

MIZZOU WEEKLY

University of Missouri-Columbia November 1, 1985

Phone directories

The 1985-86 student, faculty and staff telephone directories are being delivered by Campus Mail Service. "We anticipate that all directories will be delivered by Nov. 15," says Jim Southern, manager of Campus Mail Service.

A directory will be issued for each telephone with an 882 prefix. University offices with other prefixes may pick up a pre-determined number of directories for their areas at Printing and Records Management Services, 417 S. 5th St., after Nov 15. With questions, call Regina Setser, assistant director of Publications, at 882-7357.

Individuals at each mail stop will be asked to sign a receipt to show that they have received a specified number of directories. After Nov. 15, offices that have not received a directory for each 882-prefix telephone should call Publications and Alumni Communication at 882-7357.

Directories also may be purchased for \$3 at the University Book Store.

Extension decision delayed

Curators seek more information on proposed plan to revamp extension.

The Board of Curators delayed action on a plan for the reorganization of the University's extension activities at its Oct. 24-25 meeting at the UMC Southwest Center near Mount Vernon, Mo.

The plan calls for the extension activities originating from Lincoln University, UM's four campuses and the 350 extension specialists in Missouri's 114 counties to operate under the single name of University Extension. Extension program directors would no longer be assigned to a specific school or college. Instead, program directors would be responsible for determining the priority of problems to be addressed, describing the priority problems and seeking proposals from faculty and staff throughout UM and Lincoln University for programs to address those problems.

The plan also calls for counties to be major program-planning units, with each county developing its own plan of work.

An extension committee organized a year ago to examine

the extension role sanctioned a statewide needs assessment, which involved sampling a large portion of Missouri's population. Twelve priority issues resulted from the assessment: economic development; health and nutrition; new business development; commercial agriculture; natural resources; lifelong education and training; profitability of agricultural enterprises; leadership capacity of Missourians; education needs of older Missourians; management of governmental jurisdictions; strength of families; and quality of public education.

Curators asked University administrators to provide additional information at the board's next meeting in December. Board members expressed concern for possible additional costs of administering the proposed extension programs and for setting priorities among the proposed program objectives. In a meeting of Faculty Council and chairs of divisional policy committees last week, faculty members said they should have had more involvement in developing the plan. (See related story on Page 3.)

In other business, the board:

- Entered into a five-year \$6.5 million lease-purchase agreement with General Telephone and Electronics Co. for a new telephone and data communications system for the Columbia campus to replace the obsolete Centrex system. The system will have special provisions for data transmissions, offering computer communication ports in residence

hall, offices, classrooms and laboratories. Considerable savings on telephone costs are expected after the system is paid for in five years. The system should be ready for use in early 1987.

- Selected the Campbell Design Group of St. Louis as architects to design two parking structures on the Columbia campus, to be built on lots WC7 and RC13. Construction could begin as early as spring 1986.

- Awarded a \$5.9 million contract to the John Epple Construction Co. of Columbia for completion of an addition to Ellis Library, which will provide space for offices, reading and book storage. The contract also covers remodeling of the first floor of the current library building.

- Approved a \$330,000 contract with Institutional Development Counsel of Bloomfield, N.J., for the purchase of a phone/mail support program to support UMC fundraising activities.

- Discussed enrollment plans of the campuses, which called for stronger efforts to encourage top students to attend the University and to meet affirmative action goals.

- Approved purchase of more than \$9 million in equipment for the UMC power plant. (See Oct. 18 Mizzou Weekly.)

- Authorized the University to create a self-insurance program for general and auto liability, since it has been unable to obtain such insurance through private firms.

Healthy attitude

UMC researcher discovers use for volunteer skills with United Way agency.

As a student, Mark Turrentine, MS '85, College of Veterinary Medicine researcher, volunteered in several area hospitals.

As a staff member, Turrentine found his volunteer niche as he paged through the newspapers one Sunday.

"I read an article about Columbia Medigroup, and it sounded like a good organization," he says. "The first night I was there, I knew I was going to enjoy it."

The satisfaction hasn't stopped. Each Monday evening from 6 to 10 p.m., he volunteers his time and talents to the health agency at 101 N. Tenth St., one of 29 local agencies that will benefit from UMC's United Way fund drive that began Oct. 3 and concludes Nov. 8.

"It's something I enjoy doing a lot," he says. "I've been fortunate. The community has been good to me so I think it's important to give something back."

Turrentine's duties range from checking patients in at the front desk to running lab tests. In between, he checks patients' vital signs. Patients are treated for almost any illness, including flu, colds, venereal disease, and cuts that are infected or need stitches.

One-half of the patients, Turrentine says, are from low-income and minority classes.

"I call them street people," he says. "They're the ones who are really sick. They don't have anywhere else to go."

The other half are middle-income family members who need a physical to participate on athletic teams or start a new job. Columbia Medigroup asks for a \$10 donation

for each treatment administered, but collection of dollars is not critical to the agency's bottom line.

"It's more important that people get the care than we get their money," Turrentine says.

What the agency is short of is time. Anywhere from 10 to 30 patients come to Columbia Medigroup each Monday for treatment. A volunteer staff of one physician, two to four examiners, three students and a dietitian often work until 10 or 11 p.m.

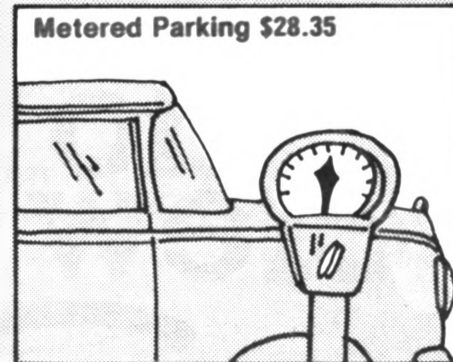

"We're big on preventive medicine for that reason," he says. "Wearing seat belts, quitting smoking, diet and nutrition, and long-range treatment of high blood pressure are stressed."

Further preventive care was provided by Columbia Medigroup in 1984 when a dental clinic was opened. Turrentine is glad the agency is affiliated with the United Way because medical care for the needy now can be improved.

"We'll get an extra \$5,000 to \$6,000 next year," he says. "We get by pretty well now, and we do a good job. But we always need more volunteers."

COMPARISON OF PARKING COSTS NEAR CAMPUS

Figures compare monthly parking rates on and near campus. Meter cost is based on a 160-hour work month.

PARKING OFFICE NAME CHANGES

Effective Nov. 1, Parking Operations will become Parking and Transportation Services.

The new name better reflects the unit's functions, says Manager Jim Joy. "We are becoming more and more involved with the bus system, and will be looking at mass transit as an alternative to campus core parking areas." The office now coordinates the entire campus bus system, including day and evening shuttles and a bus for the handicapped.

Joy notes that the campus parking committee's name also was changed this fall; it's now the parking and transportation committee. "The committee is dealing with

transportation issues during construction and as a long-term solution to parking needs," Joy says.

AGENCY PROVIDES INFORMATION ON SAVING ENERGY

Betty Hosokawa, director of the Employee Assistance Program, passes along this energy-saving tip to faculty and staff members.

For information about weatherization grants and loans, and housing rehabilitation programs, call the Housing Development Agency of Mid-Missouri, 800 N. Providence Road, telephone 875-5105.

Programs are available for renters and homeowners. Some have income requirements. With questions, call the HDA office between 8 a.m. and 5 p.m. on weekdays.

HRP SPONSORS FORUM ON AIDS

A faculty-student forum on "AIDS: Transmission and Concern for the Health-Care Worker," will be presented by Eddie Hedrick, manager of infection control, from noon to 1 p.m. Nov. 7 in MA217 Health Sciences Center Aud.

The forum, open to the public, is sponsored by the School of Health Related Professions.

KBIA SCHEDULES FUND-RAISER

KBIA 91FM, the University's radio station, hopes to raise \$75,000 during its fifth annual on-air fund-raising event Nov. 5 to 9.

During "Friendship Festival '85," listeners are invited to call in and request music when making their pledge. Special programming will highlight the regular schedule.

Money raised will go toward the deficit created by cuts in both federal and state funding, and be used for the continuing bail out of National Public Radio.

Pledges may be made by calling 442-7600.

LETTERS

Editor:

In the Oct. 18 Mizzou Weekly, natorium coordinator Bill Busch is cited as saying that students are paying for natorium services while members of the faculty and staff "don't pay anything." He is

mistaken. Payments made by students (called "activity fees") and those made by the faculty and staff (called "taxes") are named differently but that should not obscure the fact that the building and maintenance of such a facility rely on state funds derived, in part, from those whose limited opportunity to use the facility during the day can hardly be termed a "courtesy."

Tom Hurley
Assistant professor of child health

FOR THE RECORD

SAMEDAY SURGERY: The University Hospital and Clinics has opened a clinic offering one-day operations for patients who can recover at home. Hundreds of different types of surgeries can be performed in the SameDay Surgery Center. To learn more, call 882-2005.

PRESCRIPTION DISCOUNT: The pharmacy discount program at the UMC Hospital and Clinics offers UMC employees substantial savings on prescriptions written by any physician licensed in Missouri. The discount may be used by faculty and staff and their spouses and children. A UMC faculty/staff identification card must be presented. The Outpatient Pharmacy, 1E-73, is open from 8:30 a.m. to 5 p.m. weekdays. Call 882-4919 for more information.

FOOD PROGRAM: The Child Development Laboratory participates in the USDA Child Care Food Program. The laboratory, which is run by students in child and family development, provides meals at no separate charge to children. Eligibility for free and reduced meal reimbursement is based on income scales effective through June 30, 1986.

For more information, contact Kathy Thornburg, 32 Stanley Hall, 882-4318.

WOMEN AND AGRICULTURE: In the future, international agriculture projects at UMC will emphasize an often overlooked group—women and children. "As much as 90 percent of actual labor in many Latin American and African countries may be performed by women and children," says Mike Nolan, assistant dean for international agriculture. "Our goal is to create an awareness of this fact among researchers who are planning development projects so that our efforts can benefit the entire society."

HOUSE SITTER: Beginning in February, a staff member and her husband will house sit in exchange for all or part of rent during sabbaticals and vacations. The couple will care for the home, plants and pets and provide maintenance. Call Laura Wright at 445-7774 or 882-7448.

EXXON GIFT: Exxon Corp. has presented UMC a \$20,000 gift to be used by the departments of Chemical Engineering, and Mechanical and Aerospace Engineering.

"Exxon's longstanding relationship with UMC has been to our mutual benefit. We depend on this University and others to supply us with high-quality engineers, the backbone of

our business," says C.B. Friedersdorf, BS ChE '71, of Exxon. "This is a way in which we can invest in that process."

NURSING GRANT: The School of Nursing has received an \$87,834 grant from the U.S. Department of Health and Human Services for continuing education in gerontological nursing.

GRANT: UMC has received a one-year \$581,862 grant from the National Institutes of Health for equipment, alterations and renovations for animal research facilities. UMC will contribute \$369,253 to the project.

The funds will be used by the Division of Biological Sciences, School of Medicine and College of Veterinary Medicine.

HEARNES COMMITTEE UPDATE: The task force recently appointed to study the use of the Hearn's Multipurpose Building includes Dan Viets, a second-year law student.

CHANCELLOR HONORED: Chancellor Barbara S. Uehling has been named Northwestern University's Alumna of the Year. The award is given by the Alumnae of Northwestern University to recognize graduates who have brought honor to Northwestern through significant contributions to their chosen field of endeavor.

Uehling holds master's and doctoral degrees in experimental psychology from Northwestern.

MAGRATH ELECTED: UM President C. Peter Magrath has been elected chair of the executive committee of the Association of American Universities. He has been a member of the committee since 1981 and served as its vice chair for the past year.

The campus turn-offs. Confessions of a man in Energy Management.

I get turned-on when other people turn things off. Lights, radios, air-conditioners, coffee pots. Anything that's using electricity needlessly—and wasting the University's bucks.

That's why Peak Alerts excite a watt-watcher like me. I mean, I've been out there campaigning with Watty Watts, asking for cooperation and then Pffft... all over campus people pull plugs! Back at the power plant little gauges start slowing down... which means that down at the bank big savings start piling up.

It's true power turns me on. So thanks for turning yours off during Peak Alert. We saved a bundle.

UMC LISTED IN COLLEGE GUIDES

UMC is among more than 200 colleges listed in "The Best Buys in College Education," compiled by Edward B. Fiske, education editor of The New York Times.

The guide points out that Mizzou offers a variety of programs, and is especially strong in journalism, creative writing, agriculture, biology, geology, business and accounting.

Although the University has had money problems, the book says that the hiring of President C. Peter Magrath, a successful fund-raiser, may help the financial future.

Mizzou alumni include Sam Walton, AB '40, owner of the

Wal-Mart store chain, listed by Forbes magazine as the richest person in the United States, and eight Pulitzer Prize-winning journalists.

UMC also was included in the fourth edition of "Peterson's Competitive Colleges," published by Peterson's Guides, the Princeton-based publisher of education and career reference materials.

The new edition presents comparative data on 316 colleges that consistently have more undergraduate applicants with above-average capabilities than they can accept.

HOSPITAL OFFERS COURSE IN CPR

The UMC Hospital and Clinics is offering a course in cardiopulmonary resuscitation for faculty and staff.

The three-hour Heart Saver Course will be offered at two different times: from 6 to 9:30 p.m. Nov. 20, or from 6 to 9:30 p.m. Dec. 11. Fee is \$5.

To register, call Education and Training at 882-3880. Enrollment is limited.

Faculty Council discusses proposed extension plan

Faculty members discussed a proposed reorganization of extension activities at a joint meeting of Faculty Council and divisional policy committee chairs Oct. 24. (See related story on Page 1.)

"The plan probably doesn't contain a reasonable implementation of academic components of extension activities," said Truman Storvick, chair of Faculty Council and professor of chemical engineering. Storvick called the meeting to discuss agenda items for the policy committees and Faculty Council to work on this academic year.

Many of the faculty who attended the meeting said they had not seen the extension plan. "We don't know enough about it, and a good deal more has to be done to make the plan academically credible," Storvick said. "It's discouraging to faculty that we weren't consulted more than we were."

Council vice chair Richard Dowdy, associate professor of human nutrition, foods and food systems management, said, "My difficulty with the plan is that it neglects the other two land-grant responsibilities, teaching and research. To jump around from problem to problem gives a lack of continuity to departments' efforts in teaching and

research." The plan proposes that program directors determine the priority of problems to be addressed and seek proposals from faculty and staff throughout UM and Lincoln University for programs to address those problems.

Council member Betty Crim, associate professor of nursing, objected to a portion of the proposal that called for each county to develop its own plan of work. "Dividing the state into 114 counties is not efficient."

Jack Timmons, associate professor of community development, was supportive of the plan. "It says there are certain major problems in the state, and attacks those problems. It proposes to do what we've said for years we do in extension, which is respond to local problems."

In response to faculty concerns, Faculty Council will appoint an ad hoc committee to review and make recommendations regarding the extension plan, Storvick said.

Other agenda suggestions related to distribution of Weldon Spring funds, the need for a faculty club, the possibility of terms of office for administrators, communication between faculty and deans, providing office space for retirees, the possibility of reviews of administrators, and parking.

Staff Council hears about improvement group

Short, but constructive is how Staff Advisory Council Chair Wilfred "Butch" Tolson, manager of patient admissions, described the executive committee's time with the committee on improving the University of Missouri Oct. 21.

"They wanted to know what Staff Council was all about, how we relate to UM, which we really don't, and how we relate to the UMC campus," Tolson said at the group's Oct. 24 meeting. "They were interested in the fact that Staff Council is elected and represents staff campuswide."

Jo Pflieger, administrative assistant in Veterinary Microbiology, said she believes the improvement committee would like to eliminate the chancellor's position. "We didn't want to support that in any way, shape or form. We told the committee what it was like to be on staff here before Chancellor Barbara S. Uehling arrived."

Tolson said the chance to be represented and heard in the operation of UMC is the most important opportunity Uehling has given staff during her tenure.

In other business, Jim Bonuchi, council vice chair and mechanical trades specialist/electrician, said election ballots will be mailed Nov. 8 and the deadline for their return is Nov. 15. Results will be printed in the Nov. 22 Mizzou Weekly.

"We had some excellent candidates this year," he said. "I'm excited about the elections." Bonuchi urges all department heads to post election flyers to remind employees to vote.

Gary Fields, mechanical trades specialist/refrigeration in Campus Facilities and co-chair of the staff benefits committee, reported that letters have been sent to other Big Eight and Big Ten schools to determine the extent of their educational assistance to employees' children. The committee has not yet received any responses. Martha Magill, senior adviser for the College of Arts and Science, hopes that responses "will give us some ammunition" to gain educational assistance for children of UMC employees.

Other business conducted by the committee included receiving positive responses from the History, Statistics and Geography departments concerning scheduling of night classes, and the addition of at-large member James Oglesby, director of Facilities Utilization, to the committee. The committee also is planning to meet with Personnel Services regarding the job classification system.

In old business, a motion was passed to form a committee to examine the nomination/election process of Staff Recognition Awards. Jeanette Jefferson, licensed practical nurse, will head the committee. The awards will be presented during Staff Recognition Week March 31 to April 4.

Parking and Transportation Services is the new name of our office. We believe that this change will better reflect the responsibilities of our unit since the expansion of the student shuttle services.

The next campus Parking & Transportation Committee meeting is scheduled for Friday, November 8th at 2:30 p.m. in the Memorial Union Auditorium. Jack Robinson and members of the Campus Planning Committee will give a presentation of the UMC Campus Master Plan.

SUN Noon-Midnight

Stress Management Group for Faculty and Staff with diagnosed hypertension begins Tuesday, November 5 at 7 p.m.

Sponsored by UMC Counseling Services
Six 1 1/2-hour sessions
Call 882-6601 to register.

VOTE FOR STAFF VOICE

Seventeen staff members are candidates for five positions on the Staff Council, a group that serves as an advisory board to the chancellor.

Mizzou Weekly asked each contender to describe current employee issues and how he or she would contribute to the council.

Ballots will be mailed to all staff members who are 75 percent FTE or more Nov. 8. Those who do not receive a ballot by Nov. 13 should contact Jo Pflieger, election committee chair, at 882-7347.

One opening exists in administrative/professional, crafts/maintenance and technical/paraprofessional. Two openings will be filled in secretarial/clerical. Those whose terms expire and their peer-group category are Wilfred "Butch" Tolson, administrative/professional; Jim Bonuchi, crafts/maintenance; Kathleen Edwards and Barbara Olson Smith, secretarial/clerical; and Jeanette Jefferson, technical/paraprofessional. Edwards and Smith are running for re-election.

Employees vote only for candidates within their peer group.

Election results will be announced in the Nov. 22 Mizzou Weekly. New council members will begin three-year terms in January.

Administrative/professional

Linda Holsinger, an executive staff assistant I for the College of Agriculture dean, has worked for UMC for 10 years.

Employee issues, she says, are the need for competitive staff salaries that will be adjusted with the cost of living, and staff benefits that include an early retirement incentive program.

If elected, Holsinger says she would "be a good listener, but I just don't listen and tuck things away. I'm a doer. I like results. I'm also a positive person. I'm proud to be associated with the University. Though morale sometimes is low, it never gets me down. There's always a positive side to everything."

George Hough, ticket manager in Intercollegiate Athletics, has been employed by UMC for 17 years.

Campus issues, he says, are the parking fee increase, staff salaries compared with other Big Eight/Big Ten schools, reductions in retirement benefits for early retirees, and job security for staff with an established record of service. "There should be some sort of consideration for employees who have functioned properly and done their duties well," Hough says.

If elected, "I would attend all meetings, offer ideas, seek alternate ways to fund parking and ways to upgrade staff salaries, and work to solve other problems."

Mary Porter, an administrative associate in the Anthropology Department, has been with UMC for 14 years.

"One major issue is the lack of respect and recognition shown to staff, regardless of position," she says. "Improving channels of communication between administrators and faculty and staff is a critical issue." Porter advocates departmental or divisional programs to recognize employees.

"Inconsistencies in job titles and descriptions is another concern. People with identical titles often perform widely varying tasks, but their salaries are in the same range."

If elected, Porter would focus on improving communication and morale.

Sue Turner, manager of business and fiscal operations in the Child Health Department, has worked with the University since 1960, except for a one-year interruption in service.

"Employee issues are biased by location, but parking is of concern throughout the campus," she says. "Continued improvement of benefits is another issue. I think we have an excellent staff benefits program now, and I don't want to see it backslide." Retirement benefits for employees who have had a break in service is one possible area of improvement, Turner says.

If elected, "I would contribute with a willingness to listen, and with concern, enthusiasm and interest."

Larry Windmoeller, assistant manager of Pharmacy Services, has worked at UMC for five years.

An examination of the mission of both the campus and the UMC Hospital and Clinics is in order, he says. Windmoeller says that employees in both areas have similar concerns, such as job security and their purpose.

"There are going to be a lot of changes. People are going to have to change and adapt more quickly than in the past."

If elected, Windmoeller says he will bring a broad perspective to the council. "We should focus on what we do the best, rather than trying to be everything to everyone."

Crafts/maintenance

Duane Ederati, a stationary engineer in the Power Plant, has worked for the University for 10 years.

Cost of staff benefits is a major employee issue, Ederati says. "It seems to me that the wages you get are eaten up by your staff benefits premiums."

Other major campus issues, Ederati says, concern salary levels and the parking situation.

If elected, he says he would work hard to improve the relationship between employee and employer.

"I'll do whatever is needed to improve communication between labor and management," he says.

Henry Tharp, supervisor of stage services in the Speech and Dramatic Art Department, has been with the University for 11 years.

"Tenure for staff, or some kind of job assurance, should be an issue," he says. An early retirement program for staff also should be investigated, Tharp says. "I'm not sure it's possible, but I would like to see a serious study of these two items to see if there is any possibility of enacting something along these lines."

If elected, Tharp says he would bring a unique perspective to the council. "I have been both faculty and staff in the past 11 years, so I have two different points of view of the campus."

Hal Witt, assistant lab mechanic in the School of Forestry, Fisheries and Wildlife, has been with the University for nine and a half years.

"A major concern of employees," he says, "is facing a termination because of lack of funds." In addition, Witt says, "There are people on campus who would like to be upgraded but are trapped in their present jobs because in-house training isn't available."

Witt also says current benefits should not be eroded. "We receive a raise and then have an increase in parking fees. What's the sense in raises if we have to give the money back?"

If elected, "I would like to help bring about changes deemed important by the council."

Secretarial/clerical

Linda F. Catron, a clerk typist II in Purchasing, has been with UMC for three years.

Salary levels, training and promotional opportunities, affordable medical insurance and parking are major employee issues, she says. In addition, Catron says the council should be concerned with the University's future development, particularly in the areas of attracting lucrative research grants and maintaining high academic standards.

If elected, Catron says she would contribute to the council through her aptitude for business management, a practical point of view, and a concern for the best interests of the University, its employees and students.

Peter Dohm, a chief accounting clerk for the Engineering Experiment Station, has worked for UMC for six and a half years.

Employee issues, he says, are increasing salary gaps between lower and upper job classifications due to percentage raises, lack of funds available for merit raises, and the need for programs that provide staff with the opportunity to further develop job skills.

If elected, Dohm says he will contribute to the council through good listening and communication skills. "I believe my co-workers consider me to be fair and honest when they ask for my opinion," he says.

Mary Hinton, a chief switchboard operator in Telephone Services, has worked for UMC for 4 years.

Hinton says current employee issues include salaries, non-functioning equipment and physically deteriorating work environments, improving communication between management and staff, lack of job-duty descriptions, and staff benefits.

Hinton says employees should be allowed to use personal days in increments of hours as well as whole days. She also supports a clearer presentation of benefits to foster better use by staff.

If elected, "I would like to assist the council in becoming a true representative of University staff."

Cynthia McLaughlin, a copywriter for KOMU-TV, has been employed at UMC for almost one year.

"I think people are satisfied with staff benefits as a whole, but it gets down to bread and butter," she says. "The benefits package is good, but competitive market salaries and a great benefits package is better. It would keep a wealth of experience and talent at the University and attract other well-qualified personnel."

If elected, McLaughlin says she would contribute "a personality that doesn't quit until the job is done. I'm a communicator by trade and I have to interpret varying views every day. I've had experience with diplomacy."

David Melegrito, a unit clerk in nursing services, has been with UMC for seven years.

Parking, underfunding, staff benefits and educational assistance for children of UMC employees are current employee issues, he says. "Kids will stay here and go to school if we have a good educational assistance package."

If elected, Melegrito says his experience of working at the hospital and on campus would be beneficial to the council. "I've been exposed to the problems of faculty and staff, so I can bring a new perspective." Also, he says, "My sense of pride in and loyalty to the University are qualities I would like to impart to the council."

Barbara Olson Smith, a senior secretary in Special Education, has been with the University for 24 years. She is running for re-election after three years on the council.

"I find continued frustration among employees seeking transfer through the personnel office to a higher job classification," Smith says. "It seems a judgment is made regarding qualifications without counseling with the employee." Another issue, Smith says, is that "many employees cannot leave work to take a UMC course."

If elected, Smith's priorities would be educational-assistance benefits for dependent children, 24-hour child care for employees' children and evening course offerings.

Technical/paraprofessional

Kathleen Edwards, a library assistant I in Ellis Library, has been with UMC for six years. She is seeking re-election after three years on the council.

"Many employees would like to see some basic subjects offered in the evening. I'm also hearing a great demand for educational benefits for employees' dependents." Other issues include salary levels and structures, and financing the campus parking structure with employee parking fees, she says. Areas deserving study, Edwards says, are vision insurance and comprehensive child care for employees' children.

If elected, Edwards plans to continue her work on the council's staff benefits and development committee.

Bill Bennett, a senior electronics technician in the Electronics Instrument Laboratory, has been with UMC for eight years.

He cites pay and recognition as employee issues. "Sometimes, there's not really a feeling of being solidly connected with the University." Another issue concerns job duties. "I work out of the range of my title. I requested a reclassification a year ago and haven't heard back. I don't know if that's typical, but being on the council would broaden my horizons in that respect."

If elected, Bennett would encourage the council to provide information about UMC's accomplishments to HERO "to aid its efforts in lobbying on behalf of the University."

Carol Romano, a library assistant I in Ellis Library, has worked for UMC for eight years.

Pay is the main issue for University employees, she says. "If you pay somebody enough, they won't care where they have to park. It's time for employees to approach the legislature themselves." Lack of unity, parking, and time for employees to take classes also are employee issues, she says.

If elected, Romano says she would bring a sense of humor to the council. "It might make me seem too flip, but to be able to diffuse a situation that has ill will or irony in it is important."

MIZZOU PEOPLE

H. RICHARD ADAMS, professor and chair of veterinary biomedical sciences, was the keynote speaker at the Southwest Section of the Society for Experimental Biology and Medicine's Symposium on Circulatory Shock, held October 4-5 in Oklahoma City.

JOHN E. BAUMAN, professor of chemistry, spoke on "Descriptive Chemistry for High School Teachers" at the annual meeting of the American Chemical Society in Chicago. He also hosted the Missouri Alumni Hour and represented UMC at the council meeting.

RALPH C. BEDELL, professor emeritus of education, was named a Distinguished Senior Contributor to Counseling Psychology at the annual convention of the Division of Counseling Psychology of the American Psychological Association in Los Angeles. Sigma Tau Gamma fraternity also awarded Bedell with two honors at its 1985 Conclave in Oklahoma. They dedicated the conclave in his name and presented him with the Distinguished Achievement Award of Sigma Tau Gamma. Currently, Bedell is a consultant on teacher education to Prince of Songkla University in Thailand.

ROBERT A. BENFER, professor of anthropology, and G.H. Weir and John G. Jones, both of Texas A&M, presented a paper called "Pre-ceramic to Early Formative Subsistence on the Central Coast of Peru" at the 50th annual meeting of the Society for American Archaeology in Denver.

M.J. BOJRAB, professor of veterinary medicine and surgery, presented a paper, "Current Techniques in Soft Tissue Surgery," to the Toronto Academy of Veterinary Medicine's meeting. He also presented "Surgery of Head and Neck, Ear Disease and Related Surgeries" to the Nevada Veterinary Medical Association meeting in Reno, Nev.

PAUL W. BRAISTED, interim assistant dean of the College of Engineering, was recently elected an American Society of Mechanical Engineers Fellow by the society's board of governors. The designation Fellow is the highest grade of membership in ASME. The Fellow certificate and emblem were presented by William R. Kimel, dean of the College of Engineering, at a meeting of the Engineering Alumni Organization Oct. 19.

ELIZABETH READ BROWN, widow of Harry G. Brown, professor emeritus of economics, was honored by a unanimous resolution of the Missouri House of Representatives during the 83rd General Assembly. She was commended for her long record of scholarship and support of site value taxation. She was her spouse's collaborator for many years.

GORDON D. BROWN, professor and director of the Health Services Management Program, was elected chair of the board of the directors for the Association of University Professors in Health Administration for the 1986-87 year.

MARTIN CAMARGO, assistant professor of English, received a grant from the American Council of Learned Societies to attend the fifth biennial Congress of the International Society for the History of Rhetoric at St. John's College in Oxford, England, late last summer. He read a paper at the conference, called "Geoffrey of Vinsauf and the *Ars Dictaminis*."

BILLY DAY, professor of animal science, **FREDERICK VOM SAAL**, assistant professor of biological sciences, and **V.K. GANJAM**, professor of veterinary biomedical sciences, are the recipients of a \$139,000 grant from the Department of Agriculture for their project, "Effect of Intrauterine Position on Subsequent Reproductive and Behavior in Swine."

JUNE DEWESE, librarian III in the Social Sciences Library at Ellis Library, was elected vice-chair/chair-elect of the

Missouri Association of College and Research Libraries.

PHYLLIS DRENNAN, dean of the School of Nursing, has been elected to the National League for Nursing Appeal Panel for Baccalaureate and Higher Degree Programs to serve as nurse educator member for a three-year term.

MICHAEL DYRENFURTH, professor of practical arts and vocational-technical education, received the Outstanding Service Award of the Missouri Vocational Association. Dyrenfurth is also the vice president of the Industrial Arts Division of the American Vocational Association.

PAUL E. EHRlich, professor of mathematics, was named the new Luther Marion DeFoe Distinguished Professor of Mathematics by College of Arts and Science Dean Milton Glick. This professorship is a three-year appointment that is named after DeFoe, who taught mathematics at UMC for 41 years.

DAVID EMERICH, assistant professor of biochemistry, has received a \$110,000 grant from the U.S. Department of Agriculture for his grant, "Symbiotic Nitrogen Fixation: The Role of Organic Acids."

RAYMOND ETHINGTON, professor of geology, is the recipient of the Distinguished Service Award of the Society of Economic Paleontologists and Mineralogists in honor of his contributions to both the society and to the science. He initiated the society's popular Special Publications Series of books on select geologic topics.

SHIRLEY J. FARRAH, instructor of nursing and director of the Continuing Education Program in the School of Nursing, was named Nurse of the Year by the Seventh District Missouri Nurses' Association, the Mid-Missouri branch of the American Nurses Association.

LOUANNA FURBEE, professor of anthropology, and Felipe Huayhua Pari of the Universidad Nacional Mayor de San Marcos in Lima, Peru, presented a paper, "Las Creencias Aymaras Sobre las Enfermedades," in a symposium on Cognitive Patterns in the Andes at the 45th International Congress of Americanists, Bogota, Colombia, in July.

GERALDINE M. GOOSEN, assistant professor of nursing, has been named an American Nurses' Foundation Scholar and awarded a \$2,460 grant to conduct research on "Beta Endorphin Levels in Trauma Patients: A Pilot Study."

ELEANOR GREEN, assistant professor of veterinary medicine and surgery, presented "Carbohydrate Induced Endotoxemia" to the Equine Colic Seminar and Research Symposium held at the University of Georgia.

WILLIAM HOLTZ, professor of English, is the author of several scholarly papers. He published "Sherwood Anderson and Rose Wilder Lane: Source and Method in Dark Laughter" in the *Journal of Modern Literature*, and "The Rose Wilder Lane Papers" in *The Annals of Iowa*.

GARRETT HONGO, assistant professor of English and poet-in-residence, is the author of several recently published poems. They are: "Metered Onramp," published in *The Reaper*, "96 Tears," published in *The Minnesota Review*, and "Morro Rock," published in *Field*.

KARLA HUGHES, state specialist in food and nutrition, received the Vice-President's Award for outstanding extension program achievement. She received it on Oct. 18 at UMC's in-service education conference for extension staff.

THOMAS HURLEY, assistant professor of child health, has received a \$105,615 grant from the U.S. Department of Health and Human Services for "Second Messenger Function in Exocrine Glands."

PHILIP JEN, associate professor of biological sciences, has received a \$60,746 grant from the Department of Health and Human Services for "Cerebellar Activity During Sound Stimulation and Emission."

GARY JOHNSON, assistant professor of veterinary pathology, presented a paper, "Von Willebrand's Disease in Airedale Terriers," to the Airedale Terrier Club of America meeting in Philadelphia.

BRENT JONES, assistant professor of

veterinary medicine and surgery, presented the papers, "Introduction to the Principles of Endoscopy," "Techniques of Esophagoscopy," "Techniques of Gastroscopy," "Techniques of Colonoscopy," "Techniques of Bronchoscopy," "Techniques of Rhinoscopy," "Techniques of Laparoscopy" and "Endoscopy Wet Lab," to the Midwest Regional American Animal Hospital Association's annual meeting in St. Louis. He also presented "The Use of Liver Function Tests: A Clinician's Perspective" and "Liver Biopsy Techniques" to the Interstate Veterinary Medical Association meeting in Sioux City, Iowa, Oct. 9-11.

MARY LAGO, professor of English, is the author of the recently published second volume of "Selected Letters of E.M. Forster" and co-editor of the "Calendar of the Letters of E.M. Forster."

JIMMY LATTIMER, assistant professor of veterinary medicine and surgery, presented a paper, "Intravenous Radiation Therapy," at the seventh International Veterinary Radiology Conference in Dublin, Ireland.

MARTHA JO MARTIN, assistant dean in the College of Home Economics, attended a leadership development workshop in Alexandria, Va., sponsored by the American Home Economics Association. Martin divided her time between devising a strategic plan for Missouri, visiting the AHEA national office, and discussing issues affecting families with legislators in Washington, D.C.

MARIAN A. MINOR, clinical instructor in the School of Medicine, has been named Humanitarian of the Year by the Midland Empire Arthritis Center of St. Joseph. She received the award at a banquet in her honor Sept. 28, and was the featured speaker at the Midland Empire Arthritis Center's annual Arthritis Awareness Day Sept. 29. Her topic was "Exercise and Arthritis." She is the principal investigator of a research project on the feasibility of an exercise program for arthritis patients.

LEROY OLSON, professor of veterinary pathology, presented a paper, "Immunizing Turkeys for Fowl Cholera," at the eighth International Congress of the World Veterinary Poultry Association in Jerusalem.

DAVID PINTEL, assistant professor of microbiology, has received a one-year \$81,037 grant from the Department of Health and Human Services for "Molecular and Genetic Analysis of MVM Gene Expression."

MICHAEL PORTER, assistant professor of speech and dramatic art, reports that AT&T gave a \$34,000 grant for a graphics computer. It will be used by students in production courses.

MICHAEL C. ROBBINS, professor of anthropology, and John S. Thomas of the University of Southern Alabama at Mobile, have published a paper called "Social Status and Settlement Pattern Features: A Tojolabal Example" in a 1985 issue of *Human Organization*.

JOHN A. ROBERTS, professor of health and physical education, is the co-author of a kinesiology textbook to be published this month, "Introduction to Biomechanics."

RALPH M. ROWLETT, professor of anthropology, published an article, "Archaeological Evidence for Early Indo-European Chieftains," in a 1985 issue of *Journal of Indo-European Studies*.

JOSEPH A. SILVOSO, professor of accounting, attended a meeting of the board of directors of the American Institute of Certified Public Accountants in New York. They discussed international developments and institutional business.

ROBERT F.G. SPIER, professor of anthropology, published two articles, "Floor Saw or Ice Saw?" in a 1985 issue of *Chronicle of the Early American Industries Association*, and "Shakespeare and Farming: the Bard and the Tusser" in *Agricultural History*.

VINCENT ST. OMER, professor of veterinary biomedical sciences, was an invited participant in the symposium and workshop, "Design Considerations in Screening for Behavioral Teratogenesis: Results of the Collaborative Behavioral Teratology Study." He was co-principal investigator of

the part of the study conducted at UMC. The conference, sponsored by the National Center for Toxicology Research, National Institute of Occupational Safety and Health, the Environmental Protection Agency and the National Toxicology Program, was held in Cincinnati.

RICHARD B. TAYLOR, spectrometrist in the Department of Chemistry, presented a paper, "Determination of 195pt-1H Coupling Constants by Chemical Shift Correlation NMR Spectroscopy with Proton Homonuclear Decoupling," co-written by **TUCK C. WONG**, associate professor of chemistry and director of the Nuclear Magnetic Resonance Facility, and R.A. Ekeland, at the annual meeting of the American Chemical Society in Chicago.

PATRICIA TIMBERLAKE, librarian III in the General Reference Department of Ellis Library, was elected treasurer of the 1,200-member Missouri Library Association.

WITOLD TOMASIK, postdoctoral fellow in chemistry, presented a paper, "B-Nitrosamino Aldehydes: Intermediates in their Nitroso Transfer Reaction," co-written with **RICHARD N. LOEPPKY**, professor of chemistry, at the annual meeting of the American Chemical Society in Chicago. Loepky also presided at the organic session on synthetic methods.

MANUEL TORRES-ANJEL, associate professor of veterinary microbiology, presented "Hormonal and Nutritional Aspects of Bovine Paralytic Rabies Infection" to the tenth Pan-American Congress of Veterinary Medicine and Zootechnics and fifth Argentine Congress of Veterinary Sciences meetings in Buenos Aires, Argentina, in late September.

MARGARET TURK, assistant professor of veterinary pathology, presented a paper, "Pathologic and Immunologic Responses of Ponies to Repeated Infections of *Strongylus Vulgaris* followed by Sequential Ivermectin Treatments," to the Equine Colic Research Symposium at the University of Georgia Oct. 1-3.

J.E. WAGNER, professor of veterinary pathology, presented a paper, "Laboratory Animal Resources in the Americas," at the tenth Pan American Congress of Veterinary Medicine and Zootechnics in Buenos Aires, Argentina. While there, he served as temporary adviser to the PAHO Panamerican Zoonoses Center and helped present a six-day workshop, "Resources Available in the Americas for the Production and Use of Laboratory Animals."

DOROTHY WATSON, professor of curriculum and instruction, has been elected to chair the elementary section nominating committee of the National Council of Teachers of English.

CYNTHIA WHEELER, assistant professor of veterinary medicine and surgery, presented "A New Angle on Glaucoma Filtering Procedures: Preoperative Subconjunctival Injection of Triamcinalone," to the annual meeting of the American College of Veterinary Ophthalmologists held recently in San Francisco. She also presented "A New Angle on Glaucoma Filter Procedures" to the Midwest Ophthalmologists meeting in Madison, Wis., Oct. 8-9.

KIM WISE, associate professor of microbiology, and **MARK MCINTOSH**, assistant professor of microbiology, have received a \$140,000 grant from the U.S. Department of Agriculture for their study, "Immunologic and Molecular Genetic Determinants in Mycoplasma Pneumoniae of Swine."

W. RAYMOND WOOD, professor of anthropology, has published "Physical Anthropology in the Plains" in *Quarterly Review of Archaeology*, and "Review of: The Archaeology of Colorado" in *Missouri Archaeological Society Quarterly*. Wood and **MICHAEL J. O'BRIEN**, associate professor of anthropology and director of the Division of American Archaeology, presented a paper on "The Impact of Federal Legislation on the American Midwest" at the 50th annual meeting of the Society for American Archaeology in Denver.

CALVIN WOODRUFF, professor of child health, has received a \$65,000 grant from the U.S. Department of Agriculture for "Vitamin A Requirements of Preterm Infants."

JOBS

For more information on the following teaching and research positions, contact the appropriate individual listed below. All positions are contingent upon funding and enrollment.

- Economics:** Assistant professor-econometric theory, deadline Jan. 1. Contact Maw Lin Lee, 882-2777.
- Economics:** Assistant professor-international trade, deadline Jan. 1. Contact Maw Lin Lee, 882-2777.
- Extension education:** Associate/full professor, associate agricultural editor and assistant director of extension information, deadline Dec. 1. Contact Richard Lee, 882-2480.
- Intercollegiate athletics:** Assistant coach, gymnastics, deadline May 1986. Contact Jake Jacobson, 882-6501.
- Libraries:** Librarian I or II and science librarian, deadline Jan. 31. Contact Pat Burbridge, 882-4701.
- Pharmacology:** Research associate, deadline Dec. 1. Contact Hyun Dju Kim, 882-7186.

The following staff openings were approved and posted Oct. 28 and may be filled at any time after meeting the required posting period. Anyone with CMS computer access may view campus and UM vacancies by logging on to CMS and typing help jobs. If your terminal is not linked to the campus disk, type link UMCCMS 191 192 RR, enter, access 192 D, enter, help jobs. Or, over the phone, recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916. For more information or to apply for a job, contact Personnel Services, 201 S. Seventh St., west entrance, at 882-7976. Salary codes follow some listings in parentheses.

PROFESSIONAL

- Administrative associate I,** Agriculture Dean's Office, 75 percent FTE, hours 8 a.m.-2 p.m. weekdays.
- Assistant editor,** Practical Arts and Vocational-Technical Education.
- Assistant supervisor, building services,** Campus Facilities.
- Assistant supervisor dairy operations,** Dairy Science.
- Chemist,** Environmental Trace Substances Research Center-UM (2).
- Continuing education coordinator,** Child Health (position located in Jefferson City).
- Coordinator, student financial aids,** Student Financial Aids.
- Coordinator, media communications laboratory,** Academic Support Center.
- Cultural heritage projects coordinator,** Missouri Cultural Heritage Center, deadline Nov. 15.
- Customer service representative,** Printing and Records Management Services-UM.
- Director, development fund,** Development Fund.
- Energy management engineer,** Campus Facilities (one electrical distribution design engineer, one facilities design engineer and one energy management systems engineer).
- Senior continuing education coordinator,** Engineering Extension.
- Student services coordinator,** Student Development.

RESEARCH/SERVICE

- Electronics technician (M-60),** Graduate School/Research Electronics Instrument Shop.
- Electronics systems technician (H-50),** Campus Facilities.
- Engineering technician (M-61),** Campus Facilities.
- Laboratory assistant (M-53),** Dairy Science.
- Platemaker (H-24),** Printing and Records Management Services-UM.
- Pressman male or female,** Printing and Records Management Services-UM.
- Production assistant (M-53),** UED-Information.
- Research engineering technician I (M-58),** Graduate School-Science Instrument Shop (2).
- Research/laboratory technician (M-56),** Child Health, Environmental Trace Substances Research Center-UM (4), Medicine/Gastroenterology, Research Reactor-UM.
- Research specialist,** Animal Science, Microbiology (2), Research Reactor-UM.
- Senior animal health technician (M-58),** Veterinary Medicine and Surgery (2).
- Senior research/laboratory technician (M-59),** Agronomy, Animal Sciences (2), Biochemistry, Dalton Research Center, Environmental Trace Substances Research

Center-UM (2), Food Science and Nutrition, Pharmacology, Physiology, Veterinary Biomedical Sciences (2), Veterinary Microbiology (2).

Senior research specialist, Biological Sciences, Home Economics/Human Nutrition, Surgery.

Specification writer (M-61), Campus Facilities.

Water chemistry specialist (H-54), Campus Facilities.

SECRETARIAL

- Administrative assistant (M-59),** Statewide Extension-Fiscal Affairs and Management-UM, located in Jefferson City, funded through June 30, 1986.
- Chief accounting clerk (M-57),** Medical School Accounting, Medicine/Immunology-Rheumatology.
- Library assistant I (M-57),** Ellis Library-Serials Conversion Project, Law Library (one-year appointment).
- Library clerk II (M-53),** Ellis Library-Serials.
- Library clerk III (M-55),** Ellis Library-Gifts and Exchange Department, 75 percent FTE; Ellis Library-Government Documents.
- Secretary (M-55),** Agronomy, Plastic Surgery, State Historical Society-UM, UED-Pest Management, Veterinary Medicine-Laboratory Animal Medicine.
- Senior secretary (M-57),** Animal Sciences (effective Dec. 1), Chancellor's Office, International Agriculture Programs (Agriculture Dean's Office), Mechanical and Aerospace Engineering (Design Optimization Laboratory), Research Reactor-UM, UED-Pest Management, UED-Educational and Counseling Psychology.
- Word processing operator II (M-55),** Mathematics, Pharmacology, School of Business-Finance and Management.

CLERICAL

- Clerk typist (M-51),** Research Reactor-UM.
- Clerk typist II (M-53),** Accounting Services.
- Payroll clerk (M-52),** Payroll and Student Accounts.
- Secretary-stenographer (M-54),** UED-Horticulture.
- Senior accounting clerk (M-55),** Memorial Union.
- Senior clerk typist (M-54),** Romance Languages, Intercollegiate Athletics-MASA, Intercollegiate Athletics-Director's Office, Residential Life/Food Service.
- Senior stenographer (M-54),** UED-Education, Veterinary Medicine-Laboratory Animal Medicine.
- Stenographer (M-53),** School of Social Work.
- COMPUTER/TECHNICAL**
- Computer programmer/analyst I,** CIS-Management Information System-UM.
- Information specialist,** Computing Services.
- Reactor operator (M-62),** Research Reactor-UM, rotating shifts.
- Senior computer programmer/analyst,** Agricultural Economics.
- PART TIME OR TEMPORARY**
- Clerk (M-51),** Parking Operations, full time for approximately four months, then 20 hours a week, permanent.
- Research/laboratory technician (M-56),** Environmental Trace Substances Research Center-UM, full time, temporary for six months, hours 8 a.m.-3:30 p.m. Monday-Saturday or 3:30-11 p.m. Monday-Saturday, several openings.
- Secretary (M-55),** Investigative Reporters and Editors/Journalism, 20 hours a week.
- Senior cashier (M-55),** UMC Concert Series, 20 to 25 hours a week until May.
- Senior clerk typist (M-54),** Agriculture, 20 hours a week until May; Dean of Engineering, 20 hours a week, permanent.
- Student assistant-technical,** Veterinary Diagnostic Laboratory (computer programmer), 10 to 15 hours a week; Plant Pathology, 10 to 15 hours a week.

The following job openings were listed by the UMC Hospital and Clinics Personnel Department Oct. 28 and may be filled at any time after meeting the required posting period. For more information, call 882-8186.

- ADMINISTRATIVE/PROFESSIONAL**
- Manager,** Audiology/Communication Disorders Unit.
- Patient assistance coordinator,** Patient and Physician Services.
- Senior fiscal analyst,** Professional Services.
- Telethon coordinator,** Administrative Services.
- CLERICAL**
- Secretary,** Nursing Service.
- Senior receptionist,** University Physicians, 100 percent FTE temporary.
- Unit clerk,** Nursing Service (3).
- NURSING**
- 882-8701**
- Administrative nurse I,** Nursing Service.
- Clinical nurse specialist,** Nursing, Patient Education Programs.
- Education nurse I,** Nursing Service.
- Nurse practitioner,** University Physicians.
- Staff nurse,** Nursing Service (8).
- TECHNICAL**
- Medical technologist,** Pathology, Blood Bank.

Registered respiratory therapist, Respiratory Therapy.

Research laboratory technician, Pathology.

Senior biomedical equipment technician, Clinical Engineering.

Senior research laboratory technician, Pathology.

PART TIME OR TEMPORARY

Clerk II, Radiology, 50 percent FTE.

Data entry operator II, Pathology (2), 50 percent FTE temporary.

Food service attendant II, Food Service, 25 percent FTE.

Licensed practical nurse, Nursing Care Bank; Nursing, 60 percent PSP; University Physicians.

Medical technologist, Pathology, Blood Bank, 25 percent FTE.

Nursing assistant, Nursing Care Bank.

Receptionist, Administrative Services (4), 50 percent FTE temporary.

Research laboratory technician, Pathology, Blood Bank, 100 percent FTE temporary.

Senior clerk, Nursing Service, 30 percent FTE.

Senior clerk typist, Nursing Service, 100 percent FTE temporary.

Senior receptionist, University Physicians (2), 50 percent FTE.

Staff nurse, Emergency Services, 40 percent FTE; Nursing Care Bank; Nursing Service, six positions 60 percent FTE, one position 30 percent FTE; Perinatal Assessment Suite, 100 percent FTE temporary; SameDay Surgery Center, one position 75 percent FTE, one position 50 percent FTE.

Surgical technologist, SameDay Surgery Center, 60 percent FTE.

Telecommunications operator, Telecommunications (3), 50 percent FTE.

Unit clerk, Emergency Services (2), 40 percent FTE.

Venipuncture technician, Pathology, 40 percent FTE.

Q&A

Q. In the Oct. 18 Mizzou Weekly, you had a breakdown of our monthly parking fee. Why do we have to pay for Health Sciences Center hospital lot maintenance? Why do we pay for loan payments and lot rent?

A. Of the \$10.50 parking fee, \$3.50 is used to cover costs on the new parking structure, says Jim Joy, manager of Parking and Transportation Services. One-third of the remaining \$7 collected from hospital employees is returned to a hospital lot maintenance fund. "The hospital does its own maintenance, but I pay them to do it out of that fund," he says.

Parking and Transportation Services is in the process of paying back a University loan that allowed the purchase of property for parking space. A percentage of the \$7 base is used to help pay back the loan. Since more parking lots are needed than the University owns, rent is paid to the Newman Center, the city of Columbia and other area lots for faculty and staff parking space.

Send your questions about campus matters to Mizzou Weekly, 1100 University Place. You must include your name and phone number so we can reach you, if necessary.

MALLWALKER

The Staff for Life

**Come Have Fun
At Our
Shoe-String Cutting
Wednesday Nov. 6**

It's The Staff for Life Mallwalker Exercise Trail Grand Opening Celebration, Wednesday, November 6, at 10 A.M. in the new Columbia Mall.

Don Faurot will be the First Honorary Mallwalker, followed by some of your favorite media personalities in the inaugural walk.

Complimentary Health Screenings will be available by The Staff for Life of University of Missouri-Columbia Hospital and Clinics from 10:30 A.M. to 1:30 P.M.

The Staff for Life Helicopter and Ambulance will be on display from 10 A.M. to Noon.

Come join in the fun—and walk Missouri's first indoor exercise trail!

Columbia University of Missouri-Columbia
Hospital & Clinics
1-70 & Stadium Blvd
Columbia, MO **Mall**

CALENDAR

To list events in the calendar, send information to Paul Hoemann, Mizzou Weekly, 1100 University Place, by noon Friday the week before publication.

Highlights

CONCERT: New York City Opera National Co. will perform "Faust" at 8 p.m. Nov. 5 in Jesse Aud. Cost: \$15 faculty/staff, \$14 students. Call 882-3875.

FRESH DRESSED TURKEY SALE: Event, sponsored by the Poultry Science Club, will run Nov. 6 through Nov. 8. Price is \$1.09 per pound. Order by calling 874-8042, 882-5340 or 882-0067. Turkeys may be picked up from 1:30-7 p.m. Nov. 26 at the Livestock Center on Ashland Gravel Road.

FOOTBALL: Team will play Oklahoma at 1:30 p.m. Nov. 9. Cost: \$15.00 reserved seat, \$7.50 general admission.

1 Friday

AMERICAN MATHEMATICAL SOCIETY: Regional meeting will be held from 8 a.m.-6 p.m. today and tomorrow in Memorial Union. Cost: \$10 for members, \$16 for non-members. Call 882-7674.

TEST: PATB will be given from 8 a.m.-5 p.m. Advance registration is necessary. Call 882-4801.

LISZT LECTURE: Janice Wenger, assistant professor of music, will speak on "Liszt's Influence on the Rachmaninoff Rhapsodie" at 10 a.m. in the Fine Arts Recital Hall.

PSYCHIATRY SPEAKER: John E. Helzer, director of the Barnes Hospital Psychiatric Inpatient Service, will speak about "The High Prevalence of Alcoholism in the General Population" at 1 p.m. at the St. Louis State Hospital Complex, Kohler Bldg. Aud., 5400 Arsenal St., St. Louis.

MSA FILM: "Falcon and the Snowman" will be shown at 7 and 9:45 p.m. in Middlebush Aud. Cost: \$2.

CONCERT PREVIEW: Michael Budd, musician, will preview tonight's concert at 7 p.m. in the Fine Arts Recital Hall.

CONCERT: Pianist Jorge Bolet will perform at 8 p.m. in Jesse Aud. as part of the 1985 Festival of the American Liszt Society. Cost: \$11 faculty/staff, \$10 students. Call 882-3781.

LAWS OBSERVATORY: Observatory, located on roof of Physics Bldg., will be open from 8-10 p.m., weather permitting. Call 882-3036 or 443-4335 for more information.

LECTURE: Joel Grossman, political science professor at the University of Wisconsin, will speak on "The Changing Role and Structure of the U.S. Supreme Court" at 8 p.m. in Gannett Aud.

UNIVERSITY THEATER: "Cleavage" will be performed at 8 p.m. in Rhynsburger Theater, UMC Fine Arts Center. Tickets are \$6 for the general public, \$5.50 for faculty and staff, and \$3 for students and senior citizens. Call 882-7857.

2 Saturday

WOMEN'S CENTER: "Financial Planning" workshop will be held from 9 a.m.-noon in 1 Gentry Hall. Mary Boyd, financial planning consultant, will speak. Call 882-6621 to register.

MSA FILM: "Ghostbusters" will be shown at 7 p.m., 9:30 p.m. and midnight in Jesse Aud. Cost: \$2 at 7 and 9:30 p.m., and \$1 at midnight.

LISZT SOCIETY FESTIVAL: The UMC Philharmonic will perform the Dante Symphony, with assistance from the University Singers, at 8 p.m. in Jesse Aud.

UNIVERSITY THEATER: "Cleavage" will be performed at 8 p.m. in Rhynsburger Theater, UMC Fine Arts Center. Tickets are \$6 for the general public, \$5.50 for faculty and staff, and \$3 for students and senior citizens. Call 882-7857.

3 Sunday

UNIVERSITY THEATER: "Cleavage" will be performed at 2 p.m. in Rhynsburger

Theater, UMC Fine Arts Center. Tickets are \$6 for the general public, \$5.50 for faculty and staff, and \$3 for students and senior citizens. Call 882-7857.

MUSEUM OF ART AND ARCHAEOLOGY FALL LECTURE SERIES ON ART COLLECTING: "The Mystique of Collecting" will be presented by Rex Campbell at 3 p.m. in 106 Pickard Hall. Cost: Free for Museum Associates members, \$25 for non-members, and \$7.50 for students and senior citizens.

CONCERT PREVIEW: "Faust" opera preview with UMC voice students and Michael Budds will be held at 7 p.m. in the Memorial Union's Mark Twain Room.

LISZT ENSEMBLE CONCERT: Concert culminates 1985 Festival of the American Liszt Society at 8 p.m. in Jesse Aud.

MSA FILM: "Double Indemnity" will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents.

4 Monday

1985 MISSOURI INCOME TAX INSTITUTES: Event sponsored by School of Law will be held today and tomorrow at the Holiday Inn, 4141 Market St. and Highway 61, in Hannibal. Call 882-4031.

WOMEN'S CENTER: "Killing Us Softly," a film analyzing advertising's images of women, will be shown at noon in 1 Gentry Hall.

MICROBIOLOGY SEMINAR: "Molecular Studies of Ascaris, a Parasitic Nematode" will be presented by Karen Bennett of Carnegie Institute at 1:40 p.m. in M640 School of Medicine.

MSA FILM: "One from the Heart" will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents faculty/staff.

5 Tuesday

TEST: GED will be given from 8 a.m.-4 p.m. in S16 Memorial Union. Advance registration necessary. Call 882-4801.

PHARMACOLOGY SEMINAR: "Norepinephrine Pre-Treatment Causes Sensitization of Forskolin-Stimulated cAMP in the Human Colon Carcinoma HT-29 Cell Line" will be presented by Susan Jones, senior research specialist, at 4 p.m. in M538 Medical Sciences Bldg.

CLOTHING AND TEXTILES: Gerald T. Elden, president of the American Hoechst Corp. of Somerville, N.J., will give an overview of the textile industry from 7-9:30 p.m. in Geology Aud. Class is open to faculty. Students must be enrolled in CT 355.

BLACK CULTURE CENTER: Self-help survival workshop "Learning Strategies" will be held at 7 p.m. at the Black Culture Center, 823 Virginia Ave.

SPEECH: Paul Loeb, author of "Nuclear Culture" and a widely recognized speaker on the ethical dilemmas of the nuclear arms race, will present a speech sponsored by the University Assembly Lectures Fund, the Peace Studies Program, and the departments of Sociology, History, Religious Studies and Philosophy, and the School of Journalism called "Living with the Bomb" at 7:30 p.m. in Memorial Union's Benton-Bingham Room, N214-215.

MSA FILM: "Brothers Karamazov" will be shown at 8 p.m. in Memorial Union Aud.

CONCERT: See Highlights.

6 Wednesday

FRESH DRESSED TURKEY SALE: See Highlights.

NEW EMPLOYEE ORIENTATION: Event sponsored by Personnel Services will be held from 9-11 a.m. in the training room, 201 S. Seventh St.

PHYSIOLOGY SEMINAR: "Putative Lipid Peroxidation by Products in Cellular Aging" will be presented by Graig E. Eldred, research assistant professor in the

Department of Ophthalmology, at 11:40 a.m. in MA415 Medical Sciences Bldg.

LUNCHTIME GALLERY: Professor Edzard Baumann of the Department of Art History and Archaeology will look at the changing views of landscape in European and American painting at 12:25 p.m. in the Museum of Art and Archaeology.

PSYCHIATRY COLLOQUIUM: Russell Barton, senior psychiatrist at Strong Memorial Hospital in Rochester, N.Y., will discuss management of geriatric psychiatry patients at 1 p.m. in the Truman Veterans Hospital Aud.

NURSING CONFERENCE: "Fourth Annual Self-Care Deficit Theory Conference: Family and Community Applications," sponsored by the School of Nursing Continuing Education Program, will be held from 1-5:30 p.m. today, from 8 a.m.-4 p.m. Nov. 7, and from 8:30 a.m.-4:15 p.m. Nov. 8 at the Holiday Inn Westport, St. Louis. Cost: \$195. Students: \$50. Call 882-6403.

MSA FILM: "Cal" will be shown at 7 and 9:30 p.m. in Ellis Aud. Cost: \$1 faculty/staff, 50 cents students.

WOMEN'S CENTER: "Stale Roles and Tight Buns," an audio-visual presentation about the stereotyping of American men in advertising, will be shown at 7 p.m. in 1 Gentry Hall.

CONCERT: Jazz Combos, under the direction of Jeffrey J. Lemke, will perform at 8 p.m. in the Fine Arts Recital Hall.

7 Thursday
