

= MIZZOU! Life Sciences Summit

MU ranks No. 2 among all institutions in the **Association of American Universities** in growth of federal research funding from 1995 to 2007. Research, Instruction, and Public Service Awards in 2009 totaled \$235M, up \$80M over the 2004 level. The total of all external awards to MU exceeded \$570M in FY09, and this continues to grow.

MU attracts 73 percent of the federal research dollars flowing to Missouri's public universities and has nearly three times the research expenditures of all other public universities in Missouri combined.

The MU Research Reactor (MURR) supplies more radioisotopes for medicine than any other nuclear reactor in the USA.

Last year MU Health Care admitted 20,260 patients, performed 19,222 surgeries, 510,897 clinic visits, and 42,995 emergency visits

MU has collected over \$50M in licensing revenues, resulting in \$1B in gross sales by companies marketing MU's licensed IP
