In the channel fog
**HER
 ENGINE
 FALTERED**

To her relief, the engine suddenly took hold. Harriet re-checked her compass.

Some time later, breaking into clear sky, she saw a stretch of beach below. She put down at Hardelot; and on April 16, 1912, Harriet Quimby, first American woman to earn a pilot's license, became the first woman in the world to fly the English Channel.

As charming as she was brave, Harriet Quimby combined the thorough femininity and the self-confident ability which make American women like no others on earth. And help make this country so strong in character

A few minutes out of Dover, fog wrapped the flimsy Bleriot monoplane like a shroud.

The pretty young woman in the smart flying costume (she'd designed it herself—"bloomers, blouse, and hood of mauve satin") glanced at her compass. It was the first time she'd ever used one. She thought of instructor Hamel's parting words:

"Be sure to keep on course, Miss Quimby, for if you get five miles out of the way, you'll be over the North Sea, and you know what that means."

She climbed to 6,000 feet. Freezing cold and still fog. She pointed her nose down. The comforting clatter of the Gnome engine changed to a coughing splutter. It was conking out! She leveled off, figuring how she'd ditch.

that investing in America is the wisest thing any American can do!

Today more than 40,000,000 of us have more than \$41,000,000,000 securely invested in our country—through U. S. Savings Bonds. Bonds in which *America* guarantees the safety of our savings and the return we receive. There's no greater security! Buy Bonds regularly—where your bank or through the Payroll Savings Plan.

Now Savings Bonds are better than ever! Every Series E Bond purchased since February 1, 1957, pays 3¼% interest when held to maturity. It earns higher interest in the early years than ever before, and matures in only 8 years and 11 months. Hold your *old E* Bonds, too. They earn more as they get older. And they're safe as America!

PART OF EVERY AMERICAN'S SAVINGS BELONGS IN U. S. SAVINGS BONDS

**a new
laboratory
at
Missouri**

An agate sealstone, only one inch in diameter, illustrates the high achievements of gem cutters in Greece in the 15th century B.C. The scene portrays the sport or ritual act of bull-vaulting, as practiced in Crete during the Minoan period.

A pair of gold earrings demonstrates the skill of jewelers of the Hellenistic period; these are of the 3rd century B.C. The bodies of the Erotes or Cupids are of solid gold, the other parts of sheet gold. Small carnelian beads form the link between the lobe discs and the pendant figures.

The place of the laboratory in teaching has long been established. Used first for the sciences and engineering, the laboratory has more recently found its way into the teaching of a wide variety of subjects, so that we now have it used as an adjunct to instruction in most modern languages, and even in Latin and Greek; there are laboratories for such subjects as speech, geography and journalism. To these Missouri now adds a laboratory connected with the teaching of Art History and Archaeology, a logical development in a subject so dependent on visual and tactile appreciation.

Perhaps most analogous of the usual laboratories is that in geology, which brings to students the specimens which they must learn to recognize by sight, to

analyze. But while the geologist's material is to be had for the seeking in nature, that with which the art historian and the archaeologist must become familiar is a highly valued part of our cultural heritage, often of great aesthetic value as well, and usually much sought after by museums and collectors the world over.

To illustrate the beginnings and development of man's material culture throughout the world and in all periods is a vast project, one which is rarely achieved in even the greatest museums; most collections emphasize one or another area or time. Most universities do not cover anything like the whole scope of the subject in their teaching; they must limit even more their attempts to bring to the student the

The drinking cup was always one of the favorite vessels of the vase painters, decorated with mythological scenes or with views of daily life such as those on this attic cup of the end of the 5th century B.C.

products of different civilizations. Wherever the emphasis lies in instruction, there too the collections should be built. At Missouri, the beginnings of the collecting of study materials have now been made in the field of Mediterranean cultures, with emphasis on the Greek and Roman periods.

Missouri's first archaeological expedition abroad (see *The Missouri Alumnus*, January 1956) brought to the University a fine and very valuable collection of Cypriote objects of the third millennium B.C. Their enthusiastic reception emphasized the need for a more varied teaching collection. While it has been possible to borrow from museums (thus far from the Metropolitan Museum of Art of New York and the University Museum of the University of Pennsylvania), such loans have a limited usefulness since students are not allowed to handle the objects in order to examine them closely and to get the *feel* of them, which is so important. The only way to achieve this is to acquire the objects, and the University has now set out to do just this.

In making such a collection, objects are sought which are either typical examples of a whole class, a period, an artistic style, or are in themselves important study pieces that may be used by students in their research programs. These have been the criteria for selecting the many objects recently added to our collections, such as those which are shown here. With these it is already possible to illustrate in a spotty fashion various phases of Greek and Roman art, from the fifteenth century B.C. to the second century A.D. There are many gaps to be filled in this one area; there are many whole areas not yet touched.

Our experience in hunting for the objects already acquired shows that the possibilities for getting the kinds of things needed for teaching almost any phase of art history and archaeology are limitless. They are not the very valuable art objects usually sought after by the larger museums—which one would not want to pass around among students or work with in a laboratory—nor are they often in the category of decorative arts so actively sought by private collectors. But universities often compete with one another for them, for such teaching collections are today rapidly growing in importance. The best collections have grown largely through the interest of alumni, either through gifts of actual objects in their possession which fitted into the teaching program of their university or, more often, through the gift of funds with which such objects may be purchased. Most popular has been the name fund, given in memory of a person whose name is thus permanently connected with a series of works of art—often the most appropriate tribute that can be made to one who in life wishes to be surrounded with beautiful things.

The Study Collections in Art History and Archaeology are already proving an exciting experience for students in courses in these fields. They have further application in courses in ceramics, jewelry making, sculpture, and the studio arts and crafts in general. As they grow, even wider applications to the University's teaching program will become evident. At the same time, the permanent exhibition of the collections brings to the community and to Central Missouri an opportunity to see art objects, the first answer to a long-felt need in this area. *Saul S. Weinberg.*

Thirty Years After

Members of the Class of '28 who came back for their thirtieth reunion liked the idea so much they are already planning another get-together five years hence. The group's last previous reunion was the one observing its twenty-fifth anniversary.

Two of the events on the agenda here November 8 and 9, a banquet and a brunch, provided the best occasions for renewing old acquaintances. About 75 persons were present at the banquet held at the Daniel Boone Hotel. Presiding was C. E. Schooley of New York, the class president, who kept things moving along interestingly. Earl called on each guest to introduce himself, and this led to some open-air reminiscing. He had a stout assist from Edward W. Sowers, reunion chairman, who recalled some of the old days and prodded others to follow suit.

Much in evidence was the 30th Anniversary Extra of Eddie's *Rolla Daily News*, which contained pictures and biographical sketches of class members.

Dorothy Hart Heinkel (Mrs. Fred V.) and John McMullan, along with Jean Madden of the Alumni Office, were members of the local arrangements committee. For her work on decorations and other details,

Mrs. McMullan (Cathleen Pfeiffer, '35) was voted honorary membership in the Class of '28, as proposed by T. Hartley Pollock of St. Louis, who was student body president.

Fred V. Heinkel, member of the Board of Curators, in a brief talk, emphasized that the alumni constitute a valuable asset to the University.

Place names heard during the evening were Harris, John Paul Allen, Jimmie's College Inn, Jack's Shack, the Palms, and Westphalia. There was some disagreement on just how the big rock M was formed at the Stadium. There was talk of "spiral leggings" in ROTC, of when Nebraska dominated in football.

At the brunch the next morning a number of long-time faculty members had the spotlight. Those who attended and spoke briefly included President Elmer Ellis, former President F. A. Middlebush, Jesse Wrench, Donovan Rhynsburger, A. J. Stankowski, C. M. Wallis, Harry Rubey, Albert K. Heckel, H. A. LaRue, and Herman Betz.

The '28 guest book was signed by the following:

T. Hartley Pollock, St. Louis; Cloyd R. Wallace, Houston, Tex.; Darrell Young, Carthage, Mo., Alice

Curator Fred V. Heinkel, Mrs. Heinkel, Mrs. Lionel Schott, Dorothy Wyatt Jarmin, and Lionel Schott at Student Union.

IN May of 1901, after I had completed all the requirements except my oral examination, for my doctor's degree at the Johns Hopkins, I received a letter from Professor George Lefevre, of the University of Missouri. We had taught together at the Marine Biological Laboratory before he went to Missouri in the fall of '99, and now he was writing me about an instructor being added to his staff. He invited me to visit Columbia at the University's expense, so that I might be looked over and look the place over for myself. With my Van Dyke beard and pince-nez, I thought I should make a good impression and hoped that I should like the University of Missouri as much as I liked Lefevre.

The Wabash branch from Centralia to Columbia, even then, was something to discourage a newcomer. George had warned me of this and written that the country about Columbia was not like that surrounding Centralia. So I took the branch in stride and watched the landscape change from prairie to hills. We call them "hills," but as one of my friends used to say, "These are not hills. A hill is a place you go up and come down. These are places where you go down and come up."

George met me on the station platform, which was crowded with people, mostly colored, who were there to see the train come in. We drove in a hack over the

By DR. W. C. CURTIS

a damned-Yankee in Little Dixie

dusty, unpaved streets, where I saw stepping stones for the first time; and, after circling the campus we reached his home on Ninth Street across from the present law building.

At dinner that night I was thrilled to meet Professor Frank Thilly, who had translated the edition of Paulsen's, "History of Philosophy," which I had devoured at Williams College and read again and again.

The next morning I was introduced to President Jesse and to Walter Williams, then a Curator of the University and later to become the organizing spirit of the Missouri School of Journalism and its first dean. As I conferred with the President and Mr. Williams, at length and in the absence of Professor Lefevre, I realized that they were making me do most of the talking. After they had continued this quizzing for a good hour, asking me about my work and interests, President Jesse said to me, in the somewhat pompous manner he assumed on occasion, "Of course, Doctah Curtis, suh, we do not expect to judge of your scholastic attainments on the basis of this brief interview. We have that information from other sources." Then came my introduction to the Williams humor, "Yes, Dr. Curtis," said Mr. Williams, "President Jesse

merely wanted to hear you talk for an hour and to entertain you at his house for dinner to inspect your table manners." At the dinner Mr. Williams made it again evident that he could poke fun at a President even in the presence of a prospective instructor.

It was the drought year of 1901 and although it was May the Missouri campus was parched brown. As we sat at the table the President looked out upon the quadrangle and sighed. He said he had recently visited the University of Illinois where watering had kept the grass fresh and green.

He exclaimed, "What wouldn't I give if we only had a green campus at the Univahsity of Missouri as they have at Illinois." Whereupon, Mr. Williams remarked, "But President Jesse, you should remember that what the University lacks in its campus is made up for by its president."

My conversation and table manners having passed muster, I was told before I left Columbia that my appointment could be made at the next Board meeting, and I agreed to accept.

Better than the formalities with President Jesse and Mr. Williams, were my meetings with certain

Diane McInturff, a brown-eyed blonde from North Carolina, reigned as Queen over Homecoming activities at Missouri this year. She formerly lived in Kansas City and is a sophomore in Arts and Science. At right, she receives flowers from Missouri Senator Stuart Symington during halftime at the Nebraska-Missouri game.

Also presented during the ceremonies were her attendants, Nancy Becker of Columbia and Lou Pollock of Unionville, and her court: Sally Schuppan, St. Louis; Coleen McCorkle, Smithville; Barbara Cole, Evanston, Ill., and Carolyn Roth, Columbia.

University President Elmer Ellis at preview showing, with J. Kendall Shepherd (left) and Robert Jeffries, president of Kansas City Alumni Association.

M. U. prize photos at Nelson Gallery

The University of Missouri School of Journalism Annual Prize Picture Competition has been going places for 14 years, and one of the finest places it has been to is the Nelson Gallery of Art in Kansas City. There it made up an exhibition on display last summer. A special preview showing was sponsored by the University of Missouri Alumni Association of Greater Kansas City and the Kansas City Press Photographers Association. University President Elmer Ellis, Journalism Dean Earl English, and M.U. Photo-journalism Director Cliff Edom attended the pre-opening presentation, along with civic and political leaders. The exhibition included more than 250 winning photos chosen from a total of 1,871 entries in the 14th annual competition.

The contest is considered the best university-sponsored competition of its kind, attracting the work of leading photographers. The *Kansas City Star* said editorially: "The success of this show checks largely to the continued efforts of one man, Cliff Edom. After viewing these arresting photographs, the visitor can easily understand the high rating accorded his show."

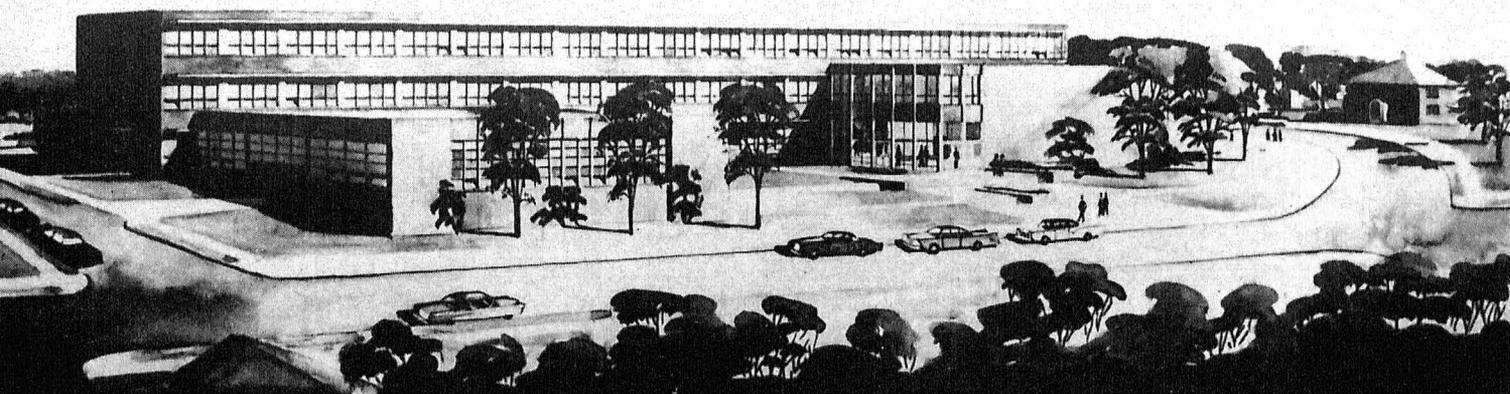

Impressions, the quarterly publication of Fairchild Graphic Equipment, Inc. devoted an entire issue to reproductions from the Journalism School's picture competition and gave it wide circulation. Edom was guest editor of the special issue.

Dean English and Prof. Edom recently announced merger of the photo competition and exhibition with the annual "News Pictures of the Year" show, heretofore jointly sponsored by the National Press Photographers Association and the Encyclopedia Britannica. Effect of the merger will be to provide the School of Journalism participation in a much expanded competition and exhibition without removing the major events from the campus. The competition will still be shown for the first time at Journalism Week.

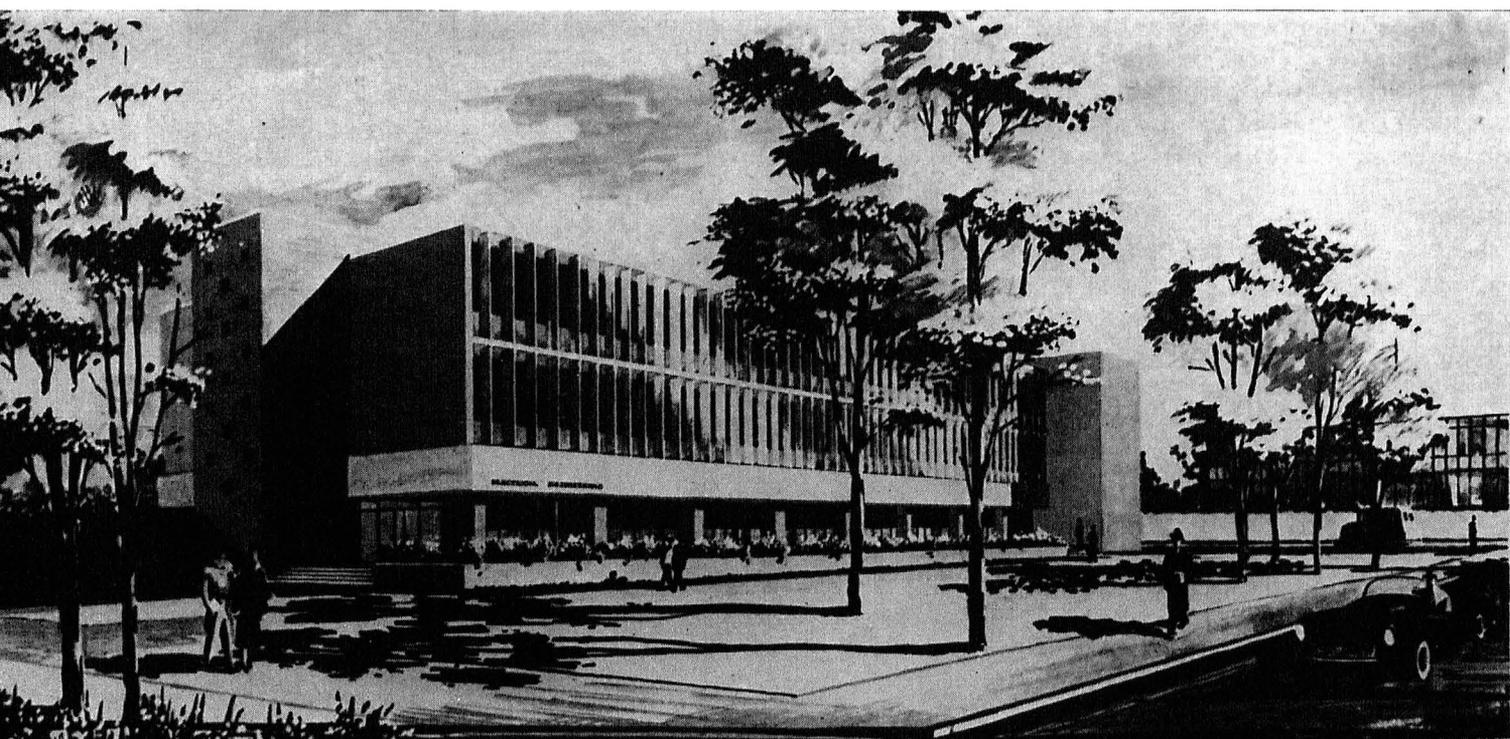

John W. Colt, Kansas City Star managing editor and journalism alumni president, with Dean Earl English.

new buildings for Rolla

A new building program to cost approximately 4 million dollars is getting under way at the University's School of Mines and Metallurgy at Rolla. Above is the architect's drawing of the proposed million dollar Civil Engineering Building. A new dormitory for men is a recent addition to the Rolla campus.

Drawing of the proposed Electrical Engineering Building, to cost \$1,000,000. Funds for the two engineering buildings and a proposed \$750,000 classroom building will come from the state bond issue. Also planned: a \$500,000 student union, and married student apartment buildings costing \$400,000.

Pabian Bachrach
Morris Jacobs

Sam Montague

golden anniversary groundwork

The 50th Anniversary Celebration of the founding of the University's School of Journalism will make big news. Although the observance does not begin until August 1958 (continuing through May 1959) you will be hearing about it from now on. The objective of the planning committee is a series of special events and ceremonies of international scope and importance. World-known figures will take part in the observance.

A program of such magnitude calls for tremendous organizational effort, and recent announcements indicate the definite start that has been made. A general chairman and an executive director have been appointed. A theme has been chosen—"A Stronger Free Press for a Better Free World." A special postage stamp commemorating the event has been authorized.

In officially announcing the Anniversary Celebration, University President Elmer Ellis said:

"Significant dates in the history of the University should be well marked, and, at appropriate times, commemorated with fitting ceremonies. The year 1908, when the University of Missouri, a pioneer in higher education, established the first school of journalism in the world, is one of these significant dates.

"We shall then, in 1958, stop for a while at our 50th milestone in journalistic education to honor the founders of the School and the individuals and organizations that gave them loyal support, and to review our record of achievement, evaluate our present program, and look ahead to challenges of the future."

Journalism Dean Earl F. English expressed pride in the way the alumni of the School have come forward in sponsorship of the comprehensive program.

"It is the desire and intention of the School of Journalism to make this 50th Anniversary Celebration an occasion of which the University of Missouri can justly feel proud," he said. "The spontaneous and enthusiastic manner by which the alumni have agreed to underwrite and direct an exciting semi-centennial program which will spread to the four corners of the earth is inspiring. It is a living testimonial to the high regard and esteem in which they hold their Alma Mater."

Morris E. Jacobs is the general chairman of the

Celebration. He is president of Bozell & Jacobs, Advertising & Public Relations, Inc., of Omaha, and has often been called the "first citizen" of that community because of his civic leadership. Jacobs was a student in the School in 1914-15. He did not complete work for his degree because his funds were exhausted and he had been offered a job in his home town of Omaha. With Leo Bozell, his former boss on a newspaper, he formed the agency in 1923 that grew from a one-room operation to a firm with gross annual billings of \$20,000,000. The company maintains offices in twelve cities and employs 300 persons.

Samuel A. Montague of New Orleans has been given the assignment as executive director of the Celebration. He was recently named assistant director of the University of Missouri Development Fund. Montague has had wide experience in public relations, both in the United States and in the international field. He was one of seven students expelled from Louisiana State University in 1934 for refusing to submit to censorship of the student paper by the late Senator Huey P. Long.

"Those of us from LSU who were permitted to complete our education here owe the University of Missouri a debt of gratitude," he said. "By helping to bring credit and recognition to this distinguished School, perhaps this can be considered a part payment on the debt long overdue."

As head of the alumni executive committee which is planning the 1958-59 observance, Jacobs will have the assistance of these committee members: John Colt, managing editor of the Kansas City Star; John Conde, public relations director, American Motors Company, Detroit; Jack Hackethorn, public relations director, Missouri Farmers Association, Columbia; Walter Reed, a director of Cumerford, Inc., Kansas City; and Dean Earl English.

Among the many events scheduled for the Anniversary observance are: the National Convention of the Association for Education in Journalism; a World Congress of Journalism; a Visiting Teacher Program which will bring top members of the profession to the University; the dedication of an "Eternal Light of Truth"; and the creation of a National Journalism Hall of Fame.

Late Slump Deprives Tigers of Second Place

There's an axiom in Big Eight football that the once-beaten but still-mighty Oklahoma Sooners beat you for two weeks. This year's fine young Tiger football team will be among the last to deny the truth of it.

Though the Tigers made a great team effort in their ill-fated attempt to deprive Notre Dame of the season's biggest upset, the big push seemed to take the starch out of the Missouri defense. The week of feverish preparation, the great enthusiasm of the student body, the alumni, and the state, plus the tremendous effort by the team which Bud Wilkinson commended as clean, well-coached, well conditioned and finely organized, left the Tiger players limp.

In seven previous games, during which they had lost only to top-rated Texas A & M, the Tigers trademark had come to be hard-nosed defense. They had built a justifiable reputation as a team that was tough to score on, a team that put the pressure on, a team that won the close ones, a team that had held all opponents to an average of only 12 points per game. Though disappointing to M. U. followers, Oklahoma's great offensive effort of 39 points, 27 first downs, and 424 yards rushing came as no great surprise. However, few expected the cellar-dwelling Wildcats of Kansas State, who had won only two previous games, to nearly duplicate the Sooners' success with 23 points, 26 first downs, and 410 yards rushing.

This was the situation as Missouri faced its traditional border rival in the season's last game, with the winner to gain second place in the conference.

Kansas went into this game riding the crest of a three-game winning streak. The Jayhawks had the additional psychological advantages of playing before a homecoming crowd and of trying to win the last game for Coach Chuck Mather, who had retired under pressure during mid-season. For 37½ minutes it appeared that despite all these factors the Tigers were going to throw off the pattern of recent weeks and turn back the Jayhawks; but with 48 seconds left the Kansans overcame the Tigers' early lead with a dramatic 14-yard field goal by substitute halfback Ray Barnes for a last-minute 9-7 win.

Thus ended Frank Broyles' first season, a season fraught with exciting wins and disappointing losses. Just four points in these last two games were the margin between a good first year (5-4-1) and what might have been the best Missouri season in 15 years. On the other hand, just five total points were the difference in three of the Tigers' five wins. Missouri finished in a third-place tie with Colorado.

It was conservative, close-to-the-vest football (with nothing up the sleeve), but it kept you way out on the end of your plank till the last 48 seconds of the season.

Looking Back on Game As It Used to Be Played

Following this backward glance at the football season let's look way back at football as it was played in 1898. Warren Woodson, who now lives in Lewis-town, Mo., sent this interesting account of his recollections of football before the turn of the century:

... now that I have started this letter, I am tempted to throw in a few observations about the differences between football in the old days and now. Some evil genius tempted me to try for a position on the scrub team, and I yielded. In those days the players on the first string did not have as good equipment as the grade school kids now have. The discarded sweaters of the first team were handed down to the scrubs for wear, and since it never occurred to any one to wash those filthy rags, naturally they smelled to high heaven, especially when the wearer really got warmed up. I learned that if I could win a place on the first team, I would probably inherit his clean sweater; and that provided the inspiration to make me fight like a wild cat to displace the man opposite me. It took four days of hard practice before we changed places, and I proudly wore his cleaner sweater.

In 1898 the modern football helmet had not been thought of, so if you expected to play football the following autumn, you refrained from getting a haircut later than the first of March. This did make us look a bit on the shaggy side, but it did provide necessary skull protection. I recall that on one occasion while playing Kansas in Kansas City, I was playing the safety position, when the ball carrier, protected by the man running interference rammed into me. I couldn't reach the body of the ball carrier, but as the interference rammed into my midriff, I reached over his shoulder and got a good grip in the carrier's mane, and all three of us stopped right then. It was rough on the chap's scalp, or at least they claimed that I got away with a fist full of hair. All legal, however.

We used to play two thirty-five minute halves, with a ten minute rest between halves, which the coach used to point out our shortcomings, and to urge us to go out there and act like Tigers. I recall only two penalties imposed by the officials—five yards for off-side play or for slugging another player in scrimmage, if you got caught; or expulsion from the game if you slugged the umpire.

Still no big man for cagers

When asked about basketball prospects in the tougher-than-ever Big Eight Conference this season Coach Sparky Stalcup just shakes his head and says we'll have to play them tight.

Sparky and his new assistants Thornton Jenkins and Norm Stewart, former stars here under his coaching, have the almost impossible task of building a contender in this tough league without the indispensable big man. Missouri just won't have the size to contend with the likes of 7 footer Wilt Chamberlain or 6 ft. 9 in. Bob Boozer of K State, to name just two of the big men on all the other conference teams.

Without 6 ft. 7 in. Chuck Duren, who dropped out of school this past summer, the Tigers' biggest man is 6 ft. 6 in. John Stephens, whose defense has outshone his scoring ability over the last two seasons. Others who will have to carry the load are Al Abrams, Sonny Siebert, Roger Egelhoff, Glenn Foristall, Mike Kirksey and Jon Paden. The coaching staff is also hoping for scoring help from sophomore transfer student Bud Harbin, a 6 ft. 5 in. forward from Hannibal LaGrange Jr. College, and Sophomore Cliff Talley, the leading frosh scorer last year.

Without a heavy scoring punch and without height the Tigers will undoubtedly have to rely on tough defense and control basketball. As Coach Stalcup says, "We'll have to make all our shots count." Other tactics being polished in pre-season drills include pressing defenses and the fast-break offense.

The home season opens against South Dakota Dec. 3. Other pre-holiday home games will be against North Dakota Dec. 9, Indiana Dec. 14, and Texas Dec. 18. Road games preceding the annual Conference Christmas Tournament at Kansas City will be Dec. 6, at Marquette; Dec. 7, at Purdue; and Dec. 20, at Arkansas.

Faurot in hall of fame

Honors continue to come for Missouri Athletic Director Don Faurot. On November 10th he was named to the Helms Football Hall of Fame.

Achievements noted in the presentation of this honor were his 101 victories during his long tenure as head football coach at Missouri and his invention of the popular Split T formation. Faurot thus joins the distinguished company of such famous coaches as Dr. Eddie Anderson, "Tuss" McLaughry and Lynn Waldorf, who were named with him.

Despite his retirement from active coaching Faurot has been asked once again to handle the Blue squad in the annual Blue-Gray game at Montgomery, Alabama, Saturday, December 28.

Freshman help coming up

We hate to sound like the old Brooklyn Dodger fans, but it's hard to restrain an enthusiastic "wait till next year" after seeing the Missouri Freshman football team in action against Iowa State and Kansas. Conference Freshman teams are allowed only two regular games, but Clay Cooper's cubs certainly came through their limited test in fine fashion. An 8-0 win at Ames and a 13-0 win over the fledgling Jayhawks here in Columbia left the young Tigers unbeaten untied and unscored on; but more important both wins came in fairly easy fashion, and in both the score could easily have been more lopsided.

The brightest feature was the corner-turning speed of halfbacks Norris Stephenson, Bill Richardson, and Don Smith. Few of the prejudiced spectators could resist reminiscing about the fast old days of Bob Steuber as they revelled in the unfamiliar sight of backs in gold shirts running away from defenders.

Quarterbacks Skip Snyder and Mike Shannon shared the signal calling and both were adept at exploiting this speed and balancing it with accurate passing arms. Of course, backs alone do not a football team make, and linemen Mike Langan, Benny LaRose, and Jerry Rigdon were the men up front who got most of the coaches' credit for making things go.

Thomas W. Botts receiving an Alumni Achievement Award at Westminster College, Fulton, from James P. Hickok (right), chairman of the Board of Trustees. Botts, head coach of track at M.U., was one of six alumni of Westminster recognized for outstanding contributions to their chosen field of endeavor.

briefs by Bus

The following letter has been making the rounds of the alumni magazines this fall, and we hereby get in the act:

LETTER FOR A FALL AFTERNOON

Department of English
October, Any Year

Dear Coach Musselman:

Remembering our discussions of your football men who are having troubles in English. I have decided to ask you, in turn, for help.

We feel that Paul Spindles, one of our most promising scholars, has a chance for a Rhodes Scholarship, which would be a great thing for him and for our college. Paul has the academic record for this award, but we find that the aspirant is also required to have other excellences, and ideally should have a good record in athletics. Paul is weak. He tries hard, but he has trouble in athletics. But he does try hard.

We propose that you give some special consideration to Paul as a varsity player, putting him, if possible, in the backfield of the football team. In this way, we can show a better college record to the committee deciding on the Rhodes Scholarships. We realize that Paul will be a problem on the field, but as you have often said—cooperation between our department and yours is highly desirable, and we do expect Paul to try hard, of course. During intervals of study we shall coach him as much as we can. His work in English Club and on the debate team will force him to miss many practices, but we intend to see that he carries an old football around to bounce (or whatever one does with a football) during intervals in his work. We expect Paul to show entire good will in his work for you, and though he will not be able to begin football practice till late in the season, he will finish the season with good attendance.

BENJAMIN PLOTINUS, Chairman
English Department

(This letter, by Professor William E. Stafford of San Jose State College, first appeared in College English, and is here reprinted by permission.)

One of the most frequent complaints received by our office is the late arrival of the weekly sports letters to alumni who have requested they be mailed.

No alibis are intended, no criticisms of other agencies are meant, but as Jack Friday would say—"Here are the facts, man."

The letter is composed by Coach Broyles over the week-end, is proofed and placed in the printer's hands by noon each Monday. They are printed and returned for addressing by 3 p. m. on Tuesday.

Envelopes are already addressed and stuffing begins immediately. This step is concluded by Wednesday

noon and they are put in the hands of U. S. Postal Service. From there on, guys and gals, we ain't got no mo control.

Yes, there have been inquiries to postal authorities. The answer, they are handled just as every other similar piece of mail. They were mailed under third class permit, you'll remember, for a while. This year, in further effort to get them to the readers as quickly as possible, we rearranged the budget (no easy item) and began first class mailing.

We thought everything was going well until some letters began to drift in telling of receipt as long as five days after being sent to the Post Office.

The crowning blow was to receive Oklahoma's Sports Letter (through a mutual exchange agreement) with a second class permit, before some of our readers right here in Columbia received ones by first class postage.

I don't know, friends, what the answer is, but it is of great concern to us and we assure you that we are still pursuing the problem.

Society honors three alums

Three alumni of the University are among four persons recently elected honorary members of the State Historical Society of Missouri. The society in its fifty-nine years had elected only 15 persons to this honor previously.

The newly honored members are David M. Warren, Panhandle, Tex.; Allen McReynolds, Carthage, Mo.; Stephen B. Hunter, Cape Girardeau, Mo.; and Prof. Frederic A. Culmer of Central College, Fayette. Their election was announced at the society's annual meeting here October 31.

Mr. Warren, B.J. '17, is a native of Missouri who has been active in obtaining annual and life memberships for the society. He is editor emeritus of the Panhandle Herald, and chairman of the boards of the First National Bank of Panhandle and the Panhandle State Bank of Borger, Tex.

Mr. McReynolds, A.B. '01 and LL.D. '54, is widely known as a former state senator and a former member of the Board of Curators of the University. He has been trustee of the society for sixteen years.

Mr. Hunter, trustee of the society, is an 1888 graduate of the University.

Secretary Floyd C. Shoemaker, A.B. '09, A.M. '11, and LL.D. '54, reported the society gained 2,651 members last year and now has a total membership of 10,210, the largest of any such society in the nation.

Big Washington meet

Planning pays off as 157
attend reception dinner.

Alumni in the Washington, D. C., area staged their most successful meeting of many years when they welcomed President Elmer Ellis with a reception and dinner October 24th.

The 157 persons attending the meeting expressed their pleasure with it and showed a deep interest in what our University is doing to expand and improve its curriculum and facilities. The meeting was a good example of what thorough planning and hard work—which began in August—can accomplish.

President Ellis gave an excellent picture of the growth of M. U. on both its Columbia and Rolla campuses and of the great plans for the future. He outlined progress being made in the various schools, told of Missouri's climb up the ladder educationally and in such honors as Who's Who listings, and he described the great step the University has made with its new fully accredited Medical School. He emphasized the need for private endowments and praised those who have given so generously.

"Private gifts are bringing us research and teaching facilities beyond what it is reasonable to ask from the taxpayers of the state," President Ellis said, "but I believe we can assume that our gift program is just getting off the ground, so to speak, and that in the years ahead the University will receive more extensive private contributions for scholarships, professorships, research, special equipment, and plant facilities."

Jack Matthews, Dean of Students, who was in Washington for another meeting, spoke briefly on the makeup of the student body. He mentioned that nearly 1800 married students are now attending at Columbia, and 42 percent of the total student body on both campuses is now enrolled in engineering.

Alumni Director Bus Entsminger told of the number of alumni associations—now 92 with three more being organized—and of the progress the Alumni Association has made on the Achievement Fund. Copies of the *Alumnus* and the brochure also received considerable attention at the meeting.

The Washington chapter is fortunate to have in its group Mr. and Mrs. Claude M. Houchins, honorary members, who arranged for the dinner to be held at the Columbia Country Club. They also furnished the cocktails for the get-acquainted hour preceding the dinner. Mr. and Mrs. Houchins have established in their will a \$375,000 fund to provide scholarships and endowments for increased salaries for faculty positions.

Another feature of the meeting was presentation by Bus Entsminger of an honorary membership certificate to Charles E. Whittaker, Associate Justice of

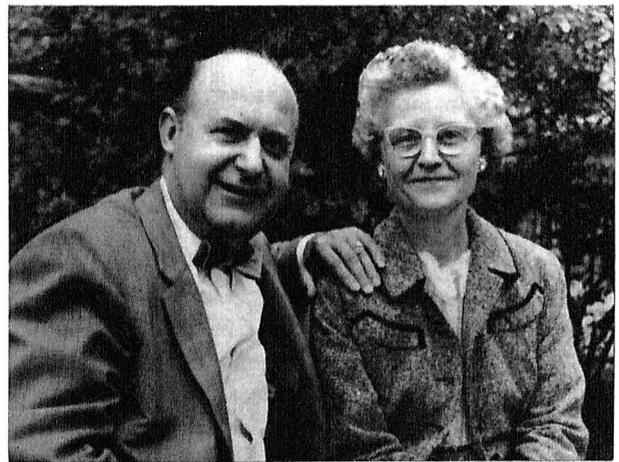

the Supreme Court. The Washington chapter nominated Justice Whittaker, following his appointment to the Supreme Court last spring by President Eisenhower. Justice Whittaker grew up in northwest Missouri, was graduated from Kansas City Law School, and practiced law in Kansas City.

In reporting on the meeting, Walter John, president of the Washington association, says, "Alumni here feel much closer to the University as a result of our meeting with President Ellis. Having Dean Matthews and Bus Entsminger attend gave us extra benefits too. We hope all University administrators and faculty will let us know when they will be visiting our area. We can help them become better acquainted with the alumni, and all of us can do more for our alma mater.

"We do not have meetings frequently, but arrange them so that all alumni may have an opportunity to attend at least occasionally. Varying them between luncheons and dinners and having them in different parts of the metropolitan area seem to result in much better attendance. We also plan to sponsor meetings of smaller groups such as journalism alumni for special occasions. Putting on a meeting requires a lot of work from the officers, but we enjoy it."

Other officers of the association are: vice presidents, William Etheridge and Joseph Hansman; secretary, Nancy Nelson; treasurer, John R. Kline; and sergeant-at-arms, F. B. Scheetz.

The next meeting of the Washington, D. C., chapter will be the annual Congressional luncheon to be held February 25th, with Missouri's Senator Stuart Symington as speaker.

Mr. and Mrs. Jerry Singleton of New York were back on the campus a few months ago to renew old acquaintances, and stopped by the Alumni Office. She is the former Crystal Matheson, '30. Jerry, '33, is executive secretary of the Magnesium Association, 122 East 42nd St., New York 17, N. Y. Jerry was the second editor of the Missouri Student, forerunner of the Maneater.

With textbook authors

Alumni have recently authored or co-authored important textbooks in varied fields. McGraw-Hill Book Company, New York, is the publisher.

Richard M. Phelan, associate professor of mechanical engineering at Cornell University, is the author of *Fundamentals of Mechanical Design*. He received his B.S. in M. E. from the University of Missouri in 1943 and his M.M.E. at Cornell, where he has taught since 1947. Professor Phelan's book places major emphasis on what can be done, what principles are involved, and where one can find the additional detailed information that may be required in the actual design or selection of mechanical elements or a machine. The book contains an unusually large number of illustrations and 369 multi-purpose problems.

Kenneth H. Hansen, chairman of the division of education and psychology, Western State College of Colorado, is co-author of *Elementary School Administration*. He took his Ph.D. in History and Philosophy of Education at the University in 1949. He has taught English at Westminster College, Fulton, Mo., and education courses at the University of Oklahoma, the University of Missouri, and Johns Hopkins University. Dr. Hansen has held his present position since 1949. As director of student teaching he works closely with beginning elementary school teachers and administrators. His writings in the field of education are well known. Co-author of *Elementary School Administration* is Peter Palmer Mickelson, president, Western State College of Colorado.

Dr. Roy Ivan Johnson is one of three authors of *Communication: Handling Ideas Effectively*, published several months ago. The book is a unified text for freshman courses which integrates the subjects of writing, reading, speaking, listening, and observing. Its purposes are to develop positive attitudes on the part of the student toward communication subjects, to improve his skill in these fields, and to facilitate his personality development through the use of these communication skills. The other authors are Marie Schalekamp of Mason City Junior College and Lloyd A. Garrison of the University of Denver. Dr. Johnson, research consultant at the University of Florida, received A.B. and B.S. in Ed. degrees here in 1909. He earned A.M. and Ph.D. degrees at the University of Chicago. Mrs. Johnson is the former Irmgaard Grossman, A.B. '37.

Gayton E. Germane, associate professor of transportation, Graduate School of Business, The Leland Stanford Junior University, is co-author of *Case Problems in Transportation Management*. Dr. Germane earned three degrees at Harvard after taking his A. B. degree (with distinction) from the University of Missouri in 1941. He was a teaching fellow in eco-

nomics at Harvard in 1947-49 and assistant professor of business administration in 1950-52. He has been at Stanford Graduate School of Business, where he is director of the transportation management program, since 1952. He became adviser to the San Francisco Bay Area Rapid Transit Commission in 1953. He is contributing editor of the National Defense Transportation Journal. His co-author is George Pierce Baker, James J. Hill Professor of Transportation, Harvard Graduate School of Business Administration. *Case Problems in Transportation Management* includes a number of good, hard-to-decide problems based on real situations which confronted air, highway, ocean, and railroad carriers.

Special journalism stamp

A new postage stamp will be issued next September to commemorate the 50th anniversary of the founding of the School of Journalism at the University.

When this was announced last month by Postmaster General Arthur E. Summerfield in Washington, President Elmer Ellis of the University said:

"We are deeply gratified that the profession of journalism and freedom of the press are being given this signal recognition, and that they are linking these so firmly with our School of Journalism.

"Our School of Journalism, first of its kind in the world, was founded with the ideal that freedom of expression must be maintained if a people are to remain free. The founders of our School and its subsequent administrators have held further that journalism must be intelligent and enlightened, and that education will help it retain its leadership and its freedom.

"In honoring us now, the Nation is honoring the foresight and courage of Missouri's pioneers in education, and the faith our State has held in all its media of communication."

Meeting in Los Angeles

Twenty-three guests attended the fall meeting of the Los Angeles chapter of the Alumni Association on October 24. It was a dinner meeting held in Chinatown at the New Grand East Cafe. Guest speaker was L. R. Holley of Walston and Company.

Miss Alma Kinkade, president, and Miss Vera Pealer, secretary, a week earlier had attended a meeting on a proposed confederation of eight university alumni groups in the area. Other universities represented were Oklahoma, Colorado State, Kansas, Kansas State, Iowa, Nebraska, and Oklahoma State. A committee was appointed to draw up a charter, and the plan was to be presented to the various alumni associations.

Ray E. Miller and Flavius B. Freeman

Miller receives citation

Ray E. Miller, a 1917 graduate of the University's College of Agriculture, was presented the University of Missouri Alumni Association's Citation of Merit at the Student Union on November 1.

Miller, a Camden County farmer from Osage Beach, has long been active in College of Agriculture programs. After his graduation and discharge from the Army in World War I, Miller was successively a University faculty member, county agent for both the Missouri and Illinois Extension Services, Illinois Agricultural Association livestock marketing director at Chicago, Production Credit Corporation secretary at St. Louis, and Federal Reserve Bank research staff member, St. Louis. In 1955 he resigned from the Federal Reserve Bank staff to devote full attention to his agricultural interests in Missouri and Illinois.

Flavius B. Freeman, Alumni Association president from Springfield, presented Miller the citation before more than 150 alumni and friends of the University at the annual Agricultural Alumni banquet.

Dr. Thompson Potter's gift

Dr. Thompson Potter of St. Joseph, Mo. presented a plaque to the Phi Delta Theta fraternity in ceremonies Sunday afternoon, November 10. The plaque lists the names of members of the fraternity who become members of Phi Beta Kappa. Available are sixty name spaces on individual markers, of which 36 are now filled. Dr. Potter's name is among those listed.

The fraternity was founded on the Missouri campus in 1870, and three years later had its first member of Phi Beta Kappa.

Dr. Potter received his A.B. degree from the University in '36 and his M.D. from Columbia Univer-

sity in '39. He did postgraduate work on the Columbia Surgical Division of Bellevue Hospital, New York City, and was in the Army Medical Corps for four years during World War II. He came out of the service as a major. Dr. Potter has been in surgical practice in St. Joseph for 12 years and has been a Fellow of the American College of Surgeons since 1951. Mrs. Potter is the former Barbara Luxton; they have four children: Reynolds, 11, who attended the dedication; Tommy, Jr., 9, Robert 7; and Susan, 3.

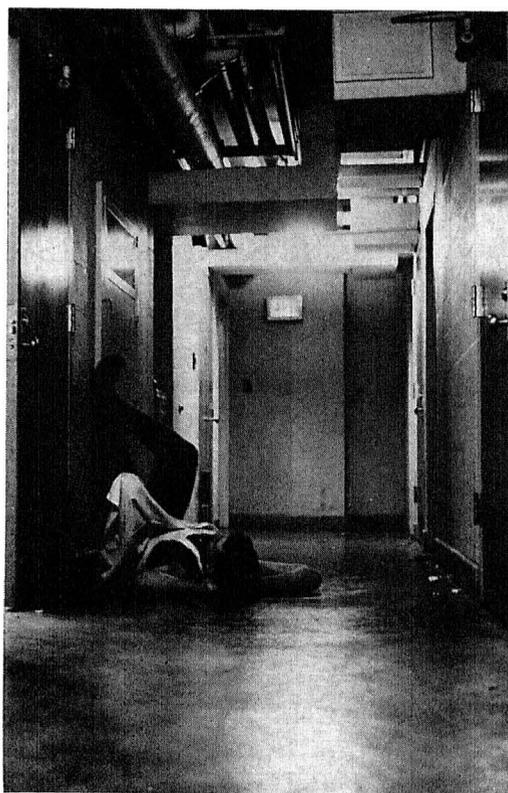

Noted educators recalled

James Forrest Bentley of Route 3, Huntsville, Mo., came to the University for a summer session and a winter semester at the turn of the century. When he received a request from the *Alumnus* for information about himself recently, he not only recalled the courses he had taken fifty-six years ago but also the instructors, some of whom are prominently linked with University history.

When Mr. Bentley attended summer school in 1900, he took agriculture work under Prof. F. B. Mumford, horticulture under Prof. J. C. Whitten, English under Dr. E. A. Allen, laboratory physics under Prof. M. L. Lipscomb, and math under Prof. Ames. During the second semester in 1901 he studied drainage engineering under Dr. Frederick B. Spalding, agriculture under Dean H. J. Waters, a course in Fields and Feeding under Prof. H. R. Smith, as well as further work in laboratory physics and English.

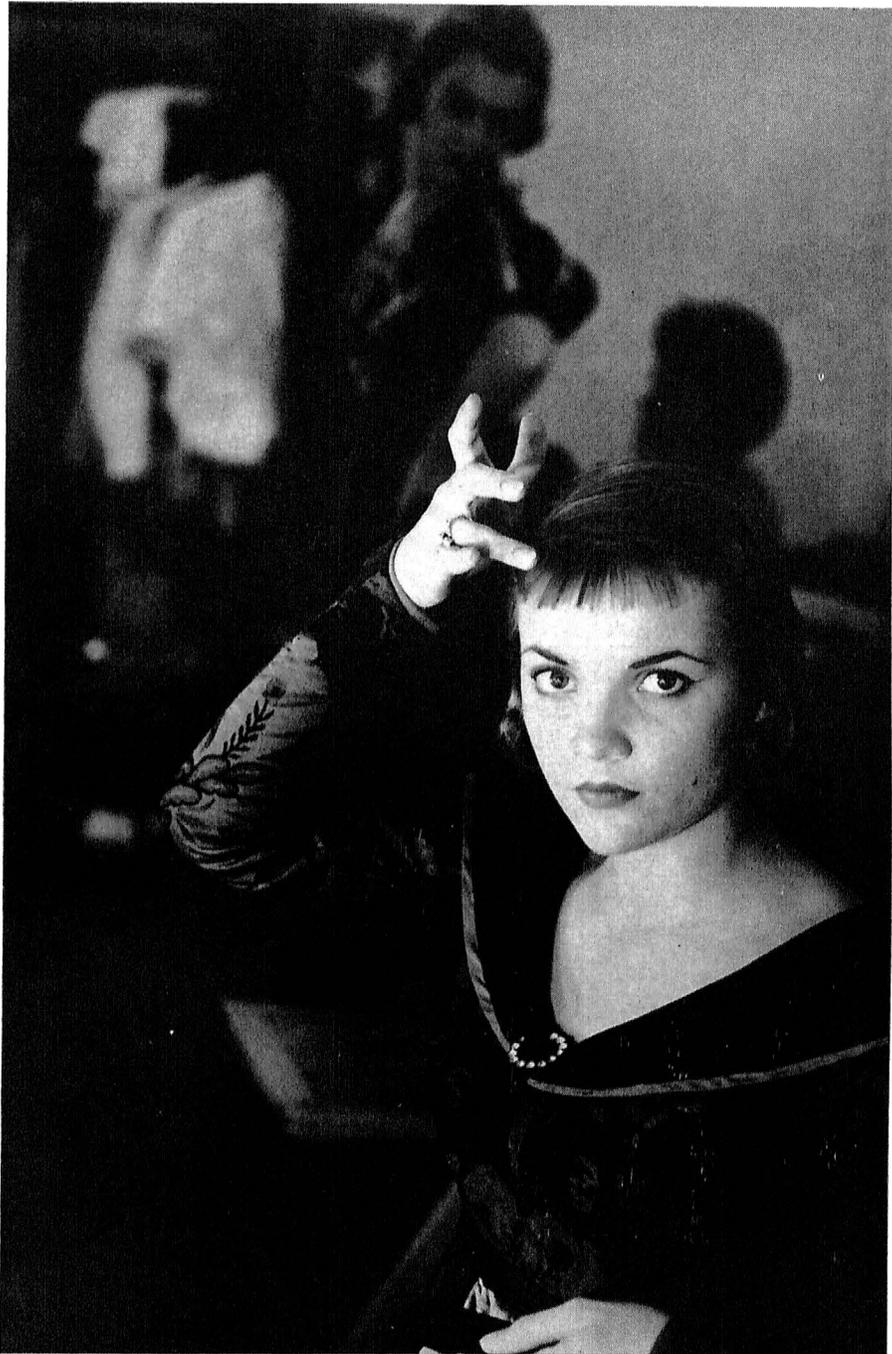

Mr. Bentley's career has been divided between teaching (24 years) and farming (34 years). After graduating from Huntsville High School in 1897, he taught in rural schools for four years. He was principal of Huntsville High School in 1902-06, then superintendent of Huntsville schools until 1910. Meanwhile, in 1907, he took school supervision and school management under Prof. J. D. Elliff, now living in Columbia. After two years as school superintendent at Salisbury, Mo., he went to Albuquerque, N. M. in 1912 to serve ten years as principal of the Third Ward and Central schools. Since 1923 Mr. Bentley has been farming near Huntsville, and has served four years as Randolph County representative in the Missouri State Legislature. His background in school work added to the value of his services on education committees in the House.

This year has been one of misfortune and tragedy for Mr. Bentley. Death came to his wife and to their only daughter, who had taught in New Mexico for twenty-five years. (Three of his four sons are living, and are residents of Kansas City). Mr. Bentley, now 79, underwent major surgery recently. He recovered from that, but now faces a ten months' stay at the Mount Vernon (Mo.) Sanatorium, where he would be glad to hear from former classmates.

Lee Battaglia, native of Italy, now a citizen of the United States and a senior in the School of Journalism at the University, likes to wander about with his camera, shooting informal scenes that appeal to him. He had such an assignment when he roamed backstage at Jesse Auditorium during one of three performances of "Kiss Me Kate," Cole Porter's musical version of Shakespeare's "Taming of the Shrew." This was the third annual musical presented under sponsorship of the Student Government Association. George Martin and Barbara Cole had the lead roles in a large cast that appeared both in Elizabethan costumes as well as modern dress. So, before and after the curtain went up, Lee Battaglia strolled around with camera in hand, in the wings, in the dressing room, in the corridors. His existing-light shots produced such pictures as those on this month's cover, the two hoods above (Ted Weiss and Charles Frohn) scoring with their "Brush Up Your Shakespeare," the thespian at left who takes his rest where he can find it, and other views on the next two pages. Here, then, are a handful of scenes Lee recorded when he saw . . .

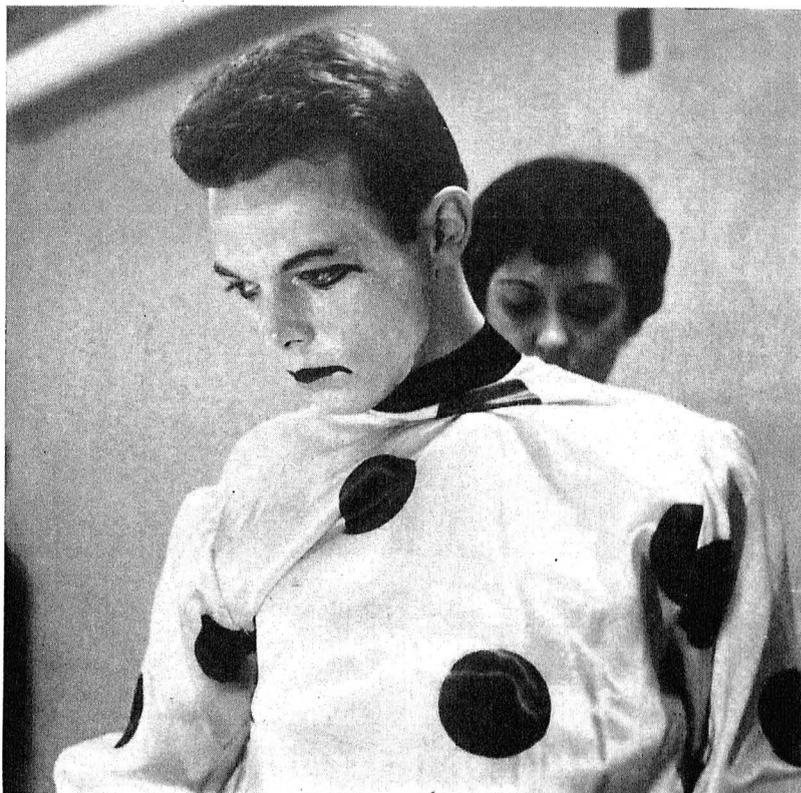

KISS ME KATE

Colorfully compatible were the costumes and the co-eds.

KISS ME KATE
continued

A sad-faced clown gets a helping hand from a wardrobe assistant.

"There's nothing to be nervous about," the stage manager was saying as curtain time neared, but his words failed to halt the nail-biting.

class notes

83 Possibly our oldest living alumnus, and certainly one of the best-respected and most-active, **STERLING PRICE REYNOLDS**, engineer, at 96 was the subject of a feature article in *The Commercial Appeal*, Memphis, Tenn., on Sunday, November 10, 1957. The story, with color picture of Mr. Reynolds against a background suggestive of a river scene with the riverboat **MISSISSIPPI**, is entitled "River Tamer," written by George Sisler of the Appeal. He states that "the man from the Missouri Bootheel . . . with sand in his shoes and . . . intimacy lighting his eyes . . . knows the secretive and cantankerously unpredictable Mississippi River as does no other living man." On October 9, in Caruthersville, Mo., Mr. Reynolds' home town, he was awarded the Certificate of Appreciation from the U. S. Army Corps of Engineers by the president of the Mississippi River Commission. On November 9 men, women and children gathered from all parts of the Valley to salute his 96th birthday. Mr. Reynolds was only 39 years old when the St. Francois Levee District hired him as its engineer, and for 57 years since 1900 he has held that post. Back in 1897 a big flood rampaged down the river against the levees protecting Caruthersville, where he was selling real estate because he had not found work as an engineer. Flood waters rolled over his real estate, also over his ideas for another way of life. His story since that time has been a consistent fight against the forces of the Mississippi, and Mr. Reynolds has well earned the title of "River Tamer." Gathered to help celebrate the 96th birthday were his four children, 10 grandchildren and six great-grandchildren. His son, **CREW REYNOLDS**, BS Agr. '13, is a cotton planter and gin operator at Caruthersville. The three daughters are Mrs. **VIRGINIA JOP-LIN**, '11, of Caruthersville; Mrs. **FRANCES BARKSHIRE**, '21, of Columbia, and Mrs. **CATHERINE REED**, BJ '22, of Greenville, Miss.

92 **JOHN N. FELLOWS**, SB, TE, PE B, MS '93, celebrated his 90th birthday on October 3 at his home at 603 Providence Road in Columbia, Mo. Mr. Fellows, who has lived in Columbia for the past 60 years, first came here from his home in Platte County, Mo., to study mathematics. After graduating he studied two years at Harvard, attended the University of Gottingen in Germany, and taught math for two years in New York at a military school. He then returned to Columbia where he became a professor of mathematics at the University. After teaching five years he went into real estate and contracting business. In 1902 he bought the rock quarry at the end of College Avenue and from this quarry furnished stone for nearly all University

buildings on the White Campus, including the home for the Dean of Agriculture. Mr. Fellows can relate first hand accounts of the history of Columbia and the University, spotlighting such incidents as the burning of the old Jesse Hall, real estate incidents of the depression days, student stunts on the campus, and many others. Mr. and Mrs. Fellows lived 41 years in their home on College Avenue, moving to Providence Road in 1941. They have three sons: **JOHN FELLOWS**, AB '30, of Columbia, **FRANK C. FELLOWS**, '33, San Antonio, Texas, and **GENE FELLOWS**, AB '37, of Old Mexico. There are four grandchildren. Mr. Fellows says, "The best thing about being 90 is that I have good health . . . no aches, pains or canes."

98 **JUDSON COOPER FAST**, BL, is retired after thirty-one years as a dealer for Dodge automobiles, and lives at 311 No. 12th St., Muskogee, Okla. He retains an office in the Metropolitan Building where he attends to rental property. Mr. Fast has been a member of Rotary Club for 50 years and in 1952 was presented a Fifty Year Award in the Masonic Lodge. Mr. and Mrs. Fast have four children and nine grandchildren. Mr. Fast maintains contact with **IRVIN RAUT**, AB, of 703 W. Seventh in Sedalia, Mo.

03 **EARL L. BRADSHER**, AB, professor emeritus of American Literature of Louisiana State University, "gentleman of leisure," writes: "I am tending to my camellias and carrots, roaming the shores of the Mississippi River with a rifle (I scorn a shotgun), shooting at chunks floating down to keep my eye trimmed for the squirrel season, and scribbling verse." Mr. Bradsher's fourth volume will soon be off the press at Cambridge, England. His home is at 4187 Hyacinth Ave., Baton Rouge 6, La.

06 **LUCIUS F. CHILDERS**, BS Agr., MS '07, and Mrs. Childers, who was **FRANCES NORMAN**, Ed. '08, of New Franklin, Mo., celebrated their golden wedding anniversary on October 13 at their home. Former Columbia residents, they have lived on their farm near New Franklin for the past 25 years. There their hobby and business is selling Childers' cut comb honey to merchants in this part of the state. They have an apiary of 125 colonies of bees. After graduating, Mr. Childers taught in Maryville, Mo., and in Moscow, Idaho, returning to Missouri to become the first county agent in Howard County. He worked as one of a team of agriculturists that the University sent from county to county putting on movable schools of agriculture. It was from such work, and the bringing directly to the farmer the subject of liming, fertiliz-

ing and then modern methods of livestock feeding that the idea grew for our present 4-H Clubs. Two of the four children of Mr. and Mrs. Childers are surviving. They are Dr. **NORMAN CHILDERS**, BS Agr. '33, AM '34, who is head of the horticulture department at Rutgers University in New Brunswick, N. J., and Mrs. Ann C. Barton, of Nevada, Mo., whose husband, Dr. **GAY BARTON**, BS BA '34, is personnel director of the sanatorium in Nevada.

Mrs. Fred Baender, who was **ELBA SEYMOUR**, AB, has moved from Fayetteville, Ark., to 802 N. Delaware St., Butler, Mo.

CARL P. HOFF, BS CE, and Mrs. Hoff, who was Annie Marsh, observed their golden wedding anniversary on November 14 in Springfield, Mo. Mr. Hoff is a retired civil engineer for the Frisco Railroad. Their home is at 1827 East Sunshine. No celebration was held because of Mr. Hoff's health, but old timers will remember him as the left guard on the football team, of whom a Haskell guard is reported to have said, "Him heap big fierce man!"

09 **HERBERT S. GLADFELTER**, BS ME, is a mechanical and marine engineer with offices at 1571 Foster Ave., Memphis 6, Tenn.

E. F. SALISBURY, Eng., civil engineer of Kansas City, Mo., is a member of the Mississippi River Commission, and has been working with this group in the consideration of a fourth Mississippi River bridge between Memphis, Tenn., and Arkansas. Mrs. Salisbury is the former **AMANDA H. PAINTER**, Arts '07. Their home is on Route 2, Grandview, Mo.

DUANE LYON, former Columbian who now makes his home in Fulton, Mo., exhibited his paintings and drawings in October at the Calvary Episcopal Parish house in Columbia under the sponsorship of the Episcopal Service. Mr. Lyon, who studied under John S. Ankeney at the University, has water colors and sketches which he made of the French countryside and villages, other parts of Europe, New York City, Boston, and other locations. They have also been exhibited in New York City, Pittsburgh, Los Angeles and Jacksonville, Fla. He is currently painting a series of pictures of river towns of Missouri.

11 **WALTER A. FANSLER**, AB, AM '12, internationally known surgeon and author, was selected by Phi Beta Pi National Medical Fraternity as their outstanding member of the year, recognizing his achievements as physician, teacher and a builder of the fraternity. Dr. Fansler is Clinical Professor of Surgery and Director of the

class notes

Department of Proctology at the University of Minnesota. He is a founder and past president of the American Board of Proctology, is an Honorary Fellow of the Philadelphia Proctologic Society, and a fellow of the American College of Surgeons. In Minneapolis, among other interests, Dr. Fansler is a member of the Minneapolis Academy of Medicine, is an enthusiastic Rotarian and guarantor of the Minneapolis Symphony Orchestra. The Fansler home is on Route 5, Southridge, Wayzata, Minn.

Three Missouri graduates who had travelled far since their campus days met after 45 years in Charlottesville, Va. last September. LESTER R. FORD, AB '11, AM '12, (Ph.D., Harvard '17), internationally known as a mathematician, retired as Professor Emeritus from Illinois Institute of Technology, Chicago, in 1952, after 15 years of teaching there. Prof. Ford settled in Charlottesville with his wife, the former Marguerite Eleanor John, an artist. Planning to spend the winter on an assignment in Arizona, Prof. Ford listed his house for rent. That led to his meeting again EDWIN W. PATTERSON, AB '09, LL.B. '11, LL.D. '36 (S.J.D., Harvard '20), who retired in June, 1957 from Columbia University as Cardozo Professor Emeritus of Jurisprudence. Prof. Patterson was appointed Visiting Professor of Law at the University of Virginia for the first semester of 1957-58, and went to Charlottesville with his wife, the former DOROTHY MADISON THOMSON, BS in Ed. '12, AB '14. Although the Pattersons had already leased another house, they got together with the Fords and talked over the persons and events of those "dreamy college days." (See picture of group on this page). Maybe they recalled "Hundred Dollar Bill," the famous stage production of which Prof. Patterson was one of the authors. His present address is The Law School, University of Virginia, Charlottesville, Va. Prof. Ford's temporary address is c/o General Analysis Corp., P.O. Box 136, Sierra Vista, Ariz.

12 WALTER L. PREHN, BS EE, is a consultant for the Brazilian Telephone Company and he and Mrs. Prehn are now living at the Gloria Hotel in Rio de Janeiro, Brazil. On January 1, 1956 Mr. Prehn retired as general manager for the State of Texas with Southwestern Bell Telephone Company, after 43 years with their organization. After his retirement they spent four months in Europe in 1956, and took on this Brazilian assignment in April 1, 1957. To date Mr. Prehn says he has found no other University alumni in that area. Their permanent address is 6043 Prestonshire Lane, Dallas, Texas.

Dr. Walter Fansler, '11

13 FRANK W. RUCKER, BJ, associate professor of journalism at the University, has written a textbook on all phases of circulation building for weekly and daily newspapers, this publication to be released in April, 1958. Mr. Rucker, former co-publisher of the Independence (Mo.) Examiner, worked on the staff of the Examiner from 1913 until joining the Journalism faculty in 1951. The new text outlines practical circulation policies and contains suggestions for successful selling and delivering

of newspapers by mail, carriers, street salesmen and newsstands. Mr. and Mrs. Rucker live at 206 Edgewood in Columbia.

C. E. BETZ, BS Ch.E., is vice chairman of the board of directors for Magnaflux Corporation and lives at 5656 Newark Ave., Chicago 31, Ill. His two sons have attended the University. CARL RICHARD BETZ, former student, is completing his thesis for a Ph.D. degree in physics at Northwestern University in Evanston. Mr. and Mrs. Carl Betz have three sons and make their home at 22 Fairview, Park Ridge, Ill. ROBERT A. BETZ, BS '50 (Rolla), is with Westinghouse in Pittsburgh. His family consists of his wife and one son, and their home is at 3 Sunny Drive, Pittsburgh 36, Pa.

MURRELL W. TALBOT, BS For., retired, has returned from Spain where he served as a consultant to the Spanish government, and has accepted a one-year assignment with the Charles Lathrop Pack Forestry Foundation to assist in an evaluation of the effect of fire on watershed and related values—particularly on the Salt River watershed in Arizona. His home is at 2590 Cedar St., Berkeley 8, Calif.

14 EDWARD H. BEUMER, AB, BS Ed., retired on October 24, 1957, as an assistant superintendent of schools in St. Louis, and is now an assistant professor on the faculty of St. Louis University. His home address is 6462 Devonshire, St. Louis 9, Mo.

Area leaders met in St. Louis at the Park Plaza Hotel in October to pay

At a Missouri reunion in Virginia (left to right:) Mrs. Lester R. Ford, Prof. Lester R. Ford, A.B. '11, A.M. '12, Mrs. Edwin W. Patterson, B.S. in Ed. '12, A.B. '14, Prof. Edwin W. Patterson, A.B. '09, LL.B. '11, LL.D. '36. They were photographed in the Ford home in Charlottesville, Va. (See Classnotes column for '11).

tribute to RUSSELL L. DEARMONT, LLB, president of the Missouri Pacific Railroad. More than 250 business, political, civic and professional leaders attended a testimonial dinner in his honor, emphasizing his professional career as a lawyer and his promotion as a businessman to head one of the biggest railroads in the country.

Judge LAURANCE M. HYDE, AB, LLB, '16, LLD '48, of the Missouri Supreme Court in Jefferson City, is one of six new department chairmen appointed by the State Bar president. Along with Prof. Robert L. Howard of the University Law faculty, Judge Hyde will be a co-ordinator of activities of the 36 association committees. Judge Hyde's department is administration of justice.

15 PAUL H. ARTHUR, AB, lawyer, is a member of the firm of Arthur, Dry and Dole in New York City. MORRIS E. DRY, AB '18, is the second-named firm member and partner. Mr. Arthur is general counsel for United States Rubber Company. Also, for the past twenty years, he has operated a farm at Berlin, Mass., near Worcester, where he raises turkeys and Dorset sheep. Mr. Arthur's address is 1230 Sixth Ave., New York 20, N. Y.

N. E. FITZGERALD, BS Ed., BS Agr. '17, Dean of the College of Education of the University of Tennessee, has seen the realization of long years of planning and development in the formal dedication of the new million-dollar "home" of the College, the P. P. Claxton Education Building. The building, traditionally Gothic in design, carries all the latest trends in schoolhouse construction. It is one of the most complete buildings in the region for the purpose of professional education work. Dedication ceremonies were held November 15, when opportunity was given to see the building's facilities. Dean Fitzgerald's home is at 6 Hillvale Circle, Knoxville, Tenn.

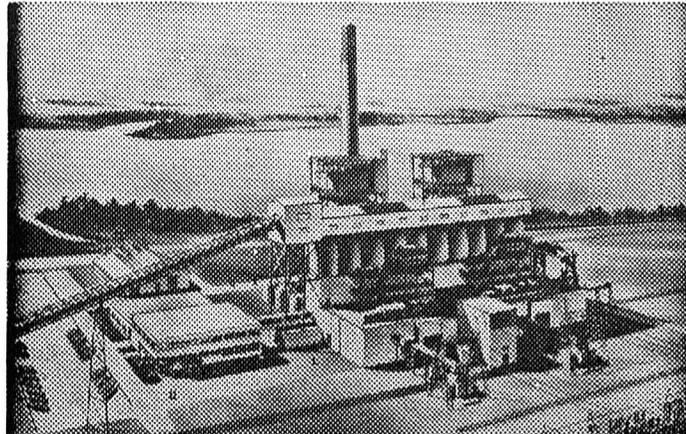

HARL R. DOUGLAS, BS Ed., AM '21, has been director of the College of Education at the University of Colorado, Boulder, since 1940. Previously he has served as professor of secondary education at the universities of North Carolina, Minnesota, Pennsylvania, and Oregon. He has written college textbooks on secondary education and elementary and secondary school mathematics. He has been nominated for a citation for outstanding contribution toward the advancement of secondary education to be awarded next June in connection with the 100th anniversary of the founding of Shattuck School, Faribault, Minn. Dr. Douglas lives at 779 16th St., Boulder, Colo.

17 WILLIAM L. BRADSHAW, BS Ed., AM '24, in October was appointed one of five members of the new State Savings and Loan Board by Gov. James T. Blair of Missouri. Mr. Bradshaw is chairman of the board and was appointed for a six-year term. He is Dean of the School of Business and Public Administration and professor of political science at the University. Dean and Mrs. Bradshaw, who

was DORIS CRUMP, BJ '25, live at 207 Thilly in Columbia, Mo.

Mrs. E. E. Gray, who was VIRGINIA STEWART, AB, lives at 2161 University, Eugene, Oregon.

JOHN WILLIAM ANTHONY, BS Agr., is president of Farm Service, Inc., an independent fertilizer manufacturing firm which he started in 1941, at Opelousas, La. Mrs. Anthony is the former ELTA BELL WOOD, BS Ed. '16. Mr.

PATTERN FOR POWER

YEAR AFTER YEAR, Kansas City's pattern of growth has called for more and more electric power. And the site of Montrose Station, located 60 miles southeast of the Metropolitan Area, truly forms a "pattern for power."

This new steam-electric generating plant is scheduled to begin delivery of more power into the Kansas City Power & Light Company electrical system in the summer of 1958. The first turbogenerator — one of the largest ever designed and built for use in this section of the country—will have a capability of 175,000 kilowatts; the second unit, equal in size is planned for operation in 1960.

Montrose is an outstanding example of the long-range planning necessary to fulfill our responsibilities for meeting the expanding needs of our service area. It illustrates our continuing endeavor to provide ample electric power for all customers . . . in whatever amounts they may require it.

INVESTMENTS IN NEW PLANTS AND FACILITIES:

10 years, 1947-1956.....\$191 Million

4 years, 1957-1960 (Planned).....\$ 99 Million

KANSAS CITY POWER & LIGHT COMPANY

"Serving the Community Since 1883"

class notes

and Mrs. Anthony have two sons. One is a practicing lawyer and the other, a Ph.D. in Soil Chemistry, is in business with his father. There are seven grandchildren whose ages range from six months to 10 years. Their mailing address is P. O. Box 271, Opelousas, La.

ALBERT PRESTON AUSTIN, BS, AM '28, is a dairy and beef farmer on Route 4 near Fayetteville, Ark. The Austin farm, where they have lived the past 20 years, is located 6 miles west of Fayetteville on Highway 16, and the welcome mat is out for Missouri friends. Mr. and Mrs. Austin have two children and six grandchildren. Their daughter lives on a ranch 7 miles west of Wichita Falls, Texas, and their son, who has been with the Denver and Rio Grande railroad the past nine years, lives in Denver, Colo.

18 MARY MARGARET McBRIDE, BJ, has included treasured family recipes in a new book, "Harvest of American Cooking," which was released in October from G. P. Putnam's Sons, New York. This book is a story of peoples, as well as foods, and is written region by region, covering every state. Missouri is grouped with 12 other mid-western states in a section called "The Heartland," and it leads off with a chapter, "Missouri—Purely Personal." It was written in her picturesque home in the Catskill mountains of New York state and includes, with its 1,000 selected recipes, bits of food lore gleaned from the thousands of celebrities Miss McBride has interviewed on her radio programs or met during her long career as a reporter and newspaper columnist. Miss McBride's address is 230 Central Park South, New York 19, N. Y.

W. L. BARRETT, BS Agr., M.Ed. '39, is manager of the agricultural chemicals department of Consumers Cooperative Association in Kansas City. Mr. Barrett, better known as "Puny," taught vocational agriculture 25 years, 24 of which were at Boonville, Mo., before joining Consumers. Mr. and Mrs. Barrett live at 11210 Bristol, Hickman Mills, Mo.

JOHN W. BALDWIN, BS Eng., ME '19, is superintendent of the power plant for Ohio Boxboard Company. He is also mayor of the village of Rittman, Ohio, where his address is 15 North Fourth Street. A son, Lt. James M. Baldwin of the U. S. Air Force, is a graduate of Ohio State. Mr. Baldwin inquires of a former roommate, C. DEAN THORP, BS Agr. '21, M.Ed. '39, who is currently Boone County Superintendent of Schools, and lives at 802 Hope in Columbia.

20 Dr. JOHN DANIEL HULL, Jr., B.S. Ed., is director of Instruction Services, U. S. Office of Education, Washington, D. C.

He is a former principal of high schools in Indianapolis, Ind., and Springfield, Mo. He was chairman of the United States delegation to the International Conference on Secondary Education in Santiago, Chile, in 1955. He has written several books on education. He has been nominated for a citation for outstanding contributions toward the advancement of secondary education to be awarded next June in connection with the 100th anniversary of the founding of Shattuck School, Faribault, Minn. Dr. Hull's home is at 6694 32nd St., N.W., Washington 15, D. C.

VEDA HARRAH, BS Ed., who makes her home at 1207 Walnut in Columbia, Mo., has been a missionary to India for 30 years. In October she was recognized for her work by the Disciples of Christ leaders when they honored a corps of veteran workers in Christian education and world missions. She was presented a gold service pin. Miss Harrah first went to India in 1925, and was a co-founder of the Sumankhetan Christian High school for girls at Pendra Road, India, which is 400 miles west of Calcutta. She has been principal of this school, which offers vocational training or home science to the students who live in dormitory cottages and do their own house-keeping as part of their practical education. Born and reared in Golden City, Mo., Miss Harrah attended Drury College in Springfield, taught two years, and studied at the former College of Missions in Indianapolis before going to India.

21 BURDETT GREEN, BS For., has resigned, effective January, 1958, as executive vice-president of the Fine Hardwoods Association, 666 Lake Shore Drive, Chicago, and he and Mrs. Green will move to California soon after that date. They plan to locate in the area between San Francisco and Monterey Bay, where he started out with the U. S. Forest Service. After establishing a home and an office, Mr. Green will work with consulting projects, his initial business being with Elmendorf Research, Inc., 860 Charleston Rd., Palo Alto. Mr. Green accomplished many goals with the Architectural Service, the Furniture Market Survey, Hardwoods Exhibit at the Museum of Science and Industry.

23 ALBERT H. LEONARD, BS Agr., of Webster Groves, Mo., is manager of special industry sales for Ralston Purina Company. His department includes the responsibility for sale of rations for mink, pigeons, game birds, goats, trout, and the laboratory group of small animals and his work takes him all over the country. He

joined Purina in 1923, and was soon assigned to special industry sales work. Mr. Leonard has headed the department for nearly 30 years. An important experiment was the development of a complete feed for silver foxes. He worked with Admiral Byrd in 1930-31 developing balanced rations for the polar expeditions. Mrs. Leonard is the former MARY K. CROWSON, BS Ed. They have two married daughters, a married son, and four grandchildren. The home address is 127 S. Jefferson Road, Webster Groves, Mo.

27 ALBERT S. KESHEN, BJ, is a contributing editor to business and consumer magazines. When not on the road getting stories and pictures, he makes his home at 58 Demarest St., Newark 12, N. J.

CHARLES C. BURGESS, BJ, is publisher of the weekly Milbank Herald Advance, Milbank, S. Dak. He is president of the South Dakota chapter of Sigma Delta Chi, professional journalism fraternity, and is first vice president of the South Dakota Press Association. His home is in Milbank.

28 Mrs. Floyd Sliter, the former ALICE LEE McCUNE, BS Ed. AM '31, has been a sales correspondence at Johns-Manville company in St. Louis for the past 15 years. Her husband is a police officer in that city. Their home is at 6444 Potomac, St. Louis 9, Mo.

RAY C. HASE, BS Eng., is Director of the Southwestern Bell Transmission School, Operations Department, in St. Louis. He began work with Southwestern Bell as a transmission tester in the Plant Department, was transferred to the Engineering Department, took time out for five years military duty, returned as Area Training Supervisor in Management Training work, and was promoted to Operations in 1956. Mr. Hase lives at 121 Peeke Ave., Kirkwood 22.

GLEN W. CLARK, LLB., is president of the Mississippi River Fuel Corporation in St. Louis. Mr. Clark began his law practice in Lebanon, Mo., went to Tulsa, Okla., where he joined the legal department of Cities service, and after working through several Cities Service divisions and companies, became a director of Emipre Gas & Fuel Company in New York City. In 1956 he became president and a director of the Mississippi River Fuel Company, a subsidiary of Mississippi River Fuel Corporation in Houston, Texas. Mr. and Mrs. Clark live at 13 Twin Springs Lane, Ladue, Mo. They have two sons, Stuart, a junior geology student at the University, and

David, a senior at John Burroughs School in St. Louis.

Mrs. NANCY FRAZER Meyer, BJ, has been editor of the Kirkwood, Mo., Messenger since 1950, and on its staff since 1948, when Mr. Meyer died. Their daughter, Nancy Lew, is in her second year at the University. After graduation Mrs. Meyer traveled in Europe for a year, was publicity director of radio station KMOX and Scruggs, Vandervoort, Barney, married and went to New York where she had her own publicity agency and was publicity director of a transcription network, and returned to the St. Louis area in 1941, when Mr. Meyer founded the B-1 Beverage Company.

IRVIN FANE, AB, LLB, is a senior partner in the law firm, Spencer, Fane, Britt & Browne, with offices at 1000 Power & Light Building in Kansas City, Mo. Mr. and Mrs. Fane live at 800 West 51st St., Kansas City. Their son, Lawrence S., is a '55 graduate of Harvard and is now a graduate student in sculpture. Bruce is a senior at the University of Missouri.

B. CLARK BERRY, BS BA, has been with the Citizens Bank of Festus, Mo., since 1939. For 11 years after graduation Mr. Berry did public, private and governmental accounting in Texas and Missouri. He became vice president of the Bank in 1940, and, except for the two years out for military service, has acted in that capacity since that time. Mr. and Mrs. Berry live at 824 Parkview in Festus.

DARRELL M. YOUNG, BS Agr., AM '33, joined the Calcium Carbonate Company in 1944 and is now Southwestern Representative at Carthage, Mo. He taught vocational agriculture for 15 years in Pierce City, Nevada and Carthage, Mo. Mr. and Mrs. Young live at 1712 Grand Avenue there. Their two

daughters, Sandra Lynne and Mary Karen, are enrolled in Christian College in Columbia.

FAY PARKS JACOBS, BJ, has been advertising manager and partner of the Poplar Bluff Daily American Republic since November, 1928, except for one year spent as advertising representative for Standard Oil in St. Joseph, Mo. He is now editor of the Weekly Citizen Democrat. Mr. and Mrs. Jacobs have two sons; Don, a scriptwriter for Warner Brothers in Hollywood, Calif., and Bill, a student at Arkansas State. Their home address is 832 Cynthia St., Poplar Bluff, Mo.

GUY A. LAWS, BS BA, is in the rental property and parking lot business in Joplin, Mo., after many years in hotel management work. He began the hotel work as an auditor for the Allis Hotel, Wichita, Kan. He was auditor and assistant manager of Hotel Muehlebach in Kansas City, and manager of Hotel Conner in Joplin. Mr. and Mrs. Laws and two daughters, Karen and Sandra, live on Route 4, Joplin.

29 JOHN REHNER, Jr., BS Eng., AM '30, has been named a section head in the products research division of Esso Research and Engineering Company, central scientific affiliate of Standard Oil Company, New Jersey. Dr. Rehner, a native of New York City, holds a doctorate in physical chemistry from the University of Minnesota and has been with Esso Research nearly 17 years.

J. C. McLEAN, BS Agr., native of Boone County who, as a student, fed cattle at the beef barns to help pay expenses, was a member of the livestock and meat judging teams, and in February, 1929, went to Adams County, Illinois as a young 4-H agent, learned an appreciation of good Angus cattle early in his

experience, and soon began to build a herd of his own. The story of his herd is the story of continued improvement and foresight, combined with hard work, and at the International Show in Chicago in 1956, the name of J. C. McLean and his Dor-Mac Farm herd of Quincy, Ill., was added to the roll of champions. Senior and grand champion bull and the Junior champion bull both were bred in the Dor-Mac herd, and both were from cows bred in the Illinois herd. "Few men in Angus history have had the distinction of breeding two champions at the same International Show," says the Aberdeen Angus Journal, which devoted several pages to his outstanding record.

CHESTER HOFF is editor and publisher of the Cedar County Republican and Stockton Journal, Stockton, Mo.

30 Lieutenant Colonel FRANKLIN R. PATTERSON, BJ, longtime Starkville, Miss., resident, on October 7 took charge of the Army's shipping terminal operations in Long Beach, Calif. As Chief of the Long Beach Outport Activity, he will supervise Army cargo movements through the Long Beach-Los Angeles port area. The agency is a branch of the Bay Area Army Transportation Terminal Center headquarters in San Francisco. For the past year Col. Patterson has commanded the Reykjavik Army Port in Iceland. From 1930 to 1935 he edited the Starkville News and served as local correspondent for state metropolitan newspapers.

MARY KIRK ANDREWS, AM, is retired, and lives at Monteverde, Puntarenas, Costa Rica, Central America.

JOHN W. ALEXANDER, BS BA, LLB '34, is assistant regional counsel for the Internal Revenue Service in the Dallas, Texas, area. The Alexander home is at 4372 San Carlos Drive in Dallas. Their oldest daughter, Suzanne, is a sophomore in Lindenwood College at St.

Meyer

deaths

JAMES I. MALOTT, BS Ed. '07, AB '10, AM '11, who retired from the River Falls, Wis., State College faculty in 1943, on October 17, 1957, at his home in River Falls. Prof. Malott was chairman of the Department of Education when he retired, after 32 years on the College faculty. He went to River Falls in 1911 from Bolivar, Mo., where he had been superintendent of schools. He is survived by Mrs. Malott, and by one daughter, Mrs. Cyril Stout, Kalamazoo, Mich.

WILLIAM H. "Wood" SAPP, '09, Columbia attorney and former Boone County state representative and prosecuting attorney, on October 11, in Columbia, Mo. Mr. Sapp, born in Ashland, Mo., had been a practicing attorney in Columbia since 1909. Besides his law practice Mr. Sapp farmed as a hobby, and his home was at Forest Lawn Farms, Highway 40 East. Mrs. Sapp, of R. F. D. 2, Columbia, survives; also a brother and two sisters.

LAWSON GENTRY LOWREY, AB '09, AM '70, consulting psychiatrist, on August 17 in New York City of a heart attack. Dr. Lowrey, who served on the University faculty as a graduate student, in 1910 went to the University of Utah on the anatomy staff of the medical school there. He served on the faculty of both Harvard and Columbia universities and in the '30s took up private practice in New York City as a consulting psychiatrist. He edited the "Journal of Orthopsychiatry," and for 17 years directed the famed Institute of Child Guidance. Dr. Lowry was listed in "Who's Who" and

in "Who's Who of Physicians and Surgeons."

Mrs. E. J. Durand, the former SUE G. STONE, BS Ed. '09, on November 7 in Kansas City after an illness of two months. Mrs. Durand's early life was spent in La Grange, Mo., and the family moved to Columbia in 1906. She received her master's degree from Columbia University in New York and later was married to Dr. E. J. Durand, dean of the school of horticulture at the University of Minnesota. After his death in 1923 she became dean of women at North Carolina State College, and afterwards assumed this same position at Stephens College in Columbia. For some years she was affiliated with the bureau of economic research in New York, and for the past 10 years had been a consultant with the Western Employment Company in Kansas City. A brother, Dr. William E. Stone of Boonville, survives, also a niece and a nephew.

BLANCHE BOSWORTH, AB '10, of 2227 West Seventy-seventh, Prairie Village, Kan., on October 30. Miss Bosworth had lived in the Kansas City area for the past 50 years, and for 12 years was a deputy internal revenue agent. A nephew, Collis P. Bosworth, of the home survives. Services were held in Laclede, Mo., her home town.

HOMER SMITH PRICE, '12, a retired former general manager of three different main plants of Swift and Company, in July of a heart attack at his winter home on So. Indian River Drive near Ft. Pierce, Fla. Mrs. Price, of the home at 70 Bay Blvd., Atlantic Beach, Long Island, N. Y., survives; also a son and a twin brother, Hunter Price.

ROBERT LOUIS BOHON, '15, for the past 25 years chief deputy sheriff of Duval County, Jacksonville, Fla., instantly at his home there on September 5 of a heart attack. He had retired January 1, 1957, and had just returned from a long auto tour of the U.S.A., on which trip he had served as Florida state delegate to the Elks Convention in San Francisco. Mr. Bohon leaves a widow, step-daughter and two grandchildren. His residence is on the banks of the St. Johns River in Florida near Jacksonville.

HENRY I. COHN, BS Agr. '17, Florida and Midwestern land developer, at West Palm Beach, Florida, on September 29 of pneumonia. Born in Carbondale, Colo., after service in World War I he became a dealer in municipal bonds and occupied a seat on the St. Louis Stock Exchange until 1939, when he bought and developed a 3,000-acre plantation in Missouri. Previously he had founded the Cypress Farm Lands Company in New Madrid County, Mo. At the time of his death, Mr. Cohn, with others was developing the Indian Trail Ranch, a

65,000-acre tract on the outskirts of the Palm Beaches in Florida, Mrs. Cohn, of 301 Garden Road, Palm Beach, Florida, survives; also a son, Henry L., Jr., and four grandchildren.

Mrs. Max Meyer, who was formerly STELLA SEXTON, AB '19, AM '26. in Washington, D. C., on October 30 following an illness of several months. Mrs. Meyer, a teacher of modern languages, served on the faculty of Christian College from 1923 to 1945. Four of these years she served as dean of the college. She was the wife of the late Max Meyer, psychology instructor at the University. Three daughters and two sons survive.

Mrs. Sterling P. Bradley, formerly MARY WATTS, BS Ed. '23, prominent educator and club leader in Missouri, on October 4 in Springfield, Mo. Mrs. Bradley spent many years in the teaching profession, retiring in 1943 from her last position as chairman of the department of mathematics at Rolla, Mo., High School. Mr. and Mrs. Bradley moved to Rolla in 1914, where he was superintendent of schools. Later Mr. Bradley became an English teacher at the Rolla School of Mines and Metallurgy. Mr. Bradley and their son, James Lester Bradley, preceded her in death. A daughter, Mrs. Irene Munson, lives at 608 West 11th St., Rolla, Mo. There are two grandchildren and four great grandchildren.

DONALD H. JONES, BJ '25, AM '26, professor of journalism and chairman of the advertising department at the University's School of Journalism, of a heart attack at his home in Columbia on Nov. 6. He had been on the faculty since 1937 and a department chairman since 1948. Before entering the University in 1924 he had attended the University of Wisconsin for three years. In 1928-29 he was assistant professor of journalism at M. U. Before returning to Columbia in 1937, he had been advertising copywriter for Johnson Printing and Advertising Co., Dallas, Tex.; display advertising representative for the Dallas News-Journal; with the Chilton Advertising Agency, Dallas; and a partner in the Driggers-Foust-Jones Agency, also of Dallas. From 1930 to 1936 Prof. Jones was publishers' representative of the Texas Daily Press League, and in 1937 he was for a time national advertising manager of the Corpus Christi (Tex.) Caller-Times.

On leave from the University from 1943 to 1945, he served in the army as an administrative officer and later on the journalism faculty of the Biarritz American University in Biarritz, France.

Prof. Jones was a member of the American Association of University Professors, the American Association of Teachers of Journalism, Kappa Tau Alpha, Alpha Delta Sigma, and Scabbard and Blade. He was also active in Rotary Club and the Masonic order. He was

Donald H. Jones

faculty adviser for Kappa Tau Alpha at the University.

Prof. Jones was born in Creston, Neb. in 1903. He is survived by Mrs. Jones, the former VIVIAN HERRICK, BJ '39, and by a cousin.

"The University lost an outstanding teacher in the untimely passing of Prof. Donald Hugh Jones," the Columbia Missourian said in an editorial tribute. "Some of the most important advertising men in the United States are numbered among the thousands who have been in his class in advertising principles and practice in the School of Journalism. Don Jones was known as a 'hard' teacher. Innately dignified, he demanded perfection in scholarship, but he was also known for his great sense of fairness. Prof. Jones also made many contributions to research in advertising, particularly in his direction of graduate students in advertising."

HUGH REYNOLDS MACMILLAN, Jr., AB '27, vice-president in charge of manufacturing of the Colgate-Palmolive Company, on October 6 in Springfield, N. J., of a heart attack. He joined the Colgate-Palmolive staff in 1941 and lived in Short Hills. Mr. MacMillan was chairman and a trustee of the Community Congregational Church in Short Hills.

The death of THEODORE LEONARD ACHORD, BS Ed. '28, from a heart attack on February 18, 1956, has just been called to our attention. Mr. Achord had been comptroller for the Gooch Milling and Elevator Company and corporations in Lincoln, Nebr. Mrs. Achord and a son, Dan, high school sophomore, live at 1945 Otoe, Lincoln.

LOUIS BENJAMIN HOY, AM '29, on October 3 at Liberty, Mo., where he had been in the hospital since July. Mr. Hoy, an educator in southeast Missouri for

nearly 50 years, was superintendent of the school system at Gideon for 40 years prior to his retirement in 1955. He began his teaching career in the rural schools of Ste. Genevieve County, Mo. He is survived by three daughters and eight grandchildren.

RAYMOND THURMAN, '29, superintendent of the Kickapoo R-7 School in Greene County, Mo., on October 13 in Springfield, Mo. Mr. Thurman had been in ill health, but had continued to work, and had helped set up the reorganized Kickapoo District recently. He had also been superintendent at Hollister, Mo. Mrs. Thurman survives at their home in Republic, Mo. There are two daughters, Mrs. Shirley Ann Gross of Fayetteville, Ark., and Lena Sharon Thurman of the home, and a son, Ray Deane, at home.

GLEN O. JONES, LLB '34, suddenly of a heart attack on November 2 at his farm home near Raleigh, Ill. He began his law practice in Harrisburg, Ill., in 1946, was state's attorney 1950-54, and in 1954 was elected to the state senate from the 51st District. At the time of his death he was chairman of the atomic energy and water resources commission. Mrs. Jones and two sons, Robert and Philip, survive.

Mrs. A. P. Webster, the former KATHLEEN FARRIS, BJ '35, on September 21 at Hatboro, Pa. Survivors include Dr. Webster and three children of the home, 212 Byberry, Hatboro.

RICHARD A. IGLEHART, former student '49, in a jet aircraft crash on October 2. A native of Brunswick, Mo., Lt. Iglehart was stationed at Eglin Air Force Base in Florida. He enlisted in the Air Force in December, 1950, and was commissioned a second lieutenant at Williams Field, Chandler, Ariz. He received a "spot" promotion to first lieutenant in Korea and was in line for his captaincy in October. Lt. Iglehart had been stationed at Eglin AFB about 3½ years. His parents and four brothers survive.

Mrs. Richard A. Rubins, formerly ANITA ROSE ISGUR, BJ '52, of Sedalia, Mo., on October 28 in Kansas City, after an illness of seven weeks. Mr. and Mrs. Rubins have made their home in Kansas City the past five years. Their two children are Jeffrey Bennet and Lauren Beth. Surviving also are Mrs. Rubins parents of Sedalia, a sister, Sheila Isgur, and a brother, Jack J. Isgur, who is a student at the University and lives at 106 Manor Drive in Columbia. The Rubins home in Kansas City is at 2624 West Seventy-fifth Place, Johnson County Kansas.

DONALD R. FISH, Arts '56, was killed in an automobile accident in June, 1957. His Kansas City address had been 3545 Broadway.

A DAMNED-YANKEE IN LITTLE DIXIE
from page 7

members of the faculty. George Lefevre was a princely entertainer. I stayed at his home for three days during which there was a round of lunches, dinners and evening gatherings. The reception I received was most cordial because I was Lefevre's guest. I said for years afterward that never did I have so many good times packed into so few days. Later, I found that there was more to all this entertainment than appeared on the surface.

When there was an appointment to be made, President Jesse combed the country for possible candidates, who were then brought to Columbia for interviews, even at the instructor level. An important, though unofficial, part of such an interview was the entertainment of the candidate by members of the faculty. Evening dinners would be followed by hours beside "the Anheuser-Busch," reminiscent of the Germany most of our faculty members had known. There is nothing like loosening up his reflexes to tell you what a fellow is really like. Before an appointment was offered, Mr. Williams would contact his trusted faculty members, "Well, what did you fellows think of him?" If they turned thumbs down, there was little chance that the candidate would be offered an appointment. It seemed that Mr. Williams, rather than President Jesse, gave the final word.

This system of widespread search, interviews on campus, entertainment at the president's table and in the houses of faculty members resulted, during my early years at the University of Missouri, in a remarkable faculty. If you don't believe it, call the roll and see what those men did and where they went before they were through. Unfortunately for Missouri most of them left us for better positions elsewhere. They were so good we could not keep them. But as we said through the years of my generation, "We want men so good we are likely to lose them, although we always hope to keep such faculty members." No less important was the imprint of this system upon the faculty members involved; it gave us a sense of partnership and responsibility in building a faculty of which the University could be proud.

How I enjoyed that trip to Columbia, my first journey at public expense, especially the trip back east. I sat with my feet on the opposite seat of my Pullman section, getting my money's worth and knowing that I was to teach during the coming year in what seemed to me an institution on its way up. More than that, jobs were scarce in those years and I knew I was lucky to be appointed an instructor at \$1,000, with the assurance of advancement in due course to an assistant professor, if I made good.

When my fond mother heard that I was going to Missouri, she protested, "No, positively, no. I cannot

give my consent to Winnie's going to such a place as Missouri." From this it may be inferred that my mother still thought of me at times as a little boy despite my twenty-five years, and that the impression that Jesse James had created for Missouri was still vivid with many of her generation. But as it turned out, the next fifteen years were glorious ones for the University of Missouri and for me as a member of its faculty.

But it did not seem to me that the town in that early day had kept pace with its University, and I felt that the "natives" took themselves more seriously than I thought justifiable. I had not realized that back of "Little Dixie," the name still used for the string of river counties including Boone, was the tradition, shown in the statement usually made soon after the introduction to the stranger, "Where are you from, Suh? I'm a Missourian, but my father came from Kentucky, and my grandfather, suh, was a Virginian."

I heard the state called Mother of the West. I was told stories of the Santa Fe Trail, the Pony Express, General Gentry's Missourians in the Seminole War, and the pivotal position of Missouri in the Civil War.—"Do you know, sir, that Missouri sent more men into the Union army than Massachusetts? We sent plenty into the Confederate States army also." I was introduced to the folk painting of the artist Bingham, who had been a protege of a leading Columbia family. It was often remarked that Missouri was rated the sixth richest state in the nation. Those Missourians were pretty good and they knew it. "Missouri raises the best mules in the United States," exclaimed a member of the Legislature who decried the appointment of a Yankee to the University faculty. "Why can't she raise University professors?"

The foregoing article is from the autobiographical notes of Dr. Curtis; it appeared originally as the first of twelve installments in the Columbia Missourian which were later printed in a brochure, copyright 1957 by Winton C. Curtis. The article is reprinted in the *Alumnus* by special permission of Dr. Curtis, who is dean emeritus of the College of Arts and Science, and professor emeritus of zoology. Dr. Curtis makes his home in Columbia, where he continues his writing and various hobbies, and from where he embarks on long motor trips each summer.

Recognition for Nance

Gordon E. Nance, professor of agricultural economics at the University since his retirement in 1956 from the Extension Service, recently received a certificate of recognition from Epsilon Sigma Phi, national honorary extension fraternity. The presentation was made at the fraternity's banquet in connection with meetings of the Association of Land Grant Colleges and Universities in Denver.

Nance spent thirty-six years in extension services of Kentucky and Missouri.

One Loss Does Not a Prophet Make

Even though Notre Dame conquered Oklahoma, Bud Wilkinson has a long way to go to establish himself as a prophet. While we know him as a coach only too well here in the Big Eight (sometimes called the Big One plus Seven), let us consider Wilkinson the prognosticator. His record is appalling. He fumbled the crystal ball 47 times in a row. Such a string of failures would shatter the self-respect of the ordinary seer. Week after week, year after year, Bud went on unashamedly, every Monday consigning the next game to his opponent. This year he went further. He was most emphatic about the Orange Bowl representative from this circuit. In Dallas he said it would be Missouri. We considered that prediction briefly. Could he be right, just this once? No, we twitted ourselves, looking again at the record. Then came the week of the Oklahoma-Missouri game when he reiterated that the Tigers were Miami-bound; he made it seem so definite. So we yielded to the pleasant prospect, and got out the dark glasses and the sun tan oil. But, curses, Bud flubbed again. How can you go along with a guy who's been wrong for five years? Being right on the Notre Dame game helps his batting average as a prophet very little. Anyway he had merely said the Irish "were liable to win;" a rather half-hearted prediction, you see. Each of us has an Achilles heel, and now we know Bud Wilkinson's weakness. Lucky for him he took up coaching, not fortune telling.

The Coffee Breaking Point

A cup of coffee at the soda fountain of the Student Union involves more than the price of seven cents, that is, if you're a square. Because the juke box is stationed there, the customer who craves his java in peace takes a beating from the weird cacophony bounced off his ears. Divers persons with pockets of coins invariably select recordings of the current tasteless trend known to the trade as rock and roll. A thing which we have been told is "Jailhouse Rock" has been assaulting the rafters of late. A fast rising newcomer is "Little Bittie Pretty One," an unintelligible mishmash featuring a humming ensemble and the clapping of hands. Equally distressing is the popularity of "Be Bop Baby." We have become resigned to "Night Train," a relatively inoffensive effort which has been played daily for four years without jumping the track. Last summer a waitress sighed that already on that particular day she had heard "Hound Dawg" thirty-four times, and it was

only mid-afternoon. One wonders when popular taste will again embrace the sensible, soothing music of earlier days, when we shall hear tunes reminiscent of such classics as "Ja Da" and "Cement Mixer."

Addendum

These juke box addicts—by their selections you shall know them. On those rare occasions when "Autumn Leaves" or "Around the World" is chosen, look around; chances are a conference of visiting educators is out on the campus, or else Summer School is in session.

A Serving of Quick Quips

At a Missouri Press Association luncheon in Kansas City, the speaker was Clifton Daniel, New York Times executive. Before getting into his serious remarks, he opened with these quips: "This isn't my first public appearance in Missouri, but it's the first chance I've had to say more than 'I do.' . . . Our son is half Missourian—the stubborn half. . . . Some people seem to think I'm the son-in-law of the Democratic party. . . . If I write anything critical of the party they say I've been quarreling with my wife."

Farewell to a Flop Duo

In this space a month ago our printers introduced a new comedy team, "spic and spac." Although the unheralded duo got rave notices from some readers (notably Tom Morelock) and raves of another sort from the undersigned, we doubt that spic and spac will ever replace Pick and Pat or Moran and Mack in the hearts of audiences. Our allegiance to another old standard act, spic and span, remains unshaken though it got the hook from the printers both times we tried to trot it out in these lines last month. Tracking down the culprit who unwittingly allowed this bush league combo of spic and spac to make their bow is an impossible task now, we hope. Gone are such documents as galley proofs by which blame could be shifted and "You done it!" shouted. They are gone because, in an impetuous frenzy of housecleaning after press time we heaved every movable object basketward, leaving our usually cluttered office spic and span, you might try to say. The accusing finger points at this baffled writer, who has last crack at page proofs before our pages make rendezvous with posterity. All we can say is that spic and spac were lousy in their first performance, and we trust that we shall never see their likes again.

J.C.T.

SEVEN AGES OF THE TELEPHONE

ALL THE WORLD'S A STAGE, and all the men and women merely players. . . . And one man in his time plays many parts, his acts being seven ages. At first the infant . . . SHAKESPEARE

All through the years, from babyhood on, the telephone is an important, indispensable part of almost everything we do. And as the hands that grasp the telephone grow in size and usefulness, so grows also the usefulness of the telephone.

BABY DAYS At first the telephone is just something that rings. But soon the lusty newcomer is saying "hello, Daddy" all by himself and listening in wide-eyed wonder to the magic of Daddy's voice.

GROWING UP It isn't long before the telephone becomes more than a magical fascination. It begins to be something for doing things. A particular pal to call. And a very necessary part of growing up.

DYNAMIC TEENS Life is now a whirl of activity. So many things to do. Girl talks to girl. And boy talks to girl. And there are two happy hearts when she says, "I'd love to go."

JUST MARRIED Two starry-eyed young people starting a new life together. The telephone, which is so much a part of courtship, is also a big help in all the marriage plans and in getting settled.

EARNING A LIVING The years go by and always there is the responsibility of earning a living. Here again the telephone is a speedy, willing, ever-present helper. It is a part of the daily work and the progress of almost everyone.

RAISING A FAMILY Now the telephone becomes more useful than ever. For how could Mother ever run her household and raise a family without it! Friends, relatives, stores, doctors, conveniences—all are so easy to reach by telephone.

IT'S GRANDMA NOW And now she's holding a grandchild on her lap. The telephone that has served her so faithfully now starts a new era of service. The cycle of life and the seven ages of the telephone begin all over again.

Working together to bring people together . . . **BELL TELEPHONE SYSTEM**

“Christmas! Bah! Humbug!”

The man in the wheel chair leaned into the microphone. “Christmas!” he snarled. “Bah! Humbug!” And, as they had in Christmases past, millions of young listeners chilled at the mental picture of the baleful Scrooge.

It was a Christmas institution, back in the Forties, this annual reading of Charles Dickens’ classic. Its reader was something of an institution himself. In his turbulent lifetime he had been an unsuccessful painter but a good amateur second-baseman, a composer whose music was played by the New York Philharmonic, and a model for Frederick Remington.

To most people, though, he was Lionel Barrymore, the actor, and they loved him.

He was both crusty and kindly (he loved reading “A Christmas Carol”), adventurous, stubbornly independent in thought and outlook. And game as they come. Although an accident in 1936 imprisoned him in a wheel chair, he went

resolutely on—working in motion pictures and making public appearances for nearly twenty years more.

No question but that Lionel Barrymore was one-of-a-kind. Yet the qualities so richly combined in him exist in a large measure among all the 170 million of us who call ourselves Americans.

They’re why we are what we are, why our country is one of the strongest on earth. And why there is no wiser investment than an investment in America—through U. S. Savings Bonds, which guarantee the safety of your savings, up to any amount, and the rate of your return. Start buying Bonds today, through Payroll Savings or where you bank. And hold on to them!

Now Savings Bonds are better than ever! Every Series E Bond purchased since February 1, 1957, pays 3- $\frac{1}{4}$ % interest when held to maturity. It earns higher interest in the early years than ever before, and matures in only 8 years and 11 months. Hold your *old* E Bonds, too. They earn more as they get older.

PART OF EVERY AMERICAN’S SAVINGS BELONGS IN U.S. SAVINGS BONDS
