Facilities plan indicates Ellis Library needs more space

To house collections, users and staff adequately, Ellis Library currently needs an additional 100,000 square feet, according to a report compiled as a result of a comprehensive facilities planning process initiated by Chancellor Barbara Uehling.

Comprehensive planning is "part of a continuing effort to better assess the facilities needs of our various programs and to better plan to meet those needs," said Duane Stucky, deputy to the chancellor and director of Institutional Research and Planning.

The study of the library needs is the first major project to be completed in the planning process. Currently under review are the needs of the College of Engineering, with Arts and Science slated for this summer and the College of Agriculture for the fall.

"We're trying to assess our facilities in a thorough and comprehensive manner," said Stucky, in order to provide the state legislature with options that make the best use of the taxpayers' resources.

A detailed study of the library began when the University, studying the feasibility of combining the proposed library storage facility and the Health Sciences Library, determined that "major unmet needs" existed in Ellis Library as a facility.

Hired to make the study of UMC Libraries were Sasaki Associates Inc., Watertown, Mass., a planning and design firm; Mackey and Associates, St. Louis architects and planners, and MIRA Inc., a Minneapolis program planning and information research firm. Louis E. Martin, University Librarian at Cornell, was invited to help in the study.

The study revealed a lack of space now in Ellis Library for housing its collections and providing reader spaces. In addition, work space for library staff was described as "inadequate, scattered and poorly arranged."

Besides needing an additional 100,000 square feet to house collections, users and staff, another 100,000 square feet was recommended by 1990 to accommodate growth.

The following recommendations were made, according to Stucky:

- The combined library storage project with the Health Sciences Library should be re-examined.
- The State Historical Society should be relocated and Ellis Auditorium should be replaced at another location to allow the library building to function more effectively. "There's always been a strong affiliation between the two (the University and the State Historical

Society) and that will continue," said Stucky, about the possibility of moving the society to another location on campus.

- Ellis Library should be renovated and a major addition built to accommodate plans for a 20-year capacity that would add 185,000 to

230,000 gross square feet.

- A law library within the proposed new law building should be planned for approximately 50,000 assignable square feet (equal to 60,000 to 65,000 gross square feet) with a capacity of 375,000 volumes.

(Continued on page 2)

Faculty Council approves early, phased retirement programs

The early retirement/phased retirement program, review committees for budget reductions and the new financial exigency plan were discussed at February meetings of the Faculty Council.

The council passed a resolution at its Feb. 18 meeting recommending that the provost initiate "actuarially sound early and phased retirement programs with appropriate supplements for faculty members at UMC." A report on such programs, prepared by the Special Projects Committee, was forwarded to Provost Ronald Bunn, along with the recommendation that it be used as the primary guide in developing the retirement program.

The council further suggested that

the retirement options be developed as benefits available to all qualified faculty on a voluntary basis, that benefits accrue to the individual retiree and his/her department and that the program be self-financed.

The council also requested that it be included in the development and review of draft proposals.

Also at that meeting, the council responded to the chancellor's requests for a list of faculty members to serve on the program review committees.

The financial exigency and program discontinuance plans, approved by the Board of Curators this month, were discussed at the Feb. 11 meeting.

Provost Ronald Bunn, Associate Provost Gerald T. Brouder and Assistant Provost Otis A. Jackson presented a question/answer forum at the Feb. 4 meeting of Faculty Council.

Bunn announced the procedures for selecting an advisory committee which will review his decisions about budget reductions in academic programs.

Members of the committee will be selected by Bunn from recommendations submitted by various faculty groups.

His initial presentation of prospective program eliminations and reductions will be made public immediately upon his first meeting with the advisory committee, Bunn said, and the committee's report to the provost and his subsequent report to the chancellor will also be announced.

The committee's final report will be sent to the provost by mid-April and Bunn's final report will be forwarded to Chancellor Uehling by the end of April.

Bunn said the advisory committee could add or delete from his original list of "phase-out" programs, but "they will have to present very strong data in support. I am using strong data for my decisions."

At least 13 months' advance notice will be given to those faculty members who will be terminated, Bunn said, adding "that there is also an obligation to the students to allow them to complete their programs."

Some of the academic program cuts may not be completed within three years, Bunn said, emphasizing that the Board of Curators must approve the elimination of entire programs.

Doctoral programs will not be exempt from budget cuts, although Bunn reassured the council, saying "Indeed, this is a mission of our campus, but it doesn't rule out individual doctoral programs being phased out. Professional programs as a totality are being considered."

Openings available in Hospital Child Care Center

Teachers in the Hospital's Child Care Center teach infants and toddlers a song during circle time. The teachers, from left clockwise are Linda Hansen, Laurie Heathcote, Donna Nanco and Donna Kell. The children from left clockwise are Alan Edler, Nathan Collins, Marca Burton, Kristen Franke, Nicholas Kiefer and Laura Young. See accompanying story on page 3.

Around the campus

NEXT WEEK IS A&S WEEK—A&S week runs from Feb. 28 to March 5 with speakers and activities open to everyone. Highlights of the week include a speech by 1980 presidential candidate John Anderson.

Anderson will speak on "Looking Forward" at 8 p.m. Feb. 28 in Jesse Auditorium. Free tickets will be distributed today in the north lobby of the Memorial Union.

Another highlight will be a debate between Mel Hancock, controversial author of Missouri's "Hancock Amendment," and Joe Holt, the state legislator who is working to have the amendment repealed. This event will take place at 7 p.m., March 4 in Waters Auditorium.

For a partial listing of A&S Week events see "This Week."

OPEN RECORDS RULING—Circuit Judge John Cave will hear a motion March 8 filed by the University asking him to clarify his order of Jan. 20 that the school must open its records and meetings to the public.

The University is specifically requesting that Cave further define the meaning of "meeting." Which meetings are covered need to be specified, wrote University attorney Robert Ross in his motion.

The ruling by Cave resulted after the *Columbia Daily Tribune* filed suit against the University when a reporter was denied administrative reports on operations of the UMC Health Sciences Center and certain internal audits. The suit also charged the UM system Board of Curators with conducting business during an evening dinner gathering.

GRADUATE FACULTY SENATE DISCUSSED COMPUTER AVAILABILITY problems on campus at last week's meeting.

Gordon Springer, associate professor of computer science and chairman of the Graduate Faculty Senate's Ad Hoc Committee on Academic Computing, stressed the committee's concern that the campus was not keeping up with changes in computer technology.

However, according to the committee, the major problem on campus is access to computer facilities. Of the 770 terminals most widely used on campus which can receive access to the computer network, only eight are generally available to faculty and students, said Springer. Six of these terminals were installed over the Christmas break.

Springer reported that the committee has followed the recent activity on campus concerning computer usage. The committee has also submitted its opinion of a proposal drawn up by the Academic Computer Advisory Council to Provost Ronald Bunn.

The proposal deals with allocating computing resources to campus departments. Currently, funds are distributed according to past use of the funds, which provides the largest budgets to the departments that used the most in the past.

Once the computer availability problem has been resolved, said Springer, there are other problems that will need consideration. For instance, of the \$1 million a year spent by this campus for computer services, 70 percent is used for faculty research and doctoral dissertation work, while only 30 percent is used for instructional purposes, in spite of the fact that student enrollment in computer programs has at least doubled in the last several years, said Springer.

Even though the computer resources have increased by 20 percent and more persons are using the services, said Springer, no additional personnel have been hired at the Academic Computing Center to assist in the use of the computer network.

Springer added that the \$1 million a year computer service budget may not be large enough for the campus.

Comparable-sized campuses often have \$5 to \$7 million a year for computer budgets, he said.

David Troutner, professor of chemistry and president of Graduate Faculty Senate, announced that the vote on the research incentive plan proposal, which would provide additional funding for departmental research, will be held at the next meeting at 3:40 p.m. March 25 in 208-210 Brady Commons.

AWARD DEADLINES—Monday, March 1 is the deadline for both the Chancellor's Awards for Outstanding Faculty Research and Creative Ability and the Thomas Jefferson Award.

The Chancellor's Awards will be given this year in the physical and mathematical sciences and the behavioral and social sciences.

The two awardees will each receive a \$1,000 cash prize and \$2,000 to support their professional activities.

Nominations may be made by anyone, and self-nominations will be accepted. Any faculty member in mid-career and affiliated with UMC for at least two years is eligible for the awards.

Nominations should be submitted to Richard L. Wallace, associate dean for research, 314 Jesse Hall. For more information, contact the Office of Research at 882-6311.

The Thomas Jefferson Award, consisting of a citation and \$1,000, will be given to a member of the UM community, active or emeritus, who "through personal influence and performance of duty in teaching, writing and scholarship, character and influence, devotion and loyalty to the University, best exemplifies the principles and ideals of Thomas Jefferson."

Nominations should include the nominee's biographical information and a clear indication of the relationships between the nominee's life and work and Thomas Jefferson's ideals.

Nominations should be submitted to Margaret S. Peden in 11 Arts and Science. For more information, call Peden at 882-4767.

AMOCO FOUNDATION UNDERGRADUATE TEACHING AWARDS of \$1,000 each will be given to two outstanding teachers of undergraduate students this year.

Students or faculty may nominate teachers; the nominees must hold full-time faculty appointments at UMC at the level of assistant, associate or full professor and be engaged primarily in teaching undergraduates.

Selection will be based on demonstrated teaching excellence and dedication to the teaching/learning process both in and out of the classroom. Publications and other scholarly activities will also be considered.

Supporting materials should include a resume, other pertinent information such as grants received for the improvement of instruction or teacher training, course and teacher evaluation data, and letters of support from former students, current students, teaching peers and the departmental or divisional administrators.

Nominations will be forwarded through departments to the appropriate divisional dean's office.

A committee composed of former AMOCO awardees will select this year's recipients.

Nominations and supporting material from divisions should be submitted to Associate Provost Gerald Brouder, 116 Jesse, by March 15. Nominations should be turned into departments as soon as possible.

1982 BYLER ADMINISTRATIVE AWARD—Nominations and applications for this year's Byler Administrative Award should be sent to

Associate Provost Gerald Brouder by March 15.

The award, funded by UMC alumnus William Byler, provides an opportunity for an administrator to participate in some enrichment experience directly related to administration.

Candidates may be administrators of either academic or administrative services and support staff units; projects may include an internship or attendance at an institute or workshop. The average expenditure for previous projects has been \$1,000.

The candidate should hold a campus administrative appointment or be under consideration for such a position, and the project should be related to administrative training or enrichment.

The project must be completed by July 1, 1983, and the recipient must return to the University for at least a year after completing the project.

Anyone interested in applying for the award should submit a resume, a short explanation of the project, including a description, purpose and expenditures, a statement on the project's mutual benefit to the candidate and to the University, and an endorsement of the project from the head of the candidate's administrative unit or division.

1981-82 BYLER DISTINGUISHED PROFESSOR AWARD—Nominations and supporting material are due by March 15 for the 1981-82 Byler Distinguished Professor Award.

Established by UMC alumnus William H. Byler, senior vice president for research at U.S. Radium Corp., the award recognizes faculty of "outstanding character and ability in his or her particular field."

Members of the departments of anthropology, art, art history and archaeology, classical studies, economics, English, Germanic and Slavic studies, history, music, philosophy, political sciences, Romance languages, sociology and speech and dramatic art are eligible to be nominated or to nominate faculty from their own or other departments.

Nominations should include a vita and a signed statement describing how the nominee meets the criteria of "outstanding character and ability in his or her particular field." Additional supporting documentation, such as letters from colleagues on or off-campus, may be included.

Nominations should be sent to Associate Provost Gerald Brouder in 116 Jesse Hall.

SEVERAL BIG 8 PLAYOFFS ARE JUST AROUND THE CORNER—For the men's Tiger basketball team, the first round of playoffs will begin March 2 at the Hearnes Center.

The women's gymnastic team will begin their playoffs at 7 p.m. today. Team competition starts today, and individual competition tomorrow. For ticket information, call 882-2386.

CONCERT SERIES PRESENTS MINNESOTA ORCHESTRA—The Minnesota Orchestra, one of America's top 10 symphony orchestras, will perform at 8 p.m., Wednesday, March 3 in Jesse Auditorium.

Neville Marriner, music director of the 96-member orchestra, has conducted most of the world's major symphony orchestras, including those of London, the BBC, Boston and the National Symphony Orchestra of Washington, D.C. He also is a permanent guest conductor of the Orchestra National in Paris.

The Minnesota Orchestra program will include Haydn's Symphony No. 96 in D major ("Miracle"), Strauss' "Don Juan," Opus 20 and Sibelius' Symphony No. 5 in E-flat major, Opus 82.

Tickets are available at Jesse Box Office, 10 a.m. to 4 p.m., March 2 and 3. Prices are \$10 for the public, \$9 for students and \$8 for groups of 10 or more. For more information call 882-3781 or 882-3875.

HOUSE FOR RENT—A three-bedroom house, fully furnished and equipped, with a family room, two bathrooms, finished basement, gas heat and central air conditioning is available for rent from June 1, 1982 to Jan. 1, 1983 (or part of that period).

The house is located on a wooded lot on a quiet, dead-end street. The owner requests no dogs.

Rent is \$350 a month. For more information, call Naomi Ritter at 449-5886 or 442-7054.

A RETIREMENT UPDATE PROGRAM will be held during March for faculty and staff who are planning to retire this year.

Letters concerning the program will be mailed soon to those employees who will reach 65 years of age before the end of 1982.

For more information, service and support staff may call Bonnie Arnold at 882-3440, and administrative and academic staff may call DeLynn Knicker at 882-3683.

Facilities plan

(from page 1)

- The Health Sciences Library should be planned for approximately 50,000 assignable square feet with a capacity of 350,000 volumes.

- The library storage facility should be replaced with high density open-access stacks in a renovation and expansion of Ellis Library.

The report will be reviewed March 2 by the Library Committee, the Library Staff Council and the Search Committee for a Director of Libraries. Their responses will be used to develop future capital requests for the library.

Although the report from the planners expressed pessimism, due to current economic conditions, for desired library growth, Stucky said the potential for funding "is enhanced by comprehensive planning and considering all the issues."

At current construction prices, however, the space required for each additional book acquired by the library costs more than \$6 in capital investment. The volume itself has an average purchase price of \$20 to \$30.

The report proposes that Ellis Library be renovated in several stages, with the first being a conversion of Ellis Auditorium into a reading room and reserve book library (possibly open 24 hours a day).

Relocating the State Historical Society was urged by the consultants. The society could be moved into another building on campus or into the proposed addition to Ellis, which would then be enlarged by 45,000 square feet.

The first addition to Ellis, of 100,000 square feet, should be built as soon as possible and another addition of equal size should be constructed around 1990, according to the report.

MIZZOU WEEKLY

Vol. 3, No. 20

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and once a month during the summer by the Office of Internal Communication, University Relations Division, 606 Maryland Ave. News deadline is noon Friday of the week before the issue.

Advisory Board: Keith Sanders, Delmar Hatesohl, Roy Utz, Luverne Walton, Marjorie Marberry, Leroy Harrison, Harri Palmer, Jim Brechbuhler, Bob Derryberry, Lealure Tindall.

Editor: Diana Reese Gard
Asst. Editor: Barbara Smith Mellott
Editorial Staff: Susan Thornsberry
Patti Muck
Jacqueline Gibson
Francine Parker
Telephone: 882-6004

Data shows faculty raises average from 5.8% to 12.3%

Mid-year faculty raises within UMC's schools and colleges ranged from an average of 5.8 percent for the UMC Libraries to 12.3 percent for the School of Law, according to data released this week by the Office of Institutional Research and Planning.

The data show that 57 percent of the faculty received average raises of 8.1 percent, with 19 percent receiving raises of 8 percent or higher.

Mid-year increases were granted to UMC faculty and staff in January through a reallocation of salary and wage funds within UMC's divisions.

Differences in the average raises are due to the choice of some schools and colleges to reallocate more of their salary and wage base to the raises than others, according to Duane Stucky, director of the Office of Institutional Research and Planning.

While the colleges of Business and Public Administration and Engineering both had targeted reallocations of 5 percent of their salary bases for raises and the School of Law allocated 4.5 percent, Arts and Science, Education, Veterinary Medicine and Extension allocated 4 percent.

Targeted reallocations were 3

percent for Agriculture, Home Economics, Nursing, Public and Community Services, Journalism and the Library.

Also, some units, such as the School of Law, were able to supplement their general operating budgets by funds from outside sources, which boosted the Law faculty's raises to 12.3 percent.

In addition, this fall, Provost Ronald Bunn made a pool of \$250,000 available from central campus funds from increased student enrollment income to supplement the increases of the schools and colleges.

Bunn specified that if an individual received at least an 8 percent raise and if his or her dean was prepared to present the individual as deserving of an additional increase, the provost would consider supplementing the increase, based on the criteria of both merit and market. An average supplement of 1.7 percent was added to departmental raises by the provost, with a high average of 3.5 percent given to Business and Public Administration and no supplemental funding granted to the Libraries and schools of Library and Information Science and Nursing.

Hospital's Child Care Center has limited openings available

More than 80 UMC employees are taking advantage of the Hospital's Child Care Center, where there are still limited openings.

The center, co-sponsored by the Department of Child and Family Development, offers child care for children of UMC employees. The center is open 24 hours a day and most holidays to accommodate the schedules of those with non-traditional working hours.

The Infant/Toddler Program, for children ages 6 weeks to 2½ years, is located in Gwynn Hall. The program encourages the development of each child individually through planned activities such as art, circle time and large and small motor play. A snack, two meals and napping time are included in the daily routine.

The Infant/Toddler Program costs \$8.75 per shift, with a differential for the 12-hour weekend shifts. There are late evening, night and some weekend openings.

The Preschool Program, located in Stanley Hall, is for children ages 2½ years up to kindergarten entrance. The \$7.75 per shift cost includes two hot meals and a snack, supplies and supervision by qualified professionals.

Rosemarie Lewis, administrative secretary in the College of Agriculture's Experiment Station in the dean's office, takes her 4-year-old son to the preschool program's day shift. "It's a quality program with excellent teachers and facilities," she says. "It provides a good teacher-child ratio, nutrition, mid-day nap, outdoor play and field trips."

The After-School Care Program is open to children in kindergarten through fourth grade. The center is open from 3 to 6 p.m. weekdays. Children are picked up from area schools by OATS and then taken to Stanley Hall. Parents provide transportation home. Cost is \$17.50 per week.

In addition, evening care is now also being offered for children of UMC students during their evening courses.

A positive experience for both the parents and the children is the key goal of the center, says Mary Beth Mann, CCC coordinator. "The Child Care Center is an excellent benefit," she says.

For more information about the center, contact Mary Hegeman, Nursing Service, at 882-8146.

Facilities plan

from page 2

In the meantime, plans have already been made to convert the gymnasium of the Education Building into book storage in order to ease the lack of space in Ellis.

Renovation of the gym will take three or four months and involves the

installation of movable shelves, set on tracks, which can store a larger number of books than fixed shelving.

Low-use materials will probably be moved to the annex, said Robert Almony Jr., assistant library director.

Remodeling the gym will cost about \$250,000, and approximately 200,000 books can be stored in the remodeled gym, according to Stucky.

Jobs

Staff openings

The following job openings at the University were approved and posted Monday, Feb. 22, and include the department where the vacancy exists. The openings are listed under the name of the Personnel recruiting staff member handling the positions. For more information or to apply for a job, contact the appropriate recruiter at the Personnel Office, 309 Hitt St., at 882-4221.

MARY SLEDGE
TECHNICAL/RESEARCH
Animal health technician, Veterinary Medicine & Surgery; Clinical specialist, nursing, Child Health; Computer programmer II, Mo. Testing & Evaluation; Computer programmer/analyst II, Administrative Computing Services; Microbiologist, Veterinary Diagnostic Laboratory; Regist. medical technologist, Veterinary Pathology; Research laboratory technician, Neurology; Research specialist,

Agronomy; Sr. research/engineering technician, Research Reactor-UMca; Sr. research/laboratory technician, Child Health; Sr. research laboratory technician, Medicine/Immunology; Social Worker, Child Health.

UMC Staff Recognition Awards nomination forms due today

Today is your last chance to nominate a staff member for one of the four \$750 Staff Recognition Awards.

Completed forms must be marked S.R. Awards, signed by the nominator and returned to Staff Awards co-chairpersons Freda McKee, 211 Jesse Hall, or Bill Blackwell, 109 Whitten Hall, by Feb. 26. McKee asks nominators to be sure to answer all the questions on the nomination forms.

Although support documentation accompanying the nomination forms is accepted, McKee said, the initial screening of nominees will consider only the nomination form. Support documents will be considered after the initial review.

As of Monday, 55 forms had been received; 17 for the administrative/professional category, 15 for secretarial/clerical, 13 for crafts/maintenance and 10 for technical/paraprofessional.

Only one nomination form has been received for the Mick Deaver Citation. Persons can be nominated for the

Citation through a letter of recommendation sent to the Staff Awards Selection Committee, 211 Jesse Hall. The award will be presented to a staff member who has fostered good relations with UMC students.

Student participation in submission of nominations and support documentation is good this year, said McKee. Documentation has been received from several students, including former students living in California and Pennsylvania.

Nomination forms are still available from Freda McKee, 211 Jesse, 882-6776, and Bill Blackwell, 109 Whitten, 882-4555.

Any full or 75 percent time UMC staff member who has completed the probation period is eligible for an award, except Staff Council members. Winners will be selected on the basis of their performance and ability, relationship with associates, campus and community involvement and personal qualities.

The following jobs were listed by the Health Sciences Center Personnel Office. For more information, call 882-8186.

This Week

To list your department or division's events in the next **Mizzou Weekly**, write or call the Office of Internal Communication, 606 Maryland, 882-6004, by Friday two weeks before the event is scheduled.

All events are free and open to the public unless otherwise noted.

26 Friday

Astronomy Film: "Black Holes of Gravity," Parts I and II, 7 p.m., 114 Physics. Free telescope observing after film.

Humanities Lecture: "Aquinas," William Bondeson, professor of philosophy and medicine, 11:40 a.m., Ellis Aud.

Forestry Seminar: "Wildlife Habitat Research in Arkansas," James Sweeney, U.S. Forest Service, 2:40 p.m., 2-7 Agriculture.

Gymnastics: Big 8 Championships, Team Competition, 7 p.m., Hearnes Center. Tickets \$4 general public, \$2 students, one night only; or \$6 general public, \$3 students for entire meet.

MSA Film: "An American Werewolf in London," 7 and 9:30 p.m., Jesse Aud. Tickets \$1 in advance, \$1.50 at the door.

Gentry Studio Theatre: "The Woolgatherer," 7:30 and 10 p.m., basement of Gentry. Tickets \$1.

Faculty Recital Series: Eva Szekely, violin, 8 p.m., Fine Arts Recital Hall.

University Theatre: "Do You Know the Milky Way," 8 p.m., Fine Arts. Tickets \$4 by mail or from Theatre Box Office.

Black Culture Center: Celebration of Black Music, 8 p.m. to 1 a.m., Bengal Lair, Memorial Union.

27 Saturday

Women's Center Workshop: "An Analysis of Violence Against Women in Our Culture," 1 to 4 p.m., 1 Gentry. To register, call 882-6621 or 882-6549.

Gymnastics: Big 8 Championships, individual finals, 7 p.m., Hearnes Center. Tickets \$4 general public, \$2 students.

MSA Film: "Endless Love," 7 and 9:30 p.m., Jesse Aud. Tickets \$1 in advance, \$1.50 at the door.

Reception in honor of Dean Armon F. Yanders: Arts & Science faculty and staff invited, 7:30 to 10 p.m., Alumni Center.

Gentry Studio Theatre: "The Woolgatherer," 7:30 and 10 p.m., basement of Gentry. Tickets \$1.

University Theatre: "Do You Know the Milky Way," 8 p.m., Fine Arts. Tickets \$4 by mail or from Theatre Box Office.

28 Sunday

Arts and Science Week: Through March 5.

Museum of Art and Archaeology Discovery Tour: Selections from the special exhibition, "Columbia Collects," Richard Baumann, curator of Renaissance and modern art, 2 p.m., Pickard Hall.

Argos Film Series: "Chartres Cathedral," documentary, 3 p.m., 106 Pickard. Tickets \$1.

University Philharmonic: Harry Dunscombe, conductor, 3 p.m., Jesse Aud.

International Night Dinner: Seafood, a la carte, 5 to 6:30 p.m., Memorial Union Cafeteria. Prices vary.

Collegium Musicum: Andrew Minor, director, 8 p.m., Fine Arts Recital Hall.

Neville Marriner will conduct the Minnesota Orchestra at 8 p.m. March 3 in Jesse Aud.

University Film Series: "Closely Watched Trains," an Oscar Best Foreign Film, 8 p.m., Ellis Aud.

Arts and Science Week: John Anderson, former presidential candidate, will speak at 8 p.m., Jesse Aud. Remaining free tickets available Feb. 26 north lobby Memorial Union and at 7 p.m. Feb. 28 in Jesse.

March 1 Monday

Women's Center: "Men and Women of the Corporation: A Book Review," Jolene Koester, assistant professor, speech communications, noon, 1 Gentry.

Microbiology Seminar: "Antibody-Dependent Enhancement of Viral Infections: The Dengue Virus Model," Wayne Koff, Department of Tropical Medicine and Medical Microbiology, University of Hawaii at Manoa, 1:40 p.m., M640 Medical Sciences.

International Center Colloquium: Members of the Jamaica Study Group will present information about their specific interests and present activities, 3 to 4:30 p.m., International Center Lounge.

Martin L. Faust Lecture in Public Affairs: "Governmental Retrenchment and Public Administration," Chester Newland, president of the American Society for Public Administration and professor of public administration at the University of Southern California's Washington Public Affairs Center, 7 p.m., Memorial Union Aud.
