

# MIZZOU WEEKLY

University of Missouri-Columbia

September 2, 1983

Swine have their day Sept. 7. See calendar, page 8.

## Group identifies six major issues

*Six issues are central to the future of the University, the campus long-range planning*

committee decided at its Aug. 23 meeting at the Alumni Center.

Those six issues, including questions that communicate the sense of the issues, were submitted to the Board of Curators' long-range planning committee.

The issues are:

✓ **Mission.**

What are the purposes of the University?

Should the purposes change in the next decade?

In what ways should this University strive to be unique?

What is the role of extension in making us unique?

What values are and should be evident?

✓ **Structure and management.**

Should decision making be centralized or decentralized?

What is the logic of a four-campus system?

What is or should be the role of the Board of Curators when it comes to campus decisions?

✓ **Programs and students.**

How are priorities established?

Who should establish program priorities?

Whom should the University serve?

What should be the relationship between programs and resources?

To what extent should service and research be viewed as essential?

✓ **Financing.**

Who should pay for higher education?

Should those who have scholastic, but not financial ability be accommodated? How?

How is the legislature to be convinced to view higher education as a higher priority?

What is the long-term future of federal and privately supported student financial aid, and how will that influence the University's ability to serve?

✓ **Evaluation.**

How should the University measure performance?

How do we attain, maintain, reward and measure quality and excellence?

What are the variables to be used in assessing wheth-

er we are accomplishing our mission?

✓ **Change.**

What mechanisms can be put into place to ensure adaptability?

What external forces are likely to require change?

What are the "givens" that may impede or temper change?

Attending were all 13 members of the group, which now has met three times. They are: Chancellor Barbara S. Uehling; alumnus Eugene Leonard, senior vice president of Mercantile Bank Corp. in St. Louis; Sandra Gault, associate professor of special education; Bill Fisch, professor of law; Van Williams, former curator and present president and chief executive officer of Commercial Bank in Liberty, Mo.; Don McGlothlin, chair and professor of music; Ron Stewart, medical student; Richard Stehnach, industrial engineering student; Raymond Young, retired MFA Inc. executive; Bill Day, professor of animal science; Fran Malloy, administrative associate II in the Graduate School and Office of Research; and Libby Meiderhoff, manager of Accounting Services. Jerry Brouder, associate provost, provides staff support.

Peak demand in megawatts

1980

1983

1983

projected had air conditioning stayed on.

On Aug. 25, temperatures in the 100-degree range and the influx of students returning to campus contributed to a peak-energy demand of more than 27 megawatts. When notified at 10 a.m. that surplus energy was unavailable, UMC officials began shutting off air conditioning. Three hours later, peak demand was recorded at 25.66 megawatts, a level that cost UMC about \$300,000, Stucky says. Still, he adds, reducing the peak by more than one megawatt saved UMC about \$500,000.

By reducing energy use Aug. 26, UMC held the line on peak demand when it could have hit more than 29 megawatts, higher than ever before on campus, says Alan Warden, assistant director of Campus Facilities. He estimates exceeding the city contract by five megawatts would have cost UMC \$870,000.

"That's why we shut off air conditioning," Stucky says. "The peak demand occurs in the afternoon, when temperatures are high and air conditioning is in use. It's unfortunate that we must diminish energy use when we need it most, but air conditioning must be shut off at such times to avoid exceeding the peak capacity."

Officials shut off air conditioning according to a priority list devised when a UMC power plant turbine was out of commission earlier this summer, anticipating demand could exceed capacity. The turbine was repaired in July, before that occurred, but the list still proved valuable, Stucky and Warden agree.

If temperatures do not exceed 95 degrees, Stucky says, the campus should be able to meet energy demands without shutting off air conditioning. "If we get below 95 degrees, we'll all be able to breathe easier."

## Campus sweats out peak energy alert

*Air conditioning was shut down during peak demand hours in some campus buildings last week to avoid a substantial increase in energy*

costs, says Duane Stucky, vice chancellor for administrative services. Some 16 buildings were affected Aug. 25, and 17 Aug. 26. Air conditioning remained on in research areas.

Meanwhile, Tucker, Physics, Chem-

istry and Curtis buildings were without electricity Aug. 29 because of an underground cable problem that left 13 other campus buildings without power for one hour.

Air-conditioning units were turned

off last week in an effort to keep peak-energy demand at or below UMC's capacity of 24 megawatts. UMC has contracted for four megawatts of capacity from the city on an annual basis and can generate about 20 at its power plant.

When energy demands exceed 24 megawatts and UMC must purchase additional megawatts from the city, there is no penalty if surplus energy is available. If none is available, however, there is a substantial penalty: UMC must pay for a greater guaranteed capacity—the new peak-demand amount—during the entire contract year of June 1, 1983, to May 31, 1984. Guaranteed capacity and actual energy use are the two roughly equal factors in energy cost.

## REGISTER FOR PIGSKIN PRESCHOOL

Students and faculty in the child and family development department will care for children ages six weeks to eight years during home football games at the Pigskin Preschool. Programs begin at noon on home game Saturdays in Stanley Hall and are \$8 per session or \$48 for all seven sessions if paid in advance.

To register, call Sherri Griffin at 882-4035.

## FAMILIES WANTED

Nursing and medical students need families to interview.

Supervised by faculty, third-year nursing students will perform health/wellness assessments, teach new ideas to promote health and plan health-related family activities. For more information, call Laura Lewallen at 882-6403 by Sept. 6.

Family interviews by medical students give them a better sense of health problems which normal families face. For more information or to sign up, call Vicki Caselman in the behavioral sciences section of the family and community medicine department at 882-1584.

## HAVE A BOWL

The Faculty-Staff Bowling League needs some new full-time members. The league bowls at 6:30 p.m. Mondays August through May at Town and Country Lanes. Cost per session is at least \$4.50. For more information, call Russ Fieg at 882-7594 or Gary Zwonitzer at 882-7629.

## SECRETARY SEEKS TRANSPORTATION

Nancy Bond needs a ride from Auxvasse or Fulton to Columbia and return. She is willing to share gas expenses.

Bond, a secretary in the Educational and Counseling Psychology Department, 16 Hill Hall, works from 8 a.m. to 5 p.m. Monday through Friday. Her telephone number is 882-7731.

## Paper sports new features, design

Increased reader involvement and a snappier appearance are new attributes of Mizzou Weekly, redesigned this summer in response to a recent readership survey.

Content changes, which were reviewed with Mizzou Weekly's faculty-and-staff advisory board, emphasize increased reader participation. Through a Forum column, faculty and staff express opinions on campus issues. If you have an idea for Forum, call editor Karen Worley at 875-7132. Letters to the editor also are welcome. Letters should be typed and double spaced, if possible, and have a 500-word limit. Bring them to Publications and Alumni Communication, 1100 Tiger Towers.

Another reader service is a Q&A column that provides answers to questions about University matters and policies. Readers who send questions to Mizzou Weekly may use the above address and should include their names and phone numbers in case clarification is needed. Names of those who submit questions are not published nor released.

Another new column, Moneyline, supplies useful tips on efficient money management. Again, readers who submit ideas should include names and phone numbers.

Significant accomplishments of fac-

ulty and staff are highlighted under the headings of Mizzou People and Mizzou in the Media, brief descriptions and excerpts from articles about UMC published in media nationwide. Faculty and staff may send information about the accomplishments of themselves or others to Mizzou Weekly for consideration. Examples of appropriate items include presentations of international papers, the publishing or editing of books and election to state or national offices.

To improve readability, Jack Allen, manager of graphic services in the Publications and Alumni Communication office, redesigned Mizzou Weekly's format with a new typeface, bolder headlines, and more emphasis on informational graphics and photographs. "The goal was to make a more colorful-looking publication that was more readable," he says.

The new format includes placing short stories at the top of inside pages, where they're easy to find. Brief announcements will be grouped in a column called For the Record.

Besides more interesting graphics, the new format also incorporates efficient use of space. The redesigned calendar page, for example, contains 25 percent more information.

Mizzou Weekly welcomes readers' comments concerning content or format. Send your comments to the staff at 1100 Tiger Towers.

## Equal opportunity plan reports 1982 progress

*UMC's equal opportunity plan is on track but hasn't yet arrived at its destination, says Alton Zanders, director of equal opportunity.*

An August report submitted to the United States Department of Education's Office for Civil Rights shows UMC surpassed its fall 1982 numerical projection for minority undergraduate enrollment and its professional program minority enrollment projection. In addition, the number of blacks awarded baccalaureate and advanced degrees has increased since UMC initiated the five-year Plan for Continuing the Achievement of Equal Opportunity for Students and Faculty in 1981.

Furthermore, UMC has increased the number of black faculty despite an overall reduction in faculty.

While the report lists no new goals for hiring black faculty in 1982, eight new black doctoral faculty were offered jobs during the past academic year. Six of those were hired under the Faculty Affirmative Action Assistance Program, another through regular recruitment activities.

In the current academic year, the program has committed funds to hire black faculty in accountancy, speech and dramatic arts, music and journalism.

In some areas of the equal opportunity plan, Zanders says, projections have not yet been achieved. First-time black freshmen numbered 199 in 1982, just 11 fewer than had been projected. The report termed progress in black graduate student enrollment "extremely slow." However, Zanders says, "Eventually we will reach the goals."

The equal opportunity director notes that Mizzou's efforts conducted by the admissions office to achieve undergraduate enrollment goals have produced good results. In fall 1982, a total of 721 black undergraduates were enrolled, five more than projected.

Mizzou's minority enrollment efforts include a number of activities such as workshops for high school and community college counselors, summer programs for veterinary medicine, journalism and agriculture students, and a Higher Education Motivation Program to inform junior high students of career opportunities.

Of all first-time black freshmen in fall 1982, some 40 percent had participated in the Minority Visitation Program that enables top students to visit campus.

Compared to previous years, the number of minority students contacted during high school visits and college

fairs increased by 25.3 percent; the number of prospective minority transfer students who conferred with UMC admissions representatives was up 210 percent.

Seven black freshmen participating in the Inroads program of summer internships and year-round counseling and training received engineering scholarships, while Mizzou enrolled 15 National Achievement Scholars, black students who rank in the top 5 percent of all high school students.

Efforts by the Graduate Students Affairs Office to achieve graduate and professional minority enrollment goals include visiting colleges nationwide, distributing special literature, a graduate student newsletter and the Graduate and Professional Study Program to attract minority and female graduate students to UMC.

Despite these efforts, black graduate student enrollment fell short of 1982 projections by 64 students. The 1982 enrollment of black professional students, on the other hand, surpassed projections by 11 students.

Zanders says an evaluation of efforts in the graduate area is possible, but would not necessarily result in changes.

Data on retention, another aspect of the equal opportunity plan, will be presented to the civil rights office in October, after fall enrollment figures are available.

## Two divisions merged

*The Division of University Relations was combined with the Division of Alumni Relations and Development in August,*

with Guy H. Entsminger, vice chancellor for Alumni Relations and Development, heading the division.

The organization is an interim measure that will allow Chancellor Barbara S. Uehling to review the development and public relations functions before a permanent reorganization at a later date.

Thomas D. Schultz, assistant vice chancellor for alumni relations, was named interim director of University Relations, succeeding Sharon L. Yoder, who resigned to pursue graduate studies

in the School of Journalism. He retains his duties as assistant vice chancellor and also will oversee the operations of the departments of news services, publications and alumni communication, visitor and guest relations, and special projects.

In announcing the merger, Uehling said, "The consolidation of these areas will allow us to coordinate our public relations functions with the outreach that is intrinsic to fund raising and alumni relations."

Park your bicycle at racks provided at various locations on campus. Bicycles parked elsewhere or chained to trees or benches may be impounded.

Don't take bicycles into buildings except in authorized areas.

The appeal process for alleged violators of the bicycle code is detailed in the University's Traffic and Parking Regulations. Copies of those regulations, plus brochures with complete bicycle code information, are available at Parking Operations, 107 Swallow Hall.

## Bikers beware!

Be forewarned. University police officers are enforcing the campus's bicycle code, starting this semester.

First, a city ordinance requires you to register your bicycle. This can be done at any Columbia fire station.

Bicycle riders are required to obey all traffic control signals and markers as well as observe and obey applicable state, city and campus regulations.

Vol. 5

No. 1

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of University Relations Division, 1100 Tiger Towers, 875-7132. News deadline is noon Friday the week before publication.

Advisory board: Jim Brechbuhler, Gerald Brouder, Carol Bruce, Sandy Clark, Betty Crim, Jim Curtis, Bob Derryberry, Marjorie Marberry, Mary Miller, Keith Sanders, Lealure Tindall, Roy Utz, Joseph Vandepoliere.

Editor: Karen Worley  
Assistant editor: Carol Kirchner  
Staff writer: Diane Caldwell  
Photo editor: Larry Boehm

### NEW CURATOR

Gov. Kit Bond has appointed Charles E. Kruse, a Dexter, Mo., farmer, to the Board of Curators to replace Kenneth R. Heath, who died in a July farm accident.

Kruse's appointment, which expires Jan. 1, 1989, must be approved by the state Senate.

Kruse was an agronomist at the University Delta Research Center in Portageville, Mo., from 1970 to 1975.

### RESEARCH CENTER DEDICATION SEPT. 9

Orville Bentley, U.S. Department of Agriculture assistant secretary, will be among dignitaries attending the Sept. 9 dedication of the Animal Sciences Center.

Others include Gov. Kit Bond, Board of Curators President William Cocos, UM President James C. Olson and Chancellor Barbara S. Uehling.

The ribbon-cutting ceremony will be held at 12:30 p.m. in the Trowbridge Livestock Center adjacent to the Animal Sciences Center. Tickets for an 11:30 a.m. barbecue cost \$6.50 and must be purchased immediately from Charles E. Campbell, 2-4 Agriculture Building.

Duane Dailey photo

### MISSOURI MULE MANIA

The Missouri mule is alive and kicking at Mizzou.

At the College of Veterinary Medicine, a campaign is under way to obtain a well-broken team of the animals, an antique wagon and all the accouterments.

Students will get a chance to work with the animals, and officials and University leaders will be chauffeured by them.

The college is seeking a major corporate gift to help acquire the team. Already, a harness has been pledged and Louise Mathews of St. Louis has donated resources to purchase a wagon.

Across campus, agricultural

photojournalist Duane Dailey and Professor Melvin Bradley have teamed up to create an oral and photographic history of mules and their owners, called "Missouri Mules, Then and Now."

Not to miss the mule mania, English Professor Gilbert Porter spent the summer interviewing Missouri farmers for a project called "Jokes, Tales and Ballads of the Missouri Mule."

Fans of both mules and horses will convene at the Meramec Valley Draft Horse, Mule and Craft Festival Sept. 24. For details, call Bradley at 882-7835.

# JOBS

The following teaching and research positions are available at the University; however, all of the positions are contingent upon funding and enrollment. For more information, contact the appropriate individual listed below.

**Agriculture dean's office**, associate dean and director of resident instruction, deadline Sept. 15. Contact Roger L. Mitchell, 882-3846.

**Center for Independent Study**, instructor and course development specialist, deadline Oct. 1. Contact Roger G. Young, 882-6431.

**Chemical engineering**, post-doctoral fellow, deadline Sept. 23. Contact Rakesh Bajpai, 882-3708.

**Chemistry**, chair and professor, deadline Sept. 30. Contact John P. McCormick, 882-8210.

**Child health**, assistant professor of pediatric cardiology, deadline April 30. Contact Giulio Barbero, 882-4932.

**Child health**, assistant/associate professor of pediatric endocrinology, deadline Jan. 1. Contact Giulio Barbero, 882-4932.

**Child health**, assistant professor of neonatology, deadline April 30. Contact Giulio Barbero, 882-4932.

**Engineering Experiment Station**, research associate, deadline Sept. 20. Contact J.C. Lysen, 882-4486.

**Family and community medicine**, associate/full professor, deadline Sept. 30. Contact Jack M. Colwill, 882-2996.

**Geology**, assistant professor with expertise in exploration geophysics, solid-earth geophysics and analytical structural geology. Contact Tom Freeman, 882-6673.

**Geology**, assistant professor with expertise in hydrogeology or sedimentology. Contact Tom Freeman, 882-6673.

**History**, associate professor with specialization in modern German history, deadline Dec. 1. Contact chair, German Search Committee, history department, 882-2068.

**History**, assistant professor with specialization in modern British history. Deadline Dec. 1. Contact chair, British Search Committee, history department, 882-2068.

**Industrial engineering**, assistant, associate or full professor with interest in industrial and societal system problems. Contact Michael Leonard, 882-2691.

**Libraries**, librarian II or III in art, archaeology and music, deadline Dec. 1. Contact Pat Burbridge, 882-4701.

**Marketing**, assistant professor with interests in consumer behavior marketing research and marketing management, deadline Dec. 1. Contact Donald L. Shawver, 882-2766.

**Mechanical and aerospace engineering**, professor and chair, deadline Oct. 15. Contact David Wollersheim, 882-6560.

**Medicine**, dean, deadline Oct. 15. Contact chair, Medicine Dean Search Committee, 882-1566.

**Medicine**, associate/full professor and director of pulmonary diseases, deadline July 1. Contact Richard Martin, 882-7949.

**Medicine**, assistant/associate professor of infectious diseases, deadline May 1. Contact E. Dale Everett, 882-3107.

**Medicine**, assistant clinical professor of infectious diseases, 50 percent FTE, deadline May 1. Contact E. Dale Everett, 882-3107.

**Microbiology**, assistant professor, deadline Nov. 1. Contact Richard A. Finkelstein, 882-4117.

**Microbiology**, research associate, two openings, deadlines Sept. 30 and Nov. 30. Contact Richard A. Finkelstein, 882-4117.

**Museum of Art and Archaeology**, associate museum curator (conservator) and adjunct instructor, deadline Oct. 1. Contact Ruth

Witt, 882-3591.

**News-editorial**, instructor, deadline Nov. 1. Contact Daryl Moen, 442-3161.

**Pathology**, associate/full professor, deadline March 31. Contact John F. Townsend, 882-1121.

**Philosophy**, assistant professor, deadline Dec. 1. Contact John Kultgen, 882-2871.

**Psychology**, associate/full professor of experimental psychology, deadline Jan. 1. Contact Sam Brown, 882-7093.

**Romance languages**, assistant professor of Spanish, deadline Dec. 1. Contact Edward Mullen, 882-6083.

**Veterinary microbiology**, assistant/associate/full professor, deadline Dec. 31. Contact D.G. Thawley, 882-7863.

The following staff openings at the University were approved and posted Monday, Aug. 29, and include the department where the vacancy exists. The openings are listed under the name of the personnel recruiting staff member handling the positions. For more information or to apply for a job, contact the appropriate recruiter at the Personnel Office, 309 Hitt St., at 882-4221. Salary codes follow each listing in parentheses.

#### JANE CORREIA

**Professional Associate director** (E-13), Residential Life (Food Service), deadline Nov. 1.

**Continuing education coordinator** (E-6), Child Health-Missouri Genetic Disease Program, located in Jefferson City, deadline Sept. 9.

**Director** (E-14), Personnel Services, deadline Sept. 2.

**Director**, Purchasing and Real Estate Business Management-UMca.

**Facilities project assistant** (E-6), Facilities Management-UMca.

**Manuscript specialist** (E-4), Western Historical Manuscript Collection-UMca.

**Senior personnel associate** (E-7), Employee Benefits/Personnel Information System-UMca.

**Visual communications specialist** (E-8), University Relations-UMca, deadline Sept. 15.

#### ROY WILLIAMS

**Research/service Animal surgical technician** (M-58), Animal Sciences Center.

**Research specialist** (E-5), Medicine/Microbiology.

**Senior research/laboratory technician** (M-59), Medicine/Hematology, Medicine/Microbiology, surgery, UED-Agronomy.

#### CAROL WAITS

**Computer/technical Production analyst** (E-6), Administrative Computing (rotating shifts).

**Senior electronic technician** (M-62), Electrical Engineering.

#### Full time/clerical

**Clerk** (M-52), Dalton Research Center (75 percent FTE).

**Clerk typist** (M-51), Health Services Management (75 percent FTE), Alumni Development and Records.

**Clerk typist II** (M-53), Animal Science, Educational Administration (60 to 100 percent FTE), Vice Chancellor for Student, Personnel and Auxiliary Services.

**Data entry operator I** (M-53), Purchasing. **Secretary-stenographer** (M-54), Child Health (75 percent FTE, 9 a.m. to 4 p.m.)

**Senior clerk typist** (M-54), Electrical Engineering, Mathematics, Agricultural Economics.

**Senior stenographer** (M-54), Surgery, Vice Chancellor for Alumni Relations and Development, MIP (position in St. Louis).

**Switchboard operator-UMca** (M-53), Sinclair Research Farm.

#### Part time/temporary

**Clerk typist II** (M-53), Ag Research Operation-South Farms (20 hours a week, 1 to 5 p.m., until January 1984)

**Library assistant I** (M-57), Library (20 hours a week permanent, varied hours).

**Student assistant-clerical**, Curriculum and

Instruction (20 hours a week permanent).

**Student assistant-service**, Extension Vehicle Services (Monday, Wednesday and Friday mornings, Tuesday and Thursday afternoons).

**Student assistant-technical**, Surgery (30 hours a week permanent).

#### A. SUSAN JONES

**Secretarial Administrative assistant** (M-59), Health Services Management.

**Administrative secretary** (M-59), Medicine/Immunology-Rheumatology.

**Chief accounting clerk** (M-57), Biological Sciences.

**Data entry operator II** (M-55), Extension-UMca.

**Library clerk II** (M-53), Health Sciences Library, Technical Services Division (Catalog Maintenance Section).

**Secretary** (M-55), Academic Assistance Program, Child Health (60 to 80 percent FTE), Child Health, Civil Engineering, Computing and Communication Systems, Dalton Research Center.

**Senior clerk** (M-55), Campus Facilities (hours 4 p.m. to midnight).

**Senior secretary** (M-57), Biological Sciences, Medicine/Hematology-Oncology, School of Medicine-Dean's Office.

The following job openings were listed by the UMC Hospital and Clinics Personnel Department. For more information, call 882-8186.

#### ADMINISTRATIVE/PROFESSIONAL

**Clinical dietitian**, Nutrition and Dietetics.

**Computer project manager**, Computer Center.

**Information specialist**, Public Relations and Development.

**Manager, Technical Services**, Hospital Computer Center.

**Staff chaplain**, Pastoral Care (deadline Oct. 14).

**Supervisor**, Insurance-University Physicians.

#### CLERICAL

**Accounting clerk**, MPIP.

**Clerk typist**, Medical Records.

**Clerk typist II**, Medical Records.

**Collections clerk**, MPIP.

**Hospital unit clerk**, Nursing (2).

**Medical records coder**, Medical Records.

**Medical records transcriptionist**, MPIP-Clinics.

**Secretary**, Linen Services, Pathology, Nursing.

**Secretary stenographer**, Medical Records.

**Senior accounting clerk**, Patient Accounts.

**Senior clerk**, Nursing Service, Plant Engineering.

**Senior clerk typist**, Medical Records.

#### NURSING

Call 882-8701.

**Administrative nurse I** (2), Nursing.

**Clinical nurse I**, Nursing.

**Nurse anesthetist** (3), Anesthesiology.

**Staff nurse** (15), Nursing.

#### TECHNICAL

**Audiologist**, Audiology.

**Certified orthotist**, Prosthetics and Orthotics.

**Computer programmer II**, Radiology.

**Hospital security officer**, Security.

**Occupational therapist** (2), Occupational Therapy.

**Radiology specialty technologist**, Radiology.

## FACULTY-STAFF TENNIS SINGLES

SOCCER	MAR. 12	APR. 4	APR. 11

UP, ALL TIME  
1 ROTHWELL  
2 STUDENT

"Students are the ones that continually bring a fresh perspective," says Sandra Gault, above, associate professor of special education. "Their constant questioning keeps us honest and reality-oriented. They're putting us on the line to be accountable for the quality of instruction and advising." Students are the No. 1 reason we're here, says cashier Rowena Sprouse, right, because "this is their place, their campus, their schooling and their goals." Sprouse says she understands when students get frustrated with the red tape of registration. "It's hot out and they're tired. I try to help them as best I can."

Photos by Gina Setser  
Story by Carol Kirchner

Nellie Jeffries, a senior secretary in the School of Journalism placement office, is thrilled when students land jobs. "I just feel like they're my own," she says. When the job hunt is not so successful, Jeffries offers encouragement. "Kids need to know that just because they didn't get a job offer from one place, it's not the end of the world. One will come along that's really right for them." Some graduates have shown appreciation for Jeffries' assistance by sending her flowers when they find that "really right" job.

"Students make you think about things you had taken for granted, that you thought you understood," says Peter Markie, above, associate professor of philosophy. He thoroughly enjoys the challenge: "I can't think of anything else I'd want to do." Ira Papick, left, associate professor of mathematics, says his main function is to show students the excitement of learning. "I try to turn them on to the subject," says the enthusiastic Papick, who requires each of his students to drop by his office to visit during the semester.

Amid classes, deadlines, reports, meetings and seemingly endless episodes of telephone tag, it's easy to let the prime reason we're here slip our minds.

Some faculty and staff need no reminding—they're here to serve students. They hold this philosophy: The University was created for students, and students are the University.

With these faculty and staff, students come first. They're...

# Why we're here

# FOR THE RECORD

**HOLIDAY:** All facilities in Memorial Union and Brady Commons will be closed Labor Day weekend, Sept. 3, 4 and 5. Regular schedules will resume Sept. 6.

**HOURS:** Fall semester hours for the Brewer-Rothwell facility will be as follows: 7 a.m. to 11:45 p.m. Monday through Friday; and 9 a.m. to 11:45 p.m. Saturdays and Sundays.

**CLASS:** Music 8, a beginning piano class, will

be offered from 6:30 to 8:30 p.m. Mondays, Sept. 12 to Dec. 5 in 1 Stewart Hall. To enroll in the course, call Carl J. Pöehlman at 882-7460 by Sept. 9.

**TICKETS:** Football season tickets in 1983 are discounted 30 percent for full-time faculty and staff. A season ticket costs \$62.50. To order, call 882-2386.

**LIBRARY:** Ellis Library has announced its fall schedule. Weekdays except for holidays, finals week, and semester breaks, the library is open 7:30 a.m. to 11 p.m. Saturday hours are 9 a.m. to 9 p.m. The library is open 1 to 11 p.m. Sundays.

The library will be closed Sept. 5, Nov. 24 to 25, Dec. 18, Dec. 24 to 26, Dec. 31 to Jan. 2, Jan. 8 and Jan. 15.

The library will observe the following special hours during the fall semester:  
7:30 a.m. to 5 p.m. Nov. 23;

1 p.m. to midnight Dec. 4;  
7:30 a.m. to midnight Dec. 5 to 9;  
9 a.m. to midnight Dec. 10;  
1 p.m. to midnight Dec. 11;  
7:30 a.m. to midnight Dec. 12 to 16;  
9 a.m. to 5 p.m. Dec. 17;  
8 a.m. to 5 p.m. Dec. 19 to 23;  
8 a.m. to 5 p.m. Dec. 27 to 30;  
8 a.m. to 8 p.m. Jan. 5, 9 and 12;  
8 a.m. to 5 p.m. Jan. 3, 4, 6, 10, 11 and 13; and  
9 a.m. to 5 p.m. Jan. 7 and 14.

**ID CARDS:** UMC employees with FTE of 75 percent or greater need ID cards. The cards are made from 8 to 9:30 a.m. and from 3:30 to 5 p.m. weekdays at Personnel Services, 309 Hitt St.

ID cards for UMC Hospital and Clinics employees are processed from 1:30 to 4 p.m. weekdays in the Medical School auditorium.  
For more information, call 882-4221.

# Q&A

**Q. Are the Faculty Council and Staff Advisory Council planning to get together to explore early retirement packages for both faculty and staff? If so, are the meetings "open" to each segment of the University community for faculty and staff input?**

**A.** Although both the Faculty and Staff councils are interested in early retirement, it does not appear that they will work together on the issue this fall.

Pat Ives, chair of the Staff Advisory Council, says she has expressed interest to the Faculty Council in working jointly on retirement, and says she plans to bring it up again.

David Leuthold, chair of the Faculty Council, however, feels that work on faculty early retirement as a career alternative has been so complicated that it will not be possible for the two groups to get together in the near future.

The Faculty Council has asked the Provost's office to form a committee to look into developing an early retirement plan. It would be a legal alternative for faculty who feel trapped in their present positions, but one that would not be so attractive as to lure the best faculty into retirement, Leuthold says.

All Faculty and Staff council meetings are open.

**Q. What is the annual rate of return for University investments, and how are they invested?**

**A.** Funds in the general investment pool are invested in certificates of deposit and government securities, says University treasurer Don Holm. For fiscal year 1981-82, the latest year for which figures are available, the average rate of return was 14.7 percent.

**Q. How can a faculty or staff member obtain a pass that will allow a guest to use the University swimming pool and training facilities?**

**A.** According to Bernadine Vehaven, secretary in Recreation/Intramurals, a one-day pass for use at the Natatorium can be purchased at the Office for Student Development, 106 Rothwell, for a \$3 fee.

The faculty or staff member must accompany their guest to 106 Rothwell and present their ID to purchase the pass. They also must accompany their guest when using the pass.

All guests must be 16 years of age or older and present ID when using the pass.

**Q. Will Conley Avenue be closed when Ellis Library expands? How will emergency vehicles reach buildings in that vicinity?**

**A.** The planned expansion of Ellis Library would require closing Conley Avenue between Ninth and Hitt streets. But emergency vehicles still will have access to that area of campus, says Mike Haggans, director of facilities planning and development. "Emergency vehicles can drive across malls to reach a building if the need exists," he says. "The people in the fire department know how to get there."

Send in your questions about campus matters to *Mizzou Weekly*, 1100 Tiger Towers. Please include your name and telephone number so we can reach you if necessary. Your name will not be published.

## UNIVERSITY OF MISSOURI-COLUMBIA CONCERT SERIES 1983 SERIES 1984

# *The Staff for Life* CARES ABOUT YOUR FAMILY'S HEALTH

Photo by Mike Desantis

At the University of Missouri-Columbia Hospital and Clinics, we have a special room where children visit to hold their new baby sister or brother for the first time. We think a family sharing the warmth of a new baby is a healthy event. The Staff for Life likes to

help keep families healthy in many ways. We will be offering Campus Health Screenings and Wellness Programs on campus again this year. Our Emergency Center Preregistration program also is available to you and members of your family. And because you're part of

the UMC campus family, you can take advantage of your 10 percent discount for all hospital, emergency, out-patient and physician charges at UMC Hospital and Clinics. Prescriptions written by UMC physicians are available to you at a significant discount as well.

**FROM YOUR FAMILY'S HEALTH TO YOUR FAMILY'S BUDGET,  
THE STAFF FOR LIFE IS HERE TO HELP.**

## Staff Council elections to fill five positions

Five Staff Council positions will be up for election in November. Council members are elected to three-year terms by UMC administrative, service and support staff. They serve as an advisory council to the chancellor.

Terms expire this year for Jim Curtis, senior mechanic, technical/paraprofessional representative; Bud Kempf, plumber, crafts/maintenance representative; Freda McKee, administrative secretary, secretarial/clerical representative; and Marjorie Marberry, medical school budget and payroll manager, administrative professional representative.

Nomination forms for these positions will appear in upcoming issues of Mizzou Weekly.

## Savings

For staff and faculty who would like home delivery of Columbia's only morning newspaper we offer special rates this month only.

The Columbia Missourian will be delivered to your office or home each Tuesday through Sunday morning to help you start each day in an informed way.

A publication of the Journalism School, the Columbia Missourian has served the community since 1908. This year the Missourian is also celebrating 75 years of service to the journalism profession.

Through these years the Columbia Missourian has provided the laboratory for students bent on a communications career. At the same time serving the Columbia area with an alternative voice.

We urge the faculty and staff of the University of Missouri to join our family of supporters and subscribers. We therefore make this special offer available for the month of September. Subscribe to the Columbia Missourian and receive the balance of September's delivery free. Then enjoy the discounted subscription rates listed below. Pay just \$30 for delivery throughout the school year, or subscribe for the calendar year at a cost of just \$40. But hurry, the sooner we get your order the more free copies you receive this month.
