ALUMNUS

October 1959

What Does Big Business Do for Little Business?

BIG HELP FOR SMALL BUSINESS and a big help for us too. Western Electric Company representative (left) discusses order with one of its many small business suppliers. Item purchased here is spring used in Bell telephone dials. Millions are bought every year.

It does a great deal.

The Bell System, for instance, buys from many small businesses.

In 1958, its manufacturing and supply unit, the Western Electric Company, did business with more than 30,000 other firms throughout the country. Nine out of ten of these suppliers had fewer than 500 employees.

Purchases totaled more than \$1,000,000,000.

In addition, Bell System employees spent a large part of their \$3,750,000,000 wages with hundreds of thousands of other businesses.

The Bell System also helps many a small business get started and grow by making its inventions and its product designs available to others on reasonable terms.

Nearly eighty companies, for example, have been licensed to make and sell transistors and thus extend the usefulness of this amazing Bell Telephone Laboratories invention.

There is no doubt that it has been one of the biggest factors in the electronics boom.

OCTOBER 1959—VOL. XLVIII, NO. 2

A Dean Named Joe	2
The Rapid Rise of Paul A. Gorman	5
The First Week	6
Alumni Leaders Begin New Year	14
Space Age Rough on Tigers	18
Class Notes	20

About the cover: Susan Wind of Affton, Mo., a freshman, appears a bit baffled by all the paraphernalia installed in Rothwell Gymnasium for registration procedures. Beginning on page six is a series of pictures of Susan going through New Student Week, as photographed by Lee Battaglia, University of Missouri Press.

Jack C. Taylor, '30, Editor; Betty Griffin, Class Notes Editor and Business Manager; Paul Fisher, '41, Consultant; Bus Entsiminger, '49, Alumni Secretary and Executive Editor; Jean Madden, '50, Assistant Secretary and Sports Editor; William R. Toler, '48, Columbia, President, University of Missouri Alumni Association.

THE MISSOURI ALUMNUS

is published monthly except July, August and January by the University of Missouri Alumni Association, 101 Read Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$1.00 a year; life membership \$80. Member, American Alumni Council.

A dean named Joe

The man from Arkansas who came to this campus a year ago as Dean of the University's School of Law began acting and talking like a Missourian soon after his arrival. Dr. Joe E. Covington obviously was shown enough by the natives, in Columbia and around the state, to imbue him with an enthusiasm for his new surroundings. (Perhaps this is as good a time as any to clarify the record on the dean's first name. It really is *Joe*. Colleagues at Harvard chided that his parents chose the short version because they could not spell Joseph).

The dean lost no time in becoming a Missouri traveler. When there were no Bar meetings to attend, he sometimes got in a car and drove off through his new state, to meet people. Stopping in small towns and large ones, he made himself known to local lawyers. Wherever he went he found the reception warm and cordial, particularly from alumni.

A visit to Dean Covington in his office just before he left for a vacation after twelve months on the job showed him to be a shirt-sleeved administrator who keeps a tie and jacket hanging nearby for emergency use. In looking back over his first year he had a choice of many topics to talk about, such as the new four-story addition to Lee H. Tate Hall, the Law School's enlarged library services, and the School's basic aims in the training of students—as well as the contacts he has made. Contacts were available wholesale on the occasion of his first Law Day, held annually on the campus in the spring.

"It was an interesting experience for me," he said, "and it was amazing to see hundreds of alumni and friends of the Law School pouring into Columbia to greet one another and to check on the progress of the School."

"It indicates the strong attachment the alumni have for their Law School, which they realize contributed materially to their success. And since I'm new here I can also say that I think it is an indication of the high regard the former students have for the faculty. I frequently hear lawyers say, 'I want to get back on Law Day to see the Old Gray Fox' or some other affectionate name that students have a habit of associating with members of the faculty."

Thus in his first year, the new dean, an energetic and friendly man who seems younger than his 48 years, has made hundreds of acquaintances around the state. He has adapted himself quickly as a

personable representative of the University, a role in which he had distinguished himself at the University of Arkansas. He was serving there as dean of the law school when selected for the Missouri opening, after Dr. Glenn A. McCleary had requested to be relieved of the deanship to resume full time teaching. Covington was Acting President at Arkansas in 1951-52 and again in the spring of 1954. He filled various other administrative positions during his years on the Fayetteville campus, which were interspersed with periods of high school teaching, post-graduate study at Harvard, and overseas service in World War II.

He was at Arkansas when Missouri voted the bond issue for state construction, an action which he said "brought much favorable comment from over the nation as a very forward-looking move." In his opinion the \$75,000,000 program is one of the finest things that has happened in Missouri and the people will be proud of the physical plant of the University when present planning is completed, "but by then other plans must be made to take care of the needs for an ever expanding institution which serves the state so well."

The new dean was so impressed with the construction now in progress that he soon joined the ranks of volunteer guides who delight in showing off the campus to visitors. Naturally, he likes to discuss the Tate Hall addition now going up, with some emphasis on the combination courtroom-classroom as one of its attractive features.

He pointed out that the University of Missouri has been one of the few law schools in the country without a courtroom in the law building, and this made it necessary to use the Boone County Courthouse for the Case Club jury trials.

"In the new courtroom there will be tables and chairs in front for a classroom accommodating about 65, and auditorium-type chairs will be installed in the back of the room to provide a total seating capacity of about 275 persons. The room can be used for meetings of the student body, institutes for practicing lawyers, and for other meetings of this type. In the opinion of many, the new courtroom will be one of the most practical courtrooms in any law school. In fact, we believe it is the first of its kind in any law school."

"In our courtroom the judge will be seated with

his back to the corner of the room, and this will balance off the jury on the other side with the court reporter and witness in between. Several new court-rooms in Missouri follow this plan for jury trials, but ours will also be used for appellate arguments before three-judge courts. In appellate cases the student arguing a case will present almost a side view to the audience and can be better observed. We can also have demonstrations in this courtroom by practicing attorneys and faculty members, with a better view of what is going on. We think the plan will draw much favorable attention to the University's School of Law."

Dean Covington spoke with particular pride of the library of the Law School, which he called "one of the better ones in the Midwest," and of its improved facilities when the addition is completed.

"When the Lincoln University Law School closed a few years ago its library was transferred to the University of Missouri, making our collection total more than 100,000 volumes. The combination of two good libraries provides us with a superior library for a school of this size. Space has been so limited in Tate Hall that almost one-third of our books are in dead storage far from the Law Building." This, he said, was one of the major reasons why additional space was necessary for the Law School "for we simply had no place to put the books currently being purchased without putting others in dead storage." With completion of the new addition, all the books will be readily available in one building."

A conference room, tentatively designated the "Alumni Room," is one of the interesting features of the second floor.

"We are expecting donations from the alumni and friends of the School of Law to furnish this in an attractive manner," Dean Covington said. "Also on the second floor will be the administrative offices of the School and a large area will be used for book stacks to house some of the volumes that now overflow the present library."

Most of the faculty offices will be located on the third floor, which will be the same floor on which the present library reading room is found. In the corridor on the faculty floor there will be space for a faculty library of about 17,000 volumes. These will be duplicates of books shelved in the main reading room. The top floor of the new addition will be given over entirely to library stacks with a capacity of about 50,000 volumes.

Dean Covington said former students who complained about the poor lighting in the main reading room will be interested to know that new fluorescent ceiling lights will be installed in the next few months. More shelves are planned for the main reading room so that all the National Reporter System will be available in that room. In addition more books now on the reserve shelves, such as the law reviews, will be placed on open shelves. The new shelves will

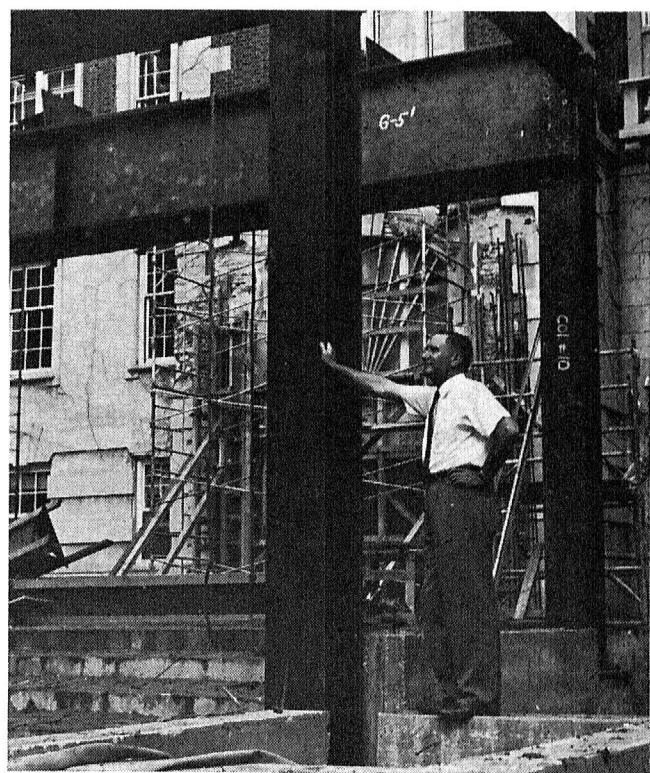

break up the open space into smaller study areas which is in accordance with modern library planning.

"Since many practicing lawyers use our library we want to provide a room for their use with a typewriter and possibly dictating equipment," the dean said.

Dr. Covington was asked whether the Law School's admission requirements might be revised upward some time in the future. It was noted that such requirements had been stiffened several times in the long history of the School.

"It is reasonable to expect that additional requirements will be instituted in the near future to assure that we get a high quality student," he said. "Enrollment has increased from 145 in 1953 to 225 last year. With college enrollments on the increase everywhere we can expect our enrollment to continue to grow, but we do not want to become a large law school. I personally think we should set a maximum enrollment of 300, but we will face that bridge when we come to it. If the facts warrant, I could change my mind. We realize that the University is a state institution and we have a specific duty to the people of Missouri to provide legal training to those who apply and qualify. At the same time we want to place emphasis on quality instead of quantity. We also have an obligation to the legal profession to produce good ethical lawyers. There is no place in the profession for a poorly prepared or unethical lawyer." The dean added that it is the hope of Law School alumni to provide more scholarships to help deserving students.

The rapid rise of Paul A. Gorman

Last June 20 when Paul A. Gorman returned to his native Carrollton, Mo. to dedicate the new high school building, he was introduced as executive vice-president of the American Telephone and Telegraph Company, a position to which he had been elevated a few months before. However, he was probably best known to many of the home folks as the local boy who once swept floors at Mattingly Brothers and Porter Variety Store.

They remembered him, too, as the young fellow who delivered newspapers and held jobs at the Kelly furniture and undertaking establishment and the Fred W. Stamper frozen foods firm.

This early industrious surge showed no letup after he was graduated from Carrollton High School. Entering the University, he fired a furnace and waited on tables, and for three years he worked six hours every night at a campus drug store for \$12.50 a week.

His job almost caused him to pass up an opportunity with A. T. & T. Showing up for an interview at the appointed time, he found the room crowded, and after waiting an hour he started to leave to report at the drug store. The interviewer caught sight of him, called him back and, after a brief discussion, offered him a job at \$30 a week. That was in 1929, the year he won his B.S. in B.A. degree.

Before his latest promotion—one of a series of jumps in responsibilities which have come rapidly in recent years—Gorman had seen service in four departments. As he told Joseph Kaye in an interview

for the Kansas City Star, "I've learned there's no substitute for experience. The broader the experience you acquire, the better you are qualified for increased responsibility. In order to do each job well, you've got to be able to reach a sound opinion and stick to it." Perhaps this formula began taking shape while he did menial jobs in Carrollton.

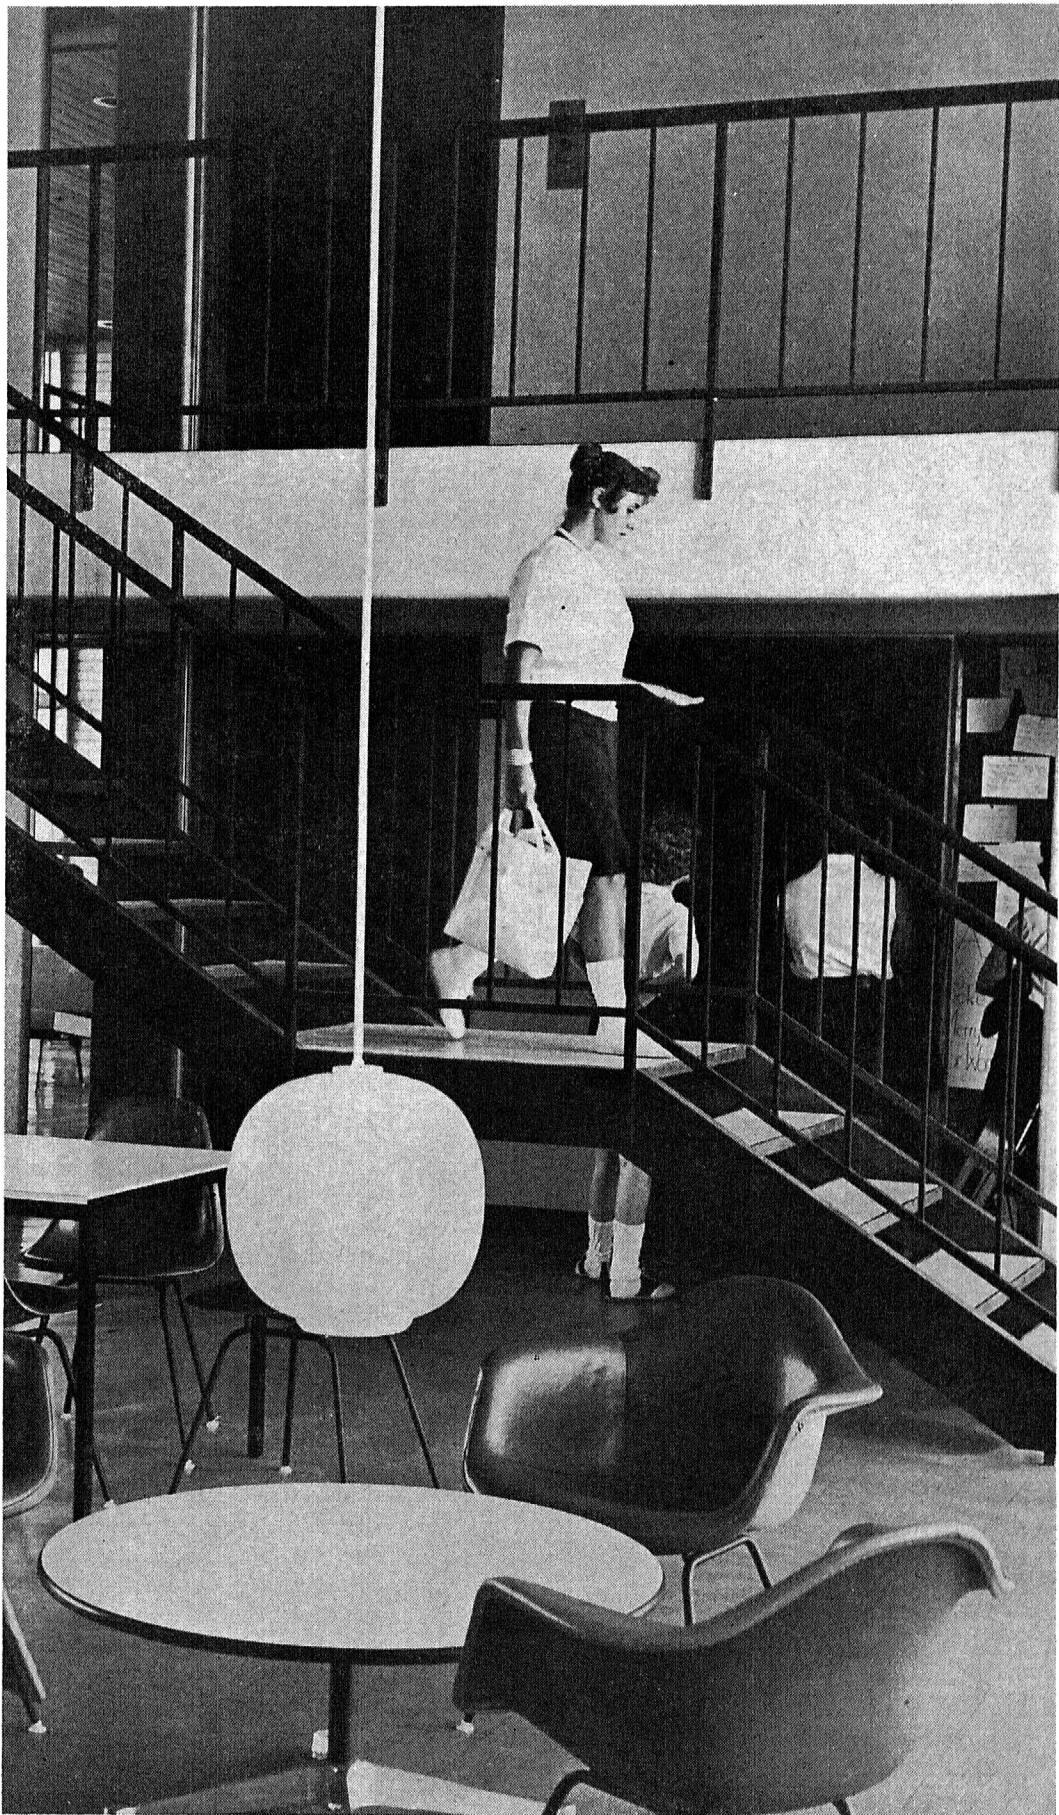

The record of M. U. alumni in top positions with A. T. & T. is impressive. Cleo Craig, from Rich Hill, Mo., is the retired chairman of the board. Eugene J. McNeely, from Jackson, Mo., is also an executive vice-president. William V. Kahler is president of the Illinois Bell Telephone Company. C. E. Schooley is general manager of the Indiana Bell Telephone Company. There are numerous others in high positions.

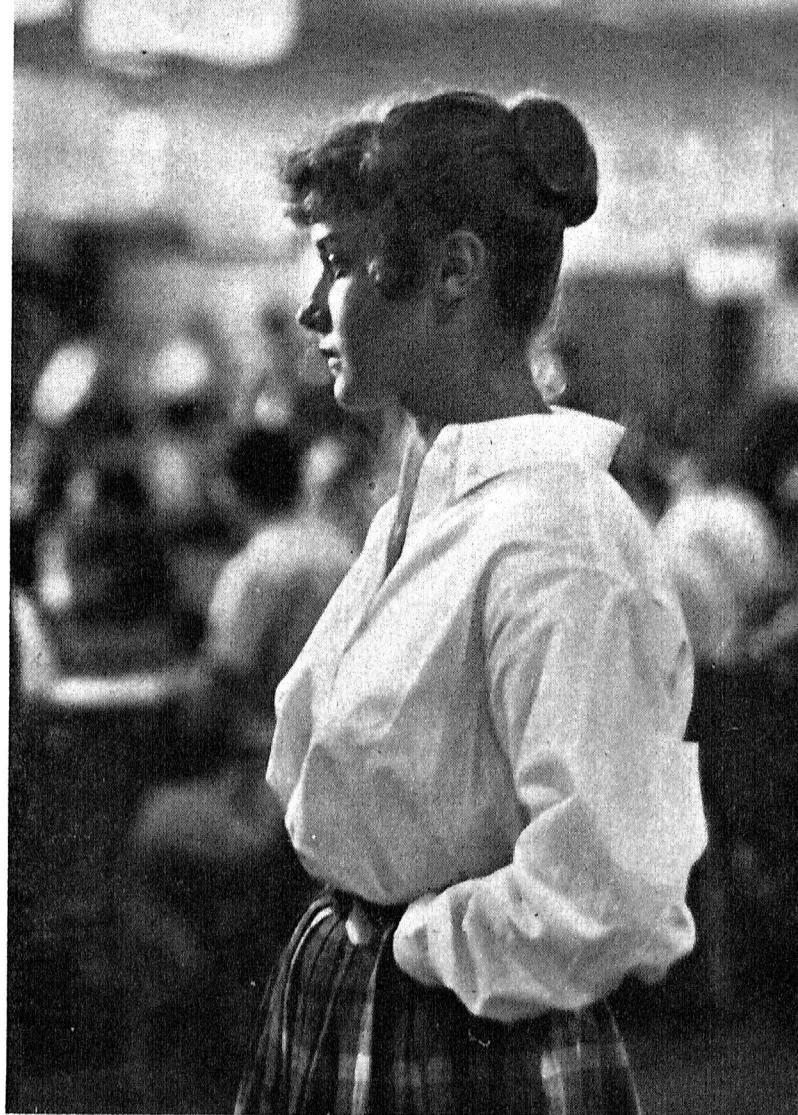

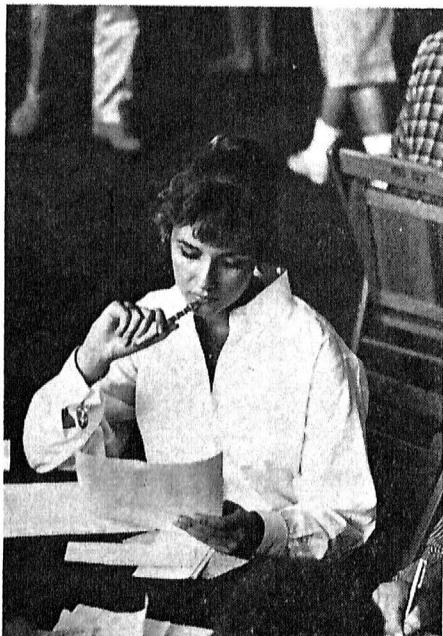

Gorman began his career with Western Electric Company, supply and manufacturing arm of the Bell Telephone System, as an accounting clerk at Hawthorne, Ill. After holding a number of supervisory positions he joined the parent company in New York as assistant personnel relations vice-president. That was in 1953. A year later he returned to W. E. as vice-president for defense projects, and in 1956 he became vice-president of manufacturing. He was elected president of the New Jersey Bell Telephone Company in 1958, and last spring he rejoined A. T. & T. in New York as an executive vice-president.

Two years before leaving the campus, Gorman met his future wife, Betty Edwards of St. Louis, a student in 1928-29. They live in Chatham, N. J.

The First Week

Lee Battaglia
*University of
Missouri Press*

Susan Wind, freshman, from her new home in Hall B, starts out for the registration task and a week of varied activities for new students at the University.

The First Week for a new student, particularly the freshman who is not pre-registered, is a whirlwind introduction to University life. It is a series of procedures and activities that leaves the newcomer breathless if not baffled. Compressed into a few days, the orientation period has the new enrollee dashing from one place to another to stand in line; to fill out forms, check with advisers, work out study programs, and pay fees; to report for physical examination, placement and speech tests. Interspersed with the registration procedures are various meetings and recreational events. The objective is to give the new student a clearer view of the University and how it functions, and to help him adjust more quickly to his new surroundings.

The *Alumnus* chose a freshman in the College of Education, Miss Susan Wind of Affton, Mo. as the subject in this series of pictures taken during New Student Orientation last month. The camera followed her on her rounds for several hectic days, and some

of the results appear on these and subsequent pages.

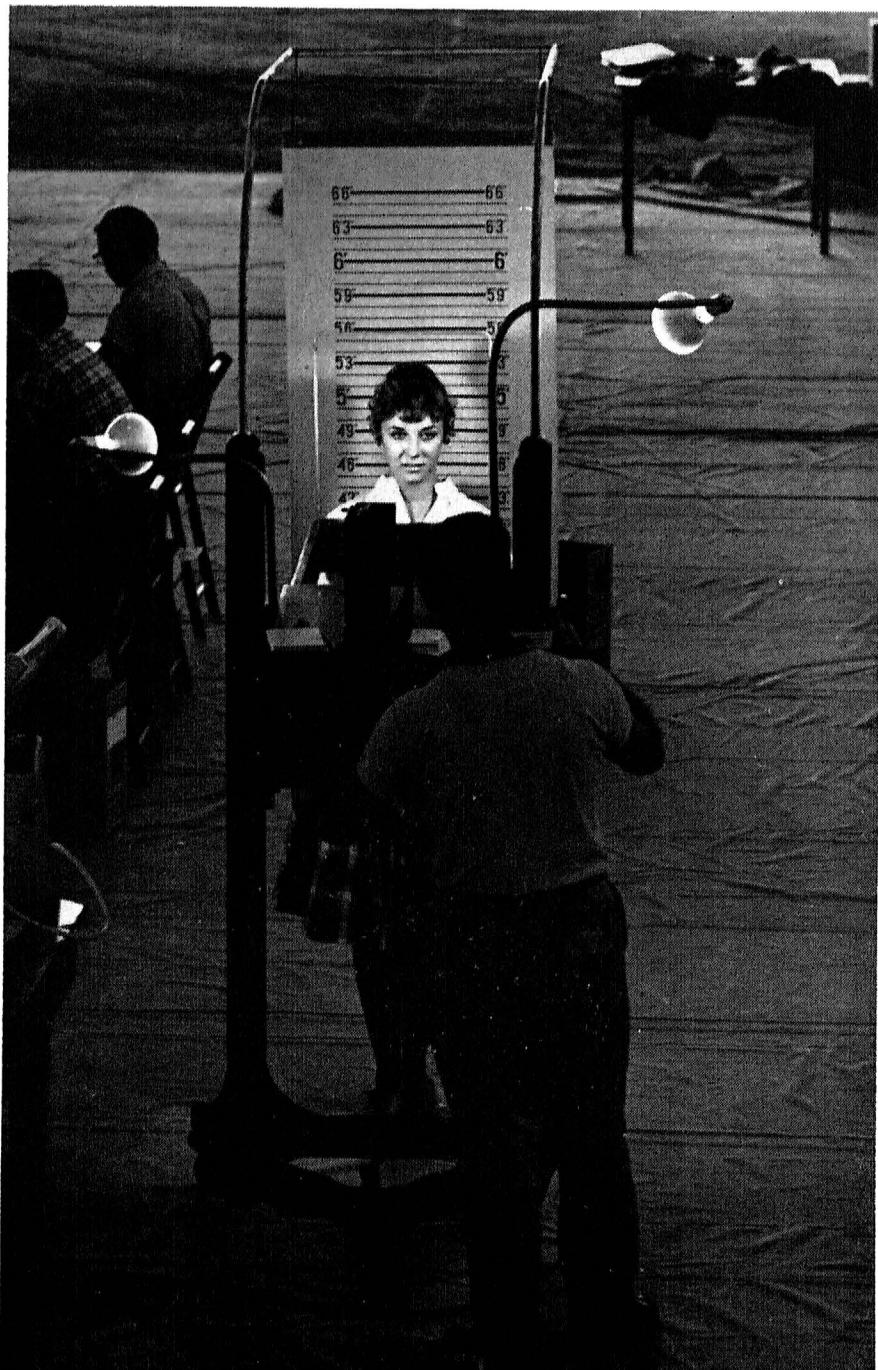

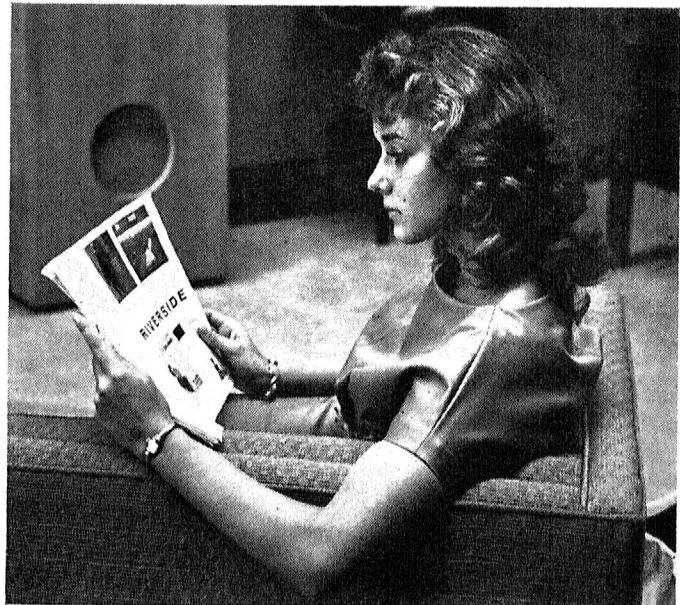

The orientation events began on Monday, September 14 and continued all week. Highlighting the first day was the New Student Convocation in Jesse Auditorium where President Elmer Ellis gave the traditional welcome to the University. "The responsibility for obtaining an education at the University of Missouri is yours," he told the new students. Following his talk, students were introduced to the deans. On the second day a general meeting in Jesse Auditorium presented the non-academic side of University life, climaxed by the President's Reception in the Student Union. Other activities included general informative meetings, campus tours, coffee hours, recreation night, activities merry-go-round, residence hall mixer, football game and touchdown dance. There was much to do, to see, to learn about; the new student who took advantage of the First Week's offerings surely had a better understanding of his opportunities as a member of the University of Missouri community.

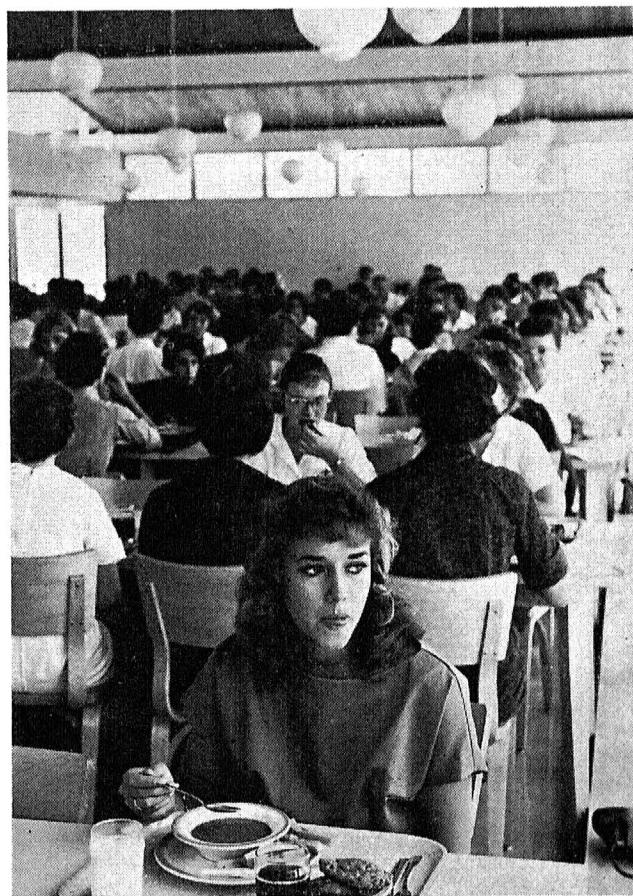

Susan is not the only one perplexed by the registration routine in Rothwell Gymnasium, as two colleagues waiting their turn also appear uncertain in a maze of advisers, study programs and course cards. Below, Susan drops by the Student Health Center for a physical checkup, required of all new students. At right, for better or for worse, she submits to the stern eye of the ID camera, then relaxes at the Union.

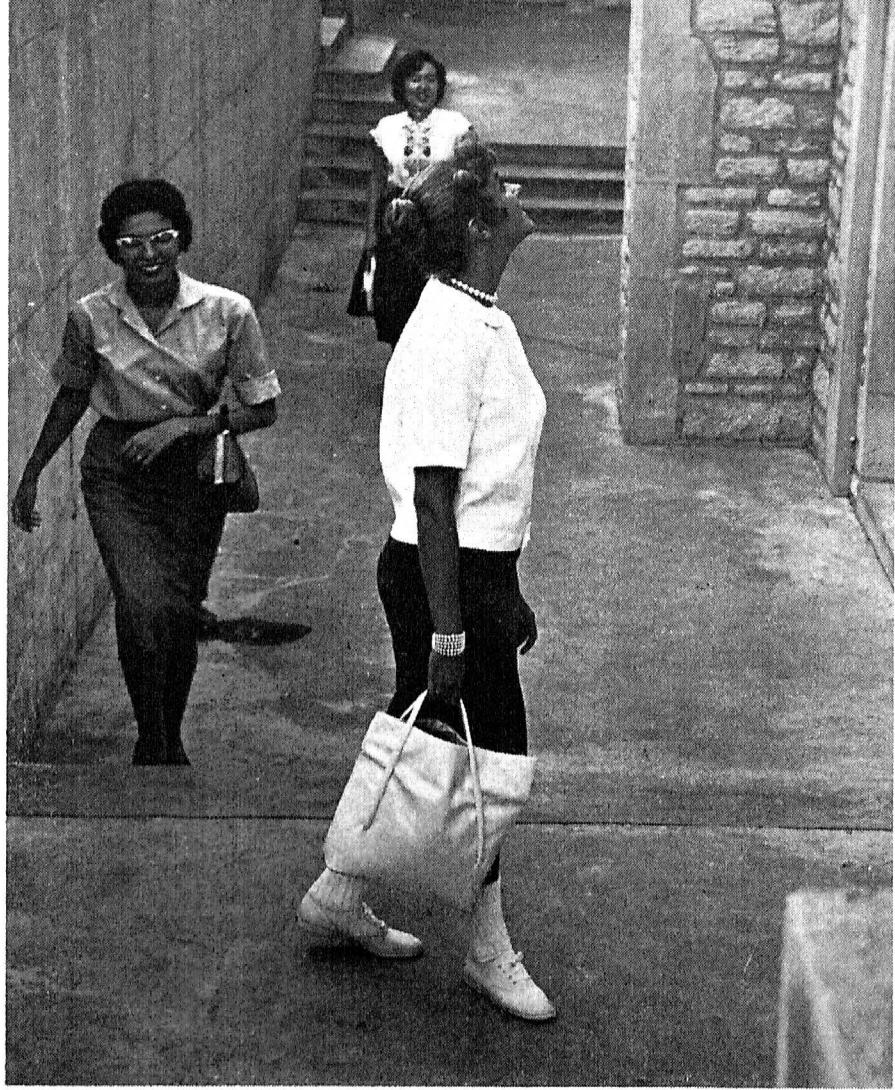

First Week continued

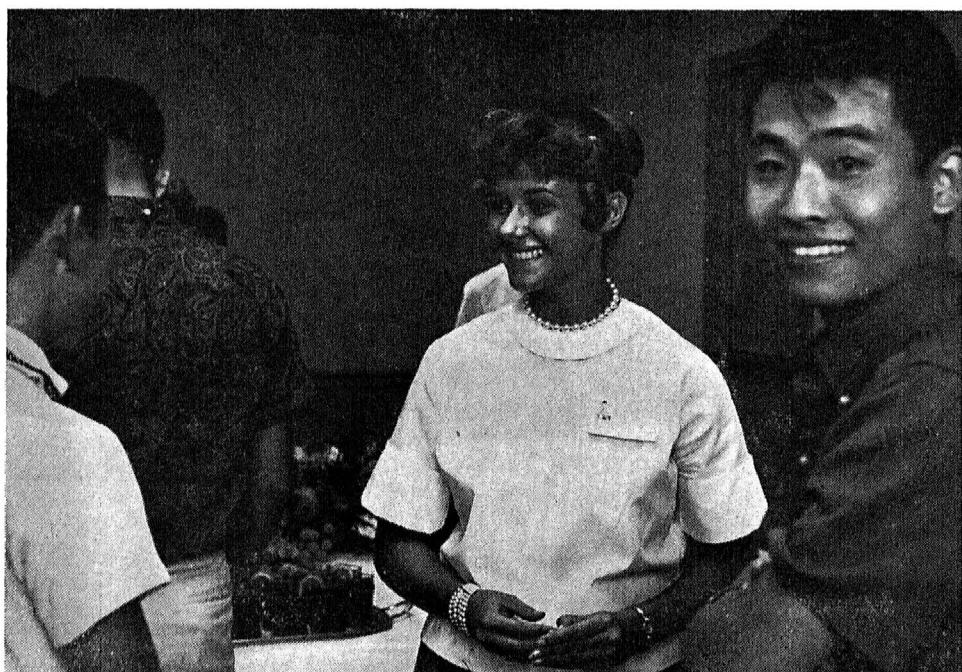

First Week continued

New enrollees cover a lot of campus ground during their First Week—making return trips to registration quarters, keeping appointments for various tests, attending general or special meetings, joining in organized social occasions, and shopping for books. Above, Susan locates a book store and, below, she makes new friends at the Student Union's International Coffee Hour.

After another gathering where she got acquainted with more new students, Susan suddenly finds herself in a classroom, face to face with her first instructor and the immediate prospect of getting down to University work. Three days of orientation have gone by; but still to come, in The First Week, are a For Women Only Session, a Residence Hall Mixer, the opening football game and Touchdown Dance. In expectation, Susan enjoys a shoes-off rest in the Student Union.

First Week concluded

Fall meetings launch new alumni year

September 18-19 was a "let's get organized for a big year" kind of weekend for University alumni leaders. Vacancies were filled on the national board of directors and the athletic advisory committee, county chairmen convened in an extended session, and in each case there was a review of past accomplishments, with an outline of plans and objectives.

Topping off the round of alumni activities was the annual luncheon given by President Elmer Ellis for the leaders, with Governor James T. Blair, Jr. and members of the Board of Curators as special guests. The luncheon was attended by 160 persons; all the events took place in the Memorial Student Union.

William R. Toler of Columbia, national president of the Alumni Association, presided at his first board meeting on September 18. Four new district representatives were elected to the board of directors: Lee A. Bowman of Sikeston, Robert Hinds of Willow Springs, Allen Fischer of Jefferson City, and Bradford Brett of Mexico. All have been prominent in alumni affairs and have served in various capacities. Seventeen directors from all sections of the state attended the board meeting.

Dr. Arch Lowe, Jr., Springfield, alumni representative on the University's Athletic Committee, was elected chairman of the Athletic Advisory Committee. The latter group also elected John P. Miller of Kansas City as its other member of the University committee. Four new members of the athletic advisory committee assumed office. They are Roy P. Hart of Webster Groves, F. Gano Chance of Centralia, Dr. Bates Hamilton of Richmond, and J. F. "Buddy" Cox of Sikeston. They succeed, respectively, Charles Russell of Brentwood, Alex Estes of Columbia, Maurice Kirk of Higginsville, and Lee Bowman of Sikeston. The terms of the four retiring members

had expired; all four have served as alumni representatives on the University Athletic Committee. Two advisory committee members who had not served full terms were reappointed: John P. Miller of Kansas City and Gene Sally of Rolla. All the appointments are for three years.

President Toler, Alumni Director G. H. Entsminger, and Assistant Director Jean Madden conducted a sort of "school of instruction" program at the meeting of county chairmen, inasmuch as the group included many new appointees. They went over the various activities of the Alumni Association and some of its objectives in the coming year, with emphasis on increasing the number of active memberships of the association during the coming year. The county chairmen agreed to help with the program on the local level by lining up membership committees of five alumni in each county. During the coming months, members of the alumni office staff will meet with these committees to implement personalized local membership campaigns.

Remarks at the President's luncheon were held to a minimum, and the affair was concluded promptly at 12:30 p.m., at which time many in the group boarded two University busses bound for the Penn State game. As the luncheon ended, President Ellis introduced members of the Board of Directors and Dr. Roy E. Mason of St. Louis, whom he called "a great friend of the University."

Retiring President John Morris' Activities Summary for the 1958-59 association year was distributed to the alumni sessions.

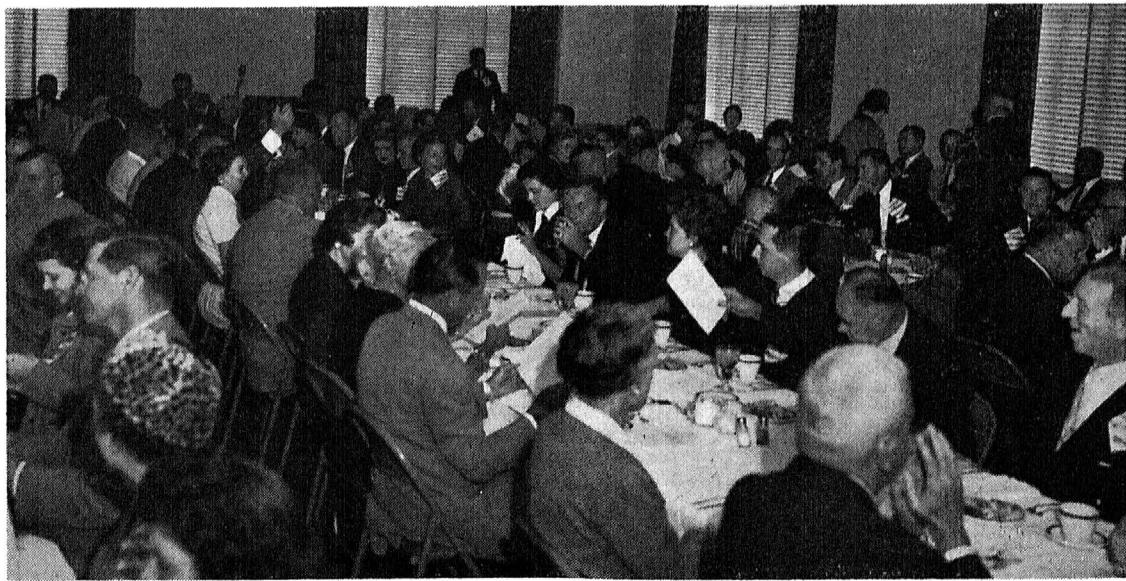

Attendance at the two days of meetings was perhaps the highest ever, and the enthusiasm about the overall Alumni Association program was unmistakable.

Chairman Arch Lowe, Jr. (center) of the Athletic Advisory Committee, with new members Roy P. Hart, F. Gano Chance, Dr. Bates Hamilton and J. F. Cox.

At September 18 meeting of National Board of Directors, from left: Dr. Arch Lowe, Jack Frier, Gordon Blackmore, Ray Graham, John Morris, Robert Mills, Bus Entsminger, National President William R. Toler, Gerald Rowan, Moss Rudolph, Hartley Banks, Robert Simon, Virginia Kock, Dr. Donald Blenden, John Shea, and John Stapel.

The President's Luncheon preceding the Penn State-Missouri game had record attendance; Governor Blair and the Curators were special guests.

Big Jeff City outing

Jefferson City alumni continue to have success with their outdoor meetings on two counts in particular—attendance and the weather. Once more, the barbecue dinner held at Riverview Park on September 29 was enthusiastically attended by about 146 persons, and the temperature was pleasant to match the occasion.

Dr. Jack Matthews, dean of students, presented a series of interesting facts about the University. He also read a few newspaper clippings of half a century ago to illustrate that student behavior changes little through the years. Jean Madden, assistant alumni director, spoke briefly.

Allen Fischer, outgoing president of the Cole County Alumni Chapter, presided. In the brief business session, Robert Dallmeyer was elected president to succeed Fischer, and Mary Lee McHenry was chosen secretary to succeed Mrs. Carolyn Meiner-shagen.

Washington luncheon

A luncheon kicking off the new season of the Alumni Association of Washington, D. C. will be held Nov. 3 at the Presidential Arms, according to William L. Browne, president of the Washington chapter. John Cauley, '32, chief of the Washington bureau of the Kansas City Star, will lead a team of reporters in

presenting their impressions after traveling with Vice President Nixon in Russia and touring in this country with Chairman Khrushchev. Cauley and his colleagues then will submit to questions from the luncheon audience. Mrs. Porter M. Hedge, 805 Prosperity Avenue, Fairfax, Va., is handling reservations for the luncheon at 12 noon.

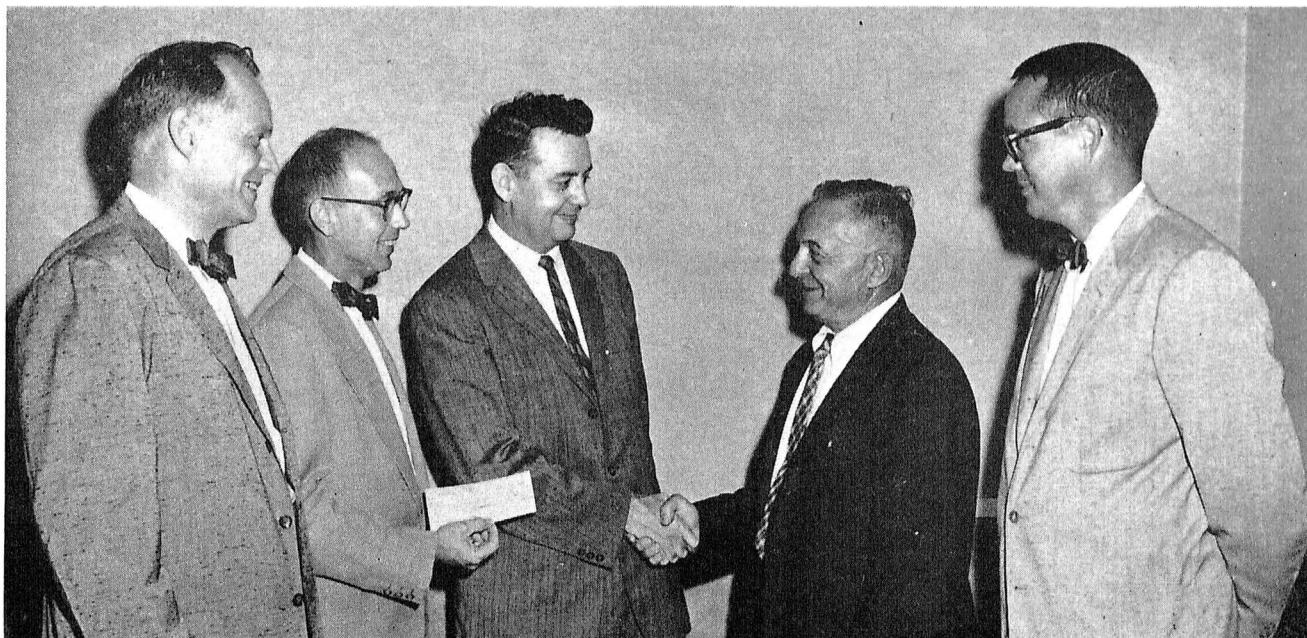

Alums meet in Big-D

Dallas was a gathering place for Missouri alumni the weekend of October 9-10 as the Tigers met the Mustangs in the Cotton Bowl on opening night of the Texas State Fair.

Ninety persons attended the October 9 alumni luncheon at the Adolphus Hotel where Clif Blackmon presided as Don Faurot, Missouri athletic director, addressed the group. Doug Weaver, assistant football coach, also spoke briefly.

That night more than 300 persons attended the barbecue on the State Fair Grounds just before the football game. Next day many of the Missourians saw the Oklahoma-Texas game.

Missouri alumni went to Big-D by train, car, and plane. Approximately 100 fans took the special train operated by Rock Island Lines out of Kansas City. Two M. U. cheerleaders, Joanne Eggeman and Hal Lowenstein, made the trip and got good response from the Missouri section at the game.

Staff members of the University of Missouri School of Medicine as they received a check for \$13,791 from officials of the Leukemia Guild of Missouri and Illinois in support of research. From left: Lon Hocker of St. Louis, Guild president; Dr. Herbert E. Brown, assistant professor of anatomy, and Dr. John F. Lowney, assistant professor of medicine, who are conducting the research project; Dr. Samuel Kamberg of St.

Louis, chairman of the Medical Advisory Council of the Leukemia Guild, congratulating Dr. Lowney; and Dr. Gwilym S. Lodwick, acting dean of the University's School of Medicine. The Guild has given the University a total of \$19,731 recently; an initial grant of \$5,940 was made for another leukemia research project in the department of pathology under Dr. Vincent Perna and Dr. Joseph E. Flynn.

Missouri authors are productive

Collision Course by Alvin Moscow, B.J. '48, is the definitive account of the controversial sea disaster—the collision of the Italian *Andrea Doria* and the Swedish *Stockholm* on the night of July 25, 1956. In his book Moscow recreates the routine procedures on the two navigational bridges of the two ocean liners as they converged in the darkness and the fog. He introduces the self-assured third officer left in sole command of the *Stockholm* at the time of the collision and the introverted captain who lost Italy's finest luxury liner; he explains in detail what they did that night and why they did it. Moscow tells the heart-warming story of the rescue of the *Andrea Doria* passengers, and explains why a supposedly unsinkable ship went to the bottom of the sea. The book has been widely acclaimed as suspenseful and exciting, one that surprises the maritime expert and shocks the lay reader.

Alvin Moscow is a general assignment reporter for the Associated Press in New York. Writing daily news stories during all four months of the hearings on the collision, he became known as an impartial "expert" on the case. While working on *Collision Course*, he reviewed more than 6,000 pages of testimony, inspected more than 200 exhibits, sailed to Europe on the *Stockholm*, and returned on an Italian ship. He interviewed key crew members of the *Stockholm* and *Andrea Doria* as well as captains of the other ships at the scene of the disaster, passengers, and maritime experts.

Collision Course, published by G. P. Putnam's Sons, New York, is a first book by the author; it has been high on the best seller charts and has evoked much discussion. Moscow lives at Rye, N. Y. with his wife and young son.

Dr. Herbert S. Goldberg, associate professor of microbiology at the University of Missouri School of Medicine, is the editor of a new scientific work, "Antibiotics: Their Chemistry and Non-Medical Uses," for which he and three other members of the University staff contributed a major part of the material. D. Van Nostrand Company, Inc., Princeton, N. J., published the 650-page book.

Dr. Goldberg is also co-author of the introduction and author of one of the chapters, "Antibiotics in the Isolation and Cultivation of Microorganisms."

Dr. Thomas D. Luckey, professor of biochemistry and chairman of the department at the School of Medicine, is the co-author of the introduction, and in addition contributed the chapter on "Antibiotics in Nutrition."

Dr. Robert N. Goodman, associate professor of horticulture, wrote the chapter on "The Influence of Antibiotics on Plants," and Dr. John T. Logue, clinical assistant professor of medicine, wrote the chapter on "The Public Health Significance of Non-Therapeutic Uses of Antibiotics."

Four University staff members who contributed a major part of "Antibiotics: Their Chemistry and Non-Medical Uses" present a copy of the book to University President Elmer Ellis (second from left). Others in the group, from left, are Dr. John T. Logue, Dr. Herbert S. Goldberg, Dr. Thomas D. Luckey, and Dr. Robert N. Goodman.

Dr. Robert S. Daniel, professor of psychology and chairman of the department at the University of Missouri, has compiled and edited a volume of "Contemporary Readings in General Psychology" for beginning students in psychology which was recently published by Houghton Mifflin Co.

The volume is made up of a selection of 68 readings from a wide variety of sources. Readings were chosen, Dr. Daniel explained, for the student taking his first college course in the subject. He said an effort has been made to balance articles on subjects in which students are interested with articles on subjects which teachers consider important.

Unlike most other books of readings available in psychology, this book is organized around three concepts of teaching, Dr. Daniel said. The first concept is that the introductory survey course, he explained, should cover broad cultural principles rather than technical details. Second, a book of readings should be organized around a central theme of scientific principles rather than be a mere collection of unrelated selections. Lastly, psychology should be presented as a member of the family of behavior rather than as an isolated discipline.

Charles Schwartz, graduate of the University who also received his masters degree here, and his wife Elizabeth Reeder Schwartz who received her doctorate degree in zoology from the University while teaching here, are co-authors of a new book for children. *Bobwhite from Egg to Chick to Egg* tells in narrative yet scientifically accurate form the life cycle of this familiar bird. The book is illustrated in full color by

Continued on page 34

Weakness in air hampers Tiger attack

In September we said that the Tigers could have a good year and still play only .500 football. After the first four games, this was certainly true. In the victory column were back-to-back wins in games number two and three—a hair-raising, last second thriller 20-15 over Michigan; and a solid, 14-0 defensive effort against Iowa State. Stacked against these were an opening 19-8 loss to Penn State and a 23-2 setback at the hooves of the S.M.U. Mustangs in game number four, played in the Cotton Bowl.

The most surprising positive development has been the solid play of lightly-regarded interior linemen like Bucky Wegener, Rockne Calhoun and Paul Henley. They've averaged 40 minutes a game and have played up to their more highly touted linemates, co-captains Tom Swaney and Mike Magac.

Ironically, the surprising negative development has been the breakdown of the Tigers' aerial game, which, with experienced ends and backs, was expected to be a bulwark of the team. Offensively, experienced quarterbacks Snowden and Haas have netted only 272 yards on 21 completions in 58 attempts; and they've had 9 intercepted. On pass defense, the Tigers have given up 473 yards on 36 completions in 65 attempts; and they've picked off only 5.

It's true that the Tigers have compiled some of these discouraging statistics against the two best collegiate quarterbacks in America: Richie Lucas of Penn State, who had a fantastic 10 out of 11 completions for 154 yards; and Don Meredith, who threw 10 strikes out of 14 for 120 S.M.U. yards. Incidentally, neither of them had even one intercepted. On the ground the Tigers have slugged it out on even or better terms with 733 yards rushing and 47 first downs to 675 yards and 36 first downs for the opponents.

Getting back to individual games, the first one was all Lucas as Penn State won 19-8. Coach Dan Devine said, "Lucas didn't make a wrong move out there all day. His passing, running and direction of the team were spectacular." Everytime Penn State had to have yardage Lucas got it. (He has since been named A.P. "Back of the Week" for engineering undefeated Penn State's upset of Army).

Against Michigan Senior Quarterback, Bob Haas was the big man as he fired up the Tigers for an incredible 78-yard march with just 2:48 to go and pulled the Tigers from a 15-14 deficit to a 20-15 win. All he did was hit three passes for 52 yards, run for 13 himself in a crucial situation, and score the winning touchdown with two seconds left. (Ironically, those

Ten Tiger backs—Front row, from left: Fred Brossart, Don Smith, Ed Mehrer, Phil Snowden, Mel West.
Back row: Roger McCoy, Norris Stevenson, Jim Miles, Bob Haas, and Skip Snyder.

were the only passes completed by Haas in the first four games.)

Rough and ready defense was the story in the Iowa State game as the Tigers held All-America hopeful Dwight Nichols of Iowa State, who was voted Big Eight Back of the Year last year, to zero yards rushing and only 42 yards passing for the low point of his career. Missouri couldn't get its offense jelled, though, and while the Tigers rushed for 243 yards they couldn't score until the third quarter, with the real clincher not coming until time was running out.

At Dallas the Tigers faced Richie Lucas' chief competitor for All-America honors, Don Meredith. Unfortunately for Missouri, his performance provided little to choose from in deciding which man is superior. Though not quite as adept a runner, Meredith was even better as a passer. Coach Devine said he had never seen a college passer who could throw as well off balance. In the S.M.U. game the Tigers took charge after an opening touchdown drive by the Mustangs; and on the strength of a blocked kick by Russ Sloan, they trailed only 7-2 at halftime. Meredith and his Pony halfbacks added two more touchdowns in the last half for a 23-2 win.

Missouri went into the Oklahoma game expected to lose by 10 to 14 points. Also expected was a more wide open game by Oklahoma than it exhibited in losing to highly-ranked Texas, what with the return of Brewster Hobby, last year's principal Tiger tormenter, who was kept out of the Longhorn fray by injury. Some sports writers chose to bill the game as a duel between Oklahoma's Prentice Gautt and Missouri's Mel West, both hard-to-stop ball luggers.

Regardless of the outcome of the Oklahoma game, though, the Tigers still could qualify for a trip to the Orange Bowl; the Sooners are not eligible to return there in 1960. Whether the taunt of the Miami Daily News sports editor will charge up the Orange Bowl hopefuls in the Big Eight to deliver super-human efforts from here on is something to be awaited. The sports editor wrote that the Orange Bowl feared a mismatch unless the Big Eight could provide a first-rate champion, and even suggested that the conference bow out rather than damage its reputation and that of the bowl. To this, Reaves Peters, Big Eight commissioner, said his conference's "representative team" would be capable of playing any Orange Bowl opponent. He added, "We have three teams coming along pretty good now," listing Kansas, Missouri and Nebraska in that order.

Missouri has done well with its running game, featuring West, Donnie Smith and Norris Stevenson; but its future and that of its Orange Bowl chances obviously depend on the ability of the team to either improve on the overhead game or to compensate for the weakness by keeping the ball on the ground with a grind-it-out, ball-control style of play. It's certainly conceded that it takes vastly superior personnel to sustain such an attack; and when one considers upcoming opponents such as Oklahoma, the Air Force Academy, Kansas and Nebraska, it would appear that a revitalized aerial game may be the best bet.

Donor A. L. Gustin tries (and misses) putt on newly dedicated course bearing his name.

Golf course dedicated

The A. L. Gustin, Jr. Golf Course, named for the man whose \$75,000 gift made it possible, was added to the University's facilities in a brief dedication ceremony on September 19. The 6,600-yard, 18-hole golf course is located west of Memorial Stadium.

Don Faurot, director of intercollegiate athletics, made the presentation, and James A. Finch, Jr., Cape Girardeau, president of the Board of Curators, accepted on behalf of the University. Thom Field, Missouri Students Association president, expressed appreciation on behalf of University students. Gov. James T. Blair, Jr. was present for the dedication program, at which President Elmer Ellis presided.

Mr. and Mrs. Gustin (who are pictured on page one) were present. Mr. Gustin is chairman of the board of Gustin-Bacon Manufacturing Company, Kansas City, and was a student at M. U. in 1922-25.

Mr. Finch, in thanking Mr. Gustin, observed that "there are some things which the legislature cannot provide for," and expressed the hope that Mr. Gustin's generosity would open the way for additional gifts to the University.

*class
notes*

05 Mrs. Murray L. Smith, 2980 Mountain Brook Parkway, Birmingham 13, Ala., is eager to receive anecdotes, reminiscences or any material that might be included in a biography of her late father, HARRIS MERTON LYON, AB. She is writing the biography and would like to hear from anyone who remembers Mr. Lyon when he was in the University.

15 RAYMOND T. KING, BS Agr. '15, is associate county agent of Morgan county, and lives at 802 N. Monroe, Versailles, Mo.

17 GENEVA DRINKWATER, AB, BS Ed., has been professor of history at Rollins College in Winter Park, Fla., since 1952. Dr. Drinkwater has served on the Board of the A.A.U.W. for the United Nations. She is a graduate of Stephens College and member of the Stephens College Board of Curators. Dr. Drinkwater received her MA and Ph.D. degrees from the University of Chicago.

18 HORTENSE CRAWFORD has been appointed assistant professor of education at Central College, Fayette, Mo. Miss Crawford graduated from California High School, attended Central Missouri State College at Warrensburg and graduated from MacMurray College, Jacksonville, Ill., with the AB degree. She did graduate work at M.U., Boston University, and the University of Iowa, where she received an AM in elementary education. She has done additional graduate study at the Universities of Minnesota and Colorado. Miss Crawford taught at Iowa Wesleyan College and Northwest Missouri State College, Maryville. She went to Central College from Pottawatomie, Iowa, where she has been supervisor of elementary education.

19 Dr. JOSEPH G. WEBSTER, AB, is the senior member of a partnership of three Missouri grads practicing medicine in Kansas City. The other partners are KERMIT

KNOCH, '37, and ROBERT C. BUCKNER, '39. Dr. Webster lives at 5532 Locust St., Kansas City, Mo.

21 BEN M. BULL, MD., of Iron-ton, Mo., is a Missouri State Medical Association councillor.

22 REX R. BAILEY, BJ., has retired as president of Doane Agricultural Service, Inc. He had been with the firm for 35 years, and will become vice chairman of the board of directors and chairman of the firm's executive committee, under a gradual retirement plan.

25 ROBERT E. MARSHALL, BS Agr. '25, AM '31, retired from the teaching profession last June, after 50 years of service. He was Vocational Agriculture teacher at Holden (Mo.) High School, having started the department there on an earlier teaching assignment. The Holden Board of Education and faculty of the high school honored Mr. and Mrs. Marshall with a dinner. The Marshalls have a son, Dr. Robert E. Marshall, Jr., a dentist in Lee's Summit, and a daughter, Mrs. Bruce Maines, formerly JEAN MARSHALL, BJ '47, who lives in Seattle, Wash.

27 SELBY RUSSELL NEFF, AB, writes that Selby Russell (Duke) Neff, Jr., is a senior in the M.U. School of Journalism, and another son, Larry C., has finished his sophomore year at the College of Emporia. Mrs. Neff, the former Gertrude Burton, is a World Book representative, and Selby describes himself as a "poor old printer." The Neffs live at 3923 W. 57th Terrace, Mission, Kan.

29 JANE FROMAN, noted singing star, has added another accomplishment to her long list. She decided on oil painting as a new hobby, and during a vacation at a Therapy Center near New York, she entered two of her paintings in a showing where they caused much comment. Norman Rockwell, the famous artist, said she displayed a "rare talent" and offered her a scholarship at his art center in Westport, Conn. Injuries she suffered in the Lisbon plane crash in 1943 have continued to plague the indomitable Miss Froman, and she had gone to the Therapy Center to recuperate from two back operations performed this year.

HOWARD T. ADKISON, BS BA, is now associated with the General Services Administration, U. S. Government, as Property Utilization Officer for the State of Missouri, with offices at Fort Leonard Wood. His address is 914 W. 10th St., Rolla, Mo.

ROBERT L. WILLIAMSON, BS, Eng., has been named vice-president and gen-

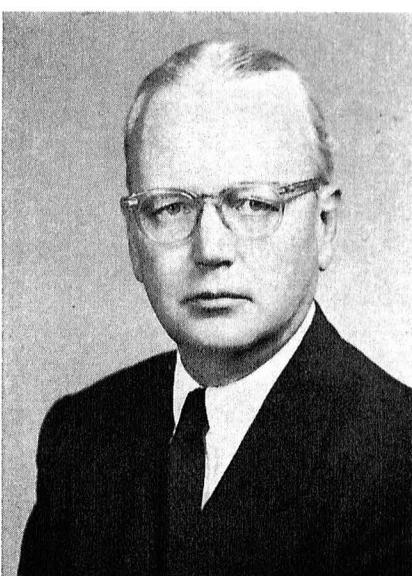

eral sales manager of the Rome (N.Y.) Cable Division of Aluminum Company of America. Since 1955 he has been manager of pig and ingot sales. He joined Alcoa in 1929 in Pittsburgh and has had sales and sales management duties in New York, Atlanta, Washington, D.C., Kansas City, and Pittsburgh. He has moved from Pittsburgh to Rome to direct the activities of division product managers and field sales operations.

31 DR. MANNING E. GRIMES, AB, BS Med. '32, is a physician and surgeon in St. Joseph, Mo. He has two daughters who are M.U. graduates: DONNA KAY GRIMES, AB '58 (now Mrs. Frank Wright, Jr., Laredo, Texas), and DEE ANN GRIMES, BS '59 (now Mrs. Robert B. Skipton, Columbia, Mo.); and a son, Richard M. Grimes, who entered the University as a freshman in 1958.

Major CLYDE ETTER, AB, AM '32, biological science at Wentworth Military Academy at Lexington, Mo. was chosen to participate in the Summer Institute for college teachers at Oregon State College.

EFFIE ALICE ADKINS AM, was recently honored for 25 years service on the faculty of Marvin School, Overland, St. Louis County, Mo. She was graduated from the Brunswick High School, and received a BS degree from State Teachers College at Kirksville. She has done graduate work at Washington University, Harris Teachers College and Western State College.

32 LYNN B. MITCHELL, Jr., BS Eng., is a commander in the Civil Engineers Corps, stationed at Norfolk, Va., on the staff of the commander, Naval Air Force Atlantic Fleet. When he was a student here, his

R. L. Williamson, '29

home was at Cassville, Mo. Commander Mitchell's son, Robert L. Mitchell, is a sophomore at M.U. and plans to enter Journalism School.

33 FRED W. FAUROT, Jr., BS Agr., AM '38, brother of Don Faurot, has been named head track coach and assistant football coach at Hickman High School in Columbia. For three years Fred had been in the wholesale-retail dairy business. His coaching career started in 1933, and included assignments at Excelsior Springs, Chillicothe High School, Teachers College, Parsons College, Central College, and Murray (Ky.) State College. His wife ANNA SUE KENNEDY Faurot, BS Ed. '30; AM '38, has resigned from the Kirksville public school system to become physical education instructor at Christian College in Columbia. The Faurots have a son and daughter, Fred, 14, and Sara, 16. They live at 915 West Boulevard, South, in Columbia.

MARY LEGATE, AM, taught school at Excelsior Springs for over 30 years, and was principal of Excelsior Springs High School. She has taught at Roxana (Ill.) High School for the past eleven years. Her home is at 227 N. Central, Roxana, Ill.

JOSEPH T. CAPLES, BS Med, is now commanding officer of the U.S. Army Hospital and Post Surgeon at Fort Leavenworth, Kan. Col. Caples received his M.D. in 1936 from Northwestern University, and entered active duty with the Army in May, 1938. He served in Europe and the Far East, and a three-year tour of duty as Chief of the Medical Division and Surgeon of the 4th Logistical Command at Verdun, France. Col. and Mrs. Caples, the former ROSE BANKS, AB '29, live at 2 Sumner, Fort Leavenworth, Kan.

34 ELEANOR BALL, BS Ed., teaches commerce in the public school system at Mullinville, Kan.

LEONARD A. VOSS, BS Agr., MS '52, is agricultural-economics professor at the University. Mr. Voss and family live on Route 5, Columbia. Lt. Col. Voss is commander of the Columbia unit of the Air Force Reserve.

36 OLIN O. TAYLOR, BS PA, special assistant to the commanding general at Aberdeen Proving Ground, Maryland, since February, 1957, has been named deputy comptroller, Office of the Chief of Ordnance, Washington, D. C. In his new post, Taylor, a native of Brookfield, Mo., will be a key figure in the Ordnance Corps' business development and procurement of Ordnance Corps equipment of all types for the Army and the Department

of Defense. Taylor reported to his new assignment in the Pentagon last month. During five years as office and field manager for the Missouri Unemployment Compensation and Employment Services, he was responsible for the employment of 55,000 people in the construction of Fort Leonard Wood. In World War II he served in the navy as commander of a gun boat in the Pacific. He received the Navy Commendation Medal for heroism, and the Purple Heart. Before and after the war he held various Federal government positions. His address

is 2230 Washington Ave., Apt. 202, Silver Spring, Md.

WILLIAM E. TOWELL is director of the Missouri Conservation Commission, being the second man in that office since it began official operations on July, 1937. He was the first district forester assigned to Sullivan County and became forester at Kirksville in 1941. In 1942 he was promoted to assistant state forester in charge of fire control. He received his forestry degrees from the University of Michigan. His home in Jefferson City is 2025 Meadow Lane.

PLANNING TO BUY A NEW HOME?

LOOK FOR THIS

Medallion

A Medallion Home sets a new standard for lighting, wiring and electrical appliances. As a Home Buyer, you will want to look for homes that display this new bronze plaque. It is your assurance that the house contains the basic conveniences you need to LIVE BETTER . . . ELECTRICALLY!

BRONZE MEDALLION HOMES PROVIDE THESE MODERN FEATURES:

ELECTRICAL APPLIANCES — You will find a modern built-in Electric Range in the Bronze Medallion Home, plus three additional major electric appliances . . . all conveniently placed to save you time and work . . . to make life more enjoyable.

LIGHT FOR LIVING — Lighting is planned with you in mind . . . with some fixtures built-in or recessed for greater convenience. And you will appreciate the modern way of lighting living areas to beautify your home.

FULL "HOUSEPOWER" — Every Bronze Medallion Home has an adequate wiring system planned for present and future needs. This means (1) a service entrance of at least 100 amperes, (2) plenty of circuits of proper size and (3) plenty of convenient outlets.

If you are planning to remodel your present home talk to your Architect or Building Contractor about bringing your house up to Bronze Medallion Home standards.

KANSAS CITY POWER & LIGHT COMPANY

38 VIRDON W. TAYLOR, BS BA, AM '39, is district manager for the Social Security Administration in St. Louis county and six adjacent counties. Mr. Taylor has formerly headed district offices in Cape Girardeau, Hannibal and Lawton, Okla. His office address is 7508 Forsyth Blvd., Clayton, Mo.

39 Mrs. VETA BIRD Adams, BS HE '39, has been appointed administrative assistant to Dr. Margaret Mangel, Chairman of the Home Economics department. She was formerly a home agent and wartime home economist, and worked with the University's Agricultural Extension Service. She and her husband, I. C. (Ike) ADAMS, Jr., AB '39 live at 10 North Glenwood Ave., Columbia.

HERBERT S. PARHAM, BS Ch.E. '39, is now director of marketing of Monsanto Chemical Company's Organic Chemicals Division at St. Louis, after serving as director of sales planning since 1958. Mr. and Mrs. Parham, the former DOROTHY J. KEITHLEY, BS Ed. '39, live at 38 Hill, St. Louis, Mo.

JAMES P. COUGHLIN, formerly general sales manager, cushioning products division, Armour and Company, is now vice president-sales of American Hard Rubber Company. Prior to joining Armour, Mr. Coughlin was divisional manager of the electric arc welding division of Westinghouse Electric Corporation. He has had twenty years of management experience in sales, production, personnel, marketing and engineering. He was Lt. Commander in the Navy from 1942 to 1945 as assistant supervisor of shipbuilding in the Great Lakes-Mississippi River area.

CURTIS M. MCCOY, BS BA '39, is scheduling and loading coordinator at the Royal McBee Corporation portable typewriter plant at Springfield, Mo. He lives at 1900 Patricia, Springfield.

JOHN CARR, BS Agr. '39, is county agent for Crawford County, Mo. He worked for the Farm Security Administration for two years, was appointed county agent for Reynolds and Carter counties, and lived at Ellington for six and one-half years. In 1955 he was awarded the Missouri Distinguished Service Award for outstanding extension work and received National Honors at the Houston, Texas, Convocation of County Agents in 1956.

FORREST L. SWALL, BS Agr., M.Ed. '58, has been appointed juvenile officer for Boone and Callaway counties. He is also enrolled in the University's School of Social Work and plans to continue his studies in that field. Mrs. Swall, the former DONNA STEARNS, MS '56, is an

A composite picture of success

This combination of photographs symbolizes the more than 450 qualifying members of the Leaders Association, New England Life's organization of top salesmen. They have diverse appearances and personalities, come from different backgrounds, employ a variety of selling methods. Yet all of these men have a common base on which their success has been founded: belief in their product.

Our Average Leader* believes so strongly in what he sells that his own life is insured for \$96,950! And his enthusiasm and ability led to an income of over \$20,000 average (\$15,000 median!) last year, through sales of more than a million dollars of life insurance. The average size of the 51 policies he sold was \$22,523 — four times the national average of the industry.

A college graduate, Mr. Average Leader entered the life insurance business at the age of thirty-four. Now only forty

years old, he is a successful and hard-working businessman who enjoys unusual independence.

Perhaps a career of this sort appeals to you. There are opportunities at New England Life for other ambitious college men who meet our requirements. For more information, write to Vice President L. M. Huppeler, 501 Boylston Street, Boston 17, Massachusetts.

ENGINEERS

PHYSICISTS

MATHEMATICIANS

Douglas diversification affords broadened opportunities, combined with stability and security.

Engineering at Douglas is divided into three basic areas ... missile and space systems, transport aircraft and combat aircraft. In these military and commercial categories, each advancing beyond present frontiers of achievement, engineers and scientists can progress to the limit of their capabilities.

In addition, supervisory and executive openings are filled from within the company. Many of the top executive officers at Douglas are engineers who have moved right up to assume wide responsibility.

We are interested in engineers with backgrounds in other fields as well as avionics, aircraft and missiles.

For further information write to Mr. C. C. LaVene, Douglas Aircraft Company, Inc., Santa Monica, California.

Section KK.

the most respected name in aircraft,
missile and space technology

BARBARA L. McCORMICK, BS Nur., is staff nurse, delivery room, St. Luke's Hospital. Her new address is 1260 Logan St., Apt. 26, Denver, Colorado.

Mrs. Farmer has been executive director of the University YWCA while continuing her graduate work. She is a graduate of Miami University and Dr. Farmer is an alumnus of Colorado State. They are living in Columbia, Mo.

ROCHELLE LOUISE SORIN of Columbia and MAURICE GENE RANSDELL, AB, on May 22 in Hannibal, Mo. They are living in Athens, Ga., where Ensign Ransdell is attending the Naval Supply Officers Training School.

SANDRA WILLIAMS, BS Ed., and Ezra Price Nichols, Jr., on May 31 in Columbia, Mo. Mr. Nichols is employed by Riback Industries in Columbia and they are living at 1119 Gary Street.

MARGARET BRUTON DRAKE, AB, and WILLIAM W. McNEARY II, BS AgE, of Charlotte, N. C., on May 16 in Charleston, Mo. Ensign McNeary, stationed at Newport, R. I., left June 1 for overseas duty, and Mrs. McNeary joined him in Europe later in the summer.

NANCY JO PRATHER, BS Ed., and WILBURN LEON DOWNING, BS Agr., June 20, at Noel, Mo. They will make their home in Kansas City.

ROBERT LEE McCARTY, BS Agr., and Mary Lou Femmer, June 28, at Hatton, Mo. They will make their home in Centralia, Mo.

MARCIA EMMONS, BS Ed., and CHARLES NERON LEEZY, June 21, at Kansas City, Mo. She is teaching at Mexico, Mo., and he is a student in the University School of Veterinary Medicine.

DOROTHY ANNE GOODIN, BS HE, and CHARLES LOWELL BRINK, Jr., BS BA '58, June 20, at Charleston, Mo. He is employed by the Aetna Casualty Surety Insurance Co., and they make their home at 3219 Haskell Ave., Dallas, Tex.

EDDIE SAM MYERS, BS BA, and Betty Sue Smith, June 20, at Raytown, Mo. They will make their home in Kansas City.

JAMES DALE SICKAL, AB (WD), June 20, at Cape Girardeau, to GAIL CARROLL FINCH, a University senior. They will make their home in Columbia, where he is enrolled in the School of Law.

LARRY H. HEFLIN, AB, and NANCY DIANE HALL, August 8, in Kansas City. They plan to make their home in Columbia where both will continue studies at the University.

deaths

Dr. JOSEPH D. ELLIFF, AB '03, AM '07, a member of the University faculty for 53 years, died at his home in Columbia Aug. 28 at the age of 95. He was principal and superintendent of Joplin High School from 1893 until 1902, when he entered the University. He joined the university faculty in 1903, serving as instructor, professor, high school supervisor, director of the Summer Session and dean of high school administration. After his formal retirement in 1936, the University retained his services for many years. Dr. Elliff received an honorary LL.D. degree from St. Louis University in 1933. He was chairman of the Missouri Committee of the North Central Association for 25 years. For many years he was a curator of both Stephens College and Lincoln University in Jefferson City. The State Teachers Association conferred a distinguished service medal upon him in 1937. He was listed in "Who's Who" for his outstanding work in the field of education in Missouri. Survivors include a daughter, Miss Mary Elliff of Chicago, a son and daughter-in-law, Mr. and Mrs. Joseph C. Elliff of Hubbard Woods, Ill., all University graduates; two grandsons and two great grandchildren.

FRANCIS E. WILLIAMS, LL.B. 1905, former Circuit Court Judge, at 8 a.m. August 18, 1959, at Missouri Baptist Hospital in St. Louis. He was 82. In 1907 and 1908 he served as prosecuting attorney in Madison County. In 1917 was appointed assistant circuit attorney in St. Louis and served until 1921. He served on the circuit bench from 1940 until his retirement in 1956. Throughout his career he was an articulate enemy of gambling law violators, and was author of numerous articles on the subject, summing up his views in a book, "Lotteries, Laws and Morals." This won him an award from the Methodist Board of Temperance. Judge Williams' wife, Mrs. Anna Belle Williams, died in 1953. He is survived by two brothers, John G. Williams of Richmond Heights, and Luther Williams of Flat River, Missouri.

Mrs. John W. Read, Jr., formerly JULIA KIRTLEY, BS Ed. '09, on July 19 at Greeley, Colo., following an illness of several years. She is survived by her husband, JOHN W. READ, AB '09, 1858 17th Ave., Greeley, Colo., and a daughter, Mrs. Martha Steinbach of Jamaica, New York.

DONALD M. NELSON, BS Ch.E. '11, at Los Angeles Sept. 29 after suffering a stroke. He was chairman of the U. S. War Production Board during World War II. When he was called to Washington to take the job in 1940, he was executive vice-president, in charge of merchandising, for Sears, Roebuck & Co. After four years he resigned and was appointed by President Roosevelt as his personal representative to foreign governments, with Cabinet status. When he returned to private life he became president of the Society of Independent Motion Picture Producers. Mr. Nelson was long active in the University of Missouri Alumni Association. In 1957 he received the Missouri Honor Award for Distinguished Service in Engineering. An honorary LL.D. degree was conferred upon him by the University at the June, 1942 Commencement. After his graduation he worked for the Agricultural Experiment Station of the University, then went to the testing laboratories of Sears, Roebuck in 1912. He advanced through the ranks to the top of the merchandising department, becoming the nation's No. 1 buyer in private industry. He was born at Hannibal, Mo. in 1888.

HARRISON BOETTNER, July 17, at Rock Port, Mo. Mr. Boettner attended Tarkio College and the University's College of Agriculture (in 1911). He spent the rest of his life on his farm north of Rock Port. He served as church school superintendent at the Rock Port Methodist Church, was on the board of education, and for many years on the board of directors of the Bank of Atchison County. He is survived by his wife, the former Maude Elizabeth Zuck, Route 1, Watson, Mo., and their two daughters.

GUY P. GALBREATH, July 16, at Clinton General Hospital. He attended the University's School of Agriculture in 1910-11, and became one of Henry county's most progressive and prominent stockmen. In May, 1912, Mr. Galbreath was married to Blanche P. Duvall, who still lives at their farm home at Urich, Mo.

ROCKWELL C. JOURNEY, AB '12; AM '13, of a heart attack, at Winston-Salem, N. C. He had taken graduate work at the universities of Chicago and Wisconsin, and had taught at Potomac State Teachers College, W. Va.; at Presbyterian College for Men at Maxton, and at Draughon Business College in Winston-Salem. He retired last year because of poor health. He is survived by Mrs. Alethia Kennedy Journey, 625 W. 6th

St., Winston-Salem, and a brother and two sisters.

Judge HOMER F. WILLIAMS, AB '12, of a heart ailment Aug. 1, at his home in Marble Hill, Mo. He was probate judge and magistrate of Bollinger County, and legal representative in a number of cases in probate and circuit court at Perryville for nearly half a century. He attended Law School at the University and passed state bar exams in 1912. The same year he was elected prosecuting attorney of Bollinger County, re-elected in 1914 and 1916, served two other terms in that office and one term in the state legislature. He was appointed probate judge of Bollinger County in 1953 and served in that capacity until his death. He was a member of Phi Alpha Delta, law fraternity, and Phi Beta Kappa honor society. He is survived by two sisters and two brothers.

HARDIN CHARLES COX, BS Agr. '13, at Fairfax Hospital July 21, after a heart attack. Mr. Cox was widely known through his humorous column, "One Thing and Another" and later "Charlie Cox's Con-Coxions" which appeared in the Atchison County Mail, published by his son, JOHN HENRY COX, BS BA '50. Mr. Cox was in the insurance business with his other son, HARDIN C. COX, Jr., BS BA '51, was treasurer and director of the Farmers Mutual Insurance Co., at Columbia, and served 26 years as secretary of this organization at Rock Port, Mo. He was a member of the University's Board of Curators from 1937 to 1939, and last year was awarded membership in the Alumni Consulate. He served on the Rock Port school board for 16 years and on the county school board for three years, two as president. He was highly interested in the youth of the community through Boy Scouts, school athletic programs and recreational facilities. Mrs. Cox, the former FRIEDA STAPEL '17, their two sons and daughters-in-law all attended the University of Missouri.

RICHARD DALTON FOWLER, at St. Mary's Hospital, Jefferson City, Sept. 11, after an illness of about a year. Well known throughout the Jefferson City area, Mr. Fowler was appointed to the city engineer's post in 1933, and served continuously until his death. He attended the University's College of Engineering from 1913 until 1916. He entered the Army in 1917, after serving a brief term as road inspector for Cole County. He was in the Army in Europe for two years. Following his discharge in 1919, Mr. Fowler was appointed street inspector in Jefferson City, and in 1927 was named assistant engineer and continued in that capacity until his appointment as city engineer. Mrs. Fowler, the former Lucy Wells, lives at 1414 W. Main, Jefferson City.

E. T. MALLINCKRODT, BS Agr. '22, of a heart attack at veteran's hospital at Poplar Bluff, August 3. He started his extension service career as farm agent in Madison County, serving later in Cape, St. Francois and St. Louis counties. While in Cape County, where he served from 1930 to 1940, he resided in Jackson, was active in civic affairs, and was president of the Rotary Club. Until recently, he and his wife, Alma, operated Hough's Cafe in Fredericktown, where they made their home at 115 E. Main St.

WADE W. MAUPIN, LL.B. '23, long-time leader in University alumni activities and city attorney of Carrollton, Mo., died suddenly Sept. 29 at Jefferson City at the opening session of the Missouri Municipal League. He was to have become president of the League that day. Mr. Maupin, a loyal supporter of the University, was county chairman of the Alumni Association and had served on various committees. He was first elected Carrollton city attorney in 1925 and had served in that capacity ever since with only a few exceptions. He was also chairman of the Democratic committee for the 11th Congressional District and of the Carroll County party committee. He is survived by his wife, of the home in Carrollton, and two sons and a daughter, all M.U. graduates: ROBERT W. MAUPIN, AB '54, LL.B. '59, Columbia; CHARLES W. MAUPIN, BS Ed. '59, now a graduate student; and Mrs. Daniel Piraino (MARIANNE MAUPIN, BS Ed. '52), Norfolk, Va.

GEORGE B. JAMES, former student in 1926, collapsed in his car and died of a heart attack while being taken to the hospital. He had been much interested in various public affairs and had served one term as a City Councilman. He was a member of the Broadway Presbyterian Church, president of the Sedalia Lions Club and was also on the board of the Salvation Army. He is survived by his wife, Mrs. Mable Hartman James, 801 E. Sixth St., Sedalia, Mo., his mother, a brother and three sisters.

JOHN E. HOLMAN, AM '28, of Route 1, Macon, Mo., prominent educator and farmer, on Aug. 12, 1959, after suffering a stroke. He attended Northeast Missouri State Teachers College at Kirksville, where he received his B.S. degree. He served as superintendent of schools at Fayette for nine years and at Brentwood, Mo., for 15 years; he managed Still Hildreth Sanitorium Farms for 10 years. For the past three and a half years he had taught in Riverview Gardens public schools in St. Louis County. He is survived by his wife, Edna, of 7840 E. Burwood Dr., Normandy, Mo., one son, Dr. John E. Holman, Jr. of Washington, D.C., and two grandchildren.

DR. JOHN R. BICKLEY, AB '31; AM '32, on Aug. 9 of cancer at his home in Allison Park, Pa. He received his Ph.D. from the University of Pittsburgh, and had been a member of the modern languages faculty there for nearly 25 years. Survivors include his wife, Mrs. Jeanne Bedell Bickley, 2460 Hampton Ave., Allison Park, Pa., and three sons. He was a brother of W. B. BICKLEY, BJ '31, AM '35, of Columbia, who is on the School of Journalism faculty.

GEORGE JOHNSON WALDRAM, Jr., BS '42, on July 27 after a four-day illness. He was employed by McDonnell Aircraft Corp. of St. Louis immediately after graduation from the University and, except for his services in the Navy during World War II, had held a position there in the engineering department. At the time of his death he was test engineer on the project Mercury. He is survived by his wife, Mrs. Shirley Gassmann Waldram, of 1595 Gallop Lane, Florissant, Mo., and two children, Barbara Anne and Steven Douglas.

DR. FREDERICK PIERCE NIEDERMAYER, BS Med. '44, Aug. 1, in Kansas City. He received his medical degree from Northwestern University. Early in 1958, Dr. Niedermeyer was promoted to the rank of major while serving as flight surgeon at Maxwell AFB, Montgomery, Ala. He left the service a few months later. He is survived by his wife, Gloria Burr Niedermeyer, three children, Wendy, 11, James, 10, and Robert, 7, and his parents, Lt. Col. and Mrs. H. Pierce Niedermeyer, 704 Capitol Ave., S.W., Battle Creek, Mich.

JOHN BURRIS TERWILLIGER, BS Agr. '50; MS '54, of California, Mo., on Aug. 17 after an illness of one year. He is survived by his wife, Charlotte, of 1603 University Ave.; two children, John B., Jr., and Charlotte Mitzi; and two sisters. Mr. Terwilliger was associate county agent of Moniteau County for the last five years, and had served in extension work at Mexico and Houston, Mo.

CARL U. TINNON, BS Ed. '54, on Aug. 12, 1959, in an auto accident in St. Louis. He is survived by his wife, Patricia, and three daughters, Sheryl, Gayle, and Laurie of 3936a Lafayette, St. Louis, Mo.

CYRIL N. DOUGHERTY was killed May 3, when his car left the highway near Rockport, Mo. Mr. Dougherty was a 1949 graduate of Craig (Mo.) High School, and a 1954 graduate of Northwest Missouri State College, Maryville. He attended law school at the University in 1957-58. He is survived by his mother, Mrs. Thelma Dougherty, Cornings, Mo., and three brothers.

MISSOURI AUTHORS BUSY
from page 17

Charles Schwartz who in addition to being a scientist is an artist of distinction.

Separately and in collaboration Mr. and Mrs. Schwartz have produced a number of books, articles, and feature films in their field. Their sound color film "Bobwhite Through The Year" won top prize at the International Film Festival in its division. The painstaking and impressive research required for this movie served as background material for their new book *Bobwhite*. This is their second book for children. The first, *Cottontail Rabbit* was widely acclaimed by librarians and teachers.

Mrs. Schwartz majored in zoology at Ohio State University. She graduated with a number of honors and studied at Columbia University on a scholarship, then obtained her doctorate at the University of Missouri in zoology.

Charles Schwartz holds two degrees in zoology from M. U. It was while he was working at the University that he met Mrs. Schwartz. They are staff biologists with the Missouri Conservation Commission and live in Jefferson City, Missouri, with their three children who are all enthusiastic naturalists.

A new book in the educational field titled "Educating the Gifted," which was compiled and edited by Dr. Joseph L. French, assistant professor of education at the University, has just been published by Henry Holt and Company, New York.

The 555-page volume is a book of readings containing 69 articles by pioneers and current leaders in the area of educating the gifted. The articles are grouped topically into ten sections. Dr. French has written a discussion introduction to each of the ten sections.

The editor is chairman of the Section of the Gifted in the National Vocational Guidance Association and a member of the Committee of Research and Awards of the American Personnel and Guidance Association.

Dr. French said the book is primarily designed as a single source of material for research use and to provide supplementary reading in the related fields.

The Bureau of Government Research of the University of Missouri has just issued its first monograph, a 34-page study titled "The Standing Committee of the Missouri General Assembly," by Dr. Robert F. Karsch, professor of political science and chairman of the department.

An educational study with especial interest for the student of government and, in particular, of the legislative processes, the monograph is the first of a series of such publications to be issued by the Bureau as part of its program for compiling specialized research materials. Dr. George Y. Harvey, director of the Bureau, said two more monographs are in the

process of being written now, and it is anticipated that within the next year three or four will be issued in addition to the current study.

He said all publications in the series, while generally intended for students of the government processes, will have a general appeal to those members of the public who have an active interest in governmental affairs.

The current monograph is a factual analysis of the authorization, purpose, organization, operation, and other facets of the standing committees of the General Assembly. It includes numerous tables and charts in which Dr. Karsch presents statistical aspects of the standing committees through the 69th (1957-58) General Assembly; in instances Dr. Karsch goes back to the 50th (1919-20) General Assembly, at the end of World War I. Dr. Karsch also discusses the standing committees of the Missouri General Assembly in relation and comparison to similar committees in other states and in the U. S. Congress.

Dr. Theodore E. Keats, associate professor of radiology at the University of Missouri School of Medicine, is co-author, along with Dr. Lee B. Lusted of the University of Rochester, of a new book on X-ray measurement published by the Year Book Publishing Company of Chicago. The book, "An Atlas of Roentgenographic Measurement," is a comprehensive treatise on the best methods of roentgenographic measurements to aid in reading X-ray films and determining whether the findings are normal or abnormal. Dr. Keats and Dr. Lusted assembled the material for their book from many published sources, and present a composite organization of the information in this single volume to be helpful to all physicians who interpret X-rays.

The complete "Proceedings of the Missouri Community Development Clinic," which was held on the University campus last October, have been published as a University of Missouri bulletin by the Engineering Experiment Station to make the ideas and information presented at the clinic available as a permanent record for research use by Missouri Communities seeking new industries.

The Proceedings were compiled and edited for the bulletin by J. Pitts Jarvis, Jr., assistant professor of industrial engineering and associate director of the University Engineering Experiment Station.

The Missouri Community Development Clinic was sponsored by the Mid-Missouri Development Council and the University College of Engineering to summarize Missouri development activities and capabilities in an area embracing some 16 mid-Missouri counties. The counties are Audrain, Boone, Callaway, Cole, Cooper, Gasconade, Howard, Maries, Miller, Moniteau, Montgomery, Morgan, Osage, Pettis, Randolph, and Saline.

A DEAN NAMED JOE from page 4

Four freshman scholarships have been added through allocations from the Alumni Achievement Fund.

"One of the main aims of the Law School," he continued, "is to train ethical lawyers, and we try to hold high standards before them. The Honor System has worked very successfully and it is a fine experience for students. We also want to train independent thinking students and we continue to use the Socratic method extensively. This is one reason why small classes are necessary. We also want to train our students to be good at legal research, and we encourage writing for the Law Review. It is our plan to offer more seminars which will provide training in research and discussion for all students. We also try to keep our courses practical since most of our graduates will be engaged in everyday relations with the practical business and social relations of the world. In this connection we also try to imbue them with the idea of public service as an obligation of the attorney.

"A part of the training of our law students is a development of an *esprit de corps*. We have paid a great deal of attention to student relationships and we find that giving responsibility to students develops this confidence and skill in handling matters of great importance which will confront them in future practice. We are particularly proud of our student bar organizations and of our legal fraternities. A small law school such as ours where all students know each other is a good place to develop close-knit relationships which are so valuable in later life. It is for this reason that we believe that persons who plan to practice law in Missouri should attend a law school in this state, and of course, from our own viewpoint, we have one favorite school."

A further look into Dean Covington's background reveals a varied experience. After receiving his A.B. degree from Arkansas in 1932, he was a high school teacher and superintendent of schools for several years. It was not until 1938 that he decided to return to his alma mater to study law. He earned his LL.B. degree in 1940, then pursued post-graduate study as a Research Fellow at Harvard University, receiving an LLM. degree in 1941, and the Doctor of Juridical Science degree in 1952. Between the last two dates, he was assistant professor of law at Arkansas in 1941, with the Air Force in the Far East and South Pacific for several years, then back with the university as associate professor in 1946. Also at Arkansas he became Executive Assistant to the President and Professor of Law in 1948, and Provost of the university in 1951. He was Provost and Acting Dean of Law in 1952-53, and became Dean of the Law School in 1954.

In moving northward by one state the dean has found no lessening of hospitality, and he has been pleased by the attitude of alumni.

"They have been nice to me," he said, "because

I represent a law school which is dear to them and one which has an excellent standing among the law schools of the nation. My family and I have also enjoyed living in Columbia. The people are friendly and have welcomed us into the community. It has also been a pleasure to work with the law faculty, with the administrative officials of the University, and with the other divisions of the University. Law School relationships with the Business Office and Admissions Office have been particularly pleasant."

As Dean Covington spoke of this cordial welcome to Missouri it was suggested that perhaps the impression he was making in his first year was one that invited such a reception.

"Let's wait another five years," he laughed, "and see if they still like me then."

Big day recalled

In 1906, when enrollment reached 2,000, M. U. celebrated.

Enrollment figures at the University have been in the 10,000 area regularly of recent semesters, but there was a time, back in 1906, when it was cause for celebration as the student body population reached 2,000. Miss Elva D. Withers (Mrs. Charles K. Martin) became No. 2,000, she was "queen for a day" and a holiday was proclaimed. As the Sunday St. Louis Post-Dispatch of February 4, 1906 heralded the event, in a two-column headline: "Young Woman Rises to Fame by Enrolling as the 2000th Missouri University Pupil."

Under her picture was this account: "Miss Alva D. Withers is the present heroine of the Missouri University students. She is a popular Columbia girl and was known to many students before she was enrolled as one of them—but that was not the reason classes were suspended and the regular short chapel period extended into a long, enthusiastic jollification meeting. The reason was that Miss Withers, either by chance or design, was the two-thousandth student to be enrolled. With her name, the university stepped into the charmed front-rank circle, and in the celebration that followed Miss Withers was not neglected. The university reached the thousand mark in 1901, and the faculty was particularly anxious to see the attendance doubled in the five years."

In 1907 Miss Withers married Charles Knox Martin, BS EE '05, and they live at 742 East Elm, Springfield, Mo. They have two sons and two daughters. The brothers, Yale graduates, are Dr. Charles K. Martin, Jr., president of Radford (Va.) College, and Dr. Edwin L. Martin, president of State Teachers College, Trenton, N. J. Their daughters are Mrs. Ralph N. McComb (Lois Martin), whose husband is head of the library at Penn State University, and Mrs. Elmer J. Bennett (Mary Ann Martin), whose husband is an attorney at Summit, N. J.

page thirty-six

We have developed a new fondness for sellout football games, explainable as follows: Temporary bleachers had to be erected for the Oklahoma game, and we found it convenient to walk underneath these in reaching our assigned seats in the permanent stands. Beneath this canopy of elevated humanity we found, to our delight, numerous football programs; these had fallen from clumsy spectators seated above, and the ground was littered with them (the football programs). Like a flash, we saw a rare opportunity. We hurriedly gathered up the scattered programs (50 cents a copy, and worth it) as a person in a dream hauls in bank notes falling from the sky. Emerging from underneath the bleachers we were loaded (with football programs) and it seemed that fortune was about to reward our initiative. However, the time element was against us. The game was about to start, there still was a crush of unseated ticket holders; so, under such circumstances, the market for resale of dropped football programs proved bearish. Therefore, we plan to arrive early at the next sell-out, and if you want a football program at a price to fit your pocketbook, contact us under the temporary bleachers, east side.

The twelve-month period devoted to observing the Golden Anniversary of the University's School of Journalism ended some time ago, but one reminder of the big event is still sticking around. This is the out-sized special issue stamp on Freedom of the Press. By checking with Professor Robert Haverfield we could give you the size of the original printing. He would probably say 120 million or something like that, but by our own estimates we would say the figure must have been closer to a trillion or so. This belief is based on the fact that the black and white stamps are still floating about in the community; just when you think the end is surely here, another batch appears. This pleases many people who still request extra supplies, and if rumors are right, some are saving the stamps to be affixed to Christmas cards. On the other hand, some folks have looked at the stamps so long they're getting post-traumatic dementia. We understand that one stamp collector's publication voted it "the ugliest stamp of the year." This honor is probably uncontested, but it is no reflection on anyone locally; forty-five designs, several of them very attractive, were submitted to Washington, but all were tossed aside and a different design was commissioned. Anyway, it was a tremendous job getting approval of the issue in the first place, and the local promotional efforts were stupendous; it just seems that somebody let the presses run too long. But, while the supply lasts, we suppose you can say we're still putting in our licks for Freedom of the Press.

An alumnus in a neighboring town writes in part: "It appears that our University has gone building crazy. Buildings going up in every available space and no place to park. Cars bumper to bumper in narrow streets all over town." That's why we enjoy going to McBaine; you don't get that crowded feeling. The letter writer hits this University town in a vulnerable spot—it is guilty of progress. In our time there has been a lot of progress, which we have fought every step of the way. But we have grown philosophical; if you can't beat progress, join it, we always say. We were satisfied with the kerosene lamp, and look what electricity did to it. But we agree with the words of George Gobel, who once said, "We should be thankful for electricity. Without electricity we would all be watching television by candlelight." How true. We have been forced to give ground on many fronts. We frequent the water cooler, but no one has really improved on the gourd dipper at the well. We waged a campaign to preserve the night shirt, and were all wrapped up in it, but the tops and bottoms interests prevailed. We foresaw the menace of the horseless carriage, but a headstrong public persisted in its folly. And so it goes. The dam has burst, and there is no stopping the onrushing flood. So let our letter writing neighbor come join us; let us go down into the maelstrom of progress together.

J.C.R.

Hail, Tiger Marge

Vaughn M. Bryant, director of international relations, Port of Houston, forwards a clipping from the Houston Chronicle concerning one of the great Tiger boosters, Mrs. Marge Miller. In an accompanying note, Vaughn writes: "It is a *real* tribute to Mizzou and to Marge Miller, and all of us who know her and have worked with her are mighty proud. She has been the wheel-horse in putting all our programs together, from the big doin's last year at this time when everyone came down for the A & M game on through the Journalism Golden Anniversary and now, back on her feet after illness last spring, she is into the fall fray."

The clipping is the September 24 column, "Of Cabbages and Kings," by the noted sports personality Morris Frank. It is headed "Tiger Marge Opens Season" and contains these excerpts:

"The big news from the Missouri U. exes camp is that Tiger Marge is set for the season. Tiger Marge, as every Missouri U. grad or just those who might have changed buses at Columbia, Mo., knows, is the effervescent Mrs. Marge Miller of Bellaire.

"There might be more enthusiastic exes in Missouri U. history than Tiger Marge, but if so, well shattered cadrums of the listeners are evidence. You know, I don't believe in any

era, anywhere, has there been a diehard of a football fan like Tiger Marge is over Missouri. The fems, bless 'em, lead in everything.

"My good friend, Tiger Marge, advises by letter, telephone and carrier pigeon that the Missouri U. exes will gather Saturday night. Honored guest will be my old pal, not only one of Missouri's mightiest athletes but one of the Southwest's greatest officials and sportsmen, Harry Viner. As an official, Harry not only called 'em like he saw them, but quite often he could see them, too. Harry is truly a great guy."

"Yea, Missouri and Tiger Marge."

They remember Muth

When Missouri scored its first touchdown against Michigan at Ann Arbor on September 26, a delegation of 32 persons who took a chartered bus from Cleveland to see the game, sent up a cheer for Frank A. Muth. When Missouri won the game in the final

Frank A. Muth

seconds, the group put in a long distance call to Muth, who was flat on his back at Lutheran Hospital in Cleveland. Each of the Missouri fans spoke to him over the phone, to wish him well and give him the news about the Tiger victory.

Frank Muth, B.J. '49, is the first and only president the M.U. Alumni Chapter in Cleveland has had since it was formed three years ago. His enthusiasm has been phenomenal. Thanks to his efforts, a chartered bus trip to the Michigan game was organized. During the early part of August, while arrangements were being furthered, Frank suffered a heart attack. But he continued the bus project, as well as his duties as public relations director for Lutheran Hospital—from his bed there. When he suffered a relapse in September, finalizing of arrangements was turned over to Bill Gabriel, B.J. '50, treasurer. But when the thrilling game ended, the Cleveland fans remembered Frank for his work in behalf of the excursion.

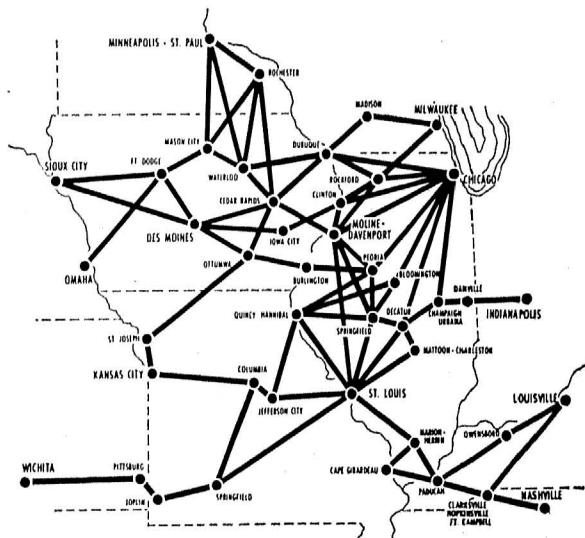

As late as one week before the game, Muth was vowing that his third heart attack this year was not going to keep him away from Ann Arbor, but doctors overruled him, insisting that he must rest.

Alums making the trip included Arthur Stunz, '26; Al Hickman, '29; Marg (Loughead) Reedy, '49, and husband Don; Marnie (Bowman) Fouse, '48, and husband Don; Lewis Vasel, '47; Bliss Wilder, '11, and wife Ruth; Marianne (Chadwell) Fairfield and husband Dave, both '50; Don Garber, '51, and wife Barbara; Mrs. Emma (Ruchen) Lawrence, '21; Owen F. Bechmeyer, '39, and wife Irene; Larry Hitti, '53, and wife Vi; and Bill Gabriel and wife Jan. Mr. Wilder was on M.U. football squads for three years and teaches full time at Youngstown College at Youngstown, Ohio.

**FLY
OZARK AIR LINES**

serving 52 midwest cities in 10 states

Over 1,000,000 Americans cured of cancer! Enough to fill the famous Rose Bowl ten times over. All of them alive and well because five, ten or even twenty years ago they went to their doctors in time.

In a single generation, cancer's cure-rate has been raised to one-in-three saved from one-in-seven saved...largely due to the trail-blazing programs of the **American Cancer Society**.

To learn how to guard yourself and your family against cancer, call our nearest office or write to "Cancer" in care of your local post office.
