COURSE OF INSTRUCTION.

The Faculty of Arts, to whom are committed the instruction and government of the pupils, consists of a President, four Professors, two Adjunct Professors, and a Tutor.

The full course of instruction, exclusive of the Preparatory Department, occupies four years. Students, however, are admitted into any class which they are prepared to enter. The studies of the several classes are arranged as follows:

1. PREPARATORY DEPARTMENT.

Arithmetic; Geography; Bullion's English Grammar; Spencer's Latin Lessons, Bullion's Greek Lessons, and Latin Reader.

A regular course, when practicable, should, by all means, be preferred.

EXPENSES OF THE SESSION.

Tuition Fee, - - - - -	\$.20
Contingent Fee, - - - - -	1
Boarding in private families, with washing, lodging, fuel and lights, from \$2 to \$2 50 per week, (average,) - - - - -	84
Total, - - - - -	\$105

With a view to the preservation of the Edifice, heavy charges will be made for any damages wrongfully committed. It is to be hoped there will be no occasion to add this item to the expenditure of any Student.

PAYMENT OF BILLS.

It is provided, by ordinance of the Curators, that no Student be admitted by the President to the exercises of the University for any session, until he present a certificate from the Treasurer of the Board that his bill for tuition and contingencies has been paid, and that no drawback be allowed for absence in any case.

REMISSION OF TUITION FEES.

Indigent Students presenting a certificate of good moral character from the Curator of the Judicial District in which they reside, are admitted to all the exercises of the University free of expense, except the contingent fee of one dollar per Session.

DISCIPLINE.

Records are kept by the Faculty, exhibiting accurately the standing of each student in scholarship and deportment. A low standing on either record will be followed by a private admonition, and notice of the same will be given to the parent or guardian. Unexcused absence from a public examination, or continued delinquency, may subject the offender to degradation to some lower class, or to separation from the institution. It is believed, however, that a prompt and judicious co-operation on the part of parents or guardians, will relieve the Faculty from the necessity of resorting to severe measures; and that the ends of good government may be secured by means that will save the feelings and the character of the Student.

LEAVE OF ABSENCE.

It is deemed quite unnecessary, during the Session, for Students to visit their friends beyond the immediate neighborhood of the University, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

MEDICAL DEPARTMENT.

The Medical Faculty hold their sessions, and deliver their instructions in the City of St. Louis.

The regular Courses of Lectures commence on the first Monday in November, and close the first week in March.— During the last two weeks in October, Lectures out of course are delivered by some one of the Professors, to such Students as may be in attendance before the opening of the Session.

In the City Hospital is presented almost every variety of disease, and as the students are admitted to the Hospital clinique, they have an opportunity of observing the symptoms and the treatment of each and all the maladies there presented.

The requisites for graduation in the Medical Department of the University of the State of Missouri, are, that the candidate shall not be less than twenty-one years of age, and of good moral character; shall have enjoyed the advantages of two years private pupilage, and have attended two Courses of Lectures, the last of which must have been attended at this school; write and defend a Thesis on some Medical subject, and stand a satisfactory examination before the Faculty or shall have attended three successive Courses of Lectures without previous private pupilage, or shall have been engaged in a reputable practice for three years.

The aggregate cost of Tickets, including the Matriculation Ticket, \$110. Dissecting Ticket \$10, which the student is required to take but once; Graduation fee \$20.

Comfortable boarding can be obtained, within a convenient distance of the Collège, at from \$2 to \$3 per week.

Students desiring further information, can address Dr. JOSEPH N. McDOWELL, Dean of the Medical Faculty, at St. Louis.

GENERAL REMARKS.

The University of the State of Missouri was chartered by the Legislature during the session of 1838-'9, and went into full operation under its present organization on the first of January, 1844; since which time it has been in successful operation, affording to Students the educational advantages ordinarily enjoyed in similar institutions.

The University Edifice, a spacious, tasteful and commodious building, was erected at an expense of about \$85,000, by the liberality of the citizens of the county of Boone, in which it is located.

The annual revenue of the Institution, exclusive of fees for Tuition, is the income of a State fund of \$100,000, being the proceeds of the sales of lands, donated by Congress to the State, for University purposes. The principal is well invested and is legally inviolable.

Columbia, the seat of the University, is situated near the centre of the State, ten miles north of Providence on the Missouri river. The town contains about twelve hundred inhabitants. It is confidently believed that no location combines more advantages for the site of a Literary Institution. It is not surpassed in healthfulness; and in those social, moral and religious influences which are conservative of the character of young men, and promotive of good order and industrious habits of study.

The University is easily accessible by the river during the greater part of the year. At the landing in Providence carriages will always be in readiness to convey passengers to Columbia. To this point a plank road is expected to be built in the next twelve months. There is also constant communication with St. Louis and with the upper counties by stage.

Should farther information be desired by parents or guardians, it may be obtained by addressing the President of the University or any of the Professors.
