We Come of Age

The University of Kansas City celebrates its twenty-first year, its year of maturity. 1953-54 will be remembered as the year in which a new school of business was established, as the year in which the university first entered into interscholastic sports competition. With a new president at its helm, U K C looks forward to the increasing strength and wisdom that comes with maturity.

Dr. McGrath addresses orientation group

Dr. and Mrs. McGrath at home

DR. EARL J. McGRATH came to the University of Kansas City in the summer of 1953 to assume the duties as president of one of the most up and coming universities in the Mid-west. Working in the field of education since 1928, Dr. McGrath was U. S. Commissioner of Education before coming to U K C. Dr. and Mrs. McGrath's friendli-

ness has won the respect of faculty and students. Intercollegiate basketball is already a reality under Dr. McGrath's administration, with the promise of a more extensive sports program next year. Another highlight of Dr. McGrath's administration was the announcement of construction date for a million dollar men's dormitory.

Council Members, left to right: Bill Neale, Freshman Dental; Ray Morrison, Liberal Arts; Jack Gant, Law; Christine Hogin, Advisor; Art Stephenson, Liberal Arts; Rick Brown, Liberal Arts; Elmer Heard, Dental; Wheadon Block, Advisor; John McCaffrey, Liberal Arts; Herb Ashley, Pharmacy; Cecil Foley, Liberal Arts. Representatives not attending the meeting included Bob Craven, Liberal Arts; Dick Johnson, Dental; Hubert Snell, Pharmacy; Dick Dillon, Law; Dave Schryver, Liberal Arts; Phillip Morris, Liberal Arts.

The Student Council

THE STUDENT Council of the University of Kansas City consists of representatives from the various classes and schools that make up the student body of the university. Through the formation of various committees, the council aids in solving problems arising out of the extra-cur-

ricular program, in the formulation and distribution of the activity fee budget, in the supervision of student elections, and in selecting Who's Who members and the editors of the U-News and Kangaroo. The council is continually working to strengthen student-administration relations.

1954 *Kangaroo*

Durward Redd, *editor*

DURWARD REDD, editor of the *Kangaroo*, set up a motto to work by at the beginning of the year: Be it snow, sleet and rain, too, the *Kangaroo* must go through. Striving for an ultimate goal of a book to please everyone, Durward has left no stone unturned to picture every phase of University life. An art major, the editor has designed modern layouts. But layouts aren't the whole story of an editor's work. Durward has taken, developed and printed pictures, figured the finances, written most of the copy and performed numerous other tasks. The surprising thing is that while doing all this, he managed to remain a swell fellow with a pleasing personality, friendly with everyone.

KENT HUCKSTEP has served as the associate editor of the 1954 *Kangaroo*. Kent's tasks have been many and varied; he has taken many of the photographs as well as spending many hours in darkroom work. He has proof-read all the copy, helped in paste-ups and designed layouts and written copy for a number of pages including the sports section, the radio and U-News pages. A L.A. freshman, Kent has shown his sincere interest in the *Kangaroo* by unselfishly devoting long hours to the tedious task of preparing a yearbook for the printer. His sunny humor and pleasant smile have lightened the problems of the staff. He has been a good friend to the *Kangaroo* and to UKC.

SHIRLEY MICHAELS served as the Senior Class editor. Nancy Merrill was the Junior Class editor and two persons, Nancy Malben and Carolyn Yates, were Freshmen Class editors. Nancy Malben and Carolyn also helped during registration at the photo table and each have typed some. Nancy Adams arranged for some of the departmental club pictures while Sally Smith was most efficient in arranging for the fraternities and sororities to be photographed. Women's sports were handled by Martha Ireland. Nancy McKanna was secretary to the Kangaroo. Dave Schryver assisted in the Liberal Arts section by taking some pictures. Other L. A. persons who contributed something to the book include James Spurgeon, Barbara Banks and Fran Henderson.

ANN PRIDGEN was editor for the Pharmacy section. Morley Vogel was the conscientious editor for the Law section. Her cooperation and efficiency were greatly appreciated by the staff. Art Katz assisted in the Law. Jack Hudspeth served as editor of the Dental section. Photographer for the Dental School was Bill Marchbanks. Assistant to Jack was Maylon Ozum and business manager was Dick Hamer.

Activities

Shirley Michaels and Sally Smith survey the confusion of cards, schedule blanks, pens and catalogues as bewildered students register for fall and winter classes.

The start of a new school year gave pharmacy friends a chance to catch up on the gossip of summer activities while relaxing in the Roost between class lectures.

Return to campus

MID-SEPTEMBER was a time for making new friends, for renewing old acquaintances. Old timers at UKC guided freshmen and transfer students through a three day orientation whirl of lectures, tests, coke sessions, tours and a colorful political campaign. Everyone joined the confu-

With animated skits and rousing campaign speeches, new students played politics like professionals during a heated rally to select representatives to serve on the steering committee for the current year.

Fall Dances —

Winners: Conner and Herman. Runners-up: Horowitz and Lerner.

Feature event of the evening was a potato dance. Couples waltzed, two-stepped, even "dragneted" until a single twosome (right) had not dropped their potato to the floor.

A P O Obstacle Dance

OBSTACLES, jeans and informality reigned at the APO sponsored event held in the Roost October 9. After working a way through the maze of hazards at the entrance, persons attending the dance found they had to dance in a balloon decked corral.

Passing a grapefruit from one chin to another (left) proved difficult but entertaining. An energetic "dragnet" line (below) crowds the confines of the corral obstacle.

WITH CAROLE WALLER and Warren McClure as editors, a "new look" graced the pages of the U-News this year. More stories by more students gave a personal touch to the paper, emphasizing a real cross-section of the school. Fresh new ideas resulted in articles about the Dents and Pharmacists, and columns like "The

Adventures of the Feeney Family," "Conner's Corners," and "Meet Your Team." Intercollegiate basketball, something never seen before at U K C, highlighted the U-News with play-by-play articles. As a climax to the year, a super April Fool issue was published, one of the best in the University's history.

by J. Rinehart

DEAN ROY JAMES RINEHART has built the Dental School of the University of Kansas City into one of the country's finest. Dr. Rinehart's influence goes beyond the local scene as he has been foremost in setting the standards and practices of dental education in America.

The Art of Getting Along with People

The late Nicholas Murray Butler, President of Columbia University, said in his address to a graduating class that if you do not possess the ability of getting along with the person at the desk next to yours, your degree will be worthless. There never was a truer statement. I have known several graduates of our school who were good dentists but failed to make a success because of ill temper, selfishness, or egotism. The ability to make friends and keep them is a treasure of great value.

The characteristics necessary for success can be cultivated and made a part of your professional life, but some people are too self-satisfied and egotistical to recognize their own faults. I would advise the study of the character of others as a hobby and then compare your observations with your own characteristics. Make such a hobby a favorite pursuit and I will predict it will not only be a pleasant adventure, but valuable beyond your present comprehension.

HAVE ALWAYS
BEEN IMPORTANT
WITH US**

This is why, after 110 years, we are still pioneering, still searching, still devising, still improving, to promote better aids for dentistry. Perhaps you are aware of this.

There is a dramatic story, for example, much too long, for this page, in the evolution of S. S. White Equipment for convenience and comfort in the dental operating room. It stems from "headrest that can be adapted to any kind of chair, well suited to the traveling dentist," made by Dr. Samuel S. White in 1844, through the first self-cleansing cuspidor made in '66, the first electric engine in '70, first all-metal chair in '71, first chair to introduce the compensating seat and backrest in '72, the first hydraulic chair in '77, the first chair to give horizontal position in '99, the first equipment unit in 1913. The list of "firsts" is long, impressive, touches almost every phase of dentistry.

In 1938 the S. S. White Master Unit brought modern styling into the operating room. In 1950, a new triumph in dentistry's conquest over pain came with the introduction of the S. S. White "Airdent" Unit for cavity preparation by the "Air-brasive Technique".

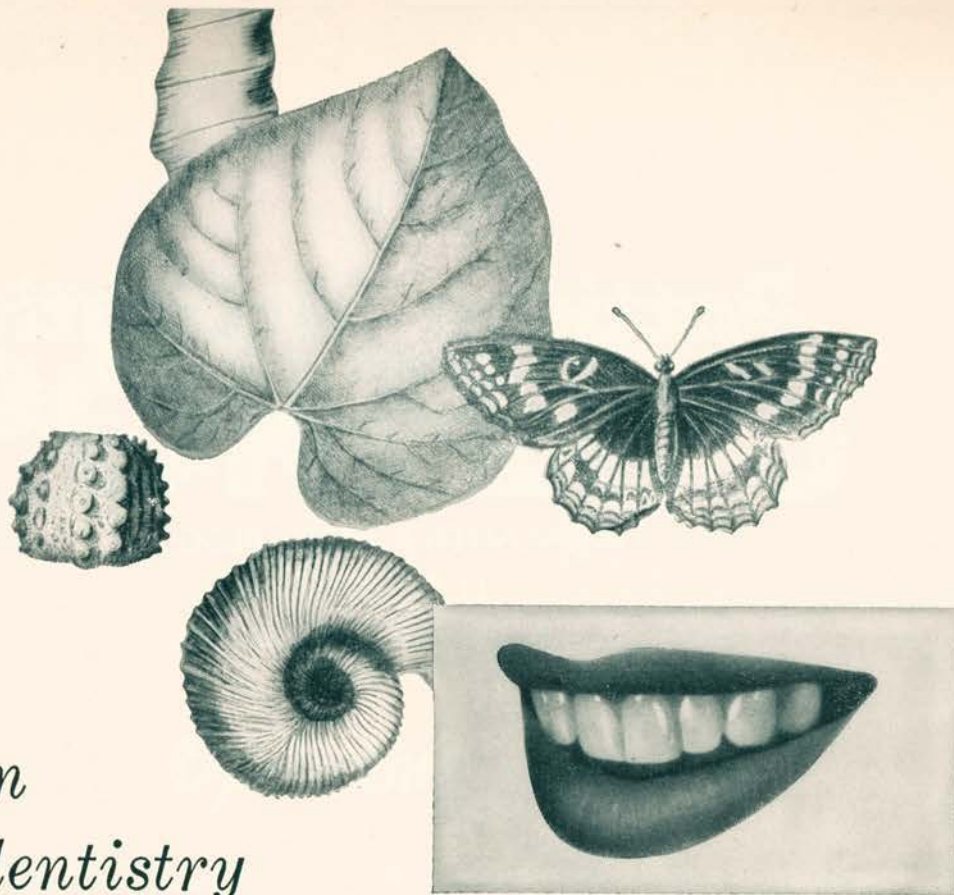

This we hope you will remember always—we and all distributors of S. S. White products have a constant concern for you and your patients and strive always to provide superlative service in all we do and make for you. Proof of this will be evidenced in our free office planning service and convenient financing terms. Test us. Ask any distributor of S. S. White Equipment or write direct.

design and dentistry

Nature, in her most perfect form of design, achieves an admired symmetry, a harmony of components with their whole, and a resulting natural beauty which, though often imitated, is rarely equalled, but never surpassed.

Trubyte Bioform Teeth follow Nature's own principles of design. The forms of Trubyte Bioform Teeth are the result of careful and prolonged study of thousands of extracted natural teeth, hundreds of skulls with good dentition and hundreds of patients. They are truly representative of the appearance of beautiful natural teeth. Each form has been carefully selected for its size and proportions, approximate outline form and pleasing labial characteristics. Labial markings vary in type from one form to another. No two forms in any classification are identical even in outline. No pattern has been followed beyond that provided by Nature.

Trubyte Bioform Teeth are in harmony with all three dimensions of the face—outline form, profile and cheek planes. They form the basis for a system of tooth selection which assures an esthetic result never before attainable. They enable every dentist to attain a new degree of excellence in his prosthetic work.

Research Explains Caries - Control Action of *Amm-i-dent*

Urea—provided in high concentration by the high-urea ammoniated dentifrice formula—penetrates deeply into the enamel... diffuses back to the surface gradually.⁸ Here (under the plaque) it hydrolyzes to ammonia... keeps the pH alkaline for hours^{4,7}... resists the acidifying effect of sugar hydrolysis.^{6,7} The high-urea ammoniated dentifrice formula also inhibits growth of acid-producing and other potentially cariogenic bacteria.³

Long-range clinical studies, as summarized below, demonstrate the cariostatic effectiveness of Amm-i-dent under actual conditions of use.

**With This Miniature Skull
You Can SHOW Patients
What You're Talking About**

TRYING to explain to patients why "permanent" dentures should be remade periodically to preserve normal occlusion and condylar relations, takes **some** talking. With "Yorick" you can **show** them. You can also show—

- How tissue changes cause loose dentures.
- How abnormal condylar relations cause auditory troubles and facial neuralgia.
- How bite raising can relieve such conditions; restore normal appearance.
- How cusp interference causes unbalanced occlusion.

Whereas patients recoil at such demonstrations on a human skull, they're intrigued with "Yorick." Yet this little half-size skull in "Ivorine" is a replica of a human skull, with cranial sutures, nerve foramina, full dentition and a movable mandible.
