

MISSOURI ALUMNUS

March 1959

Coming in April— Special Report On College Teaching

With more students than ever planning to go to college, and with competition for trained men and women becoming more and more intense—what is likely to happen to the quality of college teaching in the decade ahead? Can America's institutions of higher education hope to keep pace with the growing demand? Will there be enough *good* teachers—or are we entering an era in which teaching standards will have to be compromised?

Next month *The Missouri Alumnus* joins 250 other college and university magazines in presenting a special report on the state of college teaching in America today—and the outlook for the years immediately ahead. Be sure to read it in the April issue of *The Missouri Alumnus*.

University of Missouri Alumni Association

About the Cover: Construction men at work is a familiar scene on the campus these days; this is a view from the new B & PA Building. Other building pictures start on page 12. The University is in the midst of a \$30,000,000 building program; 18 millions were allocated from the state bond issue, and federal funds for special purposes make up the rest. On the back cover is a view of the new cafeteria-lounge which serves men living in the eight units of the South Dorm group. (Building pictures, except those on page 17, by Lee Battaglia).

THE MISSOURI ALUMNUS

is published monthly except July, August and January by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council.

Press Congress of the World

Thirty nations represented at University

School of Journalism event; forum viewed as

force for greater international understanding.

Delegates enter assembly with flags of own nations in colorful procession.

Scene of the three-day Press Congress was Rothwell Gymnasium, which looked like a United Nations assembly room. All sessions were recorded on tape.

The first Press Congress of the World to be held in thirty-three years—the last was in 1926 at Lausanne, Switzerland—brought to the University campus nearly 100 official delegates representing thirty countries. It was easily the most impressive and most significant of the various gatherings held thus far in the observance of the School of Journalism's Golden Anniversary. For three days leaders in all communications media in the free countries of the world aired problems of their profession and came closer together in mutual understanding. For days the Columbia, Mo. dateline was printed and broadcast throughout the free world as top newsmen reported on the debates and speeches of the Press Congress.

The first day of the program was devoted to discussions emphasizing responsibility—of the press, of broadcasting, for investigation, and for interpretation. Topics for the second day included international organizations for the press, education and training for journalism, and the flow of news. On the final day panels and speakers were concerned with impact of television on news presentation, foundation of a free press, access to the news, and summarization of world press problems.

Rothwell Gymnasium, setting of the general sessions, took on the appearance of an assembly room of the United Nations, with each delegate seated before the flag of his country. The hall was hung with white curtains, accented by gold drapery to bear out the message of a huge gold banner proclaiming the 50th anniversary of the journalism school. A press room was set up at the rear of the hall where some fifty writers and correspondents covered the event.

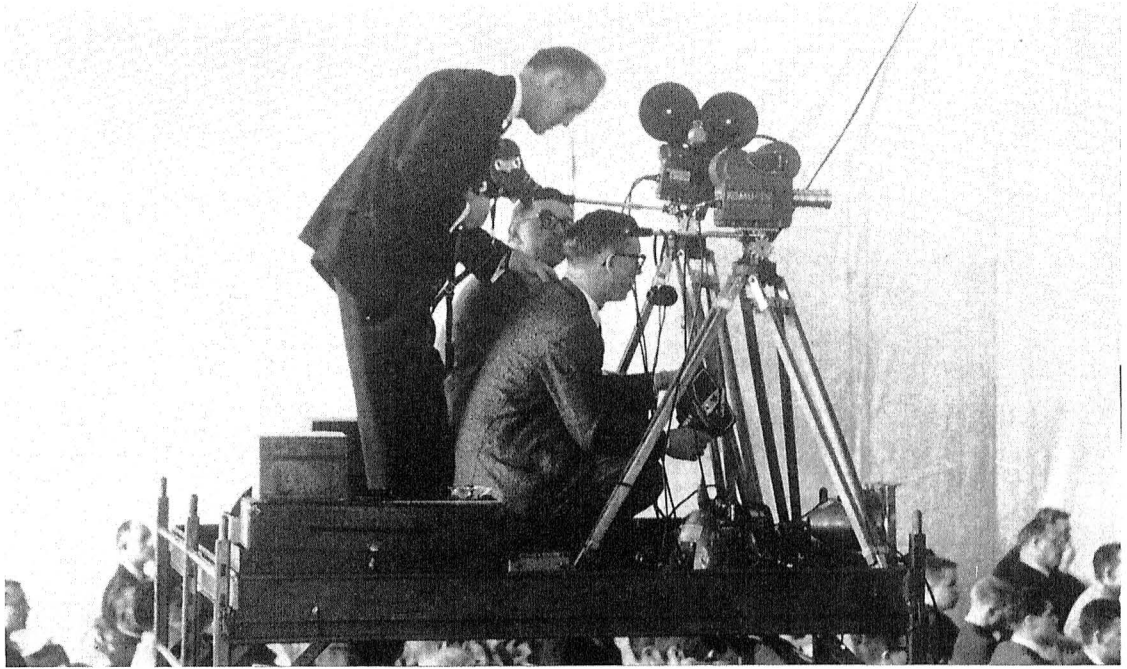

News was dispatched around the world by Associated Press, United Press International, Reuters, Ltd. of London, Agence France-Presse, and others. Movie, newsreel and television cameras were mounted in the center of the gymnasium floor, and photographers roamed among the audience. All sessions were recorded on tape.

Byron Price was director-general and presided at the general sessions. After presentation of delegates at the opening session by Dean Earl F. English, the Congress was welcomed by University President Elmer Ellis. Charles Nutter, director of International House, New Orleans, was chairman of the Congress, and Dr. Frank Luther Mott co-chairman. James Kerney, Jr., secretary-general, presided at a luncheon, and Morris E. Jacobs, general chairman of the 50th Anniversary, presided at a dinner meeting.

Most spirited debate was on the coverage of the Cuban revolution, during which charges were made that United States newspapers not only had failed to inform their readers about events leading to the overthrow of the Batista regime, but were missing the boat on the situation in Paraguay. On another occasion the reporting techniques of Time magazine were denounced.

Former President Harry S. Truman appeared on the dinner program of the final session and enjoyed taking a few swipes at the press. He allowed he didn't know what a free press was, and would like to see one. Mr. Truman said he always got along fine with reporters, but it was the blue pencil men who gave him trouble.

Thousands of words were spoken each day on in-

World-wide coverage was given the Press Congress. Mounted in the center of the gymnasium floor were movie, newsreel and television cameras. A special press room was set up for fifty writers and correspondents.

ternational problems and those affecting the press. A few random samples:

Charles Nutter, director of International House, New Orleans, and chairman of the Press Congress: "Communism is beating us to the minds of the great bloc of uncommitted neutrals in the world . . . because they have a plan and I do not believe we do. We want peace, independence, harmony and progress within a brotherhood of man. This is being called a Press Congress of the World when actually it is a press congress of about half the world; the rest is already lost."

Joaquin Rocas, general manager of the Manila Times, the Philippines: "The only news printed in the United States about the Philippines is about violences, instead of stories showing good will and telling the rest of the world how we live."

Frank Starzel, general manager of the Associated Press: "One of the great barriers in the free flow of news is the 'dead' hook on the editor's desk. We deliver three times as much copy as newspapers use. I'm afraid the mechanical tail very often wags the editorial dog."

Earl Johnson, general manager of United Press

International: "It seems a weakness of newspapers that publishers will buy wire service and turn it over to the telegraph editor, who has no control over space, and allow him merely to fill in the spaces not already pre-empted by advertising and local news."

David R. Bradley, publisher of the St. Joseph (Mo.) News-Press: "The problem of Nicaragua is important, but my readers, who are on a pick-and-shovel level, simply will not soak up everybody's problems."

C. K. Bhattacharyya, head of the School of Journalism, University of Calcutta, India: "The problems of the press are two-fold. They are to maintain a responsible press that is good for society and nation and to maintain freedom of the press. Freedom of the press, which is the objective of this conference, should mean freedom of the reader. The one objective of all humanity is to achieve the idea of one world. This conference is a step in that direction."

The elaborate plans of the fifth World Press Congress were designed to give the visitors from other countries an opportunity to learn more about the United States and its people. The visitors entered the country a week or so before the Congress opened and were guests of professional colleagues in various parts

Students in the School of Journalism swelled audiences attending the sessions. They heard leaders in the communications media from all parts of the free world discuss issues.

Photography by Lee Battaglia.

of the U. S. before coming on to Columbia. Then, after the Congress ended, the visitors went to Chicago for two days of festivities with professional groups as hosts. After that, a two-week tour of the United States was planned by the U. S. Department of State in cooperation with the Government Affairs Institute.

Throughout the week reaction to the Press Congress was highly favorable.

As Editor Erwin D. Canham wrote in the *Christian Science Monitor*: "Such meetings accomplish more through friendly acquaintance than through passing resolutions. There is no need to emphasize the heavy responsibilities and dangers that confront newspapers in a complex age.

"It is reassuring, somehow, to shake the hand and gaze into the eyes of a fellow craftsman who is fighting hard for his paper's very survival, not to mention its independence or its prosperity.

"Thus in the relaxed but earnest atmosphere of the American Middle West, professional shoulders are being rubbed that rarely get a chance to meet.

"The intangible contributions of such a session may produce their results in some crisis far ahead, when courage to stand for freedom comes to a beleaguered editor as he remembers the fraternity of the profession throughout the free world."

In another report to the *Monitor* Mr. Canham said: "Another day of discussion of professional problems plus a great deal of informal fraternizing has proved that the mere fact of coming together is the greatest achievement of international press meetings."

The *St. Louis Post-Dispatch* said in an editorial: "After three days of vigorous exchange and discussion, the 100 and more delegates to the Press Congress of the World have started back to editorial desks placed as broadly around the earth as Rotterdam, Oslo, Cairo, Johannesburg, Bombay, Melbourne, Quito and Havana. . . . The visitors took up a variety of issues concerning freedom of the press. In the process they saw one another in terms of similarities as well as differences. . . . The feeling was deep at Columbia for editors who fought as long as they could against totalitarian rule before going down before the forces of oppression. . . .

"Many delegates would have liked nothing better than for this Press Congress of the World to take strong stands on issues before them or submitted to them by editors back home, as, for example, the strong complaint by cable against *Time* magazine by Jose Dutris, editor of *LaPrensa* of San Salvador.

Students majoring in industrial education use this shop for laboratory projects, in addition to laboratories in the College of Engineering.

M. U. leadership in industrial education

By VIVIAN HANSBROUGH

A prophet is not without honor, save in his own country. The Industrial Education Department is not exactly a prophet, although it can predict success for its graduates, but it is an example of being better known elsewhere than at home. The average student at the University probably could not tell a visitor the location of the department. Yet the graduates of the department, who constantly recommend qualified students, occupy key positions in industry and in schools of education throughout the nation. If satisfied customers are the criterion, this department rates high.

Second only to New York University in number of graduates with doctor's degrees in industrial education, the Missouri department has such limited facilities that it cannot take care of many undergraduate students. Its one laboratory can accommodate approximately 35 students at a time. Its classrooms and offices are tucked away in the same building with Naval R.O.T.C. on Stewart Road between Fifth and Sixth.

Industrial education in Land Grant colleges is an outgrowth of mechanical engineering. About 1885,

the University of Missouri began training teachers for shopwork in the public schools. Following the national pattern, such training was included in the engineering department. Prof. Robert W. Selvidge was head of both mechanical engineering and industrial education from 1920 until his death in 1941. Then industrial education became a part of the College of Education, under the direction of Dr. Hoyt H. London (A.M. '29; Ohio State Ph.D. '34).

"We have had 108 graduates with a Bachelor of Education degree with a major in industrial education," Dr. London reports. "Forty per cent of them work in industry in supervisory positions, in in-plant training positions, and occasionally as skilled technical workers. Twenty-five per cent of our 292 master's degree graduates go into industry. All except three of our doctor's degree graduates stay in education. So you see, the higher the degree one gets in industrial education, the more likely he is to stay in education."

Dr. London keeps in close contact with graduates of the department. He recently completed an analysis

of the professional status of the 80 doctoral graduates, and has mailed a copy to each. He found that 49 are employed in colleges, 25 in universities, three in private industry, two in secondary schools, and one deceased. They are located in 27 states. Salaries range from \$5,000 to \$12,710, with an average of \$8,312.

He passes along other information, such as: "You will be interested to know that, according to reports, 38 of our doctoral graduates have contributed more than 75 magazine articles, 13 bulletins, and nine books. Twenty-one men report that they have built new homes, 29 have bought new homes, and two are in the building business as a sideline. Aside from their professional activities, these men are rather productive familywise, as they have a total of 75 boys and 66 girls, or an average of 2.19 children per family."

In addition, he includes two pages of campus news. Such a report makes graduates feel a closer touch with their alma mater.

Each year Dr. London compiles a booklet of information about the Industrial Education Department, which he mails to leaders in the field. This booklet lists suggested undergraduate programs in industrial arts, in trades and industries, in technical education, and in distributive education, with a brief description of each course. It also lists all master's and doctor's degree graduates of the department, and gives a picture of each doctoral graduate, his dissertation subject, his present address, and his position.

One explanation for the widespread publicity given to this department is that its graduates are in leadership positions, teaching in colleges and universities all over America, and they direct students to the school. There are a number of other factors contributing to the good reputation of the department. Dr. London served for a long time as chairman of the research committee of the National Association of Industrial Teacher Educators, and his staff continues to summarize research studies in industrial education for this organization. He is now president of the American Vocational Association, the second largest education organization in the United States. This association includes teachers of agriculture, home economics, industrial education, distributive education, business education, vocational rehabilitation, and vocational counselors. Some 150 graduates of the Missouri department attending the national convention assemble for an annual reunion dinner.

The teaching staff of the department, headed by Dr. London, includes Walter C. Brown, Ed.D. '54; D. B. Doty, M.Ed. '48; Lester B. Kesterson, M.Ed. '48; Wilbur R. Miller, M.Ed. '55. Research assistants are Carl R. Bartel, B. Wesley Brown, Merlin H. Kleinbach, and Robert F. Shrader.

"For years, the College of Engineering has used our advanced graduate students as teachers of engineering

drawing, descriptive geometry, and machine tool operation," Dr. London says. "Of our 18 doctoral candidates this year, eight are teaching part-time in the mechanical engineering department. This arrangement is mutually advantageous for the graduate students and for the College of Engineering."

Undergraduates in the College of Education majoring in industrial education supplement their curricula with courses in mechanical engineering, agricultural engineering, business, and arts and science.

Students taking courses in the department in the summer session invite their families and the faculty of the College of Education for a summer picnic. The menu features chicken or fish, prepared by students who served as cooks while in service, and everyone has a hilarious good time.

In fact, good times are in store for the entire department in the near future. Construction of a three-story industrial education building at the corner of Sixth Street and Stewart Road, costing \$300,000, is to start this year, and is to be completed for occupancy in September, 1960. It will provide adequate quarters for automotive and electrical laboratories, metal working and woodworking shops, drafting and blueprint rooms, general shop, research laboratory, library, classrooms, and offices. This department, which has attained national recognition with meager facilities, has prospects for a greatly expanded program of training and service.

Dr. Hoyt H. London, left, and Dr. Walter C. Brown add pictures of recent doctoral graduates to permanent display in office.

Dr. Quentin F. Schenk, coordinator of the Community Development Program, with Consultants Arthur Hugh Denney and Daniel J. Schler.

Helping hometowns help themselves

When the University's Community Development Program was created less than two years ago, the response by Missouri communities to the services it offered left no doubt that a need existed for such a program. In its first year, more than two score requests came in from communities wanting assistance in coping with a variety of local problems.

The Community Development Program is sponsored jointly by the School of Social Work and the Division of Continuing Education. Its basic aim is "helping the smaller communities in Missouri help themselves" in solving problems of local development. Since its inception in September, 1957, the program has served as liaison between the University and communities that request assistance, in an effort to make the University's various services available to the communities. Through the program, the University seeks to provide guidance for communities in starting, organizing, directing and otherwise facilitating development programs at the local level. A community might want to plan a recreational area, a new park, or a youth center.

Coordinator of the program is Dr. Quentin F. Schenk, associate professor of social work. He emphasizes that the program is not a duplicate of the assistance a community might receive from other agencies, but is a supplement to the activities of other agencies.

During the first year of operation, the program provided direct service to fifteen communities and referred ten more community requests to other state agencies for direct action. However, nineteen additional requests could not be acted upon pending the employment of more personnel. In September two consultants were added to the staff. They are Arthur Hugh Denney of Savannah, Mo. and Daniel J. Schler of Boonville, Mo. Both are University graduates and are on the faculty as instructors in social work. Denney is a former director of the Missouri Division of Resources and Development. Schler's experience includes three years as an agricultural missionary in Ghana, West Africa, where he worked on the development of rural community improvement programs.

Dr. Schenk describes the consultant's role as one of a catalyst. "That is, his responsibility is to keep the problem-solving process going in an orderly manner. The consultant will not do the work for the community, but will counsel with the community in directing its efforts to a clear understanding of the problem, followed by a request for services of those specialists needed to help solve the problem and then a further follow-up with the community to help it organize to achieve a satisfactory conclusion." Dr. Schenk added that the consultant is a "general prac-

The Freedom of Information Center

One of the major projects to reach fruition during the 50th anniversary year of the University's School of Journalism is the Freedom of Information Center, now an established research station and clearing house with headquarters in Walter Williams Hall.

The early stages of this undertaking date back to March of 1958. The Missouri campus was the setting for a meeting of prominent representatives of communications—including newspaper and magazine editors and publishers, press photographers, and radio and television executives. The group recommended setting up a national FoI center and offered to give it financial support. The conference also favored the University, with its widely recognized School of Journalism facilities, as the location. The University's Board of Curators approved the establishment here.

The Center officially came into existence last December after several preliminary conferences of representatives of all mass communications media from many parts of the nation. Its formal dedication will be a feature during Journalism Week, May 3-9.

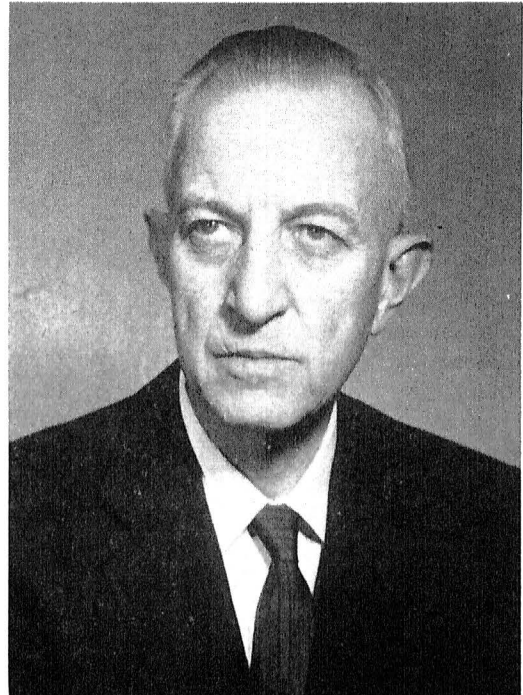

The Center operates on funds derived from gifts; no state funds have been used. It is now, and must continue to be, self-sustaining.

Purpose of the Freedom of Information Center is to collect, study, and disseminate facts concerning the suppression of news, with the principal objective of making all public information available to the public. Abuses and triumphs of the people's right to know about their governments at the various levels will be recorded. The Center intends to maintain informal liaison with the various professional journalism fraternities and societies. It is especially receptive to undertaking tasks in the FoI area which a group may consider beyond its capacity, so long as it appears to lie within that of the Center.

The FoI has embarked on a publication program that reaches an ever expanding mailing list. Articles, speeches, panel discussions, abstracts of theses and dissertations—whatever bears on the problems of a free press—are sought by the Center for publication. Tapes of speeches and kinescopes of television programs dealing with freedom of information are being collected as well as films and sound coverage of courtroom procedures. This material, when a useful range is reached, will be catalogued and made available on request to schools and interested groups.

Edwin Moss Williams on February 1 became the first consultant to the Freedom of Information Center, and Dr. Paul L. Fisher, Jr., associate professor of journalism at the University, has been appointed executive secretary.

Williams, veteran editor, publisher, and press service executive, is a 1925 graduate of the School of Journalism, and in 1946 received a Missouri Honor Award for Distinguished Service in Journalism. He has most recently been with the Scripps-Howard

Edwin Moss Williams

Radio, Inc., of Cincinnati and Knoxville. His father, the late Walter Williams, was founder of the journalism school.

Mr. Williams was born in Columbia, where he attended public schools. After graduation from the University he went to work for the Gulf Coast Guide at Gulfport, Miss. In 1926 he served as secretary of the second Press Congress of the World at Geneva, Switzerland. Entering the newspaper publishing field in Texas, he later became southwestern representative of the United Press Service in Kansas City. From 1929 to 1935 he was manager of the southern division with offices in Atlanta. After three years as general sales manager in New York, Mr. Williams was made vice-president of the UP, serving in that capacity for ten years. He was also a vice-president of United Feature Syndicate and a director of British United Press from 1942 to 1948.

In 1949 he returned to newspaper publishing as president of the Washington (N. C.) Daily News and the Independent Printing Company of Elizabeth City, N. C. Mr. Williams has also published the Elizabeth City Daily Advance, and was treasurer of the East Carolina Publishing Company, and president of the Florida News Company and the Foreign Economic Trade Reports. He has been consultant on information to the Economic Cooperation Administration in Washington and consultant to the National Society for Crippled Children and Adults.

Mr. and Mrs. Williams and their three children, Anne, Ellen, and Marcus Walter, have moved to

Paul L. Fisher

Columbia from their recent home at Washington, N. C. Mr. Williams' appointment extends to July 31, 1959. According to present plans, a succession of prominent newspaper and communications leaders will serve six-month periods each as consultants.

President Elmer Ellis said that Dr. Fisher, in addition to his new responsibilities with the Freedom of Information Center, will retain his duties at the School of Journalism. He is also director of the linotype curriculum at the University, where he received four degrees.

Dr. Fisher has been closely identified with the movement for free access to public information for a number of years. He has served for three years as editor of the "Freedom of Information Digest," publication on the subject sponsored by the National Editorial Association. He also served as secretary for the several conferences of communications leaders which resulted in establishment of a national center here to work toward giving news media free access to information to which the public is entitled.

As executive secretary, Dr. Fisher will spend much of his time in the office of the Center directing the gathering of pertinent information on suppression of news, correlating the classification and indexing of such information, and directing a flow of publication of facts in this field. He will also help to enlist the support of other schools in getting materials from other nations of the world on the subject.

Members of the Advisory Council of the Center are: Howard Bell, assistant to the president, National Association of Broadcasters; Hugh Boyd, publisher, Home News, Brunswick, N. J.; Herbert Brucker, editor, Hartford (Conn.) Courant; William Bray, president, National Association of Managers (Press); Joseph Costa, chief photographer, King Features; Arthur Duncan, night editor, Kansas City (Mo.) Star; Ware Edgar, publisher, Knox (Ind.) Republican; Lowell Jesen, publisher, Livermore (Calif.) Herald; Coleman Harwell, editor and vice-president, the Nashville (Tenn.) Tennessean; Malcolm Johnson, assistant director of news, CBS, New York; Nicholas Pentcheff, vice-president, International Federation of Free Journalists; Guy Easterly, publisher, Lafollette (Tenn.) Press; James S. Pope, executive editor, Louisville Times and Courier-Journal; J. R. Wiggins, executive editor, the Washington (D. C.) Post and Times Herald; and Arthur Witman, chief photographer, St. Louis (Mo.) Post-Dispatch.

WORLD PRESS CONGRESS

from page 5

"But Dean English of the host institution held that the Congress lacked authority to act on resolutions. This power to meet and debate but not to act suggests something for the planners of the Fifth Press Congress of the World to go into thoroughly before it meets—whenever and wherever that may be."

An editorial in the Kansas City Star said in part: "The sessions were realistic and profitable because the delegates avoided the trap of benevolent discussions and high-sounding platitudes. And some of the statements, in our opinion, showed woeful ignorance of the motives of the American press on the part of the visitors from abroad. That, of course, is the very reason the Congress was so valuable. Meetings that result in a broad exchange of ideas and criticism help promote understanding."

Panelists and speakers for the sessions included: Joyce A. Swan, Minneapolis Star and Tribune; Vincent Naeser, Berlingske Tidende, Copenhagen; Miguel Lanz Duret, El Universal, Mexico City; A. S. Cowan, Australian Federation of Broadcasting, Sydney; Eric Adjorlolo, Radio Ghana, Accra, Ghana; Raymond P. Brandt, St. Louis Post-Dispatch Washington Bureau; Joaquin P. Rocas, Manila Times; Axel Springer, Die Welt, Hamburg, Germany; John Day, CBS, New York; Erwin D. Canham, Christian Science Monitor, Boston; Galal El Dine El Hammamy, Al Goumhouria, Cairo, Egypt; James S. Pope, Louisville Courier-Journal; William Connor, Daily Mirror, London.

Henry J. Kaiser, Jr., vice-president, Kaiser Industries Corp., John R. Herbert, Patriot-Ledger, Quincy, Mass.; John T. O'Rourke, Washington Daily News; Paul Block, Jr., Toledo Blade; Dean Emeritus Frank Luther Mott, School of Journalism; Walo von Greyerz, Der Bund, Bern, Switzerland; Carlos Mantilla, El Comercio, Quito, Ecuador; Edward Lindsay, Herald-Review, Decatur, Ill.; Aryeh Dissentshik, Maariv, Tel Aviv, Israel; Charles Gombault, Paris; Basil L. Walters, Chicago Daily News; J. C. Jain, Times of India, Bombay; Frank Starzel, general manager, Associated Press; Earl Johnson, general manager, United Press International.

Samuel Sharkey, NBC, New York; Geoffrey Cox, TV News, London; Alicia Patterson, Newsday, Long Island, N. Y.; Wright Bryan, Cleveland Plain Dealer; Donald Edwards, BBC, London; Hugh Boyd, Home News, New Brunswick, N. J.; Julio C. Hernandez, El Colombiano, Medellin, Colombia; Ben Gilbert, Washington Post and Times Herald; Robert D. Swezey, WDSU, New Orleans; Alexander Stempels, Nieuwe Rotterdamse Courant, Rotterdam, the Netherlands; Alfredo Silva Carvallo, La Union, Valparaiso, Chile; C. K. Bhattacharyya, head, School of Journalism, Calcutta, India; Raul Fontaina, Asociacion Interamericana de Radiodifusion, Montevideo, Uruguay; D. H. Ollemans, Johannesburg Star, Johannesburg, Union of South Africa; Fritz Molden, Die Presse, Vienna.

A bevy of speakers on the Women in Journalism program at the University in connection with the School of Journalism 50th anniversary observance. From left: Sylvia Porter, Margot Sherman, Caroline Hood, Dorothy Roe, Mabel Temby, and Inez Robb, chairman.

Ladies days at the J-School

Between Lincoln's Birthday and St. Valentine's Day women journalists staged a special occasion of their own on the University campus last month.

For three days the visitors made the "Women in Journalism" program a lively phase of the School of Journalism's 50th anniversary observance. Inez Robb, chairman of the program, and her co-chairman, Peggy Phillips, brought to the campus the nation's women leaders in many fields of communications. The speakers and panelists gave the nearly one hundred women students of the School an insight into the opportunities and problems which they may be expected to face as they plan their own careers. Several of the speakers are M.U. graduates.

Mrs. Eleanor Roosevelt addressed a large audience in Jesse Auditorium at the final morning session on February 14 when President Elmer Ellis spoke briefly and Dean Earl F. English presided. Mrs. Roosevelt was introduced by Mrs. Robb and spoke on "American Women Journalists I Have Known—Their Special Gifts and Capabilities." Other speakers and their topics during the three days included:

Margot Sherman, vice-president of McCann-Erickson and Advertising Woman of the Year, "The Many Professions of Advertising;" Mabel Temby, editor, Kewaunee (Wis.) Enterprise and president, National Federation of Press Women, "Country Journalism Is For Me;" Caroline Hood, public relations director, Rockefeller Center, "Opportunities Unlimited;" Sylvia Porter, financial columnist, Hall Syndicate, "Golden Nuggets;" Clarissa Start, B.J. '36, columnist, St. Louis Post-Dispatch, "Inside a Biography;" Dorothy Roe, B.J. '24, Women's Editor, Associated Press, "Don't Sob, Sister!"; Helen Delich, B.J. '44, maritime

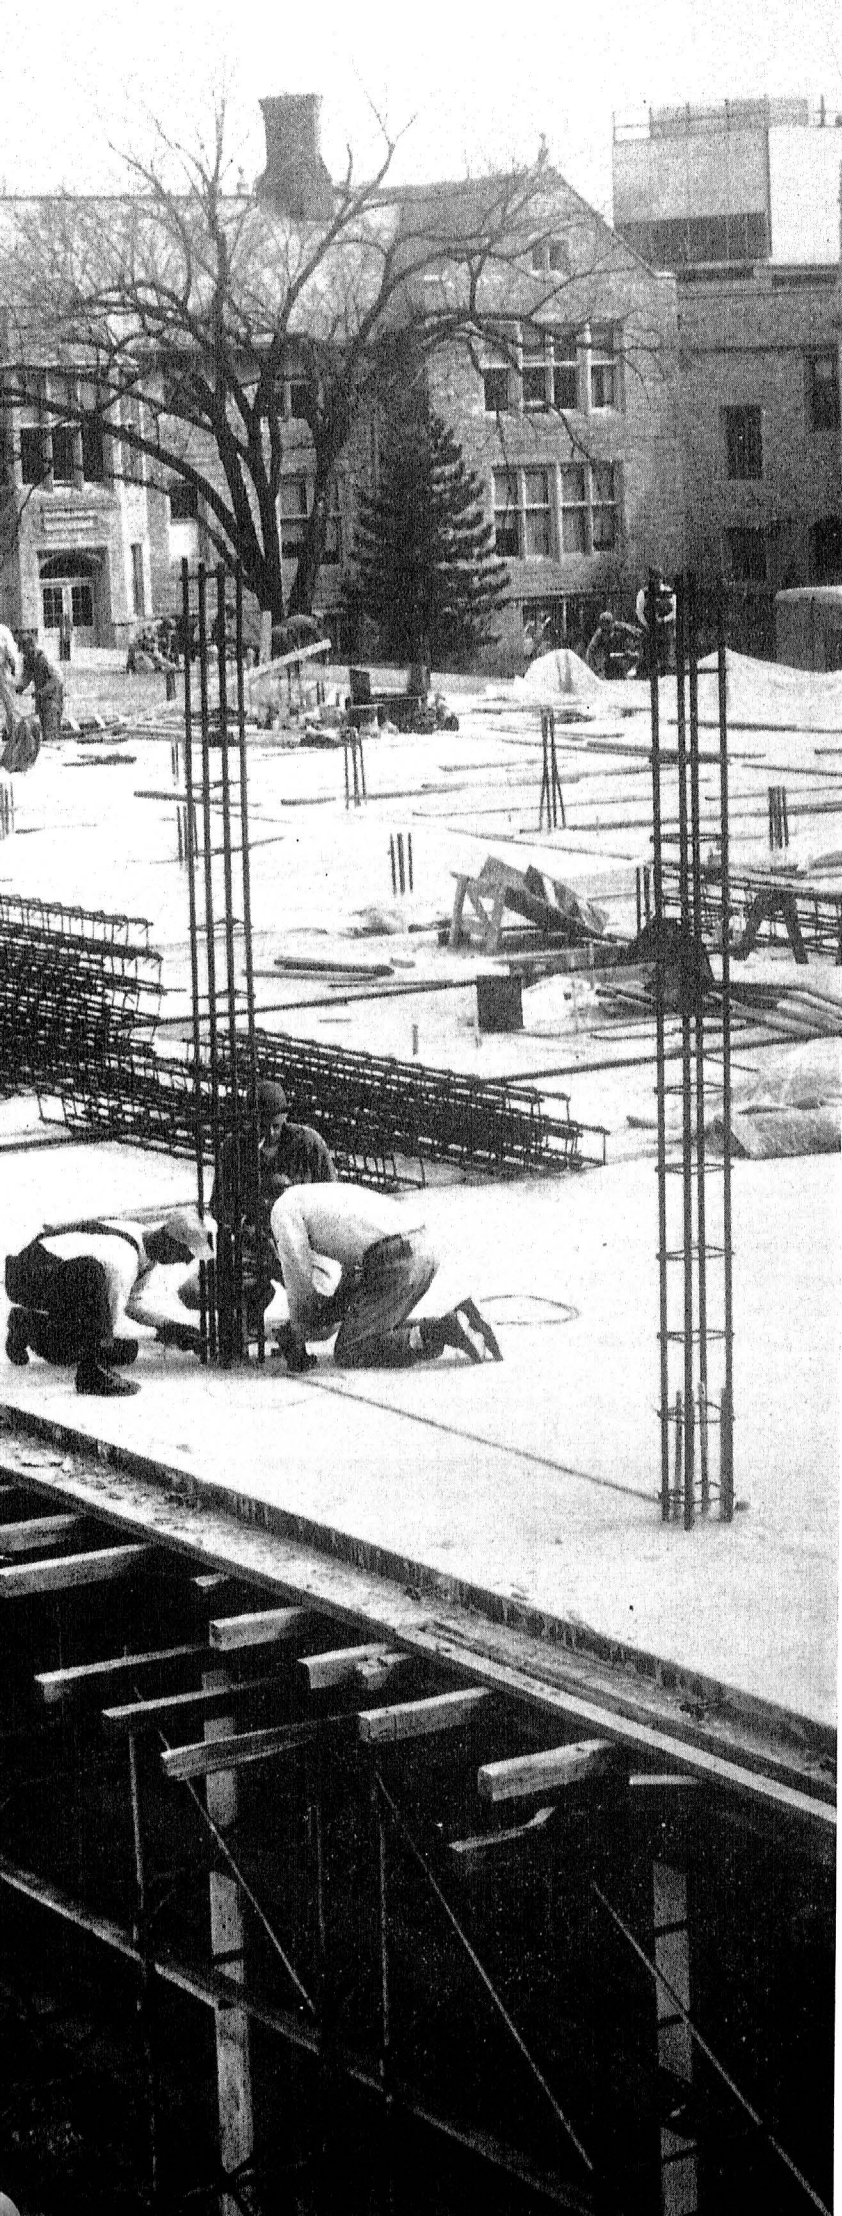

reporter, Baltimore Sun, "Pioneering a Job;" Laura Lou Brookman, B.J. '21, contributing editor, Ladies Home Journal, "Never Underestimate;" Mary Harworth, human relations columnist, King Features, "Put Your Heart Into It;" Eleanor Lambert, public relations and fashion executive, "Front Page and Fashion;" and Inez Robb, B.J. '24, columnist, United Features, "The Double Standard."

Other participants included Ruth Kinyon Whiteside, B.J. '38, overseas reporter, WHCU, Ithaca, N.Y. for CBS Affiliates; Frances Dewberry Crain, Women's Editor, North Hollywood (Calif.) Valley Times; Lucille D. Kirk, Parents Magazine; Mary Kimbrough, St. Louis Post-Dispatch; Jo Caldwell Meyer, Austin, Texas; and Helen Vanderburg, publisher, Hometown Newspapers, Shell Rock, Iowa.

Fine Arts Building on Hitt
Street. Whitten Hall is
in the background.*

The campus adds

A cacophony rends the campus air these spring days. The sounds of trip-hammers, air compressors, bulldozers and other instruments of the building trade assail the ear on all sides. The discordant mixture is poor accompaniment for lecture or study efforts, but it heralds impressive changes in the campus scene. On these pages are glimpses of projects underway as the University builds to meet today's needs.

Standing within Francis Quadrangle, one notices few changes, although in the area four new buildings of red brick are completed and another is taking shape. These are the Chemical and Civil Engineering Laboratories, added to existing structures; two dormitories and cafeteria for men, South Sixth Street west of McAlester Hall; and the Electrical Engineering

This view of the four units in the new South Dormitory Group for men is from the outpatient entrance of the Medical Center. The new units and cafeteria-lounge, a \$2,300,000 project, accommodate 440 men.

modern look in Operation Catch-up

Building going up on Sixth across from Lathrop Hall.

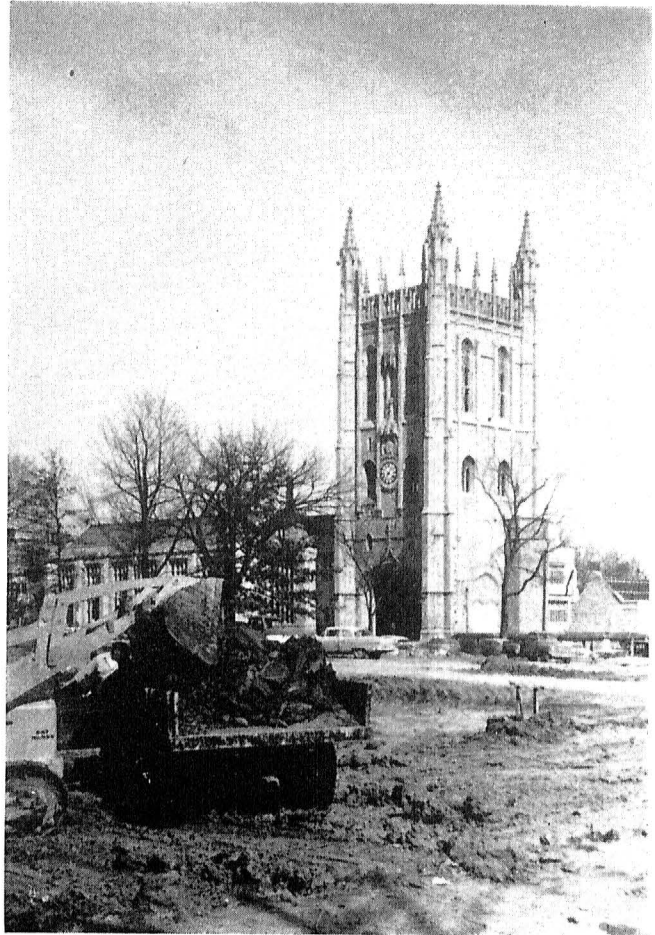

Although these form a sizable amount of construction, projects under way on the East Campus are more likely to catch the eye of the sightseer. In one block are the B & PA Building fronting on University Avenue between Hitt and South Ninth streets, and the nearby Fine Arts Building on Hitt Street west of Whitten Hall and the Student Union. Foundation work on the huge addition to the University Library has started; then, a block farther south on Hitt Street, work progresses on the Agricultural Building which will enclose the Agricultural Laboratories.

Farther south there is much more. Back of Brewer Field House are the four newly completed dormitories for men, with a cafeteria designed to serve 1,500 men

from the eight dormitories in the vicinity. New housing for married students is being built just south and east of the men's residence halls.

West of the Medical Center, on Kentucky Avenue, is the ultra attractive dormitory group for women—three nine-story dormitories and a cafeteria; one of the residence halls is virtually completed.

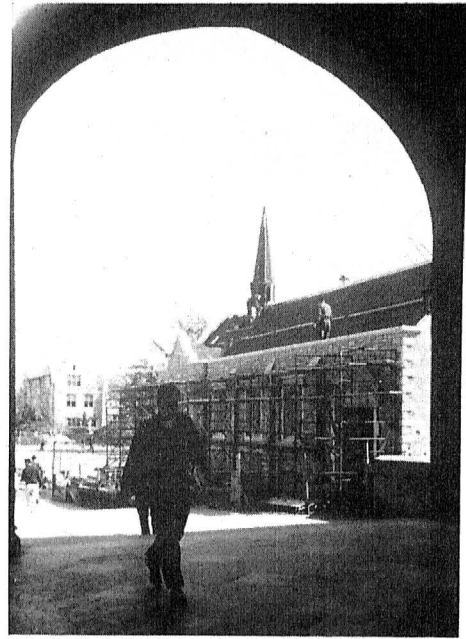

Work has started on the \$800,000 addition to the Medical Center, the \$500,000 addition to Gwynn Hall, the Mall which will connect the Medical Center with the West Campus, and a \$150,000 greenhouse. Much of the construction of the A.P. Green Chapel, at the site of Memorial Tower, is completed. Work is scheduled to start shortly on the \$500,000 addition to Lee H. Tate Hall, home of the School of Law.

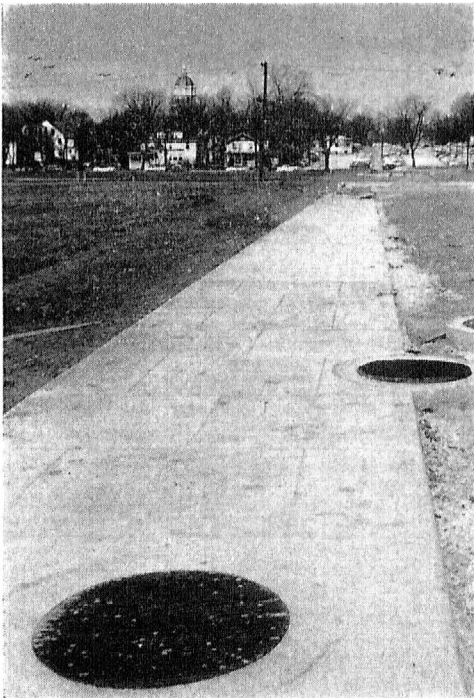

Excavation begins for east wing addition to the University Library. The \$3,500,000 construction will more than double present capacity. Below, one of the new apartment buildings for married students is at right, nurses' residence at left, new men's dorms farther north.

Exterior of A. P. Green Chapel adjoining Memorial Tower on the east is nearing completion. Below, three nine-story dormitories for 1,044 women students are south of Kentucky at Maryland. One dormitory is almost completed. A large lounge-type cafeteria is included in the \$4,600,000 project.

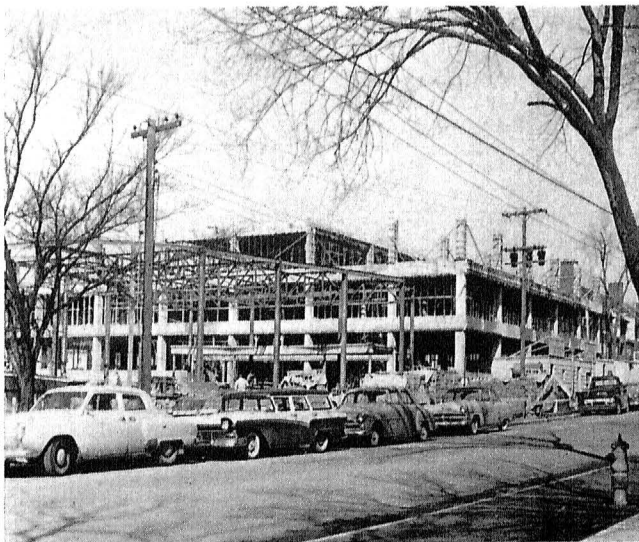

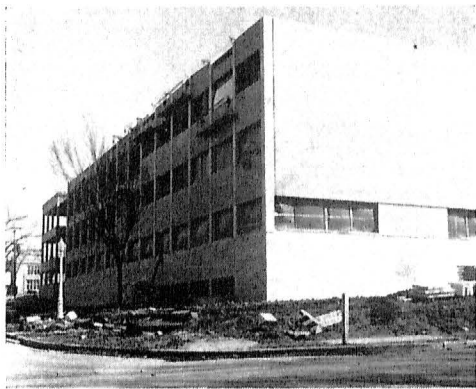

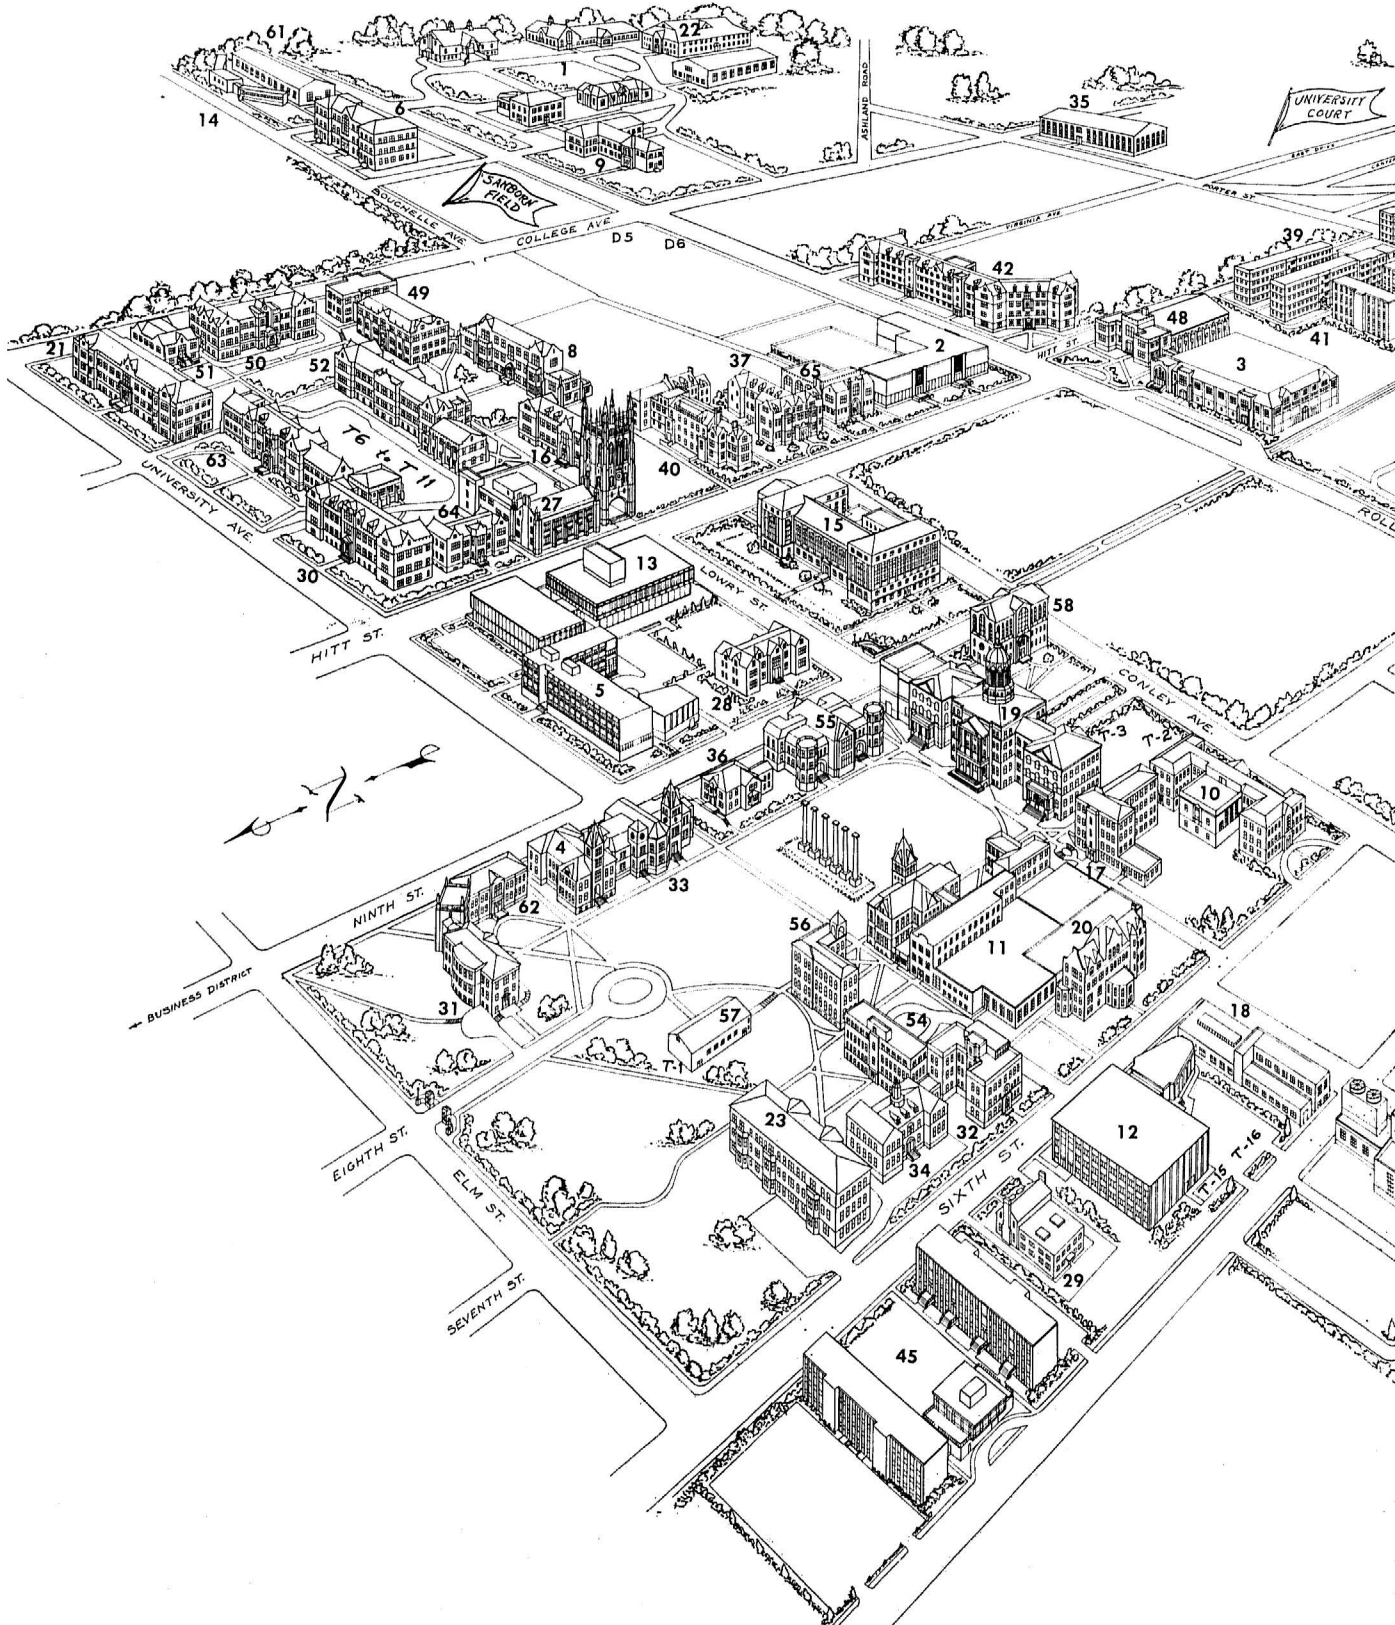

Along this route a Mall will connect the Medical Center and the Red Campus. At right, a view of the small portion (on South Ninth) of the B&PA Building is framed by construction of the major building, on University Avenue.

The \$2,000,000 Agricultural Laboratories (right) on Hitt Street at Rollins. The B&PA Building, below, will cost \$1,500,000. Below at right is the Electrical Engineering Laboratories Building on South Sixth Street, a \$1,800,000 project. Already completed are Chemical and Civil Engineering labs.

Capt. Ralph Hochgrebe

Gary Starr

Returning lettermen help baseball outlook

As the Tiger baseball team opened its 27 game schedule against Memphis State March 27 and 28, the Tigers' number one opponent had been the inclement March weather in Columbia. Tiger coach Hi Simmons had only limited opportunities to see the boys who must fill the gaping holes left in last year's NCAA runner-ups by \$125,000 worth of professional contracts and by graduation.

Despite the loss of two front line pitchers and five regulars, Hi looked optimistically for another fine Missouri baseball team. The basis of this optimism is the list of returning lettermen: Capt. Ralph Hochgrebe (.276), ss; Gary Starr (.400), 2b; and Bob Haas (.344), lf.—all regulars last year. Other monogrammed holdovers are infielder Steve Lewis (.167); and pitchers John O'Donoghue (4-2). Bud Harbin (1-0), Bob Cooper (0-0) and Don Miller (0-0).

Cooper and Miller are 1957 "M" winners. Miller, stubby southpaw, had a 6-1 mark and a 1.97 ERA two years ago, but was a scholastic casualty last season.

With veterans Miller, O'Donoghue and Harbin as the probable "Big Three," and some likely-looking sophomores coming on, Simmons isn't too fretful about his hurling. Best of the sophomores appear to be George Clements and Bob Payne.

Early blueprints for '59 involve a swap of keystone duties, with the stronger-armed Starr moving to short-stop—and Hochgrebe going to the right side of the diamond. At first base, two football regulars—Ed Mehrer and Russ Sloan—are the lead candidates, along with big Jay Hitzhusen, a 1958 squadman.

Lewis, originally a second baseman, probably will get first shot at third—and if the slender Normandy junior doesn't measure up, the field is wide open.

In the outfield, Haas—another football player—is a fixture. Meyers' unexpected loss won't be too crippling if rookies Gene Orf, John Meives or Wayne Frederickson—and Dave Grossman, a 1958 reserve, deliver as expected. Most impressive has been Orf, a switch-hitting ex-G.I.

Roger Brodbeck, two-year understudy to Kuhlmann, is a seasoned, skillful catcher—but may lack his predecessor's consistency at the plate. He's backed by Al Laffoon, a junior holdover from last season.

Looking ahead to next year

The lone bright spots in the Tigers' worst season (6-19) in Sparky Stalcup's thirteen year coaching career were the experience gained by the sophomores and the relatively light losses by graduation. Only some-time-regular Mike Kirksey and reserve Bud Harbin will not be eligible next year.

Add to this the excellent record of Freshman Coach Norm Stewart's yearlings, and you're tempted to take up the old battle cry of the Brooklyn Dodgers, "Wait till next year!"

Stewart's freshmen beat the perennially powerful Moberly Junior College team in their first outing 7-6. They also upended Hannibal-LaGrange Junior College 8-1, and they ended the season on a high note when they upset the previously-undefeated Iowa State freshmen team 7-0. Their lone loss came at the hands of the K.U. freshmen at Lawrence 7-0.

Ronnie Cox of Columbia, Jackie Gilbert of Kansas City and Lyle Houston of Grandview carried the scoring load for the Tiger cubs, and they along with five or six other boys are given a definite chance of making the varsity next year.

Spring football under way

The twenty sessions of spring football began with grunts and groans on the new practice fields west of Memorial Stadium on Monday March 23rd. Before the twentieth session, the annual spring intra-squad game, scheduled for Saturday May 2nd, the ninety eager candidates can expect a lot of hard work.

According to Coach Dan Devine, who recently signed a new eight-year coaching contract with the University, the spring drills will be particularly important this year.

"We must cover a lot of ground this spring," the 34-year-old advocate of multiple offense football insists, "because the opening half of our 1959 schedule can make or break the season."

Missouri's first five opponents this fall are Penn State, Michigan, Iowa State, S.M.U. and Oklahoma.

"We could come up with a stronger club than last year, and still lose four of those five games," says a realistic Devine whose first M.U. team racked up a 5-4-1 record, and trailed only Oklahoma in the Big Eight standings.

Barring drop-outs or failures, Devine can count on 18 lettered holdovers from '58 next September; however, four of these veterans will see little, or no, action this spring.

A recent knee operation will limit Danny LaRose, all-conference end, to light workouts—and the same is true of Norris Kelley, a 1957 "M" winner. Baseball obligations have pinned down Bob Haas, quarterback, Ed Mehrer, fullback, and Russ Sloan, end. LaRose, Sloan and Mehrer were regulars last fall, while Haas understudied Phil Snowden.

Kelley played with the No. 2 line before his knee injury against Kansas State.

With all hands available, here's the way Mizzou's battle-proved lettermen shape up by positions:

Ends—Sloan, LaRose and Dale Pidcock.

Tackles—Mike Magac (co-capt.), Bill Wegener and Kelley.

Guards—Bill Vanderlinde, Brock Hessing and Rockne Calhoun.

Center—Tom Swaney (co-capt.)

Quarterbacks—Snowden and Haas.

Left Halfbacks—Mel West.

Right halfbacks—Don Smith, Norris Stevenson and Fred Brossart.

Fullbacks—Mehrer, Jim Miles and Roger McCoy.

Most urgent in M. U.'s rebuilding program for 1959 is the need to develop interior line replacements for Charlie Rash and Don Chadwick, all-conference guards, and Owen Worstell, regular tackle. All seasoned warriors, this trio along with halfback Hank Kuhlmann were the key losses among nine departed lettermen.

Rash and Chadwick, of course, were top-flight pulling linemen in Devine's free-wheeling offense. As an early transfusion, he will switch a pair of tackles, Hessing and Calhoun, to guard positions—while moving Wegener from guard to tackle.

Two reserve ends, Joe Rittman and Ken Lambert, are ticketed for tryouts at tackle. Quarterback Skip Snyder—a prep tailback—moves to left halfback behind Mel West, last year's leading ground gainer.

Sophomores will find it tough to crack a veteran-tinted backfield—but rookie linemen like Rich Dobbs and Paul Henley, guards, and Jim Thompson and Herb Gardner, tackles, could fortify Missouri's diluted manpower up front.

A darkhorse? Watch Gordon Smith, 200-pound end from Arizona State, who lettered as a freshman on Devine's unbeaten 1957 team. Both in spring practice a year ago, and on the varsity field last fall, Smith showed excellent all-around talents.

Big outdoor track season

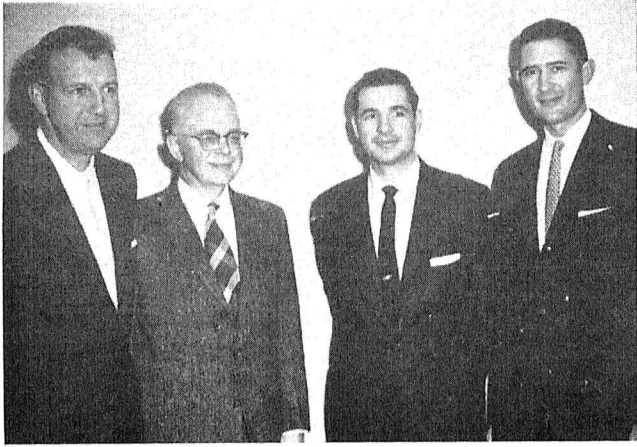

Missouri's track team finished up the indoor season with a conclusive win over Indiana, defending Indoor champions of the Big Ten and with a decisive loss to Kansas University, the defending champs in the Big Eight. This is pretty convincing testimony to the quality of track competition in the Big Eight Conference. Another bit of testimony was entered in the conference trials in which a good Tiger dual meet team had to scrap for fifth place as Kansas again took the honors.

The Tigers outdoor season began with a triangular meet at Columbia with Lincoln University and Southwest Missouri State on March 31. The rest of the attractive schedule has the Tigers at the Texas, Kansas and Drake relay carnivals and also offers home meets with Illinois and Notre Dame.

A particular treat for midlands track fans has the national Collegiate meet at Lincoln Nebraska June 12 and 13 and the National A.A.U. meet at Boulder the following week, June 19 and 20.

A couple of ex-Tiger athletes who signed contracts with the St. Louis Cardinals are shown with another alumnus at the Cards' training camp. They are Charlie James, left, and Hank Kuhlmann, right, with Mark Cox, the old-pro sports publicist. Charlie and Hank, considered good bets for future service with the parent club, are now at Rochester.

Dr. Arch Lowe, President Ellis, Dan Devine and John Morris at Springfield meeting.

Two big district meetings

Biennial District Meetings at Sedalia and Springfield have again proved popular for alumni in the area.

On February 19th a record crowd of over 75 turned out at Sedalia to hear President Ellis discuss the University and the State. Other features of the District 9 program were Assistant Coach Doug Weaver, who talked about Missouri football, and Alumni Secretary Bus Entsminger, who gave a report on alumni activities. The toastmaster's duties were handled by Bob Gardner, a Sedalia attorney who was also elected County Alumni Chairman. Also elected at the meeting was Ken Love of the Sedalia Democrat and Capital, who was chosen to succeed Phil McLaughlin as district representative on the Alumni Association Board of Directors. Phil had handled all the details for this fine meeting.

At Springfield on March 5th, 135 District 13 Alumni were present to hear President Ellis describe the "Changing Face of the Campus." Coach Dan Devine held forth on Missouri's football prospects and Alumni Association President John Morris gave the association report. The arrangements for the meeting and the emceeing were the responsibility of Dr. Arch Lowe of Springfield, a vice-president of the Alumni Association and a representative to the University Committee on Intercollegiate Athletics. Arch reported that this was the largest turnout ever for an alumni meeting in Southwest Missouri, and he expressed his appreciation to the interested alumni who made it possible.

Other district meetings in the offing include District I at Maryville, Districts 14 & 15 at Poplar Bluff and District 3 at Hannibal.

In accordance with Article III of the By-Laws of the University of Missouri Alumni Association, notice of the election of officers for 1959-60 is hereby given. Any alumnus may nominate candidates, and nominations are now being received by the Secretary's office, 101 Read Hall, Columbia. Nominations close May 1.

Taipei alumni form club

A University Alumni Club has been organized in Taipei, the capital of Free China, with approximately thirty members. The organization meeting, held on January 25, elected Dr. Hollington K. Tong, former ambassador to America, honorary chairman, and Ma Hsinyeh, B.J. '34, president.

Honorary members elected were Dr. Frank Luther Mott, Mrs. Sara Lockwood Williams, Dr. Frederick A. Middlebush, Dean Earl F. English, and Prof. Maurice Votaw.

Those elected to the board of administration were: Pa-chun Chao, chairman of the Bank of Communications; C. H. Shen, secretary to President Chiang; Stanway Cheng, director and editor of China News; Milton Shieh, publisher of Hsin Sheng Daily News; Sieng-fen Tsao, publisher of China Daily News; Cheng Chien, editor-in-chief, and H. C. Wang, editorial writer, both of Central Daily News; and Helen Yu, co-editor of China Post.

Members elected to the Board of Control were: Chungchin Tien, minister of interior; F. K. Tseng, grand justice; Chi-jen Chen, editor-in-chief of China Post. Milton Shieh, delegate to the World Press Congress held at the University this month, spoke on the history of the Congress and the relation with China. Helen Yu and P. Y. Huo, recent graduates who returned to Taiwan this year, reported on present conditions on the Missouri campus.

Ellis visits California alums

President Elmer Ellis, accompanied by Mrs. Ellis, met with University alumni at three successful events in California on February 25 and 26.

About one hundred persons attended a dinner meeting held at the Chapman Park Hotel in Los Angeles on February 25. President Ellis spoke on "The Changing Face of Your Campus." G. H. Entsminger, director of alumni activities, discussed the expanded program of the association. Curtis Winters, Jr., president of the Los Angeles alumni organization, presided.

On the following night the San Diego County Alumni Association held a dinner meeting at the LaJolla Country Club at which approximately sixty persons were present. H. Bailey Gallison and Howard Taylor, co-chairmen of the alumni group, handled arrangements for the meeting, which was well publicized in the area. Gallison presided at the dinner, and Entsminger introduced President Ellis for a discussion of University conditions and changes. A special guest was Joaquin Rocas, general manager of the Manila Times. He had been honored earlier in the day at a luncheon given by James S. Copley, publisher of the San Diego Union, who was host to Rocas, an official delegate en route to the World Press Congress in Columbia. The visitors from Missouri, as well as Gallison and Taylor, were present at the luncheon.

*HELPING HOMETOWNS

itioner," and that when specialized knowledge or planning is necessary, technical experts are called in to assist.

A current box score on activities shows that the program is active in eighteen communities. Projects have been completed in six communities. In a dozen other localities, plans are in the making but have not begun to "jell." There is a waiting list of ten requests, the delay being attributable to a variety of factors.

Dr. Schenk said one of the important responsibilities of the program is to bring to the attention of the communities the fact that a wide variety of public and private resources are available to the citizens, and to help the citizens make use of these resources when they need them. He has found that oftentimes communities are not aware that these services are available or do not understand how to apply for this assistance.

Briefly, the Community Development Program functions in this way:

Receives a request from a community.

Analyzes the request to determine if the services of some specific agency of government can take over and aid the community in achieving a solution to its problem. If so, the request is forwarded to the proper agency and the community notified.

If the problem is not sufficiently specific to enable referral to some other agency, then the program will assign a consultant to meet with the local group and help to crystallize the problem.

When the problem is pin-pointed, the Community Development Program will notify these specialists, both within the University and in other government agencies, that additional technical services are needed, and arrange for the integration of the specialists' services into the community program.

The consultant will continue to follow the progress of the community in its attempts to solve the problems and assist it over new hurdles as they appear.

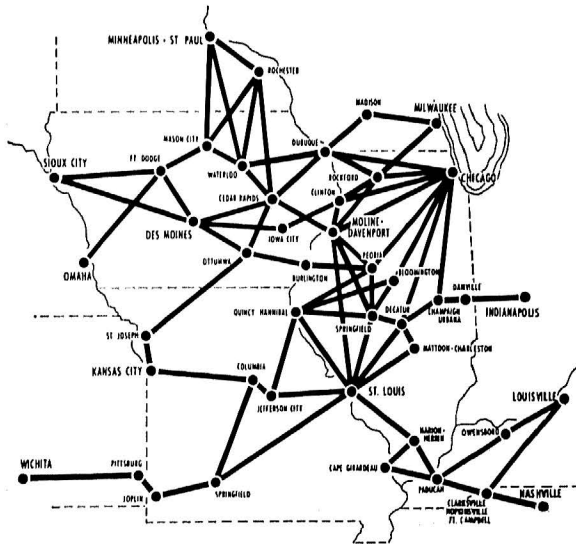

The program's services are available to any community in the state. In actual practice it is expected that most of the services will be given to communities under 25,000 population.

In its short, busy existence, the Community Development Program has seen Missouri communities recognize their needs and implement their own initiative to do something about them. The staff has been cheered by the progressive steps taken by small towns to improve existing conditions and plan for the future; they have come to know many of the local citizens as good neighbors. The Community Development Program is another service of the University that goes beyond the campus, in keeping with the statement by the Committee on University Policy concerning the University's function: "Its full responsibility has been met only when its services reach all the people of the state."

class notes

98 WALTER HAM, Agr., who has been retired from railroad work for several years, lives in southern California, P. O. Box 7087, San Diego 7. He is one of the remaining 130 members of Company I, Fifth Missouri Regiment, Spanish American War Veterans.

L. E. DURHAM, AB, LLB '99, who formerly practiced in Kansas City and Chicago and who spent 25 years as a corporation lawyer, is retired and lives in La Jolla, Calif., 364 Via del Norte.

Mr. and Mrs. JOHN H. LYNCH now live at Ocean Springs, Miss., 122 Church Street.

03 Dr. WILLIAM H. GOODSON, AB, AM '05, Med. '06, concluded 50 years of medical practice in Liberty and Clay County, Mo., last fall. His many friends in the community expressed their appreciation of his services at a reception in his honor. Dr. Goodson, who lives at 37 Moss Street in Liberty, has two sons who are graduates of Missouri. Dr. WILLIAM H. GOODSON, Jr., AB '30, lives in Kansas City at 46 East Fifty-fourth Street. Dr. LOUIS H. GOODSON, AB '35, of 5740 Cherry Street, is a chemist for the Midwest Research Institute in Kansas City. Mrs. Louis Goodson is the former DOROTHY E. HOFFMAN, AB '36.

04 TOM K. SMITH, AB, LLD '35, chairman of the Boatmen's National Bank of St. Louis and former American Bankers Association president, retired from the board of American Telephone and Telegraph Company in February. Mr. Smith, a director of American Telephone since 1940, was ABA president 1936-37. Among his other business and civic connections, he has served as a director of the Federal Reserve Bank of St. Louis, and special adviser to the Secretary of the Treasury on banking matters. He was named president of Boatmen's National in 1929, in the midst of a successful career in investment banking, and was advanced to chairman in 1947. The Smith home is at 23 Kingsbury Place, St. Louis 12.

08 HARRY A. PHILLIPS, AB, BS Ed., is a professor emeritus of agriculture and geography at Central Missouri State College in Warrensburg, Mo. He received his A.M. and Ph.D. degrees at Cornell and has done additional work at Kansas State. Dr. Phillips joined the staff of Central State College in 1908 and became head of his division in the early '30's. He is co-author of two widely used textbooks on "Geography of Missouri" and "Agriculture and Farm Life." When the new buildings on the campus at Warrensburg were dedicated last year, the new men's dormitory was named Harry A. Phillips

Hall. Dr. Phillips lives at 517 South Holden Street, Warrensburg.

13 Mrs. Don C. Magruder, formerly LAURA MORRIS, is with the University of Southern California and lives at 225 No. Avon, Burbank, Calif.

JOSEPHINE D. SUTTON, AB, BS Ed., lives at 759 N. McCadden Place, Los Angeles, Calif.

ELMER H. GRIMM, AB, St. Louis attorney, lives in University City at 7166 Pershing Ave.

15 BLAKE-MORE GODWIN, AB, DFA '55, who has been on the staff of the Toledo Museum of Art in Ohio since 1916, and who has been director for 33 years, was promoted in February to vice-president and a member of the executive committee of that institution. Born in Clinton, Mo., Mr. Godwin has become an international figure in the art world and his museum has become one of the top seven in the nation. He is also chairman of the trustees of the Libbey Estates which endowed the Museum, and recently was named managing trustee. Mr. Goodwin was assistant in Classical Archaeology and History of Art to Prof. John Pickard at M.U. from 1912 to 1915. He is a member of Phi Beta Kappa. In 1955, Mr. Godwin was awarded an honorary Doctor of Fine Arts degree from the University and delivered the Commencement address. His father, WILLIAM M. GODWIN, was a member of the Class of 1884, and his brother, Col. JIMMIE JEAN GODWIN, earned degrees in electrical engineering in 1917 and 1918.

Blake-More Godwin, '15

Mr. and Mrs. H. C. McKim of southern California are regular attendants at the Missouri alumni meetings in that area. Mrs. McKim is the former VIOLET WEBB, AB, BS Ed., and their home is 6713 Cedar Ave., Huntington Park, Calif. Dr. McKim is state veterinarian for all the southern California race tracks.

DONALD S. LIBBEY, BS Com., AB '22 for many years a career employee of the National Park Service of the Department of the Interior, is Superintendent of Carlsbad Caverns National Park, New Mexico; Glacier National Park, Montana, and Hot Springs National Park, Hot Springs, Arkansas. Mr. Libbey, of Centralia, Mo., was the first to receive a degree, BS in Commerce. That year, 1914-15, marked the establishment of the School of Commerce at the University and Don Libbey was their all-Department president. He returned to the campus to complete his AB degree in 1922 and for the next ten years was professor of geology at Drury College in Springfield, Mo. He continued graduate work at the University of Colorado in Boulder. In 1932 Mr. Libbey joined the National Park Service and served as Assistant Superintendent, Crater Lake National Park in Oregon, and as Supervisor, Emergency Conservation Work on the Director's staff in Washington, D. C., before assuming his present position. His address is Box 859, National Park Service, Hot Springs National Park, Ark.

BEN F. GEISERT, BS Agr., and Mrs. Geisert, who was CORA V. SCHULTZE, AB '16, continue to farm on the same acres to which they moved in 1916 after their marriage. It is located in Franklin County near Washington, Mo., Route 1, Box 160. Their five children are Missouri alumni. Their sons, BEN A., Agr. '48, and JAMES F., BS Agr. '58, are farming with Mr. Geisert. Ben F. Geisert is also chairman of the board of the Franklin County Bank.

17 WILLIAM J. LOEFFEL, BS Agr., chairman of the Department of Animal Husbandry at the University of Nebraska College of Agriculture, joined the staff there in 1919. He was cited for outstanding service by the Nebraska Livestock Feeders Association last fall, in recognition of his contributions to research, teaching and administration. His 40 years of service includes work with feed survey and feed industry groups, 4-H Clubs, Nebraska Experiment Station, National Livestock and Meat Board, and many others. He is a native of St. Louis, Mo. Mr. and Mrs. Loeffel, who live at 1401 N. 41st., Lincoln 3, have three sons. They are William C., Jr., of Chicago; Dr. Edwin J. of Mitchell, Neb., and Dr. Frank A. Loeffel of Lexington, Ky.

FRANK H. KING, BJ, retired on December 31, 1958, after serving as general executive of the Associated Press in the Southwest for the past 10 years. Mr. King began his career with AP in 1920; later served as chief of their London Bureau, and from 1937 to 1954 was general executive and Dallas bureau chief. He has joined the Houston Chronicle for a brief tour of duty as a consultant. Mr. and Mrs. King continue to live at 4009 Gillion, Dallas 5, Tex.

name, the late NATHAN SCARRITT, AM 1847, and three others were the first persons to be awarded Master's degrees by the University. His granddaughter, Katharine Louise Scarritt, was born last October to Mr. and Mrs. NATHAN S. SCARRITT, III, '50, Norman, Okla. The younger Mr. Scarritt is teaching in the mathematics department of the Uni-

versity of Oklahoma and is completing his work for a master's degree there. Mr. Scarritt's address is Champlin Oil & Refining Company, P. O. Box 552, Enid.

Mr. and Mrs. CLAUDE P. OWENS, BS Eng., live at 1223 Elmerine, Jefferson City, Mo. Mr. Owens is with the engineering department, surveys and plans, of the State Highway Department there.

18 "A Long Way From Missouri" is the title of MARY MARGARET McBRIDE's newest book, published by G. P. Putnam's Sons, New York. This is a personal history of her life which includes her newspaper career from her cub reporting to vivid writing years, to her entrance into a radio career. As Nell Sneed of the Kansas City Star states: "It is written with the same homespun approach that has made her friends the world over because it is sincere, she is always herself—that is her charm in writing as well as in real life."

RUSSELL McFARLAND, AB, of 5535 Wenonah Drive, Dallas, Texas, has recently been made an honorary life member of the Dallas Geological Society. This honor is in recognition of his many significant contributions to the petroleum industry. For many years he was associated with the Seaboard Oil Company and for several years was president. In 1928 Mr. McFarland was president of the American Association of Petroleum Geologists.

ADOLPH MAYER, who left school to enter World War I, retired during the past year as representative of the Claussner Hosiery Company of Paducah, Ky. He is also a retired lieutenant colonel in the Air Force. Mr. Mayer, of 103 West Parkway Drive, has lived in Columbia since 1945. Mr. and Mrs. Mayer have two daughters, two sons-in-law, one son and a daughter-in-law, all of whom are alumni of the University. Mr. and Mrs. (CISSY MAYER) WILLIAM P. JENKINS, BS BA '47, live in Columbia at 109 Meadow Lane. Mr. and Mrs. (POLLY MAYER) JAMES S. REED, BS Ag.E. '55, live at 117 North Glenwood in Columbia. JACK LEE MAYER, BS BA '48, and Mrs. Mayer, who was ROSEMARY SWYGARD of Columbia, live in Kirkwood, Mo., at 2224 Ferncliff.

19 NATHAN SCARRITT, AB, a resident of Kansas City at the time he attended the University, is now vice-president and general attorney of Champlin Oil & Refining Company of Fort Worth, Texas, and Enid, Okla. His grandfather by the same

Push-button housekeeping?

Plenty of electricity can make your home of the future a house of marvels. From a central control panel, you may be able to wash your dishes, raise and lower windows, control the lighting in every room—even make your beds!

Think for a moment about the wonderful electrical devices we have for the home today that were almost unheard of ten years ago! Television, air conditioning, fully-automatic clothes washers and dryers—all are comparatively new appliances that are helping us LIVE BETTER . . . ELECTRICALLY.

The push-button home of tomorrow promises an even greater opportunity to LIVE BETTER . . . ELECTRICALLY. Kansas City Power & Light Company is planning and building ahead now . . . to provide you and your family with an abundance of low-cost electric power for all your needs of the future . . . whatever they may be.

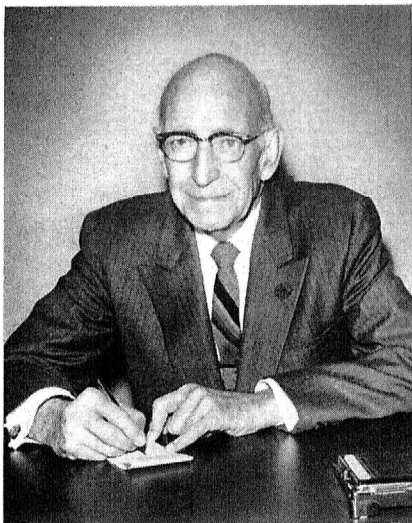

KANSAS CITY POWER & LIGHT COMPANY

class notes

20 JOSEPH J. SHY, LL.B., is a practicing attorney of Chillicothe, Mo. Mr. Shy, on the Tiger football team in 1915 and '16, entered the Army in May, 1917. He was reported killed in France, funeral services held at Baptist Church in Columbia, but he returned to complete his law degree at the University. JOSEPH SHY, Jr., BS CE, BS BA '49, is a contractor in Chillicothe. His wife is the former NANCY LOCKE, BS HE '50, and their home is 1315 Clay St. Mr. and Mrs. Shy, Sr., live at 1503 Calhoun. Their daughter, Barbara, is a senior at the University this year.

21 LAURA LOU BROOKMAN, AB, BJ, a former society editor of the Columbia Daily Tribune in Columbia, is contributing editor for the Ladies Home Journal published in Philadelphia. Miss Brookman is a native of Vermillion, S. Dak., and began her journalism career on the Des Moines Register after graduation. Other work has included publicity for the National Y.W.C.A. in New York City, women's editor of the Baltimore Post, fiction editor in Cleveland, work with several syndicates and free-lancing. After joining the Ladies Home Journal she was managing editor for 12 years and is now special projects editor. She also owns a book shop in New Hope, Pa. Miss Brookman lives at 2100 Walnut St., Philadelphia 3, Pa.

HARRY WHITE, AB, physician and veteran Los Angeles general practitioner, is president of the Medical Staff of the Queen of Angels Hospital in Los Angeles. The Queen of Angels staff has 411 members and 27 interns and resident doctors. Dr. White has practiced in Los Angeles since 1923. He has been in pri-

Dr. Harry White, '21

vate practice since 1927 and has been a member of the hospital's medical staff since that date. He received his medical education at Bellevue Hospital Medical College, New York University, and interned at Los Angeles County General Hospital. Dr. and Mrs. White live in Los Angeles 27, 1930 Wilshire Blvd. They have two children.

22 JOSEPH E. WITT, BS Agr., is manager of Swift & Company in Whittier, Calif. His home address there is 1001 W. Beverly Drive.

J. G. RITTER, BS Eng., ME, recently has been named Manager of Facilities Planning for the Columbus, Ohio, Westinghouse plant. He is a veteran of 37 years with Westinghouse. He joined their staff in East Pittsburgh and later served at the Springfield, Mass., plant before going to Columbus in 1952. Mr. and Mrs. Ritter live at 3165 Mountview Ave., Upper Arlington, Ohio. They have two children; a daughter in Florida and a son with the Westinghouse Jet Engine Division in Kansas City, Mo.

A. BROOKE WADE, BS BA, is with the Missouri Public Service Co. in Sedalia, Mo. Mr. and Mrs. Wade, who is HAZEL M. NUCKOLS, live at 1416 So. Vermont in Sedalia. Their two daughters are Marian, who is Mrs. George Whitehouse of Manchester, N. H., and Margaret Ann, who is Mrs. G. A. Dowdy of Del Rio, Texas. The sons are RICHARD N. WADE, AB '49, BJ '51, and ROLAND G. WADE, BS Agr. '56.

23 Dr. J. BRIGGS RICE, dentist, lives in Sedalia, Mo., at 1610 West 11th St. A son, James, is a pre-med freshman at the University this year.

LOREN W. TUTTLE, BS Eng., is an assistant vice-president of Northern Illinois Gas Company, headquarters in Aurora, Ill. He started with one of the company's predecessors in 1923 and has been in gas engineering and operating work almost exclusively. In 1954 he became manager of operations and was promoted to his present position in 1958. The address is 50 Fox Street in Aurora.

24 JULIAN D. JAMES, AB, is chairman of the board of Missouri Power and Light Company in Jefferson City, Mo. Mr. and Mrs. James, who was MARY-BURTON GEORGE, AB '26, live at 1918 Hayselton Drive in Jefferson City.

ROY J. BARRETT, Eng., is owner of Central Missouri Distributing Company of Jefferson City, Mo. His home is 1001 Adams Street there.

J. G. Ritter, '22

MICHAEL D. LIEBERMAN, Arts, self-employed attorney, lives at 715 St. Marks Ave., Brooklyn 16, New York.

HAROLD S. BEIGHLEY, BJ, is manager of the Retail Credit Company of Wichita, Kan. His home is 2134 Mesita Drive there.

LEONARD CONNETT, BS Eng., is owner and proprietor of Piston Ring Service Company of New Orleans. Last June, after 20 years at one site, the company moved into new and larger quarters at 1200 South Claiborne Ave. Last year Mr. Connett was named president of Automotive Engine Rebuilders Association after many years of service with that group. He was born in St. Joseph, Mo.; did graduate work at M.I.T., and took his first job with an Ohio steel manufacturer. After three years with the steel mill and one with another Ohio business firm, he secured the franchise for the Cord steel ring in all of Louisiana, and began the small office in New Orleans which was the predecessor of Piston Ring Service Company of the present. Mr. and Mrs. Connett live at 800 Barronne Street in New Orleans. Their daughter, Carol, assists her father in the office. A younger daughter, Katheryn, will graduate from high school this year. An avid fisherman and duck hunter, Mr. Connett is featured in the winter issue of the Jobbers Journal in an article entitled "Southern Sportsman."

26 PANSYE POWELL, AB, AM '42, English teacher at East High, Salt Lake City, was featured in the November issue of the Utah Educational Review for outstanding work in the field of education in Utah. She has been doing an outstanding job of

teaching English and creative writing at East High for the past 15 years. Mrs. Powell, formerly Pansy Hawkins, continued her studies at the University of Wyoming, where she held three honorary fellowships. She also excels in the field of writing, for her publications include many poems, short stories and articles. At present she is president of the Art Barn Poets and vice president of the Utah Poetry Society. The Powell home is 919 S. 15 E Street, Salt Lake City.

B. JACK WERRE, BJ, AB, is a public relations associate with New York Life Insurance Company. His home is 45 Carmine St., New York 14, N. Y.

B. R. SMITH, BS MS '57, and Mrs. Smith, who was ELLEN JANE RUTTER of Columbia, announced the birth of a son, Michael James, on January 26. Mr. Smith is a graduate student at Purdue University and they are living in West Lafayette, Ind., Bldg. 19, Apt. 4, Ross Ade Drive.

53 GENE LANDOLT, BS, has been elected vice president of the Bank of Murray, Murray, Ky. He is head of the installment loan department of the bank. He is a member of the Board of Directors of the local Junior Chamber of Commerce and has been chosen as a candidate for the Jaycee Man of the Year. Mrs. Landolt is the former LOCHIE HART, BJ '55. They have two children, George, 3, and

ENGINEERS

PHYSICISTS

MATHEMATICIANS

Douglas diversification affords broadened opportunities, combined with stability and security.

Engineering at Douglas is divided into three basic areas ... missile and space systems, transport aircraft and combat aircraft. In these military and commercial categories, each advancing beyond present frontiers of achievement, engineers and scientists can progress to the limit of their capabilities.

In addition, supervisory and executive openings are filled from within the company. Many of the top executive officers at Douglas are engineers who have moved right up to assume wide responsibility.

We are interested in engineers with backgrounds in other fields as well as avionics, aircraft and missiles.

For further information write to Mr. C. C. LaVene, Douglas Aircraft Company, Inc., Santa Monica, California.

Section KK.

A personal and (let us hope) encouraging message to an **ELECTRONICS ENGINEER IN A QUANDARY:**

When Dame Destiny crooks her finger at you and says, "Let's go with Bendix in Kansas City, old boy!" you face a set of small problems that are well worth solving . . .

There is an excellent possibility that very soon we shall be offering you the position you've been waiting for. It could be a position at a higher level than the one you now hold and—have little doubt about this—you'll be tempted.

You may, during this period of decision, suffer torments like the engineer we picture above. (We sympathize with him . . . most of us have been through it ourselves.) We'd like to help you then but we know that you yourself must measure these personal catalyzms and weigh them against the advantages of your professional future here. We can only suggest that Kansas City abounds with other potential playmates or sweethearts, other teams hopefully waiting for a star player, and—who knows?—your new drapes may need only slight alteration to fit Kansas City windows.

We're supremely confident that *somehow* you will find the resolution and ingenuity required to solve these problems if we give you sufficient incentive.

So let's talk about incentive.

Because Bendix, Kansas City, is a long term prime contractor for the AEC, we can say little here about our products except that they are advanced electronic, electro-mechanical devices designed and manufactured to extraordinarily high levels of reliability. After only ten years we have become the city's largest manufacturer, and we're still expanding. Recently-inaugurated programs make most likely that we can offer you a position that will fully utilize your talents in design, production or supervision.

You should find our salary offer of more than passing interest.

In general, we need *electronic engineers* with at least a BS degree, although

in some openings a degree in *physics* is acceptable. Experience should range upwards of 5 years.

We welcome *design and development engineers* qualified in the design and development of miniaturized airborne electronic equipment, radar, servo, video, IF amplifiers or vacuum tube applications.

Automation engineers with a degree EE or physics would be well-advised to learn about our current major expansion into fully automated testing of electronic assemblies.

Vacuum tube application engineers will find us attentive when they speak of their work in ruggedized sub-miniature tubes, planar triodes, thyratrons or special purpose micro-wave tubes.

Reliability engineers (preferably with an electrical degree and at least 7 years experience, including some statistical work) will discover that our ever-increasing emphasis on reliability assures them a place in the sun.

We wish we could present all the facts you'll need to weigh, but we find we've barely started. There's much more to say . . . how the Bendix environment stimulates professional creativity and personal progress, how this area provides pleasant, easy-going, economical living, educational advantages, cultural and recreational facilities, etc. . . . but these can wait. For the moment let us simply assure you that—in far less time than you think—you and your family will feel at home here.

We're ready to get very specific regarding your financial incentive. We must first hear from you. May we, soon?

Write Mr. T. H. Tillman, Professional Personnel, Bendix, Box 303-GK, Kansas City, Missouri.

KANSAS CITY DIVISION

class notes

LAWRENCE W. ZIMMER, Jr., a second lieutenant at Ft. Sill, Okla., is assistant editor of "Artillery Trends" and is in the publications division of the Artillery and Missile School. Before entering service in April, 1958, he was assistant news director and sports director for Radio Station KFRU in Columbia. Lt. and Mrs. Zimmer live at 3101 Murra, Ft. Sill.

JANICA ANN MOSLEY, BJ, Vichy, Mo., and NOEL E. TOMAS, BJ, Hacketts-town, N. J., on Jan. 30 in Columbia, Mo. They are living in Columbia at 406 N. Ann.

deaths

ARTHUR N. ADAMS, LLB '97, Kansas City lawyer, on Feb. 21. Mr. Adams practiced law in Kansas City for 60 years

before his retirement in 1955. A son, Eaton Adams, lives in Chicago. There are four grandchildren and three great-grandchildren.

CHARLES ARTHUR BROWN, '03, physician in Kansas City more than 40 years before his retirement in 1957, on January 11 at the University of Kansas Medical Center. Born in Sedalia, he had lived in Kansas City since 1886. In addition to his private practice there, Dr. Brown had been associated with the old Wesley Hospital, as physician for Pratt & Whitney engine plant and for eight years was medical unit adviser for the general postoffice. Mrs. Brown survives at 301 West Forty-fifth Street; there are two daughters, Mrs. Robert Mehornay and Mrs. Carl F. Wymore, both of Kansas City, and three grandchildren.

JOHN M. LANGSDALE, '05, attorney, on January 30 in Kansas City, Mo. Mr. Langsdale had practiced law in the Scarritt building more than 40 years. His brothers, CLIF LANGSDALE, AB '04, and Gibson Langsdale, shared the offices with him. Mrs. Langsdale, of the home at 5600 North Doniphan Lane, Oakwood Addition, Clay County, survives.

CAROLINE MCGILL, AB '04, AM '05, Ph.D. '08, on Feb. 4 in Gallatin Gateway, Montana. Dr. McGill, who had practiced medicine and pathology in Butte, for 40 years before retiring in 1957, has been living at her Montana ranch since retirement. She was the first woman to receive a Ph.D. degree from the University. She had also studied in Berlin, Naples and at Johns Hopkins University. She is survived by two sisters and one brother.

CECIL K. EASTMAN, AB '07, one of the first alumni of the School of Journalism, on Feb. 20 in Daytona Beach, Fla. He was the retired wire news editor of the Daytona Beach Evening News. Born in Winston, Mo., he began his career at the Kansas City Star. Joining the Associated Press, he became news editor for the Central Division out of Chicago. In 1927 Mr. Eastman went to Orlando, Fla., as a free-lance writer and handling public relations for Rollins College. He joined the Daytona Beach News-Journal in 1930, retiring in 1954. Mrs. Eastman and one daughter, Elizabeth, live at 406 Braddock Ave., Daytona Beach. The two other daughters are Mrs. Gene Ellis of Denver and Mrs. Kurt Massfeller, Newark, Del. The sons, Richard D. and James M., live in Hattiesburg, Miss., and South Bend, Ind., respectively.

LEWIS KNUDSON, BS Agr. '08, DS '57, on Augst 31, in Ithaca, N. Y. Mrs. Knudson, who was CALIBEL INGELS, BS HE '10, AB '11, lives at 502 Cayuga Heights Road, Ithaca.

ROY F. MACKLER, Agr. '11, unexpectedly on Feb. 7 on his farm northeast of Sweet Springs, Mo. Fifteen years ago he retired from the farm and moved to Marshall to live, but has kept active contact with the farm and with his son, Ralph Mackler, and family who live there. Mrs. Mackler, of the home at 880 South Redman in Marshall, also survives; and a daughter, Mrs. Lee McGinnis, lives in San Mateo, Calif.

MARY POLK JESSE, AB, BS Ed. '12, AM '26, teacher of the University Laboratory School for 35 years, on Feb. 22 following a long illness. Miss Jesse, daughter of Richard Henry Jesse, president of the University from 1891 to 1908, taught in the public schools of Columbia before joining the University High staff in 1921. She had retired in September, 1956. A brother, Prof. BREDELE JESSE, BA '16, AM '17, and a sister, ADELINE JESSE, AB '13, BS Ed. '14, AM '29, live at their home in Columbia, 810 Hitt Street. Another brother, Dr. WILLIAM POLK JESSE, AB '13, BS Ed. '14, AM '29, lives in Downer's Grove, Ill. A sister, Mrs. John C. Blankenagel, formerly CAROLINE JESSE, AB '07, BS Ed. '08, lives in Middletown, Conn.

CHARLES W. RILEY, Agr. '17, proprietor of the Varsity Drug Store in Springfield, Mo., M-Man and enthusiastic alumnus of the University, on Feb. 25 in Springfield. The Riley home in Springfield is 2342 Terrace Drive.

A. F. LARSON, AB '17, AM '19, on Feb. 27 at the Callaway Hospital after a three-week illness. Rev. Larson taught Bible at William Woods College for 28 years and was teacher of the Men's Bible Class at the First Christian Church in Callaway, Mo. for about 25 years. He is survived by his wife, Catherine, and two daughters, Mrs. Grace Taylor, Fulton, and Mrs. Wilma Bennett of Whippany, N. J., and one son, Edward, of Eunice, La.

CHARLES RUSSELL KNOTTS, BS Agr. '18, on Jan. 12 in Kirksville, Mo. For many years he had owned and lived on a farm near Elmer, Mo. He is survived by one daughter, Mrs. Charlotte Richter, of Vicksburg, Miss.; and one son, Russell, of Elmer, Mo.

HARRY L. KLUTZ, BS Agr. '24, on Feb. 3 in Holden, Mo., due to a heart condition. He is survived by his wife, Grace, of the home, and one son, Harry L., Jr.

PAUL H. WHITCRAFT, '24, on Jan. 7 at Atlanta, Ga. Mr. Whitcraft was president of the Cafco Foods Co., the Tastee Freez chain, K & W Foods and Southern

Pizza companies of Atlanta and the Laminated Dry Wall Co. of Memphis. He was also founder of the WYZE radio station. His wife survives.

CHARLES BALDWIN, Arts '29, on Feb. 8 at his home in Wenatchee, Wash., of a heart attack. He is survived by his wife and parents and one sister. He owned and operated a poultry ranch in Washington.

Mrs. W. Wayne Barnes, formerly **FRANCES VIVIAN NOEL**, AB, BS Ed. '30, on Feb. 28, at St. Luke's hospital in Kansas City after a four-week illness. She lived at 1007 W. 65th St., and was principal of the E. F. Swinney School in Kansas City. She was a member of Phi Beta Kappa and prominent in student organizations. She is survived by her husband and a daughter.

WILBUR ANDREAS SCHEIDEMANTEL, '31, on Jan. 12 at his home in Avenal, Calif. Mr. Scheidemantel taught for several years in Dent and Phelps counties and for the past 12 years was associated with the Avenal Public School system. He is survived by his father, of St. Louis, also three sisters and three brothers.

JUNE ALGEO, AM, '31, on Jan. 21, in Wallace Memorial hospital in Lebanon, Mo., following a long illness. Miss Shipley was director of English and journalism at the Milan High School for 17 years. She is survived by two brothers and two sisters.

THOMAS J. HODGE, AM '35, on Feb. 1, at the Mt. Vernon Sanatorium. He was 87 years old. Mr. Hodge taught in rural and secondary schools for fifty years and also served as County Superintendent of Schools of Barry County. He is survived by his wife, Mrs. Nora Hodge, and one son, Loren, both of Cassville; two sisters, Mrs. Lucy Fain of Monette and Mrs. Grace Varner of Bartlesville, Okla.

KENT N. RIFFIE, BS Agr., '35 Feb. 1 in Maysville, Mo. Mr. Riffie operated a dairy farm just north of Maysville. He is survived by his wife, Mrs. IVALOO RIFFIE, and one daughter, Sandra, both of the home.

RUTH L. SHIPLEY, M.Ed. '13, on March 8 in Kirksville, Mo., following a

two-week illness. Miss Shipley was director of English and journalism at the Milan High School for 17 years. She is survived by two brothers and two sisters.

RAYMOND SOLOMON, BJ '49, on Jan. 13, as a result of a plane crash near Anderson, Ind. He lived at 1515 Ridge Road, Highland Park, Ill. Mr. Solomon was associated with the Forse Corporation of Chicago. His friend, Harry Barnard, devoted his "Liberal at Large" column in the Chicago Daily News to a tribute to Solomon. "With all his dedication to business enterprise, he also had a strong social conscience," Barnard wrote. "Because he prized a fair break for himself, he stood for that for others. That's a good basis for social idealism. It is the socially conscious American businessmen, of whom Raymond Solomon was an emerging example, who will win the battle for survival of our system."

MELVIN C. KOLLMMEYER, BS Agr. '56, on Feb. 3, in St. Louis, Mo., following a long illness. Mr. Kollmeyer was employed at the McDonnell Air Craft in St. Louis. He is survived by his wife and one daughter, Vickie, of the home and his parents, Mr. and Mrs. Frank Kollmeyer, a brother Vernon and one sister, Mrs. Marilyn Stolz of Chicago.

FIGHT CEREBRAL PALSY

JOIN  **United Cerebral Palsy**
53 Minute March

Cerebral palsy is caused by an injury to various cells in the brain. It may be marked by awkward, involuntary motions, lack of balance, irregular gait, guttural speech, or any combination of these.

It is not inherited and not infectious. It can be caused before or at birth or at any time in later life. There are more than half a million CPs in the United States. Proper treatment is expensive.

Help the CP help himself.

Send your contribution today to: United Cerebral Palsy of Missouri, Inc., Box 68, Columbia, Mo.
