UNIVERSITY OF MISSOURI

SPEAKERS

This bulletin contains a list of University of Missouri speakers available for programs given by schools and other organizations throughout the State. It is hoped that this list, which was prepared in response to numerous requests for speakers, will prove both convenient and useful.

Program chairmen may find the placing of subjects in related groups helpful. Under the heading, "Classified Topics," thirty-nine subheadings are given, such as *American Education*, *American Ideals*, *Farm and Rural Problems*, and *Guidance and Vocations*, with more than 170 titles of addresses together with the speakers who deliver them.

Following the grouping of titles is an alphabetical list of fifty-seven speakers with biographical material about each. In the middle of the bulletin you will find the names of twenty-seven faculty members who regularly give Commencement addresses.

The University is pleased to have an opportunity to share its instructional facilities with all citizens of Missouri. It should be remembered, however, that because of the time taken in performance of regular duties, each of the speakers listed herein is available for only a limited number of engagements outside of Columbia.

Attention is called to the fact that not all of the speakers are available for Commencement addresses. Schools interested in such speakers are asked to consult the special list.

Organizations desiring the services of any speaker listed in this bulletin may make arrangements through the University Speakers Committee, 23 Jesse Hall, Columbia, Missouri, or directly with the speaker. In most cases the fees charged will, with the exception of commencement addresses, be only large enough to cover actual expenses.
