

MIZZOU WEEKLY

University of Missouri-Columbia February 15, 1985

A supplement to the faculty/staff telephone directory appears on Pages 5 and 6. Clip it to keep in your campus directory.

Curators OK plan

Program priorities plan is expected to result in savings of \$10 million.

In his report to the Board of Curators Feb. 8, President Peter Magrath essentially concurred with Chancellor Barbara Uehling's recommendations for UMC programs.

The board adopted Magrath's priority program recommendations for the UM system; the president expects the plan to generate more than \$10 million in savings through reductions and eliminations over the next three years.

Before submitting his recommendations, Magrath studied program-review reports prepared by the four campuses, extension and central administration as part of the curators' long-range planning process.

For the system, the board approved 68 programs for enhancement with a projected cost of \$8.4 million. Reductions in 43 programs are expected to provide some \$9.8 mil-

lion for higher priorities. Another \$346,500 resulting from 14 program eliminations also will be redirected to priority programs.

On the Columbia campus, 12 programs are tagged for enhancement at an estimated cost of \$2.1 million. Ten UMC programs are slated for reduction, for an estimated savings of \$4.3 million. Eliminating five low-demand degree programs at UMC is not expected to generate appreciable savings. A proposal to eliminate bachelor of arts degree programs in Latin American and Asian studies was withdrawn. All other UMC programs are marked for maintenance.

Eleven programs on the Kansas City campus are in the enhancement category, with an estimated cost of \$850,000. Eight are slated for reduction, with savings estimated at \$2.2 million. No UMKC programs are to be eliminated. At Rolla, 13 programs are to be enhanced at an estimated cost of \$2 million, which includes new and cooperative program development. Reductions in four programs are expected to yield savings of \$1.4 million. No UMR programs are to be eliminated.

The St. Louis campus has 17 programs selected for enhancement, at an estimated cost of \$2.4 million that includes new degree programs. Seven UMSL programs that include 17 academic areas are to be reduced, for savings of approximately \$966,400. Two St. Louis programs are scheduled for elimination for estimated savings of \$6,500.

Magrath will recommend programs for eminence next October after discussions with the chancellors and vice presidents.

After the board meeting, representatives of UMC Faculty Council and the Board of Curators discussed program priorities. "The thing most faculty are concerned about now is that we're really committed to the plan," said Forestry Professor Carl Settergren. Curator Jeanne Epple reaffirmed the board's decision to review the plan's progress at least once a year.

Chemistry Professor John Bauman said some UMC faculty were disturbed by other campus' program-review reports. "They gave only A's and B's. We gave some C's."

Doug Russell, president of the Board of Curators, commended the "substantive plan" prepared by the Columbia campus. "But even by giving A's and B's, at least others were setting priorities," he added.

In other action at their business meeting, curators:

- Approved increases in student housing and activity fees for all four campuses. At UMC, residence-hall rates next fall will be \$2,096 for a double or triple room, an increase of 5.4 percent. Single-room fees will increase 10 percent to \$2,546. Family-housing fees will be \$157 a month for a one-bedroom apartment, a 5.4 percent increase. Monthly rent for two-bedroom apartments will increase 5.9 percent to \$179.

- UMC student and facility fees will increase from \$33.50 a semester to \$39 this fall. Summer-session fees will go from \$16.75 to \$19.50 this summer.

- Accepted low bids totaling \$2.4 million for completion of the interior of the lobby-concourse connecting the UMC Hospital with clinic buildings and the parking garage.

 5. Emphasis Area of the Ed.Sp. in Practical Arts and Vocational Technical Education: Technology Teaching

Wanted: shining examples of dedicated staff

Know an exceptional staff member? It's time to submit nominations for recognition awards.

"Hey, I know somebody like that." The thought struck Barton L. Griffith last year as he read the criteria used for selecting winners of the Chancellor's Staff Recognition Awards. The professor of speech and dramatic arts nominated a staff member whose work he had long admired.

Later that spring, Griffith's nominee

won one of four \$750 awards, which are given annually to support staff members who best reflect honor upon the University and community through job performance, relationship with associates and ability to relate their work to the missions and values of the University.

Nomination forms for the 1985 Staff Recognition Awards were mailed to faculty and staff this week. Awards will be presented during Staff Recognition ceremonies April 5 to one staff member in each of the four employee peer groups: administrative/professional, crafts/maintenance, secretarial/clerical and technical/paraprofessional.

"The Staff Recognition activities are significant in helping acknowledge the diverse contributions our various-staff make," says

Chancellor Barbara Uehling. "By having a broad range of people from whom to make selections, we can have a wider appreciation for the many different contributions that staff make."

Wildlife Professor Leigh Fredrickson nominated a winner last year. "When people do a good job, it seems only appropriate to take the time to put together a nomination that might enable them to be in the finalist category. If you want people to do a good job, you have to recognize them."

But winning isn't everything, he says. Linda Sapp, administrative associate I in chemistry, agrees.

"Just the fact that somebody nominated me helped. It meant a lot to me." Sapp has nominated colleagues for the awards and encourages others to do the same. "Anyone

who is doing a good job ought to have a chance for it."

Recognition should be part of doing a good job, says former nominator Louis G. Tritschler, professor of veterinary medicine and surgery. "I think some people don't get the recognition they deserve because no one turns their names in. If you have good people working for you, nominate them. It makes them feel good and I think they do an even better job."

Fredrickson says the awards help staff avoid getting into a rut. "The campus is filled with really high-quality employees. Some probably have only been recognized by their department. It's nice for the campus to recognize these people who are playing an important role."

Please turn to Page 8

WINDOW OPEN UNTIL MARCH 31

The application deadline for benefits under the University's Early Retirement Incentive Program is March 31.

All tenured faculty members with the title of professor, associate professor, assistant professor or instructor whose birthdates fall after Sept. 1, 1915, and before Sept. 1, 1923, are eligible to participate.

For more information, call Mike Reese, 882-6267, or Mike Paden, 882-4820.

WASTE NOT WATER

Are you a water waster? Marilyn Caselman, an extension household equipment specialist, says you are if:

- You run the dishwasher or clothes washer with less than a full load.
- You wash dishes by hand and let hot water run to rinse them.
- You let bath water run until it gets hot, then run cold water to cool it.
- You let the water run while brushing your teeth.

Though plentiful and cheap now, water may be the next generation's energy shortage, Caselman says.

WRONG LIGHTS CAN SPOIL MILK

Blame store lighting for a strong burnt or cabbage-like flavor in milk stored in plastic jugs.

The oxidized flavor develops when milk is exposed to fluorescent light or sunlight, says food scientist Robert T. Marshall. Such lighting also decreases the amounts of vitamin A and riboflavin in the milk, he says.

Marshall urges shoppers to encourage store managers to avoid using fluorescent lights in milk cases. Other alternatives are to buy milk in cardboard cartons or to select milk in plastic containers stored at least two feet from fluorescent lights.

"Also, incandescent lights do not cause the effect and can be used to light milk storage areas," Marshall says.

Sadat to deliver Kemper lecture

Jehan el-Sadat, widow of the late Egyptian President Anwar Sadat, will deliver the fifth Enid Jackson Kemper Lecture Feb. 19.

Sadat, an outspoken leader of various causes in Egypt, has long fought for change in her time-honored and tradition-laden society.

Free tickets for the 8 p.m. speech in Jesse Auditorium are available for faculty, staff and students with University identification from 10 a.m. to 4 p.m. at the Jesse Hall Box Office or 1W-42 Hospital and Clinics.

As Egypt's first lady and one of her husband's closest advisers, Sadat helped establish service organizations and aid centers for the sick, the poor and the disinherited. In 1972 she founded the Wafa Wa Amal Rehabilitation Center for disabled veterans and civilians. In 1977 she initiated the idea of S.O.S. Childrens Villages for needy orphans.

The plight of women, in particular, has always been a major concern of Sadat's. In 1979 her husband passed a pair of controversial laws that added 30 women representatives to the Egyptian parliament, a five-fold increase. The new laws also allowed divorced women to retain their homes and custody of their children. Though polygamy was not outlawed, the first wife now may sue for divorce if she disapproves of the second wife.

Similarly, although a husband may still end a marriage unilaterally, he is now required to inform his wife of the divorce. In the past, wives not so informed often continued to live with their husbands and produce children whom the men later refused to support, claiming that the children were illegitimate.

Sadat has said that the laws were a reflection of her husband's recognition of the national contributions of the women of Egypt. Surprisingly, the changes

occurred in the midst of a fundamentalist revival that was sweeping the Islamic world in the wake of the Iranian revolution.

The daughter of an Egyptian physician and an Englishwoman, Sadat met her future husband in Suez when she was 15. He was 31, penniless and just released from 2½ years as a political prisoner of the British, including 18 months in solitary confinement. Despite her family's initial objections, they were married.

After raising her four children, Sadat began studying Arabic literature at Cairo University in 1974, at the same time maintaining an active public life. She has been a regular visitor of hospitals, schools and welfare organizations and is the founder of the Arab African Women's League.

As chairman of her village council for five consecutive years, she pushed for the eradication of illiteracy. She also criticized traditions that discouraged family planning in a country where the population increases by a million every nine months and where overcrowded conditions force families to live on rooftops and in mausoleums.

Currently, Sadat is a lecturer at Cairo University and a doctoral candidate in Arabic literature. It is her firm belief that "the most precious capital any country can have is an educated citizen."

The Enid Jackson Kemper Lecture Series was established by R. Crosby Kemper to bring speakers of world stature to the UMC campus. The late Enid Jackson Kemper was an active Kansas City civic figure and trustee of the Enid and Crosby Kemper Foundation, which has made many gifts to Kansas City, including the Kemper Arena.

1985 Staff Recognition Awards

I'd like to help!

Name _____

Campus Address _____

Send to:
Rosemary Crane
223 Physics Bldg.

Student, faculty and staff volunteers are needed to read nomination forms and interview candidates for the 1985 Chancellor's Staff Recognition Awards.

Eight to ten volunteers are needed for each of the four employee peer groups: administrative/professional, crafts/maintenance, secretarial/clerical and technical/paraprofessional.

Volunteers will read nominations March 6 and 7. Interviews will be March 12.

Persons who wish to volunteer should fill out the coupon below.

Barton named academic area vice president

A University alumnus noted as a scholar and national education leader will become vice president for academic affairs April 15.

Jay Barton, AB '47, AM '48, PhD '51, is former president of the University of Alaska statewide system and former University of West Virginia vice president for academic affairs.

Barton, 62, currently heads The Barton Group in Tuscon, Ariz., which was founded last year to create appropriate physical, social and psychological environments for the aging.

Barton succeeds Mel George, who will become president of St. Olaf College in Minnesota March 1.

Vol. 6 No. 18

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of Development, University and Alumni Relations Division, 1100 University Place, 882-7357. News deadline is noon Friday the week before publication. Annual subscriptions are available to retirees for \$10. Advisory board: Gerald Brouder, Myrna Bruning, Carol Bruce, Brooke Cameron, Mike Chippendale, Joan Wilcox, Jeanette Jefferson, Marjorie Marberry, Mary Miller, Barbara Olson Smith, Bob Stewart, Harry Stoeckle and Donna Turner.

FACULTY AWARDED PROFESSORSHIPS

Three UMC faculty have been awarded distinguished professorships.

Nigel J. Kalton, professor of mathematics, has been selected as the first Mahala and Rose Houchins Distinguished Professor. The professorship is made possible through the bequest of the late Claude M. Houchins, a native of Pike County, Mo., who was a well-known tax attorney.

Kalton has achieved eminence in the area of functional analysis. Physics Professor Samuel A. Werner has been selected as the

Millsap Distinguished Professor. The professorship is made available through the Millsap Memorial Trust Fund, established by Marvin Millsap, a retired businessman who lives in Springfield, Mo., and his late wife, Rose Ann Millsap.

Werner is an expert in neutron scattering and neutron physics.

Karl Nolph, professor of medicine, has been selected as the Dr. Loren E. Broaddus Distinguished Professor, also made possible by the Millsap Memorial Trust Fund. It was established in honor of the Millsaps' personal physician, Loren E. Broaddus, MD '60.

Nolph is recognized for his work in peritoneal dialysis.

SAVE MONEY WITH PLAIN-LABEL DRUGS

Less expensive generic substitutes for some common drugs should be available within a couple of years, says an extension family economics specialist.

Pat Lieurance says patents that drug companies hold on many of these popular drugs are expiring soon. "Most states, including Missouri, allow a doctor to indicate on a prescription that a generic substitute is OK. But just in case, feel free to ask the doctor to do this for you. Chances are you'll save money."

MUSEUM ACQUIRES MODERN ART

The Museum of Art and Archaeology has acquired two notable works of modern art.

A 1984 blown-glass form by David J. Schwarz from the series "Z-Axis, Other Facets," was acquired by Museum Associates Inc., a friends of the museum group. Schwarz' work is included in collections at the Corning Museum of Glass.

"Reducing," a 1921 lithographic print by George Bellows, was purchased with donations. One of the youngest associates to be elected to the National Academy of Design, Bellows produced almost 200 lithographic prints before his death in 1925.

Search opens

A national search is under way for a University Book Store manager.

Will O'Connor, manager for 12 years, left Dec. 31 for Syracuse (N.Y.) University where he operates a \$9 million one-stop shopping center for students called University Store.

The job offered a better salary and was an opportunity to expand his experiences,

says A.K. Rahman, director of Memorial Union/Brady Commons. "He needed to make a move so he could grow," Rahman says. "He has done many things good on this campus."

Applications are being accepted for the position until March 22. A faculty, staff and student committee will screen the applicants and recommend five or six finalists to Rahman and Norman Moore, vice chancellor for Student, Personnel and Auxiliary Services.

Black History Month will feature Maya Angelou.

Angelou to visit campus

Maya Angelou is known for her ability to embrace an audience. She sings, reads verse, preaches, dances and generally makes the most of her resonant voice and her 6-foot frame when she speaks on college campuses. On Feb. 18 she will highlight Black History Month at UMC.

Angelou, author of the best-selling novel "I Know Why the Caged Bird Sings," moves where her creative energy takes her. With just a high-school education, she has been a poet, singer, songwriter, actress, film director and producer, dancer, teacher, historian, journalist, playwright and novelist. Today, at 56, she is fluent in seven languages and is the recipient of more than a dozen honorary degrees.

Angelou, born in St. Louis, spent her early childhood in Stamps, Ark., and in 1940 moved with her family to San Francisco. "I Know Why the Caged Bird Sings" is an autobiographical accounting of her youth.

For her, writing is a process she describes as "dragging my pencil across the old scars to sharpen it." She was, by age 3, the child of a broken home, shunted off to her paternal grandmother in Arkansas. Before her eighth birthday, she was raped by her mother's boyfriend and forced to endure the further trauma of his trial. At 17, she graduated from high school, unwed and eight months pregnant. A year later, to support herself and her son, she became the madam of a two-woman whorehouse, and then for a short time, a prostitute herself.

But determined to carve out a stage career, Angelou studied dance and drama and, in 1952, she received a scholarship to study dance with Pearl Primus in New York. Two years later she joined the European touring company of "Porgy and Bess," sponsored by the U.S. State Department and presented in 22 countries in Europe and Africa. Between performances she taught modern dance at the Rome Opera House and the Habima Theatre in Tel Aviv.

She lived in Africa for a time and became the associate editor of The Arab Observer in Cairo. She also wrote free-lance articles for The Ghanaian Times and for the Ghanaian Broadcasting Corp. in Accra and became assistant administrator of the School of Music and Drama in the University of Ghana. She concluded her stay in Africa in 1966 as feature editor of the African Review in Accra.

Since her return to the United States, Angelou has published eight bestsellers and has written, directed and produced for film and television. She has acted on Broadway and in TV's "Roots," in which she played Kunta Kinte's grandmother. In 1977 she received a Golden Globe Award for her documentary, "Afro-American in the Arts" for PBS.

Of all her awards, the artist most cherishes the honorary degree she received from the University of Arkansas—which is only a stone's throw from the land where her great-grandmother was a slave.

"I Know Why the Caged Bird Sings," the first segment of a four-volume autobiography, is dedicated to Angelou's son and "all the strong black birds of promise who defy the odds and gods and sing their songs."

Black History Month is an annual observance focusing on the contributions to society and achievements of black Americans. This year's theme is "The Afro-American Family: Historical Strengths for the New Century."

FOR THE RECORD

PECK HONORED: A prospective professorship in field geology is to be named for Raymond E. Peck, AM '28, PhD '32, professor emeritus of geology who died Nov. 3 in Columbia.

Peck, a 41-year member of the University faculty, served as vice president for research and graduate studies from 1965 to 1969. He received the University's Distinguished Faculty Award in 1961.

Some \$51,000 of the required \$110,000 for a named professorship has been raised, says Tom Freeman, professor and chairman of geology. Contributions may be sent to Freeman at 101 Geology Bldg.

CAR POOL: A car pool from Boonville to campus has room for two riders who work 8 a.m.-5 p.m. Monday through Friday. Call

Linda at 882-7731.

DINERS CLUB: Faculty and staff who have submitted applications for Diners Club credit cards under the University's travel management plan should receive their cards within two to three weeks. If not, call Gary Zwonitzer at 882-7629. Diners Club records indicate that cards were mailed to some faculty and staff who did not receive them. Since the cards are sent in plain envelopes, check mail carefully to make sure they are not accidentally discarded.

NEW NUMBER: The new telephone number for Computing Services administrative staff is 882-2112. The Help Desk number is still 882-7686.

GRANT: The Xerox Corp. has presented the Friends of the UMC Libraries and the State Historical Society of Missouri Library with a \$2,000 grant to underwrite the 1985 Friends of the Libraries Book Fair, which will be April 5-6 at Hearn.

The contribution permits most of the funds generated by the book fair to be used to buy valuable materials for the libraries' collections. Xerox Corp. also provided funding last year. Local Xerox employees donate books, provide meals for book fair volunteers and help staff the book fair.

Q&A

Q. As a teaching assistant for the University, am I eligible for any health insurance benefits?

A. To be eligible for staff benefits, teaching assistants must be employed at least 30 hours per week. Otherwise, they may receive student health insurance as long as

they are enrolled for at least one credit hour. For information on student health insurance, call Patsy Higgins at 882-7254.

Q. I am an UMCA employee. Why do state employees get some holidays, like President's Day, off and I don't?

A. The University of Missouri is part of the state, but its programs are administered separately, says Forest Benedict, director of central administration's Human Resource Services. "The state may have a better holiday package, but in other areas such as retirement or medical benefits, the University's program may be better."

Send in your questions about campus matters to Mizzou Weekly, 1100 University Place. Include your name and telephone number so we can reach you if necessary. Your name will not be published.

Fee funds projects

New and continuing student fee capital improvement projects include a gazebo, landscaping and artwork.

The student fee capital improvement committee selected the projects from student, faculty and staff suggestions submitted last spring. The capital review committee gave final approval.

The projects, to be funded by the \$4 per semester capital improvement fee paid by each student, are listed below. "Projects will begin as soon as weather or paperwork permit," says Rich Anderson, administrative associate II who is an ex officio member of the student fee capital improvement committee.

- Ten trash receptacles: \$4,500.
- Middlebush Courtyard: \$2,000 to be added to \$3,000 allocated last year.
- Career Planning and Placement Center landscaping and lighting: \$3,000 to be added to \$3,000 allocated last year.
- Peace Park Gazebo, phase I: \$10,000.

Peace Park drainage and erosion improvements, phase II: \$5,000 to be added to \$5,000 allocated last year.

- McKee Pool hair and lint filter: \$2,000.
- Seven Brewer/Rothwell door lock alarms: \$1,820.
- Women's Center furniture: \$500.
- Jesse Auditorium lighting system: \$50,000. Total project estimated at \$300,000.
- Museum painting, Feininger's "Sachsenhausen": \$20,000.
- Library typewriter lab, five IBM Selectrics: \$4,500.
- Arts and Science Student Government

personal computer: \$2,000 matched by \$2,000 from A&S Student Government.

- Bike rack, LeFevre Hall: \$2,000.
- Student organizations electronic mimeo/stencil: \$3,495.
- KCOU diagnostic equipment: \$1,450.
- Stankowski Track and Field earthwork, crowning and drainage: \$14,000 to be added to \$36,000 allocated last year.
- Brewer flooring, pro gym multipurpose soft surface: \$97,500.
- Contingency: \$43,235.
- The student fee capital improvement committee will accept ideas for future projects later this semester. Watch Mizzou Weekly for details.

Faculty eye policy on class drops

At the Feb. 7 meeting, Faculty Council discussed a proposal for creating a uniform day for dropping a course without a grade.

John Bauman, chairman of the council's academic affairs committee, said that several deadline dates are available to students for dropping a class without a grade, depending on their school or college. The associate deans recommended the last day of the tenth week of a given semester be the standard date.

"You could have two students sitting side by side in a math class and if one is in engineering and other is in arts and science, they can drop the class at different times. I

think that is unfair to the students," said Richard Dowdy, council vice chairman.

In other business, Jim Beckett, director of Environmental Health and Safety, discussed the University's policy on work-related injuries.

The policy, which was altered last April, states that UMC Hospital and Clinics is the only approved medical facility for treatment of work-related injuries occurring in the Columbia area. Treatment at other facilities, except in emergency cases, will not be paid under the University's workmen's compensation program.

Prior to April 1984, employees could obtain medical treatment from any of several local hospital facilities and receive workmen's compensation coverage. The new policy was implemented to gain better control over medical costs, Beckett said.

"If an employee is at a conference in Chicago and goes to a hospital, is he liable for the costs because he didn't go to University Hospital?" queried David Leuthold, political science professor.

"No—if it's a situation that calls for immediate care, that's a different situation," Beckett said.

LUMIN replaces old cards

After Feb. 18, users of the UMC libraries will no longer have to pull drawers and flip cards in order to identify and locate books on a given subject. Instead, LUMIN will do the work with the touch of a few buttons.

The new system will be dedicated in a ribbon-cutting ceremony at 10:30 a.m. Monday on the second floor of Ellis Library. University President Peter Magrath and Chancellor Barbara Uehling will attend.

LUMIN, an acronym for Libraries of the University of Missouri Information Network, is a university-wide, on-line catalog that will help researchers locate books by topic, author, title or call number, says Tom Shaughnessy, director of UMC Libraries.

Shaughnessy says the system is user-friendly. "LUMIN will prompt users and

even ask questions the researcher may not have thought of," he says.

For example, if a student is looking for information on traffic accidents, the computer will provide a list of more specific subcategories. "This saves several steps for students," Shaughnessy says. "It helps them get to specific information in one step instead of several."

The on-line system currently stores close to half a million of the library's 1.3 million titles. All material acquired since 1964 and about half of the serial titles have been converted to the on-line system. Shaughnessy says he hopes the project will be complete within a year.

The system will be interlocked to on-line catalogs at the libraries of all four University campuses, and Shaughnessy says the state library has also expressed the intention to join the network. By next fall, the computer system will be hooked into the campus' mainframe so that anyone who can access that system also will be able to examine the library's catalog.

The on-line catalog is only the first phase of the library's computerization project, which includes plans for an on-line circulation system and a computerized acquisition system.

CHRISTOPHER J. LUCAS, professor of higher and adult education and foundations, presented a paper, "The Humanities and Liberal Learning: Prospects for Revival," at the annual meeting of the American Educational Studies Association. He also delivered an address, "Civic Learning and the Humanities," at the National Seminar on Civic Learning in the Education of the Teaching Profession at Stanford University's Hoover Institution.

The late **C.E. MARSHALL**, former professor of agronomy, was honored with a posthumous award of "Distinguished Member," the highest award of the Clay Minerals Society, at the society's 21st annual meeting. His wife and daughter accepted the award. The award was presented by **WILLIAM D. JOHNS**, professor of geology, who also gave the introductory lecture at the session on clay organic interactions.

JUDITH MILES, assistant professor of child health, received a one-year grant of \$39,233 from the Missouri Department of Social Services for a study of "Missouri Genetics Disease Program."

F. MILTON MILLER, professor of practical arts and vocational-technical education, was elected president-elect of the National Association of Industrial and Technical Teacher Educators for 1985.

AGNES MOON, associate professor of physical medicine and rehabilitation, presented head trauma rehabilitation guidelines at the postgraduate course on rehabilitation of the brain-injured adult and child in Williamsburg, Va.

PATRICK N. PERITORE, associate professor of political science, presented a paper called "The Political Thought and Practice of Paulo Freire" at a conference on Marxism and religion at the University of Northern Iowa.

An article by **ROBIN A. REMINGTON**,

professor of political science, appeared in the November 1984 issue of Current History. Title of the article is "The Politics of Scarcity in Yugoslavia."

Remington also participated in recent conferences on Eastern European politics and presented the Barnette Miller Lecture at Wellesley College, where she was Barnette Miller International Relations Professor in the fall of 1984. Her talk was called "Alliance Politics, 1984: Policy Problems in Moscow's Back Yard." In addition, Remington was in Washington to serve on a panel, which reviewed applications for the 1985-86 Fulbright-Hays Doctoral Dissertation Research Abroad and Faculty Research Abroad fellowships.

PAUL RITCHIE, professor of physical education, was named the 1984 recipient of the Julian Smith Honor Award given by the Outdoor Education Council of the American Alliance for Health, Physical Education, Recreation and Dance. The award was established to honor the memory of Julian Smith who was a professor at Michigan State University and a pioneer in the field of outdoor education. It is given in recognition of meritorious service and major contributions to outdoor education to an active member of the National Outdoor Education Conference.

MARVIN L. ROGERS, associate professor of political science, gave a lecture called "Political Perspectives on Agricultural and Rural Development in the Third World" as part of the College of Agriculture's Seminar/Forum in International Agricultural Development. Rogers also attended the 33rd annual Midwest Conference on Asian Affairs at Washington University in St. Louis where he presented a paper titled "Changing Patterns of Political Involvement Among Malay Village Women."

Six UMC professors were selected as 1984-85 Fulbright Scholars. The professors have been or will be conducting research and lecturing abroad. They include: **JOHN M. POEHLMAN**, professor emeritus of agronomy, who will be lecturing at the University of Agricultural Science, Bangalore, India; **KATHLEEN WARNER SLANE**, assistant professor of archaeology, who conducted research in archaeology at the

University of Evora, Portugal; **ALLEN W. STURGES**, professor of curriculum and instruction, who is lecturing at the Prince of Songkla University, Pattani, Thailand; **ROBERT L. TERRELL**, associate professor of journalism, who is lecturing at the University of Nairobi, Kenya; and **PUNCKY P. HEPNER**, assistant professor of psychology, and **ROBERT F. SOLORAZON**, professor of veterinary microbiology, who are researchers in Sweden and Mexico, respectively.

SAUNDRA K. SCHNEIDER, assistant professor of political science, is co-author of an article appearing in the October 1984 issue of Comparative Politics. The article is called "The Impact of Political Participation on Social Policy Adoption and Expansion: A Cross-National, Longitudinal Analysis."

Several members of the division of immunology and rheumatology in the Department of Medicine gave presentations at the annual meetings of the American Rheumatism Association and the Arthritis Health Professions Association in Minneapolis. They were **RANDY D. ROBERTS**, instructor; **SARA E. WALKER**, associate professor; **DONNA J. HOLSTEN**, clinical instructor; **TERRY TENBRINK**, professor; and **GORDON SHARP**, division director.

DONALD SILVER, professor and chairman of the Department of Surgery, has returned from a People to People Vascular Specialist Delegation to Europe. Silver participated in seminars, symposia, facility visits, field trips and informal meetings with colleagues in England, Germany, Czechoslovakia, Sweden and France.

Also, Thornburg and graduate student **SHERRI GRIFFIN** co-wrote "Perceptions of Infant/Toddler Temperament in Three Child-Care Settings" for the January 1985 issue of Early Child Development and Care.

An article by **JEAN GADDY WILSON**, lecturer at the School of Journalism, was the cover story in the December 1984 issue of Ms. magazine. The article, an overview of women in the news media, included information and interviews from Wilson's research on the role and progress of women journalists.

An article by **H. RICHARD ADAMS**, professor and chairman of the Department of Veterinary Biomedical Sciences, appeared in the Nov. 1, 1984, issue of the Journal of the American Veterinary Medical Association. The article was called "New Perspectives in Cardiopulmonary Therapeutics: Receptor-selective Adrenergic Drugs."

UMC buys building from MFA

UMC has bought the MFA Inc. main office building at 201 S. Seventh St. The Board of Curators authorized the \$1.15 million purchase Feb. 8.

University units currently leasing office space and those that need high visibility and convenient visitor parking will have priority in moving into the building, says Duane Stucky, vice chancellor for Administrative Services.

Possible occupants include the administrative office of the University Extension Division, now located in Whitten Hall; Parking Operations and Visitor and Guest Relations, now located in Swallow Hall; and Personnel Services and Stenographic Services, now located in University Place.

The three-story MFA building contains 39,822 square feet. The surrounding property totals 1.65 acres. Bordered by Sixth, Seventh, Elm and Locust streets, the property is located within a block of the Francis Quadrangle and the new Elm Street entrance to the University.

The building contains 82 offices, open office space and executive office suites. There are 129 parking spaces with room for 40 more.

The property became available because MFA executive officers consolidated quarters with other MFA units.

JOBS

For more information on the following teaching and research positions, contact the appropriate individual listed below. All positions are contingent upon funding and enrollment.

- Agricultural economics**, Assistant professor, deadline April 15 (2). Contact Bruce Bullock, 882-3545.
- Anesthesiology**, Instructor/assistant/associate professor, deadline April 1. Contact G.W.N. Eggers, 882-2568.
- Child Health**: Assistant professor, assistant/associate professor, deadline May 31. Contact Giulio Barbero, 882-4932.
- Civil engineering**: Assistant/associate professor (2), deadline March 15. Contact John O'Connor, 882-6084.
- Computer science**: Assistant professor, deadline April 15. Contact Peter Ng, 882-3842.
- English**: Writing program director, deadline March 20. Contact Robert Breitenbach, 882-4368.
- Libraries**: Librarian I or II and medical cataloger, deadline Feb. 15. Contact Pat Burbridge, 882-4701.
- Medicine**: Assistant/associate professor, deadline May 15. Contact John Yarbro, 882-6163.
- Medicine**: Clinical assistant professor, deadline May 15. Contact Dennis Marienfeld, 443-2511.
- Neurology**: Associate professor, deadline May 31. Contact James Dexter, 882-3133.
- Special education**: Chairman, deadline April 1. Contact W.R. Miller, 882-8311.

The following staff openings were approved and posted Monday, Feb. 11, and may be filled at any time after meeting the required posting period. Anyone with CMS computer access may view campus and central administration vacancies by logging on to CMS and typing help jobs. Or, over the phone, a recorded listing of new job openings on campus and in central administration may be heard by calling 882-4221 after 5 p.m. weekdays and anytime on weekends. For more information or to apply for a job, contact the Personnel Office, 600 University Place, at 882-4221. Salary codes follow some listings in parentheses.

PROFESSIONAL

- Administrative associate II**, Engineering, located at UMKC; Surgery.
- Budget specialist**, Budget Development and Planning Services.
- Construction project manager**, Facilities management-UMca.
- Coordinator, development (research)**, Development, deadline Feb. 15.
- Industrial hygienist**, Environmental Health.
- Manager**, University Bookstore, deadline March 22.
- Manager, energy engineering**, Campus Facilities.
- Manager, technical services**, Academic Support Center.
- Personnel associate**, Personnel Services, deadline Feb. 22.
- Senior information specialist**, News Services, deadline March 1.

RESEARCH/SERVICE

- Assistant supervisor, building services**, Campus Facilities.
- Clinical specialist/nursing**, Continuing Medical Education.
- Electronics systems specialist (M-64)**, Campus Facilities.
- Health physics technician (M-61)**, Research Reactor-UMca.
- Laboratory storekeeper (M-56)**, Chemistry.
- Production assistant (M-53)**, KOMU-TV.
- Research/laboratory technician (M-56)**, Microbiology.
- Senior research engineering technician (M-63)**, Engineering, located in Kansas City.
- Senior research/laboratory technician (M-59)**, Child Health, Dalton Research Center, Experiment Station Chemistry Laboratory.

COMPUTER

- Computer programmer/analyst I**, Computing Services, Atmospheric Science.
- Computer programmer/analyst II**, Campus Facilities, Computing Services, Dean of Medicine.
- Principal programmer/analyst**, Computing Services.

CLERICAL

- Clerk typist (M-51)**, UED-UMC Conferences.
- Data entry operator I (M-53)**, ICA.
- Data entry operator II (M-55)**, Alumni/Development and Records.
- Secretary-stenographer (M-54)**, Cardiothoracic Surgery.
- Senior clerk typist (M-54)**, Art, ICA, Missouri-LINC.

- Senior stenographer (M-54)**, Education and Counseling Psychology, Student Recruitment/Admissions/Records.
- Switchboard operator**, Sinclair Research Farm-UMca.
- SECRETARIAL**
- Administrative assistant (M-59)**, Veterinary Biomedical Sciences.
- Library clerk III**, Ellis Library-General Reference.
- Secretary (M-55)**, CIS Services Operations-UMca, Medicine/Hematology-Oncology, Military Science, Parking Operations, Veterinary Medicine.
- Senior Secretary (M-57)**, Continuing Medical Education, Mechanical and Aerospace Engineering, University Relations-UMca.
- PART TIME OR TEMPORARY**
- Clerk typist II (M-53)**, Continuing Medical Education, 20 hours a week, located in Jefferson City; Statistics, full time, temporary until May.
- Laboratory assistant (M-53)**, Research Reactor-UMca, full time, temporary until Aug. 31.
- Mail clerk (M-52)**, Medicine, 15 hours a week, permanent, hours 9 a.m. to noon.
- Secretary-stenographer (M-54)**, Counseling Services, 15 to 20 hours a week, temporary until July.
- Senior research/laboratory technician (M-59)**, Biological Sciences, 20 hours a week, permanent.

- The following job openings were listed by the UMC Hospital and Clinics Personnel Department Feb. 11 and may be filled at any time after meeting the required posting period. For more information, call 882-8186.
- ADMINISTRATIVE/PROFESSIONAL**
- Associate administrator**, Ambulatory Care Activity-University Physicians.
- Graduate physical therapy assistant**, Physical Therapy.
- Manager**, Audiology/Communication Disorders, Ambulatory Surgery Unit, Physical Therapy.
- Occupational therapist**, Occupational Therapy.
- Patient assistance coordinator**, Patient Referral Services.
- Physical therapist**, Hospital Physical Therapy (2).
- Social worker**, Social Services (2).
- Senior information specialist**, University Physicians.
- Senior personnel associate**, Personnel Department.
- Supervisor**, Building Trades-Plant Engineering.
- CLERICAL**
- Medical records coder**, Medical Records.
- Senior clerk typist**, Nursing/Surgery Area.
- Unit clerk**, Nursing.
- Word processing operator II**, Purchasing.
- NURSING**
- 882-8701**
- Administrative nurse II**, Surgery.
- Education nurse I**, Surgery.
- Nurse anesthetist**, Anesthesiology.
- Staff nurse**, Nursing Services (3), Cardiac

- Catheterization Laboratory, Flight Nurse, Green Meadows Clinic, IV Therapy, Operating Room.
- Surgical technologist**, Operating Room.
- TECHNICAL**
- Biomedical equipment technician**, Clinical Engineering.
- Biomedical radiological technologist**, Clinical Engineering.
- Histologic technologist**, Histology.
- Medical technologist**, Pathology.
- Ophthalmic technician trainee**, Ophthalmology Clinic.
- Pharmacy technician**, Outpatient Pharmacy.
- Senior electroencephalography technician**, Clinical Neurophysiology Laboratory.
- Senior programmer/analyst**, Computer Services.
- PART TIME OR TEMPORARY**
- Data entry operator II**, Pathology (50 percent FTE).
- Licensed practical nurse**, Green Meadows Clinic (2), Nursing Care Bank.
- Medical technologist**, Pathology.
- Pharmacist**, Pharmacy (50 percent FTE).
- Pharmacy technician**, Pharmacy (75 percent FTE).
- Physical therapist**, Rehabilitation Services (50 percent FTE).
- Senior research lab technician**, Pathology.
- Staff nurse**, Nursing Care Bank, Nursing Service (1 position 30 percent FTE, 2 positions 60 percent FTE.)
- Venipuncture technician**, Pathology (3 positions 50 percent FTE).

The help Dad got was like a breath of fresh air.

Just a few months ago, we'd never have guessed there'd be so much to celebrate. Dad's emphysema made it hard for him just to walk across the room. Taking him to University Hospital helped change his life through their new Home Education and Treatment Program. He's back home now, doing some of the same things he's always enjoyed. And he feels like every day is a fresh start. Family celebrations have always been important. They're all the more special now... thanks to Dad's physician and the Staff for Life at University Hospital.

University of Missouri-Columbia

Nominate

Continued from Page 1

It takes only a couple of hours to fill out a nomination form, he adds. "It's time well spent. You can't afford not to do it." Nomination forms who have questions may call Staff Advisory Council members Rosemary Crane at 882-3625 or Donna Turner at 882-4694.

Nominations for Staff Recognition Awards should be sent to Crane, 223 Physics Bldg., by Feb. 28.

Nominations also are being accepted for the Mick Deaver Memorial Award, to be presented during the April 5 recognition ceremonies to a staff member who best exemplifies Deaver's gift for fostering good relations with students. The non-monetary award honors the late associate director of University police.

"Every office should nominate somebody," says Charles D. Schmitz, an associate professor of educational and counseling psychology who has nominated a Deaver award winner. "If you have an outstanding staff member, you owe it to the staff member and to the organization to recognize it. It sends an important message to other staff members: staff are important, and the University couldn't run without them."

Letters of nomination for the Deaver award should be sent to Turner, Missouri Testing and Evaluation Service, 403 S. Sixth St. by March 13.

"People need recognition and praise for what they do," Schmitz says. "As a society we don't spend enough time heaping praise on people."
