under act of Congress of July 16, 1894

## THE UNIVERSITY OF MISSOURI.

The University of Missouri was located at Columbia, Missouri, in 1839, and courses of instruction in Academic work were begun in 1847. A Department of Education was established in 1867. The College of Agriculture and Mechanic Arts and the School of Mines and Metallurgy were made Departments of the University in 1870—the School of Mines being located at Rolla. The *Law Department* was opened in 1872; the Medical Department in 1873; the School of Engineering in 1877. The Experiment Station was established, under act of Congress, in 1888. The Missouri State Military School was created a Department in 1890. In 1896 the Graduate Department was established.

Columbia (population 7,000) is situated in the center of the State, half way between St. Louis and Kansas City. It is conveniently reached from the east, north and west by the Wabash Railroad and connecting lines. The Missouri, Kansas and Texas Railroad affords a direct route to Columbia to persons living on that line, and to those living on the Missouri Pacific, St. Louis and San Francisco, and Kansas City, Fort Scott and Memphis Railroads. The surrounding country is elevated, well drained and diversified. It is a limestone region, remarkable for its healthfulness.

The University has the following buildings: The Academic Hall; separate buildings for Agriculture, Chemistry, Engineering, Geology and Zoology, Law, Mechanic Arts, and Medicine, the Parker Memorial Hospital, the Laws Observatory, the Power House, the President's house, Benton Hall and Lathrop Hall, two dormitories for men; the Gymnasium for men; the Agricultural Farm Buildings and the Live Stock Judging and Dairy building, the Horticultural building and green-houses, and Read Hall, the Dormitory for women. It has numerous laboratories and museums.

The general catalogue of the University will be sent on application to the Registrar of the University, Columbia, Missouri.

**OBJECT.**

It is the aim of the Law Department to give all its students a thorough and practical training in Anglo-American Law so as to fit them for practice at the Bar of any State, and to extend to those who do not propose to engage in active practice but desire only to pursue some single branch of law, such assistance as they may need. The method of instruction is by a careful study of reported cases, the original depositories of the principles of law and equity; by a thorough study of leading text-books; by lectures. In all cases the specific method employed is left entirely to the professor in charge of the subject. Daily recitations with constant colloquy and quizzing give the student the practice needed to enable him to express his ideas. At the middle and end of each year careful examinations are given, designed to test the student's ability to apply his knowledge to given facts. Every attempt is made to graduate men who shall not only be able to enter into the practice of law but who have also gained a well-defined and systematic theory of law as a science. In addition to other courses regularly given by the resident faculty, lecture courses are given each year by eminent specialists in the profession, both at the Bar and on the Bench.

**THE LAW BUILDING.**

Since 1893, the Law Department has had the exclusive occupancy of a large building specially built for its needs and devoted wholly to its use. The Law Building, a large two-story structure, is built of pressed brick, with solid brick partitions and is practically fireproof. During the past summer extensive alterations and additions were made to it. It now contains five library-rooms, opening into each other, three lecture-rooms, five offices for resident professors, a large smoking-room and cloak room, and a practice court room completely equipped with all the furniture and books of an actual court-room.

The collection of portraits of judges and lawyers of England and America has been increased during the past year.

**THE LAW AND OTHER LIBRARIES.**

The Law Library, consisting of over 11,000 volumes, is housed in the Law building. From a small beginning ten years ago the library now is almost adequate to the study of law in all its branches and, through appropriations made by the Legislature, and the income from library fees, is at present well equipped.

The Law Library is open for consultation and study to the students from 8:00 to 12:30 and from 2:00 to 5:00 during the day; and from 7:00 to 9:00 in the evening. Students are given free access to all books on the shelves and are permitted to take to their rooms, for a limited time, books not strictly of a reference character.

The General Library of the University contains some 50,000 volumes and is open to all students of the University.

The library and reading-room of the Missouri State Historical Society is located in Academic Hall. It contains about 23,000 entries and is open for consultation to all students of the University.

### ADMISSION TO DEPARTMENT OF LAW.

#### Requirements for Admission.

The Department of Law is open to men and women of eighteen years of age who satisfy the University requirements. Thirteen units are required for admission to this department.

A unit represents the equivalent of a year's work of nine months in one subject, in a good high school, normal school or college, with five periods a week in the class-room or laboratory, each period of about forty minutes.

Three of these units *must* be in English. The other ten units must be made up out of the subjects below set forth. For the purpose of making these nine units, the student *may* offer,

*English*—In addition to the three *required*, 1 unit.

*History*—4 units. They may be in Ancient History, Mediaeval and Modern History, English History, American History and Civics, General History, English and American History. A half unit in English or American History will be accepted only when accompanied by one unit in General History; one unit in Civics may be offered.

*Mathematics*—Not less than one nor more than four units. They may be in Algebra (2 units), Plane Geometry (1 unit), Solid Geometry (1-2 unit), Plane Trigonometry (1-2 unit).

*Sciences*—Units may be offered in one or more of these Sciences: Physics, Chemistry, Biology, Zoology, Botany. Not less than one and not more than two units may be offered in any one Science.

*Foreign Languages*—Units may be offered in Latin, Greek, German, French, or Spanish. Not less than one unit in any one language nor more than four in Latin, three in Greek, three in German, three in French, and three in Spanish.

Any student whose work during his first year gives evidence of his inability to use the English language with accuracy will be conditioned in that subject and required to pass an examination therein before entering upon the instruction of the following year.

*For the year 1907-08, sixteen (16) units, (conditions allowed in three (3) of same) will be required for entrance, all conditions to be removed before entering the Senior Class.*

#### **Admission by Examination.**

All examinations for entrance are under the charge of the Academic Professors of the subjects required or offered for admission.

Examinations for admission will be held at the University, September 10, 11, 12, 1906. All persons desiring to enter the University at the opening of the session in the fall of 1906, except those holding certificates of graduation from Accredited Schools and those who have already otherwise fulfilled the entrance requirements, should present themselves at the Registrar's office, room 18, Academic Hall, at 8:30 a. m., September 10. They will then receive complete directions concerning the examinations.

Examinations for entrance begin at the University on the first day of the opening week of the First and Second Semesters. Specific subjects are assigned to certain hours and days. See General Catalogue for such assignments.

#### **Acceptance of Grades in Lieu of Examination.**

Students who do not hold certificates of graduation from an Accredited School (see below) may present their grades in any subject, but the acceptance of these grades in place of an examination rests wholly in the judgment of the Committee on Entrance. In the case of students from other States than Missouri, such grades should also be presented to the Committee on Entrance which is authorized to accept or reject them.

Students who wish to present grades in lieu of examination in any subject should have them certified to by the proper official of the school in which the grades were made. Diplomas of graduation from schools are not sufficient for entrance. A certificate of the work done and grades made in each subject should be presented.

#### **Admission from Colleges and Accredited Schools.**

Graduates of the colleges and universities comprising the Missouri College Union and of other reputable colleges and universities are admitted on presentation of certificates of their gradua-

tion. Graduates of Accredited Schools who bring proper credentials of the fact that they have completed the subjects required for entrance to this Department (as set out above) are admitted without examination. The diploma will not be accepted as a credential. The student must present the proper form of certificate signed by the Principal or Superintendent of the Accredited School. Blank certificates will be furnished by the Registrar upon application. These certificates should be filled out and sent to the Committee on entrance at any time *not later* than the first day of the entrance examinations in September. It is desirable that the certificate be sent in advance in order that possible errors may be detected and the student notified accordingly. Graduates of the five State Normal Schools of Missouri, in their four-year courses, are admitted upon evidence of graduation.

(For list of Accredited Schools of the University, see General Catalogue.)

### **THREE YEAR COURSE.**

The course of instruction in Law extends through three years of nine months each. There are three classes, the First Year Class; the Junior Class and the Senior Class. Lectures and recitations are held on five days in the week. In the First Year Class thirteen hours of class recitations a week are required; and in the Junior and Senior Classes, fifteen hours a week.

#### **Admission to First Year Class.**

Students entering the First Year Class at the beginning of the term are not required to pass any examination in Law.

A member of the First Year Class will not be permitted to register for any regular course of the Junior or Senior years except under exceptional circumstances and then only by permission of the Dean.

#### **Admission to Advanced Standing.**

To be admitted to advanced standing, in addition to complying with the requirements for admission to the First Year Class, students must present satisfactory evidence that they have pursued successfully the study of the subjects for which they wish credit in an approved law school, and on examination prove themselves proficient in those subjects. Certificates from law schools approved by the faculty, showing that the applicant has in said schools ac-

complished with passing grades the work for which he wishes credit *may* be accepted in lieu of examination. Certificates of admission to the bar will not be accepted for admission to advanced standing. No law school conferring a degree in law for less than three years of systematic study of the law will be considered an approved school within the meaning of the above requirement. By special vote of the Faculty, in exceptional cases, a study of law in a school other than an approved law school or in the office of an attorney may be offered for admission to advanced standing, in place of study in an approved law school. In all such cases the applicant will be required to pass satisfactory examinations in the subjects for which he wishes credit. Examinations for advanced standing will not be given to persons not fulfilling the foregoing requirements.

Where study in a law office is offered for admission to advanced standing, an affidavit by the attorney under whom the study was carried on must be presented, in substance as follows:

State of \_\_\_\_\_, }  
 \_\_\_\_\_ County. } ss.

\_\_\_\_\_, being duly sworn, says that he is a member of the bar of the State of \_\_\_\_\_, in regular practice and has been such for more than \_\_\_\_\_ years last past. That \_\_\_\_\_ has actually and in good faith pursued a regular course of study of the law in the office of deponent for the period of \_\_\_\_\_ beginning on the \_\_\_\_\_ day of \_\_\_\_\_, 190\_\_ and continued until the \_\_\_\_\_ day of \_\_\_\_\_, 190\_\_.

And deponent further says that the said \_\_\_\_\_ during the aforesaid period pursued the study of the following subjects \_\_\_\_\_ and that he was diligent and attentive in the pursuit of his studies, and that he actually and in good faith devoted the entire time hereinbefore mentioned to the study of the law.

Subscribed in my presence and sworn to before me on this \_\_\_\_\_ day of \_\_\_\_\_, 190\_\_.

No one will be admitted to the Junior Class who is conditioned in more than one full course or two half-year courses of the First Year. A member of the Junior Class will not be permitted to register for any regular course of the Senior Year except under exceptional circumstances and then only by permission of the Dean.

Students entering the Senior Class must do so at the beginning of the year. No one will be admitted to advanced standing beyond the Junior Year except by special vote of the Faculty. No student

will be admitted to the Senior Class who is conditioned in any subject of the first year or in more than one full course or two half-year courses of the Junior Year.

#### **Special Students.**

Persons who have read law for some time before making application for admission to the Law Department, or who desire to carry out special lines of work and who have not had the preliminary preparation required for admission as regular students, may be admitted as Special students, for the purpose of pursuing courses for which their preparation, such as it is, fits them.

Such students must satisfy the Dean that they can pursue the work selected with profit to themselves and are required to pass satisfactory examinations in at least seventy-five per cent of the work for which they are registered as a condition of continuing in the Department.

To be admitted to the Department to pursue advanced work as special students, applicants will be required to pass examinations in all courses naturally preceding such work in point of time. In all such cases, however, applicants must comply with the requirements as to certificates of study prescribed for persons seeking advanced standing as regular students. Certificates from approved law schools, showing that applicants have pursued such courses and received a passing grade therein, *may* be accepted in lieu of examination.

Every applicant for admission as a special student must either present the three units in English required for admission as a regular student or pass an examination in the same.

By vote of the Faculty, upon application, a special student who has been a member of the Department for at least two years, and during that time has successfully completed the work of the First and Junior Years with an average grade of B, may be admitted at the beginning of the year to the Senior Class as a candidate for a degree.

**PRACTICE COURT.**

Frequently an objection is urged to law school training that the student comes to the Bar with only theoretical knowledge of the court procedure, and hence poorly equipped to manage a client's case.

To supply, so far as possible, the actual working knowledge, which in former times the student acquired in the office and the court room, a Practice Court has been established under the charge of the Professor of Pleading and Practice. The student is given practice in drawing pleadings, beginning his action by process or publication, and pleading to an issue. Issues of law are raised by motions and demurrers to the pleadings and by demurrers to the evidence or requests for peremptory instructions. Issues of fact are tried on depositions or printed records from actual cases, and the students are required to draw declarations of law or instructions applicable to the facts disclosed. Exceptions are noted, bills of exceptions allowed and the regular appellate procedure observed in perfecting appeals to the Practice Court of Appeals.

**ADMISSION TO THE BAR.**

By the recent act of the Legislature, admission to the Bar of Missouri is vested in the Supreme Court of the state and all candidates are required to pass an examination before a Board of Law Examiners appointed by the court. The subjects upon which the examination is based are those included in the curriculum of this Law School. The Board holds an examination in Columbia in the first week in June for the special benefit of the Senior Class of the Law Department.

Graduates of this Law School are admitted to practice in the United States District and Circuit Courts in this state on motion.

*Certificate of attendance.* Each student who has been in regular attendance in this department, whether entitled to a degree or not, may, on application to the Faculty, receive an official certificate of attendance, stating the time of his attendance and, if desired, the degree of his attainments.

**REQUIREMENTS FOR DEGREE.**

The degree of Bachelor of Laws (LL. B.) is conferred upon all students who have satisfactorily completed the prescribed work of the course. This course requires three years for its completion, and no student is allowed to graduate except after three years of actual residence unless in case of admission to advanced standing.

In no case will any student be recommended for graduation with any class who has not been regularly enrolled as a member of that class for at least one college year prior to such graduation.

#### HONORS AND PRIZES.

The degree of Bachelor of Laws, *cum laude*, is conferred upon graduates who have shown special excellence in their work.

The honor of Valedictorian of the graduating class is awarded to the graduate who has attained the highest grades during his course.

*Rollins Scholarship*—This scholarship amounting annually to the sum of fifty dollars, is provided for in the endowment of Hon. James S. Rollins and is awarded annually by the Law Faculty to a student of the Junior class, according to the terms of the donation as set forth in the general catalogue of the University.

*Karnes Prize*—Hon. J. V. C. Karnes, of Kansas City, Mo., has recently provided an annual prize of Fifty Dollars to be awarded each year by the Law Faculty to a student of the Senior or Junior Classes who shall offer the best thesis upon some subject within the domain of Legal Ethics.

*Edward Thompson Company Prize*—The Edward Thompson Company, of Northport, L. I., has for a number of years provided the Department annually with a set of its "American and English Encyclopedia of Law, 2d Edition." These 32 volumes valued at \$240 are awarded to the candidate for the degree of LL. B., who presents the best thesis upon a subject assigned by the Faculty.

*American Law Book Company Prize*—The American Law Book Company of New York City, has provided the Department with a set of its "Cyclopedia of Law and Procedure," 35 volumes, which is awarded to that member of the Senior Class who, in the judgment of the Law Faculty, has made the best all-round progress during his Senior year. Two years residence as a student in the Department is required of candidates for this prize.

#### COMBINED COURSE IN ARTS AND LAW.

Seniors in the Academic Department may elect, as part of the requirements for graduation, courses from the first year's work in the Department of Law to an amount not exceeding twenty-two hours. Under special circumstances this privilege may be extended to Juniors with the consent of the Deans of the Academic Depart-

ment and the Department of Law. A combined course of this character will enable a student to obtain the degrees of A. B. and LL. B. in six years.

#### UNIVERSITY SOCIETIES.

Students in the Law Department are eligible to membership in a number of the literary and debating societies of the University. The "Bliss Lyceum" and "Law Literary Senate" include only law students in their membership.

Law students are entitled to all the privileges of other University students. They have the use of the General University Library, the Library of the State Historical Society, the Gymnasium and athletic instruction, the athletic fields and the golf links.

#### DORMITORIES FOR MEN.

The two Dormitories for men, Benton Hall and Lathrop Hall, lodge 135 students and meals can be furnished by the University Boarding Club, which is established in the Dormitories, to about 400.

The average cost of table board in the University Boarding Club has not exceeded \$1.50 per week. The cost of room rent, board, lights and laundry to a student living in a dormitory is about \$2.25 per week.

Application for rooms should be made at an early date to the Secretary of the University, Mr. J. G. Babb.

#### FEES AND EXPENSES.

No tuition fee is charged in any Department or College of the University. An annual library fee of ten dollars is required of all students, both regular and special, admitted to the Law Department. There are no extra charges, but appointees to cadetships and academic students receiving instruction are not exempt from the payment of the above library fee.

The other expenses of a student, for the University year, board and lodging, text-books, etc., will run from \$150 to \$350 a year.

For further information concerning the Law Department, address the Dean of the Law Department, Columbia, Missouri.
