090. Doctorate Research in Nutritional Sciences. 1-99 Credit.**

Original investigation of advanced nature, leading to thesis dissertation. Graded on a S/U basis only. Prerequisite: graduate standing.

## Obstetrics And Gynecology (OB\_GYN)

---

**OB\_GYN 6004. Obstetrics/Gynecology Clerkship. 6-10 Credit.**

Obstetrics/Gynecology Clerkship.

**OB\_GYN 6014. Rural Obstetrics/Gynecology Clerkship. 6-10 Credit.**

Rural Obstetrics/Gynecology Clerkship.

**OB\_GYN 6104. Remediation 6004 OB/GYN Clerkship. 6 Credits.**

OB/GYN Clerkship Remediation. Prerequisite: 6004 OB/GYN Clerkship, received unsatisfactory grade.

**OB\_GYN 6311. ABS OB/Gynecology Mechanism of Disease. 5-10 Credit.**

ABS OB/Gynecology Mechanism of Disease.

**OB\_GYN 6313. ABS OB/Gynecology Research. 5 Credits.**

ABS OB/Gynecology Research.

**OB\_GYN 6315. ABS OB/Gynecology Research and Review. 5-10 Credits.**

ABS OB/Gynecology Research and Review.

**OB\_GYN 6563. OB/GYN Clinical Reproductive Endocrinology. 5 Credits.**

OB/GYN Clinical Reproductive Endocrinology.

**OB\_GYN 6564. OB/GYN Reproductive Endocrinology Research. 5 Credits.**

OB/GYN Reproductive Endocrinology Research.

**OB\_GYN 6570. Gynecologic Endoscopy - St. Luke's. 5 Credits.**

Gynecologic Endoscopy - St. Luke's.

**OB\_GYN 6571. Clinical Reproductive Endocrinology and Infertility - St. Luke's. 5 Credits.**

Clinical Reproductive Endocrinology and Infertility - St. Luke's.

**OB\_GYN 6572. OB/GYN Ultrasonography - St. Luke's. 5 Credits.**

OB/GYN Ultrasonography - St. Luke's.

**OB\_GYN 6573. Maternal-Fetal Medicine and Ultrasound - St. Luke's. 5 Credits.**

Maternal-Fetal Medicine and Ultrasound - St. Luke's.

**OB\_GYN 6574. Clinical GYN Oncology/Pathology - St. Luke's. 5 Credits.**

Clinical GYN Oncology/Pathology - St. Luke's.

**OB\_GYN 6575. Obstetrics/Gynecology - St. Luke's. 5 Credits.**

Obstetrics/Gynecology - St. Luke's.

**OB\_GYN 6580. Obstetrics/Gynecology-Moberly Regional. 5 Credits.**

Obstetrics/Gynecology-Moberly Regional.

**OB\_GYN 6583. Obstetrics/Gynecology Offsite Advanced Elective. 5 Credits.**

Obstetrics/Gynecology Offsite Advanced Elective.

**OB\_GYN 6765. OB/GYN - Rural. 5 Credits.**

OB/GYN - Rural.

**OB\_GYN 6766. Gynecology Rural Elective. 5 Credits.**

Students will build upon their gynecologic examinations skills and their knowledge of both the common and more unusual gynecologic conditions that they obtain during other clerkships. Prerequisites: Obstetrics and Gynecology [OB\_GYN] 6004, Surgery [SURGRY] 6006.

**OB\_GYN 6865. Maternal-Fetal Medicine Selective. 5 Credits.**

Prerequisites: Ob-Gyn Clerkship. Goals/Objectives: To expose the student to high-risk obstetrical experiences in the Maternal Fetal Medicine division. All obstetrical selectives are done at Women's and Children's Hospital.

**OB\_GYN 6866. Obstetrical. 5 Credits.**

Prerequisites: Ob-Gyn Clerkship. Goals/Objectives: To provide the student with additional obstetrical experience in the Labor and delivery suite. All obstetrical electives are done at the Missouri Ob/Gyn Associates Clinic and Women's and Children's Hospital. Core reading for this rotation will include Obstetrics, Normal and Problem Pregnancies, latest edition, edited by Gabbe, Niebyl and Simpson. Evaluations: The student will be graded on their ward performance. An evaluation for this rotation will be completed by the appropriate faculty and resident physicians. Notes: While on this rotation students will have exposure to various faculty members, residents, and fellow medical students. Students will participate in the evaluation of patients on labor and delivery including those presenting for evaluation of first trimester problems and labor

evaluations. Some participation in operative procedures and labor management is expected. Students will have exposure to antenatal testing and ultrasonography including the interpretation of ultrasounds and limited participation in genetic counseling and invasive ante-partum diagnostic procedures is expected. Night call will be required and can be worked into the core rotation's student call schedule. Teaching will be on an ongoing bases with Dr. Floyd keeping daily routine with the students expected to participate in management decisions.

**OB\_GYN 6867. Obstetrical/Gynecological Outpatient. 5 Credits.**  
Obstetrical/Gynecological Outpatient.

**OB\_GYN 6960. Gynecologic/Oncology Surgery. 5 Credits.**

Prerequisites: Ob-Gyn Clerkship. Goals/Objectives: To provide the student with additional surgical and gynecological clinical experience. All gynecologic surgical electives are performed at Ellis Fischel Cancer Center and the University Hospital. Evaluations: An evaluation for this rotation will be completed by the elective chairmen and appropriate resident physicians. The students will be graded on their clinic, ward, and operating room performance. Notes: While on this rotation, students will have exposure to faculty members, three residents, and other fellow medical students. They will have the opportunity to assist in gynecologic oncology surgical cases, attend tumor clinics where they will encounter various procedures such as colposcopies, cryotherapy, and cervical and endometrial biopsies. A copy of a representative weekly schedule is available from the department student coordinator. In addition, students will be required to make two ten minute presentations with audio-visual aids on assigned topics. The students will not take night call, but are expected to attend patient rounds on weekdays and weekends with the residents. The department also holds conferences on Tuesdays and Thursdays which are to be attended. Core reading for this rotation will include Clinical Gynecologic Oncology by DiSaia and Creasman.

**OB\_GYN 6964. Obstetrics/Gynecology Offsite Advanced Selective. 5 Credits.**

Obstetrics/Gynecology Offsite Advanced Selective.

## **Occupational Therapy (OC\_THR)**

**OC\_THR 1000. Introduction to Occupational Therapy. 1 Credit.**

Introductory course to provide students information about the occupational therapy profession. Registered therapists lecture on clinical aspects. Students participate in discussions on program requirements, placement, and trends in the profession.

**OC\_THR 2001. Topics in Occupational Therapy. 1-99 Credit.**

Organized study of selective topics in occupational therapy. Particular topics and credit hours may vary from semester to semester.

Prerequisites: freshman or sophomore standing; instructor's consent. Repeatable upon consent of department.

**OC\_THR 2085. Problems in Occupational Therapy. 1-99 Credit.**

Independent investigation leading to the completion of a project or paper. Prerequisite: freshman or sophomore standing; instructor's consent.

**OC\_THR 4001. Topics in Occupational Therapy. 1-99 Credit.**

Organized study of selective topics in occupational therapy. Particular topics and credit hours may vary from semester to semester.

Prerequisite: junior standing; instructor's consent. Repeatable upon consent of department.

**OC\_THR 4060. Professional Issues. 1 Credit.**

Introduction to the structures of the profession including professional association, philosophical and ethical perspectives and preparation for client contact. Includes experiential instruction in infection control. Prerequisite: acceptance into the occupational therapy program. Graded on A/F basis only.

**OC\_THR 4085. Problems in Occupational Therapy. 1-99 Credit.**

Independent investigation leading to the completion of a project or paper. Prerequisite: junior standing; instructor's consent. Repeatable upon consent of department.

**OC\_THR 4220. Clinical Kinesiology. 3 Credits.**

(same as Physical Therapy [PH\_THR] 4250). This course for occupational therapy students examines the musculoskeletal system with special emphasis in body movements and the application of laws and biomechanical principles that govern movement in order to select and perform effective occupation-based treatment. Prerequisites: acceptance into the occupational therapy program. Graded on A/F basis only.

**OC\_THR 4240. Applied Neurophysiology for Allied Health Students. 3 Credits.**

(same as Communicative Science and Disorders [CSD] 4430 and Physical Therapy [PH\_THR] 4240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system. Graded on A/F basis only.

**OC\_THR 4270. Clinical Pathophysiology. 3 Credits.**

(same as Physical Therapy [PH\_THR] 4270) Interdisciplinary and case-based examination of the pathophysiology, prevention and general health management of disease/injury across the lifespan encountered in occupational and physical therapy practice. Prerequisite: successful completion of prior professional coursework. Graded on A/F basis only.

**OC\_THR 4310. Foundations of Occupational Therapy. 4 Credits.**

History, contemporary practice, conceptual foundations, professional organizations and official documents of the OT profession are presented. Activity analysis, adaptation, and assistive technology are introduced in the context of promoting health and occupational participation. Prerequisite: Pathology and Anatomical Science [PTH\_AS] 4222 with a grade of "C" or better. Admission to the OT professional program required. Graded on A-F only basis.

**OC\_THR 4350. Rehabilitation Practice. 4 Credits.**

Analysis of major disability areas from an occupational perspective. Administration and interpretation of assessments and application of treatment theories and approaches for deficits in movement, sensation, cognition and perception. Must be admitted to the Occupational Therapy Professional Program. Graded on A/F basis only.

**OC\_THR 4390. Lifespan Assessment. 3 Credits.**

Introduction to occupational therapy evaluation: interviewing, screening, assessment, and documentation. Overview of the characteristics of instruments and interpretation of data. Basic evaluation skills in occupational therapy across the lifespan are introduced. Graded on A/F basis only.

**OC\_THR 4420. Lifespan Occupations I. 2 Credits.**

Overview of typical development from infancy through adolescence from an occupational perspective. Emphasis on the impact of personal and contextual factors on occupational development in children and adolescents. Prerequisite: Admission to Occupational Therapy professional program and satisfactory completion of all previous

professional program coursework (C or better for Undergraduates). Graded on A/F basis only.

**OC\_THR 4422. Fieldwork I - Children. 1 Credit.**

Development of clinical observation skills via on-site observation of children with typical and atypical development. Opportunities to gather and organize data, plan and implement activities, and develop therapeutic relationships with children and their care providers. Prerequisites: Admission to Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (C or better for undergraduates). Graded on S/U basis only.

**OC\_THR 4450. Pediatric Practice. 4 Credits.**

Lecture and laboratory course designed which addresses OT pediatric frames of reference and theories. Common conditions seen in OT practice as well as interventions such as feeding, positioning, facilitation of movement and sensory strategies are also addressed. Prerequisite: Admission to the OT professional program. Graded on A/F basis only.

**OC\_THR 4520. Fundamentals of Occupational Therapy. 4 Credits.**

This course will provide an overview of disability across the lifespan, including personal and professional interactions. Professional values, ethics and advocacy are also emphasized. Restricted to students currently enrolled in the Occupational Therapy Program. Graded on A/F basis only.

**OC\_THR 4620. Lifespan Occupations II. 2 Credits.**

Overview of biopsychosocial development and the aging process from young adulthood through older adulthood from an occupational perspective. Emphasis on the impact of client and contextual factors on occupational development and loss of occupations throughout the adult lifespan. Admission to the Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (C or better for undergraduate; B or better for graduate). Graded on A/F basis only.

**OC\_THR 4622. Fieldwork I Older Adults. 1 Credit.**

Development of evaluation and intervention skills via on-site interaction with older adults in a residential facility. Opportunities to gather data, plan/implement activities, document client performance, and develop therapeutic relationships with older adults and care providers. Admission to the Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (C or better for undergraduate; B or better for graduate). Graded on S/U basis only.

**OC\_THR 4650. Lifespan Interventions. 4 Credits.**

This course provides a foundational overview of common treatment theories and frames of reference that guide intervention planning across the lifespan. Prerequisite: Occupational Therapy [OC\_THR] 4310 and 4520. Graded on A/F basis only. Restricted to students who are currently enrolled in the Occupational Therapy Program.

**OC\_THR 4670. Hand and Upper Extremity Intervention. 2 Credits.**

To gain entry level skills needed to evaluate and treat common upper extremity conditions, including acute injuries and cumulative trauma disorders. Prerequisites: Occupational Therapy [OC\_THR] 4222/7222, 4220/7220, 4390/7390. Graded on A-F basis only.

**OC\_THR 4740. Neurophysiology II - Seminar: Advanced Concepts in Neuroscience. 1 Credit.**

This advanced seminar involves a review of neuro-based literature with a focus on translating neuroscience concepts and research findings into occupational therapy. Restricted to Occupational Therapy students only. Graded on S/U basis only.

**OC\_THR 4750. Cognition Across the Lifespan. 2 Credits.**

This course introduces students to theoretical models, assessment, and treatment in cognitive rehabilitation. Restricted to Occupational Therapy Majors. Graded on A/F basis only.

**OC\_THR 4770. Community-Based Practice. 3 Credits.**

Focus on role of occupational therapy in prevention, health and wellness. Program development and evaluation completed through community needs assessment and completion of health promotion project. Prerequisite: acceptance into major and completion of program year 1. Graded on A-F only basis.

**OC\_THR 4920. Clinical Documentation. 2 Credits.**

Development of observation and assessment skills related to effective documentation of occupational therapy services. Emphasizes exposure to various clinical settings, and third party payers, and legislative policies impacting documentation. Graded on A/F basis only. Restricted to students admitted to the professional program.

**OC\_THR 4943. Fieldwork: Clinical. 1 Credit.**

Clinical experience in occupational therapy settings. Emphasis on classroom to clinical transition. Exposure to the occupational therapy process; assessment, planning, implementation. Emphasis on professional communication and observational skills. Prerequisite: completion of 1st semester in major in professional curriculum; junior standing. Graded on A/F basis only.

**OC\_THR 4960. Readings in Occupational Therapy. 1-99 Credit.**

Directed readings of the literature and research in occupational therapy. Prerequisite: junior standing, instructor's consent. Repeatable upon consent of department.

**OC\_THR 4970. Research Methods. 3 Credits.**

This course will use writing to explore basic concepts in research design and analysis. Restricted to Occupational Therapy Majors. Graded on A/F basis only.

**OC\_THR 7000. Research Project. 2 Credits.**

Supervised experience in scientific investigation. In this course students will develop hypotheses, establish protocols/procedures, collect/analyze data, and interpret results.

**OC\_THR 7001. Topics in Occupational Therapy. 1-99 Credit.**

Organized study of selected topics in occupational therapy. Particular topics and credit hours may vary from semester to semester. Repeatable upon consent of department. Course may be offered on S/U or A/F basis. Prerequisite: graduate standing.

**OC\_THR 7005. Research Project-Mentor Hours. 1 Credit.**

Hours spent working with research mentor on research proposal. Emphasis on understanding project, designing project and collecting data for project. Must be taken in conjunction with Occupational Therapy [OC\_THR] 7000. Graded on S/U basis only. May be repeated for credit.

**OC\_THR 7060. Professional Issues. 1 Credit.**

Introduction to the structures of the profession including professional associations, philosophical and ethical perspectives, the meaning of occupation and preparation for client contact. Includes experiential instruction in surface anatomy and infection control. Acceptance into the occupational therapy program. Graduate standing required. Graded on A-F basis only.

**OC\_THR 7085. Problems in Occupational Therapy. 1-99 Credit.**

Independent investigation leading to the completion of a project or paper. Repeatable upon consent of department. May be offered on A/F or S/U basis. Prerequisite: graduate standing.

**OC\_THR 7220. Clinical Kinesiology. 3 Credits.**

(same as Physical Therapy [PH\_THR] 7250). This course for occupational therapy students examines the musculoskeletal system with special emphasis in body movement and the application of laws and biomechanical principles that govern movement in order to select and perform effective occupation-based treatment. Acceptance into the occupational therapy program. Graduate Standing Required. Graded on A-F basis only.

**OC\_THR 7240. Applied Neurophysiology for the Allied Health Student. 3 Credits.**

(same as Physical Therapy [PH\_THR] 7240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system. Graded on A/F basis only. Graduate standing required.

**OC\_THR 7270. Clinical Pathophysiology. 3 Credits.**

(same as Physical Therapy [PH\_THR] 7270). Interdisciplinary and case-based examination of the pathophysiology, prevention and general health management of disease/injury across the lifespan encountered in occupational and physical therapy practice. Admission to the OT Professional Program required. Graded on A-F basis only.

**OC\_THR 7310. Foundations of Occupational Therapy. 4 Credits.**

History, contemporary practice, conceptual foundations, professional organizations and official documents of the OT profession are presented. Activity analysis, adaptation, and assistive technology are introduced in the context of promoting health and occupational participation. Prerequisite: Pathology and Anatomical Science [PTH\_AS] 4222 with a grade of "C" or better. Admission to the OT professional program required. Graded on A/F only basis.

**OC\_THR 7350. Rehabilitation Practice. 4 Credits.**

Analysis of major disability areas from an occupational perspective. Administration and interpretation of assessments and application of treatment theories and approaches for deficits in movement, sensation, cognition, and perception. Prerequisite: Admission to the Occupational Therapy professional program. Graded on A/F basis only. Graduate standing required.

**OC\_THR 7390. Lifespan Assessment. 3 Credits.**

Introduction to occupational therapy evaluation: interviewing, screening, assessment, and documentation. Overview of the characteristics of instruments and interpretation of data. Basic evaluation skills in occupational therapy across the lifespan are introduced. Graded on A/F basis only.

**OC\_THR 7420. Lifespan Occupations I. 2 Credits.**

Overview of typical development from infancy through adolescence from an occupational perspective. Emphasis on the impact of personal and contextual factors on occupational development in children and adolescents. Prerequisite: Admission to Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (B or better for graduate students). Graded on A/F basis only.

**OC\_THR 7422. Fieldwork I - Children. 1 Credit.**

Development of clinical observation skills via on-site observation of children with typical and atypical development. Opportunities to gather and organize data, plan and implement activities, and develop therapeutic relationships with children and their care providers. Prerequisites: Admission to Occupational Therapy professional program and satisfactory completion of all previous professional program

coursework (C or better for undergrad; B or better for graduates). Graded on S/U basis only.

**OC\_THR 7450. Pediatric Practice. 4 Credits.**

Lecture and laboratory course designed which addresses OT pediatric frames of reference and theories. Common conditions seen in OT practice as well as interventions such as feeding, positioning, facilitation of movement and sensory strategies are also addressed. Admission to the OT professional program required. Graduate standing required. Graded on A-F basis only.

**OC\_THR 7510. Professional Perspectives. 4 Credits.**

The course will provide an understanding of personal and professional communication through experiential activities and team learning. The focus will be on the formation of professional and therapeutic relationships and development of leadership skills. Admission to the OT Professional Program required. Graduate standing required. Graded on A-F basis only.

**OC\_THR 7520. Fundamentals of Occupational Therapy. 4 Credits.**

This course will provide an overview of disability across the lifespan, including personal and professional interactions. Professional values, ethics and advocacy are also emphasized. Restricted to students who are currently enrolled in to the Occupational Therapy program. Graded on A-F basis only.

**OC\_THR 7590. Disability In Context. 2 Credits.**

Community experiences are provided for observation, interview, assessment, and relational skills with persons experiencing disabilities throughout the lifespan. Professional and therapeutic relationships encompassing holism are discussed. Seminar weekly. Graded on A/F basis only. Graduate standing required.

**OC\_THR 7620. Lifespan Occupations II. 2 Credits.**

Overview of biopsychosocial development and the aging process from young adulthood through older adulthood from an occupational perspective. Emphasis on the impact of client and contextual factors on occupational development and loss of occupations throughout the adult lifespan. Graded on A/F basis only. Prerequisite: Admission to the Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (C or better for undergraduate; B or better for graduate).

**OC\_THR 7622. Fieldwork I Older Adults. 1 Credit.**

Development of evaluation and intervention skills via on-site interaction with older adults in a residential facility. Opportunities to gather data, plan/implement activities, document client performance, and develop therapeutic relationships with older adults and care providers. Graded on S/U basis only. Prerequisite: Admission to the Occupational Therapy professional program and satisfactory completion of all previous professional program coursework (C or better for undergraduate; B or better for graduate).

**OC\_THR 7650. Lifespan Interventions. 4 Credits.**

This course provides a foundational overview of common treatment theories and frames of reference that guide intervention planning across the lifespan. Prerequisite: Occupational Therapy [OC\_THR] 4310/7310 and 4520/7520. Graded on A/F basis only. Restricted to students who are currently enrolled in the Occupational Therapy Program.

**OC\_THR 7670. Hand and Upper Extremity Intervention. 2 Credits.**

To gain entry level skills needed to evaluate and treat common upper extremity conditions, including acute injuries and cumulative trauma disorders. Graded on A-F basis only. Prerequisite: OC\_THR 4222/

OC\_THR 7222, OC\_THR 4220/ OC\_THR 7220, OC\_THR 4390 / OC\_THR 7390.

**OC\_THR 7740. Neurophysiology II - Seminar: Advanced Concepts in Neuroscience. 1 Credit.**

This advanced seminar involves a review of neuro-based literature with a focus on translating neuroscience concepts and research findings into occupational therapy. Restricted to Occupational Therapy students only. Graded on S/U basis only.

**OC\_THR 7750. Cognition Across the Lifespan. 2 Credits.**

This course introduces students to theoretical models, assessment, and treatment in cognitive rehabilitation. Graded on A/F basis only. Prerequisite: restricted to Occupational Therapy Majors.

**OC\_THR 7770. Community-Based Practice. 3 Credits.**

Focus on role of occupational therapy in prevention, health and wellness. Program development and evaluation completed through community needs assessment and completion of health promotion project. Prerequisite: Admission to the OT Professional Program. Graded on A-F only basis.

**OC\_THR 7920. Fieldwork I Application of Clinical Skills. 2 Credits.**

Application of clinical reasoning. Integration of theory into clinical practice. Emphasis on treatment planning and implementation, outcome based intervention and professional communication. Includes lecture, seminar, and field experience. Graded on S/U basis only.

**OC\_THR 7921. Clinical Documentation. 2 Credits.**

Development of observation and assessment skills related to effective documentation of occupational therapy services. Emphasizes exposure to various clinical settings, third party payers, and legislative policies impacting documentation. Prerequisite: Admission to the professional program. Graded on A/F basis only. Graduate standing required.

**OC\_THR 7960. Readings in Occupational Therapy. 1-99 Credit.**

Directed readings and critical evaluation of the literature and research in occupational therapy. Repeatable upon consent of department. May be offered on A/F or S/U basis. Prerequisite: graduate standing required.

**OC\_THR 7970. Research Methods. 3 Credits.**

This course will use writing to explore basic concepts in research design and analysis. Restricted to Occupational Therapy Majors. Graduate standing required. Graded on A/F basis only.

**OC\_THR 7983. Fieldwork Level II-A. 3-9 Credit.**

Advanced practicum in various community settings such as the school system, hospitals, rehabilitation centers and residential facilities. Emphasis on hands-on experiences and translation of theory into practice. Graded on S/U basis only.

**OC\_THR 7993. Fieldwork Level II-B. 3-9 Credit.**

Advanced practicum in rehabilitation and various community settings for application of more specialized practice in community based settings. Emphasis on critical analysis of human occupation, clinical reasoning, synthesis, and evidence based practice. Graded on S/U basis only.

**OC\_THR 8002. Leadership, Management and Policy. 2-3 Credit.**

Management perspectives and organizational structure of occupational therapy services programs and the profession. Includes inter- and intra departmental relationships, management and supervision, standards, regulations, and ethical guidelines are emphasized.

**OC\_THR 8003. Mental Health Practice. 4 Credits.**

This graduate course will examine the practice of occupational therapy in treating emotional and mental illnesses and related psychosocial

dysfunction in the context of a variety of mental health treatment settings. The course will cover advanced frames of reference, treatment strategies, assessments, service delivery, program planning and group facilitation. In conjunction with didactic content students will actively explore these areas through hands on and practical learning experiences such as planning and leading groups, selecting and administering assessments, and developing a service delivery plan. The student will be required to complete an assigned field experience and write a reflection paper to insight and new perspectives on mental illness.

**OC\_THR 8004. School Based Practice. 1-2 Credit.**

Seminar and field experience intended to assist the occupational therapy student develop clinical skills in pediatric practice via class participation an on-site experience with children with special needs. The students will have opportunities to gather/organize date; develop therapeutic relationships with children with special needs and the educational team; and assist practicing professionals with various assessment, treatment, and documentation activities in pediatric occupational therapy practice. During the course the student will be assigned to integrated classroom in public schools that are servicing children with special needs and their families.

**OC\_THR 8005. Advanced Strategies. 3 Credits.**

Assessment and intervention strategies in specialty areas of occupation therapy from an adult perspective, including hand therapy, assistive technology, and advanced neurerehabilitation techniques. Includes client observation, assessment and treatment in clinical situations.

**OC\_THR 8087. Problem-Based Cases. 4 Credits.**

Synthesizes occupational therapy approaches to clinical scenarios across the lifespan and practice domains. Integrates clinical reasoning, patient values and evidence-based decision making into the occupational therapy process. Problem-based methodology emphasizes small group learning, problem solving, self/peer evaluation, and self-directed learning.

**OC\_THR 8090. Synthesis Project. 2 Credits.**

Write up scholarly manuscript for publication based on research conducted with research mentor. Emphasis on writing: introduction, literature review, analysis and interpretation of findings, and implication for field. Presentation and dissemination of acquired information through poster session and manuscript. Graded on A-F basis only.

**OC\_THR 8095. Synthesis Project - Mentor Hours. 1 Credit.**

Hours spent working with research mentor. Emphasis on data collection and analysis to complete synthesis project. Must be taken in conjunction with Synthesis Project course. Co-Requisite: Occupational Therapy [OC\_THR] 8090. Graduate standing required. Graded on S/U basis only.

**OC\_THR 8999. Occupational Therapy Clinical Practice. 1 Credit.**

This course provides to provide students with opportunities to participate in adult or pediatric clinical Occupational Therapy practice. Students will be assigned a client who is seeking Occupational Therapy services. With supervision students will provide evaluation, and develop treatment goals. Graded on S/U basis only. Prerequisites: OC\_THR 4390, OC\_THR 7390 and OC\_THR 4650, OC\_THR 7650. Restricted to students who are currently enrolled into the Occupational Therapy Program.

## Ophthalmology (OPHTH)

---

**OPHTH 6321. ABS Age-Related Mechanism of Degeneration. 5-10 Credit.**

ABS Age-Related Mechanism of Degeneration.

**OPHTH 6323. ABS Ophthalmology Research. 5-10 Credit.**

ABS Ophthalmology Research.

**OPHTH 6325. ABS Ophthalmology Research and Review. 5 Credits.**

ABS Ophthalmology Research and Review.

**OPHTH 6585. Ophthalmology. 5 Credits.**

Ophthalmology.

## Parks, Recreation, and Tourism (P\_R\_TR)

---

**P\_R\_TR 1010. Introduction to Leisure Studies. 3 Credits.**

History of recreation and leisure movement; theories and philosophies of play, recreation and leisure. Developmental stages of leisure services to contemporary status.

**P\_R\_TR 1011. Academic Planning and Career Orientation in Parks, Recreation and Tourism. 1 Credit.**

Orientation to the field and analysis of career opportunities in leisure services. Academic planning leading to B.S. in parks, recreation and tourism. Prerequisite: Parks, Recreation and Tourism [P\_R\_TR] major. Must be taken in first semester as a major. Graded on S/U basis only.

**P\_R\_TR 1080. Introduction to Sport Management. 3 Credits.**

This course will examine the meaning of sport management in terms of its history, scope, principles, issues and future trends. In addition, this course examines the job responsibilities and competencies required of sport managers in a variety of sport organizations. Graded A-F only.

**P\_R\_TR 1081. Sport Facility Design. 1 Credit.**

This course will investigate the functions of management in terms of design, implementation, operating and financing public assembly facilities in order to help sell the sport product. Venues such as public and private arenas, coliseums and stadiums will be studied. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded on A-F basis only.

**P\_R\_TR 1084. Recreational Shooting Sports. 1 Credit.**

This course provides introductory instruction and hands-on shooting with an introduction to shooting range management. Instructor's consent required. Graded A-F only.

**P\_R\_TR 1085. The Sports Page. 1 Credit.**

This course is offered to introduce students to Sport Management by discussing the variety of sports, issues, perspectives and people that make the daily sport page worth reading. Prerequisites: Parks, Recreation and Tourism [P\_R\_TR] 1080. Instructor consent required is P\_R\_TR 1080 if co-requisite. Graded A-F only.

**P\_R\_TR 1091. Research and Descriptive Statistics for Parks, Recreation and Tourism. 3 Credits.**

An introduction to research methods and techniques and descriptive statistics and their application in the field of recreation and park administration. Math Reasoning Proficiency Course.

**P\_R\_TR 2082. Domestic and International Sports Environment. 1 Credit.**

This course will provide an overview of organization and management of domestic and international sport, including the Olympic movement and examination of the globalization of U.S. profession sports. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded on A/F basis only.

**P\_R\_TR 2083. Technological Advancement in Sport. 1 Credit.**

This course will teach students how to solve sports technology problems they will face in their future career, plus develop computer aided design and manufacturing skills. They will also gain skills in team work, communication and presentation, IT, research and project management. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded on A/F basis only.

**P\_R\_TR 2101. Topics in Park, Recreation and Tourism. 1-3 Credit.**

Specialized topic content in parks, recreation and tourism programs, management and/or development. Subject content and credit may vary by semester based on faculty resources and student needs. Offered periodically.

**P\_R\_TR 2103. Topics in Park, Recreation and Tourism - Behavioral Science. 1-3 Credit.**

Specialized topic content in parks, recreation and tourism programs, management and/or development. Subject content and credit may vary by semester based on faculty resources and student needs. Offered periodically.

**P\_R\_TR 2104. Topics in Park, Recreation and Tourism - Social Science. 1-3 Credit.**

Specialized topic content in parks, recreation and tourism programs, management and/or development. Subject content and credit may vary by semester based on faculty resources and student needs. Offered periodically.

**P\_R\_TR 2107. Aquatics Science. 3 Credits.**

A scientific perspective on water chemistry, preventive maintenance of aquatic facilities with an emphasis on the newest safety and engineering design information and construction techniques.

**P\_R\_TR 2111. Introduction to Planning and Evaluating Leisure Environments. 3 Credits.**

Presentation of basic planning principles. Evaluation of existing areas and facilities based upon planning guidelines. Consideration of park plans, standards, terminology, map preparation and evaluation.

**P\_R\_TR 2115. Consortium Field Experience. 1-3 Credit.**

An organized undergraduate experiential learning opportunity. Prerequisite: instructor's consent.

**P\_R\_TR 2140. Camp Leadership and Management. 3 Credits.**

Organization and administration of camps; program planning; selection and training of staff; camp site selection and development; health and safety; camp history, standards, trends; practical application of camp craft skills. Prerequisite: instructor's consent.

**P\_R\_TR 2142. Leadership of Social Recreation. 2 Credits.**

Study and practice in techniques of leading social activities suitable for various social settings. Offered periodically.

**P\_R\_TR 2143. Organization and Conduct of Recreation Centers. 2 Credits.**

Problems of operation, management of playgrounds, recreation centers.

**P\_R\_TR 2182. Ethics and Current Issues in Sports. 1 Credit.**

Ethical strategies of sport management will be emphasized in all management decisions and current issues that today's sport business professional faces will be studied. Prerequisites: instructor's consent. Graded on A/F basis only.

**P\_R\_TR 2206. Introduction to Leisure Service Management. 3 Credits.**

An introduction to public recreation in local government. Prerequisites: Parks, Recreation And Tourism [P\_R\_TR] 1010, 1011, 2111 or instructor's consent.

**P\_R\_TR 2281. The Business of Sport. 3 Credits.**

This course focuses on the business side of sport management, considering issues of marketing, sponsorship, and sales. Students will also be presented with actual models relevant to working in sales in the competitive sport environment. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded on A/F basis only.

**P\_R\_TR 2750. Methods in Research and Evaluation. 3 Credits.**

An overview of social research methods, including terms, human and scientific inquiry, ethical behavior, literature review, sampling questionnaire construction, types of data collection, statistical analysis, and reporting of results. May be restricted to Parks, Recreation and Tourism Majors. Graded on A/F basis only.

**P\_R\_TR 3185. Sports Economics and Finance. 3 Credits.**

This course focuses on the economic and financial issues within the sport industry. The class will help students understand basic and complex concepts within economics and finance in a sport context, and to grasp the importance of financial and economic decision making. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded on A/F basis only.

**P\_R\_TR 3189. Pre-Internship Seminar in Parks, Recreation and Tourism. 1 Credit.**

The course is designed to prepare students for 4940 Parks, Recreation and Tourism Internship. Emphasis is placed on students' responsibilities prior to enrollment in Parks, Recreation and Tourism [P\_R\_TR] 4940, selecting internship sites and completing internship requirements.

**P\_R\_TR 3210. Personnel Management and Leadership in Leisure Services. 3 Credits.**

Considers theories and practices of leadership and management in leisure services employment. Topic presentation in relationships, attitudes, supervision, motivation and group functioning. Prerequisite: restricted to Parks, Recreation and Tourism majors.

**P\_R\_TR 3215. Program Development in Leisure Services. 3 Credits.**

Fundamental principles and techniques of program development; seasonal, year round, specialty areas and total agency program planning. Prerequisites: Parks, Recreation And Tourism [P\_R\_TR] 1010, 1011, or instructor's consent; restricted to Parks, Recreation and Tourism majors.

**P\_R\_TR 3220. Introduction to Recreation for Individuals with Disabilities. 2 Credits.**

Principles, concepts and historical development of recreation for individuals with disabilities. Explanation of attitudes, issues, practice and barriers related to recreation participation. Prerequisite: restricted to Parks, Recreation and Tourism Students.

**P\_R\_TR 3227. Introduction to Therapeutic Recreation. 3 Credits.**

An investigation of therapeutic recreation service delivery models of the Parks, Recreation and Tourism [P\_R\_TR] 2111 and disabled in both institutional and community settings. Particular emphasis will be placed on advanced leadership and therapeutic interactional skills and dynamics.

**P\_R\_TR 3230. Introduction to Parks and Outdoor Recreation Services. 3 Credits.**

An overview of parks and outdoor recreation, natural environment, supply-demand-need relationships, interpretative programming, management philosophies/practices will be studied.

**P\_R\_TR 3231. Principles of Interpretive Outdoor Recreation. 3 Credits.**

Interpretive principles and techniques employed to communicate values, natural history and cultural features to the recreation user.

**P\_R\_TR 3282. Governance and Policy in Sport and Leisure. 3 Credits.**

This course serves as a comprehensive study in examining how leisure organizations address fundamental issues of governance and policy. Through careful use of policy and understanding of governance, organizations often form strategies in their attempts to gain an advantage. Restricted to Parks, Recreation, and Tourism majors with Sport Management emphasis or instructor consent. Graded A-F only.

**P\_R\_TR 4208. Administration of Leisure Services. 3 Credits.**

Theoretical foundations of the organization and administration of leisure services in both community and institutional settings. Emphasis on the roles of the administrator. Prerequisite: Restricted to Parks, Recreation and Tourism majors.

**P\_R\_TR 4312. Planning Recreation and Leisure Environments. 3 Credits.**

Practical application of basic planning principles and design. Layout and design of various leisure-oriented areas and facilities. Site planning and analysis.

**P\_R\_TR 4315. Senior Seminar in Leisure Services. 3 Credits.**

Presentation of professional principles and issues in leisure services. Seminar study resulting in presentations and discussions. Prerequisites: Parks, Recreation and Tourism [P\_R\_TR] majors, professional core or instructor's consent.

**P\_R\_TR 4327. Operation of Therapeutic Recreation: Procedures and Principles. 3 Credits.**

Theories and principles of leadership and programming as they apply to recreation services for the ill, handicapped, and aged.

**P\_R\_TR 4328. Leisure and Aging. 3 Credits.**

Basic understanding of problems/needs of later maturity in relation to recreation. Characteristics/capabilities of aged, program settings, financial support, planning guidelines emphasized. Objectives: provide fundamentals for recreation planning with aged individuals/groups. Offered periodically.

**P\_R\_TR 4329. Therapeutic Recreation Education/Counseling Techniques. 3 Credits.**

Techniques and models of leisure facilitation for use within a variety of clinical, residential and Institutional models. Theories of positive/negative leisure engagement reviewed.

**P\_R\_TR 4330. Therapeutic Recreation Assessment/Evaluation Procedures. 3 Credits.**

Reviews accepted clinical protocols for determining a client's physical, emotional, social and cognitive levels of functioning. Competencies in administering, scoring and interpreting multiple tools included.

**P\_R\_TR 4331. Administration of Outdoor Recreation - Education Programs. 3 Credits.**

Philosophies, essential principles, methods, techniques, resources, administrative and program practices for outdoor recreation and education. Offered periodically.

**P\_R\_TR 4333. Park Management. 3 Credits.**

Basic principles, practices and problems involved in managing public park systems. Consideration given to local, district, county, state, federal and foreign park systems. Prerequisite: Restricted to Parks, Recreation and Tourism majors.

**P\_R\_TR 4340. Advanced Recreation Land Management. 3 Credits.**

Advanced study of problems facing forest recreation managers. Topics include rivers recreation, wilderness management and citizen participation in decision making. Offered periodically.

**P\_R\_TR 4350. Problems in Parks, Recreation and Tourism. 1-3 Credit.**

Prerequisite: departmental consent.

**P\_R\_TR 4355. Private and Commercial Recreation Principles and Practice. 3 Credits.**

Considers principles, practices, influences in public/ private leisure services; influence of tourism/travel on public/private recreation services.

**P\_R\_TR 4356. Tourism Management. 3 Credits.**

Introduction to the scope and scale of the tourism industry. Focus on the industry components, concepts, structures, relationships, and issues with regard to accommodation, transportation, travel, regional development, political system, and the economic, social and environmental effects of tourism.

**P\_R\_TR 4357. Tourism Planning and Development. 3 Credits.**

Nature and scope of tourism planning at the local, regional, and national levels; economic social, environmental, and policy considerations. Comparative study of initiating, planning and implementing tourism and the organization of community resources for developing and controlling a tourism industry. Prerequisite: Parks, Recreation And Tourism [P\_R\_TR] 4356.

**P\_R\_TR 4385. Legal Aspects of Sport. 3 Credits.**

This course studies the U. S. legal system, its structure and terminology. Legal aspects of contract law, statutory law, constitutional law, intellectual property, torts, negligence, and risk management in sport will be examined. Restricted to Parks, Recreation, and Tourism majors with Sports Management emphasis or instructor consent. Graded on A/F basis only.

**P\_R\_TR 4940. Parks, Recreation and Tourism Internship. 12 Credits.**

Supervised professional experience with an approved organization. Course entails weekly reports, case studies, agency evaluations and a special project related to the student's curricular emphasis. Prerequisite: Parks, Recreation And Tourism [P\_R\_TR] 3189, [P\_R\_TR] majors only, instructor's consent.

**P\_R\_TR 4949. Western Canada Study Abroad. 3 Credits.**

This course provides students an educational opportunity to explore Western Canada. Students analyze natural resource management, customer and visitor relations, community relations, cultural entrepreneurship, and transportation networks with US and Canadian Management methods. Prerequisite: instructor's consent.

**P\_R\_TR 4950. Independent Research in Parks, Recreation and Tourism. 1-3 Credit.**

Independent research project in parks, recreation and tourism.  
Prerequisite: instructor's consent. Graded on A/F basis only.

**P\_R\_TR 7208. Administration of Leisure Services. 3 Credits.**

Theoretical foundations of the organization and administration of leisure services in both community and institutional settings. Emphasis on the roles of the administrator.

**P\_R\_TR 7312. Planning Recreation and Leisure Environments. 3 Credits.**

Practical application of basic planning principles and design. Layout and design of various leisure-oriented areas and facilities. Site planning and analysis.

**P\_R\_TR 7328. Leisure and Aging. 3 Credits.**

Basic understanding of problems/needs of later maturity in relation to recreation. Characteristics/capabilities of aged, program settings, financial support, planning guidelines emphasized. Objectives: provide fundamentals for recreation planning with aged individuals/groups. Offered periodically. Prerequisite: graduate standing.

**P\_R\_TR 7331. Administration of Outdoor Recreation - Education Programs. 3 Credits.**

Philosophies, essential principles, methods, techniques, resources, administrative and program practices for outdoor recreation and education. Offered periodically.

**P\_R\_TR 7333. Park Management. 3 Credits.**

Basic principles, practices and problems involved in managing public park systems. Consideration given to local, district, county, state, federal and foreign park systems.

**P\_R\_TR 7340. Advanced Recreation Land Management. 3 Credits.**

Advanced study of problems facing forest recreation managers. Topics include rivers recreation, wilderness management and citizen participation in decision making. Offered periodically.

**P\_R\_TR 7355. Private and Commercial Recreation Principles and Practice. 3 Credits.**

Considers principles, practices, influences in public/ private leisure services; influence of tourism/travel on public/private recreation services.

**P\_R\_TR 7356. Tourism Management. 3 Credits.**

Introduction to the scope and scale of the tourism industry. Focus on the industry components, concepts, structures, relationships, and issues with regard to accommodation, transportation, travel, regional development, political system, and the economic, social and environmental effects of tourism.

**P\_R\_TR 7357. Tourism Planning and Development. 3 Credits.**

Nature and scope of tourism planning at the local, regional, and national levels; economic social, environmental, and policy considerations. Comparative study of initiating, planning and implementing tourism and the organization of community resources for developing and controlling a tourism industry. Prerequisite: Parks, Recreation and Tourism [P\_R\_TR] 7356.

**P\_R\_TR 7960. Guided Reading in Parks, Recreation and Tourism. 1-3 Credit.**

Selected reading in parks, recreation and tourism identified to fulfill a graduate student's academic needs or specialized interests.  
Prerequisites: instructor's consent.

**P\_R\_TR 8085. Problems in Parks, Recreation and Tourism. 1-6 Credit.**

Independent research on special projects. Prerequisites: instructor's consent.

**P\_R\_TR 8087. Masters Level Graduate Seminar in Parks, Recreation and Tourism. 2 Credits.**

In this course, students and faculty will discuss and critically analyze contemporary issues on social concerns relating to leisure services. Graded on S/U basis only.

**P\_R\_TR 8089. Research Project. 1-99 Credit.**

Individual research on approved project. Involves creativity and scholarly inquiry where product does not adhere to the traditional thesis format. Prerequisite: Parks, Recreation and Tourism [P\_R\_TR] graduate major. Graded on S/U basis only.

**P\_R\_TR 8090. Thesis Research in Parks, Recreation and Tourism. 1-6 Credit.**

Research leading to thesis in field of parks, recreation and tourism. Prerequisite: Parks, Recreation and Tourism [P\_R\_TR] graduate major. Graded on S/U basis only.

**P\_R\_TR 8400. Constructs of Leisure. 3 Credits.**

Review analysis and implications of fundamental psycho-social determinants of leisure behavior. Application theories of determinants to existing and proposed leisure service systems.

**P\_R\_TR 8401. Topics in Recreation and Park Administration. 1-3 Credit.**

Specialized topics in recreation and park administration dynamics. Subjects and credits vary by semester based on available faculty resources and expertise. Course content announced in advance. Prerequisite: instructor's consent.

**P\_R\_TR 8411. Independent Work in Parks, Recreation and Tourism. 1-3 Credit.**

Independent research or special projects in parks, recreation and tourism. Prerequisites: instructor's consent.

**P\_R\_TR 8420. Leisure, Technology and Human Values. 3 Credits.**

Study of the developmental patterns of leisure services in society with emphasis to the dynamics of technology and leisure on individual and social values.

**P\_R\_TR 8427. Contemporary Issues in Therapeutic Recreation. 3 Credits.**

The course will include new issues and ideas in the field of therapeutic recreation, such as registration, insurance, liability, licensure, assessment, etc., and how they relate to practitioners and services to clients.

**P\_R\_TR 8430. Research Methods in Parks, Recreation and Tourism. 3 Credits.**

Analysis of basic research methodology. Review and analysis of research work completed in recreation, park and leisure field.

**P\_R\_TR 8436. Visitor Behavior and Policy. 3 Credits.**

Course presents issues, concerns and policies dealing with multi-management/planning/operations of outdoor resource based recreation. Such issues as energy, economics, social/ political, pollution and user characteristics will be studied.

**P\_R\_TR 8440. Philosophical Perspectives of Leisure. 3 Credits.**

Study of the theoretical and philosophical perspective of leisure in society with emphasis on integration and development of the student's personal and professional viewpoint.

**P\_R\_TR 8450. Administration in Leisure Service Delivery. 3 Credits.**

Review, analysis and synthesis of administrative functions as related to public and private recreation and leisure service enterprises.

**P\_R\_TR 8460. Financial Operations in Leisure Service Delivery. 3 Credits.**

Review and critical analysis of financial functions, strategies and methodology as related to public and private recreation and leisure service enterprises.

**P\_R\_TR 8940. Internship in Parks, Recreation and Tourism. 1-6 Credit.**

Supervised student practice in recreation, park or related settings under qualified instructor. Prerequisites: Parks, Recreation and Tourism [P R TR] graduate major.

## **Pathology & Anatomical Science (PTH\_AS)**

---

**PTH\_AS 2000. Basic Pathology. 2 Credits.**

Provides nonmedical students with a general understanding of the essential nature of disease, including mechanisms of its development and cause/effect relationships. Prerequisites: 5 hours Biological Science or equivalent and 5 hours Chemistry or Pathology and Anatomical Science [PTH\_AS] 2201.

**PTH\_AS 2201. Human Anatomy Lecture. 3 Credits.**

Basic microscopic and gross human anatomy for Nursing, and Health Profession students. Prerequisite: Minimum cumulative MU GPA of 2.5 required.

**PTH\_AS 2203. Human Anatomy Laboratory. 2 Credits.**

Laboratory. Study of human microscopic and gross anatomical materials. Minimum cumulative MU GPA of 2.5 and concurrent registration or passing grade (C) in Pathology and Anatomical Science [PTH\_AS] 2201 required.

**PTH\_AS 2600. Cytology Female Genital Tract. 10 Credits.**

A definitive study of normal and abnormal cellular changes occurring within the organ system by means of light microscopy with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2610. Respiratory Cytology. 4 Credits.**

A definitive study of the normal and abnormal cellular changes occurring within the system by means of light microscopy, with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2615. Cytology of Body Fluids. 4 Credits.**

Normal and abnormal cellular changes within pleural, peritoneal, pericardial and cerebrospinal fluids by means of light microscopy, with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2620. Gastrointestinal Cytology. 4 Credits.**

A definitive study of the normal and abnormal cellular changes occurring within the system by means of light microscopy, with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2625. Oral Cytology. 2 Credits.**

Studies normal and abnormal cellular changes within the oral cavity and oropharynx by means of light microscopy, with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2630. Urinary Cytology. 4 Credits.**

Studies normal and abnormal cellular morphology from kidney, ureter and bladder samples, with histologic correlation. Prerequisite: instructor's consent.

**PTH\_AS 2685. Special Problems in Cytology. 2 Credits.**

Relating hematologic morphologic findings in conventional body fluid cytology; also review of techniques used in chromosome cultures and karyotyping, with emphasis on sex-related abnormalities.

**PTH\_AS 3400. Fundamentals of Medical Technology I. 3 Credits.**

Emphasizes diseases and basic laboratory methods used in clinical laboratory areas: microbiology, hematology, immunology, virology, tissue typing, blood banking and chemistry.

**PTH\_AS 3410. Fundamentals of Medical Technology II. 3 Credits.**

Continuation of Pathology and Anatomical Sciences [PTH\_AS] 3400.

**PTH\_AS 3415. Fundamentals of Medical Technology III. 3 Credits.**

Continuation of Pathology and Anatomical Sciences [PTH\_AS] 3400 and 3410.

**PTH\_AS 3420. Clinical Practicum. 3 Credits.**

Presentation and application of concepts and laboratory method used in areas of immunochemistry, toxicology, mycology, uranalysis and cytogenetics.

**PTH\_AS 3425. Hemostasis. 2 Credits.**

Lectures and laboratory exercises in basic theory and techniques of hemostasis including platelet function and disorders, plasma coagulation system, acquired and inherited themostatic disorders. Prerequisites: Pathology & Anatomical Science [PTH\_AS] 3400, 3410, 3415.

**PTH\_AS 3430. Clinical Immunology. 3 Credits.**

Antigen-antibody reactions and their role in determining infectious, auto-allergic and inflammatory disease states.

**PTH\_AS 3435. Blood Banking. 3 Credits.**

Principles and techniques of transfusion practices related through lectures and experience in the blood bank laboratory.

**PTH\_AS 3440. Clinical Hematology. 6 Credits.**

Lectures and laboratory regarding procedures for diagnosing hematologic disorders. Experience in collection of specimens from patients; staining, counting and identifying blood and bone marrow cells.

**PTH\_AS 3445. Clinical Microbiology. 6 Credits.**

Diagnostic procedures related to the isolation and identification to infectious microorganisms; bacteria and parasites. Emphasis on human pathogens and their sensitivity patterns with commonly used antibiotics.

**PTH\_AS 3450. Clinical Chemistry. 6 Credits.**

Principles of quantitative analysis applied to the measurement of substances in biological fluids. Significance of these findings in the diagnosis and treatment of disease.

**PTH\_AS 3455. Principles of Management and Education. 1 Credit.**

Lectures and discussion of management techniques and theories used in supervising laboratory personnel. Analysis of educational objectives and exam questions.

**PTH\_AS 3460. Research and Instructional Techniques. 3 Credits.**

Involves library and laboratory research. Includes development of oral and written communications skills.

**PTH\_AS 3485. Problems in Medical Technology. 1-3 Credit.**

Individual supervised work in a area of interest in medical technology. Prerequisite: instructor's consent.

**PTH\_AS 3500. Cytology of the Female Genital Tract. 8 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring within the female genital tract along with histologic correlation. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3510. Cytology of Respiratory Tract. 4 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring with the respiratory tract along with immunohistologic correlation. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3515. Cytology of Urinary Tract. 4 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring within the urinary tract along with histologic correlation. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3520. Cytology of Gastrointestinal Tract. 5 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring within the gastrointestinal tract along with histologic correlation. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3525. Cytology of Body Fluids. 4 Credits.**

A definitive study of light microscopy of normal and abnormal cellular changes occurring within body fluid along with histologic correlation. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3530. Cytology of Breast. 2 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring within the breast with histologic correlation. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3535. Fine Needle Aspiration Cytology. 2 Credits.**

A definitive study by means of light microscopy of normal and abnormal cellular changes occurring within the fine needle aspirations from various body sites along with histologic correlation. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3540. Special Procedures in Cytology. 2 Credits.**

Study of hematologic findings in body fluid cytology: chromosome cultures and karyotyping. Emphasizing sex-related abnormalities; hormonal evaluation of smears from the female genital tract and their clinical significance. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3545. Clinical Management. 1 Credit.**

Procedures and processes helpful in operating in cytology laboratory, especially at the supervisory level. Prerequisites: senior standing and instructor's consent.

**PTH\_AS 3550. Technical Application with Research in Cytotechnology. 2 Credits.**

Research is an area of interest in cytology resulting in a written and oral presentation. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3555. Cytologic Preparation. 2 Credits.**

Independent applications of techniques used to prepare cytologic material. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3560. Practical Cytotechnology. 6 Credits.**

Independent application of techniques used to examine cytology material an manage a cytology laboratory. Prerequisite: senior standing and instructor's consent.

**PTH\_AS 3585. Problems in Cytotechnology. 1-3 Credit.**

Individual supervised work in an area of interest in cytology. Prerequisite: instructor's consent.

**PTH\_AS 3600. Elementary Histology. 3 Credits.**

Simplified gross and microscopic anatomy of normal organs and tissues commonly found in the routine histopathology laboratory.

**PTH\_AS 3610. Basic Histotechnology. 6 Credits.**

Theories and technical application of procedures used in the preparation of tissue sections and slides of microscopic examination; including instrumentation, fixation, dehydration, clearing infiltration, embedding, microtomy, H&E staining and coverslipping.

**PTH\_AS 3615. Special Staining Techniques. 6 Credits.**

Principles and procedures for special staining techniques for carbohydrates, connective tissues, blood, fat and lipids, pigments and minerals, bacteria and fungi, nerve, and other special cell stains.

**PTH\_AS 3620. Applied Histotechnology. 9 Credits.**

Application of basic histological techniques in the preparation of histologic sections and slides in a clinical setting.

**PTH\_AS 3625. Research and Instructional Techniques. 3 Credits.**

Involves library and laboratory search. Includes development of oral and written communications skills. Prerequisite: senior students admitted to Histotechnology Curriculum.

**PTH\_AS 3630. Clinical Management. 2 Credits.**

Supervisory techniques and procedures helpful in operating a histopathology laboratory: including laboratory safety, workload recording, and personnel management in a laboratory situation.

**PTH\_AS 3635. Basic Disease Processes. 2 Credits.**

Special readings and discussions of basic disease processes of interest to the anatomic pathology laboratory.

**PTH\_AS 3680. Advances Histotechnology. 6 Credits.**

Advanced and specialized techniques used in the preparation and processing of muscle, nerve and rectal biopsies; special techniques in cytology; electron microscopy; enzyme and immunohistochemistry; plastic embedding and neuropathologic techniques.

**PTH\_AS 3685. Problems in Histotechnology. 1-3 Credit.**

Individual supervised work in a specialized area of histotechnology. Prerequisite: instructor's consent.

**PTH\_AS 4200. General Pathology. 5 Credits.**

Basic pathological mechanisms of human disease. Introductory principles of clinical laboratory measurements of altered organ system function studied. Prerequisites: Pathology and Anatomical Sciences [PTH\_AS] 7200, 7220, 7310; and instructor's consent.

**PTH\_AS 4205. General Pathology Laboratory. 3 Credits.**

Gross and microscopic applied study of basic pathological disease mechanisms. Laboratory assessment of these basic disease mechanisms. Prerequisites: Pathology and Anatomical Sciences [PTH\_AS] 7200, 7220, 7310; or the equivalents; and instructor's consent.

**PTH\_AS 4210. Seminar in Pathology and Anatomical Sciences. 1 Credit.**

Presentation and discussion of original investigations and current literature.

**PTH\_AS 4220. Forensic Pathology and Death Investigation. 2 Credits.**

Forensic Pathology and Death Investigation.

**PTH\_AS 4222. Gross Human Anatomy (The Health Professions). 7 Credits.**

Gross structure and neuroanatomy of the human body; dissection of extremities, back, head, neck abdomen and thorax. Prerequisites: instructor's consent.

**PTH\_AS 4250. Interpretations of Lab Procedures in Primary Health Care. 1 Credit.**

Discussion and analysis of selected laboratory test procedures used in office and clinic settings involved with primary health care. Prerequisites: graduate level Physiology course and departmental consent.

**PTH\_AS 6331. ABS Advanced Medical Neurosciences. 5-10 Credit.**

ABS Advanced Medical Neurosciences.

**PTH\_AS 6333. ABS Pathology/Anatomical Science Research. 5 Credits.**

ABS Pathology/Anatomical Science Research.

**PTH\_AS 6335. ABS Pathology/Anatomical Science Research and Review. 5 Credits.**

ABS Pathology/Anatomical Science Research and Review.

**PTH\_AS 6341. ABS Science Anatomical Science Teaching. 5 Credits.**

ABS Science Anatomical Science Teaching.

**PTH\_AS 6343. ABS Surgical Anatomy. 5 Credits.**

ABS Surgical Anatomy.

**PTH\_AS 6345. ABS Surgical Anatomy of the Head and Neck. 5 Credits.**

ABS Surgical Anatomy of the Head and Neck.

**PTH\_AS 6347. ABS Surgical Anatomy of the Back and Limbs. 5 Credits.**

ABS Surgical Anatomy of the Back and Limbs.

**PTH\_AS 6349. ABS Surgical Anatomy of the Pelvis and Perinium. 5-10 Credit.**

ABS Surgical Anatomy of the Pelvis and Perinium.

**PTH\_AS 6600. Anatomic Pathology. 5 Credits.**

Anatomic Pathology.

**PTH\_AS 6602. Clinical Pathology. 5 Credits.**

Clinical Pathology.

**PTH\_AS 6604. Forensic Pathology. 5 Credits.**

Forensic Pathology.

**PTH\_AS 6606. Anatomic/Clinical Pathology. 5 Credits.**

Anatomic/Clinical Pathology.

**PTH\_AS 6608. Anatomy Elective. 5 Credits.**

Anatomy Elective.

**PTH\_AS 7020. Forensic Pathology and Death Investigation. 2 Credits.**

Summary of Forensic Death Investigation from beginning to end. Will include some of the current laboratory techniques seen on "CSI" Team taught by experts in the fields including medical examiners, death investigators, forensic anthropologists, police CSI teams, lawyers and others. Prerequisite: Basic Biology. Graduate standing required.

**PTH\_AS 7220. Human Histology and Organology. 4 Credits.**

Detailed study of cytology, histology and microscopic anatomy. Prerequisites: 10 hours of Biological Sciences and instructor's consent.

**PTH\_AS 7222. Gross Human Anatomy (The Health Professions). 7 Credits.**

Gross/human structure through dissection. Prerequisites: Acceptance into Physical Therapy Programs or consent of instructor. Graded on A/F basis only.

**PTH\_AS 7230. Mammalian Reproduction. 3 Credits.**

Reproduction in mammals, with emphasis on the neuroendocrine control of the hormones involved in reproductive process: biosyntheses, biologic actions, role. Prerequisites: graduate standing in one of Animal, Biologic, Medical, or Veterinary Sciences, instructor's consent.

**PTH\_AS 7300. Advanced Pathology. 5 Credits.**

Demonstration and simulation study of gross, microscopic and clinical laboratory pathology of major human organ systems. Prerequisites: Pathology and Anatomical Science [PTH\_AS] 4200 and 4205 or equivalent and instructor's consent.

**PTH\_AS 7320. Autonomic Nervous System. 2 Credits.**

A comprehensive consideration of the autonomic nervous system in man, with emphasis on morphology. Prerequisites: Pathology and Anatomical Science [PTH\_AS] 2201, Comparative Anatomy or equivalent, and instructor's consent.

**PTH\_AS 7330. Hematopoietic Organs. 2 Credits.**

Morphological and functional relationships of the blood-forming organs. Prerequisites: Basic Histology and instructor's consent.

**PTH\_AS 7350. Advanced Pathology Laboratory. 3 Credits.**

Demonstration and simulation and character of work depend upon needs, qualifications, and of major human organ systems. Prerequisites: Pathology and Anatomical Science [PTH\_AS] 4200 and 4205 or equivalent and instructor's consent.

**PTH\_AS 7400. Seminars in Translational Medicine. 0-5 Credit.**

Students participate in regular seminars and discussion groups with other students interested in clinical and translational sciences. Students, working together with faculty in biomedical sciences and those working in clinical and translational fields, identify seminar topics. Learning objectives and written assignments are arranged on an individual basis. The course is open to all graduate level students and students enrolled in professional schools, for 0-5 credit hours, with instructor's approval. Graduate standing required. Graded on S/U basis only.

**PTH\_AS 8000. Comparative Pathology. 3 Credits.**

(same as Veterinary Pathobiology [V\_P BIO] 8430). Biochemical and morphologic lesions related to the mechanism of disease expression in plants and animals.

**PTH\_AS 8010. Current Issues in Anatomical Sciences. 1 Credit.**

Survey of the recent literature in integrative anatomy, including functional, evolutionary, developmental and translational anatomy, conducted through readings and discussion. Grade determined by participation and presentation of weekly readings. Prerequisites: graduate standing;

instructor's consent. May be repeated for a maximum of 10 hours.  
Graded on S/U basis only.

**PTH\_AS 8090. Advanced Pathology. 1-99 Credit.**

Open only to properly qualified graduate students, with counsel of faculty. Focus of MS-related research in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences. Graded on S/U basis only.

**PTH\_AS 8100. Fundamentals of Evolutionary Biology. 3 Credits.**

Principles of modern evolutionary biology. Topics include: phylogeny, paleobiology, developmental processes, genetic and phenotypic variation, form and function, speculation, macroevolution, and molecular mechanisms. Prerequisite: graduate standing; instructor's consent.

**PTH\_AS 8200. Human Developmental and Gross Anatomy. 10 Credits.**

General principles of systemic and developmental anatomy. Gross anatomy and dissection of back, upper and lower extremities, head and neck, thorax, abdomen and pelvis. Prerequisites: graduate standing and instructor's consent.

**PTH\_AS 8285. Problems in Pathology and Anatomical Sciences. 1-99 Credit.**

Regions or systems which may include developmental, microscopic, and gross anatomy. Prerequisite: instructor's consent.

**PTH\_AS 8290. Research in Pathology and Anatomical Sciences. 1-99 Credit.**

Open only with instructor's consent. Research unrelated to thesis work in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences.

**PTH\_AS 8310. Anatomy of the Human Nervous System. 3 Credits.**

A comprehensive consideration of the morphology of the nervous system, emphasizing correlation of structure and function. Prerequisites: Pathology and Anatomical Science [PTH\_AS] 2201, Comparative Anatomy or equivalent, and instructor's consent.

**PTH\_AS 8500. Seminar in Translational Neuroscience. 1-5 Credit.**

Students participate in seminars and discussion groups. Masters students identify seminar topics and present existing data with findings. PhD students identify seminar topics, conduct research and present findings. Learning objective and written assignments are arranged individually. May be repeated for credit. Graded on S/U basis only.

**PTH\_AS 9090. Research in Pathology and Anatomical Sciences. 1-99 Credit.**

Open only to properly qualified graduate students, with counsel of faculty. Focus of PhD-related research in evolutionary morphology, genomics, neuroscience or pathobiology. Graded on S/U basis only.

**PTH\_AS 9290. Research in Pathology and Anatomical Sciences. 1-99 Credit.**

Open only with instructor's consent. Courses with specialized lectures in various topics such as evolutionary morphology, genomics, neuroscience and pathobiology, depending on faculty expertise and student demand. Graded on S/U basis only.

## Peace Studies (PEA\_ST)

---

**PEA\_ST 1001. Topics in Peace Studies. 3 Credits.**

Underclass topics. Subjects may vary from semester to semester. May be repeated to 6 hours maximum. Graded on A/F basis only.

**PEA\_ST 1003. Topics in Peace Studies - Behavioral Science. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**PEA\_ST 1004. Topics in Peace Studies. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**PEA\_ST 1005. Topics in Peace Studies - Humanities. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A/F basis only.

**PEA\_ST 1050. Introduction to Peace Studies. 3 Credits.**

Interdisciplinary overview including theories on the nature of aggression and war, case studies of contemporary conflicts, consideration of various peace proposals, conditions making war or peace likely. Prerequisites: English [ENGLSH] 1000, sophomore standing.

**PEA\_ST 1120. Population and Ecology. 3 Credits.**

(Same as Rural Sociology [RU\_SOC] and Sociology [SOCIOL] 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.

**PEA\_ST 1150. The Amish Community. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter cultural pressures, stresses and social change. Prerequisites: Rural Sociology [RU\_SOC] 1000, Sociology [SOCIOL] 1000, or Anthropology [ANTHRO] 1000.

**PEA\_ST 1195. Service Learning in Peace Studies. 1 Credit.**

Students will perform significant and long term community service while exploring issues central to peace studies.

**PEA\_ST 1610. Russia in Modern Times. 3 Credits.**

(same as History [HIST] 1610). Survey of Russian History from 1801 to present.

**PEA\_ST 2000. Exploration in Social and Economic Justice. 3 Credits.**

(Same as Social Work [SOC\_WK] 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. Graded on A-F basis only. May be repeated for credit.

**PEA\_ST 2003. Topics in Peace Studies: Behavioral Science. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: Sophomore standing or instructors consent. Graded on A/F basis only.

**PEA\_ST 2004. Topics in Peace Studies - Social Sciences. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: sophomore standing or instructor's consent.

**PEA\_ST 2005. Topics in Peace Studies - Humanities. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: sophomore standing or instructor's consent. Graded on A/F basis only.

**PEA\_ST 2100. The Vietnam and Iraq Wars: Lessons for the Future. 3 Credits.**

An interdisciplinary analysis of the Vietnam War and the American-led war with Iraq. Course focuses on the reasons that American lost in Vietnam, the reasons it won in Iraq, and the lessons these conflicts provided for America's future. Graded on A/F basis only. Prerequisite: sophomore standing.

**PEA\_ST 2180. Undergraduate Seminar I in Peace Studies. 3 Credits.**

Conflict Resolution in Theory and Practice. Conflicts are studied in the light of the social and behavioral sciences. Prerequisites: Peace Studies [PEA\_ST] 1050 or instructor's consent.

**PEA\_ST 2181. Undergraduate Seminar II in Peace Studies. 3 Credits.**

Contemporary International Conflict: A readings and research seminar in which students will address such problems as global conflicts, the Arms Race and disarmament, global development. Prerequisites: Peace Studies [PEA\_ST] 1050 or instructor's consent.

**PEA\_ST 2182. Critical Dialogues: Nonviolence in Peace/Democracy Movements. 3 Credits.**

(same as Sociology [SOCIOLOGY] 2182). History and theory of movements for peace, justice, and democracy. Development of violent and nonviolent tactics and factions in movements; relationship to state authority. Cases such as Gandhi's Independence, American Civil Rights, Arab Spring, and Occupy movements. Prerequisites: Peace Studies [PEA\_ST] 1050 or instructor's consent.

**PEA\_ST 2183. Undergraduate Seminar IV in Peace Studies. 3 Credits.**

Images of War and Peace. Study of war and peace in philosophical and religious systems, film, poetry, art, fiction, and the media. Prerequisites: Peace Studies [PEA\_ST] 1050 or instructor's consent.

**PEA\_ST 2200. Nuclear Weapons: Environmental, Health and Social Effects. 3 Credits.**

(same as HLTH\_SCI 2200 and SOCIOLOGY 2281). Environmental consequences of the nuclear arms race, "regional" nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

**PEA\_ST 2201. Topics in Peace Studies-General. 2-3 Credit.**

Organized study of selected topics in Peace Studies. Subjects and credit hours may vary from semester to semester. Prerequisite: sophomore standing.

**PEA\_ST 2220. America in the 1960's. 3 Credits.**

(same as History [HIST] 2220). Examines the political and cultural main currents of the 1960s. Emphasizes the challenges mounted by protest groups and the responses of America's political leadership to the ferment of the period. Prerequisite: sophomore standing.

**PEA\_ST 2280. Race, Democracy, and Violence in Cuba and Haiti. 3 Credits.**

(same as SOCIOLOGY 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics,

and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.

**PEA\_ST 2284. Critical Dialogs: Global Environmental Policy Conflicts. 3 Credits.**

(same as Sociology [SOCIOLOGY] 2284). Climate change, water supplies, food, sustainability, industrialization, and chemical, oil, radioactive pollution. Activity of transnational corporations, social harm, and formulation of international policies. Analysis of alternatives using criteria of justice: distribution, recognition, participation, legality.

**PEA\_ST 2285. Large Corporations, Economic Crisis, Social Responsibility. 3 Credits.**

(same as SOCIOLOGY 2285). Institutional power of the corporate CEO; ethical regulatory restraint. Historical contexts of economic crisis. Theories of justice, alternative concepts of justice in popular culture. Politics of policy issues in prosecution and criminalization of corporate behavior. Graded on A-F basis only.

**PEA\_ST 2320. Spanish Literature in Translation. 3 Credits.**

(same as Spanish [SPAN] 2320). May not be included in area of concentration in Spanish. Subject, such as the literature of the Spanish Civil War, varies with instructor. Prerequisite: sophomore standing.

**PEA\_ST 2410. Philosophies of War and Peace. 3 Credits.**

(same as Philosophy [PHIL] 2410). Moral issues about the recourse to war by the nation and the individual's obligations to participate. The nature of peace, social and personal. Special attention to the Vietnam War and the nuclear age.

**PEA\_ST 2490. Introduction to Native Studies. 3 Credits.**

(Same as ENGLISH 2490) Introduction to the field of Native Studies. Topics include indigenous knowledge, culture change and continuity, history and misrepresentation, politics and political history, and global indigenous relationships. Graded on A-F basis only.

**PEA\_ST 2710. Politics and the Military. 3 Credits.**

(same as Political Science [POL\_SCI] 2710). Comparative study of post-cold war civil-military relations; military as an interest group, change agent, policy instrument and competitor of civilian politicians.

**PEA\_ST 3003. Topics in Peace Studies - Behavioral Science. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: sophomore standing or instructor's consent.

**PEA\_ST 3005. Topics in Peace Studies - Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: sophomore standing. Graded on A/F basis only.

**PEA\_ST 3005H. Topics in Peace Studies - Humanities - Honors. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A/F basis only. Prerequisite: sophomore standing. Honors eligibility required.

**PEA\_ST 3130. Foreigners and Dangerous Women in Greek and Latin Literature. 3 Credits.**

(same as Classical Humanities [CL\_HUM] 3000). The study of how Greek and Roman writers depicted and reacted to other races and cultures,

compared them with their own, and thereby revealed both their own values and prejudices.

**PEA\_ST 3140. Art of War and Peace. 2-3 Credit.**

Exploration of selected visual art pieces and consideration of humanistic concerns during times of war and peace from various perspectives including a peace studies perspective. Viewing and discussing art within varied selected historical and cultural contexts that generated the imagery. Includes visits to studios and galleries. May be repeated for credit.

**PEA\_ST 3230H. Terrorism and Conflict Resolution - Honors. 3 Credits.**

Religious, ethnic, ideological movements; state and international reactions. Case studies from South America, Europe, Africa, Asia. Identifying problems, possible resolution. Dramatized thru discussions, documentaries, role-playing; short term paper, exams.

**PEA\_ST 3280. Internship in Peace Studies. 1-3 Credit.**

Students work in a peace-related agency or institution for 1 to 3 credit hours. Repeatable for maximum of 6 hours. Prerequisite: departmental consent. S/U graded only.

**PEA\_ST 3350. Readings in Peace Studies. 1-3 Credit.**

Students may receive 1 to 3 credit hours for doing readings and research in a particular area of peace studies. At least one paper will be required. Repeatable for a maximum of 6 hours. Prerequisite: instructor's consent.

**PEA\_ST 3400. Politics of the Media. 3 Credits.**

(same as Sociology [SOCIO] 3400). We look at the history and viability of the public sphere in the United States and the integral role of the media to its vitality. We analyze the impact of current trends toward media concentration and debate related issues of bias, censorship, and social control.

**PEA\_ST 3401. Global Health. 3 Credits.**

(Same as Health Sciences [HLTH\_SCI] 3400). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded A-F basis only.

**PEA\_ST 3420. America's Environmental Experience. 3 Credits.**

(same as History [HIST] 3420). Team-taught analysis of American thought and action on physical environment during 19th-20th centuries. Relation between politics, economics, technological change, environmental quality; roles of science, law, regulatory agencies, grassroots action.

**PEA\_ST 3440. After the Fact: Holocaust in Contemporary History, Art & Literature. 3 Credits.**

(same as German [GERMAN] 3440). Explores responses to the Holocaust from numerous perspectives. Considers how the Holocaust is remembered, memorialized, and debated in a variety of national contexts. Touches on historical, philosophical, and aesthetic points of view. Prerequisites: sophomore standing or instructor's consent.

**PEA\_ST 3490. Native Writing and Representation. 3 Credits.**

(same as ENGLSH 3490). Survey of native writing and representation from the late eighteenth century to the present, encompassing a diverse range of tribes and forms. Material will be drawn from tribes inhabiting the North American continent, but global indigenous relationships will also be addressed. Graded on A-F basis only.

**PEA\_ST 3510. Think Glogal: Fundamentals of Globalization and Digital Technologies. 3 Credits.**

(same as GERMAN 3510 and JOURN 3510). This interdepartmental course serves as the introductory seminar for students pursuing the certificate of digital global studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives.

**PEA\_ST 3520. Collective Behavior. 3 Credits.**

(Same as Sociology [SOCIO] 3520). Analysis of crowd behavior and related phenomena: rumors, disasters, fashions. Social responses to unclear, dangerous or unjust conditions. The dynamics of conflict, consensus and change.

**PEA\_ST 3521. Group Decision Making Processes. 3 Credits.**

(same as Communications [COMMUN] 3571). Procedures and techniques for interpersonal communication and decision making in small groups. Prerequisite: sophomore standing.

**PEA\_ST 3522. New Media, Conflict and Control. 3 Credits.**

(same as Sociology [SOCIO] 3522) This course will explore the increasing role of new media tools in conflict and surveillance. Examples from recent conflicts will illustrate how citizens and regimes use new media to communicate, report, mobilize, monitor, and/or control. Students will utilize new media as they research instances of democracy and control.

**PEA\_ST 3550. War and Democracy in Late 5th c. BCE Athens. 3 Credits.**

(same as Classical Humanities [CL\_HUM] 3550). War and Democracy in Late 5th c. B.C.E. Athens explores the discourse on war and peace in Athenian texts and art that survives from the last quarter of the 5th century B.C.E. This was a period of adamantine, unrelenting warfare: the Athenians were fighting the Spartans, Sparta's allies, unaligned cities and several of their own subject states. Prerequisite: any 2000 level CL\_HUM course.

**PEA\_ST 3600. Criminology. 3 Credits.**

(same as Sociology [SOCIO] 3600). Sociology of law; constitutional, psychological, sociological theories of criminal behavior; process of criminal justice; treatment of corrections; control of crime.

**PEA\_ST 3610. Ireland, 1100s to 1850. 3 Credits.**

(same as History [HIST] 3610). Ireland, from Conquest to Famine: Ireland's history as the first British Colony, from the conquests of the 1100s and 1500s-1600s to the Irish rebellion of 1798 and the Great Famine and mass emigration of 1845-50. Prerequisite: sophomore standing.

**PEA\_ST 3611. Ireland, 1850-1923. 3 Credits.**

(same as History [HIST] 3611). Ireland, from Famine to Partition: Irish history from the Great Famine of 1845-50 to the revolutions of 1916-23 that brought partial independence from Britain but partitioned Ireland into two hostile and trouble states.

**PEA\_ST 3612. Ireland, 1920-Present. 3 Credits.**

(same as History [HIST] 3612). Ireland, from Partition to the Present: After surveying the conflicts that led to Irish revolution and partition in 1916-23, the course focuses on the development of post partition Ireland and Northern Ireland, and on the violence that has scarred Northern Ireland since the 1960s. Prerequisites: History [HIST] 3610 and/or 3611 recommended.

**PEA\_ST 3780. World Political Geography. 3 Credits.**

(same as Geography [GEOG] 3780). Geographic factors in the development of political boundaries traditions, and societal perspectives. Spatial patterns and geopolitical processes are explored in selected regions of the world. Prerequisites: Geography [GEOG] 1100 or 1200 or sophomore standing.

**PEA\_ST 3810. Imperial China. 3 Credits.**

(same as History [HIST] 3810). A survey of China under the Manchu Ch'ing dynasty. Within framework of the dynastic cycle, examines imperial rule, Chinese society, culture, art, internal rebellion, Western intrusion and modernization.

**PEA\_ST 3840. Nonviolence in the Modern World. 3 Credits.**

(same as History [HIST] 3840 and South Asia Studies [S A ST] 3245). Readings on recent world history, emphasis on Gandhi and nonviolent tradition in America Europe and the Third World. Prerequisite: sophomore standing.

**PEA\_ST 3870. Social Revolution in Latin America. 3 Credits.**

(same as History [HIST] and Sociology [SOCIO] 3870). Twentieth century social revolutions in selected Latin American countries.

**PEA\_ST 4003. Topics in Peace Studies - Behavioral Sciences. 3 Credits.**

Upperclass Topics. Subject may vary from semester to semester. Prerequisite: junior standing required.

**PEA\_ST 4005. Topics in Peace Studies: Humanities. 2-6 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Prerequisite: sophomore standing or instructor's consent. Graded on A-F basis only.

**PEA\_ST 4080. American Foreign Policy from Colonial Times to 1898. 3 Credits.**

(same as History [HIST] 4080).

**PEA\_ST 4230. Women, Development and Globalization. 3 Credits.**

(same as Sociology [SOCIO] 4230 and Women's and Gender Studies [WGST] 4230 and Black Studies [BL\_STU] 4230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities. Prerequisites: BL\_STU 1332, 2200; SOCIO 2200, WGST 1332 or 2010.

**PEA\_ST 4240. Theory and Practice of Theatre of the Oppressed. 3 Credits.**

(same as Theatre [THEATR] 4240). Theory and practice of Augusto Boal's liberatory interactive theatre process, including application of techniques of specific social issues. Prerequisite: instructor's consent.

**PEA\_ST 4260. The Age of Ascendancy: U.S. Foreign Relations, 1945-Present. 3 Credits.**

(same as History [HIST] 4260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy. Prerequisite: sophomore standing.

**PEA\_ST 4330. Science and Technology of Terrorism and Counterterrorism. 3 Credits.**

(same as Nuclear Engineering [NU\_ENG] 4330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is

important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems. Prerequisite: instructor's consent.

**PEA\_ST 4331. Nonproliferation Issues for Weapons of Mass Destruction. 3 Credits.**

(same as Nuclear Engineering [NU\_ENG] 4331). Nonproliferation impact on technology and world events. Prerequisite: junior or senior standing required or instructor's consent.

**PEA\_ST 4341. Building Communities from the Grassroots. 3 Credits.**

(Same as Rural Sociology [RU\_SOC] 4341). Introduction and application of basic community development concepts, methods and practical skills for involving and empowering local citizens and leaders effectively in community-based efforts regardless of the issue. Instructor's consent required.

**PEA\_ST 4360. Economic Development. 3 Credits.**

(same as Economics [ECONOM] 4360). The study of less-developed countries including problems of measuring economic growth, analysis of sources of economic growth, causes of changes in economic and social structure, development and trade policies. The consequences of goals and assumptions for development policy are analyzed. Prerequisites: ECONOM 3229 and 3251 or 4351.

**PEA\_ST 4410. Politics and War. 3 Credits.**

(same as Political Science [POL\_SC] 4410). Why do wars occur? The function of force and uses of a threat of force. Problems of national security strategy and arms control. Prerequisite: junior standing required.

**PEA\_ST 4440. Ethical Issues in Communication. 3 Credits.**

(same as Communication [COMMUN] 4440). Exploration and analysis of ethical dimensions intrinsic to human communication. Prerequisite: junior standing or departmental consent.

**PEA\_ST 4480. War Crimes and Genocide. 3 Credits.**

(same as History [HIST] 4480). This course will explore the development of international law, international consciousness, and U.S. Foreign policy on the two distinct but often related issues of war crimes and genocide during the late 19th and throughout the 20th centuries.

**PEA\_ST 4510. Western Europe's Foreign Policy. 3 Credits.**

Comparison of foreign policies of the major Western European countries; their roles within the European community. Study of institutions and functioning of the European community and its potential as an emerging world power. Prerequisite: junior standing.

**PEA\_ST 4520. Political Sociology. 3 Credits.**

(same as Sociology [SOCIO] 4520). Social bases of power and politics, economic and political elites, the political economy of the advanced societies, sources of political conflict and change. MA core course. Prerequisite: Sociology [SOCIO] 3200, 3510, 3520, or 3700.

**PEA\_ST 4550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4550 and Sociology [SOCIO] 4550). This course focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of rights, Western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: WGST 1120 or SOCIO 2200; senior standing required.

**PEA\_ST 4600. Political and Social Philosophy. 3 Credits.**

(same as Philosophy [PHIL] 4600). Contemporary and/or historical theories of justice and the state. Utilitarianism, liberalism, libertarianism, Marxism, Communitarianism and feminism may be among the views covered. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PEA\_ST 4830. Journalism and Conflict. 3 Credits.**

(same as Journalism [JOURN] 4730). Introduction to the basic principles of conflict theory and negotiation, including the sources of conflict, why conflict escalates and what the conditions are for de-escalation, all with a special emphasis on the implications for the working journalist.

**PEA\_ST 4940. Leadership and Ethics. 3 Credits.**

(same as Naval Sciences [NAVY] 4940). The curriculum provides a foundation in leadership, ethical decision making, the Law of Armed Conflict and the military justice system. Course explores ethical theories and helps students to build an ethical framework for decision making. Topic areas include: Kant, Utilitarianism, Stoicism, Constitutional Paradigm, Uniform Code of Military Justice and Law of Armed Conflict. Designed as a capstone course for juniors and seniors enrolled in NROTC it is open to all MU students. Prerequisite: junior standing.

**PEA\_ST 4970. Senior Thesis I. 3 Credits.**

Senior essay on a Peace Studies topic requiring major research. Prerequisite: Peace Studies [PEA\_ST] 1050, senior standing, and instructor's consent.

**PEA\_ST 4980. Peace Studies Abroad - Social Sciences. 3-6 Credit.**

A study abroad experience organized by MU and led by MU faculty. Provides students with interdisciplinary study in foreign cultures, career development, and global experience with issues such as war, domestic conflict, sustainable development, human rights, and nonviolent movements for peace and justice. May be repeated for credit.

**PEA\_ST 7003. Topics in Peace Studies - Behavioral Sciences. 3 Credits.**

Upperclass Topics. Subject may vary from semester to semester. Prerequisite: graduate standing.

**PEA\_ST 7080. American Foreign Policy from Colonial Times to 1898. 3 Credits.**

(same as History [HIST] 7080). Prerequisite: graduate standing.

**PEA\_ST 7240. Theory and Practice of Theatre of the Oppressed. 3 Credits.**

(same as Theatre [THEATR] 7240). Theory and practice of Augusto Boal's liberatory interactive theatre process, including application of techniques of specific social issues. Prerequisite: instructor's consent.

**PEA\_ST 7260. The Age of Ascendancy: U.S. Foreign Relations, 1945-Present. 3 Credits.**

(same as History [HIST] 7260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy. Prerequisite: graduate standing.

**PEA\_ST 7520. Political Sociology. 3 Credits.**

(same as Sociology [SOCIO] 7520). Social bases of power and politics, economic and political elites, the political economy of the advanced societies, sources of political conflict and change. MA core course. Prerequisite: graduate standing and SOCIOL 3200, 3510, 3520, or 3700.

**PEA\_ST 7550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Sociology [SOCIO] / Women and Gender Studies [WGST] 7550). Focuses on the global discourse on human rights and gender,

emphasizing cross-cultural theories. Course includes the meaning of human rights, western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: graduate standing.

**PEA\_ST 7640. Ethical Issues in Communication. 3 Credits.**

(same as Communication [COMMUN] 7640). Exploration and analysis of ethical dimensions intrinsic to human communication. Prerequisite: graduate standing or departmental consent.

**PEA\_ST 7980. Peace Studies Abroad. 3-6 Credit.**

A study abroad experience organized by MU and led by MU faculty. Provides students with interdisciplinary study in foreign cultures, career development, and global experience with issues such as war, domestic conflict, sustainable development, human rights, and nonviolent movements for peace and justice. May be repeated for credit.

## Personal and Financial Planning (FINPLN)

---

**FINPLN 1183. Financial Survival. 1 Credit.**

Examines financial management issues needed to survive the critical college years-credit/credit cards, budgeting/planning, financial aid, loans, common financial mistakes, debt management, setting financial goals, effective use of financial resources. Graded on S/U basis only.

**FINPLN 2083. Financial Planning Careers. 1 Credit.**

This course will provide the student with a broad, general introduction to careers in financial planning. Through readings, introspection, discussions, and guest speakers, the student will develop an understanding of the field.

**FINPLN 2183. Personal and Family Finance. 3 Credits.**

Individual and family finance, with particular emphasis on financial planning, savings, insurance, investments, taxes, use of credit, and financial aspects of housing. Prerequisites: Mathematics [MATH] 1100/1120 with grade of C or above, and sophomore or above standing. Math Reasoning Proficiency Course.

**FINPLN 2185. Consumer as Entrepreneur. 3 Credits.**

The American economic system and marketplace from both a consumer and an entrepreneurial perspective.

**FINPLN 3282. Financial Counseling. 3 Credits.**

Practical course on client financial counseling. Includes development of sales techniques and training, focus on personality strengths and weaknesses, creation of the sales process, and the role of technology in counseling. Prerequisite: Personal Financial Planning [FINPLN] 2183 or instructor's consent.

**FINPLN 3283. Financial Planning: Computer Applications. 3 Credits.**

Development of expertise in analyzing family financial case situations via applications of the mathematics of finance, utilizing computer spreadsheets and family financial management software. Prerequisites: Personal Financial Planning [FINPLN] 2183.

**FINPLN 3285. Financial Planning: Real Estate. 3 Credits.**

Family housing and real estate investments as components of the family's quality of life and asset portfolio. Prerequisites: Personal Financial Planning [FINPLN] 3283; 5-6 hours of Economics [ECONOM]; Statistics [STAT] 1300 or 2500.

**FINPLN 3287. Consumer and Household Economics I. 3 Credits.**

Theory, concepts, principles underlying consumer decision-making, including rationality, uncertainty, optimal search, heuristics, interactive decisions; strategies for their application in the marketplace. Prerequisites: 5-6 hours of Economics [ECONOM].

**FINPLN 4000. Problems in Personal Financial Planning. 1-99 Credit.**

Supervised and independent work. Prerequisites: a 2000- or 3000-level course in field of problem, and senior standing, and instructor's consent.

**FINPLN 4183. Sales Management. 3 Credits.**

Prepares students to enter financial service occupations dependent upon sales and sales management. Attention given to skill development, evaluation of current and best practices. Prerequisites: junior standing; acceptance into professional program; Personal Financial Planning [FINPLN] 2183 Pre- or co-requisite FINPLN 3283 or instructor's consent.

**FINPLN 4187. Tax Planning. 3 Credits.**

Principles, current law and practice of income taxation and its impact on personal financial planning for individuals, couples and families in their roles as investors, employees, and business owners. Graded on A/F basis only. Prerequisites: Personal Financial Planning [FINPLN] 2183, 3283; Accountancy [ACCTCY] 2010 or equivalent or instructor's consent. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4188. Community Agencies and Volunteerism. 3 Credits.**

Service learning in a non-profit community social support agency. Examines economic role of non-profits and volunteerism. Students engage in service and evaluate experience in seminar. Pre/corequisites: Personal Financial Planning [FINPLN] 3282, 4187/7187 or instructor's consent. Graded on A/F basis only. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4189. Financial Planning: Applied Tax Law. 3 Credits.**

This course trains students to become volunteer tax preparers and provides the opportunity to use their skills in a lab setting to prepare personal tax returns for U.S. citizens and resident aliens living in central Missouri. The course also discusses tax law, especially as it applies to clients of the Volunteer Income Tax Assistance site. Prerequisites: Personal Financial Planning [FINPLN] 4187 or instructor's consent.

**FINPLN 4318. Topics in Personal Financial Planning. 1-99 Credit.**

Selected current topics in field of interest. Prerequisites: vary with topic.

**FINPLN 4355. Recent Trends in Personal and Financial Planning. 1-3 Credit.**

For upper-class students who wish additional knowledge and understanding in specific subject matter areas. Prerequisites: vary with the topic.

**FINPLN 4380. Assessing the American Dream. 3 Credits.**

A systems perspective examining ways choice and culture shape American levels and standards of living. The impact of trends in personal and family values, technology, the economy, mass media and social movements on household resource management. Prerequisite: English [ENGLSH] 1000 and junior standing or instructor's consent.

**FINPLN 4382. Financial Planning: Risk Management. 3 Credits.**

Analysis of family financial risks and conservation of family assets via risk management, with primary focus on personal lines of insurance. Prerequisites: Personal Financial Planning [FINPLN] 3283; 5-6 hours of Economics [ECONOM]; Statistics [STAT] 1300 or 2500. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4383. Financial Planning: Investment Management. 3 Credits.**

Introduction to investment for family financial planning. Prerequisite: Personal Financial Planning [FINPLN] 3283; 5-6 hours of Economics [ECONOM]; Statistics [STAT] 1300 or 2500; ECONOM 3229 or instructor's consent. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4386. Financial Planning: Employee Benefits and Retirement Planning. 3 Credits.**

Fundamentals of employee benefits and retirement planning. Consideration of options via government, employer, financial markets. Special circumstances of women, part-time, and contingent workers considered. Prerequisites: Personal Financial Planning [FINPLN] 4382, 4383, or instructor's consent. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4387. Consumer and Household Economics II. 3 Credits.**

Theory of economic behavior examining the household as both consumer and producer of goods and services, human capital investments, intertemporal decisionmaking, and use of computative studies to examine price and income effects. Prerequisite: Personal Financial Planning [FINPLN] 3287 or Economics [ECONOM] 3251; Statistics [STAT] 1300 or 2500.

**FINPLN 4388. Effective Consumer Decision-Making. 3 Credits.**

Theory, concepts, principles underlying consumer decision-making, including rationality, uncertainty, optimal search, heuristics, interactive decisions; strategies for their application in the marketplace. Prerequisites: 5-6 hours of Economics [ECONOM].

**FINPLN 4389. Financial Planning: Case Analysis. 3 Credits.**

The course emphasizes the use of analytical tools to develop effective financial plans for individuals and households. Prerequisites: Personal Financial Planning [FINPLN] 4187, 4382, 4383 or instructor's consent. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4393. Financial Planning: Estate and Gift Planning. 3 Credits.**

Fundamentals, practical problems and solutions in basic estate and gift planning, business succession planning, and taxation issues. Prerequisites: Personal Financial Planning [FINPLN] 4382 and 4383 or instructor's consent. Not available to Pre-Personal Financial Planning majors.

**FINPLN 4418. Topics in Personal Financial Planning. 1-99 Credit.**

Selected current topics in field of interest. Prerequisites: instructor's consent.

**FINPLN 4483. Financial Success. 1 Credit.**

Examines financial management issues needed to survive the critical post-college years - managing educational debt; after-school budgeting; auto, health, and other forms of insurance; retirement planning and other investment issues; setting financial goals; effective use of financial resources. Graded on S/U basis only.

**FINPLN 4992. Readings in Personal Financial Planning. 1-99 Credit.**

Prerequisite: 2-3 hours in subject.

**FINPLN 4993. Internship in Personal Financial Planning. 1-99 Credit.**

Prerequisites: junior standing and instructor's consent.

**FINPLN 7000. Problems in Personal Financial Planning. 1-99 Credit.**

Prerequisites: 4000-level course in field of problem and instructor's consent.

**FINPLN 7001. Topics in Household Economics and Finance. 1-99 Credit.**

Selected current topics in field of interest. Prerequisites: graduate standing.

**FINPLN 7083. Teaching Personal Finance Literacy. 3 Credits.**

(same as Learning Teaching and Curriculum Vocational [LTC\_V] 7083) Principles and practices of teaching personal finance with particular emphasis on income, money management, spending and credit, and savings and investing. Prerequisites: Graduate standing. Course graded on A/F basis only.

**FINPLN 7085. Problems in Household Economics and Finance. 1-99 Credit.**

Supervised independent work related to household economics and finance. Prerequisite: graduate standing and instructor's consent.

**FINPLN 7087. Seminar in Household Economics and Finance. 1-4 Credit.**

Reports and discussion of recent research and practice in household economics and finance. Prerequisite: graduate standing.

**FINPLN 7183. Fundamentals of Personal Financial Planning. 3 Credits.**

Issues and concepts related to the financial planning process, including determination of financial goals and expectations and analysis and evaluation of personal and family financial data with emphasis on savings, insurance, investments, taxes, credit and financial aspects of housing. Prerequisite: graduate standing.

**FINPLN 7187. Financial Planning: Tax Planning. 3 Credits.**

Principles, current law and practice of income taxation and its impact on personal financial planning for individuals, couples and families in their roles as investors, employees, and business owners. Graded on A/F basis only. Prerequisites: graduate standing required. Personal Financial Planning [FLNPLN] 2183, FINPLN 3283, Accountancy [ACCTCY] 2010 or equivalent or instructor's consent.

**FINPLN 7282. Advanced Financial Counseling. 3 Credits.**

Students will learn client-centered financial counseling. Includes development of interviewing techniques, focus on personality strengths and weaknesses, creation of the sales process, and the role of technology in counseling. Graded on A/F basis only.

**FINPLN 7355. Recent Trends in Personal Financial Planning. 1-3 Credit.**

For upper-class and graduate students who wish additional knowledge and understanding in specific subject matter areas. Prerequisites: vary with the topic; graduate standing.

**FINPLN 7380. Assessing the American Dream. 3 Credits.**

A systems perspective examining ways choice and culture shape American levels and standards of living. The impact of trends in personal and family values, technology the economy, mass media and social movements on household resource management. Prerequisite: graduate standing.

**FINPLN 7382. Financial Planning: Risk Management. 3 Credits.**

Analysis of family financial risks and conservation of family assets via risk management, with primary focus on personal lines of insurance. Prerequisites: graduate standing and Personal Financial Planning [FINPLN] 3283; 5-6 hours of Economics; Statistics [STAT] 1300 or 2500.

**FINPLN 7383. Financial Planning: Investment Management. 3 Credits.**

Management of family financial investments. Prerequisites: graduate standing and Personal Financial Planning [FINPLN] 3283; 5-6 hours of Economics; Statistics [STAT] 1300 or 2500.

**FINPLN 7386. Financial Planning: Employee Benefits and Retirement Planning. 3 Credits.**

Fundamentals of employee benefits and retirement planning. Consideration of options via government, employer, financial markets. Special circumstances of women, part-time, and contingent workers considered. Prerequisites: graduate standing and Personal Financial Planning [FINPLN] 4382, 4383, or instructor's consent.

**FINPLN 7387. Consumer and Household Economics II. 3 Credits.**

Theory of economic behavior examining the household as both consumer and producer of goods and services, human capital investments, intertemporal decision-making, and use of computative studies to examine price and income effects. Prerequisite: graduate standing and Personal Financial Planning [FINPLN] 3287 or Economics [ECONOM] 3251; Statistics [STAT] 1300 or 2500.

**FINPLN 7388. Effective Consumer Decision-Making. 3 Credits.**

Theory, concepts, principles underlying consumer decision-making, including rationality, uncertainty, optimal search, heuristics, interactive decisions; strategies for their application in the marketplace. Prerequisites: graduate standing and Personal Financial Planning [FINPLN] 2185; 5-6 hours of Economics.

**FINPLN 7389. Financial Planning: Case Analysis. 3 Credits.**

The course emphasizes the use of analytical tools to develop effective financial plans for individuals and households. Prerequisites: Personal Financial Planning [FINPLN] 2183, 4183, 4382, 4383. Graduate Standing Required.

**FINPLN 7393. Financial Planning: Estate and Gift Planning. 3 Credits.**

Fundamentals, practical problems and solutions in basic estate and gift planning, business succession planning, and taxation issues. Prerequisites: graduate standing and Personal Financial Planning [FINPLN] 4382 and 4382.

**FINPLN 7412. Research Methods in Personal Financial Planning. 3 Credits.**

Introduction to the scope, purpose and methods of research in consumer and family economics, with emphasis on economic survey methods. Prerequisites: graduate standing, and an introductory statistics course.

**FINPLN 7583. Personal Financial Issues of Older Adults. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 7583). Principles and practice of personal finance relevant to assessing and improving the financial security of older individuals. Topics covered include sources of income, management of cash flow, credit use and abuse, risk exposure, investment management, housing, and financial planning. Financial vulnerabilities of seniors will be explored. Prerequisites: Bachelor or Master's degree in human services, social work, mental health, nursing physical rehabilitation or psychology; Must be enrolled in Graduate Certificate in Geriatric Care Management program. May be repeated for credit. Graded on A/F basis only.

**FINPLN 7960. Readings in Household Economics and Finance. 1-99 Credit.**

Readings in recent research in household economics and finance. Prerequisites: graduate standing and instructor's consent.

**FINPLN 7993. Internship in Personal Financial Planning. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**FINPLN 8001. Topics in Personal Financial Planning. 1-99 Credit.**

Selected current topics in field of interest. Prerequisite: graduate standing.

**FINPLN 8085. Problems in Household Economics and Finance. 1-99 Credit.**

Supervised independent work related to household economics and finance. Prerequisite: graduate standing and instructor's consent.

**FINPLN 8087. Seminar in Household Economics and Finance. 1-99 Credit.**

Report and discussion of recent research and practice in household economics and finance. Prerequisite: graduate standing and instructor's consent.

**FINPLN 8090. Master's Thesis Research in Personal Financial Planning. 1-99 Credit.**

Independent research leading to thesis or dissertation. Graded on S/U basis only. Prerequisite: graduate standing and instructor's consent.

**FINPLN 8183. Military Personal Financial Readiness. 3 Credits.**

Financial planning process applied to military personnel and their families. Focus on service member status; financial readiness; recordkeeping; management of cash flow, risk, credit and debt, savings, investments, tax, savings; education planning, retirement and estate planning. Graded on A/F basis only. Graduate Standing required.

**FINPLN 8187. Professional Practices in Financial Planning. 3 Credits.**

Practice management techniques for Financial Planners. Graded A/F only.

**FINPLN 8380. Family Systems. 3 Credits.**

Exploration of the family as a system within the broader context of society.

**FINPLN 8385. Housing and Real Estate. 3 Credits.**

The study of real estate as a component to household wealth. Graded on A/F basis only.

**FINPLN 8386. International Employee Benefits and Retirement Planning. 3 Credits.**

This course develops the theory and application of international employee benefits and retirement planning. Universal theory will be applied to analyze existing programs in an international context. Prerequisites: Personal Financial Planning [FINPLN] 7183 and 7383. Course graded on A/F basis only.

**FINPLN 8389. Financial Planning Case Studies. 3 Credits.**

The analysis and development of appropriate presentations for effective financial plans. Graduate standing required.

**FINPLN 8393. International Estate and Gift Planning. 3 Credits.**

This course develops the theory and application of end of life planning in an international context. Core estate planning education will prepare students to sit for the CFP exam, while addressing issues prevalent in other countries. Prerequisites: Personal Financial Planning [FINPLN] 7183, 7383. Graded on A/F basis only.

**FINPLN 8450. Applied Research in Household Economics and Planning. 1-99 Credit.**

Independent research not leading to a thesis. Report required. For students completing Master's in Personal Financial Planning. Prerequisite: graduate standing, and instructor's consent.

**FINPLN 8483. Family Economics. 3 Credits.**

Multi-disciplinary study of research on families as economic units. Examines trends in family income, wealth, labor market participation, household production, distribution of household resources, use of public goods, and underground economy. Prerequisites: graduate standing.

**FINPLN 8485. Human Resource Development and Allocation. 3 Credits.**

Economic analysis of conditions, programs and policies related to development and use of human resources, with special reference to impact on families and households. Prerequisites: graduate standing; Personal Financial Planning [FINPLN] 4387 or instructor's consent.

**FINPLN 8486. Social Policy and the Family Economy. 3 Credits.**

Economic analysis of public programs that directly affect well-being of families: income maintenance, goods transfers, employment, housing, health, transportation, taxes, etc.; consideration of underlying philosophies, policy alternatives. Prerequisites: graduate standing; Personal Financial Planning [FINPLN] 7387 or instructor's consent.

**FINPLN 8500. Personal Financial Planning Capstone. 1-99 Credit.**

Independent work on project approved by major advisor and CFP (R) Program Director. For students completing Master's in Personal Financial Planning. Prerequisite: graduate standing and instructor's consent. May be repeated for credit.

**FINPLN 8960. Readings in Household Economics and Finance. 1-99 Credit.**

Readings in recent research in household economics and finance. Prerequisites: graduate standing and instructor's consent.

**FINPLN 9001. Topics in Household Economics and Finance. 1-99 Credit.**

Selected current topics in field of interest. Prerequisites: graduate standing.

**FINPLN 9085. Problems in Household Economics and Finance. 1-99 Credit.**

Supervised independent work related to household economics and finance. Prerequisite: graduate standing and instructor's consent.

**FINPLN 9087. Seminar in Household Economics and Finance. 1-99 Credit.**

Report and discussion of recent research and practice in household economics and finance. Prerequisite: graduate standing and instructor's consent.

**FINPLN 9090. Doctoral Dissertation Research in Personal Financial Planning. 1-99 Credit.**

Independent research leading to thesis or dissertation. Graded on S/U basis only. Prerequisite: graduate standing and instructor's consent.

**FINPLN 9960. Readings in Household Economics and Finance. 1-99 Credit.**

Readings in recent research in household economics and finance. Prerequisites: graduate standing and instructor's consent.

## Philosophy (PHIL)

---

**PHIL 1000. General Introduction to Philosophy. 3 Credits.**

Introduction to traditional philosophical problems and methods of philosophical enquiry. Consideration given to different philosophical

theories on the nature of reality, man, nature and God; knowledge and how it is acquired; values and social issues.

**PHIL 1000H. General Introduction to Philosophy - Honors. 3 Credits.**

Introduction to traditional philosophical problems and methods of philosophical enquiry. Consideration given to different philosophical theories on the nature of reality, man, nature and God; knowledge and how it is acquired; values and social issues. Honors eligibility required.

**PHIL 1100. Introduction to Ethics. 3 Credits.**

Introduction to different philosophical theories regarding when acts are morally right rather than wrong; when things are good rather than bad; nature of the "good life", nature of ethical reasoning and justification.

**PHIL 1100H. Introduction to Ethics - Honors. 3 Credits.**

Introduction to different philosophical theories regarding when acts are morally right rather than wrong; when things are good rather than bad; nature of the "good life", nature of ethical reasoning and justification. Honors eligibility required.

**PHIL 1150. Introductory Bioethics. 3 Credits.**

This course approaches moral problems in biomedical and scientific research from a philosophical perspective. First, we'll familiarize ourselves with ethics and political philosophy. Then we'll study the ethical issues that arise in connection with a series of issues, including research involving human and animal subjects, eugenics, the human genome project, cloning and stem cell research. By thinking about these issues, we learn how to think critically about particular moral quandaries, as well as to uncover and examine some of our deepest moral commitments.

**PHIL 1200. Logic and Reasoning. 3 Credits.**

Methods of analyzing and evaluating arguments of all types. Uses both informal and formal techniques. Identifies informal fallacies and introduces elementary symbolic logic.

**PHIL 1200H. Logic and Reasoning-Honors. 3 Credits.**

Methods of analyzing and evaluating arguments of all types. Uses both informal and formal techniques. Identifies informal fallacies and introduces elementary symbolic logic. Honors eligibility required.

**PHIL 2000. Philosophical Ideas in Literature. 3 Credits.**

Philosophical ideas and issues revolving around human freedom as these ideas and issues are embodied in great literary works from Plato through Dostoyevski to Burgess. Prerequisite: sophomore standing.

**PHIL 2005. Topics in Philosophy-Humanities. 1-3 Credit.**

Organized study of philosophical issues to which no regular course is devoted. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing or instructor's consent.

**PHIL 2010. The Philosophy of Film. 3 Credits.**

(same as Film Studies [FILM\_S] 2010). Philosophical problems having to do with film. Topic may include the nature of films, the differences between fiction and documentary film, ethical issues with film and filmmaking.

**PHIL 2100. Philosophy: East and West. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 2100). Compares the interpretation and role of philosophical concepts such as experience, reason, permanence, change, immortality, soul, God, etc., in Indian, Chinese and European traditions. Prerequisite: sophomore standing.

**PHIL 2200. Philosophy and Intellectual Revolution. 3 Credits.**

Examines such revolutions as the Copernican, Darwinian, Marxian and Freudian. What are the new views? How is our place in the universe

affected? What puzzles arise in replacing old by new views? Prerequisite: sophomore standing.

**PHIL 2300. Philosophy and Human Nature. 3 Credits.**

Philosophical exploration and examination of theories of human nature with reference to relevant developments in such sciences as biology, psychology, and economics. Prerequisite: sophomore standing.

**PHIL 2350. The Meaning of Life. 3 Credits.**

Does life have meaning, or is it essentially meaningless, absurd? This course will examine some of answers philosophers have given to this and related questions.

**PHIL 2400. Ethics and the Professions. 3 Credits.**

Examination of ethical issues confronted by members of different professions such as medicine, law, business, journalism and engineering. Prerequisite: sophomore standing.

**PHIL 2410. Philosophies of War and Peace. 3 Credits.**

(same as Peace Studies [PEA\_ST] 2410). Moral issues about the recourse to war by the nation and the individual's obligations to participate. The nature of peace, social and personal. Special attention to the Vietnam War and the nuclear age. Prerequisite: sophomore standing.

**PHIL 2420. Ethical Issues in Business. 3 Credits.**

Major theories of moral obligation and justice and their application to business practices. Corporate responsibility, government regulation, investment and production, advertisement, the environment, preferential hiring, etc. through case studies, legal opinions and philosophical analysis. Prerequisite: sophomore standing.

**PHIL 2430. Contemporary Moral Issues. 3 Credits.**

Review of the major contemporary ethical theories and their contribution to the resolution of major social issues such as euthanasia, suicide, abortion, capital punishment, violence and war. Emphasis on nature, interests, and rights of persons. Graded on A/F basis only. Prerequisite: sophomore standing.

**PHIL 2440. Medical Ethics. 3 Credits.**

Considers moral issues posed by developments in biological sciences and medical technology. Topics may include: genetic engineering, abortion and euthanasia, distribution of health care.

**PHIL 2500. Philosophy and Gender. 3 Credits.**

(same as Women and Gender Studies [WGST] 2500). A critical examination of central ideas and themes in feminist philosophical thought. Topics may include: sex, marriage, parenthood, reproduction, body image, pornography, prostitution. Prerequisite: sophomore standing.

**PHIL 2600. Rational Decisions. 3 Credits.**

Principles for making decisions in a rational way. Special attention to principles that use probabilities and utilities. Some discussion of decisions made in conjunction with other people, and decisions made for other people. Prerequisites: sophomore standing and grade of C or better in Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**PHIL 2700. Elementary Logic. 3 Credits.**

(same as Linguistics [LINGST] 2700). Introduces a symbolic language for representing the structure of arguments. Presents precise rules for demonstrating the validity of arguments. Covers natural deduction for sentence and predicate logic. Develops skill in constructing derivations. Prerequisites: sophomore standing and grade of C or better in Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**PHIL 2820. Introduction to Cognitive Science. 3 Credits.**

(same as Psychology [PSYCH] 2820 and Linguistics [LINGST] 2820). Cognitive science is the interdisciplinary study of the mind. After an overview of the foundations of cognitive science as a whole, we will see what particular sectors of it have to say about mental capacities such as vision, language, categorization, and social cognition. Prerequisites: Psychology [PSYCH] 1000; sophomore standing.

**PHIL 3000. Ancient Western Philosophy. 3 Credits.**

Philosophical thought on nature, knowledge, the gods, human life and society, from Thales to Augustine. Emphasis on Plato and Aristotle. The relevance of the ancients to contemporary life. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 3100. Medieval Philosophy. 3 Credits.**

Major thinkers from St. Augustine through 14th century Ockhamists. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 3200. Modern Philosophy. 3 Credits.**

Surveys critical and speculative thinking of modern period from Descartes to Kant in relation to scientific, religious and social movements. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 3400. 19th Century Philosophy. 3 Credits.**

A careful and sympathetic study of some of the major thinkers of this period, notably Kierkegaard and Nietzsche. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 3500. Existentialism. 3 Credits.**

The nature of human existence, the meaning of life, the relation of the individual to nature, society, and any gods that may be, according to Kierkegaard, Nietzsche, Heidegger, Sartre, de Beauvoir, Camus and others. Students are encouraged to come to grips with the issues in relation to their own lives. Prerequisite: sophomore standing and one course in Philosophy, or instructor's consent.

**PHIL 3600. 20th Century Philosophy. 3 Credits.**

The course will be a survey of some of the notable philosophers/thinkers whose contributions have been made in the twentieth century. Prerequisite: sophomore standing and one course in Philosophy, or instructor's consent.

**PHIL 3700. Selected Modern Philosophers. 3 Credits.**

Advanced study of a particular philosopher or a number of philosophers from the same school in the modern period. May be taken twice for credit with permission of the department. Prerequisite: sophomore standing and one course in Philosophy, or instructor's consent.

**PHIL 3800. Selected Contemporary Philosophers. 3 Credits.**

Advanced study of a particular contemporary philosopher or philosophers. May be taken twice for credit with permission of the department. Prerequisite: sophomore standing and one course in Philosophy, or instructor's consent.

**PHIL 4001. Topics in Philosophy-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: sophomore standing and two courses in Philosophy, or instructor's consent; departmental consent for repetition.

**PHIL 4005. Topics in Philosophy-Humanities. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: sophomore standing and

two courses in Philosophy, or instructor's consent, departmental consent for repetition.

**PHIL 4100. Philosophy of Language. 3 Credits.**

(same as Linguistics [LINGST] 4100). Examination of contemporary views of the relationship between language, minds, and the world. Prerequisites: sophomore standing and Philosophy [PHIL] 2700 and one other course in Philosophy; or instructor's consent.

**PHIL 4110. Advanced Logic. 3 Credits.**

(same as Linguistics [LINGST] 4110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems. Prerequisites: sophomore standing and Philosophy [PHIL] 2700, or instructor's consent. Math Reasoning Proficiency Course.

**PHIL 4120. Selected Topics in Logic. 3 Credits.**

Elementary set theory. Modal logic, the logic of possibility and necessity. Prerequisites: sophomore standing and either Philosophy [PHIL] 2700 or 4110; or instructor's consent.

**PHIL 4130. Probability and Induction. 3 Credits.**

This course studies probability, its various interpretations, and its basic principles. It identifies forms of reasoning that establish the probability of a conclusion. The methods of reasoning it treats are at the heart of science and practical affairs. Prerequisite: sophomore standing and Philosophy [PHIL] 2700; or instructor's consent.

**PHIL 4200. Metaphysics. 3 Credits.**

Metaphysics studies what there is and how things are, most generally speaking. Topics may include realism versus nominalism, substance and attribute, facts, modality, identity and causality. Previous work in Philosophy [PHIL] 1000, 3000 or 3200 recommended. Prerequisite: sophomore standing and two Philosophy courses; or instructor's consent.

**PHIL 4210. Philosophy of Mind. 3 Credits.**

Considers theories and arguments in contemporary philosophy of mind, focusing on the nature of mental states, their relation to brain states and the plausibility of various materialist theories of the mind. Prerequisite: sophomore standing and two Philosophy courses; or instructor's consent.

**PHIL 4220. Philosophy of Religion. 3 Credits.**

Considers basis for and nature of religious beliefs. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 4300. Epistemology. 3 Credits.**

An examination of contemporary philosophical theories concerning the nature, sources and limits of knowledge and justified belief. Previous work in Philosophy [PHIL] 1000, 3000, 3200 is recommended. Prerequisite: sophomore standing and two courses in Philosophy, or instructor's consent.

**PHIL 4400. Philosophy of Science. 3 Credits.**

Why believe the scientific world-view? What, if anything, is the scientific method? Are today's theories really superior to past theories? Examines contemporary philosophical answers to such questions. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PHIL 4410. Philosophy of History. 3 Credits.**

Readings from classic and contemporary philosophers of history. Problems about nature and limits of historical knowledge; relation between history and other disciplines; the existence, nature, and kinds

of historical laws. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PHIL 4420. Philosophy of Biology. 3 Credits.**

A survey of philosophical problems arising from consideration of evolutionary theory and the biological sciences. Topics may include reductionism, sociobiology, biological laws, and epistemic problems relating to evolutionary theory. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PHIL 4500. Theories of Ethics. 3 Credits.**

Normative and meta-ethical theories. Topics may include the rationality and objectivity of morality, the meaning of moral language, the differences between deontological, utilitarian and virtue theories. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PHIL 4600. Political and Social Philosophy. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4600). Contemporary and/or historical theories of justice and the state. Utilitarianism, Liberalism, Libertarianism, Marxism, Communitarianism and Feminism may be among the views covered. Prerequisite: sophomore standing and two courses in Philosophy; or instructor's consent.

**PHIL 4610. Philosophy of Law. 3 Credits.**

What is law? Are there pre- or trans-legal rights? Is punishment justifiable? How can judicial decisions be justified? What are the relations between law and morality? Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 4620. Marxism. 3 Credits.**

A philosophical examination of (a) the notion of critique as seen in Marx's early and middle writings, and (b) specific topics by such authors as Lenin, Lukacs and Plekhanov. Prerequisite: Sophomore standing and two courses in Philosophy; or consent of department.

**PHIL 4700. Aesthetics. 3 Credits.**

Typical components of art; theories of art as representation, form, expression; relation of art to value. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 4800. Asian Philosophy. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 4800). This course traces the origins of Indian and Chinese philosophical world views. Included are the major ideas in Hindu, Jaina, and Buddhist thought in India, and Taoism and Confucianism in China. Emphasis is placed on the diverse, assimilative, and pragmatic nature of Indian thought and its impact on contemporary Asian philosophy. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 4810. Philosophy of India. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 4810). General development of Indian philosophy. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**PHIL 4850. Special Readings in Philosophy. 1-3 Credit.**

Prerequisite: junior standing.

**PHIL 4950. Senior Seminar in Philosophy. 3 Credits.**

A capstone course required of and only open to senior Philosophy majors. Course content will vary, depending on the professor teaching the course. Prerequisite: senior Philosophy major.

**PHIL 4998. Honors I in Philosophy. 3 Credits.**

Special work for Honors candidates. Prerequisite: junior standing.

**PHIL 4999. Honors II in Philosophy. 3 Credits.**

Special work for Honors candidates. Prerequisite: junior standing.

**PHIL 7001. Topics in Philosophy-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: graduate standing and instructor's consent, departmental consent for repetition.

**PHIL 7005. Topics in Philosophy-Humanities. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: graduate standing and instructor's consent, departmental consent for repetition.

**PHIL 7100. Philosophy of Language. 3 Credits.**

(same as Linguistics [LINGST] 7100). Examination of contemporary views of the relationship between language, minds, and the world. Prerequisite: graduate standing and Philosophy [PHIL] 2700 or instructor's consent. Some work in PHIL 1000, 3000 or 3200 recommended.

**PHIL 7110. Intermediate Logic. 3 Credits.**

(same as Linguistics [LINGST] 4110). Presents the method of truth trees for sentence and predicate logic. Examines proofs concerning the decidability, soundness, and completeness of formal systems. Emphasizes the theory of formal systems. Prerequisite: graduate standing and Philosophy [PHIL] 2700.

**PHIL 7120. Selected Topics in Logic. 3 Credits.**

Elementary set theory. Modal logic, the logic of possibility and necessity. Prerequisite: Philosophy [PHIL] 2700 or 7110.

**PHIL 7130. Probability and Induction. 3 Credits.**

This course studies probability, its various interpretations, and its basic principles. It identifies forms of reasoning that establish the probability of a conclusion. The methods of reasoning it treats are at the heart of science and practical affairs. Prerequisite: Philosophy [PHIL] 2700.

**PHIL 7200. Metaphysics. 3 Credits.**

Metaphysics studies what there is and how things are, most generally speaking. Topics may include realism versus nominalism, substance and attribute, facts, modality, identity and causality. Previous work in Philosophy [PHIL] 1000, 3000 or 3200 recommended. Prerequisite: graduate standing.

**PHIL 7210. Philosophy of Mind. 3 Credits.**

Considers theories and arguments in contemporary philosophy of mind, focusing on the nature of mental states, their relation to brain states and the plausibility of various materialist theories of the mind. Prerequisite: graduate standing.

**PHIL 7220. Philosophy of Religion. 3 Credits.**

Considers basis for and nature of religious beliefs. Philosophical approaches to religion, cultural implications of religion, psychoanalysis and religion, mysticism and myth. Prerequisite: graduate standing.

**PHIL 7300. Epistemology. 3 Credits.**

An examination of contemporary philosophical theories concerning the nature, sources and limits of knowledge and justified belief. Previous work in Philosophy [PHIL] 1000, 3000, or 3200 is recommended. Prerequisite: graduate standing.

**PHIL 7400. Philosophy of Science. 3 Credits.**

Why believe the scientific world-view? What, if anything, is the scientific method? Are today's theories really superior to the past theories? Examines contemporary philosophical answers to such questions. Prerequisite: graduate standing.

**PHIL 7410. Philosophy of History. 3 Credits.**

Readings from classic and contemporary philosophers of history. Problems about nature and limits of historical knowledge; relation between history and other disciplines; the existence, nature, and kinds of historical laws. Prerequisite: graduate standing.

**PHIL 7420. Philosophy of Biology. 3 Credits.**

A survey of philosophical problems arising from consideration of evolutionary theory and the biological sciences. Topics may include reductionism, sociobiology, biological laws, and epistemic problems relating to evolutionary theory. Prerequisites: graduate standing required.

**PHIL 7500. Theories of Ethics. 3 Credits.**

Normative and meta-ethical theories. Topics may include the rationality and objectivity of morality, the meaning of moral language, the differences between deontological, utilitarian and virtue theories. Prerequisite: graduate standing and one course in Philosophy.

**PHIL 7600. Political and Social Philosophy. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4600). Contemporary and/or historical theories of justice and the state. Utilitarianism, Liberalism, Libertarianism, Marxism, Communitarianism and Feminism may be among the views covered. Prerequisite: graduate standing.

**PHIL 7610. Philosophy of Law. 3 Credits.**

What is law? Are there pre- or trans-legal rights? Is punishment justifiable? How can judicial decisions be justified? What are the relations between law and morality? Prerequisite: graduate standing.

**PHIL 7620. Marxism. 3 Credits.**

A philosophical examination of (a) the notion of critique as seen in Marx's early and middle writings, and (b) specific topics by such authors as Lenin, Lukacs and Plekhanov. Prerequisite: graduate standing.

**PHIL 7700. Aesthetics. 3 Credits.**

Typical components of art; theories of art as representation, form, expression; relation of art to value. Prerequisite: graduate standing.

**PHIL 7800. Asian Philosophy. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 4800). This course traces the origins of Indian and Chinese philosophical world views. Included are the major ideas in Hindu, Jaina, and Buddhist thought in India, and Taoism and Confucianism in China. Emphasis is placed on the diverse, assimilative, and pragmatic nature of Indian thought and its impact on contemporary Asian philosophy. Prerequisite: graduate standing.

**PHIL 7810. Philosophy of India. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 4810). General development of Indian philosophy. Prerequisite: graduate standing.

**PHIL 7850. Special Readings in Philosophy. 1-3 Credit.**

Prerequisite: graduate standing.

**PHIL 8090. Research in Philosophy. 1-99 Credit.**

Research not leading to thesis. Prerequisite: graduate standing in Philosophy. Graded S/U only.

**PHIL 8100. Protoseminar in Philosophy. 3 Credits.**

Introduction to graduate level work in philosophy. Required of all students entering the program, in the first year. An intensive workshop focused on skills rather than any particular philosophical content. Prerequisite: restricted to first year graduate students.

**PHIL 8210. Teaching of Philosophy I. 1 Credit.**

Seminar meetings on course design, teaching methods, the evaluation of teaching, grading, instructor obligations, and teaching aids. Some individualized instruction, including help preparing for and assessing the

effectiveness of practice teaching. Prerequisite: graduate students in philosophy.

**PHIL 8220. Teaching of Philosophy II. 1 Credit.**

A sequel to Philosophy [PHIL] 8210. Includes a re-examination of end of semester tasks such as the composition and grading of finals and the assignment of course grades. Prerequisite: Philosophy [PHIL] 8210; graduate standing in philosophy.

**PHIL 8300. Dissertation Seminar. 1 Credit.**

The course will address writing and time management for Ph.D. students writing a dissertation. Also discussed will be preparation for the academic job market in philosophy, especially the development of an application dossier. Prerequisite: Philosophy Ph.D. student. Graded on S/U basis only.

**PHIL 8510. Metaphysics: A Survey. 3 Credits.**

A graduate-level survey of central issues in metaphysics. May be repeated up to 6 hours of credit. Prerequisites: graduate standing or instructor's consent.

**PHIL 8520. Philosophy of Mind: A Survey. 3 Credits.**

A graduate-level survey of central issues in the philosophy of mind. Graduate Standing Required or instructor's consent.

**PHIL 8530. Epistemology: A Survey. 3 Credits.**

A graduate-level survey of central issues in epistemology. Graduate Standing or instructor's consent required.

**PHIL 8540. Philosophy of Language: A Survey. 3 Credits.**

A graduate-level survey of central issues in philosophy of language. Graduate standing or consent of instructor required.

**PHIL 9001. Topics in Philosophy. 1-99 Credit.**

Organized study of selected topics. Need departmental consent for repetition. Prerequisites: Graduate standing and instructor's consent.

**PHIL 9040. Indian Philosophy. 3 Credits.**

Reality, levels of being, status of the world, nature of knowledge in Indian philosophy in relations in Advaita Vendanta system of Samkara. Prerequisite: graduate standing in Philosophy.

**PHIL 9050. Plato. 3 Credits.**

Advanced studies in Plato; emphasis on recent scholarship. Prerequisite: graduate standing in Philosophy.

**PHIL 9060. Aristotle. 3 Credits.**

Advanced studies in Aristotle; emphasis on recent scholarship. Prerequisite: graduate standing in Philosophy.

**PHIL 9070. Medieval Thinkers. 3 Credits.**

Selected works of one or more: Augustine, Avicenna, Anselm, Maimonides, Aquinas, Scotus, Ockham. Not a survey. Prerequisite: graduate standing in Philosophy.

**PHIL 9090. Research in Philosophy. 1-99 Credit.**

Work toward preparation of thesis or dissertation. Graded on a S/U basis only. Prerequisite: graduate standing in Philosophy.

**PHIL 9110. The Rationalists. 3 Credits.**

Interpretation and evaluation of major works of Descartes, Leibniz, and/or Spinoza in relation to their historical context and current philosophical problems. Prerequisite: graduate standing in Philosophy.

**PHIL 9120. The Empiricists. 3 Credits.**

Epistemological and metaphysical doctrines of Locke, Berkeley and Hume. Prerequisite: graduate standing in Philosophy.

**PHIL 9130. Kant. 3 Credits.**

Critique of Pure Reason: historical context, meaning and cohesion of its claims, critical assessment of them. Prerequisite: graduate standing in Philosophy.

**PHIL 9210. Hegel. 3 Credits.**

Phenomenology of Spirit: historical context, meaning and cohesion of its claims, critical assessment of them. Prerequisite: graduate standing in Philosophy.

**PHIL 9220. Marxism. 3 Credits.**

Basic works of Marx and his successors. Prerequisite: graduate standing in Philosophy.

**PHIL 9230. Whitehead. 3 Credits.**

Process and Reality and other works. Contributions to metaphysics, theology, epistemology, and philosophy of science. Prerequisite: graduate standing in Philosophy.

**PHIL 9240. Russell and Wittgenstein. 3 Credits.**

Each initially defends, but then rejects logical atomism. Metaphysical and epistemological themes of such intellectual phases and shifts of one or both philosophers. Prerequisite: graduate standing in Philosophy.

**PHIL 9250. Heidegger. 3 Credits.**

Being and Time: historical context, meaning and cohesion of its claims, critical assessment of them. Prerequisite: graduate standing in Philosophy.

**PHIL 9260. Existentialism. 3 Credits.**

Being and Nothingness and other philosophy and literary works. Prerequisite: graduate standing in Philosophy.

**PHIL 9270. Phenomenology. 3 Credits.**

Selected works of Husserl and other phenomenological thinkers. Implications for epistemology, science, metaphysics, ethics, and other philosophical topics. Prerequisite: graduate standing in Philosophy.

**PHIL 9280. Recent Anglo-American Philosophy. 3 Credits.**

Topics on which current philosophers of the Anglo-American or Analytic tradition are concentrating. Prerequisite: graduate standing in Philosophy.

**PHIL 9290. Recent Continental Philosophy. 3 Credits.**

Topics on which current philosophers on the European continent are concentrating. Prerequisite: graduate standing in Philosophy.

**PHIL 9310. Applied Ethics. 3 Credits.**

Methods for applying normative ethical theories to personal and social moral problems, illustrated by application of consequentialist, deontological and virtue-centered theories to such problems as euthanasia, capital punishment, pornography, world hunger, war and environmentalism. Prerequisite: graduate standing in Philosophy.

**PHIL 9320. Social and Political Philosophy. 3 Credits.**

Topics of current interest in social and political philosophy. generally one of the following: social contract theory, utilitarianism, voting procedures, or convention. Prerequisite: Philosophy [PHIL] 4600 or instructor's consent graduate standing in Philosophy.

**PHIL 9330. Aesthetics. 3 Credits.**

Theories of art and beauty, the aesthetic experience, the physical work of art, the role of the artist; art and other human concerns. Prerequisite: graduate standing in Philosophy.

**PHIL 9340. Topics in the History of Ethics. 3 Credits.**

Advanced study of the ethical views of major historical figures ancient and/or modern. Prerequisite: graduate standing in Philosophy.

**PHIL 9350. History of Eastern Ethics. 3 Credits.**

Historical survey of major eastern ethical theories. Explores broad range of ethical theories developed in Asia: Hindu and Buddhist in India; Taoism and Confucianism in China; and Zen in Japan. Prerequisite: graduate standing in Philosophy.

**PHIL 9510. Decision Theory. 3 Credits.**

Principles for making rational decisions, including principles of expected utility theory, game theory, and social choice theory. A survey of basic ideas and an introduction to selected research topics. Prerequisite: Philosophy [PHIL] 4110; graduate standing in Philosophy.

**PHIL 9520. Ethical Theory. 3 Credits.**

Contemporary theories of the right and the good. Metaethical topics such as moral language, reasoning, and justification. Prerequisite: graduate standing in Philosophy.

**PHIL 9610. Metaphysics. 3 Credits.**

Theories of the categories and structures of reality, e.g., appearance and reality, causality, space and time, God, Nature, the human being. Prerequisite: graduate standing in Philosophy.

**PHIL 9710. Philosophy of Mind and Psychology. 3 Credits.**

Survey of important recent work in contemporary philosophy of mind and psychology. Graduate seminar. Prerequisite: graduate standing in Philosophy.

**PHIL 9720. Foundations of Cognitive Science. 3 Credits.**

Examination of philosophical questions arising in cognitive science concerning, for instance, the nature of computation and representation, inter-disciplinary relations, the nature of cognitive scientific explanation, and its relation to folk psychological explanation. Prerequisite: graduate standing in Philosophy.

**PHIL 9820. Epistemology. 3 Credits.**

Knowledge and opinion, the types, sources, and extent of knowledge, according to a variety of views. Prerequisite: graduate standing in Philosophy.

**PHIL 9830. Philosophy of Science. 3 Credits.**

Examines central issues in general philosophy of science concerning the scientific method and the role in it of observation, the nature of rational theory-choice, progress, and the status of theories postulating unobservables. Prerequisite: graduate standing in Philosophy.

**PHIL 9840. Philosophy of Language. 3 Credits.**

Topics of current interest in the philosophy of language. Prerequisite: Graduate standing in Philosophy.

**PHIL 9850. Philosophy of Biology. 3 Credits.**

Philosophical problems relating to the life sciences, with attention given especially to explanation and reductionism in biology. Prerequisite: graduate standing required.

**PHIL 9887. Seminar in Logic. 3 Credits.**

Topics of current interest in logic. Generally one of the following: inductive logic, set theory, conditionals, epistemic logic, or formal semantics. Prerequisite: Philosophy [PHIL] 4110 graduate standing in Philosophy.

**PHIL 9901. Seminar in Philosophy. 3 Credits.**

Special topics. May be repeated for credit. Prerequisite: graduate standing in Philosophy.

## Physical Medicine And Rehabilitation (PM\_REH)

---

**PM\_REH 6351. ABS Physical Medicine/Rehab. Mechanism of Disease. 5-10 Credit.**

ABS Physical Medicine/Rehab. Mechanism of Disease.

**PM\_REH 6353. ABS Physical Medicine/Rehab. Research. 5-10 Credit.**

ABS Physical Medicine/Rehab. Research.

**PM\_REH 6355. ABS Physical Medicine/Rehab. Research and Review. 5-10 Credit.**

ABS Physical Medicine/Rehab. Research and Review.

**PM\_REH 6615. Physical Medicine and Rehabilitation. 5 Credits.**

Physical Medicine and Rehabilitation.

## Physical Therapy (PH\_THR)

---

**PH\_THR 1000. Introduction to Physical Therapy. 1 Credit.**

Acquaints students with the physical therapy profession including the required educational preparation, practice settings, sample interventions, current issues, trends and research. Graded on S/U basis only.

**PH\_THR 2420. Biology of Healthy Living. 2 Credits.**

(same as Biomedical Sciences [BIOMED] and Nutritional Science [NUTR\_S] 2420). Biology of inactivity as a casual factor in chronic disease.

**PH\_THR 3022. Principles of Physical Therapy. 1 Credit.**

History of physical therapy: the profession; basic skills: first aid, infection control, vital signs; medical terminology. Graded on S/U basis only.

**PH\_THR 3085. Problems in Physical Therapy. 1-3 Credit.**

Independent study, based upon educational goals, leading to completion of a project or paper. Specific objectives and time line developed with the supervision of a faculty member. Prerequisite: instructor's consent.

**PH\_THR 4085. Problems in Physical Therapy. 1-3 Credit.**

Independent study, based upon educational goals, leading to completion of a project or paper. Specific objectives and time line developed with the supervision of a faculty member. Prerequisite: instructor's consent.

**PH\_THR 4120. Introduction to Clinical Education I. 1 Credit.**

Focus on professional attributes of communication, teamwork, problem solving, and therapeutic behaviors in a case-based format. Graded on S/U basis only.

**PH\_THR 4150. Introduction to Clinical Education II. 1 Credit.**

Continuation of Introduction to Clinical Education I with increased time in clinical settings. Graded on S/U basis only.

**PH\_THR 4240. Applied Neurophysiology for Allied Health Students. 3 Credits.**

(same as Occupational Therapy [OC\_THR] 4240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

**PH\_THR 4250. Human Kinesiology. 3 Credits.**

(same as Health Professions [HTH\_PR] 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport. Prerequisite: Human Anatomy.

**PH\_THR 4270. Clinical Pathophysiology. 3 Credits.**

(same as Occupational Therapy [OC\_THR] 4270) Interdisciplinary and case-based examination of the pathophysiology, prevention and general health management of disease/injury across the lifespan encountered in occupational and physical therapy practice. Prerequisite: successful completion of prior professional coursework. Graded on A/F basis only.

**PH\_THR 4330. Physical Agents. 3 Credits.**

Biophysics, theory and technique concerning the use of physical agents as adjuncts to exercise programs. Includes thermal, electrical, light, hydrotherapy and mechanical agents.

**PH\_THR 4420. Foundations of Therapeutic Exercise. 3 Credits.**

Physiological basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems and the effects of injury and disease on these systems.

**PH\_THR 4480. Medical Testing in Rehabilitation. 3 Credits.**

Diagnostic tests used by disciplines within and outside of physical therapy. Studies include laboratory, nuclear medicine, radiologic, and motion analysis. Emphasis placed on interpretation of results as they apply to physical therapy examination and intervention. Restricted to students accepted into professional major.

**PH\_THR 4510. Evidence-Based Practice. 3 Credits.**

Clinical research design and methods overview. Critical review of current and historically important professional literature. Effective writing related to clinically applicable research using computer and library resources. Identification of research questions. Prerequisite: departmental consent.

**PH\_THR 4520. Applied Therapeutic Exercise. 3 Credits.**

Application of therapeutic exercise with an emphasis on evidenced-based exercise prescription, modes and techniques of exercise typically seen in rehabilitation.

**PH\_THR 4560. Movement Theory and Application. 2 Credits.**

Human sensorimotor development; motor learning; motor control theories; developmental and practical application to exercise; proprioceptive neuromuscular facilitation.

**PH\_THR 4570. Bridging the Clinical-Research Gap. 3 Credits.**

This class focuses on theories of clinical decision making and Evidence-based Practice, their applications to the clinical setting and dissemination of such information to colleagues in professional forums. Graded on A/F basis only.

**PH\_THR 4620. Introduction to Orthopedic Physical Therapy with Laboratory. 3 Credits.**

Physical therapy diagnosis, management, and prevention of disorders of the musculoskeletal system; basics of orthopedic manual therapy. Includes laboratory.

**PH\_THR 4680. Orthopedic Physical Therapy. 3 Credits.**

Physical therapy diagnosis, management, and prevention of disorders of the musculoskeletal system; continuation of orthopedic manual therapy emphasizing the axial skeleton; traction; massage; taping; sport-specific injury rehabilitation; orthotics. Prerequisites: Physical Therapy [PH\_THR] 4620.

**PH\_THR 4730. Pediatric Physical Therapy. 4 Credits.**

Physical therapy evaluation and treatment of children with movement dysfunction. Emphasis on therapeutic exercise.

**PH\_THR 4770. Rehabilitation of the Neurologically Impaired Adult. 4 Credits.**

Physical Therapy evaluation and treatment of adults who have incurred neurological deficits; emphasis on the restorative care of individuals following spinal cord injury, stroke, and traumatic head injury.

**PH\_THR 4790. Pharmacology in Rehabilitation. 2 Credits.**

Principles of pharmacology including pharmacokinetics, pharmacodynamics, and toxicology of common drugs encountered in rehabilitation. Emphasis on pharmacology related to the musculoskeletal, neuromuscular, cardiovascular/pulmonary and integumentary systems across the lifespan. Restricted to students accepted into a professional major.

**PH\_THR 4940. Clinical Education I. 4 Credits.**

Full time, supervised clinical experience addressing application of basic skills in patient evaluation and treatment, documentation and professional behaviors. Graded on S/U basis only.

**PH\_THR 4945. Clinical Education II. 5 Credits.**

Continuation of supervised clinical education. (Capstone course).

**PH\_THR 4960. Special Readings in Physical Therapy. 1-3 Credit.**

Independent readings selected in consultation with supervising faculty member. Identified educational goals and activities; discussion, annotated bibliography or report. Prerequisite: instructor's consent.

**PH\_THR 4965. Directed Readings in Physical Therapy. 1-99 Credit.**

Selected readings on specific topics. Prerequisite: instructor's consent.

**PH\_THR 4980. Clinical Evaluation and Procedures with Laboratory. 3 Credits.**

Principles and procedures of basic evaluation methods and documentation: muscle strength, range of motion, muscle balance, posture, neurologic tests. Includes laboratory.

**PH\_THR 4981. Clinical Kinesiology with Laboratory. 3 Credits.**

Advanced Kinesiology addressing functional mobility; specifics of normal human gait; pathokinetics of gait. Assistive devices; wheelchairs; orthoses and prostheses. Includes laboratory.

**PH\_THR 7120. Introduction to Clinical Education I. 1 Credit.**

Focus on professional attributes of communication, teamwork, problem solving, and therapeutic behaviors in a case-based format. Graded on S/U basis only. Prerequisite: graduate standing.

**PH\_THR 7150. Introduction to Clinical Education II. 1 Credit.**

Continuation of Introduction to Clinical Education I with increased time in clinical settings. Graded on S/U basis only. Prerequisite: graduate standing.

**PH\_THR 7240. Applied Neurophysiology for Allied Health Students. 3 Credits.**

(same as Occupational Therapy [OC\_THR] 4240/7240). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system. Prerequisite: graduate standing.

**PH\_THR 7250. Human Kinesiology. 3 Credits.**

(same as Health Professions [HTH\_PR] 4250, Occupational Therapy [OC\_THR] 4220/7220). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Applications through analysis of daily functional performance, exercise, and sport. Prerequisite: graduate standing and Human Anatomy.

**PH\_THR 7270. Clinical Pathophysiology. 3 Credits.**

(same as Occupational Therapy [OC\_THR] 4270/7270) Interdisciplinary and case-based examination of the pathophysiology, prevention and

general health management of disease/injury across the lifespan encountered in occupational and physical therapy practice.

**PH\_THR 7330. Physical Agents. 3 Credits.**

Biophysics, theory and technique concerning the use of physical agents as adjuncts to exercise programs. Includes thermal, electrical, light, hydrotherapy and mechanical agents. Prerequisite: graduate standing.

**PH\_THR 7420. Foundations of Therapeutic Exercise. 3 Credits.**

Physiologic basis of exercise throughout the lifespan with emphasis on the musculoskeletal, neuromuscular, cardiovascular/ pulmonary and integumentary systems and the effects of injury and disease on these systems.

**PH\_THR 7480. Medical Testing in Rehabilitation. 3 Credits.**

Diagnostic test used by disciplines within and outside of physical therapy. Studies include laboratory, nuclear medicine, radiologic, and motion analysis. Emphasis placed on interpretation of results as they apply to physical therapy examination and intervention. Restricted to students accepted into professional major.

**PH\_THR 7510. Evidence-Based Practice. 3 Credits.**

Clinical research design and methods overview. Critical review of current and historically important professional literature. Effective writing related to clinically applicable research using computer and library resources. Identification of research questions. Prerequisite: graduate standing and departmental consent.

**PH\_THR 7520. Applied Therapeutic Exercise. 3 Credits.**

Application of therapeutic exercise with an emphasis on evidenced-based exercise prescription, modes and techniques of exercise typically seen in rehabilitation.

**PH\_THR 7570. Bridging the Clinical-Research Gap. 3 Credits.**

This class focuses on theories of clinical decision making and Evidence-based Practice, their applications to the clinical setting and dissemination of such information to colleagues in professional forums. Graded on A/F basis only.

**PH\_THR 7620. Introduction to Orthopedic Physical Therapy with Laboratory. 3 Credits.**

Physical therapy diagnosis, management, and prevention of disorders of the musculoskeletal system; basics of orthopedic manual therapy. Includes laboratory. Prerequisite: graduate standing.

**PH\_THR 7680. Orthopedic Physical Therapy. 3 Credits.**

Physical therapy diagnosis, management, and prevention of disorders of the musculoskeletal system; continuation of orthopedic manual therapy emphasizing the axial skeleton; traction; massage; taping; sport-specific injury rehabilitation; orthotics. Prerequisites: graduate standing and Physical Therapy [PH\_THR] 4620.

**PH\_THR 7730. Pediatric Physical Therapy. 4 Credits.**

Physical therapy evaluation and treatment of children with movement dysfunction. Emphasis on therapeutic exercise. Prerequisite: graduate standing.

**PH\_THR 7770. Rehabilitation of the Neurologically Impaired Adult. 4 Credits.**

Physical Therapy evaluation and treatment of adults who have incurred neurological deficits; emphasis on the restorative care of individuals following spinal cord injury, stroke, and traumatic head injury. Prerequisite: graduate standing.

**PH\_THR 7780. Differential Diagnosis in Physical Therapy. 3 Credits.**

Evidence-based clinical decision making emphasizing health screenings and system review to determine physical therapy diagnosis/need for referral to other health care professionals. Restricted to students accepted into the professional major.

**PH\_THR 7790. Pharmacology in Rehabilitation. 2 Credits.**

Principles of pharmacology including pharmacokinetics, pharmacodynamics, and toxicology of common drugs encountered in rehabilitation. Emphasis on pharmacology related to the musculoskeletal, neuromuscular, cardiovascular/ pulmonary and integumentary systems across the lifespan. Restricted to students accepted into professional major.

**PH\_THR 7890. Case Management I. 5 Credits.**

Evaluation and team approach to physical therapy management in adult medical and surgical conditions: cardiopulmonary, rheumatic, oncologic, integumentary or wound care, including major burn injury. Psychosocial and ethical issues incorporated. Problem based; laboratory.

**PH\_THR 7940. Clinical Education I. 4 Credits.**

Full time, supervised clinical experience addressing application of basic skills in patient evaluation and treatment, documentation and professional behaviors. Graded on S/U basis only. Prerequisite: graduate standing.

**PH\_THR 7945. Clinical Education II. 5 Credits.**

Continuation of supervised clinical education. (Capstone course). Prerequisite: graduate standing. Graded S/U only.

**PH\_THR 7960. Special Readings in Physical Therapy. 1-3 Credit.**

Independent readings selected in consultation with supervising faculty member. Identified educational goals and activities; discussion, annotated bibliography or report. Prerequisite: graduate standing and instructor's consent.

**PH\_THR 7965. Directed Readings in Physical Therapy. 1-99 Credit.**

Selected readings on specific topics. Prerequisite: graduate standing and instructor's consent.

**PH\_THR 7980. Clinical Evaluation and Procedures with Laboratory. 3 Credits.**

Principles and procedures of basic evaluation methods and documentation: muscle strength, range of motion, muscle balance, posture, neurologic tests. Includes laboratory. Prerequisite: graduate standing.

**PH\_THR 7981. Clinical Kinesiology with Laboratory. 3 Credits.**

Advanced Kinesiology addressing functional mobility; specifics of normal human gait; pathokinetics of gait. Assistive devices; wheelchairs; orthoses and prostheses. Includes laboratory. Prerequisite: graduate standing.

**PH\_THR 8001. Topics in Physical Therapy. 1-99 Credit.**

Organized study of selected topics in physical therapy, health and wellness, prevention of disease and disability, and the rehabilitation sciences. Specific content may vary from semester to semester. Prerequisite: instructor's consent.

**PH\_THR 8085. Problems in Physical Therapy. 1-3 Credit.**

Independent study and development of a clinical or research paper, poster or workshop suitable for presentation in a symposium or conference. Specific plan individually developed with advisor. Journal reviews. Prerequisites: graduate standing.

**PH\_THR 8087. Seminar in Physical Therapy. 3 Credits.**

Presentation and critical discussion of research activities, summaries of clinical and research experience. Prerequisite: departmental consent.

**PH\_THR 8130. Professional Issues in the 21st Century. 3 Credits.**

The physical therapist as health care professional, administrator, and educator; legal, ethical, and political issues. Service delivery management; delegation of care; rural vs. urban health care needs.

**PH\_THR 8390. Case Management II with Laboratory. 5 Credits.**

Complex orthopedic problems in persons of all ages; supervision, reimbursement, ethical/legal situations; community programs for injury prevention; work capacity evaluation/work hardening; consultation. Problem-based format; laboratory. Prerequisite: Physical Therapy [PH\_THR] 7890.

**PH\_THR 8690. Case Management III with Laboratory. 5 Credits.**

Traditional and contemporary theories of physical therapy in advanced rehabilitation of children and adults with neurologic disorders; education/employment, ethical/legal issues; patient/client advocacy. Problem based format; laboratory. Prerequisite: Physical Therapy [PH\_THR] 8390.

**PH\_THR 8940. Clinical Education III. 6-8 Credit.**

A continuation of supervised clinical education. Graded on S/U basis only.

**PH\_THR 8945. Clinical Education IV. 5 Credits.**

A continuation of supervised clinical education. Graded on S/U basis only.

**PH\_THR 8950. Clinical Education V. 5 Credits.**

Full time supervised clinical education. Terminal clinical experience with advanced expectations of performance. Restricted to students accepted into professional major. Graded on S/U basis only.

## Physics (PHYSCS)

---

**PHYSCS 1002. Topics in Physics and Astronomy. 1-3 Credit.**

Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester.

**PHYSCS 1050. Concepts in Cosmology. 3 Credits.**

Introduction to fundamental concepts of modern cosmology. Topics include Olbers' paradox, Hubble expansion, Big Bang, and the Cosmic Microwave Background Radiation.

**PHYSCS 1100. Science and Inventions. 1 Credit.**

This course covers the history of some of the most important inventions in science and their impact on past civilizations, current advances in science and inventions, funding and policies, and critical advances in technology required for future generations.

**PHYSCS 1150. Concepts in Physics. 3 Credits.**

Introduction to fundamental concepts of physics for non-science majors. Concepts include the conservation of energy, the second law of thermodynamics, and the special theory of relativity. Students learn to reason and apply these concepts through writing assignments.

**PHYSCS 1210. College Physics I. 4 Credits.**

First course in algebra-based physics. Covers kinematics, dynamics, fluids oscillatory motion, waves and thermodynamics. Three lectures, one lab weekly. Prerequisite: Mathematics [MATH] 1100/1120. Math Reasoning Proficiency Course.

**PHYSICS 1220. College Physics II. 4 Credits.**

Continuance of 1210. Covers electricity and magnetism, optics and modern physics. Three lectures, one lab weekly. Prerequisite: grade of C- or better in Physics [PHYSICS] 1210. Math Reasoning Proficiency Course.

**PHYSICS 1440. Physics of Sound and Music. 2 Credits.**

The course will be an introduction to acoustics, and the role that fundamentals physics plays in determining what we hear. No formal physics or music background is required, though the ability to read music is preferable. Topics covered will include standing waves, the harmonic series, synthesis, the response of the human ear, different tuning systems, and characteristics of different families of instruments. Prerequisite: Mathematics [MATH] 1100/1120.

**PHYSICS 2002. Topics in Physics and Astronomy - Physical Science. 1-3 Credit.**

Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Prerequisite: College Algebra. Course may be repeated for credit.

**PHYSICS 2100. Thinking Physics. 3 Credits.**

This course investigates motion and force and the relationship between them. Problem-solving skills will be emphasized in addition to hands-on inquiry and deep conceptual understanding. This course is intended to help prepare students for College Physics I or University Physics I. Prerequisites: Mathematics [MATH] 1100. Graded on A/F basis only.

**PHYSICS 2330. Exploring the Principles of Physics. 4 Credits.**

A hands-on course covering topics in Matter, Mechanics, Energy, Light, Sound, Electricity and Magnetism. Pedagogy reflects styles used in K-12 classrooms; emphasis on inquiry, concept development, quantitative applications and technology. Prerequisite: Mathematics [MATH] 1100/1120 and sophomore standing required.

**PHYSICS 2750. University Physics I. 5 Credits.**

First course in calculus-based physics for science and engineering students. Covers kinematics, dynamics, oscillations, waves, fluids and thermodynamics. Includes a laboratory. Prerequisite: Mathematics [MATH] 1500 or equivalent. Corequisite: MATH 1700.

**PHYSICS 2750H. University Physics I - Honors. 5 Credits.**

First course in calculus-based physics for science and engineering students. Covers kinematics, dynamics, oscillations, waves, fluids, and thermodynamics. Includes a laboratory. Prerequisite: Mathematics [MATH] 1500 or equivalent. Co-requisite: MATH 1700. Honors eligibility required. Graded A-F only.

**PHYSICS 2760. University Physics II. 5 Credits.**

Continuation of Physics [PHYSICS] 2750. Covers electrostatics, elementary circuits, magnetism, electromagnetic phenomena, optics, matter waves and particles and modern physics. Includes a laboratory. Prerequisites: Mathematics [MATH] 1700 and grade of - or better in PHYSICS 2750. Corequisite: MATH 2300.

**PHYSICS 2800. Undergraduate Seminar in Physics. 2 Credits.**

Introduction to the Physics Department and presentation of topics of current interest in physics by faculty and students. Intended for physics majors at the freshman or sophomore level only.

**PHYSICS 3002. Topics in Physics and Astronomy - Physical Science. 1-3 Credit.**

Study of selected topics in physics and astronomy. Subjects and earnable credit may vary from semester to semester. Prerequisite: Physics [PHYSICS] 1210 or 2750. May be repeated for credit.

**PHYSICS 3010. Introduction to Modern Astrophysics. 3 Credits.**

(same as Astronomy [ASTRON] 3010). Elements of stellar, and galactic astrophysics. Interpretation of observations and physical conditions of various astronomical objects including stars, gaseous nebulae and galaxies. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 3020. Astrophysical Techniques. 3 Credits.**

(same as Astronomy [ASTRON] 3020). Elements of modern astronomical instruments, observations and analysis. Prerequisite: Physics [PHYSICS] 3010 or concurrently.

**PHYSICS 3100. Teaching Physics. 3 Credits.**

Introduces modeling and inquiry methods of teaching about force, motion, energy, electricity and magnetism. Students learn research-base physics teaching methods, including eliciting prior understanding, facilitating conceptual change, and active learning strategies. Prerequisite: PHYSICS 1220 or PHYSICS 2760.

**PHYSICS 3150. Introduction to Modern Physics. 3 Credits.**

Relativistic kinematics and Lorentz transformations; historical basis for quantum mechanics; atomic structure; physics of solids; nuclear structure and decay. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 4050. Electronic Laboratory. 4 Credits.**

Acquaints students with the foundations and techniques of electronics design, with emphasis on data acquisition and processing. Topics: circuits with discrete and integrated circuits, active and passive filters, amplifiers, power supplies, instrumentation and interfacing. Integrated lectures and labs. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 4060. Advanced Physics Laboratory I. 3 Credits.**

Experiments in atomic, nuclear and solid state physics including X-ray and neutron diffraction, NMR and Mossbauer effect measurements. Experiments familiarize students with modern equipment found in most physics laboratories. Two 3-hour labs weekly. Prerequisites: Physics [PHYSICS] 3150.

**PHYSICS 4080. Major Themes in Classical Physics. 3 Credits.**

Introduction to classical physics: mechanics, electromagnetism and thermodynamics, emphasizing the unity and the connections between different parts of it. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 4100. Electricity and Magnetism I. 3 Credits.**

Mathematical preliminaries, properties of charge distributions at rest and in motion, the field concept, introduces electromagnetic radiation. Prerequisites: Physics [PHYSICS] 2760.

**PHYSICS 4102. Topics on Physics and Astronomy-Biological/Physical/Mathematics. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: Physics [PHYSICS] 2760 or instructor's consent, departmental consent for repetition.

**PHYSICS 4110. Light and Modern Optics. 4 Credits.**

Interaction of light with matter, spectroscopic techniques, wave optics, interferometry, multilayer films, polarization, non-linear optics, design of optical instruments, matrix methods, waveguides, fiber optics, acousto-optic and photo-elastic modulation. Includes both lectures and laboratory. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 4120. Introduction to Thermodynamics. 3 Credits.**

Development of the concepts of temperature, heat, work, entropy, enthalpy and free energy. Applications to gases, liquids and solids. Statistical methods. Prerequisite: Physics [PHYSICS] 2760.

**PHYSCS 4130. Electricity and Magnetism II. 3 Credits.**

Application of Maxwell's equations. Prerequisite: Physics [PHYSCS] 4100.

**PHYSCS 4140. Mechanics. 3 Credits.**

Development of fundamental concepts, principles of mechanics using mathematical methods. Many problems used. Prerequisite: Physics [PHYSCS] 2760.

**PHYSCS 4180. Solar System Science. 3 Credits.**

(same as Geology [GEOL] 4180 and Astronomy [ASTRON] 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution. Prerequisites: Physics [PHYSCS] 1220 or 2760 or instructor's consent.

**PHYSCS 4190. Physics and Chemistry of Materials. 3 Credits.**

(same as Nuclear Engineering [NU\_ENG] 4319, Biological Engineering [BIOL\_EN] 4480 and Chemistry [CHEM] 4490). This course will cover fundamental and applied aspects relating to the Physics, Chemistry and Biology of materials with special emphasis on Nanoscience and Nanomedicine. Consists of lectures and experiments in Nanoscience. Prerequisite: Physics [PHYSCS] 2760 and CHEM 1320 or equivalent and instructor's consent.

**PHYSCS 4230. Scanning Electron Microscopy and X-ray Microanalysis. 3 Credits.**

This course is designed for senior undergraduate/graduate students. This course covers the basic principles and practical considerations using the scanning electron microscope (SEM) and energy-dispersive spectrometry (EDS) in the characterization of materials. Prerequisite: Physics [PHYSCS] 3150 and instructor's consent. Graded on A/F basis only.

**PHYSCS 4250. Stellar Astrophysics. 3 Credits.**

(same as Astronomy [ASTRON] 4250). Basic astrophysics of stable and unusual stars, stellar systems. Investigates stellar dimensions, radiation, spectra, energy, evolution, populations; interstellar medium, stellar motions and aggregation. Prerequisite: Physics [PHYSCS] 3150 or concurrently or instructor's consent.

**PHYSCS 4310. Physics in Cell and Developmental Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 4310). Discusses the role of physical mechanisms in specific cellular and developmental processes and phenomena, in particular those characterizing the embryonic stage of multicellular organisms. Each process and phenomenon is first described in biological terms and then within a physical model, with special emphasis on the interplay between the two descriptions. Prerequisite: Physics [PHYSCS] 1220 or 2760 and BIO\_SC 2300 or instructor's consent.

**PHYSCS 4350. Galactic Astronomy. 3 Credits.**

(same as Astronomy [ASTRON] 4350). Observational properties of normal galaxies and clusters of galaxies, Seyfert and emission-line structure and dynamics of galaxies; interacting galaxies, quasi-stellar objects. Introduction to cosmology. Prerequisites: Physics [PHYSCS] 3010, 4140 or instructor's consent.

**PHYSCS 4360. Extragalactic Astronomy. 3 Credits.**

This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and

classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution. Prerequisite: Physics [PHYSCS] 2760.

**PHYSCS 4390. Problems in Physics. 1-99 Credit.**

Problems in Physics.

**PHYSCS 4400. The Physics of Electronic Devices. 3 Credits.**

This course is designed for graduate and undergraduate students of Physics and Electrical Engineering who have an interest in learning the basic physical idea underlying the operation of electronic devices. The course consists of lectures, handout lecture notes, problem sets, two mid-term and one final exam. Prerequisites: A basic knowledge of modern physics (electromagnetism and quantum mechanics at the level of Physics [PHYSCS] 3150 or equivalent, or instructor's consent. Graded on A/F basis only.

**PHYSCS 4410. Analysis of Biological Macromolecules and Biomaterials. 3 Credits.**

This interdisciplinary, team-taught course introduces basic concepts and experimental techniques for studying bio-macromolecules and biomaterials. A Problem Based Learn/Writing Intensive approach uses four modules: Proteins, membranes, cellular interactions and biomaterials. Prerequisite: Physics [PHYSCS] 2760.

**PHYSCS 4420. Introduction to Biomedical Imaging. 3 Credits.**

This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray, CT, PET, SPECT, ultrasound, MRI, and optical imaging, as well as recent developments in biomedical imaging. Prerequisites: Physics [PHYSCS] 2760.

**PHYSCS 4450. Introduction to Cosmology. 3 Credits.**

Develops the physical concepts necessary for understanding the major recent discoveries in cosmology, such as the acceleration of the universe and dark energy. No prior knowledge of general relativity is assumed. Prerequisite: Physics [PHYSCS] 3150 or equivalent or instructor's consent. Graded on A/F basis only.

**PHYSCS 4460. Interstellar Medium. 3 Credits.**

(same as ASTRON 4460). The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock waves. Prerequisite: PHYSCS 1220.

**PHYSCS 4500. Computational Biological Physics. 3 Credits.**

Provides a practical introduction (hands-on approach) to the study of the structure and function of biomolecular systems by employing computational methods and theoretical concepts familiar from the physical sciences. Prerequisite: Physics [PHYSCS] 1220 or 2760 or instructor's consent.

**PHYSCS 4510. Single Molecule Biophysics. 3 Credits.**

The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules Prerequisite: PHYSCS 2760.

**PHYSCS 4550. Cosmochemistry. 3 Credits.**

(same as Astronomy [ASTRON] 4550/7550). Cosmic dust, stardust, spectra, energy, interstellar medium, meteorites, astromineralogy. Prerequisites: Physics [PHYSCS] 2760 or 1220. Instructor's consent required.

**PHYSICS 4600. Semiconductor Optics. 3 Credits.**

It is an introductory-level course in the field of optical processes in semiconductors (both inorganic and organic) and solid-state optoelectronics, designed both for graduate and undergraduate students of Physics, Chemistry and Electrical Engineering. Prerequisites: Physics [PHYSICS] 3150 or instructor's consent. Graded on A/F basis only.

**PHYSICS 4650. Modern Condensed Matter Physics. 3 Credits.**

Introduces the basic concepts and gives an overview of the latest developments of modern condensed-matter physics as the forefront of (nano) science and technology. Combines lectures and computational laboratory, where students use and develop interactive computer simulations. Prerequisites: Physics [PHYSICS] 3150 or instructor's consent. Graded on A/F basis only.

**PHYSICS 4700. Introduction to Methods in Mathematical Physics. 3 Credits.**

Introduces mathematical methods and theories of physics. Topics usually covered are complex analysis, partial differential equations, integral equations and tensor analysis. Prerequisite: Mathematics [MATH] 4100.

**PHYSICS 4800. Introduction to Quantum Mechanics I. 3 Credits.**

Foundations of wave mechanics; wave packets; Schrodinger equation and I-D problems; operators and eigenfunctions, spherically symmetric systems. Prerequisite: Mathematics [MATH] 4100.

**PHYSICS 4810. Introduction to Quantum Mechanics II. 3 Credits.**

Review of quantum mechanics and units, forms of radiation, radiation detectors, spacetime symmetries, internal symmetries, nuclear structure and form factors, low-energy nuclear models, recent developments. Prerequisite: Physics [PHYSICS] 4800 or equivalent.

**PHYSICS 4850. Computational Methods in Physics. 3 Credits.**

Use of modern computational techniques in solving a wide variety of problems in solid state, nuclear, quantum and statistical physics. Prerequisite: Physics [PHYSICS] 4800 or instructor's consent.

**PHYSICS 4950. Undergraduate Research in Physics. 1-3 Credit.**

Special studies for advanced undergraduate students in physics covering subjects not included in courses regularly offered. Prerequisites: instructor's consent, departmental consent for repetition.

**PHYSICS 4960. Senior Thesis in Physics. 3 Credits.**

Special studies for senior undergraduate students in physics. The course requires an oral or poster presentations, or faculty-guided writing of a senior thesis involving independent research. Prerequisites: instructor's consent and 3 units of Physics [PHYSICS] 4950. Departmental consent required for repetition.

**PHYSICS 4985. Issues in Modern Physics and Engineering. 3 Credits.**

Students are expected to write a major paper on a selected topic from modern physics or engineering. The paper will review the current state of the experimental and theoretical research on the topic at a level appropriate to their peers. Prerequisite: Physics [PHYSICS] 3150 or instructor's consent.

**PHYSICS 7085. Problems in Physics. 1-99 Credit.**

Laboratory work involving study of literature of special experiments in physics. Introduces research methods.

**PHYSICS 7087. Seminar in Physics. 1 Credit.**

Topics of current interest selected for discussion. May be elected repeatedly. S/U Graded only. Prerequisite: Physics [PHYSICS] 8150.

**PHYSICS 7110. Light and Modern Optics. 4 Credits.**

Interaction of light with matter, spectroscopic techniques, wave optics, interferometry, multilayer films, polarization, non-linear optics, design of optical instruments, matrix methods, waveguides, fiber optics, acousto-optic and photo-elastic modulation. Includes both lectures and laboratory. Prerequisite: Physics [PHYSICS] 2760.

**PHYSICS 7180. Solar System Science. 3 Credits.**

(same as Geology [GEOL] and Astronomy [ASTRON] 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution. Prerequisites: Physics [PHYSICS] 1220 or 2760 or instructor's consent.

**PHYSICS 7190. Physics and Chemistry of Materials. 3 Credits.**

(same as Nuclear Engineering [NU\_ENG] 7319, Biological Engineering [BIOL\_EN] 7480 and Chemistry [CHEM] 7490). This course will cover fundamental and applied aspects relating to the Physics, Chemistry and Biology of materials with special emphasis on Nanoscience and Nanomedicine. Consists of lectures and experiments in Nanoscience. Prerequisites: Physics [PHYSICS] 2760 and CHEM 1320 or equivalent and instructor's consent.

**PHYSICS 7201. Topics in Physics. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Instructor's consent required.

**PHYSICS 7230. Scanning Electron Microscopy and X-ray Microanalysis. 3 Credits.**

This course is designed for senior undergraduate/graduate students and covers the basic principles and practical considerations using the scanning electron microscope (SEM) and energy-dispersive spectrometry (EDS) in the characterization of materials. The structure of the course consists of a series of lectures followed by computer simulation labs covering the lecture topics. This is followed by hands-on lab assignments reinforcing the same material while also servicing as operational training and analytical methods. Also covered in this course is a sample preparation techniques, digital imaging and data acquisition and processing. Prerequisites: Physics [PHYSICS] 3150 and instructor's consent.

**PHYSICS 7301. Topics in Astronomy and Astrophysics. 3 Credits.**

Selected topics from solar system, stellar, galactic and extragalactic astronomy, and astrophysics. May be repeated for credit. Graded on A/F basis only.

**PHYSICS 7310. Physics in Cell and Developmental Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 7310 and Medical Pharmacology and Physiology [MPP] 7300). Discusses the role of physical mechanisms in specific cellular and developmental processes and phenomena, in particular those characterizing the embryonic stage of multicellular organisms. Each process and phenomenon is first described in biological terms and then within a physical model, with special emphasis on the interplay between the two descriptions. Prerequisite: Physics [PHYSICS] 1220 or 2760 and Biological Science [BIO\_SC] 2300 or instructor's consent.

**PHYSICS 7360. Extragalactic Astronomy. 3 Credits.**

This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution. Prerequisite: Physics [PHYSICS] 2760.

**PHYSCS 7400. Physics of Electronic Devices. 3 Credits.**

This course is designed for graduate students of Physics and Electrical Engineering who have an interest in learning the basic physical idea underlying the operation of electronic devices. The course consists of lectures, handout lecture notes, problem sets, two mid-term and one final exam. Prerequisites: a basic knowledge of modern physics (electromagnetism and quantum mechanics) at the level of Physics [PHYSCS] 3150 or equivalent, or approval by instructor's.

**PHYSCS 7410. Analysis of Biological Macromolecules and Biomaterials. 3 Credits.**

This interdisciplinary, team-taught course introduces basic concepts and experimental techniques for studying bio-macromolecules and biomaterials. A Problem Based Learn/Writing Intensive approach uses four modules: proteins, membranes, cellular interactions and biomaterials. Prerequisite: Physics [PHYSCS] 2760.

**PHYSCS 7420. Introduction to Biomedical Imaging. 3 Credits.**

(same as BIOL\_EN 7420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray CT, PET, SPECT, ultrasound, MRI, and optical imaging, as well as recent developments in biomedical imaging. Prerequisites: PHYSCS 2760.

**PHYSCS 7450. Introduction to Cosmology. 3 Credits.**

Develops the physical concepts necessary for understanding the major recent discoveries in cosmology, such as the acceleration of the universe and dark energy. No prior knowledge of general relativity is assumed. Prerequisite: PHYSCS 3150 or equivalent or instructor's consent. Graded on A/F basis only.

**PHYSCS 7500. Computational Biological Physics. 3 Credits.**

Provides a practical introduction (hands-on approach) to the study of the structure and function of biomolecular systems by employing computational methods and theoretical concepts familiar from the physical sciences. Prerequisite: graduate standing and Physics [PHYSCS] 1220 or 2760 or instructor's consent.

**PHYSCS 7550. Cosmochemistry. 3 Credits.**

(same as Astronomy [ASTRON] 7550). Chemistry of cosmic dust and molecules. Prerequisites: Physics [PHYSCS] 2760 or 1220; instructor's consent.

**PHYSCS 7600. Semiconductor Optics. 3 Credits.**

It is an introductory-level course in the field of optical processes in semiconductors (both inorganic and organic) and solid-state optoelectronics, designed both for graduate and undergraduate students of Physics, Chemistry and Electrical Engineering. Prerequisites: Physics [PHYSCS] 3150 or instructor's consent.

**PHYSCS 7650. Modern Condensed Matter Physics. 3 Credits.**

Introduces the basic concepts and gives an overview of the latest developments of modern condensed matter physics as the forefront of (nano) science and technology. Combines lectures and computational laboratory, where students use and develop interactive computer simulations. Prerequisites: Physics [PHYSCS] 3150 or instructor's consent. Graded on A/F basis only.

**PHYSCS 7750. Interstellar Medium. 3 Credits.**

The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock

waves. Prerequisite: Physics [PHYSCS] 1220. Graduate Standing Required.

**PHYSCS 7850. Computational Methods in Physics. 3 Credits.**

Use of modern computational techniques in solving a wide variety of problems in solid state, nuclear, quantum and statistical physics. Prerequisite: Physics [PHYSCS] 4800 or instructor's consent.

**PHYSCS 8040. Study of Techniques of Teaching College Physics. 1-3 Credit.**

Objectives, methods and problems related to teaching college physics. Some credit in this course is required for all students teaching physics. May repeat for 3 hours maximum.

**PHYSCS 8090. Research in Physics. 1-99 Credit.**

Graduate research. Graded on S/U Basis only.

**PHYSCS 8101. Topics of Physics and Astronomy. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: instructor's consent. Departmental consent for repetition.

**PHYSCS 8110. Physics for High School Teachers I. 4 Credits.**

This is a physics course designed primarily for high school teachers. Topics include motion, forces, Newton's Laws, electricity, k and magnetism. The course uses research based pedagogical methods utilizing inquiry, modeling, and hands-on techniques. Prerequisite: instructor's consent. Graded on A/F basis only.

**PHYSCS 8120. Physics for High School Teachers II. 4 Credits.**

This is a physics course designed primarily for high school teachers. Topics include applications of Newton's laws, energy, waves, optics, heat, and astronomy. The course uses research based pedagogical methods utilizing inquiry modeling, and hands-on techniques. Prerequisite: instructor's consent. Graded on A/F basis only.

**PHYSCS 8130. Physics for High School Teachers 3. 2 Credits.**

This is a physics course designed primarily for high school teachers. Topics include modern physics and history of science. The course uses research based pedagogical methods utilizing inquiry, modeling, and hands-on techniques. Prerequisite: instructor's consent. Graded on A/F basis only.

**PHYSCS 8150. Condensed Matter Physics I. 3 Credits.**

Crystal structure, reciprocal lattice, phonons, neutron and x-ray scattering, free electron theory of metals, Fermi surfaces, energy bands, static properties of solids, semiconductors, devices, and quantum structures, optical properties, excitons, introduction to magnetism and superconductivity. Prerequisites: Physics [PHYSCS] 4800 or equivalent.

**PHYSCS 8160. Condensed Matter Physics II. 3 Credits.**

The basic Hamiltonian, Phonons, theory of the electron gas, second quantization, Hartree and Hartree-Fock approximation, local-density method, tight-binding theory, electron-electron interaction and screening, Fermi liquid theory, transport properties, impurities, Green's function's, Localization, Quantum Hall effect, magnetism, superconductivity. Prerequisites: Physics [PHYSCS] 8150.

**PHYSCS 8301. Topics in Astronomy and Astrophysics. 3 Credits.**

(same as Astronomy [ASTRON] 8301). Selected topics from solar system, stellar, galactic and extragalactic astronomy and astrophysics. May be repeated to a maximum of six hours. Prerequisite: instructor's consent.

**PHYSICS 8350. Science Outreach: Public Understanding of Science. 1-2 Credit.**

(same as Biological Sciences [BIO\_SC] and Animal Sciences [AN\_SCI] 8725) This course is aimed at promoting public understanding and appreciation of science. The students will develop presentations that increase awareness of the impact of science on many aspects of our daily lives. Graduate Standing or instructor's consent required.

**PHYSICS 8400. Low Energy Neutron Scattering. 3 Credits.**

Theory, application of low energy neutron scattering to investigation of structure and dynamics of aggregate matter including lattice vibrations, ordered spin systems, spin waves, diffusive motions in liquids; experimental techniques discussed. Prerequisite: Physics [PHYSICS] 8150.

**PHYSICS 8410. Concepts in Nanoscale Materials: Interdisciplinary Science. 3 Credits.**

This interdisciplinary course covers basic concepts in nanoscale materials, their characterization, and how and why they differ from conventional bulk materials. The course focuses on neutron scattering methods and uses lectures, problem-based modules, and writing assignments. Prerequisites: Physics [PHYSICS] 3150 and instructor's consent.

**PHYSICS 8450. Plasma Physics. 3 Credits.**

Single particle motion, plasma kinetic theory, magnetohydrodynamics and other fluid theories, waves in unmagnetized and magnetized plasmas, transport phenomena, instabilities, controlled fusion. Prerequisite: instructor's consent.

**PHYSICS 8550. Stellar Structure and Evolution. 3 Credits.**

(same as Astronomy [ASTRON] 8550). Reviews of atomic and molecular spectra. Investigates quantum radiation law, emission and absorption processes, radiation transfer theory, continuous and discrete line spectra of stars, stellar composition. Prerequisite: Physics [PHYSICS] 4250, 4800, or instructor's consent.

**PHYSICS 8560. Quantitative X-Ray Microanalysis and Advanced Imaging. 3 Credits.**

This course covers the theory and methodology to quantitatively analyze materials using both energy-dispersive (EDS) and wavelength-dispersive (WDS) spectrometry. Other topics include chemical mapping and data extraction using image processing and analysis techniques. Prerequisites: Physics [PHYSICS] 7230.

**PHYSICS 8610. Classical Mechanics. 3 Credits.**

The interplay of dynamics and symmetry, Hamilton's principle and Noether's theorem, Lagrangian, Hamiltonian, Hamilton-Jacobi theories of mechanics in special relativity. Rigid body motion, small oscillation, canonical transformations and fields as continuous mechanical systems. Prerequisites: Physics [PHYSICS] 4140 or equivalent.

**PHYSICS 8620. Electrodynamics I. 3 Credits.**

Electrostatic potential and fields, boundary-value problems in electrostatics, methods of images, Green's functions, multipole expansion, dielectrics, magnetostatics, magnetic materials, Maxwell's equations, time-varying fields. Prerequisites: Physics [PHYSICS] 8610 or instructor's consent.

**PHYSICS 8640. Electrodynamics II. 3 Credits.**

Electromagnetic wave propagation, reflection, refraction, wave guides, cavities antennas and diffraction, tensors, special relativity, the Lorentz group, dynamics of relativistic particles and fields radiation by moving charges, retardation, bremsstrahlung. Additional topics may include

magnetohydrodynamics and plasma physics. Prerequisites: Physics [PHYSICS] 8620 or instructor's consent.

**PHYSICS 8660. Methods in Mathematical Physics. 3 Credits.**

Concentrates on mathematical techniques used in modern physics. Infinite series, functions of a complex variable, differential equations, Fourier series and integral, etc. Prerequisites: Physics [PHYSICS] 4700 or instructor's consent.

**PHYSICS 8680. Thermodynamics and Statistical Mechanics. 3 Credits.**

Thermodynamics as applied in physics, chemistry; laws of distribution; statistical methods of study matter, radiation. Prerequisite: Physics [PHYSICS] 8710 or concurrently.

**PHYSICS 8700. Non-Equilibrium Statistical Mechanics. 3 Credits.**

This course provides an introduction to the theoretical and mathematical description of classical stochastic systems with examples from biophysics and condensed matter physics. Prerequisite: Graduate standing and Physics [PHYSICS] 8680 or consent of instructor.

**PHYSICS 8710. Quantum Mechanics I. 3 Credits.**

Non-relativistic quantum theory in Hilbert space. States and self-adjoint observables, unitary time evolution in various pictures, the path-integral, identical particles, Fock space, angular momentum and some perturbation theory. Prerequisites: Physics [PHYSICS] 8610.

**PHYSICS 8720. Quantum Mechanics II. 3 Credits.**

More perturbation theory, variational methods, semi-classical methods and application to radiation theory, linear response theory and rudiments of relativistic quantum mechanics including the Klein-Gordan equation and the Dirac equation. Prerequisites: Physics [PHYSICS] 8710.

**PHYSICS 8730. Quantum Mechanics III. 3 Credits.**

Properties of many-particle systems at low temperature. General Formalism for Fermi and Bose systems, theory of superconductivity and superfluidity, introduction to quantum spin model--Diagrammatic formulation of quantum electrodynamics. Scattering of electrons and positrons, introduction to radioactive corrections. Prerequisite: Physics [PHYSICS] 8720. Graded on S/U basis only.

**PHYSICS 8801. Topics in Solid State Theory. 3 Credits.**

Selected topics in solid-state theory, including various elementary excitations in solids and their interactions. May be elected more than once. Prerequisite: instructor's consent.

**PHYSICS 8820. Relativity and Gravitation. 3 Credits.**

Special and general theories of relativity. Discussion of accelerated observers and the principles of equivalence. Einstein's gravitational field equations, black holes, gravitational waves and cosmology. Prerequisites: Physics [PHYSICS] 8610, 8620.

**PHYSICS 9090. Research in Physics. 1-99 Credit.**

Research leading to Ph.D. dissertation. Prerequisite: Ph.D. candidacy has been established. Graded on a S/U basis only.

---

## Plant Science (PLNT\_S)

---

**PLNT\_S 1002. Topics In Plant Science - Biological/Physical/Mathematics. 1-4 Credit.**

Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

**PLNT\_S 1010. Plant Science Orientation. 1 Credit.**

Introduction to perspectives, comprehensiveness, and current issues in the plant sciences. Involves independent learning, faculty interviews, and oral and written communication about agronomy, horticulture, entomology, and plant pathology.

**PLNT\_S 1020. World Food and You. 3 Credits.**

(same as F\_S 1020). Basic scientific principles involved in production agriculture, food processing, marketing and consumption. Evaluation and understanding of current agriculture issues that affect human foods and required nutrients.

**PLNT\_S 1125. People, Plants and the Environment. 3 Credits.**

Exploration of the science and niche relationships that exist between people, plants, animals, and the environment. Emphasis placed on urban vs. rural culture, the impact on production agriculture and the world food supply. Prerequisite: restricted to freshmen and sophomores.

**PLNT\_S 2002. Topics in Plant Science - Biological/Physical/Mathematics. 1-4 Credit.**

Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

**PLNT\_S 2075. Environmental Horticulture. 3 Credits.**

Investigate interrelationships between plants and the environment. Special emphasis placed on improving homeowners' environmental stewardship and their knowledge of sustainable practices. Graded on A/F basis only.

**PLNT\_S 2100. Introduction to Soils. 3 Credits.**

(same as SOIL 2100). Introduction to soil sciences with emphasis placed on physical, biological, and chemical properties and application to land use, plant growth and environmental problems. Prerequisites: 3 hrs of Chemistry.

**PLNT\_S 2110. Plant Growth and Culture. 3 Credits.**

Principles of plant growth with emphasis on anatomy, morphology, physiology, and environmental factors. Culture of major crop and horticultural species.

**PLNT\_S 2125. Plant Structure and Function. 3 Credits.**

Introduction to plant structures and how they function to promote plant growth and development, using botany, soils, chemistry and biochemistry to understand how plants make a living. The secret of life on earth is revealed in the study of photosynthesis early in the course. Prerequisites: Biological Sciences [BIO\_SC] 1200; Soil Science [SOIL] 2100; Chemistry [CHEM] 1320.

**PLNT\_S 2150. Plants for Interior Design. 2 Credits.**

Identification, culture and uses of plants adaptable to or capable of becoming acclimated to interior environments.

**PLNT\_S 2195. Grapes and Wines of the World. 3 Credits.**

(same as F\_S 2195). Explores the world of wine through study of viticultural principles and practices, wine styles, classifying wine, the winemaking process and New World and Old World wine regions. Learn wine tasting skills and experience wines from around the world. World wine consumption, social and physical health benefits of moderate wine consumption.

**PLNT\_S 2210. Ornamental Woody Plants. 3 Credits.**

Identifies and evaluates trees and shrubs for landscape use. Prerequisite: Biological Science [BIO\_SC] 1010 and 1200.

**PLNT\_S 2215. Ornamental Herbaceous Plants. 3 Credits.**

Annuals, biennials, perennials, ground covers, and bulbs; their identification, nomenclature classification, culture and use. Prerequisite: BIO\_SC 1010, BIO\_SC 1500, or BIO\_SC 1200.

**PLNT\_S 2220. Floral Design I. 2 Credits.**

Use of flowers and plant materials to create basic floral designs. Students will learn to identify floral material, use tools properly and post harvest care of flowers. Focus on the elements and principles of design. Students take home all designs. Restricted to students with less than 75 credits during early registration. Graded on A/F basis only.

**PLNT\_S 2254. Landscape Design. 3 Credits.**

Historical overview of the human and environmental relationships with respect to design on the land. Prerequisite: sophomore standing.

**PLNT\_S 2710. Insects in the Environment. 3 Credits.**

Ways in which insects are adapted for life in particular environments, basics of morphology, taxonomy; how important insect pests affect food and crop production, and principles of control.

**PLNT\_S 3002. Topics in Plant Science - Biological/Physical/Mathematics. 1-4 Credit.**

Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

**PLNT\_S 3130. Undergraduate Seminar in Plant Science. 1 Credit.**

Discussion of assigned or selected topics in Plant Science. Prerequisite: sophomore standing or above.

**PLNT\_S 3210. Principles of Weed Science. 4 Credits.**

Introduction to principles of weed growth, reproduction, and impact on human activities. Discussion of weed control techniques and technology, weed identification, and developing weed management strategies. Prerequisite: PLNT\_S 2110 or BIO\_SC 1200.

**PLNT\_S 3213. Genetics of Agricultural Plants and Animals. 3 Credits.**

(same as AN\_SCI 3213). Concepts of molecular, transmission, and population and quantitative genetics. Special emphasis given to breeding and biotechnological applications in plant and animal agriculture. Prerequisites: BIO\_SC 1010, BIO\_SC 1020, BIO\_SC 1500, MATH 1100.

**PLNT\_S 3220. Floral Design II. 2 Credits.**

Continuation of Plant Science [PLNT\_S] 2220. Expansion of skills from introductory floral design. Floral designs created will include larger and more specialized arrangements. Pricing and planning will also be introduced. Prerequisites: PLNT\_S 2220 with grade of B or above.

**PLNT\_S 3225. Plant Breeding and Genetics. 3 Credits.**

Mendelian genetic principles and related genetic developments applicable in plant breeding. Discussion of established and new plant breeding procedures applicable to cultivar development. Prerequisite: Plant Science [PLNT\_S] 2110 or equivalent.

**PLNT\_S 3230. Plant Propagation. 3 Credits.**

Principles and practices of propagation of horticultural plants. Prerequisites: BIO\_SC 1010 and 1200.

**PLNT\_S 3240. Principles of Viticulture I. 4 Credits.**

(same as F\_S 3240). Grapevine growth, development, selection, propagation, training systems pruning, and harvesting; vineyard site selection, design, and development. Graded on A/F basis only. Prerequisites: F\_S 1010 and F\_S 2195/PLNT\_S 2195 or PLNT\_S 2100 or PLNT\_S 2110 or PLNT\_S 2125.

**PLNT\_S 3250. Green Industry Bidding. 1 Credit.**

Familiarize the students with the windfalls and pitfalls of competitive bidding within the green industry. We will look closely at all the visible and invisible costs of managing a green related business and then apply these costs to the bidding process. Graded on A/F basis only. Prerequisites: Plant Science major or instructor's consent; sophomore standing.

**PLNT\_S 3252. Arboriculture and Pruning. 1 Credit.**

Gain an understanding of the concepts and skills associated with establishment and management of urban trees. Emphasis on cultural practices such as planting, fertilization, pruning, chlorosis, oak wilt, and hazard assessment. Examination of the components of a municipal trees ordinance. Prerequisite: Plant Science [PLNT\_S] 2210 or instructor's consent.

**PLNT\_S 3260. Greenhouse Management. 4 Credits.**

Greenhouse design, environmental control and equipment. Practices associated with plant nutrition management, greenhouse pest control, postproduction handling and marketing of greenhouse crops, and greenhouse management are also covered.

**PLNT\_S 3270. Forage Crops. 3 Credits.**

Principle forage crops, pasture production, forage preservation and utilization. Prerequisite: Plant Science [PLNT\_S] 2110.

**PLNT\_S 3275. Grain Crops. 3 Credits.**

Lecture and discussion covering production and utilization, plus growth and development of a wide range of grain crops, including Missouri crops. Problem solving tasks include agronomics, economics and environmental factors. Prerequisite: Plant Science [PLNT\_S] 2110.

**PLNT\_S 3355. Introductory Turfgrass Management. 3 Credits.**

Characteristics of turf materials, principles of establishment and maintenance. Prerequisites: PLNT\_S 2100 or instructor's consent.

**PLNT\_S 3385. Problems in Plant Science. 1-4 Credit.**

Not accepted as a substitute for any regularly scheduled course. Problems arranged with individual faculty member in specific matter area. Prerequisite: consent required.

**PLNT\_S 3500. Forest Pathology. 3 Credits.**

Provides basic understanding of biotic and abiotic agents which cause forest diseases, and current approaches to disease control. Prerequisite: 5 hours Biological Sciences or equivalent.

**PLNT\_S 3510. Biology of Fungi. 3 Credits.**

(same as BIO\_SC 3510). The diverse roles of fungi in the biosphere will be explored by considering fungi we eat, fungi which destroy our food, fungi in folklore and fungi as global nutrient recyclers. Prerequisites: BIO\_SC 1500, BIO\_SC 1100, or BIO\_SC 1200 or equivalent.

**PLNT\_S 3710. Introductory Entomology. 3 Credits.**

(same as BIO\_SC 3710). Holistic biology of insects, including anatomy, physiology, behavior ecology, and management. Prerequisites: BIO\_SC 1010, BIO\_SC 1020, or BIO\_SC 1500, or equivalent.

**PLNT\_S 3715. Insect Diversity. 2 Credits.**

(same as BIO\_SC 3715). Laboratory emphasizing external insect anatomy, classification, and identification to the family level. Insect collection is required. Prerequisite: concurrent enrollment or previous satisfactory completion of PLNT\_S 3710/BIO\_SC 3710.

**PLNT\_S 4002. Topics in Plant Science - Biological/Physical/Mathematics. 1-4 Credit.**

Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise.

**PLNT\_S 4313. Soil Fertility and Plant Nutrition. 3 Credits.**

(same as Soil Science [SOIL] 4313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments. Prerequisites: SOIL 2100 or instructor's consent.

**PLNT\_S 4314. Soil Fertility and Plant Nutrition Laboratory. 2 Credits.**

(same as SOIL 4314). The application of elementary analytical procedures to the evaluation of the nutrient status of soils and crop plants. Prerequisite: concurrent enrollment or previous completion of SOIL 4313.

**PLNT\_S 4315. Crop Physiology. 3 Credits.**

Basic course on crop growth and development. Emphasis is on physiological processes and morphology of crop plants, and their application to crop breeding and management decisions. Prerequisites: Plant Science [PLNT\_S] 2110 or equivalent.

**PLNT\_S 4320. Plant Physiology. 3-5 Credit.**

(same as BIO\_SC 4320). Modern physiology of higher plants using common cultivated plants as examples. May be taken with or without laboratory. Prerequisite: BIO\_SC 1500 or BIO\_SC 1200 and five hours of chemistry.

**PLNT\_S 4325. Field Crop Breeding. 3 Credits.**

Will introduce students to the application of genetics and the plant sciences to the breeding and improvement of self-pollinated field crops. Classical, current and innovative plant breeding techniques will be addressed. Prerequisite: PLNT\_S 2110 and PLNT\_S 3225.

**PLNT\_S 4330. Plant Breeding Theory. 3 Credits.**

Designed to provide a logical application of genetic concepts to mating and selection theory in general improvement of cross pollinated crops. Prerequisite: PLNT\_S 3225 or equivalent.

**PLNT\_S 4340. Principles of Viticulture II. 4 Credits.**

(same as F\_S 4340). Environmental and biological factors influencing vine physiology and winegrape quality. Irrigation, canopy management, pest and disease control, budgets and current trends in viticulture. Graded on A/F basis only. Prerequisite: F\_S 3240/PLNT\_S 3240.

**PLNT\_S 4350. Nursery Crop Production and Management. 4 Credits.**

Operations, methods used by wholesale, retail, landscape nurseries. Field problems, observational trips. Prerequisites: PLNT\_S 3230 and PLNT\_S 3235.

**PLNT\_S 4355. Advanced Turfgrass Management. 3 Credits.**

Provides turfgrass majors a more informative and applicable look at mathematics of turfgrass management, application techniques, cultural practices, and soil/water relationships applicable to careers in golf course and sports turf management, lawn care, and professional grounds maintenance. Prerequisites: PLNT\_S 3355 or instructor's consent.

**PLNT\_S 4360. Precision Agriculture Science and Technology. 3 Credits.**

(same as AG\_S\_M4360 and SOIL 3460). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating

decisions and management. Prerequisites: SOIL 2100, PLNT\_S 2110 or instructor's consent.

**PLNT\_S 4365. Greenhouse Crops Production. 4 Credits.**

Production management decision and commercial culture of the major floriculture crops. Prerequisite: PLNT\_S 3260 or instructor's consent.

**PLNT\_S 4385. Problems in Plant Science. 3 Credits.**

Special problem in plant pathology designed for the minor program in Plant Pathology. Problems arranged on an individual student basis.

**PLNT\_S 4400. Plant Anatomy. 4 Credits.**

(same as BIO\_SC 4400). Comparative structure, growth of meristems; development, structure of important cell types, tissues systems; comparative anatomy of stem, root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab. Prerequisites: BIO\_SC 1200 or equivalent. Graded on A/F basis only.

**PLNT\_S 4500. Biology and Pathogenesis of Plant-Associated Microbes. 4 Credits.**

The lecture and lab will provide information on disease development in plant populations and possible control strategies combined with training in retrieving and critically reviewing research information. Prerequisites: 5 hours Biological Sciences, junior, senior or graduate standing.

**PLNT\_S 4520. Environmental Microbiology. 3 Credits.**

Fundamental knowledge of selected microbial processes that are important in agriculture, environmental detoxification, and microbial biotechnology. Emphasis is on molecular, genetic and physiological aspects of nitrogen metabolism, bioconversions, antibiosis and biocontrol.

**PLNT\_S 4710. Systematic Entomology. 5 Credits.**

Taxonomy of insects: emphasizes biology and classification of orders and major families. Insect collection required. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715 or 10 hours biological sciences.

**PLNT\_S 4720. Aquatic Entomology. 3 Credits.**

Identification, life histories, ecology of aquatic arthropods; emphasizes fresh-water insects. For students of wildlife, fisheries management, aquatic biology, advanced entomology. Prerequisites: PLNT\_S 3710, PLNT\_S 3715 and PLNT\_S 4304 or equivalent.

**PLNT\_S 4730. Insect Pest Management for Plant Protection. 3 Credits.**

History and concepts of Integrated Pest Management of insect pests, emphasizing complementary use of biological control, plant resistance, environmental manipulations, genetic manipulations, and selective use of insecticides. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715.

**PLNT\_S 4940. Internship in Plant Science. 1-3 Credit.**

Combines study, observation, and employment with an industry or government agency in area of agronomy or horticulture. Written and oral reports and faculty evaluation. Prerequisites: 60 hours including two courses in department and instructor's consent.

**PLNT\_S 4950. Undergraduate Research in Plant Science. 1-3 Credit.**

Capstone experience consisting of investigations in Plant Science in support of an undergraduate thesis or special project portfolio. Prerequisites: senior standing in Plant Science Degree Program.

**PLNT\_S 4965. Special Readings in Plant Pathology. 1-99 Credit.**

Independent readings and discussions of topics in entomology selected in consultation with supervising faculty member. Paper required.

**PLNT\_S 4975. Advanced Landscape Design. 4 Credits.**

Development of project presentation techniques by analysis of the social, cultural, historical and ecological aspects of landscape design. Prerequisites: PLNT\_S 2254, instructor's consent.

**PLNT\_S 7001. Topics. 1-4 Credit.**

Initial offering of a course(s) in a specific subject matter area. Offered when proposed by a faculty member in that area of expertise. Prerequisite: graduate standing.

**PLNT\_S 7085. Problems. 1-3 Credit.**

Advanced studies not expected to terminate in thesis. Problems arranged with individual faculty member in specific matter area. Prerequisite: instructor's consent.

**PLNT\_S 7087. Seminar. 1 Credit.**

In-depth development of advanced aspects of plant, insect, or microbial sciences through reviews of results of research in progress and current scientific publications. Graded on S/U basis only.

**PLNT\_S 7090. Nonthesis Research. 1-9 Credit.**

Original investigation not leading to preparation of thesis.

**PLNT\_S 7313. Soil Fertility and Plant Nutrition. 3 Credits.**

(same as SOIL 7313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments. Prerequisites: Graduate standing and SOIL 2110 or instructor's consent.

**PLNT\_S 7314. Soil Fertility and Plant Nutrition Laboratory. 2 Credits.**

(same as SOIL 7314). The application of elementary analytical procedures to the evaluation of the nutrient status of soils and crop plants. Prerequisite: graduate standing concurrent enrollment or previous completion of SOIL 4313/7313.

**PLNT\_S 7315. Crop Physiology. 3 Credits.**

Basic course on crop growth and development. Emphasis is on physiological processes and morphology of crop plants, and their application to crop breeding and management decisions. Prerequisites: PLNT\_S 2125 or equivalent.

**PLNT\_S 7320. Plant Physiology. 3-5 Credit.**

(same as BIO\_SC 7320). Modern physiology of higher plants using common cultivated plants as examples. May be taken with or without laboratory. Prerequisite: graduate standing and BIO\_SC 1500 or BIO\_SC 1200 and five hours of chemistry.

**PLNT\_S 7325. Field Crop Breeding. 3 Credits.**

Will introduce students to the application of genetics and the plant sciences to the breeding and improvement of self-pollinated field crops. Classical, current and innovative plant breeding techniques will be addressed. Prerequisite: graduate standing and PLNT\_S 2110 and PLNT\_S 3225.

**PLNT\_S 7330. Plant Breeding Theory. 3 Credits.**

Designed to provide a logical application of genetic concepts to mating and selection theory in general improvement of cross pollinated crops. Prerequisite: graduate standing and PLNT\_S 3225 or equivalent.

**PLNT\_S 7350. Readings. 1-3 Credit.**

Individual study of assigned topics. Prerequisite: instructor's consent.

**PLNT\_S 7355. Advanced Turfgrass Management. 3 Credits.**

Provides turfgrass majors a more informative and applicable look at mathematics of turfgrass management, application techniques, cultural practices, and soil/water relationships applicable to careers in golf course and sports turf management, lawn care, and professional grounds

maintenance. Prerequisites: PLNT\_S 3355 or instructor's consent. Graded on A/F basis only.

**PLNT\_S 7360. Precision Agriculture Science and Technology. 3 Credits.**

(same as AG\_S\_M 7360 and SOIL 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management. Prerequisites: graduate standing and SOIL 2100, PLNT\_S 2110 or instructor's consent.

**PLNT\_S 7365. Greenhouse Crops Production. 4 Credits.**

Production management decision and commercial culture of the major floriculture crops. Prerequisite: graduate standing and PLNT\_S 3260 or instructor's consent.

**PLNT\_S 7370. Small Fruit and Vegetable Production. 3 Credits.**

Emphasizes production, management and marketing practices for small fruit and vegetable crops. Prerequisites: graduate standing and PLNT\_S 2100, PLNT\_S 3230, and PLNT\_S 3235.

**PLNT\_S 7400. Plant Anatomy. 4 Credits.**

(same as BIO\_SC 7400). Comparative structure, growth of meristems; development, structure of important cell types, tissue systems; comparative anatomy of stem, root, leaf. Emphasized anatomy of gymnosperms, angiosperms. Includes lab. Prerequisites: BIO\_SC 1200 or equivalent. Graded on A/F basis only.

**PLNT\_S 7500. Biology and Pathogenesis of Plant-Associated Microbes. 4 Credits.**

Diagnosis of disease of plants caused by fungi, nematodes, viruses and bacteria. Environmental and genetic factors leading to disease development and strategies for disease management, including biotechnology. Prerequisite: 5 hours BIO\_SC.

**PLNT\_S 7710. Systematic Entomology. 5 Credits.**

Taxonomy of insects: emphasizes biology and classification of orders and suborders in lecture, and major families in lab. Insect collection required. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715 or 10 hours Biological Sciences.

**PLNT\_S 7720. Aquatic Entomology. 3 Credits.**

Identification, life histories, ecology of aquatic insects. Grading is based on lecture, lab, and a collection. For students of wildlife, fisheries management, aquatic biology, advanced entomology. Prerequisites: PLNT\_S 3710, PLNT\_S 3715 or equivalent or instructor's consent.

**PLNT\_S 7730. Insect Pest Management for Plant Protection. 3 Credits.**

History and concepts of Integrated Pest Management for insects pests, emphasizing complementary use of biological control, plant resistance, environmental manipulations, genetic manipulations, and selective use of insecticides. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715.

**PLNT\_S 7820. Principles of Insect Physiology. 4 Credits.**

Major concepts of insect physiology emphasizing functions of organ-systems sensory physiology hormones in development, nutrition. Prerequisites: graduate standing PLNT\_S 3710, PLNT\_S 3715 and PLNT\_S 7810 or equivalent.

**PLNT\_S 7965. Readings in Plant Stress Biology. 1-9 Credit.**

Independent readings and discussion of recent research publications. Topics selected in consultation with supervisory faculty member. Prerequisite: instructor's consent.

**PLNT\_S 7970. Readings in Molecular Ecology of Herbivory. 1 Credit.**

The application of molecular biology tools to the rich history of chemical, physiological, population, and multi-trophic ecology studies on plant herbivore interactions has made for an exciting, fast-paced field at the forefront of ecology, 'functional biology' and 'systems biology'. Prerequisites: instructor's consent; graduate standing.

**PLNT\_S 7975. Advanced Landscape Design. 4 Credits.**

Development of project presentation techniques by analysis of the social, cultural, historical and ecological aspects of landscape design. Prerequisites: graduate standing and PLNT\_S 2254, instructor's consent.

**PLNT\_S 8001. Topics. 1-4 Credit.**

Instruction in specific subject matter areas in plant, insect or microbial sciences. Prerequisite: graduate standing and instructor's consent.

**PLNT\_S 8010. Professionalism and Ethics. 2 Credits.**

Ethical issues in the conduct of scientific research including data integrity, plagiarism, and intellectual property. Scientific writing, lab management, peer review and other professional skills for the life sciences. Prerequisite: graduate standing. Graded on A/F basis only.

**PLNT\_S 8090. Thesis Research. 1-10 Credit.**

Original investigations in plant, insect or microbial science in support of thesis for master's candidates. Graded on S/U basis only.

**PLNT\_S 8330. Molecular Breeding. 3 Credits.**

Development of Molecular Breeding, Evolution of Transgenics, Transformation and Gene Transfer Methods, Transgenics in the Food Supply Genetics and Marker Technology, Genotyping Methods for Marker Assisted Selection (MAS, and Emerging Transgenic and Genotyping Technologies. Graded on A/F basis only. Prerequisites: Plant Science [PLNT\_S] 3225.

**PLNT\_S 8362. Introduction to Plant Metabolism. 2 Credits.**

(same as BIO\_SC 8362 and BIOCHM 8362). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant metabolism. Graded on A/F basis only.

**PLNT\_S 8365. Introduction to Molecular Cell Biology. 2 Credits.**

(same as BIOCHM 8365 and BIO\_SC 8365). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis on plant biology. This course examines the basic concepts and techniques used to understand molecular cell biology. Graded on A/F basis only.

**PLNT\_S 8410. Advanced Weed Science. 3 Credits.**

Discussion of herbicide physiology and fate in the environment, current development in weed science theory and methodology, and application of analytical procedures in weed research. Prerequisite: PLNT\_S 3210 and graduate standing.

**PLNT\_S 8420. Herbicide Mode of Action and Symptomology. 2 Credits.**

Designed for graduate students to gain an understanding of the in-depth processes by which herbicides interrupt normal plant growth and development at a tissue, cellular, and enzymatic level while learning to diagnose visual symptoms associated with herbicide injury. Prerequisites: PLNT\_S 3210; instructor's consent. Course maybe repeated for credit. Graded on A/F basis only.

**PLNT\_S 8505. Introduction to Plant Stress Biology. 2 Credits.**

(same as BIO\_SC 8505) This course is part of a series that aims to provide a solid conceptual foundation to interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant stress biology. Graded on A/F basis only.

**PLNT\_S 8530. Research with Plant Stress Agents. 3 Credits.**

Students will learn key research strategies for abiotic and biotic plant stress agents. Students will complete two focused hands-on projects. Prerequisites: PLNT\_S 7500 and PLNT\_S 7510 or PLNT\_S 7315, or PLNT\_S 7320, or equivalent. Graduate standing required. Graded A/F only.

**PLNT\_S 8650. Ecological and Evolutionary Genomics. 2 Credits.**

(same as BIO\_SC 8650). This course is designed to give a background in evolution and then explore an exciting new field: Ecological and evolutionary genomics. We will study genes that affect fitness and how whole genomes evolve. Graded on A/F basis only.

**PLNT\_S 8720. Insect Behavior. 3 Credits.**

An examination of the breadth of behaviors found in insects, such as orientation mechanisms, communication, dispersal and migration, defensive mechanisms, lost location, feeding strategies, pollination, courtship and reproduction, and social behavior. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715 or 10 hours of Biological Sciences.

**PLNT\_S 9001. Topics. 1-4 Credit.**

Instruction in specific subject matter areas in plant, insect or microbial sciences. Prerequisites: graduate standing and instructor's consent.

**PLNT\_S 9087. Seminar in Plant Science. 1 Credit.**

In-depth development of advanced aspects of plant, insect and microbial sciences through reviews of results of research in progress and current scientific publications. Graded on A/F or S/U basis dependent on section.

**PLNT\_S 9090. Dissertation Research. 1-10 Credit.**

Original investigations in plant, insect or microbial science in support of dissertation for doctoral candidates. Graded on a S/U basis only.

**PLNT\_S 9310. Ecology of Grazing Lands Systems. 3 Credits.**

Students travel to grazing lands ecosystems to learn: the components and function of grazing lands; research techniques in soil-plant-animal research; forage-livestock ecology; and the role of forages in conservation practices, wildlife habitat, and sustainable agriculture. Prerequisite: instructor's consent.

**PLNT\_S 9415. Advanced Plant Physiology. 1-3 Credit.**

Advanced course in the physiology of plant growth and development. Discussion of current and classical studies in plant physiology with emphasis on responses to environmental variation. Prerequisite: PLNT\_S 4315 or PLNT\_S 4320 or equivalent. Instructor consent required.

**PLNT\_S 9420. Transport and Metabolism of Plant Nutrients. 3 Credits.**

Current and classical concepts in (1) transport of nutrients across plant root membranes and translocation of nutrients in the plant, (2) metabolism and function of plant nutrients and (3) stress caused by mineral imbalances and/or pathogens. Prerequisites: PLNT\_S 4315 or PLNT\_S 4320, and PLNT\_S 4313, and BIOCHM 4270 or equivalent.

**PLNT\_S 9425. Advanced Plant Breeding. 3 Credits.**

Will explore theoretical and applied topics in plant breeding through an examination of classical and current literature. The course will integrate conventional breeding concepts and methodology with current

biotechnical approaches to plant improvement. Prerequisite: PLNT\_S 3225, PLNT\_S 4325, PLNT\_S 4330 and STAT 4530.

**PLNT\_S 9440. Applied Quantitative and Statistical Genetics. 3 Credits.**

Estimation of genetic effects using means and variances, diallel analysis, environmental stability responses, index selection, and gain from selection. Prerequisite: PLNT\_S 4330, STAT 4510, STAT 4530, AN\_SCI 9423, or equivalent.

**PLNT\_S 9470. Genome Sciences. 3 Credits.**

This course examines the concepts and techniques used to understand an organism's genome at the structural and functional level. Microbial, mammalian, and plant species are represented. Genomics is a rapidly evolving field and the aim is to present the most current perspective in understanding structural and functional aspects. Students are expected to apply critical thinking skills in problem solving, literature reviews, and in class discussions. Graded on A/F basis only. Prerequisites: BIO\_SC 2200 or PLNT\_S 3213 or PLNT\_S 3225.

**PLNT\_S 9540. Genetics of Plant-Microorganism Interaction. 3 Credits.**

Molecular and general genetics of the interactions between plants and pathogenic or symbiotic microorganisms. Prerequisites: PLNT\_S 7500 and PLNT\_S 7510, one course each in Biochemistry and Genetics.

**PLNT\_S 9810. Insect Ecology. 3 Credits.**

Ecological aspects of insect populations and communities including population dynamics, predator-prey interactions, competition, diversity and stability. Quantitative methods are emphasized. Prerequisites: PLNT\_S 3710 and PLNT\_S 3715, STAT 1400 and BIO\_SC 3650 or instructor's consent.

## Political Science (POL\_SC)

---

**POL\_SC 1004. Topics in Political Science - Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**POL\_SC 1100. American Government. 3 Credits.**

Topics covered include Constitution, federalism, civil liberties, political attitudes, interest groups, political parties, nominations, elections, and campaigns, voting behavior, Congress, Presidency, bureaucracy, and judiciary. Meets state law requirement.

**POL\_SC 1100H. American Government - Honors. 3 Credits.**

Topics covered include Constitution, federalism, civil liberties, political attitudes, interest groups, political parties, nominations, elections, and campaigns, voting behavior, Congress, Presidency, bureaucracy, and judiciary. Meets state law requirement. Honors eligibility required.

**POL\_SC 1400. International Relations. 3 Credits.**

Contemporary international affairs including family of nations, control of national foreign policies, competition and cooperation in legal, political, economic, social fields.

**POL\_SC 1400H. International Relations - Honors. 3 Credits.**

Contemporary international affairs including family of nations, control of national foreign policies, competition and cooperation in legal, political, economic, social fields. Honors eligibility required.

**POL\_SC 2004. Topics in Political Science - Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: departmental consent for repetition.

**POL\_SC 2100. State Government. 3 Credits.**

Government and politics at the state level, with emphasis on Missouri. Meets state law constitutional requirement.

**POL\_SC 2200. The Judicial Process. 3 Credits.**

Analysis of roles played by American judges and courts in democratic policy formation.

**POL\_SC 2600. Canadian Politics and Government. 3 Credits.**

Introductory survey of Canada, including constitutional development, governmental institutions, political participation, and Canadians' political attitudes and behaviors. Prerequisite: sophomore standing.

**POL\_SC 2700. Comparative Political Systems. 3 Credits.**

Analysis of major political systems selected from Europe, Asia, Africa, and Latin America, emphasizing basic concepts of comparative political study. Prerequisites: Political Science [POL\_SC] 1100.

**POL\_SC 2700H. Comparative Political Systems - Honors. 3 Credits.**

Analysis of major political systems selected from Europe, Asia, Africa, and Latin America, emphasizing basic concepts of comparative political study. Prerequisites: Political Science [POL\_SC] 1100. Honors eligibility required.

**POL\_SC 2720. European Democracies. 3 Credits.**

This course provides an introduction to the institutions and issues in contemporary European political systems. It covers domestic institutions and policies as well as the developments of the European Union. Prerequisites: sophomore standing.

**POL\_SC 2800. Introduction to Political Theory. 3 Credits.**

Selected great political theorists and their contemporary relevance. How to think critically about political ideas and ideologies. Prerequisite: sophomore standing.

**POL\_SC 2860. American Political Thought. 3 Credits.**

Examines major themes that shaped three centuries of American political thought, including slavery, religion, and the tension between unity and difference. Readings are drawn from primary sources (Jefferson, Adams, Mason, Tocqueville, Calhoun, Lincoln, Stowe, Baldwin) as well as contemporary analytic commentary on those sources (Bercovitch, Hartz, Wolin, Guinier, Morrison). Prerequisite: sophomore standing.

**POL\_SC 3000. Introduction to Political Research. 3 Credits.**

This course is an introduction to the systematic analysis of political phenomenon. It examines the meaning of "explanation" and "causal reasoning," and research strategies designed to make valid causal inferences. The course overview experimental design, measurement, hypothesis formulation and testing, and the display of information, using substantive examples from two or more fields of political science for illustrative purposes. Prerequisite: sophomore standing.

**POL\_SC 4000. Introductory Statistics for Political Science. 3 Credits.**

Basic course in applied statistics and inference using extensive examples from voting behavior, congressional behavior, international relations and public policy. Topics included nonparametric measures, probability, and rudimentary hypothesis testing; computer applications with political data using SAS. Prerequisites: Mathematics [MATH] 1100/1120 or equivalent, concurrent enrollment in Political Science [POL\_SC] 4010. Math Reasoning Proficiency Course.

**POL\_SC 4004. Topics in Political Science - Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. Prerequisite: instructor's consent.

**POL\_SC 4010. Computing Methods. 1 Credit.**

Develops computer-based skills with political science data. SAS, and other packages used in mainframe and PC environments. Graded on S/U basis only. Prerequisite: concurrent enrollment in Political Science [POL\_SC] 4000.

**POL\_SC 4030. Formal Political Analysis. 3 Credits.**

Introductory course in formal mathematical models of political behavior and political institutions. Topics includes electoral rules, agenda control, measures of power, collective action, constitutions. Prerequisites: Mathematics [MATH] 1100/1120 or equivalent.

**POL\_SC 4100. Political Parties and Election Campaigns. 3 Credits.**

Development, organization, functions, activities of major and minor political parties; principles and procedures of managing campaigns; campaign finance; election administration. Prerequisites: Political Science [POL\_SC] 3000.

**POL\_SC 4110. Political Behavior. 3 Credits.**

Economic, psychological, and social dimensions of political behavior; participation, leadership and elites; political attitudes; voting behavior and decision-making processes. Prerequisite: Political Science [POL\_SC] 3000.

**POL\_SC 4120. Politics and the Media. 3 Credits.**

The role and importance of mass media in the political process, primarily the U. S. Constitutional protections of the press, politics of media control, political news and advertising, effects of information on election campaigns, political institutions, and policymaking. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4130. African-American Politics. 3 Credits.**

(same as Black Studies [BL\_STU] 4130). Surveys political participation of African-Americans in American politics. Analyzes their public lives in the context of elections, behavior of political organizations, social movements, parties, and level of government. Prerequisites: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4140. Congress and Legislative Policy. 3 Credits.**

Study of national and state legislative systems and legislative policy making, with emphasis on Congress. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4150. The American Presidency. 3 Credits.**

Evolution of the presidency; particular emphasis on constitutional and political roles played by chief executive in shaping public policy. Prerequisites: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4160. Interest Groups. 3 Credits.**

Development, organization, functions, activities, internal politics of special interest groups such as business, labor, agricultural and public interest groups; lobbying and techniques for influencing public policy in the American political system. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4170. Politics of the American South. 3 Credits.**

This course focuses on the politics of the American South in the latter part of the 20th century and the early years of the current millennium. For undergraduate credit only. Prerequisite: Political Science [POL\_SC] 1100, junior standing or instructor's consent.

**POL\_SC 4200. The American Constitution. 3 Credits.**

Leading American constitutional principles as they have evolved through important decisions of the United States Supreme Court. Prerequisites: Political Science [POL\_SC] 1100; junior standing.

**POL\_SC 4210. Constitutional Rights. 3 Credits.**

Survey of Supreme Court cases involving the Constitution's protections for life, liberty, and property and guarantee of equal protection of the law. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4220. The United States Supreme Court. 3 Credits.**

Role of Supreme Court in American system of government; particular attention given to reading biographies and writings of the Justices. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4230. Constitution and Civil Liberties. 3 Credits.**

Civil liberties in the American constitutional context emphasizing freedom of expression (religion, speech, press, assembly), rights of accused and right to privacy. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4310. Comparative State Politics. 3 Credits.**

Analyzes similarities and differences of state politics and the ways in which such politics are shaped by political and socioeconomic environments of the states. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4320. Public Policy. 3 Credits.**

Introduction to the study of public policy in the United States. Analyzes public policy choices at the national, state and local level and the variety of forces which serve to shape policy decisions. Prerequisite: Political Science [POL\_SC] 1100, and junior standing.

**POL\_SC 4370. Issues in Public Bureaucracy. 3 Credits.**

Investigates selected political and administrative problems affecting public bureaucratic units. Context varies. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4380. Politics of Criminal Justice. 3 Credits.**

Course explores the political motivations for and the substantive consequences of state and federal criminal justice policy in the United States. Prerequisite: junior or senior standing.

**POL\_SC 4400. Theories of International Relations. 3 Credits.**

Surveys Theories of International Relations. Analyzes conceptions of decision-making, foreign policy behavior and international society. Prerequisite: junior standing.

**POL\_SC 4410. Politics and War. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4410). Why do wars occur? The functions of force and uses of a threat of force. Problems of national security strategy and arms control. Prerequisite: junior standing.

**POL\_SC 4411. Genocide, Terrorism and Civil War. 3 Credits.**

This course explores the conditions that lead to the initiation, escalation and termination of civil wars as well as the causes and targets of terrorism and the effects of genocide.

**POL\_SC 4412. Strategy and Warfare. 3 Credits.**

Examines strategic theory, traditional forms of warfare (on land, sea, and in the air), as well as irregular warfare and terrorism. Additional topics include weapons of mass destruction, deterrence, and technology. Prerequisite: junior standing or instructor's consent.

**POL\_SC 4415. Peacekeeping and Intervention. 3 Credits.**

This course will survey the causes and consequences of peacekeeping and intervention as well as assess the conditions that lead to successful and failed missions. Prerequisite: junior standing.

**POL\_SC 4420. Politics of International Economic Relations. 3 Credits.**

Study of reciprocal interaction between global politics and economics. Includes politics of north/south relations, multinational non-state actors, arms transfers and dependency. Prerequisites: junior standing.

**POL\_SC 4440. International Organization. 3 Credits.**

Forms and functions of governmental (United Nations, European Union, NATO) and nongovernmental international organizations. Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4500. The European Union in the Global System. 3 Credits.**

Provides an understanding of the European Union from the perspective of international relations and comparative politics. Topics covered pertain to the institutions, politics and policies of the European Union and its member states. Prerequisites: Political Science [POL\_SC] 1100, 1400 and junior standing.

**POL\_SC 4540. American Foreign Policies. 3 Credits.**

Bases, formulation, evaluation of current American foreign policies. Prerequisite: junior standing.

**POL\_SC 4600. Latin American Politics. 3 Credits.**

Development, present status of political institutions in South America; emphasizes current political problems. Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4605. Latin American Politics through Film. 3 Credits.**

This course provides an introduction to Latin American politics using the medium of film to illustrate the complexities of political development, regime change, revolutionary movements, and problems facing new democracies such as crime, poverty, drugs, and democratic stability.

**POL\_SC 4610. European Political Systems. 3 Credits.**

Comparison of political cultures, institutions, and processes of Britain, France, West Germany, and selected smaller countries in Western Europe. Prerequisite: junior standing.

**POL\_SC 4640. African Politics. 3 Credits.**

(same as Black Studies [BL\_STU] 4640). A general comparative course focusing on post-independent Africa. Theories and concepts related to decolonization, nationalism, democratization, and ethnicity; also institutional forms and organizations: political parties, parliaments, and executives. Prerequisite: Political Science [POL\_SC] 1100 and junior standing.

**POL\_SC 4660. Canada in North America. 3 Credits.**

This course focuses on the role of Canada in North America. The main topic areas include the evolution of Canada as a political system; political structures and processes; regionalism and social movements; political, economic and social connections with North America; and the future of Canada in North America. Prerequisite: Political Science [POL\_SC] 2600.

**POL\_SC 4670. The Political System of the European Union. 3 Credits.**

This course examines the politics, political actors, and institutions of the European Union from a comparative perspective. It questions whether we can view the EU as a federal democratic system similar to the U.S. Prerequisites: Political Science [POL\_SC] 1100 and Junior or Senior standing or consent of instructor.

**POL\_SC 4710. Terrorism: Religious, Ethnic and Ideological Politics. 3 Credits.**

Terrorism as political violence extending beyond the acts themselves. Examines major modern movements, e.g. Northern Ireland, Basques (Spain), Germany, Algeria, Arab-Israeli, Iran, India, Sri Lanka, Peru, Argentina, Uruguay. Prerequisite: junior standing.

**POL\_SC 4720. Politics of Development. 3 Credits.**

(same as Black Studies [BL\_STU] 4720). Comparative, interdisciplinary analysis of the politics of developing countries in Asia, Africa, and Latin America. Special attention given to the problems of political and socioeconomic development. Prerequisites: junior standing or instructor's consent.

**POL\_SC 4730. Women and Politics. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4730). This course examines women's political participation and public policies towards women in countries around the world. Prerequisites: Political Science [POL\_SC] 1100; junior standing.

**POL\_SC 4740. Comparative Political Culture. 3 Credits.**

Review of the many divergent conceptions of political culture and examination of the dynamics and consequences for the performance of political systems and the behavior of their citizenry. Comparison of particular cultures of selected regions including East Asia, Europe and the Middle East, Latin America, and North America. Prerequisite: junior standing.

**POL\_SC 4750. Power and Money. 3 Credits.**

This course provides an introduction to comparative political economy by focusing on the following questions. How and why do governments promote economic prosperity? Does democracy make people richer or poorer? Is it true that "money is power"? Can poor countries enjoy a stable democracy? Prerequisite: junior standing.

**POL\_SC 4760. Comparative Political Parties. 3 Credits.**

This course will explore political parties and party systems in democracies around the world. The course will focus on differences in the number, size, ideology, polarization, and functions of political parties. Prerequisites: Political Science [POL\_SC] 2700 and Junior standing or consent of instructor.

**POL\_SC 4770. Comparative Political Behavior. 3 Credits.**

Explores research questions related to cross-national differences and similarities in public opinion formation, political culture and values, voting behavior, and other forms of political participation. Violent forms of political participation are also considered. Prerequisite: Junior Standing and Political Science [POL SC] 1100. Graded on A/F basis only.

**POL\_SC 4800. Classical Political Theory. 3 Credits.**

Great Greek, Roman, and Medieval political theorists on the relation of psychology, ethics, politics, and the best form of government. Prerequisite: junior standing or instructor's consent.

**POL\_SC 4810. Modern Political Theory. 3 Credits.**

Great political theorists from Machiavelli through Marx on the nation state, capitalism, liberalism, conservatism, and Marxism. Prerequisite: junior standing or instructor's consent.

**POL\_SC 4820. Contemporary Political Theory. 3 Credits.**

Great contemporary thinkers on Western vs. Eastern Marxism, existentialism, critical theory, political theologies, postmodernism, feminism, environmentalist ideologies, biological approaches to politics. Prerequisite: junior standing or instructor's consent.

**POL\_SC 4830. Democracy in America (and Elsewhere). 3 Credits.**

This course focuses on the dynamics of democracy. We will explore various topics in the history, development, and practice of democracy through an examination of the writings of Alexis de Tocqueville, one of the most insightful and prescient observers of American political culture. Prerequisites: Political Science [POL\_SC] 1000 and Junior standing.

**POL\_SC 4840. Developing Dynamics of Democracy. 3 Credits.**

This course examines developments in the theory and practice of democracy from the ancient Greeks to the present. Beginning with the origins of democracy in the Hellenic city states, we consider the transformation of democratic concepts in the classical liberal period, review the development of democratic institutions in the United States and Europe, examine the emergence of supra-national democratic institutions such as the European Union, and assess the future of democratization in the 21st century. Prerequisite: POL\_SC 1100.

**POL\_SC 4890. Contemporary Political Analysis. 3 Credits.**

This course introduces public choice writings. Public choice applies economic methods to the study of politics. Topics covered include the appropriate size of the state, how individuals organize to achieve shared goals and how voters chose in elections. Prerequisite: junior standing or instructor's consent.

**POL\_SC 4940. Political Science Internship. 3-6 Credit.**

Work experience in a public or private organization that is relevant to the political science major coordinated by a faculty member. Prerequisites: junior standing with a 3.0 GPA; or senior standing with 2.67 GPA. Must be in good standing.

**POL\_SC 4985. Problems in Political Science. 1-99 Credit.**

Independent investigation to meet needs of the individual student. Prerequisite: instructor's consent.

**POL\_SC 4986. Special Readings in Political Science. 1-99 Credit.**

Independent readings selected in consultation with supervisory faculty member. Prerequisite: instructor's consent.

**POL\_SC 4995. Political Science Capstone. 3 Credits.**

Readings and discussions in selected areas of political science (comparative, American, international affairs, public administration/policy or theory). Subject depends on instructor. Prerequisites: political science major, senior standing.

**POL\_SC 4996. Political Science Capstone, Honors. 1-6 Credit.**

Special readings, reports in the several fields of political science. For political science Honors students. Prerequisite: senior standing. Honors eligibility required.

**POL\_SC 7000. Introductory Statistics for Political Science. 3 Credits.**

Basic course in applied statistics and inference using extensive examples from voting behavior, congressional behavior, international relations and public policy. Topics included nonparametric measures, probability, and rudimentary hypothesis testing; computer applications with political data using SAS. Prerequisites: graduate standing and Mathematics [MATH] 1100/1120 or equivalent, concurrent enrollment in Political Science [POL\_SC] 4010.

**POL\_SC 7010. Computing Methods. 1 Credit.**

Develops computer-based skills with political science data. SAS, and other packages used in mainframe and PC environments. Graded on S/U basis only. Prerequisite: concurrent enrollment in Political Science [POL\_SC] 4000.

**POL\_SC 7085. Problems in Political Science. 1-99 Credit.**

Individual study in one of the fields of Political Science. Prerequisite: graduate standing and instructor's consent.

**POL\_SC 8085. Master Research in Political Science. 1-99 Credit.**

Independent research not leading to a thesis. Graded on S/U basis only. Prerequisite: instructor's consent.

**POL\_SC 8090. Masters Research in Political Science. 1-99 Credit.**

Independent research leading to thesis. Graded on S/U basis only. Prerequisite: graduate standing.

**POL\_SC 9000. Scope and Methods. 3 Credits.**

Examines the major fields in the discipline, assumptions underlying empirical social science and theoretical issues in the study of politics. Primarily for doctoral candidates in political science. Prerequisite: graduate standing.

**POL\_SC 9030. Linear Models in Politics. 3 Credits.**

Linear and non-linear multivariate estimation techniques with applications to political science research. Prerequisite: graduate standing.

**POL\_SC 9040. Advanced Political Methodology. 3 Credits.**

Analytic strategies and statistical models applicable to social science research. Emphasis on modeling political phenomena. Topics vary, include linear and nonlinear models, multidimensional scaling. Prerequisite: graduate standing.

**POL\_SC 9050. Introduction to Formal Political Theory. 3 Credits.**

Formal and mathematical models of political institutions and behavior. Topics may include social choice, game theory, spatial models, coalition formation. Prerequisite: graduate standing.

**POL\_SC 9085. Problems in Political Science. 1-99 Credit.**

For graduate students with necessary prerequisite courses. Topics in one of the fields of political science for individual study. Prerequisite: graduate standing.

**POL\_SC 9090. Ph D Research in Political Science. 1-99 Credit.**

Independent research leading to thesis. Graded on a S/U basis only. Prerequisite: graduate standing.

**POL\_SC 9100. American Political Behavior. 3 Credits.**

Critical examination of literature on political behavior in the United States. Topics include voting and elections, public opinion, parties and interest groups, political psychology, communication, elites, and collective action. Prerequisite: graduate standing.

**POL\_SC 9120. Voting and Elections. 3 Credits.**

Research seminar on political participation, voter choice, campaigns, and elections, primarily in the United States. Covers theories, approaches and research on electoral behavior. Prerequisite: graduate standing.

**POL\_SC 9140. American Political Institutions. 3 Credits.**

Critical examination of literature on political institutions in the United States. Topics include Congress, the Presidency, courts, the bureaucracy, political organizations, federalism, and institutional dynamics. Prerequisite: graduate standing.

**POL\_SC 9150. Political Parties. 3 Credits.**

Research seminar on the organization and activities of political parties, primarily in the United States. Attention to historical development, nature of party change, functions, elites, membership, political finance, and policy formulation. Prerequisite: graduate standing.

**POL\_SC 9160. Interest Groups. 3 Credits.**

Research seminar on nonpartisan organizations seeking to influence the public policy agenda. Includes problems of collective action, mobilization and organization of interest groups, strategies and tactics, lobbying, political movements, theories and research. Prerequisite: graduate standing.

**POL\_SC 9170. Legislative Institutions. 3 Credits.**

Research seminar on the U.S. Congress and legislative institutions generally. Topics include the legislative process, policy change, committees, political parties, leadership, representation, and relations with other branches of government. Prerequisite: graduate standing.

**POL\_SC 9175. Evolution of American Legislatures, 1619 to the Present. 3 Credits.**

Examination of the organizational evolution of American legislatures from the colonial era to the present. Graduate Standing Required.

**POL\_SC 9190. Research in American Politics. 3 Credits.**

Directed research into one or more specific aspects of American Politics, behavior, and institutions. Prerequisite: graduate standing.

**POL\_SC 9220. Constitutional Law: Institutions and Powers. 3 Credits.**

Research seminar on powers and constraints on government found in the U.S. Constitution. Topics include separation of powers, federalism, legislative and presidential power, the commerce clause, taxing and spending. Prerequisite: graduate standing.

**POL\_SC 9230. Public Law. 3 Credits.**

Research seminar on the judicial process in the United States. Prerequisite: graduate standing.

**POL\_SC 9240. Racial and Ethnic Politics. 3 Credits.**

Theories, institutional processes, and behaviors pertaining to social defined racial and ethnic groups. Topics include social dominance, representation, mobilization, public opinion, and the influence of racial and ethnic factors on the American political process. Prerequisite: graduate standing.

**POL\_SC 9300. Federalism and Intergovernmental Relations. 3 Credits.**

Analyzes relationships among American governmental units emphasizing national-state relations and metropolitan area problems. Prerequisite: graduate standing.

**POL\_SC 9310. Public Policy. 3 Credits.**

Covers the basic theory, approaches, problems and issues relating to the scope, development and implementation of public policy. Prerequisite: graduate standing.

**POL\_SC 9320. Administrative Politics. 3 Credits.**

Critical examination of literature relating to selected topics in public bureaucracies. Prerequisite: graduate standing.

**POL\_SC 9330. Research in Policy and Administration. 3 Credits.**

Contemporary research in public policy, bureaucratic politics, public management and administration.

**POL\_SC 9350. Public Policy, Processes and Strategies. 3 Credits.**

Provides an overview of the history, function, size, scope, development, and management of the nonprofit sector. Historical, political, economic, and social perspectives are used to examine the meaning of voluntarism, charity, philanthropy, and the nonprofit sector. Graded on A/F basis.

**POL\_SC 9390. Administration and Public Policy. 3 Credits.**

Directed research in Public Administration or Public Policy. Inquire as to the emphasis for any given semester. Prerequisite: graduate standing.

**POL\_SC 9400. Introduction to International Relations. 3 Credits.**

Analysis, evaluation of some basic theories which attempt to explain international affairs. Prerequisite: graduate standing.

**POL\_SC 9420. Quantitative Approaches in International Relations. 3 Credits.**

Research seminar emphasizing quantitative analysis of large data sets on international politics, especially international conflict. Topics include conflict escalation, correlates of war, deterrence, alliance behavior and the democratic peace. Prerequisite: graduate standing.

**POL\_SC 9430. International Political Economy. 3 Credits.**

Theories of political economy and current problems such as North-South relations, international trade, monetary relations, aid regimes, and international divisions of labor. Prerequisite: graduate standing.

**POL\_SC 9440. Foreign Policy Analysis. 3 Credits.**

Research seminar assessing foreign policy decisions and outcomes with particular attention given to decision-making. Both theoretical and empirical methods for testing foreign policy are considered. Approaches include domestic politics, bureaucratic, and psychological models.

**POL\_SC 9450. International Conflict. 3 Credits.**

This is an advanced seminar in international conflict. The range of material that might be included is vast, so an effort will be made to balance overall coverage with the need to look in more depth at some especially salient areas in the literature. The seminar unfolds in five parts. Prerequisite: graduate standing.

**POL\_SC 9460. Coercive Diplomacy. 3 Credits.**

Research seminar on how nations apply political and economic sanctions on other nations in order to compel or entice changes in foreign policy and/or government behavior. How threats (short of conflict) and incentives govern international relations. Prerequisite: graduate standing.

**POL\_SC 9470. Theories of Civil War. 3 Credits.**

Seminar on why groups may engage in violence against the state or other opposition groups. Topics include causes of civil wars, terrorism as a strategy of violence and possible solutions including third party security, partition, intervention, power sharing and treaty design. Graded on A/F basis only.

**POL\_SC 9480. Human Security. 3 Credits.**

Seminar on cross-national civil, political, economic, social, and cultural rights. The determinants of human security issues and the efficacy and dynamics of efforts from intergovernmental organizations, foreign aid, peacekeeping, interventions, and treaties on human rights.

**POL\_SC 9490. Selected Themes in International Relations. 3 Credits.**

Intensive study of foreign policy formulation and implementation; special emphasis on American foreign policies. Prerequisite: graduate standing.

**POL\_SC 9600. Introduction to Comparative Politics. 3 Credits.**

Study of theories and approaches to comparative politics in Europe, Asia and/or Latin America. Prerequisite: graduate standing.

**POL\_SC 9610. Latin American Politics. 3 Credits.**

Research seminar on politics and government in Central and South America. Topics include modernization and dependency theories, civil-military relations, economics adjustment, democratic transitions, and area and country studies. Prerequisite: graduate standing.

**POL\_SC 9620. Politics of Industrial Societies. 3 Credits.**

Comparative analysis of public policy in Western democracies. Emphasis on economic policy and related policy areas. Comparisons of Western European countries with United States, Japan, Russia when appropriate. Prerequisite: graduate standing.

**POL\_SC 9640. East Asian Politics. 3 Credits.**

Intensive study of selected topics in the internal and external politics of China, Japan and Korea. Prerequisite: graduate standing.

**POL\_SC 9650. African Politics. 3 Credits.**

Research seminar on comparative African politics. Theory and research on sub-Saharan post-independence governance on the African continent. Prerequisite: graduate standing.

**POL\_SC 9670. European Transitions. 3 Credits.**

Research seminar comparing post-communist transitions with those from previous European transformations along economic, political, and social lines. The course focuses on testing theories and on comparing transitional experiences in search of generalizable results. Prerequisite: graduate standing.

**POL\_SC 9680. Politics of Development. 3 Credits.**

Research seminar on the politics of development in the developing world. Examines the relationship between political and economic change in Africa, Asia and Latin America, as well as global patterns. Prerequisite: graduate standing.

**POL\_SC 9700. Democratization. 3 Credits.**

Research seminar on the third wave of democratization. Classical and contemporary conceptions of democracy, measurement, theories, trends, and influences on democratization across the globe. Prerequisite: graduate standing.

**POL\_SC 9710. Comparative Political Economy. 3 Credits.**

Interdisciplinary, comparative analysis of political aspects of political economy, rural development, and related issues. Prerequisite: graduate standing.

**POL\_SC 9720. Comparative Political Institutions. 3 Credits.**

Research seminar on comparative political institutions. Debates in comparative politics on the influence of rules and institutions on political decisions in developed democracies. Topics include political parties, legislatures, governments, and electoral rules. Prerequisite: graduate standing.

**POL\_SC 9760. Comparative Political Parties. 3 Credits.**

This course will analyze cross-national differences in the size and nature of party systems in established democracies. Graded on A/F basis only.

**POL\_SC 9790. Seminar in Comparative Politics. 3 Credits.**

Comparative study of selected aspects of political systems. Variable content. May be repeated for credit. Prerequisite: graduate standing.

**POL\_SC 9901. Topics in Political Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. Prerequisites: graduate standing.

**POL\_SC 9910. Leadership in Civic Education. 3 Credits.**

Intensive workshop for Missouri secondary social studies teachers. Includes instructional materials on U.S. and Missouri governments, lectures by leading scholars, breakout sessions, and interactions with government practitioners. Prerequisite: graduate standing.

**POL\_SC 9970. Independent Readings for Ph.D. Comprehensive Examinations. 1-9 Credit.**

Graded on S/U basis only. Prerequisite: graduate standing.

---

## Portuguese (PORT)

---

### **PORT 1100. Elementary Portuguese I. 6 Credits.**

Elementary Portuguese I is designed to give students an overview of the grammar and syntax of Portuguese. Emphasis is on oral and listening skills with some reading and writing.

### **PORT 1200. Elementary Portuguese II. 6 Credits.**

Elementary Portuguese II is designed to give students an overview of the grammar and syntax of Portuguese. Emphasis is on oral and listening skills with some reading and writing. Prerequisite: grade of C- or better in Portuguese [PORT] 1100 or its equivalent.

### **PORT 2001. Topics in Portuguese-General. 1-3 Credit.**

Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.

### **PORT 2005. Topics in Portuguese-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.

### **PORT 2160. Intermediate Portuguese. 3 Credits.**

Review of grammar through Brazilian culture. Designed for students who have taken either Portuguese 1200 or Portuguese 4070 and wish to continue studying the language. Prerequisite: Portuguese [PORT]1200 OR 4070.

### **PORT 2310. Brazilian Civilization. 3 Credits.**

Survey of Brazilian history, arts and culture. Open to any student interested. No knowledge of Portuguese required. Prerequisite: sophomore standing.

### **PORT 3001. Topics in Portuguese-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: sophomore standing, departmental consent for repetition.

### **PORT 3005. Topics in Portuguese-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: sophomore standing, departmental consent for repetition.

### **PORT 3160. Advanced Portuguese Composition and Conversation. 3 Credits.**

Development of more sophisticated skills of written and oral expression. Prerequisite: Portuguese [PORT] 2160.

### **PORT 3420. Survey of Brazilian Literature. 3 Credits.**

Masterpieces of Brazilian literature in translation from its origins to present. Prerequisites: sophomore standing.

### **PORT 3875. Brazilian Cinema. 3 Credits.**

(same as Film Studies [FILM\_S] 3875). An introduction to Brazilian cinema, culture and society through the study of contemporary cinematic productions. Topics include: Hollywood perceptions of Brazil; re-definitions of national identity and history, representations of race and gender. Prerequisite: English [ENGLISH] 1000.

### **PORT 4070. Intensive Beginning Portuguese. 3 Credits.**

Designed for rapid acquisition of a reading knowledge of Portuguese. Cannot be taken to fulfill undergraduate language requirement. Prerequisites: instructor's consent.

### **PORT 4960. Special Readings in Portuguese. 1-3 Credit.**

Independent study through readings, conferences, reports. Prerequisite: departmental consent.

---

## Psychiatry (PSCHTY)

---

### **PSCHTY 6005. Psychiatry Clerkship. 4-7 Credit.**

Psychiatry Clerkship.

### **PSCHTY 6015. Rural Psychiatry Clerkship. 4 Credits.**

Rural Psychiatry Clerkship.

### **PSCHTY 6105. Remediation 6005 Psychiatry Clerkship. 4 Credits.**

Psychiatry Clerkship Remediation. Prerequisite: 6005 Psychiatry Clerkship, received unsatisfactory grade.

### **PSCHTY 6363. ABS Psychiatry Research. 5-10 Credit.**

ABS Psychiatry Research.

### **PSCHTY 6365. ABS Psychiatry Research and Review. 5-10 Credit.**

ABS Psychiatry Research and Review.

### **PSCHTY 6367. ABS Psychopharmacology. 5-10 Credit.**

ABS Psychopharmacology.

### **PSCHTY 6630. Narrative Med and the Meaningful Life. 5 Credits.**

The 4th year medical student will attend didactics and participate in discussions. They will complete suggested readings (short stories, poems and essays), assessments and writing assignments/projects. Prerequisites: 4th year medical student, all core clerkships. May be repeated for credit.

### **PSCHTY 6730. Adult Outpatient Psychology - Rural. 3 Credits.**

Adult Outpatient Psychology - Rural.

### **PSCHTY 6731. Psychiatry Rural Elective. 5 Credits.**

The 4th year medical student will participate in the evaluation of adult psychiatric patients and child psychiatric patients in a clinical setting. Prerequisite: Psychiatry [PSCHTY] 6005; restricted to 4th year medical students.

### **PSCHTY 6835. Psychiatry Outpatient Clinic. 5 Credits.**

Psychiatry Outpatient Clinic.

### **PSCHTY 6836. Psychiatry Adult Inpatient Service. 5 Credits.**

Psychiatry Adult Inpatient Service.

### **PSCHTY 6837. Psychosomatic Medicine. 5 Credits.**

Psychosomatic Medicine.

### **PSCHTY 6838. Forensic Psychiatry. 5 Credits.**

Forensic Psychiatry.

### **PSCHTY 6839. Child/Adolescent Psychiatry. 5 Credits.**

Child/Adolescent Psychiatry.

### **PSCHTY 6840. Geriatric Psychiatry. 5 Credits.**

Geriatric Psychiatry.

---

## Psychology (PSYCH)

---

### **PSYCH 1000. General Psychology. 3 Credits.**

Survey of theories, principles, and methods in the study of human behavior.

**PSYCH 1000H. General Psychology - Honors. 3 Credits.**

Survey of theories, principles, and methods in the study of human behavior. Honors eligibility required.

**PSYCH 1001. Topics in Psychology - General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topics and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000.

**PSYCH 1003. Topics in Psychology - Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000 and instructor's consent.

**PSYCH 1003H. Topics in Psychology - Honors - Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000. Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 1020. Applied Psychology. 3 Credits.**

Surveys wide range of applications of psychology. Topics include social issues (prejudice and violence), applications to fields such as business and law, applications for personal improvement (improving memory), and others (sports, health, environment). Prerequisite: Psychology [PSYCH] 1000.

**PSYCH 1030. Orientation to the Psychology Major. 1 Credit.**

This course is intended to help students choose the best major for themselves and to provide information on careers available to psychology majors.

**PSYCH 2001. Topics in Psychology-General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000.

**PSYCH 2003. Topics in Psychology-Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2110. Learning, Memory, and Cognition. 3 Credits.**

Students will gain an understanding of the fundamental principles of learning, memory and cognition, and will be able to recognize important historical figures and their contributions. Students will also learn how the principles can be applied to their everyday lives. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2210. Mind, Brain, and Behavior. 3 Credits.**

Introduction to the structures and processes of the mind and the nervous system, including the psychobiology of eating, sleeping, emotion, stress and learning. Prerequisite: Psychology [PSYCH] 1000. No credit if taken

after PSYCH 4210. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2220. Drugs and Behavior. 3 Credits.**

Basic principles of drug action on the nervous system; the effects of important psychoactive drugs; drug use and society. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2310. Social Psychology. 3 Credits.**

An introduction to how people's thoughts, feelings and behaviors are influenced by the actual or imagined thoughts, feelings and behaviors of others. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2320. Introduction to Personality. 3 Credits.**

Personality is the scientific study of individual differences (e.g., traits, motives, abilities). This course reviews historical theoretical perspectives as well as current research. Students will have an opportunity to learn about on their own motives and traits. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2410. Developmental Psychology. 3 Credits.**

Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Prerequisite: Psychology [PSYCH] 1000. Cannot receive credit for more than one of the following: PSYCH 2410, Human Development and Family Studies [H\_D\_FS] 2420/3420 or Educational School and Counseling Psychology [ESC\_PS] 2500. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2410H. Developmental Psychology - Honors. 3 Credits.**

Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Prerequisite: Psychology [PSYCH] 1000. Cannot receive credit for more than one of the following: PSYCH 2410, Human Development and Family Studies [H\_D\_FS] 2420/3420 or Educational, School and Counseling Psychology [ESC\_PS] 2500. Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2510. Survey of Abnormal Psychology. 3 Credits.**

Basic survey of maladaptive human behavior and experience, including personality disorders, alcohol and drug abuse, anxiety and mood disorders, sexual dysfunctions, and thought disorders. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2810. Human Sexuality. 3 Credits.**

Survey of research on sexual behavior including sex norms, gender identity, sexual dysfunctions, sexual deviation, homosexuality, and legal aspects of sexual behavior. Attendance at small group discussions may be required at the option of the instructor. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 2820. Introduction to Cognitive Science. 3 Credits.**

(same as Linguistics [LINGST] 2820 and Philosophy [PHIL] 2820). Cognitive science is the interdisciplinary study of the mind. After an overview of the foundations of cognitive science as a whole, we will see what particular sectors of it have to say about mental capacities such

as vision, language, categorization, and social cognition. Prerequisites: Psychology [PSYCH] 1000; sophomore standing required.

**PSYCH 2830. Human-Companion Animal Interaction. 3 Credits.**

Exploration of historical and theoretical bases of human-companion animal interaction (HAI), the nature issues, and clinical applications of HAI. Prerequisite: Psychology [PSYCH] 1000. Graded on A/F basis only.

**PSYCH 2940. Internship in Psychology. 3-6 Credit.**

Work experience in an organization that is relevant to the psychology major. Prerequisites: must be in good standing and have completed 9 credit hours in psychology; instructor's consent. Intended for students with freshman or sophomore standing.

**PSYCH 2950. Special Problems in Psychology. 1-99 Credit.**

Research apprenticeship with a faculty member, assisting a faculty member in the development and execution of research. May be repeated to 6 hours maximum. Prerequisite: instructor's consent.

**PSYCH 3001. Topics in Psychology-General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000.

**PSYCH 3003. Topics in Psychology-Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3010. Research Methods in Psychology I. 3 Credits.**

Introduction to scientific reasoning, assessing validity and reliability in research, and basic research methods. Prerequisites: Psychology [PSYCH] 1000, concurrent enrollment in Statistics [STAT] 1200 or a grade of C or better in STAT 1200 (or its equivalent.) This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3010H. Research Methods in Psychology I- Honors. 3 Credits.**

Introduction to scientific reasoning, assessing validity and reliability in research, and basic research methods. Prerequisites: Psychology [PSYCH] 1000, concurrent enrollment in Statistics [STAT] 1200 or a grade of C or better in STAT 1200 (or its equivalent). Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3020. Research Methods in Psychology II. 3 Credits.**

Continuation of Psychology 3010 and required for all further labs in psychology. Prerequisite: Psychology [PSYCH] 1000, and a grade of C or better in PSYCH 3010 and Statistics [STAT] 1200 (or its equivalent). This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3020H. Research Methods in Psychology II - Honors. 3 Credits.**

Continuation of Psychology 3010 and required for all further labs in psychology. Prerequisite: grade of C or better in Psychology [PSYCH] 3010 and Statistics [STAT] 1200 (or its equivalent). Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3110. Theories of Learning. 3 Credits.**

Discusses classical issues and theories in learning and conditioning, and considers them in contemporary form. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3130. Decisions, Values and Choice. 3 Credits.**

Survey of factors influencing choices and decisions. Topics include cause and effect decisions, values and ethical considerations, outcome likelihood, biases and heuristics, concept formation, self-control and impulsiveness, and social factors. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3140. Cognitive Psychology. 3 Credits.**

A survey of psychological theory and research on human cognition. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3150. Human Memory. 3 Credits.**

Surveys research on human memory, including basic laboratory studies with normal subjects as well as research on amnesia and other memory impairments, life-span memory development, and the cognitive neuroscience of memory. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3160. Perception and Thought. 3 Credits.**

Covers research on various aspects of mental life: language, problem-solving, decision-making, sensory perception. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3310. Intergroup Relations. 3 Credits.**

Provides an overview of the social psychological literature on stereotyping, prejudice, discrimination, and intergroup relations. Students learn theoretical frameworks and research findings regarding the development and maintenance of intergroup conflict. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3330. Human Aggression. 3 Credits.**

Examines human aggression from a social psychological perspective. Topics include cognitive, affective, developmental, and biological aspects. The effects of media violence and other societal factors are also examined. Prerequisite: Psychology [PSYCH] 2310.

**PSYCH 3350. Positive Psychology. 3 Credits.**

This course introduces students to the science of positive psychology, including its origin and the historical imbalances it addresses within the broader field of psychology. A wide variety of topics are covered, including happiness, materialism, purpose, flow, courage, humility, positive emotions, curiosity, mindfulness, savoring, gratitude, forgiveness, personal strengths, resilience, and compassion. Prerequisites: PSYCH 1000, This course may be restricted to Undergraduate Psychology Majors during early registration.

**PSYCH 3410. Infancy. 3 Credits.**

Overview of theory and research on the development of infants and toddlers, with an emphasis on major research methods that are currently in use. Topics include infant perception, sociality, motor development, early communication, language development and attachment. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3420. Cognitive Development in Childhood. 3 Credits.**

Theories and research on cognitive development in childhood.  
Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3430. Social Development in Childhood. 3 Credits.**

Overview of children's social and emotional development (infancy-adolescence), includes changes in social domains, impact of social functioning on subsequent development, and influence of interpersonal contexts (e.g., family, peers, community) on children's development.  
Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3510. Introduction to Clinical Psychology. 3 Credits.**

Comprehensive survey of the field's historical roots, research methods, concepts of abnormality, assessment and intervention methods; also specialties that constitute clinical psychology. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3810. Normal Language Development. 3 Credits.**

(same as Communication Science and Disorders [C\_S\_D] 3020).  
Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes, language sample analysis; relationship between spoken and written language. Prerequisite: Psychology [PSYCH] 2410 or 3140, or Linguistics [LINGST] 4600. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3820. Environmental Psychology. 3 Credits.**

Survey of the effects of human behavior on the natural environment. Examines strategies for modifying behavior to preserve the environment.  
Prerequisite: Psychology [PSYCH] 1000.

**PSYCH 3830. Health Psychology. 3 Credits.**

A hands-on approach to the study of health psychology including research on a topic of current relevance to the field. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3860. Law and Psychological Science. 3 Credits.**

This survey course examines the interactions of law and psychology across the justice system. Emphasis is placed on how psychological research does (and does not) inform important legal issues. Requirements may include an in-class team debate of relevant controversy in law. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 3870. Sleep and Sleep Disorders. 3 Credits.**

This course provides a critical review of the current research on both normal sleep and sleep disorders.

**PSYCH 3880. African-American Psychology. 3 Credits.**

(Same as Black Studies [BL\_STU] 3100 and Educational School, Counseling Psychology [ESC\_PS] 3100). The research, theories and paradigms developed to understand the attitudes, behaviors and psychosocial realities of African-Americans are discussed. Prerequisite: Psychology [PSYCH] 1000. Graded on A/F basis only.

**PSYCH 4001. Topics in Psychology-General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent

of department. Prerequisites: Psychology [PSYCH] 1000 and instructor's consent.

**PSYCH 4003. Topics in Psychology-Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4110. Perception. 3 Credits.**

Data and contemporary theories of perception in all of the senses, with emphasis on visual and auditory perception. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4210. Physiological Psychology. 3 Credits.**

An introduction to neuroscience with an overview of the relation between the brain and behavior. Topics include intercellular communication, drugs and reward, emotions and stress psychoimmunology, psychopathology, nervous system development and repair, perception, cognition, learning and memory. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4220. Animal Learning and Behavior. 3 Credits.**

Survey of animal behavior and learning abilities, including topics such as learning, habitat selection, foraging, problem solving, mating, communication, conditioning and memory. Prerequisite: Psychology [PSYCH] 1000 plus 8 hours of Psychology (exclusive of PSYCH 2950) or Biology. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4240. Cognitive Neuroscience. 3 Credits.**

The neural basis of human information processing in memory, attention, perception, imagery, movement, and language. Prerequisites: Psychology [PSYCH] 2210 or 4210 recommended. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4340. Attitude Change. 3 Credits.**

Theories, methods, and experimental findings in attitude change research. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4350. Stereotypes and Prejudice. 3 Credits.**

This course provides an overview of theory and research on stereotypes, prejudice, and discrimination from a social-psychological perspective. Course material comes primarily from textbook and supplementary readings, in addition to videos related to these topics. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4420. Personality Development. 3 Credits.**

This course covers the topic of temperament and personality development through the lifespan with particular focus on infancy, childhood, and adolescence. Coverage includes classic and contemporary theories and classic and contemporary research. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4430. Literature and Human Lifespan. 3 Credits.**

In this course we will examine the processes of human development as they are reflected in the specific literary and cinematic texts. "Adult" literary and cinematic materials will be supplemented with notable

examples of adolescent and children's stories, so that the works (like their subjects) will mirror the life span. This course will also provide an overview of prominent developmental theories/research, which have been devoted to understanding the life span. This course is designed to stimulate active reflection and debate about the impact of literature on human development. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4440. Sex Differences. 3 Credits.**

This course covers the evolution of sex differences and hormonal and environmental influences on their expressions in nonhuman species. These insights are used to understand human sex differences in mate choices, emotions, development, brain and cognition, and in modern societies. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4520. Behavior Genetics. 3 Credits.**

The study of genetic influences on behavioral traits such as mood, personality, intelligence, mental health, or activity level. Prerequisite: Psychology [PSYCH] 3020. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4530. Research in Psychopathology. 3 Credits.**

Intensive survey and evaluation of the psychological literature on abnormal behavior, emphasizes experimental and explanatory approaches. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4540. Emotional Disorders in Childhood and Adolescence. 3 Credits.**

Surveys disturbed behavioral development during childhood and adolescence, emphasizing factors that produce deviation from normal developmental patterns. Prerequisites: Psychology [PSYCH] 2410 or equivalent. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4560. Schizophrenia. 3 Credits.**

This course will examine one of the most severe, debilitating, and complex mental disorders. We will review the major symptoms and clinical features of schizophrenia, explore possible causes of Psychology [PSYCH] disorder, and critically assess treatments for the disorder. Prerequisite: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4570. Pediatric Neuropsychology. 3 Credits.**

Introduction to the field of pediatric neuropsychology and the study of individuals with early brain dysfunction. Common central nervous system disorders of childhood (e.g. autism, ADHD, epilepsy) will be discussed. Prerequisites: Psychology [PSYCH] 1000, PSYCH 2210 or 4240 recommended. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4810. Industrial/Organizational Psychology. 3 Credits.**

Survey of basic and applied personnel and organizational psychology. Focus on the human relations field, job satisfaction, leadership, group dynamics and formal organizational structures within the realm of industry. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4815. Cross-Cultural Psychology. 3 Credits.**

This course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural

psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4815H. Cross-Cultural Psychology - Honors. 3 Credits.**

The Cross-cultural Psychology course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior. Prerequisite: Psychology [PSYCH] 1000; Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4825. Psychology at the Movies. 3 Credits.**

In this course we watch and discuss films from multiple psychological perspectives. Connections are made between cinematic content and contemporary psychological research on culture and diversity. Race, Gender, Disability, Class, and LGBT issues in movies are explored. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4830. Psychology of Women. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4830). Overview of current theories and research relating to the psychology of women. Topics include gender stereotyping, psychological sex differences, achievement motivation in women, and women and mental health. Prerequisite: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4840. The History of Psychology. 3 Credits.**

Historical foundations of contemporary psychology. Prerequisites: Psychology [PSYCH] 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration.

**PSYCH 4940. Internship in Psychology. 3-6 Credit.**

Work experience in an organization that is relevant to the psychology major. Prerequisites: must be in good standing and have completed 9 credit hours in psychology; instructor's consent. Intended for students with junior or senior standing.

**PSYCH 4950. Special Problems in Psychology. 1-99 Credit.**

Independent investigation leading to a project or paper. Repeatable upon consent of department. Prerequisite: instructor's consent.

**PSYCH 4960. Special Readings in Psychology. 1-99 Credit.**

Independent readings selected in consultation with supervisory faculty member. Repeatable upon consent of department. Prerequisite: instructor's consent.

**PSYCH 4970. Psychological Measurement Capstone. 3 Credits.**

Survey of theories and methods of psychological test construction, focusing on measures of intelligence and personality. Lab component involves experimental training in test construction and test evaluation. Prerequisite: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4971. Developmental Psychology Capstone. 3 Credits.**

Introduces students to developmental research methods through relevant readings and by students conducting original research. Prerequisite: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4972. Animal Learning Capstone. 3 Credits.**

Survey of principles of animal behavior and animal learning and cognition. The course includes laboratory projects on research in animal

behavior and animal learning. Prerequisites: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4973. Human Cognition Capstone. 3 Credits.**

Students review, evaluate and conduct research on various aspects of human cognition. Prerequisite: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4974. The Human Senses Capstone. 3 Credits.**

Psychophysical data, sense organs, psychological attributes, and theories of vision, hearing, and the vestibular (motion) senses. Elementary aspects of psychophysics. Prerequisite: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4975. Social/Personality Capstone. 3 Credits.**

Experimental methods course emphasizing research in social psychology. Prerequisites: grade of C or better in Psychology [PSYCH] 3020. This course is restricted to psychology majors with senior standing.

**PSYCH 4976H. Honors Research Seminar I. 3 Credits.**

Individual honors thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (Psychology [PSYCH] 4977 in spring semester). Students should plan on enrollment in both PSYCH 4976 and 4977. Weekly class discussions of research topics, strategies and of current issues. Prerequisites: PSYCH 3020; overall and Psychology GPA 3.3 and instructor's consent. Successful completion of thesis and maintenance of 3.3 GPA leads to degree with departmental honors in Psychology. This course is restricted to psychology majors with senior standing.

**PSYCH 4977H. Honors Research Seminar II. 3 Credits.**

Honors eligibility required. Prerequisite: Psychology [PSYCH] 4976. This course is restricted to psychology majors with senior standing.

**PSYCH 4978. Clinical Psychology Capstone. 3 Credits.**

Students work at assigned agencies to gain "real-world" experience in the practice of psychology and attend regularly scheduled class meetings in order to integrate their academic knowledge with their practical experience. Prerequisites: grade of C or better in Psychology [PSYCH] 3020; departmental consent. This course is restricted to psychology majors with senior standing.

**PSYCH 4979. Judgement and Decision Making Capstone. 3 Credits.**

This course examines the psychology of human judgement and decision-making. We will discuss major theories, methods and basic experimental findings and identify how those findings are being used to develop public policy or in applied settings. Prerequisites: grade of C or better in Psychology [PSYCH] 2030; This course is restricted to psychology majors with senior standing.

**PSYCH 4980. Human Relationships Capstone. 3 Credits.**

Students design a study, collect data, and describe their research on some aspect of human relationships. Emphasis on survey research techniques. Prerequisites: grade of C or better in Psychology [PSYCH] 3020, PSYCH 2810 or two social/personality courses recommended; departmental consent. This course is restricted to psychology majors with senior standing.

**PSYCH 4981. Advanced Developmental Psychology Capstone I. 3 Credits.**

Students propose a study to be conducted with preschool children. The course teaches skills needed to develop research questions,

develop a coding system, and write a research proposal that reviews past literature in a way that makes the case for the importance of the project. Prerequisite: grade of C or better in Psychology [PSYCH] 3020; departmental consent; restricted to psychology majors with senior standing. Graded on A/F basis only.

**PSYCH 4982. Advanced Developmental Psychology II. 3 Credits.**

Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Prerequisite: grade of C or better in Psychology [PSYCH] 3020; department consent; restricted to psychology majors with senior standing. Graded on A/F basis only.

**PSYCH 7001. Topics in Psychology - General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Graduate credit will be earned through additional reading and assignments. Prerequisites: instructor's consent; departmental consent for repetition.

**PSYCH 7003. Topics in Psychology - Behavioral Science. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Graduate credit will be earned through additional reading and assignments. Prerequisites: instructor's consent; departmental consent for repetition.

**PSYCH 7085. Problems in Psychology. 1-99 Credit.**

Advanced studies to meet needs of individual student. Graded on S/U basis only. Prerequisites: instructor's consent.

**PSYCH 7210. Physiological Psychology. 3 Credits.**

An introduction to neuroscience giving an overview of the relation between the brain and behavior. Topics include intercellular communication, drugs and reward, emotions and stress psychoimmunology, psychopathology, nervous system development and repair, perception, cognition, learning and memory. Prerequisite: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 7240. Cognitive Neuroscience. 3 Credits.**

The neural basis of human information processing. Memory, attention, perception, imagery, movement, and language. Prerequisites: graduate standing and Psychology [PSYCH] 2210 or 4210 recommended.

**PSYCH 7340. Attitude Change. 3 Credits.**

Theories, methods, and experimental findings in attitude change research. Prerequisite: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 7420. Personality Development. 3 Credits.**

This course covers the topic of temperament and personality development through the lifespan with particular focus on infancy, childhood, and adolescence. Coverage includes classic and contemporary theories and classic and contemporary research. Prerequisite: graduate standing Psychology [PSYCH] 1000.

**PSYCH 7520. Behavior Genetics. 3 Credits.**

The study of genetic influences on behavioral traits such as mood, personality, intelligence, mental health, or activity level. Prerequisite: departmental consent required.

**PSYCH 7530. Research in Psychopathology. 3 Credits.**

Intensive survey and evaluation of the psychological literature on abnormal behavior, emphasizes experimental and explanatory approaches. Prerequisite: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 7540. Emotional Disorders in Childhood and Adolescence. 3 Credits.**

Surveys disturbed behavioral development during childhood and adolescence, emphasizing factors that produce deviation from normal developmental patterns. Prerequisites: graduate standing and Psychology [PSYCH] 2410 or equivalent.

**PSYCH 7550. Introduction to Clinical Psychology. 3 Credits.**

Comprehensive survey of the field's historical roots, research methods, concepts of abnormality, assessment and intervention methods; also specialties that constitute clinical psychology. Prerequisites: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 7560. Schizophrenia. 3 Credits.**

Examines symptoms, possible causes, and treatments of schizophrenia. Goals include understanding psychopathology by examining one disorder and reviewing cutting edge psychology and clinical science research being used to understand schizophrenia. Prerequisite: Psychology [PSYCH] 1000.

**PSYCH 7810. Industrial/Organizational Psychology. 3 Credits.**

Survey of basic and applied personnel and organizational psychology. Focus on the human relations field, job satisfaction, leadership, group dynamics and formal organizational structures within the realm of industry. Prerequisite: graduate standing and Psychology [PSYCH] 3010.

**PSYCH 7815. Cross-Cultural Psychology. 3 Credits.**

This course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior. Prerequisite: Psychology [PSYCH] 1000 and departmental consent.

**PSYCH 7830. Psychology of Women. 3 Credits.**

Overview of current theories and research relating to the psychology of women. Topics include gender stereotyping, psychological sex differences, achievement motivation in women, and women and mental health. Prerequisite: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 7840. The History of Psychology. 3 Credits.**

Historical foundations of contemporary psychology. Prerequisites: graduate standing and Psychology [PSYCH] 1000.

**PSYCH 8001. Topics in Psychology-General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Prerequisites: instructor's consent, departmental consent for repetition.

**PSYCH 8050. Research in Psychology - Non-Thesis. 1-99 Credit.**

Research in psychology not leading to thesis. Graded on S/U basis only. Prerequisite: instructor's consent.

**PSYCH 8085. Problems in Psychology. 1-99 Credit.**

Advanced studies to meet needs of individual student. Graded on S/U basis only. Prerequisites: instructor's consent.

**PSYCH 8090. Research in Psychology - Thesis. 1-99 Credit.**

Research in psychology leading to thesis. Graded on S/U basis only. Prerequisite: instructor's consent.

**PSYCH 8110. Cognitive Psychology. 3 Credits.**

Focuses on basic research on human perception, memory, attention, language, and thought. Prerequisites: instructor's consent.

**PSYCH 8210. Functional Neuroscience. 3 Credits.**

Basic techniques, data and theory in the neurosciences applied to the study of psychopathology, psychopharmacology, neural development, brain damage, memory and other areas of "behavior." Prerequisites: instructor's consent.

**PSYCH 8310. Survey of Social Psychology. 3 Credits.**

Survey of historical and contemporary theory and research in affiliation, attribution, social comparison, attitude change and group dynamics. Prerequisite: instructor's consent.

**PSYCH 8410. Psychology of Development. 3 Credits.**

Principles, theories, research in normal human development. Prerequisite: instructor's consent.

**PSYCH 8420. Cognitive Development. 3 Credits.**

(same as Human Development and Family Studies [H D FS] 8420). An introduction to central theories and issues in the study of cognitive development in infancy and childhood. Emphasis is on major theoretical frameworks for studying cognitive development, and topics such as perception, memory, language, categorization, and reasoning. Prerequisite: instructor's consent.

**PSYCH 8430. Temperament and Personality Development. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 8430). Intended for graduate students in psychology and related fields. This course is a survey of theory and research in the area of temperament and personality development, with emphasis on child development. Prerequisite: instructor's consent.

**PSYCH 8440. Social and Emotional Development. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 8440). There are two major objectives for this course. The first is a "content" objective and involves familiarizing students with theory and research regarding social, emotional, and personality development in childhood and adolescence and also regarding the relationships in which such development takes place. The second objective is a "process" objective and involves enhancing students skills at interpreting empirical research, identifying gaps in the literature, and identifying research strategies for addressing those gaps.

**PSYCH 8510. Developmental Psychopathology. 3 Credits.**

Etiology, diagnosis, and treatment of disordered behavior from infancy through adolescence. Emphasizes contrasting theories and research issues. Prerequisite: instructor's consent.

**PSYCH 8520. Adult Psychopathology. 3 Credits.**

Problems of etiology, diagnosis, treatment in psychopathology. Considers theory, research, case histories. Prerequisite: instructor's consent.

**PSYCH 8530. Experimental Psychopathology. 3 Credits.**

Critical examination of current theories, with special emphasis on empirical studies in psychopathology including such topics as alcoholism, enuresis, sexual deviancy, drug addiction, mental retardation. Prerequisite: instructor's consent.

**PSYCH 8610. Motivation. 3 Credits.**

Survey of historical and contemporary theories and models of human motivation. Major emphasis on different levels of motivational analysis. Prerequisite: instructor's consent.

**PSYCH 8620. Personality Psychology. 3 Credits.**

Graduate-level introduction to the field of personality psychology, including readings and discussion of both classic and contemporary works. Prerequisite: instructor's consent.

**PSYCH 8710. General Linear Models in Psychology I. 4 Credits.**

Principles of interval estimation and hypothesis testing, scalar and matrix forms of simple and multiple regression with continuous and categorical predictors, regression diagnostics. Prerequisite: undergraduate course in statistics; concurrent enrollment in Psychology [PSYCH] 8730; instructor's consent.

**PSYCH 8720. General Linear Models in Psychology II. 4 Credits.**

Complex analysis of variance; experimental design. Prerequisite: Psychology [PSYCH] 8710 or equivalent, concurrent enrollment in PSYCH 8730; instructor's consent.

**PSYCH 8730. Data Management and Analysis in Psychology. 1 Credit.**

Computer implementation of data management and statistical analysis. Covers elementary computer operations, data entry and quality control, and computer implementation of statistical models covered in Psychology [PSYCH] 8710 and 8720. Prerequisite: instructor's consent.

**PSYCH 8910. Ethics and Professional Issues I. 1 Credit.**

This course exposes students to issues of ethics and professional behavior in the psychological sciences. Graded on A/F basis only.

**PSYCH 8920. Social and Behavioral Sciences in Public Health. 3 Credits.**

(same as Public Health [P\_HLTH] 8920). This course will take both a theoretical and a practical approach to understanding health-related behavior and the field of public health. Students will gain an understanding of theory and empirical research in the social and behavioral sciences, as well as developing practical skills in critically evaluating research and in applying scientific evidence to address real world health concerns.

**PSYCH 9001. Topics in Psychology-General. 1-99 Credit.**

Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Prerequisites: instructor's consent, departmental consent for repetition.

**PSYCH 9050. Research in Psychology - Non-Dissertation. 1-99 Credit.**

Research in Psychology not leading to dissertation. Graded on S/U basis only. Prerequisite: instructor's consent.

**PSYCH 9085. Problems in Psychology. 1-99 Credit.**

Advanced studies to meet needs of individual student. Prerequisite: instructor's consent. Departmental consent for repetition. Graded on S/U basis only.

**PSYCH 9090. Research in Psychology - Dissertation. 1-99 Credit.**

Research in Psychology leading to dissertation. Graded on S/U basis only. Prerequisite: instructor's consent.

**PSYCH 9110. Studies in Experimental Psychology. 3 Credits.**

Critical consideration of selected research in neuroscience and cognitive psychology. Prerequisites: Psychology [PSYCH] 4972 or PSYCH 4973; departmental consent for repetition; instructor's consent.

**PSYCH 9120. Studies in Physiological Psychology. 1 Credit.**

Weekly seminars given by local and regional cognitive psychologists and cognitive neuroscientists. Prerequisite: Psychology [PSYCH] 7210, departmental consent for repetition, and instructor's consent. Graded on S/U basis only.

**PSYCH 9150. Human Learning and Memory. 3 Credits.**

Current theory and research in the area of human learning and memory will be investigated. A major component of the course will involve the

critical review of existing literature in this area. Prerequisite: instructor's consent.

**PSYCH 9210. Psychopharmacology. 3 Credits.**

Basic principles of drug action on the nervous system, the theory and clinical use of the various psychotherapeutic drugs, drug abuse and its treatment. Prerequisite: instructor's consent.

**PSYCH 9220. Clinical Neuropsychology Seminar. 3 Credits.**

In this course students will analyze published cases in the neuropsychology literature. By studying how behavioral and mental processes break down, the supposition is that one can infer how intact processes must have been constructed, and how a brain supports them. Instructor's consent required. Graduate Standing Required.

**PSYCH 9230. Seminar on fMRI. 3 Credits.**

Fundamentals of MRI and its application to brain imaging, including experimental design, analysis and contemporary issues. During the lab component, students will use FSL and other software to analyze fMRI data and will design and implement their own fMRI experiments. Prerequisite: graduate standing; instructor's consent.

**PSYCH 9310. Theories of Social Psychology. 3 Credits.**

Intensive review of classic and contemporary concepts and theories of social psychology; emphasizes readings from primary sources. PhD candidates only. Required for all PhD candidates in social psychology. Prerequisite: instructor's consent.

**PSYCH 9320. Social Psychology Methodology. 3 Credits.**

Advanced study of experimental methods in social psychological research. Prerequisites: instructor's consent.

**PSYCH 9330. Field Research Methods. 3 Credits.**

Advanced course in research methods and designs commonly used in field settings; theoretical, ethical, and pragmatic issues that arise in field settings are considered; emphasis is on learning and skill acquisition through a series of hands-on assignments. Prerequisite: instructor's consent.

**PSYCH 9350. Studies in Social Psychology. 1-99 Credit.**

Critical coverage of selected research and theory in social psychology. Prerequisites: instructor's consent, departmental consent for repetition.

**PSYCH 9360. Seminar in Social Psychology. 1 Credit.**

Intensive review of concepts and theories of social psychology; emphasizes readings from primary sources. Ph.D. candidates only. Required for all Ph.D. candidates in social psychology program. Prerequisite: instructor's consent. Graded on S/U basis only.

**PSYCH 9440. Studies in Developmental Psychology. 1-99 Credit.**

Covers contemporary research and professional topics in developmental psychology. Prerequisite: instructor's consent. Graded on S/U basis only.

**PSYCH 9460. Studies in Evolution and Behavior. 1 Credit.**

Reading and discussion of classic and contemporary works in evolution. Prerequisites: Graduate standing and instructor's consent.

**PSYCH 9510. Studies in Clinical Psychology. 1-99 Credit.**

Contemporary research and theory for advanced graduate students in clinical psychology. Prerequisite: instructor's consent, departmental consent for repetition. Graded on S/U basis only.

**PSYCH 9515. Orientations in Psychotherapy. 3 Credits.**

The introductory psychotherapy course for students in the clinical psychology doctoral program. The focus of the course is on development of knowledge and skills in the following four areas: (1) Theory and practice of contemporary (brief) psychotherapy; (2) Basic interviewing

skills; (3) Psychotherapy research and empirically supported treatments; and (4) The role and impact of managed care in contemporary psychotherapy. Prerequisite: instructor's consent.

**PSYCH 9520. Psychometrics. 3 Credits.**

Introduction to concepts and issues essential to psychological assessment including psychometrics, test construction, controversies in psychological testing, behavioral assessment, and structured interviewing. Prerequisite: instructor's consent.

**PSYCH 9525. Orientations to Clinical Assessment. 3 Credits.**

Topics include psychometric principles, intelligence testing, objective and projective personality testing and behavioral assessment. Prerequisite: Psychology [PSYCH] 9520 and instructor's consent.

**PSYCH 9530. Clinical Child Assessment. 3 Credits.**

Introduction to clinical instruments, techniques and problems in the psychological assessment of children. Prerequisite: instructor's consent.

**PSYCH 9540. Ethical and Professional Issues II. 3 Credits.**

Legal issues, state and national codes, ethical decision-making, dangerousness, ethical clinical treatment issues, mandated reporting, and ethics in specialized clinical settings. This course is the second in a sequence for clinical psychology doctoral students. Prerequisite: instructor's consent.

**PSYCH 9545. Clinical Practicum. 1-99 Credit.**

Intensive supervised training in use and interpretation of psychological techniques and in psychotherapy. Graded on S/U basis only. Prerequisite: instructor's consent and professional liability insurance.

**PSYCH 9550. Clinical Intervention with Children. 3 Credits.**

Introduction to theory, research and practice in the area of behavior change with children and adolescents. Prerequisite: instructor's consent.

**PSYCH 9560. Family and Group Process. 3 Credits.**

Theory, intervention, and research in the areas of family and group dynamics. Emphasis on family therapy approaches. Prerequisite: instructor's consent.

**PSYCH 9570. Assessment and Treatment of Sexual Problems. 3 Credits.**

Background information for and methods and techniques of dealing with a variety of sexual problems that clients bring to therapists. Sexual dysfunction, homosexuality, sexual aberrations and sex crimes covered. Prerequisite: instructor's consent.

**PSYCH 9575. Clinical Research Methods. 3 Credits.**

Focus on research design with emphasis on active critique of methodological challenges (e.g., subject selection, control groups, multimodal measures, and treatment issues), includes lecture and active review or research. Prerequisite: instructor's consent.

**PSYCH 9580. Seminar in Clinical Psychology. 3 Credits.**

Critical coverage of selected research and theory in clinical psychology. Prerequisite: instructor's consent, departmental consent for repetition.

**PSYCH 9585. Introduction to Alcohol Studies. 3 Credits.**

Intensive seminar on alcohol research primarily intended for alcohol research training fellows. Covers a range of topics of interest to psychologist, including pharmacology, research methods, genetics, diagnosis, expectancies, and treatment. Prerequisite: instructor's consent.

**PSYCH 9590. Clinical Pediatric Neuropsychology. 3 Credits.**

The goal of this course is to provide an in-depth introduction to the field of clinical pediatric neuropsychology. Particular emphasis will be placed

on how we can increase our understanding of development through the study of individuals with early brain dysfunction. Prerequisite: graduate standing; instructor's consent.

**PSYCH 9710. Multivariate Statistics in Psychology. 3 Credits.**

Multivariate statistical methods, including multivariate analysis of variance, discriminant analysis, principal component analysis, and elements of matrix algebra, as applied to problems in psychology. Prerequisite: Psychology [PSCYH] 8710 and 8720; instructor's consent.

**PSYCH 9715. Multilevel Modeling. 3 Credits.**

Introduction to random coefficient multilevel modeling of clustered data. Topics include two- and three-level models, estimation techniques, computing options, model fitting issues, advanced model applications, and growth modeling. Prerequisite: instructor's consent, a graduate course in regression analysis.

**PSYCH 9720. Latent Variable Models in Statistical Analysis. 3 Credits.**

Covers Matrix Algebra fundamentals, Factor Rotation, Communality Estimation techniques, High Order and Dynamic Factor Models, Path Analysis, Use of computer programs. Prerequisite: instructor's consent and Psychology [PSYCH] 8720.

**PSYCH 9725. The Literature Review. 3 Credits.**

Focuses on methods for gathering, summarizing, integrating and interpreting research on a particular research issue. Topics include searching the literature, evaluating research quality and synthesizing statistical results across separate studies. Prerequisite: Psychology [PSYCH] 8710 and instructor's consent.

**PSYCH 9735. Psychological Process Models. 3 Credits.**

Examines mathematical and statistical models of cognition and perception. Emphasis on modeling basics such as estimation, hypothesis testing, and assessment of fit. Prerequisites: Psychology [PSYCH] 8710 and 8720 or instructor's consent.

**PSYCH 9740. Statistical Consulting for Psychologists. 1-99 Credit.**

Provision of statistical consulting to individuals working with psychological data. Prerequisite: graduate standing in Psychological Sciences and instructor's consent. Graded on S/U basis only.

**PSYCH 9750. Advanced Structural Equation Modeling. 3 Credits.**

Growth Mixture Models, Dynamic Factor models, and nonlinear structural models. Prerequisites: Psychology [PSYCH] 8710 or departmental consent. Graduate Standing Required.

**PSYCH 9755. Quantitative Psychology Seminar. 1 Credit.**

Quantitative Psychology Topics Seminar. Prerequisite: graduate standing; departmental consent required. Graded on S/U basis only.

**PSYCH 9760. Categorical Data Analysis. 3 Credits.**

This course will provide an applied introduction to the most important methods for analyzing categorical data. Topics include; logistic regression modeling Poisson regression modeling, multinomial sampling, and classic analysis of contingency tables. Prerequisite: Psychology [PSYCH] 8710 and 8720; instructor's consent.

**PSYCH 9765. Cluster Analysis and Network Analysis. 3 Credits.**

The course covers traditional and modern clustering techniques (hierarchical, partitioning, and mixture modeling), both from an algorithmic and modeling perspective. Several types of data types are explored, including traditional two-mode data sets and network structures. Graduate Standing required. Consent of instructor required.

**PSYCH 9910. Teaching of Psychology Practicum. 1-99 Credit.**

Focuses on development and enhancement of teaching skills for graduate students in psychology who are primary instructors of undergraduate psychology courses. Graded on a S/U basis only. Prerequisite: instructor's consent.

**PSYCH 9920. Advanced History of Psychology. 3 Credits.**

Advanced course in history of psychology designed to show how general philosophical models of mind and behavior have been linked to doctrines of mental health and pathology and to theories of social behavior. Prerequisite: instructor's consent.

## Public Affairs (PUB\_AF)

---

**PUB\_AF 4001. Topics in Public Affairs. 3 Credits.**

Selected topics in public administration.

**PUB\_AF 7001. Topics in Public Affairs. 3 Credits.**

Select current topics in public affairs. Prerequisite: consent required. Graded on A/F basis only.

**PUB\_AF 7330. Scientific & Technological Aspects Terrorism & Counter Terrorism. 3 Credits.**

(same as Nuclear Engineering [NU\_ENG] 7330). Terrorism has been a familiar tool of political conflict, and it has assumed greater importance during the past twenty years. This subject has been treated by political scientists in various forms, but the scientific and technological aspects of different forms of terrorism cannot be found in a single place. It is important for persons who propose counter measures to understand the basics of different types of terrorism such as for instance the nature of chemical agents, their properties such as toxicity, etc. in order to build better defense systems. Prerequisite: graduate standing.

**PUB\_AF 7357. Health Economics for Public Affairs. 3 Credits.**

(same as Economics [ECONOM] 7357. This course analyzes the economics of health care in the United States with particular attention to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, speculation and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine, as well as an examination of recent proposals and initiatives for health care reform. Prerequisites: Public Affairs [PUB\_AF] 8190 or equivalent; graduate standing.

**PUB\_AF 7367. Law and Economics for Public Affairs. 3 Credits.**

(same as Economics [ECONOM] 7367). This course is a survey of economic analysis of American legal institutions. Students will apply basic microeconomic, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime and the judiciary. Prerequisites: Economics [ECONOM] 4351 or 3251 and Statistics [STAT] 2500, or equivalent; graduate standing.

**PUB\_AF 8001. Topics in Public Affairs. 3 Credits.**

Select current topics in public administration. Prerequisite: instructor's consent.

**PUB\_AF 8085. Problems in Public Affairs. 1-99 Credit.**

Intensive study of an area of public administration related to the student's special interest.

**PUB\_AF 8150. Collaborative Governance. 3 Credits.**

Political, economic, and social context of government and public service; examines theories and models of collaborative governance and implications for policy-making, public management, and public service delivery. Graded on A/F basis only.

**PUB\_AF 8160. Organizational Dynamics and Leadership. 3 Credits.**

Focuses on understanding human action in administrative situations and on developing personal capacities for effective action in varied and difficult organizational situations. Graded on A/F basis only.

**PUB\_AF 8170. Public Policy Processes and Strategies. 3 Credits.**

Processes through which public demands are generated, converted into public policy, and implemented. Examines the intersection of politics, policy, and management as well as the diverse strategies and tools of public action. Graded on A/F basis.

**PUB\_AF 8171. Environmental Policy. 3 Credits.**

This course is an introduction to U.S. environmental policy, focusing on important political institutions and political actors. The course provides a survey of the primary laws, regulations, and policies that compromise pollution control and natural resource management policy. Prerequisites: graduates standing or permission of instructor.

**PUB\_AF 8172. Health Policy. 3 Credits.**

This seminar will examine the health care system in the United States, including government funded programs, regulation of costs, and policies promoting health behaviors. The course will examine historical development, recent trends, and methods of health policy analysis. Prerequisite: graduate standing or permission of instructor.

**PUB\_AF 8173. Education Governance, Finance and Policy. 3 Credits.**

The course centers on public policy processes as applied to governance, finance and policy in public education. The administrative, political and economic dimensions of policy reform are emphasized. A special focus is placed on developing tools for analyzing and critiquing policy rational, design and implementation. Prerequisites: graduate standing or permission of instructor.

**PUB\_AF 8174. Social Policy. 3 Credits.**

This seminar will examine the nature and extent of poverty in the U.S., its causes and consequences, and the antipoverty effects of existing and proposed government programs and policies. Prerequisite: graduate standing or permission of instructor.

**PUB\_AF 8175. Early Childhood Policy. 3 Credits.**

This course provides an understanding of early childhood development issues and their impact on policy formation. Will study different family situations in the US and other countries (e.g. maternal employment and job policies, divorce, child abuse and neglect) that may be a concern for child policy makers and analysis. In addition we are going to examine the effects of different early childhood programs in the US and other countries around the world. Also, US federal regulations that have an impact on child policy, such as the National Health Policy and Welfare reform will be examined. Will use both qualitative and quantitative criteria to analyze these policies. This course is applied in focus, so by the end of the semester students should be able to understand policy analysis and the trade-offs of implementing policy choices, as well as being able to develop analytical skills for early childhood and family policies in their work. Graded on A-F basis only.

**PUB\_AF 8180. Research Methods and Inquiry in Public Affairs I. 3 Credits.**

Introduction to research methods for graduate students in public affairs. Topics include measurement, quantitative description, problem definition, the policy research process, and basic analytical tools commonly applied in public affairs. Graded on A/F basis only.

**PUB\_AF 8181. Research Methods and Inquiry in Public Affairs II. 3 Credits.**

Advanced topics and applications in research methods for public affairs. Topics include: multivariate analysis and other advanced quantitative techniques; evaluation of policy research products. Prerequisite: Public Affairs [PUB\_AF] 8190 or permission of instructor.

**PUB\_AF 8185. Research Methods and Inquiry in Public Affairs - Mid Career. 3 Credits.**

Applications in research methods for graduate students in public affairs mid-career program. Topics include: measurement; quantitative description; problem definition; the policy research processes; basic analytical tools commonly applied in public affairs; multivariate analysis and other advanced quantitative techniques; evaluation of policy research products. Prerequisite: instructor's consent. Graded on A/F basis only.

**PUB\_AF 8190. Economic Analysis for Public Affairs. 3 Credits.**

Application of tools of economic analysis to understand and interpret the behavior of government, consumers and producers. Sources of economic inefficiency, including market failures and limitations, and policy solutions. Graded on A/F basis only.

**PUB\_AF 8191. Economic Analysis for Public Policy II. 3 Credits.**

Methods of economic evaluation of public policies, including cost-benefit analysis and cost-effectiveness analysis. Other topics include: discounting, risk, and uncertainty; role of non-economic policy goals in analysis.

**PUB\_AF 8195. Economic Analysis for Public Policy - Mid Career. 3 Credits.**

Application of tools of economic analysis to understand and interpret the behavior of government, consumers and producers. Sources of economic inefficiency, including market failures and limitations, and policy solutions. Prerequisite: instructor's consent.

**PUB\_AF 8210. Ethics, Democracy and the Public Service. 3 Credits.**

Uses the concepts of ethics and democracy to explore the role of public service in American society in the context of globalization. Integrates learning from the MPA core curriculum and the specializations into a comprehensive view of the contemporary, multi-sectored public service. Graded on A/F basis only.

**PUB\_AF 8211. MPA Capstone (Applied Project). 3 Credits.**

Application of concepts and methods of public affairs to actual policy or management problems. Diagnosis of problem or decision situation, collection of relevant data, development of alternative solutions, recommendations of proposed course of action.

**PUB\_AF 8280. Public Affairs Internship. 3 Credits.**

Gives students an opportunity to gain experience in government operations by providing supervised work with an agency at the local, state, or federal level of government or in nonprofit agencies. Graded on A/F basis.

**PUB\_AF 8282. Practicum in Public Affairs. 3-6 Credit.**

Supervised field experience in an approved community, public agency, or nonprofit organizations. Opportunity for observation and participation under the guidance of a qualified advisor. Formal study of advanced

theories and techniques is integrated into the student's experience. Advanced standing and instructor's consent required. Graded on A/F basis.

**PUB\_AF 8310. E-Democracy in Theory and Practice. 3 Credits.**

Examines the theory and practice of electronic democracy. Uses case studies to assess how information and communication technology affects public involvement in public decisions. Major topics include the methods and tools used in current e-democracy projects as well as the philosophical political, practical and institutional issues faced. Graded on A/F basis only.

**PUB\_AF 8320. Spatial Analysis for Public Affairs. 3 Credits.**

Examines theoretical and empirical issues related to the spatial analysis of economic activity and local public issues. Major topics include the role of the public sector, the economics of public services, social accounting matrices, input-output analysis, econometric models of regional economies, and geographic information systems. Graded on A/F basis only.

**PUB\_AF 8330. Informatics and Governance. 3 Credits.**

Provides students with a non-technical introduction to the design, implementation and management of information systems for local and regional governance. Surveys key issues for information professionals, including policy planning, design, procurement, staffing, applications and public access and participation. Graded on A/F basis only.

**PUB\_AF 8340. Regional and Economic Development Policy. 3 Credits.**

Presents an overview of historical perspectives and current practice in regional development policy. Explores various rationales for regional collaboration. Topics include global and political context of development policy, theories of regional growth and development, regional governance, distribution of benefits and sustainable development. Graded on A/F basis only.

**PUB\_AF 8350. Regional Development Issues and Analysis. 3 Credits.**

(same as Agricultural Economics [AG\_EC] 8350). Examines theories of regional growth and development and methods for analysis with applications to current policy issues. Topics include firm location, new economic geography and agglomeration theory, clusters, human capital, migration, social capital, tax and development incentives, and sustainable regional development. Prerequisites: Economics [ECONOM] 7351 or Public Affairs [PUB\_AF] 8190 or equivalent.. Graded on A/F basis only.

**PUB\_AF 8410. Public Policy Workshop. 3 Credits.**

Application of policy analysis tools and methods onto a specific policy topic or problem. Topics vary depending upon interests of the instructor. Prerequisite: Public Affairs [PUB\_AF] 8420 and 8430. Graded on A/F basis only.

**PUB\_AF 8420. Public Program Evaluation. 3 Credits.**

Covers implementation and outcome evaluation models, research design strategies, and data collection methods used to assess the effectiveness of public programs and means of their improvement. Prerequisite: Public Affairs [PUB\_AF] 8181 or equivalent. Graded on A/F basis only.

**PUB\_AF 8430. Public Policy Analysis. 3 Credits.**

Uses economic logic and statistical techniques to design, analyze and evaluate public policy. Applies social choice theory, cost/benefit analysis, forecasting, regression analysis, trend analysis, time series methods, and other analytic techniques to policy decision. Graded on A-

F basis. Prerequisite: PUB\_AF 8181 and PUB\_AF 8190 or equivalent, or permission of instructor.

**PUB\_AF 8510. Public Budgeting and Taxation. 3 Credits.**

Intensive study of the institutions, processes, politics, and social and economic impact of public taxation and expenditures.

**PUB\_AF 8520. Human Resources Mngmnt & Development in Public & Nonprofit Sector. 3 Credits.**

Examines the political, economic, and legal context of the personnel function, as well as the technical aspects of the personnel administrator's job. Stresses the dynamics of bureaucratic organizations. Graded on A/F basis only.

**PUB\_AF 8530. Strategic Management of Public Service Organizations: People, Information and Money. 3 Credits.**

Presents the rationale for strategic planning, and techniques and processes to develop and implement strategic planning in the public sector. Graded on A/F basis only.

**PUB\_AF 8540. Local Government Management. 3 Credits.**

Organization and division of service responsibility within local governments. Problems of managing delivery of services with special emphasis upon program implementation, productivity, planning, responsiveness. Graded on A/F basis.

**PUB\_AF 8610. Group Dynamics and Conflict Resolution. 3 Credits.**

Focuses on the study of group psychology in the context of communities and organizations. It provides a specific examination of the emergence and resolution of conflict. Graded on A/F basis only.

**PUB\_AF 8620. Organizational Analysis and Change. 3 Credits.**

Investigates processes and methodologies of organizational diagnosis, intervention strategies, and the role of a change agent. Graded on A/F basis.

**PUB\_AF 8630. Organizational Change in a Community and Global Context. 3 Credits.**

Examines changing organizations in their task environments, which include communities and the global economy. The phenomenon of ambiguous boundaries between public and private as well as nonprofit sectors will be investigated as these profound changes impact organizational behavior. Graded on A/F basis only.

**PUB\_AF 8710. The Nonprofit and Voluntary Sector. 3 Credits.**

Provides an overview of the history, function, size, scope, development, and management of the nonprofit sector. Historical, political, economic, and social perspectives are used to examine the meaning of voluntarism, charity, philanthropy, and the nonprofit sector. Graded on A/F basis.

**PUB\_AF 8720. Budgeting and Financial Management in the Public and Nonprofit Sector. 3 Credits.**

Nature and environment of public and nonprofit financial administration. Principles of accountability for management of public and nonprofit funds; management and investment of cash balances; special problems related to long- and short-term debt. Graded on A/F basis only.

**PUB\_AF 8830. Grant Writing I. 3 Credits.**

Provides students with knowledge regarding the process of seeking grant funding. Students will work in small groups to complete a letter proposal. They will experience the peer review process both as applicant and reviewer. Graded on A/F basis only.

**PUB\_AF 8831. Grant Writing II. 3 Credits.**

Provides students with knowledge regarding the process of seeking grant funding. Students will work in small groups to complete a full-blown

state or federal grant proposal. They will experience the peer review process both as applicant and reviewer. The course will cover a variety of funding sources and a range of funding types to provide students with an information base for preparing future grant applications. Prerequisite: Public Affairs [PUB\_AF] 8830. Graduate standing required.

**PUB\_AF 8832. Sponsor Relationships. 3 Credits.**

Provides students with knowledge of the landscape and culture of grant seeking with an emphasis on understanding how private and public sector sponsors are in many ways, significantly different enterprises. Students will gain an understanding of the pivotal role relationships play in grant seeking and gain an appreciation of the particularities and rigors of both public and private grant seeking. Prerequisite: Proposed Grant Writing 2 course; graduate standing.

**PUB\_AF 8833. Grant Award Management. 3 Credits.**

Provides students with knowledge regarding the process and policies entailed in managing grant awards. Course content includes federal OMB circulars, basic human resource issues, project management strategies, reporting obligations, and project close-out. Prerequisite: Proposed Grant Writing 2 course; graduate standing.

**PUB\_AF 8850. Policies and Institutions of the European Union. 3 Credits.**

Policies and Institutions of the European Union.

**PUB\_AF 8864. Administrative Law. 3 Credits.**

(same as Law [LAW] 5310). Principles, factors and statutory provisions which govern availability of relief (both judicial and administrative) to persons or entities aggrieved by the actions or inactions of governmental officials or agencies. Graded on A/F basis.

**PUB\_AF 9000. Directed Individual Study. 3 Credits.**

Supervised readings and research in area of doctoral specialization. Student must submit formal written proposal to doctoral supervising faculty member prior to registration. May be repeated up to 6 hours. Prerequisite: PhD standing or permission of instructor.

**PUB\_AF 9090. Dissertation. 1-99 Credit.**

Independent research for Ph.D. dissertation. Prerequisite: PhD standing or permission of instructor. Graded on S/U basis only.

**PUB\_AF 9150. Governance and Public Affairs. 3 Credits.**

Examines theories of governance, the role of the state and other social institutions. Other topics include administrative reform, the new public management, and the emergence of the multi-sector public service. International comparative dimensions emphasized. Prerequisites: Public Affairs [PUB\_AF] 8150, PhD standing or permission of professor. Graded on A/F basis only.

**PUB\_AF 9160. Organization Studies in Public Affairs. 3 Credits.**

Examines theories of public and nonprofit organizations, including classical and contemporary perspectives in organization science; individual and group behavior; leadership, power and influence; organization design and structure; and organizational culture. Prerequisite: PhD standing or permission of instructor. Graded on A/F basis only.

**PUB\_AF 9170. Policy Theory. 3 Credits.**

This seminar examines theories on the policy process, institutions, and delegation of power that influence public policy. Topics covered may include agenda setting, policy design, implementation, legislative decision-making, state political institutions, and federalism. Prerequisite: PhD standing or permission of instructor. Graded on A/F basis only.

**PUB\_AF 9171. Political Economy of Public Affairs. 3 Credits.**

Course focuses on formal theories of public decision-making, collective choice and strategic interaction of public actors in the policy process using tools such as welfare economics, social choice, game theory, logic of collective action, public choice, and principal agent models. Prerequisite: PhD standing or instructor's consent. Graded on A/F basis only.

**PUB\_AF 9180. Advanced Research Methods for Public Affairs I. 3 Credits.**

Focuses on multiple regression analysis, the implications and treatment of serial correlation, heteroskedasticity, multicollinearity, specification error, and measurement error. Students estimate models, use diagnostic information, and interpret and present findings for public affairs. Prerequisites: Public Affairs [PUB\_AF] 8180 or equivalent, PhD standing or permission of instructor. Graded A-F only.

**PUB\_AF 9181. Advanced Research Methods for Public Affairs II. 3 Credits.**

The seminar examines statistical modeling tools for limited dependent variables and complex data situations, such as time-series cross-sectional data, clustered observations, and multilevel data. Other topics include simultaneous equation models and instrument variable in public affairs. Prerequisite: Public Affairs [PUB\_AF] 9180 or equivalent, PhD standing or permission of instructor. Graded A-F only.

**PUB\_AF 9182. Logics of Inquiry in Public Affairs. 3 Credits.**

This course examines the philosophical foundations of social inquiry in public affairs. Topics include investigation of epistemological and methodological issues in development and use of social research, and exploration of the theoretical underpinnings of multiple paradigms in public affairs. Prerequisites: PhD standing or permission of instructor. Graded A-F only.

**PUB\_AF 9183. Public Affairs Research and Professional Development Seminar. 1 Credit.**

Research and professional development through participation in research seminars, colloquia, academic conferences, lectures, and professional workshops. Students required to register every spring semester in residence. Prerequisites: PhD standing or permission of instructor. Graded on S/U basis only.

**PUB\_AF 9185. Supervised Research. 3 Credits.**

Research experience directed by major professor designed to prepare doctoral students for independent scholarship in area of doctoral specialization. Prerequisites: Public Affairs [PUB\_AF] 8150, PhD standing or permission of instructor.

## Public Health (P\_HLTH)

---

**P\_HLTH 7001. Topics in Public Health. 3 Credits.**

Selected topics of interest related to Public Health.

**P\_HLTH 7085. Problems in Public Health. 1-99 Credit.**

Guided readings, intensive study of an area in Public Health related to special interest of student or an area in which the student needs to strengthen. Prerequisite: graduate standing; instructor's consent. May be repeated for credit.

**P\_HLTH 7150. Principles of Public Health. 3 Credits.**

This course provides an overview of public health, including concentration areas of public health systems, epidemiology, social and behavioral determinants of health, environmental health, and public health policy.

Case studies from local, state, national and international public health issues are incorporated into each segment, culminating in a discussion of the future of public health.

**P\_HLTH 7160. Interdisciplinary Perspectives in Global Health. 3 Credits.**

This course is designed for those interested in health issues from a global perspective. It explores contemporary issues, problems, and controversies in global health through an interdisciplinary perspective. This course will follow a lecture and case study discussion format. Graded on A/F basis only. Prerequisite: Department consent required.

**P\_HLTH 7750. Physical Function and Older Adults. 3 Credits.**

(Same as Family and Community Medicine [F\_C\_MD] 7750, Architectural Studies [ARCHST] 7640, Health Management and Informatics [HMI] 7750, Human Development and Family Studies [H\_D\_FS] 7750, Nursing [NURSE] 7750, and Social Work [SOC\_WK] 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded A-F only. Graduate Standing Required.

**P\_HLTH 7751. Psychosocial Function and Older Adults. 3 Credits.**

(same as Architectural Studies [ARCHST] 7650, Family Community Medicine [F\_C\_MD] 7751, Health Management and Informatics [HMI] 7751, Human Development and Family Studies [H\_D\_FS] 7751, Nursing [NURSE] 7751, Public Health [P\_HLTH], 7751 and Social Work [SOC\_WK] 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

**P\_HLTH 7800. Public Health Campaign Successes and Failures. 3 Credits.**

Explains how public health promotion campaigns are planned from assessing health needs and using theoretical models for interventions, to how they are implemented, marketing and strategies, and the benefits and consequences of public health campaigns. Graded on A-F basis only.

**P\_HLTH 7952. Research Methods in Public Health. 3 Credits.**

This course is designed to introduce students to the process of research as a sequence of events, systematically organized to further knowledge. A scientific and conceptual stance to knowledge development is emphasized, along with the importance of the empirical approach in establishing relationships between theories, concepts, and behavior phenomena. Prerequisite: graduate standing. May be repeated for credit.

**P\_HLTH 8001. Topics in Public Health. 1-3 Credit.**

Selected topics of interest related to Public Health.

**P\_HLTH 8085. Problems in Public Health. 1-99 Credit.**

Guided readings, intensive study of an area in Public Health related to special interest of student or an area in which the student needs to strengthen. Prerequisite: graduate standing; instructor's consent. May be repeated for credit.

**P\_HLTH 8090. Masters Thesis Research. 1-99 Credit.**

Leads to preparation of masters thesis. Graded on S/U basis only. Prerequisites: Public Health [P\_HLTH] 8980. Instructor's consent required. Graduate standing required. May only be repeated for credit for six hours.

**P\_HLTH 8150. Human Health and the Environment. 3 Credits.**

This new graduate level course will address threats to public health related to environmental factors including biological, physical and chemical factors. Subjects will include environmental contamination and remediation, zoonotic disease food and water quality.

**P\_HLTH 8250. Equity and Disparities in Health. 3 Credits.**

(Same as Social Work [SOC\_WK] 8250) This course is designed to provide students with knowledge about the distribution, causes, and consequences of health inequalities. The course will examine how multiple predictors such as socioeconomic status, behavioral risk factors, and cultural factors such as perceived discrimination and acculturation, gender and marriage, stigma, and health care inequalities are related with racial/ethnic, socioeconomic, and gender disparities in health. This course will also discuss implications that may contribute substantively toward the elimination of health inequalities. Prerequisite: graduate standing required.

**P\_HLTH 8251. Immigrant Health. 3 Credits.**

Public health professions have considerable interest in understanding the unique health concerns of immigrants, in order to prevent disease, promote health, and prolong life in this specific population and in the population as a whole. This course will be based on readings in the peer-reviewed literature, discussion in a seminar format, community visits and observations/interviews, and guest speakers on topics o importance when considering issues of public health particular to immigrant communities. Prerequisite: instructor's consent. Graded on A/F basis only.

**P\_HLTH 8260. Emergency Preparedness. 3 Credits.**

An overview of current national guidance and basic assessment of the current health care system level of readiness focusing on the critical role of the health care system for community, regional, state, and nationally based emergency preparedness efforts. Graded on A/F basis only.

**P\_HLTH 8400. Clinical Veterinary Regulatory Medicine and Public Health. 2 Credits.**

(same as Veterinary Medicine and Surgery [V\_M\_S] 8400). The goal of this course is to familiarize the student with clinical aspects of veterinary public health/regulatory medicine. Must be enrolled in MPH (veterinary public health concentration) or DVM curriculum.

**P\_HLTH 8420. Principles of Epidemiology. 3 Credits.**

This course is intended to provide a general introduction to the course epidemiological concepts and methods as grounded in the essential services of public health. The focus of the course is on developing critical thinking skills and providing a foundation in applied epidemiologic competencies. May be repeated for credit. Graded on A-F only. Prerequisite: graduate level statistics; instructor's consent.

**P\_HLTH 8620. Emerging Zoonoses Pathogens. 3 Credits.**

This course will enhance student understanding of the epidemiology and ecology of emerging and established zoonotic diseases. Risk factors for emergence of zoonotic diseases will be discussed and principles of zoonotic disease control will be contextually developed. Prerequisites: Family and Community Medicine [F\_C\_MD] 8420 or Veterinary Pathobiology [V\_PBIO] 8455 and Public Health [P\_HLTH] 8150. May be repeated. Graded on A/F basis only.

**P\_HLTH 8920. Social and Behavioral Sciences in Public Health. 3 Credits.**

(same as Psychology [PSYCH] 8920). This course will take both a theoretical and a practical approach to understanding health-related behavior and the field of public health. Students will gain an

understanding of theory and empirical research in the social and behavioral sciences, as well as developing practical skills in critically evaluating research and in applying scientific evidence to address real world health concerns.

**P\_HLTH 8921. Assessment of Population Health and Field Epidemiology. 3 Credits.**

Assessment in public health including outbreak investigation, surveillance, infectious disease, and environmental epidemiology. Prerequisites: Graduate level statistics, basic graduate level epidemiology. Instructor's consent required. Graded on A-F basis only. May be repeated for credit.

**P\_HLTH 8953. Developing and Evaluating Global Public Health Programs. 3 Credits.**

The focus of this course is on the application of research and evidence in the design and implementation of public health programs in developing countries. The intent is to provide an introductory grounding in the development of an evidenced based program from the perspective of the manager. May be repeated for credit. Prerequisite: P\_HLTH 8420 and consent of instructor.

**P\_HLTH 8970. Public Health Capstone. 3 Credits.**

As an integrating experience, the Public Health Capstone will allow students to articulate and share what they have learned in coursework and to supplement previous learning by exploring areas of knowledge the students identify as most relevant to their readiness for professional practice. It will enable students to test theoretical knowledge against real life practical experiences, and to integrate and refine basic and advanced concepts, values, and methods acquired during the professional education. Graduate standing required.

**P\_HLTH 8971. Veterinary Public Health Capstone. 1-99 Credit.**

This capstone experience provides a unique set of opportunities and responsibilities. It is generally scheduled after completion of at least 2 semesters of the MPH curriculum and is designed to serve as a capstone experience integrating previous coursework and experiences. Exceptions to the requirement of completion of 2 semesters of MPH coursework will be granted for students who have completed or concurrent degree. Examples of relevant preparatory coursework will include epidemiology and veterinary public health. As an integrating experience, the capstone will require students to apply knowledge in an independent manner, integrate knowledge into cohesive production, and communication the results of this experience. Prerequisite: completion of at least 2 semester of MPH curriculum.

**P\_HLTH 8980. Public Health Internship. 1-99 Credit.**

The field experience, or internship, is an opportunity for the student to test many of the theories, concepts, and information about public health learned during the first year and translate them into practice. Using the internship site as the "organizational laboratory," the student begins to develop the necessary professional skill sets for becoming a successful public health professional. The current knowledge, skills, abilities, and experiences will continue to develop and grow as each student becomes a life-long learner and practitioner of public health. Graded on S/U basis only.

---

## Radiologic Sciences (RA\_SCI)

---

**RA\_SCI 1000. Introduction to Radiography. 1 Credit.**

Overview of radiography through small group discussions and onsite visitations in radiology departments. Graded on S/U basis only.

**RA\_SCI 3110. Radiography Procedures I. 2 Credits.**

This course is an introduction to basic radiographic positioning and procedures. Specific radiographic procedures of the chest, upper extremity, shoulder girdle, pelvis and lower extremity are taught. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3120. Fundamentals of Radiography. 3 Credits.**

Orientation to radiology department, ethics, psychodynamics of patient care, medical legal considerations and radiation safety procedures. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3130. Basic Radiographic Skills. 2 Credits.**

Radiographic film processing techniques, intensifying screens and sensitometry will be discussed. The x-ray tube, x-ray production and some of the factors which affect the quantity and quality of the x-ray beam as well as the x-ray image will also be introduced. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3140. Principles in Radiographic Exposure I. 3 Credits.**

Theory and principles of X-ray technique; correlation of factors with application. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3150. Radiologic Pharmacology. 3 Credits.**

Pharmacological principles, biopharmaceutics, pharmacokinetics, pharmacodynamics, drug classifications, drug names, administration routes, and infection prevention and control will be covered. Attention will be given to contrast agents relative to radiographic imaging. Ethical and legal implications will be explored. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3160. Radiologic Physics. 3 Credits.**

Fundamental physics of electricity and radiant energy; principles of generation of electromagnetic radiation and applicable equipment; and principles of digital image capture, display and storage. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3170. Imaging Modalities. 2 Credits.**

The study of radiographic and fluoroscopic equipment with attention to automatic exposure devices, image intensification, and imaging detectors. Consideration will be given to equipment in such modalities as computed tomography, magnetic resonance imaging, ultrasound, nuclear medicine and radiation therapy. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3180. Radiography Procedures II. 2 Credits.**

Instruction in radiographic procedures of the upper and lower gastrointestinal system, urinary system, bony thorax, vertebral column, and cranium. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3190. Radiography Procedures III. 3 Credits.**

Instructions in advanced radiographic imaging techniques with emphasis in trauma radiography, vascular studies and other speciality radiographic procedures. Prerequisites: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3460. Cardiovascular and Pulmonary Diagnostic Applications I. 3 Credits.**

(same as Cardiopulmonary and Diagnostic Science [CPD] 3460). Problem-based study of cardiopulmonary anatomy and physiology using current imaging methods. Emphasis given to assessment of the acutely distressed cardiac or pulmonary subject, emergency pulmonary support and vascular access techniques. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program.

**RA\_SCI 3941. Clinical Education I. 3 Credits.**

First in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing radiographic procedures of the chest, abdomen, and extremities. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 3942. Clinical Education II. 3 Credits.**

Second in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing the development of technical skills and procedural knowledge of routine radiographic procedures. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 4085. Problems in Medical Imaging. 1-3 Credit.**

Supervise investigation in an aspect of medical imaging science usually culminating in a written report. Prerequisite: instructor's consent.

**RA\_SCI 4110. Sectional Anatomy. 3 Credits.**

(same as Diagnostic Medical Ultrasound [DMU] 4312/7312). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Prerequisite: instructor's consent.

**RA\_SCI 4140. Magnetic Resonance Imaging: Physics and Procedures. 5 Credits.**

Magnetic Resonance imaging fundamentals, applications, instrumentation, physical principles. Basic imaging concepts including positioning, scanning protocols, contrast imaging, anatomy review, and pathological considerations. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program.

**RA\_SCI 4150. Computed Tomography: Physics and Procedures. 5 Credits.**

Computed tomography imaging fundamentals, applications, instrumentation, physical principles. Applied concepts regarding patient care and CT imaging procedures. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program.

**RA\_SCI 4303. Radiation Safety. 3 Credits.**

(same as Nuclear Science and Engineering [NU\_ENG] 4303/7303) Types and origins of radiation; radiation detection and measurement; radiation interactions; shielding; dose calculations; federal, state and local regulations; and procedures for safe uses of radiation. Laboratory experiments in radiation measurements and protection.

**RA\_SCI 4440. Organization and Administration. 3 Credits.**

(same as Respiratory Therapy [RS\_THR] 4440 and Cardiopulmonary and Diagnostic Science [CPD] 4440). Examines design and operation of allied health service departments and educational programs, including facilities, personnel procedures, record systems, ethics, medical-legal aspects, interdepartmental relations and curriculum development.

**RA\_SCI 4943. Clinical Education III. 3 Credits.**

Third in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing the transition to self-directed practice of routine radiographic procedures and the development of technical skills and procedural knowledge of more advanced radiographic procedures. Prerequisite: Acceptance into Radiologic Science, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 4944. Clinical Education IV. 3 Credits.**

Fourth in a five-part series focusing on the application and evaluation of radiography in the clinical setting. Supervised clinical experience emphasizing self-directed clinical practice and the development of technical skills and procedural knowledge of more advanced radiographic procedures and modalities. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Science students only.

**RA\_SCI 4945. Clinical Education V. 3 Credits.**

Final clinical course. Supervised clinical experience emphasizing self-directed performance of complex radiographic procedures, continued competency in routine diagnostic radiography and the investigation of advanced modalities, while transitioning to reflective, critical, and strategic professional practice. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program. Restricted to Radiologic Sciences students only.

**RA\_SCI 4946. Advanced Medical Imaging Externship. 3 Credits.**

Supervised clinical experience in a medical imaging specialty with emphasis on patient care and technical practice. Prerequisite: Acceptance into Radiologic Sciences; instructor's consent. Restricted to Radiologic Science students only.

**RA\_SCI 4947. Radiography Overview. 3 Credits.**

A comprehensive overview of all aspects of diagnostic radiology with emphasis on procedures, technique, radiation protection, positioning, radiographic anatomy and patient care. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program.

**RA\_SCI 4980. Imaging Pathology. 3 Credits.**

Etiology and processes of disease. Emphasis on pathology of body systems and the manifestation of pathology through imaging. Prerequisite: Acceptance into Radiologic Sciences, Radiography Program.

**RA\_SCI 7303. RADIATION SAFETY. 3 Credits.**

RADIATION SAFETY.

---

## Radiology (RADIOL)

---

**RADIOL 4328. Introductory Radiation Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] 4328, Nuclear Engineering [NU\_ENG] 4328, Veterinary Medicine and Surgery [V\_M\_S] 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man. Prerequisite: junior standing Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent.

**RADIOL 6371. ABS Radiology Mechanism of Disease. 5-10 Credit.**

ABS Radiology Mechanism of Disease.

**RADIOL 6373. ABS Radiology Research. 5-10 Credit.**

ABS Radiology Research.

**RADIOL 6375. ABS Radiology Research and Review. 5-10 Credit.**

ABS Radiology Research and Review.

**RADIOL 6645. Radiology. 5 Credits.**

Goals/Objectives: General survey of all subspecialties of radiology. Evaluations: Written evaluations performed by both faculty and residents.

**RADIOL 6650. Advanced Radiology. 5 Credits.**

Advanced Radiology.

**RADIOL 6745. Radiology - Rural. 5 Credits.**

Radiology - Rural.

**RADIOL 7328. Introductory Radiation Biology. 3 Credits.**

(same as Biological Sciences [BIO\_SC] , Nuclear Engineering [NU\_ENG] , Veterinary Medicine and Surgery [V\_M\_S] 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man. Prerequisite: graduate standing Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent.

**RADIOL 8085. Problems in Radiology. 1-3 Credit.**

Supervised investigation in an aspect of radiological science usually culminating in a written report.

**RADIOL 8090. Problems in Radiology. 1-3 Credit.**

Supervised investigation in an aspect of radiological science usually culminating in a written report.

---

## Religious Studies (REL\_ST)

---

**REL\_ST 1100. Introduction to Religion. 3 Credits.**

Engages students in reflection on the religious questions that human existence poses, and introduces them to conceptual tools for understanding and evaluating answers which have emerged in human history. Restricted to Freshmen and Sophomores only.

**REL\_ST 1100H. Introduction to Religion - Honors. 3 Credits.**

Engages students in reflection on the religious questions that human existence poses, and introduces them to conceptual tools for understanding and evaluating answers which have emerged in human history. Honors eligibility required.

**REL\_ST 1500. Religion and Culture. 3 Credits.**

The study of religion as expressed in art, literature, music, dance, drama, architecture. Restricted to Freshmen and Sophomores only.

**REL\_ST 1820. Asian Humanities. 3 Credits.**

(same as Art History and Archeology [AR\_H\_A] 1230, History [HIST] 1820, South Asian Studies [S\_A\_ST] 1152). This course is an introduction to the literature and visual arts of Asia through selected master works. It focuses principally on India and China and investigates the distinctive features of their cultures.

**REL\_ST 1820H. Asian Humanities - Honors. 3 Credits.**

(same as Art History and Archeology [A\_R\_HA] 1230, History [HIST] 1820, South Asian Studies [S\_A\_ST] 1152). This course is an introduction to the literature and visual arts of Asia through selected master works. It focuses principally on India and China and investigates the distinctive features of their cultures.

**REL\_ST 2001. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 2005. Topics in Religious Studies-Humanities. 1-3 Credit.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 2100. Indigenous Religions. 3 Credits.**

(same as Anthropology [ANTHRO] 2100). Explores the central aspects of religious life in indigenous communities. Focusing on specific groups, it considers individual and group identity, the meaning of the sacred, and the impact of foreign domination. 2100H same as 2100 with the addition of Honors eligibility required.

**REL\_ST 2100H. Indigenous Religions - Honors. 3 Credits.**

(same as Anthropology [ANTHRO] 2100H). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred. Honors eligibility required.

**REL\_ST 2110. Religions of the World. 3 Credits.**

This course introduces students to a variety of religious traditions through the study of their myths, rituals, beliefs, and practices, and explores approaches to the academic study of religion.

**REL\_ST 2110H. Major World Religions - Honors. 3 Credits.**

Explores the differing ways in which Asian and Western religions interpret life and reality. Includes study of Hinduism, Buddhism, Chinese and Japanese religions, Judaism, Christianity, and Islam. Honors eligibility required.

**REL\_ST 2230. Religion and Popular Culture in the U.S.. 3 Credits.**

Explores intersections of religion and popular culture and methods for analysis.

**REL\_ST 2240. Harry Potter, Magic, and Religion. 3 Credits.**

This course explores religious themes in J.K. Rowling's Harry Potter series. Topics include ancient Greek, Roman, Celtic, and Norse mythological themes, the relationship between religion and magic, and reactions to the books among various religious groups.

**REL\_ST 2250. Religious Perspectives on Peace and War. 3 Credits.**

This course explores religious justification for war as well as religious perspectives on peacemaking. We engage these issues through the investigation of a variety of religious leaders and traditions, drawing from contemporary and historical examples. Traditions studied can include Jewish, Christians, Buddhist, Hindu, Islamic, and indigenous illustrations.

**REL\_ST 2270. Religion and Literature. 3 Credits.**

This course explores religious themes such as myth, rituals and rites, sacred power, transcendence, salvation, and pilgrimage in secular literature. Selections in English, include novels and short stories from a variety of cultures and religious traditions.

**REL\_ST 2270H. Modern Literature and the Quest for Values - Honors. 3 Credits.**

This course is an interdisciplinary study of the religious and ethical questions, quests, and solutions in the literary works of selected modern writers: Beckett, Eliot, Camus, Kazantzakis, O'Connor, Updike, Wiesel, Percy and Morrison. Honors eligibility required.

**REL\_ST 2280. Biblical Themes in American Literature. 3 Credits.**

This course is a study of the reinterpretation of Hebrew scriptures and New Testament sources in classic American texts. The works of Melville, Faulkner, MacLeish, Baldwin, O'Connor, Updike, Percy, and Morrison create a history of certain American ideas as they transform traditional biblical figures and ideas.

**REL\_ST 2280H. Biblical Themes in American Literature - Honors. 3 Credits.**

A study of the sources in the Hebrew Scriptures and the New Testament and their reinterpretation in classic American texts. Such a study, initially textual, results in a history of American ideas. Authors studied include MacLeish, Baldwin, O'Connor, Updike, Percy and Morrison. Honors eligibility required.

**REL\_ST 2310. Religions of China and Japan. 3 Credits.**

Introduction to the religions of East Asia, focusing on both popular beliefs and institutionalized religion. Topics include: Buddhist, Confucian, and Daoist traditions of China; Buddhism and Shinto in Japan; self-cultivation practices; spirit mediumship; ritual; cosmology; religion and society; religion and the state.

**REL\_ST 2310H. Religions of China and Japan - Honors. 3 Credits.**

Introduction to the religions of East Asia, focusing on both popular beliefs and institutionalized religion. Topics include: Buddhist, Confucian, and Daoist traditions of China; Buddhism and Shinto in Japan; self-cultivation practices; spirit mediumship; ritual; cosmology; religion and society; religion and the state. Honors eligibility required.

**REL\_ST 2400. Judaism. 3 Credits.**

A comprehensive introduction to Judaism: an overview of Jewish philosophy and theology, rituals and customs.

**REL\_ST 2410. Essential Stories of the Torah. 3 Credits.**

Students will examine major narratives and texts from the Pentateuch section of Hebrew Bible. This class will present such ancient, medieval, and contemporary interpretations that will demonstrate how biblical texts could be construed in more than one way.

**REL\_ST 2450. The Holocaust and Reflections on Genocide. 3 Credits.**

Examines the nature of genocide as an historical phenomenon using the Holocaust as the primary case study.

**REL\_ST 2500. Introduction to Hebrew Bible/Old Testament. 3 Credits.**

An introduction to the literature, history, institutions, and thought contained in the Hebrew Bible and to the methods and principles necessary for the scholarly study of scripture.

**REL\_ST 2500H. Introduction to Hebrew Bible/Old Testament - Honors. 3 Credits.**

An introduction to the literature, history, institutions, and thought contained in the Hebrew Bible and to the methods and principles necessary for the scholarly study of scripture. Honors eligibility required.

**REL\_ST 2510. Introduction to the New Testament. 3 Credits.**

An introduction to the literature of the New Testament and the methods and principles guiding its interpretation, with particular mention to its structure, thought, and historical setting.

**REL\_ST 2510H. Introduction to the New Testament - Honors. 3 Credits.**

An introduction to the literature of the New Testament and the methods and principles guiding its interpretation, with particular mention to its structure, thought, and historical setting. Honors eligibility required.

**REL\_ST 2600. Early Christianity. 3 Credits.**

(same as History [HIST] 2600). History of Christian practices and teachings from Christian origins through the 8th century, including Eastern Orthodoxy Syrian Christianity, Roman Catholicism. Themes such as interpretation and creation of Scriptures, worship style, central rituals,

debates about right teaching (orthodoxy) mysticism and developing lifestyles both in and apart from the world.

**REL\_ST 2600H. Early Christianity - Honors. 3 Credits.**

(same as History [HIST] 2600). History of Christian practices and teachings from Christian origins through the 8th century, including Eastern Orthodox Syrian Christianity, Roman Catholicism. Themes such as interpretation and creation of Scriptures, worship style, central rituals, debates about right teaching (orthodoxy) mysticism and developing lifestyles both in and apart from the world. Honors eligibility required.

**REL\_ST 2610. Medieval Christianity. 3 Credits.**

(same as History [HIST] 2610). History of Christian practices and teachings from the 5th-15th centuries, including Byzantine and Western Christianity Themes such as the influence of the Islamic world on Christianity, popular and elite formulations of theology and ritual activities.

**REL\_ST 2610H. Medieval Christianity - Honors. 3 Credits.**

(same as History [HIST] 2610). History of Christian practices and teachings from the 5th-15th centuries, including Byzantine and Western Christianity Themes such as the influence of the Islamic world on Christianity, popular and elite formulations of theology and ritual activities. Honors eligibility required.

**REL\_ST 2620. History of Christianity, 1500-Present. 3 Credits.**

(same as History [HIST] 2620). History of Christian practices and teachings from the 15th - 21st centuries, including global dimensions of Orthodox, Catholic, Protestant and other forms of Christianity. Themes such as right teaching and practice, indigenous-Christian contact, mission and expansion, impact of secular theories, contemporary debates.

**REL\_ST 2620H. History of Christianity, 1500-Present - Honors. 3 Credits.**

(same as History [HIST] 2620). History of Christian practices and teachings from the 15th - 21st centuries, including global dimensions of Orthodox, Catholic, Protestant and other forms of Christianity. Themes such as right teaching and practice, indigenous-Christian contact, mission and expansion, impact of secular theories, contemporary debates. Honors eligibility required.

**REL\_ST 2630. History of Christian Traditions. 3 Credits.**

(same as HIST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topic will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy. May be repeated for credit.

**REL\_ST 2700. Islam. 3 Credits.**

Examines the historical development of Islamic traditions, noting the manner in which various sects & factions understand religion, humanity and God.

**REL\_ST 2900. Contemporary Religious Thought. 3 Credits.**

Explores issues within contemporary Christian theology that cut across denominational lines such as: the nature and existence of God; secularization, relativism, and humanism; the authority of the Bible; attitudes toward other religions; the moral integrity of Christianity; and the purpose of human existence.

**REL\_ST 2910. Religion and Contemporary Social Issues. 3 Credits.**

Study of the social ethics of Jewish and Christian theologians and movements of the 19th and 20th centuries and an examination of selected social problems in light of these systems.

**REL\_ST 2920. Images of Good and Evil. 3 Credits.**

Study of the symbols and myths which explore the nature and power of good and evil. Includes examination of the music, art and literature of both ancient and contemporary religions.

**REL\_ST 2930. Religion and Psychological Perspectives. 3 Credits.**

Examines how religion is understood from various psychological perspectives, and how psychological theories reflect religious presuppositions about the nature and purpose of human life.

**REL\_ST 2939. Religion and Human Sexuality. 3 Credits.**

Examines attitudes within the Christian tradition toward sexuality, with particular reference to the alternatives of patriarchy and feminism, especially as they consider issues such as the meaning of bodiliness, masturbation, pornography, prostitution, homosexuality and sexual pluralism.

**REL\_ST 2950. Directed Readings in Religious Studies. 3 Credits.**

Independent readings selected in consultation with supervisory faculty member. May not be repeated. Prerequisite: instructor's consent.

**REL\_ST 3000. History of Religion in America to the Civil War. 3 Credits.**

(same as History [HIST] 3000). Surveys major American religious traditions, patterns, and themes from 1492 to the Civil War, especially the role of religion in American social, cultural, and political developments. Prerequisite: sophomore standing or instructor's consent.

**REL\_ST 3000H. History of Religion in America to the Civil War - Honors. 3 Credits.**

(same as History [HIST] 3000). Surveys major American religious traditions, patterns, and themes from 1492 to the Civil War, especially the role of religion in American social, cultural, and political developments. Prerequisite: sophomore standing or instructor's consent. Honors eligibility required.

**REL\_ST 3001. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 3005. Topics in Religious Studies-Humanities. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 3100. Religious Literacy for the Public and Professions. 3 Credits.**

This course teaches students to engage and encounter religion in day-to-day life and in the professional workplace. Its primary goal is to examine religious diversity in private and professional contexts from a practical standpoint by examining a variety of case studies.

**REL\_ST 3200. Hinduism. 3 Credits.**

(same as South Asia Studies [S\_A\_ST] 3200). Origin and development of central themes of traditional Hinduism from earliest times to the modern period. Topics include: the Vedic tradition, rituals and practice, varieties of yoga, and meditation, Indian religious thought, and devotional Hinduism.

**REL\_ST 3210. History of Religion in Post-Civil War America. 3 Credits.**

(same as History [HIST] 3210). Surveys major American religious traditions, patterns, and themes from 1865 to the present, especially the role of religion in American social, cultural and political developments.

**REL\_ST 3210H. History of Religion in Post-Civil War America - Honors. 3 Credits.**

(same as History [HIST] 3210). Surveys major American religious traditions, patterns, and themes from 1865 to the present, especially the role of religion in American social, cultural and political developments. Prerequisite: sophomore standing or instructor's consent. Honors Eligibility Required.

**REL\_ST 3230. Buddhism and Environmental Ethics. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 3230). Global environmental crisis is associated with rapidly expanding human population. Buddhist teachings about the interdependent aspects of existence and interrelatedness of all life may provide critical insights for how humanity can achieve balance and reciprocity with nature.

**REL\_ST 3240. Buddhism of South and Southeast Asia. 3 Credits.**

(same as South Asian Studies 3240). Examines the origins of Buddhism in India, the narratives of the life of the Buddha, the development of early Buddhist schools, the extension of Buddhism into Central and Southeast Asia, and the current practice of Buddhism in South and Southeast Asia.

**REL\_ST 3250. Buddhism in East Asia. 3 Credits.**

This course will trace the transmission of Buddhism from the Indian subcontinent to China, and from there to Korea and Japan. We will examine the historical development of East Asian forms of Buddhism, deal with key issues of Buddhist thought and practice, and look at the role of Buddhism in modern East Asian societies. Prerequisites: Religious Studies [REL\_ST] 2110, 2300, 2310 or 3200, or instructor's consent.

**REL\_ST 3260. Hindu Goddesses. 3 Credits.**

This course examines the vast range of Hindu Goddesses and their worship in South Asia. It includes information about goddess origins, mythology, symbolism, and attendant ritual practices. In order to approach this topic, background information about the history of Hinduism, major religious narratives, devotional practices, and iconographic representations of the divine are discussed. The course introduces the approaches of various scholars to Hindu Goddess worship within the context of religion, social relations, and gender roles, and explores ways in which South Asian women experience and negotiate feminine power in contemporary socio-cultural contexts.

**REL\_ST 3280. Chinese Popular Religion. 3 Credits.**

Starting with a consideration of conceptual issues (what is 'popular religion?'), the course will give a survey of the beliefs and practices of Chinese popular religion, including ancestor worship, territorial cults, spirit-mediumism, divination, and popular sects.

**REL\_ST 3300. The Prophets. 3 Credits.**

Study of the prophetic writings of the Hebrew Scriptures, with consideration of the origin and nature of Israelite prophecy. Includes the narratives of the period of prophetic activity and study of the classical prophets.

**REL\_ST 3310. The Problem of Evil: Theodicy in the Ancient Near East. 3 Credits.**

Detailed interpretation of the Psalms, Proverbs and related writings of the broad wisdom tradition, with critical attention to the literary style and structure of the writings.

**REL\_ST 3380. Native American Religions. 3 Credits.**

(same as Anthropology [ANTHRO] 3380). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts.

**REL\_ST 3380H. Native American Religions - Honors. 3 Credits.**

(same as Anthropology [ANTHRO] 3380H). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts. Honors eligibility required.

**REL\_ST 3400. The Gospels of Matthew, Mark, and Luke. 3 Credits.**

Examination of the Gospels of Matthew, Mark, and Luke as single works and as literarily related compositions. Interpretation focuses on the literary form of passages and the theological and ethical themes expressed.

**REL\_ST 3400H. The Gospels of Matthew, Mark, and Luke - Honors. 3 Credits.**

Examination of the Gospels of Matthew, Mark, and Luke as single works and as literarily related compositions. Interpretation focuses on the literary form of passages and the theological and ethical themes expressed. Honors eligibility required.

**REL\_ST 3410. Life and Letters of Paul. 3 Credits.**

Reconstruction of the life and letters of the Apostle Paul; examination of his thought in relation to Jesus of Nazareth and to earliest Christianity.

**REL\_ST 3410H. Life and Letters of Paul - Honors. 3 Credits.**

Reconstruction of the life and letters of the Apostle Paul; examination of his thought in relation to Jesus of Nazareth and to earliest Christianity. Honors eligibility required.

**REL\_ST 3420. Jesus in Myth, Tradition and History. 3 Credits.**

This course will explore the identity and character of Jesus of Nazareth as depicted in various early Christian canonical and non-canonical sources and, using a variety of scholarly techniques, ascertain what information in those sources can be considered to describe accurately the real, historical Jesus.

**REL\_ST 3430H. Revelation and Apocalyptic Literature - Honors. 3 Credits.**

A study of Jewish and Christian apocalyptic literature with an emphasis on the Revelation to St. John. Honors eligibility required.

**REL\_ST 3445. The Body in Western Christianity. 3 Credits.**

This course is a survey of Western Christian Perspectives of the human body ranging from the Early Church Fathers to trends in contemporary American culture.

**REL\_ST 3451. Religion in Science Fiction. 3 Credits.**

Investigation of religious themes in science fiction novels, short stories and films. Themes include the nature of the sacred, the limits of human knowledge, understanding and experiencing transcendence, revelation and apocalypse.

**REL\_ST 3500. Judaism in the Time of Jesus. 3 Credits.**

This course is an introduction to the origin and development of Judaism from the time of the destruction of the first Jerusalem temple (587 BCE) to the Bar Kochba revolt (132-135 CE).

**REL\_ST 3530. Rabbinic Judaism: Perspective and Literature. 3 Credits.**

Overview of the Jewish oral tradition during the Rabbinic era. The information covered in this course will focus upon the vast literature created during the Mishnaic and Talmudic periods and the emerging new styles and directions of Jewish religious thought.

**REL\_ST 3540. Jewish-Christian Relations. 3 Credits.**

Explores historical and contemporary relations between Christians and Jews, and the transformations in Christian thought and practice resulting

from awareness of Christianity's role in the Holocaust and from post-Holocaust dialogues between Jews and Christians.

**REL\_ST 3600. Spirituality. 3 Credits.**

Comparative investigation of selected mystical writings from Western religious traditions; consideration of contemporary psychological, philosophical, and phenomenological interpretations of mystical experience.

**REL\_ST 3700. Modern Religious Thought. 3 Credits.**

Examination of the theological systems of major Christian thinkers and movements of the 19th and 20th centuries in relation to historic religious traditions and modern cultural challenges. Prerequisite: sophomore standing, and one course in Philosophy, or instructor's consent.

**REL\_ST 3710. Reality of God. 3 Credits.**

Will explore the meaning of "the loss of God" (Tillich) and various modern and contemporary attempts to reaffirm the reality of God.

**REL\_ST 3740. Religion and Film. 3 Credits.**

Addresses issues of interpretation and analysis in the convergence of religion and film. Addresses three areas under this broad rubric: 1) film representations of established religions; 2) film and the construction of social values; 3) film as contemporary "myth". Treating films as social texts, we will ask what such representations of ourselves to ourselves suggest about culture in general.

**REL\_ST 3750. Women and Religions. 3 Credits.**

(same as Women's and Gender Studies [WGST] 3750). A rediscovery of the wealth of religious activity which women have created and enacted. Investigates women's roles and rituals in large-scale and local religions, including ancient Goddess religions, Hinduism, Buddhism, Judaism, Christianity, Islam, and African, South American, and native American groups. Prerequisite: sophomore standing.

**REL\_ST 3760. Geography of the World's Religions. 3 Credits.**

(same as Geography [GEOG] 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion. Prerequisite: 1000/2000 level Geography course; junior standing or instructor's consent.

**REL\_ST 3800. Religion in America Today. 3 Credits.**

Explores in depth a few selected issues currently shaping or being shaped by religion in the United States. Specific topics will be chosen from events conflicts, developments, or news items within the last five years. Prerequisite: sophomore standing. Graded on A/F basis only.

**REL\_ST 3820. Religion and Law in America. 3 Credits.**

This class explores how the U.S. legal system is navigating an increasing diversity of religious traditions. Course examines the place of religious values and the ongoing tension between religion and law in the legal system of the U.S. through a variety of controversial topics.

**REL\_ST 3990. Majors Seminar. 3 Credits.**

In this seminar religious studies majors will be encouraged to form a community of inquiry focused on the subject of religion and public life. Prerequisite: Religious Studies majors in their junior year.

**REL\_ST 4001. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration. Prerequisite: junior standing or instructor's consent.

**REL\_ST 4005. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 4100. Advanced Theories and Methods. 3 Credits.**

The course investigates the history of the modern academic study of religion, closely exploring influential theories and methods that have shaped scholarly perspective. May include approaches such as structuralism, phenomenology, Durkheimian and Weberian sociology, Marxism, feminism, thick description, psychoanalysis, and others. Limited to Religious Studies majors and MA students.

**REL\_ST 4110. Religious Myth and Ritual. 3 Credits.**

This course will unpack theoretical and methodological issues surrounding the study of embodied religious practice and the nature of religious narrative using myths and rituals from around the world's religious traditions.

**REL\_ST 4120. Studies in Ritual. 3 Credits.**

Exploration of particular themes of religious expression in seasonal, calendric and life-cycle rituals and in personal and public ceremonies. Includes comparisons of indigenous communities and modern society.

**REL\_ST 4130. Haunting and Healing. 3 Credits.**

This course explores instances, stories, and representations of haunting in the United States. We apply a variety of theoretical and methodological approaches to illuminate the diversity of meanings, functions, and contexts of supernatural beings in American popular and folk cultures.

**REL\_ST 4150. Religion, Spirituality, and the Brain. 3 Credits.**

Explores neuropsychology of religion, spirituality, transcendence, and mystical experience. Covers development in neuroscience about how the brain works in a variety of religious and spiritual contexts, including prayer, meditation, and altered states of consciousness.

**REL\_ST 4200. Survey of West African and African Diasporic Religions. 3 Credits.**

Explores indigenous African religions and Islam in West Africa, as well as the development of African American Christianity and African diasporic religions in the Americas.

**REL\_ST 4210. African-American Religion. 3 Credits.**

(same as Black Studies [BL\_STU] 4210). Historical and thematic examination of African American religious traditions and practices. Addresses intersections of religious expression with race, identity, culture, and society.

**REL\_ST 4280. Archaeology of Religion. 3 Credits.**

(same as Anthropology [ANTHRO] 4280). This course examines how anthropologists conceptualize religious behavior, and how archaeologist use material remains to examine past religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas. Prerequisite: Anthropology [ANTHRO] 2020 and/or Religious Studies [REL\_ST] 2100.

**REL\_ST 4300. Religious Narratives of South Asia. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4300). Study of major narratives of India and their interpretation in literature and art. Topics include: Vedic and Epic mythology, stories of Krishna, myths and images of Shiva, and forms of the Goddess.

**REL\_ST 4310. The Confucian Tradition: Past and Present. 3 Credits.**

Investigates Confucianism as the dominant religio-philosophical tradition of China and its impact on Korea and Japan. We will study basic Confucian canonical texts, follow its historical development, look at its

interactions with other religions, and discuss the continuing relevance of the Confucian tradition in modern East Asia.

**REL\_ST 4320. Introduction to Daoism. 3 Credits.**

An introduction to the Daoist religious tradition, beginning with its background in earlier forms of philosophy, ritual, and belief. We will follow the development of the various Daoist schools and movements over the centuries and examine key aspects of their belief and practice, both historical and contemporary.

**REL\_ST 4380. Anthropological Theories of Religion. 3 Credits.**

(same as Anthropology [ANTHRO] 4380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology, and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today. Prerequisites: Anthropology [ANTHRO] 2030, ANTHRO/ Religious Studies [REL\_ST] 2100, or instructor's consent.

**REL\_ST 4400. The Catholic Intellectual Tradition. 3 Credits.**

Students will read the great thinkers of the Catholic church such as Augustine, Abelard, Bernard of Clairvaux, Aquinas, Bonaventure, Nicholas of Cusa, Pascal, Newman, Maritain, Rahner, Johnson, Tracy. The theme examined may vary from year to year.

**REL\_ST 4410. Major Religious Thinkers. 3 Credits.**

Concentrated study of one or more selected theologians, such as Augustine, Aquinas, Luther, Calvin, Buber, Tillich, and Rahner.

**REL\_ST 4418. Religion Reporting and Writing. 3 Credits.**

(same as Journalism [JOURN] 4426). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life, and culture. Prerequisite: JOURN 4450 professional writing experience and instructor's consent.

**REL\_ST 4500. Greek and Roman Religion. 3 Credits.**

(same as Classical Humanities [CL\_HUM] 4500). Survey of religious development among the Greeks and Romans. Prerequisite: sophomore standing and CL\_HUM 1060, Art History and Archaeology [AR\_H\_A] 1110 or History [HIST] 1520.

**REL\_ST 4550. The Historical Jesus. 3 Credits.**

This course examines theory, method, and conclusions in recent Jesus scholarship. Attention is also paid to the historical and cultural context in which Jesus research becomes prominent.

**REL\_ST 4630. Sanskrit I. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4350). This intensive course will cover the essentials of Sanskrit grammar in one semester and prepare students for further readings in Hindu and Buddhist literature.

**REL\_ST 4640. Sanskrit II. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4640). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

**REL\_ST 4750. Women, Religion and Culture. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions.

**REL\_ST 4960. Directed Readings in Religious Studies. 1-6 Credit.**

Independent readings selected in consultation with supervisory faculty member. May be repeated up to 6 hrs. Prerequisite: instructor's consent.

**REL\_ST 4990. Senior Seminar in Religious Studies. 3 Credits.**

A seminar in which Religious Studies majors use methods of understanding and comparing religions by focusing on times and places of significant contact among peoples of different religions.

**REL\_ST 7001. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 7005. Topics in Religious Studies - General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 7110. Religious Myth and Ritual. 3 Credits.**

Comparative analysis of religious mythologies and symbolism as well as the ritual systems associated with those mythologies. Prerequisite: graduate standing and instructor's consent.

**REL\_ST 7120. Studies in Ritual. 3 Credits.**

Exploration of particular themes of religious expression in seasonal, calendric and life-cycle rituals and in personal and public ceremonies. Includes comparisons of indigenous communities and modern society. Prerequisite: graduate standing or instructor's consent.

**REL\_ST 7150. Religion, Spirituality, and the Brain. 3 Credits.**

Explores neuropsychology of religion, spirituality, transcendence, and mystical experience. Covers development in neuroscience about how the brain works in a variety of religious and spiritual contexts, including prayer, meditation, and altered states of consciousness. Prerequisite: graduate standing.

**REL\_ST 7280. Archaeology of Religion. 3 Credits.**

(Same as Anthropology [ANTHRO] 7280) This course examines how anthropologists conceptualize religious behavior, and how archaeologists use material remains to examine past religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas. Prerequisites: Anthropology [ANTHRO] 2020 and/or Religious Studies [REL\_ST] 2100. Graduate standing required.

**REL\_ST 7380. Anthropological Theory of Religions. 3 Credits.**

(same as Anthropology [ANTHRO] 7380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.

**REL\_ST 7418. Religion Reporting and Writing. 3 Credits.**

(same as Journalism [JOURN] 7426). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life, and culture. Prerequisite: graduate standing and Journalism [JOURN] 4450 professional writing experience and instructor's consent.

**REL\_ST 7500. Greek and Roman Religion. 3 Credits.**

(same as Classic Civilization 3550H). Survey of religious development among the Greeks and Romans. Prerequisite: sophomore standing and Classical Humanities [CL\_HUM] 1060, Art History and Archaeology [AR\_H\_A] 1110 or History [HIST] 1520. Honors eligibility required.

**REL\_ST 7510. The Catholic Intellectual Tradition. 3 Credits.**

Students will read the great thinkers of the Catholic church such as Augustine, Abelard, Bernard of Clairvaux, Aquinas, Bonaventure,

Nicholas of Cusa, Pascal, Newman, Maritain, Rahner, Johnson, Tracy. The theme examined may vary from year to year. Prerequisite: graduate standing.

**REL\_ST 7520. Major Religious Thinkers. 3 Credits.**

Concentrated study of one or more selected theologians, such as Augustine, Aquinas, Luther, Calvin, Buber, Tillich, and Rahner. Prerequisites: graduate standing.

**REL\_ST 7630. Sanskrit I. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 7630). This intensive course will cover the essentials of Sanskrit grammar in one semester and prepare students for further readings in Hindu and Buddhist literature. Prerequisite: graduate standing.

**REL\_ST 7640. Sanskrit II. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 7640). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

**REL\_ST 7700. Religious Narratives of South Asia. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 4300). Study of major narratives of India and their interpretation in literature and art. Topics include: Vedic and Epic mythology, stories of Krishna, myths and images of Shiva, and forms of the Goddess. Prerequisite: graduate standing and Religious Studies [REL\_ST] 2110, 3200, or 3240, or instructor's consent.

**REL\_ST 7710. The Confucian Tradition: Past and Present. 3 Credits.**

Investigates Confucianism as the dominant religio-philosophical tradition of China and its impact on Korea and Japan. We will study basic Confucian canonical texts, follow its historical development, look at its interactions with other religions, and discuss the continuing relevance of the Confucian tradition in modern East Asia. Prerequisite: graduate standing.

**REL\_ST 7720. Introduction to Daoism. 3 Credits.**

An introduction to the Daoist religious tradition, beginning with its background in earlier forms of philosophy, ritual, and belief. We will follow the development of the various Daoist schools and movements over the centuries and examine key aspects of their belief and practice, both historical and contemporary. Prerequisite: graduate standing.

**REL\_ST 7750. Women, Religion and Culture. 3 Credits.**

(same as Women's and Gender Studies [WGST] 7750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions. Prerequisite: graduate standing.

**REL\_ST 7800. West African and African Diasporic Religions. 3 Credits.**

Explores traditional African religions and African Islam prior to the slave trade. Also, will examine the Christianity of African American slaves. Prerequisite: graduate standing.

**REL\_ST 7810. African-American Religion. 3 Credits.**

(same as Black Studies [BL\_STU] 7810). Examines the organization of major African American Christian denominations, Islam and religious movements. Twentieth century issues will be discussed, including sexism, classism and homophobia in church communities. Prerequisite: graduate standing.

**REL\_ST 7990. Independent Readings in Religious Studies. 3 Credits.**

Independent readings and research selected in consultation with supervisory faculty.

**REL\_ST 8001. Topics in Religious Studies-General. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 8005. Topics in Religious Studies-Humanities. 3 Credits.**

Organized study of selected topics which vary by semester and are announced at time of registration.

**REL\_ST 8090. Research and Thesis in Religious Studies. 1-6 Credit.**

Research and writing for master's thesis. Graded on S/U basis only.

**REL\_ST 8200. Religious Texts and Interpretation: The Veda. 3 Credits.**

(same as South Asian Studies [S\_A\_ST] 7200). This course examines the Veda, the foundational scripture of Hinduism. It includes close study of Vedic texts and rituals and the influence, interpretation, and application of the Veda in the later Hinduism.

**REL\_ST 8210. Indian Buddhism. 3 Credits.**

This course examines the role of sacred texts in the Theravada and Mayayana Buddhist traditions. The course will emphasize canon formation and ideas about sacred texts in Buddhist traditions.

**REL\_ST 8250. Religious Texts and Interpretation: Gospel Literature. 3 Credits.**

The seminar includes comparative study of ancient gospels, and an examination of modern theories about the development of Jesus traditions.

**REL\_ST 8400. Religious History: Christian Interpretative Communities. 3 Credits.**

This course compares notions of religious authority in the sixteenth century: the Roman Catholic Church's Scripture and tradition and the Protestant principle of sola scriptura. The focus is the doctrine of the Eucharistic disputes carried on throughout the sixteenth century.

**REL\_ST 8430. Religious History: West African Interpretative Communities. 3 Credits.**

In this study of West African religious history, we will examine indigenous African religions, Islam, and Christianity. We will consider the impact of the slave trade, environmental changes, prophetic movements, and changes in the status of women. We will also evaluate theoretical perspectives on the study of Africa, of "traditional religions" and oral traditions. Graduate Standing Required.

**REL\_ST 8440. Religion, Globalization and Local Cultures. 3 Credits.**

Interdisciplinary, comparative approach to globalization's religious dimensions and productions in a variety of specific sites around the world. Graduate Standing Required.

**REL\_ST 8500. History of Religion and Everyday Life in America. 3 Credits.**

This graduate seminar will familiarize you with several theoretical and methodological issues involved in the study of religion in everyday life, its historical recovery and interpretation, and its presentation. We will focus on examples of scholarship on U. S. history. Graduate Standing Required.

**REL\_ST 8600. Comparative Studies in Spirit Possession. 3 Credits.**

This course will investigate four distinct Afro-Latin religious traditions of the Americas, including traditions from Haiti, Cuba, Brazil and Honduras, as well as comparative examples from South Asia, Europe and North

Africa. We will read and discuss such issues as 1) spirit possession and narratively; 2) spirit possession as "history"; 3) possession as dramatic performance; 4) the relationship between sacrifice and possession trance. Through careful exploration of their histories and contemporary practice, the class will attempt general comparisons between the religion as well as the critical review of comparative methods employed.

**REL\_ST 8700. Seminar in Folklore. 3 Credits.**

(same as Anthropology [ANTHRO] 8157 and English [ENGLISH] 8700). Focus on the roots of folklore scholarship and methodology and their evolution in modern approaches to the study of oral, traditional verbal genres and their performance in natural folk groups.

**REL\_ST 8710. Comparative Religion: Popular Religion. 3 Credits.**

Popular religion is the lived religion of the common people which takes shape in contact with and distinction from the religion(s) of the elite(s) of a society. This course introduces concepts and theories of popular religion, and investigates its role in various traditions, including Hinduism, Buddhism, Christianity, and Chinese religions.

## Respiratory Therapy (RS\_THR)

**RS\_THR 1000. Introduction to Respiratory Therapy. 1 Credit.**

Introductory course to assist students acquiring information about the respiratory therapy profession. Students observe therapists in hospitals and participate in lectures on credentialing, program requirements, placement and future trends in the profession. Graded on S/U basis only.

**RS\_THR 3000. Fundamentals of Respiratory Care. 1 Credit.**

Orientation to the profession. Focus on professional attributes of communication, teamwork, licensure and safety. Prerequisite: acceptance into respiratory therapy major.

**RS\_THR 3220. Equipment and Techniques. 5 Credits.**

History, organization of respiratory therapy. Theory, application of gas laws. Equipment for invasive and non-invasive pulmonary assessment, therapeutic aerosol and humidity, gas delivery, airway management. Techniques for infection control, lung expansion, bronchial hygiene. Graded on A/F basis only.

**RS\_THR 3290. Cardiopulmonary Pharmacology. 2 Credits.**

To provide the student with specific knowledge of the pharmacologic strategies in treating cardiopulmonary disorders. Prerequisites: restricted to students in the respiratory therapy program. Graded on A/F basis only.

**RS\_THR 3420. Principles of Mechanical Ventilation. 3 Credits.**

Continuation of Respiratory Therapy 3220. Emphasis on the principles of mechanical ventilation, including physiologic and clinical application. Prerequisite: Respiratory Therapy [RS\_THR] 3220, 3941 and 4040.

**RS\_THR 3440. Mechanical Ventilation Lab. 3 Credits.**

Application of mechanical ventilation emphasizing acute care: pressure, volume, and oscillatory ventilation of adults, Pediatrics, and infants. Related graphical, laboratory, and hemodynamic analysis; therapeutic intervention. Prerequisites: Respiratory Therapy [RS\_THR] 3220, 3941, 4040. Graded on A/F basis only.

**RS\_THR 3941. Clinical Practice I. 2 Credits.**

To be taken concurrently with Respiratory Therapy [RS\_THR] 3220 for which it serves as an extension of the laboratory time and an opportunity for structured clinical experience exposures.

**RS\_THR 3942. Clinical Practice II. 4 Credits.**

To be taken concurrently with Respiratory Therapy [RS\_THR] 3420, for which it serves as an extension of the laboratory time, and an opportunity for structured clinical experience exposures.

**RS\_THR 3943. Clinical Practice III. 2 Credits.**

Continuation of supervised clinical experience from Respiratory Therapy [RS\_THR] 3942. Graded on A/F basis only.

**RS\_THR 4020. Perinatal/Neonatal Respiratory Care. 3 Credits.**

Evaluation and management of perinatal/neonatal pulmonary, medical and surgical conditions which require respiratory care. Emphasis on resuscitation, pathophysiology, evaluation, blood gas and x-ray interpretation, treatment and mechanical ventilation. Prerequisites: Respiratory Therapy [RS\_THR] 4040. Respiratory Therapy students only.

**RS\_THR 4040. Respiratory Pathophysiology. 5 Credits.**

Clinical pulmonary disease, organized around the gross structural components of the lung, airways, alveoli and pulmonary vasculature. Impact of disease on normal structure function; clinical, roentgenographic, and physiologic manifestations are described.

**RS\_THR 4085. Problems in Respiratory Therapy. 1-99 Credit.**

Independent work on special problems related to cardiopulmonary health. Course not offered for graduate credit. Some sections of the course may be graded on either A/F or S/U basis only. Prerequisite: instructor's consent.

**RS\_THR 4220. Community and Patient Education I. 1 Credit.**

Design and implement materials for educational presentations for a given patient population. Prerequisites: Respiratory Therapy [RS\_THR] 3943 or instructor's consent. Graded on A/F basis only.

**RS\_THR 4240. Pulmonary Rehabilitation. 3 Credits.**

Focus is on an interdisciplinary approach to pulmonary rehabilitation and home care of the adult cardiopulmonary patient. Prerequisite: senior Respiratory Therapy standing or instructor's consent. Graded on A/F basis only.

**RS\_THR 4420. Pediatric Respiratory Care. 3 Credits.**

Evaluation and management of pulmonary, medical and surgical pediatric conditions requiring respiratory care. Emphasis on pediatric resuscitation, pathophysiology, treatment and prevention of respiratory conditions, mechanical ventilation, lab interpretation. Prerequisite: Respiratory Therapy [RS\_THR] 3420, 4020, 4040 or instructor's permission.

**RS\_THR 4440. Organization and Administration. 3 Credits.**

(same as Radiologic Science [RA\_SCI] 4440 and Cardiopulmonary and Diagnostic Science [CPD] 4440). Examines design and operation of allied health service departments and educational programs, including facilities, personnel procedures, record systems, ethics, medical-legal aspects, interdepartmental relations and curriculum development.

**RS\_THR 4460. Evidence-Based Medicine in Respiratory Care. 3 Credits.**

This course is intended to facilitate the development of the student's ability to obtain and integrate patient assessment information and key findings and to formulate clinical decisions in respiratory therapy practice as well as use an evidence-based medicine approach to define respiratory clinical practice.

**RS\_THR 4620. Pulmonary Function Technologies. 1 Credit.**

This course will provide the student with a specific knowledge of the testing procedures and equipment for pulmonary function technology. The student will learn to interpret pulmonary function tests and perform

quality assurance within the pulmonary function laboratory. Prerequisite: restricted to Respiratory Therapy students only.

**RS\_THR 4640. Teaching Practicum. 3 Credits.**

Structured and supervised experience identifying student characteristics, methods for teaching, improving assessment, current development and instructional design.

**RS\_THR 4660. Advanced Mechanical Ventilation Theory. 3 Credits.**

Exploration of advanced disease management via specific disease processes as well as concepts and modes of mechanical ventilation. Emphasis will be placed on mode selection for various disease and how new modes of mechanical ventilation impact disease management.

**RS\_THR 4720. Advanced Pulmonary Function Technology. 2 Credits.**

This course will focus on the respiratory therapist's role in diagnostic testing. Topics include pulmonary function tests, exercise tests, and metabolic studies. In addition the course briefly addresses polysomnography, pulmonary rehabilitation, and home care. Restricted to Respiratory Therapy students only. Graded on A/F basis only.

**RS\_THR 4820. Adult Critical Care. 3 Credits.**

This course will focus on the respiratory therapist's role in the adult critical care environment. Topics include airway management, mechanical ventilation, general adult critical care and functioning as a vital member of the critical care team. Prerequisite: restricted to Respiratory Therapy students only.

**RS\_THR 4920. Community and Patient Education II. 1-3 Credit.**

Presentations to a variety of community groups. Emphasis on wellness and disease prevention. Prerequisites: Respiratory Therapy [RS\_THR] 4220 or instructor's consent. Graded on A/F basis only.

**RS\_THR 4940. Clinical Practice IV. 5 Credits.**

Structured and supervised clinical experience and case conferences regarding bioterrorism response and emergency/disaster planning. Prerequisites: Respiratory Therapy [RS\_THR] 3420, 3942, 3440, 3943, 4020.

**RS\_THR 4956. Research in Respiratory Therapy. 2-6 Credit.**

Selected research projects guided by a senior staff member. Prerequisite: Cardiopulmonary and Diagnostic Science [CPD] 4955.

**RS\_THR 4973. Clinical Practice V. 4 Credits.**

An extension of the supervised practicum begun in Respiratory Therapy [RS\_THR] 4940. Emphasis in adult critical care and special procedures including bronchoscopies, cardiac catheterization and chest tube placement.

**RS\_THR 4983. Clinical Practice VI. 5 Credits.**

An extension of the supervised practicum begun in Respiratory Therapy [RS\_THR] 4940. Emphasis in perinatal and pediatric critical care including pediatric pulmonary function testing and airway management.

**RS\_THR 4990. Respiratory Therapy Capstone. 2 Credits.**

Integration of literature, knowledge of previous coursework and clinical experience. Prerequisites: Senior standing and Respiratory Therapy Major.

**RS\_THR 4993. Clinical Practice VII. 5 Credits.**

An extension of the supervised practicum begun in Respiratory Therapy [RS\_THR] 4940. Emphasis in rehabilitation and home care, inservice education, and management. Students will participate in on-going research projects and community service activities.

**RS\_THR 7040. Respiratory Pathophysiology. 5 Credits.**

Clinical pulmonary disease, organized around the gross structural components of the lung, airways, alveoli and pulmonary vasculature. Impact of disease on normal structure/function; clinical, roentgenographic, and physiologic manifestations are described. Prerequisite: graduate standing.

## **Romance Languages (RM\_LAN)**

---

**RM\_LAN 2001. Undergraduate Topics in Romance Languages-General. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. Prerequisite: departmental consent for repetition.

**RM\_LAN 2200. Introduction to Catalan Language and Culture. 3 Credits.**

This is an introductory course to Catalan language and culture. Previous knowledge of another Romance language might be beneficial. Students will learn basic Catalan expressions, vocabulary and grammatical structures. Furthermore, students will begin to familiarize themselves with elements of Catalan culture. Prerequisite: Some knowledge of a Romance language desirable.

**RM\_LAN 2310. Literature of the African Diaspora. 3 Credits.**

(same as Black Studies [BL\_STU] 2310) A postcolonial analysis of selected literary texts interpreting the African diaspora in the Americas. Exemplary texts from the Caribbean (English, French, Spanish), South America and the United States are discussed in comparative perspective. No knowledge of Spanish required. Prerequisite: English [ENGLSH] 1000.

**RM\_LAN 2820. Trends in World Cinema. 3 Credits.**

(same as Film Studies [FILM\_S] 2820 and German [GERMAN] 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production. Prerequisite: sophomore standing, English [ENGLSH] / Film Studies [FILM\_S] 1800 or instructor's consent.

**RM\_LAN 3200. Catalan Culture and Identity. 3 Credits.**

Students in this course are not expected to have previous exposure to Catalan instruction. If they do, it will enhance their learning experience. Knowledge of another Romance language might be beneficial as well. This is a course focused on Catalan culture and identity. Students will learn about the history of the language, the language policies in Spain and Europe, Catalan literature, cinema, music, and food. Students will read different materials in English for the most part. Course is taught in English. Sophomore standing required.

**RM\_LAN 3820. Major Directors. 3 Credits.**

(Same as English [ENGLSH] 3820 and Film Studies [FILM\_S] 3820). Topics (e.g. Hitchcock, Kubrick, Fellini, Allen, Kurosawa, Wilder) announced at time of registration. Only 6 hours may be taken for credit toward major. Prerequisite: English [ENGLSH] 1000 and English [ENGLSH] / Film Studies [FILM\_S] 1800. Graded A-F only.

**RM\_LAN 4310. Literature of the African Diaspora. 3 Credits.**

A study, in English translation, of writings by authors of African descent in the Americas. Prerequisite: junior standing or instructor's consent.

**RM\_LAN 4730. Linguistic Theory and Language Acquisition. 3 Credits.**

(same as Linguistics [LINGST] 4730). The goal of this class is to study the implications of current linguistic theory for contemporary research on second language acquisition. In particular, the hypothesis that second language acquisition follows some of the same principles as first language acquisition is explored. Course is taught in English. Prerequisites: Spanish [SPAN] 4721/7721, French [FRENCH] 4720/7720, English [ENGLSH] 4600/7600 or LINGST 4860/7860.

**RM\_LAN 4940. Service Learning in Romance Languages. 1 Credit.**

(same as Spanish [SPAN] 4940 and French [FRENCH] 4940). Course offers our majors and advanced minors the opportunity to use their language skills in real-life community settings. Graded on S/U basis only. Does not meet A&S general education requirements. May be repeated once for credit. Prerequisites: junior or senior standings and departmental consent.

**RM\_LAN 7310. Literature of the African Diaspora. 3 Credits.**

A study, in English translation, of writings by authors of African descent in the Americas. Prerequisite: graduate standing or instructor's consent.

**RM\_LAN 7730. Linguistic Theory and Language Acquisition. 3 Credits.**

(same as Linguistics [LINGST] 7730). The goal of this class is to study the implications of current linguistic theory for contemporary research on second language acquisition. In particular, the hypothesis that second language acquisition follows some of the same principles as first language acquisition is explored. Course is taught in English. Prerequisites: graduate standing and Spanish [SPAN] 4721/7721, French [FRENCH] 4720/7720, English [ENGLSH] 4600/7600 or Linguistics [LINGST] 4860/7860.

**RM\_LAN 8085. Problems in Romance Languages. 1-99 Credit.**

Prerequisites: instructor's consent.

**RM\_LAN 8087. Seminar in Literature and Languages of the African Diaspora. 3 Credits.**

One of two courses devoted to the theory and practice of African diaspora literary criticism. Beginning with the United States, we address the issues of developing appropriate theoretical models for black literatures in the Americas. Prerequisite: graduate standing.

## Rural Sociology (RU\_SOC)

---

**RU\_SOC 1000. Rural Sociology. 3 Credits.**

Introduction to basic concepts and principles of sociology with a focus on rural populations and places. The course explores interconnections between rural/urban and local global economies and cultures. Students are exposed to the rich diversity of rural society, social changes underway, and to current social issues. (Students may not earn credit for both RU\_SOC 1000 and SOCIOL 1000).

**RU\_SOC 1103. Topics in Rural Sociology - Behavioral Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: RU\_SOC 1000 or SOCIOL 1000.

**RU\_SOC 1104. Topics in Rural Sociology - Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: RU\_SOC 1000 or SOCIOL 1000.

**RU\_SOC 1120. Population and the Environment. 3 Credits.**

(same as SOCIOL 1120 and PEA\_ST 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.

**RU\_SOC 1150. The Amish Community. 3 Credits.**

(same as PEA\_ST 1150). Examines historical antecedents and contemporary culture and social structure of the Amish. Topics include cultural symbols, life ceremonies, the family, counter-cultural pressures, stresses, social change. Prerequisites: RU\_SOC 1000 SOCIOL 1000 or ANTHRO 1000.

**RU\_SOC 1175. The Health of People in Local Communities. 3 Credits.**

Health is a universal concern of all people. However, the place of residence has a major impact on many things closely related to health including the local cultural such as diets, exercise, occupations, local health services, etc. This is an introduction to these topics. Prerequisite: introduction to Sociology or Rural Sociology.

**RU\_SOC 2010. Leadership in Today's World. 3 Credits.**

Examination of dynamics of group leadership, especially in local voluntary organizations; study of how leader's behavior is related to success or failure of organization's program. Prerequisites: RU\_SOC 1000 or SOCIOL 1000.

**RU\_SOC 2203. Topics in Rural Sociology - Behavioral Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: RU\_SOC 1000 SOCIOL 1000 or Anthropology [ANTHRO] 1000.

**RU\_SOC 2204. Topics in Rural Sociology - Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: RU\_SOC 1000 SOCIOL 1000 or ANTHRO 1000.

**RU\_SOC 2225. Science, Technology and Society. 3 Credits.**

Overview of the social influences that shape science including how scientific knowledge is contested and legitimated; how social forces (among them mass communication) influence the choice of innovations; and the role social systems and sectors play in the use and benefit of science. Communication intensive-discussion, presentation and essay based. Prerequisites: RU\_SOC 1000 or SOCIOL 1000.

**RU\_SOC 2950. Social Research I. 3 Credits.**

(same as SOCIOL 2950). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives; preparation for understanding and conducting social research. Required for Sociology majors.

**RU\_SOC 3085. Problems in Rural Sociology. 1-99 Credit.**

Prerequisite: instructor's consent.

**RU\_SOC 3100. Recent Theories in Sociology. 3 Credits.**

(same as SOCIOL 3100). Introduction to major theoretical positions and issues in contemporary American sociology. Logical and intellectual structure of major theoretical schools: functionalism, conflict, exchange,

symbolic interaction, phenomenological-ethnomethodological theories.  
Prerequisite: SOCIOL 2200.

**RU\_SOC 3235. Global Perspectives and Realities. 3 Credits.**

Designed for students who have or wish to study, live or work outside of their home country. Presents sociological perspectives on globalization and intercultural communication as well as the steps needed to prepare for a valuable and safe experience abroad.

**RU\_SOC 3303. Topics in Rural Sociology - Behavioral Science. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: 6 hours Rural Sociology or Sociology, or junior standing.

**RU\_SOC 3304. Topics in Rural Sociology - Social Science. 2-3 Credit.**

Organized study of selected topics. Subjects and earnable credit vary from semester to semester. May be repeated. Prerequisites: 6 hours Rural Sociology or Sociology, or junior standing.

**RU\_SOC 3325. Sociology of Food and Nutrition. 3 Credits.**

This class explores individual food choices and larger social forces. Topics include: world hunger, food and the environment; food choices and culture, class and personal identity; the effects of social stigmas, advertising trends, and government regulations on body image; new social movements for sustainable food systems. Prerequisite: ENGLSH 1000 and junior or senior standing or instructor's permission.

**RU\_SOC 3940. Practicum in Rural Sociology. 3 Credits.**

Independent research or professional experience under faculty supervision. Projects must be arranged by student and faculty member prior to registration. Prerequisites: junior standing, departmental consent.

**RU\_SOC 4120. Social Statistics. 3 Credits.**

(same as SOCIOL 4120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis. Prerequisite: SOCIOL 2950.

**RU\_SOC 4301. Topics in Rural Sociology. 3 Credits.**

Current and new topics not currently offered in applied and/or theoretical areas in Rural Sociology. Prerequisites: RU\_SOC 1000 or SOCIOL 1000 or equivalent. Graded on A/F basis only.

**RU\_SOC 4310. Sociology of Agriculture and Natural Resources. 3 Credits.**

Human dimensions of agriculture and natural resource management by giving an overview of sociological approaches related to these fields. Special emphasis is given to social organization, globalization and social constructions related to food and natural resources. Prerequisite: junior standing.

**RU\_SOC 4325. American Community Studies. 3 Credits.**

An introduction to the study of American communities. The course starts with community theories and then focuses on a wide variety of historic and contemporary community studies such as Plainville, Middletown, Sidewalk and others. Seminar format.

**RU\_SOC 4335. Social Change and Development. 3 Credits.**

(same as SOCIOL 4335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines. Prerequisites: RU\_SOC 1000 or SOCIOL 1000 and junior standing.

**RU\_SOC 4341. Building Communities from the Grassroots. 3 Credits.**

(Same as PEA\_ST 4341). Introduction and application of basic community development concepts, methods and practical skills for involving and empowering local citizens and leaders effectively in community-based efforts regardless of the issue. Prerequisite: instructor's consent.

**RU\_SOC 4342. Empowering Communities for the Future. 3 Credits.**

Focuses on the professional practice and applications of community-based development including participatory action research, community economic development, organizational development, use of technology, citizen education and integration of practice. Graded on A/F basis only. Prerequisite: instructor's consent.

**RU\_SOC 4343. Creating Capacity for Dynamic Communities. 3 Credits.**

Addresses community and citizen power; large group intervention processes for change; facilitating small group process; community organizing; community sustainability, dealing with poverty and disenfranchisement; community conflict resolution; ethics; and integration into practice. Graded on A/F basis only. Prerequisite: instructor's consent.

**RU\_SOC 4370. Environmental Sociology. 3 Credits.**

(same as SOCIOL 4370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included. Prerequisites: junior standing.

**RU\_SOC 7120. Social Statistics. 3 Credits.**

(same as SOCIOL 7120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis. Prerequisite: graduate standing and SOCIOL 2950.

**RU\_SOC 7301. Topics in Rural Sociology. 3 Credits.**

Current and new topics not currently offered in applied and/or theoretical areas in Rural Sociology. Prerequisite: RU\_SOC/SOCIOL 1000 or equivalent, RU\_SOC 4301; graduate standing. Graded on A/F basis only.

**RU\_SOC 7310. Sociology of Agriculture and Natural Resources. 3 Credits.**

Human dimensions of agriculture and natural resource management by giving an overview of sociological approaches related to these fields. Special emphasis is given to social organization, globalization and social constructions related to food and natural resources.

**RU\_SOC 7325. American Community Studies. 3 Credits.**

An introduction to the study of American communities. The course starts with community theories and then focuses on a wide variety of historic and contemporary community studies such as Plainville, Middletown, Sidewalk and others. Seminar format. Prerequisite: graduate standing.

**RU\_SOC 7335. Social Change and Development. 3 Credits.**

(same as SOCIOL 7335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from other disciplines. Prerequisites: RU\_SOC 1000 or SOCIOL 1000 and graduate standing.

**RU\_SOC 7341. Building Communities from the Grassroots. 3 Credits.**

Introduction and application of basic community development concepts, methods and practical skills for involving and empowering local citizens and leaders effectively in community-based efforts regardless of the issue. Prerequisite: graduate standing or instructor's consent.

**RU\_SOC 7342. Empowering Communities for the Future. 3 Credits.**

Focuses on the professional practice and applications of community-based development including participatory action research, community economic development, organizational development, use of technology, citizen education and integration of practice. Graded on A/F basis only. Prerequisite: graduate standing and instructor's consent.

**RU\_SOC 7343. Creating Capacity for Dynamic Communities. 3 Credits.**

Addresses community and citizen power; large group intervention processes for change; facilitating small group process; community organizing; community sustainability, dealing with poverty and disenfranchisement; community conflict resolution; ethics; and integration into practice. Graded on A/F basis only. Prerequisite: graduate standing and instructor's consent.

**RU\_SOC 7370. Environmental Sociology. 3 Credits.**

(same as SOCIOL 7370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included. Prerequisites: graduate standing.

**RU\_SOC 7445. Seminar on Issues in the Sociology of Agriculture and Natural Resources. 3 Credits.**

Issues in current research in the sociology of agriculture of developing and industrial nations. Links sociological theory with research in agriculture, examining contributions of applied research to sociological knowledge.

**RU\_SOC 7446. Community Social Structure. 3 Credits.**

(same as SOCIOL 7446). A comparative study of communities in different nations and in urban and rural areas. A primary focus of the course will be on social change in communities in response to changing economic, political, social, cultural, and ecological factors.

**RU\_SOC 8085. Problems in Rural Sociology. 1-99 Credit.**

Research for student capable of semi-independent work. Prerequisite: instructor's consent.

**RU\_SOC 8090. Research in Rural Sociology. 1-99 Credit.**

Research leading to thesis or dissertation. Graded on a S/U basis only.

**RU\_SOC 8130. Advanced Social Statistics. 3 Credits.**

(same as SOCIOL 8130). Introduction to multivariate analysis for social scientists. Emphasis on non-experimental applications of analysis of variance and correlation-regression. Computer applications emphasized. Prerequisite: graduate standing and RU\_SOC 4120 or equivalent.

**RU\_SOC 8287. Seminar on Sustainable Development. 3 Credits.**

(same as SOCIOL 8287). An interdisciplinary examination of sustainable development focusing on social, economic, cultural and environmental dimensions of development. International and domestic issues and approaches to sustainable development are included.

**RU\_SOC 8430. Program Development and Evaluation. 3 Credits.**

(same as AG\_ED 8430). Program development principles, teaching plans and evaluation principles applied to extension program development. Prerequisite: instructor's consent.

**RU\_SOC 8435. Political Ecology. 3 Credits.**

Political ecology is an analytical approach to environment and natural resource issues at local, regional and global scales, emphasizing political, economic, cultural, social and historical factors and their relationship to ecological trends and processes. Seminar format. Graded on A/F basis only. Graduate Standing Required.

**RU\_SOC 8444. Agriculture, Food and Community. 3 Credits.**

Introduces key debates in the sociology of food and agriculture. Includes research on the structure and history of the agriculture system and its impacts on farmers, communities and the natural environment.

**RU\_SOC 8447. Seminar on Contemporary Issues in Rural Sociology. 1-99 Credit.**

Seminar on Contemporary Issues in Rural Sociology.

**RU\_SOC 8448. Society and Ecosystems Research Seminar. 3 Credits.**

(same as AG\_EC 8448 and NAT\_R 8448). This seminar, capstone for the Graduate Certificate Program in Society and Ecosystems, exposes students to interdisciplinary research on interactions between social, economic and ecological systems.

**RU\_SOC 8450. Research in Rural Sociology. 1-99 Credit.**

Research not expected to terminate in thesis or dissertation. Prerequisite: instructor's consent.

**RU\_SOC 8510. Research Methods and Design. 3 Credits.**

(same as AG\_ED 8510). A foundations course on quantitative research methodology and design principles for investigating problems in social and behavioral sciences. A focus is on the language of research, purposes, validity threats, and data collection methods. Graded on A/F basis only.

**RU\_SOC 8540. Methods of Qualitative Research. 3 Credits.**

(same as AG\_ED 8540). Overview of philosophies, approaches toward, design, data collection, analysis and reporting of qualitative research.

**RU\_SOC 8610. Economic and Sociological Approaches to Collective Action. 3 Credits.**

(same as AG\_EC 8610). This course identifies analytical and methodological tools, including rational choice and social capital, to deal with practical problems of collective action in: agricultural cooperatives, rural community development, political interest groups and other mutuals. Prerequisite: AG\_EC 8610.

**RU\_SOC 9090. Research in Rural Sociology. 1-99 Credit.**

Research leading to thesis or dissertation. Graded on a S/U basis only.

**RU\_SOC 9287. Seminar in Qualitative Methods in Sociology. 3 Credits.**

(same as SOCIOL 9287). Examination of various qualitative methods of research, including problem-formulation, access and interpretation of data, theory-generation, and preparation of research reports. Prerequisites: RU\_SOC 8510 or instructor's consent.

**RU\_SOC 9437. Synthesis of Theory and Method in Sociology. 3 Credits.**

The purpose of the course is to provide the student with a critical understanding of the basic theoretical paradigms employed in the development of research projects in sociology. The course is designed for graduate students. Prerequisites: RU\_SOC 4130 and RU\_SOC 8510, or instructor's consent.

**RU\_SOC 9480. Community Survey Research. 3 Credits.**

(same as SOCIOL 9987). This course applies social science survey research methods to the unique kinds of problems that arise in the study of whole communities. Prerequisite: RU\_SOC 8510 or equivalent.

**RU\_SOC 9510. Data Collection, Analysis and Interpretation. 3 Credits.**

(same as AG\_ED 9510). A quantitative methods course in measurement, data collection and analysis related to social and behavioral science

research. An applied approach is taken on instrumentation and analyzing data using descriptive and inferential statistics. Practical skills in data manipulation using SPSS are developed. Prerequisite: AG\_ED 8510/ RU\_SOC 8510 or instructor's consent. Graded on A/F basis only.

**RU\_SOC 9837. Seminar in Multivariate Analysis Techniques. 3 Credits.**

(same as SOCIOL 9837). Examination of various qualitative techniques of data analysis. Prerequisites: RU\_SOC 8510 or instructor's consent.

## Russian (RUSS)

---

**RUSS 1100. Elementary Russian I. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly.

**RUSS 1200. Elementary Russian II. 6 Credits.**

Five hours of classroom instruction, with one hour lab work weekly. Prerequisite: C- or better in Russian [RUSS] 1100 or equivalent.

**RUSS 2001. Undergraduate Topics in Russian-General. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with consent of department.

**RUSS 2005. Undergraduate Topics in Russian-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with consent of department. No language credit.

**RUSS 2100. Classics and Iconoclasts: An Introduction to Russian Literature. 3 Credits.**

Designed to introduce students to some of the major genres, issues, and approaches in the study of Russian literature. Begins with the most classic of Russian authors, the so-called "father of Russian literature" Aleksandr Pushkin, then moves on to two "classics" from the 19th century (Gogol, Chekhov) and two "iconoclasts" from the first part of the 20th (Mayakovsky, Kharms). Covers a range of genres, including poetry, short story, and drama, as well as letters, essays and manifestoes. Course reading list includes secondary essays that both shed light on specific texts/authors as well as provide models for critical and theoretical approaches to literature, with an emphasis on Russian Formalism. Readings and discussions in English; no knowledge of Russian language or literature required. Prerequisite: sophomore standing or instructor's consent.

**RUSS 2120. Russia: Enigma Wrapped in Mystery. 3 Credits.**

Broad introduction to the study of Russia as a discipline; designed to acquaint the student with a wide range of topics connected to the study of Russia. Prerequisite: sophomore standing or instructor's consent.

**RUSS 2130. Second-Year Russian I. 4 Credits.**

Students will solidify their command of Russian grammar and begin developing their reading skills. Prerequisite: Russian [RUSS] 1200, equivalent, or instructor's consent.

**RUSS 2160. Second-Year Russian II. 4 Credits.**

Continuation of Russian [RUSS] 2130. Prerequisites: RUSS 2130 or equivalent.

**RUSS 2310. Between Heaven and Earth: Russian Civilization. 3 Credits.**

Survey of Russian culture from the Christianization of the Slavic peoples to late imperial period. No foreign language credit.

**RUSS 2320. The Arts of Survival: Civilization in Soviet Times. 3 Credits.**

Historical, social, and artistic topics. No foreign language credit. Humanities credit.

**RUSS 2330. Russia and America as Comparative Civilizations. 3 Credits.**

Analyzes similar developments in the arts, architecture, literature, and film of Russia and America.

**RUSS 2570. The Supreme Measure: Capital Punishment in Russian History and Literature. 3 Credits.**

Highlights historical, ethical, and religious aspects of capital punishment across the span of Russian history. Provides an opportunity to explore a difficult topic using material unknown to most students; a serious course in literary history. Develops critical thinking skills.

**RUSS 2865. The Art of Soviet and Russian Cinema. 3 Credits.**

(Same as Film Studies [FILM\_S] 2865) Topics (e.g. Distorted Picture: Post-War Cinema in the Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken towards major.

**RUSS 3001. Topics in Russian-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing, departmental consent for repetition.

**RUSS 3005. Topics in Russian-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing, departmental consent for repetition.

**RUSS 3130. Intermediate Russian. 3 Credits.**

Normally taken as 5th semester of Russian language sequence. Prerequisites: Russian [RUSS] 2160 or equivalent or instructor's consent.

**RUSS 3160. Intermediate Conversation and Composition. 3 Credits.**

Further develops oral command of Russian as well as listening comprehension and some letter writing skills. Prerequisite: Russian [RUSS] 2160 or 3130 or instructor's consent.

**RUSS 3310. Heroes of Their Times: Individualism in Russian Literature. 3 Credits.**

Examines selected works by the major Russian writers of the first half of the nineteenth century. Reading and lectures in English. Prerequisite: sophomore standing or instructor's consent.

**RUSS 3320. Matters of Life and Death: The Fiction of Tolstoy and Dostoevsky. 3 Credits.**

Analyzes the major works of Tolstoy and Dostoevsky. Readings and lectures in English. Prerequisite: sophomore standing or instructor's consent.

**RUSS 3330. Decline, Fall, and Resurrection in Modern Russian Literature. 3 Credits.**

Analysis of the major trends in Russian literature and related cultural developments from 1890 to 1930. Readings and lectures in English. Prerequisite: sophomore standing or instructor's consent.

**RUSS 3350. The Split Tree of Russian Literature: Contemporary Russian Prose. 3 Credits.**

Analyzes the divided tradition of Russian literature since 1930 in the works of such authors as Nabokov, Pasternak, Bulgakov, and Solzhenitsyn. Readings and lectures in English. Prerequisite: sophomore standing or instructor's consent.

**RUSS 3380. Sinners, Saints, and Madmen: 19th Century Russian Literature. 3 Credits.**

Introduction to foundational periods (Sentimentalism, Romanticism, Realism and its decline), narratives, and authors of 19th century Russian literary tradition. Traces development of the "Russian" short story and novel forms, as well as the all-important "Petersburg" theme. Prerequisite: English [ENGLSH] 1000; sophomore standing.

**RUSS 3390. True Fictions: Russian Prose since 1900. 3 Credits.**

Survey of Russian prose fiction of the twentieth and early twenty-first century. During this time Russia experienced a series of drastic changes in society and culture, and as often happens the artists responded more rapidly and insightfully than anyone else. This was a time of radical experimentation with the very nature of literature, and we will read and examine some of the fascinating results. Course gives a short history of Russian prose fiction after 1900, offers a theory of analytical reading of imaginative prose, and hones the skills of intelligent writing about evaluative reading. Readings, lecture and discussion in English; no previous knowledge of Russian literature is assumed. Prerequisites: sophomore standing, or instructor's consent.

**RUSS 3630. Russian Classics I. 3 Credits.**

Reading and discussion of selected works by major Russian writers of the nineteenth century. Course conducted in Russian. May be taken before or after Russian [RUSS] 3640. Prerequisite: RUSS 3130 or instructor's consent.

**RUSS 3640. Russian Classics II. 3 Credits.**

Reading and discussion of selected works by major Russian writers of the twentieth century. Course conducted in Russian. May be taken before or after Russian [RUSS] 3630. Prerequisite: RUSS 3130, or instructor's consent.

**RUSS 3870. Russian Women and Film. 3 Credits.**

(same as Film Studies [FILM\_S] 3870 / Women's and Gender Studies [WGST] 3870). Traces image(s) of the Russian woman in 20th-century Russia as constructed in Russian, Soviet and late-Soviet film. Discusses heroines of pre-revolutionary melodrama and "new Soviet man and woman" of the 20s. Considers war-time re-alignment of gender roles in defense of motherland and their subtle revamping in post-war and post-Stalinist period, and the shifting relations between women and men, women and women, and women and the State. Emphasizes cultural-historical and ideological status of women as reflected in onscreen image(s) in Russian film. Designed to serve as an introduction to film studies and to 20th-century Russian culture more generally. Conducted in English (all films have English subtitles). Prerequisite: sophomore standing or instructor's consent.

**RUSS 3890. Russian and Soviet Cinema. 3 Credits.**

(same as Film Studies [FILM\_S] 3890). Survey and analysis of selected Soviet films. Emphasis on film-making as a form of art. English or subtitled. Second screenings by arr. Some films may run over 2 hrs. No foreign language credit. Prerequisite: junior standing or instructor's consent.

**RUSS 3895. Service Learning in Russian Studies. 2 Credits.**

Service learning offers students a chance to put into practice what they have learned in theory. Students work as teacher-aids or tutors in foreign language/culture classes at area schools. Graded on S/U basis only. Does not meet A&S foundation requirements. Prerequisites: instructor's consent.

**RUSS 3896. Honors in Russian. 1-3 Credit.**

Special problems in Slavic literature or linguistics. Prerequisite: consent of departmental Honors director.

**RUSS 4001. Topics in Russian-General. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: junior standing and instructor's consent, departmental consent for repetition.

**RUSS 4005. Topics in Russian-Humanities. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisites: junior standing and instructor's consent, departmental consent for repetition.

**RUSS 4070. Intensive Beginning Russian. 3 Credits.**

Designed to lead quickly to a reading knowledge of Russian. Cannot be taken to fulfill undergraduate language requirement. Intended for graduate students in other departments who plan to conduct research in Russian. Prerequisite: junior standing or instructor's consent.

**RUSS 4160. Advanced Russian Conversation. 3 Credits.**

Advanced syntax, idiomatic constructions, and vocabulary building. Prerequisite: Russian [RUSS] 3160 or equivalent.

**RUSS 4350. Special Readings in Russian. 1-3 Credit.**

Prerequisites: junior standing and chairman's consent.

**RUSS 4420. Russian Poetry. 3 Credits.**

Survey of readings in Russian poetry from its beginnings to present. Prerequisite: Russian major or instructor's consent.

**RUSS 4430. Russian Drama. 3 Credits.**

Selected readings in and discussions of major Russian plays of the nineteenth and twentieth century. Prerequisite: Russian major or instructor's consent.

**RUSS 4435. Russian Prose. 3 Credits.**

Explores the development of prose writing in modern Russian letters, paying special attention to native generic designations. Considers dual imagery of realist/naturalist and romantic/fantastic approaches. Studies diverse examples: rasskaz (story), the povest' (tale), the novella, novel essay early 19th c. through 20th c. Considers ways in which literature can itself stand as a philosophical form.

**RUSS 4440. The Russian Novel. 3 Credits.**

Selected readings and seminar discussion of major novelists of the 19th and 20th centuries. Prerequisites: Russian major or instructor's consent.

**RUSS 4450. Russian Capstone Seminar. 3 Credits.**

Topics vary from year to year. The capstone course brings together aspects of Russian literature and culture studied during the degree program. Prerequisite: Russian major or instructor's consent.

**RUSS 4510. The Art and Life of Pushkin. 3 Credits.**

Gives a conceptual thematic overview of Alexander Pushkin's lyrical poetry, as well as some dramatic work and prose. Special attention paid to the parallel development of his artistic and religious beliefs. Poetry read in Russian; prose and dramatic poems in Russian and English. Prerequisite: Russian major or instructor's consent.

**RUSS 4520. Nikolai Gogol. 3 Credits.**

Study of the life and art of Nikolai Gogol. Includes biographical overview, Ukrainian stories, dynamics of folklore, local dialect, and the process of literary creation. Considers St. Petersburg stories, novels, and plays. Prerequisite: Russian major or instructor's consent.

**RUSS 4530. Dostoevsky. 3 Credits.**

Introduction to the works of Fyodor Dostoevsky, including selections from both the shorter works and the major novels. Prerequisite: Russian majors or graduate standing or instructor's consent.

**RUSS 4540. Tolstoy's Fiction and Truth. 3 Credits.**

Provides a conceptual overview and analysis of two masterpieces of Tolstoy's art. Acquaints students with the complex and hidden connections between Tolstoy's artistic methods and religious beliefs. Prerequisites: Russian major or instructor's consent.

**RUSS 4550. Nabokov's Russian Fiction. 3 Credits.**

Systematic analysis of Vladimir Nabokov's fiction, both novels and short stories. Emphasis on the artistic properties of prose. Lectures and class discussion in English. Readings in Russian (English translations for undergraduate students). Prerequisite: Russian major or instructor's consent.

**RUSS 4730. Internship in Russian. 3 Credits.**

Supervised introduction to the methodology of the teaching of elementary Russian; conducted in a classroom environment. Prerequisite: Russian major or graduate standing or instructor's consent.

**RUSS 4820. Blogging the World: The Web in Cultural Context. 3 Credits.**

(same as German [GERMAN] and French [FRENCH] 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on no-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contexts? Prerequisite: sophomore standing required.

**RUSS 4896. Honors Thesis in Russian. 3 Credits.**

Intended for Russian majors in their final year of study who have completed the majority of course requirements within the major and are prepared to engage in an independent research project that culminates in a 25-40 page thesis paper. To be considered for honors thesis, the student should be in his/her final year of the major; must have completed at least three courses in literature, one of which must be at the 4000 level. Graded on A-F basis only. Prerequisites: Russian major; senior standing and have a minimum cumulative GPA to 3.3, and a GPA of 3.5 or above within the major. It is also highly recommended that the student have completed an independent reading course the previous semester (e.g. RUSS 3896; RUSS 4350).

**RUSS 7085. Problems in Russian and Slavonic Studies. 1-99 Credit.**

Prerequisite: graduate standing and instructor's consent.

**RUSS 7087. Seminar in Russian. 3 Credits.**

Course content varies. Prerequisites: graduate standing and instructor's consent.

**RUSS 7105. Topics in 19th Century Russian Literature-General. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 7205. Topics in 20th Century Russian Literature. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 7305. Topics in Slavic Linguistics. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 7310. Russian Literary History. 3 Credits.**

A study of the major works of Russian literature in relation to their representations in literary history. This is a capstone course that draws on knowledge acquired in previous or concurrent courses. Prerequisite: graduate standing.

**RUSS 7350. Special Readings in Russian. 1-3 Credit.**

Prerequisites: graduate standing and chairman's consent.

**RUSS 7405. Topics in Slavic Literatures. 1-99 Credit.**

Prerequisite: graduate standing and instructor's consent.

**RUSS 7420. Russian Poetry. 3 Credits.**

Survey of readings in Russian poetry from its beginnings to present. Prerequisite: graduate standing.

**RUSS 7430. Russian Drama. 3 Credits.**

Selected readings in and discussions of major Russian plays of the nineteenth and twentieth century. Prerequisite: graduate standing.

**RUSS 7435. Russian Prose. 3 Credits.**

Explores the development of prose writing in modern Russian letters, paying special attention to native generic designations. Considers dual imagery of realist/naturalist and romantic/fantastic approaches. Studies diverse examples: rasskaz (story), the povest' (tale), the novella, novel essay, early 19th c. through 20th c. Considers ways in which literature can itself stand as a philosophical form.

**RUSS 7440. The Russian Novel. 3 Credits.**

Selected readings and seminar discussion of major novelists of the 19th and 20th centuries. Prerequisites: graduate standing.

**RUSS 7520. Nikolai Gogol. 3 Credits.**

Study of the life and art of Nikolai Gogol. Includes biographical overview, Ukrainian stories, dynamics of folklore, local dialect, and the process of literary creation. Considers St. Petersburg stories, novels, and plays. Prerequisite: graduate standing or instructor's consent.

**RUSS 7530. Dostoevsky. 3 Credits.**

Introduction to the works of Fyodor Dostoevsky, including selections from both the shorter works and the major novels. Prerequisite: graduate standing or instructor's consent.

**RUSS 7540. Tolstoy's Fiction and Truth. 3 Credits.**

Provides a conceptual overview and analysis of two masterpieces of Tolstoy's art. Acquaints students with the complex and hidden connections between Tolstoy's artistic methods and religious beliefs. Prerequisites: graduate standing or instructor's consent.

**RUSS 7550. Nabokov's Russian Fiction. 3 Credits.**

Systematic analysis of Vladimir Nabokov's fiction, both novels and short stories. Emphasis on the artistic properties of prose. Lectures and class discussion in English. Readings in Russian. Prerequisite: graduate standing or instructor's consent.

**RUSS 7610. Structure of Modern Standard Russian: Phonology and Morphology. 3 Credits.**

Introduction to the linguistic study of Russian. Introduces students to basic practical and theoretical concepts of phonology and morphology. Students will learn the roles for practical mastery of the Russian verb, and linguistic mastery of the system.

**RUSS 7730. Internship in Russian. 3 Credits.**

Supervised introduction to the methodology of the teaching of elementary Russian; conducted in a classroom environment. Prerequisite: graduate standing or instructor's consent.

**RUSS 7820. Blogging the World: The Web in Cultural Context. 3 Credits.**

(same as German [GERMAN] 7820 and French [FRENCH] 7820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context. Working in cross-disciplinary teams, students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold: students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concepts of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contexts?.

**RUSS 7975. Distorted Picture: Post-War Cinema in a Police State. 3 Credits.**

(Same as Film Studies [FILM\_S] 7975) Considers strategies and stylistic devices employed by East European & Soviet directors to produce artistically worthy films under censorship. Discusses how artists adapted methods, boldness of expression, thematic content, and technical sophistication. Attention paid to production techniques. Graduate Standing Required.

**RUSS 8050. Research in Russian. 1-99 Credit.**

Translations or creative work not leading to thesis. Credit hours arranged. Prerequisites: graduate standing and instructor's consent.

**RUSS 8085. Problems in Russian and Slavonic Studies. 1-99 Credit.**

Prerequisite: graduate standing and instructor's consent.

**RUSS 8090. Thesis Research in Russian. 1-6 Credit.**

Independent research leading to a Master's thesis. Prerequisites: graduate standing and instructor's consent. Graded on S/U basis only.

**RUSS 8105. Topics in 19th Century Russian Literature-General. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 8205. Topics in 20th Century Russian Literature. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 8220. Russian Intellectual History and Critical Theory I. 3 Credits.**

Survey of Russian literary and cultural criticism of the 18th and 19th centuries. Course texts will include representative critical essays as well

as selected literary texts. May be taken before or after Russian [RUSS] 7230. Prerequisites: graduate standing or instructor's consent.

**RUSS 8230. Russian Intellectual History and Critical Theory II. 3 Credits.**

Survey of Russian literary and cultural criticism of the 20th century. Course texts will include representative critical essays as well as selected literary texts. Prerequisites: graduate standing or instructor's consent. May be taken before or after Russian [RUSS] 7220.

**RUSS 8305. Topics in Slavic Linguistics. 1-99 Credit.**

Prerequisites: graduate standing and instructor's consent.

**RUSS 8405. Topics in Slavic Literatures. 1-99 Credit.**

Prerequisite: graduate standing and instructor's consent.

**RUSS 8510. The Art and Life of Pushkin. 3 Credits.**

Gives a conceptual thematic overview of Alexander Pushkin's lyrical poetry, as well as some dramatic work and prose. Special attention paid to the parallel development of his artistic and religious beliefs. Poetry read in Russian; prose and dramatic poems in Russian and English. Prerequisite: graduate standing or instructor's consent.

**RUSS 8560. Old Russian Literature. 3 Credits.**

Considers the genres, periodization, and development of Russian literature from the beginnings of literacy to the end of the Rurikovich dynasty. Emphasis on literary genres and their evolution. Readings in English or in Russian. Prerequisites: graduate standing or instructor's consent.

**RUSS 8570. Russian Symbolism. 3 Credits.**

Study of the history, aesthetics, and creative works associated with the Symbolist movement in Russian literature and art. Primary emphasis on poetry drama, and prose fiction. Prerequisites: and graduate standing or instructor's consent.

**RUSS 8580. Pasternak. 3 Credits.**

Presents the life-long work of Boris Pasternak in three stages: early, interbellum, and late. Special attention to the evolution of poetics, with close analysis of selected poems. Includes theory of poetic expression. Requires a grasp of the main principles of Western versification (prosody, tropes, metaphor, rhyme, euphony), and history of Russian poetry. Prerequisite: graduate standing.

**RUSS 8600. History of the Russian Language. 3 Credits.**

Discusses the development of the Russian language from the origins of Old East Slavic to the present day. Considers the study of the historical phonology of Russian, historical grammar, and the history of the standard languages. Prerequisite: graduate standing or instructor's consent.

**RUSS 8650. Old Church Slavonic. 3 Credits.**

Designed to familiarize student with the phonological system, inflectional morphology and most important literature of the oldest recorded Slavic language. Comparisons of OCS to modern Slavic languages. Prerequisites: graduate standing or instructor's consent.

---

## Science and Agricultural Journalism (SCI\_AG\_J)

---

**SCI\_AG\_J 1160. Introduction to Science and Agricultural Journalism. 3 Credits.**

Introduction to journalistic writing for print, broadcast, Web. Introduction to writing for public relations. Also includes writing for live Web publication:

cafnrcornerpost.com. Provides overview of career opportunities.  
Prerequisite: instructor's consent.

**SCI\_AG\_J 2150. Problems in Science and Agricultural Journalism. 1-6 Credit.**

For undergraduates majoring in science and agricultural journalism. May be repeated. Prerequisite: instructor's consent.

**SCI\_AG\_J 2210. Communicating Science to the Public. 3 Credits.**

For science majors. Introduction to the history, theory and practice of communicating science to the general public. Emphasis on the interplay of science, human values and politics; also, the art and craft of writing and talking to lay audiences. Prerequisites: ENGLSH 1000 and a declared major in a science or engineering field or instructor's consent. Graded on A/F basis only.

**SCI\_AG\_J 2940. Internships in Science and Agricultural Journalism. 1-3 Credit.**

Prerequisite: instructor's consent, may be repeated for credit.

**SCI\_AG\_J 3201. Topics in Science and Agricultural Journalism. 1-3 Credit.**

Instruction in select subject matter areas in the field of communications. Prerequisite: instructor's consent.

**SCI\_AG\_J 3210. Fundamentals of Communications. 3 Credits.**

Instruction in writing about conflicts in agriculture and the environment and their cultural impacts. Emphasis on media literacy, critical thinking, communication and the interplay of science and human values. Prerequisites: ENGLSH 1000, sophomore standing.

**SCI\_AG\_J 3240. Communicating on the Web. 3 Credits.**

Learn to make a useful, content-driven web site using web authoring software (this is not a programming class). This course emphasizes informative content and functional design.

**SCI\_AG\_J 3385. Problems in Science and Agricultural Journalism. 1-4 Credit.**

Opportunity to apply journalism skills to agricultural subjects; opportunity to integrate communication processes within single medium or across media. Section 1: Corner Post Staff, Section 2: Problems in Science and Agricultural Journalism. Prerequisite: junior standing and instructor's consent. May be repeated.

**SCI\_AG\_J 4301. Topics in Science and Agricultural Journalism - Honors. 1 Credit.**

Instruction in select subject matter areas in the field of communications. Graded on A/F basis only. Prerequisite: JOURN 4450 and Junior standing. Consent of instructor required. Honors eligibility required.

**SCI\_AG\_J 4301H. Topics in Science and Agricultural Journalism - Honors. 1-3 Credit.**

Instruction in select subject matter areas in the field of communications. Graded on A/F basis only. Prerequisite: JOURN 4450 and Junior standing; instructor's consent. Honors Eligibility required.

**SCI\_AG\_J 4414. Field Reporting on the Food System and Environment. 3 Credits.**

(Same as JOURN 4414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Prerequisite: consent of instructor. Graded A-F only.

**SCI\_AG\_J 4415. Current Issues in Science Journalism. 3 Credits.**

(Same as JOURN 4415) Focuses on covering the interplay of one or more current issues of concern to journalists, scientists and society. The

focus for any given semester may be biotechnology, climate change, energy, food safety, global population growth, wildlife or another issue. Prerequisites: Journalism [JOURN] 2100 or consent of instructor. Graded on A/F basis only.

**SCI\_AG\_J 4480. Will Write for Food (and Wine). 3 Credits.**

(Same as JOURN 4480) Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Prerequisites: Junior standing, instructor's consent and JOURN 4450. Graded on A/F basis only.

**SCI\_AG\_J 4940. Internships in Science and Agricultural Journalism. 1-3 Credit.**

Prerequisite: instructor's consent, 60 or more credit hours completed. May be repeated for credit.

**SCI\_AG\_J 4970. Agriculture and the Media Senior Seminar Capstone. 3 Credits.**

Provides background, knowledge of trends and experience with agricultural media. Prerequisites: instructor's consent, Science and Agricultural Journalism seniors take last Spring semester before graduation.

**SCI\_AG\_J 7301. Topics in Science and Agricultural Journalism. 1-3 Credit.**

Selected current topics in science and agricultural journalism. Specific topics to be announced at time of registration. Prerequisite: Graduate standing and instructor consent. Course graded on A/F basis only.

**SCI\_AG\_J 7414. Field Reporting on the Food System and Environment. 3 Credits.**

(same as JOURN 7414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day filed trip. Prerequisite: instructor's consent. Graded on A/F basis only.

---

## Social Work (SOC\_WK)

---

**SOC\_WK 1101. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. For undergraduate students only.

**SOC\_WK 1110. Introduction to the Social Work Major. 1 Credit.**

Students examine their interest in social work and other human service professions; learn of career possibilities in their interest area; and develop an educational plan to reach their goal. Prerequisite: freshman or sophomore standing.

**SOC\_WK 1115. Social Welfare and Social Work. 3 Credits.**

Survey course that examines the history and development of social welfare in the United States and the profession of social work, as well as contemporary issues.

**SOC\_WK 2000. Exploration in Social and Economic Justice. 3 Credits.**

(Same as Peace Studies [PEA\_ST] 2000). This course explores issues of fairness and equality in economic, political and social systems, and applies social justice principles to major social problems. Graded on A/F basis only. Course may be repeated two times for credit.

**SOC\_WK 2101. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest. Prerequisite: consent required.

**SOC\_WK 2220. Human Behavior and the Environment. 3 Credits.**

The first of two required courses providing an introduction to selected theories, multidisciplinary knowledge, and perspectives into human development and behavior. Prerequisite: English [ENGLSH] 1000 or sophomore standing. Graded on A/F basis only.

**SOC\_WK 3101. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. For undergraduate and graduate students. Prerequisite: consent required.

**SOC\_WK 3310. Comparative Social Policy. 2-3 Credit.**

A comparative study of social policy aspects in the framework of international development. Policy areas include South Asia, as well as other regions relevant to such study. Prerequisite: consent required.

**SOC\_WK 3320. Understanding Personality in a Social Context. 3 Credits.**

Introduces students to diverse personality theories and examines background, key concepts, motivation, structure, development dynamics and applications of each theory in a social context. Required of all undergraduate social work majors.

**SOC\_WK 3330. Medical Social Problems. 2 Credits.**

Interrelations of biological, psychological, social factors in understanding people with common physical illnesses. Prerequisites: junior standing and instructor's consent.

**SOC\_WK 3340. Dynamics of Interviewing. 3 Credits.**

Analysis of interviewing techniques employed in communication for securing reliable, valid data to modify behavior in accordance with professional objectives. Prerequisites: junior standing and consent required.

**SOC\_WK 3350. Problems in Social Work. 1-3 Credit.**

Research and independent study projects offered on a tutorial basis to undergraduate social work students. Prerequisites: consent required.

**SOC\_WK 4101. Topics in Social Work. 1-6 Credit.**

Special and emerging topics in social work and social welfare. Subject, content and credit varies depending on available faculty and student interest. Prerequisite: consent required. May be repeated for credit.

**SOC\_WK 4300. Women and Health Care. 3 Credits.**

Provides a study of the role of women as health care providers and an analysis of the impact of value systems and the women's movement on the organization and delivery of health services to women.

**SOC\_WK 4310. Social Statistics. 4 Credits.**

Descriptive, analytic techniques applied to qualitative and quantitative social data. Prerequisite: sophomore standing. Math Reasoning Proficiency Course.

**SOC\_WK 4320. Rural Human Services. 3 Credits.**

A study of the effect of rural and small community environments on the planning and delivery of social and health services. Emphasis on policy and program analyses relevant to rural issues and concerns. Prerequisite: junior standing.

**SOC\_WK 4330. Addiction Treatment and Prevention. 3 Credits.**

Provides knowledge generic to social work and other disciplines involved in substance abuse treatment. Integrated approach to problems of substance abuse and development of self-awareness are emphasized. Didactic and experiential methods employed. Prerequisite: junior standing.

**SOC\_WK 4350. Deaf Culture: A Social Work Perspective. 3 Credits.**

An introduction to the deaf community as a linguistic and cultural minority. Examines the complexities of Deaf culture from a historical and contemporary perspective. Addresses cultural identity, communication, education, social services, civil rights and advocacy. Graded on A/F basis only.

**SOC\_WK 4360. Working with Minority Youth. 3 Credits.**

(same as Black Studies [BL\_STU] 4360). Develops awareness and understanding of social/psychological and cognitive realities influencing the behavior of minority youth. Content draws upon theories, research and practice skills relevant to understanding and counseling minority youth. Prerequisite: junior standing.

**SOC\_WK 4370. Delinquency, Corrections and Social Treatment. 3 Credits.**

Focuses on problems and causative factors in developing and maintaining delinquent and criminal behavior and attitudes: addressing critical and comparative understanding of social change strategies employed in this field. Prerequisite: junior standing.

**SOC\_WK 4380. Social Work Practice With Minorities: African-American Emphasis. 3 Credits.**

(same as Black Studies [BL\_STU] 4380). Provides students with an appreciation of the African-American experience in the United States on a knowledge and feeling level. Prerequisite: junior standing.

**SOC\_WK 4390. Helping Strategies With Children and Adolescents. 3 Credits.**

Theory and practice of work with children and adolescents. Focus on youth in transition, protective services and permanency planning, and special needs populations. Prerequisite: junior standing.

**SOC\_WK 4400. Domestic Violence. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4400). This 3-hour course covers history of battered women's movement, violence theories, policy issues, prevention and intervention practice models for working with battered women, their children, and abusers. Prerequisite: junior standing.

**SOC\_WK 4410. Law and Social Work Practice. 3 Credits.**

Legal processes relevant to social work practice and court procedures, and study of decisions affecting social work across micro and macro practice. Prerequisite: junior standing.

**SOC\_WK 4440. International Social Work Practices and Principles. 3 Credits.**

This course explores issues of fairness and equity in economic, political and social systems, and applies social justice principles to major international social problems. Social Justice is the perspective that in a perfect world, all citizens deserve equal rights, protection, opportunities, obligations and social benefits. Recognizing that the world is not perfect, International Social Work Practice and Principles presents theories and perspectives on how to affect a more just society and world community. Social Work person in environment orientation and strong value system are used as guides in analyzing problems and determining ways of

promoting a more just society and global community. Junior Standing required.

**SOC\_WK 4450. Professional Perspectives on Child Welfare Services in the 21st Century. 3 Credits.**

This course examines the development and current state of child welfare services in America with an emphasis on the role of the public child welfare agency in delivery of those services. It is an overview course which addresses the relationship between practice issues in service delivery and administrative policy issues which enable and constrain service delivery activities. The overarching concepts of child safety, family stability, permanency for the child, and well-being of the child as a long-term outcome will be used to examine the five focal service delivery areas in child welfare; family support, preservation and reunification, child protection, foster placement, residential care, and adoptive services. This is a dual level BSW/MSW course and is an elective within the program's curricular structure. The differentiating objectives and assignments for the MSW members of the class are noted in the appropriate areas of the syllabus.

**SOC\_WK 4455. Latino/a Immigrants and Receiving Communities. 3 Credits.**

This interdisciplinary course is designed to educate students about the Latino/a immigrants seeking better lives and the communities that receive them. Special attention is given to social justice issues; micro, mezzo, and macro systems will be used to explore content.

**SOC\_WK 4480. Helping Strategies with Older Persons. 3 Credits.**

This course is designed to provide knowledge and skill development for work with older adults and their families. It offers an intensive examination of the concepts and skills needed for effective social work practice with these populations. In particular, sociological, psychological, political, and economic factors affecting older adults will be examined as they relate to intervention, programmatic, and policy responses. Special attention will be given to assessment and intervention from macro, mezzo, and micro perspectives. The interrelationship between the aging person, the family, and society is explored since these factors affect all levels of practice. Content in this course related to the social and economic mission of the School of Social Work. Prerequisite: Junior standing in Social Work and instructor's consent.

**SOC\_WK 4710. Social Justice and Social Policy. 3 Credits.**

Based on the concepts of human need and social justice, a historical and analytical approach to social welfare policies and programs. Graded on A/F basis only. Prerequisites: junior standing and consent required.

**SOC\_WK 4711. Social Justice and Social Policy II. 3 Credits.**

Advanced course in the analysis of policies and programs relevant to social work and social welfare. Prepares students to understand and conduct policy analysis of public, voluntary, and proprietary human service organizations. Prerequisites: Social Work [SOC\_WK] 4710. Social Work Professional standing. Graded on A/F basis only.

**SOC\_WK 4720. Variations in Human Behavior. 3 Credits.**

Basic concepts and principles regarding psychological/social dynamics of deviance; implications for social welfare policy and social interventions. Prerequisites: junior standing and consent required.

**SOC\_WK 4730. Introduction to Social Work Practice. 3 Credits.**

Introductory, generalist practice theory course promoting student's understanding of professional social work practice as holistic, identifiable, unique configuration of knowledge, values and skills. Graded on A/F basis only. Prerequisite: Social Work Professional Standing and consent required.

**SOC\_WK 4740. Introduction to Community and Organizational Processes. 4 Credits.**

Introduction to contextual framework of social work practice with particular emphasis on community and organization as social systems. Graded on A/F basis only. Prerequisite: Social Work professional standing and consent required.

**SOC\_WK 4750. Interaction Skills Workshop. 3 Credits.**

Generalist practice at individual, group and community levels. Group communication and social influence theories address generic and unique aspects of interaction across systems. Uses laboratory instruction. Graded on A/F basis only. Prerequisites: Social Work Professional standing and consent required.

**SOC\_WK 4760. Theory and Practice of Social Group Work. 3 Credits.**

Focuses on small group dynamics and models of group work practice suitable in all social work fields. Emphasizes practice theory and skills. Graded on A/F basis only. Prerequisites: Social Work Professional standing.

**SOC\_WK 4770. Strategies of Direct Practice. 3 Credits.**

Examines social structures, processes, underlying assumptions/concepts of social change, client constellation, organizational arrangements, role relationships by which social workers define professional intervention. Prerequisites: Social Work [SOC\_WK] 4730 and 4750; third semester professional program standing; consent required. Co-requisite: SOC\_WK 4971 and 4970.

**SOC\_WK 4951. Research for Social Work Practice. 3 Credits.**

This course introduces social work research and its relevance to practice, emphasizing the School of Social Work's social justice mission. Graded on A/F basis only. Prerequisites: Social Work Professional standing or consent required.

**SOC\_WK 4952. Research Methods for Social Work. 3 Credits.**

Survey of research methods germane to the development of the knowledge base of social work practice. Graded on A/F basis only. Prerequisites: Social Work Professional standing or consent required.

**SOC\_WK 4960. Special Readings in Social Work. 1-3 Credit.**

Extensive readings in selected area or intensive reading in a special field. Prerequisites: consent required.

**SOC\_WK 4970. Senior Professional Seminar. 3 Credits.**

Integrative professional practice seminar for BSW students, focusing on the principles of generic social work and its application to direct practice in diverse fields, career planning and responsibilities. Prerequisite: Social Work [SOC\_WK] 2220, 4710, 4730, 4740, 4750, 4760, and 4720; consent required. Co-requisite: SOC\_WK 4770 and 4970.

**SOC\_WK 4971. Undergraduate Field Practicum. 6 Credits.**

Supervised social work practice in a school-approved agency focusing on development of direct practice skills. Fall semester, three days per week. Prerequisites: senior standing; Social Work [SOC\_WK] 2220, 4710, 4730, 4740, 4750, 4760, and 4720; consent required. Co-requisite: SOC\_WK 4770 and 4970. Graded on S/U basis only.

**SOC\_WK 4971H. Undergraduate Field Practicum - Honors. 6 Credits.**

Supervised social work practice in a school-approved agency focusing on development of direct practice skills. Graded on S/U basis only. Prerequisites: senior standing; SOC\_WK 2220, SOC\_WK 4710, SOC\_WK 4730, SOC\_WK 4740, SOC\_WK 4750, SOC\_WK 4760, and SOC\_WK 4720; consent required. Co-requisite: SOC\_WK 4770 and SOC\_WK 4970. Honors eligibility required.

**SOC\_WK 7001. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest. Prerequisite: graduate standing; consent required.

**SOC\_WK 7085. Problems in Social Work. 1-6 Credit.**

Intensive study of an area of social welfare related to special interest of student. Prerequisites: graduate standing, consent required.

**SOC\_WK 7220. Advanced Social Work Practice in Integrated Healthcare. 3 Credits.**

The course will introduce students to the essential practice skills needed to effectively address the challenges of integrating services, care, and support for persons with health, mental health, and substance use problems. Graded on A-F basis only.

**SOC\_WK 7300. Women and Health Care. 3 Credits.**

Provides a study of the role of women as health care providers and an analysis of the impact of value systems and the women's movement on the organization and delivery of health services to women. Prerequisite: graduate standing.

**SOC\_WK 7310. Social Statistics. 3 Credits.**

Descriptive, analytic techniques applied to qualitative and quantitative social data. Prerequisite: graduate standing.

**SOC\_WK 7320. Rural Human Services. 3 Credits.**

A study of the effect of rural and small community environments on the planning and delivery of social and health services. Emphasis on policy and program analyses relevant to rural issues and concerns. Prerequisite: graduate standing.

**SOC\_WK 7330. Addiction Treatment and Prevention. 3 Credits.**

Provides knowledge generic to social work and other disciplines involved in substance abuse treatment. Integrated approach to problems of substance abuse and development of self-awareness are emphasized. Didactic and experiential methods employed. Prerequisite: graduate standing.

**SOC\_WK 7340. Military Culture. 3 Credits.**

An introduction to the branches of the military and related cultural issues. Examines the historical and contemporary complexities of military service and personal and professional values and ethics related to practice with military personnel, families, and veterans. Graduate Standing Required. Graded on A/F basis only.

**SOC\_WK 7350. Deaf Culture: A Social Work Perspective. 3 Credits.**

An introduction to the deaf community as a linguistic and cultural minority. Examines the complexities of Deaf culture from a historical and contemporary perspective. Addresses cultural identity, communication, education, social services, civil rights, and advocacy. Graded on A/F basis only.

**SOC\_WK 7360. Working with Minority Youth. 3 Credits.**

Develops awareness and understanding of social/psychological and cognitive realities influencing the behavior of minority youth. Content draws upon theories, research and practice skills relevant to understanding and counseling minority youth. Prerequisite: graduate standing.

**SOC\_WK 7370. Delinquency, Corrections and Social Treatment. 3 Credits.**

Focuses on problems and causative factors in developing and maintaining delinquent and criminal behavior and attitudes: addressing critical and comparative understanding of social change strategies employed in this field. Prerequisite: graduate standing.

**SOC\_WK 7380. Social Work Practice With Minorities: African-American Emphasis. 3 Credits.**

Provides students with an appreciation of the African-American experience in the United States on a knowledge and feeling level. Prerequisite: graduate standing.

**SOC\_WK 7390. Helping Strategies With Children and Adolescents. 3 Credits.**

Theory and practice of work with children and adolescents. Focus on youth in transition, protective services and permanency planning, and special needs populations. Prerequisite: graduate standing.

**SOC\_WK 7400. Domestic Violence. 3 Credits.**

(same as Women's and Gender Studies [WGST] 7400). This 3-hour course covers history of battered women's movement, violence theories, policy issues, prevention and intervention practice models for working with battered women, their children, and abusers. Prerequisite: graduate standing.

**SOC\_WK 7410. Law and Social Work Practice. 3 Credits.**

Legal processes relevant to Social Work Practice and Court procedures and study of decisions affecting social work across concentrations.

**SOC\_WK 7420. Social Work and Disasters. 3 Credits.**

Focuses on social work practice, policy and research related to response, recovery and mitigation of technological and natural disasters. Prerequisites: graduate standing, consent required.

**SOC\_WK 7430. Community Organization for Social Welfare. 3 Credits.**

The theory and practice of community organization as a social work problem solving method. Approaches emphasized include locality development, social planning and social action. Prerequisite: graduate standing; consent required.

**SOC\_WK 7450. Professional Perspectives on Child Welfare Services in the 21st Century. 3 Credits.**

This course examines the development and current state of child welfare services in America with an emphasis on the role of the public child welfare agency in delivery of those services. It is an overview course which addresses the relationship between practice issues in service delivery and administrative policy issues which enable and constrain service delivery activities. The overarching concepts of child safety, family stability, permanency for the child, and well-being of the child as a long term outcome will be used to examine the five focal service delivery areas in child welfare; family support, preservation and reunification, child protection, foster placement, residential care, and adoptive services. This is a dual level BSW/MSW course and is an elective within either program's curricular structure. The differentiating objectives and assignments for the MSW members of the class are noted in the appropriate areas of the syllabus.

**SOC\_WK 7455. Latino/a Immigrants and Receiving Communities. 3 Credits.**

This course is designed to educate students about the Latino/a immigrants who come to communities America to work and to seek better lives for themselves and their families whether in the U.S. or in their sending communities. It is also designed to examine the impacts of this immigration on long-time residents of these receiving communities. Special attention will be given to rural areas and social justice issues as they pertain to the newcomers as well as the long-term residents. It will examine the historical and current issues related to Latino/a immigration in the U.S. and in receiving communities in particular. The content will

draw on research, policy, and practice theories and skills relative to the social and environmental context of this phenomenon. This course will address issues related to micro, mezzo, and macro systems pertaining to the Latino/a immigrants and their receiving communities.

**SOC\_WK 7460. Advanced Social Group Work. 3 Credits.**

An intensive exposure to the theories and models of social group work practice through cognitive, affective and experiential (laboratory) methods of teaching/learning. Prerequisites: graduate standing; consent required.

**SOC\_WK 7470. Organizational Issues in Social Work Practices in Child Welfare. 3 Credits.**

Intensive seminar in meso-level practice in the field of child welfare. Examines communication theory, team building, and interorganizational dynamics as they affect professional practice in child welfare. Prerequisites: graduate standing; consent required.

**SOC\_WK 7480. Helping Strategies with Older Persons. 3 Credits.**

Focus on interdisciplinary methods of assessment and intervention strategies designed to optimize healthy functioning for older persons and their families. Prerequisites: graduate standing; consent required.

**SOC\_WK 7485. Military Social Work. 3 Credits.**

An introduction to social work practice with military personnel, veterans, and their families. Content draws on theories strategies, and research relevant to effective social work Practice with this population. Prerequisite: graduate standing. Graded on A/F basis only.

**SOC\_WK 7490. Family Treatment. 3 Credits.**

Comparative study of theories and methods required for work with problems of family functioning. Both conjoint and subsystem approaches to family treatment are examined. Prerequisite: graduate standing; consent required.

**SOC\_WK 7500. Child Custody and Visitation Mediation in Social Work. 3 Credits.**

The course will focus on the social work skills and knowledge required for effective mediation in child custody and visitation. Prerequisites: graduate standing; consent required.

**SOC\_WK 7510. Supervision, Consultation and Staff Training. 3 Credits.**

Philosophy, objectives, principles and methods of social work supervision, staff development and consultation with emphasis on the commonality of the teaching-learning-evaluating functions. Prerequisite: graduate standing; consent required.

**SOC\_WK 7710. Social Policy and Service Delivery in Social Work. 3 Credits.**

Covers historic and contemporary issues in social welfare policy. Focuses on relationships among social problems, public policies, private actions, poverty, racism, sexism and social work practice/values. Graded on A/F basis only. Prerequisites: graduate standing; consent required.

**SOC\_WK 7720. Foundations of Human Behavior. 3 Credits.**

Substantive sources from behavioral sciences used in social work toward understanding the biosocial processes and constraints of human development. Prerequisite: graduate standing; consent required.

**SOC\_WK 7730. Direct Practice. 3 Credits.**

Introduces theory and application of strengths-based generalist practice. Develops knowledge, values, and techniques of professional social work practice at micro, mezzo, and macro levels, emphasizing assessment and interaction skills with individuals and families. Prerequisite: graduate standing in Social Work.

**SOC\_WK 7740. Community and Organization Dynamics. 3 Credits.**

Examination of social environment in which social work is practiced with particular emphasis on development of analytic framework for understanding formal organizations and communities. Prerequisite: graduate standing in Social Work; consent required.

**SOC\_WK 7750. Advanced Interaction Skills Workshop. 3 Credits.**

Advanced class in social processes and interaction skills basic to generalist social work practice. Learning in cognitive, behavioral and affective domains: including group dynamics, communication and social influence theory. Prerequisite: graduate standing in social work; consent required.

**SOC\_WK 7751. Psychosocial Function and Older Adults. 3 Credits.**

(same as Architectural Studies [ARCHST] 7650, Family Community Medicine [F\_C\_MD] 7751, Human Development and Family Studies [H\_D\_FS] 7751, Nursing [NURSE] 7751, Public Health [P\_HLTH], 7751 and Health Management and Informatics [HMI] 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

**SOC\_WK 7752. Physical Function and Older Adults. 3 Credits.**

(Same as Family and Community Medicine [F\_C\_MD] 7750, Architectural Studies [ARCHST] 7640, Health Management and Informatics [HMI] 7750, Human Development and Family Studies [H\_D\_FS] 7750, Nursing [NURSE] 7750, and Public Health [P\_HLTH] 7750. This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded A-F only. Graduate Standing Required.

**SOC\_WK 7760. Foundations of Justice. 3 Credits.**

This class will examine the impact of power, oppression and discrimination upon individuals, families, communities, and cultures within a historical and contemporary context and will assist students in examining personal and professional values and ethics related to justice. Graded on A/F basis only.

**SOC\_WK 7770. Strategies of Clinical Social Work Intervention. 3 Credits.**

Strategies of social treatment with individuals and small groups applicable to practice in public and private social agency settings. Prerequisites: graduate standing in social work; consent required.

**SOC\_WK 7780. Fundamentals of Social Work Administration. 3 Credits.**

Basic managerial skills which social workers need for supervision, planning, staff development and administrative positions in social agencies; focus on individual management functions and skills associated with them. Prerequisite: graduate standing; consent required.

**SOC\_WK 7790. Practicum in Cultural Diversity I. 1 Credit.**

A practicum conducted on a workshop with content focused on racial, cultural and gender dynamics in social work practice. Graded on a S/U basis only. Prerequisites: graduate standing; consent required.

**SOC\_WK 7791. Practicum in Cultural Diversity II. 1 Credit.**

Continuation of Social Work [SOC\_WK] 7790. A practicum conducted as a workshop with content focused on racial, cultural and gender dynamics in social work practice. Graded on a S/U basis only. Prerequisites: graduate standing; consent required.

**SOC\_WK 7820. DSM IV and Psychopathology. 3 Credits.**

Examines psychopathology of human behavior within social work context, prevailing diagnostic models (Diagnostic and Statistical Manual of Mental Disorders IV), and historically oppressive categorizations. Prerequisites: Graduate standing; consent required.

**SOC\_WK 7920. Advanced Foundations of Human Behavior for Administrators. 3 Credits.**

Examination of relevant theoretical and behavioral foundations in order that students can acquire the knowledge to function as a social work administrator. Prerequisites: graduate standing; consent required.

**SOC\_WK 7952. Research Methods in Social Work. 3 Credits.**

Examines research methodology and design as applied to the study of social work techniques and problems. Emphasizes differential uses of scientific observation and techniques for developing knowledge and improving practice. Prerequisite: graduate standing; consent required.

**SOC\_WK 7971. Graduate Field Practicum I. 3-6 Credit.**

Supervised social work practice in a school-approved agency providing a full range of interventive experiences. Graded on S/U basis only. Prerequisites: admission to MSW program; Social Work [SOC\_WK] 7710, 7720, 7730, 7740, 7760. Graduate Standing Required. Consent Required.

**SOC\_WK 7981. Professional Development Workshop. 8 Credits.**

Field practicum under intensive faculty instruction for eight weeks prepares the student for entry into the accelerated graduate degree program. Prerequisites: BSW degree and dean's consent.

**SOC\_WK 8000. Issues in Health Care Policy. 3 Credits.**

Graduate seminar focusing on development of skills in social policy analysis. Emphasizes knowledge and analytical perspectives about social policies and health and impacts on various populations. Graded on A/F basis only. Prerequisites: second year graduate standing; consent required.

**SOC\_WK 8001. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest. Prerequisites: graduate standing; instructor's consent. May be repeated for credit.

**SOC\_WK 8010. Child Abuse and Neglect Assessment and Intervention. 3 Credits.**

In-depth exploration of identification of and interventions with abused/neglected children and their families. Examines roles for social work with both victims and perpetrators. Examines how environmental factors affect successful intervention. Prerequisite: Social Work [SOC\_WK] 7770; graduate standing; instructor's consent for non MSW students.

**SOC\_WK 8020. Children's Mental Health and Social Services in Schools. 3 Credits.**

Focuses on diagnosis and assessment of childhood disorders in the DSM-IV-R and appropriate intervention strategies for these disorders. Focuses on interventions in educational settings. Prerequisites: Social Work [SOC\_WK] 7820, 7770; graduate standing and instructor's consent. Graded on A/F basis only.

**SOC\_WK 8030. Client Case Management, Networking, and Advocacy. 3 Credits.**

Examines the key role of clinical case management across all social work client populations. Models of case management for and techniques applicable to those populations will be developed for effective practice.

Prerequisite: Social Work [SOC\_WK] 7770; graduate standing; instructor's consent for non-MSW students. Graded on A/F basis only.

**SOC\_WK 8040. Narrative Approaches to Social Work Practice. 3 Credits.**

This class will enable students to gain knowledge of theory and basic practice skills grounded in narrative therapy. The use of narratives with vulnerable and oppressed populations and creative strategies to evoke narratives are highlighted in this course. Prerequisites: Social Work [SOC\_WK] 7770; graduate standing, departmental consent. Graded on A/F basis only.

**SOC\_WK 8050. Resiliency and Solution-Focused Practice. 3 Credits.**

Focuses on brief therapy approaches to dealing with clinical problems in a time-efficient, clinically effective method. Various approaches to solution-oriented work based in resiliency theory are presented. Stresses client empowerment across the lifespan. Prerequisites: Social Work [SOC\_WK] 7770; graduate level Social Work Majors only. Graded on A/F basis only.

**SOC\_WK 8060. Trauma Practice and Crisis Intervention. 3 Credits.**

Focuses on clinical techniques for social work with trauma survivors. Addressing effects of disasters, personal violence and war are included. Resiliency in survivors is presented as basis for interventions. Prerequisites: Social Work [SOC\_WK] 7770; graduate level Social Work majors only.

**SOC\_WK 8070. Cognitive Behavioral Practice. 3 Credits.**

Focuses on the theory, concepts, and techniques of cognitive behavioral therapies, with a particular emphasis on clinical intervention methods that may be used by the social worker to address specific client needs. Prerequisites Social Work [SOC\_WK] 7770, graduate standing; consent required. Graded on A/F basis only.

**SOC\_WK 8090. Master's Research in Social Work. 1-6 Credit.**

Independently conducted research that includes concept development, data collection, statistical analysis and social policy implications prepared in a format suitable for publication. Graded on S/U basis only. Prerequisite: graduate standing; consent required.

**SOC\_WK 8100. Mental Health Policies and Programs. 3 Credits.**

Focus is on knowledge of the content, context, history and current trends in mental health policymaking at federal and state levels, and skill building in policy analysis. Graded on A/F basis only. Prerequisite: graduate standing; consent required.

**SOC\_WK 8200. Family and Child Welfare Policies and Programs. 3 Credits.**

Graduate seminar on policies and programs relevant to social work practice in the family and child welfare field, including policies on aging. Prerequisite: graduate standing; consent required.

**SOC\_WK 8210. Disability Rights Advocacy. 3 Credits.**

Highlights historical views of disabilities in relationship to contemporary policies, programs and services. This cross-disability focus examines the shift in focus from cure, care, and treatment to participation, capabilities, adapting environments, and building community. Prerequisite: graduate standing. Graded on A/F basis only.

**SOC\_WK 8220. Integrated Health Policy and Services. 3 Credits.**

The course focuses on the role of social workers as social policy practitioners within an Integrated Behavioral Health environment. Strategies to influence policies and promote change in the interest of service consumer, agency, and society will be presented. Graded on A-F basis only.

**SOC\_WK 8230. Women, Poverty, and Mental Health. 3 Credits.**

Highlights the historical regulations of women's lives in the U.S. Examines women's poverty, mental health, and work, particularly the impact mental health has on the ability of poor women to be breadwinner and nurturer. Compares and contrasts related social welfare policies. Prerequisite: graduate standing. Graded on A/F basis only.

**SOC\_WK 8250. Equity and Disparities in Health. 3 Credits.**

(same as Public Health [P\_HLTH] 8250). This course is designed to provide students with knowledge about the distribution, causes, and consequences of health inequalities. The course will examine how multiple predictors such as socioeconomic status, behavioral risk factors, and cultural factors such as perceived discrimination and acculturation, gender and marriage, stigma, and health care inequalities are related with racial/ethnic, socioeconomic, and gender disparities in health. This course will also discuss implications that may contribute substantively toward the elimination of health inequalities. Prerequisites: Social Work [SOC\_WK] 7710, 7720, 7730, 7740 and 7760; Instructor's consent. Graded on A/F basis only.

**SOC\_WK 8300. Advanced Social Policy for Planning and Administration. 3 Credits.**

Focus on integration of cognitive and skill components of policy development, analysis and change with special emphasis on utility by social work administrators and planners. Prerequisite: Social Work [SOC\_WK] 7920; graduate standing; consent required.

**SOC\_WK 8350. Management of a Social Agency. 3 Credits.**

Basic resource management and control techniques common to social agencies with emphasis on personnel management, information and data management, and fiscal management. Prerequisites: graduate standing; consent required.

**SOC\_WK 8952. Evaluative Research in Clinical Social Work Practice. 3 Credits.**

Develop ability to systematically evaluate effectiveness of interventive strategies designed to produce positive change in clients' environment and/or cognitive, affective and behavioral functioning. Prerequisite: Social Work [SOC\_WK] 7952; graduate standing; consent required.

**SOC\_WK 8953. Evaluative Research in Social Work Planning and Administration. 3 Credits.**

Develop ability to design and implement appropriate evaluative research methods and strategies employed in social and human service program planning and management. Prerequisite: Social Work [SOC\_WK] 7952; graduate standing; consent required.

**SOC\_WK 8955. Independent Study in Social Work. 1-6 Credit.**

Intensive investigation of phenomena germane to area of concentration carried out with guidance of faculty. May include data collection; leads to a written report in publishable format. Prerequisite: graduate standing and consent required.

**SOC\_WK 8970. Professional Practice Seminar I. 3 Credits.**

Provides integrative learning experience in social work practice in an area of beginning specialization in autonomous social work practice. Prerequisites: graduate standing; consent required. Corequisite: Social Work [SOC\_WK] 8971.

**SOC\_WK 8971. Graduate Field Practicum II. 1-13 Credit.**

Field instruction tailored to concentration interests, developing depth in clinical skills in direct service or in planning and administration. Graded on S/U basis only. Prerequisites: completion of all required graduate

coursework except Social Work [SOC\_WK] 8970; consent required. Co-requisite: SOC\_WK 8970.

**SOC\_WK 8990. Topics in Advanced Social Welfare. 3 Credits.**

Topics in Advanced Social Welfare. Consent of instructor required. Graduate standing required.

**SOC\_WK 9001. Topics in Social Work. 1-3 Credit.**

Special and emerging topics in social work and social welfare. Subject, content, and credit varies depending on available faculty and student interest. Prerequisite: graduate standing; consent required. May be repeated for credit.

**SOC\_WK 9090. Research in Social Work. 1-12 Credit.**

Graded on S/U basis only.

**SOC\_WK 9100. Knowledge Building I. 3 Credits.**

Advanced systemic review of theories requisite for study and implementation of practice and policy centered research in social welfare and development; emphasis placed on critical analysis of theories needed for research and study of integrated social development. Prerequisite: graduate standing; consent required.

**SOC\_WK 9200. Knowledge Building IIA. 3 Credits.**

Building on the foundation laid in Social Work [SOC\_WK] 9100, in depth examination of human development and social environment theories appropriate to scientific examination of social welfare practice with individuals, families, formed and natural groups. Prerequisite: graduate standing; consent required.

**SOC\_WK 9300. Research Methodology and Design Seminar. 3 Credits.**

Review of historical development of social welfare and social work research with emphasis on critical analysis of seminal studies; examination of "state-of-the-art" social welfare and development initiatives, designs and methodology. Prerequisite: graduate standing; consent required.

**SOC\_WK 9400. Macro Social Theory. 3 Credits.**

(Same as Nursing [NURSE] 9400). Building on the foundation laid in Social Work [SOC\_WK] 9100, in depth examination of human development and social environment theories appropriate to scientific examination of social welfare practice with formal organizations, interorganizational combinations, communities and larger political entities. Prerequisite: graduate standing; consent required.

**SOC\_WK 9500. Pro Seminar I. 3 Credits.**

Joint student-faculty exercise in intellectual discovery focusing on current and emerging issues in the field of social work and social development; emphasis on integration of multi-disciplinary perspectives. Prerequisite: graduate standing; consent required.

**SOC\_WK 9560. Qualitative Systematic Reviews. 3 Credits.**

(Same as Nursing [NURSE] 9560 and Human Development and Family Studies [H\_D\_FS] 9560) Examine and carry out elements of qualitative systematic reviews: topic/problem identification, data collection, and analysis. Understand how to limit threats to validity and maximize generalizability. Prerequisite: Nursing [NURSE] 9420 or equivalent.

**SOC\_WK 9600. Professional Seminar II. 3 Credits.**

Professional Seminar II.

**SOC\_WK 9700. Social Welfare Policy Seminar. 3 Credits.**

(Same as Nursing [NURSE] 9700) Critical examination of comparative models of social policy development; preparation of a professional social work policy analysis in the student's area of interest/specialization that is

suitable for submission to an appropriate referred journal. Prerequisite: graduate standing; consent required.

**SOC\_WK 9800. Research Application I. 3 Credits.**

Research practicum for Social Work doctoral students. Prerequisites: graduate standing; consent required.

**SOC\_WK 9850. Research Application II. 3 Credits.**

Research Practicum. In most cases it will be a second research practicum but may also be a continuation of the research conducted in Social Work [SOC\_WK] 9800. Prerequisite: graduate standing; consent required.

**SOC\_WK 9890. Dissertation Seminar. 3 Credits.**

This course will assist doctoral students in planning and writing the dissertation. Prerequisite: graduate standing; consent required.

**SOC\_WK 9900. Doctoral Dissertation Research in Social Work. 1-99 Credit.**

Independently conducted research that includes concept development, data collection, statistical analysis and social policy implications prepared in a format suitable for publication. Graded on S/U basis only. Prerequisite: graduate standing; consent required.

## Sociology (SOCIOL)

---

**SOCIOL 410RE. AGING CONTEMPORARY SOC. 1-99 Credit.**

**SOCIOL 1000. Introduction to Sociology. 1-3 Credit.**

Nature of organization and activities of human groupings-family, community, crowd, social class, etc.; structure, function of institutions; social influences shaping personality, behavior, social change. No credit for both Sociology [SOCIOL] 1000 and Rural Sociology [RU\_SOC] 1000.

**SOCIOL 1000H. Introduction to Sociology Honors. 3 Credits.**

Nature of organization and activities of human groupings-family, community, crowd, social class, etc.; structure, function of institutions; social influences shaping personality, behavior, social change. No credit for both Sociology [SOCIOL] 1000 and Rural Sociology [RU\_SOC] 1000. Honors eligibility required.

**SOCIOL 1120. Population and Ecology. 3 Credits.**

(same as Rural Sociology [RU\_SOC] and Peace Studies [PEA\_ST] 1120). Changes in the structure and characteristics of population groups and their relationship to both human and non-human aspects of the biophysical environment.

**SOCIOL 1360. The Female Experience: Body, Identity, Culture. 3 Credits.**

(same as Women's and Gender Studies [WGST] 1360). Study of the experience of being female in American culture. Course will focus on development of women's identities through such topics as: sexuality, reproduction, self-image, rape and health care.

**SOCIOL 1650. Social Deviance. 3 Credits.**

Survey of approaches to the study of behaviors commonly regarded as deviant such as crime, sexual abuse, substance abuse, mental illness, etc.

**SOCIOL 2103. Topics in Sociology-Behavioral Science. 1-3 Credit.**

Organized study of selected topics. Particular topics may vary from semester to semester. Departmental consent for repetition.

**SOCIOL 2182. Critical Dialogues: Nonviolence in Peace/Democracy Movements. 3 Credits.**

(same as Peace Studies [PEA\_ST] 2182). History and theory of nonviolent action. Study of such cases as Gandhi's Independence, American Civil Rights and Polish Solidarity movements. Prerequisites: PEA\_ST 1050 or instructor's consent.

**SOCIOL 2200. Social Inequalities. 3 Credits.**

(same as Black Studies [BL\_STU] 2200). Survey of inequalities based upon criteria such as race, ethnicity, sex, age, religion and social class in contemporary societies. Focus on dynamics by which privilege and inequalities are structured.

**SOCIOL 2210. The Black Americans. 3 Credits.**

(same as Black Studies [BL\_STU] 2210). Analysis of history of blacks in the United States. Assessment of contemporary black community in terms of its institutions, styles of life, patterns of work and intergroup relations.

**SOCIOL 2230. Social Perspectives on Aging. 3 Credits.**

Survey of basic knowledge in social gerontology, aging and old age in American society. Analysis of changes as individuals age, differences among old people, social problems of the aged. Prerequisites: Sociology [SOCIOL] 1000 or equivalent.

**SOCIOL 2280. Race, Democracy, and Violence in Cuba and Haiti. 3 Credits.**

(same as PEA\_ST 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.

**SOCIOL 2281. Nuclear Weapons: Environmental, Health and Social Effects. 3 Credits.**

(same as HLTH\_SCI 2200 and PEA\_ST 2200). Environmental consequences of the nuclear arms race, "regional" nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

**SOCIOL 2284. Critical Dialogs: Global Environmental Policy Conflicts. 3 Credits.**

(same as Peace Studies [PEA\_ST] 2284). Climate change, water supplies, food, sustainability, industrialization, and chemical, oil, radioactive pollution. Activity of transnational corporations, social harm, and formulation of international policies. Analysis of alternatives using criteria of justice: distribution, recognition, participation, legality.

**SOCIOL 2285. Large Corporations, Economic Crisis, Social Responsibility. 3 Credits.**

(same as PEA\_ST 2285). Institutional power of the corporate CEO; ethical regulatory restraint. Historical contexts of economic crisis. Theories of justice, alternative concepts of justice in popular culture. Politics of policy issues in prosecution and criminalization of corporate behavior. Graded on A-F basis only.

**SOCIOL 2300. Self and Society. 3 Credits.**

Analysis of the self in modern society. Topics covered include social interaction, social perception, language and learning, the sociology of emotions and the social construction of identity.

**SOCIOL 2310. Culture and Mass Media. 3 Credits.**

Sociological study of modern folk, local, popular and mass cultural production and consumption; mass media, diffusion, change, differentiation.

**SOCIOL 2950. Social Research I. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 2950). Introduction to principles of methodology; theory and research; survey of basic research designs and perspectives; preparation for understanding and conducting social research. Required for Sociology majors.

**SOCIOL 3000. Urban Sociology. 3 Credits.**

Urbanism as a world phenomenon; ecological, demographic characteristics of cities; organization of urban society including status systems, occupational structure, formal and informal associations, racial and cultural relations, forms of communication, housing, city planning.

**SOCIOL 3010. Social Problems. 3 Credits.**

Trends in modern societies: urbanization, occupational structure, technological change, etc. as these have produced alienation and legitimacy problems. Political, economic, health, welfare, military, justice institutions may be considered. Counter movements and policy issues.

**SOCIOL 3100. Recent Theories in Sociology. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 3100). Introduction to major theoretical positions and issues in contemporary American sociology. Logical and intellectual structure of major theoretical schools: functionalism, conflict, exchange, symbolic interaction, phenomenological-ethnomethodological theories. Prerequisite: Sociology [SOCIO] 2200.

**SOCIOL 3200. Class, Status, and Power. 3 Credits.**

Study of the structure of wealth, poverty, prestige, and power. Concepts of social justice in political, economic and legal issues and policies. Provides student engagement in research.

**SOCIOL 3210. Sociology of Globalization. 3 Credits.**

Globalization's origin and dynamics; the social and political effects of globalization: countervailing forces to economic globalization, in particular reassertions of "traditional" identities, labor movements, new social movements, and the global democracy movement.

**SOCIOL 3230. Education and Social Inequalities. 3 Credits.**

Examination of the ways in which inequalities are constructed, reproduced, maintained or transformed by and within educational institutions. Particular attention will be given to inequalities based on gender, race, and social class.

**SOCIOL 3255. Youth in Today's World. 3 Credits.**

Study of what factors influence the development of youth in today's society. Examined are types of behavior such as mating, deviance and the role of schools, parents, TV and friendship groups.

**SOCIOL 3300. Queer Theories/Identities. 3 Credits.**

(same as Women's and Gender Studies [WGST] 3300). Analysis of gay, lesbian, bisexual, transgender (glbt) and queer identities in culture and society with an emphasis on the contributions of queer theory and other glbt standpoint theories to sociology and the study of society. Prerequisite: Sociology [SOCIO] 2200 or instructor's consent.

**SOCIOL 3310. Social Psychology. 3 Credits.**

Survey of theories and research concerned with the ways in which individuals construct social situations and are affected by them. Topics covered include self-identities, social influence, personal relationships, prejudice and discrimination.

**SOCIOL 3320. Sociology of Gender. 3 Credits.**

(same as Women's and Gender Studies [WGST] 3320). Study of the ways in which femininities and masculinities are constructed in American society with particular attention to gender ideologies and the gendered nature of the social structure.

**SOCIOL 3330. Environmental Justice. 3 Credits.**

Environmental justice refers to the ways in which the "cost and benefits" of modern industrial society are distributed among social groups. This course is concerned with justice, not as an abstract concept, and inequality not in terms of numbers in a bank account. Social justice or inequality are lived, embodied experiences. An individual's likelihood of experiencing environmental harm is related to intersecting gender, race and class formations, among other things. Justice or inequality is not only embodied, it also happens in places--national and regional differences matter. In this course we will look at some of the extensive literature documenting the ways in which communities of color and poor communities are subject to disproportionate environmental risks. In addition, we will focus on gender as an important category in understanding environmental inequality.

**SOCIOL 3400. Politics of the Media. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3400). In this course we study critical thinking skills and use them to compare and contrast U.S. media coverage of current issues with media in other parts of the world. Graded on A/F basis only.

**SOCIOL 3420. The Family. 3 Credits.**

Families, kin and households as interacting groups; roles, socialization, problems, structural change; family in relation to other social institutions; historical, cultural and class variations.

**SOCIOL 3430. The Sociology of Sport. 3 Credits.**

The role of sport in modern society. Includes violence in sport; politics and economics of sport; male, female, and racial inequalities; and international comparisons of sport structures.

**SOCIOL 3440. Sociology of Health. 3 Credits.**

A survey of sociological thinking and research on health, health problems, health occupations and health services. How these are shaped by the society. Problems faced by individuals and the system. Potential solutions to problems.

**SOCIOL 3450. The Sociology of Religion. 3 Credits.**

Sociology of religious experience, action, organization, movements and social change; contemporary trends, including mainline and new religions, civil religion, secularization.

**SOCIOL 3460. Technology and Society. 3 Credits.**

In the last few decades science and technology have permeated our lives as never before. This has led to wide ranging intellectual debates and social movements in and around the issue of relationship between science, technology, and society. This course, which is organized on a lecture-seminar format, will critically investigate different aspects of the relationship between science, technology, and society. Graded on A/F basis only.

**SOCIOL 3510. Public Opinion and Communication. 3 Credits.**

Nature of public opinion; processes of opinion formation; special publics, pressure groups; effects of communication through personal contacts and mass media; propaganda, censorship; opinion surveying.

**SOCIOL 3520. Collective Behavior. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3520). Analysis of crowd behavior and related phenomena: rumors, disasters, fashions. Social responses

to unclear, dangerous or unjust conditions. The dynamics of conflict, consensus and change.

**SOCIOL 3522. New Media, Conflict and Control. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3522). This course will explore the increasing role of new media tools in conflict and surveillance. Examples from recent conflicts will illustrate how citizens and regimes use new media to communicate, report, mobilize, monitor, and/or control. Students will utilize new media as they research instances of democracy and control.

**SOCIOL 3600. Criminology. 3 Credits.**

(same as Peace Studies [PEA\_ST] 3600). Sociology of law; constitutional, psychological, sociological theories of criminal behavior; process of criminal justice; treatment of corrections; control of crime.

**SOCIOL 3700. Organizations and Institutions. 3 Credits.**

Social organization of modern societies with focus on complex organizations (corporations, bureaucracies) within institutional arrangements (economy, polity, education, religion); organizational structure; interorganizational networks; interrelations of institutional sectors.

**SOCIOL 3710. The Sociology of Work. 3 Credits.**

Analysis of occupational, professional aspects of American society. Division of labor; occupational mobility; work and the self; collegueship and informal organizations of work. Prerequisites: Sociology [SOCIOL] 1000 or 1650.

**SOCIOL 4100. Expert Systems. 3 Credits.**

Introduction to the use of expert system shells, designed for graduate students from any department. Students create prototype expert systems under close supervision by faculty experts. Prerequisite: junior standing or instructor's consent.

**SOCIOL 4104. Topics in Sociology-Social Science. 3 Credits.**

Organized study of selected topics. Particular topics may vary from semester to semester. Departmental consent for repetition.

**SOCIOL 4110. Feminist Research and Criticism. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4110). Examination of both feminist critiques of traditional social research and recent, feminist-oriented research that attempts to answer these criticisms. Prerequisites: Sociology [SOCIOL] 2950 or equivalent.

**SOCIOL 4120. Social Statistics. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 4120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis. Prerequisite: Sociology [SOCIOL] 2950 or graduate standing.

**SOCIOL 4200. Social Inequalities. 3 Credits.**

Examination of theories and research concerned with inequalities based on social class, gender, and race-ethnicity. M.A. core course for sociology students. Prerequisite: graduate standing or instructor's consent.

**SOCIOL 4210. Sociology of Aging. 3 Credits.**

Sociological research and theories of aging and old age; historical, demographic, comparative, social psychological and structural topics are studied in depth. Prerequisites: 6 hours of Sociology and junior standing.

**SOCIOL 4220. Race and Ethnic Relations. 3 Credits.**

The experience of racial and ethnic minorities; inequality, assimilation, ethnic and racial conflict, accommodation. Prerequisite: junior standing or instructor's consent.

**SOCIOL 4230. Women, Development, and Globalization. 3 Credits.**

(same as Black Studies [BL\_STU] 4230 and Women's and Gender Studies [WGST] 4230 and Peace Studies [PEA\_ST] 4230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities. Prerequisites: BL\_STU 1332, 2200; SOCIOL 2200; WGST 1332 or 2010.

**SOCIOL 4300. Death and Dying. 3 Credits.**

Death and dying explored from demographic, sociological and social psychological perspectives. Topics: trends and differentials; definitions of death; dying as a social process; funerals and survivors; cultural solutions to problems of death. Prerequisite: junior standing or instructor's consent.

**SOCIOL 4310. Advanced Social Psychology. 3 Credits.**

Major theoretical fields and their application to human problems. M.A. core course. Prerequisite: Sociology [SOCIOL] 3310 or graduate standing.

**SOCIOL 4315. Social Demography. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 4315). General demographic theories; age, sex, and ethnic composition of population; fertility, mortality and migration as components of population change; social, economic and political implications of demographic trends. Prerequisites: Sociology [SOCIOL] 1000 or RU\_SOC 1000 and junior standing.

**SOCIOL 4320. Culture, Identity and Interaction. 3 Credits.**

Examines the interplay between culture, identity, and interaction as these intersect with issues of social inequality, social control, social change, and the everyday production of subjectivities. Prerequisites: Sociology [SOCIOL] 3310 graduate standing or instructor's consent.

**SOCIOL 4335. Social Change and Development. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 4335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines. Prerequisites: Rural Sociology [RU\_SOC] or Sociology [SOCIOL] 1000 and junior standing.

**SOCIOL 4370. Environment and Society. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 4370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included. Prerequisites: junior, senior or graduate standing.

**SOCIOL 4400. Sociology of Health Systems. 3 Credits.**

Analyzes organization of U.S. health system and systems in the developed and developing world. Special attention to reform movements, universality, effectiveness, quality, and efficiency. Prerequisite: Sociology [SOCIOL] 2950, 3440, and 3100 or graduate standing.

**SOCIOL 4410. Sociology of Education. 3 Credits.**

(same as Educational Leadership and Policy Analysis [ED\_LPA] 7458). Contexts, structures and processes of schooling; effects on class, race, ethnicity and gender; social change, educational policy, and organizational dynamics; higher education and the economy. Prerequisites: Sociology [SOCIOL] 1000 or equivalent.

**SOCIOL 4500. Sociology of Social Policy. 3 Credits.**

Sociological theories and methodologies focused on social policy; policy as process; contextual and critical policy analyses; assessing policy effects and consequences. Prerequisite: senior standing.

**SOCIOL 4510. Social Movements and Conflicts. 3 Credits.**

Survey of approaches and research on social movements and social change. Historical and contemporary social movements in the U.S.; collective protest and violence; political revolutions. MA core course. Prerequisite: Sociology [SOCIOL] 3520, 3700, or 3320 or graduate standing.

**SOCIOL 4520. Political Sociology. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4520). Social bases of power and politics, economic and political elites, the political economy of the advanced societies, sources of political conflict and change. Prerequisite: Sociology [SOCIOL] 3200, 3510, 3520, or 3700.

**SOCIOL 4530. Social Organization of the Industrial Societies. 3 Credits.**

The organizational and interorganizational structure of modern capitalist and socialist societies, including examination of alternative models such as technocracy, bureaucratic society, state capitalism, state socialism, organized capitalism. Prerequisites: Sociology [SOCIOL] 3700 or 3710.

**SOCIOL 4550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Women's and Gender Studies [WGST] 4550 and Peace Studies [PEA\_ST] 4550). This course focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of rights, Western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: WGST 1120 or Sociology [SOCIOL] 2200; senior standing required.

**SOCIOL 4600. Contemporary Corrections. 3 Credits.**

Development of concepts of punishment, treatment. Contemporary penal and correctional institutions; problems of custody, classification, education, industry and treatment program; probation, parole. Prerequisites: Sociology [SOCIOL] 2200 and 3600.

**SOCIOL 4610. Society and Social Control. 3 Credits.**

The concept of social control is analyzed from both micro and macro theoretical perspectives. Focus is on patterns of social domination. Prerequisite: Sociology [SOCIOL] 3700 or 3710.

**SOCIOL 4620. Drugs and Society. 3 Credits.**

Course will examine the social, political, and economic aspects of legal and illegal drug use in American society. Issues include: theories of drug use, the social correlates of drug use, the war on drugs and policy alternatives, and the rise of the pharmaceuticals industry. Graded on A/F basis only.

**SOCIOL 4630. Sociology of Mental Health. 3 Credits.**

Course examines the social aspects of mental health and illness. Topics include: stress and mental health, medicalization of behavior, stigma and labeling, mental health care systems, social correlates of mental health (such as gender, childhood, work status, and social support). Prerequisites: 1000 level sociology course or 1000 level Psychology course.

**SOCIOL 4700. Social Organization. 3 Credits.**

Survey of approaches to the analysis of social organization emphasizing complex organizations, division of labor, social inequality, politics and the state, social change. MA core course. Prerequisite: Sociology [SOCIOL] 3700 or 3710 or graduate standing or instructor's consent.

**SOCIOL 4940. Internship in Sociology. 1-9 Credit.**

Professional experience under faculty supervision. Project must be arranged by student and faculty member prior to registration. Prerequisites: junior standing and instructor's consent.

**SOCIOL 4942. Service Learning in Sociology. 3 Credits.**

Students participate in a variety of research-oriented, community service projects which illuminate and reinforce concepts introduced in various sociology courses. Repeatable twice for credit. Does not meet A&S general education requirements. Prerequisite: instructor's consent.

**SOCIOL 4960. Special Readings in Sociology. 1-99 Credit.**

Extensive reading in selected area or special field. Prerequisites: 12 hours Sociology & departmental consent.

**SOCIOL 4970. Senior Seminar. 3 Credits.**

Integrates perspectives, methods, substantive foci of undergraduate courses. Analysis of sociology as a discipline and profession. Discussion of opportunities for graduate study, employment. Prerequisite: Sociology [SOCIOL] 2950 and 3100 and senior sociology major.

**SOCIOL 4995. Honors in Sociology. 3 Credits.**

Intensive work in a selected field within sociology, including readings and research. Repeatable up to 6 hours with departmental consent. Prerequisites: for honors candidates; Sociology [SOCIOL] 2950 and 3100.

**SOCIOL 7004. Topics in Sociology-Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with departmental consent. Prerequisites: junior standing and instructor's consent.

**SOCIOL 7085. Problems in Sociology. 1-99 Credit.**

Directed research not leading to thesis or dissertation. Prerequisites: 12 hours Sociology & departmental consent.

**SOCIOL 7100. Expert Systems. 3 Credits.**

Introduction to the use of expert system shells, designed for graduate students from any department. Students create prototype expert systems under close supervision by faculty experts. Prerequisite: graduate standing and departmental consent.

**SOCIOL 7110. Feminist Research and Criticism. 3 Credits.**

(same as Women's and Gender Studies [WGST] 7110). Examination of both feminist critiques of traditional social research and recent, feminist-oriented research that attempts to answer these criticisms. Prerequisites: graduate standing.

**SOCIOL 7120. Social Statistics. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 7120). Descriptive statistics and bivariate quantitative analysis techniques commonly used by social scientists. Includes coverage of parametric and non-parametric methods. Introduction to computer analysis. Prerequisite: Sociology [SOCIOL] 2950 and graduate standing.

**SOCIOL 7200. Social Inequalities. 3 Credits.**

Examination of theories and research concerned with inequalities based on social class, gender, and race-ethnicity. M.A. core course for sociology students. Prerequisite: graduate standing or instructor's consent.

**SOCIOL 7210. Sociology of Aging. 3 Credits.**

Sociological research and theories of aging and old age; historical, demographic, comparative, social psychological and structural topics are studied in depth. Prerequisites: 6 hours of Sociology and graduate standing.

**SOCIOL 7220. Race and Ethnic Relations. 3 Credits.**

The experience of racial and ethnic minorities; inequality, assimilation, ethnic and racial conflict, accommodation. Prerequisites: Sociology [SOCIOL] 1000 or equivalent and graduate standing.

**SOCIOL 7230. Women, Development and Globalization. 3 Credits.**

(same as Women's and Gender Studies [WGST] 7230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities. Prerequisites: graduate standing.

**SOCIOL 7287. Seminar in Comparative Social Institutions. 3 Credits.**

Analysis of selected social institutions such as agriculture, family, economy, education, health care, law, polity, religion. Inter-institutional and international comparisons. Prerequisites: Sociology [SOCIOL] 4700 or instructor's consent.

**SOCIOL 7300. Death and Dying. 3 Credits.**

Death and dying explored from demographic, sociological and social psychological perspectives. Topics: trends and differentials; definitions of death; dying as a social process; funerals and survivors; cultural solutions to problems of death. Prerequisite: graduate standing and instructor's consent.

**SOCIOL 7310. Advanced Social Psychology. 3 Credits.**

Major theoretical fields and their application to human problems. Prerequisite: Sociology [SOCIOL] 3310 or graduate standing.

**SOCIOL 7315. Social Demography. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 7315). General demographic theories; age, sex, and ethnic composition of population; fertility, mortality and migration as components of population change; social, economic and political implications of demographic trends. Prerequisites: Sociology [SOCIOL] 1000 or Rural Sociology [RU\_SOC] 1000 and graduate standing.

**SOCIOL 7320. Culture, Identity and Interaction. 3 Credits.**

Examines the interplay between culture, identity, and interaction as these intersect with issues of social inequality, social control, social change, and the everyday production of subjectives. Prerequisites: Sociology [SOCIOL] 3310 graduate standing or instructor's consent.

**SOCIOL 7335. Social Change and Development. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 7335). Nature of social change and development. Emphasizes sociological theories of social change and development contrasting them with approaches from the disciplines. Prerequisite: Rural Sociology [RU\_SOC] or Sociology [SOCIOL] 1000 and graduate standing.

**SOCIOL 7340. Self, Language, and Social Life. 3 Credits.**

Examines the interplay between self, language, and social life. Particular attention is paid to how the everyday construction of inner lives relates to diverse social worlds. The effects of situational and institutional conditions as they shape identity and social interactions are important considerations. Prerequisite: graduate standing.

**SOCIOL 7370. Environment and Society. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 7370). An interdisciplinary examination of domestic and international environmental issues focusing on social, cultural, and policy dimensions. Perspectives of the social sciences and humanities are included. Prerequisites: graduate standing.

**SOCIOL 7387. Seminar in Sociology of Work. 3 Credits.**

Recent developments in the sociological study of occupations and professions. Surveys alternative theoretical perspectives

and methodological approaches. Deals with rationalization, professionalization, alienation, class consciousness, self management.

**SOCIOL 7400. Sociology of Health. 3 Credits.**

Comparative study of disease, illness and health care systems in the US and other nations. Prerequisites: Sociology [SOCIOL] 3100 and 3440 or Graduate Standing. Graded A-F only.

**SOCIOL 7410. Sociology of Education. 3 Credits.**

(same as Educational Leadership and Policy Analysis [ED\_LPA] 7458). Contexts, structures and processes of schooling; effects on class, race, ethnicity and gender; social change, educational policy, and organizational dynamics; higher education and the economy.

**SOCIOL 7446. Community Social Structure. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 7446). A comparative study of communities in different nations and in urban and rural areas. A primary focus of the course will be on social change in communities, in response to changing economic, political, social, cultural, and ecological factors.

**SOCIOL 7487. Seminar in Sociology of Organizations. 3 Credits.**

Recent developments in the sociological analysis of complex organizations, including corporations, public bureaucracies, educational organizations, religious organizations, etc. Surveys alternative theoretical perspectives and methodological approaches.

**SOCIOL 7500. Sociology of Social Policy. 3 Credits.**

Sociological theories and methodologies focused on social policy; policy as process; contextual and critical policy analyses; assessing policy effects and consequences. Prerequisite: graduate standing.

**SOCIOL 7510. Social Movements and Conflicts. 3 Credits.**

Survey of approaches and research on social movements and social change. Historical and contemporary social movements in the U.S.; collective protest and violence; political revolutions. Prerequisite: graduate standing or instructor's consent.

**SOCIOL 7520. Political Sociology. 3 Credits.**

(same as Peace Studies [PEA\_ST] 7520). Social bases of power and politics, economic and political elites, the political economy of the advanced societies, sources of political conflict and change. Prerequisite: graduate standing or instructor's consent.

**SOCIOL 7530. Social Organization of the Industrial Societies. 3 Credits.**

The organizational and interorganizational structure of modern capitalist and socialist societies, including examination of alternative models such as technocracy, bureaucratic society, state capitalism, state socialism, organized capitalism. Prerequisites: Sociology [SOCIOL] 3700 or 3710 or graduate standing.

**SOCIOL 7550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Peace Studies [PEA\_ST] / Women and Gender Studies [WGST] 7550). Focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of human rights, western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: graduate standing.

**SOCIOL 7587. Seminar in Culture and Mass Media. 3 Credits.**

Sociological examination of culture and mass media, including institutional character, production and distribution, audience effects, relation of social structures. Current research, theories, methods.

**SOCIOL 7600. Contemporary Corrections. 3 Credits.**

Development of concepts of punishment, treatment. Contemporary penal and correctional institutions; problems of custody, classification, education, industry and treatment program; probation, parole. Prerequisites: Sociology [SOCIOL] 2200 and 3600 or graduate standing.

**SOCIOL 7610. Society and Social Control. 3 Credits.**

The concept of social control is analyzed from both micro and macro theoretical perspectives. Focus is on patterns of social domination. Prerequisite: Sociology [SOCIOL] 3700 or 3710 and graduate standing.

**SOCIOL 7687. Seminar in Family Sociology. 3 Credits.**

Research and theory on family structure and family life; in-depth study of a selection of topics and issues. Prerequisites: Sociology [SOCIOL] 4210 or instructor's consent.

**SOCIOL 7700. Social Organization. 3 Credits.**

Survey of approaches to the analysis of social organization emphasizing complex organizations, division of labor, social inequality, politics and the state, social change. MA core course. Prerequisite: Sociology [SOCIOL] 3700 or 3710 or graduate standing or instructor's consent.

**SOCIOL 7960. Special Readings in Sociology for the Graduate Level. 1-99 Credit.**

Extensive reading in selected area or special field. Prerequisite: graduate standing and instructor's consent. Graded on A/F basis only.

**SOCIOL 8086. Teaching Sociology. 1 Credit.**

Pedagogical and practical issues in autonomously teaching sociology in a university setting. Prerequisite: graduate standing in Sociology Department. Graded on A/F basis only.

**SOCIOL 8087. Critical Race Theory. 3 Credits.**

Critical examination of key sociological theories of race, racialization, and racism in contemporary society.

**SOCIOL 8100. Theoretical Thinking in Sociology. 3 Credits.**

Close analysis of the texts of classical and contemporary social theory. Key concepts will be elaborated in the context of intellectual history, and will be applied to deepening the theoretical significance of an empirical research question on the student's emerging agenda. Required for all entering graduate students in Sociology. Prerequisites: graduate standing or instructor's consent.

**SOCIOL 8110. Research in Sociology. 1-6 Credit.**

Research not expected to terminate in thesis or dissertation. Prerequisite: instructor's consent.

**SOCIOL 8120. The Logic of Social Research. 3 Credits.**

Meta-theoretical and conceptual issues at the core of design decision making, questionnaire construction, qualitative field techniques, interviewing, scaling, panel analysis, computer applications to qualitative data; experimental, survey and case study designs, ethics. Required for Ph.D. students.

**SOCIOL 8130. Advanced Social Statistics. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 8130). Introduction to multivariate analysis for social scientists. Emphasis on non-experimental applications of analysis of variance and correlation-regression. Computer applications emphasized. Prerequisite: Sociology [SOCIOL] 7120 or equivalent.

**SOCIOL 8140. Seminar in Population Health. 3 Credits.**

Graduate Seminar on the social distribution of morbidity and mortality. Covers major theoretical perspectives and the state of empirical evidence regarding several individuals and contextual explanations of health

disparities. Prerequisite: graduate standing and instructor permission. Graded on A/F basis only.

**SOCIOL 8150. Graduate Seminar in Urban Sociology. 3 Credits.**

In this course we will survey the field of urban sociology. Urban sociology is the study of human social relations in cities and urbanized communities. We will consider urbanization in its preindustrial, industrial, and postindustrial forms in the U.S. and elsewhere. Graduate Standing Required. Graded A-F only.

**SOCIOL 8187. Seminar on Interview Theory and Technique. 3 Credits.**

The seminar has three goals: First is the consideration of literature dealing with recent theoretical formulations of the interview. This will provide a basis, second, for critically examining a number of popular interview guidebooks. The third goal is to offer the opportunity to put theory and technique into practice by analyzing selected interview material. Prerequisite: doctoral standing.

**SOCIOL 8250. Media and Power in Comparative Perspective Seminar. 3 Credits.**

This course traces the historical development of U.S. and selected international media systems. We analyze and debate the relationship of differing media systems to political power, popular culture, and the facilitation or inhibition of democratic practices. Students do comparative analyses of international media institutions and related analyzes of media content. Prerequisites: Graduate standing or undergraduate seniors with instructor's consent.

**SOCIOL 8277. Race, Ethnicity, and Transnational Inequalities. 3 Credits.**

(same as Black Studies [BL\_STU] 8277). This graduate seminar examines the global contest of our radicalized modern world system. How do people develop and give meaning to race/ethnicity in different regions? Focus on the construction of bodies Creole identities, gender, sexualities, citizenships and immigration. Restricted to graduate students only. Graded on A/F basis only.

**SOCIOL 8287. Seminar on Sustainable Development. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 8287). An interdisciplinary examination of sustainable development focusing on social, economic, cultural and environmental dimensions of development. International and domestic issues and approaches to sustainable development are included.

**SOCIOL 8387. Seminar on Narrative and Identity. 3 Credits.**

Prerequisite: graduate standing required; instructor's consent required.

**SOCIOL 8425. Social Processes of Information/Knowledge Utilization. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 8425). Factors conditioning communication and diffusion of ideas and practices; exercise of personal influence; role of change agents and agencies in the process of change.

**SOCIOL 8435. Graduate Seminar in Medicine, Technology, and Globalization. 3 Credits.**

In the last two hundred years medicine and technology have transformed our day-to-day living as never before. They have permeated our social and personal imagination, our epistemological bearing, disciplinary practices, and not to forget national and global agendas. A key aspect of such transformations, which we are going to investigate in this course, has been the intertwining of medicine and technology in a variety of ways, resulting in wide ranging impact - from the emergence of medical gaze, transformation of healthcare practices, to present day

transnationalization and globalization of medical practices. This course would utilize recent theoretical developments to interrogate different interrelated facets of medicine, technology, and globalization. Graded on A/F basis only.

**SOCIOL 8525. Culture, Difference, and Inequality. 3 Credits.**

This course is an examination of exemplary, interdisciplinary texts employing a variety of cultural approaches to understanding difference and inequality. In this seminar, we will think about what is gained from various cultural approaches to difference and inequality, how such approaches can be achieved methodologically, and how students can apply such approaches to their own research. The main focus of the course is on cultural studies and poststructural feminist studies, but readings will also be included from intersectionality studies, affect studies, critical race studies and cultural sociology. Prerequisite: graduate standing or instructor's consent.

**SOCIOL 8687. Seminar in Criminology and Deviant Behavior. 3 Credits.**

Survey of empirical research and sociological theory in criminology and deviant behavior. May be repeated once with instructor's consent. Prerequisites: Sociology [SOCIOL] 3600 and graduate standing or instructor's consent.

**SOCIOL 8987. Seminar on the Sociology of Health and Sickness. 3 Credits.**

Topical seminar dealing with one of three subject areas: (1) Health problems, disease, illness, sickness; (2) Occupations, and Organizations in the health field, or (3) Comparative Health Care Systems. Course may be repeated for different topics. Prerequisite: graduate standing.

**SOCIOL 9090. Research. 1-99 Credit.**

Advanced work leading to thesis or dissertation. Prerequisite: consent of major advisor. Graded on a S/U basis only.

**SOCIOL 9187. Seminar in Sociological Theory I. 3 Credits.**

Traces development of sociological theory from the "generation of 1890" through the 1940s, including the work of Durkheim, Weber, Parsons and others. Prerequisite: Sociology [SOCIOL] 8100 or equivalent.

**SOCIOL 9287. Seminar in Qualitative Methods in Sociology. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 9287). Examination of various qualitative methods of research, including problem-formulation, access and interpretation of data, theory-generation, and preparation of research reports. Prerequisites: Sociology [SOCIOL] 8120 and instructor's consent.

**SOCIOL 9288. Ethnographic Fieldwork. 3 Credits.**

History of sociological ethnography, the analysis of key ethnographic texts, forms of ethnographic fieldwork, and recent debates related to representational practices. Applications to participant observation, field interviewing, and strategies of discourse analysis in various social settings. Prerequisite: Sociology [SOCIOL] 9287, graduate standing; instructor's consent.

**SOCIOL 9300. Social Interaction Research. 3 Credits.**

Seminar on research methods in social interaction. Prerequisites: Psychology [PSYCH] 8310 or instructor's consent.

**SOCIOL 9350. Graduate Seminar in Environmental Discourses. 3 Credits.**

This seminar explores human cultural interactions with nature: how we understand ourselves in relation to space, how we interact with and learn about nature, and how we use nature. Readings will include exemplary

texts from sociology, geography and anthropology, science studies and cultural studies. Graduate Standing required.

**SOCIOL 9387. Seminar in Social Gerontology. 2-3 Credit.**

Analysis of selected topics in the sociological study of age; critical issues; research literature and methodologies; development of theory. Prerequisites: Sociology [SOCIOL] 4210 or instructor's consent.

**SOCIOL 9487. Seminar in Sociological Theory II. 3 Credits.**

Theoretical developments in sociology in Europe and United States since 1950. Recent formulations, controversies. Prerequisite: Sociology [SOCIOL] 8100 or equivalent.

**SOCIOL 9500. Seminar in State and Economy. 3 Credits.**

Analysis of public policy and economic change in contemporary political-economic systems; growth of welfare state, capitalist planning, state socialist economics.

**SOCIOL 9587. Topical Seminar in Contemporary Sociological Theory. 3 Credits.**

Critical evaluation of selected points of view in current sociological theory. May be repeated with departmental consent. Prerequisite: Sociology [SOCIOL] 8100 or equivalent.

**SOCIOL 9687. Topical Seminar in Historical Sociology. 3 Credits.**

Methodological approaches to sociological explanation of historical phenomena; related sociological theories of historical development, including Weberian, Marxist and other perspectives applied to a topical historical problem. Prerequisite: Sociology [SOCIOL] 8100 or equivalent.

**SOCIOL 9777. Graduate Seminar in Body and Society. 3 Credits.**

The course is organized around three major themes - body as a site of personal and political experience; the social body, emphasizing the relationship between society, culture, and individuals; and the body as a site and instrument of politics. Readings assigned for the course are aimed at critical engagement with the "body: within and across these themes. Graded on A/F basis only.

**SOCIOL 9837. Seminar in Multivariate Analysis Techniques. 3 Credits.**

(same as Rural Sociology [RU\_SOC] 9837). Examination of various qualitative techniques of data analysis. Prerequisites: Sociology [SOCIOL] 8120 or instructor's consent.

**SOCIOL 9887. Seminar in Sociology of Gender. 3 Credits.**

Analysis of recent research in which gender is a major focus. This research is chosen to exemplify a variety of theoretical perspectives, research strategies, and substantive topics.

**SOCIOL 9920. Independent Readings in Preparation for Comprehensive Examinations. 1-6 Credit.**

Independent readings for PhD comprehensives. Open only to PhD candidates who have passed qualifying examinations. Prerequisite: consent of major advisor.

**SOCIOL 9987. Seminar in Sociological Reasoning and Research Development. 3 Credits.**

Systematic development of sociological research integrating theory, method, and contributions to knowledge. Formulations of sociological problems, conceptual frameworks, research programs analytical strategies. Prerequisites: Sociology [SOCIOL] 8120 or equivalent, doctoral standing.

## Soil Science (SOIL)

---

**SOIL 2100. Introduction to Soils. 3 Credits.**

(same as Plant Science [PLNT\_S] 2100). Introduction to soil sciences with emphasis placed on physical, biological, and chemical properties and application to land use, plant growth and environmental problems. Prerequisites: 3 hours of Chemistry.

**SOIL 2106. Soil Science Laboratory. 2 Credits.**

Laboratory application of fundamental soil science concepts. Prerequisites: concurrent enrollment in Soil Science [SOIL] 2100.

**SOIL 3001. Topics in Soil Science. 1-99 Credit.**

Organized study of selected topics in soil science.

**SOIL 3085. Problems in Soil Science. 1-99 Credit.**

Special individualized research projects or readings in soil science.

**SOIL 3290. Soils and the Environment. 3 Credits.**

(same as Environmental Science [ENV\_SC] 3290). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution. Prerequisites: Soil Science [SOIL] 2100, 3 hours of chemistry, English [ENGLISH] 1000 or instructor's consent.

**SOIL 4001. Topics in Soil Science. 1-99 Credit.**

Organized study of selected topics in soil science.

**SOIL 4085. Problems in Soil Science. 1-99 Credit.**

Special individualized non-thesis research projects or readings in soil science.

**SOIL 4305. Environmental Soil Physics. 3 Credits.**

(same as Environmental Science [ENV\_SC] 4305). Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat. Prerequisites: Soil Science [SOIL] 2100, Physics [PHYSICS] 1210 or equivalent.

**SOIL 4306. Environmental Soil Physics Laboratory. 2 Credits.**

(same as Environmental Science [ENV\_SC] 4306). Introduction to the methodology and equipment for measurement of soil physical properties and processes. Prerequisites: concurrent or previous enrollment in Soil Science [SOIL] 4305.

**SOIL 4308. Soil Conservation. 3 Credits.**

Conservation of soil with respect to topsoil, soil productivity, and fertility. Prerequisite: Soil Science [SOIL] 2100. Recommended: Agricultural Systems Management [AG S M] 4420.

**SOIL 4312. Environmental Soil Microbiology. 3 Credits.**

(same as Environmental Science [ENV\_SC] 4312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic transformation bioremediation, etc. Prerequisites: general microbiology, Soil Science [SOIL] 2100, or instructor's consent.

**SOIL 4313. Soil Fertility and Plant Nutrition. 3 Credits.**

(same as Plant Science [PLNT\_S] 4313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of

soil amendments. Prerequisites: Soil Science [SOIL] 2100 or instructor's consent.

**SOIL 4314. Soil Fertility and Plant Nutrition Laboratory. 2 Credits.**

(same as Plant Science [PLNT\_S] 4314). The application of elementary analytical procedures to the evaluation of the nutrient status of soils and crop plants. Prerequisite: concurrent or previous enrollment in Soil Science [SOIL] 4313.

**SOIL 4318. Environmental Soil Chemistry. 3 Credits.**

(same as Environmental Science [ENV\_SC] 4318 and Geology [GEOL] 4318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes. Prerequisites: Soil Science [SOIL] 2100 or GEOL 2400, Chemistry [CHEM] 1320 and 1330. Junior level standing or consent of instructor.

**SOIL 4320. Genesis of Soil Landscapes. 4 Credits.**

The co-evolution of soil landscapes. The role of water in the accumulation of parent materials and development of soil horizons. Factors and processes of soil genesis. Distribution of soil in their natural settings. Prerequisites: introductory soil science or introductory geology or permission of instructor.

**SOIL 4360. Precision Agriculture Science and Technology. 3 Credits.**

(same as Agricultural Systems Management [AG\_S\_M] 4360 and Plant Science [PLNT\_S] 4360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management. Prerequisites: Soil Science [SOIL] 2100, PLNT\_S 2110 or instructor's consent.

**SOIL 4940. Soil Science Internship. 1-12 Credit.**

Supervised professional experience with an approved public or private organization. Prerequisite: Soil and Atmospheric Sciences majors only, instructor's consent. Course may be repeated for credit. Graded on S/U basis only.

**SOIL 4950. Undergraduate Research in Soil Science. 1-4 Credit.**

Research apprenticeship with a faculty mentor. Students are expected to develop initial concept for the research, design experiments, collect data, and analyze data with faculty input, oversight, and guidance. Prerequisites: Soil [SOIL] 2100 and 2106, Statistics [STAT] 2530, and 9 hours of Soil Science with at least 3 hours above the 3000-level, and instructor's consent.

**SOIL 7001. Topics in Soil Science. 1-99 Credit.**

Organized study of selected topics in soil science. Intended for graduate students.

**SOIL 7085. Problems in Soil Science. 1-99 Credit.**

Special individualized non-thesis research projects or readings in soil science. Prerequisite: graduate standing.

**SOIL 7305. Environmental Soil Physics. 3 Credits.**

(same as Environmental Science [ENV\_SC] 7305). Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat. Prerequisites: graduate standing, Soil Science [SOIL] 2100, Physics [PHYSICS] 1210 or equivalent.

**SOIL 7306. Environmental Soil Physics Laboratory. 2 Credits.**

(same as Environmental Science [ENV\_SC] 7306). Introduction to the methodology and equipment for measurement of soil physical properties and properties and processes. Prerequisites: graduate standing and concurrent or previous enrollment in Soil Science [SOIL] 4305.

**SOIL 7308. Soil Conservation. 3 Credits.**

Conservation of soil with respect to topsoil, soil productivity, and fertility. Prerequisite: graduate standing and Soil Science [SOIL] 2100. Recommended: Agriculture Systems Management [AG\_S\_M] 4420.

**SOIL 7312. Environmental Soil Microbiology. 3 Credits.**

(same as Environmental Science [ENV\_SC] 7312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic transformations bioremediation, etc. Prerequisites: graduate standing and general microbiology, Soil Science [SOIL] 2100, or instructor's consent.

**SOIL 7313. Soil Fertility and Plant Nutrition. 3 Credits.**

(same as Plant Science [PLNT\_S] 7313). Explanation of principles of delivery of plant nutrients to plants, discussion of the role of each essential nutrient in crop plants and introduction to the management of soil amendments. Prerequisites: graduate standing and Soil Science [SOIL] 2100 or instructor's consent.

**SOIL 7314. Soil Fertility and Plant Nutrition Laboratory. 2 Credits.**

(same as Plant Science [PLNT\_S] 7314). The application of elementary analytical procedures to the evaluation of the nutrient status of soils and crop plants. Prerequisite: graduate standing and concurrent or previous enrollment in Soil Science [SOIL] 7313.

**SOIL 7318. Environmental Soil Chemistry. 3 Credits.**

(same as Geology [GEOL] 7318 and Environmental Science [ENV\_SC] 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes. Prerequisites: Soil Science [SOIL] 2100 or GEOL 2400, Chemistry [CHEM] 1320 and 1330. Junior standing or instructor's consent.

**SOIL 7320. Genesis of Soil Landscape. 4 Credits.**

The co-evolution of soil landscapes. The role of water in the accumulation of parent materials and development of soil horizons. Factors and processes of soil genesis. Distribution of soil in their natural settings. Prerequisites: graduate standing and introductory soil science or introductory geology or permission of instructor.

**SOIL 7360. Precision Agriculture Science and Technology. 3 Credits.**

(same as Agricultural Systems Management [AG\_S\_M] 7360 and Plant Science [PLNT\_S] 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management. Prerequisites: graduate standing and Soil Science [SOIL] 2100, PLNT\_S 2110 or instructor's consent.

**SOIL 8001. Topics in Soil Science. 1-99 Credit.**

Organized study of selected topics in soil science. Intended for graduate students.

**SOIL 8085. Problems in Soil Science. 1-99 Credit.**

Special individualized non-thesis research projects or readings in soil science.

**SOIL 8090. Masters Research in Soil Science. 1-10 Credit.**

Original investigations in soil science for presentation in a thesis. Graded on S/U basis only.

**SOIL 8400. Solute Transport in the Vadose Zone. 3 Credits.**

(same as Environmental Science [ENV\_SC] 8400). Transport of water and solutes in geomeia with emphasis on development of the equations of flow. Evaluation of analytical and numerical solutions to equations describing transport phenomena. Prerequisites: ENV\_SC/ Soil Science [SOIL] 7305.

**SOIL 8450. Nonthesis Research in Soil Science. 1-9 Credit.**

Research not expected to terminate in dissertation.

**SOIL 8500. Chemistry of the Vadose Zone. 3 Credits.**

(same as Environmental Science [ENV\_SC] 8500). Chemical reactions occurring in geomeia with emphasis on understanding molecular scale processes occurring at the solid-water interface, aqueous geochemistry, and soil organic matter. Prerequisites: Soil Science [SOIL] 7318 or Geology [GEOL] 7300 or instructor's consent.

**SOIL 9001. Topics in Soil Science. 1-99 Credit.**

Organized study of selected topics in soil science. Intended for graduate students.

**SOIL 9085. Problems in Soil Science. 1-99 Credit.**

Special individualized non-thesis research projects or readings in soil science.

**SOIL 9087. Seminar in Soil Science. 1 Credit.**

In-depth development of advanced aspects of soil science through reviews of results of research in progress and current scientific publications.

**SOIL 9090. Doctoral Research in Soil Science. 1-10 Credit.**

Original investigations in soil science for presentation in a dissertation. Graded on S/U basis only.

**SOIL 9407. Advanced Environmental Soil Physics. 3 Credits.**

(same as Environmental Science [ENV\_SC] 9407). Transport of mass and energy through soil with emphasis on development of the equations of flow. Evaluation of analytical and numerical solutions to differential equations describing transport phenomena. Prerequisites: Soil Science [SOIL] 7305, Mathematics [MATH] 4100/7100, or equivalent.

**SOIL 9414. Advanced Soil Fertility. 3 Credits.**

History and application of concepts of fertility and plant nutrition. Prerequisites: Soil Science [SOIL] 7313 and Plant Science [PLNT\_S] 7315 or equivalent, 14 hours of college chemistry and five hours of calculus.

**SOIL 9418. Advanced Environmental Soil Chemistry. 3 Credits.**

(same as Environmental Science [ENV\_SC] 9418). Linking molecular-scale solution-phase and surface reactions with macroscopic chemical processes. Fundamentals of aqueous surface and colloid chemistry will be discussed. Prerequisites: Soil Science [SOIL] 7318 or Geology [GEOL] 7300, and Chemistry [CHEM] 3300.

**SOIL 9422. Pedology. 3 Credits.**

Three one-hour lectures. Detailed study of processes of soil horizonization and current topics in soil genesis including quantitative assessment of spatial and temporal variability and application of GIS in landuse planning. Prerequisites: Soil Science [SOIL] 7320, one statistics course beyond ANOVA.

## South Asia Studies (S\_A\_ST)

---

### **S\_A\_ST 1004. Topics in South Asian Studies. 3 Credits.**

Special topics.

### **S\_A\_ST 1100. Elementary Hindi I. 5 Credits.**

Oral-aural and structural approach. Devanagari script.

### **S\_A\_ST 1152. Asian Humanities. 3 Credits.**

(same as Religious Studies [REL\_ST] 1820, History [HIST] 1820 and Art History and Archeology [AR\_H\_A] 1230). This course is an introduction to the literature and visual arts of Asia through selected master works.

It focuses principally on India and China and investigates the distinctive features of their cultures.

### **S\_A\_ST 1200. Elementary Hindi II. 5 Credits.**

Continuation of South Asian Studies [S\_A\_ST] 1100. Spoken and written Hindi. Prerequisite: grade of C or better in S\_A\_ST 1100.

### **S\_A\_ST 1860. History of Ancient India. 3 Credits.**

(same as History [HIST] 1860). This course surveys the history of South Asian history. The course begins with the Indus Valley Civilization (fl. 2600-1900B.C.) and ends with an analysis of Islamic impact on Indic culture around 1200-1350. Emphasis will be placed on cultural and social history, religion, arts and literature, and the sources used for the study of permodern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

### **S\_A\_ST 1861. History of Modern India. 3 Credits.**

(same as History [HIST] 1861). This course surveys the history of the South Asian subcontinent from the early seventeenth through the twentieth century. Emphasis will be placed on cultural and social history, religion, arts and literature, imperialism and colonialism, and the sources used for the study of modern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

### **S\_A\_ST 1862. History of India: 1000-1750. 3 Credits.**

(Same as History [HIST] 1862) This course surveys the history of the South Asian subcontinent from the eleventh through mid-eighteenth centuries. Emphasis will be placed on cultural and social history, religion, arts and literature, and the sources used to study civilization. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

### **S\_A\_ST 2005. Topics in South Asian Studies-Humanities. 3 Credits.**

Special Topics. May be repeated for credit.

### **S\_A\_ST 2100. Philosophy: East and West. 3 Credits.**

(same as Philosophy [PHIL] 2100). Compares the interpretation and role of philosophical concepts such as experience, reason permanence, change, immortality, soul, God, etc., in Indian, Chinese and European traditions. Prerequisite: sophomore standing.

### **S\_A\_ST 2110. Elementary Hindi III. 3 Credits.**

Continuation of South Asian Studies [S\_A\_ST] 1200. Prerequisite: S\_A\_ST 1100, 1200 or equivalent.

### **S\_A\_ST 2270. Geography of Asia. 3 Credits.**

(same as Geography [GEOG] 2270). An introductory survey of the geography of Asia from India through Southeast Asia to China and Japan, emphasizing factors contributing to cultural similarities and variations, conflicts of interest, and current development. Prerequisites: sophomore standing or one Introductory Geography course.

### **S\_A\_ST 2800. Women in Indian History. 3 Credits.**

(same as History [HIST] 2800). This course examines the role of women in Indian (South Asian) history, focusing on women in British India from the eighteenth century up to the Partition of 1947. While previous knowledge of South Asian history may be beneficial, it is not required for this course.

### **S\_A\_ST 3130. Advanced Hindi Readings I. 4 Credits.**

Directed readings in the literature of the student's area of concentration, and advanced conversation. Prerequisite: instructor's consent.

### **S\_A\_ST 3160. Advanced Hindi Readings II in South Asian Studies. 4 Credits.**

Continuation of South Asian Studies [S\_A\_ST] 3160. Prerequisite: instructor's consent.

### **S\_A\_ST 3200. Hinduism. 3 Credits.**

(same as Religious Studies [REL\_ST] 3200). Origin and development of central themes of traditional Hinduism from earliest times to the modern period. Topics include: the Vedic tradition, rituals and practice, varieties of yoga and meditation, Indian religious thought and devotional Hinduism.

### **S\_A\_ST 3230. Buddhism and Environmental Ethics. 3 Credits.**

(same as Religious Studies [REL\_ST] 3230). Global environmental crisis is associated with rapidly expanding human population. Buddhist teachings about the interdependent aspects of existence and interrelatedness of all life may provide critical insights for how humanity can achieve balance and reciprocity with nature.

### **S\_A\_ST 3240. Buddhism of South and Southeast Asia. 3 Credits.**

(same as Religious Studies [REL\_ST] 3240). Examines the origins of Buddhism in India, the narratives of the life of the Buddha, the development of early Buddhist schools, the extension of Buddhism into Central and Southeast Asia, and the current practice of Buddhism in south and Southeast Asia.

### **S\_A\_ST 3245. Nonviolence in the Modern World. 3 Credits.**

(same as History [HIST] 3840 and Peace Studies [PEA\_ST] 3840). Readings on recent world history, emphasis on Gandhi and nonviolent tradition in America, Europe and the Third World.

### **S\_A\_ST 3260. Southeast Asia. 3 Credits.**

(same as Geography [GEOG] 3260). Physical, cultural, historical and regional geography of Southeast Asia, with an introduction to East Asian geography. Emphasizes the problems of tradition and development. Prerequisite: GEOG 2270 or junior standing.

### **S\_A\_ST 3280. Geography of South Asia. 3 Credits.**

(same as Geography [GEOG] 3280). Topical and regional analysis of India, Pakistan, Sri Lanka. Historical development of distinctive cultural regions. Relations with neighboring areas. Impact of Westernization on economic activities, settlements, population. Prerequisite: junior standing.

### **S\_A\_ST 4004. Topics in South Asian Studies. 3 Credits.**

Special topics.

### **S\_A\_ST 4300. Religious Narratives of South Asia. 3 Credits.**

(same as Religious Studies [REL\_ST] 4300). Study of major narratives of India and their interpretation in literature and art. Topics include: Vedic and Epic mythology, stories of Krishna, myths and images of Shiva, and forms of the Goddess.

### **S\_A\_ST 4620. Politics in India and South Asia. 3 Credits.**

(same as Political Science [POL\_SC] 4620). Contemporary political and governmental patterns of India, Pakistan, Sri Lanka, Nepal, and Bangladesh.

**S\_A\_ST 4630. Sanskrit I. 3 Credits.**

(same as Religious Studies [REL\_ST] 4630). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

**S\_A\_ST 4640. Sanskrit II. 3 Credits.**

(same as Religious Studies [REL\_ST] 4640). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy.

**S\_A\_ST 4790. Culture and Society in South Asia. 3 Credits.**

(same as Anthropology [ANTHRO] 4790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include caste, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian diaspora. Prerequisite: junior standing.

**S\_A\_ST 4800. Asian Philosophy. 3 Credits.**

(same as Philosophy [PHIL] 4800). This course traces the origins of Indian and Chinese philosophical world views. Included are the major ideas in Hindu, Jaina, and Buddhist thought in India, and Taoism and Confucianism in China. Emphasis is placed on the diverse, assimilative, and pragmatic nature of Indian thought and its impact on contemporary Asian philosophy. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**S\_A\_ST 4810. Philosophy of India. 3 Credits.**

(same as Philosophy [PHIL] 4810). General development of Indian Philosophy. Prerequisite: sophomore standing and one course in Philosophy; or instructor's consent.

**S\_A\_ST 4820. Contemporary Indian Philosophy. 3 Credits.**

(same as Philosophy [PHIL] 4820). Indian philosophical traditions as represented in backgrounds of Gandhi, Tagore, Tagore, Tagore, and philosophical systems of Radhakrishnan, Aurobindo, etc. Prerequisite: junior standing.

**S\_A\_ST 4850. Traversing the Muslim World. 3 Credits.**

(same as History [HIST] 4850) The traveler's tale formed an important part of the medieval world's system of knowledge. The writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Buttuta, Benjamin of Tudela and Marco Polo.

**S\_A\_ST 4860. Indian Army as Colonial Army. 3 Credits.**

(same as History [HIST] 4860). This writing intensive discussion-based course examines how the Indian Army acted as a colonial army in the British Empire, including Africa, the Boxer Rebellion, and the World Wars. Focus is on the role of the Indian Army, impact of the Sepoy Mutiny on a martial race ideology.

**S\_A\_ST 7004. Topics in South Asian Studies. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: instructor's consent.

**S\_A\_ST 7200. Religious Texts and Interpretation: The Veda. 3 Credits.**

(same as Religious Studies [REL\_ST] 8200). This course examines the Veda, the foundational scripture of Hinduism. It includes close study of

Vedic texts and rituals and the influence, interpretation, and application of the Veda in the later Hinduism.

**S\_A\_ST 7350. Special Readings in South Asian Studies Languages. 1-6 Credit.**

Individual advanced study of desired South Asian language. Prerequisite: instructor's consent.

**S\_A\_ST 7630. Sanskrit I. 3 Credits.**

(same as Religious Studies [REL\_ST] 7630). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy. Prerequisite: graduate standing.

**S\_A\_ST 7640. Sanskrit II. 3 Credits.**

(same as Religious Studies [REL\_ST] 7640). This course is intended as a "sampler" of Sanskrit literature. We will read Sanskrit texts in the original. The objectives of the course are 1) Expanding the students' knowledge of the Sanskrit language, 2) To acquaint the students with a broad range of textual genres in Sanskrit literature, and 3) To acquaint the students with some central ideas of Hindu and Buddhist philosophy. Prerequisite: graduate standing.

**S\_A\_ST 7700. Religious Narratives of South Asia. 3 Credits.**

(same as Religious Studies [REL\_ST] 7700). Study of major narratives of India and their interpretation in literature and art. Topics include: Vedic and Epic mythology, stories of Krishna, myths and images of Shiva, and forms of the Goddess.

**S\_A\_ST 7790. Cultures and Society in South Asia. 3 Credits.**

(same as Anthropology [ANTHRO] 7790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include cast, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian diaspora. Prerequisite: graduate standing.

**S\_A\_ST 8085. Problems in South Asian Studies. 3 Credits.**

(same as History [HIST] 8085). Prerequisite: instructor's consent.

**S\_A\_ST 9040. Indian Philosophy. 3 Credits.**

Reality, levels of being, status of the world, nature of knowledge in Indian philosophy in relation the Advaita Vedanta system of Samkara.

## Spanish (SPAN)

---

**SPAN 1100. Elementary Spanish I. 5 Credits.**

An introductory course for students who wish to begin their study of Spanish. It teaches the four skills - listening, speaking, reading, and writing. The class meets four days a week and one day in the lab. Classtime is used to practice the structures and vocabulary.

**SPAN 1100H. Elementary Spanish I - Honors. 5 Credits.**

This designated honors section of Elementary Spanish 1100 will challenge students to explore more deeply the currently existing thematic units of the Spanish 1100 curriculum. Students will participate in group discussions, creative projects, independent study and use of authentic written and aural material from primary sources. Honors Spanish 1100 will integrate cultural events outside the classroom such as movies, guest lectures, art exhibits, seminars or concerts as available. Once a semester, Honors Spanish 1100 will meet with Honors Spanish

1200 and 2100 as a cohort group for further intellectual exchange and enrichment. Honors eligibility required. Graded on A/F basis only.

**SPAN 1200. Elementary Spanish II. 5 Credits.**

The second course of the beginning sequence in the continuation of Spanish [SPAN] 1100. It places equal emphasis on the four skills; listening, speaking, reading, and writing. Students who have prior knowledge of Spanish are encouraged to take this course. Prerequisite: Grade of C or better in SPAN 1100 or equivalent. NO credit for both SPAN 1200 and 1250.

**SPAN 1200H. Elementary Spanish II - Honors. 5 Credits.**

This course, designed for students who have taken Spanish 1100 or an equivalent course and enrolled in the Honors College, offers an introduction to the Spanish language and the many cultures it encompasses. Your course work will allow you to develop all four language skills: reading, speaking, listening and writing along with the cultural background necessary to help you to communicate effectively in Spanish. With the honors designation section, the course will allow students to access greater challenges in the existing thematic units in the curriculum through group discussion, creative projects and authentic situations. Prerequisites: grade of C or better in SPAN 1100; Honors eligibility required. Graded on A/F basis only.

**SPAN 1250. Accelerated Beginning Spanish. 5 Credits.**

Course is designed for students who have taken more than two years of High School Spanish. It offers a reinforcement of the beginning concepts of the Spanish language and the many cultures it encompasses. Course allows students to further develop all language skills. NO credit for both Spanish [SPAN] 1200 and 1250.

**SPAN 2001. Undergraduate Topics in Spanish-General. 1-3 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with consent of department. Prerequisite: Spanish [SPAN] 1200 with a grade of C or better.

**SPAN 2005. Undergraduate Topics in Spanish-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with consent of department. Prerequisite: Spanish [SPAN] 1200 with a grade of C or better.

**SPAN 2100. Elementary Spanish III. 3 Credits.**

A multi-skill course following Spanish [SPAN] 1200, centering on cultural/literary readings, and including a grammar review, practice in the spoken language, as well as some practice in written expression. Prerequisite: grade of C or better in SPAN 1200 or 1250, or their equivalent courses.

**SPAN 2100H. Elementary Spanish III - Honors. 3 Credits.**

A multi-skill course following Spanish [SPAN] 1200, centering on cultural/literary readings, and including a grammar review, practice in the spoken language, as well as some practice in written expression. The course seeks to improve student's fluency in Spanish and to expose them to the many cultures it encompasses. This course will integrate cultural events outside the classroom as well such as movies, guest lectures, art exhibits, seminars or concerts as available. Prerequisite: grade of C or better in SPAN 1200 or 1250, or their equivalent courses. Honors eligibility required. Graded on A/F basis only.

**SPAN 2160. Intermediate Spanish Composition and Conversation. 3 Credits.**

First course following required elementary sequence. Designed specifically to correct any remaining weaknesses in gross writing skills and to develop further conversational ability with equal emphasis on

both of these aspects. Classwork involves written compositions and oral presentations. Prerequisites: Spanish [SPAN] 2100 or equivalent.

**SPAN 2160H. Intermediate Spanish Composition and Conversation - Honors. 3 Credits.**

First course following required elementary sequence. Designed specifically to correct any remaining weaknesses in gross writing skills and to develop further conversational ability with equal emphasis on both of these aspects. Classwork involves written compositions and oral presentations. Prerequisites: SPAN 2100 or equivalent. Honors eligibility required.

**SPAN 2310. Spanish Civilization. 3 Credits.**

Survey of Spanish history, arts and culture. Open to any student interested. No knowledge of Spanish required. May not be included in area of concentration in Spanish.

**SPAN 2320. Spanish Literature in Translation. 3 Credits.**

(same as Peace Studies [PEA\_ST] 2320). May not be included in area of concentration in Spanish. Subject, such as the literature of the Spanish Civil War, varies with instructor. Prerequisite: sophomore standing.

**SPAN 2330. Latin American Civilization. 3 Credits.**

Survey of Latin American history, arts and culture. Open to any student interested. No knowledge of Spanish required. May not be included in area of concentration in Spanish.

**SPAN 2340. Hispanic Minority Literature. 3 Credits.**

This course studies the literature of Hispanic minorities in the United States: Chicanos (Mexican American), Mainland Puerto Ricans, and Cuban exile writers. It explores the question of minority versus majority literatures and the creation of a Hispanic minority discourse. No knowledge of Spanish required. Prerequisite: English [ENGLSH] 1000.

**SPAN 3001. Topics in Spanish-General. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing. Departmental consent for repetition.

**SPAN 3004. Topics in Spanish-Social Science. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing. Departmental consent for repetition.

**SPAN 3005. Topics in Spanish-Humanities/Fine Arts. 1-3 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: sophomore standing. Departmental consent for repetition.

**SPAN 3150. Advanced Spanish Conversation. 3 Credits.**

Course puts into practice the linguistic skills learned at intermediate levels. It develops and increases the capacity for comprehension and oral expression in the language. Focus is on practice of certain syntactic structures and idiomatic expressions, and on acquisition of new vocabulary. Prerequisite: Spanish [SPAN] 2160 or equivalent.

**SPAN 3160. Advanced Spanish Composition. 3 Credits.**

Course emphasizes writing at an advanced level, with a certain degree of sophistication about varied subjects and using different techniques of composition. Classwork consists mainly of the discussion of both the ideas and techniques used in different textual forms. Prerequisite: Spanish [SPAN] 2160 or equivalent.

**SPAN 3170. Conversational Spanish Practice. 3 Credits.**

Study Abroad Conversational Spanish course for students who have already completed 3150, but want more practice. Does not count for

majors/minors. Prerequisite: Spanish [SPAN] 3150 and instructor's consent. Graded on A/F basis only.

**SPAN 3280. Commercial Spanish. 3 Credits.**

Business terminology and forms. Translate and compose business letters and documents for advertising and promotion, trade and commerce, imports and exports, money and banking. Prerequisite: Spanish [SPAN] 2160 or equivalent.

**SPAN 3400. Mexican Culture and Civilization. 2-3 Credit.**

Study of Mexican culture and civilization through field trips, excursions and selected readings in Mexican history and literature. No knowledge of Spanish required. Open only to participants in UMC's study programs in Mexico. Prerequisites: sophomore standing or instructor's consent.

**SPAN 3420. Introduction to Hispanic Literature I. 3 Credits.**

Selected prose fiction and nonfiction prose of Spain and Spanish America. Prerequisite: Spanish [SPAN] 3160 or equivalent.

**SPAN 3430. Introduction to Hispanic Literature II. 3 Credits.**

Selected plays and poetry of Spain and Spanish America. Prerequisite: Spanish [SPAN] 3160 or equivalent.

**SPAN 3710. Survey of Minority & Creole Languages of the U.S. & the Caribbean. 3 Credits.**

(same as French [FRENCH] 3710 and Linguistics [LINGST] 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers' attitudes toward them in the context of ethnic, culture and national identity (taught in Eng.). Prerequisite: sophomore standing.

**SPAN 3721. Spanish Phonetics. 3 Credits.**

(same as Linguistics [LINGST] 3721). Introductory course to the study of Spanish phonological, phonetic and spelling systems, practice of pronunciation, phonetic transcriptions, and introduction to the variation of Spanish pronunciation in the Hispanic world. The course is conducted in Spanish. Prerequisite: Spanish [SPAN] 2160 or equivalent.

**SPAN 4070. Intensive Beginning Spanish. 3 Credits.**

Designed for rapid acquisition of a reading knowledge of Spanish. Cannot be taken to fulfill undergraduate language requirement. Prerequisite: instructor's consent.

**SPAN 4120. Foreign Language Teaching Methodology. 3 Credits.**

(same as French [FRENCH] 4120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. Prerequisite: department consent. May not be used towards Arts & Science major.

**SPAN 4130. Stylistics. 3 Credits.**

Advanced composition class. Discussion of complex grammatical structures necessary for formal writing. Examination of stylistic devices and structures beyond sentence level, in order to learn to organize discourse level production. Prerequisite: Spanish [SPAN] 2160 or equivalent. Recommended: SPAN 3420 and 3430.

**SPAN 4410. Spanish Medieval Literature. 3 Credits.**

The principal periods, schools, and genres of Spanish medieval literature are surveyed through representative masterworks. Lectures and periodic student reports help relate works read to the rest of contemporary Spanish and European literature. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4420. Golden Age Poetry. 3 Credits.**

Poetry of the principal Spanish poets of the 16th and 17th centuries and of literary criticism devoted to it. Special emphasis is placed on the works of Garcilaso de la Vega, Fray Luis de Leon, among others. Short papers and explications are generally required. Prerequisite: Spanish [SPAN] 3420 and 3430.

**SPAN 4421. Renaissance and Golden Age Prose. 3 Credits.**

Representative prose works from various genres are read as well as literary criticism devoted to them. Among the authors studied are Fernando de Rojas, Jorje Montemayor, Miguel de Cervantes, Francisco de Quevedo, and Maria de Zayas. Prerequisite: Spanish [SPAN] 3420 and 3430.

**SPAN 4422. Spanish Theatre in the Golden Age. 3 Credits.**

Dramatists to be studied include Lope de Vega, Calderon, Ruiz de Alarcon, Tirso de Molina, Guillen de Castro, Velez de Guevara, and some of Cervantes' theatre. Prerequisite: Spanish [SPAN] 3420 and 3430.

**SPAN 4423. Don Quijote. 3 Credits.**

In this course students read the two parts of Don Quijote in the original Spanish. Analysis and class discussion highlight elements of literary interest. Neo-positivist methodology, factual background, formalist considerations and psychoanalytic approaches are used in this course. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4441. Twentieth-Century Spanish Novel. 3 Credits.**

Reading and critical analysis of representative novels written in Spain from early century to the post-Franco period. The objectives of the course are to develop critical skills in dealing with these fictional works and to understand the major trends of the contemporary Spanish novel. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4442. Advanced Contemporary Culture of Spain. 3 Credits.**

Study of Spanish culture and civilization through field trips, excursions, and selected readings in history, literature, and contemporary print media. Prerequisite: Spanish [SPAN] 3150, 3160, 3721 or equivalent. Open only to participants in the UMC's summer study in Spain.

**SPAN 4450. Hispanic Literature of Resistance. 3 Credits.**

A study of the literature of commitment in the Hispanic world: literature in its historical and political contexts that makes a conscious effort to change social conditions. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4460. Advanced Contemporary Culture of Spanish America. 3 Credits.**

A study of Spanish-American culture and civilization through selected readings in history and literature, and the use of visual media. Graded on A/F basis only. Prerequisites: Spanish [SPAN] 3150 and 3160.

**SPAN 4461. Advanced Spanish Civilization. 3 Credits.**

A survey of Spanish culture and Spanish history from the Middle Ages to the present with special emphasis on contemporary culture. Students will be provided with knowledge of chronology, geography and contemporary issues from readings of journals, novels and Internet news. Prerequisites: Spanish [SPAN] 3150 and 3160.

**SPAN 4470. Survey of Spanish American Literature I. 3 Credits.**

This is an introductory course in Spanish American literature. The reading material in prose and verse is studied in chronological order from the early 16th to the early 20th century. Readings include selections from 22 major Spanish American authors. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4471. Survey of Spanish American Literature II. 3 Credits.**

Survey of contemporary Latin American literature from approximately 1910 to the present. Close analysis and reading of representative major texts of Latin American literature. Students read complete selections and short excerpts from a standard anthology, and three complete novels. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4480. Mexican Literature. 3 Credits.**

Analysis of selected poetry, prose, and drama of contemporary Mexico. Course examines the writings of major and minor figures from several critical perspectives. Works by Agustin, Aviles, Fabila, Carballido, Castellanos, Fuentes, Paz, and others are read. Prerequisites: SPAN 3420 and 3430.

**SPAN 4490. Hispanic Oral Traditions. 3 Credits.**

This course proposes to examine the Hispanic Oral Tradition through a study of romances and related genres, the corrido, decima and folktale. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4520. Modernista and Contemporary Poetry. 3 Credits.**

Careful study and analysis of selected poems by major figures in Hispanic poetry. The period covered includes the modernist movement to the present. Particular attention is given to the following figures: Ruben Dario, Octavio Paz, Pablo Neruda, and Nicolas Guillen. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4530. The Spanish American Theatre. 3 Credits.**

Intended as an overview of a vital genre in contemporary Spanish American studies, this survey introduces dramatists whose works are the focus of increasing attention from international specialists. The works of Emilio Carballido, Egon Wolff, Griselda Gambaro and Osvald Dragun, among others are discussed. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4540. Afro-Hispanic Literature. 3 Credits.**

A study of prose, poetry, and drama, in Spanish, written by authors of African descent in the Americas. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4550. Nobel Laureates in Spanish American Literature. 3 Credits.**

Analyzes the creative expression of five Nobel laureates from Spanish America. Selected works of Gabriela Mistral, Pablo Neruda, Miguel Angel Asturias, Octavio Paz and Gabriel Garcia Marquez are read in relation to contemporary theory. Prerequisites: Spanish [SPAN] 3420 and 3430.

**SPAN 4711. History of the Spanish Language. 3 Credits.**

(same as Linguistics [LINGST] 4711). Diachronic analysis of phonological, morphological, and syntactical systems of Spanish, from Vulgar Latin to contemporary dialects. Prerequisite: Completed with passing grade any Linguistics course 3000 or above or by consent of instructor. Recommended: Spanish [SPAN] 3420 and 3430.

**SPAN 4721. Structure of Modern Spanish. 3 Credits.**

(same as Linguistics [LINGST] 4721). Synchronic analysis of phonology, morphology and syntax of spoken Spanish dialects. Prerequisites: four 3000-level courses in Spanish.

**SPAN 4722. Spanish Across the Continents. 3 Credits.**

(same as Linguistics [LINGST] 4722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Graded on A/F basis only. Prerequisites: four 3000-level courses in Spanish.

**SPAN 4723. Language and Society: Spanish in the U.S.. 3 Credits.**

(same as Linguistics [LINGST] 4723). This class surveys linguistic and social issues pertaining to Spanish in the U.S. (past, present and future). Topics include bilingualism, code switching (a.k.a. Spanglish), first language attrition, linguistic identity, and the role of Spanish in education, services and media. Graded on A/F basis only. Prerequisites: four 3000-level courses in Spanish.

**SPAN 4940. Service Learning in Spanish. 1 Credit.**

(same as Romance Languages [RM\_LAN] 4940). Course offers our majors and advanced minors the opportunity to use their language skills in real-life community settings. Graded on S/U basis only. Does not meet A&S general education requirements. May be repeated once for credit. Prerequisites: junior or senior standing and departmental consent.

**SPAN 4960. Special Readings in Spanish. 1-3 Credit.**

Independent study through readings, conferences, reports. Prerequisites: Spanish [SPAN] 3420 and 3430 and departmental consent.

**SPAN 4980. Special Themes in Spanish. 3 Credits.**

Subject varies according to instructor. Prerequisites: Spanish [SPAN] 3420 and 3430. May be repeated for credit.

**SPAN 4993. The Capstone Experience in Spanish. 3 Credits.**

This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in Spanish, and the ability to think critically and analytically.

**SPAN 7004. Topics in Spanish-Social Science. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Prerequisite: graduate standing, departmental consent for repetition.

**SPAN 7120. Foreign Language Teaching Methodology. 3 Credits.**

(same as French [FRENCH] 7120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. Prerequisite: graduate standing or departmental consent. May not be used towards Arts & Science major.

**SPAN 7130. Stylistics. 3 Credits.**

Prerequisite: Spanish [SPAN] 3160. Recommended: SPAN 3420 and 3430.

**SPAN 7410. Spanish Medieval Literature. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7420. Golden Age Poetry. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7421. Renaissance and Golden Age Prose. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7422. Spanish Theatre in the Golden Age. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7423. Don Quijote. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7441. Twentieth-Century Spanish Novel. 3 Credits.**

Prerequisites: graduate standing Spanish [SPAN] 3420 and 3430.

**SPAN 7442. Advanced Contemporary Culture of Spain. 3 Credits.**

Study of Spanish culture and civilization through field trips, excursions, and selected readings in history, literature, and contemporary print media. Prerequisite: graduate standing and Spanish [SPAN] 3150, 3160, 3721

or equivalent. Open only to participants in the UMC's summer study in Spain.

**SPAN 7450. Hispanic Literature of Resistance. 3 Credits.**

A study of the literature of commitment in the Hispanic world: literature in its historical and political contexts that makes a conscious effort to change social conditions. Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7460. Advanced Contemporary Culture of Spanish America. 3 Credits.**

A study of Spanish-American culture and civilization through selected readings in history and literature, and the use of visual media. Graded on A/F basis only. Prerequisites: Spanish [SPAN] 3150 and 3160.

**SPAN 7461. Advanced Spanish Civilization. 3 Credits.**

A survey of Spanish culture and Spanish history from the Middle Ages to the present with special emphasis on contemporary culture. Students will be provided with knowledge of chronology, geography and contemporary issues from readings of journals, novels and Internet news. Prerequisites: graduate standing and Spanish [SPAN] 3150 and 3160.

**SPAN 7470. Survey of Spanish American Literature I. 3 Credits.**

From beginning to 1880. Prerequisites: graduate standing Spanish [SPAN] 3420 and 3430.

**SPAN 7471. Survey of Spanish American Literature II. 3 Credits.**

From 1880 to present. Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7480. Mexican Literature. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7490. Hispanic Oral Traditions. 3 Credits.**

This course proposes to examine the Hispanic Oral Tradition through a study of romances and related genres, the corrido, decima and folktale. Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7520. Modernista and Contemporary Poetry. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7530. The Spanish American Theatre. 3 Credits.**

Prerequisites: graduate standing and Spanish [SPAN] 3420 and 3430.

**SPAN 7540. Afro-Hispanic Literature. 3 Credits.**

A study of prose, poetry, and drama, in Spanish, written by authors of African descent in the Americas. Prerequisites: graduate standing Spanish [SPAN] 3420 and 3430.

**SPAN 7550. Nobel Laureates in Spanish American Literature. 3 Credits.**

Analyzes the creative expression of five Nobel laureates from Spanish America. Selected works of Gabriela Mistral, Pablo Neruda, Miguel Angel Asturias, Octavio Paz and Gabriel Garcia Marquez are read in relation to contemporary theory. Prerequisites: graduate standing.

**SPAN 7711. History of the Spanish Language. 3 Credits.**

(same as Linguistics [LINGST] 7711). Diachronic analysis of phonology, morphology, and syntax from Vulgar Latin to modern period. Prerequisite: completed with passing grade any Linguistic course 3000 or above or by instructor's consent.

**SPAN 7721. Structure of Modern Spanish. 3 Credits.**

(same as Linguistics [LINGST] 7721). Synchronic analysis of phonology, morphology and syntax of spoken Spanish dialects. Prerequisites: graduate standing; four 3000-level courses in Spanish.

**SPAN 7722. Spanish Across the Continents. 3 Credits.**

(same as Linguistics [LINGST] 4722). This course focuses on the effects of migratory movements on language change, considering the Spanish spoken in Latin America, Puerto Rico, Spain and the USA. The class sharpens awareness and recognition of the linguistic diversity of the Spanish-speaking regions of the world. Prerequisite: four 3000-level courses in Spanish. Graded A-F only. Graduate Standing Required.

**SPAN 7723. Language and Society: Spanish in the US. 3 Credits.**

This class surveys linguistic and social issues pertaining to Spanish in the US (past, present and future). Topics include bilingualism, code switching (a.k.a. Spanglish), first language attrition, linguistic identity, and the role of Spanish in education, services and media. Prerequisites: four 3000-level courses in Spanish. Graded A-F only. Graduate standing required.

**SPAN 7960. Special Readings in Spanish. 1-3 Credit.**

Independent study through readings, conferences, reports. Prerequisites: departmental consent.

**SPAN 7980. Special Themes in Spanish. 3 Credits.**

Subject varies according to instructor.

**SPAN 7993. The Capstone Experience in Spanish. 3 Credits.**

Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in Spanish, and the ability to think critically and analytically.

**SPAN 8080. Readings in Spanish. 1-99 Credit.**

Independent readings in preparation for MA or MALT comprehensive examination in Spanish. Graded on A/F basis only.

**SPAN 8085. Problems in Spanish. 1-99 Credit.**

Prerequisite: graduate standing.

**SPAN 8087. Seminar in Spanish. 2-3 Credit.**

Subject varies according to instructor. Prerequisite: graduate standing.

**SPAN 8090. Research in Spanish. 1-99 Credit.**

Leads to preparation of MA or MALT thesis. Graded on S/U basis only.

**SPAN 8120. Bilingualism and Language Contact. 3 Credits.**

(same as French [FRENCH] 8120 and Linguistics [LINGST] 8120). Global analysis of the study of Bilingualism from a combined sociocultural, sociolinguistic and psycholinguistic perspective based on current research and examination of various phenomena of language contact (taught in Eng.). Prerequisite: graduate standing.

**SPAN 8412. Studies in Spanish Literature of the Medieval Period. 3 Credits.**

Prerequisite: graduate standing. Recommended Spanish [SPAN] 8460.

**SPAN 8415. Studies in Spanish Literature of the Renaissance. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8416. Studies in Spanish Literature in the Golden Age. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8419. Studies in Nineteenth-Century Spanish Literature. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8420. Studies in Twentieth-Century Spanish Literature. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8427. Studies in Colonial Spanish American Literature. 3 Credits.**

Analysis of seminal literary and "Historical" texts interpreting the Encounter, Conquest and Colonization of Spanish America.

**SPAN 8431. Studies in Spanish-American Fiction. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8433. Studies in Latin American Literature. 3 Credits.**

Prerequisite: graduate standing.

**SPAN 8460. Old Spanish--Phonology, Morphology and Syntax. 3 Credits.**

Prerequisite: knowledge of Latin, to be demonstrated by passing departmental written examination or by completing Latin [LATIN] 7110 with grade of B or better.

**SPAN 9080. Readings in Spanish. 3-6 Credit.**

Independent readings in preparation for Ph.D. comprehensive examination in Spanish.

**SPAN 9090. Research in Spanish. 1-99 Credit.**

Leads to preparation of PhD dissertation in Spanish. Graded on S/U basis only.

## **Special Education (SPC\_ED)**

---

**SPC\_ED 3300. Special Readings in Special Education. 1-3 Credit.**

Directed study of literature and research reports in special education.

**SPC\_ED 3310. Aiding: Special Education. 1-3 Credit.**

Supervised observational and instructionally-related activities in special education.

**SPC\_ED 3500. Student Teaching in Special Education. 1-99 Credit.**

Ten-week, full-time placement in Special Education classroom; field-based opportunity for the application of competencies developed in initial certification area(s). Prerequisite: advisor's consent.

**SPC\_ED 4020. Inquiry into Learning II. 3 Credits.**

Inquiring into Learning II addresses topics in the foundations of pedagogy including classroom management, behavior management, and students with special needs. Prerequisite: Progression into Phase II. Graded on A/F basis only.

**SPC\_ED 4300. Introduction to Special Education. 3 Credits.**

Introductory overview of the field of special education; historical developments, characteristics of special populations, and compliance with state and federal regulations.

**SPC\_ED 4305. Introduction to Special Education for Regular Educators. 3 Credits.**

Introduction to the field of special education for other majors; survey of exceptionalities with emphasis on the mainstreaming exceptional students.

**SPC\_ED 4310. Behavioral Management for Exceptional Students. 3 Credits.**

Study of classroom management and applied behavior analysis strategies. Focus on teacher as decision-maker in the design, implementation, evaluation of individual and group management programs. Prerequisite: Special Education [SPC\_ED] 4300.

**SPC\_ED 4320. Assessment and Evaluation in Special Education. 3 Credits.**

Procedures and instruments used in the assessment of individual with disabilities, including standardized and non-standardized measures of intellectual ability, academic achievement, oral language, social/emotional behaviors, career/vocational needs. Prerequisite: Special Education [SPC\_ED] 4300.

**SPC\_ED 4325. Language Development of Exceptional Students. 3 Credits.**

Study of language and communication issues and disorders in special education; normal and atypical language development; language assessment and intervention models and programs. Prerequisite: Special Education [SPC\_ED] 4300.

**SPC\_ED 4330. Collaboration and Consultation in Special Education. 3 Credits.**

Study of communication, problem-solving, collaboration strategies. Application of strategies to work with exceptional students, their families, other professional members of interdisciplinary, interagency teams. Prerequisites: Special Education [SPC\_ED] 4300.

**SPC\_ED 4370. Literacy in Special Education. 3 Credits.**

Addresses specific literacy needs of special needs students with a focus on assessment and instruction for special needs students in regular classrooms. Pre/co-requisite: Special Education [SPC\_ED] 4300, Literacy Methods.

**SPC\_ED 4371. Literacy in Special Education II. 3 Credits.**

Advanced study in literacy methods and research for students with disabilities. Graded on A/F basis only. Prerequisites: Special Education [SPC\_ED] 4370 or 7370.

**SPC\_ED 4375. Cross Categorical Special Education. 3 Credits.**

Study of characteristics of students with cross categorical disabilities and other pertinent issues including inclusion, assessment, and evaluation practices. Prerequisite: professional standing in Phase II.

**SPC\_ED 4380. Methods in Cross-Categorical Special Education. 4 Credits.**

This course is designed to provide students with research-based instructional and behavior management methods for use with student with cross-categorical disabilities. Prerequisites: professional standing in Phase II, Special Education [SPC\_ED] 4375, 4940.

**SPC\_ED 4390. Methods in Vocational Education for the Disabled and Disadvantaged. 2-3 Credit.**

(same as Learning, Teaching and Curriculum-Vocational [LTC\_V] 4770). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities. Prerequisite: Special Education [SPC\_ED] 4300.

**SPC\_ED 4401. Topics in Special Education. 3 Credits.**

In-depth study of certain developments, findings, trends and issues in one or more areas of special education.

**SPC\_ED 4940. Cross-Categorical Special Education: Practicum I. 1-4 Credit.**

Involvement in meaningful field-based activities that extend and/or apply content information from Special Education [SPC\_ED] 4375. Pre/co-requisites: SPC\_ED 4375, professional standing in Phase II.

**SPC\_ED 4941. Practicum in Cross-Categorical II. 3 Credits.**

The purpose of this course is to provide students with experience in applying the content of Special Education [SPC\_ED] 4380 (i.e. assessment and intervention strategies for use with students with cross categorical disabilities). Prerequisites: SPC\_ED 4375 and 4940. Pre/co-requisites: SPC\_ED 4380. This course may be repeated for credit.

**SPC\_ED 4972. Capstone Seminar and Portfolio in Special Education. 1 Credit.**

Students in final student teaching internship will meet weekly to examine and compare their internship experiences. Analysis, synthesis, evaluation and problem solving are the focus of the examination of various aspects of pedagogy and experience. Additionally, students will develop and submit for scoring their State mandated certification portfolio. Prerequisites: Learning, Teaching and Curriculum [LTC] 4971, concurrent enrollment in final semester of student teaching internship.

**SPC\_ED 7020. Foundation of Teacher Prep II. 3 Credits.**

Addresses topics in the foundations of pedagogy including classroom management, behavior management, and students with special needs. Graduate project required. Prerequisite: Education, School and Counseling Psychology [ESC\_PS] 7000. Graded on A-F basis only.

**SPC\_ED 7300. Introduction to Special Education. 3 Credits.**

Introductory overview of the field of special education; historical developments, characteristics of special populations, and compliance with state and federal regulations. Prerequisite: graduate standing.

**SPC\_ED 7305. Introduction to Special Education for Regular Educators. 3 Credits.**

Introduction to the field of special education for other majors; survey of exceptionalities with emphasis on the mainstreaming exceptional students. Prerequisite: graduate standing.

**SPC\_ED 7310. Behavioral Management for Exceptional Students. 3 Credits.**

Study of classroom management and applied behavior analysis strategies. Focus on teacher as decision-maker in the design, implementation, evaluation of individual and group management programs. Prerequisite: graduate standing and Special Education [SPC\_ED] 4300.

**SPC\_ED 7320. Assessment and Evaluation in Special Education. 3 Credits.**

Procedures and instruments used in the assessment of individual with disabilities, including standardized and non-standardized measures of intellectual ability, academic achievement, oral language, social/emotional behaviors, career/vocational needs. Prerequisite: graduate standing and Special Education [SPC\_ED] 4300.

**SPC\_ED 7325. Language Development of Exceptional Students. 3 Credits.**

Study of language and communication issues and disorders in special education; normal and atypical language development; language assessment and intervention models and programs. Prerequisite: graduate standing and Special Education [SPC\_ED] 4300.

**SPC\_ED 7330. Collaboration and Consultation in Special Education. 3 Credits.**

Study of communication, problem-solving, collaboration strategies. Application of strategies to work with exceptional students, their families, other professional members of interdisciplinary, interagency teams. Prerequisites: graduate standing and Special Education [SPC\_ED] 4300.

**SPC\_ED 7370. Literacy in Special Education. 3 Credits.**

Addresses specific literacy needs of special needs students with a focus on assessment and instruction for special needs students in regular classrooms. Pre co-requisite: graduate standing and Special Education [SPC\_ED] 4300, Literacy Methods.

**SPC\_ED 7371. Literacy in Special Education II. 3 Credits.**

Advanced study in literacy methods and research for students with disabilities. Graded A-F only. Prerequisites: Special Education [SPC\_ED] 4370 or 7370.

**SPC\_ED 7375. Cross Categorical Special Education. 3 Credits.**

Study of characteristics of students with cross categorical disabilities and other pertinent issues including inclusion, assessment, and evaluation practices. Prerequisite: graduate standing and professional standing in Phase II.

**SPC\_ED 7380. Methods in Cross-Categorical Special Education. 4 Credits.**

This course is designed to provide students with research-based instructional and behavior management methods for use with student with cross-categorical disabilities. Prerequisites: graduate standing and professional standing in Phase II, Special Education [SPC\_ED] 4375, 4940.

**SPC\_ED 7390. Methods in Vocational Education for the Disabled & Disadvantaged. 2-3 Credit.**

(same as Learning, Teaching and Curriculum-Vocational [LTC\_V] 7770). Study of legislation, interagency cooperation, curriculum, transition, evaluation/grading role of support personnel. For educators, counselors and administrators working in vocational settings with special needs students and students with disabilities. Prerequisite: graduate standing and Special Education [SPC\_ED] 4300.

**SPC\_ED 7401. Topics in Special Education. 3 Credits.**

In-depth study of certain developments, findings, trends and issues in one or more areas of special education. Prerequisite: graduate standing.

**SPC\_ED 7940. Cross-Categorical Special Education: Practicum I. 3 Credits.**

Involvement in meaningful field-based activities that extend and/or apply content information from Special Education [SPC\_ED] 4375. Pre/co-requisites: graduate standing and SPC\_ED 4375, professional standing in Phase II.

**SPC\_ED 7941. Practicum in Cross-Categorical II. 3 Credits.**

The purpose of this course is to provide students with experience in applying the content of Special Education [SPC\_ED] 4380 (i.e. assessment and intervention strategies for use with students with cross categorical disabilities). Prerequisites: graduate standing and SPC\_ED 4375 and 4940. Pre/co-requisites: SPC\_ED 4380. This course may be repeated for credit.

**SPC\_ED 8085. Problems in Special Education. 1-99 Credit.**

Prerequisite: instructor's consent.

**SPC\_ED 8090. Masters Thesis Research Hours. 3 Credits.**

Restricted to students enrolled in the graduate program. Graded S/U only.

**SPC\_ED 8210. Using Assessment to Guide Instruction. 3 Credits.**

This course is designed to present information on the evaluation of individual student skills and the effects of instruction on those skills. Prerequisite: graduate standing. Graded on A/F basis only.

**SPC\_ED 8220. School-Wide Positive Behavior Support. 3 Credits.**

Overview of theory, research, and methods related to establishing a system of positive behavior support in schools. Prerequisite: graduate standing. Graded on A/F basis only.

**SPC\_ED 8287. Professional Seminar in Special Education. 1 Credit.**

Designed to provide overview of Special Education, COE program requirements, and general graduate student expectations. Students STRONGLY encouraged to take course first semester in graduate program. Graded on S/U basis only. Prerequisites: acceptance into a master's degree program.

**SPC\_ED 8300. Students with Behavioral Disorders. 4 Credits.**

Study of characteristics of students with behavioral disorders as they relate to best practices for assessment, instruction, and intervention. Prerequisites: Special Education [SPC\_ED] 4300 and instructor's consent.

**SPC\_ED 8310. Students With Learning Disabilities. 4 Credits.**

Study of characteristics of students with learning disabilities as they relate to best practices for assessment, instruction, and intervention. Prerequisites: Special Education [SPC\_ED] 4300 and instructor's consent.

**SPC\_ED 8340. Advanced Studies in Developmental Disabilities. 3 Credits.**

Current theories and practices and their historic roots through examination of empirical and descriptive literature. Prerequisite: admission to graduate study and instructor's consent.

**SPC\_ED 8345. Trends and Issues in Special Education. 3 Credits.**

A study of the historical developments and related trends, issues and problems associated with the education of exceptional students. Prerequisites: admission to graduate study and instructor's consent.

**SPC\_ED 8350. Research with Exceptional Children. 3 Credits.**

Explores significant, historical, and current research in special education. Emphasizes the application of research, methodology, and findings relative to problems facing the practitioner. Prerequisites: instructor's consent.

**SPC\_ED 8353. Advanced Studies: Single Subject Design. 3 Credits.**

The course is for advanced graduate students in special education, k psychology, related fields and includes behavioral measurement, single subject research designs, data analysis methods, critical analysis and evaluation of single subject research and research proposal. Prerequisite: graduate standing and instructor's consent, Graded on A/F basis only.

**SPC\_ED 8355. Grant Writing. 3 Credits.**

Preparation of research, demonstration, training, or other grant proposals meeting the criteria for competitive funding by a federal agency; review and evaluation of proposals. Prerequisite: admission to graduate study and instructor's consent.

**SPC\_ED 8360. Special Education Administration. 3 Credits.**

Principles, protective safeguards, and general practices associated with the organization and administration of special education; legal foundations for special education; selection, training, and supervision of personnel. Prerequisite: instructor's consent.

**SPC\_ED 8365. Research Design in Special Education. 3 Credits.**

Overview of professional writing and intermediate research applications with a focus on knowledge and skills needed for higher level doctoral work in statistics and research design. Prerequisites: Educational School and Counseling Psychology [ESC\_PS] 4170 or equivalent, Special Education [SPC\_ED] 8150 or equivalent, and instructor's consent.

**SPC\_ED 8370. Foundations I: History, Law and Policy in Special Education. 3 Credits.**

The changing concept of disability will be viewed from the perspectives of history, legal issues, and policy traced from early Greek and European periods through contemporary times. Prerequisites: graduate standing and instructor's consent.

**SPC\_ED 8375. Foundations II: Pedagogical Theories in Special Education. 3 Credits.**

A study of theories of teaching as they apply to special education with emphases on empirically based practices, historical trends, current theories, and the relationship between theories of learning and teaching. Prerequisite: graduate standing and instructor's consent.

**SPC\_ED 8380. Nature and Needs of Gifted and Talented Students. 3 Credits.**

A conceptual and empirical examination for educational personnel of student identification procedures, special populations, programming issues, research topics and teacher competencies. Prerequisite: instructor's consent.

**SPC\_ED 8387. Seminar in Special Education. 1-3 Credit.**

Prerequisite: instructor's consent.

**SPC\_ED 8391. Curriculum Methods for Gifted and Talented Students. 3 Credits.**

A theoretical examination for educational personnel of specific instructional approaches including structure of intellect, enrichment triad, empirical research, and creative problem solving. Prerequisites: Special Education [SPC\_ED] 8380 or instructor's consent.

**SPC\_ED 8400. Affective Development of Gifted Students. 3 Credits.**

Psychosocial development of gifted students; theories, and practices in affective development; strategies to develop positive self-concept, successful coping strategies, and effective peer relationships by gifted students. Prerequisite: Special Education [SPC\_ED] 8380 or instructor's consent.

**SPC\_ED 8405. Assessment and Evaluation in Gifted Education. 3 Credits.**

Seminar focuses on practices for identifying students for gifted education programs, evaluation models applicable to school programs and strategies for grading and evaluation of gifted students. Prerequisite: Special Education [SPC\_ED] 8380 or instructor's consent.

**SPC\_ED 8406. Differentiating Instruction: Reaching Gifted, Typical and Struggling Learners. 3 Credits.**

Explores various instructional approaches to help meet the learning needs of a range of learners from gifted through struggling and at-risk students. Prerequisite: Introduction to Special Education; graduate standing; instructor's consent. Graded on A/F basis only.

**SPC\_ED 8440. Advanced Behavior Management: Applied Behavior Analysis. 3 Credits.**

This course will provide graduate students with advanced theory and knowledge in behavior management. Emphasis will be placed on understanding and using the principles of applied behavior analysis. Prerequisite: Special Education [SPC\_ED] 4310 and instructor's consent.

**SPC\_ED 8455. Advanced Studies in Behavioral Disorders. 3 Credits.**

Contemporary issues a historical perspective; theoretical perspectives or models which guide research, policy, and intervention approaches. Prerequisite: admission to graduate study and instructor's consent.

**SPC\_ED 8470. Advanced Literacy in Special Education. 3 Credits.**

Study of literacy assessment and instruction methods specific to special education; formal and informal assessment: language and instructional strategies to improve literacy for students with disabilities. Prerequisites: Special Education [SPC\_ED] 4300, Literacy Methods. Graduate standing required.

**SPC\_ED 8475. Advanced Studies in Learning Disabilities. 3 Credits.**

Major current issues, trends, and controversies in learning disabilities; theories, research, and practices in learning disabilities. Prerequisite: admission to graduate study and instructor's consent.

**SPC\_ED 8485. Introduction and Methods of Early Intervention. 3 Credits.**

This course will enhance individual knowledge and skills necessary to design, implement, and evaluate research-based strategies and practices in home and center-based programs for infants and toddlers with disabilities, consistent with the philosophical and legal requirements of IDEA Part C.

**SPC\_ED 8490. Assessment in Early Childhood Special Education. 3 Credits.**

Procedures and instruments used in assessment of children with special needs, including screening, diagnosis, interpretation of diagnostic findings, and application to instructional plans. Prerequisite: Special Education [SPC\_ED] 8375.

**SPC\_ED 8495. Introduction and Methods of Early Childhood Special Education. 2-3 Credit.**

This course will enhance individual knowledge and skills necessary to design, implement, and evaluate research-based strategies and practices in community or public school integrated programs for preschools with disabilities, consistent with the philosophical and legal requirements of IDEA Part B Section 619.

**SPC\_ED 8505. Advanced Studies in Early Childhood Special Education. 3 Credits.**

Origins, theoretical perspectives, issues, scope and efficacy of the field of early childhood special education. Prerequisite: graduate standing and instructor's consent.

**SPC\_ED 8520. Meeting the Needs of all Learners. 3 Credits.**

The purpose of this course is to provide information on current research and methodology on teaching students who are struggling or who have disabilities. Open only to teaching fellows. Graded on A/F basis only.

**SPC\_ED 8601. Introduction to Autism. 3 Credits.**

This course provides an introduction of children youth with autism spectrum disorders. Topics include: historical and theoretical foundations, diagnostic and assessment approaches, and characteristics. Prerequisites: Introduction to Special Education; graduate standing; instructor's consent. Graded on A/F basis only.

**SPC\_ED 8602. Methods of Instruction for Students with Autism. 3 Credits.**

Overview of interventions for individuals with autism spectrum disorders and strategies needed for teaching. Best practices and promising practices will be presented. Prerequisite: Special Education [SPC\_ED] 8601, Graduate standing required, Consent of instructor required. Course graded on A/F basis only.

**SPC\_ED 8603. Social Competency for Students with Autism. 3 Credits.**

Course provides a framework for addressing social competence deficits experienced by students with autism. Prerequisite: Special Education

[SPC\_ED] 8601, Graduate standing required, Consent of instructor required. Course graded on A/F basis only.

**SPC\_ED 8604. High Functioning Students with Autism. 3 Credits.**

The course is designed to increase understanding and ability to support individuals on the Autism Spectrum who have average to above average intelligence. Graduate Standing Required. Consent of Instructor Required. Course graded on A/F basis only.

**SPC\_ED 8605. Young Children with Autism. 3 Credits.**

Current research on characteristics, diagnosis, and intervention for very young children with autism. Strategies for support children and their families. Graduate Standing required. Consent of instructor required. Graded on A/F basis only.

**SPC\_ED 8940. Practicum: Students with Behavioral Disorders. 3 Credits.**

Graduate field experience in educational setting for students with behavioral disorders. Application of competencies from Special Education [SPC\_ED] 8300. Prerequisite: instructor's consent.

**SPC\_ED 8941. Practicum: Students with Learning Disabilities. 3 Credits.**

Graduate field experience in educational setting for students with learning disabilities. Application of competencies from Special Education [SPC\_ED] 8310. Prerequisite: instructor's consent.

**SPC\_ED 8942. Practicum: Students with Developmental Disabilities. 3 Credits.**

Graduate field experience in educational setting for students with mental retardation. Application of knowledge and skills from Special Education [SPC\_ED] 8320. Prerequisite: instructor's consent.

**SPC\_ED 8943. Practicum in Special Education. 1-10 Credit.**

Provides graduate practicum experience relevant to the education of exceptional students. Prerequisites: Special Education [SPC\_ED] 4300 and instructor's consent.

**SPC\_ED 8944. Practicum I: Cross-Categorical Special Education. 3 Credits.**

Graduate field-based experience focused on observation and participation in programming for students with mild-moderate disabilities. Prerequisite: instructor's and/or advisor's consent.

**SPC\_ED 8945. Practicum II: Cross-Categorical Special Education. 3-8 Credit.**

Advanced graduate field experience. Demonstration of required competencies with mild-moderate disabilities. Prerequisite: Special Education [SPC\_ED] 8944 and instructor and/or advisor's consent.

**SPC\_ED 8946. Practicum: Gifted Education. 3 Credits.**

Provides graduate field experience in the area of gifted education. Prerequisite: instructor or advisor's consent.

**SPC\_ED 8947. Practicum: Early Childhood Special Education. 1-10 Credit.**

Graduate field experience in an approved setting for young children with special needs. May be repeated. Prerequisite: instructor's consent.

**SPC\_ED 9090. Research in Special Education. 1-99 Credit.**

Graded on a S/U basis only. Prerequisite: instructor's consent.

**SPC\_ED 9387. Professional Seminar in Special Education. 1 Credit.**

Designed to provide overview of Special Education, COE program requirements, and general graduate student expectations. Students STRONGLY encouraged to take course first semester in graduate

program. Graded on S/U basis only. Prerequisites: acceptance into a master's degree program.

**SPC\_ED 9940. Internship: College Teaching in Special Education. 3 Credits.**

Individually guided and supervised college teaching experiences. Competency based activities using portfolio assessment methods. May be taken more than once. Graded on S/U basis only. Prerequisite: instructor's consent.

**SPC\_ED 9941. Internship: Special Education Research. 1-99 Credit.**

Individually guided research internship with doctoral advisor and/or faculty mentor(s). Opportunity to develop research competencies either on individual or collaborative projects. May be taken more than once. Graded on S/U basis only. Prerequisite: instructor's consent.

**SPC\_ED 9942. Internship: Professional Practice in Special Education. 1-99 Credit.**

Individually guided internship in the public schools and/or agencies serving students with special needs or exceptionalities. Focus on professional practices, administrative practices, and/or evaluation practices. Graded on S/U basis only. Prerequisite: instructor's consent.

## Statistics (STAT)

---

**STAT 1200. Introductory Statistical Reasoning. 3 Credits.**

Statistical concepts for critically evaluation quantitative information. Descriptive statistics, probability, estimation, hypothesis testing, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for a higher numbered course offered by the Statistics Department. Prerequisite: grade in C range or better in Mathematics [MATH] 1100, 1120, 1160 or 1180 or exemption from College Algebra by examination. Math Reasoning Proficiency Course.

**STAT 1300. Elementary Statistics. 3 Credits.**

Collection, presentation of data; averages; dispersion; introduction to statistical inference, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Prerequisite: grade in C range or better in Mathematics [MATH] 1100, 1120, 1160, or 1180 or exemption from college algebra by examination. Math Reasoning Proficiency Course.

**STAT 1300H. Elementary Statistics - Honors. 3 Credits.**

Collection, presentation of data; averages; dispersion; introduction to statistical inference, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Prerequisite: grade in C range or better in Mathematics [MATH] 1100, 1120, 1160, or 1180 or exemption from college algebra by examination. Honors eligibility required. Math Reasoning Proficiency course.

**STAT 1400. Elementary Statistics for Life Sciences. 3 Credits.**

Designed for students studying agriculture and other life sciences. Descriptive statistics, probability, estimation, hypothesis testing, correlation and regression. Students may not receive credit if they have received or are concurrently receiving credit for another course offered by the Statistics Department. Math Reasoning Proficiency Course. Prerequisite: grade in C range or better in Mathematics [MATH] 1100, 1120, 1160, or 1180 or exemption from college algebra by examination.

**STAT 2200. Introductory Statistical Methods. 1 Credit.**

Designed to upgrade the curriculum of Statistics [STAT] 1200 or 1300 or 1400 to the level of Statistics 2500. Students may not receive credit for Statistics 2200 if they have completed a course from the Department of Statistics numbered 2500 or higher. Prerequisites: grade in C range or better in STAT 1200, 1300, or 1400. Math Reasoning Proficiency Course.

**STAT 2500. Introduction to Probability and Statistics I. 3 Credits.**

Designed primarily for students in College of Business. Descriptive statistics, probability, random variables, sampling distributions, estimation, confidence intervals, hypothesis tests. Prerequisite: grade of C- or better in Mathematics [MATH] 1300, 1320, 1400 or 1500. Math Reasoning Proficiency course.

**STAT 2530. Statistical Methods in Natural Resources. 3 Credits.**

Statistical methods, with emphasis on applications to natural resources and including computer exercises. Prerequisite: a college-level computing course and a grade in the C range or better in Mathematics [MATH] 1100, 1120, 1160, or 1180. Math Reasoning Proficiency Course.

**STAT 3500. Introduction to Probability and Statistics II. 3 Credits.**

Continuation of 2500. Coverage of additional topics including: Regression; model building; ANOVA; nonparametric methods; use of a statistical computer package. Prerequisite: grade in the C range of Statistics [STAT] 2200, 2500, 2530, or concurrent enrollment in STAT 2200.

**STAT 4002. Topics in Statistics-Biological/Physical/Mathematics. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent. Prerequisites: junior standing and instructor's consent.

**STAT 4050. Connecting Statistics to Middle and Secondary Schools. 3 Credits.**

Primarily for middle and secondary mathematics education majors. Uses standards-based curricular materials to demonstrate connections between college-level statistics and content taught in middle and secondary schools. No credit toward a graduate degree in statistics. Prerequisite: an introductory course in statistics or Mathematics [MATH] 2320 or instructor's consent.

**STAT 4085. Problems in Statistics for Undergraduates. 1-3 Credit.**

Independent investigations. Reports on approved topics. Prerequisite: instructor's consent.

**STAT 4110. Statistical Software and Data Analysis. 3 Credits.**

Programming with major statistical packages emphasizing data management techniques and statistical analysis for regression, analysis of variance, categorical data, descriptive statistics, non-parametric analyses, and other selected topics. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4150. Applied Categorical Data Analysis. 3 Credits.**

The study of statistical models and methods used in analyzing categorical data. The use of computing is emphasized and calculus is not required. No credit for students who have previously completed Statistics [STAT] 4830. No credit toward a graduate degree in statistics. Prerequisite: STAT 3500, 7070, 4710/7710, or 4760/7760 or instructor's consent.

**STAT 4210. Applied Nonparametric Methods. 3 Credits.**

Statistical methods when the functional form of the population is unknown. Applications emphasized. Comparisons with parametric procedures. Goodness-of-fit, chi-square, comparison of several

populations, measures of correlation. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4310. Sampling Techniques. 3 Credits.**

Theory of probability sampling designs. Unrestricted random sampling. Stratified sampling. Cluster sampling. Multistage or subsampling. Ratio estimates. Regression estimates. Double sampling. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4410. Biostatistics. 3 Credits.**

Study of statistical techniques for the design and analysis of clinical trials, laboratory studies and epidemiology. Topics include randomization, power and sample size calculation, sequential monitoring, Carcinogenicity bioassay and case-cohort designs. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4420. Applied Survival Analysis. 3 Credits.**

Parametric models; Kaplan-Meier estimator; nonparametric estimation of survival and cumulative hazard functions; log-rank test; Cox model; Stratified Cox model; additive hazards model partial likelihood; regression diagnostics; multivariate survival data. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710 or 4760/7760 or consent of instructor.

**STAT 4430. Applied Longitudinal Data Analysis. 3 Credits.**

Repeated measurements; event history studies; linear and nonlinear mixed effects models; growth models; marginal mean and rate models; pattern-mixture models; selection models; non-informative and informative drop-out; joint analysis of longitudinal and survival data. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, or 4760/7760 or instructor's consent.

**STAT 4450. Applied Statistical Methods for Bioinformatics. 3 Credits.**

Random variables; Point estimation; Multiple t-test; Likelihood principle; Analysis of variance; Probabilistic methods for sequence modeling; Gene expression analysis; Protein structure prediction; Genome analysis; Hierarchical clustering and Gene classification. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4510. Applied Statistical Models I. 3 Credits.**

Introduction to applied linear models including regression (simple and multiple, subset selection, estimation and testing) and analysis of variance (fixed and random effects, multifactor models, contrasts, multiple testing). No credit toward a graduate degree in statistics. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4530. Analysis of Variance. 3 Credits.**

Study of analysis of variance and related modeling techniques for cases with fixed, random, and mixed effects. Exposure to designs other than completely randomized designs including factorial arrangements, repeated measures, nested, and unequal sample size designs. Prerequisite: Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 4540. Experimental Design. 3 Credits.**

Examination and analysis of modern statistical techniques applicable to experimentation in social, physical or biological sciences. Prerequisite: Statistics [STAT] 3500 or 4510/7510 or 4530/7530 or instructor's consent.

**STAT 4560. Applied Multivariate Data Analysis. 3 Credits.**

Testing mean vectors; Discriminant analysis; Principal components; Factor analysis; Cluster analysis; Structural equation modeling; Graphics.

Prerequisite: Statistics [STAT] 3500, 7070 4710/7710 or 4760/7760 or instructor's consent. No credit towards a graduate degree in statistics.

**STAT 4610. Applied Spatial Statistics. 3 Credits.**

Introduction to spatial random processes, spatial point patterns, kriging, simultaneous and conditional autoregression, and spatial data analysis. Prerequisite: Statistics [STAT] 4510 or instructor's consent. Recommended: basic knowledge of calculus and matrices.

**STAT 4640. Introduction to Bayesian Data Analysis. 3 Credits.**

Bayes formulas, choices of prior, empirical Bayesian methods, hierarchical Bayesian methods, statistical computation, Bayesian estimation, model selection, predictive analysis, applications, Bayesian software. Prerequisite: Statistics [STAT] 3500 or 4510/7510 or instructor's consent.

**STAT 4710. Introduction to Mathematical Statistics. 3 Credits.**

(same as Mathematics [MATH] 4315). Introduction to theory of probability and statistics using concepts and methods of calculus. Prerequisite: MATH 2300 or instructor's consent. No credit for MATH 4315.

**STAT 4750. Introduction to Probability Theory. 3 Credits.**

(same as Mathematics [MATH] 4320). Probability spaces; random variables and their distributions; repeated trials; probability limit theorems. Prerequisite: MATH 2300 or instructor's consent.

**STAT 4760. Statistical Inference. 3 Credits.**

(same as Mathematics [MATH] 4520). Sampling; point estimation; sampling distribution; tests of hypotheses; regression and linear hypotheses. Prerequisite: Statistics [STAT] 4750/7750.

**STAT 4810. Nonparametric Methods. 3 Credits.**

A first course in Non-parametric statistical methods based on ranks. Both theory and application are emphasized. Two-sample problems. K-sample problems. Tests for independence. Contingency tables. Goodness-of-fit tests. Prerequisite: Statistics [STAT] 4710/7710 or 4760/7760 or instructor's consent.

**STAT 4830. Categorical Data Analysis. 3 Credits.**

Discrete distributions, frequency data, multinomial data, chi-square and likelihood ratio tests, logistic regression, log linear models, rates, relative risks, random effects, case studies. Prerequisite: Statistics [STAT] 4710/7710 or 4760/7760 or instructor's consent.

**STAT 4850. Introduction to Stochastic Processes. 3 Credits.**

Study of random processes selected from: Markov chains, birth and death processes, random walks, Poisson processes, renewal theory, Brownian motion, Gaussian processes, white noise, spectral analysis, applications such as queuing theory, sequential tests. Prerequisite: Statistics [STAT] 4750/7750 or instructor's consent.

**STAT 4870. Time Series Analysis. 3 Credits.**

A study of univariate and multivariate time series models and techniques for their analyses. Emphasis is on methodology rather than theory. Examples are drawn from a variety of areas including business, economics and soil science. Prerequisite: Statistics [STAT] 4710/7710 or 4760/7760 or instructor's consent.

**STAT 4970. Senior Seminar. 3 Credits.**

A capstone course required of and open only to senior statistics majors. Students will participate in statistical consulting, attend colloquia, and review articles in professional journals. Writing of reports will be emphasized. Prerequisite: senior statistics major and 12 completed hours of statistics courses or instructor's consent.

**STAT 4999. Departmental Honors in Statistics. 1-3 Credit.**

Special work for Honors candidates in statistics. May be repeated for credit.

**STAT 7002. Topics in Statistics-Biological/Physical/Mathematics. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Repeatable with departmental consent. Prerequisites: graduate standing and instructor's consent.

**STAT 7020. Statistical Methods in the Health Sciences. 3 Credits.**

Basic inference methods, both parametric and non-parametric, appropriate for answering questions arising in health sciences research. Computer exercises involving data from real experiments from health science area. Prerequisite: Mathematics [MATH] 1100 or 1120 and graduate standing or instructor's consent.

**STAT 7050. Connecting Statistics to Middle and Secondary Schools. 3 Credits.**

Primarily for middle and secondary mathematics education majors. Uses standards-based curricular materials to demonstrate connections between college-level statistics and content taught in middle and secondary schools. No credit toward a graduate degree in statistics. Prerequisite: graduate standing and an introductory course in statistics or Mathematics [MATH] 2320 or instructor's consent.

**STAT 7070. Statistical Methods for Research. 3 Credits.**

Designed for graduate students who have no previous training in statistics. Topics include descriptive statistics, probability distributions, estimation, hypothesis testing, regression, and ANOVA. No credit toward a degree in statistics. Prerequisites: graduate standing and either Mathematics [MATH] 1100 or 1120.

**STAT 7085. Problems in Statistics for Non-majors. 1-99 Credit.**

Approved reading and study, independent investigations, and reports on approved topics. Prerequisites: graduate standing and instructor's consent.

**STAT 7110. Statistical Software and Data Analysis. 3 Credits.**

Programming with major statistical packages emphasizing data management techniques and statistical analysis for regression, analysis of variance, categorical data, descriptive statistics, non-parametric analyses, and other selected topics. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7150. Applied Categorical Data Analysis. 3 Credits.**

The study of statistical models and methods used in analyzing categorical data. The use of computing is emphasized and calculus is not required. No credit for students who have previously completed Statistics [STAT] 4830. No credit toward a graduate degree in statistics. Prerequisite: graduate standing; STAT 3500, 7070, 4710/7710, or 4760/7760 or instructor's consent.

**STAT 7210. Applied Nonparametric Methods. 3 Credits.**

Statistical methods when the functional form of the population is unknown. Applications emphasized. Comparisons with parametric procedures. Goodness-of-fit, chi-square, comparison of several populations, measures of correlation. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7310. Sampling Techniques. 3 Credits.**

Theory of probability sampling designs. Unrestricted random sampling. Stratified sampling. Cluster sampling. Multistage or subsampling.

Ratio estimates. Regression estimates. Double sampling. Prerequisite: graduate standing Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7410. Biostatistics. 3 Credits.**

Study of statistical techniques for the design and analysis of clinical trials, laboratory studies and epidemiology. Topics include randomization, power and sample size calculation, sequential monitoring, carcinogenicity bioassay and case-cohort designs. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7420. Applied Survival Analysis. 3 Credits.**

Parametric models; Kaplan-Meier estimator; nonparametric estimation of survival and cumulative hazard functions; log-rank test; Cox model; Stratified Cox model; additive hazards model partial likelihood; regression diagnostics; multivariate survival data. Prerequisite: Statistics [STAT] 3500, STAT 7070, STAT 4710/7710 or STAT 4760/7760 or instructor's consent.

**STAT 7430. Applied Longitudinal Data Analysis. 3 Credits.**

Repeated measurements; event history studies; linear and nonlinear mixed effects models; growth models; marginal mean and rate models; pattern-mixture models; selection models; non-informative and informative drop-out; joint analysis of longitudinal and survival data. Prerequisite: Statistics [STAT] 3500, STAT 7070, STAT 4710/7710, or STAT 4760/7760 or instructor's consent.

**STAT 7450. Applied Statistical Methods for Bioinformatics. 3 Credits.**

Random variables; Point estimation; Multiple t-test; Likelihood principle; Analysis of variance; Probabilistic methods for sequence modeling; Gene expression analysis; Protein structure prediction; Genome analysis; Hierarchical clustering and Gene classification. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7510. Applied Statistical Models I. 3 Credits.**

Introduction to applied linear models including regression (simple and multiple, subset selection, estimation and testing) and analysis of variance (fixed and random effects, multifactor models, contrasts, multiple testing). No credit toward a graduate degree in statistics. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7530. Analysis of Variance. 3 Credits.**

Study of analysis of variance and related modeling techniques for cases with fixed, random, and mixed effects. Exposure to designs other than completely randomized designs including factorial arrangements, repeated measures, nested, and unequal sample size designs. Prerequisite: graduate standing and Statistics [STAT] 3500, 7070, 4710/7710, 4760/7760, or instructor's consent.

**STAT 7540. Experimental Design. 3 Credits.**

Examination and analysis of modern statistical techniques applicable to experimentation in social, physical or biological sciences. Prerequisite: Statistics [STAT] 3500 or 4510/7510 or 4530/7530 or instructor's consent.

**STAT 7560. Applied Multivariate Data Analysis. 3 Credits.**

Testing mean vectors; discriminant analysis; principal components; factor analysis; cluster analysis; structural equation modeling; graphics. Prerequisite: Statistics [STAT] 3500, STAT 7070, STAT 4710/7710 or STAT 4760/7760. No credit toward a graduate degree in statistics.

**STAT 7610. Applied Spatial Statistics. 3 Credits.**

Introduction to spatial random processes, spatial point patterns, kriging, simultaneous and conditional autoregression, and spatial data analysis. Prerequisites: Statistics [STAT] 4510/7510 or instructor's consent. Recommended: Basic knowledge of calculus and matrices.

**STAT 7640. Introduction to Bayesian Data Analysis. 3 Credits.**

Bayes formulas, choices of prior, empirical Bayesian methods, hierarchical Bayesian methods, statistical computation, Bayesian estimation, model selection, predictive analysis, applications, Bayesian software. Prerequisite: graduate standing; Statistics [STAT] 3500 or 4510/7510 or instructor's consent.

**STAT 7710. Introduction to Mathematical Statistics. 3 Credits.**

(same as Mathematics [MATH] 7315). Introduction to theory of probability and statistics using concepts and methods of calculus. Prerequisite: graduate standing and MATH 2300 or instructor's consent. No credit MATH 7315.

**STAT 7750. Introduction to Probability Theory. 3 Credits.**

(same as Mathematics [MATH] 7320). Probability spaces; random variables and their distributions; repeated trials; probability limit theorems. Prerequisite: graduate standing and MATH 2300 or instructor's consent.

**STAT 7760. Statistical Inference. 3 Credits.**

(same as Mathematics [MATH] 7520). Sampling; point estimation; sampling distribution; tests of hypotheses; regression and linear hypotheses. Prerequisite: Statistics [STAT] 4750/7750 or instructor's consent.

**STAT 7810. Nonparametric Methods. 3 Credits.**

A first course in Non-parametric statistical methods based on ranks. Both theory and application are emphasized. Two-sample problems. K-sample problems. Tests for independence. Contingency tables. Goodness-of-fit tests. Prerequisite: graduate standing and Statistics [STAT] 4710/7710 or instructor's consent.

**STAT 7830. Categorical Data Analysis. 3 Credits.**

Discrete distributions, frequency data, multinomial data, chi-square and likelihood ratio tests, logistic regression, log linear models, rates, relative risks, random effects, case studies. Prerequisite: graduate standing and Statistics [STAT] 4710/7710 or instructor's consent.

**STAT 7850. Introduction to Stochastic Processes. 3 Credits.**

Study of random processes selected from: Markov chains, birth and death processes, random walks, Poisson processes, renewal theory, Brownian motion, Gaussian processes, white noise, spectral analysis, applications such as queuing theory, sequential tests. Prerequisite: graduate standing and Statistics [STAT] 4750/7750 or instructor's consent.

**STAT 7870. Time Series Analysis. 3 Credits.**

A study of univariate and multivariate time series models and techniques for their analyses. Emphasis is on methodology rather than theory. Examples are drawn from a variety of areas including business, economics and soil science. Prerequisite: graduate standing Statistics [STAT] 7710 or 7760 or instructor's consent.

**STAT 8085. Problems in Statistics for Majors - Masters. 1-99 Credit.**

Approved reading and study, independent investigations, and reports on approved topics. Prerequisites: graduate standing and instructor's consent.

**STAT 8090. Master's Thesis Research in Statistics. 1-99 Credit.**

Graded on a S/U basis only.

**STAT 8100. Special Topics in Statistics. 1-99 Credit.**

Prerequisite: instructor's consent.

**STAT 8220. Applied Statistical Models II. 3 Credits.**

Advanced applied linear models including mixed linear mixed models (fixed and random effects, variance components, correlated errors, split-plot designs, repeated measures, heterogeneous variance), generalized linear models (logistic and Poisson regression), nonlinear regression. No credit toward a graduate degree in statistics. Prerequisites: Statistics [STAT] 4510/7510 or instructor's consent. Graduate standing required.

**STAT 8310. Data Analysis I. 3 Credits.**

Applications of linear models including regression (simple and multiple, subset selection, regression diagnostics), analysis of variance (fixed, random and mixed effects, contrasts, multiple comparisons) and analysis of covariance; alternative nonparametric methods. Prerequisite: Statistics [STAT] 4710/7710 or 4760/7760 or instructor's consent.

**STAT 8320. Data Analysis II. 3 Credits.**

Advanced applications including analysis of designs (e.g. repeated measures, hierarchical models, missing data), multivariate analysis (Hotelling's T<sub>2</sub>, MANOVA, discriminant analysis, principal components, factor analysis), nonlinear regression, generalized linear models, categorical data analysis. Prerequisite: Statistics [STAT] 8310 or instructor's consent.

**STAT 8370. Statistical Consulting. 3 Credits.**

Participation in statistical consulting under faculty supervision. Formulation of statistical problems. Planning of surveys and experiments. Statistical computing. Data analysis. Interpretation of results in statistical practice. Prerequisites: Statistics [STAT] 4760/7760 and 8320 or instructor's consent.

**STAT 8410. Statistical Theory of Bioinformatics. 3 Credits.**

Study of statistical theory and methods underpinning bioinformatics. Topics include statistical theory used in biotechnologies such as gene sequencing, gene alignments, microarrays, phylogenetic trees, evolutionary models, proteomics and imaging. Prerequisite: Statistics [STAT] 4760/7760.

**STAT 8640. Bayesian Analysis I. 3 Credits.**

Bayes' theorem, subjective probability, non-informative priors, conjugate prior, asymptotic properties, model selection, computation, hierarchical models, hypothesis testing, inference, predication, applications. Prerequisites: Statistics [STAT] 4760/7760 and Mathematics [MATH] 4140/7140 or instructor's consent.

**STAT 9085. Problems in Statistics for Majors - PhD. 1-99 Credit.**

Approved reading and study, independent investigations, and reports on approved topics. Prerequisites: graduate standing and instructor's consent.

**STAT 9090. Doctoral Dissertation Research in Statistics. 1-99 Credit.**

Graded on a S/U basis only.

**STAT 9100. Recent Developments in Statistics. 3 Credits.**

The content of the course which varies from semester to semester, will be the study of some statistical theories or methodologies which are currently under development, such as bootstrapping, missing data, non-parametric regression, statistical computing, etc. Prerequisites: Statistics [STAT] 4760/7760 and instructor's consent.

**STAT 9250. Statistical Computation and Simulation. 3 Credits.**

Random number generation, acceptance/rejection methods; Monte Carlo; Laplace approximation; the EM algorithm; importance sampling; Markov chain Monte Carlo; Metropolis-Hasting algorithm; Gibbs sampling,

marginal likelihood. Prerequisites: Statistics [STAT] 4760/7760 or instructor's consent. Graduate standing.

**STAT 9310. Theory of Linear Models. 3 Credits.**

Theory of multiple regression and analysis of variance including matrix representation of linear models, estimation, testing hypotheses, model building, contrasts, multiple comparisons and fixed and random effects. Prerequisites: Statistics [STAT] 4760/7760 and Mathematics [MATH] 4140/7140, and instructor's consent.

**STAT 9320. Advanced Linear Models. 3 Credits.**

Advanced topics in the theory and application of linear models. Specific content varies with instructor. Prerequisites: Statistics [STAT] 9310 or instructor's consent.

**STAT 9370. Multivariate Analysis. 3 Credits.**

Distribution of sample correlation coefficients. Derivation of generalized T-squared and Wishart distributions. Distribution of certain characteristic roots, vectors. Test of hypotheses about covariance matrices and mean vectors. Discriminant analysis. Prerequisites: Statistics [STAT] 4760/7760 and Mathematics [MATH] 4140/7140 or instructor's consent.

**STAT 9410. Survival Analysis. 3 Credits.**

Statistical failure models, Kaplan-Meier estimator, Log-rank test, Cox's regression model, Multivariate failure time data analysis, Counting process approaches. Prerequisites: Statistics [STAT] 4760/7760 or instructor's consent.

**STAT 9510. Theory of Nonparametric Statistics. 3 Credits.**

Estimation, hypothesis testing, confidence intervals, etc., when functional form of the population distribution is unknown. Prerequisites: Statistics [STAT] 4760/7760 or instructor's consent.

**STAT 9530. Data Mining and Machine Learning Methods. 3 Credits.**

Approaches to estimating unspecified relationships and findings unexpected patterns in high dimensional data. Computationally intensive methods including splines, classifications, tree-based and bagging methods, support vector machines. Prerequisites: Statistics [STAT] 4110/7110, 4760/7760 and 8320 or instructor's consent.

**STAT 9640. Bayesian Analysis II. 3 Credits.**

Likelihood principle, decision theory, asymptotic properties, advanced topics in Bayesian analysis at the instructor's discretion. Prerequisites: Statistics [STAT] 8640 and 9710 or instructor's consent.

**STAT 9710. Mathematical Statistics I. 3 Credits.**

Theory of estimation and tests of hypotheses including sufficiency, completeness and exponential families. Neyman-Pearson lemma, most powerful tests, similarity and invariance. Bayes and minimum variance unbiased estimates. Confidence intervals and ellipsoids. Prerequisite: Statistics [STAT] 4760/7760 or instructor's consent.

**STAT 9720. Mathematical Statistics II. 3 Credits.**

Asymptotic distributions of maximum likelihood estimators, chi-square and likelihood ratio test statistics. EM algorithm, bootstrap, and introduction to generalized linear models. Prerequisites: Statistics [STAT] 9710, Mathematics [MATH] 4700/7700 or instructor's consent.

**STAT 9810. Advanced Probability. 3 Credits.**

(same as Mathematics [MATH] 8480). Measure theoretic probability theory. Characteristic functions; conditional probability and expectation; sums of independent random variables including strong law of large numbers and central limit problem. Prerequisites: Statistics [STAT] 4750/7750 or MATH 4700/7700 or instructor's consent.

**STAT 9820. Stochastic Processes. 3 Credits.**

(same as Mathematics [MATH] 8680). Markov processes, martingales, orthogonal sequences, processes with independent and orthogonal increments, stationarity, linear prediction. Prerequisite: Statistics [STAT] 9810 or instructor's consent.

## Student Success Center (SSC)

---

**SSC 1020. University Freshmen Seminar. 1 Credit.**

(same as INTDSC 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. Prerequisite: Restricted to first time college student. No credit for students who have earned credit for AFNR 1115, INTDSC 1001, IS\_LT 1110, ED\_LPA 3100 or an equivalent first-year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in SSC 1020 and SSC 1150 in the same semester.

**SSC 1020H. University Freshmen Seminar - Honors. 1 Credit.**

(same as INTDSC 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. Prerequisite: Restricted to first time college student. No credit for students who have earned credit for AFNR 1115, INTDSC 1001, IS\_LT 1110, ED\_LPA 3100 or an equivalent first-year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in Student Success Center SSC 1020 and SSC 1150 in the same semester. Honors eligibility required.

**SSC 1150. Learning Strategies for College Students. 1-3 Credit.**

Students' learning strategies are assessed, and their needs are given greatest emphasis. Learning through reading and listening are given major consideration as are the corollary skills of vocabulary expansion, studying and note taking.

**SSC 1151. Learning and Motivation. 3 Credits.**

To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Restricted to first time college students. No credit for students who have earned credit for Agriculture, Food and Natural Resources [AFNR] 1115; Interdisciplinary Studies [INTDSC] 1001; Information, Science Learning Technologies [IS\_LT] 1110; Education, Leadership and Policy Analysis [ED\_LPA] 3100, or an equivalent first-year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students not allowed to be enrolled in Student Success Center [SSC] 1020, 1150 or 1151 in the same semester.

**SSC 1500. Disney Internship. 0 Credits.**

Internship: Experiential learning as a "cast member" of the Walt Disney World College Program. Students work for a semester at the Walt Disney World resort and have the option of taking Disney Classes. Prerequisites: instructor's consent; departmental signature. Graded on S/U basis only.

**SSC 2100. Career Explorations. 1-3 Credit.**

Contribution of career development theory to choice of career and/or major. Exploration of personal and social determinants of career choice.

Class consists of lecture, laboratory experiences, and use of facilities at the Career Planning and Placement Center.

**SSC 2150. Tutoring University Students: Theory & Practice. 3 Credits.**

An introduction to tutoring university students. Provides a pedagogical foundation for tutoring college students in content areas. Topics include but are not limited to diversity, the tutoring relationship, plagiarism, learning strategies, and best practices. Students will observe tutorials during the first part of the course and will conduct their own tutorials later in the semester. Graded on A/F basis only. Prerequisite: Instructor's consent.

**SSC 3100. Advanced Disney Internship. 0 Credits.**

Advanced Internship: Experiential learning opportunity with the Walt Disney World College Program. Students work for a semester at the Walt Disney World resort and have the option of taking Disney classes. This is a second internship that is more field-specific and carries with it more responsibilities. Prerequisite: instructor's consent, departmental signature. Graded on S/U basis only.

## **Surgery (SURGRY)**

---

**SURGRY 6006. Surgery Clerkship. 6-10 Credit.**

Surgery Clerkship.

**SURGRY 6016. Rural Surgery Clerkship. 6 Credits.**

Rural Surgery Clerkship.

**SURGRY 6106. Remediation 6006 Surgery Clerkship. 6 Credits.**

Surgery Clerkship Remediation. Prerequisite: 6006 Surgery Clerkship, received unsatisfactory grade.

**SURGRY 6383. ABS Surgery Research. 5-10 Credit.**

ABS Surgery Research.

**SURGRY 6385. ABS Surgery Research and Review. 5 Credits.**

ABS Surgery Research and Review.

**SURGRY 6655. Surgical Off-Site Elective. 5 Credits.**

Surgical Off-Site Elective.

**SURGRY 6658. Burn Unit. 5 Credits.**

Burn Unit.

**SURGRY 6661. Surgery Research Elective. 5 Credits.**

Surgery Research Elective.

**SURGRY 6671. Oncology Multidisciplinary. 5 Credits.**

Oncology Multidisciplinary.

**SURGRY 6672. Neuro-Oncology/Radiosurgery. 5 Credits.**

Neuro-Oncology/Radiosurgery.

**SURGRY 6686. Neurosurgery B. 5 Credits.**

Neurosurgery B.

**SURGRY 6687. Advanced Neurosurgery. 5 Credits.**

Advanced Neurosurgery.

**SURGRY 6688. Orthopaedic Surgery Reserach Elective. 5 Credits.**

Student will identify interest in surgical clinical research and other topical areas of orthopaedic surgery. The research will define concepts relevant to the practice of orthopaedic surgery. The student will engage in self-directed learning and evaluation of new information. Prerequisite: Surgery [SURGRY] 6006; level M4.

**SURGRY 6759. General Surgery Externship - Rural. 5 Credits.**

General Surgery Externship - Rural.

**SURGRY 6770. Surgery Rural Elective. 5 Credits.**

The 4th year surgery student will function as a surgical extern and be integrated into the pre-operative, operative, and post-operative care of surgical patients. The student will function as surgical extern with close supervision and one-on-one instruction. Prerequisites: Surgery [SURGRY] 6002 and 6006.

**SURGRY 6774. Otolaryngology - Rural. 3 Credits.**

Otolaryngology - Rural.

**SURGRY 6780. Urology - Rural. 5 Credits.**

Urology - Rural.

**SURGRY 6781. Orthopaedic Surgery A - Rural. 5 Credits.**

Orthopaedic Surgery A - Rural.

**SURGRY 6860. EMERGENCY MEDICINE. 5 Credits.**

EMERGENCY MEDICINE.

**SURGRY 6955. Ambulatory ENT/Urology. 5 Credits.**

Goals/Objectives: This elective will offer students an exposure to ambulatory care in urology and otolaryngology. Students will see a broad range of patients and numerous outpatient procedures. Students will have close supervision during this experience. Both services have a combined outpatient population of 24,000 visits per year. Students will be exposed to numerous situations they would face in a primary care office. Clinic is offered five days per week by each service. Observation in the O.R. is available and attendance at teaching conferences is required. There will be a written exam given at the completion of the 2 weeks of ENT.

**SURGRY 6957. Cardiothoracic Surgery. 5 Credits.**

Cardiothoracic Surgery.

**SURGRY 6958. Surgical off-Site Selective. 5 Credits.**

Surgical off-Site Selective.

**SURGRY 6959. General Surgery Externship. 5 Credits.**

Prerequisites: Surgery AND Internal Medicine Clerkships. Goals/Objectives: 1. Provide the student with ability to function as a first year general surgery house officer with close supervision and one-on-one instruction. 2. Become familiar with pre-operative, operative, and post-operative care of general surgical patients. 3. Become familiar with the graded responsibility structure necessary to ethically conduct post-graduate surgical residency training. 4. Develop bedside patient care skills. 5. Develop reading and clinical research skills necessary for contemporary surgical care. SCHEDULE: Students will function as a first year surgical house officer and be involved in pre-operative, operative and post-operative care of general surgical patients. They will take call (accompanying another surgical house officer) no more frequently than every fourth night. They will attend and participate in general surgery conferences. They will present one case each week to a general surgery attending. This presentation will consist of history, physical exam findings, laboratory and radiology studies, treatments available, treatment chosen, and rationale for that approach (Three recent references regarding the topic are required). Evaluations: Evaluation will be based upon assessment of knowledge, reasoning, and development of clinical skills by faculty and resident staff. Notes: SUGGESTED RESOURCES: Scientific American Surgery, Scientific American, Inc. Sabiston Textbook of Surgery, 16th edition. WB Saunders, Inc. Schwartz Principles of Surgery, 6th edition. McGraw-Hill, Inc. Surgery,

A Problem-Solving Approach. Davis, HB and Sheldon, GF, ed., Mosby, Cameron, Contemporary Surgery.

**SURGRY 6971. Surgical Intensive Care Unit. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: 1. Understand the dynamics of cooperative critical care. 2. Understand the physiology underlying the patient's disease processes, mechanical ventilatory support and hemodynamic monitoring. 3. Be able to plan, deliver and assess a nutritional support regimen. 4. Become familiar with the monitoring techniques including line placement. 5. Develop the ability to write succinct physician progress notes clearly stating: the problems of the patient, the treatments undertaken to deal with those problems, and the effects or results of those treatments. 6. Recognize significant gaps in your medical knowledge and effectively use available resources (faculty, residents, nurses, pharmacists, respiratory therapists, dieticians, published materials) to fill these gaps. CURRICULUM: Students will take call one night per week. Weekends will be covered by participating in and attending morning rounds. The student will have one weekend off during the month. Students will be responsible for X-Ray rounds and keeping the SICU patient board up to date. The student will give an oral presentation to the team on a topic agreed upon by the Department Director. Evaluations: The student will be evaluated on assessment of perceived assets and/or possible weaknesses. Grading will be on the basis of clinical performance and the oral presentation. SUGGESTED RESOURCES: The ICU Book, 2nd ed., Marino, PL, Williams & Wilkins, 1998, 928 pg, and Fundamental Critical Care Support by Society of Critical Care Medicine.

**SURGRY 6972. Surgical Oncology. 5 Credits.**

Surgical Oncology.

**SURGRY 6973. Head and Neck Surgical Oncology. 5 Credits.**

Head and Neck Surgical Oncology.

**SURGRY 6974. Otolaryngology. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: The Otolaryngology student rotation offers learning through participation in daily care of patients, case discussion in conferences, and didactic conferences. All subspecialty areas are included on this rotation, including facial trauma, otology, neurotology, head and neck surgical oncology, facial reconstruction, sinus surgery, pediatric ENT and allergy. Significant outpatient experience is provided and the extent of operating room participation to the student's needs and preferences. The student sees a full spectrum of patients (adult and pediatric) at the University and the VA. The student sees and learns about a variety of outpatient problems during the outpatient segment of this rotation. A wide variety of surgical procedures are observed in the operating room. The residents and faculty encourage an individually tailored learning experience for the student. Supplemental texts and other teaching aids are encouraged. Clinical research projects are available for interested and committed students.

**SURGRY 6975. Pediatric Surgery. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: To gain a working knowledge of a) diagnosis, b) preoperative care, c) surgery, and d) postoperative care of the 1) congenital 2) traumatic 3) oncologic and 4) common surgical conditions affecting infants and children. This rotation is designed for the student planning a career that includes the care of infants and children. CURRICULUM: Attendance on daily rounds and participation in pediatric surgery clinic are mandatory. The student should also be present in radiology for all inpatient and outpatient contrast studies on surgical patients and consults. Operating room exposure can be individualized; the student is expected to be present, but not necessarily scrubbed, for the key portion of each case. Pediatric Surgical

texts can be found in the Medical Library under RD 137, in the Pediatric or Surgery libraries, in the bookstore. Rowe - Essentials of Pediatric Surgery, Holder - Pediatric Surgery, Welch - Pediatric Surgery (4th ed.), Coran - Surgery of the Neonate.

**SURGRY 6976. Plastic Surgery. 5 Credits.**

Prerequisites: Surgery Clerkship Goals/Objectives: The plastic surgery student rotation is considered "hands on" experience for the student rotating in the division of plastic surgery. This is a busy rotation with good opportunity for clinical exposure. The patient population includes all subspecialty areas of plastic surgery including hand and microsurgery, head and neck cancer surgery, congenital deformities, burns, facial trauma, and major reconstruction, as well as cosmetic surgery. On this rotation, the student is expected to have an in-depth opportunity to learn, practice, and hone surgical suturing techniques and to first or second assist on many major surgical procedures. The graphic specialty of plastic surgery is best appreciated by participation and observation and there will be ample opportunity for this. In addition to the ward and major operating room duties, the student will obtain ambulatory patient care exposure by participating in the clinics, in the evaluation of new patients, and the after care of surgery patients. In addition, a significant percentage of the surgery is done as an outpatient and the student should have the opportunity to gain appreciation of the nuances of surgery done in the ambulatory environment. Incumbent to these considerations are exposure and appreciation of cost containment in plastic surgical procedures. There is a series of practical and theoretical conferences including a unique preoperative conference in which all patients are reviewed in-depth with pre- and post-operative slides of the surgical procedures. This preoperative conference allows the opportunity to review all aspects of patient's surgical procedure including ethical issues, efficient expense management, and aspects of patient education attendant to the procedure. A journal club also provides an in-depth exposure to the plastic surgery literature and its evaluation. This rotation is probably best suited to students who desire an exposure in some detail to the technical aspects of surgery. Evaluations: Each student is responsible for presenting a talk during the month of their rotation. This is usually during the last week of your rotation. Grades will not be available until this requirement has been completed.

**SURGRY 6977. Trauma Surgery and Management. 5 Credits.**

Prerequisites: Surgery AND Internal Medicine Clerkship. Goals/Objectives: At the end of the rotation, the student will understand the fundamentals in evaluation of multiple trauma, resuscitation techniques and goals, and in-patient care for the injured patient. The student will be involved with the performance of invasive procedures under the guidance of the Attending and Resident Surgical staff as a member of the trauma team. SCHEDULE: The student will be present daily for morning radiology rounds throughout the work day. Some night and week-end call will be required. STUDENT EVALUATION: The student will be evaluated by the resident and faculty staff based upon their performance during the rotation. In addition, each student will participate in a discussion based oral exam designed to evaluate their understanding of the basics of trauma care. COURSE EVALUATION: Each student will have the opportunity to formally evaluate the course and faculty after completion of the rotation and evaluation process. These evaluations will be used to strengthen the course and its content. Notes: SUGGESTED RESOURCES: 2 1) American College of Surgeons Committee on Trauma: Advanced Trauma Life Support 2) Text Trauma by Moore, Mattox, Feliciano: Trauma, Apelton and Lang.

**SURGRY 6979. Vascular Surgery. 5 Credits.**

Vascular Surgery.

**SURGRY 6980. Urology. 5 Credits.**

Goals/Objectives: The goal of the rotation is to provide a comprehensive urologic experience for those students who may be interested in Urology as a career as well as those students who simply want a more in-depth experience before pursuing another specialty. At the conclusion of the rotation, the student will be able to competently manage common urologic conditions such as hematuria, incontinence, and erectile dysfunction and recognize those patients who need referral to a specialist. To accomplish this, emphasis is placed on the management of both outpatients and inpatients. Active participation in the operating room is expected and the student will assist in a wide variety of urologic procedures. Students will also participate in outpatient procedures such as cystoscopy and vasectomy. Basically, the student will function as an extern on the University Urologic Service with appropriate patient care responsibilities. Mornings will generally be spent on rounds and in the operating room. Students will participate in outpatient clinics in the afternoons followed by rounds. Teaching conferences are held throughout the week and the student will receive a schedule at the beginning of the rotation. Evaluations: There is no written exam at the end of the rotation. The student is evaluated by the faculty and residents based on their observations of the student on rounds, in the clinic, in the operating room and in conferences. Participation is accorded high value as is the demonstration of a basic fund of urologic knowledge. Notes: Conferences are held Monday evenings at 5:30 pm and Wednesday mornings at 8:00 am. Times are subject to change. Both conferences focus on uro-radiology. In addition, all operative cases for the upcoming week will be presented on Mondays. Didactic sessions will be held on Wednesdays in conjunction with conference. Students will meet with a faculty member on Wednesday following conference for a tutorial session. Prerequisites: Surgery Clerkship.

**SURGRY 6981. Orthopaedic Surgery Sub-Internship. 5 Credits.**

Goals/Objectives: Rotation for students actively interested (more aggressive) students in orthopaedics as a career. Emphasis will be placed on surgical indications, operative technique and post-operative care of orthopaedic patients. The student will be assigned by Ortho faculty to two different orthopaedic teams (sports medicine, foot and ankle, total joint, general, pediatrics, trauma, and hand) for two weeks at a time. Each student would be given an extensive reading schedule, a list of topics to be covered, given a written or oral examination including both services emphasized at the end of block. Brief oral presentation, to the residency or service on which they are working, on orthopaedic subject of choice pertaining to Ortho service/residency assigned. CURRICULUM: The student will spend two weeks on two different university teams during this rotation. The student will be expected to participate in all aspects of the orthopaedics services they are assigned. This will include outpatient clinics, elective and emergent OR time, routine day-to-day care of patients on the orthopaedic service, and consultations. The student will take four nights of call with the Ortho residents assigned to service. The student will be evaluated by the attending and residents on the two services to which they have been assigned. Prerequisites: Surgery Clerkship.

**SURGRY 6982. Introduction to Orthopaedic Surgery. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: Rotations for students interested in a career in primary care. The student will learn physical diagnosis and outpatient as well as surgical treatment of common orthopedic conditions. Each student will be given a list of topics that will be covered, a reading list to which the student would be obligated to read and given a short written and/or oral examination of the musculoskeletal system emphasized. Brief oral presentation, to the

residency or service on which they are working, on an orthopedic subject of choice pertaining to Ortho service/residency assigned. The student will be assigned for the four weeks by Ortho Faculty to a preceptor from one of the following areas: sports medicine, foot and ankle, total joint, general, pediatrics, trauma or hand. CURRICULUM: The student on this rotation will be expected to learn to diagnose and manage commonly seen orthopedic conditions in the assigned orthopedic area. The student will participate in outpatient clinics, OR cases, rounds and conferences. The student will take two call nights with the Ortho Resident assigned to service. Basic techniques of splinting and cast application will be learned by sessions with the orthopedic cast technician.

**SURGRY 6983. Advanced Orthopaedic Surgery. 5 Credits.**

Advanced Orthopaedic Surgery.

**SURGRY 6985. Neurosurgery A. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: This course will provide the conscientious student an opportunity to acquire the following: 1. The ability to perform comprehensive neurological evaluation of the patient including both history taking and physical examination. This will entail a review of basic neuroanatomy and neurophysiology and a correlation of that information with the requirements of clinical medicine. 2. A basic understanding of neurosurgical diseases and their evaluation and management. Of particular importance will be the emphasis placed upon the initial evaluation of patients with central and peripheral nervous system trauma and neoplasms, cerebrovascular disease, congenital diseases of the nervous system, pain problems, diseases of the spine and lumbar discs. CURRICULUM: In order to direct the objectives of this course, students will be exposed to the following: 1. Individualized teaching sessions with the faculty. 2. Combined conferences with neurology, neuroradiology and neuropathology. 3. Outpatient clinics at the UMHSC and EFCC (Ellis Fischel). 4. The inpatient services of neurosurgery at UMHSC. 5. The operating room at UMHSC. Evaluations: The progress of the student will be evaluated through personal interaction with the faculty and residents and through an oral examination at the end of the course.

**SURGRY 6986. Bariatric Surgery. 5 Credits.**

Bariatric Surgery.

**SURGRY 6988. Critical Care Neurosurgery. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: The student will gain experience with the clinical evaluation of patients with critical care neurosurgical problems such as head trauma, subarachnoid hemorrhage, and spinal cord injury. The student will perform neurologic assessments, evaluate laboratory data and participate in the decision making on patients with these disorders. CURRICULUM: 1. Daily inpatient rounds in the MNICU, SICU and CCU on the neurosurgical patients. 2. Individualized teaching with faculty. 3. Conferences: Neurosurgery Grand Rounds, Neuro-radiology, Neuro-pathology, Neuroscience. Evaluations: By interactions with faculty and residents and oral examination at the end of the rotation.

**SURGRY 6989. Pediatric Neurosurgery. 5 Credits.**

Prerequisites: Surgery Clerkship. Goals/Objectives: To provide interested students the opportunity to acquire exposure and knowledge in the field of pediatric neurosurgery. This elective will allow the student to learn about clinical entities such as craniofacial anomalies, hydrocephalus, neuroendoscopy, congenital and central nervous system anomalies, and trauma of the CNS. The student becomes part of a team and closely interacts with the attending physician, neurosurgery residents, and clinical nurse specialist. CURRICULUM: 1. Daily inpatient rounds. 2. Individualized teaching with faculty. 3. Clinics: Chiari and Pediatric

Neurosurgery. 4. Conferences: Neurosurgery Grand Rounds, Neuro-radiology, Neuro-pathology, Neuroscience.

## Textile And Apparel Management (T\_A\_M)

---

### **T\_A\_M 1100. Introduction to the Textile and Apparel Industry. 3 Credits.**

Surveys the development, production and marketing of softgoods merchandise from concept to consumer.

### **T\_A\_M 1200. Basic Concepts of Apparel Design and Production. 3 Credits.**

Introduction to design techniques, coordination of fabric with design, selection of support materials, and basic understanding of garment assembly operations.

### **T\_A\_M 1300. Softgoods Retailing. 3 Credits.**

Surveys merchandising and retailing principles with specific applications to the softgoods industry.

### **T\_A\_M 2120. Professional Seminar. 1 Credit.**

Exploration of issues in professional activity/success including: evaluating opportunities, oral and written communication for presenting oneself, the articulation of professional/private life, and professional ethics.

### **T\_A\_M 2200. Science of Textiles. 3 Credits.**

Fundamental concepts of textiles. Chemical composition, molecular arrangement, and physical structure of natural and manufactured fibers. Yarn and fabric manufacturing and various finishing techniques. Impacts of such characteristics and techniques on function, performance, and quality. Graded A-F only.

### **T\_A\_M 2280. Apparel Production. 4 Credits.**

Introduction to sewn products industry applications in which students assemble sample garments and products on industrial equipment. Order of operations is emphasized and industry specific software is introduced. Prerequisite: T\_A\_M 1200, T\_A\_M 2200 or taking concurrently.

### **T\_A\_M 2300. Retail Finance and Merchandise Control. 3 Credits.**

Emphasizes assortment and financial planning utilizing computer applications in the retail environment. Prerequisites: Textile and Apparel Management [T\_A\_M] 1300 or Marketing [MRKTNG] 3000, Mathematics [MATH] 1100 and computer familiarity. Math Reasoning Proficiency Course.

### **T\_A\_M 2380. Integrated Apparel Design and Production I. 3 Credits.**

A beginning apparel product development course integrating patternmaking, apparel assembly decision-making and materials selection. Graded on A/F basis only. Prerequisites: Textile and Apparel Management [T\_A\_M] 2280 and instructor's consent.

### **T\_A\_M 2400. Global Consumers. 3 Credits.**

This course uses consumer behavior and cultural frameworks, integrated with critical and creative thinking processes to develop global perspective that is sensitive to diverse consumers' needs and preferences for products and services in the global marketplace. Graded on A/F basis only.

### **T\_A\_M 2480. Apparel and Textile Presentation Techniques. 3 Credits.**

Apparel and textile presentation processes. Introduction to a range of traditional and innovative presentation techniques using various media. Graded A-F basis only. Prerequisites: T\_A\_M 2380 or taken concurrently.

### **T\_A\_M 2500. Social Appearance in Time and Space. 3 Credits.**

An investigation of the motives and meanings that individuals negotiate through the use of dress in presenting themselves as players in complex social contexts. The emphasis is on cross-cultural, historical, and contemporary settings. Prerequisite: English [ENGLSH] 1000.

### **T\_A\_M 2580. Digital Textile and Apparel Applications. 3 Credits.**

Use of computer aided design technology to create designs for textiles and apparel. Includes portfolio development. Graded on A-F basis only. Prerequisite: T\_A\_M 2380 or taken concurrently.

### **T\_A\_M 3001. Recent Trends in Textiles and Apparel Management. 1-3 Credit.**

For upper-class students who wish additional knowledge and understanding in specific subject matter areas.

### **T\_A\_M 3110. Textiles and Apparel in the Global Economy. 3 Credits.**

Economic, social, and political dimensions of the textile complex and trade in a global economy; implications for production, distribution, and consumption of products. Prerequisite: Textile and Apparel Management [T\_A\_M] 1100 and 6 hours of economics.

### **T\_A\_M 3200. Softgoods Quality Evaluation. 3 Credits.**

Examination and evaluation of fabric and apparel structures with emphasis on principles of advanced textile performance and quality analysis. Includes end-use characteristics; price/quality relationships; textile and apparel product standards and specifications; and standard test methods to evaluate comfort, performance, and function of sewn products. Graded on A-F basis only. Prerequisite: T\_A\_M 2200.

### **T\_A\_M 3210. Computer Aided Design. 3 Credits.**

Use of computer aided design technology to create designs for textiles and apparel. Prerequisite: instructor's consent.

### **T\_A\_M 3280. Principles of Apparel Manufacturing. 3 Credits.**

A study of the apparel manufacturing industry including the decision making involved in marketing, merchandising, and producing apparel. Prerequisites: Textile and Apparel Management [T\_A\_M] 1200, T\_A\_M 2200 or instructor's consent.

### **T\_A\_M 3281. Principles Apparel Manufacturing Lab. 1 Credit.**

Emphasis on computer technology applications using industry based systems of digitizing and marker making. Should be taken concurrently with Textile and Apparel Management [T A M] 3280.

### **T\_A\_M 3300. Retail and Merchandising Analysis. 3 Credits.**

This course provides an opportunity to apply the concepts of merchandise planning, financial control, and promotions to real life buying situations. It will employ Problem Based Learning, approach that will allow students to learn through engagement in real problems. Graded on A-F basis only. Prerequisite: T\_A\_M 2300.

### **T\_A\_M 3380. Integrated Apparel Design and Production II. 3 Credits.**

An intermediate apparel product development course integrating patternmaking, apparel assembly decision-making and materials selection. Prerequisite: Textile and Apparel Management [T\_A\_M] 2380. Graded on A-F basis only.

**T\_A\_M 3410. The Clothing/Textile Consumer: Research and Analysis. 3 Credits.**

Examines the effects of economic, social and marketing factors on the clothing consumption process. Legislative and quality issues related to clothing and textiles are also discussed. Prerequisites: 3 hours of merchandising or marketing or microeconomics; 3 hours in statistics.

**T\_A\_M 3480. Technical Design. 3 Credits.**

Technical product development for the global sewn products industry. Graded on A-F only basis. Prerequisite: T\_A\_M 3380 and T\_A\_M 3281 or taken concurrently.

**T\_A\_M 3510. History of Western Dress. 3 Credits.**

Surveys the history of Western dress from prehistory through the 18th Century. Prerequisite: English [ENGLSH] 1000.

**T\_A\_M 3700. MultiChannel Retailing in the Digital World. 3 Credits.**

Overview of various channels of retail distribution including catalogs, e-commerce, and broadcast formats. Graded on A-F basis only. Prerequisite: junior standing.

**T\_A\_M 4001. Topics in Textiles and Apparel Management. 1-99 Credit.**

Selected current topics in field of interest.

**T\_A\_M 4085. Problems in Textiles and Apparel Management. 1-99 Credit.**

Selected current problems in field of interest. Prerequisites: junior standing and instructor's consent.

**T\_A\_M 4087. Seminar in Textiles and Apparel Management. 1-4 Credit.**

Reports and discussion of recent work in area of concentration.

**T\_A\_M 4100. Electronic Commerce Applications. 3 Credits.**

Integration of theory, design, management, and application processes used in Electronic Commerce. Prerequisite: Textile and Apparel Management [T\_A\_M] 3100.

**T\_A\_M 4110. Global Sourcing. 3 Credits.**

Global sourcing refers to how and where manufactured goods or components will be procured. In today's global softgoods industry, sourcing has become a major competitive strategy for both manufacturers and retailers. Graded on A/F basis only. Prerequisite: junior standing required.

**T\_A\_M 4130. Supply Chain Management. 3 Credits.**

This course examines how the supply chain management can be used to gain a competitive advantage in the softgoods industry. Prerequisite: Textile and Apparel Management [T\_A\_M] 3110 and junior standing.

**T\_A\_M 4200. Fundamentals of E-Commerce. 3 Credits.**

An overview of the development, present status, barriers, and future of e-commerce from a managerial point of view. Prerequisite: junior standing.

**T\_A\_M 4300. Softgoods Brand Management. 3 Credits.**

Management of branded product lines produced by textile and apparel firms; strategic implications of the development of brand equity toward increasing customer loyalty. Prerequisites: Textile and Apparel Management [T\_A\_M] 1100 or 1300 and Marketing [MRKTNG] 3000.

**T\_A\_M 4310. Global Retailing. 3 Credits.**

This course will examine how to apply retail concepts and activities to overseas markets, how to evaluate potential overseas markets, and how to develop global retail strategies. Prerequisite: Textile and Apparel Management [T\_A\_M] 1300.

**T\_A\_M 4480. Creativity and Problem Solving. 3 Credits.**

Exploration of the creative process and sources of inspiration. Emphasis on research, design development for a variety of markets. Prerequisite: Textile and Apparel Management [T\_A\_M] 3380. Graded A-F only.

**T\_A\_M 4500. History of Textile Manufacturing and Trade. 3 Credits.**

Focuses on changing issues affecting the textile and apparel industry today and examines those issues from both historic and current perspectives. Prerequisite: Textile and Apparel Management [T\_A\_M] 2500 or T\_A\_M 3510 or instructor's consent.

**T\_A\_M 4510. 19th and 20th Century Western Dress. 3 Credits.**

A study of nineteenth and twentieth century Western dress as influenced by time, place, and culture. Prerequisites: Textile and Apparel Management [T\_A\_M] 2500 or T\_A\_M 3510, or Theatre [THEATR] 1320 or instructor's consent.

**T\_A\_M 4549. International Experiential Learning in Textiles and Apparel. 1-99 Credit.**

International experience of textile and apparel management, including visitation of foreign industries, government agencies, and cultural/historical sites. Destination may vary. Course may be repeated up to 3 times. Prerequisite: instructor's consent; Minimum GPA of 2.5. Graded on A/F basis only.

**T\_A\_M 4820. Concluding Seminar, MU Global Connect. 3 Credits.**

This interdepartmental course serves as the concluding seminar for students pursuing the certificate of digital global studies. The course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries.

**T\_A\_M 4949. Field Training in Textiles and Apparel Management. 1-99 Credit.**

Practical aspects of internship experience coordinated with the university curriculum. Available for various areas of emphasis. Prerequisites: 2.5 GPA, Textile and Apparel Management [T\_A\_M] 2120, instructor's consent, and necessary prerequisite for area of emphasis.

**T\_A\_M 4960. Readings in Textiles and Apparel Management. 1-99 Credit.**

Selected current readings in field of interest. Prerequisites: senior standing and instructor's consent.

**T\_A\_M 4980. Apparel Production Management. 4 Credits.**

Integration of consumer, trend and aesthetic research to develop and produce a competitive apparel product line using a multifunctional team approach. Graded on A/F basis only. Prerequisites: Textile and Apparel Management [T\_A\_M] 3840 or 4480 or taking currently.

**T\_A\_M 4990. Retail Marketing and Merchandising. 3 Credits.**

Analytical management techniques appropriate for evaluation of retailing productivity. Emphasis on the use of these techniques and others in the development of a comprehensive retail marketing strategy. Prerequisites: Textile and Apparel Management [T\_A\_M] 2300, Accounting [ACCTCY] 2036, Marketing [MRKTNG] 3000.

**T\_A\_M 4998. Experiential Learning in Textiles and Apparel. 1-99 Credit.**

This course is designed to provide students with hands-on-experiences in the softgood industry. The purpose is to link classroom learning to business cultural centers, museums, workshops, and/or service learning opportunities achieved through experiential study. Additional field study fees might be applicable, depending on experience. Prerequisite:

instructor's consent and minimum GPA of 2.5. May be repeated for credit. Graded on A/F basis only.

**T\_A\_M 7001. Topics in Clothing and Textiles. 1-99 Credit.**

Selected current topics in field of interest. Prerequisite: graduate standing.

**T\_A\_M 7085. Problems in Clothing and Textiles. 1-99 Credit.**

Selected current readings in field of interest. Prerequisites: 3000-level course in field of problems and instructor's consent.

**T\_A\_M 7087. Seminar in Clothing and Textiles. 1-99 Credit.**

Reports and discussion of recent work in area of concentration. Prerequisite: graduate standing.

**T\_A\_M 7110. Global Sourcing. 3 Credits.**

Global sourcing refers to how and where manufactured goods or components will be procured. In today's global softgoods industry, sourcing has become a major competitive strategy for both manufacturers and retailers. Prerequisite: graduate standing and Textile and Apparel Management [T\_A\_M] 3110 or 9100.

**T\_A\_M 7120. Electronic Commerce Applications. 3 Credits.**

Integration of theory, design, management, and application processes used in electronic commerce. Prerequisite: graduate standing and Textile and Apparel Management [T\_A\_M] 3100.

**T\_A\_M 7140. Web-Based Marketing Research. 3 Credits.**

This project-oriented course will focus on principles of marketing research applicable to textile/apparel online environments. Students will learn how to develop, utilize, and analyze web-based research. Prerequisites: 3 hours of statistics and graduate standing.

**T\_A\_M 7200. E-Commerce. 3 Credits.**

An overview of the development, present status, barriers, and future e-commerce from a managerial point of view. Prerequisite: graduate standing.

**T\_A\_M 7300. Branding. 3 Credits.**

Management of branding product lines produced by textile and apparel firms; strategic implications of the development of brand equity toward increasing customer loyalty. Prerequisites: graduate standing.

**T\_A\_M 7310. Global Retailing. 3 Credits.**

This course will examine how to apply retail concepts and activities to overseas markets, how to evaluate potential overseas markets, and how to develop global retail strategies. Prerequisite: graduate standing.

**T\_A\_M 7500. History of Textile Manufacturing and Trade. 3 Credits.**

Focuses on changing issues affecting the textile and apparel industry today and examines those issues from both historic and current perspectives. Prerequisite: graduate standing.

**T\_A\_M 7960. Readings in Clothing and Textiles. 1-99 Credit.**

Readings in recent research material in textiles and/or clothing. Prerequisites: graduate standing, 20 hours in Textile and Apparel Management [T\_A\_M], and instructor's consent.

**T\_A\_M 7980. Softgoods Product Development. 3 Credits.**

Integration of consumer, trend and aesthetic research to develop and produce a competitive apparel product line using a multi-functional team approach. Prerequisites: Textile and Apparel Management [T\_A\_M] 3480 or 4480 or taking concurrently.

**T\_A\_M 7990. Retail Marketing and Merchandising. 3 Credits.**

Analytical management techniques appropriate for evaluation of retailing productivity. Emphasis on the use of these techniques and others in the

development of a comprehensive retail marketing strategy. Prerequisites: Textile and Apparel Management [T\_A\_M] 2300, Accountancy [ACCTCY] 2036, Marketing [MRKTNG] 3000.

**T\_A\_M 7999. International Experiential Learning in Textiles and Apparel. 1-99 Credit.**

Investigation of the complex interaction of manufacturing, marketing, and merchandising in the apparel industry, achieved through instructional and experiential study. Includes international or domestic study trip. Graded on A/F basis only.

**T\_A\_M 8000. Readings in Textiles and Apparel Management. 1-99 Credit.**

Readings in recent research material in textiles and/or clothing. Prerequisites: graduate standing, 20 hours in Textile and Apparel Management [T\_A\_M], and instructor's consent.

**T\_A\_M 8001. Topics in Clothing and Textiles. 1-99 Credit.**

Selected current topics in field of interest. Prerequisite: graduate standing.

**T\_A\_M 8085. Problems in Textiles and Apparel Management. 1-99 Credit.**

Selected current readings in field of interest. Prerequisites: 4000-level course in field of problem and instructor's consent.

**T\_A\_M 8087. Seminar in Clothing and Textiles. 1-99 Credit.**

Reports and discussion of recent work in area of concentration. Prerequisite: graduate standing.

**T\_A\_M 8090. Research in Clothing and Textiles. 1-99 Credit.**

Independent research leading to a thesis. Report required. Graded on S/U basis only.

**T\_A\_M 8130. Supply Chain Management in the Global Softgoods Industry. 3 Credits.**

This course examines supply chain management strategies to gain a competitive advantages in the global softgoods industry. Prerequisite: graduate standing.

**T\_A\_M 8190. Survey of Research in Textile and Apparel Management. 1-6 Credit.**

A survey of current research in textiles and apparel management. Underlying theory, research design and empirical techniques will be analyzed and critiqued. Prerequisites: graduate standing, 3 hours in Statistics and 3 hours in Research Methods.

**T\_A\_M 8410. Applied Research Procedures and Analyses in Textiles and Apparel. 3 Credits.**

Investigation of applied research techniques and analyses used in the field of Textile and Apparel Management. Prerequisites: 3 credits of merchandising, marketing, or microeconomics; 3 credits in computer science [CMP\_SC] and 3 credits in statistics [STAT].

**T\_A\_M 8500. Qualitative Social Research Methods. 3 Credits.**

Focus is on the philosophical differences inherent in an interpretivist versus a positivist approach to social research, the strategies and methods of qualitative research, and qualitative research design and criticism. Prerequisite: graduate standing. May be repeated twice.

**T\_A\_M 8510. Perspectives of 19th and 20th Century Dress. 3 Credits.**

A study of nineteenth and twentieth century western dress as influenced by time, place, and culture. Prerequisites: graduate standing.

**T\_A\_M 8600. Sustainable Softgoods: Global Policies and Practices. 3 Credits.**

This course examines sustainability in the soft goods industry in the context of cultural, economic, environmental, social, and technological policies and procedures of soft goods industries. Includes ethics, government policies international labor standards, environmental regulations, company priorities, consumer responsibilities, economic impact, and worker rights. The importance of establishing leadership for social change will be incorporated. Prerequisite: graduate standing. Graded on A/F basis only.

**T\_A\_M 8960. Readings in Clothing and Textiles. 1-99 Credit.**

Readings in recent research material in textiles and/or clothing. Prerequisites: graduate standing, 20 hours in Textile and Apparel Management [T\_A\_M], and instructor's consent.

**T\_A\_M 9001. Topics in Clothing and Textiles. 1-99 Credit.**

Selected current topics in field of interest. Prerequisite: graduate standing.

**T\_A\_M 9085. Problems in Textiles and Apparel Management. 1-99 Credit.**

Selected current readings in field of interest. Prerequisites: 4000-level course in field of problem and instructor's consent.

**T\_A\_M 9087. Seminar in Clothing and Textiles. 1-99 Credit.**

Reports and discussion of recent work in area of concentration. Prerequisite: graduate standing.

**T\_A\_M 9090. Research in Textiles and Apparel Management. 1-99 Credit.**

Independent research leading to dissertation. Graded on a S/U basis only.

**T\_A\_M 9110. Advanced Textiles and Apparel in the Global Economy. 3 Credits.**

Advanced analysis of economic aspects of the domestic and international textile and apparel industries. Prerequisites: Textile and Apparel Management [T\_A\_M] 1100 and 6 hours of economics.

**T\_A\_M 9150. International Trade in Textiles and Apparel. 3 Credits.**

Economic, social, and political aspects of international production and trade of textiles and apparel. Prerequisites: Economics [ECONOM] 4326, and Textile and Apparel Management [T\_A\_M] 9110, or instructor's consent.

**T\_A\_M 9190. Theory Development and Evaluation in Textile and Apparel Research. 3 Credits.**

This class examines and analyzes extant theories in textiles and apparel research in systemic manner to be able to construct new theories. Prerequisite: graduate standing. Graded on A/F basis only.

**T\_A\_M 9500. Cloth and the Human Experience. 3 Credits.**

Examines the social context of dress and other intimate manifestations of daily life using culture as the level of analysis.

**T\_A\_M 9510. Textile History Seminar. 3 Credits.**

Investigation of research in textile and costume history with emphasis on developing questions, methods of analysis and interpretation appropriate for data sources used. Prerequisite: graduate standing.

**T\_A\_M 9960. Readings in Clothing and Textiles. 1-99 Credit.**

Readings in recent research material in textiles and/or clothing. Prerequisites: graduate standing, 20 hours in Textile and Apparel Management [T\_A\_M], and instructor's consent.

## Theatre (THEATR)

---

**THEATR 1005. Topics in Theatre - Humanities/Fine Arts. 1-99 Credit.**

Organized study of selected topics. Subject and credit may vary from semester to semester. May be repeated with departmental consent. Prerequisite: instructor's consent.

**THEATR 1100. The Theatre in Society. 3 Credits.**

Examines the form and meaning of theatre in civilizations of the West from the ancient Greeks to modern times. Restricted to Freshman and Sophomores only.

**THEATR 1200. Voice and Articulation. 2 Credits.**

Techniques for improving speaking voice; theories underlying techniques. Attention to student's articulation, pronunciation, voice quality, general expressiveness.

**THEATR 1250. World Theatre Workshop. 2 Credits.**

(same as Black Studies [BL\_STU] 1250). Provides a diverse ensemble of student performers, writers, and technicians with an intensive immersion in the process of theatrical production through the public presentation of dramatic literature that focuses on global issues of ethnicity and culture.

**THEATR 1320. Beginning Scenic Construction Lab. 3 Credits.**

Practical experience constructing and rigging theatrical scenery, properties, and stage lighting. Requires evening crew assignment.

**THEATR 1340. Beginning Costume Construction Lab. 3 Credits.**

Learn the basic sewing skills used in costume construction, through lecture, demonstration and practical application. Requires evening crew assignment.

**THEATR 1360. Stage Makeup. 1 Credit.**

Character analysis, facial anatomy, color for stage and television makeup. Practice in application.

**THEATR 1400. Acting for Non-Majors. 3 Credits.**

Basic theory and practice of acting for the non theatre major. Restricted to Freshman and Sophomores only.

**THEATR 1420. Stage Movement for the Actor. 2 Credits.**

Basic work in the techniques that comprise movement training for the actor.

**THEATR 1720. African-American Theatre History. 3 Credits.**

(same as Black Studies [BL\_STU] 1720). A historical and critical analysis of the evolution of African American cultural performance in the American theatre and entertainment industry.

**THEATR 2005. Topics in Theatre. 3 Credits.**

Organized study of selected topics. Subject and credit may vary from semester to semester. May be repeated with department consent. Prerequisite: instructor's consent.

**THEATR 2150. African-American Cinema. 3 Credits.**

(same as Black Studies [BL\_STU] 2150). Study of the impact of cinema and the entertainment industry on the social perceptions of African-Americans and on African-American culture.

**THEATR 2200. Introduction to Performance Studies. 3 Credits.**

This course focuses on the writing of adaptations for the stage through performance. Students develop skills in critical reading, writing, listening, speaking and analysis of performance as they study oral and literary texts, autobiography and narratives.

**THEATR 2300. Production Workshop I. 1 Credit.**

Work backstage in support of university theatre productions. Scenery, lighting, costumes, properties or other responsibilities. May be repeated. Prerequisite: instructor's consent. Graded on a S/U basis only.

**THEATR 2330. Stage Management. 3 Credits.**

Study of the role of the theatre stage manager. Practice in becoming effective in planning and stage managing theatre productions. Graded on A/F basis only.

**THEATR 2360. Stagecraft. 3 Credits.**

Fundamentals of properties and scenic construction stressing terminology and practical production experience. Prerequisite: Theatre [THEATR] 1320.

**THEATR 2410. Performance Workshop. 1 Credit.**

Credit for performance in University Theatre Production. Must audition and be cast to receive credit. May be repeated. Graded on S/U basis only.

**THEATR 2510. Introduction to Theatre Design. 3 Credits.**

Design principles and elements as they relate to theatre performance. Use of drawing and creative 3-dimensional exercises to develop design concepts. Recommended to students interested in directing, playwriting, and design for the theatre.

**THEATR 2710. Introduction to Theatre History. 3 Credits.**

Survey of major periods emphasizing the produced play in its historical context.

**THEATR 2800. Principles of Script Analysis. 3 Credits.**

Methodologies of script analysis for theatrical purposes. Extensive writing will be required. Prerequisite: English [ENGLSH] 1000.

**THEATR 2920. Beginning Playwriting. 3 Credits.**

(same as English [ENGLSH] 2560). Study and practice of playwriting fundamentals; emphasizes the one-act play.

**THEATR 3005. Topics in Theatre. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with departmental consent. Prerequisites: junior standing and instructor's consent.

**THEATR 3005H. Topics in Theatre - Honors. 1-99 Credit.**

Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with departmental consent. Prerequisites: junior standing and instructor's consent. Honors eligibility required.

**THEATR 3100. Summer Repertory Theatre. 1-99 Credit.**

Participation in production of Summer Repertory Theatre. May be repeated. Prerequisite: instructor's consent.

**THEATR 3200. Performance of Literature. 3 Credits.**

(same as English [ENGLSH] 3570 and Communication [COMMUN] 3570). Analysis and oral interpretation of literary works. Graded on A/F basis only. Prerequisite: sophomore standing.

**THEATR 3230. Vocal Performance Technique. 3 Credits.**

This course develops the ability to use the voice as a creative and expressive instrument through a comprehensive study of speech and voice dynamics which include the exploration of proper breathing, relaxation, tonal placement, and non-regional articulation.

**THEATR 3300. Production Workshop II. 1 Credit.**

Credit earned in a technical project in support of a University Theatre production. Scenery, costumes, properties, or other responsibilities. May

be repeated to total of 3 hours. Prerequisite: instructor's consent. Graded on S/U basis only.

**THEATR 3310. Costume Crafts. 3 Credits.**

To develop the skills and techniques needed in executing costume crafts, including millinery, corsetry, painting and dyeing, and embellishment.

**THEATR 3320. Theatrical Patternmaking. 3 Credits.**

Patternmaking for the theatre. Basic knowledge of sewing required. Prerequisite: Theatre [THEATR] 1340 or Textile and Apparel Management [T\_A\_M] 1200.

**THEATR 3330. Advanced Costume Construction. 3 Credits.**

Learn advanced techniques in theatrical costuming through lecture, demonstration and practical application. Prerequisite: Theatre [THEATR] 1340 and instructor's consent.

**THEATR 3340. Scene Painting. 2 Credits.**

Studio practice in techniques of painting scenery for the Theatre. Prerequisite: instructor's consent.

**THEATR 3420. Acting I. 3 Credits.**

Basic theory, practice of acting, stage movement.

**THEATR 3430. Acting II. 3 Credits.**

Script analysis, character and role development in modern and contemporary non-realistic theatrical forms. Rehearsal and presentation of scenes, based on contemporary dramatic and performance theory. Prerequisite: Theatre [THEATR] 2800.

**THEATR 3530. Computer Graphics in Theatre Design. 3 Credits.**

The use of graphics and CAD software to create theatre designs. The course will progress from 2D CAD drafting to 3D image rendering. Prerequisite: sophomore standing.

**THEATR 3540. Advanced Stage Makeup. 2 Credits.**

Advanced practical experience in stage makeup techniques. Projects might include: mask making, ventilation, advanced character applications. Practice in application. Graded on A/F basis only. Prerequisite: Theatre [THEATR] 1360 and instructor's consent.

**THEATR 3550. Sound Design. 3 Credits.**

Beginning sound design for the theatre. Units include basics of researching, recording, and augmenting sound for the use in a theatrical production. Prerequisite: Theatre [THEATR] 1320 and instructor's consent.

**THEATR 3560. Scene Design. 3 Credits.**

Theory/practice of scenic design for the theatre with emphasis on the evolutionary process of design from concept to reality. Prerequisite: Theatre [THEATR] 2510, 3530, or instructor's consent.

**THEATR 3600. Theatrical Directing. 3 Credits.**

Theory and practice of play directing, script selection, casting, play analysis, rehearsal and performance. Prerequisite: Theatre [THEATR] 2800 and instructor's consent.

**THEATR 3700. World Dramatic Literature. 3 Credits.**

(same as English [ENGLSH] 3170). Survey of world drama from Greeks to present, focusing on structure, theory and performance. Prerequisite: Theatre [THEATR] 2710 and 2800.

**THEATR 3750. New American Theatre. 3 Credits.**

Survey of drama of the most recent decade as it documents contemporary mores and amplifies cultural themes. Prerequisite: Theatre [THEATR] 2800.

**THEATR 3770. The Theatre Experience: From Page to Stage and Screen. 3 Credits.**

Stimulates critical thinking about theatrical performance, its relationship to the society of which it is a part, and its past and present significance as an art form, a cultural resource, a social institution, and a commercial enterprise. Prerequisite: sophomore standing; restricted to Journalism Majors.

**THEATR 3920. Intermediate Playwriting. 3 Credits.**

(same as English [ENGLSH] 3560). Intermediate study of the writing process as applied to theatre, leading to the creation of a full-length play to be considered for production. Prerequisite: Theatre [THEATR] 2920 or ENGLSH 2560.

**THEATR 3930. Screenwriting for Television and Film. 3 Credits.**

(same as Film Studies [FILM\_S] 3930). Fundamentals of storytelling utilizing tools and structure used by television and film. Prerequisite: English [ENGLSH] 1000.

**THEATR 4005. Topics in Theatre. 1-99 Credit.**

Organized study of selected topics. Topic and credit may vary semester to semester. May be repeated with department consent. Prerequisite: instructor's consent.

**THEATR 4220. Acting III. 3 Credits.**

Period acting styles. Special projects in interpretation, rehearsal, creation of roles. Prerequisites: Theatre [THEATR] 2800 and 3420 or 3430.

**THEATR 4240. Theory and Practice of Theatre of the Oppressed. 3 Credits.**

(same as Peace Studies [PEA\_ST] 4240). Theory and practice of Augusto Boal's liberatory interactive theatre process, including application of techniques of specific social issues. Prerequisite: instructor's consent.

**THEATR 4460. Musical Theatre Performance. 3 Credits.**

A practical study for the actor of theatrical songs through character analysis, lyric interpretation and movement. A performance course. Prerequisite: instructor's consent.

**THEATR 4530. Stage Lighting Design. 3 Credits.**

Theory and practice of lighting for theatre production. Prerequisite: instructor's consent.

**THEATR 4570. Theatrical Costume Design. 3 Credits.**

Basic practice in costume rendering using charcoal, crayon, ink, watercolor and other media. Costume history, both theatrical and general, will be surveyed. Basic problems of theatre design will be considered. Prerequisite: Theatre [THEATR] 1320 or 1340.

**THEATR 4600. Advanced Directing. 3 Credits.**

Advanced principles of theatrical directing; emphasizes stylistic variations. May be repeated once. Prerequisite: Theatre [THEATR] 3600 and instructor's consent.

**THEATR 4650. Introduction to Dramaturgy. 3 Credits.**

The course focuses on the practice of dramaturgy and the various functions currently performed by the artist/scholar identified as "dramaturg" including research, dramatic criticism/interpretation, new play development, marketing and educational outreach, and textual adaptation.

**THEATR 4700. Studies in Theatre History. 3 Credits.**

Advanced survey of major periods, movements. Prerequisite: senior standing. Repeatable to a maximum of 6 hours with instructor's consent.

**THEATR 4720. American Musicals. 3 Credits.**

(same as Music-History and Literature [MUS\_H\_LI] 4376). Historical survey of the development of the 20th-Century American Musical in Theatre and Film.

**THEATR 4730. Theatre Architecture. 3 Credits.**

Examines the renovation of existing buildings into workable theatre spaces. Includes history of theatre architecture. Prerequisite: instructor's consent.

**THEATR 4800. Studies in Dramatic Theory. 3 Credits.**

Analysis of history, meaning and function of selected concepts of contemporary dramatic and performance theory. Prerequisite: senior standing.

**THEATR 4820. Studies in Dramatic Literature. 3 Credits.**

Advanced survey of major movements, periods, writers. Prerequisite: senior standing. Repeatable to a maximum of 6 hours with instructor's consent.

**THEATR 4830. Studies in Dramatic Criticism. 3 Credits.**

Survey of methods of criticism of scripts and performances. Prerequisite: senior standing.

**THEATR 4920. Advanced Playwriting: Problems. 3 Credits.**

(same as English [ENGLSH] 4560). Advanced study of the writing process as applied to theatre, including theory and practice of special playwriting problems and techniques. Prerequisite: Theatre [THEATR] 3920 or ENGLSH 3560.

**THEATR 4930. Adaptation of Literature for the Stage. 3 Credits.**

(same as English [ENGLSH] 4570). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for the stage.

**THEATR 4935. Adaptation of Literature for Film. 3 Credits.**

(same as Film Studies [FILM\_S] 4935 and English [ENGLSH] 4935). This upper-division course will explore adaptation principles and practices with a variety of forms for literature that were not originally written for film.

**THEATR 4940. Internship in Theatre. 1-6 Credit.**

Internship: Experimental learning as an actor, designer, technician, publicist/manager, or dramaturg with an approved theatre company. Prerequisites: junior/senior standing and departmental consent. S/U graded only.

**THEATR 4960. Directed Readings in Theatre. 1-3 Credit.**

Independent reading, reports. Prerequisite: instructor's consent.

**THEATR 4990. Capstone in Theatre. 1 Credit.**

Theatre experiences and knowledge gained by students are connected through compilation of resume and portfolio. Student will meet with faculty jury to discuss his/her body of theatrical work. Required for senior theatre students. Prerequisite: instructor's consent. Graded on S/U basis only.

**THEATR 7005. Topics. 1-99 Credit.**

Organized study of selected topics. Topic and credit may vary semester to semester. May be repeated with department consent. Prerequisite: graduate standing and instructor's consent.

**THEATR 7220. Acting III. 3 Credits.**

Period acting styles. Special projects in interpretation, rehearsal, creation of roles. Prerequisites: graduate standing Theatre [THEATR] 2800 and 3420 or 3430.

**THEATR 7240. Theory and Practice of Theatre of the Oppressed. 3 Credits.**

(same as Peace Studies [PEA\_ST] 7240). Theory and practice of Augusto Boal's liberatory interactive theatre process, including application of techniques of specific social issues. Prerequisite: instructor's consent.

**THEATR 7530. Stage Lighting Design. 3 Credits.**

Theory and practice of lighting for theatre production. Prerequisite: graduate standing instructor's consent.

**THEATR 7600. Advanced Directing. 3 Credits.**

Advanced principles of theatrical directing; emphasizes stylistic variations. May be repeated once. Prerequisite: graduate standing and Theatre [THEATR] 3600 and instructor's consent.

**THEATR 7700. Studies in Theatre History. 3 Credits.**

Advanced survey of major periods, movements. Prerequisite: graduate standing. Repeatable to a maximum of 6 hours with instructor's consent.

**THEATR 7710. History of American Theatre I. 3 Credits.**

Examination of theatrical literature and production from the beginnings to World War One. Prerequisites: graduate standing and instructor's permission.

**THEATR 7720. History of the American Theatre II. 3 Credits.**

Examination of theatrical literature and production from World War One to the present. Prerequisite: graduate standing and instructor's permission.

**THEATR 7730. Theatre Architecture. 3 Credits.**

Examines the renovation of existing buildings into workable theatre spaces. Includes history of theatre architecture. Prerequisite: graduate standing and instructor's consent.

**THEATR 7800. Studies in Dramatic Theory. 3 Credits.**

Analysis of history, meaning and function of selected concepts of contemporary dramatic and performance theory. Prerequisite: graduate standing.

**THEATR 7820. Studies in Dramatic Literature. 3 Credits.**

Advanced survey of major movements, periods, writers. Prerequisite: graduate standing. Repeatable to a maximum of 6 hours with instructor's consent.

**THEATR 7830. Studies in Dramatic Criticism. 3 Credits.**

Survey of methods of criticism of scripts and performances. Prerequisite: graduate standing.

**THEATR 7920. Advanced Playwriting: Problems. 3 Credits.**

(same as English [ENGLSH] 7560). Advanced study of the writing process as applied to theatre, including theory and practice of special playwriting problems and techniques. Prerequisite: graduate standing and Theatre [THEATR] 3920 or English [ENGLSH] 3560.

**THEATR 7930. Adaptation of Literature for the Stage. 3 Credits.**

(same as English [ENGLSH] 7570). Explores adaptation principles and practices with a variety of forms of literature that were not originally written for the stage. Prerequisite: graduate standing and instructor's consent.

**THEATR 7935. Adaptation of Literature for Film. 3 Credits.**

(same as English [ENGLSH] 7580 and Film Studies [FILM\_S] 7935). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for film.

**THEATR 7950. Introduction to Dramaturgy. 3 Credits.**

This course focuses on the practice of dramaturgy and the various functions currently performed by the artist/scholar identified as

"dramaturg" including research, dramatic criticism/interpretation, new play development, marketing and educational outreach, and textual adaptation. Graduate Standing Required. Graded on A/F basis only.

**THEATR 7960. Directed Readings in Theatre. 1-3 Credit.**

Independent reading, reports. Prerequisite: graduate standing and instructor's consent.

**THEATR 8005. Topics in Theatre. 1-99 Credit.**

Organized study of selected topics. Topic and credit may vary from semester to semester. May be repeated with department consent. Prerequisite: instructor's consent.

**THEATR 8090. Research in Theatre. 1-99 Credit.**

Independent research of advanced nature leading to report. Prerequisite: instructor's consent. Graded on S/U basis only.

**THEATR 8100. Theatre Scholarship. 3 Credits.**

History, goals, and techniques of academic writing in theatre including research, types of studies, primary materials, interpretation, writing techniques, and publication. Prerequisite: graduate standing.

**THEATR 8385. Problems in Theatre. 1-99 Credit.**

Individual study/project not leading to thesis or dissertation. Prerequisite: instructor's consent.

**THEATR 8720. Backgrounds of Modern Theatre Practice. 3 Credits.**

Survey of modern performance theory, aesthetics and practice. Emphasis on European theatre since 1875. May be repeated.

**THEATR 8787. Seminar in Theatre History. 3 Credits.**

Selected problems in theatre history. May be repeated.

**THEATR 8820. Graduate Seminar in Dramatic Literature. 3 Credits.**

This is a course that explores the influence of major playwrights and playwriting in society--specific playwrights and their works are determined by the course professor.

**THEATR 8887. Seminar in Dramatic Theory and Criticism. 3 Credits.**

Selected topics in dramatic theory and criticism. May be repeated.

**THEATR 8960. Directed Readings in Theatre. 1-3 Credit.**

Independent reading, reports. Prerequisite: graduate standing and instructor's consent.

**THEATR 8987. Graduate Seminar in Playwriting. 3 Credits.**

(same as English [ENGLSH] 8560). Seminar in theory, practice, and pedagogy of playwriting, students prepare a mid-term in playwriting theory, a full-length play, a research paper, and a syllabus and lesson plans for an undergraduate playwriting course.

**THEATR 9090. Research in Theatre. 1-99 Credit.**

Research leading to thesis or dissertation. Prerequisite: instructor's consent. Graded on a S/U basis only.

---

## Veterinary Biomedical Science (V\_BSCI)

---

**V\_BSCI 5011. Veterinary Anatomy. 3 Credits.**

In-depth study of the structure of the horse, ox, sheep, goat, pig and avian species. (Instructional periods 3 and 4).

**V\_BSCI 5012. Veterinary Anatomy with Laboratory. 3 Credits.**

Continuation of Veterinary Biomedical Science 5011. In-depth study of the structure of the horse, ox, sheep, goat, pig and avian species. (Instructional periods 3 and 4).

**V\_BSCI 5020. Developmental Anatomy. 0.5 Credits.**

Provides a comprehensive and rational interpretation of the intricate mechanisms of normal development to better understanding the complex anatomy of the adult. A substantial portion will be dedicated to commonly encountered congenital abnormalities for each major organ system. Prerequisites: 1st year Veterinary students.

**V\_BSCI 5021. Developmental Anatomy. 0.5 Credits.**

Provides a comprehensive and rational interpretation of the intricate mechanisms of normal development to better understanding the complex anatomy of the adult. A substantial portion will be dedicated to commonly encountered congenital abnormalities for each major organ system. Prerequisites: 1st year Veterinary students.

**V\_BSCI 5051. Veterinary Gastrointestinal. 2 Credits.**

Continuation of Veterinary Biomedical Science 5504. Physiology of the gastrointestinal tract, exocrine pancreas and liver. Lecture and lab designed to emphasize principles important to the practice of veterinary medicine.

**V\_BSCI 5052. Veterinary Endocrinology and Reproductive Physiology. 2 Credits.**

Continuation of Veterinary Biomedical Science 5051. Comparative endocrinology and reproductive biology.

**V\_BSCI 5100. Veterinary Neuroscience. 2 Credits.**

A laboratory and lecture-based course emphasizing the applied anatomy and physiology of the nervous system of domestic animals. Prerequisite: first year Veterinary students.

**V\_BSCI 5500. Veterinary Anatomy with Laboratory. 4 Credits.**

Correlative study of the anatomy of domestic and laboratory animals in which the developmental and gross anatomy are integrated. A segment is devoted to neuroanatomy. Dissection includes the dog, cat and common laboratory animals. (Instructional periods 1 and 2).

**V\_BSCI 5502. Veterinary Microscopic Anatomy with Laboratory. 3 Credits.**

A study of microscopic anatomy including cytology, histology of basic tissues and microscopic anatomy of cardiovascular, urinary, respiratory systems and the special senses and integument. (Instructional periods 1 and 2).

**V\_BSCI 5503. Veterinary Microscopic Anatomy. 2 Credits.**

Particular attention to digestive systems, endocrine organs and reproductive systems. (Instructional period 3).

**V\_BSCI 5504. Veterinary Physiology. 5 Credits.**

This course is designed to provide an opportunity and motivation for the student to acquire an understanding of the physiological principles on which rational therapy in medical practice is based. Topics include: Cellular Neurophysiology, Muscle, Cardiovascular, Renal and Respiratory Physiology. The course also encourages the student to apply these principles in solving problems so that it becomes habitual for him or her to think in terms of "mechanisms of action" as he or she approaches a problem in disturbed physiology.

**V\_BSCI 5506. Veterinary Molecular and Cellular Biology. 4 Credits.**

(same as Veterinary Biomedical Sciences [V\_BSCI] 7333) A comprehensive course overviewing molecular and biochemical issues

of cell function especially as related to medicine and the underlying molecular causes of disease.

**V\_BSCI 5507. Veterinary Pharmacology with Laboratory. 3 Credits.**

General principles of pharmacy, pharmacokinetics, and pharmacodynamics, with emphasis on drugs affecting the central and autonomic nervous system, cardiovascular and hematologic systems.

**V\_BSCI 5508. Veterinary Pharmacology. 2 Credits.**

Continuation of Veterinary Biomedical Science 5507. Antiseptics, autocoids, hemostatics and anticoagulants, fluid and electrolytes, reproductive, endocrine, and gastrointestinal drugs.

**V\_BSCI 5509. Veterinary Toxicology. 3 Credits.**

(Same as V\_BSCI 8509) Local and various systemic clinical responses of domestic animals to foreign chemicals including metals, pesticides, water-and food-borne agents, biotoxins, industrial and plant toxins. The principles, mechanism(s) of action, diagnosis, prevention and treatment of chemical intoxications are also presented.

**V\_BSCI 7010. Life Sciences Research: Models and Methods. 3 Credits.**

(same as Biomedical Sciences [BIOMED] 7010). A review of basic laboratory animal and non-animal research models and procedures commonly used in the life sciences area in academia and drug/chemical industry. Prerequisite: Biology or Cell Biology; graduate standing required. Graded on A/F basis only.

**V\_BSCI 7085. Problems in Veterinary Biomedical Science. 1-99 Credit.**

Assignment of special problems or topics for training in research.

**V\_BSCI 7302. Cytology, Histology, and Organology of Domestic Animals I. 3 Credits.**

Detailed study of the structure and function of the cell, basic tissues (epithelium, connective tissue, muscle, nervous tissue) and several organ systems (cardiovascular, lymphatic, integument, digestive, visual, auditory) of domestic mammals and birds. Prerequisites: graduate standing, background in biological sciences, instructor's consent.

**V\_BSCI 7303. Cytology, Histology and Organology of Domestic Animals II. 2 Credits.**

Detailed study of the liver, gallbladder, and pancreas, urinary system, respiratory system, endocrine glands, female reproductive system, placenta, male reproductive system, and integument (hoof and claw) of domestic mammals and birds. Prerequisites: Veterinary Biomedical Science [V\_BSCI] 7303 and instructor's consent.

**V\_BSCI 7307. Embryology and Development of Domestic Animals. 2 Credits.**

Developmental anatomy of domestic animals. Special written report and/or review required. Prerequisites: background in biological science and departmental consent.

**V\_BSCI 7333. Veterinary Cell Biology. 4 Credits.**

(same as Veterinary Biomedical Science [V\_BSCI] 5506). Course material stresses cell biology as related to animal health and medical issues. A comprehensive course overviewing molecular and biochemical issues of cell function especially as related to medicine and the underlying molecular causes of disease. Prerequisite: instructor's consent.

**V\_BSCI 8010. Comparative Anatomy of Cardiovascular System. 1 Credit.**

The systemic and pulmonary circulation. The heart and vessels in detail. One midterm exam and final paper. Laboratory included.

**V\_BSCI 8085. Problems in Veterinary Biomedical Science. 1-99 Credit.**

Selected problems and/or topics for advanced study in special areas to meet needs of individual students.

**V\_BSCI 8090. Research in Veterinary Biomedical Science. 1-99 Credit.**

Open to graduate students with requisite preparation. Research expected to be presented as a thesis. Graded on a S/U basis only.

**V\_BSCI 8100. Veterinary Neuroscience. 2 Credits.**

A laboratory and lecture based course emphasizing the applied anatomy and physiology of the nervous system of domestic animals. Restricted to first year veterinary students or graduate students.

**V\_BSCI 8405. Membrane Structure and Function. 3 Credits.**

The structure and function of biological membranes are examined from a biochemical perspective. Topics include membrane proteins, transport, membrane biogenesis, and analytical techniques. Prerequisites: Veterinary Biomedical Science [V\_BSCI] 7303 or equivalent, graduate standing and instructor's consent.

**V\_BSCI 8409. Advanced Microscopic Anatomy. 1-99 Credit.**

Advanced study of selected topics in vertebrate microscopic anatomy. Special report required. Prerequisites: departmental consent.

**V\_BSCI 8410. Seminar in Veterinary Biomedical Science. 1 Credit.**

Presentation and discussion of investigations and topics in veterinary anatomy-physiology or related fields, by qualified students, instructors, and guests. Prerequisite: departmental consent.

**V\_BSCI 8420. Veterinary Physiology. 5 Credits.**

This course is designed to provide an opportunity and motivation for the student to acquire an understanding of the physiological principles on which rational therapy in medical practice is based. Topics include: Cellular Neurophysiology, Muscle, Cardiovascular, Renal and Respiratory Physiology. The course also encourages the student to apply these principles in solving problems so that it becomes habitual for him or her to think in terms of "mechanisms of action" as he or she approaches a problem in disturbed physiology. Prerequisites: Biochemistry [BIOCHM] 4270 and 4272.

**V\_BSCI 8421. Veterinary Physiology. 5 Credits.**

Continuation of Veterinary Biomedical Science 8420. Physiology of the gastrointestinal tract, exocrine pancreas and liver. Lecture and lab designed to emphasize principles important to the practice of veterinary medicine.

**V\_BSCI 8450. Research in Veterinary Biomedical Science. 1-99 Credit.**

Open to graduate students with requisite preparation. Research expected to be presented thesis.

**V\_BSCI 8509. Veterinary Toxicology. 3 Credits.**

(Same as Veterinary Biomedical Science [V\_BSCI] 5509) Local and various systemic clinical responses of domestic animals to foreign chemicals including metals, pesticides, water-and food-borne agents, biotoxins, industrial and plant toxins. The principles, mechanism(s) of action, diagnosis, prevention and treatment of chemical intoxications are also presented. Graded A/F only. Graduate standing required/.

**V\_BSCI 9090. Research in Veterinary Biomedical Sciences. 1-99 Credit.**

Research in Veterinary Biomedical Sciences. Graded on S/U basis only.

**V\_BSCI 9425. Microvascular Circulatory Function. 3 Credits.**

An in-depth study of microcirculatory structure and function in various tissues with emphasis on recent developments in the understanding of the mechanisms involved in nutrient supply, edema formation, lymphatic function and fluid balance. Prerequisite: Veterinary Biomedical Science [V\_BSCI] 8420 and 8422 or Mammalian Physiology or equivalent.

**V\_BSCI 9431. Control of Energy Metabolism. 1-3 Credit.**

(same as Medical Pharmacology and Physiology [MPP] 9431). This advanced elective is in a lecture/discussion format using primary literature to explore how cells organize and regulate metabolism to meet energy demands. Prerequisite: instructor's consent.

**V\_BSCI 9435. Skeletal Muscle. 3 Credits.**

(same as Medical Pharmacology and Physiology [MPP] 9435). Skeletal muscle structure, contraction, mechanics, metabolism, adaption. Graded on A/F basis only.

**V\_BSCI 9467. Neural Control of the Circulation. 3 Credits.**

(same as Medical Pharmacology and Physiology [MPP] 9437). Course objectives include developing a general understanding of CNS mechanisms in the regulation of the cardiovascular system, including autonomic, neurohumoral and body fluid homeostatic mechanisms, gaining knowledge of the major advances and topics in the field and becoming familiar with some of the methods used to study CNS cardiovascular regulation. Graded on A/F basis only. Prerequisites: instructor's consent.

---

## Veterinary Medicine - Interdisciplinary (VMED\_I)

---

**VMED\_I 5120. Full-Time Enrollment. 16-99 Credit.**

Full-Time Enrollment.

**VMED\_I 5190. Full-Time Enrollment. 16-99 Credit.**

Full-Time Enrollment.

---

## Veterinary Medicine And Surgery (V\_M\_S)

---

**V\_M\_S 6005. Clinical Skills. 0.5 Credits.**

A hands -on laboratory class to provide experience with handling and examining Horses, Cattle, Small ruminants and Camelid species, Cats and Dogs for veterinary students. Prerequisite: first year veterinary students. Graded on S/U basis only.

**V\_M\_S 6006. Clinical Skills. 0.5 Credits.**

A hands -on laboratory class to provide experience with handling and examining Horses, Cattle, Small ruminants and Camelid species, Cats and Dogs for veterinary students. Prerequisite: first year veterinary students. Graded on S/U basis only.

**V\_M\_S 6010. Evaluated Veterinary Preceptorship. 1-99 Credit.**

This required co-op style course provides the student with practical exposure and experience in nonacademic veterinary medicine. Duration of 2-6 weeks. Prerequisite: VM-3 standing. Graded on S/U basis only.

**V\_M\_S 6020. Veterinary Radiology with Laboratory. 2 Credits.**

Introduces through lectures and demonstrations the principles of radiographic examination and interpretation of disease processes of domestic animals. Instructional period 8.

**V\_M\_S 6030. Veterinary Anesthesiology with Laboratory. 2 Credits.**  
Basic principles of anesthesiology for any species of domestic and exotic animals. Instructional period 9.

**V\_M\_S 6040. Companion Animal Medicine with Laboratory. 4 Credits.**  
Covers basic principles of veterinary internal medicine and selected subdisciplines. Instructional period 9.

**V\_M\_S 6050. Small Animal Medicine. 2.5 Credits.**  
Didactic presentations regarding pathophysiology, diagnosis and therapeutic management of organ system diseases in small animals. Instructional period 10.

**V\_M\_S 6060. Small Animal Surgery with Laboratory. 2 Credits.**  
Basic principles including suture materials and patterns; operative techniques, wound healing of soft tissue surgery. Instructional period 9.

**V\_M\_S 6071. Small Animal Surgery. 2 Credits.**  
Continuation of Veterinary Medicine and Surgery 6060 lectures, focusing primarily on orthopedics. Instructional period 10.

**V\_M\_S 6072. Conventional Surgery and Anesthesia Laboratory. 0.5 Credits.**  
Designed to teach entry-level surgical and anesthesia skills terminal procedures. Instructional period 10.

**V\_M\_S 6073. Fundamental Surgery and Anesthesia Laboratory. 0.5 Credits.**  
Designed to teach entry-level surgical and anesthesia skills using cadavers and survival spay and neuter procedures. This laboratory is offered as a substitute to Veterinary Medicine and Surgery 6072 for students with objections to participating in terminal procedure laboratories. Instructional period 11.

**V\_M\_S 6081. Food Animal Medicine and Surgery. 2.5 Credits.**  
Covers the important diseases of cattle, goats, sheep and swine. Recognition, management and prevention of diseases are stressed. Instructional period 10.

**V\_M\_S 6082. Food Animal Medicine and Surgery. 2 Credits.**  
Continuation of Veterinary Medicine and Surgery 6081. Covers the important diseases of cattle, goats, sheep and swine. Recognition, management and prevention of diseases are stressed. Instructional period 11.

**V\_M\_S 6090. Small Animal Emergency and Critical Care with Laboratory. 1 Credit.**  
Basic principles of emergency and critical care of companion animals. Instructional period 10.

**V\_M\_S 6110. Theriogenology. 3 Credits.**  
Fundamentals for reproductive function of domestic animals, medical and surgical management of diseases of reproductive systems. Instructional period 11.

**V\_M\_S 6120. Veterinary Ophthalmology. 1 Credit.**  
Covers examination, diagnostic procedures and treatment of important eye diseases of domestic animals. Instructional period 11.

**V\_M\_S 6130. Fundamentals of Veterinary Business Management. 1 Credit.**  
To realistically present to the second-year veterinary student a basic explanation of the essential need for strong base of knowledge pertaining to business and management in order to successfully operate a veterinary practice.

**V\_M\_S 6140. Nutrition with Laboratory. 1.5 Credit.**  
(same as Veterinary Medicine and Surgery 8421). Digestion, excretion, endocrinology, an reproduction.

**V\_M\_S 6151. Equine Medicine and Surgery. 2 Credits.**  
Covers the fundamentals of diseases of the equine species. Case Management approaches are utilized to provide examples of disease conditions. Instructional period 10.

**V\_M\_S 6152. Equine Medicine and Surgery. 1.5 Credit.**  
Continuation of Veterinary Medicine and Surgery 6151. Covers the fundamentals of diseases of the equine species. Case Management approaches are utilized to provide examples of disease conditions. Instructional period 11.

**V\_M\_S 6400. Food Animal Medicine and Surgery I. 6 Credits.**  
Technical, diagnostic and therapeutic procedures common to the practice of large animal medicine and surgery. Experience in the operation of a large animal hospital and farm outpatient practice. Six times per year.

**V\_M\_S 6411. Small Animal Internal Medicine. 1-99 Credit.**  
Clinical rotation in small animal internal medicine for veterinary degree students. Students will obtain history and conduct physical examination of client-owned dogs and cats. After reviewing findings with faculty, they will perform diagnostic tests and carry out treatments. Prerequisites: the entire pre-clinical curriculum of the CVM must be completed before taking this course; that is, students must have successfully completed the DVM curriculum through instructional period 12. Restricted to students in years 3 and 4 of the DVM curriculum. Graded on A/F basis only. May be repeated for credit.

**V\_M\_S 6412. Small Animal Community Practice. 1-99 Credit.**  
Clinical rotation in small animal general medicine and surgery for veterinary degree students. Students will obtain history and conduct physical examination of client-owned dogs and cats. After reviewing findings with faculty, they will perform diagnostic tests and carry out treatments. Prerequisites: the entire pre-clinical curriculum of the CVM must be completed before taking this course; students must have successfully completed the DVM curriculum through instructional period 12. Restricted to students in years 3 and 4 of the DVM curriculum. Graded on A/F basis only. May be repeated for credit.

**V\_M\_S 6420. Equine Medicine and Surgery I. 6 Credits.**  
Technical, diagnostic and therapeutic procedures common to equine practice. Emphasis on fundamental principles. Six times per year.

**V\_M\_S 6430. Small Animal Surgery I. 6 Credits.**  
Diagnostic procedures and surgical techniques applicable to companion animal surgery. Practical experience in the operation of a small animal surgical practice. Six times per year.

**V\_M\_S 6432. Small Animal Soft Tissue Surgery. 2 Credits.**  
Diagnostic procedures and surgical techniques applicable to companion animal soft tissue surgery. Practical experience in the operation of a small animal soft tissue surgical practice. Prerequisites: completion of year Vet Med 1 and 2. Graded on A/F basis only.

**V\_M\_S 6434. Small Animal Orthopedic Surgery. 2 Credits.**  
Diagnostic procedures and surgical techniques applicable to companion animal orthopedic surgery. Practical experience in the operation of a small animal orthopedic surgical practice. Prerequisites: completion of Veterinary Medicine years 1 and 2. Graded on A/F basis only.

**V\_M\_S 6436. Veterinary Neurology/Neurosurgery. 2 Credits.**  
A hands-on applied clinical rotation to provide experience in examination and diagnosis of domestic animals with neurologic disease. Prerequisites:

completion of preclinical curriculum of Veterinary Medicine years 1 and 2. Restricted to Third and Fourth year Veterinary Students.

**V\_M\_S 6441. Clinical Radiology I. 3 Credits.**

Fundamentals of radiology: indications for use, techniques, pathophysiologic alterations, interpretation of results, patient aftercare, protective measures against radiation hazards. Twelve times per year.

**V\_M\_S 6442. Clinical Anesthesiology I. 3 Credits.**

Required.

**V\_M\_S 6450. Theriogenology I. 2 Credits.**

Clinical rotation. Practical experience in reproductive techniques, obstetrics, breeding soundness and heard reproductive problems.

**V\_M\_S 6460. Clinical Ophthalmology I. 2 Credits.**

Practical application in problem solving and medical and surgical management of eye conditions of domestic animals. Eighteen times per year.

**V\_M\_S 6480. Cardiology. 2 Credits.**

Cardiology.

**V\_M\_S 6490. Small Animal Specialty Medicine I. 2 Credits.**

Clinical rotation in small animal oncology. Taught in the clinical setting using animals presented to the VMTH for evaluation and treatment of oncologic diseases. Eighteen times per year.

**V\_M\_S 6700. Food Animal Medicine and Surgery II Elective. 2-6 Credit.**

Prerequisite: V\_M\_S 6400.

**V\_M\_S 6710. Small Animal Medicine II Elective. 2-6 Credit.**

Continuation elective offered to 3rd- and 4th-year students. Opportunity for concentrated study and experience in medical areas. Enrollment subject to approval of course coordinator. Available to veterinarians under continuing education program. Prerequisite: V\_M\_S 6410.

**V\_M\_S 6711. Small Animal Internal Medicine Elective Clinical or Research Rotation. 2 Credits.**

Elective rotation in SAIM to focus on either clinical diagnostics and therapy, or research relevant to clinically important issues of pet animals. Prerequisite: Veterinary curriculum up until the clinical rotations; must be a 3rd or 4th year professional student in the CVM. May be repeated for credit. Graded on A/F basis only.

**V\_M\_S 6712. Private Practice Small Animal Internal Medicine Elective. 2 Credits.**

Improve critical thinking skills in disease diagnosis and management for internal medicine of dogs and cats. Clinical rotation off-site at Associated Veterinary Specialists. Teaching by cases seen by AVS clinician on duty. Student participation determined by supervising clinician. Prerequisite: all required VM I and VM II courses. VM III or VM IV standing required. Graded A-F only.

**V\_M\_S 6720. Equine Medicine and Surgery II Elective. 2-6 Credit.**

Continuation of Veterinary Medicine and Surgery 6420. Open to 3rd- and 4th year students, subject to approval of course coordinator. Opportunity for concentration in specific area of interest.

**V\_M\_S 6730. Small Animal Surgery II Elective. 3-6 Credit.**

Opportunity for concentration study and advanced surgical experience. Prerequisite: V\_M\_S 6430 or equivalent.

**V\_M\_S 6732. Small Animal Soft Tissue Surgery II Elective. 2 Credits.**

Opportunity for concentrated study and advanced soft tissue surgical experience. Prerequisites: Veterinary Medicine and Surgery [V\_M\_S] 6432 and completion of year Vet Med 1 and 2. Graded on A/F basis only.

**V\_M\_S 6734. Small Animal Orthopedic Surgery II Elective. 2 Credits.**

Opportunity for concentrated study and advanced orthopedic surgical experience. Prerequisites: completion of Veterinary Medicine years 1 and 2.

**V\_M\_S 6736. Veterinary Neurology/ Neurosurgery-Elective. 2 Credits.**

A hands-on applied clinical rotation to provide experience in examination and diagnosis of domestic animals with neurologic disease. Prerequisites: completion of preclinical curriculum of Veterinary Medicine years 1 and 2. Restricted to Third and Fourth year Veterinary Students.

**V\_M\_S 6741. Clinical Radiology II Elective. 1-99 Credit.**

Continuation of Veterinary Medicine and Surgery 6441.

**V\_M\_S 6742. Clinical Anesthesiology II Elective. 1-99 Credit.**

Continuation of Veterinary Medicine and Surgery 6442. This elective will focus on anesthetizing and monitoring the more challenging anesthetic cases during rotation. Required projects include a review paper on a relevant topic of choice, a written case report and assistance in research activities.

**V\_M\_S 6743. Radiology - Special Imaging Elective. 2-3 Credit.**

Introduction to special imaging modalities including ultrasound, computed tomography, magnetic resonance and nuclear scintigraphy with emphasis towards small animal patients. A major part of the course will be devoted to recognition and interpretation of abdominal ultrasound. Graded on A-F basis only. Prerequisite: V\_M\_S 6020; VM III and VM IV.

**V\_M\_S 6750. Theriogenology II Elective. 1-99 Credit.**

Continuation of Veterinary Medicine and Surgery 6450. Opportunity for concentrated study and experience. An elective, subject to approval of course coordinator and faculty member(s) who supervise student's work.

**V\_M\_S 6751. External Food Animal Service and Theriogenology Teaching Program. 1-99 Credit.**

The objective of this course is to offer veterinary students at MU additional options for clinical training in Theriogenology and Food Supply Veterinary Medicine beyond the core curriculum. Prerequisites: V\_M\_S 6081, 6082, 6110, 3rd or 4th year veterinary professional students. Graded on A/F basis only.

**V\_M\_S 6760. Small Animal Nutrition. 2 Credits.**

Elective clinical rotation designed to allow students to gain hands-on experience with canine and feline nutrition. Prerequisite: Veterinary Medicine and Surgery [V\_M\_S] 6140. Restricted to VM-III or VM-IV students.

**V\_M\_S 6770. Herd Health Management and Nutrition II Elective. 2-6 Credit.**

Concentrated study/experience in feed lot, dairy, cow/calf swine herd agribusiness enterprises applicable to veterinary practice. Prerequisites: V\_M\_S 6400 and VM-4 status.

**V\_M\_S 6800. Clinical Ophthalmology II Elective. 1-99 Credit.**

Elective offered to 3rd and 4th year veterinary students. Opportunity for concentrated study and experience in small animal emergency and critical care.

**V\_M\_S 6810. Cardiology II Elective. 1-99 Credit.**

Cardiology II Elective.

**V\_M\_S 6820. Small Animal Emergency and Critical Care. 1-99 Credit.**  
Elective offered to 3rd and 4th year veterinary students. Opportunity for concentrated study and experience in small animal emergency and critical care.

**V\_M\_S 6821. Small Animal Emergency Critical Care Elective. 2 Credits.**

Clinical elective rotation providing focused experience in case management and issues pertinent to small animal emergency and critical care. Prerequisites: levels VMS 3 or 4. Graded on A/F basis only. May be repeated for credit.

**V\_M\_S 6830. Food Animal Production Medicine. 1-99 Credit.**

This 8-week rotation will focus on the reproductive, metabolic and immunologic physiology of beef, dairy and swine with additional emphasis on the spreadsheet and data base applications.

**V\_M\_S 6850. Clinical Oncology. 1-99 Credit.**

Student performance will be assessed 70% subjective based on clinical performance and 30% objectively based on a paper and presentation. Students will examine, diagnose, and treat animals presenting to the oncology services. Cytology, biopsy, bone marrow aspirate, and chemotherapy administration are among the procedures that will be routinely performed. Formal cytology rounds are held once weekly with clinical pathologists. Students will be expected to become familiar with the clinical application of radiation therapy and chemotherapy. The students will be involved with ongoing clinical trials and will be expected to understand the mechanics of a clinical trial.

**V\_M\_S 6986. Advanced Clinical Neurology and Neurosurgery. 1 Credit.**

This is a supplement to neurology taught in the small animal course to improve preparedness for clinical practice. Topics include neurolocalization techniques, electrodiagnostic and CT/MR interpretation, wider exposure to differential diagnosis, and neurosurgical principals. Prerequisite: Passing grade in Veterinary Medicine and Surgery [V\_M\_S] 6040.

**V\_M\_S 6987. Problem-Based Learning Clinic Preparation. 1 Credit.**

This course is designed to prepare the VMIII student about to enter clinics for a systematic approach to a clinical case. Emphasis will be placed on developing focused problem and differential lists, and logical choices of diagnostic tests. Prerequisite: VMIII level. Graded on S/U basis only.

**V\_M\_S 6988. Small Animal Clinical Nutrition. 1 Credit.**

**V\_M\_S 6989. Advanced Oncology of Animals. 1 Credit.**  
Advanced Oncology of Animals.

**V\_M\_S 6990. Zoological Medicine. 2 Credits.**

Interested students of Zoological Medicine would significantly broaden their understanding of this discipline and increase the likelihood they could enter zoological veterinary practice or a zoological veterinary medical residency. Graded on A/F basis only.

**V\_M\_S 6991. Advanced Equine Lameness with Laboratory. 1 Credit.**  
Advanced Equine Lameness with Laboratory.

**V\_M\_S 6992. Small Animal Endoscopy. 1 Credit.**  
Small Animal Endoscopy.

**V\_M\_S 6993. Advanced Veterinary Anesthesia. 1 Credit.**  
Advanced Veterinary Anesthesia.

**V\_M\_S 6994. Advanced Techniques in Small Animal Surgery with Laboratory. 1 Credit.**

Advanced Techniques in Small Animal Surgery with L.

**V\_M\_S 6995. Clinical Cardiology. 1 Credit.**

Clinical Cardiology.

**V\_M\_S 6996. Advanced Dermatology. 1 Credit.**

Purpose to broaden appreciation of dermatology in animals. Instructional Period 11. Graded on A/F basis only.

**V\_M\_S 6997. Food Animal Diagnostic Exercises. 1 Credit.**

Clinical Block 3 (August to October).

**V\_M\_S 6998. Small Animal Behavioral Medicine. 1 Credit.**

Small Animal Behavioral Medicine.

**V\_M\_S 6999. Food Animal Surgery Laboratory. 1 Credit.**

Food Animal Surgery Laboratory.

**V\_M\_S 7301. Topics in Veterinary Medicine and Surgery. 1-99 Credit.**

Organized study of select topics. Prerequisites: junior standing and instructor's consent.

**V\_M\_S 7303. Advanced Topics in Veterinary Anesthesia. 1 Credit.**

(same as Veterinary Medicine and Surgery [V\_M\_S] 6993).

**V\_M\_S 7304. Advanced Equine Surgery. 2 Credits.**

The purpose of the course is to aid in the preparation of the resident for Board certification in the American College of Veterinary Surgeons. Prerequisites include a DVM or equivalent degree, acceptance to the graduate school, acceptance to the residency program, and instructor approval.

**V\_M\_S 7328. Introductory Radiation Biology. 3 Credits.**

(same as Radiology [RADIOL], Nuclear Engineering [NU\_ENG], and Biological Sciences [BIO\_SC] 7328). Prerequisite: junior standing Sciences/Engineering; one course in biological sciences and physics/chemistry; or instructor's consent.

**V\_M\_S 7351. Advanced Surgical Techniques. 1-99 Credit.**

Special application to large, small animals. Prerequisite: D.V.M.

**V\_M\_S 7355. Advanced Techniques in Radiology. 1-99 Credit.**

Special application to domestic animals. Prerequisite: D.V.M.

**V\_M\_S 7370. Orthopaedic Biomechanics. 3 Credits.**

(same as Biological Engineering [BIOL\_EN] 7370). Engineering sciences will be leverage to create a comprehensive study of orthopaedic biomechanics. The tissue mechanics of bone and soft tissue will be studied along with applying structural analysis of the musculoskeletal system. Prerequisites: Engineering [ENGINR] 1200, BIOL\_EN 3170; graduate standing; departmental consent. Graded on A/F basis only.

**V\_M\_S 7385. Problems in Veterinary Medicine and Surgery. 1-99 Credit.**

Studies in specific areas of veterinary medicine and surgery.

**V\_M\_S 8021. Neurology Journal Review. 1 Credit.**

Weekly journal review and seminar on current topics in veterinary neurology, related clinical disciplines and basic neurosciences. Prerequisites: DVM degree. Graded on S/U basis only.

**V\_M\_S 8022. Internal Medicine Clinicopathologic Conference. 1 Credit.**

Graded on S/U basis only.

**V\_M\_S 8023. Internal Medicine Journal Review. 1 Credit.**

Graded on S/U basis only.

**V\_M\_S 8024. Medicine-Surgery-Pathology Conference. 1 Credit.**  
Graded on S/U basis only.

**V\_M\_S 8025. Equine Medicine Journal Review. 1 Credit.**  
Graded on S/U basis only.

**V\_M\_S 8026. Surgery Journal Review. 1 Credit.**  
Graded on S/U basis only.

**V\_M\_S 8027. Food Animal Medicine Journal Review. 1 Credit.**  
Graded on S/U basis only.

**V\_M\_S 8028. Cardiovascular Medicine Journal Review. 1 Credit.**  
Cardiovascular Medicine Journal Review. Graded on S/U basis only.

**V\_M\_S 8029. Emergency and Critical Care Journal Review. 1 Credit.**  
This course will concentrate on review of emergency and critical care literature. Prerequisite: DVM degree. Graded on S/U basis only.

**V\_M\_S 8030. Seminars in Vet. Med. & Surgery: Ophthalmology Pathology Seminar. 1 Credit.**  
Review of clinical cases presented in two formats: histopathology slides and kodachrome slides. Prerequisite: DVM degree or equivalent and acceptance into an ophthalmology residency program. Graded on S/U basis only.

**V\_M\_S 8031. Sem. in Vet. Med & Surgery: Ophthalmology Seminar & Journal Review. 1 Credit.**  
Weekly journal review and seminar on current topics in veterinary ophthalmology, review of pertinent literature in human ophthalmology, and review of ophthalmic texts. Prerequisite: DVM or equivalent degree and acceptance into the ophthalmology residency program. Graded on S/U basis only.

**V\_M\_S 8032. Seminars in Veterinary Anesthesiology. 1 Credit.**  
A journal review will focus on advances in veterinary anesthesiology, pharmacology, and physiology. Prerequisites: DVM and graduate school enrollment or instructor's consent. Graded on S/U basis only.

**V\_M\_S 8033. Seminars in Clinical Sciences-Equine Surgery Journal Review. 1 Credit.**  
Journal review will focus on advances in equine surgery and will consist of a review of recent manuscripts pertaining to equine surgery in current journals and review of pertinent book chapters. Graded on S/U basis only. Prerequisite: DVM degree and instructor's consent.

**V\_M\_S 8034. Seminars in Veterinary Radiology. 1 Credit.**  
This journal review will focus on advances in veterinary radiology, ultrasound and alternate imaging. Current and past literature will be reviewed weekly and will be chosen by the class coordinator. Prerequisites: DVM and graduate school enrollment or instructor's consent. Graded on S/U basis only.

**V\_M\_S 8035. Current Topics in Veterinary Clinical Nutrition. 1 Credit.**  
Review and critical analysis of recently published articles in veterinary nutrition and discussion of aspects relevant to clinical application and management of veterinary patients. Restricted to Graduate Veterinary Medicine majors or instructor's consent. Can be repeated for a total of six credit hours. Graded on a S/U basis only.

**V\_M\_S 8036. Advanced Physiology of the Dog and Cat. 2 Credits.**  
To understand advanced medical physiology: cell physiology, muscle function, cardiac and circulatory physiology, renal function, distribution of fluid in the body, functions of red and white blood cells, mechanisms of hemostasis, resistance to infection and pulmonary physiology. Instructor consent required. Graded on A/F basis only.

**V\_M\_S 8040. Advanced Small Animal Clinical Nutrition. 2 Credits.**  
Advanced study of veterinary clinical nutrition in the dog and cat. Includes review of applied biochemistry, nutrients, and feeding principles along with pathophysiology and nutritional management of common diseases. Prerequisite: Introductory Veterinary Nutrition; graduate standing. May be repeated for credit. Graded on A/F basis only.

**V\_M\_S 8090. Research in Veterinary Medicine and Surgery (Thesis). 1-99 Credit.**  
Open to graduate students with requisite preparation. Graded on a S/U basis only.

**V\_M\_S 8400. Clinical Veterinary Regulatory Medicine and Public Health. 2 Credits.**  
(same as Public Health [P\_HLTH] 8400). The goal of this course is to familiarize the student with clinical aspects of veterinary public health/regulatory medicine. Must be enrolled in MPH (veterinary public health concentration) or DVM curriculum.

**V\_M\_S 8401. Topics in Veterinary Clinical Sciences. 1-3 Credit.**  
Current topics, infrequently-taught courses, or new courses not yet designated by a permanent course number. Some sections may be graded A/F only or S/U only.

**V\_M\_S 8402. Seminar in Veterinary Clinical Sciences. 1 Credit.**  
Graduate seminars and conferences with a focus on current literature within a specialty area. Graded on S/U basis only.

**V\_M\_S 8405. Comparative Respiratory Pathophysiology. 1 Credit.**  
A consideration of clinical pathophysiology of the respiratory system relative to diseases of the thorax and clinical anesthesiology.

**V\_M\_S 8406. Topics in Veterinary Medicine and Surgery. 2 Credits.**  
Principles of canine long bone development and deformity corrections. Prerequisites: must be a DVM or be enrolled in the Veterinary curriculum; instructor's consent.

**V\_M\_S 8410. Veterinary Medicine and Surgery Research Seminar. 1 Credit.**  
Current research in veterinary medicine and surgery. Literature reviews and presentation or original graduate student research. Graded on S/U basis only.

**V\_M\_S 8411. Clinical Veterinary Endocrinology. 2 Credits.**  
A 2-hour course for post-DMV graduate students. It will focus on clinically relevant physiology, pathophysiology, and diagnostic evaluation of hormone systems. Prerequisite: graduate standing.

**V\_M\_S 8413. Equine Internal Medicine. 2 Credits.**  
Prerequisite: DVM degree or equivalent.

**V\_M\_S 8415. Advanced Veterinary Neurology. 2 Credits.**  
Basic neuroscience as it relates to clinical neurology and the pathophysiology of diseases of the brain, spinal cord, peripheral nerve and muscle in domestic animals. Prerequisites: DVM degree. Graded on A/F basis only.

**V\_M\_S 8416. Advanced Veterinary Internal Medicine: Cardiovascular Medicine. 3 Credits.**  
Pathologic, pathophysiologic, hemodynamic and pharmacological mechanisms of important to the diagnosis, assessment, management and research of cardiovascular diseases of animals. Prerequisite: graduate standing.

**V\_M\_S 8417. Advanced Veterinary Internal Medicine - Clinical Oncology. 2 Credits.**

Provides graduate students in the clinical and basic sciences alike with a working knowledge of the biological mechanisms of cancer development and progression and the related approaches to cancer prevention and therapy. It is assumed that students will have a strong background in biology as a foundation for discussion. Prerequisite: graduate standing DVM or equivalent degree recommended.

**V\_M\_S 8418. Advanced Veterinary Internal Medicine: Food Animal Medicine. 2 Credits.**

Current concepts in the pathophysiology, diagnosis and management of medical disorders, diseases of the limbs, and infectious diseases of cattle and food producing animals.

**V\_M\_S 8419. Advanced Topics in Cancer Biology and Clinical Oncology. 2 Credits.**

This course will provide students with a knowledge base in cancer cell biology that may be applied to the practice of clinical oncology. Monthly clinically-oriented seminars by invited speakers will be preceded by a weekly in-depth review of the basic science related to the seminar topic. Graduate standing required, MD or DVM recommended.

**V\_M\_S 8421. Advanced Veterinary Surgery: Small Animal Surgery. 2-4 Credit.**

Current concepts in the pathophysiology, diagnosis and management of surgical disease of the dog and the cat. Includes laboratories of advanced surgical techniques.

**V\_M\_S 8423. Comparative Arthrology. 3 Credits.**

Lectures and discussion covering anatomy, physiology, biomechanics, pathophysiology, and clinical aspects of mammalian diarthrodial joints.

**V\_M\_S 8425. Advanced Veterinary Surgery: Equine Surgery. 2-4 Credit.**

Current concepts in the pathophysiology, diagnosis and management of surgical disorders of the horse. Taught yearly as sections A, B, C. Repeatable to a maximum of 10 credit hours (individual sections may be taken once).

**V\_M\_S 8426. Advanced Veterinary Surgery - Ophthalmic Surgery. 2-4 Credit.**

Surgery labs consisting of 2-4 hours of surgical instruction per week. Prerequisite: DVM or equivalent degree and acceptance into the ophthalmology residency program. Graded on A/F basis only.

**V\_M\_S 8431. Research Methods and Data Analysis. 2-4 Credit.**

A consideration of research methods, data analysis, and practical approaches to analyzing data sets derived from veterinary and biomedical studies.

**V\_M\_S 8435. Veterinary Clinical Sciences: Clinical Immunology. 2 Credits.**

Advanced concepts in veterinary immunology and immunopathology.

**V\_M\_S 8436. Veterinary Clinical Sciences: Clinical Pharmacology. 1 Credit.**

Advanced concepts in veterinary clinical pharmacology, pharmacokinetics, and anesthesiology.

**V\_M\_S 8437. Advanced Topics in Veterinary Medicine (Nuclear Medicine). 1 Credit.**

An in-depth review of veterinary nuclear medicine. Includes the physics of nuclear medicine, common imaging techniques, common radiopharmaceuticals, radiopharmaceutical kinetic evaluation and some common physiological applications. Prerequisite: graduate standing.

**V\_M\_S 8439. Advanced Veterinary Ultrasonography. 2-3 Credit.**

Advanced concepts in veterinary ultrasonography; including ultrasound and Doppler physics, instrumentation, examination methodology, and interpretation of studies.

**V\_M\_S 8440. Adv Veterinary Clinical Sciences: Advanced Clinical Ophthalmology. 1-3 Credit.**

Case-based discussion course. Prerequisite: DVM or equivalent degree and acceptance into the ophthalmology residency program. Graded on A/F basis only.

**V\_M\_S 8445. Veterinary Critical Care and Emergency Medicine. 2-3 Credit.**

Advanced study of veterinary critical care and emergency medicine and surgery focusing on current research and literature as well as clinical application.

**V\_M\_S 8450. Research in Veterinary Medicine and Surgery (non-thesis). 1-99 Credit.**

Open to graduate students with requisite preparation.

**V\_M\_S 8485. Problems in Veterinary Clinical Sciences. 1-3 Credit.**

Supervised individuals studies arranged with a faculty member and approved by the advisory committee. Some sections may be graded A/F only or S/U only.

**V\_M\_S 8487. Nuclear Medicine. 3 Credits.**

Principles of radiation detection instrumentation, monitoring radiological safety and diagnostic procedures used on veterinary nuclear medicine. Prerequisites: one year College Physics, D.V.M. degree, and departmental consent.

**V\_M\_S 8488. Radiation Therapy. 3 Credits.**

Prerequisite: one year College Physics, D.V.M. degree, and departmental consent.

**V\_M\_S 8489. Veterinary Radiographic Physics. 1 Credit.**

This class will review in depth the fundamental principles of radiographic physics, with an emphasis on preparation for the American College of Veterinary Radiology board examination. Prerequisites: DVM and graduate school enrollment or instructor's consent. Graded on an S/U basis only.

**V\_M\_S 9090. Research in Veterinary Medicine and Surgery. 1-99 Credit.**

Research in Veterinary Medicine and Surgery. Graded on S/U basis only.

## **Veterinary Pathobiology (V\_PBIO)**

**V\_PBIO 5511. Veterinary Immunology. 1.5 Credit.**

(same as Veterinary Pathobiology 8451). Basic immunology techniques. Topics include innate and adaptive immunity, development of the immune system, induction and expression of the immune response, structure and function of antibodies, antigen-antibody reactions, the major histocompatibility complex, aspects of immunology in disease.

**V\_PBIO 5512. Veterinary Immunology. 1.5 Credit.**

(same as Veterinary Pathobiology 8451). Continuation of Veterinary Pathobiology 5511.

**V\_PBIO 5552. Veterinary Bacteriology with Laboratory. 3 Credits.**

Classification and properties of pathogenic bacteria and fungi of animals; relationship to public health; considers pathogenesis, immunology of

infection. Prerequisite: enrollment in the College of Veterinary Medicine. Instructional period 5.

**V\_PBio 5553. Veterinary Bacteriology II. 2.5 Credits.**

Continuation of Veterinary Pathobiology 5552. Instructional period 6.

**V\_PBio 5554. Veterinary Virology. 2.5 Credits.**

(same as Veterinary Pathobiology 8454). Classification and properties of viruses. Considers the etiologic, pathologic and immunologic aspects of viral diseases of animals. Prerequisite: enrollment in the College of Veterinary Medicine. Instructional periods 6 and 7.

**V\_PBio 5555. Epidemiology and Biostatistics with Laboratory. 2 Credits.**

(same as Veterinary Pathobiology 8455). This course introduces students to methods of determining the influence of disease on populations and how this information is applied to individual animals. Biostatistics and evidence based medicine are also discussed in this course. The knowledge gained in this course is applied to reading professional literature during the course. Instructional period 4.

**V\_PBio 5557. Veterinary Parasitology with Laboratory. 3 Credits.**

(same as Veterinary Pathobiology 8457). Parasites and parasitic diseases of ruminants, horses, swine, dogs, cats, poultry and other animals. Includes classification, morphology, and bionomics of protozoa, helminths, and arthropods. Instructional period 6.

**V\_PBio 5558. Veterinary Public Health. 2 Credits.**

(same as Veterinary Pathobiology 8458). In this course students are introduced to the wide range of veterinary involvement in maintaining and assuring human health, nationally and globally. Topics discussed include: agencies such as USDA, FDA, CDC, food safety and meat inspection, veterinary responsibility in identifying diseases, legal issues of drug use, and zoonotic diseases. Instructional period 7.

**V\_PBio 5575. Veterinary Pathology with Laboratory. 3 Credits.**

General Pathology. Tissue reactions to various disease agents in domestic animals. Instructional period 5.

**V\_PBio 5576. Veterinary Systemic and Special Pathology with Laboratories. 3 Credits.**

Special and systemic pathology. Tissue reactions to disease in special systems in domestic animals. Instructional period 6.

**V\_PBio 5577. Veterinary Systemic and Special Pathology II with. 3 Credits.**

Follows the general pathology and continues the systemic pathology taught in Veterinary Pathobiology 5576. The course, consisting of daily lectures and weekly laboratories, covers disease, mainly in domestic animals, of the following systems or organs: cardiovascular, respiratory, lymphoid, cutaneous, mammary, ophthalmic, and otic. Instructional period 7.

**V\_PBio 5578. Veterinary Clinical Pathology with Laboratory. 3 Credits.**

Physiologic basis, interpretation and clinical application of laboratory assays in hematology, chemistry, cytology, and urinalysis, utilization of laboratory methods to define pathological states and to diagnose disorders of domestic animals. Prerequisite: enrollment in College of Veterinary Medicine, instructional period 8.

**V\_PBio 5579. Veterinary Genomics. 1 Credit.**

Study of genomes, an organism's entire set of the genetic information. Used for detection of pathogen genomes, and markers for mutation causing inherited disease. Instructional period 5.

**V\_PBio 5580. Introduction to Veterinary Informatics with Laboratory. 1 Credit.**

Introduces concepts of veterinary informatics and development of core informatics competencies necessary for successful veterinary practice. The knowledge and skills in this course address topics such as data retrieval, information evaluation, medical records, practice management, communication skills and telemedicine. Instructional period 5.

**V\_PBio 5601. Animals in Emergencies & Basic Emergency Response Training for Vet Students. 1 Credit.**

This course will enable veterinary and graduate students to understand their role in society during disasters and credential as responders. Students must be enrolled in the College of Veterinary Medicine and pursuing a DVM degree or be a student pursuing an MPH degree. Instructor consent required for non-veterinary graduate students seeking MPH degrees. Graded on A/F basis only.

**V\_PBio 5991. Introduction to Avian Medicine. 1 Credit.**

Introduction to Avian Medicine.

**V\_PBio 5995. Foundations in Veterinary Research and Discovery. 2 Credits.**

This course will introduce veterinary students to concepts of research including hypothesis development, experimental design, data interpretation, grantsmanship, responsible conduct of research, biomedical research careers and presentation and publication methods.

**V\_PBio 6010. Laboratory Animal Medicine. 1.5 Credit.**

Principles of Veterinary Medicine applied to laboratory animals as pets and in research. Husbandry, handling and clinical techniques, diseases, and use as disease models are discussed. Instructional period 8.

**V\_PBio 6647. Diagnostic Pathology and Special Species Medicine. 8 Credits.**

Application of laboratory techniques used to diagnose disease by macroscopic, microscopic, biochemical, microbiologic, and toxicologic findings. Case method of teaching. Domestic avian species and laboratory animals included. Six times yearly.

**V\_PBio 6676. Laboratory Animal Medicine and Management Elective. 2-6 Credit.**

Elective offered 3rd- and 4th-year students, subject to approval of course coordinator and supervising faculty. Concentrated study/experience in laboratory animal disease(s)/colony management. Available to veterinarians as a continuing education program.

**V\_PBio 6678. Epidemiology and Community Health. 2-6 Credit.**

Elective covering advanced aspects of epidemiology and community health. Emphasizes problem solving and is designed to meet needs of the individual student. Prerequisite: V\_PBio 5558 or instructor's consent. Instructional period arranged.

**V\_PBio 6679. Diagnostic Pathology and Special Species Medicine. 3-6 Credit.**

Third- and fourth-year students. Elective. Approval of coordinator and supervisory staff. Continuation of Veterinary Pathobiology [V\_PBio] 6647 with more depth. Available to D.V.M.'s as part of continuing education program.

**V\_PBio 6684. Research Techniques in Veterinary Pathobiology. 1-6 Credit.**

Research Techniques in Veterinary Pathobiology.

**V\_PBIO 8090. Thesis Research in Veterinary Pathobiology. 1-99 Credit.**

Open to graduate students with requisite preparation. Research on specific animal diseases, prevention and treatment. Graded on a S/U basis only.

**V\_PBIO 8401. Topics in Veterinary Pathobiology. 1-99 Credit.**

Courses with lectures in various topics in veterinary pathobiology will be given on a trial basis, depending on faculty expertise and student demand. Credit hours are usually 1 or 3. Specialized topics will be covered. Prerequisite: instructor's consent.

**V\_PBIO 8410. Seminar in Veterinary Pathobiology. 1 Credit.**

Discussion of current research methods in veterinary pathobiology.

**V\_PBIO 8411. Seminar in Histopathology. 1 Credit.**

Discussion of current research and/or case studies in pathology of diseases of domestic animals, laboratory animals and avian species. Team taught.

**V\_PBIO 8421. Advanced Epidemiology. 3 Credits.**

(same as Family and Community Medicine [F\_C\_MD] 8421).

**V\_PBIO 8430. Comparative Pathology. 3 Credits.**

Biochemical and morphologic lesions related to the mechanism of disease expression in plants and animals.

**V\_PBIO 8431. Research Methods and Data Analysis. 2-4 Credit.**

Specific assignments on diagnostic methods including surgical pathology, necropsies, toxicology. Prerequisite: departmental consent.

**V\_PBIO 8432. Advanced Histopathology. 5 Credits.**

Advanced microscopic study of pathological tissues. Prerequisite: departmental consent.

**V\_PBIO 8433. Veterinary Oncology. 2 Credits.**

History and molecular biology of neoplasia; laboratory for discussion of practical aspects of diagnosis.

**V\_PBIO 8434. Advanced Clinical Pathology. 3 Credits.**

Lecture/tutorial teaching; pathogenesis of clinical laboratory abnormalities in the common domesticated species. Emphasis is placed on mechanisms of disease and pathophysiology of the changes seen in each organ system. Pre-requisite: departmental consent.

**V\_PBIO 8435. Advanced Microscopy in Veterinary Clinical Pathology. 1 Credit.**

Recognition and pathogenesis of abnormalities found via microscopic analysis of blood smears or cytology. Prerequisite: Veterinary Pathobiology [V\_PBIO] 5578 departmental consent.; DVM or current enrollment in veterinary curriculum.

**V\_PBIO 8436. Pathogenic Mechanisms in Veterinary Pathobiology. 3 Credits.**

This course will include disease mechanisms, described at the cellular and molecular level, which result in tissue morphologic (gross and microscopic) and clinical abnormalities. Examples of discussion topics include soluble mediators of inflammatory processes, host-agent interactions, and host defense mechanisms. Prerequisite: instructor's consent.

**V\_PBIO 8437. Pathology of Laboratory Animals. 4 Credits.**

Gross and microscopic study of spontaneous and naturally occurring diseases in laboratory animals. Prerequisite: departmental consent.

**V\_PBIO 8438. Primatology. 3 Credits.**

Disease and pathology of primates.

**V\_PBIO 8441. Topics in Veterinary Pathobiology. 1-3 Credit.**

Subjects appropriate to veterinary pathobiology and/or epidemiology, taught on a one-time basis or infrequently. May include highly specialized topics. Specific course must be approved by departmental faculty.

**V\_PBIO 8442. Advanced Veterinary Pathogenic Bacteriology. 3 Credits.**

Study of pathogenic bacteria causing animal disease. Pathogenic mechanisms and host-parasite relationships are emphasized. Laboratory procedures for isolation and identification of pathogens are included.

**V\_PBIO 8443. Viral Infection and Immunity. 3 Credits.**

Study of virus infection at the level of the intact animal. Includes immunology of domestic animal species. Prerequisites: graduate standing and instructor's consent.

**V\_PBIO 8445. Advanced Veterinary Parasitology. 3 Credits.**

Parasitic diseases of domestic and exotic animals and those of public health significance. Prerequisites: one course in general parasitology and graduate standing.

**V\_PBIO 8446. Advanced Immunology and Immunopathology. 3 Credits.**

Study of the immune system at the level of the intact animal. Includes a discussion of immunity-infectious diseases. Prerequisites: Molecular Microbiology and Immunology [MICROB] 4304, graduate standing and instructor's consent.

**V\_PBIO 8447. Oncogenic Animal Viruses. 3 Credits.**

Biology of RNA- and DNA-containing animal tumor viruses and their in vitro and in vivo interactions with host cells.

**V\_PBIO 8448. Molecular Methods in Nucleic Acids. 3 Credits.**

The course will focus on the most recent developments in technology related to eukaryotic and prokaryotic molecular biology and as analysis a manipulation of nucleic acids and their application to define structure, function and biosynthesis of macromolecules. Prerequisites: instructor's consent.

**V\_PBIO 8450. Non-Thesis Research in Veterinary Pathobiology. 1-99 Credit.**

Research not expected to terminate in dissertation.

**V\_PBIO 8451. Introduction to Immunology. 3 Credits.**

(same as Veterinary Pathobiology [V\_PBIO] 5511 and 5512). fundamentals of immunology as applied to domestic animals.

**V\_PBIO 8452. Cell and Molecular Electron Microscopy. 4 Credits.**

Lecture class that describes the use of electron microscopy (transmission and scanning) in biomedical research. Students receive hands-on experience by completing a laboratory project.

**V\_PBIO 8454. Domestic Animal Virology. 2 Credits.**

(same as Veterinary Pathobiology [V\_PBIO] 5554).

**V\_PBIO 8455. Epidemiology and Biostatistics. 2 Credits.**

(same as Veterinary Pathobiology [V\_PBIO] 5555).

**V\_PBIO 8457. Animal Parasitology. 3-5 Credit.**

(same as Veterinary Pathobiology [V\_PBIO] 5557).

**V\_PBIO 8458. Veterinary Public Health. 2 Credits.**

(same as Veterinary Pathobiology [V\_PBIO] 5558).

**V\_PBIO 8468. Laboratory Animal Biology. 4 Credits.**

Taxonomy, anatomy, physiology, nutrition and behavior of laboratory animals including non-human primates and less common species are

covered. Genetics, gnostobiology, housing and production are also presented. Prerequisite: instructor's consent.

**V\_PBio 8552. Veterinary Pathogenic Bacteriology and Mycology I. 3 Credits.**

This course deals with the bacterial pathogens of animals emphasizing the pathogenesis and pathology of the diseases, diagnostic problems, appropriate treatments and prevention measures. Graduate standing required, Consent of instructor required. Course graded A/F only.

**V\_PBio 8553. Veterinary Pathogenic Bacteriology and Mycology II. 2.5 Credits.**

This course deals with the bacterial pathogens of animals emphasizing the pathogenesis and pathology of the diseases, diagnostic procedures, appropriate treatments and prevention measures. Graduate standing required, Consent of instructor required. Prerequisites: Veterinary Pathobiology [V\_PBio] 5552 or 8552. Graded on A/F basis only.

**V\_PBio 8601. Animals in Emergencies & Basic Emergency Response Training for Vet Students. 1 Credit.**

This course will enable veterinary and graduate students to understand their role in society during disasters and credential as responders. Students must be enrolled in the College of Veterinary Medicine and pursuing a DVM degree or be a student pursuing an MPH degree. Instructor consent required for non-veterinary graduate students seeking MPH degrees. Graded on A/F basis only.

**V\_PBio 8641. Introduction to Research Ethics. 1 Credit.**

This course provides students with a brief overview of many of the ethical issues that confront today's scientist. It is important that scientist think about and develop their abilities to make well-reasoned responses to ethical problems.

**V\_PBio 9090. Area Veterinary Pathobiology Dissertation Research. 1-99 Credit.**

Dissertation Research for PhD students. Prerequisite: departmental consent. May be repeated for credit. Graded on S/U basis only.

## Women's and Gender Studies (WGST)

---

**WGST 1001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing.

**WGST 1003. Topics in Women's and Gender Studies-Behavioral. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing.

**WGST 1004. Topics in Women's and Gender Studies-Social Science. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing.

**WGST 1005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing.

**WGST 1120. Bodies, Cultures, and Nations. 3 Credits.**

Introduction to the basic issues of Western feminist thought through a study of classical and contemporary sources. Course will consider images, conditions, activities and visions of women as they vary historically and socially.

**WGST 1360. The Female Experience: Body, Identity, and Culture. 3 Credits.**

(same as Sociology [SOCIO] 1360). Study of the experience of being female in American Culture. Course will focus on development of women's identities through such topics as: sexuality, reproduction, self-image, rape and health care.

**WGST 1500. The Black Woman in America. 3 Credits.**

(same as Black Studies [BL\_STU] 1500). Review and critique of a variety of materials about Black women from slavery to the social and philosophical impact of the Black woman's struggle on all women. Prerequisites: sophomore standing.

**WGST 2001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 2003. Topics in Women's and Gender Studies-Behavioral. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 2004. Topics in Women's and Gender Studies-Social Science. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 2005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 2005H. Topics in Women's and Gender Studies-Humanities - Honors. 1-3 Credit.**

Organized study of selected topics in women's and gender studies. Subjects and earnable credit may vary from semester to semester. Repeatable up to 6 hours. Prerequisite: sophomore standing and/or Women's and Gender Studies [WGST] 1120. Honors eligibility required.

**WGST 2010. Gender and Identity: Understanding Intersectionality. 3 Credits.**

Explores historical and contemporary dimensions of social inequality in gender, race, class and sexuality. Uses an interdisciplinary lens and feminist analysis to analyze social, cultural, political and economic

experiences of individuals and communities: Prerequisite: Women's and Gender Studies [WGST] 1120; sophomore standing.

**WGST 2020. Feminist Theory I. 3 Credits.**

Introduces central themes and problems in feminist thought, including consciousness-raising, motherhood, class, race, sexuality, nationalism, and transnational feminism. Prerequisite: Women's and Gender Studies [WGST] 1120 or sophomore standing.

**WGST 2030. Gender Perspectives: Colonial Histories, Post-Colonial Challenges. 3 Credits.**

Identifies and interrogates key gender issues in post-colonial countries with an acute awareness of their constructions through western and local knowledges, patriarchy, the nation-state, and globalization. Prerequisite: sophomore standing. May be repeated for credit with different semester themes.

**WGST 2040. Perspectives on Women's Empowerment. 3 Credits.**

Women's Empowerment is a popular catch phrase in politics and research, but what does it mean? Governments and NGOs attempt to define and measure it. Yet these definitions often do not address the routes to women's empowerment in First World and Third World contexts.

**WGST 2050. Gender Perspectives: Issues in Public Health. 3 Credits.**

Addresses issues of gender and public health in the US and abroad. Considers how race, class, gender, sexuality, and geopolitical context may impact health. May focus on specific health issues. May be repeated for credit with different semester themes.

**WGST 2080. Perspectives on Sexual and Gender Diversity. 3 Credits.**

This interdisciplinary, cross-cultural course investigates modern constructions of sexed and gendered bodies, paying particular attention to those systems of gender-based oppression that suppress multiple gender identities and expressions. Prerequisite: sophomore standing. May be repeated for credit with different semester themes.

**WGST 2180. Introduction to Women's Literature. 3 Credits.**

(same as English [ENGLISH] 2180). A study of traditional and non-traditional literature written by women from the perspective of feminist themes-love, power, work, family and other relations. Prerequisite: ENGLISH 1000. No more than six hours may be taken in the Introduction to Women's Literature series.

**WGST 2186. Introduction to Women's Literature, Beginning to 1603. 3 Credits.**

(same as English [ENGLISH] 2186). See Women's and Gender Studies [WGST] 2180 for course description.

**WGST 2187. Introduction to Women's Literature, 1603 to 1789. 3 Credits.**

(same as English [ENGLISH] 2187). See Women's and Gender Studies [WGST] 2180 for course description.

**WGST 2188. Introduction to Women's Literature, 1789 to 1890. 3 Credits.**

(same as English [ENGLISH] 2188). See Women's and Gender Studies [WGST] 2180 for course description.

**WGST 2189. Introduction to Women's Literature, 1890 to Present. 3 Credits.**

(same as English [ENGLISH] 2189). See Women's and Gender Studies [WGST] 2180 for course description.

**WGST 2200H. British Women Writers - Honors. 3 Credits.**

Study of works by important British women writers. We also consider the development of women's writing and the contribution of women writers to literature and to larger societal debates. Prerequisites: English [ENGLISH] 1000; sophomore standing. Honors eligibility required. May be repeated for credit.

**WGST 2250. Perspectives on Gender, Race, Class and Sexuality in the Americas. 3 Credits.**

Introduction to the formation of identities in the Americas. Some areas covered are immigration, transnational identity, pop culture, literary expression, body image, spirituality, racism/sexism, assimilation, acculturation, and activism. May be repeated for credit with different semester themes.

**WGST 2260. Perspectives on Mass Media: Constructions of Gender, Race and Sexuality. 3 Credits.**

Examines constructions of gender, race, class and sexuality in the US media in the twentieth and twenty first centuries. Emphasis placed on media's coverage and uses of various socially constructed identities. May be repeated for credit with different semester themes.

**WGST 2340. Perspectives on Gender and Popular Culture. 3 Credits.**

Explores issues in popular culture in the 20th and 21st centuries with respect to feminism, gender, sexuality, race, class, and ability. Areas of study may include television, movies, music, advertisements, magazines, fiction, newspapers, the internet, and social media. May be repeated for credit. Prerequisite: sophomore standing.

**WGST 2370. French and Francophone Women Writers. 3 Credits.**

(same as French [FRENCH] 2370). This course will address issues of race, gender and class in selected works originally written by women of different historical periods and geographical areas. (metropolitan France, French colonies, and territories such as the Caribbean).

**WGST 2400. Social History of U.S. Women. 3 Credits.**

(same as History [HIST] 2400). This course, the social history of US women, offers a general overview of US women, beginning with the colonial period up to the present day.

**WGST 2410. African American Women in History. 3 Credits.**

(same as History [HIST] and Black Studies [BL\_STU] 2410). Covers major issues affecting black women since their introduction into English-speaking North America to the present.

**WGST 2500. Philosophy and Gender. 3 Credits.**

(same as Philosophy [PHIL] 2500). A critical examination of central ideas and themes in feminist philosophical thought. Topics may include: sex, marriage, parenthood, reproduction, body image, pornography, prostitution. Prerequisite: sophomore standing.

**WGST 2960. Sexual Health Advocacy and Service Learning. 3 Credits.**

Students will critically investigate sexuality and reproductive health within a cultural context including religious, political, social justice, familial, and societal influences. Through assigned readings, reflection, experiential learning, small group activities and discussion, students will increase their awareness of sexual health issues, enhance self awareness, and learn how to effectively educate their peers surrounding issues of sexual health. Prerequisite: sophomore standing.

**WGST 3001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content

areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 3003. Topics in Women's and Gender Studies-Behavioral Sciences. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 3004. Topics in Women's and Gender Studies-Social Sciences. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 3005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 3080. Sexuality and Gender Theory. 3 Credits.**

(same as English [ENGLSH] 3080). Examination of major theoretical approaches and debates in the study of gender and sexuality, with particular attention to the intersection of culture, representation, and identity. May be repeated to 6 hours with departments consent. Prerequisite: sophomore standing.

**WGST 3180. Historical Survey of Women Writers. 3 Credits.**

(same as English [ENGLSH] 3180). A study of writing by women from the Middle Ages to the present. Prerequisite: sophomore standing.

**WGST 3220. U.S. Women's Political History, 1880-Present. 3 Credits.**

(same as History [HIST] 3220). This course explores American women's engagement with American politics (broadly defined) over the course of the twentieth century. It addresses issues of political identity, organization, ideology, and division. Prerequisite: sophomore standing.

**WGST 3230. Themes in Sexual Politics. 3 Credits.**

Explores transnational politics of sex/sexuality, examines the theoretical, historical, analytical, and socio-cultural context of race, gender and sexuality. Students learn and apply a transdisciplinary approach and analyze shifts in the field of sexuality studies. Prerequisites: Women's and Gender Studies [WGST] 1120 or 1332; sophomore standing required. May be repeated for credit with different themes.

**WGST 3240. Nonprofit Work and the Pursuit of Social Justice. 3 Credits.**

This course provides an overview of the work of nonprofit organizations. It will be framed in a social justice paradigm and will explore women's role in nonprofit organizations, why women gravitate to nonprofits, and the implications of their work to achieve social justice. Prerequisite: junior standing.

**WGST 3300. Queer Theories/Identities. 3 Credits.**

(same as Sociology [SOCIO] 3300). Analysis of gay, lesbian, bisexual, transgender (glbt) and queer identities in culture and society with an emphasis on the contributions of queer theory and other glbt standpoint theories to sociology and the study of society. Prerequisite: Sociology [SOCIO] 2200 or instructor's consent.

**WGST 3320. Sociology of Gender. 3 Credits.**

(same as Sociology [SOCIO] 3320). Study of the ways in which femininities and masculinities are constructed in American society with particular attention to gender ideologies and the gendered nature of the social structure. Prerequisites: SOCIOL 1000, 1360 or equivalent.

**WGST 3370. Themes in Gender, Religion and Spirituality. 3 Credits.**

The cultural expressions and organizational structures of religion have been a vehicle for those in power to express domination, but religion has also been a site where the oppressed and marginalized express claims for autonomy and justice. With an intersectional analytic framework, we explore themes of empowerment/subjugation. May be repeated for credit. Prerequisite: junior standing.

**WGST 3430. Sex Radicals in U. S. History. 3 Credits.**

(same as History [HIST] 3430). Survey of the history of sexuality in the United States. Prerequisite: sophomore standing.

**WGST 3450. Feminist Methodologies. 3 Credits.**

This course is an opportunity to explore the difference that feminism makes in doing research. Students can begin to identify the research tools and strategies suited to questions they want to pursue. Prerequisite: sophomore standing.

**WGST 3480. Themes in Sexuality and Literature. 3 Credits.**

Examines sexuality and representations of sexuality in literature. The specific topic will be announced at the time of registration. May be repeated for credit with different semester themes. Prerequisite: English [ENGLSH] 1000; sophomore standing.

**WGST 3560. Themes in Gender and Immigration. 3 Credits.**

Explores current controversies in immigration in various locations. The course will cover a number of topics including nationalism and citizenship, national identity, identity and fluidity, social inequality and others. May be repeated for credit with different semester themes.

**WGST 3570. European Women in the 19th Century. 3 Credits.**

(same as History [HIST] 3570). Examines the history of European women from 1750 to 1900. The course focuses on how industrialization, the French Revolution and nation-formation changed women's role in the family, workplace and the state. Grading: exams, papers and discussions. Prerequisite: sophomore standing.

**WGST 3670. Themes in Gender and Globalization. 3 Credits.**

Introduces transnational feminist theories, considers the practices and material circumstances related to globalization, and explores how class, gender, place/nation, (dis) ability, sexuality and colonial practices complicate our understanding of globalization. Prerequisite: Women's and Gender Studies [WGST] 1120; sophomore standing. May be repeated for credit with different semester themes.

**WGST 3750. Women and Religions. 3 Credits.**

(same as Religious Studies [REL\_ST] 3750). A rediscovery of the wealth of religious activity which women have created and enacted. Investigates women's roles and rituals in large-scale and local religions, including ancient Goddess religions, Hinduism, Buddhism, Judaism, Christianity, Islam, and African, South American, and native American groups. Prerequisite: sophomore standing.

**WGST 3850. Themes in Gender and the Politics of Representation. 3 Credits.**

Examines the gendered politics of representation by analyzing film, literature, popular media, and/or other popular cultural texts. May be repeated for credit with different semester themes.

**WGST 3870. Russian Women and Film. 3 Credits.**

(Same as Russian [RUSS] 3870 and Film Studies [FILM\_S] 3870) Traces image(s) of the Russian woman in 20th-century Russia as constructed in Russian, Soviet and late-Soviet film. Discusses heroines of pre-revolutionary melodrama and "new Soviet man and woman" of the 20s. Considers war-time re-alignment of gender roles in defense of motherland and their subtle revamping in post-war and post-Stalinist period, and the shifting relations between women and men, women and women, and women and the State. Emphasizes cultural-historical and ideological status of women as reflected in onscreen image(s) in Russian film. Designed to serve as an introduction to film studies and to 20th-century Russian culture more generally. Conducted in English (all films have English subtitles). Prerequisite: sophomore standing or instructor's consent.

**WGST 3960. Strategies for Effective Peer Education. 1 Credit.**

Course is designed to promote effective presentation skills on a variety of health topics, specifically sexual health. Students will engage in experiential practice and skill building surrounding cultural competency, difficult discourses, discussion facilitation and behavior management. Prerequisite: instructor's consent.

**WGST 4001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 4003. Topics in Women's and Gender Studies-Behavioral Sciences. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 4004. Topics in Women's and Gender Studies-Social Sciences. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 4005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 4020. Studies in Feminist Thought. 3 Credits.**

Examines recent problems and critical debates within feminist theory. Prerequisite: Women's and Gender Studies [WGST] 2020 or instructor's consent. May be repeated for credit with different semester themes.

**WGST 4110. Feminist Research and Criticism. 3 Credits.**

(Same as Sociology [SOCIO] 4110) Examination of both feminist critique of traditional social research and recent, feminist-oriented research that attempts to answer these criticisms. Prerequisite: SOCIO 2950 or equivalent.

**WGST 4120. Women, Art and Society. 3 Credits.**

(same as Art History and Archeology [AR\_H\_A] 4120). Analysis of the careers and works of women artists, and images of women (by female and male artists), in selected eras. Prerequisite: instructor's consent.

**WGST 4180. Major Women Writers. 3 Credits.**

(same as English [ENGLSH] 4180). Study of a limited number (1-3) of significant writers to be read intensively using contemporary feminist critical theory. Prerequisites: two courses in British or American Literature. Repeatable with department's consent maximum of six hours for Women's and Gender Studies [WGST] 4180 and 4480.

**WGST 4181. Themes in Literature by Women. 3 Credits.**

(same as English [ENGLSH] and Black Studies [BL\_STU] 4181). Examines works by a number of women writers with particular attention to their sociopolitical context. May repeat to six hours with department's consent. Prerequisite: junior standing.

**WGST 4186. Major Women Writers, Beginning to 1603. 3 Credits.**

(same as English [ENGLSH] 4186). See Women's and Gender Studies [WGST] 4180 for course description.

**WGST 4187. Major Women Writers, 1603-1789. 3 Credits.**

(same as English [ENGLSH] 4187). See Women's and Gender Studies [WGST] 4180 for course description.

**WGST 4188. Major Women Writers, 1789-1890. 3 Credits.**

(same as English [ENGLSH] 4188). See Women's and Gender Studies [WGST] 4180 for course description.

**WGST 4189. Major Women Writers, 1890-Present. 3 Credits.**

(same as English [ENGLSH] 4189). See Women's and Gender Studies [WGST] 4180 for course description.

**WGST 4230. Women, Development, and Globalization. 3 Credits.**

(same as Sociology [SOCIO] 4230, Black Studies [BL\_STU] 4230 and Peace Studies [PEA\_ST] 4230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities. Prerequisites: BL\_STU 1332, 2200; SOCIO 2200; WGST 1332 or 2010.

**WGST 4310. Adoption, Child Welfare and the Family, 1850-Present. 3 Credits.**

(same as History [HIST] 4310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meaning of adoption since 1850; historical connections between adoption and poverty, family, gender race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.

**WGST 4370. Anthropology of Gender. 3 Credits.**

(same as Anthropology [ANTHRO] 4370). The Anthropology of Gender introduces the student to the variation in the relationships between male and females; and between men, women, and other genders from around the world. The different approaches to understanding and modeling gender are discussed, as are specific case-studies from many different cultures.

**WGST 4400. Contemporary Issues in Domestic Violence. 3 Credits.**

(same as Social Work [SOC\_WK] 4400). This 3-hour course covers history of battered women's movement, violence theories, policy issues, prevention and intervention practice models for working with battered women, their children, and abusers. Graded on A/F basis only.

**WGST 4420. Studies in Gender, Culture, and Politics. 3 Credits.**

Examines ethical issues, social policies and politics, and cultural practices affecting women in specific national and global contexts. Prerequisite: junior standing or instructor's consent. May be repeated for credit with different semester themes.

**WGST 4480. Major African Diaspora Women Writers. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 4480). Study of selected Africana Diaspora women writers, focusing on texts originally in English. Repeatable with department's consent. Maximum of 6 hours for Women's and Gender Studies [WGST] 4180 and 4480.

**WGST 4487. Major African Diaspora Women Writers, 1603 to 1789. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 4487). See Women's and Gender Studies [WGST] 4480 for course description.

**WGST 4488. Major African Diaspora Women Writers, 1789 to 1890. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 4488). See Women's and Gender Studies [WGST] 4480 for course description.

**WGST 4489. Major African Diaspora Women Writers, 1890 to Present. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 4489). See Women's and Gender Studies [WGST] 4480 for course description.

**WGST 4550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Sociology [SOCIO] 4550 and Peace Studies [PEA\_ST] 4550). This course focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of rights, Western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: Women's and Gender Studies [WGST] 1120 or SOCIO 2200; senior standing required.

**WGST 4600. Studies in Women and Health. 3 Credits.**

A survey of international and domestic women's health issues; considers historical antecedents and specific effects of socio-cultural variables and economic development on women's health in developing and developed nations. May be repeated for credit with different semester themes.

**WGST 4640. Studies in Gender and Performance. 3 Credits.**

Examines the relationship among gender, race, class, and/or sexuality, and performance. Course materials may include theatre performance, visual art, literacy context, theoretical essays, films, and popular culture. May be repeated for credit with different semester themes. Prerequisite: junior standing.

**WGST 4660. European Women in the 20th Century. 3 Credits.**

(same as History [HIST] 4660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community. Prerequisite: junior standing.

**WGST 4716. Women and the Media. 2 Credits.**

(same as Journalism [JOURN] 4716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Prerequisite: instructor's consent.

**WGST 4730. Women and Politics. 3 Credits.**

(same as Political Science [POL\_SC] 4730). This course examines women's political participation and public policies towards women in countries around the world. Prerequisites: POL\_SC 1100; junior standing.

**WGST 4750. Women, Religion and Culture. 3 Credits.**

(same as Religious Studies [REL\_ST] 4750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions. Prerequisite: REL\_ST/Women's and Gender Studies [WGST] 3750 or instructor's consent.

**WGST 4780. Women's Folklore and Feminist Theory. 3 Credits.**

(same as English [ENGLSH] 4780). Examines folklore and artistic expression of women in relations to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts). Prerequisite: junior standing or instructor's consent.

**WGST 4873. Women's and Gender Studies Abroad - Behavioral Science. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the WGST curriculum and extend a global perspective to their study and/or career development.

**WGST 4874. Women's and Gender Studies Abroad - Social Science. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the Women's and Gender Studies [WGST] curriculum and extend a global perspective to their study and/or career development.

**WGST 4875. Women's and Gender Studies Abroad - Humanities. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the Women's and Gender Studies [WGST] curriculum and extend a global perspective to their study and/or career development.

**WGST 4940. Internship in Women's and Gender Studies. 1-12 Credit.**

Directed professional experience in appropriate feminist related agency or organization. Prerequisite: junior standing; departmental consent. Graded on S/U basis only.

**WGST 4965. Special Readings in Women's and Gender Studies. 1-6 Credit.**

Independent readings in women's and gender studies for highly qualified and motivated students. Topic selected in consultation with supervisory faculty member. Repeatable up to 6 hours. Prerequisite: junior standing and/or Women's and Gender Studies [WGST] 1120.

**WGST 4990. Capstone: Senior Research Seminar in Women's and Gender Studies. 3 Credits.**

Seminar for senior students earning interdisciplinary B.A. with emphasis in WGST. Students will reflect knowledge and experience gained as WGST majors and explore taking that knowledge and experience out in the "real world". Prerequisite: instructor's consent.

**WGST 7001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 7003. Topics in Women's and Gender Studies-Behavioral Studies. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 7004. Topics in Women's and Gender Studies-Social Science. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 7005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 7020. Studies in Feminist Thought. 3 Credits.**

Examines recent problems and critical debates within feminist theory. Prerequisite: graduate standing.

**WGST 7110. Feminist Research and Criticism. 3 Credits.**

(Same as Sociology [SOCIO] 7110). Examination of both feminist critique of traditional social research and recent, feminist-oriented research that attempts to answer these criticisms. Prerequisite: graduate standing.

**WGST 7120. Women, Art and Society. 3 Credits.**

(same as Art History and Archeology [AR\_H\_A] 7120). Analysis of the careers and works of women artists, and images of women (by female and male artists), in selected eras. Prerequisite: instructor's consent.

**WGST 7180. Major Women Writers. 3 Credits.**

(same as English [ENGLSH] 7180). Study of a limited number (1-3) of significant writers to be read intensively using contemporary feminist critical theory. Prerequisites: two courses in British or American Literature. Repeatable with department's consent maximum of six hours for Women's and Gender Studies [WGST] 7180 and 7480.

**WGST 7181. Themes in Literature by Women. 3 Credits.**

(same as English [ENGLSH] 7181). Examines works by a number of women writers with particular attention to their sociopolitical context. May repeat to six hours with department's consent. Prerequisite: graduate standing.

**WGST 7186. Major Women Writers, Beginning to 1603. 3 Credits.**

(same as English [ENGLSH] 7186). See Women's and Gender Studies [WGST] 7180 for course description.

**WGST 7187. Major Women Writers, 1603-1789. 3 Credits.**

(same as English [ENGLSH] 7187). See Women's and Gender Studies [WGST] 7180 for course description.

**WGST 7188. Major Women Writers, 1789-1890. 3 Credits.**

(same as English [ENGLSH] 7188). See Women's and Gender Studies [WGST] 7180 for course description.

**WGST 7189. Major Women Writers, 1890-Present. 3 Credits.**

(same as English [ENGLSH] 7189). See Women's and Gender Studies [WGST] 7180 for course description.

**WGST 7230. Women, Development, and Globalization. 3 Credits.**

(same as Sociology [SOCIO] 7230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining

and instituting programs to improve quality of life in communities.

Prerequisites: graduate standing.

**WGST 7310. Adoption, Child Welfare and the Family, 1850-present. 3 Credits.**

(Same as History [HIST] 7310) This interdisciplinary U.S. history course will address topics such as: changing legal and social meanings of adoption since 1850; historical connections between adoption and poverty, family, gender, race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption. Graduate standing required.

**WGST 7370. Anthropology of Gender. 3 Credits.**

(Same as Anthropology [ANTHRO] 7370) The Anthropology of Gender Introduces the student to the variation in the relationships between males and females; and between men, women, and other genders from around the world. The different approaches to understanding and modeling gender are discussed, as are specific case-studies from many different cultures. Graduate standing required.

**WGST 7400. Contemporary Issues in Domestic Violence. 3 Credits.**

(same as Social Work [SOC\_WK] 7400). This 3-hour course covers history of battered women's movement, violence theories, policy issues, prevention and intervention practice models for working with battered women, their children, and abusers. Graded on A/F basis only. Prerequisite: graduate standing.

**WGST 7420. Studies in Gender, Culture, and Politics. 3 Credits.**

Examines ethical issues, social policies and politics, and cultural practices affecting women in specific national and global contexts. Prerequisite: graduate standing.

**WGST 7480. Major African Diaspora Women Writers. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 7480). Study of selected African Diaspora women writers, focusing on texts originally in English. Repeatable with department's consent. Maximum of 6 hours for Women's and Gender Studies [WGST] 7180 and 7480.

**WGST 7487. Major African Diaspora Women Writers, 1603 to 1789. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 7487). See Women's and Gender Studies [WGST] 7480 for course description.

**WGST 7488. Major African Diaspora Women Writers, 1789 to 1890. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 7488). See Women's and Gender Studies [WGST] 7480 for course description.

**WGST 7489. Major African Diaspora Women Writers, 1890 to Present. 3 Credits.**

(same as Black Studies [BL\_STU] and English [ENGLSH] 7489). See Women's and Gender Studies [WGST] 7480 for course description.

**WGST 7550. Gender and Human Rights in Cross Cultural Perspective. 3 Credits.**

(same as Sociology [SOCIO]/Peace Studies [PEA\_ST] 7550). Focuses on the global discourse on human rights and gender, emphasizing cross-cultural theories. Course includes the meaning of human rights, western and nonwestern perspectives, feminist contributions, important substantive debates, violations, policymaking and activism. Prerequisites: graduate standing.

**WGST 7600. Studies in Women and Health. 3 Credits.**

A survey of international and domestic women's health issues; considers historical antecedents and specific effects of socio-cultural variables and

economic development on women's health in developing and developed nations. Prerequisite: graduate standing.

**WGST 7640. Studies in Gender and Performance. 3 Credits.**

Examines the relationships among gender, race, class, and/or sexuality, and performance. Course materials may include theatre performance, visual art, literary texts, theoretical essays, films, and popular culture. Graduate standing required. May be repeated for credit.

**WGST 7660. European Women in the 20th Century. 3 Credits.**

(same as History [HIST] 7660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community. Prerequisite: graduate standing.

**WGST 7716. Women and the Media. 2 Credits.**

(same as Journalism [JOURN] 7716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Prerequisite: graduate standing and instructor's consent.

**WGST 7750. Women, Religion and Culture. 3 Credits.**

(same as Religious Studies [REL\_ST] 7750). An advanced study of the role of women in religion, focusing on the methods of determining the significance of gender in religious life, sacred texts, symbols, rituals and/or beliefs. Traditions studied include Christianity, Islam, contemporary pagan communities, and Native American traditions. Prerequisite: graduate standing.

**WGST 7780. Women's Folklore and Feminist Theory. 3 Credits.**

(same as English [ENGLSH] 7780). Examines folklore and artistic expression of women in relations to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts). Prerequisite: graduate standing or instructor's consent.

**WGST 7873. Women's and Gender Studies Abroad - Behavioral Science. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the Women's and Gender Studies [WGST] curriculum and extend a global perspective to their study and/or career development.

**WGST 7874. Women's and Gender Studies Abroad-Social Science. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the Women's and Gender Studies [WGST] curriculum and extend a global perspective to their study and/or career development.

**WGST 7875. Women's and Gender Studies Abroad - Humanities. 3 Credits.**

This interdisciplinary study abroad course provides students the opportunity to study women's issues in the globe, to study in a foreign culture and augment their global competencies across the Women's and Gender Studies [WGST] curriculum and extend a global perspective to their study and/or career development.

**WGST 8001. Topics in Women's and Gender Studies-General. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 8003. Topics in Women's and Gender Studies-Behavioral. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 8004. Topics in Women's and Gender Studies-Social Science. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 8005. Topics in Women's and Gender Studies-Humanities. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Repeatable. Prerequisite: graduate standing.

**WGST 8020. Graduate Feminist Theory. 3 Credits.**

This course will explore the texts and contexts of feminist theories including women of color socialist/Marxist feminism, queer theory, postmodern feminism, and feminist postcolonial theory.

**WGST 8040. Seminar: Problems and Issues in Feminist Scholarship. 3 Credits.**

This course is a broad based exploration of a range of current feminist scholarship, both multidisciplinary and interdisciplinary. Issues of identity and difference, community and change are explored through the complicating lenses of race and sexuality.

**WGST 8060. New Directions in Feminist Theory. 3 Credits.**

Offers an in-depth exploration of a recent direction in feminist theory. Students will learn a specific feminist approach to scholarship. Theory explored will change based on the semester and professor teaching the course. Graduate standing required.

**WGST 8400. Women Writers of the African Diaspora. 3 Credits.**

Closely studies the works of women writers in the African Diaspora. Graduate Standing Required.

**WGST 8410. Africana Theory and Literature Criticism: Black Feminist/Womanist Thought. 3 Credits.**

Modern and contemporary Africana Diaspora criticism and theory including the diverse approaches to literary and cultural studies. Prerequisite: graduate standing.

**WGST 8620. Work and Family Seminar. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 8620). Interaction of family life and income-producing work with attention to how these interconnections vary by social class, gender, race/ethnicity, and age.

**WGST 8630. Gendered Relations in Families. 3 Credits.**

(same as Human Development and Family Studies [H\_D\_FS] 8630). From a feminist perspective, the roles of gender in shaping family life experience and of family life experience in shaping gender will be explored. Prerequisite: graduate standing; instructor's consent. Graded on A/F basis only.

**WGST 8965. Problems in Women's and Gender Studies. 1-6 Credit.**

Directed individual study on selected topics for qualified graduate students. Plan of study subject to approval by supervising faculty.

Prerequisite: departmental consent.

**WGST 9001. Topics in Women's and Gender Studies. 1-3 Credit.**

Problems, topics, issues or review of research in any area of women's and gender studies and/or experimental development of new content areas. Prerequisites: graduate standing, instructor's consent. May be repeated for credit.

**WGST 9440. Race, Gender, Ethnicity in Higher Education. 3 Credits.**

(same as Educational Leadership and Policy Analysis [ED\_LPA] 9440). Historical relationships of race, gender, and ethnic issues in United States higher education. Issues include: theory and research of curriculum and teaching, diversity within the academy, and leadership, governance, and policy. Prerequisite: graduate standing.

**Clifton, Jennifer Lynn**; Prof, Ast Teach; Learning Teaching & Curriculum

**Cline, Anna Elizabeth**; Instructor, Adjunct; Learning Teaching & Curriculum

**Coates, Joan Ripley**; Professor; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; University of Missouri

**Cobb Orr, Rachael Elizabeth**; Part-Time Adjunct Faculty; Dean of Arts & Science; Master's Degree - 1st entry; University of Missouri

**Cochran, Barbara Stubbs**; Prof, Profl Practice; Journalism; Master of Science; Columbia University

**Cocroft, Reginald B**; Professor; Biological Science; Doctor of Philosophy; Cornell University

**Coggeshall, Mark V**; Prof, Ast Resrch; Forestry; Master of Science; Mississippi State University

**Cohen, Ann M**; State Splclst, Asoc; Human Environmental Sci Ext; Master's; University of Nebraska - Lincoln

**Cohen, Daniel Jay**; Prof, Ast Teach; Religious Studies; Doctor of Philosophy; University of Virginia

**Cohen, Samuel Schlesinger**; Prof, Asoc; English; Doctor of Philosophy; The Graduate Center, City University of New York

**Cohen, Signe M**; Prof, Asoc; Religious Studies; Doctor of Philosophy; University of Pennsylvania

**Cohn, Leah Ann**; Professor; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; The University of Tennessee

**Colaner, Colleen Michele**; Prof, Ast; Communication; Doctor of Philosophy; University of Nebraska

**Colbert, Jan Louise**; Emeritus; Journalism; Master of Science; University of Missouri

**Coleman, Stephanie L**; Lecturer; Mizzou Online; Bachelor's Degree - 1st entry; The University of Texas

**Collins, Kent S**; Prof, Asoc Profl Practice; Journalism; Bachelor's; University of Missouri

**Collins, Michael**; Director; Plant Sciences; Doctor of Philosophy; University of Kentucky

**Collins, Robert Maurice**; Professor; History; Doctor of Philosophy; Johns Hopkins University

**Conant, Gavin C**; Prof, Ast; Animal Science; Doctor of Philosophy; The University of New Mexico

**Concannon, Stephen McKinley**; Part-Time Adjunct Faculty; Student Government

**Cone, Rex Alan**; Instructor, Adjunct; Communication; Bachelor's Degree - 1st entry; Columbia College

**Conklin, Carli N**; Prof, Asoc; Law; Juris Doctor

**Conn, Vicki S**; Dean, Asoc; School of Nursing; Doctor of Philosophy; University of Missouri

**Connell, Angela Christine**; Instructor, Clincl; SHP/Physical Therapy

**Conner III, Walter Lee**; Teaching Ast; Forestry

**Connett, Deborah Finfgeld**; Professor; School of Nursing; Registered Nurse

**Consiglio, Charissa Marie**; Instructor, Ast; Romance Languages & Literature; Bachelor's Degree - 2nd entry; University of Missouri

**Constantinescu, Gheorghe M**; Professor; Biomedical Sciences; Doctor of Philosophy; University of Agronomic Sciences and Veterinary Medicine of Bucharest

**Constantinescu, Ileana A**; Prof, Ast Clincl; Biomedical Sciences; Master of Science; University of Agricultural Sciences and Veterinary Medicine of Cluj

**Cook, Crystal Reeves**; Prof, Ast Teach; Veterinary Medicine & Surgery; Doctor of Medicine; University of Missouri

**Cook, James L**; Professor; Orthopaedic Surgery; Doctor of Philosophy; University of Missouri

**Cook, Michael L**; Professor; Agricultural/Applied Economics; Doctor of Philosophy; University of Wisconsin - Madison

**Cook, Roger F**; Professor; German & Russian Studies; Doctor of Philosophy; University of California, Berkeley

**Cooley, Jason Warren**; Prof, Ast; Chemistry; Doctor of Philosophy; Arizona State University

**Cooper, David Matthew**; Prof, Ast Visiting; Naval Science

**Cooper, M Lynne**; Prof, Curators; Psychological Sciences; Doctor of Philosophy; University of California, Santa Cruz

**Cooperstock, Linda R**; Instructor, Adjunct; Public Health Program; Master of Public Health; University of Michigan

**Cope, Jonas S**; Prof, Ast Teach; English; Master's; Fitchburg State University

**Cope, Phyllis Albart**; Instructor, Adjunct; Dean of Ed - Academic Dean; Master's; University of Missouri

**Cordones Cook, Juanamaria**; Professor; Romance Languages & Literature; Doctor of Philosophy; The University of Kansas

**Cornelison, Dawn D**; Prof, Asoc; Life Sciences Center; Doctor of Philosophy; California Institute of Technology

**Cornish, Peter Verle**; Prof, Ast; Biochemistry; Doctor of Philosophy; Texas A&M University

**Corridori, Frank Salvatore**; Prof, Ast/Profl Pract; Journalism; Bachelor's; Pratt Institute

**Cott, Ronald K**; Prof, Ast Clincl; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; University of Missouri

**Cowan, Nelson**; Prof, Curators; Psychological Sciences; Doctor of Philosophy; University of Wisconsin

**Cowgill, Libby Windred**; Prof, Ast; Anthropology; Doctor of Philosophy; Washington University

**Crabb, Richard Paul**; Professor; School of Music; Doctor of Philosophy; Florida State University

**Crane, Jennine Marie**; Resrch Scientist/Academic; Agriculture Biochemistry; Doctor of Philosophy; University of Missouri

**Crawford, Emily R**; Prof, Ast; Ed Leadership & Pol Analysis

**Creed, James Edward**; Part-Time Adjunct Faculty; Veterinary Medicine & Surgery; Master's Degree - 1st entry; Colorado State University

**Creger, Mary Virginia**; Part-Time Adjunct Faculty; Surgery-Plastic; Master's Degree - 1st entry; University of Missouri

**Crespy, David A**; Professor; Theatre; Doctor of Philosophy; City University of New York

**Crews, Sandra M**; Prof, Asoc Teach; Management; Doctor of Philosophy; University of Missouri - St. Louis

**Critchfield, Emily Marie**; Part-Time Adjunct Faculty; TV Station; Some College - 1st entry

**Cronk, Nikole J**; Prof, Ast Clincl; Family & Community Medicine; Doctor of Philosophy; University of Missouri

**Cropp IV, Frederick William**; Dean, Asoc; Journalism; Doctor of Philosophy; University of Missouri

**Crosby, Marci Jennings**; Instructor; Animal Science; Master's; University of California, Davis

**Cross, David T**; Prof, Ast Teach; Biomedical Sciences; Doctor of Veterinary Medicine; University of Missouri

**Crouch, Dennis D**; Prof, Asoc; Law; Juris Doctor; The University of Chicago

**Crozier, Ruth E**; Part-Time Adjunct Faculty; SHP Dean's Ofc-Student Affairs; Master of Public Admin; University of Missouri

**Crozier II, James H;** Lecturer; Mizzou Online; Doctor of Philosophy; University of Missouri

**Crumley, Carolyn Elizabeth;** Instructor, Adjunct; School of Nursing; Doctor of Nursing Practice; University of Missouri - Kansas City

**Cumbie, Billy G;** Emeritus; Biological Science; Doctor of Philosophy; The University of Texas at Austin

**Cummings, Kevin James;** Prof, Ast; Biomedical Sciences; Doctor of Philosophy; University of Victoria

**Cunningham, Billie M;** Prof, Teach; Accountancy; Doctor of Philosophy; University of North Texas

**Curry, Randy D;** Professor; Electrical and Computer Engr; Doctor of Philosophy; University of St. Andrews

**Curs, Bradley R;** Prof, Asoc; Ed Leadership & Pol Analysis; Doctor of Philosophy; University of Oregon

**Curtis, Scott Alan;** Librarian Iii; Libraries

**Cutkosky, Steven Dale;** Prof, Curators; Mathematics; Doctor of Philosophy; Brandeis University

**Cutler, Cathy S;** Prof, Resrch; Research Reactor; Doctor of Philosophy; University of Cincinnati

**Dabson, Brian;** Prof, Resrch; Institute of Public Policy; Master's; University of Birmingham - UK

**Dade, Alice Katharine;** Prof, Ast; School of Music; Master of Arts; The Juilliard School

**Daily, Melody A;** Prof, Clincl; Law; Juris Doctor; University of Missouri

**Daly, Martin;** Prof, Resrch; Anthropology; Doctor of Philosophy; University of Toronto

**Daniels, Mark Allen;** Prof, Ast; Molec Microbio & Immunology; Doctor of Philosophy; University of Minnesota

**Dann, Susanna;** Fellow, Post Doctoral; Mathematics; Doctor of Philosophy

**Dannecker, Erin A;** Prof, Asoc; SHP/Physical Therapy; Doctor of Philosophy; University of Florida

**Darolia, Rajeev;** Prof, Ast; Truman School of Pub Affrs Adm

**Datz, Craig A;** Part-Time Adjunct Faculty; Dean of Veterinary Medicine; Doctor of Veterinary Medicine; Virginia–Maryland Regional College of Veterinary Medicine

**Dauve, Jan L;** Prof, Teach; Agricultural/Applied Economics; Doctor of Philosophy; Colorado State University

**David, John Dewood;** Prof, Asoc; Biological Science; Doctor of Philosophy; Vanderbilt University

**Davidson, Sandra Ann;** Professor; Journalism; Doctor of Philosophy; University of Connecticut

**Davis, Curt H;** Professor; Electrical and Computer Engr; Doctor of Philosophy; The University of Kansas

**Davis, Justin Wade;** Prof, Asoc; Medical Research Office; Doctor of Philosophy; University of Missouri

**Davis, Michael John;** Professor; Med Pharmacology/Physiology; Doctor of Philosophy; University of Nebraska Medical Center

**Davis, Peter N;** Emeritus; Law; Juris Doctor; University of Wisconsin - Madison

**Daws, Koni Janine;** Part-Time Adjunct Faculty; Accountancy; Master's Degree - 1st entry; Wichita State University

**Dawson, William P;** Instructor, Ast; Honors College

**De Araujo, Zandra U;** Prof, Ast; Learning Teaching & Curriculum

**De Souza, Guilherme Nelson;** Prof, Asoc; Electrical and Computer Engr; Doctor of Philosophy; Purdue University

**DeClue, Amy Elizabeth;** Prof, Asoc; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; University of Illinois

**DeWeese, June LaFollette;** Librarian Iv; MU Libraries; Master of Library Science; University of Missouri

**Deakne, Carol A;** Professor; Chemistry; Doctor of Philosophy; Princeton University

**Dean, Kenneth D;** Provost, Deputy; Provost; Juris Doctor; University of Missouri

**Deidrick, Kathleen Keely;** Prof, Asoc Clincl; SHP/Health Psychology; Doctor of Philosophy; Southern Illinois University Carbondale

**Deming, Philip E;** Part-Time Adjunct Faculty; Learning Center; Doctor of Philosophy; University of Missouri

**Deng, Baolin;** Professor; Civil/Environmental Engr; Doctor of Philosophy; Johns Hopkins University

**Denker, Laura Anne;** Part-Time Adjunct Faculty; Dean of Agriculture

**Denny, Walter Brent;** Instructor, Adjunct; Journalism

**Desnoyer, Brad M;** Prof, Asoc Teach; Law

**Dessem, Ralph L;** Professor; Law; Juris Doctor; Harvard University

**Deutscher, Susan L;** Professor; Biochemistry; Doctor of Philosophy; Saint Louis University

**Devaney, Cheryl L;** Instructor, Adjunct; Dean of Ed - Academic Dean

**Devaney, Michael Joseph;** Emeritus; Electrical and Computer Engr; Doctor of Philosophy; University of Missouri

**Dey, Daniel C;** Prof, Ast Cooperative; Forestry; Doctor of Philosophy; University of Missouri

**Diamond, Michael A;** Professor; Ctr for Study of Org Change; Doctor of Philosophy; University of Maryland

**Diamond, Rand J;** Prof, Teach; Law Library; Juris Doctor; Fordham University

**Dickinson, Leslie Dawn;** Fellow; Computer Science; Bachelor's; Columbia College

**Dickinson, Matthew George;** Part-Time Adjunct Faculty; Computer Science; Master of Science; University of Missouri

**Dickson-Deane, Camille;** Lecturer; Mizzou Online; Master's Degree - 1st entry; Rochester Institute of Technology

**Diem, Sarah L;** Prof, Ast; Ed Leadership & Pol Analysis; Doctor of Philosophy; The University of Texas at Austin

**Dietrich, Maria Magdalena;** Prof, Ast; SHP/Comm Sci & Disorders

**Dietrich, Simone Susanne**; Prof, Ast; Political Science; Doctor of Philosophy; The Pennsylvania State University

**Dietz, Nancy J**; Instructor, Clincl; SHP/Physical Therapy; Doctor of Philosophy; University of South Dakota

**Ding, Shinghua**; Prof, Asoc; Biological Engineering; Doctor of Philosophy; Binghamton University, The State University of New York

**Dingo, Rebecca A**; Prof, Asoc; Women's & Gender Studies; Doctor of Philosophy; The Ohio State Univeristy

**Dirks, Lerin N**; Part-Time Adjunct Faculty; Hospitality Management; Master's Degree - 1st entry; University of Missouri

**Sterling, James**; Prof, Profl Practice; Journalism; Bachelor's; University of Missouri

**Stern, Reuben Joseph**; Part-Time Adjunct Faculty; Dean of Journalism; Bachelor's Degree - 1st entry; University of Missouri

**Stevens, Jeffrey Duane**; Instructor; Mathematics; Bachelor's Degree - 1st entry; Missouri Western State University

**Stevens, William Eugene**; Prof, Extns; Ag Ext-Plant Sciences; Doctor of Philosophy; Mississippi State University

**Stevenson, Brittney Lynn**; Part-Time Adjunct Faculty; SHP/Occupational Therapy; Master's Degree - 1st entry; University of Missouri

**Stewart, Bob R**; Emeritus; School of Nursing; Doctor of Education; University of Maryland

**Stewart, George**; Professor; Life Sciences Center; Doctor of Philosophy; The University of Texas Health Science Center at Dallas

**Stich, Roger William**; Professor; Veterinary Pathobiology; Doctor of Philosophy; Oklahoma State University

**Stichter, Janine Peck**; Professor; Special Education; Doctor of Philosophy; The University of Iowa

**Still, Roger Lee**; Prof, Adjunct; Truman School of Pub Affrs Adm; Master of Arts; University of Missouri

**Stober, Clintin P**; Prof, Ast; Psychological Sciences; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Stohr, Donna Umbach**; Part-Time Adjunct Faculty; Learning Center; Master of Arts; The Ohio State University

**Stone, Bethany**; Prof, Asoc Teach; Biological Science; Doctor of Philosophy; University of Missouri

**Stoner, Wesley D**; Fellow, Post Doctoral; Research Reactor

**Storey, Pamela**; Instructor, Lab; Human Devl & Family Studies; Master's; University of Missouri

**Stormont, Melissa**; Professor; Special Education; Doctor of Philosophy; Purdue University

**Stover, Sandra Marie**; Part-Time Adjunct Faculty; Dean of College of Business; Bachelor's Degree - 1st entry; University of Missouri - Kansas City

**Stowers, Lester Samuel**; Prof, Asoc Teach; English; Master's; University of Missouri

**Strathausen, Carsten**; Professor; German & Russian Studies; Doctor of Philosophy; University of Oregon

**Strathman, Alan J**; Prof, Teach; Psychological Sciences; Doctor of Philosophy; The Ohio State University

**Strickland, Donna G**; Prof, Asoc; English; Doctor of Philosophy; University of Wisconsin - Milwaukee

**Strid, Marc B**; Prgm Director; Dean of Agriculture; Master's; University of Missouri

**Strong, Stacie Ilene**; Prof, Asoc; Law; Doctor of Philosophy; University of Oxford

**Struble, Struby Kathleen**; Part-Time Adjunct Faculty; Student Life; Not Indicated - 1st entry; University of Missouri

**Stubbs, Sue**; Prof, Ast Adjunct; School of Music; University of Missouri

**Subasi, Musa**; Prof, Ast; Accountancy; Doctor of Philosophy; The University of Texas at Dallas

**Sudduth, Kenneth Alan**; Prof, Adjunct; Bioengineering; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Suedmeyer, Kirk**; Part-Time Adjunct Faculty; Dean of Veterinary Medicine; Doctor of Veterinary Medicine; University of Missouri

**Sukys, Julija**; Prof, Ast; English; Doctor of Philosophy; University of Toronto

**Sulko, Sara L**; Lecturer; International programs

**Summers, Gerald F**; Prof, Asoc; Biological Science; Doctor of Philosophy; University of Illinois

**Sun, Carlos Chung**; Prof, Asoc; Civil/Environmental Engr; Doctor of Philosophy; University of California, Irvine

**Sun, Dongchu**; Professor; Statistics; Doctor of Philosophy; Purdue University

**Sun, Grace Y**; Professor; Biochemistry; Doctor of Philosophy; Oregon State University

**Sun, Jianguo**; Professor; Statistics; Doctor of Philosophy; University of Waterloo

**Suppes, Galen**; Professor; Chemical Engineering; Doctor of Philosophy; Johns Hopkins University

**Surdal, Julie Ann**; Instructor, Clincl; SHP/Physical Therapy

**Sutovsky, Peter**; Professor; Animal Science; Doctor of Philosophy; Czech Academy of Sciences

**Svoma, Bohumil M**; Prof, Ast; Soil, Environ and Atmo Sci

**Swafford, Scott Cunningham**; Prof, Asoc Profl Practice; Journalism; Bachelor's; Northeast Missouri State University

**Swanson, Mark Kenneth**; Prof, Ast/Profl Pract; Journalism; Bachelor's; University of Missouri

**Sweet, Eric**; Prof, Ast Adjunct; Art; Master of Arts; University of Missouri - Kansas City

**Swenson, John**; Prof, Asoc Teach; Management; Juris Doctor; University of Missouri

**Swick, Marly A**; Professor; English; Doctor of Philosophy; The American University--D.C.

**Sykuta, Michael E**; Prof, Asoc; Agricultural/Applied Economics; Doctor of Philosophy; Washington University

**Szekely, Eva Diana**; Professor; School of Music; Master's; The Juilliard School

**Tabanelli, Roberta**; Prof, Asoc; Romance Languages & Literature; Doctor of Philosophy; University of Wisconsin - Madison

**Tager, David Stuart**; Part-Time Adjunct Faculty; Student Health Center; Doctor of Philosophy; University of Missouri

**Takeda, Shuichiro**; Prof, Ast; Mathematics; Doctor of Philosophy; University of Pennsylvania

**Tan, Change**; Prof, Asoc; Life Sciences Center; Doctor of Philosophy; University of Pennsylvania

**Tan, Jinglu**; Director; Bioengineering; Doctor of Philosophy; University of Minnesota

**Tanner, John J**; Professor; Agriculture Biochemistry; Doctor of Philosophy; Brown University

**Tanner, Steven Dwight**; Part-Time Adjunct Faculty; Biological Science; Doctor of Philosophy; University of Missouri

**Tarkow, Theodore Alfred**; Dean, Asoc; Dean of Arts & Science; Doctor of Philosophy; University of Michigan

**Tarr, James E**; Professor; Learning Teaching & Curriculum; Doctor of Philosophy; Illinois State University

**Tarrant, Jeffrey Matthew**; Part-Time Adjunct Faculty; Student Health Center; Doctor of Philosophy; University of Missouri

**Tate, Ryan James**; Instructor, Adjunct; Journalism

**Taub, Haskell**; Professor; Physics; Doctor of Philosophy; Cornell University

**Taub, Maria Quiroz**; Instructor, Ast; Romance Languages & Literature; Master's; Cornell University

**Taylor, Jeremy F**; Prof, Curators; Animal Science; Doctor of Philosophy; University of New England

**Taylor, Kristen Hawkins**; Prof, Ast; Path & Anat Sci-Anatomic Path; Doctor of Philosophy; Texas A&M University

**Taylor, Molly Elizabeth**; Instructor, Adjunct; Learning Teaching & Curriculum; Master's Degree - 1st entry; University of Missouri

**Teegarden, Tyten C**; Part-Time Adjunct Faculty; Journalism

**Teixeiro Pernas, Maria Emma**; Prof, Ast; Molec Microbio & Immunology; Doctor of Philosophy; University Complutense Madrid-Spain

**Tenkku, Leigh Ellen**; Prof, Asoc Resrch; Social Work; Doctor of Philosophy; Saint Louis University

**Terjung, Ronald L**; Professor; Biomedical Sciences; Doctor of Philosophy; The University of Iowa

**Terzopoulos, Amy Maxine**; Instructor, Adjunct; Social Work; Master of Social Work; University of Missouri

**Tessman, Ronald K**; Prof, Ast Adjunct; Veterinary Medicine & Surgery; Doctor of Philosophy; University of Missouri

**Teti, Michelle**; Prof, Ast; SHP/Health Sciences; Doctor of Philosophy; Drexel University

**Tew, Patricia A**; Prof, Ast Clincl; SHP/Cardiopulmonary/Diag Sci; Master's; Colorado State University

**Tharp, Steven Michael**; Prof, Ast; School of Music; Master's Degree - 1st entry; Wichita State University

**Thelen, Jay J**; Prof, Asoc; Life Sciences Center; Doctor of Philosophy; University of Missouri

**Thom, Karen Ann**; Lecturer; Mizzou Online

**Thomas, Cathy**; Prof, Ast; Special Education; Doctor of Philosophy; The University of Texas at Austin

**Thomas, Ryan James**; Prof, Ast; Journalism; Doctor of Philosophy; Washington State University

**Thombs, Lori Ann**; Prof, Asoc; Statistics; Doctor of Philosophy; Southern Methodist University

**Thompson, Aaron Mathew**; Prof, Ast; Social Work

**Thompson, Allen L**; Professor; Bioengineering; Doctor of Philosophy; University of Nebraska

**Thompson, Carolyn Lynn**; Instructor, Adjunct; Learning Teaching & Curriculum; Master's Degree - 1st entry; University of Missouri

**Thompson, Dewey William;** Part-Time Adjunct Faculty; Business Extn/CE; Bachelor's Degree - 2nd entry; University of Missouri

**Thompson, Donald Leo;** Professor; Chemistry; Doctor of Philosophy; University of Arkansas

**Thompson, Frank R;** Prof, Asoc Cooperative; Fisheries & Wildlife Sciences; Doctor of Philosophy; University of Missouri

**Thompson, Wyatt Warren;** Prof, Asoc; Agricultural/Applied Economics; Doctor of Philosophy; University of Missouri

**Thornton, Jessica Mercedes;** Prof, Ast; Art; Master of Fine Arts; Washington University

**Thorson, Esther L;** Dean, Asoc; Dean of Journalism; Doctor of Philosophy; University of Minnesota

**Thullen, Matthew J;** Prof, Ast; SHP/Health Sciences; Doctor of Philosophy; The University of Chicago

**Thyfault, John P;** Prof, Asoc; Nutrition & Exercise Phys-MED; Doctor of Philosophy; The University of Kansas

**Tilley, James Benjamin;** Instructor; Ed Leadership & Pol Analysis; Doctor of Education; William Woods University

**Timms, Kathy L;** Professor; Ob, Gyn & Women's Health; Doctor of Philosophy; The University of Tennessee

**Tipton, Peter A;** Professor; Biochemistry; Doctor of Philosophy; University of Wisconsin - Madison

**Tisher, Lori Jean;** Instructor, Adjunct; Management; Master of Science; Massachusetts Institute of Technology

**Tofle, Ruth Brent;** Professor; Architectural Studies; Doctor of Philosophy; University of Minnesota

**Tomlinson, James Leroy;** Professor; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; University of Minnesota

**Tompson Jr, Robert V;** Professor; Nuclear Engineering; Doctor of Philosophy; University of Missouri

**Townsend, Martha A;** Prof, Asoc; English; Doctor of Philosophy; Arizona State University

**Trachtenberg, Ben Lev;** Prof, Asoc; Law

**Trauth, Kathleen M;** Prof, Asoc; Civil/Environmental Engr; Doctor of Philosophy; Texas Tech University

**Trindade, Vitor Manuel;** Prof, Asoc; Economics; Doctor of Philosophy; University of California, San Diego

**Trinklein, David Herbert;** Prof, Asoc; Plant Sciences; Doctor of Philosophy; University of Missouri

**Triplett Jr, Gregory E;** Prof, Asoc; Electrical and Computer Engr; Doctor of Philosophy; Georgia Institute of Technology

**Trout, Dennis E;** Prof, Asoc; Classical Studies; Doctor of Philosophy; Duke University

**Trull, Timothy J;** Prof, Curators; Psychological Sciences; Doctor of Philosophy; University of Kentucky

**Tsai, Hui Hsien;** Part-Time Adjunct Faculty; VP Undergraduate Studies

**Tsika, Richard W;** Professor; Life Sciences Center; Doctor of Philosophy; University of California, Irvine

**Tsoi, Allanus Hakman;** Professor; Mathematics; Doctor of Philosophy; University of Alberta

**Tuggle, Teresa Suzanne;** Lecturer; International programs; Master of Arts; Oklahoma State University

**Tummons, John D;** Specialist; Agricultural Ed and Leadership; Master's; University of Missouri

**Tummons, Martha Elizabeth;** Part-Time Adjunct Faculty; Dean of Graduate School; Master's Degree - 1st entry; University of Central Missouri

**Turban, Daniel B;** Professor; Management; Doctor of Philosophy; University of Houston

**Tyler, Aurora Dawn;** Instructor, Adjunct; Journalism; Bachelor's; University of Missouri

**Tyler, Lindsey Leigh;** Part-Time Adjunct Faculty; TV Station

**Tyrer Jr, Harry Wakeley;** Professor; Electrical and Computer Engr; Doctor of Philosophy; Duke University

**Tzou, Robert D;** Professor; Mechanical & Aerospace Engr; Doctor of Philosophy; Lehigh University

**Ugarte, Michael;** Professor; Romance Languages & Literature; Doctor of Philosophy; Cornell University

**Uhlmann, Jeffrey;** Prof, Asoc; Computer Science; Doctor of Philosophy; University of Oxford

**Ulbrich, Sherri Lynn;** Prof, Ast Clincl; School of Nursing; Doctor of Philosophy; University of Missouri

**Ullrich, Carsten Andreas;** Professor; Physics; Doctor of Philosophy; University of Wurzburg, Germany

**Underwood, Michael B;** Professor; Geological Sciences; Doctor of Philosophy; Cornell University

**Unger, Brent J;** Chair, Asoc; Aerospace Studies; Master's Degree - 1st entry; University of Missouri

**Unrath, Kathleen;** Prof, Asoc; Learning Teaching & Curriculum; Doctor of Philosophy; University of Missouri

**Upah, Jennifer R;** Prof, Ast Teach; Parks Recreation & Tourism; Master's; University of Houston

**Uphoff, Rodney J;** Professor; Law; Juris Doctor; University of Wisconsin - Madison

**Urban, Michael A;** Prof, Asoc; Geography; Doctor of Philosophy; University of Illinois

**Valdivia, Corinne B;** Prof, Asoc; Agricultural/Applied Economics; Doctor of Philosophy; University of Missouri

**Valentine, Jerry Wayne;** Emeritus; Ed Leadership & Pol Analysis; Doctor of Philosophy; University of Nebraska

**Vallentyne, Peter L;** Professor; Philosophy; Doctor of Philosophy; University of Pittsburgh

**Van Doren, Steven R;** Professor; Agriculture Biochemistry; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Van Dyke, James A;** Prof, Asoc; Art History & Classical Archaeology; Doctor of Philosophy; Northwestern University

**Van Eaton, Melinda Kaye**; Instructor, Adjunct; Journalism; Master's; University of Missouri

**Van Garderen-Anderson, Delinda**; Prof, Asoc; Special Education; Doctor of Philosophy; University of Miami

**Van Pool, Christine I**; Prof, Asoc; Anthropology; Doctor of Philosophy; The University of New Mexico

**VanMarle, Kristy L**; Prof, Ast; Psychological Sciences; Doctor of Philosophy; Yale University

**Vangelis, Linda**; Prof, Ast Visiting; Communication

**Vangilder, Larry D**; Resrch Asoc; Fisheries & Wildlife Sciences; Doctor of Philosophy; The Ohio State University

**Vanpool, Todd Logan**; Prof, Asoc; Anthropology; Doctor of Philosophy; The University of New Mexico

**Vanskike, Shelly D**; Instructor, Adjunct; Learning Teaching & Curriculum; Master's Degree - 1st entry; University of Missouri

**Vardhanabhuti, Bongkosh**; Prof, Ast; Food Science; Doctor of Philosophy; North Carolina State University

**Varns, Curtis Wayne**; Instructor, Adjunct; Journalism

**Vasko, Maria Vladimirovna**; Instructor; Mathematics

**Vaughn, Adrienne L**; Part-Time Adjunct Faculty; Psychological Sciences; Master's Degree - 1st entry; University of Missouri

**Vaught, David R**; Prof, Asoc Teach; Parks Recreation & Tourism; Doctor of Philosophy; University of Missouri

**Veile, Steve Eric**; Instructor, Adjunct; Journalism; Bachelor's; University of Missouri

**Velazquez, Celso Raul**; Prof, Asoc Clincl Dept; Medicine-Immunology & Rheumato; Doctor of Medicine

**Verbitsky, Igor**; Prof, Curators; Mathematics; Doctor of Philosophy; Kazan State University, Russia

**Vergauwe, Evie Annie**; Fellow, Post Doctoral; Psychological Sciences

**Verkamp, Laura Elizabeth**; Part-Time Adjunct Faculty; SHP Dean's Ofc-Student Affairs

**Verkamp, Ryan Michael**; Instructor, Adjunct; Accountancy; Master of Accountancy; University of Missouri

**Vessell, Danna**; Part-Time Adjunct Faculty; VP Undergraduate Studies; Doctor of Philosophy; University of Missouri

**Veum, Trygve Lauritz**; Professor; Animal Science; Doctor of Philosophy; Cornell University

**Vieira Potter, Victoria Jeanne**; Prof, Ast; Nutrition & Exercise Phys-HES

**Villamil Monroy, Astrid Milena**; Prof, Ast Teach; Communication; Doctor of Philosophy; The University of Kansas

**Vincent, Paul Leszek**; Prof, Ast Adjunct; Plant Sciences; Doctor of Philosophy; University of Natal, South Africa

**Vinson, Daniel C**; Prof, Adjunct; Family & Community Medicine; Doctor of Medicine; The University of North Carolina at Chapel Hill

**Virkler, Mark Robert**; Professor; Civil/Environmental Engr; Doctor of Philosophy; University of Virginia

**Viswanath, Dabir Srikantiah**; Emeritus; Nuclear Engineering; Doctor of Philosophy; University of Rochester

**Vizcarra, Michael Alan**; Prof, Visiting; Naval Science

**Voelkl, Dawna Lynn**; Prof, Ast Teach; Veterinary Medicine & Surgery; Doctor of Veterinary Medicine; Cornell University

**Vogelsmeier, Amy**; Prof, Ast; School of Nursing; Doctor of Philosophy; University of Missouri

**Vogelweid, Mary Catherine**; Prof, Asoc Clincl; Veterinary Pathobiology; Doctor of Philosophy; University of Missouri

**Volkert, Wynn A**; Emeritus; Radiology; Doctor of Philosophy; University of Missouri

**Volkman, Dietrich Hans**; Prof, Clincl; Veterinary Medicine & Surgery; Doctor of Philosophy; Cornell University

**Volkman, Mark J**; Emeritus; Learning Teaching & Curriculum; Doctor of Philosophy; Purdue University

**Volz, Michael John**; Prof, Ast Teach; German & Russian Studies; Master's; Stanford University

**Volz, Yong Zhang**; Prof, Asoc; Journalism; Doctor of Philosophy; University of Minnesota

**Vomsaal, Frederick Stephen**; Prof, Curators; Biological Science; Doctor of Philosophy; Rutgers - The State University of New Jersey

**Vories, Earl**; Prof, Adjunct; Bioengineering; Doctor of Philosophy; The University of Tennessee

**Vornholt, Catherine Louise**; Teaching Ast; Biological Science; Bachelor's Degree - 1st entry; Lawrence University

**Vos, Tim P**; Prof, Asoc; Journalism; Doctor of Philosophy; Syracuse University

**Vought Jr, Thomas J**; Part-Time Adjunct Faculty; Geography; Master's Degree - 1st entry; Kansas State University - Salina

**Wagovich, Stacy Ann**; Prof, Asoc; SHP/Comm Sci & Disorders; Doctor of Philosophy; The University of Georgia

**Waid, Timothy R**; Prof, Asoc Teach; Management; Doctor of Philosophy; University of Missouri

**Waigandt, Alexander C**; Prof, Asoc Emeritus; Educ, School, & Counsel Psych; Doctor of Philosophy; University of Oregon

**Wakefield, Bonnie**; Prof, Asoc Resrch; School of Nursing; Registered Nurse

**Wakefield, Douglas Sidney**; Professor; Center for Health Care Quality; Doctor of Philosophy; The University of Iowa

**Waldron, Anna M**; Prof, Ast Clincl; Learning Teaching & Curriculum; Doctor of Philosophy; Cornell University

**Walensky, Justin Ross**; Prof, Ast; Chemistry; Doctor of Philosophy; University of California, Irvine

**Walker, Bruce J**; Professor; Marketing; Doctor of Philosophy; University of Colorado Boulder

**Walker, John Charles**; Professor; Biological Science; Doctor of Philosophy; The University of Georgia

**Walker II, Martin W**; Part-Time Adjunct Faculty; Dean of Engineering; Bachelor's Degree - 1st entry; Rockhurst University

**Wall, Judy Davis**; Professor; Agriculture Biochemistry; Doctor of Philosophy; Duke University

**Wall Jr, James Allen**; Prof, Curator Teach; Management; Doctor of Philosophy; The University of North Carolina at Chapel Hill

**Wallace, Kathleen S**; Instructor, Adjunct; Human Devl & Family Studies; Master of Arts; University of Missouri

**Wallach, Barbara Price**; Prof, Asoc; Classical Studies; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Wallach, Emmanuelle Janet**; Instructor, Adjunct; Industrial/Mfg Sys Engr

**Waller, Erika McGraw**; Prof, Ast Clincl; Psychological Sciences; Doctor of Philosophy; University of Missouri

**Walsh, Samuel Peter**; Prof, Ast; Mathematics

**Walter, Margaret Rose**; Prof, Asoc Profl Practice; Journalism; Master's; Ball State University

**Wamsley, Tyler James**; Prof, Ast; Military Science

**Wang, Cuizhen**; Prof, Asoc; Geography; Doctor of Philosophy; Michigan State University

**Wang, Juan**; Prof, Ast Teach; Romance Languages & Literature; Doctor of Philosophy; University of Colorado

**Wang, Kenneth**; Prof, Ast; Educ, School, & Counsel Psych; Doctor of Philosophy; The Pennsylvania State University

**Wang, Michael Xia**; Prof, Asoc Clincl Dept; Path & Anat Sci-Anatomic Path; Doctor of Philosophy; The University of Texas Health Science Center

**Wang, Xinghe**; Professor; Economics; Doctor of Philosophy; The University of Iowa

**Wang, Ze**; Prof, Ast; Educ, School, & Counsel Psych; Doctor of Philosophy; University of Missouri

**Ward, Carol V**; Professor; Path & Anat Sci - Anatomy; Doctor of Philosophy; Johns Hopkins University

**Warhover, Thomas A**; Prof, Asoc; Journalism; Bachelor's; University of Missouri

**Warmund, Michele Renee**; Professor; Ag Ext-Plant Sciences; Doctor of Philosophy; University of Missouri

**Warner, Benjamin R**; Prof, Ast; Communication; Doctor of Philosophy; The University of Kansas

**Washer, Glenn Alden**; Prof, Asoc; Civil/Environmental Engr; Doctor of Philosophy; Worcester Polytechnic Institute

**Watanabe, Nicholas M**; Prof, Ast Teach; Parks Recreation & Tourism; University of Illinois

**Waters, Samuel Terrence**; Prof, Ast; Life Sciences Center; Doctor of Philosophy; University of Virginia

**Watkins, Paul J**; Lecturer; Mizzou Online; Doctor of Education; Saint Louis University

**Watson, Robert Lewis**; Prof, Ast Adjunct; Ed Leadership & Pol Analysis; Doctor of Education; University of Wyoming

**Watt, J Wilson**; Prof, Asoc; Social Work; Doctor of Philosophy; University of Illinois at Chicago

**Watts, Steven**; Professor; History; Doctor of Philosophy; University of Missouri

**Wayland, Patricia Kay**; Lecturer; International programs; Master of Education; University of Missouri

**Weagley, Pamela N**; Prof, Asoc; Textile and Apparel Mgmt; Doctor of Philosophy; Cornell University

**Weagley, Robert O**; Prof, Asoc; Personal Financial Planning; Doctor of Philosophy; Cornell University

**Weatherford, Ted**; Part-Time Adjunct Faculty; Health Mgmt & Informatics

**Weaver, Jan C**; Prof, Ast Adjunct; Biological Science; Doctor of Philosophy; University of Missouri

**Webb, Lisa**; Prof, Ast Cooperative; Fisheries & Wildlife Sciences

**Webel, Corey M**; Prof, Ast; Learning Teaching & Curriculum; Doctor of Philosophy; University of Delaware

**Wechsler, Barton J**; Dean; Truman School of Pub Affrs Adm; Doctor of Philosophy; The Ohio State University

**Wedman, Laura Lynn**; Part-Time Adjunct Faculty; Info Science & Learning Tech; Doctor of Philosophy; University of Missouri

**Wegman, Lora Ellen**; Lecturer; Mizzou Online

**Wehring, Susan Patricia**; Prof, Ast Teach; SHP/Athletic Training; Master of Science; Ohio University

**Weir, Robert B**; Part-Time Adjunct Faculty; The Missourian; Bachelor's Degree - 1st entry; University of Missouri

**Weirich, Paul**; Prof, Curators; Philosophy; Doctor of Philosophy; University of California, Los Angeles

**Weisman, Gary A**; Professor; Life Sciences Center; Doctor of Philosophy; University of Nebraska - Lincoln

**Wells, Christina E**; Professor; Law; Juris Doctor; The University of Chicago

**Wells, Kevin Dale**; Prof, Asoc; Animal Science; Doctor of Philosophy; North Carolina State University

**Wells, William Thomas**; Prof, Asoc Profl Practice; Health Mgmt & Informatics; Doctor of Philosophy; University of Missouri

**Welshons, Wade Vincent**; Prof, Asoc; Biomedical Sciences; Doctor of Philosophy; Harvard University

**Wenger, Janice Kay**; Professor; School of Music; Doctor of Musical Arts; University of Missouri - Kansas City

**West, Nancy M**; Director; Honors College; Doctor of Philosophy; The University of North Carolina

**Westerfield, Mary C**; Lecturer; Dean of Ed - MPER; Master's; University of Missouri

**Westgren, Randall Edward**; Professor; Agricultural/Applied Economics; Doctor of Philosophy; Purdue University

**Westhoff, Jacob Thomas**; Instructor; Fisheries & Wildlife Sciences; Doctor of Philosophy; University of Missouri

**Westhoff, Patrick**; Professor; Agricultural/Applied Economics; Doctor of Philosophy; Iowa State University

**Weston, Dana T**; Prof, Asoc; Mathematics; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Weston, Dovie**; Part-Time Adjunct Faculty; SHP/Occupational Therapy; Master's Degree - 1st entry; University of Missouri

**Wetzel, M Annice**; Instructor; Romance Languages & Literature; Master's; Middlebury College

**Wexler, Carlos**; Professor; Physics; Doctor of Philosophy; University of Washington

**Wharton, Alexandra**; Prof, Ast Adjunct; Dean of Journalism

**Whelove, Richard T**; Instructor, Residnt; Mechanical & Aerospace Engr; Master's; University of Missouri

**Whistance, Jarrett Lea**; Fellow, Post Doctoral; Ag Econ - FAPRI; Doctor of Philosophy; University of Missouri

**White, Arthur Lynn**; Prof, Ast; School of Music; Doctor of Musical Arts; The University of North Carolina at Greensboro

**White, Henry W**; Emeritus; Physics; Doctor of Philosophy; University of California, Riverside

**White, Shannon Hill**; Extns Professional, Ast; Youth & 4-H; Doctor of Philosophy; North Carolina State University

**Whites, Leeann**; Professor; History; Doctor of Philosophy; University of California, Irvine

**Whitney, Marlyn S**; Prof, Asoc Clincl; Veterinary Diagnostic Laborato; Doctor of Philosophy; Purdue University

**Whitney, Stephen Dennis**; Prof, Asoc; Educ, School, & Counsel Psych; Doctor of Philosophy; University of Washington

**Whittington, Alan Geoffrey**; Professor; Geological Sciences; Doctor of Philosophy; Open University, UK

**Whorton, Sarah**; Part-Time Adjunct Faculty; Academic Support Center; Bachelor's Degree - 1st entry; Stephens College

**Whyte, Jeffrey John**; Resrch Scientist/Academic; Animal Science; Doctor of Philosophy; University of Waterloo

**Wiebold, William J**; Professor; Ag Ext-Plant Sciences; Doctor of Philosophy; The University of Georgia

**Wiedmeyer, Charles E**; Prof, Asoc; Veterinary Diagnostic Laborato; Doctor of Philosophy; University of Illinois

**Wiegand, Bryon R**; Prof, Asoc; Animal Science; Doctor of Philosophy; Iowa State University

**Wiese, Jeffrey A**; Dean, Ast; Dean of College of Business; Master's Degree - 1st entry; The University of Georgia

**Wigger, John H**; Professor; History; Doctor of Philosophy; University of Notre Dame

**Wikle, Christopher K**; Professor; Statistics; Doctor of Philosophy; Iowa State University

**Wilcox, Lori Janae**; Director; Dean of Ed - Academic Dean; Doctor of Education; University of Missouri

**Wilden, Peter A**; Prof, Asoc; Med Pharmacology/Physiology; Doctor of Philosophy; The University of Iowa

**Wilding, Sarah Baxter**; Lecturer; Special Education; Specialist of Education; Lincoln University

**Will, Matthew J**; Prof, Asoc; Life Sciences Center; Doctor of Philosophy; University of Colorado Boulder

**Willard, Adam R**; Part-Time Adjunct Faculty; SHP Dean's Ofc-Student Affairs; Master of Public Admin; University of Missouri

**Willett, Dan L**; Prof, Asoc; School of Music; Master's; Michigan State University

**Williams, Laron K**; Prof, Ast; Political Science; Doctor of Philosophy; Texas A&M University

**Williams, Tricia Ann**; Instructor, Adjunct; Learning Teaching & Curriculum; Master's Degree - 1st entry; William Woods University

**Williamson, Barbara**; Prof, Asoc Teach; Educ, School, & Counsel Psych; Doctor of Philosophy; The University of Tennessee

**Willingham, M Juanita**; Lecturer; Mizzou Online; Master's; University of Missouri

**Willis, Bradley W**; Part-Time Adjunct Faculty; MOI Therapies; Master's Degree - 1st entry; University of Missouri

**Wilson, Christopher**; Prof, Asoc Teach; English; Master of Fine Arts; Kansas State University

**Wilson, David Alan**; Professor; Veterinary Medicine & Surgery; Master of Science; University of Illinois at Urbana-Champaign

**Wilson, Rachel A**; Prof, Ast Teach; Accountancy; Master of Laws; New York University Law School

**Wilson, Richard A**; Prof, Asoc; Art; Master of Fine Arts; University of Missouri

**Wilson, Theresa N**; Part-Time Adjunct Faculty; Student Health Center; Master of Education; University of Missouri

**Windett, Tina Yvonne**; Instructor, Adjunct; Dean of Ed - MPER

**Wingert, Karen L**; Prof, Asoc Teach; SHP/Physical Therapy; Rocky Mountain University

**Winholtz, Robert Andrew**; Prof, Asoc; Mechanical & Aerospace Engr; Doctor of Philosophy; Northwestern University

**Winger, Frederick A**; Prof, Ast; Veterinary Medicine & Surgery; Master of Science; University of Pennsylvania

**Winn, David Jackson**; Instructor, Adjunct; Social Work; Master of Social Work; University of Missouri

**Wipke Tevis, Deidre D**; Prof, Asoc; School of Nursing; Doctor of Philosophy; University of California, San Francisco

**Wirkus, Anthony Aaron**; Part-Time Adjunct Faculty; Intercollegiate Athletics; Bachelor's Degree - 1st entry; University of Missouri

**Withrow, Sarah Alexandra**; Part-Time Adjunct Faculty; Dean of Human Env Sci; Bachelor's Degree - 1st entry; University of Missouri

**Woelfel, Stacey W**; Prof, Asoc Profl Practice; Journalism; Doctor of Philosophy; University of Missouri

**Wolff, Jane C**; Instructor, Adjunct; Dean of Human Env Sci; Master of Education; University of Missouri - St. Louis

**Womack, Abner Willis**; Emeritus; Ag Econ - FAPRI; Doctor of Philosophy; University of Minnesota

**Wood, Aaron Douglas**; Fellow, Post Doctoral; Mathematics; Doctor of Philosophy; The University of Utah

**Wood, Bondi Jo**; Part-Time Adjunct Faculty; Thompson Center; Master's Degree - 1st entry; University of Missouri

**Wood, Phillip**; Professor; Psychological Sciences; Doctor of Philosophy; University of Minnesota

**Wood, W Raymond**; Emeritus; Anthropology

**Wood Turley, Sharon**; Prof, Ast Teach; Applied Soc Sci Div Admin; Master's; University of Missouri

**Wooden, Amanda Michelle**; Part-Time Adjunct Faculty; Dean of College of Business

**Woods, Christine Michelle**; Instructor, Clincl; Social Work; Master's; University of Missouri

**Woods, Jayne Tiana**; Prof, Asoc Adjunct; Law

**Woods, Stephanie Lynn**; Instructor, Visiting; Dean of Graduate School; Master's; The University of Southern Mississippi

**Woodson, Stanley C**; Prof, Adjunct; Civil/Environmental Engr

**Woolsey, Barbara J**; Instructor, Adjunct; Dean of Ed - MPER; Doctor of Education; University of Missouri

**Wooten, H. Omar**; Part-Time Adjunct Faculty; Mizzou Online

**Worthington, Ian**; Prof, Curators; History; Doctor of Philosophy; Monash University

**Worthington, Roger L**; Professor; Educ, School, & Counsel Psych; Doctor of Philosophy; University of California, Santa Barbara

**Wright, Barbara Ann**; Lecturer; Mizzou Online; Doctor of Philosophy; University of Missouri

**Wright, Farroll Tim**; Emeritus; Statistics; Doctor of Philosophy; University of Missouri

**Wright, Kristina Marie**; Part-Time Adjunct Faculty; Honors College; Master's Degree - 1st entry; University of Missouri

**Wright, Lisa Ann**; Instructor, Adjunct; Learning Teaching & Curriculum; Doctor of Philosophy; University of Missouri

**Wu, Bin**; Professor; Industrial/Mfg Sys Engr; Doctor of Philosophy; Brunel University - England

**Wu, Ying**; Prof, Ast/Profl Pract; Journalism; Master of Arts; Brandeis University

**Wycoff, Linda Dianne**; Instructor, Adjunct; Learning Teaching & Curriculum; Master's; University of Missouri

**Xiao, Chengshan**; Professor; Electrical & Computer Engineer; Doctor of Philosophy; University of Sydney, Australia

**Xin, Ming**; Prof, Asoc; Mechanical & Aerospace Engr

**Xing, Yangchuan**; Prof, Asoc; Chemical Engineering; Doctor of Philosophy; Yale University

**Xiong, Xi**; Prof, Ast; Plant Sciences; Doctor of Philosophy; Oklahoma State University

**Xu, Dong**; Professor; Life Sciences Center; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**Yan, Cheng**; Prof, Ast Teach; Parks Recreation & Tourism

**Yan, Haojing**; Prof, Ast; Physics; Doctor of Philosophy; Arizona State University

**Yan, Xuemin**; Professor; Finance; Doctor of Philosophy; The University of Iowa

**Yang, Yipeng**; Prof, Ast Visiting; Mathematics; Doctor of Philosophy; North Carolina State University

**Yao, Gang**; Professor; Biological Engineering; Doctor of Philosophy; Texas A&M University

**Yao, Rui**; Prof, Asoc; Personal Financial Planning; Doctor of Philosophy; The Ohio State University

**Yelon, Harriet Most**; Instructor, Adjunct; Social Work; Master of Social Work; University of Missouri

**Yelon, William B**; Volunteer; Materials Research Center; Doctor of Philosophy; Carnegie Mellon University

**Yin, Dezhi**; Prof, Ast; Management; Doctor of Philosophy; Georgia Institute of Technology

**Yonkman, Carol Ann**; Emeritus; School of Nursing; Master's; University of Missouri

**Yoo, Ill Hoi**; Prof, Asoc; Health Mgmt & Informatics; Doctor of Philosophy; Drexel University

**Yoon, Dongpil**; Prof, Asoc; Social Work; Doctor of Philosophy; University of Illinois at Urbana-Champaign

**You, Seung Kwon**; Part-Time Adjunct Faculty; VP for International Programs; Doctor of Philosophy; University of Missouri

**Young, Jason S**; Part-Time Adjunct Faculty; Parks Recreation & Tourism; Bachelor of Science; University of Missouri

**Yunker, Lori Lee**; Instructor, Visiting; Dean of Graduate School; Master's; Southeast Missouri State University

**Yu, Mansoo**; Prof, Ast; Social Work; Doctor of Philosophy; Washington University

**Yu, Ping**; Prof, Asoc; Physics; Doctor of Philosophy; Hong Kong University of Science & Technology

**Yu, Qingsong**; Prof, Asoc; Mechanical & Aerospace Engr; Doctor of Philosophy; University of Missouri

**Zaghouani, Habib**; Professor; Molec Microbio & Immunology; Doctor of Philosophy; University of Paris

**Zan, Hua**; Prof, Ast Teach; Personal Financial Planning; Doctor of Philosophy; The Ohio State University

**Zapata, Maria Angelica**; Prof, Ast; Learning Teaching & Curriculum; Doctor of Philosophy; The University of Texas at Austin

**Zare, Alina**; Prof, Ast; Electrical and Computer Engr; Doctor of Philosophy; University of Florida

**Zars, Troy D**; Prof, Asoc; Biological Science; Doctor of Philosophy; University of Notre Dame

**Zeller, Dean Leroy**; Instructor; Computer Science

**Zemke, John M**; Professor; Romance Languages & Literature; Doctor of Philosophy; University of California, Davis

**Zeng, Wenjun**; Professor; Computer Science; Doctor of Philosophy; Princeton University

**Zeng, Yinghui**; Prof, Ast Adjunct; Computer Science; Doctor of Philosophy; University of Missouri

**Zephir, Flore**; Professor; Romance Languages & Literature; Doctor of Philosophy; Indiana University Bloomington

**Zettler, Laura Reynolds**; Instructor, Adjunct; Personal Financial Planning

**Zguta, Russell**; Professor; History; Doctor of Philosophy; The Pennsylvania State University

**Zhang, Bing**; Professor; Biological Science; Doctor of Philosophy; Cornell University

**Zhang, Guoquan**; Prof, Ast; Veterinary Pathobiology; Doctor of Philosophy; University of Gifu- Gifu

**Zhang, Shuqun**; Professor; Life Sciences Center; Doctor of Philosophy; The University of Texas at Austin

**Zhang, Xianyang**; Prof, Ast; Statistics; Doctor of Science; University of Illinois at Urbana-Champaign

**Zhang, Yun**; Prof, Asoc Teach; Physics; Doctor of Philosophy; University of California, San Diego

**Zhang, Yuwen**; Professor; Mechanical & Aerospace Engr; Doctor of Philosophy; University of Connecticut

**Zhang, Zhanyuan**; Prof, Asoc Resrch; Plant Sciences; Doctor of Philosophy; University of Nebraska - Lincoln

**Zhao, Qihong**; Prof, Ast; Accountancy; Doctor of Philosophy; University of Colorado Boulder

**Zhao, Yunxin**; Professor; Computer Science; Doctor of Philosophy; University of Washington

**Zhuang, Xinhua**; Professor; Computer Science; Doctor of Philosophy; Peking University, China

**Zimmerman, Ian Daniel**; Prof, Ast Teach; Psychological Sciences; Doctor of Philosophy; Central Michigan University

**Zou, Shaoming**; Professor; Marketing; Doctor of Philosophy; Michigan State University

**Zou, Xiaoqin**; Prof, Asoc; Physics; Doctor of Philosophy; University of California, San Diego

**Zulovich, Joseph M**; Prof, Ast Extns; Ag Ext-Food Sci & Nutrition; Doctor of Philosophy; University of Nebraska - Lincoln

**Zumwalt, Andrew Mark**; Prof, Ast Extns; Human Environmental Sci Ext; Master of Science; University of Missouri

**Zweig, Steven C**; Professor; Family & Community Medicine; Doctor of Medicine; University of Missouri

MA in History ..... 203

MA in Human Development and Family Studies ..... 509

MA in Information Science and Learning Technology with emphasis in Library Science ..... 361

MA in Journalism ..... 575

MA in Learning, Teaching and Curriculum ..... 366

MA in Mathematics ..... 226

MA in Music ..... 242

MA in Philosophy ..... 249

MA in Political Science ..... 261

MA in Psychology ..... 267

MA in Religious Studies ..... 270

MA in Romance Languages ..... 274

MA in Romance Languages with emphasis in French ..... 274

MA in Romance Languages with emphasis in Language Teaching ..... 275

MA in Romance Languages with emphasis in Spanish ..... 277

MA in Russian and Slavonic Studies ..... 284

MA in Sociology ..... 287

MA in Special Education ..... 394

MA in Statistics ..... 292

MA in Statistics with Emphasis in Biostatistics ..... 293

MA in Textile and Apparel Management ..... 544

MA in Theatre ..... 299

MA MS in Physics ..... 255

MAcc in Accountancy ..... 321

Management (MANGMT) ..... 982

Marketing (MRKTNG) ..... 987

Master of Laws (LLM) .....	645	Minor in Canadian Studies .....	305
Master's Requirements (University) .....	19	Minor in Captive Wild Animal Management .....	123
Mathematics .....	223	Minor in Chemistry .....	158
Mathematics (MATH) .....	991	Minor in Classics .....	162
MBA in Business Administration .....	336	Minor in Computational Neuroscience .....	462
ME in Engineering .....	442	Minor in Computer Science .....	428
Mechanical And Aerospace Engin (MAE) .....	998	Minor in East Asian Studies .....	305
Mechanical and Aerospace Engineering .....	452	Minor in Economics .....	175
MEd in Educational and Counseling Psychology .....	352	Minor in Energy .....	463
MEd in Educational Leadership and Policy Analysis .....	355	Minor in Engineering .....	442
MEd in Information Science and Learning Technology with emphasis in Educational Technology .....	363	Minor in English .....	181
MEd in Learning, Teaching and Curriculum .....	367	Minor in English Writing .....	181
MEd in Special Education .....	394	Minor in Entrepreneurship .....	632
Medical Pharmacology and Physiology .....	615	Minor in Film Studies .....	186
Medical Pharmacology and Physiology (MPP) .....	1006	Minor in Financial Literacy for Helping Professionals .....	545
Medicine-Interdisciplinary (MED_ID) .....	1008	Minor in Food Science and Nutrition .....	66
MFA in Art .....	142	Minor in Forestry .....	74
MHA in Health Administration .....	607	Minor in French .....	305
MHS in Communication Science and Disorders .....	473	Minor in Geographic Information Science .....	192
MHS in Diagnostic Medical Ultrasound .....	475	Minor in Geography .....	192
Microbiology (MICROB) .....	1011	Minor in Geological Sciences .....	197
Microbiology and Immunology .....	618	Minor in German .....	200
Middle School Education .....	370	Minor in History .....	203
Military - Active Duty .....	678	Minor in Hospitality Management .....	77
Military Science (MIL_SC) .....	1012	Minor in Human Development and Family Studies .....	509
Minor in Aerospace .....	462	Minor in Information Technology .....	451
Minor in Aerospace Studies .....	304	Minor in International Agriculture .....	123
Minor in Afro-Romance Literatures in Translation .....	304	Minor in Italian Area Studies .....	305
Minor in Agricultural Economics .....	40	Minor in Jazz Studies .....	306
Minor in Agricultural Education .....	46	Minor in Journalism .....	574
Minor in Agricultural Leadership .....	123	Minor in Latin American Studies .....	306
Minor in Agricultural Systems Management .....	49	Minor in Leadership and Public Service .....	306
Minor in Animal Sciences .....	55	Minor in Linguistics .....	222
Minor in Anthropology .....	135	Minor in Luso-Brazilian Area Studies .....	306
Minor in Architectural Studies .....	496	Minor in Mathematics .....	226
Minor in Art .....	142	Minor in Medical/Health Physics .....	463
Minor in Art History and Archaeology .....	147	Minor in Medieval and Renaissance Studies .....	307
Minor in Astronomy .....	304	Minor in Military Science .....	307
Minor in Biological Sciences .....	153	Minor in Music .....	242
Minor in Black Studies .....	304	Minor in Natural Resources .....	79
Minor in Business .....	336	Minor in Naval Science .....	463

Minor in Nuclear Engineering .....	458	MS in Biomedical Science: Veterinary Medicine and Surgery .....	601
Minor in Nutritional Sciences .....	524	MS in Biomedical Sciences .....	598
Minor in Peace Studies .....	307	MS in Chemical Engineering .....	412
Minor in Personal Financial Management Services .....	528	MS in Chemistry .....	158
Minor in Personal Financial Planning for Agricultural Economics Majors .....	528	MS in Civil Engineering .....	416
Minor in Personal Financial Planning for Finance majors .....	528	MS in Computer Engineering .....	422
Minor in Philosophy .....	249	MS in Computer Science .....	429
Minor in Physics .....	255	MS in Electrical Engineering .....	439
Minor in Plant Sciences .....	102	MS in Food Science .....	66
Minor in Political Science .....	261	MS in Geology .....	197
Minor in Psychology .....	267	MS in Health Informatics and Bioinformatics .....	610
Minor in Radioenvironmental Sciences .....	463	MS in Human Development and Family Studies .....	510
Minor in Religious Studies .....	270	MS in Industrial Engineering .....	447
Minor in Roman Literatures in Translation .....	308	MS in Mechanical and Aerospace Engineering .....	456
Minor in Rural Sociology .....	106	MS in Medical Pharmacology and Physiology .....	616
Minor in Russian .....	283	MS in Natural Resources .....	79
Minor in Social Justice .....	545	MS in Natural Resources with emphasis in Agroforestry .....	79
Minor in Sociology .....	287	MS in Natural Resources with emphasis in Fisheries and Wildlife Sciences .....	81
Minor in Soil, Environmental and Atmospheric Sciences .....	121	MS in Natural Resources with emphasis in Forestry .....	81
Minor in South Asian Studies .....	308	MS in Natural Resources with emphasis in Human Dimensions of Natural Resources .....	82
Minor in Spanish .....	308	MS in Natural Resources with emphasis in Parks, Recreation and Tourism .....	83
Minor in Statistics .....	292	MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences .....	84
Minor in Strategic Studies .....	309	MS in Natural Resources with emphasis in Water Resources .....	86
Minor in Sustainable Agriculture .....	124	MS in Neuroscience .....	621
Minor in Textile and Apparel Management .....	543	MS in Nuclear Engineering .....	459
Minor in Theatre .....	298	MS in Nursing .....	585
Minor in Women's and Gender Studies .....	309	MS in Nutrition and Exercise Physiology .....	516
Minor in Youth Services .....	124	MS in Nutrition and Exercise Physiology with emphasis in Exercise Physiology .....	516
MM in Music .....	244	MS in Nutrition and Exercise Physiology with emphasis in Nutritional Sciences .....	518
MOT in Occupational Therapy .....	482	MS in Pathology .....	627
MPA in Public Affairs .....	592	MS in Personal Financial Planning .....	529
MPH in Public Health .....	629	MS in Plant, Insect and Microbial Sciences .....	102
MS in Agricultural Economics .....	41	MS in Public Health: Family and Community Medicine .....	630
MS in Agricultural Education .....	46	MS in Rural Sociology .....	106
MS in Animal Sciences .....	55	MS in Textile and Apparel Management .....	544
MS in Applied Mathematics .....	227	MST in Mathematics .....	229
MS in Architectural Studies .....	497	MSW in Social Work .....	534
MS in Biochemistry .....	59		
MS in Biological Engineering .....	406		
MS in Biomedical Science: Comparative Medicine (post DVM) .....	600		
MS in Biomedical Science: Pathobiology .....	601		

MU Informatics Institute (INFOINST) .....	1013	Personal and Financial Planning (FINPLN) .....	1058
Music .....	232	Personal Financial Planning .....	525
Music-Applied Music (MUS_APMS) .....	1015	PhD in Accountancy .....	322
Music-Courses for Non-Majors (MUSIC_NM) .....	1015	PhD in Agricultural Economics .....	41
Music-Ensemble Courses (MUS_ENS) .....	1016	PhD in Agricultural Education .....	46
Music-General (MUS_GENL) .....	1017	PhD in Animal Sciences .....	56
Music-Instrumental And Vocal Repertory (MUS_I_VR) .....	1017	PhD in Anthropology .....	136
Music-Instrumental And Vocal Techniques (MUS_I_VT) .....	1018	PhD in Art History and Archaeology .....	148
Music-Music History And Literature (MUS_H_LI) .....	1020	PhD in Biochemistry .....	59
Music-Music Theory (MUS_THRY) .....	1022	PhD in Biological Engineering .....	407
