

MIZZOU WEEKLY

The University of Missouri-Columbia

March 4, 1983

Take a peek at Elvis in 'Girl Happy' Sunday. See calendar, page 4.

PENNY PINCHERS rejoice! Some new rules for preparing 1982 tax returns could mean money in your pocket or at least a deduction on your 1040. Changes vary from a new form simple enough to be called the 1040EZ to a new deduction for two-income married couples. Highlights follow.

- **New tax form.** Single taxpayers with no dependents may use Form 1040EZ if they claim no exemptions for age or blindness and their taxable income is less than \$50,000 and is only from wages, salaries, tips and interest of \$400 or less.

- **Deduction for two-income married couples.** Married couples who file jointly may deduct 5 percent of the qualified earned income of the spouse with the lower earned income, up to a maximum of \$1,500. They may claim this deduction even

least 11 of 12 months during 1982 may exclude up to \$75,000 of foreign earned income from gross income. UMC professors who were on sabbatical or research leaves working outside the United States during substantially all of 1982 may be in this category.

- **Educational expenses.** Though not a change, the following deductions may be of note to some University employees. Taxpayers may deduct the cost of education required by their employer, or by law, to keep their present salary or job. The cost of maintaining or improving skills necessary in present jobs also is deductible.

However, educational expenses to meet minimum requirements of a present job or for training to qualify for a new job are not deductible.

- **Increased child care credit.** The

credit for household and dependent-care services has been increased to 30 percent of the amounts paid to enable taxpayers to be gainfully employed. The maximum amount of qualified expenses that may be used to figure the credit is \$2,400 for one dependent and \$4,800 for two or more. For adjusted gross incomes greater than \$10,000, the percentage credit is gradually reduced to 20 percent of qualified expenses.

- **Charitable contributions by non-itemizers.** Taxpayers who don't itemize deductions can now claim 25 percent of charitable contributions up to a maximum of \$25. Those who itemize may still deduct charitable contributions in full.

- **Longer automatic extensions.** Can't meet the April 15 filing deadline? This year, the IRS has

doubled the length of the automatic extension. Taxpayers now have until Aug. 15 to file their returns if they file Form 4868 by April 15. Wiedenbeck notes that taxpayers receiving the automatic extension may only use the long form. In addition, he stresses, the extension is for filing a return, not for paying taxes. To avoid a penalty for late payment, a check for estimated 1982 tax liability should accompany Form 4868.

Tax return forms are available at the local IRS office in the Federal Building, 608 E. Cherry St.; post office, 511 E. Walnut St.; Columbia Public Library, 100 W. Broadway; and many banks.

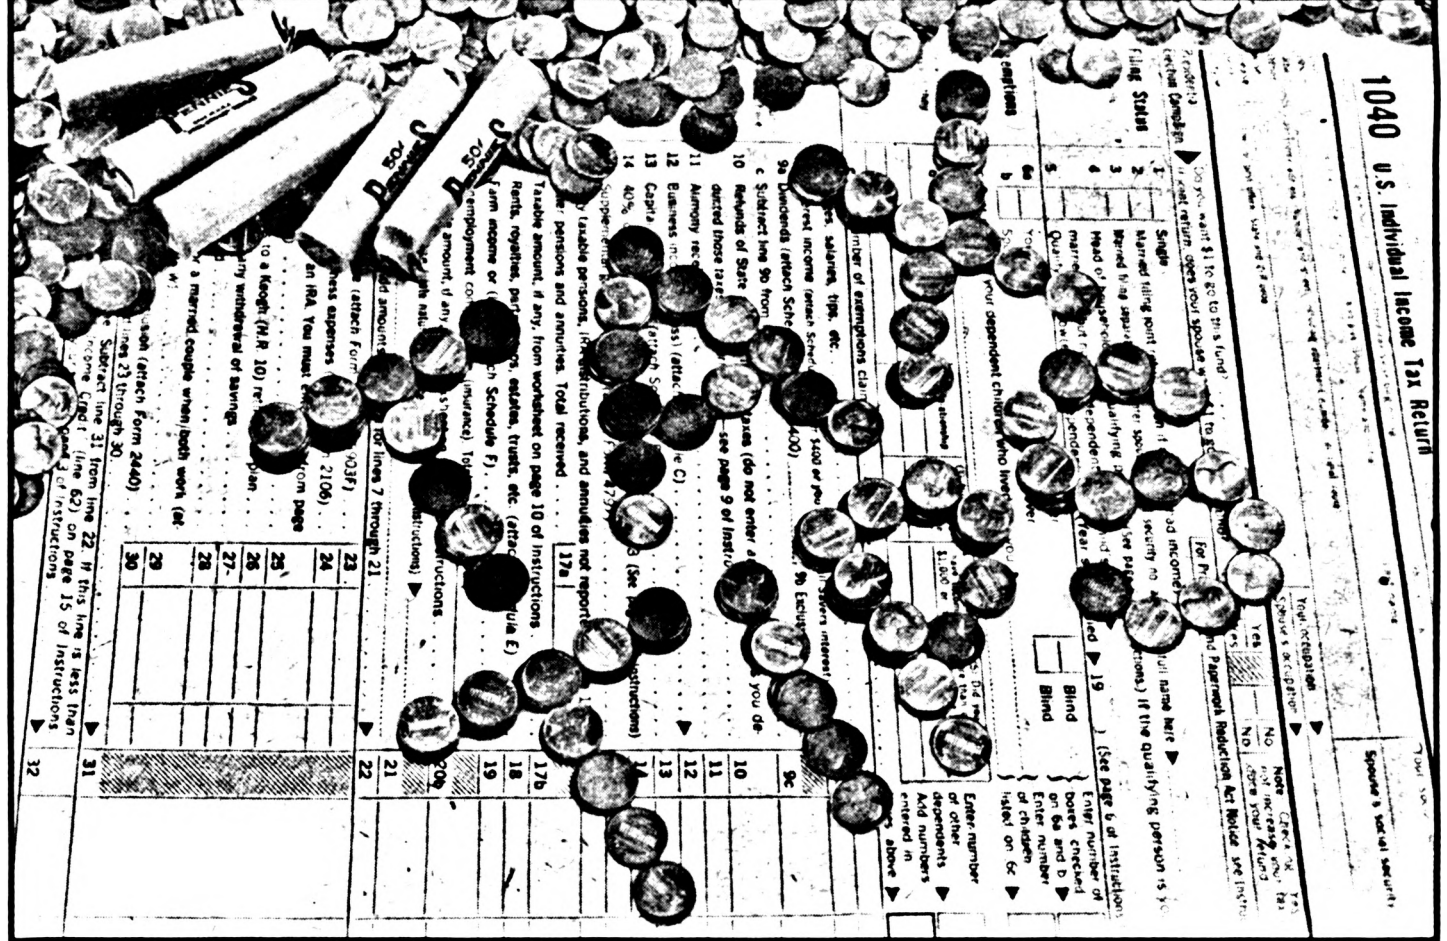

Taxpayers needing assistance with their returns may visit the local IRS center or call 1-800-424-1040, a toll-free number.

if they don't itemize.

- **Individual retirement plans.** Income earners may contribute up to \$2,000 (but not more than their total compensation) before the tax return due date and deduct the full contribution from 1982 gross income. The tax return due date is April 15, or later if an extension of time to file is obtained. The new rules include participants in an employer retirement plan. "For example, UMC faculty and staff covered by the University's pension plan can now also make deductible contributions to an individual retirement account," explains Peter Wiedenbeck, associate professor of law.

- **Immediate write-off of business equipment.** In lieu of claiming depreciation and the investment credit, taxpayers may elect to deduct the full cost of business equipment placed in service during 1982, up to \$5,000. For instance, Wiedenbeck says, a professor who bought a \$3,000 personal computer in 1982 to use in research and writing may deduct the full cost on his or her 1982 return. Previously, such deductions had to be spread over several years.

- **U.S. citizens living abroad.** Citizens and resident aliens who lived outside the United States for at

UPS issues new prices

The final round of price increases at University Printing Services for fiscal 1982-83 now are in effect. Although no formal announcement was made by the UMca unit, customers' jobs have been billed under the new price structure since Feb. 1.

Increases range from less than 5 percent to almost 50 percent, with a 15.3 percent labor increase creating the greatest dollar impact on costs. The labor hike reflects the wage increases granted in January 1982 and September 1982. Customers will notice the greatest changes in labor intensive operations such as those in the bindery and mailroom.

Harold Perry, UPS director, says these are the first significant price increases since June 1981. He says they came in the middle of a budget year because of the time needed to establish the effect of the new labor

costs after September. Perry also points out that some prices, primarily in the composition area, actually have declined since 1981. Since the cost of paper and other materials have pretty much stabilized, Perry expects no pricing changes during the rest of 1983, except those that might be caused by wage increases, if any, and rising energy costs.

Perry points out that UPS has been a full-costed operation for many years, paying for its entire operation, including portions of some administrative salaries at University

Hall, through printing sales. "It is not our goal to make a profit," he says.

Even with the new price structure, Perry believes UPS prices compare favorably with those charged by commercial firms.

"You might find a printer who would be cheaper for a specific job, because there're a lot of hungry printers out there right now," he says. "But they would take only the cream. We serve all the University's needs, the profitable and the non-profitable, in good times and bad."

Around the campus

ATHLETICS COMMITTEE TO MEET. The UMC Intercollegiate Athletics Committee will meet from 8:30 to 11 a.m. March 5 in N222-223 Memorial Union.

Agenda items include a review of ticket policies and a forecast of revenues and expenditures for fiscal 1983-84. In addition, there will be reports from Henry Lowe, UMC faculty representative to the NCAA and Big Eight Conference, and Lynn Lashbrook, manager of academic and financial aid in the athletics department.

Other reports will focus on this year's budget, facilities improvement and the Jog-A-Thon.

The committee also will discuss a report from its Task Force on Developing Income Alternatives, chaired by Don Hoehle, UMC fiscal operations officer. The task force has studied possible revenue sources and cost-cutting measures in the athletic department, which next year will no longer be subsidized by campus general operating funds.

NEW RATES FOR CAR LOANS. Mizzou Employees Credit Union has announced new financing rates on used-car loans. They are: 13 percent financing on one-year-old cars; 14 percent on two-year-old cars; 15 percent on three-year-old cars; and 16 percent on cars four or more

years old. The credit union is still financing new car loans at 11.9 percent. In addition, its rate on second mortgages is 12.75 percent.

NEW OFFICE LOCATION. The UM system Office of Telecommunications now is located in 215 University Hall. Director Coleman Burton's phone number is 882-4478.

ARTHRITIS CENTER SEEKS PROJECT PROPOSALS. UMC's Multipurpose Arthritis Center is seeking abstracted proposals pertaining to arthritis or rheumatic disorders. Individuals or departments may submit proposals of community programs, basic research or educational intervention. Selected proposals will be included in the center's summary grant proposal for its second competitive renewal of an interdisciplinary arthritis center program sponsored by the National Institutes of Health.

Abstracts should be one to two typed pages. For more information, contact Gordon Sharp, center director, at 882-8738, or Bernhard Singen, associate director, at 882-3996.

GYMS SET SPRING BREAK HOURS. Spring break hours for Brewer Field House and Rothwell Gymnasium are: March 12, noon to 8 p.m.; March 13, noon to 8 p.m.; March 14 through 18, 6 a.m. to 8 p.m.; March 19, noon to 8 p.m.; and March 20, noon to midnight. Regular weekday hours of 6 a.m. to midnight resume March 21. Regular weekend hours are 9 a.m. to midnight.

Nursing symposium examines ruling

A judge in the St. Louis County Circuit Court has ruled that a number of services routinely performed by nurses in Missouri can only be done by licensed physicians.

A recent nursing school symposium examining this ruling drew an audience of more than 200 people, the largest group ever hosted by the UMC school.

The turnout reflects the concern the court decision has aroused.

"What's at stake here is the ability of a physician to give nurses a standing order," says Mike Sanford, city health department director.

Sanford explains that if the ruling stands and is broadly construed, nurses would no longer be allowed to administer medicine, provide immunizations, or make examinations for venereal disease or pregnancy unless they were under the direct and immediate supervision of a physician.

The necessity of having a licensed physician present would greatly increase health-care costs.

Health officials across the state are alarmed, Sanford says.

He sees the situation as more of a problem between a few physicians and a few nurses, rather a clash between the two professions.

The Missouri Supreme Court will rule on the lower court's decision. — Tami Blankenburg

J-dean candidate interviewed

Journalism dean candidate Edward L. Mullins was interviewed on campus this week. Mullins,

associate dean of the School of Communication at the University of Alabama, has more than 30 years' journalism experience.

At the University of Alabama, he teaches editing, reporting, investigative reporting and communications research. Mullins also is active in the development and management of faculty research and service programs.

With the political science department, he founded and directs the Capstone Poll, a survey project in academic polling.

Previously, Mullins was an associate professor at the University of North Carolina, where he helped establish the Carolina Poll, a project similar to the Capstone Poll.

His non-academic experience includes reporting, sports writing and copy editing posts on several newspapers. In addition, he was managing editor of the *Temple (Texas) Daily Telegram* and editor of the *Fort Hood (Texas) Armored Sentinel*.

A prolific writer, Mullins has published numerous monographs, reports, articles and reviews. His text, *On-Line Editing*, will be released soon.

Activities planned especially for staff

Hear Verna Wormgear discuss life at Mizzou. Rap with the chancellor. Learn about "perks" you may be missing. Find out how UMC's athletes prevent injuries. See movies for 50 cents. Tour the campus.

All this and more is planned for Staff Recognition Week April 4 through 8.

Mary Davis, co-chair of the staff

recognition program committee, outlined the proposed events to enthusiastic Staff Council members last week. In addition to the above activities, plans include a talk on travel tips, health screenings, a fashion show and UMC cafeteria specials.

The committee hoped to iron out details this week.

Highlighting Staff Recognition Week is presentation, by the chancellor, of four \$750 Staff Recognition Awards. An award will be given in each employee category: administrative/professional, crafts/maintenance, secretarial/clerical and technical/paraprofessional. A total of 94 staff members have been nominated for the awards.

The Mick Deaver Memorial Award, for better communication and understanding between students and staff, also will be presented during Staff Recognition Week. For more information, contact Council Vice Chairwoman Freda McKee, 211 Jesse Hall.

In other matters, Carol Bruce, needs assessment subcommittee chair, discussed the group's upcoming survey. A random sample of staff in each of four categories will be sent confidential questionnaires early this month to identify their interests and needs.

Discussion of personal leave days was tabled to allow the Council time to review written comments it has received on the subject. Additional written comments may still be sent to Council Chairwoman Pat Ives at 1d32 Ellis Library. "We haven't heard from many staff in small offices, and previously a large group of those had expressed concerns," Ives says.

The Council also discussed its 1982 annual report, a copy of which will be sent to all staff members. The report includes a review of the Council's 1982 recommendations and activities, seeks suggestions and guidance from staff members and invites comments on the University's budget situation.

Staff Council's next meeting will be at 1 p.m. March 10 in S204 Memorial Union. Meetings are open to all staff members.

STAFF RECOGNITION DAY T O U R

I would like to take the following STAFF RECOGNITION DAY tour(s) on April 5:

MIZZOU WEEKLY

Vol. 4, No. 22

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and once a month during the summer by Publications and Alumni Communication, University Relations Division, 1100 Tiger Towers, 875-7132. News deadline is noon Friday the week before publication.

Advisory Board: Jim Brechbuhler, Gerald Brouder, Carol Bruce, Sandy Clark, Betty Crim, Jim Curtis, Bob Derryberry, Marjorie Marberry, Mary Miller, Keith Sanders, Lealure Tindall, Roy Utz, Joseph Vandepopliere.
Editor: Karen Worley
Assistant Editor: Carol Kirchner
Editorial Staff: Francine Parker

A & S faculty debate policy

Rather than raise class rank and test score requirements for admission to UMC, arts and science faculty last week recommended a policy based on high school curriculum and support information, such as transcripts, work experience and leadership roles.

The group recommends requiring the following high school courses by 1988: four units of English composition and/or literature, with emphasis on essay or theme writing; three units of mathematics; two units of laboratory science; two units of social studies; and two units of foreign language.

Faculty Council was scheduled to discuss the arts and science faculty proposal Thursday and plans to vote on admissions requirements March 24. According to UMC faculty bylaws adopted in 1974, Faculty Council has

authority delegated by the Board of Curators to determine minimum admissions requirements. The Board must be informed of those requirements and, as in all University matters, retains authority to make the final decision.

The current admissions policy requires the percentile sum of high school rank and standardized aptitude test scores to equal at least 75 for Missourians and 100 or more for out-of-state students.

The arts and science curriculum committee proposed the sum be 100 for all students. Committee Chair John David said a score of 100 would predict a 50-50 chance of earning the 2.0 grade point average required for good academic standing. The current requirement predicts a 50-50 chance of earning a 1.6 grade point average, which was required for

good academic standing when the policy was developed in 1970.

Arvarh Strickland, professor of history, objected to raising the required score: "The principal issue before us is not raising admission standards, but whether we want, again, to close the doors of this University to the black people of Missouri."

If a score of 100 had been required in fall 1981, 40.3 percent of UMC's black freshmen would not have been admitted. Only 14.5 percent of non-minority freshmen would have been affected.

"If we pass this motion (to require a score of 100) we are closing the doors on the aspirations of black men and women," Strickland said. "There is a cancer in this — and it's called racism."

His comments evoked applause from the 50 black students attending.

The committee's proposal included a provision for admitting students whose scores were less than 100,

David said. But one faculty member noted a policy that sets one group apart is discriminatory.

Howard Mancing, a member of the curriculum committee, presented the alternative proposal that the group adopted. "It was abundantly clear to a number of us on the curriculum committee that the (percentile score) proposal was inadequate and would have undesirable results."

Mancing's proposal calls for a faculty admissions committee to review applications, which would include high school transcripts, grade point averages, success rates of other students from the same school who attended the University, leadership positions, letters of recommendation, work experience and a statement from the applicant.

Screening the applications would be "lots of work, but it's worth it," Mancing said. "If we say it's impossible, all we do is perpetuate the myth."

Opportunities

Faculty

The following teaching and research positions are available at the University; however, all of the positions are dependent upon funding and enrollment. For more information, call the associate provost's office, 116 Jesse, at 882-2094.

Instructor of Anesthesiology—Three positions available July 1, 1983. Responsibilities include administering, directing and instructing clinical anesthesia for surgical procedures and diagnostic procedures, participating in the education and scientific activities of a teaching department and patient care and hospital-related activities. Candidate shall have completed board-approved training in anesthesiology, preferably board certified. Requires graduation from a U.S. approved school of medicine or osteopathy with ability and experience to supervise and instruct clinical anesthesia. Deadline March 15.

Acquisitions Librarian—available June 1, 1983. Responsibilities include selection activities, supervising, pre-orders, searching, preparing book orders, maintaining records and statistics, communicating with publishers and dealers, supervising support staff of law library technical services and responsibility for gifts. Special responsibility for preparing purchase orders, vouchers and bookkeeping concerning the book budget. Requires a master's degree in library science and specialization in law librarianship with emphasis in technical services. Deadline April 1.

Dean of agriculture and director of Agricultural Experiment Station—available by June 6, 1983. Responsibilities include overseeing operation of the College of Agriculture, the School of Forestry, Fisheries and Wildlife, the Missouri Agricultural Experiment Station and agriculture extension programs. Requires PhD or equivalent, administrative experience that includes fiscal responsibility and competence in directing personnel and budget management. Deadline April 1.

Instructor of English—available Aug. 20, 1983 to Aug. 19, 1984. Responsibilities include teaching three courses in the Intensive English Program and/or English Language Support Program, assisting in testing and orientation activities, coordinating social activities and field trips for program students and advising students on academic or personal problems. Requires MA in TESL or related area, native speaking ability in English and experience teaching ESL to adults in an academic setting, preferably in an intensive language program. Deadline May 1, 1983.

Assistant, Associate, or Professor of Veterinary Medicine and Surgery—one position, available July 1, 1983 to Aug. 31, 1983. Another available May 15, 1983, to Aug. 31, 1983. Responsibilities include participation in teaching of didactic

and clinical anesthesiology to VMII, VMIII and VMIV students in the professional curriculum; participation in research, extension, service and continuing education programs of the department; assist in the management and performance of the College's anesthesia programs, including professional and resident instruction; assist in management of the Intensive Care Unit. Some client contact is to be expected. DVM or equivalent degree is required. Advanced training and/or significant experience in the field of anesthesiology is required. Board certification (ACVA or equivalent) or board eligibility is desirable. Deadline May 15.

Assistant, Associate or Professor of Veterinary Medicine and Surgery—available May 15, 1983, to Aug. 31, 1983. Primary duties are teaching VMIII and VMIV students and participating in the clinical service at the Veterinary Medical Teaching Hospital and the Equine Center. DVM degree essential. Board certification or qualified to sit for the Veterinary Ophthalmology Boards and/or advanced degree is preferred. Candidate must show potential for teaching and research. Deadline May 15.

Assistant, Associate or Professor of Veterinary Medicine and Surgery—available July 1, 1983, to Aug. 31, 1983. Responsibilities include teaching didactic, clinic-oriented material to professional students, Equine Center clinical service, continuing education/extension, research, participating in the emergency service provided by the Equine Center and providing the necessary expertise for cases referred by Missouri practitioners. DVM degree or equivalent and diplomat status or board eligibility in the American College of Veterinary Surgeons and/or an advanced degree are required. Deadline May 15.

Assistant, Associate or Professor of Veterinary Medicine and Surgery—available July 1, 1983 to Aug. 31, 1983. Responsibilities include teaching didactic and clinic-oriented courses, instructing interns and residents in surgery, providing clinical services in general surgery and consulting services for referred cases from Missouri veterinarians and the department. Requires DVM degree or equivalent and diplomat status or board eligibility in the American College of Veterinary Surgeons. Prefer interest in orthopedic and soft tissue surgery. Deadline May 15.

Assistant professor/associate professor of physics—available August 1983. Responsibilities include both research and teaching as well as the following: development and continuation of active astronomical research program as primary investigator as well as potential collaboration with current faculty (outside funding for research to be sought aggressively); participation in present astronomy curriculum for both non-science students and physics/science majors, development of new undergraduate courses and graduate coursework for physics students who complete degrees with thesis work in astronomy, ability to supervise graduate thesis

work; and participation in present observatory program for general public. Requires a PhD in physics or astronomy. Candidate should have a demonstrated capacity for research of a sustained and quality level with expectation that such research will be supportable by federal or other external funding agencies. Postdoctoral experience is highly desirable. Deadline May 15.

Assistant professor, condensed matter experimentalist—available August 1983. Candidate will be expected to pursue a vigorous research program in condensed matter physics, obtain external funding for research, teach both undergraduate and graduate courses, participate in departmental and university-related service committees, and interact in research with several ongoing programs in the physics department. Requires a PhD in experimental condensed matter physics. Postdoctoral training is desirable. Research experience in neutron scattering, optics, X-ray scattering, surface physics or semi-conductor physics also is desirable. Deadline May 15.

Assistant Professor of Pharmacology—available Sept. 1, 1983, to Aug. 31, 1984. Responsibilities include teaching, establishing a laboratory and conducting research. Requires PhD or MD with two years or more of postdoctoral research. Strong background in insulin and/or lipoprotein receptor characterization, membrane transport, membrane-related enzymology or regulations of metabolism preferred. Deadline June 1.

Assistant Professor of Pharmacology—available Sept. 1, 1983, to Aug. 31, 1984. Responsibilities include teaching, establishing a laboratory and conducting research in neuropharmacology. Requires a PhD or MD with two years or more of postdoctoral research. Strong background in biochemical aspects of neuropharmacology preferred. Deadline June 1.

Staff

The following job openings at the University were approved and posted Monday, Feb. 28, and include the department where the vacancy exists. The openings are listed under the name of the personnel recruiting staff member handling the positions. For more information or to apply for a job, contact the appropriate recruiter at the Personnel Office, 309 Hitt St., at 882-4221. Salary codes follow each listing in parentheses.

CINDY MORRIS

Professional

Administrative Associate I (E-5), Medicine/Cardiology; **Associate Director (E-13)**, Counseling Services (deadline March 31); **Coordinator Student Financial Aid (E-7)**, Student Financial Aids; **Information Specialist (E-4)**, Cooperative Extension-Educ. Media; **Marketing Business Manager (E-10)**, University Press-UMca.

CINDY MORRIS

Technical

Health Physicist (E-10), Health Physics Svcs.; **Health Physics Technician (M-61)**,

Health Physics Svcs.; Industrial Hygienist (E-8), Environmental Health and Safety; **Radio Producer (E-4)**, Broadcast Media; **Reactor Operator (M-62)**, Research Reactor-UMca; **Research/Laboratory Technician (M-56)**, Anatomy; **Research Specialist (E-5)**, Pharmacology (deadline March 4); **Scientific Programmer/Analyst (E-8)**, Agriculture-Dean's Office; **Sr. Research Engineering Tech. (M-63)**, Research Reactor-UMca; **Sr. Research/Laboratory Tech. (M-59)**, Pharmacology (deadline March 4); **Radiology, Sinclair Research Farm-UMca**; **Steam and Water Distribution Specialist (E-9)**, Campus Facilities.

A. SUSAN JONES

Secretarial

Administrative Secretary (M-50), Home Economics Dean's Office; **Clerk Typist (M-51)**, Research Center; **Receptionist (M-53)**, Personnel Services; **Secretary (M-55)**, Alumni Relations, Arts and Science-Dean's Office, Development Fund, Personnel Services, Poultry Science; **Senior Secretary (M-57)**, Child Health (Jefferson City), UED-Social Work.

A. SUSAN JONES

Part time

Student Services Coordinator (E-7), Student Development (Legal Educator, Hours: 1-5 p.m. permanent); **Word Processing Operator I (M-53)**, Geology (effective March, 20 hours per week, permanent); **Word Processing Operator II (M-55)**, Pharmacology (Full time, temporary until April 30).

The following job openings were listed by the Health Sciences Center Personnel Office. For more information, call 882-8186.

ANN NADLER

Administrative/Professional

Administrative Dietitian, Nutrition and Dietetics; **Manager**, Nutrition and Dietetics, Staff Pharmacist, Pharmacy; **Senior Accountant**, Hospital Accounting; **Supervisor**, Medical Records.

PATY SCOTT

Clinical

Hospital Unit Clerk, Nursing Service; **Medical Records Transcriptionist**, Outpatient Department; **Patient Account Representative**, MPIP; **Secretary**, Personnel; **Senior Clerk Typist**, MPIP; **Senior Receptionist**, Nursing Service; **Senior Secretary**, Nursing Service.

GINA KINCAID

SANDRA PUNTENNEY

Nursing

Clinical Nurse I, Nursing; **IV Nurse**, Pharmacy; **Nurse Anesthetist**, Anesthesiology (2); **Staff Nurse**, Nursing (4); **Surgical Technologist**, Nursing.

LORI TANZER

Technical

Certified Respiratory Therapy Technician, Respiratory Therapy; **Occupational Therapist**, Occupational Therapy; **Senior Systems Programmer**, Hospital Computer Center.

Part time or Temporary

Data Entry Operator II, Pathology; **Hospital Unit Clerk (2)**, Nursing Service; **Senior Accounting Clerk**, MPIP (full time, temporary); **Student Assistant**, Nursing Service.

The Staff for Life

We're on call
at the University
Hospital and Clinics.

This Week

To list your department or division's events in Mizzou Weekly, write or call Sue Richardson or Debie Stone at Publications and Alumni Communication, 1100 Tiger Towers, 875-7132, by noon Friday. All events are free and open to the public unless otherwise noted.

4 Friday

Humanities Lecture: "Isben and Checkhov," Carla Waal, professor and chairman of speech and dramatic art, 11:40 a.m., Ellis Aud.

Forestry Seminar: "Introduction to Computing for Forestry, Fisheries and Wildlife," Jim Burroughs, science program analyst, 2:40 p.m., 2-6 Agriculture Bldg.

Fisheries and Wildlife Seminar: "White-tailed Deer Fawn Mortality—Missouri Ozarks," Kif Dalton, graduate student, 3:45 p.m., 112 Lefevre Hall.

Engineering Week: "Knighting Ceremony," 5 p.m., Francis Quadrangle.

Engineering Week: Honor Award Reception 6 p.m., Memorial Union Faculty-Alumni Lounge; banquet 6:45 p.m., N201-202 Memorial Union.

MSA Movie: "Young Doctors in Love," 7 and 9:30 p.m., Jesse Aud. \$1 in advance, \$1.50 at the door.

Astronomy Film and Observatory Viewing: "STS-1, First Flight Report," and "STS-1, Second Flight Report," 7 p.m., 114 Physics Bldg. Telescope viewing 8-10 p.m., Physics roof.

Gentry Studio Theatre: "The Dreamcatcher" by Jan Parenteau, 7:30 p.m., through March 5, Gentry Hall basement, \$1 at the door.

Student Ensemble Series: Percussion Ensemble, directed by Frank Krager, 8 p.m., Fine Arts Recital Hall.

MSA Midnight Movie: Three Stooges films, Jesse Aud. \$1 at the door.

5 Saturday

Law School Conference: "Freedom and Faith: A Conference on Law and Religion," workshops and speakers Lynn Buzzard, executive director of the Christian Legal Society in Oak Park, Ill., and Sister Dolores Brinkel, executive director of the Criminal Justice Ministry for the Archdiocese of Kansas City, Kan., 9 a.m.-5 p.m., 22 Tate Hall. For more information, call Ron Rogers at 445-5803. This conference is sponsored by the student chapter of the Christian Legal Society.

Baseball: UMC vs. Southern Illinois-Edwardsville, noon, Simmons Field.

Men's Basketball: UMC vs. Iowa State, noon, Hearn Center. Sold out.

MSA Movie: "Raiders of the Lost Ark," 2, 7, 9:30 p.m. and midnight, Jesse Aud. \$1 in advance, \$1.50 at the door.

Women's Basketball: UMC vs. Iowa State, 2:30 p.m., Hearn Center. Adults \$2, students \$1. Call 882-2386.

Graduate Student Recital: Joi Guinty, pianist, with Dave Spotts, cello, and Tae Morgan, violin, 3 p.m., Fine Arts Recital Hall.

Student Recital: Kris Edmonds, soprano, and Tim Bentsch, tenor, 7 p.m., Fine Arts Recital Hall.

6 Sunday

Baseball: UMC vs. Southern

Illinois-Edwardsville, 12:30 p.m., Simmons Field.

Drop-In Tour: 2 p.m., Museum of Art and Archaeology, 1 Pickard Hall.

Classic Film: "Hireling," 3 p.m., 106 Pickard Hall.

MSA Free Movies: "Beach Blanket Bingo" and "Girl Happy," 7 and 9:30 p.m., Memorial Union Aud.

University Film Series: "Olympia," part II, 8 p.m., Ellis Aud.

7 Monday

Women's Center: "Once Upon a Time..." features storytelling with Zoe Baur, noon, Gentry Hall basement.

Biochemistry Seminar: "Expression of the Ferritin Genome," Hamish Munro, director of the U.S. Department of Agriculture's Human Nutrition Research Center on Aging at Tufts University in Boston, 2 p.m., 322 Chemistry Bldg.

Invited Researcher Series: "Practice Based on Research: What Is Involved in Using Research to Improve Practice?" Jo Anne Horseley, professor of nursing and facilitator of the Office of Research Development and Utilization at the University of Oregon, 2:30-4:30 p.m., S261 School of Nursing.

Biotechnology Seminar: "Nutritional Implications of Intestinal Parasitism," D. Baker of the University of Illinois, 3:40 p.m., Memorial Union Aud.

Student Ensemble Series: Symphonic Band, conducted by Dale Kennedy, 8 p.m., Jesse Aud.

Archaeology Institute of America Slide Lecture: "Teotihuacan's Commercial Presence at Maticapan (Veracruz) Mexico: The Recent Evidence," Richard Diehl, professor, 8 p.m., Geology Aud. Informal reception after lecture.

8 Tuesday

Baseball: UMC vs. Lincoln, 12:30 p.m., Simmons Field.

Human Resource Development Program: "Teamwork in the Office," for University employees, 1-4 p.m. through March 9, Staff Development Conference Room, Lewis Hall. For details, call 882-4859 or 882-2601.

Chemical Engineering Seminar: "Stability of Adiabatic and Trickle-bed Reactors," C.H. Barkelew of the Shell Development Co. in Houston, 3:40-4:30 p.m., 1034 Engineering Bldg.

Career Workshop: "Your Professional Image: Dressing for Success," 3:40-5 p.m., 85 Gannett Hall.

International Colloquium: "Malaria Research at UMC," Theodore Green, associate professor of veterinary microbiology, 3:40-5 p.m., International Center Lounge, lower level of Gentry Hall.

Pharmacology Seminar: "HPLC-EC: Application to Urinary Catecholamines," John T. Turner, research associate in pharmacology, 4 p.m., M538 Medical Sciences Bldg.

Glaucoma Research: "Laser Effects on the Trabecular

Meshwork," David K. Dueker, associate professor of ophthalmology, 4:30 p.m., Institute of Ophthalmology Conference Room.

Access Office for Students with Disabilities: Meeting of the Columbia Committee on Employment of the Handicapped, 6:30 p.m., S208 Memorial Union.

Black Culture Center Film: "Ahead of the Crowd," 7 p.m., 823 Virginia Ave.

MSA Free Movie: "Gidget," 7 and 9:30 p.m., Memorial Union Aud.

Men's Basketball: Big Eight Tournament, first round, 8:05 p.m., Hearn Center. \$4 adults, \$2.50 students.
