MARCH 1957

**"I looked down into
my open grave"**

"MR. SENATOR ROSS, HOW SAY YOU?"

In the deathly silence of the Senate chamber, the freshman Senator from Kansas looked down, as he put it, into his own grave.

On deliberately trumped-up charges, the bitterly fanatic leaders of Ross's party were trying to vote President Johnson out of office—because Johnson stood between them and their revenge on the defeated South.

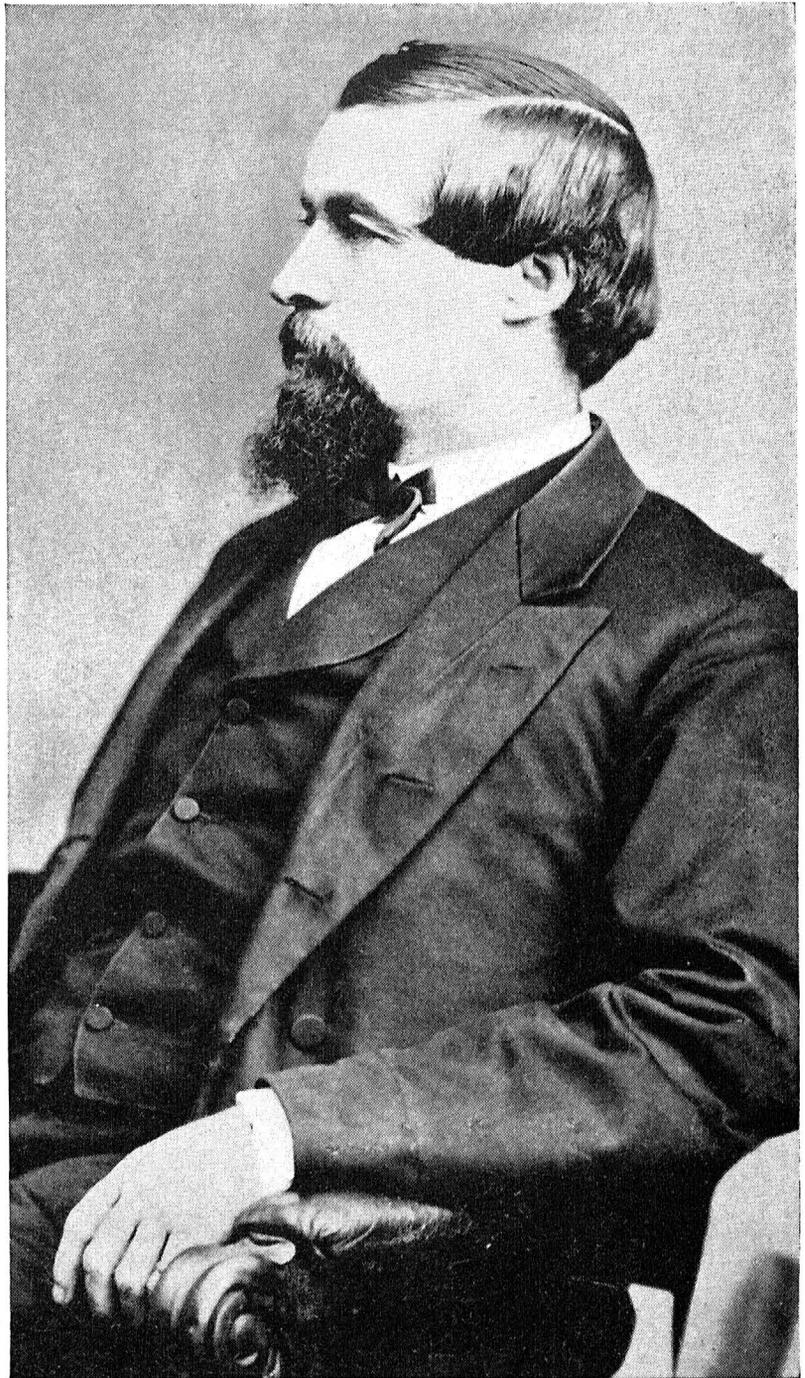

Ross, they knew, also disliked Johnson and wanted to punish the South. But, taking no chances, they had warned him to vote "guilty" or face political suicide.

And now, on that historic May morning in 1868, the verdict had come to hang completely on his vote. First faltering, then loudly, he gave it: "*Not guilty!*"

That was sheer moral principle speaking. Edmund Ross refused to join a move he thought would wreck the historic powers of the Presidency. For this, he lost his future, lost his good name, and saved for himself only what he had saved for everyone: our democracy.

Into the whole fabric of American democracy is woven the steel-tough moral fiber of men like Edmund Ross. Braver even than battle courage, it has helped America become strong in many ways. So strong, that, today, one of the world's greatest guarantees of security is U. S. Savings Bonds.

For it is not American principal, but American principles, that back these Bonds. So, for yourself and your country, invest in United States Savings Bonds regularly. And hold on to them.

It's actually easy to save—when you buy Series E Savings Bonds through the Payroll Savings Plan. Once you've signed up at your pay office, your saving is done *for you*. The Bonds you receive pay good interest—3% a year, compounded half-yearly when held to maturity. And the longer you hold them, the better your return. Even after maturity, they go on earning 10 years more. So hold on to your Bonds! Join Payroll Savings today—or buy Bonds where you bank.

Safe as America - U.S. Savings Bonds

is published monthly except August and September by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council

J. C. Penney, donor of the Foremost Guernsey herd, with Prof. A. C. Ragsdale. Between them, Foremost Quantity, with the Otto Lieber trophy she won for greatest lifetime milk production of any living Guernsey cow.

THE GIFT THAT GROWS

By PATRICIA SELLERS, '56

Thousands of visitors, from thirty-six states and twenty foreign nations, have signed the guest register at the J. C. Penney Foremost Guernsey Farm at the University of Missouri. What these people saw during their visits is one of the greatest breeding herds on one of the most modern dairy farms in the nation.

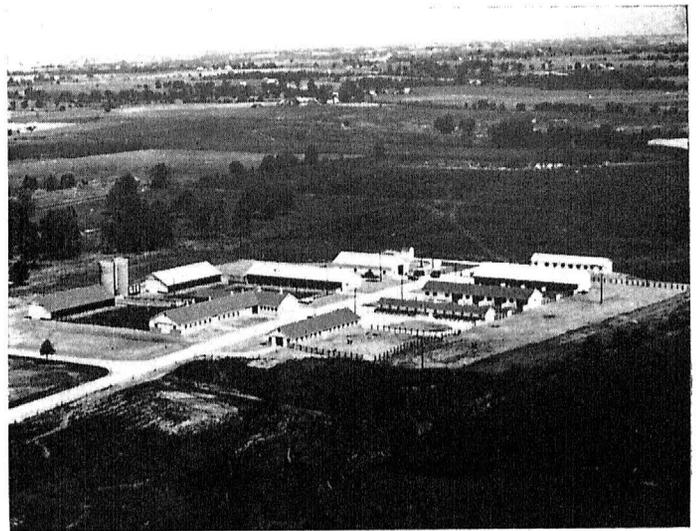

Mr. Penney developed the purebred Guernseys in Dutchess County, New York, beginning in 1922. The herd was established as the Foremost Guernsey Association in 1936 with the idea of assembling Guernseys that would have a beneficial influence on the herd.

When Mr. Penney, chain store founder and one-time Missouri farm boy, presented the \$200,000 herd to the University five years ago, he also included cash and other assets worth almost \$550,000. The funds were used to purchase a tract near Columbia, to erect new buildings, to buy equipment and make other improvements for the new Foremost Guernsey Farm. The farm, consisting of a 610-acre tract, is located eight miles west of Columbia on Highway 40.

The 267 purebreds were shipped the 1,200 miles in five shipments covering a period from November, 1952 to May, 1953. The herd now numbers nearly 300 head of animals of all ages. Of these, 138 are milk-producing cows. These cows produce more than a million pounds of milk a year. That averages about 11,628 gallons of milk a month, or 387 gallons a day. The milk is distributed through the University Dairy to the dormitories, Student Union, University Hospital, and other departments.

Mr. Penney requested that the herd be maintained by the University's Department of Dairy Husbandry,

Modern buildings form this attractive layout at the Foremost Guernsey Farm. Not shown are seven nearby residences for employees. The 610-acre tract, eight miles west of Columbia on Highway 40, has many visitors.

of which Professor Arthur C. Ragsdale is chairman. Mr. Ragsdale served as a director of the Foremost Guernsey Association since 1939, advised Mr. Penney concerning the transfer of the herd, and selected the present farm site.

The herd is continually being improved to keep the "Foremosts" in the foreground of Guernsey breeding herds. The University is constantly striving to better production and longevity through selection and line breeding. In addition to breeding superior cattle, the University sells animals from the herd throughout the country, thus helping to build up other herds.

Four sires, Langwater Foremost, Langwater Valor, Mixer May Royal, and Shorewood Resolute, were used to start the herd. All other sires have been selected from within the herd or are of "Foremost" breeding. Foremost Footprint is the senior herd sire.

The primary goal at the Foremost Guernsey Farm is continuous herd improvement: increased production, improved type, increased longevity, and improved bloodlines.

A dairy cow's length of service averages a little under four years. Research and experience have shown that cows bring more real profit after they

reach maturity (at about five to six years of age). Nearly one-fourth of the Foremosts are over ten.

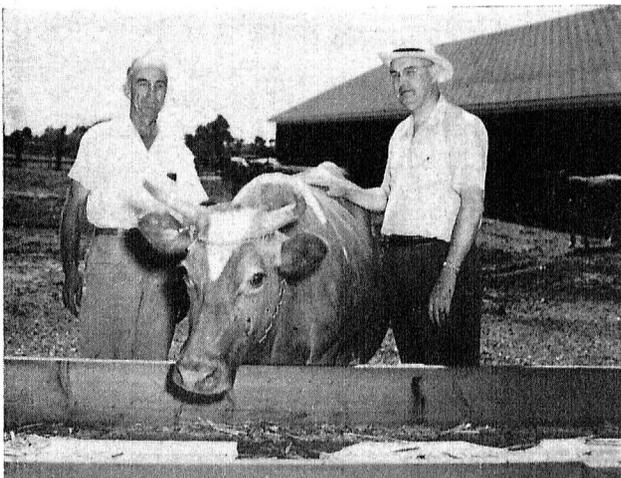

The herd's daily feeding is estimated at two and one-half tons of silage and one and one-half tons of hay during the winter feeding season. A study is being conducted at the farm on the relative merits of pasture and soiling crops. Some of the cattle pasture graze while another part of the herd is fed cut green forage.

The cropping program for the farm is planned so that practically all the roughage and forage needed by the herd can be produced on the farm. All manure produced goes back on the land, and commercial fertilizers are used as needed. Ordinarily, no crops are grown for grain although in some years corn and cereal crops not needed for silage are harvested for grain.

The Foremost herd was exhibited nationally by Mr. Penney for several years and also won many production awards. The entire herd is now on Herd Improvement Registry Test. Animals from the herd also may be shown at the Ozark Empire and Missouri State Fairs within the next few years.

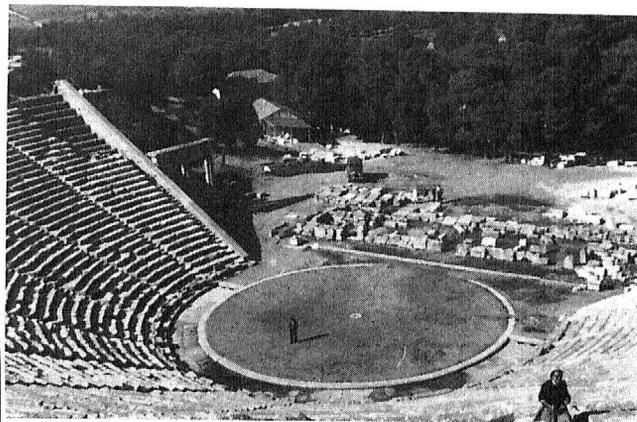

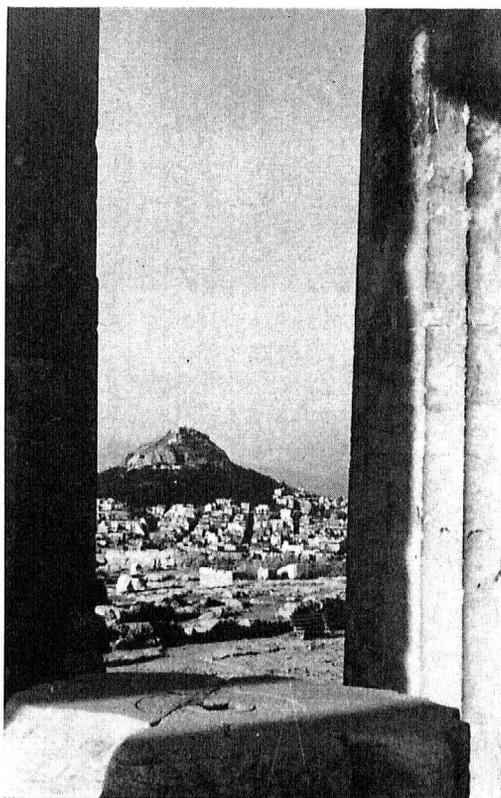

Superb's Faithful was the first cow of the breed to make four consecutive records averaging more than

Greek theater at Epidaurus, one of the most famous. Greek plays are still presented there.

Marble house provided for the School's Annual Professor.

SABBATICAL

William E. Gwatkin, Jr., Professor of Classical Languages and Archaeology at the University, sums up his experiences in Greece during his sabbatical leave as "a host of pleasant memories, much material for hard scholarly work, and experiences

which enrich every hour of University teaching."

No educator returning from abroad could ask for more, it would seem. Dr. Gwatkin garnered these rewards during 1955-56 at the American School of Classical Studies in Athens. There he served first as Director of the Summer Session then as Annual Professor. The University of Missouri is one of many contributing institutions linked to the seventy-five year old school in Greece, and every year two American professors go to Athens to serve as members of the faculty and to pursue their own research.

Professor Gwatkin, Mrs. Gwatkin, and their son David occupied a totally marble house provided by the School for the Annual Professor. It is one of a group of three buildings erected about twenty-five years ago. The central building houses a research library given to the American School by a former ambassador of Greece to the Court of St. James. The library covers the fields of medieval and modern Greek literature and history.

In its limited field, it is one of the most important research centers in the world, Dr. Gwatkin said. "While it is not my field of specialization, I did get in many a visit next door. The period of Byzantine history is comparatively unknown over here, and it whets one's appetite. I must admit that we had a good deal of fun also in stealing glimpses of such things as a lock or two of Byron's hair, sketches of Athens as done by artists who visited Athens in the early days, and even the drawings of northwest Greece made by Edward Lear, remembered by most people

Dr. William E. Gwatkin, Jr.

of the Gennadeion.*

Another of the Greek theaters. This one is located at Megalopolis, which is in the district of Arcadia, southern Greece.

IN GREECE

for his nonsense poetry, but who was also a topographical artist. The Gennadeion, as the library is called, contains these among its treasures."

The most publicized activity of the American School is its archaeological excavations, notably the excavation of the ancient market place of the city. For the past quarter of a century this excavation has been going on, with some rather important discoveries for the knowledge of the life of the ancient city.

Professor Gwatkin was at the site many times and while he is not an archaeologist in the narrow sense, he says that the knowledge derived by the archaeologists makes the ancient authors much more meaningful. He is working with one of the law cases of the great fourth century Athenian orator Demosthenes. "To see the ballot boxes used by the Athenian jurors in the trial of the Athenian courts makes one realize that the trials actually did take place," he said. David Gwatkin worked as a volunteer helper at the Agora excavations and upon leaving was presented a replica

of a clepsydra, or water clock, which determined how long an Athenian lawyer could speak in rebuttal. It lets the water flow about six minutes.

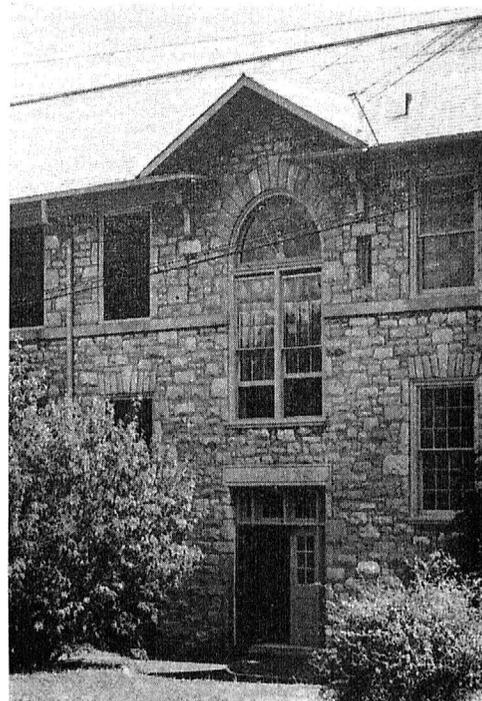

Professor Gwatkin's own duty in the School was the conducting of a graduate course during the winter months. He recalls:

"We picked to pieces one of the lawsuits in Athens, the one which led to the most famous oration in Greek literature, Demosthenes' *On the Crown*. I hope we get some of the problems straightened out. At least I was able to write a paper, soon to appear, on the legal questions involved." He did not say whether he was using the knowledge gained in his pursuit of an LL.B. degree which he obtained from the University of Missouri in 1948. He contends that was somewhat an extra, but "everything contributes to a teacher and student, especially when he is in the Latin and Greek classics."

In traveling considerably during the year, Dr.

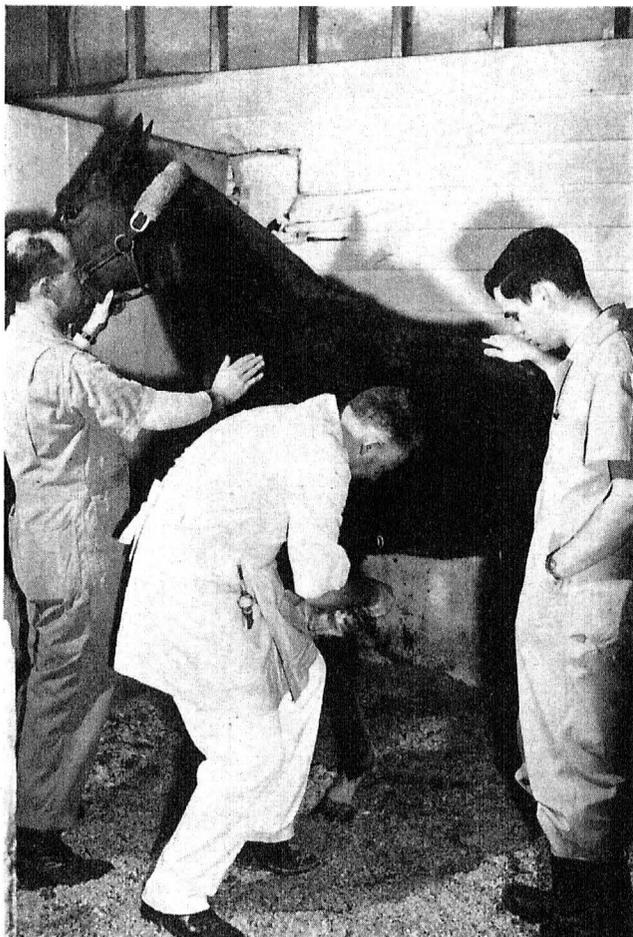

(Continued on Page 34)

By MAURICE TRIMMER, '56

Connaway Hall, administration building for the School of Veterinary Medicine.

Behind the D.V.M.

Dan is studying to be a D.V.M. Next June he will complete a minimum of six years of intensive training in the humanities, physical sciences, general agriculture, anatomy, physiology, medicine, bacteriology, pathology, parasitology, pharmacology and surgery, and will be graduated from the University's School of Veterinary Medicine. There are 17 of these schools in the United States.

For Dan his Doctor of Veterinary Medicine degree will be the realization of a life-time ambition as well as the start of a professional career. As a youngster growing up on a southern Missouri farm, he not only liked animals, but was curious about what made them tick. When they were sick, he cared for them; and when a pet died, he performed an amateur autopsy to see what he could find. He didn't make any contributions to the annals of science, but he grew more certain all the time of what he wanted to be when . . .

To qualify for the School of Veterinary Medicine, or "vet school" as it's known on campus, Dan had to complete 70 hours of pre-professional college courses with at least 30 hours in residence at the

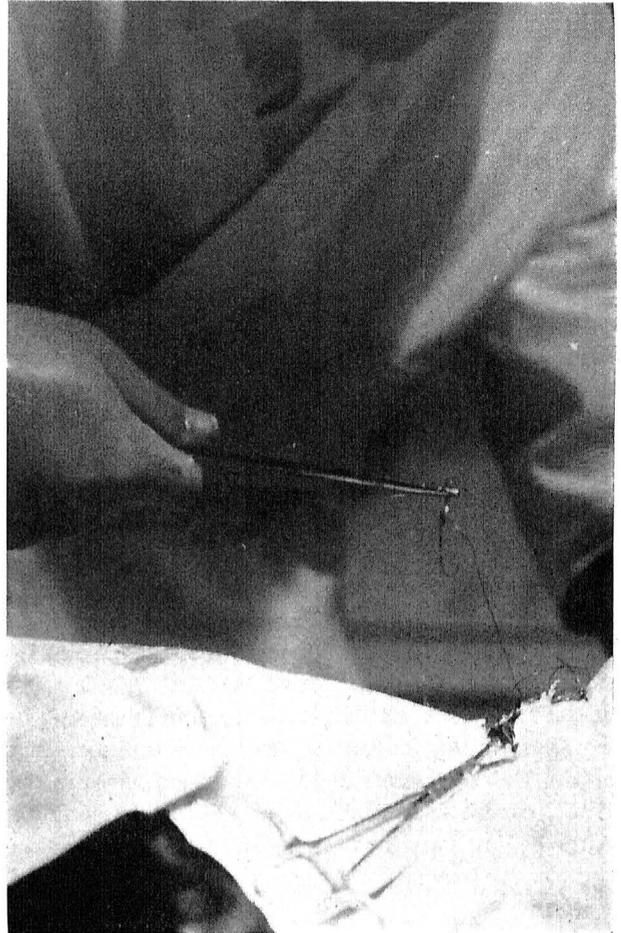

Examination of equine patient. A majority of the School's graduates go into general practice. Since 1950, the School has awarded 199 D.V.M. degrees.

Beginning their third year in the School of Veterinary Medicine, students like Dan get experience in major surgery, working with both large and small animals.

College of Agriculture. Since enrollment is limited to 30 new students each September, the school accepts only Missouri residents and preference is given to those who have completed their pre-vet studies in the University of Missouri. There are always more than 30 applicants (usually about 75), so an admissions committee, appointed by the dean, Dr. A. Holland Groth, and headed by Dr. Andrew W. Uren, interviews each applicant personally to select those "most likely to succeed." This is based on scholarship, background, seriousness of purpose and fitness for the profession. Each applicant must also take the veterinary medical aptitude test developed by psychologists and veterinarians. When Dan becomes a practitioner, he will have to get along with people as well as animals. He is already developing a professional "stall-side manner" in his regular duty in the school's hospital and clinic.

Although he has the strenuous first two years of vet school behind, Dan can still remember the hours of study, memorization and peering through a microscope. It seemed as if there were compounded names for every part of every animal, and he had to know them all. But that was only the beginning. There are no electives and the prescribed courses count up to at least 18 hours for every semester. Most of the Students' waking hours are confined to the two stone and stucco buildings in the east section of the White Campus.

Connaway Hall, named after the late Dr. J. W. Connaway, is a two-story stone building. Dr. Conna-

way was chairman of the old Department of Veterinary Science for many years. It houses the executive offices, the anatomy department, bacteriology and parasitology department, pathology department and the diagnostic laboratory. A one-story wing contains the autopsy room, three isolation wards for small animals and a room for laboratory animals.

The library is also in Connaway Hall, and there are many books and periodicals on veterinary medicine and related subjects in this second floor room.

The other main building is the hospital and clinic, where Dan now spends most of his time. It is a plain one-story structure which the school hopes soon to replace with funds appropriated from the recently-voted bond issue. The departments of medicine and surgery, and physiology and pharmacology are here, along with facilities for medical and surgical treatment and hospitalization of large and small animals.

Animal owners from Columbia and the neighboring area bring their ailing pets and livestock for examination and treatment. If the patient requires surgery or extended treatment, it is "put to bed"

Small animal patient being prepared for surgery in Veterinary Clinic.

in a stall or kennel. Those brought in by owners are treated by clinicians and upperclass students. The clinic doctors discuss unusual cases with the students like Dan, who not only hear what the problem and treatment are, but see it actually done under practical conditions.

Dan and his classmates do more than observe and study, however. They take part in all the regular functions of the clinic from receiving to surgery, and in surroundings very similar to any human hospital. Divided into small groups, each with a staff adviser, they work alternately for a week or more with poultry, clinical pathology, autopsy, receiving, pharmacy, small animals, large animals, x-ray, hospital and night duty. Although those on night duty are specifically subject to call, in an emergency any student is considered to be ready to help.

Most Students Are Married

Since a large percentage of the students are married (27 out of 29 in one class), they don't do much traveling over the weekends or socializing at night and can be reached easily. Dan joined the inner circle two summers ago. His wife Linda majored in chemistry at the University and is helping the family budget by working in the University Hospital laboratory. She enjoys Dan's accounts of his daily experiences in the clinic, except for the details of a surgical operation. After he gets past the description of the first incision, she usually remembers a radio program she just "has" to hear.

Part of Dan's surgical experience has been in the small animal division, which includes an examining and treating room, surgery room, kennel room, wash and clip room and a separate pharmacy. The facilities are limited in comparison to what the staff would like to have for the students, but it is hoped the new hospital will provide new conveniences and more modern equipment.

Every precaution is taken by students and doctors to make surgical treatment as safe and painless as is medically possible. The room is gleaming white enamel and stainless steel; and sterilized instruments, white gowns and rubber gloves are SOP. An anesthetic such as nembutal or ether is administered according to the condition and size of the animal. Antibiotics and blood transfusions are ready when needed. X-rays are taken of broken bones before and after the operation.

Section for Large Animals

The large animal section is similar to the above, only on a larger scale of course. The heavy-duty operating table can hoist up to a two-ton animal on to its rugged frame. Cows, horses, pigs and sheep are kept in individual stalls during their treatment and convalescence if necessary. The school also maintains a research farm of 90 acres four miles north of Colum-

bia for work in animal and poultry diseases. There is also a 15 acre research area with several small barns near the school. Senior students are required to accompany staff doctors on their calls to farms for treatment of the stock right on the farm.

Students are assigned to every phase of veterinary work not only to develop skills for later practice but to help them to decide what phase of veterinary medicine to choose after graduation. It is for this same purpose the school brings in visiting lecturers from time to time to discuss future problems, both as veterinarians in particular and professional men in general. Speakers include insurance men, government officials, civic leaders, educators, industrial representatives, bankers and lawyers, as well as veterinarians.

Uncle Sam's Plans Come First

Dan's first two years after graduation have already been planned for him by the Army, in which he is a reserve officer. He will have more time then to decide whether he would like to go into general practice, dairy cattle, poultry, government service, public health, research or any of the other many opportunities for D.V.M.'s. Right now he has his eye on a farm practice in his home county. Although most of the school's graduates do go into private practice, others have had marked success in various positions. Some entered institutional work as teachers and researchers. One graduate is on the staff of the Mayo Foundation at Rochester, Minnesota, and another has found an interesting assignment in the government's foreign service.

When Dan graduates next June, he will be in the eighth graduating class since the school awarded its first degree in 1950. Although veterinary medicine had been taught at the University of Missouri since 1884, it was not until 65 years later, in 1949, that the Board of Curators acted to create a School of Veterinary Medicine. Faculty members, under the leadership of Dean Groth, have combined extensive and important work in research with the responsibilities of undergraduate teaching, clinical service and the larger administrative tasks of a four-year professional school.

Will Join National Association

Upon graduation Dan will become a member of the American Veterinary Medical Association, the profession's national organization, which has a student chapter at the school. He will join one of the world's oldest professions, veterinary medicine being mentioned in an Assyrian record believed to be more than 4,000 years old. Before he starts his practice, he will have to be licensed by the examining board of the state in which he will practice.

Then, thanks to his training at the University of Missouri School of Veterinary Medicine, he will be ready to realize his boyhood ambition.

A constitution establishing a Parents' Association was adopted by students of the University and their parents at a recent meeting on the campus. Sponsoring groups are Omicron Delta Kappa and Mortar Board. The organization hopes "to provide methods and techniques where closer relationship can result between parents, students, and staff of the University." It was agreed that strength of the organization must lie in its publications, since frequent personal contacts among most of the parents will be impossible. A special committee was set up to perfect a publications system.

In the same week the Alumni Office received two ten-year memberships, and both were from former Tiger athletes whose football days will be recalled by fans of a quarter-century ago. They are Robert C. Mehrle, '29, Route U, Caruthersville, and George H. Flamank, '32, Albany. Bob was a halfback and member of the "pony" backfield. Big George teamed with little Bert Clark to stage many a thrilling pass play. Bob attended the recent alumni meeting in Sikeston, and George was on hand for the northwestern area meeting in St. Joseph.

J. C. Penney, LL.D. '53, cooperates with the photographer—and the calf—for this picture which was made on one of his regular visits to the campus. The story of the Foremost Guernsey herd, Mr. Penney's gift to the University, starts on page two.

MISSOURI MEMO

Among the industrial representatives who have been on the campus interviewing Engineering seniors was Theodore B. Bloom, B.S. Ed. '39, who is personnel director for General Motors Corporation, Guide Lamp Division, Anderson, Ind. Ted dropped into the Alumni Office and brought us an interesting story. The Blooms' daughter, Kathy, now a sophomore in high school, wants to become a nurse but has been undecided about which school to enter. When the *Alumnus* issue featuring the Medical Center arrived, she reached a decision quickly—the School of Nursing at M.U. was her choice. This pleased Old Grad Ted (and us) very much and during his visit to the campus he went by the School of Nursing for further information. The Blooms live at 1209 Maryland Drive, Anderson.

The Hawaiian motif marks this year's Journalism Banquet on May 3. Rothwell Gym will be appropriately decorated, guests will wear colorful Hawaiian leis, and the menu will include many island delicacies. Hollington K. Tong, '12, ambassador of the Republic of China to the United States, will speak and will present the \$5,000 Li Foundation Fellowship to one of this year's candidates for the B.J. degree.

A refugee Hungarian scientist is now on the faculty of the University. He is Gyorgy Redei, assistant professor of field crops. He will devote most of his time to research in genetics. He specialized in that field at the Hungarian Academy of Sciences in Budapest before fleeing Hungary in November. President Ellis said the University is fortunate to obtain a man of Redei's professional training and experience "at a time when we are in the process of rebuilding our department of genetics and allied sciences following the loss of several key men recently." Through his scientific studies, Redei was well acquainted with the research of the late Dr. Lewis J. Stadler here at the University, and with the work of Dr. Ernest R. Sears, USDA geneticist and University research associate. Dr. Sears was also acquainted with Redei's scientific studies, and he said the 35-year-old scientist will fit readily into the research staff here. With Redei is his wife, who was a technician in biochemistry in Budapest.

Through a \$61,700 grant the University received from the National Science Foundation, about fifty high school teachers can be granted substantial fellowships to attend a Summer Institute for High School Teachers at the University during the coming Summer Session. Dr. Wesley J. Dale, associate professor of chemistry, has been appointed director of the Summer Institute, which will provide special training in chemistry, physics, and mathematics for teachers of those subjects. Four-hour credit courses in each of these subjects will be included in the curricula for the coming Summer Institute. Dr. Dale said the University staff for the Institute will be augmented by a number of outstanding scientists who will come to the campus as guest lecturers. The principal purpose of the program, he said, is to provide today's high school science teachers with new knowledge that will keep them abreast of rapidly advancing developments in their fields. A teacher whose application for the Institute Fellowship is accepted will be given a stipend of \$75 a week plus an additional allowance of \$15 a week for each direct dependent, up to a maximum of four. The applicant need not be a resident or a teacher in Missouri, and enrollment in the Institute is not limited to those awarded fellowships.

Campus Kids

The sand pile is a popular spot for outdoor activity when weather is mild.

Some people begin their association with the Missouri campus at the age of two. They are among the Columbia pre-school youngsters enrolled in the Child Development Laboratory of the University's home economics department. Laboratory periods are provided for sixty-five University students enrolled in the class on Early Childhood. What the students observe in two-hour weekly sessions is related to their classroom study of child growth and development.

Two groups totalling thirty children are enrolled. The younger children, on the first floor of a building on the White Campus, are two to three and a half years of age. The older ones, on the second floor, are three and a half to five. They are a representative group, most of them attending because their parents want them to play with other children, and to enjoy musics, books, play equipment and art materials not easily provided at home.

The program, a schedule of alternating quiet and active periods, is under the direction of Miss Helen Koehler, assistant professor of home economics. Mrs.

Wooden blocks—some of them king-size—bring out the building instinct in pre-schoolers.

Virginia Slusher Fisher, '40, and Mrs. Ruth Lanz Ragsdale, '34, teach in the younger and older laboratories, respectively.

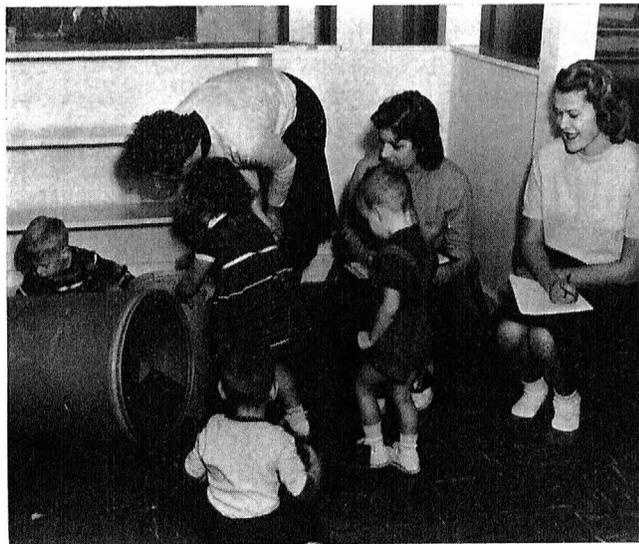

Some students take further work in Child Development, participating with either or both age groups. Under direction of a teacher, the students work with the children. They learn how to guide their activities and provide a wholesome atmosphere for play that teaches living together and developing individual interests. These students meet with faculty and staff members to discuss problems and learn techniques to help them in their work with the children.

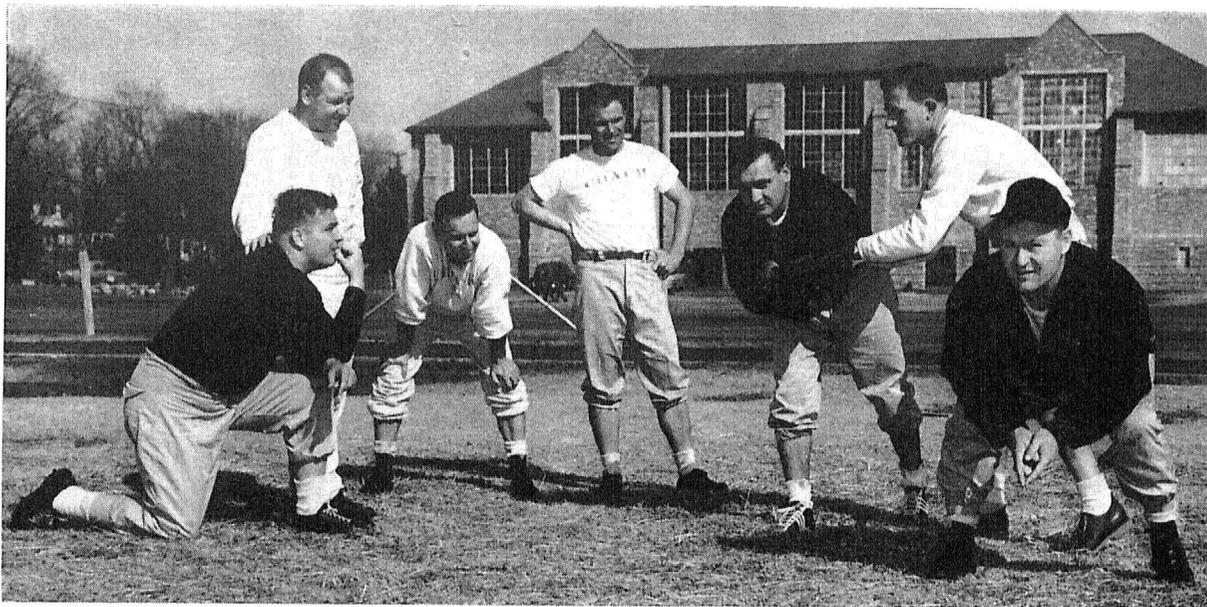

Boys and girls alike are drawn to the work-bench equipment which includes vise, hammers, nails, wood blocks, and saws.

Puzzles are fun. Wooden pieces are durable, easy to handle.

Two students at right observe as advanced student helps children at their play with blocks and fiber board barrel.

Missouri's football coaching staff: Jim Mackenzie, John Kadlec, Clay Cooper, Merrill Green, Jerry Claiborne, Head Coach Frank Broyles, and Harry Smith.

Seven gentlemen (pictured above), seven graduate and senior assistants and more than one hundred eager, hopeful football candidates have begun spring practice at the University. After 20 hectic practice sessions, spring football will wind up with a final intra-squad game on April 27.

An hour and a half at one of these intensified workouts is an interesting experience. The original impression of confusion caused by six distinct groups in multi-colored jerseys is soon dispelled. Before long you gather that both the groups and the jerseys have special significance. The white, gold, red, blue, green and black, in that order, indicate the level of the team to which the wearer belongs. In fact, on any given day this spring a player may find himself in a different color according to his performance of the day before. These performances are evaluated the morning after with the help of 200 feet of film shot at each session. The six groups of players are made up of men playing the same positions with the six different teams but practicing together on the skills of that position. Three of these groups work at the defensive end of the field and three at the offensive end.

Each of the six groups works at a different drill but all of them stress speed and reaction. The offensive backs, for instance, may alternate in two sets working on handoffs and timing, with the men not directly involved slapping and grabbing at the ball on the exchange. Meanwhile the defensive backs work on pass defense with a man running backward to a spot midway between two men 15 yards apart and then covering which ever man the ball is thrown to.

The offensive guards and tackles practice straight-ahead blocking while straddling wooden planks to teach them to keep their feet apart for greater stability. At the same time the defensive guards and tackles have a "reading drill" in which the defensive man has to "read" not only which man or men of the three lined up opposite him are going to block for the ball carrier behind them, but also which way that ball carrier is going. The next part of his job is to evade one or all the blockers and stop the runner before he can get through a narrow gate formed by blocking dummies. While the offensive guards and tackles practice getting out of the line and blocking downfield, defensive ends and linebackers work on lateral hand fights in which they face each other and run laterally trying to upset each other with their hands and forearms. Then the whistle blows and the offensive and defensive groups shift positions on the field. Ten minutes later . . . another shift and this time a new drill.

If it sounds complicated, that's because it is . . . so complicated that for each day's practice each coach gets a 2 to 3 page mimeographed outline of the day's activities. Each group of coaches had to go through a dress rehearsal of their position on the field and their method of exchanging groups before the players ever came on the field.

After the series of drills is over, the teams regroup by colors and the hour and a half session is climaxed by a snappy scrimmage in which the principles are put into action. Once the season starts these scrimmages will be eliminated altogether.

(Continued on Page 36)

Education leaders honored

Four Missouri leaders in the field of education were honored at the University on Education Day, held on the campus March 5. The University of Missouri Alumni Association Citation of Merit went to Anna V. Burns of Cape Girardeau as "a socially minded instructor directly interested in underprivileged children and adults, wise counselor and recognized friend of teachers and children in the state"; to Mrs. C. Wheeler Detjen of St. Louis, cited as "an officer in the Congress of Parents and Teachers, recognized for her ability and contributions to educational progress on local, state, and national levels"; to Philip J. Hickey of St. Louis, "administrator of a metropolitan school system who deals with major problems with initiative, skill and understanding which inspire public confidence"; and to Everett Keith of Columbia, who was cited as "teacher and administrator in public education in many capacities, leader in public affairs, counselor on educational problems, respected for judgment and integrity."

Anna V. Burns, for approximately twenty years a member of the faculty at Southeast Missouri State College as a supervisor in the Training School, holds two degrees from the University. She received the A.M. in 1927 and the Ph.D. in 1935. She served as instructor in Education at the University in 1930-33 and was supervisor of the teaching of crippled children in Noyes Hospital. She has served on the staff of St. Teresa's Academy, Winona, Minn.; State Normal School, Silver City, N. M.; University of Wyoming (Extension); and Fort Hays State College in Kansas. She was an early contributor to the field of reading, and her teaching career includes experience in rural schools, grade schools, high schools, colleges and universities. She has been school principal, supervisor, and superintendent. Dr. Burns was born near Warrensburg, Mo.

Mrs. C. Wheeler Detjen of St. Louis, president of the Missouri Congress of Parents and Teachers, is serving as High School Chairman for the National Congress of Parents and Teachers, the same position she holds with the Missouri organization. A former teacher in the St. Louis public schools, she served on the Legislative Interim Committee that formulated the Foundation Program for Education in Missouri and was active in its adoption by the General Assembly and by the people.

Philip J. Hickey has been Superintendent of Instruction of St. Louis public schools since 1942. He has been president of the Missouri State Teachers Association and chairman of its legislative committee; president of the Missouri Association of School Administrators; and is currently president of the American Association of School Administrators.

During his administration the St. Louis school system has received national acclaim for audio-visual education, teaching of reading and the language arts,

and work with gifted children. He has received numerous citations for his work in human relations.

Everett Keith has been executive secretary of the Missouri State Teachers Association since 1941, after serving as director of public relations of the association for three years.

He has served as elementary teacher, elementary principal, high school teacher, city school superintendent, and instructor in the University of Missouri where he received the A.M. degree in 1932 and continued graduate work as a Gregory Scholar.

He is a director of the University of Missouri Alumni Association and of the Missouri Council for Community Improvement. He has been prominent as a member of the Missouri State Board of Education, the Board of Managers of the Missouri Congress of Parents and Teachers, National Education Association, American Association of School Administrators, and a number of professional fraternities. Mr. Keith's record of service includes the vice-presidency of the

*Mrs. C. Wheeler Detjen, Philip J. Hickey,
Miss Anna V. Burns, Everett Keith.*

National School Public Relations Association and the presidency of the National Association of Secretaries of State Teachers Associations. He is a native of Buffalo, Mo.

The awards were presented at a dinner in the Memorial Student Union at which Dr. Loran G. Townsend, dean of the College of Education, presided. Recognition was also given student recipients of scholarships and awards.

The dinner climaxed a day of activities which featured musical and speaking programs in Jesse Auditorium. Speakers were T. M. Stinnett, executive secretary, Teacher Training and Professional Standards Committee, National Education Association; and Billie Davis, author. A social hour followed the afternoon program.

This second annual Education Day was well attended and gave promise of becoming one of the largest of the regular divisional events. A number of alumni were present, and much in evidence were numerous members of the Future Teachers Association.

With alumni authors

Petticoat Pioneer, by Ailean Lemmon Hale, A.B. '35, dramatizes the history of Christian College with such glints of humor and living vignettes from the past, like so many scenes in a thrilling play. Evelyn Milligan Jones, A.B. '35, B.J. '36, in her review, states: "The story of Christian College has a wide appeal for any reader who likes a good story well told. Among the characters are the stellar roles of presidents, and faculty; the ingenue Cathies—a century of bright young things; and the supporting cast, those who make the wheels run. Christian College becomes as real as a person as we experience the joys and tribulations built into every brick and stone. Vanished ways of life are part of the nostalgic fun of the book, with many pictures to illustrate the styles and manners of former days. *Petticoat Pioneer* is the work of an informed mind, a lively humor, a gifted pen."

Charles and Elizabeth Schwartz, alumni of the University and former instructors in the Zoology Department, are authors of a new book for children, *Cottontail Rabbit*.

Mr. and Mrs. Schwartz are staff biologists with the Missouri Conservation Commission. Separately and in collaboration they have written a great many papers on mammals and birds for various scientific publications, and produced sound-color motion pictures of wildlife that have won signal honors both here and abroad.

Their most recent film, "Cottontail" was selected by the United States Department of State as an entry in the 1956 International Film Festival held in Italy. The painstaking and impressive research required for this movie also served as background material for the forthcoming book. The book, published by Holiday House of New York, tells in narrative yet scientifically accurate style the life-cycle of the familiar cottontail rabbit. It is illustrated in full color by Charles Schwartz, who is not only a scientist but also an artist of considerable talent.

Elizabeth Reeder Schwartz majored in zoology at Ohio State University receiving her A.B. degree cum laude. At Columbia University she took her A.M. degree and at the University of Missouri, her Ph.D. Charles Schwartz took both his A.B. and A.M. degrees at the University of Missouri, supplementing his zoology major with intensive study in geology and botany. Mr. and Mrs. Schwartz now live in Jefferson City, Missouri, with their three children: Barbara 15, Bruce 12, and John 6.

Miss Sadie G. Young, who has two degrees from the University, is one of the authors of *A Preface to the Social Sciences*, published by McGraw-Hill Book Company, Inc., New York. The book gives an integrated approach to the study of man in society—his interrelations with his fellows, the institutions with which he works and within which he lives, and the social problems with which he is confronted. Miss Young

received her B.S. in '24 and her A.M. in '26 from the University. She is a member of the economics department of Florida State University, having served there since 1928. Previously she taught history and social science in Iowa, Kansas, and Missouri high schools. She was also on the faculty of the Northeast Missouri Teachers' College. Other authors of the volume are Raymond A. Bellamy, Harrison V. Chase, and Vincent V. Thursby.

Holiday From Worry is a collection of broadcasts by Dr. Frank Lowe, '19, who is vice-president of the San Diego Unified School District. The book (Stationers Corporation, San Diego, \$1.50) is the seventh

DR. FRANK LOWE

by the author, and this latest volume is issued in connection with his twentieth anniversary as a broadcaster of timely comment. He is called "San Diego's Dean of Radio speakers, the man with a smile in his voice." In a foreword, the author states: "These chapters weave into one single pattern for the individual patriotic loyalty and religious faith. The purpose is to help make citizens better worshipers; worshipers better citizens; and all of us better Americans, with more pride in our Republic, more confidence in ourselves, more faith in our fellows, and more reliance upon God." Nearly three score inspirational broadcasts are included in the volume, which is profusely illustrated with pictures of notables Dr. Lowe has come in contact with during his various activities in the community. The author's address is 2555 Fifth Ave., San Diego 3, Calif.

Los Angeles names officers

Alumni of the Los Angeles district, meeting at the Mona Lisa restaurant on March 13, elected Miss Alma Kincaide as president, Curtis Winters, Jr. as vice-president, and Miss Vera Pealer, secretary-treasurer. Miss Kincaide has held the presidency previously. Twenty-six attended the meeting.

In her report, Miss Pealer says: "A most welcome guest was Bus Entsminger from the University, who gave an interesting and informative talk. He answered many questions regarding the new buildings, the athletic department, and various matters pertaining to the University which were of interest to the graduates present."

The alumni voted to hold quarterly meetings. Telephone committees were appointed in various localities to follow up on the cards sent out for the coming meetings.

Mr. and Mrs. Frank Holt will be hosts to the next meeting, to be held June 7 at their home, 1303 Wentworth Ave., Pasadena.

48th Journalism Week

The School of Journalism, its program of activities virtually complete, is all set for the forty-eighth Journalism Week beginning April 28 and ending May 4.

Dean and Mrs. Earl English will be hosts at a reception for members of the Missouri Writers' Guild and invited guests at 8 p.m. Sunday, April 28, at their home, 930 Highway 63.

As usual, Monday will be devoted to sessions of the Guild. Tuesday this year for the first time is given over to industrial editors. Wednesday will be "Advertising Day," as customary, with sessions of the Missouri Broadcasters Association added. Thursday will feature the photography awards. The big banquet will be Friday night in Rothwell Gymnasium, and Saturday features meetings of the Missouri Press Association.

The Journalism Banquet offer remarks by Riley Allen, editor of the Honolulu Star-Bulletin; and speeches by Ralph McGill, editor of the Atlanta Constitution, and Hollington K. Tong, ambassador from Nationalist China to the United States.

Various professional groups will be holding sessions during Journalism Week. Here are some of the speakers, day by day:

Monday—Gerald Massie, information chief and photographer with Missouri Resources and Development; Joseph N. Bell, LaGrange, Ill., free lance writer; Fred Glidden (known widely as "Luke Short"), western novelist, Aspen, Colo.; Senator Stuart Symington (General University Lecture).

Tuesday—Henry B. Bachrach, communications specialist, General Electric Company, New York, and first

vice-president, International Council of Industrial Editors; John Solomon, publications manager, Western Auto Supply Company, Kansas City; Carl Baczenas, editor, *The Mill*, Granite City (Ill.) Steel Company; Robert E. Hutchinson, director of public relations, Falstaff Brewing Corporation, St. Louis.

Wednesday—Gilbert P. Swanson, president, Newspaper Advertising Executives Association, and advertising director, *Spokesman-Review*, Spokane, Wash.; George Troll, mail order advertising and sales promotion manager of Sears, Roebuck & Company, Chicago; Harold Fellows, president, National Association of Radio and Television Broadcasters, Washington, D. C.; Saul Pett, AP Illustrated Newsfeatures, New York.

Thursday—William K. Beard, Jr., president, the Associated Business Publications, New York; Junebug Clark, eight-year-old Detroit photographer; panel of recent graduates: Eliza Barkshire, *Republican-Times*, Ottawa, Ill.; Bob Dixon, Ft. Leonard Wood; Ralph Dummit, editor-publisher, Wentzville (Mo.) Union; Fred Gehrung, editor, Mallinckrodt Chemical Works News, St. Louis; Robert Newman, Caterpillar Tractor Company, Peoria, Ill.; and Judith Paulton, C. M. Said Advertising Agency, St. Louis. Elon G. Borton, president and general manager, Advertising Federation of America, New York; Riley H. Allen, editor, Honolulu Star-Bulletin.

Friday—Vernon C. Myers, publisher, *Look Magazine*, New York; Roy A. Roberts, publisher, *Kansas City Star*.

Saturday—Missouri Press Association; various sessions and luncheons.

186 at St. Joe meet

Increasing attendance at alumni meetings in out-state Missouri seems to be a trend. Recently the Sikeston area hit a new high for such gatherings in recent years with 155 persons on hand. Now District No. 1 comes along with 186 present for its March 5 meeting in St. Joseph.

Kenneth McNeal was in charge of arrangements for the northwest area affair, held at the Moila Club, with Buchanan County acting as host. Frank Sallee is president of the county group.

Hugh Miner was toastmaster. Bus Entsminger introduced the two speakers, President Elmer Ellis and Football Coach Frank Broyles. The talks were well received.

Before the banquet, a business meeting of county committees was called by Harold Niedorp, who is chairman of District No. 1.

The St. Joseph meeting was given fine advance publicity by news outlets in the area. As a follow-up, the Sunday News-Press featured a full page of pictures of various groups attending the banquet. The page was headed, "Old Grads Let Coach Broyles Hear the Tiger's Roar."

Mapping out details for Industrial Journalism Day at the University on April 30 are three alumni who are members of the Kansas City Industrial Editors Association, which is working on the event in cooperation with the Industrial Press Association of St. Louis. Pictured are (left to right) Ben H. Brown, '24, editor of Circle Arrow Retailer, and John Solomon, '34, director of publications, both of Western Auto Supply Company; and Don Blank, '50, editor of Pyramid News, Pyramid Life Insurance Company. This will be the first joint annual meeting of the Kansas City and St. Louis organizations.

Off on long, busy journey

Most people never travel abroad and those who finally make it often have to be content with a relatively quick round trip. Not so with Mrs. Ruth Kinyon Whiteside of Ithaca, N. Y., whose parents, Mr. and Mrs. Henry H. Kinyon, live at 209 Edgewood, Columbia, Mo.

Mrs. Whiteside has embarked on a trip that may take her around the world, and it may require a year to complete. And it isn't the usual trek of the American tourist abroad. This excursion has a mission—to see how all levels of society live in numerous foreign lands and to report observations to the people back home. Mrs. Whiteside's reports and interviews will be broadcast regularly during coming months over WHCU at Ithaca and other radio stations.

Several governmental agencies, embassies, travel bureaus and broadcasting stations and networks are at work arranging interviews with key Europeans at points of interest off the beaten tourist path. Mrs. Whiteside also plans on-the-spot interviews at several international events. A broadcast from Brussels will tell of preparations for the 1958 World Fair. Another report will come from Madrid where the American Society of Travel Agents will be in session. Another is planned at the Fourth of July garden party given Americans by the embassy in Paris.

From two to five weeks will be spent in each of several countries—Turkey, Greece, Yugoslavia, Austria, Germany, England, Scandinavia, Italy, Switzerland and France.

She plans to do tape-recordings from a London theater, the Vienna Opera House, a German auto factory, an Italian house of fashion, and the site of newly developed bauxite deposits in Yugoslavia.

"Part of my goal," she says, "is to talk to Americans who now live abroad. The other part is to talk to European nationals, from factory workers to the wives of ambassadors. And from this cross-section I hope to be able to draw comparisons between current life abroad and what we experience here."

Mrs. Whiteside expects to visit northern Africa and Russia along the way. "If my energy holds out, I hope to go on to the Orient in the Spring of 1958 in order to see Japan again when the cherry blossoms bloom."

She spent her early childhood years in Japan where Mr. Kinyon, A.B. and B.J., '12, was stationed as a foreign correspondent. Her own career, after she received her B.J. in 1938, has included research work for Time Magazine and New York advertising firms. One assignment called for visiting European stations of KLM Dutch Airlines.

Mrs. Whiteside hopes to receive much mail on her long tour and she hopes to cross paths with European-bound friends. Her sister and brother-in-law, Mabel and Frederick D. Stockdale, with their two children, are in Germany on a three-year assignment. They will know her exact location within any day or two,

so she can be reached by writing her in care of: Major Frederick D. Stockdale, AO 579375, Hgts. 7493 S.I.W., APO 57, USAF, New York, N. Y. (If writing from the U. S., six cents airmail). If writing from out of this country address her in care of Stockdale at 7493rd Special Investigations Wing, Rhein-Main Flighafen, Frankfurt Am Main, Deutchland (Phone: extension 6122). The Stockdales' home address is Bad Homburg, Germany Quellenweg 1. Mrs. Whiteside expects to spend the Christmas holidays with the Stockdales. Mabel received an A.B. in 1941 and Fred took an A.B. in 1946 and an A.M. in 1947.

*John Sam
Williamson*

Missouri agricultural head

John Sam Williamson, long a prominent Boone County farmer, is Missouri's new commissioner of agriculture. He was appointed by Governor James T. Blair, Jr. on February 13.

Williamson still operates the 750-acre farm eight miles southwest of Columbia on which he was born 55 years ago. He also operates 1,000 acres for his mother, Mrs. Eliza Williamson, who will be 90 years old in June.

He was graduated from the University in 1925 with a degree in agriculture and immediately returned to the farm. Mrs. Williamson is the former Quannah Kyle of Columbia, a former student at the University. They have a son, Johnny, eight years old.

Williamson is vice-president of the 4-H State Foundation, treasurer of the Home Mutual Fire Insurance Company of Columbia, secretary of the State Board of Training Schools, president of Boone County School Board C-III, and president of the Boone County School Board Association.

He was the first chairman of the AAA program in Boone County and served on the board for several years. He was president of the Boone County Farm Bureau from 1936 to 1943. He also served on the state board of the Farm Bureau for seventeen years, and was vice-president of the group for ten years.

Governor Blair said, "Williamson was not a candidate for the office. I wanted a real dirt farmer and asked him four times to take the job. I am certain that with his vast knowledge of agriculture, he will prove to be an outstanding commissioner of agriculture."

Law Day plans all set

Distinguished members of legal profession to receive honors.

April 27 is the date for the Law School Day program celebrating the eighty-fifth anniversary of the founding of the University of Missouri School of Law.

One of the opening events will be the annual Foundation dinner given by the Trustees of the Law School Foundation honoring the student members of the Missouri Law Review. Professor Richard R. B. Powell, Dwight Professor of Law, Columbia University Law School, will be the principal speaker at the dinner, to be held in Memorial Student Union on Friday evening, April 26. Presiding will be Latney Barnes, '35, Mexico, president of the Foundation. A reception will precede the dinner.

Also on the night of April 26 an alumni dinner will be held at the Tiger Hotel at 7 o'clock. As customary, there will be no program and the occasion will be devoted to a renewal of earlier associations. Jack Robertson, '47, will be in charge. He is president of the Law School Alumni Association. The classes of 1907, 1912, 1917, 1922, 1927, 1932, 1937, 1942, 1947, and 1952 will hold their annual reunions at that time.

At a meeting of law alumni Saturday morning, April 27, awards for distinguished service will go to an alumnus and to a member of the bar who is not a former student. The recipients this year are Judge Waldo Edwards, '06, Macon, and Lon Hocker of St. Louis.

Phi Delta Phi legal fraternity will confer honorary membership on a distinguished member of the profession.

At noon the Law School will hold its annual luncheon on the School campus or, in case of rain, in Brewer Field House.

Other events in the afternoon include the Junior Finals of the Case Club Competition in the small ballroom of the Memorial Student Union at 2 p. m. The special court assembled to hear these arguments consists of Judge Jasper Smith, United States District Court, at Kansas City; Judge Elmo B. Hunter, Kansas City Court of Appeals; and Judge Randolph Weber, judge of the United States District Court, at St. Louis.

Senator Thomas C. Hennings of St. Louis will receive honorary membership in the Order of the Coif in public ceremonies in the Student Union at 3:30 p.m.

At 4:30 reunions will be held by Delta Theta Phi, Phi Alpha Delta, and Phi Delta Phi.

The day's program will conclude with the annual Law School banquet at 7 p. m. in Rothwell Gymnasium. The speaker will be John G. Hervey, adviser to the Section of Legal Education and Admissions to the Bar of the American Bar Association.

Charles C. Clayton, '25, right, visiting professor of journalism at Southern Illinois University, receives a copy of the first issue of the Jackson (Miss.) State Times from Robert Webb, '49, associate editor, who spoke at a workshop which Clayton directed. The State Times, owned by more than 900 stockholders, was established two years ago in a highly competitive field.

Kirtley appointed to bench

Marcus Kirtley, Independence lawyer and chairman of the Jackson County Democratic committee, has been appointed to the Jackson County Circuit Court by Governor James T. Blair, Jr. Kirtley succeeds Judge Elmo B. Hunter, who earlier was appointed to the Kansas City Court of Appeals. He will serve out Judge Hunter's six-year term, which expires in 1960.

Kirtley received his A.B. degree at the University in 1931 and his LL.B. degree here in 1933. He has been associated with the firm of Burrus and Burrus since he began practicing law in the 1930s. He entered the county counselor's office as an assistant in 1943, and had headed the office from 1953 until he resigned after appointment to the bench. He also gave up his party offices.

Mr. and Mrs. Kirtley have three daughters: Karen, a freshman at M.U.; Mary Ellen, a pupil at William Chrisman high school; and Marcia, a pupil at Ott school.

Kirtley was born in Mooresville, Mo. forty-six years ago. From 1938 to 1942 he was municipal judge of Independence, where he lives at 1604 West Lexington Avenue.

Election notice

In accordance with Article III of the By-Laws of the University of Missouri Alumni Association, notice of the election of officers for 1957-58 is hereby given. Any alumnus may nominate candidates, and nominations are now being received by the Secretary's Office, 101 Read Hall, Columbia, Missouri. Nominations close May 1, 1957.

EVA JOHNSTON

BY DOROTHY STOUT, '57

Among the gallery of paintings in the general library is one portrait of a distinguished woman noted for her place in the University's history. Another portrait of the same woman, a dignified figure in the robe of a Ph.D., hangs above the reception room mantel in the girls' dormitory that is named for her. And the Columbia branch of the American Association of University Women has honored her memory in naming its scholarship fund.

Anyone who numbers the most outstanding faculty women, for the University's founding to date, is certain to include the name of Dr. Eva Johnston. As a professor of Latin, she is remembered for an unusually alert mind and a thorough knowledge of the classics—as a woman who combined scholarship with feminine charm and held her own in any professional circle. She knew French and Italian, spoke German like a native.

As adviser of women (forerunner of the dean's title) for ten years, she is remembered for her dignity, gracious hospitality and keen interest in students. When she retired in 1935, after a 43-year association with the University, more than 100 people rallied at a dinner in her honor. And the glowing tributes following her death in 1941 attest her valued leadership in a number of social and professional organizations as well as school affairs.

A native Boone Countian, she was graduated from Ashland High School, and her family moved to Columbia because of the schools here. After her graduation from Stephens, she enrolled in the University in 1892. The big fire had razed the campus a few months earlier that year, and new buildings were going up around the quadrangle. Ladies were quite acceptable on the campus by then—they were admitted to all of the recitations and lectures, and the

novelty of their presence at chapel services had worn off some years before. But coeds were still required to wear uniforms—black wool blouses and skirts, with a change to white blouses in the summer—and the lady principal kept a strict guardianship. Miss Eva, as she was fondly called, completed her A.M. degree here in 1895 and stayed on as a teaching fellow—later an assistant professor—in Latin.

From childhood, she loved her studies and dreamed of travel. During her lifetime she crossed the Atlantic no fewer than 22 times. The first trip was in 1899 for two years of study at the Universities of Berlin and Heidelberg with Professor Richard Heinze, a renowned Latin scholar. The European custom was to study with the man rather than the university, and by her next leave of absence Professor Heinze had shifted schools, so Miss Eva followed him to the University of Königsberg. There she had the distinction of being the only American student and, in 1905, the first American woman to receive a doctorate. In keeping with custom, again, she was required to ride about the town in a carriage inviting each professor of the department to come question her in Latin for Latin answers on her thesis.

There is no doubt that her ambition—and her courage in traveling alone to study in a strange country—was an inspiration to many a coed in her day. One student later wrote to her: "When I entered the University, one of my first classes was under you . . . You were the first woman I had known devoted to scholarship. I think it was then I began to dream of advanced degrees for myself."

Another wrote about Miss Eva: "What she brought back from those years gave something to us students.

(Continued on Page 34)

CLASS NOTES

00 Mrs. J. M. Baptiste, who was MARY I. STEELE, BS, AM '01, now lives at 105 Hillcrest Road in Hickman Mills, Mo.

ARTHUR BASSETT, BS, lives at 2545 Divisadero, San Francisco 15, Calif.

Dr. THEODORE E. HAMILTON, AM, Ph.D. '08, makes his home at 319 King Ave., Columbus, Ohio.

01 CHARLES L. HENSON, LLB, has the longest service record ever compiled by a commissioner of the Missouri State Public Service Commission. He received his first appointment from Gov. FORREST C. DONNELL, AB '04, LLB '07, in 1942, and continues to be, according to Gov. JAMES T. BLAIR, Jr., '21: "one of the best commissioners in the whole country." Mr. Henson, formerly of Springfield, Mo., lives at 201 Cherry St. in Jefferson City.

02 JOHN H. BRADLEY, LLB, practicing attorney, lives at 307 S. Everett St., Kennett, Mo.

Dr. and Mrs. C. L. Parkhurst live at Houstonia, Mo., P. O. Box 7. Mrs. Parkhurst will be remembered as LOU BELLE CALDWELL, AB.

Mrs. Elida C. Muench, formerly ELIDA C. KIRCHNER, AM, is now living at 3546 Grim Avenue, San Diego 4, Calif.

03 From recent correspondence to the Alumni office we pass along these addresses from the '03 class: JAMES C. BAIRD, AB, 11361 S. Bell Avenue, Chicago 43, Ill.; E. F. ROBINSON, BS CE, CE '07, 620 S. Stewart St., Winchester, Va.; and H. W. PRENTIS, Jr., AB, LLD '50, 151 School Lane, Lancaster, Pa.

04 BYRON COSBY, AB, BS '06, AM '10, who retired after many years as professor of mathematics on the faculty of Kirksville (Mo.) State Teachers College, now lives at 1 Ridgeley Road, Columbia, Mo. Mr. Cosby continues to do some writing for publication, and keeps busy with a beautiful yard at his home.

FRANK G. HOBART, AB '04, director of public relations and editor of "The Cannoneer," industrial publication of Cannon Electric Company of Los Angeles, and Mrs. Hobart recently celebrated their golden wedding anniversary. They were honored with a party by the Industrial Relations Division of the company, and received many expressions of appreciation. Mr. Hobart has been a Cannon employee for more than 17 years. Their home is at 644 No. Manhattan Place, Los Angeles 4, Calif.

05 CLYDE BROOKS, AB, practicing physician, is on the staff of the Bryce Hospital, Tuscaloosa, Alabama. Dr. Brooks has been

doing clinical investigation of the use of the new tranquilative drugs—mood drugs—and his article on the clinical use of Reserpine in mental cases was published in the July (1956) issue of the Journal of the Medical Association of the State of Alabama. Dr. Brooks' address is Station 3, Tuscaloosa.

Dr. WILLIAM J. WEESE, BS Ed., AB, is on the staff of the Ontario Clinic, Ontario, Oregon.

06 Mrs. Irvin V. Barth, the former GUSSIE KAHN, AB, BS Ed., lives at 2090 Broadway, San Francisco 15, Calif.

More addresses from our correspondence are Judge WALDO EDWARDS, LLB, Macon, Mo.; DON H. BLANKS, BS CE, Box 524, Saratoga, Calif.; R. W. EMMERT, BS Eng., 130 N. Wells, Chicago; R. A. KIZER, BS EE, 1130 Dolores Ave., Douglas, Ariz.; EARL QUERBACH, BS CE, 909 California Ave., Avalon, Pittsburgh 2, Pa.; LOUIS J. SCHRENK, BS ME, 16850 Glastonbury, Detroit 19, Mich., and JOHN J. SPRIGGS, LLB, 671 Main St., Lander, Wyoming.

07 T. E. BRIELL, BS ME, of Briell-Rodgers Cotton Goods Company in St. Louis, is treasurer of the organization. He may be reached at 4225 Laclede, St. Louis 8, Mo.

Mrs. John C. Blankenagel, who was formerly CAROLINE JESSE, AB, BS Ed. '08, lives at 214 High Street, Middletown, Conn.

B. A. WILLIAMSON, BS EE, lives in Los Angeles, California, 1834 North Avenue 52, Zone 42.

08 Dr. WILLIAM L. FRAZIER, MD, was one of the last to receive such a degree from the University. Our records indicate that Dr. Frazier may be the only surviving doctor of the '08 class. Dr. Frazier continues to practice at Angelus Hospital in Los Angeles, and has done much research and writing concerning the treatment and prevention of tuberculosis. His home address is 507 E. Washington Blvd., Los Angeles, Calif.

WILLIAM J. BOYD, LLB, continues in the general practice of law at 302 Corby Building, St. Joseph, Mo.

09 HARRY R. NELSON, BS Agr., who has made a specialty of education for boys, retired in February as superintendent of the Andrew Drumm Institute near Independence, Mo. Mr. Nelson, who had extensive editorial experience on various newspapers and publications before going to Drumm Farm in 1928, has headed the Institute since its inception. The Institute, which has a capacity of 35 to 50 boys, furnishes shop work and vocational agriculture to a limited group of worthy youngsters who get most of their academic training at Northeast high school in Kansas City. Mr. and Mrs. Nelson plan to travel, making a trip to Mexico soon. They have three daughters, Mrs. ELLEN BIDSTRUP, AB '33, BS Ed. '36, of 715 Proctor Place, Independence; Mrs. Dorothy Burgess, Salt Lake City, and Mrs. Betty Basseri, Monterey, Calif.

10 FRANK L. WILKINSON, AB, practicing attorney and realtor with offices at 200 Victor Bldg., Kansas City, Mo., returned in February from a month's vacation in Nassau and Eleuthera, Bahamas.

FRANK W. ALLEN, BS Agr., is now retired after serving 35 years on the faculty of the University of California. Mrs. Allen is the former ALMA TURNER, BS '11. Their home is at 422 A St., Davis, Calif.

WILLIAM E. GUNDLACH, BS EE, retired from active duty as chief electrical engineer of the Wisconsin Electric Power Company on January 1, 1957, and is presently serving as a consultant for the company. In December he received a citation from the Board of Directors of the Engineers' Society of Milwaukee as the "Engineer of the Month." Born in St. Louis, Mo., Mr. Gundlach served nearly 47 years with Wisconsin Electric in Milwaukee. His home address is 4870 N. Oakland Ave., Milwaukee 16, Wis.

11 FRANK R. ANSELMANT, AB, LLB '13, in December, 1954 had a stroke which paralyzed his entire right side, and he was forced

to retire as attorney in the legal department of the Federal Land Bank, where he had worked for 38 years. Mr. and Mrs. Anselment live at 1916 Audubon St., New Orleans, La. He no doubt would appreciate hearing from those of you who remember those days at the University.

STOCKTON FOUNTAIN, BS Agr., is a realtor, and currently is president of the McAllen Real Estate Board of McAllen, Texas. The Fountain home is at 701 Cedar Ave.

12 RALPH PRYNE, AB, BJ, of Pomona, Calif., recently visited a classmate, H. H. KINYON, in Columbia. Mr. Pryne is chairman of the board of Pryne & Co., Inc., which manufactures electrical equipment, and which has factories in Pomona, Keyser, W. Va., and Toronto, Canada.

PERCY M. JETER, farmer, retired because of ill health and lives at 617 N. Broadway in Slater, Mo.

Dr. ERNEST L. ANTHONY, BS Agr., Honorary Doctor of Science, '52, was honored by Michigan State University when a new building, Ernest L. Anthony Hall, was dedicated to their Dean Emeritus of Agriculture. The \$4,000,000 center, located at Farm Lane and South Shaw Lane, has been under construction since 1954, and houses the three animal industries departments—animal husbandry, dairy and poultry—of M.S.U. It is one of the largest and most complete animal industries centers in America. Dr. Anthony, who is a native of Chariton County near Marceline, Mo., lives at 524 Rosewood, East Lansing, Mich.

ELMER LEE ANDERSON, BS CE, is vice president in charge of operations of the Frisco Railroad, and lives at 1040 E. Grand, Springfield, Mo. Mr. Anderson recently was promoted to this position from that of Chief Engineer of Frisco.

13 Recent correspondence has brought addresses from the following: RALPH L. BROWN, AB, 5308 Newport Ave., Chevy Chase 15, Md.; H. A. FOUNTAIN, BS EE, 1711 Central, Joplin, Mo.; JOSEPH J. GRAVELEY, AB, AM '15, 705 Olive, St. Louis 1, Mo.; ROY P. HART, BS CE, 719 Tuxedo Blvd., Webster Groves 19, Mo.; HARRY TIDD, BS CE, 104 West 21st St., Hutchinson, Kan., and H. F. YANCEY, AB, AM '15, 18321 Ridgfield Drive, Seattle 77, Wash.

14 Mrs. A. Sloan Oliver, who was LETA STOPHLET, now lives at 207 Portland Terrace, Webster Groves, Mo.

J. HARRISON BROWN, BJ, now lives at 3908 Linden Ave., Long Beach 7, Calif.

LUCINDA DE LEFTWICH TEMP-LIN, of the Radford School for Girls in El Paso, Texas, holds four degrees from the University: AB, BS '14, AM '15, and Ph.D. '26.

LESTER S. GILLETTE, AM, through recent correspondence, gives his address as Box 121, Fostoria, Iowa.

15 RICHARD F. CHEW, tourist guide in the Puget Sound area, lives at 920 Third Ave., P. O. Box A 73, Seattle 4, Washington.

GEORGE F. SHULZE, BS EE, retired after many years with the Bell Telephone laboratories in New York City, now lives at 7 Cromwell Parkway, Summit, N. J.

16 ARNOT M. FINLEY, EE, active alumnus and past president of the St. Louis Alumni group, is one of those members who can usually be found at the M. U. Alumni luncheon table in the Stix, Baer and Fuller tearoom in downtown St. Louis, where various old grads meet and visit during their weekday lunch hour. Mr. Finley's home is at 5615 Summit, St. Louis, Mo.

17 H. W. (Bill) HAILEY, BJ, business manager of The Rocky Mountain News since 1940, has taken an extended leave of absence because of ill health, and is now living in Sebastopol, California, 4190 Hessel Road. Because of his national prestige in newspaper managerial circles, he is continuing to serve as a consultant to The News and other Scripps-Howard newspapers from his new home. Mr. Hailey went to Colorado in 1919 to enter advertising work after serving in the U. S. Air Force in World War I. For a time he was public relations manager of the National Western Stock Show. For many years he owned and managed an advertising firm in Phoenix and El Paso. He joined the Scripps-Howard Newspapers in 1931, became promotion manager of the San Francisco News in 1932, and in 1936 was transferred to New York to direct promotion and research, where he remained until going to Denver.

18 L. C. GRIGSBY, BS Eng., is with the Public Service Company of Oklahoma. His address is Box 201 in Tulsa.

Mrs. Marvin T. England, formerly FAE CHRISTIE, BS Ed., lives at 808½ Clay Street in Chillicothe, Mo.

19 Mrs. Robert L. Davis, who was LUCY KNIGHT BARNARD, AB, lives at 535 Fountain St., N.E., in Grand Rapids, Michigan.

MAURICE E. VOTAW, BJ, AM '21, is an assistant professor of journalism at the University. He lives at 714 Missouri Avenue in Columbia.

F. R. SUDDARTH, AB, lives at 517 N. Sterling, Kansas City 21, Mo.

20 H. P. NIEDERMAYER, Arts, has been promoted to chief of the operations office of the Federal Civil Defense Administration,

with headquarters in Battle Creek, Michigan. He assumed duties in Battle Creek on February 1, after serving as coordinator of the Minnesota and Nebraska civil defense projects for the previous seven months. Mrs. Niedermeyer, formerly CLAYLAIN C. COSTOLO, Arts, '21, writes of their numerous moves recently: January, '56, to Webster Groves, Mo.; February, '56, to Denver, Colo.; May, '56, to St. Paul, Minn., and on March 14, '57, to 43 West Acacia Blvd., Battle Creek. But with all these moves, come many interesting experiences: the mountains of Colorado, cold weather in Minnesota, hot summers in Missouri, the confusion of traffic laws and "states rights," trips across Lake Michigan both by plane ferry and plane, as well as all the other "joys" of moving.

JOHN H. CASEY, BJ, professor of journalism and advertising at the University of Oklahoma, has accepted appointment to The Saturday Review's 1957 awards committee on distinguished advertising in the realm of public interest and public service. More than 200 printed advertising campaign entries are expected this year. Citations also will be awarded to companies sponsoring meritorious radio and television programs. Mr. Casey has served on The Saturday Review's judging committee three previous years.

21 THOMAS C. WELLS, BS, is teaching vocational agriculture at Bowling Green, Mo.

ALPHA N. BROWN, LL.B., and Mrs. Brown (MARGERIE PEABODY, BJ) have been publishing the Wednesday Magazine in Kansas City for the past two years. This magazine was founded by Mr. Brown's father approximately 20 years ago. The Brown home is at 6915 Pennsylvania Ave., Kansas City, Mo.

22 JOEL D. WOLFSOHN, BJ, is a member of the law firm of Chapman, Wolfsohn and Friedman in the Pennsylvania Building in Washington, D. C. His home address is 3311 Turner Lane, Chevy Chase 15, Md.

HARRY D. BONHAM, BS BA, is serving as acting dean of administration at the University of Alabama, Tuscaloosa, Ala. On the faculty of Alabama U. since 1923, he was named head of the Commerce School's department of marketing when that department was formed in 1946. Professor and Mrs. Bonham and three children live at 2405 E. Fifth Ave., Tuscaloosa.

JOSEPH E. WITT, BS Agr., manager of the ice cream plant for Swift & Company in Whittier, Calif., completed 35 years of service with Swift on April 2 of this year. The Witt home in Whittier is at 1001 W. Beverly Drive.

23 MICHAEL QUIGLEY, BS Ed. of Gower, Mo., who taught vocational agriculture in Missouri for thirty years, is now associated with the Missouri Farmers Association insurance company.

CLASS NOTES

ERWIN C. OCHSNER, LL.B., is a member of the law firm of Gibson, Ochsner, Harlan, Kinney and Morris in Amarillo, Texas. They have recently added four new attorneys to the staff, and have doubled their office space on the sixth floor of the Amarillo Building, thus making their firm one of the largest in that city. Mr. Ochsner lives at 81 Avondale N., Amarillo.

RICHARD W. SINZ, BPA, a major in the office of Special Investigation of the U. S. Air Force, has recently returned to the States after a long tour of duty in Europe. Major and Mrs. Sinz are living at 10 No. Greenbrier, Arlington 3, Va. They plan to live in Virginia until June of 1958, when they will return to San Antonio, Texas.

24 LEO F. BECKETT, BS CE, state highway district engineer of Missouri, was recently named "outstanding engineer of the year" by the Northwest Chapter of the Missouri Society of Professional Engineers, and the Missouri Chapter No. 1, National Association of Power Engineers. Mr. Beckett, a native of Salisbury, Mo., was selected because of outstanding accomplishments, civic leadership, and unselfish contributions to community development. He is district engineer of the St. Joseph area.

CLYDE E. ASBURY, BS Agr., who has his own Grape Treatment Service in the lower San Joaquin Valley at Strathmore, Calif., recalls falling in step with Don Fautrot on a September morning back in 1920 as a crucial moment in his getting an education in spite of his resistance. From his letter of reminiscences we quote:

"I had come from Jackson County, enrolled under poisonous conditions on the library lawn, bought my Dinky, and found a place to board. But that first class terrorized me, and I was ready to go home and forget higher education. Don was in the same boat . . . we swapped sorrows, and with reluctant feet went to class. It was not bad, so I stayed. We were both interested in small fruits and grapes, and in my last year I was privileged to meet Don's family in Mountain Grove.

"Don went on to a masters degree in Pomology at Missouri, and I to the University of Tennessee on a fellowship procured for me by Prof. Talbert. Things were not to my liking, and I returned to Kansas City and three years of commercial work, which was not inspiring. Back to Columbia to talk to Prof. Talbert . . . married . . . one child . . . still wished to get back into Horticulture. A teaching fellowship at Iowa State College at \$800 a year was available, so . . . with my wife working in Kansas City and supporting the daughter, I received the degree in Pomology in 1930. Then to find a job. . . . I took U.S.D.A. lowest grade exam and was selected to go to Fresno, Calif., to assist in the establishment of a field station in fruit handling and storage investigations, where I stayed until 1937. Travelled all over the country in the

work . . . accumulated three sons . . . went commercial again with a firm treating grapes in cars storages and wineries. Seventeen years of that, then to establish my own service. . . . At times I have two million packages of grapes under my tender care, to see that they do not mold. If you are eating grapes now or later in the spring, chances are that I had a hand in their preservation.

"Our daughter is married to a plum grower near Visalea, and has three children. Eldest son (a traitor!) finishing up his engineering work at the University of Kansas, has two children. Next boy, in construction business in Santa Rosa, Calif., has three children. Our last boy, who was married in February, is attending Fresno State College and studying

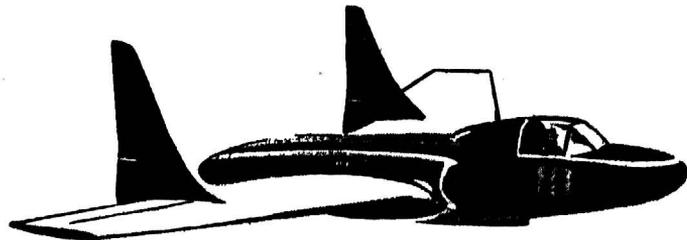

horticulture. He plans to do graduate work at Davis.

"So, as I sit here writing this letter, looking at the foothills to the north, and south higher than the highest point in Iron County, and, in my direct line of vision to the east, clearly visible, the highest of the snow-capped Sierras, I realize that, without the influence of a tough mother and sister, and that chance meeting with Don Fautrot in 1920, I might be doing routine work in Jackson County. I would not have had the experience of two trips to South America as a consultant, and the refusal of a trip to Spain and Greece to get them established in proper fruit treatment. . . .

"So, as the columns stand, they mean to me as guiding hands in order of im-

TALK ABOUT SPEED . . .

NO JET WILL EVER TRAVEL THIS FAST!

Far faster than the fastest plane . . . with the speed of light! That's how fast you get electric service when you need it—186,000 miles a second—at the flick of a switch!

Electricity, unlike almost anything else you use, must be made and delivered the instant you want it. It cannot be manufactured ahead of time and stored in a tank or a pipe or a box. That's why giant electric generators and other costly facilities must be constantly ready to meet your requirements and those of all our other customers every day . . . morning, noon and night.

It also takes investments of large sums of money by thousands of security holders to provide these facilities . . . plus the constant attention and work of skilled and experienced employees to operate the equipment.

So, next time you use electricity, remember you are getting made-to-order service, actually so fast it's delivered at the flick of a switch!

KANSAS CITY POWER & LIGHT COMPANY

CLASS NOTES

portance: Faurot, Swarhwout, Talbert, Gardner, Bradford and Hooker. From them I got encouragement when I needed it, advice when I least wanted to accept it, and an education in spite of my resistance."

Mr. Asbury's mailing address is P. O. Box 311, Strathmore, Calif.

25 FINIS E. ENGLEMAN, AM, who received his BS degree from SMS Springfield, Mo., in 1920 and his Ph.D. in 1934 at Yale, is executive secretary of the American Association of School Administrators, with headquarters in Washington, D. C. A graduate of Humansville, Mo., high school, Dr. Engleman started his career in education as a rural teacher in Missouri, and has served over a 35-year period as a teacher in elementary and secondary schools, and in college. As an administrator he has been an elementary school principal in Kansas City, high school principal and superintendent of schools in Monett, and superintendent of Nevada (Mo.) high school. He next went to Connecticut as associate director at New Haven State Teachers College, and in 1945 became Connecticut Deputy State Commissioner. Dr. Engleman has been active in many educational organizations and activities, serving as a U. S. delegate to the 14th International Conference on Public Education in Geneva, Switzerland in 1951, and to the 19th Conference in 1956. His writings have appeared in numerous professional journals. Mr. and Mrs. Engleman have two daughters, Mrs. Adolf (Virginia) Dehn, and Mrs. Frederick (Nancy) Lowe, Jr.

26 G. MARSHALL HOUX, AB, is a salesman for Halsey, Stuart & Co., Inc., 35 Wall St., New York City. The Houx home is at 21 Brown Ave. in Rye, N. Y. Their oldest son, John E., graduated from St. Lawrence University in Canton, N. Y., last June and is now serving as ensign in the U. S. Navy on the U.S.S. Thrush out of Charleston, S. C. Another son, Oliver, is a senior at Phillips Academy in Andover, Mass. Their daughter, Mary, is a sophomore in Rye high school.

CHARLES A. LEKER, AM, retired college teacher and administrator, was on the faculty of the Polytechnic Institute of Puerto Rico until his retirement in 1952. At this time the family returned to Missouri, where they are living on a small farm at Irwin, Mo., near Highway 71. Two of the children are graduating from the Lamar (Mo.) high school this spring, and the third is an eighth grade student.

HENRY DEPPING, LLB, Kansas City lawyer with experience in fire and casualty insurance, recently was appointed general counsel of the Federal Flood Indemnity Administration. He will direct the legal activities of the agency, which is preparing a threefold program to protect and aid property owners exposed to flood hazards. Mr. Depping's office is at 1122 Rialto Bldg., Kansas City, Mo.

COL. JAMES H. FORSEE, '26

Col. JAMES H. FORSEE, AB, BS Med. '27, is the new Deputy Commander and Chief of Professional Services of Walter Reed Army Hospital in Washington, D. C. This is his third assignment at Walter Reed. In 1935 he attended the Army Medical School Basic Science course, and from 1938 to 1942, he was ward officer assigned to the Surgical Service while completing a four-year rotating graduate training period. During his first year of Army duty, Col. Forsee served as an intern at Fitzsimons Army Hospital in Denver, later on their medical and surgical staffs until 1935, and again as Chief of Surgery there from 1946 to 1953. From 1936 to 1946, he served in Hawaii, Africa, Sicily, Italy, France and Germany. In 1953 Col. Forsee became Chief Surgical Consultant to the Far East Command. During this extensive service he has been recognized with many awards for outstanding achievements, and is the author of numerous professional articles on thoracic surgery and pulmonary tuberculosis. A native of Columbia, Mo., Col. Forsee is married to the former Dorothy Albright of Denver. Their home is at 5207 Falmouth Road, Westmoreland Hills, Washington, D. C. Their son, James, Jr., is a student at Brown University, Providence, R. I.

FLORENCE GREENING, BS PA, has retired from the Cincinnati Public Schools as a worker with the "unadjusted" child, and is now living at 160 S. Euclid Ave., Pasadena, Calif. Miss Greening has devoted nearly thirty years to work with children who needed the help of one trained to understand their problems, and, although retirement was not easy, she has left workers trained to carry on what she was privileged to start.

G. EDMONDS MACKEY, Arts, is vice president and general manager of the Kansas City plant for Armour and Company. The Mackey home is at 6040 Mission Drive, Kansas City 15, Mo.

27 JOHN W. STONE, BS BA, is assistant superintendent of the Balsz School District #31, Phoenix, Ariz. The Stone residence is at 1626 Ventura Drive, Tempe, Ariz.

ELNORA C. SKOURUP, BS, is assistant secretary of the First Federal Savings and Loan Association of Pittsburg, Kan. Miss Skourup lives at 306 West Quincy in Pittsburg.

ROLLO E. SINGLETON, BS Agr., AM '30, is director of the Livestock Division, Missouri Department of Agriculture. Mr. and Mrs. Singleton live at 108 Parkhill in Columbia. Their son, Donald, and his wife, the former Priscilla Lott, also live in Columbia, where Don is currently enrolled in the University.

DANIEL R. NEAL, BS Ed., is administration officer for the Veterans Administration in North Little Rock, Ark. After graduation from Missouri, Mr. Neal completed a year of graduate work at the National Recreation School in New York City, then received his masters degree from New York University. He worked in municipal recreation in the East until World War II, when he accepted a commission in the Navy, serving as Welfare and Recreation Director at Charleston, S. C. for the duration. Mr. Neal then joined the Veterans Administration, and has continued in that work. He has also kept active in the Naval Reserve Program, and is now Director of the Naval Reserve Officers School in Little Rock, ranking as a Captain. Mrs. Neal is the former RUTH E. FISHER, BS Ed. '26, of Joplin, Mo. Their sons, Rodney, 21, a junior at Duke University, and Patrick, 18, a freshman at Mississippi University, are both in Naval ROTC. The Neal home is at 7704 Illinois, Little Rock.

28 LAWRENCE E. MAY, BJ, owner of May Printing Company in Rolla, Mo., has been elected lieutenant governor of Division 4, Mo-Ark District of Kiwanis International, for 1957. Mr. May's home address is 635 Salem Ave., Rolla.

Mrs. Earle A. Meyer, formerly NANCY FRAZER, BJ, now has a daughter, Nancy Lew Meyer, who is a freshman at the University and who plans to follow in her mother's footsteps and go into journalism work. Mrs. Meyer is editor of the Kirkwood (Mo.) Messenger, and is also active in the Kirkwood Theatre Guild. She is a member of the Board of Directors of that group, and has had two parts in their productions of the past few months. The Meyer home is at 317 N. Harrison Ave., Kirkwood 22, Mo.

BYRON H. BROWN is assistant district sales manager of Republic Steel Corporation's Cincinnati, Ohio, district sales office. This office handles sales of the complete line of Republic's steel products in Southern Ohio, most of Kentucky and portions of Indiana and West Virginia. Mr. Brown started with the company's Berger Division in Can-

CLASS NOTES

ton, Ohio, in 1928. From 1938 to 1943 he was district sales manager for Berger products in Kansas City, Mo. For the next 11 years Mr. Brown directed sales of Republic Steel products as resident salesman in Kansas City and in 1954 was transferred to Cincinnati as a salesman. Mr. and Mrs. Brown and three children live at 3731 West Street, Cincinnati.

29 JOHN J. STADTHERR, BS Ed., Training Director for The Pure Oil Company, 35 East Wacker Drive in Chicago, has been appointed to serve for a second term as chairman of the Training Committee of The American Petroleum Institute Division of Refining. He is also chairman of the 1957 Chicago Area Career Conference for high school students, an activity sponsored by the Illinois Institute of Technology, Technical Societies and the Chicago Sun Times. Mr. and Mrs. Stadtherr and three children, John III, Sylvia and Paul, live in Lombard, Ill., at South Craig Place.

THOMAS E. RODHOUSE, BS Eng., is acting manager of the General Electric high voltage laboratory. Mr. Rodhouse joined G. E. in 1929 as a test engineer. He worked on the planning project for the new transformer plant in Rome,

Georgia, for 1½ years, in 1953 was assigned to the salary administration project, and since 1954 has been manager of laboratory administration and personnel development. He is the author of several technical papers which have appeared in the GE Review. Mr. and Mrs. Rodhouse and four children live at 20 Noblehurst Ave., Pittsfield, Mass.

30 Col. SIDNEY D. FRAMPTON is assistant for Supply Operations at the U. S. Army Quartermaster Depot, Nahbollenbach, Germany. He entered the Army in 1929, and went to Europe in August, 1956, on his present tour of duty. Mrs. Frampton, formerly MARY E. JAMESON, AB '28, BS Ed. '32, accompanied him to Germany.

TALITHA R. GISLER, BS BA, AM '31, is assistant to the Comptroller of the University. Miss Gisler lives at 304 Dumas Apts., Columbia.

31 Dr. and Mrs. Louis G. Jekel went to Phoenix, Ariz., in 1938, where they live at 5525 N. Kay Drive. Dr. Jekel, dermatologist, is a graduate of Washington University in St. Louis. The Jekels have three children; Judith, a freshman at Wellesley, Louis,

Jr., a sophomore in high school, and Virginia, freshman. Their interests are connected with Girl Scouts, P.T.A., Visiting Nurse Board, and Medical organizations. Mrs. Jekel will be remembered as MARGARET ROARK, BS.

ELLA MAE JOHNSON, BS Ed., teacher and librarian, lives at 7357 Gayola, Maplewood 17, Mo.

PERRY L. MUNDAY, AB, eye, ear, nose and throat specialist, is located in Newark, Del., address: 249 West Main St. Mr. Munday, who continues to work out with the wrestling team of the University of Delaware, is a firm believer that wrestling should never have been discontinued at Missouri, since it has its place in college sports program particularly in the Midwest, where excellence in wrestling is traditional.

32 WILLIAM RAMLOW, BS Eng., is now with the United Nations as a mechanical engineer, being an advisor to the Engineering Industrial Project Board. His address is c/o Ministry of National Planning, Prome Court, Tank Road, Rangoon, Burma.

VERNON CARL MEYERS, BJ, is publisher of Look Magazine, 488 Madison Ave., New York City, N. Y.

CLASS NOTES

FREDERICK J. MARSTON, BJ, is presently a Department of the Army civilian on overseas assignment, GS-13. He returned to Japan in the spring of 1955, where he is residing in Tokyo, assigned to headquarters of the Far East Command. As Lieutenant Commander in the Naval Reserve, he had formerly been in Japan on active duty with the U. S. Navy 1945-46. In 1950 he was married to Patricia Cairns in Arizona and moved to the Washington, D. C. area, where they lived for two years in the narrowest two-story house in the U. S. on Queen Street in Alexandria, Va. (7½ feet wide, of Believe-It-Or-Not-Ripley fame). Col. and Mrs. Marston have three children; Lucie Lee, 5, Mary Anne, 2, and Barbara Cairns, six months. They plan to return in August to their permanent address at 100 Lee Avenue (Wellington), Alexandria, Va.

ROBERT KERMIT MOORE, BS Agr., AM '33, is a direct loan agent for the U. S. Veterans Administration in Kansas City, Mo. His mailing address is 1101 W. 77th St., Kansas City.

33 Mrs. Norris Phillips, of Milan, Mo., is the former Jane POOLE, BS Ed. Mr. Phillips is in the dry goods business in Milan, and Mrs. Phillips does substitute teaching in the high school there. They have three sons, Bill, Bob, and Tommy, and scouting is the order of the day. The two older boys plan to attend the Jamboree at Valley Forge this year.

Mrs. E. W. Lehnhoff, formerly LUCEIL WINKELMEYER, BS Ed., lives at Fort Scott, Kan., where Mr. Lehnhoff is in the lumber business. They have one son, Edward, who is a junior at Kansas University.

The former ELSIE KELLOGG, BS, is Mrs. Paul J. Parker, who lives at 930 Cherokee, Bartlesville, Okla.

34 N. G. STADTHER, BS ME, after 20 years with E. I. du Pont de Nemours & Co., resigned in 1955 and, with F. J. Kirk, of Kirk Molding Co., Clinton, Mass., formed The Nylon Products Corporation of Clinton. He is presently serving as plant manager. His mailing address is Lancaster, Mass.

CHARLES W. BALTHROPE, BJ, is manager and president of radio station KITE and KITE-FM, San Antonio, Tex., and is owner of KENN, Kennedy-Karnes City, Tex. Mrs. Balthrope is the former MARY VIRGINIA EDMINSON, BJ '35. They have a son who will attend S.M.U. next year and a daughter, 10 years old.

JAMES A. MCKAY, BJ, is advertising manager of the Galax (Va.) Gazette, a bi-weekly newspaper. He was previously employed with the newspaper at Franklin, Va.

FRANK G. HARRIS, Jr., LLB, on March 1 began as attorney in the claims department of the M.F.A. Mutual Insurance Company in Columbia, Mo. Mr. Harris has been in the private practice of law in Columbia. The Harris family lives at 605 W. Broadway in Columbia.

35 Mrs. David R. Boise, formerly MARY HELEN WOODS, BJ, of Kansas City, is living at 1629 Hollister Drive, Houston 24, Texas. Mr. Boise is an engineer, presently manager of Allis-Chalmers Manufacturing Company, Houston district. Mr. and Mrs. Boise have a son, 14, and a daughter, 12.

DAVID K. NEWMAN, AB, is editor of Motor Transport Shipping News, with offices in the Merchants Exchange Building, St. Louis, Mo. The Newman home is at 227 Gray Avenue, Webster Groves 19, Mo.

GEORGE S. BEIMDIEK, Jr., BS BA, insurance agent in Carthage, Mo., has been an active reserve officer since the end of World War II, and recently was promoted to the rank of colonel. He is now assigned to the 5108 USAR Control Group. In 1956 he completed the Special Associate Course of the Command and General Staff College at Fort Leavenworth, Kan. Also he has recently completed the Field Artillery series of the extension course program offered by the U. S. Army Artillery and Guided Missile School at Fort Sill, Okla.

ROBERT B. MALMO, AB, psychologist, was elected to the 1956 Commission of the Association for Research in Nervous and Mental Disease, and is vice president (representing Canada) of the Inter-American Psychological Association. Dr. Malmo lives at 1025 Pine Ave., W., Montreal 2, P.Q. Canada.

36 JAMES H. FAULKNER, BJ, candidate for governor of Alabama in 1955, is now the co-publisher of the Baldwin Times in Bay Minette, Ala.

DR. DONALD E. HAYDEN, AB, AM '37, has been appointed dean of the college of liberal arts at the University of Tulsa. Dr. Hayden earned a Ph.D. degree from Syracuse University in 1946. Before going to the University of Tulsa, he taught English at Syracuse and headed the English department at Westbrook Junior College. At the University of Tulsa Dr. Hayden was a professor of English and the assistant dean of liberal arts.

NEVIN M. BLACK, BJ, is city desk reporter for the Tulsa Tribune. Mr. Black served more than thirty-nine months in the Air Force during World War II and was city editor of the Newkirk Herald Journal in Newkirk, Okla., before he moved to Tulsa. Mr. and Mrs. Black are now living at 4327 S. St. Louis Ave., Tulsa, Okla.

T. A. DUCKWORTH, '36

T. A. DUCKWORTH, LLB, personnel director of Employers Mutual of Wausau, Wis., since 1944, has recently been appointed secretary of the firm. Mr. Duckworth, who joined Employers Mutuals in 1936, is a member of the Missouri and the Wisconsin Bar Associations, and has served in the Employers Mutual legal department. The new secretary, who will continue to administer the firm's personnel department, is a founding member of the American Society for Personnel Administrators. He also is a member of the Governor's Commission (Wisconsin) on Human Rights, the Labor Relations Committee of the Wisconsin State Chamber of Commerce, and the publicity committee of the American Mutual Alliance. Mr. Duckworth is married and has three daughters.

RICHARD F. BOEHME, BS ME, is now working as project engineer for the Lockheed Aircraft Corporation in California. He is living at 427 So. Hobart Blvd., Los Angeles 5.

37 KENNETH SIMMS, BJ, is managing editor of the San Diego (Calif.) Tribune. JUSTIN HAMMOND, BJ, is publisher of the Corona (Calif.) Daily Independent.

HOMER J. L'HOTE, BS Agr., AM '40, is administrative assistant to the Dean and Director of the College of Agriculture. The L'Hote family lives at 103 Stewart Road in Columbia, Mo.

DON DOOLIN, formerly of Trenton, Mo., is teaching in the high school of Bakersfield, Calif., and has recently been elected vice-mayor of that city. This is the first time in the history of Bakersfield that they have had both a mayor and vice-mayor. Mr. Doolin has been on the city council since April, 1955. Mr. and Mrs. Doolin have two children, Gary and Diana.

“Telephones are ubiquitous?”

“Yes, telephones are ubiquitous”

Robert Day, the well-known cartoonist who drew this picture, was a little afraid there might be some people who wouldn't know what we meant by ubiquitous. “It's a pretty big word,” he said.

“Don't worry,” we told him. “We'll just put in a little reminder that the dictionary says ubiquitous means ‘existing or being everywhere at the same time.’”

There's surely no better way to describe telephones! They're not only in millions of homes and offices but just about everywhere you go. In stores and at gas stations! At airports, bus depots and railroad stations! Out-of-doors!

Throughout the country, there are hundreds of thousands of these public telephones for your convenience.

So the next time something comes up when you're away from home or the office, or there's some news you'd like to share with someone, just step up to one of those nearby telephones and call.

You can save yourself a lot of running around, be a number of places in a few minutes, and get things settled while they are fresh in your mind.

Working together to bring people together... **Bell Telephone System**

CLASS NOTES

38 ED H. JOHNSON, AM, is a professor of journalism and head of the department at the University of Tulsa in Oklahoma. Mr. Johnson joined the TU faculty in 1948, coming from the faculty of South Dakota State College.

NEWCOMB C. SMITH, BS Agr., AM '41, has just completed a 14-week insurance course with Actna Insurance Group in Hartford, Conn. Mr. Smith, formerly on the staff of the College of Agriculture, joined the Actna group in 1950, and is a special agent in North Missouri, with headquarters in Kansas City. His residence address is 112 S. Ann in Columbia.

39 GORDON H. DRAKE, AB, AM '41, has a clothing and dry goods store in Warsaw, Mo. Mrs. Drake, formerly ELIZABETH McCRAW, BS Ed., '42, was Home Agent of Benton County for nine years, resigning last June to devote full time to daughter, Nancy Elizabeth, now three years old. The Drakes live in Warsaw.

W. R. LAKE, BS BA, is a salesman for Atlas Boxmakers, Inc., of Chicago. He transferred to the Chicago branch last year, after working for the Alton Box Board Company in Alton, Ill., since 1946. Mr. and Mrs. Lake and two children, a daughter, 11, and a son, 7, live at 4505 Washington, Downers Grove, Ill.

WILLIAM R. ROBBINS, BS Agr., in January was elected a director and the vice president of Farmers Mutual Insurance company of Columbia, Mo. Born in Grundy County, Mr. Robbins worked several years after graduation in public relations with the Production Credit Corporation. He started with Farmers Mutual in 1946, after doing military service in the Marines, and has worked in many parts of the state. Prior to this appointment, he was a director of the Grundy County Farmers Mutual Fire Insurance Company. Mr. and Mrs. Robbins and two daughters, Meredith and Marcia, live in Trenton, Mo.

DOUGLAS LOVELACE, BJ, is a regional membership executive for Associated Press at Louisville, Ky., and has Ohio, Kentucky and Indiana as his territory. He joined A.P. service in 1943, after working on the Blackfoot (Ida.) Daily Bulletin. Later he was assigned to Honolulu and San Francisco bureaus before being transferred to the New York foreign desk, and, more recently, to the membership department.

MILTON B. KIRBY, LLB, is a practicing attorney in Springfield, Mo. Mr. and Mrs. Kirby have three children, Colin, 14, Susan, 9, and Bruce, 7, and their home is at 1601 South Delaware, Springfield.

40 ROBERT WALDORF, AB, has been named football coach at Western Maryland College, Westminster, Md., effective July 1. He

has been coaching at Washington-Lee High school in Arlington, Va., the past few years. Last year his team was undefeated. His present address is 1112 N. Sycamore St., Falls Church, Va.

BENNETT L. HAUENSTEIN, BS Agr., is assistant vice president of the Federal Intermediate Credit Bank of St. Paul, Minnesota, where he is in charge of the credit handled by the bank from Michigan, Wisconsin, Minnesota and North Dakota. Mr. Hauenstein accepted this position early in 1957, after spending nearly nine years as manager of the Production Credit Association in Freeport, Illinois. His Minnesota address is 1821 Asbury St., St. Paul 13.

CHESTER CALVERT, AM, is State Supervisor of Public Schools, N. E. District, Mo. Mr. and Mrs. Calvert live in Shelbina, Mo. Active in Phi Delta Kappa honorary educational fraternity and in the Methodist Church of Shelbina, Mr. Calvert also finds time for golf, quail hunting and for vacations in Estes Park, Colo. Their daughter, Sherry, is a freshman at the University.

JACK FOX, BJ, recently traveled across the country making a survey to learn trends among high school-age boys and girls, and has written an article about their dating habits for the United Press. Some of the cities visited for the survey were San Francisco, Miami, Dallas, Boston, Kansas City, Madison and Atlanta. Some summaries he gave are that teenagers like "going steady," the stag line at dances is gone, and that the "one lad" idea is to give a feeling of security.

HOWARD L. DAVIS, AB, writer and television director, has been one of the two directors of the Dave Garroway show, for several years wrote and directed the popular "Howdy Doody" show for children, and in January presented his full-length television play, "Realms of Gold." Virginia and Roy Talbert of Canton, Ohio with their prize-winning cocker spaniel Bunny. (See column one).

ACTION SHOT OF FOUR
NEW ENGLAND LIFE AGENTS

It was contagious at Stanford (and we couldn't be happier!)

Seven years ago, a Stanford graduate joined New England Life at our branch office in Palo Alto, California. Six months later, another Stanford man arrived. Then, within three years, two other Stanford stalwarts were saying, "Move over, fellows."

We're all in favor of this kind of "contagion." Especially when New England Life ends up with a congenial quartet like this: (left to right, in photo) Jack Martinelli ('48), Earle Patten ('49), Joe Pickering (Bus. School '50), Dave Hoffman (Bus. School '51). These men have made fine progress together, too. All have qualified for membership in our Leaders Association — the company's top production club.

What made them decide on New England Life? Jack: "... looked into other life companies, but liked what New England Life had to sell." Earle: "... like the comprehensive and personalized training." Joe: "... impressed by the company's outstanding reputation in the business and financial community." Dave:

"... a quality company and I wanted to be in business for myself."

There's room in the New England Life picture for other ambitious college men who meet our requirements. You get income while you're learning. You can work almost anywhere in the U. S. A. Your future is full of sizable rewards.

You can get more information about this career opportunity by writing Vice President L. M. Huppeler, 501 Boylston Street, Boston 17, Mass.

A BETTER LIFE FOR YOU

NEW ENGLAND

Mutual **LIFE** *Insurance Company*

Frank T. Krentz, '47, Portland, Ore.
James O. Jones, '50, Dallas
Alfred A. Gelfond, '51, Newark
William G. Sullivan, '56, Minneapolis.

Ask one of these competent men to tell you about the advantages of insuring in the New England Life.

Currently attached to Airborne Early Warning Squadron 12, a part of Airborne Early Warning Wing Pacific, are three alumni of the University. They are Lt. (jg) THOMAS F. HENDERSON, BJ, Ensign JAMES H. BARRE, BJ, and Ensign ROY KENNISH, AB BA. Lt. Henderson is a pilot, Ens. Barre a Naval Air Observer, and Ens. Kennish a navigator. This Wing is an extension of the Distant Early Warning—DEW—line of radar stations across northern Canada and Alaska, bringing radar protection from the Aleutians across the Pacific Ocean to the Hawaiian Islands. Based at NAS Barbers Point, just outside of Honolulu, Hawaii, it will patrol the area on an around-the-clock basis in the new Lockheed WV-q Super Constellation "flying radar station." Their address is AEWRON 12, Navy 14, FPO, San Francisco, Calif. Ensign Barre uses 5722 No. Country Club Blvd., Little Rock, Ark., as a permanent address.

JAMES H. BARRE, '55

56 CLARIBELL LOU GALLIVAN, BS HE, missionary for The Methodist Church, is now at work in rural Cuba. Prior to January 1 she studied Spanish in Costa Rica, and toured the island of Cuba for one week before beginning her work in Santa Rosa. She is living at Apartado 105, Jovellanos, Cuba.

CHARLES W. BELL, BS BA, of Columbia, has been awarded an institute fellowship at the Wharton graduate school of the University of Pennsylvania, where he is working toward a master's degree in governmental administration.

Dr. C. R. NETHERTON, DVM, who has been employed as a veterinarian at Hardin, Mont., by the U. S. government, early in January purchased the practice of Dr. STEWART H. BOELSEN, DVM '51, in Albany, Mo. Dr. and Mrs. Nether-ton and two daughters, Linda, 9, and Janet, 7, moved to Albany in January. Dr. Boelsen, who is now in government employ, has returned to Columbia, Mo., and lives at 205 Second Avenue in Columbia, Mo.

H. WILLIAM CURLEY, B, of Liberty, Mo., has accepted permanent assignment in the Secretary's division of Cities Service Oil Co. (Del.) in Bartlesville, Okla. He has completed approximately eight months of training in the company's college graduate training school. Mr. and Mrs. Curley and two children are living in Bartlesville.

ROBERT A. NEJD, MS, who received his bachelor's degree at the University of Illinois, has joined the staff of the Whiting Research Laboratories of the Standard Oil Company (Indiana).

CLEVA LITTLE, M.Ed., joined the staff of the Liberty (Mo.) high school in January. She is guidance director and is teaching classes in citizenship and personal problems. Miss Little, a graduate of S.W. Missouri State College, has had nineteen years experience in school work.

SALLY COHEN, BJ, is employed by the American Broadcasting Company in Chicago. She is in the press information, publicity and continuity department.

JARED R. CONE, BJ, has joined the sales department of Monsanto Chemical's Organic Chemicals Division in St. Louis.

OSCAR E. NUNN, Jr., BS BA, is an industrial sales representative with Armstrong Cork company, and is now taking their training course at Lancaster, Pa. MARVIN W. COONS, BS Ed., is teaching science and history in the high school at DeSoto, Mo.

RONALD MORRISON, BJ, is a member of the news staff of the Sentinel at Cortez, Colorado.

QUENTIN S. KING, BJ, is working for the Republican National Committee in their public relations department. His address is 2018 F. St., N.W., Washington, D. C.

DON MOBLEY, BS Agr., is an assistant agricultural agent in training in Chariton County, Mo., with headquarters in Keytesville.

CHESTER L. DAVIS, BS EE, has taken a position as examiner in the U. S. Patent Office in Washington, D. C. Mr. and Mrs. Davis and daughter, Paige, are living there, and he is continuing his law studies at George Washington University.

BOB SELLS, BJ, is manager of the publicity department of the Chamber of Commerce in Port Arthur, Texas. His address is 650 Waco Ave., Port Arthur.

ROBERT S. PATTON, BJ, is working with the photo department of the Dallas Times-Herald, and also with the photo department of United Press in Dallas. His address is 2523 McKinney St., Dallas, Tex.

RUTH KRISCHEL, BS BA, of Stockton, Mo., is employed by the MFA Insurance Company in Columbia, Mo.

WEDDINGS

48

Miss Dorothy Louise Pressgrove of Charleston, Miss., and GILBERT GLEN SCHADE, BJ, of Jackson, Miss., on February 16 in Charleston. The former Miss Pressgrove attended business school in Memphis, and until recently was employed as secretary at the Benswanger & Co. there. Mr. Schade attended State College in Cape Girardeau, Mo. He is now employed with the Mount Vernon Gardens in Memphis, where the couple are living.

Miss Ethel Joan Bartlett of Kansas City, Mo., and FRANCIS SEARCY RIDGE, also of Kansas City, on February 2, 1957. Mrs. Ridge is a graduate of Bennett Junior College, Millbrook, N. Y., and Southern Methodist University.

49

Miss Jeanne R. Heikkinen and RALPH BARNETT, JR., BS BA, on February 2 in Whittier, Calif. The former Miss Heikkinen is a graduate of Whittier College. Mr. BARNETT is now employed as a senior administrative assistant to the Los Angeles County Assessor. The couple are living at 1526 S. Del Mar Ave., Apt. A, San Gabriel, Calif.

50

Miss Joanne Peterson of Scottsdale, Pa., and HARVEY E. DIEKROEGER, Jr., BS BA, on December 29 in Scottsdale. Mrs. Diekroeger is a graduate of Indiana State Teachers College and is now employed as a teacher at Roberts Elementary School at Pittsburgh. Mr. Diekroeger is working as a research analyst for the D'Arcy Advertising Co. in St. Louis, where they are now living.

51

Miss Catherine Joan Fahey of Carteret, N. J., and Dr. JAMES A. GALLAGHER, AM, Ph.D. '55, of Kirkwood, Mo., on February 16 in Carteret. The former Miss Fahey attended the Washington School for Secretaries. Dr. Gallagher has a BS degree from St. Louis University and is now employed as a chemist in research and engineering in Linden, N. J.

Miss Patsy Ann Combs of Kansas City, Mo., and GENE HACKLEY '51, of Lee's Summit, on January 20. They are now living at 929 Jefferson in Kansas City where Mr. Hackley is employed in the advertising department of Spencer Chemical Co.

Miss Susan Smith and KARL E. BUBLITZ, BS CE, of Kansas City, Mo. The former Miss Smith attended the University of Kansas. Mr. Bublitz is now working as a construction machinery salesman in Kansas City, where he and Mrs. Bublitz are living at 423 E. 63rd Terrace.

ELIZABETH BRYANT, BS Ed. '52, of Denver, Colorado, and David K. Gillogly on June 23, 1956. The couple are now living at 101 E. Maple, Denver, Colorado.

Miss Betty B. Simmons of Boonville, Mo., and BILL B. FRENCH, BS Agr., of Independence, on December 22 in Boonville. Mrs. Simmons is a Boonville High School graduate and has spent the past two years as a stewardess in the United States Air Force. They are now living at 10612 E. 24th St., Independence, Mo.

Miss Joyce Irene Pucser of St. Louis, Mo., and JAMES PHILLIP HAYES, LLB, of Syracuse, N. Y., on November 11, 1956. Mrs. Hayes is a graduate of Washington University School of Law. They are now living in St. Louis.

Miss Mary Eugenia O'Brien, of University City, Mo., and DANIEL ROBERT BECKER, Jr., of Ferguson, on February 23 in St. Louis. Mrs. Becker, a graduate of Washington University, was formerly an airline stewardess, and is currently a teacher in Fern Ridge School. They are living in St. Louis.

55

JANE MORGAN, BS Ed., of Kansas City, and STANLEY A. GRIMM, Farley, Mo., on February 1 in Kansas City. Mr. Grimm is continuing his studies toward a law degree at the University.

Mrs. Doris Marie Bliss and RICHARD M. COTTAM, BJ, both of Columbia, on February 23 in Webster Groves, Mo. Mr. Cottam is news director at Station KFRU and an instructor in the University School of Journalism. They are living at 1403 Liberty St. in Columbia.

MARLENE SYLVIA RADECKE, BJ '55, of St. Louis, Mo., and George Stanley Hall, also of St. Louis, on February 23. Mr. Hall is a graduate of the Augusta Military Academy and of the Virginia Polytechnic Institute, where he served as chapter president of the American Institute of Industrial Engineers. The couple is now living in Charleston, S. C., where she is television director for an advertising agency there, and Mr. Hall is an engineer with a chemical corporation.

PHYLLIS BURKS of Clayton, Mo., and TEDD J. HANSEN II, of University City, on January 5 in Boonville. Mrs. Hansen is a former airline hostess. Mr. Hansen is now employed by the Chevrolet Division of General Motors Corporation in St. Louis. They are living at 437 Clark Ave., Ferguson 20, Mo.

56

BONNIE WALTERS, BS Nurs., and ROBERT B. LEWIS, both of Lebanon, Mo., on February 3 in Lebanon. Mr. Lewis is continuing his work toward a degree in political science and education at the University, and they are living at 602 Providence in Columbia.

57

Miss Peggy Ann Carr of Centralia, Mo., and ROBERT JOE TANNER, also of Centralia, on March 2. Mrs. Tanner is a graduate of Centralia High School and is employed as a secretary to Jayne & Jayne, attorneys, in Kirksville, Mo. Mr. Tanner is now attending school at Northeast State College.

Miss Janet Marie Reynolds of St. Louis, Mo., and DALE WESLEY MARPLE of Newcastle, Wyoming, on March 2 in St. Louis. Mr. Marple has been commissioned a lieutenant in the Army and will report to Fort Benning, Ga. for duty in June. Until then the couple will live in St. Louis.

Miss Virginia Ann Keller of King City, Mo., and DICKSON E. KREBS, BS ME, of West Orange, N. J., on February 10, 1957. Mrs. Krebs graduated from Stephens College in Columbia and is now a senior in the University of Missouri. They are now living in Pensacola, Fla.

In Memoriam

Miss MYRTLE KNEPPER, BL '98, AM '00, formerly of Cape Girardeau, Mo., early this year in Lincoln, Nebr., where she made her home with her sister, Miss Gertrude Knepper, of 1992 Park Ave. Miss Knepper, professor of mathematics, was on the faculty of Missouri State College in Cape Girardeau for 39 years, and retired from that position in 1942. Another sister, Miss IDA KNEPPER, Pe.P. '88, was also a mathematics teacher. Miss Gertrude Knepper was a home agent in agricultural extension work for several years.

RICHARD M. RYAN, '05, prominent attorney in Hot Springs, Ark., on Feb. 20 at his home in Hot Springs. He was born in Mt. Vernon, Mo., and was an attorney for the Missouri Pacific Railroad. Mr. Ryan served as chairman of the Garland County Republican Committee for 23 years, and as a Southwest Conference football referee.

JAMES F. ROOKER, BS EE '12, who retired in 1952 from his work with Westinghouse Electric Company, passed away on Christmas Eve, 1956, at his home in Swarthmore, Pa. Mrs. Rooker, of the home at 704 Hood Road, and a son survive.

MARCY KENT BROWN, AB, '13, lawyer and former assistant city counselor of Kansas City, on March 4 at his home

at Lake Lotawana. Mr. Brown, who had lived in Kansas City all his life, began his private law practice there in 1939. He was an active member of the Kansas City and of the Missouri Bar associations, and of Masonic organizations. His wife, Mrs. Thelma Brown, of the home, and a son who is an engineer for Imperial Chemicals, Inc., England, survive.

HARRY D. GUY, '13, advertising director of the Dallas Morning News and nationally-recognized authority on merchandising and advertising, died at his desk on March 14, 1957. Mr. Guy, recipient in 1954 of the University's Missouri Honor Award for Distinguished Service in Journalism and a speaker at the Journalism Week activities at that time, was a long-time participant in alumni activities and interests. He was

HARRY D. GUY, '13

a past-president of the M. U. Journalism Association, and also of the Dallas M. U. Alumni Club. He had been with the News since 1913. He is survived by Mrs. Guy, of the home at 5511 Stonegate in Dallas, and a brother, Lemuel P. Guy, of Liberty, Mo.

FRANK H. HOLCOMB, '13, owner of the Holcomb Machine Works in Poplar Bluff, Mo., on March 3 after an illness of four months. Born at Bloomington, Ill., Mr. Holcomb also lived at Decatur from 1913 to 1920, where he was chief electrician on the Wabash Railroad. He was a resident of Butler County in Missouri for 60 years. Survivors are Mrs. Holcomb, one son, Frank W., and a daughter, Marguerite Elizabeth, all of Poplar Bluff.

CLINTON COLLINS, AB, BJ '16, resident of the state of California for 25 years, on March 7 at the home of a sister in St. Joseph, Mo. Born in Lathrop, Mo., he was a three-year football letterman at the University just before World War I. Survivors, besides the sister, Mrs. Gordon Douglass of St. Joseph, include four brothers.

CLARENCE EVERETT STARK, AM '29, office manager of the Farmers Insurance Group at 741 Ann, Kansas City,

Kan., at his office on March 7. Mr. Stark formerly was superintendent of schools at Camden and Cleveland, Mo.; high school principal at Kearney, and a high school instructor at Moberly, Windsor, Westboro and Knob Noster, Mo. He left the teaching profession in 1943 to become an electronics instructor at the Pratt-Whitney plant. Mrs. Stark, of the home at 2427 Lawn, Kansas City, and two sons, Clarence D. Stark, 436 East Sixty-sixth, North, and James Robert Stark, 6411 North Campbell, survive. There are also five grandchildren.

Mrs. James McCully, who was JESSIE E. TAYLOR, BS Ed. '35, recently in her home town of Dixon, Mo. Mrs. McCully, a teacher and principal in the Dixon grade school for 27 years, had retired in 1947. Her husband, the late Dr. McCully, was a practicing physician in the community for many years. Two children, Mrs. Earl Crane of Dixon, and James P. McCully of Shrewsbury, St. Louis County, survive, also two grandchildren and one great-grandchild.

JOHN A. HARP, Jr., AM '36, former Carthage, Mo., high school principal, on January 4 in Jefferson City. Mr. Harp, who received his bachelor's degree at Western Maryland College, had served as principal in the schools of Unionville, Louisiana and Liberty, Mo., before going to Carthage in 1947. He was active in vocational guidance programs in the schools, had published articles on public relations in the community, and was active in service, business and civic organizations. His wife, Mrs. Leona Rose Harp, and a son, John, III, survive. Their home is in Carthage.

CARL WILLIAM BUDDEMEYER, Jr., '50, former Columbian, on January 19 in a plane crash near Waco, Texas. He was a radar technical representative for the Bendix corporation, and was living at Randolph. Mrs. Buddemeyer is the former VELMA JEAN TIMM, AB '50, of Springfield, Mo. Mrs. Buddemeyer and three children survive.

G. L. (Kelly) PELTS, BS Ed. '50, head basketball coach at Perryville (Mo.) high school the past two years, on February 20 at DePaul Hospital in St. Louis, at the age of 32. He had been a patient there since January 15 and had undergone brain surgery for tumor on January 29. At the University he lettered three years in track, and was an outstanding shot putter and discus thrower. After graduation he coached basketball at Steelville, Mo. for four years, winning two conference championships. He is survived by his wife, the former Mary Jameson of Jefferson City, and three children, who are 6, 4, and 2 years of age.

FRED V. BROWN, AB '55, on February 8 in Kansas City, a victim of Hodgkin's disease. Born in Springerville, Ariz., Mr. Brown had lived at Mountain View, Mo., and was a science teacher at the Ruskin Junior High school in Kansas City during the present school year. Mrs. Brown, of 1403 West Short Ave., Independence, Mo., survives.

SABBATICAL IN GREECE from Page 5

Gwatin took the Summer Session students around rather widely and then, as part of the work of the first year students, the regular students spent thirty-four days in bus trips to the major spots in Greece. The Gwatkins also got in a trip to the Greek Islands. "We shall never forget that trip," he said. "And as a kind of last fling we took a trip around the chief American excavations now going on in Greece."

The most important trip, though, was one to northern Greece, where Dr. Gwatin traced the lines of march of the armies of the Roman generals Caesar and Pompey in 48 B.C. "I think I know a little something now about what those generals were trying to do," he said. Upon study he has come to the conclusion that Caesar wrote up the account of the culminating battle, Pharsalus, in a careless fashion, and gave the arrangement of the troops of his opponent in just the reverse order.

"At least, it and some other problems of the battle are worth thinking about, and I have just read proof on an article in which I am expounding my views. I presented them to the American Philological Association last Christmas."

Currently Dr. Gwatin is making plans to concentrate upon a study of a Roman province in central Turkey. He is the recipient of a summer research fellowship from the University under the auspices of the University Research Council. It will mean sticking to the books almost all the time in the Princeton University Library where, thirty years ago, he worked out a monograph on Cappadocia in the predecessor library at Princeton. "Many things have happened since then, and I had three weeks in the territory last year," he said. "I am hoping to get something worked out that will bring my work on the Roman province up to date."

Dr. Gwatin tells of an interesting experience while traveling in Turkey:

"In an attempt to get the use of a jeep to reach an ancient site I approached an American engineer who had just come into the

little hotel at Kayseri. I didn't get the jeep, but it turned out that the engineer was an M. U. graduate. He is Robert William White, B.S. in C.E. '50, formerly of Old Greenwich, Conn. He is now located at Sivas, Turkey. I also tried but failed to get in touch with a prominent Turkish engineer, Vejdi Diker, who graduated in the mid-thirties and was honored by the College of Engineering a few years ago."

Professor Gwatin recalled that one of the most interesting things took place while he was away on a trip.

"Mrs. Gwatin was able to have as our guest the granddaughter of our own Walter Miller, the first Dean of the Graduate School at the University. I am very proud that I held the annual professorship just thirty years after he held it. But he had been there as a young man, and was the excavator of one of the earliest theaters excavated in Greece, the one at Thoricus. On one occasion, Mrs. Gwatin and Dr. Miller's granddaughter, Mrs. Marjorie Crowe Whitner, had a picnic, using the theater as a setting."

EVA JOHNSTON from Page 18

Some of us had never been much more than a hundred miles from little towns or farms where we were born, and she stretched our horizons."

On her return from Koenigsberg, she brought back a talented German artist, Miss Gertrude Heinrici. It was "Trudy" who painted the portrait that now hangs in Eva Johnston Hall. For a number of years—until Miss Heinrici returned to Germany shortly before her death—the two women shared the house Miss Eva built at 1324 Wilson. Her sister, Mrs. Elvira Ellis, lives there now, but the house still contains many furnishings from Europe and several of Miss Heinrici's paintings. Former students recall the parties there—and the cookies Miss Eva baked—for students were always welcome, and she took a special interest in entertaining girls away from home.

It was in 1912, when Miss Eva was in Europe on another leave of absence, that she was appointed

adviser of women. Her travels had taken her to France, Germany and Italy. The trip was not primarily for study, she said then, but she did some work in Goettingen with a professor noted as an authority on Plautus. The position of adviser of women, created in 1903, had first been held by Miss Mary Elizabeth Lewis, then by Miss Mary Bidwell Breed. When the latter resigned, Miss Eva accepted the appointment and returned to take on her new duties.

By then, there were more than 200 regular faculty members. Women students were admitted to all departments (except Military Science and Tactics, of course) and numbered about 600 in the total Columbia enrollment of some 3,000. Read Hall, lodging 32, was the sole women's dormitory.

"My new work was most interesting," Miss Eva once said. "It was hardest, of course, during the war and the influenza epidemic when affairs were naturally in an unsettled state."

In 1923 she resigned the deanship and returned to full-time teaching as an associate professor and later a professor. Although she retired in 1933, she kept a close association with the University, did part-time work until 1935 and was made professor emeritus of Latin in 1939.

"Dr. Johnston," one professor said after her death, "will ever be regarded among scholars as a real classicist and one of the finest teachers of Latin this University ever had." But students learned far more than a language from her. One alumna wrote: "She taught, unconsciously, simplicity of life, to love things but not be centered by them, not to confuse gracious living with expensive living."

It was an appreciative alumna who started a movement, when Miss Eva retired as dean, to raise funds for an oil portrait. A St. Louis artist, Warren Ludwig, was engaged, and the portrait was presented to the University in connection with the dedication of Memorial Tower and Stadium in 1926. This is the painting that now hangs in the library reference room.

Friends remember her as a tall, quiet but adventuresome person—and always with a keen sense of humor, a ready wit that made her

the delight of any social occasion. Her sister, Mrs. Ellis, describes her as always dignified, always seeing the humorous side of a situation—even the humorous side of herself, for she laughed at her absent-mindedness. If Miss Eva was present, there was sure to be one of her amusing stories about learning to drive her model "T" Ford or riding a camel in Egypt. Despite a heart disease in her later years, she stayed young in spirit and still managed an occasional tour—one of the Mediterranean when she was 74.

In addition to teaching and her duties as dean, she found time for a number of local and national organizations. She was one of the founders of the National Association of Deans and was elected to honorary life membership when she resigned the position here. She helped found the Faculty Women's Club, and belonged for 36 years to the Fortnightly Club. One of a small group who organized the Columbia branch of the A.A.U.W. in 1907—when it was known as the Association of Collegiate Alumnae—she became its first president, was a member for 36 years and served as University counselor for the national organization.

Several faculty members will remember the dinner at the Tiger Hotel honoring Miss Eva when she retired in 1935. Many more will recall the occasion in June, 1951 when Eva Johnston Hall and Sarah Gentry Hall were named for two of the earliest women graduates who had outstanding careers in the field of education—when the name of a woman who supervised a lone dormitory lodging 32 women was given to an impressive modern building housing 316 students.

PENNEY'S GIFT from Page 3

1,000 pounds of butterfat. Her production records average 15,631 pounds of milk and 810 pounds of fat. (The average U. S. cow produces 5,500 pounds of milk and 220 pounds of butterfat annually). She is a great brood cow with more than a dozen progeny to date.

Lawrence Rainey, Guernsey breeder with many years of experience, is superintendent of the farm. He was brought to the University by Mr. Ragsdale after the dispersal

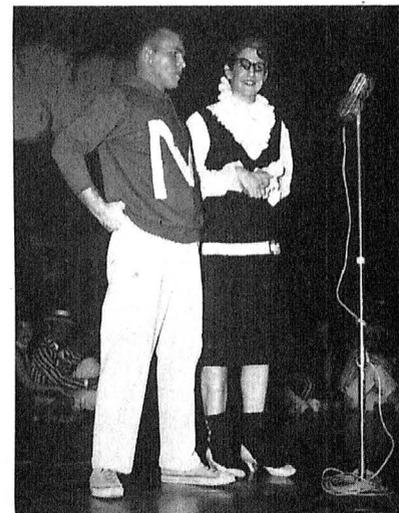

of the St. Alban's (Mo.) herd. With Mr. Rainey came four other men who now form the nucleus of his crew. They are Bryan Lail, herdsman who has been with Rainey eighteen years; Ernest Schmitz, milker; John Lynch, milker and assistant herdsman; and Wilbur Cowan, milker.

Buildings for the herd include the central milking unit and milk house, test cow barn, loose housing barn, three hay feeding sheds, a maternity and hospital barn, young calf barn, older calf barn, heifer barn, bull barn, machine shed and well house.

The University built four new residences on the farm and remodeled three old ones for employees. The overall layout is modern and attractive in appearance.

Frolics Winners

Sell-out crowds again saw this year's edition of the Savitar Frolics, presented in three performances in Jesse Auditorium. Fraternities and sororities collaborated on four skits, the winner being "Of Moose and Men," by Kappa Alpha Theta and Sigma Nu. From the cast came

John Wheeler, Jean Ainsworth

the best actor and best actress—John Wheeler as a former football hero and Jean Ainsworth as a dean of women type. Proceeds of the show help defray cost of printing the Savitar. A month after the stage show, portions of "Calypso Carnival," by Pi Beta Phi and Alpha Tau Omega, were presented over the University's TV station, KOMU.

put into action. Once the season starts these scrimmages will be eliminated altogether.

The new men in the picture are all as different as their appearances. Head coach Frank Broyles is the fastest talking southerner north or south of the line when he's working with one of the specific groups, and his pet phrase "You've got to move" fits right into the pattern. By comparison defensive coach Jerry Claiborne is quiet, but he's intense and demanding as he shouts at the defensive backs to "sprint that ball" after they intercept it.

"Get tough" Jim Mackenzie, who only wants the impossible from the defensive linemen, is complemented by soft-spoken, good-natured Merrill Green, who sympathizes with the offensive backs who won't be able to play despite their ability

because "We don't play football if we fumble."

Baseball

It isn't often that a team with only two returning regulars is installed as the pre-season favorite . . . but that's the case with this season's edition of the Missouri baseball team.

Of last year's second place team, only Captain "Butch" Hankins, the left fielder, and short-stop Paul Stehr are back on hand as hold-over regulars.

How can this depleted squad open play as conference favorite? Here are some of the reasons:

Two .300 hitters from previous Tiger squads will be back in action: Jack Davis, who was a star on the '55 squad, but who broke his ankle last year, and Ray Uriarte, a service returnee from the '53 squad, will be back at center field and third base respectively.

Two other ex-GI's, "Dib" Hill at first base and Lee Kiefer, have beaten out incumbent, lettered reserves.

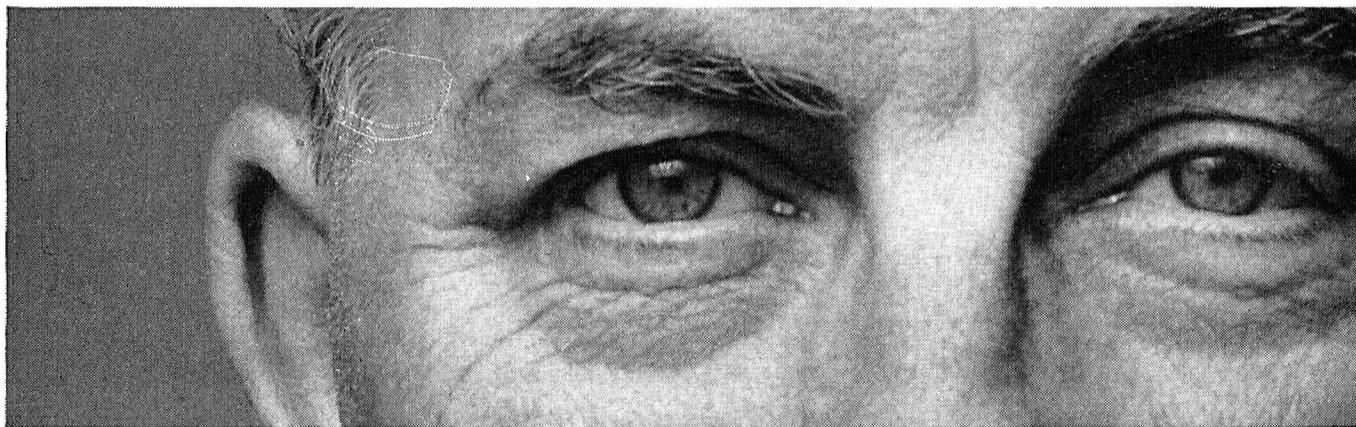

The two fine sophomore half-backs (featured on the cover of the November *Alumnus*), Charley James and Hank Kuhlman, appear to be equally adept on the diamond, and are by-passing spring football for starting roles in right field and behind the plate.

Add to this talent the coaching acumen of "Hi" Simmons, molder of six conference champions, and you have a pretty sound outfit.

The only big question mark is the pitching staff, but according to Hi that's 50 to 75% of the game. Of the pitchers only Wade Ladue and Doug Gulick worked enough to earn an "M" last year. Sophomores Bob Cooper and Don Miller, and holdovers "Skip" Schultz, Ernie Nevers and Glen Weaver hold the balance of power.

JEAN MADDEN

Are your chances against cancer any better today?

The answer's yes . . . IF. A few years ago we could cure 1 in every 4 cases. Today, we're doing better . . . 1 in every 3. So . . . why that big IF? Because the odds against cancer depend on YOU.

Only YOU can give us the time we need . . . the head start we need to lick cancer before it gets hold. Only you can look for the 7 danger signals . . . dash to your doctor if you spot one . . . and no matter how well you

feel, come in for an annual checkup. Only you can save your life . . . by checking with your doctor in time! Only YOU can give us the money we need. Money for research, money for service to help ease pain and bring comfort to needy patients, money to save lives by alerting the public to vital facts about cancer.

AMERICAN CANCER SOCIETY

FIGHT CANCER WITH A CHECKUP AND A CHECK!

She Helped a Burglar make his Getaway

*Her home was in a part
of the city where anything
could happen*

WAKING ONE MIDNIGHT, she surprised a burglar in her room. As he leapt for the window, she stopped him. "You'll be hurt. Go down by the stairs and let yourself out."

Calm, kind, and acutely intelligent, she had long ago learned to stay human in emergencies—by living where emergencies were routine, in the heart of one of Chicago's poorest immigrant neighborhoods.

Here she had settled down to her life work—helping people. No sociologist or social worker, she left it for others to make this a science. To her, it was an art. An art she practiced so beautifully that, eventually, while she was loved around Halsted Street, she was admired around the world.

When, in 1935, Jane Addams of Hull House died, her little grandniece, seeing hundreds of children among the mourners, asked, "Are we all Aunt Jane's children?"

In a sense, we all are. For the work Jane Addams did and the lessons she taught still help us all. And they prove magnificently the fact that America's greatest wealth lies in Americans.

It is the character and abilities of her people that make this country strong. And it is these selfsame people who make our nation's Savings Bonds one of the world's finest investments. For in U. S. Savings Bonds your principal is guaranteed safe to any amount—and your interest guaranteed sure—by the government that represents the united strength of 168 million Americans. So for your family's security, buy Savings Bonds. Buy them at your bank or through the Payroll Savings Plan at work. And hold on to them.

PART OF EVERY AMERICAN'S SAVINGS BELONGS IN U. S. SAVINGS BONDS

The U. S. Government does not pay for this advertisement. It is donated by this publication in cooperation with the Advertising Council and the Magazine Publishers of America.

It's actually easy to save—when you buy Series E Savings Bonds through the Payroll Savings Plan. Once you've signed up at your pay office, your saving is done *for you*. The Bonds you receive pay good interest—3% a year, compounded half-yearly when held to maturity. And the longer you hold them, the better your return. Even after maturity, they go on earning 10 years more. So hold on to your Bonds! Join Payroll Savings today—or buy Bonds where you bank.

Safe as America—U.S. Savings Bonds

The U.S. Government does not pay for this advertisement. It is donated by this publication in cooperation with the Advertising Council and the Magazine Publishers of America.

Why the killer came to Powder Springs

THE SKINNY little Texan who drifted into Butch Cassidy's layout at Powder Springs one day in '97 had dead-level eyes, a droopy mustache, and two six-guns tied down for the fast draw. Called himself Carter. Said he was a killer on the run.

That's why Cassidy and the outlaws in his notorious Wild Bunch told him all about the big future plans for their train robbers' syndicate. They took him in.

And he took them in. He was a range detective whose real name was a legend in the West—Charlie Siringo. And the information he got before he quietly slipped away stopped the Wild Bunch for a long, long time.

Of course, Siringo knew all along that if Cassidy or the others had discovered the truth, they'd have killed him sure. But it just never worried him any.

You couldn't scare Charlie Siringo. Coolest of cool customers and rawhide tough, he had the go-it-alone courage it takes to build a peaceable nation out of wild frontier. That brand of courage is part of America and her people—part of the country's strength. And it's a big reason why one of the finest investments you can lay hands on is America's Savings Bonds. Because those Bonds are backed by the independence and courage of 165 million Americans. So buy U.S. Savings Bonds. Buy them confidently—regularly—and hold on to them!
