University of Missouri

Welcome to the University of Missouri 2014-2015 catalog! We are pleased to provide an interactive and searchable catalog online.

The catalog is a comprehensive reference for your academic studies. It includes a list of all degree programs offered at MU, including bachelors, masters, specialists, doctorates, minors, certificates, and emphasis areas. It details the university wide requirements, the curricular requirements for each program, and in some cases provides a sample plan of study. The catalog includes a complete listing and description of approved courses. It also provides information on academic policies, contact information for supporting offices, and a complete listing of faculty members.

Information in the catalog is current as of May 2014. The next catalog will be published in May 2015. In the interim, new courses will be announced in myZou (<https://myzou.missouri.edu>) (MU's online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou. For more information about which year's edition of the catalog applies to whom and under what circumstances, go to Catalog Editions (p. 704) in the Academic Policies section.

Use the search box above, or click on the left hand menus to navigate through the catalog. There is also a PDF version available through the Print Options link above.

We welcome your feedback and suggestions to make this catalog better for the future. We would also appreciate reports of any broken links inside the catalog. Feedback may be provided by sending an email to muregistrarcatalog@missouri.edu. (muregistrarcatalog@missouri.edu)

Brenda Selman
University Registrar

Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates

See tables following the degree listing for Keys to the abbreviations.

Degree Programs (emphasis)	College	Undergraduate	Graduate	Professional
Accountancy	BUS	BSAcc (p. 312)	MAcc (p. 314), PhD (p. 315)	
Accounting Information Systems	BUS		Cert (p. 338)	
Adult Health Clinical Nurse Specialist	NURS		Cert (p. 618)	
Adult-Gerontology Clinical Nurse Specialist	NURS		Cert (p. 618)	
Aerospace	ENGR	Minor (p. 481)		
Aerospace Studies	A&S	Minor (p. 296)		
Afro-Romance Literatures in Translation	A&S	Minor (p. 296)		
Agribusiness Management	CAFNR	BS (p. 35)		
Agricultural Economics (Financial Planning*, Public Policy*)	CAFNR	BS* (p. 41), Minor (p. 42)		
Agricultural Education (Leadership*, Teacher Certification*)	CAFNR	BS* (p. 43), Minor (p. 45)	MS (p. 46), PhD (p. 47)	
Agricultural Leadership	CAFNR	Minor (p. 117)		
Agricultural Systems Management	CAFNR	BS (p. 48), Minor (p. 49)		
Agricultural and Applied Economics	CAFNR		MS (p. 38), PhD (p. 38)	
Agriculture (Sustainable Agriculture*)	CAFNR	BS* (p. 50)		
Agroforestry	CAFNR		Cert (p. 72)	
American Constitutional Democracy	A&S	Minor (p. 296)		
Analysis of Institutions and Organizations	CAFNR		Cert (p. 118)	
Ancient Studies	GRAD		Minor (p. 670)	
Animal Sciences	CAFNR	BS (p. 53), Minor (p. 54)	MS (p. 54), PhD (p. 55)	
Anthropology	A&S	BA (p. 128), Minor (p. 129)	MA (p. 129), PhD (p. 130)	
Applied Mathematics	A&S		MS (p. 215)	
Architectural Studies (Architectural Studies*, Interior Design*, Design with Digital Media^, Environment and Behavior^)	HES	BSHES* (p. 515), Minor (p. 517)	MA^ (p. 517), MS^ (p. 519)	
Art	A&S	BA (p. 134), BFA (p. 135), Minor (p. 135)	MFA (p. 136)	
Art History and Archaeology	A&S	BA (p. 139), Minor (p. 140)	MA (p. 140), PhD (p. 142)	
Astronomy	A&S	Minor (p. 297)		

Athletic Training	HP	BHS (p. 486)	
Autism and Neurodevelopmental Disorders - Interdisciplinary	GRAD		Cert (p. 671)
Biochemistry	CAFNR	BS (p. 57)	MS (p. 58), PhD (p. 58)
Biological Engineering	ENGR	BSBE (p. 425)	MS (p. 426), PhD (p. 427)
Biological Sciences	A&S	BA (p. 146), BS (p. 147), Minor (p. 147)	MA (p. 148), PhD (p. 148)
Biomedical Sciences (Biomedical Sciences*, Comparative Medicine^, Pathology*, Veterinary Medicine and Surgery*)	GRAD		MS* (p. 627), MS(post DVM)^ (p. 629), PhD (p. 631)
Black Studies	A&S	Minor (p. 297)	Minor (p. 302)
Business	BUS	Minor (p. 331)	
Business Administration (Business^, Economics*, Finance and Banking*, International Business-Economics*, International Business-Finance*, International Business-Management*, International Business-Marketing*, Management*, Marketing*, Real Estate*)	BUS	BSBA* (p. 320)	MBA (p. 331), PhD^ (p. 333)
Canadian Studies	A&S	Minor (p. 297)	
Captive Wild Animal Management	CAFNR	Minor (p. 117)	
Career and Technical Education (Business and Marketing Education*^, Human Resource Education^, Vocational Technical Education*^)	EDUC		MED* (p. 346), EdSp* (p. 347), EdD^ (p. 347), PhD^ (p. 348)
Center for the Digital Globe	GRAD		Cert (p. 671)
Chemical Engineering (Biochemical*, Environmental*, Materials*)	ENGR	BSchE* (p. 429)	MS (p. 431), PhD (p. 432)
Chemistry	A&S	BA (p. 150), BS (p. 151), Minor (p. 152)	MS (p. 152), PhD (p. 152)
Child/Adolescent Psychiatric and Mental Health Clinical Nurse Specialist	NURS		Cert (p. 618)
Civil Engineering	ENGR	BSCiE (p. 434)	MS (p. 435), PhD (p. 436)
Classical Languages	A&S		MA (p. 156)
Classical Studies	A&S		PhD (p. 157)
Classics (Classical Humanities*^, Classical Languages*, Greek*^, Latin*^)	A&S	BA* (p. 154), Minor^ (p. 156)	
Clinical Laboratory Sciences (Medical Technology*)	HP	BHS* (p. 488)	

Clinical and Translational Science (Clinical Research*, Health Services Research*, Translational Biomedicine*)	MED			MS, PhD*
College Teaching	GRAD		Minor (p. 674)	
Communication	A&S	BA (p. 158)	MA (p. 160), PhD (p. 160)	
Communication Science and Disorders (Speech-Language Pathology*)	HP	BHS (p. 491)	MHS* (p. 492)	
Community Processes	GRAD		Cert (p. 675)	
Computational Neuroscience	ENGR	Minor (p. 481)		
Computer Engineering	ENGR	BSCoE (p. 441)	MS (p. 441)	
Computer Science	A&S	BA (p. 162)		
Computer Science	ENGR	BS (p. 446), Minor (p. 448)	MS (p. 448), PhD (p. 449)	
Conservation Biology	GRAD		Cert (p. 675)	
Diagnostic Medical Ultrasound	HP	BHS (p. 494)	MHS (p. 495)	
Digital Global Studies	PROVOST	Cert (p. 667)

MSW - Master of Social Work
PhD - Doctor of Philosophy

University Level Academic Degree Requirements

Undergraduate

Undergraduate Requirements (University) (p. 17)

Common Credit Limitations (p. 17)

General Education Requirements (p. 18)

Degree Audits for Undergraduates

The degree audit is an automated report reflecting a student's academic progress toward the completion of a degree. Degree Audits are not available for all programs; however, please consult with the appropriate college or school for audit information.

MU students who have attended since August 2007 can request a degree audit by logging in to [myZou](#) and navigating to Self Service, then Student Center, and clicking on "Request Degree Audit." The audit automatically pulls in the student's MU course work, transfer courses and courses in progress.

MU students who have NOT attended since August 2007 can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to <http://advising.missouri.edu/contact/>.

For newly admitted or prospective students, MU degree audits can be created at <http://www.transfer.org>. Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to <http://registrar.missouri.edu/degree-audits/index.php>.

Graduate and Professional

Master's Requirements (University) (p. 19)

Educational Specialist Requirements (University) (p. 23)

Doctoral Requirements (Graduate School) (p. 24)

Doctoral Requirements (Law School) (p. 29)

Details on the academic requirements for medical students can be found at <http://medicine.missouri.edu/education/curriculum.html>.

Details on the academic requirements for veterinary medical students can be found at <http://vetmed.missouri.edu/current.htm>.

Undergraduate Requirements (University)

Undergraduate students must complete all University requirements as well as all requirements specified for the degree(s) and major(s), and requirements of the college or school, and department offering the degree. This would include the University general education requirements as well as the following:

- A second MU Writing Intensive course* must be completed in a student's major. It needs to be a 3000/4000 level MU WI course approved as part of the curriculum by the faculty of a student's major.

- Complete an approved capstone course* with MU course work in the student's major
- Complete 30 of the last 36 credits with MU authored courses
- Complete no fewer than 120 credit hours of coursework.
- Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major
- Complete all University, general-education requirements (See the University General Education Requirements section in the catalog.)
- Earn no less than a 2.00 GPA, as defined by the GPA of Record
- Complete any additional divisional, degree or major requirements as specified by the academic unit offering the degree

* Must be completed with a grade of C- or better.

Common Credit Limitations

The following credit limitations are applicable to all undergraduate students, regardless of degree program. Please check with advisor for more information.

Chemistry

- A student can earn a maximum of 10 hours of credit towards graduation from the following courses: CHEM 1000 Introductory Chemistry, CHEM 1320 College Chemistry I, CHEM 1330 College Chemistry II. CHEM 1310 (General Chemistry I) is also included in this maximum if you took the course prior to Fall 2013.

Economics

- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1014 Principles of Microeconomics, ECONOM 1024 Fundamentals of Microeconomics, ECONOM 1051 General Economics, or AG_EC 1041 Applied Microeconomics.
- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1015 Principles of Macroeconomics, ECONOM 1051 General Economics, or AG_EC 1042 Applied Macroeconomics.

History

- Students may not earn credit towards graduation for both HIST 1100 Survey of American History to 1865 and HIST 1400 American History.
- Students may not earn credit towards graduation for both HIST 1200 Survey of American History Since 1865 and HIST 1400 American History.

Mathematics

- Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1320 Elements of Calculus, MATH 1400 Calculus for Social and Life Sciences I, MATH 1500 Analytic Geometry and Calculus I.

Physics

- Students may not earn credit towards graduation for both PHYSCS 1210 College Physics I and PHYSCS 2750 University Physics I.

- Students may not earn credit towards graduation for both PHYSCS 1220 College Physics II and PHYSCS 2760 University Physics II.

Psychology

- Students may not receive credit towards graduation for more than one of the following courses: PSYCH 2410 Developmental Psychology, H_D_FS 3420 Early and Middle Childhood, or ESC_PS 2500 Child Development.

Statistics

- Students may not receive credit towards graduation for more than one of the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, or STAT 1400 Elementary Statistics for Life Sciences.
- Students may not receive credit towards graduation for more than one of the following courses: STAT 2500 Introduction to Probability and Statistics I or STAT 2530 Statistical Methods in Natural Resources.
- Students may only receive a maximum of 4 hours of credit towards graduation from the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, STAT 1400 Elementary Statistics for Life Sciences, STAT 2200 Introductory Statistical Methods, STAT 2500 Introduction to Probability and Statistics I, or STAT 2530 Statistical Methods in Natural Resources.

General Education Requirements

General education requirements are the foundation of knowledge upon which all University of Missouri degrees are built. They are specifically intended to prepare students as citizens who must make informed judgments about issues that go beyond the narrow area of their academic specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and one or more of the divisional, degree and major requirements. Students are strongly encouraged (and in some divisions they are required) to meet with an academic advisor to ensure adequate progress towards the selected degree and major. More information can be found at: <http://generaleducation.missouri.edu/about/>.

Common University General Education Requirements for all MU degrees

- College Algebra (MATH 1100) or transferable equivalent¹ (3 credits). Students may satisfy this requirement by:
 - Completing an appropriate math course (MATH 1100 or MATH 1160),
 - Completing a calculus course at MU (MATH 1400, MATH 1500, MATH 1700, or MATH 2300)¹, which provides back-credit for MATH 1100 (or MATH 1160),
 - Passing the Proctored ALEKS Exam with a sufficient score, thereby demonstrating proficiency in College Algebra, or
 - Possessing the minimum ACT or SAT Math subscores, thereby providing an exemption (See mathplacement.missouri.edu for further details)
- English Exposition and Argumentation (ENGLSH 1000 or ENGLSH 1000H) or transferable equivalent¹ (3 credits)

- This course in expository prose, which stresses writing as a process involving critical reading and thinking skills, should be taken during your freshman year.

- Writing Intensive course^{1, 2, 3} (6 credits, 2 courses)
- American History or Government^{2, 5} (3 credits)
- Math Reasoning Proficiency Course^{1, 2} (these courses must state that College Algebra is a prerequisite)
- Distribution Requirement (27 credits) providing a breadth and depth of knowledge in three broad areas of study. The course work must include at least one course numbered 2000 or higher in two of the areas of distribution as described below.
 - Must include 9 credits in these sciences: biological science, physical science, and / or mathematical science⁴
 - including at least one biological or physical science and its related laboratory component⁶
 - representing two different areas of science
 - Must include 9 credits of behavioral and/or social science
 - Courses must be from at least two different departments in these areas
 - Must include 9 credits of humanities and/or fine arts
 - including courses from at least two different departments in these areas
 - Of special note related to the humanities and or fine arts distribution:
 - Only one course of specified of Humanities and Fine Arts courses can be counted.
 - For specified courses, the category will be designated per section per semester.
 - Students in CAFNR, Engineering, SHP, HES, SNR, and Nursing may use this course towards fulfillment of the humanities distribution requirement, but only if the entire 12-13 hour elementary language sequence is completed. This course may NOT be used to fulfill the humanities requirement in A&S, Business, Education, Journalism and Social Work.
 - For the full list of courses that fulfill this distribution and the noted exceptions, go to: <http://generaleducation.missouri.edu/courses/>

1 Must be completed with a grade of C- or better.

2 Designated courses may also be used toward the distribution requirement.

3 Course must be taken at MU unless requirement is waived via completion of an AA degree from a regionally-accredited, Missouri institution.

4 Must be courses in mathematics or statistics with College Algebra as a prerequisite.

5 Fulfills State Law Requirement.

- ⁶ The term “laboratory” is used in reference to courses or portions of courses that satisfy the following criteria:
- They provide students with an opportunity for the active collection and/or analysis of data from real-world observations and experiments. These activities need not take place in a conventional “laboratory” setting but may be undertaken anywhere that an appropriate experiment or observation can take place (e.g., in the field).
 - They promote scientific literacy and critical thinking/problem solving skills.
 - Whenever possible, they include opportunities for students to design experimental or observational protocols.
 - If the laboratory is directly associated with a specific lecture course or is included as part of a course that also includes lecture, the laboratory activities promote understanding of the content presented in the lecture.

Transfer Students and University General Education Requirements

All University, general-education requirements are considered completed for students who transfer to MU with an AA degree from a regionally-accredited Missouri institution. Transfer credits for other students are evaluated on a course-by-course basis. All students must complete University graduation requirements beyond the University general education requirements.

NOTE: Many departments, degrees and majors have more specific requirements for foundation course work in addition to the University, general-education requirement. However, the reverse is not true. Departments or academic units may not have fewer general education requirements than described by the University general education requirements. Careful planning will allow students to simultaneously meet University, general-education requirements and prepare for many of the more specific foundation courses required by their field of study.

Master's Requirements (University)

The purpose of this section is to provide an overview of Graduate School's policies. Students considering a master's degree should read all of the information below to fully understand the requirements of advanced study (e.g., residency, plan of study and time lines for completion) at MU.

MU confers a variety of master's, dual master's degrees (<http://gradschool.missouri.edu/academics/process/dual-masters-process>) or **dual master's/ professional degrees** to students who satisfy the general requirements of the Graduate School and the specific requirements of the degree-granting department or area program. Designated **graduate minors** and **certificates** are available in some academic fields. **Thesis and non-thesis options** are available for select plans of study; students must consult with individual degree programs for more information.

Master's Residency Requirements

The faculty of each graduate program determines its own residency requirements for master's degrees, subject to initial review by the Graduate Faculty Senate. Consult with the academic program for requirements. For academic programs that choose to maintain the traditional regulation concerning residency for master's students, the following applies: the student must complete a minimum of 24 semester hours of MU graduate courses which are taught by MU faculty and which are approved by the academic program and the Graduate School.

Students who cannot fulfill residency requirements are encouraged to consider Mizzou Online for available degrees.

Graduation and Commencement Deadlines and Forms

It is recommended that students refer often to the Graduation & Commencement Deadlines for Master's Students (http://gradschool.missouri.edu/forms-downloads/repository/graduation_deadlines.pdf) to avoid missing any important graduation or commencement deadlines. In addition to various deadlines, student must also submit a variety of necessary paperwork. By the end of the first year of master's work at MU, a student must begin submitting degree program forms, which will aid the department and the Graduate School in planning an academically appropriate course of study and in tracking the student's progress toward degree completion. These forms include the following:

Program of Study. Outlines the course work to be included in the student's degree program. Due in the Graduate School by the end of the second semester unless the degree can be completed in two semester. In that case, the form is due by the end of the first semester. Plan of Study (M1) form (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf>) Request for Thesis Committee (thesis option only). Is a membership proposal for the student's thesis committee. Due in the Graduate School by the end of the second term. Request for Thesis Committee (M2) form (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf>)

Report of Master's Examining Committee. Reports the results of the thesis defense, master's comprehensive exam, project presentation, portfolio review, etc. Due in the Graduate School two weeks prior to graduation. Report of Master's Examining Committee (M3) form (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf>).

Choosing an Advisor

Graduate Committee Membership for Jointly Appointed Faculty Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have designated Primary Appointment and Primary Departments well as affiliation with one or more involved academic programs. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

- Faculty members may serve as adviser/committee chair when their Primary Appointment is in the graduate student's home academic program.
- When the graduate student's home academic program is the involved academic program for a jointly appointed faculty member, this person may serve as chair/advisor with the approval of the director of graduate studies from the student's home academic department.
- A faculty member can serve as an Internal Member only when their Primary Appointment is in the graduate student's home academic program.
- When a graduate student's home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct Faculty may serve as a Committee Chair or Committee Member only in academic programs in which they are appointed and approved

for Graduate or Doctoral Faculty membership as appropriate for the student's degree (Master's or Doctoral). Service on graduate committees outside the academic program in which they are appointed requires a recommendation by the director of graduate studies from the student's home academic program and approval by the vice provost for advanced studies and dean of the Graduate School.

Master's Plan of Study

minimum credit hours for degrees The Graduate School has established a campus wide minimum of 30 hours of graduate credit beyond the bachelor's degree (or its equivalent) for a master's degree. Fifteen of the 30-hour minimum must be selected from courses numbered at 8000 or 9000 level. No more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and / or Problems courses. Master's Plan of study. (<http://gradschool.missouri.edu/academics/process/plan-of-study/masters.php>)

Completing a Plan of Study Form

After performing satisfactorily for a minimum of one semester, the student, with the advisor's assistance, completes the Plan of Study form (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf>) that outlines the plan of study for the student's graduate program. The form is forwarded through the academic program's director of graduate studies to the Graduate School for approval. The Plan of Study form must be filed with the Graduate School by the end of the student's second semester of enrollment. Upon approval of the program by the Graduate School, the student is a candidate for the degree. If a change is necessary to a student's approved Plan of Study form, a Plan of Study Substitution form (<http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf>) must be used.

Note: An academic program may have additional credit hour (or other) requirements. Check with the program of interest to confirm degree requirements.

Transfer Credit Toward a Master's Degree

A maximum of 20 percent of the number of credit hours required for a student's degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Graduate School.

Note: the above represents a change in policy and becomes effective for graduate students beginning their master's programs during the fall semester 2001. Students who began their master's programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Graduate School will review the transfer request to determine if the credit meets the minimum guidelines.

If so then the Graduate School will process the request so that each transfer course will appear on the student's transcript.

How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student's advisor and the department's director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Graduate School.

3. Once the Graduate School has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Graduate School will process the request so that the transfer credit appears on the MU student record.

Minimum Transfer Requirements

Transfer course work:

- must be less than eight years old by the time the master's degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student's Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country's Ministry of Education as a graduate degree granting institution; and
- is not extension or correspondence credit (see policy on correspondence credit above)

Credit Toward a Second Master's Degree

A student who has completed one master's degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program's director of graduate studies and the Graduate School, present a maximum of eight hours of credit earned in the previous program toward a second master's degree.

Forming a Master's Thesis Committee

When a thesis is required for completion of a master's degree, the student is required to submit a Request for Thesis Committee (M2 form) (<http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf>) or a dual-masters Request for Thesis Committee (DM2 form) (<http://gradschool.missouri.edu/forms-downloads/repository/dm2.pdf>) for approval by the academic program's director of graduate studies and the Graduate School by the end of the student's second semester. A thesis committee is composed of three members of the MU faculty: a major advisor from the academic program, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program.

After the Request for Thesis Committee form has been filed, any changes must be submitted through the Change of Committee form (<http://gradschool.missouri.edu/forms-downloads/repository/cocform.pdf>).

Approval of a Non-MU Faculty Member

Upon approval of the academic program's director of graduate studies, the student may petition the Graduate School to allow a person who is not a member of the MU graduate faculty to serve as the third reader. The petition should include a written justification for such a request and a copy of the person's curriculum vitae. The Graduate School maintains copies of curricula vitae previously received and approved, and if such a request is anticipated, the student should contact the Graduate School to see if the curriculum vitae of a particular person is already on file.

The Thesis Process

If a thesis is required, it must be the student's own work and must demonstrate a capacity for research and independent thought. A student writing a thesis should refer to the Graduate School's Guidelines for Preparing Theses and Dissertations (<http://gradschool.missouri.edu/forms-downloads/repository/etd-guidelines.pdf>). Academic programs may

have additional requirements. The Graduate School sets deadlines for master's students (<http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php>) for completion and submission of the thesis.

Thesis Acceptance

A thesis must be approved by the major advisor, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program. Students need to supply committee members with copies for review/evaluation. After successfully defending the thesis, the student will make any needed adjustments in format and corrections, based on input from the committee. The thesis is then submitted as PDF file on a CD ROM to the Graduate School by the established master's deadline.

Review the Graduate School's web pages for additional information on the master's thesis process (<http://gradschool.missouri.edu/academics/thesis-dissertation/process>).

A searchable thesis and dissertation archive is maintained by the Graduate School.

Grades at the Graduate Level-Graduation Requirement

To become eligible for a master's degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 716) for more information.

Examination Process

Thesis Option

Where a thesis is presented in partial fulfillment of graduation requirements, students must form a thesis committee. In the final semester, the student must successfully present (defend) the thesis. Three members of the student's committee must sign the Report of the Master's Degree Examining Committee (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf>), which is then forwarded through the academic program's director of graduate studies to the Graduate School by the semester deadline.

Non-Thesis Option

Where no thesis is presented by the candidate, a final examination committee, composed of three members from the academic program, is designated by the academic program's director of graduate studies with the approval of the Graduate School. During the final semester, the Report of the Master's Examining Committee (pdf), signed by the director of graduate studies, is forwarded to the Graduate School by the semester deadline. All candidates for the MA or MS degrees must complete either a thesis or a substantial independent project that cannot be coauthored.

Enrollment at the Master's Level

For general master's enrollment requirements go to the Graduate School's web page on master's enrollment requirements (<http://gradschool.missouri.edu/academics/progress/graduate-stud-progress/master-stud-progress.php>).

Enrollment

The master's candidate must be enrolled at the University during the semester or session in which a thesis is defended, a master's project

is presented, or the completion of a master's comprehensive exam is certified.

Scheduling Exams, etc.

Comprehensive exams, thesis defenses, portfolio presentations and the like may be offered during the regular semester session. Dates that are excluded from graduation examinations include breaks between regular semester sessions, national holidays where the University is not in operation and weekends.

Enrollment for Graduate Examination

Master's and educational specialist degree candidates who have completed all requirements except the final examination or the defense of the thesis/project must be enrolled when the final examination is given or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in "Graduate Examination" hours only.

Note: Registration in the "Graduate Examination" does not count toward enrollment certification. Students enrolled in the "Graduate Examination" would not be considered full-time or part-time.

Graduate students must be enrolled in at least nine credit hours to be considered full-time students and at least four credit hours to be considered half-time students during fall and spring terms. For summer terms, graduate students must be enrolled in four hours to be considered full-time and two hours to be considered half-time students.

Students with financial aid or a visa should discuss plans with the Student Financial Aid (<http://financialaid.missouri.edu>) office before registering for Graduate Examination hours. International students with a visa should discuss plans with MU's International Center (<http://international.missouri.edu>) before registering for the Graduate Examination. Failure to do so could cause serious consequences for a student's financial aid or visa status.

How Enrollment Status Affects Access to Campus Resources

Students who enroll in the Graduate Examination will not have a valid student ID and thus will not have regular access to the Student Health Center, MU Libraries, the Student Recreation Center or campus computing centers. If a student needs to use any of these services, registration in a one-, two-, or three-hour course (including graduate research courses) is required. Extra fees apply for access too.

Time Limit for Master's Degree Completion

The program for the master's degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period. Time spent in the armed services will not count toward the eight-year limit (see also Active Duty Policy). For any extension of this time limitation, the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program's director of graduate studies. The Graduate School will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors. See master's graduation

requirements. (<http://gradschool.missouri.edu/academics/graduation-requirements/masters-grad-requirements.php>)

Reasonable Rate of Progress for Master's Students

Reasonable rate of progress is governed by both the campus-wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School's rate of progress policies leading to dismissal is handled by the Request for Extension (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>) process.

Deadline for Submission of Thesis After Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program's and/or the International Center's enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student's advisor and program's DGS.

Extension Requests for Master's Students

Extenuating circumstances that inhibit a student's rate of progress are handled through the Request for Extension (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>) process.

Dismissal

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (<http://gradschool.missouri.edu/academics/progress/probation-termination.php>) and the Extension Requests and Appeals Process (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>).

Dual Degrees: Master's Students

As the US workforce becomes increasingly interdisciplinary, some master's students elect to concurrently pursue two advanced study degrees. All dual-degree programs at the graduate level require Graduate Faculty Senate approval. Please refer to the A-Z list of graduate degree programs (<http://gradschool.missouri.edu/academics/programs/a-z>) to learn what is currently available.

The two types of dual master's degrees are the dual master's degree and the dual master's-professional degree.

Degree Type	Dual Master's Degree	Dual Master's-Professional Degree
Description	This is a cooperative degree, arranged between two graduate degree granting programs and approved by the Graduate Faculty Senate.	This is a cooperative degree arranged between a graduate degree granting program and a professional degree granting program (e.g., law or medicine) and approved by the Graduate Faculty Senate.

Application Processes	Students must simultaneously submit a separate application to both degree programs to be considered for admittance. Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student's second semester at MU. Start your online application process at http://gradschool.missouri.edu/admissions/index.php	The Graduate School oversees the master's degree portion of the dual master's/professional degree. Students must apply to both the Graduate School and the professional program, notifying both of their interest in the dual program. Start your online application process to the Graduate School at http://gradschool.missouri.edu/admissions/index.php
-----------------------	--	--

Forms and Policies	Students must fill out an Application for Dual Enrollment (pdf) no later than the end of a student's second semester at MU.	For Graduate School policies and forms pertaining to the master's portion of the dual master's/professional degree, refer to the Master's Degrees Requirements and Policies on the website.
--------------------	---	---

Note on Dual Degrees for Law Students

Dual-degree programs with the Law School enable students to earn the Juris Doctor (JD) concurrently with a Master's or PhD degree. Dual-degree students must fulfill entrance requirements for both schools, including the graduate school's entrance exam (if required) and the LSAT. Contact the Law School (p. 681) for more information on their dual-degree programs.

Note on Dual Degrees for Medical Students

Additional information concerning medical dual degrees for both master's and doctoral students can be found on the doctoral dual degree (<http://gradschool.missouri.edu/academics/graduation-requirements/dual-degree-requirements.php>) page.

Counting Credits

A student must complete a minimum of 18 hours of graduate courses for each degree program respectively. A minimum of 3 hours must be 8000-level courses. Additionally, the student must complete 12 hours of shared 8000-level graduate credit, which can include thesis/project research credit, as applicable.

Thus, $18 + 18 + 12 = 48$ hours of graduate credit which is the minimum total hours for a dual master's degree program.

For example, for a dual master's degree program in Applied Mathematics and Electrical Engineering, a student's plan of study must show 18 hours of Applied Mathematics graduate course work that applies only to the

Applied Mathematics degree and 18 hours of Electrical Engineering graduate course work that applies only to the Electrical Engineering degree. The additional 12 hours of shared 8000-level graduate credit brings the total earned graduate credit hours to 48.

Transfer Credit

Up to eight hours of transfer credit may be applied as follows: to one of the two degree programs, or divided between the two degree programs. The eight hours of transfer credit cannot be applied to each degree program separately.

Advising & Committees

There will be a separate advisor and committee for each degree program.

Dean's Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual master's degree program forms will be used to certify plans of study, committee members and final defense/examinations. The forms are available from the Master's Requirements Time Line (<http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php>).

Conferral of Dual Degrees

The Graduate School will confer two separate diplomas upon completion of all degree program requirements.

Educational Specialist Requirements

This degree, offered through the College of Education, is a 30-hour program of specialization built upon the education specialist degree, of which 24 hours must be taken with MU faculty. Six semester hours must be completed within one semester or summer session to provide an in-residence experience. Students have eight years to complete the degree from the time they are first admitted to the degree program. A student is required to take a final examination, and the report of the results must be approved by a majority of the candidate's advisory committee members and submitted to the Graduate School. For additional information on the Educational Specialist degree (<http://gradschool.missouri.edu/academics/graduation-requirements/educ-spec-requirements.php>), consult the College of Education's site (<http://education.missouri.edu>).

Required Educational Specialist Forms

The Graduate School obtains students' official academic records as soon as they complete their first terms of enrollment. Each of the following forms is completed at the departmental/program level, routed for required signatures and forwarded to the Graduate School in 210 Jesse Hall.

Forms are reviewed by staff in the Graduate School, given the vice provost/ dean's signature if approved, and a copy is returned to the academic program office. If changes/corrections are needed, or if any signatures are missing, the forms will be returned to the department for corrective measures. If any faculty signatures are illegible, we ask that departments print a correct spelling below any such signatures.

Request for the Educational Specialist Advisory Committee (<http://gradschool.missouri.edu/forms-downloads/repository/s1.pdf>) (*S-1 form, PDF*)

The S-1 form serves as official documentation of who serves on a student's advisory committee. It should be submitted to the Graduate School by the end of a student's second semester.

Plan of Study for the Educational Specialist Degree (<http://gradschool.missouri.edu/forms-downloads/repository/s2.pdf>) (*S-2 form, PDF*)

The S-2 form provides the student, academic program/department and Graduate School with a plan for all the course work that will comprise a plan of study. It serves as a general plan to follow. Changes on the plan of study can be made easily by submitting a Course Substitution form (<http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf>), available from departments or the Graduate School. The S-2 form should be submitted to the Graduate School preferably by the end of a student's second semester and no later than the beginning of a student's second year of study.

Report of the Educational Specialist Examining Committee (<http://gradschool.missouri.edu/forms-downloads/repository/s3.pdf>) (*S-3 form, PDF*)

This form is submitted by the academic program/department and reports the final results of a student's comprehensive examination. Students are encouraged to consult with their departments to make sure the departments submit the S-3 form shortly after the exam has been graded.

Transfer Credit Toward the Educational Specialist Degree

A maximum of 20 percent of the number of credit hours required for a student's degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the adviser, the approval of the academic program director of graduate studies and the Graduate School.

Note: The above represents a change in policy and becomes effective for graduate students beginning their education specialist programs during the fall semester 2001. Students who began their education specialist programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Graduate School will review the transfer request to determine if the credit meets the minimum guidelines. If so then the Graduate School will process the request so that each transfer course will appear on the student's transcript.

How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student's adviser and the department's director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Graduate School.
3. Once the Graduate School has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Graduate School will process the request so that the transfer credit appears on the MU student record.

Minimum Transfer Requirements

Transfer course work:

- must be less than eight years old by the time the education specialist degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student's Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country's Ministry of Education as a graduate degree granting institution; and
- is not extension or correspondence credit (see policy on correspondence credit above)

Special Types of Credit for the Educational Specialist Degree

A maximum of six semester hours completed with a grade of B or better may be accepted in transfer from institutions accredited to offer doctoral degrees. Off-campus courses authorized for graduate credit and offered by MU faculty members and courses offered through the Center for Independent Study taught by MU faculty may be included in the program.

Grades at the Graduate level-Graduation requirement

To become eligible for an education specialist degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 716) for more information.

Enrollment

The educational specialist candidate must be enrolled at the University during the regular semester session in which comprehensive exams are taken, portfolio or project is presented, etc.

Time Limit for Education Specialist Degree Completion

The program for the education specialist degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period.

Time spent in the armed services will not count toward the eight-year limit (see Active Duty Policy (<http://veterans.missouri.edu/forms/active-duty.php>)). For any extension of this time limitation, the student must petition the Graduate School by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program's director of graduate studies. The Graduate School will notify the adviser in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisers.

Reasonable Rate of Progress for Education Specialist Students

Reasonable rate of progress is governed by both the campus wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School's rate of progress policies leading to dismissal are handled by the Request

for Extension process, and the decision of the vice provost for advanced studies and dean of the Graduate School in these matters is binding.

Extension Requests for Education Specialist Students

Extenuating circumstances that inhibit a student's rate of progress are handled through the Request for Extension (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School, and is binding.

Dismissal

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (<http://gradschool.missouri.edu/academics/progress/probation-termination.php>) and the Extension Requests and Appeals Process (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>) pages on the Graduate School website.

Doctoral Requirements (Graduate School)

The Graduate School grants two types of doctoral degrees: the doctor of philosophy (PhD) and the doctor of education (EdD). Consult with individual departments to learn about the availability of degrees. To obtain either doctoral degree, a student must follow the general regulations of the Graduate School well as special requirements of the degree program. It is the student's responsibility to adhere to all regulations and satisfy the graduation requirements of the Graduate School and the degree program. An individual who has held, at any time, a regular tenure-track appointment in an MU academic program is not eligible for a doctoral degree from that department or the area program in which that department participates.

Doctoral Qualifying Examination or Process

Prior to official admission into a doctoral program, the student must pass a qualifying examination or process. A department or area program may limit the number of times this examination or process may be attempted. After the qualifying process is complete and the doctoral committee has been confirmed, the Qualifying Examination Results and Doctoral Committee Approval (D1) (<http://gradschool.missouri.edu/forms-downloads/repository/d1.pdf>) form should be submitted to the Graduate School, no later than the end of the second semester of enrollment.

Selecting a Doctoral Adviser

The student selects an adviser or co-advisers, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an adviser retires or leaves MU, he/she may continue to serve as a student's adviser unless there is written academic program policy prohibiting such an arrangement. If an adviser is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Forming a Doctoral Program Committee

The doctoral program committee must be recommended by the student's adviser and approved by the academic program's director of graduate studies and the Graduate School before one year has elapsed following the student's first registration as a doctoral student. The Qualifying Examination Results and Doctoral Committee Approval (D1) (<http://gradschool.missouri.edu/forms-downloads/repository/d1.pdf>) form is due to the Graduate School office by the end of the student's second semester.

Committee Changes

Changes to the committee must be submitted on the Change of Committee form.

Duties

All members of the doctoral program committee will be intimately involved and will actively participate in the activities of the doctoral student at all the stages of the student's career at MU, except in some cases in the qualifying examination/process. The committee also may participate in the assessment of a student's background and potential for success in the academic program's doctoral program. Committee members may call a meeting of the full committee at any time to discuss the student's progress.

Membership Requirements for Doctoral Committees

The doctoral program committee shall be composed of a minimum of four members of the MU graduate faculty and will include at least three members from the student's doctoral degree program and an outside member from a different MU program. At least two of the doctoral committee members must be MU doctoral faculty. (Note: This policy is effective for students who begin their doctoral programs during the Fall 2005 Term. For students who began their doctoral programs before the fall 2005 semester, consult the appropriate catalog or the Graduate School.)

Additional committee members with specialized expertise who do not meet the criteria for the MU graduate faculty or doctoral faculty may serve on a doctoral committees as a fifth or sixth member, with special permission of the dean of the Graduate School.

Graduate Committee Membership for Jointly Appointed Faculty

Chapter 320 of the Collected Rules and Regulations (http://www.umsystem.edu/ums/rules/collected_rules/personnel/ch320) for the University of Missouri requires that all jointly appointed faculty members will have a designated Primary Appointment and Primary Department as well as affiliation with one or more involved departments or units. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

Committee Chair/Adviser

A faculty member may serve as adviser/committee chair when his or her primary appointment is in the graduate student's home academic program. When the graduate student's home academic program is the involved academic program for a jointly appointed faculty member, the person may serve as chair/adviser with the approval of the director of graduate studies from the student's home academic program.

Doctoral Committee Member

A faculty member can serve only as an Internal Member when his or her Primary Appointment is in the graduate student's home academic program. When a graduate student's home academic program is the Involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct faculty may serve as a committee chair or committee member only in academic programs in which they are appointed and approved for graduate or doctoral faculty membership as appropriate for the student's degree (master's or doctoral). Service on graduate committees outside the academic program in which an adjunct member is appointed requires a recommendation by the director of graduate studies from the student's home academic program and approval by the dean of the Graduate School.

Doctoral Plan of Study & Degree Requirements

The doctoral program committee provides academic program approval of the student's Plan of Study which will prepare the student for research or scholarly investigation in the chosen field of study. The plan of study includes a list of the courses and the credit to be earned. By successfully completing the plan by deadlines, a doctoral student will:

- Prepare the student for research or scholarly investigation in the chosen field of study.
- Satisfy the credit-hour and residency requirement of the academic program.
- Satisfy any special requirements (proficiency in foreign languages, collateral field, doctoral minor, other special research skills) imposed by the department or area program.
- Satisfy the Graduate School's requirement for a minimum of 15 hours of MU coursework at the 8000/9000 level (exclusive of research, readings, and problems).

The committee also recommends to the dean of the Graduate School, as part of the Plan of Study, any request for transfer of graduate credit. Changes to the plan of study should be submitted on the Plan of Study Course Substitution form (<http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf>).

Doctoral Credit-Hour Requirement

MU requires a minimum of 72 semester hours beyond the baccalaureate degree for the PhD and EdD degrees. The student's doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond these minimums.

Transfer Credit

The doctoral committee may recommend up to 30 hours of post-baccalaureate graduate credit from an accredited university be transferred toward the total hours required for the doctoral degree. It is the responsibility of the doctoral committee to determine the appropriateness of course work for transfer credit. All requests for exceptions to this policy must be approved by the dean of the Graduate School.

Note: This policy applies to students who begin their enrollment during the Fall Term 2006 and subsequent semesters. For students who began their doctoral programs prior to the fall 2006 semester, consult the appropriate catalog or the Graduate School for policies pertaining to transfer of credit.

Extension & Correspondence Credit in Doctoral Programs

The doctoral committee may recommend that courses taken through MU's Extension division be counted toward the credit-hour requirement. Extension or correspondence course work from institutions other than MU may not be used to meet the total hours required for the doctoral degree.

Time Limits on Transfer Credits

All courses to be applied to the plan of study must be completed within eight years of filing the plan.

Grades at the Graduate Level

To become eligible for a degree, a doctoral student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 716) for more information.

Foreign Language Proficiency

In general, an English-speaking student may establish foreign language proficiency, if it is required, by demonstrating an ability to translate into English two foreign languages; or by demonstrating a high order of fluency in one language; that is the ability to read, write and converse in that language and to translate that language into English and English into that language.

Plan of Study Completion Before Doctoral Comprehensive Exam

The student must substantially complete the course work outlined in the Plan of Study to the satisfaction of the doctoral program committee and the Graduate School before being declared ready for the comprehensive examination (<http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php>).

Doctoral Comprehensive Examination

The student must be enrolled to take the doctoral comprehensive examination (<http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php>). It is to be administered only when MU is officially in session. The comprehensive examination is the most advanced posed by MU. It consists of written and oral sections. It must be completed at least seven months before the final defense of the dissertation. The two sections of the examination must be completed within one month.

Written Section

The written section or sections of the examination may be conducted in one or both of the following two ways:

1. The written sections may be arranged and supervised by the major adviser, in which case questions are prepared and graded by the doctoral program committee.
2. The major adviser may delegate responsibility for arranging, preparing, supervising and grading the written sections of the

examination to one or more departmental/program committees appointed for this purpose.

Successful Completion

For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. A report of examination results, carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive examination is completed.

Exam Failure

A failure of either the written or oral section of the exam constitutes failure of the comprehensive exam. If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student's work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination.

Request for Clarification

If the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Graduate School.

Retaking the Comprehensive Examination

The student who fails may not take a second comprehensive examination for at least 12 weeks. Failure to pass two comprehensive examinations automatically prevents candidacy.

Doctoral Candidacy & Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Students must maintain continuous enrollment during their candidacy (the period after successful completion of the comprehensive examination).

Procedure for Continuous Enrollment

Candidacy is maintained by enrolling in 9090 Research (or 9990 Research for some Engineering students) for two semester hours each fall and spring semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an adviser's support, doctoral program committee guidance and university research facilities for completion of the dissertation. Failure to enroll continuously in two hours of approved courses until the doctoral degree is awarded terminates candidacy.

Reestablishing Candidacy After Time Off

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student's doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee's requirements may include a second comprehensive examination or

evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student's adviser and the departmental, area program or divisional director of graduate studies submits a written request to the Graduate School explaining the basis for the decision. Once approved, a Request to Re-enroll form (pdf) (<http://gradschool.missouri.edu/forms-downloads/repository/reenroll.pdf>) must be completed by the student and sent to the department/program for processing.

The Doctoral Dissertation

The dissertation must be written on a subject approved by the candidate's doctoral program committee, must embody the results of original and significant investigation and must be the candidate's own work.

Enrollment Status and Reporting

The candidate must be continuously enrolled (<http://gradschool.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php>) to defend the dissertation, which can only be defended when MU is officially in session. A report of the dissertation defense (<http://gradschool.missouri.edu/forms-downloads/repository/d4.pdf>), carrying the signatures of all members of the committee (<http://gradschool.missouri.edu/academics/process/forming-committees/doctoral.php>), is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student's doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Required Dissertation Format

Every doctoral candidate should review the Guidelines for Preparing Theses and Dissertations from the Graduate School and should consult the director of graduate studies for academic program style requirements. All dissertation defenses shall be open to the general faculty. Academic programs are encouraged to announce dissertation defense dates to academic program colleagues.

Submission of Dissertation to the Graduate School

The final copy of the dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations.

Reasonable Rate of Progress

Reasonable rate of progress is governed by both the campus wide policies of the Graduate School listed below as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School's rate of progress policies leading to dismissal is handled by the Request for Extension process (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>). For academic advice or assistance with degree program planning, students should contact their advisers. Dismissals arising from violation of academic program policies may be appealed using the Appeals Process (<http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php>). Students should also refer to the section on the Dismissal Policy (<http://gradschool.missouri.edu/academics/progress/probation-termination.php>) for additional details.

Time Limits for Doctoral Degree Completion

Three Graduate School policies govern the Reasonable Rate of Progress established for doctoral students. To determine which is applicable to a particular student, see the policies below:

Students Who Began Their Program in Fall 2000 to the Present

Effective fall semester 2000, a doctoral student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. For an extension of this time the student must petition the Graduate School by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the department or area program director of graduate studies.

Doctoral Students Who Passed Comps Between Fall 1994 and Summer 2000

Doctoral candidates who passed their comprehensive examinations between the beginning of the fall semester 1994 through summer session 2000 will have no more than five years after passing the comprehensive examination to complete the doctoral degree.

Doctoral Students who Passed Comps Before Fall 1994

Doctoral candidates who passed their comprehensive examinations before fall semester 1994 must complete their degree programs within eight calendar years beginning with the first semester of enrollment as a doctoral student.

Doctoral Degree Extension Request

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate's academic program, an extension of time may be granted by the Graduate School. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program's director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. See also Active Duty Policy (<http://veterans.missouri.edu/forms/active-duty.php>).

Doctorate of Education (EdD): Special Requirements and Policies

Admission

To be admitted into a doctorate of education program, the student must have attained the degree of master of arts with a major in education, a degree of master of education, or the quantitative and qualitative equivalent of one of these degrees from an accredited college or university.

EdD Qualifying Exam

If required, the qualifying examination must be successfully completed before the plan of study is determined by the adviser and the student in cooperation with the doctoral advisory committee. This program must constitute a well organized plan of professional specialization in one of the major fields of education, with one or more supporting fields.

EdD Plan of Study

A minimum of 72 semester hours of graduate level course work beyond the bachelor's degree is required for the degree of doctor of education degree. The plan of study is specifically intended to meet the professional needs of the candidate. As well as pursuing course work in the professional areas of specialization, the student must take courses in educational statistics, advanced educational statistics, methods of educational research and one research elective course. Foreign languages are not required, except as may be determined by the student's doctoral advisory committee.

EdD Advisory Committee

The student's adviser officially recommends for the approval by the Graduate School a doctoral advisory committee of at least five members. For students admitted Fall 2006 and later, the requirement is at least four committee members. In addition to planning the doctoral program with the student, this committee may administer a qualifying examination, which helps to assess the student's general background and potential for the EdD degree. It also guides the planning of the plan of study.

EdD Comprehensive Examination

When the doctoral advisory committee determines that the needed course work has been completed with satisfactory grades, it plans the comprehensive examination (a written and oral examination that includes the candidate's major field of interest) for the degree. This examination must be taken no earlier than the second year of graduate work and be completed at least seven months before graduation. A student must be enrolled to take the comprehensive examination. It is not administered unless MU is officially in session.

For the comprehensive examination to be completed successfully, the committee must vote to pass the student with no more than one dissenting or abstaining vote. If failure is reported, the committee recommends suggested work or remedial measures. See Comprehensive Examination (<http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php>) under PhD Degree Regulations.

The student who fails may not take a second examination for at least 12 weeks. Failure on two comprehensive examinations automatically prevents candidacy.

Continuous Enrollment

EdD candidates are subject to the same policies and procedures as PhD candidates. See enrollment requirement (p. 711)s for graduate studies.

Dissertation Defense

EdD candidates are subject to the same policies and procedures as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. (<http://gradschool.missouri.edu/academics/thesis-dissertation/dissertation-process.php>)

Time Limits for Doctoral Degree Completion

Effective fall semester 2000, a doctoral student must successfully complete

- the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student.
- the doctoral degree within five years of passing the comprehensive examination.

Individual departments or area programs may stipulate a shorter time period.

For time limit policies prior to academic year 2000-2001, consult the Graduate School Catalog archive dissertation format EdD candidates are subject to the same dissertation formatting and submission requirements as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. Policies can be found at <http://gradschool.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php>.

Dissertation Submission

The final copy of the EdD dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations (<http://gradschool.missouri.edu/forms-downloads/repository/etd-guidelines.pdf>).

Deadline for Submission of Dissertation/ Thesis after Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program's and/or the International Center's enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student's advisor and program's DGS.

Doctoral Degree Extension Request

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate's academic program, an extension of time may be granted by the Graduate School.

Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program's director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. (See also Active Duty Policy.)

Doctoral Dual Degrees

Dual Doctoral-Professional Degrees

As the US workforce becomes increasingly interdisciplinary, some graduate students elect to concurrently pursue a PhD (doctoral) degree in combination with a law or medical (professional) degree. Examples include the MD/PhD and the JD/PhD. Dual degrees are cooperatively arranged between a graduate degree granting program and a professional degree granting program. The Graduate School oversees the doctoral (PhD) degree portion of the dual doctoral/ professional degree. Dual degrees are approved by the Graduate Faculty Senate.

Students must apply to **both** the Graduate School and the professional degree program, notifying both of their interest in a dual program. Please refer to the A-Z list of graduate degree programs (<http://gradschool.missouri.edu/academics/programs/a-z>) to learn what is currently available.

Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student's second semester at MU.

The governing policies for dual degrees are the same for master's and doctoral students. Please refer to the dual-degree information for master's students (<http://gradschool.missouri.edu/academics/process/dual-masters-process>) for more information.

Dual Degrees for Medical Students

The MD/PhD program is for the student seeking a biomedical research career. Additional years are integrated into the medical curriculum to satisfy requirements for the PhD. (A MD/MS dual degree is another option). The graduate degree (MS or PhD) is typically accomplished after completion of the MD program. PhD programs are available in diverse areas at MU.

Students are accepted to the joint program by a single committee. Students interested in this dual-degree program should inquire at the dean's office in the School of Medicine.

Financial Support

Financial support may be provided for the graduate portion of the dual-degree program. Fellowship support may be provided for the PhD portion of this program, while loan and scholarship funds may be available for the MD curriculum.

Applying Credit

Students participating in the MD/PhD Program at the University of Missouri may apply up to 30 hours of credit for courses taken during the preclinical phase of the MD program towards the 72 hour requirement for the PhD degree. These MD courses, however, cannot be used to satisfy the requirement for 15 hours of 8000/9000 of graduate level course work.

The following table lists the distribution of credits for the preclinical courses among areas of study that can be used by the student and their committee in determining how many credit hours should be applied toward the PhD.

Course	Applicable Hours Toward the PhD
Biochemistry	6 hrs
Microbiology	4 hrs
Immunology	3 hrs
Pharmacology	4 hrs
Physiology	4 hrs
Pathology	6 hrs
Neurosciences	3 hrs

Advising & Committees

There will be a separate adviser and committee for each degree program.

Dean's Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisers who would also serve as outside members, plus

one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual degree program forms will be used to certify plans of study, committee members and final defense/examinations.

Timelines for PhD Completion

Policies governing doctoral degree completion, including but not limited to examinations, forms, continuous enrollment, and dissertation format, defense and submission, are detailed in the doctoral degree requirements section of the Graduate Catalog and web site.

Conferral of Dual Degrees

Upon completion of all degree program requirements, the Graduate School and the professional school will confer separate diplomas.

Doctoral Requirements (School of Law)

The Juris Doctor (J.D.), or "law degree," is a three year post-baccalaureate program. Students must complete 89 credit hours of law courses roughly one-half of which are required courses.

[View JD Degree Requirements Here \(p. 683\)](#)

The wide variety of academic courses are complemented by a variety of clinics and skills courses designed to provide graduates with a solid foundation for the practice of law.

Undergraduate/Graduate

Information in the catalog is current as of May 2014. The next catalog will be published in May 2015. In the interim, new courses will be announced in myZou (<https://myzou.missouri.edu>) (MU's online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou.

Undergraduate Study

MU grants 25 percent of the bachelor's degrees from Missouri public universities, providing an intellectually diverse environment and 360-degree learning for students from every state in the nation and more than 120 countries.

MU offers more than 300 degree programs through 19 colleges and schools and is a member of the prestigious Association of American Universities. Ninety-two percent of full-time, ranked faculty hold doctorates or the highest degree in their field. A highly interdisciplinary campus, it's common for faculty and students from one school at Mizzou to collaborate on projects with those from other schools and colleges. For example, some courses in the sciences are taught in conjunction with MU's medical school, and humanities classes include such areas as music composition and creative writing.

MU also offers an honors college for high-achievers and unmatched real-world experiences, including managing a bed and breakfast (The Gathering Place), operating a floral shop (Tiger Garden), preparing income taxes for families, studying abroad, volunteering for credit, providing health care, working at the country's only university-owned TV network affiliate (KOMU), performing at Carnegie Hall and co-authoring articles in leading scientific journals. Mizzou students also hold patents and create startup companies.

For more information about undergraduate study, contact Undergraduate Admissions (<http://admissions.missouri.edu>).

Graduate Study

The University of Missouri Graduate School offers nearly 100 master's degree programs, over 70 doctoral degree programs, and 6 educational specialist degree programs; 13 graduate minors; and 40+ graduate certificates. Opportunities for e-learning, including online graduate degrees, are available. An A-Z list of graduate degrees is available in this catalog as part of a total MU degrees listing (p. 5). For more information, contact Graduate Admissions (<http://gradschool.missouri.edu>).

About the College

The mission of the College of Agriculture, Food and Natural Resources (CAFNR) includes excellence in teaching and advising, cutting-edge research and the dissemination of that research to the people of Missouri.

From entering freshmen to postdoctoral scientists, students receive personal attention in preparing for a wide range of careers. Professional development through career services, student organizations, and engagement with business and industry prepares graduates to have an impact in the food system, business, government policy, environmental awareness, conservation, law, medicine and other areas.

The Missouri Agricultural Experiment Station develops life science technologies in animal, biochemical, plant, food and natural resource sciences to keep the state's agribusiness system competitive in world markets and to provide consumers with a safe, low-cost food supply. Science research faculty lead our state and nation in debate and development of science-based policies for agriculture and natural resources.

Finally, the college helps the global community more fully develop their economies through improved agriculture. This global mission provides a valuable exchange of knowledge and understanding among students, teachers and scientists from many cultures.

The College of Agriculture, Food and Natural Resources was established at the University of Missouri in 1870 as the state's land-grant university in response to the need for agricultural teaching and research in Missouri. The four major divisions in the college, the Agricultural and Natural Resources Experiment Station, Academic Programs, Agricultural and Natural Resources Extension and International Programs, continue to have a great influence on Missouri's economy.

Undergraduate

- Admissions (p. 31)
- Special Programs (p. 31) (Pre-Veterinary Track and Pre-Medical Track)
- Degree Options (p. 32)
- Bachelor of Science Degree Requirements (p. 32)
- Additional CAFNR Requirements (p. 32)
- CAFNR Honors Requirements (p. 33)
- Probation, Suspension and Dismissal (p. 33)
- Advising (p. 33)
- Career Development and Professional Opportunities (p. 33)
- Experiential Learning (p. 33)
- Study Abroad (p. 34)
- Student Activities (p. 34)

Admissions

Students admitted to the University of Missouri are encouraged to enter the College of Agriculture, Food and Natural Resources, including the School of Natural Resources, as freshmen. Current Mizzou students who are looking to transfer divisions to CAFNR need to contact the Office of Academic Programs first as some degree programs have specific GPA requirements.

Special Programs

Preveterinary Track

Students wishing to prepare for application to the College of Veterinary Medicine may enroll in the College of Agriculture, Food and Natural Resources under programs that emphasize science, such as animal sciences or fisheries and wildlife. In satisfying the science program requirements, the requirements for entering veterinary medicine also may be satisfied.

A minimum of 60 credits is required for admission to the College of Veterinary Medicine. Before applying, a student should make certain that the requirements listed below have been satisfied. Questions concerning required admission credits should be directed to the College of Veterinary Medicine. (Note: Tracks are not listed on transcripts or diplomas.)

Composition or courses in communication skills	6
College Algebra or more advanced mathematics	3
Inorganic Chemistry	8
Organic Chemistry (requires laboratory)	5
Biochemistry (requires organic chemistry prerequisite)	3
Physics (comprehensive introductory course or courses) **	5
Biological Science	10
Social Science and/or Humanistic Studies	10
Electives	10
Total Credits	60

** 5 hrs. in only the first of a companion series in introductory physics will not suffice.

Premedical Track

Students interested in a medical career may choose from a variety of science-based majors. The most common choice of students is biochemistry because it is a collaborative program between CAFNR and

the School of Medicine. Questions concerning required admission credits should be directed to the School of Medicine. (Note: Tracks are not listed on transcripts or diplomas.) The following course work is required for admission:

English composition	2	semesters
College-level mathematics (or calculus eligibility)	1 semester	
General biology, including laboratory	8 credits	
Inorganic chemistry, including laboratory	8 credits	
Organic chemistry, including laboratory	8 credits	
General physics, including laboratory	8 credits	

Degree Options

In many majors, students are allowed to tailor the program of study to their professional goals. Students may choose courses that provide them with strong technical expertise or select those that provide business expertise. Others who are preparing for graduate or professional schools may be interested in a strong science education. All of these options are available within the majors.

Bachelor of Science (B.S.) Degree Requirements

The College of Agriculture, Food and Natural Resources (CAFNR) B.S. degree requirements, including University general education and graduation requirements, are outlined below. Refer to degree program sections for additional course requirements and minimum credit requirements. (See the School of Natural Resources for degree requirements for Fisheries and Wildlife; Forestry; Parks, Recreation and Tourism; and Soil, Environmental and Atmospheric Sciences.)

General education and CAFNR requirements

Communications		9
ENGLSH 1000	Exposition and Argumentation (a grade of C- or better is required)	3
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
or COMMUN 1200	Public Speaking	
Communication Elective (selected from)		3
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	
COMMUN 1200	Public Speaking	
COMMUN 3441	Nonverbal Communication	
COMMUN 3572	Argument and Advocacy	
COMMUN 3575	Business and Professional Communication	
C_S_D 1100	American Sign Language I	
ENGLSH 2010	Intermediate Composition	
ENGLSH 2030	Professional Writing	
IS_LT 4360	Introduction to Web Development	
RU_SOC 2225	Science, Technology and Society	
SCI_AG_J 2210	Communicating Science to the Public	
SCI_AG_J 3210	Fundamentals of Communications	
SCI_AG_J 3240	Communicating on the Web	
THEATR 1400	Acting for Non-Majors	
Foreign language		
College algebra		3
MATH 1100	College Algebra (or higher level mathematics course. C- or better required.)	3

Biological, physical, and/or mathematical sciences		11
CHEM 1100	Atoms and Molecules with Lab	3-4
or CHEM 1320	College Chemistry I	
Select one of the following:		3
BIO_SC 1010 & BIO_SC 1020	General Principles and Concepts of Biology and General Biology Laboratory	5
or BIO_SC 1030	General Principles and Concepts of Biology with Laboratory	
or BIO_SC 1200	General Botany with Laboratory	
or BIO_SC 1500	Introduction to Biological Systems with Laboratory	
Biological/physical/mathematical science elective: Courses designated BIO, PHYS, or MATH on approved Distribution of Content course list (http://generaleducation.missouri.edu/courses/)		3

Social and behavioral sciences		9
AG_EC 1041	Applied Microeconomics	3
or ECONOM 1014	Principles of Microeconomics	
AG_EC 1042	Applied Macroeconomics	3
or ECONOM 1015	Principles of Macroeconomics	
American History (State Law Requirement) Choose one from:		3
HIST 1100	Survey of American History to 1865	
HIST 1200	Survey of American History Since 1865	
HIST 2210	Twentieth Century America	
HIST 2440	History of Missouri	
HIST 4000	Age of Jefferson	
HIST 4220	U.S. Society Between the Wars 1918-1945	
HIST 4230	Our Times: United States Since 1945	
POL_SC 1100	American Government	
POL_SC 2100	State Government	

Humanities and/or fine arts		6
In addition to AG_ED_LD 2220 or COMMUN 1200 Courses designated HFA on approved Distribution of Content course list (http://generaleducation.missouri.edu/courses/)		

Additional general education requirements

- Writing Intensive (WI) course (grade of C- or better required)
- Math Reasoning Proficiency (MP) (grade of C- or better required)

Additional University graduation and CAFNR Requirements

- Writing Intensive course in the major at the 3000/4000 level (grade of C- or better required)
- Capstone Course (grade of C- or better required)
- A total of 120 credits are required to earn a Bachelor of Science degree in CAFNR. A minimum of 24 credits in 2000-level or above courses; and an additional 24 credits in 3000-level or above courses are required
- Degree program requirements and course total credits vary. Refer to specific CAFNR degree programs to determine the number of credits required for degree completion
- Must complete a minimum of 32 credits in the disciplines within the College of Agriculture, Food and Natural Resources. A minimum of the 20 credits must be MU course work
- Complete 30 of the last 36 hours with MU course work. Obtain approval of faculty advisor, degree program advisor chair, and associate dean prior to enrolling in courses at another institution
- Earn no less than a 2.00 GPA, as defined by the GPA of Record (UM cumulative GPA)

Transfer Credits

- A maximum of 18 credit hours of course work in CAFNR disciplines may be transferred from a community college and applied toward departmental degree requirements. Additional credit hours may apply toward general education requirements or electives
- University general education requirements are considered completed for students transferring with an Associate of Arts (AA) degree from a regionally accredited Missouri institution
- Transfer credit from a regionally accredited non-Missouri institution will be evaluated on a course by course basis

CAFNR Honors Requirements

Students are eligible to enter the honors program when they have obtained a cumulative GPA of 3.3 or above based on 30 credits earned at the University of Missouri. Transfer students are eligible after completing 15 credits at MU with a cumulative GPA of 3.3 or higher.

Students must be admitted to the honors program prior to the first day of classes for the last semester they are enrolled in residence in CAFNR. No student is admitted retroactively. The student is officially admitted to the program upon approval of the associate dean of academic programs.

Eligible students should complete an application as early in their undergraduate degree program as possible. The honors program application should be signed by at least two faculty members and the undergraduate advisor chair before it can be approved. The faculty members co-signing the application will comprise the honor student's advisory committee.

An honors project (HP) is required and should be planned by the student and approved by the honor student's advisory committee. The honors project should involve a significant research effort by the honors student, culminating in a written and oral presentation of the results. Departmental HP requirements must be approved by the CAFNR Honors Program Oversight Committee.

Students are officially admitted to the CAFNR Honors Program when the application has been approved and signed by the CAFNR associate dean of academic programs. To remain in good standing in the CAFNR Honors Program, a student must maintain a cumulative GPA of 3.3 or more. A student whose GPA falls below 3.3 will be allowed a two-semester grace period to raise the GPA to the 3.3 level.

Changes in the program of study must be signed by the student, each advisory committee member, the undergraduate advisor chair and associate dean before they are officially approved.

Dual Enrollment for Senior Undergraduates

Qualified undergraduate students are eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate program. Graduate credit cannot be counted toward undergraduate degree credit requirements. See Graduate School section of the catalog for additional details.

Probation, Suspension and Dismissal

In addition to the Academic Standing Policy (p. 703) of the University, CAFNR's academic policies can be located at <http://CAFNR.missouri.edu>.

Advising

When entering the college, each student is assigned a faculty advisor to assist in defining career goals and planning courses for a program of study that leads to graduation. The faculty advisor also serves as a resource person for the student in a variety of academic and individual situations.

One of a student's first priorities is to meet and become acquainted with the faculty advisor early in the semester. The student should consult with the faculty advisor when planning or changing the academic program. The advisor and advisor chair must approve the program of study for graduation.

Questions dealing with advisement should be directed to Office of Academic Programs, Dickinson Student Achievement Center, 2-64 Agriculture Building, (573) 882-8301.

Career Development and Professional Opportunities

CAFNR believes in career development as a key part of the student experience. Our college provides career resources targeted specifically toward student interests and strengths. The CAFNR Career Services team focuses efforts to help educate, empower, and connect CAFNR students with their future careers. The resources in CAFNR expand beyond resume reviews, mock interviews and one-on-one sessions to explore career possibilities. The team works to bring value to each student in the college, by making valuable employer connections to help expand each student's professional network. Students also have access and are encouraged to use www.HireMizzouTigers.com (<http://www.hiremizzoutigers.com>) to search open job and internship postings.

CAFNR graduates find rewarding careers in a variety of career fields, including: private industry, state and federal agencies, start-ups, production agriculture, and more.

You can receive relevant career planning updates from CAFNR delivered directly to your social media newsfeed. Simply like us at [www.Facebook.com/CAFNRcareers](https://www.facebook.com/CAFNRcareers) (<https://www.facebook.com/CAFNRcareers>), tweet with us at [www.Twitter.com/CAFNRcareers](https://twitter.com/CAFNRcareers) (<https://twitter.com/CAFNRcareers>), link up with us at [linkd.in/12RIKRD](https://www.linkedin.com/groups/MU-College-Agriculture-Food-Natural-1208727/about) ([http://www.linkedin.com/groups/MU-College-Agriculture-Food-Natural-1208727/about](https://www.linkedin.com/groups/MU-College-Agriculture-Food-Natural-1208727/about)), or Pin with us at www.Pinterest.com/CAFNRcareers (<http://www.pinterest.com/cafnrcareers>).

We invite you to reach out in the traditional ways, too! Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

Experiential Learning

Employers want to hire students who have experience! CAFNR students have a variety of options when it comes to experiential learning. CAFNR's focus on internships, study abroad, industry tours, and student organizations help students gain relevant experience employers want to see. Exploring these opportunities give students the professional growth and network needed for career success after graduation.

Click here to check out some of the most recent student experiences (<https://www.facebook.com/media/set/?set=a.631051863580078.1073741826.565193606832571&type=3>) to see the kinds of opportunities CAFNR students explore. Interested in gaining your own experiences? We want to help you reach your goals! You can reach us in a variety of ways. Stop by our office

in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRCareerservices@missouri.edu.

Study Abroad

CAFNR provides students with opportunities to study abroad on academic year, semester, summer, short term and winter break programs. Study Abroad compliments and enhances a student's academic program. On these programs, students gain maturity and self confidence, broaden their horizons to the larger world around them and earn academic credit. Increasingly, employers are looking for students who have increased their skill set through study abroad.

For more information about CAFNR study abroad programs, contact the Study Abroad Office, Dickinson Student Achievement Center, 2-64 Agriculture Building, at (573) 882-8301.

Student Activities

CAFNR offers a variety of extracurricular student activities that contribute to a student's education and professional development. Clubs and organizations sponsor activities related to professional interests as well as social events. Involvement in extracurricular activities fosters leadership development. Involvement in activities outside the classroom also may prove beneficial when applying for scholarships or jobs. Many organizations and companies look favorably on a student who has received good grades while being involved in clubs and other University organizations. Each class and club elects a representative to the CAFNR Student Council. More information can also be found at Fall Round-up each fall semester.

Graduate

Graduate studies in CAFNR are taking an innovative, high-tech approach to traditional agriculture, food and natural resources. Our students are highly engaged with expert faculty mentors who are impacting the future with findings on health breakthroughs, sustainable agriculture techniques and food safety. Prospective students are able to choose from a range of academic programs consistently recognized for excellence:

- Agricultural Economics
- Agricultural Education
- Animal Sciences
- Biochemistry
- Biological Engineering
- Fisheries and Wildlife
- Food Science
- Forestry
- Parks, Recreation and Tourism
- Plant Sciences
 - Crop, Soil and Pest Management
 - Entomology
 - Horticulture
 - Plant Breeding, Genetics, and Genomics
 - Plant Stress Biology
- Rural Sociology
- Soil, Atmospheric and Environmental Science

Find CAFNR degree program descriptions by following the links in the left navigation column.

Note: Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Agribusiness Management

Joe Parcell, Chair
 Agricultural and Applied Economics
 College of Agriculture, Food and Natural Resources
 200 Mumford Hall
 (573) 882-3545
 Fax (573) 882-3958
 ParcellJ@missouri.edu (parcellj@missouri.edu)

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management and BS, MS and PhD degrees with a major in Agricultural Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Agribusiness Research Institute, an agribusiness research program that focuses on interactive problem solving and learning
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Community Policy Analysis Center, providing research, outreach and training that supports improved policy decisions in Missouri communities
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Economics and Management of Agrobiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship.
- Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives serving Missouri
- Value Added Center, provides industry analysis for producer groups looking to add value to commodities

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agribusiness Management (p. 35)

The degree in agribusiness management offers the student a general business background while emphasizing applications to various types of food and agricultural businesses. This program prepares students to assume leadership roles in business. The broad background allows maximum flexibility when entering the job market.

Students transferring into agribusiness management from other departments at MU or from other colleges must have a 2.7 cumulative GPA for all work attempted.

Graduate

While MU does not offer graduate degrees specifically in agribusiness management, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Undergraduate

BS in Agribusiness Management

Major Program Requirements

Core requirements of the Department must be completed in addition to all major, degree, CAFNR and University graduation requirements, including the University general education requirements (p. 18).

The following courses are required for the Agribusiness Management major.

Department core requirements

AG_EC 1041	Applied Microeconomics	3
AG_EC 1042	Applied Macroeconomics	3
AG_EC 2123	Quantitative Applications in Agricultural Economics	3
AG_EC 2183	The Agricultural Marketing System	3
AG_EC 2225	Statistical Analysis	3
or STAT 2500	Introduction to Probability and Statistics I	
AG_EC 3251	Agricultural Prices	3
AG_EC 3282	Agribusiness Finance	3

Supporting courses

AFNR 1120	Computing and Information Technology	2
AFNR 2120	Working with Data Using Excel	1
MATH 1400	Calculus for Social and Life Sciences I	3
ACCTCY 2036	Accounting I	3
or ACCTCY 2136H	Honors Accounting I	
ACCTCY 2037	Accounting II	3
or ACCTCY 2137H	Honors Accounting II	
ECONOM 3229	Money, Banking and Financial Markets	3

Production Agricultural Electives 9

Courses in biological engineering, agricultural systems management, animal sciences, fisheries and wildlife, food science, forestry, natural resources, plant sciences, soil and atmospheric sciences, and biochemistry

Major core requirements

AG_EC 3256	Agribusiness and Biotechnology Law	3
AG_EC 3286	Economics of Managerial Decision Making	3
AG_EC 4971	Agribusiness Management Strategy	3
AG_EC 4972	Agri-Food Business and Cooperative Management	3

Business Electives 12

AG_EC 2223	Agricultural Sales	
AG_EC 3150	International Agribusiness	
AG_EC 3224	New Products Marketing	
AG_EC 3230	Agricultural and Rural Economic Policy	
AG_EC 3283	Fundamentals of Entrepreneurship	
AG_EC 3294	Agricultural Marketing and Procurement	
AG_EC 4295	Agricultural Risk Management	

Students may select, business courses 3000+

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
AG_EC 1010	1 AG_EC 1042	3
AG_EC 1041	3 MATH 1400	3
MATH 1100	3 CHEM 1100	3

Undergraduate

While MU does not offer undergraduate degrees specifically in agricultural and applied economics, the University does offer bachelors degrees in the closely related areas of Agricultural Economics (p. 40), and Agribusiness Management (p. 35), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Graduate

- MS in Agricultural and Applied Economics (p. 38)
- PhD in Agricultural and Applied Economics (p. 38)

Department of Agricultural Economics

Director of Graduate Studies: Harvey James (hjames@missouri.edu)

About the Graduate Programs

The graduate program in the Department of Agricultural and Applied Economics is recognized for its innovative approach to graduate training in agricultural economics. A distinguishing feature of the program is the integration of organizational, institutional and welfare economics in both applied and theoretical research. This approach gives the program a competitive advantage.

A PhD or MS degree in agricultural and applied economics prepares students for a rewarding career in academia, agricultural business, government or international agriculture. Students can study agribusiness management, contracting and strategy; collective action and cooperative theory; econometrics and price analysis; entrepreneurship; environmental and natural resource economics; food, biofuel and agricultural policy and regulation; international development; regional economics and rural development policy; science policy and innovation; sustainable agriculture and applied ethics. The MS program may be a step toward the PhD but may also be used as a terminal program for those interested in careers in agribusiness, extension or government. Programs are flexible. All PhD and most MS students become involved in research, but those whose career interests lie in other directions find the department willing to accommodate them.

Admission Criteria

Fall deadline: February 15

Spring deadline: September 15

Minimum TOEFL score: 80 Internet-based; 550 Paper-based
GRE required

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Agricultural Economics Program:

- Departmental Application
- 3 letters of recommendation
- Statement of purpose
- Transcripts
- GRE score report

Internal Funding

A 3.25 GPA (A=4.0) is generally a minimum requirement for financial assistance such as fellowships and assistantships for research and teaching. Reasons for supporting a student with a GPA below 3.25 must be documented in detail.

Graduate

MS in Agricultural and Applied Economics

Degree Requirements

Before admission to the MS program, a student should have completed at least nine hours of agricultural economics or economics, a course in calculus and one in statistics.

For the MS degree, students must complete a minimum of 30 hours selected from courses accepted for graduate credit. The program must include graduate-level courses in intermediate microeconomic theory, intermediate macroeconomic theory, and multiple regression analysis. Students opting for the MS thesis must also complete at least six credit hours of research as part of the minimum 30 hours. An alternative MS non-thesis program requires that some additional course work be substituted for thesis research.

Sample Plan of Study

- ECONOM 7351 Intermediate Microeconomics
- ECONOM 7353 Intermediate Macroeconomics
- ECONOM 7371 Introduction to Econometrics or equivalent
- 6 hours of AG_EC 8090 Masters Thesis Research
- 15 hours of Agricultural and Applied Economics courses and/or electives

Thesis/Non-Thesis Requirements

Students in the Thesis track are expected to produce a thesis with the organization, degree of analysis, and style of presentation that can be readily converted into a professional publication.

Students in the non-Thesis track substitute coursework for the Thesis hours. Students also write a technical paper that represents a collaborative research agenda with his/her advisor. A typical paper

would analyze an issue or problem of mutual interest to the student and advisor, such as a phenomenon in local, regional, or national economy; an analysis of a policy implementation or change; or a firm-level decision, such as a feasibility study or an organizational case study.

Admissions

The Department's Graduate Studies Committee oversees the admissions process. Admission into the MS program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

PhD in Agricultural and Applied Economics

Degree Requirements

The PhD program emphasizes preparation for research, teaching and extension and usually requires about three years beyond the master's program to complete. The size, quality and diversity of the faculty provide a broad choice of advisers and research topics. Students and their advisory committees have considerable latitude in developing a plan of study. There is no foreign language requirement.

The general course requirements for the PhD consist of courses in advanced microeconomic theory, new institutional economics, welfare economics, econometrics and research methodology, followed by a well-balanced selection of elective and research courses in agricultural economics and other disciplines at the 8000/9000 level. The course of study should prepare the student for the written qualifying exam taken after the first year of courses, the comprehensive exam assessing the student's competency in his or her chosen fields of study, and independent research. A dissertation embodying the results of original research must be written on a subject approved by the program committee. An oral examination over the dissertation completes the degree requirements.

Doctoral candidates have flexibility in developing their own program by choosing specialties from one of the department's three areas of emphasis (will not appear on transcripts or diplomas).

- **Agribusiness Management**, which emphasizes the economics of food-system organization, strategy and institutions. An important focus of this research includes organizational structure, entrepreneurship, innovation, information, strategy, finance and governance, contracting, collective action, and social capital.
- **Public Policy Analysis**, which prepares students to evaluate the role of government in a market economy. This would include food and agricultural policy, various regulatory policies (e.g. food and environmental safety, IPR and market structure), and rural development policy and assess the impacts of such domestic and international government interventions.
- **Resources and Development**, which allows students to develop expertise in the application of economic theory and quantitative methods to problems and issues related to the subjects of natural resource and environmental economics, economic development, and

regional economics. The significant overlap among these subjects allows students the flexibility to select courses and research topics relevant to more than one subject.

Prerequisites for the PhD program include courses in intermediate microeconomics; intermediate macroeconomics; quantitative or mathematical economics; statistics, econometrics or regression and correlation analysis; and calculus. A master's degree in economics, agricultural economics, or a related field, is preferred but not required for admittance into the PhD program. However, applicants to the PhD program without a master's degree will be admitted initially into the MS program with the expectation that they complete the MS degree including MS thesis before continuing with their doctoral studies.

Sample Plan of Study

Fall semester, year 1: AG_EC 9040 Advanced Microeconomics Theory and Applications I; AG_EC 8050 Economics of Institutions and Organizations; Elective

Spring semester, year 1: AG_EC 9042 Advanced Microeconomics Theory and Applications II; AG_EC 9230 Welfare and Consumption Economics; AG_EC 9475 Econometrics I

Fall semester, year 2: AG_EC 8010 Research Methodology; ECONOM 8473 Applied Econometrics; Field Course or Elective

Spring semester, year 2: Field Courses and/or Electives

Subsequent semesters: Field Courses and/or Electives; Research and Dissertation hours

Qualifying Process

After completing the first year sequence, students take a written qualifying exam administered by a committee formed under the direction of the department's Graduate Studies Committee. The exam covers the content of the first-year PhD core courses (both microeconomic theory courses, new institutional economics, welfare economics and basic econometrics). The exam is generally given in May following the first complete year of studies, with a retake, if needed, offered in August. Students must pass the exam to continue in the PhD program.

Comprehensive Examination Process

Students take the Comprehensive Exam after passing the qualifying exam process and completing coursework, including core courses and field courses. The Comprehensive Exam consists of three parts: the written dissertation proposal, a written comprehensive exam, and an oral examination. The Comprehensive Exam is administered by the student's Doctoral Program Committee.

Dissertation Requirements

Two types of dissertations are acceptable. The first type of dissertation is organized around a single topic and typically is a lengthy monograph of your research findings. The second type of dissertation is a compilation of three narrow-topic essays that are loosely related to a single, general theme or topic. Students select dissertation topics in consultation with their Doctoral Program Committee.

Admissions

The Department's Graduate Studies Committee oversees the admissions process. Admission into the PhD program is determined by an

assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management and BS, MS and PhD degrees with a major in Agricultural Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Community Policy Analysis Center, providing research, outreach and training that supports improved policy decisions in Missouri communities
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Economics and Management of Agrobiotechnology Center, a research center with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted institute whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship
- Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives in Missouri
- Value Added Center, provides industry analysis for producer groups looking to add value to commodities

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Department Level Requirements (p. 40)
- BS in Agricultural Economics (p. 41)
 - with optional emphasis in Financial Planning (p. 42)
 - with optional emphasis in Public Policy (p. 42)
- Minor in Agricultural Economics (p. 42)

Programs in agricultural economics focus on understanding and solving problems in the production, distribution and use of agricultural goods, services and natural resources. The focus is on courses in management, marketing and production, as well as on courses covering economic principles and computer skills.

Substantial career opportunities exist in food processing and manufacturing, international production, development and trade, biotechnology, agricultural and natural resource management, risk management and merchandising, as well as aspects of agribusiness.

Graduate

The last term in which a student could be admitted to the MS and PhD programs in Agricultural Economics was Fall 2013. Students pursuing the MS or PhD in Agricultural Economics should refer to a prior year's edition in the Archived Catalogs (<http://catalog.missouri.edu/archives>) for their degree information.

Going forward, students are being admitted into the MS in Agricultural and Applied Economics (p. 38) and the PhD in Agricultural and Applied Economics (p. 38). Please refer to those pages within this catalog for details on the programs.

Undergraduate

Department Level Requirements - Agricultural Economics

Students transferring into agricultural economics from other departments at MU or from other colleges or universities must have a 2.7 cumulative GPA for all work attempted.

Core department requirements must be completed in addition to all major, degree, CAFNR and University graduation requirements, including the University general education requirements. The following courses are required for both agribusiness management and agricultural economics majors:

Department core requirements		18
AG_EC 1041	Applied Microeconomics	3
AG_EC 1042	Applied Macroeconomics	3
AG_EC 2123	Quantitative Applications in Agricultural Economics	3
AG_EC 2183	The Agricultural Marketing System	3
AG_EC 2225	Statistical Analysis	3
or STAT 2500	Introduction to Probability and Statistics I	
AG_EC 3251	Agricultural Prices	3
AG_EC 3282	Agribusiness Finance	3
Supporting courses		24
AFNR 1120	Computing and Information Technology	2
AFNR 2120	Working with Data Using Excel	1
MATH 1400	Calculus for Social and Life Sciences I	3
ACCTCY 2036	Accounting I	3
or ACCTCY 2136H	Honors Accounting I	
ACCTCY 2037	Accounting II	3
or ACCTCY 2137H	Honors Accounting II	
ECONOM 3229	Money, Banking and Financial Markets	3
Production Agricultural Electives		9
Courses in biological engineering; agricultural systems management; animal sciences; fisheries and wildlife; food science; forestry; natural resources; plant science; soil and atmospheric science; and biochemistry		
Electives		19-22

BS in Agricultural Economics

Major Program Requirements

Core Department Level Requirements (p. 40) must be completed in addition to all major, degree, CAFNR and University graduation requirements, including the University general education requirements (p. 18).

Farm and Ranch Professional Option

The Agricultural Economics degree offers one option. (Note the Option is not listed on transcripts or diplomas.) In addition to the course requirements for CAFNR, the following courses are required within this option:

Option core requirements		12
AG_EC 3257	Rural and Agricultural Law	3
AG_EC 3260	General Farm Management	3
AG_EC 3294	Agricultural Marketing and Procurement	3
AG_EC 4962	Planning the Farm Business	3
Agricultural production		9
Courses in biological engineering; agricultural systems management; animal sciences; fisheries and wildlife; food science; forestry; natural resources; plant science; soil and atmospheric science; and biochemistry		
Business Electives		6
AG_EC 2223	Agricultural Sales	

AG_EC 3150	International Agribusiness
AG_EC 3224	New Products Marketing
AG_EC 3230	Agricultural and Rural Economic Policy
AG_EC 3283	Fundamentals of Entrepreneurship
AG_EC 3286	Economics of Managerial Decision Making
AG_EC 4295	Agricultural Risk Management
AG_EC 4972	Agri-Food Business and Cooperative Management

students may select ACCTCY 2258 and business courses 3000+

BS in Agricultural Economics with emphasis in Financial Planning

Major Program Requirements

The Financial Planning emphasis area prepares undergraduates with the tools necessary for placement in the agricultural finance sector with an emphasis on family financial planning. In addition to the Department Level Requirements (p. 40) for the College of Agriculture, Food and Natural Resources and the Department of Agricultural and Applied Economics, the following courses are required within this emphasis:

Emphasis core requirements		28
AG_EC 3256	Agribusiness and Biotechnology Law	3
ACCTCY 4353	Introduction to Taxation	3
or FINPLN 4187	Tax Planning	
FINPLN 2083	Financial Planning Careers	1
FINPLN 2183	Personal and Family Finance	3
FINPLN 3283	Financial Planning: Computer Applications	3
FINPLN 4382	Financial Planning: Risk Management	3
FINPLN 4383	Financial Planning: Investment Management	3
FINPLN 4386	Financial Planning: Employee Benefits and Retirement Planning	3
FINPLN 4393	Financial Planning: Estate and Gift Planning	3
FINPLN 4380	Assessing the American Dream	3
or FINPLN 4389	Financial Planning: Capstone	

Semester Plan

Refer to the semester plan for the BS in Agricultural Economics (p. 41).

BS in Agricultural Economics with Emphasis in Public Policy

Major Program Requirements

In addition to the Department Level Requirements (p. 40) for the College of Agriculture, Food and Natural Resources and the Department of Agricultural and Applied Economics, the following courses are required within the public policy emphasis:

Emphasis core requirements		24
AG_EC 2070	Environmental Economics and Policy	3
AG_EC 3230	Agricultural and Rural Economic Policy	3
AG_EC 3271	International Agricultural Development	3
or AG_EC 3272	International Food Trade and Policy	
AG_EC 4990	Agricultural Economics Capstone Seminar	3
ECONOM 4351	Intermediate Microeconomics	3
Public Policy Electives		9
AG_EC 3241	Ethical Issues in Agriculture	
AG_EC 3272	International Food Trade and Policy	
AG_EC 3256	Agribusiness and Biotechnology Law	
AG_EC 3257	Rural and Agricultural Law	
AG_EC 3260	General Farm Management	
AG_EC 3286	Economics of Managerial Decision Making	

AG_EC 3294	Agricultural Marketing and Procurement
AG_EC 4972	Agri-Food Business and Cooperative Management

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 120

Minor in Agricultural Economics

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.

Agricultural Education

Anna L. Ball, Associate Professor and Chair
 College of Agriculture, Food and Natural Resources
 127 Gentry Hall
 (573) 882-7451
 Fax: (573) 884-4444

Administrative assistant: swaimc@missouri.edu
<http://aged.missouri.edu>

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS with a major in Agricultural Education, as well as an MS and a PhD. A minor is also available.

Faculty

- Professor** B. L. Garton**, L. G. Schumacher**
- Associate Professor** A. L. Ball**, T. J. Kitchel**
- Assistant Professor** J. C. Simonsen**
- Instructor** J. D. Tummons*
- Specialist** R. Scheiderer
- Professor Emeritus** R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
 ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agricultural Education (p. 43)
 - with emphasis in Leadership (p. 44)
 - with emphasis in Teacher Certification (p. 44)
- Minor in Agricultural Education (p. 45)

Students pursuing a degree in agricultural education choose between two emphasis areas. The leadership emphasis focuses on developing students' leadership, communication and human relation skills. Students learn how to plan, manage and disseminate information in educational and public settings. Teacher certification emphasis prepares students to meet state teacher licensure requirements and teach agriculture, food and natural resources to secondary and adult learners through Missouri public schools. Students in both the teacher certification and leadership emphasis areas have the opportunity to specialize in an area of interest by completing course work in one or more agriculture, food or natural resource disciplines.

Students transferring into agricultural education from other MU degree programs or from other institutions must have at least a 2.3 GPA for all course work attempted.

Major Core Requirements

See university general education and graduation requirements as well as the College of Agriculture, Food and Natural Resources listings. The

requirements specific to agricultural education are also available at <http://aged.missouri.edu>.

Emphasis Areas

Students majoring in the agricultural education select the Teacher Certification emphasis or Leadership emphasis.

Graduate

- MS in Agricultural Education (p. 46)
- PhD in Agricultural Education (p. 47)

Department of Agricultural Education and Leadership

aged@missouri.edu (%20aged@missouri.edu)
<http://dass.missouri.edu/aged/grad/>

The agricultural education programs are designed for students with interests in agricultural education and leadership development. Coursework includes program and professional development, evaluation, teaching and learning theories and practices, social sciences research methods, organization and administration, leadership and communication.

Undergraduate

BS in Agricultural Education

Major Program Requirements

Students must complete the University of Missouri's general education (p. 18) requirements in addition to the Major Program Requirements below to earn the Bachelor of Science degree. Approximately one-third of the course work for the degree is completed in agricultural education or professionally related courses. In addition, the curriculum includes courses in agriculture, food and natural resource disciplines including agricultural economics, agricultural systems management, animal science, food science, horticulture, plant science and natural resources.

Students majoring in agricultural education select the Teacher Certification emphasis or Leadership emphasis. Please see the individual emphasis areas for degree requirements.

BS in Agricultural Education with Emphasis in Leadership

Major Program Requirements

Students must complete the University of Missouri's general education requirements (p. 18) in addition to the Major Program Requirements below to earn the degree.

Leadership Emphasis

The leadership emphasis focuses on developing students' leadership, communication and human relation skills. Students are encouraged to develop a diverse background by completing course work in a variety of disciplines in the College of Agriculture, Food and Natural Resources. Students also have the opportunity to specialize and earn minors in disciplines of interest. The capstone experience involves a supervised internship with an agricultural business, public or private agency, or commodity organization in the area of education, training, communication and/or development.

Semester Plan

Refer to the Semester Plan for the BS in Agricultural Education (p. 43).

BS in Agricultural Education with Emphasis in Teacher Certification

Major Program Requirements

Students must complete the University of Missouri's general education requirements (p. 18) in addition to the Major Program Requirements below to earn the degree.

Teacher Certification Emphasis

The Teacher Certification emphasis prepares students to meet state teacher licensure requirements to teach agriculture in Missouri public schools at the secondary and adult levels. In addition to courses in agricultural education, the curriculum includes a diverse selection of courses in agriculture, food and natural resources and professional teacher certification courses offered through the College of Education. The capstone experience involves a semester-long teaching internship in a selected secondary agriculture program.

Emphasis core requirements		29
AG_ED_LD 1000	Orientation to Agricultural Education and Leadership	1
AG_ED_LD 2270	Leadership Development in Youth Organizations	3
AG_ED_LD 2271	Early Field Experience	1
AG_ED_LD 4310	Intracurricular Program Management in Agricultural Education	3
AG_ED_LD 4320	Methods of Teaching I	3
AG_ED_LD 4321	Integrated Field Experience II	1
AG_ED_LD 4330	Methods of Teaching II	3
AG_ED_LD 4331	Field Experience II	1
AG_ED_LD 4087	Internship Seminar in Agricultural Education and Leadership	3
AG_ED_LD 4995	Student Teaching Internship in Agriculture	1-12
College of Education		13
ESC_PS 2010	Inquiry Into Learning I	3
ESC_PS 2014	Inquiry into Learning I - Field Experience	1
LTC 2040	Inquiring into Schools, Community and Society I	3
LTC 2044	Inquiry into Schools, Community and Society: Field	1
SPC_ED 4020	Inquiry into Learning II	3
LTC 4560	Reading and Writing in the Content Areas	3
Agricultural economics		3
AG_EC 2183	The Agricultural Marketing System	3
or AG_EC 3224	New Products Marketing	
or AG_EC 2223	Agricultural Sales	
Animal Science		9
AN_SCI 2165	Introduction to Ruminant Livestock Production	3
AN_SCI 2175	Introduction to Monogastric Production	3
AN_SCI 2114	Live Animal and Meat Evaluation	3

Total Credits: 121

Minor in Agricultural Education

The Agricultural Education minor focuses on learning, teaching and the dissemination of information about agriculture, food and natural resource topics. The minor requires 15 credits of agricultural education course work with a minimum of 6 credits at the 3000 level or above.

Graduate

MS in Agricultural Education

Degree Requirements

The program consists of a minimum of 32 credits of graduate coursework beyond the bachelor's degree for the non-thesis/creative component option, and 30 credits for the thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 46).

Core course required for all students (regardless of option):

AG_ED_LD 8330	Advanced Methods of Teaching	3
AG_ED_LD 8250	Leadership Theory and Application	3
or AG_ED_LD 8340	Student and Teacher Development in Agricultural Education and Leadership	
AG_ED_LD 8410	Philosophical Foundations of Agricultural Education and Leadership	3
AG_ED_LD 8510	Research Methods and Design	3

Additional course requirements for Creative Component Option

Select one of the following: *		3
AG_ED_LD 8430	Evaluation of Educational Programs	3
AG_ED_LD 8540	Methods of Qualitative Research	3
ESC_PS 7170	Introduction to Applied Statistics	
AG_ED_LD 8080	Creative Component in Agricultural Education and Leadership	2-3
Specialization and/or Electives **		14-15
AG_ED_LD 7340	Designing and Delivering Nonformal Educational Programs	4
AG_ED_LD 7350	Inservice Course in Agricultural Education and Leadership	var.
AG_ED_LD 8351	Induction Year Teaching I	1-2
AG_ED_LD 8352	Induction Year Teaching II	1-2
AG_ED_LD 8087	Seminar in Agricultural Education and Leadership	var.
AG_ED_LD 8250	Leadership Theory and Application	3
AG_ED_LD 8340	Student and Teacher Development in Agricultural Education and Leadership	3
AG_ED_LD 8350	College Teaching of Agriculture, Food and Natural Resources	3

* or equivalent, in consultation with your advisor/committee

** Additional courses selected by the student and approved by her/his graduate committee may be selected to meet the goals of the student.

Additional course requirements for Creative Component with Teacher Certification Option

Consult with faculty on layering Teacher Certification requirements with the Creative Component option.

Additional course requirements for Thesis Option

AG_ED_LD 8090	Thesis Research in Agricultural Education and Leadership	4-6
ESC_PS 7170	Introduction to Applied Statistics	3
or AG_ED_LD 8540	Methods of Qualitative Research	
Specialization and/or Electives - select 9-11 credits from the following		9-11

AG_ED_LD 7340	Designing and Delivering Nonformal Educational Programs	4
AG_ED_LD 7350	Inservice Course in Agricultural Education and Leadership	var.
AG_ED_LD 8351	Induction Year Teaching I	1-2
AG_ED_LD 8352	Induction Year Teaching II	1-2
AG_ED_LD 8087	Seminar in Agricultural Education and Leadership	var.
AG_ED_LD 8250	Leadership Theory and Application	3
AG_ED_LD 8340	Student and Teacher Development in Agricultural Education and Leadership	3
AG_ED_LD 8350	College Teaching of Agriculture, Food and Natural Resources	3
AG_ED_LD 8430	Evaluation of Educational Programs	3

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

The program offers students three options:

1. Creative Component Option

This option is oriented toward improving a practitioner's professional proficiency in teaching, curriculum development, program planning and evaluations. The program of study should include courses and learning experiences that will develop the student's knowledge and skills in the processes of learning and teaching. The Creative Component option requires a minimum of 32 hours of graduate credit (to include a minimum of 29 hours of formal graduate courses, plus a maximum of 3 hours of 8080 Creative Component) with a minimum of 16 credit hours at the 8000 level. Candidates must also complete an approved creative component project.

2. Creative Component with Teacher Certification Option

This option is designed for individuals who have earned a B.S. degree in an agricultural discipline and desire the initial teacher certification to teach agriculture at the secondary level. Included in the course work for this option are some of the classes needed for certification to teach secondary high school agriculture in Missouri.

3. Thesis Option

This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will maximize a student's progress in developing skills that will enable the student to continue his/her education in a research-oriented area. The Thesis option requires a minimum of 30 hours of graduate credit (to include a minimum of 24 hours of formal graduate courses, plus a maximum of six hours of 8090 Research) with a minimum of 15 credit hours at the 8000 level. Candidates must also complete an approved thesis based on original research.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Agricultural Education program (<http://gradschool.missouri.edu/academics/programs/agricultural-education/masters.php>) and the minimum requirements of the Graduate

School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

PhD in Agricultural Education

Degree Requirements

A total of 72 credit hours beyond the baccalaureate degree must be completed. The student's doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond the minimum.

Within the 72 credit hour requirement, students should complete 12 credit hours of course work that focuses on developing an area of expertise. The student's doctoral program committee will approve the area and content of the concentration. Concentrations may include, but are not limited to, Teacher Education, Extension Education, and Communication/Journalism.

AG_ED_LD 8410	Philosophical Foundations of Agricultural Education and Leadership	3
AG_ED_LD 8330 & AG_ED_LD 8350	Advanced Methods of Teaching and College Teaching of Agriculture, Food and Natural Resources	6
or AG_ED_LD 9410	Foundations and Practices of Teacher Education	
AG_ED_LD 8430	Evaluation of Educational Programs	3
AG_ED_LD 8250	Leadership Theory and Application	3
	Theory Course (in consultation with doctoral committee)	3
ESC_PS 7170	Introduction to Applied Statistics	3
or SOCIOL 7120	Social Statistics	
AG_ED_LD 8510	Research Methods and Design	3
AG_ED_LD 9510	Data Collection, Analysis and Interpretation	3
AG_ED_LD 8540	Methods of Qualitative Research	3
	Advanced Studies in Methods/Analysis - examples include but not limited to:	6
ESC_PS 8830	Quantitative Analysis in Educational Research I	
ESC_PS 8840	Quantitative Analysis in Educational Research II	
or SOCIOL 9837	Seminar in Multivariate Analysis Techniques	
ESC_PS 9620	Qualitative Methods in Educational Research II	
or SOCIOL 9287	Seminar in Qualitative Methods in Sociology	
	Electives (including minimum of 12 credit hours for Concentrations) *	27
AG_ED_LD 9090	Doctoral Research in Agricultural Education and Leadership	9

* Electives - should be selected in consultation of the student's advisor and must be approved by the student's committee, and should total 27 credit or more.

Concentrations - should total at least 12 credits and are counted as part of the electives, should focus on developing an area of expertise such as Teacher Education, Adult Education, Journalism, Educational Leadership, etc.

Qualifying Process

Details regarding the Qualifying Process can be found in the program's Graduate Handbook (<http://dass.missouri.edu/aged/grad/grad-handbook.pdf>).

Comprehensive Examination Process

Candidacy for a doctoral degree is established by passing the comprehensive examination. The comprehensive examination includes written and oral sections and is completed as the candidate is completing the prescribed coursework. Details regarding the examination process can be found in the program's Graduate Handbook (<http://dass.missouri.edu/aged/grad/grad-handbook.pdf>).

Dissertation Requirements

After passing the comprehensive examination, the program for the doctoral degree must be completed within five years. Upon completions of the dissertation research project, the candidate defends the dissertation before his/her doctoral research committee. Details regarding the dissertation process can be found in the program's Graduate Handbook (<http://dass.missouri.edu/aged/grad/grad-handbook.pdf>).

During the time when a student is working on the dissertation, candidacy is maintained by enrolling in AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership for two credit hours each fall and spring semester, and for one credit hour each summer semester, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor's support, doctoral program committee guidance, and University research facilities for completion of the dissertation. Failure to continuously enroll in AG_ED_LD 9090 until the doctoral degree is awarded terminates candidacy.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Agricultural Education program (<http://gradschool.missouri.edu/academics/programs/agricultural-education/doctorate.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Agricultural Systems Management

Leon G. Schumacher, Chair
 College of Agriculture, Food and Natural Resources
 Division of Food Systems and Bioengineering
 207 Agricultural Engineering Building
 (573) 882-2731
 ASM@missouri.edu

Agricultural systems management integrates physical systems with agricultural science and management skills to provide graduates with abilities to function in sales, service and maintenance management positions in agribusiness industries. The uniqueness of agricultural systems management graduates lies in their knowledge of the principles of physical systems that are the backbone of modern agricultural and food industries. The department offers the Bachelor of Science with a major in Agricultural Systems Management. A minor is also available.

Faculty

Professor D. Brune*, W. Downs, L. Schumacher*
Associate Professor D. Baker*, S. Borgelt*, K. Sudduth**, A. Thompson**
Assistant Professor B. Broz, B. Koc**, T. Lim*, J. Zulovich*
Research Associate K. Funkenbusch
Extension Associate D. Downing
Professor Emeritus D. Currence, J. Frisby, B. Hires, J. Hoehne, D. Pfost

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agricultural Systems Management (p. 48)
- Minor in Agricultural Systems Management (p. 49)

Graduate

While MU does not offer graduate degrees in ASM, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options.

Undergraduate

BS in Agricultural Systems Management

Major Program Requirements

Students must complete the general education requirements (p. 18) in addition to the Major Program requirements below.

Major core requirements	44
Required courses	9

AG_S_M 1020	Introduction to Agricultural Systems Management	3
AG_S_M 1040	Physical Principles for Agricultural Applications	3
AG_S_M 4970	Agricultural Systems Management - Capstone	3
At least three courses from the following		9
AG_S_M 2220	Agricultural/Industrial Structures	
AG_S_M 2360	Fluid Power	
AG_S_M 4020	Agricultural Safety and Health	
AG_S_M 4220	Material Handling and Conditioning	
AG_S_M 4140	Electricity: Wiring and Equipment	
AG_S_M 4320	Agricultural Equipment and Machinery	
At least one course from the following		3
AG_S_M 4420	Surface Water Management	
AG_S_M 4460	Irrigation and Drainage	
Select from the following to accumulate a minimum of 31 hours		31
AG_S_M 2320	Internal Combustion Power	
AG_S_M 2340	Pesticide Application Equipment	
AG_S_M 2345	Chemical Application Systems	
AG_S_M 3350	Problems in Agricultural Systems Management (up to 6)	
AG_S_M 4150	Biorenewable Systems Technology	
AG_S_M 4225	Preservation of Grain Quality	
AG_S_M 4360	Precision Agriculture Science and Technology	
AG_S_M 1002	Topics in Agricultural Systems Management-Biological/Physical/Math	
AG_S_M 1120	Agricultural/Industrial Materials and Processes	
AG_S_M 4120	Advanced Agricultural/Industrial Materials and Processes	
AG_S_M 4350	Problems in Agricultural Systems Management	
AG_S_M 4940	Agricultural Systems Management Internship	
Supporting courses		
PLNT_S 2100 or SOIL 2100 or PLNT_S 2110 or AN_SCI 1065	Introduction to Soils Introduction to Soils Plants and their Cultivation Animal Science Laboratory Practicum	3
AFNR 1120 or AFNR 2120	Computing and Information Technology Working with Data Using Excel	1-2
Business/economics (suggested courses)		
Select 5 of the following:		15
ACCTCY 2036	Accounting I	
MANGMT 3000	Principles of Management	
AG_EC 2183	The Agricultural Marketing System	
AG_EC 3282 or FINANC 1000	Agribusiness Finance Principles of Finance	
AG_EC 3256 or AG_EC 3257	Agribusiness and Biotechnology Law Rural and Agricultural Law	
AG_EC 3260	General Farm Management	
Electives		27

In consultation with their advisor, students may select elective courses to bring their total credit hours to the 120 hour minimum. Typically electives are chosen to provide emphasis in one of the following areas:

- Natural resource and environment
- Materials handling and crop processing
- Power and machinery systems
- Production agriculture

Agricultural Equipment Dealership Management Program

Students who participate in the Agriculture Equipment Dealership Management program take a comprehensive sequence of courses in agricultural systems management and agricultural business management. Each student plans and completes an internship with a sponsoring dealer. Up to 6 credits may be earned through an Internship.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year

Total Credits: 117

Minor in Agricultural Systems Management

15 hours of Agricultural Systems Management coursework. Of the 15 hours, 9 hours must be 3000 level or above.

Agriculture

Bryan Garton, Associate Dean, Academic Programs
 Shari Freyeremuth, Assistant Dean, Academic Programs
 Mary Hendrickson, Coordinator Sustainable Agriculture Program

Faculty

See Listing for Faculty in areas of concentration by referring to the degree listings available under the College of Agriculture, Food and Natural Resources.

Undergraduate

- BS in Agriculture (p. 50)
 - with optional emphasis in Sustainable Agriculture (p. 51)

Dickinson Student Achievement Center
 2-64 Agriculture Building
 (573) 882-8301
 www.cafnr.missouri.edu

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture.

Students choose agriculture for a variety of reasons. Some may enter the program with a specific career goal in mind. Others may choose agriculture to obtain a broader education that will give them more flexibility.

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in Agriculture, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 5) for all Schools and Colleges that make up the University of Missouri.

Undergraduate

BS in Agriculture

Major Program Requirements

To complete the requirements for the Agriculture degree, students must complete the general requirements for the College of Agriculture, Food and Natural Resources, as well as all University graduation requirements, including University general education requirements (p. 18). These requirements include courses in communications, natural science and math, social science and humanities and business and economics. (See the general requirements for all BS degrees in College of Agriculture, Food and Natural Resources.)

- Students in agriculture also must complete three areas of concentration from CAFNR programs that offer a major or a minor. The primary concentration area requires completion of 18 or more credits. Two additional concentration areas of at least 15 credits each are also required. (See below.)
- These courses shall not be used to fulfill the requirements of a minor.

- Within each concentration area, at least six credits must be at the 3000-level or above.
- Within each concentration area, at least 50 percent of the credits must be earned on the MU campus.
- Credits used to meet the University general education requirements can be used to meet requirements in concentration areas.
- No more than six credits in the primary area and three credits in the secondary areas may consist of problems, readings, internships, travel courses and other non-structured courses.
- The capstone experience for agriculture majors can be a capstone course in a concentration area, an internship or capstone project. This capstone is in addition to credits in the concentration areas.
- Overall, a minimum of 42 credits must be taken in the College of Agriculture, Food and Natural Resources out of the total of 120 credits needed to satisfy degree requirements. A minimum of 24 credits in 2000-level or above; and an additional 24 credits in 3000-level or above courses are required.

Areas of Concentration

In addition to the University's general education requirements and the graduation requirements of the College of Agriculture, Food and Natural Resources, students must complete at least 18 credits in one of the following areas, and at least 15 credits in two additional areas. These include:

- Agricultural Economics
- Agricultural Education
- Agricultural Leadership
- Agricultural Systems Management
- Animal Sciences
- Fisheries and Wildlife Sciences
- Food Science and Nutrition
- Forestry
- Hospitality Management
- Natural Resources
- Parks, Recreation and Tourism
- Plant Sciences
- Rural Sociology
- Science and Agricultural Journalism
- Soil, Environmental, and Atmospheric Sciences

BS in Agriculture with Emphasis in Sustainable Agriculture

Major Program Requirements

CAFNR offers an emphasis area in Sustainable Agriculture as part of its Agriculture degree program. A minimum of 48 credits is required for the emphasis area (major) degree.

Primary Concentration		18
AFNR 2215	Introduction to the Theory and Practice of Sustainable Agriculture	3
AFNR 3215	Community Food Systems	3
AFNR 3315	Advanced Practices in Sustainable Agriculture	3
SOIL 2100	Introduction to Soils (Concurrent enrollment in SOIL 2106 recommended)	3
Choose two courses from the following		
AN_SCI 2111	Sophomore Seminar: Societal Issues Facing Animal Agriculture	3
PLNT_S 2110	Plants and their Cultivation	3
RU_SOC 1120	Population and the Environment	3
NAT_R 1060	Ecology and Conservation of Living Resources	3
NAT_R 1070	Ecology and Renewable Resource Management	3
Secondary Concentration		15
AG_EC 2070	Environmental Economics and Policy	3
AG_EC 2183	The Agricultural Marketing System	3
AG_EC 3241	Ethical Issues in Agriculture	3
Choose one course from the following		
AG_EC 3260	General Farm Management	3
AG_EC 3224	New Products Marketing	3
Choose one course from the following		

RU_SOC 2225	Science, Technology and Society	3
BIOCHM 2112	Biotechnology in Society	3
SCI_AG_J 4414	Field Reporting on the Food System and Environment	3
Secondary Concentration		15
Choose Community Food Systems OR Production Systems		
Community Food Systems (15 hrs total)		
AG_EC 2223	Agricultural Sales	3
AG_EC 3271	International Agricultural Development	3
AG_EC 3283	Fundamentals of Entrepreneurship	3
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
AG_ED_LD 2250	Introduction to Leadership	3
AG_ED_LD 2260	Team and Organizational Leadership	3

Total Credits		207

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Animal Sciences

Division of Animal Sciences
College of Agriculture, Food and Natural Resources
S108 Animal Sciences Center
(573) 882-8336
Fax: (573) 882-6827
<http://animalsciences.missouri.edu>

Division Director: Thomas B. McFadden

Animal sciences is a broad field centered on the study of agriculturally important animals and their products. Graduates in animal sciences have employment opportunities in many areas including agribusiness (feed, pharmaceutical and meat industries; dairy and poultry products; public relations and research), production and management (farming/ranching; managers of livestock and poultry operations; zookeepers; consultants and technical service representatives), governmental agencies (USDA and MDA) and educational institutions (extension, teaching and research).

Students seeking admission into graduate and professional schools usually take more courses in the sciences than students in production and management, who select more business-related courses. Students and their faculty advisors select those courses that fit the students' needs, interests and objectives. The most specialization occurs at the graduate level.

The department offers BS, MS and PhD degrees with majors in Animal Sciences. A minor is also available.

Faculty

Curators Professor R. S. Prather**, R. M. Roberts**, J. F. Taylor**
Professor J. D. Firman**, K. Fritsche**, R. D. Geisert**, D. H. Keisler**, M. S. Kerley**, W. R. Lamberson**, D. R. Ledoux**, C. Lorenzen**, M. C. Lucy**, T. McFadden**, D. J. Patterson**, M. C. Shannon**, M. F. Smith**, J. N. Spain*, D. E. Spiers**, P. Sutovsky**, K. Sharpe Timms**
Associate Professor C. Elsik**, J. A. Green**, T. J. Safranski**, K. Wells**, B. Wiegand**
Assistant Professor G. Conant**, J. Decker**, A. Meyer*, R. Rivera**, J. Sexten*

Assistant Teaching Professor T. Strauch*

Associate Research Professor T. Ezashi*, R. Schnabel*

Assistant Research Professor A. Alexenko, D. Hagen, J. Kim, E. Walters*

Adjunct Professor D. Lubahn*

Assistant Adjunct Professor W. Pittroff, C. Tubbs, L. Schulz*, W. Tumen*, A. Wurst

Instructor M. Crosby, S. Hamilton, D. J. Kemp

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Animal Sciences (p. 53)
- Minor in Animal Sciences (p. 54)

Departmental Honors Program

In addition to the guidelines for the honors program in the College of Agriculture, Food and Natural Resources, students must meet the following requirements for the honors program in animal sciences. A student must be a junior or senior to participate in the honors program.

- Successful completion of either an internship or undergraduate research or a combination of both for 6 credits in animal sciences honors
- Program approval by a three-member departmental honors committee
- Submission of a written report plus an oral or poster presentation

Ag Scholars Program

This program provides early assurance of admission to the MU College of Veterinary Medicine for selected animal science majors on the University of Missouri campus.

High School seniors and MU freshman with an ACT composite score of 27 or more or an equivalent SAT score are eligible for the Ag Scholars Program.

Students must have demonstrated experience or interest in livestock production and health. Examples of appropriate experience may include participation in a livestock enterprise as either a family member or an employee; enrollment in at least two years of high school agricultural coursework; and participation in FFA, 4H or equivalent organizations with projects directly related to livestock production or health. Students who do not meet the standards of demonstrated experience or interest will be admitted if they agree to complete an internship in the summer between their freshman and sophomore years. This internship must entail at least 250 hours of supervised experience in livestock production or a livestock health enterprise.

For additional information, contact:

Preveterinary Medical Scholars and Ag Scholars Programs
W-203 Veterinary Medicine Bldg.
College of Veterinary Medicine
University of Missouri
Columbia, Missouri 65211
(573) 884-3341

Agreement with the College of Veterinary Medicine

The Division of Animal Sciences and the College of Veterinary Medicine have an articulation agreement which enables MU Animal Science majors who are admitted to the College of Veterinary Medicine before completing their B.S. degree to earn a B.S. degree in Animal Sciences during their days as a professional veterinary medicine student. In order to earn a B.S. degree in Animal Sciences the following requirements must be met:

- The student will successfully meet all General Education (p. 18) requirements established by the University of Missouri campus.
- The student will meet any additional college or divisional requirements.
- The student will be required to complete all MU Animal Sciences requirements except for 9 hours of Animal Science Senior electives.
- The student will also be able to substitute up to 20 hours completed in the College of Veterinary Medicine in lieu of general electives in order to complete the total number of student credit hours necessary for a B.S. degree in Animal Sciences.

- The B.S. degree in Animal Science will be granted after successful completion of the first year of Veterinary Medicine.

Director of Graduate Studies: Rocio Rivera

- MS in Animal Sciences (p. 54)
- PhD in Animal Sciences (p. 55)

About Animal Sciences Graduate Programs

The Division of Animal Sciences has a broad-based teaching program, and our faculty members are noted for teaching and mentoring excellence. Our PhD program was recently ranked among the best in the country by the National Research Council and our research program among the best in the world by Reuters. Our graduate program has maintained or increased numbers, support, and placement rates over the past five years. The Division strives to maintain a diverse faculty qualified to teach relevant courses in five discipline areas (reproductive and environmental physiology, ruminant and monogastric nutrition, genetics/genomics, meat science and livestock production) and across six species (swine, dairy cattle, beef cattle, poultry, companion animals and horses) to serve the demand for graduates to be employed nationwide in research, teaching and industry.

Undergraduate

BS in Animal Sciences

Major Program Requirements

Students must complete the University and college requirements in addition to the major program requirements listed below:

Division Course Requirements

AN_SCI 1011	Animal Science	3
AN_SCI 1065	Animal Science Laboratory Practicum	2
AN_SCI 2111	Sophomore Seminar: Societal Issues Facing Animal Agriculture	3
AN_SCI 2165	Introduction to Ruminant Livestock Production	3
AN_SCI 2175	Introduction to Monogastric Production	3
AN_SCI 3254	Physiology of Domestic Animals	3
AN_SCI 3255	Physiology of Domestic Animals Laboratory	2
AN_SCI 3212	Principles of Animal Nutrition	3
AN_SCI 3232	Animal Feeds and Feeding	3
AN_SCI 3213	Genetics of Agricultural Plants and Animals	3
AN_SCI 4323	Applied Livestock Genetics	2
or AN_SCI 4324	Genomics of Plants and Animals	2
Select two Animal Science Production System courses from the following:		6
AN_SCI 4975	Beef Production and Management	
AN_SCI 4976	Dairy Production	

AN_SCI 4977	Horse Production	
AN_SCI 4978	Swine Production	
AN_SCI 4979	Poultry Production	
Select one Animal Science Products course from the following:		3
AN_SCI 2114	Live Animal and Meat Evaluation	
AN_SCI 3214	Principles of Meat Science	
AN_SCI 3231	Principles of Dairy Foods Science	
AN_SCI 4344	Processing Muscle Foods	
AN_SCI 4354	Physiology and Biochemistry of Muscle as Food	
Select Four Animal Science Senior Electives from the following:		12
AN_SCI 4312	Monogastric Nutrition	
AN_SCI 4314	Physiology of Reproduction	
AN_SCI 4332	Ruminant Nutrition	
AN_SCI 4384	Reproductive Management	
AN_SCI 4387	Equine Breeding Management	
AN_SCI 4437	Environmental Physiology	
Additional Products course		
Additional Production Systems Course		
AN_SCI 4940	Internship in Animal Science & Technology (maximum of 3 credits)	
AFNR 2190	International Agriculture and Natural Resources (maximum of 3 credits)	
Approved undergraduate research (junior or senior status; maximum of 3 credits)		
Electives		27
Total Credits		78

Curriculum Options

(Note: Options are not listed on transcripts or diplomas.)

In addition to the general Animal Sciences curriculum, the Division of Animal Science offers four specialized curriculum options which include: Animal Products, Biotechnology, Prevet and Production/Business. These options differ slightly in general education requirements and different substantially in departmental requirements. These specific curriculum requirements are available on the division's website (<http://animalsciences.missouri.edu>).

Animal Products Option

This option works very well for the student who wishes to obtain a minor in Food Science.

BioTechnology Option

This option applies biological and engineering techniques to the production of animals and animal products. This option should be of interest to students with a sincere interest in research.

Prevet Option

This option includes all of the courses required for admission to the College of Veterinary Medicine.

Production/Business Option

Students interested in returning to the farm or possibly managing a farm or pursuing a career in agribusiness will find this option of interest.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
AN_SCI 1011	3 BIO_SC 1500 or F_W 1100	5
AN_SCI 1065	2 AG_EC 1042	3
AG_EC 1041	3 ENGLSH 1000	3
MATH 1100	3 CHEM 1320	4
HIST 1100	3	
	14	15
Second Year		
Fall	CR Spring	CR
AN_SCI 2165	3 AN_SCI 2111	3
AN_SCI 2114	3 AN_SCI 2175	3
STAT 1400	3 AN_SCI 3255	2
AN_SCI 3254	3 PHYSCS 1220	4
PHYSICS 1210	4 Communications Elective	3
	16	15
Third Year		
Fall	CR Spring	CR
AN_SCI 3212	3 AN_SCI 3232	3
AN_SCI 3214	3 AN_SCI 3213	3
CHEM 2100 or 2030	3 AN_SCI 4323	2
COMMUN 1200	3 BIOCHM 3630	3
Humanities Course	3 AN_SCI 4314	3
	15	14
Fourth Year		
Fall	CR Spring	CR
AN_SCI 4978	3 AN_SCI 4975	3
AN_SCI 4976	3 AN_SCI 4354	3
AN_SCI 4384	3 AN_SCI 4977	3
AN_SCI 4312	3 Elective Course	3
Elective Course	4 Humanities Course	3
	16	15

Total Credits: 120

Minor in Animal Sciences

To earn a minor in animal sciences, a student must meet the following requirements.

- A minimum of 15 hours of course credit in Animal Sciences
- A minimum of 9 hours of course work in Animal Sciences courses numbered 3000 or above.
- Students may select any combination of animal sciences courses excluding problems and internships to meet the above requirements; however, all students will be expected to meet prerequisites of animal sciences courses.
- Up to six transfer credits can be applied toward the minor; however, these transfer credits can only apply toward the lower level courses. Hence, a student must complete nine credit hours of Animal Science credits at MU that are 3000 level or higher.

Graduate

MS in Animal Sciences

Admission Contact Information

<http://animalsciences.missouri.edu/academics/graduates.php>

Admission Criteria

Fall deadline: Rolling

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative
Prior to August 1, 2011	400	550
On or After August 1, 2011	146	146

Minimum GPA: 3.0 Cumulative GPA

Approval of advisor

Bachelor's degree

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Animal Sciences Program:

- Statement of career objectives
- 3 reference letters
- Résumé
- Official GRE score report

Graduation Requirements

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program. Specific requirements for students working toward a graduate degree in the Division of Animal Sciences are as follows:

Thesis Option Requirements

30 hours of graduate credit with minimum of 24 hours course work, a minimum of 6 hours of 8090 research, and 2 hours of seminars. A minimum of 15 hours must be 8000 level.

Approved Thesis

Non-Thesis Option Requirements

36 hours of graduate credit and must include at least 3 hours of 8450 research.

Non-Thesis M.S. program does not serve in preparing a student for candidacy for a Ph.D. program.

PhD in Animal Sciences

Admission Contact Information

Prior to August 1, 2011	400	500
On or After August 1, 2011	146	146

Approval of advisor

MS degree (with thesis) preferred

3.0 GPA

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Animal Sciences Program:

- Official GRE score report
- Statement of career objectives
- 3 reference letters
- Résumé

Graduation Requirements

The number of credit hours in formal course work and in research varies with the student's background, training interests and the nature of the research. Four credit hours of seminar and a course in research ethics are required for the doctoral degree. A dissertation based on original research is required of each candidate. Completion of requirements for a doctoral degree is generally expected within three years (five years without prior MS) after admission to the PhD program.

Biochemistry

Gerald Hazelbauer, Chair
College of Agriculture, Food and Natural Resources
117 Schweitzer Hall
Phone: (573) 882-4845
Fax: (573) 882-5635

A course of study in the Department of Biochemistry emphasizes the application of chemical principles to biological systems and leads to the Bachelor of Science in Biochemistry. The program requires rigorous course work in the basic sciences, culminating with a two course capstone experience of discipline specific problems and laboratory techniques. Students are encouraged to gain research experience through independent projects in faculty labs. The biochemistry degree prepares students for further study in graduate or professional school or for a career in biochemistry, biotechnology or the biological, chemical or medical sciences.

<http://www.biochem.missouri.edu/>

Director of Graduate Studies: Thomas Quinn

- MS in Biochemistry (p. 58)
- PhD in Biochemistry (p. 58)

Biochemistry at the University of Missouri is a division of the College of Agriculture, Food and Natural Resources and a department of the School of Medicine. As a nationally ranked top 10 biochemistry department

among public medical schools, we offer outstanding training that help students achieve their goals. We have 39 core faculty members and approximately 10 additional members, all of whom are available to mentor students in biochemistry. Nearly all facets of contemporary biochemical research are represented in their collective research interests. Our highly interactive program is an integral part of a campus-wide network of research programs including life sciences, genetics, nutrition, plant biochemistry and structural biology.

Interdisciplinary Area Programs

- PhD in the nutrition area program
- PhD in the genetics area program
- Minors in Business, College Teaching, and International Relations

The graduate programs of the Department of Biochemistry prepare students for professional careers in academic institutions, industry and government. The Department of Biochemistry is administered by the College of Agriculture, Food and Natural Resources and the School of Medicine. It provides a great range of opportunities for multidisciplinary study in plant, animal and microbial biochemistry, molecular biology, structural biology, and chemical biology.

Faculty Research

Virtually every important area of biochemistry and molecular biology is represented among the research interests of the faculty. These interests focus on plant biochemistry, hormonal control of plant and animal-cell metabolism, growth-factor structure and function, enzyme reaction mechanisms, biochemistry of development, biochemistry of human disease, lipid and carbohydrate metabolism, molecular biology, analytical biochemistry, proteomics, systems biochemistry, and structural biochemistry.

Facilities

The department has modern, well-equipped laboratories in the Life Sciences Center, Schweitzer Hall, Schlundt Annex, and Stephens Hall. Additional faculty are housed in the Animal Sciences Research Center, Chemistry Building, Dalton Cardiovascular Research Center, Mason Eye Institute, and the Truman Veterans Hospital.

Plans of Study

All students participate in individually planned research programs and have a supervised teaching experience along with course work. Students are expected to complete a program of courses in biochemistry and selected courses in modern biology and chemistry.

Careers

Biochemistry at the University of Missouri provides world-class training that can open the door to a wide variety of career opportunities in the life sciences. Our graduates have career opportunities available in academia, industry, agriculture or medicine.

Required Application Materials

All pre-requisites and application materials must be submitted by the annual deadline.

MD/PhD in Biochemistry Dual Degree Program

Students already accepted into the School of Medicine at MU may apply to the Department for acceptance into the MD/PhD program. Students matriculating in the MD/PhD degree program must complete degree requirements of both the School of Medicine and the Graduate School. For information and for application forms, email gradprogram@missouri.edu or write the Director of Graduate Admissions in Biochemistry, 117 Schweitzer Hall, Columbia, MO 65211, or visit the website <http://www.biochem.missouri.edu>.

Undergraduate

BS in Biochemistry

Major Program Requirements

Students must complete the university general education (p. 18) and graduation requirements, in addition to the major program requirements listed below:

Major core requirements

Biochemistry		20
BIOCHM 1090	Introduction to Biochemistry (Fall semester only)	3
BIOCHM 1094	Introductory Biochemistry Laboratory (Spring semester only)	2
BIOCHM 2480	Introduction to Macromolecular Structure and Function (Spring semester only)	2
BIOCHM 2484	Macromolecular Techniques Laboratory (Fall semester only)	2
BIOCHM 4270	Biochemistry (I: First semester of two semester sequence)	3
BIOCHM 4272	Biochemistry (II: Continuation of Biochem 4270)	3
BIOCHM 4300	Physical Chemistry of Biological Systems (Fall semester only)	3
BIOCHM 4974	Biochemistry Laboratory (Writing intensive)	5
BIOCHM 4970	Senior Seminar in Biochemistry (Capstone)	1
Biology		9
BIO_SC 1500	Introduction to Biological Systems with Laboratory	5
BIO_SC 2200	General Genetics	4
or AN_SCI 3213	Genetics of Agricultural Plants and Animals	
or PLNT_S 3213	Genetics of Agricultural Plants and Animals	
Chemistry		20
CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I (Concurrent with Chem 2110)	2
Mathematics		10
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
Physics		8
PHYSICS 1210	College Physics I	4-5

or PHYSICS 2750	University Physics I	
PHYSICS 1220	College Physics II	4-5
or PHYSICS 2760	University Physics II	

Advanced science *

* Science courses numbered 2000 or above that are not used to fulfill other major requirements. See list of approved courses here: <http://biochem.missouri.edu/undergrad-program/graduation-requirements-II.php>

Semester Plan

Admission Criteria

Fall deadline: January 5

Minimum GPA: 3.0

Graduate Record Exam (GRE) required

TOEFL required for international students

Undergraduate research required

PhD Prerequisites

The following entrance requirements must be met:

- Mathematics through one year of calculus
- Biological sciences (at least one course)
- 1 year of physics
- 1 year of organic chemistry (with a laboratory)
- Biochemistry (lecture and laboratory)

Strongly Recommended Courses:

- Genetics (at least one course)
- Quantitative analysis
- Physical chemistry course with a calculus prerequisite

These prerequisites should have been met during the undergraduate curriculum. Recommended courses may be taken during the first year of the graduate program. Satisfactory completion of a qualifying exam is expected by the end of the first year and of a comprehensive examination by the end of the second academic year in graduate study.

Required Application Materials

All materials must be sent to the Graduate School

- University of Missouri Graduate School Application ApplyYourself on line application
- Official transcripts from all undergraduate and graduate institutions applicant has attended. Submit online to graduate school.
- Three letters of reference using our reference PDF. Submit online to graduate school.

- 500-word personal statement about your goals and experience. Submit online to graduate school.
- Official GRE scores. Submit using institution code 6875 and department code 0202.
- International applicants: If your first language is not English, please submit your official TOEFL scores using institution code 6875 and department code 34.

Program details can be found in the Graduate Student Handbook (<http://biochem.missouri.edu/docs/current-graduate-handbook.pdf>).

Fisheries and Wildlife

J. R. Jones
 School of Natural Resources
 302 Anheuser-Busch Natural Resources Building
 (573) 882-3543

The fisheries and wildlife sciences degree is based on a common foundation of biological sciences, ecology, conservation, communication, analytical, social science, humanities and professional courses that provide students with a basic liberal education as well as prerequisites for additional professional courses.

Most students take courses that prepare them for entry-level, technical positions in fisheries, wildlife or water quality management with local, state or federal agencies. Such training usually involves taking courses that meet the standards set by The Wildlife Society or the American Fisheries Society to become certified, professional wildlife or fisheries biologists. Other students may complete a program that emphasizes more advanced study and prepares them for careers in resource management, research or administration.

The department offers BSFW, MS and PhD degrees with majors in Fisheries and Wildlife Sciences.

Faculty

Professor J. Faaborg**, M. E. Gompper**, J. R. Jones*, J. J. Millspaugh**, C. H. Nilon**, M. R. Ryan**

Associate Professor R. S. Hayward*, D. B. Noltie*

Cooperative Associate Professor C. P. Paukert**, A. E. Rosenberger, F. R. Thompson III**, E. B. Webb*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSFW in Fisheries and Wildlife (p. 61)

Dual Major Requirements - Fisheries and Wildlife/Forestry

In addition to courses that satisfy General Education requirements, students who plan to complete a Dual Major in Fisheries & Wildlife and Forestry must complete the required F&W, Forestry and elective options to reach 140 credits (this total does not allow any general elective hours).

Major Core Requirements

Science Core		
CHEM 1320	College Chemistry I	4
Physics (select one)		
PHYSICS 1210	College Physics I	

ATM_SC 1050	Introductory Meteorology	
GEOL 1100	Principles of Geology with Laboratory	4
SOIL 2100	Introduction to Soils	3
SOIL 2106	Soil Science Laboratory	2
General Biology		
BIO_SC 1200	General Botany with Laboratory	5
F_W 1100	Introductory Zoology with Laboratory	3-5
or BIO_SC 1500	Introduction to Biological Systems with Laboratory	
Ecology (select one)		
BIO_SC 3650	General Ecology	
FOREST 4320	Forest Ecology *	
Animal Form/Function course (select one)		
MPP 3202	Elements of Physiology	
AN_SCI 3254 & AN_SCI 3255	Physiology of Domestic Animals and Physiology of Domestic Animals Laboratory	
BIO_SC 3700	Animal Physiology	
BIO_SC 2300	Introduction to Cell Biology	
Genetics (select one)		
F_W 2500	Introduction to Genetics and Evolution for Conservation	
BIO_SC 2200	General Genetics	
AN_SCI 3213	Genetics of Agricultural Plants and Animals	
Math Sequence		
MATH 1100	College Algebra	3
MATH 1400	Calculus for Social and Life Sciences I	3
STAT 2530	Statistical Methods in Natural Resources	3
Professional Core		
NAT_R 1070	Ecology and Renewable Resource Management	3
F_W 2100	Colloquium in Fisheries and Wildlife	1
Public Speaking (select one)		
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	
P_R_TR 3231	Principles of Interpretive Outdoor Recreation	
Plant Taxonomy		
FOREST 2151	Dendrology	4
Law/Policy		
NAT_R 4353	Natural Resource Policy/Administration	3
NAT_R 3110	Natural Resource Biometrics	3
Water Quality (select one)		
F_W 3400	Water Quality and Natural Resource Management	
FOREST 4390	Watershed Management and Water Quality	
F_W 3600	Introduction to Conservation Biology	3
FOREST 4330	Practice of Silviculture	3
F_W 4500	Animal Population Dynamics and Management	3
NAT_R 4970	Resource Practicum in Natural Resources	3
Senior Capstone Course: Complete one from Forestry and one from Fisheries and Wildlife from approved list of 4000 level courses in Professional Tracks		
Summer Field Studies		
(must be taken concurrently)		
FOREST 2540	Forest Hydrology Field Studies	1
FOREST 2541	Forest Utilization	1

FOREST 2542	Forest Measurement and Inventory	1
FOREST 2543	Forest Ecology Field Studies	1
FOREST 2544	Introduction to Silviculture and Management	1
FOREST 2545	Forest Management Planning	1

Professional Track Courses

(Minimum of 10 courses AND 32 hours required)

Fisheries and Wildlife Core - 5 courses minimum

A. Science and Natural History (must take at least 1 Terrestrial and 1 Aquatic. Only 1 outside F_W)

F_W 2600	Ornithology	4
F_W 2700	Ichthyology	4
F_W 3660	Mammalogy	4
F_W 4100	Limnology	3-4
BIO_SC 3360	Herpetology	4
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity	5

B. Management - (must take at least 1 Terrestrial and 1 Aquatic)

F_W 2900	Principles of Wildlife Management	4
F_W 3900	Ecology of Fishes	3
F_W 4300	Fisheries Management	3
F_W 4220	Human Dimensions of Fish and Wildlife Conservation	3
F_W 4400	Techniques for Fisheries Management and Conservation	4
F_W 4600	Ecosystem Management	4

C. Specialty Courses (5th course can come from this list or from A or B)

F_W 4220	Human Dimensions of Fish and Wildlife Conservation	3
F_W 4650	Wildlife Management Planning	3
F_W 4700	Wildlife Research and Management Evaluation Methods	4
F_W 3200	Aquaculture	3
F_W 4200	Urban Wildlife Conservation	3
F_W 4880	Waterfowl Ecology and Management	3

International Studies or Study Abroad (approved FW Proposal required)

Forest Core - 15 hours minimum

FOREST 3207	Forest Fire Control and Use	2
FOREST 3212	Forest Health and Protection	4
FOREST 3240	Wood Technology	3
FOREST 3290	Urban Forestry	2
FOREST 4320	Forest Ecology *	5
NAT_R 4325	Introduction to Geographic Information Systems	3
FOREST 4350	Forest Economics *	3
FOREST 4360	Photogrammetry, Inventory and Models	3
FOREST 4375	Forest Stand Dynamics	3
FOREST 4380	Forest Resource Management	3
FOREST 4390	Watershed Management and Water Quality	3

The following courses collectively meet the requirements for the SAF accredited Forest Resource Management curriculum:

FOREST 3207 & FOREST 3212 & FOREST 3240 & FOREST 4320 & FOREST 4340 & FOREST 4350 & FOREST 4360 & FOREST 4380 & FOREST 4390	Forest Fire Control and Use and Forest Health and Protection and Wood Technology and Forest Ecology and Tree Physiology and Forest Economics and Photogrammetry, Inventory and Models and Forest Resource Management and Watershed Management and Water Quality
---	---

* Required as a minimum for Forestry Certification if the accredited curriculum has not been completed.

Graduate

The School of Natural Resources
302 Anheuser-Busch Natural Resources Building
573-882-3436
<http://www.snr.missouri.edu/fw/>

Fisheries and Wildlife Sciences emphasis areas are part of the degree program in Natural Resources. They emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous. The program of study includes communications, quantitative skills, and basic courses in physical and social sciences. Core classes in biology and ecology and specialized courses that feature animal populations and their aquatic and terrestrial environments enhance the learning experience. Areas of study include wildlife ecology, water quality, habitat management, fisheries science, and conservation biology.

Careers

Graduate studies in fisheries, limnology, conservation biology, or wildlife prepare students for careers with state and federal agencies, consulting firms, private conservation organizations, or academic institutions.

Graduate Certificates

Graduate certificates in conservation biology, college teaching, and geographic information systems (GIS) are available to students who elect to take courses beyond those required for the graduate degree.

Facilities & Resources

The Department of Fisheries and Wildlife Sciences is housed in the Anheuser-Busch Natural Resources Building. This building provides space for faculty and graduate student offices in close proximity to well-equipped research and teaching laboratories, classrooms, and computer facilities.

Baskett Wildlife Research and Education Center

The Thomas S. Baskett Wildlife Research and Education Area, formerly known as the Ashland Wildlife Research Area, is a 2,252-acre facility located 5 miles east of Ashland, Missouri, on Highway Y. In use since 1938, it has become an integral part of the School of Natural Resources mission of teaching, research, and extension. The Baskett Area is used as an outdoor laboratory for several classes, including dendrology, ornithology, and wildlife research techniques, and has been the source

of more than 150 research publications. For more information see <http://www.aes.missouri.edu/baskett/index.stm>

The Missouri Cooperative Fish and Wildlife Research Unit

The Missouri Cooperative Fish and Wildlife Research Unit affiliated with the department is operated through a cooperative agreement among the University of Missouri, the Missouri Department of Conservation, and the United States Geological Survey. It is staffed with two Department of the Interior scientists who are members of the university faculty and who offer graduate-level courses and direct graduate student research.

Vertebrate Collections

The School of Natural Resources also maintains an extensive teaching collection of the vertebrate animals of Missouri, surrounding states, and other countries. The bird and mammal collections contain more than 7,000 specimens. The Glen Smart waterfowl collection consists of more than 200 species of mounted waterfowl of the world. The fish collection contains about 25,000 preserved specimens, including freshwater fishes from Missouri and the Midwest and saltwater fishes from the Atlantic, Pacific, and Gulf coasts.

Funding

Fellowships and teaching and research assistantships are available for most applicants selected for admission. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. We require applicants to contact faculty to determine the availability of research assistantships prior to applying to the program.

Undergraduate

BSFW in Fisheries and Wildlife

Major Program Requirements

In addition to courses that satisfy General Education (p. 18) requirements, students earning a BS in Fisheries and Wildlife Sciences must complete required F&W courses and elective options to reach 125 credits. **Students must earn C- or better in all courses applied to degree.**

Major core requirements

Science core:		
CHEM 1320	College Chemistry I	4
Earth Science (select one)		4-5
GEOL 1100	Principles of Geology with Laboratory	
SOIL 2100 & SOIL 2106	Introduction to Soils and Soil Science Laboratory	
Physics (select one)		3-4
PHYSICS 1210	College Physics I	
ATM_SC 1050	Introductory Meteorology	
General Biology		5
BIO_SC 1200	General Botany with Laboratory	5
F_W 1100 or BIO_SC 1500	Introductory Zoology with Laboratory	5
BIO_SC 3650	General Ecology	5

Animal Form/Function course (select one)		4-5
MPP 3202	Elements of Physiology	
AN_SCI 3254 & AN_SCI 3255	Physiology of Domestic Animals and Physiology of Domestic Animals Laboratory	
BIO_SC 2300	Introduction to Cell Biology	
Genetics (select one)		3-4
F_W 2500	Introduction to Genetics and Evolution for Conservation	
BIO_SC 2200	General Genetics	
AN_SCI 3213	Genetics of Agricultural Plants and Animals	
Math Sequence		
MATH 1100	College Algebra	3
MATH 1400	Calculus for Social and Life Sciences I	3
STAT 2530	Statistical Methods in Natural Resources	3
Professional Core		
NAT_R 1070	Ecology and Renewable Resource Management	3
F_W 2100	Colloquium in Fisheries and Wildlife	1
Public Speaking (select one)		3
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
COMMUN 1200	Public Speaking	3
P_R_TR 3231	Principles of Interpretive Outdoor Recreation	
Plant Taxonomy (select one)		4
BIO_SC 3210	Plant Systematics	
FOREST 2151	Dendrology	
NAT_R 4353	Natural Resource Policy/Administration	3
NAT_R 3110	Natural Resource Biometrics	3
F_W 3600	Introduction to Conservation Biology	3
F_W 4500	Animal Population Dynamics and Management	3
Senior Capstone Course - Choose from approved selection of 4000 level Fisheries and Wildlife courses below		
Professional Track		
Course (select 7 courses plus one capstone course, minimum 27 hours, with at least two courses from each track. Note: tracks do not appear on transcript)		24
Terrestrial Track		
(select 2 from Terr A; Terr B; any 2 from Aquatic Track; and any one other Professional Track course)		4
A. Science and Natural History		
F_W 2600	Ornithology	
F_W 3660	Mammalogy	
Not more than one from this group:		
BIO_SC 3260	Invertebrate Zoology	
BIO_SC 3360	Herpetology	
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity	
B. Management and Applications		
F_W 2900	Principles of Wildlife Management	
F_W 4220	Human Dimensions of Fish and Wildlife Conservation	
F_W 4600	Ecosystem Management	
F_W 4650	Wildlife Management Planning	
F_W 4880	Waterfowl Ecology and Management	3
Aquatic Track		

(select 2 from Aquatic A; 2 from Aquatic B; any two from Terrestrial Track; and any one other Professional Track course)

A. Science and Natural History	
F_W 2700	Ichthyology
F_W 4100	Limnology
Not more than one from this group:	
BIO_SC 3260	Invertebrate Zoology
BIO_SC 3360	Herpetology
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity
B. Management and Applications	
F_W 3400	Water Quality and Natural Resource Management
F_W 3900	Ecology of Fishes
F_W 4300	Fisheries Management
F_W 4400	Techniques for Fisheries Management and Conservation

Disciplinary Electives

can be used as seventh Professional Track course. Choose from a list of approved courses.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ATM_SC 1050	3 ENGLISH 1000	3
NAT_R 1070	3 F_W 1100	5

 mustaphaa@missouri.edu

Typical employment areas for graduates of the food science program include quality assurance, quality control, product development, sensory science and flavor chemistry. The food science curriculum meets the standards established by the Institute of Food Technologists.

Faculty

Professor F. H. Hsieh**

Associate Professor S. Cho**, A. D. Clarke**, J. Groves*, I. U. Gruen**, D.-Y. Kim**, M. Lin**, A. Mustapha**

Assistant Professor M. Kwasniewski*, B. Vardhanabuthi*

Adjunct Associate Professor L. Occena-Po

Adjunct Assistant Professor G. Zheng

Assistant Teaching Professor L. Jett

Research Professor Emeritus M. Ellersieck*

Professor Emeritus R. T. Marshall*

Adjunct Teaching Instructor B. Langford

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Food Science and Nutrition (p. 63)
- Minor in Food Science and Nutrition (p. 65)

The department offers the Bachelor of Science degree with a major in Food Science and Nutrition within four tracks, namely Food Science, Food Business, Enology and Culinary Sciences. A minor is available.

Note: Tracks do not appear on transcripts or diplomas.

Graduate

College of Agriculture, Food and Natural Resources
 256 William Stringer Wing

Director of Graduate Studies: Azlin Mustapha

- MS in Food Science (p. 65)
- PhD in Food Science (p. 66)

About Food Science

Candidates are prepared for careers in research or advanced professional careers in the food industry, teaching positions in community and junior colleges, 4-year colleges and in supporting roles in academics or industry. Graduates also may play leadership roles in extension or other adult education programs, food production and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, food plant supervision, technical operation, product development, nutrition, distribution, food service and food regulatory work.

Facilities and Resources

Departmental cooperation with the food industry is excellent. Special facilities for food science study and research include chemical, microbiological, analytical laboratories and pilot plants to study food processing.

Funding

Assistantships are available to qualified students from funds provided by the Agricultural Experiment Station, research contracts and grants. Fellowships supported by industry and professional societies, based on national competition, are also available.

Undergraduate

BS in Food Science and Nutrition

Major Program Requirements

All requirements listed below are in addition to University and College requirements, including University General Education (p. 18).

Major Core Requirements

Biological and Physical Science		22
BIO_SC 1500	Introduction to Biological Systems with Laboratory	3-5
General Chemistry and Laboratory		6
CHEM 2030	Survey of Organic Chemistry	3
CHEM 2130	Organic Laboratory I	2
BIOCHM 3630	General Biochemistry	3
Math and Statistics		9-12
Calculus		3-5
STAT 1400	Elementary Statistics for Life Sciences (or STAT 1200 or STAT 1300)	3
English and Communications		9
Social and Behavioral Sciences		12
Microeconomics		3
Macroeconomics		3
Social Science Elective		3
State Law Requirement Course		3
Core Courses for All Tracks		18
F_S 1030	Food Science and Nutrition	3
AFNR 2115	College to Career: Strategies for Success	1
F_S 2172	Elements of Food Microbiology	3

F_S 4199	Food Industry Senior Seminar	1
F_S 4310	Food Chemistry and Analysis	4
F_S 4370	Food Microbiology	3
Capstone Courses		
F_S 4970	Food Product Development	3
F_S 4980	Food Quality Assurance	3

Food Science Track

(Note: Tracks are not listed on transcripts or diplomas.)

Food Science Track Core Courses (20 credits required)

NUTR_S 2340	Human Nutrition I	3
F_S 3250	Physical Principles for Food Processing	3
or BIOL_EN 4160	Food Process Engineering	
F_S 4330	Principles of Food Processing	
F_S 4311	Investigation of Food Properties	3
F_S 4315	Food Chemistry and Analysis Laboratory	3
F_S 4375	Food Microbiology Laboratory	2
F_S 4380	Sensory Analysis of Food and Beverages	3

Business course (3 credits)

Ag. Econ/Business School/Hospitality Mgmt course

Choose 2 of 3 blocks (12-14 credits)

F_S 3214	Principles of Meat Science	6
& F_S 4344	and Processing Muscle Foods	
F_S 3231	Principles of Dairy Foods Science	6
& F_S 4331	and Technology of Dairy Products and Ingredients	
F_S 3240	Principles of Viticulture I	8
& F_S 4440	and Principles of Winemaking and Wine Chemical Analysis	

Total Credits 29-31

Food Business Track

(Note: Tracks do not appear on transcripts or diplomas.)

Food Business Track Core Courses (4-11 credits)

Food Electives - 3 courses from the following:		7-10
F_S 1010	Introduction to Viticulture and Enology	
AG_S_M 1040	Physical Principles for Agricultural Applications	
HSP_MGMT 1991	Food Service Sanitation Management	
HSP_MGMT 1995	Culinary Fundamentals	
F_S 2114	Live Animal and Meat Evaluation	
F_S 2131	Dairy Products Evaluation	
F_S 2195	Grapes and Wines of the World	
NUTR_S 2340	Human Nutrition I	
F_S 3190	Study Abroad: International Meat, Dairy and Enology	
F_S 3214	Principles of Meat Science	
F_S 3231	Principles of Dairy Foods Science	
F_S 3240	Principles of Viticulture I	
F_S 3250	Physical Principles for Food Processing	
F_S 4311	Investigation of Food Properties	
F_S 4315	Food Chemistry and Analysis Laboratory	
F_S 4340	Principles of Viticulture II	
F_S 4354	Physiology and Biochemistry of Muscle as Food	
F_S 4375	Food Microbiology Laboratory	

F_S 4380	Sensory Analysis of Food and Beverages	
F_S 4390	Optimization and Management of Food and Agricultural Systems	
F_S 4441	Cellar Operations and Special Vinifications	
F_S 4941	Internship in Food Science	

Business Courses

ACCTCY 2036	Accounting I	6
& ACCTCY 2037	and Accounting II	
AG_EC 3282	Agribusiness Finance	3
AG_EC 3260	General Farm Management	3
AG_EC 3224	New Products Marketing	3
AG_EC 3256	Agribusiness and Biotechnology Law	3
AG_EC Electives		6

Choose 1 of 3 courses below (3-4 credits)

F_S 4331	Technology of Dairy Products and Ingredients	3
F_S 4344	Processing Muscle Foods	3
F_S 4440	Principles of Winemaking and Wine Chemical Analysis	4

Total Credits 34-38

Enology Track

(Note: Tracks are not listed on transcripts or diplomas.)

Enology Track Core Courses

F_S 1010	Introduction to Viticulture and Enology	1
F_S 2195	Grapes and Wines of the World	3
F_S 3240	Principles of Viticulture I	4
F_S 4315	Food Chemistry and Analysis Laboratory	3
F_S 4340	Principles of Viticulture II	4
F_S 4375	Food Microbiology Laboratory	2
F_S 4380	Sensory Analysis of Food and Beverages	3
F_S 4440	Principles of Winemaking and Wine Chemical Analysis	4
F_S 4441	Cellar Operations and Special Vinifications	3
F_S 4941	Internship in Food Science	1-6

Business course (3 credits)

Ag. Econ/Business School/Hospitality Mgmt Course

Total Credits 28-33

Culinary Science Track

(Note: Tracks are not listed on transcripts or diplomas.)

Culinary Science Track Core Courses

Core Food Science courses

NUTR_S 2340	Human Nutrition I	3
F_S 3250	Physical Principles for Food Processing	3
F_S 3214	Principles of Meat Science	3
or F_S 3231	Principles of Dairy Foods Science	
F_S 4380	Sensory Analysis of Food and Beverages	3
F_S 4390	Optimization and Management of Food and Agricultural Systems	3

Core Hospitality Mgmt courses

HSP_MGMT 1043	Introduction to Hospitality Management	3
HSP_MGMT 1133	Hospitality Law	3
HSP_MGMT 1991	Food Service Sanitation Management	1
HSP_MGMT 1995	Culinary Fundamentals	3

HSP_MGMT 2123	Food Service Operational Fundamentals	2
HSP_MGMT 2143	Introduction to Food Production and Service Fundamental	2
HSP_MGMT 3153	Food Service Operations Management	3
Internship		3
Additional Capstone Course (optional)		
HSP_MGMT 4985	Commercial Food Production Management	
Total Credits		35

Semester Plan

Below is a sample plan of study for the Food Science Track, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
AFNR 1115	1 CHEM 1330	4
CHEM 1320	4 MATH 1300, 1400, or 1500	3-5
F_S 1030	3 ENGLISH 1000	3
MATH 1100	3 BIO_SC 1500	5
HIST or POL SC	3	
Elective	3	
	17	15-17

Second Year		
Fall	CR Spring	CR
Humanities Elective	3 AG_S_M 1040	3
Food Science Commodity Elective	3 F_S 2172	3
Electives	5 AFNR 2115	1
CHEM 2030	3 BIOCHM 3630	3
CHEM 2130	2 COMMUN 1200	3
	Food Science Commodity Elective	3
	16	16

Third Year		
Fall	CR Spring	CR
F_S 4980	3 STAT 1400	3

Communication Elective	3 Psychology, Sociology or Rural Sociology	3
Elective	3	
	17	15

Fourth Year		
Fall	CR Spring	CR
F_S 4199	1 F_S 4344	3
F_S 4310	4 F_S 4311	3
F_S 4970	3 Business Elective	3
F_S 3250	3 Humanities Elective	3
Food Science Commodity Elective	3 Elective	3
Elective	2	
	16	15

Total Credits: 127-129

Minor in Food Science and Nutrition

Food Science Courses (minimum)	15	
F_S 1030	Food Science and Nutrition	3
One of the following disciplinary courses:	3-4	
F_S 3250	Physical Principles for Food Processing	
F_S 4310	Food Chemistry and Analysis	
F_S 4370	Food Microbiology	
F_S 4380	Sensory Analysis of Food and Beverages	
One of the following capstone courses:	3	
F_S 4970	Food Product Development	
F_S 4980	Food Quality Assurance	
Two other Elective Courses in Food Science	3	

9 of the 15 credits need to be fulfilled with 3000-level or higher Food Science courses.

Cross-listed courses can be taken in either the home program or the cross-listed program.

Graduate

MS in Food Science

Admission Contact Information

Starsha Ferguson
 email: fergusonsd@missouri.edu
 256 William Stringer Wing
 Columbia, MO 65211-5160
 573-882-4113

Admission Criteria

Fall deadline: April 1
 Spring deadline: October 31

- Minimum GPA: 3.0
- BS in food science from an accredited university

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Item	Score
IELTS	5.5

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	3.5
On or After August 1, 2011	297	3.5

* Note: neither the verbal or quantitative section can be below 400 or its equivalent score.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation (submitted through online Graduate School application)
- A statement of purpose for applying to the program
- A resume

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. The food science program does not. Include the financial assistance request in the statement of purpose.

PhD in Food Science

Admission Contact Information

Starsha Ferguson (FergusonSD@missouri.edu)
 256 William Stringer Wing
 Columbia, MO 65211-5160
 573-882-4113

Admission Criteria

Fall deadline: April 1
 Spring deadline: October 31

- Minimum GPA: 3.0
- BS and an MS in food science from an accredited university or equivalent experience. In rare instances, an exceptional student will be allowed to study for the PhD without first completing the MS
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Item	Score
IELTS	5.5

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	3.5
On or After August 1, 2011	297	3.5

* Note: neither the verbal or quantitative section can be below 400 or its equivalent score.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation (submitted through online Graduate School application)
- A statement of purpose for applying to the program
- A resume

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. The food science program does not. Include the financial assistance request in the statement of purpose.

About the PhD Program

The PhD degree can lead to careers in research, college or university teaching and research, or to administrative positions related to foods.

Degree Requirements

Requiring a minimum of 2 years beyond the master's degree, the doctor of philosophy degree prepares students for teaching, research or other professional careers in food science. A student must:

- Satisfactorily complete the master's degree program or its equivalent with a GPA of 3.0 or better
- Satisfactorily complete the written and oral qualifying examination
- Show evidence of satisfactory performance in the major area of study, inclusive of grade trends and comply with other Graduate School requirements for admission.

Plan of Study

The plan of study, completed under the guidance of a doctoral program committee, consists of:

- A course of study designed to fit the student's academic background and objectives — one-third of the credit earned under the plan of study is research credit, the remainder is in courses selected from food science and its supporting areas, such as chemistry, microbiology, physiology, nutrition, economics, marketing, management and statistics
- Acceptance of a dissertation based on research proposed, performed and defended by the student.

To satisfy degree requirements, a candidate must:

- prepare and defend a research proposal within the first two semesters; the proposal is designed to test the student's ability to undertake advanced learning and carry out independent research.
- complete the Plan of Study and defend the PhD project proposal
- pass the comprehensive examination over the approved course of study
- present an acceptable dissertation and defend it in a final examination
- present an exit seminar on research
- prepare at least 1 manuscript, acceptable for submission to a refereed journal, before approval of the D-4 (Report of the Dissertation Defense Form) by the director of graduate studies

Forestry

H. E. Stelzer
 Department of Forestry
 The School of Natural Resources
 College of Agriculture, Food and Natural Resources
 203 Anheuser-Busch Natural Resources Building
 (573) 882-7242
 SNR@missouri.edu

The forestry undergraduate major is based on a foundation of communication, analytical science, humanities and professional courses that provides students with prerequisites for additional professional courses as well as a basic liberal education. Four emphasis areas are offered: forest resource management, urban forestry, forest resource entrepreneurship and business, and individualized studies.

The department offers a BSF degree in Forestry, MS and PhD degrees in Natural Resources with emphasis in Forestry. A minor is also available.

Faculty

Professor H. S. He**, S. Jose**, D. R. Larsen*, M. J. Linit*, R. M. Muzika**, T. L. Payne*

Associate Professor F. X. Aguilar**, J. A. Hubbart**, H. E. Stelzer**

Assistant Professor B. O. Knapp*

Research Professor M. A. Gold**, R. P. Guyette**

Research Assistant Professor M. V. Coggeshall*, C. H. Lin**, M. C. Stambaugh**

Cooperative Associate Professor D. Dey*, J. Van Sambeek**, S. R. Shifley*

Adjunct Assistant Professor J. Kabrick*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSF in Forestry (p. 69)
 - with emphasis in Forest Entrepreneurship and Business (p. 70)
 - with emphasis in Forest Resource Management (p. 71)
 - with emphasis in Individualized Studies (p. 71)
 - with emphasis in Urban Forestry (p. 72)
- Minor in Forestry (p. 72)

Emphasis Areas

Four emphasis areas are offered within the BSF degree program. Three of these areas (*forest resource management, urban forestry, and forest entrepreneurship and business*) represent areas of specialization within the forestry profession. The *individualized studies* emphasis area allows students to specialize in an allied area under the direction of a faculty committee.

Honors

Students who graduate with the following cumulative GPA values are awarded BSF degrees with Latin honors:

3.50-3.69	cum laude
3.70-3.89	magna cum laude
>3.90	summa cum laude

Dual Major - Forestry/Fisheries and Wildlife

In addition to courses that satisfy university general education requirements (p. 18), students who plan to complete a dual major in fisheries and wildlife/forestry must complete the required fisheries and wildlife sciences, forestry, and elective options to reach 140 credits. The dual major does not allow for any general elective hours.

Major Core Requirements

Science Core		
CHEM 1100	Atoms and Molecules with Lab	3
BIOCHM 2110	The Living World: Molecular Scale	3
CHEM 1320	College Chemistry I	4
Physics (select one)		2-5
PHYSICS 1210	College Physics I	
ATM_SC 1050	Introductory Meteorology	
GEOL 1100	Principles of Geology with Laboratory	
SOIL 2100	Introduction to Soils	
SOIL 2106	Soil Science Laboratory	
BIO_SC 1200	General Botany with Laboratory	
General Biology		5
F_W 1100	Introductory Zoology with Laboratory	
BIO_SC 1500	Introduction to Biological Systems with Laboratory	
Ecology (select one)		5
BIO_SC 3650	General Ecology	
FOREST 4320	Forest Ecology *	
Animal Form/Function course (select one)		4-5
MPP 3202	Elements of Physiology	
AN_SCI 3254 & AN_SCI 3255	Physiology of Domestic Animals and Physiology of Domestic Animals Laboratory	
BIO_SC 3700	Animal Physiology	
BIO_SC 2300	Introduction to Cell Biology	
Genetics (select one)		3-4
F_W 2500	Introduction to Genetics and Evolution for Conservation	
BIO_SC 2200	General Genetics	
AN_SCI 3213	Genetics of Agricultural Plants and Animals	
Math Sequence		
MATH 1100 & MATH 1400 & STAT 2530	College Algebra and Calculus for Social and Life Sciences I and Statistical Methods in Natural Resources	9
Professional Core		
NAT_R 1070	Ecology and Renewable Resource Management	3
F_W 2100	Colloquium in Fisheries and Wildlife	1
FOREST 2151	Dendrology	4
Public Speaking (select one)		3
P_R_TR 3231	Principles of Interpretive Outdoor Recreation	
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3

Law/Policy (select one)		3
AG_EC 2156	Introduction to Environmental Law	
AG_EC 3257	Rural and Agricultural Law	
NAT_R 4353	Natural Resource Policy/Administration	
Water Quality (select one)		3
F_W 3400	Water Quality and Natural Resource Management	
FOREST 4390	Watershed Management and Water Quality	
F_W 3600	Introduction to Conservation Biology	
FOREST 4330	Practice of Silviculture	
F_W 4500	Animal Population Dynamics and Management	
NAT_R 3110	Natural Resource Biometrics	
NAT_R 3290	Hydrologic Measurement Techniques	
CAPSTONE		
Summer Field Studies (must be taken concurrently)		5
FOREST 2541	Forest Utilization	1
FOREST 2542	Forest Measurement and Inventory	1
FOREST 2543	Forest Ecology Field Studies	1
FOREST 2544	Introduction to Silviculture and Management	1
FOREST 2545	Forest Management Planning	1
Professional Track Courses		
(Minimum of 10 courses AND 32 hours required)		32
Fisheries and Wildlife Core - 5 courses minimum		
A. Science and Natural History (must take at least 1 Terrestrial and 1 Aquatic. Only 1 outside F W)		
F_W 2600	Ornithology	
F_W 2700	Ichthyology	
F_W 3660	Mammalogy	
F_W 4100	Limnology	
BIO_SC 3360	Herpetology	
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity	
B. Management - (must take at least 1 Terrestrial and 1 Aquatic)		
F_W 3900	Ecology of Fishes	
F_W 4300	Fisheries Management	
F_W 4400	Techniques for Fisheries Management and Conservation	
F_W 4600	Ecosystem Management	
F_W 4700	Wildlife Research and Management Evaluation Methods	
C. Specialty Courses (5th course can come from this list or from A or B)		
F_W 3200	Aquaculture	
F_W 4200	Urban Wildlife Conservation	
F_W 4220	Human Dimensions of Fish and Wildlife Conservation	
International Studies or Study Abroad [approved F W Proposal required]		1-8
Forest Core - 15 credits minimum from the following courses (additional courses accepted with approval):		
FOREST 3207	Forest Fire Control and Use	
FOREST 3212	Forest Health and Protection	
FOREST 3240	Wood Technology	
FOREST 3290	Urban Forestry	
FOREST 4320	Forest Ecology	
FOREST 4350	Forest Economics	

FOREST 4360	Photogrammetry, Inventory and Models	
FOREST 4375	Forest Stand Dynamics	
FOREST 4380	Forest Resource Management	
FOREST 4390	Watershed Management and Water Quality	
Total Credits		101-113

* Required as a minimum for Forestry Certification if the accredited curriculum has not been completed.

Graduate

School of Natural Resources
 Department of Forestry

 573-882-7242
<http://snr.missouri.edu/forestry/academics/graduate-program.php>

Director of Graduate Studies: Hong He

- Graduate Certificate in Agroforestry (p. 72)

Forestry encompasses both basic and applied science, involving specific interests ranging from biophysical processes in forested ecosystems to plant population studies, but also recognizes overarching fundamental issues of sustainability of natural resources. Forestry graduate education prepares students for opportunities in a variety of disciplines such as forest ecology, tree physiology, hydrology, conservation, policy and silviculture.

Degrees and Areas of Study

Graduate research programs in the Department of Forestry lead to an MS or PhD in Natural Resources with an emphasis in Forestry. Specialized graduate education can focus on, but is not limited to, studies in agroforestry, biometrics, community and landscape ecology, dendrochronology, economics, entomology, fire ecology, hydrology, physiological ecology, physiology, policy, silviculture, soils, forest management, stand dynamics, water quality and wood quality.

Interdisciplinary Graduate Certificates

In collaboration with other departments, additional graduate certificates are available in
 Conservation Biology <http://conservbio.missouri.edu/description.php>
 Geographic Information Sciences <http://www.geog.missouri.edu/?q=grad/graduate-gis-program>.
Interdisciplinary certificates are intended for students who elect to take courses beyond those required for our graduate degrees.

Partnerships

The graduate program in the Department of Forestry involves partnerships with the USDA Forest Service, Northern Research Station, the Missouri Department of Conservation, the Missouri Department of Natural Resources, the US Geological Survey, the National Park Service and the United States Fish and Wildlife Service. Students may work closely with scientists in these agencies who have affiliated faculty appointments.

Career Opportunities

A graduate degree in Natural Resources with an emphasis in Forestry is designed to prepare students for careers in academic institutions, consulting firms, non-governmental organizations, industry and state and federal agencies.

Facilities and Resources

Facilities available for research include well-equipped biometrics, ecology, dendrochronology, hydrology, physiology and wood quality laboratories in the Anheuser-Busch Natural Resources Building on campus at Columbia, the Horticultural and Agroforestry Research Center (HARC) and the Baskett Research and Education Area.

Horticulture and Agroforestry Research Center (HARC). HARC is a 540-acre tract about 30 miles northwest of campus near New Franklin, Mo. It is in the loess hills overlooking the Missouri River Valley and is well-suited for agroforestry, agronomic and horticultural field studies.

Baskett Research Area. Thomas Baskett Wildlife Research and Education Area, formerly known as the Ashland Wildlife Research Area, is a 2,252-acre facility located five miles east of Ashland, Missouri. In use since 1938, Baskett has become an integral part of the School of Natural Resources mission of teaching, research, and extension. The Baskett Research Area is used as an outdoor laboratory for several classes including dendrology, forest ecology, ornithology, and wildlife research techniques, and has been the source of over 150 research publications. For more information see <http://www.aes.missouri.edu/baskett/>

Schnabel Woods. The Schnabel Arboretum Tract is an 80-acre tract of late-successional forest on the bluffs near the Missouri River. It is located eight miles southwest of the MU campus near the river community of McBaine, adjacent to the Missouri Department of Conservation Eagle Bluff Conservation Area and the cross-state Katy Trail State Park. The Schnabel Tract represents a unique, relatively undisturbed example of a river-hills forest ecosystem complex not commonly found in Missouri. The area is used for undergraduate instruction, graduate research and demonstration.

University Forest. University Forest is located at the southeastern edge of the Missouri Ozarks, 14 miles north of Poplar Bluff and near Lake Wappapello. It is uniquely situated at the junction of two major ecological sections of the state: The Ozarks and the Mississippi Alluvial Basin. Three forest ecosystem types converge near this area: upland oak-hickory, oak-shortleaf pine and bottomland hardwoods. Using the adjacent 7,000-acre University State Forest managed by the Missouri Department of Conservation, this area is used routinely by the faculty and students of the School of Natural Resources for research.

Additional Locations. In addition, lands of the United States Forest Service, United States Fish and Wildlife Service, Corps of Engineers, National Park Service, Missouri Department of Conservation and the Missouri Department of Natural Resources are available for certain research activities. Numerous research projects have also taken place on private lands.

Funding

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details. A limited number of research assistantships are available. They are awarded based on (1.) demonstrated scholastic accomplishment; (2.) GRE scores; and (3.) experience related to the proposed field of study.

Application and Admission Information

Admission Contact Information
 Dr. Hong He
 203 ABNR Bldg.

HeH@missouri.edu

Admission Criteria

Fall deadline: May 15
 Spring deadline: October 15
 Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	1100
On or After August 1, 2011	300

* 50th percentile or higher preferred in each category.

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

To the Program:

- Departmental application (use form)
- GRE scores

Undergraduate

BSF in Forestry

Major Program Requirements

The goal of the forest resource management emphasis area is to prepare students to deal with the ever-changing complexities of multiple-use resource management. Emphasis is on the applications of forest management to provide commodities and amenities in a sustainable fashion.

Graduates are qualified to develop and execute management plans in an environmentally safe, cost-efficient and effective manner at both the stand and the forest level. Graduates are prepared to enter the workforce in either the public or the private sector.

The forestry major requires the successful completion of 125 credits. In addition to the University graduation requirements, including general education, students must meet college and school as well as department and major requirements.

Forestry Field Studies

Students enrolled in forestry are required to attend a specialized, five-week, summer field session. This session includes courses for 5 credits and is recommended between the sophomore and junior years.

University Core Requirements		33
MATH 1100	College Algebra	3
ENGLSH 1000	Exposition and Argumentation	3
MATH 1400	Calculus for Social and Life Sciences I	3
CHEM 1100	Atoms and Molecules with Lab	3
BIOCHM 2110	The Living World: Molecular Scale	3
or BIOCHM 2112	Biotechnology in Society	
State Law Requirement: One of the following:		
HIST 1100	Survey of American History to 1865	3
or HIST 1200	Survey of American History Since 1865	
or POL_SC 1100	American Government	
AG Econ Requirement: One of the following:		
AG_EC 1041	Applied Microeconomics	3
or AG_EC 1042	Applied Macroeconomics	
or AG_EC 2070	Environmental Economics and Policy	
P_R_TR 3231	Principles of Interpretive Outdoor Recreation	3
Humanities and Fine Arts Electives		9
Departmental Core Science		15-18
BIO_SC 1200	General Botany with Laboratory	3-5
or PLNT_S 2110	Plants and their Cultivation	
GEOL 1100	Principles of Geology with Laboratory	4
or GEOL 1200	Environmental Geology with Laboratory	
SOIL 2100 & SOIL 2106	Introduction to Soils and Soil Science Laboratory	5
PHYSCS 1210	College Physics I	3-4
or ATM_SC 1050	Introductory Meteorology	
Departmental Core Professional		34
NAT_R 1070	Ecology and Renewable Resource Management	3
STAT 2530	Statistical Methods in Natural Resources	3
NAT_R 3110	Natural Resource Biometrics	3
NAT_R 3290	Hydrologic Measurement Techniques	1
NAT_R 4353	Natural Resource Policy/Administration	3
FOREST 2151	Dendrology	4
FOREST 4320	Forest Ecology	5
FOREST 4330	Practice of Silviculture	3
NAT_R 4325	Introduction to Geographic Information Systems	3
FOREST 4390	Watershed Management and Water Quality	3
Senior Forestry Capstone Course choose One of the following options		
FOREST 4380	Forest Resource Management	3
FOREST 4940	Forestry Internship	1-12
FOREST 4994	Senior Honors Research in Forestry	1-3
FOREST 4995	Senior Honors Research in Forestry	1-3
Note: If Forestry 4380 is Not taken as the capstone, it Must be taken if the student is enrolled in the Forest Resource Management or Forest Resource Entrepreneurship emphasis area		
Departmental Core Summer Field Studies		5
FOREST 2541	Forest Utilization	1
FOREST 2542	Forest Measurement and Inventory	1
FOREST 2543	Forest Ecology Field Studies	1

FOREST 2544	Introduction to Silviculture and Management	1
FOREST 2545	Forest Management Planning	1

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year				
Fall	CR	Spring	CR	
ATM_SC 1050	3	AG_EC 1041	3	
BIO_SC 1200	5	CHEM 1100	3	
ENGLSH 1000	3	NAT_R 1070	3

Total Credits: 128

BSF in Forestry with Emphasis in Forest Entrepreneurship and Business

Major Program Requirements

The goal of forest resource entrepreneurship and business is to prepare graduates for work with large wood products firms, or as independent private consulting foresters. Along with the BSF students earn a Minor in Agricultural Economics. Courses listed are in addition to University general education (p. 18) requirements and forestry major requirements (p. 69).

MANGMT 3000	Principles of Management	3
ACCTCY 2036	Accounting I	3
FOREST 4350	Forest Economics	3
FOREST 4365	Logging Systems: Operations and Analyses	3
FOREST 4380	Forest Resource Management	3
Internship in Forest Resource Business Administration (TBD - Problems course)		6

Minor: Agricultural Economics 21

AG_EC 1041	Applied Microeconomics	
AG_EC 2183	The Agricultural Marketing System	
AG_EC 3282	Agribusiness Finance	
AG_EC 3283	Fundamentals of Entrepreneurship	
AG_EC 3224	New Products Marketing	
AG_EC 3286	Economics of Managerial Decision Making	
or AG_EC 3230	Agricultural and Rural Economic Policy	
AG_EC 3257	Rural and Agricultural Law	
or AG_EC 3256	Agribusiness and Biotechnology Law	

If Forestry 4380 is selected as the capstone course then another Forestry course must be added to fulfill emphasis requirement.

Semester Plan

Refer to the Semester Plan for the BS in Forestry (p. 69).

BSF in Forestry with Emphasis in Forest Resource Management

Major Program Requirements

Courses listed are in addition to the University General Education (p. 18) requirements and forestry major requirements (p. 69).

Emphasis Core Requirements

FOREST 3212	Forest Health and Protection	4
FOREST 3207	Forest Fire Control and Use	2
FOREST 3240	Wood Technology	3
FOREST 4340	Tree Physiology	3
or PLNT_S 2125	Plant Structure and Function	
or PLNT_S 4315	Crop Physiology	
or PLNT_S 4320	Plant Physiology	
FOREST 4360	Photogrammetry, Inventory and Models	3
FOREST 4380	Forest Resource Management	3
FOREST 4350	Forest Economics	3
F_W 4600	Ecosystem Management	4

Undesignated electives to total 125 hours 100

If Forestry 4380 is selected as the capstone course, then another Forestry course must be added to fulfill emphasis requirements.

Total Credits 125

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

* Denotes General Education Requirement

^ Denotes Degree Program Requirement

BSF in Forestry with Emphasis in Individualized Studies

Major Program Requirements

This emphasis area allows students with interests in both forestry and an allied field to obtain a degree in forestry combined with a customized specialization in a field of interest. The allied field can be wildlife biology and management, ecology, environmental science, environmental studies, interpretation of natural resources, environmental law, soils or others.

The individualized study program requires completion of 27 credits to be determined by the student and a three-member faculty committee, two of whom must be forestry faculty. Courses listed are in addition to university general education (p. 18) requirements and forestry major requirements (p. 69).

Emphasis core requirements (27+)	
Individualized study program	27
Undesignated electives to total 125 hours	98
Total Credits	125

Semester Plan

Refer to the Semester Plan for the BSF in Forestry (p. 69).

BSF in Forestry with Emphasis in Urban Forestry

Major Program Requirements

Urban forestry seeks the maintenance of vigorous and aesthetic tree systems that enhance urban and suburban environments. The responsibility of the urban forester is to establish, develop and administer tree management systems for metropolitan areas and other population centers.

Students in urban forestry learn communications and public relations skills as well as mid-level management procedures that prepare them to organize, staff, finance, plan and supervise urban forestry programs. Courses in management, administrative strategies and scientific foundations are incorporated into the urban forestry curriculum. Courses listed are in addition to University, college and forestry major requirements (p. 69).

Emphasis core requirements		
FOREST 3212	Forest Health and Protection	4
FOREST 3290	Urban Forestry	2
FOREST 4340	Tree Physiology	3
or PLNT_S 2125	Plant Structure and Function	
or PLNT_S 4315	Crop Physiology	
or PLNT_S 4320	Plant Physiology	
PLNT_S 2210	Ornamental Woody Plants	3
PLNT_S 3230	Plant Propagation	3
PLNT_S 2254	Landscape Design	3
PLNT_S 4350	Nursery Crop Production and Management	4
Undesignated electives to total 125 hours		103
Total Credits		125

Semester Plan

Refer to the Semester Plan for the BSF in Forestry (p. 69).

Minor in Forestry

The minor requires a minimum of 15 credit hours of coursework in the Forestry curriculum.

Nine of the required hours must be taken in classes numbered at the 3000 level or above from the following courses:

FOREST 2151	Dendrology (required of all students)	4
FOREST 3240	Wood Technology	3
FOREST 3207	Forest Fire Control and Use	2
FOREST 3290	Urban Forestry	2
FOREST 4320	Forest Ecology	5
FOREST 4330	Practice of Silviculture	3
FOREST 4360	Photogrammetry, Inventory and Models	3

FOREST 4390	Watershed Management and Water Quality	3
FOREST 4350	Forest Economics	3

Graduate

Graduate Certificate in Agroforestry

The program is built on the biophysical and socioeconomic principles of agroforestry which will prepare students to become specialized in agroforestry design and management. The knowledge and experience in designing and managing agroforestry systems for commodity production as well as environmental conservation are skill sets needed to work as agroforestry and forestry consultants and conservation and natural resource professionals. The curriculum leads the student through a progression of learning to achieve (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation. Successful required course completion will be recorded on the student's official transcript as a "Graduate Certificate in Agroforestry."

Certificate web site: <http://www.snr.missouri.edu/forestry/academics/graduate-program.php>

Hospitality Management

Eliza Tse, Chair
Hospitality Management Program
122 Eckles Hall
(573) 882-4100
Fax: (573) 882-0596
HRM@missouri.edu
<http://hospitality.missouri.edu/>

The Hospitality Management Program is established as an effective response to growing demand for managerial talents in the hospitality industries and the promise of hospitality education in knowledge pursuit and human development. The mission of the Program is to develop students to be responsible citizens and successful, ethical hospitality leaders. Thus, the curriculum leading to the BS in Hospitality Management educates students for leadership in the global hospitality industry.

The program has a food-service facility that houses demonstration kitchens, a multi-purpose dining room that plays host to the student-run Café at Eckles Hall, and fine dining evening experience. The program cooperates with the College in operating the Gathering Place Bed and Breakfast which serves as a training operation for lodging management and conference and event planning management students. Sport and entertainment organizations like Mizzou Athletics and MU Event Production Services also provide students learning experience beyond classroom setting.

Faculty

Professor E. Tse**

Associate Professor S. Cho**, J. Groves**, D. Kim**

Assistant Teaching Professor A. Alexander, Lance Hatfield*, Laura Hatfield*, L. Jett*

Instructor L. Dirks, B. Langford

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Hospitality Management (p. 74)
 - with emphasis in Conference and Event Planning Management (p. 74)
 - with emphasis in Food and Beverage Management (p. 75)
 - with emphasis in Lodging Management (p. 75)
 - with emphasis in Sport Venue Management (p. 75)
- Minor in Hospitality Management (p. 75)

Department Level Requirements

One of the unique features of the program is the exposure of students to the hospitality industry in the form of hands-on learning. Students will have the opportunity to apply concepts and theories from their coursework to practical work experiences in industry, under the direction of faculty mentors and industry professionals.

Students transferring into Hospitality Management from other MU degree programs or from other institutions must have both a term and cumulative GPA of 2.25.

A grade of C- or higher is required for all hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 74) page for the major program requirements.

What you can do with a degree in Hospitality Management

Students selecting a major in Hospitality Management are required to take a wide variety of courses that provide basic knowledge of human understanding, a theoretical knowledge of basic business principles, and an understanding of business principles as applied in the hospitality industry. Students further select an emphasis area which provides them more in-depth knowledge of leadership application in a Hospitality career area. In addition, each student completes a 12-15 hour block of professional electives which allows them to gain additional expertise.

Students choose an emphasis in Conference and Event Planning, Food and Beverage Management, Lodging Management, or Sport Venue Management. In the Conference and Event Planning Management emphasis, students develop knowledge and skills in planning and conducting a large variety of events from wedding, to small business meetings, to routine events that occur on a regular basis, to large one-time events. Students with this emphasis find employment in a variety of businesses, hotels, associations, and private event companies.

Students choosing the Food and Beverage Management emphasis acquire skills and knowledge in managing a variety of food and beverage operations both small and large scale. These students find employment in a variety of restaurants, lodging food operations, and catering venues. Many students in this area go on to own their own restaurant operations.

Students choosing the Lodging Management emphasis acquire skills and knowledge in managing a variety of lodging operations from mega resorts with thousands of hotel rooms, to small inns or bed and breakfast operations. These students find employment in small, medium, and large lodging operations. Some will go on to own and operate their own Bed and Breakfast operation.

Students choosing the Sport Venue Management emphasis acquire skills and knowledge in managing a variety of conference and events centers that have sports as one of their operations. These students will be qualified to operate large and small venues that cater to sports teams, concerts, and a variety of other functions. This is a good emphasis area for a student who wants to stay connected to the world of sports.

Graduate

The graduate program, Masters and Ph.D., is jointly offered with the Food Science Program. It is established with the objectives for the generation of new knowledge through research. The program provides an understanding of the body of knowledge in the discipline of hospitality and develops abilities to achieve scholarly success. These abilities include competency in research, problem solving and teaching/communication.

After graduation, it is likely that a Masters student will join the hospitality industry or continue their Ph.D. study. Ph.D. graduates will likely join the faculty of a college or university that will require research and publication as part of the promotion and tenure process. This goal is accomplished by creating a scholarly research environment, which introduces students

the opportunity for writing, publishing, research, consulting and teaching. The atmosphere is interdisciplinary and incorporates a number of opportunities for a variety of types of information exchange and growth.

For additional information, please visit the Food Science Graduate Program (p. 63) Overview.

Undergraduate

BS in Hospitality Management

Major core requirements

Students must complete all university general education (p. 18) requirements and college requirements (p. 31) in addition to the major program requirements below:

Degree core requirements

Business			
Accounting			
ACCTCY 2026	Accounting I		3
or ACCTCY 2010	Introduction to Accounting		
Leadership			
AG_ED_LD 2250	Introduction to Leadership		3
or AG_ED_LD 2260	Team and Organizational Leadership		
Finance			
FINANC 2000	Survey of Business Finance		3
Management			
MANGMT 3000	Principles of Management		3
Marketing			
MRKTNG 3000	Principles of Marketing		3
Hospitality Management Core			
HSP_MGMT 1043	Introduction to Hospitality Management		3
HSP_MGMT 1133	Hospitality Law		3
HSP_MGMT 2191	Seminar in Professional Development		1
HSP_MGMT 4253	Hospitality Human Resources Management		3
HSP_MGMT 4273	Hospitality Sales and Marketing Management		3
HSP_MGMT 4941	Internship in Hospitality Management		3
Total Credits			31

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall	CR Spring	CR	
BIO_SC 1010	3 CHEM 1100	3	
AG_EC 1041	3 AG_EC 1042	3	
HSP_MGMT 1043	3 State Law Course	3	
AG_EC 1041	3 Communication	3	
MATH 1100	3 Humanities	3	
Social Science	3		
	18	15	

Second Year			
Fall	CR Spring	CR	
Approved Physical Science, Biological Science, or Math	3 BIO_SC 1020	2	
Humanities	3 Math Reasoning Proficiency	3	
AG_ED_LD 2250 or 2260	3 FINANC 2000	3	
HSP_MGMT 1133	3 Emphasis Area Course	3	
ENGLSH 1000	3 Unrestricted Elective	3	
	HSP_MGMT 2191	1	
	15	15	

Third Year				
Fall	CR Spring	CR Summer	CR	
ACCTCY 2010 or 2036	3 MNGMT 2000	3 HSP_MGMT 4941	1-12	
MRKTNG 3000	3 Professional Elective	3		
Communication Elective	3 Emphasis Area Course	3		
Emphasis Area Course	3 HSP_MGMT 4253	3		
Professional Elective	3 Emphasis Area Course	3		
	15	15	1-12	

Fourth Year			
Fall	CR Spring	CR	
Professional Elective	3 Professional Elective	3	
Professional Elective	3 Professional Elective	3	
Unrestricted Elective	3 Emphasis Area Course	3	
HSP_MGMT 4273	3 Emphasis Area Course	3	
Emphasis Area Course	3		
	15	12	

Total Credits: 121-132

BS in Hospitality Management with Emphasis in Conference and Event Planning Management

Major Program Requirements

Students must complete all university general education (p. 18) requirements and college requirements (p. 31), in addition to the major program requirements below:

HSP_MGMT 3153	Food Service Operations Management	3
or HSP_MGMT 4353	Hotel Finance Management	
HSP_MGMT 3410	Conference and Meeting Management	3
HSP_MGMT 3415	Current Issues in Meeting and Event Management	1
HSP_MGMT 4320	Destination Management	3
HSP_MGMT 4980	Special Events Management	3

Hospitality Professional Electives	15
Total Credits	28

Semester Plan

Refer to the Semester Plan for the BS in Hospitality Management (p. 74).

BS in Hospitality Management with Emphasis in Food and Beverage Management

Major Program Requirements

Students must complete all university general education requirements and college requirements in addition to the major program requirements below:

HSP_MGMT 1991	Food Service Sanitation Management	1
HSP_MGMT 1995	Culinary Fundamentals	3
HSP_MGMT 2123	Food Service Operational Fundamentals	2
HSP_MGMT 3153	Food Service Operations Management	3
HSP_MGMT 3233	Professional Beverage Management	3
HSP_MGMT 4985	Commercial Food Production Management	5
Hospitality Professional Electives		12
Total Credits		29

Semester Plan

Refer to the Semester Plan for the BS in Hospitality Management (p. 74).

BS in Hospitality Management with Emphasis in Lodging Management

Major Program Requirements

Students must complete all university general education requirements (p. 18) and college requirements (p. 31), in addition to the major program requirements below:

HSP_MGMT 3343	Hotel Operations and Management	3
HSP_MGMT 4343	International Hotel Management	3
HSP_MGMT 4353	Hotel Finance Management	3
HSP_MGMT 4994	Lodging Management Leadership	3
Hospitality Professional Electives		15
Total Credits		27

Semester Plan

Refer to the Semester Plan for the BS in Hospitality Management (p. 74).

BS in Hospitality Management with Emphasis in Sport Venue Management

Major Program Requirements

Students must complete all university general education (p. 18) requirements and college requirements (p. 31), in addition to the major program requirements below:

HSP_MGMT 1505	Fundamentals of Sport Venue Management	3
HSP_MGMT 3510	Guest Service Management: Delivering the Fan Experience	3
HSP_MGMT 3515	Sport Venue Operation Management	3
HSP_MGMT 3525	Principles of Live Entertainment Management	3
HSP_MGMT 4505	Sport Venue and Event Promotion	3
HSP_MGMT 4520	The Business of Sport Venue Management	3
HSP_MGMT 4525	Sport Venue Security and Operational Risk Management	3
Hospitality Professional Electives		12
Total Credits		33

Semester Plan

Refer to the Semester Plan for the BS in Hospitality Management (p. 74).

Minor in Hospitality Management

The minor in Hospitality Management is for students interested in enhancing their understanding of the hospitality industry. A student must complete 15 credits of coursework related to each of the four Hospitality Management areas as listed below. The undergraduate chair of the HM program must approve your plan of study. Please use the CAFNR Minor form (<http://cafnr.missouri.edu/students/minor-form.xls>) to complete the application process for the HM minor.

Minor Course Requirements:

HSP_MGMT 1043	Introduction to Hospitality Management	3
HSP_MGMT 1505	Fundamentals of Sport Venue Management	3
HSP_MGMT 3153	Food Service Operations Management	3
HSP_MGMT 3343	Hotel Operations and Management	3
HSP_MGMT 3410	Conference and Meeting Management	3
A HSP_MGMT elective at 3000 or above		3
Total Credits		18

School of Natural Resources

The School of Natural Resources is Missouri's and the Midwest's only school with a comprehensive natural resources program. It is a division of the College of Agriculture, Food and Natural Resources. It encompasses atmospheric sciences, environmental science, fisheries, forestry, parks, recreation, soils, tourism and wildlife. The school is based on an integrated, scientific approach to natural resources management. It is housed in the Anheuser-Busch Natural Resources Building containing state-of-the-art teaching, research and outreach extension facilities.

The Department of Forestry was established at MU in 1947 and was elevated to the status of School of Forestry in 1957. The fisheries and wildlife program, which was established in 1937 in the College of Arts and Science, became part of the school in 1973. The Department of Parks, Recreation and Tourism was added in 1988. The School of Natural Resources was formed through a name change in 1989. A Department of Soils was formed at MU in 1914 and a Department of Atmospheric Science was formed in 1966. Faculties in soil science and atmospheric science joined The School of Natural Resources in 1990 and 1991, respectively, and were merged into the Department of Soil and Atmospheric Sciences in 1992. This name was changed to the Department of Soil, Environmental and Atmospheric Sciences in 2004. With approximately 1000 undergraduates and 50 faculty members, the school is noted for excellent education, strong professional orientation, active student organizations and outstanding advising.

Faculty

Faculty members within the School of Natural Resources have their appointments through the following degree programs: Forestry (p. 67), Fisheries & Wildlife (p. 59), Parks, Recreation & Tourism (p. 92), Soil, Environmental & Atmospheric Science (p. 107). Their faculty listing can be found on those degree pages.

Undergraduate

- Minor in Natural Resources (p. 77)

While the College of Agriculture, Food and Natural Resources does not offer a baccalaureate degree in Natural Resources, it does offer degrees in specialized areas within Natural Resources, such as Fisheries and Wildlife (p. 59); Forestry (p. 67); Parks, Recreation and Tourism (p. 92); and Soils, Environmental and Atmospheric Sciences (p. 107).

Admissions

In addition to requirements listed below, students admitted to the University of Missouri may enter The School of Natural Resources as freshmen or as transfer students.

Transfer Students

Previous college work is carefully evaluated by The School of Natural Resources. Courses are readily accepted if they are satisfactory substitutes for required University of Missouri courses. Lists of acceptable substitute courses offered at many other institutions are maintained and are available to prospective transfer students on request.

Major Program Requirements

Students must meet all emphasis, major, degree, department, college and university graduation requirements (p. 17), including the university general education requirements (p. 18). See the appropriate sections of this catalog.

Academic Assessment

Credits by Examination

A total of 21 credits in CLEP (College Level Entrance Program) is accepted in the following areas: English, mathematics, social sciences and humanities. The school does not accept natural science CLEP credit.

Student Services

Advising

Personalized advisement and counseling is available from the school's faculty members. An open-door policy by advisors is emphasized and the school is noted for excellent student/faculty relations. Undergraduate advisement in The School of Natural Resources (SNR) is undertaken by those faculty and staff who advise with the attitude of fostering academic and professional development and success. The faculty members recognize the importance of establishing a trust relationship with students that will extend through their academic years at MU into their careers.

Career Placement

Students in The School of Natural Resources are provided various types of employment assistance through the College of Agriculture, Food and Natural Resources Placement Office (2-64 Agriculture Building). Resource materials on potential employers are available for student use. Instructions regarding federal, state and industrial employment procedures and assistance in the preparation of résumés and applications also are available. Notices of available positions are posted, and interviews are arranged with visiting organizations. Employment assistance also is given to alumni of the school on request.

Freshman Interest Groups

Freshman Interest Groups (FIGs) are sponsored by the school in four areas, atmospheric sciences ("Storm Chasers"), environmental science, natural resources and sport management. A learning community is also sponsored, comprised of members of the two FIGs and other students who live on the same dormitory floor. The FIG experience promotes a sense of community among students that increases the quality of all aspects of university life for incoming students.

Transfer Student Interest Groups

TRIGS, or Transfer Interest Groups, involve activities that are specifically designed to help transfer students make a smooth transition to the MU campus. The School of Natural Resources TRIG is composed of transfer students with common interests and majors. In addition to other activities, members of each TRIG take a 1 credit hour proseminar together during their first semester at MU. You do not need to live on campus to participate in a TRIG program. TRIGs are only open to transfer students who have completed 24 or more hours at their previous institution. There is no additional cost for participating in a TRIG, and they are a great way

to get to know campus and meet other students who are also making the same transition. TRIGs are available only for students planning to start at MU in the fall term.

Graduate

- MS in Natural Resources (p. 77)
 - with emphasis in Agroforestry (p. 77)
 - with emphasis in Fisheries & Wildlife Sciences (p. 78)
 - with emphasis in Forestry (p. 79)
 - with emphasis in Human Dimensions of Natural Resources (p. 80)
 - with emphasis in Parks, Recreation and Tourism (p. 80)
 - with emphasis in Soil, Environmental and Atmospheric Sciences (p. 81)
 - with emphasis in Water Resources (p. 83)
- PhD in Natural Resources (p. 85)
 - with emphasis in Fisheries & Wildlife Sciences (p. 85)
 - with emphasis in Forestry (p. 86)
 - with emphasis in Human Dimensions of Natural Resources (p. 87)
 - with emphasis in Soil, Environmental and Atmospheric Sciences (p. 88)
 - with emphasis in Water Resources (p. 89)

Undergraduate

Minor in Natural Resources

The natural resources minor requires that students select no more than 6 credits from a prearranged list of lower-division courses. The student also must select three additional upper-division courses, totaling at least 9 credits, from any curriculum within The School of Natural Resources.

Graduate

MS in Natural Resources

The MS in Natural Resources has emphasis areas in Agroforestry (p. 77), Fisheries & Wildlife Science (p. 78), Forestry (p. 79), Human Dimensions of Natural Resources (p. 80), Parks Recreation and Tourism (p. 80), Soil, Environmental and Atmospheric Sciences (p. 81), and Water Resources (p. 83). Please see the individual emphasis area pages for degree requirements and admissions information.

MS in Natural Resources with emphasis in Agroforestry

Dr. Shibu Jose
203 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
joses@missouri.edu
573-882-0240

Emphasis Area Focus

Agroforestry, as a farming system that integrates crops and/or livestock with trees and shrubs, has a long history of interdisciplinary research at the University of Missouri. The interdisciplinary emphasis area capitalizes on existing agroforestry research collaborations across The School of Natural Resources (SNR) departments in building an academic program that could attract and serve quality graduate students from Missouri, the nation and the world. The agroforestry emphasis area offers both a thesis and non-thesis option. The program also offers an online option designed for professionals working in natural resources around the globe who already have an undergraduate degree in a related field. Please visit the online webpage for more information: <http://online.missouri.edu/degreeprograms/agroforestry/index.aspx>

Admission Requirements

- Bachelor's degree in a relevant discipline from an accredited institution
- Undergraduate GPA: 3.0 on a scale of 4.0
- Graduate Record Exam score (GRE)*: verbal plus quantitative total of at least 1100 (300 on the new GRE)
- Students whose GPAs and GRE scores do not meet the requirements will be evaluated individually

**The GRE requirement may be waived under exceptional circumstances. Applicants will be reviewed on a case-by-case basis.*

How to Apply

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system.
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic ability and experience relevant to graduate study.
- Publications (optional)

Application Deadlines

Applications must be received by the following dates:

- March 15 for the summer semester
- May 15 for the fall semester
- Oct. 15 for the spring semester

Thesis option:

Students in the thesis option will complete 30 credit hours of course work with no more than 12 credits for thesis research. Students choosing the M.S. thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis option:

Students in the non-thesis option will complete 30 credit hours of course work with no more than 6 credits for a project. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial

enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

Timeline Requirements:

1. Within six month of initial enrollment in the emphasis area, students must submit a plan of study.
2. Within one year of initial enrollment in the emphasis area, students must present a written proposal of their research or project proposal to be reviewed and approved by members of the students' Masters Committee.
3. Students will submit a written thesis or project report following the guidelines specified by the Graduate School. All students must present a public oral defense of their dissertation or project announced at least two weeks prior to the defense date. Electronic media may be used to facilitate the defense for online/distance education students when appropriate.
4. All students will submit an annual report of their progress as required by the MU Graduate School.

Agroforestry Emphasis Area Coursework Requirements

Students seeking the agroforestry graduate emphasis will develop their course of study to incorporate 12 hours of a core curriculum of designated courses. This has been designed to include theoretical foundations in both the biophysical and socioeconomic components of agroforestry. The curriculum leads the student through a progression of learning and applying concepts related to (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation (Table 1).

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

Table 1. The 12-cr core curriculum for the Agroforestry Emphasis M.S. program

A. Agroforestry Fundamentals		
FOREST 4385/7385	Agroforestry I: Theory, Practice and Adoption	3
B. Biophysical Foundation		
Choose Two		
FOREST 8385	Ecological Principles of Agroforestry	3
ENV_SC 4396/7396	Agroforestry for Watershed Restoration	3
NAT_R 7325	Introduction to Geographic Information Systems	3

MS in Natural Resources with emphasis in Fisheries and Wildlife Sciences

Application and Admission Information

Admission Contact Information
 Graduate Secretary
 302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
 Janice Faaborg; faaborgje@missouri.edu; 573-882-9422 or Karen Decker; deckerkf@missouri.edu; 573-882-3436

Admission Criteria

Fall deadline: Rolling

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	
On or After August 1, 2011	1100 equivalent scores	

- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.
- Experience in research or management of natural resources. Practical skills are strongly considered.

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system

- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Resumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

Degree Completion Requirements

Master's students must complete, with a B average or better, a minimum of 30 hours of course work (15 hours or more at the 8000 course level). Research, problems, special investigations, and special readings courses shall not exceed 12 of the 30 hours.

Plan of Study

Candidates are expected to design and have approved by their committee a plan of study during their first semester in residence and a thesis proposal by their second semester.

Thesis & Oral Examination

A thesis acceptable to the student's graduate committee shall be completed and defended in a final oral examination; all candidates must complete the oral examination and a final thesis seminar before the degree is conferred.

MS in Natural Resources with emphasis in Forestry

Admission Contact Information
 Dr. Stephen G. Pallardy
 203 ABNR Bldg.
 PallardyS@missouri.edu

The master's degree in natural resources with an emphasis forestry is designed for students with an undergraduate degree in forestry or in one of the biological, physical or social sciences basic to forestry. The MS degree may lead students with previous professional education in forestry to prepare for research and or teaching, or to provide greater depth in a specialized area.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor on original research, with the approval of a graduate committee. Advanced coursework is expected to complement and enhance the research project. Students generally complete a thesis and are expected to publish their research results in peer-reviewed scientific journals. A non-thesis option also is available that requires original research normally culminating in authorship of a substantial research paper.

Students without a Forestry Undergraduate Degree

Those without a baccalaureate degree in forestry may wish to further their education in forest science or to attain professional competence by completing course work in forestry. Work required of students without a forestry degree who want a professional forestry education includes courses in dendrology, utilization of forest resources, resource measurements, forest inventory, forest fire control and use, forest ecology, silviculture, forest information systems, watershed management, forest management, forest economics, and public resource policy. Some of these courses do not carry graduate credit.

Admission Criteria

Fall deadline: May 15
 Spring deadline: October 15
 Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)	
80	550	
• Minimum GRE scores:		
When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	
On or After August 1, 2011	300	

* 50th percentile or higher preferred in each category.

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

To the Program:

- Departmental application (use form)
- GRE scores

Plan of Study

To attain the master's degree, 30 hours of course work must be completed; 15 hours or more must be 8000+ level. Research, problems, special investigations and special readings courses must not exceed 12 of the 30 hours. The GPA of all course work submitted for the degree must be 3.0 or better.

Thesis & Exams

A master's thesis, or a minimum of 5 semester hours of non-thesis research acceptable to the student's committee, shall be completed before the final examination. Research toward a thesis normally shall not exceed 8 hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is given to all candidates before completion of the degree.

MS in Natural Resources with emphasis in Human Dimensions of Natural Resources

Application and Admission Information

Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
nilonc@missouri.edu; 573-882-3738

Emphasis Area Focus

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples' attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Admission Criteria

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- GRE Required

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest

- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic ability and experience relevant to graduate study
- Publications (optional)

Coursework Requirements

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

Thesis Option

Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option

Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

MS in Natural Resources with emphasis in Parks, Recreation and Tourism

Admission Contact Information

Dr. Sonja A. Wilhelm Stanis
Department of Parks, Recreation and Tourism (<http://snr.missouri.edu/prt>)
105 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
sonjaws@missouri.edu; 573-882-9524

Emphasis Area Focus

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage leisure service delivery systems by combining theory with practice. This degree is designed to prepare students for

advanced positions in the parks, recreation, tourism and sport profession or admission into doctoral programs.

The M.S. is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research study and corresponding coursework, with the approval of a graduate committee. Students who complete a thesis are encouraged to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Application and Admission Information

Submit all required documents in electronic format in the Graduate School's Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. Contact the emphasis coordinator or School of Natural Resources Director of Graduate Programs if your experience any difficulties.

Admission Criteria

Fall deadline: Rolling

- GRE required
- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- To be accepted as a candidate for the degree, an applicant must possess an undergraduate degree and academic performance that displays a breadth and depth of university education in social, behavioral, mathematical and natural sciences and major-specific coursework.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- Statement of purpose
- Resume or CV
- Unofficial college transcripts (you will be required to submit official transcripts if accepted)
- GRE scores
- TOEFL scores (for international applicants)
- Three letters of recommendation (use provided form and submit letters online)
- Department application for assistantship (optional)

Once all these items have been received, the faculty will begin our deliberations for acceptance into our program. **No student is accepted without an adviser.** It is possible that you meet minimum requirements for entrance but be denied acceptance because no adviser is able to sponsor your degree program. We strongly encourage you to email or contact the professors you are interested in working with. Direct contact is a good way to introduce yourself as well as get additional information about the program

Plan of Study

The Master's degree is usually completed in four semesters of study. Students work closely with their advisor to select appropriate coursework that culminates in research or creative scholarly activity.

Thesis Option

The thesis option requires a minimum of 30 credit hours, including at least 15 hours at the 8000 level (of which, 12 hours must be theory-based courses within the major) and no more than 12 credits for thesis research, problems, and special readings courses. A proposal and oral defense of the thesis are required.

Non-Thesis

This option requires a minimum of 39 hours, including at least 15 hours at the 8000 level (of which, 12 hours must be theory-based courses in the major) and no more than 12 credits for project research, problems, and special readings courses. Students must give an oral presentation of their project report before graduation.

Financial Aid from the Program

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for departmental funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences

Admission Contact Information

Dr. Peter Motavalli, emphasis area coordinator
 (motavallip@missouri.edu)
 Department of Soil, Environmental and Atmospheric Sciences
 University of Missouri
 302 Anheuser-Busch Natural Resources Building
 Columbia, MO 65211 USA
 573-884-3212

The M.S. degree in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (SEAS) is divided into three focus areas: soil science, environmental science or atmospheric science. Graduate candidates in the SEAS emphasis area must select one focus area of study and meet the admission criteria and degree requirements for the selected area.

Recommended Preparation

Appropriate undergraduate majors in preparation for graduate studies in the soil, environmental and atmospheric emphasis area include: agronomy, atmospheric science, biochemistry, biology, biogeochemistry, botany, chemistry, earth science, civil and environmental engineering, environmental science, forestry, geosciences, hydrology, mathematics, microbiology, physics, soil science, and watershed management. Check with the Emphasis Area Coordinator for specific recommendations for preparation for each graduate focus area.

Admission Criteria

Deadline: two months prior to the start of the academic semester for which the applicant is applying

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
71	530

Minimum Academic IELTS overall score:

Item	Score
IELTS	5.5

Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	3.5
On or After August 1, 2011	300	3.5

Completion of a BS Degree

Undergraduate GPA of 3.0 for the last 60 hours of coursework

- **Atmospheric science focus area applicants:** undergraduate program should include integral calculus and one year of college physics.
- **Environmental science focus area applicants:** undergraduate program should include general and organic chemistry, introductory biology, calculus, geology, physics, and ecology.
- **Soil science focus area applicants:** completed courses in general and organic chemistry, calculus, geology and physics. Inadequacies in courses must be remedied through additional course work immediately after admission.

All applications and supporting application materials for graduate admission into the M.S. program with emphasis in SEAS must be submitted to the Graduate School using the Apply Yourself online application system. The focus area of interest should be indicated in the application.

Required Application Materials:

- Letter of self-evaluation
- GRE score report
- Three letters of recommendation
- Official transcripts
- Official scores from TOEFL or another approved test of English proficiency is required from international applicants.

Submit all required documents in electronic format in the Graduate School's Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system.

MS Degree Requirements

The degree program with emphasis in SEAS must include 30 hours of graduate credit, with at least 15 hours comprised of 8000- or 9000-level courses. Not more than 12 hours of the minimum 30 hours are permitted for research, problems, special investigations and special readings. A minimum of one credit hour of graduate seminar must be included in each student's graduate program.

All students enrolled in graduate programs are required to participate in a supervised teaching activity.

All students are required to attend a workshop on ethics and professionalism.

Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.

For an atmospheric science focus area, appropriate atmospheric science courses must be selected and approved in consultation with the student's advisor and graduate thesis committee.

For a soil science focus area, at least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program. To meet the six credit hour requirement, courses must be selected from the following list of approved environmental science courses:

ATM_SC 7520	Environmental Biophysics	3
ENV_SC 7305	Environmental Soil Physics	3
ENV_SC 7306	Environmental Soil Physics Laboratory	2
ENV_SC 7312	Environmental Soil Microbiology	3
ENV_SC 7318	Environmental Soil Chemistry	3
ENV_SC 7320	Hydrologic and Water Quality Modeling	3
ENV_SC 8400	Solute Transport in the Vadose Zone	3
ENV_SC 8500	Chemistry of the Vadose Zone	3
FOREST 7390	Watershed Management and Water Quality	3
FOREST 8390	Physical Hydrology	3
SOIL 7308	Soil Conservation	3
SOIL 7313	Soil Fertility and Plant Nutrition	3
SOIL 7314	Soil Fertility and Plant Nutrition Laboratory	2
SOIL 7320	Genesis of Soil Landscape	4
SOIL 9414	Advanced Soil Fertility	3
SOIL 9422	Pedology	3
Total Credits		47

To complete the environmental science focus area, an additional six credit hours must be selected from courses listed above or from the following departments: biochemistry, biological engineering, biological sciences, chemical engineering, chemistry, civil and environmental engineering, fisheries and wildlife sciences, forestry, geography, geological sciences, and natural resources. Selection of these courses will be determined in consultation with faculty members serving on a student's thesis committee.

Thesis

A thesis, which is a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student's graduate committee and successfully defended.

Non-Thesis Option

Under special circumstances, a non-thesis program in the soil science, environmental science or atmospheric science focus area may be approved by the student's advisory committee, the SEAS Emphasis Area Coordinator and the Director of Graduate Studies. Not more than 6 hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student's graduate program. The student is required to participate

in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student taking the non-thesis option, the proposed course plan, and a project for the student to complete to meet the requirements of the non-thesis option. The student will complete a written report for the project which must be approved by the student's advisory committee.

Financial Aid from the Program

Check the program website (<http://www.snr.missouri.edu/seas/academics/graduate-program.php>) or contact the program for details on scholarships or graduate assistantships that may be available.

Integrated B.S./M.S. Program

Undergraduate students enrolled in the Department of Soil, Environmental and Atmospheric Sciences (SEAS) are eligible to apply for the integrated degree program in soil, environmental and atmospheric sciences that will enable outstanding undergraduates to obtain a B.S. and a M.S. (thesis required) after the successful completion of both degree requirements in five years. The program provides a challenging curriculum that will include opportunities and training in undergraduate and graduate-level research and prepare the student for a successful professional career. Increasingly, employers in competitive technical fields are looking for highly-motivated students with graduate training to meet the demands for their work force and this program will provide talented students with a unique and expedited pathway to develop their educational background and professional skills.

Overview

Undergraduate students in SEAS interested in the integrated B.S./M.S. program will be encouraged to participate in an undergraduate research experience during the summer of their sophomore year. They will apply and then be selected to enter the integrated B.S./M.S. program during the second semester of their junior year. Selected students will need to meet admission requirements for the Graduate School. Once selected the students will initiate work on their research during the summer of their junior year. During their senior year they will complete their undergraduate credits and can take up to 12 graduate-level credits (courses with numbering 7000 or higher) under MU's dual enrollment program. After completing the B.S. degree, students will continue their research and take the remaining coursework on their M.S. plan of study necessary to meet the 30 credit hour minimum required by the Graduate School for the M.S. degree. Several scholarships are currently available at the University of Missouri to assist outstanding students for the costs of their undergraduate and graduate education and for conducting undergraduate research, including the Honors College Discovery Fellowships Program and CAFNR and Life Sciences Undergraduate Research Fellowships.

Admission Procedures

Students seeking admission into the program should submit an application to the SEAS Emphasis Area Coordinator at the beginning (i.e., January 30th) of the Spring semester of their junior year. A faculty committee will consider several criteria for admission into the Integrated B.S./M.S. Program including:

1. the student's undergraduate GPA (60 or more credits; minimum GPA of 3.5 at the time of enrollment)

2. a formal statement of interest indicating the intended emphasis area (i.e., soil science, environmental science or atmospheric science)
3. three letters of recommendation with one letter being a formal nomination letter from a SEAS Department faculty member

A student who meets the eligibility requirements will be extended an offer of admission by the middle of the Spring semester. All students must select a faculty mentor/advisor after admission to the program. A faculty advisory committee will be selected for each student and they will meet during the semester to approve a course of study and assist the student in designing and conducting their research program. Students will prepare a research proposal to be reviewed and accepted by their advisory committee. After approval of the research proposal, students will initiate their research during the summer of their junior year. Formal application of the student into the Graduate School will take place during the final semester of the student's senior year and is contingent on the student's successful completion of B.S. degree requirements and meeting eligibility requirements for the graduate program. Students will be required to maintain a cumulative 3.0 GPA during the program, write an M.S. thesis and meet other M.S. degree requirements.

For more information about the program, contact either of the following people:

Dr. Neil Fox, Undergraduate Advisor Chair
Department of Soil, Environmental and Atmospheric Sciences
University of Missouri
302 ABNR Bldg
Columbia, MO 65211 USA

MS in Natural Resources with emphasis in Water Resources

Admission Contact Information

School of Natural Resources
Water Resources Emphasis Area
203-Q Anheuser-Busch Natural Resources Building
573-884-7732

Director of Graduate Studies:

Dr. Jason A. Hubbart
203-Q ABNR Building
573-884-7732
HubbartJ@Missouri.edu

The Water Resources emphasis area is an interdisciplinary graduate degree program encompassing all fields of natural sciences and, through

collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

Water Resources Program Description

The Water Resources graduate emphasis area offers an M.S. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and International water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global impact by graduating highly qualified internationally aware water resource professionals.

Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for MS programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.

Application Process

Interested applicants should forward by email a copy of their transcript, curriculum vitae, recent GRE scores, recent TOEFL scores (if appropriate), cover letter, a letter describing research interests (2 page limit), a letter describing career goals (2 page limit), and the names and contact information of three references. Documents should be forwarded to the Emphasis Area Director of Graduate Studies and prospective program Advisor. Graduate applications will be distributed by the Director of Graduate Studies (DGS) and reviewed by the prospective advisor and two emphasis area participating faculty.

Admissions Course Requirements

Coursework in the following areas are required for (M.S.) admission to the Water Resources graduate degree program. Entry requirements can be waived under extraordinary circumstances. Provisional admission for M.S. students may be granted to those who have completed the majority

of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (3 credits)
- Chemistry (3 credits)
- Physics (3 credits)
- Biology/Ecology (3 credits)

Admission Criteria

Fall deadline: May 15

Spring deadline: October 15

Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Preferred GRE scores:
 - Old Scoring (before 07-30-2011): Verbal # 600, Quantitative # 600, Writing # 3.5
 - New Scoring (after 08-01-2011): Verbal # 160, Quantitative # 148, Writing # 3.5
- Minimum TOEFL scores:
 - Paper Based (PBT): 550
 - Internet Based (iBT): 80
- Minimum IELTS score: 5.5

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of qualifications, experiences, and professional goals

To the Graduate Emphasis Area Coordinator:

- Please see "Application Process" above.

Water Resources: Masters of Science Requirements

<http://gradschool.missouri.edu/policies/index.php>

To attain the master's degree, 30 hours of course work must be completed, and 15 hours or more shall be 8000 level. Not more than 40 percent of the 30 hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses. A maximum of 20 percent of the number of credit hours required for a student's degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Graduate School.

Required coursework and research activities are determined by the student's graduate committee. The graduate committee must consist of at least 3 members with one faculty member outside the Emphasis Area. The GPA of all course work submitted for the degree must be 3.0 or better.

A thesis shall be completed before the final examination. Research credits toward a thesis normally shall not exceed eight hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is provided by all candidates before completion of the degree.

Forms and Timelines for Master’s students:

<http://gradschool.missouri.edu/forms-downloads/index.php>

M1 Plan of study for Master’s Degree

<http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf>

Together with his/her advisor, the student completes this form and provides it to the Director of Graduate Studies in the emphasis area. This form provides the student, the department and the Graduate School with a plan for all course work, transfer credit and research hours that will comprise a student’s program of study. This form should be completed by the end of the second semester.

M2 Request for Thesis Committee

<http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf>

This form accompanies the M1, and should be submitted at the same time, by the end of the second semester. It is required of students who will be writing a thesis.

M3 Report of Master’s Examining Committee

<http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf>

This form reports the final results of 1) master’s thesis defense 2) master’s project presentation or 3) master’s comprehensive examination. Submit to the Graduate School as soon as possible after the exam, project presentation or thesis defense.

Thesis defense seminar

All students must present a defense seminar in advance of his/her final examination. The seminar must be publicized and the Director of Graduate Studies needs to be informed of the date as soon as the student arranges it, at least two weeks before the seminar. If the seminar is not appropriated announced, it may be considered invalid.

M.S. Committee Meeting Minimum Requirements

M.S. Students must meet with their committee at least twice during their degree seeking program.

First meeting: Present a written research proposal, provide a proposal presentation to the committee and present their M1, and M2 for approval and signing.

Second meeting: Often following public thesis defense. Defend thesis, present M3 for approval and signing.

Water Resources: Master’s Graduation Guidelines

Each student must complete the application for graduation early in the last semester of enrollment. The student is to inform the Director of

Graduate Studies of his / her intention to graduate. Students are to apply for graduation directly to the Graduate School. NOTE: Deadlines are early in the semester.

<http://gradschool.missouri.edu/academics/graduation-commencement/application-for-graduation.php>

Thesis Guidelines

Every candidate should review the “Guidelines for Preparing Theses and Dissertations” from the Graduate School and should consult the Water Resources Director of Graduate Studies for academic program style requirements.

<http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline/index.php>

Graduate Student Publication Requirements

M.S. Students are required to publish at least one article in the primary literature stemming from their master’s thesis. In most cases, the article should be submitted to a peer reviewed journal prior to graduation.

Graduate Student Conference Requirements

M.S. Students are required to present their research at one or more professional conferences during matriculation.

PhD in Natural Resources

The PhD in Natural Resources has emphasis areas in Fisheries & Wildlife Sciences (p. 85), Forestry (p. 86), Human Dimensions of Natural Resources (p. 87), Soil, Environmental & Atmospheric Sciences (p. 88), and Water Resources (p. 89). Please see the individual emphasis area pages for degree requirements and admissions information.

PhD in Natural Resources with emphasis in Fisheries and Wildlife Sciences

Admission Contact Information

Graduate Secretary
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
Janice Faaborg; faaborgje@missouri.edu; 573-882-9422 or
Karen Decker; deckerkf@missouri.edu; 573-882-3436

Admission Criteria

Fall deadline: Rolling

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	

On or After August 1, 2011 1100 equivalent scores

- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.
- Experience in research or management of natural resources. Practical skills are strongly considered. Admission Criteria

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

PhD Degree Completion Requirements

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in fisheries and wildlife and have completed independent research contributing to knowledge in the field.

Doctoral Committee

A student pursuing a PhD is expected to pass qualifying, comprehensive, and final examinations administered by the student's doctoral committee. The committee shall be composed of a minimum of 4 members of the MU graduate faculty and will include at least 3 members from the student's doctoral degree program and 1 outside member from a different MU

program. At least 2 of the committee members must be MU doctoral faculty.

Qualifying Examination

The qualifying examination includes a general knowledge examination and is designed to evaluate the student's background and determine areas that require further course work.

Plan of Study

The doctoral plan of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credits, and research hours. This program must include at least 15 hours of 8000- and 9000-level course work exclusive of problems, readings, and research credits. Up to 30 hours from an accredited master's program may be applied to the plan of study, subject to committee approval.

Residency Requirement

Students enrolled in the PhD program must also satisfy a residency requirement of at least 3 consecutive semesters in which the student is in residence on the MU campus and enrolled for 6 or more credit hours, unless a prior exception is approved by the director of graduate studies.

PhD in Natural Resources with emphasis in Forestry

Admission Contact Information

Dr. Stephen G. Pallardy
203 ABNR Bldg.
Columbia, MO 65211
pallardys@missouri.edu

Doctorate in Forestry

The PhD degree in forestry is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the PhD program will often have a master's degree, but this is not an absolute requirement.

PhD candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a doctoral committee. Students are expected to engage in coursework to prepare for careers in research, industry or academia. The Department of Forestry expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. Ph.D. candidates complete a dissertation and are expected to publish their research results in peer-reviewed scientific journals.

Admission Criteria

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical

Prior to August 1, 2011	1100
On or After August 1, 2011	300

* 50th percentile or higher preferred in each category.

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

To the Program:

- Departmental application (use form)
- GRE scores

Doctoral Committee in Forestry

The student pursuing the doctoral program is expected to pass qualifying, comprehensive and final examinations administered by the student's doctoral committee. This committee is structured as defined by the MU Graduate School and must have a minimum of 4 members, at least 3 members must be from the student's doctoral degree program and 1 outside member from a different MU program. The Forestry Department strongly recommends a 5-person committee for Ph.D. students. At least 2 of the committee members must be MU doctoral faculty.

Doctoral Qualifying Examination

The qualifying examination determines whether the student's background is adequate to enter the PhD program. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work or areas that prohibit entry into the program.

Doctoral Comprehensive Examination

The objectives of the comprehensive examination are twofold:

1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration
2. to evaluate the candidate's capacity to apply that knowledge in solving applied or theoretical problems.

Final Examination

The final examination is directed primarily toward exploration of the dissertation research project.

Foreign Language Requirements

Requirements for foreign language and a collateral field, if any, are determined by the student's doctoral committee. The doctoral committee is expected to make an assessment of the student's needs as they relate to the student's background and educational objectives.

Dissertation

An independent scholarly dissertation approved by the student's advisor and doctoral committee must be completed.

Graduation Requirements

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in forestry and have completed significant independent research in their field.

PhD in Natural Resources with emphasis in Human Dimensions of Natural Resources

Application and Admission Information

Dr. Charles Nilon

302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
nilonc@missouri.edu; 573-882-3738

Emphasis Area Focus

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples' attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The Ph.D. degree in HDNR is designed to prepare students for careers in academic research and teaching, or advanced scientific professions. The Ph.D. degree is conferred upon students who have demonstrated a high level of achievement in their particular specialization and have completed independent research contributing to knowledge in their respective field.

Admission Criteria

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- GRE Required
- Students are expected to have completed a Master's or equivalent degree at the time they start their doctoral program

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic ability and experience relevant to graduate study

- Publications (optional)

Coursework Requirements

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

Doctoral Degree Requirements

The HDNR doctoral program of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credit from a Masters or equivalent degree, and research hours. Doctoral students will be expected to follow a timeline toward completion of their degree:

1. Within one year of initial enrollment in the emphasis area, doctoral students must pass a written qualifying examination and submit a plan of study as defined by the Graduate School.
2. Within three years of initial enrollment in the emphasis area, doctoral students must present a written proposal of their research and an oral defense of that proposal to be reviewed and approved by members of the students' doctoral committee.
3. Within three years of initial enrollment in the emphasis area, doctoral students must pass a written and oral comprehensive examination. The oral portion of the comprehensive examination may be combined with the research proposal oral defense.
4. Doctoral students will submit a written dissertation following the guidelines specified by the Graduate School. All doctoral students must present a public oral defense of their dissertation announced at least two weeks prior to the defense date.

PhD in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences

Admission Contact Information

Dr. Peter Motavalli, Emphasis Area Coordinator
 (motavallip@missouri.edu)
 302 Anheuser-Busch Natural Resources Building
 Columbia, MO 65211 USA
 573-884-3212

The Ph.D. degree in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (SEAS) is divided into two focus areas: soil science or atmospheric science. Graduate candidates in the SEAS emphasis area must select one focus area of study and meet the admission criteria and degree requirements for the selected area.

Admission Criteria

Deadline: two months prior to the start of the academic semester for which the applicant is applying

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
71	530

- Minimum Academic IELTS overall score:

Item	Score
IELTS	5.5

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	3.5
On or After August 1, 2011	300	3.5

- Completion of an MS degree or equivalent. A waiver of the MS degree requirement may be made by the candidate's doctoral program committee.

Note: All applications and supporting application materials for graduate admission into the SEAS emphasis area must be submitted to the Graduate School using the Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. The focus area of interest should be indicated in the application.

Required Application Materials

- Letter of self-evaluation
- GRE score report
- Three letters of recommendation
- Official transcripts
- Official scores from TOEFL or another approved test of English proficiency is required from international applicants.

Submit all required documents in electronic format to the Graduate School's Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online system. The focus area of interest should be indicated in the application.

PhD Degree Requirements

The curriculum is developed by a doctoral program committee and requires a minimum of 72 semester hours beyond the baccalaureate degree. At least 15 hours of course work in the degree program must be at the 8000 and 9000 levels, exclusive of research, problems and independent study experiences. A minimum of two credit hours of graduate seminar must be included in each student's graduate program.

At least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program in the soil science focus area.

All students are required to attend a workshop on ethics and professionalism.

Qualifying Exam

The student should take the qualifying examination soon after admission into the PhD program and submit an approved plan of study to the Graduate School. It is departmental policy that a student is only allowed one opportunity to pass the qualifying exam.

Teaching

All students enrolled in graduate programs are required to participate in a supervised teaching activity.

Comprehensive Exam

After successfully completing the required course work with a GPA of 3.0 (A=4.0) or better, students must pass a written and oral comprehensive examination administered by their doctoral program committee.

Dissertation

A dissertation, which is a comprehensive report of original research on a specialized soil or atmospheric science problem conducted by the student, must be presented to the student's graduate committee and successfully defended.

Financial Aid from the Program

Check the program website (<http://www.snr.missouri.edu/seas/academics/graduate-program.php>) or contact the the program for details on scholarships or graduate assistantships that may be available.

PhD in Natural Resources with emphasis in Water Resources

Admissions Contact Information

School of Natural Resources
Water Resources Emphasis Area
203-Q Anheuser-Busch Natural Resources Building
573-884-7732

Director of Graduate Studies

Dr. Jason A. Hubbart
203-Q ABNR Bldg
573-884-7732
HubbartJ@Missouri.edu

The Water Resources emphasis area is an interdisciplinary graduate degree program encompassing all fields of natural sciences and, through collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

Water Resources Program Description

The Water Resources graduate emphasis area offers a Ph.D. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and International water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global

impact by graduating highly qualified internationally aware water resource professionals.

Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for Ph.D. programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.

Application Process

Interested applicants should forward by email a copy of their transcript, curriculum vitae, recent GRE scores, recent TOEFL scores (if appropriate), cover letter, a letter describing research interests (2 page limit), a letter describing career goals (2 page limit), and the names and contact information of three references. Documents should be forwarded to the Emphasis Area Director of Graduate Studies and prospective program Advisor. Graduate applications will be distributed by the Director of Graduate Studies (DGS) and reviewed by the prospective advisor and two emphasis area participating faculty.

Admissions Course Requirements

Coursework in the following areas are required for (Ph.D.) admission to the Water Resources graduate degree program. Entry requirements can be waived under extraordinary circumstances. Provisional admission for Ph.D. students may be granted to those who have completed the majority of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (3 credits)
- Chemistry (3 credits)
- Physics (3 credits)
- Biology/Ecology (3 credits)

Admission Criteria

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Preferred GRE scores:
 - Old Scoring (before 07-30-2011): Verbal # 600, Quantitative # 600, Writing # 3.5
 - New Scoring (after 08-01-2011): Verbal # 160, Quantitative # 148, Writing # 3.5
- Minimum TOEFL scores:
 - Paper Based (PBT): 550
 - Internet Based (iBT): 80
- Minimum IELTS score: 5.5

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of qualifications, experiences, and professional goals

To the Graduate Emphasis Area Coordinator:

- See "Application Process" above.

Water Resources: PhD Students Requirements

Students in the proposed degree Program must at least meet the general requirements (<https://gradschool.missouri.edu/policies>) of the University of Missouri Graduate School for the Ph.D. degree.

The Water Resources Emphasis Area Faculty and the School of Natural Resources of the University of Missouri award the Ph.D. degree only to those students who have completed necessary coursework and accomplished an independent research project resulting in a dissertation.

The Ph.D. degree in the emphasis area is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. The student pursuing the doctoral degree is expected to pass a qualifying, comprehensive and final comprehensive examination administered by the student's Advisor and doctoral committee. This committee is structured at a minimum as defined by the MU Graduate School and must have at least one representatives from a discipline outside the emphasis area and must consist of at least 4 members. An independent scholarly dissertation approved by the student's advisor and program committee must be completed in a form acceptable to the doctoral committee, and MU Graduate School.

The Ph.D. degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in water resources and have completed independent research contributing to knowledge in the field.

Credit requirement:

1. MU requires a minimum of 72 hrs beyond the Baccalaureate degree for the Ph.D.
2. The committee may recommend that a certain number of credits be transferred from the Master's degree toward the Ph.D.
3. A maximum of 30 hours of post#baccalaureate graduate credit from an accredited university can be transferred toward the PhD degree program.
4. The program must include a minimum of 15 hours of 8000 level course work, exclusive of problems, readings and research.

Qualifying Examination:

The qualifying examination determines whether the student's background is adequate to enter the Ph.D. program, as a candidate. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work.

Therefore, it is advisable that the student work with their advisor to select a committee and complete the qualifying exam within the first 2 semesters of matriculation.

Comprehensive Examination:

The comprehensive examination is taken following the completion of most if not all, the course work requirements established by the graduate committee.

The objectives of the comprehensive examination are twofold:

1. To determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration; and
2. To evaluate the candidate's capacity to apply that knowledge in solving applied or theoretical problems.

Dissertation Defense Seminar:

The DGS must be informed of the dissertation defense seminar at least two weeks in advance of the seminar. It must be well advertised and open to the public.

Water Resources: Doctoral Graduation Guidelines

Each student (Ph.D.) is to complete the application for graduation (<http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/doctoral-timeline.php>) early in the last semester of enrollment. The student is to inform the Director of Graduate Studies of his/her intention to graduate. And students are to apply for graduation directly to the Graduate School. Deadlines are early in the semester.

Dissertation Guidelines

Every candidate should review the Dissertation & Thesis Guidelines (<http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline>) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

Ph.D. Committee Meeting Minimum Requirements

Ph.D. Students must meet with their committee at least three times during their degree seeking program.

- First Meeting: Present a written research proposal, provide a proposal presentation to the committee and present the D1 and D2 for approval and signing.
- Second Meeting: Comprehensive exam committee meeting.
- Third Meeting: Often following public dissertation defense. Defend dissertation, present D3 and D4 for approval and signing.

Graduate Student Publication Requirements

Ph.D students are required to publish at least three articles in the primary literature stemming from their dissertation; at least one prior to graduation (requirements may vary by advisor).

Graduate Student Conference Requirements

Ph.D. students are required to present their research at two or more professional conferences during matriculation.

Doctoral Forms

Doctoral Timeline for Graduation & Commencement (<http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/doctoral-timeline.php>)

D-1 Qualifying Examination Results and Doctoral Committee Approval Form (<http://gradschool.missouri.edu/forms-downloads/repository/d1.pdf>)
Submission of this form follows a meeting of the student's graduate committee and approval by the committee, of the student's proposal and plan of research and coursework. This form is to be submitted to the Graduate School no later than the end of the student's second semester of enrollment.

D-2 Plan of Study for the Doctoral Degree Form (<http://gradschool.missouri.edu/forms-downloads/repository/d2.pdf>)
This form accompanies the D#1, and is also to be submitted to the Graduate School no later than the end of the student's second semester of study. Doctoral students must take a minimum of 15 hours of regular 8000/9000 level coursework. This regular coursework cannot include Problems, Independent Readings, Research or other independent study courses.

D-3 Doctoral Comprehensive Examination Results Form (<http://gradschool.missouri.edu/forms-downloads/repository/d3.pdf>)
These forms should be completed and filed with the Graduate School within one month of exam completion.

D-4 Report of the Dissertation Defense Form (<http://gradschool.missouri.edu/forms-downloads/repository/d4.pdf>)
This form should be completed and filed with the Graduate School as soon as possible after the defense. Prior to degree complete, PhD student are required to complete additional forms. See the Graduate school webpage.

Parks, Recreation and Tourism

D. R. Vaught, Chair
 School of Natural Resources
 105 Anheuser-Busch Natural Resources Building
 Phone: (573) 882-7086
 Fax: (573) 882-9526
 vaughtdr@missouri.edu
<http://snr.missouri.edu/prt/academics/parks-rec-tour.php>

The Department of Parks, Recreation and Tourism is among the oldest nationally accredited programs in the United States. Emphasis areas include: leisure service management (Recreation, Youth Development and Fitness), natural resource recreation management, and sport management. The department integrates classroom learning with applied research and internship experiences and is a leader in technology infusion.

All students are required to complete an internship placement, normally taken during the last year of study and after completing all core courses. The semester-long internship is with an on or off-campus agency or organization chosen by the student and faculty. Regional, national and international internship placements are possible. Students may receive direct financial assistance from the agency or organization during the internship. Internships outside the state of Missouri require a 2.5 GPA.

The department offers BS in Parks, Recreation and Tourism and MS in Natural Resources.

Admission

It is possible for students who have a broad, liberal education to transfer into the department without a significant time penalty toward graduation. CLEP credits are accepted and evaluated on an individual basis. Minimum GPA of 2.5 required.

Faculty

- Associate Professor** G. L. Hitzhusen*, J. M. Morgan*
- Assistant Professor** S. A. Wilhelm-Stanis**
- Associate Teaching Professor** D. R. Vaught*
- Assistant Teaching Professor** G. Yan*, J. R. Upah*, K. J. Lee, N. M. Watanabe*,
- Adjunct Professor** D. Eiken*
- Instructor** T. Balthazor*
- Director of Internships** J. R. Upah*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
 ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Parks, Recreation and Tourism (p. 92)
 - with emphasis in Leisure Service Management (p. 94)
 - with emphasis in Natural Resource Recreation Management (p. 94)
 - with emphasis in Sport Management (p. 94)
 - with emphasis in Tourism Development (p. 94)

Honors

Students who graduate with the following cumulative GPA values are awarded the baccalaureate degree accordingly:

3.50-3.69	cum laude
3.70-3.89	magna cum laude
3.90 +	summa cum laude

Graduate

School of Natural Resources
 105 Anheuser-Busch Natural Resources Building
 573-882-7086

Parks, Recreation and Tourism's graduate program is housed under the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (p. 80). Please visit their page for more information.

Director of Graduate Studies: Dr. Sonja Wilhelm Stanis

About Parks, Recreation & Tourism

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage service delivery systems by combining theory with practice.

Career Preparation

The purpose of graduate study is to promote research and scholarship as the foundation of professional excellence, thus preparing candidates for management-level positions or admission to doctoral programs.

Undergraduate

BS in Parks, Recreation and Tourism

Major Program Requirements

Satisfactory completion of 120 credits is required: a minimum of 108 credits in course work and a 12-credit internship with a cumulative GPA of 2.0. Professional preparation includes course work in a professional core, professional option requirements and electives, and an internship. Students must also complete all degree, department, college and university graduation requirements, including university general education (p. 18).

Students transferring into Parks, Recreation and Tourism from other MU degree programs or from other institutions must have a 2.5 GPA (past term and cumulative) for all work attempted.

(p. 92).

Plant Sciences

Division of Plant Sciences
College of Agriculture, Food and Natural Resources
52 Agriculture Laboratory
(573) 882-3001
Fax: (573) 882-2699

Division Director: Mike Collins

The Division of Plant Sciences was formed on August 1, 2005, through the consolidation of the former departments of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. Programs formerly housed in those departments now reside in the division. The Division of Plant Sciences provides leadership for plant, insect and microbe-based research, education and extension programs in the College.

The division is the sole academic program in the state to address issues related to plant production, plant protection and plant biology from the laboratory to the field. We intend to be at the national and international forefront of disciplinary and interdisciplinary research, extension and education in applied and basic aspects of plant sciences.

Division faculty contribute to advances in conventional, sustainable and alternative production systems, plant biology, genetics and breeding, plant protection and pest management, plant-insect/pathogen interactions, and plant-soil relationships.

Adjunct Assistant Professors I. Baxter, J. Benne, S. Flint-Garcia**, S. Gu, M. Kwasniewski, R. K. Lawrence*, H. J. Popham*, K. S. Shelby*, C. Taylor, P. L. Vincent*, J. Weirich, O. Yu

Senior Research Scientist H. M. Appel*

Professor Emeritus S. C. Anand, D. G. Blevins**, A. K. Chatterjee**, G. M. Chippendale, E. H. Coe*, L. Darrah, J. H. Dunn, A. Keaster, G. Krause, R. Mitchell, G. Neuffer, D. A. Slepser*, J.A. Wrather*

Associate Professor Emeritus R. Munson, B. Puttler
Curators' Professor Emeritus C. J. Nelson*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Plant Sciences (p. 97)
 - with emphasis in Breeding, Biology and Biotechnology (p. 98)
 - with emphasis in Crop Management (p. 99)
 - with emphasis in Horticultural Science and Design (p. 99)
 - with emphasis in Turfgrass Science (p. 99)
- Minor in Plant Sciences (p. 100)

smedar@missouri.edu

The Plant Sciences undergraduate major is a joint contribution of the disciplines of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. From the manipulation of genes to increasing crop productivity to improving the quality of life by enhancing the landscape, plant science students are engaged in the science and art of working with plants. Educational opportunities in plant science range from basic (genetics, biotechnology and physiology) to applied (crop production and protection, landscape design and turfgrass).

The division offers the BS degree with a major in Plant Sciences. Students in plant science initially receive a broad education in agriculture, the basic sciences and business. Later, they elect to enroll in a specific emphasis area designed to empower them to be competitive in career opportunities in that area. The emphasis areas are a series of interwoven courses in:

- Crop Management
- Horticultural Science and Design
- Breeding, Biology and Biotechnology
- Turfgrass Science

<http://plantsci.missouri.edu/graduate>

Director of Graduate Studies: James Schoelz

- MS in Plant, Insect and Microbial Sciences (p. 100)
- PhD in Plant, Insect and Microbial Sciences (p. 101)

The Division of Plant Sciences offers graduate programs leading to master of science and doctor of philosophy degrees in Plant, Insect and Microbial Sciences. A student can select training from a wide range of

courses and research programs to prepare for a career in research, teaching, industry and extension work.

The Division of Plant Sciences maintains excellent graduate programs with classroom instruction and research supervision provided by leading scientists in the field. A student can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or take advantage of the cross-disciplinary expertise that exists within the Division.

Programmatic Interactions

Students also benefit from interaction with closely allied academic units on and off campus. Students work with scientists in two campus-based USDA research units associated with the division: the Plant Genetics Unit and the Biological Control of Insects Research Laboratory. Additional opportunities exist for interaction with scientists at the Donald Danforth Plant Science Center in St. Louis. Numerous USDA and Danforth Center scientists hold adjunct appointments in the DPS. Students in the DPS are encouraged to interact with interdisciplinary programs on campus such as the Interdisciplinary Plant Group, the Molecular Biology Program, the Genetics Area Program, the Center for Agroforestry and the Missouri Precision Agriculture Center.

Areas of Study

A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Students may complete their graduate degrees through any of the Graduate Program Areas:

- Crop, Soil and Pest Management
- Entomology
- Horticulture
- Plant Breeding, Genetics and Genomics
- Plant Stress Biology

Undergraduate

BS in Plant Sciences

Major Program Requirements

In addition to CAFNR requirements and the university's general education (p. 18) and graduation requirements, the Division of Plant Sciences requires the following courses. The student must also select one emphasis area. Two writing intensive courses are required under university guidelines.

Major Core Requirements

Communications		
ENGLISH 1000	Exposition and Argumentation	3
COMMUN 1200	Public Speaking	3
or AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	
One of the following courses		3
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
SCI_AG_J 3210	Fundamentals of Communications	
SCI_AG_J 3240	Communicating on the Web	
COMMUN 3441	Nonverbal Communication	

COMMUN 3572	Argument and Advocacy	
COMMUN 3575	Business and Professional Communication	
THEATR 1400	Acting for Non-Majors	
C_S_D 1050	Signed English	
RU_SOC 2225	Science, Technology and Society	
ENGLISH 2030	Professional Writing	
ENGLISH 2010	Intermediate Composition	

Math and Science

MATH 1100	College Algebra	3
CHEM 1320	College Chemistry I	4
or CHEM 1100	Atoms and Molecules with Lab	
Any Chemistry or Biochemistry		3
BIO_SC 1200	General Botany with Laboratory	5
Social and Behavioral Sciences		9
Macro & Micro Economics		4
AG_EC 1041	Applied Microeconomics	3
or ECONOM 1014	Principles of Microeconomics	
AG_EC 1042	Applied Macroeconomics	3
or ECONOM 1015	Principles of Macroeconomics	
State Law Requirement (Select one of the following):		
HIST 1100	Survey of American History to 1865	
HIST 1200	Survey of American History Since 1865	
HIST 1400	American History	
HIST 2210	Twentieth Century America	
HIST 2440	History of Missouri	
HIST 4000	Age of Jefferson	
HIST 4220	U.S. Society Between the Wars 1918-1945	
HIST 4230	Our Times: United States Since 1945	
POL_SC 1100	American Government	
POL_SC 2100	State Government	

Humanistic Studies and/or Fine Arts

Courses may include:		6
AG_EC 3241	Ethical Issues in Agriculture	
SCI_AG_J 3210	Fundamentals of Communications	
AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
RU_SOC 1150	The Amish Community	

Major field requirements 61-67

Core Courses:

Select 20-21 credits from the following: 20-21

PLNT_S 2100	Introduction to Soils	
PLNT_S 2125	Plant Structure and Function	
SOIL 2106	Soil Science Laboratory	
PLNT_S 3130	Undergraduate Seminar in Plant Science	
PLNT_S 3225	Plant Breeding and Genetics	
or PLNT_S 3230	Plant Propagation	

Professional Skills (select one):

AG_ED_LD 2250	Introduction to Leadership	3
AG_ED_LD 2260	Team and Organizational Leadership	3
COMMUN 3575	Business and Professional Communication	
ENGLISH 2030	Professional Writing (Or other course approved by Division Advisor)	

Or other course approved by Division Advisor

Pest Sequence

Select two of the following: 5-8

PLNT_S 4500	Biology and Pathogenesis of Plant-Associated Microbes	
PLNT_S 3210	Principles of Weed Science	
PLNT_S 3710 & PLNT_S 3715	Introductory Entomology and Insect Diversity	
Emphasis Areas (select 1 from below)		3-12
Capstone Experience		
Within their last 45 hours, students must complete a capstone experience. This requirement may be met by completing any one of the following:		
PLNT_S 4940	Internship in Plant Science	
PLNT_S 4950	Undergraduate Research in Plant Science	
PLNT_S 4975	Advanced Landscape Design	
Business and Economics Courses		
AG_EC 1041 & AG_EC 1042	Applied Microeconomics and Applied Macroeconomics	
Business Electives (6 credits)		
(Choose from Accountancy, Agricultural Economics, Consumer and Family Economics, Finance, Management or Marketing)		
Electives:		
(the hours necessary to total 120 credits)		
Total Credits		150-169

For additional course options see General Education List at <http://generaleducation.missouri.edu/Courses> eligible must include an "HFA" in appropriate column.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall	CR Spring	CR	
HIST 1100	3 PLNT_S 2100	3	
BIO_SC 1200	5 AG_ED_LD 2220	3	
ENGLSH 1000	3 Elective	6	
MATH 1100	3 CHEM 1100	3	
Humanities Elective	3		
	17	15	
Second Year			
Fall	CR Spring	CR	
AG_EC 1041	3 AG_EC 1042	3	
Humanities Elective	6 PLNT_S 2125	3	
AG_S_M 2340	3 PLNT_S 3213	3	
CHEM 1320	4 Elective	3	
SOIL 2106	2 AG_EC 2183	3	
	18	15	
Third Year			
Fall	CR Spring	CR Summer	CR
PLNT_S 4500	4 PLNT_S 3130	1 PLNT_S 4940	1-3
RU_SOC 1150	3 PLNT_S 4313	3	
THEATR 1400	3 PLNT_S 4315	3	
PLNT_S 3275	3 PLNT_S 3225	3	
PLNT_S 3710	3 AG_EC 2225	3	
	Elective	3	
	16	16	1-3

Fourth Year		
Fall	CR Spring	CR
PLNT_S 3210	4 BIOCHM 2112	3
PLNT_S 3270	3 Electives	9
PLNT_S 3175	2	
Elective	3	
	12	12

Total Credits: 122-124

BS in Plant Sciences with Emphasis in Breeding, Biology and Biotechnology

Major Program Requirements

Manipulation of plants at the cellular and genetic level can lead to improvements in crop performance and resistance to pests, as well as increase plant users. Job opportunities from the laboratory to the field are widespread in seed and chemical industries around the world.

In addition to CAFNR requirements and the university general education (p. 18) and graduation requirements, the Division of Plant Sciences requires the following courses:

Emphasis Area Requirements		18
BIOCHM 3630	General Biochemistry	3
CHEM 2100	Organic Chemistry I	3
PLNT_S 3213	Genetics of Agricultural Plants and Animals	3
PLNT_S 3275	Grain Crops	3
SOIL 4313	Soil Fertility and Plant Nutrition	3
STAT 2530	Statistical Methods in Natural Resources	3
Emphasis Area Requirements fulfilled by core:		
PLNT_S 3225	Plant Breeding and Genetics	3
PLNT_S 4500	Biology and Pathogenesis of Plant-Associated Microbes	4
Select one course from each A, B and C option		10-11
A.		
PLNT_S 4400	Plant Anatomy	4
or BIO_SC 2300	Introduction to Cell Biology	
B.		
PLNT_S 4315	Crop Physiology	3
or PLNT_S 4320	Plant Physiology	
C.		
PLNT_S 4325	Field Crop Breeding	3
or BIO_SC 3210	Plant Systematics	
or BIO_SC 4660	Plant Population Biology	
Total		28-29

Semester Plan

Refer to the Semester Plan for the BS in Plant Sciences (p. 97).

BS in Plant Sciences with Emphasis in Crop Management

Major Program Requirements

The management of food and fiber crops is key to meeting the global demands for food and energy. There are many opportunities to improve plant growth by manipulating production practices and improving control of disease, insect, and weed pests.

In addition to CAFNR requirements and the university general education (p. 18) and graduation requirements, the Division of Plant Sciences requires the following courses:

Emphasis Area Requirements		16-17
BIO_SC 2200	General Genetics	4
or PLNT_S 3213	Genetics of Agricultural Plants and Animals	
PLNT_S 4313	Soil Fertility and Plant Nutrition	3
PLNT_S 4315	Crop Physiology	3
PLNT_S 4500	Biology and Pathogenesis of Plant-Associated Microbes	4
PLNT_S 4730	Insect Pest Management for Plant Protection	3
Emphasis Area Requirements fulfilled by core:		
PLNT_S 3210	Principles of Weed Science	4
PLNT_S 3225	Plant Breeding and Genetics	3
PLNT_S 3710	Introductory Entomology	3
PLNT_S 3715	Insect Diversity	2
System Options (select two)		6-7
PLNT_S 3240	Principles of Viticulture I	4
PLNT_S 3270	Forage Crops	3
PLNT_S 3275	Grain Crops	3
Management Options (select two)		6-7
PLNT_S 4325	Field Crop Breeding	3
PLNT_S 4340	Principles of Viticulture II	4
PLNT_S 4360	Precision Agriculture Science and Technology	3
Total		28-31

Semester Plan

Refer to the Semester Plan for the BS in Plant Sciences (p. 97).

BS in Plant Sciences with Emphasis in Horticultural Science and Design

Major Program Requirements

Trees, flowers and other ornamental plants add beauty to our landscape, preserve green space, and reduce the negative impacts of climate change. Other plants such as vegetables and fruits enhance human health. Career opportunities exist to design landscapes, improve the value and beauty of homes and businesses, as well as commercially grow horticultural crops in greenhouses and other settings.

In addition to CAFNR requirements and the university general education (p. 18) and graduation requirements, the Division of Plant Sciences requires the following courses:

Emphasis Area Requirements		9
PLNT_S 2075	Environmental Horticulture	3
PLNT_S 2210	Ornamental Woody Plants	3
PLNT_S 2215	Ornamental Herbaceous Plants	3
Emphasis Area Requirements fulfilled by core:		
PLNT_S 3230	Plant Propagation	3
PLNT_S 3710	Introductory Entomology	3
PLNT_S 3715	Insect Diversity	2
PLNT_S 4500	Biology and Pathogenesis of Plant-Associated Microbes	4

Select One of the Following Tracks:

(Note: Tracks do not appear on transcripts or diplomas)

Landscape Design & Maintenance Track		20
PLNT_S 2002	Topics in Plant Science - Biological/Physical/Mathematics	4
PLNT_S 2254	Landscape Design	3
PLNT_S 3210	Principles of Weed Science	4
PLNT_S 3250	Green Industry Bidding	1
PLNT_S 3355	Introductory Turfgrass Management	3
PLNT_S 3252	Arboriculture and Pruning	1
PLNT_S 4975	Advanced Landscape Design	4
Horticulture Production, Sales & Management Track		21-22
AG_EC 2223	Agricultural Sales	3
PLNT_S 3250	Green Industry Bidding	1
PLNT_S 3260	Greenhouse Management	4
PLNT_S 4365	Greenhouse Crops Production	4
PLNT_S 4940	Internship in Plant Science	3
BIO_SC 2200	General Genetics	4
or PLNT_S 3213	Genetics of Agricultural Plants and Animals	
Total		29-31

Semester Plan

Refer to the Semester Plan for the BS in Plant Sciences (p. 97).

BS in Plant Sciences with Emphasis in Turfgrass Science

Major Program Requirements

Creation and maintenance of high quality turf areas for sporting activities, home lawns, and utility areas are important. Careers are available to protect turf from pests and optimize growth; integrated strategies emphasize conservation of water and other natural resources.

In addition to CAFNR requirements and the university general education (p. 18) and graduation requirements, the Division of Plant Sciences requires the following courses:

Emphasis Area Requirements		22-23
AG_S_M 2340	Pesticide Application Equipment	3
PLNT_S 3002	Topics in Plant Science - Biological/Physical/Mathematics	1-4
PLNT_S 3210	Principles of Weed Science	4
PLNT_S 3355	Introductory Turfgrass Management	3
PLNT_S 4355	Advanced Turfgrass Management	3
PLNT_S 4313	Soil Fertility and Plant Nutrition	3
BIO_SC 2200	General Genetics	4

or PLNT_S 3213	Genetics of Agricultural Plants and Animals	
Emphasis Area Requirements fulfilled by core:		
PLNT_S 3710	Introductory Entomology	3
PLNT_S 3715	Insect Diversity	2
PLNT_S 4500	Biology and Pathogenesis of Plant-Associated Microbes	4
Ornamental Skills (select one)		3
PLNT_S 2210	Ornamental Woody Plants	3
PLNT_S 2215	Ornamental Herbaceous Plants	3
Business Skills (select one)		1-3
PLNT_S 3250	Green Industry Bidding	1
P_R_TR 2281	The Business of Sport	3
SOIL 3290	Soils and the Environment	3
Total		26-29

Semester Plan

Refer to the Semester Plan for the BS in Plant Sciences (p. 97).

Minor in Plant Sciences

A minor in Plant Sciences shall consist of a minimum of 15 hours of formal coursework in Plant Sciences (PS) designated courses. Of the 15 hours selected, a minimum of 12 hours must be numbered 2000 or above, of which at least 9 hours must be numbered 3000 or above.

Note:Problems courses, Readings courses, Internship courses and Undergraduate Research courses are not acceptable courses for the Plant Sciences minor, unless approved by the Director for Undergraduate Programs.

Graduate

MS in Plant, Insect and Microbial Sciences

Application and Admission Information

Admission Contact Information
 Ms. Christa Smith
 52 Agriculture Lab; Columbia, MO 65211
 573-882-3001

Admission Criteria

Fall deadline: Flexible; January 15 for greatest financial aid considerations

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Minimum GRE score: none set
 Minimum GPA: 3.0
 Bachelor's degree from an accredited college
 Demonstrated capability to perform graduate-level work

Required Application Materials

To Graduate School:

- All required Graduate School documents

To the Plant, Insect and Microbial Sciences Program (<http://plantsci.missouri.edu/graduate/admissions.cfm>):

- 3 letters of recommendation
- GRE score report (recommended, not required)
- 1-2 page letter clearly articulating educational and professional goals
- Brief (2 pages) résumé

Financial Aid from the Program

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (<http://plantsci.missouri.edu/graduate>) or ask the program contact for details.

Division-Wide Requirements

To satisfy the course requirements for a master's degree, a student must complete:

- A minimum of 30 credit hours from courses numbered 7000 - 9000
- 15 credit hours (towards the 30 credit hour requirement) must be from courses numbered at the 8000 or 9000 level
- 12 credit hours (towards the 30 credit hour requirement) can be satisfied by research, readings and problems courses
- For the Horticulture Program Area, at least 6 credits must be from formal courses, excluding Problems and other independent study courses and only 6 credit hours of research (PLNT_S 8090) can count towards the 30 credit hour requirement, even though additional hours of research can be taken.

The division-wide course requirements for the master's degree are:

PLNT_S 8010	Professionalism and Ethics	2
Participation in the student seminar series		
PLNT_S 9087	Seminar in Plant Science	1
PLNT_S 7087	Seminar (Must enroll twice)	2
PLNT_S 8090	Thesis Research (1 - 10 credits per semester)	1-10

To satisfy the course requirements for a doctoral degree, a student must complete:

- A minimum of 72 credit hours from courses numbered 7000-9000 (this includes dissertation research credit hours - i.e. PLNT_S 9090)
- 15 credit hours (towards the 72 hour requirement) must be from courses numbered at the 8000 or 9000 level, exclusive of dissertation research, problems or independent study
- For the Horticulture Program Area, all Doctoral students will have successfully completed the requirements for a master's degree before beginning a doctoral program and no more than 30 hours of dissertation research may be counted towards the 72 hr minimum.

The division-wide requirements for the PhD are:

PLNT_S 8010	Professionalism and Ethics	2
Participation in the student seminar series		
PLNT_S 9087	Seminar in Plant Science (Must enroll twice; only 1 credit counts towards the 15 credit hour requirement of 8000/9000 level courses)	2
PLNT_S 7087	Seminar (Must enroll 3 times)	3

PLNT_S 9090	Dissertation Research (1-10 credits per semester)	1-10
-------------	---	------

During the Fall and Spring Semesters, MS students must enroll for 9 credits to be considered a full time student. PhD students who have not completed their comprehensive exam must enroll for 9 credits to be considered a full time student.

Teaching Requirement

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Satisfactory Rate of Progress

A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student's examination committee) shall be completed in a timely manner. All advisers will meet annually with each of their graduate advisees. They will discuss the student's performance, any problems that exist and any suggestions for improvement. The advisor will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

Graduate Program Area Requirements

Detailed descriptions of divisional curricula and procedures are available on the division website. (<http://plantsci.missouri.edu/graduate>)

Crop, Soil and Pest Management

The Crop, Soil and Pest Management program area emphasizes a customized approach towards the course of study. Each student will work with their adviser and graduate committee to develop a course of study best suited to the student's educational and career goals.

Entomology

The core requirements for the master's degree in entomology program are:

PLNT_S 7710	Systematic Entomology	5
PLNT_S 7820	Principles of Insect Physiology	4
PLNT_S 9810	Insect Ecology	3
One elective formal entomology course		

The core requirements for the PhD degree in Entomology program are:

PLNT_S 7710	Systematic Entomology	5
PLNT_S 7820	Principles of Insect Physiology	4
PLNT_S 9810	Insect Ecology	3
Two elective formal entomology courses		

Horticulture

The horticulture program area emphasizes a customized approach towards the course of study. Each student will work with their adviser and graduate committee to develop a course of study best suited to the student's educational and career goals.

Plant Breeding, Genetics and Genomics

The plant breeding, genetics and genomics program area emphasizes a customized approach towards the course of study. Each student will work

with their adviser and graduate committee to develop a course of study best suited to the student's educational and career goals.

Plant Stress Biology

The core requirements for the master's and PhD degrees in the Plant Stress Biology program are:

two Entry Level courses (to be completed in the first year)

Select one course from:		3
PLNT_S 7315	Crop Physiology	
PLNT_S 7320	Plant Physiology	

Select one course from:		3
PLNT_S 7500	Biology and Pathogenesis of Plant-Associated Microbes	
PLNT_S 8505	Introduction to Plant Stress Biology	

Required course:

PLNT_S 8530	Research with Plant Stress Agents
-------------	-----------------------------------

PhD in Plant, Insect and Microbial Sciences

PLNT_S 7087	Seminar (Must enroll 3 times)	3
PLNT_S 9090	Dissertation Research (1-10 credits per semester)	1-10

During the Fall and Spring Semesters, MS students must enroll for 9 credits to be considered a full time student. PhD students who have not completed their comprehensive exam must enroll for 9 credits to be considered a full time student.

Teaching Requirement

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Satisfactory Rate of Progress

A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student's examination committee) shall be completed in a timely

manner. All advisers will meet annually with each of their graduate advisees. They will discuss the student's performance, any problems that exist and any suggestions for improvement. The adviser will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

Graduate Program Area Requirements

Detailed descriptions of divisional curricula and procedures are available on the division website. (<http://plantsci.missouri.edu/graduate>)

Crop, Soil and Pest Management

The Crop, Soil and Pest Management program area emphasizes a customized approach towards the course of study. Each student will work with their adviser and graduate committee to develop a course of study best suited to the student's educational and career goals.

Entomology

The core requirements for the master's degree in entomology program are:

PLNT_S 7710	Systematic Entomology	5
PLNT_S 7820	Principles of Insect Physiology	4
PLNT_S 9810	Insect Ecology	3
One elective formal entomology course		

The core requirements for the PhD degree in Entomology program are:

PLNT_S 7710	Systematic Entomology	5
PLNT_S 7820	Principles of Insect Physiology	4
PLNT_S 9810	Insect Ecology	3
Two elective formal entomology courses		

Horticulture

The horticulture program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Plant Breeding, Genetics and Genomics

The plant breeding, genetics and genomics program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Plant Stress Biology

The core requirements for the master's and PhD degrees in the Plant Stress Biology program are:

two Entry Level courses (to be completed in the first year)		
Select one course from:		
PLNT_S 7315	Crop Physiology	3
PLNT_S 7320	Plant Physiology	
Select one course from:		
PLNT_S 7500	Biology and Pathogenesis of Plant-Associated Microbes	3

Rural Sociology

College of Agriculture, Food and Natural Resources
David O'Brien, Chair
109 Gentry Hall
(573) 882-0392
ObrienDJ@missouri.edu
dass.missouri.edu/ruralsoc/

Carol Swaim, Administrative Assistant
121 Gentry Hall
(573) 882-7451
swaimc@missouri.edu

The Department of Rural Sociology participates in the Bachelor of Science in Agriculture degree offered by the College of Agriculture, Food and Natural Resources and offers a minor in rural sociology. For information about the agriculture degree, see the Agriculture degree page. The Department of Rural Sociology also offers graduate degrees.

Faculty

Professor D. J. O'Brien#, J. S. Rikoon**, J. I. Stallmann**
Associate Professor J. L. Gilles**, M. Grigsby**
Assistant Professor M. Hendrickson*H. Qin*
Teaching Assistant Professor (NTT) C. Brock*
Extension Assistant Professor J. Adams*, S. Jeanetta*, M. S. Leuci*
Research Assistant Professor C. Fulcher*
Associate Professor Emeritus K. E. Pigg*
Professor Emeritus R. R. Campbell*, M. F. Nolan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Minor in Rural Sociology (p. 103)

Advisor: Mary Grigsby
Grigsbym@missouri.edu

Administrative Assistant: Carol Swaim

<http://dass.missouri.edu/ruralsoc/>

Director of Graduate Studies: Jere Gilles

- MS in Rural Sociology (p. 103)
- PhD in Rural Sociology (p. 104)

The Department of Rural Sociology offers the MS and PhD degrees. The program consists of broad training in sociological theory and methodology with attention to application and policy issues.

Students entering with a bachelor's degree normally are admitted into the master's program even if they are going on to a PhD, exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Specializations

Areas of specialization in the department are: sustainable development, community facilitation, and analytical processes

Financial Aid from the Program

Request for financial support is made by the student at the time of application. Most of the financial support is for research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

Minor in Rural Sociology

The rural sociology undergraduate minor requires 15 credits in rural sociology courses. Nine credits must be above the 2000 level. The specific combination of courses must be approved by a department advisor.

Graduate

MS in Rural Sociology

Admission Contact: Carol Swaim
Department of Rural Sociology
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Admission Criteria

Fall deadline: N/A

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
84	570

- Minimum GRE score: none set
- Minimum GPA: 3.0 for domestic applicants
- An undergraduate and/or graduate degree in a social science or equivalent is desirable
- Basic understanding of statistics

Note: Students entering with a bachelor's degree normally are admitted into the master's program even if they are going on to a PhD, exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Required Application Materials

To Graduate School:

- All required Graduate School documents

To the Rural Sociology Program:

- Departmental application
- GRE score report
- 3 letters of recommendation

Degree Completion Requirements - Master's Degree

A traditional 30-hour master's degree with thesis is offered. Students choosing the 30-hour MS degree may expect to continue toward a PhD. Required courses for this degree: RU_SOC 8130, RU_SOC 8510 and SOCIOL 8100. Masters students must produce a research product or thesis.

Degree Completion Requirements - Professional Master's Degree

This degree is designed for persons who wish to have the training needed to carry out applied research, policy analysis and program evaluation in a government or business. The 39-credit program includes a six- to eight-credit- hour internship.

Specializations

There are two options for the professional degree — community facilitation and analytical processes for community.

Course Requirements

More details can be found by referring to the online graduate student handbook (<http://dass.missouri.edu/ruralsoc/grad>).

Practical experience

Each student will have a practical experience through an internship doing applied social science work with a private or a public agency. The type of internship will vary according to student needs and interests, but it should be the equivalent of at least three months of full-time employment. Students will receive six to eight credits for this experience and will prepare a written report of their experience. Previous experience may be substituted for part of this requirement.

For More Information

For detailed information about Rural Sociology Master's programs see the Rural Sociology Graduate Handbook (<http://dass.missouri.edu/ruralsoc/grad>).

PhD in Rural Sociology

Admission Contact: Carol Swaim
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Admission and Recommended Prerequisites

Admission to the PhD program is determined by the admissions and awards committee. Although it is desirable that entering students have a strong background in sociology, students of high merit who do not have such a background are encouraged to apply. Such applicants may be required to take such graduate-level work as is necessary to remedy deficiencies in their background.

Admission Criteria

Fall deadline: N/A

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
84	570

- Minimum GRE score: none set
- Minimum GPA: 3.0 for domestic applicants
- An undergraduate and/or graduate degree in a social science or equivalent is desirable
- Basic understanding of statistics

Note: Students entering with a bachelor's degree normally are admitted into the master's program even if they are going on to a PhD, exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Required Application Materials

To Graduate School:

- All required Graduate School documents

To the Rural Sociology Program:

- Departmental application
- GRE score report
- 3 letters of recommendation

Degree Completion Requirements

The focus of the doctoral program in Rural Sociology is sustainable development. Besides the three core of courses for listed for the traditional masters degree above all graduate students, students in the PhD program take a core consisting of nine courses listed in the Rural Sociology Graduate Handbook (<http://dass.missouri.edu/ruralsoc/grad>) and complete an area of area of professional concentration of a minimum of 12 credit hours that is normally an MU graduate certificate or graduate minor.

Science and Agricultural Journalism

Sharon Wood-Turley, Program Chair
112 Gentry Hall
(573) 882-7645
Fax: (573) 884-4444
swt@missouri.edu

The College of Agriculture, Food and Natural Resources, in cooperation with the Missouri School of Journalism, offers a degree program in Science and Agricultural Journalism (<http://dass.missouri.edu/agj>). This curriculum prepares students to communicate about issues related to science and agriculture, including: the food system (including everything from traditional production agriculture to grape and wine production), natural resources, the life sciences, the environment, and medical and agricultural biotechnology.

Graduates are prepared to enter a wide variety of media professions including: public relations, marketing, multimedia/web production, photography, magazine writing, reporting and broadcast.

Students must meet all GPA requirements of the Missouri School of Journalism. Check with your advisor for details. The department offers the Bachelor of Science with a major in Science and Agricultural Journalism.

Faculty

Assistant Teaching Professor W. Allen*, S. Wood-Turley
Instructor L. Sowers, N. Furstenau

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Science and Agricultural Journalism (p. 106)

Major Program Requirements and Options in Science and Agricultural Journalism

When you major in science and agricultural journalism (<http://dass.missouri.edu/agj>), you gain access to the strengths of two nationally renowned programs: the Missouri School of Journalism and the MU College of Agriculture, Food and Natural Resources. Students combine courses in a subject area related to agriculture and the food system with a specialization in a specific medium/communications focus in the School of Journalism.

The Science and Agricultural Journalism Program provides you with five subject matter tracks to select from:

(Note: Tracks do not appear on transcripts or diplomas.)

- Agricultural Marketing
- Agricultural Science
- Conservation and Environmental Sciences
- Food and Wine

- Science

In addition, you can focus on one of the following media emphasis areas in the Journalism School, or select courses from a combination of:

- Convergence Journalism (a combination of media skills)
- Magazine Journalism
- Photojournalism
- Print and Digital News
- Radio-Television Journalism
- Strategic Communications (Advertising and Public Relations)

Agricultural Marketing Track

The Agricultural Marketing Track prepares students for careers in the agribusiness, government and other sectors where the specialized skills of writing, multimedia, marketing and strategic communications are in high demand. This track includes courses within the College of Agriculture, Food and Natural Resources in the Ag Marketing System, Ag Sales, Fundamentals of Entrepreneurship, New Products Marketing, International Food Trade and Policy, Agribusiness Finance and Agribusiness Management Strategy.

Agricultural Science Track

The Agricultural Science Track prepares students for careers in the news media, agricultural industry, government and other sectors where an in-depth knowledge of plant, animal and food science is in high demand along with specialized skills in writing, multimedia and other forms of communication. This track includes courses within the college of Agriculture, Food and Natural Resources in Plant Growth and Culture; Genetics of Ag Plants and Animals; Animal Science; Global Animal Agriculture; Food Science and Nutrition; Meat Classification, Grading and Judging; Elements of Food Microbiology; and Principles of Meat Science.

Conservation and Environmental Sciences Track

The Conservation and Environmental Sciences Track prepares students for careers writing about the environment, energy, conservation and nature. From climate change, endangered species and clean water to wildlife, forestry and outdoor activities - students in this track will gain an understanding of the complex issues on these beats and the complex job of communicating about them. This track includes a specialized course in Field Reporting and can include a trip to the annual national meeting of the Society of Environmental Journalists, a non-advocacy group. Other courses within the College of Agriculture, Food and Natural Resources in this track include Introduction to Environmental Science, Ecology and Renewable Resource Management; Introduction to Meteorology; Climates of the World; Soils and the Environment; Environmental Economics and Policy; and Water Quality and Natural Resources Management.

Food and Wine Track

Interest in food and wine is growing among consumers and the news media industry. Also, dairy, meat and wine are major industries in Missouri. This track prepares students for journalism and strategic communications careers in this increasingly important sector. The Food and Wine Track includes a specialized course in covering food and wine. Other courses within the College of Agriculture, Food and Natural Resources in this track include Introduction to Food Science, Elements of Food Microbiology, Introduction to Viticulture (grape production) and

Enology (wine production), Grapes and Wines of the World, Principles of Wine Production and Principles of Wine Cellar Operation.

Science Track

The Science Journalism Track prepares students for careers covering news and information on the frontiers of science - from biotechnology and nanotechnology to astronomy, climate, geology and the human brain. Students in this track will gain an understanding of the scientific, social, political and economic forces that shape the world of science and technology today, a world that increasingly affects the way we live and learn. This track includes such courses as Explaining Research; Earth Systems and Global Change; Introduction to Meteorology; Physics for Poets; Mind, Brain and Behavior; Science, Technology and Society; and Readings in Science Journalism. This track will enable excellent preparation for students in both journalism and strategic communications.

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in science and agricultural journalism, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 5) at the University of Missouri, including the School of Journalism (p. 574).

Undergraduate

BS in Science and Agricultural Journalism

Major Program Requirements

All students must complete 42 hours of Journalism coursework, 6 hours of Science and Agricultural Journalism courses, and 18 hours in one of the Science and Agricultural Journalism tracks. In addition, internship experience is strongly encouraged. Refer to the university general education (p. 18) requirements. A minimum of 120 credit hours is required for a B.S. in Science and Agricultural Journalism.

Major core requirements		66
Journalism		
JOURN 1100	Principles of American Journalism	3

Soil, Environmental and Atmospheric Sciences

Anthony R. Lupo, Chair
Soil, Environmental and Atmospheric Sciences
School of Natural Resources
College of Agriculture, Food, and Natural Resources
302 Anheuser-Busch Natural Resources Building
(573) 882-6301

<http://www.snr.missouri.edu/seas/>

The Department of Soil, Environmental and Atmospheric Sciences brings together students, staff and faculty working in the fields of environmental, atmospheric and soil sciences. Excellent opportunities exist for students wishing to explore these exciting areas of study. The department offers BS, MS and PhD degrees with a major in Soil, Environmental and Atmospheric Sciences. A minor with options in Environmental Science, Soil Science, or Atmospheric Science, is also available.

Faculty

Professor S. H. Anderson**, C. J. Gantzer**, A. R. Lupo**, P. P. Motavalli**

Associate Professor N. I. Fox**, K. W. Goyne**, J. Hubbart*, P. S. Market**, R. J. Miles**

Assistant Professor Bohumil M. Svoma

Adjunct Assistant Professor J. O. Adegoke*, Steven Lack, Brent Myers, Manjula Nathan, Brian Pettegrew, F. J. Young*

Associate Professor R. P. Udawatta**

Instructor E. Aldrich, Cammy Willett

Extension Assistant Professor P. E. Guinan**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Soil, Environmental and Atmospheric Sciences (p. 108)
 - with emphasis in Atmospheric Science (p. 108)
 - with emphasis in Environmental Science (p. 109)
 - with emphasis in Environmental Soil Science (p. 112)
 - with emphasis in Soil Resource Management (p. 114)
- Minor in Soil, Environmental and Atmospheric Sciences (p. 115)

Dual Degree - Geological Sciences and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Geological Sciences offer a dual BS in Geology and in Soil, Environmental and Atmospheric Sciences with an emphasis in Soil Resource Management. The dual degree program requires 132 credits

for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Geological Sciences.

Dual Degree - Biochemistry and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Division of Biochemistry offer a dual BS degree in Biochemistry and in Soil, Environmental and Atmospheric Sciences with an emphasis in Environmental Science. The dual degree program requires 134 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Division of Biochemistry.

Dual Degree - Forestry and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Forestry offer a dual degree in Forestry and in Soil, Environmental and Atmospheric Science with an emphasis in Environmental Science. The dual degree requires 136 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Forestry.

Graduate study at the University of Missouri (MU) in soil, environmental, and atmospheric sciences is designed to prepare students for professional careers in research, teaching or practical application of the principles of soil, environmental and atmospheric sciences (SEAS).

As of the fall 2013 semester, options for graduate study in SEAS will be offered through the MS in Natural Resources with an emphasis in SEAS (p. 81) and the PhD in Natural Resources with an emphasis in SEAS (p. 88). Focus areas in soil science, environmental science or atmospheric science are available through these options. Details on both degree programs, including recommended preparation, admission criteria, required application materials, degree requirements and financial aid, are provided in the graduate tab of the Natural Resources section of the catalog under the College of Agriculture, Food and Natural Resources.

Graduate Focus Areas

Atmospheric Science

Atmospheric science students participate in an area of research such as dynamic and physical meteorology, general circulation, global climate

change, severe storms, remote sensing and applied climatology with emphasis on environmental and socioeconomic impacts.

The program has a specialized computer data library that includes extensive long-term global and local observational records to support thesis and dissertation research. There are opportunities for joint research programs with the National Center for Atmospheric Research.

Environmental Science

Environmental science students may participate in environmental quality, hydrology, watershed management, and water quality emphasis areas. State-of-the-art equipment for chemical, biological and physical analysis of water and earth materials is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources.

The program has a working scale-nested watershed study spanning native lands as well as agricultural, and urban environments, thus supplying an excellent outdoor teaching and research laboratory.

Soil Science

Soil science students may participate in one of the following emphasis areas: environmental quality, pedology, soil chemistry and biochemistry, soil microbiology, soil physics and conservation, soil management, or soil fertility and plant nutrition.

State-of-the-art equipment for chemical, biological and physical analysis of soils is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources. Access to additional chemical analysis equipment, computing facilities, digital imaging equipment, field facilities, greenhouse space, radiochemistry and scanning electron microscopes is available within the University of Missouri.

Financial Aid from the Program

Check the program website (<http://www.snr.missouri.edu/seas/academics/graduate-program.php>) or contact the program for details on scholarships or graduate assistantships that may be available.

Undergraduate

BS in Soil, Environmental and Atmospheric Sciences

Major Program Requirements

In addition to university general education (p. 18) requirements, students must meet school requirements, as well as the degree requirements below:

Major core requirements

Social and behavioral sciences

Economics/business elective	3
-----------------------------	---

Math reasoning skills ¹

MATH 1400	Calculus for Social and Life Sciences I	3-5
or MATH 1500	Analytic Geometry and Calculus I	

Computer science

AFNR 1120	Computing and Information Technology	2
AFNR 2120	Working with Data Using Excel	1

Major capstone experience

ATM_SC 4990	Daily Analysis and Forecast Interpretation	3
or ENV_SC 4320	Hydrologic and Water Quality Modeling	
or SOIL 4320	Genesis of Soil Landscapes	

Soil, environmental, and atmospheric sciences

ATM_SC 1050	Introductory Meteorology	3

CHEM 1320	College Chemistry I	4
Science electives		9

Total Credits	39-41
---------------	-------

Semester Plan

Refer to the Semester Plans for the BS in Soil, Environmental and Atmospheric Sciences designed for the emphasis areas of Atmospheric Sciences (p. 108), Environmental Science (p. 109), or Soil Resource Management (p. 114).

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Atmospheric Science

Major Program Requirements

In addition to university general education (p. 18) requirements, students must meet the degree requirements below:

Emphasis in Atmospheric Science

Study of atmospheric science prepares the student for employment as a professional meteorologist in the National Weather Service, the military and other government agencies as well as meteorological consulting firms, broadcast outlets and industry. The emphasis in atmospheric science adheres to federal requirements for employment as a meteorologist, yet emphasizes interdisciplinary studies in natural resources leading to specialization in operational meteorology or environmental science. The course of study also serves as a preparatory curriculum for advanced study in atmospheric science. A major in soil, environmental and atmospheric sciences with an emphasis in atmospheric science requires 128 credits for graduation.

Emphasis core requirements

Emphasis general requirements

Math reasoning skills

MATH 1500	Analytic Geometry and Calculus I	5
-----------	----------------------------------	---

Communications

COMMUN 1200	Public Speaking	3
-------------	-----------------	---

Select one from the following or contact advisor for other selections: 3

SCI_AG_J 3210	Fundamentals of Communications
---------------	--------------------------------

ENGLISH 2030	Professional Writing	
COMMUN 3575	Business and Professional Communication	

Those desiring a career in broadcast meteorology should consider the following courses or contact an advisor for other selections:

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Environmental Science

Major Program Requirements

In addition to university general education (p. 18) requirements, students must meet school requirements as well as the degree requirements below:

Emphasis in Environmental Science

Addressing environmental problems such as water and air quality, waste management and land use issues often requires an interdisciplinary science education as well as an understanding of the social and economic context of the problem. The environmental science emphasis is designed to prepare students for careers as environmental professionals.

Within the environmental science emphasis, students can choose one of three tracks:

- water quality
- land management
- air quality

Students in all tracks take a mixture of natural and applied science courses such as ecology, soil science, forestry, atmospheric science, and fisheries and wildlife.

Other required classes provide students with technical and outreach skills such as geographical information systems (GIS) and additional communications courses, to prepare for work in environmental careers. Students also gain hands-on experience in their field of interest through off-campus internships and practical courses. Each of the tracks requires a 3-credit practical internship in environmental science. Students must

complete 128 credits to graduate, including 21-22 credits in the water quality, land management or air quality track.

Among the skills and abilities students develop as graduates with an environmental science emphasis are:

- Understanding of ecosystems and the factors affecting environmental processes and problems
- Facility with environmental monitoring techniques and instrumentation
- Knowledge of technologies and methods for remediation of degraded environments
- Capacity to effectively communicate and educate others about the environment

Emphasis core general requirements

Departmental Quantitative Skills		3
MATH 1400	Calculus for Social and Life Sciences I	3

Total Credits: 137-140

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Environmental Soil Science

Major Program Requirements

In addition to university general education (p. 18) requirements, students must meet school requirements as well as the degree requirements below:

Emphasis in Environmental Science

Addressing environmental problems such as water and air quality, waste management and land use issues often requires an interdisciplinary science education as well as an understanding of the social and economic context of the problem. The environmental science emphasis is designed to prepare students for careers as environmental professionals.

Within the environmental science emphasis, students can choose one of three tracks:

- water quality
- land management
- air quality

Students in all tracks take a mixture of natural and applied science courses such as ecology, soil science, forestry, atmospheric science, and fisheries and wildlife.

Other required classes provide students with technical and outreach skills such as geographical information systems (GIS) and additional communications courses, to prepare for work in environmental careers. Students also gain hands-on experience in their field of interest through off-campus internships and practical courses. Each of the tracks requires a 3-credit practical internship in environmental science. Students must complete 128 credits to graduate, including 21-22 credits in the water quality, land management or air quality track.

Among the skills and abilities students develop as graduates with an environmental science emphasis are:

- Understanding of ecosystems and the factors affecting environmental processes and problems
- Facility with environmental monitoring techniques and instrumentation
- Knowledge of technologies and methods for remediation of degraded environments
- Capacity to effectively communicate and educate others about the environment

Emphasis core general requirements

Social and behavioral sciences

AG_EC 1041	Applied Microeconomics	3
or AG_EC 2070	Environmental Economics and Policy	
RU_SOC 1000	Rural Sociology	3
or RU_SOC 1120	Population and the Environment	
RU_SOC 2010	Leadership in Today's World	3
or RU_SOC 2225	Science, Technology and Society	

Math reasoning skills

MATH 1400	Calculus for Social and Life Sciences I	3-5
or MATH 1500	Analytic Geometry and Calculus I	

Computer science

AFNR 1120	Computing and Information Technology	2
AFNR 2120	Working with Data Using Excel	1

Communications

AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3

Total Credits: 137-140

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Soil Resource Management

Major Program Requirements

In addition to university general education (p. 18) requirements, students must meet school requirements, as well as the degree requirements below:

Emphasis in Soil Resource Management

This course of study prepares the student for employment as a professional soil scientist in government, industry or consulting. Courses offered in soil science emphasize the application of basic physical and biological sciences to understanding the function and use of soils. A major in soil, environmental and atmospheric sciences with an emphasis in soil resource management requires 128 credits for graduation.

Soil science professionals have a wide range of career opportunities, including working in land-use planning and assessment, agricultural and horticultural production, consulting and sales, landscaping and recreational management. Among the state and federal agencies that employ soil scientists are the USDA-Natural Resources Conservation Service, the US Forest Service, the US Environmental Protection Agency, the Missouri Department of Natural Resources, the Missouri Department of Conservation and the Missouri Department of Health and Senior Services. Opportunities in private industry include working

in environmental consulting firms and the horticultural and agricultural production and service industries.

Emphasis core general requirements

Math reasoning skills		
MATH 1400	Calculus for Social and Life Sciences I	3
or MATH 1500	Analytic Geometry and Calculus I	

Computer Science		
AFNR 1120	Computing and Information Technology	2
AFNR 2120	Working with Data Using Excel	1
or NAT_R 4325	Introduction to Geographic Information Systems	

Senior capstone experience		
SOIL 4320	Genesis of Soil Landscapes	4

Emphasis core quantitative skills		
STAT 1400	Elementary Statistics for Life Sciences	3
or STAT 2530	Statistical Methods in Natural Resources	

Additional courses (6 credits) in math, computer science, and statistics OR two of the following:

ENV_SC 4320	Hydrologic and Water Quality Modeling	
NAT_R 4325	Introduction to Geographic Information Systems	
NAT_R 4365	GIS Applications	
NAT_R 4385	Landscape Ecology and GIS Analysis I	

Emphasis core science requirements (including one course in organic or biochemistry) 7

General chemistry 4

CHEM 1320	College Chemistry I	4
-----------	---------------------	---

Organic chemistry OR Biochemistry 3

Select one of the following:

CHEM 2100	Organic Chemistry I	
or CHEM 2030	Survey of Organic Chemistry	
BIOCHM 2110	The Living World: Molecular Scale	
or BIOCHM 2112	Biotechnology in Society	

Biological science 6-8

Select two of the following: 6-8

ENV_SC 1100	Introduction to Environmental Science	
or NAT_R 1070	Ecology and Renewable Resource Management	
PLNT_S 2110	Plants and their Cultivation	
or BIO_SC 1010 & BIO_SC 1020	General Principles and Concepts of Biology and General Biology Laboratory	
BIO_SC 1200	General Botany with Laboratory	

Geology (any course) 4

Recommended science electives 9

Courses in biochemistry, biology, chemistry, entomology, geology, physics, and plant pathology as well as the following:

CHEM 1330	College Chemistry II	
CV_ENG 3702	Hydrology	
FOREST 4320	Forest Ecology	
PLNT_S 3210	Principles of Weed Science	
PLNT_S 3225	Plant Breeding and Genetics	
PLNT_S 4315	Crop Physiology	

Other emphasis core requirements 36

ATM_SC 1050	Introductory Meteorology	
SOIL 2100	Introduction to Soils	
SOIL 2106	Soil Science Laboratory	
SOIL 3290	Soils and the Environment	

Additional soils courses (12 credits) from the following:

SOIL 4305	Environmental Soil Physics
SOIL 4306	Environmental Soil Physics Laboratory
SOIL 4308	Soil Conservation
SOIL 4312	Environmental Soil Microbiology
SOIL 4313	Soil Fertility and Plant Nutrition
SOIL 4314	Soil Fertility and Plant Nutrition Laboratory
SOIL 4318	Environmental Soil Chemistry
SOIL 4360	Precision Agriculture Science and Technology

Recommended electives, other soils courses or the following courses (6 credits)

BIOL_EN 4150	Soil and Water Conservation Engineering
BIOL_EN 4250	Irrigation and Drainage Engineering
CV_ENG 3400	Fundamentals of Geotechnical Engineering
ENV_SC 4320	Hydrologic and Water Quality Modeling
F_W 3400	Water Quality and Natural Resource Management
FOREST 4390	Watershed Management and Water Quality

Credits from general, quantitative, science and soil science to complete 128 total. 25-29

Total Credits 123-131

Semester Plan

Total Credits: 132-136

Minor in Soil, Environmental and Atmospheric Sciences

A minor in soil, environmental and atmospheric sciences is offered at the undergraduate level with three options: atmospheric science, environmental science, and soil science.

The minor in soil, environmental, and atmospheric sciences with an option in atmospheric science prepares the student for jobs in journalism and broadcast meteorology as well as for certification required by government agencies. A minor with an option in atmospheric science requires a minimum of 15 credits including:

ATM_SC 1050	Introductory Meteorology	3
ATM_SC 2720	Weather Briefing	1
ATM_SC 3600	Climates of the World	3
Additional 8 credits in atmospheric science or in a closely related area as recommended by the minor advisor, and may include the following		8
ATM_SC 2150	Natural Hazards	
ATM_SC 2792	Weather Communication	
ATM_SC 4520	Environmental Biophysics	

Total Credits 15

The minor in soil, environmental and atmospheric sciences with an option in environmental science requires a minimum of 15 credit hours in environmental science courses with at least 9 credit hours at the 3000 level or above. This minor provides students an opportunity to enhance their understanding of the environment, interrelationships between various components of the environment, and a firm understanding of environmental issues. Selection of courses should be made in consultation with an advisor in environmental science. The following courses are required:

ENV_SC 1100	Introduction to Environmental Science	3
ENV_SC 3290	Soils and the Environment	3
ENV_SC 3330	Environmental Land Use Management	3
F_W 3400	Water Quality and Natural Resource Management	3
Additional credits in environmental science as recommended by the advisor		3
Total Credits		15

The minor in soil, environmental and atmospheric sciences with an option in soil science requires a minimum of 15 credits in soil science. Selection of courses should be made in consultation with an advisor in soil science. Students with the following majors often choose minors with an option in soil science: forestry, fisheries and wildlife, plant science, and geological sciences. This minor also provides assistance with meeting certification as a waste water specialist. The following courses are required:

SOIL 2100	Introduction to Soils	3
SOIL 2106	Soil Science Laboratory	2

SOIL 4320	Genesis of Soil Landscapes	4
Additional credits at the 3000 level or higher in soil science as recommended by the minor advisor		6
Total Credits		15

Additional Minors and Certificates - CAFNR

Undergraduate

- Minor in Agricultural Leadership (p. 117)
- Minor in Captive Wild Animal Management (p. 117)
- Minor in International Agriculture, Food & Natural Resources (p. 117)
- Minor in Sustainable Agriculture (p. 118)
- Minor in Viticulture & Enology (p. 118)

Graduate

- Certificate in Analysis of Institutions and Organizations (p. 118)
- Certificate in Food Safety and Defense (p. 119)

Undergraduate

Minor in Agricultural Leadership

The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. A student must complete 15 credits of coursework related to leadership and personal development from the list of approved courses. The coordinator of the minor must approve courses not on the list. With appropriate approval, an internship with a focus upon providing the student practical experiences in leadership and supervisory roles can be counted toward the 15 credit requirement.

Approved Courses

AG_ED_LD 2220	Verbal Communication in Agriculture, Food and Natural Resources	3
AG_ED_LD 2250	Introduction to Leadership	3
AG_ED_LD 2260	Team and Organizational Leadership	3
AG_EC 2223	Agricultural Sales	3
AG_EC 3241	Ethical Issues in Agriculture	3
AG_EC 3283	Fundamentals of Entrepreneurship	3
P_R_TR 3210	Personnel Management and Leadership in Leisure Services	3
RU_SOC 2010	Leadership in Today's World	3

Minor in Captive Wild Animal Management

Students majoring in Animal Science can obtain a minor in captive wild animal management by taking courses in Animal Science, Natural Resources, and Fisheries and Wildlife that focus on captive wild animals.

Core Courses

AN_SCI 1012	Introduction to Captive Wild Animal Management	3
or F_W 1012	Introduction to Captive Wild Animal Management	
F_W 3600	Introduction to Conservation Biology	3
AN_SCI 3212	Principles of Animal Nutrition	3
AN_SCI 3232	Animal Feeds and Feeding	3
AN_SCI 3254	Physiology of Domestic Animals	3
AN_SCI 3255	Physiology of Domestic Animals Laboratory	2
AN_SCI 4940	Internship in Animal Science & Technology	1-12

or F_W 4940	Fisheries and Wildlife Internship	
AN_SCI 4910	Senior Seminar in Captive Wild Animal Management	1
or F_W 4910	Senior Seminar in Captive Wild Animal Management	

Ecology Courses (choose one)

BIO_SC 3400	Evolution and Ecology	
BIO_SC 3650	General Ecology	

Genetics Course (choose one)

AN_SCI 3213	Genetics of Agricultural Plants and Animals	
F_W 2500	Introduction to Genetics and Evolution for Conservation	

Wild Animal Ecology & Natural History Courses (select two)

F_W 2600	Ornithology	
F_W 2700	Ichthyology	
F_W 3200	Aquaculture	
BIO_SC 3260	Invertebrate Zoology	
F_W 3660	Mammalogy	
BIO_SC 3360	Herpetology	
F_W 3700	Animal Behavior	
BIO_SC 3710	Introductory Entomology	
BIO_SC 4640	Behavioral Biology	
PSYCH 4220	Animal Learning and Behavior	

Advanced Physiology, Nutrition & Disease Courses (Choose two)

AN_SCI 4312	Monogastric Nutrition	
AN_SCI 4314	Physiology of Reproduction	
AN_SCI 4332	Ruminant Nutrition	
AN_SCI 4384	Reproductive Management	
AN_SCI 4387	Equine Breeding Management	
AN_SCI 4437	Environmental Physiology	
F_W 4810	Wildlife Disease Ecology	
AN 323 Zoo Nutrition (Must be taken through Colorado State University)		

Minor in International Agriculture, Food & Natural Resources

The world is becoming increasingly complex and integrated in nearly every category of human endeavor. An understanding of how global markets, natural resources, food production, and international trade and cooperation are affected by societies, languages, cultures, and governments is an essential component of a well-rounded 21st century education in AFNR. To facilitate these studies, the multidisciplinary International AFNR Minor offers academic recognition for achieving a level of expertise in coursework of international focus.

Coursework

The multidisciplinary Minor in International Agriculture, Food and Natural Resources is an excellent addition to any major as it provides insight into the ever-increasing interconnectedness of world communities.

- Minimum of 15 credits
- Nine of the 15 credits must be approved CAFNR courses at the 3000-level or above
- Maximum of six credits accepted from courses taken in formal study abroad programs

- Maximum of two courses (6 credits) approved by the student's advisor and the international minor advisor chair (Dr. Laura McCann) in a geographic area of interest may be used toward the minor
- Independent research with a faculty member can provide up to six credits with approval of the student's advisor and international advisor chair

Choose at least 15 hours from the following:

AG_EC 3271	International Agricultural Development	3
AG_EC 3272	International Food Trade and Policy	3
AG_EC 3150	International Agribusiness	3
AFNR 2150	Agricultural Travel Course	1-99
AFNR 2190	International Agriculture and Natural Resources	1-15
AN_SCI 2110	Global Animal Agriculture	2
ANTHRO 3680	Plants and People in Native America	3
ATM_SC 3600	Climates of the World	3
F_S 2195	Grapes and Wines of the World	3
RU_SOC 3235	Global Perspectives and Realities	3
MRKTNG 4720	Global Marketing	3
POL_SC 1400	International Relations	3
POL_SC 4740	Comparative Political Culture	3
RU_SOC 1120	Population and the Environment	3
RU_SOC 3235	Global Perspectives and Realities	3
RU_SOC 4310	Sociology of Agriculture and Natural Resources	3
RU_SOC 4335	Social Change and Development	3
T_A_M 2400	Global Consumers	3

Minor in Sustainable Agriculture

The minor in sustainable agriculture is for students interested in exploring agriculture and food systems that promote profit-ability, steward our natural resources, and provide enhanced quality of life for farmers, citizens and communities. A student must complete 15 credits of coursework that introduces concepts of sustainable agriculture, provides practical information on natural resources and food production, and investigates the impact of different philosophical and scientific frameworks on food and agriculture.

Required coursework includes:

AFNR 2215	Introduction to the Theory and Practice of Sustainable Agriculture	3
AFNR 3215	Community Food Systems	3
AFNR 3315	Advanced Practices in Sustainable Agriculture	3
SOIL 2100	Introduction to Soils	3
AG_EC 3241 or BIOCHM 2112	Ethical Issues in Agriculture Biotechnology in Society	3
Total Credits		15

Minor in Viticulture & Enology

The Viticulture and Enology Minor is for students interested in pursuing the broad career options available in the rapidly growing Midwest grape and wine industry. The curriculum consists of a diverse mixture of foundational and specialized courses from both Plant Sciences and Food Science. Students will learn skills from establishment of grape vines,

culturing, and wine making. This integrated minor will benefit students seeking career options as well as the novice pursuing a hobby.

Curriculum requirements

Requirements of the Minor in V&E consist of seven (7) courses, which are divided into five core courses and two elective courses (from a selection of five courses). Required core and elective courses are described in Table 1. A total of 21-22 credit hours are required to complete the Minor in V&E. For students currently pursuing a B.S. in Food Science or Plant Sciences, six and five credit hours, respectively, over and above current requirements would be necessary. This is achievable within the elective hours in both degree programs.

Core Courses (15 credits)

F_S 1010	Introduction to Viticulture and Enology
PLNT_S 2100	Introduction to Soils
PLNT_S 2110 or PLNT_S 2125	Plants and their Cultivation Plant Structure and Function
PLNT_S/F_S 3240	Principles of Viticulture I
F_S 4440	Principles of Winemaking and Wine Chemical Analysis

Electives; select 6 credits

F_S/PLNT_S 2195	Grapes and Wines of the World
F_S/PLNT_S 4340	Principles of Viticulture II
F_S 4441	Cellar Operations and Special Vinifications
PLNT_S 3225	Plant Breeding and Genetics
PLNT_S 4313	Soil Fertility and Plant Nutrition

Graduate

Graduate Certificate in Analysis of Institutions and Organizations

The Certificate Program focuses on the structures and processes of Institutions and Organizations in changing environments. Institutions are the "rules of the game" that shape human interaction and consist of both formal rules (e.g. legal-contractual) and informal structures (norms, values and beliefs). Organizations are the concrete, humanly devised entities in which people interact and pursue goals, ranging from families to private and nonprofit firms and public agencies. This certificate emphasizes the common foundations of institutional analysis across academic disciplines including economics, sociology, political science, psychology, anthropology, geography, and law, as well as the ways that multidisciplinary perspectives can inform each other.

Certificate web site: <http://dass.missouri.edu/agecon/grad/dass-certificate-in-institutions-and-organizations.pdf>

For information, contact:

Dr. David O'Brien
Certificate Director, Rural Sociology
obriendj@missouri.edu

Dr. Jere Gille
Director of Graduate Studies, Rural Sociology

Dr. Harvey James
Director of Graduate Studies, Agricultural and Applied Economics

Phone: 573-882-7451

Address: 109 Gentry Hall, Columbia, MO 65211

Graduate Certificate in Food Safety and Defense

In an era of global food systems and heightened security, effective control of foodborne hazards, both intentional and accidental, requires strategic knowledge. There is a great need not only for food industry personnel who, while working fulltime, would like to pursue more in-depth specialized training in food safety and security, but also for present-day students who plan to enter the food industry sectors in their future careers. This certificate will help serve the needs of industry and agencies that must protect the human food supply from accidental or deliberate contamination with pathogenic microbes and/or toxicants.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/food-safety-and-defense-graduate-certificate/food-safety-ge/Gedt.html>

College of Arts and Science

umcasadvising@missouri.edu

The College of Arts and Science, established in 1841, is the oldest and largest academic division in the university. The majority of MU undergraduates are enrolled in the college, which provides undergraduate and graduate programs in humanities, fine and performing arts, and social, behavioral and natural sciences. It also offers a solid foundation in basic studies for students in professional and specialized programs in other colleges. In addition to offering degrees in a wide range of academic disciplines, the College also allows creative and useful combinations of disciplines in both the Interdisciplinary Studies and General Studies baccalaureate degrees.

A liberal education is the foundation of study in many disciplines. It enables students to serve roles in society or to continue their education with advanced academic study. To these ends, the college encourages excellence in teaching and scholarship among its faculty and provides both traditional and innovative undergraduate curricula. Degree programs allow flexibility in individual courses of study.

Many students who enroll in the college during their first two years at the University have not yet decided upon a major field of study. The structure of the college is such that students generally need not commit themselves to a major until the beginning of the junior year. This allows students time to explore possibilities and to consider their likes and dislikes and their personal and professional objectives. Students are encouraged to work closely with academic advisors while deciding on a program of study.

Students planning to enter the schools of Journalism, Law, Medicine or Veterinary Medicine often spend their first two or four years in the College of Arts and Science in preparation for professional training. Most students, realizing the increased necessity for a broad background in the liberal arts for all professions, earn an undergraduate degree in the college before enrolling in the schools of Law or Medicine. Preprofessional study for veterinary medicine may be completed either in the College of Agriculture, Food and Natural Resources or in the College of Arts and Science.

Undergraduate

- College of Arts and Science Requirements (p. 120)
- Credit Restrictions (p. 120)
- Departmental Examinations (p. 121)
- Maximum Credits Enrolled (p. 121)
- Enrolling at Other Institutions (p. 121)
- Graduation with Latin Honors (p. 122)

- Probation and Dismissal (p. 122)
- Degree Requirements (p. 122)
- Major Program Requirements (p. 124)
- Requirements for Optional Minor (p. 124)
- Dual Degrees (p. 124)
- Second Degrees (p. 124)
- Double Majors (p. 125)
- Graduate School Dual Enrollment (p. 125)
- Advising (p. 125)
- Career Placement (p. 125)
- Air Force Reserve Officer Training Corps (AFROTC) (p. 125)
- Army Reserve Officer Training Corps (AROTC) (p. 125)

College of Arts and Science Requirements

To earn any degree from the College of Arts and Science, in addition to the university requirements a candidate must fulfill each of the following:

- Complete all course work required for the Arts and Science Foundation Requirements.
- Basic Skills, Breadth of Study and Depth of Study requirements
- Sufficient elective credits to bring the total earned credits to 120
- Earn a GPA of 2.0 in the following categories:
 - A minimum 2.0 cumulative MU GPA
 - A minimum 2.0 MU GPA in all courses taken in the major
 - A minimum 2.0 MU GPA in all courses taken in the final 60 credits
 - A minimum 2.0 MU GPA in all courses taken in the final 30 credits
 - A minimum 2.0 MU GPA in all courses taken in the minor, if student is completing one
- Attain grades of C- or higher in the major and optional minor. Some departments of the college have higher minimum grade requirements in specified courses.
- Earn a minimum of 30 credits in courses numbered 3000 or above, which may include courses in the major. These courses must be regularly accepted for credit in the College of Arts and Science. A few specifically identified math, science, and music courses numbered at the 2000-level may be used to meet this requirement. Additional information is available in appropriate advising offices.

Credit Restrictions

Time Limit on Credits Earned

Credit that is applied toward a degree is considered valid for eight years. After that time, the validity of credit already on the transcript will be reevaluated. Departments of the college have the right to accept or to reject credit earned after eight years have passed.

Credit Toward Degree

Some courses are not accepted toward a degree in the College of Arts and Science. They are:

- MIL_SC 1100, MIL_SC 1130, MIL_SC 2210 and MIL_SC 2230
- Vocational courses, such as radio repair or keyboarding
- Developmental courses, such as MATH_0110, English Language Support Program courses, spelling and grammar

Sequence

Credit for a more advanced course within a sequence will not apply toward graduation if a student subsequently completes a less advanced course. (For example: completion of FRENCH 1200 after FRENCH 2100 or completion of MATH 1100 after MATH 1300.)

Maximum Credit Policies

- With the exception of MATH 1100, MATH 1120 (or equivalent), ENGLISH 1000 (or equivalent), and the elementary sequence in a foreign language, the maximum number of credits from a single department that may apply toward graduation is 40 for the BA and the BGS, 70 for the BFA, and 90 for the BM.
- A maximum of 12 credits for internship, special problems or directed readings may apply toward any one degree. Of the 12 hours, only 6 may be earned as internship credit. Some departments may further restrict this type of credit for both majors and non-majors in arts and science.
- A maximum of 5 credits for BIO_SC 2060 (or BIO_SC 3100) and BIO_SC 3650 may apply toward graduation.
- A maximum of 5 credits for MATH 1100, MATH 1120, MATH 1140, MATH 1160 and MATH 1180 may apply toward graduation.
- A maximum of 5 credits for MATH 1320, MATH 1400 and MATH 1500 may apply toward graduation.
- A maximum of 10 credits for introductory chemistry, which includes CHEM 1310 (or CHEM 1100), CHEM 1320, CHEM 1330 and CHEM 1500H, may apply toward graduation.
- A maximum of 1 credit for AG_EC 3285 may apply toward graduation.
- A maximum of 3 credits for any combination of the following may apply toward graduation: LTC_V 1210; LTC_V 4550; CMP_SC 1020.
- For non-music majors, a maximum of 6 credits for music ensemble courses, which include MUS_ENS 1841, MUS_ENS 1842, MUS_ENS 1846, MUS_ENS 1865 and MUS_ENS 2843, may apply toward graduation.
- For non-music majors, a maximum of 12 credits for applied music courses, which include MUS_APMS 1435, MUSIC_NM 1445, MUSIC_NM 2445, MUSIC_NM 2445, MUS_APMS 3455, MUS_APMS 3970, MUSIC_NM 4445 and MUSIC_NM 4445, may apply toward graduation.
- For non-art majors, a maximum of 12 credits for studio art courses may apply toward graduation. For interdisciplinary studies majors, the maximum is 18 credits, and for general studies majors, the maximum is 21 credits.
- A maximum of 2 credits for physical education activity courses may apply toward graduation.
- A maximum of 5 credits for orientation courses may apply towards graduation. Of these 5 credits, no more than 3 credits may come from courses that cover life skills or orientation to college life, and no more than 3 credits may come from discipline-focused courses. Life skills/college life courses include courses such as Learning Strategies and Orientation to College; discipline-focused orientation courses include courses such as Introduction to Management and Introduction to Physical Therapy. Additional information is available in the appropriate advising offices.

Departmental Examinations

A student who wishes to take a departmental examination must take it before enrolling in a college class in the same subject. Applications

normally are made to the departments indicated; however, during the summer preregistration period, some examinations can be taken at the MU Testing Service Office without formal application to the respective departments. In addition, the examinations administered by Testing Services may be taken any time during the academic year.

Students may not earn credit for introductory foreign language courses in their native language.

- **Chemistry:** Apply to the Department of Chemistry, 125 Chemistry Building, for an examination to earn credits in chemistry.
- **French:** Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination for 3 credits equivalent to the completion of FRENCH 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for FRENCH 1100 and FRENCH 1200 in addition to the 3 credits indicated.
- **German:** Apply to the Department of German and Russian Studies, 448 Strickland Hall, for an examination to earn 3 credits in each of the following courses: GERMAN 2100; GERMAN 2260 Intermediate German II: Language and Culture; GERMAN 3230 Introduction to German Literature. Upon successful completion of one of these tests, a student will be awarded 10 credits of advanced standing for GERMAN 1100 and GERMAN 1200 in addition to the 3 credits indicated.
- **Italian:** Apply to the Department of Romance Languages, 143 Arts and Science Building.
- **Latin:** Apply to the Department of Classical Studies, 405 Strickland Hall.
- **Mathematics:** To earn 3 credits in College Algebra, students may take the proctored ALEKS Exam through the Office of Testing Services. (mathplacement.missouri.edu)
- **Political Science:** Contact the group testing program in the Testing Services Office for information on the 3-credit group test.
- **Russian:** Apply to the Department of German and Russian Studies, 448 Strickland Hall, for an examination to earn 3 credits in Elementary Russian and Russian Composition and Conversation. Upon successful completion of one of these two tests, a student will be awarded 10 credits of advanced standing for RUSS 1100 and RUSS 1200 in addition to the 3 credits indicated.
- **Spanish:** Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination to earn 3 credits equivalent to the completion of SPAN 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for SPAN 1100 and SPAN 1200 in addition to the 3 credits indicated.
- **Statistics:** Apply to the Department of Statistics, 146 Middlebush Hall, for an examination to earn 3 credits for STAT 1300 Elementary Statistics.

Maximum Credits Enrolled

With the consent of the dean, students with superior scholastic records may be allowed to register for more than 18 credits during a fall or spring semester. During the summer sessions, a student may not ordinarily be enrolled for more than 9 credits during the two four-week sessions combined and/or the eight-week session.

Enrolling at Other Institutions

Students within the College of Arts & science are allowed to enroll in another institution, while being simultaneously enrolled at MU. Students

are strongly encouraged to speak with an advisor to verify course transfer credit, degree applicability and other academic ramifications. Students, however, bear the ultimate responsibility for checking course equivalencies and requesting official transcripts be sent to the MU Office of Admissions (230 Jesse Hall). Similarly, A&S students who are likely to qualify for Latin honors are advised not to risk their eligibility for this distinction because of simultaneous enrollment at another institution (see information on Latin honors). Students who receive financial aid are advised to check with a financial aid officer to learn the implications, if any, of simultaneous enrollment in a non-MU course.

Graduation with Latin Honors

Regulations of the college regarding the awarding of Latin honors require that 54 of the final 60 credits are completed in MU course work for a letter grade (A-F). Awarding of Latin Honors is based on the cumulative GPA. The local chapter of Phi Beta Kappa requires completion of a minimum of 60 credits of course work on the MU campus, usually during the last two years of study. Exceptions to this latter expectation may be made for students who study abroad in an approved program during their final semesters of study.

Probation and Dismissal

Academic (Scholastic) Standing

In addition to University requirements defined in the Academic Standing (p. 703) section of this catalog and in the *Faculty Handbook* (<http://faculty council.missouri.edu/handbook/article-8.html>), academic status of Arts and Science students is determined in accordance with the following faculty guidelines. The word “term” in these regulations applies to semester, summer session or intersession. Course work completed by correspondence or through extension also has a bearing on academic status.

- Students on scholastic probation have two terms, (as long as each term GPA is no lower than 1.0), in which to attain good academic standing (2.0 minimum term and cumulative GPA) or be subject to dismissal. A student will not be eligible for removal from probation if he or she does not complete in residence during these two terms at least 12 graded credits acceptable by the student’s advisor and in accordance with college policy for credit in the College of Arts and Science. To complete a course, the student must earn a grade in the A, B, C or D range.
- In the application of these rules, the dean will determine how an incomplete grade in a course will be considered in determining a student’s academic standing.
- The dean may, in extenuating circumstances, waive any of the foregoing regulations governing eligibility to re-enroll for an individual student.

Degree Requirements

Arts and Science Foundation Requirements

The purpose of the Arts and Science Foundation Requirements is to assure that students fulfill the common educational objectives of the College of Arts and Science. Courses satisfying these requirements impart specialized knowledge and help students fulfill the broader objectives of a liberal education. Thus, these courses help students develop the following abilities:

- To communicate clearly and effectively in both writing and speech
- To generate and test hypotheses
- To locate and develop information needed to solve problems
- To think critically and use analytic skills effectively
- To examine their lives critically and objectively
- To enrich their lives through appreciation of present and past cultural achievements

Foundation requirements include three categories:

- **Basic Skills** requirements ensure competency in composition and communication, mathematics and analytic reasoning, awareness of American history and government, and where applicable, foreign language.
- **Breadth of Study** requirements are met by completing course work from a wide array of disciplines to ensure that graduates are broadly educated.
- **Depth of Study** requirements are met by completing advanced course work that allows for fuller understanding of a discipline than can be gained in introductory course work alone.

All students must complete all Arts and Science Foundation Requirements in order to earn a degree, regardless of prior baccalaureate degrees earned. Course work will be evaluated on a course-by-course basis. For students who earn an Associates of Arts degree from a Regionally accredited Missouri institution all Breadth of Education requirements will be considered to be met. Students will be required to complete at least one Depth of Education class with MU course work. In all cases, completion of the basic English and Mathematics requirements will be evaluated on a course-by-course basis.

Basic Skills

MATH 1100, MATH 1160, MATH 1120 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.

ENGLSH 1000 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.

One Math Reasoning Proficiency course with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply toward other degree program requirements.
- Must be chosen from the list of MRP courses designated each semester in the online Schedule of Courses.

One course in American government or history

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply as a social science toward the behavioral and social science requirement.
- Should be chosen from the list of MU courses approved to meet Arts and Science Foundation Requirements.

Foreign language

- Each student is required to attain the degree of proficiency equivalent to the completion of at least 12 hours of college-level work in a single foreign language. All MU foreign language departments require a grade in the C range or higher in level I or a language and level II of a language as prerequisites for level II and III, respectively.
- Alternative for selected BS degrees: 12 credits numbered 2000 or above in an area approved by the major department substituted with

the concurrence of the dean's office. Courses used for a minor cannot be used to meet this requirement.

- The foreign language requirements can be waived if a student has completed four units of a single foreign language in high school. If a student chooses to meet the requirement by using high school units, any college credit for that same introductory language will not count towards graduation hours (i.e., a student who has completed 4 units of high school Spanish and has credit for SPAN 1100 will not have the SPAN 1100 count towards graduation hours). If a student wants to have the introductory college credit count towards graduation, the student must complete the language sequence.
- International students whose native language is other than English are exempt from the foreign language requirements but may not receive credit for basic skills courses in their native languages. Others with native competence in one or more foreign language offered by MU may have a foreign language requirement waived by passing an exam given by a faculty member who is fluent in the language. The faculty member need not be a member of the MU faculty, but must be approved by the dean's office. The exam tests the student's ability to read, write, and speak the language at the level broadly described as "intermediate." Results of the examination are forwarded to the dean's office for evaluation. Students in this situation do not receive advanced-standing credit for their foreign language knowledge.

Breadth of Study

Breadth of Study requirements include course work distributed among the following categories: biological, physical and mathematical sciences; behavioral and social sciences; humanities and fine arts.

- 1. Biological, physical and mathematical sciences**
9 credits required for BA, BFA, BGS, BM and BS degrees.
 - Must include course work from at least two of three areas.
 - Must include at least one biological or physical science laboratory course.
- 2. Behavioral and social sciences**
9 credits required for BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
 - Must include course work from both the behavioral and social sciences.
14-15 credits required for all BA degrees and the BS degree with majors in Biological Sciences and Psychology.
 - Must include 5-6 credits of behavioral science.
 - Must include 9 credits of social science, including course work from at least two different areas.
- 3. Humanities and fine arts**
9 credits required for the BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
 - Must include course work from at least two different areas.
12 credits required for the BA degree, and the BS degree with majors in Biological Sciences and Psychology.
 - Must include course work from at least three different areas.
- 4. Additional breadth requirement for the BGS degree**
3 credits from course work chosen from any of the following four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

Parameters for meeting Breadth of Study requirements:

- Courses from the major department may not be used for breadth requirements in the BA, BFA and BS.
- Courses from the major department may be used for breadth requirements in the BM.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet breadth requirements, but not the specific courses used in the major.
- Courses from outside the major department but required for the major may not be used to meet breadth requirements in the BFA or BA with a major in Art.
- Only one non-Arts and Science course may be used in each of the four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.
- Courses must be chosen from the Distribution of Content List on the web site of the General Education Program. (<http://generaleducation.missouri.edu>.)
- Courses used to meet breadth requirements may also be used to meet depth requirements (see below).
- Problems, research, readings, and internship courses may not be used for breadth requirements.

Depth of Study

Depth of Study requirements include at least 6 hours of course work numbered 2000 or above, distributed as follows:

BFA in Art

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following four breadth categories: biological, physical, mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BGS in General Studies, all BA degrees, and BS with majors in Biological Sciences and Psychology

- 9 credits required (minimum of 3 courses).
- Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with majors in Chemistry, Geological Science, Mathematics, Physics and Statistics

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Economics

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Philosophy

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.

BM with a major in Music

- 6 credits required (minimum of 2 courses).
- Must include course work from at least one of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.
- 3 credit hours in Music (see below).

Parameters for Meeting Depth of Study Requirements

- All courses must be numbered 2000 or above.
- At least 3 credits must be completed with MU course work.
- A student who elects 1-credit topics courses must complete a minimum of three courses in that breadth category as partial fulfillment of the depth of study requirement.
- Courses from the major department may not be used, except for the BM with a major in Music.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet depth requirements, but not the specific courses used in the major.
- Courses from outside the major department, but required for the major, may not be used to meet depth requirements in the BFA or BA with a major in Art, the BA or BS with a major in Biology, or the BA with a major in Chemistry, Geological Science, Mathematics, Physics, or Statistics.
- Three hours (one course) of non-Arts and Science coursework may be used towards partial fulfillment of the depth of study requirement.
- Courses must be chosen from the Distribution of Content List (<http://generaleducation.missouri.edu/requirements/distribution.php>) on the website of the General Education Program.
- Courses used to meet depth requirements may also be used to meet breadth requirements.
- Problems, research, readings, and internship courses may not be used.

Major Program Requirements

A major consists of at least 21 credits, including at least 15 credits in courses numbered 2000 or above, 12 of which must be taken in MU course work. See detailed departmental information for additional requirements for specific majors.

All Arts and Science majors require an MU Writing Intensive course numbered 3000 or above and an MU capstone course with grades of C- or higher. In addition, some majors require course work outside the major department.

Each student must declare and receive official approval for a major by submitting a graduation plan no later than the semester after completion of 60 credits. The purpose of the graduation plan is to acquaint students with all requirements that must be met prior to graduation and to plan for the timely completion of these requirements. Departments and programs

approve the graduation plan only when the student has met the following criteria:

- 2.0 cumulative GPA
- Completion of ENGLSH 1000 and MATH 1100 or MATH 1120 (or their equivalents) with grades of C- or higher
- Completion of any additional departmental requirements

Requirements for an Optional Minor

A minor consists of at least 15 credits, including at least 6 credits numbered 2000 or above, within a department or program that offers a minor; 9 of the required credits must be taken in MU course work. See detailed departmental information for additional requirements for specific minors. Courses outside the major department but required for the major may be used towards a minor. In addition, courses required in the minor may be used to meet Foundation requirements.

The College of Arts and Science awards minors only to undergraduate students who are simultaneous recipients of bachelor's degrees. Students may not earn a major and a minor in the same field.

Dual Degrees

In order to receive two bachelor's degrees, a student must complete a minimum of 132 credits and complete all of the specific requirements for both degrees. Normally, a minimum of one additional semester is required to earn both degrees. Each candidate for a dual degree is assigned advisors as appropriate.

The College of Arts and Science maintains dual-degree programs with the schools of Law, Medicine and Veterinary Medicine. To enroll in these programs, the student must have completed all of the specific course requirements for the bachelor's degree prior to admission to the professional school and also must have completed the junior year in residence in the College of Arts and Science. Under certain circumstances, Arts and Science undergraduates may be assured admission to MU's schools of Law or Medicine.

Second Degrees

The faculty of the college has approved the following guidelines for students wishing to obtain a second undergraduate degree after completion of a bachelor's degree, in addition to any university requirements that may apply:

- Unless both degrees are earned at MU in successive semesters, a student pursuing a second undergraduate degree will ordinarily be required to complete a minimum of 30 credits in residence in the College of Arts and Science after completion of the first undergraduate degree.
- A student must complete any college, general education or department requirements that are unique to the new degree program. Requirements that are in effect at the time a student begins work toward the second degree are applicable.
- Students applying for second-degree status will be considered only if they have completed (with grades C- or higher) ENGLSH 1000 and MATH 1100 or MATH 1120 (or equivalents) and have final term and cumulative GPAs no less than 2.0.
- The student must submit a graduation plan in consultation with an advisor in an appropriate department or program before the dean's office will approve a request from the student to enroll as a candidate for a second degree.

- With the exception of Interdisciplinary Studies majors with an emphasis in Black Studies, Peace Studies, or Women's and Gender Studies, the college does not approve applications for a second undergraduate degree in General Studies or Interdisciplinary Studies.
- Once enrolled for a second degree, a student is committed to enrolling in course work required for completion of that degree. A student will not be allowed to continue as a candidate for a second undergraduate degree if not enrolled in courses required for the second bachelor's degree.

Double Majors

A number of Arts and Science students choose to complete multiple majors while earning one degree. The requirements of each major, along with requirements for the degree, must be completed. Often, this does not result in the addition of hours to the degree program.

Graduate School Dual Enrollment

A final-semester senior may dually enroll in the College of Arts and Science and the Graduate School with permission of the deans of both divisions. This enables the student to complete some graduate course work prior to receiving the bachelor's degree.

The student must be within 15 credits of completion of the bachelor's degree and must rank in the upper half of the class.

Application forms for dual enrollment in these two schools may be obtained from the Graduate School Dean in 210 Jesse Hall.

Advising

Students who have declared a major are assigned an advisor in that department. Students who have not yet decided on a major are assigned to a professional advisor in the Student Success Center.

Career Placement

Employment opportunities in the various disciplines of the liberal arts vary greatly. Most departments in the college have printed information available describing employment opportunities. The MU Career Center in the Student Success Center offers students a variety of career planning services.

Air Force Reserve Officer Training Corps (AFROTC)

The AFROTC provides the opportunity to become a United States Air Force officer while completing a college degree. The program combines traditional undergraduate education with military instruction in preparation for Air Force leadership challenges. Each semester academic AFROTC classes will build a foundation for application to a two-hour Leadership Lab. Scholarships are available. Visit www.afrotc.com (<http://www.afrotc.com>) for the most current information. After graduating from college and successfully completing all AFROTC requirements, cadets receive a commission as a second lieutenant with an obligation of four years of service in the active duty Air Force. Pilots incur a ten-year commitment from the date of graduation from pilot training. A few additional career fields require a six or eight year commitment.

MU also offers a Minor in Aerospace Studies (p. 296).

For additional information contact:

Department of Aerospace Studies
217 Crowder Hall

573-882-7621
airforce.missouri.edu

Army Reserve Officer Training Corps (AROTC)

Army ROTC is a college elective program that teaches the skills needed to succeed in the Army or the corporate world. Students combine classroom time with hands-on experience and learn leadership and management skills. The experience of Army ROTC provides the confidence needed to excel in college and beyond. The Army ROTC program can be completed through a two- to four-year program designed to develop young men and women into junior commissioned officers in the Active Army, Army Reserve, or Army National Guard. In addition to traditional combat roles, Army officers serve in such professional fields as aviation, medical service, finance, personnel management, communications and engineering. MU also offers a Minor in Military Science (p. 300).

For additional information contact:

Department of Military Science and Leadership

<http://armyrotc.missouri.edu/>

Graduate

College of Arts & Science
107 Lowry Hall
(573) 882-6411
<http://coas.missouri.edu/>

The College of Arts and Science is home to a broad spectrum of disciplines that prepare graduate students for challenging and rewarding careers. Our faculty mentors are known for both research and teaching excellence and many have received national acclaim for discoveries, disciplinary leadership, creative works and music or theater performance.

The School of Music (p. 220), housed within the College, offers masters degrees, a doctoral degrees and a graduate certificate in jazz studies. Music education degrees are offered in conjunction with the College of Education, Department of Learning, Teaching and Curriculum.

Note: Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Anthropology

Mark V. Flinn, Chair

Department of Anthropology
College of Arts & Science

Fax: (573)884-5450

<http://anthropology.missouri.edu>

Anthropology is the study of human biology, behavior, language, and culture through comparative, evolutionary, and historical perspectives. Theoretically driven and research oriented, the Department of Anthropology at MU aims to advance scientific, anthropologically informed knowledge, with a general emphasis on Human Adaptation, Ecology, and Evolution.

MU Anthropology students study the whole of humanity - our history, variability, artifacts, customs, and value systems. This holistic approach produces sophisticated problem-solvers, which today's increasingly complex and conflict-prone world needs.

Faculty

Professor: M. V. Flinn**, R. L. Lyman**, M. J. O'Brien**, L. Sattenspiel**

Associate Professor: G. E. Blomquist**, C. T. Palmer**, M. K. Shenk**, C. S. VanPool**, T. L. VanPool

Assistant Professor: L. Cowgill**, K. Panchanathan**, R. Walker**

Research Professor: N. Chagnon, M. Daly

Note: All permanent regular faculty members in the department serve as undergraduate mentors for anthropology majors.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Director of Undergraduate Studies: Dr. Christine VanPool -
VanPoolC@missouri.edu

Anthropology is the study of humans and their cultures at different levels of social complexity, in different environments and at different times and places. Anthropologists view and compare human populations

across cultures and consider the interplay between biology and culture in forming human behavior. Anthropological study has three disciplines:

- Biological anthropology; the study of the evolution and biology of humans and other primates
- Cultural anthropology; the study of the various ways of life of recent and present-day peoples
- Archaeology; the study of past cultures through analysis of their material remains

Each of these contributes to a discipline that attempts to understand how and why humans look and behave the way they do.

An undergraduate major in anthropology results in a broad educational base that can be the core of a liberal arts education or the background for specific vocational or professional goals of a student. Anthropology is of particular value to students planning professional careers in a world of cultural and ethnic diversity. Anthropology majors are required to take core courses in three areas of the discipline, but may emphasize one or more of them in their remaining courses. Students may also develop an interdisciplinary program in cooperation with other departments or schools. In addition, the department offers an anthropology minor to students who are majoring in other departments and who will profit by more formal training in the discipline.

The Department of Anthropology provides many opportunities for students to become involved in research and encourages all students to do so. Such experiences help a student develop creativity, critical thinking skills, and skills in problem solving and writing. Students who are interested in doing anthropological research have several options, including both working in close conjunction with a faculty member and working on an independent project, which may lead to an honors degree for eligible students.

Undergraduate training in anthropology prepares students for work in government agencies (both in the United States and overseas), museum positions and field positions in, for example, archaeology, ethnography or human paleontology. It also prepares students for graduate study leading toward college or university teaching of anthropology. An anthropology degree also provides good background for careers in business, journalism, health, law and many other fields.

The Department of Anthropology has a number of special facilities that are available for use in classes, for individual research opportunities, and in some cases, for the general public to visit. The list is included below. Students interested in additional information are encouraged to consult the following web site: <http://web.coas.missouri.edu/~anthro/?q=node/107>.

These special facilities include:

- The Museum of Anthropology & Museum Support Center
- The Human Skeletal Remains Identification Laboratory
- The Paleoethnobotany Laboratory
- The Zooarchaeology Laboratory
- The Fossil Cast Collection
- MURR (University of Missouri Research Reactor)

Departmental Honors

The departmental program leading to the BA with Honors in Anthropology is designed for students who desire a more intensive experience in anthropology and who wish to work closely with a particular faculty member in the Anthropology Department on an independent research or scholarly project. To be accepted into and remain eligible for the honors

program in the Department of Anthropology, the student must achieve and maintain a minimum cumulative GPA of 3.3 in all University course work and must maintain a GPA of 3.5 in all anthropology courses.

A student wishing to graduate with departmental honors must fulfill the basic course requirements for the BA with a major in Anthropology. In addition, the student, with the assistance of the honors advisor, is expected to develop, plan and conduct research on an independent project. It is recommended that students in the honors program enroll in ANTHRO 4950H Honors Research in Anthropology, although projects initiated in other courses or through independent, noncredit research experiences may also be honors eligible.

To complete the honors degree, a student must submit the results of the research project as a formal honors thesis (or other evidence of scholarly achievement) that the student defends during an oral examination conducted by an examining committee. The committee consists of three faculty members: the advisor, another faculty member and the departmental honors director. The examination is scheduled no later than the thirteenth week of the term during which the student expects to graduate. Each member of the committee is furnished with a copy of the student's thesis or evidence of scholarly activity at least ten days before the examination. After the oral defense, the student furnishes the department with one final copy of the thesis or evidence of scholarly achievement (e.g., photographs) suitable for preservation in the departmental archive. Upon completion of the program, the examining committee recommends to the Dean of the College of Arts and Science that the student be awarded a BA with Honors in Anthropology.

Goals of the Anthropology Curriculum

Students completing an anthropology degree are awarded a BA degree with a major in Anthropology or a BA degree with Honors in Anthropology. The undergraduate program is designed to help students develop an appreciation of other cultures and other world views and to gain an understanding of how and why the diversity in human culture and biology came about. Several goals help faculty teach undergraduates about the nature of the discipline and how to think critically about what it is, what it means and how it is useful in today's society. These goals include:

- To recognize the broad, cross-cultural generalizations that characterize anthropology
- To recognize the value of a cross-cultural, comparative perspective
- To acquire an understanding of the basic concepts in the subfields of anthropology
- To acquire advanced knowledge in one or more of the subfields
- To acquire an awareness of the interrelationship of the subfields
- To think critically about the nature and content of anthropological questions
- To assess the structure of an argument and evaluate it and its supporting information
- To communicate effectively in writing or through oral presentation
- To strive for innovative and creative thinking
- To think independently both within and outside anthropology

Students are also encouraged to acquire experience in research design and methods (e.g., using the library and internet effectively to gather information on a problem, or understanding and using the methods of one or more subfields). To this end, the department provides abundant

opportunities for students to work with faculty members on independent research projects.

GPA Requirements

The College of Arts and Science requires that students attain a minimum GPA of 2.0 in all courses in their major department. In addition, all core courses in anthropology must be completed with a grade of C- or higher (see Major Program Requirements (p. 128) for a list of core courses for the BA in Anthropology). Students may receive a grade below C- in no more than one other course used to satisfy the major.

Graduate

Anthropology Graduate Programs

College of Arts and Science

(573)882-4731

Fax: (573)884-5450

<http://anthropology.missouri.edu>

Mailing Address:

107 Swallow Hall

Columbia, MO 65211

Office Location:

1205 University Ave., Suite 1110

Columbia, MO 65211

The Department of Anthropology offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The master's degree program of study is designed to provide broad training in anthropology. At the doctoral level, the student pursues individual, specialized study. The graduate program provides rigorous coursework in combination with hands-on field and laboratory research experience. Our department has a broad scientific approach, with emphasis on theoretical grounding in ecological and evolutionary theory, along with application of Computer and Mathematical modeling in all subfields.

Graduate training is offered in three traditional research areas of anthropology: cultural anthropology, physical/biological anthropology, and archaeology. Areas of specialization reflect the active research interests of the MU Anthropology faculty and currently include:

- Social/cultural anthropology: human behavioral ecology, medical anthropology, biocultural anthropology.
- Biological anthropology: skeletal biology, human osteology, demography, epidemiology, primate genetics.
- Archaeology: archaeological theory, evolutionary archaeology, zooarchaeology, paleoethnobotany, lithic artifact analysis, ceramic analysis, material sourcing studies

Incoming graduate students are admitted into one of three tracks:

Track One: MA students

Students admitted to this track will be classified as MA seeking students within the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology graduate program, including the MA exam and completing an MA project. Upon

completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Track Two: PhD students required to complete MA coursework

Students admitted to this track will be classified as PhD seeking students within the graduate school. These students will complete all course requirements for the MA, as well as the MA exam. With the consent of the student's committee, they will then complete either a thesis, OR a proposal that will serve as their PhD dissertation proposal, OR a published, primary authored paper. In each of these cases, the student will still need to orally defend the work. Upon successful completion of these requirements, they will be awarded an MA, and will then be eligible to continue work towards their PhD without the need to reapply to the program or change their student status.

Track Three: PhD students with MA in hand

Students admitted to this track will be classified as PhD seeking students within the graduate school. They will not be required to complete the MA exam or prepare a thesis, proposal or published paper, nor will they earn an MA during their graduate work at Mizzou. Upon completion of the requirements currently listed for the Department's PhD program, the student will be awarded a PhD.

The department also participates in the graduate minors in Ancient Studies and Museum Studies, the certificate program in Conservation Biology and Geographical Information Systems (GIS).

Facilities and Collections

Departmental research facilities/collections include a paleoethnobotany laboratory, a ceramic analysis laboratory, a stone artifact analysis laboratory, a comparative faunal collection, a skeletal biology laboratory, extensive holdings of New World (especially Missouri) archaeological and skeletal materials and ethnographic specimens from many parts of the world. The department's Museum of Anthropology provides opportunities for museum-oriented studies (see also the Museum Studies Graduate Minor). The Museum Support Center, an archaeological research and curation facility is located on the edge of campus. The University of Missouri Herbarium is also housed in this facility. The University of Missouri Research Reactor provides opportunities for students interested in archaeometry. Resources in other departments or research units available by arrangement include the Archaeometrics Laboratory of the Research Reactor, the Electron Microscopy Facility, and the Stable Isotope Laboratory of the Department of Geological Sciences.

Research by Location

Regular faculty members of the department conduct research in the following geographical areas, beyond Missouri: the Northwest (archaeology), Europe (biological anthropology), the Mississippi River Valley (archaeology), Canada (biological and cultural anthropology), Mongolia (archaeology), South Asia—India and Bangladesh (cultural anthropology), Dominica and Amazonia (biological & cultural anthropology), and the North American Southwest (archaeology). Refer to the faculty list for interests of emeritus faculty.

Internal Funding Opportunities

Teaching, research and student assistantships, fellowships and scholarships are available to qualified graduate students on a competitive basis. Applications for financial assistance should accompany application for admittance to the graduate program in anthropology. Refer to

the departmental website (<http://web.coas.missouri.edu/~anthro/?q=node/108>) for applications and due dates.

Undergraduate

BA in Anthropology

Major Program Requirements

In addition to college foundation requirements and University graduation requirements, such as general education (p. 18), all anthropology students are required to complete the following core courses (15 credits):

ANTHRO 2020	Fundamentals of Archaeology with Laboratory	4
or ANTHRO 2021 & ANTHRO 2022	Fundamentals of Archaeology and Fundamentals of Archaeology Lab	
ANTHRO 2030	Cultural Anthropology	3
ANTHRO 2050	Introduction to Biological Anthropology with Laboratory	5
or ANTHRO 2051 & ANTHRO 2052	Introduction to Biological Anthropology and Biological Anthropology Laboratory	
ANTHRO 4990	Capstone Seminar in Anthropology	3
Total Credits		15

ANTHRO 4990 Capstone Seminar in Anthropology must be completed even if a student completes an additional major in another department. Some departments waive this requirement for students completing a double major. Students with second majors should check with the other department to see if they are required to complete both capstone courses.

Electives

A minimum of five additional Anthropology courses (at least 15 credits) are required for the major. These courses must be distributed as follows:

Topical/theoretical	1 course
Area	1 course
Methods	1 course
Two additional courses of student's choice	2 courses

Explanation about the distribution of departmental courses among these three categories is available at <http://anthropology.missouri.edu/?q=node/103>.

The choice of area, topical-theoretical and methods courses is guided by the student's individual interests and goals, and is selected in consultation with the advisor. With the consent of the student's advisor and the director of undergraduate studies, the methods/techniques or area requirements may be fulfilled by suitable courses outside anthropology. If this requirement is satisfied by a course outside anthropology, an additional anthropology course is selected to complete the 30 credits required in anthropology.

Students may also complete the methods requirement by gaining hands-on experience doing anthropological research. This experience will normally begin with ANTHRO 2950 Research Skills in Anthropology, an introduction to the methods used by one or more faculty members. This course will satisfy the methods requirement if a student enrolls in it for at least 3 credits. A student may independently choose a faculty mentor and arrange for course credit or can work with the department's

undergraduate research coordinator, who will match the student's interests with those of one or more faculty members.

Students wishing to continue doing research of an independent nature may register for ANTHRO 4950 Undergraduate Research in Anthropology or for . Prior approval by the director of undergraduate studies is required to use these courses to satisfy the departmental methods requirement. Honors Research may be used to satisfy the requirements for an Honors BA with a major in Anthropology, but the course is not required for that degree. Specific requirements for the Honors BA are described below.

Related Courses

Because of the interdisciplinary nature of anthropology, the Department of Anthropology strongly recommends that all students complete a cluster of at least two or three courses that complement chosen courses within the major.

These courses may be offered by a single department or may be a related set of courses from several departments (e.g., courses in ancient history from both the Art History and Archaeology and the History departments). The courses should be chosen with the advisor and are intended to provide background in the content of other disciplines related to the student's anthropological focus. Fulfillment of a formal minor (15 credits in another department as approved by that department) or a second major (at least 30 credits in another department as approved by that department) can also be an effective way to gain expertise in related areas.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ANTHRO 2030 [^]	3 ANTHRO 2020 [^]	4
ENGLSH 1000 [*]	3 MATH 1100	3
HIST 1100 or POL_SC 1100 [*]	3 Behavioral science course [*]	3
Foreign language 1 [*]	5 Foreign language 2 [*]	5
	Elective	3
	14	18
Second Year		
Fall	CR Spring	CR
Anthropology topics course [^]	3 ANTHRO 2050 [^]	5
Foreign language 3 [*]	3 Laboratory science [*]	2
Science course [*]	3 Behavioral science (upper level) [*]	3
Social science course [*]	3 Humanities course [*]	3
Humanities course [*]	3 Elective	3
	15	16
Third Year		
Fall	CR Spring	CR
Anthropology elective [^]	3 Anthropology methods course [^]	3-5
Anthropology area course [^]	3 WI course [*]	3
Science course (if needed) [*]	3 Humanities (upper level) [*]	3

Social science (upper level) [*]	3 Related field course (recommended) [^]	3
Humanities course [*]	3 Elective	3
	15	15-17

Fourth Year		
Fall	CR Spring	CR
Anthropology elective [^]	3 Capstone Seminar in Anthropology (WI) ^{^*}	3
Related field course (recommended) [^]	3 Related field course (recommended) [^]	3
Electives	9 Electives	9-11
	15	15-17

Total Credits: 123-127

* Course meets University general education and/or campus graduation requirements.

[^] Course meets degree program requirements.

Minor in Anthropology

A student wishing to minor in anthropology should contact the Director of Undergraduate Studies. The requirements for a minor in anthropology are:

- A total of 15 credits in anthropology approved by the director of undergraduate studies.
- No more than 6 of the 15 credits required for the minor may be drawn from courses numbered below 2000. In addition, a minimum of 3 credits must be in courses numbered 3000 or above.
- Readings, research or problems courses may constitute no more than 6 of the required 15 credits.

Graduate

MA in Anthropology

Anthropology Graduate Programs
College of Arts and Science
107 Swallow Hall
573-882-4731
Contact: Cynthia Irsik

Admission Criteria (Track One, MA Applicants)

Students admitted to this track will be classified as MA seeking students with the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology graduate program, including the MA exam and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Fall deadline: January 10

Spring deadline: October 15 (no departmental financial aid available this term)

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 1000 2011		3.0
On or After August 1, 2011	300	3.0

Required Application Materials

Minimum GPA: 3.25 in last 60 hours and in all anthropology courses
 Letters of recommendation: 3
 Statement of intent
 Some of these requirements may be waived in exceptional cases.
 Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

Required Application Materials

To the Graduate School:

- All required Graduate School documents except transcripts
- 3 letters of recommendation (through online application)
- Department of Anthropology application
- Official GRE scores
- Statement of purpose
- Teaching assistant financial aid form (recommended)

To the Anthropology Program (<http://anthropology.missouri.edu>):

- Official transcripts

Financial Aid from the Program

The teaching assistant financial aid form is required for consideration for financial aid.

Graduation Requirements (Track One)

A student is expected to have advanced knowledge in the three subfields represented in our program (archaeology, biological anthropology, cultural anthropology) and understand the relationships among them upon completion of the MA degree. Opportunities for specialization are provided through research courses leading to a thesis. A program tailored to each student's educational objectives is planned by the student and the advisory committee of at least three members, one of whom is a non-anthropology faculty member.

Credit Hours Required for Master's Degree

Students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take ANTHRO 8010 History of Anthropology I. Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

Statistics Component

Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work.

Breadth of Knowledge

Completion of at least one graduate course in each of the three subfields reflected in our department is required. The MA exam will include information from the three areas.

Examination

After completing 27 credit hours, the student must pass the oral MA examination.

An oral exam that:

- 1) is taken no later than the semester following the successful completion of 27 hours in our graduate program.
- 2) is administered by an examination committee consisting of the student's advisor and one member randomly drawn from each of the other two subfields (linguistics excepted).
- 3) lasts no longer than 2 hours.
- 4) is designed to determine if the student has both sufficient breadth of knowledge in all three/four sub-fields to teach introductory anthropology courses such as ANTHRO 1000 and some current knowledge on at least one sub-field of their choice.
- 5) If, in the examining committee's opinion, the student has satisfactorily shown competency in all areas except one, then the committee may give the student a conditional pass and require them to write an essay on a specified topic within the inadequate area rather than retaking the entire oral exam. This essay must be approved by the committee before the student is deemed to have passed the exam.
- 6) can be retaken one, and only one, time.
- 7) must be successfully passed before the student can defend his or her MA Thesis.
- 8) includes 5 or more general questions each sub-field has agreed upon earlier and made available to the student to help the student prepare for the exam. This ensures consistency among examinations. Questions asked during the examination should build upon these topics, and can (and should) vary from the limited number of specific questions, especially as related to the student's interests or perceived weaknesses.

Residency Requirement

The Department of Anthropology residency requirement is two consecutive 9-hour semesters, or three consecutive 6-hour semesters.

Thesis (Track One) or thesis, proposal or published paper (Track Two)

A thesis (Track One) or thesis, proposal or published paper (Track Two), for a minimum of three hours and a maximum of six hours of credit (ANTHRO 8090), is required for the master's degree.

PhD in Anthropology

Department of Anthropology
 Mizzou North
 315 W. Business Loop 70 West

3rd Floor; Room 316
 (573)882-4731
 Fax: (573)884-5450
<http://anthropology.missouri.edu>

A Note About PhD Specialization

The doctoral candidate normally specializes in one of the recognized subfields of anthropology or, in consultation with a doctoral program committee, chooses an area of specialization that either cuts across some of the recognized divisions or includes some area outside traditional anthropology. Traditional areas of specialization currently offered include: Social/cultural anthropology, ecological and environmental anthropology, human behavioral ecology, anthropological demography. Biological anthropology, skeletal biology, human osteology, human evolution, demography, epidemiology. Archaeology, chronology, materials research, zooarchaeology, paleoethnobotany, lithic analysis, ceramic analysis, evolutionary archaeology, symbolic analysis, archaeological method and theory.

Admission Criteria - Track Two PhD Applicants (need to complete MA)

Students admitted to this track will be classified as MA seeking students with the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology graduate program, including the MA exam and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	3.0
On or After August 1, 2011	300	3.0

- Minimum GPA: 3.25 in last 60 hours and in all anthropology courses

Note: Some of these requirements may be waived in exceptional cases. Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

Required Application Materials For Track Two Applicants:

To the Graduate School:

- All required Graduate School documents except transcripts
- 3 letters of recommendation (through online application)
- Department of Anthropology application
- Official GRE scores
- Statement of purpose
- Teaching assistant financial aid form (recommended)

To the Anthropology Program:

- Official transcripts

Financial Aid from the Program

The teaching assistant financial aid form is required for consideration for financial aid.

Credit Hours Required for Master's Degree (Track Two Applicants Only)

Students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take History of Anthropology I (ANTHRO 8010). Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

Statistics Component

Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work.

Breadth of Knowledge

Completion of at least one graduate course in each of the three subfields reflected in our department is required. The MA exam will include information from the three areas.

Examination

After completing 27 credit hours, the student must pass the oral MA examination.

An oral exam that:

1. Is taken no later than the semester following the successful completion of 27 hours in our graduate program.
2. Is administered by an examination committee consisting of the student's advisor and one member randomly drawn from each of the other two subfields (linguistics excepted).
3. Lasts no longer than 2 hours.
4. Is designed to determine if the student has both sufficient breadth of knowledge in all three/four sub-fields to teach introductory anthropology courses such as ANTHRO 1000 and some current knowledge on at least one sub-field of their choice.
5. If, in the examining committee's opinion, the student has satisfactorily shown competency in all areas except one, then the committee may give the student a conditional pass and require them to write an essay on a specified topic within the inadequate area rather than retaking the entire oral exam. This essay must be approved by the committee before the student is deemed to have passed the exam.
6. Can be retaken one, and only one, time.
7. Must be successfully passed before the student can defend his or her MA Thesis.
8. Includes 5 or more general questions each sub-field has agreed upon earlier and made available to the student to help the student prepare for the exam. This ensures consistency among examinations. Questions asked during the examination should build upon these topics, and can (and should) vary from the limited number of specific questions, especially as related to the student's interests or perceived weaknesses.

Residency Requirement

The Department of Anthropology residency requirement is two consecutive 9-hour semesters, or three consecutive 6-hour semesters.

Thesis, Proposal or Published Paper (Track Two Only)

Track Two students must submit thesis, proposal or published paper for a minimum of three hours and a maximum of six hours of credit (ANTHRO 8090), is required for the master's degree.

Admission Criteria - Track Three Applicants (already earned the MA)

Students admitted to this track will be classified as PhD seeking students with the graduate school. They will not be required to complete the MA exam or prepare a thesis, proposal or published paper, nor will they earn an MA during their graduate work at Mizzou. Upon completion of the requirements currently listed for the Department's PhD program, the student will be awarded a PhD.

Fall deadline: January 10

Spring deadline: October 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	3.0
On or After August 1, 2011	300	3.0

- Minimum GPA: 3.5 in previous graduate work
- Master's degree

Note: A faculty who is a member of the doctoral faculty must agree, as a condition of admission, to accept the student as a PhD advisee. These qualifications apply to all applicants, including those with an MA degree from this department. Applicants whose MA is in a field other than anthropology will be considered under the policies for individuals holding the baccalaureate degree except that the quality of graduate work will be taken into consideration.

Required Application Materials for Track Three Applicants

To the Graduate School:

- All required Graduate School documents except transcripts
- 3 letters of recommendation (through online application)
- Department of Anthropology application
- Official GRE scores
- Statement of purpose
- Teaching assistant financial aid form (recommended)

To the Anthropology Program:

- Official transcripts

Financial Aid from the Program

The teaching assistant financial aid form is required for consideration for financial aid.

Art

M. Platt, Chair
College of Arts and Science
A126 Fine Arts Building
(573) 882-3555
<http://art.missouri.edu>
umcart@missouri.edu

The Department of Art is housed principally within the Fine Arts Building. Founded in 1877, the Art Department faculty consists of 20 full-time faculty, 11 adjunct instructors, and 27 graduate teaching assistants. Our faculty members, many of whom are nationally and internationally renowned, are well-established professional artists and designers with numerous exhibitions, commissions, and awards to their credit.

Our studio/laboratory spaces for each media area have impressive features that include a fully-equipped printmaking studio, photography labs for digital and traditional processes, a papermaking/fiber facility, an anagama kiln, a bronze casting facility, and three state-of-the-art digital labs housing over 65 up-to-date Macintosh computers with large 27-inch monitors, three 44" large-format Epson printers, and a variety of video equipment. The Department of Art also operates the George Caleb Bingham Gallery (<http://binghamgallery.missouri.edu>) in the Fine Arts Building, which showcases art exhibitions from students, faculty, and visiting artists year-round. A popular Visiting Artists Lecture Series is presented on late Wednesday afternoons during the Fall and Spring semesters and is open to the public. A popular summer experience sponsored by the Department in partnership with the International Center is the Summer Study Abroad Program (<http://art.missouri.edu/undergraduate/study-abroad.html>) that takes place in summers in Italy on odd-numbered years and in the Netherlands and Belgium in even-numbered years. In both countries, students will have the opportunity to study firsthand many of the most important masterpieces in Western art history.

Faculty and students have access to many other resources on the University campus, including the Museum of Art and Archaeology (<http://maa.missouri.edu>), the State Historical Society of Missouri (<http://shs.umsystem.edu>), the Craft Studio Gallery (<http://www.craftstudio.org>), extensive collections of Ellis Library (<http://mulibraries.missouri.edu/collections/ellis.htm>), and the image database on ArtStor (<http://www.artstor.org>).

You should not be surprised to find the works of MU art faculty and alumni in major museums, galleries, exhibitions, and collections around the world, from New York to Barcelona, and from Africa to China. The work of our faculty and alumni exemplifies the caliber of teaching and creativity that students experience in the MU Art Department. We are dedicated to providing our students with the best quality education possible and helping them to develop and nurture their artistic pursuits.

Faculty

Professor J. M. Brueggenjohann*, R. B. Clarke*, D. L. Huelsbergen*, L. Leong*, J. Stealey*

Associate Professor N. Boyer*, J. H. Calvin*, J. B. Grill*, W. A. Hawk*, C. Sampson*, R. A. Wilson*

Assistant Professor C. Daniggelis*, D. Farnum*, J. Johnson*, J. Pintz, A. Thompson*, J. Thornton*

Assistant Teaching Professor M. Ballou*, M. G. Langeneckert*, C. Stigliani*

Professor Emeritus J. D. Berneche, R. F. Bussabarger, B. B. Cameron*, L. Kantner, L. Rugolo, O. A. Schuchard, F. H. Stack

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Art (p. 134)
- BFA in Art (p. 135)
- Minor in Art (p. 135)

The Department of Art in the College of Arts & Science offers a BA and a BFA. A minor in Art is also available. Students have the option to take studio courses in drawing, painting, printmaking, ceramics, sculpture, fibers, photography, digital/experimental media, and graphic design.

The BA degree is intended for the student desiring a liberal education with a concentration in art, while the BFA provides more professional training in the studio area. The BFA is the required undergraduate degree for admission to most Master of Fine Arts programs.

Students who wish to teach at the elementary and/or secondary school level normally pursue the BS in Education degree. BA and BFA candidates may acquire elementary or secondary art teaching certification by completing the additional art education requirements not already completed in their BA or BFA programs.

- MFA in Art (p. 136)

The Department of Art offers a Master of Fine Arts (MFA) program that focuses on the creative goals of the individual. Our aim is to guide each student to finding and developing a particular direction and language as demonstrated by a coherent and conceptually unified body of artwork.

Through an intense studio-based practice, our graduates develop into professional artists and college level educators who will successfully contribute to the culture on a local, national and global scale through different fields in the visual arts.

The University of Missouri has been a leader in the visual arts since 1877 when the renowned painter George Caleb Bingham began teaching the first studio courses in the newly formed School of Art. Current faculty members follow in that tradition through their creative work that is nationally and internationally recognized. Their artwork encompasses: abstract and figurative painting and drawing, ceramics, sculpture, ceramics sculpture, as well as bronze cast sculpture, traditional and digital photography, all media of printmaking, surface design, illustration, papermaking and book arts, mixed-media, video, installation and

performance art plus intermedia and intradmedia approaches. They are all eager to mentor young artists who share the passion for creativity, critical thinking and the arts.

Laboratory facilities are available in all media areas that are continually updated to coincide with technological advancements. The Department of Art is home to the George Caleb Bingham Gallery with monthly exhibitions highlight artwork by students, local, regional and national artists. Our yearly Florence Summer Study Abroad Program places students in Italy where students have a month to study firsthand many of the most important masterpieces in Western art history. More about the MFA program. (<http://art.missouri.edu/mfa-program.html>)

Study Areas

Applicants typically study within a particular art medium. Applicants declare a media emphasis of their choice at the time of application to the program. Media areas for selection include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. Aspects of new media (2D and 3D computer imaging and animation, video production, web publishing and other digital media) are also integrated into the curriculum of many of the listed traditional media.

Financial Aid

Fellowships, scholarships, and tuition waivers, along with graduate teaching assistantships and graduate research assistantships with stipends are available to qualified graduate students. Assistantships include stipends. Some aid is awarded upon acceptance into the program, while others may be awarded later as the student develops within the program. Applications for graduate teaching assistantships should be submitted along with the application portfolio to the director of graduate studies. Application instructions follow later in this document. For a list of scholarships within the Department of Art, please visit the departmental website at: <http://art.missouri.edu/mfa-program/scholarships.html>

Some campus-wide opportunities are available, too. Most prominent would be the Mizzou Graduate Fellowship that is available for applicants for the fall semester (submitting deadline on January 1st each year) only.

Advising

Upon admission to the program, a candidate is assigned a graduate thesis committee chair/major adviser. This person will mentor the student throughout the student's tenure and help the student to establish the three-member graduate thesis committee. By the second semester the student will select another committee member from the Graduate Faculty to serve as the student's second adviser. The chair/major adviser will also help the graduate student to select an outside member who is from the graduate faculty of another department. In addition, students have access to all the art department faculty members for consultation throughout the duration of their studies.

Undergraduate

BA in Art

Major Program Requirements

Art majors earning a BA degree complete art foundations courses, art core requirements, and art studio electives. No more than 40 credits in studio art may be included in the BA curriculum. Students enrolled in

the BA degree program may not include art or art history courses with a grade of D.

All art majors must complete a minimum of 12 credit hours of MU art coursework numbered 2000 or above. In addition, 9 hours of Art History and Archaeology courses, including two 3-hour classes numbered 2000 or above, are required.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 17), including University general education (p. 18).

Major core requirements

Art foundations		
ART_GNRL 1030	Basic 2-D Design	3
ART_GNRL 1040	Basic 3-D Design	3

BFA in Art

Major Program Requirements

Art majors earning a BFA degree complete art foundations courses, art core requirements, and art studio electives with 15 credits in one specific media area. Students enrolled in the BFA degree program may not include art or art history courses with a grade of D.

All art students are assigned a departmental faculty advisor. Students are encouraged to meet with the advisor to plan a program of study with a focus in one particular media area.

BFA students complete 60 to 70 credits in studio art, including a minimum of 15 credits in one specific media area, and 12 credits of art history, including at least two 3-hour Art History & Archaeology courses numbered 2000 or above. A minimum of 35 credit hours of studio art coursework must be taken at MU.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 17), including University general education. (p. 18)

Major core requirements:
Art foundations

ART_GNRL 1030	Basic 2-D Design	3
ART_GNRL 1040	Basic 3-D Design	3
ART_DRAW 1050	Drawing I	3

Art core requirements

Minor in Art

The minor in art requires a total of 18 credits, including 15 credits in studio art and 3 credits from the Department of Art History & Archaeology. Six credits must be studio art courses numbered 2000 or

above. At least 9 of these hours must be taken while in residence at the University of Missouri. An Art Minor may not include art or art history courses with a grade of D.

Graduate

MFA in Art

Admission Contact:

Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu

Department of Art

A126 Fine Arts Building
University of Missouri
Columbia, MO 65211-6090, USA
573-882-4037

Admission Criteria

Fall semester deadline (priority for campus scholarships):

- January 1 if seeking nomination for Mizzou Graduate Fellowship

Spring semester deadline:

- September 1

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum GPA: 3.0

The preferred undergraduate degree for admission to the graduate program in visual art is the Bachelor of Fine Arts degree (BFA). However, applicants holding the BA, BS or other bachelor's degrees are eligible to apply if they have a minimum of 40 hours of undergraduate studio credits or an equivalent commensurate professional experience. Applicants for the Graphic Design Area are required to have a minimum of 2 years professional experience before applying.

Application materials are evaluated to determine if the applicant has the preparation and ability to pursue an advanced degree. Admission is based on the recommendations from the art department graduate faculty members representing each of the media areas. Some applicants, may be placed on a waiting list as alternates, then accepted if others decline their admission offers.

Required Application Materials

Submit to the Graduate School:

- All required Graduate School documents
- Cover Letter of Intent (stating the goals for pursuing the MFA degree)
- A Digital Assets Sheet (defining the image and video files).
- Current Résumé (exhibition, award, publications, artistic experience, etc.)
- An artist's statement
- Three (3) letters of recommendation
- Official transcripts from each college attended
- Application for G.T.A. (optional but necessary for tuition waiver)

Application Materials Submit to the Art Department

- The application process requires a digital portfolio documenting 20 separate pieces of the applicant's artwork. Applicants can document these works using twenty (20) to forty (40) digital still images and/or moving image files. Please limit submissions to a maximum of 2 images for any one piece of artwork. The artwork in the portfolio should represent your most recent and most accomplished body of work. The work should indicate your major artistic interests and creative direction. The work should demonstrate your creative ability and media competence. If you are requesting consideration for a teaching assistantship, a few of the images could be works that demonstrate your foundational mastery of a specific media area. Portfolios must be submitted in digital form on CD only. Please follow closely the instructions for the submission of images available on the department website:

MFA Degree Completion Requirements

The MFA program consists of 60-70 credit hours.

The degree includes:

- 30 hours in the major area
- 9 hours in a minor area
- 3 hours of Graduate Studio Seminar
- A minimum of 1 hour of MFA Research Hours
- 11 hours of electives
- 6 hours of Art History

Graduate-Level Course work

Graduate level courses are at the 7000/8000/9000 level. A minimum of 15 of the 30 hours must be selected from courses numbered at 8000 and/or 9000 levels; no more than 40 percent of the 30 hours credit requirement can be satisfied by Research, Readings and Problems courses. No credit is given for courses at the 4000 or below levels.

Residency Requirement

A minimum residency of two years is required for the degree. However, mere completion of the prescribed number of credit hours and the residency requirement is insufficient, rather the degree will be granted upon the student's high level of creative achievement as determined by the student's graduate thesis committee.

Regular Student Evaluation

The full graduate faculty of the art department reviews every MFA candidate once each year to determine the rate of progress. If the candidate fails to receive a passing evaluation during the review, the student is placed on probation for one semester and is required to be reviewed the following semester. If two consecutive unsatisfactory reviews occur, the student is dismissed from the MFA program.

Clearance

During the semester prior to graduation, the graduate thesis committee will approve the student to proceed with the final steps toward graduation, composing the written thesis and mounting the thesis exhibition.

Thesis Acceptance

The graduate thesis committee approves the thesis exhibition and written thesis. The final semester, the MFA candidate installs a thesis exhibition to display visual, artistic and professional achievement. The candidate thereafter presents a final draft of the written thesis that defends the conceptual and philosophical ideas of the final body of

artwork. Photographic record of the pieces discussed must be included in the written thesis.

Each degree candidate must pass a two-hour oral final examination conducted by the graduate thesis committee. The presentation must focus on the aspects of the academic study related to the written thesis and visual work. Following final approval of the thesis exhibition and the written thesis, the graduate will officially submit documentation of the theses to the graduate school. The thesis is submitted as a PDF file on a CD-ROM to the Graduate School by the established deadline.

Time Limit and Extensions

The time limit for completion of the MFA degree is 5 years. Time spent in military service is excluded. For an extension for other reasons the student must petition the Graduate School through his/her chair/major adviser. The five-year period will extend from the beginning of the first semester of enrollment in which the student is accepted to the MFA degree program to the date of his/her clearance to graduate.

Art History and Archaeology

S. Langdon, Chair
College of Arts and Science
21 Parker Hall
(573) 882-6711
aha@missouri.edu
<http://aha.missouri.edu>

The development of European and American art in its historic and cultural context is the subject of study in the Department of Art History and Archaeology.

The department offers BA, MA and PhD degrees with a major in Art History and Archaeology.

Faculty

Professor N. E. Land Jr.** , S. H. Langdon** , M. L. Rautman**

Associate Professor K. A. Schwain** , A. R. Stanton** , J. A. van Dyke** , M. E. Yonan**

Professor Emeritus W. R. Biers, H. W. Marshall, O. Overby

Professor Emerita P. D. Crown, K. W. Slane**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Art History and Archaeology (p. 139)
- Minor in Art History and Archaeology (p. 140)

Double Majors and Dual Degrees

Students may combine a major in art history and archaeology with a major in another department in the College of Arts and Science such as Art or Classical Studies (a double major), or with a major in another college such as Business or Journalism (a dual major). Students who graduate with dual majors will be awarded two degrees; their program of study will include an additional 12 credits. Students who plan to pursue double or dual majors should complete graduation plans in both departments.

Departmental Honors

Departmental Honors recognizes students who have demonstrated a commitment to future professional study in art history and archaeology, wish for more substantial research experience, and have built a record of excellence in departmental coursework.

Requirements:

- 3.3 Cumulative GPA
- 3.6 Departmental GPA
- Successful completion of one 4000-level AR_H_A course as a prerequisite
- Completion of a senior honors essay, AR_H_A 4999

Students apply for departmental honors the semester prior to taking AR_H_A 4999 by writing a proposal on the subject of their essay. The

proposal is submitted in duplicate to the faculty member whom the student would like to have serve as the project's supervisor and to the Director of Undergraduate Studies, but shall be considered and must be approved by the faculty as a whole. The essay's topic should reflect both the student's interests and the expertise of the faculty supervisor. The honors essay should be of substantial length, incorporate significant individual research, and engage with theoretical, historiographical, and methodological perspectives appropriate to the topic at hand. Completing these requirements to the faculty's satisfaction will earn the student departmental honors.

Director of Graduate Studies: James van Dyke

- MA in Art History and Archaeology (p. 140)
- PhD in Art History and Archaeology (p. 142)

About Art History and Archaeology

The University of Missouri has played a prominent role in the teaching of the visual arts in North America since Walter Miller and John Pickard first began lecturing on campus in the 1890s. Our faculty and staff reflect the widening scope of our discipline with particular strengths in the areas of classical Mediterranean archaeology, medieval and Renaissance art, and the art and architecture of modern Europe and the Americas. Current faculty research interests range from early Greece and Rome to modern architecture and contemporary painting. Resources available to faculty and students include the department's Visual Resources Center and the Museum of Art and Archaeology, as well as the extensive collections of Ellis Library.

Degrees Offered

The Department of Art History and Archaeology offers the MA and the PhD degrees in Art History and Archaeology. The department participates in interdisciplinary graduate minors in Ancient Studies, Medieval and Renaissance Studies, Museum Studies, and Women's and Gender Studies.

Funding: Internal and External

The Department of Art History and Archaeology offers two forms of graduate support: teaching assistantships in introductory and upper-level courses; and research assistantships in the Visual Resources Center, which provides students with the opportunity to learn a variety of skills vital to the field in the digital age. In addition, the Museum of Art and Archaeology provides research assistantships that allow students to work closely with curators in various departments of the Museum.

Generally, the department and the museum offer .25 FTE (full time equivalent) assistantships that require approximately ten hours of work per week. These provide a nine-month stipend; a tuition waiver that covers resident educational and non-resident fees; and a 50% medical insurance subsidy if you enroll in "Student Accident and Sickness Insurance" program. In special circumstances, the Department and the Museum will offer a .5 FTE to advanced students.

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester. The Department follows the rules set by the Graduate School regarding tuition waiver limits.

In addition to teaching and research assistantships, the department may award departmental fellowships to advanced students: the Herbert Schooling Fellowship; the John Pickard Fellowship; and the Charles D. Folse Fellowship for students in classical archaeology. Holders of these fellowships may, with proper consent, hold additional grants not to exceed \$1000 or may hold teaching assistantships.

Finally, the department offers a number of fellowships and travel awards:

- The Edzard Baumann Traveling Fellowship in European Art
- The Irina Hans Fellowship in Art History
- The Osmund Overby Fund for research in American art, architecture, and historic preservation
- The Saul and Gladys Weinberg Traveling Fellowship for advanced students in classical archaeology

Students interested in these awards should contact the director of graduate studies and their advisors for application instructions.

In addition, the University of Missouri Graduate School sponsors two major fellowship programs: a spring competition and a Supplemental Graduate Fellowship Program. Applicants in both art history and archaeology are eligible for these fellowships, which are awarded to entering students through a campus-wide competition. Nominations for both are completed by the director of graduate studies in consultation with the entire faculty. Students in the Department of Art History and Archaeology have held a number of these awards, including the G. Ellsworth Huggins Scholarship, the Gus T. Ridgel Fellowship, and the Robert E. Waterston Award.

Students enrolled in MA and PhD programs are also eligible for awards from The Graduate Professional Council (GPC), which are designed to assist students who are traveling to present research papers, posters or creative works at conferences or symposia. The Graduate Student Association (GSA) also awards travel grants to students who are presenting a paper or poster, or chairing a plenary session or roundtable discussion, at an academic conference.

Finally, the department encourages graduate students to apply for internships, study abroad programs, grants, and fellowships that support their programs of study. An excellent place to initiate this search is Resources in Art History for Graduate Students: A Newsletter of Fellowships and other Opportunities for Art History Graduate Students (<http://www.efn.org/~acd/resources.html>).

BA in Art History and Archaeology

Major Program Requirements

Students may elect a broad program in art history or a more narrowly focused one in classical archaeology. Those who are planning to focus in either program should begin foreign language study as early as possible.

In addition to University general education (p. 18) requirements and other college and University graduation requirements (p. 17), students must meet the following requirements:

Major core requirements		13-19
Students must take 1110 and 1120:		
AR_H_A 1110	Ancient and Medieval Art	6
& AR_H_A 1120	and Renaissance through Modern Art	
OR		
The General Honors Humanities Sequence (GN_HON 2111H, GN_HON 2112H, GN_HON 2113H, GN_HON 2114H)		12
In addition, students must enroll in at least two 4000-level courses (after appropriate prerequisites) and the capstone.		
AR_H_A 4970	Capstone: Art History and Archaeology	1
One course numbered 4005 through 4960 must be taken in conjunction with AR_H_A 4970 within the last 45 credits.		

Options

Note: Options do not appear on diplomas or transcripts.

Art History Option

At least one 3000-level course in each of five fields

Ancient	3
Byzantine-Medieval	3
Renaissance-Baroque	3
18th century to the present	3
Arts of the Americas	3

Language Requirement

Study is required through the reading level (i.e., 12 or 13 credits) in one language, such as German, French, Spanish or Italian. Students who plan to attend graduate school are strongly urged to study two languages.

Courses Recommended for a Well-Rounded Degree

Humanities courses, such as history, literature, philosophy, aesthetics, film, classical studies or religious studies; anthropology, sociology or environmental design.

Art courses

Maximum 12 credits; 15, if declared as a minor. Students are strongly urged to take at least one course in studio art.

Classical Archaeology Option

At least five courses at the 3000-level, including:

AR_H_A 3210	Near Eastern and Egyptian Art and Archaeology	3
AR_H_A 3310	Greek Art and Archaeology	3
AR_H_A 3410	Roman Art and Archaeology	3
AR_H_A 3510	Byzantine and Islamic Art and Archaeology	3
or AR_H_A 3520	Early Medieval Art and Archaeology	

Any 3000-level post-ancient lecture course:

Courses numbered 3520-3850	3
One course numbered 4005 through 4840 must be taken in conjunction with AR_H_A 4970: Capstone within the last 45 credits of study for a total of 4 credits.	4

A third 4000-level course may be taken instead of a post-ancient course at the 3000-level.

Language requirement

Study is required through the reading level (i.e., 13 credits) in Greek or Latin. Students who plan to attend graduate school are very strongly encouraged to study French or German as well.

Courses recommended for a well-rounded degree

Any course in classics, classical humanities, and ancient history; courses in history, anthropology, philosophy, or religious studies; geology; literature.

Semester Plans

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ENGLISH 1000	3 MATH 1100	3
HIST 1100	3 AR_H_A 1120	3
AR_H_A 1110	3 GEOL 1200	4
SOCIOL 1000	3 ANTHRO 1000	3
ART_GNRL 1010	3 BIO_SC 1010	3
	15	16
Second Year		
Fall	CR Spring	CR

Total Credits: 123

Minor in Art History and Archaeology

A minor in Art History and Archaeology requires 15 credits within the department. Nine of the 15 credits must be at the 3000-level or above.

Graduate

MA in Art History and Archaeology

Admission Contact Information

James van Dyke (vandykej@missouri.edu)
 21 Parker Hall
 Columbia, MO 65211
 573-882-6711

About the Master's

The MA program in the Department of Art History and Archaeology has two primary goals: to provide graduate students with a strong background in the history of art, from antiquity to the present; and to introduce them to

the methods and theories of material and visual analysis, as well as the practices of critical writing and reading. Students who pursue the thesis option have the opportunity to specialize at that stage.

Admission Criteria

Admission to the department on the graduate level is granted yearly to a small number of candidates who hold recognized BA or MA degrees in art history, classical archaeology, classics, or related fields of the humanities and social sciences. In addition to the 3.0 GPA required by the Graduate School, the department requires: a GPA of 3.3 in the major field; minimum GRE score (below) and at least three semesters of a single appropriate foreign language (normally German, French or Italian).

Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	4.5
On or After August 1, 2011	300	4.5

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant's professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant's scholarship and writing
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Course Requirements

The successful completion of the MA requires at least thirty hours of coursework that must include: AR_H_A 8110 Introduction to Graduate Study; AR_H_A 8120 Theories and Methodologies in Art History and Archaeology; four distribution requirements that cover four broad periods of study: Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present; and AR_H_A 8070 Master's Tutorial. If students are invited to pursue the thesis option, they must enroll in AR_H_A 8080 Readings for MA Thesis in Art History and Archaeology and AR_H_A 8090 Master's Thesis Research and Thesis in place of AR_H_A 8070. Courses for an interdisciplinary minor field will be in addition to these minimums.

Language Requirements

All students must demonstrate reading knowledge of one foreign language, usually German or a Romance language. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies. The department expects that the modern language requirement will be met by the end of the third semester for use in advanced coursework as well as thesis research and writing. In addition to the modern language, students in Classical Archaeology also must have reading knowledge of either Greek or Latin. Students who pursue the thesis option must have reading knowledge of two modern languages: German and a Romance language.

Master's Essay

To complete the degree, students must complete a scholarly essay under the guidance of a faculty advisor. It will most likely be a revision of a research paper from a graduate course taken in the Department of Art History and Archaeology.

Master's Essay Oral Examination

In consultation with the faculty advisor, students will select two additional members of the department faculty to read the essay. Students will discuss their essays in a meeting chaired by their advisor.

Master's Thesis Option

Graduate students who intend to pursue doctoral work should complete the thesis option. This decision is made during the student's second or third semester in residence in consultation with the Director of Graduate Studies and three faculty members in the student's area of interest.

Master's Thesis Committee

The master's thesis committee consists of at least three people: the student's thesis advisor, a second member from within the department, and a third member from outside the department. The student should invite the latter two in consultation with his or her thesis advisor.

The committee must approve the thesis topic in the semester before the student plans to defend the thesis; often, this is accomplished during an interview for candidacy.

Master's Thesis

The master's thesis enables graduate students to engage in independent and thorough research in a specific area of study. While the thesis need not be an original contribution, neither can it be an uncritical compilation of published facts. A successful thesis will demonstrate the student's ability to use bibliography in the field; effectively utilize research tools and techniques; synthesize a variety of types of sources; and sustain an argument.

Master's Thesis Defense

The defense of the master's thesis is an oral examination, chaired by the student's advisor, which focuses specifically on the MA thesis. The student should submit a complete draft of the thesis to the advisor at least two months before the intended defense date and a final draft, approved by the advisor, to the entire committee 30 days before the defense. Any changes recommended by the committee during the

defense must be made before the finished thesis can be submitted to the Graduate School.

More Information

Further guidelines are included in the department's graduate programs brochure or on the website.

PhD in Art History and Archaeology

Admission Contact Information

James van Dyke (vandykej@missouri.edu)
21 Parker Hall
Columbia, MO 65211
573-882-6711

About the PhD

In the Doctoral Program, students deepen their exploration of art history or classical archaeology and demonstrate their ability to carry out original scholarship.

The department advises doctoral students in the following areas of study:

- Greek Art and Archaeology
- Roman and Late Antique Art and Archaeology
- Early Medieval Art and Archaeology
- Late Medieval Art
- Renaissance and Baroque Art
- 18 th Century Art
- 19 th Century Art
- 20-21 st Century Art
- American Art
- Architectural History

Admission Criteria

The department accepts as candidates for the PhD students who have earned an MA or its equivalent in art history or classical archaeology, either from the University of Missouri or from an institution recognized by the university. An MA thesis is a prerequisite for the PhD in both art history and classical archaeology. The Doctoral Program Committee (see below) determines the acceptability of work completed elsewhere.

Students completing an M.A. degree in the Department of Art History and Archaeology at the University of Missouri-Columbia who want to continue for the Ph.D. must be accepted for advising by a faculty member who is a member of the doctoral faculty. Such students should submit a statement of purpose and a current CV to the department by the January 18 deadline. After they are accepted for advising, they need to submit a "Change of Program, Degree, Emphasis or Advisor Form" to the Graduate School.

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant's professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant's scholarship and writing, and
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Coursework

The Graduate School requires a minimum of 72 hours for the PhD. At least 42 of those hours must be completed after the receipt of MA. Up to 30 hours from a previous institution can count toward the total of 72 hours. Most students will take more than the minimum number of courses and requirements

The 42 hours must include:

- At least one course from the following four areas—Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present—unless students have taken an equivalent at the MA level.
- 27 hours of courses in the major areas. At least 12 of the 27 hours must be seminars at the 8000 level.
- 15 hours of coursework in the minor areas. At least 6 of the 15 hours must be taken at the 8000-level

The student's program of study is determined in consultation with the Doctoral Program Committee. The Doctoral Program Committee is constituted in October during the first year of study. It consists of at least four people: the student's adviser; two additional scholars from within the department; and an outside committee member. The committee:

1. Reviews the student's MA thesis and determines its equivalency;
2. Accepts any transfer of credit from previous institutions;
3. Approves the plan of study;
4. Determines the major and minor areas as well as the scheduling of the comprehensive exams;
5. Approves the subject of the student's dissertation;
6. Examines the student's dissertation.

Languages

All students must demonstrate reading knowledge of two foreign languages, usually German and a Romance language relevant to their area. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies.

In addition to the modern languages, students in classical archaeology must demonstrate reading knowledge of both Greek and Latin. This

requirement may be satisfied by passing with a grade of B or better in a course numbered 7500 or higher in both Greek and Latin and by taking a second course at this level (7500 or higher) in the language more closely related to the major field of study. Equivalent courses taken at other institutions must be approved by the Director of Graduate Studies.

Comprehensive Examination

The comprehensive examination in the major and minor areas of art history and archaeology, determined by the student and the doctoral program committee, consists of both written and oral examinations.

Dissertation

The dissertation is expected to be an original, scholarly contribution to the discipline. The topic must be approved by the adviser and the Doctoral Program Committee. A dissertation proposal should be filed with members of the committee within two months of passing the comprehensive exams. A proposal for a dissertation fellowship will satisfy this requirement.

Individual chapters are generally submitted to the adviser as they are written. Other members of the Doctoral Program Committee may also criticize them in draft form. A complete, revised draft of the dissertation must be approved by the adviser at least two months before the defense. Students should distribute the final draft to each member of the committee at least one month before the defense.

Students maintain continuous enrollment by registering for 9080 or 9090 and by submitting a progress report to the Graduate Student Progress System and their adviser each term. Dissertation advising is not normally available during the summer unless previous arrangements have been made.

Further guidelines, including available areas of doctoral study, are included in the department's website.

Dissertation Defense

The final examination will be in the form of an oral defense of the dissertation. It must take place on or before the penultimate Friday of classes. Any changes recommended by the committee during the defense must be made and approved before the finished thesis can be submitted to the Graduate School. Students are responsible for ensuring they meet the deadlines and guidelines established by the Graduate School for dissertation submission and graduation.

Biological Sciences

J. Walker, Director
College of Arts and Science
105 Tucker Hall
(573) 882-6659

The Division of Biological Sciences offers both a Bachelor of Arts and a Bachelor of Science with a major in Biological Sciences, in addition to a minor in biological sciences for students majoring in other departments. The department also offers MA and PhD degrees in Biological Sciences.

Faculty

Curators Professor J. A. Birchler**, H. C. Gerhardt**, R. Semlitsch**, G. P. Smith**, F. S. Vom Saal**

Professor S. Alexander**, A. Chandrasekhar**, R. B. Cocroft**, J. R. Faaborg**, C. Galen**, M. D. Kirk**, E. Liscum III**, A. D. McClellan**, K. J. Newton**, T. E. Phillips**, J. Schul** D. R. Setzer*, J. C. Walker**, B. Zhang**

Associate Professor D. Braun**, D. Cornelison**, J. D. David*, L. Eggert**, M. Garcia**, M. W. Golomb**, J. Maruniak*, P. McSteen**, J. C. Pires**, D. Schulz**, P. Shiu**, G. F. Summers*, C. Tan**, T. D. Zars**

Assistant Professor P. Brown**, R. Holdo**, E. King, M. Leal, L. Milesco**, M. Milesco**

Adjunct Associate Professor H. Alexander**

Adjunct Assistant Professor J. Taylor, J. Weaver*

Teaching Associate Professor S. L. Bush*, R. D. Hurst, B. Stone

Teaching Assistant Professor D. Gayou

Distinguished Teaching-Professor Emeritus J. E. Carrel**

Professor Emeritus B. G. Cumbie, A. Eisenstark, P. H. S. Jen, D. Mertz, C. D. Miles

Associate Professor Emeritus L. Chapman, D. L. Worcester*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Departmental Honors

The department strongly encourages participation in departmental honors. The heart of the honors program is a year-long experience in laboratory, field, or theoretical work in any area of biology. Students work directly with outstanding faculty mentors from the Division of Biological Sciences or other life science units on campus.

Students may earn degrees with honors by completing BIO_SC 4950H and BIO_SC 4952H (6 credits) and preparing a manuscript suitable for publication in a journal or the abstract of an oral or poster presentation at an on-campus symposium or at a regional or national meeting of a professional society. Students should meet with the honors program director to arrange their research experience. The honors program requires sophomore standing or higher and a GPA of 3.3. Students with a GPA between 3.0 and 3.29 may petition the director of the honors program for admission. Students must however graduate with a GPA of 3.3 to receive departmental honors. The honors program director is Professor David Setzer, 410 Tucker, 882-6821, setzerd@missouri.edu.

- MA in Biological Sciences (p. 148)
- PhD in Biological Sciences (p. 148)

About Biological Sciences

The Division of Biological Sciences offers a unique integration of world-class research, award-winning graduate and undergraduate training, and outstanding community outreach. Our research mission includes the acquisition of new knowledge through basic research, and coordinated translational research to improve human health, our food supply, and our environment. Graduate training programs emphasize the excitement of discovery and the development of individual creativity and critical reasoning skills, with graduate mentors who are experts at the frontiers of their field. Because science exposure in the pre-college years is critical to the development of both scientists and informed citizens, we also offer special outreach programs for secondary school science teachers, students and citizens in Missouri.

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Areas of Study

The division offers primarily PhD degrees. General areas of research emphasis within the division include evolutionary biology, ecology and behavior; genetic, cellular, molecular and developmental biology; neurobiology and behavior; and plant sciences. Within these general

areas, students may devise more specific graduate programs in, for example, plant genetics, invertebrate chemical communication or neurophysiology.

Interdisciplinary Research

Several students are currently involved in interdepartmental programs in neurosciences, genetics, plant biochemistry and physiology, cellular and molecular biology, the Conservation Biology Program, microbiology and physiology. In addition, the presence on this campus of a School of Medicine, College of Agriculture, Food and Natural Resources and College of Veterinary Medicine provides opportunities for direct interaction with a variety of established research scientists. Faculty in the division also participate in the Genetics Area Program, the Pathobiology Area Program, the Molecular Biology Program, the Interdisciplinary Program in Plant Biochemistry and Physiology, the Interdisciplinary Neuroscience Program and the Conservation Biology Program.

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

Research Facilities and Resources

Divisional faculty have ready access to the campus computing network and microcomputers in their laboratories. Beyond the specialized equipment in each faculty research laboratory, departmental and campus equipment and facilities available to graduate students include:

- Molecular and cellular biology core facilities, including DNA (with Next Generation Sequencing), Electron Microscopy, Cell and Immunobiology, Informatics, Nuclear Magnetic Resonance, Molecular Cytology, Proteomics, Structural Biology, and Transgenic Animal;
- a 250,000-specimen herbarium;
- a new 15,000-square-foot greenhouse complex;
- animal-care facilities suitable for mice, bats, rats, rabbits and amphibians;
- a 14-acre botany preserve on the campus and a 146-acre prairie research station;
- 24 walk-in plant growth chambers with regulated light, temperature and humidity controls;
- cell and tissue culture facilities;
- growth chambers;
- scanning spectrophotometers and kinetic fluorimeters;
- ultracentrifuges and scintillation counters;
- HPLC facilities;
- sound isolation acoustic chambers;
- neurophysiological recorders, oscilloscopes and amplifiers; and,
- microneurosurgery facilities and equipment.

Funding

Financial support is available through research training grants, fellowships, scholarships, graduate research assistantships, and graduate teaching assistantships.

Undergraduate

Department Level Requirements - Biological Sciences

Requirements - Biological Sciences

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in related departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. At least 12 hours of biology coursework must be taken in residence at MU.

Foreign Language Alternative for students pursuing a BS degree in biological sciences

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements and may not be used to fulfill a minor in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

Major Core Requirements Biology

BIO_SC 1500	Introduction to Biological Systems with Laboratory	5
BIO_SC 2200	General Genetics	4
BIO_SC 2300	Introduction to Cell Biology	4
Evolutionary Biology (select from):		3
BIO_SC 3400	Evolution and Ecology	
BIO_SC 4600	Evolution	
Biological Diversity (select from):		3-5
BIO_SC 2600	Ornithology	
BIO_SC 2700	Ichthyology	
MICROB 3200	Medical Microbiology and Immunology	
BIO_SC 3210	Plant Systematics	
BIO_SC 3260	Invertebrate Zoology	
BIO_SC 3360	Herpetology	
BIO_SC 3510	Biology of Fungi	
BIO_SC 3660	Mammalogy	
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity	
Capstone course (select one) (complete in last 45 hours):		3-5
BIO_SC 4950 & BIO_SC 4952	Undergraduate Research in Biology and Undergraduate Research in Biology	
BIO_SC 4950H & BIO_SC 4952H	Honors Research in Biology and Honors Research in Biology	

BIO_SC 4976	Molecular Biology
BIO_SC 4978	Cancer Biology
BIO_SC 4982	Human Inherited Diseases
BIO_SC 4983	Molecular Ecology
BIO_SC 4984	Mammalian Reproductive Biology
BIO_SC 4986	Neurology of Motor Systems
BIO_SC 4988	Nerve Cells and Behavior
BIO_SC 4990	Vertebrate Histology and Microscopic Anatomy
BIO_SC 4994	Senior Seminar

Electives

All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree.

Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2010, BIO_SC 2060, BIO_SC 2100, and BIO_SC 2150 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent reading, service learning, internships, problems and seminar courses do not apply.

Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

Students may repeat research courses for a total of 12 hours. Any credit remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

BA in Biological Sciences

Major Program Requirements

Department Level Requirements (p. 145) must be completed in addition to all university requirements (p. 17), including general education (p. 18), and the degree requirements below.

CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100 & CHEM 2110	Organic Chemistry I and Organic Chemistry II	3-6
or CHEM 2030	Survey of Organic Chemistry	
One course in Physics, Geology or Astronomy		4-5
Select one of the following:		3-5
MATH 1400	Calculus for Social and Life Sciences I	
MATH 1500	Analytic Geometry and Calculus I	
STAT 1200	Introductory Statistical Reasoning	3
or STAT 1300	Elementary Statistics	
or STAT 1400	Elementary Statistics for Life Sciences	

INFOTC 1040	Introduction to Problem Solving and Programming	3
-------------	---	---

Total Credits 24-30

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. At least 12 hours of biology coursework must be taken in residence at MU.

Semester Plan

NOTE: These plans are intended only as general guides. Courses outside Biology, Chemistry, MATH 1100, and ENGLISH 1000 are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point. Students who are pursuing the BA will not need to complete CHEM 2130.

Plan 1

A student that is exempt from MATH 1100

First Year		
Fall	CR Spring	CR
CHEM 1320	4 CHEM 1330	4
ENGLISH 1000	3 BIO_SC 1500	5
Behavioral Science Course	3 Humanities Course	3
Social Science Course (MO State Law)	3 Social Science Course	3
Elective	1-2	
	14-15	15

Second Year		
Fall	CR Spring	CR
BIO_SC 2200	4 CHEM 2110	3
CHEM 2100	3 CHEM 2130	2
STAT 1400	3 BIO_SC 2300	4
Humanities Course (2000-level)	3 MATH 1400*	3
Elective	1-2 Behavioral Sciences Course (2000-level)	3
	14-15	15

Total Credits: 58-60

* See Grad Plan for Mathematical Science Options

Plan 2

A student that needs MATH 1100

First Year		
Fall	CR Spring	CR
BIO_SC 1500	3-5 CHEM 1320	4
MATH 1100	3 ENGLISH 1000	3
Behavioral Sciences Course	3 Humanities Course	3
Social Science Course (MO State Law)	3 Social Science Course	3
Elective	1 Elective	1-2
	13-15	14-15

Second Year		
Fall	CR Spring	CR
CHEM 1330	4 CHEM 2100	3
BIO_SC 2200	4 BIO_SC 2300	4
Humanities Course (2000-level, WI)	3 Humanities Course	3
Social Science Course (2000-level)	3 Behavioral Sciences Course (2000-level)	3
	Humanities Course (2000-level)	3
	14	16

Total Credits: 57-60

BS in Biological Sciences

Major Program Requirements

Department Level Requirements (p. 145) must be completed in addition to all university requirements, including general education (p. 18), and the degree requirements below.

CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I	2
One Year of General Physics with Laboratory		8-10
One semester of calculus and one semester of statistics, selected from the following:		5-6
MATH 1400 or MATH 1500	Calculus for Social and Life Sciences I Analytic Geometry and Calculus I	
STAT 1200 or STAT 1300 or STAT 1400	Introductory Statistical Reasoning Elementary Statistics Elementary Statistics for Life Sciences	3
Total Credits		32-35

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. At least 12 hours of biology coursework must be taken in residence at MU.

Semester Plan

NOTE: These plans are intended only as general guides. Courses outside Biology and Chemistry are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point.

Plan 1

A student that is exempt from MATH 1100

Humanities Course (2000-level, WI)	3 Humanities Course	3
Social Sciences Course	3 Behavioral Sciences Course Humanities Course (2000-level)	3 3
	14	16

Total Credits: 59-60

Minor in Biological Sciences

Minor Core Requirements

BIO_SC 1200	General Botany with Laboratory	5
or BIO_SC 1500	Introduction to Biological Systems with Laboratory	

Additional Biological Sciences

Select 10 credits from at least two of the following areas: 10

Genetics		
BIO_SC 2200	General Genetics	
Cell Biology		
BIO_SC 2300	Introduction to Cell Biology	
Evolutionary Biology		
BIO_SC 3400	Evolution and Ecology	
BIO_SC 4600	Evolution	
Biological Diversity		
BIO_SC 2600	Ornithology	
BIO_SC 2700	Ichthyology	
BIO_SC 3210	Plant Systematics	
BIO_SC 3260	Invertebrate Zoology	

BIO_SC 3360	Herpetology
BIO_SC 3510	Biology of Fungi
BIO_SC 3660	Mammalogy
BIO_SC 3710 & BIO_SC 3715	Introductory Entomology and Insect Diversity
MICROB 3200	Medical Microbiology and Immunology
Total Credits 15	

At least one of the additional courses, selected from the list above, must include a laboratory. Problems, service learning, internships, readings and research (i.e., BIO_SC 2010, BIO_SC 2600, BIO_SC 2100, BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4952, BIO_SC 4952H, and BIO_SC 4960) may not be used to fulfill requirements for the minor. MICROB 3200 may not be used to satisfy the laboratory course requirement.

All courses in the minor must have a grade of C- or higher with a cumulative GPA of 2.0 or higher in the minor. At least nine of the 15 credit hours in the minor must be taken in residence at MU.

Graduate

MA in Biological Sciences

Areas of Study

The division offers primarily the PhD degree (p. 148).

PhD in Biological Sciences

Admission Contact Information

College of Arts and Science
218 Tucker Hall
Columbia, MO 65211
800-553-5698
573-882-1847

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Eligibility

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

Admission Criteria

- Fall deadline: December 15
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
100	600

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	1200
On or after August 1, 2011	300

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Biological Sciences Program:

- Division of Biological Sciences application form
- GRE test scores
- Official Transcripts
- 3 Reference letters
- Personal Statement
- Statement of previous research or scholarly experience
- Résumé

Chemistry

J. Atwood, Chair
College of Arts and Science
125 Chemistry Building
(573) 882-8374
chemistry@missouri.edu

The Department of Chemistry offers four undergraduate degree tracks, three leading to a Bachelor of Science and one leading to a Bachelor of Arts. A minor in chemistry and a Bachelor of Science degree with departmental honors also are offered.

At the graduate level, the department offers MS and PhD degrees in Chemistry.

Faculty

Curators Professor J. L. Atwood**

Curators Teaching Professor J. E. Adams**

Rabjohn Professor M. Harmata**

Schlundt Professor K. S. Gates**

Professor R. E. Glaser**, M. F. Hawthorne**, S. S. Jurisson**, J. D. Robertson**, P. R. Sharp**, J. J. Tanner**, D. L. Thompson**

Associate Professor L. J. Beamer**, C. A. Deakyne**, T. E. Glass**, C. M. Greenlief**, T. J. Hoffman**, S. W. Keller*, S. Z. Lever**, T. D. Sewell**

Assistant Professor G. A. Baker**, J. W. Cooley**, R. D. JiJi**, M. Lee**, J. R. Walensky**

Assistant Teaching Professor B. C. Ganley

Instructor L. P. Silverman

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Department Level Requirements (p. 149)
- BA in Chemistry (p. 150)
- BS in Chemistry (p. 151)
- Minor in Chemistry (p. 152)

Graduate

College of Arts and Science
125 Chemistry Building
573-882-8374
<http://chemistry.missouri.edu/>

Director of Graduate Studies: Timothy Glass

- MS in Chemistry (p. 152)
- PhD in Chemistry (p. 152)

The Department of Chemistry offers graduate degrees in all areas of modern chemistry, including analytical, biological, computational, inorganic, organic, physical and radiochemistry.

Resources and Facilities

The department has well-equipped laboratories that contain state-of-the-art instrumentation and computing facilities for research. Major instrumentation includes NMR, X-ray diffraction and mass spectrometry centers, as well as a nuclear/radiochemistry lab. Other campus facilities widely used by the department include a central instrument shop, electronics shop, campus computing center and a 10-megawatt nuclear reactor. The latter provides a high neutron flux for radioisotope production, neutron activation analysis and neutron diffraction studies.

Internal Funding

Fellowships and teaching and research assistantships are available for highly qualified applicants. Application forms are available on the department's website and should be submitted by February 1.

Graduate Degree Requirements

Students are strongly encouraged to visit the Department of Chemistry site (<http://chemistry.missouri.edu>) for the most up-to-date information.

Entrance Criteria

An applicant for graduate work in chemistry should have either a Bachelor of Arts or Bachelor of Science degree in chemistry, essentially equivalent to those awarded at MU, with at least a B average or a score at the 70th percentile on the GRE general test.

Examinations

All new graduate students in chemistry are required to take Departmental placement/qualifying examinations in all core areas (analytical, inorganic, organic and physical) prior to registration. Students must qualify in two areas. A student who performs well on an exam, as determined by the department's Graduate Program Committee, will be considered to have qualified in that area. Students who do not qualify in particular areas, via the placement examinations, must pass appropriate advanced-level courses in those areas to qualify. An A or B grade is required in these courses for qualification.

Research, Advising, and the Committee

Affiliation with research adviser must be made by the end of the first semester through a formal process that is part of CHEM 7087. Student progress in the degree program is evaluated annually in May, using the Graduate Student Progress System through the Graduate School. In addition, the student's Graduate Program Committee meets with the student and their research adviser after their first summer of research to review degree progress. At this time the student will have submitted a formal Research Progress Report to their committee for consideration. All students are expected to attend Departmental Colloquium and Organic/DyNAMITE seminars.

Undergraduate

Department Level Requirements - Chemistry

Requirements - BA or BS students

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for

a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see Professor Steven W. Keller (Associate Chair for Undergraduate Studies) for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 120), including University general education (p. 18). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Major Core Requirements

CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I	2
CHEM 2140	Organic Laboratory II	2
CHEM 2400	Fundamentals of Inorganic Chemistry with Lab	3
CHEM 3200	Quantitative Methods of Analysis with Lab	4
CHEM 3700	Undergraduate Seminar in Chemistry	3
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
Total Credits		38

Degree Tracks

Beyond the major core requirements, each student must select a degree track. There is one track for students pursuing a BA degree and three for those pursuing a BS. The BA degree is designed to meet the needs of students who wish to gain a strong chemistry background but who may have goals other than employment as a chemist or graduate work in chemistry. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. More information about this third degree track is available from Professor Steven W. Keller, Associate Chair for Undergraduate Studies.

Note: "Track" designations do not appear on transcripts or diplomas.

Double Majors

No specific programs (other than the dual degree program with the College of Education noted above) are offered, although it is possible to combine a chemistry major (BS or BA) with a variety of other majors, including biological sciences, mathematics and physics.

Departmental Honors

A BS with Honors in Chemistry is available to honors-eligible BS students who complete CHEM 4990H and CHEM 4991H as well as all of the requirements for the ACS Certification Track. (These courses replace CHEM 4950) Please see Professor Carol Deakyne, the Chemistry Honors Coordinator, for more specific details about the Honors in Chemistry program.

BA in Chemistry

Major Program Requirements

Department Level Requirements (p. 149) must be completed in addition to all university requirements, including general education (p. 18), and the degree requirements below.

CHEM 3300	Fundamentals of Physical Chemistry	3
PHYSICS 1210 or PHYSICS 2750	College Physics I University Physics I	4
PHYSICS 1220 or PHYSICS 2760	College Physics II University Physics II	4
Collateral Courses		12
Additional course work at the 2000-level or higher outside of chemistry. For example: biological sciences, mathematics, biochemistry or business		
Total Credits		23

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
CHEM 1320*	4 CHEM 1330*	4

Total Credits: 123-125

* Courses satisfy certain University general education requirements.

Minor in Chemistry

A minor in chemistry is awarded for the completion of:

CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I	2
CHEM 3200	Quantitative Methods of Analysis with Lab	4
Total Credits		20

If a student's major already requires all of these courses, then an additional elective course not included in that major must be included in the chemistry minor. At least 9 hours of this course work must be taken at MU.

On-line application form for the Minor in Chemistry (<http://backup.coas.missouri.edu/UGForms/minor.html>)

Graduate

MS in Chemistry

At this time, the Department of Chemistry is not accepting students into the Master of Science program. Please see admission information on our PhD Program (p. 152).

PhD in Chemistry

Admission Contact Information

Jerry Brightwell (gradchem@missouri.edu)
 125 Chemistry
 Columbia, MO 65211
 573-884-6832

Admission Criteria

Fall deadline: February 1
 Spring deadline: October 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
100	600

- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	450	600	3.0-4.0
On or After August 1, 2011	150	150	3.0-4.0

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Chemistry Program (<http://chemistry.missouri.edu/grad/gradprospec.html>):

- Departmental Application (PDF)
- GRE scores
- 3 letters of recommendation
- Transcripts from each college and university you have attended
- Statement of Purpose, which should include a summary of why you are interested in pursuing an advanced chemistry degree, a brief description of your previous research experiences, the specific area of chemistry you are interested in pursuing, and your future career goals and plans in the chemistry field.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Doctoral Degree Requirements

The following is a brief synopsis of the general degree requirements; please see the Department of Chemistry website for complete details:

1. Students must take at least 5 8000-level courses outside their own research concentration.
2. Students must pass 5 written cumulative exams within a specific time frame.
3. Students must present at least one departmental seminar.

4. Students are required to complete a comprehensive exam, which includes written and oral elements, within a specific time frame.
5. Students must submit and defend a dissertation describing the results of successful and original research in one of the branches of chemistry.

Classics

D. Schenker, Chair
College of Arts and Science
408 Strickland Hall
(573) 882-0679
strodmand@missouri.edu

The Classical Studies Department offers courses in the life, languages, cultures, and thought of the ancient Greeks and Romans.

The department offers a BA degree with a major in Classics and emphasis areas in Classical Humanities, Greek, Latin, and Classical Languages; MA degrees in Classical Languages and PhD degrees in Classical Studies. Minors are also available.

Faculty

Professor T. A. Tarkow**

Associate Professor R. F. Foley*, S. Gurd**, R. D. Marks**, A. Mori**, D. J. Schenker**, D. Trout**, B. P. Wallach*

Assistant Professor M. Farmer**

Associate Teaching Professor M. H. Barnes*

Professor Emeritus D. M. Hooley; C. Saylor*

Visiting Assistant Professor D. Krasne

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Classics (p. 154)
 - with emphasis in Classical Humanities (p. 155)
 - with emphasis in Classical Languages (p. 155)
 - with emphasis in Greek (p. 155)
 - with emphasis in Latin (p. 156)
- Minor in Classics with emphasis in Classical Humanities or Greek or Latin (p. 156)

Major with Honors

The undergraduate program can also include 3-6 credits in an honors thesis course (CL_HUM 4970H or CLASS 4970H). These credits, in addition to major requirements and a 3.5 GPA in all classical studies courses (as well as a 3.3 overall GPA), lead to a BA degree with a major in Classics with Honors.

Double Majors

A double major is a good way of integrating two related areas of interest, such as Classics and Archaeology or English and Philosophy. Students looking forward to a career in medicine or the sciences may use a double major (Classics and Biology or Chemistry, for instance) to ensure a thorough background in the humanities to balance their scientific studies. Usually minor or related field requirements for each major are satisfied by major courses in the other department. Consult with departmental advisors about specifics.

Graduate

Graduate Studies
405 Strickland Hall
573-882-0679
<http://classics.missouri.edu/>

Director of Graduate Studies: Raymond Marks

- MA in Classical Languages (p. 156)
- PhD in Classical Studies (p. 157)

The Department of Classical Studies offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The graduate faculty encourages applications from talented and committed students, whose undergraduate careers have given them an appreciation of the rich, many-faceted nature of classical studies and an interest in discovering a place of their own in it. Solid experience in Latin and Greek is of course desirable, but Missouri's MA program is specifically designed for students whose study in one or both of the languages may have come late and who need help getting up to speed rapidly.

Career Preparation

Graduate programs in classical studies are designed to prepare students for professional careers as teachers and scholars of classical literature and ancient civilization. Besides acquiring expertise in the traditional classical disciplines, students are encouraged to become familiar with other areas, such as later literatures and cultures, on which the classical tradition has exercised a decided effect.

Facilities and Resources

Because MU is a contributing member of the American Academy in Rome and the American School of Classical Studies in Athens, the facilities of those organizations are available to graduate students from Missouri. Study in Athens or Rome is often feasible after the completion of a master's degree. On campus, students have at their disposal the resources of Ellis Library, which are excellent in the major fields of Greek and Latin languages and literatures, and in ancillary fields. This collection is supplemented by the department's Walter Miller Collection. The Museum of Art and Archaeology contains many items of interest to classicists.

Undergraduate

BA in Classics

Major Program Requirements

BA major requirements are specified in the four major emphasis areas: Latin, Greek, Classical Languages, and Classical Humanities. These must be met in addition to college and university requirements (p. 120), including University general education (p. 18).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Classics with Emphasis in Classical Humanities

Major Program Requirements

Below are the degree requirements. These must be met in addition to college and university requirements (p. 120), including University general education (p. 18).

CL HUM Courses at the 1000-2000 levels	6-9
CL HUM Courses at the 3000-level or above	15-18

(Latin or Greek language courses numbered 4300 or above can be used to replace up to two required Classical Humanities courses.)

Semester Plan

Please note that this is only one of many possible routes to a major and that one may concentrate in Latin, or Greek, Classical Languages, or Classical Humanities. For guidance on how to approach other major concentrations, please see the Director for Undergraduate Studies in the Classics Department.

First Year		
Fall	CR Spring	CR
MATH 1100	3 ENGLISH 1000	3
Social Science Course (MO State Law)	3 CL HUM 1000-2999	3

Graduate

MA in Classical Studies

Admission Contact Information

Raymond Marks (marksr@missouri.edu)
405 Strickland Hall, Columbia, MO 65211
573-882-0679

Admission Criteria

Fall deadline: April 1

NOTE: Deadline for teaching assistantship applicants: January 15
Spring deadline: November 1

- Minimum GPA: 3.0 during last 2 years
- Bachelor of arts degree from an accredited college or university
- Reading knowledge of Greek and/or Latin
- GPA of at least 3.0 in Greek and/or Latin courses
- Minimum GRE score: no minimum
- Minimum TOEFL scores

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Required Application Materials

To the Graduate School

- 3 letters of recommendation
- Statement of interest
- 10-20 pp. writing sample
- Transcripts
- GRE scores

Application materials that cannot be submitted directly to the Graduate School may be sent to the Classical Studies program.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The minimum course of study is 30 semester hours. Of these, at least 12 hours in Greek, Latin, classics and related fields must be at the 8000/9000 level or above, and at least six hours must be in courses in other departments. At least 21 of the 30 hours must be completed in Greek, Latin or classics in the department. CLASS 7000 is required of all students during their first year of graduate study. Students who wish to have a minor may take 10-12 hours in another department or complete an ancient studies minor.

Languages

Some command of German and French (or Italian) is helpful from the outset, and MA candidates are required to have demonstrated proficiency in one of the languages by the time that they begin their second year of graduate study. Degree candidates take MA language tests (Latin and/or Greek) in the 2nd or 3rd year of graduate studies.

Written Works and Oral Examination

A final oral examination is given by a faculty committee selected by the student in consultation with the adviser. This examination will include defense of either the thesis or a compiled portfolio of seminar papers. If the former option is elected, the thesis will account for six credit hours.

PhD in Classical Studies

Admission Contact Information

Raymond Marks (marksr@missouri.edu)
 405 Strickland Hall, Columbia, MO 65211
 573-882-0679

Admission Criteria

Fall deadline: April 1, Deadline for teaching assistantship applicants:
 January 15
 Spring deadline: November 1

- MA with a major in Greek, Latin or classics, or the equivalent of a minimum of 21 hours of graduate work in the language(s). Reading knowledge of Greek and Latin and a reading knowledge of German and French (or Italian)
- Minimum GRE score: no minimum
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Required Application Materials

To the Graduate School

- 3 letters of recommendation
- Statement of interest
- 10-20 pp. writing sample
- Transcripts
- GRE scores

Application materials that cannot be submitted directly to the Graduate School may be sent to the Classical Studies program.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Language Requirements

Proficiency in one of the modern foreign languages (i.e., French, German, or Italian) must be demonstrated by the time of registration for

the second year of graduate study; proficiency in the second language must be demonstrated by the time of registration for the third year.

Plan of Study

A minimum of 72 hours of graduate credit is required for the PhD degree. A maximum of 30 hours of this total may consist of hours transferred from the MA degree. At least 21 additional hours must be taken in the department at the graduate level. A minimum of eight hours of dissertation credit is required. At least two courses in related ancient fields, one of which must be in ancient history or classical archaeology, must be taken at the graduate level. Proficiency in Greek and Latin composition must be demonstrated at some point by course work or examination.

Minors and Areas of Concentration

All candidates must include in their plan of study a minor or area of concentration consisting of at least 12 hours at the graduate level outside the department. Suggested areas include ancient history, classical archaeology, the classical tradition, late antiquity, the oral tradition, rhetoric, or romance languages. A structured minor in ancient studies also is available.

Examinations

All candidates are required to complete two four-hour qualifying examinations, one in Greek and one in Latin.

Comprehensive: Written

After completing residency, language, and course requirements, PhD candidates must pass the comprehensive examination consisting of four written examinations in the following fields: Greek literature, Latin literature, special author or topic, and area of concentration or minor field. With the approval of the adviser and the candidate's committee, extra course work beyond the required 12 hours may be substituted for the written examination in the area of concentration or minor field. Ancient Studies minors are automatically excused from the examination in the minor field.

Comprehensive: Oral

The oral comprehensive examination is taken only after the candidate successfully passes the written examinations.

Dissertation

Within one month of completion of both written and oral comprehensive exams, or at the beginning of the Fall term if the exams are taken in May, the candidate must meet with the doctoral program committee to obtain formal approval of the dissertation topic. Continuous enrollment must be maintained while the candidate completes the dissertation. At least eight hours of dissertation credit are required. A final oral defense of the dissertation is held upon completion of the dissertation.

Communication

Mitchell McKinney, Chair
 College of Arts and Science
 108 Switzler Hall
 (573) 882-4431
<http://communication.missouri.edu>

The Department of Communication offers courses in creating and critically evaluating messages. These messages persuade, inform and entertain in contexts such as one-to-one interactions, communication in organizations, and media. Students prepare for careers in broadcasting, sales, public relations, law, politics, marketing and new media.

The department offers BA, MA and PhD degrees with majors in Communication.

Faculty

- Associate Professor** D. S. Dougherty**, M. S. McKinney**, R. Meisenbach**
- Assistant Professor** L. Behm-Morawitz**, M. Click**, C. Colaner**, K. Harris, J. B. Houston**, B. Warner*
- Assistant Teaching Professor** A. Villamil
- Associate Professor Emeritus** M. J. Porter, M. J. Smythe
- Adjunct Professor** D. Dunkin, M. W. Dunn*, R. Karwoski
- Professor Emeritus** L. Reid

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Communication (p. 158)

Admission

Because of student interest in communication programs, admission is restricted. Students must apply for admission no earlier than the first semester of their sophomore year, or during the semester in which they will complete 45 credits. A copy of the admission procedures and policies is available in the department office or at <http://communication.missouri.edu>.

The student's grade point average from the MU system as adjusted by the MU grade repeat policy and the grade point averages in completed communication courses at MU are the primary criteria used to determine admission to the program.

Transfer Student Admission

Transfer students are not eligible for admission until they have completed at least one semester in residence (12 credits) and a communication course in residence. Students who are not admitted may reapply for consideration in subsequent terms.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in communication completed at the University of Missouri. Students must a research project

for a minimum of 3 credits with a faculty member, or a creative project completed for a minimum of 3 credits with a faculty member.

<http://communication.missouri.edu/>

Director of Graduate Studies: Mitchell McKinney

- MA in Communication (p. 160)
- PhD in Communication (p. 160)

About the Program

The program takes a theoretical, critical, and experimental approach to the study of communication. The MA program is designed to further enhance the understanding of the communication process by allowing students to study various aspects of communication in greater depth. Graduates are employed in corporate communication, educational and instructional media, sales, research and consulting. The doctoral program is designed for those interested in an academic career of college or university teaching and research. Doctoral students graduate with a strong theoretical background in interpersonal, mass media, organizational, or political communication.

Funding

Graduate students are eligible to apply for fellowships and graduate teaching assistantships. Funding is normally limited to doctoral students.

Undergraduate

BA in Communication

Major Program Requirements

The major in communication includes a minimum of 30 hours and a maximum of 40 hours in communication courses. Each course is 3 credits unless otherwise noted. Students must also complete College of Arts and Sciences and University requirements (p. 120), including University general education (p. 18) requirements.

Major core requirements

COMMUN 1200	Public Speaking	3
COMMUN 3050	Survey of Communication Studies	3
Total Credits		6

Areas of Focus

In addition to required courses, a student must select one of three areas of focus. Students must complete 12-15 hours in one area of focus including one of the core courses in that area (*). The student must take one course in each of the other areas of focus. A course may only count once toward meeting these requirements. (Areas of Focus will not appear on transcripts or diplomas.)

Interpersonal Focus:

COMMUN 3422	Communication Research Methods	3
COMMUN 3441	Nonverbal Communication *	3

COMMUN 3470	Culture as Communication	3
COMMUN 3525	Conflict and Communication	3
COMMUN 3561	Relational Communication *	3
COMMUN 3571	Group Decision Making Processes	3
COMMUN 4412	Gender, Language, and Communication	3
COMMUN 4415	Language and Discourse	3
COMMUN 4440	Ethical Issues in Communication	3
COMMUN 4520	Family Communication	3
COMMUN 4530	Health Communication	3
COMMUN 4474	Theory and Research in Persuasion	3

Organizational Communication Focus:

COMMUN 3422	Communication Research Methods	3
COMMUN 3460	Organizational Advocacy *	3
COMMUN 3470	Culture as Communication	3
COMMUN 3525	Conflict and Communication	3
COMMUN 3571	Group Decision Making Processes	3
COMMUN 3575	Business and Professional Communication	3
COMMUN 3580	Crisis Communication	3
COMMUN 4412	Gender, Language, and Communication	3
COMMUN 4440	Ethical Issues in Communication	3
COMMUN 4474	Theory and Research in Persuasion	3
COMMUN 4476	Organizational Communication *	3

Mass Media Focus

COMMUN 2100	Media Communication in Society *	3
COMMUN 3310	Message Design and Writing for the Media	3
COMMUN 3390	Digital Production I	3
COMMUN 3395	Digital Production II	3
COMMUN 3422	Communication Research Methods	3
COMMUN 3490	Mass Media Theory	3
COMMUN 3636	Contemporary Issues in Mass Communication	3
COMMUN 4473	Political Communication *	3
COMMUN 4474	Theory and Research in Persuasion	3
COMMUN 4618	Television Program Analysis and Criticism	3
COMMUN 4628	Children, Adolescents and the Media	3
COMMUN 4638	New Technologies and Communication	3

Political Communication

COMMUN 3422	Communication Research Methods	3
COMMUN 3470	Culture as Communication	3
COMMUN 3572	Argument and Advocacy	3
COMMUN 3575	Business and Professional Communication	3
COMMUN 3580	Crisis Communication	3
COMMUN 4412	Gender, Language, and Communication	3
COMMUN 4440	Ethical Issues in Communication	3
COMMUN 4473	Political Communication *	3
COMMUN 4474	Theory and Research in Persuasion	3
COMMUN 4481	Principles of Rhetoric	3

Electives (beyond 30 hours)

COMMUN 3570	Performance of Literature	3
COMMUN 4940	Internship	1-99

Potential options for each area of focus depending on specific topic:

COMMUN 2701 & COMMUN 2703 & COMMUN 2705	Topics in Communication - General and Topics in Communication - Behavioral Science and Topics in Communication - Humanities/ Fine Arts	3
COMMUN 3701 & COMMUN 3703 & COMMUN 3705	Topics in Communication-General and Topics in Communication-Behavioral Sciences and Topics in Communication-Humanities	1-3
COMMUN 4701 & COMMUN 4703 & COMMUN 4705	Topics in Communication-General and Topics in Communication-Behavioral Science and Topics in Communication-Humanities	1-3
COMMUN 4996H & COMMUN 4997H	Honors in Communication and Honors in Communication	2
COMMUN 4960	Directed Reading	1-3

* Students must complete 12-15 hours in one area of focus including one of the core courses in that area.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall	CR	Spring	CR
ENGLSH 1000 or MATH 1100		3 ENGLSH 1000 or MATH 1100	3
American Government Requirement (Social Science Course)		3 Humanities Course *	3
Behavioral Science Course *		3 COMMUN 1200	3
Humanities Course *		3 IS_LT 1111	1
or Optional Elective Course		0-3 Biological/Physical/Mathematical Science with Lab* or Foreign Language	5
12-15			15

Second Year			
Fall	CR	Spring	CR
Humanities Course (Writing Intensive) *		3 Humanities Course (1000+)*	3
Behavioral Science Course (1000+)*		3 COMMUN 3050 (or Foreign Language or Elective)	3-5
COMMUN or elective 1200		Biological/Physical/Mathematical Science Course *	3-5
Biological/Physical/Mathematical Science Course (Math Reasoning Proficiency) *		3 Minor	3
Foreign Language or Elective		3-5 Social Science Course *	3
ADDITIONAL ELECTIVES TO REACH 60 CREDIT HOURS (if needed)			?
12-14			15-19

Third Year			
Fall	CR	Spring	CR
Social Science Course (1000+)*		3 Communications Course **	3
Communications Course **		3 Communications Course **	3

Communications Course**	3 Minor	3
Minor or Related Field Course	3 Elective or Additional Communications Course***	3
Elective or Additional Biological/Physical/Mathematical Science Course (if needed)	3-5 Elective Course	3
15-17		15
Fourth Year		
Fall	CR Spring	CR
Communications Course**	3 COMMUN 4974 or 4975 (Communications Capstone)	3
Communications Course**	3 Communications Course Elective or additional course	3
Minor or Elective Course	3 Communication Minor or elective	3
Elective or Additional	3 Elective Course	3
Communication Course***		
COMMUN 4940***	3 Elective Course	3
15		15

Total Credits: 114-125

* From A&S list available from A&S Advising (<http://coas.missouri.edu/advising/index.shtml>) or academic Exploration Web (<http://aeas.missouri.edu>) Page.

** One Communication course must be COMMUN 3050, writing intensive.

*** May not exceed 40 hours in the major.

Graduate

MA in Communication

Admission Contact Information

Martha Crump (crumpm@missouri.edu)
 108 Switzler Hall; Columbia, MO 65211
 573-882-4432

Admission Criteria

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	600

- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	500	500	4.0
On or After August 1, 2011	153	144	4.0

Students who do not have an undergraduate degree in communication may be required to take course work beyond the required 30 hours to provide necessary background.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Communication Program (<http://communication.missouri.edu?q=grad/admissions>)

- Departmental application
- 3 letters of recommendation
- Example of scholarly writing (no more than 25 pages)
- Transcripts
- Statement of purpose (no more than 500 words) explaining the student's intended field of study, professional goals and other reasons for wishing to enter the graduate program
- GRE scores
- Resume

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

Not more than 6 semester hours of the required 30 hours of credit may be transferred from another university or campus of the University of Missouri System. There is no language requirement. For the assignment of advisers, students should see the director of graduate studies.

Thesis and Non-thesis Options

The master of arts degree may be completed under either a thesis option, approved by an advisory committee, or a non-thesis option (with a comprehensive examination and project). Both plans require a minimum of 30 hours of graduate credit, including at least 15 hours of course work at the 8000/9000 level. MA candidates may take up to 6 hours of credit for their MA project for the non-thesis option. MA candidates take a minimum of 6 hours in 9090 Thesis Research for the thesis option.

Credit Hours for Production

No more than 9 hours of course work or independent study in television production or scriptwriting will be accepted for the MA degree. Students may opt to take more production hours but they may not be included in the candidate's plan of study.

Length of Study

The MA must be completed in 8 years.

PhD in Communication

Admission Contact Information

Martha Crump (crumpm@missouri.edu)
 108 Switzler Hall; Columbia, MO 65211
 573-882-4432

Admission Criteria

Fall deadline: January 15

Minimum GPA: 3.0 preferred

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	600

Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	500	500	4.0
On or After August 1, 2011	153	144	4.0

Admission procedures for students who have completed the MA degree elsewhere and wish to become PhD candidates are identical to the departmental requirements outlined for MA candidates. Only those applicants who show evidence of a clear likelihood of successful doctoral work are admitted.

Required Application Materials

To the Graduate School
All required Graduate School documents

To the Communication Program

- GRE scores
- Departmental Application
- 3 letters of recommendation
- Example of scholarly writing (no more than 25 pages)
- Transcripts
- Statement of Interest
- Résumé

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

Before registering for courses, the student must confer with their temporary adviser until a permanent adviser is assigned.

Committee and Qualifying Requirements

A doctoral program committee approves the student's course of study and determines if the student has passed the qualifying requirements during the spring semester of the first year. Only after passing the qualifying requirements will the student be admitted to candidacy for the PhD degree in communication.

For a student whose MA program was done at MU, the six-hour comprehensive examination or the MA thesis defense constitutes the qualifying process. The student may proceed beyond the MA degree only upon the recommendation of the MA examining committee.

Courses

The PhD candidate must take at least 48 hours of course work beyond the MA. Students with an MA degree in another discipline may be required by their doctoral program committee to complete additional

course work. Course work will include 36 hours within the department. The following courses are required:

COMMUN 8110	Introduction to Graduate Study in Communication	3
COMMUN 8120	Seminar in Quantitative Methods in Communication	3
COMMUN 9170	Research Practicum	3
COMMUN 9050	Research	3
One of the following:		3
COMMUN 8130	Topics in Qualitative Research Methods	
COMMUN 8160	Rhetorical Criticism	
COMMUN 8150	Seminar in Television Criticism	
COMMUN 8140	Content Analysis	

Including the courses listed above, students must complete a total of 15 hours of research methods classes. Nine of these hours may be taken outside the department.

Students must also complete a 6-hour collateral field block outside the department representing a coherent unit of study and relates to an area of major research interest.

Total Credits 36

Comprehensive Examination

The comprehensive examination, including a 30-page literature review, a 15-hour written exam and an oral defense, will cover all areas of studies in the field. During the semester students take comprehensive exams they enroll in.

Dissertation

The doctoral dissertation is written under the direction of the candidate's adviser. The dissertation and the final oral examination on the dissertation complete the requirements for the PhD in communication. Students take a minimum of six hours of.

Length of Study

Course work and comprehensive exams for the PhD must be completed in five years. The dissertation must be completed within five years of completing comprehensive examinations. Satisfactory rate of progress means making adequate progress to meet these time requirements. Students working at a typical pace should be able to complete the doctorate in 4 years beyond their master's.

Computer Science

Cooperative program between the College of Arts and Science and the College of Engineering

The Bachelor of Arts with a major in Computer Science emphasizes the applications of computer science. Students are encouraged to select courses in areas that complement their computer science major. These can include courses in computer animation, business, art, music, geography and many other areas. Courses in digital logic, database management, computer languages, business-oriented calculus and basic statistics prepare the student for a variety of professional settings.

Graduates of the BA program have stronger backgrounds in computer science than graduates of typical data processing or management information systems programs. With the proper choice of electives, BA graduates are prepared to enter advanced degree programs in such areas as business, medicine, law and the arts.

While working toward their degrees, many computer science students participate in cooperative education or internship programs. In doing so, they gain valuable professional experience and often are exposed to equipment and software that may not be available on the campus. Many students return to the co-op or internship company upon graduation.

Undergraduate

- BA in Computer Science (p. 162)

Graduate

While the College of Arts and Science does not offer any graduate level degrees in Computer Science, the College of Engineering does through their Department of Computer Science (p. 444). There you will find full information on the MS and PhD degrees in Computer Science (p. 445). Also for those interested in computer science, the University offers an interdisciplinary PhD in Informatics (p. 646).

Undergraduate

BA in Computer Science

Major Program Requirements

The BA requires the completion of 120 credits. To graduate, a student must earn a 2.0 GPA or better in all courses required in the major. A 2.0 GPA is required in CMP SC courses, counting toward the grade point average every time a course is taken with the exception of courses for which the course repeat policy has been used. One excused D is allowed in the courses required in the major. Admission to the BA Computer Science degree program is suspended at present.

Computer Science Courses

CMP_SC 1000	Introduction to Computer Science	1
CMP_SC 1050	Algorithm Design and Programming I	3
CMP_SC 2050	Algorithm Design and Programming II	3
CMP_SC 2270	Introduction to Digital Logic	3
CMP_SC 3330	Object Oriented Programming	3
CMP_SC 3380	Database Applications and Information Systems	3
CMP_SC 3530	UNIX Operating System	3
CMP_SC 4320	Software Engineering I	3
CMP_SC 4970	Senior Capstone Design I	3
CMP_SC 4980	Senior Capstone Design II	2

Twelve credit hours of upper-class major electives are required. Six hours of IT 4000 level electives are allowed if a student has the prerequisite; for a selection see advisor. CS elective choices are listed below.

CMP_SC 2830	Introduction to the Internet, WWW and Multimedia Systems	3
CMP_SC 3280	Computer Organization and Assembly Language	3
CMP_SC 3940	Internship in Computer Science	1-3
CMP_SC 4001	Topics in Computer Science	1-99
CMP_SC 4330	Object Oriented Design I	3
CMP_SC 4380	Database Management Systems I	3
CMP_SC 4450	Principles of Programming Languages	3
CMP_SC 4610	Computer Graphics I	3
CMP_SC 4830	Science and Engineering of the World Wide Web	3

Math requirements

MATH 1300	Finite Mathematics	3
MATH 1400	Calculus for Social and Life Sciences I	3
STAT 2500	Introduction to Probability and Statistics I	3

Arts and Science Foundation Requirements

ENGLISH 1000	Exposition and Argumentation (C-range grade is required)	3
Foreign language sequence		12-13

Breadth of Study

Biological or physical science	3-6
Behavioral sciences (anthropology, psychology or sociology)	5-6
Social sciences (from at least two of the following fields)	6

History, economics, political science or geography

State law requires one of these courses in American history or American government:	3
---	---

HIST 1100	Survey of American History to 1865	
HIST 1200	Survey of American History Since 1865	
HIST 1400	American History	
HIST 2440	History of Missouri	
HIST 2210	Twentieth Century America	
HIST 4000	Age of Jefferson	
HIST 4220	U.S. Society Between the Wars 1918-1945	
HIST 4230	Our Times: United States Since 1945	
POL_SC 1100	American Government	
POL_SC 2100	State Government	
Humanities/fine arts (from at least three different departments)		12
Total Credits		44-49

Fourth Year

	15	15
Total Credits: 120		

Depth of Study

Among the courses taken to meet the social science, behavioral science, humanities/fine arts, and biological and physical sciences requirements, at least three courses from at least two of the four areas must be numbered 2000 or above. One 3-credit course must be completed under the auspices of MU. At least 30 hours must be at the 3000 level or above.

Two courses must be designated Writing Intensive. A C-range grade or better in ENGLSH 1000 is prerequisite for all WI courses. A C-range grade or better is required in the WI courses.

For other graduation requirements see University general education requirements (p. 18) and College of Arts and Science foundation requirements (p. 120).

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available

First Year		
Fall	CR Spring	CR

The Department of Economics takes a global view of economics, with an emphasis on applied problems. An economics major prepares students for careers in business and government and for graduate work in areas such as economics, business and law. A basic understanding of economics develops insight into the many issues facing contemporary society, such as corporate downsizing, environmental pollution, urban decay, poverty, international trade, health care, educational reform, politics and sports deals.

In addition to the BA and the BS degree in the College of Arts and Science, the Economics Department offers a concentration within the Bachelor of Science in Business Administration (BSBA) degree in the College of Business. The department also offers MA and PhD degrees in Economics. A minor is also available.

Faculty

Cook Professor C. Otrok**

Foster Professor R. Harstad**

Lay Professor J. H. Haslag**

Research Professor W. A. Brock

Professor D. M. Mandy**, J. Milyo**, P. Mueser**, X. Ni**, M. J. Podgursky**, X. Wang**

Associate Professor S. P. Aura**, E. M. Basker**, C. Gu**, C. Koedel**, O. Loginova**, J. I. Miller**, N. A. Raymon*, V. Trindade**

Associate Teaching Professor M. Lee

Associate Research Professor M. Ehlert

Assistant Professor A. Hedlund*, D. Kaplan*, D. Lee*

Assistant Research Professor E. Parsons

Assistant Teaching Professor G. Chikhladze

Assistant Adjunct Professor K. Choe, S. K. Klein

Professor Emeritus W. W. Hicks, C. F. Menezes, R. Wallace

Associate Professor Emeritus C. Geiss, D. Schilling

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Economics (p. 165)
- BS in Economics (p. 166)
- Minor in Economics (p. 167)

Before a graduation plan in economics will be approved, students in the College of Arts and Science must have an overall GPA of 2.5 after 30 credits and a GPA in economics of 2.67 after at least 8 credits of courses in economics.

Departmental Honors

Candidates for Economics departmental honors must be Economics majors with a GPA of 3.30 overall and a GPA of 3.50 or higher in Economics courses taken at the University of Missouri-Columbia. Candidates must complete ECONOM 4371, Introductory Econometrics, ECONOM 4995 (p. 164), Honors Proseminar, and ECONOM 4971 (p. 164) Supplemental Senior Seminar, during the junior or senior year and must receive a grade of B or higher in order to be awarded Department Honors.

Double Majors, Dual Degrees and Five-Year Program

For double majors and dual degrees, students must satisfy all requirements of both degree programs. Some courses may be allowed to count toward both degrees. Carefully chosen elective courses in addition to required courses can facilitate double majors and dual degrees.

Common double majors in the College of Arts and Science are:

- BA with majors in Economics and Political Science, Psychology, History, English or Communication
- BS with majors in Economics and Statistics or Mathematics

Common dual degrees with other schools and colleges are:

- BA with majors in Economics and Journalism, Accountancy, Finance, Marketing or Education
- BS with majors in Economics and Engineering

By planning their courses carefully, Economics majors can earn a bachelor's and a master's degree in economics in five years. Students who are in the BA or BS programs are good candidates for this program. Students must be accepted to this program by the beginning of their senior year.

Students interested in pursuing any of these options should contact the Director of Undergraduate Studies in economics for further advising.

Economics Emphasis Area in Business Administration Major

See the College of Business for requirements for the Bachelor of Science with a major in Business Administration (BS BA) with an emphasis in Economics (p. 320).

Graduate

College of Arts and Science

Director of Graduate Studies: Xinghe Wang

- MA in Economics (p. 167)
- PhD in Economics (p. 168)

About the Program

The Department of Economics offers graduate work leading to the master of arts and the doctor of philosophy degrees. The program prepares students for careers in government and private enterprises, colleges, universities and research institutions through training in the techniques and applications of economic analysis, interpretation of data and the formulation and appraisal of public policy. Admission may be granted at any time to qualified students.

Degrees Offered

- MA and PhD in economics
- Cooperative Dual Degrees: MA in applied mathematics and economics, MA in economics and statistics, MA in economics and JD in law

Specializations

The department offers fields of specialization in monetary economics, international economics, econometrics, public economics, industrial organization, labor economics, and quantitative microeconomic policy analysis.

Dual Degrees

The Departments of Mathematics and Economics offer selected students the option of obtaining dual degrees: an MS degree in applied mathematics and an MA degree in economics. The Departments of Economics and Statistics offer selected students the option of obtaining dual degrees: an MS degree in statistics and an MA degree in economics within an integrated program. Whereas obtaining separate master's degrees would nominally require a minimum of 60 credit hours of course work, students enrolled in the dual master's degree program may obtain degrees based on 48 credit hours of course work. Students may be able to complete degree requirements within 2½ years.

Financial Support

Student financial support is available to graduate students as teaching and research assistantships, allocated based on promise and performance in the program. In addition, direct fellowship support may also be available to selected candidates. Tuition is waived for students who receive assistantship or fellowship support. December 15 is the deadline for applications for assistantships for the school year beginning in August, but earlier submissions are desirable. Late applications will be accepted subject to the availability of openings and funds.

Undergraduate

BA in Economics

Major Program Requirements – Economics

In addition to the major core requirements, students must complete college and University graduation requirements (p. 17) including University general education requirements (p. 18).

Options

Students majoring in economics may earn either a BS or a BA degree. The last 21 credit hours in Economics must be completed in residence. Depending upon which degree is sought; students must choose one of the options below:

BA with a major in Economics

The BA degree is designed for students who plan to continue their education in non-economics fields and for students who plan to seek employment after graduation. Post-graduate educational alternatives include law school or programs in the business school, political science and journalism. Post-graduate employment opportunities include positions in state government, banking, insurance or other financial sectors, and private sector businesses. Frequently, students in humanities or fine arts complete a BA in Economics as a second major in order to increase their employment potential.

Major Core Requirements for BA Economics

(Economics with a grade of C or above; grades of C- or below will not be accepted)

General Principles

ECONOM 1014 & ECONOM 1015 or ECONOM 1051 or ECONOM 1051H	Principles of Microeconomics and Principles of Macroeconomics General Economics General Economics - Honors	5-6
ECONOM 4351	Intermediate Microeconomics	3
ECONOM 4353	Intermediate Macroeconomics	3
ECONOM 4371	Introductory Econometrics	3
ECONOM 4970	Senior Seminar in Economics (Capstone course)	3

Mathematics and Statistics (C- grades will be accepted)

MATH 1300 & MATH 1400 or MATH 1500	Finite Mathematics and Calculus for Social and Life Sciences I Analytic Geometry and Calculus I	5-6
STAT 2500	Introduction to Probability and Statistics I	3

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall		CR Spring	CR
ECONOM 1014		3 ECONOM 1015	3
MATH 1100		3 MATH 1400	3

	15		15

Total Credits: 120

Electives

At least four (for the BA) or three (for the BS) of the following, with not more than one at the 3000 level, selected with the advisor and completed with a grade of C or above; grades of C- or below will not be accepted:

ECONOM 3224	Introduction to International Economics	3
ECONOM 3229	Money, Banking and Financial Markets	3
ECONOM 4311	Labor Economics	3
ECONOM 4315	Public Economics	3
ECONOM 4325	The International Monetary System	3
ECONOM 4326	Economics of International Trade	3
ECONOM 4329	The Banking System and the Money Market	3
ECONOM 4340	Introduction to Game Theory	3
ECONOM 4345	Economics of Education	3
ECONOM 4355	Industrial Organization and Competitive Strategy	3
ECONOM 4357	Health Economics	3
ECONOM 4360	Economic Development	3
ECONOM 4367	Law and Economics	3
ECONOM 4370	Quantitative Economics (Elective for BA, Required for BS)	3
ECONOM 4385	Problems in Economics	1-3
ECONOM 4965	Independent Study in Economics	1-3

NOTE:

Any two of ECONOM 3224, ECONOM 4325 and ECONOM 4326 may be taken for credit. But if all three are taken, ECONOM 3224 will not count towards an economics degree.

No more than 3 total credit hours of ECONOM 4385 and ECONOM 4965 will count as elective credits toward an economics degree, unless approved by the Director of Undergraduate Studies.

ECONOM 3004 and ECONOM 4004 may be approved by the Director of Undergraduate Studies to count as elective credits toward an economics degree or minor.

BS in Economics

Major Program Requirements

In addition to the major core requirements, students must complete college and University graduation requirements (p. 17) including University general education requirements (p. 18).

BS with a Major in Economics

The BS degree is for students who plan to attend graduate school in economics or finance.

Major Core Requirements for BS

Economics (with a grade of C or above; grades of C- or below will not be accepted)

General Principles

ECONOM 1014 & ECONOM 1015 or ECONOM 1051 or ECONOM 1051H	Principles of Microeconomics and Principles of Macroeconomics General Economics General Economics - Honors	5-6

Total Credits: 119-124

Foreign Language Alternative (for BS degree)

The student may elect to fulfill a special option area instead of taking a foreign language. This area consists of at least 12 credits numbered 2000 or above that are not from the parent department, are not normally required of all departmental majors and do not appear elsewhere in the area of concentration. This program is planned by the student's advisor and must be approved by the Director of Undergraduate Studies or Economics Academic Advisor.

Electives

At least four (for the BA) or three (for the BS) of the following, with not more than one at the 3000 level, selected with the advisor and completed with a grade of C or above; grades of C- or below will not be accepted:

ECONOM 3224	Introduction to International Economics	3
ECONOM 3229	Money, Banking and Financial Markets	3
ECONOM 4311	Labor Economics	3
ECONOM 4315	Public Economics	3
ECONOM 4325	The International Monetary System	3
ECONOM 4326	Economics of International Trade	3
ECONOM 4329	The Banking System and the Money Market	3
ECONOM 4340	Introduction to Game Theory	3
ECONOM 4345	Economics of Education	3
ECONOM 4355	Industrial Organization and Competitive Strategy	3
ECONOM 4357	Health Economics	3

ECONOM 4360	Economic Development	3
ECONOM 4367	Law and Economics	3
ECONOM 4370	Quantitative Economics (Elective for BA, Required for BS)	3
ECONOM 4385	Problems in Economics	1-3
ECONOM 4965	Independent Study in Economics	1-3

NOTE:

Any two of ECONOM 3224, ECONOM 4325 and ECONOM 4326 may be taken for credit. But if all three are taken, ECONOM 3224 will not count towards an economics degree.

No more than 3 total credit hours of ECONOM 4385 and ECONOM 4965 will count as elective credits toward an economics degree, unless approved by the Director of Undergraduate Studies.

ECONOM 3004 and ECONOM 4004 may be approved by the Director of Undergraduate Studies to count as elective credits toward an economics degree or minor.

Minor in Economics

Students wishing to minor in economics must take a minimum of 18 credits in economics and the last 12 credit hours in residence. Courses must include ECONOM 1014 and ECONOM 1015 (or ECONOM 1051 instead of the previous two courses) and ECONOM 3251 or ECONOM 4351 plus three economics electives including at least one at the 4000 level. All required courses must be completed with a grade of C or above; grades of C- or below will not be accepted. Students who take both ECONOM 3251 and ECONOM 4351 will receive credit for only one of these courses.

* A minor may be earned with 17 credits in economics by students who take ECONOM 1051H rather than ECONOM 1014 (ECONOM 1024)/ECONOM 1015; but not by students who take ECONOM 1051. The one credit hour reduction is exclusively for students who take the Honors section of ECONOM 1051.

Graduate

MA in Economics

Degree Requirements

To fulfill requirements for the MA degree, a candidate must complete a 30-hour approved program of study. This includes 15 credit hours of core courses:

ECONOM 8451	Microeconomic Theory ¹	3
ECONOM 8370	Mathematics for Economics	3
ECONOM 8453	Macroeconomic Theory ¹	3
ECONOM 8472	Econometric Methods I ¹	3
ECONOM 8473	Applied Econometrics	3
STAT 7710	Introduction to Mathematical Statistics	3
ECONOM 8413	Research Workshop I	3

¹ ECONOM 9451 may be substituted for ECONOM 8451, ECONOM 9453 may be substituted for ECONOM 8453, ECONOM 9473 may be substituted for ECONOM 8472, and enrollment in 9000-level courses may require consent of the department and/or the instructor.

PhD Track

Students can also earn an MA while working toward a PhD by passing the comprehensive examination.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in the Economics program (<http://gradschool.missouri.edu/academics/programs/economics/master-of-arts-in-economics.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Admission Contact Information

Lynne Riddell riddell@missouri.edu
 118 Professional Bldg.
 Columbia, MO 65211
 573-884-7989

Admission Criteria

Fall deadline: February 1
 Spring deadline: October 1

Bachelor's degree in any field

Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative
Prior to August 1, 2011	400	700
On or After August 1, 2011	146	155

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Minimum Academic IELTS scores:

Item	Score
Overall score	6.0

Students with a bachelor's degree in any field may apply for admission into the master's program. Applicants are admitted on the basis of an undergraduate record, with particular emphasis on performance in economics, mathematics, and statistics courses, performance on the GRE, and letters of recommendation. Although the graduate program assumes mathematical background through calculus (normally two or three semesters of college calculus), as well as undergraduate economics training, applicants with more limited backgrounds may be accepted into the program. Such individuals will be assigned supporting

course work, some or all of which may be counted toward fulfilling requirements.

Required Application Materials

To be uploaded to the MU Online Graduate Application for Admission:

- Your transcript from every college or university you have attended
- Your resume
- Your personal statement
- Three letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International Applicants only.

To the Economics Program:

- Your official GRE scores (sent directly from the Educational Testing Service)

PhD in Economics

Degree Requirements

The PhD program is designed to encompass training in economic theory and quantitative methods, as well as flexibility for students in choosing course work to suit their interests and intended careers.

For those entering the program with a bachelor's degree, the following courses are required:

STAT 7710	Introduction to Mathematical Statistics	3
ECONOM 8370	Mathematics for Economics	3
ECONOM 8451 & ECONOM 9451 & ECONOM 9452	Microeconomic Theory and Advanced Microeconomic Theory I and Advanced Microeconomic Theory II (microeconomics)	9
ECONOM 8453 & ECONOM 9453 & ECONOM 9454	Macroeconomic Theory and Advanced Macroeconomic Theory I and Advanced Macroeconomic Theory II (macroeconomics)	9
ECONOM 8472 & ECONOM 9473 & ECONOM 9474	Econometric Methods I and Econometric Methods II and Econometric Methods III (econometric methods)	9
ECONOM 9413	Research Workshop II (PhD research workshop)	6
	9000-level economics courses in each of two areas of specialization	6
	Two other 9000-level economics courses (excluding ECONOM 9090 and ECONOM 9480)	
	3 additional credit hours of elective course work within the department, or approved courses in related areas outside economics	3
	Dissertation research	12
	Total Credits	60

Courses taken to satisfy these requirements (except dissertation research) may be taken while earning an MA at MU, or, as with students entering the program with prior graduate coursework, at other accredited colleges and universities as recommended by the Graduate Studies Committee.

Qualifying Process

Students pursuing the PhD degree must pass a qualifying examination. Upon completion of relevant required courses in the first year, students take the qualifying examination, which is a written examination that covers microeconomic concepts, calculus, matrix algebra, optimization, statistics and econometrics. The exam is 6 hours in length, usually administered in parts over two days. The exam must be taken in May following the first year of graduate study and is graded in three levels: 0, 1, and 2. Students who receive a score of 2 pass the exam. Students who receive a score of 1 may retake the exam the following August. Students who receive a score of 0 fail and may not continue in the PhD program. Only pass and fail grades will be awarded on the August exam. Students who fail the exam may continue in the MA program.

Comprehensive Examination Process

Students pursuing the PhD degree must pass a comprehensive examination. The comprehensive exam has a written section and an oral section. Upon completion of required courses in the second year, students take the written portion of the comprehensive examination, which covers all second-year courses (Microeconomics, Macroeconomics, and Econometrics). The exam is 6 hours in length; it is administered in parts, with two-hours devoted to each of the three core subjects. The first offering of the exam is in May. Students who fail to pass all three parts of the exam the first time may retake the failed part(s) the following August. Students who fail the written exam may continue in the MA program. The oral portion of the comprehensive exam is administered by the student's dissertation committee as part of the dissertation proposal defense. At the discretion of the student's dissertation committee, written questions over the fields relevant to the proposal may be included as part of the proposal defense.

Dissertation Requirements

The dissertation must make a substantial contribution to knowledge. Upon completion of the dissertation, students pursuing the Ph.D. degree must pass a final oral examination. This exam can include an evaluation of the dissertation, the student's defense of the dissertation, and the student's general comprehension of economics, and is open to the academic community.

Admissions

Admission Contact Information

Lynne Riddell riddell@missouri.edu
 118 Professional Bldg.; Columbia, MO 65211
 573-884-7989

Admission Criteria

Fall deadline: February 1
 Spring deadline: October 1

The minimum requirements for admission into the PhD program are

Undergraduate GPA 3.0
 Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative
Prior to August 1, 2011	400	700
On or After August 1, 2011	146	155

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Minimum Academic IELTS scores:

Item	Score
Overall Score	6.0

Ordinarily, to be accepted for advisement in the PhD program, a student must have a master's degree in economics, or, alternatively, the student must meet the requirements for admission to the MA program, together with the requirement of an adequate background in economics, mathematics and statistics.

Required Application Materials

The following items are required to be uploaded to the MU online Graduate Application for Admission:

- Your transcript from every college or university you have attended
- Your resume
- Your personal statement
- Three letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International applicants only

To the Economics Program (<http://economics.missouri.edu/graduate/index.shtml>):

- Your official GRE scores (sent directly from the Educational Testing Service)

Specialization

Fields

Students are required to complete a course of study in two defined areas of specialization. It is expected that one of the areas will be related to the objectives of the student's dissertation. The exact areas of specialization from which the student can choose are listed below. Each course of study consists of two classes in the area followed by a research paper. Students are required to receive a passing grade in each course along with a passing grade on the research paper. The instructors of the field courses oversee the content of the research paper and the instructor of the Ph.D. research workshop (ECONOM 9413) oversees the mechanics of the paper. A field requirement is satisfied after both field course instructors and the ECONOM 9413 instructor sign off on the paper. Students are not allowed to combine courses from separate fields. The department commits itself to offering a second course in any field to all students who have completed an initial course in the field, within two semesters of the student completing the initial course (not counting the summer semester). This course may consist of a readings course with one of the faculty members in the field in lieu of a regular course. If a readings course is provided, then the faculty member is required to provide the department with the reading list for the course.

List of Fields and Courses

Statement on Satisfactory Progress

1. Taking and completing required course work on schedule and maintaining a GPA of at least 3.0.
2. Enrollment in a full-time plan of study, i.e., completion of at least 9 graded hours per semester.
3. Taking and passing qualifying and comprehensive examinations on schedule.
4. Students who have completed all course work and are working on the final stage of the PhD program are encouraged to present their written proposal within a reasonable amount of time.

* Applicants with outstanding background may be selected by the Graduate Studies Committee to be offered the opportunity to take the August qualifying exam prior to the start of their first semester. Such students who pass the August qualifying exam will move directly to second year courses. Students who fail will start with the normal first year courses.

English

David Read, Chair
College of Arts and Science
114 Tate Hall
(573) 882-6421

The English Department provides a major that not only grants a broad introduction to a range of literary and cultural study and creative activities, but also allows students to work more intensely in particular subfields of the discipline, including literary history, critical theory, film and cultural studies, linguistics, and creative writing. A major in English develops skills in reading, critical thinking, and writing. A degree in English is not intended to provide specific vocational training but rather to give a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking.

Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, and government. In addition, English is excellent preparation for graduate or professional schools such as law and business.

The department offers BA, MA, and PhD degrees with majors in English. Two minors are also available, the English minor and the English writing minor.

Director of Graduate Studies: Samuel Cohen

- MA in English (p. 173)
- PhD in English (p. 174)

About the Program

With more than one hundred M.A. and Ph.D students and about 500 undergraduates, we are one of the largest and most diverse departments on the Columbia campus. We offer a wide range of courses in British and American Literature and Creative Writing, as well as special emphases in African Diaspora Studies, Critical Theory, English Language and Linguistics, Folklore and Oral Tradition, and Rhetoric and Composition.

Subject Areas

Lecture courses, seminars and directed research are available in British and American language and literature, creative writing, folklore and oral tradition, critical theory, rhetoric and composition, language and linguistics, and African diaspora studies.

Funding

Students admitted to the graduate program usually receive a fellowship or teaching assistantship. Outstanding applicants will also be eligible to compete for a variety of college and university fellowships. The deadline for applications to both the MA and PhD programs is January 1. Announcements of awards are made by early April.

Publications Experience

Students will also have the opportunity to assist faculty in editing *The Missouri Review*, a nationally recognized journal of fiction, poetry and essays; *Oral Tradition*, the only journal involved in the comparative study of oral traditions; *The Eighteenth Century Novel*; and *The Journal for Early Modern Cultural Studies*.

Undergraduate

BA in English

Major Program Requirements

English majors must complete a minimum of 30 credit hours in English. A minor is recommended. At least 24 hours in the major must be at the 3000-level or above. At least 9 hours must be at the 4000-level.

No more than 40 credits in English may be counted toward graduation. The required English composition credits are excluded from this maximum and must be taken before the student enrolls in any English courses numbered above 2009.

Honors: Students may take an additional 3 hours (33 total) to complete ENGLISH 4995 Senior Honors Thesis. Note that ENGLISH 4996 Honors Seminar in English, will count towards the 9-hour requirement for 4000-level classes, ENGLISH 4995 Senior Honors Thesis, will not.

Internships and Independent Research: Students making satisfactory progress towards completion of degree requirements are encouraged to explore possibilities for gaining professional experience through internal or external internships. They are also encouraged to follow up on opportunities to pursue independent research sponsored by the department, the College of Arts and Science, and other divisions of the University. Note that only 3 credit hours of internship or independent study (ENGLISH 4940, ENGLISH 4950, ENGLISH 4955, or ENGLISH 4960) will count towards the major's 4000-level requirement or towards the 24 hours at the 3000-level.

Major Core Requirements

Introduction

ENGLISH 2100 Writing About Literature

Body of Major

- At least 30 credit hours in English (including 3 hours of ENGLISH 2100) satisfying requirements listed below.
- Courses may count for 1, 2, or 3 of the three requirements for Breadth of Study, Historical Coverage and Depth of Study.
- At least one course must meet the Diversity Requirement.
- At least 24 hours must be at the 3000-level. At least 9 hours must be at the 4000-level.

Breadth of Study

Students take at least 1 course from each of the following areas (3000-level and above).

a. Period Studies and Surveys

Courses in this area examine texts in their historical context, and consider how historical events and developments shape culture and texts.

b. Author Studies

Courses in this area focus on an individual or several authors or artists.

c. Genre Studies; Thematic Studies

Genre Studies introduces students to a textual kind (e.g. the novel, poetry, drama, the essay, etc.), its conventions, and its history.

Thematic Studies explores a shared theme among works that may or may not belong to the same period.

d. Theory and Methods

Courses in this category give primary attention to the frame of inquiry and/or the method by which knowledge-making takes place.

Historical Coverage

Students take 3 courses that focus on literature written prior to 1890. One of these must focus on literature written prior to 1603.

Depth of Study

Students must take 3 courses in a single area of specialization listed below.

- Medieval, Renaissance, and Early Modern Literature
- 18th/19th Century Literature
- 20th and 21st Century Literature
- African Diaspora Studies and Post-Colonial Literature
- Literary, Critical, or Rhetorical Theory
- Creative Writing
- Composition
- English Language and Linguistics
- Folklore Studies
- Film Studies
- Gender and Sexuality Studies
- Other (subject to English Department Advisor approval)

Diversity Requirement

English majors must take one 3-hour course that focuses on issues such as race, ethnicity, gender, or sexuality. Each semester a list of approved courses will be made available to students.

Culmination

ENGLISH 4970 Capstone Experience (or ENGLISH 4996 Honors Seminar in English if choosing the honors sequence)

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available

First Year		
Fall	CR Spring	CR
ENGLISH 1000*	3 MATH 1100*	3
Foreign Language**	5 Foreign Language**	5
Behavioral Science Course*	3 Social Science Course*	3
American History OR Government Course	3 Humanities/Fine Arts Course*	3

	15	15

Total Credits: 121

* Course concurrently meets University General Education, Arts and Science Foundation and/or campus graduation requirements.

[^] Course meets degree requirements or major requirements.

Depth Areas are courses that are 2000 level or above chosen from four areas: the sciences, social sciences, behavioral sciences, or humanities and fine arts. Arts and Science students are required to complete 9 hours in at least 2 of the four areas.

Minor in English

The English minor consists of 15 credits beyond the required composition course. It must include at least 6 credit hours in courses numbered 3000 or above and must include at least 3 credit hours at the 4000 level. It may include no more than 6 credits in special problems, methods, or readings courses such as ENGLISH 4955 and ENGLISH 4960. Neither ENGLISH 4940 nor ENGLISH 4950 can be applied to the minor. A grade of C or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 hours must be completed in residence. The minor is a flexible and varied program that can be tailored to individual students' needs. Students wishing to minor in English should consult the English Department's undergraduate advisor.

Minor in English Writing

The writing minor is a 15-credit course of study designed to help students in all majors and colleges improve their writing and critical thinking skills. It requires writing courses specified by the department, including 6 credits in courses numbered 3000 or above. No more than 6 hours of transfer credit will be applied to the minor. Consult the English Department undergraduate advisor for specific requirements.

Graduate

MA in English

Admission Contact Information

Victoria Thorp thorpv@missouri.edu
 114A Tate Hall, Department of English
 Columbia, MO 65211
 573-882-4676

Admission Criteria

Fall deadline: January 1

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE score: not set
- Minimum GPA: 3.0 overall, higher in courses in major
- Majored in English as an undergraduate, with at least 18 hours in upper division courses in literature or linguistics. Students with other undergraduate majors may be admitted provided their background in English studies is suitable and provided they complete an appropriate course of preliminary study. Promising students who do not meet one or more of these criteria may at the discretion of the director of graduate studies be encouraged to enroll as non-degree graduate students.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the English Program (<http://english.missouri.edu/graduate-program/application-process-and-materials.html>):

- English Department application form
- GRE scores; The general test is required. Students are also welcome to submit subject test scores, and strongly encouraged to do so if their previous work is in a field other than English.
- 3 letters of recommendation (use departmental form)
- Official transcripts
- Statement of purpose
- 2 10-20 page critical/scholarly papers (1 for creative writing applicants)
- Creative writing applicants: also submit a sample of your fiction (30 pages) and/or poetry (20 pages) or a one-act play
- Supplementary information sheet (for MA/PhD and PhD track applicants only)

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The MA is a 4-semester (2-year) program with 30 hours of course work (at least 15 hours at the 8000-level) in English.

- MA students may take up to 6 hours (7000-level or above) outside the English department.

- In addition to literary study, students may also select from among the 6 emphasis areas to accompany the program in British and American Literature: African Diaspora Studies, Creative Writing, Critical Theory, Folklore and Oral Tradition, Language and Linguistics, and Rhetoric and Composition.
- A foreign language is not required for the master's degree.

Final Assessment Options

A student may elect to write an MA thesis (while taking 6 hours of English 8090), to present a portfolio and take an oral exam, or to take a written comprehensive exam based on a reading list.

Thesis

Students who choose the MA thesis (50-75 pages) should, at the outset of master's work, discuss possible thesis topics with the faculty member or members who seem most likely to constitute the student's MA Thesis Committee (two English department members and one outside member). Students present and defend their theses to this committee in an oral examination.

Portfolio/Oral Exam

Students electing this option will choose two faculty members to work with in revising two essays previously written during their M.A. work. The Director of Graduate Studies, in consultation with the student, will choose a third faculty member to serve on the student's portfolio committee. Students will defend the two revised essays, as well as those not chosen for revision, in a two-hour oral exam. The committee may pass or fail the examinee on any part(s) of the portfolio. In the case of partial or total failure, the student will retake the oral portions that were failed and may need to revise further one or both of the revised essays.

Written Exam Based on Reading List

The exam consists of three questions answered over a four-hour time period. Students in Literature and in Literature with a Creative Writing Emphasis are assigned to a three-member M.A. Comprehensive Exam Committee and write on three literature-based questions. Students with emphases in African Diaspora, Critical Theory, English Language & Linguistics, Folklore & Oral Tradition, or Rhetoric & Composition are assigned to a committee that includes two members from literature and one member from the emphasis area. They write two literature-based questions and one emphasis-area-based question.

Satisfactory Progress

The Department of English expects all candidates to make satisfactory progress toward completing their graduate degrees. The MA should be completed within three calendar years after matriculation. No grades of C will be counted toward the completion of the required number of hours for the MA.

MA/PhD Track

The department also offers an MA in an MA/PhD program intended for especially well-prepared students who have BA degrees and know they wish to pursue the PhD. It offers enhanced financial aid and an accelerated time to degree. Students complete MA requirements and begin taking PhD course work in their second year in the program. Academic requirements for the two degrees are identical with the academic requirements for the separate MA and PhD degrees.

PhD in English

Admission Contact Information

Victoria Thorp thorpv@missouri.edu
 Department of English
 114A Tate Hall, Columbia, MO 65211

- 3 letters of recommendation (use departmental form)
- Official transcripts
- Statement of purpose
- 2 10-20 page critical/scholarly papers (1 for creative writing applicants)
- Creative writing applicants: also submit a sample of your fiction (30 pages) and/or poetry (20 pages) or a one-act play
- Supplementary information sheet

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The PhD is a 5-year program with 30 hours of course work beyond the MA. At least 18 hours in English must be taken at the 8000-level (English 8095 and 9090 do not count toward the 18-hour requirement). Candidates with insufficient background in English may be required to take additional hours upon the recommendation of the advisory committee.

A student may elect one English 8000 problems course (a maximum of three hours of credit), with the prior consent of the director of graduate studies. A minimum of 18 hours of course work beyond the MA (excluding research hours) must be taken in residence at the Columbia campus in order for the candidate to be eligible for a PhD from the University.

Language Requirement

PhD students should determine how they will fulfill the departmental language requirement in consultation with their faculty advisor and other committee members, since different projects and different areas of study will require different levels of language proficiency. A student's committee can always recommend that the student pursue language study above and beyond the level required by the departmental language requirement for the purpose of their chosen dissertation project.

However, the purpose of the foreign language requirement is to ensure that all students have at least an awareness of their entrance into an international community of scholars and scholarship and ideally an ability to read literature and critical studies in other languages. Although simple fulfillment of the language requirement may not guarantee fluency in another language or culture, it should prepare students to read primary texts related to their fields and equip them with skills to conduct scholarly research on important secondary literature. To this end, the department is committed to the principle that all doctoral students who plan to study language and literature benefit from exposure to another language or languages.

A student may satisfy the foreign language requirement for the PhD in English by demonstrating either 1) basic proficiency in two foreign languages or 2) advanced proficiency in one foreign language.

To demonstrate basic proficiency the student must pass with a grade of B or better a) the intensive introduction to a language or b) the three-semester introductory sequence or c) one course at or beyond the third semester level in the language chosen or the equivalent of these courses elsewhere. The courses must have been completed or the examinations taken not more than five years prior to the candidate's enrollment in the PhD program. Because not all languages are taught using this format at the University of Missouri, students have the option to demonstrate basic proficiency in one of their two chosen languages by taking an introductory course in another language that is relevant to their research. A student who wishes to obtain this exemption must submit a letter, signed by the student and the chair of his or her committee, explaining why the course is relevant to his or her program of doctoral study. This exemption will be granted only for University of Missouri courses taken during the student's official degree program. Courses taken at another institution, or before the student begins the degree program, are not eligible for this exemption. Students cannot request this exemption for languages taught at MU using the regular structure outlined above (i.e., in a 3-course introductory sequence or a one-semester intensive introduction).

To obtain advanced proficiency the student must either a) pass with a grade of B or better two upper class undergraduate courses (3000- or 4000-level, or the equivalent elsewhere) in the literature of the language chosen or b) pass with a grade of B or better one graduate class (7000- or 8000-level, or the equivalent elsewhere) in the literature of the language chosen. These courses may not be in translation, and any graduate course in a modern language must be taught in that language. Overall, the department recommends taking a graduate-level course as the best option for students who are able to do so, since such courses can also count towards the nine hours of non-English department coursework that PhD students can include in their program of study. Undergraduate language courses (4000-level or below) do not count towards graduate study at the University of Missouri.

The director of graduate studies will work with students to try to arrange for testing for students with proficiency but without course work in an acceptable language (for instance, those who have lived in another

country for an extended period of time). This option, and all other exceptions to the language requirement described above, are contingent upon 1) the student's ability to demonstrate a substantial connection between the language in question and his or her program of study and 2) consent of the student's advisor.

Doctoral Committee

By the end of the first year, doctoral students must meet with their advisors to organize a doctoral committee. Students meet with this committee to plan course work and define their primary and secondary fields of study. This meeting satisfies the graduate school requirement for a PhD qualifying examination.

Comprehensive Examination

After all course work, the foreign language requirement and the residency requirement have been completed, the student takes the PhD comprehensive examination. This exam consists of a written section (the Preparatory Essay) and a two-and-a-half hour oral exam. For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. If a student fails either part of the exam, he or she will be allowed to retake that part. No student will be allowed to take any part more than twice. All doctoral candidates should realize that no comprehensive exam is limited to the candidate's course work.

Dissertation

As soon as possible after passing the comprehensive examination, a candidate should explore a dissertation topic under the guidance of the student's advisor. The doctoral dissertation is written under the direction of a member of the doctoral faculty at MU.

Creative Dissertation Option

The PhD candidate may choose to write a creative dissertation, which may take the form of a novel, a novella, a book-length collection of short fiction or a collection of poetry. To exercise this option, the candidate must have taken 9 to 12 hours of creative writing seminars as part of the PhD course work.

In addition to the "creative" part of the dissertation, the candidate will compose a prose introduction (2,500- word minimum), to be written after completion of the creative project, to demonstrate the correspondence between the candidate's academic studies and the creative project. The overall length required would be comparable with that of other dissertations approved by the department.

Satisfactory Progress

The Department of English expects all candidates to make satisfactory progress toward completing their graduate degrees. The comprehensive exam should be completed within five calendar years after matriculation, and the PhD should be completed within five calendar years after passing the comprehensive exam. No grades of C will be counted toward the completion of the required number of hours for the PhD.

Film Studies

Roger Cook, Program Director
 Interdepartmental Program in the College of Arts and Science
 451 Strickland
 (573) 882-9452
 cookrf@missouri.edu
 filmstud@missouri.edu

The Film Studies Program offers a major that focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. As a classic liberal arts discipline, film studies teaches the fundamental skills that make a college degree essential in career-oriented jobs: research, information management, critical analysis, cogent development of ideas, developing and testing of hypotheses, and writing and communication. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline's unique attention to visual analysis. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. As a complement to the main focus on the critical study of film, the program also offers some production courses and occasional opportunities to participate in filmmaking projects. For those who want to pursue a career in the TV/ motion picture or the fast-growing digital media industry the major provides a strong foundation that can be combined with the learning of specific industry skills.

The program offers a BA degree in film studies as well as an undergraduate minor.

Faculty

Professor G. Barabtarlo*, R. F. Cook*, R. N. Johnson*, J. M. Miller, A. Prahlad*, N. M. West*

Associate Professor M. H. Carver, R. Dingo*, J. Draper*, J. Hearne*, S. Ireton*, V. M. Kaussen*, W. Kerwin*, K. Kopp*, B. Prager*, C. Strathausen*

Assistant Professor R. Tabanelli*

Associate Teaching Professor M. H. Barnes*, N. Monnier*,

Assistant Teaching Professor E. Hornbeck, B. Maurer, E. Naveh-Benjamin, L. Roth, M. Volz

Instructor L. Dickinson, C. Gubera, R. Wise

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Film Studies (p. 176)
- Minor in Film Studies (p. 177)

Double and Dual Majors

A film studies major can be paired with a major in another department. Students must meet the requirements of both departments. The program

for each major must be approved by the advisor in the degree-granting department.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in film studies completed at the University of Missouri. In addition, with the assistance of an honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in FILM_S 4995.

Graduate

While MU does not offer graduate degrees specifically in film studies, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Undergraduate

BA in Film Studies

Major Program Requirement

Film Studies majors must complete 30 credits in film studies, with a grade of C- or above in every course. A minor is recommended. At least 15 hours in the major must be in courses at the 3000 level or above. Students must also complete College of Arts and Sciences and University requirements, including University general education (p. 18) requirements. No more than 40 credits in Film Studies may be counted toward graduation.

The 30 hours of Film Studies courses for the major must meet the following requirements:

Major core requirements

UNIT I:		
FILM_S 1800	Introduction to Film Studies	3
UNIT II:		
FILM_S 2820	Trends in World Cinema	3
Select one of the following:		3
FILM_S 2830	American Film History I, 1895-1950	
FILM_S 2840	American Film History II, 1950-Present	
UNIT III:		
Electives		18

At least six of the elective hours must come from one of the following national cinema courses:

FILM_S 2850	Italian Cinema
FILM_S 2865	The Art of Soviet and Russian Cinema
FILM_S 3830	History of German Film
FILM_S 3840	German Film After 1945
FILM_S 3845	Modern Israeli Film
FILM_S 3870	Russian Women and Film
FILM_S 3875	Brazilian Cinema
FILM_S 3880	Contemporary Chinese Film
FILM_S 3890	Russian and Soviet Film
FILM_S 3895	Korean Society Through Cinema

At least six of the elective hours must come from one of the following courses on theory and method:

FILM_S 2860	Film Themes and Genres
FILM_S 2870	Film and Literature
FILM_S 3775	The Ancient World on Film
FILM_S 3780	Architecture in Film
FILM_S 3785	Art and Artists on Film
FILM_S 3820	Major Directors
FILM_S 3850	Studies in Film History
FILM_S 3855	Documentary Film
FILM_S 3861	Film Themes and Genres
FILM_S 4810	Film Theory
FILM_S 4820	Studies in Film Genre

	15	15

Fourth Year

Fall	CR Spring	CR
FILM_S 3000+ (Theory and Methods Course)	3 FILM_S 4000 Level (Capstone)	3
FILM_S 3000+ (Elective)	3 Minor Course	3
Minor Course	3 Humanities/Fine Arts	3
Writing Intensive Course 3000+	3 General Elective Course	3
General Elective Course	3 General Elective Course	3
	15	15

Total Credits: 120

Minor in Film Studies

To earn a minor in Film Studies, students must earn 15 credits in film studies. Required courses include FILM_S 1800, and either FILM_S 2830 or FILM_S 2840. At least two courses must be at the 3000 level or above. The minor is a flexible and varied program that can be tailored to individual students' needs. Students wishing to minor in film studies should consult the film studies advisor.

General Studies

Office of Special Degree Programs
 College of Arts and Science
 114 Switzler Hall
 (573) 882-6060

Faculty

Professor T. Tarkow

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BGS in General Studies (p. 178)

The Bachelor of General Studies (BGS) is designed for students who want a multi-disciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. The BGS is intended for students pursuing a first bachelor's degree and will not be approved as a second bachelor's degree.

The BGS degree requires a minimum of 120 credit hours with a minimum of 30 credit hours numbered 3000 or above. Students meet with the academic advisor to create a graduation plan after completing 60 credit hours, MATH 1100 or an equivalent with a C- grade or higher, ENGLISH 1000 with a C- grade or higher and maintaining a 2.0 cumulative GPA.

BGS students are required to complete 24 credit hours as declared BGS majors and this may include credit for the semester in which the student declares the BGS major. In exceptional circumstances students who need fewer than 24 credit hours to complete all their BGS, A&S and MU requirements must take a minimum 3 credit hour BGS capstone course.

Graduate

While the College of Arts & Science does not offer a graduate degree in general studies, the College does offer graduate degrees, certificates and minors in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 5) for all Schools and Colleges at the University of Missouri.

Undergraduate

BGS in General Studies

Major Program Requirements

Students must complete the Department Requirements (p. 178) as well as those required for the degree listed below:

The BGS major requires 45 credit hours, including a capstone. These 45 credit hours are evenly distributed among three areas of study called components. A component may be made up of courses from a single department or may be made up of courses from multiple departments that relate thematically. Component courses may be selected from any

department or program at MU (if the department permits), but at least 18 credit hours must be made of courses from an A&S department. Of the 15 credit hours required for each component, 6 credit hours in each of the components must be numbered 3000 or higher. Students must maintain a GPA of 2.0 in each component area and grades of D are not acceptable. A student may include one component made entirely of transfer coursework if the other two components each contain 9 credit hours of coursework numbered 3000 or above. BGS students are required to include a minimum of 12 credit hours of MU coursework numbered 3000 level or above in their three components.

- 30 of the last 36 hours a student completes must be taken at MU.
- In order to graduate, students must have the following GPAs:
 - 2.0 cumulative GPA (the GPA for all coursework taken at MU)
 - 2.0 major GPA (the GPA for all courses taken to fulfill requirements in the major)
 - 2.0 minor GPA (the GPA for all courses taken to fulfill requirements for a minor)
 - 2.0 GPA in the final 60 hours
 - 2.0 GPA in the final 30 hours

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ENGLISH 1000	3 MATH 1100	3

Undergraduate

- BA in Geography (p. 181)
 - with emphasis in General Geography (p. 182)
 - with emphasis in Geographic Information Sciences (p. 182)
 - with emphasis in Physical/Environmental (p. 182)
 - with emphasis in Regional/Cultural (p. 182)
 - with emphasis in Urban/Population (p. 182)
- Minor in Geographic Information Science (p. 183)
- Minor in Geography (p. 183)
- Certificate in Geographic Information Science (p. 183)

The Department of Geography has established the following goals for the Bachelor of Arts with a major in Geography:

- Teach students to think spatially and develop problem solving skills
- Provide an intellectual focus for students seeking a broadly based liberal arts education
- Acquaint students with past and present patterns of landscape development and instill concern for intelligent management of earth's biophysical resources
- Expose students to contemporary issues of geopolitical and international significance and their role in such problems
- Provide the skills and expertise necessary to master the application of geographic information technologies and analysis of spatial data
- Prepare motivated students for career development and graduate study

Four different emphasis areas allow students to further focus the undergraduate degree program on their own personal interests in geography.

1. Human-Regional-cultural geography helps students develop a fuller sense of geographic analysis and better understanding of the

human and physical characteristics of major regions and settlement patterns of the world.

2. Physical-environmental systems emphasize the complex interactions between biophysical systems and human behavior in the areas of geomorphology and biogeography, as well as our role in managing applied environmental problems.
3. Geographic information sciences addresses the variety of technologies revolutionizing geographic analysis such as GIS, GPS, remote sensing, computer assisted cartography and spatial statistics.
4. General geography is designed for the student with broad interests in geography that overlap with other emphasis areas.

For students planning to end their formal education with the bachelor's degree, a geography major provides marketable skills and the broad perspectives on environment, society and international affairs that enable graduates to move beyond entry-level positions. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to business, land use planning, law and medicine. Although positions are not often designated with the title of geographer, geography graduates' employment has grown substantially in private enterprise and in all levels of government in recent years.

The Department offers BA and MA degrees with majors in geography as well as undergraduate and graduate certificates in Geographic Information Science and Geospatial Intelligence. Two minors are also available.

Departmental Honors

The geography honors program requires independent research during the senior year, usually under GEOG 4996H or GEOG 4997H. Consult the geography honors director for further information.

Director of Graduate Studies: Soren Larsen

- MA in Geography (p. 183)
- Graduate Certificate in Geographical Information Science (p. 184)

About Geography

The Department of Geography offers a Master of Arts degree that prepares students for a variety of professions, including careers in academics, research, public service, and the private sector. The MA program has a high success rate of preparing students for doctoral study in top-tier geography departments across the United States.

A primary strength of the department is the blending of major research facilities and opportunities with individual student-faculty interaction to build a strong sense of community. Students interested in questions of human geography, the physical environment, or geographic information sciences will find that the department has facilities and faculty expertise to build a successful plan of study.

Core areas of study in the department include human geography, nature/society relationships, physical-environmental systems, and application of geographic information sciences. The faculty has an active program

of research and field work in North America, Middle America, the Middle East and Southeast Asia. They pride themselves on a creative instructional and interdisciplinary pattern of activity. The department emphasizes close contact between faculty and graduate students.

Individualized graduate programs allow latitude in areas of specialization such as regional, cultural, and physical geography, as well as geographic information sciences, remote sensing, environmental studies and geographic education. Strong collateral course work in such fields as anthropology, soil and atmospheric science, economics, geology, political science, forestry, computer science and history meets the special interests of many graduate students.

Facilities and Resources

An exceptional departmental collection of reference materials, including maps, journals and books, is available to graduate students in the department's Wheeler Library and Seminar Room. The holdings of Ellis Library in geography and related fields are extensive and MU's computer facilities are readily available. In addition, the department is home to the Geographic Resources Center (GRC), the Missouri Spatial Data Information Service and the Spatial Analysis and Modeling teaching laboratory. These facilities serve as an interdisciplinary center for GIS, remote sensing, cartography, computer graphics and digital spatial databases of enormous variety.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. In Geography, a total of approximately 6 graduate teaching and research assistantships are awarded on a competitive basis annually. Applicants desiring consideration for one of these positions should indicate this in their application to the department.

Undergraduate

BA in Geography

Director of Undergraduate Studies: Douglas Hurt

Major Program Requirements

Students majoring in geography are required to take a total of 33 credits in geography and 3 in statistics. The geography courses consist of 21 core credits and at least 12 credits in one of the five geography emphasis areas. In addition, students must complete all degree, College of Arts and Sciences and University requirements (p. 17) including University general education (p. 18).

Major core requirements

GEOG 1100 or GEOG 1200	Regions and Nations of the World I Regions and Nations of the World II	3
GEOG 1550	Introduction to the Humanized Earth	3

BA in Geography with Emphasis in General Geography

Major Program Requirements

This area is designed for students with a broad interest in geographical studies. Due to the general nature of this emphasis area, students must develop in consultation with their advisor a personal plan of study outlining specific goals and course requirements. Four geography courses are required.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Geography with Emphasis in Geographic Information Sciences

Major Program Requirements

This area allows students to develop technical skills central to the discipline of geography and spatial analysis, acquiring skills in the graphical display of geographical data and the ability to produce or analyze such data. Students must take four of the following courses:

GEOG 3040	Introduction to Geographic Information Systems GIS	3
GEOG 3830	Remote Sensing	3
GEOG 4130	The Geospatial Sciences in National Security	3
GEOG 4710	Spatial Analysis in Geography	3
GEOG 4740	Location Analysis and Site Selection	3
GEOG 4790	Geographic Information Systems for the Social Sciences	3
GEOG 4810	Landscape Ecology and GIS Analysis I	3
GEOG 4860	Advanced Remote Sensing	3
GEOG 4940	Advanced Geographic Information Systems (GIS II)	3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 181).

BA in Geography with Emphasis in Physical/ Environmental

Major Program Requirements

This area emphasizes the study of biophysical environmental processes, environmental change, environmental management, and human modification of the environment. It is intended for students interested in understanding the biophysical environment and the ways in which humans interact with it. Students must take four of the following courses:

GEOG 1050	Introductory Meteorology	3
GEOG 1600	Climate Change: Science and Public Policy	3
GEOG 2660	Environmental Geography	3

GEOG 3600	Climates of the World	3
GEOG 3610	Physical Geography of the United States	3
GEOG 3630	Earth Surface Systems	3
GEOG 4620	Biogeography: Global Patterns of Life	3
GEOG 4630	River and Stream Dynamics	3
GEOG 4810	Landscape Ecology and GIS Analysis I	3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 181).

BA in Geography with Emphasis in Regional/ Cultural

Major Program Requirements

This area focuses on both the spatial attributes of culture and the interaction between culture and environment. It is intended for prospective secondary school teachers, journalists and business and government workers. Students must take four of the following courses:

GEOG 2120	United States and Canada	3
GEOG 2130	Geography of Missouri	3
GEOG 2210	Geography of Europe	3
GEOG 2260	Geography of East Asia	3
GEOG 2340	South America	3
GEOG 2660	Environmental Geography	3
GEOG 3140	Mexico, Central America, and the Caribbean	3
GEOG 3270	Geography of the Middle East	3
GEOG 3290	Geography of Russia and the Newly Independent States of Eurasia	3
GEOG 3450	Geography of Africa	3
GEOG 3510	Historical Geography of North America	3
GEOG 3560	Native American Geographies	3
GEOG 3760	Geography of the World's Religions	3
GEOG 3780	World Political Geography: Patterns and Processes	3
GEOG 4560	Resources and Indigenous Peoples	3
GEOG 4770	Migration and Immigration	3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 181).

BA in Geography with Emphasis in Urban/Population

Major Program Requirements

This area focuses on topics such as competitive vs. generative growth within urban systems, urban travel behavior, the role of cities in regional development, international commodity trade flow, and the fiscal dilemmas of cities and migration behavior. It prepares students for career opportunities in fields such as transportation planning, regional development, urban environmental issues and management. Students must take four of the following courses:

GEOG 2710	Economic Geography	3
GEOG 2720	Urban Geography (will change names to "The City" in Spring 2015)	3

GEOG 3040	Introduction to Geographic Information Systems GIS	3
GEOG 3780	World Political Geography: Patterns and Processes	3
GEOG 4710	Spatial Analysis in Geography	3
GEOG 4740	Location Analysis and Site Selection	3
GEOG 4770	Migration and Immigration	3
GEOG 4850	Transportation Geography	3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 181).

Minor in Geographic Information Science

Minor Program Requirements

Students may earn both the minor in geography and minor in geographic information science if the course work is unique for each minor. Students earning a major in geography may not earn the minor in geographic information systems.

Minor in Geographic Information Science

Fifteen credits are required for the minor in geographic information science, and must include:

GEOG 1800	Digital Earth: Introduction to the Geospatial Technologies	3
Nine hours of elective courses must be selected from the following list:		9
GEOG 3040	Introduction to Geographic Information Systems GIS	3
GEOG 4710	Spatial Analysis in Geography	
GEOG 4810	Landscape Ecology and GIS Analysis I	
GEOG 3830	Remote Sensing	3
GEOG 3840	Cartography	
GEOG 4860	Advanced Remote Sensing	
GEOG 4940	Advanced Geographic Information Systems (GIS II)	
Total Credits		18

Students may earn both the minor in geography and minor in geographic information science provided that the course work is unique for each minor. and GEOG 4940 can be taken as part of the GIS minor with the consent of the advisor.

Minor in Geography

Minor Program Requirements

Students may earn both the minor in geography and minor in geographic information science if the course work is unique for each minor. Students earning a major in geography may not earn the minor in geographic information systems.

Minor in Geography

Fifteen credits are required for a minor in geography, nine of them numbered 2000 and above.

Certificate in Geographic Information Science

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Graduate

MA in Geography

Application and Admission Information

Admission Contact Information

Dr. Soren Larsen

Geography admission page: <http://www.geog.missouri.edu/?q=grad/graduate-program>

Admission Criteria

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	1000
On or After August 1, 2011	297

Preparation for graduate work in geography should include undergraduate courses in geography. Upon consultation with their advisor, students with insufficient background work in geography may be required to take additional undergraduate courses.

Required Application Materials

All elements of the application including those required by the department are submitted through the Graduate School online application. For complete instructions, see <http://www.geog.missouri.edu/?q=grad/graduate-program>.

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation (submitted through the online application) GRE scores
- Supplemental department application (with Statement of Purpose)

Plan of Study MA in Geography

The Master of Arts degree requires completion of 32 semester hours of course work. Two research options are available: a thesis and a non-thesis option. The non-thesis option requires the completion of a research paper. 15 or more of the 32 hours must be in courses at the

8000 level. Non-thesis candidates may take no more than 6 hours of special problems, special readings, special investigations, or research.

Every student must take GEOG 8750 and GEOG 8760, 6 additional hours of seminar-structured course work and 6 hours of course work in geographic methods.

A student's specific program of courses is selected jointly by the student and the graduate advisor, designated during the first semester in residence. All students of either option must pass a comprehensive oral examination at the end of their graduate work.

Graduate Certificate in Geographical Information Science

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/geographical-information-science-certificate/GIS-ge/Gedt.html>

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Geological Sciences (p. 186)
- BS in Geological Sciences (p. 186)
- Minor in Geological Sciences (p. 187)

The Department of Geological Sciences offers two undergraduate degree programs, a Bachelor of Arts with a major in Environmental Geology and a Bachelor of Science with major in Geological Sciences. The BA is geared to those students interested in environmental concerns, while the BS is geared toward the traditional fields of geology. Both degrees provide a rigorous background in earth sciences. In addition, students majoring in other departments can minor in geological sciences.

Departmental Honors

Departmental honors can be achieved by students who maintain a cumulative GPA of 3.0, departmental GPA of 3.2, and who complete a senior thesis.

Dual Degrees

The Department of Geological Sciences offers dual degree programs with the Department of Soil, Environmental and Atmospheric Science in their emphasis area of Environmental Soil Science and with the Department of Civil and Environmental Engineering and with the College of Education in the Bachelor of Science in Education, emphasis in Earth Science Education. For more information, contact an advisor in the department.

- PhD in Geology (p. 188)

About the Geological Sciences Program

The areas of research covered by faculty are broad and diverse, with strong research expertise in the general areas of geochemistry, petrology, paleontology, and geophysics-tectonics. These strengths allow us to focus on problems identified by the National Research Council to be socially relevant and to be fundamental to an understanding of earth processes. Dynamic faculty, along with their students, are making significant contributions to numerous areas of basic and applied research. This research is supported by excellent, state-of-the-art analytical facilities in the department and on campus. Our graduate program prepares students for a wide range of professions within the geological sciences; students have been placed in private, federal, state, and academic institutions. Prospective students are encouraged to contact any faculty member directly for additional information.

Areas of Specialization

The areas of specialization are biogeochemistry, clay mineralogy, aqueous and isotope geochemistry, geophysics, hydrogeology, igneous petrology, metamorphic petrology, paleontology, ore deposits, invertebrate paleontology, sedimentation, stratigraphy, structural geology, tectonics, and paleoclimatology.

Facilities and Resources

Adequate space and excellent facilities are available for research in the Geological Sciences Building, which also houses an excellent geology library. Modern and sophisticated equipment is available for supervised student use in many fields. The Geology Field Camp is in the Wind River Mountains near Lander, Wyoming. See the Department website at <http://geology.missouri.edu/index.html>.

About the Degrees

The master's degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor's degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

The doctoral degree requires 72 hours beyond a bachelor's degree, and may include as many as 24 hours credit from a prior master's degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

BA in Geological Sciences

Major Program Requirements

The B.A. Curriculum is designed as a degree through which the student wishes to eventually pursue a career in teaching, journalism, law, etc. In addition to the major core requirements, students must complete all university graduation requirements including university general education (p. 18), as well as all degree and college or school requirements.

Geology core requirements

GEOL 1100 or GEOL 1200 or GEOL 1050	Principles of Geology with Laboratory Environmental Geology with Laboratory Planet Earth	4
GEOL 1250 or GEOL 2300 or GEOL 2500	The World's Oceans Earth Systems and Global Change Regional Geology Field Trip	3
GEOL 2150 or GEOL 2350	The Age of the Dinosaurs Historical Geology	3
GEOL 2400 or GEOL 2450	Surficial Earth Processes and Products with Laboratory Global Water Cycle	4
GEOL 3250	Mineralogy	5
Geology course at 3000 level or above		3
Geology course at 4000 level or above (including GEOL 4950 Senior Thesis)		3

Total Credit Hours in Geology (23-25)

Collateral Math/Science requirements

MATH 1140 or MATH 1160	Trigonometry Precalculus Mathematics	2
INFOTC 1040	Introduction to Problem Solving and Programming	3
CHEM 1000	Introductory Chemistry	2
ASTRON 1010 or ATM_SC 1050 or CHEM 1320 or PHYSCS 1050 or PHYSCS 1150 or PHYSCS 1210	Introduction to Astronomy Introductory Meteorology College Chemistry I Concepts in Cosmology Concepts in Physics College Physics I	4
BIO_SC 1010 or BIO_SC 1030 or BIO_SC 1060 or BIO_SC 1500 or NAT_R 1060	General Principles and Concepts of Biology General Principles and Concepts of Biology with Laboratory Basic Environmental Studies Introduction to Biological Systems with Laboratory Ecology and Conservation of Living Resources	3

Total Credit Hours in Collateral Math and Science (13-19)

Total Credits	39

BS in Geological Sciences

Major Program Requirements

Majoring in geological sciences and earning a Bachelor of Science degree prepares the student for graduate work and a career as a professional geologist in industry, research or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. In addition, students must meet all degree, college, and university (p. 17) graduation requirements including university general education (p. 18).

Major core requirements

GEOL 1100 or GEOL 1200	Principles of Geology with Laboratory Environmental Geology with Laboratory	4
GEOL 2350	Historical Geology	3
GEOL 2360	Historical Geology Laboratory	1
GEOL 2400 or GEOL 2110	Surficial Earth Processes and Products with Laboratory Introduction to Soil Science with Laboratory	4-5
GEOL 3250	Mineralogy	5
GEOL 3300	Introduction to Geochemistry	3
GEOL 3800	Sedimentology with Lab	4
GEOL 4150	Structural Geology	4

GEOL 4650	Plate Tectonics	3
GEOL 4900	Igneous and Metamorphic Petrology with Laboratory	4
GEOL 4992	Field Course	6
Additional geological sciences course at or above 2000 level (not GEOL 3200)		3
Three additional geological sciences courses at 4000 level, cannot be fulfilled by problems		9
Related courses		24-29

Total Credits: 125-130			

Minor in Geological Sciences

A minor in geological sciences consists of 15 credits in the geological sciences with 9 or more at the 2000-level or above. All courses must be taken for a letter grade, and a grade of C- or better must be earned in each course. The courses must be selected in consultation with an advisor in the department.

Graduate

MS in Geology

Contact: Dr. Rober Bauer
101 Geological Sciences Building

<http://geology.missouri.edu/index.html>

The master's degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor's degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

Admission Criteria

Fall deadline: none set, but February 15 for guaranteed consideration for departmental financial aid

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
71	530

- Minimum Academic IELTS scores:

Item	Score
OVERALL	5.5

Note on GRE Scores and GPA: Our quantitative assessment of applicants uses a combination of GPA for the last 60 hours and the student's GRE verbal, quantitative and analytical writing scores. We have a formula that weights the GPA and total GRE scores equally. Applicants

with a GPA less than 3.0 may be considered, but their acceptance would require very strong GRE scores or exceptional circumstances.

Required Application Materials

To the Graduate School:

- All required Graduate School documents. We require applicants to submit applications through our online system.

To the Geological Sciences Program:

- 3 letters of recommendation (submitted through the Graduate School's online application system)
- Personal statement (uploaded into Graduate School application online)
- GRE scores

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellow-ships or other funding packages. Check the program website or ask the program contact for details.

PhD in Geology

Contact: Dr. Robert Bauer
 101 Geological Sciences Building
 573-882-6785
<http://geology.missouri.edu/index.html>

The doctoral degree requires 72 hours beyond a bachelor's degree, and may include as many as 24 hours credit from a prior master's degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

Admission Criteria

Fall deadline: none set, but February 15 for guaranteed consideration for departmental financial aid

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
71	530

 grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German and in Russian. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor R. F. Cook*, C. Strathausen*

Associate Professor S. Engelstein*, S. Ireton*, K. Kopp*, B. Prager*

Assistant Professor S. Franzel*

Associate Teaching Professor M. Fischer*

Assistant Teaching Professor M. McKinstry, O. Schmidt

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in German (p. 189)
- Minor in German (p. 190)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - German

Departmental honors are available for students majoring in German with a minimum 3.3 GPA. At least two literature courses must be taken at the 4000-level, with no grades below B. The equivalent of one of the courses may be completed in study abroad. Alternately, at the discretion of the department, a paper written within the capstone course may be substituted.

Director of Graduate Studies: Sean Ireton

- MA in German (p. 190)

The German and Russian Studies Department offers BA and MA degrees in two cultures and languages of critical significance in the world today - German and Russian. The German program prepares students for admission to PhD programs and for professional language careers in a number of fields. Courses in language, literature, teaching techniques and skills, seminars in various specialized aspects of German studies, and directed study and research provide candidates with opportunities to acquire a comprehensive background in German studies. Teaching assistants receive training in pedagogy.

Resources and Facilities

Resources include extensive library holdings in German literature, cultural studies, and teaching methodology, and an electronically equipped audiovisual laboratory for language training.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

BA in German

Major Program Requirements

The major in German consists of 27 credits in German beyond GERMAN 2100. The German faculty strongly encourages all majors to spend at least one semester studying abroad at a German university. Equivalents to all the required courses for the major are available through study abroad. In addition, students must meet all degree, college and university graduation requirements including university general education.

Major core requirements (beyond the A&S language requirement)

The following courses or their equivalents must be included:		
GERMAN 2260	Intermediate German II: Language and Culture	3
GERMAN 3160 or GERMAN 3190	German Conversation and Composition Contemporary German Culture	3
GERMAN 3230	Introduction to German Literature	3
GERMAN 4980	German Capstone Seminar	3
One GERMAN 4200-level literature course		3
GERMAN 2310 or GERMAN 2320	German Civilization: Beginning to 1850* German Civilization: 1850 to Present	3

Electives

Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor.

Total Credits 18

* GERMAN 2310 and GERMAN 2320 are Writing Intensive German civilization courses. Versions of both GERMAN 2310 and GERMAN 2320 taken online do NOT count towards the major or minor requirements.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
GERMAN 2260	3 GERMAN 3160	3

Course for Second Major	3 Foundation Requirements (Humanities)	3
Foundation Requirements (Social Sciences)	3 Elective	3
Elective Course	3 Elective	3
	15	15

Total Credits: 122

NOTE: Third Year - Study Abroad at German University

Minor in German

The department offers a minor in German consisting of 15 credits beyond GERMAN 2100. A minimum of 6 of these 15 credits must be in German courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence. For the German minor, 12 of the 15 credits must be in courses where the language of instruction is German.

Application and Admission Information

Admission Contact Information

Dr. Sean Ireton
iretons@missouri.edu
218C Strickland
Columbia, MO 65211
573-882-4672

Admission Criteria

Fall deadline: First preference given to applications received by January 15, subsequent applications welcomed

Note: Applications received by January 15 receive first consideration

Spring deadline: August 1

Note: Applications to begin Spring semester are not encouraged.

Assistantships are typically not available for graduate students beginning Spring semester.

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GPA: 3.0
- Undergraduate major in German or equivalent

Note: The department reserves the right to evaluate the work presented for admission and to determine how the student may make up for background deficiencies.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Program:

- Departmental application
- 3 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. No fewer than 24 hours are to be earned in German courses at the 7000 or 8000 level and at least 15 hours must be taken in German courses at the 8000 level. A thesis, with a maximum of 6 hours of credit, or a critical essay, with a maximum of 3 hours credit, are optional. Courses taken outside the department must complement the student's plan of study and require the approval of the departmental adviser. No languages other than German and English

are required. Information regarding specific course requirements can be obtained by writing to the director of graduate studies.

Comprehensive Examinations

Candidates for the MA degree must pass comprehensive written and oral final examinations based on coursework and the departmental reading list.

Director of Graduate Studies: Lois Huneycutt

- MA in History (p. 193)
- PhD in History (p. 195)

By any measure one might choose, the History Department at the University of Missouri is an outstanding one. Our faculty has compiled a distinguished record of scholarship, receiving major awards to support their research from the National Endowment for the Humanities, the National Science Foundation, the John Simon Guggenheim Foundation and many other sponsors of cutting edge scholarship. Their books have won prizes from the American Historical Association, the Organization of American Historians and other national and regional scholarly organizations.

The department's teaching record is every bit as distinguished as its record of scholarly accomplishment. Graduate students work closely

with professors in advanced seminars and write theses and dissertations on a wide variety of topics. The teaching opportunities the department offers graduate students prepare them well for dealing with the difficult job market for new history PhDs. Over the last ten years, University of Missouri history PhDs have found positions at more than forty different colleges and universities across the United States.

Areas of Study

Lecture courses, seminars and directed research projects are available on the histories of Western Europe, Russia, Great Britain, South Asia, East Asia, Latin America and the United States. While students are expected to get specialized training in the fields of their choice, they are also urged to develop a broad historical background.

Facilities and Resources

Ellis Library has substantial research materials in all fields of graduate study, including an unusual collection of more than 5,000 pamphlets on 17th- and 18th-century British history and 18th- and 19th-century British and continental journals, including publications of all the major academies. The Health Sciences Library has excellent publications on the history of medicine. An additional resource is the Western Historical Manuscript Collection, a unique repository of material for regional studies in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

Internal Funding

Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details. The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least \$12,500 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

Undergraduate

BA in History

Major Program Requirements

A student majoring in history must complete a total of 33 history credits. With the consent of the departmental director of undergraduate studies, certain history requirements can be waived for students pursuing dual degrees or double majors. A grade of C- or better is required for all courses taken for the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements.

Major core requirements	33
Introductory courses (below 2000) from three of the following areas	9
United States to ca. 1865	
United States since ca. 1865	
Europe	

Third World (Africa, Asia, Latin America)	
One additional course (1000 level or above, not including HIST 1100, 1200, 1500, 1510) from each of the following areas	9
Europe	
United States	
Third World	
Electives at the 3000 level or above, from any field of history	9
Seminar/thesis block	6
One undergraduate seminar and one additional history course at the 4000-level	
OR Undergraduate Thesis	
OR Honors Thesis

Minor in History

A minimum of 15 credits is required for a minor in history. At least 9 of the 15 must be in courses numbered 2000 or above. A minimum of 9 credits must be taken in residence, 6 of which must be in courses numbered 2000 or above. A grade of C- or better is required for all history courses taken for a minor. The selection and mix of courses is left to the discretion of the student.

Graduate

MA in History

Admission Contact Information

Nancy Taube (tauben@missouri.edu)
 101 Read Hall; Columbia, MO 65211
 573-882-9461

Admission Criteria

Fall deadline: January 11

- Minimum GPA: 3.0 in last 60 hours
- BA or BS degree
- GPA of 3.3 in undergraduate history courses, and at least 18 hours in history
- Official GRE score report
- Minimum TOEFL scores (international applicants only):

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Candidates who lack the necessary undergraduate hours in history must take graduate-level classes in history to remedy that deficiency before they can be considered for admission. They should consult with the director of graduate studies about appropriate classes. Graduate School regulations prohibit a non-degree student from taking more than twelve hours of course work.

Candidates must achieve a grade point average in these classes of at least 3.3 on a 4.0 scale to be considered for admission. A 3.3 GPA or higher does not guarantee admission. Course work taken as a non-degree student to remedy a deficiency in prerequisites ordinarily will not count toward the MA degree.

Required Application Materials

To the Graduate School:

- All required Graduate School documents, including Graduate School online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts will be required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)

- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report
- Official TOEFL score for international students

Note: Incomplete applications will not be considered. It is the applicant's responsibility to ensure that all required documents have been received by the January deadline.

Financial Aid from the Program

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as graders who grade exams and papers in American and European history. Pending administrative approval and availability of funding, they earn at least \$6,250 an academic year and carry nine semester hours.

Each appointment is subject to annual review and may be renewed up to a maximum of two years.

Requirements for the Degree Residency

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student's advisor and the instructor(s) of the class.

Hours

Thirty semester hours of graduate credit are required by the Graduate School for the MA degree. The Graduate School also mandates that at least fifteen of these hours be in courses numbered 8000 or above, and will not count more than twelve hours of individually directed studies toward the thirty hours necessary to earn the degree. The department requires that at least twenty of these hours be in history. For students of United States history, at least fifteen hours must be in formally constituted US history courses. For students in the non-United States history program, at least twelve hours must be in formally constituted non-US history courses. Independently directed work does not count toward fulfilling this requirement in either category.

Required Courses

A readings seminar in every semester in which as many as nine credit hours are carried, unless the student is granted an exemption by the director of graduate studies. Every master's student must take HIST 8480 Historiography unless excused by the director of graduate studies. HIST 8480 is offered every Spring semester.

Every student who is a non-thesis candidate must complete at least two research seminars before receiving the MA degree. No master's candidates in US or non-US history are required by the department to demonstrate reading proficiency in any foreign languages or to develop research skills before receiving the MA degree. Individual advisors, however, can require MA candidates to become proficient in reading foreign languages and/or develop specific research skills if they determine such knowledge is essential for the successful completion of a

student's master's program. As soon as any such determination is made, students will be informed by their advisors. The advisors will also discuss with them processes for achieving and demonstrating those proficiencies.

Master's candidates in Ancient History must demonstrate proficiency in at least one ancient language (Greek or Latin) and at least one modern language (generally, either French or German) before they begin work on their theses, if they choose that alternative, or before they take the non-thesis MA examination, if they are seeking a terminal master's degree. These students should also be aware that ancient history graduate courses can include readings in Greek and Latin. For directions on how to demonstrate proficiency in these ancient and modern languages, students should talk with their advisors and obtain a written description of this process from them.

Special Note: No student will receive graduate credit for any course in which s/he earns a grade below B. The grade of C in a graduate class is the equivalent of an F in an undergraduate course.

Satisfactory Progress and Annual Review

At the beginning of every Spring semester, students must complete a "Progress Report" on the Graduate School's Graduate Student Progress System (sometimes referred to as "online assessment"). This report will be read by the student's faculty advisor, who will then submit an "Advisor Response." In addition, the student and advisor should meet to discuss the student's progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress. Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define "satisfactory progress" at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Effect of Progress Report Completion on Funding

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student's advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Plans for MA Degrees: Thesis plan

All students who wish to apply for admission to doctoral programs in history either at the University of Missouri or at other institutions must write a thesis. A thesis involves an original and extended analysis of an historical issue that requires substantial research. The topic of the thesis must be approved in advance by the student's faculty director and the thesis committee, which is composed of the director, at least one other

member of the history faculty, and one faculty member from outside the department.

Graduate School regulations require that there be an outside faculty person on each thesis committee. At the discretion of the director, additional faculty members may be added to the committee. The appropriate forms, signed by the advisor and the director of graduate studies, will be submitted to the Graduate School.

Students will take HIST 8090, Thesis Research, during those semesters they are actually engaged in writing their thesis. N.B.: The Graduate School only permits six hours of HIST 8090 to count toward the 30 hours necessary to earn a master's degree. Students should also note that hours earned in HIST 8090 do count toward the maximum of 12 hours of independent study, i.e., HIST 8085 (Problems), HIST 8089 (Research), and HIST 8090 (Thesis Research), the Graduate School will accept as credit for this degree.

Plans for MA Degrees: Non-thesis plan

Students may earn a master's degree without writing a thesis. A non-thesis MA is a terminal degree. Those who receive it will not be considered for admission to the doctoral program. These students must successfully complete two research seminars in history. These seminars will count toward the thirty hours required for an MA degree. One of the seminar papers must be submitted to the department to fulfill the Graduate School requirement for a substantial effort reflecting creativity or originality.

Examination for the MA degree: For Thesis Plan

The student must defend her/his thesis before a committee of at least three faculty members, one of whom must be the thesis director. Another must be from a department other than History. The committee is appointed by the Dean of the Graduate School upon recommendation from the Department of History. The examining committee decides:

1. whether to recommend the awarding of the MA degree to the student
2. for prospective doctoral candidates, whether the student shall be permitted to enter the doctoral program.

This latter action constitutes a decision on the qualifying examination required in the doctoral program. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

Examination for the MA degree: For Non-Thesis Plan

A comprehensive oral examination covering all work for the degree will be conducted by a committee of the advisor and at least two other faculty members, one of whom may be from a department other than history. The examining committee decides whether to recommend the awarding of the MA degree. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

Graduate School Deadlines for receipt of the MA degree

Students must meet Graduate School deadlines for the awarding of degrees and the submission of theses. The final form of the thesis must be in conformity with the Graduate School requirements.

PhD in History

Admission Contact Information

Nancy Taube (tauben@missouri.edu)
 101 Read Hall; Columbia, MO 65211
 573-882-9461

Application Deadline

Fall deadline: January 11

Admission Criteria

- MA in history strongly preferred
- Quality of master's thesis or research seminar paper submission
- Official GRE score report
- Minimum TOEFL scores (international applicants only):

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Students who do not meet one or more of these criteria may enroll as non-degree graduate students. Contact the director of graduate studies for further details. All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination. See below for information about the qualifying examination.

Required Application Materials

To the Graduate School:

- All required Graduate School documents, including Graduate School online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report
- Official TOEFL score for international students

Note: Incomplete applications will not be considered. It is the applicant's responsibility to ensure that all required documents have been received by the January deadline.

Financial Aid from the Program

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Graduate School fellowships

for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least \$12,500 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

Qualifying Examination

To be admitted to candidacy for a PhD in history, a student must have earned an MA in history or a related discipline and have passed a qualifying examination.

Students with an MA from the University of Missouri

Students earning their MA in history at this university may, with the approval of their advisory committee, combine their qualifying examination with their MA thesis defense. Other students must take their qualifying examination no later than the beginning of their third semester in the graduate program at the University of Missouri-Columbia.

Students Who Earned Degrees at Other Institution

All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination no later than the beginning of their third semester of residence at MU. The exam will focus on a research paper the student wrote at MU.

About the Exam

The examining committee will be composed of the student's advisor and at least two other history faculty members. During the consideration of prospective students, the committee on graduate admissions will consult closely with faculty best suited to advise them.

The basis for the examination will be a substantial research-based seminar paper written here. The exam will be oral, approximately one hour in length; the examiners will include the student's advisor and at least two other members of the department. It is designed to ascertain the candidate's intellectual capacity, aptitude, and preparation for PhD level work in history.

The committee reserves the right to reject otherwise qualified students if

1. this department cannot provide the applicant with an adequate program in his/her area of interest
2. no faculty member is willing to supervise his/her work.

PhD Program Overview

The PhD program in history at the University of Missouri-Columbia is governed by a number of rules, regulations, and expectations. What follows is an explanation of these elements of the program.

Advisor and Advisory Committee

A student will meet with his/her advisor no later than the semester following passage of the qualifying examination for students who earn their MA in history at the University of Missouri and prior to the qualifying examination for other students. The advisor and student together will plan the student's class work up to the comprehensive exams. They will also choose other members of the student's doctoral committee. That

committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

Developing a PhD Plan of Study

The committee will meet formally with the student to help the student to develop a major field, two broad historical fields, a historical field outside his/her area of major emphasis, and one field in a discipline other than history for the comprehensive examination. How s/he will meet the foreign language and/or historical research technique requirement (see below) will be defined and approved by the advisor and the committee. Members of the advisory committee shall meet regularly with the student to ensure he/she is making satisfactory progress.

PhD Degree Requirements

To obtain a PhD in history at the University of Missouri, a student must fulfill the following requirements:

1. residency
2. course work
3. foreign language and/or historical/research technique
4. comprehensive examination
5. dissertation and oral defense

Residency

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student's advisor and the instructor(s) of the class.

Course Work

The minimum requirement for the PhD degree at the University of Missouri is 72 hours of graduate credit beyond the baccalaureate degree. A student's advisor and committee may require more. Customarily, students in history have more than 72 hours when they defend their dissertations. If a student has earned an MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to 30 hours of credit toward the 72 necessary for the PhD. If a student took additional courses beyond his/her MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to a maximum of six hours of credit toward the PhD.

Graduate School regulations forbid the awarding of more than six hours. Two-thirds of the courses taken by a PhD candidate within the department prior to the comprehensive examination must be at the 8000 or 9000 level. These may, and probably will, include History 8085 (Problems), History 8410 (Independent Readings PhD Exam), History 9089 (Research), but not History 9090 (Dissertation Research).

Every doctoral student who earned his /her master's degree at another institution must take History 8480, Historiography, unless excused by the director of graduate studies. History 8480 is offered every spring semester.

Foreign Languages and Historical Research Techniques

PhD candidates must demonstrate abilities in foreign languages and/or historical research skills appropriate to the completion of a doctoral dissertation in their proposed field of research. There are four different ways a student may fulfill this requirement. Which one is chosen depends

on the area of his/her research interest. The advisor and committee must approve the method for fulfilling this requirement.

PhD Emphasis Areas

Ancient History Emphasis

Candidates planning to write a doctoral dissertation in ancient history must demonstrate their competence in Greek and Latin, together with at least two modern languages (usually French and German).

For the ancient language, competence will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by the completion of upper-level courses in the department of classical studies, or by other such proof as the advisor and other members of the advisory committee deem appropriate.

Competence in the modern languages will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing the ETS language examination with a minimum score of 500, or by the successful completion of an upper level language course in any modern language department of the university.

European History Emphasis

Candidates planning to write a dissertation in European history must be competent in two foreign languages.

Competence may be demonstrated either by successful completion of a research paper, the sources for which are predominantly in the foreign language under consideration, or by successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing an ETS language examination with a minimum score of 500. A candidate's advisory committee may also require him/her to show competence in historical research technique. An historical research technique is a specialized field of study which provides a student with additional skills for research. Quantitative methods/statistics or techniques of historical exhibition, museum work, and the analysis of material culture are some examples. Competence will be demonstrated by satisfactory completion of a substantial research paper or other historical project for which the technique is necessary.

Students who take foreign language courses should keep in mind that all classes below 7000 may not be taken for graduate credit and do not count toward the 9 hours per semester required for those receiving financial aid.

American History Emphasis

Candidates planning to write a dissertation in American history shall have a competent reading knowledge of one foreign language.

Competence in a foreign language shall be demonstrated in the ways described above for candidates in European history.

Asian or Latin History Emphasis

Candidates planning to write a dissertation in Asian or Latin American history shall demonstrate a competence in such languages as their advisory committee requires for their research. In addition, a candidate's advisory committee may require the candidate to demonstrate competence in an historical/research technique, as defined above in the American History section (3).

Preparation for the Comprehensive Examination

In the department of history, each doctoral student must prepare five fields for the comprehensive examinations. The selection of those fields and the faculty who will be the examiners in each should be begun by the doctoral candidate and her/his advisor during her/his first semester at MU. The advisor will help the student prepare for examination in her/his major field. This will cover significant historical themes and historiographical trends in the specific period and area of the student's prospective dissertation topic.

Two other members of the history faculty will help the student prepare for examinations in two chronological and/or geographical areas of historical study that are appropriate for his/her dissertation topic. A fourth member of the history faculty will prepare the student for an examination in a chronological, geographical, and/or thematic area of historical study that is not directly related to his/her dissertation topic. A fifth faculty member from a department other than history will prepare the student for examination in an outside field. This will cover the methodologies and research findings of another academic discipline.

Areas of Study and Dissertation Topics

What the student learns in this discipline should assist his/her understanding of and research on her/his dissertation topic. The student's choice of a discipline to work in for his/her outside field is potentially as wide as the number of programs and departments in the university. That choice is not confined merely to departments in the College of Arts and Science. The student must have his/her advisor's approval of the discipline and the outside faculty member. The Graduate School must approve these selections as well.

Within the department of history there are seven broad areas of historical study.

- US history to 1865 (including the colonial period)
- US history since 1865
- Ancient history
- European history from the fall of Rome through the Reformation
- European history since the Reformation
- Latin American history
- Asian history

The three history faculty who, together with the advisor, will help the student prepare for the comprehensive examinations, must each test him/her on material in a different broad area. Thus the student will be working on three different broad areas, plus the dissertation field. The three faculty members may, in consultation with the student, define the broad area as narrowly or as widely as they choose.

Documenting Exam Preparation

The advisor and the four other faculty members must explain how they want the student to prepare, what they want the student to master, and which criteria they will use to assess the examinations in their particular field. These explanations must be in writing, and copies of each placed in the student's permanent file.

Comprehensive Examination Requirement

Students may take a comprehensive examination only after fulfilling their residency, course work and foreign language and/or historical research technique requirements. It will be administered by a committee consisting

of his/her advisor and four other faculty members, one from a discipline other than history. These should be the faculty members who helped the student prepare for the examinations. Sometimes it may be necessary to find substitutes. The director of graduate studies and the Graduate School must approve any substitutions, and new committee members must describe their expectations in writing for the student and for his/her permanent file.

Comprehensive Exams Processes

The comprehensive exams are given in two stages. The first is a series of at least three written exams. The second is an oral examination, which is conducted if the student passes the written portion. A report of the decision, signed by all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive exam is completed. One of the written exams must be in the major field; the committee will determine the subjects of the other exams, and their number.

Special Note: All members can require the student to write on their areas of expertise. Therefore the written examinations could cover all five areas.

All members of the committee will read the written exams and discuss them within two weeks after their completion. If they determine the student has not successfully completed the exam, they will inform him/her immediately and discuss the results. Failure ends the comprehensive exam at this point. The committee must provide the student with an outline in writing of the weaknesses and deficiencies of his/her work.

A copy of this must be placed in the student's permanent file. If at any time the student believes that parts of the exam are unclear, or the decision of the committee is incorrect, or the advice given by the committee is inadequate, s/he may send a written request for clarification and rectification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the department and the Graduate School.

At least 12 weeks must pass before a student who failed can take the comprehensive exams again.

If the committee determines that the student did satisfactory work on the written examinations, they will schedule an oral examination. This second stage of the comprehensive exams will cover all five fields. Each member of the committee will test the student. At the end of the oral examinations, the committee discusses the student's performance on each field and on the entire examination. This discussion includes both the written and the oral parts of the whole process. Then they vote pass, fail, or abstain on the student's total performance on the exam.

Criteria for Successful Completion of the Comprehensive Exam

To complete the comprehensive exams successfully, the student must receive a vote of pass from at least four of the five examiners. Should two or more votes be negative or abstentions, the committee follows the same procedure outlined above for failure to pass the written part. These students must repeat the entire examination, not just the fields failed, and not just the oral portion. If the candidate fails the second examination, the examining committee must enter on its report to the dean of the Graduate School a recommendation to prevent the student's further candidacy.

Dissertation and Oral Defense

Soon after successful completion of the comprehensive examination, the student and advisor will form a dissertation committee of five faculty members. One member of the committee must be from outside the department. The student shall develop with her/his advisor and committee a dissertation topic and a plan of research. S/he should keep in regular contact with the advisor. Together they shall decide when written work will be read by other members of the committee.

Travel Funding

When students begin work on their doctoral dissertations, they may apply for departmental fellowships and travel grants to assist their research and writing.

Satisfactory Progress

The department requires PhD candidates to make satisfactory progress towards completion of their degree.

Annual Review

At the beginning of every Spring Semester, students must complete a "Progress Report" on the Graduate School's Graduate Student Progress System. This report will be read by the student's faculty advisor, who will then submit an "advisor Response." In addition, the student and advisor should meet to discuss the student's progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress.

Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define "satisfactory progress" at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Funding Impact of Incomplete Reports

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student's advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Rate of Completion

A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this the student must petition the Graduate School by submitting a request to the advisor who,

in turn, submits a written recommendation to the Graduate School. The director of graduate studies will also make a written recommendation. In addition, the dissertation must be successfully defended within five years of passing the comprehensive examination. On petition of the candidate and the candidate's department, an extension of time may be granted by the Graduate School.

Interdisciplinary

Office of Special Degree Programs
College of Arts and Science
114 Switzler Hall
(573) 882-6060

Faculty

Professor T. Tarkow

Instructor K. Kerr

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Interdisciplinary (p. 200)
 - with emphasis in Black Studies (p. 201)
 - with emphasis in Environmental Studies (p. 201)
 - with emphasis in Peace Studies (p. 201)
 - with emphasis in Women's and Gender Studies (p. 202)

Interdisciplinary programs provide for the special needs and interests of individual students who are not being served by one of the existing majors. The Office of Special Degree Programs is responsible for a variety of multidisciplinary majors, including Interdisciplinary, International Studies and General Studies.

Graduate

While MU does not offer graduate degrees specifically in interdisciplinary, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Undergraduate

BA in Interdisciplinary

Major Program Requirements

Students majoring in Interdisciplinary may design an individual course of study. Students with very specific career plans and goals not easily accommodated in any one department may find this program suited for their needs. Others may find that this option permits a broader approach than the major found in a single department.

The Interdisciplinary major is comprised of two or three components to total 36 credits. A component consists of course work from a single department or area, which may include programs outside the College of Arts and Science (e.g., Journalism, Business or Social Work). At least 18 hours must come from the College of Arts and Science. In addition to the 36 hours required in the major components, Interdisciplinary students must also complete a 3-credit capstone.

Interdisciplinary candidates must earn no less than a 2.0 GPA in each component. Interdisciplinary students are bound by rules and practices of the College of Arts and Science that pertain to admission to degree programs, the awarding of credit and the awarding of degrees. Students must complete college as well as University requirements, including University general education.

Major Core Requirements

Area of concentration (select one option) 36

- Three components of 12 credits each
- Three components, one of 15, one of 12 and one of 9 credits
- Two components of 18 credits each
- Two components, one of 21 and one of 15 credits

All courses in the major must be at the 2000 level, and at least 15 credits must be 3000 level or above.

A minimum of 12 credit hours within all components must be MU courses.

Capstone requirement (to be completed during final 45 hours of course work)

There are several ways a student can complete the capstone experience in Interdisciplinary Studies.

1. Special Readings project: With this option, the student completes an independent research project under the supervision of a faculty member. The project allows the student to explore an area of interest and is designed to be an academic challenge. The department is open to creative, innovative approaches to learning. The supervising faculty member is responsible for grading the project. The student is responsible for locating a supervising faculty member.
2. Service Learning project: Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Course will be submitted for Writing Intensive credit each semester. Restricted to Interdisciplinary, General and International Studies students.
3. Internship: Students work approximately 50 clock hours per credit at an agency, company or corporation of their choice. Grades are on a pass-fail basis. For an internship to be approved as a capstone experience, it must help the student solidify and explore the areas of concentration. Internships must have prior approval from the Special Degree Programs Office.
4. Capstone course: Students may have a specific course designated as a capstone course for the individual degree program. The course must be upper level, and the course must be taken in the last 45 hours of course work as a major. A course taken previously cannot retroactively be counted as a capstone course. Approval for the course must be provided in advance of registration from the Interdisciplinary Studies advisor.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ENGLISH 1000	3 MATH 1100	3

Total Credits: 120-124

BA in Interdisciplinary with Emphasis in Black Studies

Major Program Requirements

Emphasis in Black Studies - Coordinated with the Department of Black Studies, an academic department in the College of Arts and Science
 Wilma King, Chair
 13 Gentry Hall
 (573) 882-6229

The Department of Black Studies offers an interdisciplinary program leading to a dual major or minor in the College of Arts and Science.

Emphasis core requirements

- Completion of an area of concentration in another Arts and Science program or department

- Completion of an interdisciplinary area of concentration of at least 32 credits in Black Studies and related courses

In selecting a language to meet general education requirements in the College of Arts and Science, students are encouraged to consider Spanish, Portuguese or French.

Semester Plan

Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 200).

BA in Interdisciplinary with Emphasis in Environmental Studies

Major Program Requirements

People in the environmental field work to protect and restore the natural services that clean water, build soil, scrub air, and maintain species that provide human food, shelter and well-being. Career options for students who pursue the degree can be found in advocacy, policy, conservation, and education. Advisement for the degree is provided by the Special Degree Program advisor in 114 Switzler Hall/(573)882-6060.

Environmental Studies Major

- Core requirements in A&S Foundation
- 15 hours *Natural Dimensions Courses*
- 15 hours *Social Dimensions Courses*
- 9 hours of *Practicum Courses (Seminar, Internship, Capstone)*

A student can take Natural and Social Dimension courses organized into informal tracks (Note: tracks do not appear on diplomas or transcripts).

- Sustainable Lifestyles
- Water Soils and Climate
- Energy and Materials
- Conservation and Biodiversity
- Environmental Education

Semester Plan

Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 200).

BA in Interdisciplinary with Emphasis in Peace Studies

Major Program Requirements

Clarence Lo, Ph.D, Director
 326 Middlebush Hall
 (573) 882-1736
 loc@missouri.edu

The peace studies emphasis area addresses a wide range of issues concerning peace and justice, including international and civil war and peace; global social and environmental justice; nonviolent social movements, process, and change; cultures, intellectuals, and war and peace; and indigenous peoples and the imperial state. Our courses provide a liberal arts foundation: students explore values to set goals;

they evaluate evidence to assess alternate means to achieve goals. Some courses focus on practical issues of community organization (PEA_ST 4341), sustainable development (PEA_ST 1120) and construction, and public health (PEA_ST 3401), that students are likely to encounter in work, internship, or volunteer positions. Study abroad courses taught by MU faculty are regularly offered. Since issues of peace and conflict cut across disciplines, the curriculum includes courses offered by both the program itself and cross listed between Peace Studies and other programs and departments of the University.

Emphasis requirements 30

Core requirements

PEA_ST 1050 Introduction to Peace Studies

Select 12 credits from the following. It is recommended that students pick four courses distributed in at least four of the following areas 12

Area 1: International and Civil War and Peace

PEA_ST 2200 Nuclear Weapons: Environmental, Health and Social Effects

PEA_ST 2410 Philosophies of War and Peace

PEA_ST 2550 Human Rights, Law, War and Peace

PEA_ST 3230H Terrorism and Conflict Resolution - Honors

Semester Plan

Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 200).

BA in Interdisciplinary with Emphasis in Women's and Gender Studies

Major Program Requirements

Interdepartmental Program in the College of Arts and Science

Joan Hermsen, Chair

Mary Jo Neitz, Director of Undergraduate Studies

325 Strickland Hall

(573) 882-2703

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary Studies major and an emphasis in Women's and Gender Studies. A minor is also available as are departmental honors. Please consult the Women's and Gender Studies department for more information.

Advising of students and assistance in designing student-tailored academic plans is available from the Women's and Gender Studies department office.

The curriculum includes Women's and Gender Studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with an emphasis in Women's and Gender Studies, they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking

- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

An emphasis in Women's and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, policy, media, politics, law, social work and social services. Because of the diversity of Women's and Gender Studies, the WGST emphasis can be combined with a number of other potential majors to create a dual degree. Many students choose to combine two areas of study, such as Women's and Gender Studies and Sociology, or Women's and Gender Studies and Journalism. This results in a student receiving one degree with two areas of specialization that reflect the student's unique academic interests and his/her individually-designed course of study.

Thirty hours are required in Women's and Gender Studies. In addition to degree requirements, college and university requirements, including university general education requirements, must be met.

Required Core Courses		15
WGST 1120	Introduction to Women's and Gender Studies	3
WGST 2010	Gender and Identity: Understanding Intersectionality	3
WGST 2020	Feminist Theory	3
WGST 3450	Feminist Methodologies	3
WGST 4990	Capstone: Senior Research Seminar in Women's and Gender Studies	3

Additional courses		15
Students take an additional 15 hours selected from the lists of courses below. Students are encouraged to select the bulk of their elective coursework from the first list, Emphasis Core Courses, and must take a minimum of 9 hours from this list. Courses from the third list, Special Semester Topics Courses, may be either Emphasis Core Courses or Cross-listed Courses. Please seek advise from the department on which requirement these courses fulfill. 12 hours must be at 2000 level or above.		

Emphasis Core Courses		
WGST 2030	Gender Perspectives: Colonial Histories, Post-Colonial Challenges	3
WGST 2040	Perspectives on Empowerment	3
WGST 2050	Gender Perspectives: Issues in Public Health	3
WGST 2080	Perspectives on Sexual and Gender Diversity	3
WGST 2250	Perspectives on Gender, Race, Class and Sexuality in the Americas	3
WGST 2260	Perspectives on Mass Media: Constructions of Gender, Race and Sexuality	3
WGST 2340	Perspectives on Gender and Popular Culture	3
WGST 2960	Sexual Health Advocacy and Service Learning	3
WGST 3080	Sexuality and Gender Theory	3
WGST 3230	Themes in Sexual Politics	3
WGST 3240	Nonprofit Work and the Pursuit of Social Justice	3
WGST 3370	Themes in Gender and Religion	3
WGST 3480	Themes in Sexuality and Literature	3
WGST 3560	Themes in Gender and Immigration	3

WGST 3670	Themes in Gender and Globalization	3
WGST 3850	Themes in Gender and the Politics of Representation	3
WGST 3960	Strategies for Effective Peer Education	1
WGST 4020	Studies in Feminist Thought	3
WGST 4110	Feminist Research and Criticism	3
WGST 4230	Women, Development, and Globalization	3
WGST 4420	Studies in Gender, Culture, and Politics	3
WGST 4550	Gender and Human Rights in Cross Cultural Perspective	3
WGST 4600	Studies in Women and Health	3
WGST 4640	Studies in Gender and Performance	3
WGST 4940	Internship in Women's and Gender Studies	1-12
WGST 4965	Special Readings in Women's and Gender Studies	1-6

Cross-listed Courses:

AR_H_A 4120	Women, Art and Society	3
ANTHRO 4370	Anthropology of Gender	3
ENGLSH 2180	Introduction to Women's Literature	3
ENGLSH 2200H	Studies in British Literature - Honors	3

International Studies

Office of Special Degree Programs
 College of Arts and Science
 114 Switzler Hall
 (573) 882-6060

Faculty

Faculty for International Studies are housed within other departments.

Undergraduate

- BA in International Studies (p. 205)
 - with emphasis in East Asian Studies (p. 206)
 - with emphasis in Environmental Studies (p. 206)
 - with emphasis in European Studies (p. 206)
 - with emphasis in International Business (p. 207)
 - with emphasis in Latin American Studies (p. 207)
 - with emphasis in Peace Studies (p. 207)
 - with emphasis in South Asian Studies (p. 207)

Interdisciplinary programs provide for the special needs and interests of individual students who are not being served by one of the existing majors. The Office of Special Degree Programs is responsible for a variety of multidisciplinary majors, including Interdisciplinary Studies, International Studies and General Studies.

BA in International Studies

The major is comprised of three 12-credit blocks, plus electives, as described below. At least 30 credits must be at the 2000 level or higher; 18 must be taken in courses at the 3000-level or higher.

Humanities and language	12
Could include additional language and literature courses from the language of major study, as well as course work from Philosophy, Religious Studies, Art History and Archeology, and Civilization courses.	
Social and behavior sciences	12
Could include course work from Geography, History, Political Science, Economics, Anthropology, Sociology, Rural Sociology or Peace Studies.	
Focus area	12
Course work from an area of the student's choice allowing the study of one area in depth. Students are encouraged to take 9 credits from a single department or area. The 3-credit capstone experience will equal 12 hrs. of credit. (See previous information on capstone requirement.)	

Study Abroad Experience

Students majoring in International Studies must study abroad for a minimum of four weeks. Prior to their overseas studies participation, students must have completed at least one course related to the country in which they plan to study.

Dual Major in International Business

International Business is offered as a dual major program leading to the Bachelor of Science in Business Administration (BSBA) with an emphasis in International Business and a BA in International Studies. See both the College of Business (first) and the International Studies advisor for more information.

Graduate

While the College does not offer a graduate degree specific to international studies, the Graduate School does offers a graduate academic Minor in International Development (p. 676).

This catalog provides a complete list of graduate degree options (p. 5) for all Schools and Colleges at the University of Missouri.

Undergraduate

BA in International Studies

Major Program Requirements

The International Studies major is a broad multidisciplinary program of liberal studies with a strong intercultural and international focus. The program provides a variety of regional/cultural and inter-divisional emphasis areas, including East Asian Studies, Environmental Studies, European Studies, Latin American Studies, Peace Studies and South Asian Studies.

Designed to accommodate preprofessional interests as well as provide a sound foundation for more advanced study at the graduate level, this degree may be especially attractive for students planning to pursue careers in international business, trade and diplomacy, international law, technical assistance and humanitarian relief and similar fields.

The major includes a common interdisciplinary core of 18 designated credits that students earn as part of their degree requirements. In addition, all International Studies students must take a minimum of 6 credits in foreign language study beyond the 12-13 credit minimum skills proficiency requirement of the College of Arts and Science. This requires a minimum of 18 credits.

International Studies degree candidates must earn no less than a 2.0 GPA in their majors courses. Students must also complete all degree, college and University graduation requirements (p. 17), including University general education (p. 18).

Requirements are similar to those for other majors earning BA degrees in the College of Arts and Science, except that International Studies students must complete an 18-credit common core of courses as part of these requirements and students are required to complete a study abroad experience.

Major core requirements		
ANTHRO 2030	Cultural Anthropology	3
GEOG 1100	Regions and Nations of the World I	3
or GEOG 1200	Regions and Nations of the World II	
POL_SC 1400	International Relations	3
or POL_SC 2700	Comparative Political Systems	
Select three of the following (at least one must be a humanities course):		9
PEA_ST 1050	Introduction to Peace Studies	
BIO_SC 1060	Basic Environmental Studies	
ECONOM 1014	Principles of Microeconomics	
or ECONOM 1015	Principles of Macroeconomics	
or AG_EC 1041	Applied Microeconomics	
GEOG 1200	Environmental Geology with Laboratory	
or GEOL 1100	Principles of Geology with Laboratory	
SOCIOL 1000	Introduction to Sociology	

SOCIOL 2200	Social Inequalities
The following are humanities courses:	
REL_ST 2100	Indigenous Religions
REL_ST 2110	Religions of the World
REL_ST 2310	Religions of China and Japan
PHIL 2100	Philosophy: East and West
AR_H_A 1110	Ancient and Medieval Art
AR_H_A 1120	Renaissance through Modern Art
MUSIC_NM 1310	Masterpieces of Western Music
MUSIC_NM 1313	Introduction to World Music
GN_HON 2112H	The Middle Ages and the Renaissance
GN_HON 2113H	The Early Modern World: The 17th-19th Centuries Enlightenment
GN_HON 2114H	The Modern Era
PHIL 2410	Philosophies of War and Peace

Foreign language

Two language courses beyond the basic 12-13 credit minimum skills proficiency requirement (total: 18-19 credits in a single language) 6

Capstone Options

Policies

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- A maximum of 12 hours of Internship, Readings, and/or Special Problems may be applied to graduation.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings without using the hours to fulfill the Capstone requirement.
- Students may not earn retroactive credit for Internships.

Internships 4940

- Students must work 50 hours for each credit hour earned.
- Only internships in the United States can be approved.
- At the end of the Internship, students must submit three documents:
 1. a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal
 2. an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
 3. a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
- Internship supervisors must submit a performance evaluation.

Readings 4960

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher. They must watch the Internship Tutorial

on the MU Serves website and complete an application for the Office of Service Learning.

4000-level Capstone course

Students can select a 4000-level course in one of their component areas to fulfill the Capstone requirement. This course does not need to be a departmental Capstone in order to fulfill the requirement.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in East Asian Studies

Major Program Requirements

East Asian Studies is one of the emphasis areas in the International Studies major. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. The program focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. Students are encouraged to begin study of their foreign language no later than the sophomore year. Students should consult with the International Center about appropriate locations for their study abroad experience.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in Environmental Studies

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 205).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in European Studies

Major Program Requirements

European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student

examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe. Refer to the program requirements for the BA in International Studies (p. 205).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in International Business

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 205).

Semester Plan

Refer to the Semester Plan for the BA in International Studies (p. 205).

BA in International Studies with Emphasis in Latin American Studies

Major Program Requirements

Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies option is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture.

This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. Students who graduate with an emphasis in Latin American Studies will be fully prepared to pursue graduate study in Latin American Studies programs offered around the country.

Students are encouraged to study abroad in one of many program opportunities in Spain, Mexico, Central and South America, Brazil or the Caribbean. It is important to begin planning an emphasis area with a member of the Latin American studies committee as early as feasible, during the freshman year if possible. An advisor can tailor a program to fit specific interests.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in Peace Studies

Major Program Requirements

Students may opt for an emphasis in Peace Studies. Students with this emphasis examine issues related to global peace and social justice - in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in International Studies with Emphasis in South Asian Studies

Major Program Requirements

The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history.

An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Linguistics

Vicki Carstens, Chair
Interdepartmental Program in the College of Arts and Science
224 Tate Hall
(573) 882-8814
carstensv@missouri.edu

Kibby Smith, Adviser
M110 Student Success Center
(573) 884-9700
smithkib@missouri.edu

Linguistics is the scientific study of human language. It seeks to understand and explain the properties of language in a clear and formal manner. Linguists document understudied and endangered languages, explore the consequences of language contact, measure language variation and change, investigate the structure of language, and analyze the construction of meaning.

Some of the main subfields of linguistics are phonetics (the physical properties of sounds), phonology (the grammar of sounds), morphology (the structure of words), syntax (the organization of phrases and sentences), semantics (meaning), and sociolinguistics (the interaction of language and society).

A Bachelor of Arts with a major in linguistics is available (with an honors option) as is a linguistics minor, both involving coursework in the various subfields.

The study of linguistics prepares students for careers which utilize insight into the workings of language including language instruction, translation and interpreting, speech pathology, anthropology, the reconstruction of prehistory, and computational fields related to the interaction of language and technology. Academic careers of linguistic research and teaching are also possible after further training at the graduate level.

In addition, a major in linguistics offers students a liberal education and develops verbal and analytical skills that are valuable in a variety of less directly related careers such as journalism, literary study, and the law.

The linguistics program is staffed by faculty from a number of MU departments. Supporting course work is offered in Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

Although specialists in the field commonly know one or more foreign languages, such knowledge is complementary rather than essential.

Faculty

Professors: P. Weirich*, J. Zemke*, F. Zéphir*

Associate Professors: V. Carstens*, J. Goodman*, M. Gordon*, C. Horisk*, M. McGrath*, P. Robbins*, T. Kazic*

Assistant Professors: A. Alcazar*, M. Fagan*, J. Kramer*, M. Marlo*, M. Popescu*

Emeritus Faculty: L. Day*, N. L. Furbee*, D. E. Gulstad, B. L. Honeycutt, M-J Smythe, D. Watson, G. Youmans*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Linguistics (p. 209)
- Minor in Linguistics (p. 210)

Departmental Honors

A student wishing to graduate with honors in Linguistics must earn a 3.3 GPA in all courses and complete all the requirements for the BA in Linguistics. In addition, with the assistance of his/her honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in LINGST 4991 (p. 208). A committee consisting of the thesis advisor and a second reader, to be selected by the advisor and the program chair, will examine the student on the resulting thesis of 25-40 pages in an oral exam held no later than the thirteenth week of the term during which the student expects to graduate. The second reader will be provided with a copy of the thesis at least two weeks before the examination. After completing any revisions that the exam committee recommends, the student will submit a final version of the thesis for linguistics program records and will then be recommended to the college of Arts and Science for a BA with Honors in Linguistics.

Graduate

Interdepartmental Program in the College of Arts and Science
224 Tate Hall
(573) 882-8814
carstensv@missouri.edu

Chair of Linguistics: Vicki Carstens

- Graduate Minor in Linguistics (p. 210)

A graduate minor in linguistics consists of at least 12 hours including two electives and two required courses: LINGST 7630 (Phonology) and LINGST 7640 (Syntax). Electives are to be drawn from our list of upper level linguistics classes (see linguistics.missouri.edu/courses).

Graduate degrees in linguistics are not offered but MA and PhD programs with emphasis in language and linguistics are available in some cooperating departments such as Anthropology, communication, English, Romance Languages and Literatures, and Philosophy).

The linguistics area program is staffed by faculty from various departments (see below). Supporting course work may be drawn from a range of units including Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

Financial aid, when available, is arranged through the participating departments.

Cooperating Graduate Degree Programs

Anthropology (p. 127)

Interested Anthropology and other graduate students may minor in Linguistics. Linguistics is a integral component of ethnographic research.

Communication (p. 158)

In the Department of Communication, students learn to apply the study of communication to their professional and personal lives. Students may receive a MA, or PhD through this department.

Communication Science and Disorders (p. 490)

The discipline of Communication Science and Disorders encompasses the field of speech, language, and hearing science and the distinct but related professions of Speech-Language Pathology and Audiology. Students may receive a MA, or PhD through this department.

English (p. 171)

The English department offers MA and PhD degrees with an emphasis in English Language and Linguistics.

Philosophy (p. 233)

Linguistics majors benefit by taking courses offered by the Philosophy Department and can focus on issues at the intersection of philosophy and linguistics.

Romance Languages and Literatures (p. 264)

The Department of Romance Languages and Literatures offers the MA with an emphasis on Language Teaching (MALT).

Undergraduate

BA in Linguistics

Major Program Requirements

Major core requirements (minimum) 21

I. Required areas/courses

Introduction to Linguistics 3

LINGST 1060 Human Language

Language Structure - At least one in-depth structure course such as: 3

LINGST 4600 Structure of American English

LINGST 4720 Structure of Modern French

LINGST 4721 Structure of Modern Spanish

Phonology 3

LINGST 4630 Phonology (typically offered Spring semesters)

Syntax 3

LINGST 4640 Syntax (typically offered Fall semesters; a structure course prerequisite)

Semantics 3

Select one of the following:

LINGST 2700 Elementary Logic

LINGST 4100 Philosophy of Language

LINGST 4110 Advanced Logic

II. Electives

At least one additional course from any part of the linguistics curriculum, including but not limited to those listed above and below 3

Language variation

LINGST 4620 Regional and Social Dialects of American English

LINGST 4722 Spanish Across the Continents

LINGST 4723 Language and Society: Spanish in the U.S.

Language and Culture

LINGST 3470 Culture as Communication

LINGST 4412 Gender, Language and Communication

Historical Linguistics and Language Change

LINGST 4200 Introduction to Old English

LINGST 4610 History of the English Language

LINGST 4710 History of the French Language

LINGST 4711 History of the Spanish Language

Phonetics

LINGST 3010 American Phonetics

LINGST 3220 Speech Acoustics

LINGST 3210 Anatomy and Physiology of the Speech Mechanism

LINGST 3220 Speech Acoustics

LINGST 3721 Spanish Phonetics

Language and the Mind

LINGST 2820 Introduction to Cognitive Science

LINGST 4810 Psycholinguistics

III. Capstone Course

3

LINGST 4870 Field Methods in Linguistics

Options

Topics courses such as LINGST 2001, LINGST 3001 and LINGST 4001 may also satisfy core requirements. Substitutions may be approved for courses in one of the required areas if no courses are available in that area during a student's senior year.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year

Fall	CR Spring	CR
LINGST 1060	3 Foreign Language	5
ENGLISH 1000	3 MATH 1100	3
Social Science (MO State Law)	3 Behavioral Science	3
Foreign Language	5 General Elective	3
	14	14

Second Year

Fall	CR Spring	CR
LINGST 2700 or PHIL 2700	3 Linguistics Elective	3
Behavioral Science	3 Minor	3
Foreign Language	3 Humanities/Fine Arts (Writing Intensive)	3
Social Science	3 Science with a Lab	5
General Elective	3 General Elective	3
	15	17

Third Year

Fall	CR Spring	CR
LINGST 4600, 4720, or 4721	3 LINGST 4630	3
Minor	3 Minor	3
Humanities/Fine Arts	3 Humanities/Fine Arts	3
Science	3 Science	3
General Elective	3 General Elective	3
	15	15

Fourth Year

Fall	CR Spring	CR
LINGST 4640	3 LINGST 4870	4

Minor	3 Minor	3
Social Science	3 Humanities/Fine Arts	3
General Elective	3 General Elective	3
General Elective	3 General Elective	3
	15	16

Total Credits: 121

Minor in Linguistics

The minor in linguistics requires at least 15 credits of linguistic courses. They may be drawn from any part of the linguistics curriculum.

Graduate

Graduate Minor in Linguistics

Completion Requirements for the Graduate Minor in Linguistics

A graduate minor field in linguistics is available to graduate students. It is comprised of 12 hours, two courses of which are required and two are to be selected from a list of upper level linguistics classes:

Required:

LINGST 7630	Phonology	3
LINGST 7640	Syntax	3

Sample list from which two additional courses will be selected (appropriate substitutes may be accepted at the discretion of the chair): 6-7

LINGST 7420	Historical Linguistics
LINGST 7415	Language and Discourse
LINGST 7600	Structure of American English
LINGST 7610	History of the English Language
LINGST 7620	Regional and Social Dialects of American English
LINGST 7400	Language and Culture
LINGST 7870	Field Methods in Linguistics

Total Credits 12-13

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Department Level Requirements (p. 212)
- BA in Mathematics (p. 212)
- BS in Mathematics (p. 213)
 - with emphasis in Actuarial Science and Mathematical Finance (p. 213)
- Minor in Mathematics (p. 214)

The Department of Mathematics offers a major with either a Bachelor of Arts or a Bachelor of Science degree. Within the BS degree, an emphasis in Actuarial Science and Financial Mathematics is available. Both the BA and BS degrees will prepare a student for a graduate program in Mathematics.

Preparation for Graduate Study in Mathematics

Students satisfying the requirements for either the BA or the "traditional" BS will have the basic preparation for a graduate program in Mathematics. A student considering graduate work, however, should take additional coursework. Because of this, a BS degree would be considered preferable. Those students in the Actuarial Science area considering graduate work should take MATH 4720 as part of their program. Those students getting a dual degree in Mathematics and Mathematics Education considering graduate work in mathematics

should choose to take both MATH 4700 and MATH 4720 as part of their program.

Courses recommended for students planning to pursue graduate studies in pure mathematics: MATH 4400, MATH 4500, MATH 4900, MATH 4920, and MATH 4940.

Courses recommended for students planning to pursue graduate studies in applied mathematics: MATH 4300, MATH 4310, MATH 4315, MATH 4320, MATH 4500, MATH 4540, MATH 4940.

Departmental Honors

Eligibility

To become a candidate for the BA or BS degree with a major in Mathematics with departmental honors, a student must have a cumulative grade point average that meets the Honors College standards. At present, students with a GPA of 3.30 or higher are automatically eligible to enter the departmental honors programs.

Requirements

To graduate with departmental honors in mathematics, a student must satisfy the regular BA or BS degree requirements and must have a GPA of 3.5 or higher in all Mathematics Department courses. In addition, the student must have at least 26 credits in mathematics courses numbered 4000 or above. Furthermore, the student must complete one of the two options listed below.

Option 1: Honors Thesis

The student must write an honors thesis in conjunction with a mentorship or in conjunction with MATH 4996. This option requires that the student enroll in MATH 4996.

Option 2:

The student's program of study must include MATH 4700, MATH 4900, MATH 4720 and MATH 4920.

- MS in Applied Mathematics (p. 215)
- MST in Mathematics (p. 217)
- PhD in Mathematics (p. 218)

About Mathematics

The Graduate Program in Mathematics is large enough to encompass research and courses in many areas, yet small enough to remain responsive to the needs of individual students. There are approximately 80 graduate students, 40 professors, and 15 postdoctoral and visiting researchers. The active areas of research include: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general

relativity, mathematical physics, number theory, probabilistic analysis and topology.

The Mathematical Sciences Building houses a library with more than 34,000 volumes and 430 journal titles. MU students have access to an extensive array of computing resources.

Admission Notice

Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Financial Aid from the Program

All domestic applications for admission are automatically considered for financial support, in most cases by Teaching Assistantships. Virtually all current students are supported financially. Scholarships, assistantships, fellowships and other sources of aid are available.

The Department Research Fellowship, the Blumenthal Scholarship and the McFarlan Fellowship are administered by the department, while the Huggins Scholarship, Gregory Fellowship and Ridgel Fellowship are administered by the university.

International applications with TOEFL of 85 or higher (or equivalent) will also be automatically considered for departmental financial support.

Undergraduate

Department Level Requirements-Mathematics

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLISH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

Core Math Requirements for all Math degrees (24 credits)

MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 3000	Introduction to Advanced Mathematics	3
MATH 4100	Differential Equations	3
MATH 4140	Matrix Theory	3
INFOTC 1040	Introduction to Problem Solving and Programming	3
Total Credits		25

BA in Mathematics

Major Program Requirements

All MU General Education (p. 18) and Arts and Science Breadth and Depth requirements (for the BA) must be satisfied, in addition to the Department Level Requirements (p. 212). The foreign language

requirement must be satisfied either by taking a foreign language for 4 years in high school or by completing a language sequence at MU.

Additional requirements for the BA degree

- MATH 4700 Advanced Calculus of One Real Variable I
- MATH 4720 Introduction to Abstract Algebra I
- Four approved 4000 level Math electives

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
MATH 1500	5 MATH 1700	5

BS in Mathematics

Major Program Requirements

The Mathematics Department offers a "Standard" BS, a BS with emphasis in Actuarial Science and Mathematical Finance, and a Dual Degree in Mathematics and Mathematics Education. In each case all MU General Education (p. 18) and Arts and Science Breadth and Depth requirements (for the BS) must be satisfied, in addition to the Department Level Requirements (p. 212). Note that the courses accepted for the science requirement by the Mathematics department are more restrictive than the Arts and Science requirement.

All BS degrees require completion of the Foreign Language requirement by one of: four years of a language in high school, completion of a foreign language sequence at MU, or a Foreign Language Alternative (12 credits at the 2000 level or above in an area, or related areas, approved by the Director of Undergraduate Studies).

Additional requirements for the BS degree

- MATH 4700
- MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 13 or more credits from the two groups below. Both groups must be represented.

Group I:

PHYSICS 2750	University Physics I	5
PHYSICS 2760	University Physics II	
CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
BIO_SC 1500	Introduction to Biological Systems with Laboratory	5

Group II: Any 4000 level courses in Statistics or Computer Science.

Additional requirements for the BS Degree (Dual degree for Math and Math Ed majors)

- One of: MATH 4300, MATH 4500, or MATH 4700
- One of MATH 4510 or MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

Additional requirements for the BS degree (Double major in Math and Economics)

- MATH 4700
- One of MATH 4310, MATH 4720, or MATH 4900
- Four approved 4000 level Math electives
- Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

Sample Semester Plan for BS in Math

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

BS in Mathematics with Emphasis in Actuarial Science and Mathematical Finance

Major Program Requirements

Students must complete the MU general education (p. 18) requirements and the Department Level Requirements (p. 212) in addition to the degree requirements listed below.

This emphasis area will serve those who want to pursue a career in the financial and insurance industries. It will also help BS students to prepare for their first actuarial exams. Those students considering further graduate work in Mathematics should also take

MATH 4700	Advanced Calculus of One Real Variable I	3
MATH 4355	Introduction to Financial Derivatives and Options	3
MATH 4370	Actuarial Modeling I	3

MATH 4371	Actuarial Modeling II	3
MATH 4315/STAT 4710	Introduction to Mathematical Statistics	3
MATH 4320/STAT 4750	Introduction to Probability Theory	3
MATH 4520/STAT 4760	Statistical Inference I	3
Additional course requirements:		
STAT 4870	Time Series Analysis	3
STAT 4510	Applied Statistical Models I	3
ECONOM 1014	Principles of Microeconomics	3
ECONOM 1015	Principles of Macroeconomics	3
Science requirement: 5 or more credits from Group I courses (see above)		
The following courses are recommended in order to satisfy VEE requirements:		
FINANC 3000	Corporate Finance	3
FINANC 4020	Investments	3
MATH 4590	Mathematics of Financial Derivatives	3
		10
Total Credits		52

Minor in Mathematics

To minor in mathematics, a student must satisfactorily complete the following requirements.

- The equivalents of MATH 1500, MATH 1700 and MATH 2300
- 9 additional credits in approved math courses (students not taking MATH 2320 or MATH 3000, must take all 9 credits at the 4000 level; students taking MATH 2320 or MATH 3000, need an additional 6 credits at the 4000 level)
- All courses completed with grades in C range or higher
- At least 9 credits used to satisfy the minor requirements taken in residence (College of Arts and Science requirement)

Graduate

MA in Mathematics

Admission Contact Information

Dan Edidin, director of graduate studies

202 Mathematical Sciences Building

Columbia, MO 65211

email: muasmathdgs@missouri.edu

Admission Criteria

Notes: Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor's degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Important Notes: International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An ibtTOEFL Speaking subscore of 22 or higher is preferred.

- Minimum total academic IELTS score is 5.5

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- Personal Statement

- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

Note: The application is submitted through the Graduate School's ApplyYourself system. This includes the online credit card payment \$55.00 US for U.S. Citizens and Permanent Residents, \$75.00 US for Non-Resident International applicants.

Completing the ApplyYourself Application:

This section consists of four subsections.

- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the **Mathematics Master of Arts (MA)**
 - Admissions Category: Graduate Degree Sought at MU: Master's
 - Graduate Program to which you are seeking admissions: Mathematics Master of Arts (MA)
- Educational History: Complete all information as requested.
- Test Information:
 - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
 - MU's Institutional Code for the GRE is: 6875.
 - MU's Institutional Code for the TOEFL is: 6875.

Supplemental Information:

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master's. MU PhD students can later add a Master's degree to their program of study without requiring departmental approval. MU Master's students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your resume or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation- official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

International Applicants Only

- Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School's policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-8488

MA Degree Completion Requirements

The degree requirements include the satisfactory completion of 30 hours of approved course work, of which at least 18 hours must be at the 8000 level. MATH 8250, MATH 8420, MATH 8425, and MATH 8410 are required, as is either MATH 8190 or MATH 8090. Students are expected to make up any required deficiencies in their undergraduate training in advanced calculus and abstract algebra. Students may list no more than two of the courses MATH 7110, MATH 7700, MATH 7900, MATH 7140, MATH 7720 and MATH 7920 on their graduate program. Furthermore, neither MATH 7100 nor MATH 7510 may be listed. The successful completion of a Master's Project (MATH 8190) or Master's Thesis (MATH 8090) must be certified by a Master's Committee consisting of three members of the Mathematics regular faculty.

You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

MS Degree Completion Requirements

Designed to give students training in those areas of mathematics used frequently in applications. A candidate must satisfactorily complete 30 hours of approved course work, at least 15 hours of which must be in 8000-level courses. MATH 8420, MATH 8445, MATH 8425 and MATH 8440 are required, as is either MATH 8190 or MATH 8090. At least three hours of the 30 hours must be taken outside the department. Additional requirements (some of which may be satisfied by work done as an undergraduate) include the completion of one year of advanced calculus and at least one approved course in each of the areas of linear algebra, numerical analysis and mathematical statistics or probability. Students may list no more than two of the courses MATH 7110, MATH 7700, MATH 7900, MATH 7140, MATH 7720 and MATH 7920 on their graduate program. Furthermore, neither MATH 7100 nor MATH 7510 may be listed. The successful completion of a Master's Project (MATH 8190) or Master's Thesis (MATH 8090) must be certified

by a Master's Committee consisting of three members of the Mathematics regular faculty.

International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor's degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Important Notes: International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An ibtTOEFL Speaking subscore of 22 or higher is preferred.

- Minimum total academic IELTS score is 5.5

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- Personal Statement
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)
- Note: The application is submitted through the Graduate School's ApplyYourself system. This includes the online credit card payment \$55.00 US for U.S. Citizens and Permanent Residents, \$75.00 US for Non-Resident International applicants.

Completing the ApplyYourself Application:

The application consists of four subsections.

- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the Mathematics Master of Science for Teachers (MST)
- Admissions Category: Graduate Degree Sought at MU: Master's

- Graduate Program to which you are seeking admissions: Mathematics Master of Science for Teachers (MST)
- Educational History: Complete all information as requested.
- Test Information:
 - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
 - MU's Institutional Code for the GRE is: 6875.
 - MU's Institutional Code for the TOEFL is: 6875.

Supplemental Information:

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master's. MU PhD students can later add a Master's degree to their program of study without requiring departmental approval. MU Master's students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation- official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

MST Degree Completion Requirements

This degree is designed primarily for those who want to teach mathematics at the secondary school level. A candidate for the degree must have a valid teaching certificate before entering the program and must satisfactorily complete 30 hours of approved course work. MATH 8190 or MATH 8090 is required. At least 15 hours must be in 8000-level courses, of which at least 9 hours must be courses from the Mathematics Department. At least two courses are required in the fields of algebra, analysis and geometry/topology. The successful completion of a Master's Project (MATH 8190) or Master's Thesis (MATH 8090) must be certified by a Master's Committee consisting of three members of the Mathematics regular faculty.

Note: The MU College of Education at the University of Missouri is a separate academic unit offering graduate degrees in Mathematics

Education, with an emphasis on learning, teaching, and curriculum development.

- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

International Applicants Only

- Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School's policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-8488

PhD Degree Completion Requirements

This is a professional research degree designed to prepare students for various advanced professional careers, including college teaching and research. Before formally becoming a candidate, a student must have training equivalent to that required for a master's degree. Specifically, the student must demonstrate expertise (as determined by the department) in one of the following sequences of 8000 level classes, MATH 8250, MATH 8420, MATH 8425, MATH 8410 or MATH 8420, MATH 8445, MATH 8425, MATH 8440. In addition students must pass a qualifying examination shortly after beginning work at MU. The candidate must further complete a course of study approved by the doctoral program committee and pass a comprehensive examination. The active areas of research interest of the current members of the staff are: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

Note: Effective at the start of Winter Semester 2007, there is NO foreign language proficiency requirement for the Mathematics PhD. However, a student's Doctoral Committee still retains the discretion to impose a foreign language proficiency requirement.

Music

Robert Shay, Director

The School of Music is a department in the College of Arts and Sciences that offers instruction to those who want professional training in music as well as those who wish to pursue music as a vocation. Applied music instruction in piano, voice, string, woodwind, brass and percussion instruments is offered for beginning and advanced students. Elementary and advanced courses are given in music theory and composition. The appreciation, literature and history of music are covered by survey and specialized courses. The school has been an accredited member of the National Association of Schools of Music since 1933.

The School of Music also offers opportunities for all students of the university to participate in various performing groups. Regular programs are presented on campus and throughout the state by groups such as The University Philharmonic Orchestra, University Wind Ensemble, Marching Mizzou, Symphonic Band, University Band, Jazz Ensembles, Choral Union, University Singers, Chamber Singers, Concert Chorale, Hitt Street Harmony, Women's Choir, Opera Workshop and many vocal, string, percussion and wind chamber ensembles. Membership in these groups is open to interested students by audition, except University Choral Union and University Band, which do not require an audition.

The department offers BA, BM, MA and MM degrees majors in Music. BSEd, MA, MEd, EdSP and PhD degrees with majors in Music Education are offered through the Department of Learning, Teaching and Curriculum. A minor in Music and a minor and certificate in Jazz Studies are also available.

Faculty

Professor M. Budds*, P. Crabb*, W. T. McKenney*, L. Perna*, M. Platt*, R. Shay*, W. Sims*, M. Spence*, E. Szekely*, J. Wenger*

Associate Professor I. Akhmadullin*, E. Dolbashian*, D. Dolezal*, S. Freund*, J. Gaines*, P. Garritson*, A. Harrell*, A. Manzo*, N. Minturn*, P. Miyamoto*, T. O'Neal*, L. Saguiguit*, D. Willett*

Associate Teaching Professor C. Seitz*

Assistant Professor M. Gibson*, T. Howe*, S. Jensen*, J. Mabary*, M. Major*, P. Savvidou*, S. Shonekan*, B. Silvey*, A. White*

Assistant Teaching Professor J. Kuuskoski*, W. Lackey*, F. Lyon*, B. Snow*

Visiting Assistant Professor A. K. Dade*, R. Pellegrin*, E. Roberts

Adjunct Instructor T. Andes, A. Beeson, N. Bolshakova, K. Gianino, K. Hennessy, S. Hennessy, A. Glise*, E. Manzo, H. Patterson, S. Ryan, P. Seitz*, S. Stubbs, B. Tate, M. McCrory, H. Patterson

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Music (p. 221)
- BM in Music (p. 221)

- with emphasis in Composition (p. 222)
- with emphasis in Music History (p. 223)
- with emphasis in Music Theory (p. 224)
- with emphasis in Performance (p. 225)

- Minor in Music (p. 228)

Departmental Honors

Departmental Honors for the School of Music are designed to reward truly superlative achievement by an undergraduate music student, focusing on the student's area of performance, theory and composition, or history and literature. A minimum GPA of 3.3 at the onset of the senior year is required, not including grades for large ensembles. The student must initiate the process by submitting a formal application to the Director of the School of Music at the beginning of the semester prior to the semester of graduation, and must receive approval from his or her area coordinator and faculty advisor. Further information and an application form may be obtained by contacting the Director of Undergraduate Studies in Music.

 - with emphasis in Composition (p. 231)
 - with emphasis in Conducting (p. 231)
 - with emphasis in Jazz Performance (p. 231)
 - with emphasis in Music Theory (p. 232)
 - with emphasis in Performance (p. 232)
 - with emphasis in Piano Pedagogy (p. 232)

About the School of Music

Founded in 1907, the School of Music is one of the larger academic units in the College of Arts and Science. Comprised of 38 full-time faculty members and approximately 300 music majors, it is small enough to permit close, personal interaction between students and faculty, but large enough to provide many wonderful opportunities for talented students to excel. Our primary mission is to prepare students to become professional musicians and music educators. The School of Music is widely known for its scholarship in the field, and it is an important cultural resource for the profession, the campus community, and the people of Missouri.

Performance

At MU a student of music has the opportunity to hear many concerts or to participate in a variety of performing organizations. Many recitals are given by students, faculty and visiting artists. Among the student ensembles that give several concerts during the year are the University Philharmonic, University Wind Ensemble and other concert bands, jazz ensembles, University Singers and other choral ensembles, Show-Me Opera, and chamber music groups. Faculty ensembles that present

recitals regularly include the Esterhazy String Quartet, the Missouri Woodwind Quintet and the MU Faculty Brass Quintet.

Resources and Facilities

The music section of the Fine Arts Building contains a recital hall, classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses.

Additional Degree Options

Graduate Certificate in Jazz Studies (p. 303)

Music Education Degrees

These are degrees offered by the Department of Learning, Teaching, and Curriculum in the College of Education (p. 376) in conjunction with the School of Music. These degrees include

- Master of Arts (MA)
- Master of Education (M Ed)
- Educational Specialist (EdSp)
- Doctor of Philosophy (PhD) (focus on music education)

Undergraduate

BA in Music

Major Program Requirements

Students who elect to earn a Bachelor of Arts with a major in Music will complete a general, liberal arts degree with a strong music emphasis. Students must also complete all degree, college and university graduation requirements, including Arts & Science Foundation Requirements.

Courses completed in the D range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music.

Major Core Requirements

MUS_THRY 1230	Aural Training and Sight Singing I	2
MUS_THRY 1231	Aural Training and Sight Singing II	2
MUS_THRY 2230	Aural Training and Sight Singing III	2
MUS_THRY 2231	Aural Training and Sight Singing IV	2
MUS_THRY 1220	Syntax, Structure and Style of Music I	2
MUS_THRY 1221	Syntax, Structure and Style of Music II	2
MUS_THRY 2220	Syntax, Structure and Style of Music III	2
MUS_THRY 2221	Syntax, Structure and Style of Music IV	2

BM in Music

Major Program Requirements

The Bachelor of Music (BM) is a professional degree that offers the maximum concentration in music. The student may focus on instrumental, keyboard or vocal performance; music theory; composition; or music history by choosing an emphasis area. In addition, students must complete degree, college and university requirements, including Arts & Science Foundation Requirements.

Foreign Language Requirement:

- Woodwind or Percussion Performance: 12-13 hours of any foreign language
- Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
- Music History: 10 hours of German + 5-6 hours of second language, approved by adviser (15-16 total)
- String Performance: 12-13 hours of French, Italian, German or Spanish
- Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level (for performance tracks) or 3455-level (for all other tracks). Degree recitals must be approved two weeks in advance by a faculty hearing committee.

Courses completed in the “D” range may not fulfill music course requirements without the approval of the adviser and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music at MU.

Note: Performance tracks’ requirements include changes in effect for students entering Fall 2012 and later. Students who entered before Fall 2012 should consult an older undergraduate catalog.

Requirements for ALL emphasis areas and tracks

MUS_THRY 1210	Introduction to Computer Technology and Music	2
MUS_THRY 1220	Syntax, Structure and Style of Music I	2
MUS_THRY 1221	Syntax, Structure and Style of Music II	2

Minor in Music

Students who have chosen a major in another field but who wish to continue their musical growth may wish to pursue a music minor. Approval for declaration of the Minor in Music must be received from the Associate Director in Music. A minimum of 18 credits is required, including least 6 at the 2000-level or higher:

Music Theory

MUS_THRY 1220	Syntax, Structure and Style of Music I	2
MUS_THRY 1221	Syntax, Structure and Style of Music II	2

Music History

MUS_H_LI 1322	Introduction to Music in the United States	2
MUS_H_LI 2307	History of Western Music I	2
MUS_H_LI 2308	History of Western Music II	2

Ensembles/Applied Music

Any combination of MUSIC 1841, 1842, 2445	4
---	---

Additional Credits in either Theory, History, or Performance 4

Total Credits 18

Graduate

MA in Music

About the MA

The MA in Music History provides opportunities for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas. This liberal graduate education is designed to prepare a student to pursue a career in college teaching, especially as preparation for doctoral studies in music history or musicology.

Prerequisites

Completion of a bachelor's degree in music (or demonstrated equivalent), with a **GPA of 3.0 in the last 60 credit-hours**, is required. Additional prerequisites listed below. In the event that a candidate does not meet the required prerequisites, appropriate additional course(s) will be added as requirements to the degree program.

- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (Music 2307, 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

Priority Application Deadline

All graduate applicants are expected to submit required application materials (for both the School of Music and the Graduate School) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

Application Process

1. Apply online via the Graduate School's ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) system.
2. Complete the following directly with the School of Music (<https://app.getaccepted.com/missouri>):
 - a. Register for an interview during a Graduate Audition/Interview day.
 - b. Submit samples of written scholarly work.
 - c. Submit your unofficial transcript.
 - d. Submit an essay explaining professional goals.
 - e. Request three references to submit letters of recommendation.

Note: The School of Music does **not** require GRE scores.

International Student Information

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Note: No TOEFL subscores below 50 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:

Item	Score
OVERALL	6.5

Note: No IELTS subscores below 5

FOOTNOTE: If you have a TOEFL score between 500 and 550 (paper) or between 61 and 79 (internet), or an IELTS score between 5.5 and 6.5, you may still be admitted to the School of Music but may be required to take courses from the English Language Support Program at the University of Missouri. These courses will increase the length of your program by one or two semesters, assuming you make good progress in English and eventually achieve the School of Music's required TOEFL or IELTS scores. Note: the University of Missouri's institutional code for the TOEFL is 6875.

Course of Study

MUS_H_LI 8313	Introduction to Graduate Study	2
MUS_H_LI 8314	Introduction to Graduate Studies in Music II	1
7xxx-8xxx	Music History courses	8-10
MUS_GENL 8090	Research in Music	4-8
7xxx-8xxx	Advanced Theory courses	4-8
MUS_APMS 7455	Studio Instruction	2-8
7xxx Non-music electives		2-4
MUS_ENS 8841 or MUS_ENS 8842	Instrumental Ensemble Choral Ensemble	1
At least 15 credits must be at 8000 level		
Total credits:		33

Additional Requirements:

- Proficiency Exams (<http://music.missouri.edu/graduate/requiredexams.html>) in music theory and music history are administered during new student orientation and two other times each

year. All sections must be passed before the Comprehensive Exam can be taken.

- Comprehensive Exam. (<http://music.missouri.edu/graduate/requiredexams.html>)
- MA degree candidates must satisfactorily complete a Thesis on an approved topic and must pass a final oral examination, administered by a faculty committee, about their projects.

MA in Music with emphasis in Musicology

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the degree program (<http://gradschool.missouri.edu/academics/programs>) and the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MM in Music

About the MM

The principal function of the MM program is to provide students with opportunities for continued development of their musical talents--in a specific area--and overall musicianship. This degree is designed to prepare the graduate for a career in performance or composition, teaching, or continued graduate studies toward a doctoral degree.

Prerequisites

Completion of a Bachelor of Music degree (or demonstrated equivalent) is required, normally with the same major as that to be pursued at the graduate level, **and a GPA of 3.0 in the last 60 credit-hours**. In the event that a candidate does not meet the required prerequisites for a specific curriculum (listed below), then appropriate course(s) may be added to the degree program as additional requirements.

WOODWIND, BRASS, PERCUSSION, OR STRING PERFORMANCE

- Senior recital

VOCAL PERFORMANCE

- Senior recital
- Proficiency in French, Italian, and German languages and diction.

PIANO PERFORMANCE

- Senior Recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

COLLABORATIVE PIANO

- Senior Recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
- 3 credits in 18th-century counterpoint

PIANO PEDAGOGY

- 1 upper-level music history course
- 3 credits in 18th-century counterpoint
- A senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

JAZZ PERFORMANCE AND PEDAGOGY

- Senior Recital

THEORY

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 2 credits of a theory elective
- 4 credits of music history (equivalent study to Music 2307-2308)
- 16 credits of applied instruction (or equivalent)

COMPOSITION

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 8 credits of composition
- 4 credits of music history (equivalent study to Music 2307-2308)
- 16 credits of applied instruction (or equivalent)

CONDUCTING (Choral, Orchestral, or Wind Ensemble)

- 2 undergraduate conducting courses
- Previous conducting experience
- Proficiency in French, Italian, and German diction (Choral Conducting only)
- Proficiency in vocal pedagogy (Choral Conducting only)

Priority Application Deadline

All graduate applicants are expected to submit required application materials (for both the School of Music and the Graduate School) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

Application Process

1. Apply online directly to the Graduate School through ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad).
2. Complete the following directly with the School of Music at <https://app.getacceptd.com/missouri>
 - a. Register for an audition or interview (see further information below).

- b. Submit an essay explaining professional goals.
- c. Submit an unofficial transcript.
- d. Request three references to submit letters of recommendation.
- e. For some performance areas, a recording will be required once you are logged into the system.

Notes: The School of Music does **not** require GRE scores.

International Student Information

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Note: No TOEFL subscores below 50 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:

Item	Score
OVERALL	6.5

Note: No IELTS subscores below 5

FOOTNOTE: If you have a TOEFL score between 500 and 550 (paper) or between 61 and 79 (internet), or an IELTS score between 5.5 and 6.5, you may still be admitted to the School of Music but may be required to take courses from the English Language Support Program at the University of Missouri. These courses will increase the length of your program by one or two semesters, assuming you make good progress in English and eventually achieve the School of Music's required TOEFL or IELTS scores. Note: the University of Missouri's institutional code for the TOEFL is 6875.

Audition Information

A visit to the School of Music and in-person audition are strongly encouraged for applicants planning to major in an applied area (brass, classical guitar, jazz, percussion, piano, strings, voice, woodwinds), either on one of the graduation audition days (see above) or at another arranged time. In-person auditions are required for all conducting applicants. MM jazz performance and pedagogy applicants should contact the Director of Jazz Studies to confirm the audition repertoire for video submissions. Applicants who audition initially by recording may be required to participate in a videoconference interview (Skype, iChat, etc.) or to audition on campus at a later time. Please visit the School of Music website, music.missouri.edu, for more information regarding graduate audition days.

CONTACT INFORMATION:

Audition/Interview Information by Area

Piano: click here for detailed audition requirements for all MM piano programs (collaborative, pedagogy, and performance).

Voice: eight selections required, including at least one operatic aria and selections in French, Italian, German, and English.

Jazz Performance and Pedagogy: Please see the audition requirements for the Graduate Certificate in Jazz Studies and contact the Director of Jazz Studies for more information.

Other Applied Areas: contact the appropriate applied faculty member for information about audition repertoire and procedures.

Composition: submit representative original compositions and register for an interview. Portfolio materials are due by the Priority Application Deadline.

Theory: submit examples of written scholarly work and register for an interview. Portfolio materials are due by the Priority Application Deadline.

Conducting applicants should arrange an audition and interview with the appropriate faculty member:

- Dr. R. Paul Crabb, Choral Conducting
- Professor Edward Dolbashian, Orchestral Conducting
- Dr. D. Bradley Snow, Wind Ensemble Conducting

Additional information for Choral Conducting applicants: Students applying for MM in Choral Conducting or PhD in Music Education with choral emphasis will rehearse one MU choir for 15-20 minutes (music will be assigned and sent to you before the audition); take a short conducting lesson on the same music; sing a prepared aria or art song; demonstrate proficiency in sight-reading and ear-training; demonstrate basic piano proficiency.

Degree Completion Requirements

See Courses of Study (<http://music.missouri.edu/pdfs-docs/MM%20degrees2013REV.pdf>). In addition, students must complete the following:

- Proficiency Exams (<http://music.missouri.edu/graduate/requiredexams.html>) in music theory and music history are administered during new student orientation and two other times each year. All sections must be passed before taking the Comprehensive Exam.
- Comprehensive Exam (<http://music.missouri.edu/graduate/requiredexams.html>).
- Music Theory majors must satisfactorily complete a Thesis on an approved topic, and Composition majors must complete a substantial compositional project. Both Music Theory and Composition majors must pass a final oral examination, administered by a faculty committee, about their projects.

Philosophy

R. N. Johnson, Chair
College of Arts and Science
438 Strickland Hall
(573) 882-2871
Fax: (573) 884-8949
philosophy@missouri.edu
<http://philosophy.missouri.edu/>

The Department of Philosophy offers a wide variety of undergraduate and graduate courses, including courses on applied ethics, ethical theory, epistemology, logic, metaphysics, philosophy of mind, philosophy of language, philosophy of religion, philosophy of science, philosophy of biology, decision theory, political philosophy, non-Western philosophy, and the history of philosophy. The study of philosophy is not only fascinating in its own right but practical too, since it encourages the development of marketable intellectual abilities. These include the abilities to read, think, and write about conceptually complex and abstract material, and to construct and analyze elaborate chains of reasoning. Philosophy majors go on to pursue careers in such fields as law, medicine, business, the non-profit sector, the church, and academia.

The department offers BA, MA, and PhD degrees in philosophy, as well as an undergraduate minor.

Faculty

Professor J. J. Bien**, B. Gupta**, R. N. Johnson**, P. J. Markie**, M. S. McGrath**, A. Melnyk*, D. E. Sievert*, P. L. Vallentyne**, P. Weirich**
Associate Professor A. Ariew**, S. Chant*, Z. Ernst*, C. S. Horisk**, P. Robbins**

Assistant Professor K. Boyce, M. Folescu, A. Radulescu

Professor Emeritus W. B. Bondeson*, J. H. Kultgen*

Associate Professor Emeritus A. von Schönborn*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Philosophy (p. 234)
- BS in Philosophy (p. 234)
- Minor in Philosophy (p. 235)

Double and Dual Majors

A philosophy major can be paired with a major in another department. Students must meet the requirements of both departments. The program for each department must be approved by the advisor for that department.

Departmental Honors

To earn a BA with honors in philosophy, a student must earn a 3.3 GPA in all courses, and a 3.7 GPA in all philosophy courses; meet all the standard requirements for the regular philosophy major; in addition take PHIL 4998 Honors I in Philosophy, and PHIL 4999 Honors II in Philosophy, writing a satisfactory senior thesis normally of 8,000

to 10,000 words under the guidance of a faculty member who has consented to work with the student; and pass an oral examination on the thesis before a committee of three members of the philosophy faculty.

Graduate

College of Arts and Science
438 Strickland Hall
573-882-2871
<http://philosophy.missouri.edu/>

Director of Graduate Studies: Phillip Robbins

- MA in Philosophy (p. 235)
- PhD in Philosophy (p. 236)

About the Program

The philosophy department provides excellent training in both research and teaching. The nationally and internationally renowned faculty have expertise in the core areas of philosophy, with particular strength in epistemology, ethics, philosophy of mind and political philosophy, and also in various specialties; these include philosophy of biology, Asian philosophy, experimental philosophy, and the foundations of decision and game theory. With 15 full time faculty and around 25 graduate students, we offer a supportive community for pursuit of the MA and the PhD, with a broad range of courses, rigorous training, attentive, high-quality advising, the opportunity to develop a professional network through our series of colloquia and conferences, and help in every aspect of job seeking. We give students the advice and support they need to present their work at regional and national conferences, and to publish in professional journals, before they begin to look for jobs. We also give our students extensive training and experience in teaching, including assistantships with award-winning teachers.

Although we award an MA degree, we **only admit students to our PhD program** (with the MA obtained in the process).

We receive about 50 applications per year and offer funding to about 10-15% of these. The average scores for students we admit are: GRE Verbal 650, GRE Quantitative 700, and GPA in the major (normally philosophy) 3.9. Of course, our decisions are also based on the writing sample, letters of reference, and other factors, such as degree of fit with the department.

Professional Development

Presentation of research at professional meetings and publication by graduate students is encouraged. Prominent off-campus philosophers visit the department yearly for talks and symposia. Twice yearly, the Florence G. Kline endowment sponsors an intensive workshop at which papers on a special topic are presented by several leading figures in philosophy.

Financial Aid from the Program

Fellowships and teaching assistantships are available to qualified students. Applications for fellowships must meet Graduate School deadlines, usually in January. Applications for teaching assistantships must meet the department deadline of January 15.

Undergraduate

BA in Philosophy

Major Program Requirements

Undergraduates pursuing a major in philosophy must meet all the non-philosophy requirements for a BA degree in the College of Arts and Science, including university general education (p. 18) requirements. In addition, however, they must complete a non-philosophical minor that consists of at least 15 credits in a single department, including at least 6 credits at the 2000 level or above. Finally, they must earn 30 credits in philosophy, with a grade of "C-" or above in every course, in accordance with the following rules:

Major core requirements

History of Philosophy: two courses required

PHIL 3000	Ancient Western Philosophy	3
PHIL 3200	Modern Philosophy	3

Logic: one course required

PHIL 2700	Elementary Logic	3
-----------	------------------	---

Focus Area

Three courses must be selected from one of the following focus areas:

A. Core Philosophy

PHIL 4100	Philosophy of Language	
PHIL 4200	Metaphysics	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	
PHIL 4400	Philosophy of Science	
PHIL 4500	Theories of Ethics	
PHIL 4600	Political and Social Philosophy	

B. Knowledge, Language, and Reality:

PHIL 4100	Philosophy of Language	
PHIL 4200	Metaphysics	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	

C. Mind, Brain, and Language

PHIL 4100	Philosophy of Language	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	
PHIL 4420	Philosophy of Biology	

D. Ethics, Law Public Policy

PHIL 4500	Theories of Ethics	
PHIL 4600	Political and Social Philosophy	
PHIL 4610	Philosophy of Law	

E. Logic and Decision

PHIL 4110	Advanced Logic	
PHIL 4120	Selected Topics in Logic	
PHIL 4130	Probability and Induction	

F. Philosophy of Science

PHIL 4130	Probability and Induction	
PHIL 4420	Philosophy of Biology	
PHIL 4400	Philosophy of Science	

Capstone experience 3

PHIL 4950	Senior Seminar in Philosophy	
-----------	------------------------------	--

Philosophy electives 9

Total Credits 30

1. No course can be used to fulfill more than one of the above requirements, AND
2. No more than two philosophy courses below the 2000-level can count toward the major.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
Introductory Philosophy course (e.g., 1000, 1100, or 1200)	3 Philosophy major course	3
ENGLISH 1000	3 Foreign Language	5
Social Science	3 MATH 1100	3
Foreign Language	5 General elective	3
	14	14

Second Year		
Fall	CR Spring	CR
PHIL 2700	3 Course in minor	3
Foreign Language	3 Humanities/Fine Arts (Writing Intensive)	3
Behavioral Science	3 Behavioral Science	3
Social Science	3 Social Science	3
Natural Science	3 Natural Science	3
	15	15

Third Year		
Fall	CR Spring	CR
PHIL 3000	3 PHIL 3200	3
Philosophy major course	3 Philosophy major course	3
Course in the minor	3 Course in the minor	3
Natural Science course with lab	3 Humanities/Fine Arts course	3
General elective	3 General elective	4
	15	16

Fourth Year		
Fall	CR Spring	CR
Philosophy major course	3 PHIL 4950	3
Philosophy major course	3 Course in minor	3
Course in minor	3 Humanities/Fine Arts	3
Humanities/Fine Arts course	3 General elective	3
General Elective	4 General elective	3
	16	15

Total Credits: 120

BS in Philosophy

Major Program Requirements

Core courses:

PHIL 2700	Elementary Logic	3
PHIL 3000	Ancient Western Philosophy	3
PHIL 3200	Modern Philosophy	3
PHIL 4950	Senior Seminar in Philosophy	3

Select four of the following: 12

PHIL 2600	Rational Decisions	
PHIL 2820	Introduction to Cognitive Science	

PHIL 4110	Advanced Logic	
PHIL 4120	Selected Topics in Logic	
PHIL 4130	Probability and Induction	
PHIL 4400	Philosophy of Science	
PHIL 4420	Philosophy of Biology	
Focus Areas - three courses must be completed within one of the following focus areas:		9
1. Core Philosophy Focus Area		
PHIL 4100	Philosophy of Language	
PHIL 4200	Metaphysics	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	
PHIL 4400	Philosophy of Science	
PHIL 4500	Theories of Ethics	
PHIL 4600	Political and Social Philosophy	
2. Knowledge, Language and Reality Focus Area		
PHIL 4100	Philosophy of Language	
PHIL 4200	Metaphysics	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	
3. Mind, Brain and Language Focus Area		
PHIL 4100	Philosophy of Language	
PHIL 4210	Philosophy of Mind	
PHIL 4300	Epistemology	
PHIL 4420	Philosophy of Biology	
4. Ethics, Law and Public Policy Focus Area		
PHIL 4500	Theories of Ethics	
PHIL 4600	Political and Social Philosophy	
PHIL 4610	Philosophy of Law	
5. Logic and Decision Focus Area		
PHIL 4110	Advanced Logic	
PHIL 4120	Selected Topics in Logic	
PHIL 4130	Probability and Induction	
6. Philosophy of Science Focus Area		
PHIL 4130	Probability and Induction	
PHIL 4420	Philosophy of Biology	
PHIL 4400	Philosophy of Science	
Philosophy Electives		9
Total Credits		42

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
Introductory Philosophy course (e.g., 1000, 1100, or 1200)	3 Philosophy major course	3
ENGLSH 1000	3 MATH 1100	3
Social Science	3 Foreign Language or general elective	5-6
Foreign Language or general elective	5-6 General elective	3
14-15		14-15

Second Year		
Fall	CR Spring	CR
PHIL 2700	3 Philosophy major course	3
Foreign Language or general elective	3 Humanities/Fine Arts course (writing intensive)	3
Behavioral or Social Science	3 Behavioral or Social Science	3
Natural Science	3 Natural Science	3
General elective	3 General elective	3
15		15

Third Year		
Fall	CR Spring	CR
PHIL 3000	3 PHIL 3200	3
Philosophy major course	3 Philosophy major course	3
Natural Science with lab	3 Philosophy major course	3
General electives	8 Humanities/Fine Arts course	3
	Foreign Language or general elective	3
17		15

Fourth Year		
Fall	CR Spring	CR
Philosophy major course	3 PHIL 4950	3
Philosophy major course	3 Philosophy major course	3
Philosophy major course	3 Humanities/Fine Arts course	3
Foreign Language or general elective	3 Foreign Language or general elective	3
Foreign Language or general elective	3 General elective	3
15		15

Total Credits: 120-122

Minor in Philosophy

To earn a minor in philosophy, students must first gain the permission of their academic unit. Students must earn 15 credit hours in philosophy, including at least one course at the 4000-level and one further course at the 3000 or 4000-level. PHIL 4998 and PHIL 4999 do not contribute to the minor.

Graduate

MA in Philosophy

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking a terminal master's degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 236).

Admission Contact Information

Paul Weirich

College of Arts and Science

Department of Philosophy

415 Strickland Hall

573 882-6760

Master of Arts Degree Completion Requirements

- 30 semester hours of graduate work, 15 of which must be at the 8000 level.
- At least 80 percent of the hours submitted for the master's program must be completed with a grade of A or B.
- A distribution of graduate courses including a proseminar for all first year students, one course in the history of philosophy and one course in either ethics, political philosophy, metaphysics, or epistemology.
- A thesis or two papers of format and topic appropriate for a refereed paper in a major journal, displaying sustained research and philosophical analysis, and an oral defense of the thesis or papers.

PhD in Philosophy

Admission Contact Information

Paul Weirich
 College of Arts and Science
 Department of Philosophy
 415 Strickland Hall
 573 882-6760

Note: Although we award the MA degree, we only admit students to our PhD program (with the MA obtained in the process). Any unusual circumstances regarding failure to meet the minimum requirements should be called to the attention of the director of graduate admissions.

Admission Process

In order to be considered for our graduate program, the following steps need to be completed (including receipt of transcripts and test scores) by January 15th:

1. Arrange for all relevant official transcripts to be sent directly to the Graduate School by your college or university (student copies are not acceptable).
2. Arrange with Educational Testing Services for your GRE scores to be sent directly to the Graduate School (MU's school code is 6875; philosophy's department code is 2801). Only electronic scores are acceptable.
3. International students also should arrange for their TOEFL scores to be sent directly to the Graduate School (MU's school code is 6875; philosophy's department code is 2801). The minimum required scores are 100 (internet) total with a speaking score of at least 23 (internet). (For more information about scores, see Graduate School TOEFL policy.)
4. Complete the basic information in online Graduate School application.
5. Upload a 750-word Statement of Interest to the Supplemental Information section of the on-line Graduation School application form. It should explain why are you are interested in graduate study in philosophy at the University of Missouri. We encourage you to address, if you wish, how you can advance the department's commitment to diversity.
6. Upload a sample of your 15-25 page philosophical writing (e.g., a paper or thesis chapter) to the Supplemental Information section of the on-line Graduation School application form. For the sake of blind evaluation, do not include your name on the sample you upload.

7. In the Recommendation section of the on-line Graduate School application form, enter the information for three letters of recommendation regarding your academic potential. You should first obtain agreement from the professors writing these letters. They will be contacted by e-mail to submit their letters electronically. If a professor is unable to send his/her letters electronically, you should still enter all his/her information in the Recommendation section, but you should write "(off-line)" immediately after her name.
8. A hardcopy of the recommendation should then be sent to the Director of Graduate Studies, Department of Philosophy University of Missouri, Columbia, MO 65211-4160. Because all other materials are electronic, hardcopies often do not receive the same attention. It is thus in your strong interest to have your letters submitted electronically.
9. Complete the Department Philosophy application form (<http://philosophy.missouri.edu/graduate/apply.html>).

Admission Criteria

Fall deadline: January 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
100*	600

- * Speaking score of at least 23

- Average GRE scores:

When did you take the GRE?	Verbal	Quantitative
Prior to August 1, 2011	650	700
On or After August 1, 2011	163	155

- Eligibility for any graduate work in philosophy requires the equivalent of the following six undergraduate courses in philosophy: formal logic, ethics, ancient philosophy, modern philosophy, epistemology, and metaphysics.
- Deficiencies may be made up after the student is enrolled at MU.
- Average GPA in the major: 3.9

Required Application Materials

To the Graduate School

- All required Graduate School documents
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Statement of interest (upload to the online application)
- Writing sample (upload to the online application)
- Departmental application (download this from <http://philosophy.missouri.edu/graduate/apply.html> and then upload to the online application).

To the Philosophy Program

- GRE score report (electronic only)

Qualifying Exam

Qualification for the PhD program is established by a qualifying examination (typically by superior performance on the MA research requirement).

Graduation Requirements for the PhD

- 72 hours of course work in philosophy, with at least 42 hours of regular course work.
- A distribution of graduate courses including an introductory seminar for all first year students, two advanced courses in logic, two courses in the history of philosophy, and one course in each of ethics, epistemology, and metaphysics.
- A written and oral dissertation proposal requirement designed to ensure the student's familiarity with the relevant philosophical literature and ability to analyze philosophical issues. A dissertation and a final oral examination on the dissertation.

Physics

Peter Pfeifer, Chair
College of Arts and Science
223 Physics Building
(573) 882-3335
Fax: (573) 882-4195
<http://www.physics.missouri.edu/>

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.

The Department of Physics and Astronomy offers a major in physics with either a Bachelor of Arts or a Bachelor of Science Degree. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who do not envision a professional career in physics, but plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. A minor in physics or astronomy is also available.

Physics education plays a pivotal role in such areas of burgeoning and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security. Therefore, the Department of Physics has introduced several new courses and electives to train undergraduate students in optical sciences, biological physics, materials sciences and nanotechnology.

Faculty

Professor H. R. Chandrasekhar**, M. Chandrasekhar**, S. J. Chen**, R. V. Duncan, G. Forgacs**, S. Gangopadhyay**, Linda Godwin**, S. Guha**, M. F. Hawthorne*, K. Katti**, S. M. Kopekin**, I. Kosztin**, A. Li**, B. Mashhoon**, P. Miceli**, P. Pfeifer**, S. Satpathy**, A. Speck**, H. Taub**, C. Ullrich**, G. Vignale**, C. Wexler**

Associate Professor D. Hanuscin*, W. T. Montfrooij**, P. Yu**, X. Zou**

Assistant Professor S. Bompadre**, G. King**, H. Yan**

Teaching Professor D. C. Kosztin*

Associate Teaching Professor Y. Zhang*

Assistant Teaching Professor K. King*

Adjunct Professor S. M. Badalyan, S. Balasubramanian, C. Chicone*, P. Cornish*, F. Y. Hansen, F. Hehl, A. Helfer*, H. Kaiser, A. Neagu, Z. S. Popovic, W. Yelon*

Adjunct Associate Professor X. Fan, J. Farmer**

Professor Emeritus D. L. Cowan, B. DeFazio, P. Plummer, J. J. Rhyne, G. Schupp, C. W. Tompson, S. A. Werner, H. W. White**, J. E. Willett

Associate Professor Emeritus C. J. Peterson

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Physics (p. 239)
- BS in Physics (p. 240)
 - with emphasis in Astronomy (p. 241)
 - with emphasis in Materials Science (p. 242)
- Minor in Physics (p. 242)

Candidates for both degrees must complete 120 credits with an average grade of C or better. For the BA in physics degree, students must complete 30 credits in physics and 19 credits in math and chemistry. For the BS in physics degree, students must complete 45 credits in physics and 25 credits in math and chemistry. Students pursuing a Bachelor of Science in Secondary Education, emphasis in Physics, have the option of receiving a BS in physics degree by completing 33 credits in physics and 19 hours in math and chemistry. In addition, students must meet all degree, college, and university requirements including University general education. All students who complete the BS degree in Physics automatically also complete a minor in Mathematics.

Departmental Honors

The departmental honors program in physics provides exceptional students with an opportunity to develop skills beyond the normal course work. It also acknowledges those students who have attained a level of achievement beyond what is normally expected of an undergraduate physics major.

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Satisfy the BA or BS degree requirements
- Cumulative GPA of at least 3.30 and minimum GPA of 3.50 in Physics Department courses
- Complete a six credit hours research sequence, by signing up for PHYSCS 4950/ASTRON 4950 Undergraduate Research in Physics/Astronomy in the first (second) semester junior year and for PHYSCS 4950/ASTRON 4960 Senior Thesis (or PHYSCS 4950/ASTRON 4950 again) in the first (second) semester senior year. In PHYSCS 4950 /ASTRON 4950 students will work on a research project, either by doing research in a lab or by doing reading research and completing specific readings under the supervision of a faculty advisor.
- Present the results of the research project in a poster or in a paper prepared in the form of a scientific journal article at a regional or national meeting, to a faculty panel that will consist of no fewer than three Physics Department faculty members, or in a physics seminar.

In order to receive departmental honors recognition, the student must be recommended by the director of undergraduate studies. Upon recommendation, the Office of the University Registrar will be notified that the candidate has earned departmental honors recognition. This acknowledgement will appear on the student's diploma as well as on the transcript.

Elective Tracks

Students have available a variety of courses from which they may select the required credits of physics electives for the BS or BA degree. The department offers tracks that allow students to specialize in astronomy, biological physics, condensed matter physics, energy storage, materials science, nanomaterials, or optoelectronics. Students may wish to pursue

one of these tracks, or follow a general track in which they can choose any of the courses that are listed and are not required courses.

Note: Tracks are not indicated on the diploma.

Foreign Language Alternative (BS)

Students who elect an undergraduate program leading to the BS degree with a major in Physics have an option regarding the College of Arts and Science foreign language requirement. This requirement of 12 or 13 credits (depending on the language studied) may be satisfied alternatively by the substitution of an approved specialization. This consists of a minimum of 12 credits at the 2000/3000 level or above and may not include courses normally required of all physics majors. It is to be selected from an area with special relevance to physics and to the student's own interests and future plans.

Students have selected options in aerospace engineering, atmospheric science/geophysical fluid dynamics, radiation biology, chemistry, computer science, electrical engineering (circuits or computer hardware option), geology, nuclear engineering, material science, math and other areas. The choice and planning of an option must be done under the direction of the departmental undergraduate advisor.

Dual Degrees and Double Majors

Students may wish to pursue two baccalaureate dual degrees simultaneously. For example, this might include a BS in Physics and a BS in Engineering, which is the most common choice. In order to receive two baccalaureate degrees, a student must complete a minimum of 132 credits and complete all the specified requirements for both degrees.

Another degree option is a single baccalaureate degree with two majors (double majors), which may be developed with the concurrence of appropriate advisors in the two departments. A notation of the successful completion of the two areas appears on the student's transcript. Both departments must be in the College of Arts and Sciences. Double major options often chosen by a physics major are chemistry, mathematics or geology. Mathematics is a particularly viable double major because the extensive mathematics component normally required in the BS degree with a major in physics, if coupled with a specialization area chosen from mathematics, nearly completes the BS degree with a major in mathematics.

Careful planning, started early in the academic career, is required to meet the conditions of dual majors or dual degrees. Students who complete such programs obtain the maximum from their undergraduate experience.

About Physics

At the University of Missouri, the physics degrees are offered by the Department of Physics and Astronomy. Because the Department has a moderate size, graduate students are better able to maintain a close relationship with the faculty. Our facilities include various laboratories within the Physics Building as well as the Research Reactor. In certain cases, a student's work may be done in collaboration with other science and engineering departments.

The largest research area is in experimental and theoretical condensed-matter physics. Graduates in these fields have been very successful in continuing their careers in industry and academics. Other research programs in which thesis work may be accomplished are biological physics and astronomy/astrophysics.

Research Resources

The Department of Physics and Astronomy offers many opportunities for scientific research in internationally recognized programs, some of which are unique at a university and at a level expected only in much larger departments. The main focus of research is in the areas of theoretical and experimental condensed matter physics, biological physics, astrophysics, and alternative energy. These research efforts are fostered by the existence of the University of Missouri Research Reactor (MURR), a 10 MW light-water moderated reactor that is the highest-power university research reactor in the country. Furthermore, many research activities involve facilities at National Laboratories such as Argonne, Oak Ridge, or NIST.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

More Details

For more details on the Physics graduate program please consult the departmental web site: <http://physics.missouri.edu/graduate-program/program-overview/>

In particular, details about degree requirements, rules and regulations can be found in the Physics graduate handbook (<http://physics.missouri.edu/wp-content/uploads/2012/08/fileGradStudentHandbook.pdf>).

Undergraduate

BA in Physics

Major Program Requirements

Students must complete the University of Missouri's general education requirements in addition to the Major Program Requirements below.

PHYSCS 2800	Undergraduate Seminar in Physics	2
PHYSCS 2750 & PHYSCS 2760	University Physics I and University Physics II	10
PHYSCS 3150	Introduction to Modern Physics	3

BS in Physics with emphasis in Astronomy

Major Program Requirements

Students interested in astronomy may pursue a BS in Physics with an Emphasis in Astronomy. For this option, students must take the same required courses as the students pursuing a regular BS degree and take all their physics electives in astronomy. One of the 4 required astronomy electives is ASTRON 3010 Introduction to Modern Astrophysics. If

successfully completed, the emphasis in Astronomy will be recorded on the student's diploma."

BS in Physics with emphasis in Materials Science

Students interested in materials science may choose to pursue a BS in Physics with an Emphasis in Materials Science. For this option, students must take the same required courses as the students pursuing a regular BS degree and take all their physics electives (4 courses) from the list below:

PHYSICS 4190 Physics and Chemistry of Materials

PHYSICS 4230 Scanning and Transmission Electron Microscopy and Microanalysis

PHYSICS 4400 The Physics of Electronic Devices

PHYSICS 4410 Analysis of Biological Macromolecules and Biomaterials

PHYSICS 4600 Semiconductor Optics

PHYSICS 4650 Modern Condensed Matter Physics

PHYSICS 4950 Undergraduate Research in Physics

PHYSICS 4960 Senior Thesis in Physics

With approval, one materials science related course may be taken from outside the physics program. Only courses in which a grade of C- or above will be counted toward the emphasis area.

Minor in Physics

A student whose area of concentration is in another department may receive a minor in physics with the completion of the following courses with grades of C or better: PHYSICS 2750, PHYSICS 2760: University Physics (10 credits) plus three additional courses at the 2000/3000 level or above (to include at least one course dealing with topics in modern physics). In order to complete these requirements, the student must complete mathematics through MATH 4100 Differential Equations.

Conversely, a student whose area of concentration is physics may pursue a minor in another department in the College of Arts and Sciences.

Graduate

MS in Physics

About the Master of Science

The master of science degree in physics prepares students for a variety of scientific careers. Since physics is the most fundamental of the physical sciences, graduate-level studies in the field provide essential knowledge for application in many areas. Students with strong backgrounds in physics, as well as in areas ranging from biology to engineering, are encouraged to consider a personalized MS program in physics. Graduates have many job opportunities in a variety of areas.

Application Process

We welcome applications from students who have successfully completed a 4-year undergraduate degree in physics or closely related fields. International students who have gone through a 3-year undergraduate degree program need to have an MS degree to become eligible for admission.

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system to fill out the application form and upload the required documents.
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work. school.
- Official transcripts from all undergraduate and graduate institutions applicant has attended.

Admission Criteria

Fall deadline: March 1

Spring deadline: Rolling (target date: October 1)

Minimum GRE score: none set

International applicants must submit results of the TOEFL test.

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- MU institutional code for GRE and TOEFL: 6875
- GRE department code: 0808
- TOEFL department code: 76

Degree Completion Requirements

In general, students must present at least 30 credit hours for the MS degree, including at least 15 hours in courses at the 8000 level. The

program must include at least 15 hours of physics courses. There is no foreign language requirement.

Physical Science Option

The master of science (physical science) degree is designed for those preparing to teach more than one science or for those broadening their foundation in science before proceeding to the doctoral degree. It emphasizes broad training in physics, chemistry and mathematics. No thesis is required.

Plan of Study

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor's Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal program, this requirement is met by the end of the second year at MU. The required courses for a Master's Degree are:

PHYSICS 8610	Classical Mechanics	3
PHYSICS 8620	Electrodynamics I	3
PHYSICS 8660	Methods in Mathematical Physics	3
PHYSICS 8680	Thermodynamics and Statistical Mechanics	3
PHYSICS 8710	Quantum Mechanics I	3

Other additional courses may be taken from 7000 and 8000 level courses in astronomy, mathematics, chemistry, biology, engineering, and physics to make a total of 30 hours of course work. In some cases, a student who is a transfer graduate student or who has a particularly strong undergraduate background may have had course work which satisfies the requirement of one or more of these core courses. Exemption from taking these courses at MU may be granted upon written application to the Departmental Graduate Studies Committee.

Research

It is essential for the MS degree that the students carries out some research. Three hours of research, PHYSICS 8090, should be taken, but not more than nine hours of reading and research courses may be included in the 30 hour requirement. (Note: This 9 hour limitation is a departmental requirement and is more restrictive than the Graduate School requirement.) A formal MS thesis is not required in Physics. The student, in consultation with his/her advisor, can choose to write an MS thesis as an option (MU Graduate School thesis guidelines (<http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline>)).

Qualifying Examination

The student must pass the Departmental Qualifying Examination at least at the MS pass level. Upon completion of the qualifying examination, the student fills out the form M3, "Report of the Master's Examining Committee" and gathers the signatures of the Qualifying Examination Committee members. This form is then signed by the Director of Graduate Studies and forwarded to the Graduate School Dean. Graduation Requirements

After performing satisfactory work for the first year, the student with the advisor's assistance completes the form M1, "Plan of Study for the Master's Degree," an outline of the course of study for the student's graduate program, and forwards the application through the Departmental Graduate Studies Committee to the Dean of the Graduate School. The plan of study

form must be filed no later than the session preceding the session in which the student expects to receive the degree. Upon approval of the M1 form by the Dean of the Graduate School, the student is a candidate for the degree.

The program for the Master's Degree must be completed within a period of eight years beginning with the first semester of enrollment, not including time spent in the armed services. For any extension of this time limitation, the student must petition the Graduate School Dean. Such petitions must be received in the Graduate School Office prior to the expiration of the normal period and must be approved by the advisor, the Departmental Director of Graduate Studies, and the Graduate School Dean. The Graduate School will notify the advisor in writing of the final decision.

The candidate must be enrolled at the MU campus during the semester in which the program of study, outlined in the "Plan of Study for the Master's Degree", is expected to be completed. During the first six weeks of this semester, the candidate must personally confirm with the Graduate School Office for all graduation arrangements.

PhD in Physics

The doctor of philosophy degree is designed to educate scientists to be capable of independently formulating and solving problems of fundamental scientific importance. Detailed policies for the PhD degree are listed at the MU Graduate School. Here we give details specific to the Physics program.

Application Process

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) to fill out the application form and upload the required documents.
- The results of the general GRE Test (required). MU institutional code for GRE: 6875 GRE department code: 0808
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. A minimum test score of 80 is required. The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation.
- Your official transcripts from all undergraduate and graduate institutions attended.

Admission Criteria

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- Minimum TOEFL scores (international applicants only):

Internet-based test (iBT)	Paper-based test (PBT)
80	550

Note: MU institutional code for TOEFL: 6875. TOEFL department code: 76

Degree Completion Requirements

A Ph.D. Degree requires completion of a minimum of 18 hours beyond the Master's Degree, with a grade of 3.0 (B) or better, and completion of the Department Qualifying Examination at the PhD pass level. The degree candidate must also meet the residency requirements. There is no foreign language requirement.

The required courses for a PhD Degree (in addition to those for the MS Degree in physics) are as follows:

- PHYSCS 8640 Electrodynamics II (3)
- PHYSCS 8720 Quantum Mechanics II (3)
- Two graduate-level (>8000) courses in the student's area of specialization (6)
- A graduate-level (>8000) course in an area other than the student's area of specialization (3)

Additional graduate-level courses to make a total of 18 hours beyond the Master's Degree are required. See the graduate courses in Physics and Astronomy for electives. In addition, students can choose selected 7000 and 8000 level courses in Mathematics, Chemistry, Biology and Engineering.

A student is required to have taken a minimum of three full years of graduate work beyond the Bachelor's Degree. All acceptable graduate work, including one year's residence for a Master's Degree, is used to compute the three-year requirement for the PhD Degree. It is important to note that this is not a requirement for three calendar years of work, but rather a three-year's equivalent of full time study. When this three-year residency requirement is satisfied, a student should have finished a minimum of 72 credit hours of graduate work.

Within the three-year residence, each doctoral student must successfully complete at least two 12-hour semesters or three 8-hour semesters of graduate level program within a period of 18 calendar months. During this period, the student must be fully involved in academic pursuit, be it study, teaching, or research. This period of full-time reading, reflection, study, teaching, and research is considered necessary to give the student's program continuity and to fulfill the spirit and special demands of the doctoral program.

A student who is a graduate assistant, or who is engaged in other activities that reduce the time available for graduate study, may need more than the anticipated time to meet course and dissertation requirements. Nonetheless, a reasonable rate of progress is required. A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination.

For an extension of this time, the student must, before the expiration of the normal period, petition the Graduate School by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the departmental Director of Graduate Studies. An extension, if granted, may entail a revision of the candidate's program to update course work and research.

Transfer of Credit

A student who has completed a master's degree at the University of Missouri-Columbia or elsewhere may, upon recommendation of the advisor and approval by the departmental Director of Graduate Studies and the Graduate School, transfer a maximum of 36 credit hours toward the total hours required for the doctoral degree. Transfer credit for doctoral students who do not have an earned master's degree is limited to a maximum of 12 hours of graduate credit.

Degree Completion Requirements

In general, a PhD requires completion of a minimum of 18 hours beyond the master's degree, with a grade of 3.0 (B) or better, and completion of the department qualifying examination at the PhD pass level. The degree candidate must also meet the residency requirement. For more details, please consult the department's website or ask the director of graduate studies.

Plan of Study

The doctoral program committee guides the student in planning a program of study. The Chair of the Doctoral Program Committee, after conferring with the student and the Doctoral Program Committee, submits to the Graduate School a report, including a copy of the proposed course of study and any request for transfer of graduate credit. This plan of study will, when completed,

- prepare the student for research in the chosen field of Physics or Astronomy,
- satisfy the credit-hour and residency requirements.

The student must substantially complete the course work outlined in the "Plan of Study for the Doctoral Degree" form (Form D2), to the satisfaction of the Doctoral Program Committee and the Dean before being considered for the Comprehensive Examination.

Comprehensive Examination

To be an official candidate, the student must pass the Doctoral Comprehensive Examination, which is based upon graduate coursework in the Department (PHYSICS 8610, PHYSICS 8620, PHYSICS 8660, PHYSICS 8710, PHYSICS 8720, and other optional courses). The student must be enrolled to take this examination. It is to be administered only when MU is officially in session. The major advisor applies to the Dean for the Doctoral Program Committee to administer the Comprehensive Examination when the doctoral student has

- passed the Qualifying Examination,
- substantially completed the planned course work, and
- completed two years of the residence requirement.

The Comprehensive Examination is the most advanced general exam posed by MU. It may consist of both written and oral sections. It must be completed at least seven months before the final Dissertation Defense. The two sections of the examination must be completed within one month.

The written segment of the Comprehensive Examination is arranged and supervised by the major advisor. It consists of either (1) written questions prepared and graded by members of the Doctoral Program Committee, or (2) a research proposal on the work to be done for the PhD. Normally, the student will have two weeks to answer eight questions. Upon satisfactory

completion of the written examination (or research proposal), the student is then given an oral examination by the committee.

For the Comprehensive Examination to be successfully completed, all or all but one of the committee, must vote to pass the student on the entire examination, both written and oral. A report of this examination, as in the "Doctoral Comprehensive Examination Results Form" (Form D3), carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the completion of the examination.

A failure of either the written or oral section of the examination constitutes failure of the comprehensive examination. If a failure is reported, the committee will include in the report an outline of the general weaknesses of deficiencies of the student's work. The student and the committee will work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Graduate School. A student who fails may not take a second examination for 12 weeks. Failure to pass two Comprehensive Examinations automatically prevents candidacy.

Doctoral Candidacy and Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Candidacy is maintained by enrolling in PHYSCS 9090 research for two semester hours each fall and winter semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an adviser's support, doctoral program committee guidance and University research facilities for completion of the dissertation. Failure to continuously enroll in PHYSCS 9090 research until the doctoral degree is awarded terminates candidacy.

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student's doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee's requirements may include a second comprehensive examination of evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student's advisor and the departmental Director of Graduate Studies submit a written request to the Graduate School explaining the basis of the decision. Once approved, a Request to Re-enroll form must be completed by the student and sent to the department for processing.

Dissertation and Defense

The dissertation must be written on a subject approved by the candidate's Doctoral Program Committee, must embody the results of original and significant investigation, and must be the candidate's own work. Candidates should consult the Graduate School's Theses and Dissertations Guidelines.

All dissertation defenses shall be open to all Physics and Astronomy faculty and graduate students. Dissertation defense dates should be

publicly announced in advance. The candidate must be enrolled to defend the dissertation, which is administered when MU is officially in session. A report of the dissertation defense form (Form D4), carrying the signatures of all members of the committee, is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student's doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Graduate Certificate in Teaching High School Physics

Through this project, participants gain an expanded range of leadership expertise, content knowledge and pedagogical proficiency to share with others, as they become resources and catalysts for reform in science education at the secondary and post-secondary institutional levels. Ultimately, the overall goal is a significant increase in student achievement in science and science coursework.

For more information please visit the A TIME for Physics First website: <http://www.physicsfirstmo.org/#> or contact the Department of Physics by calling 573-882-7997 or emailing hillsar@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/teaching-high-school-physics-graduate-certificate/teach-hs-ge/Gedt.html>

Political Science

A. Cooper Drury, Chair
College of Arts and Science
113 Professional Building
(573) 882-2843
drury@missouri.edu

Political science is concerned with government, politics and public policies. In political science courses, students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators.

Many political science graduates attend law school or graduate school in political science, public administration, business administration, the social sciences, and other subjects. Others are employed in governmental or political jobs as legislative assistants, military officers or lobbyists, and more go into business or private employment. Many public officials and government administrators have political science degrees.

Courses in political science help students learn to think critically, analyze complex material and communicate effectively. Political science classes require extensive writing assignments, and majors are given many opportunities to hone their writing skills.

The department offers BA, MA and PhD degrees with majors in Political Science.

Faculty

Professor M. E. Arce**, J. K. Dow**, A. C. Drury**, L. M. Overby**, J. R. Petrocik**, P. Squire**

Associate Professor J. W. Endersby**, L. R. Keiser**, J. T. Kriekhaus**, S. L. Quackenbush**

Assistant Professor S. S. Dietrich**, J. B. Dyer**, S. C. Greitens**, J. Haselswerdt, W.T. Horner, M. D. Minta**, A. M. Murdie**, M. Wahman, L. K. Williams**

Adjunct Professor J. D. Milyo*, M. A. Stegmaier*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Political Science (p. 247)
- Minor in Political Science (p. 248)

Departmental Requirements

Students complete a graduation plan, usually at the end of the sophomore year or beginning of the junior year. They should prepare for political science courses by completing university (p. 17) and College of Arts and Science foundation requirements, including university general education (p. 18).

Students must complete the following classes with letter grades in the C range or better to file a graduation plan:

- POL_SC 1100 or an equivalent course
- ENGLSH 1000 or an equivalent course

- MATH 1100 followed by a mathematics or statistics course (STAT 1200 will not count)
- An analytical course e.g. SOCIOL 1000 , PSYCH 1000 , ECONOM 1014, PHIL 1000 or PHIL 1200
- POL_SC 3000

Students are required to complete 30 credits in political science. Fifteen of the 30 must be numbered 4000 or above.

Internships

The Political Science Department offers internship course credit for work in a variety of governmental settings, including work with state legislators, administrative agencies, lobbyists, members of Congress, statewide elected officials, and state political parties. Seniors in good standing with a GPA of 2.67 and juniors in good standing with a GPA of 3.0 who have completed appropriate coursework are eligible to apply. No more than 3 internship credit hours may be included in the 30 hours required for the major.

Departmental Honors

Students who have honors eligibility and a 3.5 GPA may enter the departmental honors program. Students who successfully complete a senior honors paper with a letter grade in the "B" range or better will have the phrase "with Honors in Political Science" added to their diplomas. Each year many political science honors students are selected for Phi Beta Kappa, Mortar Board, Golden Key and other scholastic honoraries.

Students who plan to enter graduate school are encouraged to enter the departmental honors program and to speak with a faculty member early in their academic career. Some areas of graduate study require significant preparation in language, statistics and methodology.

Graduate

College of Arts and Science
113 Professional Building

gradpolsci@missouri.edu
<http://politicalscience.missouri.edu/>

Director of Graduate Studies: Amanda Murdie

- MA in Political Science (p. 248)
 - with emphasis in Public Policy (p. 249)
- PhD in Political Science (p. 249)

The department emphasizes both quality teaching and research. Several faculty members have received awards and prizes for teaching excellence and innovative research. The department aims to train people as experts in the study of politics and government, while encouraging students to acquire a sufficient background in other disciplines to enable them to correlate their specialized knowledge with all aspects of modern life.

Careers

The MA can serve multiple career goals: community-college teaching, continuation of studies to the PhD, entrance into and advancement in public service, or acquisition of skills for a position in the private sector.

Alumni with PhDs have received teaching appointments at public and private colleges as well as positions of responsibility in state and national government in the United States and in many foreign countries. In recent

years, an average of five students a year entered the PhD job market. Approximately eighty percent of the PhD graduates became college teachers. Most of the remainder went into public service and a few into the private sector. Six departmental alumni have become college presidents.

Financial Aid from the Program

Applications for admission and financial aid are considered on the basis of the entire packet submitted. Students may apply for departmental teaching and research assistantships and fellowships, as well as university scholarships and fellowships. Annually, about 20 departmental assistantships offer stipends of over \$11,500 plus waivers of educational fees. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Satisfactory Progress

A graduate student must maintain a minimum 3.0 GPA after the first semester of graduate study and a 3.4 cumulative GPA in all subsequent semesters. A student should complete and pass required courses, activities, and examinations on schedule. The student's adviser and the director of graduate studies will monitor and provide an annual assessment of a student's progress. Failure to maintain satisfactory progress can have serious consequences, including dismissal from the program.

Undergraduate

BA in Political Science

Major Program Requirements

Students must complete the University of Missouri's general education requirements and the Departmental Requirements (p. 246), in addition to the degree requirements below.

All majors must take:

POL_SC 1100	American Government
POL_SC 3000	Introduction to Political Research *

*POL SC 3000 should be taken as a sophomore. It introduces majors to the systematic study of political phenomenon and prepares students for upper-class courses. A grade of C- or higher is required.

Comparative government (at least one course required)

POL_SC 2600	Canadian Politics and Government
POL_SC 2700	Comparative Political Systems
POL_SC 2720	European Democracies
POL_SC 4500	The European Union in the Global System
POL_SC 4600	Latin American Politics
POL_SC 4605	Latin American Politics through Film
POL_SC 4610	European Political Systems
POL_SC 4670	The Political System of the European Union
POL_SC 4720	Politics of Development
POL_SC 4730	Women and Politics
POL_SC 4750	Power and Money
POL_SC 4760	Comparative Political Parties
POL_SC 4770	Comparative Political Behavior

International affairs (at least one course required)

POL_SC 1400	International Relations
POL_SC 4400	Theories of International Relations
POL_SC 4410	Politics and War
POL_SC 4411	Genocide, Terrorism and Civil War
POL_SC 4412	Strategy and Warfare
POL_SC 4420	Politics of International Economic Relations
POL_SC 4440	International Organization
POL_SC 4540	American Foreign Policies

Political theory/methodology (one course highly recommended, but not required)

POL_SC 2800	Introduction to Political Theory
POL_SC 2860	American Political Thought
POL_SC 4000	Introductory Statistics for Political Science
POL_SC 4010	Computing Methods
POL_SC 4030	Formal Political Analysis
POL_SC 4800	Classical Political Theory
POL_SC 4830	Democracy in America (and Elsewhere)

American politics/public policy (at least two courses required)

POL_SC 2100	State Government
POL_SC 2200	The Judicial Process
POL_SC 4100	Political Parties and Election Campaigns
POL_SC 4110	Political Behavior
POL_SC 4120	Politics and the Media
POL_SC 4130	African-American Politics
POL_SC 4140	Congress and Legislative Policy
POL_SC 4150	The American Presidency
POL_SC 4160	Interest Groups
POL_SC 4170	Politics of the American South
POL_SC 4200	The American Constitution
POL_SC 4210	Constitutional Rights
POL_SC 4230	Constitution and Civil Liberties
POL_SC 4310	Comparative State Politics
POL_SC 4320	Public Policy
POL_SC 4370	Issues in Public Bureaucracy
POL_SC 4380	Politics of Criminal Justice

Options

For students who want to concentrate on a specific area, suggestions for a course of study are available from the academic advisor. These include:

- Government service for students who want to become government administrators
- Public information and reporting for students who plan to be governmental press secretaries, public information specialists, interest group lobbyists or government reporters
- International relations for students who want to work for multinational corporations or international agencies
- Graduate school preparation
- Law school preparation

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
ENGLISH 1000*	3 MATH 1100	3
Foreign Language 1100*	5 Foreign Language 1200*	5
Behavioral Science*	3 Behavioral Science*	3
POL_SC 1100**	3 Political Science^	3
Elective	1 Elective	1
	15	15
Second Year		
Fall	CR Spring	CR
Foreign Language 2100*	3 Elective	3
Math/Stat class**	3 Humanities	3
Social Science*	3 Social Science*	3
Social Science*	3 Biological Science*	3
POL_SC 3000 (WI)^	3 Political Science^	3
	15	15
Third Year		
Fall	CR Spring	CR
Political Science^	3 Political Science^	3
Humanities*	3 Humanities*	3
Physical Science (lab)*	3 Humanities*	3
Elective	3 Elective (WI)	3
Elective	3 Elective	3
	15	15
Fourth Year		
Fall	CR Spring	CR
POL_SC 4995**	3 Political Science^	3
POL SC**	3 Political Science^	3
Elective	3 Elective	3
Elective	3 Elective	3
Elective	3 Elective	3
	15	15

Total Credits: 120

^ Course meets degree program requirements

* Course meets University general education and/or campus graduation requirements

Minor in Political Science

To earn a minor in political science, students must complete 15 credits, including the following:

- POL_SC 1100, American Government (3) or an equivalent course
- Additional political science courses totaling 12 credits with at least 6 at the 4000 level
- No more than 3 internship credits may be included and will not count as a 4000 level
- Nine credits must be in residence including 6 at the 4000 level
- A grade of C- or better is required of all political science classes in either a minor or a major with an overall GPA of 2.0 or greater.

Graduate

MA in Political Science

Admission Contact Information

Graduate Studies Office
 113 Professional Bldg.
 Columbia, MO 65211
 573-882-2062
 gradpolsci@missouri.edu

Admission Criteria

Admission into the PhD program is determined by the graduate committee's consideration of the applicant's performance on the applicant's academic record, personal statement, letters of recommendation, and the GRE general test.

Fall deadline: February 1

Spring deadline: October 1

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
89	570
Computer-based test	
230	

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	1000
On or After August 1, 2011	300

- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses.
- 12 hours of upper-division course work in political science is recommended.
- An undergraduate major in an area other than political science may be acceptable.

Required Application Materials

- Graduate School online application form
- one to two page statement of purpose, describing interests and goals in graduate study in Political Science
- three letters of recommendation
- transcripts from all universities attended [official transcripts upon admission]
- official results from the Graduate Record Examination (GRE)
- writing sample
- Test of English as a Foreign Language (TOEFL) scores (for International students)

MA Degree Completion Requirements

All MA students must complete POL_SC 7000, POL_SC 7010, and POL_SC 9030. Each candidate must take one graduate seminar (8000 level) in each of two fields. Fields include: American political institutions

and behavior, comparative politics and government, international relations, and public policy and administration.

The master's degree program culminates in a comprehensive oral examination and defense of the research project. The Master of Arts degree may be earned by completing either the thesis or the non-thesis program.

Thesis Option

Students wishing to advance from the master's program to the PhD program at MU must take the thesis option. The thesis program requires 30 hours of academic credit (at least 18 in 8000-level Political Science seminars) and an acceptable thesis for which up to six semester hours of credit must be earned (POL_SC 8090).

Non-Thesis Option

The non-thesis program is a 30-hour generalist master of arts. It requires a student to take at least 30 hours of academic credit (at least 18 in 8000-level Political Science seminars) and to write a master's paper for which up to three hours of credit must be earned (POL_SC 8085).

Satisfactory Progress

A master's student should maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. The MA program must be completed within five years of the first semester of enrollment. Most students complete the master's program within two years.

MA in Political Science with Emphasis in Public Policy

The Department of Political Science is no longer accepting applications to the MA with emphasis in Public Policy degree program. We are accepting applications to the regular MA in Political Science program (p. 248). Please see their page for more information.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Political Science program (<http://gradschool.missouri.edu/academics/programs/political-science/masters.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

PhD in Political Science

Admission Contact Information

Graduate Studies Office

Admission

Admission into the PhD program is determined by the graduate studies committee's consideration of the applicant's performance on the applicant's academic record, personal statement, letters of recommendation, and the GRE general test.

Admission Criteria

Fall deadline: February 1
 Spring deadline: October 1

- Minimum TOEFL scores:

Internet-based test (iBT)	Computer-based test Paper-based test (PBT)
89	230 570

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	1200
On or After August 1, 2011	320

- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses
- 12 hours of upper-division course work in political science is recommended.

Required Application Materials

- Graduate School online application form
- one to two page statement of purpose, describing interests and goals in graduate study in Political Science
- three letters of recommendation
- transcripts from all universities attended [official transcripts required upon admission]
- official results from the Graduate Record Examination (GRE)
- writing sample
- Test of English as a Foreign Language (TOEFL) scores (for International students)

PhD Degree Completion Requirements

A student's doctoral program must include at least 52 hours of graduate work, exclusive of comprehensives and dissertation research. At the option of the student's doctoral program committee, up to 24 hours of the MA program may be included in the PhD program.

Plan of Study

A student's program shall include at least 40 hours in Political Science courses and at least 40 hours in graduate seminars (8000 and above). Students choose a primary and secondary field from the four doctoral fields: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

Graduate courses must include:

- A minimum of 12 seminar hours in the primary (research) field
- A minimum of nine seminar hours in a secondary field supporting the primary field

- A minimum of 13 hours in a methodology or research tool field. Required courses include POL_SC 7000, POL_SC 7010, and POL_SC 9030.
- The remaining six hours in the methodology field may be in advanced formal or quantitative methods, advanced foreign language, or a combination of the two.
- A minimum of six hours in an outside field. These courses may be in a cognate field in support of relevant substantive fields or research methods related to dissertation research.

Besides completing the necessary course work, the candidate must demonstrate the capacity to use a research tool (such as a foreign language or statistics), should obtain some teaching experience in political science (for academic careers), must pass separately written and oral comprehensive examinations, must submit and defend a dissertation proposal, and must submit and defend a dissertation.

Length of Study

All required courses and the comprehensive examination must be completed within five years of the first semester in the graduate program. The dissertation must be completed and defended within five years of passing the comprehensive examination.

The PhD usually requires five years full time or the equivalent in part-time work beyond the bachelor's degree and four years beyond the master's degree. Full-time students (including teaching and research assistants) must carry a minimum of nine credit hours of courses per semester (except for students conducting dissertation research).

Timeline

The first three years of doctoral study typically include course work and preparation for the comprehensive examinations. Comps (POL_SC 9970) are typically taken early in the fourth year. A proposal for dissertation research is defended within a few months of the comprehensive exams. The remaining time is devoted to dissertation research (POL_SC 9090).

Satisfactory Progress

A doctoral student must maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. Comprehensive exams and dissertation proposal must be completed within a timely fashion. The PhD program must be completed within ten years of the first semester of enrollment. Most students complete the doctoral program within five years.

Psychology

Dr. Moshe Naveh-Benjamin
College of Arts and Science
210 McAlester Hall
(573) 882-6860
<http://psychology.missouri.edu>

The faculty and staff of the Department of Psychological Sciences are committed to providing students with a high quality, broadly-based undergraduate education. Understanding that undergraduate students use the psychology major as preparation for a variety of postbaccalaureate experiences, the department is dedicated to offering a wide range of courses and services to students. While some students are interested in pursuing psychology-related interests in graduate school, most are interested in pursuing careers after graduating with a Bachelor of Arts (BA).

Regardless of a student's ultimate goals, faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect instructors to take a scientific approach to the psychological content of each course.

The department offers the BA and BS degrees with a major in Psychology, and the MA and PhD degrees with an emphasis in Clinical Psychology, Cognition & Neuroscience, Developmental Psychology, Quantitative Psychology, and Social & Personality Psychology. A minor in Quantitative Methods is also available.

About Psychological Sciences' Degrees

The department also offers a dual emphasis area program (p. 251) in Child Clinical and Developmental Psychology. All emphasis areas offer broad empirical and theoretical training with a research emphasis.

The Clinical Psychology emphasis area is accredited by the American Psychological Association and by the Psychological Clinical Science Accreditation System, and is a member of the Academy of Psychological Clinical Science.

Note: Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

Dual Emphases: Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology. This program provides training in the area of developmental psychopathology with the added benefit of training in the practice of child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the Department of Psychological Sciences and complete requirements for both areas.

For more information: <http://psychology.missouri.edu/dual-degree>

More Information about Emphasis Areas

These programs and others are more fully described at the departmental website at <http://psychology.missouri.edu>.

Undergraduate

BA in Psychology

Major Program Requirements

To graduate with a Bachelor of Arts with a major in Psychology in the College of Arts and Science, a student must complete all degree, college and university graduation requirements, including university general education (p. 18) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 30 credit hours.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 1200 or its equivalent (a required course for all psychology majors).
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- No more than 43 psychology credits may count toward the required 120 credits to graduate. Students enrolled in the two-semester Honors Capstone only may use up to 46 psychology credits toward graduation.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4950, PSYCH 4960 & PSYCH 4940) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses. A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.

Required courses

PSYCH 1000	General Psychology	3
STAT 1200	Introductory Statistical Reasoning	3

Research Methods sequence

PSYCH 3010	Research Methods in Psychology I	3
PSYCH 3020	Research Methods in Psychology II	3
Capstone course (psychology lab course)		3-6

Distribution Areas

Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among

them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition

This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

PSYCH 2110	Learning, Memory, and Cognition	3
PSYCH 2820	Introduction to Cognitive Science	3
PSYCH 3110	Theories of Learning	3
PSYCH 3130	Decisions, Values and Choice	3
PSYCH 3140	Cognitive Psychology	3
PSYCH 3150	Human Memory	3
PSYCH 3160	Perception and Thought	3

Biological/Neuroscience

This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

PSYCH 2210	Mind, Brain, and Behavior	3
PSYCH 2220	Drugs and Behavior	3
PSYCH 2810	Human Sexuality	3
PSYCH 3830	Health Psychology	3
PSYCH 4210	Physiological Psychology	3
PSYCH 4220	Animal Learning and Behavior	3
PSYCH 4240	Cognitive Neuroscience	3

Note: A student may not receive credit for PSYCH 2210 if it is taken after PSYCH 4210.

Social/Personality

This distribution area employs scientific methods to understand the nature and causes of individuals' thoughts, feelings and behavior in social situations. Courses in this distribution area include:

PSYCH 2310	Social Psychology	3
PSYCH 2320	Introduction to Personality	3
PSYCH 3310	Intergroup Relations	3
PSYCH 4340	Attitude Change	3
PSYCH 4350	Stereotypes and Prejudice	3
PSYCH 4815	Cross-Cultural Psychology	3

Developmental

This distribution area studies the cultural and biological influences on age-related changes in cognition, emotion and social behavior that take place throughout an individual's lifespan. Courses in this distribution area include:

PSYCH 2410	Developmental Psychology	3
PSYCH 3410	Infancy	3
PSYCH 3420	Cognitive Development in Childhood	3
PSYCH 3430	Social Development in Childhood	3
PSYCH 4440	Sex Differences	3

Note: Due to the overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410, H_D_FS 3420 or ESC_PS 2500.

Clinical/Abnormal

This distribution area focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems and related types of maladjustment. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this area include:

PSYCH 2510	Survey of Abnormal Psychology	3
PSYCH 2830	Human-Companion Animal Interaction	3
PSYCH 3510	Introduction to Clinical Psychology	3
PSYCH 4520	Behavior Genetics (Prerequisite of Psych 3020 with a grade of C or better)	3
PSYCH 4530	Research in Psychopathology	3
PSYCH 4540	Emotional Disorders in Childhood and Adolescence	3
PSYCH 4560	Schizophrenia	3
PSYCH 4570	Pediatric Neuropsychology	3

Psychology Electives (2000-level) 6

Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings, Internship, and Capstone Labs.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses and STAT 1200.

First Year		
Fall	CR Spring	CR
PSYCH 1000 [^]	3 Psych Social/Personality Course [^]	3
ENGLISH 1000 ^{+*}	3 MATH 1100 ^{+*}	3

^{*} Course meets University general education and/or campus graduation requirements

⁺ Course meets College of Arts and Science foundation (Basic Skills)

BS in Psychology

Major Program Requirements

To graduate with a Bachelor of Science with a major in Psychology in the College of Arts and Science, a student must complete all degree, college and university graduation requirements, including university general education (<http://generaleducation.missouri.edu/requirements>) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 30 credit hours.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted.
- A required statistics course (STAT 2500 or higher, or STAT 1200 and STAT 2200).
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4950, PSYCH 4960, & PSYCH 4940). Within the 12 hours, no more than 9 hours may be Special Problems Courses. A student may complete either 6 hours of PSYCH 2950

and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.

- Other than the 12 hour limit of Special Problems Courses, Special Readings Courses, and Internship hours described above, there is no limit to the number of psychology credits that may count toward the required 120 credits to graduate with the Bachelor of Science.

Required Courses

PSYCH 1000	General Psychology	3
STAT 2500	Introduction to Probability and Statistics I	3

Research Methods Sequence

PSYCH 3010	Research Methods in Psychology I	3
PSYCH 3020	Research Methods in Psychology II	3
Capstone course (psychology lab course)		3-6

Distribution Areas

Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition

This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

PSYCH 2110	Learning, Memory, and Cognition	3
PSYCH 2820	Introduction to Cognitive Science	3
PSYCH 3110	Theories of Learning	3
PSYCH 3130	Decisions, Values and Choice	3
PSYCH 3140	Cognitive Psychology	3
PSYCH 3150	Human Memory	3
PSYCH 3160	Perception and Thought	3

Biological/Neuroscience

This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

PSYCH 2210	Mind, Brain, and Behavior	3
PSYCH 2220	Drugs and Behavior	3
PSYCH 2810	Human Sexuality	3
PSYCH 3830	Health Psychology	3
PSYCH 4210	Physiological Psychology	3
PSYCH 4220	Animal Learning and Behavior	3
PSYCH 4240	Cognitive Neuroscience	3

Note: A student may not receive credit for PSYCH 2210 if it is taken after PSYCH 4210.

Social/Personality

This distribution area studies the cultural and biological influences on age-related changes in cognition, emotion and social behavior that take place throughout an individual's lifespan. Courses in this distribution area include:

PSYCH 2310	Social Psychology	3
PSYCH 2320	Introduction to Personality	3
PSYCH 3310	Intergroup Relations	3
PSYCH 4340	Attitude Change	3
PSYCH 4350	Stereotypes and Prejudice	3
PSYCH 4815	Cross-Cultural Psychology	3

Developmental

This distribution area employs scientific methods to understand the nature and causes of individual's thoughts, feelings and behavior in social situations. Courses in this distribution area include:

PSYCH 2410	Developmental Psychology	3
PSYCH 3410	Infancy	3
PSYCH 3420	Cognitive Development in Childhood	3
PSYCH 3430	Social Development in Childhood	3
PSYCH 4440	Sex Differences	3

Note: Due to the overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410 , H_D_FS 3420 or ESC_PS 2500.

Clinical/Abnormal

This distribution area focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems and related types of maladjustment. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this area include:

PSYCH 2510	Survey of Abnormal Psychology	3
PSYCH 2830	Human-Companion Animal Interaction	3
PSYCH 3510	Introduction to Clinical Psychology	3
PSYCH 4520	Behavior Genetics	3
PSYCH 4530	Research in Psychopathology	3
PSYCH 4540	Emotional Disorders in Childhood and Adolescence	3
PSYCH 4560	Schizophrenia	3
PSYCH 4570	Pediatric Neuropsychology	3

Psychology Electives (2000-level) 6 credit hours

Students must complete two psychology electives courses numbered 2000 or above, excluding Special Problems/Readings, Internships, and Capstone Labs.

Approved Science Course Tracks

Psychology Bachelor of Science students must complete 12 credit hours of approved science coursework in one of the following five approved areas: Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics.

Biological Sciences Track

Required Core: (5 hours)

BIO_SC 1500	Introduction to Biological Systems with Laboratory	5
OR		
BIO_SC 1500H	Introduction to Biological Systems with Laboratory Honors	5

OR

BIO_SC 1010 & BIO_SC 1020	General Principles and Concepts of Biology and General Biology Laboratory (with grades of A- or better)	5
---------------------------	---	---

Additional Approved Coursework (at least 7 credit hours from the list below)

BIO_SC 2200	General Genetics	4
BIO_SC 2300	Introduction to Cell Biology	4
BIO_SC 3700	Animal Physiology	5
BIO_SC 3800	Developmental Biology	3
BIO_SC 4500	Neurobiology	3
BIO_SC 4600	Evolution	3
BIO_SC 4640	Behavioral Biology	3-4
BIO_SC 4986	Neurology of Motor Systems	3
BIO_SC 4988	Nerve Cells and Behavior	3

Chemistry Track

Required Core: (6 to 8 hours)

Prior to Fall Semester 2013: Chem 1310 (2 hours) and CHEM 1320 or 1320H (3 hours) and CHEM 1330 or 1330H (3 hours)

CHEM 1320 & CHEM 1330	College Chemistry I and College Chemistry II	8
-----------------------	--	---

OR

CHEM 1320H & CHEM 1330H	College Chemistry I - Honors and College Chemistry II- Honors	8
-------------------------	---	---

Beginning in Fall Semester 2013: CHEM 1320 or 1320H (4 hours) and CHEM 1330 or 1330H (4 hours)

CHEM 1320 & CHEM 1330	College Chemistry I and College Chemistry II	8
-----------------------	--	---

OR

CHEM 1320H & CHEM 1330H	College Chemistry I - Honors and College Chemistry II- Honors	8
-------------------------	---	---

Additional Approved Coursework (at least 4 to 6 credit hours from list below)

CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I	2
CHEM 2140	Organic Laboratory II	2
CHEM 2160H	Honors Organic Chemistry I - Honors	4
CHEM 2170H	Honors Organic Chemistry II with Lab - Honors	5
CHEM 2190H	Honors Organic Chemistry Laboratory - Honors	2
CHEM 2400	Fundamentals of Inorganic Chemistry with Lab	3
CHEM 3200	Quantitative Methods of Analysis with Lab	4
CHEM 3300	Fundamentals of Physical Chemistry (OR CHEM 3310 Physical Chemistry)	3
CHEM 3330	Physical Chemistry II	3
CHEM 3340	Physical Chemistry Laboratory	3
CHEM 4170	Medicinal Chemistry	3
CHEM 4400	Inorganic Chemistry	3

Computer Science Track

Required Core: (6 to 9 hours):

INFOTC 1040	Introduction to Problem Solving and Programming	3
-------------	---	---

Note: Students with college credit hours for MATH 1100 (not an exemption) may begin in CMP SC 1050 and complete at least 6 hours of additional approved coursework below.

CMP_SC 1050	Algorithm Design and Programming I	3
CMP_SC 2050	Algorithm Design and Programming II	3

Additional Approved Coursework (at least 3 to 6 credit hours from list below)

CMP_SC 2270	Introduction to Digital Logic (Prior to SP14 course was numbered 3270)	3
CMP_SC 3380	Database Applications and Information Systems	3

Mathematical Sciences Track

Required Courses: (The Math Track requires 13 credit hours):

MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3

Statistics Track

Required Core: (6 hours)

STAT 3500	Introduction to Probability and Statistics II	3
STAT 4710	Introduction to Mathematical Statistics	3

Additional Approved Coursework (at least 6 credit hours from list below)

STAT 4110	Statistical Software and Data Analysis	3
STAT 4150	Applied Categorical Data Analysis	3
STAT 4210	Applied Nonparametric Methods	3
STAT 4310	Sampling Techniques	3
STAT 4410	Biostatistics	3
STAT 4420	Applied Survival Analysis	3
STAT 4430	Applied Longitudinal Data Analysis	3
STAT 4510	Applied Statistical Models I	3
STAT 4560	Applied Multivariate Data Analysis	3
STAT 4810	Nonparametric Methods	3
STAT 4830	Categorical Data Analysis	3

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses, Stat 2500, and all Science Track courses.

First Year	Fall	CR Spring	CR
	PSYCH 1000 [^]	3 Psych Social/Personality Course [^]	3
	ENGLSH 1000 ⁺⁺	3 MATH 1100 ⁺⁺	3
	Behavioral Science Course ⁺	3 Social Science Course ⁺	3
	AGH: Social Science Course ⁺⁺	3 Humanities (2000+ Arts and Science approved) ⁺	3
	Humanities Course ⁺	3 1000+ elective	3
		15	15

Second Year		
Fall	CR Spring	CR
Psych Developmental Course [^]	3 Psych Clinical/Abnormal Course [^]	3
Foreign Language 1 ⁺⁺	5 Foreign Language 2 ⁺⁺	5

3000+ elective	3 3000+ elective	3
	15	15

Total Credits: 120

- [^] Course meets degree program requirements.
- ^{*} Course meets University General Education and/or campus graduation requirements.
- ⁺ Course meets College of Arts & Science foundation (Basic Skills)

Minor in Psychology

The psychology minor requires 15 credits, distributed as shown below.

PSYCH 1000	General Psychology	3
Four regularly-scheduled psychology courses		12
At least two of these courses must be numbered 3000 or above. "Regularly-scheduled" includes all courses except special problems courses, which are PSYCH 4950 and PSYCH 4960: Readings.		
Total Credits		15

Students must receive a grade of C or better in all courses required for the minor. Grades of C- will not be accepted.

Only 6 credits in transfer courses will be accepted toward the minor.

AP credit for PSYCH 1000 is considered a transfer course.

Online MU courses offered by Mizzou Online are considered "regularly-scheduled courses".

Graduate

MA in Psychology

At this time, our Department is not admitting students who are seeking a terminal master's degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program.

MA in Psychology with Emphasis in Applied Psychometrics

A minimum of 35 hours of graduate-level courses is required for the M.A. in Psychology with an emphasis in Applied Psychometrics. Students must complete 30 hours of advanced study at the University of Missouri-Columbia to receive the degree. This means that a maximum of six hours of graduate coursework taken elsewhere can count toward the master's degree. Such transfer of credit must be recommended by the student's advisor and approved by the director of graduate studies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MA in Psychology with Emphasis in Child Development and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology. This program provides training in the area of developmental psychopathology with the added benefit of training in the practice of child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the

Department of Psychological Sciences and complete requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MA in Psychology with Emphasis in Clinical Psychology

The Clinical Psychology program is accredited by the American Psychological Association and by the Psychological Clinical Science Accreditation System, and is a member of the Academy of Psychological Clinical Science. The Clinical program follows a clinical science model of training. Central to this model is a commitment to:

1. using an empirical approach to understanding, ameliorating, and preventing human problems in behavior, affect, cognition, and health;
2. to promoting adaptive human functioning; and
3. to disseminating and applying knowledge in ways consistent with scientific evidence.

The Clinical program prepares students for careers involving support, production, and dissemination of clinical science research. Clinical faculty and students are active in research and scholarship that advances understanding of the symptoms, causes, course, treatment, and prevention of many of our nation's most distressing and impairing mental/behavioral health issues (e.g., addictions, anxiety, developmental disorders, eating disorders, juvenile delinquency, mood instability and disorders, schizophrenia). Students work primarily with core clinical faculty, but may also collaborate with researchers throughout the department and in other campus and community units (e.g., Thompson Center for Autism and Developmental Disabilities, Fulton State Hospital).

Students also develop clinical skills in empirically supported approaches to assessment, prevention and intervention. The Clinical program maintains its own community-based outpatient clinic (the Psychological Services Clinic or PSC) as a practicum training site for students in the clinical program. The PSC is staffed by doctoral-level clinical psychologists and clinical graduate students, and it serves a broad range of clients through individual, couple, family, and group assessment and therapy services. Additional clinical experiences are available through paid or volunteer positions at institutions such as Fulton State Hospital, University Hospitals and Clinics, the Thompson Center, and the Boone County Juvenile Office's Multisystemic Family Therapy Program.

After completing high quality internships, typically at medical centers, VAs, or university research centers, graduates are employed in positions that involve research, teaching and service in universities, medical centers, clinics, hospitals and similar agencies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MA in Psychology with Emphasis in Cognition and Neuroscience

The faculty and students in the Cognition and Neuroscience Training Area explore the interactions among mind, brain and behavior from individual and biological levels of analysis. Graduate training provides students with a thorough background in psychology, statistics and scientific methodology, through course work and participation in ongoing research. Students are expected to be actively engaged in faculty-mentored and independent research projects throughout their training.

Faculty and students in cognition and neuroscience investigate a variety of topics in human cognition, cognitive neuroscience, learning and memory, and behavioral neuroscience and use human and animal models. Our researchers investigate the structure and function of the nervous system and its impact on behavior in brain imaging, psychophysiology and neuropharmacology experiments. Studies survey human memory, intelligence and sensorimotor function across the lifespan and the impact of physical and psychological disorders on these processes. Animal research examines motivation, learning and the biological basis of human psychopathologies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MA in Psychology with Emphasis in Developmental Psychology

Developmental psychology is the scientific study of social, cognitive, and physical development over time. The Developmental Psychology doctoral program offers a strong background in statistics and research methodology and intensive research mentoring. Graduate students engage in research with their primary advisor beginning in their first semester in the program and take supporting coursework.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

MA in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people's emotions, motivations, beliefs, and actions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

From the first year, students will be actively involved in their advisor's ongoing research program. The exact nature of this involvement will be determined by the interests and needs of both parties, and may entail attending research meetings, designing research studies, running subjects, analyzing data and/or writing research reports. This hands-on research experience in conjunction with completing coursework and other program requirements is intended to provide the student with a firm grounding in the theory and methods of social/personality psychology, as well as the skills to conduct and publish his or her own research.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

PhD in Psychology

Admission Contact Information
 Graduate Student Services
gradpsych@missouri.edu
 210 McAlester Hall
 Columbia, MO 65211
 573-882-0838
 573-882-7710 (fax)

Admission Criteria

Fall deadline: December 1

- Minimum GPA: 3.0
- Minimum GRE score: no minimum, subject test is strongly recommended
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

An interview is required for admission to the clinical psychology program. Students earn an MA en route to the PhD, but we do not admit students seeking a terminal master's degree.

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

Required Application Materials

Note: *Submit all application materials directly to the Graduate School*

- Graduate School online application including:
- Department application (available at department website)
- Personal statement
- Three letters of recommendation
- One official copy of each college transcript where a degree was earned or is pending
- Official GRE score report (subject test report recommended)
- Official TOEFL score (if applicable)

PhD Degree Completion Requirements

The PhD qualifying examination requirement is satisfied by successful completion of the MA degree. A master's degree with an empirical thesis is required for doctoral study. The master's with thesis is typically completed as part of a student's normal progress through the doctoral program.

Students with Degrees from Other Universities

Students who enter the doctoral program with a master's (thesis) degree from another university can satisfy the MA requirement at this university by having their thesis and course work approved by a three-member thesis committee. The committee must be composed of one faculty member from the student's training area, one faculty member from another training area, and one MU faculty member from outside the

department. Those entering the department with a master's degree obtained without an empirical thesis may meet this requirement by conducting an investigation under the supervision of their adviser and having the resulting thesis approved by a three-member committee with the composition identified above.

Plan of Study

General requirements for the PhD include nine hours of distribution courses, 11 hours in statistics, 24 hours in the area of concentration, other elective courses, and research. Students must earn 83 hours to graduate with the PhD. Practica, internship and additional course work are required for the clinical program. Other requirements include a dissertation and comprehensive and final oral examinations. More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook.

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.

PhD in Psychology with Emphasis in Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology. This program provides training in the area of developmental psychopathology with the added benefit of training in the practice of child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the Department of Psychological Sciences and complete requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

PhD in Psychology with Emphasis in Clinical and Quantitative Psychology

The page for this program is still under construction and should be available in future editions of the catalog. For further information

concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

PhD in Psychology with Emphasis in Quantitative Psychology

The goal of the PhD program with emphasis in quantitative psychology is to produce researchers who are able to develop, evaluate, and apply advanced methodological techniques to psychological research questions. The program offers considerable diversity in faculty research and coursework offerings; our substantive interests span clinical, social, health, developmental, and cognitive psychology. Quantitative areas of expertise cover a range of linear and non-linear approaches to modeling, as well as meta-analysis, time series, state-space models, and issues in large-scale data management.

Students in quantitative psychology complete course work in mathematical statistics, experimental design, and measurement, as well as courses in quantitative methods. Students can acquire extensive experience as statistical consultants through specific coursework in statistical consultation. Program requirements are fairly flexible, and students with particular interests in a substantive area of psychology are encouraged to take advanced courses in that area. Quantitative course offerings focus both on classic analytic methods as well as advanced techniques such as structural equation modeling, multilevel modeling, and meta-analysis.

Strong ties exist between the Department of Psychological Sciences and the Department of Statistics, and students may opt to complete a master's degree in statistics as they progress through the PhD program. In addition, students have the opportunity to gain experience as statistical consultants through specific coursework in this area.

On-going projects conducted by the faculty include research in meta-analytic and secondary analysis techniques, structural equation modeling, particularly as applied to longitudinal models of change and growth, multilevel modeling, and mathematical and statistical models of cognition and perception.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (<http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a

degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

PhD in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people's emotions, motivations, beliefs, and actions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

Faculty

Associate Professors R. J. Callahan*, S. M. Cohen*
Assistant Professors E. Drott*, C. Duncan*, R. Gregory*, N. Hofer*, D. Kelley*
Teaching Assistant Professors D. Cohen*, J. Flanagan*

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Religious Studies (p. 262)
- Minor in Religious Studies (p. 263)

The department's field of study includes religious expressions from many cultures and in every period of history. Systematic study of this rich world of expression employs the widest range of academic tools and competencies, from the skills of the literary critic and historian to the analytic abilities of the social scientist and anthropologist. Because of this broad base, study in the department promotes fundamental academic skills and critical judgment and provides deeper understanding of national and international cultures. Thus, the religious studies major provides students with a foundation to pursue careers in business, government, counseling, law, medicine and journalism, as well as advanced professional study in religion. The department offers BA and MA degrees with majors in Religious Studies. A minor is also available.

Double Majors

Students are encouraged to pursue dual majors that combine religion with other interests.

- MA in Religious Studies (p. 263)

About the Religious Studies MA Program

The master's program in religious studies at the University of Missouri is a two-year stand-alone graduate program in the academic study of religion. Many of the program's alumni have gone on to PhD programs in religious studies or related disciplines, while others have completed the master's degree in order to enrich their educational lives or to prepare

for work in journalism, education, law, or other fields that demand critical thinking and analytical skills.

The master's program offers training in the academic study of religion, with particular emphasis on theory and methods in religious studies. Students work closely with their advisors and mentors in order to develop and grow as scholars of the discipline. The department offers courses in the areas of Biblical Studies, History of Christianity, Religion in America, Islam, Judaism, Indigenous Religions, Hinduism, Buddhism, Religions of China and Japan, Women and Religion, and Religion and Neuroscience.

Students must complete a total of 30 credit hours at the graduate level, pass comprehensive exams in theory and methods in the academic study of religion, and complete a Master's thesis or portfolio.

Undergraduate

BA in Religious Studies

Major Program Requirements

Students must earn a minimum GPA of 2.0 or higher in order to have the credit applied. In addition, students must complete all degree, college and university graduation requirements, including university general education (p. 18).

Major core requirements

REL_ST 1100 or REL_ST 2110	Introduction to Religion Religions of the World	3
REL_ST 3990	Majors Seminar	3
REL_ST 4100	Advanced Theories and Methods	3
REL_ST 4990	Senior Seminar in Religious Studies	3

Additional requirements

At least one course in Asian, Western, and Indigenous Religions.	18
Total Credits	30

Semester Plan

Below is a **sample** plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Admission Criteria

- Fall deadline:
 February 1 (for consideration of financial aid)
 April 1 (for students not seeking financial aid)
- Spring deadline: October 15
- Minimum GPA: 3.0
- Minimum GRE score: none set
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

Required Application Materials

To the Graduate School

All required Graduate School documents, including transcripts

To the Religious Studies MA Program

Departmental application and writing sample
 3 letters of recommendation (use departmental form)
 GRE score report

Additional Information

The match between the interests of applicants and the areas of emphasis offered in the program will be an important consideration in the evaluation of applications.

All application materials are available online, and applications should be submitted electronically at <https://app.applyyourself.com/?id=umc-grad>. Although electronic applications are preferred, a student may also print out the application materials and mail them to the Religious Studies Department at the following address:
 The Director of Graduate Studies
 The Department of Religious Studies
 221 A&S
 The University of Missouri
 Columbia, MO 65211

International students should contact the Office for International Admissions. Students whose native language is not English should achieve a score of 550 or more on the TOEFL exam for admission to the program.

Applications must be completed at least six weeks before the start of graduate studies. Applicants seeking teaching assistantships or fellowships must submit applications no later than February 1. Notification of admission and awards will be made no later than April 1. Applicants who wish to enter the program in January of an academic year must submit materials no later than October 15.

Romance Languages

Flore Zéphir, Chair
Department of Romance Languages and Literature
143 Arts and Science Building
(573) 882-4874
Fax: (573) 884-8171
ZephirF@missouri.edu

The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences.

The Department of Romance Languages and Literatures offers language and literature courses in French, Italian, Portuguese and Spanish. Students may elect a major in Romance Languages with an emphasis in French or Spanish. Minors are also available in Afro-Romance literatures in Translation, French, Italian Area Studies, Luso-Brazilian Area Studies, Romance Literatures in Translation, and Spanish. The department also participates in the interdepartmental minor in film studies.

Double majors within the College of Arts and Science, as well as dual degree programs outside of the College of Arts and Science, can be arranged if the second degree is identified early. Combined programs with journalism, political science, agriculture, education and business are among the possibilities.

The department offers BA and MA degrees in Romance Languages with major emphasis in French and Spanish; an MA with a major in French Language Teaching or Spanish Language Teaching, and a PhD in Romance Languages. Minors are also available.

About the Department of Romance Languages and Literatures

The Department of Romance Languages and Literatures offers graduate degree programs with an emphasis in Spanish (p. 269), and French (p. 266), both with the option of an emphasis in foreign language teaching. The department's faculty and graduate student seminars are an interdisciplinary, interdepartmental series seeking to provide a collegial atmosphere in which scholars can present their recent work. The department strongly encourages study abroad as a way to reinforce language skills, broaden one's horizons, and add an unforgettable experience to a meaningful university education.

The Department of Romance Languages and Literatures at the University of Missouri has the country's only focus area in the field of Afro-Romance Studies. In order to facilitate research collaboration between our faculty members working in this field and scholars outside our institution, we have established the Institute for Languages and Literatures of the African Diaspora. The Institute serves first and foremost to expose black writers of French, Portuguese and Spanish expression to a wider audience.

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

BA in Romance Languages

Major Program Requirements

The bachelor of arts degree in Romance Languages is offered in two emphasis areas: French (p. 265) and Spanish (p. 265). Students must choose one of the emphasis areas to earn the BA in Romance Languages. Details on the requirements for the programs are listed under each emphasis.

Semester Plan

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in French (p. 265) or Spanish (p. 265).

BA in Romance Languages with Emphasis in French

Major Program Requirements

Students may obtain a BA in Romance Languages with an emphasis in French with a minimum of 30 credits in French beyond FRENCH 2100. Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements, including University general education.

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in French, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses).

Major core requirements

FRENCH 2160	Intermediate French Composition and Conversation	3
FRENCH 3160	Advanced French Composition and Conversation I	3
or FRENCH 3280	Commercial French	
FRENCH 3410	Introduction to Literary Analysis	3
FRENCH 3420	Introduction to French Literature I	3
FRENCH 3430	Introduction to French Literature II	3
FRENCH 4130	Stylistics	3

Additional Requirements

- Students must complete five additional 4000-level courses (one of which must be stylistics and one must be a capstone) selected with the advisor's approval. FRENCH 4960: Special Readings in French cannot be used to fulfill this requirement except by permission of the department chair.
- Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of FRENCH 3420 or FRENCH 3430, and must complete a minor.
- It is highly recommended that students take FRENCH 2310: French Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a French-speaking country.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available

First Year		
Fall	CR Spring	CR

^{*} Course meets University general education and/or campus requirements

Electives may be replaced by courses that fulfill requirements for a double/dual major or a minor.

BA in Romance Languages with Emphasis in Spanish

Major Program Requirements

Students may obtain a BA in Romance Languages with an emphasis in Spanish with a minimum of 30 credits in Spanish beyond SPAN 2100. Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements, including University general education (p. 18).

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in Spanish, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses):

Major core requirements

SPAN 2160	Intermediate Spanish Composition and Conversation (SPAN 2100)	3
SPAN 3150	Advanced Spanish Conversation (SPAN 2160)	3
OR SPAN 3720: Spanish Phonetics (SPAN 2160)		
SPAN 3160	Advanced Spanish Composition (SPAN 2160)	3
OR SPAN 3280: Commercial Spanish (SPAN 2160)		
SPAN 3420	Introduction to Hispanic Literature I (SPAN 3160)	3
SPAN 3430	Introduction to Hispanic Literature II (SPAN 3160)	3

Additional Requirements

Students must complete five 4000-level courses (one of which must be a capstone) selected with the advisor's approval. These courses must be distributed in one of the following options:

- Option 1: two peninsular lit., two Spanish-American lit., one course of choice (one course must be capstone).
- Option 2: one peninsular lit., one Spanish-American lit., one language/civilization, one capstone and one course of choice.

It should be noted that SPAN 4960 Special Readings in Spanish cannot be used to fulfill this requirement except by permission of the department chair. Students who plan to teach at any level should include courses SPAN 3160 and SPAN 3721, rather than their alternates.

- Students beginning at a level higher than SPAN 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of SPAN 3420 or SPAN 3430, and must complete a minor.
- It is highly recommended that students take SPAN 2310 Spanish Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a Spanish-speaking country.

Graduate

MA in Romance Languages

The master of arts degree in Romance Languages is offered in three emphasis areas. Students must choose one of the emphasis areas listed below:

- French (p. 266)
- Spanish (p. 269)
- Language Teaching (p. 268)

Details on the requirements for the programs are listed under each emphasis.

MA in Romance Languages with emphasis in French

Admission Contact Information
 Mary Harris
 143 Arts and Science
 Columbia, MO 65211
 573-882-5039
<http://romancelanguages.missouri.edu/grad.shtml>

Admission Criteria

Fall deadline: February 15

Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor's degree
- Minimum TOEFL scores (international applicants):

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Note: Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Graduate School

- All required Graduate School documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students' plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an

emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student's major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take French/Spanish 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Graduate School Office

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department's need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master's Thesis

The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School's guidelines for thesis/dissertation

writing as the thesis must conform to the Graduate School's formatting and style specifications.

Thesis Committee

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master's examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate's language of specialization.

Grading of the Comprehensive Exam

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

MA in Romance Languages with emphasis in Language Teaching

Admission

Students desiring to work for the degree of Master of Arts, Emphasis on Language Teaching (MALT) should apply directly online to the Graduate School. Applicants can find links for information, instructions for applying and the online application form on the Graduate School's site (<http://gradschool.missouri.edu/admissions>). This online form is submitted electronically to the Graduate School, along with the application fee.

Additionally, the following materials submitted via the Graduate School's Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) system:

- Official transcripts from the institution(s) previously attended
- TOEFL scores (international applicants only)
- Photocopies of diplomas earned at colleges/universities outside the US (international applicants only)

In addition, our department requires the following materials from all applicants:

- Departmental Graduate Studies Application
- Three Letters of Reference
- A 10-15 page-writing sample
- 500-word personal statement detailing the applicant's reasons for selecting the University of Missouri for graduate studies and academic/career goals. Applicants may also send other supporting materials, such as a résumé, if desired.

The application form and the form for reference letters are available on the Department's page (<http://romancelanguages.missouri.edu>).

Eligibility

Candidates for the MA must hold a Bachelor's degree (or equivalent) with a grade point average of 3.0 or better in their major field of study. They must also demonstrate adequate preparation in advanced language and literature courses for admission. This will normally be four courses equivalent to a 4000-level course at the University of Missouri. At least three of these courses must be in literature or linguistics. If the Admissions Committee believes that a deficiency exists, it will prescribe additional course work (during the first year of enrollment) beyond the 30 credit hours necessary for the MALT degree. The Director of Graduate Studies will inform students of these additional requirements at the time of admission.

All non-native speakers of French/Spanish will be required to complete an online proficiency assessment prior to admission. Applicants will be contacted by the appropriate course coordinators to schedule this assessment. Students who are judged deficient in any of these areas are required to do remedial work. New graduate students who are required to do remedial work because of the departmental language proficiency examination will be retested within one year. Students must receive a passing score, or their candidacy will be terminated.

All graduate students will be assigned an advisor by the Director of Graduate Studies at the start of their first semester of graduate study.

MALT Program of Study

A total of 30 hours selected from courses receiving graduate credit must be completed for the MALT (Master of Arts in Language Teaching). A minimum of 21 of the 30 hours must be taken in either French or Spanish. At least 15 hours must be in courses at the 8000 level or above. Of these 8000-level courses, six hours must be in the Department of Romance Languages. The remaining 9 hours may be taken from course work outside the department with the approval of the student's academic advisor.

Note: The College of Education no longer offers a certification program in the field of foreign language education. However, students who do not have a teaching certificate and who are interested in completing relevant courses in the field of education while working on their MALT will need to contact the professional advisors in the School of Education. These students, with advisor's consent, could use their 9 hours allowed outside the department-provided that they are graduate-level courses-toward courses in education. At the completion of their MA, students can work directly with the Missouri Department of Elementary and Secondary Education to see how they can be certified in the State of Missouri.

Please note also that the number of hours of credit allowed for Special Readings (7960) and Problems (8085) may not exceed twelve. MA

candidates may not take more than one of these two independent readings course per semester.

Students wishing to transfer MA credits from another university may transfer up to six hours, provided these courses were taken within the last eight years.

MALT candidates must submit a completed M-1 Program of Study to the Graduate School at least one semester before completing their comprehensive examinations.

Teaching Assistants

MALT students normally have 4 semesters of support in which to complete their degree. This support will customarily take the form of a Graduate Instructorship. MA students may not teach more than ten hours per semester. A fifth and final semester may be granted in exceptional circumstances to students in good standing (i.e., no incompletes, history of good teaching, etc.). This extra semester will be awarded on the basis of departmental need and will be granted only if a request is made formally and in writing to the Graduate Studies Committee, which will make its recommendation to the entire faculty. No student will receive support beyond the fifth semester.

The normal course load for MALT candidates holding teaching assistantships is 9 hours. All MALT candidates must register for a minimum of 6 hours of graded courses included in the Master's program in every semester in which they hold a teaching assistantship. Exceptions to this regulation must have the approval of the Graduate Studies Committee prior to registration. International students must not fall below six hours or they will lose their student status. Students who have completed all coursework may enroll in up to 6 hours per semester of 8080 (Readings) in order to prepare for the MALT exam.

The faculty and the course directors in each of the major languages will meet during the fall and winter semesters to evaluate the performance of all graduate students as students and as teaching assistants. The Director of Graduate Studies will inform all students in writing of their status following this formal performance review.

Any student who fails to have an incomplete removed within one year of its issuance will be limited to teaching one class per semester until the incomplete grade is removed. This excludes Dissertation/Thesis (9090) courses.

Course Distribution

The course distribution for the MALT program is as follows:

WITHIN THE DEPARTMENT

* Language/Linguistics	6
Course may be take from:	
FRENCH 7710 History of the French Language	3
FRENCH 7130 Stylistics	3
FRENCH 7720 Structure of Modern French	3
or any French language/linguistic course approved by the student's advisor	
* Civilization/Culture	3-6
FRENCH 7510 African Francophone Literature	3
FRENCH 7980 Special Themes in French	3
FRENCH 8087 Seminar in French	3
* Literature	3-6

French: any one or two courses in French or Francophone literature at the 7000 level or above (see Graduate Courses for wide range of offering)

* Methodology/Second Language Acquisition	9
FRENCH 7120 Foreign Language Teaching Methodology	3
or SPAN 7120 Foreign Language Teaching Methodology	
FRENCH 8087 Seminar in French	3
or SPAN 8087 Seminar in Spanish	
FRENCH 8120 Bilingualism and Language Contact	3
or SPAN 8120 Bilingualism and Language Contact	

OUTSIDE THE DEPARTMENT (UP TO 9 HRS)

** For students interested in education, suggested courses from the College of Education can include:

- ESC_PS 7000 Foundation of Teacher Prep I
- SPC_ED 7020 Foundation of Teacher Prep II

Preparation II (4)

** For students interested in ESL, courses can include:

- Structure of American English (3)
- History of the English Language (3)
- Regional and Social Dialects of English (3)

Please Note: Courses taken outside the department must be approved by the student's academic advisor.

Comprehensive Examination for the MALT degree

All graduate students in Language Teaching are required to pass a series of examinations in order to fulfill degree requirements.

* Written Examination

All students take a six-hour written examination, which consists of three two-hour components. Two of the components include: a) Foreign Language Methodology and Second Language Acquisition; b) Applied Linguistics. In addition, each candidate will be examined in a third field of their choice, either civilization/culture or literature. The two-hour written questions will reflect the coursework completed by each candidate and appropriate texts suggested by faculty represented on the examination committee. These examinations are generally given in November and March.

The MALT examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade, the candidate must attain a Pass in all fields of the written examination. Should a candidate fail any part of the exam and wish second consideration for the degree (s)he must retake the failed section(s). Two failures eliminate the candidate from consideration for the MA in language teaching.

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master's examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate's language of specialization.

Grading of the Comprehensive Exam

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

PhD in Romance Languages

Note to Internal Doctoral Applicants

Students who wish to advance to the doctoral program after completing their MA degree in the Department of Romance Languages and Literatures may do so only after receiving written approval from the MA examining committee. Alternatively, candidates may not advance to the

doctoral program if the examining committee determines, after the MA examination, that their degree is terminal.

Students advancing directly from the MA to the PhD program need to complete only a Change of Degree Program form, which the department submits to the Graduate School.

Students who apply to the doctoral program one semester or more after completing their MA examinations must complete a Request to Re-enroll form and reapply to the doctoral program. They must submit a new departmental application and reference letters. They need not submit a new application to the Graduate School.

Application and Admission Information

Admission Contact Information

Mary Harris
143 Arts and Science
Columbia, MO 65211
573-882-5039
<http://romancelanguages.missouri.edu/grad.shtml>

PhD Admission Criteria

Fall deadline: February 15
Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Doctoral applicants must have a master's degree.
- Minimum TOEFL scores (international applicants):

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

Submit to the Graduate School using the online application system:

- All required Graduate School documents
- Official Transcript (send to Graduate School at 210 Jesse Hall, University of Missouri, Columbia, MO 65211-1160)
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Note: All application forms are on the Graduate School site

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Candidates may elect a secondary field, which entails a minimum of 9 hours of course work within another department, in consultation with their doctoral program committee. This secondary field appears on students' plan of study, but not on their transcript. Students electing a secondary field must complete a PhD examination that will include at least one question devoted to their secondary field.

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Qualifying Examination

All PhD candidates must complete a qualifying examination during their first year in the program to determine their fitness for doctoral study.

Exemptions

The faculty may excuse students from this requirement if those students received their MA degree from this department, earned a grade of High Pass on all sections of their MA examination, and enrolled in the PhD program the semester after fulfilling all requirements for the MA degree.

Purpose and Questions

The qualifying examination provides an opportunity for the faculty to evaluate candidates and advise their future course of study in the program. The examination consists of two questions related to the candidate's course work during the previous and current semester: one question requires analysis of a text; the other, discussion of a general topic (e.g., a literary genre, a particular author, a critical or artistic movement, and so on). The candidate's academic advisor delivers both questions to the candidate three days before a meeting with the examining committee.

Exam Meeting with the Committee

At this meeting, the candidate offers two oral presentations of 20-25 minutes each, based on the two questions. Following these presentations, the candidate responds to comments and questions from the examining committee. At the close of this meeting, the examining committee determines whether the candidate's performance warrants a grade of Pass or Fail. The examining committee communicates these results to the Graduate School in writing, on a D-1 form bearing the signatures of the candidate and all members of the committee. Students who receive a failing grade must retake this examination before the end of the following semester. A second failure on this examination terminates eligibility for the PhD degree and will result in dismissal from the graduate program.

Arranging the Committee

All arrangements for the qualifying examination are the joint responsibility of the candidate and the candidate's academic advisor. Any tenured or tenure-track member of the faculty may act as academic advisor to students during their first year of doctoral study. The academic

advisor need not act as the director of that student's PhD examination or dissertation committee.

Submitting Results

Students who earn a passing grade on their qualifying examination submit the D-1 form to the Graduate School, communicating the results of the examination and formally naming their doctoral committee.

Plan of Study & Degree Requirements

After the qualifying exam, students and their doctoral committee meet to devise a plan of study. The doctoral committee signs and submits this plan of study with the D-2 form to the Graduate School. Students in the PhD program must complete a minimum of 72 hours of course work, which includes a maximum of 30 credit hours earned as part of their MA degree. These credit hours must include course work in language teaching methodology (FRENCH 7120/SPAN 7120 or the equivalent) and, if applicable, the candidate's secondary field. Spanish doctoral candidates must also complete course work in Old Spanish.

Foreign Language Requirements

PhD candidates must demonstrate reading proficiency in 2 languages other than English and their language of specialization (French or Spanish). They may satisfy this requirement, at a minimum, by completing intensive beginning courses in the required languages (4070 or the equivalent) with a grade of B- or better, or by passing written examinations administered by departments at the University of Missouri offering courses in those languages. Students choosing Latin as one of their foreign languages may satisfy this requirement by completing with a grade of B- or better, a beginning honors class (LATIN 1100H, or the equivalent). Students also fulfill this requirement if they demonstrate proficiency by objective measures (courses, examinations) that exceed this minimum standard, as approved by the Director of Graduate Studies.

Students must satisfy the foreign language requirement before they take their Comprehensive Examination for the PhD. Basic language courses carry no credit toward the PhD and are therefore not included in the Plan of Study.

Latin Requirements for Students of Medieval and Renaissance Literatures

Students specializing in literature of either the Middle Ages or the Renaissance- literature produced within the period from the rise of the vernacular to the end of the seventeenth century- must demonstrate reading proficiency in Latin. In doing so, they fulfill half their foreign language requirement. They demonstrate proficiency in Latin according to the standard explained in the previous paragraph: by means of a beginning Honors course (LATIN 1100H), a written examination administered by the Classics Department, or equivalents of these.

Language Requirements for Students With Secondary Field in Non-English Literature

Students pursuing a secondary field in a non-English literature different from that of their major field must complete with a final grade of B- or better at least three 7000-level courses (or the equivalent) in literature of their secondary field. Completing these courses fulfills half the foreign language requirement.

For example, a student specializing in French literature of the Romantic period may choose a secondary field of German literature of the Romantic period. That student must complete 3 courses in German

literature at the 7000 level (or the equivalent). Completing these courses satisfies half the foreign language requirement.

Financial Support: Graduate Instructorships

PhD candidates normally receive 6 semesters of financial support from the university while completing their plan of study and 4 additional semesters of support after completing their PhD examination. This support will customarily take the form of a Graduate Instructorship, though it may take the form of either a Research or Teaching Assistantship.

The minimum teaching assignment for PhD candidates holding instructorships is one course during their first semester of study. Depending on staffing needs, there may be an opportunity to teach two courses per semester. Students writing their dissertation may teach an additional course. International students may never teach more than 2 courses per semester owing to visa restrictions. All PhD candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship.

Students may enroll in a maximum of 6 hours per semester of 9080 (Readings) if they have completed all their course work and are preparing for their PhD exams. Students may enroll in a maximum of 12 hours of 9080 (Readings) over the course of their doctoral studies, provided this occurs within their first six semesters of financial support. After passing their PhD examination, students may retain their Instructorships if they enroll in Research (9090) for a minimum of 5 credit hours per year (2 in fall; 2 in spring; 1 in summer).

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester as long that grade of Incomplete remains on their academic record. This restriction applies to courses other than Research (9090).

The PhD Comprehensive Examination

Reading List, Examining Committee, and Faculty Preparing Questions

Each candidate will name a PhD Examining Committee and, as necessary, other faculty members who will prepare examination questions relating to their respective periods of expertise. The Examining Committee consists of at least 4 members: 3 members of the regular (tenured or tenure-track) faculty from the Department of Romance Languages and Literatures, including the student's academic advisor, 1 outside member from a different department. All of them must belong to the graduate faculty at the University of Missouri. Beyond this minimum, candidates may name other members to the committee - recognized experts in the candidates field - from either the University of Missouri or another institution, with the approval of both the student's academic advisor and the Director of Graduate Studies.

A member of the regular faculty in the Department of Romance Languages and Literatures who is an expert in literature pertaining to each part of the PhD examination will prepare questions for that part. If there is only one available expert in a specific field (for example, only one regular faculty member who is an expert in Medieval literature of either France or Spain), that faculty member must prepare and grade

examination questions relating to that field. If there is more than one expert available in a particular field (for example, more than one member of the regular faculty who is an expert in contemporary French literature, contemporary Spanish literature, or contemporary Spanish-American literature), the student may choose one of those faculty members to prepare and grade questions in that field.

All questions on the PhD Examination derive from a reading list that the candidate compiles with the collaboration and approval of the Doctoral Committee and of all other faculty preparing questions. This list aims at both breadth and depth, but mainly depth. It should include texts of literature, criticism, and history that are indispensable for an expert in the candidate's specialized field. Yet, in the non-specialized fields, this list should include a solid literary history of all genres in the period (drama, fiction, lyric, essay), while also including literary texts that would prove indispensable only for an undergraduate survey course that the candidate might teach on works of all periods and all genres over a span of two semesters. In other words, readings from this list should yield both a generalist and a specialist - an instructor who can both design and teach a survey course, and an expert who can produce original scholarship.

Timetable of the PhD Comprehensive Examination in French and Spanish

The candidate and the academic advisor set both the dates and the order for all parts of the Comprehensive Examination, in consultation with the Director of Graduate Studies. The Comprehensive Examination in French or Spanish consists of a written and an oral section. The written section comprises 4 parts of 3 hours per part. Candidates complete the written examination on 4 separate days - 1 part per day - within a period of 14 days. They complete the oral examination no later than five weeks after earning a passing grade on all parts of the written examination. This allows candidates to complete the written examination at the end of the fall semester and to complete the oral examination at the start of the spring semester of the same scholastic year.

Either the Director of Graduate Studies or someone delegated by the Director of Graduate Studies will administer the written part of the PhD Examination. Only members of the department faculty or departmental staff may administer the examination.

Oral Examination

Students complete the oral examination after receiving a passing grade on all sections of the written examination. The oral examination will last 1-2 hours, part of which must be in the language of the candidate's specialized field. The oral exam allows candidates to clarify, strengthen or amplify the answers of the written exam. Only members of the Doctoral Committee must attend the oral examination.

With permission from the Doctoral Committee, students who fail part of the written or oral examination may retake only the failed part of parts. A minimum of 14 days must elapse before a student retakes a failed part or failed parts of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

Prospectus

After passing both the written and oral parts of the PhD Examination, doctoral students present a prospectus of the dissertation. This presentation occurs immediately after completing and passing the oral part of the Examination. Candidates prepare the prospectus in consultation with the academic advisor and deliver it in writing at least one week before the date of the oral examination to all members of the

Doctoral Committee. The Prospectus requires approval by all members of the Doctoral Committee.

The prospectus presents a working outline, with a working bibliography, of the proposed project - its topic, organization, and critical method. Just as important, the prospectus should present a line of inquiry that promises to contribute to human knowledge - a thesis, or a position that warrants defending by means of both critical analysis and empirical evidence.

Research and Dissertation

Doctoral students register in 9090 (Research) once they have passed their PhD examinations. They will need to enroll for a minimum of 2 credit hours of 9090 during the fall and spring semesters and 1 hour during the summer semester in order to complete the 12 hours of dissertation credits required for graduation. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. Doctoral students should complete all requirements for the degree, including the dissertation, within five years of passing the comprehensive examination. The Graduate School extends this deadline in extenuating circumstances. Nonetheless, students must request additional time in writing from the director of graduate studies. Failure to show sufficient progress on the dissertation may result in dismissal from the graduate program. Students should obtain the Graduate School's guidelines for thesis/dissertation writing since the dissertation must conform to the formatting and style specifications established by the Graduate School.

Defense

Candidates and their directors schedule a formal defense of a dissertation after its acceptance by all members of the doctoral committee. This oral defense, conducted by members of the doctoral committee, is open to the public. For additional information, contact the Director of Graduate Studies in the Department of Romance Languages and Literatures.

Russian

Tim Langen, Chair
College of Arts and Science
451 Strickland Hall
(573) 882-4328
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German and in Russian, and the Master of Arts in German and in Russian and Slavonic Studies. The department also offers minors in German and in Russian. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor G. Barabtarlo*
Associate Professor T. Langen*
Assistant Professor M. Kelly*
Associate Teaching Professor N. Monnier*

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Russian (p. 276)
- Minor in Russian (p. 276)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - Russian

Departmental honors are available for students majoring in Russian with a minimum 3.3 GPA. A three-course literature sequence must be completed with no grades below B or, at the discretion of the department, a thesis paper may be written.

Beginning Fall 2013: Departmental Honors are available for student majoring in Russian with a minimum 3.5 GPA in the Russian major and 3.3 GPA overall. Students must complete a minimum of three literature

courses, two of which must be at the 4000 level, with no grades below a B. At the discretion of the department, students may write a thesis paper in lieu of one of the 4000 level literature courses.

Graduate

College of Arts and Science
451 Strickland Hall
573-882-4328
<http://grs.missouri.edu/degprogs/russianguardstudies.html>

Director of Graduate Studies: Gene Barabtarlo

- MA in Russian and Slavonic Studies (p. 276)

The Master of Arts program in Russian and Slavonic Studies offers advanced study in the literature and culture of Russia. Course offerings are primarily in literature, but reflect a variety of interrelated fields, including religion, philology, intellectual history, and philosophy. In two years of coursework students receive training in the theory and history of Russian literature and culture in general, as well as an introduction to the history of the language.

Careers

Students may go on to careers in a number of fields, including government work and international business; they will also be prepared to continue their studies at the doctoral level.

Facilities and Resources

The library of the University of Missouri is particularly strong in Russian history and literature. We are also part of a consortium that provides quick access to the holdings of many other major academic and public libraries.

Financial Support

In this program, qualified graduate students may have the opportunity to work as teaching assistants in language, literature or civilization courses. Incoming graduate students are normally offered paid positions as Teaching Assistants. To be eligible for a teaching assistantship, your application must be received by March 1. Teaching assistants (TAs) are normally appointed for one academic year (two semesters / nine months). The Fall Semester runs from late August to mid-December; the Spring Semester from mid-January to mid-May. TA appointments are normally renewed for the second year of study when teaching and progress toward the degree are satisfactory. Appointments after the second year may be available in special cases, depending upon departmental needs and resources. At present the TA position provides a stipend of approximately \$1,000 per month. In addition, fees for courses taken toward the MA are waived for TAs. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. The Graduate School offers several valuable fellowships for which the department may nominate incoming students.

Undergraduate

BA in Russian

Major Program Requirements

The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture (see below). The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. In addition, students must meet all degree, college and university graduation requirements, including those for university general education (p. 18).

Major core requirements (beyond the A&S language requirement)

The following courses or their equivalents must be included:

RUSS 2130	Second-Year Russian I	4
RUSS 2160	Second-Year Russian II	4
RUSS 3130	Intermediate Russian	3
or RUSS 3160	Intermediate Conversation and Composition	

Two of the following seven courses: 6

RUSS 2100	Classics and Iconoclasts: An Introduction to Russian Literature	
RUSS 3310	Heroes of Their Times: Individualism in Russian Literature	
RUSS 3320	Matters of Life and Death: The Fiction of Tolstoy and Dostoevsky	
RUSS 3330	Decline, Fall, and Resurrection in Modern Russian Literature	
RUSS 3350	The Split Tree of Russian Literature: Contemporary Russian Prose	
RUSS 3380	Sinners, Saints, and Madmen: 19th Century Russian Literature	
RUSS 3390	True Fictions: Russian Prose since 1900	

One 4000-level literature course 3

RUSS 2310	Between Heaven and Earth: Russian Civilization *	3
-----------	--	---

or RUSS 2320 The Arts of Survival: Civilization in Soviet Times

Electives

Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor

Total Credits 23

* Both RUSS 2310 and RUSS 2320 are Writing Intensive Russian civilization courses.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
RUSS 1100	6 RUSS 1200	6
HIST 1100	3 Course for second major / minor	3
ENGLSH 1000	3 MATH 1100	3
Foundation Requirements (humanities)	3 Foundation Requirements (behavioral Sciences)	3
	15	15

Second Year		
Fall	CR Spring	CR
RUSS 2130	4 RUSS 2160	4
RUSS 2310	3 RUSS 3320	3
Course for second major / minor	3 Course for second major / minor	3
Foundation Requirements (sciences, Math Reasoning Proficiency)	3 Foundation Requirements (humanities)	3
Foundation Requirements (social science)	3 Foundation Requirements (sciences)	3
	16	16

Third Year		
Fall	CR Spring	CR
RUSS 3130	3 RUSS 3630	3
RUSS 3310	3 Foundation Requirements(science with lab)	5
Foundation Requirements (humanities)	3 Foundation Requirements(behavioral sciences)	4
Course for second major / minor	3 Course for second major /minor / elective	3
Course for second major / minor	3	
	15	15

Fourth Year		
Fall	CR Spring	CR
RUSS 3890	3 4000-level Russian literature course	3
4000-level Russian literature/ culture course	3 Capstone course for second major /elective	3
Foundation Requirements (humanities)	3 Foundation Requirements (social sciences)	3
Second major/ minor / elective	3 Second major/ minor / elective	3
Second major/ minor / elective	3 Second major/ minor / elective	3
	15	15

Total Credits: 122

Minor in Russian

The department offers a minor in Russian, consisting of 15 credits beyond RUSS 1200. A minimum of 6 of these 15 credits must be in Russian courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence.

Graduate

MA in Russian and Slavonic Studies

Admission Contact Information

Professor Gene Barabtarlo

Send email to Dr. Barabtarlo: barabtarlog@missouri.edu

451 Strickland Hall
Columbia, MO 65211
573-882-4328

Admission Information

Before applying, please send an informal letter of intent or inquiry to Dr. Barabtarlo at either the physical address or e-mail address above.

Admission Criteria

Fall deadline: March 1 (domestic); February 1 (international)

Note: to be eligible for a teaching assistantship, application must be received by March 1

Spring deadline: September 1 (domestic); May 1 (international)

Minimum GPA: 3.0 in last 60 hours

Undergraduate major or minor in Russian or equivalent

Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

Note: No language other than English and Russian is required for admission.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Program:

- 2 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. In accordance with Graduate School policy, no fewer than 24 of these must be Russian and Slavonic Studies courses at the 7000 or 8000 level, with at least 12 at the 8000 level. In addition, students must demonstrate adequate language skills in English and Russian.

Thesis

A master's thesis is optional.

Sociology

J. Gubrium, Chair
 College of Arts and Science
 312 Middlebush Hall
 (573) 882-8331
 johnsonvi@missouri.edu

Sociology is a discipline founded over 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior.

Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. Sociologists are knowledge builders, rather than change agents, although there is an emergent group of scholars who apply sociological knowledge to create changes in organizations, individuals and communities. Sociology contributes to human improvement by seeing that change can be based on credible information and reasoned understanding of how humans work together in groups or larger aggregates.

- PhD in Sociology (p. 280)

About the Program

The Department of Sociology engages students in research, utilizing qualitative and quantitative research methodologies, in order to analyze issues and problems affecting societies. The core of doctoral training is in classical and contemporary theory, and research methods including quantitative, historical, and feminist methodologies, and interviews and field work.

Specializations

Students may focus their studies on any two of the following graduate program areas:

- Culture and Identity
- Health, Aging, and Environment
- Political Economy, Power, and Movements
- Social Control & Deviance
- Social Inequalities

Within these program areas, students conduct research on such topics as gender, health-care policy, popular culture, hunger, race, criminology, sexualities, and elites and protest movements in the global economy.

Financial Aid from the Program

Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

Undergraduate

BA in Sociology

Major Program Requirements

A Bachelor of Arts with a major in Sociology consists of 30 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience. It is expected that students start with entry courses, progress to basic courses and then to upper-level electives. In addition, students must complete all degree, College of Arts and Sciences and University graduation requirements, including University General Education.

Major core requirements

Entry courses		
SOCIOL 1000	Introduction to Sociology	3
SOCIOL 2200	Social Inequalities	3
Basic courses		
SOCIOL 2950	Social Research I	3
SOCIOL 3100	Recent Theories in Sociology (prerequisite: SOCIOL 2200)	3

Post-basic courses

Three additional sociology courses numbered 3000 or above; may include no more than 3 credits in SOCIOL 4940, SOCIOL 4942, or SOCIOL 4960 9

Additional hours in sociology 6

An additional 6 credits in elective coursework in the major

Capstone course

SOCIOL 4970 Senior Seminar 3

Should be taken in the last semester of undergraduate work

Departmental honors

SOCIOL 4995 Honors in Sociology (1st semester of senior year) 3

SOCIOL 4995 Honors in Sociology (2nd semester of senior year) 3

Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970. Students enroll in SOCIOL 4995 for 3 credits each semester of the senior year.

Statistics

A course in statistics is not required for the major. However, such a course is highly recommended, especially for students considering graduate or professional school.

Suggested courses:

STAT 1200 Introductory Statistical Reasoning

STAT 1300 Elementary Statistics

SOCIOL 4120 Social Statistics

Total Credits 30

Optional Tracks

The course work in sociology fits into five recommended tracks of study. Although sociology majors are *not required* to select a track, students who want a closer fit between the major and future employment are encouraged to do so. Each track has recommended courses in the major, complementary internships, and service learning opportunities. (Note: Tracks are not listed on transcripts or diplomas.) These tracks are outlined below.

Track: Law, Justice and Society

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 1650	Social Deviance	3
SOCIOL 3010	Social Problems	3
SOCIOL 3600	Criminology	3
SOCIOL 4500	Sociology of Social Policy	3
SOCIOL 4600	Contemporary Corrections	3
SOCIOL 4610	Society and Social Control	3

Track: Power, Inequalities and Social Change

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 2210	The Black Americans	3
SOCIOL 3200	Class, Status, and Power	3
SOCIOL 3210	Sociology of Globalization	3
SOCIOL 3320	Sociology of Gender	3
SOCIOL 3510	Public Opinion and Communication	3
SOCIOL 3520	Collective Behavior	3
SOCIOL 4220	Race and Ethnic Relations	3
SOCIOL 4230	Women, Development, and Globalization	3

Track: Sexuality, Health and the Life Course

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 1360	The Female Experience: Body, Identity, Culture	3
SOCIOL 2230	Social Perspectives on Aging	3
SOCIOL 3010	Social Problems	3
SOCIOL 3300	Queer Theories/Identities	3
SOCIOL 3320	Sociology of Gender	3
SOCIOL 3420	The Family	3
SOCIOL 3460	Technology and Society	3
SOCIOL 3440	Sociology of Health	3
SOCIOL 4210	Sociology of Aging	3
WGST 4420	Studies in Gender, Culture, and Politics	3

Track: Culture, Identity and the Media

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 2300	Self and Society	3
SOCIOL 2310	Culture and Mass Media	3
SOCIOL 3300	Queer Theories/Identities	3
SOCIOL 3310	Social Psychology	3
SOCIOL 3400	Politics of the Media	3
SOCIOL 3430	The Sociology of Sport	3
SOCIOL 3450	The Sociology of Religion	3
SOCIOL 3510	Public Opinion and Communication	3
SOCIOL 4320	Culture, Identity and Interaction	3

Track: Organizations, Work, Technology and the Economy

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 3200	Class, Status, and Power	3
SOCIOL 3210	Sociology of Globalization	3
SOCIOL 3460	Technology and Society	3
SOCIOL 3520	Collective Behavior	3
SOCIOL 3700	Organizations and Institutions	3
SOCIOL 3710	The Sociology of Work	3
SOCIOL 4230	Women, Development, and Globalization	3

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall	CR Spring		CR
SOCIOL 1000	3 SOCIOL 2200		3
ENGLSH 1000	3 MATH 1100		3
Humanities Elective	3 Humanities Elective		3
Social Science Elective (Missouri State Law Requirement)	3 Social Science Elective		3
Science Elective	3 Science Elective with Lab		4
	15		16
Second Year			
Fall	CR Spring		CR
SOCIOL 1650	3 SOCIOL 2950		3
Foreign Language level 1	3 SOCIOL 3600		3

Humanities Elective	5 Foreign Language level 2	5
Social Science Elective (upper level)	3 Humanities Elective (upper level)	3
Math/Proficiency Elective (preferably Statistics)	3 Behavioral Science Elective	3
	17	17

Third Year		
Fall	CR Spring	CR
SOCIOL 3200	3 SOCIOL 3100	3
Foreign Language level 3	3 Elective - upper level	3
Behavioral Science Elective (upper level)	3 Elective - upper level	3
Writing Intensive Elective	3 Elective	3
Elective	3 Elective	3
	15	15

Fourth Year		
Fall	CR Spring	CR
SOCIOL 3010	3 SOCIOL 4970	3
Elective - upper level	3 SOCIOL 4600	3
Elective - upper level	3 Elective	3
Elective	3 Elective	3
Elective	3 Elective	3
	15	15

Total Credits: 125

Minor in Sociology

To minor in sociology, a student must complete a total of 15 credits of sociology coursework as follows:

SOCIOL 1000	Introduction to Sociology	3
SOCIOL 2200	Social Inequalities	3
Two courses at the 3000-level or above		6
One other sociology course at any level		3
Total Credits		15

At least nine credit hours for the minor must be from MU courses.

Graduate

MA in Sociology

About the Master of Arts in Sociology

At this time, our Department is not admitting students who are seeking a terminal master's degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 280).

PhD in Sociology

Admission Contact Information

Graduate Admissions Coordinator (oakesm@missouri.edu)
 312 Middlebush Hall
 Columbia, MO 65211
 573-882-8331

Admission Criteria

Fall deadline: January 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
61	500

- Minimum GRE score: case-by-case
- 15 hours of undergraduate sociology with a grade of B or better, including one course in sociological theory and a basic statistics course

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Sociology Program: <http://sociology.missouri.edu/graduate/admission.shtml>

- GRE score report
- Departmental application
- 3 letters of recommendation
- Statement of research interests
- Copy of Graduate School application (needs to be printed out when done online)
- Copies of transcripts (it is helpful to have unofficial copies sent to the department)
- One page Application for Financial Support
- Research paper, master's thesis, senior thesis, or term paper

PhD Plan of Study

The PhD program requires a minimum of 30 hours of course work including:

SOCIOL 8100	Theoretical Thinking in Sociology	3
and two additional seminars in sociological theory:		
SOCIOL 9187	Seminar in Sociological Theory I	3
SOCIOL 9487	Seminar in Sociological Theory II	3
SOCIOL 8120	The Logic of Social Research	3
SOCIOL 7120	Social Statistics (or its equivalent)	3
SOCIOL 8130	Advanced Social Statistics	3
and two seminars in sociological research methods:		
SOCIOL 7110	Feminist Research and Criticism	3
SOCIOL 8187	Seminar on Interview Theory and Technique	3
SOCIOL 9287	Seminar in Qualitative Methods in Sociology	3
SOCIOL 9288	Ethnographic Fieldwork	3
SOCIOL 9687	Topical Seminar in Historical Sociology	3
SOCIOL 9837	Seminar in Multivariate Analysis Techniques	3
plus six courses targeted to the student's specialty interests.		

Exams and Research

All students are required to submit a research paper no later than their fourth semester of residence. Students with a Master's Thesis in sociology can fulfill this requirement as early as their first semester. At least eight months before the date on which they expect to complete the degree, candidates must pass a comprehensive examination centered on two of the five graduate program areas. Students must prepare and

successfully defend a dissertation that makes an original contribution to the discipline.

Statistics

Dongchu Sun, Chair
College of Arts and Science
146 Middlebush Hall
(573) 882-6376
www.stat.missouri.edu
dooleyj@missouri.edu

Information is needed to solve the many problems of today's world. How much information? What kind? After it is obtained, what must be done with it? Statisticians are trained to help answer these questions. Early admission into the Statistics Department will allow students to plan their programs so that the math and statistics prerequisites can be taken in the most efficient sequence.

The department offers BA, BS, MA and PhD degrees with a major in Statistics. A minor is also available.

Faculty

Professor N. Flournoy**, Z. He**, P. L. Speckman**, D. Sun**, J. Sun**, C. K. Wikle**

Associate Professor S. Chakraborty**, M. A. Ferreira**, S. Holan**, A. Micheas**, J. Qiu**, L. A. Thombs**

Assistant Professor S. Guha**, T. Ji*, X. Zhang*

Associate Teaching Professor S. Lee*, L. D. Ries*

Assistant Teaching Professor L. B. Hearne*

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Statistics (p. 283)
- BS in Statistics (p. 284)
- Minor in Statistics (p. 285)

Credit for Beginning Courses

(Applies to all students and all majors)

- A student may not receive credit toward an undergraduate degree for more than one of STAT 1200, STAT 1300 and STAT 1400.
- A student may not receive credit toward an undergraduate degree for more than one of STAT 2500 and STAT 2530 .
- Subject to the above restrictions, a student may receive a maximum of 4 credits toward an undergraduate degree for any combination of STAT 1200 , STAT 1300 , STAT 1400 , STAT 2200 , STAT 2500 and STAT 2530.
- A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

Department Degree Requirements - Statistics

The Department of Statistics approves majors in statistics only for students who have met the following criteria:

- Completion of at least one statistics course at the 3000-level or above (or equivalent)
- Cumulative GPA of at least 2.50 overall
- Have earned a grade of C or higher in each statistics course completed

Students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. In addition, students must complete all degree, college and university graduation requirements (p. 17), including university general education (p. 18).

Options

Students may pursue either a BA or a BS degree. For both degrees, students may pursue either a traditional track or an applied track.

Students who are interested in graduate study in statistics are strongly encouraged to follow the traditional track.

Departmental Honors

To be admitted to the undergraduate honors program in the Department of Statistics, a student must have completed at least 12 of the 21 credits of statistics courses required for the major, have a grade-point average of at least 3.25 in all completed statistics courses, and identify a faculty member from the department who agrees to supervise the student's honors research project.

In order to receive the departmental honors designation, students who have been accepted into the program must graduate with a grade-point average of at least 3.25 in statistics courses, prepare a senior thesis based on their honors project, and present the results of the thesis in a departmental colloquium or other public forum approved by their mentor. They also must earn a grade of "B" or better in 3 credits of STAT 4999 .

Graduate

- MA in Statistics (p. 285)
 - with emphasis in Biostatistics (p. 286)
- PhD in Statistics (p. 286)
- Graduate Minor in Statistics (p. 287)

About Statistics

The statistics department faculty is known for both cutting edge methodological and collaborative research and for outstanding teaching. Faculty members are currently investigating statistical problems in the fields of ecology, genetics, economics, meteorology, wildlife management, epidemiology, AIDS research, geophysics, and climatology. The program's faculty members have ongoing collaborative

programs across disciplines such as biostatistics, bioinformatics, economics, atmospheric science, psychology and with the Missouri Department of Conservation.

The graduate program provides opportunities for graduate study and thesis direction in various areas of probability and statistics, both theoretical and applied. A variety of consulting and collaborative opportunities allow both faculty and graduate students to conduct cooperative and interdisciplinary research. Regular statistics colloquia provide opportunities for faculty and outside speakers to present the results of their research. Faculty and graduate students also participate in weekly seminar series in Bayesian statistics, bioinformatics, and biostatistics.

Dual Master’s Degree in Economics and Statistics

The department offers a cooperative MA degree with the Economics Department. Students may obtain MA degrees in economics and statistics with 48 hours of course work numbered 7000 or higher from the University of Missouri instead of the 52 or more required for separate degrees. (These 48 hours may not include any of the following: Economics 7351, 7353, or Statistics 7510, 7530, 7710.) Eighteen or more hours are required from the Department of Economics. At least 15 hours must be numbered 8000 or higher with no more than four hours of 8090. Students must take the core economics courses 8451 and 8453 and research workshop 8413 (2 credit hours). Eighteen or more hours are required from the Department of Statistics. At least 15 hours must be numbered 8000 or higher with no more than three hours of 8090. Statistics 7750 and 7760 and Mathematics 7140 are required if equivalent courses were not taken as an undergraduate.

All candidates must submit a thesis or written project demonstrating an independent effort towards producing original work satisfactory for each degree. The candidate may complete separate theses/projects for both economics and statistics or a single joint thesis/project satisfying both requirements.

Career Opportunities

Statisticians are in demand in education, medicine, government, business and industry as well as in the biological, social and physical sciences.

Facilities & Resources

The Department of Statistics maintains a state-of-the-art computer network with Linux workstations and servers for research and personal productivity software on PCs. Students have access to the network through PCs in student offices and through the statistics department computer laboratory. An extensive library of software including R, SAS, and common programming languages is maintained. Students also have access to the campus computing network. The statistics department is located in newly renovated space in Middlebush, with easy access to the main library’s outstanding collection of books and journals in statistics.

Financial Aid from the Program

Fellowships and teaching and research assistantships are available to qualified graduate students. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

BA in Statistics

Major Program Requirements

Students must complete the university general education (p. 18) requirements and the Department (p. 282) Degree Requirements, in addition to the degree requirements below.

Mathematics courses

Traditional track		
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4140	Matrix Theory	3
Applied track		
MATH 1500	Analytic Geometry and Calculus I	5-6
or MATH 1300 & MATH 1400	Finite Mathematics and Calculus for Social and Life Sciences I	

6 additional credits in statistics (beyond those used to fulfill the statistics requirements of the degree) or approved statistically-oriented courses; must be numbered 4000 or above and may not include STAT 4050 Connecting Statistics to Middle and Secondary Schools

Statistics Courses

Traditional Track		
STAT 4970	Senior Seminar	3
STAT 4710	Introduction to Mathematical Statistics	3
or STAT 4750	Introduction to Probability Theory	

15 additional credits offered by the department, at least 12 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Applied Track

18 additional credits offered by the department, at least 15 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Computing Courses

Both tracks		
INFOTC 1040	Introduction to Problem Solving and Programming	3

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

First Year			
Fall		CR Spring	CR
MATH 1160 ⁺		5 MATH 1500	5

15 additional credits offered by the department, at least 12 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Applied Track

18 additional credits offered by the department, at least 15 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Computing courses

Both tracks

INFOTC 1040	Introduction to Problem Solving and Programming	3
-------------	---	---

AND 3 additional credits in computer science or other approved computing courses (STAT 4110: Statistical Software and Data Analysis may be used as part of this requirement if it is not counted in statistics group above.)

Professional writing courses

ENGLSH 2030	Professional Writing	3
-------------	----------------------	---

Foreign Language Option for Students Pursuing a BS Degree

Students pursuing the BS degree may elect to take an alternative to a foreign language. Such students must complete no fewer than 12 upper-class credits that are not from the parent department, are not normally required of departmental majors and do not appear elsewhere in the graduation plan. This program must be carefully planned to form a coherent unit and must be approved by the director of undergraduate studies.

The following are examples of foreign language alternatives:

- mathematical sciences
- biological sciences
- behavioral sciences
- physical sciences
- business
- engineering
- economics

Semester Plan

Minor in Statistics

A minor in statistics requires a minimum of 15 credits in statistics courses numbered 3000 or above. The courses used to complete the minor must be chosen in consultation with the director of undergraduate studies and must include at least one of the following:

STAT 3500	Introduction to Probability and Statistics II	3
STAT 4710	Introduction to Mathematical Statistics	3
STAT 4750	Introduction to Probability Theory	3

A maximum of 3 of the 15 credits may be in:

STAT 4002	Topics in Statistics-Biological/Physical/Mathematics	1-99
or STAT 4085	Problems in Statistics for Undergraduates	

Graduate

MA in Statistics

Admission Criteria

Fall deadline: January 15

Spring deadline: October 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
74	535

- Minimum GPA: 3.0 in math and statistics courses to enter master's program
- Bachelor's degree from accredited college or university in related area

Undergraduate courses in statistics are recommended but not required. Consideration also is given to rank in graduating class, trends in grade records, maturity and experience, and other criteria bearing on qualifications.

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Program:

- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

Degree Completion Requirements

The general requirements for receiving a master's degree are at least 30 semester hours of course work at the 7000 level or higher, of which at least 18 hours must be from the Department of Statistics at MU. The 30 hours may not include credit hours of

STAT 7050	Connecting Statistics to Middle and Secondary Schools	3
STAT 7510	Applied Statistical Models I	3
STAT 7530	Analysis of Variance	3
STAT 7710	Introduction to Mathematical Statistics	3
STAT 8090	Master's Thesis Research in Statistics (more than a total of six hours of)	1-99
STAT 8220	Applied Statistical Models II	3

At least 15 semester hours of course work at the 8000 level or above must be taken from the Department of Statistics at MU. The 15 semester hours cannot include more than a total of three hours of STAT 8090.

Additional courses recommended but not required are:

STAT 7110	Statistical Software and Data Analysis	3
STAT 7310	Sampling Techniques	3
STAT 7410	Biostatistics	3
STAT 7420	Applied Survival Analysis	3
STAT 7430	Applied Longitudinal Data Analysis	3
STAT 7450	Applied Statistical Methods for Bioinformatics	3
STAT 7610	Applied Spatial Statistics	3
STAT 7810	Nonparametric Methods	3
STAT 7830	Categorical Data Analysis	3
STAT 7850	Introduction to Stochastic Processes	3
STAT 7870	Time Series Analysis	3
STAT 8310	Data Analysis I	3
STAT 8320	Data Analysis II	3
STAT 8370	Statistical Consulting	3
STAT 8410	Statistical Theory of Bioinformatics	3
STAT 8640	Bayesian Analysis I	3
STAT 9250	Statistical Computation and Simulation	3
STAT 9310	Theory of Linear Models	3
STAT 9320	Advanced Linear Models	3
STAT 9410	Survival Analysis	3
MATH 7700	Advanced Calculus of One Real Variable I	3

CMP_SC 1050	Algorithm Design and Programming I	3
or CMP_SC 2050	Algorithm Design and Programming II	

Remedial Courses

The following courses are required if equivalent courses were not taken as an undergraduate: MATH 7140, STAT 7750 and STAT 7760. These courses may not be used for more than six of the required 30 hours.

Applied Track Masters of Arts Degree

Required core courses

Students must complete the following six courses or equivalent.

STAT 7110	Statistical Software and Data Analysis	3
STAT 7540	Experimental Design	3
STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3
STAT 8310	Data Analysis I	3
STAT 8320	Data Analysis II	3

In addition, students must take four elective courses, at least three of which must be selected from the department of statistics course offerings numbered 8000 or above.

Examination

Students in the applied track must pass written and oral master's exams administered by a departmental committee.

Regular Track Masters of Arts Degree

Original Written Work

All candidates must submit a written report on an independent effort toward producing original work. This report may, with the adviser's consent, take the form of a thesis, a written review on a set of papers in statistics, or a written report on an independent study project, which may include an original application of statistics. For this work, a student must register for at least three semester hours of STAT 8090.

Presenting the Work

All candidates are required to present an open seminar on the results of the written report. The report should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Examination

The MA examination covers material presented in the written report and the seminar and may also cover course work.

Satisfactory Progress

Length of Study

A master's candidate is expected to complete the master's degree within three calendar years beginning with the first semester of enrollment unless approval is obtained from the graduate faculty of the Department of Statistics.

Grade Requirements

Any student, while a graduate student in this program, who receives a grade of C or lower in six or more hours of courses offered by the Department of Statistics or a grade of C or lower in nine or more hours

of all courses taken will be dismissed from the graduate program unless contrary action is taken by the graduate faculty of the department.

For each credit hour over three hours with a grade of C or lower in courses offered by the Department of Statistics at the 7000 level and above, the student must receive a credit hour with a grade of A in courses offered by the department at the 7000 level and above.

MA in Statistics with Emphasis in Biostatistics

Students who wish to specialize in biostatistics may obtain a degree with special emphasis. The general requirements are the same as those for the MA degree in statistics (p. 285). In addition, students must satisfy the following:

1. Take STAT 7410 and either STAT 7420, STAT 8410 or STAT 9410 or the equivalent;
2. Submit a project or thesis related to biostatistics.

PhD in Statistics

Admission Criteria

Fall deadline: January 15

Spring deadline: October 15

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
74	535

- Minimum GPA: 3.5 in math and statistics to enter PhD program
- Master's degree from accredited college or university in related area

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Program:

- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

Qualifying Examination

All doctoral students must pass the qualifying exam, which is offered in August and January of each year. The exam consists of two parts, one covering Statistics 7750 and 7760 (Statistical Inference), and a second part covering Statistics 8310 and 8320. All doctoral students must take the exams at the first opportunity after taking the required courses, usually in August at the start of the second year. Students have two attempts to pass each part.

Doctoral Committee

Within one semester of passing the qualifying examination, a student must choose a doctoral program committee in consultation with his or her adviser. This committee consists of at least five members, at least three of whom are members of the doctoral faculty in statistics and at least one from another MU doctoral program.

Preliminary Examination

The preliminary exam is a written exam offered in August and January of each year. Before taking the exam, the student is required to have passed the qualifying exams and chosen his/her major professor. The exam consists of two parts: Part one covering STAT 9710 and STAT 9720 and part two covering STAT 9310. Students have two attempts to pass each part. Students must take the preliminary exam at the earliest possible time after passing the qualifying exam and completing the courses required for the preliminary exam, normally the start of the third year of study.

Required Course Work

Before taking the comprehensive examination, students should complete six courses taken at MU or at comparable institutions.

Select six of the following:

STAT 9100	Recent Developments in Statistics
STAT 9250	Statistical Computation and Simulation
STAT 9320	Advanced Linear Models
STAT 9370	Multivariate Analysis
STAT 9410	Survival Analysis
STAT 9510	Theory of Nonparametric Statistics
STAT 9530	Data Mining and Machine Learning Methods
STAT 9640	Bayesian Analysis II
STAT 9810	Advanced Probability
STAT 9820	Stochastic Processes

(Different 9100s can be counted more than once.) Other courses may be substituted at the discretion of the student's doctoral program committee.

Comprehensive Examination

After successfully completing the preliminary exam and the required coursework, the student is eligible to take the comprehensive examination. This examination consists of a written and oral section as specified in the Graduate School catalog. This examination must be completed at least seven months prior to the final defense of the dissertation.

Dissertation

A dissertation, prepared under the direction of a dissertation supervisor, is required. The dissertation should be presented in an open seminar as part of the final examination, which is conducted by the final examination committee. The dissertation should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Additional Requirements

Additional requirements for the PhD in statistics are determined by the student's program committee and the director of graduate studies.

Graduate Minor in Statistics

Master's Minor

To receive a designated minor in statistics for a master's degree, at least 12 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU. The courses should be unified in theme and must be approved by the Director of Graduate Studies of the Department of Statistics.

The courses must be completed with an average grade of B (3.0) or higher.

The courses may not include:

STAT 7002	Topics in Statistics-Biological/Physical/Mathematics
STAT 7070	Statistical Methods for Research
STAT 7085	Problems in Statistics for Non-majors
STAT 8085	Problems in Statistics for Majors - Masters
STAT 9085	Problems in Statistics for Majors - PhD

The courses may not include more than one course from:

STAT 7710	Introduction to Mathematical Statistics
STAT 7750	Introduction to Probability Theory

PhD Minor

To receive a designated minor in statistics for a PhD degree, at least 15 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU.

Courses may not include:

STAT 7002	Topics in Statistics-Biological/Physical/Mathematics
STAT 7020	Statistical Methods in the Health Sciences
STAT 7050	Connecting Statistics to Middle and Secondary Schools
STAT 7070	Statistical Methods for Research
STAT 7085	Problems in Statistics for Non-majors
STAT 7530	Analysis of Variance
STAT 8085	Problems in Statistics for Majors - Masters
STAT 8090	Master's Thesis Research in Statistics
STAT 9085	Problems in Statistics for Majors - PhD

Students must have at least one course in calculus-based statistics and the equivalent of at least two courses in an applied statistics sequence. The calculus-based statistics requirement can be met by STAT 7710 or STAT 7760 or above, but no more than 6 hours of STAT 7710, STAT 7750, and STAT 7760 can be counted towards the 15 hours. The applied sequence requirement can be satisfied by either STAT 7510/STAT 8220 or STAT 8310/STAT 8320. At most one course from STAT 7510 and STAT 8310 can be counted and at most one course from STAT 8220 and STAT 8320 can be counted towards the 15 hours.

The plan of study must be approved by the Director of Graduate Studies of the Statistics Department and be completed with an average grade of B (3.0) or higher. Each student is encouraged to seek approval of his/her plan of study as soon as possible.

Theatre

Clyde Ruffin, Chair
College of Arts and Science
Rhynsburger Theatre
129 Fine Arts Center
(573) 882-2021
<http://theatre.missouri.edu>

The Department of Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills.

The department offers BA, MA and PhD degrees with a major in Theatre. A minor is also available.

Faculty

Professor S. Burgoyne, D. A. Crespy, J. M. Miller, C. Ruffin

Associate Professor C. D. Black, M. H. Carver

Assistant Professor K. Brown, B. Carlson

Assistant Teaching Professor J. A. Drtina, C. Gleason

Associate Teaching Professor K. S. Packard, R. D. Packard

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Theatre (p. 289)
 - with emphasis in Design/Technical (p. 289)
 - with emphasis in Performance (p. 289)
 - with emphasis in Writing for Performance (p. 290)
- Minor in Theatre (p. 290)

Departmental Honors

To graduate with honors in theatre, a student must earn a minimum overall MU GPA of 3.3 and earn a minimum GPA of 3.5 in courses in theatre completed at the University of Missouri.

Double Majors

Many students in theatre choose either a double major or a minor in another area. In either case, the student must see a theatre advisor for approval.

- PhD in Theatre (p. 292)

About the Department of Theatre

The MU Department of Theatre has a distinguished history that began shortly after 1900 when a small group of aspiring thespians resolved to enhance the cultural life of the campus by producing plays in an abandoned dining room in Lathrop Hall. In 1925, Professor Donovan Rhynsburger joined the MU faculty and established the Missouri Workshop Theatre. For over 85 years, the department has sustained a national and international reputation as a major center for theatre and performance scholarship and dramatic art production. In 2007 "Academic Analytics" ranked MU Department of Theatre #4 nationally for scholarly productivity in Theatre Literature, History, and Criticism (reported in Chronicle of Higher Education, November 11, 2007). MU Theatre offers graduate and undergraduate programs.

A professional faculty comprises internationally recognized scholars and artists who develop the talents, skills and knowledge of students by teaching them to combine scholarship with artistry. MU has consistently produced fine theatre and notable alumni, including Tennessee Williams, George C. Scott, Tom Berenger, Chris Cooper, Jon Hamm, Ethel Pitts Walker, and Barbara Molette. MU students have won the prestigious David Library Award seven times, several nationally coveted awards like the Mark Twain Comedy Prize, and departmental productions have been cited for national awards by the Kennedy Center American College Theater Festival, the National Communication Association, and the Association of Theatre in Higher Education. Graduate students in the department have won numerous campus, professional and national awards, fellowships and research grants for their scholarship and artistry. The department is proud of its legacy of artistic excellence and the enrichment it brings to the cultural life of the campus and community.

Facilities

Rhynsburger Theatre. Named after Donovan Rhynsburger, MU's principal theatre for dramatic productions is in the Fine Arts Building, which also houses the music and art departments. The 278-seat proscenium theatre has a large stage and fly system with well-equipped costume and scenic shops located adjacent to the stage. The theatre houses faculty offices, classrooms, shops, dressing rooms and other production support spaces. Students interested in lighting and sound production will find a variety of equipment and modern control systems on which to learn their craft. We're also thrilled to announce the addition of a new, state-of-the-art professional computer graphics lab in 2012.

Corner Playhouse. The Corner Playhouse provides an opportunity for students and faculty to present smaller, often more experimental productions in a flexible space. Seating up to 125, the theatre is designed to accommodate any stage configuration. Across the street from the Rhynsburger Theatre, the Corner Playhouse also houses dressing rooms, graduate student offices and classrooms.

Satisfactory Progress: General Guidelines for MA and PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end

of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university's commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student's program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Undergraduate

BA in Theatre

Major Program Requirements

The major in Theatre consists of core courses and an emphasis area. In addition, all students must complete all College of Arts and Sciences and University graduation requirements, including University General Education (p. 18). All courses used to satisfy requirements for the major must be completed with a grade of C or higher.

Major core requirements		15
THEATR 1320	Beginning Scenic Construction Lab	3
or THEATR 1340	Beginning Costume Construction Lab	
THEATR 2300	Production Workshop I	1
THEATR 2710	Introduction to Theatre History	3
THEATR 2800	Principles of Script Analysis	3
THEATR 3300	Production Workshop II	1
THEATR 4990	Capstone in Theatre	1
Select 3 hours from:		
THEATR 1720	African-American Theatre History	3
THEATR 3700	World Dramatic Literature	3
THEATR 3750	New American Theatre	3
THEATR 3770	The Theatre Experience: From Page to Stage and Screen	3
THEATR 4700	Studies in Theatre History	3

THEATR 4720	American Musicals	3
THEATR 4800	Studies in Dramatic Theory	3
THEATR 4820	Studies in Dramatic Literature	3
THEATR 4830	Studies in Dramatic Criticism	3

Emphasis Areas

Theatre students must also complete an emphasis area in Performance (p. 289), Design/Technical (p. 289) or Writing for Performance (p. 290).

Semester Plan

Refer to the semester plan for the Performance emphasis (p. 289), or contact the academic departments for assistance with academic planning.

 573-882-2021
carverh@missouri.edu

Admission Criteria

<http://theatre.missouri.edu/gradprogram/index.html>

Deadline: January 15 for the following fall semester admission. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
112	650

- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	600	500	4.0
On or After August 1, 2011	160	146	4.0

- Minimum GPA: 3.0 in the last 60 hours

Probationary admission is possible. The director of graduate studies will advise the student in writing of what must be done to change the probationary admission to regular admission.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Theater Program:

- 3 letters of recommendation
- GRE score report
- Statement of purpose
- Scholarly writing sample

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Curriculum Requirements

The degree of Master of Arts in Theatre will be awarded upon completion of the curriculum outlined below with a GPA of 3.0 or better.

Completed Undergraduate Curriculum

Most students have completed this course of study before seeking admission to MU. However, applicants holding undergraduate degrees in disciplines other than theatre will be asked to complete those courses, which were not part of their undergraduate curriculum. In some cases professional theatre experience may substitute for certain courses. Twelve courses in the undergraduate curriculum should be distributed as follows:

Basic skills: at least one course in each of the following: voice and articulation, movement for the stage, script analysis, technical theatre; At least one upper-division course in each of the following: acting, directing, dramatic literature, theatre history; at least two upper-division courses in technical theatre; and two upper-division theatre electives.

Graduate Curriculum

The student must complete at least 24 graduate hours while in residence as a graduate student at MU. The academic program should be established in consultation with an adviser not later than the end of the first full semester of residence. No more than six semester hours of graduate work may be transferred from another university. The student submits Form M-1, Application for Degree of Master of Arts to the

Graduate School listing the courses to be taken to complete the graduate curriculum.

Independent Project

Each candidate for the MA must complete an independent project, which should be specified on the M-1 form as part of the plan of study.

There are three options:

1. This may be a thesis, for which up to six semester hours of credit in Theatre Research may be earned.
2. Another option is to write an original performance/play, translate a play/performance, or complete a project in acting, design, adaptation/devising, dramaturgy, solo performance or directing. Credit of up to three semester hours may be earned in a graduate problems course.
3. A student may create and successfully execute a research project to earn three semester hours in a graduate course in independent research.

Satisfactory Progress: General Guidelines for MA in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university's commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the adviser (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her adviser within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the adviser shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student's program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all

incomplete courses, and is judged to be off probation by the director of graduate studies.

Master's Final Examination

Master's degree students who have been maintaining satisfactory progress toward a degree for a period of 24 months are expected, barring unusual and extenuating circumstances, to be prepared to write the master's final examination.

Each candidate for the MA is required to pass a final examination to demonstrate mastery of the fundamental principles of the work included in the course of study. An examining board consisting of at least three members of the faculty shall administer the examination.

In consultation with his or her adviser the student selects four areas for examination from among those listed below:

At least two but no more than three areas may be selected from among:

Theatre History and Historiography
 Dramatic Literature and Criticism
 Dramatic and Performance Theory
 Performance Studies and Writing for Performance

At least one but no more than two areas must be selected from among:

History, Theory or Pedagogy of Acting or Directing
 History, Theory or Pedagogy of Dramaturgy
 History, Theory or Pedagogy of Theatrical Design
 History, Theory or Pedagogy of Performance Studies
 History, Theory or Pedagogy of Playwriting/Writing for Performance

Length of Exam

Two hours are allotted for answering the question(s) for each area, making a total of eight hours for the examination.

Notifying the Graduate School of Results

As soon as the performance on the Master's Final Examination has been evaluated, the student's adviser informs the Graduate School, using the appropriate M-form.

If one area examination is unsatisfactory, the examining board will give the student an oral examination on that area, with special emphasis on the questions or questions missed. If two area examinations are unsatisfactory, the student is failed.

- Creative (dramatic) writing samples

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Careers

The doctorate in theatre at MU aims to provide knowledge and research skills necessary to launch the successful student on a career of scholarly and artistic investigation of theatre history, performance theory and criticism, performance studies, playwriting and other modes of writing for performance (such as adaptation and translation), dramaturgy, performance and theatre pedagogy.

Qualifying Examination

During the first semester of residence, the student completes a qualifying examination. The Graduate Affairs Committee of the Department of Theatre meets with the student to discuss the student's academic background, career goals and research interests for an oral review and discussion of their proposed course of study. The adviser submits the D-1 form, Qualifying Process/Confirmation of Adviser, reporting on the departmental qualifying process.

Advisory Committee: Form D-1

Doctoral Program Committee asks the graduate dean to approve a committee of four graduate faculty members to help the student plan and

carry out a program. One member of the Doctoral Program Committee must come from outside the Department of Theatre.

Program Planning

As early as is practical, usually in the student's second semester on campus, the student should meet with the Doctoral Program Committee to plan a doctoral program. The student should prepare a trial plan in consultation with the faculty adviser who serves as chair of the Doctoral Program Committee and reports the approved plan of study to the graduate dean on Form D-2: Doctoral Plan of Study.

Theatre Department Course Work

Although the Graduate School requires no specific number of hours of class work, the Department of Theatre typically requires students entering the program with a master's degree to complete about 40 semester hours of graduate level course work in the theatre department, including three semester hours of Dissertation Research, devoted to writing a dissertation prospectus. For more specific information regarding required coursework, see <http://theatre.missouri.edu/gradprogram/index.html>.

Doctoral Minor

The department also requires the student to complete a doctoral minor, a nine-semester-hour unified area of study outside the Department of Theatre.

Research Tool Options

The PhD in Theatre also includes a research tool requirement that may be satisfied in several ways:

1. Option One: Present evidence of translation ability in each of two foreign languages in one of the following ways: by receiving an acceptable score on a GFSLT Humanities examination if the language is French, German or Spanish (Acceptable scores at this time are: French 570, German 560 and Spanish 540) by receiving certification of competence from a qualified examiner if other languages are presented by showing on one's transcript a grade of B or better on a literature course at MU. (This course must require reading of works in the foreign language. The course may be taken during the doctoral program or within the five years prior to beginning the program.)
2. Option Two: Demonstrate a high degree of fluency in one foreign language by individual examination conducted by the appropriate language department at MU.
3. Option Three: Choose one language and one block of courses. Demonstrate translation ability for one language as in Option One. Complete with grades of B or better six semester hours in graduate courses taken outside of the department that represent a coherent unit of study, providing a research tool applicable to the candidate's dissertation research.
4. Option Four: Choose two blocks of courses. Complete with grades of B or better two blocks of course work of six hours each in graduate level courses taken outside of the department that must represent to the candidate's advisory committee a coherent unit of study. One or both blocks should provide a research tool for the candidate's dissertation.

Participation in Productions

The doctoral student is encouraged to participate in University Theatre and studio theatre productions and may, in some cases, be required to do so. Academic credit is available.

Satisfactory Progress Guidelines for the PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

- Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status.
- A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended).
- Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university's commitment to professional integrity, collegiality, and good citizenship.
- Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the adviser (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her adviser within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the adviser shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student's program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Satisfactory Progress Before the Comprehensive Exam

Each semester prior to the semester in which comprehensive examinations are taken, satisfactory progress is maintained when a student completes nine semester hours of graduate level work with a grade of B or above. Incomplete grades are given only under extraordinary circumstances and with the approval of the graduate faculty. Doctoral students who have been maintaining satisfactory

progress toward a degree for a period of 36 months are expected, barring unusual and extenuating circumstances, to be prepared to write comprehensive examinations.

Satisfactory Progress During and After Comps

For the semester in which comprehensive examinations are taken and in semesters after comprehensive exams and orals are passed, satisfactory progress is maintained when, in the judgment of the student's dissertation adviser, the student is making satisfactory progress toward completion of the dissertation.

Students who leave MU having completed all but the dissertation must maintain continuous enrollment by registering for two semester hours of Dissertation Research each fall and spring term and one hour in the summer term. Failure to register negates a student's candidacy.

Graduate School Regulations on Satisfactory Progress

The Graduate School regulations regarding a reasonable rate of progress for doctoral students enrolled during or after Fall 2000: Effective for students beginning their doctoral studies during or after Fall Semester 2000, a PhD student must successfully complete the comprehensive exam within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this time limit, the student must petition the Graduate School by submitting a request to the adviser, who, in turns, submits, via the departmental director of graduate studies, a written recommendation to the Graduate School. The Theatre Department recommends taking comprehensive exams no later than the third year of consecutive full enrollment. Only students who have taken and passed their exams by May of their third year of assistantship will be considered for a fourth year of assistantship with the department.

All requests for extensions should be endorsed by the departmental director of graduate studies and should be accompanied by a description of the process whereby currency in the discipline is certified, if required by the department.

Dissertation Proposal/Prospectus

Before comprehensive exams may be scheduled, students will be required to complete a 5-page Dissertation Proposal, concisely but clearly expressing the purpose, justification, method and general organizational plan for the dissertation. A bibliography is also required (bibliography is not included in 5 pp. minimum). The theatre department faculty members on student's doctoral committee must approve this proposal. After successful completion of comprehensive exams, the student will expand the dissertation proposal into a Dissertation Prospectus — a more detailed and thorough description of the dissertation project. The prospectus should provide a clear statement of the purpose of the dissertation, describe the need for the knowledge the dissertation report will supply, outline the research questions and demonstrate the procedures by which the scholar will answer these questions. The candidate will present the prospectus to the Doctoral Program Committee and will be prepared to defend it.

Comprehensive Examination

After completing the research tool option, a substantial amount of the course work and after obtaining the approval of the 5-page proposal from the Doctoral Program Committee, the student takes the comprehensive examination. The comprehensive examination provides an opportunity for

the student to demonstrate a thorough grasp of the history and principles of theatre. The examination provides the Doctoral Program Committee with a window looking back upon the student's training as well as a chance to estimate the student's potential as a problem solving scholar of theatre. Readers of the examination look for more than a reiteration of the content of standard sources of information about dramatic art. The examinee should demonstrate an ability to analyze problems and data, to formulate theses or points of view, and to locate, evaluate and organize evidence to support a contention—the essential skills of scholarship. The comprehensive examination in theatre allows candidates not only to tell what they know but also to demonstrate what they can do with information. Comprehensive exams are scheduled once each semester, during the first third of the current semester.

Stages of the Comprehensive Exam

The examination is given in two stages.

- Stage One consists of a written examination, over the history of theatre, dramatic theory, criticism, writing for performance, performance studies, and theatre pedagogy, and an additional (written) examination consisting of one or two questions posed by the outside member of the Doctoral Program Committee. The examination is evaluated by the student's Doctoral Program Committee, which decides whether or not the student should be advanced to the oral examination.
- Stage Two is the oral examination administered by the Doctoral Program Committee. This examination provides an opportunity for the student to correct, amend, or defend assertions made in the written examination, although the oral examination is not bound by any limits established by the written examination. Ordinarily of two hours duration, the oral is also an opportunity for the student to demonstrate skill in oral explanation and argument.

Criteria for Passage of the Comprehensive Exam

The result of the comprehensive examination shall be marked pass if all of the Doctoral Program Committee members recommend a pass on the entire examination, both written and oral sections. Should the examination be marked fail, the committee may recommend that the candidate retake the examination after a minimum period of 12 weeks. A report of the committee's decision (Form D-3), carrying the signatures of all members of the committee, is sent to the Graduate School and to the student no later than two weeks after the comprehensive examination is terminated.

If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student's work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School. The committee must respond to this request in writing within two weeks with a copy to the Graduate School. Failure to pass two comprehensive examinations automatically prevents candidacy for the doctorate in theatre at MU.

Completing the Dissertation

The final step is completion and approval of the doctoral dissertation. The director of graduate studies can provide the student a copy of Guidelines for Preparing Theses and Dissertations.

Formatting

Dissertations in the Department of Theatre should be formatted according to the latest edition of *A Manual for Writers of Term Papers, Theses, and Dissertations*, ed. Kate L. Turabian or the *MLA Handbook*; the chosen format must meet with the dissertation advisor's approval.

Graduate School Paperwork

Form D-4, Report of the Doctoral Dissertation Defense, indicates that the student has defended the dissertation at an oral examination.

Advisory and Committee Approval of the Dissertation

No draft of the dissertation can be considered a final draft until the adviser (First Reader) has approved it. All dissertation committee members must have at least 10 days to read the dissertation before the last date for oral examination as published by the Graduate School. Unanimous approval of the dissertation by four committee members constitutes satisfactory completion of this examination.

Additional Minors and Certificates - A&S

Undergraduate

- Minor in Aerospace Studies (p. 296)
- Minor in Afro-Romance Literatures in Translation (p. 296)
- Minor in American Constitutional Democracy (p. 296)
- Minor in Astronomy (p. 297)
- Minor in Black Studies (p. 297)
- Minor in Canadian Studies (p. 297)
- Minor in East Asian Studies (p. 298)
- Minor in French (p. 298)
- Minor in Italian Area Studies (p. 298)
- Minor in Jazz Studies (p. 298)
- Certificate in Jazz Studies (p. 299)
- Minor in Latin American Studies (p. 299)
- Minor in Leadership and Public Service (p. 299)
- Minor in Luso-Brazilian Area Studies (p. 299)
- Minor in Medieval and Renaissance Studies (p. 299)
- Minor in Military Science (p. 300)
- Certificate in Multicultural Studies (p. 300)
- Minor in Peace Studies (p. 300)
- Minor in Romance Literatures in Translation (p. 301)
- Minor in South Asian Studies (p. 301)
- Minor in Spanish (p. 301)
- Minor in Strategic Studies (p. 301)
- Minor in Women's and Gender Studies (p. 302)

Graduate

- Minor in Black Studies (p. 302)
- Certificate in Geospatial Intelligence (p. 303)
- Certificate in Jazz Studies (p. 303)
- Certificate in Lifespan Development (p. 303)
- Minor in Medieval and Renaissance Studies (p. 304)
- Minor in Museum Studies (p. 305)
- Minor in Psychological Statistics and Methods (p. 305)
- Certificate in Science Outreach (p. 306)
- Minor in Women's and Gender Studies (p. 306)

Undergraduate

Minor in Aerospace Studies

A minor in Aerospace Studies is available upon the completion of 15 semester hours, of which 12 hours are taught by Aerospace Studies. The additional 3 hours must be approved by the Department of Aerospace Studies and be in the academic area of history, political science, sociology, military science disciplines, or peace studies.

Minor in Afro-Romance Literatures in Translation

Students may obtain a minor in Afro-Romance literatures in translation by completing the courses listed below.

SPAN 1100 & SPAN 1200 & SPAN 2100	Elementary Spanish I and Elementary Spanish II and Elementary Spanish III	13
ITAL 1100 & ITAL 1200 or PORT 1100 & PORT 1200	Elementary Italian I and Elementary Italian II Elementary Portuguese I and Elementary Portuguese II	10-12

Three 2000-level literature-in-translation courses chosen from the following list (at least two language groupings must be represented):

FRENCH 2350	New World Francophone Literature in Translation	3
RM_LAN 2310	Literature of the African Diaspora	3
SPAN 2340	Hispanic Minority Literature	3

Two 3000-level or 4000-level courses chosen from the following list:

FRENCH 3710 or SPAN 3710	Survey of Minority and Creole Languages of the U.S. and the Caribbean Survey of Minority and Creole Languages of the U.S. and the Caribbean	3
PORT 3001 or PORT 3005	Topics in Portuguese-General Topics in Portuguese-Humanities/Fine Arts	1-3
RM_LAN 4310	Literature of the African Diaspora	3

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in American Constitutional Democracy

For general questions about the minor, contact:

Justin Dyer, Program Director
573-882-3777
dyerjb@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

The minor in American Constitutional Democracy is designed for those students who wish to delve more deeply into the American experience with self government, exploring the development of the American state and the intellectual, political, historical, and cultural forces that contributed to this development. The minor is appropriate for students in many majors, particularly political science, economics, history, and journalism.

The minor affords students a unique opportunity to gain a broad perspective on issues of American political development, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. In addition, it contains an "experiential" component that permits students to consider constitutional issues in practice and/or in comparative perspective.

Minor Requirements

A minimum of fifteen (15) credits are required for the minor. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

A minimum of twelve (12) credits must come from the following courses offered by the Departments of Political Science and History. At least one course must be taken in each department.

Department of Political Science courses

POL_SC 2800	Introduction to Political Theory	3
POL_SC 2860	American Political Thought	3
POL_SC 4004	Topics in Political Science - Social Science (When topic title is The Constitutional Debates)	3
POL_SC 4130	African-American Politics	3
POL_SC 4170	Politics of the American South	3
POL_SC 4200	The American Constitution	3
POL_SC 4210	Constitutional Rights	3
POL_SC 4830	Democracy in America (and Elsewhere)	3

Department of History courses

HIST 1540	England Before the Glorious Revolution	3
HIST 2004	Topics in History-Social Science (When topic title is Gender and the Law)	3
HIST 2430	History of American Religion	3
HIST 3000	History of Religion in America to the Civil War	3
HIST 4000	Age of Jefferson	3
HIST 4060	The Period of the American Revolution, 1760-1789	3
HIST 4100	American Cultural and Intellectual History to 1865	3
HIST 4200	American Cultural and Intellectual History Since 1865	3
HIST 4400	History of American Law	3
HIST 4510	Crime and Punishment: Law in Classical Athens	3
HIST 4515	Power and Oratory in Ancient Greece	3

Note: Students may petition the director of the minor to include a maximum of three (3) hours from a related course outside the Departments of Political Science and History. Outside courses may have additional prerequisites.

Finally, a minimum of three (3) credits must come from an experiential component. This requirement may be satisfied through participation in either an internship or study abroad program associated with the minor. Currently, the Political Science Department offers an internship program (POL_SC 4940) focused in Jefferson City and is in the process of developing a program in Washington, DC. For study abroad, the Political Science Department currently offers a summer program titled "Developing Dynamics of Democracy" (POL_SC 4840). In the future, there are plans to develop more experiential course options for students.

Minor in Astronomy

A student whose major is in another department may receive a minor in astronomy with the completion of the following courses with grades of C- or better: PHYSCS 2750 University Physics I, PHYSCS 2760 University Physics II (10 credit hours), PHYSCS 3010 Introduction to Modern Astrophysics (3 credit hours), plus two additional astronomy courses at the 3000/4000 level or above.

A student must have a total of 19 credit hours to receive a minor in astronomy. At least nine of the 19 credit hours must be completed on-campus. A course in which a grade of D+ or below was received will not count towards the minor. To receive your minor in astronomy, you must print and fill out the minor form (<http://physics.missouri.edu/wp-content/uploads/2012/04/fileAstronomyMinorForm.pdf>), have it signed by the Director of Undergraduate Studies in the Physics Department, and then take it to 107 Lowry Hall.

Minor in Black Studies

Students seeking a minor in black studies must complete 15 credits, including those listed below.

BL_STU 2000	Black Studies	3
One course in each of three content areas (one must focus on gender)		9
Social Science (History)		
Behavioral Science (Society)		
Humanities (Culture)		
One additional course in any of the three content areas		3
Total Credits		15

- Students are also encouraged to take a course in three regional areas of study: Africa, African America, and the Black Diaspora.
- A minimum of 6 credits numbered 2000 or above and at least one 3000-level course must be taken.
- At least 9 credits must be in courses other than readings, methods, techniques or problems.
- A maximum of 3 credits of the minor can be taken in black studies courses outside the College of Arts & Science.

Minor in Canadian Studies

For general questions about the minor, contact:

James Endersby, Program Director
573-882-4238
endersby@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

A Minor in Canadian Studies allows you to

- participate in Study Abroad programs in Canada
- enhance your degree and career options
- learn about the culture, history, and politics of Canada

With a minor in Canadian Studies, students will be better equipped to deal with political, economic, social and even cultural issues that will arise vis-a-vis Canada, a close military ally and trading partner. In an era that features the internet, Free Trade, and most importantly, issues of border security and national defense, knowledge of Canada is particularly useful in a number of careers. The Canadian Studies Program is an interdisciplinary program which includes Political Science, Geography, Anthropology, Romance Languages, and Public Affairs. The minor concentration in Canadian Studies will require 15 hours of credits. Courses may be selected from at least two of the disciplines listed below. Any course qualifies for the Minor in Canadian Studies as long as it contains at least one-third content on Canada.

Courses in Political Science

POL_SC 2600	Canadian Politics and Government	3
POL_SC 4660	Canada in North America	3
POL_SC 4986	Special Readings in Political Science ((consult with professor if interested))	1-99

Canadian Politics: Fundamentals and Selected Topics

Courses in Geography

GEOG 2120	United States and Canada	3
GEOG 1100	Regions and Nations of the World I	3
GEOG 3780	World Political Geography: Patterns and Processes	3

Courses in Anthropology

ANTHRO 3610	Peoples of Canada	3
ANTHRO 2030	Cultural Anthropology	3
ANTHRO 1300	Multiculturalism: An Introduction	3
ANTHRO 4600	Ethnographic Studies of Selected Cultures	3

Courses in Romance Languages and Literatures

FRENCH 2370	French Women Writers (in translation) The French Novel of Quebec	3
-------------	---	---

Courses in English

ENGLISH 4129	Ethnic Literature, 1890 to Present	3
ENGLISH 3855	Documentary Film	3

Minor in East Asian Studies

Students select 15 credits from at least two departments. At least 6 credits must be at the 2000 level or above. The elementary levels of language (Japanese, Chinese, Korean) may not be used to meet any of these hour requirements for the minor. Intermediate level courses (at the 2000 level and higher) language courses may be used to meet these requirements. The Office of Special Degree Programs, 114 Switzler Hall provides student advisement.

In addition to courses offered in Chinese, Japanese, and Korean language programs (civilization courses, literature courses, film courses, theater courses), there are relevant courses offered in Religious Studies, History, Political Science, Philosophy, and Geography. Students are encouraged to consult with the advisor in Special Degree Programs and instructors in Chinese, Japanese, or Korean.

Faculty for East Asian Studies

Chinese

Assistant Teaching Professor Michael Volz
Lecturer Huichung Liang

Japanese

Assistant Teaching Professor J. Martin Holman
Lecturer Chieko Kellar

Korean

Associate Teaching Professor Seungkwon You

Minor in French

Students may obtain a French minor by completing a minimum of 15 credits beyond FRENCH 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in

English do not count toward the minor. The courses listed below are the most likely choice.

FRENCH 2160	Intermediate French Composition and Conversation	3
FRENCH 3160	Advanced French Composition and Conversation I	3
or FRENCH 3280	Commercial French	
FRENCH 3410	Introduction to Literary Analysis	3
FRENCH 3420	Introduction to French Literature I	3
FRENCH 3430	Introduction to French Literature II	3

Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete the minimum of 15 additional credits in order to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in Italian Area Studies

Students may obtain a minor in Italian area studies by completing at least 9 credits in Italian language beyond ITAL 1200, e.g.: ITAL 2160, ITAL 3150 or ITAL 3160. An additional 6 credits must be chosen from the list below:

ITAL 2001/2005	Undergraduate Topics in Italian-General	1-3
ITAL 2310	Italian Civilization	3
ITAL 3001/3005	Topics in Italian-General	1-3
ITAL 3310	20th Century Italian Fiction in Translation	3

Italian culture/topics emphasis courses offered by other programs/ departments (e.g., History, Art History, Music or International Studies).

Normally, 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Italy. Six credits toward the minor can also be earned in summer programs abroad, such as the summer intensive language program offered by the University of Bergamo (near Milan) or by the Centro Fiorenza in Florence or on the Island of Elba.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in Jazz Studies

Student who have chosen a major in a non-music field may complete a minor in jazz. The Minor is not intended for beginners, but for students with basic musical knowledge. Hence the prerequisites (MUSIC_NM 1211 or MUS_THRY 1220) for three of the required courses (MUS_I_VT 1620, MUS_I_VT 4645, and MUS_THRY 4210) and auditions required for Jazz Ensembles. Approval for declaration of the Jazz Minor must be received from the Director of Jazz Studies.

A minimum of 15 credits is required, including the following:

MUS_THRY 4210	Jazz Harmony and Arranging I	2
MUS_THRY 4211	Jazz Harmony and Arranging II	2
MUS_I_VT 1620	Jazz Piano Class	1
MUS_I_VT 4645	Jazz Improvisation	2

MUSIC_NM 1311	Jazz, Pop, and Rock	3
MUS_ENS 1841 & MUS_ENS 1846	Instrumental Ensemble and Chamber Music (Large Jazz Ensemble & Small Jazz Ensemble)	2
MUSIC_NM 2445	Studio Instruction for Non-Majors (Or additional hours in Jazz Ensembles)	3
Total Credits		15

Certificate in Jazz Studies

Music Majors (BM, BA Music) and Music Education majors (BSEd) may earn a Certificate in Jazz Studies by completing this core of courses in jazz. Approval for admission into the Certificate program must be received from the Director of Jazz Studies.

A minimum of 12 credits is required, including the following:

MUS_THRY 4210	Jazz Harmony and Arranging I	2
MUS_THRY 4211	Jazz Harmony and Arranging II	2
MUS_I_VT 1620	Jazz Piano Class	1
MUS_I_VT 4645	Jazz Improvisation	2
MUS_H_LI 4317	Historical Studies in Jazz and Popular Music	3
MUS_ENS 1841	Instrumental Ensemble	2
Total Credits		12

Minor in Latin American Studies

Students who have completed the language requirement in Spanish or Portuguese (or equivalent) may select, in conjunction with an advisor, 15 additional credits of approved course work. The minor in Latin American studies must be approved by the Special Degree Programs advisor.

114 Switzler Hall
(573)882-6060

Minor in Leadership and Public Service

The Minor in Leadership and Public Service combines an academic component of courses in leadership, public policy, ethics, and social issues with a strong focus on service-learning, community service, and public service internships.

Consider this minor if you are:

- Interested in a self-crafted minor that provides a framework for your own leadership goals
- Set on developing the skills needed to succeed in both the non-profit sector and government
- Determined to give back on a local, national, and international level
- Looking for an opportunity to set yourself apart from the applicant pool for both graduate and professional school

For more information, contact:

Kirsten Pape
MU Office of Service Learning
208 Lowry Hall
Columbia, MO 65211
573-882-0227

servicelearning@missouri.edu

Minor in Luso-Brazilian Area Studies

Students may obtain a minor in Luso-Brazilian Area Studies by completing at least 9 credits in the Portuguese language beyond Portuguese 1200, e.g. PORT 2160, PORT 3160, and PORT 4960.

An additional 6 credits may be chosen from the following list:

PORT 2310	Brazilian Civilization	3
PORT 3001/3005	Topics in Portuguese-General	1-3
PORT 3420	Survey of Brazilian Literature	3
PORT 3875	Brazilian Cinema	3
SPAN 2330	Latin American Civilization	3

Luso-Brazilian culture/topics emphasis courses offered by other programs/departments (e.g. Anthropology, History, Music, Political Science).

Normally 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Brazil or Portugal. These include the MU in Rio de Janeiro program at the Pontificia Universidade Catolica and the CIEE Universidade Nova de Lisboa program.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a minimum GPA of 2.0 in the minor.

Minor in Medieval and Renaissance Studies

Think dead languages, medieval literature, and old castles are cool? Love your Shakespeare or Art History class and interested in learning more about the Middle Ages or the Renaissance? Then explore the possibility of a MARS undergraduate minor, in which students do coursework on medieval and Renaissance topics, receiving outstanding instruction from faculty in up to eleven different academic departments. For students interested in medieval and Renaissance history, art, literatures, religion, music, languages, and culture, the MARS minor offers the possibility of furthering interests while studying more broadly towards your major. Meet others interested in the same things as you, incorporate classwork you've already done, and learn new things about the Middle Ages and Renaissance, all while showing prospective employers or graduate schools the depth of your study with an official minor in MARS!

Requirements

- A minimum of fifteen (15) hours of approved coursework (see list below) in two different departments outside the student's major department.
- At least nine (9) hours of the fifteen must be in courses numbered 2000 or above.
- At least three (3) hours of the fifteen must be taken in a course numbered 3000 or above.
- A minimum of nine (9) hours must be taken in residence.
- A minimum GPA of 2.0 is required in all courses in the minor.

- Only one course from Classics may count towards the minor
- Students may specialize in either medieval or Renaissance, but must take at least one course in both.
- Students and their advisors may petition the Chair of MARS (Dr. Emma Lipton, English) to have coursework with relevant content counted. Students may count courses toward the minor that are also used to fulfill general education requirements in the College of Arts and Science. Many upper-level courses in European languages and literatures may be used to fulfill the minor requirements.

Departments keep a list of courses approved for the MARS minor on file for advisors. For a full description of the minor, including a list of all courses currently counted toward the minor, go to http://medren.missouri.edu/MARS_MinorDocument2012.pdf.

Minor in Military Science

With departmental approval, students may earn a minor in military science and leadership by successfully completing the following courses:

MIL_SC 3230	Leadership and Problem Solving	3
MIL_SC 3240	Leadership and Ethics	3
MIL_SC 3250	Leadership and Management	3
MIL_SC 3260	Officership	3

Additionally, students must complete an approved course in American military history.

Certificate in Multicultural Studies

The College of Arts and Sciences offers a Certificate in Multicultural Studies. Students earning the certificate will become familiar with multicultural and diversity issues. In an increasingly global environment, students earning this certificate will be better prepared to understand and to facilitate cross-cultural interactions in their future careers, as well as in their general life experiences.

Requirements

Students are required to complete a coherent program of 15 credit hours from a list of approved courses*. Approved courses for the certificate critically evaluate and examine issues of social inequality and social stratification (e.g., gender, race, ethnicity, religion, region, sexuality, and/or class inequality) globally and in the United States. Courses must be chosen from at least 2 different departments/programs. At least 6 credits must be completed at the 3000 level or above. One course (up to 3 credit hours minimum and 6 credit hours maximum) may include an applied experience of cultural difference*. Approved research-based undergraduate courses, transcribed Study Abroad and other experiences approved through the Center for International Programs and Studies, and transcript-designated "Service Learning" coursework are among the possibilities. Only coursework in foreign languages that is numbered above 2100 is applicable, and the maximum number of such credit hours is 6. A grade of C- or higher must be earned in each course, and students must maintain a cumulative GPA of 2.0 for overall coursework counting towards the certificate. Consistent with MU policy on certificates, an undergraduate degree and certificate must be awarded simultaneously.

* Contact the Multicultural Certificate Program office, 58 McReynolds, for full details and an updated course list, or go to <http://multicultural.missouri.edu/>

Minor in Peace Studies

A minor in peace studies requires a minimum of 15 credits. PEA_ST 1050 Introduction to Peace Studies is required, plus 12 additional credits. Online writing intensive versions of 1050 are available. It is recommended that at least six of the credits be drawn from the following list:

Area 1: International and Civil War and Peace

PEA_ST 2200	Nuclear Weapons: Environmental, Health and Social Effects
PEA_ST 2410	Philosophies of War and Peace
PEA_ST 3230H	Terrorism and Conflict Resolution - Honors
PEA_ST 3610	Ireland, 1100s to 1850
PEA_ST 3611	Ireland, 1850-1923
PEA_ST 3612	Ireland, 1920-Present
PEA_ST 4331	Nonproliferation Issues for Weapons of Mass Destruction

Area 2: Global Social and Environmental Justice

PEA_ST 1120	Population and Ecology
PEA_ST 2000	Exploration in Social and Economic Justice
PEA_ST 2284	Critical Dialogs: Global Environmental Policy Conflicts
PEA_ST 2285	Large Corporations, Economic Crisis, Social Responsibility
PEA_ST 3401	Global Health
PEA_ST 3600	Criminology
PEA_ST 3870	Social Revolution in Latin America

Area 3: Nonviolent Social Movements, Process, and Change

PEA_ST 2182	Critical Dialogues: Nonviolence in Peace/ Democracy Movements
PEA_ST 3520	Collective Behavior
PEA_ST 3521	Group Decision Making Processes
PEA_ST 3522	New Media, Conflict and Control
PEA_ST 4341	Building Communities from the Grassroots

Area 4: Cultures, Intellectuals, And Global Migration

PEA_ST 2280	Race, Democracy, and Violence in Cuba and Haiti
PEA_ST 2320	Literature of Spanish Civil War
PEA_ST 3140	Art of War and Peace
PEA_ST 3400	Politics of the Media
PEA_ST 3780	World Political Geography
PEA_ST 4600	Political and Social Philosophy
PEA_ST 4830	Journalism and Conflict

Area 5: Indigenous Peoples, Human Rights, and The Imperial State

REL_ST 2100	Indigenous Religions
ENGLISH 2490	Introduction to Native Studies
ENGLISH 3490	Native Writing and Representation
GEOG 3560	Native American Geographies
PEA_ST 4550	Gender and Human Rights in Cross Cultural Perspective

Minor in Romance Literatures in Translation

To obtain a minor in Romance Literatures in Translation, students must complete the basic language sequence shown below.

SPAN 1100 & SPAN 1200 & SPAN 2100	Elementary Spanish I and Elementary Spanish II and Elementary Spanish III	13
or FRENCH 1100 & FRENCH 1200 & FRENCH 2100	Elementary French I and Elementary French II and Elementary French III	
ITAL 1100 & ITAL 1200	Elementary Italian I and Elementary Italian II	10-12
or PORT 1100 & PORT 1200	Elementary Portuguese I and Elementary Portuguese II	

Students must also complete three 2000-level literature-in-translation courses and two 3000-level literature-in-translation courses (one of which must be either ITAL 3310 or PORT 3001) chosen from the list below:

FRENCH 2320	French Literature and Thought in English Translation I	3
FRENCH 2330	French Literature in Translation II	3
FRENCH 2350	New World Francophone Literature in Translation	3
FRENCH 2370	French Women Writers (in translation)	3
ITAL 2850	Italian Cinema	3
ITAL 3310	20th Century Italian Fiction in Translation	3
ITAL 3820	Films of Federico Fellini	3
PORT 3001/3005	Topics in Portuguese-General	1-3
SPAN 2320	Literature of Spanish Civil War	3
SPAN 2340	Hispanic Minority Literature	3

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in South Asian Studies

The South Asian Studies minor is a course of study that allows a student to acquire specialized knowledge about South Asia in a variety of disciplines, e.g., anthropology, history, philosophy, religious studies, political science, sociology, women and gender studies and language studies.

To obtain a minor in South Asian Studies, a student must:

- Complete 15 hours of coursework relating to South Asia. The courses approved for the South Asian Studies minor are listed at <http://southasia.missouri.edu/minor.html>.
- At least nine of the 15 hours must be at the 2000 level or above.
- A student is required to take courses in two or more departments.
- A minimum of six hours must be taken in residence.
- A grade of C or better is required for all courses counting toward the South Asian Studies minor.

A minor in South Asian studies can easily be combined with a major in anthropology, philosophy, history, religious studies, political science, geography, journalism, sociology, women & gender studies, etc.

Minor in Spanish

Students may obtain a Spanish minor by completing a minimum of 15 credits beyond SPAN 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

SPAN 2160	Intermediate Spanish Composition and Conversation	3
SPAN 3150 or SPAN 3721	Advanced Spanish Conversation Spanish Phonetics	3
SPAN 3160 or SPAN 3280	Advanced Spanish Composition Commercial Spanish	3
SPAN 3420	Introduction to Hispanic Literature I	3
SPAN 3430	Introduction to Hispanic Literature II	3

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete the minimum of 15 additional credits to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in Strategic Studies

For general questions about the minor, contact:

Stephen Quackenbush, Program Director
573-882-2082
quackenbushs@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

The minor in Strategic Studies is designed for those students who wish to acquire the knowledge and analytical skills that are critical for working in a career field related to national security. The minor is appropriate for students of almost any major, particularly political science, economics, history, geography, journalism, and engineering. The program is also well suited for students in Army, Navy, or Air Force ROTC, providing a solid background for officers encountering the changing strategic environment of the twenty-first century.

The program affords students a unique opportunity to gain a broad perspective on security issues, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. Students may work for the defense department, national intelligence agencies, or other federal agencies, or any number of jobs related to security in the private and non-profit sectors.

Fifteen (15) credits are required for the minor in strategic studies, selected from the list below. Of these, six hours must be from political science, and three hours must be from military science. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

Select from the courses below

POL_SC 4410	Politics and War	3
POL_SC 4411	Genocide, Terrorism and Civil War	3
POL_SC 4412	Strategy and Warfare	3

POL_SC 4540	American Foreign Policies	3
MIL_SC 3160	Death by a Thousand Cuts: Counterinsurgency/Insurgency the American Experience	3
MIL_SC 3161	The American Experience in Vietnam	3
MIL_SC 3162	Counterinsurgency in Asia	3
MIL_SC 3163	U.S. Military History in the Western Tradition	3
HIST 4080	American Foreign Policy from Colonial Times to 1898	3
HIST 4250	U.S. Foreign Relations, 1898-1945	3
HIST 4260	The Age of Ascendancy: U.S. Foreign Relations, 1945 - Present	3

As part of the program, new courses are being developed in areas such as coercive diplomacy and human security.

Minor in Women's and Gender Studies

A Women's and Gender Studies minor can be a component of any undergraduate degree granted at MU.

The curriculum includes women's and gender studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with a Women's and Gender Studies minor they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

A student minoring in Women's and Gender Studies is required to fulfill all requirements for their major degree program, and in addition complete at least 15 credits of Women's and Gender Studies courses, including:

WGST 1120	Introduction to Women's and Gender Studies	3
WGST 2010	Gender and Identity: Understanding Intersectionality	3

Additional WGST credits numbered 2000-level or above	6
Additional WGST elective credits	3

Graduate

Graduate Minor in Black Studies

Contact Information

Department of Black Studies
 313 Gentry Hall
 573-882-6229
<http://blackstudies.missouri.edu/>

About the Department of Black Studies

The central mission of Black Studies is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa and the Diaspora.

The Department's interdisciplinary design encourages specialization within the University of Missouri's broad liberal arts curriculum. As a result, students and faculty may conduct research that develops new or builds upon existing concepts, theories, and approaches to the study of the evolving experiences and contributions of the African Diaspora. In so doing, Black Studies prepares students to competently participate in diverse and competitive global societies where they may contribute viable practical solutions to critical challenges on multiple levels.

Affiliates of the Black Studies

The Department of Black Studies encourages the use of multicultural curriculum throughout many different departments. Faculty members and affiliates of the department design new ways to incorporate topics of Black Studies in their courses. Departments affiliating with Black Studies include art, educational leadership and policy analysis, English, history, human development and family studies, journalism, law, music, political science, religious studies, romance languages, sociology, theatre, and women & gender studies.

Resources

The Walter Daniel Resource Center is supported by a foundation set up by the estate of the late Dr. Walter C. Daniel. Dr. Daniel came to MU in 1973 as the University's first Vice Chancellor. He was instrumental in helping reorganize the University's administration. However, his success as an administrator never overshadowed his love of teaching and working with students. Located in 328 Gentry Hall, the books, periodicals, reference materials and media resources in this center will supplement and complement existing university resources on the histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Diaspora available to the University community. Additionally, the center houses Dr. Daniel's extensive private library of African American literature, as well as an extensive collection of primary and secondary sources including numerous periodicals and scholarly journals. The library also offers a small video collection which can be viewed on site. At the present time the library is a read-only research facility.

Plan of Study

An individual program of specialization in Black Studies may be arranged within the framework of a conventional graduate degree in any one of several fields. The options within a regular degree program are employed to include maximum exposure to courses emphasizing the multicultural histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Black Diaspora. Courses outside the major department, but in related fields, are incorporated into the student's study plan. Students interested in pursuing a Black Studies specialty within their chosen fields should consult a departmental advisor, who is an affiliate of the Department of Black Studies, to assist in course selection. Lacking such an advisor, students should contact the Chair of the Department of Black Studies for assistance or send an email to Mary Beth Brown (bromary@missouri.edu) in the Department of Black Studies.

Graduate Certificate in Geospatial Intelligence

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the degree program (<http://gradschool.missouri.edu/academics/programs>) and the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Graduate Certificate in Jazz Studies

The Graduate Certificate in Jazz Studies is a one-year program that provides opportunities for continued development of skills in jazz-specific areas, such as improvisation, pedagogy, and arranging. The certificate is available to degree-seeking and non-degree seeking students alike, non-music as well as music majors, and is designed as an intensive into jazz performance. The program will deepen the student's preparation for a career in jazz performance or prepare the student for further study in jazz.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/jazz-studies-certificate/jazz-studies-ge/Gedt.html>

Prerequisites:

Entrance into the Graduate Certificate program requires a live audition (see below), though video-recorded auditions will be acceptable in rare cases, by permission of the Director of Jazz Studies. Entrance into the program also requires completion of a Bachelor of Music degree (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum, appropriate course(s) may be added as additional requirements.

Requirements:

MUS_THRY 7210	Advanced Jazz Harmony and Arranging I	2
MUS_THRY 7211	Advanced Jazz Harmony and Arranging II	2
MUS_H_LI 7317	Historical Studies in Jazz and Popular Music	3
MUS_I_VT 7645	Graduate Jazz Improvisation	2
MUS_ENS 8841 & MUS_ENS 8846	Instrumental Ensemble and Advanced Chamber Ensemble	2
MUS_APMS 7435 & MUS_APMS 7455	Studio Instruction and Studio Instruction	2
or MUS_ENS 8841 & MUS_ENS 8846	Instrumental Ensemble and Advanced Chamber Ensemble	
Total Credits		13

Audition Information

Audition requirements can be found at <http://music.missouri.edu/graduate/auditionbyarea.html#mmjazzped>, under "MM in Jazz Performance and Pedagogy."

Graduate Certificate in Lifespan Development

Dr. Nicole Campione-Barr, Coordinator
Lifespan Development Graduate Certificate Program
204D McAlester Hall
email: campionebarr@missouri.edu
phone: 884-1681

About the Certificate (Educational Objective)

Developmental psychology and lifespan developmental studies include the scientific study of psychological changes that occur over the life course. Therefore, developmental studies are inherently interested in many of the same questions of other areas of psychology, education, family studies, etc., but by investigating the ways in which particular psychological processes change and develop from infancy to adolescence, and through to adulthood. The purpose of the graduate certificate in lifespan development is to provide students in other areas of psychological study, or human behavior broadly defined, a better understanding of the ways in which psychological functions change with age, as well as the challenges and special considerations that are a part of research with children and adolescents and how they may be different from those of working with adults.

Plan of Study

The requirements for acceptance and completion of work for the certificate are as follows:

- 1) The student must be enrolled and in good standing in a doctoral-level program at MU (available to degree-seeking students only).
- 2) A request to be included in the certificate program must be made in advance of final completion of courses to Nicole Campione-Barr, PhD. This can be done via e-mail or hard copy, however, the request must also be approved by the student's major advisor.
- 3) A formal plan of study must be submitted to the Graduate School no later than the *semester prior to graduation*. This must be signed by the certificate coordinator (Nicole Campione-Barr) and the director of graduate studies of the student's major department.

4) Students must complete a minimum of 15 credit hours to be awarded the certificate, following the below guidelines:

Core Courses: students are required to take 3 core courses

PSYCH 8410	Psychology of Development	3
or H_D_FS 8210	Theories of Human Development	
PSYCH 8420	Cognitive Development	3
or H_D_FS 8420	Cognitive Development	
PSYCH 8440	Social and Emotional Development	3
or H_D_FS 8440	Social and Emotional Development	

Electives* 6

Options within the Department of Psychological Sciences, and Human Development and Family Studies are listed below. Other pre-approved options are listed and include courses in Communication Sciences and Disorders, Educational School and Counseling Psychology, Social Work, and Special Education. Courses other than those listed may be appropriate, but should be approved prior to registration.

Developmental psychology such as PSYCH 7420

PSYCH 9440	Studies in Developmental Psychology	
PSYCH 8050	Research in Psychology - Non-Thesis	
PSYCH 9050	Research in Psychology - Non-Dissertation	
H_D_FS 8012	Family Dynamics and Intervention	
H_D_FS 8110	Developmental Perspectives on Health and Illness	
H_D_FS 8220	Family Theories	
H_D_FS 8300	Advanced Seminar on Multicultural Families	
H_D_FS 8450	Adolescence and Emerging Adulthood	
H_D_FS 8460	Life Course Perspective	
H_D_FS 8470	Identity Development	
H_D_FS 8610	Remarriage & Stepfamilies: Development, Dynamics, & Intervention	
H_D_FS 8630	Gendered Relations in Families	
H_D_FS 8640	Family Interaction	
H_D_FS 8710	Children, Families and Public Policy	
H_D_FS 8770	Poverty	
H_D_FS 8085	Problems in Human Development and Family Studies	
H_D_FS 8090	Research in Human Development and Family Studies	
ESC_PS 7160	Developmental Aspects of Human Learning	
ESC_PS 8015	Child and Adolescent Development	
ESC_PS 8580	Social and Cultural Identity Development	
ESC_PS 8135	Foundations of Career Psychology	
C_S_D 7810	Psycholinguistics	
C_S_D 7830	Individual Differences in Language Processing	
C_S_D 7840	Language and Development in Infancy	
SOC_WK 7360	Working with Minority Youth	
SOC_WK 7390	Helping Strategies With Children and Adolescents	
SPC_ED 7325	Language Development of Exceptional Students	
SPC_ED 8340	Advanced Studies in Developmental Disabilities	

5) When needed, advising will be provided to students by lifespan development certificate coordinator (Nicole Campione-Barr), in conjunction with the student’s major advisor.

Need for Certificate Program

For students within the child clinical psychology Ph.D. program of study there is a need for some students to gain greater exposure to developmental studies. Currently, the department of Psychological Sciences offers a dual child clinical and developmental psychology degree program. This program is extremely rigorous, however, and students and faculty within the Department of Psychological Sciences have identified a need for more in-depth study in developmental science without the commitment of a second degree. In creating the certificate program, however, it was determined that graduate students in other related fields may also wish to pursue further study in lifespan development. In particular, students in education, social work, communication science and disorders, and additional areas within psychology may benefit from greater understanding of developmental processes which could be gained through the required and elective course work outlined in this certificate program.

Impact on Current Programs of Study

The impact to current programs of study is expected to be relatively minimal other than the inclusion of potentially a few more students enrolled in the aforementioned classes.

Advisory Committee Members

- Debi Bell, Psychological Sciences
- Nicole Campione-Barr, Psychological Sciences
- Marilyn Coleman, Human Development & Family Studies
- Larry Ganong, Human Development & Family Studies
- Jean Ispa, Human Development & Family Studies
- Amanda Rose, Psychological Sciences

Participating/Affiliated Faculty - Various faculty from the following departments:

- Psychological Sciences
- Human Development and Family Studies
- Communication Science and Disorders
- Educational, School, and Counseling Psychology
- Special Education
- Social Work

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/lifespan-development-graduate-certificate/lifespan-dev-ge/Gedt.html>

Graduate Minor in Medieval and Renaissance Studies

Considering a graduate MARS minor? While most students still choose to study in a traditional disciplinary framework, a MARS minor allows students to expand the breadth of their studies and research by taking coursework in over 11 different departments on campus. So much of the research on the Middle Ages and the Renaissance is interdisciplinary in nature, and the MARS minor helps students gain expertise in areas outside of their home discipline while simultaneously offering a quick and comprehensive way for prospective employers to understand their specialization and background.

Requirements: Courses that may be applied toward this minor are taught by faculty members from the departments of Art History and Archaeology, Classical Studies, English, Germanic and Russian Studies, History, Music, Philosophy, Religious Studies, and Romance Languages and Literatures. Under certain circumstances, a minor in Medieval or Renaissance studies may also be arranged for MA programs. A student must be accepted for advisement by the major department. Then, in consultation with the major advisor, who must be a specialist in the medieval or Renaissance period, an interdisciplinary curriculum for the minor is prepared and submitted to the Medieval and Renaissance Studies Committee for approval.

- A doctoral candidate in one of these departments offering a PhD may elect a minor concentration in interdisciplinary Medieval or Renaissance Studies by taking at least three appropriate courses outside the department, as well as all appropriate ones within it. Thus one earns, for example, a PhD in Art History and Archaeology with specialization in Medieval Studies, or a PhD in History with specialization in Renaissance Studies.
- At least nine (9) hours in relevant 7000 or 8000 level courses outside the major department are required to constitute the minor.
- Because the program places considerable emphasis on foreign languages, all doctoral candidates must study at least two languages.

Perks:

- The Newberry Library Center for Renaissance Studies consortium
- MU graduate Association for Medieval and Renaissance studies
- Renaissance reading group
- A listserv announcing campus-related activities for MARS members

For more information contact:

Dr. Emma Lipton
 Chair of MARS
 liptone@missouri.edu

Graduate Minor in Museum Studies

This minor, offered by the Museum of Art and Archaeology and the Department of Art History and Archaeology, provides students with a systematic introduction to the history, philosophy, and role of museums. The program blends academic theory with practical experience to provide students with an opportunity to build a foundation applicable for work in either university or public museums.

Curriculum: The program comprises six courses designed to introduce students to the history and role of museums in society; to the philosophical, legal and administrative issues that face the modern museum; and to the exhibition and preservation skills required of a museum curator. The emphasis of the program is on museum management, curatorial responsibilities (collections management and exhibition) and educational interpretation. Internships and field trips to local museums provide additional insight into the world of museum professionals.

- Individual courses are listed under the Department of Art History and Archaeology. Successful completion of the program is accomplished through 12 credit hours of required course work, including AR_H_A 7130, AR_H_A 8130 and AR_H_A 7980, and is recognized when the student successfully completes an M.A. in his

or her academic field of study. An individual's course of study will be arranged with the program director.

- The minimum period required to complete the minor is four semesters, or three semesters and one summer. Courses are open to advanced undergraduate students, but admission to the program is open only to those who have completed a BA degree.

Admissions: Students who undertake the museum studies minor are normally already enrolled as graduate students in degree-granting academic departments. Students should apply at the beginning of the fall semester to the Director of Graduate Studies, 109 Pickard Hall, for admission to the program.

Graduate Minor in Psychological Statistics and Methods

The Minor in Psychological Statistics and Methods is a joint program between the Department of Psychological Sciences and the Department of Statistics.

A total of seven courses at the 7000 level or above in statistics and methods is required. The course options are dependent on the doctoral program in which the student is admitted. More detailed specification of the courses required in the plan of study may be stipulated by the student's major department and the student should consult with them in this regard.

Doctoral students in the Department of Psychological Sciences or Statistics must take at least two of the seven required courses outside their major department.

A grade of B or better is required in the following courses:

PSYCH 9710	Multivariate Statistics in Psychology	3
PSYCH 9720	Latent Variable Models in Statistical Analysis	3
PSYCH 9715	Multilevel Modeling	3

Quantitative Psychology - one of the following is required:

PSYCH 9520	Psychometrics	3
PSYCH 9725	The Literature Review	3
PSYCH 9750	Advanced Structural Equation Modeling	3
PSYCH 9760	Categorical Data Analysis	3
PSYCH 9735	Psychological Process Models	3

Two approved courses at the 7000 level or above in the Department of Statistics, Mathematics, or in other departments provided those courses are primarily statistics-oriented or methods-oriented. *

* The following courses **cannot** be used to fulfill minor requirements: STAT 7050, STAT 7510, STAT 7530, STAT 7560, STAT 4970, STAT 7020, STAT 7070, STAT 8220, STAT 8370.

Doctoral students in other departments must take five courses within the Department of Psychological Sciences or the Department of Statistics, at least two of which are in statistics and two of which are in psychology.

Questions regarding the minor in Psychological Statistics and Methods should be directed to:

Phil Woods
 Training Area Director
 phillipkwood@gmail.com

Graduate Certificate in Science Outreach

For lists of permanent courses and current offerings, visit <http://wgst.missouri.edu/graduate/index.html>.

The educational objectives of the Certificate in Science Outreach Program are to teach students how to integrate research and outreach, and how to facilitate a dialogue with the lay public. Course work will concentrate on increasing the ability of students to communicate science to broad audiences of different ages and different levels of education. Practice and application of outreach will develop the "broader impacts" component of the research, and will emphasize actual interaction with audiences, to promote understanding and appreciation of science, and support for scientific research.

Required Courses:

BIO_SC/AN_SCI 8725/PHYSICS 8350/ LTC 8725	Science Outreach: Public Understanding of Science	1-2
LTC/BIO_SC 8726	Integrating Science with Outreach	1-6
LTC/BIO_SC 8724	College Science Teaching	3

For more information, contact the certificate Co-Directors:

Anna Waldron
573-882-2737
waldrona@missouri.edu

Gavin King
573-882-3217
kinggm@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/science-outreach-graduate-certificate/science-outreach-ge/Gedt.html>

Graduate Minor in Women's and Gender Studies

Contact Information:

Joan Hermsen, Chair
Mary Jo Neitz, Director of Graduate Studies
325 Strickland Hall
(573) 882-2703

Eligibility for Minor

The Women's and Gender Studies Graduate Minor is available to all students pursuing a graduate degree at MU.

Plan of Study

15 credit hours will be chosen to complement the student's main area of graduate study. Students may take up to six hours in their home department. Students will gain expertise in the methodologies and theories in Women's and Gender Studies.

The minor requires the following six credit hours:

WGST 8020	Graduate Feminist Theory	3
WGST 8040	Seminar: Problems and Issues in Feminist Scholarship	3

Robert J Trulaske, Sr. College of Business

Administration

Joan T. A. Gabel, Dean
Stephen Ferris, Associate Dean
Mary Beth Marrs, Associate Dean
Jeff Wiese, Assistant Dean
Joseph Stephens, Assistant Dean
Vairam Arunachalam, Director, School of Accountancy
Dan French, Chair, Finance Department
Doug Moesel, Chair, Management Department
Murali Mantrala, Chair, Marketing Department

Contact Information

111 Cornell Hall
(573) 882-7073

The Robert J. Trulaske Sr., College of Business, established in 1914, educates students for professional opportunities and responsibilities in the private and public sectors. The college includes the School of Accountancy (the first established at a major public university) and the departments of Finance, Management and Marketing. The college offers an undergraduate degree in business administration, a combined bachelor's and master's degree program in accountancy, master's degrees in business administration, and doctoral degrees in accountancy and business.

Students' educational experiences are enhanced through the scholarly activities of the faculty, who conduct research on significant, timely issues. Students in the college are exposed to relevant theories and concepts applied to real-world operations of private and public enterprises. Students gain added practical insights through internships, field projects, guest speakers and executives-in-residence. The college's agencies provide information, research, continuing education and managerial assistance to practitioners and organizations throughout Missouri and in other states.

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and Advanced Placement (College Board) credit. More information may be obtained from academic advisors in the undergraduate Trulaske College of Business and the Credit by Examination section in the beginning of this catalog.

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Course work focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including "all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees." Management course work at MU is quite

diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management and business law.

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take MANGMT 1010 Contemporary Business Practices .

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an economics emphasis to any other BSBA emphasis program.

Undergraduate

- Admissions (p. 307)
- Degree core Requirements (p. 308)
- Academic Regulations (p. 308)
- Enrolling in Other Institutions (p. 309)
- Advising (p. 309)
- Business Career Services (p. 309)
- Professional Development Programs (p. 308)

Admissions

Freshmen

Freshman applicants to the Robert J. Trulaske Sr., College of Business (students applying to MU from high school) will be admitted to the lower division if they meet campus admission requirements. Admission to the lower division does not guarantee admission to the BSBA degree program and emphasis areas or the Accountancy program. Admission to an upper-level emphasis area is based on the UM cumulative grade of record (minimum 2.6 GPA), successful completion of the business and professional core courses, and completion of the Professional Development requirements.

Transfer Students

Students in good standing in another school or college at MU must submit a Transfer of Division form to the Trulaske College of Business. Such students may be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits (60 credits for Accountancy students).

External transfer students who request admission to the Trulaske College of Business will be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits. Students are encouraged to have their transcripts evaluated by an academic advisor in the Trulaske College of Business prior to their enrollment at MU.

Course work completed with a grade of D- or better at an accredited two- or four-year institution will be accepted if the courses are appropriate

equivalents of the required MU courses and if the equivalent MU courses do not require a grade in the C range. Only six hours of business course work at the 3000-level can be transferred for the degree requirements. The college does not accept developmental or vocational/technical course work.

Credits transferred from accredited community or junior colleges usually include general education, upper level or pre-accountancy admission requirements and unrestricted elective courses. The Trulaske College of Business accepts a maximum of 64 credits from a community or junior college toward the bachelor's degree. When more than 64 credits have been completed, the additional courses are evaluated on a course-by-course basis for applicability to lower-division requirements.

A student holding an associate of arts degree from an accredited Missouri Community College will have fulfilled general education requirements (p. 18). However, this does not exempt the student from satisfying the specialized degree, major or emphasis prerequisites of the college in the areas of accounting, economics, math and statistics.

Students transferring to the college without an associate of arts degree will have their transcripts evaluated on a course-by-course basis and must meet the entrance requirements of the college in the same way as other MU students. Students transferring to the Trulaske College of Business will be required to meet the Professional Development requirements based on the earliest semester of continuous enrollment in college after high school graduation.

Probationary Admissions

Students are placed on academic probation if they are admitted to the college without fully meeting the good-standing requirements of the school. (See the section on Probation Suspension and Dismissal (p. 308) for these requirements.)

Degree Core Requirements

Credit Hour Requirements

In addition to University general education (p. 18) and graduation requirements, students must meet the following requirements:

- Students must complete a minimum of 120 credits from accredited colleges or universities for all BSBA emphasis areas except International Business, which requires 136-141 credits. (See separate section for international business major requirements.) Additionally, the joint BSAcc and the MAcc degree program requires students to complete a minimum of 150 credit hours.
- In completing the 120 credits for graduation, students may count no more than 30 credits within their emphasis area.

A student who has a degree in another curricular area may receive a Bachelor of Science in Business Administration degree upon completion of all requirements for the degree.

Professional Development Program

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accountancy students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intercession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course

Capstone

Students must complete MANGMT 4970 Strategic Management to meet the capstone requirement. Students must earn a C- or better to earn credit for this course in order to graduate.

Required Work in Residence

Students must complete 30 of the last 36 hours of courses in residence at MU, enrolled in the Trulaske College of Business.

Latin Honors

Graduation with Latin Honors is determined by grade point average from either the last 50 undergraduate credits in the UM system or overall UM System undergraduate credits, whichever is higher. Grade point average requirements for Latin Honors are 3.5 for *cum laude*; 3.7 for *magna cum laude* and 3.9 for *summa cum laude*.

Academic Assessment

Students are required to complete a college-wide assessment exam in addition to a University assessment exam during their capstone course.

Academic Regulations

Credits by Examination

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and advanced placement (College Board) credit. More information may be obtained from academic advisors in the

Trulaske College of Business and the Credit by Examinations section (p. 703).

Maximum Credits Enrolled

A student with a cumulative GPA of 3.0 or higher may register for more than 18 credits for a fall or spring term, with permission of the assistant dean of undergraduate programs.

Independent Study

Contact Mizzou Online (self paced) for a listing of courses that may be taken online. A student may not take more than six hours of 3000 or higher Business courses through MizzouOnline (self-paced), excluding BA 4500.

Probation, Suspension and Dismissal

Grade Point Average Requirements

Minimum GPAs must be maintained in the following categories to remain in good standing with the Trulaske College of Business:

- Students in the Upper Level for Business must maintain a 2.50 GPA in all MU accounting and business courses. Students in the Upper Level Accountancy, must maintain a 3.0 GPA in order to graduate.
- All students must earn a 2.00 term and cumulative GPA on courses completed in the UM System.

Probation

See the Academic Standing (p. 703) section of this catalog.

- A student in good academic standing whose term GPA subsequently falls below 2.0 but is 1.0 or above (0.5 or above for a first term Freshman) is placed on academic probation.
- A student whose cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 is placed on probation. (Courses offered by the college are those with the curricular designations of ACCTCY, BUS AD, ECONOM, FINANC, MANGMT and MRKTNG.) This only applies to students admitted to an upper level BSBA emphasis.
- A student placed on academic probation must establish a 2.0 term GPA, a 2.0 UM System cumulative GPA and a 2.0 MU Trulaske College of Business cumulative GPA within two successive terms of enrollment; otherwise, the student is ineligible to enroll.
- Students placed on probation may become ineligible to enroll in the Trulaske College of Business at the end of the first term of probation if they become subject to one or more of the first three dismissal provisions below.

Dismissal

See University requirements outlined in the Academic Standing (p. 703) section of this catalog.

Students become ineligible (dismissed) to enroll in the Trulaske College of Business if one or more of the following occurs:

- The fall or spring term GPA falls below 1.0.
- For a student who has been admitted to upper level, the cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 GPA. This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.

- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

A student who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of Undergraduate Advising. As a condition of readmission, the director may set forth stipulations about minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent.

Satisfactory/Unsatisfactory Grades

The S/U grading system is limited to unrestricted elective courses or courses only offered with a S/U grade.

Enrolling in Other Institutions

The Trulaske College of Business has no restrictions on a student enrolling in another institution simultaneously as long as university residency requirements are met.

A student may take no more than six credit hours of transfer business course work at the 3000-level or higher.

Advising

Academic Advising Contact
Undergraduate Advising Office
111 Cornell Hall
(573) 882-7073
businessadvising@missouri.edu

Students admitted to a degree program in the college are assigned an academic advisor. The academic advisor works with students in determining course work needed to complete a degree. In addition, students are assigned a faculty advisor in their emphasis area who can assist with career planning and selection of professional electives and emphasis support courses. Students are responsible for determining an appropriate schedule of courses each semester and are encouraged to meet with their academic advisor for assistance.

Business Career Services

Business Career Services (BCS) is a valuable resource for all levels of TCoB students. BCS provides students individual career coaching, guidance and advice in areas such as resume and cover letter construction/revision, mock interviews, interview preparation, salary negotiations, and much more. Business Career Services partners with numerous companies serving as a liaison to bridge employer with employee. BCS sponsored events such as Corporate Visit Days and Emphasis Panel (Accountancy, Finance & Banking, Management, Marketing, Real Estate, Sales, Entrepreneurial, Consulting, Government, Health Care, and Human Resources) provide students with firsthand knowledge of what is required to be competitive in the job market upon graduation from the Trulaske College of Business. All students are encouraged to register with BCS and begin utilizing these services as early as freshman year. BCS hosts three career fairs annually.

Professional Development Program

The mission of the Professional Development Program is to provide every BSBA and lower division Accounting student with substantive professional development experiences during their degree program. Professional Development refers to activities, both inside and outside

of the classroom, that provide students with the opportunity to develop and practice skills that are needed to perform successfully in professional roles after graduation. Students who graduate with a BSBA degree from the Robert J. Trulaske Sr., College of Business will have content knowledge and advanced professional competencies that are necessary for success in the business world.

Graduate

Founded in 1914, the Robert J. Trulaske, Sr. College of Business enrolls about 350 graduate students as well as 4,000 undergraduates. The primary mission of the college is to prepare students to succeed in the world of business and to advance the body of knowledge about the world of business. The college has four academic units – Accountancy, Finance, Management, and Marketing – with 64 full-time faculty members.

The Trulaske College offers PhD degrees in both accountancy and business administration, an MBA degree, a 150-hour program that confers both undergraduate and master's degrees in accountancy, and an undergraduate degree in business administration. Over time, the college's degree programs and faculty research productivity have earned national acclaim.

The college takes great pride in its graduates. More than 31,000 alumni are contributing their expertise to the public and private sectors in every state in the U.S. and in a host of foreign countries. The Trulaske College's graduate-level degree programs, dual degrees, and certificates are described below.

Note: Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

The accountancy program at the University of Missouri has long been nationally recognized for its excellence. MU accountancy faculty have published leading textbooks and research articles and have served at high levels in numerous professional accounting associations. The school offers a combined BSAcc and MAcc degrees.

Students wanting to explore accountancy as a major should take ACCTCY 2036.

Admissions

Accountancy prepares students for the competitive field of accounting with a combination of classroom study, practical experience, and student organizations, all in a degree that is nationally recognized for its excellence. The bachelor of science and master of accountancy degree programs are merged into an integrated 150-hour curriculum to be entered into as a junior. A limited number of students may also be accepted into the MAcc-only program.

Admission decisions will be made at the end of the spring semester for *fall admissions only*. Meeting the minimum requirements does not guarantee admission. Admission cutoffs will be revised each year in order to control accountancy undergraduate enrollment at a limit that can be served with current authorized faculty staffing and still maintain program quality and meet accreditation guidelines. Students meeting the minimum requirements will be selected for admission based on their UM cumulative grade point average until the enrollment for that year is reached. A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Students not admitted to the 150 credit hour degree program in the School of Accountancy may meet Trulaske College of Business admission requirements and transfer into a business administration emphasis area, depending on available space.

A student may take no more than six credit hours of 3000 or higher business courses through Mizzou Online or non-MU courses off campus, excluding BUS_AD 4500. Study abroad courses are also excluded from this requirement.

Faculty

Professor V. Arunachalam**, J. R. Francis**, I. K. Khurana**

Associate Professor E. G. Mauldin**, M. R. Pereira**, K. W. Shaw**

Assistant Professor M. Glendening*, K. Kim*, N. Newton*, M. Subasi*, Q. Zhao*

Teaching Professor B. M. Cunningham*

Associate Teaching Professor C. Prestigiacomo*

Assistant Teaching Professor K. Hockman*, P. Kleen*, S. Neuman, R. Wilson*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSAcc in Accountancy (p. 312)

Undergraduate Level

Information on students who are admitted to MU and who indicate an interest in becoming accountancy or business majors is subsequently forwarded to the Undergraduate Programs Office of the College of Business (111 Cornell Hall, 573-882-7073). Qualified applicants with less than 54 semester hours of college courses completed will be admitted to the lower (pre-professional) level of the Trulaske College of Business. Applicants with more than 54 semester hours of college credit may be admitted to a specific upper (professional) level college of business program, e.g., the 150-Hour Accountancy Program, if they meet the program's admission requirements. Students who transfer into the Trulaske College of Business' upper or lower levels from another Mizzou school or college must submit a Transfer of Division form in order to be considered for admission.

The combined BSAcc/MAcc (150-hour) program is open to qualified undergraduate students at Mizzou as well as qualified undergraduates who transfer to MU from other colleges and universities. Interested students not already admitted to Mizzou should visit the Office of Admissions website (<http://admissions.missouri.edu/apply>). Undergraduate students are also responsible for completing all Trulaske College of Business requirements. These requirements can be found here (p. 307).

Admission to the Joint BSAcc and MAcc Degree Program

In the School of Accountancy, the bachelor's and master's degree programs are merged into a 150-credit program. Students should be admitted to the BSAcc/MAcc degree program by the time they have completed 60 hours. Refer to the list of Pre-Accountancy (p. 312) courses in the BSAcc (p. 312) information which are required for admission.

Students must also complete the Professional Development Program (PDP) point requirement for admission to the School of Accountancy and for graduation. Students must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points for graduation.

Academic Standing - School of Accountancy

Accountancy students are in good academic standing if they maintain a cumulative UM grade point average of 3.0 or higher for all coursework subsequent to admission to the 150-hour Accountancy program. Failure to meet this requirement will result in a probationary semester, and if not rectified, dismissal from the program. Accountancy students are subject to the probation and dismissal policies (p. 307) set by the Trulaske College of Business. An undergraduate who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the director of the 150-hour program in accountancy. As a condition of readmission, the director may set forth stipulations with regard to minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent. Accountancy students entering the graduate portion of the 150-hour program should consult The Graduate School (<http://gradschool.missouri.edu>) for academic standing policies for graduate students.

About Accountancy Graduate Programs

The School of Accountancy offers graduate work leading to the master of accountancy and doctor of philosophy degrees. Graduate programs in accountancy prepare students for advanced professional careers in public, private and governmental accounting, and for careers in teaching and research.

Alert to change and recognizing that accounting education at the graduate level should be ahead of current practice, the School's programs require course work stressing advanced knowledge in accounting theory and practice, quantitative methods, economics and business. Opportunities exist on and off campus for exchanging ideas with practicing accountants and for participating in the solution of their professional problems.

Among the school's special facilities are a comprehensive collection of accounting and investment services, computer databases, technical journals and microfilm copies of annual reports, government documents and doctoral dissertations.

Funding

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students.

Undergraduate

BSAcc in Accountancy

Major Program Requirements

The undergraduate and master's degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government.

The Bachelor of Science with a major in Accountancy is awarded along with the Master of Accountancy degree upon satisfactory completion of the 150-credit, integrated curriculum. In this integrated program, a minimum of 24 credits in accountancy courses at the 3000-level or above must be completed at MU.

Major Core Requirements

The following courses are degree specific major requirements for the 150-credit program in the School of Accountancy. Courses that satisfy University general education (p. 18) and core program prerequisite requirements are recommended for the freshman and sophomore years.

Accountancy Foundation Courses

PHIL 1000	General Introduction to Philosophy (fulfills humanistic studies requirement)	3
or PHIL 1100	Introduction to Ethics	
or PHIL 1200	Logic and Reasoning	
COMMUN 1200	Public Speaking	3
	3 hours of Psychology or 3 hours of Sociology	3
	International Component (See your academic advisor about completion of this requirement.)	

Pre-Accountancy Courses

ACCTCY 2036	Accounting I * 1 2	3
or ACCTCY 2136H	Honors Accounting I	
ACCTCY 2037	Accounting II * 1 2	3
or ACCTCY 2137H	Honors Accounting II	
ECONOM 1014	Principles of Microeconomics ** 2	3
or ECONOM 1024	Fundamentals of Microeconomics	
ECONOM 1015	Principles of Macroeconomics ** 2	3
ENGLISH 1000	Exposition and Argumentation 2	3
MANGMT 1010	Contemporary Business Practices	1
MATH 1100	College Algebra	3
MATH 1300	Finite Mathematics *** 2	3
MATH 1400	Calculus for Social and Life Sciences I *** 2	3
STAT 2500	Introduction to Probability and Statistics I *** 2	3

Required Core Courses

ACCTCY 2258	Computer-Based Data Systems	3
ECONOM 3229	Money, Banking and Financial Markets	3
ECONOM 3251	Theory of the Firm	3
or ECONOM 4351	Intermediate Microeconomics	
FINANC 3000	Corporate Finance	3
MANGMT 3000	Principles of Management	3
MANGMT 3200	Business and Society	3
MANGMT 3540	Introduction to Business Law	3
MRKTNG 3000	Principles of Marketing	3
STAT 3500	Introduction to Probability and Statistics II	3

Required Accountancy Courses

ACCTCY 3326	Financial Accounting Theory and Practice I	3
ACCTCY 3328	Accounting Information Systems	3
ACCTCY 3346	Financial Accounting Theory and Practice II	3
ACCTCY 3347	Cost and Managerial Accounting	3
ACCTCY 4353	Introduction to Taxation	3
ACCTCY 4384	Auditing Theory and Practice I	3
Accountancy Elective		3
Professional Electives		
Nine credits must be taken as 2000-level or higher University non-business electives or 3000-level business electives		9
Senior Capstone		
MANGMT 4970	Strategic Management	3
Graduate Level Coursework		30
Total Credits		127

- * Both ACCTCY 2036 and ACCTCY 2037 must be taken in residence or both must be taken at another campus.
- ** ECONOM 1051H may be taken in place of ECONOM 1014/ ECONOM 1024 and ECONOM 1015.
- *** Requires a grade of C- or better.
- 1 Requires minimum 3.0 GPA for ACCTCY 2036 and ACCTCY 2037 (including grades from other institutions).
- 2 Requires minimum 3.0 GPA (including grades from other institutions) for these Pre-Accountancy courses.

School of Accountancy Graduation Requirements

Course requirements ensure that at least 40 percent of a student's course work is earned in divisions other than business. The merged BSAcc and MAcc degrees require 150 total credits.

General Education *	23
Pre-Accountancy Courses	28
Accountancy Foundation Courses	9
Required Core Courses	27
Required Accountancy Courses	21
Professional Electives	9
Senior Capstone	3
Graduate Level Coursework	30
Total Minimum	150

- * Additional 3 hours of humanities fulfilled in Accountancy foundation courses. Students also need to fulfill an International Studies Component (3 hours) to be selected with your advisor. These classes can be taken at the undergraduate or graduate level.

Semester Plan - Bachelor of Science in Accountancy and Master of Accountancy

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
MATH 1300, 1320, or 1400 *	3 MATH 1300, 1320, or 1400 *	3
State Requirement	3 ENGLISH 1000 (grade of C- or better)	3

PSYCH 1000 or SOCIOL 1000	3 ECONOM 1014	3
PHIL 1000, 1100, or 1200	3 Physical/Biological Science	3
Non-Business Elective	2 Humanities Elective	3
MANGMT 1010	1	
	15	15

Second Year

Fall	CR Spring	CR
STAT 2500	3 STAT 3500	3
ACCTCY 2036 or 2136H	3 ACCTCY 2037 or 2137H	3
ECONOM 1015	3 ACCTCY 2258	3
Physical/Biological Science	3 Non-Business Elective	3
COMMUN 1200	3 Physical/Biological Science	3
	15	15

Third Year

Fall	CR Spring	CR
Professional Elective	3 FINANC 3000	3
ACCTCY 3326 (FS only)	3 ACCTCY 3346 (SP only)	3
ACCTCY 3328	3 MRKTNG 3000	3
MANGMT 3000	3 ACCTCY 4353	3
ECONOM 3229	3 MANGMT 3200 (Writing Intensive)**	3
	15	15

Fourth Year

Fall	CR Spring	CR
Professional Elective	3 Non Internship (for Internship plan-see below)#	
ECONOM 3251 or 4351	3 MANGMT 4970	3
MANGMT 3540	3 Non Business Elective	3
ACCTCY 3347	3 ACCTCY 4384	3
Humanities Elective	3 ACCTCY/BUS Elective	3
	Professional Elective	3
	15	15

Fifth Year

Fall	CR Spring	CR
Accountancy Elective	3 ACCTCY 8450	3
Accountancy Elective	3 MANGMT 7010	3
Accountancy Elective	3 Accountancy Elective	3
Accountancy/Business Elective	3 Accountancy Elective	3
Accountancy/Business Elective	3 Accountancy/Business Elective	3
	15	15

Total Credits: 150

Internship

ACCTCY 4940	Professional Accounting Internship	3
ACCTCY 4384	Auditing Theory and Practice I	3
Accountancy Elective		3
Independent Study		3
Total Credits		12

- # Some students get an opportunity to do a spring internship for 3 hours during the 8th semester. Internships are normally the 1st 8 weeks and students take 6 hours during 2nd 8 weeks for a total of 9 hours. If students do a winter internship, they can normally complete only 12 hours by taking an independent study course. Students would need to complete the additional 6-9 hours prior to or during the summer following the internship.

* Both MATH 1300 and MATH 1320 must be taken. A grade of C- is required in MATH 1100 (counts in place of non-business elective), MATH 1300 or MATH 1320 and STAT 2500.

** Need grade of C- or better to fulfill requirement.

Note:

MANGMT 3200 is a required course.

ECONOM 1051H satisfies both ECONOM 1014 or ECONOM 1024 and ECONOM 1015 requirement.

One humanity or science must be 2000-level or above.

Professional electives can be non-business electives (2000+ courses) or Business electives (3000+ courses) approved by academic advisor.

Electives must be approved by advisor so that international studies component is met.

573-882-4463

- Degree Requirements (p. 314)
- Admission Criteria (p. 314)
- Graduation Requirements (p. 314)

The School of Accountancy is NOT accepting any applications for admission to the MAcc-only program, as we are at full capacity.

About the MAcc Program

The growing scope and diversity of functions being performed by professional accountants has created a strong demand for individuals who have both a broader base of general and business education as well as more in-depth technical accounting education than can be obtained in a four-year.

Requirements for Master's Degree Only

A student who has a degree in a different curricular area or a bachelor's degree in accountancy from another college or university may earn a master's degree from the School of Accountancy upon completion of the requirements for the degree. The student's program must include a minimum of 30 credits beyond the bachelor's degree (or its equivalent) selected from courses carrying graduate credit. In addition, the student must meet the following stipulations:

- At least 15 of the 30 credits must be completed in 8000-9000-level courses.
- A minimum of 24 credits of advanced study must be completed under MU faculty.
- A maximum of 6 graduate credits may be transferred from another college or university.
- All requirements must be completed within eight years from the time of initial enrollment.

MU's M Acc program is designed especially to provide the additional breadth and depth of knowledge and skills required for success in contemporary accounting practice.

Core Business Education

Business electives: 9 hours

Professional Accountancy Education

ACCTCY 7365	Governmental Accounting and Budgeting	3
ACCTCY 7384	Auditing Theory and Practice I	3

Minimum	50 th			75 th
Percentile				

- Minimum GPA: at least 3.5 for last 60 hours
- Bachelor's degree from an accredited college or university, with a major in accountancy or equivalent
- A prior record of outstanding academic performance
- Strong letters of recommendation
- Work experience may be considered

Note: Meeting the minimum requirements does not guarantee admission. Admission is competitive and based on space availability.

Required Application Materials

To the Graduate School

All required Graduate School documents

Statement of objectives, no more than 500 words (upload to the online Graduate Application)

TOEFL score (if native language is not English)

To the M Acc Program

GMAT score

2 Recommendation letters, mailed

Prerequisites for the MAcc

The master of accountancy (M Acc) program encompasses the last 30 hours of MU's 150-hour accountancy program and presumes students have completed the undergraduate portion of the program, or the equivalent. Students whose undergraduate education is not equivalent to the first 120 hours of the 150-hour program may overcome important deficiencies by taking additional courses approved by the program director.

To be considered for acceptance in the M Acc program candidates must have completed the first 120 hours of MU's 150-hour program or received a baccalaureate degree from an accredited college or university with a major in accountancy or the equivalent (students with bachelor's degrees

in non-accounting areas may enter the M Acc program after completing an appropriate set of “prerequisite” courses).

In addition to the requirements listed above, other factors such as the student’s statement of objectives and recommendation letters also may be considered to the extent that they provide indications of a student’s ability to be successful in the M Acc program.

The MAcc Admission Process

Generally, admission decisions for the M Acc program are made in the late spring and summer for fall admissions only, **and this is on a highly competitive basis.**

Graduation Requirements for the MAcc

The basic 30-hour M Acc curriculum requires a minimum of 15 hours of accountancy courses and a minimum of 15 hours of courses reserved exclusively for graduate students. A maximum of 6 semester hours of graduate level course work may be transferred from another accredited master’s program.

Through careful selection of electives, the M Acc program provides great flexibility to enable customized programs of study in specialty areas of particular interest to students. One of the most popular areas of specialization is taxation (where a “tax track” is available. Other specialties may be developed in the areas of financial accounting and auditing. Go the following link for more information about graduate accounting certificates: /undergraduategraduate/collegeofbusiness/additionalminorsandcertificates/ (p. 338).

Accountancy Electives:

ACCTCY 7940	Professional Accounting Internship	3-6
ACCTCY 8363	Multi-Jurisdictional Tax	3
ACCTCY 8373	Taxation of Corporations and Shareholders	3
ACCTCY 8404	Internal Auditing	3
ACCTCY 8414	Information Systems Assurance and Control	3
ACCTCY 8419	International Accounting	3
ACCTCY 8423	Tax Research and Planning	3

Prerequisites for the Doctoral Degree in Accountancy

International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; intermediate-level microeconomic theory; and an undergraduate accounting major (or equivalent). Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

Graduation Requirements for the Doctoral Degree in Accountancy

The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

Doctoral-level Accounting Research courses	15
Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior)	15
Statistics and other research methods courses	18
Weekly Research Seminar (meeting one hour per semester for four years)	8

Dissertation Research	12-16
Total Credits	68-72

Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests.

More Information about the Doctoral Degree in Accountancy

Scholarship Information

111 Cornell Hall
(573) 882-7073

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Course work focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including "all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees." Management course work at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management and business law.

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take MANGMT 1010.

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an Economics emphasis to any other BSBA emphasis program.

Preprofessional Information

To apply to the upper-level BSBA and a related emphasis area program, a student must have completed a minimum of 45 credits, have at least a UM Cumulative GPA of a 2.6 (minimum requirement and does not guarantee admission to Upper Level) and met the Professional Development Program requirements. A Trulaske College of Business student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application:

ACCTCY 2036	Accounting I *	3
or ACCTCY 2136H	Honors Accounting I	
ACCTCY 2037	Accounting II *	3
or ACCTCY 2137H	Honors Accounting II	
ECONOM 1014	Principles of Microeconomics ^	3
or ECONOM 1024	Fundamentals of Microeconomics	
ECONOM 1015	Principles of Macroeconomics ^	3
ENGLISH 1000	Exposition and Argumentation	3
MANGMT 1010	Contemporary Business Practices	1
MATH 1100	College Algebra	3
MATH 1300	Finite Mathematics #	3
MATH 1400	Calculus for Social and Life Sciences I #	3
STAT 2500	Introduction to Probability and Statistics I	3

* Both ACCTCY 2036 and ACCTCY 2037 must be taken in residence or goth must be taken at another campus.

^ ECONOM 1051H may be taken in place of ECONOM 1014/ECONOM 1024 and ECONOM 1015.

Needs grade of C- or better in MATH 1300 or MATH 1400.

 - with emphasis in International Business - Marketing (p. 330)
- Minor in Business (p. 331)

Professional Development Program

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accounting students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 (<http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/businessadministration/department-level-requirements>) once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intercession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 (<http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/businessadministration/department-level-requirements>) must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

Admission to the Business Administration Program

Capacity Limitations

Admission into the upper-level Bachelor of Science in Business Administration (BSBA), or International Business (BSBA) degree program is highly competitive, because enrollment is limited. Each of the individual emphasis areas (Economics, Finance and Banking, Management, Marketing or Real Estate) has its own capacity limitation. Students who have earned a 3.25 minimum UM cumulative GPA or higher will be guaranteed admission to the upper level emphasis area of their choice. Other students with at least a 2.6 minimum UM cumulative GPA will be admitted on a space available basis.

Preprofessional Information

To apply to the upper-level BSBA and a related emphasis area program, a student must have completed a minimum of 45 credits and met the Professional Development Program requirements. A TCOB student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application.

ACCTCY 2036	Accounting I *	3
or ACCTCY 2136H	Honors Accounting I	
ACCTCY 2037	Accounting II *	3
or ACCTCY 2137H	Honors Accounting II	
ECONOM 1014	Principles of Microeconomics ^	3
or ECONOM 1024	Fundamentals of Microeconomics	
ECONOM 1015	Principles of Macroeconomics ^	3
ENGLISH 1000	Exposition and Argumentation	3
MANGMT 1010	Contemporary Business Practices	1
MATH 1100	College Algebra	3
MATH 1300	Finite Mathematics #	3
MATH 1400	Calculus for Social and Life Sciences I #	3
STAT 2500	Introduction to Probability and Statistics I	3

* Both ACCTCY 2036 and ACCTCY 2037 must be taken in residence or both must be taken at another campus.

[^] ECONOM 1051H may be taken in place of ECONOM 1014/ECONOM 1024 and ECONOM 1015.

[#] Needs grade of C- or better in MATH 1300 or MATH 1400

Admission to BSBA Degree and Emphasis Areas

In addition to meeting the previous requirements, students are admitted to an upper-level BSBA emphasis area based on UM cumulative grade point average. Students with exceptional circumstances may ask to be considered for admission based on both grades and other factors.

Students request an emphasis area when applying to the upper-division BSBA degree program. If the requested emphasis area is at capacity, students who qualify for admission to the upper-division BSBA degree program are given the opportunity to choose another emphasis area. Students are notified by email when they are eligible to apply for upper-level status. Students are admitted to upper level in February and September of each year.

Students who complete 60 credits without gaining admission to an upper-level BSBA emphasis area will not be eligible to re-enroll in the Trulaske College of Business, unless special accommodations have been made in the Undergraduate Advising Office.

A student may take no more than six credit hours of 3000 or higher business courses from a non-MU course off campus, excluding BUS_AD 4500. University of Missouri sponsored study abroad courses are excluded from this requirement.

Graduate

- MBA in Business Administration (p. 331)
- PhD in Business Administration with emphasis in Business (p. 333)

About the Crosby MBA (daytime program)

Crosby MBA candidates come from all backgrounds, including science, engineering, liberal arts, journalism, business and health-related fields. There are no prerequisite courses. Our admission standards are high and the curriculum is rigorous. The Crosby MBA program is AACSB accredited, nationally recognized and highly ranked by U.S. News America's Best Graduate Schools, Forbes, Princeton Review, and The Wall Street Journal. Students attend full-time, although part-time is an option if the student is able to attend daytime classes.

Through the Crosby MBA program, highly capable graduate students gain real-world experience that prepares them for a wide variety of career paths. The program teaches skills necessary to compete in the global business environment, and helps you achieve a career path that will bring both personal fulfillment and professional success. We offer individual career counseling, an executive mentoring program, employer site visits, and workshops focusing on resume writing, presentation skills, negotiation skills and business etiquette. Students obtain employment in fields such as financial analysis, investments, banking, human resources, project management, strategy, operations and logistics, marketing, marketing analytics, consulting, and non-profit management.

Factors considered in the admissions decision include undergraduate grade point average (GPA), as indicated on the graduation transcript, with consideration given to other calculations; performance on the Graduate Management Admissions Test (GMAT) or the GRE; work experience, including significant part-time employment and internships; demonstrated leadership; and personal essays. A baccalaureate degree

in any discipline from an accredited school is required. Interviews by invitation will also be conducted. See the Crosby MBA website to apply.

About the execMBA Program (for working professionals)

This innovative executive MBA is specifically designed for high achieving professionals seeking a first-rate MBA program that provides flexibility around their work schedules. This is the same renowned degree and the same renowned faculty offered with the Crosby MBA, but is specially designed for executives. Combining face-to-face class time with online delivery for professionals with substantive experience, the 21-month execMBA program will connect you with peers, challenge you in relevant ways, and develop the mind- and skill-set to match today's marketplace.

All applicants to the MU execMBA must have a minimum of 5-7 years of professional work experience, as well as a letter of endorsement from their employer to participate in the program. Other factors considered in admission include undergraduate GPA (a bachelor's degree in any discipline from an accredited school is required), demonstrated leadership experience and a personal statement addressing criteria outlined on the exec MBA website. Interviews by invitation will also be conducted.

Cooperative Dual Degrees with the MBA Program

- MBA and Bachelor of Science Industrial Engineering (BSIE)
- MBA and Master of Health Administration (MHA)
- MBA and Master of Science in Industrial Engineering (MSIE)
- MBA and Juris Doctor (JD)Facilities and Resources

About the PhD Program

The PhD program (p. 333) is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. Course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills.

Program Location: Cornell Hall

Cornell Hall, a state-of-the-art building, houses the Robert J. Trulaske, Sr. College of Business. It contains labs with over 230 computers with a variety of up-to-date software. The College subscribes to the following online services, databases and software packages: Wharton Research Data Services, Audit Analytics Compustat, CRSP, Datastream/Worldscope, Eventus, I/B/E/S, IRRC, ISSM, Mergent FISD, Mutual Fund Links, SDC Platinum, Thomson Reuters, Stock Trak, and Qualtrics (an online survey system).

Undergraduate

BSBA in Business Administration

Major Program Requirements

Students in the Trulaske College of Business are in either the lower level (undeclared) or the upper level (admitted to an emphasis area). Students entering the Trulaske College of Business usually enter the lower level while they take University general education and business preparation courses. The first two years of all business programs (except international business and accounting) involve the same course sequences. A student typically applies to the upper level at the end of the sophomore year or the beginning of the junior year.

A student may count a maximum of 30 credits in their emphasis area to meet the 120-credit requirement for the undergraduate degree.

Requirements above and beyond general education requirements are listed under upper level admission courses.

Students must complete all university requirements, including general education (p. 18), and the degree requirements below.

Major Core Requirements

Course requirements ensure that 40 percent of a student's course work is earned in divisions other than business.

Students must also complete all University requirements (p. 17) as well as University General education requirements (p. 18).

General Education (see University General Education Requirements)	32

BSBA in Business Administration with Emphasis in Economics

Major Program Requirements

The sequence of courses for the BSBA with an emphasis in economics introduces the student to the tools of economic analysis and to their use in decision-making. It also may provide training in internal and external forecasting. Such analytical techniques are appropriate for industrial, commercial and financial organizations as well as government agencies.

Students must complete all university requirements, including general education (p. 18), and the degree requirements below.

General Education Requirements	32	
Upper Level Admission Courses	28	
Required Core Courses		
ACCTCY 2258	Computer-Based Data Systems	3
or INFOTC 1040	Introduction to Problem Solving and Programming

BSBA in Business Administration with Emphasis in Management

Major Program Requirements

Management is the directing and guiding of activities to produce a desired result, product or service. Managers are repeatedly required to make decisions that will have far-reaching effects. The basic functions all managers perform are planning, organizing, staffing, motivating and directing. Professional education in management can lead to a variety of career opportunities in the private and public sectors.

Students must complete all university requirements, including general education (p. 18), and the degree requirements below.

General Education Requirements	32	
Upper Level Admission Courses	28	
Required Core Courses		
ACCTCY 2258	Computer-Based Data Systems	3
or INFOTC 1040	Introduction to Problem Solving and Programming	
or CMP_SC 1050	Algorithm Design and Programming I

BSBA in Business Administration with Emphasis in International Business - Marketing

Major Program Requirements

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 136-141 credits depending on emphasis.

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements, including general education (p. 18), and the degree requirements below.

Social Sciences

GEOG 1100	Regions and Nations of the World I	3
or GEOG 1200	Regions and Nations of the World II	
POL_SC 1400	International Relations	3
or POL_SC 2700	Comparative Political Systems	

State Requirement 3

Behavioral Sciences

ANTHRO 2030	Cultural Anthropology	3
Choose one additional course from Anthropology (except 2050, 2051 or 2052), Psychology, or Sociology		3

Humanities 12

Civilization course in language studied

Literature course in language studied

Select one of the following:

AR_H_A 1110	Ancient and Medieval Art	
AR_H_A 1120	Renaissance through Modern Art	
ENGLSH 2155	Introduction to World Literatures	
MUSIC_NM 1313	Introduction to World Music	
PHIL 2100	Philosophy: East and West	
PHIL 2410	Philosophies of War and Peace	
REL_ST 2110	Religions of the World	
GN_HON 2117H	The Emerging Canons of the Americas	

Additional Humanities

Biological & Physical Sciences 6-7

One course must include a lab

Foreign Language 18-19

All in the same language

Area Support 9

To be selected with the A&S advisor. Coursework typically includes classes in Culture, Geography, Government, or History related to language studied.

Upper Level Admission Courses 28

Required Business Core Courses

ACCTCY 2258	Computer-Based Data Systems	3
or INFOTC 1040	Introduction to Problem Solving and Programming	
or CMP_SC 1050	Algorithm Design and Programming I	
ECONOM 3229	Money, Banking and Financial Markets	3
or ECONOM 3251	Theory of the Firm	
FINANC 3000	Corporate Finance	3
MANGMT 3000	Principles of Management	3
MANGMT 3540	Introduction to Business Law	3
MRKTNG 3000	Principles of Marketing	3
STAT 3500	Introduction to Probability and Statistics II	3
BUS_AD 3500	Professional Development in Business	3
BUS_AD 4500	Professional Development Program - Practicum	3

Business Area 18-21

to be selected with Business advisor, depending on emphasis area.

Capstone Course - senior year (on campus) Minimum grade of C- required

MANGMT 4970	Strategic Management	3

Minor in Business

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

15 of the 18 hours must be taken in residence and a 2.0 GPA in all business courses and those required for the business minor is required. See a business advisor for questions regarding the business minor.

ACCTCY 2010 or ACCTCY 2036	Introduction to Accounting Accounting I	3
ECONOM 1014 or ECONOM 1051	Principles of Microeconomics (3) General Economics	3-5

Degree Requirements (Crosby MBA)

Beginning Fall 2014, total graduate course work necessary to qualify for the Crosby MBA degree is 57 credit hours. For graduation, MBA students must earn a cumulative grade point average of 3.0 or better in the hours completed in the designated MBA plan of study and a minimum 3.0 cumulative MU graduate grade point average.

Required course work in Quantitative Analysis, Finance, Management, Marketing and Professional Development and Experiential Learning provides a comprehensive business education for Crosby MBA students. Our curriculum assures that graduates enter the 21st century business world with tools that will enable them to be successful. The program consists of 33 required credits, including foundational and advanced coursework, plus 24 elective credits.

The structure of the MU Crosby MBA allows students to concentrate in a specific area of business, develop a broad managerial focus, or complement business training with course work from other areas on campus. Areas of concentration are offered within the departments of finance, management, and marketing, including the marketing analytics concentration, or another field related to a student's individual interests. The delivery format includes 1.5 credit hour, 8-week modules, to allow for more focused attention to a particular topic, as well as to provide a wider array of choices. 3 credit, 16 week courses are also available.

REQUIRED COURSES

ACCTCY 7310	Accounting for Managers	3
BUS_AD 7050	MBA Communications Practice	1-3
BUS_AD 7340	Business Ethics and Leadership	1-3
BUS_AD 8010	MBA Seminar	1-3

 execmba@missouri.edu
<http://execmba.missouri.edu>

Degree Requirements (execMBA)

The program curriculum, designed with executives in mind, is inventive, practical and market-facing. Students will build skills that increase self- and global-awareness, develop strategic risk-taking, and heighten influence. Delivery is a blend of approximately 75% online and 25% in-class coursework. Students will amplify global expertise and value in the

marketplace with an 8- to 10-day international residency. This lock-step, cohort program – meaning students will take the same classes together in the same order – is conducive to personal interactions with the other high-level professionals.

International Residency (execMBA)

The international residency in Santiago, Chile is an 8-10 day immersion in a foreign culture and its business practices during the summer between the first and second year in the program. It serves as an opportunity to apply classroom education to an international setting. Students will consult with businesses on strategic issues, network with local businesses and government officials, and explore South American culture.

PhD in Business Administration with Emphasis in Business

About the Doctorate in Business Administration

The PhD program is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. A primary objective of the program is to train PhD candidates to become proficient researchers. Therefore, course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. Another objective is to train students to become high-quality teachers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills. The PhD in Business Administration offers three concentration areas: Finance (<https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-finance>), Management (<https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-management>) and Marketing (<https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-marketing>).

Degree Requirements - all PhD students

1. Before enrolling in concentration area courses, all PhD students in Business Administration must take (or be able to have waived) the below general courses. Students with an MBA typically will have these requirements waived.

ACCTCY 7310	Accounting for Managers	3
FINANC 7440	Managerial Finance	3
MRKTNG 7460	Managerial Marketing	3
ECONOM 7332	Microeconomics for Managers	3
And one of the following:		3
MANGMT 7380	Organizational Behavior and Management: The Individual	
MANGMT 8310	Strategic Human Resource Management	
MANGMT 8340	Organizational Design	
Total Credits		15

2. An in-depth major concentration in the area of finance, management (organizational sciences) or marketing (minimum of 15 hours of 8000/9000-level courses).

3. Two support areas of at least nine credit hours each, one of which must be taken outside the School of Business, or one support area of at least 12 credit hours. These supporting areas offer the student considerable latitude in identifying a course of study that can be tailored to the individual's interests and goals. If two support areas are selected, the student must also satisfy a 12-hour analytical tool requirement; if one support area is selected, the analytical tool requirement is 18 hours.

4. Collateral requirements emphasizing analytical tools (proficiency in a foreign language does not fulfill the collateral requirements). This is a research methods and analyses sequence of at least 12 hours (at least 18 if only one support area), including appropriate courses in economics, mathematics, psychology, sociology, statistics or other areas deemed appropriate by the program committee.

5. An ongoing seminar experience (each semester until successful completion of comprehensive examinations) that acquaints the student with current literature and research in his/her major area of interest. This seminar is in addition to other seminars offered departmentally (4 hours minimum).

6. Dissertation (minimum 12 hours of 9090 credit).

These requirements are independent of one another; courses taken to satisfy one requirement may not be used to satisfy any other requirement. Previous graduate work taken before admission to the PhD program may be used to satisfy these requirements if it is deemed appropriate by the student's program committee.

Concentration in Finance

The PhD program with a concentration in Finance emphasizes university level research and teaching skills. The program of study is flexible to meet individual needs and interests, but all students take advanced classes in Finance, Economics, and Statistics. Students admitted on a full-time basis normally work as research or teaching assistants.

Degree Requirements - Finance Concentration

Prerequisites typically needed for Finance program of study:

ECONOM 7351	Intermediate Microeconomics	3
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
STAT 2500	Introduction to Probability and Statistics I	3

Required courses:

FINANC 9100	Seminar in Corporate Finance	3
FINANC 9200	Research in Corporate Finance	3
FINANC 9300	Financial Economics	3
FINANC 9400	Seminar in Investment Analysis	3
FINANC 9001	Advanced Topics in Finance	3
FINANC 9101	Topics Seminar in Finance (taken for 1 credit hour each semester while taking other course work)	1-3
ECONOM 7370	Quantitative Economics	3
ECONOM 8451	Microeconomic Theory	3
ECONOM 8472	Econometric Methods I	3
ECONOM 9473	Econometric Methods II	3
ECONOM 9452	Advanced Microeconomic Theory II	3
STAT 7510	Applied Statistical Models I	3
or MATH 7140	Matrix Theory	

STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3

Support Areas - Finance Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area to complement advanced training in Finance. Successful completion of a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics resembling the following examples:

Example support area in Microeconomics:

ECONOM 7370	Quantitative Economics	3
ECONOM 8451	Microeconomic Theory	3
ECONOM 9452	Advanced Microeconomic Theory II	3

Example support area in Statistics:

STAT 7510	Applied Statistical Models I	3
STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3

Collateral Area - Finance Concentration

PhD students must complete a 12-hour Collateral Area (if completing two 9-hour Support Areas) or an 18-hour Collateral Area (if completing one 12-hour Support Area) selected in cooperation with a student's program committee. Coursework applied to a Support Area cannot be applied to a Collateral Area. Recommended is a Collateral Area in Accounting, Econometrics, Economics, Mathematics, Statistics, or Corporate Law. Some representative examples include:

Example collateral area in Econometrics:

ECONOM 8472	Econometric Methods I	3
ECONOM 9473	Econometric Methods II	3
ECONOM 9476	Advanced Topics in Econometrics I	3

Example collateral area in Economics:

ECONOM 8451	Microeconomic Theory	3
ECONOM 9452	Advanced Microeconomic Theory II	3

Example collateral area in Corporate Law:

LAW 5395	Business Organizations	1-4
LAW 5460	Corporate Finance	1-3
LAW 5365	Bankruptcy	1-3
LAW 5470	Criminal Clinic	1-5

Example collateral area in Statistics:

STAT 7210	Applied Nonparametric Methods	3
STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3
STAT 7850	Introduction to Stochastic Processes	3

Concentration in Management

PhD students with a concentration in Management is designed to provide students with a sound foundation for a productive career as an academic in management. Students typically work as research or teaching assistants.

Degree Requirements - Management Concentration

Required courses:

MANGMT 9040	Seminar in Human Resource Management	3
MANGMT 9080	Seminar in Entrepreneurship	3
MANGMT 9020	Seminar in Micro Organizational Behavior	3
or MANGMT 9030	Seminar in Macro Organizational Behavior	
MANGMT 9060	Seminar in Corporate Strategy	3
MANGMT 9101	Topics Seminar in Management (minimum of 4 credit hours)	1
MANGMT 9090	Research in Management (minimum of 12 credit hours)	1-99

Support Areas - Management Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, finance/economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

Example support area in Social Psychology:

PSYCH 7340	Attitude Change	3
PSYCH 8310	Survey of Social Psychology	3
PSYCH 8610	Motivation	3
PSYCH 8620	Personality Psychology	3
PSYCH 9350	Studies in Social Psychology	1-99

Example support area in Finance/Economics:

FINANC 8440	Financing Multinational Business	1-3
FINANC 9100	Seminar in Corporate Finance	3
ECONOM 7355	Industrial Organization and Competitive Strategy	3
ECONOM 8451	Microeconomic Theory	3

Example support area in Research Methods and Statistics:

MRKTNG 9030	Seminar in Applied Multivariate Analysis in Marketing	1-3
PSYCH 9330	Field Research Methods	3
PSYCH 9725	The Literature Review	3
SOCIOL 8120	The Logic of Social Research	3
SOCIOL 9287	Seminar in Qualitative Methods in Sociology	3
STAT 7310	Sampling Techniques	3
STAT 7830	Categorical Data Analysis	3
STAT 7870	Time Series Analysis	3

Example support area in Communication

COMMUN 8410	Seminar in Organizational Communication Theory	3
COMMUN 8420	Seminar in Small Group Communication	3
COMMUN 9430	Topics in Organizational Communication (Socialization)	3
COMMUN 9430	Topics in Organizational Communication (Power)	3

Example support area in Career Development

ESC_PS 8135	Foundations of Career Psychology	3
-------------	----------------------------------	---

ESC_PS 8400	Analysis of Research in Career Psychology	3
ESC_PS 8990	Career Development Theory for Women	3

Research Methods & Analysis (RM&A) Area - Management Concentration

PhD students must complete a 12-hour RM&A Area (if completing two 9-hour Support Areas) or an 18-hour RM&A Area (if completing one 12-hour Support Area). These courses, selected in cooperation with a student's program committee, will provide students with the tools and techniques necessary for conducting empirical research. Coursework applied to a Support Area cannot be applied to a Collateral Area. Recommended is a Collateral Area in Accounting, Econometrics, Economics, Mathematics, Statistics, or Corporate Law. Sample courses include:

PSYCH 8710	General Linear Models in Psychology I	4
PSYCH 8720	General Linear Models in Psychology II	4
PSYCH 9320	Social Psychology Methodology	3
PSYCH 9520	Psychometrics	3
PSYCH 9710	Multivariate Statistics in Psychology	3
PSYCH 9720	Latent Variable Models in Statistical Analysis	3
STAT 7210	Applied Nonparametric Methods	3
STAT 7510	Applied Statistical Models I	3
STAT 7530	Analysis of Variance	3

Concentration in Marketing

Students with an interest in behavioral, strategic, or methodological issues marketing are a great fit for this program. It emphasizes the development of research and teaching skills needed to pursue career placement at a research-oriented university. The program is flexible to meet individual needs and interests and graduates annually well-situated professionals prepared for the market. In addition, the program offers small class sizes, a set of doctoral specific seminars, and a collaborative environment. Students develop research skills by working with faculty on research projects and from faculty mentoring. Students also gain valuable experience by teaching undergraduate courses.

Degree Requirements - Marketing Concentration

Prerequisites typically needed for Marketing Concentration

MATH 1320	Elements of Calculus	3
STAT 1400	Elementary Statistics for Life Sciences	3

Required courses:

MRKTNG 9020	Seminar in Advanced Research Methods in Marketing	3
MRKTNG 9210	Seminar in Marketing Strategy	3
MRKTNG 9220	Seminar Marketing Models	3
MRKTNG 9230	Seminar in Consumer Behavior	3

Electives (minimum of 3 credits):

MRKTNG 9185	Doctoral Independent Study in Marketing	3
MRKTNG 9101	Current Topics Seminar in Marketing (taken each fall and spring while in residence at MU)	1
MRKTNG 9090	Research in Marketing (Dissertation - minimum of 12 hours with at least 2 hours each fall and spring and 1 hour each summer semester)	12

Support Areas - Marketing Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas should be selected to provide depth in theory and research appropriate for the particular research interests of the student. Typical Support Areas for students concentrating in marketing are social psychology, organizational behavior, economics, and statistics, but other areas may be appropriate. Below are examples:

Example support area in Psychology/Social Psychology:

PSYCH 7340	Attitude Change	3
PSYCH 8310	Survey of Social Psychology	3
PSYCH 8610	Motivation	3
PSYCH 9310	Theories of Social Psychology	3
PSYCH 9360	Seminar in Social Psychology	1

Example support area in Organizational Behavior:

MANGMT 9087	Seminar in Management (Human Resource Management)	1-99
-------------	---	------

MANGMT 9087	Seminar in Management (Organizational Behavior I)	1-99
MANGMT 9087	Seminar in Management (Organizational Behavior II)	1-99
MANGMT 9087	Seminar in Management (Strategic Management I)	1-99
MANGMT 9087	Seminar in Management (Organizational Theory)	1-99
SOCIOL 7487	Seminar in Sociology of Organizations	3

Example support area in Economics:

ECONOM 7340	Introduction to Game Theory	3
ECONOM 7351	Intermediate Microeconomics	3
ECONOM 8451	Microeconomic Theory	3
ECONOM 8470	Dynamic Optimization	3
ECONOM 8472	Econometric Methods I	3
ECONOM 9452	Advanced Microeconomic Theory II	3
ECONOM 9471	Advanced Game Theory	3
ECONOM 9473	Econometric Methods II	3

Example support area in Statistics:

STAT 7530	Analysis of Variance	3
STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3
STAT 7830	Categorical Data Analysis	3
STAT 7850	Introduction to Stochastic Processes	3
STAT 8640	Bayesian Analysis I	3
STAT 9710	Mathematical Statistics I	3
STAT 9720	Mathematical Statistics II	3
ECONOM 8472	Econometric Methods I	3
ECONOM 9473	Econometric Methods II	3

Analytical Tools - Marketing Concentration

Courses in research methods and statistics are required to provide each doctoral student with a sound foundation in research skills. The requirement includes a minimum of 12 hours for students with two support areas, or 18 hours for students with one support area. Students often take additional analytical tool courses beyond the minimum in order to develop depth of knowledge in tools required for their specific research interests. Coursework in multiple regression, analysis of variance, and multivariate statistics is required.

Example analytical tools courses:

MRKTNG 9010	Introduction to Research Methods in Marketing	1-3
MRKTNG 9030	Seminar in Applied Multivariate Analysis in Marketing	1-3
ECONOM 7340	Introduction to Game Theory	3
ECONOM 7351	Intermediate Microeconomics	3
ECONOM 8470	Dynamic Optimization	3
ECONOM 8472	Econometric Methods I	3
ECONOM 9473	Econometric Methods II	3
PSYCH 8710	General Linear Models in Psychology I	4
PSYCH 8720	General Linear Models in Psychology II	4
PSYCH 9320	Social Psychology Methodology	3
PSYCH 9330	Field Research Methods	3
PSYCH 9520	Psychometrics	3
PSYCH 9710	Multivariate Statistics in Psychology	3
PSYCH 9725	The Literature Review	3

SOCIOL 7120	Social Statistics	3
SOCIOL 8130	Advanced Social Statistics	3
SOCIOL 8120	The Logic of Social Research	3
SOCIOL 9287	Seminar in Qualitative Methods in Sociology	3
SOCIOL 9837	Seminar in Multivariate Analysis Techniques	3
STAT 7210	Applied Nonparametric Methods	3
STAT 7310	Sampling Techniques	3
STAT 7510	Applied Statistical Models I	3
STAT 7530	Analysis of Variance	3
STAT 7540	Experimental Design	3
STAT 7750	Introduction to Probability Theory	3
STAT 7760	Statistical Inference	3
STAT 7830	Categorical Data Analysis	3
STAT 7850	Introduction to Stochastic Processes	3
STAT 8640	Bayesian Analysis I	3
STAT 9710	Mathematical Statistics I	3
STAT 9720	Mathematical Statistics II	3

Marketing PhD Seminars

MRKTNG 9010	Introduction to Research Methods in Marketing	1-3
MRKTNG 9020	Seminar in Advanced Research Methods in Marketing	1-3
MRKTNG 9030	Seminar in Applied Multivariate Analysis in Marketing	1-3
MRKTNG 9210	Seminar in Marketing Strategy	1-3
MRKTNG 9220	Seminar Marketing Models	1-3
MRKTNG 9230	Seminar in Consumer Behavior	1-3

All Concentrations

Qualifying Process

Program Committee

During the first semester of course work, the PhD Coordinator, a member of the doctoral faculty from the major area of study (finance, management or marketing), serves as the student’s faculty advisor.

By the end of the first year of course work, a student should make formal application for the doctoral degree and, after consultation with faculty, request appointment of a Doctoral Program Committee. This committee consists of at least three members from the student’s major area of study and at least one member from each supporting area of study.

The Doctoral Program Committee conducts the qualifying examination and works with the student to design a plan of study.

Residency Requirement

In compliance with University regulations, the doctor of philosophy degree requires the completion of 72 semester hours of graduate work beyond the baccalaureate degree. Within the credit-hour requirement is the residency requirement. To satisfy the residency requirement, a student must complete at least 2 9-hour semesters or 3 6-hour semesters in an 18-month period at MU. All courses taken to satisfy the residency requirement must be MU courses approved for graduate credit and approved by the student’s doctoral program committee. Correspondence and off-campus courses may not be counted toward the residency requirement. This program is designed for full-time students and typically requires a 4-year on-campus commitment.

Qualifying Examination and First-Year Project

Every marketing doctoral student is required to pass the qualifying exam consisting of two major components. The first component is a comprehensive evaluation of overall performance in coursework and RA assignments and participation in formal and informal doctoral program elements. The second component is a first-year project addressing a scholarly research topic in marketing consisting of three major parts: a written outline, presentation, and paper suitable for submission to a conference or journal. The goal of this project is to promote early research engagement, interaction with faculty, and the development of communication and presentation skills that will enhance the overall experience of the student throughout the doctoral program.

Comprehensive Examination Process

Typically, after completion of the course work specified on the plan of study, the student’s doctoral program committee determines the student’s readiness to undertake the comprehensive examination. The student must be enrolled at MU the semester s/he takes this examination.

The comprehensive examination consists of written and oral sections. Both sections must be completed within one month of each other, and at least seven months before a final dissertation defense. Successful completion of the comprehensive examination requires that the student’s doctoral program committee vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. The student who fails this exam may not take a second comprehensive examination for at least 12 weeks. Failure to pass two successive comprehensive examinations automatically prevents candidacy.

Dissertation Requirements

A dissertation is required to complete the doctoral program. Each student, working under the supervision of the doctoral program committee chair, must propose an original scholarly research project. The dissertation proposal is normally defended at the end of the third year of the program in an oral presentation. The proposal must be approved formally by the student’s program committee. Following completion of the research, the written dissertation must be orally defended and approved by the student’s program committee.

Admissions

grad@missouri.edu
 213 Cornell Hall
 Columbia, MO 65211
 573-882-2750

Additional Minors and Certificates - Business

Undergraduate

- Certificate in Human Resource Management (p. 338)
- Certificate in Sales and Consumer Development (p. 338)

Graduate

- Certificate in Accounting Information Systems (p. 338)
- Certificate in Taxation (p. 338)

Undergraduate

Certificate in Human Resource Management

Human Resource Management (HRM) Certificate

Required Courses		12
MANGMT 3000	Principles of Management	
MANGMT 4020	Human Resource Management	
MANGMT 4030	Organizational Behavior	
BUS_AD 4500	Professional Development Program - Practicum	
Elective Course (choose any 1 below)		3
MANGMT 4120	Human Resource Management Law	
MANGMT 4130	Advanced Organizational Behavior	
MANGMT 4320	Selected Problems in Human Resource Management	
MANGMT 4350	Leadership Development	
MANGMT 4420	Collective Bargaining	
MANGMT 4520	Change Management in Business	
Required GPA: 3.0 or higher for these 15 credit hours		
Note: for the purposes of this Certificate, a student can transfer in credit from another institution only for MANGMT 3000		
Total hours:		15

Certificate in Sales and Customer Development

The Certificate in Sales and Customer Development prepares undergraduate students for careers in the highly professional and dynamic field of sales. Through the Certificate's required practices in the sales profession and sales management.

Students who finish the 13 credit-hour curriculum will receive the Certificate in Sales and Customer Development upon completion of their bachelor's degree, thereby offering to employers tangible evidence of a strong background in sales.

Required Courses - A minimum 3.00 GPA is needed in these three courses		9
MRKTNG 3000	Principles of Marketing	
MRKTNG 4410	Personal Selling	
MRKTNG 4420	Sales Management	
Elective Course - Choose one		3

MRKTNG 4220	Consumer Behavior	
MRKTNG 4250	Retail Marketing	
MRKTNG 4440	Services Marketing	
MRKTNG 4550	Integrated Marketing Communications	

Note: for the purposes of this Certificate, a student can transfer in credit from another institution only for MRKTNG 3000

Internship Requirement (Minimum 1 credit hour) *	1
Certificate Requirements and Curriculum	13

* Satisfactory completion of at least one credit hours for a supervised internship (summer or regular semester), with significant customer contract and a minimum of 120 hours on-the-job experience. This credit hour can be earned in any College at MU. Internships that qualify for this Certificate will need to be approved by the Program Coordinator as a part of the Certificate application process.

Note: Many Trulaske College of Business students will be able to satisfy the internship requirement by completing a suitable internship under the College's BUS_AD 4500 requirement. But if a student has already completed BUS_AD 4500 with an internship that does not meet the requirements of this Certificate program, that individual would be advised to register for one credit hour under MRKTNG 4185 for an internship that would qualify.

Non-business majors should contact the Program Coordinator, salescertificate@missouri.edu, regarding the internship component.

Graduate

Graduate Certificate in Accounting Information Systems

The College of Business is not currently accepting applications for the Graduate Certificate in Accounting Information Systems.

Graduate Certificate in Taxation

School of Accountancy
303 Cornell Hall
573-882-4463

For more information, contact Phyllis Moore (moorepa@missouri.edu).

About the Certificate

Depending on the course configuration in the program, completion of the Certificate in Taxation indicates that a student has developed expertise in tax planning and preparation in regard to international, federal, state, or estate issues for corporations, partnerships, or individuals.

Eligibility

Students must be enrolled in the MAcc graduate degree program in the School of Accountancy at MU to be eligible for the certificate.

Plan of Study

Students are required to complete 15 credit hours to receive the certificate. Course options are listed below for the tax certificate.

ACCTCY 7353	Introduction to Taxation	3
ACCTCY 8363	Multi-Jurisdictional Tax	3

ACCTCY 8373	Taxation of Corporations and Shareholders	3
ACCTCY 8401	Topics in Accounting (Advanced Corporate Tax)	1-3
ACCTCY 8401	Topics in Accounting (Partnership Tax)	1-3
ACCTCY 8423	Tax Research and Planning	3
ACCTCY 8453	Taxes and Business Strategies	3

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/taxation-graduate-certificate/taxation-ge/Gedt.html>

College of Education

Administration

Daniel Clay, Dean and Joanne H. Hook Dean's Chair in Educational Renewal

Kathyn Chval, Associate Dean, Academic Affairs, Matt Burns, Associate Dean, Research
(573) 882-7832

www.education.missouri.edu
umccoecertinfo@missouri.edu

The College of Education, established in 1868, is the oldest teacher preparation program west of the Mississippi River. Today's graduates of the college are employed in a variety of educational institutions and non-school settings. The college serves the educational community through research-based professional practice and a variety of learning constructs applied to real-world experiences. The college is a member of the American Association of Colleges for Teacher Education and a candidate member of the Teacher Education Accreditation Council. All programs are fully accredited by the North Central Association of Secondary Schools and Colleges.

All programs that lead to earning a certificate by the Missouri Department of Elementary and Secondary Education (DESE) are fully approved by the State Board of Education. DESE accredits all teacher certification programs at MU. The Office of Educator Quality at DESE is working with representative stakeholder groups to redesign the standards for educator preparation including certification requirements. These changes and implementation schedule will be communicated to students through individual advising sessions, meetings, and/or other university communications.

Undergraduate

- Admissions (p. 340)
- Academic Regulations (p. 341)
- Academic Affairs (p. 341)
- Academic Programs (p. 342)
- Teacher Certification (p. 344)

The Bachelor of Science in Education (BSEd) degree offers programs with the following certification levels:

- Early Childhood Education (Birth-Grade 3)
- Elementary Education (Grades 1-6)
- Middle School Education (Grades 5 - 9)
- Secondary Education (Grades 9-12)
- Special Education and Music (Grades K-12)

The total undergraduate enrollment in the College of Education for 2011-2012 was 1278. Clinical faculty with a 6:1 student/faculty ratio supervise this 640-hour experience.

Admissions

Even for students meeting selective admission criteria, admission to some program areas is dependent on capacity, resulting in the selection of the best-qualified applicants. In addition to meeting minimum Phase II criteria, the faculty may exercise professional judgment in the selection of students through personal interviews and program specific essays.

Admission to a specific program is a prerequisite to many upper-level education courses and associated field experiences (including the teaching internship). A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission. Continued assessment will be made of the characteristics associated with effective performance in the role of a professional at each level and in the program. See specific requirements for admission to each of the three phases of the chosen major.

Freshmen

Undergraduate students may enter the College of Education as first-year students at MU.

Transfer Students

The College of Education accepts transfer students consistent with the transfer/articulation policy of the Missouri Department of Higher Education. The transfer policy does not waive or alter any course requirements for the Bachelor of Science in Education or the Bachelor of Educational Studies degrees. Grades received from other accredited institutions are recorded on the MU transcript as they were earned (A = A, etc.). Courses from other University of Missouri institutions are calculated into the UM GPA of Record and grades received from other accredited institutions are calculated into the overall grade point average for admission to the College of Education.

Students transferring to the College of Education with a completed Associate of Arts (AA) degree from a Missouri institution will be considered to have completed the first two years of university general education requirements. Students transferring with a completed Associate of Arts in Teaching (AAT) degree from a Missouri institution will be considered to have completed the first two years of university general education and lower division (Phase I) professional education coursework. Additional course work may be needed to satisfy prerequisites or degree requirements for Phase II and Phase III of the chosen program.

International Students

International students enrolled in the BS Ed program must have earned a score of 600 (paper-based) or 100 (internet-based) on the TOEFL exam. International students enrolled in the BES program must have a score of 550 (paper-based) or 79 (internet-based) on the TOEFL exam.

Exploratory Courses

Students wishing to explore Teacher Education may enroll in LTC 11XX for 1 credit hour in the emphasis area of interest.

Preprofessional Information

Many of the program areas contain preprofessional course work that must be completed with specific course grades prior to the selective admission process for Phase II of the program or the teaching internship (Phase III). Contact the Academic Advising and Certification Services Office for the specific course work required for the area of interest.

Grade Point Average

The College of Education uses the UM GPA of record to assess students' academic standing and progress. Both the UM GPA of record and overall grade point average at the level required are used to determine eligibility for admittance and progression. (see Calculation of Grade Point Averages below for levels)

Time Limits on Credits Earned

Transfer credit is evaluated by the Office of Admissions. All course work must meet the current state minimum requirements for teacher certification. Course work completed in the discipline must be evaluated by faculty within that area to be applicable.

Academic Regulations

Calculation of Grade Point Averages (GPA)

To remain in good standing with the college, a BSEd student must earn a minimum UM term and cumulative GPA of record, as described below:

Credits	BSEd GPA	BES GPA (Non-Certificate)
0-29	2.600	2.500
30-59	2.700	2.500
60 credits and above	2.750	2.500

Satisfactory/Unsatisfactory Grades

In addition to University policies on S/U grading, professional education courses, excluding field experiences and orientation, may not be completed under the S/U grading system.

Advanced Standing

In addition to University standards for advanced-standing credit, content courses, as defined by teacher certification, must be completed with an UM cumulative GPA of record of 3.000 or better to satisfy Missouri requirements for certification. Advanced-standing credit includes course work used to satisfy degree requirements, including any elective portion of the degree program.

Courses taken from other institutions after students have matriculated to UM must have prior approval.

Probation, Suspension and Dismissal

A student in good standing (see Calculation of Grade Point Averages above) whose MU GPA of record and/or cumulative grade point average falls below the level outlined is placed on scholastic probation. In addition, any student admitted to the College of Education who does not meet the minimum entrance standards (e.g., admitted to MU by the Committee on Entrance and Revision of Records, admission due to extenuating circumstances or admission of a returning student) will enter on scholastic probation.

A student on scholastic probation whose MU term grade point average for a subsequent enrollment semester is at or above the level specified, but whose UM cumulative grade point average is below the level required for good standing is placed on conditional scholastic probation. A student may be on conditional scholastic probation for two enrollment semesters only. If the MU cumulative grade point average is not at the level required for the student's classification at the conclusion of the period of conditional scholastic probation, the student is ineligible for continued enrollment in the College of Education.

A student whose MU term and cumulative GPA of record falls below 2.000 is ineligible for enrollment at MU. (Exception: a first-semester freshman whose UM term GPA is below 1.000 may, at the discretion of the associate/assistant dean for academic programs, be placed on conditional scholastic probation instead of being declared ineligible.)

Capstone Options

All students graduating from the College of Education are required to complete a capstone experience. For students completing a BSEd, the internship experience (Phase III) serves as the capstone. For the BES degree, a minimum two hour capstone is required in collaboration with a faculty member in the College of Education.

Graduation Requirements

University requirements state that students must earn 30 of the last 36 credits applicable to their degree in MU courses. For the BSEd, these courses must include the student teaching internship. For the BES, they must include an approved capstone course for a minimum of two semester hours.

Graduation with Departmental Honors

The College of Education maintains a Dean's List that includes all College of Education undergraduates who are enrolled in 12 or more credits of graded (A-F) course work, and who have a 3.500 or higher MU term GPA.

The College of Education awards Latin Honors designations will be based on the Spring graduates each year, and those GPAs will determine the levels that will be applied to Summer and Fall graduates during that calendar year. The top 5% will receive Summa Cum Laude distinction, the next 10% Magna Cum Laude, and the remaining 15% Cum Laude for each of the program area categories (Early Childhood and Elementary, Middle School, Secondary/K12, and Special Education).

Students must earn a minimum of 60 credits on the MU campus to be eligible for Latin Honors designation. Determination of eligibility is will be based on either the cumulative MU GPA of record, or the MU GPA for the last 60 hours of credits, whichever is greater.

In no case will a Latin Honors designation be conferred for an individual whose overall MU GPA is less than 3.6.

In addition, College of Education students may participate in a University Honors Program. (See the Honors College (p. 679) information on this site).

Academic Affairs

The College of Education offers services to assist undergraduate students interested in pursuing a degree in Education.

Advising Services

101/102 Hill Hall
573-882-5659
Education_advising@missouri.edu

The Advising Services office located in 101/102 Hill Hall, is dedicated to the academic, professional and personal success of all students. The office is committed to building a one-on-one professional collaborative relationship that empowers students to explore opportunities and develop and implement individual academic and life goals. Meeting with a professional advisor early and regularly is a necessary component of this relationship. Degree choice and requirements, campus involvement, academic struggles, study abroad options, graduate school program and the certification process are just a few of the many topics that can be explored in working with a professional advisor.

Education and Career Services

105 Hill Hall
573-882-5069
caps@missouri.edu

The Education Career Services Office, located in 105 Hill Hall, specializes in the development of cover letters and résumés, preparation for interviews, and implementation of an effective job search. Students will find considerable support in building a professional, self-managed credential file needed for the field of education. In addition, this office provides information about job openings, school district contacts, and career fairs, as well as hosts on-campus interviews with potential employers.

Students will find additional assistance at www.hiremizzoutigers.com (<http://www.hiremizzoutigers.com>), but also the Education Career Services website at <http://caps.missouri.edu>, which contains extensive resources exclusively for the job seeker in the field of education.

Office of Assessment

2 Hill Hall
573-884-9556
mucoeassess@missouri.edu

Multiple data points will be collected throughout a student's time in the College of Education to ensure University of Missouri and DESE certification standards are upheld. The Office of Assessment, located in 2 Hill Hall, will be the primary collection and reporting resource for this data. The Office of Assessment will work very closely with the Office of Teacher Education, Academic Advising and the MU Registrar.

Office of Recruitment and Retention Initiatives

104 Hill Hall
573-882-7772

The Office of Recruitment and Retention Initiatives, located in 104 Hill Hall, serves as a welcome center for prospective and current students as well as their families. Through student tours and recruitment events, the staff showcase the College of Education and highlight opportunities and services provided to our students. The staff advise and assist prospective students in understanding College of Education degree programs, admission requirements, and financial assistance options. In addition, the office provides programs and initiatives tailored towards the recruitment, retention, and matriculation of underrepresented student populations.

Office of International and Intercultural Initiatives

218 Townsend Hall
573-882-0732

The office of International and Intercultural Initiatives, located in 218 Townsend Hall, designs initiatives and supports undergraduates as they develop cultural competence and intercultural understanding through foreign and domestic experiences. These experiences include on campus multicultural events and activities, as well as study/teach abroad opportunities in Italy, Ghana, Tanzania, Australia/New Zealand, South Korea, India, South Africa, Jakarta, Thailand; and service learning opportunities in organizations such as Centro Latino, Columbia Public Schools and Granny's House.

Office of Scholarship Services

102C Hill Hall
573-884-7848
coescholarships@missouri.edu

The Office of Scholarship Services helps students pursue scholarships and fellowships. This office disseminates information about scholarship opportunities and deadlines to current and potential students. Incoming Freshmen become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due December 1st of each year. Returning and Transfer Students become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due by February 1st each year. The Scholarship Coordinator then assists the Financial Awards Committee, which consists of College of Education faculty members, as they determine recipients based on the criteria for each scholarship.

The scholarship website lists the numerous scholarships available for undergraduate students majoring in Education: http://education.missouri.edu/academics/financial_assistance/scholarships-undergraduate.php

Teacher Education

Office of Teacher Education

202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu (coescholarships@missouri.edu)

The Teacher Education Office is committed to supporting students as they progress through the phases of their academic career including answering general questions about all aspects of the program and making sure that you are enrolled in the appropriate education courses. This office works in conjunction with all CoEd departments in Academic Affairs, to provide the best educational experience for our students.

Field Experience Office

202 Townsend Hall
573-882-4364

The Field Experience Office supports students in all phases leading up to and including the student teaching internship. The professional staff make regular contact with school district faculty and administrators in Columbia and around the state to assure that students encounter high-quality field experiences where they gain knowledge and assume progressive responsibilities within classroom settings. In addition, the office provides guidance to any student who requests additional help to prepare for student teaching.

Academic Programs

College of Education Requirements - BSEd

As the CoED continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

In addition to University general education and graduation requirements, students must complete the following degree requirements and additional major (and in some cases emphasis and option) requirements.

- Computer and information proficiency (demonstrate competency on technology standards in Phase I, II, and III of the Teacher Education course work)
- HIST 1100, HIST 1200, HIST 1200H, HIST 2210, or POL_SC 1100 (course may also be used as part of the behavioral and social science portion of University general education requirements)
- Multicultural studies requirement: Students address this requirement by demonstrating competence on diversity standards in Phases I, II, and III of the Teacher Education course work.

College of Education Requirements - BES

In addition University general education (p. 18) and graduation requirements (p. 17), students must complete the following degree requirements and additional major requirements.

- Twenty-four hours of education coursework with a 2.500 cumulative and overall GPA
- Twenty-four hours of coursework focusing on a particular concentration
- Completion of a graduation check in collaboration with a professional advisor once 60 credit hours of coursework are completed
- Multicultural studies requirement; students address this requirement by demonstrating competence on diversity standards in their education coursework.
- Students will complete a two hour minimum capstone course in collaboration with a faculty member in the College of Education.

Professional Education

The College of Education professional education requirements include those that are common to all majors as well as requirements that are specific to each major. Students must meet the following requirements:

- Course GPA of 2.000 or better with an overall professional education GPA of at least 3.000 (required for Missouri Teacher Certification)
- UM GPA of record and overall GPA of 2.750
- GPA of 3.000 in the content area for students majoring in a degree leading to certification in a subject (K-12, 9-12, 5-9 or PK-3)

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses.

Phase I

This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. It includes five courses for a total of 9 credits: LTC 11XX, ESC_PS 2010 and ESC_PS 2014, LTC 2040 and LTC 2044. Experiences in this phase incorporate the teacher's roles in facilitating learning at all levels of development. Students also focus on how problems of schools, family, community and society affect educators. The emphasis in Phase I is on career exploration and oral and written communication. All students in the BSEd degree program complete these courses regardless of major.

Students majoring in Special Education complete an additional course in Phase I, SPC_ED 4300, for a total of 12 hours in Phase I.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education. Certain degree programs have limited enrollments. The number of credits is dependent on the selected program. See specific majors for courses required in Phase II.

Application to Phase II is required. Students become eligible for consideration for admittance to Phase II in a specific program after meeting the following criteria:

- Current enrollment in the College of Education
- 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
- Passing score on the Missouri General Education Assessment
- ENGLSH 1000 with a "C" range grade or higher
- MATH 1100 with a "C" range grade or higher
- Demonstration of competence of Phase I learning markers as demonstrated by satisfactory completion of Phase I courses (LTC 11XX, grade of "S"; ESC_PS 2014 and LTC 2044, grade of "S" in each course; ESC_PS 2010 and LTC 2040, grade of "C" (2.00) or higher in each course)
- Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
- Additional requirements as designated by the faculty
- Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
- Completion of application for progression

Decisions regarding Phase II admission are made by faculty. Meeting minimum requirements for admission to Phase II does not guarantee admission to Phase II.

Phase III

Phase III occurs during the last semester (or last year) with student placement in a public school district for the entire semester, for approximately 16 weeks (14 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of Phase II
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching

internships may be obtained from Field Experience Office, 202 Townsend Hall, in the College of Education.

Teacher Certification

Licensures

Completion of the BSEd and any additional requirements for certification must be completed before the graduate is eligible for an Initial Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

Recommendation for initial certification after graduation requires:

- Passing score on the Content Area Exam for each major (the examination should be taken during the last year of the program and official scores submitted to the University of Missouri)
- Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
- Submission of an IPC application from the DESE web application website (<https://k12apps.dese.mo.gov/webLogin/login.aspx>) to MU
- The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:

- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
- 2.000 in each professional education course with overall 3.000 GPA on all professional education course work
- Satisfactory score on the Content Area Exam required by the State of Missouri
- An official copy of the student's transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

Graduate

Now is an exciting time to pursue graduate studies in the College of Education. A range of professional and continuing education degrees are available, many with specializations.

Our 122 faculty mentors create a rich environment as they are not only involved in teaching, but also heavily invested in research programs and centers. Faculty members balance their research efforts with student coordination and guidance. Choosing the right college for graduate studies is not an easy or simple decision. We welcome you to visit the MU Columbia campus and meet with our faculty and current students to find out more about life in the College of Education.

Note: Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Career and Technical Education

The Master of Education in Career and Technical Education (CTE) is a 33 credit-hour degree program designed for people interested in a wide variety of possible careers related to education for employment. The online M.Ed. program is structured to support working professionals who want to enhance their current careers, create the potential for more professional opportunities, or enter the field of workforce and professional education.

Courses in this degree program are intended to prepare students to be effective instructors and workforce development professionals by emphasizing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology. The program structure is flexible enough to accommodate some transfer credit or subject-specific coursework.

There are two emphasis options in the CTE program:

The Business & Marketing Education emphasis is for careers in corporate training or at community colleges and area vocational-technical career centers teaching such subjects as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.

The Vocational Technology Instruction emphasis is designed for those who want to teach at community colleges, area vocational-technical career centers, private trade schools, and corporate training centers. This program is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, or Industrial and Manufacturing Processes

About the M.Ed.

The Master of Education in Career and Technical Education (CTE) is a 33 credit-hour degree program designed for people interested in a wide variety of possible careers related to education for employment. This program is intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers. Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology. There are two emphasis options in the CTE program.

The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.

The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Admission Deadlines

- May 1 for fall admission (classes beginning in August)
- October 1 for spring admission (classes beginning in January)
- March 1 for summer admission (classes beginning in June)

Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

Implementation and Administration of Career
and Technical Education Program

3

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Thesis/Non-Thesis Requirements

Students in the M.Ed. in LTC will create a portfolio that will serve as the summative capstone of the program of study in lieu of a thesis or comprehensive examination. Students build the portfolio as they progress through the program by adding material from the courses in the Plan of Study. Guidelines for the capstone portfolio project are provided to students early in the program.

Admission Requirements

- Completed bachelor's degree (from a regionally accredited institution) in education or a subject related to the applicant's teaching interest
- Undergraduate GPA of 3.0 on a 4.0 scale in the last 60 hours of course work
- Statement of purpose
- Resume or curriculum vitae
- Two letters of recommendation (Letters should attest to applicant's professional competence, academic preparation and potential for graduate work.)
- If applicant's native language is not English, the Test of English as a Foreign Language (<http://www.ets.org/toefl>) (TOEFL) administered within the last two years, with a score of at least 500, is required.

The Graduate Record Examination (<http://www.ets.org/gre>) (GRE) is not required for consideration for admission. However, applicants with competitive GRE scores whose GPA is below 3.0 will be considered for acceptance by the Special Admissions Committee.

Technology Requirements

- Student will require a computer with a video card (responsibility of the student).
- A download/upload speed of 384K is the absolute minimum needed; a broadband connection is preferable. Connection delays may be a problem if using satellite or wireless. Applicants are expected to identify an alternative location to access an Internet connection for classes if the home Internet connection is inadequate to utilize for the online course materials.
- Students using computing and Internet resources at work are responsible for ensuring that firewalls and appropriate use policies do not interfere with access to course materials.
- Logitech or other type of webcam.
- Headset with microphone, or speakers and microphone.
- Windows Vista or newer, with 1GB RAM, 80GB Hard Drive, 2.0Ghz or better processor (Core 2 Duo -Dual Core preferred).
- Internet Explorer (IE 8 or newer), Mozilla Firefox, or Google Chrome browser
- Microsoft Office – latest version.
- Functional Anti-Virus Software (example: Norton-Symantec/McAfee).

Faculty

Associate Teaching Professor T. Barbis*

Assistant Teaching Professor R. Jackson

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

Undergraduate

While MU does not offer undergraduate degrees specifically in career and Technical education, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Graduate

- MEd in Career and Technical Education (p. 346)

 - with emphasis in Business and Marketing Education (p. 348)
 - with emphasis in Human Resources Education (p. 349)
 - with emphasis in Vocational Technical Education (p. 349)

Graduate

MEd in Career and Technical Education

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

MEd in Career and Technical Education with Emphasis in Business and Marketing Education

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Early Childhood Education (p. 350)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Early Childhood Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades Birth-3. The College of Education offers a Masters (M.Ed.) and a doctorate (Ph.D.) in Learning, Teaching and Curriculum with an emphasis in Early Childhood Education. You can find out more information about the graduate program at http://education.missouri.edu/LTC/_language_society_culture/_old-pages/early_childhood.php.

About the Program

The department offers master's, educational specialist, and PhD degrees in across several emphasis areas:

- Emphasis: Counseling Psychology (M Ed, EdSp, PhD)
- Emphasis: Educational Psychology (MA, M Ed, PhD)
- Emphasis: Health Education & Promotion (MA, M Ed, PhD)
- Emphasis: School (EdSp, PhD)

The PhD programs in counseling psychology and school psychology is accredited by the American Psychological Association. The 2005 Faculty Scholarly Productivity Index ranked MU's graduate program in counseling psychology 4th in the nation and the 2010 U.S. News & World Report ranked it 9th nationally.

Our faculty members create a rich and stimulating learning environment for students through their teaching, research, and service. ESCP has three centers that provide students and faculty with many opportunities to collaborate on research and service-related projects while focusing on improving life for learners in all environments.

Career Opportunities

Our graduates find employment in a wide range of settings, including colleges and universities, public schools, agencies, clinics, hospitals, business and industry, research laboratories and government service. Occupations include, but are not limited to, school counselors, licensed professional counselors, faculty members, school psychologists, psychometricians, health educators and educational researchers.

Application Deadlines

- Fall deadline: December 1st for all programs except Educational Psychology, which is January 15th
- M Ed/MA in Health Education & Promotion - rolling deadline
- Career Counseling & Sport Psychology- rolling deadline
- M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline
- M Ed track in Positive Coaching (online degree) - rolling deadline

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding

packages. Check the program Web site or ask the program contact for details.

Admission Criteria

- Minimum GPA: 3.0
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
92	580

- Recommended GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 1000 2011		4.0
On or After August 1, 2011	300	4.0

Recommended Analytic Writing score = 4

Application Deadlines

- Fall deadline: December 1st for all programs except Educational Psychology, which is January 15th
- M Ed/MA in Health Education & Promotion - rolling deadline
- Career & Sport Psychology- rolling deadline
- M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline Deadlines

Note: If an applicant is admitted but does not hold a bachelor's degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- Official transcripts
- GRE scores
- TOEFL scores
- 3 letters of recommendation via the online application
- Personal statement and vitae via online application per departmental requirements

MA in Educational and Counseling Psychology with Emphasis in Counseling

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (<http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/ma,-m-ed-or-edsp-in-educational,-school--counseling-psychology.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

Educational Leadership & Policy Analysis

ELPA - Our mission is to create knowledge while preparing leaders to critically shape and transform educational issues, policies, and practices.

Consider ELPA if you:

- Want to improve your organizational leadership skills and knowledge in elementary, secondary, or postsecondary settings
- Are interested in principal or superintendent certification
- Want to work in student affairs or higher education administration
- Want to become a scholar or researcher in an academic setting
- Desire to shape policy through legislative or research activity

Department of Educational Leadership and Policy Analysis

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in educational leadership and policy analysis, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

About ELPA's Graduate Programs

The graduate programs in the Department of Educational Leadership and Policy Analysis are designed to meet the specific educational needs of the student in a particular area of emphasis. Graduates find employment in a wide range of settings including colleges and universities, public schools, policy agencies, professional associations, government and business and industry.

The PhD Program in ELPA requires a minimum of 60 hours beyond the master's degree. The goal of the PhD program is the preparation of professional researchers and scholars who have high levels of competence in conducting research that adds to the knowledge base.

The program also has a goal of meeting the student's individual career goals and interests through the development of an appropriate plan of study. Each emphasis area has slightly different requirements and areas of focus; however, all 3 emphasis areas require a department-wide core; emphasis area coursework; electives; a research core; and the completion of a minimum of 6 hours for the dissertation.

The Statewide Cooperative EdD Program in Educational Leadership is a cohort program designed to enhance the knowledge and competencies of educational leaders so they provide optimal leadership in organizations that educate a wide range of learners from youth to adult. The program's curriculum is designed to prepare leaders who are inquiring, reflective practitioners who are competent in defining and solving complex problems in education.

The **Educational Specialist (EdSp) Program** is designed to enhance the knowledge and competencies of K-12 educational administrators and to lead to advanced principal certification and/or superintendent certification. The program has a thematic, integrated, problem-based curriculum intended to prepare school and district leaders who are inquiring, reflective practitioners. The curriculum is aligned with state standards for certification.

The department's **Master's Programs** are intended to provide initial preparation for leaders in a variety of educational contexts, including higher education and PK-12 schools. Programs vary according to emphasis area and are designed to meet student's individual career

goals and interests — e.g., student affairs administration, initial principal certification and general higher education administration.

A minimum of 33 credit hours is required for the M Ed or MA in Higher Education and a minimum of 30 hours is required for the M Ed in Educational Leadership.

Note: Per ELPA policy, students have 5 years to complete their MA or M Ed degree.

Graduate Certificates:

- Education Policy
- Higher and Continuing Education Administration

Satisfactory Rate of Progress

All ELPA students are expected to make satisfactory progress toward their degrees. Satisfactory progress of students will be determined through an annual review by the director of graduate studies, graduate students’ academic advisers and their committees. Judgments about satisfactory progress will include consideration of the following:

- University-wide time limits for degree completion
- GPA for departmental courses
- Continuous enrollment and active engagement in course work or research (EdD and PhD)
- Student performance in research credits
- Timely resolution of incomplete grades

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Total Credits: 28-30

Thesis/Non-Thesis Requirements

Upon completion of course work and during the semester of graduation, all students must take and pass a capstone exam.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational Leadership and Policy Analysis (<http://gradschool.missouri.edu/academics/programs/agricultural-education/masters.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

For application instructions, see: <http://elpa.missouri.edu/#167>

EdD in Educational Leadership

This educational doctorate program is known as **The Statewide Cooperative EdD Program**.

The EdD program requires a minimum of 76 credit hours beyond the baccalaureate degree. The program, offered in a cohort format, includes 34 hours of course work in 6 contiguous semesters, beginning in the summer and concluding in the spring semester 2 years later. In addition to course work credit, 12 credit hours of dissertation-in-practice research are required.

Educational Studies

Dr. Wendy Sims, Director of Teacher Education
 Department of Learning, Teaching and Curriculum
 202 Townsend Hall
 573-882-0560
 TeacherEducation@missouri.edu (WhiteJess@missouri.edu)

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

Faculty

Professor E.A. Baker**, L. H. Barrow**, J. Baumann**, B. Dougherty**, R. F. Fox**, A. Hoard*, S. Palonsky**, B. B. Reys**, R. E. Reys**, R. D. Robinson**, T. Sadler**, W. Sims**

Associate L. Bennett**, K. B. Chval**, P. J. Friedrichsen**, C. Gilles**, D. L. Hanuscin**, N. Knipping*, J. Lannin**, J. E. Tarr**, K. Unrath**

Associate Professor Emeritus M. Volkmann**

Assistant Professor T. Castro**, Z. de Araujo, M. Klosterman*, C. Kuby**, A. Lannin**, M. Major*, S. Otten, R. Pinnow*, L. Sanchez**, M. Siegel**, B. Silvey**

Emeritus Research Professor D. A. Grouws**

Associate Teaching Professor A. Barbis*, L. Kingsley*, J. Ostrow*

Assistant Teaching Professor A. Ashcraft*, J. Clifton*, L. Neier*, J. Ostrow*, B. Smith*

Assistant Clinical Professor A. Waldron**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BES in Educational Studies (p. 366)
 - with emphasis in Interdepartmental (p. 367)

Graduate

For graduate degree programs related to educational studies, please see the Department of Educational Leadership and Policy Analysis (p. 358) or other College of Education (p. 340) programs. You might also browse the complete list of degree options (p. 5) at the University of Missouri.

Undergraduate

BES in Educational Studies

Major Program Requirements – Educational Studies (BES)

The Bachelor of Educational Studies (BES) degree prepares students for education-related careers. The College of Education will not recommend certification to teach in the public schools on the basis of the BES degree. This degree may be completed on campus or online. Students interested in the BES degree on campus may complete an

individualized major course of study developed with an advisor from Advising Services. Students interested in the online BES degree may complete an individualized major course of study in collaboration with the Program Director. Please contact Mizzou Online at 1-800-609-3727 or mizzouonline@missouri.edu.

In addition to University requirements (p. 17), such as University general education (p. 18) and graduation requirements, students must complete the following degree requirements.

- Multicultural studies: Students address this requirement by demonstrating competence through a multicultural studies course.
- A minimum of 24 - 32 credits in the study of the field of education
- A minimum of 24 - 32 credits in a concentration option

Semester Plan

Below is a sample Plan of Study for the BES **online** degree.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Elementary Education (p. 368)
 - with emphasis in Elementary Education (p. 368)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Elementary Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades 1-6. We currently offer a Master's, Educational Specialist, and Doctoral (PhD or EdD) in Learning, Teaching and Curriculum with an emphasis in Elementary Education. You can find out more about these programs at <http://education.missouri.edu/LTC/elementary/index.php>.

You might also browse the complete list of degree options (p. 5) at the University of Missouri.

Undergraduate

BSEd in Elementary Education

Major Program Requirements

Students are required to select the emphasis area in Elementary Education for this degree. Refer to the emphasis area (p. 368) for degree requirements.

Semester Plan

For a sample plan of study refer to the semester plan designed for the emphasis in Elementary Education (p. 368).

BSEd in Elementary Education with Emphasis in Elementary Education

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Faculty

Professor J. M. Budd**, S. Erdelez**, G. Fitzgerald**, J. Laffey**, R. Marra**

Associate Professor D. Adkins**, J. Caplow*, T. R. Kochtanek**, J. Moore**

Assistant Professor J. Bossaller**, B. Brendler*, T. Gibson*, S. Goggins**, H. Moulaison**

Teaching Professor J. Howland*

Associate Teaching Professor A. Klimczak*

Assistant Teaching Professor C. LeBeau*, K. Robinson*

Professor Emeriti M. Sievert

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in information science and learning technology, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Graduate

- MA in Information Science and Learning Technology, emphasis in Library Science (p. 370)
- MEd in Information Science and Learning Technology, emphasis in Educational Technology (p. 372)
- EdSp in Information Science and Learning Technology, emphasis in Educational Technology (p. 373)
- PhD in Information Science and Learning Technology (p. 374)

About Information Science & Learning Technologies

In January 1997, the School of Information Science & Learning Technologies became the home for MU's graduate programs in Library and Information Science and Educational Technology as well as a new, interdisciplinary doctoral program in Information Science & Learning Technology.

SISLT faculty are internationally renowned for their research and development accomplishments. Faculty and students are committed to

a collaborative, interdisciplinary approach – both within MU and among other research-extensive universities. Nowhere is this more evident than in the Allen Institute (<http://alleninstitute.missouri.edu>), a 10,000 square foot facility dedicated to supporting collaborative R&D at the intersection of Information & Learning.

Graduate

MA in Information Science and Learning Technology with emphasis in Library Science

About the Program

Our program is the only Master's Degree in the state of Missouri to be fully accredited by the American Library Association. Upon successful completion of the 42-hour program of study (39 hours for students admitted Fall 2014 and later), you will receive a Master of Arts in Information Science & Learning Technologies with an Emphasis in Library Science. The LIS curriculum reflects the foundations of the field as well as the critical issues facing the profession. Most LIS faculty are based in Columbia, with clinical faculty in St. Louis and Kansas City. Partnerships with Missouri State University and the University of Nebraska-Omaha allow us to provide classes in those locations as well.

Degree Requirements

The program consists of 42 credit hours, including 18 hours of core courses for students admitted prior to Fall 2014. For students admitted Fall 2014 and later the program consists of 39 credit hours, including 18 hours of core courses.

Core Courses

IS_LT 7301	Introduction to Information Technology	3
or IS_LT 9410	Seminar in Information Science and Learning Technology	
IS_LT 7305	Foundations of Library and Information Science (Will switch to 3 credits from 1 credit effective Spring 2015 pending approval)	3
IS_LT 7302	Organization of Information	3
or IS_LT 7312	Principles of Cataloging and Classification	
IS_LT 7313	Managing Collections and Access	3
IS_LT 7314	Reference Sources and Services	3
IS_LT 7315	Management of Information Agencies	3
IS_LT 7380	School Library Practicum	2-3
or IS_LT 7381	Practicum in Information Agencies	

Elective Courses

19
 Must include 15 credit hours of 9000-level courses. Must include 12 credit hours of courses taught by a full-time faculty member.

Total Credits 39-40

Course Rotation

Courses in the Library Science emphasis are offered on a rotating basis. Below is a general tentative schedule and should be used for reference

only. For the most up-to-date information, students should refer to the Schedule of Classes in myZou.

Courses Offered Every Year

Fall		Spring		Summer	
IS_LT 7301	Introduction to Information Technology	IS_LT 7302	Organization of Information	IS_LT 7334	Library Information Systems
IS_LT 7305	Foundations of Library and Information Science	IS_LT 7313	Managing Collections and Access	IS_LT 7360	Introduction to Web Development
IS_LT 7312	Principles of Cataloging and Classification	IS_LT 7360	Introduction to Web Development	IS_LT 7381	Practicum in Information Agencies
IS_LT 7315	Management of Information Agencies	IS_LT 7380	School Library Practicum	IS_LT 9417	Technology Action Research
IS_LT 7360	Introduction to Web Development	IS_LT 7381	Practicum in Information Agencies	IS_LT 9445	Special Libraries and Information Centers
IS_LT 7380	School Library Practicum	IS_LT 9408	Information Policy		
IS_LT 7381	Practicum in Information Agencies	IS_LT 9409	Seminar in Digital Libraries		
IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Emerging Technologies for Libraries)	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Digital Humanities & Information)		
IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Usability of Online Information Services)	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Metadata)		
IS_LT 9413	Management of Electronic Resources	IS_LT 9412	Information Storage and Retrieval		
IS_LT 9431	Children's Library Materials	IS_LT 9414	Internet Reference		
IS_LT 9454	Copyright in Libraries	IS_LT 9417	Technology Action Research		
		IS_LT 9432	Online Searching		

IS_LT 9434 Teen Library Materials

Courses Offered in Odd-Even Academic Years (e.g. 2011-12, 2013-14, 2015-16)

Fall		Spring		Summer	
IS_LT 9443	The Academic Library	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Intellectual Freedom and its Discontents)	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Leading in Library Environments)
IS_LT 9444	The Public Library	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Social Constructs of Information)	IS_LT 9449	Business Information Resources
		IS_LT 9428	The History of Books and Printing: The Printed Book		
		IS_LT 9453	Planning and Evaluation of Information Services		

Courses Offered in Even-Odd Academic Years (e.g. 2010-11, 2012-13, 2014-15)

Fall		Spring		Summer	
IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: History of American Libraries)	IS_LT 7314	Reference Sources and Services	n/a	
IS_LT 9420	Information in the Disciplines	IS_LT 9410	Seminar in Information Science and Learning Technology (Topic: Diversity in Libraries)		
IS_LT 9423	Ethics and Information	IS_LT 9437	Reader Advisory Services		
IS_LT 9435	Adult Services in Libraries				

IS_LT 9450 Introduction to Research in Library and Information Science

IS_LT 9452 Library Use Instruction

Courses Offered on Irregular Schedule

IS LT 9410 Exploring Music for Public and School Librarians

IS_LT 9410 Financing of Higher Education & Academic Libraries

IS LT 9410 Storytelling Basics for Public and School Librarians

IS LT 9410 Programming for the "Youngest Among Us"

IS_LT 9410 Introduction to Archives Management

Sample Plan of Study

Comprehensive Examination Process

Master's degree students in the Library Science program must complete the Comprehensive Examination during the final semester of course work. The Comprehensive Examination consists of one question in each of four general areas: Issues, Management, Services, and Technology. Each question is created and evaluated by one of the full-time resident Library Science faculty.

Eight weeks prior to the administration of the examination each semester, students are given an overview of the content of the questions, a list of suggested readings for each question and information on how the Comprehensive Examination will be administered. Students scheduled to take the exam are loaded into a Blackboard site where you can post questions and interact with the Comprehensive Examination Committee and your peers.

Toward the latter half of the semester, the Comprehensive Examination questions are released on the Blackboard site. You have nine days to answer the four questions and submit the answers to the Comprehensive Exam Committee.

Admissions

Contact Information

Email: sisl@missouri.edu

SISLT Student Services Coordinator

304 Townsend Hall

Columbia, MO 65211

Phone: 573-882-4546 or toll free 877-747-5868

<http://lis.missouri.edu/>

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Information Science and Learning Technology program (<http://lis.missouri.edu/apply>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

MEd in Information Science and Learning Technology with emphasis in Educational Technology

About the Educational Technology MEd

The Educational Technology emphasis area is your portal to excellence and leadership in designing, developing, and implementing technology in education, training and performance support.

Three focus areas are available for your degree. Students who focus on Learning Systems Design & Development learn to plan and create the learning and performance support resources used by individuals, groups, and organizations. Students who focus on Technology in Schools learn the strategies and processes for advancing the use of new technologies in schools, colleges, and other learning environments, (e.g., virtual schools; online courses). Students who focus on the Online Educator learn to design, implement, and evaluate effective online learning experiences in a variety of settings.

Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality.

Your degree in Educational Technology will open an array of career options. Some graduates work in K-12 schools, others work in corporations, and still others apply their skills in government, healthcare, higher education, and other settings. For example, some of our recent graduates are Software Designers and Developers, Learning Strategy Managers, Adaptive Technology Specialists, Training Designers, School Technology Coordinators, and Online Instructors. Whatever the setting, you will graduate with a skill set that will serve you well in the future.

Degree Requirements

The MEd consists of 30 graduate credit hours, with a minimum of 15 at the 9000 level or above. The Educational Technology curriculum allows you to customize your course work by focusing on technology design and development or technology implementation.

Total Credits: 30

Comprehensive Examination Process

Portfolios can be submitted spring, fall, and summer semesters. Portfolios must be submitted to the assigned portfolio coach for review no later than three (3) weeks prior to the last day of classes; you will be notified by the SISLT Student Services Office of the specific date at the beginning of your final semester.

The student will work with the portfolio coach who will provide feedback and support to the student as she/he prepares the portfolio for review.

The review process asks three basic questions:

1. Does the portfolio demonstrate the student's knowledge of what the competencies mean?
2. Does the portfolio demonstrate the student's mastery of the competencies?
3. Does the portfolio present the student in a positive and professional manner?

Once a portfolio is deemed acceptable or unacceptable by the portfolio coach, the coach will notify the student and the SISLT Student Services Office. Should the portfolio be deemed unacceptable by the portfolio coach, the student may appeal this decision by petitioning the Director of SISLT and requesting that two other faculty review the portfolio.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Information Science and Learning Technology program (<http://edtech.missouri.edu/#admission>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application

process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

EdSp in Information Science and Learning Technology with emphasis in Educational Technology

About the Program

The Educational Technology Specialist degree at MU is your portal to excellence and leadership in designing, developing, and implementing technology in education, training and performance support.

Three focus areas are available for your degree. Students who focus on Learning Systems Design and Development learn to plan and create the learning and performance support resources used by individuals, groups, and organizations. Students who focus on Technology in Schools learn the strategies and processes for advancing the use of new technologies in schools, colleges, and other learning environments, (e.g., virtual schools; online courses). Students who focus on the Online Educator learn to design, implement, and evaluate effective online learning experiences in a variety of settings.

Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality.

Your degree in Educational Technology will open an array of career options. Some graduates work in K-12 schools, others work in corporations, and still others apply their skills in government, healthcare, higher education, and other settings. For example, some of our recent graduates are Software Designers and Developers, Learning Strategy Managers, Adaptive Technology Specialists, Training Designers, School Technology Coordinators, and Online Instructors. Whatever the setting, you will graduate with a skill set that will serve you well in the future.

Degree Requirements

The EdSp is a 30 credit hour option is available for students who already have a master's degree. The Educational Technology curriculum allows you to customize your course work by focusing on technology design and development or technology implementation.

PhD in Information Science and Learning Technology

About the Program

The PhD program prepares professionals to understand and influence learning, information and performance in diverse settings, especially through the use of interactive technologies. We seek individuals who are committed to conducting research that integrates theory and practice.

You will gain the competencies required to:

- Analyze specific informational organization and retrieval, learning and performance needs and evaluate systems to meet these needs.
- Design, develop and implement technologies and technological interventions to improve information organization and retrieval, learning and performance.

- Conduct systematic research, which contributes to the knowledge base of learning, information organization and retrieval, performance and/or technology.

Degree Requirements

1-3 master's level conceptual courses in Educational Technology or Library Science (if entering doctoral program without Master's in Educational Technology, Library Science, or a related field)

Doctoral Seminar Courses (9 credit hours)

Analyzing and Designing Systems	3
Research and Theory Seminars	6

Elective SISLT Coursework (minimum of 18 credit hours)

IS_LT coursework beyond mater's degree	18
--	----

Research Methodologies (minimum of 9 credit hours)

Research design courses with at least one course in qualitative and once course in quantitative		
ESC_PS 7170	Introduction to Applied Statistics	3
ESC_PS 8630	Qualitative Methods in Educational Research I	3
or ESC_PS 8830	Quantitative Analysis in Educational Research I	
ESC_PS 9620	Qualitative Methods in Educational Research II	3
or ESC_PS 8840	Quantitative Analysis in Educational Research II	

Support Field (9 or more credit hours)

Coordinated coursework related to an area of emphasis outside IS_LT and research courses selected in consultation with your program committee	9
---	---

Dissertation

Course work, internships and independent study projects support the achievement of these competencies, and your program centers on producing a portfolio of achievements indicating that the competencies have been attained. While course work supports production of the portfolio, we encourage students to develop products that cut across several courses, resulting in products that are personally satisfying, solve real problems and represent high quality work. We are particularly interested in products developed in collaboration with other students, practicing professionals and others beyond our program and campus.

The program culminates with a significant research effort that contributes to the knowledge base of learning, information organization and retrieval, performance and/or technology. Whether one major study or a series of smaller studies, the research is designed to position our graduates alongside the leading theorists, researchers and practitioners in the field. There is no minimum number of 9090 research hours.

Sample Plan of Study

During your first two academic semesters, you will work with your assigned advisor to select courses and identify Professional Immersion activities that will successfully lead toward the completion of your degree. During this same time period, you should work to establish professional relationships with faculty in SISLT and your supporting field who you would like to include on your Program Committee. Prior to the beginning of your second academic year of study, you must have identified your Program Committee and conducted a Program of Study meeting with your Program Committee. Early approval of your Program of Study will enhance your academic experience in SISLT. This is a very important part of the degree planning process; failure to receive approval of your Program of Study prior to the second academic year may mean that

courses or activities completed afterward may not count toward your degree.

Qualifying Process

At the Program of Study meeting, the Program Committee will review the student's statement of accomplishments. Students judged by the Program Committee to be making adequate progress will pass the Qualifying Exam. If the doctoral student fails the Qualifying Exam, the meeting will be rescheduled for the following semester. The student may attempt the Qualifying Exam twice. Once a student completes the Qualifying Exam process, he or she will then submit the D-2 Plan of Study for the Doctoral Degree Program Form approved by their Program Committee.

Comprehensive Examination Process

The comprehensive examination is an assessment of your comprehensive knowledge of information science and learning technologies. It is your responsibility to inform your committee members of your intent to complete your comprehensive exam prior to the beginning of the semester in which you plan to complete the exam.

The IS< examination consists of three parts:

- Portfolio
- Written component
- Oral component

For more information on the comprehensive exam process, please refer to the SISLT PhD Handbook at <http://education.missouri.edu/SISLT/files/PhDHandbook-2009-web.pdf>.

Dissertation Requirements

You should become involved in research throughout your program so that, by the time the comprehensive examination is completed, you have a well-formulated topic for research. Research may include required coursework activities, collaborations with faculty, or an independent effort. Earlier research can serve to explore a dissertation topic, serve as a pilot study, or become part of a dissertation prospectus. However, formal approval of a dissertation prospectus by your Committee must precede the serious pursuit of the study.

Dissertation Committee

Following the completion of the comprehensive examination, the responsibility of the Program Committee is completed. You will then form a committee to direct your dissertation. This committee may, but does not have to, consist of the same members as the Program Committee. You are encouraged to include those faculty members who can best support your line of research as members of your Dissertation Committee. During your academic program, your interests may change and should be reflected in the Dissertation Committee membership. The Dissertation Committee must consist of a minimum of three SISLT faculty members. The Dissertation Committee chair must be a member of the MU doctoral faculty. A faculty member or practitioner holding a terminal degree from outside of SISLT who has expertise in your research may be added as a special Committee member with program approval. At least one member must be from a program other than IS<, typically from your minor or supporting field.

Dissertation Proposal Meeting

You will be required to schedule a dissertation proposal meeting prior to beginning your research. Your Dissertation Committee must approve your

conceptualization and methodology prior to beginning any data collection. The proposal meeting is open to all faculty and students in the School. The proposal should include the first three chapters (Chapter 1: Rationale for the Study, Chapter 2: Literature Review, Chapter 3: Description of Methodology) of the dissertation unless your Committee has approved an alternative form.

Dissertation Defense

After receiving your Dissertation Chair's approval, you may schedule your dissertation defense. A copy of your dissertation must be sent to each committee member at least three weeks prior to the defense meeting. Other faculty, students, and staff may also attend your oral defense. It will be announced to the entire program at least one week prior to the scheduled examination time. These people will be excused while the Committee evaluates your performance.

Admissions

SISLT Student Services Coordinator
304 Townsend Hall
Columbia, MO 65211
Phone: 573-882-4546 or toll free 877-747-5868

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Information Science and Learning Technology program (http://education.missouri.edu/SISLT/PhD/PhD_Application.php) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

Learning, Teaching and Curriculum

Professionals interested in advancing their careers in education can specialize in a variety of disciplines in MU's Department of Learning, Teaching and Curriculum. LTC specializes in teacher preparation and in graduate programming for professionals in education. Students find challenging, yet rewarding, opportunities through MU's dynamic research centers and projects and are supported by faculty who are subject matter experts.

Consider LTC if you

- want to advance as a professional in education through a field specialization
- enjoy exercising independent judgment, and
- desire to help all learners achieve success and strengthen the future through education.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in Learning, Teaching & Curriculum, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that comprise the University. The catalog provides a complete list of these degree options (p. 5).

About the Program

Graduate study in Learning, Teaching, & Curriculum prepares teachers, curriculum leaders and teacher educators for professional excellence. With the rapid changes in education--especially developments in instructional materials and techniques, curriculum construction and classroom organization--teachers who have completed their certification may need to update, refine and extend their knowledge and skills.

Further, many educators enter new roles as subject-matter specialists, curriculum coordinators, supervisors of instruction, department heads, leaders of professional development education or teacher educators. Graduate programs in Learning, Teaching, & Curriculum are designed to prepare the professionals for these new roles.

Areas of Study

Depending on the degree program, students can pursue discipline-specific emphasis areas (e.g., elementary education, music education, science education and others) and focus on curriculum development, research, or teacher education. Outside concentration areas are also available.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Graduate

MA in Learning, Teaching and Curriculum

Our department is no longer admitting students to the MA in Learning, Teaching and Curriculum. We invite you to explore the other graduate degree options in Learning, Teaching and Curriculum (p. 376) and the College of Education. (p. 344)

About the M.Ed.

The M. Ed. program requires 32 hours in Learning, Teaching, & Curriculum coursework. The following emphasis areas are currently offered: General LTC; Art Education; Early Childhood Education; Elementary Education; English Education; Learning and Instruction; Mathematics Education; Music Education; Reading Education; Science Education; Social Studies Education; and also a focus in TESOL.

Admissions Deadlines

Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

Admission Requirements

- Completion of an appropriate baccalaureate degree with a GPA of 3.0 or better
- Evidence of at least 2 years of successful experience in an appropriate field
- Minimum TOEFL scores for most areas:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

- Minimum GRE score* required for following emphasis areas only: Early Childhood Education, English Education, Mathematics Education, Science Education, Social Studies Education, and TESOL.

When did you take the GRE?	Verbal + Quantitative
Prior to August 1, 2011	810+
On or After August 1, 2011	291= (V150,Q141)

* Clarification: Not all LTC programs require the GRE exam - only those listed above.

Required Application Materials to the Graduate School

- All required Graduate School documents
- Official transcripts
- GRE scores required for Early Childhood Education, English Education, Mathematics Education, Science Education, Social Studies Education, and TESOL.
- TOEFL scores (international applicants)

Required Application Materials to the Learning, Teaching, & Curriculum Program

- Personal data sheet form (select appropriate form from the department website)
- Statement of purpose
- GRE scores (a copy may be sent to the department too; minimum, an official result needs to be sent to Graduate School)
- Letters of recommendation; check with department to see if they are required for your emphasis. Most programs now require a minimum of 2 letters of recommendation. ALL LETTERS MUST BE CONFIDENTIAL AND SUBMITTED ACCORDINGLY THROUGH THE GRADUATE SCHOOL APPLICATION SYSTEM.

MEd in Learning, Teaching and Curriculum with Emphasis in Art Education

Degree Requirements

The master's degree in Art Education is designed to allow elementary teachers or secondary teachers to pursue a program of study to increase competence in curriculum planning, techniques of teaching art, and the subject matter of studio art and art history and may lead to certification to teach art.

The MEd degree in Art Education comprises 32 semester hours of graduate work that meets the professional needs of the students. The courses include 16 hours of classes at the 8000-9000 level and 16 hours of work in education at the 7000-9000 level or above, which includes a course that enables the student to read, interpret and evaluate research.

Admissions

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master's program.

- Completion of an appropriate Bachelor's degree with a GPA of 3.0 or better.
- A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant's professional aspirations.
- For students whose native language is not English, a score of 500 or better on the TOEFL taken within the past two years

The LTC Department cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

MEd in Learning, Teaching and Curriculum with Emphasis in Early Childhood Education

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (<http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

Middle School Education

Dr. Wendy Sims, Director of Teacher Education
 Department of Learning, Teaching and Curriculum
 202 Townsend Hall
 573-882-0560
 TeacherEducation@missouri.edu (WhiteJess@missouri.edu)

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

Faculty

Professor E. A. Baker*, L. H. Barrow**, J. Baumann#, B. Dougherty**, R. F. Fox**, A. Hoard*, S. Palonsky**, B. B. Reys**, R. E. Reys**, R. D. Robinson**, T. Sadler**, W. Sims**

Associate Professor L. Bennett**, K. B. Chval**, P. J. Friedrichsen**, C. Gilles**, D. L. Hanuscin**, N. Knipping*, J. Lannin**, J. E. Tarr**, K. Unrath**

Associate Professor Emeritus M. Volkman**

Assistant Professor T. Castro**, Z. de Araujo, M. Klosterman*, C. Kuby**, A. Lannin**, M. Major*, S. Otten, R. Pinnow*, L. Sanchez**, M. Siegel**, B. Silvey**

Emeritus Research Professor D. A. Grouws**

Associate Teaching Professor A. Barbis*, L. Kingsley*, J. Ostrow*

Assistant Teaching Professor A. Ashcraft*, J. Clifton*, L. Neier*, B. Smith*

Assistant Clinical Professor A. Waldron**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Middle School Education (p. 387)
 - with emphasis in Language Arts (p. 387)
 - with emphasis in Math (p. 389)
 - with emphasis in Science (p. 390)
 - with emphasis in Social Studies (p. 391)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Middle School Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades 5-9. The College of Education does not currently offer a graduate degree specifically in Middle School Education. However, we do offer Masters (M.Ed.) and doctorates (Ph.D) in the following areas.

- Math
- English/Language Arts
- Science
- Social Studies
- Art
- Music

We also offer a graduate degree in "Reading/Literacy Education" at the M.Ed., Ed.S., Ed.D, and Ph.D. levels.

You can find out more about the programs by going to http://education.missouri.edu/academics/graduate_studies/index.php.

Undergraduate

BSEd in Middle School Education

Major Program Requirements

The BSEd in Middle School Education is offered in four emphasis areas: Language Arts (p. 387), Math (p. 389), Science (p. 390), and Social Studies (p. 391). Students must choose one of the emphasis areas to earn the BSEd. Details on the requirements for the programs are listed under each emphasis.

Semester Plan

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in Language Arts (p. 387), Math (p. 389), Science (p. 390), or Social Studies (p. 391).

BSEd in Middle School Education with Emphasis in Language Arts

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Professional Education		44
Phase I		
LTC 1130	Orientation: Middle School Education	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4
Phase II		
LTC 4380 & LTC 4384	Teaching Middle School Language Arts I and Teaching Middle School Language Arts I Field Experience	4
SPC_ED 4020	Inquiry into Learning II	3
LTC 4390 & LTC 4394	Teaching Middle and Secondary English/Language Arts II and Teaching Middle School Language Arts II Field Experience	4
ED_LPA 4060	Inquiring into Schools, Community and Society II	3

LTC 4400 & LTC 4404	Teaching Middle and Secondary English/ Language Arts III and Teaching Middle School Language Arts III Field Experience	4
LTC 4410	Teaching, Engaging and Assessing Middle-Level Students	3
Phase III		
LTC 4971	Internship and Capstone Seminar	14
Content Area		27
ENGLISH 2010	Intermediate Composition	3
ENGLISH 2100	Writing About Literature	3
ENGLISH 3310	Survey of American Literature: 1865-Present	3
ENGLISH 4600	Structure of American English	3
ENGLISH 4610	History of the English Language	3
LTC 4460	Teaching English to Speakers of Other Languages	3
English Electives—One course from each area		9
19th Century Literature/African-American Literature/Folklore		3
ENGLISH 3110	Special Themes in Literature	
ENGLISH 3400	Survey of African American Literature, Beginnings to 1900	
ENGLISH 3410	Survey of African American Literature, 1900-Present	
ENGLISH 4700	Special Themes in Folklore	
20th Century Literature/Literature by and about Women		3
ENGLISH 4169	Major Authors, 1890-Present	
ENGLISH 4188	Major Women Writers, 1789-1890	
ENGLISH 4189	Major Women Writers, 1890-Present	
ENGLISH 4210	Medieval Literature	
Writing		3
ENGLISH 1510	Creative Writing: Introduction to Fiction	
ENGLISH 1530	Creative Writing: Introduction to Poetry	
ENGLISH 4510	Creative Writing: Advanced Fiction	
ENGLISH 4530	Creative Writing: Advanced Poetry	

Required Option Area

All middle school education majors are required to select one option area. (Option areas do not appear on transcripts or diplomas.) Please select one of the following:

Option Area: Math

MATH 1160	Precalculus Mathematics	5
MATH 1300	Finite Mathematics	3
MATH 1360	Geometric Concepts	3
MATH 4060	Connecting Geometry to Middle and Secondary Schools	3
MATH 4070	Connecting Algebra to Middle and Secondary Schools	3
MATH 4080	Calculus Connections	3
STAT 1200	Introductory Statistical Reasoning	3
LTC 4360 & LTC 4364	Intro. Teaching Mathematics in Middle and Secondary Schools and Intro. Teaching Math in Middle and Secondary School Field Experience	4

Option Area: Science

CHEM 1320	College Chemistry I	4
PHYSICS 2330	Exploring the Principles of Physics	4
GEOL 1100	Principles of Geology with Laboratory	4
BIO_SC 1500	Introduction to Biological Systems with Laboratory	3-5
BIO_SC 1060	Basic Environmental Studies	3
or NAT_R 1060	Ecology and Conservation of Living Resources	
ASTRON 1010	Introduction to Astronomy	3-4
or ATM_SC 1050	Introductory Meteorology	
LTC 4340 & LTC 4344	Middle School Science I and Middle School Science Field I	4

Option Area: Social Studies

HIST 1100	Survey of American History to 1865	3
HIST 1200	Survey of American History Since 1865	3
HIST 1500	Foundations of Western Civilization	3
World History Elective		3
GEOG 1100	Regions and Nations of the World I	3
or GEOG 1200	Regions and Nations of the World II	
POL_SC 1100	American Government	3
ECONOM 1014	Principles of Microeconomics	3
or AG_EC 1041	Applied Microeconomics	
or AG_EC 1042	Applied Macroeconomics	
LTC 4320 & LTC 4324	Middle School Social Studies I and Middle School Social Studies Field I	4

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Please meet with an academic advisor to discuss these options.

First Year			
Fall	CR Spring	CR	
LTC 1130	1 GEOL 1100	4

BSEd in Middle School Education with Emphasis in Social Studies

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Professional Education 44

Phase I

LTC 1130	Orientation: Middle School Education	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4

Phase II

SPC_ED 4020	Inquiry into Learning II	3
LTC 4320 & LTC 4324	Middle School Social Studies I and Middle School Social Studies Field I	4
LTC 4420 & LTC 4424	Adolescent Literacy and Middle School Literacy Field Experience	4
ED_LPA 4060	Inquiring into Schools, Community and Society II	3
LTC 4334	Middle School Social Studies Field Experience II	1
LTC 4410	Teaching, Engaging and Assessing Middle-Level Students	3
LTC 4550	Assessment in Social Studies	3

Phase III

LTC 4971	Internship and Capstone Seminar	14
----------	---------------------------------	----

Content Area 33

American History

HIST 1100	Survey of American History to 1865	3
HIST 1200	Survey of American History Since 1865	3
American History Elective		3

World History

HIST 1500 or HIST 1510	Foundations of Western Civilization or History of Modern Europe	3
World History Electives		6
POL_SC 1100	American Government	3
ECONOM 1014 or AG_EC 1041 or AG_EC 1042	Principles of Microeconomics or Applied Microeconomics or Applied Macroeconomics	3
GEOG 1100 or GEOG 1200	Regions and Nations of the World I or Regions and Nations of the World II	3
Psychology 1000+ Elective		3
Non-Western History or Asian Geography Elective		3

Required Option Area

All middle school education majors are required to select one option area. (Option areas do not print on transcripts or diplomas.) Please select one of the following:

Option Area: Language Arts

ENGLISH 2010	Intermediate Composition	3
ENGLISH 2100	Writing About Literature	3
ENGLISH 3310	Survey of American Literature: 1865-Present	3
LTC 4460	Teaching English to Speakers of Other Languages	3
19th Century Literature/African-American/Folklore		
ENGLISH 3110	Special Themes in Literature	1-3

or ENGLISH 3400	Survey of African American Literature, Beginnings to 1900	
or ENGLISH 3410	Survey of African American Literature, 1900-Present	
or ENGLISH 4700	Special Themes in Folklore	

20th Century Literature by and about Women

ENGLISH 4169	Major Authors, 1890-Present	3
or ENGLISH 4188	Major Women Writers, 1789-1890	
or ENGLISH 4189	Major Women Writers, 1890-Present	
or ENGLISH 4210	Medieval Literature	

Writing

ENGLISH 1510	Creative Writing: Introduction to Fiction	3
or ENGLISH 1530	Creative Writing: Introduction to Poetry	
or ENGLISH 4510	Creative Writing: Advanced Fiction	
or ENGLISH 4530	Creative Writing: Advanced Poetry	
LTC 4380 & LTC 4384	Teaching Middle School Language Arts I and Teaching Middle School Language Arts I Field Experience	4
LTC 4390 & LTC 4394	Teaching Middle and Secondary English/Language Arts II and Teaching Middle School Language Arts II Field Experience	4

Option Area: Math

MATH 1160	Precalculus Mathematics	5
MATH 1300	Finite Mathematics	3
MATH 1360	Geometric Concepts	3
MATH 4060	Connecting Geometry to Middle and Secondary Schools	3
MATH 4070	Connecting Algebra to Middle and Secondary Schools	3
MATH 4080	Calculus Connections	3
STAT 1200	Introductory Statistical Reasoning	3
LTC 4360 & LTC 4364	Intro. Teaching Mathematics in Middle and Secondary Schools and Intro. Teaching Math in Middle and Secondary School Field Experience	4

Option Area: Science

CHEM 1320	College Chemistry I	4
PHYSICS 2330	Exploring the Principles of Physics	4
GEOG 1100	Principles of Geology with Laboratory	4
BIO_SC 1500	Introduction to Biological Systems with Laboratory	3-5
BIO_SC 1060 or NAT_R 1060	Basic Environmental Studies or Ecology and Conservation of Living Resources	3
ASTRON 1010 or ATM_SC 1050	Introduction to Astronomy or Introductory Meteorology	3-4
LTC 4340 & LTC 4344	Middle School Science I and Middle School Science Field I	4

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Please meet with an academic advisor to discuss these options.

First Year		
Fall	CR Spring	CR
LTC 1130	1 BIO_SC 1010	3

Secondary Education

Dr. Wendy Sims, Director of Teacher Education
Department of Learning, Teaching and Curriculum
202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

Faculty

Professor E. A. Baker**, L. H. Barrow**, J. Baumann**, B. Dougherty**, R. F. Fox**, A. Hoard*, S. Palonsky**, B. B. Reys**, R. E. Reys**, R. D. Robinson**, T. Sadler**, W. Sims**

Associate Professor L. Bennett**, K. B. Chval**, P. J. Friedrichsen**, C. Gilles*, D. L. Hanuscin**, N. Knipping*, J. Lannin**, J. E. Tarr**, K. Unrath**

Associate Professor Emeritus M. Volkmann**

Assistant Professor T. Castro**, Z. de Araujo, M. Klosterman*, C. Kuby**, A. Lannin**, M. Major*, S. Otten, R. Pinnow*, L. Sanchez**, M. Siegel**, B. Silvey**

Emeritus Research Professor D. A. Grouws**

Associate Teaching Professor A. Barbis*, L. Kingsley*, J. Ostrow*

Assistant Teaching Professor A. Ashcraft*, J. Clifton*, L. Neier*, B. Smith*

Assistant Clinical Professor A. Waldron**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Secondary Education (p. 394)
 - with emphasis in Art Education (p. 394)
 - with emphasis in Biology (p. 395)
 - with emphasis in Chemistry (p. 396)
 - with emphasis in Earth Science (p. 397)
 - with emphasis in General Science (p. 398)
 - with emphasis in Language Arts (p. 398)
 - with emphasis in Mathematics Education (p. 399)
 - with emphasis in Music Education (p. 400)
 - with emphasis in Physics (p. 403)
 - with emphasis in Social Studies (p. 404)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education (p. 18), professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education (p. 18) program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Secondary Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades 9-12. The College of Education does not currently offer a graduate degree specifically to Secondary Education. However, we do offer Masters (M.Ed.) and doctorates (Ph.D) in the following areas.

- Math
- English/Language Arts
- Science
- Social Studies
- Art
- Music

We also offer a graduate degree in "Reading/Literacy Education" at the M.Ed., Ed.S., Ed.D, and Ph.D. levels.

You can find out more about the programs by going to http://education.missouri.edu/academics/graduate_studies/index.php.

Undergraduate

BSEd in Secondary Education

Major Program Requirements

The BSEd in Secondary Education is offered in ten emphasis areas: Biology (p. 395), Chemistry (p. 396), Earth Science (p. 397), General Science (p. 398), Language Arts (p. 398), Mathematics Education (p. 399), Music Education (p. 400), Physics (p. 403), and Social Studies (p. 404). Students must choose one of the emphasis areas to earn the BSEd. Details on the requirements for the programs are listed under each emphasis.

Semester Plan

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in Biology (p. 395), Chemistry (p. 396), Earth Science (p. 397), General Sciences (p. 398), Language Arts (p. 398), Mathematics Education (p. 399), Music Education (p. 400), Physics (p. 403), or Social Studies (p. 404).

BSEd in Secondary Education with Emphasis in Art Education

The Undergraduate Art Education Program is currently suspended due to low enrollment. The University of Missouri and MU College of Education remain committed to art education and will continue to provide a post-baccalaureate certification program, master's degree and doctorate in art education. BA and BFA candidates may acquire art teaching certification by completing the art education requirements not already completed in the BA or BFA programs. In addition, students must complete all university (p. 17), general education (p. 18) and content requirements. In addition, the MU College of Arts and Science offers a bachelor's degree in art and a bachelor's degree in fine arts.

BSEd in Secondary Education with Emphasis in Biology

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Students have the choice to complete a single subject or unified science endorsement. The unified science endorsement creates the opportunity to teach any of the beginning sciences. A list of the additional courses for the unified science endorsement can be found at the end of the list of required courses for each of the science areas.

Professional Education		43
Phase I		
LTC 1155	Orientation: Science Education	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4
Phase II

BSEd in Secondary Education with Emphasis in General Science

The College of Education no longer offers a BSED in Secondary Education with emphasis in General Science. Please see our science emphasis areas (Biology (p. 395), Chemistry (p. 396), Earth Science (p. 397), Physics (p. 403)).

BSEd in Secondary Education with Emphasis in Language Arts

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Professional Education		43
Phase I		
LTC 1170	Orientation: English/Language Arts	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4
Phase II		
LTC 4560	Reading and Writing in the Content Areas	3
LTC 4470 & LTC 4474	Teaching Secondary English/Language Arts I and Teaching Secondary English/Language Arts I Field Experience	4
SPC_ED 4020	Inquiry into Learning II	3
LTC 4480 & LTC 4484	Teaching Middle and Secondary English/Language Arts II and Teaching Secondary English/Language Arts II Field Experience	4

ED_LPA 4060	Inquiring into Schools, Community and Society II	3
LTC 4490 & LTC 4494	Teaching Middle and Secondary English/Language Arts III and Teaching Secondary English/Language Arts III Field Experience	4
Phase III		
LTC 4971	Internship and Capstone Seminar	14
Content Area		45
ENGLISH 2010	Intermediate Composition	3
ENGLISH 2100	Writing About Literature	3
ENGLISH 3210	Survey of British Literature: Romanticism to the Present	3
ENGLISH 3300	Survey of American Literature: Beginnings to 1865	3
ENGLISH 3310	Survey of American Literature: 1865-Present	3
ENGLISH 4320	20th-Century American Literature	3
ENGLISH 4150	World Literatures	3
ENGLISH 4600	Structure of American English	3
ENGLISH 4610	History of the English Language	3
LTC 4460	Teaching English to Speakers of Other Languages	3

Electives (One course from each category, 6hrs must be 4000 level)

British Literature		
ENGLISH 4210 or ENGLISH 4220 or ENGLISH 4240 or ENGLISH 4250 or ENGLISH 4260	Medieval Literature Renaissance and Seventeenth Century Literature Restoration and 18th-Century English Literature 19th-Century English Literature 20th-Century British Literature	3
African American/Ethnic Literature		
ENGLISH 3400 or ENGLISH 3410 or ENGLISH 3420 or ENGLISH 4120 or ENGLISH 4700	Survey of African American Literature, Beginnings to 1900 Survey of African American Literature, 1900-Present Periods and Genres in African Diaspora Literature Ethnic Literature Special Themes in Folklore	3
Literature by and about Women		
ENGLISH 4169 or ENGLISH 4180 or ENGLISH 4181 or ENGLISH 4188 or ENGLISH 4189 or ENGLISH 4210 or ENGLISH 4780	Major Authors, 1890-Present Major Women Writers Themes in Literature by Women Major Women Writers, 1789-1890 Major Women Writers, 1890-Present Medieval Literature Women's Folklore and Feminist Theory	3
Literary Synthesis		
ENGLISH 3110 or ENGLISH 4004 or ENGLISH 4060 or ENGLISH 4160	Special Themes in Literature Topics in English-Social Science Studies in Critical Theory Major Authors	1-99
Writing		
ENGLISH 1510 or ENGLISH 1530 or ENGLISH 2030 or ENGLISH 3010	Creative Writing: Introduction to Fiction Creative Writing: Introduction to Poetry Professional Writing Advanced Composition	3

or ENGLISH 4510 Creative Writing: Advanced Fiction
 or ENGLISH 4530 Creative Writing: Advanced Poetry

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Please meet with an academic advisor to discuss these options.

First Year		
Fall	CR Spring	CR
LTC 1170	1 MATH 1100	3
ENGLISH 1000	3 ENGLISH 2010	3
PSYCH 1000	3 Humanities Elective	3
Humanities Elective	3 POL_SC 1100	3
HIST 1100	3 BIO_SC 1010	3
	13	15
Second Year		
Fall	CR Spring	CR
ESC_PS 2010	3 LTC 2040	3
ENGLISH 1510	3 LTC 2044	1
ESC_PS 2014	1 ENGLISH 3210	3

Total Credits: 123

BSEd in Secondary Education with Emphasis in Mathematics Education

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Professional Education 43

Phase I		
LTC 1120	Orientation: Math Education	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4
Phase II		
LTC 4560	Reading and Writing in the Content Areas	3
LTC 4571 & LTC 4574	Introduction to Teaching Mathematics in Middle and Secondary Schools and Intro. Teaching Math in Middle and Secondary School Field Experience	4
SPC_ED 4020	Inquiry into Learning II	3
LTC 4581 & LTC 4584	Teaching Mathematics in Secondary Schools: Algebra and Teaching Math in Secondary Schools: Algebra Field Experience	4
ED_LPA 4060	Inquiring into Schools, Community and Society II	3
LTC 4590 & LTC 4594	Teach.Math in Sec.Schools: Focus on Geometry, Probability and Statistics and Teach Math in Sec Sch: Focus on Geometry/Probability	4
Phase III		
LTC 4971	Internship and Capstone Seminar	14
Content Area *		
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 2320	Discrete Mathematical Structures	3
MATH 4060	Connecting Geometry to Middle and Secondary Schools	3
MATH 4140	Matrix Theory	3
MATH 4510	Higher Algebra	3
MATH 4350	Introduction to Non-Euclidean Geometry	3
STAT 4050	Connecting Statistics to Middle and Secondary Schools	3
INFOTC 1040	Introduction to Problem Solving and Programming	3
Electives (Recommended Courses: MATH 4100, MATH 4300, MATH 4500, MATH 4700, MATH 4580, MATH 4560, MATH 4310, MATH 4330, MATH 4720, MATH 4150, MATH 4335, MATH 4340, MATH 4345, MATH 4400 or STAT 4750)		6

* Mathematics courses must be taken on a graded basis. (A-F).

BSEd in Secondary Education with Emphasis in Physics

Major Program Requirements

Students must complete all university (p. 17), general education (p. 18), and content requirements, in addition to the degree requirements below.

Students have the choice to complete a single subject or unified science endorsement. The unified science endorsement creates the opportunity to teach any of the beginning sciences. A list of the additional courses for the unified science endorsement can be found at the end of the list of required courses for each of the science areas.

Professional Education 43

Phase I		
LTC 1155	Orientation: Science Education	1
ESC_PS 2010 & ESC_PS 2014	Inquiry Into Learning I and Inquiry into Learning I - Field Experience	4
LTC 2040 & LTC 2044	Inquiring into Schools, Community and Society I and Inquiry into Schools, Community and Society: Field	4

Phase II		
LTC 4560	Reading and Writing in the Content Areas	3
LTC 4631 & LTC 4634	Teach.Sci.Second.Sch.:Phil.,Hist., Sci.Inq.,Curr., Assm., & Teach I and Teaching Middle and Secondary Science I Field	4

Special Education

Our mission is to prepare educators to work with children, youth and adults with disabilities to be academically and socially successful life-long learners. The department offers comprehensive degree programs that blend pedagogy and practices across developmental, specific content, and exceptionality to prepare educators to work with individuals at-risk and those with disabilities. In addition, the department offers comprehensive programs within exceptionalities, curriculum development for learners with disabilities, policy, and research across the lifespan.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Special Education (p. 407)
 - with emphasis in Cross Categorical Special Education (p. 407)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education (p. 18), professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

About Special Education Graduate Programs

We strive to prepare educators to assist children, youth and adults with disabilities to be academically and socially successful life-long learners. Our faculty are consistently recognized — internationally and across the U.S. — for their individual and collaborative teaching and research excellence. The department's unique mix of faculty expertise areas creates a wide range of opportunities for students and researchers. Special Education hosts or co-hosts several state and federally supported training, demonstration and research projects, including the following three centers that focus on facilitating positive developmental outcomes for children and youth with disabilities:

- Center for School-Wide Positive Behavioral Supports
- Center for Adolescent Research in Schools

- Thompson Center for Autism and Neuro-developmental Disorders

Areas of Study

Students pursuing a master’s degree may pursue course work in autism, behavior disorders, early-childhood special education, general special education (cross categorical), gifted education, learning disabilities or learning and instruction.

Doctoral student may study in areas such as administration and supervision of special education, behavior disorders, early-childhood special education, general special education (cross categorical), learning disabilities or developmental disabilities (cognitive impairments).

Careers

Undergraduate and graduate programs prepare teachers and leadership personnel in the field of special education. Program graduates assume roles as teachers in a variety of educational settings, as consulting teachers, college professors, researchers, school administrators and leaders in state and federal governmental agencies. Programs meet students’ needs and interests within the framework of the requirements of each specific degree and state certification guidelines.

Undergraduate

BSEd in Special Education

Major Program Requirements

Students are required to select the emphasis area in Cross Categorical Special Education (p. 407) for this degree. Refer to the emphasis are for degree requirements.

Semester Plan

For a sample plan of study refer to the semester plan designed for the emphasis in Cross Categorical Special Education (p. 407).

About Special Education's Master 's Degrees

The Master of Arts program emphasizes research and requires 33 hours. MA candidates must follow graduate school guidelines with respect to timeliness and committee formations and complete a thesis.

The Master of Education program requires 33 hours and a comprehensive examination or project.

Admission Criteria

Fall deadline: July 1
Spring deadline: November 1
Summer deadline: April 1

Minimum GPA: 3.0/4.0
Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	60

Minimum preferred GRE scores:

When did you take the GRE?	Verbal + Quantitative
On or After August 1, 2011	291 (V 150 + Q 141) / Analytic Writing 3.5
Prior to August 1, 2011	900

Faculty selection committees review applications for admission into the various graduate programs. Factors considered in the graduate student review process include previous academic course work and performance, GRE scores, letters of recommendation from professors or professional supervisors and relevant professional work experiences. The letter of intent is evaluated for advising purposes and is an indication of the applicant's motivation, professionalism and writing competencies.

Interviews with faculty are often arranged as part of the admissions review process.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Special Education Program:

- Departmental application
- Letter of intent and professional goals
- 2 letters of recommendation (form provided by department)
- GRE score report

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Degree Completion

The MA program emphasizes research and requires 33 hours. MA candidates must follow Graduate sSchool guidelines with respect to timeliness and committee formations and complete a thesis.

Retention

To remain in good standing in the master's program and earn a master's degree, each student must earn and maintain an overall grade point of 3.0 or higher in all required and elective course work each semester. If student's GPA falls below 3.0 for any semester, they will be dropped from the degree program. If students receive a grade of "C" in any core or required course, remedial activities will be required. Students must also complete course work assigned a grade of "I" prior to the end of the following semester.

Satisfactory Progress

For information on general progress guidelines and the dismissal policy, see the Special Education site.

MA in Special Education with Emphasis in Behavior Disorders

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Special Education program (<http://gradschool.missouri.edu/academics/programs/special-education>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate

School and the degree program to which you've applied before official admission to the University of Missouri.

Our department is no longer admitting students to the EdS program. We invite you to explore the other graduate degree options within the College of Education.

EdSp in Special Education with Emphasis in General

Our department is no longer admitting students to the EdS program. We invite you to explore the other graduate degree options within the College of Education.

EdD in Special Education

Admission Contact Information

Special Education sped@missouri.edu
 303 Townsend Hall; Columbia, MO 65211
 573-882-3742

Admission Criteria

Fall deadline: January 15
 Spring deadline: August 15

- Minimum GPA: 3.5/4.0
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	60

- Minimum preferred GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1000	
On or After August 1, 2011	297 (V153 + Q144)	4.0

Faculty selection committees review applications for admission into the various graduate programs. Factors considered in the graduate student review process include previous academic course work and performance, GRE scores, letters of recommendation from professors or professional supervisors and relevant professional work experiences. The letter of intent is evaluated for advising purposes and is an indication of the applicant's motivation, professionalism and writing competencies. Interviews with faculty are often arranged as part of the admissions review process.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Special Education Program:

- Departmental application
- Letter of intent and professional goals
- 3 letters of recommendation (form provided by department)
- GRE score report

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Plan of Study

The EdD program requires 72 hours beyond the requirements of the master's degree.

Qualifying Exam

Doctoral students must successfully pass a qualifying exam. This is given to assess the student's current knowledge of the field, their ability to synthesize professional literature, engage in professional writing practices, and orally present/discuss key issues within the field. This process is conducted by three faculty members and may be used to help define the student's plan of study.

Comprehensive Exam and Dissertation

Doctoral students must complete comprehensive exams, which have a written and oral component, which is constructed and evaluated by the student's doctoral committee in order to advance to "candidacy" status. A minimum of six hours of 9090 Research is required for the doctoral program in completion of the dissertation.

Satisfactory Progress

For information on general progress guidelines and the dismissal policy, see the Special Education site.

EdD in Special Education with Emphasis in Administration and Supervision of Special Education

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdD in Special Education program (<http://gradschool.missouri.edu/academics/programs/special-education/doctorate.php>) and the minimum requirements of the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

EdD in Special Education with Emphasis in General

The page for this program is still under construction and should be available in future editions of the catalog. For further information

concerning this degree, contact the School or College offering this degree.

Admissions

Educational Leadership and Policy Analysis
 202 Hill Hall
 573-882-8221
http://education.missouri.edu/ELPA/program_areas/degree_pages/policy_studies_certificate.php

The importance of education policy in U.S. society is evident in the attention it receives from scholars, politicians, media pundits, and citizens. Because nearly all citizens attend school for some part of their lives, they have ideas about what schools should accomplish and how they should be run. Education policy receives a great deal of attention from policy makers at all levels and in all branches of government.

Economically, public education (pre-K through higher education) constitutes a major part of the states' budgets, and a significant local investment as well. In addition, researchers gain new perspectives by comparing U.S. public schools with the private sector, which provides education to a significant number of students in many locales, as well as with schools in other nations. In academe, the study of education policy is an interdisciplinary endeavor, involving scholars from philosophy, political science, economics, sociology, history, public administration, journalism, and other fields.

The graduate certificate in Education Policy gives students access to a coherent set of courses that will enable them to understand this complexity. The certificate provides students with:

- Knowledge they can apply to the study of education policy within their major discipline or to their work in policy settings.
- Skills in analyzing education policy issues, i.e., understanding differing values, political and economic arguments, costs/benefits, and policy processes.
- Conceptual tools to use in understanding and resolving policy implementation problems.

Required Courses

Nine semester hours/three courses		
ED_LPA 7458	Sociology of Education	3
ED_LPA 9460	Philosophic Theory in Education	3
ED_LPA 9462	History of U.S. Education Policy	3

Elective Course

Three semester hours/one course, select one of the following:		
ED_LPA 9459	Comparative and International Education	3
ED_LPA 9463	Politics of Education	3
ED_LPA 9465	Policy Analysis Using Large Data Bases	3

Total Credits 12

Applications accepted anytime. For more information about this graduate certificate, contact the ELPA Department by phone at 573-882-8221 or by e-mail at elpagrad@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/education-policy-graduate-certificate/ed-policy-ge/Gedt.html>

Graduate Certificate in Elementary Mathematics Specialist

The EMS graduate certificate program includes five integrated mathematics content/pedagogy courses, each with an attached internship and two leadership development courses (total of 24 credits). The program is designed for inservice K-6 teachers interested in pursuing advanced learning experiences and training to increase their knowledge and skill to teach or lead others in teaching mathematics in elementary classrooms. That is, the program is designed for teachers currently working full time. The courses will be offered over a 2-year cycle beginning in the Fall semester (6 semesters of part-time student effort).

For information about certificate, contact Dr. Barbara Reys:
 Phone: 573-882-4406
 Address: 121 F Townsend
 email: reysb@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/elementary-mathematics-specialist/elem-math-ge/Gedt.html>.

Graduate Certificate in Higher and Continuing Education Administration

Contact Information

Department of Educational Leadership and Policy Analysis
 202 Hill Hall
 573-882-8221
http://education.missouri.edu/ELPA/program_areas/degree_pages/HACE_certificate.php

Due to multiple and growing demands upon the academy for quality control, accountability, and productivity, administration of higher education has become increasingly complex. The Graduate Certificate in Higher Education Administration is designed to address the need for enhanced understanding of the higher education institutional context and

for improved skills in areas required for effective administration of the higher education enterprise.

The Graduate Certificate in Higher Education Administration is designed to provide students with an overview of higher education administration and governance, and with some technical knowledge about various aspects of administration, e.g., finance, law, policy.

Required Courses

Six semester hours/two courses		
ED_LPA 9450	Administration and Governance of Higher Education	3
ED_LPA 9451	Higher Education Finance	3

Elective Courses

Six semester hours/two courses, select two of the following:		
ED_LPA 9444	Program Planning in Higher Education	6
ED_LPA 9446	Student Affairs Administration	
ED_LPA 9447	College Student Culture and Environment	
ED_LPA 9449	History of Higher Education in the United States	
ED_LPA 9452	Overview of Higher Education	
ED_LPA 9454	Introduction to Post-Secondary Law	
ED_LPA 9455	The Community College	
ED_LPA 9457	Higher Education Policy	

Total Credits 12

For more information about this graduate certificate, contact the ELPA Department by phone at 573-882-8221 or by e-mail at elpagrad@missouri.edu.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at <http://gradschool.missouri.edu/academics/programs/higher-and-continuing-education-administration-graduate-certificate/HACE-ge/Gedt.html>

Graduate Certificate in Multicultural Education

This certificate will provide the requisite awareness, knowledge and skill to effectively work with students and families from diverse cultural backgrounds and is ideal for teachers, counselors and administrators in P-12 school settings. By creating this online certificate, Mizzou is working to increase the number of qualified teachers and other school personnel who can serve diverse populations and prepare all students to function more effectively in society. The 15-hour certificate can be completed entirely online, but some students may choose electives that are offered on campus in Columbia, Mo.

Certificate web site: <http://mudirect.missouri.edu/degprog/ed-multicultural/>

For information about certificate, contact:
 Dr. Puncy Heppner
heppnerp@missouri.edu
 573-882-3523

Graduate Minor in Multicultural Psychology

As we enter the new millennium, the U.S. population is becoming more multiracial, multiethnic, and multilingual. Some estimate that by the year 2020, racial and ethnic minorities will become the numerical majority. This demographic shift has already occurred in specific contexts, such as K-12 schools in Los Angeles. Applied psychologists and educators have begun to develop competency standards for professionals to provide culturally relevant and effective services to our ever-changing population. In fact, multiculturalism has been identified as the fourth focus in counseling psychology. The purpose of the graduate minor in multicultural psychology and education would be to (a) expose graduate students to the growing theoretical and empirical research completed in the fields of multicultural psychology and education, (b) help graduate students develop multicultural competencies in research and practice, and (c) provide graduate students with training necessary to meet the psychological and educational demands of diverse populations.

The requirements for the minor are listed below.

- A minimum of 12 credit hours
- 9 credit hours must be taken as a graduate student at the University of Missouri
- No more than 6 credit hours should be listed in the masters or doctoral planner. That is, a maximum of 6 hours can overlap between the courses applied to the Minor in Multicultural Psychology and the courses applied toward a masters or doctoral degree.
- A minimum of 9 credit hours must be 8000 or above (graduate level)
- 6 credit hours must be taken within the core area with a foci on racial and ethnic minorities (see listing below)
- 3 credit hours must be taken in the auxiliary area (see listing below)
- 3 credit hours must be taken in the skills area (see listing below)

Core Courses

Must complete at least 6 credit hours from the following courses with a main emphasis on race/ethnicity in psychology and/or education		
ESC_PS 8580	Social and Cultural Identity Development	3
ESC_PS 8590	Multicultural Counseling Competencies: Theory and Research	3
ESC_PS 9000	Multicultural Issues in Counseling	3
Other racial/ethnic-focused graduate level courses in other departments, with pre-approval.		

Auxiliary Courses

Must complete 3 credit hours from the following courses emphasizing a wide range of diversity and social change issues.		
ESC_PS 8585	Gender Issues in Counseling and Education	3
ESC_PS 8990	Career Development Theory for Women	3
ESC_PS 8510	Medical and Psychological Aspects of Disability	3
ESC_PS 8540	Theory and Practice in Feminist Therapy	3
Other diversity issues and inequality in social systems graduate level courses in other departments, with pre-approval.		

Skill Courses

Must complete 3 credit hours from one of the options below.		
I. Research Skills *		
ESC_PS 8090	Master's Thesis in Educational, School, and Counseling Psychology	

ESC_PS 9090	Doctoral Dissertation Educational School & Counseling Psychology
II. Applied Multicultural Skills ^	
ESC_PS 8943	Practicum in Multicultural Counseling Interventions
Pre-approved Multiculturally-designated applied course (e.g. counseling practica, teaching practica, group counseling practica)	
Applied experience via community outreach programs, work placements in agencies, or extended volunteer experiences in community agencies.	
Multicultural Competency Portfolio to demonstrate awareness, knowledge and skill competencies, as approved by a Center Director.	
Consultation courses in organization or systemic changes including applied consultation activities, as pre-approved by a Center Director.	

* The scope and quality of the research project is expected to be of such a caliber that it could be submitted to a refereed journal in the student's discipline. The research project must be on a multicultural-related topic (i.e. issues related to race, sexual orientation, gender, and international concerns). Successful completion of this requirement will consist of approval of the project from a Director of the Center for Multicultural Research, Training and Consultation, or have an ESCP faculty affiliated with the Center on the committee with at least one committee member having expertise in multicultural issues.

^ The person must demonstrate competencies in working with diverse populations (with an emphasis on racial and ethnic minority populations).

Graduate Certificate in Online Educator

The Online Educator Graduate Certificate Program will equip individuals with the knowledge and skills needed to design and provide effective online learning experiences including:

- Designing online learning activities and assessments for meaningful learning
- Designing, facilitating, and evaluating online discussions
- Promoting student engagement and motivation in online learning environments
- Understanding unique characteristics of online learning environments
- Selecting appropriate technology tools and learning objects to support online learners
- Using Learning Management Systems to support and deliver online learning
- Seeking for and evaluating Internet-based information and resources that can be used to enhance online learning
- Organizing course materials in an online format

Certificate web site: <http://edtech.missouri.edu/oe>

For information about certificate, contact:

SISLT Student Services Coordinator
304 Townsend Hall
Columbia, MO 65211

Graduate Certificate in Positive Psychology

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the degree program (<http://gradschool.missouri.edu/academics/programs>) and the Graduate School (<http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Graduate Certificate in Teaching English to Speakers of Other Languages

The Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL) prepares English language teachers, English language program administrators, language testers, and educational materials writers to work in contexts where English is a foreign language (EFL contexts). The objectives of the certificate are to develop professionals with a) knowledge of the structure of the English language; b) an understanding of how languages are used and learned; and c) skills in designing and implementing pedagogical tasks to facilitate language learning. The certificate consists of 18 graduate credit hours divided among five core courses and one elective course.

Certificate web site: <http://online.missouri.edu/degreeprograms/ed-tesol/gradcertificate.aspx>

For information about certificate, contact:

College of Engineering

Administration

James E. Thompson, Dean
 W1025 Lafferre Hall
 (573) 882 4375
 thompsonje@missouri.edu

When engineering classes at the University of Missouri began in 1849, a strong tradition was born that continues to grow. Today, the College of Engineering includes the first electrical engineering department established west of the Mississippi River and the only industrial engineering program in Missouri. The college offers fully accredited degree programs in biological, chemical, civil, computer, electrical, industrial and mechanical engineering, along with computer science and information technology. All programs offer both undergraduate and graduate degrees. Naval Science is under the academic administration of the college as well. The hallmark of the College of Engineering is excellence in teaching and scholarly pursuits.

Mission

The College of Engineering will continuously improve the quality of its primary areas of responsibility—teaching, research and service. In so doing, the College:

- Provides engineering students and practicing professionals with the expertise and new knowledge required to solve society's complex technological problems
- Develops and utilizes enabling technologies for teaching, research, service and outreach
- Prepares students and practicing professionals to compete in a global economy
- Instills students with a commitment to life-long learning

Undergraduate

- Admissions (p. 419)
- Graduation Requirements (p. 421)
- Academic Regulations (p. 421)
- Student Services (p. 422)

Admissions

Direct Freshman Admission to Engineering

Entering freshmen are expected to have completed 17 units of approved high school course work (in grades 9-12), including 4 units in English, 4 in mathematics and 3 in science with laboratory. Mathematics should include 2 units of algebra, 1 unit of plane and solid geometry (combination course), and 1/2 unit of trigonometry. Additional senior mathematics is recommended.

For direct admission to the College of Engineering, the applicant must meet the qualifications listed below (these numbers are subject to change).

- ACT-Math of at least 24 AND
- ACT-Composite of at least 24 OR high school class rank in the upper 25 percent

The average ACT scores for first-time freshmen admitted to the College of Engineering for fall 2011 were ACT-Composite 28.1, ACT-Math 28.5 and ACT-English 27.4.

Pre-Engineering Program (PEP)

Freshmen who do not meet the criteria for direct admission to the College of Engineering are admitted initially into the Pre-Engineering Program. Although admitted to the College of Arts and Science, each PEP student receives advising by an engineering advisor.

PEP reduces freshman pressures while preserving alternatives. Because PEP students are enrolled in the College of Arts and Science, degree options in the College of Arts and Science are available to those who may decide to change their focus from engineering.

Most first-semester PEP students enroll in one preparatory math course and three courses in the College of Arts and Science, which count in both the engineering and arts and science degree programs. The prime objective is to strengthen math preparation sufficiently for success in engineering.

PEP students are eligible to transfer to the College of Engineering when they meet the following requirements:

- Satisfactory completion of 24 credits
- GPA of 2.0 or higher both Cumulative and last graded term
- A grade of C- or better in MATH 1500 Analytic Geometry and Calculus I or, for Information Technology students, MATH 1400 Calculus for Social and Life Sciences I
- Academic good standing

Declared and Undeclared Status

Freshmen engineering students will start in an undeclared status unless they meet criteria for direct departmental admission (see criteria below). Students admitted to the College of Engineering in undeclared status will work to complete a foundational curriculum consisting of math, science, and engineering courses. Upon completion of the foundational curriculum students will apply for entrance to available degree programs. The specific standards and capacity vary among the degree programs as necessary to align enrollments with educational resources.

Freshman and Transfer Admission Requirement

Bioengineering Department

Courses required before consideration for admission into Bioengineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
PHYSICS 2750	University Physics I
BIO_SC 1500	Introduction to Biological Systems with Laboratory (recommended)

Entrance requirements after completing courses for Bioengineering

Minimum Cumulative GPA of 3.0 in core courses (BIO_SC 1500 not required)
Minimum Cumulative GPA of 2.70
C- or higher in core courses (BIO_SC 1500 required with C- or above)

Chemical Engineering Department

Courses required before consideration for admission into Chemical Engineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
CHEM 1330	College Chemistry II
PHYSICS 2750	University Physics I
CH_ENG 1000	Introduction to Chemical Engineering

Entrance requirements after completing courses for Chemical Engineering

Minimum core GPA of 3.0 **

Civil and Environmental Engineering Department

Courses required before consideration for admission into Civil and Environmental Engineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
PHYSICS 2750	University Physics I
ENGLISH 1000	Exposition and Argumentation

Entrance requirements after completing courses for Civil and Environmental Engineering

Minimum core GPA of 2.50 *

Computer Science Department

Courses required before consideration for admission into Computer Science

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CMP_SC 1050	Algorithm Design and Programming I
CMP_SC 2050	Algorithm Design and Programming II
General Science Elective	

Entrance requirements after completing courses for Computer Science

Minimum cumulative GPA of 2.50

Information Technology Department

Admittance to Information Technology follows the standard MU admissions requirements

Electrical and Computer Engineering Department

Courses required before consideration for admission into Electrical and Computer Engineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
CMP_SC 1050	Algorithm Design and Programming I
ECE 1210	Introduction to Logic Systems

Entrance requirements after completing courses for Electrical and Computer Science

Minimum cumulative GPA of 2.75 *

Industrial and Manufacturing Systems Engineering Department

Courses required before consideration for admission into Industrial and Manufacturing Systems Engineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
PHYSICS 2750	University Physics I
ENGLISH 1000	Exposition and Argumentation

Entrance requirements after completing courses for Industrial and Manufacturing Systems Engineering

Minimum cumulative GPA of 2.75

Mechanical and Aerospace Engineering Department

Courses required before consideration for admission into Mechanical and Aerospace Engineering

MATH 1500	Analytic Geometry and Calculus I
MATH 1700	Calculus II
CHEM 1320	College Chemistry I
PHYSICS 2750	University Physics I
ENGLISH 1000	Exposition and Argumentation

Entrance requirements after completing courses for Mechanical and Aerospace Engineering

Minimum cumulative GPA of 2.75

* Additional students may be admitted to the departments based on core GPA and department capacity.

** Students who were probationary direct admits will return to "undeclared engineering" if they receive a B or lower in any of the listed core courses.

Undeclared students should discuss course selection with the academic advisor each semester to keep options open among departmental curricula.

To transfer from one department to another, students must submit an application to the new department. Admittance to the new department will be based upon the student's academic performance and departmental capacity. Students who transfer must satisfy the specific degree requirements of the new department.

Engineering Dean's Scholars Program

The purpose of the Engineering Dean's Scholars Program is to recognize, mentor and train the highest-achieving students in scholarship and leadership. Engineering Dean's Scholars participate in the Engineering Scholars Freshman Interest Group (FIG) which will be housed in Hudson or Gillett Residence Hall. Faculty-scholar lunches are held several times during the semester to allow the scholars to meet with engineering faculty and to learn about the engineering profession and undergraduate research opportunities.

Scholars participate in leadership or mentoring activities during their sophomore, junior and senior years. Examples of such activities include serving as engineering ambassadors or peer advisors for an engineering FIG. Students chosen for peer advisor positions have their room and board covered in exchange for their services.

Engineering Dean's Scholars are awarded a \$1000 scholarship in addition to the \$2000 Engineering Achievement Award and any other scholarships awarded. The Dean's Scholarship is renewable for up to eight semesters with 3.5 cumulative GPA at the end of each spring semester.

Students who have ACT math and composite scores of 32 and a high school rank in the top 10 percent of their class will be sent applications upon admission. Students who are close to these criteria may request an application by contacting the engineering dean's office at the address below. Consideration of students who do not meet the suggested minimum criteria will be contingent upon available space in the program. Applications are due February 1st.

Mizzou Engineering Dean's Scholars Program
W1025 Lafferre Hall
University of Missouri
Columbia, MO 65211

(573) 882-4092

Transfer Students

Students wishing to transfer to MU from an accredited college or university are subject to University regulations described in this catalog.

The MU College of Engineering cooperates with many colleges through articulation agreements that help pre-engineering students transfer to MU with maximum ease and minimum loss of credits. A student may take the first two years at the participating school and then transfer to MU for the junior and senior years in engineering. After the program is completed, the student is awarded a BS degree in the chosen engineering field.

Transfer students may be admitted to the College as undeclared or may start with a departmental affiliation. Eligibility to enter the College with a departmental affiliation is based upon the student's previous academic performance and department capacity.

Transfer students who enter the College as undeclared, are required to submit an application to enter a degree program. Admittance to the degree program is based upon previous academic performance and department capacity.

To be recommended for the BS degree from the College of Engineering, a student transferring from an accredited institution must complete at least 30 upper-level credits in the degree program at a UM System campus. At least 21 of the 30 credits must be upper-level engineering courses approved by the department awarding the degree.

A student transferring with senior standing from another UM System campus must complete the last 15 credits in residence on the campus where the degree program is located. Twelve of these 15 credits must be in engineering and approved by the department awarding the degree.

Any student whose enrollment in any college-level academic program resulted in dismissal, departure or who are on probation will not be admitted to the College of Engineering

International Admission

Admission of international students is determined on an individual basis by a committee of representatives from the Admissions Office and the College of Engineering.

Before registering for classes at the University, international students must take the MU English Language Test, developed for international students. Students passing the test are eligible to take ENGLSH 1000 and any other required English courses.

International students whose test scores indicate that additional English training is needed, including those with transferred English credit, are required to register for an English-language support class. The course, developed for international students, should be taken during the first semester of enrollment. This course does not count toward graduation credit, but regular attendance is required and failure to attend will result in dismissal. The English-language support class taken must be satisfactorily completed before the student can enroll in ENGLSH 1000. Students not satisfactorily completing the class in the first semester of enrollment must re-enroll in the second semester. If the student does not satisfactorily complete the English-language support class in the second term of enrollment, the student will not be permitted to re-enroll in the College of Engineering.

Graduation Requirements

The curriculum provides a solid foundation of mathematics and physical sciences followed by the application of these sciences in engineering specialties. The balance of the curriculum encompasses communication skills, English, social sciences and humanities courses.

Many freshmen are eligible to start with calculus. However, some can profit from additional pre-calculus preparation, which is an addition to the undergraduate curricula.

Students should access the engineering web site (<http://engineering.missouri.edu>) for details regarding social and behavioral sciences and humanities and fine arts requirements.

In addition to the University's general education and graduation requirements, the departments in the College of Engineering may require further specific courses to better equip students to perform in their chosen fields of study.

While many students complete the BS degree program in four years, some may find it advisable to extend the curriculum in order to carry lighter semester loads, add preparatory courses or compensate for part-time work.

GPA Requirements for Graduation from the College of Engineering

- GPA of record of at least 2.0
- GPA of at least 2.0 in all engineering courses offered by one of the four campuses of the UM System. "Engineering courses" include all courses that are offered through the College of Engineering or its equivalent on the four campuses, or that have "Engineering" in the curricular designator. Only the last grade in a repeated course will be used in the calculation.

Academic Regulations

Degree with Honors Requirements

Latin Honors are granted to students who meet the following cumulative GPA requirements:

Latin Honor	GPA
summa cum laude	3.9
magna cum laude	3.7
cum laude	3.5

Departmental Honors

The college maintains an undergraduate honors program to further challenge those who have established a minimum GPA of 3.0 at the beginning of the junior year. A comparable grade point average is required of transfer students. The program leads to an undergraduate honors thesis on a research or advanced design project, provides for additional curricula flexibility and contains features that ease the transition to graduate school.

Opportunities available to honors students include:

- More personal attention from an honors advisor
- Independent study or undergraduate research with a senior faculty member whose specialty interests the honors candidate

A student who successfully completes the engineering honors program, including the independent project, will be designated an "Honors Scholar

in Engineering." Interested students should contact their departmental office.

Qualified engineering students are also welcome to join the programs of the Honors College and may enroll in various honors courses and honors sections of regular courses.

Courses in Basic Skills

No basic skills courses may be taken to fulfill graduation requirements.

Curriculum of Record

The curriculum of record is the curriculum a student must satisfy to meet graduation requirements. For students who maintain continuous, full-time enrollment, the curriculum of record is the one approved by the College of Engineering at the time the student achieves upper-division status in the discipline of choice. For others, the curriculum of record is decided by the department faculty.

Academic Probation and Dismissal

1. A student whose term and cumulative UM GPA are 2.0 or higher is in good academic standing. A "term" is defined as a semester or summer session.
2. A student will be placed on academic probation if while in good academic standing the student has a term GPA less than 2.0 but equal to or greater than 1.0.
 - While on academic probation, a student must enroll in and complete each semester at MU at least 12 credits of course work necessary for the degree. Courses taken through MU's Mizzou Online (self-paced) count as part of these 12 credits. Part-time students must enroll in at least as many credits each semester as the college rules governing part time enrollment.
 - A student will be removed from probation at the end of the term when the term and cumulative GPA are 2.0 or higher, provided the student completed 12 or more hours applicable toward the degree
 - A student will be continued on probation if while on probation the student has a term GPA greater than or equal to 2.0, but whose cumulative GPA is below 2.0.
3. A student will be dismissed from the College of Engineering if the student:
 - Receives a term GPA of less than 1.0
 - Receives a term GPA of less than 2.0 while on probation.
 - Fails to complete at least 12 credit hours toward their Engineering degree program while on academic probation.
4. Readmission:
 - If the appeals committee allows a student to re-enroll, it may set conditions such as courses to be taken, minimum grades, total hours, etc to which the student must adhere.
 - A student who has been dismissed for academic reasons may be readmitted upon a successful appeal to the academic appeals committee of the college. Students who are subject to dismissal (IE) and who wish to appeal their case for continuation must write an appeal letter and submit it to the academic appeals committee.
 - Similarly, students who wish to re-enroll in the college of Engineering after having been out of school as a result of a dismissal must write a letter of appeal to the College

of Engineering academic appeals committee requesting readmission.

- Letter of appeal may be addressed to: Engineering Academic Appeals Committee, W1025 Lafferre Hall, University of Missouri, Columbia, MO 65211. A personal visit with the director of undergraduate studies of the students department and advisor before appealing by letter is often helpful, both to the student and to the committee.
 - The primary concern of the appeals committee is the likelihood of future success. Accordingly, any appeal should include an explanation for past poor performance and reason for expecting better in the future.
5. A student who has been twice dismissed will normally be ineligible for readmission.

Satisfactory/Unsatisfactory Grading Option

Under Satisfactory/Unsatisfactory (S/U) grading, an S is assigned for a grade in the A, B or C range, and a U is assigned for a grade in the D range or for an F. Neither an S nor a U will be calculated into a student's grade point average. A student enrolled in the College of Engineering may not take any math, science or engineering course that counts toward degree requirements under the S/U grading option, unless the course is only offered S/U. In addition, any course specifically required (by course number) in the curriculum may not be taken S/U. This includes ENGLSH 1000 or ENGLSH 1000H. The 18 credits taken to fulfill the University general education distribution requirement may be taken S/U.

Restrictions

- First-semester freshmen are ineligible to take any course S/U unless it is only offered S/U.
- Only one course per semester may be taken S/U.
- Students on academic probation are not allowed to take any course S/U.
- To be eligible for the Dean's List each term, a student must complete 12 graded credits (S/U courses are not considered "graded").

Student Services

Advising

Each student in the College of Engineering is assigned an advisor who assists the student in reaching academic and professional goals. Students are encouraged to meet with their advisors as often as needed. Engineering students have advising holds placed on their accounts each semester and must meet with their advisor to have the hold lifted in order to enroll each semester.

Diversity in Engineering Program

The Diversity in Engineering Program (DEP) supports increased enrollment and graduation rates among students from underrepresented minority groups in the College of Engineering. The DEP office provides student programming designed to create a user-friendly environment for students pursuing a degree in engineering from the University of Missouri. This effort includes models for successful outreach, recruitment, early research experience, counseling, undergraduate retention, academic enrichment, mentoring and information about graduate study.

DEP provides a support network between students, faculty, and staff to ensure academic success through programming ranging from free tutoring to time management and study skills sessions. Career

information sessions, resume review, and mock interviews are also provided to ensure professional preparedness. DEP also offers outreach opportunities for students to interact with the local community that include tutoring, mentoring, and giving presentations to local elementary, junior high and high school students.

Learning Communities

The college cosponsors several living/learning options for engineering students. The college believes that an environment conducive to the formation of networks, with aspects of social and academic interaction, enhances the retention and ultimate success of students in the engineering curriculum. Students selecting these options generally earn higher grades and are more likely to graduate than the average engineering student.

The Engineering Learning Community (ELC) is a special co-ed environment that offers engineering majors a full range of academic support and activities. ELC allows engineering students to live together, study together and have fun together. Freshman Interest Groups (FIGs) support incoming freshmen. Members of a FIG are co-enrolled in three courses during the first semester of the freshman year with a group of up to 20 students. Each community has its own computer lab, peer tutors, study groups and quiet hours.

Professional Engineering Registration

The revised statutes of Missouri (Section 327.221) require that each applicant for registration as a professional engineer in Missouri must be a graduate of and hold a degree in engineering in a curriculum accredited by the Accreditation Board for Engineering and Technology. The MU undergraduate programs in biological, chemical, civil, computer, electrical, industrial and mechanical engineering, and computer science at MU are so accredited.

Senior students are strongly encouraged to take the Fundamentals of Engineering Exam leading to the Fundamentals in Engineering (FE) status as a first step toward registration.

The MU undergraduate programs in biological, chemical, civil, computer, electrical, industrial and mechanical engineering, and computer science are accredited by the Engineering Commission of ABET, www.abet.org (<http://www.abet.org>).

Naval Reserve Officers Training Corps (NROTC)

NROTC was established in 1926 to offer college students the necessary naval science courses to qualify for commissions in the Navy or Marine Corps Reserve. Today, NROTC is one of the primary accession sources of officers for the Navy and Marine Corps.

Scholarship NROTC midshipmen incur no military obligation during their freshman year. This allows students to get a better understanding and appreciation of the life of a Navy or Marine Corps officer. Navy NROTC graduates incur a minimum five years military obligation. Marine NROTC graduates incur a minimum four year military obligation. The two-year NROTC program is designed for transfer students and for MU students who did not participate in NROTC during the first two years. MU also offers a Minor in Naval Science (p. 482).

Navy students should major in a technical course of study while marine students may major in any course of study leading to a baccalaureate degree. Academic credit for naval science courses is accepted toward a baccalaureate degree by most MU schools and colleges. Midshipmen

take one naval science course for credit each semester, which provides education and training in various aspects of the Navy or Marine Corps. Associated with each course is a leadership laboratory. NROTC activities include water survival, self-defense, physical fitness, orienteering, aviation, nuclear power indoctrination, pistol/rifle marksmanship and a variety of field trips. Upon graduation, midshipmen are commissioned as Ensigns in the Navy or Second Lieutenants in the Marine Corps.

For additional information, contact:
Department of Naval Science
105 Crowder Hall

Graduate

The University of Missouri began offering engineering classes in 1849. By 1877, a College of Engineering was established and by the 1890's, students could pursue master's and doctoral degrees. Today, the College offers graduate degrees in nine disciplines to 500+ domestic and international students.

Graduate engineering programs include

- Biological Engineering
- Chemical Engineering
- Civil & Environmental Engineering
- Computer Science
- Electrical & Computer Engineering
- Industrial Manufacturing & Systems Engineering
- Information Technology
- Mechanical & Aerospace Engineering
- MU Informatics Institute
- Nuclear Engineering

Mizzou engineering sustains a variety of research centers, programs, groups and facilities along with other departmental groups that are designated as areas of exemplary expertise and success. The college contributes significantly to MU's overall annual research and development spending. The College also offers exceptional business opportunities to corporations, small businesses and start-ups.

Note: Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Biological Engineering

TanJ@missouri.edu

Recognizing the immense promise of bioengineering and the unique position of Mizzou for a strong bioengineering program, the College of Agriculture, Food and Natural Resources (CAFNR) and the College of Engineering (CoE) joined forces to form the Department of Bioengineering* (BE).

Bioengineering unites existing faculty and infrastructure from both colleges. CoE contributes biomedical engineering capabilities while CAFNR brings strengths in bioprocess and bioenvironmental engineering.

*The Department of Biological Engineering became Bioengineering in 2013. Courses and degree programs are still listed as Biological Engineering at this time.

Faculty

Primary Faculty

Professors K. D. Gillis**, S. A. Grant**, F. H. Hsieh**, J. Tan**, A. L. Thompson**, G. Yao**

Associate Professors S. Ding**, S. C. Borgelt*, L. Gu**, W. A. Jacoby**, R. Kannan**, J. C. M. Lee**, S. Sengupta**

Assistant Professors C. Costello, H. Hunt*, F. M. Pfeiffer*

Affiliated Faculty

Professors D. Brune**, C. S. Cutler*, M. Davis**, M. W. Downs*, G. Forgacs**, S. Gangopadhyay**, M. Hill**, T. Hwang**, K. V. Katti**, M. L. Katz**, A. McClellan**, G. Meininger**, S. Nair**, E. J. Sadler*, L. G. Schumacher*, S. Segal*, K. A. Sudduth**, G. Suppes*, J. Viator**, E. Vories*

Associate Professors D. E. Baker*, T. M. Guess**, A. Bulent Koc**, J. W. Kwon*, H. Li*

Assistant Professors M. Bernards*, P. V. Cornish**, T. T. Lim*, L. A. Martinez-Lemus**, L. Polo-Parada**, R. A. White*, J. Zulovich*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Biological engineering is a science-based engineering discipline that integrates engineering and biological sciences in one curriculum. The MU biological engineering program is a broadly-based curriculum that prepares students for careers in three areas:

- Biomedical engineering (including pre-medicine)
- Bioprocess engineering
- Bioenvironmental engineering

Biological engineering graduates are hired by biotechnology, medical, pharmaceutical, food and agricultural companies, and by government agencies. Some attend graduate and medical schools. Graduates are well prepared to take the Fundamentals of Engineering exam during their senior year, which is the first step toward obtaining a Professional Engineer license.

The Bachelor of Science with a major in Biological Engineering (BS BE) program at MU is accredited by the Engineering Commission of ABET, www.abet.org (<http://www.abet.org>). The biological engineering curriculum was developed to meet the mission, program objectives and student outcomes described below.

Mission and Objectives

The department mission is to educate biological engineers to integrate engineering and biological sciences in the contexts of health, sustainability and environmental stewardship, thus preparing them for productive careers characterized by continual professional growth.

Program Educational Objectives

The undergraduate program leads to a Bachelor of Science degree in Biological Engineering, producing graduates who will, within 3-5 years:

1. Show proficiency in engineering analysis, design and development.
2. Interact effectively with life science and other professionals.
3. Integrate biological and engineering sciences for the design and development of innovative systems and processes for improved health, bio-resource utilization, and environmental protection.
4. Exhibit professionalism as they continually add value to their chosen field of endeavor.
5. Succeed in advanced study in engineering, medicine or veterinary medicine, if pursued.

Student Outcomes

By the time of graduation, Biological Engineering students will possess:

- a. An ability to apply knowledge of mathematics, science and engineering;
- b. An ability to design and conduct experiments, as well as to analyze and interpret data;
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d. An ability to function on multi-disciplinary teams;
- e. An ability to identify, formulate and solve engineering problems;
- f. An understanding of professional and ethical responsibility;
- g. An ability to communicate effectively;

h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;

i. A recognition of the need for, and an ability to engage in, life-long learning;

j. A knowledge of contemporary issues;

k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice;

l. An ability to integrate engineering and biological sciences to develop systems and processes for improved health, bio-resource utilization, and environmental protection.

Exploratory Course

Students who want to learn more about the field should take BIOL_EN 1000 Introduction to Biological Engineering.

- MS in Biological Engineering (p. 426)
- PhD in Biological Engineering (p. 427)

About Biological Engineering

Recognizing the immense promise of bioengineering and the unique position of MU for a strong bioengineering program, the College of Agriculture, Food and Natural Resources (CAFNR) and the College of Engineering (CoE) joined forces to form the Department of Biological Engineering (BE). BE unites existing faculty and infrastructure from both colleges. CoE contributes biomedical engineering capabilities while CAFNR brings strengths in bioprocess and bioenvironmental engineering. Biological engineering confers both masters and doctoral degrees to students who satisfy the general requirements of the Graduate School and the specific requirements for the masters degree and the doctoral degree of the Department of Biological Engineering. A Biomechanics Proficiency Area has recently been added.

Master in Engineering

A student may also choose to complete a Master of Engineering (p. 460) degree with a focus in Biological Engineering. See the Master of Engineering page for requirements (p. 460).

Thesis Research and Funding

Research assistantships are available to qualified graduate students. Thesis research may emphasize bioprocessing, biomedical engineering, environmental engineering or precision agriculture. Laboratories are well equipped for research in biomaterials, biomedical optics, bioprocessing, biosensors, computer vision, electrophysiology, food extrusion, properties of biological and food materials, process control, GIS, precision agriculture, water quality, wetlands, chemical application technology, soil physics, hydrology and renewable energy.

Undergraduate

BSBE in Biological Engineering

Major Program Requirements

The curriculum encompasses basic sciences, social and behavioral sciences, humanities and fine arts, engineering sciences and topics, and program core courses. The core courses cover topics of biological engineering principles and design. In a capstone design course, each student completes a design project under the direction of a faculty advisor. Technical electives allow students to place emphasis on biomedical, bioprocess or bioenvironmental engineering. The requirements listed below are in addition to University general education (p. 18) requirements.

Major Core Requirements

Math and Statistics		19
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4100	Differential Equations	3
Statistics (from approved list)		3
Basic sciences		28
PHYSICS 2750	University Physics I	5
PHYSICS 2760	University Physics II	5
CHEM 1320	College Chemistry I	4
CHEM 2100	Organic Chemistry I	3
BIOL_SC 1500	Introduction to Biological Systems with Laboratory	5
Biology and related science (from approved list)		6
Basic Engineering		14
ENGINR 1100	Engineering Graphics Fundamentals	2
ENGINR 1200	Statics and Elementary Strength of Materials	3
ENGINR 2200	Intermediate Strength of Materials	3
Fluid Mechanics (from approved list)		3
Thermodynamics (from approved list)		3
Biological Engineering		19
BIOL_EN 1000	Introduction to Biological Engineering	1
BIOL_EN 2000	Professional Development in Engineering	2
BIOL_EN 2080	Introduction to Programming for Engineers	3
BIOL_EN 2180	Engineering Analysis of Bioprocesses	3
BIOL_EN 3180	Heat and Mass Transfer in Biological Systems	3
BIOL_EN 4380	Applied Electronic Instrumentation	4
BIOL_EN 4980	Biological Engineering Design	3
Technical electives		24
Upper-level engineering courses with 12 credits in a technical emphasis.		24

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
BIOL_EN 1000	1 ENGLISH 1000	3
MATH 1500	5 MATH 1700	5
CHEM 1320	4 BIO_SC 1500	5

 Columbia, MO 65211-5160
 573-882-4113

Admission Criteria

- Fall deadline: N/A
- Minimum GPA: 3.0 in the last 60 hours
- BS in engineering from an accredited university or equivalent experience
- Minimum Academic IELTS score:

Item	Score
OVERALL	6.0

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	1100	4.0
On or After August 1, 2011	301	4.0

Required Application Materials

Prospective students first contact JoAnn Lewis in the BE department to receive instructions on the documents needed for a complete application packet.

To the Graduate School:

- All required Graduate School documents
- Official transcripts
- TOEFL scores
- GRE scores

To the Master's BE Program:

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Graduation Requirements: Master of Science and Master of Engineering in Biological Engineering

Students without a BS in engineering will be required to complete additional courses in mathematics, basic sciences and engineering science. Students with engineering degrees other than biological engineering should meet certain proficiency requirements.

The Biological Engineering Program requires a minimum of 36 semester hours beyond the baccalaureate degree for the ME and MS non-thesis (MSNT) degrees and a minimum of 30 semester hours for the MS thesis (MST) degree. If approved by the student's Master's Program Committee, this may include up to six hours of graduate credit transferred from another university or from another campus of the MU system.

In general, the Graduate School does not accept correspondence or extension course credit earned at any other campus. However, a student may take up to eight hours of correspondence courses that are authorized for graduate credit and offered through Mizzou Online. Courses to be taken for graduate credit must be approved by the Graduate Dean, and the enrollment form has a place designated for the Graduate Dean's signature. See online.missouri.edu for more information on distance education opportunities.

As a minimum, the Master's Program of Study should include the following:

BIOL_EN 8402 Research Methods (2 s.h.)

BIOL_EN 8087 Seminar in Biological Engineering (1 s.h.)

Statistics (3 credits)

BIOL_EN 8990 Masters Thesis Research in Biological Engineering (3 credits maximum for ME and MSNT degrees and 6 credits minimum for MST degree)

Two to four 8000 level courses (two for MST degree, three for MSNT degree and four for ME degree), at least 6 credit hours must come from Biological Engineering. Readings or Problems cannot be used to satisfy this requirements.

Additional hours may come from Biological Engineering courses numbered 7000 or above or courses from other MU departments numbered 7000 or above. Classes chosen to fill the plan of study may include those needed to fulfill proficiency areas if they are taken for graduate credit. Other courses should be chosen to strengthen the student's ability to do research in their specific area.

PhD in Biological Engineering

- GRE scores

To the Doctoral BE Program: Contact JoAnn Lewis

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Degree Requirements Doctoral Degree in Biological Engineering

Within the first year in the program, each PhD student must pass a qualifying examination before continuing enrollment. The exam is designed to test the student's ability to undertake advanced learning and carry out independent research. A doctoral candidate must complete a minimum of 72 credit hours of course work beyond the BS degree with a minimum of fifteen hours (exclusive of research, problems or independent study courses) at the 8000 (graduate) level, including at least three BE courses. In addition, there will be a minimum of one hour of Seminar (BIOL_EN 8087) and research (BIOL_EN 9990) may not exceed 28 hours of the total 72 hours required in the PhD Program of Study. The courses and research plan must be approved by the doctoral program committee. The student is required to pass a comprehensive examination, which includes both written and oral components. The student must demonstrate his or her ability for in-depth research by presenting and successfully defending a dissertation embodying the results of original research. A foreign language is not required.

Chemical Engineering

Baolin Deng, Chair

Chemical Engineering at the University of Missouri focuses on education and research involving industrial chemicals, materials, environmental, and life-science processes. We aim to be a reservoir of talent for the research, design, and management of complex process challenges. The Department strives to provide its faculty and students with an environment for research, learning, and professional growth.

The faculty of the MU Department of Chemical Engineering prepares its students for careers in a broad range of fields and to assume leadership roles in society through a well-rounded general and rigorous technical education. The technical curriculum challenges students with a broad education in Chemical Engineering theory and practice, and to improve their skills in problem solving, critical thinking, and appreciation of the relationship between technology and society. Innovative development and use of technology facilitates both research and teaching, creating a diverse, learning environment.

MU Chemical Engineering program aims to develop versatile professionals who can excel in a variety of career environments. Our curriculum is focused on the basic sciences, engineering topics, and problem solving and design. A flexible program offering environmental, material, and biochemical options allows our graduates to move into non-traditional careers as well as traditional chemical engineering. Additionally, we build teamwork and design skills by integrating team design projects, laboratories, and reports into our curriculum.

Faculty

Professor B. Deng, T. R. Marrero**, P. J. Pinhero**, G. Suppes**

Adjunct Professor J. M. Gahl**, S. J. Lombardo**

Associate Professor P. C. H. Chan*, D. G. Retzlaff*, Y. Xing*

Adjunct Associate Professor W. A. Jacoby*

Assistant Professor S. Baker**, M. Bernards**

Associate Teaching Professor M. A. Myers

Research Assistant Professor V. Likholetov

Professor Emeritus R. K. Bajpai*, M. deChazal, R. H. Luecke*, T. S. Storvick*, D. S. Viswanath*, H. K. Yasuda*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

The educational objectives of the Chemical Engineering program at the University of Missouri are to prepare graduates who, after the first five years of their professional career, have:

1. Established themselves as practicing professionals through increased responsibilities beyond their original entry-level position, or if engaged in post-baccalaureate study are making timely progress towards an advanced degree;
2. Continuing education through special training, professional licensure, or additional certifications; and
3. Participation in professional extension through mentorship, community activities, and/or serving local/national professional societies.

Some of our graduates work in the traditional areas of chemical engineering such as the petroleum and chemical industries. Many graduates practice their profession in the areas of microelectronics, pharmaceuticals, materials, polymers, environmental protection, consumer products, or as managers in business, government careers, and engineering consultants. Still others use the chemical engineering degree as a foundation for pursuing advanced studies in medicine, law, business, or the basic sciences.

Exploratory Course

A student wanting to explore chemical engineering as a major should take CH_ENG 1000 Introduction to Chemical Engineering.

About Chemical Engineering

Established in 1906, MU Chemical Engineering has a long standing commitment to provide quality undergraduate and graduate education. Our department serves the discipline well by providing state of the art research in many cutting edge fields including batteries, biochemical engineering, biomaterials, carbon, ceramics, catalysis, corrosion, electrochemistry, environmental sciences, ionic liquids, materials science, computational modeling & simulation, nanomaterials, nuclear materials, polymers, separations, solar energy, and surface science.

Career Opportunities

The Chemical Engineering program develops versatile professionals who can excel in a variety of career environments. Our curriculum is focused on the basic and applied sciences, engineering topics, and problem solving and design. Our flexible program allows our graduates to move into traditional as well as non-traditional chemical engineering careers. Additionally, we build research and development skills by integrating research, scientific inquiry, and critical thinking into our curriculum.

Some of our graduates work in the traditional areas of chemical engineering such as the petroleum and chemical industries. Many graduates practice their profession in the areas of microelectronics, pharmaceuticals, materials, polymers, environmental protection, nuclear engineering, consumer products, or as managers in business, government careers, and engineering consultants. Still others enter into careers in academia.

Faculty Research

Currently active research areas include batteries, biochemical engineering, biomaterials, carbon, ceramics, catalysis, corrosion, electrochemistry, environmental sciences, ionic liquids, materials science, computational modeling and simulation, nanomaterials, nuclear materials, polymers, separations, solar energy, and surface science.

Facilities and Resources

There are excellent facilities for research students, including electron microscopy, ultra-high vacuum (UHV surface science, atomic force microscopy, a heterogeneous catalysis and reaction kinetics laboratory, a heat and mass transport laboratory, an air pollution monitoring and control laboratory, a biochemical engineering laboratory, a computational laboratory, and a transport properties phenomena laboratory. Excellent library facilities provide the latest domestic and international journals specific to chemical engineering and physical sciences research.

Internal Funding

Research and teaching assistantships are available to qualified students for the entire year. The yearly stipend for graduate students ranges from \$17,500 to \$20,000, with a tuition waiver, depending on the student's terminal degree. Assistantships also include a tuition waiver and health insurance. Academically qualified students may receive additional scholarship awards. Grant research assistantships and some industrial and Graduate School fellowships may also be available. Extremely well-qualified students may be eligible for the Robert and Dorcas Holtzsmith Graduate Fellowship.

RA and TA appointments allow for 12 credit hours of advanced study each semester. The applicant's academic record and research potential determine the financial assistance offered. Students who receive financial assistance are expected to continue their appointment during the summer session as well, as these appointments are year long positions.

Undergraduate

BSchE in Chemical Engineering

Major Program Requirements

Each graduate must complete the required curriculum designed to demonstrate knowledge and integration of chemical engineering science and practice using analytical, computational and experimental techniques. In addition, each graduate must have a comprehensive background in advanced chemistry. Graduates have a detailed working knowledge of the entire spectrum of chemical engineering activities.

All requirements listed below are in addition to University graduation requirements, including University general education (p. 18), and College of Engineering requirements. Students are also required to complete emphasis area requirements.

Major core requirements

Required entry-level courses

MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4100	Differential Equations	3
PHYSICS 2750	University Physics I	5
PHYSICS 2760	University Physics II	5
CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4
CHEM 2100	Organic Chemistry I	3
CHEM 2110	Organic Chemistry II	3
CHEM 2130	Organic Laboratory I	2
CHEM 3200	Quantitative Methods of Analysis with Lab	4
Approved statistics elective		3

Chemical engineering core

CH_ENG 1000	Introduction to Chemical Engineering	2
CH_ENG 2225	Mass and Energy Balance	3
CH_ENG 2226	Engineering Process Computations and Laboratory	3
CH_ENG 3234	Principles of Chemical Engineering I	4
CH_ENG 3235	Principles of Chemical Engineering II	3
CH_ENG 3243	Chemical Engineering Laboratory I	3
CH_ENG 3261	Chemical Engineering Thermodynamics I	3
CH_ENG 3262	Chemical Engineering Thermodynamics II	3
CH_ENG 4363	Chemical Reaction Engineering and Technology	3
CH_ENG 4370	Process Control Methods and Laboratory	3
CH_ENG 4385	Chemical Engineering Design I	3
CH_ENG 4980	Process Synthesis and Design	3

Graduate

MS in Chemical Engineering

Degree Requirements

An individual program of a minimum of 30 semester hours is required and includes seminars, advanced courses in chemical engineering, physical and chemical sciences, mathematics and research. No foreign language or collateral field is required.

21 course credit hours. – M.S. students must complete 21 hours in CH_ENG coursework, which **MUST INCLUDE** at least one course in each of the following Chemical Engineering areas: **Transport Phenomena, Kinetics, Thermodynamics, Mathematics**

1 seminar credit hour – M.S. students must complete CH_ENG 8087

8 credit hours – Other coursework, including research. Your graduate advisor will help you choose your individual plan of study.

30 total credit hours

Sample Plan of Study

Because students in the Chemical Engineering program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

A thesis is required and a candidate will complete the master's program by passing an examination in defense of the thesis.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the M.S. in Chemical Engineering program (<http://gradschool.missouri.edu/academics/programs/chemical->

engineering/master-of-science-in-chemical-engineering) and the minimum requirements of the Graduate School (<https://gradschool.missouri.edu/admissions/apply>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Application Deadlines

- Fall Deadline: March 15
- With change of degree within MU: May 15
- Spring Deadline: October 15
- With change of degree within MU: November 1

Required Application Materials

Chemical Engineering Program

- Resume
- Transcript
- Statement of Purpose
- 3 Letters of Reference
- GRE scores (School Code: 6875; Dept. Code: 1001)
- TOEFL (if you are an international student)
- Any additional documents requested by the Graduate School

PhD in Chemical Engineering

Degree Requirements

An applicant for the Ph.D. program must take a qualifying examination and a comprehensive examination. Twenty-one semester hours of course work beyond the MS degree is required.

An individual program of a minimum of 72 credit hours is required and includes seminars, advanced courses in chemical engineering, physical and chemical sciences, mathematics and research. No foreign language or collateral field is required.

42 course credit hours. – Ph.D. students must complete 42 hours in CH_ENG coursework, which **MUST INCLUDE** at least 15 credit hours in courses numbered 8000+ and at least one course in each of the following Chemical Engineering areas: **Transport Phenomena, Kinetics, Thermodynamics, Mathematics**

2 seminar credit hours – CH_ENG 8087

28 credit hours – Other coursework, including research. Your graduate advisor will help you choose your individual plan of study.

72 total credit hours

Sample Plan of Study

Because students in the Chemical Engineering program are from a wide variety of circumstances, and pursue the Ph.D. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Comprehensive Examination Process

Before being admitted to candidacy and proceeding to prepare a dissertation, the student must pass a comprehensive examination. The exam involves a project to be completed within a 30-day period, requiring

original and creative work in delineating a research problem of some substance.

Dissertation Requirements

A dissertation is required of all candidates. A final oral examination will be held where the candidate defends their dissertation.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the Ph.D. in Chemical Engineering program (<http://gradschool.missouri.edu/academics/programs/chemical-engineering/doctorate-in-chemical-engineering>) and the minimum requirements of the Graduate School (<https://gradschool.missouri.edu/admissions/apply>). Because requirements vary, you *must* refer to a degree program's graduate admission page to learn about specific admission criteria, eligibility and application process. Civil Engineering

M. R. Virkler, P.E., Chair
College of Engineering
E2509 Laffer Hall
(573) 882-6269
<http://www.civil.missouri.edu>

Civil engineering is about community service, development, and improvement. Civil engineers are involved in all levels of the planning, design, construction, and operation of facilities essential to modern life, ranging from infrastructure development and maintenance, waste disposal, transit systems, water supply and treatment systems, and offshore energy exploration structures. Civil engineers are problem solvers, meeting the challenges of pollution, traffic congestion, drinking water supply and energy needs, national security, communication, urban redevelopment, and sustainable community planning.

Faculty

Professor J. J. Bowders Jr*, P.E., Z. Chen**, P.E., T. E. Clevenger*, B. Deng**, V. S. Gopalaratnam*, P.E., S. A. Kiger*, P.E., M. R. Virkler*, P.E.

Associate Professor Z. Hu**, W. J. Likos**, J. E. Loehr, P.E., B. L. Rosenblad**, H. A. Salim**, P.E., C. C. Sun**, P.E., K. M. Trauth**, P.E., G. A. Washer**, P.E.

Assistant Professor P. K. Edara**, P.E., E. C. Inniss*, T. C. Matisziw**, S. L. Orton#, P.E.

Research Associate Professor R. E. Reed*, P.E., X. Yu

Adjunct Faculty D. P. Gwaze*, R. D. Hammer, C. J. Nemmers* P.E., V. Pattarkine, R. Surampalli, C. Yarnell

Professor Emeritus S. K. Banerji*, R. D. Hammer, J. B. McGarraugh*

Emeritus Faculty R. T. Douty, D. L. Guell

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSCiE in Civil Engineering (p. 434)

The Department of Civil and Environmental Engineering offers a Bachelor of Science in Civil Engineering (BSCiE). Most graduates take the Fundamentals of Engineering Exam. Graduates are encouraged to become registered professional engineers and to continue their education throughout their careers.

Departmental Honors

Students who will graduate with a 3.0 GPA or higher are eligible for the College of Engineering honors program. Interested students should ask their advisor for details about this highly rewarding program that can include earning a salary for research performed under the guidance of a faculty member.

Educational Mission

The educational objectives of the Bachelor of Science in Civil Engineering describe the expected accomplishments of graduates during the first 5 to 6 years after graduation. It is expected that nearly all students completing the requirements of the Bachelor of Science in Civil

Engineering will engage in the life-long learning necessary to advance professionally in the field of civil engineering and contribute to society and the profession through involvement in professional or other service activities.

It is expected that most graduates will

1. Enter the profession of civil engineering with proficiency in environmental engineering, geotechnical engineering, structural engineering, transportation engineering and water resources engineering. In doing so, these students will
 - a. Take and pass the Fundamentals of Engineering exam
 - b. Gain employment as an engineer-in-training
 - c. Take and pass the Professional Engineers Exam, and
 - d. Be licensed to practice engineering in one or more states

It is expected that some graduates will

1. Begin careers in civil engineering-related industries, especially construction and other careers not requiring professional licensure
2. Begin and complete graduate study in civil engineering at MU or other Carnegie doctoral extensive universities, and
3. Begin and complete graduate/professional study in other associated fields

The following list of outcomes describes what graduates are expected to know and to be able to do when they complete the program. At graduation, graduates will have:

- a. Ability to apply knowledge of mathematics through differential equations, probability and statistics, calculus-based physics, geology and general chemistry to civil engineering problems
- b. Ability to conduct laboratory experiments and to critically analyze and interpret experimental data related to soil mechanics, fluid mechanics and civil engineering materials
- c. Ability to perform civil engineering design by means of design experiences integrated throughout the professional component of the curriculum
- d. Ability to function on teams that must integrate contributions from different areas of civil engineering toward the solution of multidisciplinary projects
- e. Ability to identify, formulate and solve civil engineering problems
- f. Understanding of professional practice issues in civil engineering including professional and ethical responsibility, procurement of work, bidding vs. quality based selection processes, how design professionals and construction professions interact to construct a project and the importance of professional licensure and continuing education
- g. Ability to write and speak effectively
- h. The broad education necessary to understand the impact of civil engineering solutions in a global and societal context
- i. Recognition of the need for, and an ability to engage in life-long learning
- j. Knowledge of contemporary issues as they relate to civil engineering problems and solutions
- k. Ability to use the techniques, skills and modern engineering tools necessary for civil engineering practice, particularly in areas of environmental/water resources, geotechnical, structural and transportation engineering

- MS in Civil Engineering (p. 435)
- PhD in Civil Engineering (p. 436)

About the Program

Civil engineering education at MU began in 1856 with the establishment of the first Chair of Civil Engineering. Graduate programs offered by the department prepare students for leadership positions in academia, research and advanced practice engineering careers. Major program areas include structural mechanics, structural engineering and materials, geotechnical and geoenvironmental engineering, environmental engineering, hydrology and water resources engineering and transportation engineering

Areas of Study

Structural Mechanics, Structural Engineering and Materials. Study areas: fracture and failure of composites, model-based simulation, inelastic response of materials and structures, bridge engineering, linear and nonlinear structural dynamics, explosion resistant structural design, timber engineering, microstructure of porous materials, concrete and aggregate durability, advanced fiber reinforced composites for construction and nondestructive structural health evaluation

Environmental Engineering. Study areas: water pollution control, water purification, wastewater treatment, the disposal of residues from these processes and hazardous and solid waste management. Other areas of research include the application of physical, chemical and microbiological principles to design of water supply systems, pollution control facilities and contaminant transport through soils.

Geotechnical and Geoenvironmental. Study areas: strength, deformation and flow properties of earthen materials and application of this understanding to foundation engineering, slope stability analyses, earth structures design, and geoenvironmental challenges. Research areas include: unsaturated soil mechanics, soil improvement techniques, geosynthetics, landfills and waste containment, stabilization and maintenance of earth slopes, in situ soil cleanup technologies, geotechnical earthquake engineering, nondestructive geophysical technologies for subsurface applications, satellite – and ground-based remote sensing risk analysis and reliability-based design.

Transportation Engineering. Study areas: traffic engineering, intelligent transportation systems, highway safety, network modeling and simulation, geographic information systems, security and evacuations, transportation planning, traffic flow theory, highway design, intersection operations, bicycle and pedestrian facilities, infrastructure management, driver behavior, airport engineering, transportation legal issues, artificial intelligence and advanced computing applications in transportation.

Hydrology and Water Resources. Study areas: hydrologic, hydraulic, regulatory/public policy and geographic information system applications for transportation, surface water quality and storm water management and decision making.

Facilities and Resources

The department has laboratories for experimental research in structural engineering, materials, geotechnical and geoenvironmental engineering, environmental engineering, and transportation engineering.

Structural Testing. Several computer-controlled electrohydraulic testing machines and associated instrumentation are available in the high-bay structural engineering and materials engineering laboratories. The laboratories are serviced by a 5-ton overhead crane. An additional structural testing facility located south of the campus houses a 100-foot by 20-foot structural floor with anchor points on a 4-foot-square grid. This high-bay facility is serviced by a 10-ton overhead crane. There is also a materials laboratory for concrete mix design and evaluation.

Geotechnical Testing. The laboratories house state-of-the-art permeability, consolidation, triaxial, geosynthetics, soil dynamics and unsaturated soil mechanics testing equipment and is home to the Missouri Soil Characterization Laboratory. Additional laboratories include facilities and equipment for large-scale model testing of slopes, piles and other geotechnical systems, including a 10-acre geotechnical experiment site.

Environmental Testing Labs. The Laboratories are supplied with analytical equipment for the complete physical, chemical and microbiological analysis of water and waste water.

Transportation Laboratory. The laboratories include capabilities in advanced surveillance and video image processing, transportation modeling and simulation, Geographical Information Systems, traffic management and control, driver behavior, and safety.

Funding

In addition to fellowships supported by the National Science Foundation (NSF), the US Environmental Protection Agency, Federal Highway Administration and other governmental agencies, several graduate assistantships are available each year. The assistantships are primarily research appointments; however, the Department does make a limited number of teaching assistantship appointments. Most assistantships offer tuition waivers and health insurance.

Undergraduate

BSCiE in Civil Engineering

Major Program Requirements

Engineering topics start with basic computer and graphics courses. These are followed with basic engineering science courses, which ground the students in the fundamentals necessary for future course work and a sophomore design experience.

Engineering topics courses in the junior year provide students with the basic fundamentals in the areas of environmental engineering, geotechnical engineering, hydrology, water resources, structural engineering, transportation/traffic engineering, engineering economics, and probability and statistics. Many of these topics courses contain elements of civil engineering design. Elective courses in the senior year enable students to specialize or obtain a broad educational background across the civil engineering discipline.

Design is integrated throughout the curriculum. The capstone design project is supplied by consultants or governmental agencies. The course

requires working in teams, making oral and written presentations and completing a final design report. Oversight, interaction and evaluation are provided by practicing engineers from industry and governmental organizations.

In addition to the major core requirements, students must complete all University graduation requirements (p. 17) including University General Education Requirements (p. 18), as well as all degree and college requirements (p. 419).

Major Core Requirements

Math		16
MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4100	Differential Equations	3
Basic Sciences		17-18
CHEM 1320	College Chemistry I	4
GEOL 1150	Physical Geology for Scientists and Engineers	4
PHYSICS 2750	University Physics I	5
PHYSICS 2760	University Physics II	5-6
or CHEM 1330 & CHEM 2100	College Chemistry II and Organic Chemistry I	
Engineering Topics-General		17
INFOTC 1040	Introduction to Problem Solving and Programming	3
ENGINR 1100	Engineering Graphics Fundamentals	2
ENGINR 1200	Statics and Elementary Strength of Materials	3
ENGINR 2200	Intermediate Strength of Materials	3
Engineering topics elective		6
Select two of the following:		
(a)		
ENGINR 2100	Circuit Theory for Engineers	3-4
or BIOL_EN 4380	Applied Electronic Instrumentation	
or CV_ENG 4610	Sensors and Experimental Stress Analysis	
(b)		
ENGINR 2300	Engineering Thermodynamics	3
or CH_ENG 3261	Chemical Engineering Thermodynamics I	
(c)		
CV_ENG 2080	Introduction to Dynamics	3
or MAE 2600	Dynamics	
Civil Engineering Topics		
CV_ENG 3010	Decision Methods for Civil Engineering Design	3
CV_ENG 3100	Fundamentals of Transportation Engineering	4
CV_ENG 3200	Fundamentals of Environmental Engineering	4
CV_ENG 3300	Structural Analysis I	4
CV_ENG 3312	Reinforced Concrete Design	3
or CV_ENG 3313	Structural Steel Design	
CV_ENG 3400	Fundamentals of Geotechnical Engineering	4
CV_ENG 3600	Civil Engineering Materials	4
CV_ENG 3700	Fluid Mechanics	3
CV_ENG 3702	Hydrology	4
CV_ENG 4980	Civil Engineering Systems Design	3
CV_ENG Electives		15

Graduate

MS in Civil Engineering

April Klug kluga@missouri.edu
 Graduate Program Coordinator
 573-882-4442
 573-882-4784 (fax)
<http://engineering.missouri.edu/civil/>

Application Deadlines

Priority admission and funding consideration are given to applications received by February 15/September 15. Applications submitted after February 15/September 15 will be considered, with preference going to those received by May 1/December 1. Prospective students applying after May 1/December 1 will be considered for fall/spring admission on a case by case basis.

Admission Criteria

- Minimum GPA: 3.0 in last 2 years of coursework. Note: Lower than 3.0 GPA requires special action and substantiation such as good test scores on the GRE or other recognized examinations.
- BS in engineering. Applicants with BS degrees in related fields may be considered for admission. If admitted, non-engineers are required to complete remedial courses as determined by their adviser and advisory committee.
- GRE test is required but no minimum score set. Typical acceptance scores: around 1100 for Verbal + Quantitative and between 4.0 and 5.0 for Analytical.
- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
79	550

- Minimum Academic IELTS scores:

Item	Score
OVERALL	6.0

Required Application Materials

Upload to the Graduate School:

- All required Graduate School documents
- 3 Letters of Recommendation
- At least two from faculty members who have taught or advised you
- GRE scores
- Resume
- Statement of Purpose
 - See instructions (<http://engineering.missouri.edu/civil/degree-programs/statement-of-purpose-guidelines>)

Financial Aid from the Program

If you wish to be considered for financial aid, please complete the financial aid section of the departmental application.

Electronic submissions of all application materials are preferred; however, paper submittals will be accepted.

Plan of Study

Students are accepted for advisement upon CE Graduate Admissions Committee review. The degree designation at the master's level is Master of Science (M.S.) in Civil Engineering. To obtain a master's degree you must take a total of 31 hours for graduate credit, at least 15 hours of which must be 8000-level courses or research (CV_ENG 8990) with the remainder being either 7000 or 8000-level courses and a one hour graduate seminar. For most students this means taking eight (8) 3-hour courses at the appropriate level, completing six (6) hours of thesis research (CV_ENG 8990), and enrolling in the 1-hour seminar associated

with your specialty area. Students should consult with their academic adviser to ensure all requirements are satisfied.

Thesis and Examination

A final oral examination is required of all master's candidates. Approximately two weeks before this examination, a candidate must submit to an examining committee a thesis, a formal report or a design of professional quality applying the knowledge gained in course work to the solution of an engineering problem. Students who receive research appointments or traineeships are required to submit a thesis. Formal or design report is at the discretion of the adviser.

PhD in Civil Engineering

Internet-based test (iBT)	Paper-based test (PBT)
79	550

- Minimum Academic IELTS scores:

Item	Score
OVERALL	6.0

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Civil Engineering Program:

Upload all of the following items to the Apply Yourself/Graduate School System. DO NOT send any hard copies to the Civil Engineering department.

- 3 Letters of Recommendation
 - At least two from faculty members who have taught or advised you

- GRE scores
- Résumé
- Statement of Purpose
 - See instructions (<http://engineering.missouri.edu/civil/degree-programs/statement-of-purpose-guidelines>)

Financial Aid from the Program

If you wish to be considered for financial aid, please complete the financial section of the departmental application.

Electronic submissions of all application materials are preferred; however, paper submittals will be accepted.

Qualifying for Candidacy

Students are accepted for advisement upon CE Graduate Admissions Committee review. Formal acceptance to the PhD program is based on a qualifying examination, administered by faculty members in the student's area of concentration, during the first year of post-master's work. In cases where students desiring PhD candidacy take a master's degree with thesis option in this department, the master's oral examination may be combined with the qualifying examination at the discretion of the advisor and dissertation committee.

Plan of Study

PhD programs are committee administered and tailored to fit the needs of each individual student. A minimum of 72 credit hours, including the credit hours taken during the MS program beyond the bachelor's degree, are required. Students who received the MS degree from other than MU may transfer up to 30 hours of credit from their MS degree. The candidate must pass a comprehensive examination and submit and defend a dissertation at a final oral examination.

More Information

More information about the Department of Civil and Environmental Engineering and further details about specific programs and application materials may be obtained from the department's website: <http://www.civil.missouri.edu>.

Computer Engineering

S. Kovaleski, Interim Chair
College of Engineering
349 Engineering Building West
(573) 882-6387
kovaleskis@missouri.edu

The Department of Electrical & Computer Engineering is one of 9 academic departments within the College of Engineering at the University of Missouri.

Established in 1884 as the first electrical engineering program in the nation, this ABET accredited program is now home to more than 300 undergraduate students, almost 150 graduate students and 21 faculty members.

Faculty

Professor R. D. Curry**, C. H. Davis*, J. M. Gahl**, S. Gangopadhyay**, D. K. C. Ho**, N. E. Islam**, J. M. Keller*, N. D. Manring*, S. Nair**, R. M. O'Connell**, M. Skubic**, J. E. Thompson*, H. W. Tyrer Jr.**

Associate Professor M. Almasri**, G. DeSouza**, T. G. Engel*, Z. He**, S. D. Kovaleski**, J. W. Kwon**, J. J. Legarsky**, G. Triplett**

Assistant Professor M. Becchi**, T. Han#, C. Xiao*, A. Zare**

Professor Emeritus L. A. Akers*, M. J. Devaney**, R. W. McLaren*, B. W. Sherman, K. Unklesbay

Associate Professor Emeritus R. W. Leavene Jr.*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

beattyt@missouri.edu

The Department of Electrical and Computer Engineering offers both the Bachelor of Science with a major in Electrical Engineering and the Bachelor of Science with a major in Computer Engineering. The undergraduate program in both degrees at the University of Missouri provides students with the requisite fundamentals in either discipline and prepares them for beginning practice in both the traditional and emerging fields of these disciplines. The degree programs are flexible 126-credit structures that provide the fundamentals of engineering, in addition to a thorough coverage of the major specialties within their respective fields. In addition, technical electives allow concentration in selected areas.

The ECE department emphasizes close interaction with industry. Industry engineers visit regularly and industry-sponsored student projects are provided to give extra dimension to the program.

Many students in the ECE department combine the electrical engineering major with the computer engineering major in a special 138-credit program. These students receive both the BS EE and BS COE degrees.

Students interested in interdisciplinary studies may use some electives to study business, premedicine, prelaw, and other areas. Students are able to choose from a wide variety of courses offered by other departments in the College of Engineering, as well as from other MU colleges, taking advantage of the multidisciplinary nature of the campus.

Commencing in the Fall Semester 2011, the Program Educational Objectives (PEOs) of the undergraduate program in Electrical Engineering at MU are to nurture graduates who:

- Communicate effectively, both in written reports and oral presentations.
- Analyze and design electrical systems effectively.
- Possess comprehensive problem-solving skills, including the ability to define problems and to evaluate alternative solutions.
- Work effectively in teams consisting of diverse cultures and disciplines.
- Are passionate about engineering, as demonstrated by their leadership, innovation, motivation, and interest in continuing education.

Commencing in the Fall 2011, the Program Educational Objectives (PEOs) of the undergraduate program in computer Engineering at MU are to nurture graduates who:

- Communicate effectively, both in written reports and oral presentations.
- Analyze and design electrical systems effectively.
- Possess comprehensive problem-solving skills, including the ability to define problems and to evaluate alternative solutions.
- Work effectively in teams consisting of diverse cultures and disciplines.
- Are passionate about engineering, as demonstrated by their leadership, innovation, motivation, and interest in continuing education.

Both the Bachelor of Science in Electrical Engineering (BS EE) and the Bachelor of Science in Computer Engineering (BS COE) require that students earn a 2.0 GPA or better in all courses that have an MU engineering prefix. All ECE courses require a grade of C or better in ECE prerequisites.

Engineering design in both the electrical engineering and computer engineering programs is provided through an integrated laboratory structure. Beginning with the first laboratory course in the fourth semester of each program, students have a significant design and laboratory experience in each semester of their respective programs.

In addition to the major core requirements, students must complete all University graduation requirements including University general education, as well as all degree and college or school requirements.

ECE Honors Program

The ECE Honors Program follows the general rules and philosophy of the College of Engineering Honors Program. Students may enter the program from the beginning of the junior year and must have a GPA of 3.0/4.0 at the start. Eligible students participate in the program by enrolling in ECE 4995 Undergraduate Honors Research in Electrical Computer Engineering for one to three credit hours, which replaces an equivalent number of hours of ECE technical electives.

The heart of the program is a research or advanced design project culminating in an undergraduate honors thesis. The project is conducted under the supervision of the honors advisor, who is an ECE faculty member selected by mutual agreement between the student and the professor. Satisfactory completion of the project requires approval (signatures) of the honors thesis by both the honors advisor and an additional faculty member, who serves as second reader of the thesis. Students who complete the program and graduate with a GPA of at least 3.0 receive the designation "Honors Scholar in Engineering" at graduation and on their diploma.

Another valuable feature of the Honors Program is that participants may reduce the number of credit hours required for degree completion to the University minimum of 120 by substituting up to six hours of credit from graduate courses through dual (undergraduate/graduate) enrollment during the last four semesters of the undergraduate program and after completion of the honors project.

Double Majors - Electrical Engineering and Computer Engineering

Many students in the ECE department combine the BS in Electrical Engineering with the BS in Computer Engineering in a special 138-credit program. These students receive both the BS EE and BS CoE degrees.

Major Program Requirements

Constitutional Elective

Select one of the following:	3
HIST 1100 Survey of American History to 1865	
HIST 1200 Survey of American History Since 1865	
HIST 1400 American History	
HIST 2210 Twentieth Century America	
HIST 2440 History of Missouri	
HIST 4000 Age of Jefferson	
HIST 4220 U.S. Society Between the Wars 1918-1945	
HIST 4230 Our Times: United States Since 1945	
POL_SC 1100 American Government	
POL_SC 2100 State Government	

Humanities/Fine Arts courses 9

Social Science/Behavioral Science courses 3

Select two of the following: 6

ENGINR 1200 Statics and Elementary Strength of Materials	
ENGINR 2300 Engineering Thermodynamics	
IMSE 2710 Engineering Economic Analysis	

Other major core requirement courses:

MATH 1500 Analytic Geometry and Calculus I	5
MATH 1700 Calculus II	5
MATH 2300 Calculus III	3
MATH 2320 Discrete Mathematical Structures	3
MATH 4100 Differential Equations	3
STAT 4710 Introduction to Mathematical Statistics	3

- MS in Computer Engineering (p. 441)

The Department also offers a PhD in Electrical and Computer Engineering (p. 451), and the College of Engineering offers an interdepartmental ME in Engineering with a focus in Computer or Electrical Engineering (p. 460).

The Department

Established in 1885, the Department of Electrical & Computer Engineering has a long tradition of excellence. Our classes are small with extensive design and laboratory experimentation. Research opportunities exist for both undergraduate and graduate students in Communication and Signal Processing, Physical Electronics, Intelligent Systems, Systems Modeling and Control, Nano and Micro Electronics, and Digital / Computer Systems.

Career Opportunities

Throughout the 20th century, the electrical engineering and computer engineering professions devised many of the innovations that dominated the technology landscape. In the 21st century, electrical and computer engineers will be at the forefront of a wide spectrum of technologies including nanotechnology, biotechnology, sensors, power generation, electric vehicles, and telecommunications.

Areas of study include

Communications and Signal Processing. Satellite remote sensing, geospatial intelligence, image/video processing, land-mine detection, speech signal processing, wireless communications, underwater communications.

Physical Electronics. Medical applications and advanced sterilization of food, water and products using pulsed power, pulsed power applications and research (MU Gigawatt Rep-rate Test Stand. Lasers, high voltage switching and power conditioning, high voltage pulse technology and plasmas with the 2.5 MV, 250 kA MU-Terawatt Test Stand), interesting

plasma science applications, like high voltage accelerators to propel micro spacecraft, electromagnetic launchers, radio-frequency effects on electronics, power electronics, microwave photonics, electrooptics and photoconductive switches.

Intelligent Systems. Basic and applied research in computational intelligence (neural networks, fuzzy systems, evolutionary computation, swarm intelligence), spatial reasoning for scene understanding and human/robot interaction, pattern recognition and automated decision making, eldercare technology, computer vision and image processing, human activity analysis, cognitive robotics, landmine and explosive detection.

Systems Modeling and Control. Control systems, computer process control, digital and sampled data control, robotics, system biology; biologically realistic modeling, computational, neuroscience, theoretical neuroscience, electrophysiology.

Nano and Micro Electronics. Nano/microelectromechanical systems (N/ MEMS), micro sensors and actuators, High K dielectrics, nano structures, complex heterostructures (i.e. HEMTs, VCSELs, detectors, HBTs, etc), BioMEMS and biomedical microsystems.

Digital System and Circuit Design, Computer Process Control. Excellent computer equipment and other laboratory facilities are used for research sponsored by various government and industry sources. The ECE department is the home department of the following University centers: Center for Geospatial Intelligence, Center for Micro/Nano Systems and Nanotechnology, Center for Eldercare and Rehabilitation Technology, Center for Physical Electronics and Power Electronics, Center for Electromechanics and Energy Conversion, Interdisciplinary Center for Research in Earth Science Technologies, Institute for Computational Neurobiology.

Internal Funding

Teaching Assistantships

Teaching assistantships are normally awarded to qualified graduate students with appropriate communication skills who assist faculty members in various phases of instruction. International students may not be appointed to teaching assistantships in their first semester on campus. International students must pass a language screening test at a proper level to be eligible for the TA positions available.

Research Assistantships

Research assistantships are granted to students qualified for working with professors on particular research projects. The research assistants are selected by faculty members who have research funds to support graduate students. Therefore, students should contact the faculty members directly for the RA possibility.

Fellowships

The department faculty actively pursue funding for selected research fellowships. Available fellowship opportunities can be found by contacting the ECE Graduate Office. Additionally, a limited number of "Teaching Fellows" are awarded annually to outstanding PhD students, particularly for those preparing for academic careers. Details can be obtained from the ECE Graduate Office.

Undergraduate

BSCoE in Computer Engineering

Major Program Requirements

The computer engineering degree offers a balanced approach to both hardware and software, as well as other areas of engineering. Focused areas of work in additional hardware or software, communications, discrete and integrated electronics, and robotics are offered by the department. (Focus areas are not listed on transcripts or diplomas.)

Students must complete all university requirements, including general education (p. 18), and Department Level Requirements (p. 438), in addition to the degree requirements below.

Major core requirements

Constitutional Elective		
Select one of the following: 3

Admission Criteria

Fall deadline: February 15

Spring deadline: September 1

Note: Applications received after these deadlines will be evaluated as time allows.

- Minimum GPA: 3.0 for the last 60 hours
- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	80th percentile	will be considered	will be considered
On or After August 1, 2011	80th percentile	will be considered	will be considered

International applicants only:

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum Academic IELTS scores:

Item	Score
Listening	5.5
Reading	5.5
Writing	5.5
Speaking	5.5

Required Application Materials:

- Statement of Purpose (upload to the Supplemental information section of the application)
- Copies of your official transcripts (upload to the Educational History section of the application)
- Copies of your GRE scores (upload to the Test Information section of the application)
- Copies of your TOEFL or IELTS Scores (for non-native English speakers only) (upload to the Test Information section of the application)
- 3 letters of Recommendation (the department accepts electronic recommendations – in the recommendation section of the online application, enter the information for three recommenders. Each recommender will receive an email with instructions on how to complete the recommendation). The department does also accept hard copy letters of recommendation. The letters may be mailed to: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

To the Graduate School:

Official Transcripts. The mailing address is: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

Note: when registering for GRE or TOEFL exams, be sure to designate your program of interest at the University of Missouri – Columbia. MU's Institutional Code is 6875 (no departmental code is necessary).

Admissions Criteria for the MS in Electrical or Computer Engineering

To be accepted outright by the director of graduate studies (DGS), the student needs to have a BS degree in either Electrical Engineering or Computer Engineering in addition to meeting the above requirements. Students who meet the academic requirements but have degrees in other engineering or science disciplines can be accepted directly into the MS program by the graduate program committee (GPC). Such students are strongly encouraged to consult with the DGS or their advisor about appropriate bridge courses. Based on individual circumstances, students may be advised to register as an undeclared graduate student to fill in background course work prior to admission into the department.

Students who do not meet the above requirements may still be admitted on probation by the GPC if there are mitigating factors. Students admitted on probation must receive at least a 3.0 GPA for the first 12 hours of graded graduate coursework completed in their first two semesters. Failure to achieve this GPA will result in expulsion from the ECE MS program.

Appeal Process

All students have the right to a timely formal appeal to the GPC. Upon receipt of an admission decision or disciplinary action, the student has 10 working days in which to request a formal appeal. The DGS will convene a meeting of the GPC, the student, and the student's advocate (if appropriate) within 10 working days of receiving the request. The decision of the GPC at the hearing is final.

Degree Requirements

To fulfill the requirements for the MS degree, the following rules apply:

- A candidate must complete 30 hours, including at least 12 hours of 8000-level graded course work (exclusive of ECE 8990 or ECE 8085 or ECE 8010 hours).
- At least six of these graded 8000 level course hours need to come from ECE.
- At least 15 hours of graded course work (total combination of 7000 and 8000 level courses, exclusive of ECE 8990, ECE 8085, or ECE 8010 hours) must be taken from the Electrical and Computer Engineering Department course offerings.
- A maximum of six hours of graduate credit may be transferred from another campus in the University of Missouri System or other university, while a maximum of eight hours of graduate credit may be used from a previous MU master's degree.
- At most, three hours of course work in supervised study (ECE 8010) may be taken during the MS program and they will be graded on an S/U basis.
- At least one course from each of three different emphasis areas must be taken; a minimum of two of the emphasis areas must be in Electrical and Computer Engineering. (Each ECE graduate course is designated to an emphasis area. Contact the ECE graduate office for a current list).
- A minimum of 3 hours to a maximum of 6 hours of research (ECE 8990) or problems (ECE 8085) are required, based on whether the student writes a master's thesis or a master's Report.
- The student's cumulative GPA must be at least 3.0 to graduate.

The requirements for the MS degree must be met within an eight year period. Each candidate must pass a final oral examination to demonstrate

mastery of the work included in the thesis or in a substantial independent project. These MS requirements apply to ECE graduate students first enrolled in MU ECE in the Fall semester 2007 or later. UM ECE graduate students enrolled prior to Fall semester 2007 may choose to follow the MU ECE MS requirements that were in effect for their MU ECE graduate admission semester.

Academic Probation

A student whose GPA drops below 3.0 is automatically placed on academic probation. In such a case, the student has one semester to raise his or her cumulative GPA to 3.0. Failure to do so will result in expulsion from the program. Additionally, a student who receives the grade of "C" in 9 hours of coursework will be expelled. As with acceptance, students here also have a right to the same formal appeal process described above.

Selection of an Advisor

Students must choose an academic advisor who will then provide guidance for the selection of coursework, and in the choice and execution of a research question. The student's academic advisor and the Director of Graduate Studies must approve all coursework used to satisfy the credit hour requirements for this degree. After performing satisfactorily for a minimum of one semester, the student, with the adviser's assistance, completes the Program of Study form that outlines the plan of study for the student's graduate program. M1 - Program of Study form.

The form is forwarded through the DGS to the Graduate School for approval. In the event that an adviser retires or leaves MU, he/she may continue to serve as the student's main adviser unless there is written academic program policy prohibiting such an arrangement. If an adviser is unable or unwilling to continue to serve, the academic program, with the leadership of the DGS, will assist the student to ensure that a replacement is found.

The Program of Study form must be filed with the Graduate School by the end of the student's second semester of enrollment. Upon approval of the program by the Graduate School, the student is a candidate for the degree. If changes must be made on a student's Program of Study form, a Program of Study Substitution form is used.

Thesis Option

For students under the thesis option of the MS degree, i.e., students enrolling for ECE 8990, an M-2 Request for Thesis Committee form is required to be submitted for approval by the department DGS and the Graduate School by the end of the student's second semester.

A thesis committee is composed of three members of the MU faculty: a major adviser from the academic program, a second reader from the academic program, and an outside reader who is a member of the graduate faculty from a different MU graduate program. Upon approval of the department DGS, the student may petition the Graduate School to allow a person who is not a member of the MU graduate faculty to serve as the third reader. The petition should include a written justification for such a request and a copy of the person's curriculum vitae. The Graduate School maintains copies of curriculum vitae previously received and approved, and if such a request is anticipated, the student should contact the Graduate School to see if the curriculum vita of a particular person is already on file. Students need to supply committee members with copies for review/evaluation at least one week prior to the defense date.

Information about submitting the thesis can be found in the Thesis and Dissertation Guidelines.

Non-Thesis Option

For students who enroll in ECE 8085 (Problems), a problem report rather than a thesis is required. The student is not required to submit the M-2 form (request for a thesis committee). Instead, the student must have the report approved by his or her advisor and two other members of the graduate faculty, forming the student's Problem Committee. It is not required that a member outside of ECE be included, although it is permissible for such a member of the MU graduate faculty to be appointed. At least one of the three members must have a primary academic appointment in ECE. Students need to supply committee members with copies for review /evaluation at least one week prior to the defense date. At that time, an announcement is to be made to the department faculty and graduate students to allow them to attend the defense. The student must defend the problem report to the committee, and make any needed adjustments in format and corrections/clarifications based on input from the committee. A final copy of the problem report must be filed with the ECE graduate office.

Report of the Master's Examining Committee

The purpose of the M-3 Report of the Master's Examining Committee Form is to have an official record of the final examining process, whether it is a thesis defense or presentation of a report. The student's committee will indicate on this form if the student has passed the final exam. This form must be submitted to the Graduate School by a deadline for the semester in which the students plan to graduate. For a report option, the 3rd reader of the committee may be from the student's department. The form is due in the Graduate School two weeks prior to graduation.

Computer Science

Dong Xu, Chair

College of Engineering (BS in Computer Science, BS Information Technology, MS Computer Science, Master of Engineering, PhD Computer Science)

About Computer Science Programs

The Department of Computer Science is a fast-growing and research-active entity at the University of Missouri. In fact, it is the hub of all campus computer science activities that involve well established research programs in computational biology and bioinformatics, cyber-security, distributed and mobile computing, geospatial information mining and retrieval, intelligent systems, multimedia communications, large dataset scientific visualization, networking, spoken language processing and human-machine interfaces, wireless sensor networks, etc.

The Department offers masters, dual masters, and doctoral degrees. The graduate degree programs prepare prior recipients of four-year BS degrees in computer science or closely related areas for further study at the doctoral level or for successful careers as specialized computer professionals. The PhD programs are a professional research degree designed to prepare students for advanced professional careers, including college teaching and research, as well as research and development in industrial, government, and nonprofit organization. Specialized training is available through close interaction with the faculty in their active research fields.

The faculty members of the Department of Computer Science participate in the full spectrum of undergraduate and graduate education. Graduate education, in addition to direct involvement in projects funded by the federal government and industries, places equal emphasis on interdepartmental and cross-college research. The aim is to produce computer scientists who can function well in interdisciplinary research teams. Close integration of research with education is an invariant goal in the department's graduate programs. It emphasizes in-depth studies that can also be tailored to fit graduate students' individual interests. Additionally, members of the department lead the University's institutional efforts in developing infrastructure for bioinformatics, computational biology, and high-performance computing and networking. Our major research projects are heavily funded by both federal agencies and industries. While National Science Foundation (NSF), National Institute of Health (NIH), National Geospatial-Intelligence Agency (NGA), Department of Energy (DoE), and Department of Defense (DoD) are examples for federal funding, Microsoft and Monsanto are representatives for industrial funding.

Research facilities are well established around faculty members' expertise in bioinformatics and computational biology, biological and biomedical image analysis, graphics, mobile computing, artificial intelligence, multimedia, networking, human-computer interaction, information management systems, and computer science foundations. These facilities are clustered in core laboratories for bioinformatics, multimedia and visualization, video processing, spoken-language processing, mobile networking and communications, wireless sensor

networks, high-performance computing, cyber security, and medical informatics.

Careers

The graduate degree programs prepare prior recipients of four-year B.S. degrees in computer science or closely related areas for further study at the doctoral level or for successful careers as specialized computer professionals.

The Ph.D. programs are a professional research degree designed to prepare students for advanced professional careers, including college teaching and research, as well as research and development in industrial, government, and nonprofit organization. Specialized training is available through close interaction with the faculty in their active research fields.

With foundations covered in algorithms, compilers, computational theories, database, networking, operating systems, programming languages and software engineering, the undergraduate and graduate programs are integrated over many application areas such as:

- cyber-security
- multimedia
- smartphone applications
- filming
- mobile and sensor networks
- information management systems
- bioinformatics and computational biology
- medical informatics

Research

This department is the hub of all campus computer science activities that involve well established research programs in:

- bioinformatics and computational biology
- graphics and image processing
- geospatial information mining and retrieval
- cyber-security
- multimedia communications and networking
- ambient intelligence and sensor networks
- mobile and distributed computing
- spoken language processing and human-machine interfaces, etc.

Additionally, members of the department lead the University's institutional efforts in developing infrastructure for bioinformatics, computational biology and high-performance computing and networking.

Faculty

Professor Y. Shang**, C. R. Shyu**, D. Xu**, W. Zeng**, Y. Zhao**, X. Zhuang**

Associate Professor J. Cheng**, Y. Duan**, W. L. Harrison**, M. Jurczyk**, T. Kazic**, D. Korkin**, K. Palaniappan**, Y. Saab**, G. K. Springer**, J. Uhlmann**

Assistant Professor P. Calyam**, R. Chadha**

Associate Teaching Professor D. Musser*

Adjunct Professor J. M. Keller**, S. Nair**, M. Skubic**

Adjunct Associate Professor G. DeSouza**, M. Popescu**

Adjunct Assistant Professor M. Becchi**

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

The Department of Computer Science offers a broad curriculum that spans the theory, design and applications of computing and information technology. The Bachelor of Science degree in Computer Science includes a strong component of mathematics and sciences along with more theoretical courses in computer science. The Bachelor of Science in Information Technology is application-oriented, and allows students to develop skills in database administration, cyber security, game development and film production. The Bachelor of Arts degree, offered by the College of Arts and Science, includes computer science courses and encourages students to develop skills in related fields in areas such as computer animation, business, art, music and geography. Computer Science and Information Technology minors are available.

The College of Arts and Science also offers a BA in Computer Science (p. 162).

MS and PhD Admission Criteria

Students applying to the CS graduate program must have a sufficient background in mathematics and computer science to be able to enroll in and perform satisfactorily in the CS courses numbered 7000 and above. Students applying for admission must fulfill the following minimum requirements that include material contained in specific CS courses or

their equivalent taken at another institution. It is preferred that students have earned a BS degree in Computer Science. However, students from other disciplines meeting the minimum requirements will be considered for admission.

1. Proficiency in a procedural programming language equivalent to that gained by taking CMP_SC 1050 Algorithm Design and Programming I and CMP_SC 2050 Algorithm Design and Programming II. The preferred programming language is Java. This material includes fundamental algorithm design and data structures.
2. Three semesters of formal course work in Calculus (MATH 1500, MATH 1700 and MATH 2300 at MU).
3. Knowledge of statistics equivalent to that contained in STAT 4710 Introduction to Mathematical Statistics.
4. Knowledge of discrete mathematical structures equivalent to that covered in MATH 2320 Discrete Mathematical Structures.
5. Knowledge of computer system architecture equivalent to that contained in CMP_SC 2270 Introduction to Digital Logic and CMP_SC 3280 Computer Organization and Assembly Language.
6. Four courses with grades B or better equivalent to those defined as follows:
 - a. CMP_SC 4050 Design and Analysis of Algorithms I
 - b. CMP_SC 4320 Software Engineering I
 - c. CMP_SC 4410 Theory of Computation I, CMP_SC 4430 Compilers I, or CMP_SC 4450 Principles of Programming Languages
 - d. CMP_SC 4520 Operating Systems I
7. A GPA of at least 3.0 (A=4.0) for the last half of the undergraduate curriculum.
8. Acceptable Minimum GRE scores (taken within last 5 years): 25 percentile on the verbal part, 80 percentile on the quantitative part, and 4 on the analytical writing part.
9. For those not schooled in English as their native language, a recommended minimum TOEFL score (taken within last two years):

Internet-based test (iBT)	Paper-based test (PBT)
90	577

OR

Item	Score
IELTS	6.5-7.0
10. For admission into the PhD program, the student must have either:
 - a. A Bachelor's degree in Computer Science with a GPA of 3.4 (out of 4.), or
 - b. An equivalent of a Master's degree in Computer Science, or a closely related field, with a GPA of least 3.4 (out of 4.0).

Application Procedures

In order to be considered for admission in a particular semester we must receive all required paperwork by these deadlines:

Fall admission: Applications and all paperwork must be received by March 1st. NOTE: If applying for financial assistance in the department, applications and all paperwork must be received by January 15th.

Spring admission: Applications and all paperwork must be received by October 1st.

Application for admission involves submitting a formal application through the Graduate School's Apply Yourself (<http://gradschool.missouri.edu/>)

admissions/apply) online application system. An application must be accompanied by an application fee. In addition, the applicant must have the following original paperwork sent directly from the originating institutions to the Graduate School:

- Official transcripts from ALL institutions attended
- Official GRE score report from Educational Testing Service in New Jersey (and TOEFL or IELTS scores for international applicants)

The following supplemental materials must be uploaded in the online application:

- Your resume
- A personal goal statement indicating why you feel prepared to pursue the degree program and why you want to pursue this degree
- Minimum course requirement form if you do not have a BS in computer science
- Three letters of recommendation from professors who know your abilities that must address your ability and readiness to pursue a graduate program in computer science (submitted by your references directly to your online application)
- Copies (unofficial) of all transcripts
- Copies of GRE results (and TOEFL or IELTS, if applicable).

Note: Copies of the required documents (transcripts, GRE scores, etc.) cannot be accepted in lieu of the official reports from the originating institutions. Copies of these records should be submitted for evaluation, but any decision on admission is non-binding until the official records have been received.

Current/Former MU students: All current and former MU students must meet the same requirements as external students *and* file one of the following forms (in lieu of an MU Application Form):

- Current Non-Degree Graduate Students: Change of Division, Degree, Program, Emphasis, or Advisor form,
- Current graduate students in another department: Change of Division, Degree, Program, Emphasis, or Advisor form (same as 1)
- Previous graduate students returning to same program: Re-Activation form.

Forms can be obtained from the Computer Science Graduate Advisor's office in 244 EBW or the Graduate School, 210 Jesse Hall.

Degree Completion Requirements

Use the links at the top of the page to direct you to details on the requirements that must be completed in order to earn the respective graduate degrees from the CS department. The Master of Science degree program has both a thesis and a non-thesis option, which can be chosen by the student after consultation with their selected advisor.

Credit toward a Second Master's Degree

A student who has completed one Master's degree at MU or elsewhere may present, upon the recommendation of the student's advisor and approval by the Director of Graduate Studies and the Graduate School, a maximum of six hours of credit earned in the previous program toward a second Master's degree.

Master of Engineering Degree

A student may also choose to complete a Master of Engineering (p. 460) degree. The requirements for the ME degree are the same as the MS CS with the following exceptions: 1) the student must complete

at least 36 hours of graduate courses, 2) a minimum of 30 credit hours must be earned from UM System institutions, 3) at least 21 hours must be courses offered by the CS Department, 4) at least 15 hours must be 8000 level courses offered by CS Department (excluding CMP_SC 8085), 5) CMP_SC 8980, CMP_SC 8990 and CMP_SC 9990 may not be taken, 6) at most 3 hours of CMP_SC 8085 may be taken, 7) no final examination is required. Entrance requirements for ME and MS degree are the same.

Financial Aid

Teaching and research assistantships are available for qualified students in the graduate programs. The Department also offers fellowships (including Shumaker Bioinformatics Fellowships) to a limited number of new PhD students. In addition, there are other fellowships and scholarships available at the university level.

Teaching assistantships and research assistantships are available with tuition waivers in the Department. Requests for financial aid are examined at the same time as those for graduate admission, which are due before January 15 for fall semester and October 1 for spring semester.

Student Group

The department's graduate enrollment is about 135, with approximately half enrolled in the PhD program. Advised by the Director of Graduate Studies, the CS Graduate Student Council is an active body that works with the department and provides social support as well as student input for the continuous improvement of the graduate programs in computer science.

Undergraduate

BS in Computer Science

Major Program Requirements

The Bachelor of Science with a major in Computer Science emphasizes the study of software systems and graphics, computational theories and algorithms, computer organization, networking and multimedia, and programming methodology. Students who complete the BS in Computer Science can work for government agencies, academic institutions, or private industry creating and applying new technologies to solve complex problems.

The BS degree requires the completion of the three-semester calculus sequence plus discrete math and statistics. A student who selects an appropriate additional math course as a technical elective and has at least 9 credits in math with appropriate grades at MU can earn a math minor.

The BS degree requires the completion of 126 credits. To graduate, a student must earn a 2.0 GPA or better in all CMP SC/IT courses. A grade of C- or better is required in each CMP SC course that is a prerequisite for a CMP SC course that the student takes.

The Engineering Career Services Office, W1025 Lafferre Hall, can assist students in searching for employment opportunities upon graduation and for internship/co-op positions.

Course requirements listed here apply to students beginning as regular college freshmen in Fall 2013 or after. A student who started college before Fall 2013 and who has been continuously enrolled as a full-time

student may be pursuing the previous program and should contact the department for information on these degree requirements.

In addition to the major core requirements, students must complete all University graduation requirements including University general education (p. 18), as well as all degree and college or school requirements.

Major Core Requirements

Computer science courses

CMP_SC 1000	Introduction to Computer Science	1
CMP_SC 1050	Algorithm Design and Programming I	3
CMP_SC 2050	Algorithm Design and Programming II	3
CMP_SC 3050	Advanced Algorithm Design	3
CMP_SC 2270	Introduction to Digital Logic	3
CMP_SC 3280	Computer Organization and Assembly Language	3
CMP_SC 3330	Object Oriented Programming	3
CMP_SC 3380	Database Applications and Information Systems	3
CMP_SC 4050	Design and Analysis of Algorithms I	3
CMP_SC 4320	Software Engineering I	3
CMP_SC 4520	Operating Systems I	3
CMP_SC 4850	Computer Networks I	3
CMP_SC 4970	Senior Capstone Design I	3
CMP_SC 4980	Senior Capstone Design II	2

CMP SC courses chosen from the following list ¹

CMP_SC 2830	Introduction to the Internet, WWW and Multimedia Systems	
CMP_SC 3530	UNIX Operating System	
CMP_SC 3940	Internship in Computer Science	
CMP_SC 4001	Topics in Computer Science	
CMP_SC 4060	String Algorithms	
CMP_SC 4070	Numerical Methods for Science and Engineering	
CMP_SC 4085	Problems in Computer Science	
CMP_SC 4270	Computer Architecture I	
CMP_SC 4330	Object Oriented Design I	
CMP_SC 4380	Database Management Systems I	
CMP_SC 4410	Theory of Computation I	
CMP_SC 4430	Compilers I	
CMP_SC 4450	Principles of Programming Languages	
CMP_SC 4610	Computer Graphics I	
CMP_SC 4620	Physically Based Modeling and Animation	
CMP_SC 4650	Digital Image Processing	
CMP_SC 4670	Digital Image Compression	
CMP_SC 4720	Introduction to Machine Learning and Pattern Recognition	
CMP_SC 4730	Building Intelligent Robots	
CMP_SC 4750	Artificial Intelligence I	
CMP_SC 4770	Introduction to Computational Intelligence	
CMP_SC 4830	Science and Engineering of the World Wide Web	
CMP_SC 4995	Undergraduate Research in Computer Science - Honors	

Related courses

MATH 1500	Analytic Geometry and Calculus I	5

Science courses (choose one of the following four sequences) ³ minimum

Physics sequence:
(credit not given for both PHYSCS 1210 and PHYSCS 2750, or PHYSCS 1220 and PHYSCS 2760)

PHYSCS 1210 & PHYSCS 1220	College Physics I and College Physics II	8
PHYSCS 2750 & PHYSCS 2760	University Physics I and University Physics II	10

Chemistry sequence:

CHEM 1320	College Chemistry I	4
CHEM 1330	College Chemistry II	4

Biology sequence:

BIO_SC 1010	General Principles and Concepts of Biology	3
BIO_SC 1020	General Biology Laboratory	2

Select one of the following:

BIO_SC 1200	General Botany with Laboratory	
BIOCHM 2110	The Living World: Molecular Scale	
BIOCHM 2112	Biotechnology in Society	
ANTHRO 2050	Introduction to Biological Anthropology with Laboratory	

OR

ANTHRO 2051 & ANTHRO 2052	Introduction to Biological Anthropology and Biological Anthropology Laboratory	
BIO_SC 2100	Infectious Diseases	
BIO_SC 2600	Ornithology	
BIO_SC 3050	Genetics and Society	
BIOCHM 3630	General Biochemistry	
BIO_SC 3210	Plant Systematics	

Geology sequence:

GEOL 1100	Principles of Geology with Laboratory	4
or GEOL 1200	Environmental Geology with Laboratory	

Select one of the following:

GEOL 2150	The Age of the Dinosaurs	
GEOL 2200	Oceanography	
GEOL 2300	Earth Systems and Global Change	
GEOL 2350	Historical Geology	
GEOL 2400	Surficial Earth Processes and Products with Laboratory	
GEOL 3110 & GEOL 3115	Geology of Missouri and Geology of Missouri Laboratory	

Additional courses to complete 12 credits in science

ASTRON 1010	Introduction to Astronomy	4
ASTRON 1020	Introduction to Laboratory Astronomy	2

Any science sequence courses outside the student's selected sequence.

Any biology, biochemistry, chemistry, geology, or physics courses beyond the levels listed above.

Other science courses pre-approved by the advisor.

Non-Science Electives

9

Students must complete 9 hours of non-science electives which include courses in business, education, or additional social, behavioral or humanities courses beyond what is required in those categories.

- 1 At least 15 credit hours of computer science electives must be numbered above 4000; two of the 4000-level courses must be CMP_SC 4410, CMP_SC 4430, or CMP_SC 4450. A maximum of 6 hours of IT courses can be taken as CS electives with the following stipulations: One 3000/4000 level INFOTC course (excluding IT 4400 and 4500) can be taken as a CMP_SC elective but it is counted as a lower level (below 4000) CMP_SC course. IT 4400 and 4500 are counted as CS 4000 level courses.
- 2 2000-level or above CMP_SC course or 4000-level MATH course, 2000-level or above engineering courses, MANGMT 3000, FINANC 3000 or other courses that meet prior approval of Computer Science advisor. An INFOTC course at the 2000 level or above can be taken. Students cannot take INFOTC 2810 or INFOTC 2910 as a technical elective if they have already taken CMP_SC 4850.
- 3 Including one of the two-semester sequences below. At least one of the courses must include a lab. Labs listed separately are not considered a second science course (for example, BIO_SC 1010 and BIO_SC 1020 equal one science course).

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year		
Fall	CR Spring	CR
CMP_SC 1000	1 CMP_SC 2050	3
CMP_SC 1050	3 MATH 1700	5

* Denotes General Education Requirements

Minor in Computer Science

A minor in computer science is offered through the College of Engineering. To obtain a minor, a student must complete 18 hours of courses approved by the Department of Computer Science. The student must earn a grade of C- or better in each course counting toward the minor and have a 2.0 GPA in all courses counting toward the minor. At least 9 hours must be taken in residence. The following courses are required.

CMP_SC 1050	Algorithm Design and Programming I	3
CMP_SC 2050	Algorithm Design and Programming II	3
CMP_SC 2270	Introduction to Digital Logic	3
Three additional department-approved CMP SC courses with at least one numbered above 3000		9
Total Credits		18

Graduate

MS in Computer Science

All students completing a master's degree must fulfill the following minimum requirements:

1. The student must earn a minimum of 30 credit hours of course work approved by the CS Department. This course work must include at least 15 credit hours of course work numbered 8000 or above (CMP_SC 8990 Research-Masters Thesis Computer Science credit is counted in the required 15 credit hours, but CMP_SC 8980 is not).
2. The overall GPA of course work taken as an enrolled graduate student must be at least 3.0 (out of 4.0).
3. Courses taken in other departments (up to 6 credit hours) will be considered for approval as part of a student's MS program and the approval is sought prior to the student undertaking the course work.
4. A 4000-level course listed in the minimum requirements for graduate admission cannot be taken at the equivalent 7000 level as part of the required hours for the MS, ME, or PhD programs.
5. Non-Thesis Option:
In order to complete the non-thesis option, the student must complete an independent project under a faculty adviser approved by the department. This project is carried out by enrolling in CMP_SC 8980 (Non-Thesis Research) for at least one hour of credit. This project is documented and presented to a faculty committee of at least three graduate faculty members and defended in a public defense as part of a final oral examination. The CMP_SC 8980 course grade is assigned by the student's faculty adviser upon the conclusion of the oral examination. This course is graded on an S/U basis and cannot be used to increase the student's overall GPA in graduate work. In this option, at most, 3

credit hours of Research, Reading, and/or Problem courses (such as CMP_SC 8980, CMP_SC 8990, CMP_SC 8085) can be counted toward the 30-hour MS graduate requirements.

6. Thesis Option:

In order to complete the thesis option, the student must complete an independent project under a faculty adviser approved by the department. This project is carried out by enrolling in CMP_SC 8990 (Thesis Research) for at least three hours of credit. A maximum of six credit hours of CMP_SC 8990 can be counted toward the required 30 credit hours for the MS degree program. The thesis project is documented in a formal thesis, presented to a faculty committee of at least three graduate faculty members (one of whom is a faculty member from another department) and defended in a public defense as part of a final oral examination. The CMP_SC 8990 course grade(s) is/are assigned by the student's faculty advisor upon the conclusion of the oral examination. CMP_SC 8990 is graded on an S/U basis and cannot be used to increase the student's overall GPA in graduate work. In this option, at most 9 credit hours of Research, Reading, and/or Problem courses (such as CMP_SC 8980, CMP_SC 8990, CMP_SC 8085) can be counted toward the 30-hour MS graduate requirements.

7. Seminar Attendance: The approval of the M3 form is tied to the attendance records for the department's seminar series. MS and ME students are required to attend a total of at least ten CS approved seminars during the course of their Master's program. Approved seminars include all CS Seminar Series presentations, Dr. Harrison's Security Reading Group meetings, and others as announced. Master's students who add the PhD program can apply up to ten seminars attended as part of their Master's program toward the attendance requirement (twenty) for doctoral students.

8. M Forms: By the end of the second semester in the program, the M1 Plan of Study form should be prepared and submitted, with the aid of a faculty adviser in the department. An adviser should be selected during the student's first semester. If a thesis option is chosen, the student must form a thesis committee and submit the M2 Request for Thesis Committee form. The M3 Report of Master's Examining Committee form is submitted after the thesis or project defense during the final semester.

9. Annual Review Requirement of the Graduate School. All graduate students are required to complete the Annual Review Requirement by updating their information in the Graduate Student Progress System by the end of their second, fourth, etc. semesters of their program. The CS department requires that this report be approved online by the student's faculty adviser, and a printed copy attached to each M form before being signed by the CS Director of Graduate Studies.

3. Earn a minimum of 72 credit hours of course work and research past the student's Bachelor's degree.

4. Pass a comprehensive examination covering their areas of expertise.

5. Complete a doctoral dissertation on a topic approved by the candidate's advisory committee.

6. Defend the dissertation in a final oral examination.

7. Have at least one journal paper submitted, accepted or published, as approved by the advisor.

8. Present on a research topic as part of the CS Seminar Series at some point between passing the qualifying exam and the dissertation defense. This policy is effective for entering PhD students in Spring 2013 and after.

9. Seminar Attendance: The approval of the D4 form is tied to the attendance records for the department's seminar series. PhD students are required to attend a total of at least twenty CS approved seminars including all CS Seminar Series presentations, Dr. Harrison's Security Reading Group meetings, and others as announced. Master's students who add the PhD program can apply up to ten seminars attended as part of their Master's program toward the attendance requirement for doctoral students.

10.D Forms: After the successful completion of the Qualifying Examination - by or before the end of the third year in the program - the D1 Qualifying Exam Results and Doctoral Committee Approval form should be submitted to the Graduate School, followed by the D2 Plan of Study for the Doctoral Degree form. The D3 form Doctoral Comprehensive Examination Results is submitted when the student has completed the Comprehensive Exam. Graduate School policy requires the completion of the Comp Exam within five years of starting the PhD program. At least seven months must pass between the Comp Exam and the dissertation defense, which is followed by submission of the D4 Dissertation Defense form.

11 Annual Review Requirement of the Graduate School: All graduate students are required to complete the Annual Review Requirement by updating their information in the Graduate Student Progress System by the end of their second, fourth, etc. semesters of their program. The CS Department requires that this report be approved online by the student's faculty adviser and a printed copy attached to each D form before being signed by the CS Director of Graduate Studies.

*Students cannot take CMP_SC 9990 before passing the PhD qualifying exam. Pre-Qual students should take CMP_SC 8990 for Research credit.

PhD in Computer Science

All students completing a PhD degree must fulfill the following minimum requirements:

1. Complete all of the course work requirements of the Master's degree in CS or have an MS degree in CS from another institution. The student must have maintained an overall GPA of at least 3.4/4.0 in their prior graduate level course work (excluding research and problems courses).
2. Pass a qualifying examination to be admitted to candidacy in the CS PhD program.

Electrical and Computer Engineering

S. Kovaleski, Interim Chair
College of Engineering
349 Engineering Building West
(573) 882-6387
KovaleskiS@missouri.edu

The Department of Electrical & Computer Engineering is one of 9 academic departments within the College of Engineering at the University of Missouri.

Established in 1884 as the first electrical engineering program in the nation, this ABET accredited program is now home to more than 300 undergraduate students, almost 150 graduate students and 21 faculty members.

Faculty

Professor R. D. Curry**, C. H. Davis*, J. M. Gahl**, S. Gangopadhyay**, D. K. C. Ho**, N. E. Islam**, J. M. Keller*, N. D. Manring*, S. Nair**, R. M. O'Connell**, M. Skubic**, J. E. Thompson*, H. W. Tyrer Jr.**

Associate Professor M. Almarsri**, G. DeSouza**, T. G. Engel*, Z. He**, S. D. Kovaleski**, J. W. Kwon**, J. J. Legarsky**, G. Triplett**

Assistant Professor M. Becchi**, T. Han**, C. Xiao*, A. Zare**

Professor Emeritus L. A. Akers*, M. J. Devaney**, R. W. McLaren*, B. W. Sherman, K. Unklesbay

Associate Professor Emeritus R. W. Leavene Jr.*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

The University does not offer an undergraduate degree in the combined areas of Electrical and Computer Engineering. See Electrical Engineering (p. 454) and Computer Engineering (p. 438) for details on the undergraduate degree programs.

Graduate

349 Engineering Building West
Columbia, MO 65211
Phone: 573-882-4436
Email: umcengregegradoff@missouri.edu
<http://engineering.missouri.edu/ece/>

Director of Graduate Studies: James Keller

• PhD in Electrical and Computer Engineering (p. 451)

The Department also offers an MS in Computer Engineering (p. 441), an MS in Electrical Engineering (p. 458), and the College offers an interdepartmental ME in Engineering with a focus in Computer and Electrical Engineering (p. 460).

Established in 1885, the Department of Electrical & Computer Engineering has a long tradition of excellence. Our classes are small with extensive design and laboratory experimentation. Research opportunities exist for both undergraduate and graduate students in Communication

and Signal Processing, Physical Electronics, Intelligent Systems, Systems Modeling and Control, Nano and Micro Electronics, and Digital / Computer Systems.

Career Opportunities

Throughout the 20th century, the electrical engineering and computer engineering professions devised many of the innovations that dominated the technology landscape. In the 21st century, electrical and computer engineers will be at the forefront of a wide spectrum of technologies including nanotechnology, biotechnology, sensors, power generation, electric vehicles, and telecommunications.

Areas of Study

Communications and Signal Processing. Satellite remote sensing, geospatial intelligence, image/video processing, land-mine detection, speech signal processing, wireless communications, underwater communications.

Physical Electronics. Medical applications and advanced sterilization of food, water and products using pulsed power, pulsed power applications and research (MU Gigawatt Rep-rate Test Stand. Lasers, high voltage switching and power conditioning, high voltage pulse technology and plasmas with the 2.5 MV, 250 kA MU-Terawatt Test Stand), interesting plasma science applications, like high voltage accelerators to propel micro spacecraft, electromagnetic launchers, radio-frequency effects on electronics, power electronics, microwave photonics, electrooptics and photoconductive switches.

Intelligent Systems. Basic and applied research in computational intelligence (neural networks, fuzzy systems, evolutionary computation, swarm intelligence), spatial reasoning for scene understanding and human/robot interaction, pattern recognition and automated decision making, eldercare technology, computer vision and image processing, human activity analysis, cognitive robotics, landmine and explosive detection.

Systems Modeling and Control. Control systems, computer process control, digital and sampled data control, robotics, system biology; biologically realistic modeling, computational, neuroscience, theoretical neuroscience, electrophysiology.

Nano and Micro Electronics. Nano/microelectromechanical systems (N/ MEMS), micro sensors and actuators, High K dielectrics, nano structures, complex heterostructures (i.e. HEMTs, VCSELs, detectors, HBTs, etc), BioMEMS and biomedical microsystems.

Digital System and Circuit Design, Computer Process Control. Excellent computer equipment and other laboratory facilities are used for research sponsored by various government and industry sources. The ECE department is the home department of the following University centers: Center for Geospatial Intelligence, Center for Micro/Nano Systems and Nanotechnology, Center for Eldercare and Rehabilitation Technology, Center for Physical Electronics and Power Electronics, Center for Electromechanics and Energy Conversion, Interdisciplinary Center for Research in Earth Science Technologies, Institute for Computational Neurobiology.

Internal Funding

Teaching Assistantships

Teaching assistantships are normally awarded to qualified graduate students with appropriate communication skills who assist faculty

members in various phases of instruction. International students may not be appointed to teaching assistantships in their first semester on campus. International students must pass a language screening test at a proper level to be eligible for the TA positions available.

Research Assistantships

Research assistantships are granted to students qualified for working with professors on particular research projects. The research assistants are selected by faculty members who have research funds to support graduate students. Therefore, students should contact the faculty members directly for the RA possibility.

Fellowships

The department faculty actively pursue funding for selected research fellowships. Available fellowship opportunities can be found by contacting the ECE Graduate Office. Additionally, a limited number of "Teaching Fellows" are awarded annually to outstanding PhD students, particularly for those preparing for academic careers. Details can be obtained from the ECE Graduate Office.

Graduate

PhD in Electrical and Computer Engineering

Admission Contact Information

349 Engineering Building West
Columbia, MO 65211
573-882-4436
Email: umcengreogradoff@missouri.edu

The ECE department offers the Doctor of Philosophy in Electrical and Computer Engineering.

Admission Criteria for the PhD Electrical or Computer Engineering

Deadline for Fall entrance: February 15
Deadline for Spring entrance: September 1

- Minimum GPA: 3.5 (with A = 4.0) in the last 60 hours of the MS graded coursework
- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	90th percentile	will be considered	will be considered
On or After August 1, 2011	90th percentile	will be considered	will be considered

International applicants only:

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum Academic IELTS scores:

Item	Score
Listening	5.5

Reading	5.5
Writing	5.5
Speaking	5.5

- Holds the equivalent of a BS degree in electrical or computer engineering with an outstanding record, or holds the equivalent of an MS degree in electrical or computer engineering

Consideration in doctoral program admissions is given to the applicant's grade trends, experience and maturity, and to the availability of expertise in areas of the applicant's technical interest.

Required Application Materials

- Statement of Purpose (upload to the Supplemental information section of the application)
- Copies of your official transcripts (upload to the Educational History section of the application)
- Copies of your GRE scores (upload to the Test Information section of the application)
- Copies of your TOEFL or IELTS Scores (for non-native English speakers only) (upload to the Test Information section of the application)
- 3 letters of Recommendation (the department accepts electronic recommendations – in the recommendation section of the online application, enter the information for three recommenders. Each recommender will receive an email with instructions on how to complete the recommendation). The department does also accept hard copy letters of recommendation. The letters may be mailed to: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

To the Graduate School:
Official Transcripts. The mailing address is: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

Note: when registering for GRE or TOEFL exams, be sure to designate your program of interest at the University of Missouri-Columbia. MU's Institutional Code is 6875 (no departmental code is necessary).

To be accepted outright by the director of graduate studies (DGS), the student needs to have an MS degree in either Electrical Engineering or Computer Engineering.

Students who meet the academic requirements but have degrees in other engineering or science disciplines can be accepted into the PhD program by the Graduate Program Committee (GPC).

Students who don't meet the above requirements may still be admitted by the GPC if there are mitigating factors. Consideration in doctoral program admissions is given to the applicant's grade trends, experience and maturity, and to the availability of expertise in areas of the applicant's technical interest.

Outstanding BS students who meet the following requirements may be accepted directly for advisement in the department's doctoral program:

- Holds the equivalent of a BS degree in electrical or computer engineering
- GRE quantitative score of at least the 90th percentile
- TOEFL score of at least 550 paper-based. IELTS score: 5.5
- A 3.5 or better grad point average (A=4.0) in their undergraduate studies
- Submission of three letters of recommendation from persons familiar with the applicant's engineering or related work

- Submission of a statement of research interests

Additional information can be obtained from the Graduate Division of the Department of Electrical and Computer Engineering, 349 Engineering Building West, Columbia, MO 65211, or via email: umcengrecegradoff@missouri.edu

Appeal Process

All students have the right to a timely formal appeal to the GPC. Upon receipt of an admission decision or disciplinary action, the student has 10 working days in which to request a formal appeal. The DGS will convene a meeting of the GPC, the student, and the student's advocate (if appropriate) within 10 working days of receiving the request. The decision of the GPC at the hearing is final.

Transfer of Credit

The doctoral committee may recommend up to 30 hours of post-baccalaureate graduate credit from an accredited university be transferred toward the total hours required for the doctoral degree. It is the responsibility of the doctoral committee to determine the appropriateness of coursework for transfer credit. All requests for exceptions to this policy must be approved by the Dean of the Graduate School. This policy applies to students who begin their enrollment during the Fall Term 2006 and subsequent semesters.

(Note: The preceding represents a change in policy and becomes effective for graduate students beginning their doctoral programs during the Fall semester 2006. For students who began their doctoral programs prior to the fall 2006 semester, consult the appropriate catalog or the Graduate School for policies pertaining to transfer of credit.)

The committee may recommend that courses taken through MU's Extension division be counted toward the credit hour requirement. Extension or correspondence course work from institutions other than MU may not be used to meet the total hours required for the doctoral degree.

Time Limits on Transfer Credits

All courses to be applied to the plan of study must be completed within 8 years of filing the plan.

Requirements to obtain the PhD degree in Electrical Engineering and Computer Engineering

1. The student must be qualified to be a PhD candidate.
Students admitted with an MS degree must prove competency in a written qualifying examination conducted by a PhD qualifying committee within 3 semesters of admission.

Students admitted directly from a BS degree program must complete the 24 hours of graded coursework requirements of the MS degree during the first two years of their program. This will prepare them for the PhD qualifying examination process, to be passed within 4 semesters after this requirement is satisfied, and will allow them to obtain an MS degree if a thesis or project report is completed and defended, consistent with MS requirements, or to obtain an ME degree once the course work requirement has been satisfied. A student may petition the faculty for an extension of the two year requirement.
2. A minimum of 72 semester hours beyond the BS are required by the Graduate School; the student's doctoral program committee

sets the total number of credit hours and specific courses to be completed as part of his/her PhD program. However, the Graduate School requires a minimum of 15 hours of 8000/9000 level classes to be taken at MU exclusive of research, problems, and supervised study.

3. The candidate must pass a written and oral comprehensive examination.
4. The student must complete a doctoral dissertation on a topic approved by his or her Doctoral Advisory Committee and defend the dissertation in an oral final examination.

These PhD requirements apply to ECE graduate students first enrolled in MU ECE in the Fall semester 2007 or later. UM ECE graduate students enrolled prior to Fall semester 2007 may choose to follow the MU ECE PhD requirements that were in effect for their MU ECE graduate admission semester.

Selection of an Advisor

The student selects an advisor or co-advisors, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an advisor retires or leaves MU, he/she may continue to serve as a student's advisor unless there is written academic program policy prohibiting such an arrangement. If an advisor is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Doctoral Degree Forms

By the end of the second semester of study at MU, a student should begin submitting degree program forms which will aid the academic program and the Graduate School in tracking the student's progress toward degree completion. These forms include the following:

- D1 Qualifying Exam Results & Doctoral Committee Approval (<http://gradschool.missouri.edu/forms-downloads/repository/d1.pdf>)
Submitted after passing qualifying exams
- D2 Plan of Study Form (<http://gradschool.missouri.edu/forms-downloads/repository/d2.pdf>)
Submitted no later than the end of the student's third semester.
- D3 Result of the Comprehensive Examination (<http://gradschool.missouri.edu/forms-downloads/repository/d3.pdf>)
Submitted to the Graduate School within one month of exam completion
- D4 Report of the Doctoral Dissertation Defense (<http://gradschool.missouri.edu/forms-downloads/repository/d4.pdf>)
Submitted by the Graduate School deadline for the semester in which the students plan to graduate.
- Change of Committee (<http://gradschool.missouri.edu/forms-downloads/repository/cocform.pdf>)
- Plan of Study Course Substitution Form (<http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf>)

More information is available at: <http://gradschool.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php>

Qualifying Examination/Process

To be officially admitted to the PhD program, the student must pass a qualifying examination/process. The student is given two opportunities to pass the Qualifying Examination with a score of 70% or above.

Qualifying Exam Rules

1. To be eligible to take the Qualifying Examination, graduate students must be accepted for advisement in the Ph.D. program. The examination must be passed before the end of his or her second year of advisement as a Ph.D. student. Each student may take the exam twice. Students who have been accepted into the PhD program with a BS degree must complete the 24 hours of graded coursework requirements of the MS degree during the first two years of their program. This will prepare them for the PhD qualifying examination process, to be passed within two years after the requirement is satisfied, and will allow them to obtain an MS degree if a thesis or project report is completed and defended, consistent with the MS requirements, or to obtain an ME degree once the course work requirement has been satisfied. A student may petition the faculty for an extension of the two year requirement.
2. All eligible students who intend to take the exam must complete the REQUEST FOR QUALIFYING EXAMINATION form and submit it to the ECE Graduate Office within four weeks after the start of the semester. At this time the student will be asked to select two of the seven topic areas over which he or she wishes to be examined. Only students on the approved lists will be allowed to take the exam. When a student submits the REQUEST FOR QUALIFYING EXAMINATION form, the Graduate Office will provide:
 - a. The date, time and place of the examination;
 - b. A reminder to bring their ID card to the exam.
 - c. A copy of the Qualifying Examination Rules.
 - d. A copy of the Guidelines For Qualifying Exam Committee.
3. The examination shall be prepared and administered during the 12th week of both the fall and winter semesters by the Qualifying Examination (QE) Committee. The ECE Graduate Committee currently serves as the QE Committee since it contains a representative from each of the 6 focus areas in the department. The Graduate Director will select the specific date, time and place of the exam at the beginning of each semester.
4. It shall be a written examination taken by all students desiring to qualify during the given semester.
5. The exam will contain five questions from each of the two areas selected by the student. Each student must select and answer five questions from this set, with no more than three questions from one area. The exam will be closed book, with two standard pages of notes, front and back, allowed. A book of mathematical tables will be provided by the department. The exam will last four hours.
6. The QE committee shall administer the examination and identify passing candidates. The ECE faculty as a whole have the responsibility to approve that action.
 - a. Communications and Signal Processing Area;
 - b. Intelligent Systems Area;
 - c. Physical and Power Electronics Area;
 - d. System Modeling and Control;
 - e. Micro/Nano Electronics;
 - f. Digital/Computer Systems; and
 - g. Applied Physics
 - h. Foundations
2. The ECE graduate Committee serves as the QE Committee since it contains a representative from each research area. The ECE department chair appoints the Graduate Committee with input from the Graduate Director.
3. The faculty from each topic area will be responsible for maintaining a list of topics which constitute the core material an MS graduate should be expected to have mastered. The members of each group will be responsible for preparing questions for the exam covering topics from the list. For the major core focus area, questions will come from 4000/7000 – 8000 level courses. Questions for the topics in the Foundation area will be from a set of required 3000 level courses.
4. The QE Committee will solicit questions from the faculty group, but the Committee will have the responsibility of combining these questions into a fair, comprehensive exam. The QE Committee member for each group will be responsible for coordinating his or her group. The representatives of each topic group shall call a meeting of all faculty from that group for the purpose of reviewing the exam questions to be submitted to the Qualifying Exam Committee. The group's submission must be approved by a majority vote of those present.
5. Solutions will be graded by faculty members who prepared the questions. The grading must be completed within two weeks after the exam. A guideline is that each question should be doable by a strong MS graduate in 40 to 45 minutes.
6. Solutions will be graded on a 100 point scale with 70 points as a minimum passing grade.
7. Each student's performance will be reviewed by the QE Committee and a majority vote of the QE Committee is required for passing.
8. The QE Committee must report the results of the exam to the ECE Faculty within four weeks of the exam.

Qualifying Examination Guidelines

These guidelines have been prepared to help maintain consistency in the form and difficulty of the Department's qualifying examination.

1. The QE Committee shall consist of one faculty representative from each of the following topic areas, except Foundations:

Electrical Engineering

S. Kovaleski, Interim Chair

beattyt@missouri.edu

The Department of Electrical and Computer Engineering offers both the Bachelor of Science with a major in Electrical Engineering and the Bachelor of Science with a major in Computer Engineering. The undergraduate program in both degrees at the University of Missouri provides students with the requisite fundamentals in either discipline and prepares them for beginning practice in both the traditional and emerging fields of these disciplines. The degree programs are flexible 126-credit structures that provide the fundamentals of engineering, in addition to a thorough coverage of the major specialties within their respective fields. In addition, technical electives allow concentration in selected areas.

The ECE department emphasizes close interaction with industry. Industry engineers visit regularly and industry-sponsored student projects are provided to give extra dimension to the program.

Many students in the ECE department combine the electrical engineering major with the computer engineering major in a special 138-credit program. These students receive both the BS EE and BS COE degrees.

Students interested in interdisciplinary studies may use some electives to study business, premedicine, prelaw, and other areas. Students are able to choose from a wide variety of courses offered by other departments in the College of Engineering, as well as from other MU colleges, taking advantage of the multidisciplinary nature of the campus.

Commencing in the Fall Semester 2011, the Program Educational Objectives (PEOs) of the undergraduate program in Electrical Engineering at MU are to nurture graduates who:

- Communicate effectively, both in written reports and oral presentations.
- Analyze and design electrical systems effectively.
- Possess comprehensive problem-solving skills, including the ability to define problems and to evaluate alternative solutions.
- Work effectively in teams consisting of diverse cultures and disciplines.
- Are passionate about engineering, as demonstrated by their leadership, innovation, motivation, and interest in continuing education.

Commencing in the Fall 2011, the Program Educational Objectives (PEOs) of the undergraduate program in computer Engineering at MU are to nurture graduates who:

- Communicate effectively, both in written reports and oral presentations.
- Analyze and design electrical systems effectively.
- Possess comprehensive problem-solving skills, including the ability to define problems and to evaluate alternative solutions.
- Work effectively in teams consisting of diverse cultures and disciplines.
- Are passionate about engineering, as demonstrated by their leadership, innovation, motivation, and interest in continuing education.

Both the Bachelor of Science in Electrical Engineering (BS EE) and the Bachelor of Science in Computer Engineering (BS COE) require that students earn a 2.0 GPA or better in all courses that have an MU engineering prefix. All ECE courses require a grade of C or better in ECE prerequisites.

Engineering design in both the electrical engineering and computer engineering programs is provided through an integrated laboratory structure. Beginning with the first laboratory course in the fourth semester of each program, students have a significant design and laboratory experience in each semester of their respective programs.

In addition to the major core requirements, students must complete all University graduation requirements including University general education, as well as all degree and college or school requirements.

ECE Honors Program

The ECE Honors Program follows the general rules and philosophy of the College of Engineering Honors Program. Students may enter the program from the beginning of the junior year and must have a GPA of 3.0/4.0 at the start. Eligible students participate in the program by enrolling in ECE 4995 Undergraduate Honors Research in Electrical Computer Engineering for one to three credit hours, which replaces an equivalent number of hours of ECE technical electives.

The heart of the program is a research or advanced design project culminating in an undergraduate honors thesis. The project is conducted under the supervision of the honors advisor, who is an ECE faculty member selected by mutual agreement between the student and the professor. Satisfactory completion of the project requires approval (signatures) of the honors thesis by both the honors advisor and an additional faculty member, who serves as second reader of the thesis. Students who complete the program and graduate with a GPA of at least 3.0 receive the designation "Honors Scholar in Engineering" at graduation and on their diploma.

Another valuable feature of the Honors Program is that participants may reduce the number of credit hours required for degree completion to the University minimum of 120 by substituting up to six hours of credit from graduate courses through dual (undergraduate/graduate) enrollment during the last four semesters of the undergraduate program and after completion of the honors project.

Double Majors - Electrical Engineering and Computer Engineering

Many students in the ECE department combine the BS in Electrical Engineering with the BS in Computer Engineering in a special 138-credit program. These students receive both the BS EE and BS CoE degrees.

Major Program Requirements

Constitutional Elective

Select one of the following:	3
HIST 1100 Survey of American History to 1865	
HIST 1200 Survey of American History Since 1865	
HIST 1400 American History	
HIST 2210 Twentieth Century America	
HIST 2440 History of Missouri	
HIST 4000 Age of Jefferson	
HIST 4220 U.S. Society Between the Wars 1918-1945

- MS in Electrical Engineering (p. 458)

The Department also offers a PhD in Electrical and Computer Engineering (p. 451), and the College of Engineering offers an interdepartmental ME in Engineering with a focus in Computer or Electrical Engineering (p. 460).

Established in 1885, the Department of Electrical & Computer Engineering has a long tradition of excellence. Our classes are small with extensive design and laboratory experimentation. Research opportunities exist for both undergraduate and graduate students in Communication and Signal Processing, Physical Electronics, Intelligent Systems, Systems Modeling and Control, Nano and Micro Electronics, and Digital / Computer Systems.

Career Opportunities

Throughout the 20th century, the electrical engineering and computer engineering professions devised many of the innovations that dominated the technology landscape. In the 21st century, electrical and computer engineers will be at the forefront of a wide spectrum of technologies including nanotechnology, biotechnology, sensors, power generation, electric vehicles, and telecommunications.

Degrees Offered

At the University of Missouri, the Department of Electrical and Computer Engineering offers accredited programs of study leading to Bachelor of Science (BS), Master of Science (MS), and Doctoral (PhD) degrees.

Areas of study include

Communications and Signal Processing. Satellite remote sensing, geospatial intelligence, image/video processing, land-mine detection, speech signal processing, wireless communications, underwater communications.

Physical Electronics. Medical applications and advanced sterilization of food, water and products using pulsed power, pulsed power applications

and research (MU Gigawatt Rep-rate Test Stand. Lasers, high voltage switching and power conditioning, high voltage pulse technology and plasmas with the 2.5 MV, 250 kA MU-Terawatt Test Stand), interesting plasma science applications, like high voltage accelerators to propel micro spacecraft, electromagnetic launchers, radio-frequency effects on electronics, power electronics, microwave photonics, electrooptics and photoconductive switches.

Intelligent Systems. Basic and applied research in computational intelligence (neural networks, fuzzy systems, evolutionary computation, swarm intelligence), spatial reasoning for scene understanding and human/robot interaction, pattern recognition and automated decision making, eldercare technology, computer vision and image processing, human activity analysis, cognitive robotics, landmine and explosive detection.

Systems Modeling and Control. Control systems, computer process control, digital and sampled data control, robotics, system biology; biologically realistic modeling, computational, neuroscience, theoretical neuroscience, electrophysiology.

Nano and Micro Electronics. Nano/microelectromechanical systems (N/ MEMS), micro sensors and actuators, High K dielectrics, nano structures, complex heterostructures (i.e. HEMTs, VCSELs, detectors, HBTs, etc), BioMEMS and biomedical microsystems.

Digital System and Circuit Design, Computer Process Control. Excellent computer equipment and other laboratory facilities are used for research sponsored by various government and industry sources. The ECE department is the home department of the following University centers: Center for Geospatial Intelligence, Center for Micro/Nano Systems and Nanotechnology, Center for Eldercare and Rehabilitation Technology, Center for Physical Electronics and Power Electronics, Center for Electromechanics and Energy Conversion, Interdisciplinary Center for Research in Earth Science Technologies, Institute for Computational Neurobiology.

Internal Funding

Teaching Assistantships

Teaching assistantships are normally awarded to qualified graduate students with appropriate communication skills who assist faculty members in various phases of instruction. International students may not be appointed to teaching assistantships in their first semester on campus. International students must pass a language screening test at a proper level to be eligible for the TA positions available.

Research Assistantships

Research assistantships are granted to students qualified for working with professors on particular research projects. The research assistants are selected by faculty members who have research funds to support graduate students. Therefore, students should contact the faculty members directly for the RA possibility.

Fellowships

The department faculty actively pursue funding for selected research fellowships. Available fellowship opportunities can be found by contacting the ECE Graduate Office. Additionally, a limited number of "Teaching Fellows" are awarded annually to outstanding PhD students, particularly for those preparing for academic careers. Details can be obtained from the ECE Graduate Office.

Undergraduate

BSEE in Electrical Engineering

Major Program Requirements

The electrical engineering degree offers course work in all traditional areas of the electrical engineering field. Focused areas of work are offered in the areas of communications, digital systems, discrete and integrated electronics, electromagnetics, energy systems and power electronics, robotics and system control. (Focus areas are not listed on transcripts or diplomas).

Students must complete all university requirements (p. 17), including general education (p. 18), and degree requirements below.

Major core requirements

MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4100	Differential Equations	3
STAT 4710	Introduction to Mathematical Statistics	3

Graduate

MS in Electrical Engineering

Master of Science in Electrical or Computer Engineering (MS)

Admission

349 Engineering Building West, Columbia, MO 65211
 Phone: 573-882-4436
 Email: umcengregegradoff@missouri.edu
<http://engineering.missouri.edu/ece/>

Admission Criteria

Fall deadline: February 15
 Spring deadline: September 1
 Note: Applications received after these deadlines will be evaluated as time allows.

- Minimum GPA: 3.0 for the last 60 hours
- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	80th percentile	will be considered	will be considered
On or After August 1, 2011	80th percentile	will be considered	will be considered

International applicants only:

- Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum Academic IELTS scores:

Item	Score
Listening	5.5
Reading	5.5
Writing	5.5
Speaking	5.5

Required Application Materials:

- Statement of Purpose (upload to the Supplemental information section of the application)
- Copies of your official transcripts (upload to the Educational History section of the application)
- Copies of your GRE scores (upload to the Test Information section of the application)
- Copies of your TOEFL or IELTS Scores (for non-native English speakers only) (upload to the Test Information section of the application)
- 3 letters of Recommendation (the department accepts electronic recommendations – in the recommendation section of the online application, enter the information for three recommenders. Each recommender will receive an email with instructions on how to complete the recommendation). The department does also accept hard copy letters of recommendation. The letters may be mailed to: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

To the Graduate School:

Official Transcripts. The mailing address is: Graduate School, 210 Jesse Hall, Columbia, MO 65211.

Note: when registering for GRE or TOEFL exams, be sure to designate your program of interest at the University of Missouri – Columbia. MU's Institutional Code is 6875 (no departmental code is necessary).

Admissions Criteria for the MS in Electrical or Computer Engineering

To be accepted outright by the director of graduate studies (DGS), the student needs to have a BS degree in either Electrical Engineering or Computer Engineering in addition to meeting the above requirements. Students who meet the academic requirements but have degrees in other engineering or science disciplines can be accepted directly into the MS program by the graduate program committee (GPC). Such students are strongly encouraged to consult with the DGS or their advisor about appropriate bridge courses. Based on individual circumstances, students may be advised to register as an undeclared graduate student to fill in background course work prior to admission into the department.

Students who do not meet the above requirements may still be admitted on probation by the GPC if there are mitigating factors. Students admitted on probation must receive at least a 3.0 GPA for the first 12 hours of graded graduate coursework completed in their first two semesters. Failure to achieve this GPA will result in expulsion from the ECE MS program.

Appeal Process

All students have the right to a timely formal appeal to the GPC. Upon receipt of an admission decision or disciplinary action, the student has 10 working days in which to request a formal appeal. The DGS will convene a meeting of the GPC, the student, and the student's advocate (if appropriate) within 10 working days of receiving the request. The decision of the GPC at the hearing is final.

Degree Requirements

To fulfill the requirements for the MS degree, the following rules apply:

- A candidate must complete 30 hours, including at least 12 hours of 8000-level graded course work (exclusive of ECE 8990 or ECE 8085 or ECE 8010 hours).
- At least six of these graded 8000 level course hours need to come from ECE.
- At least 15 hours of graded course work (total combination of 7000 and 8000 level courses, exclusive of ECE 8990, ECE 8085, or ECE 8010 hours) must be taken from the Electrical and Computer Engineering Department course offerings.
- A maximum of six hours of graduate credit may be transferred from another campus in the University of Missouri System or other university, while a maximum of eight hours of graduate credit may be used from a previous MU master's degree.
- At most, three hours of course work in supervised study (ECE 8010) may be taken during the MS program and they will be graded on an S/U basis.
- At least one course from each of three different emphasis areas must be taken; a minimum of two of the emphasis areas must be in Electrical and Computer Engineering. (Each ECE graduate course is designated to an emphasis area. Contact the ECE graduate office for a current list).

- A minimum of 3 hours to a maximum of 6 hours of research (ECE 8990) or problems (ECE 8085) are required, based on whether the student writes a master's thesis or a master's Report.
- The student's cumulative GPA must be at least 3.0 to graduate.

The requirements for the MS degree must be met within an eight year period. Each candidate must pass a final oral examination to demonstrate mastery of the work included in the thesis or in a substantial independent project. These MS requirements apply to ECE graduate students first enrolled in MU ECE in the Fall semester 2007 or later. UM ECE graduate students enrolled prior to Fall semester 2007 may choose to follow the MU ECE MS requirements that were in effect for their MU ECE graduate admission semester.

Academic Probation

A student whose GPA drops below 3.0 is automatically placed on academic probation. In such a case, the student has one semester to raise his or her cumulative GPA to 3.0. Failure to do so will result in expulsion from the program. Additionally, a student who receives the grade of "C" in 9 hours of coursework will be expelled. As with acceptance, students here also have a right to the same formal appeal process described above.

Selection of an Advisor

Students must choose an academic advisor who will then provide guidance for the selection of coursework, and in the choice and execution of a research question. The student's academic advisor and the Director of Graduate Studies must approve all coursework used to satisfy the credit hour requirements for this degree. After performing satisfactorily for a minimum of one semester, the student, with the adviser's assistance, completes the Program of Study form that outlines the plan of study for the student's graduate program. M1 - Program of Study form

The form is forwarded through the DGS to the Graduate School for approval. In the event that an adviser retires or leaves MU, he/she may continue to serve as the student's main adviser unless there is written academic program policy prohibiting such an arrangement. If an adviser is unable or unwilling to continue to serve, the academic program, with the leadership of the DGS, will assist the student to ensure that a replacement is found.

The Program of Study form must be filed with the Graduate School by the end of the student's second semester of enrollment. Upon approval of the program by the Graduate School, the student is a candidate for the degree. If changes must be made on a student's Program of Study form, a Program of Study Substitution form is used.

Thesis Option

For students under the thesis option of the MS degree, i.e., students enrolling for ECE 8990, an M-2 Request for Thesis Committee form is required to be submitted for approval by the department DGS and the Graduate School by the end of the student's second semester.

A thesis committee is composed of three members of the MU faculty: a major adviser from the academic program, a second reader from the academic program, and an outside reader who is a member of the graduate faculty from a different MU graduate program. Upon approval of the department DGS, the student may petition the Graduate School to allow a person who is not a member of the MU graduate faculty to serve as the third reader. The petition should include a written justification for such a request and a copy of the person's curriculum vitae. The Graduate

School maintains copies of curriculum vitae previously received and approved, and if such a request is anticipated, the student should contact the Graduate School to see if the curriculum vita of a particular person is already on file. Students need to supply committee members with copies for review/evaluation at least one week prior to the defense date.

Information about submitting the thesis can be found in the Thesis and Dissertation Guidelines.

Non-Thesis Option

For students who enroll in ECE 8085 (Problems), a problem report rather than a thesis is required. The student is not required to submit the M-2 form (request for a thesis committee). Instead, the student must have the report approved by his or her advisor and two other members of the graduate faculty, forming the student's Problem Committee. It is not required that a member outside of ECE be included, although it is permissible for such a member of the MU graduate faculty to be appointed. At least one of the three members must have a primary academic appointment in ECE. Students need to supply committee members with copies for review /evaluation at least one week prior to the defense date. At that time, an announcement is to be made to the department faculty and graduate students to allow them to attend the defense. The student must defend the problem report to the committee, and make any needed adjustments in format and corrections/clarifications based on input from the committee. A final copy of the problem report must be filed with the ECE graduate office.

Report of the Master's Examining Committee

The purpose of the M-3 Report of the Master's Examining Committee Form is to have an official record of the final examining process, whether it is a thesis defense or presentation of a report. The student's committee will indicate on this form if the student has passed the final exam. This form must be submitted to the Graduate School by a deadline for the semester in which the students plan to graduate. For a report option, the 3rd reader of the committee may be from the student's department. The form is due in the Graduate School two weeks prior to graduation.

Engineering

Programs in Engineering are multi-department programs, and administered by the College of Engineering. Requirements are determined based on the specific area of interest. Options include a minor at the undergraduate level, and a master's degree at the graduate level.

College of Engineering
W1025 Lafferre Hall
Columbia, MO 65211
<http://engineering.missouri.edu>

Faculty

Instructor D. R. Huaco, R. T. Whelove

Please see the appropriate degree program pages for faculty information.

- * Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Minor in Engineering (p. 460)

Graduate

- ME in Engineering (p. 460)

The College of Engineering offers the Master of Engineering degree for graduate students interested in a terminal master's degree, who have a demonstrated need for a professional, non-research degree in engineering, and have an academic interest in a specific focus area within engineering.

Several departments in the College of Engineering administers an ME degree focusing in that area.

Note: A focus area is not listed on the MU transcript. Hence the transcript and the diploma for any student completing an ME degree will only indicate Master of Engineering, with no designation of any specific department.

Undergraduate

Minor in Engineering

The minor in engineering is designed for students majoring in disciplines such as physics, math, chemistry and computer science, but it is available to students in all disciplines. It consists of 18 or 19 hours of engineering courses as listed below.

Required Courses

ENGINR 1000	Introduction to Engineering	2
ENGINR 1100	Engineering Graphics Fundamentals	2
ENGINR 1200	Statics and Elementary Strength of Materials	3
ENGINR 2100	Circuit Theory for Engineers	3
ENGINR 2300	Engineering Thermodynamics	3
INFOTC 1040	Introduction to Problem Solving and Programming	3

CMP_SC 1050	Algorithm Design and Programming I	3
Engineering Elective - choose from the list below:		
BIOL_EN 2180	Engineering Analysis of Bioprocesses	3
CH_ENG 2118	Introduction to Energy Technology and Sustainability	3
CH_ENG 2225	Mass and Energy Balance	3
CV_ENG 3100	Fundamentals of Transportation Engineering	4
CV_ENG 3200	Fundamentals of Environmental Engineering	4
CV_ENG 3700	Fluid Mechanics	3
CV_ENG 4102	Infrastructure Management	3
CV_ENG 4250	Environmental Regulatory Compliance	3
CV_ENG 4500	Introduction to Construction Management	3
ENGINR 2200	Intermediate Strength of Materials	3
ECE 1210	Introduction to Logic Systems	3
IMSE 2030	Fundamentals of Systems Design and Analysis	3
IMSE 2110	Probability and Statistics for Engineers	3
IMSE 2210	Linear Algebra for Engineers	3
IMSE 2710	Engineering Economic Analysis	3
MAE 2600	Dynamics	3

Graduate

ME in Engineering

NOTE: Focus areas do not appear on diplomas or transcripts.

ME with a focus in Biological Engineering

Recognizing the immense promise of bioengineering and the unique position of MU for a strong bioengineering program, the College of Agriculture, Food and Natural Resources (CAFNR) and the College of Engineering (CoE) joined forces to form the Department of Biological Engineering (BE). BE unites existing faculty and infrastructure from both colleges. CoE contributes biomedical engineering capabilities while CAFNR brings strengths in bioprocess and bioenvironmental engineering. Biological engineering confers both masters and doctoral degrees to students who satisfy the general requirements of the Graduate School and the specific requirements for the masters degree and the doctoral degree of the Department of Biological Engineering

ME with a focus in either Electrical or Computer Engineering

The ME degree is designed for entering master students interested in a terminal master's degree, who have a demonstrated need for a professional, non research degree in engineering, and have an academic interest in the department. Please note that the official University transcript and diploma will only indicate Master of Engineering, with no designation of the focus area. The entrance requirements for the ME degree/Electrical and Computer Engineering Focus are the same as for the MS in Electrical Engineering and MS in Computer Engineering. Note: When registering for the GRE and TOEFL exams, be sure to designate the University of Missouri-Columbia and your program of interest as locations to receive the scores. MU's Institutional Code for the GRE and TOEFL is: 6875.

ME with a focus in Industrial and Manufacturing Systems Engineering

The Master of Engineering (ME) degree is a non-research thirty-six-credit-hour program for U.S. students designed to be a terminal degree. The ME curriculum is based upon a seven-course core with the remaining 15 hours made up of courses appropriate to the student's concentration area.

ME Entrance requirements

- GPA of 3.0 on 4.0 scale in the last 60 hours of the BS program
- Minimum GRE scores:

When did you take the GRE?	Verbal	Quantitative	Analytical
Prior to August 1, 2011	will be considered	80th percentile	will be considered
On or After August 1, 2011	will be considered	80th percentile	will be considered

- Minimum TOEFL scores (international applicants only):

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum Academic IELTS scores

Item	Score
Listening	5.5
Reading	5.5
Writing	5.5
Speaking	5.5

- 3 letters of recommendation
- statement of purpose
- transcripts

When registering for the GRE and TOEFL exams, be sure to designate the University of Missouri - Columbia and your program of interest as locations to receive the scores. MU's institutional code for the GRE and TOEFL is 6875.

Graduation Requirements

An ME student must complete a minimum of 36 credit hours of graduate course work. At least 15 hours must be in 8000+ level courses and a minimum of 21 hours must be from the College of Engineering. The student must maintain at least a 3.0 cumulative gpa and complete the program in eight years. A project may be required by the adviser. For additional degree requirements based on the focus area, students should consult with the specific College of Engineering Department.

How to Apply

Applicants must concurrently apply to the MU Graduate School and the engineering department offering the focus area interest. Contact the department *before* applying for specific instructions.

Industrial Engineering

Luis G. Occeña, Chair
College of Engineering
E3437 Lafferre Hall
(573) 882-2692
<http://engineering.missouri.edu/imse>

Industrial and manufacturing systems engineering is a blending of natural sciences, engineering science, mathematics, computers, social science and management. This fusion of diverse skills allows industrial engineers to design and implement socio-technical systems - complex combinations of people and technology brought together to solve problems. With its diversity, industrial engineering is used in a wide variety of areas in both manufacturing and service industries.

Industrial engineers in a manufacturing organization address many issues including designing workplaces, considering not only the capabilities of machines, but also the physiological and psychological capabilities of humans. They may design computer-integrated manufacturing systems with robots and computer systems to control production or manage inventory and quality of complex products, determining plant and warehouse locations. They may also develop sales forecasts, evaluate proposals to produce new products and build new or improved production facilities.

The same skills used as an industrial engineer to design manufacturing systems are also useful in designing better systems to care for patients in hospitals, to facilitate the judicial process, to provide faster and more accurate mail distribution and to improve airline routing and reservation methods. In effect, the industrial engineer may be involved in the design of a range of systems that provide beneficial services at a cost that society can afford.

The department offers the Bachelor of Science with a major in Industrial Engineering (BSIE), and 5 year Industrial Engineering BSIE/MS and BSIE/MBA programs. The department also offers students the opportunity to obtain Lean Six Sigma Green Belt certification.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSIE in Industrial Engineering (p. 464)

Advising Contact

James S. Noble, Director of Undergraduate Studies

Scholarship Information Contact

Luis G. Occeña

Industrial engineering undergraduates complete a curriculum similar to all engineering students during the first two years. The objective of this curriculum is to give the student a rigorous foundation in mathematics,

natural sciences, basic engineering sciences, applied probability and computer science, as well as a complementary and meaningful exposure to the humanities and social sciences.

In addition to the foundational courses, students gain knowledge of optimization methodologies, static and dynamic modeling. They also learn evaluation techniques for the modeling and evaluation of integrated systems of people, technology and information in the areas of strategic planning, production systems, control systems, quality systems, information systems, product and process design.

These fundamental skills provide the foundation from which students learn to develop systematic and integrated solution approaches to large-scale enterprise problems. In order to be successful as they begin their careers (or graduate study) students learn to communicate effectively in both oral and written forms, and become proficient in working in diverse teams of individuals.

Lastly, the curriculum prepares the student to practice in an ethical and professional manner, to serve as well as benefit from the engineering profession, and to continue the learning of and the contribution to the advancement of industrial and manufacturing systems engineering concepts.

Industrial engineering design experiences are integrated throughout the curriculum, many times in a team-based environment. Industrial engineering design is the process of developing and improving integrated systems that include people, materials, information, equipment and energy.

Educational Objectives

Graduates of the Department of Industrial and Manufacturing Systems Engineering (IMSE) at the University of Missouri are able to:

- Assess and create enterprise value through innovative structured problem solving, in order to make processes faster, more innovative, reliable or cost-efficient
- Analyze and design optimized solutions to systems of people, technology and information
- Provide leadership for and communicate effectively in a team-based environment in order to be agents of change in dynamically changing organizations

Educational Outcomes

All IMSE BSIE graduates should have:

- **Foundational knowledge** in mathematics, natural sciences, engineering sciences, applied probability, computer science, humanities and social science.
 - ABET a) knowledge of math, science, engineering
 - ABET h) understanding of global/societal context of engineering
 - ABET j) knowledge of contemporary issues
- **Optimization skill sets** for modeling, optimization and evaluation of integrated systems of people, technology and information.
 - ABET b) ability to design/conduct experiment; data analysis
 - ABET k) ability to use techniques, skill and tools
- **Problem-solving ability** based upon knowledge and skills to develop integrated solutions to large-scale, socio-technical problems
 - ABET c) ability to design integrated systems
 - ABET e) ability to identify, formulate and solve IE problems
 - ABET k) ability to use techniques, skill and tools

- **Communication and group dynamics skills** to communicate in both oral and written forms and to become proficient in working in diverse teams of individuals.
 - ABET d) ability to function in teams
 - ABET g) ability to communicate effectively
- Understanding of **professional and ethical behavior** to be prepared for ethical decision making, service to the engineering profession, and to have the means to continue in the acquisition of knowledge.
 - ABET f) understanding of professional/ethical responsibility
 - ABET i) recognition of need for life-long learning.

In summary, graduates of the Department of Industrial and Manufacturing Systems Engineering (IMSE) will possess a strong foundation upon which they can grow professionally, and continue to build a focused set of fundamental and engineering knowledge and skills that are integrated and applicable to real-world problems in any enterprise setting.

Because industrial engineering graduates are capable of solving complex problems requiring an understanding of an entire organization, they become prime candidates for top management or administrative positions.

IMSE Honors Program

The IMSE Honors Program follows the regulations and philosophy of the College of Engineering Honors Program, and as such is intended to encourage, facilitate and reward independent study by high-ability undergraduate students.

The heart of the program is an undergraduate honors project, undertaken and completed by the time of graduation while enrolling in 1 to 6 credits of IMSE 4995 Undergraduate Research Industrial Engineering - Honors. The academic credit for the honors project (1-6 credits in IMSE 4995 replaces an equivalent number of credits of IMSE or Technical electives. The project is conducted under the direction of an IMSE professor (honors advisor) who is selected by the student, with agreement by the professor. The project culminates in an honors thesis, which is read and approved by the honors advisor and then approved by the chair of the IMSE honors committee. A finished copy of the honors thesis, signed by the honors advisor and second reader, is required for satisfactory completion of the project.

Academic Qualifications for the Honors Program

In the case of a transfer student, transferred credit plus MU credit must average 3.0/4.0. A student is typically eligible for the honors program at the junior year of their undergraduate program.

The successful honors scholar is given a degree of flexibility in the program of study. Additionally, honors scholars may reduce the credits required for degree completion to the University minimum (i.e., 120 credits) by substituting graduate course credits through dual enrollment (undergraduate/graduate at MU) during the last two semesters of the undergraduate program.

Honors students must maintain and graduate with a 3.0 overall GPA.

Lean Six Sigma Green Belt Certification

IMSE students have the opportunity to obtain a Lean Six Sigma Green Belt certification either during their degree program or after. Certification requires students to obtain a GPA average of 2.5 or better in IMSE 4110, IMSE 4310, and IMSE 4610, then they must successfully complete

IMSE 4385 - Lean Six Sigma Green Belt Project (a 1 credit hour course where DMAIC is used to improve a process within an organization).

Director of Graduate Studies: Cheng-Hsiung A. Chang

- MS in Industrial Engineering (p. 465)
- PhD in Industrial Engineering (p. 466)

About IMSE

The graduate program in industrial engineering provides a scholarly environment in which highly qualified, creative students may obtain the knowledge and develop the skills necessary to solve complex industrial, governmental and societal system design problems. These systems are required to operate within increasingly complex constraints, thus requiring the use of sophisticated and creative designs. The industrial engineer responsible for such designs must be capable of applying a broad spectrum of scientific tools if the most effective systems are to be obtained.

Our master of science program is designed to provide a basic understanding of these tools and experience in the application of these tools in the design process. The doctor of philosophy program is designed to provide the specialized knowledge and skills necessary to develop new tools or methods for solving complex systems design problems. Information on engineering licensure is detailed under Professional Engineering Registration.

General Admission Guidelines

Acceptance for advisement in the department's graduate programs is available to students with an ABET accredited undergraduate engineering degree. Engineering graduates who have not taken linear programming, linear algebra, statistical quality control or engineering economic analysis must complete 12 hours of additional course work before graduation.

Students with baccalaureate degrees in mathematics, physics, chemistry or computer science may be accepted if they have completed 13 hours of calculus, three hours of differential equations and six hours of calculus-based probability and statistics. Several factors are considered in evaluating an applicant's capability, such as overall GPA, grade trends and major area grades. In addition, each applicant is required to take the general test of the GRE and international students must take the TOEFL and TWE, or IELTS.

Facilities and Resources

Laboratory facilities in several major application areas, both within the department and in the college, support the academic program. Neighboring industries, city, county and state government agencies, local hospitals and nearby large metropolitan centers provide a reservoir of research and design opportunities.

Computing and Reference Materials

The department has access to the University of Missouri System computing network and maintains its own computing facilities for

student use. Besides Ellis Library facilities, an excellent collection of mathematical, statistical and engineering books and reference materials are housed in the engineering library and the industrial and manufacturing systems engineering departmental library.

Funding

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students. These forms of financial assistance are supported by funds made available through state, federal and industrial graduate support programs and through research grants from various industrial and governmental agencies

Undergraduate

BSIE in Industrial Engineering

Major Program Requirements

In addition to the major core requirements, students must complete all University graduation requirements (p. 17) including University general education (p. 18), as well as all degree and college or school requirements.

Major Core Requirements

MATH 1500	Analytic Geometry and Calculus I	5
MATH 1700	Calculus II	5
MATH 2300	Calculus III	3
MATH 4100	Differential Equations	3
CHEM 1320	College Chemistry I	4
PHYSICS 2750	University Physics I	5
PHYSICS 2760	University Physics II	5
INFOTC 1040	Introduction to Problem Solving and Programming	3
ENGINR 1100	Engineering Graphics Fundamentals	2
ENGINR 1200	Statics and Elementary Strength of Materials	3
ENGINR 2300	Engineering Thermodynamics	3
ENGINR 2100	Circuit Theory for Engineers	3
IMSE 1000	Introduction to Industrial Engineering	1
IMSE 2030	Fundamentals of Systems Design and Analysis	3
IMSE 2110	Probability and Statistics for Engineers	3
IMSE 2210	Linear Algebra for Engineers	3
IMSE 2710	Engineering Economic Analysis	3
IMSE 3810	Ergonomics and Workstation Design	3
IMSE 4110	Engineering Statistics	3
IMSE 4210	Linear Optimization	3
IMSE 4230	Operations Research Models	3
IMSE 4280	Systems Simulation	3
IMSE 4310	Integrated Production Systems Design	3
IMSE 4350	Production and Operations Analysis	3
IMSE 4410	Management Information Systems Design	3
IMSE 4550	Computer Aided Design and Manufacturing	4
IMSE 4610	Engineering Quality Control	3
IMSE 4970	Capstone Design I	1
IMSE 4980	Capstone Design II	3
IMSE electives		6
Choose from the following:		6

IMSE 3030	Manufacturing and Supply Systems	3
IMSE 4001	Topics in Industrial and Manufacturing Systems Engineering	3
IMSE 4085	Problems in Industrial Engineering	1-3
IMSE 4330	Material Flow and Logistics System Design	3
IMSE 4420	Web-Based Information Systems	3
IMSE 4560	Introduction to Rapid Prototyping	3
IMSE 4570	Computer Integrated Manufacturing Control	3
IMSE 4750	Entrepreneurial Innovation Management: Enterprise Conception	3
IMSE 4770	Entrepreneurial Innovation Management: Enterprise Operations	3
IMSE 4990	Undergraduate Research in Industrial Engineering	1-3
IMSE 4995	Undergraduate Research Industrial Engineering - Honors	1-3
Engineering elective		3
Choose from the following:		3
BIOL_EN 2180	Engineering Analysis of Bioprocesses	3
CV_ENG 2080	Introduction to Dynamics	3
CV_ENG 3700	Fluid Mechanics	3
ENGINR 2200	Intermediate Strength of Materials	3
MAE 2600	Dynamics	3
Technical electives		6

A technical elective is defined as any course relevant to the degree program but not required, such as computer science, engineering, mathematics, science and select business courses.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year			
Fall	CR Spring		CR
MATH 1500	5 MATH 1700		5
CHEM 1320	4 ENGINR 1100		2
IMSE 1000	1 IMSE 2030		3
Constitutional Requirement (Social Science Elective)	3 ECONOM 1014 (Required Social Science Elective)		3
Humanities / Social Science Elective	3 ENGLISH 1000		3

Graduate

MS in Industrial Engineering

Admission Contact Information

Jonni Sutton (suttonjo@missouri.edu)
 E3437 Thomas and Nell Lafferre Hall; Columbia, MO 65211
 573-882-2691

The Master of Science in Industrial Engineering (MS) degree consists of two options: a 30-credit hour research oriented program requiring a thesis or a 30-credit hour application oriented program requiring a project report. The MS Industrial Engineering thesis option curriculum is built upon the choice of a concentration area around which students can mold their overall academic effort including six hours of research. The three current focus areas are Operations Research and Statistics, Manufacturing/Production/Service Systems and Human and Enterprise Systems. Other focus areas are in development. The MS Industrial Engineering project option requires three hours of an approved project advised by a faculty member in lieu of a thesis, and one more course.

Master of Engineering

The Master of Engineering (ME) degree is a non-research thirty-six-credit-hour program for U.S. students designed to be a terminal degree. The ME curriculum is based upon a seven-course core with the remaining 15 hours made up of courses appropriate to the student's concentration area.

Dual Master's Degree Programs: Master of Science and MBA

The Department of Industrial and Manufacturing Systems Engineering, in cooperation with the College of Business, offers a dual master's degree program for those students who wish to combine the specialized skills of the industrial engineer with the general knowledge of the professional manager. The program was developed in recognition of the fact that solutions to organization problems often require that the engineer's analytical abilities be applied simultaneously with the manager's integrative perspective. This dual program has been carefully structured to provide the necessary academic background to obtain an MS in industrial engineering and an MBA simultaneously, in a minimum amount of time, usually two academic years.

Master of Science and MHA

The Department of Industrial and Manufacturing Systems Engineering, in cooperation with the health services management program of the School of Medicine, offers a dual master's degree program to prepare its graduates for careers in the design and administration of health-care delivery systems and organizations. The program was developed in recognition of the highly complex nature of health-care organizations. The program's basic objective is to fuse competencies in health-service management and in health-systems design. The required courses in the industrial engineering program serve as the area of specialization in the health services management program, and the required courses in the health-services management program are used as electives in the industrial engineering program. As a result, it is possible for the student to earn an MHA in health-services management and an MS in industrial engineering simultaneously.

Application Deadlines

Applications accepted all year.

Fall decision dates: March 1

Spring decision date: September 1

Minimum Admission Criteria

- Minimum GPA: 3.0/4.0
- Test of Written English: (TWE) of 4.0 (international applicants only)
- Minimum Academic IELTS OVERALL score: 6.0; or Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)	
80	550	
• Minimum GRE scores:		
When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	350	700
On or After August 1, 2011	143	155

- Foreign Language: No foreign language is required in either program.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the IMSE Graduate Program:

- 3 letters of recommendation
- Statement of Purpose
- Curriculum Vitae (CV)
- GRE scores

TA/RA Hiring

This academic department does **not** have any function of financial Aid. Rather, IMSE hires TA/RA automatically based on the department needs. No separate application or contacts are necessary; all top ranked applicants will be considered.

Degree Completion Requirements

The Master of Science in Industrial Engineering (MS) degree consists of two options: a 30-credit hour research oriented program requiring a thesis or a 30-credit hour application oriented program requiring a project report. The MS Industrial Engineering thesis option curriculum is built upon the choice of a concentration area around which students can mold their

overall academic effort including six hours of research. The three current focus areas are Operations Research and Statistics, Manufacturing/Production/Service Systems and Human and Enterprise Systems. Other focus areas are in development. The MS Industrial Engineering project option requires three hours of an approved project advised by a faculty member in lieu of a thesis, and one more course.

PhD in Industrial Engineering

Admission Contact Information

Jonni Sutton (suttonjo@missouri.edu)
 E3437 Thomas and Nell Lafferre Hall; Columbia, MO 65211
 573-882-2691

About the Doctoral Degree

Programs are individually tailored to meet students' objectives and to culminate in an original research dissertation. The PhD builds upon the MS programmatic areas. The three current focus areas are Operations Research and Statistics, Manufacturing/Production/Service Systems and Human/Enterprise Systems. Other focus areas are in development. Fundamental IE knowledge in each is expected. The basic goals of the PhD program are to provide students with a solid understanding of the theoretical bases for the latest tools and techniques of systems analysis and design, an extensive experience in applying these analyses and design tools and techniques, and research experience in the development of new tools or applications of existing techniques to design or analyze problems.

Application Deadlines

Applications accepted all year.
 Fall decision dates: March 1
 Spring decision date: September 1

Minimum Criteria to be Considered for Admission

- Minimum BS GPA: 3.3/4.0; MS GPA: 3.5/4.0
- Minimum OVERALL IELTS scores: 6.0; or Minimum TOEFL scores:

Internet-based test (iBT)	Paper-based test (PBT)
80	550

- Minimum GRE scores:

When did you take the GRE?	Verbal + Quantitative	Analytical
Prior to August 1, 2011	350	700
On or After August 1, 2011	143	155

- Foreign Language: No foreign language is required in either program.
- Completed master's thesis or equivalent (Non-thesis MS is not considered).
- Compatible research interests with a member of the IMSE faculty.
- BS in Math is very welcome in OR focus.

Note: Only highly qualified students are accepted for advisement in the PhD program. The faculty looks for excellence in undergraduate and graduate work, high GRE scores, thesis training, and strong indications of research potential.

Notification

This department does not use "rolling admission." Applicants will be notified within a month after decision date.

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the IMSE Graduate Program:

- 3 letters of recommendation
- Statement of Purpose
- Curriculum Vitae (CV)
- GRE scores
- English thesis or draft (in PDF file or hard copy)

TA/RA Hiring

This academic department does **not** have any function of financial Aid. Rather, IMSE hires TA/RA automatically based on the department needs. No separate application or contacts are necessary; all top ranked applicants will be considered.

Degree Completion Requirements

The granting of a PhD requires completion of five major requirements:

1. A qualifying examination,
2. A course of study (Study Plan),
3. Comprehensive examination,
4. Acceptance of dissertation proposal, and
5. Final public defense of the completed dissertation.

Information Technology

Dong Xu, Chair
 College of Engineering (BS in Computer Science and BS Information Technology)
 College of Arts and Science (BA in Computer Science)
 201 Engineering Building West
 (573) 884-1887
engineering.missouri.edu/cs

The information technology (IT) degree program was launched in 2005 with a gift from AT&T/SBC. IT students collaborate with students from other disciplines to create software applications, produce videos and films and use technology to solve a wide range of complex problems. The program proves attractive to students because of its distinguished faculty and state-of-the-art facilities that greatly exceed what is available at competing institutions.

This degree program is offered by the Computer Science Department within the College of Engineering. Career opportunities include database administration, web design, cyber security, game development, film production, and more.

Graduate

While the College of Engineering does not offer a graduate degree specifically in Information Technology, it does offer a number of graduate degrees in closely related areas such as Computer Science (p. 445), and Computer Engineering (p. 440). The University also offers a number of information technology degrees in its other Colleges, and through interdisciplinary programs such as Health Informatics (p. 641), Health Administration (p. 639), or Informatics (p. 645). Or you may browse a complete list of degree options (p. 5) at the University of Missouri.

Undergraduate

BS in Information Technology

Major Program Requirements

To receive the Bachelor of Science Degree in Information Technology, the candidate must successfully complete 126 semester hours of credit including the following distribution: Computer Science (CMP SC) course requirements - 55 hours of CMP SC/INFOTC core courses, 12 hours of related math and business courses, 9-12 hours of science, 15-22 hours of courses in a minor and any remaining hours for elective courses. The BS IT degree requires the completion of at least 9 hours of mathematics and statistics including 3 hours of business calculus. An INFOTC student can earn a minor in a related area outside of INFOTC/CMP SC.

Information Technology students must earn a C-range grade or better in all INFOTC/CMP SC courses that are prerequisites for other INFOTC/CMP SC courses that the student takes. To graduate, a student must earn a cumulative UM grade point average of 2.0 or better and a 2.0 grade point average or better in all CMP SC/INFOTC courses.

The Engineering Career Services Office, W1025 Lafferre Hall, can assist students in searching for employment opportunities and for internship/co-op positions.

These course requirements apply to students beginning full-time Fall 2013 or after.

In addition to the major core requirements, students must complete all University graduation requirements including University general education, as well as all degree and college or school requirements. See course descriptions for prerequisites.

Major Core Requirements

Computer Science courses		21
CMP_SC 1000	Introduction to Computer Science	1
CMP_SC 1050	Algorithm Design and Programming I	3
CMP_SC 2050	Algorithm Design and Programming II	3
CMP_SC 2830	Introduction to the Internet, WWW and Multimedia Systems	3
CMP_SC 3380	Database Applications and Information Systems	3
CMP_SC 4320	Software Engineering I	3
CMP_SC 4970	Senior Capstone Design I	3
CMP_SC 4980	Senior Capstone Design II	2
Information Technology Core Courses		9
INFOTC 2610	Audio/Video I	3
INFOTC 2810	Fundamentals of Network Technology	3
INFOTC 2910	Cyber Security	3

Information Technology Technical Electives 24

Choose from below or with advisor approval (minimum of 12 hours at 3000 level or above):

CMP_SC 3530	UNIX Operating System	3
CMP_SC 4380	Database Management Systems I	3
CMP_SC 4830	Science and Engineering of the World Wide Web	3
INFOTC 1610	Introduction to Entertainment Media	3
INFOTC 2620	Computer Modeling and Animation I	3
INFOTC 3620	Computer Modeling and Animation II	3
INFOTC 3610	Audio/Video II	3

BS in Information Technology with Emphasis in Information Systems

Major Program Requirements

Students are no longer being accepted into this emphasis area. Students should refer to the degree requirements for the BS in Information Technology (p. 467).

BS in Information Technology with Emphasis in Media Technologies

Major Program Requirements

Students are no longer being accepted into this emphasis area. Students should refer to the degree requirements for the BS in Information Technology (p. 467).

Semester Plan

A sample plan of study has not been designed for this emphasis. Students should refer to the semester plan for the BS in Information Technology (p. 467), or contact the academic department for assistance with academic planning.

BS in Information Technology with Emphasis in Networks and Wireless Technologies

Major Program Requirements

Students are no longer being accepted into this emphasis area. Students should refer to the degree requirements for the BS in Information Technology (p. 467).

Semester Plan

A sample plan of study has not been designed for this emphasis. Students should either refer to the semester plan for the BS in Information Technology (p. 467), or contact the academic department for assistance with academic planning.

Minor in Information Technology

A minor in Information Technology is offered through the College of Engineering. To obtain a minor, a student must complete courses in a sequence approved by the Department of Computer Science. The student must earn a 2.0 GPA in all courses counting toward the minor. At least 9 hours must be taken in residence at MU. A total of 15 credit hours are required.

The following courses are required for sequence one. At least 9 hours must be at the 2000 level or above. For other possible sequences, contact the department.

The Department of Mechanical and Aerospace Engineering prepares students for productive careers in mechanical engineering related disciplines. The program focuses on instruction in the thermal and mechanical systems areas as defined by the Accreditation Board for Engineering and Technology (ABET). To support that mission, the Department has been divided into the focus areas of Design and Manufacturing, Dynamics and Controls, Materials, and Thermal and Fluid Sciences. (NOTE: Focus areas are not listed on transcripts or diplomas.)

The department endeavors to present a strong experimental program through laboratory experiences to expose undergraduate students to modern instrumentation and measurement methodologies. Students work in well-equipped laboratories in design optimization, engineering computation, fluid power dynamics and control, materials, structural dynamics, measurement and instrumentation, laser processing, heat transfer and fluid dynamics, stress measurement and nondestructive evaluation.

The MU Mechanical Engineering program offers a Bachelor of Science in Mechanical Engineering (BSME) and prepares students for practice of the profession in industry or government or for further study toward other degrees such as the JD, MD, MS and PhD.

Mission Statement

The mission of the Mechanical and Aerospace Engineering Department is to:

Prepare our students for successful careers in the mechanical engineering profession, conduct high quality and innovative research, and serve the community and industry providing educational and research resources.

Program Educational Objectives

The educational objectives of the undergraduate program in Mechanical Engineering are to produce graduates who (during the first several years following graduation)

- are able to apply the analytical, experimental, and computational techniques to solve engineering problems associated with the design and manufacture of devices, machines and systems (a,b,e,k);
- are able to synthesize and analyze integrated thermal/fluid and mechanical systems (a,c,e,k);
- are able to communicate effectively and work collaboratively on multidisciplinary teams (d,g);
- contribute to society and the profession through professional activities, and understand the impact of engineering solutions on a diverse and global society and their professional and ethical responsibility (f,h,j);
- engage in life-long learning necessary to advance professionally through continued education and training (a,h,i,j);
- succeed in graduate studies in mechanical engineering or a related field if pursued (a-k).

Note: letter(s) in parentheses indicates ME Program Outcome(s).

Program Outcomes

Students from the Mechanical Engineering program will attain (by the time of graduation):

a. an ability to apply knowledge of mathematics, science, and engineering

a1. a knowledge of chemistry and calculus-based physics with depth in at least one;

a2. an ability to apply advanced mathematics through multivariate calculus and differential equations;

a3. familiarity with statistics, linear algebra, and numerical methods;

b. an ability to design and conduct experiments, as well as to analyze and interpret data;

c. an ability to design thermal, fluid, and mechanical systems, components, or processes to meet desired needs within realistic

constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;

d. an ability to function on multi-disciplinary teams;

e. an ability to identify, formulate, and solve mechanical engineering problems;

f. an understanding of professional and ethical responsibility;

g. an ability to communicate effectively in oral, written and graphical forms;

h. the broad education necessary to understand the impact of engineering solutions global, economic, environmental, and societal context;

i. a recognition of the need for, and an ability to engage in, life-long learning;

j. a knowledge of contemporary issues in mechanical engineering;

k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice in the areas of design and manufacturing, dynamics and controls, thermal and fluid systems, and mechanics and materials.

Double Majors and Dual Degrees

Dual majors and dual degrees are possible at the undergraduate level. These could lead to degrees in the College of Engineering and the College of Arts and Sciences or the College of Agriculture. Dual enrollments could also lead to two engineering majors within the College of Engineering. Any of these dual enrollments would add to the traditional 126-credit undergraduate degree program. Consult with the directors of undergraduate studies of the departments involved for further information.

MAE Honors Program

The MAE Honors Program follows the general rules, regulations and philosophy of the College of Engineering Honors Program, and as such is intended to encourage, facilitate and reward independent study by high-ability undergraduate students.

The heart of the program is an undergraduate honors project, undertaken and completed by the time of graduation while enrolling in 1 to 6 credits of MAE 4995 Undergraduate Honors Research Mechanical & Aerospace Engineering. The academic credit for the honors project (1-6 credits in MAE 4995 replaces an equivalent number of credits of technical or MAE elective. The project is conducted under the direction of an MAE professor (honors advisor) who is selected by the student, with agreement by the professor. The project culminates in an honors thesis, which is read and approved by the honors advisor and then approved by the chair of the MAE honors committee. A finished copy of the honors thesis, signed by the honors advisor and second reader, is required for satisfactory completion of the project.

Academic Qualifications for the Honors Program

In the case of a transfer student, transferred credit plus MU credit must average 3.0/4.0. A student is typically eligible for the honors program at the junior year of their undergraduate program.

The successful honors scholar is given a degree of flexibility in the program of study. Additionally, honors scholars may reduce the credits required for degree completion to the University minimum (i.e., 120 credits) by substituting graduate course credits through dual enrollment

(undergraduate/graduate at MU) during the last two semesters of the undergraduate program.

Honors students must maintain and graduate with a 3.0 overall GPA.

In the case of a transfer student, transferred credit plus MU credit must average 3.0/4.0. A student is typically eligible for the honors program at the junior year of their undergraduate program.

About Mechanical & Aerospace Engineering

Like markets merging together to create a global economy, this decade has approached the exciting frontier of joint research. The marriage of Mechanical Engineering to related fields has contributed to a new "Interdisciplinary Era". In meeting the challenges brought on by this co-operative approach to engineering, the Department of Mechanical & Aerospace Engineering (MAE) at the University of Missouri has broadened its scope in both education and research while maintaining strengths in the fundamental disciplines: Dynamics & Control, Design & Manufacturing, Materials & Solids and Thermal & Fluid Science Engineering. Such well-established academic traditions in the undergraduate and graduate curriculum as well as nationally renowned research programs are the basis for MAE having become the largest department in the College of Engineering at MU. An equally important aspect contributing to the quality of the MAE department is the aggressive pursuit of funding, by our faculty, to establish nationally recognized research programs. Well-earned support through sizable funding from both federal agencies and industry are valuable resources in the promotion of our graduate research and undergraduate teaching.

Career Opportunities

Graduate programs are planned to prepare students for advanced professional engineering careers. In recognition of the broad nature of the field of mechanical and aerospace engineering, considerable latitude in programs is encouraged so students may prepare for employment in industry, education and government. The usual purpose of a PhD program is to prepare a person for a career in research or teaching. The program is oriented toward research culminating in a dissertation suitable for publication.

Areas of Study

A student may pursue an area of concentration selected from AI/expert systems, automation, bioengineering, combustion, control, creep and

plasticity, design optimization, numerical methods, computational fluid dynamics, fracture mechanics, heat transfer, interactive computer graphics, laser diagnostics, manufacturing systems, materials science, mechanical syntheses, mechatronics, mechanics, parallel computation, residual stress, robotics, thermal systems design and management and ultrasonic nondestructive evaluation.

Licensure

Information on degree requirements for engineering licensure is detailed under Professional Engineering Registration.

Facilities and Equipment

The department has several specialized laboratories in aerosol mechanics, combustion, computer control, creep and fracture mechanics, fluid mechanics and heat transfer, manufacturing, materials science and structural dynamics.

Besides the modern instrumentation and equipment normally found in well-equipped mechanical and aerospace engineering laboratories, the department has, or has access to, such specialty items as MTS and Instron material and structural test equipment, wind tunnels, X-ray and a scanning electron microscope facility, computer control systems, a scanning laser vibrometer, a microscale heat transfer and electronic coding laboratory, an experimental stress laboratory, a fluid power laboratory and the university research reactor.

Information Technology and Computing

A combination of the campus Division of Information Technology and the Engineering Technical Services (ETS) provided advanced engineering computation for College of Engineering faculty and students. CAD/CAM and graphics are the primary emphasis, although artificial intelligence, multiple high-level programming languages and computational and simulation libraries also are available.

The College of Engineering operates one high performance enterprise server, two super minicomputers and 17 HP workstations. The ETS also provides hardware/software support, locally, to nine College of Engineering departments and their affiliated research centers. These units are networked via Ethernet to the superminicomputers operated by the College of Engineering.

The Division of IT operates two remote terminal sites in the Engineering Buildings East. The University also supports an extensive computer system consisting of IBM mainframe computers, remote terminal sites, and PC and Macintosh labs throughout the campus.

Financial Aid from the Program

Admission decisions to the graduate program are made without considerations of a student's financial need. Once admitted, a student may be considered for fellowships, research assistantships (RAs) and teaching assistantships (TAs). Awarding of fellowships is initiated by the department. RAs are awarded by individual faculty members. A student may apply by contacting faculty members directly. Application forms for TAs are available in the department office. International students are not eligible for TAs in their first semester of study. For specific departmental requirements, please refer to the MAE Graduate Handbook. Please see the department website for information on how to contact the professors individually about research assistantships offered.

Undergraduate

BSME in Mechanical Engineering

Major Program Requirements

The MAE curriculum allows students to transfer among departments during the first two years. Students concentrate on departmental requirements during the junior year. The senior year includes three MAE electives that allow students to develop individual study programs. This enables students to complete a traditional program or create their own with special emphasis on system design, materials, manufacturing, energy systems, controls, or aerospace.

Experience in design is integrated throughout the required courses in the curriculum and culminates in the capstone design sequence. The capstone design experience integrates earlier technical work with economic, safety and environmental considerations. The projects are primarily obtained from industrial or private business clients. The presentations of project results are made to a review panel consisting of members of the faculty, the MAE Industrial Advisory Council and representatives of the client firms.

Major Core Requirements

In addition to the University general education and graduation requirements, the Department of Mechanical and Aerospace Engineering requires the following courses:

CHEM 1320	College Chemistry I	4
ENGINR 1100	Engineering Graphics Fundamentals	2
