BIOMED ONLINE

In addition to the four-year professional curriculum leading to the Doctor of Veterinary Medicine (DVM) degree, the college offers a variety of online (BIOMED) courses. Courses serve as electives for other degree programs, a component to the online health science and bachelor of general studies degrees, as partial requirements in the MU Pre-veterinary Medicine Scholars Program, and to earn either a thesis or non-thesis master's degree. BIOMED courses are also recommended electives in meeting the requirements to apply for a DVM program.
