UNIVERSITY OF MISSOURI-COLUMBIA

MIZZOU

Mizzou—the University of Missouri-Columbia, first state university west of the Mississippi River—is one of the most comprehensive universities in the world and the favorite classroom of Missouri’s sons and daughters since its beginning more than 140 years ago.

Mizzou’s 18 schools and colleges remain dedicated to the land-grant heritage of teaching, research and service, and provide a multidisciplinary opportunity for education. Included are the world’s first and best-known School of Journalism, a College of Agriculture that is in the forefront of the fight against hunger, and a School of Medicine that is a catalyst for making Columbia a health-care center for the Midwest. The first engineering courses west of the Mississippi were offered on the Columbia Campus. The School of Accountancy was the first established at any major public university. The College of Home Economics was one of the first accredited. The School of Law enjoys a national reputation, as do many departments in the College of Arts and Science, such as geology, psychology, botany, speech, sociology, Latin American studies, art, and art history and archaeology.

With more than 24,000 students, Mizzou is the largest campus in the University of Missouri system. Other campuses are in Rolla, Kansas City and St. Louis. The University of Missouri is the only public institution in the state that offers professional and doctoral degrees. Many of these degrees are available only on the Columbia Campus.

Mizzou offers a wonderful blend of old and new. The research reactor is the most powerful on any campus in the free world. Francis Quadrangle, the setting for the original campus buildings, is on the National Register of Historic Places. Sanborn Field is the third oldest research plot in the world—and it’s where the wonder drug, aureomycin, was discovered. In the late 1970s, medical faculty developed a portable dialysis method that gives kidney patients new freedom. In the early 1980s, archaeological faculty uncovered the oldest known village in the Western hemisphere at Paloma, Peru.

Mizzou’s faculty is nationally and internationally respected. Two are members of the prestigious National Academy of Science. Members of the faculty are regularly named Guggenheim Fellows and Fulbright Scholars. On Campus, a high premium is placed on teaching, and many are honored for their classroom skills.

Mizzou’s reputation is enhanced by a quality student body. UMC is among the leaders of institutions enrolling National Merit and National Achievement Scholars. In 1980 Mizzou was one of only three universities to have two Truman Scholars. The others were Harvard and Yale. Sixty percent of UMC freshmen were in the top 20 percent of their high school classes; 90 percent were in the top half. Each fall

about 6,500 are new students, either freshmen or transfers. And the students come from everywhere—all 50 states and 90 countries.

Quality students go on to become quality alumni. Many of the 120,000 Mizzou graduates are leaders in this nation’s top business, governmental and educational institutions. *Who’s Who in America* contains hundreds of UMC alumni.

At Mizzou, students find a mid-size state university that offers tremendous opportunity for self-development—in and out of the classroom. At first, the university may seem large, but the Campus shrinks to a comfortable fit as students become involved in the myriad programs and activities available. Some of the programs and activities are described elsewhere in this booklet.

Columbia (population 62,000) is a vibrant, convenient city between St. Louis and Kansas City—and only 1½ hours from the Lake of the Ozarks. Columbia has restaurants featuring fine food and fast food, many movie houses and night spots with live entertainment. The fine UMC museums and nearby recreational areas round out the city’s high quality of life. UMC, Stephens and Columbia Colleges bring topflight lecturers and entertainment—from the London Symphony to Cheap Trick, from Maynard Ferguson to Willie Nelson, from *The Barber of Seville* to *Chorus Line*.

And then, there’s the Big Eight. The nationally ranked Tigers provide the focus for the best in spectator sports and social get-togethers during the football and basketball seasons.

High school is an important time for young people—when you decide whether to attend college and, if so, which one to attend. We hope this booklet will help you make that decision. We hope to see you at Mizzou.

DIVISIONS

UMC

College of Arts & Science

When the University was founded in 1839, the heart of the Campus was the Academic Department, which in 1907 became the College of Arts and Science. Today, the College is the largest academic unit of the entire University of Missouri system, with more than 6,000 students, 28 departments and programs, and 450 full-time faculty. Many of the faculty members are internationally recognized in their fields.

Yet, in spite of its size, most of the courses offered in the College are small enough so that each student has individual attention. While it is true that the lecture sections in a few large courses often exceed several hundred students, these are balanced by many other courses in which fewer than 20 are enrolled, and the average class size in the College is about 21.

The College provides students the broadest range of educational opportunities in the University in the fine and performing arts, the humanities, and the natural and social sciences.

The College serves a variety of educational functions:

1. To prepare students with a broad liberal education, one which exposes them to a large variety of ways of approaching the world, its history, its present and its future.
2. To provide an education which will allow students to become more effective participating members of society.
3. To furnish within the framework of that education the opportunities for intellectual and social growth which come through close daily contact with faculty and other students.
4. To provide students with pre-professional education.

The majority of Mizzou's undergradu-

ates are enrolled in the College of Arts and Science. Students who have met the admission requirements to the University of Missouri-Columbia may enroll in the College. Students planning to enter the College of Business and Public Administration or the Schools of Journalism, Law, Medicine, or Nursing usually study in the College of Arts and Science in preparation for professional training. Pre-professional study for veterinary medicine may be completed either in the College of Agriculture or Arts and Science.

If you know what area of study you are interested in, you will be assigned an adviser from that field. If you have not yet decided on a field, special advisers in the dean's office will help plan a schedule of classes to explore different areas. All the degrees offered by the College require 120 credit hours with a grade point average of 2.0 (A = 4.0). See the *Undergraduate Catalog* or your adviser for details on course offerings and requirements for your field of study.

Job opportunities for graduates vary depending on their field of study but all graduates use the specialized placement services available at the Career Planning and Placement Center, 100 Noyes Hall.

Degrees Offered College of Arts and Science

Anthropology (AB, MA, PhD)
Applied Mathematics (MS)
Art (AB, BFA, MFA)
Art History and Archaeology (AB, MA, PhD)

Peace Studies

College of Agriculture

Founded in 1870 in response to the land-grant mandate for teaching, research and service, the College of Agriculture is now the eighth largest in the nation. Its three major divisions—the Agricultural Experiment Station, the Agricultural Extension Service and the Resident Instruction Program, including 16 academic departments concerned with food and fiber—have had a tremendous impact on Missouri, and world, agriculture. The College's facilities for learning range from thousands of acres of research farms to small, highly specialized laboratories. The

Published by the UMC Publications and Alumni Communication Office, 1100 Tiger Towers, 1205 University Ave., Columbia, Mo. 65211. Issued monthly as follows: March, July, September and December. Second class postage paid at Columbia, Missouri. POSTMASTER: Send form 3579 to 1100 Tiger Towers, 1205 University Ave., Columbia, Mo. 65211. All statements in this publication are announcements of present policies only and are subject to change at any time without prior notice. They are not to be regarded as offers of contract. An equal opportunity institution.

School of Forestry, Fisheries and Wildlife is also a division of the College.

You can enter the College of Agriculture as a freshman, or can transfer from other accredited colleges and universities and from other divisions within Mizzou. Once in the College, you will be assigned a faculty adviser to help set goals, plan course schedules and meet graduation requirements.

Contact the agriculture dean's office for specific information about courses offered and requirements for graduation in your field of interest. To get a bachelor of science in agriculture you will need 128 semester credit hours.

The diversity available at Mizzou gives graduates a competitive edge in the job market. In 1981, half of the College of Agriculture graduates entered agribusiness and industry; a quarter went into farm production and management, teaching, and government; and a quarter continued in professional or graduate schools. Agriculture students not only go into veterinary medicine, but biochemistry majors enter medical, dental or pharmacy training, and agricultural economics graduates occasionally study law.

Degrees Offered

College of Agriculture

Agricultural Economics (BSAg, MS, PhD)
Agricultural Education (BSAg)
Agricultural Journalism (BSAg)
Agricultural Mechanization (BSAg, MS)
Agronomy (BSAg, MS, PhD)
Animal Science (BSAg, MS, PhD)
Atmospheric Science (BSAg, MS, PhD)
Biochemistry (BSAg, MS, PhD)
Dairy Science (BSAg, MS, PhD)
Entomology (MS, PhD)
Extension Education (MS)
Food Science (MS, PhD)
Food Science and Nutrition (BSAg)
General Agriculture (BSAg)
Horticulture (BSAg, MS, PhD)
Pest Management (BSAg)
Plant Pathology (MS)
Poultry Science (BSAg, MS, PhD)
Rural Sociology (BSAg, MS, PhD)

School of Forestry, Fisheries and Wildlife

Fisheries and Wildlife (BSFW, MS, PhD)
Forestry (BSF, MS, PhD)
Wood Products Management (BSF)

College of Business and Public Administration

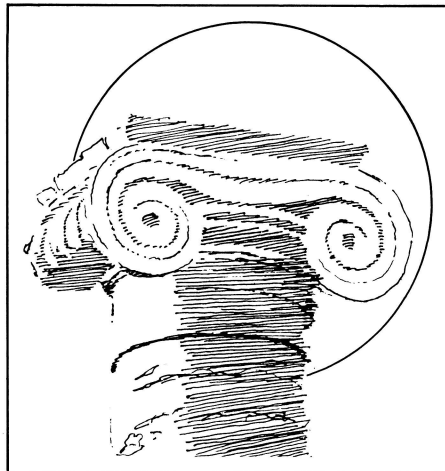

The College of Business and Public Administration, established in 1914, is an excellent place to acquire the foundation for successful careers in business and government.

The College includes the School of Accountancy, the School of Business, which

is composed of the Departments of Finance, Management and Marketing, and the Department of Public Administration.

The School of Accountancy was recently ranked among the top six in a national survey. The Department of Public Administration allows emphasis both in state and local government, an option not available on many campuses.

A grade point average of 2.6 (A=4.0) and 54 semester credit hours are required for admission to the College. In most cases, these 54 hours must include all general education and basic skills requirements. Most students enroll in the College of Arts and Science for their freshman and sophomore years, although transfer into B & PA from other UMC colleges is possible. Once admitted, a faculty adviser from your field of interest will work with you to determine an area of concentration and to plan course schedules. A total of 120 credit hours is required for a bachelor of science

degree in business administration, public administration or accountancy. See the dean's office for specific course requirements for admission, for course listings and requirements for graduation.

Upon graduation, you will find a steadily growing demand for people trained at the College of Business and Public Administration. Each year, the Placement Office of the College sponsors on-Campus job interviews by more than 200 local, national and international business organizations and public accounting firms, as well as state and national government agencies.

Degrees Offered

College of Business and Public Administration

Business Administration (BSBA, MBA, PhD):
Administrative Management (BSBA),
Business Logistics (BSBA), Economics (BSBA), Finance and Banking (BSBA),
General Business (BSBA), Marketing (BSBA), Operations Management (BSBA),
Personnel Management (BSBA), Real Estate (BSBA), Risk and Insurance (BSBA)
Public Administration (BSPA, MPA)

School of Accountancy

Accountancy (BSAcc, MA, MS, PhD)

College of Education

The College of Education, established in 1868, gives students the option of obtaining a bachelor of science in education or a bachelor of educational studies degree. The BSEd permits certification to teach in Missouri elementary and secondary schools, while the BES is preparation for a career in an education-related, human-service profession, such as agency counseling, athletic training, legal secretarial, educational media or retail sales.

You can enter the College of Education as a freshman or may transfer from other accredited colleges or universities, or from other Mizzou divisions, if you qualify for admission to the program at an advanced level. The BSEd and the BES both require 120 semester credit hours with a 2.5 grade point average (A=4.0) for graduation.

A faculty adviser will help you plan a college program, and you will enroll in Perspectives in Education, which will help in making career decisions and orient you to Mizzou and the College of Education. Consult the dean's office for specific requirements for each degree.

The College's Office of Educational Placement has reported a placement rate of 95 percent or higher every year for more than a decade. With a crisis in the supply of teachers expected by the mid-1980s and the continued need for graduates from education-related, human service fields, the demand for graduates of the College of Education should remain at a high level.

Degrees Offered

College of Education

Counseling and Personnel Services (MA, MEd, EdSp, PhD, EdD): Agency Counseling (MA, MEd, EdSp), College Student Personnel Services (MA, MEd, EdSp), Counseling Psychology (PhD, EdD), Elementary School Counseling (MA, MEd), Guidance and Counseling (EdSp), Rehabilitation Counseling (MA, MEd, EdSp), Secondary School Counseling (MA, MEd)
Curriculum and Instruction (MA, MEd, EdSp, PhD, EdD): Art Education, Curriculum and Instruction (EdSp, PhD, EdD), Early Childhood Education, Elementary Education, English Education, Foreign Language Education, Educational Media, Mathematics Education, Music Education, Reading Education, Science Education, Secondary Education, Social Studies Education
Educational Administration (MA, MEd, EdSp, PhD, EdD): Administration and Supervision of Special Education (EdSp, PhD, EdD), Elementary School Administration and Supervision, General School Administration and Supervision, Secondary School Administration and Supervision
Educational Psychology (MA, MEd, PhD, EdD): School Psychology (PhD, EdD)
Educational Studies (BES): Counseling and

Personnel Services, Curriculum and Instruction, Health and Physical Education, Interdepartmental, Practical Arts and Vocational-Technical Education, Special Education

Elementary Education (BSEd): Early Childhood Education, Elementary School Art, Elementary School Music, Elementary School Physical Education
Health and Physical Education (MA, MAPE, MEd, EdSp, PhD, EdD): Adapted Physical Education, Administration of Health and Physical Education, Biomechanics (PhD, EdD), College Physical Education Teaching (EdSp), Elementary School Health and Physical Education (MA, MAPE, MEd), Elementary and Secondary School Health and Physical Education Supervision (EdSp), Exercise Physiology (PhD, EdD), Health Education, Human Performance, Secondary School Health and Physical Education (MA, MAPE, MEd)

Higher and Adult Education (MA, MEd, EdSp, PhD, EdD): Adult Education (EdSp), Adult Education Administration (MA, MEd), Adult Education Teaching (MA, MEd), Higher Education (MA, MEd, EdSp), Junior College Education (MA, MEd, EdSp)

Practical Arts and Vocational-Technical Education (MEd, EdSp, PhD, EdD): Agricultural Education, Business and Office Education, Distributive Education, Home Economics Education, Industrial Education, Technology Teaching (EdSp, PhD, EdD), Vocational-Technical Education

School Psychology (EdSp)

Secondary Education (BSEd): Art Education, Behavioral Science, Biology, Business and Office Education, Chemistry, Distributive Education, Earth Science, French, General Science, German, Health, Home Economics Education, Industrial Arts, Italian, Language Arts, Latin, Mathematics Education, Music Education, Physical Education, Physics, Social Studies, Spanish, Speech, Technical Education, Trades and Industries

Secretarial Science, Two-Year Program (Cert)
Social and Philosophical Foundations of Education (MA, MEd, PhD, EdD): Cultural Foundations of Education, Educational Policies and Studies, History and Philosophy of Education

Special Education (BSEd, MA, MEd, EdSp, PhD, EdD): Administration and Supervision of Special Education (EdSp, PhD, EdD), Behavior Disorders, Curriculum Development for Exceptional Children (MA, MEd, EdSp, PhD, EdD), Early Childhood Education for the Handicapped (MA, MEd, EdSp, PhD, EdD), Educable Mentally Retarded (BSEd), Learning Disabilities (MA, MEd, EdSp, PhD, EdD), Mental Retardation (MA, MEd, EdSp, PhD, EdD), Orthopedically Handicapped (BSEd, MA, MEd, EdSp), Trainable and Severely Handicapped (BSEd)

College of Engineering

UMC offered the first engineering education west of the Mississippi River in

1849. The College of Engineering is still a leader in engineering education designed to keep up with rapid technological changes. The curriculum gives a solid foundation in mathematics and the physical sciences, teaches application of these sciences in engineering specialties, and provides a background in the social sciences and humanities.

You may enter the College of Engineering as a freshman. Your high school credits should include three units in English, two in science with a laboratory and three in mathematics—two in algebra, one in plane and solid geometry and a half unit in trigonometry. Transfer students should consult the dean's office for information about a special program with 19 other Missouri colleges to help pre-engineering students transfer to Mizzou with ease and without loss of credit. Once in the College, a faculty adviser will help you plan a program to reach academic and professional goals. A bachelor of science in the various engineering specialties requires 126 semester credit hours.

The continuing demand for graduates is the most significant proof of the College's quality. The Engineering Placement Office each year directs on-Campus interviews by more than 200 companies and government agencies, representing almost every phase of American industry and business. Most graduates are hired as a result of those interviews; in fact, many get several job offers, some as many as five to eight.

Degrees Offered College of Engineering

Agricultural Engineering (BSAgE, MS, PhD)
Chemical Engineering (BSCHE, MS, PhD)
Civil Engineering (BSCiE, MS, PhD)
Computer Engineering (BSCoE)
Electrical Engineering (BSEE, MS, PhD):
Communications (BSEE), Computer Engineering and Digital Systems (BSEE), Discrete and Integrated Electronics (BSEE), Electromagnetics and Acoustics (BSEE), Energy Systems and Power Electronics (BSEE), Networks (BSEE), System Control (BSEE)
Industrial Engineering (BSIE, MS, PhD)
Mechanical and Aerospace Engineering (MS, PhD)
Mechanical Engineering (BSME): Aerospace Engineering
Sanitary Engineering (MS)

School of Forestry, Fisheries and Wildlife

The School of Forestry, Fisheries and Wildlife, a division of the College of Agriculture, trains students in the professional and scientific aspects of managing wood, water, fish and wildlife resources. The forestry programs are number seven in a national rating of 138 colleges and

universities. The School also has Stephens Hall, the first building in the nation constructed to house fisheries and wildlife programs. Students are able to get hands-on, practical experience at forest and wildlife areas near Columbia and over the state.

You can enter the School as a freshman, or can transfer from other accredited colleges and universities and from other divisions within Mizzou. FFW undergraduate students are advised by a staff of two academic advisers and by faculty members who are familiar with the entire program. Contact the director's office for information about courses offered and requirements for graduation in your field of interest. You need 135 semester credit hours for a bachelor of science in forestry in forest management or recreational forestry, 130 for a bachelor of science in forestry in wood products or forest science and 125 for a bachelor of science in fisheries and wildlife.

The School's cooperative programs with state and federal agencies prove valuable to graduates who are seeking jobs. Forestry-related employment for graduates ranged from 50 to 70 percent from 1980 to 1982. Most positions were in private industry but many were also in state and federal agencies.

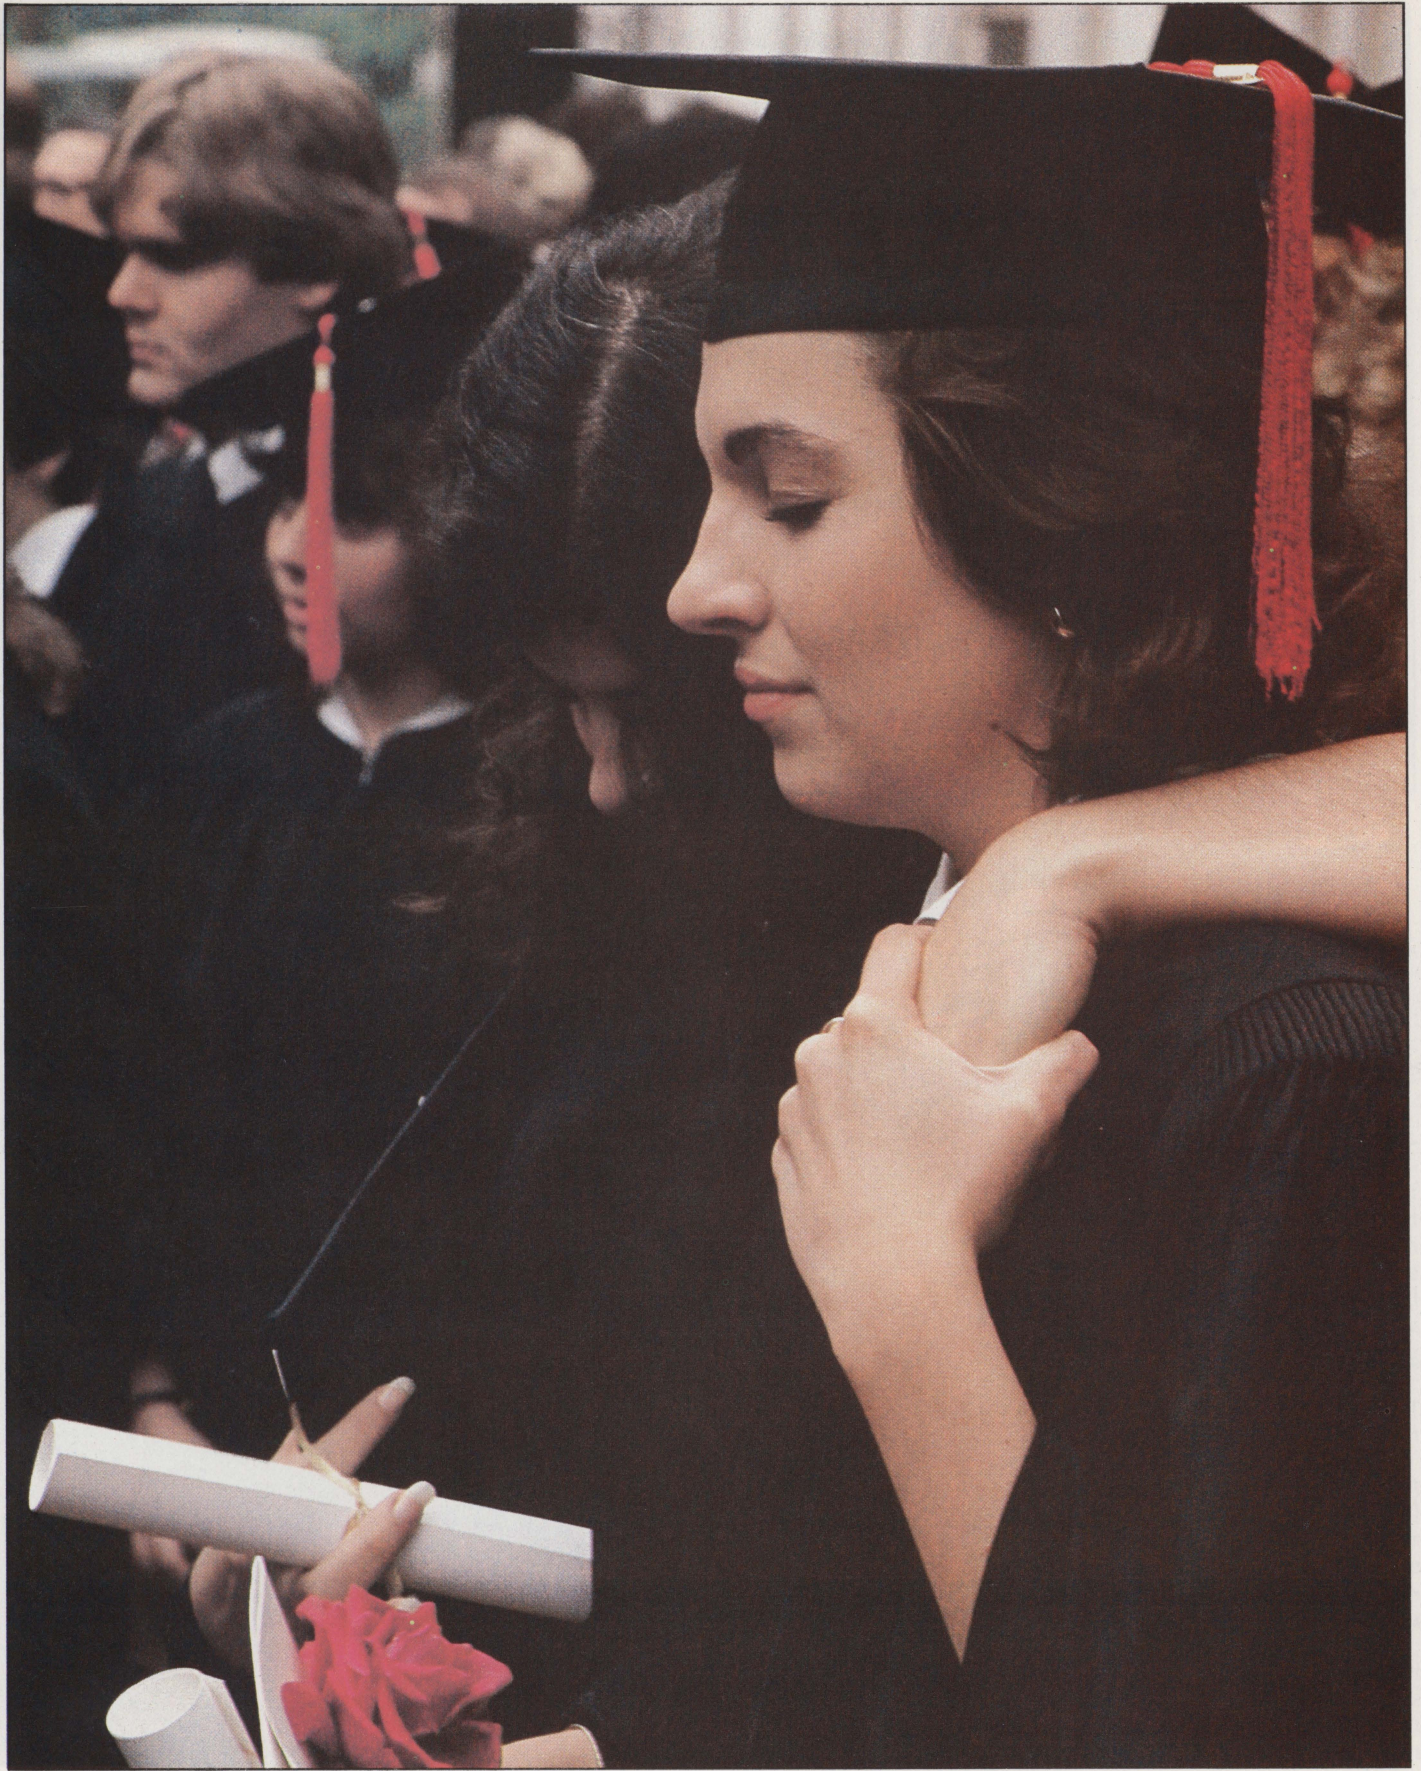

Degrees Offered School of Forestry, Fisheries and Wildlife

Fisheries and Wildlife (BSFW, MS, PhD)
Forestry (BSE, MS, PhD)
Wood Products Management (BSF)

School of Health Related Professions

The School of Health Related Professions, a division of the School of Medicine, offers an opportunity, unique in Missouri, for training at a university teaching hospital. The School's teaching is strengthened by the influence of the Schools of Medicine and Nursing, the University Hospital and Clinics and a rehabilitation center, mental health center and veterans hospital. Students also benefit from the School's comprehensiveness. Physical therapists, for instance, are aware of the skills of speech technologists, and they are able to work effectively together.

Generally, you should enroll in the College of Education (College of Home Economics for dietetics) for your freshman and sophomore years. However, you will still have contact with the School for advisement, which focuses on pre-professional requirements, and activities like comparing your capabilities with those necessary for different fields and interviewing clinical professionals. Once you have completed the pre-professional re-

Mizzou graduates enter jobs throughout Missouri, across the nation and the world. The Alumni Association enables all 120,000 graduates to keep up on news about the University.

Elmer Ellis Library is the heart of the Campus academic scene. Surrounded by millions of books, magazines and journals, students use the library or one of its eight branches as a haven for late-night study.

quirements, apply to the degree program of your choice. To receive the bachelor of health science you will need 120 credit hours with a 2.0 (A=4.0) grade point average. Consult the director's office for pre-professional requirements, specific course offerings and graduation requirements.

Demand for Mizzou graduates in health related professions has been so strong that there has been no need for a formal placement office. And the demand, over the entire field, is projected to continue to increase through the year 2000. As a Mizzou graduate, you will be prepared for private practice, teaching, administration, management, patient care and treatment, or laboratory work in hospitals, nursing homes and other health care facilities.

Degrees Offered

School of Health Related Professions

Clinical Laboratory Sciences (BHS):

Cytotechnology, Medical Technology

Health Services Management (BHS)

Occupational Therapy (BHS)

Physical Therapy (BHS)

Public Health (MS): Health Services Management

Radiologic Sciences (BHS): Nuclear Medicine Technology, Radiation Therapy Technology, Radiography

Respiratory Therapy (BHS)

Speech Pathology and Audiology (BHS,

MHS): Audiology (MHS),

Speech-Language Pathology (MHS)

Research conducted at Mizzou ranges from chemistry to literature to economics. You get up-to-the-minute information from professors and sometimes the opportunity for your own research.

College of Home Economics

Mizzou's College of Home Economics, ranked among the nation's top dozen, is also among the largest home economics schools in the country. A variety of areas are under Home Economics' umbrella: they range from fashion merchandising to rehabilitation—the only undergraduate program of its kind in the U.S.—and dietetics—a nationally recognized, interdisciplinary program with the School of Health Related Professions.

You can enter the College as a freshman or transfer from other accredited colleges and universities and from other Mizzou divisions. A faculty adviser will help plan a college program when you first register for courses. All freshmen in the College enroll in Introduction to Home Economics, a course that helps students make career decisions and introduces them to Mizzou and the College. The bachelor of science in home economics requires 120 semester credit hours with a grade point average of 2.0 (A = 4.0). Contact the assistant dean's office for details on course offerings and requirements for specific fields of interest.

Demand for men and women home economics graduates is high—the U.S.

Department of Agriculture estimates there will be a shortage of 7,000 graduates per year in the 1980s. Mizzou's reputation for well-prepared graduates, who have the background and special skills required in their areas, paves the way to your first job. You can use the Career Planning and Placement Center, 100 Noyes Hall, as well as the business, education, journalism and agriculture placement offices.

Degrees Offered

College of Home Economics

Child and Family Development (BSHE, MA, MS)

Clothing and Textiles (BSHE, MA, MS)

Family and Consumer Economics (MA, MS)

Family Economics and Management (BSHE)

Food and Nutrition (BSHE): Food Systems Management, Medical Dietetics

Home Economics (PhD): Child and Family Development; Clothing and Textiles; Family and Consumer Economics; Housing and Interior Design; Human Nutrition, Foods, and Food Systems Management

Home Economics Communication (MA, MS)

Home Economics Journalism (BSHE)

Housing and Interior Design (BSHE, MA, MS)

Human Nutrition, Foods and Food Systems Management (MA, MS)

Interdepartmental Studies in Home Economics (BSHE)

School of Journalism

Recently ranked number one by a leading academic survey, Mizzou's School of Journalism was the world's first—founded in 1908. A daily newspaper, radio station and TV station are the laboratories of the School of Journalism. Students write, sell advertising, edit and take pictures for the *Columbia Missourian*, the city's morning newspaper, and write, produce and broadcast news and public affairs programs for KOMU, an ABC affiliate, and for KBIA, a public broadcasting, FM station.

You need 60 hours of college-level credit with a grade point average of 3.0 (A = 4.0) for assured admission to the School (other students are admitted on a space available basis). Many students enroll in the College of Arts and Science or other Mizzou divisions as freshmen and sophomores, but many also transfer into the School from other accredited colleges and universities. In any case, you should consult the dean's office for specific information about course and grade requirements for admission. You will choose a faculty adviser from your field of interest who will help plan your college program. Requirements for the bachelor of journalism de-

Smaller, intimate classes are the rule at Mizzou, with 20 students per class the average size. Freshmen will likely experience the large lecture classes, but these are usually offset by a smaller lab session.

gree are 120 semester credit hours. Course offerings and program requirements are available from the dean's office.

The School of Journalism has graduates working all over the world. They form a network of leadership in their respective media and of prospective job contacts for new graduates. The Journalism Placement Office also helps graduates locate jobs, scheduling on-Campus interviews, publishing an employment newsletter, keeping placement files, referring students to employers, and offering a required course on job-seeking activities.

Degrees Offered School of Journalism

Journalism (BJ, MA, PhD): Advertising (BJ), Magazine (BJ), News Editorial (BJ), Newspaper Publishing (BJ), Photojournalism (BJ), Radio-Television (BJ)

School of Nursing

UMC has offered a program leading to a bachelor of science in nursing since 1939. In 1979, the School of Nursing moved into a new building containing classrooms, offices, lounges and laboratories for nursing technology demonstrations, research and multimedia study. Nursing students also benefit from the other facilities of the health science complex, including the Uni-

versity Hospital and Clinics, health sciences library, medical sciences building, and a rehabilitation center, mental health center, and veterans hospital.

Most students enroll their freshman year in the College of Arts and Science, then apply for transfer to nursing their sophomore year. You also may apply for transfer from other accredited colleges and universities or other Mizzou divisions. A grade point average of 2.5 (A=4.0), completion of from 14 to 16 semester credit hours for grades, and verification of current enrollment in the remaining pre-nursing courses are required for admission. Consult the assistant dean's office for specific admission requirements and for information about bachelor's degree programs for registered nurses.

Missouri residents are given preference for admission. No non-resident has been admitted for the past two years because of the tremendous increase in the number of qualified Missouri residents applying.

Once you have been admitted to the School, you will be assigned a faculty adviser who will assist you in planning your schedule, share information about Mizzou and the School of Nursing, and will be available for consultation.

Professional opportunities in nursing continue to be unlimited in the Midwest.

**Degrees Offered
School of Nursing**
Nursing (BSN, MS)

College of Public and Community Services

The College of Public and Community Services prepares students for careers in the human-serving professions. The Department of Recreation and Park Administration, the only accredited program in the Big Eight, is very strong in therapeutic recreation and has a nationally known expert on interpretative outdoor education on the faculty. The Department of Community Services, which offers only the master's of science degree, was one of the first in the world and is internationally recognized. The School of Social Work is also a division of the College.

You enter the Department of Recreation and Park Administration as a freshman—or can transfer from other accredited colleges and universities or from other Mizzou divisions. You will be assigned an academic adviser as soon as you are in the College who will help plan class schedules and counsel you about academic problems. The bachelor of science in recreation requires 120 semester credit hours plus 12 hours of field work. See your adviser or the dean's office for more information.

Job opportunities for graduates in rec-

recreation and park administration are predicted to continue to increase through 1990.

Degrees Offered

College of Public and Community Services

Community Development (Dipl, MS): Youth Agency Administration (MS)
Recreation and Park Administration (BS, MS): Youth Agency Administration (MS)

School of Social Work

The School of Social Work, a division of the College of Public and Community Services, is one of the three oldest schools in the nation, dating back to 1903. It has the only accredited programs for both bachelor's and master's degrees in the state. And a bachelor of social work and bachelor of science in home economics in child and family development dual degree program is available—just one advantage of a multidisciplinary university like Mizzou.

You enter the professional program of the School of Social Work in your junior year. But if you enroll your freshman and sophomore years at Mizzou, your adviser will be from the School and will help you plan a program to meet the 60 semester credit hour requirement for admission. The bachelor of social work requires 120 credit hours. See your adviser or the director's office for more information.

Generally about 90 percent of a social work class is employed in social work or continues in graduate school, with 75 percent of that number working in Missouri.

Degrees Offered

School of Social Work

Social Work (BSW, MSW)

Graduate and Professional Study

The University of Missouri is the only public institution in Missouri offering professional and doctoral degrees—many available only at UMC.

The Graduate School offers advanced degrees in 75 departments and areas to students from the various colleges and schools. For information about admission, contact the Director of Admissions, 130 Jesse Hall, or the Graduate School, 203 Jesse Hall.

The School of Law has been an important force in the state and the nation since its founding in 1872. It offers a three-year professional curriculum leading to a juris doctor degree. Usually, applicants must

have a baccalaureate degree before being admitted.

The School of Library and Informational Science is the only program accredited by the American Library Association in Missouri and one of only two in the Big Eight. The graduate program is available in the School and undergraduate work through the College of Arts and Science.

The School of Medicine, established in 1841, educates physicians and health care professionals of highest competence. A four-year program beyond the baccalaureate is required for the doctor of medicine degree, with students normally spending at least three years in postdoctoral specialty training.

The College of Veterinary Medicine, whose graduates are located throughout the United States and the world, offers the doctor of veterinary medicine degree, requiring four years for completion. You must have at least 64 semester hours of college work to be admitted, but most students have completed more than 100 hours before admission to the College.

*Not only are there a variety of degrees
available at Mizzou, but you can generally
transfer between divisions with ease.*

SPECIAL STUDIES

Studies Abroad

Several academic areas at Mizzou offer programs that include studies or tours in Japan, Taiwan, Mexico, the People's Republic of China, Great Britain and Argentina. The Office of International Student Programs maintains an up-to-date library of information about opportunities for studying outside the United States.

Independent Studies

Mizzou offers you a chance to take correspondence courses through independent study. These courses can help you get a head start on college, graduate early, resolve scheduling problems or study during regular class breaks. Check with advisers in your division when planning your schedule in order to make sure correspondence courses will fit into requirements for graduation. To get information on how to enroll, courses offered and costs, contact the Center for Independent Study through Correspondence, 400 Hitt St.

Credit by Exam

Students who have fewer than 90 semester hours of college credit may receive advance credit by examination. The policy may vary among the individual schools or colleges so before taking any tests, inquire with the dean's office of the school or college in which you intend to enroll. Forms of credit by examination awarded at Mizzou include the Advanced Placement Program (with the exception of the AP English exam), CLEP General (limited to students with fewer than 30 semester hours of college credit), CLEP Subject (limited to students with fewer than 90 semester hours of credit), and Departmental Examinations (offered by individual academic departments on Campus). In addition, entering freshmen take the Freshman Placement Test for placement in English and math courses. Students may receive credit hours in math as a

result of scoring highly on the FPT. Arrangements for taking these exams should be made through Counseling Services, 4 Parker Hall. For more information, request the brochure, *Credit by Exam*, from the Admissions Office, 130 Jesse Hall.

Honors College

A variety of special courses, a special honors degree program and special academic counseling are offered through the Honors College. As an entering freshman, you are eligible for most honors courses at Mizzou if you rank in the upper 15 percent of your high school class and score in the upper 15 percent on the Freshman Placement Tests (FPT). Honors courses may consist of small interdisciplinary seminars or opportunities for independent study and participation in a professor's research. The Honors College also coordinates a number of special departmental honors degree programs within the College of Arts and Science. Completion of such a program earns the student a notation of "AB with honors" on both transcript and diploma. For more information contact the Honors College, 612 Kuhlman Court.

Reserve Officer Training Corps

The Army, Navy and Air Force ROTC offer college men and women scholarships while in school and commissions in the service after graduation. You may take ROTC with no obligation your freshman and sophomore years. If you continue during your junior and senior years, you agree to serve as an officer in the Air Force, Army, Navy or Marine Corps on either active duty or in the reserves. Active duty commissioned officers can earn starting salaries of \$16,300 and are assigned leadership positions which provide valuable managerial experience. While completing your last two years at the University, you are paid as much as

\$2,500 in ROTC. And you can apply for one-, two-, and three-year scholarships. See the section on Financial Aid for more information on this scholarship.

Women Studies

Students can design an interdisciplinary area of concentration in Women Studies in the College of Arts and Science. The "Women Studies Newsletter," available in 207 Jesse Hall, provides additional information on courses and women's programs.

Black Studies

An interdisciplinary program of specialization in Black Studies can be arranged in the College of Arts and Science. The Black Studies Office, 207 Hill Hall, provides information on the courses offered.

General Studies

The General Studies degree program gives students a great deal of freedom and flexibility in designing their own programs. Each student and a team of faculty members plan a 120-hour program. Upon completion of the program, students are awarded a Bachelor of General Studies degree. Students are accepted for admission after completing at least one semester of college work or its equivalent.

The qualifications for admission to the program are a high degree of educational motivation and independence and a set of educational goals which cannot be reached in a regular University program.

Students are encouraged to explore a variety of courses, while, at the same time, satisfying their educational goals.

To apply for admission to the program, you present a personal statement of your educational goals and a transcript of previous college work to a selection committee. The committee then reviews the material for evidence of individual initiative, responsible maturity and self-direction.

M. Leon Lopez

The Cast Gallery of the Museum of Art and Archaeology is only one of the Campus collections that will stretch your horizons. Some of the others are geology, entomology, botany, anthropology and herpetology.

*There are few earthly things more splendid
than a University.*

*In these days of broken frontiers and collapse
when the dams are down and the floods are
when every future looks somewhat grim
and every ancient foothold*

*has become something of a quagmire,
wherever a University stands, it stands and shines
wherever it exists, the free minds of men,
urged on to full and fair inquiry,
may still bring wisdom into human affairs.*

JOHN MASEFIELD

did

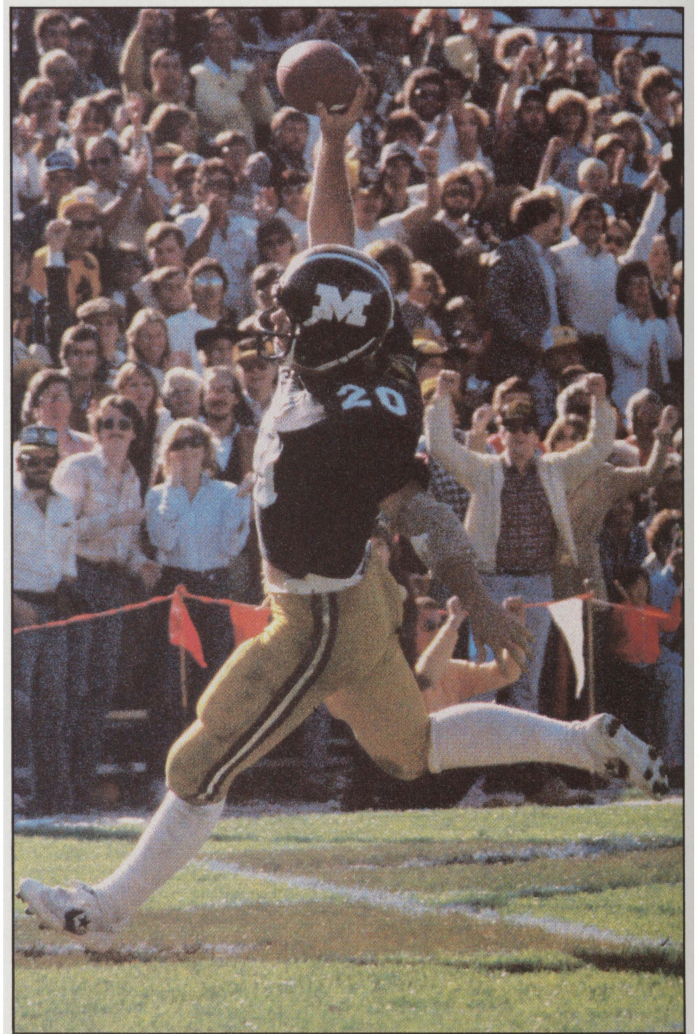

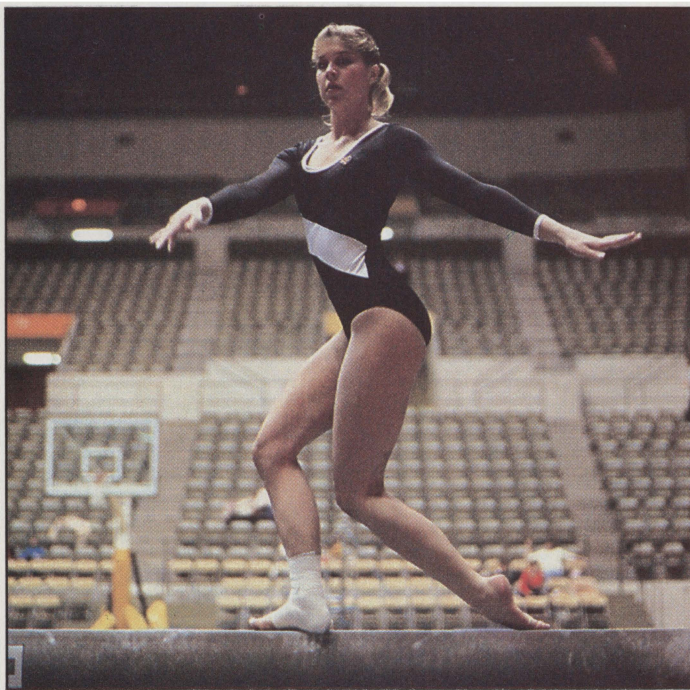

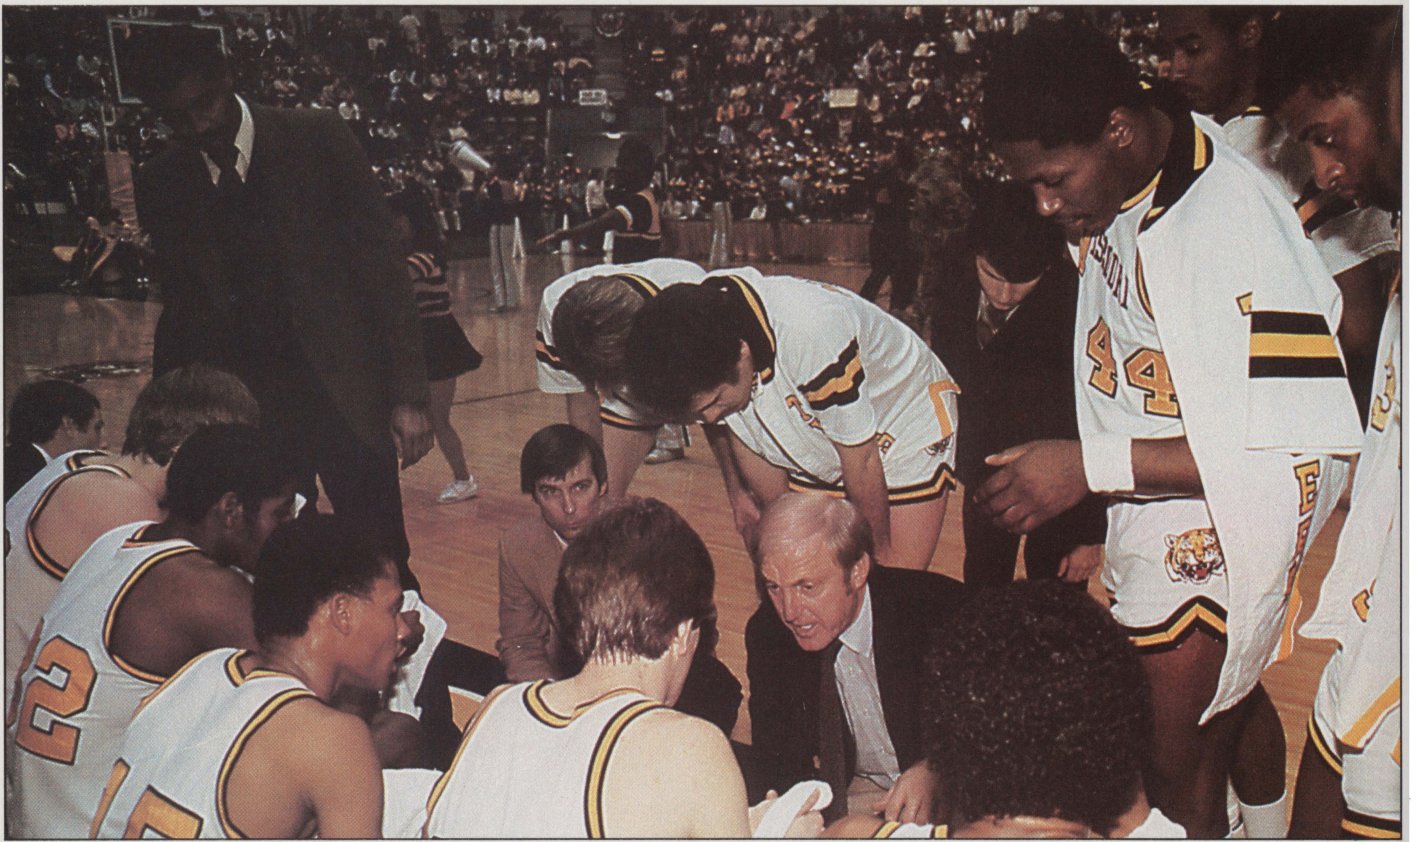

lapsing values,
are making misery,

shines;

n,

irs.

Mizzou takes pride in its national sports reputation as a member of the lofty Big Eight Conference. Leading this reputation are the football Tigers, consistent participants in post-season bowl games. The newest national contenders are the basketball Tigers, who have fought to the top rankings, including several weeks as number one in the country. One of the most consistently ranked teams is women's gymnastics, Big Eight powers since gymnastics began on Campus.

ACTIVITIES

UMc

Missouri Students Association

All Mizzou students are members of the Missouri Students Association, the University's student government. MSA's officers are elected by the student body for one-year terms. These officers then appoint other students to head committees. These committees are in turn responsible for countless services and activities on the Campus. You can rent a canoe through MSA, learn to make stained glass in the craft studio, develop film in the darkroom, play handball, attend concerts or become involved in student government. Other major student governments on Campus include the Legion of Black Collegians, Panhellenic, Black Panhellenic, Interfraternity Council and Residence Halls Association. These and numerous other organizations are all governed by students. They are eager for your involvement.

Student Media

You won't be on Campus long before you become acquainted with the *maneater*, Mizzou's student newspaper. Students, through volunteer efforts, produce the twice-a-week newspaper. Students also handle the production of the *Savitar*, the Mizzou yearbook. KCOU, a progressive rock radio station, is licensed and operated by the Residence Halls Association. KCOU broadcasts throughout the Columbia area and is also operated by student volunteers.

Recreation and Intramurals

The intramural programs offer everything from boisterous team sports, such as football, to more sedate activities such as billiards, in the men's, women's and coed programs. The intramural schedule begins the first of September with flag football and ends the last of April with track and field events. Recreational facilities on Campus abound for year-round activity. Swimming, basketball, football, tennis, racquetball, handball, softball, soccer and golf facilities are all available—and yes, fishing. The University has some fine fishing lakes for you anglers.

Religious Life

The Association of Campus Religious Advisers, an interfaith organization of Campus religious workers, acts as the liaison body between Mizzou and the various Campus ministries. As a state institution, the University cannot sponsor religious activities, but it does recognize the importance of religion in the life and education of students.

Music, Concerts, Theatre

Music and the fine arts are alive and thriving at Mizzou. MSA committees in the past year have brought such performers as Alabama, Willie Nelson, Chuck Mangione, Jefferson Starship, Cheap Trick

and Kenny Rogers to the Campus. There are several musical groups, including Marching Mizzou, open to student participation and students are invited to participate in dramatic productions either as performers or observers.

Associated Students of the University of Missouri

ASUM is the student lobbying branch of MSA. ASUM represents student interests, such as a student curator, majority rights, financial aids and improvements on the Campus, in the state legislature. Student interns do much of the work developing the ASUM proposals.

Intercollegiate Athletics

You can be involved in nationally recognized activities, not only in academics but in the sports arena at Mizzou. The University fields nine intercollegiate sports for both men and women. And the majority of these at one time have been nationally ranked. Few universities in the nation can boast of national rankings in football, wrestling and gymnastics and both men's and women's basketball in one season. Mizzou can and does. Other men's and women's sports are indoor and outdoor track, cross country, swimming, golf, men's baseball, and women's volleyball and softball.

Mizzou's diversity goes beyond classes. You can participate in organizations ranging from the Aerial Flying Tiger Club to the Women's Field Hockey Club.

SERVICES

UMc

Summer Welcome

Mizzou encourages new students to the University to attend the "Summer Welcome" registration and orientation program conducted in June and July. The two-day session enables you to become acquainted with the Campus, to take the required Freshman Placement Tests (FPT), and to complete, with an adviser's assistance, necessary registration procedures for the fall semester.

Career Planning and Placement Center

The Center provides a variety of information on full-time and summer jobs, internships, job-seeking skills, academic programs, career seminars and alumni contacts—all to help you decide on an academic major, career area or specific job opportunity. The Center is located at 100 Noyes Hall. In addition, several schools and colleges on Campus maintain placement offices to help students in those specific areas. These offices include agriculture; arts and sciences; business and public administration; education; engineering; forestry, fisheries and wildlife; home economics; journalism; law; public and community services; ROTC and veterinary medicine.

Memorial Union and Brady Commons

There's something for everyone at the Memorial Union or Brady Commons. The Union has three separate food services—Bengal Lair, Hawthorn Room and the Cafeteria. There is also a large lounge area, meeting rooms and a magazine, card and candy store. Brady Commons houses the University Book Store, a snack bar and a recreation area with a bowling alley, video games and pool tables. You also will have access to the television room, craft studio, dark room facilities and the Radio Shack at the Commons. Additional services available at the Commons include a check cashing service and a post office sub-station.

Student Health Service

Health service is available to all Mizzou students through special clinics and programs at the Student Health Center. You may see a physician during regular hours for general medical and health problems without an appointment. There is a \$2 clinic fee per visit and modest fees for laboratory services and tests, and for prescribed medications. Special clinics offered by the health service include internal medicine consultation; orthopedic; dermatology; gynecology; ear, nose and throat; allergy; shape; self-care; psychiatry; immunizations and a disabled health program.

Minority Students Programs

The Office of Minority Student Programs helps minority students adjust academically and socially at Mizzou. The Office plans and coordinates various programs and activities designed to bring about mutual acceptance and positive interaction between minority students and other members of the University community.

Students with Disabilities

Mizzou ranks first in the state in its commitment to provide equal educational opportunities to all academically qualified students. Many classrooms, major administrative offices and student services have been modified to allow physically disabled students to participate in University life. Among the special services provided is the Library Center for the Handicapped, which houses equipment such as recorders and electronic visual aids. Other services available are textbook recording, bibliographic searching and retrieval, reference help and general assistance in using the library for course-related study and research. For detailed information

contact the Coordinator, Access Office, 125 Gentry Hall.

Police Department

Providing a safe and helpful environment for living, studying and recreation is a top priority at Mizzou. Such security is provided by the University of Missouri-Columbia Police Department. Officers patrol the Campus in marked patrol vehicles and on foot, providing the same police protection as any well-organized and staffed police department.

Transportation

Mizzou is ready to meet your transportation needs be it through your own vehicle or transportation provided by the University. Although parking space is at a premium on Campus, the University does sell parking permits on designated parking lots, usually on the fringes of the Campus. Free parking is provided on a large lot near the stadium, with a shuttle bus system transporting students to the center of Campus. There are also special evening shuttle buses running various Campus routes for both convenience and safety of the students.

Learning Center

Located at 304 Watson Place, the Learning Center provides free individual and group instruction to undergraduate students needing help in math, writing, reading, study skills and tutoring for specific classes. Each semester the Learning Center offers preparation sessions for the graduate record examination and the law school aptitude test.

Tutoring

Through the Counseling Center at 118 Noyes Hall, the Missouri Students Association has established a tutoring center. If you need a tutor for a specific class or if you would like to be a tutor, contact the Counseling Center.

Elmer Ellis Library

The Ellis Library and its eight campus branches is the home of more than 2.6 million volumes, one of the largest collections in the country. The library system also receives more than 21,000 serials every year. The main library has subject divisional libraries in science; social sci-

ence; education-psychology; language and literature; geography, history and philosophy; art, archaeology and music; and library science. Each of these has its own staff, reference collection and collection of books and journals. Other special sections of the Ellis Library include the Special Materials Room containing rare books, newspapers and periodicals; general ref-

erence area; a government document collection; a record collection which includes a listening area; and the State Historical Society of Missouri housed in the library. Branch libraries include engineering, geology, journalism, the library annex, math, research park, health sciences, and veterinary medicine.

RESIDENTIAL LIFE

UMC

You may choose where you wish to live while you are a student at Mizzou. Choices include University-owned residence halls, fraternities or sororities, cooperatives for women, a University-approved but privately owned residence hall, apartments, rental housing, boarding houses, privately owned houses and single rooms.

should be sent to: President, Campbell-Harrison House, 1415 University Ave., Columbia, Mo. 65201. Applications for Templecrone cooperative should be sent to Templecrone, 1410 University Ave., Columbia, Mo. 65201.

Mark Twain Residence Hall

Mark Twain Residence Hall is a privately owned residence hall operating in compliance with University rules and regulations. Contracts are between students and the Hall owners; the University does not take part in these contracts. Room and board charges for the academic year are \$2,525. Address inquiries to Mark Twain Residence Hall, 515 S. Fifth St., Columbia, Mo. 65201.

Residence Halls

Information about residence hall living, including an application, is mailed to those who apply for admission at Mizzou. Starting on Feb. 26 this material will be mailed to those who have applied for the fall semester. Students enter into contracts with the University for room and board for the entire year. The current rate for board and one-half of a double room is \$1,635 for the academic year.

Family Housing

Mizzou has 360 apartments for married students or students with children. There are 112 one-bedroom apartments and 56 two-bedroom apartments in University Village; 52 one-bedroom apartments and 140 two-bedroom apartments in University Terrace and University Heights. Rents are \$127 per month for one-bedroom apartments and \$145 for two-bedroom apartments.

Applications for family housing are available at Residential Life, 123 Jesse Hall, University of Missouri-Columbia, Columbia, Mo. 65211.

Fraternities and Sororities

Fraternities and sororities are private, self-governing groups that have University-approved resident directors. Room and board charges for an academic year range from approximately \$1,500 to \$2,000 and are set by the individual group. These charges do not include possible pledge fees, initiation fees or building fees. Inquiries concerning fraternities should be addressed to the IFC Rush chairman, 217 Read Hall; for additional information concerning sororities write to the Panhellenic Council, also at 217 Read Hall.

Cooperatives

Two cooperative houses for women are available near Campus. Cost of living in the cooperatives is somewhat less as residents share some of the work in the house. Room and board is approximately \$1,300 per academic year.

Campbell-Harrison cooperative accommodates about 30 women generally enrolled in home economics. Applications

Off-Campus Housing

Many students choose to live off Campus in apartments, boarding houses or rental houses. Quality of housing and prices vary greatly. Naturally, rentals nearer the Campus tend to be more expensive and generally are leased several months prior to occupancy. If you plan to live off Campus, it is wise to secure living arrangements as soon as possible after making the decision to attend Mizzou.

The Off-Campus Students Association is available to aid students in finding off-Campus housing and giving advice on what to look for in housing. This information is available by sending a stamped, self-addressed envelope to Off-Campus Students Association, Read Hall, or by calling (314) 882-8386.

EXPENSES

UMc

A Missouri resident can expect to spend a total of about \$4,310 for the 1983-84 nine-month academic year at Mizzou. An out-of-state student's cost will be about \$6,660 for the school year.

The estimates are based on the following figures:

FEES	\$1,252	BOOKS AND SUPPLIES	\$280
The \$602 incidental fee and the \$24 student activity fee make up the total semester fee of \$626, which must be paid in full during registration for classes.		This is an estimated cost of necessary books and supplies for the school year.	
ROOM AND BOARD	\$1,650	PERSONAL EXPENSES	\$1,127
This is the cost of a double-occupancy room in a residence hall, 20 meals per week (no Sunday evening meal) and a \$15 social fee. Residence hall costs may be paid by the year, semester or four payments each semester. Financial aid recipients are expected to pay by the semester.		This estimated average provides for personal items, entertainment, laundry, cleaning, student health insurance, transportation, etc.	
		OUT-OF-STATE TUITION	\$2,352
		Out-of-state students are required to pay tuition in addition to the incidental fee.	

Financial Aids

The costs of attending Mizzou are kept as low as possible so that the educational opportunities may be within the reach of anyone desiring a college education.

College may seem expensive, but when you look upon it as an investment in your future, you can see that the return is so great that, in perspective, the cost of attending college is minimal.

Mizzou has a good record of aiding potential students in securing scholarships, grants and loans to attend the University. But you may be able to help yourself, too. Your guidance counselor or high school principal may have information on local scholarships; area service groups and or-

ganizations may grant scholarships; and local business or industry may offer internships or grants. A little searching on your part may unearth financial aid you did not know existed.

Students seeking financial aid at Mizzou must complete either the Family Financial Statement (FFS) of American College of Testing or the Financial Aid Form (FAF) of the College Scholarship Service. From the information on these forms, Mizzou officials determine how much financial help you need.

Either form may be obtained from your high school's counseling office and should be filed by April 1. Late applications are

considered according to the date received and the availability of funds.

For additional information, contact Financial Aids, 11 Jesse Hall. For more information on state aid, you may contact the Missouri Department of Higher Education at (314) 751-3940.

There are four programs that can help supply financial aid: grants, loans, employment and scholarships.

Grants

Pell Grant

These grants are cash gifts which do not have to be repaid and are available if you are a qualifying undergraduate U.S. citizen. Qualification is based on financial need. If your family has less than a \$25,000 adjusted gross income, you may qualify for a Pell Grant.

Supplemental Educational Opportunity Grant (SEOG)

Federal grants from \$200 to \$2,000 annually are available to those undergraduate students in greatest financial need. This program is not limited to those in the top academic ranks, but your past scholastic records and test scores must show that you are capable of maintaining satisfactory college work. Applicants must be citizens or permanent residents of the United States.

Missouri State Grant

These grants are provided by the state of Missouri for undergraduate students who are Missouri residents working toward their first baccalaureate degree, and who need financial help to attend college. The amount of the grant presently cannot exceed \$459, or one-half the amount of your calculated need, whichever is less.

Loans

National Direct Student Loan (NDSL)

The usual maximum loan is \$1,500 per

An important part of a college education will be living away from home—the first time for many of you. Residential halls, Greek houses and apartments are all available on or near the Campus.

year for undergraduate study, \$3,000 for graduate and/or professional study. Repayment begins six months after leaving school with 5 percent interest starting then. There are cancellation provisions for teaching in schools in certain areas and/or under certain conditions of service in the Armed Forces of the United States. The total loan must be repaid within 10 years, with minimum monthly payments of \$30. Applicants must be citizens or permanent residents of this country.

Guaranteed Student Loan (GSL)

You may arrange a loan of reasonable size with a hometown bank, or other eligible lender; the note is endorsed by the federal government. You do not provide collateral and the lender is assured that it will sustain no losses on student loans.

The federal government pays the interest as long as you are enrolled for at least one-half of a full course load and up to six months after leaving school. After that time, you begin repayment with an interest rate of 9 percent. No cancellation feature is associated with this loan program. Applicants must be U.S. citizens or permanent residents of this country. Applications may be obtained from Financial Aids, or from a local lender and submitted to Mizzou for certification.

Other Loans

Mizzou student loan funds are gifts from alumni, business firms, foundations, trusts and other supporters. The loan funds are open to all Mizzou students.

Employment

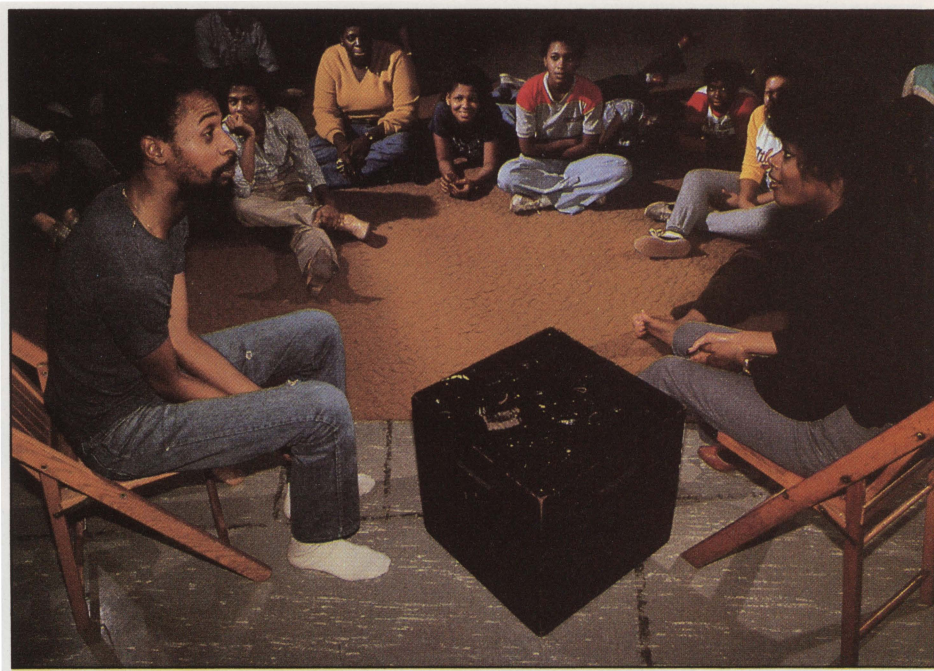

Part-time jobs are available throughout the Columbia community in private businesses. Many householders, as well, employ students to do odd jobs, usually during the afternoons, evenings and on weekends. Job opportunities are listed on the employment bulletin board at the Career Planning and Placement Center at 110 Noyes Hall.

Advanced students frequently find work on various research projects in the division of their major. If you are interested, make application at the office of the prospective employer.

Work-study Jobs

This program provides that the federal government pay a part of the wages of students from low-income families who need to work in order to earn money to attend college. The University pays the remaining amount for on-Campus jobs. The Financial Aids Office assists in arranging off-Campus jobs on community projects with eligible agencies.

Full-time summer jobs of 40 hours per week at the minimum hourly wage would

Students in the Black Theatre Workshop participate in a dramatic exercise. The Black Studies minor, the Black Culture Center and the Black Alumni Organization are among other special programs.

Blending hands-on experience with academics is illustrated by the world famous School of Journalism. Students help produce the Columbia Missourian, KBIA radio and KOMU television news.

enable you to save money for the following school year. In addition, part-time work on Campus can be arranged to fit into the regular class schedule. There are 1,000 to 1,200 part-time, work-study jobs regularly available in libraries, laboratories, cafeterias, maintenance, offices, farms, etc., and are assigned by the Financial Aids office in accordance with the interests and experiences of the applicants.

Scholarships

All questions regarding specific college, school or divisional scholarships should be directed to the appropriate dean's office.

Curators Scholars

Curators Scholars are named in Missouri high schools with more than one named in some of the larger schools. To qualify, you must be a Missouri resident, rank in the upper 3 percent of your high school class at the end of six semesters and score at or above the 90th percentile on a nationally standardized college aptitude test. If a school does not have a student who meets these criteria, the high school counselor or principal may designate a student ranking in the top 3 percent of the

class.

Each Curators Scholar receives a waiver of the incidental fees for the freshman year. Students may be eligible for a renewal of a portion of the award if they maintain a cumulative 3.5 grade point average.

University Scholars

Undergraduate students who maintain a 3.5 grade point average and are not Curators Scholars are named University Scholars. Missouri residents who are University Scholars may receive a partial fee waiver. You do not need to apply for this award—Mizzou officials will notify you. Transfer students who have questions about their eligibility should contact the Financial Aids office.

G. Ellsworth Huggins Undergraduate Scholarship

If you rank in the top 10 percent of your high school graduating class, score at the 90th percentile or better on a national standardized aptitude test, participate in extracurricular activities and are recommended by your high school counselor or principal, you are eligible for this scholarship. The Huggins scholarship pays \$600

the first year, \$400 the second year, \$300 the third and \$200 the fourth year provided you maintain a 3.25 cumulative GPA. For more information, contact the Honors College, 612 Kuhlman Court.

National Merit and Achievement Scholars

National Merit and National Achievement Scholars are recommended to the University by the National Merit Office of Chicago. Missouri residents, who are either National Merit or National Achievement Scholars, who are not sponsored by an industrial organization, and who name Mizzou as their first choice, receive a minimum stipend if they have no calculated need on either the FFS or FAF.

The Scholar who has a calculated need receives one-half of that need as either a National Merit or National Achievement Scholarship and one-half from other University-controlled funds, such as loans or employment.

National Merit and National Achievement Scholars should submit a FFS or FAF.

Science Fair Scholarships

Each year the University awards scholarships to a number of Missouri high

school seniors who are high-ranking participants in science fairs.

Selection is made by a committee on the basis of the student's academic record, college aptitude test scores, interest in science and a personal interview. Scholarship recipients may enroll at Mizzou with a full waiver of incidental fees for one year.

Conditions for renewal of these scholarships are the same as those for Curators Scholars.

Special Events Scholarships

The College of Agriculture, the College of Arts and Science (Departments of Music, and Speech and Dramatic Art), and the College of Education (Department of Industrial Education) award several scholarships in the amount of incidental fees to Missouri residents who are state contest winners. For further information, contact the department involved.

Minority Scholarships

Several of the schools and colleges at Mizzou offer scholarships and grants to minority students. If you are interested in such a scholarship, contact the individual schools directly.

ROTC Scholarships

Two-, three- and four-year scholarships are granted to qualified students through national and local competition. The scholarship pays for all books, tuition and fees plus a subsistence allowance of \$100 per month for a maximum of 10 months for each year it is in effect.

Upon graduation, the scholarship students will be commissioned second lieutenants or ensigns and will be expected to serve as officers on active duty for four years. For further information, contact the appropriate ROTC office, either Army, Navy or Air Force.

Chancellor's Leadership Class

Members of the Chancellor's Leadership Class are chosen on the basis of high school activities, especially ones to which students are selected by their peers, and receive a minimum \$350 scholarship for their freshman year only. Nomination forms are available through Missouri principals or counselors or are available from the Vice Chancellor for Student Services at 211 Jesse Hall.

ADMISSIONS

UMc

Inquiries and applications for admission to Mizzou should be addressed to Director of Admissions, 130 Jesse Hall.

There is a \$20 non-refundable advance application fee which is applied against the incidental fee when the student enrolls.

For the fall semester, entering freshmen should apply beginning Oct. 1. Graduate and transfer students should apply before July 1.

All students enrolling at Mizzou for the first time are required to submit a medical history form, which in most instances does not require a physical examination. These medical forms are mailed directly to you after you have made application at the University.

Freshmen

Entering freshmen must submit an application for admission, the \$20 application fee, request a certified high school transcript and an official aptitude test score be sent from your high school.

Acceptance for admission is determined on the basis of a combination of high school class rank and the required aptitude test score.

Results from one of the following tests meet that requirement: School and College Ability Test (SCAT, Series III, Form X or Y, or Series II, Form IC or Form IIB), American College Test (ACT) or Scholastic Aptitude Test (SAT) of the College Entrance Examination Board.

In addition, most freshmen are required to take UMC's Freshman Placement Tests (FPT) prior to registration.

Students have the best success at the University of Missouri-Columbia if they have completed a college preparatory curriculum. The faculty of the College of Arts and Science strongly recommends the completion of the following high school units:

English - Four units of English including three units of grammar and composition with as much emphasis on writing as possible.

Mathematics - Two units of mathematics, including 1½ units of algebra. The math requirement is exclusive of general and business mathematics.

Social Science/Behavioral Science - Two units.

Laboratory Science - Two units of biological

and/or physical laboratory science.

Foreign Language - At least two units in the same language.

Students who plan to major in areas such as engineering, mathematics or the sciences should contact the dean's office of the appropriate school or college for any additional entrance requirements.

International Students

More than 1,200 students from 90 countries currently are enrolled at Mizzou. All prospective students who are not U.S. citizens should write to the Office of International Student Programs, 114 Read Hall. Appropriate forms explaining the procedures for applying for admission to Mizzou will be sent along with information outlining degree programs, approximate costs, international support programs, activities, and English requirements. The completed application should be mailed to Director of Admissions.

Transfer Students

Students transferring to Mizzou must have an overall grade average of C or better. In addition, transfer students must have attained at least a C average during

their most recent semester. Students who are under suspension or dismissal, or whose previous record is unsatisfactory at another school may not be admitted to Mizzou. Evaluation of coursework applicable toward a degree is made by the dean of the school or college in which the student enrolls.

Students transferring from an accredited Missouri junior or community college with an associate of arts degree must have at least 60 hours of college-level work oriented toward the baccalaureate degree. These 60 hours must include no less than 36 semester hours distributed as follows: communication skills, 6 hours; mathematics, 3 hours; biological or physical science, 9 hours; humanities or fine arts, 9 hours; social-behavioral science, 9 hours.

Generally, Mizzou will admit transfer students who have obtained the AA degree with a certified C average, and will consider such students as having junior standing and as having completed general education requirements. The professional schools of Business and Public Administration, Health Related Professions, Journalism, Nursing, and Library and Informational Sciences have additional requirements.

The nucleus of Mizzou's beginning - the Francis Quadrangle - still serves as the academic center for the University. The quad is currently listed in the National Register of Historic Places.

HOW TO APPLY

Applications

Complete the application form and send it, along with the \$20 application fee to the Director of Admissions, 130 Jesse Hall, University of Missouri-Columbia, Columbia, Mo. 65211. You also will need to have transcripts sent to the same address.

Failure to complete this form fully will void your admission. Providing misinformation concerning previous enrollment in other colleges or universities also will void your admission.

Because of limited enrollment and/or higher minimum standards, general acceptance as a student at the University of Missouri-Columbia does not guarantee acceptance to specialized or professional programs.

Supplemental applications are required for admission to the schools of Health Related Professions, Law, Medicine and Nursing, and the College of Veterinary Medicine. Applications can be obtained from the respective dean's office.

Some information requested on the application is required by Title VI of the Civil Rights Act of 1964, Title IX of the Higher Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973, and will be reported to federal compliance agencies concerned with equal educational opportunity. This information is requested in order to keep the records required by the federal government, and to prevent discrimination on the basis of race, color, religion, handicap, national origin or sex.

Transcripts

The school you attend should send your official transcript to the Director of Admissions, 130 Jesse Hall, University of

Missouri-Columbia, Columbia, Mo. 65211. Transcripts cannot be accepted directly from you. All transcripts become the property of Mizzou. If, after one semester, you have not enrolled at Mizzou, you will be required to submit another transcript if you reapply for admission.

Your admission cannot be decided upon until complete transcripts and your admission form are on file at the University.

Freshmen applicants must have an official high school transcript submitted, with class rank, and required test scores.

Undergraduate transfer applicants must have an official transcript from each college attended submitted. Transfers entering the College of Arts and Science or the School of Journalism also must submit a high school transcript.

Graduate applicants must submit an official transcript showing baccalaureate degree and transcript(s) showing any additional graduate work. Additional information concerning graduate study may be obtained from the Graduate School, 205 Jesse Hall, University of Missouri-Columbia, Columbia, Mo. 65211.

Deadlines

If you are a freshman applying for the fall semester, applications and transcripts should be on file in the admissions office not later than May 1 and July 1 if you are a transfer or graduate student.

Application deadline for the winter semester is Dec. 1 for all students. The deadline for the summer session is May 1 for all students.

Out-of-State Applicants

A pamphlet giving detailed information on out-of-state tuition and residence rules

may be obtained from the Admissions Office, 130 Jesse Hall or the Cashier's Office, 123 Jesse Hall.

Financial Aid

An application for admission to Mizzou does not serve as an application for financial aid. Mizzou accepts either the Family Financial Statement (FFS) of American College Testing or the Financial Aid Form (FAF) of the College Scholarship Service. Both forms are available in school counseling offices. They are released just preceding a new calendar year and should be filed with Mizzou by April 1. Late applications will be considered according to the date received and the availability of funds. Questions should be directed to Financial Aids, 11 Jesse Hall.

Housing

Housing information and applications for University-owned residence halls are mailed automatically following the receipt of your application for admission.

Send your applications to:

Director of Admissions
130 Jesse Hall
University of Missouri-Columbia
Columbia, Mo. 65211

Campus visits

Mizzou encourages prospective students and their families to visit Columbia and see the Campus firsthand. Contact the Office of High School and College Relations, 219 Jesse Hall, (314) 882-2456, to arrange a visit to Mizzou.

Don't feel alone when you first come to Mizzou. More than 6,000 students are in the same boat—new to the Campus. It won't take long to get to know your new home.

CUT ON DOTTED LINE

New Student Check List

October 1

Apply for admission. Send application and have submitted a high school transcript to Admissions, 130 Jesse Hall, University of Missouri-Columbia, Columbia, MO 65211.

6 to 8 weeks later

Mizzou will notify the student of acceptance.

January 1

Apply for financial aid. Obtain FFS or FAF from high school counselor; complete and return as soon as possible but before April 1.

February

Apply for housing. Residential hall applications will be sent to students who have applied for admission. Housing is assigned on a first-come, first-served basis, so do not delay returning application for housing with \$25 deposit.

May 15

Apply for Summer Welcome. Invitations to Summer Welcome, Mizzou's summer orientation and registration program, will be sent to all new students at the University.

May 15

Return residence hall contract with first payment. Residential Life mails residence hall contracts on a space-available basis to students who have returned residence hall applications. A student's return of the contract by the deadline with the first payment will assure a room in a University residence hall.

82-84 Calendar

Fall 1982

- Aug. 23 Registration & new student orientation
- Aug. 24 Registration
- Aug. 25 Classwork begins
- Sept. 6 Labor Day recess
- Nov. 24 Thanksgiving recess
- Nov. 29 Classwork resumes
- Dec. 18 Semester ends

Winter 1983

- Jan. 10 Registration & new student orientation
- Jan. 11 Registration
- Jan. 12 Classwork begins
- Mar. 12 Spring recess begins
- Mar. 21 Classwork resumes
- May 13 Semester ends

Summer 1983

RESTROOMS

Restrooms are located in nearly all major buildings. Jesse Hall, Memorial Union, Hearnes Multipurpose Building, Museum of Art and Archaeology and numerous other major buildings have restrooms adapted for the handicapped.

UMC has been adapting its campus for the handicapped since the 1950's. Ramps, elevators, and adapted restrooms and water fountains are incorporated in new buildings. UMC continues to adapt such facilities in older buildings.

About the Cover

Mizzou's heritage continues to grow year after year with the blending of the new and the old. Our cover illustrates the new—the red bricks, young trees and lights of the nearly completed Lowry Mall (just a portion of the ongoing beautification projects on Campus) and the old—the Memorial Union Tower and the south wing of the Union. A close-up view of the historic tower is pictured on page 2.
