

ANDY TAU'S SEASONS

Scenic Missouri is depicted at four distinct times of year by the University's official photographer.

Spring, summer, autumn, winter . . . the seasons
in Missouri offer fine subjects for the photography of
Andy Tau. He chose Hinkson Creek for the spring and winter
scenes, the Lake of the Ozarks for summertime, and a Boone County
farm at harvest time for fall. Photos are from Tau's personal collection.
