

MIZZOU WEEKLY

University of Missouri-Columbia June 15, 1984

Reviews at a glance

The program review advisory committee will meet with deans and directors as follows

Monday, June 18

1 p.m. Libraries, C215 Brady Commons
3 p.m. School of Law, C215 Brady Commons

Tuesday, June 19

1 p.m. College of Arts and Science, C215 Brady Commons

Wednesday, June 20

1 p.m. College of Arts and Science, S207 Memorial Union

Monday, June 25

1 p.m. Learning Center, S110 Memorial Union
2 p.m. College of Public and Community Services, S110 Memorial Union

Tuesday, June 26

1 p.m. College of Engineering, S110 Memorial Union
3 p.m. School of Medicine, S110 Memorial Union

Wednesday, June 27

1 p.m. College of Education, S110 Memorial Union
3 p.m. Graduate School, S110 Memorial Union

Review committee hears reports

Deans and directors seek either enhancement or maintenance of programs.

The program review advisory committee's hearings began the week of June 4, with reports from academic support units, agriculture and extension.

"We've had lots of questions for the deans and directors," says law Professor Jim Westbrook, chair of the program review advisory committee that is to tag each program for enhancement, maintenance, reduction or elimination. The committee of 12 professors, appointed by the provost and the chancellor, also will identify possible mergers.

After the first week of hearings, Westbrook notes some concerns about obtaining sufficient information from deans and directors. "A subcommittee will get more information from deans if we're not satisfied

with the information we receive in the first hearing. Indeed, if a dean comes in and recommends all programs for enhancement, and we don't want to accept that, we may meet with the dean again to discuss priorities."

Now that review hearings are in progress, the committee needs to establish a procedure to follow in making decisions, Westbrook says. He proposes that each committee member study the program-review material in private and submit written recommendations on a ballot. "The decisions may not be made by holding hands up in a meeting." While results of the balloting would be public, the votes of individual committee members may or may not be revealed, Westbrook says. After the first ballots are tabulated, committee members could consider a series of motions based on the results. The committee was expected to consider Westbrook's proposal this week.

In hearings last week, the directors of the Museum of Art and Archaeology, KBIA radio, the Academic Support Center, the Assembly Lecture Series, the Office of Black Studies, the Office of Women Studies,

the Center for International Programs and Studies, the Center for Aging Studies and the Concert Series requested enhancement for their programs. Associate Provost Gerald Brouder and Assistant Provost Otis Jackson, however, recommended maintaining the programs' current funding.

In agriculture, Dean Roger Mitchell recommended enhancement for biochemistry, animal science, and food science and nutrition. He requested maintenance of the college's 15 other areas.

Leonard Douglas, vice provost for extension, requested enhancement for labor education, youth programs and the Geographic Resource Center. He asked that the division's other five programs be maintained.

The committee is to hear from all units by the end of the month. A schedule appears in the calendar on Page 4. The initial report of the program review advisory committee is due Aug. 1, with a final version to be submitted Aug. 15, after deans have a chance to respond. It is likely that the meetings to place programs in funding categories will be open, Westbrook says.

Director stresses service

Personnel Services director emphasizes performance appraisals and development.

"Employees need feedback on how they are doing in their jobs, and a foundation for career development can be the performance appraisal," says Roland W. Juhnke (pronounced yun-key), who assumed his duties May 7. "Suggestions for additional training often come out of performance appraisals."

Juhnke developed a performance-appraisal system in Wisconsin, where he served as director of personnel services at the University of Wisconsin-Stevens Point and was personnel officer for the University of Wisconsin-Madison College of Agricultural and Life Sciences.

"The key thing is that if it is used right, the performance appraisal is a communication tool," he says. "It gets supervisors and employees to talk to each other about the person and the job. I'm not as excited about the appraisal system as I am about having that kind of communication occur."

Juhnke also is an advocate of employee training and development programs. "We need to provide training for current staff to adapt to new technology, new ways of doing things. We need to provide career opportunities and career development. We need to provide some things for personal growth."

At Mizzou, Juhnke notes, these programs range from classes that enable employees to complete high school to reduced fees for University courses through the Educational Assistance Program. "I'm pleased to see more be-

Roland W. Juhnke is Mizzou's new personnel director.

ing done here. UMC is making a better commitment to training than was my experience in Wisconsin."

Preparing staff for retirement is another interest of Juhnke, who developed a pre-retirement counseling program in Wisconsin. He wrote "Start Taking Action on Your Retirement Transition," an article that was published in a professional journal.

It's too early to anticipate any

changes in services offered by the UMC personnel office, he says. "I subscribe to the philosophy that if it works, don't fix it." Likewise, Juhnke says the office seems to function well with its current procedures and organization. "Organizations don't in my judgment solve problems," he says. "If you have good people you can be organized in a number of ways and get the job done."

The new personnel director notes his staff's efforts to resume operations after a fire damaged the former personnel building on Hitt Street. The staff hopes to move from its temporary location in the Education Building to permanent quarters in University Place later this month.

Juhnke, who earned a bachelor of science degree in social science and a master's in business administration with an emphasis in personnel administration from the University of Wisconsin-Oshkosh, has been active in teaching during his 20 years in the personnel field. "I hope maybe in a couple of years it will be possible for me to do some teaching here. It's valuable because it keeps you up to date in the field, and it keeps you in touch with what we're here for, the purpose of the University."

For Juhnke, one of Mizzou's prime attractions is its status as a major land-grant university. "Exciting research is going on here that isn't on campuses where the focus is just instruction. Here you have a combination."

Missouri's lakes and streams are another attraction that helped lure the avid fisherman from his native state.

"My intention in coming here is to be successful from the University's viewpoint and from my viewpoint. I was in my last position 12 years and plan on an equal or longer career here."

Retirement proposal advances

Last week, the University Cabinet unanimously approved recommending an early retirement plan for faculty members to the Board of Curators for consideration at the July board meeting. The recommended plan would carry a maximum incentive equal to 120 percent of the retirees' annual salary. The incentive payment, however, would not be given to retiring faculty members in cash, but would instead be used to purchase annuities for them.

Those eligible for the program are tenured faculty members with at least five years of service, who were born on or after Sept. 1, 1920, and before Sept. 1, 1923. However, some departments or units might be designated by a chancellor or president as ineligible for the program. Tenured faculty members with five years of service who were born on or after Sept. 1, 1916, and before Sept. 1, 1920, may choose the program regardless of the department program eligibility designation. All applications must be made between Oct. 15, 1984, and March 31, 1985. The closer in age to 70 years the retiree is, the smaller the early retirement incentive would be.

The number of faculty who choose the plan will determine its cost, which each campus will be expected to fund individually, says President James C. Olson. Various estimates predict that from 30 to 50 percent of the 288 eligible faculty members from the four cam-

Please turn to Page 2.

POOL MEMBERSHIPS AVAILABLE

Memberships in the Lewis and Clark swimming pool are available to UMC faculty and staff members, their families, and the public.

Family memberships cost \$150 for the season, which runs through Labor Day, and \$75 for individuals. A lifeguard is on duty from noon to 8 p.m. daily.

For more information, call Anita Blanchar, 445-2540; David Williams, 443-7015; James Cook, 882-8393; or Chris Lucas, 882-8231.

PROFESSIONAL SECRETARIES ELECT OFFICERS

The University Chapter of Professional Secretaries International will install 1984-85 officers June 26.

The officers, elected in May, are Margie Ross, administrative secretary in the Missouri Kidney Program, president; Margaret Sigler, senior secretary in library and information science, president-elect; Helen Smith, administrative associate I in University Extension Programs, vice president; Eileen Baxter, senior secretary in health and physical education, secretary; and Mary Short, secretary in University Extension programs, treasurer.

Speaker at the June 26 dinner meeting will be Tom Wieble Jr., whose

topic is motivation. For more information, call Ross at 882-2506.

The chapter's delegates to the PSI's July annual convention in Ontario will be Ross and Rosemary Crane, administrative secretary in physics.

PERSONNEL OFFICE PLANS MOVE

Personnel Services is scheduled to move to permanent quarters on the terrace level of University Place, 1205 University Ave., June 22.

The office address for employment, wage and salary, records, training and development will be 600 University Place. The director's office number will be 200.

Stenographic Services, a unit of Personnel Services, moved to 1800 University Place earlier this month. Both personnel and stenographic services will receive campus mail at the new location.

The offices' telephone numbers will remain the same. For employment information, call the personnel office at 882-4221. The phone number of the

director's office is 882-4256. Stenographic Services' number is 882-7701.

MIZZOU PEOPLE

CLAUDIA KREN, professor of history, has received the Elizabeth F. Cooper Faculty of Excellence Award. The \$500 award, which recognizes outstanding teaching techniques, was established recently by Edmund Cooper of Columbia in memory of his mother, a member of the Jefferson Club and 1930 alumna.

RICHARD ANDERSON, UMC's leading authority on fish population dynamics, has been named one of 10 winners of the Gulf Oil Co.'s 1984 professional conservationist award. Anderson has been a leader of the cooperative fishery research unit at UMC for 21 years. Larry Gale, director of the Missouri Department of Conservation, who nominated him for the award, says Anderson is "recognized as the foremost authority on inland fisheries management in the United States today."

GERALD P. ALLDREDGE, associate professor of physics and guest professor at The Technical University of Denmark, co-wrote an invited symposium paper on the surface dynamics of graphite presented at the 15th European Symposium on Dynamical Properties of Solids in Leuven, Belgium. In April, he completed a 10-week assignment as visiting scientist at the British Atomic Energy Research Establishment-Harwell.

Allredge and three colleagues presented papers at the International Conference on Solid Surfaces in Madrid, Spain, this spring. Allredge, graduate student **CHARLES D. CROWDER**, and **HENRY W. WHITE**, associate professor of physics, discussed "Fundamental Investigations of Mechanisms Coupling Tunneling Electrons to Vi-

brating Molecules in I.E.T.S."

HASKELL TAUB, associate professor and chair of physics, and Alldredge were among presenters of "Structure and Excitations of Ethane Monolayers Adsorbed on Graphite Basal-Plane Surfaces."

With other conference participants, Alldredge discussed "Mean-Square Amplitudes of Vibration and Thermodynamic Functions of the Graphite (0001) Surface, With and Without Registered Krypton or Xenon Monolayers Adsorbed."

GERARD CLARFIELD and **WILLIAM WIECEK**, professors of history, are authors of "Nuclear America," a comprehensive study of nuclear policies that will be published by Harper & Row.

H. DWYER DUNDON, associate professor of occupational therapy, is author of "Occupational Therapy Examination Review" published by the Medical Examination Publishing Co. of New York.

WILLIAM PEDEN, professor emeritus of English, lectured on "Some Aspects of the Contemporary Short Story" at the University of the Americas in Puebla, Mexico.

PATRICK PERITORE, associate professor of political science, delivered a paper on "The Union Movement and Socialist Program of the Brazilian Workers Party" at the Latin American Studies Association International Convention in Mexico City.

PAUL WALLACE, professor and chair of political science, lectured on Reagan's foreign policy at Guru Nanak Dev University in Amritsar, India.

WARREN A. THOMPSON, professor of health services management, has been appointed to the committee on credential development by the American College of Hospital Administrators and the Association of Mental Health Administrators.

"Genesis," a composition by **THOMAS MCKENNEY**, associate professor of music, was accepted for performance at the Region Six Conference of the American Society of University Composers and at the New Music Chicago Spring Festival.

DAVID THAWLEY, associate professor of microbiology, has been selected by the American Council on Education as an ACE Fellow in the Academic Administration Program. He will spend next year working with the chancellor and president of the University or another school of his choice. Thawley was one of 33 fellows selected from 600 applicants nationwide.

R.J. ALDRICH, professor of agronomy, is author of "Weed-Crop Ecology: Principles in Weed Management" published by Breton Publishers.

ROBERT REYS, professor of mathematics education, presented an invited address on films in the mathematics

classroom at the International Congress on Mathematical Films in Turin, Italy.

JOHN F. LALANDE II, assistant professor of German and Slavic studies, has been awarded a grant by the Goethe Institute to attend a three-week summer seminar in West Germany on that country's press, radio and television.

JOSEPH J. SCHROEDER, director of pathology information systems, has been named Employer of the Year by the Missouri affiliate of the National Federation of the Blind. He was nominated by Gary Wunder, senior computer programmer analyst.

CARL G. WILLIS, assistant professor of educational and counseling psychology, is president-elect of the Missouri Psychological Association. He will assume the presidency in April.

CHARLES G. NAUERT JR., professor of history, is general editor of "Sixteenth Century Texts and Studies." The second book of the monograph series was published recently.

LEONARD R. FORTE, professor of pharmacology, has received a three-year grant of \$201,000 from the Veterans Administration Medical Research Service. His research project is titled "Hormonal Control of Mineral Metabolism."

JACKSON LEARS, professor of history, has received fellowships from the Guggenheim and Rockefeller Foundations to support his research, "American Advertising and American Culture, 1880-1960."

GLENN HAUSFATER, professor of biological sciences, co-wrote "Little Things That Tick Off Baboons" for the February 1984 issue of Natural History.

JUDITH GROSENICK, professor of special education and director of research and development, will participate in the 1984 Summer Institute for Women in Higher Education Administration at Bryn Mawr (Pa.) College.

GARY ZWONITZER, associate fiscal operations officer, discussed "A Consolidated Students Accounts Receivable System" at the May 1 College and University Machine Records Conference in Montreal.

FOR THE RECORD

CARPPOOL: Donna Niemeyer is interested in carpooling from Bowling Green, Mo., to Columbia five days a week this summer. If interested, call her at 324-5112.

CARRENTAL: An automobile- and truck-rental agency called Rent for Less of Missouri Inc. offers used vehicles at daily rates beginning at \$14 plus 10 cents per mile. Longer-term rates are available upon request.

Faculty and staff who wish to use this service should contact Marvin Moore or Denise McElroy at 445-3132. Rent for Less is located at 1218 Clinkscales Ave.

Q&A

Q. Does the new athletic-ticket policy require faculty and staff to make contributions in order to buy season tickets?

A. No contribution is required to obtain tickets at discounted prices in the faculty/staff seating sections, says John Kendrick, coordinator of Mizzou Athletic Scholarship Associates.

Faculty and staff who desire seats in priority areas must pay the public ticket price and make a minimum contribution, which is half that required of the general public. For two tickets in the prime seating area, faculty and staff must donate \$50 for football and \$125 for basketball.

For more information, call the athletic-ticket office at 882-2386.

Q. What kind of fruit will be available from South Farms this summer?

A. Sweet cherries are expected to be ripe around June 25. Look for sour cherries to be ready near the Fourth of July. Apples should be ready in early September; some summer varieties for cooking may be available sooner.

A late cold snap means the farms will have neither peaches nor apricots this year.

For fruit prices, call 449-1231. South Farms is located just east of Highway 63 South on New Haven Road.

Q. If a parking deck is built on lot WC7, where would people assigned to that lot park during construction?

A. If the proposed parking deck is approved, construction probably would occur during a summer break, when extra spaces are available in other campus lots, says Jim Joy, manager of parking operations. He predicts that those extra spaces could accommodate the 200 people assigned to WC7 during the three- or four-month project. If not, some spaces metered for student parking could be converted temporarily to accommodate some personnel.

Q. How can I change my coverage or principle sum for my accidental death and dismemberment plan?

A. The University's plan allows a once a year coverage change, says Leroy Sharp, staff benefits supervisor. All changes must be received by the Staff Benefits Office before July 1, and will become effective July 1.

For a change form, or for other information, call the appropriate staff benefits office. UMC employees call 882-3685 or 882-3684; hospital employees, 882-1536; and UMca employees, 882-6582.

Retirement

Continued from Page 1.

pus will pick the option if approved.

According to a UMC Faculty Council survey, only 6 percent of respondents would consider early retirement under present conditions (without provision for incentive payment). On the Columbia campus, 177 faculty members meet the age requirements for early retirement.

In industrial models of early retirement, up to 80 percent of eligible workers choose the option, says Provost Ronald Bunn.

Says UMSL Chancellor George Russell, "Early retirement will be the greatest boon toward achieving renewal. It will be expensive at first because of the cash flow problems."

JOBS

For more information about the following teaching and research positions, contact the appropriate individual listed below. All positions are contingent upon funding and enrollment.

Agricultural economics, program director-modeling systems, deadline June 30. Contact Abner Womack, 882-2667.

Agriculture extension education, assistant professor and state 4-H youth specialist, deadline June 24. Contact Max Miller, 882-3226.

Dalton Research Center and Department of Physiology, associate professor with expertise in membrane transport mechanism by methods of modern molecular biology, deadline June 26. Contact Dean Franklin, 882-7586.

Electrical and computer engineering, assistant/associate professor with research interests in power systems, rotating machinery, power semiconductors, fields or communication, deadline Jan. 15. Contact Charles Slivinsky, 882-6387.

Electrical and computer engineering, assistant/associate professor with research interests in computer engineering, software engineering, computer architecture or robotics, deadline July 31. Contact Charles Slivinsky, 882-6387.

Entomology, postdoctoral fellow with research experience in insect physiological and biochemical techniques, deadline July 15. Contact G.M. Chippendale, 882-8346.

Housing and interior design, associate professor and chair, deadline July 15. Contact Richard Helmick, 882-6527.

Libraries, Librarian I, II or III and science librarian, deadline Aug. 1. Contact Pat Burbridge, 882-4701.

Medicine, professor in nephrology, deadline July 15. Contact Karl Nolph, 882-7991.

Medicine, research associate in nephrology, deadline June 30. Contact John H. Bauer, 443-2511.

Missouri Institute of Psychiatry, postdoctoral fellow in biochemistry, deadline June 30. Contact Ingming Jeng, (314) 644-8848.

The following jobs were approved and posted Monday, June 11, and may be filled at any time after meeting the required five-day posting period. For more information or to apply for a job, contact the Personnel Office, 101 Education Bldg., at 882-4221.

PROFESSIONAL

Administrator-MPIP, School of Medicine Dean's Office.

Coordinator, career planning and placement (E-8), Counseling Services, deadline June 15.

Executive staff assistant II (E-7), Psychology.

Executive staff assistant III (E-9), Chancellor's Office.

Information specialist (E-4), Missouri School Boards Association (Education Administration).

Manager, energy engineering (E-12), Campus Facilities, deadline June 15.

Manager, salary/wage programs (E-10), Human Resource Systems Development-UMca.

Reactor physicist (E-9), Research Reactor-UMca.

Staff engineer (design) (E-9), Research Reactor-UMca.

RESEARCH/SERVICE

Broadcast engineer III (M-63), Journalism, KOMU-TV.

Laboratory assistant (M-53), OB/GYN, 75 percent FTE.

Laboratory storekeeper (M-56), Chemistry.

Research electronic technician (M-63), Research Reactor-UMca.

Research/laboratory technician (M-56), OB/GYN (3), Research Reactor-UMca.

Research specialist (E-5), Agricultural Engineering; Biological Sciences; Environmental Trace Substance Research Center-UMca; Plant Pathology (located in Portageville, Mo.).

Senior audio visual technician (M-57), Academic Support Center.

Senior research engineering technician (M-63), Research Reactor-UMca.

Senior research/laboratory technician (M-59), Biological Sciences, Medicine/Nephrology, Microbiology, Pharmacology, Veterinary Anatomy-Physiology, Veterinary Medicine Diagnostic Laboratory (2).

SECRETARIAL

Administrative assistant (M-59), Library and Informational Science.

Administrative secretary (M-59), Central Food Purchasing.

Chief clerk (M-57), Home Economics Dean's Office, begins in July.

Library assistant I (M-57), Ellis Library Search/Cataloging Unit, 75 percent FTE; Law Library, begins Aug. 1.

Library clerk II (M-53), Ellis Library Serials Department, Ellis Library Interlibrary Loan, Missourian Newspaper Reference.

Library clerk III (M-55), Ellis Library Interlibrary Loan.

Radio dispatcher (M-56), University Police.

Secretary (M-55), Center for Research in Social Behavior, Child Health (2), Curriculum and Instruction, Family and Community Medicine (Medical Transcriptionist), Home Economics Dean's Office, Intercollegiate Athletics, Medicine-Immunology/Rheumatology, Medicine-Nephrology (2), Orthopaedic Surgery, Practical Arts and Vocational/Technical Education, Residential Life, State Historical Society-UMca, Surgery-Cardiothoracic.

Senior secretary (M-57), Chemical Engineering, Health Services Management, Intensive English Program, Medical School-Dean's Office, Statewide Extension-UMca, UED-TODCOMP.

TECHNICAL

Computer programmer/analyst I (E-7), Accounting-UMca.

Data controller II (M-57), Agricultural Economics.

Institutional research assistant (E-7), Institutional Research and Planning, deadline June 15.

Production analyst (E-6), Production Services.

Senior computer programmer/analyst (E-11), Customer and Decision Support-UMca.

Systems programmer (E-9), CIS Software Services-UMca.

CLERICAL

Cashier (M-53), Cashier's Office.

Clerk typist II (M-53), Accounting, Alumni Development Fund, Animal Science, Purchasing, UED-Center for Independent Study (2).

Senior stenographer (M-54), Law, Plastic Surgery, UED-Fire Training.

Stenographer (M-53), Journalism.

Word processing operator I (M-53), Personnel Services/Employee Relations, Psychology, Special Education Dissemination Center.

PART TIME/TEMPORARY

Clerk typist II (M-53), American Archaeology, hours 8 a.m. to noon, permanent.

Secretary (M-55), Office of Equal Opportunity, hours 9 a.m. to 1 p.m., permanent; Medicine/Endocrinology, hours 10 a.m. to 2 p.m., permanent.

Senior research/laboratory technician (M-59), Neurology, 20 hours a week, permanent.

Word processing operator I (M-53), Geology, 20 hours a week, permanent.

The following jobs were posted by the UMC Hospital and Clinics personnel office June 11 and may be filled at any time after meeting the required five-day posting period. For information, call 882-8186.

ADMINISTRATIVE/PROFESSIONAL

Administrative associate I, Nursing Service.

Assistant division director/controller, Financial Services.

Assistant manager, Patient Admissions.

Associate administrator, ambulatory care activity, University Physicians.

Clinical dietitian, Clinical Dietetics.

Manager, Clinical Engineering, deadline July 1.

Pharmacist, Pharmacy.

Social worker, Child Health.

Staff chaplain, Pastoral Services.

Supervisor, Social Services.

CLERICAL

Chief clerk, Pathology, Supply Distribution.

Fiscal assistant, Housekeeping.

Hospital unit clerk, Nursing.

Secretary, University Physicians, Clinic Administration.

Senior accounting clerk, Patient Accounts.

Senior clerk, Nursing.

Senior clerk typist, Plant Engineering.

Senior receptionist, University Physicians, Clinic 3.

Senior secretary, Hospital Accounting.

Word processing operator II, Financial Services.

NURSING

882-8701

Administrative nurse I, Nursing (5).

Administrative nurse II, Nursing.

Clinical nurse I, Nursing (3).

Education nurse I, Nursing.

Licensed practical nurse, Nursing.

Nurse anesthetist, Anesthesiology (2).

Staff nurse, Nursing.

TECHNICAL

Computer programmer II, Computer Services.

Computer project manager, Computer Services.

Occupational therapist, Occupational Therapy.

Ophthalmic assistant, University Physicians.

Physical therapist, Physical Therapy (2).

Senior computer operator, Computer Services.

Senior computer programmer/analyst, Computer Services.

Senior radiation therapy technologist, Radiology.

Supervisor, Respiratory Therapy.

LETTERS

By MIREYA DEL CASTILLO

I am very concerned about plants and trees around our campus because several construction projects are taking place.

I hope that the department in charge of the grounds will see that whenever a change in an area needs to be made for these projects, the plants, trees and shrubbery will be transplanted to another part of the campus and saved. I hope that the magnolias and oak trees behind Ellis Library will be transplanted if possible. These oak trees are basic for the

squirrel population that everyone enjoys on our campus and the magnolias are certainly beautiful in the spring.

A beautiful rose bush at the entrance of parking lot WC16 on Conley Avenue was destroyed to make way for a gravel exit. That bush had given thousands of red roses every year, and I'm sure anyone who knows the area could identify it. When I went by the area and saw the big roots standing out of the ground and no bush around, I got really mad and am not embarrassed to say I cried.

I hope that the administration of this university will emphasize that the area be looked at before bulldozers and machinery come around to clear it.

The writer is a librarian III at Ellis Library.

The Staff for Life Free Health Screening!

Open to all UMC Faculty & Staff
Wednesday, June 20
10 a.m. to 2 p.m. at
Mid-Missouri Mental Health Center Gymnasium

Tests and information will be available on:

Blood Pressure	Tricep Skin Fold
Back Flexibility	Blood Glucose
Hearing	Self-Breast Exam

Those taking the blood glucose test should not eat or drink anything other than water two hours before the test.

University of Missouri-Columbia
Hospital & Clinics

For More Information, call 882-4161

CALENDAR

During summer session, Mizzou Weekly is published biweekly. Send information for the calendar to Julie Wilson Barbeau, 1100 University Place, 875-7132, by noon Friday preceding publication.

Highlights

WOMEN'S CENTER WORKSHOP: "Financial Planning Workshop" will last from 9 a.m.-2 p.m. June 16 in 1 Gentry Hall. Call 882-6621. Bring a sack lunch.

HEALTH SCREENING: The UMC Hospital and Clinics will hold a faculty/staff health screening from 10 a.m.-2 p.m. June 20 in the Mid-Missouri Mental Health Center gymnasium. Call 882-4161.

LEGION OF BLACK COLLEGIATES FILM: "The Wiz" will be shown at 7 p.m. June 20 at the Black Culture Center.

UNIVERSITY THEATER: The musical "George M!" will be performed at 8:15 p.m. June 29 and 30 in Rhynsburger Theater. Tickets are \$6 for the general public, \$5 for faculty and staff, \$4 for senior citizens and \$3 for students.

15 Friday

MSA OUTDOORS FILM: Weather permitting, "The Computer that Wore Tennis Shoes" will start at dusk (about 8:45 p.m.) at University Village Apartments.

DANIEL BOONE REGIONAL LIBRARY FILM: "Gay Divorcee" will be shown at 9 p.m. in the library parking lot. Bring a blanket or lawn chair.

16 Saturday

WOMEN'S CENTER WORKSHOP: See Highlights.

MSA OUTDOORS FILM: Weather permitting, "The Computer that Wore Tennis Shoes" will start at dusk (about 8:45 p.m.) at University Terrace Apartments.

17 Sunday

MSA FILM: "Dial M for Murder" will be shown at 7 and 9 p.m. in Ellis Aud.

18 Monday

PROGRAM REVIEW ADVISORY COMMITTEE will meet with deans and directors from Ellis Libraries at 1 p.m. and the School of Law at 3 p.m. in C215 Brady Commons.

WOMEN'S CENTER: Body Health: "Muscle Magic" will be presented by Karen Kaupanger, owner of Swedish Massage Center, at 7 p.m. in 1 Gentry Hall.

WOMEN'S CENTER GROUP: "Assertion Training for Women and Men" will be held from 7-9 p.m. for the next six Mondays in 1 Gentry Hall. Advance registration required; call 882-6621.

MSA CRAFT STUDIO: Five-week summer classes in papermaking, basketry, woodworking and photography start today from 6-8:30 p.m. in 203 Brady Commons. Call 882-2889 for cost information.

19 Tuesday

PROGRAM REVIEW ADVISORY COMMITTEE will meet with deans from the College of Arts and Science at 1 p.m. in C215 Brady Commons.

CAREER PLANNING AND PLACEMENT CENTER: "Your Resume: Write It Right" will be presented from 3:40-5 p.m. in 110 Noyes Bldg.

MSA CRAFT STUDIO: Five-week summer classes in pot throwing and photography start today from 6-8:30 p.m. in 203 Brady Commons. Call 882-2889 for cost information.

20 Wednesday

AGRICULTURE FIELD DAY: "Hay Day" will be held at the Forage Systems Research Center in Linneus, Mo. Call 882-8237 for information.

ENGINEERING EXTENSION: "Drinking Water Workshop: New Microbiological Methods" will be presented by Blaise Brasos, civil engineering research associate; John O'Connor, civil engineering chair; and Shanka Banerji, civil engineering professor, from 8 a.m.-5 p.m. in 1035 Engineering Bldg. Cost is \$125, or \$100 if three or more from same organization attend. Advance registration required; call Linda Rodden at 882-3088.

HEALTH SCREENING: See Highlights.

MUSEUM OF ART AND ARCHAEOLOGY: "The Lay of the Land: Highlights of the Special Exhibition from the Hallmark Photographic Collection" will be discussed by Keith Davis, the collection's curator, at 12:15 p.m. in 106 Pickard Hall.

PROGRAM REVIEW ADVISORY COMMITTEE will meet with deans from the College of Arts and Science at 1 p.m. in S207 Memorial Union.

MSA CRAFT STUDIO: Five-week summer classes in weaving and stained glass start today from 6-8:30 p.m. in 203 Brady Commons. A three-session color printing class also starts today. Call 882-2889 for cost information.

GERMANIC AND SLAVIC STUDIES: The 1921 version of the German film "Nosferatu" will be shown at 7 p.m. in 219 General Classroom Bldg.

WOMEN'S CENTER: Body Health: "Out of Sight, Out of Mind" will be presented by Lisa Polette, independent living specialist at Opportunities Unlimited, at 7 p.m. in 1 Gentry Hall.

LEGION OF BLACK COLLEGIATES FILM: See Highlights.
