

MIZZOU WEEKLY

University of Missouri-Columbia

April 4, 1986

David Rees photo

University Theater presents "Tambourines to Glory" this weekend. See calendar on Page 8.

Computing boosts capacities

New computing "engine" means better performance for UMC computer users.

The UMC computing system is revved up for action after receiving some new horsepower during spring break.

"We now have two computing engines under one hood," says William Plummer, acting director of Campus Computing. "It's like going from a four cylinder to a V-8 engine."

An upgrading of the University's computer system makes UMC the first commercial user of the dual processing computing machine, the latest in computer technology.

The central processing unit, which performs the electronic work of a computing system, was converted from a single to a dual processor unit. That means work, memory and storage capacities have been increased significantly, Plummer says.

The number of people who can use the system simultaneously, with no performance problems, has increased from 175 to 300. The larger the unit, Plummer says, the greater number of users the system can support and the bigger programs users can run.

Memory capacity is double what it was. Disk storage increased by five billion characters, bringing total storage to 17 billion characters.

The upgrading was necessary because of increases in computer access and use. The upgraded computer will benefit academics the most, Plummer says. More classes now have access to the system and can use it more often. Re-

search capabilities also have been expanded.

The Board of Curators approved the \$300,000 upgrade at its March 14 meeting. UMC support personnel and local IBM staff members completed the job March 17.

Observing developing technology in the computer industry was the key to UMC becoming the first commercial user of the dual processing machine, Plummer says. Necessary state appropriations also were available.

"We were quick on our feet," he says. "It was not exactly an accident. We just weren't sure of the timing, but we're pleased to be the first users of this technology."

Plummer is confident the computer system upgrading will meet campus needs for at least one year.

"Future needs will be determined by the faculty of this University. Campus Computing's purpose is to be linked into the educational goals of the University. They accelerate every year, so we have to keep up with that."

Budget group discusses pay possibilities

The increase in Mizzou's 1986-87 operating budget could include a large portion of non-flexible funds, according to preliminary figures discussed at the March 27 budget review committee meeting. Certain funds may be earmarked by the governor or legislature for selected priority items.

The committee—composed of deans, faculty, staff and students—regularly meets with Chancellor Barbara S. Uehling to consider broad policy issues and questions that affect all constituencies.

Because of the proportion of non-flexible funds, "The increase in salaries will not be as large as the percentage increase in state appropriations," Uehling said.

Of the \$8.12 million increase in state appropriations Gov. John Ashcroft has recommended, about \$3.77 million, or 46 percent, is earmarked for biotechnology, Food for the 21st Century, operating new buildings and engineering equipment.

The budget increase for general expenses would total \$6.2 million, which includes non-earmarked state appropriations recommended by the governor, student fees, \$960,000 of reallocations as planned for in the long-range plan, and other income.

Because of inflation, it would be necessary to increase salaries, benefits, fuel and utilities, library acquisitions, scholarships, and expenses and equipment budgets by 4 percent just to stay even. The pricetag: \$6.4 million. Under this scenario, additional funds would not be available for a larger salary increase.

But if funds do become available, UMC's long-range plan objectives call for an additional \$740,000 to be allotted for salaries.

The committee discussed a draft report on budget planning priorities being prepared for future years. The report uses three scenarios for funding: a standstill budget, an increase of 7 percent after inflation, and an increase of 12 percent after inflation. The report lists 15 priorities, including salaries, research incentive, eminence programs and graduate student fellowships.

Marathon runner and author Pete Strudwick and Lerone Bennett Jr., senior editor of Ebony magazine, will speak during Mizzou's Equal Opportunity Awareness Week.

Building awareness

Second annual Equal Opportunity Awareness Week to be held at UMC April 7 to 11.

Highlighted by speakers, films and an exhibit, the second annual Equal Opportunity Awareness Week will culminate in an awards ceremony and luncheon at noon April 11 in Memorial Union's Mark Twain Room. Lerone Bennett Jr., senior editor of Ebony, will be the guest speaker.

Equal Opportunity Awareness Week will

begin April 7 when Pete Strudwick, a Buena Park, Calif., author and international consultant in education, training, motivation, discipline, sports and health, will speak at 8 p.m. in Memorial Union's Benton-Bingham Room.

Strudwick, who was born without feet, has successfully completed the Pike's Peak Marathon four times.

April 8 is Audio Visual Day. Films about handicapped, minority and women's issues will be shown continuously from 10:45 a.m.-5:30 p.m. in S204, S206 and S207 Memorial Union.

"Women in the Media" will be presented by Jean Gaddy Wilson, researcher and lecturer at the UMC School of Journalism, at 12:30 p.m. April 9 in Memorial Union's Scott Joplin-Blind Boone Room.

On April 10, two symposiums will be held. Representatives from federal and local civil rights agencies will discuss "Civil Rights Enforcement" from 12:30-2 p.m. in the Scott Joplin-Blind Boone Room.

A three-day symposium, "Fifty Years After Gaines: The Past, Present and Future" will begin at 7:30 p.m. in the Tate Hall Courtroom. This symposium will examine the Lloyd Gaines court case of the late 1930s. Gaines' application for admission to the UMC School of Law resulted in a landmark U.S. Supreme Court decision. Related exhibits of photographs, documents and legal briefs indicating racial prejudice and attempts at early desegregation in Missouri will be on display in Tate Hall, Western Historical Manuscript Collection and Jesse Hall. See exhibits on page 8 for details.

The April 11 awards ceremony will recognize outstanding efforts of students, faculty, staff and programs that enhance the status of minorities, women and disabled. Three campus committees—minority affairs, persons with disabilities and the status of women—selected award recipients.

The Black Business Students Association won the program award from the minority affairs committee. Clyde Ruffin, associate professor of speech and dramatic art, is the recipient of the faculty award. Keener Tip-pin, assistant director of Admissions, earned the staff award, and law student Ronald A. Norwood was chosen student award winner.

The persons with disabilities committee picked the Engineering Experiment Station Electronics Shop as its program award winner. David A. West, professor of finance, won the faculty award. Lisa A.G. Renner and Patricia J. Webber, both of the Communication Disorders Unit/Audiology, share the staff award. Franklin E. Nease, a senior arts and science student and president of Barrier Free, is the student recipient.

The status of women committee chose the Arts and Science status of women committee for its program award winner. Elaine M. Charlson, assistant professor of electrical and computer engineering, and Diana G. Helsel, assistant dean of the College of Agriculture, share the faculty award. Barbara Olson Smith, senior secretary in the special education department, earned the staff award, and Vivian L. King, a junior journalism student, is the student winner.

SURVEY PLANNED ON BREWER GYM

Students and faculty are being surveyed about their views on renovation and expansion of Brewer-Rothwell Gymnasium.

"A 1981 study showed there was strong interest in such an expansion," says Candy Whittet, assistant director of student development-recreation and intramurals. "We want to see if the interest is still there."

Mizzou's master plan calls for expansion of the gym to the south and west.

A task force of students, faculty and staff recently traveled to other schools to compare their facilities with Brewer-Rothwell.

CURE DOMICILE'S 'HOUSEITOSIS'

For a natural air freshener at a reasonable cost, try making kitchen aroma mix, says Barb Willenberg, extension assistant in home economics.

Cut peels from one grapefruit, two oranges and one lemon into one-fourth inch strips. Place on tray and oven dry until cooled strips are brittle.

Mix with two sticks of cinnamon broken into small pieces and one tablespoon each whole allspice and whole cloves.

To freshen the house, pour about one-fourth cup of mix into 2 or 3 cups of water, bring to boil and simmer uncovered.

TRAVEL COURSE BASED IN ROME

UMC is offering a travel seminar this summer on Roman history, culture and life. Participants will depart for Rome May 19 and return June 5.

Optional one-day trips to Florence, Assisi, Pompeii and Naples are planned. Participants will earn three hours of credit.

Course instructors are John R. Roberts and Lorraine Roberts of the Department of English.

Cost of the seminar is \$1,499. Enrollment deadline is April 21. For details, contact John Roberts at 882-6066, or Carl Poehlman at 882-7460.

KEEP MOTHS OUT OF THE CLOSET

Wool garments stored in hot, dark closets can be a feast for moths. But storing wool properly can prevent moth damage, says Betty Feather, extension clothing and textiles specialist.

Clean wool garments before storage, she advises. Some wools are washable. After laundering, use a spray moth repellent available in hardware, discount and grocery stores. Clothes sent to the dry cleaner should be moth-proofed, too. "It may cost a little extra, but it's worth it."

THE Glass Blowing Service

Can assist you with your research projects in ...

- Distillation
- Vacuum Work
- Chromatographic
- Special Glassware

"Save Your Research Dollars"

33 Physics Bldg. 882-4418

Hearnes plan formed

As recommended by a task force, Chancellor Barbara S. Uehling announced a five-point plan to ensure appropriate use of the Hearnes Center.

The primary purpose of the building, funded through a bond issue retired by student fees, is to support the educational mission of the University. But a misperception of this function has contributed in part to problems surrounding use of the facility, the task force noted.

The plan calls for:

- Elimination of the two-tiered pricing schedule along with the terminology "hosted" and "sponsored." All events will be assessed a use fee. Those events using the Offices of Conference and Specialized Services will be charged a fee appropriate for services rendered. Outside groups will be assessed so as to assure the group does not realize profit at the expense of the University.

- A user committee, proposed by the task force, will be encouraged to establish a

University use schedule before the beginning of each academic year. Open dates then will be provided to the public upon request. The task force said that conventions of 2,500 people and above seem best suited for the building.

- Increased activity on the part of the Hearnes committee in regard to review of programs, services and policies. This includes hearing appeals, with final resolution by the chancellor.

- Providing the Department of Intercollegiate Athletics with an incentive to use facilities less frequently, and thereby achieve a reduction of costs, by basing charges for building maintenance and utilities on the prior year's usage. The department's annual charges now are based on a 1977 calculation.

- Continued cooperation with the Columbia community in making Hearnes available for appropriate use by outside groups when events can be booked directly by the University.

Two medical dean candidates visit

Two candidates for medical school dean visited campus last week for preliminary interviews during the initial phase of the search process.

Since 1973, Robert Sanford Daniels has been dean of the College of Medicine at the University of Cincinnati, where he also is a

professor of psychiatry. Previously he served as associate dean for social and community medicine at the University of Chicago.

I. Dodd Wilson is professor and vice chair of the Department of Medicine at the University of Minnesota Medical School. He currently is doing research training in digestive and liver diseases under a \$855,000 grant from the Department of Health, Education and Welfare.

HOUSE SITTER: A staff member would like to house-sit from mid-May to mid-August in exchange for rent, or for reduced rent. Call Joanna Santhuff at 882-6894.

FOR RENT: Three-bedroom furnished house, air conditioned, 10 minutes from campus, rent negotiable. Available May 20-Aug. 20 or part thereof. Call Naomi Ritter at 882-4674 or 449-5886.

Three-bedroom house located off Providence Road, detached garage, fireplace, recently painted. Suitable for small family or students. \$425 a month, negotiable. Call 874-8964.

FOR SALE BY OWNER: Three-bedroom house, walking distance to campus, one block off Stewart Road, air conditioning, separate garage, hardwood floors, fireplace. Upper '50s. Call 882-3882 or 449-1565.

Three-bedroom, 2½ baths, fireplace, two-car garage, single detached house in Green Meadows. Call 874-8964.

TAFT SEMINAR: Applications are being accepted for the sixth Taft Seminar for Teachers, which is designed to enrich the teaching of social studies in elementary and secondary schools. School administrators and teachers of all subjects may apply. The \$90 registration fee covers room, board, UMC tuition and instructional materials. Participants earn three hours of credit in political science. The seminar will be held June 16-27 at Memorial Union.

For applications, call Carl Poehlman at 882-7460.

FULBRIGHT COMPETITION: Competition for Fulbright and other grants to study abroad in 1987-88 will open May 1. Grants are available for graduate study or research in academic fields and for professional training in

the creative and performing arts.

Applicants must be U.S. citizens with bachelor degrees who are proficient in the language of the host country. For application forms or more information, contact the International Center, 101 Gentry Hall.

CPPC HOURS: The Career Planning and Placement Center, 110 Noyes Building, has extended its hours. The center is open from 9:40 a.m. to 5 p.m. Monday, Wednesday, Thursday and Friday. Tuesday hours are noon until 9 p.m.

The center will be staffed on Tuesday evenings to provide appointments for individual career assistance; use of the computerized career exploration program, Sigi-Plus; referrals for part-time jobs, internships and co-ops; and access to the career resource library.

Vol. 7 No. 25

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of Development, University and Alumni Relations Division, 1100 University Place, 882-7357. News deadline is noon Friday the week before publication. Annual subscriptions are available to retirees for \$10. Advisory board: Gerald Brouder, Bob Derryberry, Gary Fields, Toni Gordon, Linda Holsinger, Gordon Kimber, David Leuthold, Mary Miller, William Noteboom, Barbara Olson Smith, Bob Stewart and Donna Turner. Editor: Karen Worley. Assistant editor: Carol Hunter. Photo editor: Larry Boehm. Staff writer: Jim Kelty.

Need Multiple Copies at Night or on Weekends?

Grants, manuscripts and proposals are not always written between 9 and 5. If you are working on projects in the evening or on weekends and "quick copy" is closed come to

Ellis Library Copy Service

On the second floor of the main library

We can run multiple copies, collate, and staple for you, all for only 5¢ a copy.

And, of course, we can also reduce, enlarge, make 11x17 copies and colored paper copies.

Hours: M-FRI 8-11 PM
SAT 9-9 PM
SUN Noon-Midnight

SET IN CONCRETE

Planning to add a patio or fix the driveway? "Farm and Home Concrete" tells everything you wanted to know about ordering, placing and finishing ready-mix concrete.

The eight-page guide, AED-26, costs \$1.50 plus \$1 for shipping and tax. It's available from Agricultural Plan Service, 200 Agriculture Engineering Building, or the county extension center.

BE PREPARED FOR TORNADOES

April usually signals the beginning of severe weather in the Midwest. If a tornado warning is issued, seek shelter immediately.

In a classroom, residence hall or office building, quickly move away from the windows to an interior hall on a lower floor, preferably the basement. Avoid auditoriums, gymnasiums or other buildings with wide, free-span roofs.

In a house or smaller building, take shelter in the basement, preferably under a heavy table. Stay away from rooms that have heavy appliances on the floor above.

If there isn't a basement, take cover under heavy furniture on the ground floor in the center of the house, or in a small room on the

ground floor away from outside walls and windows.

People who are outside and unable to reach a sturdy building should lie flat in the nearest depression, such as a ditch or culvert.

Cars and mobile homes afford the least safety. Seek shelter in a ditch if there is no better shelter immediately available.

If a tornado is spotted in Columbia, a siren will sound for three to five minutes. News media also will broadcast the warning.

COMPUTER USERS: PLAN AHEAD

Computer operators planning heavy use of any computing facility should inform Computing Services in advance, reports the Campus Computing Newsletter.

Heavy use of any one computing service is a drain on the system, but arrangements can be made in advance to schedule a time that will not be detrimental to other users.

If classroom projects require a particular type of paper, or if the class is large, notify Computing Services so that sufficient supplies can be available.

To inform Computing Services of heavy use, call the Help Desk in 107 Lefevre Hall at 882-7686.

Q&A

Q. Is the intersection at Hitt and Rollins a three-way stop? I've had several close calls with people who think it's a three-way intersection. I don't believe that it is, and, if not, why don't they mark it clearly a two-way stop? It's one thing to be courteous and let someone pull into line in front of you, and it's another thing to have people pull out in front of you like they own the road.

A. "Hitt and Rollins is an offset intersection. And it's effectively a four-way stop," says Max Berends, traffic engineer for the city of Columbia. "But because the street has a jog in it, it's not always recognized as such. We've tried several different ways of marking the intersection and there's no good, feasible way of telling everyone what they may be encountering at the intersection."

Berends says there are no plans to reconstruct the intersection at Hitt and Rollins streets.

Q. What is the policy for use of departmental vehicles for business that's not University-related?

A. Departmental vehicles may be used for University business only, says Patsy Higgins, executive staff assistant II for Business Services. Any use for personal business or pleasure is prohibited.

Q. Why is it that the compositions planned for campus musical events—such as the St. Louis Symphony Orchestra, Brass Band or student recitals—are not listed in public notices? The alternative is to ring the box office, a procedure which appears unnecessarily clumsy and laborious. It would be a modest improvement if at least the composers could be listed.

A. Posters and flyers announcing concerts and musical events do not list the compositions that will be played because "at the time the flyers and posters are printed, the program usually has not been set," says Concert Series Coordinator Joyce Mitchell. "The information is given out in every press release, but it is not always picked up by the media."

The information is not used in the Mizzou Weekly calendar due to lack of space, says Jim Kelty, Mizzou Weekly calendar coordinator. "Items listed in the calendar are kept as brief as possible in an effort to list as many items as possible."

Attention is focused on Trent Kendall, left, and Jeff Portell during a scene from "La Discreta Enamorada."

Play claims seven awards

University Theater's production of "La Discreta Enamorada" (In Love But Discreet) claimed seven awards at the 11th annual Siglo de Oro Drama Festival in El Paso, Texas. Awards will be presented by the National Park Service.

Festival set for April 11

Two 20th-century masterpieces offering a variety of stunning musical effects will make up the finale of the tenth annual Chancellor's Festival of Music at 8 p.m. April 11 in Jesse Auditorium.

The festival's spring musical extravaganza will feature Carl Orff's "Carmina Burana" and Igor Stravinsky's landmark work "Symphony of Psalms."

"These pieces, which represent two different approaches to achieving a 20th-century musical language, are both based on ancient texts," notes musicologist Michael Budds, Music Department instructor. The original lyrics of "Carmina Burana," discovered in a Bavarian monastery, were written by the Goliards, a group of wander-

ing scholars consisting of university students, unfrocked priests, runaway monks and clerks. The Goliards roamed from place to place, singing for their supper. Their songs reflect a lust for drinking and the vagabond life, the coming of spring and love, as well as critical commentary on the Catholic Church. "The Goliards were educated men who did a lot of things typical fraternity boys do," Budds says. Composed in 1937, "Carmina Burana" has become a favorite of audiences everywhere. Stravinsky's "Symphony of Psalms," written in 1930, is based on psalms from the Middle Ages, and presents a dramatic sequence of prayer, testimony and praise that transcends creed. The works will be performed by the University Choral Union, University Singers, Concert Chorale, University Philharmonic,

best set design (special).

Quentin Kuyper, computer programmer analyst I for the Music Department, and Julie Youmans were cited for their musical score. UMC took honors for best ensemble acting.

The competition included professional and non-professional companies from Mexico, Spain, the United States and Puerto Rico. University Theater presented the only production in English.

The play originally was presented in Rhynsburger Theater this winter.

a children's chorus and distinguished guest soloists William Brown, tenor; James Sergi, baritone; and Brenda Lang, soprano.

Sir David Willcocks, conductor of the London Bach Choir and the King's College Choir of Cambridge University, will be the guest conductor. Willcocks' outstanding contributions to choral music have been recognized throughout the English-speaking world.

Tickets are \$7 for reserved seating and are available at Jesse Box Office, 1W-42 University Hospital, Missouri Bookstore, University Bookstore and First National Bank, 801 E. Broadway.

Budds will give a concert preview at 7 p.m. April 11 in the Fine Arts Recital Hall.

The concert is part of the Alumni Seminar Weekend, which will focus on "The Lively Arts."

Women and aging

America is an aging society of mostly women. Yet, little attention has been focused on the health issues of older women.

Ann M. Rosenow, professor and associate dean of research in the School of Nursing, tackled this subject in a seminar last week.

People over 65 make up 12 percent of the

population. Within 45 years, that number is expected to jump to 20 percent. Women are the largest part of the aging community. Between ages 65 and 69, there are 1.23 women for every man. In the 85 and older group, there are 2.46 women for every man.

The average older woman is a widow living alone on a low income, Rosenow says. Just getting to the doctor becomes a challenge. Fewer elderly women than men drive, and, because of low income, options such as taking a taxi are not feasible.

Some elderly people won't leave their homes because they fear assault, theft, rape or fraud.

It's probable that a woman will outlive

her husband for two reasons: the average woman lives seven years longer than the average man, and women typically marry men who are older than themselves. Women must know how to deal with this eventuality, Rosenow says.

Women should establish themselves financially in order to ward off problems associated with low income. Establishing a nutritious diet early in life is important to avoid such problems as osteoporosis later. Women also should build a healthy self-image and strong social networks to deal with loss and change, she says.

The seminar was presented in conjunction with the Center for the Study of Aging, founded in 1975. The center is important to

Missouri since the state ranks fifth nationally for number of citizens over 65.

According to Ellen Orbach, associate director, the center investigates and stimulates research in aging and the aged and presents that information through seminars.

Two more seminars are scheduled for this semester. Albert Y. Sun, associate professor at the Sinclair Comparative Medicine Research Farm, will present "Alcohol and the Aging Process" on April 22, and James Weiss, professor and chair of psychiatry, will present "Aging and Anti-Social Behavior" on May 2. Both seminars will be held at 3:30 p.m. in MA217 School of Medicine Addition.

MIZZOU PEOPLE

EDITH P. MITCHELL, assistant professor of medicine, was appointed to a three-year term on the Cancer Clinical Investigation Review Committee. She will assist the National Cancer Institute in review of cancer clinical trials done by cooperative cancer groups such as the National Surgical Breast Cancer Group and the Radiation Therapy Group.

L.G. MOREHOUSE, professor of veterinary pathology, was secretary/treasurer for the winter meeting of the board of governors of the American Association of Veter-

inary Laboratory Diagnosticians. He also served as a member of laboratory accreditation board of AAVLD, and attended the college development committee meeting at the Western Veterinary Conference in Las Vegas, Nev.

J.E.K. MREMA, research assistant professor of veterinary pathology, presented "Hemograms of Healthy Colony-Born Owl Monkeys (*Aotus Lemurinus Griseimembra*)," to the American Association for Laboratory Animal Science's national meeting in Baltimore.

R. KENT MURMANN and **E.O. SCHLEMPER**, professors of chemistry, presented "Reactivity of a Quasi-Aromatic (Ni₂N₃C) Complex with Aldehydes" at the American Chemical Society meeting in Carbondale, Ill.

CHARLES G. NAUERT JR., professor of history, delivered a paper, "Johannes Lang as Intermediary Between Martin Luther and the Humanists," to the 16th Century Studies conference at Ohio State

University. He also was coordinator of a roundtable discussion of recent research on selected topics in 16th-century European studies. He delivered a report at the conference banquet on the monograph series, "Sixteenth Century Essays and Studies," of which he is the general director.

WILLIAM NOBLE, associate professor of geography, presented a paper, "Sati Memorialization and Worship: Himalaya vs. the Punjab," to the University of Wisconsin's South Asia Conference held Nov. 1-3.

KATHRYN OWEN, postdoctoral fellow in laboratory animal medicine, attended the 36th annual session of the American Association for Laboratory Animal Science in Baltimore, Md., in November.

CATHERINE PARKE, associate professor of English, had four poems published in *The Louisville Review*. The San Francisco Jung Institute Library Journal published her article "Gaston Bachelard's Activist Poetics." She read a paper, "Virginia

Woolf: The Biographer as Medium" at the national Women Studies Association meeting in Seattle, and another, "Learning to Leave Rousseau: Mary Wollstonecraft and Just Sensibility" at the Midwest American Society for 18th-Century Studies meeting.

Parke received a Provost's Research Leave for 1986-87 to work on a book-length study called "The Choice of Biography: A Reading of Samuel Johnson's Attitudes Toward History and Belief."

She spoke to the Columbia Women Psychologists' Group on "The Biographer as Politician, Medium and Therapist: The Cases of Mary Wollstonecraft, Virginia Woolf and Gertrude Stein."

MIKE PARKER, postdoctoral fellow in laboratory animal medicine, attended the 36th annual session of the American Association for Laboratory Animal Science in Baltimore in November.

WILLIAM PEDEN, professor emeritus of English, is the author of three recently published stories. They are "Sub-Zero"

**21 MONDAY
APRIL
1986**

**Secretary's
Day Luncheon
10 am - 3 pm
2nd floor north
Memorial Union**

WE CORDIALLY INVITE YOU TO A SPECIAL CELEBRATION OF SECRETARY'S WEEK ON APRIL 21ST AT THE MEMORIAL UNION.

Held on the second floor north of the Memorial Union between 10:00 am - 3:00 pm, this distinctive program includes.

- Office Product Show
- Computer Show
- Optional Luncheon

The luncheon sponsored by the University Bookstore and Marriott Dining Services will be held in the Grand Ballroom. Bosses and secretaries are urged to attend together. The cost of the luncheon is \$7.95 per plate. (Advanced reservations are required. Please contact Marriott Dining Services at 882-7405 between 8:00 am - 10:00 am or mail reservation request to Marriott Dining Services, S105 Memorial Union. All reservations must be received no later than Wednesday, April 16th.)

Office Product and Computer Shows

Both the Office Product Show and the Computer Show will feature a large variety of companies. Manufacturers' representatives will be available to provide demonstrations and answer questions. The following manufacturers will be present:

- AVERY • IBM • STABILIO • EPSON**
- FELLOWS • APPLE • BANKER'S BOX**
- SONY • C-LINE • AT&T • COLUMBIA ART WORKS • MID-AMERICA MARKETING**
- SUCCESS • ZENITH • W.T. ROGERS**
- AMERICAN HERITAGE • SHEAFFER-EATON**
- DENNISON NATIONAL • STAEDTLER MARS**
- WILSON JONES • SWINGLINE • SANFORD**
- GENERAL RIBBON • STEBCO • TENEX**
- CADENCE FILE**

Coordinating the campus

Watchful eyes of campus building coordinators help keep facilities in working order.

Patsy Higgins is a Jesse Hall building coordinator who helps keep Campus Facilities up-to-date on various needs.

Patsy Higgins, executive staff assistant II in Business Services, is well-known among her co-workers in Jesse Hall, largely because of her role as a building coordinator.

She is the Jesse Hall contact person for minor problems, such as unlocking doors, and for special projects, such as keeping electricity use to a minimum during summer peak alerts.

Coordinating a building is not a full-time job, but there are days when it feels that way, says Higgins, who has served as a building coordinator for 10 years. "It gets to be a little hectic sometimes, but it's also rewarding because you can tell people really appreciate your efforts."

Last summer, when the Jesse Hall elevator was replaced, Higgins notified employees beforehand so any necessary loading or moving could be arranged in advance. She also set up temporary quarters in the handicapped-accessible basement where a building employee could respond to the needs of students in wheelchairs.

Recently, when all the doors in Jesse Hall were re-keyed for security reasons, Higgins coordinated the project. And when repair or construction work is needed in or around the building, Higgins keeps occupants informed about the projects and assists in scheduling the work for minimum interference with building use.

"We really rely on all the building coordinators on campus," says Phil Shocklee, director of plant operations for Campus Facilities. "They keep us up-to-date about any maintenance or construction needs that should be taken care of. We count on them to be our eyes and ears."

Chester Edwards, reactor maintenance engineer, has been the building coordinator at the Research Reactor for 10 years. "The most important thing I do is help Campus Facilities do the best job it can," he says. "I'm a strong believer in preventive maintenance, so whenever minor repairs are needed I like to get them taken care of right away before they become major. In the long run, it cuts down on capital costs for the University."

Ron Haffey, administrative manager, is the building coordinator of the Veterinary Teaching Hospital. "I walk the building once a month and make notes of anything that needs maintenance or touch up," Haffey says. "I see it as just part of my job, one of the things that needs to be done to make things fly."

"Campus Facilities has always been very responsive when we needed something repaired, such as broken windows, a leaky roof or chipped steps."

"If some major repair or construction work is needed and we can't afford to fix it out of our maintenance budget, I let Campus Facilities know, so they can write it up as an item for the capital maintenance budget."

Helping to maintain a building is satisfying because it's visible work, Haffey says. "When you get a piece of equipment repaired, it's a concrete example that you've gotten something accomplished—anyone with a desk job can appreciate that."

and "Ellen's Gift," published in the Texas Review, and "The Blue Slipper," published in Writers' Forum.

LEADELLE PHELPS, assistant professor of educational and counseling psychology, led the fifth annual Central States School Psychology Conference held in Kansas City Feb. 21-22.

TOM QUIRK, associate professor of English, published an article called "Justice on the Reservation: Hillerman's Novels Capture the Conflict Between Federal and Tribal Jurisdictions" in The Armchair Detective.

ROBIN REMINGTON, professor of political science, presented a paper on "Eastern Europe and the Warsaw Pact" at the 24th annual Central Slavic Conference held at Oklahoma State University.

BARBARA J. REYS, assistant professor of curriculum and instruction and higher and adult education, and **ROBERT E. REYS**, professor of curriculum and instruction, co-wrote an article called "Estimating With Nice Numbers" in the November issue of The Mathematics Teacher. She received a faculty development project award to support her research on the impact of technology on education. He is author of "Testing Mental Computation," which was published in the November issue of The Arithmetic Teacher.

VERNA RHODES, assistant professor of nursing, has been selected to serve as a reviewer for the Oncology Nursing Forum.

JANE RIGDON, chief animal technician in laboratory animal medicine, attended the 36th annual session of the American Association for Laboratory Animal Science in Baltimore in November.

JOHN R. ROBERTS, professor of English, has been invited to give a keynote address to the Scottish Renaissance Society's meeting to be held next spring at the University Dundee.

He delivered a paper called "John Donne's Elegies: The Aesthetics of Recognition" at the Modern Language Association meeting in Chicago. He also was appointed to the editorial board of Peter Lang Publishing Inc. of Bern, Switzerland.

RICHARD ROBINSON, professor of curriculum and instruction, is co-author of an article, "Reading Education: A Twenty Year Perspective," which appeared in the fall issue of Reading Horizons. He also wrote the section on reading in the Children's Britannica.

DAVID ROEDIGER, assistant professor of American labor history, collected and wrote an introduction to the poems of Covington Hall, an early 20th-century southern labor poet. The collection was published under the title "Dreams and Dynamite." Its introduction was reprinted in the September-October issue of Southern Exposure. In November, he attended the annual meeting of the Social Science History Association in Chicago.

DOROTHY LLEWELLYN ROGERS, a physician with Student Health Service, discussed eating disorders at the fifth annual Central States School Psychology Conference held in Kansas City Feb. 21-22.

MARVIN ROGERS, associate professor of political science, wrote "Patterns of Change in a Rural Malay Community" and "Electoral Mobilization and Political Organization in Rural Malaysia," which were republished in a book, "Readings in Malaysian Politics."

GEORGE ROTTINGHAUS, assistant professor of veterinary biomedical sciences, **MICHAEL TEMPESTA**, assistant professor of chemistry, and D.G. Corley presented "A New Trichothecene from Fusarium Sporotrichioides" at the American Chemical Society meeting in Carbondale, Ill.

They co-wrote "Novel Trichothecenes from Fusarium Sporotrichioides" for Tetrahedron Letters.

DALE E. RUDE, assistant professor of management, won first place in a national dissertation competition sponsored by the American Institute for Decision Sciences. "A Test of Product Market Diversification Model of a Conglomerate Merger" is the title of Rude's winning PhD thesis. Rude received a 1986 Distinguished Paper Award of the Southwestern Federation of Administrative Disciplines March 12.

SHEROD SANTOS, assistant professor of English, published several poems recently. "At the All-Clear" and "Near the Des-

ert Test Sites" appeared in The New Yorker; "The Sea Change" appeared in Antaeus; "Ghosts," "Saying Goodbye to a Friend," "Apollinaire's Epitaph" and "Farmland on the North Coast" appeared in Poetry Canada Review; and "The Unsleeping Genius of Misfortune" appeared in Poetry.

ROBERT D. SATTELMAYER JR., professor of English, and graduate student **RICHARD HOCKS** co-wrote a paper, "Thoreau and Coleridge's Theory of Life," which appeared in Studies in the American Renaissance, 1985.

E.O. SCHLEMPER, professor of chemistry, co-wrote "Electron Ordering in Ilvaite, a Mixed-Valence Iron Silicate: Crystal Structure Refinement at 138 K" in American Mineral. Schlemper co-wrote "Refinement of the Structure of Carnallite, Mg(H₂O)₆KCl₃" in American Mineral.

For Nature, Schlemper co-wrote "Solid Solution in Plambous Potassium Oxysilicate Affected by Interaction of a Lone Pair with Bond Pairs." He also co-wrote "Solid-State 13C NMR Determination of Methyltin(IV) Structure. Crystal and Molecular Structure of Dimethyltin(IV) Bis(1-Pyrrolidinedicarbodithiate)" for Journal of American Chemical Society.

CHARLES SCHMITZ, associate professor of counseling psychology, published a paper, "An Exploratory Study of the Relationship Between Orthomolecular Theory and the Maladjusted College Student," in the Journal of Orthomolecular Psychiatry.

GUY SCHUPP, associate professor of physics, attended the International Conference on the Applications of the Mossbauer Effect in Leuven, Belgium, in September. He presented two papers on research conducted at the Research Reactor using the new high-intensity Mossbauer diffraction instrument. Co-authors were **W.B. YELON**, group leader of research at the reactor, **M. LOWELL CROW**, a graduate student, and James G. Mullen and Amhar Djedid of Purdue University.

SCOTT SEARLES, professor emeritus of chemistry, **TUCK C. WONG**, associate professor of chemistry, V. Rutar and T.M. Farrell presented "NMR and IR Studies on the Structure of Trichothecenes" at the American Chemical Society meeting in Carbondale, Ill.

MARY SEBACHER, assistant professor and program director of radiologic sciences, presented the Sante Memorial Lecture at the 53rd annual meeting of the Missouri Society of Radiologic Technologists. The title of her talk was "Effective Communication in Health Care."

PAUL R. SHARP, assistant professor of chemistry, and M.P. Vilmer presented "Mechanism of Formation and Reactions of u-Oxido-Bis (Triphenylphosphinenitrosyliridium (0))" at the American Chemical Society meeting in Carbondale, Ill.

PAT SKAVLEN, research associate at Sinclair Research Farm, attended the 36th annual session of the American Association for Laboratory Animal Science in Baltimore in November.

DAVID A. SLEPER, professor of agronomy, was elected a fellow of the American Society of Agronomy. He was recognized for his breeding and genetics of tall fescue. Each year, only three of every 1,000 members is elected a fellow.

ROBERT SOLORZANO, professor of veterinary microbiology, presented "Epidemiology in Missouri" to the Conference of Research Workers in Animal Diseases meeting, held in Chicago in November.

JONATHAN SPERBER, assistant professor of German history, won the American Historical Association's Herbert Baxter Adams Prize for his book, "Popular Catholicism in Nineteenth-Century Germany." The prize is awarded annually for the best first book written by an American on European history.

FRANK STACK, professor of art, received a \$1,200 commission from Shelter Insurance Cos. to paint five watercolors to be presented as awards to the 1986 Missouri Arts Awards Recipients.

EARL STEFFEN, research assistant professor in veterinary pathology, attended the 36th annual session of the American Association for Laboratory Animal Science in Baltimore in November.

ROBERT R. STEWART, professor of agricultural education, was chair of the na-

tional Agricultural Education Meeting in Atlanta. He coordinated the refereeing process for papers and made all arrangements for the event.

Stewart is vice president of the central region of the American Association of Teacher Educators in Agriculture.

STEVEN STOCKHAM, assistant professor of veterinary pathology, presented "Polyarthritis Associated with Canine Granulocytic Ehrlichiosis" to the American Society for Veterinary Clinical Pathology meeting and American College of Veterinary Pathologists meeting in Denver Dec. 8-13.

ARVARH STRICKLAND, professor of history, is a winner of a 1986 Distinguished Alumni Citation of the Year Award from the National Association for Equal Opportunity in Higher Education. The award will

be presented at the association's 11th national Conference on Blacks in Higher Education to be held in Washington in April.

In October, Strickland presented a paper, "The Plight of the People in the Sharecroppers' Demonstration in Southeast Missouri: A Neglected Question," at the 70th Annual Meeting of the Association for the Study of Afro-American Life and History in Cleveland, Ohio. In November, he was elected to the executive council of the Southern Historical Association at its annual meeting in Houston.

DUANE STUCKY, vice chancellor for Administrative Services, was appointed chair of the Missouri Governor's Advisory Council on Physical Fitness and Health.

SARAH SWEAT, assistant professor of clothing and textiles, published an article called "Female Appearance Presentation:

Parking Lot RC 1
(north of Columbia
Missourian, and Journalism School)
will have an additional restriction as of
April 14, 1986. Dual permits will not be
honored in RC 1.
Any requests for use of RC 1 will be referred
to 882-4821.

"There Is No Substitute For Quality"

THE UMC SCIENCE INSTRUMENT SHOP has a complete line of machine and welding shop equipment to provide you a broad range of skillful services in the development of your research projects. Our staff has more than 180 years of combined experience to assist you with each stage of your project from design to finish.

The total range of services available are:

- Consultation
- Design
- Estimates
- Fabrication
- Installation
- Testing
- Maintenance
- Repair

Gender Differences in Social Attribution and Situational Choice" in Home Economics Research Journal.

She discussed "Occupation and Appearance in Our Changing Society" at the Association of College Professors of Textiles and Clothing-Central Region Conference.

RICHARD B. TAYLOR, spectrometrists in chemistry, co-wrote "An Efficient, Unambiguous Synthesis of Methyl 3-O-B-D-galactopyranosyl-B-D-galactopyranoside" in Carbohydrate Research.

He co-wrote "General Synthesis of (1-3)-B-D-Galacto Oligosaccharides and Their Methyl B-Glycosides by a Stepwise or a Blockwise Approach" for Journal of Organic Chemistry.

MICHAEL S. TEMPESTA, assistant professor of chemistry, **MILTON E. BAILEY**, professor of food science and nutrition, and K. Brian Killday presented "Isolation and Characterization of Heme Pigments from Cured Meats" at the American Chemical Society meeting in Carbondale, Ill.

Tempesta, R. Promsattha, Z.T. Fomum, J.F. Ayafor and J.T. Mbafor presented "Chemical Studies on Cameroonian Medicinal Plant, Erythrina Sigmoidea" at the meeting.

RICHARD C. THOMPSON, professor

of chemistry, presented "Reduction of Peroxotitanium (IV) by Sulfur (IV), Iron (II), Titanium (III) and Iodide Ion in Acidic Solution" at the American Chemical Society meeting in Carbondale, Ill.

KATHY THORNBURG, professor of child and family development, was appointed to a committee on the needs of children by the Missouri Bar Legal Conference. She serves on the Boone County Community Services Commission.

LARRY THORNBURG, associate professor of veterinary pathology, presented "Hereditary Copper Toxicosis in West Highland White Terriers" to the American College of Veterinary Pathologists meeting in Denver Dec. 10-13.

CHARLES TIMBERLAKE, professor of history, presented a paper, "The Zemstvos as Promoters of a Middle Class in Late Tsarist Russia," at the Central Slavic Conference in Stillwater, Okla. He represented UMC at the annual meeting of the International Research and Exchanges Board in Washington. Timberlake presided as vice chair/chair-elect over the annual meeting of the Council of Regional Affiliates of the American Association for the Advancement of Slavic Studies (AAASS).

WADE TISDALE, EDP auditor, and **AMADOR MOLINA**, operational audit

supervisor, created a random sample worksheet program to be used with office personal computers under MS-DOF2.0 BASIC. The program was published in the EDP Auditor Journal, Volume 3, 1985.

MANUEL TORRES, associate professor of veterinary microbiology, presented "Bovine Paralytic Virus" at the University of Maryland in February.

DAVID TROUTNER, professor of chemistry, and G. Kupeli presented "Preparation of Tc-99m-PnAO by Ligand Exchange" at the American Chemical Society meeting in Carbondale, Ill.

JAMES TURK, assistant professor of veterinary pathology, presented "Effects of Inhibitors of Neutrophil Chemotaxis and Degranulation on Pneumonic Pasteurelliosis in Mice" to the American College of Veterinary Pathologists meeting in Denver Dec. 8-13.

MARGARET TURK, assistant professor of veterinary pathology, presented "3-Methylindole-induced Nasal Mucosal Damage in Mice" to the American College of Veterinary Pathologists meeting in Denver Dec. 8-13.

JOSEPH WAGNER, professor and chair of veterinary pathology, attended the 36th annual session of the American Association for Laboratory Animal Science in

Baltimore in November.

GARY WALDEN, senior clerk in the textbook area of University Bookstore, is the bookstore's March Employee of the Month. Walden has been with the University for 5½ years.

PAUL WALLACE, professor of political science, presented a paper on "The Sikhs as a 'Minority' in a Sikh Majority State" as part of a panel on the re-emergence of minority problems in South Asia in the 1980s, which he headed, at the 14th annual Conference on South Asia at the University of Wisconsin. He made a major presentation on the Indian domestic political situation at a Near East, South Asia Conference sponsored by the U.S. government in Charlottesville, Va.

DOROTHY WATSON, professor of curriculum and instruction, was appointed director of the National Council of Teachers of English commission on reading. She also was appointed to the council's validation team for the Centers of Excellence in English and Language Arts.

DON R. WEBB, professor of marketing, presented "Macro-Marketing: Observations on the Effectiveness of Social Marketing in the 21st Century" during the second World Marketing Congress held at the University of Stirling in Scotland. **DONALD L. SHAWVER**, professor of marketing, co-wrote the paper.

SAUL AND GLADYS WEINBERG received the Gold Medal for Distinguished Archaeological Achievement from the Archaeological Institute of America. Saul Weinberg is director emeritus of the Museum of Art and Archaeology, where Gladys Weinberg is a research fellow.

CURTIS WESTON, coordinator and professor of agriculture education, won an outstanding adviser award from students in the College of Agriculture.

JEAN GADDY WILSON, lecturer and development director in the School of Journalism, was one of three Americans who spoke during the International Conference on Women and the Media in Athens, Greece, in November. She discussed her research project, "Taking Stock: Women in the Media Before the 21st Century." Other speakers were former vice presidential candidate Geraldine Ferraro and Kathy Bonk, media project director for the National Organization For Women's Legal Defense and Education Fund.

LAUREL E. WILSON, instructor in clothing and textiles, was co-presenter of "The Importance of Domestic Textile Production as Determined by 19th Century Estate Records of Orange, Alamance and Durham Counties, North Carolina" at the Association of College Professors of Textiles and Clothing-Central Region Conference.

TUCK C. WONG, associate professor of chemistry, and Wei Guo presented "Indirect Measurements of Proton Spin-Lattice and Spin-Spin Relaxation Times Via Polarization Transfer and Their Applications to the Study of Metal-Biomolecule Interaction" at the American Chemical Society meeting in Carbondale, Ill.

BIROL YESHILADA, assistant professor of political science, wrote "World Market Recessions and Economic Development: A Look at Alternative Rescue Policies for the Third World," which was accepted for publication in a special issue of the International Journal of Contemporary Sociology on "The Contexts and Contours of Development in the Third World Nations."

CAROL YONKMAN, critical care clinical specialist and instructor in nursing, was presented the 1985 Achievement in Clinical Nurse Practice Award at the Missouri Nurses Association Convention in Hannibal, Mo. She was selected for her exemplary characteristics of applying nursing theory, nursing action and evaluation of the effects of nursing practice at the bedside and for her example as a role model for nursing students.

GILBERT YOUNANS, associate professor of English, published a short story, "Mrs. Hudson Stays for Tea," in the January 1986 issue of Ellery Queen's Mystery Magazine. He presented a paper on "Reconsidering Chaucer's Prosody" at the Modern Language Association meeting in Chicago.

You'll never fill out another health insurance claim. . .

... because The Staff for Life will do it for you. Not only do we give you special discounts on treatment and at our pharmacy, but we handle the paperwork, too!

All you do is take a few minutes to fill out our simple Care Card enrollment form. Then we'll send you a UMC Hospital and Clinics Care Card. Enroll your family, too.

Next time you're treated at the Hospital and Clinics, we'll automatically file your insurance forms for you even if you don't have University-sponsored coverage.

For your Care Card enrollment form, just call The Staff for Lifeline at 882-1081. And you'll never fill out another health insurance claim.

JOBS

The following staff openings were approved and posted March 31 and may be filled at any time after meeting the required posting period. Anyone with CMS computer access may view campus and UM vacancies by logging on to CMS and typing help jobs. If your terminal is not linked to the campus disk, type link UMCCMS 191 192 RR, enter, access 192 D, enter, help jobs. Or, over the phone, recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916. For more information or to apply for a job, contact Personnel Services, Heinkel Building, 201 S. Seventh St., west entrance, at 882-7976. Salary codes follow some listings in parentheses.

PROFESSIONAL

- Administrative associate I**, Campus Computing-Business Operations, Journalism (Fiscal).
- Architect**, Business Services-UM.
- Assistant director of art and archaeology museum**, Museum of Art and Archaeology.
- Assistant superintendent**, Delta Center (located in Portageville, Mo.)
- Associate athletic director-operations**, Intercollegiate Athletics, deadline April 25.
- Budget specialist**, Budget Development and Planning Services-UM, 75 percent-100 percent FTE.
- Coordinator, auditorium services**, Business Services.
- Fiscal analyst**, Investments and Trust-UM (2).
- Food technologist**, Central Food Stores.
- Institutional research analyst**, Institutional Research and Planning.
- Manager, engineering**, Campus Facilities.
- Manager, food service residential life II**, Residential Life Food Service.
- Marketing representative**, Purchasing (General Stores).
- Radio producer**, FM Station, deadline March 28.
- Residence hall coordinator**, Residential Life, two openings, beginning August 1986.
- Senior personnel associate**, Personnel Services-Wage/Salary/Records.
- Staff nurse (M-63)**, Child Health.
- Staff physician**, Student Health.
- Student services coordinator**, Residential Life/Greek Life (Program/Hall Coordinator-Greek Life).
- Superintendent, construction**, Campus Facilities.
- RESEARCH/SERVICE**
- Pressman male or female (H-24)**, Printing and Records Management Services-UM.
- Research electronic technician (M-56)**, Veterinary Pathology.
- Research/laboratory technician (M-56)**, Veterinary Pathology.
- Research specialist**, Animal Science, Horticulture, Veterinary Pathology.
- Senior research/laboratory technician (M-59)**, Animal Science (2), Biological Sciences, Child Health (3), Experiment Station Chemical Laboratories, Microbiology, Pharmacology (2), Radiology, Veterinary Biomedical Sciences, Veterinary Microbiology (2).
- Senior research specialist**, Surgery.
- SECRETARIAL**
- Administrative assistant (M-59)**, Child Health, School of Nursing.
- Library clerk II (M-53)**, Health Sciences Library-Serials, Journalism Library (Freedom of Information Center).
- Secretary (M-55)**, Chemical Engineering, Cooperative Extension-Agronomy, Development, Electrical and Computer Engineering (2), English, Medicine/Cardiology, Women Studies Program.
- Senior secretary (M-57)**, School of Nursing, Surgery.
- Word processing operator II (M-55)**, Medicine/Cardiology.
- CLERICAL**
- Clerk typist II (M-53)**, Office of Grants and Contracts, Purchasing.
- Data entry operator I (M-53)**, Purchasing.
- Data entry operator II (M-55)**, Memorial Union.
- Senior accounting clerk (M-55)**, Development, Facilities Management-UM, Memorial Union.
- Senior clerk typist (M-54)**, Romance Languages.
- COMPUTER/TECHNICAL**
- Computer programmer I (M-59)**, Agricultural Engineering.
- Data controller II (M-57)**, Accounting Services.

For more information on the following teaching and research positions, contact the appropriate individual listed below. All positions are contingent upon funding and enrollment.

- Biochemistry**: Research associate/postdoctoral fellow in molecular biology of gene expression in soybean, deadline April 4. Contact Joe Polacco, 882-4789.
- Community development**: Associate professor or professor, deadline April 15. Contact Jerry Wade, 882-8393.
- Educational resources group**: Educational specialist in medicine and instructor in education, deadline March 31. Contact Gloria J. Boyle, 882-6172.
- Electrical and computer engineering**: Assistant, associate or full professor, deadline April 10. Contact Charles Slivinsky, 882-6387.
- Health related professions/respiratory therapy**: Assistant professor, deadline May 15. Contact Michael Prewitt, 882-8011.
- Home economics extension**: Leader, family resource management program, deadline April 4. Contact Bea Litherland, 882-6227.
- Libraries**: Librarian II or II and head of bibliographic control, available July 5. Contact Pat Burbridge, 882-4701.
- Physical medicine and rehabilitation**: Clinical assistant professor, deadline April 18. Contact Robert Frank, 882-3101.
- Psychiatry**: Associate professor of psychiatry-

- medical psychology, deadline April 30. Contact James M.A. Weiss, 882-3176.
- Veterinary diagnostic laboratory/veterinary microbiology**: Assistant professor, deadline June 1. Contact L.G. Morehouse, 882-6811.
- Veterinary medicine and surgery**: Resident veterinarian at St. Louis Zoo, deadline June 1. Contact William Boever, (314) 781-0900.
- Veterinary pathology**: Assistant, associate or full professor, deadline May 15. Contact Joseph Wagner, 882-6647.

- The following job openings were listed by the UMC Hospital and Clinics Personnel Department March 31 and may be filled at any time after meeting the required posting period. For more information, call 882-8186.
- ADMINISTRATIVE/PROFESSIONAL**
- Associate hospital director, Nursing Services, Professional Services.
 - Cancer registrar, Medical Records.
 - Registered respiratory therapist, Respiratory Therapy.
 - Staff physical therapist, Physical Therapy.
- CLERICAL**
- Senior accounting clerk, University Physicians.
 - Senior clerk, Housekeeping.
 - Senior receptionist, Admissions, hours 11 p.m.-7 a.m. Sunday through Thursday; Family Practice Clinic.

- Senior secretary, Nursing Service, C and CS Services.
 - Telecommunications operator, Telecommunications, 80 percent FTE.
 - Unit clerk, Nursing Service.
- NURSING SERVICES**
- Medicine area**
- Staff nurse, 4 West (General Medicine), Medical ICU (2).
- Surgery area**
- Staff nurse, 5 West ICU (3) (Surgery), Neurosurgery Unit (2), 5 East (General Surgery) (4), Thoracic Intensive Care (3).
- Maternal child/rehabilitation area**
- Staff nurse, OB/GYN; Pediatrics; Neonatal ICU; Rusk 5, Rehabilitation; Pediatrics ICU, one position 75 percent FTE, one position 100 percent FTE.
- Education nurse**, Pediatrics/Pediatrics ICU.
- NURSING**
- (Positions outside of Nursing Service)
- Licensed practical nurse, University Physicians (Family Practice Clinic, one-year position).
 - Staff nurse, Operating Room (2).
- NURSING CARE BANK**
- Licensed practical nurse, Nursing Care Bank.
 - Nursing assistant, Nursing Care Bank.
 - Staff nurse, Nursing Care Bank.
- TECHNICAL**
- Laboratory supervisor, Pathology.
 - Radiographic service engineer, Clinical Engineering.

You'll never again wonder who to call for health care answers...

Knowing exactly whom to call for what at University Hospital used to be confusing. But not anymore, because now there's The Staff for Lifeline.

If you've got a question, need some information, or have an idea on how we

can improve our service to you, we want to know. And at The Staff for Lifeline office, our only concern is keeping you healthy...and happy.

So keep our number nearby. And let us hear from you at 882-LIFE (5433).

CALENDAR

To list events in the calendar, send information to Jim Kelly, Mizzou Weekly, 1100 University Place, by noon Friday the week before publication.

Highlights

BOOK SALE: Annual Friends of the Libraries sale will be held from noon-9 p.m. April 4 and from 9 a.m.-4 p.m. April 5 in the East Concourse of the Hearnes Bldg. Cost: \$4 for first hour of sale, free thereafter.

EQUAL OPPORTUNITY AWARENESS WEEK: Campuswide events sponsored by the Office of Equal Opportunity will be held April 7 through 11. See story on Page 1. Call 882-7885 for more information.

ALUMNI SEMINAR WEEKEND: John Houseman will deliver the keynote address at 9 a.m. April 12 in the Fine Arts Recital Hall. Call 882-6611.

4 Friday

BOOK SALE: See Highlights.

STAFF RECOGNITION CEREMONIES: Event will be held from 2-4 p.m. in Jesse Aud.

CHEMISTRY: George A. Kraus of Iowa State University will discuss "Natural Product Synthesis Using Bridgehead Intermediates" at 3:40 p.m. in 103 Schlundt Hall.

SYMPOSIUM: "Midwest Graduate Student Symposium," sponsored by the Child and Family Development and the Family Economics and Management departments, will begin today at 6:30 p.m. and continue through April 6 in Gwynn and Stanley halls.

MSA FILM: "Maxi" will be shown at 7 and 9:30 p.m. in Middlebush Aud. Cost: \$2.

UNIVERSITY THEATER: "Tambourines to Glory" will be presented at 8 p.m. in Rhynsburger Theater. Cost: \$4.50 faculty/staff, \$2.50 students, \$5 general public. Call 882-7857.

SEE THE STARS: Weather permitting, the Laws Observatory on the roof of the Physics Bldg. will be open between 8 and 10 p.m.

FACULTY RECITAL SERIES: Eva Szekely, violinist, and Daniel Schene, pianist, will perform at 8 p.m. in the Fine Arts Recital Hall.

5 Saturday

SEE THE COMET: Weather permitting, the Laws Observatory on the roof of the Physics Bldg. will be open between 4 and 6 a.m. for observation of Halley's comet.

TEST: American Production and Inventory Control test will be offered in 310 Middlebush. Call 882-4801.

WOMEN'S CENTER: "Financial Planning Workshop" will be presented by Mary Boyd, financial planning consultant, from 9 a.m.-noon at the Women's Center.

MISSOURI CONFERENCE OF THE AMERICAN ASSOCIATION OF UNIVERSITY PROFESSORS: Group will meet at 9:30 a.m. at the Hilton Inn, 2200 I-70 Drive S.W.

CEREMONY: The Education Bldg. will be dedicated as Townsend Hall at 1:30 p.m. in the auditorium. A reception will follow.

STUDENT RECITALS: Clifford McDaniel, percussion, will perform at 2 p.m., and Larry Mudd, baritone, will perform at 4 p.m. in the Fine Arts Recital Hall.

LECTURE: "The Eritrean War and the Prospect of Peace in the Horn of Africa" will be the topic of Bereket Habteselassie, former attorney general of Ethiopia, at 6:30 p.m. in Gannett Aud.

BANQUET: The College of Education Alumni Awards Banquet will be held at 6:30 p.m. in N201-202 Memorial Union. John Bearden, president of the College of Education Alumni organization, and Dean Bob Woods will speak. Call 882-8311 for information.

MSA FILM: "Commando" will be shown at 7 and 9:30 p.m. in Middlebush Aud. Cost: \$2.

LECTURE: Ofelia Garcia, juror for "Heart of America National Printmaking Exhibition" currently on display in the Museum of Art and Archaeology and Fine Arts Gallery, will

speak at 7:30 p.m. in 106 Pickard Hall. Reception will follow in both locations.

UNIVERSITY THEATER: "Tambourines to Glory" will be presented at 8 p.m. in Rhynsburger Theater. Cost: \$4.50 faculty/staff, \$2.50 students, \$5 general public. Call 882-7857.

ERITREAN NIGHT: An Eritrean cultural show, featuring food, music and dance, will begin at 9 p.m. at the Missouri United Methodist Church, 204 S. Ninth St. Donation: \$3.

6 Sunday

WORKSHOP: The Penney-Missouri Newspaper Workshop will be held from 8 a.m.-5 p.m. today through April 11 at the Columbia Holiday Inn West.

UNIVERSITY THEATER: "Tambourines to Glory" will be presented at 2 p.m. in Rhynsburger Theater. Cost: \$4.50 faculty/staff, \$2.50 students, \$5 general public. Call 882-7857.

NURSING: "Excellence in Clinical Practice through Infection Control," sponsored by the School of Nursing Continuing Education Program and UMC Hospital and Clinics, will be presented from 6:30-9:30 p.m. today and from 8:30 a.m.-4:15 p.m. April 7 and 8 in Cape Girardeau, Mo. Call 882-6403 for registration.

MSA FILM: "Freaks" will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents.

7 Monday

EQUAL OPPORTUNITY AWARENESS WEEK: See Highlights.

MISSOURI INSTITUTE FOR EXECUTIVE DEVELOPMENT: "Grow As A Pro" seminars on sales training will be held from 7:30-9 a.m. Mondays through July 14 at the Memorial Union. Call 882-6784.

WOMEN'S CENTER: "Educated Women in China Since the Revolution (1949)" will be presented by Tani Barlow, assistant professor of history, at noon at the Women's Center.

BIOCHEMISTRY: Fred Ausbel, a doctor at Massachusetts General Hospital, will speak at 3:40 p.m. in 322 Chemistry Bldg.

STAFF FOR LIFE HEALTH PROGRAM: "Heartsaver CPR Class" will be presented from 6-9 p.m. in 4 Roblee Hall on Stephens College campus. Cost: \$5. Call 882-3880.

RELIGIOUS STUDIES/WOMEN STUDIES/SOUTH ASIA STUDIES SEMINAR: "What's Wrong with Women's Roles in Religion?" will be the topic of Nancy Falk of Western Michigan University at 7:30 p.m. in 106 Pickard Hall.

EQUAL OPPORTUNITY AWARENESS WEEK: Pete Strudwick, author and consultant, will speak at 8 p.m. in N214-215 Memorial Union.

MSA FILM: "Cries & Whispers" will be shown at 8 p.m. in Ellis Aud. Cost: 50 cents.

8 Tuesday

TEST: General Education Development test will be offered in S16 Memorial Union. Call 882-4801.

SHORT COURSE: "RCRA Amendments and Underground Storage Tanks" will be presented today and tomorrow at 8 a.m. at the Harley Hotel in Earth City, Mo. Event is sponsored by College of Engineering and Engineering Extension. Cost: \$350, or \$300 each if two or more enroll from the same firm. Call 882-2087.

WORKING PARENTS SEMINAR: Lunch-bag seminar on time management will be held from 11:30 a.m.-1:30 p.m. in S8 Memorial Union. Call Training and Development at 882-2552 to register.

MSA FILM: "Twelve O'Clock High" will be shown at 8 p.m. in Ellis Aud. Cost: 50 cents.

9 Wednesday

EQUAL OPPORTUNITY AWARENESS

WEEK: Jean Gaddy Wilson, J-School researcher, will speak from 11:40 a.m.-1:30 p.m. in N208 Memorial Union.

WOMEN'S CENTER: "Problem Teachers?" will be presented by Dina Copelman, assistant professor of history, at noon at the Women's Center.

LUNCHTIME GALLERY: Missouri Arts Quintet will perform at 12:25 p.m. in the Museum of Art and Archaeology.

UNIVERSITY CLUB: "Weldon Spring Humanities Fellowships" will be presented by Stephen Archer, professor of speech and dramatic art, and Robert Sattelmeyer, professor of English, at 12:30 p.m. in N214-215 Memorial Union. Cost: \$5. For reservations, call 882-6066 by noon April 7.

PSYCHIATRY SEMINAR: "Two Alcoholisms" will be presented by Donald W. Goodwin, professor and chair of the University of Kansas Department of Psychiatry, at 1 p.m. in Truman Veterans Hospital Aud.

MEN'S BASEBALL: Team will play Missouri Western at 5 p.m. at Simmons Field.

CONCERT PREVIEW: Michael Budds, musicologist, will preview the Dresden Chamber Orchestra concert at 6:30 p.m. in Fine Arts Recital Hall.

MSA FILM: "Cool Hand Luke" will be shown at 7 and 9:30 p.m. in Ellis Aud. Cost: 50 cents.

UMC CONCERT SERIES: The Dresden Chamber Orchestra will perform at 8 p.m. in Jesse Aud. Cost: \$11 faculty/staff, \$10 students.

10 Thursday

PSYCHIATRY CONFERENCE: "Fourth Annual Missouri Conference on Depression: Treatment Approaches" will be held through April 11 at Adam's Mark Hotel in Kansas City.
