

MISSOURI ALUMNUS

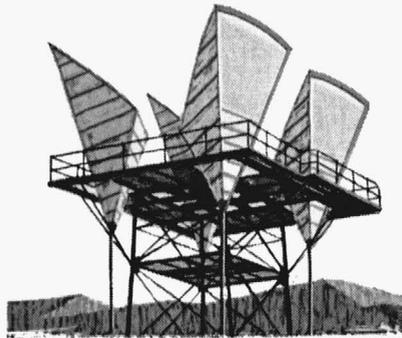

December 1964

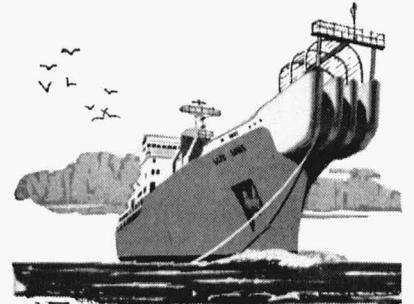

Here are some of the ways we handle your telephone calls today

A buried coaxial cable may carry as many as 9300 phone conversations at the same time.

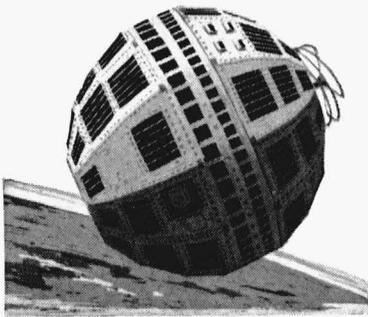

Radio relay systems can handle more than 17,000 simultaneous phone conversations.

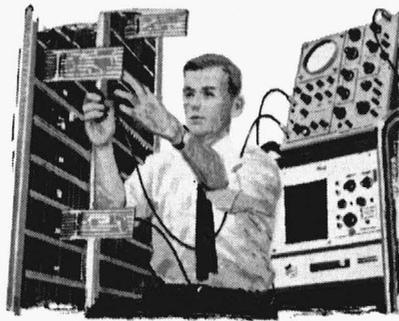

Submarine cables whisk your words under-seas as clearly as when you talk across town.

These developments will speed your telephone conversations tomorrow

A worldwide system, pioneered by Telstar® satellites, may speed your calls via space.

Electronic Switching will connect you faster and provide many useful new phone services.

Directly-dialed Collect and Person calls will speed to completion with Operator aid.

And all are planned to meet an expanding nation's need for service

As the population grows and households multiply and business machines devour greater mountains of data, the Bell System must constantly find and develop new com-

munications techniques to stay ahead of new demands. We're working hard to do that today. And we can promise you finer, faster, more versatile services tomorrow.

ABOUT THE COVER

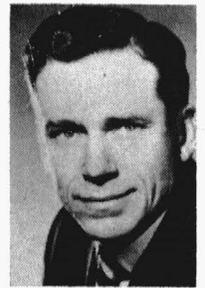

Missouri Governor-elect Warren E. Hearnes and family. Mrs. Hearnes is the former Betty Sue Cooper, also a University graduate. Their daughters are, from left: Leigh, 12; Lynn, 15; and Julia B., 6. See next page.

THE MISSOURI ALUMNUS

is published monthly except July, August and January by the University of Missouri Alumni Association, 308 Jesse Hall, Columbia, Missouri and mailed to all active members in the Association. Entered as second class matter under the act of March 3, 1879. Active membership \$4.00 a year; life membership \$80. Member, American Alumni Council.

Missouri's New Governor

Warren Eastman Hearnes, who holds two degrees from the University and was first elected to the Missouri Legislature while a student here in 1950, will become Missouri's new governor in January.

Mr. Hearnes assumes the governorship after serving the past four years as Secretary of State. Before that he had served five terms in the Legislature as representative from Mississippi County, and during the last two terms he was majority floor leader. As governor, he succeeds another alumnus, John M. Dalton.

In 1958 Mr. Hearnes received the St. Louis Globe-Democrat Award for Meritorious Public Service as "the most effective House member in debate."

In 1961 he received the American Heritage Founda-

tion's "Outstanding Citizenship Award" for leadership in working for modernization of Missouri's election laws.

Between 1941, when he originally enrolled in the University, and 1952, when he received A.B. and LL.B. degrees here, Mr. Hearnes had attended the United States Military Academy at West Point and served in World War II. After brief service as an enlisted man in the United States Army, he entered the Military Academy at West Point, where he received a B.S. degree in 1946. After serving with the 65th Infantry in Puerto Rico, he was honorably discharged in 1949 because of a leg injury. It was then that Mr. Hearnes returned to the University, and in 1950 he became the youngest State Representative to be elected from his home county.

As a legislator, Mr. Hearnes was a leader in improving Missouri public education. He was author or co-author of many measures recommended by the State Reorganization Committee. He sponsored the teachers retirement system bill and was floor manager in the House for all of the progressive mental health measures passed from 1957 to 1961.

In 1961 he became the youngest Secretary of State in Missouri history.

As a vote-getter, the 41-year-old Democrat from Charleston has compiled a remarkable record, having amassed large victory margins in his seven campaigns for public office. He returned to the campus recently to be re-initiated into Phi Delta Phi legal fraternity, of which he was a member when attending the School of Law, and to address the founders' day banquet of the fraternity.

"Things you do in politics and government service reflect not only on you, but on your family, friends and associates," he told the audience. "This is what enables a person in public life to endure a 16-hour day and the many other hardships of public life."

He urged law students to take part in local and state activities in addition to practicing law. "You want the people who have devoted so much of themselves to helping you to be proud of you," he said. "This is my goal in the next four years."

His affiliations include the Missouri Bar, the Veterans of Foreign Wars, the American Legion, Phi Delta Theta social fraternity, Scottish Rite, the Shrine, the Order of Elks and the Order of Eagles.

Mrs. Hearnes is the former Betty Sue Cooper, also a 1952 graduate of the University. They were married in 1948 and have three children: Lynn, 15; Leigh, 12; and Julia B., 6. The family is pictured on this month's cover of the *Alumnus*.

Governor-elect Hearnes shows Phi Delta Phi fraternity pin he wore as a student and a new one, in the box, he received in honorary re-initiation. With him is Dan Ferry of Nevada, senior law student and president of the fraternity.

Woodhaven and M.U. join forces in

A Program of Sharing

By Betty Haverfield

When the Woodhaven Christian Home for Children opened its doors to a carefully selected group of mentally retarded and physically handicapped youngsters last May, the University of Missouri gained another valuable training and research center for its staff and students.

Coinciding with the University's program for the education of severely handicapped students at the college level, Woodhaven is providing an in-service training program for many areas of the curriculum. Particularly in the departments of medicine, psychology, physical therapy and education, each institution can offer services to enhance the work of the other, while remaining financially and administratively independent.

Woodhaven lies in a heavily-wooded tract of land four miles south of Columbia, just west of Highway 63. Its present complex consists of three contemporary brick and glass buildings which can house 64 children ranging in ages from infancy through adolescence. Today there are 45 pre-school and school age children in residence; the infant wing has not yet been opened.

Presiding over the many facilities of the Home is the Reverend Charles M. Palmer, who for many years headed the St. Louis Christian Home for Children. A five-man professional staff serves on a full-time basis: a social service director, education director, medical director, psychologist and minister. These

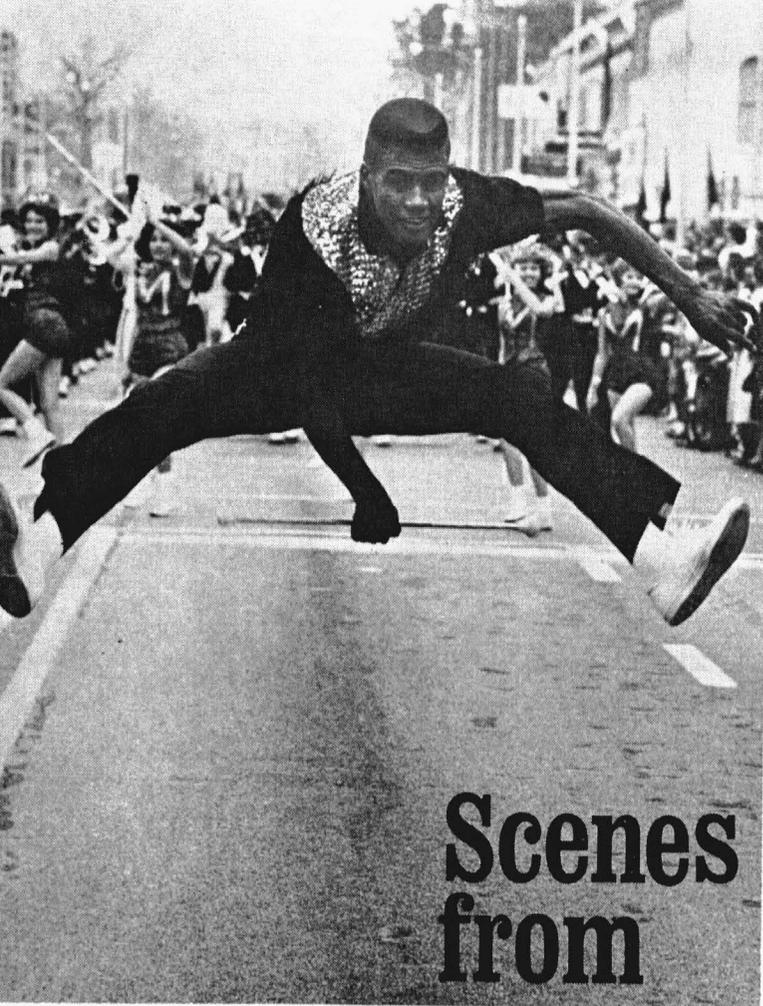

men act as a committee to evaluate the applicants for admission and to supervise their education and welfare while in residence.

Any child who is retarded in some degree is potentially eligible for admission to Woodhaven; admission is based upon the total medical and training needs of the child. Only those children who are living in a family unit are admitted. This is because the chief aim of the Home is to maintain a close family relationship and educate or train the children to return to family life as active and participating members, and perhaps to support themselves.

Dr. Elmer Ellis, president of the University, has worked closely with the Christian Church board for the six years that Woodhaven has been in the planning and construction stages. At the dedicatory services, President Ellis emphasized the ways in which the University and Woodhaven would be helpful to each other. "Certain educational research and training programs of the University will be enriched by excellent study resources at Woodhaven and not available anywhere else in the entire University system," President Ellis said. "Concurrently, Woodhaven will be aided in securing highly competent professional staff members who might not be available under other circumstances."

The education director, or principal, at Woodhaven is Daniel L. Peterson, a graduate of the University

HOMECOMING

Mizzou cheerleaders generate spirit at Buffalo Barbecue and pep rally.

Photos by Ted H. Funk

HOME COMING continued

This year's Homecoming, which had as its theme, "How the West Was Won," had greater attendance and enthusiasm than in recent years. The Tigers helped matters by turning back the Colorado Buffaloes at Memorial Stadium.

On the eve of the November 7 game, Brewer Field House was the lively scene of the Buffalo Barbecue and pep rally. The Mizzou band, the cheerleaders, and The Knaves contributed to the rousing spirit.

On the morning of the game, coffees, reunions and receptions by various divisions or departments, honorary groups and other organizations were well attended. Special guests at the M Men's luncheon were members of the '09 and '39 football teams. The

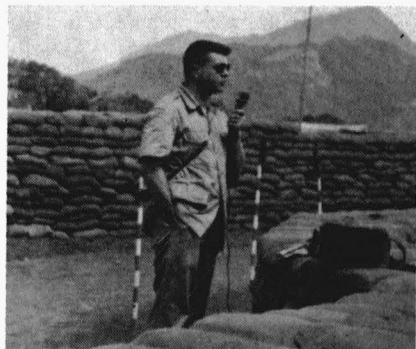

dance that night crowded Rothwell Gymnasium.

In halftime ceremonies at the game, Homecoming Queen Jody Swartz was presented as were six finalists: Janet King, Carol Schmidt, Ann Meuser, Judy Graves, Lindsay Anderson and Helen Baumann. Earlier in the week the Queen and her attendants, Janet King and Carol Schmidt, called on officials in Jefferson City, St. Louis and Kansas City, and were entertained by local alumni leaders.

In the parade, Jackson House had the winning float. House decorations winners, in order, were: (Women's)—Gamma Phi Beta, Kappa Alpha Theta, Alpha Delta Pi; (Men's)—Beta Theta Pi, Kappa Alpha, Lambda Chi Alpha.

missouri memo

MICHAEL DALE BROWN has been on the move lately. Stationed for some time in Tokyo with the USIA, he was ordered to Burma as cultural attache about a year ago. Saying sayonara to Japan, he and his family left last February for Rangoon (via Hong Kong for a shopping spree). It was a short-lived tour of duty. In May he was transferred to Saigon, Viet Nam, as Voice of America program officer; wife Betty and daughter Peggy, 4½, joined him in mid-June. Each week, Mike produces and pack-

ages a number of radio shows in Vietnamese for the American VOA Service in Washington, D. C. Broadcasting time has doubled—now six hours daily—since his arrival there. He is shown in the picture above while on a visit to a Special Forces camp (Kham Duc) in Central Viet Nam, about ten miles east of the Laotian border. Mike received two degrees from M.U.—an A.B. in 1950, and an A.M. in 1951. His address is American Embassy, USIS, APO 143, San Francisco, Calif. He sends news of two M.U. grads living in Honolulu, Hawaii—ALAN LEE GOODFADER, B.J. '50, who has been doing public relations for a congressional candidate, and JOHN RAMSEY, B.J. '49, editor of Pacific Business News.

Personnel changes at Doane Agricultural Service, Inc., 8900 Manchester Rd., Brentwood, Mo., included three M.U. graduates. H. G. E. FICK, B.S. in Agriculture '32, was elected president of the firm. He succeeded a classmate, A. J. BERWICK, B.S. in Agriculture '32, who remained a director and

moved to Chicago to handle the company's appraisal and public relations in that area. J. W. HACKAMACK, B.S. in Agriculture '47, was elected a vice-president.

Four of nine new directors elected to the 29-man board of directors of the Kansas City Chamber of Commerce recently are University alumni. They are: JOHN AYRES, B.S. in Engineering '35, president of the Cook Paint & Varnish Company; R. CROSBY KEMPER, Sr., president and chairman of the board of the City National Bank & Trust Company, who received an A.B. degree in 1914; JOHN P. MILLER, B.S. in Business Administration, 1935, former executive vice-president of the Spencer Chemical Company; and WILLIS C. THEIS, president of the Simond-Shields-Theis Grain Company, who attended M.U. from 1934-37.

"It's been 53 years between quarterbacks . . ." And so it was at what turned out to be an impromptu alumni reunion recently at the Johns Lumber Co. in Sedalia, Mo. J. B. BUSHYHEAD, Law '04, who resides on a farm near Clifton City, Mo., dropped by the company's offices to say hello to his friends, R. M. (Bob) JOHNS, JR., A.B. '31, and FRANK FAXON, Arts '33. As football fans are wont to do, J. B. (1903 Tiger quarterback) was talking about the games of yesteryear, when an Atlas Cement Company salesman arrived for one of his regular calls at the lumber company. It was then that two former Tiger field generals met for the first time. The newcomer was KEN CLEMENSEN, co-captain and quarterback of the 1956 football team. Ken, who lives in Springfield, Mo., received a B.S. in Education in 1959.

W. M. DINWIDDIE, who will retire January 1 after serving 32 years as judge of the 34th Judicial Circuit (Boone and Callaway counties), was honored this month at a Boone County Bar Association

dinner in Columbia. Judge Dinwiddie received his LL.B. degree from the University in 1909 and was admitted to the bar that year. He was Columbia city attorney from 1911-15, and prosecuting attorney from 1915-19. DON CARTER, Law '05, a Sturgeon lawyer and senior member of the 34th District Circuit Bar, presented Judge Dinwiddie with a watch. U. S. District Judge WILLIAM H. BECKER, LL.B. '32, former Columbia attorney who now lives in Kansas City said Judge Dinwiddie "never exhibited arrogance. He has always shown a great deal of humility. That is a wonderful trait in a judge. Even when he threw your case out of court, he did it gently." Judge Dinwiddie and his wife, the former MARGARET CARTER, A.B. '12, live on RFD 5, Columbia.

SUE LEGA HANSON (A.B. '55), her husband Jim and their son Hjalmar have returned from Chile and are now living at 2929 Washington Blvd., Cleveland Heights, Ohio. The Hansons went to Chile in 1963; Jim was on assignment for Mount Wilson and Palomar Observatories. They now operate South American Imports, and one of their products is an Alpaca wool poncho, several styles of which they exhibited at the recent Cleveland Ski Fair. In the accompanying snapshot Sue is shown wearing a collarless model.

It's Here --- MEN'S SWIMMING POOL

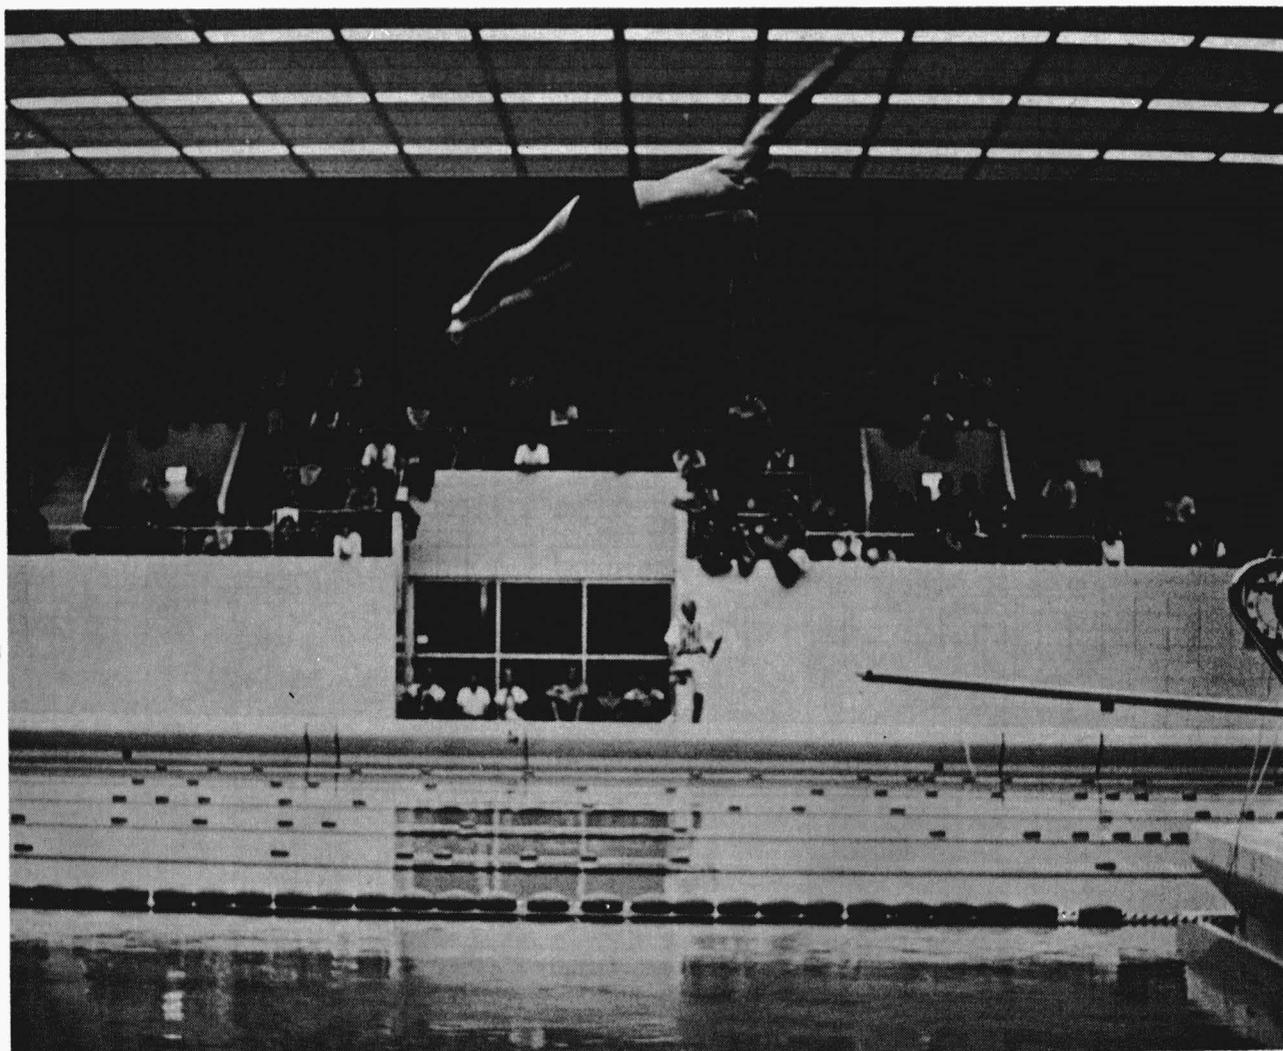

It's been a long time coming, but it's here at last—a swimming pool for men students and faculty members. It was probably worth waiting for. Actually, there's an indoor pool and an outdoor pool. They are part of the new facilities recently completed on Rollins Street near Maryland. Both pools have been filled with water to permit the installing engineers and University authorities to thoroughly test all mechanical equipment and controls for proper health and safety operations. The indoor pool got its "baptism" right away—when Missouri swimmers met the William Jewell team and chalked up a victory.

The opening of the swimming pools climaxes many years of effort on the part of students, alumni, and University administrators. They sought adequate fa-

cilities to introduce a full schedule of aquatic instructions in the physical education program and to provide training facilities for inter-collegiate competition in swimming and diving.

M.U. has been one of the few major universities in the country that did not have facilities for an aquatic program for men students. The Women's Gymnasium contains a swimming pool, but it is too small to meet standards for competitive swimming. In fact it is barely adequate to meet the needs in the women's physical education program.

The new building is considered an addition to the men's gymnasium facilities of the University. The construction was financed by an appropriation of \$400,000 from the Missouri General Assembly and

Columbia Tribune photo by Don Tharp

Seats along north wall of building accommodate 500 spectators.

Photo by Ted H. Funk

the sale of general revenue bonds of \$375,000 to be retired from student activity fees.

The indoor pool meets all the standards of both the Amateur Athletic Union and the National Collegiate Association. It is the standard 25 yards in length and 15 yards wide, with a 30x30 foot diving well extending from the south side. Standard one-meter and three-meter diving boards are provided. The main part of the pool has six swimming lanes. The diving well of the pool is 12 feet deep, and the swimming lanes graduate to a depth of four feet at the east and west ends. The pool is provided with underwater lights; it has underwater observation windows so that swimming instructors can observe

stroke techniques in class instruction and team training. There are special steps for physically handicapped students to gain access to the pool.

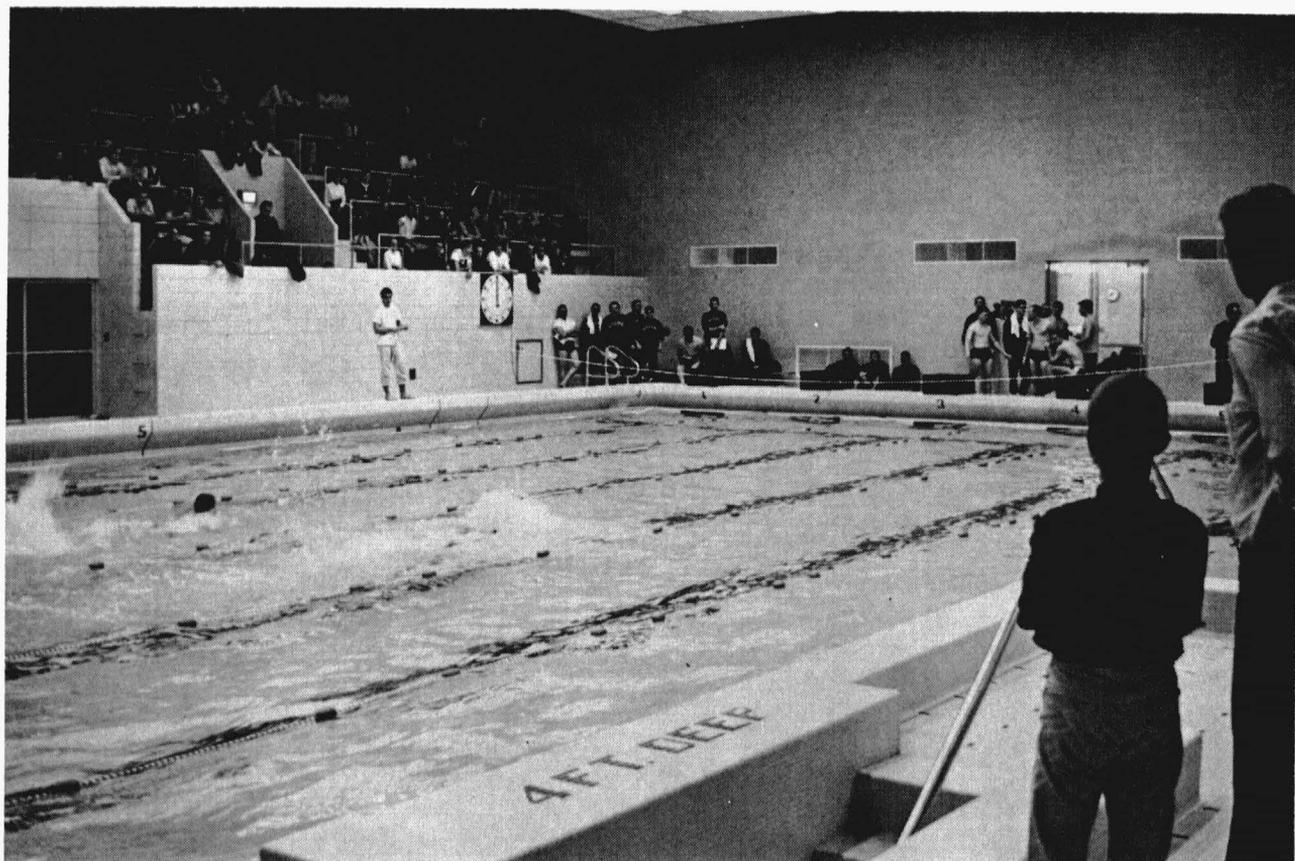

Seats for approximately 500 spectators are provided along the north wall of the building overlooking the pool. The elevated seating is above a row of offices for the director and swimming instructors.

The building includes a well-equipped classroom, locker rooms, dressing rooms, and shower rooms for both men and women. The outdoor pool is also 25 yards long and suitable for competitive swimming. It is 35 feet wide and has two diving boards.

Below the ground level of the building is a huge

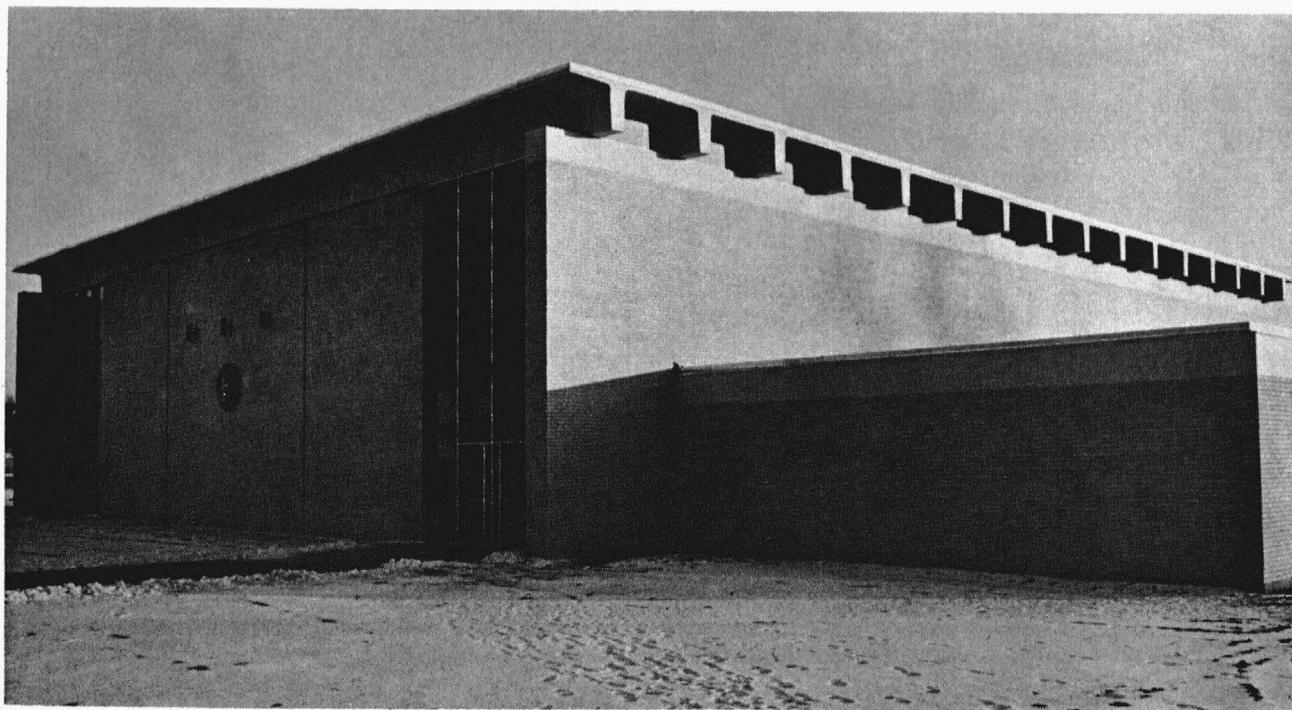

Text continued on page 36

POOL continued

Columbia Tribune photo by Don Tharp

The six-lane indoor pool holds approximately 240,000 gallons of water.

The building is located on Rollins Street near Maryland Avenue.

Justice Gibson Retires

Chief Justice Phil S. Gibson of the California Supreme Court ended a 51-year legal career when he retired on August 31. A member of the Court for 25 years and its Chief Justice for 24, he said he will continue to work as a private citizen for the completion of the reforms begun while he was on the bench.

A native of Grant City, Missouri, Justice Gibson, now 71, became a lawyer at the age of 20. He received his A.B. and LL.B. degrees at M.U. in 1914, and returned in 1955 to receive an LL.D. degree conferred by the University. He has been similarly honored by

the University of the Pacific, Southwestern University, McGregor College of Law and the University of Southern California.

His first experience in politics came only a few months after his graduation when he was elected prosecuting attorney of his home county, Worth. He enlisted in World War I as a private and came out a lieutenant. After combat duty in France, Justice Gibson enrolled at Inns of Court in London for graduate work in law.

In 1922, Justice Gibson established a private practice in Southern California, but left to serve as State Director of Finance in 1939. During intervening years, he served in other important posts including Chairman of the State Board of Control, Director of Finance of California, Chairman of the State Lands Commission, and member of the Governor's Council. He also held many high offices in Bar and Judicial organizations.

"With Chief Justice Gibson's retirement, American law loses one of its giants," California's Governor Brown declared. "His wisdom and learning in the law are matched by his compassion for human beings and his fierce dedication to justice." His loyalty to his Court was so fierce that he twice turned down offers of impressive Federal posts—Undersecretary of War under President Roosevelt, and Solicitor General under President Truman.

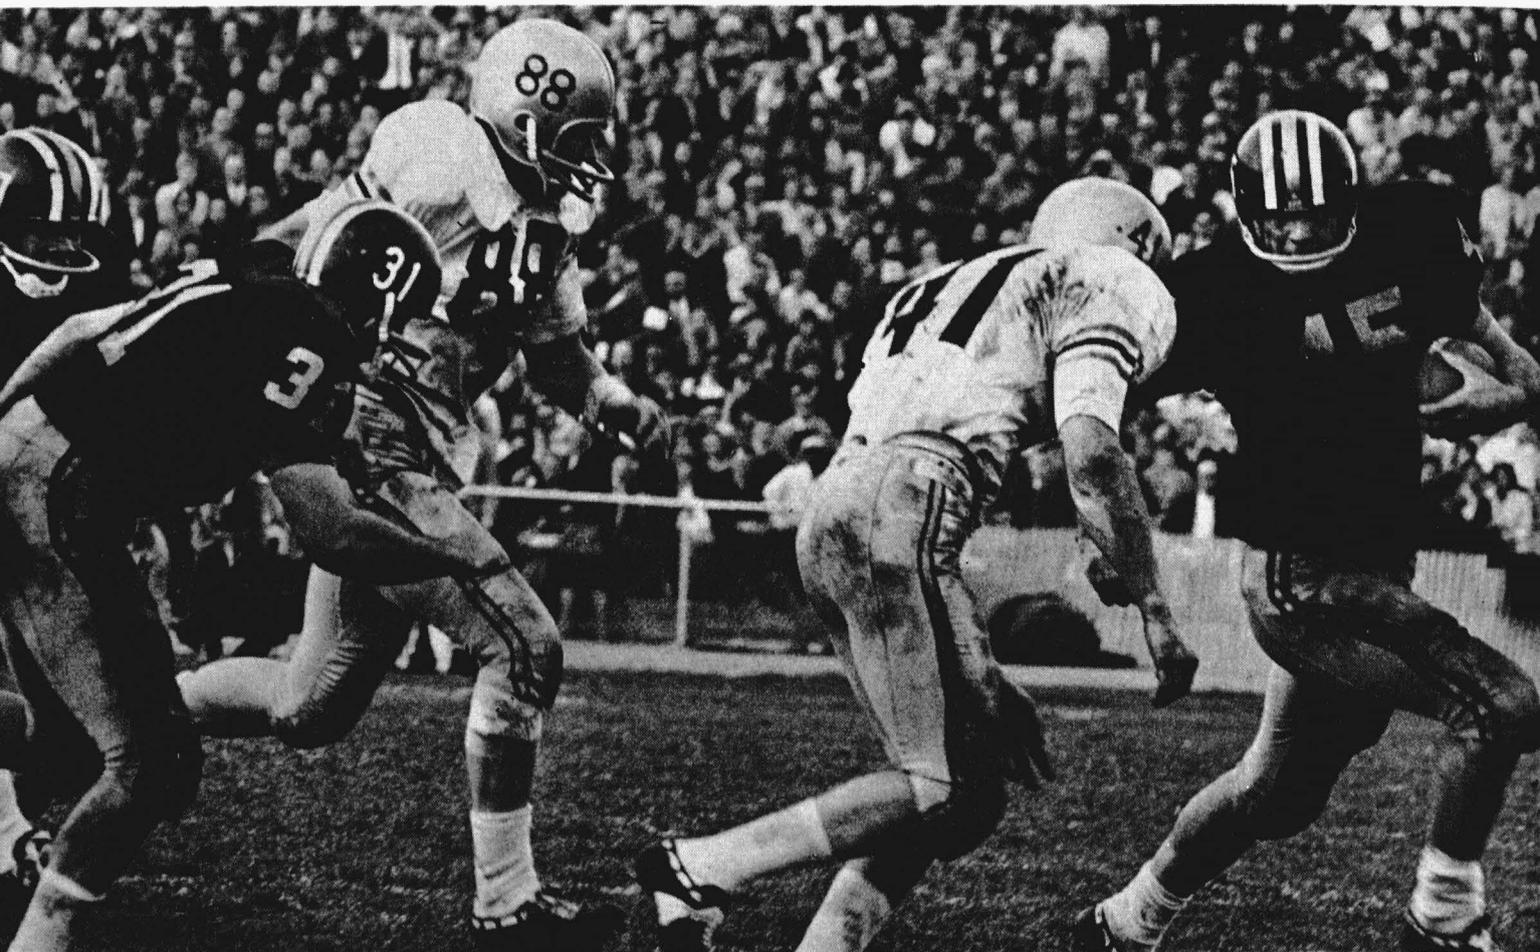

While on the Court, Justice Gibson wrote 668 majority opinions and led the move to reorganize the state's lower courts. His career was marked with many landmark opinions including those on human rights and invalidation of the alien land law for Orientals. He also held that newspapers have a right to criticize a judge's verdict, and upgraded jurist standards and speeded up the time it takes for cases to come to trial.

"He has been one of the giants in the judicial system," says a colleague on the Court. "He has a vital keen minded ability to dissect every legal case and he has made a great contribution to the administration of law."

Justice Gibson has declined many offers to join law firms because "I do not believe it is proper for a retired Supreme Court justice to practice." Now his goals include a new State Constitution, a complete revision of California's Penal Code, and the elimination of jury trials in personal injury cases.

A hard working judge, Phil Gibson has taken only one vacation since the year he was appointed to the Court. That was in 1954 when he went to Europe. "I was chasing a gal to get married," says the judge, his eyes twinkling. The trip paid off, for that same year the widower married Victoria Glennon, an attractive brunette who had worked for the Court as a research attorney. They live in Atherton, California, with their seven-year-old son, Blaine Alan.

Typically, Justice Gibson reacts modestly to accolades. "That's baloney," he responds to the suggestion that credit for updating the State's judiciary belongs to him. Perhaps the secret of his success is found in his oft-heard quote: "It is surprising how much you can accomplish if you do not care who gets the credit."

Three scenes of Tiger action in Colorado game: Earl Denny the ball carrier, Carl Reese at left.

THE SLOW JELL

For Mizzou fans accustomed to seeing their football team break briskly from the starting gate, the 1964 season was a slow-jelling saga that ended on a high note. Losing two of the first three games, Coach Dan Devine's seventh M.U. team began maturing perceptibly by mid-season and finished up handsomely by thumping Kansas, 34-14.

In the happy aftermath of a 6-3-1 campaign that was perhaps not quite as productive as touted in some pre-season polls but still eminently satisfying, Mizzou withdrew from all bowl speculation. Tiger players indicated they'd had enough football—in 1964 at least, a year that had provided little respite from pressure.

Who needed an encore, anyway? How do you improve on a 20-point fourth-quarter explosion against arch-foe K. U.—the biggest winning spread by either team in the last ten years? What better victory could be filed in an album of collegiate memories by 15 outgoing seniors, among them Capt. Gus Otto, the rugged fullback who blasted Jayhawk defenses for 88 yards, scored one touchdown and set up two others?

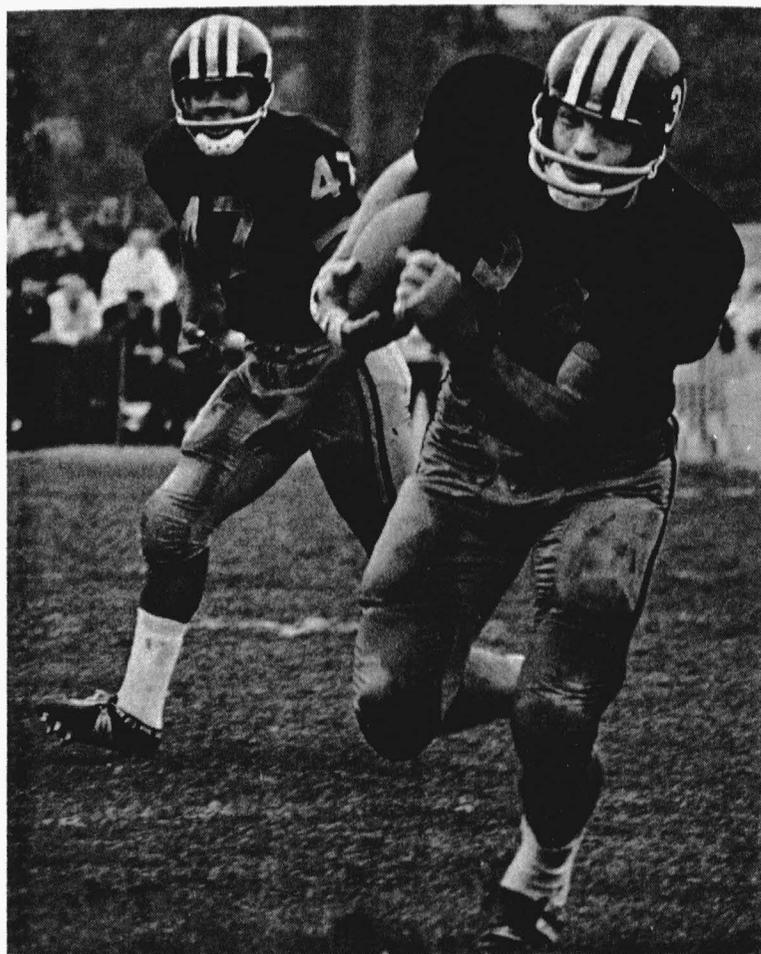

For his finest 1964 performance, the 220-pound Otto was picked as the Big Eight's Back-of-the-Week.

Some 49,000 tickets were sold for the Kansas wind-up, and stay-aways were comparatively light as a bundled-up crowd braved 17-degree weather to watch the 73rd renewal of this gridiron border rivalry. Aside from Otto's heroics on offense, Tiger partisans could delight, too, in a superb defensive job on Gale Sayers, K. U. all-American, by the Missouri line. In his farewell college game, the Chicago Bears' No. 1 draft choice netted just 19 rushing yards—a career low.

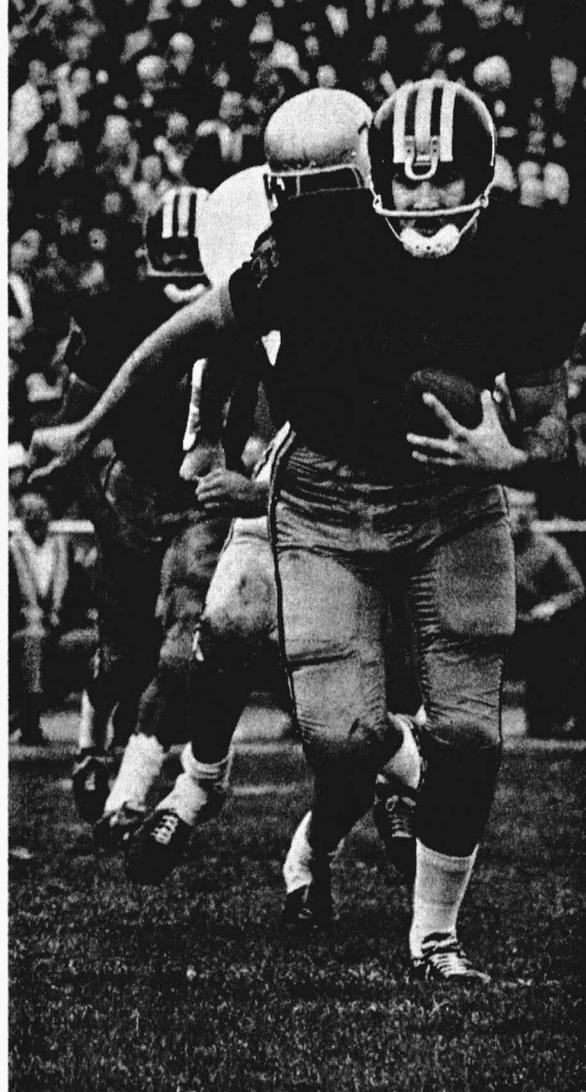

Coach Devine and his aides understandably were proud of their athletes' comeback. Though the final 4-2-1 conference log meant only a fourth-place finish, the Tigers were king-sized spoilers. In the campaign's last two weeks, they knocked Oklahoma and Kansas out of possible shares of a title that Nebraska successfully defended.

Financially, the season was a success, too, Missouri averaging better than 45,000 a game for a new home attendance record.

In retrospect, Missouri came of age in the 17-7 Air

Captain Gus Otto with ball; No. 47 is Charlie Brown.

Quarterback Gary Lane carries.

Photos by Ted H. Funk

Force victory, game No. 5, after yielding an early touchdown to the Cadets. The Tigers really "arrived" in a confidence-building, 83-yard, late drive for a 14-14 standoff with Oklahoma. This was the springboard for a fitting finale.

The after-glow, indeed, was warm, pleasing. That fast finish nurtured hope and high expectations for 1965. Even the most casual of Gold and Black football fans could cite these favorable signs.

Only Otto and Ted Saussele will be gone from the list of leading ground-gainers. Six of seven regulars in the defensive line return. The sophomore harvest should turn up size and quality in several of the new varsity prospects, especially at the end positions.

Improvement, of course, will be mandatory in a league that showed true top-to-bottom muscles for the first time in '64. . . . And the Tigers' non-conference commitments are tougher—Kentucky and U.C.L.A. to be met in Columbia, and Minnesota at Minneapolis.

Three of Mizzou's seniors were tapped for post-season appearances in the Blue-Gray game at Mont-

gomery, Ala., on Dec. 26. Chosen to play on the Blue squad, which has Don Faurot as one of the coaching lieutenants, were Otto and a pair of ends—Bud Abell and Bob Ritter. Otto will also appear in the Senior Bowl game at Mobile, Ala., on January 9.

These Tigers won top spots on All-Big Eight teams: Tom Wyrostek, Bobby Brown, offensive line; Butch Allison, defensive line; Ken Boston, Johnny Roland and Otto, defensive backs; Gary Lane, offensive back.

Missouri 16;	Colorado 7
Missouri 14;	Oklahoma 14
Missouri 34;	Kansas 14

(Won 6, Lost 3, Tied 1)

Basketball

Missouri's basketball resources appeared somewhat slim as the roundball season hove into view this month. Of most concern was remodeling an offense that won't have last year's high-powered scorers—Bob Price and Ray Bob Carey.

This pair collaborated for almost 40 points a game during a 13-11 campaign—Mizzou's first winning record in eight years—but among six holdover lettermen, there were no scorers with their potential.

Coach Bob Vanatta must reckon with still another handicap—a lack of height and rebounding power. None of his probable starters will be taller than 6-5. Sophomore Rich Milling of Selma, Ala., at 6-8 and Charlie Sudholtz, a 6-7 junior from Clarksville, will improve this situation if either cracks the starting lineup.

Vanatta, however, was relying on an all-veteran five as the Bengals opened the campaign by winning a warm-up game against the Tiger alumni, then followed with victories over Washington U. and Arkansas before being out-classed by Michigan—picked as the nation's best in pre-season polls.

The regular cast included Gary Garner (5-11), George Flamank (6-5), Don Early (6-5), Ned Monsees (6-4) and Charlie Rudd (6-0). Garner, Flamank and Early were starters last year—with Garner the top scorer among the returnees with a 12.6 average. Front-line reserves were Jim Waller, 6-2 football end who lettered on the court last year; John Loyear, 6-5 junior college transfer from Fresno, Calif.; and Ron Coleman, 6-1½ sophomore and leading scorer for the freshmen a year ago.

Realistically, the Tigers—it appeared—would be pushed to duplicate last year's 7-7 windup in Big

Eight action, good for a fourth-place tie in the standings.

"We're going to have to battle for a first-division finish," Vanatta conceded, aware that at least three conference teams—Kansas, Kansas State and Oklahoma State—figure to be in the forefront of the championship race.

Swimming, Wrestling

Competitive swimming became a reality at the University this month. Missouri tankmen under new coach Tom Hairabedian officially christened the new \$775,000 indoor and outdoor facility in a Dec. 4 inaugural with William Jewell college.

Winners of that opening meet by a 53-42 score, the Tigers will undertake a schedule of nine dual meets this winter—and send some representatives to the Big Eight gathering at Ames.

The new T-shaped indoor pool is 75 x 45 feet—with a 30 x 30 diving area. Seats will accommodate 500 spectators.

Coach Hairabedian is a 1950 graduate of the University of Southern California—where he held virtually all of the West Coast diving titles. An excellent trampolinist, too, Hairabedian was hired from Central Missouri State at Warrensburg.

Missouri's wrestlers will compete this year under a new leader also. Vernon (Hap) Whitney has taken over the coaching chores formerly handled by Marshall Esteppe who coached the mat sport at M.U. ever since the sport's re-activation in 1959.

Whitney, 30, was formerly a Big Ten 130-pound wrestling champion at Purdue. Most of his coaching background was obtained at Normandy high—but he also helped Esteppe as a graduate assistant at Missouri in 1962.

On hand for the 55th reunion of the '09 football team were: Ted Hackney, D. E. Hill, Arthur Idler, Aubrey Alexander, Frank Thatcher and Gene Hall.

They were introduced at halftime of Homecoming game. In background, some of members of the '39 team who were also introduced.

The Post-Dispatch sports editor, Bob Broeg, with Stan Musial at Busch Stadium. Broeg has followed "The Man's" career from its beginning.

Our man Bob Broeg gives us

'The Man's' Own Story

Stan Musial "The Man's" *Own Story*, as told to Bob Broeg, BJ '41, makes great Hot Stove (or fireplace) reading for the snowbound baseball fan. As Sports Editor of the St. Louis Post-Dispatch, Bob brings knowledge, insight and love to his work as biographer for "The Man" whose name is a household word but whose background is virtually unknown except to the most devoted fan. In fact, the only possible adverse criticism of the book is that Stan's "own" language in the book is often too articulate and expressive for the great slugger who was always more at home with a bat, rather than a pen, in his hand. Doubleday is the publisher.

But the book is thrilling and absorbing reading—from the first page, which took this writer back to a memorable day in Busch Stadium (or was it Sportsman's Park then?) when Stanley Frank Musial hit five home runs out of whatever park it was, through the last chapter which recalled the lump to my throat that I shared with 30,000 others as he ran off the field following his second hit in his last game.

It would be thrilling and absorbing reading for any Musial, Cardinal or baseball fan; in fact, it's

pretty good reading for anybody. This is the accurate chronicle of a fine and famous man. It's so accurate that it even brings to light some personal criticism of the Cardinal organization by Stan, who was often called "colorless" because of his natural aversion to controversy.

From a sore-armed minor league pitcher with a young wife and a \$75 monthly salary to vice-president of a multi-million dollar corporation and special adviser to the President of the United States would be pretty heady stuff for Horatio Alger, but that's the way it happened; and you go along for the ride.

Even after the ball is over and the saga of Stan is sung, there's interesting reading in the book. His "Ten Tips on Hitting" could make the book a \$100,000 investment for the father of a little leaguer; and his reflections on managers he's known, stars he's seen and "These Changing Years" of baseball provide the long-lasting flavor of nostalgia.

For the boy with stars in his eyes or the fan who had everything but World Series tickets, *Stan Musial* is still the best way to fill a Cardinal stocking, particularly the one hung over the Yule log.

—JEAN MADDEN

Let's say you have agreed to sit at a telephone for two hours and call fellow alumni in your city about taking part in the University's annual giving program. You face the task with some misgivings, and you wonder how you got into it. As you place your first calls you're nervous and a bit timid. But the persons on the other end of the line seem to be cordial enough, and occasionally you enjoy a friendly chat. The turndowns are done in a civil manner, and to balance these setbacks some of the favorable responses are actually enthusiastic. The repeated calls become easier and more natural, you get the feeling you're making a real contribution; by the end of the evening you have to admit to yourself it has really been a great deal of fun.

This is probably a fair summary of the experience of most loyal alumni workers who are making "Operation Tiger Telefund" click. What helps to make the occasion enjoyable is the fact that the caller is not working alone—close by are anywhere from four to a dozen colleagues, each with his own phone and all making calls at the same time. In this way a handful of workers can reach hundreds of other alumni with a message on the University's giving program and its needs—all within a two-hour period. A dozen or so Telefunds have been conducted this fall, and a similar number will be staged in the spring. The technique has been used previously in Alumni Association membership drives.

Are these telephone campaigns successful—that is, are they "paying off"? All indications are favorable. Results have been running like this: Of 100 persons contacted by telephone, about 65 will say "yes"—and about 32 finally will follow through on their pledges. Roughly, then, about one-third of the alumni contacted in this way respond with contributions to the achievement giving program.

Telefund arrangements are set up well in advance by Bruce Gray and Jim Wilson of the University Development office. In each community a top alumni leader is called upon to be chairman of the local campaign, and he picks the telephone workers from a list of alumni known for their interest in M.U.

The telephone team is briefed on how to get across the purpose of the call in the shortest time. The workers are cautioned against using any kind of hard-sell approach, and are urged to remain unruffled if some unhappy alum is curt. Various situations that can and do arise are outlined, along with suggestions on how to meet them. The workers fill out cards with the information they get from the callers, and these cards are processed in the office of Development and Alumni Activities, where every effort is made to halt further solicitation of those who have pledged in the current campaign.

Most workers prefer to call alumni they do not know. Generally, women seem to be more successful; one alumna obtained 28 pledges in one session. While most responses are pleasant, some take an unexpected turn; one woman asked her caller, "Is this a recording?" Some say they want to contribute but feel that the amount they can give is too small to help; the caller explains that the emphasis is on the greatest number of participants rather than size of the gift. Now and then an alumnus will say he is pleased to hear from the University and to know that his alma mater is still interested in him.

After an evening of calling from a single location—usually a downtown office, the workers get to know each other better. They enliven their work with reports on interesting tidbits of news picked up during their calls. After two hours of concentrated telephoning, the workers usually go out for a bite to eat and to talk over their telephone experiences. Often their Telefund work leads to the forming of stronger friendships.

Telefunds have been held so far in Chicago, San Francisco, Kansas City, Chillicothe, Hannibal, Rolla, Jefferson City, Mexico, Moberly and Lexington. You may be called by a Telefund worker next spring, if you live in any of these cities: St. Joseph, Springfield and Sedalia, in Missouri; Denver, Colorado Springs, Phoenix, Tulsa, Oklahoma City, Dallas, Fort Worth and Houston. Remember, when the Telefund worker phones, he's one of you—and if it's early in the session, he may be just a bit nervous, if not frightened.

Warren Bass Marches on

Four years ago Warren Bass of Sumner High School in St. Louis performed at Band Day here. His special style of twirling and tossing the baton soon caught the admiring gaze of most fans in Memorial Stadium. He won ovations from the crowd and was surrounded by M.U. students after the game. He came here as a freshman the next fall and has been thrilling Tiger football and basketball fans ever since. As a featured twirler with "Marching Mizzou," he increased his following through television appearances. He holds numerous titles and has been featured in national

magazines. The senior in the School of Education has been invited to perform in the Tournament of Roses Parade in Pasadena with the Mississippi Valley State College band on New Year's Day. At the K. U. game, St. Louis alumni presented him a citation for his four years of entertaining sports fans. Two trademarks of his routine are the 100-foot toss of the baton in the air, and an accelerated high strut after the catch. Friends who know his musical ability say that Warren could go far as pianist and singer, but he plans to be a physical education teacher.

ary, Harvard Medical School. Dr. Hobart's office is located at 3601A Gravois Ave., and he lives at 5601A Devonshire Ave., St. Louis.

which the Paynes served as referees or timekeepers. Their address is Peace Corps, c/o American Embassy, Lagos, Nigeria.

98 "I can't take those cold winters any more," says Judge FELIX GRAY, Arts, of Juneau, Alaska, who dropped by the Alumni Office in November while visiting his sister and her husband in Mexico, Mo. He left in December to spend the winter (as he has the last two years) at the Coco Palms Hotel in Honolulu, Hawaii, where his friends call him the "Mayor of Waikiki," he says. Judge Gray, born near Santa Fe, Mo., was appointed to the Corps of Militia while a student at M.U. When the Spanish-American War broke out, he went into service with Company I, 5th Missouri, from Columbia. At war's end he moved to Montana. By 1907 he had been appointed U. S. Commissioner there. Judge Gray moved to Alaska in 1911 to work for the Treadwell Mines, Alaska Gastineau Mine at Thane, and the Alaska Juneau Mine. He served as city clerk of Juneau in 1917, as U. S. Commissioner in Douglas from 1921-26, and in 1936 was appointed U. S. Commissioner in Juneau. He served in that capacity until 1949. Judge Gray, who has a summer house in the country near Juneau, plans to return there from Hawaii around May 1. He has two sons, GORDON GRAY, Arts, B&PA '26, and Douglas, owner-managers of the Hotel Juneau, 104 3rd St. in Juneau. Both are active in public affairs—the former served as director of elections and the latter is in charge of reapportionment work now under way. Judge Gray's eldest grandson and his wife are in the Peace Corps in Nigeria, while another is a student at the University of Washington. Now 87, Judge Gray says, "I love Hawaii and I'd live there all year round, but Alaska is my home."

05 EDWARD S. NORTH, LL.B., retired in 1953 after practicing law in Kansas City since his graduation from M.U. At that time he and his wife, the former ELLEN THOMAS, Arts, moved to Santa Barbara, Calif., where they live at 3015 Samarkand Dr.

Dr. CARL HOBART, Med., has been engaged in the practice of ophthalmology in St. Louis, Mo., for 45 years. Prior to that he spent ten years in general practice and four years as House Officer in the Massachusetts Eye and Ear Infirmary,

08 NORMAN EDWARD HOBART, Arts, heads the Norman Hobart Agency (insurance) at 4153 Broadway, Kansas City, Mo., and lives at 221 W. 48th St.

11 WALTER N. GEERY, Arts, Engr., sends news of himself to the *Alumnus*. Now retired, and a resident of Salinas, Calif. the past 20 years, Mr. Geery writes that he has been away from Missouri for 35 years; but, a recent letter from a classmate and fellow-football player at M.U., EWART F. JOHNSON, BS EE (809 Belvin, San Marcos, Tex.), has aroused his interest. The letter from Mr. Johnson told of his plans to return to Columbia in November for the reunion of the 1909 football team coached by Bill Roper. Mr. Geery's wife, the former Sybil Fields, died in 1952. Their two sons are married—William, who has one son, lives in Salt Lake City, Utah; and David, father of two sons, is a resident of Redwood City, Calif. Mr. Geery married Mrs. Florence Vaughn in 1962. They live at 821 Padra Dr., Salinas.

16 Recognized as one of the nation's outstanding petroleum geologists, EDGAR WESLEY OWEN, AM, has been awarded a top honor in the geology field. The Sidney Powers Memorial Medal was presented to him recently by the American Association of Petroleum Geologists. He has been a member of the association for 45 years and was elected its president in 1941. Mr. Owen has been on the faculty of the University of Texas (Austin) since 1953, and has been instrumental in building the graduate program in petroleum geology there.

JAMES M. KEMPER, Sr., AB, retired last month as board chairman of the Commerce Trust Co., Kansas City, Mo., a title he has held since 1955. He continues as a director of the bank. Mr. Kemper, president of the Downtown Redevelopment Corporation, now occupies office 721 in the Commerce Trust Bldg., 10th and Walnut Streets, Kansas City.

21 Titleholders among Peace Corps senior citizens are volunteers VIRGIL PAYNE, AM, and his wife, Dorothy. Both recently arrived in Nigeria for duty. "Our children and most of our friends thought we were crazy when we joined the Peace Corps," says Mrs. Payne. They are retired (1961) teachers, he a chemist—both teacher and researcher—and both felt their skills could be put to good use, so they volunteered. The Paynes, of Long Branch, N. J., went through the same routine as their fellow-trainees at Columbia University except for physical education, during

Dr. W. D. SALMON, AM, nutrition research scientist at Auburn University, has been named one of 85 "Distinguished Alumni" of the University of Kentucky during its 98-year history. Kentucky also honored him in 1958 with an honorary doctor of science degree, 38 years after he received his B.S. in Agriculture there. Dr. Salmon joined the Auburn faculty in 1922 and since then has become internationally known for his contributions in human and animal nutrition. He served as head of Auburn's Department of Animal Husbandry and Nutrition from 1950 until 1957, when he requested that he be relieved of department head duties to devote full time to research. Dr. Salmon's photograph and biography went on display in the Hall of Distinguished Alumni in the new Alumni Building at the University of Kentucky.

Mrs. CLARA TWEEDIE Wellman, BS Ed., recently retired as Ray County (Mo.) extension home economist. She now lives at Blue Springs, Mo.

LAURA LOU BROCKMAN, AB, BJ, owns the New Delaware Bookshop at 49 W. Ferry St., New Hope, Pa.

23 ARTHUR BROWNING, B&PA, Arts, a University basketball player in 1921, 1922, and 1923 and captain of the '23 team, is one of nine former players elected to the 1964 Helms Foundation Basketball Hall of Fame. Mr. Browning lives at 16654 Donmetz, Granada Hills, Calif.

Mrs. George Howell (ALICE HALL), BS Ed., a retired teacher, lives on RD #1, Sandy Hook, Conn.

26 JAMES W. RECTOR, Arts, is a member of the Supreme Court of the State of Wisconsin. He lives in Madison.

Dr. CARL S. BICKEL, M.Ed., has retired and lives at 1240 Seaway Dr., Fort Pierce, Fla.

STANLEY R. PELTASON, Arts, Engr., is co-owner of Unfinished Furniture Center in Santa Barbara, Calif., where he and his wife, Marian, live at 416 N. Ontare Rd.

27 VAN A. CHRISTY, BS Ed., is a professor in the music department at the University of California at Santa Barbara. His address there is 4870 Vieja Dr.

28 Dr. BENJAMIN F. BOYER, AB '26, LL.B., dean of the Law School at Temple University, was retired from the Army with the rank of Colonel, Infantry, on Oct. 1.

Dean Boyer was commissioned a second lieutenant upon graduation from M.U. He subsequently served various military assignments on active duty and as a member of the active reserve forces. He resides at 3801 McMichael St., Philadelphia, Pa.

Dr. E. E. SCHNETZLER, BS Agr., AM '30, director of poultry research for the DeKalb Agricultural Association, Sycamore, Ill., returned to the campus in late October to speak to M.U. agricultural students on "Breeding and Distributing Better Poultry by Modern Methods." He is president of the Poultry Breeders of America. Dr. Schnetzler lives at 804 Normal Rd., DeKalb, Ill.

29 ROBERT H. McMILLIAN, BS BA, is chief industrial accountant at Lockheed Aircraft Corporation. He and his wife, Mary, live at 204 Oceano Ave., Santa Barbara, Calif.

RALPH C. BEDELL, AM, Ph.D. '32, is employed in the Division of Higher Education, U. S. Office of Education, Washington, D. C.

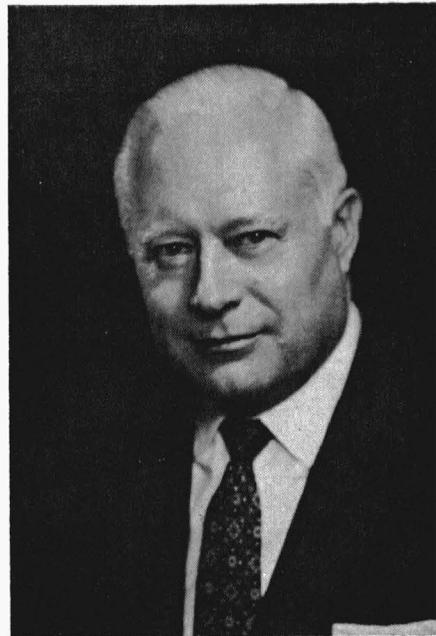

30 HERBERT R. NEAL, AB, manager of Physical Measurements Laboratory of the Ethyl Corporation, has been with the firm for 33½ years. A research chemist, Mr. Neal holds twelve U. S. patents and is a member of the American Chemical Society. Active in many civic enterprises, he is president of the Bond PTA and the Forest Hills Civic Association. He also serves the latter as chairman of its Nominating Committee, and the Finance and the School Sites subcommittees. Mr. Neal and his wife, Ida, have four children: James, an Air Force captain assigned to Geophysical Research Directorate, Bedford, Mass., and the father of two children; Melissa, teaching French in Walled Lake, Mich.; Marcella, a student at the University of Michigan; and David, attending North Farmington High School. The Neals live at 30443 Rockshire Dr., Farmington, Mich.

Dr. LAWSON E. MILLER, Jr., AB, has become a life member of the University Alumni Association. He lives at 115 E. 67th St., New York, N. Y.

31 Mrs. Humberto Ferrari (RUTH BRANDAO), BJ, 24 Blacklawn, Mobile, Ala., is a regional director for the American-Korean Foundation.

32 Mrs. Fred Catherina (MARGERY LITTLE), BJ, is married and has four children: Howard, 17; Susan, 14; Janet, 13; and John, 12. The family lives at 750 Via Reposo, Santa Barbara, Calif.

JOHN V. POLLITT, BJ, and his wife (MARTHA ELLEN NORTH, BS Ed. '33), have two married sons: Stephen, who is manager of a furniture store in Cam-

*Richard J. W.
Koopman*

Chairman of the electrical engineering department at Washington University (St. Louis, Missouri) since 1949, Richard J. W. Koopman will give up his administrative duties at the end of this academic year to devote his time to teaching, research and study, and professional society work. He will continue on the faculty as a full professor.

A portion of Professor Koopman's research will be directed toward the development of more efficient means of operating alternating current motors on direct current power sources.

Professor Koopman received a bachelor of science degree in engineering from M.U. in 1928, and is the holder of the first degree of doctor of philosophy in electrical engineering given by the University. After receiving his Ph.D. in 1942, he was for more than three years head of the electro-mechanics section of Cornell Aeronautical Laboratory at Buffalo, N. Y. before joining the W.U. faculty in 1946.

In 1953, Professor Koopman was made a Fellow of the American Institute of Electrical Engineers and was cited by the AIEE "for contributions to the theory and practice of servomechanism and telemetering as well as his diversity of interest in the several fields of electrical engineering, through which he has become a well-rounded and inspiring teacher and educational administrator."

Currently national president of Eta Kappa Nu, electrical engineering fraternity, Professor Koopman was also a director of the Engineers' Club of St. Louis and served as its president in 1960; he was president of the Missouri-Arkansas section of the American Society for Engineering Education in 1951.

Dr. Koopman was a Gregory Scholar at M.U. in 1935-36, and in 1961 was made an Honorary Knight of St. Patrick by University engineering students. He is the author of many articles in engineering journals as well as the author, co-author, or editor of more than thirty classified reports or articles on telemetering, missiles, and gunfire control.

Dr. Koopman, who has served as a consultant to many business and industrial firms in St. Louis and in other parts of the country, was adviser to the first student to receive a Ph.D. in electrical engineering from Washington University and also to the student who received the first doctor of science degree in electrical engineering granted by W.U.

Professor Koopman, his wife, and son, Nelson (a freshman at Washington University), live at 2201 St. Clair, Brentwood, Missouri.

arillo, Calif., and James, a junior at the University of California. The Pollitts live at 4135 Lago Dr., Santa Barbara, Calif.

Mrs. Reta
Dossey Ryan

A 1930 William Jewell College graduate, Dr. Reta Dossey Ryan, Arts, Educ. '29, Grad., was one of six alumni honored by the college on Achievement Day. Dr. Ryan, who is principal of Fremont School in Alhambra, Calif., was cited for outstanding work in her field and for attainments and accomplishments which entitle her to be called "Achiever." She has 20 years of elementary and secondary classroom experience, and has worked with mentally retarded children in Alhambra city schools and developed courses in teen-age problems and social science. She has also been teaching in the School of Education at the University of Southern California since 1959. Dr. Ryan, who recently returned from the Middle East, Egypt, and Europe, lives at 1518 S. Campbell Ave., Alhambra.

CLIFFORD O. BRATTEN, Jr., BJ, 3403 N.W. 63rd St., Kansas City, Mo., is advertising manager for Cook Paint & Varnish Co.

33 GLEN G. REED, Grad., has been elected a director of Dorr-Oliver, Inc., international engineering, manufacturing and construction firm based in Stamford, Conn. He serves as vice-president of the company's international division. Mr. Reed, who taught high school chemistry for four years following his graduation from M.U., lives at 65 Prospect St., Stamford.

Mrs. MILDRED McClain Scott, BJ, 6317 1st N.E., Seattle, Wash., is a medical librarian.

35 New additions to the growing list of life members in the University Alumni Association are EDWARD KENNEDY, BS BA, 220 Enterprise Bldg., Tulsa, Okla.; and DICK B. WHITEHEAD, BS Agr., AM '46, and his wife, the former RUTH ANN TILLOTSON, BS RPW '34, of 4886 Woodmont Dr., Jackson, Miss.

36 MURIEL PATCHEN, BJ, heads Muriel Patchen Associates, a sales promotion-marketing organization in Port Chester, N. Y. Miss Patchen lives at 221 E. 78th St., in New York City.

37 JOHN NEWTON BOOTH II, LL.B., represented the University at the inauguration of John Frederick Olson as president of Oklahoma City University on Dec. 2. Mr. Booth is vice-president of the Oklahoma Mortgage Co., and a former president of the Missouri Alumni Club in Oklahoma City. He and his wife, the former MARGARET JEAN McLENNAN, BS Ed. '36, live at 3223 N.W. 18th St., Oklahoma City.

38 Dr. GEORGE A. COOK, AB, BS Ed., AM '39, has taken a two-year appointment as an associate professor of English at The American University, 113 Sharia Kasr el Aini, Cairo, Egypt, U.A.R.

39 RUBY MAE ENYART, BJ, is pastor of the First Assembly of God church in Lovelock, Nev., where her address is 12th and Elmhurst, P. O. Box 758.

40 JOHN LOGAN, BS BA, has been named president of Stark Bros. Nurseries & Orchard Companies at Louisiana, Mo. Mr. Logan, a native of Hannibal, Mo., has been with the firm on a permanent basis since 1940; he had been previously employed there on a summertime basis.

EUGENE W. OTT, Agric., Grad. '50, serves as administrator of the St. Louis Children's Home. A former director of the Hannibal (Mo.) YMCA, Mr. Ott is a layman in the Christian Church (Disciples of Christ), and has served as elder and deacon of the church. He also is an ordained lay-minister.

RICHARD B. EIDE, Ph.D., represented the University at the inauguration of Kenneth Rast Williams as the first president of Florida Atlantic University at Boca Raton, on Nov. 12. Dr. Eide, who recently retired as director of the School of Journalism at Florida State University, has moved from Tallahassee to 1330 N.W. Fourth Court, Boca Raton.

RALPH G. MARTIN, BJ, is the author of a just-off-the-press teen-age biography, "President From Missouri: Harry S. Truman." Mr. Martin and his wife, the former MARJORIE PASTEL, Arts '41, live on Gabriele Dr., East Norwich, N. Y.

41 ROBERT M. CRISLER, AB, is professor of geography and head of the social studies department at the University of Southwestern Louisiana, Lafayette.

Dr. TERRY E. LILLY, Jr., BS Med., 915 Argyle Bldg., Kansas City, Mo., is president of the Missouri division of the American Cancer Society. Dr. Lilly, who specializes in tumor surgery, recently attended the national cancer conference in Philadelphia. He is a Diplomat of the American Board of Surgery; a Fellow

of the American College of Surgeons, of the International College of Surgeons, of the Southwest Surgical Congress, and of the Industrial Medical Association, and a member of many other medical societies.

Dr. HOWARD L. WIBBELS, AB, #7 Montgomery Pl., Decatur, Ill., has become a life member of the University Alumni Association.

42 JOHN LATSHAW, BS BA, is the new president of the Chamber of Commerce of Greater Kansas City, Mo., succeeding KENNETH KRAKAUER, BJ '39, president of Adler's. Mr. Latshaw is a partner and vice-president of E. F. Hutton & Company, Inc. He is just ending a term as first vice-president of the Chamber and, prior to that, served as its treasurer and also as chairman of the KC80 Committee and of its Finance and Revaluation Committee. Earlier, he was associated with Harris, Upham & Co. (1943-49) as manager of its trading department, and was a partner of Uhlmann & Latshaw, 1949-53. He is active in many civic enterprises and serves on the board of directors of several companies and corporations. Mr. Latshaw is married to the former BARBARA HAYNES, BS Ed. '50. They have two daughters, Constance and Elizabeth, and a son, John. They live at #3 Dunford Circle, Kansas City.

DOROTHY E. POWELL, AM, has been on the faculty of the senior high school at Burlington, Iowa, since 1943. At present she teaches in and serves as coordinator of the social science department there. Miss Powell lives at 109 S. Marshall, Burlington.

43 EUGENE BRIGGS, BJ, of Oswego, Ore., has been attending night classes for the past four years at the Portland (Ore.) School of Law while also serving as editor of the Portland Reporter. Graduating second in his class, Mr. Briggs passed the State Bar Examinations and was recently licensed to practice law in the State of Oregon. He is married and has a son, David.

Dr. ORAL B. CRAWFORD, AB, BS Med., has been elected second vice-president of the American Society of Anesthesiologists at the group's annual meeting in Bal Harbour, Fla. Dr. Crawford, an assistant professor at the University, is also chairman of the department of anesthesiology at St. John's Hospital in Springfield, Mo. He received his M.D. degree in 1945 at Louisiana State University.

44 Mrs. Francis H. Sumner (JESSIE ASHWORTH), M.Ed., resigned her teaching position at Tillamook, Ore., when her husband was transferred to the regional office of the Oregon State Game Commission.

Their address is 1625 N. 14th St., Corvallis, Ore.

46 GERALD POPPER, BS BA, and his wife, Henriette, have a daughter, Dana Anne, 2½. The Poppers recently moved to 3151 Carlton Dr., Thousand Oaks, Calif.

W. A. "Steve" SULLIVAN, BJ, is a reporter on the Santa Barbara (Calif.) News-Press. He is married and has two children, Susan, 13, and Sydney Lenore, 7. The family lives at 7138 Del Norte Dr., Goleta, Calif.

ROBERT PAUL BRIMM, M.Ed., D.Ed. '49, represented the University at the inauguration of John Walter Bachman as president of Wartburg College, Waverly, Iowa, on Nov. 11. Dr. Brimm is a professor at the State College of Iowa, Cedar Falls, and the author of "The Junior High School," published in 1963.

47 BERNARD LUBIN, MS, Ph.D. '49, a chemical engineer, is manager of Electrochemical Industries (FRUTHROM) Ltd., in Haifa, Israel (P.O. Box 1929). He is married and has three children.

E. WALLACE "Wally" CRANE, Arts, is office and credit manager of the Grinnell Co. He, his wife, Betty Jean, and children, Diane and Kenneth, live at 1347 Cliff Dr., Santa Barbara, Calif.

EDWIN B. FLIPPO, BS BA, is a professor of management at the University of Arizona, Tucson, where his address is 1121 Camino de los Padres.

JACK S. SCHUPP, BS ME, is a geophysicist for the Humble Oil & Refining Co. He lives in Canadian, Tex. (Box 596).

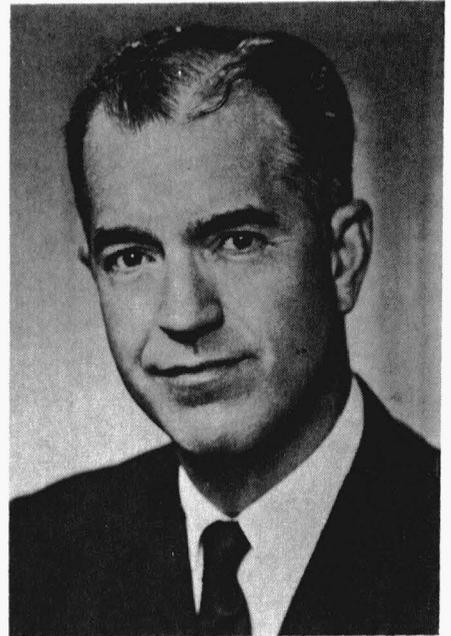

Mrs. Roger G. Miller, the former MARY HELEN ALEXANDER, AB, AM '55, has become a life member of the University Alumni Association. She lives at 8219 Custer Rd., Bethesda, Md.

48 S. C. BERRY, BS CE '47, BS BA, has been promoted from senior petroleum engineer to area drilling foreman for Gulf Oil Corporation at Monahans, Tex. He joined Gulf in 1948 in New Mexico, and subsequently served in Kansas, Oklahoma, Canada, Utah, Wyoming, and Venezuela before becoming senior petroleum engineer at Monahans in 1963.

RICHARD L. WATKINS, Jr., AB, 217 Kramer Dr., Sikeston, Mo., has become a life member of the University Alumni Association.

W. MURRAY WILSON, Arts, Engr., owns the Brand Funeral Home in Hastings, Neb.

RICHARD A. CARPENTER, BS, AM '49, has been appointed senior specialist in Science and Technology in the Science Policy Research Division of the

Robert H. Thompson

Robert H. Thompson was the recipient of the Migel Medal, highest award in the land in work for the blind, at recent ceremonies of the American Foundation for the Blind in New York City. "For Outstanding Service to the Blind" reads the inscription on the Medal, awarded annually to two people—one a professional worker, the other a lay person.

Mr. Thompson, who received his Master of Arts degree at the University in 1937, has been superintendent of the Michigan School for the Blind since 1957. He previously served fourteen years as superintendent of the Missouri School for the Blind in St. Louis.

Well known to professional workers in the field of services to the blind, Mr. Thompson has served on the boards of the American Association of Workers for the Blind, the American Association of Instructors of the Blind, and the American Foundation for the Blind. Especially active in the AAIB, he has chaired its Research Committee, its Policy Committee and its Regional Meetings Committee, as well as the Joint Relationships Committee of AAIB and AAWB. He has also been state chairman for exceptional children of the Missouri Congress of Parents and Teachers.

Mr. Thompson was honored on several occasions by his fellow workers in AAIB when they chose him as delegate to the World Conference for the Welfare of the Blind in Paris, France, in 1954; to the International Conference on the Education of Blind Youth in Oslo, Norway, in 1957; and to the International Conference of Educators of Blind Youth in Hanover, Germany, in 1962.

Mr. Thompson is married and has a daughter and two sons. The family makes their home at 1141 North Pine, Lansing, Michigan.

Legislative Reference Service, Library of Congress, Washington, D. C. He had been with the Callery Chemical Co., a research and development firm, as manager of its Washington (D.C.) office. Before that he was employed by the Midwest Research Institute in Kansas City, Mo., and as a chemist with the Shell Oil Co., at Wood River, Ill. The author

of numerous articles for professional publications, Mr. Carpenter holds several patents in the field of rocket propellants and boron chemistry. He has also given a number of papers at meetings of professional organizations. He, his wife (JOANNE FISHER, BS Ed.), and three children reside at 9606 Wadsworth Dr., Bethesda, Md.

MICHAEL (Mike) GRAZNAK, BS Agr., has been appointed managing editor of the *Missouri Farmer*, official magazine of the Missouri Farmers Association. He

Michael
Graznak

had been national advertising manager of John Blue Corporation, a farm machinery firm in Huntsville, Ala. for the past three and one-half years. He formerly was advertising manager of MFA Oil Co. for seven years.

49 Recently added to the growing list of life members in the University Alumni Association are: GEORGE P. GEORGES, AB, 553 Sunnyside, Webster Groves, Mo.; T. A. MAXWELL, BS BA, and Mrs. Maxwell (BETTY KNOX SMITH, BS HE), 2601 Keen Dr., San Diego, Calif.; JAMES W. TATUM, BS BA, and his wife (MARY G. GARTEN, AB '48), 930 Cynthia, Poplar Bluff, Mo.; and Dr. JAMES F. RANSELL, AB, AM '52, and Mrs. Ransdell (WANDA LEE ARMISTEAD, BS HE '53), 4440 Rustic Rd., Carmichael, Calif.

Mrs. Bruce P. Davis (MARY K. HAMLETT), BJ, is employed as a bookkeeper at the Bank of America. She lives at 321 San Mateo, Redlands, Calif.

Lt. Col. Gene
S. Martin

Lt. Col. GENE S. MARTIN, LL.B., has been decorated with the Air Force Commendation Medal at Tachikawa AB, Japan, for meritorious service as a staff judge advocate while at Nellis AFB, Nev. He is currently serving as deputy staff judge advocate with the 6100th Support Wing at Tachikawa.

H. C. HOSTETTER, BJ, is a professor of journalism at California Polytechnic University, and lives at 533 Couper Dr., San Luis Obispo, Calif.

L. J. BENNINGER, Ph.D., has become a life member of the University Alumni Association "In memory and honor of the late William L. Bradshaw, Dean Emeritus of the School of Business and Public Administration. Always uppermost in his thoughts was the progress and welfare of the University of Missouri. I shall always treasure his memory." Dr. Benninger is professor of accounting at the University of Florida, Gainesville, where he lives at 1022 N.E. 20th Ave.

Radio station WCAU, Philadelphia, was selected from over 2,000 entries to receive a gold medallion at the recent exhibition of the Art Directors Club of Philadelphia. Station manager of the CBS owned station is FRED BIRNBAUM, BJ, who lives at 417 Lyndhurst Dr., Broomall, Pa.

ROY T. YOUNG, BS Agr., MS '56, has been promoted by the New York Life Insurance Co. from assistant manager of its St. Joseph (Mo.) office to regional manager of the sales development division in the Minneapolis (Minn.) office. He has been associated with the company since 1957. Mr. Young, his wife and three children (Stephen, 14, Bruce, 12, and Debbie, 10) will reside in Minneapolis.

JAMES W. MUSGROVE, LL.B., practices law in Farmington, N. M., where he lives at 3024 Crestridge.

Recently announced was the appointment of GENE D. HOFFMAN, BJ, as vice-president of the Processed Foods Division of the Kroger Co. Now operating head of the division, he had been its manager of marketing. Hoffman joined Kroger in 1956 following several years in the sales promotion field. He was advertising and sales promotion manager for the St. Louis division for five years prior to moving to Cincinnati in 1961. He and his wife, Nancy, live at 901 Stanton Ave., Terrace Park, Ohio.

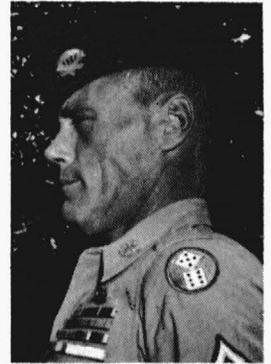

50 WILLIAM D. ASKIN, BJ, and his wife, Pat, announce the adoption on Sept. 29 of a daughter, Martha Lynn, born Sept. 9. They also have a son, Brett Davis, 3½. Bill is in the public relations department of Texas Gulf Sulphur Co., in Houston, Tex., where the family lives at 4018 Whitman Ave.

KEITH L. BLACKLEDGE, BJ, 1025 Chateau Dr., Kettering, Ohio, is assistant to the editor of the Dayton (Ohio) Journal-Herald.

FLOYD R. SMITH, M.Ed., D.Ed. '53, teaches physiology in the Chicago school system. He lives at 815 N. Elmwood Ave., Oak Park, Ill.

WILLIAM E. PALMER, BS BA, branch chief of the Internal Revenue Service Systems Division in Washington, D. C., has been appointed director of the Data Center in Detroit, Mich. The Detroit

Center will perform a variety of administrative data processing services presently being performed at seven IR regional service centers and in Washington. Mr. Palmer began his career in data processing while serving in the Army. He later became supervisor of accounting machines for Consumers Cooperative, Inc., Kansas City, Mo. He joined the IRS in 1955 as Chief of the Determination and Compilation Section in Kansas City, and transferred to Washington in 1958. A native of Clifton Hill, Mo., Mr. Palmer is married and has four children.

Bruce E.
McGlasson

Sgt. 1/c BRUCE E. MCGLASSON, Agric., is a drill instructor at the University of Illinois, Champaign, for the Army Reserve Officer's Training Corps.

51 CARL ALLEN BALKE, BS BA, is district manager for Conoco Oil Co., with headquarters in Beloit, Wis. His address there is 2220 E. Ridge Rd.

CAROLE HINKLE, AB, Sequoia National Park, Calif., has become a life member of the University Alumni Association.

A daughter, Barbara, was born on Feb. 21 to NILS D. JOHNSON, BS Ed., and Mrs. Johnson, the former EMMA LADD SHEPHERD, BS Ed. '57, M.Ed. '59. Nils recently accepted a position with McGraw-Hill Book Co., as a textbook salesman. The Johnsons live at 14 Flynt Ave., Monson, Mass.

WHAT COSTS

**1/3 LESS TODAY
THAN 30 YEARS AGO?**

ELECTRICITY DOES! The average price a kilowatt hour is 1/3 less now than it was 30 years ago.

So, if your electric service bill is more today, it's simply because you are using more electricity . . . and the amount you pay is for a two-months' period of time! Divide your two-months' bill by 60. See how little it costs a day to provide comfort, convenience and better living for your entire family!

KANSAS CITY POWER & LIGHT COMPANY

Ronald Stout (left); Karl Stout

Naval Reserve Lt. KARL D. STOUT, BS Agr. '56, took his first jet fighter ride at El Toro, Calif., with his Marine Corps brother, Lt. RONALD I. STOUT, BS Agr., piloting the F4-B Phantom, II. Ron is stationed at MCAS El Toro with Marine Fighter Attack Squadron 513. At the time of the flight, Karl was on two weeks' active duty with Anti submarine Patrol Squadron 881 at North Island Naval Air Station. Although this is the first time Karl has flown with Ron at the controls, the latter has acted as co-pilot for his brother in a Navy P2-V plane.

Second Lt. JAMES E. BIRMINGHAM, BS ME, has completed the Air Force advanced training course for F-102 Delta Dagger pilots at Perrin AFB, Tex. He has been reassigned to one of the more than 250 installations world-wide where Air Force combat and support units are based. Mrs. Birmingham is the former JOAN SCHROEDER, Arts.

Lt. RUSSELL C. JOHNSON, BS Agr., has received a regular commission in the Air Force at Hickam AFB, Hawaii. He previously held a reserve commission as an ROTC graduate. Lt. Johnson is serving as a C-124 pilot in a Military Air Transport Service unit at Hickam.

THACHER E. MOSELEY, Arts '14, on June 15. Survived by his wife, of 317 S. Louisiana Ave., Cape Girardeau, Mo.

FELIX G. KRAFT, BS For. '16, of St. Louis, Mo., on Sept. 30.

ROSCOE POUND, LL.D. '16, of Watertown, Mass., in July 1964.

LEWIS C. SHOCKLEY, BS Agr. '16, on Sept. 28, in Arlington, Calif.

Byron Spencer, 1893-1964

Byron Spencer, prominent Kansas City lawyer and civic leader, died October 26 in Kansas City, Mo., at the age of 70. A senior partner of the law firm of Spencer, Fane, Britt and Browne, he was a former city councilman and political leader. He served as president of the Chamber of Commerce in 1963, and played a prominent role in the long campaigns to bring a major league baseball team to Kansas City.

Born in St. Joseph, Mo., Mr. Spencer received an A.B. degree from the University in 1915 and a law degree from Columbia University, New York City. He practiced law with his father in St. Joseph until the latter's death in 1920. He then joined the Kansas City law firm of Warner, Dean, Langworthy, Thomson & Williams. From 1923-1938 he was a member of the firm of Langworthy, Spencer and Terrell. When that partnership dissolved, Mr. Spencer formed a firm, which, after a 1952 merger with another law partnership, became the present firm.

Mr. Spencer served two years in naval aviation in World War I, and was an aerial bombing instructor at Pensacola, Fla., with the rank of ensign, when the

Byron Spencer

armistice came. In 1952 he was named "Phi of the Year" by his fraternity, Phi Delta Theta, and in 1963, was named Man of the Month by the Men of the Month Club at the Kansas City Club. He was a past president of the latter.

Mr. Spencer was a member of the boards of the Mid-Central Fish Co., and the Daniels-McCray Lumber Co., and a director of the Kansas City Power & Light Co., the City National Bank, and the Kansas City Athletics. He served as counsel and director of the Nichols Securities Company of Davenport, Iowa (formerly the Nichols Wire & Aluminum Co.), and was general counsel and director of Mid-Continent Casualty Co., Tulsa, Okla. He also was a member of the Kansas City and Lawyers associations, and of the Missouri and American Bar associations.

Mr. Spencer is survived by his wife, of 5304 Belleview Ave.; two sons, Richard H. Spencer, LL.B. 1952, of 436 W. 68th St., and Byron Spencer, Jr., B.S. B.A. 1951, of 321 Ward Parkway; and four grandchildren, all of Kansas City.

Friends of Mr. Spencer have established the Byron Spencer Memorial Fund at the University. Contributions to this fund should be sent to his law partner, Irvin Fane, 1000 Power & Light Bldg., Kansas City, Mo. "Mr. Spencer's love for his alma mater, the University of Missouri, remained constant through the years," Fane said in announcing the project. "He gave of himself and his means unstintingly, always with great pride in the continued growth of the University in stature and effectiveness. . . ."

EMMETT TYNER MILLER, AB '15, BS Ed. '16, AM '25, on Oct. 20, in Hannibal, Mo.; retired in 1962 as superintendent of public schools there, then served as associate superintendent for one year; first went to Hannibal in 1916 as teacher of physics, later becoming principal of the city's high school; named assistant superintendent in 1927 and superintendent in 1931; a native of Hopkins, Mo., he was active in many civic enterprises. Survived by his wife, the former CLARA CLYMENS, Educ. '24, 3329 St. Mary's Ave., Hannibal; a son; two daughters; nine grandchildren and two sisters. An educational memorial fund has been established in his memory; anyone interested in contributing may do so through any of the Hannibal school principals or the Board of Education.

Emmett T. Miller

MONTA CHARLES RUNYON, Agric., Arts '26. Survived by his wife, the former NINA ABBIE WEST, Arts '26, of Sheridan, Mo.

Mrs. ALMA BURBA DUNCAN, BJ '26, on Oct. 10, at Gerald, Mo., while on a fishing trip; was society reporter for the McAlester (Okla.) News Capital before attending M.U.; following graduation she served as a reporter on the Altus (Okla.) Times Democrat, later moving to Texas, then to Shreveport (La.), where she was a reporter on the Times; became librarian in McAlester after earning a library science degree from Louisiana State University; was a Captain in the WAC's; later became congressional secretary for Rep. Albert; was on the staff of the University library from 1955 until her retirement last year. Survived by her husband, CLYDE H. DUNCAN, BS Agr. '52, AM '57, asso-

Frank Luther Mott

1886-1964

Perhaps because it wields the measurement of time, history is said to be the only true judge of any man's greatness. Yet one must believe, on the basis of today's standards, history will place the name of Dean Frank Luther Mott on her roll of highest honor.

Were there only Dean Mott's works to measure, such a prediction might be called premature by some of those who argue good works and great contributions, like scientific theories, are often dimmed, amended and surpassed by later achievements. His life, however, represents a gift to mankind which cannot be minimized.

Dean Mott had talents often denied to others. He used these talents to their maximum capacity, not for mere personal gain, but for humanity.

He chose journalism as his calling. His efforts in this field, directed to its historical aspect, produced outstanding literary contributions and earned for him the unofficial title, "Mr. Journalism Historian."

American Journalism, written by Dean Mott in 1941 and later revised, presented an interpretive and comprehensive history of United States newspapers. Covering more than 260 years, it is now accepted as the standard work in this field. Two volumes of his *History of American Magazines*, which he was completing as a five-volume work at the time of his death, earned for him a Pulitzer Prize. The fourth volume of this series brought him the coveted Bancroft Prize in 1957 and the National Research Award of Kappa Tau Alpha in 1958. His *Golden Multitudes: The Story of Best Sellers in the United States*, published in 1947, is perhaps the outstanding work in this area.

Dean Mott's accomplishments as an historian are no more impressive than his contributions as an educator. As dean of the School of Journalism at the University of Missouri from 1942 to 1951, he brought to this institution heights of recognition seldom matched in any field of scholastic endeavor. As a

teacher of journalism history, he inspired a generation of scholars, many of whom became noted educators.

Yet his greatest contribution must be the example of selflessness set by Dean Mott as a man.

His life was given, not only to the cause of his calling, but in service to those who passed his way. As no pomp was powerful enough to sway him from his ideals, so was no student, journalist, instructor or citizen too unimportant to receive his help and guidance.

His mind remained powerful until the time of his death. While teaching a graduate course in journalism history during the winter and spring of 1963 and 1964, he amazed his students by reciting, in the course of discussions, passages from more than 100 historical texts.

The driving force of service which elevated him to greatness, gave him the will to call on strength when strength was gone; to spend hours guiding and uplifting those in need. Before his final illness, he had looked forward to a period of study in Washington, D. C., where he was to complete research on the final volume of his American magazines history series.

On his final day, he told a visitor: "I wish I'd been given a little more time; there is so much work to be done."

These words marked Dean Mott's final triumph and his greatest contribution. For when a man can give his life for others, and die wishing only that he had more to give, he must become a lasting proof of the power of the spirit; a power which must be an inspiration for future generations.

Dean Mott lived for 78 years. His example must live as long as there are noble goals to reach and men to strive for them.

WILLIAM J. INGENTHON (FOR STUDENTS)
PROF. MAURICE VOTAW (FOR FACULTY)

ciate agricultural editor at M.U., 1212 St. Christopher Ct., Columbia, Mo.; a brother, and a sister. A memorial fund for Mrs. Duncan has been established by the Friends of the Library of the University.

MARY LOU FITZGIBBONS, BJ '52, of St. Louis, Mo., on Oct. 30.

ADOLPH K. WIDMAN, Jr., Grad. '52, on Oct. 31, 1961, in St. Joseph, Mo.

Mrs. Caroline B. Williams has notified the *Alumnus* of the death of her husband, SYDNEY L. WILLIAMS, BS ME '52, on April 12.

The *Alumnus* has received additional information on the death on July 12 of CHARLES E. KARP, BJ '61 (see November *Alumnus*); a staff writer in the New York office of *Broadcasting Magazine* since September 1963; had previously been a radio news writer with the Associated Press in New York City, and before that news director of station WFTR, Front Royal, Va. Survived by his wife, and a daughter, Carolyn, born Sept. 6, both of 36 Raynor Rd., Mount Vernon, N. Y.

ROMIE G. SCHMID, BS BA '62, of Shawnee Mission, Kan., on June 29; was employed at the Park National Bank in Kansas City. Survived by his wife, Margaret.

Dr. WEN TING TONG, Grad. '64, in an automobile accident on Oct. 28, near St. Louis, Mo.; a native of Formosa, he was in training in psychiatry at St. Louis State Hospital.

WALTER JAY WILKINS, graduate student in welfare work, and his two daughters, Kimberly Ann, 6, and Beckey Lynn, 4, in an automobile accident near Goodman, Mo., on Oct. 3; former resident of Aurora, Mo., and child aid welfare worker at the Lawrence County Welfare office. Survivors include his wife; his parents; a brother and a sister.

Dr. Taft writes history of Missouri newspapers

The history of the growth of the state as reflected in and influenced by its newspapers has been portrayed in a new book, *Missouri Newspapers*, written by Dr. William H. Taft, of the University of Missouri School of Journalism faculty.

Drawing primarily from newspaper files, Dr. Taft has assembled a wealth of material concerning the development of the press since the state received its first paper, the "Missouri Gazette," in St. Louis in 1808.

Published by the University of Missouri Press, *Missouri Newspapers* contains some 440 pages and is priced at \$8 a copy. Assisting in making the publication possible were the Missouri Press Association and the State Historical Society of Missouri.

As Missouri grew, so did its newspapers and by 1850 the pioneer period came to its end. Editors were divided on their views concerning the Civil War and the press split as did the state. "That the papers survived at all through this war is indicative of their perseverance in the face of terrific obstacles," Dr. Taft concludes.

In the post-war period, the publishers united and

formed in 1867 what is known today as the Missouri Press Association. Throughout this book, the history of this organization has been recorded, from the early excursion journeys down the Mississippi River to the growth of workshops and the greater emphasis on instructional programs today.

Also included in *Missouri Newspapers* is a brief history of the role that publishers played in the creation of the State Historical Society in Columbia which today has one of the nation's most complete files of state publications.

Professional training for journalists was debated by Missouri editors for decades. Many, however, became sold on the idea after Joseph Pulitzer told of plans to leave several million dollars for the development of such a school in New York. Missouri publishers then pushed harder so that in 1908 the School of Journalism was opened at the University in Columbia.

Additional chapters cover personalities in the news, highlights in the political and social development of the state, coverage of major wars, editors today, and changes in the newspaper business.

Results of fraternity summer pledging analyzed

A first look at the new system of fraternity membership selection (summer pledging) at the University shows positive results in the number of men pledged, and less need for new students to take University housing contracts, according to Charles J. Hartmann, Jr., Assistant Director, Student Affairs for Men.

During the summer pledging period (June 5 to August 25), 374 men were pledged to 26 fraternities. Another 251 pledged at the conclusion of fall rush week, and an estimated 125 have been pledged during open rush. The total number of 1964 pledges (750) is approximately 46% more than in 1963 when 513 men were pledged in rush week and open rush only.

While summer pledging eliminated in some part the need for new students to take University housing contracts as an alternative against failing to be bid in rush week, it did not affect the problem as related to the 278 men who participated in fall rush week. Of the latter, approximately 75 had residence hall contracts, with about 60 asking to cancel their contracts at the close of rush week. Anticipating a smaller number, the Housing Office could grant only 25 such requests.

This new system was adopted for the summer of 1964 on a one-year trial basis after a committee of Inter-fraternity Council representatives studied such operative systems at other institutions. Some arguments raised against it were shown to have little basis in fact during the past summer, while other objections cannot be evaluated at this early date.

Results from the first summer experience indicate that neither the so-called "small" house nor the

"large" house benefited over the other. A second argument contended that fraternities already strong in given State areas would tend to continue or be strengthened. An investigation of the areas represented in the five largest classes taken during the summer does not reflect any more extreme geographic grouping than prevailed in past years. On the contrary, it may be that intensified summer competition induced some groups to broaden the scope of their rushing to new areas of the State.

A third argument was that freshmen would tend to make unwise choices during the summer which would result in a higher incidence of depledging and dissatisfaction in the fall. It is too early to comment fully on the validity of this, but at the end of the third week of school, only four summer pledges had indicated a desire to depledge—two to pledge a different house, two to remain unaffiliated.

Following rush week, fraternity presidents and rush chairmen were asked how they felt about the new system and to make suggestions for improvement. All favor continuing summer pledging; both the so-called "small" and "large" houses feel that the rewards are sufficiently beneficial to their respective houses and to the fraternity system to merit its continuation. A few advocate expansion of the dates between which men may be formally pledged to include the period up to the beginning of rush week.

All the responses indicate that more men are being rushed under the new system. A few said they rushed about the same number as last year, but none reported that they rushed fewer.

'An exciting phonograph record-book combination'

The University of Missouri Press, already established as publisher of quality scholarly books, now has issued a musical recording—with an accompanying book—and the combination has been warmly acclaimed. The following review, by Music Editor Sandor Kallai, is reprinted from the Kansas City Star:

For those willing to investigate a fascinating musical by-road, the University of Missouri Press has just issued an exciting phonograph record-book combination that is just the thing for ears jaded by an overdose of the romantic mainstays.

Book and disc are titled "Music in Medieval and Renaissance Life: anthology of vocal and instrumental music, 1200-1614." The record was made by the Collegium Musicum of M. U., directed by Dr. Andrew C. Minor, professor of music history and theory at the university.

Selections date back to ballads and dances of troubadour and trouvère times. Later eras are represented by a Guillaume Dufay hymn, motets by Jean Mouton

and Jacob Handl, drinking songs from 15th-century England, and an intricate instrumental canzona by Annibale Padovano, plus many others.

The book contains all the works heard on the record, transcribed in modern notation, and with complete texts for the vocal compositions. Dr. Minor has provided introductory comments concerning the methods of performing these pieces and, scholar that he is, has listed his sources for all the music.

Listening to the record, of course, is an excellent way to learn how to sing and play these enchanting tunes, and this is just what musicians and adventure-some laymen will want to do. The whole project might be characterized as an antique music sing-along kit.

The recorded sound is good and so are the performances. The book and the disc are available separately as well as together, though I can't imagine why anyone would want one without the other.

May I suggest to Dr. Minor and the M. U. Press that they consider doing an encore. S. K.

Ten more Squires named

Dr. Frederick A. Middlebush, president emeritus of the University, and nine other Missourians who have distinguished themselves in their work and community leadership were recently initiated into the Missouri Academy of Squires. Six of the new Squires are alumni of the University.

Dr. Middlebush was honored for "his 19 years as president of the University, during which the University expanded greatly, and for his extensive service nationally to the betterment of higher education."

James P. Hickok, A.B. 1926, was cited for "his devotion to the civic welfare of St. Louis, particularly its Civic Center redevelopment, and his service to Westminster College, in addition to his duties as president of the largest bank in the state." Mr. Hickok is chairman of the board and a director of the First National Bank of St. Louis.

Laurance M. Hyde, Jefferson City, received the honor for "his many contributions to the welfare of his state as lawyer, businessman, judge of the Supreme Court and distinguished participant in institutes, councils and conferences at the national level." Judge Hyde received two degrees at M.U.—an A.B. in 1914 and an LL.B. in 1916; he was honored by the University in 1948 with an LL.D. degree.

U. S. Senator Edward V. Long's citation centered on "his years of broad usefulness to the state as a lawyer, businessman, public official and farmer, and to his fine representation of Missouri in the national capital as our junior senator." Senator Long, who lives at Bowling Green, attended M.U. in 1926 and 1927.

J. Wesley McAfee, president of Union Electric Company, St. Louis, received his citation for "enlightened leadership in the electric utility field, for his work in industrial development, and for his fine career as a lawyer and as circuit judge." Mr. McAfee received an

LL.B. degree in 1926, and an honorary LL.D. degree in 1963.

L. Mitchell White, publisher of the Mexico Ledger, was honored for "his many services to his community and state, not only as editor and publisher of one of Missouri's finest small-city dailies, but also for his activities in many other fields of human betterment." The University awarded Mr. White an honorary LL.D. degree in 1958.

Rex M. Whitton, B.S. in Engineering in 1920, honorary D.S. in 1961, was cited for "his career of great usefulness to modern highways in Missouri and the nation as chief engineer of the state highway department and Federal Highway Administrator." Mr. Whitton, whose home is in Jefferson City, is currently living in Washington, D. C.

Other new Squires are Mrs. G. Baird Fisher of Osgood, Morton D. May of St. Louis, and Mrs. Raymond A. Young, of Columbia.

The late Governor James T. Blair, Arts '21, LL.D. '60, founded the Academy in 1960.

Scott heads new IBM unit

O. M. Scott, a corporate vice-president of International Business Machines Corporation, has been named president of IBM's newly formed Field Engineering Division, with headquarters in White Plains, N. Y. The new division will be responsible for installing and maintaining IBM data processing systems in customer locations.

Mr. Scott, B.S. in B.A. 1944, joined the firm in 1938 as a sales representative. In the last eight years he has served at various times as president of the Service Bureau Corporation, the General Products Division, and the Industrial Products Division. He has been a vice-president of IBM since 1961.

Woodhaven and M.U.

from page 3

and currently finishing work on his doctorate in special education. Four classroom teachers, each holding a master's degree, supervise the work of practice teachers from the College of Education. Since the opening of the Home, 17 new students have enrolled in the special education sequence; the University awards the second largest number of degrees in this field in the United States, second only to the University of California.

The medical director, Dr. James M. Pickens, is an assistant professor of pediatrics at the Medical Center. Under his guidance medical students are frequent observers at the Home, learning firsthand the special problems of exceptional children. In turn, specialists from the Medical Center are available for consultation.

Dr. Rodman P. Kabrick, associate professor of clinical psychology, conducts the testing and research work at the Home. He arranges visiting permits for various classes from the psychology departments.

Mrs. Barbara Blauer, social services director, interviews parents and children and compiles the case histories. She holds a non-academic appointment at the Medical Center and will eventually help establish an in-service training program with the department of social work.

The Reverend Jerry Johnson, chaplain at Woodhaven, also serves as spiritual counselor to the patients in the rehabilitation wing at the Medical Center and to handicapped students on the campus. Mr. Johnson, a polio victim confined to a wheel chair, feels that his own disability will be a source of encouragement to the other physically handicapped persons.

Last year the University launched its program to educate severely handicapped students—both those confined to wheel chairs and those with lesser degrees of disability. In order to qualify as the training center for a seven-state area, the University has made major alterations in its physical plant to accommodate disabled students: installation of elevators, construction of ramps on the campus and into the buildings, and the sloping of street curbs.

These handicapped students have the same course content, grading standards, admission and graduation requirements of other students. According to President Ellis the grade average of the handicapped student group the first semester was a little above the University average.

In a cooperative arrangement these students are guests at the Woodhaven specially designed and equipped swimming pool every other Tuesday night. On alternate Tuesdays, patients from the rehabilitation wing at the hospital swim at Woodhaven. The bowling lanes at the Home are available to both groups.

While many areas of cooperation have already been established between the two institutions, President Ellis and Mr. Palmer see many more ahead—in the fields of nutrition, speech and hearing, social work, home economics and occupational therapy. Mr. John-

son looks forward to the day when the Missouri School of Religion institutes a seminar to help ministers understand the problems of families with exceptional children. "Since ten percent of the families today are faced with this problem," Mr. Johnson says, "the ministers must learn more in order to counsel those who come to them."

The bulk of the money for the residential, educational and therapeutic facilities at Woodhaven is being provided by members of the Christian Churches. The federal government supplied Hill-Burton Act grants totaling \$473,477 for construction. These grants, made through the Division of Health of Missouri, were available because of the strong emphasis on rehabilitation. The future construction plans include a chapel and two additional residence halls which will make housing available to 192 children.

In a congratulatory letter to the Home last spring, President Lyndon B. Johnson said, "Your achievement adds much to the encouraging evidence that our Nation is now moving more rapidly to combat mental retardation." Since more than 90 percent of the mentally retarded can be helped—only four percent are classified as hopeless—Woodhaven and the University hope to contribute greatly to this end.

Provides \$40,000 loan fund

The University of Missouri has established a loan fund of \$40,000, a gift of George R. Gay, M.D. (1961), resident pediatric anesthesiologist at Boston (Mass.) Children's Hospital. The fund will be known as the "George William Gay, M.D., Memorial Loan Fund" in memory of Dr. Gay's father, a second generation physician in Ironton, Mo. He also served as Chief of Staff of St. Mary's of the Ozarks Hospital from 1936 until his death last September 1.

The loan fund is to be used primarily for the students enrolled at the University's School of Medicine from southeast Missouri who are in need of financial support.

Dr. George William Gay spent his early years in Ironton. He attended the University in 1915-16, was a machine-gunner in MacArthur's "Rainbow Division" in World War I, and returned to the University Medical School in 1921-23. He was graduated in 1926 from the Medical School at Washington University, St. Louis. He was Chief Resident Physician at Cleveland Clinic and at the Callinger Municipal Hospital in Washington, D. C., before returning to Ironton in 1930 upon the death of his father, Roger William Gay, M.D., who had attended the University in the 80s. In World War II he again volunteered for active duty and became a Major in the Medical Corps in 1942. He participated in the Normandy Invasion and was with the Liberation Forces through France, Belgium and Germany. He was decorated with the French Croix de Guerre and the Belgian Croix de Guerre. Dr. Gay was a Fellow of the American College of Surgery and a Fellow of the International College of Surgeons and a member of medical associations.

Two University alumni named to presidential post

Two University graduates have recently been chosen for high educational posts, one of them succeeding the other.

Dr. Arthur L. Mallory, dean of the evening division of the University of Missouri at St. Louis, was appointed president of Southwest Missouri State College at Springfield. He succeeds Dr. Leland E. Traywick, who was named president of the Municipal University of Omaha and is to take office February 1.

Dr. Mallory was graduated from Southwest Missouri State in 1955 before entering the University for graduate work. Here he earned the M.Ed. in 1957 and the Ed.D. in 1959. His parents also attended Southwest and did graduate study at the University. His father is Dillard Mallory, M.Ed. 1947; he is superintendent of schools in Buffalo, Mo. His mother is a teacher; she is the former Ferrell Claxton, who received her M.Ed. degree here at the time her son received his doctorate.

The new president of Southwest Missouri State was assistant superintendent of the Parkway School district in St. Louis County from 1959 until last July, when he went to the University of Missouri at St. Louis as evening division dean. He expects to take

over his new position before the end of the current school year. Dr. Mallory is married and has four children.

Dr. Traywick resigned at Springfield in a controversy with the college's board of regents. He had served as president of the college since 1961. He received his A.B. and A.M. degrees from the University in 1936 and 1939 respectively. He received his Ph.D. from the University of Illinois in 1942. After serving in World War II he joined the faculty of Western Reserve University as assistant professor of economics for a year. In 1947 he became Assistant Dean of the College of Business and Public Service, Michigan State University, continuing in that position until 1960. In the next year he was associate director of the Committee for Economic Development in New York.

In Missouri Dr. Traywick served on several state educational committees: Advisory Council, Missouri Commission on Higher Education; Council on Higher Education, Governor of Missouri; Missouri Educational Conference. He was president-elect of the Missouri State College Presidents Association. In 1963 he was appointed to the College Housing Advisory Committee.

Estep, Hickok share award

Preston Estep, chairman of the executive committee of the St. Louis Civic Center Redevelopment Corporation, and James P. Hickok, corporation president, received the 1963-64 St. Louis Award for Outstanding Service recently. The joint award was in recognition of their leadership in obtaining financial support for the downtown sports stadium and civic center now under construction. Identical citations presented to each said the award signified "their effective achievement in contributing to the revitalization of downtown St. Louis and creating prestige for St. Louis throughout the country." In addition to certificates, the award included a \$1,000 prize. Hickok donated his half of the prize to the Downtown branch of the YMCA; Estep gave his share to the St. Louis Area Council, Boy Scouts of America. J. Wesley McAfee, LL.B. '26, LL.D. '63, a member of the St. Louis Award Committee, made the presentation. Hickok, who lives at 42 Fair Oaks Drive, Ladue, is board chairman of the First National Bank in St. Louis. Born in Farmington, Missouri, he received an A.B. degree at the University in 1926. He was president of Manufacturers Bank & Trust Company from 1943 to 1950, and has led many offices in state and national banking organizations, including the presidency of the Missouri Bankers Association in 1945. Estep, 4 Upper Ladue Road, Ladue, is board chairman of the Bank of St. Louis and president of Transit Casualty Company. Born near Branson, Missouri, he obtained his LL.B. degree from M.U. in 1938. He practiced law and was assistant to the

president of the National Rivers and Harbors Congress from 1938 to 1941. Estep served as chief counsel for the Missouri division of Insurance from 1942 to 1945, when he moved to St. Louis to help organize Transit Casualty.

MEN'S SWIMMING POOL

from page 9

arrangement of the latest equipment available for control and treatment of the water. The pumping and purifying equipment is capable of a complete overturn of the water in both pools every six hours.

William M. Busch, assistant professor of physical education, is director of the aquatic program. In explaining use of the new pools, he said the department of physical education had advised arrangement of a three-part program. Priority is to be given to instructional classes. Second consideration is to be given to recreational swimming programs, and third consideration to varsity swimming programs.

The instructional program will include classes in beginning swimming, intermediate swimming, life saving, SCUBA diving, advanced swimming techniques, and theory of coaching swimming. Provision is made for faculty recreational swimming from 12:40 until 1:30 p.m. Mondays through Thursdays; for synchronized swimming for women one hour daily Monday through Friday; varsity team swimming two hours daily; and all student recreational swimming from 6:40 to 9:30 p.m. at least two evenings a week. Time will also be allotted to a Naval ROTC swimming program.

Many alumni take part in fall activities

November, as usual, was a full month of alumni activities dominated by Homecoming, but there were several smaller meetings of graduates and former students about the country. Some of the gatherings were tied in with the Tigers' football schedule.

Fifty persons were on hand for the Oklahoma City Alumni Chapter meeting on the eve of the game at Norman. Don Faurot was the speaker. Fred Strothman is the Oklahoma City chairman.

Alumni of Shelby and Monroe counties attended a University information meeting in Paris at which Chancellor John W. Schwada was the speaker. About 60 persons attended the dinner. Meeting chairman was James Reinhard, who is Monroe County chairman. Ray Kampschmidt is the new Shelby County chairman succeeding Ben Dobbys.

The November 19 pep rally staged by Kansas City alumni drew 250 persons to the Hotel Muehlebach where the speakers included Chancellor Schwada, Don Faurot, Bus Entsminger, Coach Dan Devine and Cy Perkins; Charles Emmons guest-conducted Les Milgram's band for a couple of numbers. Among the workhorses on the event were Pete Corpeny, A. G. Eddy and Vic Swyden. Dr. Frank Williams succeeds Corpeny as president of the Kansas City organization; Sam Bornhauser, Loyd Brown, George Lafferty, and Lane Bauer are vice-presidents; Skip Snyder is secretary and Randy Vanet treasurer.

The annual dinner of the Medical Alumni Associa-

tion was held at the Student Union November 20 in conjunction with M. D. Day. About 250 persons were present. Dr. Wyeth Hamlin presided and Dean Vernon E. Wilson gave the principal talk. Jack Taylor spoke as Timothy Hays. Dr. Joseph L. Fisher of St. Joseph succeeds Dr. Hamlin as president of the medical alumni.

Louisville alumni met November 28 preliminary to a membership campaign scheduled for the area in January. New president of the chapter is Mike Rahiya, who succeeds Bob Weston.

The M Men's Club had its annual luncheon meeting during Homecoming and it was the biggest ever—attended by 135 persons, including members of the '09 and '39 football teams. Med Park is the new president, succeeding Bud Wallach. Other officers: Jim Stormer, vice-president; Jean Madden, secretary; Harry Ice, treasurer.

Meetings were held in late October at Indianapolis and Omaha. Several recent graduates were among the alumni at the regular meeting of the Indianapolis chapter. Bob Jeske is president, Bruce Melchert vice-president, Carolyn Jeske secretary, and Raymond Jansen treasurer.

Eighty persons attended the regular Omaha area meeting held on the eve of the Nebraska game and addressed by Don Faurot. John Duncan is the new chairman, succeeding Henry Wiebe. Bill Stauffer handles publicity for the organization.

Alex Thomas' civic work

Alex R. Thomas, Sr., has a green thumb for growing better city government, but he would be the last man to mention the fact, says the San Antonio Express News in a feature article about people who are making San Antonio, Texas, a better place to live and work.

Thomas, a vice-president of George C. Vaughn and Sons Lumber Company, has done a vast amount of civic work in the 40 years he has lived in San Antonio since moving there from Kansas City, Missouri.

Thomas received his LL.B. degree at the University in 1913. "For about 30 days there, I thought I was going to be a lawyer," he said. His father's death, however, made it necessary for him to take over the family lumber business in Kansas City. He went to San Antonio to work for Vaughn and Sons in 1923, "because I liked the looks of the place."

He has been boosting the place ever since. Thomas served as chairman of the Citizen's Committee for Council-Manager Government, but modestly declines to accept credit for the civic progress under the new form of government by saying only, "I got a kick out of working with the committee."

He enjoys working with a large number of committees—even on a national basis. From 1952-59, Thomas worked as vice-president of the National Municipal League of New York, a group of businessmen with an interest in better government. For his work in behalf of San Antonio, the committee bestowed on him its Distinguished Citizen Award in 1951.

Thomas has been a member of the San Antonio Livestock Association's executive committee since the association was formed in 1955, and has served as president of the Chamber of Commerce and the Texas Line Yard Lumber Dealers Association. He also is active in the Boy Scouts and the Symphony Society. He was chairman of the War Chest Drive campaign in 1942 and 1943; chairman of the Post War Planning Board; and from 1953-58, chairman of the board of the Federal Reserve Bank of San Antonio.

The 72-year-old lumber executive and his wife, the former Lydia Foreman, Arts '10, have lived within "four or five" blocks of their children and grandchildren all the time they have lived in San Antonio.

Mizzou recordings available

Recordings of University instrumental and vocal organizations are being offered music fans. The Missouri Student Association, 200 Read Hall, is handling orders for "March with Mizzou," recorded by the University Concert Band under direction of Charles L. Emmons; profits go to music scholarships and to finance activities of the MSA Spirit Division.

"Sing We Now of Christmas" and "I Hear Along Our Street" have been recorded by the University Singers, performing some of their favorite Christmas songs. Prof. Thomas L. Mills, director of the Singers, said some of the recordings are still available at his office, 215 Fine Arts Bldg. All the albums, long-playing 33, are priced at \$3.50 each.
