

- **Mission:** Promotion of learning through teaching, research and service
- **Enrollment (Fall 09):**
 - 7,110 Undergraduates and
 - 6,651 Graduates
- **Research Expenditures (FY09):** \$543M
- **Clinical Trials (FY09)** \$27M
- **ARRA Awards:** (12/30/09)
 - 236 Awards for \$83,726,744
- **Tech Transfer (FY09):**
 - 106 patent applications
 - 44 license/options
 - 899 MTAs signed
 - 2 start up companies
- **Sample Technologies:**
 - Brain-Computer Interface
 - Low-Voltage Cardiac Defibrillation
 - Dichromic Fluorescent Compounds
 - Diagnostic/Therapeutic Nanoparticle Technologies

Strategic Research Initiative Highlights:

- BioMed21: multidisciplinary and translational research in the life sciences
 - Center for Cancer Genomics
 - Center for Investigation of Membrane Excitability Disorders
 - Center for Women's Infectious Disease Research
 - Hope Center Program on Protein Folding and Neurodegeneration
 - Center for Interdisciplinary Studies of Diabetic Cardiovascular Disease
- Institute of Clinical and Translational Sciences (CTSA Award)
- Center for Clinical Imaging Research
- Genome Sequencing Center
- Cardiac Bioelectricity and Arrhythmia Center
- Midwest Regional Center of Excellence in Biodefense and Emerging Infectious Diseases
- Nanomedicine
- Nano Research Facility
- Institute for Public Health
- Social System Design Lab
- Center for Obesity Prevention and Policy Research
- Global Health and Nutrition
- Law and Neuroscience Project
- International Center for Advanced Renewable Energy and Sustainability

New Research Facilities:

BJC Institute of Health - January 2010 - 700,000 square feet
Brauer Hall – Spring 2010 – 150,875 square feet
Datacenter expansion for informatic research operations 15,238 square feet
