Good Home Study Lighting Saves Students' Eyes

Have you ever tried reading for an hour at your child's study desk? Many parents who wouldn't dream of neglecting their youngster's diet or health unwittingly fail to provide adequate home study lighting.

A simple, planned study center that provides the best possible lighting for the eyes' needs will help improve grades and form good study habits.

How to Brighten Study Hours

1. Use a flat-topped desk or table with a dull light-finished top. Dark woods may be covered with pastel blotters.

2. Place desk or table against a wall, away from family activity. A tackboard fastened on the wall over the desk may provide better light reflection.

3. Study chair should be high enough to place the eye position about 14 inches above the desk top.

4. Choose the proper lamp for the seeing job. Wall pin-up lamps are popular with students of all ages, and provide even light over the entire desk. Use 100-watt bulbs and diffusing bowls. Avoid shades that are too dark or too bright. Overall room lighting should be used to avoid bright light and shadows in the study area:

I am Industry-1952

Ushered into a new world,
I had a bustling, brawling, bruising youth.
I was a potential giant awakening in a world of giants.
People were hurt when I first stirred in life;
Then I grew and learned;

Then I matured and knew that
Though I work with water and metal and chemicals and fire,
I am more than these things.

I am the people's work!
I am the people's dream!
I am the people!

With maturity, I have grown, too, in social responsibility
To the people,
To America!
And even to those beyond our shores.
My efforts are not in selfish interest;
Rather, all my brain and brawn strives for the good of the many.
I am the American way!

Now, I have sworn that these things shall be:
I shall deliver ever-better products to those who use my fruits!
I shall offer equal opportunity to those who work at my side
Whatever their race!
Whatever their creed!
Whatever their color!
Whatever their national origin!
I shall forever do my part to keep America great!

And why?
Because only in this way can I remain a healthy force in our free world.
For when I am healthy, America prospers
And tyrants tremble before my might.

I am America's life-blood!
I am America's strength!
*I am the bulwark of
the World's freedom!*

Briefs

Some very important changes in the structure of the Association organization are forthcoming. Reference to a reorganization committee has been made in this column before and the Association appreciates the efforts of such active members as Dr. Claude Bruner, Dutton Brookfield, Boyd Ewing, Warren McIntyre, Ed Wilkinson, L. W. Helmreich, Coe Pritchett, John Croll, and Judge Arthur Rogers who spent considerable time in study-

ing the present organization and submitting recommendations to the Board of Directors.

The recommendations of this committee were presented to a Board of Directors meeting Friday, April 25. The Board carefully examined and discussed the suggested changes and unanimously adopted the report of the committee.

Machinery for the general office to handle new organizational plans is being established and in a few weeks a complete and detailed analysis of what this reorganization means will be printed. The advantages of this reorganization and what it will mean to you in general are as follows:

- a. A better magazine.
- b. Closer contact with the University as well as with your former classmates.
- c. Mail-ballot election of general officers of the Association.
- d. Closer cooperation between the general Association and divisional alumni groups.

- e. Promotion of more active local clubs.
- f. A more active program of alumni activities.

May I call your attention to a sports feature in this issue? You can be proud of the exemplary role your University is playing in its athletic program. I urge you to "spread the gospel" of this program in the hope that other universities will follow our example, thus ensuring that intercollegiate athletic programs can become a healthy part of any educational institution. Digest the details of this sports article and, if possible, call it to the attention of your local newspaper. They can help by informing others that here is a school intent on a healthy, active athletic program.

THE COVER—J. Milford Nichols, Forester at the University of Missouri forest near Poplar Bluff, teaches a class in wood utilization during the summer camp. Here forestry students learn field techniques and observe various research projects. The Forestry Department of the University of Missouri has expanded rapidly since the close of World War II.

FORTY-THIRD ANNUAL

Journalism Week

Many prominent speakers and several hundred visitors attended sessions of the forty-third annual Journalism Week held at the University of Missouri May 4 to May 10.

This year the program opened on Sunday, with the first two days devoted to the Missouri Writers' Guild. Presentation of the Walter Williams Award and the Missouri Writers' Guild Award was made on Monday, May 5. Speakers appearing on the programs of the day were Donna Ashworth Thompson, free-lance writer from Springfield, Mo.; Dr. Virginia Craig, chairman of the English department at Southwest Missouri State College; Jean Bell Mosley of Cape Girardeau, short story writer; Ada Claire Darby, St. Joseph, author of children's books, and Jess Gorkin, editor of Parade Magazine.

No activities were planned for Tuesday except the annual Matrix banquet for Theta Sigma Phi, with Nell Snead, Women's page editor of the Kansas City Star, as guest speaker.

The next three days offered a full schedule of speeches and functions. Speakers included Sevellon L. Brown, editor and publisher, Providence (R. I.) Journal and Evening Bulletin; Charles C. Clayton, editorial writer, St. Louis Globe-Democrat; Dorothy Roe, women's editor, Associated Press Newsfeatures, New York; Arnold B. Dibble, night bureau editor, United Press, New York; Ellen Saltonstall, public relations director, Pan American Coffee Bureau, New York; William S. Lampe, New York Journal-American, Malcolm Johnson, International News Service reporter; Fairfax Cone, president of Foote, Cone & Belding, Chicago; E. W. Wilks, copy chief of Sears, Roebuck and Company, Chicago; Clyde Bedell, advertising consultant, Park Ridge, Ill.; R. J. Bayer, editor, Traffic World, Chicago; Wilson Condict, advertising director, St. Louis Globe-Democrat; Richard Crisp, research director, Tatham-Laird, Inc., Chicago; Dave Breger, King Features cartoonist, New York; Mrs. Irene Bedard, business manager and advertising director, Hibbing, (Minn.) Tribune; and William Hillman, veteran reporter and author of "Mr. President."

The Journalism Banquet on Friday evening featured addresses by Alexander F. ("Casey") Jones, editor of the Syracuse (N. Y.) Herald-Journal, and Clifton Utley, NBC commentator of Chicago.

In the News Picture of the Year Competition, awards were made to Mark Kauffman of Life, "The Photographer of the Year," who appeared on

Thursday's program; Suzanne Szasz, first award, Feature Picture Story; and to H. V. Lyle, Topeka (Kan.) Daily Capital, winner of the first award for the news picture story.

Missouri Honor Awards for Distinguished Service in Journalism were presented on the afternoon of May 9.

Sessions of the Missouri Press Association concluded the week's program on Saturday, May 10.

The weekly Princeton Post-Telegraph and the Columbia Daily Tribune won the general excellence awards in the 1952 Better Newspaper Contest sponsored by the Missouri Press Association.

In typographical excellence the Hermann Advertiser-Courier was the winner among weekly newspapers, and the Cape Girardeau Southeast Missourian was first among the dailies. The Mexico Ledger won the award for the best front page, a contest for daily papers.

RESEARCH GRANT MADE FOR STUDY IN PHYSICS

The National Science Foundation has awarded a grant of \$31,700 to the University of Missouri for support of research concerning acoustic cavitation being conducted by Dr. Arthur R. Laufer, Assistant professor of physics at the University of Missouri. This grant is to cover the study over a two-year period, with the possibility of a renewal at the expiration of that time. The research is a study of the effect of high frequency sound waves on liquids.

Dr. Laufer joined the faculty of the University of Missouri in the fall of 1949. A native of New York, he received an A.B. degree from Brooklyn College in 1940, a Master of Science degree from Yale University in 1947, and a Ph.D. degree from New York University in 1949. He has served on the teaching staffs at Yale, at Michigan State College, and at New York University.

Charles C. Clayton

John H. Wolpers

A. F. Jones

Fairfax Cone

Clifton Utley

Sevellon Brown

Six Missouri Honor Awards for Distinguished Service in Journalism were presented May 9 during Journalism Week at the University of Missouri. Dean Earl F. English of the School of Journalism made the awards. The recipients: Charles C. Clayton, editorial writer, St. Louis Globe-Democrat; the late John H. Wolpers, whose wife accepted the Honor Medal awarded posthumously to her husband, who was publisher of the Poplar Bluff (Mo.) Daily American Republic and president of the University of Missouri Board of Curators at the time of his death in May, 1951; Alexander F. (Casey) Jones, executive editor, Syracuse (N. Y.) Herald-Journal and Herald-American; Fairfax Cone, President of Foote, Cone & Belding, Chicago; Clifton Utley, NBC commentator, Chicago; and Sevellon Brown, editor and publisher, Providence, (R. I.) Journal and the Evening Bulletin, who accepted the award in behalf of his newspaper.

It's Not Just Theory--

Nature Provides the Laboratory

Missouri's 15,000,000 acres of timberland is the training ground for foresters and wood technologists enrolled in forestry, one of the University of Missouri's most recently expanded departments.

By R. H. WESTVELD

The 15 living forestry alumni who were trained in the University's original Department of Forestry between 1913 and 1921 would have to admit that, although Missouri's timber is not as plentiful nor of as good quality as it was 30 or 40 years ago, remarkable progress has been made in Missouri in forest fire protection, in the training of foresters, and in research. They would probably reminisce that foresters were made of sturdier stuff in those days—one had to be tough to cope with the timber thieves and woods burners and willing to live away from "civilization" where a wife would rarely be content.

These alumni, who include among their numbers an associate director of a federal forest and range experiment station, the secretary-manager of the American Walnut Manufacturers Association, an extension forester, and a sawmill owner and operator, probably would quickly admit that the training of foresters is now much more diverse, as are the employment opportunities.

When they graduated it was assumed that they would go to work for the U. S. Forest Service, the chief employer of forestry graduates. Occasionally, a forester got a job in state forestry work, then in its infancy. More infrequently, a particularly bold individualist, unafraid of hard work, might take a job as a lumber piler or loader with a lumber company, in the hope that some day he might become a lumber company executive. Actually foresters were not sought by industry then, but the few who had the courage to stay on jobs which required little of their technical ability have been rewarded by important executive positions, as forestry and wood technology have come into their own in recent years.

Of the Department's graduates from 1949 to 1951 who are known to be following their profession (Uncle Sam has 1 percent of them occupied otherwise) approximately 50 percent are working for industry as managers of forest land, as sellers of forest products, as tech-

nicians at wood preservation plants, and as inspectors of wood products. Nearly 40 percent of them are working for state forestry organizations, most of them in administrative positions in fire control work, or in advisory capacities on timber management and marketing work for the small forest land owner. These foresters live, to a large extent, in or near small towns where they have the aids of modern business to transact their work.

To meet the varying needs of different types of jobs the training of today's foresters requires a more specialized staff. The staff of two men who trained Missouri foresters 40 years ago would find too few hours in the day to handle the more than 30 courses from which forestry students choose, and the courses in farm forestry and forest conservation that are available to students in agriculture, wildlife, and other branches of work related to forestry. Now the department, which started with a staff of three teachers and an extension worker in 1947, has a staff of ten full-time teachers and research workers, two part-time research workers, an extension worker, and a substantial research program. Associated with the department are three full-time research workers of the Northern Ozark Forest Research Center who have associate faculty status in the University. The advice and counsel of these men is invaluable in developing the department's research program, and their research program is a real asset to graduate students particularly and to the instructional program in general.

Such rapid development of a well-rounded program gained accreditation by the Society of American Foresters in December, 1950, a year and a half

A typical, well-managed farm woodland is shown in this 35-acre tract near Jackson, Missouri. The farmer has cut in these woods three times in ten years and has netted \$3,000.

Professor R. C. Smith explains the use and reading of weather instruments to a class in Silvics. A rain gauge, wind velocity gauge and atmometer may be noted in the background.

after the first 15 graduates from the new department completed their course of study. Since then 64 more men have joined the ranks of the alumni. The groundwork for this expansion had been laid during the eleven-year period, 1936-1947, when a 2-year pre-forestry curriculum was offered for 10 years and a 4-year curriculum was offered for one year in the Department of Horticulture and Forestry.

In addition to a well rounded staff—four with doctors degrees and another, expecting to achieve the doctorate in June—the department has other assets. It's 8,000-acre University Forest, salvaged from the extensive University land-grant lands, is a real challenge to the staff's ingenuity and initiative in forest management and utilization. Located in Butler County, about 15 miles northeast of Poplar Bluff, this forest tract has had the same type of mis-management as other Ozark timberlands. Under fire protection and skillful removal of low-value trees, this land is being rehabilitated and the growth of timber is gradually increasing. In 10 to 15 years this forest will be yielding substantial volumes of cross ties, saw logs and other products, and with each passing year thereafter more and more timber will be available for cutting.

In the meantime, every young forester who hopes to achieve a degree in forestry will learn field techniques in forestry and broaden his knowledge through observations of various research projects during the 12 weeks he spends in forestry summer camp, usually after his sophomore year. Here he learns to cruise timber, scale logs, determine growth rate of timber, map timber lands, evaluate the suitability of different soils for various tree species, evaluate tree characteristics in terms of future growth and enhancement in value and apply this knowledge to the management of timberland. By working at the department's saw mill as sawyer, log turner, off-bearer, and lumber piler he learns the importance of safety measures and the problems involved in sawing the best grades of lumber from logs. Through visits to stave mills, handle factories, flooring plants, planing mills, furniture plants, tie and pole yards, and sawmills, the students gain familiarity with varied uses of woods and the pro-

cesses by which various products are manufactured.

A student dormitory with facilities for 35, an office and classroom building, kitchen and dining hall, bath house, faculty building, garage and work shop, and a sawmill provide the physical facilities for the 12-weeks summer camp. A residence for the one member of the staff who administers the University Forest and devotes half of his time to research completes the physical facilities.

Students who choose the forest products marketing curriculum, offered for the first time during the current school year, spent only 4 weeks at the University Forest. They confine their activities to the study of the various wood-using industries, to the use of wood in light construction, and to retail lumber business.

Extracurricular activities of the forestry students are centered in the Forestry Club. The Paul Bunyan Bounce (dance), the winter banquet, and spring barbecue are traditional events which are explained to the freshman at the fall initiation ceremony. The Missouri Log, now in its fifth year, features each year a series of technical articles, and records the activities and progress of the Club, the department, and the alumni. One thousand copies, largely financed by advertisements of wood-using industries are distributed to students, alumni, wood-using industries, state foresters, and a variety of agencies interested in forestry, wood technology; and the use and sale of wood products. Students have an opportunity to test their talents as editors, sellers of advertising, photographers, and business managers.

Outstanding scholastic achievement among the students of the Department of Forestry is recognized by election

to Phi Theta Gamma, honorary forestry fraternity, which will change it's name to Xi Sigma Pi in May when a chapter of the national honorary forestry fraternity will be installed. The fraternity honors two of its own members each year—the Junior and the Senior with the highest scholastic average—with the payment of a year's membership dues in the Society of American Foresters. It also selects the outstanding freshman and honors him by placing his name on the Outstanding Freshman Award Plaque.

Although the 12-weeks summer camp provides the practical touch to the foresters training, students are encouraged to supplement this with summer employment with some forestry agency or lumber sales organization. Summer jobs on forest fire protection, construction and maintenance of forest improvements, timber marking, slash disposal, white pine blister rust control, timber cruising and on miscellaneous jobs in lumber yards are always more numerous than the job seekers. The majority of these summer jobs are in the West and in the Lake States thus providing students an opportunity to see forests and working conditions that are different from Missouri's. They usually net from \$300 to \$400 for the summer's work—enough to finance a large part of a semester's education.

Considerable research is centered at the University Forest. However, the department's research laboratory is found wherever there are forests. A study of forest plantations to determine the adaptability of various tree species to different soils and to determine the factors that influence plantation success has sampled plantings throughout the state. A study of timber growth likewise is sampling

timber stands throughout the state. Studies of Christmas trees as a crop are underway chiefly at the Ashland Wildlife Tract and the Weldon Springs Experimental Farm. Recent uncertainty about the future use of the Weldon Springs Tract has handicapped and curtailed the work there. Franklin, Gasconade, and Osage counties are coming in for scrutiny in a study to determine whether marketing of the timber crop can be improved to the advantage of the landowner and the wood-using industries and the permanent timber economy of that region. Methods of restoring the forests to greater production of higher quality wood of more valuable species are in progress at the University Forest. Studies in wood technology to develop new uses of low-grade wood, better techniques of manufacturing wood products through correct machining of wood, proper gluing, and proper control of moisture in wood, and modification of wood properties by physical, mechanical, and chemical means are soon to be initiated. Research on the effect of forest cover on soil and water resources will also get under way this year.

Although the education and research programs are organized primarily to meet the needs of Missouri land owners, wood-using industries, lumber and building materials merchandisers, and the state forestry organization, they are providing a service to forestry in the timber region of which Missouri is

a part, as well as in adjacent regions. Illinois, Kentucky, Tennessee, Mississippi, Ohio, Arkansas and Texas are among the nearby states which do not have accredited forestry schools. Nearly as many alumni of the past three years have taken jobs in these states as in Missouri. Some of them were merely returning to their home states after having spent 2 to 4 years in Missouri to secure their forestry education. Missouri forestry alumni are working in 13 states.

As organized forest fire protection is established on the 5 million acres of unprotected forest land that still needs organized forest protection (8 million acres receive organized protection), as more and higher quality timber becomes available under improved forest management, and as these improved conditions attract more wood-using industries which will process wood into more completely finished products than now, foresters, wood technologists, and forest products salesmen will be needed in increasing numbers in the future. To keep pace with the changing needs, the Department of Forestry is alert to adjust its offerings of courses and its curriculum and to engage in new fields of research within the limitations of available funds. Yes, the graduates of Missouri's original Department of Forestry will have to admit that forestry in Missouri isn't what it used to be, and these alumni should be proud of that fact.

EARLY FORESTRY ALUMS SHOW 80% "ACTIVE"

A Forestry Department in the College of Agriculture was inaugurated in 1911, growing until it included in 1916 two professors, three office rooms, a classroom, a laboratory, and two summer camps. By 1917 the Department was practically without students, due to World War I, and many courses were discontinued. In 1921 the last three degrees were awarded from this early department.

Of the 17 graduates in forestry between 1913 and 1921 two are deceased and the addresses of three others are not known. The deceased are Joel Herman Bremicker and Max Emmett Miller. Those for whom addresses are not available are Robert Buchanan Clay, '14, Victor Charles Follenius, '13, and Maurice Saley Gibson, '14. The remaining twelve are scattered between Washington, D. C., and California with 5 residing in Missouri.

Sam R. Broadbent is Assistant Chief in the Division of Estimates Bureau of the Budget. His address is 3133 Connecticut Avenue, N. W., Washington, D.C.

Fred Ray Bruto is working for the Missouri State Highway Department and is living in Jefferson City, Missouri.

Charles Russell Fritschle makes his home at 5603 Washington Street, St. Louis 12, Missouri. He operates sawmills at Matson and at Sullivan, Missouri.

Charles Burdett Green is Secretary-Manager for the American Walnut Manufacturers Association, where he has an office at 666 North Lakeshore Drive, Chicago, Illinois.

Charles William Herald, Jr. makes his home at 6 Hartus Court, St. Louis 10, Missouri, but at present he is located in England as a Staff Engineer with the Army.

Earl Bent Hotze is in business in St. Louis and makes his home at 9749 Tesson Ferry Road, St. Louis County, Missouri.

William G. Kohner is in charge of forestry instruction at the John Muir College in Pasadena, California.

Felix Gustiv Kraft resides at 107 South Maple Avenue, Webster Groves, Missouri. He is a CPA with office at 1596 Arcade Building in St. Louis.

Samuel H. Lendensohn resides at 122 East Ridgewood, San Antonio, Texas. His occupation is not known.

Murrell W. Talbot is Associate Director of the California Range and Experiment Station and resides at 2590 Cedar Street, Berkeley, California.

John Powers Youmans is living in Poteau, Oklahoma and his occupation is unknown.

Charles Wade Simmons is Extension Forester for the Agricultural Extension Service of Texas A & M College and resides in College station, Texas.

Much work is done in the laboratories of the Forestry Department, located in the new Agricultural Laboratory building. This display shows a variety of samples of fruits and leaves.

Ruthford H. Westveld, Chairman of the Department of Forestry, received a B.S. degree in '22, and a Ph.D. in '46

DEMONSTRATION FOREST NAMED FOR DR. BENNITT

"The Rudolf Bennitt Forest" is the name given a wooded demonstration area of 172 acres on the large tract near Ashland, Mo., where the University of Missouri conducts wildlife conservation and forestry experiments.

The designation, made recently by the Board of Curators honors the memory of Dr. Rudolf Bennitt, the University's first William Rucker professor of zoology. He had served on the faculty from 1927 until his death in February, 1950 and was director of the wildlife research program at the University in cooperation with the State and Federal governments. Under his leadership the activity was greatly expanded.

The demonstration forest named for Dr. Bennitt is a portion of the 2,300-acre Ashland wildlife tract about twenty miles southeast of Columbia. The work to be done in the dedicated area will be handled principally by members of the honorary forestry fraternity, Phi Theta Gamma, under the supervision of the University's Department of Forestry.

FIFTH INDUSTRIAL CONFERENCE HELD

The fifth annual Industrial Management Conference was held at the University of Missouri on April 17-19 with approximately 250 industrial leaders and educators in attendance.

The conference is offered by the University's School of Business and Public Administration and the Adult Education and Extension Service, with the cooperation of the following organizations: The Associated Industries of Missouri, the Society for the Ad-

from Michigan State College, and a Master of Forestry degree in 1925 from Yale University. He was born at Grand Rapids, Michigan. He began his career as a Junior Forester with the U. S. Forest Service in New Mexico. From 1925-'28 he was assistant silviculturist at Pacific N.W. Forest Experiment Station. In 1928 Dr. Westveld joined the faculty of Michigan State; in 1936 he became assistant professor of Forestry at the University of Missouri; and in 1938 he went to the University of Florida as Professor of Silviculture. In 1946 he became the head of the Department of Forestry at Alabama Polytechnic Institute, and in 1947 returned to the University of Missouri to become Professor of Forestry and chairman of the Department. Mrs. Westveld is the former Amy Linderoth, a graduate of Lombard College and of the University of Chicago. Their Columbia address is 813 Hilltop Drive.

ancement of Management, the Industrial Council of Kansas City, the Industrial Relations Club of St. Louis, and the Kansas City Chamber of Commerce.

Prominent speakers included on the three-day program were Prof. W. W. Finlay, Southern Methodist University, Dallas; Jackson Martindell, president, American Institute of Management, New York; John H. Chapman, Owens-Illinois Glass Company, Toledo; Edwin W. Ahern, industrial relations department, Standard Oil Company, Chicago; Tom Collins, publicity director, City National Bank and Trust Company, Kansas City; T. S. Lisberger,

General Electric Company, New York; Heath Wakelee, factory personnel manager, Sears, Roebuck and Company, Chicago; and Joe Holland, general counsel, Pevely Dairy Company, St. Louis.

In addition to the general sessions, conferences and seminars were held throughout the meeting.

MISSOURI WORKSHOP CONCLUDES SEASON

"The Madwoman of Chaillot," presented April 1 through 5, was the last major production of Missouri Workshop this year. The French, award-winning play was directed by Professor Donovan Rhynsburger, with settings designed by Professor Elmer Bladow of the speech department and built under the supervision of Denslow Bolte. Miss Mildred Howard, instructor in speech, designed the unusual make-ups for the production, and Miss Jeanne Ferris, a senior in the College of Agriculture had charge of costumes.

Miss Patricia Ingraham, wife of Guy Ingraham, a University graduate student from Philadelphia, Pennsylvania, played the lead role of Countess Aurelia. The remainder of the cast of 21 persons was made up entirely of students.

The University of Missouri has received a grant of \$4,743 from the U. S. Public Health Service for support of a research project being conducted by Dr. Edward Novitski, associate professor of zoology, toward a study of the structural properties of chromosomes.

Bob Hale Hasn't Missed Many Issues

After thirty years with Wood Brooks Farms near Metuchen, New Jersey, Walter Roberts Hale retired as Managing Partner at the close of 1951 and is presently a partner, with two sons, in the Halecrest Company, Paving and Landscaping Contractors.

Walter Hale, or "Bob" as he is more commonly known in New Jersey, was born in Pulaski County, Missouri. He was graduated from high school at Joplin, and, to use his own words, "coming up the hard way as a clod hopper and a stump jumper, finally landed at the University where I had to earn all my way." "Working his way," however, did not interfere too much, as he earned a B.S. degree in Agriculture in 1912, taking part in many extracurricular activities and organizations as well.

Agricultural interests, civic progress and hard work seem to constitute much of his story, as he followed his training in Wisconsin, Washington, D.

C., and Illinois; going to New Jersey in 1921. In 1919 he was married to Miss Nota Clara Harrah of Bloomfield, Indiana, and their home is now at Halecrest Farms near Metuchen.

Mr. and Mrs. Hale have three sons, Robert Jackson who lives at Willisville, Illinois; and Richard M. and Philip I, both of whom are in business with their father at Halecrest.

Halecrest Farms, the Contracting Company and other business interests do not occupy all of Mr. Hales time, however, as he is Director and president of the Middlesex County Board of Chosen Freeholders. He is now in his 21st year as a member of this Board, which is the governing body of Middlesex County. This county has a population of 275,000 and a 1952 budget of approximately \$6,000,000.

Incidentally Mr. Hale has been a subscriber of *The Missouri Alumnus* for 35 years.

with the alumni

IN SPRINGFIELD, ILL. . . .

On April 22 graduates, former students and friends attended an informal banquet and dance given by the University of Missouri Alumni group in Springfield, Illinois. Plans are already under way for a picnic at Lake Springfield soon. The progressiveness and interest of this organization is a real challenge to other groups. Missouri alumni in the Springfield area should contact Mrs. Ruth Flanigan, secretary, 1709 North 21st Street, for further information.

IN ROLLA, MO. . . .

The Phelps County Alumni met at the Hotel Edwin Long in Rolla on April 29. Approximately 65 alumni heard Jack Matthews, Dean of Students at the University, talk on "Campus Problems." Two graduate students from the music department of the University furnished musical numbers for the occasion, and Bus Entsminger gave a brief summary of future Alumni Association plans.

IN CHICAGO

On May 6 Chicago Alumni held their annual spring dinner party at the Chicago Builders Club. Norma Lee Browning, feature reporter for the *Chicago Tribune*, and Thomas A. Brady, vice-president of the University, addressed the group. Alumni Secretary Bus Entsminger told the club of recent developments in the organization of the Association.

Alumni in the Chicago area who are not members of the Chicago organization are depriving themselves of some fine entertainment.

IN COLUMBIA

Clarence Woolsey, LL.B. '36 Springfield, Mo., was elected President of the Law Alumni Association at the annual meeting of the Association in connection with Law Day activities here.

Frank Edwards of Mexico, Mo. Class of 1935, was elected 1st Vice-president; Ronald S. Reed of St. Joseph, Class of '31, 2d Vice-president; and Mortimer A. Rosecan of St. Louis, Class of '36, 3d Vice-president.

Jack Robertson of Kansas City, Class of 1947, was named Secretary of the Association, and William W. Beckett of Columbia, Class of 1936, is the Treasurer.

Judge Waldo Mayfield of St. Louis is the retiring president.

Dean Glenn A. McCleary announced that the Alumni meeting had the largest attendance in its history in spite of the number kept away from Columbia by the flooding Missouri River. He estimated approximately 200 former

students of the School of Law attended. There is also an exceptionally large number of other guests registered for the Law Day activities, he said.

MANY ALUMNI RETURN FOR LAW SCHOOL DAY

Law Day is a well-established tradition at the University of Missouri.

When alumni of the School of Law gathered on the University campus here April 25 and 26, along with scores of other members of the legal profession, between 500 and 600 persons celebrated the 80th anniversary of the founding of the school and a quarter of a century of the annual Law School Day gatherings.

Although Law Day activities were begun principally as alumni gatherings, the annual meeting has developed into an institution which attracts many non-alumni members of the profession who make this a real "legal" get-together. Learned jurists and famous attorneys, corporation lawyers, and legal counsel come to meet and exchange ideas with others of the profession and to see what the coming crop of young attorneys looks like.

The Law School Foundation, founded in 1928, honored student members of the *Missouri Law Review* at a dinner on Friday night. In addition, the trustees of the Foundation had as their guests members of the University Board of Curators and administrative officers of the University, members of the faculty of the School of Law, members of the State Board of Law Examiners, and first-year students in the School of Law. Louis V. Stigall, president of the Board of Trustees, presided at the dinner, with Richmond C. Coburn, president of the Missouri Bar, as principal speaker.

Roland F. O'Bryen of St. Louis was elected president of the Law School Foundation for the following year. Two vice-presidents were elected, Norwin O. Houser, St. Louis, and Lue C. Lozier, Jefferson City. Latney M. Barnes of Mexico was elected secretary and R. B. Price of Columbia is treasurer.

New trustees, elected to serve three years, are Judge S. P. Dalton, Jefferson City; George Willson, St. Louis; James A. Potter, Jefferson City; Flavivus Freeman, Springfield; and James A. Finch, Cape Girardeau.

The annual picnic luncheon given by Mr. and Mrs. Boyle G. Clark at their home at 245 South Greenwood in Columbia on Saturday was attended by a crowd representative of the more than six hundred invitations sent out by Mr. and Mrs. Clark. Many prominent Columbia and Central Missouri business and professional people, along with those of the legal groups, were present.

In the afternoon the Junior Case Club Finals were held, with this year's special tribunal consisting of Judge Frank Hollingsworth of the Missouri Supreme Court, presiding; Sam Wilcox of St. Joseph, Judge of the 6th Judicial Circuit; and Elmo B. Hunter of Kansas City, Judge of the 16th Judicial Circuit.

The students who won their way to the Junior Case Club Finals are Ralph M. Crow of Springfield, Mo.; Thomas J. Derleth, Rochester, New York; Miss Mary Gibson of Springfield, Mo.; and Robert F. Pyatt of Trenton, Mo. Miss Gibson, the only woman now enrolled in the School of Law and one of the editors of the *Missouri Law Review*, is the first woman to be in the Case Club Finals.

Professional fraternities and honor societies conferred honorary memberships during their reunion activities. The Order of the Coif honored Richmond C. Coburn, the Foundation Dinner speaker. Phi Delta Phi conferred honorary membership on Powell B. McHaney of Clayton, who is president of the Board of Curators of the University.

Delta Theta Phi initiated James E. Taylor, Attorney-General of Missouri, as an honorary member. Phi Alpha Delta conferred membership on Circuit Judge Waldo C. Mayfield of St. Louis, retiring president of the Law Alumni Association.

Governor Forrest Smith, members of the Missouri Supreme Court, and Federal judges in Missouri were guests of honor at the Law Banquet held in Rothwell Gymnasium on Saturday evening. Robert G. Storey of Dallas, Texas, dean of the School of Law at Southern Methodist University, was the principal speaker.

Added to the program this year for the first time was the conference for Prosecuting Attorneys. Of the 114 county prosecuting attorneys in Missouri, 68 have received all or part of their education at the University and 53 of these 68 are graduates of the School of Law or have received their legal training here.

TITLE CHANGES MADE FOR BUSINESS STAFF

In line with the policy of continuing readjustments to meet current needs, four titles in the business office of the University of Missouri have been changed. Dale O. Bowling has assumed the duties of Business Manager and is retained as assistant to Vice-president Leslie Cowan in charge of Business Operations. Mr. Bowling's duties as Auditor will be assumed by Carroll C. Paulsmeyer, formerly Assistant Auditor. William P. Virden has been made Assistant in the Purchasing Department, and Emmett Klinkerman, Assistant to the Business Manager.

Enid Honors Dewitt Waller

Forty years is a long time to spend in one public school system, and, when viewed in the light of the average of 5.2 years tenure per place per person in the state of Oklahoma, it is an especially long time.

But it was more than the forty years of service to the Enid, Oklahoma, public schools that was honored on April 18 when 508 persons from over the state gathered for a Chamber of Commerce dinner in Enid, paying tribute to DeWitt Waller, Superintendent of Schools.

The speaker for the occasion was Dr. George L. Cross, president of the University of Oklahoma. Dr. Cross characterized Mr. Waller as "one of Oklahoma's most distinguished and beloved citizens, as well as one of its ablest educators."

After the address of the evening, friends and colleagues of Mr. Waller showered him with gifts, including certificates of recognition, a television set, and round-trip plane tickets for him and Mrs. Waller to Mexico City this summer, hotel reservations included.

Mr. Waller joined the faculty of the Enid High School in 1911 as mathematics and science teacher and as athletic coach. Except for the year spent in service during World War I, this lanky, sandy-haired educator has been with that school system continuously since that time. He became high school principal in 1915, and was made superintendent of schools in 1934.

The son of a Methodist minister, Mr. Waller spent most of his own high

By BOB LEAR, B.J. '51

school days at Peacock military school in San Antonio, Texas. His undergraduate degree was taken at Epworth University, now University City University. In 1928 he received his A.M. degree in education from the University of Missouri.

At Epworth University he lettered in football, baseball, basketball and track, and won a place on the all-state and all-southwestern football teams.

Seated at a special table at the banquet were members of some of Mr. Waller's early athletic teams at Enid High, among them many persons prominent in affairs of the city today.

While attending Missouri, he became a member of Phi Delta Kappa, honorary educational fraternity. He is a member of many educational organizations and has served as president of the Oklahoma Association of School Administrators and of the Northern Oklahoma Education Association.

Mr. Waller has worked with the Boy Scouts for many years, and holds the Silver Beaver award, their highest honor. He is also a member of many other local and civic organizations.

Mr. and Mrs. Waller have two daughters. Miss Marilyn Waller lives in Enid; their other daughter is married and lives in Dayton, Ohio.

Mr. Waller's concluding speech was very brief. "I have lots to say, but I can not say it tonight. Thank you every one, thank you very, very much." And since there is no indication that this 40-tenure is about to end, he will still have time to say more.

M. U. REPRESENTATIVES

Harold H. George, assistant treasurer of the Commercial Credit Corporation in Charlotte, N. C., represented the University of Missouri at the formal inauguration of Dr. Charlton C. Jernigan as president of Queens College in Charlotte on March 29.

Mr. Gange graduated from the University of Missouri with an A.B. degree in 1928. He was a member of Sigma Chi, and of Alpha Kappa Psi fraternities, and was president of the senior class in the School of Commerce, now the School of Business and Public Administration.

Dr. Albert S. Eisenstein, professor of physics, represented the University of Missouri at the annual meeting of participating institutions at the Argonne National Laboratories (atomic pile) near Chicago on March 4.

Dr. Eisenstein and Harold R. Day, graduate student at the University and RCA Fellow in physics, spent March 3 at the Argonne Laboratories doing some research using the atomic pile, which is being made available for the purpose.

On March 5 they went to South Bend, Ind., where the University of Notre Dame is making its high voltage accelerator available to the two Missouri University scientists for further research.

As the Argonne representative of the University, Dr. Eisenstein replaces Dr. Newell S. Gingrich who is now on leave of absence.

Dr. Norman F. Childers, chairman of the Department of Horticulture at Rutgers University and a graduate of the University of Missouri, represented Missouri at ceremonies inaugurating Dr. Louis Webster Jones as president of Rutgers in New Brunswick, N. J., May 8.

Prof. Childers received a B.S. degree in Agriculture from Missouri in 1933 and a Master of Arts degree in 1934. He also received a Ph.D. degree from Cornell University.

Dr. C. W. McLane, A.M. '35, Ph.D. '42, has resumed his position as director of admissions at the University of Missouri after a year's leave of absence in Washington, D. C., as director of a commission on accreditation of Armed Service experience.

Martin Garber, left, president of the Enid, Oklahoma Chamber of Commerce, is looking forward to even more successful years with DeWitt Waller, Superintendent, who is being honored for forty years of service to the Enid schools. On the right is Mrs. Waller. (Photo by Bill Sheets, News-Eagle photographer)

**DIRECTOR GODWIN
WITH ART MUSEUM
THIRTY-SIX YEARS**

The Toledo Museum of Art, founded by Edward Drummond Libbey, early in 1952 celebrated its Fiftieth Anniversary, and this year also marked the twenty-fifth anniversary as Director of the Museum for Blake-More Godwin, who served as a Curator of the Museum for eleven years before he became Director in 1927.

BLAKE-MORE GODWIN

In connection with its Anniversary, the Museum opened five new galleries and displayed for the first time its Anniversary Ascensions consisting of what they consider the finest paintings by Rubens in the United States; excellent works by El Greco, Claude Lorrain, Pieter De Hoogh, Jacques Louis David, Courbet, Mazo, Pisarro, Sisley, Utrillo, Derain, Modigliani; and a number of American paintings. Opened for the first time this year also was a new section for their glass collection.

Mr. Godwin was born at Clinton, Missouri. He received an A.B. degree from the University of Missouri in 1915 and an A.M. from Princeton University in 1916. In 1926 he was married to Miss Mollie Conant Ohl and established a home in Toledo, where they continue to be active in civic and professional affairs. Mr. Godwin is a Trustee of the Museum Endowment Fund, of the estates of Edward Drummond Libbey and Florence Scott Libbey, and is a director of the Ojai Valley Company, Scott Properties Corporation. He was appointed representative of the United States Museums by the Coordinator of Inter-American Affairs to the 400th Anniversary Exhibition of Chilean Art in Santiago and has been an honorary member of the Faculty of Fine Arts of the University of Chile since 1943. He was decorated a commander of the

Order of Merit, Chile, in 1943, and was made Chevalier, Legion of Honor, in 1950.

Mr. Godwin is a contributor of biographies of American painters and sculptors in *Allgemeines Kunstler Lexikon*, and of articles on art for periodicals. He is the author of a catalog of European paintings in the Toledo Museum, and is a designer of Gothic Hall, Cloister and other features of the Museum.

His father, the late W. M. Godwin, was a graduate of the class of 1884 at the University of Missouri. A brother, Colonel J. J. Godwin, now with Westinghouse Electric in St. Louis, received a B.S. degree in Engineering in 1917 and in Electrical Engineering in 1918 at Missouri.

Mr. and Mrs. Godwin live at Scott Place in Toledo.

**JIM BODDY, FRIEND
OF AGRICULTURE**

From the *Ranch and Farm World*, Sunday supplement of the *Tulsa (Oklahoma) World*, comes the story of a former student of the University of Missouri, James Piercey Boddy, '12-'13. We quote:

"Jim Boddy, Tulsa businessman, has been identified with the good things of Oklahoma agriculture longer than the *Tulsa World* has been identified as the state's top buyer of old ramshackle typewriters for its reporters, and that, brother, is measured in aeons.

"Jim was born 'up where the tall corn grows' in Iowa. His family moved, while Jim was a mite of a boy in 1894 to Texas. He graduated from his home town high school at Henrietta, Texas, and attended the College of Agriculture of the University of Missouri, 'where,' as he says, 'I was more interested in playing football than in earning my degree.' Degree, or no degree, hasn't seemed to hamper Jim's move up on the rungs of life's ladder. It is very doubtful if he had received a Ph.D. in Agriculture he would have had more interest in farming than he has today. You can only put so much water in a bucket, you know.

"After his University of Missouri days he went back to Texas and the family ranch. In 1914 he went to eastern Oklahoma. Ill health struck and he spent some time in Colorado recuperating.

"Since 1931 he has been connected with the *Tulsa Paper Company*, first as a salesman, and now as vice-president. While paper is his real business, farming, there is no doubt, is his real hobby. And like most men, he probably works about as hard at his hobby as he does at the job which puts 'grub' on his table.

"Jim Boddy has been chairman of the calf scrambles since the organization

of the *Tulsa Livestock Exposition* some five years ago. More than 500 calves have been placed in the hands of Oklahoma youth as a result of these 'scrambles.' Even before the 'calf scrambles' were heard of Boddy was active, along with other *Tulsa* businessmen, in lending money to deservng farm youth for the purchase of purebred livestock. 'We never lost a dime through default by those kids,' Boddy recalls.

"Last year Mr. Boddy was chairman of the Poultry Improvement Committee of the *Tulsa Chamber of Commerce* . . .

"Last year he was named vice-president of the *Magic Empire Hereford Breeders Association* and is now on the board of directors of that organization. During 1950-51 he was president of the *Tulsa Farm Club* and is now chairman of the agricultural department of the *Chamber of Commerce* . . .

"It has been said by other civic leaders in *Tulsa* that Boddy has served on virtually every major civic committee in *Tulsa* during the past decade.

"Jim's family consists of his wife, a son, Edgar, who is now engaged in running the 3,300-acre *Hereford Ranch* at *Henrietta, Texas*, and two daughters: *Mrs. G. L. Temple* and *Mrs. Jack Bates*, both of *Tulsa*.

"The next time you attend a livestock show, sale, fair, exposition, or

JIM BODDY

any event in the *Tulsa* area, and you see a tall lanky fellow not just standing around but actually doing something to make the thing go, the chances are, pard, you are face to face with *Jim Boddy*."

Please remember to give your class year and wife's maiden name when reporting changes of address to the *Alumni Association*.

RALPH OWEN CHOSEN RED CROSS DELEGATE

Ralph W. Owen, who did his graduate work at the University of Missouri, has been selected as a member

RALPH W. OWEN

of the American Red Cross delegation to the joint Red Cross teams, which will provide prisoners of war in Korea with humanitarian services as soon as repatriation is agreed upon by the United Nations and Communist negotiators.

On the basis of agreements reached at Panmunjom last month, the Red Cross has been able to begin advance preparations for the eventual exchange of prisoners of war, although there is no way of estimating when the actual exchange may start.

The American Red Cross will send 15 delegates to coordinate the activities of the Red Cross Societies of the United Nations Command countries.

Mr. Owen also attended Southwest Missouri State Teachers College and was music supervisor of the Bolivar, Missouri, public schools for nine years. He joined the Red Cross in 1946 after four years of service in the Air Corps and was appointed to his present position as field director in Service at Veterans Administration Offices in the VA Regional District Office, Dallas, Texas, in 1951. He is married to the former Joyce Van Roberts, and they reside at 1408 Argentia Drive, Dallas.

SIX M. U. DEGREES FOR ETHERIDGE FAMILY

The family of Prof. W. C. Etheridge, Chairman of the Department of Field Crops of the Division of Agriculture, and the late Mrs. Etheridge are loyal alumni of the University of Missouri.

William R. Etheridge, B.S. in B.A. '39, A.M. '46, is systems accountant

in the U. S. General Accounting Office in Washington, D. C.

Edward B. Etheridge, B.J., '42, B.S. in Ed., '51, is living with his father in Columbia, Missouri—208 Thilly Avenue. "Ned" is a portrait artist and last year completed the painting of the late Professor C. F. Marbut which now hangs in the Soils Office of the University.

David C. Etheridge, A.B. '43, is editor of the Swing magazine, W. H. B. in Kansas City.

Fannie E. Etheridge, B.S. in Home Economics, is teaching Nutrition and Dietetics at Saint Olaf College, Northfield, Minnesota. Her residence is 3136 James Avenue, Minneapolis.

HITT STREET EXPANDS

The University of Missouri is cooperating with the City of Columbia in the widening of Hitt Street from University Avenue south to Rollins Street. The project will involve removal of large trees on both sides of Hitt Street on University property, and the construction of new sidewalks and curbs as well as surfacing the additional thoroughfare. New trees will be set as quickly as possible.

INDIAN POTTERY IS GIVEN MUSEUM

In February, the University of Missouri received a gift of ten specimens of ancient Indian pottery from Mrs. J. B. Mitchell of Osceola, Arkansas, for deposit in the University's Museum of Anthropology. The pottery is from an important collection of Indian artifacts which had been assembled over a period of years by Mrs. Mitchell's husband, the late J. B. Mitchell of Osceola.

The pottery represents artifacts of the Middle Mississippian Indian culture which was prominent ages ago in southern Missouri and northern Arkansas, and the specimens given to the University are valuable in helping fill voids in the museum collection here.

John B. Mitchell, instructor in rural sociology at the University, is the son of the donor and was instrumental in arranging the gift from his mother.

Approximately 715 courses will be available to the students at the annual Summer Session of the University of Missouri, June 9 to August 1. In addition there will be a number of workshops, conferences and short courses.

REASSURING NOTE AS STUDENT RECALLS . . .

A former University of Missouri student who now is an instructor in the leadership school of an army camp credits his service experience for clearing up his "confused and bewildered" status as a student.

In a letter to Col. Donald Q. Harris, chairman of the defense department at the University, the writer also pays tribute to the ROTC staff here for patience shown him during his campus training and offers a reassuring note to trainees who have a feeling of apprehension.

Now a second lieutenant, the former student who went into the army last summer is teaching non-commissioned officers a course that is considered a good grooming school for O.C.S.

"In our estimation, the men who survive the course are the ones who will make the leaders," he wrote. "However, I am obliged to give them every chance in the world to prove themselves because I remember the patience that was dealt out to me while at the University of Missouri."

He recalled that Col. Harris had once told him the army from the outside was like a dark room, but once inside, it was not quite so dark as pictured.

"I must admit I didn't realize what you and the staff at the college were striving for, but now I do," the letter states. "I am amazed, and a bit disappointed, at the feeling of the young men who come into this army with a bitterness and a contemptible dislike for the army. The officers are trying to correct this error of thinking.

"With most men, the fear (as I have had), disappears, and respect and duty take its place. I am certain . . . that the best man goes into combat."

The writer said it was "rather ironic that I, a poor student at the University," should be teaching leadership, then added:

"However, a change has definitely come over me, much for the better. At college I was confused and a bit bewildered, but the army has cleared up a lot of the confusion that I once had. Day by day I am gaining experience and the obstacles that I meet become challenges not to be feared but to be met and conquered to the best of my ability."

The former student said he would soon be taking his thirty days' leave prior to being sent to the Far East.

"My anxiety is not one of fear, but one of wanting to do the best possible," he wrote. "Probably there are men in your ROTC classes who are much the same as I was—apprehensive, and a little afraid. This experience they are going into will broaden them a great deal, and that dark room is lighter once inside, and becomes lighter as time passes."

"It's a Custom" IN THE BECKER FAMILY

In the southeast part of the State of Missouri, located on the Black River near Williamsville, in Wayne County, is an interesting place called Rolling Shoals Farm. The late Coulton M. Becker, B.S. in C.E. '10, bought and moved to this farm in 1915, after working at various engineering jobs in Texas, Michigan, New York, and his home town of St. Louis, Missouri. In 1922 he was married to Miss Grace Dulaney of Slater, who attended the University in 1910-1912, and who received her Home Economics degree from the University of Wisconsin in 1915. Mr. Becker passed away in January, 1947, and Mrs. Becker has continued to operate the farm.

When the Becker family, four sons and two daughters, gather at Rolling Shoals to visit, the range of their conversation is indeed extensive. Geographically, they may include at least a dozen states, Canada and Honduras, and the boys may add more from their experiences in the Army, the Navy and the Marines. Scholastically they may discuss the Universities of Missouri, Wisconsin, Illinois, Maryland, The Citadel in South Carolina, Vanderbilt and Johns Hopkins, and may add first-hand contributions from time spent as students and as teachers in the Schools of Agriculture, Engineering, Medicine, Home Economics and Chemistry.

The two older sons, (twins) William D. and Edward C., entered the University of Missouri in September, 1940. Although Bill's education was interrupted by service with the U. S. Navy, he received a B.S. degree in Civil Engineering in December, 1943, a B.S. in E.E. in June, 1948, and a M.S. in E.E. in June 1949. Ed received a B.S. in Agriculture in 1944 and returned for graduate work in Entomology in September, 1946, after serving with the U. S. Marines.

William D. Becker is now an Assistant Professor of Electrical Engineering at the University of Maryland. From 1947-'49 he was an instructor at the University of Missouri, and an Assistant Professor at The Citadel in Charleston, South Carolina. He is a member of Sigma Xi, Tau Beta Pi, Eta Kappa Nu, A.I.E.E., A.S.E.E., Pi Mu Epsilon, Chi Epsilon and Gamma Alpha.

Edward C. Becker will receive his Ph.D. degree in Entomology from the University of Illinois in June, 1952, and has accepted a position as Coleopterist with the Canadian National Museum at Ottawa. He received his Master's degree at Illinois in 1950.

Mrs. Ed Becker is the former Martha Mae Elliot of Lathrop, Missouri, who attended the University of Missouri from 1945 to June, 1948. She received her Home Economics degree from the University of Illinois in February, 1952. They have one daughter, Barbara Ann, who was born in Honduras, Central America, in August, 1949. Mr. Becker was employed during that year as Entomologist for the Standard Fruit and SS Company. He is also a member of Sigma Xi and other honorary organizations.

Mary Caroline Becker attended the University of Missouri from 1942-45, and received her A.B. degree from

CURRENT ENROLLMENT

Of the 6083 students who are enrolled for the present term in the Columbia divisions of the University of Missouri, 5755 are residents of the State. These 5755 students come from the 114 counties and from approximately 700 towns.

The State of Illinois leads the out-state enrollment with 231 students. New York is second with 87, and Kansas is third with 63.

From 43 states, the District of Columbia and three territories have come 962 students. In addition there are 86 students from foreign countries, making a total of 1048 in attendance from outside the boundaries of Missouri.

Vanderbilt University in Nashville in 1946. She was graduated from Johns Hopkins School of Medicine in 1950 and is now in her second year of post-graduate training as Assistant Resident in Medicine at Duke Hospital in Durham, North Carolina. She has spent three of her summer vacations in camps, her last position was that of Medical Director at Camp Sylvania of the Rockies in 1949.

John M. Becker attended the University of Missouri in 1944-45, joined the Marine Corps, and returned to the University, College of Agriculture, to receive his B.S. degree in 1949. He is now operating the family farm at Williamsville.

James T. Becker received his B.S. degree in Agricultural Engineering at the University of Missouri in 1951, and returned to Rolling Shoals to farm

with John. In February, 1952, he entered military service and is receiving his basic training at Fort Riley, Kansas. As a student he was a member of the University Football and Concert bands, of Wesley Foundation, Pi Mu Epsilon, Tau Beta Pi, and Three Squares Coop.

The youngest of the Beckers, Elizabeth, is now enrolled as a junior in the College of Arts and Science at the University of Missouri, majoring in chemistry. She was chosen in April to Mortar Board and Phi Beta Kappa. Miss Becker has been a member of AWS Council for two years. She is a member of Sigma Epsilon Sigma, Pi Mu Epsilon, Wesley Foundation, and is a student assistant in the Chemistry Department. She has been a leader of Girl Scouts, class editor for Savitar, and is a Scout Camp Counselor during the summers.

The father, C. M. Becker, passed along to his children his love for fishing, hunting, camping, swimming and good driving. Mary Caroline was the Missouri State Champion for Ford Good Drivers' Contest in 1941. Mr. Becker was interested in aviation and received his pilot's license in 1926. He was a Boy Scout Leader, a Commissioner, and served as a Representative in the State Legislature in 1921.

The family has a wide range of hobbies and interests—travel, painting, music, and one can easily realize there is always "food for conversation," and otherwise, when the Beckers come home to sample the practical application of Mother Becker's training in Home Economics and as a former Home Agent and a State Club Agent in Missouri.

Other universities may be included in the family story of the Beckers, but the records at the University of Missouri show a total of 32 years attendance within the family, to date and that old Tiger spirit is bound to prevail, whether at Rolling Shoals or in other parts of the world.

SIX-WEEK PROGRAM FOR SPEECH TRAINING

A special six-week program of speech training for children from over the State will be provided by the University of Missouri Speech and Hearing Clinic during the 1952 summer session.

The intensive remedial work in speech will be conducted from June 16 to July 25. The children coming to Columbia, selected upon the recommendation of speech correctionists, teachers, physicians, the Crippled Children's Service, and others, will live in foster homes and attend Clinic sessions daily. Dr. Charlotte G. Wells is director of the Clinic. The cost of the foster home care is assumed by the Altrusa Clubs of Columbia and Moberly, Mo.

PHI BETA KAPPA CHOOSES MEMBERS

Eighteen University of Missouri students and three alumni were elected to Phi Beta Kappa by the Alpha of Missouri Chapter on April 23.

Four members of the class of 1952 were elected in October and initiated in December. Another election will be held before the June Commencement.

Students elected yesterday are:

Lawrence Berlin and Donald George Stubbs, of Kansas City;

Barbara Ann Beckett, Boonville, Mo.;

Henry S. Bradsher, Baton Rouge, La.;

Harold Eugene Dailey, Excelsior Springs, Mo.;

Jane Butterfield Davis, Winterset, Iowa;

Ervin Jerrol Dunham, Carthage, Mo.;

Lynn Moore Ewing, Jr., Nevada, Mo.;

Barbara Ann Goode, Normandy, Mo.;

John Donald Grant, Jr., Mission, Kans.;

Samuel S. H. Lee, Honolulu, T.H.;
Richard Kenneth Reider, Elizabethtown, Pa.;

Earl Donald Scott, Shelbina, Mo.;

Robert Ryland Smith, St. John, Mo.;

Lillian Adell Thruston, Jefferson City, Mo.

Austin Trinkle, Jr. (deceased), Denver, Colo.; (Lt. Trinkle died February 14, 1952, as the result of a plane crash while on an operational flight in the vicinity of Pearl Harbor);

Doyle Marion Weathers, Bragg City, Mo.; and

Margaret Ann Welch, University City, Mo.

Alumni members elected are:

Robert Vaughan Boucher, professor of agricultural and biological chemistry, Pennsylvania State College, State College, Pa. He received an A.B. degree in 1927, an A.M. in 1929, and his Ph.D. in 1933. Prof. Boucher was assistant in agricultural chemistry at the University from 1927 to 1933 and and instructor in agricultural chemistry in 1933-34.

Katharine Rosetta Jeffers, associate professor of biology and dean of women at the College of William and Mary, Williamsburg, Va. Dean Jeffers received an A.B. degree from the University in 1927, an A.M. in 1928, and was research associate in zoology at the University in 1932-33 and from 1934 to 1936. She received a Ph.D. at Bryn Mawr in 1932.

Elio David Monachesi, professor of sociology at the University of Minnesota in Minneapolis. He received an A.B. degree from the University of Missouri in 1927 and an A.M. in 1928.

He served as undergraduate assistant in political science at the University in 1926-27 and was graduate assistant in sociology in 1927-28. He received a Ph.D. degree at the University of Minnesota in 1931.

TAP DAY—1952

Thirty-four outstanding senior students at the University of Missouri were honored on April 22 during Tap Day ceremonies held at the Columns on the University's Francis Quadrangle.

The three senior honorary organizations at the University, Mortar Board for women, and Q.E.B.H. and Mystical Seven for men, tapped new members. Newly elected officers in the Student Government Association also were introduced and took the oath of office administered by President Frederick A. Middlebush.

Led by President Middlebush and Robert Zumwinkle, director of student affairs for men, the students filed out the north door of Jesse Hall and paraded to the Columns. Music was provided by the University Band.

Election to the senior honoraries is based on high scholarship and participation in extra-curricular activities. Plans for the annual Tap Day were made by Dr. Matthews, dean of students, Bill Stauffer, president of Mystical Seven, Lowell Smithson, president of Q.E.B.H., and Betty Mische of Mortar Board.

Those tapped by Mortar Board were: Frances E. Becker, Williamsville, Mo.; Sharlie A. Conzelman, Peekin, Ill.; Lorraine Mae Croft, Clinton, Mo.

Patricia Fuson, Kansas City, Mo.; Patricia Ann Hamlin, Boonville, Mo.; Mary Jane Julian, Courtney, Mo.; Patricia A. Kilpatrick, Highland Park, Ill.; Judith M. Klawans, Chicago, Ill.

Verna Dean Lawrence, Bloomfield, Mo.; Mary Patricia McGrew, Mendon, Mo.; Janet Reich McDonald, Springfield, Mo.; Maryellen Melton, Coronado, Calif.; Jeannette M. Michener, Tuscola, Ill.; Marian Louise Reid, Columbia, Mo.

Judy Ann Russey, Columbia, Mo.; Margaret C. Sheppard, Doniphan, Mo.; Lois Diane Stephenson, Jefferson City, Mo.; and Charlotte Taylor, of Shelbina, Mo.

Those honored by Q.E.B.H. were: Henry S. Bradsher, Baton Rouge, La.; William K. Fessler, Jr., Kansas City, Mo.; Jack F. Greer, Springfield, Mo.; James E. Hook, Lee's Summit, Mo.

Ralph W. Johnson, Festus, Mo.; Richard Kremer, Memphis, Tenn.; Royce Lewellen, Jefferson City, Mo.; George H. Morgan, Kansas City, Mo.; and Joseph O'Rourke, Jr., of St. Louis.

Mystical Seven tapped: James E. Bone, Jr., Hayti, Mo.; Harold Hook, Lee's Summit, Mo.; Hal Jenkins, Sheridan, Mo.; Don Rutter, Shelbina Mo.

on campus

Frederic J. Seidner, Chicago, Ill.; Melvin Steninger, Elko, Nev.; and Bill D. Swanson, Columbia, Mo.

Dr. Jack Matthews, dean of students, was made an honorary member of Mystical Seven.

The S.G.A. officers introduced by Dr. Middlebush are: President, Jim Bone; vice-president, Steve Fulbright, Ferguson, Mo.; secretary, Earlene Miller, Boonville, Mo.; and treasurer, Joslyn Sparling, Hot Springs, Ark.

CURATOR SCHOLARSHIPS TO HIGH SCHOOL SENIORS

The University of Missouri has awarded "Certificates of Recognition" to more than 200 high school seniors selected as the students of highest scholastic promise in their respective schools, and has offered each of these students a Board of Curators Scholarship for entrance into any division of the University.

Dr. Thomas A. Brady, vice-president of the University in charge of extra-divisional educational activities, emphasized that the student chosen "of highest scholastic promise" by the University's Committee on Curators Scholarships would not necessarily be the student with the highest grades in his high school class. The testing program and the Committee, he said, attempt to determine the student's aptitudes and capabilities rather than his grade average. Nevertheless, to be eligible for a certificate and scholarship, the student must rank in the upper twenty per cent of his class for the first seven semesters.

The Board of Curators of the University also provides several hundred additional scholarships to other Missouri high school students if they rank within the upper fourth of their graduating class and are in financial need of a scholarship in order to enroll in the University.

GEOLOGY GRANT FOR FELLOWSHIP

The University of Missouri Department of Geology has accepted a grant from the California Company of New Orleans, La., to establish The California Company Fellowship in Geology for the school year 1952-53.

The fellowship will have a stipend of \$1250, with additional funds for tuition and fees. It will be awarded to a first-year graduate student in geology at the University, starting in June or September 1952.

The California Company is an oil drilling and exploration company with offices over the nation. Arrangements for the fellowship were made with the main office at New Orleans.

Thirteen University graduates are serving as generals in the U. S. Army: 1943.

John Waldorf captained the Tiger football team: 1928.

University Hospital is completed: 1924.

Still not weakened by the war Miz-zou is picked as one of the best teams in the country: 1942

The Tigers were using the Notre Dame style of play: 1934

Showme poll shows students favor Dewey and F.D.R. as election candidates: 1940

The name West Campus is adopted because Red Campus might be misunderstood—politically (it's still Red Campus): 1932

The University had provided 2600 fliers for the Air Corps: 1944

Fire in the University Co-op store causes \$5000 damage: 1929

The Glee Club wins the Missouri Valley championship and takes third place in the national contest: 1925

One thousand electric lights were strung across Rollins field for a pep rally: 1922

Once banned Savitar Frolics returns with a censor: 1945

Tom Kelly was football coach, replaced by Myron E. Fuller at the end of the season: 1922

Girls rifle team loses first match of season to Vermont: 1925

M Men are given permanent passes to all athletic events: 1929

Tyrone Power selected the Savitar Queen this year: 1943

Tiger Polo squad wins the Midwest Championship: 1932

Student elections prove that there is life in the SGA: 1940

Scabbard and Blade shot the national high scores: 1934

Missouri's champion glee club takes second in national competition: 1927

The Journalism student's award is made for the first time: 1924

Nelson Eddy offers a cup to the winner of the sorority sing: 1936

Don B. Faurot hired as football coach: 1935

Dogs are prohibited from the University buildings and grounds unless leashed: 1923

Dr. Walter Miller, dean of Graduate school, says the Memorial Tower is one of two perfect towers in the world—other is Giotto's Campanile in Florence, Italy: 1926

High school seniors enter the University under the new war-time ruling: 1943

Dr. William Robbin is appointed Dean of Graduate School: 1930

The first annual Savitar Frolics, an experiment, is a howling success: 1938

The Journalism Show is the "Green Jug" a revival of the 1921 show: 1942

A world trip costs \$654 first class on the Dollar Steamship lines: 1934

University switches to reciprocal plan for out-of-state fees: 1939

Tiger basketball team wins conference championship and sets a new attendance record of 30,000: 1932

University votes to return to semester rather than quarter system adopted for military purposes: 1944

Blue Key, national service organization, installed at M. U.: 1929

Ag journalism degree introduced at University: 1922

Bill Bangert and Ed Quirk establish new world's record in shot-put: 1945

Mary Chorn is first woman to place on varsity debating squad—also first and last woman to become member of Mystical 7: 1921

Miss Barbara Goode, Kappa Kappa Gamma, was crowned queen of the Military Ball, Saturday, April 19th at Brewer Field House.

A \$1,250,000 face lifting job will begin on Jesse Auditorium in the fall of 1952.

The 1952 Campustown races are scheduled for May 10th. The Races sponsored by Delta Upsilon will be a part of the 1952 Greek Week.

Kappa Kappa Gamma, social sorority, won the sorority scholarship cup at Panhellenic Day, with an average of 2.69. Alpha Gamma Rho, Agriculture fraternity, led in the men's division with a grade average of 2.51.

An inter-department Home Economics Fashion Review was held in Jesse Auditorium, April 29th.

The Board of Curators has accepted a grant of \$1,725 from the United States Public Health Service for support of a research project in the Botany department.

Twelve members of the University faculty have been granted summer research fellowships.

The University played host to the State High School Music Festival, May 2 and 3.

The Tiger Alums held the varsity team to a tie in their annual spring football game at Memorial stadium.

Final examination schedules were released this week. Exams will start two days after classes are dismissed on the 24th and will continue until June 2nd.

The year's concert series was concluded at 8:15 April 21, with the Minneapolis Symphony orchestra, Antal Dorati conducting.

A new square-dancing class brings co-education to Rothwell Gymnasium. Mr. Clifton E. French will instruct the class.

The '52 carousel night club cast has been termed the best in years. The show ran the week of April 22-26.

The University singers held their spring concert May 1, in Jesse Auditorium.

M. U. Aggies held their 47th annual Farmers' Fair the weekend of May 2 and 3, with a mile-long parade, a carnival on the pike, a horse show, and a greased pig and pie eating contest. Outstanding feature of the Fair was the crowning of Janet Wilson, goddess of Agriculture.

Forty-four high school students from all parts of the state participated in the annual Missouri State High School Speech Conference on April 25-26.

SPORTS

STAUFFER MAKES OUTSTANDING RECORD

Watching his peerless basketball ace play his final collegiate game for the West All-Stars last month, Missouri Coach Wilbur "Sparky" Stalcup might well have pondered when he'd come across the likes of Bill Stauffer again.

The answer to that one might be,—
"Not for a long time."

During his three years at Mizzou, the 6-ft. 4-inch athlete from Maryville typified the high-type, well-rounded individual whose presence on any squad reflects great credit on the institution. He was everything, in short, that Tiger coaches look for in their efforts to recruit top-flight Missouri boys for their athletic squads.

On the court, Bill was a superb basketball player, who demolished every Tiger scoring record in his senior year. Yet, he was also outstanding as a scholar, a gentleman and a campus leader. Bill came to Missouri to prepare himself for a career in journalism, and he hoped, too, to play some varsity basketball along the way. In both endeavors he succeeded handsomely.

Always a top student, Stauffer—whose major is advertising—had a 3.64 grade average out of a possible 4.00 at the mid-semester mark in his senior year. A popular campus figure, "Stauff" was a member of Mystical Seven's honorary society and president of Phi Delta Theta social fraternity. He also was a J-School representative to SGA.

Last month, Bill's nomination to the West basketball squad, and then his selection to the Helms Foundation All-American first term added two brilliant postscripts to a season already brimful with achievement.

In the annual benefit game with the East's hand-picked cage greats, Stauffer played almost the entire game, collecting 16 points and hawking rebounds tirelessly. Chosen to Helms' squad of ten top cagers, Stauffer thus took his place alongside a select few in Missouri's basketball history who've won national recognition.

The last M. U. court stalwarts to merit placement on Helms' All-American teams were Herb Bunker and George Williams, two strapping stand-outs in the early twenties. Bunker, of course, was a unique athlete-academician—a four-sport letterman with a Phi Beta Kappa key. Williams, who was Helms' Player of the Year in 1921, held the single-season scoring mark of 311 points which Stauffer scratched from the books this winter.

Bill completed his career at Missouri by establishing three new scoring records for future Tigers to aim at. He tallied 31 points against Nebraska at Lincoln for a single-game high, totaled 386 points for a one-season peak, and finished with a career-total of 807 points.

This latter figure, amassed over a three-year period, bettered the previous high of 802 which Dan Pippin accumulated in four varsity seasons. And when Bill overtook Pippin's mark with a 19-point night on the final game of the schedule, his post-game comment was typical.

Ordered to "fire at will" in this final game, he did so almost reluctantly—and with poor accuracy in a tight first-half. More relaxed in the second half, he started to hit—and eventually set the record—though taking 34 shots in the process.

Afterwards, he confessed: "I was happy to set the record, but sorry to have such a bad night doing it."

That same modesty was apparent after the East-West game, in which Bill scored 16 points. Shortly after the game ended, a considerable segment of the fans in Kansas City's Municipal Auditorium began to chant "Stauffer" as their preference for the "Most Valuable" player award. K.U.'s Lovellette, who scored 31 points, was the ultimate choice.

Later on, Bill's father and an avid fan, M. W. Stauffer, mentioned to his son with pardonable pride that "quite a few people thought you ought to get that 'most valuable' award tonight."

"Just a few fraternity brothers, Dad," was the quick rejoinder.

"Huh," snorted the elder Stauffer, "then you must have two or three thousand fraternity brothers at the game tonight."

GRADUATE COUNCIL AS ADVISORY GROUP

A Graduate Council is being formed within the faculty of the Graduate School at the University of Missouri to serve as an advisory group in liaison with both the faculty and the Policy Committee of the division. Each department offering graduate work will elect one of its faculty members to represent the department on the new Council.

COACH EDWARDS NAMED "MAN OF THE YEAR"

At the close of the 1951-52 basketball season Professor George P. Edwards, chairman of the Department of Physical Education of the University of Missouri, was named "Basketball Coach of the Year" by the National Association of Basketball Coaches during their meeting in Seattle, Washington, in March.

A trophy, donated by the Metropolitan Intercollegiate Association, was presented for his outstanding contributions to basketball in the many years he has been a prominent figure in this field of sports and has served well the nation's basketball interests. In the absence of Mr. Edwards at the time of the meeting, Coach Sparky Stalcup received the award in his behalf, paying appropriate tribute to his predecessor.

Mr. Edwards was head basketball coach at Missouri for twenty years, 1926 to 1946. He has been a member of the National Rules Committee for many years, and is the originator of The Coach's Creed, well-known in the coaching world.

The Board of Curators of the University of Missouri has adopted a resolution which definitely outlines academic achievement as one of the basic requirements for athletic scholarships and places the awarding of these scholarships in the hands of a faculty committee, it was announced April 22 by University President Frederick A. Middlebush.

President Middlebush said the new plan provides that the scholarships be awarded upon the student's interest, ability, and achievements in (a) athletics, (b) scholarship, and (c) citizenship. It further sets forth among requirements of applicants "the usual scholarship requirements of (1) enrollment in the University of Missouri in a full program of school work, (2) satisfactory scholarship, and (3) maintenance of satisfactory social and moral standards."

The scholarships will be awarded for a school year and provide a maximum of tuition and fees, required textbooks, board, and lodging, with lesser awards to include only a portion of these aids in accordance with the need of the student.

The scholarships will not include any cash allowance to the student, President Middlebush said, and all high school graduates and all undergraduate students in the University of Missouri will be eligible for application.

Funds for support of the athletic scholarships will continue to be a part

of the budget for intercollegiate athletics, Dr. Middlebush said, and these funds will continue to be derived, as during the tentative plan of the past year, from program advertising and concessions, contributions from interested alumni and friends of the University, and from intercollegiate athletic funds.

UNIVERSITY ACCEPTS RESPONSIBILITY

He said the University will insist that all contributions for aid to athletes be handled through the University in its regular business procedure. This prohibits any direct financial aid to the athletes from outside sources other than the student's family.

President Middlebush said the adoption of the new plan follows a year of observation and study of the tentative plan for athletic scholarships set up at the University in April, 1951, and includes many of the basic principles of the tentative plan.

MISSOURI IN ATHLETIC

The new plan differs from that program chiefly in that the applications for scholarships will be processed and scholarships awarded by faculty representatives, academic achievement is one of the basic requirements, and the award includes no cash allowances for incidental expenses of the student. Under the former plan, awards were made by the Director of Athletics and his staff.

Dr. Middlebush said the resolution adopted by the Board of Curators constitutes a clear statement of policy of the University administration concerning aid to students engaging in intercollegiate athletics. He added that under the new plan athletic scholarships are built into the whole scholarship program of the University, basing one of the requirements for eligibility upon continued satisfactory progress toward attainment of a degree from the University.

President Middlebush said the new plan is based upon recommendations made by the University's Committee on Intercollegiate Athletics and approved in detail by him before being submitted to the Board of Curators. He said the plan was then made the basis for the resolution which was adopted by unanimous vote of members of the Board of Curators.

In a joint statement made with Sam B. Shirky, associate dean of the College of Agriculture and chairman of the University's Committee on Intercollegiate Athletics, President Middlebush said, "According to our understanding, this plan is in complete accord with recent recommendations of both the American Council on Education and the National Collegiate Athletic Association, and is also in accord with the provisions of the Big Seven Conference, of which the University is a member."

GREATER FACULTY CONTROL

Dean Shirky said that everyone concerned is of the opinion the new plan will give greater faculty control in the operation of the University's intercollegiate athletics program. It is a sincere effort to make intercollegiate athletics a worthwhile part of the educational program, he said.

"This is another step to make our intercollegiate athletics conform to

This article is a detailed description of plans for a still greater athletic program here at the University. Those of us affiliated with the institution have had reason to be proud of our athletic program in the past and now we can be even more proud of the exemplary accomplishments described below. The University of Missouri takes pride in announcing complete academic control of its athletic program and contends that a high caliber competitive athletic program can be maintained with educational benefit and justice to students, faculty, alumni, and the general public.

You can give support to this program by informing your community via radio sports announcers and sports editors of your local newspapers.

President

PIONEERS SANITY

principles completely above reproach," Dean Shirky said.

Members of the faculty on the Committee on Intercollegiate Athletics who now constitute the committee to examine applications and make the awards of the scholarships include, in addition to Dean Shirky; Dr. Loran G. Townsend, Dean of the College of Education, and Dr. Darwin A. Hindman, professor of physical education. S. W. Canada, the University Registrar, is secretary of the committee.

Don Faurot, head football coach and Director of Intercollegiate Athletics, hailed the new plan as another forward stride in clean, amateur athletics. He helped draw up the plan forming the basis of the Board's resolution.

"I feel sure this new plan will have the full approval and support of our faculty, our alumni, and friends of the University all over the State," Faurot said. "And I am hoping this will give more good Missouri boys an incentive to attend their own State University."

SCHOLARSHIP APPLICATION

It is the plan of the University to send application forms for the scholarships to superintendents of all Missouri high schools so that local school officials can help their graduating seniors apply for these just as they do other available University scholarships and grants-in-aid.

In recommending the new plan to the President and the Board of Curators, the Committee on Intercollegiate Athletics pointed out that a University Bulletin on "Scholarships, Honors, and Aids" lists more than 900 scholarships available for students in the University. They carry cash or equivalent stipends varying in value from \$10 to \$1,200 and are awarded for achievement in many fields of endeavor.

"The Committee on Intercollegiate Athletics believes that the University of Missouri is interested in the well-rounded and complete development of its students, moral, mental, and physical," the recommendation says. "It believes that these scholarships, giving some consideration to achievement in

physical development and athletics, should be established.

"Therefore," the Committee continued, "in order to aid and assist worthy students with athletic talents and interests who wish to pursue advanced training and education at the University of Missouri, it is recommended that the action of the Board of Curators of April 13, 1951, establishing athletic scholarships, be supplemented by the adoption of the following:

1. Basis for Awards

The scholarships shall be awarded upon the student's interest, ability, and past achievement in (a) Athletics, (b) Scholarship and (c) Citizenship.

2. Eligibility

All high school graduates and all undergraduate students in the University of Missouri shall be eligible for consideration.

3. Requirements of Applicants

The scholarships shall be awarded on the basis of achievement. There shall be no special requirements of those receiving the awards. The usual scholarship requirements of (1) enrollment in the University of Missouri in a full program of school work, (2) satisfactory scholarship, and (3) the maintenance of satisfactory social and moral standards will be expected.

4. Description of the Scholarship

a. Value. There shall be scholarships of four different values:

1. Scholarships furnishing tuition and fees, required textbooks, board, and lodging.
2. Scholarships furnishing tuition and fees and board.
3. Scholarships furnishing tuition and fees and room.
4. Scholarships furnishing tuition and fees only.

b. Length of Time. The scholarships shall be for a school year (2 semesters).

c. Number of Scholarships. The number of such scholarships in each classification shall be determined each year and recommended by the Committee on Intercollegiate Athletics to the Board of Curators as a part of the

budget for intercollegiate athletics for that year.

5. Responsibility for Making the Awards

The scholarships shall be awarded by the faculty members of the Committee on Intercollegiate Athletics, who shall make the awards upon the merits of the applicants as indicated by their applications, records, and recommendations. All awards are to be reported to the Board of Curators.

Respectfully submitted,
/s/ Sam B. Shirky, chairman."

At the meeting of the full Board of Curators in Kansas City April 11, 1952, the Board discussed and adopted a resolution which reiterated some of the observations of the Athletic Committee and continued, in part:

"Whereas, the plan submitted to this meeting by the Committee on Intercollegiate Athletics for the award of athletic scholarships is both acceptable and desirable:

"Now, therefore, be it, and it is hereby resolved, that the plan of Athletic Scholarships presented to this meeting by the Committee on Intercollegiate Athletics be, and it is hereby, adopted and declared by this Board to have been and to be the plan and policy of this Board for the current and succeeding academic years of the University of Missouri at Columbia, in order that aid may be given on a merit basis to worthy students with athletic talents and interests, so as to enable them to pursue advanced training and education at the University of Missouri, all as set forth in said plan."

HARRY ICE JOINS M. U. SPORTS STAFF

Harry Ice, '42, former Missouri grid star, has been appointed administrative assistant in the athletic department of the University of Missouri. His new duties will include managing the football program and soliciting contributions to the athletic scholarship fund.

These funds previously were routed to the University through the Quarterback Clubs, of which Mr. Ice was executive-secretary. Now that the solicitation of funds has been taken over by the University under his direction, all alumni funds will go through the University treasury.

Mr. Ice's new office is located in the athletic department in the basement of Rothwell Gymnasium.

Dan Pippin is a member of the United States' Basketball team which will compete in the Olympics in Helsinki this summer. Pippin was an outstanding player on the Tiger teams of 1946, '47, '48 and '49.

Weddings

1907

Mrs. Elizabeth Rogers Miner and Prof. HARRY ANDERSON LARUE, B.S. in C.E., on March 28 in Columbia, Missouri. Mrs. LaRue has been a member of the food service staff at Stephens College for the past six years, and Prof. LaRue is associate professor of civil engineering at the University. The couple are making their home at 1400 Rosemary Lane, Columbia.

1947

NANCY SENTER and William Hamilton Woodson on March 15 in Kansas City, Missouri.

ROBERTA OBERMAN and Jerome Wolf Sidel, both of University City, on March 16 in St. Louis, Missouri.

Miss Kitty Elsborg of San Francisco and S/Sgt. ROBERT S. JONES, B.J., on March 23 in Columbia, Missouri. Sgt. Jones has been transferred from Langley Air Force Base to England, where Mrs. Jones will join him later.

1950

Miss Jessie Tormey of Baltimore, Maryland, and JOHN C. BURKHARDT, B.J., of Evanston, Illinois, on March 24 in Baltimore. Mrs. Burkhardt is a registered nurse. Mr. Burkhardt is now serving with the Navy on a ship operating out of Norfolk, Virginia. The couple will reside in Evanston upon Mr. Burkhardt's release to inactive duty.

MAXINE KOSLOW of University City, and Walter J. Gelber, of St. Louis, Missouri.

JOAN AEBY and GEORGE H. PETERSEN, '51, on November 23, 1951, in Honolulu. Mr. Petersen is working with the Territorial Highway Department. Before her marriage Mrs. Petersen worked with the Missouri Department of Welfare as a case worker. Their address is 2475 B. Tustala Street, Honolulu, T. Hawaii.

1951

Miss Maxine May Schwabe of Columbia, Missouri, and Lt. ROBERT E. LUSK, B.S. in Bus. Admin., of Pawnee, Oklahoma, on March 25 in Columbia. The couple have gone to Ft. Sill, Oklahoma, where Lt. Lusk is stationed.

MARILYN DIANE McKINNEY and Lt. HOMER B. BALL, Jr., B.S. in Pub. Admin., on April 20, in Columbia, Missouri. The couple are making their home in San Antonio, Texas, where the groom is stationed with the air force.

Elizabeth Ann Hrdlicka and JAMES GORDON BARRY on April 19 in Richmond Heights.

Betty Cleveland and Pfc. ELTON W. WALKER on April 13 in Columbia. Mrs. Walker has been employed as a bookkeeper at the Columbia Savings bank. Pfc. Walker was graduated recently from the advanced radio and radar school at Scott Air base in Belleville, Illinois.

MARGIE SUE BURTON, B.S. in Ed., and HOWARD J. McCRABB, Jr., B.S. in E.E., on April 11. Mrs. McCrabb will continue teaching in the Fulton schools until the end of the term. Mr. McCrabb is an electrical engineer with the Union Electric Company in St. Louis.

BARBARA RUTH HOPE of Doniphan and ELWAYNE FRY of Cardwell, on March 27, in Doniphan, Missouri.

DOROTHY LEE HODSON and LINCOLN WAYNE HOWELL, B.S. in Ed., '50, on March 15 in Kansas City.

BARBARA RHEA SEIGEL and Bernard H. Brown on March 23 in St. Louis, Missouri. Mr. and Mrs. Brown will be at home at 218 Brush Creek road, Kansas City, Missouri.

CAROLYN SUE LIPSHY, A.B., of Lubbock, Texas, and Sylvan Busch of Kansas City, on April 13 in Lubbock.

1952

Miss Anne Goodman of Clayton and HAROLD ZIMMERMAN of Jamaica, Long Island, in St. Louis, Missouri. Mr. and Mrs. Zimmerman are living in Columbia at present while Mr. Zimmerman continues his studies at the University. He will report for military duty in June.

FREDENE WHEELER and HAROLD ROY HERRON, both of Jefferson City, on April 13 in Jefferson City.

NORMA KAY NEWKIRK of Kansas City, and EUGENE NEELEY of Los Angeles, on March 9 in Kansas City, Missouri. The couple will live in Freeport, Illinois, where he will be employed at a radio station.

BETTY JEAN SMITH of Chula, Missouri, and GEORGE A. MOORE of Palmyra, on February 23 in Chula. The couple will live in Eldon, Missouri, where Mr. Moore is in business.

Classnotes

ANNUAL REPORT

It seems that at yearly reunions
The proper finesse is to claim
That the change in the kids is
astounding,

Adults look exactly the same.

From Saturday Evening Post

1902

MAURICE WALLBRUNN, president and treasurer of Wallbrunn, Kling and Company, in Chicago, jobbers and retailers of paints, varnishes, brushes and wall-paper, hopes to be able to attend the Alumni Reunion on June 4. Mr. Wallbrunn asks, "Will Potter and Millsap from Jefferson City be there?" The Wallbrunn address is 1049 Albion Avenue, Chicago 26.

S. B. HOUX of Houston, Texas, is also planning to attend the June Reunion. Mr. Houx may be reached through his business address, The American Construction Company, Houston.

1904

LAURA SEARCY, A.B., A.M. '15, has been teaching at Stephens College in Columbia for the past 31 years. Miss Searcy is a teacher of creative writing and is head of the Stephens' campus service board.

1907

BEN W. TILLMAN is with the Agricultural Extension Service of the University of Illinois and the U. S. Department of Agriculture. A soils specialist, Mr. Tillman has been in Extension work the past thirty years. He was captain of the Mis-

souri Tigers in 1906-07, and coached at Westworth Military Academy in Lexington, Missouri, the year following his graduation from the University. The Tillman home is at 2 North Douglas in Belleville.

1908

Mrs. E. L. Spence, formerly MITTIE V. ROBNETT, is a housewife, living at 301 College Avenue in Kennett, Missouri.

1910

HERMAN B. HILL, A.B., LL.B. '12, attorney-at-law, made his first visit back to the University since his graduation when he attended Law School Day on April 26 and reports a wonderful time. Two others of the law class of 1912 were present, FRANK MANN and Judge ROSCOE CONKLIN, and others of the classes just before and after. Mr. Hill was the only law school graduate present who is now living in Texas, but his "adopted" loyalty to Texas was encouraged by the principal speaker of the banquet, Robert G. Storey, prominent attorney of Dallas and Dean of the Law School at Southern Methodist. Mr. Hill went to Shamrock, Texas, in 1912 as a representative of Stephens College in that territory. Although he has never returned to Missouri since that time except for brief visits, he says, "I still have the greatest respect for Missouri and the University." Mr. Hill's address is Box 380, Shamrock.

1911

J. A. McCOLLUM, LL.B., recently was elected vice-president and general manager of The Kemper-Thomas Company, Norwood, Ohio, manufacturers of calendars and business gifts.

1912

ERNEST L. ANTHONY is Dean of Agriculture at Michigan State College in Lansing.

MARION WAYNE LOWRY, formerly of Ravanna, Missouri, B.S. in Agr., A.M. '13, is with the Soil Conservation Service in Spartansburg, South Carolina. Address: 648 Woodland Street.

Mrs. LELA DOUGHTY Nichols, formerly of Stanberry, Missouri, B.S. in Ed., A.B. '14, is Chairman of the Science Department of Los Angeles High School. Address: 4600 W. Olympic Boulevard, Los Angeles 19, California.

1914

HIROMU TSUCHIYA, A.B., on July 1 will become associate professor emeritus of parasitology of Washington University in St. Louis. Dr. Tsuchiya joined the staff of the School of Medicine at Washington in 1930. In 1943 he was named to posts in both the department of bacteriology and immunology and the department of public health and preventive medicine. He is also a graduate of Johns Hopkins University School of Hygiene and Public Health.

BELLE MAYER, A.B., B.S. in Ed., formerly supervisor of Vocational and Home Economics at the University of Nebraska, is retired from teaching and is making her home at King City, Missouri.

1917

CURTIS B. HURLEY began his 24th year as editor and publisher of the Morrilton Democrat at Morrilton, Arkansas, on February 17, 1952. He is also part

owner of the Van Buren County Democrat at Clinton, and the Perry County News at Perryville, both in Arkansas. Mrs. Hurley is the former IONE SELF, B.S. '18. Their two sons attended the University of Missouri, Curtis, Jr., in '40-'41, and Joe, '42-'48.

HAZEL SMITH, B.J., does news and feature writing for the Star-Journal of Pueblo, Colorado.

1918

DAVID WARREN, B.J., as publisher, and his newspaper, the Panhandle (Texas) Herald, recently received an award of merit from the American Association for State and Local History. Mr. Warren has been active in historical research for many years. He is vice-chairman of the Board of Regents of the University of Texas.

1919

PAUL E. PELTASON, A.B., investment banker, lives at 11 Wydown Terrace in St. Louis, Missouri.

1921

STANLEY ANDREWS, appointed early this year as Special Consultant to the Secretary of State to assist in the development and execution of the Point 4 program of technical cooperation in underdeveloped areas, has been made Chief of the Point 4 program. He succeeds Dr. Henry G. Bennett, who was killed in an airplane crash near Tehran last year.

CECIL L. BROWN, A.M., is assistant manager of research and development for Standard Oil Development Company, North Plainfield, New Jersey. Mr. and Mrs. Brown and family live at 10 Rockview Terrace in North Plainfield. Their older daughter is a graduate of Stephens College in Columbia.

MARGARET CHEESMAN

1922

Mrs. D. C. Cheesman, formerly MARGARET ISABELLA WAX, is a housewife, living at 2049 Claremont Lane, Houston, Texas. Mr. Cheesman and son, Dale C., Jr., are independent oil operators with offices in the Second National Bank Building in Houston. Their daughters are Mrs. James J. Hippard and Mrs. Jack S. Groves, both of Houston. Mrs. Cheesman, as a student at the University, was a member of Mortar Board, president of Women's Athletic Association, a Savitar

queen in 1919 and again in 1922, attendant to the May Queen in 1922, and was listed on "Who's Who" among University Students as published by the "Evening Missourian" in 1923.

Other members of the family of Mrs. Cheesman who attended the University of Missouri are two sisters, RACHEL WAY SHERMAN, '25-'29; and JOSEPHINE WAY LIMERICK, '22-'25; a brother-in-law, PAUL WILLARD LIMERICK, '21-'25, and a niece, SARAH JOSEPHINE LIMERICK, '43-'46.

1923

PAUL H. BEBERMEYER, B.S. in Agr., A.M. '24, is Extension Associate Professor of Agricultural Economics at the University of Missouri. Mrs. Bebermeyer, formerly BLANCHE PORTER, B.S., A.M. '49, is teaching in the Fashion Department, Clothing Construction section, at Stephens College. Their son, James, A.B. '49, B.J. '50, is on the editorial staff of the Maryville (Mo.) Daily Forum. A daughter, Elbhor, will graduate from Stephens College next month. The Bebermeyer address in Columbia is 904 Hillcrest Avenue.

HAYDEN A. GLATTFE is general sales manager for the Tile-Tex Division of The Pinkote Company, with offices in Chicago Heights, Illinois. Mrs. Glutte is an alumnus of the University of Southern California. Their daughter, Dianne, is a Junior at Northwestern and their son is attending Taft School at Watertown, Connecticut. Address: 534 Sheridan Square, Evanston, Illinois.

SAMUEL C. BAST, structural engineer, completed his twenty-fifth year in New York in March. Address: 4620 Fayette Place, Great Neck, Long Island, New York.

1924

INEZ CALJAWAY, B.J., has a variety of names—her married name, Mrs. J. Addison Robb; her pen name, Nancy Randolph, and to those of the newspaper world, she is INEZ ROBB, columnist, war correspondent and roving reporter for the International News Service. She began her newspaper career as a society writer on the New York American. During World War II, she served as war correspondent for I.N.S. Mrs. Robb visited the School of Journalism early in April.

WILLIAM VAN CLEEVE, B.J., is editor of the Monitor-Index in Moberly, Missouri. Mrs. Van Cleve is the former CATHERINE B. MOORE, B.J. '23.

1925

WILLIAM MAPEL, B.J., has been elected president of the Publishers' Association of New York City. For the last eight years Mr. Mapel has been vice-chairman of the Publishers' Association, which is made up of the major daily newspapers of New York City. He is a native of Savannah, Missouri, and has a Doctor of Laws degree from Lincoln College of James Millikin University in Decatur, Illinois.

1926

OLIN HINKLE, B.J., M.A. '41, is co-author of a new book "How to Write Columns." John M. Henry of the Des Moines (Iowa) Register and Tribune is the other author and Harry E. Walsh of Omaha, Nebraska drew the cartoons. Excerpts from scores of small newspapers were selected for the book. Mr. Hinkle, former editor and columnist, was in newspaper work in Blackwell, Oklahoma, Pam-

pa and Sweetwater, Texas, and Lexington, Kentucky, and also spent 20 months in the U. S. Army Air Force during World War II.

MAX SCHWABE, native Columbian is associated with the M. F. A. Insurance Company in Columbia. Mr. Schwabe operated a life insurance business from 1926 to 1942 and served as congressman from 1942 to 1948. Mr. and Mrs. Schwabe and daughter June live at 1614 Bass Avenue in Columbia. Another daughter, Maxine, is Mrs. R. E. Lusk of Fort Sil, Oklahoma.

1928

J. L. McKee has been elected executive vice-president and treasurer of Allied Laboratories, Inc. After serving five years on the staff of Arthur Andersen & Company, accountants and auditors, he became associated with Allied in 1934. He has since that time been assistant secretary, assistant treasurer and controller.

Mrs. W. C. Hogin, formerly CHRISTINE CAROLYN DIEHL, was the guest speaker for the mass meeting of Pan-Hellenic Day activities held on April 19 in Columbia.

WILLIAM C. HOGIN, '27, has been active in work of the Boy Scouts for twenty-two years and in January was awarded the Silver Beaver award in recognition. He is an attorney in Kansas City, offices in the R. A. Long Building. Mr. and Mrs. Hogin live at 6101 Wornall, Kansas City, Mo.

Deaths

1879

ALBERT EDGAR ROSS, a pioneer of Chandler, Oklahoma, and a native of Edina, Missouri, on March 27 in Chandler. Mr. Ross established a real estate and loan business in Chandler in 1901 and continued active until about three years ago. He was one of the free-holders who drew up the charter under which the city of Chandler now operates, and he devoted

much interest to church and civic affairs, and to the Knights of Pythias lodge. Survivors include two sons, Edgar, of Tulsa; Tom, of Chandler, and five grandchildren.

1883

PRYOR COMMODORE MILLER, Pe.B., L.B., in Winslow, Arizona. Immediately after graduation from the University, Mr. Miller went to Arizona where he taught school and was engaged in cattle ranching. His survivors include nine sons and daughters, and twenty-nine grandchildren.

According to THE MISSOURI ALUMNUS RECORDS, Mr. Miller was one of the three oldest living alumni. Dr. J. W. Pryor of Lexington, Kentucky, was born in 1856. Mr. Miller in 1858, and Fletcher Cowherd of Kansas City in 1859.

1896

Dr. WILLIAM A. GILLASPIE, Sr., former Columbian, on April 4 in New Orleans, Louisiana. He had been connected with the Hotel Dieu Hospital in New Orleans for 52 years and continued there and in his private practice until a few weeks before his death. In 1950 he was named "practioner of the year" by the Orleans Parish Medical Society and by the Louisiana State Medical Society. He did graduate work at Tulane in 1900.

Dr. Gillaspie was the oldest member of the University of Missouri Alumni Chapter in New Orleans. Mrs. Gillaspie, three daughters and four sons, all of Louisiana, survive.

1898

HARVEY D. DOW, LL.B., called at the Alumni office on April 25 as he visited the University of Missouri during Law Day activities. He is a practicing attorney at Sedalia, Missouri, with offices in the Kahn Building.

1901

FRANKLIN MILLER, former circuit judge and circuit attorney, of a heart attack at his home in St. Louis on April 27. Born in Lancaster, Missouri, he was prominent for many years in legal circles

and was parole officer in St. Louis at the time of his death. He is survived by his widow, two sons and a daughter.

1902

WILLIAM B. BURRUSS, A.B., LL.B., on April 10 in Coral Gables, Florida. Mr. Burruss was a nationally known sales counselor, lecturer and author. Probably his best known book was "Shakespeare the Salesman." "Bottles" Burruss was a member of the Tiger football team and was, until his death, an avid football fan and an enthusiastic alumnus of Missouri. Mrs. Burruss, formerly Helen White, and a daughter, Mrs. Jean Yell of Albuquerque, New Mexico, survive.

1910

GEORGE SCHWARE, Representative from Tulsa, Oklahoma, and a former resident of Columbia, Missouri, on April 3 at his home in Alexandria, Virginia. He practiced law in Tulsa and was the first Republican to preside over the lower house of the Oklahoma legislature. His unexpected death was attributed to overwork. Survivors are his widow, four sons and a daughter.

1912

ROBERT IRA WHITAKER, Boone County surveyor and engineer, on April 5 of a heart attack at his home in Columbia, Missouri. He was surveyor and engineer of Marion County in Missouri for 16 years. Mrs. Whitaker; a son, Stanley, of Paducah, Kentucky; a daughter, Mrs. Martha Crowe of Tulsa, and two grandchildren survive.

1913

ELLA VICTORIA DOBBS, A.M., on April 13 in Macon, Missouri. Miss Dobbs, professor emeritus of the University of Missouri, began teaching as an instructor in 1909 and was a professor of applied arts from 1931 until she retired in 1936. Previously she taught in rural schools in Nebraska, Illinois, Utah and California, and in the schools of Pasadena and Los

Angeles, California. She was an author of many publications concerning applied art and art education. Survivors include a nephew and a niece, both of Illinois.

1948

ROBERT C. CHILCOTT, B.J., on April 16 in Maywood, Illinois. Mr. Chilcott was a copy reader on the South Bend (Ind.) Tribune at the time of his death. Although a native of Oklahoma, he had lived in Columbia, Missouri, many years. He had traveled in Europe, Mexico, Canada and Alaska, as well as most of the United States. He was married in January, 1952, to Miss Sally Schaudt of Chicago. His wife, three sisters, and his mother, Mrs. E. F. Chilcott of Columbia, survive.

Capt. JAMES V. PEUTER, LL.B., in action in Korea. He was a pilot for three years in World War II and was recalled to active duty in 1951. Capt. Peuter was a resident of Kansas City, where Mrs. Peuter continues to make her home.

1951

Pfc. JAMES N. FRISBIE, former Columbian, in action in Korea on April 14. A former student of the University, he enlisted in the Marine corps in February, 1951. His parents and two brothers survive.

Lt. AUSTIN TRINKLE, Jr., in a crash near Pearl Harbor while on an operational flight on February 14. His home was in Denver, Colorado. Lt. Trinkle, sent here by the U. S. Navy to attend school, was completing by correspondence the eight hours credit needed to complete his degree. He was one of the 18 students elected to Phi Beta Kappa membership by the Alpha of Missouri chapter in April. Mrs. Trinkle, four children, and his mother, Mrs. Doris Trinkle, also of Denver, survive.
