...time passes on and we look to the past with myriads of thoughts and a multi-colored pattern of long hours of study, of hard work, of fun, of laughter, and of sorrow. The future holds visions of our participation in the armed forces, of Victory, of coming back to private practice, of our own home, and happiness . . . Then, if not sooner, it is hoped that this yearbook, replete with a graphic study of life at our University of Kansas City School of Dentistry during 1942-43, will recall incidents which memory will color most vividly.

FOREWORD

TO

THOSE WHO SERVE

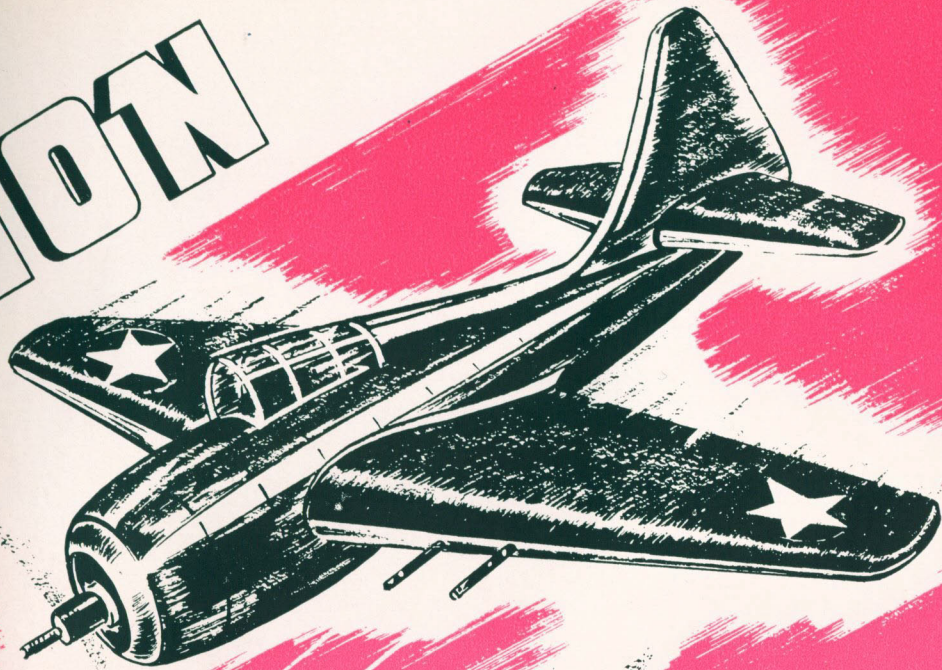

To those who are serving and to those who are preparing for service in this great world challenge for a free world, this volume is dedicated . . . Homes, families, and happiness are being sacrificed in order that the peoples of the earth may enjoy freedom and that we in America may have our democracy, our freedom of speech, life, liberty, and the pursuit of happiness. In the words of our President, "*Never before have we had so little time in which to do so much.*"

— Franklin D. Roosevelt.

Winning the Battle

- This 1943 edition of the Bushwhacker dedicated to "Those Who Serve" finds our nation in a horrible struggle to preserve a freedom we thought could never be endangered.

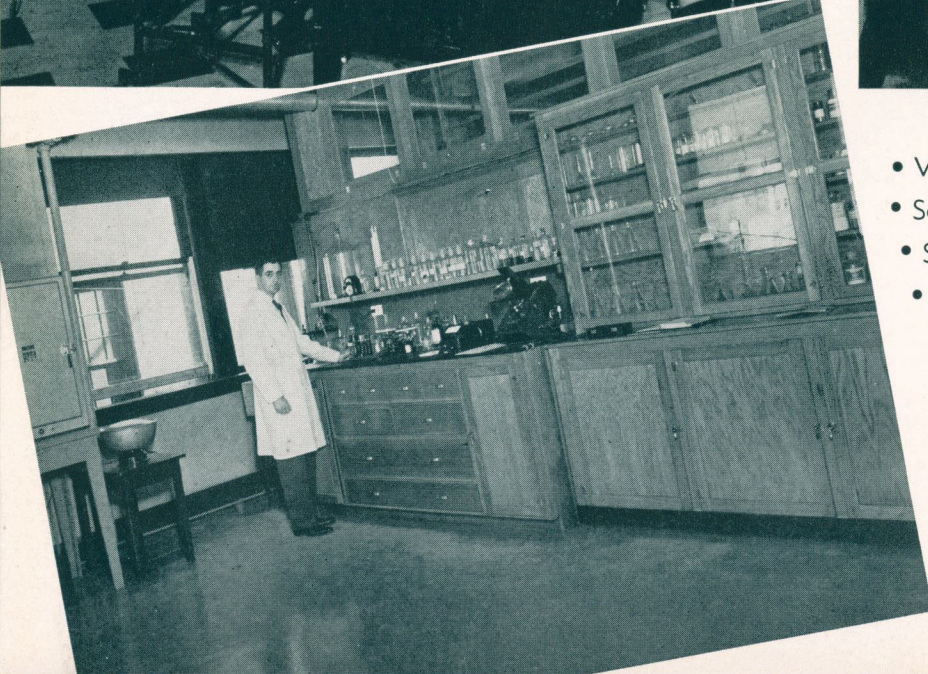

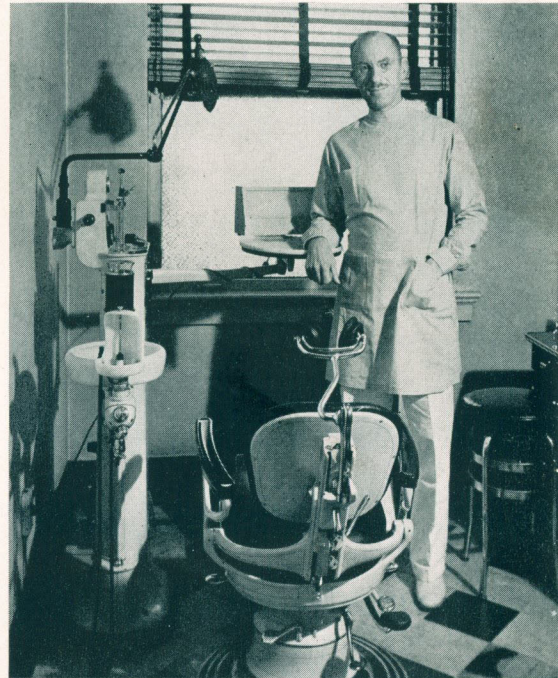

To win this struggle depends upon our keen desire and ability to serve. Service is an all inclusive word. It has a deeper meaning today than at any time during many generations. The only sound and sure measure of success for an individual, an institution, or a nation, depends upon the quality and quantity of the services rendered. Quality must always be the first requisite of service.

Success in war as in peace depends upon service. As professional men, service is our capital and our stock in trade. Service is the foundation upon which we build our future prestige, power and influence as useful citizens. In winning the battle whether soldiers or dentists the most domitable word in our vocabulary is service.

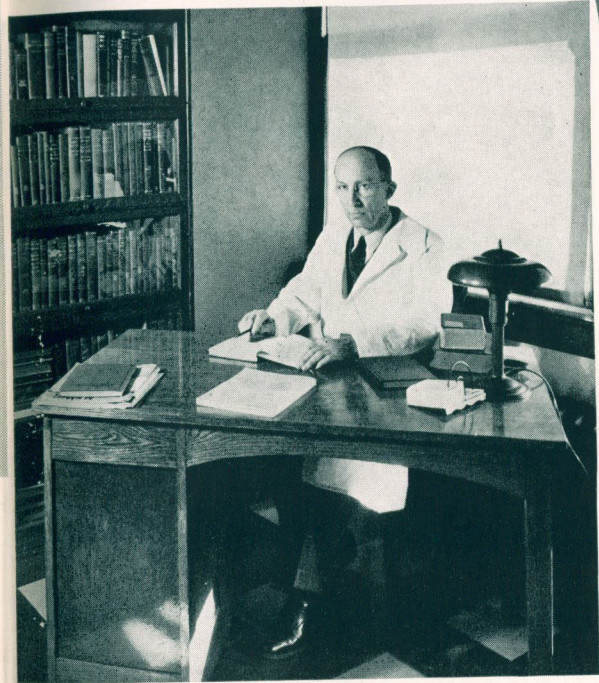

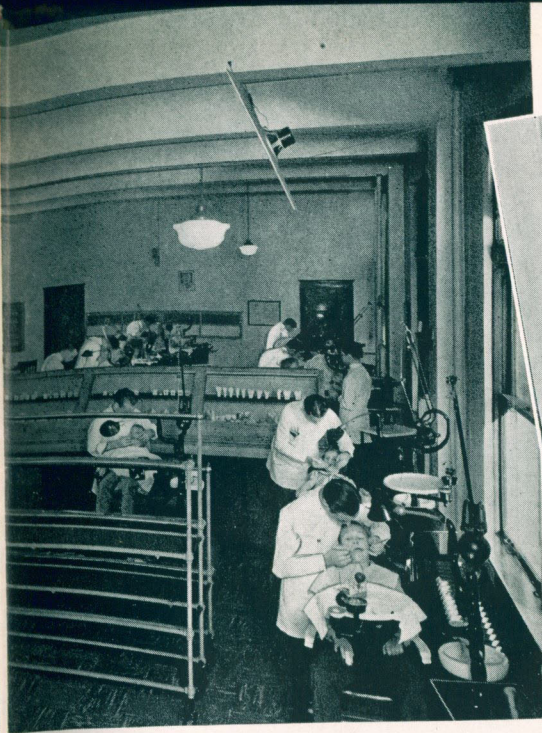

Roy James Rinehart.

YOUR IMPORTANCE IN OUR NATIONAL WELFARE

Students in Dentistry are always important to the welfare of our country. Now, with our Nation at war, they are indispensable to our national security and welfare.

Already more than 12,000 dentists are serving as Dental officers in our Army and Navy of four and a half million men. If this enlisted personnel, as predicted, increases in 1943 to seven and a half million, it may be that another 7,000 dentists will be called into service. This year there are 8,878 dental students in the United States and virtually all of them hold Reserve Commissions as Second Lieutenants in the Medical Administrative Corps, or as Ensigns in the Navy. The combined dental schools are graduating 1,946 seniors this year and all of them will go into the Army, Navy and Public Health Service, or will become internes in hospitals and clinics.

These statistics emphasize the tremendous responsibility of dental students everywhere. As students of one of the outstanding schools of Dentistry in the country, you have special obligations and special opportunities. The older dentists of the nation have generously assumed responsibility for looking after the civilian population and workers in war industry. To you has been assigned the task of protecting the health of our fighting forces. In this task, I know you will reflect honor upon yourselves, your University, and your country.

Our best wishes go with you wherever you are. For whatever problems you face, we want you to remember that the University is your Alma Mater and that you will always find her deeply interested and concerned in your welfare. We want you to keep in touch with Her in the years ahead.

DR. RALPH W. EDWARDS, B.S., D.D.S.

Professor of Oral Surgery and Director of the Clinical Staff. As director of the clinic, Dr. Edwards is the director of the clinical staff which decides the standards of clinical practice, grading, and the requirements to be fulfilled by the students.

Dr. Edwards' sound judgment, strong personality, and tactfulness demand the respect of the students and faculty alike. Dr. Edwards is a nationally known teacher, clinician and writer in the field of dentistry.

DR. NORMAN A. MOORE, A.B., D.D.S.

REGISTRAR

Professor of Physiology

Dr. Moore, as registrar, comes in contact with the students as they enroll and his guidance continues throughout the following school years as they become members of his various classes. We know him to be a tireless worker, and an excellent teacher who is always willing to help or advise, ever ready to offer constructive criticism, and ever fair to the student.

DR. CARL W. SAWYER, D.D.S.

ASSOCIATE DIRECTOR OF THE CLINIC FLOOR

Associate Professor of Operative Dentistry,
and Dental Anatomy

As Associate Director of the Clinic, Dr. Sawyer does not offer sanguine hopes to the dawdler but labors long with all who show a spirit of cooperation. We are all closely associated with Dr. Sawyer throughout the years that we are here and all respect and appreciate his friendly help and serious interest in our advancement.

LOWRY CLINIC

Dr. Howard S. Lowry was a prominent dentist in Kansas City and in his will he provided that a certain amount of his estate should be placed in trust to provide dental service for indigent children. In 1930, Dr. Rinehart, the dean of our school, appealed to the trustees of the estate and the Kansas City District Dental Society to allow the proceeds from this fund to be paid to the Kansas City-Western Dental College to assist in maintaining the free clinic for indigent children of the Kansas City Public Schools. The clinic was established in 1919. Since 1930 the free clinic has been called the Lowry Clinic.

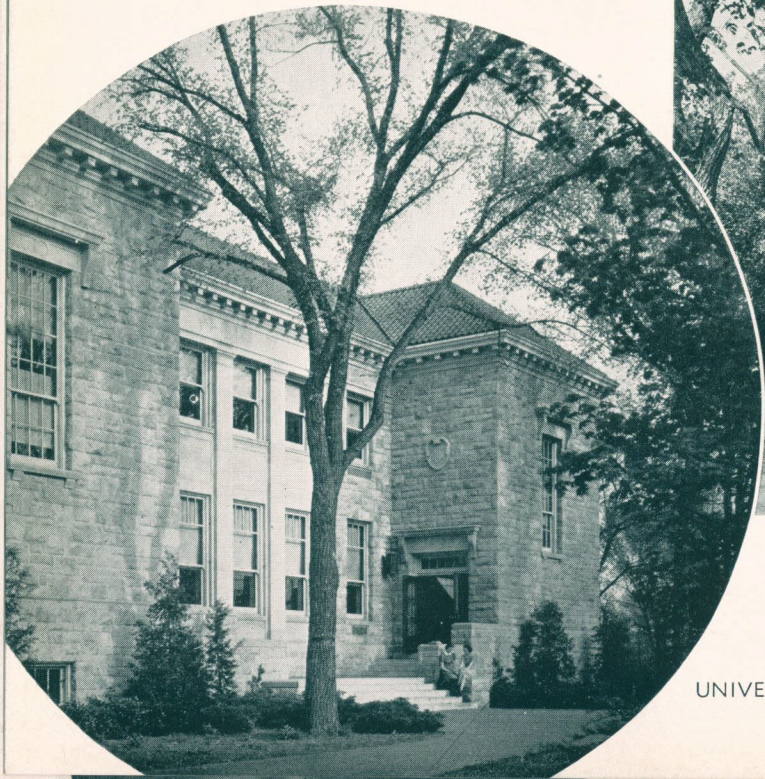

In previous years an intern was assigned for a period of one year, but for the past two years the Lowry Clinic has been directed by the clinical instructors assisted by two student appointees selected from the senior class.

It is with anxiety and anticipation that we of the senior class reach the end of our formal education. Circumstances have made our plans for the future as mixed as they are uncertain.

Probably no other class will be as quickly scattered as ours to all parts of the world. It is fortunate, that if it must be, we may see it through first before we build our homes and practices.

Dentistry may gain or lose great headway in the minds of our fighting men, who tomorrow will be our patients. It should be our aim to exercise good care and judgment, and full consideration, if we are to maintain the good will of these men who are our future patients.

We shall often look back with sincere thanks and appreciation for those who have offered their advice and constructive criticism in guiding us over an uncertain course in order that we may go forth with confidence and determination, knowing that our training and basic knowledge is sound and that added experience and study will serve as well in our service to others.

Our country is at war, and as we complete our Junior year and start as Seniors, we begin to realize the important role we can and must play in this greatest struggle of all times. We know it is our obligation to put our effort into acquiring a store of knowledge so that we will be able to give our utmost service to our country.

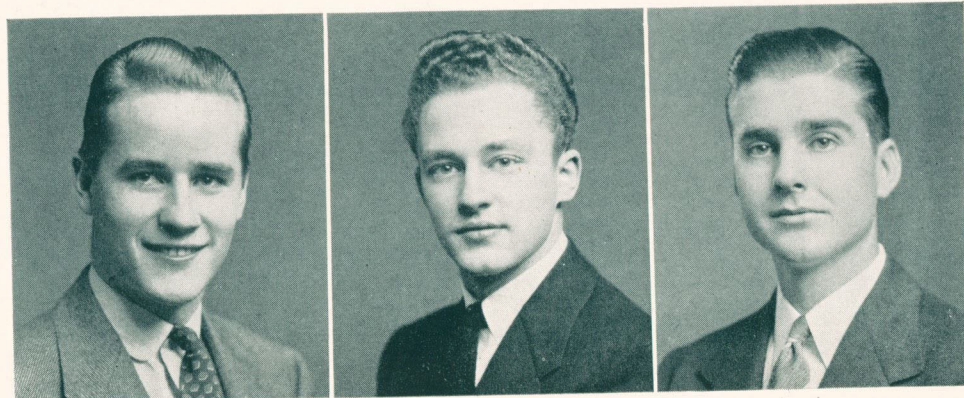

We are proud and happy to be Seniors and fully realize that we must set a good example for those who follow us. We will help them even as we ourselves have been helped.

Very soon, we will be sent to all parts of the world, some of us never to return. Some will become famous, others will get along and still others will fall by the wayside, but all who survive will remember the school days and the many things that make the memories of the first patient and the first days on the clinic floor last forever.

We dedicate ourselves to our country and our profession.

SOPHOMORE CLASS OFFICERS

G. E. YANCEY

K. W. HUMPHREYS

A. R. VOELKLE
Secretary-Treasurer

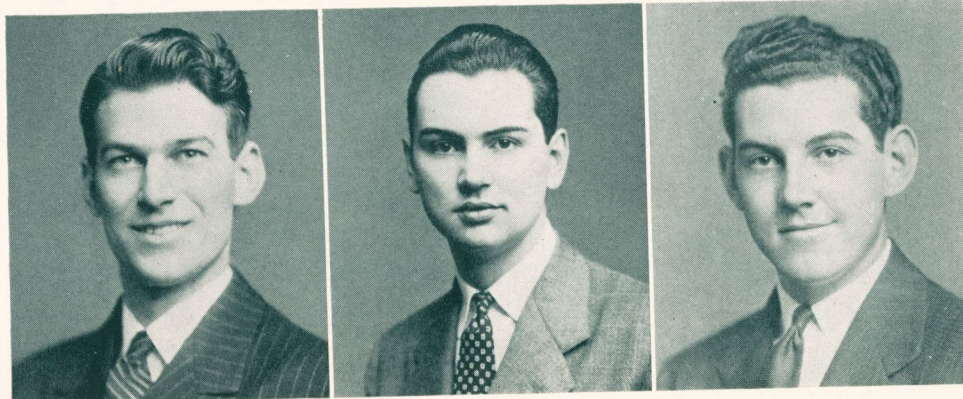

The Sophomore year has ended. We have left behind our cadavers, our dentechs, and our duroforms. It is with interest and anticipation that we look forward to putting into actual practice those many bits of knowledge accumulated, by earnest endeavor, over the four years of our higher education.

Since education, like industry, is cutting necessary corners to meet the new high tempo of war, our class has foregone many social activities to keep our molars constantly to the grindstone, finishing six years in five. We welcome this opportunity to achieve our goal in the shortest possible length of time so that we might heed the call of our country. Good health is a prime requisite in the winning strength of a nation and our class is more than eager to do its part in improving health among our people on the home front as well as those on the battle front.

Reminiscing over the many gallons of midnight oil burned during the past year, in spite of the rationing, we realize that all has not been in vain. We have learned and the more we learn the closer we come to the realization of the vastness of our chosen field and we gird ourselves for the conquest of oncoming knowledge. The deeper we get into our study of this human health service, the more respect and admiration we have for the profession itself as well as for the men who pioneered it and the men who are now pushing it forward to greater heights. In a profession as young as ours the frontiersmen and the research workers are often the same. It is many of these same men who have diligently tried to impart their experienced learned knowledge and to instill their high moral and ethical traditions in our minds and hearts. If we can uphold the torch of example set by these men, our instructors, we will have done nobly, but, with the help of God, we will lift it higher and push it further toward our ultimate goal, the alleviation of suffering and pain, and a stronger and healthier America. Let us, then, not look back over the short path of trials and tribulations across which we have already journeyed, but rather, let us look to the future and the broad highways of unending miles which lead toward perfection.

A. R. Voelkle, Secretary.

FRESHMEN CLASS OFFICERS

J. W. BARNETT
Secretary and Treasurer

We, the Freshman Class, wish to express our appreciation for being allowed to continue our education in this time of war. It is with a feeling of real responsibility that we set forth to master the art and science of Dentistry.

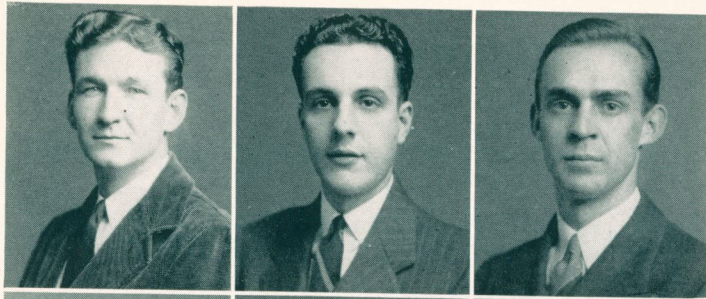

We are aware of the essential service rendered to our men at war by the dentist and know further of the added service rendered by the well trained professional man.

Each of us knows that the Kansas City-Western Dental College faculty represents the best in dental education; in fact, we knew this when we decided to enroll.

We are endeavoring to gain as much cultural and technical training as possible in the next few years, in order that we may never be accused of being delinquent in our responsibilities, but remembered as one hundred and two men who gave the world something to make it a better place in which to live.

J. W. Barnett,

Nu Chapter was formed in the Kansas City Dental College on the evening of March 15, 1898. There were twelve charter members initiated at the Midland Hotel, at Seventh and Walnut Streets, at that time. When the two schools, Kansas City Dental College and Western Dental College, combined they formed the present Nu Chapter.

HONOR

These men truly possess a distinct honor in being those chosen from the graduating class of 1943 to be members of Omicron Kappa Upsilon.

It was only through their continuous and diligent efforts that they were able to maintain their standing and complete the necessary requirements.

They will continue to be outstanding in the profession and an inspiration to other students, because men possessing their virtues are destined to be leaders in whatever field they may enter. Such qualities are never overlooked.

There were others in the class whose averages were very commendable, but since only twelve per cent may be chosen these six men with the highest records were selected.

Rho Chapted organized at Kansas City-Western Dental College November 4, 1928

OFFICERS

DR. R. J. RINEHART	President
DR. H. A. ALLSHOUSE	Vice-President
DR. C. G. PORTER	Secretary-Treasurer

Each year at graduation time, twelve per cent of the outgoing class are eligible to membership in Omicron Kappa Upsilon, national honorary dental fraternity.

The eligibility of receiving this award concerns all phases of the educational program as presented by the college. This includes the individual's character, quality of practice in the clinic, satisfactory com-

pletion of all requirements, together with a scholastic record of maintaining a general average of at least 90 per cent through the entire course of study. Among others who are eligible to this honor are faculty members who have been teaching two years or more and members of the alumni who have rendered outstanding and recognized service to humanity and to the profession.

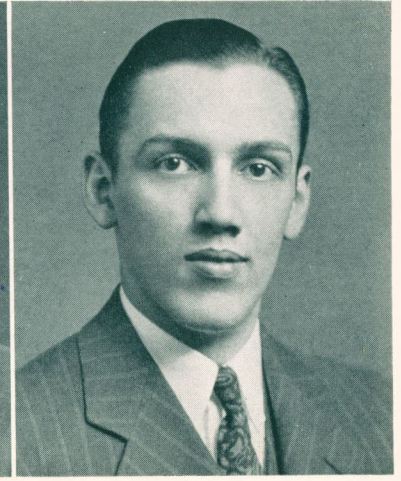

INTERFRATERNITY COUNCIL

L. R. SHEPARD

W. O. WASHBURN

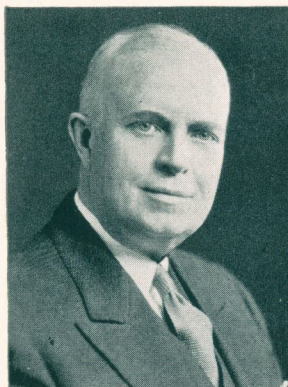

G. R. RODELANDER

The Interfraternity Council is composed of the Presidents of the three fraternities and their deputy counselors, with the Dean of the school as Chairman.

It is the purpose of this group to decide on the rushing, the activities of the fraternities, and all problems connecting the organizations and the school.

DR. L. E. DAVIDSON
Director

For the first time in many years our Glee Club under the direction of Dr. Davidson will remain inactive. It was thought best to discontinue the activities of the Glee Club for the duration insomuch as the tire and gasoline rationing would make the annual trips impossible. We will miss the Glee Club very much and we hope that soon it will be possible to reassemble with even greater strength and success.

Each senior having been a member of the Glee Club for the past three years will be awarded a gold key by Dr. Davidson.

BUSHWHACKER

It is the task of a yearbook to enclose within its covers as much as is possible of the happenings of the current year which it represents. It has been our earnest endeavor to present as many of the academic and social activities as was possible, and as this edition of the 1942-43 "Bushwhacker" goes to press we are reluctant to recall a great many things that we were not able to include within this book.

It has been an honor and a pleasure to be members of the staff of the 1942-43 "Bushwhacker" and it is our most ardent hope that you, the students and personnel of the School of Dentistry of the University of Kansas City, will be pleased with our publication. The selection of all the material of this book has been done with this thought in mind.

To try to print our thanks to each individual for their assistance and cooperation resulting in the presentation of this book would only mean that someone would be

left out, but we shall ever appreciate your efforts and cooperation and we do wish to thank all of you—thank you very much.

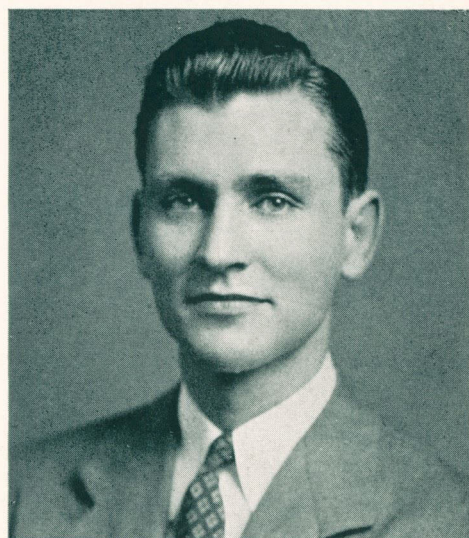

If absence makes the heart fonder, then you should be extremely fond of this "Bushwhacker" since it is a few months behind schedule. We accept our share of the blame for the late presentation and hope you will give us the benefit of the doubt in your criticisms of the book. Possibly on some long dark winter night in the years to come you will be able to sit in your favorite chair, dust off old "1942-43" and leisurely thumb through its musty pages. Then, if not sooner, we hope that it will recall a few pleasant memories. To bring back these memories of our present school activities, both traditional and wartime, is the aim of the 1942-43 "Bushwhacker".

Book Four

Without Him It Would Not Have Been

Written for and dedicated to Dr. Roy J. Rinehart, D.D.S., Dean of The University of Kansas City,
School of Dentistry, Kansas City-Western Dental College

With every great achievement man has wrought,
Up in the air or on the sea or land,
Within some master mind first came the thought,
Which, later by his own or other's hand
Was made to fly or sail or run or stand,
A monument to that great citizen
Whose dream it was—who wrought the structure grand.
Thus to be justly said, by tongue or pen:—
“Without his guiding hand, this thing would not have been.”

The school where you have spent your student days,
Is one great monument we love to show,
And to our faithful Dean goes all the praise,
It was his guiding hand that made it so.
How hard he labored, few will ever know.
He gave his life—his hands, his master brain,
To build this wondrous school to which you go,
Thus we may say, in speaking of our Dean:—
“Without his guiding hand, this thing would not have been.”

OUR CREED

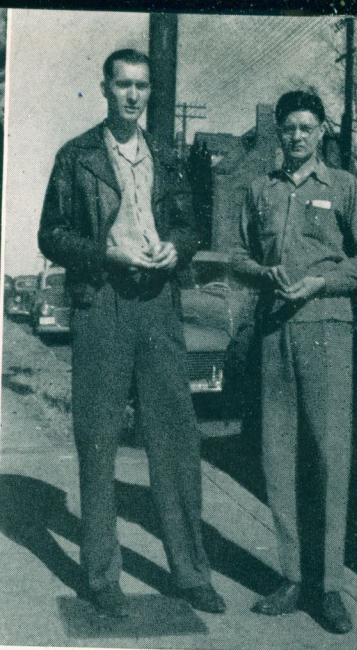

“We will fight for the ideals and aims of our profession whether alone or with many.

“We will revere and obey the ethics and traditions of our profession and do our best to incite a like respect in those who are prone to neglect, annul or to set them at naught. We will, also, strive unceasingly to quicken their sense of duty.

“Thus, in all these ways, will we transmit this profession not only not less, but greater, better and more useful than it was before us.

“We will try to conduct ourselves and the affairs of our profession with full consciousness of our obligations to the worthy profession which we represent; to do our part, individually, to aid the profession in its calling as protectors of the health of our fellow citizens and of our community.

“We will make ‘Helpful, Friendly Service’ our motto and aim and will deem it a privilege as well as an obligation to help maintain the highest ideals of service.’

TOOTHFUL

Any first year dental student will admit, if questioned, that by the end of the year he will be ready to accept a professorship in any branch of dentistry offered.

In the second year, the evil seeds of doubt are sown. He thinks there may possibly be a few things he can still learn—not many, though.

The junior has a lot of new equipment—a mustache, a little confidence, and a pocket full of new instruments—but he begins to wonder whether he's learning anything about dentistry.

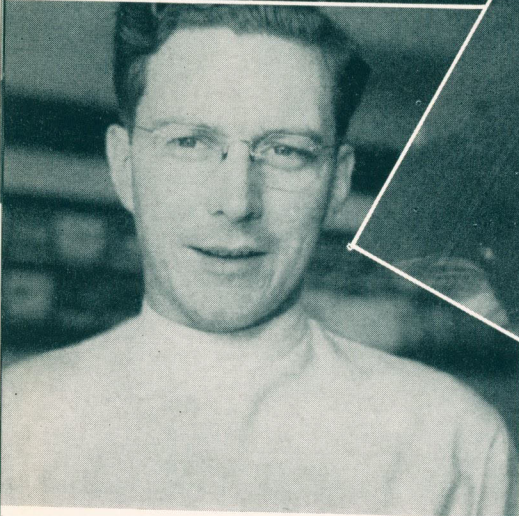

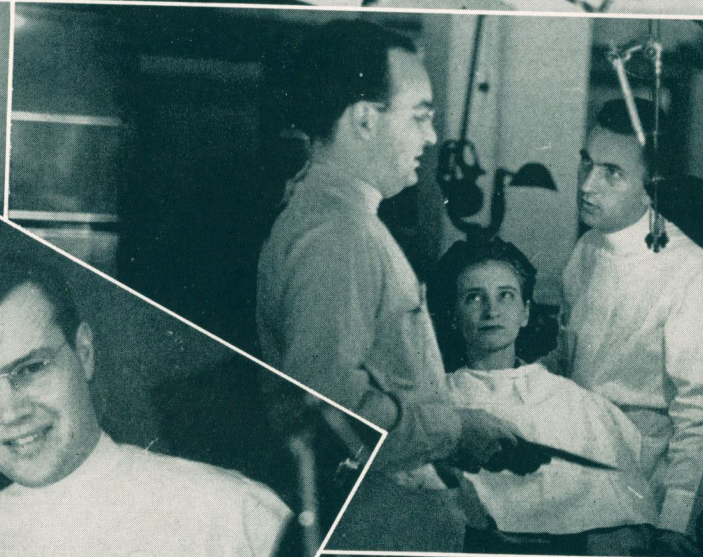

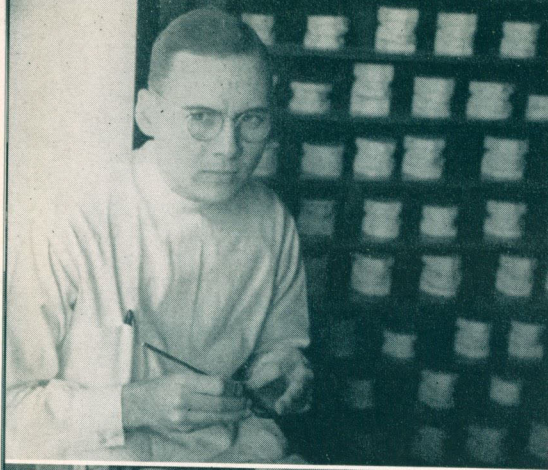

The senior knows definitely that he doesn't know any dentistry, but he's still the ideal and the envy of first, second, and third year students, decreasing quantitatively in that order.

First five years in practice—brushing up on bridge and learning how to starve the gentility.

Next ten years—"Who do you say you are? A patient? Hmmm—patient—patient. You want to see a dentist? O—Oh yes, come in."

Then time for a coronary. Losing ground in the race of progress. Hypertension every time he goes to a meeting and listens to some young upstart talk about the modern treatment or method of doing this or that—and talk as if he knew something about it, too.

And then the coronary. Peace at last. Valhalla—the valley of the gods. We are ten to take your place, so Pax Vobiscum, Thou Good and Faithful Slave. Hail and Farewell.

Greetings

CLASS OF 43

We welcome this opportunity to congratulate you upon the completion of your college work, and extend sincere wishes for your success. Serving you has been a pleasure, a pleasure which we hope will continue throughout your career.

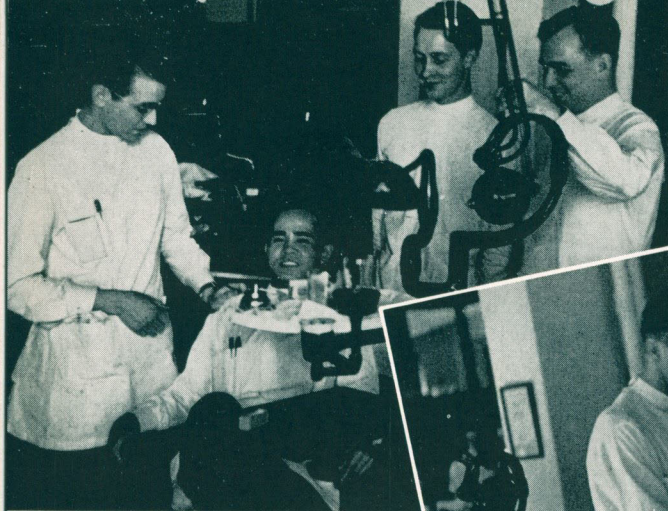

To those of you who plan to enter military service, may we remind you that S. S. White Equipment and other products will continue to be a part of your daily life. Brushing-up on their operation and techniques now will prove of value later. Always remember S. S. White field representatives, branches and dealers stand ready to assist you.

You who will serve at home in private practice will be confronted with the greatest demand ever placed upon dentistry for the conservation of public health. Here again we can assist, for nothing will do more toward promoting efficiency, extending service, and conserving your health, than a properly designed, well-equipped office.

Let us tell you more about our free location and office planning service

He wants to know
Do we have Power?

Has expanded industry curtailed electric power to customers?

The answer is "No!" In spite of new and expanded plants producing war materiel, there is still an adequate supply of electricity for all customers.

Do you expect future curtailment or rationing of electric service?

The answer is "No!" No one, of course, in such times as these, can predict conditions as they may be six months or a year hence. But, in-so-far as the future can be judged, your electric company confidently expects to serve all expected needs without rationing.

The Lovesick Spermatozoon

If you were a little ovum
And I a spermatozoon,
I'd stay outside the cervix
Till some warm day in June.

And then I'd sing so softly
While under the mellow moon,
A melting, mellow melody—
The Song of the Spermatozoon.

Oh, break your bonds, my loved one,
Tear off your lucid coat
And I shall swim the isthmus
While you need only float.

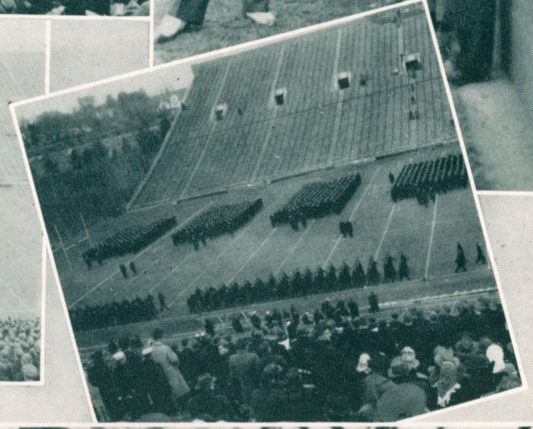

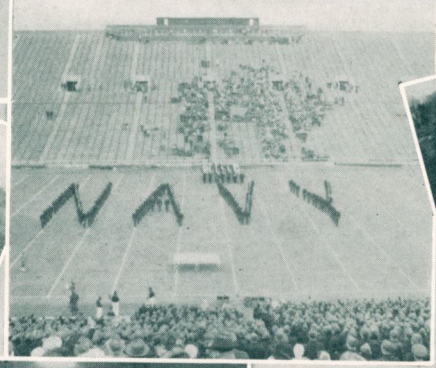

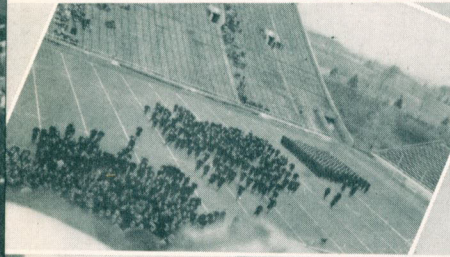

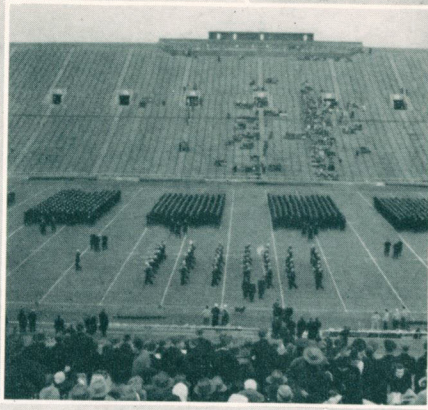

I'll outrace all my comrades,
I'll prove I'm a manful male,
For I have speed and stamina
In my oscillating tail.

You needn't tell your mother,
She'll never feel the loss—
And I'll be waiting for you
Near the fimbriated os.

I'll roam with you in romance,
I'll sing you a dreamy tune,
There are plenty of spermatozoan
But only one Spermatozoon.

And if you like my loving,
Your vitelline heart I'll fill;
I'll make your body tremble
With a protoplasmic thrill.

And never you fear the future,
For, as the months pass by,
We'll build a little haven
In the fundus uteri.

- A swell shot of Dr. Maienschein, or rather Lt. Maienschein, just a few days after being called into active service.

QUEENS

Heretofore, the School of Dentistry has never felt that its girls could compare with those of the rest of the University of Kansas City, but this year it is a very much different story—as you can very plainly see. Since the Bushwhacker Staff (Deffy and I) think that our ability as judges of beauty, and women in general, is unequaled, we decided to be the judges and so we were.

The qualities used as a basis for selection were just plain beauty, reputation, popularity, etc. (especially etc.), and we spent many hours and drank pint after pint of coffee one extra night discussing the respective merits of each of the "Queens" before arriving at our final conclusions. You can no doubt understand what a discussion this must have been since we are personally (very) acquainted with each of the candidates. Well, anyhow, after much cussin' and discussion, etc. (especially etc.), we chose the candidates shown to represent the School of Dentistry of the University of Kansas City, and personally we believe that they are far more beautiful than any other school on campus can produce since you have never even seen the campus.

Since the pictures are self explanatory and since what they don't explain, you already know, we will let a few words suffice.

JUNIOR EXPOSE

ALBO—Soft-spoken, well-mannered contribution from Pueblo . . . room mate and anti-buddy of Lindemann but recently left Pete to live in a better life with one of our best dental assistants.

AYLSWORTH—(Doggie) extremely active member of the Saratoga Club . . . most innocent appearing wolf of junior class and extremely sensitive to wine, women, and song.

BADEEN—Originator of unanswerable questions—some taken with gusto—others with disgust . . . knows all, contradicts all . . . speaks several languages and has originated several of his own . . . much of what you say is true, much is new. That which is new is not true, and that which is true is not new.

BALE—That poker face conceals a play-boy at large . . . once missed a dance at the Pla-Mor . . . will carry the torch of light back to Pocatello, Idaho.

BARRETT—Wynnewood Flash . . . always the wit of the Barrett, Weir, Washburn trio . . . never hesitates to twist an incident to fit his own brand of humor.

BLANK—Fugitive from his foliage and often shaves twice daily to escape that "five o'clock shadow" . . . friendly and a conscientious student.

BROWN—(Pee Legs)—Easy going . . . teamed with Stone as his right man . . . talks quietly, much, and seriously at times . . . diagnosis. (Who) Caries.

BRUBAKER—(Young Gordon) —Teacher's pet always . . . must have an "air" about him . . . forever has his appointments mixed up.

BRYANT—Clean cut . . . most virtuous man in the junior class . . . industrious and a victim of cupid for sure.

BURCHAM—His persistence will be rewarded by his patients . . . does most of Potter's thinking.

CALHOUN—Moderate in all things . . . radiates pleasantness wherever he may be . . . a regular fellow and consistent worker.

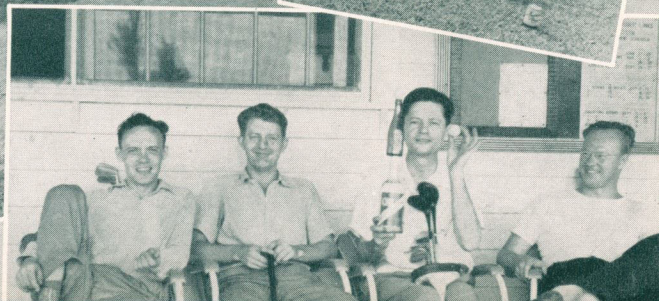

CHRISTENSEN—There was never a lecture lectured that he couldn't or wouldn't ask a question on . . . the scientific type . . . would never believe that he was once a missionary.

CONWAY, C. L.—The insulting dentist . . . slings disparaging remarks at everyone . . . screams "blow it out" at the slightest provocation . . . loves a good friendly fight with anyone.

CONWAY, R. W.—Possessor of a man-sized chest (and gluteus maximus) . . . ardent in his pursuit of the sciences of dentistry . . . relaxes completely at the Saratoga Club on occasions.

DEFFENBAUGH—The wolfiest wolf that ever entered dental school . . . always getting himself and friends into trouble . . . greater user of the thumb in eating establishments . . . originator of wicked ideas for the Mose, Newlin, Deffenbaugh trio.

DIMOND—You know.

JUNIOR EXPOSE

DOBRONTÉ—Good technician . . . always busy and likes to punch his own card in crown and bridge technique . . . a pleasant fellow.

DONATHAN—a recent victim of cupid . . . a true blue veteran of many of those notorious Inez continuous escapades . . . works fast and furiously at everything and does it well.

DOYLE (Hack)—a brainchild of the junior class . . . diligent and dextrous, an ideal son of Appollonia, and, too, an admirer of Bacchus.

EVANS (Evons)—Low individual . . . thinker of evil thoughts . . . once bird-dogged French's girl friend the evening following an introduction . . . that took a lot of quinine . . . a regular guy.

FAUL, C. R.—Foliage grows wild and luxuriantly over his empty calvarium . . . the quiet and reserved little nephew of Uncle Otto.

FAUL, O. L.—Says what he thinks when he thinks it . . . will brighten the Black Hills of Dakota with his ability.

FRANZ—Distrusts everyone and makes his own partial dentures . . . beats on the editor when his back is turned . . . industrious and a victim of cupid from way back . . . the inquisitive type.

FRENCH—Hears all evil, speaks all evil, sees all evil . . . an advocate of the Braille system of studying surface anatomy . . . wombts with and exerts evil influences upon Dimond . . . his vocation—women; his avocation—dentistry . . . will succeed in spite of himself.

GANDZ—Talks so fast that his mind is always lagging . . . always happy over anything . . . doubting Thomas and forever asking questions.

GILLOCK—Hair on one side only—a little on the back side . . . memorizes entire notebooks, including foot notes, for exams; once left out a comma and thought his mind was failing . . . good student.

GRAUMANN—Early victim of cupid . . . conscientious, serious minded student and he is expected to do well.

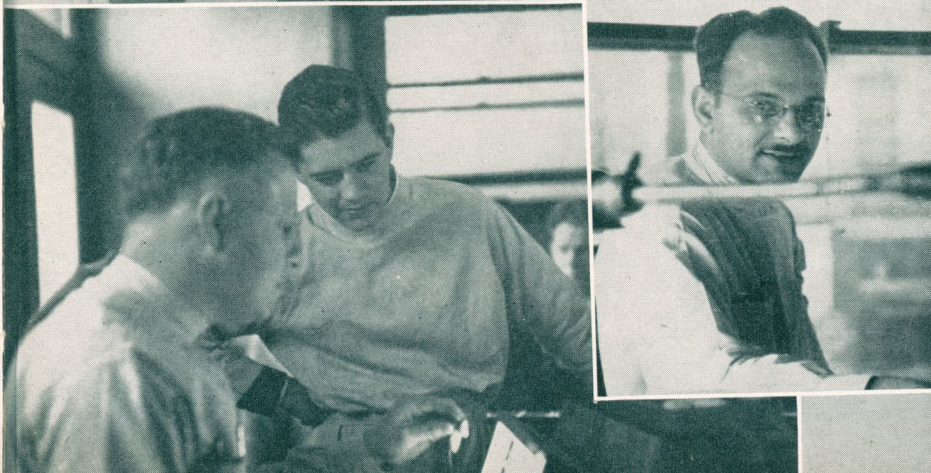

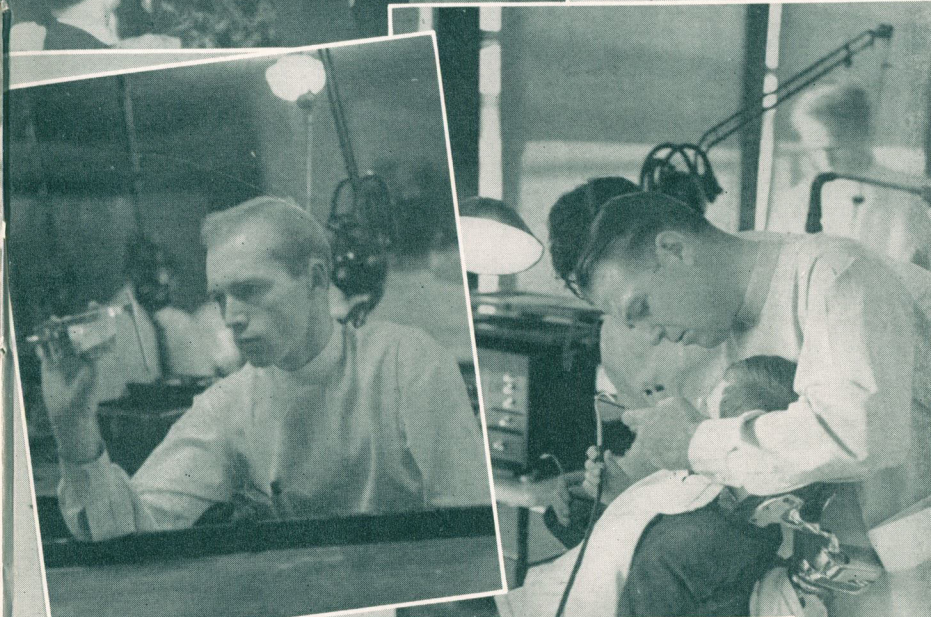

HALVORSON—(Blabber Mouth)—self-acclaimed virgin to this day and a senior! Jolly and a hard worker . . . works at the bomber plant during eight hours of his spare time each day.

HATFIELD—Like the stream once flowing which can't be stopped, so his laughter gushes forth . . . with the parting of the "shadow" he will return to sanity . . . another self-acclaimed virgin but a lover of tit-bits, knick-knacks, and picnics . . . a walking date bureau with headquarters at St. Lukes.

HILL (Hillbilly)—an invader from Arkansas . . . occasionally is a wearer of the bush on the upper lip . . . fashion plate and victim of cupid.

HILL, P. M.—Hard worker, hard player . . . seldom serious and well liked . . . has spent the last three years trying to desensitize himself to wine, women and song by frequent sublethal doses.

HOWARD—One of the few (known) fathers of the junior class . . . friendly and easy going.

JUNIOR EXPOSE

HUMPHREY—(Maidenswoon) — Pessimistic . . . worries about everything . . . man of broad shoulders and a becoming personality . . . Dr. Moore's number three man, preceded only by Inman and Light-foot respectively.

IRVIN—Quiet, friendly and composed . . . another of the known fathers of the class . . . prognosis—good.

JACOBS—A leader in the cultural trio of Brubaker, Tippin, and Jacobs . . . together they discuss classical music and attend cultural lectures . . . an optimist —once started to plug a class three foil at five till five . . . typical married man.

JOHNSON—Has more "brass" than a colored orchestra . . . the dry humor type who lived within himself before cupid opened his soul to the public.

KAUFMAN—Wearer of the worried expression . . . quiet and industrious type.

KEIDEL—Has a touch of Texas in his walk and a touch of adenoids in his talk . . . was once known to have taken a drink of water (by mistake) before cupid's fatal attack.

KIES—His docile appearance conceals an unvirtuous character and his past life will long haunt the hallways of the Biltmore Arms . . . well liked by all who know him.

KIRSCHBAUM—Will create the "oasis of dentistry" in the deserts of Arizona . . . is constantly contaminated by his anti-buddy, Hairless Blank.

KLEIN—Soft-spoken, hard-working, silent partner of Lightfoot . . . those health-laden pink cheeks serve as ample evidence of his virtuousness.

LIGHTFOOT—(The Foot)—Bolivar Flash . . . Dr. Moore's number 2 man with Humphrey close at his heels . . . pops popcorn for a living . . . virtuous and happy . . . diagnosis—theological tremors.

LINDEMANN—(Pete)—The mad Russian . . . hard worker with women as a hobby . . . Albo's first wife.

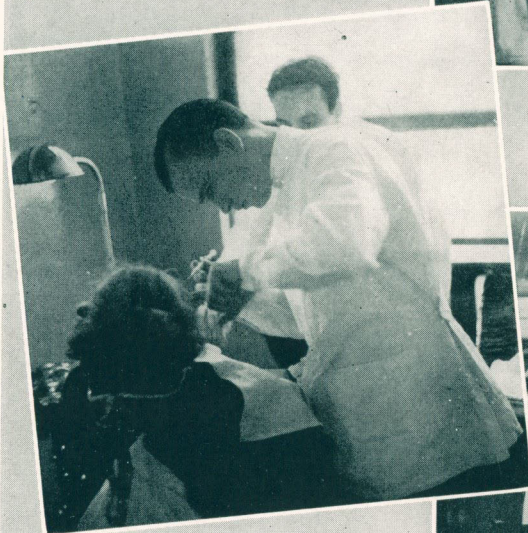

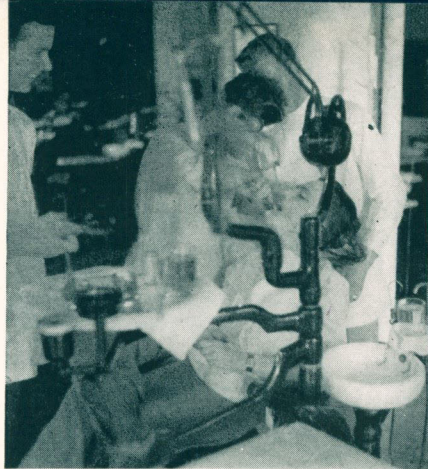

MACE—Foliage grows sparsely over his shining and unfertile calvarium as old age creeps rapidly upon an unsuspecting victim . . . a regular fellow and a good friend.

McDERMOTT—Degenerate ringleader of the McDermott, Sanchez, Little Face trio . . . extremely witty in a vulgar sort of way . . . will always remember the Pearl Harbor attack . . . swears that a Spanish friend of ours is of Mexican descent.

McGEE—Much married little man of junior class and another of the (known) fathers of the class . . . swears his wife henpecks him and takes his spite out on Dimond . . . champion supply house checker player and thrower of the big bull.

MELTON (Adipose) **DIAGNOSIS**—Frohlich's Syndrome . . . his jovial manner conceals a torrid temper . . . only Dr. Davidson's intervention saved Sebert from Georgie's iron bar attack during operative lecture . . . playboy at heart . . . Dr. Campbell's No. 1 man.

MITCHELL—Soft spoken, congenial, big man of the class . . . former master of the Dimond-French Dungeon . . . excellent cook . . . easy going and possessor of a very pleasant personality . . . success will be his wherever he may be.

JUNIOR EXPOSE

MONSEES—Quiet, reliable, and friendly . . . has been president of everything as far back as we can remember . . . and a good one, too . . . always ready to help a friend . . . loves to bend wire in his spare time.

MOORE—Sacrificed himself to work at St. Luke's just to intrigue the nurses . . . always trying to get someone a blind date—and some of them are blind, too.

MOSE (Holy)—Grew rapidly from infancy to Bixby to adultery in Kansas City . . . jealous and conscientious mind . . . high point man . . . sensitive to women.

NEWLIN (Fearless Fosdick)—The four-eyed demon of the dental chair . . . playboy at heart . . . women are his hobby—any of them . . . a conspirator of the notorious Deffenbaugh, Mose, Newlin trio . . . Diagnosis—bottlism.

ODO—Silent partner of Teraoka . . . hard working and conscientious . . . owl at heart, sleeps serenely throughout the loudest lectures in his pew on the front row . . . charter member of the exclusive Saratoga Club.

PEASLEY—A hard-working contribution from the great corn state . . . one of the first of our class to fall victim to cupid . . . does well for himself.

POTTER—Unconscious and conscientious . . . a hard worker . . . the Dagwood type.

QUIMBY—Can drink more beer and faster than any man in dental school if the occasion demands . . . is forever haunted by cupid and is amnesic to all the world except his gal of the moment . . . will argue that he is right when he knows he is wrong.

RIEHL—Vice-president and active member of the Cabana Club . . . speaks only to his intimates and then only on provocation . . . is to be admired for his composure and ability.

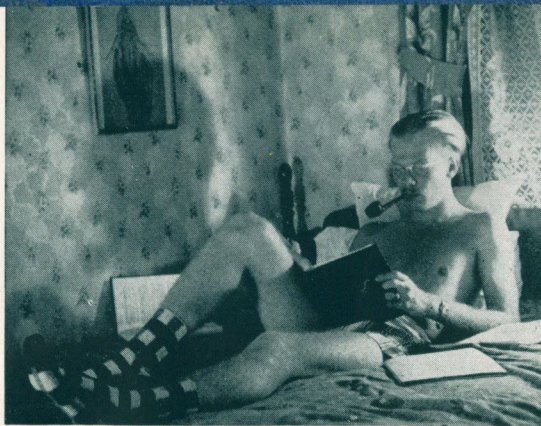

RODELANDER (The Mole)—Extremely unconcerned as he burrows his way slowly through dental school . . . a fraternity fanatic . . . a charming cupid had to use a mole trap to bring him to the surface.

RUDD—The busiest man in school . . . industrious and competent . . . always congenial and possessor of a very favorable personality . . . lab. man for almost all of the practicing instructors . . . nice guy in general.

RUEB (Mule)—Rumors have it that he lives up to his name . . . charter member and first vice-president of Saratoga Club . . . also rumored that women once loved by the Mule never leave him, and they have plenty of reason . . . good guy and conscientious worker.

SAUL—Accentuated fashion plate of the class . . . it is rumored that he now lives under the rule of the iron hand at home.

SAVAGE—Ex-professional boxer . . . ex-flier . . . ex-single . . . little strong man of the class . . . so Yankee that his enunciation of r's is seldom and slight . . . a hard worker.

Uncle Sam's Nephews

Uncle Sam's strength is just the sum of his nephews (American Citizens) who are strong . . . strong in health and determination . . . strong in a sense of responsibility and in the spirit of sacrifice.

Find such a man. You have found most likely a life insurance policyholder. This is not just a sign. His life insurance policy, year by year, builds his character, morale and spirit of sacrifice and helps him to maintain them.

We must, therefore, redouble our efforts to build such strength in Uncle Sam's nephews . . . to win the war and to deserve the peace.

• Lindemann submitted these pictures to the editor so you ask him what that house is in the upper right-hand corner, and ask him, too, who the girl is in his bed (we presume it's your bed). We hope this isn't some other dental student's (or anyone else's) wife. Domestic, isn't it, though? . . . Pete seems to have turned out to be quite a "bust" of things in the lower left . . . and doesn't that Albo look plenty smooth? . . . Calhoun looks rather faded out in the lower right, doesn't he?

ACTIVITIES

As Doctress Cupid slowly but surely draws the fangs from our best wolves we of the Bachelors Club find ourselves fast slipping into the minority. The situation is fast getting out of hand in spite of President Rueb's (the Mule) fervent appeals to the members to abide by their pledges to remain single.

In the past few meetings since the great deluge (i. e., since Deffenbaugh bought the ring), President Rueb has been beginning his addresses to his few remaining faithful followers. "Gentlemen of the Bachelors Club, why buy a cow when milk is so cheap?" (This was before the price of milk soared to fifteen cents a quart.) He usually finishes his addresses with a famous quotation from Bloc's "Sex Life of Our Times," the essence of which is as follows: Marriage is an outworn institution which seriously endangers the rights of the individual. At this the remaining members fall to their knees and pray for strength to resist those temptations which have proved to be the "Waterloo" for so many of our unfaithful members during the past three and one-half years.

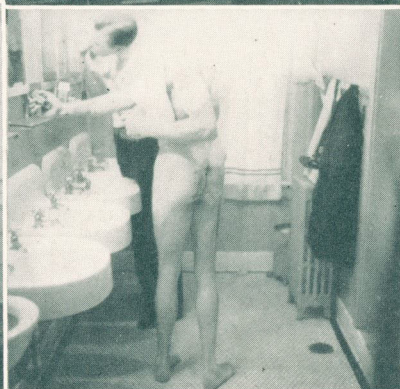

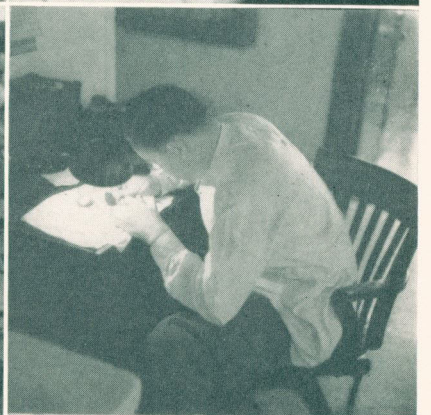

During a recent officers meeting the officers made an attempt to determine the reason or reasons for the great drop in membership. President Rueb suggests that the reason may be due to the long cold nights since the fuel rationing program has come into effect. Vice-President French stands staunch in his belief that the man shortage has led Doctress Cupid to the use of cowhorn "forceps," or, in other words, more forceful methods of purloining our members. Secretary-Treasurer Teraoka believes that both these reasons together with the fact that so many members are so selfish as to gulp down life all at once instead of sipping slowly of its contents.

In the face of the fact that the school is to be taken over by the Army and Navy College Training Program with its provision for an allotment for the wife, we face complete disaster. As President Rueb would say, "Bachelors, fight the temptations as you would a dangerous enemy."

The Twelfth Street Patrol, under the leadership of Beast Schneider and assisted by Odo, Teraoka and Lightfoot, has discovered some excellent spots and have done excellent work. They are to be commended for their efforts.

The Class Spotters, under the able leadership of Evons, have revealed many new things to us that would otherwise have remained in the dark.

The Committee on Anti-Marriage Propaganda under Chairman Sebert and Assistant Chairman Aylsworth has done much in the way of recruiting new members.

DENTISTRY

Meets the Challenge of War

- Wherever there are American soldiers you will find the dental profession on the job. To meet the unprecedented demands of our armed forces, no dental college has done a more wholehearted job than the Kansas City-Western Dental College.
- Led in these activities by Dr. Roy J. Rinehart, the Dental College is represented in every corner of the globe. It is a great credit to their training, that these graduates of Kansas City-Western Dental College have achieved such a uniformly high standing.
- As a record of these war training days the 1943 Bushwhacker makes a valuable contribution to the life of the College. To R. W. Dimond, Editor, and E. C. Deffenbaugh, Business Manager, we add our appreciation to that of the faculty and student body for preparing this outstanding annual.
