

KBIA celebrates its 14th birthday May 10. See Calendar Highlights on Page 8.

Commencement plans announced

Economist to address commencement; four to receive honorary degrees.

One of the nation's leading economists, Beryl Sprinkel, will be the keynote speaker at the 144th annual commencement at 10 a.m. May 17 in the Hearnes Building.

Sprinkel, the chairman of the President's Council of Economic Advisers, provides economic analysis and advice to President Ronald Reagan and assists him in formulating national economic policies. Sprinkel has served as consultant to many government fiscal agencies including the Federal Reserve Board, the Bureau of Census and committees for Congress and the House of Representatives. In the early 1980s he gained further international recognition during his tenure as undersecretary for monetary affairs, Department of Treasury.

A native of Richmond, Mo., Sprinkel has written or co-written three books, including "Winning With Money."

Honorary degrees will be presented during the main commencement ceremony to Sprinkel, BS PA '47; Herman Lum, JD '50; Paul Doll, BSAG '36, MS '37; and George Hoagland Vineyard.

Lum is chief justice of the Supreme Court of Hawaii. He has distinguished himself throughout 36 years of both pub-

lic and private practice in his native Hawaii. He received a Faculty-Alumni Award from UMC in 1980.

Doll, an agricultural engineer, served for 22 years as executive director of the Missouri Society of Professional Engineers and has been an effective national spokesman for engineering professionalism and ethics. Doll also organized a not-for-profit corporation to further agricultural education. He is a past recipient of a Faculty-Alumni Award and a Distinguished Service Award from UMC.

Vineyard, a former UMC faculty member, has led a distinguished career in physics. From 1973 to 1981, he served as director of the Brookhaven National Laboratory, a research facility in Upton, N.Y. During that period the laboratory's reputation in fundamental research flourished. He also has been a member of many advisory committees and is on the editorial boards of six physics journals.

Guest speakers at divisional convocations will include:

- **College of Agriculture:** Fred Hutchinson, Ohio State University interim vice president for agriculture administration and executive dean for agriculture and natural resources.
- **College of Arts and Science:** Curator Peter Raven.
- **College of Business and Public Administration:** Sen. Thomas Eagleton.
- **College of Education:** Dean Bob Woods.
- **College of Engineering:** Dean William R. Kimel.
- **School of Forestry, Fisheries and Wildlife:** Ken Babcock, chief of wildlife at the Missouri Department of Con-

servation.

- **School of Health Related Professions:** William Bondeson, professor of medicine and philosophy.
- **College of Home Economics:** Dean Bea Litherland.
- **School of Journalism:** Ron Powers, CBS news media critic and Pulitzer Prize winner.
- **School of Law:** John R. Gibson, judge of the 8th U.S. Circuit Court in Kansas City.
- **School of Medicine:** Jack MacPherson Martt, professor of internal medicine at Texas A&M.
- **School of Nursing:** Virginia Bzdek, associate professor of nursing.
- **Tri-Service ROTC Commissioning:** Air Force Col. Paul F. Murphy.
- **School of Public and Community Services:** Meg Yoak, health services development specialist for the St. Louis County Department of Community Health and Medical Care.
- **College of Veterinary Medicine:** Ray Russell, executive director of the American Animal Hospital Association.

Some 3,000 students will be eligible to receive degrees during commencement weekend. A schedule of divisional convocations is included on Page 8.

A luncheon for graduates, their families and friends will follow the main commencement in the Hearnes Field House. The cost is \$6.50 per person. Send reservations to Marilyn Schappert, 132 Alumni Center, by May 12.

Board handles money matters

Widow of famous columnist bequeathes \$1 million to benefit Mizzou's School of Journalism.

Private gifts totaling more than \$3 million were accepted by the Board of Curators at the May 1-2 meeting in Rolla.

The gifts included more than \$1 million from the estate of Mrs. O.O. McIntyre, widow of the famous New York columnist,

for scholarships, fellowships and a distinguished professorship at Mizzou's School of Journalism.

McIntyre was a native Missourian whose popular column, "New York Day by Day," was syndicated in 1,000 newspapers in the 1930s. "The University of Missouri School of Journalism is a place he wanted to go, but never had the chance," says Roy Fisher, former journalism dean. "O.O. was impressed with the Missouri journalism graduates he worked with in New York, and he wanted to do something for the school."

Other gifts to the University were \$1.1 million from bankers across Missouri to establish a Missouri Bankers' Chair in the UMC College of Business and Public Administration, and \$1.2 million from McDonnell Douglas Foundation in support of the UMR aerospace engineering program.

In other business, University President C. Peter Magrath reported that the University has been able to focus \$8.1 million this year on priority programs designated in the long-range plan. He said \$5.1 million came from internal reallocations and the remainder from targeted investments made by the state.

In the coming year a significant part of the state's appropriation is earmarked for program improvements, Magrath said. "The funds available for the general operating budget of the University are somewhat restricted." Increases of 4 percent are expected in the salary budget and the expenses-and-equipment budget.

In other matters, the board:

- Extended the Early Retirement Incentive Program through the 1989-90 school year.
- Approved final plans for a \$17.4 million building for the UMC School of

Law.

• Hired Stone and Webster Engineering Corp. of Boston to prepare a schematic design for upgrading the Research Reactor from 10 megawatts to up to 30 megawatts. MURR currently is the most powerful university research reactor in the country. It supports research of students and faculty from all four University campuses, scientists from 130 other universities, federal and state agencies, and industry.

• Approved a \$263,933 contract with Richardson and Bass Construction Co. of Columbia to resurface parking lots and drives for UMC.

• Agreed to continue to allow different fees to be charged for similar programs offered on different campuses of the University. The board also adopted a policy allowing different fees to be charged for different educational programs, based on differences in the costs of instruction.

Offices switch to 7:30-4

A number of campus offices have informed Mizzou Weekly that they will adopt summer hours of 7:30 a.m. to 4 p.m. with a half-hour for lunch from May 19 through Aug. 22.

In the past, summer hours were observed to reduce discomfort when air conditioners were turned off during peak alerts. This year, a new turbine at the Power Plant should keep air conditioners running all

summer. Many staff, however, requested that summer hours be continued to give them more evening hours at home.

The following offices will observe summer hours; an additional list will be published May 16 if necessary. To notify Mizzou Weekly of summer hours, call 882-7357 by noon May 9.

Accountancy; Accounting Services; Art History and Archaeology; Biochemistry; Black Culture Center; Business and Public Administration Placement Office and Undergraduate Advising; Business Services; Cashiers/Payroll and Student Aid Accounts; Civil Engineering; Economics (office will be open during noon hour); Counseling Services; Education; Engineering Experiment Station and Copy/Mail Room; Environmental Health and Safety; Facilities Utilization; Hearnes Building; Horticulture; International Student Programs; Jesse Hall offices; Journalism; Learning Center; Management Department; Materials Management; Nursing School; Parking and Transportation Services; Personnel

Services/Employee Relations; Public Administration; Purchasing; Recreation/Intramurals; Residential Life; Student Development; Student Financial Aids; Student Governments and Activities; Student Health Service (some staff will be available until 5 p.m.); Student Parent Center; Telecommunications; Vice Chancellor for Administrative Services; Vice Chancellor for Student, Personnel and Auxiliary Services; and Women's Center.

Some special notes: Campus Mail Service will use summer hours, with carriers leaving to deliver routes at 8:45 a.m. and 12:30 p.m. Ask the carriers or call 882-6589 for delivery times. Campus mail will be accepted until 3:45 p.m., and U.S. mail or UPS packages for posting until 3 p.m.

With advance notice, Campus Mail will hold mail for offices or departments closed for summer vacation.

Campus Computing staff will stagger their hours. The help desk in Lefevre Hall will be open 7 a.m. to midnight.

Campus Facilities day shift's permanent

hours are 7:30 a.m. to 4 p.m.

Candy Etc. will be open 8 a.m. to 5 p.m. weekdays and 9 a.m. to 2 p.m. Saturdays.

Central Food Stores' hours will be 7 a.m. to 4 p.m. weekdays.

Memorial Union Administrative Office hours will be 7:30 a.m. to 4:30 p.m. weekdays May 19 through Aug. 18. Memorial Union/Brady Commons Accounting Services Office will follow the same summer schedule.

The Nook will be open 7 a.m. to 7 p.m. weekdays, 9 a.m. to 3 p.m. Saturdays and noon to 6 p.m. Sundays.

University Bookstore will be open 8 a.m. to 5 p.m. weekdays and 9 a.m. to 2 p.m. Saturdays.

Visitor and Guest Relations will be open 8 a.m. to noon and 1 to 5 p.m. May 9 through June 10. Beginning May 9 student members of the Mizzou Tour Team will not be available for regular campus tours. The 1:45 p.m. tours from the Tower will resume June 10. For special tour arrangements, call 882-6333.

USE CAUTION WITH CONTACTS

Extended-wear contact lenses pose a small, but serious, threat to vision, says Jemshed Khan, third-year ophthalmology resident physician at UMC.

"They are not as safe as daily-wear lenses," he says.

Extended-wear lenses can be left in the eye for up to 30 days. But bacterial infections, which can lead to corneal ulcers, are more common among extended-lens wearers than those using conventional contacts.

Corneal ulcers may cause blindness if not properly treated. The American Academy of Ophthalmology is exploring the problem of corneal ulcers resulting from use of the lenses.

SOFT BATHTUBS MAKE A SPLASH

Ahhhhh. Imagine soaking in cushioned comfort while bath water stays hotter longer.

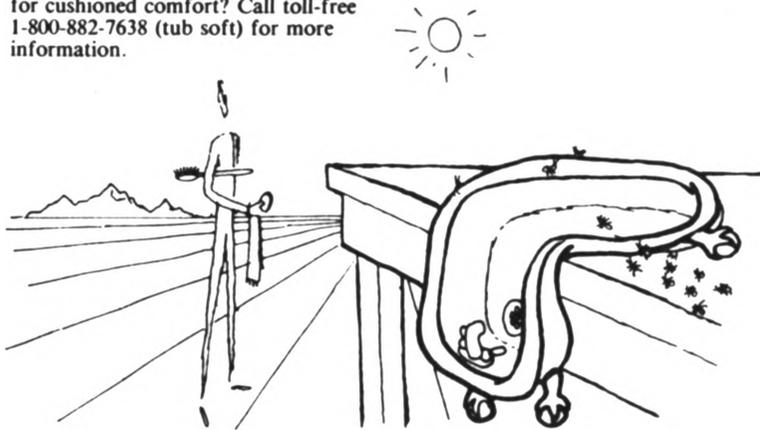

The new cushioned bathtubs promise this luxury and more—the cushioning makes falls less likely.

"It's a totally revolutionary development in bathing. I'm sure everyone will agree that the typical cast iron tub is certainly not very comfortable," says Bob Cusick, extension housing specialist.

The new tubs are lined with one-inch plastic foam cushioning and covered with a flexible material.

Bathers can even lounge in pairs, but the double-wide model costs as much as \$3,700. Singles can soak for about \$1,200.

Increased demand could bring the cost down, Cusick says. Can't wait for cushioned comfort? Call toll-free 1-800-882-7638 (tub soft) for more information.

COLLECTION GETS TONS OF INFO

Peter Tamony went the whole nine yards. Tamony, a retired real estate agent, spent more than half a century collecting books, records, correspondence and files dealing with etymology, the origins and development of everyday words and phrases.

The Western Historical Manuscript Collection acquired Tamony's massive collection following his death last year.

Tamony, a self-taught etymologist, was widely known among dictionary authors and other scholars.

At more than seven tons of paper and books, the Tamony collection is the largest owned by the Western Historical Manuscript Collection. "These papers contain a wealth of

NOW THAT YOU OWN A MICROCOMPUTER PROTECT YOUR INVESTMENT

CAMPUS COMPUTING now offers low-cost warranty service to faculty, staff, and students who own IBM or Apple Macintosh microcomputers.

The warranties include Basic Care (which covers the machine) or Total Care (which covers the machine and supported software). Both are extensions of the manufacturer's warranty. Maintenance will be done on-site for University-owned machines so in many cases your machine will be back in service on the spot.

For more information or an application, contact the Computing Services Demo Room at 882-2112.

Eight research proposals funded

Eight Weldon Spring proposals were selected for funding on the Columbia campus. Investigators and their topics are:

Roger deRoos, professor of biological sciences, \$9,700, "Hormonal Control of Energy Sources in Carnivorous Poikilothermic Vertebrates."

John Miles Foley, professor of English, \$9,338, "A Bilateral International Symposium on the Contribution of Vuk Stefanovic Karadzic."

Vellore Gopalratnam, assistant professor of civil engineering, \$18,615, "Nonlinear Interface Characteristics in Ductile Fiber-Brittle Matrix Composites."

Robert Goodman, professor of plant pa-

thology, \$9,139, "Gel Formation as a Basis for Wilting in Diseased Plants."

Robert Kuntz, professor of chemistry, \$23,140, "Design and Characterization of Photocatalysts for N₂-Fixation."

Peter Nabelek, assistant professor of geology, \$10,570, "Geochemical Study of Aplite Petrogenesis as a Mirror of Fluid Evolution in the Granitic Complex of St. Francois Mountains of Southeastern Missouri."

Eva Szekely, John McLeod and Carolyn Kenneson, associate professors of music; and Carleton Spotts, professor of music, \$17,640, "Realization and Recording of James Willey's Quartets No. 4 and No. 5 by the Esterhazy Quartet."

Michael Underwood, assistant professor of geology, \$11,483, "Deep-Marine Sedimentation in the Aleutian Forearc, North Pacific Ocean."

Maintenance inspections

Campus Facilities has implemented a new program to better maintain campus buildings.

Under the program, maintenance supervisors are working with building coordinators to conduct building inspections on a regular basis, says Le Roy Bealmear, assistant director of construction and maintenance for Campus Facilities.

During inspections, the maintenance unit

looks for both minor repair items, such as missing ceiling tiles or loose vinyl bases, and capital budget items, such as tuck-pointing a building or replacing air-conditioning equipment.

Since the program began in early March, 74 of the 77 major campus buildings have been inspected. "The goal of the building maintenance inspections program is to inspect each building three times a year," Bealmear says. "By catching problems early, the maintenance unit can take care of them before they become serious."

So far the supervisors have accumulated 1,300 routine maintenance work slips and 130 items to be submitted in the capital budget request.

FOR SALE BY OWNER: Three-bedroom, two-bath home in Russell School area, two miles from campus and downtown. JennAire range, Foley cabinets, two-car garage, hardwood floors, screened porch, fenced backyard, 301 Crown Point. \$70,000. For appointment call 442-2586.

FOR SALE: IBM PC, 640 K, monochrome display, 10 megabyte fixed disc, Okidata printer, Displaywrite 3, sidekick, woodgrain desk with printer stand. Cost: \$2,300. Call Mike Bodestab at 445-9809 in the evenings.

RETIREMENT RECEPTION: Friends and colleagues of Charles Koelling are invited to a

retirement reception in his honor from 3:30 to 5:30 p.m. June 18 at the Alumni Center. Koelling, associate dean of education and director of continuing education, has been at UMC since 1959. He plans to retire June 30.

HOUSESITTER AVAILABLE: Graduate student and former home owner would like to house sit starting June 1. References will be supplied. If interested, call Alan Rush at 443-3792.

CORRECTION: The amount of Elaine Charlson's Alumnae Anniversary Faculty Award was incorrectly printed in the May 2 Mizzou Weekly. The correct amount is \$2,000.

BEDELL ENDOWMENT: Ralph C. Bedell, professor emeritus of education, has made a donation to establish the Bedell Fund, an endowment to support research activities sponsored by the Educational and Counseling Psychology Department in cooperation with public schools. He was a faculty member from 1966-74.

Need Multiple Copies at Night or on Weekends?

Grants, manuscripts and proposals are not always written between 9 and 5. If you are working on projects in the evening or on weekends and "quick copy" is closed come to

Ellis Library Copy Service

On the second floor of the main library

We can run multiple copies, collate, and staple for you, all for only 5¢ a copy.

And, of course, we can also reduce, enlarge, make 11x17 copies and colored paper copies.

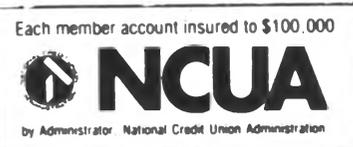

Hours: M-FRI 8-11 PM
SAT 9-9 PM

"Highest rates paid on your passbook savings"

information on colloquial expressions used by sports figures, jazz musicians, blacks and politicians," says Nancy Lankford, the collection's associate director. "It should be a unique treasure trove for years to come for scholars from the University and many others."

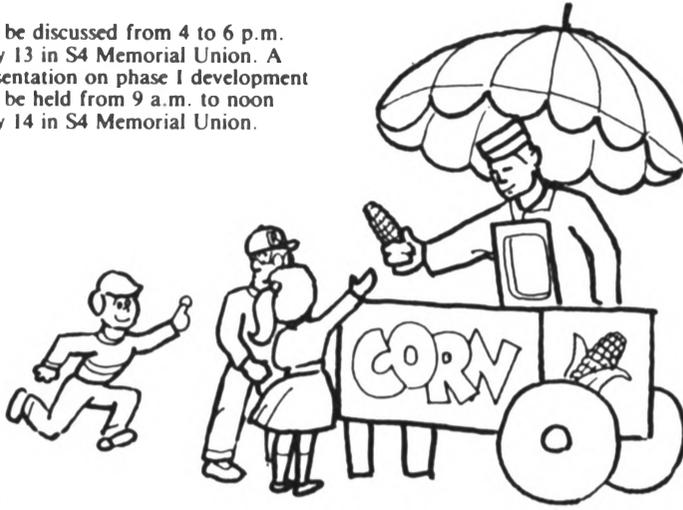

SHARE IDEAS IN BREWER/ROTHWELL DESIGN WORKSHOP

Architects will be on campus next week to review renovation/expansion of Brewer Fieldhouse and Rothwell Gym during a three-day design workshop called a charrette. Faculty, staff and students are encouraged to attend.

Architects from Gastinger Rees Walker Architects of Kansas City and Bussard/Dikis Associates Ltd. Architects of Des Moines, Iowa, will hear comments and ask questions during an open forum from 9 a.m. to noon May 12 in S4 Memorial Union. They will summarize the morning's discussion from 4 to 6 p.m. in S4 Memorial Union.

The long-range plan for the facility

will be discussed from 4 to 6 p.m. May 13 in S4 Memorial Union. A presentation on phase I development will be held from 9 a.m. to noon May 14 in S4 Memorial Union.

'HOW SWEET IT IS'

An ultra-sweet white corn is this year's winner of the "How Sweet It Is" award, the Oscar of the garden-seed industry.

The ultra-sweet variety will stay sweet longer than other sweet-corn choices, says Ray Rothenberger, professor and chair of horticulture. "You don't have to rush out and pick them the moment the ears are ripe and cook them within a few minutes for best flavor," he says.

For best results, plant several rows, Rothenberger says, because the plants must be cross pollinated. About the smallest plot possible is four-foot by four-foot.

Q&A

JOBS

Q. Is it possible to get a tour of the Memorial Union bell tower?

A. "We don't like to give tours of the bell tower because the staircase is very steep and very dangerous. It is used only when the clock needs to be repaired," says A.K. Rahman, director of Memorial Union/Brady Commons. "In the past, people have asked to see the bell tower, but once they saw the stairs they decided against it."

Individuals who would like to discuss this further should call Rahman at 882-3418.

Q. There is some very disgusting graffiti inside the tunnel that runs between the Law School and Lowry Mall. When will this be cleaned up?

A. "Because of the low visibility of the tunnel, it is a repeated target for vandalism," says Phil Shocklee, assistant director of Campus Facilities. "As soon as a problem is noticed and called into our work order desk, we send a crew to correct it. We will try to have this graffiti cleaned up in the next few days."

Q. Why does the University Hospital and Clinics keep sending me bills stating that I do not owe them any money? Isn't that an unnecessary expense?

A. "Billing statements are sent to keep the patient informed of the status of the account as it relates to whether the insurance company has paid," says Patsy Hart, assistant divisional director of financial services for University Hospital. If the insurance company does not pay the account, the bill is then charged to the patient, Hart explains. "We do send one zero balance statement after the account has been paid."

Send your questions about campus matters to Mizzou Weekly, 1100 University Place. You must include your name and phone number so we can reach you, if necessary.

The following staff openings were approved and posted May 5 and may be filled at any time after meeting the required posting period. Anyone with CMS computer access may view campus and UM vacancies by logging on to CMS and typing help jobs. If your terminal is not linked to the campus disk, type link UMCCMS 191 192 RR, enter, access 192 D, enter, help jobs. Or, over the phone, recorded listings of new campus and UM job openings are available 24 hours a day. For professional vacancies call 882-2345; for secretarial/clerical positions call 882-2041; and for technical/service/maintenance openings call 882-2916. For more information or to apply for a job, contact Personnel Services, Heinkel Building, 201 S. Seventh St., west entrance, at 882-7976. Salary codes follow some listings in parentheses.

PROFESSIONAL
Accountant, UM Accounting, 75 percent FTE.
Administrative associate I, Anesthesiology, Business Management-UM, Journalism (Fiscal), deadline May 9.
Architect, Business Services-UM.
Assistant director of alumni activities, Alumni Relations.
Design engineer (assistant power plant engineer), Campus Facilities.
Institutional research analyst, Institutional Research and Planning.
Manager, engineering, Campus Facilities.
Manager, food service residential life II, Residential Life Food Service.
Manager, garage, Campus Facilities.
Project planner/estimator, Campus Facilities.
Radio producer/news, FM Station.
Reference specialist, State Historical Society-UM.
Senior construction project manager, Facilities Management-UM.
Staff Nurse, Medicine/Nephrology.
Supervisor, instructional materials center, Education.

RESEARCH/SERVICE
Electronics technician I (M-57), Mechanical and Aerospace Engineering.
Histologic technician (M-60), Anatomy.
Laboratory assistant (M-53), Pharmacology.
Research electronic technician (M-63), Research Reactor-UM.
Research engineering technician I (M-58), Science Instrument Shop.
Research specialist, Animal Science (2), Biological Sciences.
Senior research/laboratory technician (M-59), Animal Science, Child Health, Pharmacology, Physiology, Radiology, Veterinary Biomedical Sciences, Veterinary Diagnostic Laboratory.
Senior research specialist, Surgery.
Storekeeper (M-57), Purchasing (Military).

SECRETARIAL
Administrative assistant (M-59), Civil Engineering, Medicine.
Library assistant I (M-57), Ellis-Catalog Management, Ellis-Search/Cataloging.
Library Clerk II (M-53) Ellis Library-Interlibrary Loan.
Library Clerk III (M-55) Ellis Library-Acquisitions.
Radio dispatcher (M-56), University Police, rotating shifts.
Secretary (M-55), Anthropology, Biological Sciences (2), Development (2), Environmental Trace Substance Research Center-UM, Missouri Institute of Psychiatry (position located in St. Louis), Sociology, Surgery/Cardiothoracic Surgery, Surgery/Neurosurgery.
Secretary, ASUM Associated Students of the University of Missouri, 35 hours a week

during fall and winter semesters; 15 hours a week during summer. Call 882-2701 or pick up application at AO14 Brady Commons by May 16.

Senior secretary (M-57), Child Health (2), Cooperative Extension-Veterinary Medicine, Family and Community Medicine (2), Law-Center for Dispute Resolution.

CLERICAL
Clerk typist (M-51), Research Reactor-UM.
Clerk typist II (M-53), Office of Research Grants and Contracts; Plant Pathology (85 percent FTE, hours 8 a.m.-4 p.m.).

Senior accounting clerk (M-55), Facilities Management-UM, Mail Services, Memorial Union.

Senior clerk (M-55), Center for Independent Study.

Senior clerk typist (M-54), Campus Facilities/Energy Management, Family and Community Medicine (75 percent FTE), Mathematics, Purchasing, Romance Languages, Student Health Services.

COMPUTER/TECHNICAL
Computer programmer/analyst I, UED-Computing Services.
Systems analyst, Computing Services.

For more information on the following teaching and research positions, contact the appropriate individual listed below. All positions are contingent upon funding and enrollment.

Agricultural economics: Professor, deadline May 23. Contact J. Bruce Bullock, 882-3545.
Agromony: Instructor, deadline July 1. Contact Robert McGraw, 882-2801.
Anesthesiology: Instructor, assistant, associate or full professor, deadline Aug. 1. Contact G.W.N. Eggers, 882-2568.
Biochemistry: Research assistant professor, deadline May 31. Contact T.J. Guilfoyle or D.D. Randall, 882-7606.
Biological sciences: Associate or full professor of cell biology, deadline June 1. Contact Louis Sherman, 882-6659.
Biological sciences: Associate or full professor of neurobiology, deadline June 1. Contact Louis Sherman, 882-6659.
Center for Independent Study: Instructor-video credit course program, deadline May 16. Contact James Andrews, 882-4250.
Clothing and textiles: Assistant or associate professor, deadline June 6. Contact Kitty Dickerson, 882-6634.
Economics: Director of Missouri Council on Economic Education and assistant or associate professor. Contact Ronald Ratti, 882-4574.

Missouri Fire and Rescue Training Institute: Director and fire training specialist, deadline May 15. Contact George Nickolaus, 882-7321.

Radiology: Assistant, associate or full professor, deadline June 1. Contact David Witten, 882-8183.

Surgery: Assistant or associate professor in transplantation surgery, deadline June 30. Contact Donald Silver, 882-8178.

The following job openings were listed by the UMC Hospital and Clinics Personnel Department May 5 and may be filled at any time after meeting the required posting period. For more information, call 882-8186.

ADMINISTRATIVE/PROFESSIONAL
Assistant hospital plant engineer, Plant Engineering.
Associate hospital director, Nursing Services, Professional Services.

Physicians services representative, University Physicians.

Staff physical therapist, Physical Therapy.

CLERICAL
Chief clerk, Admissions, Supply Distribution, University Physicians, Clinic I.

Unit clerk, Nursing Service (2), CCU, Pediatrics, Professional Services, Operating Room.

Word processing operator II, Patient Accounts.

NURSING SERVICES
Medicine area
Clinical Nurse I, Nursing Service
Staff nurse, 4 East.

Surgery area
Licensed practical nurse, Neonatal ICU.
Staff nurse, 5 West (2), Neurosurgery Unit, Thoracic Intensive Care, Burn Intensive Care.

Maternal child/rehabilitation area
Education nurse, Pediatrics/Pediatrics ICU.
Staff nurse, Pediatrics, Rusk 4, Pediatrics ICU (75 percent FTE), Neonatal ICU (3); OB/GYN.

NURSING
(Positions outside of Nursing Service)
Licensed practical nurse, University Physicians (Family Practice Clinic, one-year position).
Staff Nurse, Recovery Room, SameDay Surgery Center.

NURSING CARE BANK
Licensed practical nurse, Nursing Care Bank.
Nursing assistant, Nursing Care Bank.
Staff nurse, Nursing Care Bank.

TECHNICAL
Nuclear medicine technologist, Radiology.
Radiographic service engineer, Clinical Engineering.

MIZZOU WEEKLY

Vol. 7 No. 30

A publication of the University of Missouri-Columbia faculty and staff, published every Friday during the academic year and twice a month during the summer by Publications and Alumni Communication, a department of Development, University and Alumni Relations Division, 1100 University Place, 882-7357. News deadline is noon Friday the week before publication. Annual subscriptions are available to retirees for \$10. Advisory board: Gerald Brouder, Bob Derryberry, Gary Fields, Toni Gordon, Linda Holsinger, Gordon Kimber, David Leuthold, Mary Miller, William Noteboom, Barbara Olson Smith, Bob Stewart and Donna Turner.
Editor: Karen Worley
Assistant editor: Carol Hunter
Photo editor: Larry Boehm
Staff writer: Jim Kelty

Effective May 19, 1986
Parking & Transportation
Services will have summer hours.
Our new hours will be from
7:30 a.m. to 4:00 p.m. Something to keep in
mind this summer is that all parking lots will
continue to be enforced.

Due to the construction of the parking garage,
lots WC-T, WC-8, and RC-13 will be officially closed the
week of May 26, 1986.

Parking Space
Parking & Transportation Services 882-4568

MIZZOU PEOPLE

PAUL AGRIS, professor of biological sciences, lectured at three professional meetings in Europe. His talks were at the RNA Workshop in Banz, West Germany; the Queosine Symposium in Erlangen, West Germany; and the RNA Processing Meeting in Rome.

HELEN ANDERSON, professor of human nutrition, foods and food systems management, was a member of a cooperative state research service review team that visited the University of Nebraska.

STEPHEN M. ARCHER, professor of speech and dramatic art, delivered the Weldon Spring Humanities Fellowship lecture at UMKC. He discussed "Actor as Metaphor," a paper based on the life and career of Junius Brutus Booth, the father of Edwin and John Wilkes Booth.

CHARLOTTE M. BALCER, resident physician in psychiatry, was appointed to the American Academy of Psychiatry's membership committee to represent all U.S. trainees in psychiatry.

N. GERALD BARRIER, professor and chair of history, presented "The Evolution of Sikhism and Contemporary Punjab Politics" to the University of Michigan history department and delivered the keynote address to a conference on Sikhism held in Ann Arbor, Mich.

LLOYD BARROW, associate professor of curriculum and instruction, wrote "Elementary Science Education Library Resources in Graduate and Undergraduate Teacher Education Programs of New England," which was published in the *Journal of Research in Science Teaching*.

He presented a paper, "International Environmental Education," to the Hartford Regional Convention of the National Science Teachers Association, at which he also was a co-presenter of the workshop "Magnetize Your Science Methods." Barrow was co-author of "Can Elementary

Science Textbooks be Used to Teach Health Education?" which appeared in the *Texas Science Teacher*.

J. ROBERT BARTH, professor of English, published "Coleridge's Ideal of Love" in *Studies of Romanticism*, "A Week on the London State" in *America*, and "Coleridge's Dejection: Imagination, Joy and the Power of Love" in *Coleridge's Imagination*.

He lectured on "Coleridge's Ideal of Love" at Rhodes College in Memphis, Tenn.; participated in a graduate colloquium on William Wordsworth and in a Gasson Lecture Series on literature and religion at Boston College; and led a special session called "Romanticism and the Borders of Genre" at the Modern Language Association meeting in Chicago.

JAMES BARTHEL, assistant professor of medicine, received a one-year grant of \$5,000 from the American College of Gastroenterology for a study of "The Role of Campylobacter-like Organisms in Gastritis and Ulcer Disease."

THOMAS S. BASKETT, professor of fisheries and wildlife, received the first Professional Award of Merit presented by the North-Central Section of The Wildlife Society in January. In March, he received honorary membership in The Wildlife Society at the national organization's annual meeting in Reno, Nev.

ASIT P. BASU, professor of statistics, received the Statistician of the Year award at a meeting of the Mid-Missouri Chapter of the American Statistical Association. He was cited for his contributions as department chair, past president of the chapter, organizer of international conferences and for his international reputation as a scholar. Basu is a fellow of the American Statistical Association, Institute of Mathematical Statistics, Royal Statistical Society and is an elected member of International Statistical Institute.

JO BEHYMER, associate professor of business education, presented "Survival Strategies for Business Teacher Education Programs" to the Business Education Division of the American Vocational Association in Atlanta.

BERNARD D. BEITMAN, associate professor of psychiatry, received a \$33,980 grant from the Upjohn Co. for a pilot study of Alprazolam in cardiology patients with panic disorder. Imad M. Basha, fourth-year resident physician in psychiatry, is co-investigator.

LINDA BENEDICT, UMC extension communications specialist, won the award of excellence in teaching/training from Agricultural Communicators in Education. Only one award of this nature is given each year.

Benedict was elected director-elect and director for Agricultural Communicators in Education north central region for 1986-87 and 1987-88. She is a staff member in the Agricultural Editor's Office.

CYNTHIA BESCH-WILLIFORD, instructor in veterinary pathology, presented "The Clinically Important Endoparasites of Rabbits, Rodents, Ferrets, Monkeys and Their Treatment," and "Collection, Handling and Processing of Specimens of Endoparasites in Small Exotic Animals" to the Eastern States Veterinary Association meeting in Orlando, Fla., in January.

ROBERT BIRKENHOLZ, assistant professor of agricultural education, was secretary of the national Agricultural Education Research meeting in Atlanta, where he presented "Inservice Needs of Beginning Vocational Agriculture Teachers." He represents AATEA on National Postsecondary Agriculture Students Organization board of directors.

OSCAR BLACK, mechanical trades specialist/pipefitter in Campus Facilities, attended a two-day ATC energy management seminar in Kansas City in March. He participated in a pneumatic temperature control training class.

ROBERT BLAKE, associate professor of family and community medicine, and **SHELDON BRAUN**, associate professor of medicine, were awarded a three-year, \$149,983 grant from the Robert Wood Johnson Foundation for their "COPD Psychosocial Intervention Trial."

ROBERT W. BLANCHARD, professor of agronomy, was elected a fellow of the

Soil Science Society of America. He was cited for his soil research. Only three of every 1,000 members are named fellows each year.

ALLEN C. BLUEDORN, associate professor of management, was elected representative to the executive committee of the Midwest Academy of Management. He will serve as that organization's program chair in 1987 and as president in 1988-89.

Bluedorn made the invited presentation "Managing the Teaching Dimension of the Professional Role" at the Doctoral Student/Junior Faculty consortium of the Southwestern Academy of Management in Dallas in March.

He and **E. ALLEN SLUSHER**, professor of management, were named co-editors of the *Organization and Management Theory Division of the Academy of Management's Newsletter*.

ALFRED S. BRADFORD, assistant professor of history, presented an illustrated public lecture, "The Cult of Lyourgus in Roman Sparta," to the Central Missouri Society of the Archaeological Institute of America.

WILLIAM BRADSHAW, dean of medicine, will co-direct a Missouri Geriatric Center, to be established with a three-year, \$138,485 grant from the Department of Health and Human Services. The center, a multi-campus and multi-school project of UM, addresses the need for more health professions faculty qualified to teach geriatrics and gerontology.

WILLIAM BRAUN, associate professor of veterinary medicine and surgery, presented "Dairy Goat Artificial Insemination," "Caprine Arthritis Encephalitis" and "Raising Dairy Goat Kids" at the Western Veterinary Conference in Las Vegas, Nev.

DANNY BRIGHT, mechanical trades specialist/pipefitter in Campus Facilities, attended an ATC energy management seminar in Kansas City in March, participating in a pneumatic temperature control training class.

GORDON BROWN, professor and director of the health services management program, was elected chairman of the board of directors of the Association of the University Professors in Health Administration for 1986-87. The association includes faculty from 150 colleges and universities worldwide.

GERALD BUENING, professor of veterinary microbiology, traveled to Mexico to visit the site of a babesiosis vaccination trial and plan future cooperative research with INIFAP Feb. 23-38.

DONALD BURNETT, mechanical trades specialist/pipefitter in Campus Facilities, attended a two-day ATC energy management seminar in Kansas City in March. He participated in a pneumatic temperature control training class. Burnett also attended an electronic training seminar in Columbia in April.

BRUCE CLARK, resident in veterinary medicine and surgery, presented "Bovine Anestrus" to the Iowa State Veterinary Medical Association's January meeting in Des Moines, Iowa.

MARILYN COLEMAN, professor of child and family development, presided at a general session of the Theory and Methodology Preconference Workshop, in which she gave a paper, "The Reliability and Validity of the Hardy Divorce Scale," co-written by **LARRY GANONG**, assistant professor of nursing.

She also was on a panel, "The Role of Family Life Professionals in Influencing State Policy," and presented a poster session on stepfamily self-help literature. Coleman was a discussant for four papers for a symposium on "Custody and Stepfamilies."

LINDA COLLIER, assistant professor of veterinary pathology, presented "Vogt Koyanagi Harada Syndrome in a Chow Chow" and "Bilateral, Multifocal Pigment Epithelial Hyperplasia" to the Midwest Veterinary Ophthalmology Society meeting in Madison, Wis., Jan. 31-Feb. 2.

PATRICIA CONDON became curator of European and American art for the Museum of Art and Archaeology Feb. 1. She is a specialist in 19th-century French art.

ROBERT CORWIN, professor of veterinary microbiology, presented "Cow/Calf

Parasitism" to the National Cattleman's Association meeting in San Antonio, Texas, in January.

Corwin also presented "Diagnostic Techniques in Parasitology for Animal Health Technicians," co-presented "Parasitisms of the Dog and Cat," led the Parasitology Symposium and led the meeting of the American Association of Sheep and Goats at the Western Veterinary Conference in Las Vegas, Nev.

JUDY CUNNINGHAM, director of the Missouri Special Education Dissemination Center and instructor in special education, was named Missouri's state editor of *Counterpoint*, a national news magazine that promotes quality in education.

A.E. DANIEL, associate professor of psychiatry, led a plenary session and presented a paper on "Family Violence" at the Asian/American Conference on Psychiatric Disorders in March in New Delhi, India.

WALTER DANIEL, professor of English, delivered the winter commencement address at Lincoln University in Jefferson City. He also spoke to the Columbia Art League on "Mahatma Gandhi's Influence on Martin Luther King Jr."

GEORGE DARDEN joined the music faculty for the winter semester. The renowned coach and accompanist is working with vocal students in special master classes, giving private coachings and helping with public performances.

DAVID DAVIS, professor and associate chair of psychiatry, was invited to organize a symposium, "Psychopathology of Personality Disorders: Changing Concepts," for the 25th anniversary meeting of the World Psychiatric Association, to be held in August in Copenhagen, Denmark. He also was appointed to the program committee of the American Association for Social Psychiatry.

ROBERT B. DENHARDT, professor of public administration, was invited to present a university lecture, "Restoring Confidence in the Public Service," at the University of South Florida in February. He also addressed the annual meeting of the Southeast Conference on Public Administration of the American Society for Public Administration.

KITTY DICKERSON, associate professor and chair of clothing and textiles, was invited to meet with the Textiles Surveillance Body (TSB) in Geneva, Switzerland. The TSB, a group of textile importers and exporters, implements international textile trade policy. Dickerson's travel was funded by the German Marshall Fund and the UMC Faculty Foreign Travel Fund.

DARLENE DIXON, senior secretary for the Academic Assistance Program, was selected as one of the Outstanding Young Women of America for 1985. The honor recognizes excellence in professional endeavors and civic activities.

RICHARD DOWDY, associate professor of human nutrition, foods and food systems management, participated in the American Home Economics Association site visit at Northern Illinois University.

VICTOR H. DROPKIN, plant pathologist, was named Scientist of the Year by the Missouri Academy of Science. He was chair of plant pathology at UMC from 1969-84.

MIKE DYRENFURTH, professor of practical and vocational-technical education, presented "Implementation of the Carl D. Perkins Vocational Education Act" at the American Vocational Association Conference in Atlanta.

ROBERT M. EASTMAN, professor of electrical engineering, was re-elected to senior membership in the Institute of Industrial Engineers.

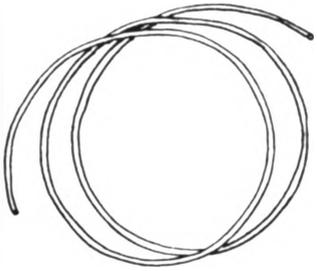

ABRAHAM EISENSTARK, professor of biological sciences, was appointed to the editorial boards of the *Journal of Bacteriology* and *Intervirology*. Eisenstark also was awarded a \$55,000 grant from the National Science Foundation for his research on "Metabolic Recovery from Near-UV Radiation Stress in Bacteria."

JOHN FAABORG, associate professor of biological sciences, lectured on "Long-term Trade-offs in Wildlife Management" at the Midwest Fish and Wildlife Conference in Grand Rapids, Mich.

We're changing for you.

(Continued from Page 4)

NANCY FAIR, assistant professor of clothing and textiles, discussed "The Use of Photography in the Evaluation of Fabric Properties" at the Association of College Professors of Textiles and Clothing-Central Region Conference.

ARMANDO R. FAVAZZA, professor of psychiatry, received a \$3,837 grant from the School of Medicine Research Council for a survey of self-mutilators. He chaired a plenary session and presented a paper called "Self-mutilation in Culture and Psychiatry" at the Asian/American Conference on Psychiatric Disorders in March in New Delhi, India.

BETTY FEATHER, associate professor of clothing and textiles, was co-presenter of "Mastectomy, Clothing and Self-Image" at the Association of College Professors of Textiles and Clothing-Central Region Conference.

MARGARET FLYNN, professor of family and community medicine, received a two-year, \$38,000 grant from the Wallace Genetic Foundation for "Longitudinal Study of Aging: Changes in Risk and Non-Risk Indices."

JOHN MILES FOLEY, professor of English, was appointed editor of Southeastern Europe, a periodical devoted to the cultures of the Balkans. He led two sessions on "Oral Tradition: Current Issues and a New Journal," and was an invited panelist for the American Folklore Society section on oral tradition at the Modern Language Association meeting in Chicago.

THOMAS FREEMAN, professor and chair of geology, received a \$1,500 grant from the Chevron Oil Co. to support a student field trip to south Florida in May. The trip will give students the opportunity to study environments like those in which ancient limestones are thought to have formed.

MICHAEL W. GALBRAITH, assistant professor of higher and adult education, co-wrote a research article, "Perceptions of National Leaders in Three Professional Associations About Aging, Learning and Work," which appeared in *Educational Gerontology: An International Journal*. The Journal also published Galbraith's article on perceptual learning styles.

His article on andragogical education, adult learning on one's own, appeared in *Education Perspectives*. In addition, Galbraith conducted a seminar on "Adult Learning: Theory to Practice" for the School of Law, Law Enforcement Training Institute.

CHARLES W. GEHRKE, professor of biochemistry and director of the mass chromatography facility, and **KENNETH KUO**, senior research chemist for the Experiment Station Chemical Laboratory, visited Germany, France, Switzerland and Italy this winter, where Gehrke lectured on analytical tools used to study cancer, genetics and nutrition.

Kuo and Gehrke, who received a \$150,000 grant from Marion Pharmaceutical Co. for research on protein analysis, was invited to speak at the third International Conference on Human Tumor Markers in April at the University of Naples, Italy. They also discussed their work with scientists in Egypt and Ridgefield, Conn.

CARL GERHARDT, professor of biological sciences, was invited to plan and run a symposium on Acoustic Communication at the first Congress of the International Society for Neuroethology, to be held this year in Tokyo. Gerhardt was awarded a three-year, \$150,000 grant from the National Science Foundation for his research on "Sound Pattern Recognition and Localization in Noisy Environments."

THOMAS L. GOOD, professor of education, wrote "Teacher Effectiveness in the Elementary School," which was selected as a Citation Classic due to frequent citing of the article by other social scientists and educators.

STEVEN GRAHAM, assistant professor of higher and adult education and foundations, co-wrote two papers. "Sources of Funding for Community Colleges" appeared in *Community College Review*, and "Academic Probation as a Measure of Academic Performance: Contrasting Transfer

Students to Native Students" appeared in *Community/Junior College Quarterly of Research and Practice*.

Graham also wrote "Factors Related to Educational Participation Among Adults," which appeared in *Higher Educational Abstracts*, and "Life Roles: A Multifaceted Approach to Adult Development," which appeared in *Resources in Education*.

DONALD GRANBERG, professor of sociology, co-wrote an article, "Prior Behavior, Recalled Behavior and the Prediction of Subsequent Voting Behavior in Sweden and the United States," which appeared in the February 1986 issue of *Human Relations*. Co-author was Soren Holmberg of Sweden.

PERRY GUSTAFSON, associate professor of agronomy, was presented the Distinguished Professor award under the 1985-86 Fulbright program with Yugoslavia.

R.E. HARRIS, associate professor of chemistry, and **S.R. KOIRTYOHANN**, professor of chemistry, wrote with two others "The Role of Electrons in the Emission Enhancement by Easily Ionized Elements Low in the Inductively Coupled Plasma" for *Spectrochimica Acta*.

ART HARRISON, professor of biological sciences, presented "Characteristics of Several Strains of Thiobacilli" at the Workshop on Biochemical Mechanisms In-

volved in the Bacterial Leaching of Minerals, held in Santiago, Chile. Harrison's travel was supported by the International Union of Biochemistry and by an International Travel Award from the UMC Graduate School.

BRUCE HARRY, assistant professor of psychiatry and adjunct assistant professor of law, presented two papers at a meeting of the American Academy of Psychiatry and Law held in February in New Orleans. The papers were called "Survivalists" and "A Diagnostic Study of Criminals Who Use Aliases."

Harry received a \$3,950 grant from the School of Medicine Research Council for a pilot study of psychiatric factors associated with parole decisions.

EDWARD W. HASSINGER, professor of rural sociology, and **JAMES R. PINKERTON**, associate professor of rural sociology, wrote a textbook, "The Human Community" (Macmillan, 1986).

RICHARD HELMICK, associate professor of housing and interior design, received \$510 from the faculty development advisory committee to support training on the 3M, BFA Computer Graphics Artist Workstation.

C. HASKELL HINNANT, professor of English, wrote a paper, "Dryden's Definition of a Play in An Essay of Dramatic Po-

etry: A Structuralist Approach," published in *Studies in Eighteenth-Century Culture*.

RICHARD HOCKS, professor of English, gave a lecture called "Henry James: An Introduction and Retrospection" as part of the English Department lecture series. He also was a member of a panel for interdisciplinary discussion of American Impressionism in Pickard Hall.

Works by **GARRETT KAORU HONGO**, Department of English poet-in-residence, appeared in several published anthologies, including *Introduction to Poetry* (St. Martin's Press), *An Introduction to Poetry* (Little Brown) and *The Morrow Anthology of Younger American Poets* (Morrow).

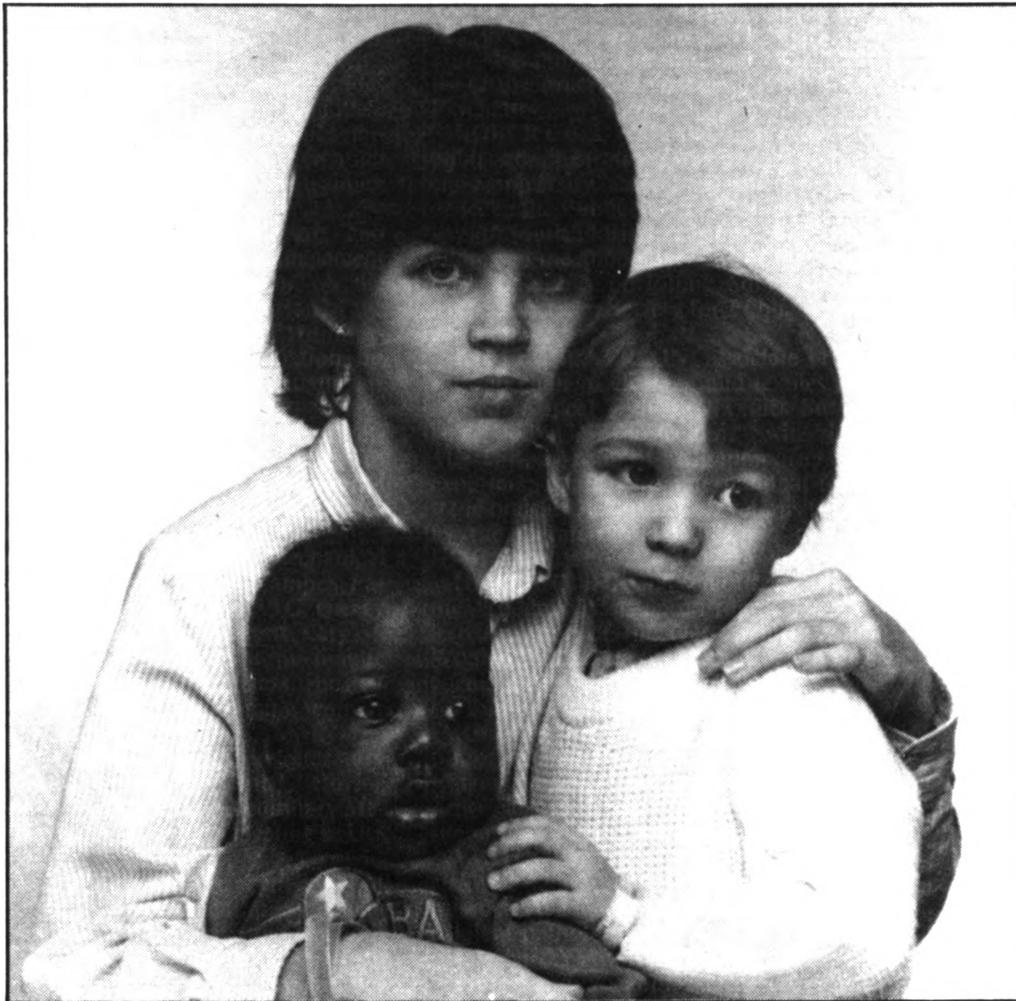

Hongo gave a poetry reading for Poetry International on Martin Luther King's birthday at Florida International University-Bay Vista Campus.

CAROL HUNTER, senior information specialist in Publications and Alumni Communication, won four second-place awards and two third-place awards in the Missouri Press Women communication contest. The awards were for stories published in *Mizzou Weekly* and *Missouri Alumnus* magazine.

SYED ARSHAD HUSAIN, professor of

(Continued on Page 6)

We know some kids who need your help...

Last year, the Children's Miracle Network Telethon raised more than \$83,000. All of that money stayed in central Missouri to benefit children's services at University Hospital and Clinics. We're using it to purchase

specialized equipment for our Pediatric Intensive Care Unit.

You made it happen in 1985. We need your help again in 1986. Please call our Telethon Office at 882-KIDS (5437) because these kids are counting on your help.

University of Missouri-Columbia

(Continued from Page 5)

psychiatry, led a plenary session and presented a paper called "Crosscultural Aspects of Childrearing and Psychopathology" at the Asian/American Conference on Psychiatric Disorders in March in New Delhi, India.

BRENT JONES, assistant professor of veterinary medicine and surgery, presented "Endoscopes: What, Why and How?", "Canine and Feline Esophagoscopy," "Canine and Feline Gastrosopy," "Canine and Feline Coloscopy," "Use and Interpretation of Liver Function Tests I and II," "Gastroenterological Pot Pourri (AHT)," and "Review of Collection and Care of Pathology Specimens (AHT)" to the Eastern States Veterinary Association meeting in Orlando, Fla., in January.

Jones discussed endoscopy, treatment of diarrhea and malassimilation syndromes at the Western Veterinary Conference in Las Vegas, Nev.

FLERNOY JONES, extension entomologist, was named Beekeeper of the Year by the Missouri Beekeeper's Association. He keeps nine hives in Columbia and Clark, Mo.

LLOYD P. JORGENSEN, professor emeritus of higher and adult education, wrote a book, "The State and the Non-Public School, 1825-1925," which will be published by the University of Missouri Press. An earlier book by Jorgenson, "The Founding of Public Schools in Wisconsin," was published by the State Historical Society of Wisconsin.

ROBERT R. KAHR, dean of veterinary medicine, was appointed to the National Advisory Council on Health Professions Education by Otis Bowen, secretary of health and human services. The only veterinarian on the 20-member council, Kahrs will help review grant proposals, analyze new congressional initiatives and advise the secretary of health and human services on health professions education.

LARRY KANTER, professor of art, was named Missouri Art Educator of the Year by the National Art Education Association. He received the award in April at the NAEA's New Orleans convention.

H.D. KIM, professor and chair of pharmacology, received a three-year, \$160,000 grant from the Edward Mallinckrodt Jr. Foundation to study the movement of insulin in heart cells and the potential development of new drugs to reduce excessive risk of heart attacks in diabetics.

HYUNYONG KIM, professor of chemistry, co-wrote "Molecular Vibrational Spectra of Potassium Peroxymonosulfate, KHSO₅ H₂O, and of the Aqueous Peroxymonosulfate Ion" in *Spectrochimica Acta*.

He co-wrote "Isolation and Characterization of Acetyl Hypofluorite" for *Journal of American Chemical Society*. He also co-wrote "Lattice Vibrations of a Monolayer of N-Hexane Adsorbed on Graphite" for *Journal of Chemical Physics*.

MARY LAGO, professor of English, presented a talk, "Rabindrath Tagore's Short Stories," to the India Arts Council of London. She gave a paper, "E.M. Forster as Author's Advocate," to the University of Durham (England) Faculty Seminar Group.

DONALD LANCE, professor of English, was chair of the Division of Language and Society's session at the Modern Language Association's annual meeting in Chicago.

MARY F. LENOX, dean of library and informational science, was elected chair/chair-elect of the Council of Deans and Directors of the Association of Library and Information Science Education (ALISE). She also was named to the 1986-87 American Library Association nominating committee.

JIM LEWIS, assistant professor of biological sciences, gave a talk on "Purification and Generation of Monoclonal Antibodies Against the Nematode Levamisole Receptor" at the annual Society for Neuroscience convention in Dallas.

BEA LITHERLAND, dean of home economics, became president of the Association of Administrators of Home Economics in February. She serves on the Council for Professional Development, the accrediting decision body.

CHRISTOPHER J. LUCAS, director of the Center for International Programs and Studies, participated in a meeting of the Mid-America State Universities Association's International Program Council, held in Monterrey, Mexico. At the meeting, an agreement was signed between representatives of MASUA and the Monterrey Institute of Technology providing for closer ties in the areas of faculty and student exchanges, faculty development programs and collaborative research projects.

GAIL S. LUDWIG, associate professor of geography and director of the geography extension program, gave an invited lecture, "Applied Geography: New Directions for the Next Decade" at Western Illinois University in December, as president of the National Council for Geographic Education.

JOE MARKS, professor and news director for the College of Agriculture, was chosen president-elect of Agricultural Communicators in Education for 1986-87 and president for 1987-88. ACE has more than 700 members in 22 countries.

BETTY B. MARTIN, associate professor of practical arts and vocational-technical education, presented "Sex-Typed Characteristics and Leadership Dimensions of Vocational Educators in a Mid-West Region of the United States."

MARTHA JO MARTIN, assistant dean of home economics, was a member of the American Home Economics Association accreditation site team that visited the University of Nebraska College of Home Economics.

Martin participated in the Home Economists in Business meeting in St. Louis.

JOHN P. MCCORMICK, professor of chemistry, received a \$15,000 grant from Cotton Inc. to study "Chemical Investigation Related to Byssinosis."

MARY B. MCDONALD, assistant professor of medical dietetics, was named 1985's Outstanding Dietitian of the Year by the Missouri Dietetic Association.

JEAN MCGARRY, assistant professor of English, published "The Orphan, the Hats, and the Count" in *Black Ice*.

ED METZEN, professor of family economics and management, and **MEL ZELENAK**, associate professor of family economics and management, attended the Mid-American Consumer Conference at Oklahoma State University.

J.B. MEYERS, mechanical trades specialist in Campus Facilities, attended an electronic training seminar in Columbia in April.

DON MILES, professor of biological sciences, was appointed to the editorial board of the *Journal of Plant Physiology*.

KERBY MILLER, professor of history, won the 1986 Merle Curti Prize in Social History for his book "Emigrants and Exiles: Ireland and the Irish Exodus to North America." The Organization of American Historians made the award for a

distinguished volume in U.S. social history published in 1984 or 1985.

R.B. MILLER, associate professor of veterinary medicine and surgery, and **W.H. FALES**, associate professor of veterinary microbiology, published a chapter in "Current Veterinary Therapy (2)" called Infectious Bovine Ketatoconjunctivitis." Miller presented "Beef Cow Nutrition, Update on Blue Tongue, Bovine Respiratory Disease" to the Eastern States Veterinary Association meeting in Orlando, Fla., in January.

L.G. MOREHOUSE, professor of veterinary pathology, presented "Fescue and Other Large Animal Fungal Toxicities" to the Kansas Veterinary Medical Association's annual meeting in Kansas City in January. He served as secretary/treasurer for the winter meeting of the Board of Governors of the American Association of Veterinary Laboratory Diagnosticians.

JOHN E.K. MREMA, research assistant professor of veterinary pathology, presented "Selected Serum Biochemical Values of Reference F1 Colony-born Owl Monkeys" to the American Society for Veterinary Clinical Pathology and American College of Veterinary Pathologists at their Denver meetings.

KATHLEEN J. NEWTON, assistant professor of biological sciences, received a three-year, \$35,000 annual award from the McKnight Foundation for her study, "Mitochondrial Gene Expression and Nuclear-Cytoplasmic Incompatibility in the Genus ZEA." She is one of 10 national winners of the award, which is designed to encourage young scientists conducting basic research in plant biology as it relates to agriculture.

JERRY NICHOLS, mechanical trades specialist in Campus Facilities, attended an electronic training seminar in Columbia in April.

STUART PALONSKY, associate professor of curriculum and instruction, wrote a book, "900 Shows a Year." The ethnographic study of high-school teaching argues that in order to change teaching, it is necessary to change the conditions of teachers' work.

EUGENE PIERCE, mechanical trades specialist in Campus Facilities, attended an electronic training seminar in Columbia in April.

TOM QUIRK, associate professor of English, is co-editor of "Romanticism: Critical Essays in American Literature."

DON RIDDLE, associate professor of biological sciences, was appointed as a permanent member of the National Institutes of Health Genetic Study Section. He will serve on the study section from 1985-89.

JOHN R. ROBERTS, professor of English, presented a paper, "John Donne's Elegies: The Aesthetics of Recognition," at the Modern Language Association's meeting. He was elected president of the John Donne Society of America.

JOHN ROBERTSON, assistant professor of veterinary medicine and surgery, presented "Orthopedic Devices in Avian Fractures" to the annual Veterinary Orthopedic Society meeting in Steamboat Springs, Colo., in March.

ARTHUR J. ROBINS, professor of psychiatry, chaired a plenary session and presented a paper on "Familial Factors in Psychopathology" at the Asian/American Conference on Psychiatric Disorders in March in New Delhi, India.

MARVIN L. ROGERS, associate professor of political science, published an article, "Political Involvement and Political Stability in Rural Malaysia," in the Journal of Commonwealth and Comparative Politics, a major British journal.

BETTY COOK ROTTMANN, coordinator of Visitor and Guest Relations, won second place for her brochure, "Journalism Education in Missouri," in the Missouri Press Women communication contest.

SHEROD SANTOS, assistant professor of English, wrote a poem, "The Blinded Ring-tail," which appeared in the February 8 edition of The Nation.

PAUL W. SCHMIDT, professor of physics, received a \$52,500 grant from the American Chemical Society's Petroleum Research Fund for a small-angle X-ray scattering study of fractal porosity.

FLIP SEARS, supervisor of skilled trades in Campus Facilities, attended an ATC energy management seminar in Kansas City in March, participating in a pneumatic temperature control training class.

LOU SHERMAN, professor of biological sciences, was reappointed to the USDA Photosynthesis Panel for 1986. He was invited to give a lecture and to participate in a round table at the fifth International Symposium on Photosynthetic Prokaryotes held in Grindelwald, Switzerland, this fall.

SHIVENDRA D. SHUKLA, assistant professor of pharmacology, received a three-year, \$272,193 grant from the National Institutes of Health to support the study "PAF Stimulated Phosphoinositide Turnover in Platelets."

JOSEPH SILVOSO, professor of accountancy, is 1986 winner of the \$5,000 Outstanding Accounting Educator Award presented by the American Institute of Certified Public Accountants.

BERNARD SINGSEN, professor of medicine, child health and pathology, was honored as the fifth annual Richard R. Kenney, D.O. Memorial Lecturer in a ceremony sponsored by the Kirksville College of Osteopathic Medicine. His lecture was called "Pediatric Arthritis: Strategies for Differential Diagnosis and Management."

JAMES SMITHEE, mechanical trades specialist in Campus Facilities, attended an electronic training seminar in Columbia in April.

TRAVIS SOLOMON, professor of medicine, received a three-year grant of \$196,597 from the National Institute of Ar-

thritis, Diabetes, Digestive and Kidney Diseases for his study, "Role of Cholecystokinin in Gastrointestinal Function."

BOB R. STEWART, professor of agricultural education, was installed as vice president of the American Association of Teacher Educators in Agriculture's Central Region.

RODNEY STRAW, resident in veterinary medicine and surgery, presented "A Study of the Use of a Vascular Skeletal Muscle Graft for Canine Esophageal Reconstruction" to the American College of Veterinary Surgeons meeting in Orlando, Fla., in February.

CALENDAR

The May 16 Mizzou Weekly will include announcements of events May 16 through June 13, when the newspaper will resume publishing. For May 16, send information to Jim Kelly, Mizzou Weekly, 1100 University Place, by noon May 9.

Highlights

KBIA RADIO'S 14TH BIRTHDAY JAZZ DANCE: Event will be held at 7 p.m. May 10 at the Tiger Hotel Ballroom, 23 S. Eighth St. Cost: \$5.
DANCE: "Sockhop and '50s & '60s Contest for Children's Miracle Network Telethon" will be held from 8 p.m.-1 a.m. May 10 at the Eagles Club Lodge on Route E near the L. A. Nickell Golf Course. Cost: \$5. Call 882-5437.
CAMPUS COMMENCEMENT: Ceremony will be held at 10 a.m. May 17. Luncheon will follow at noon in the Hearnes Bldg.

9 Friday

STOP DAY.
MISSOURI CREDIT UNION LEAGUE: "Credit Unions 1990," a two-day intensive course for credit union managers, will be held through May 10 at the Holiday Inn at the Lake of the Ozarks. Call 882-6784.
STUDENT RECITAL: Ruthann Lovetang, mezzo-soprano, will perform at 7 p.m., and Aureo Deo de Freitas, cellist, will perform at 8:30 p.m. in the Fine Arts Recital Hall.
MSA FILM: "Fletch" will be shown at 7 and 9:30 p.m. in Jesse Aud. Cost: \$2.
SEE THE STARS: Weather permitting, the Laws Observatory on the roof of the Physics Bldg. will be open between 8 and 10 p.m.

10 Saturday

FINAL EXAMINATIONS BEGIN.
AUCTION: The Materials Management Department will hold a public auction, starting at 10 a.m., at the Rock Quarry Warehouse West. Desks, chairs, paintings, calculators and typewriters will be auctioned to the highest bidder.
MEN'S BASEBALL: Team will play Nebraska at noon at Simmons Field.

ORNITHOLOGY PROGRAMS AND DISPLAY: Walter Crawford of the Raptor Rehabilitation and Propagation Project will present programs on endangered birds of prey at 1 p.m. and 3:30 p.m. at UMC's Powell Center, near Lone Jack, Mo. Cost: \$1. The center also will feature live displays of owls, hawks, falcons and vultures. Call 882-8237.
KBIA RADIO'S 14TH BIRTHDAY JAZZ DANCE: See Highlights.
MSA FILM: "Rocky IV" will be shown at 7 and 9:30 p.m. in Jesse Aud. Cost: \$2. "Rebel Without A Cause" will be shown at midnight in Memorial Union Aud. Cost: \$1.
TEST: Test of English of as a Foreign Language will be offered in Allen Aud. Call 882-4801.
DANCE: See Highlights.

11 Sunday

MEN'S BASEBALL: Team will play Nebraska at 12:30 p.m. at Simmons Field.
MSA FILM: "Dangerous" will be shown at 8 p.m. in Memorial Union Aud. Cost: 50 cents.

12 Monday

SECOND ANNUAL MISSOURI INSTITUTE FOR TRIAL ADVOCACY: Event will be held through May 15 at UMKC. Registration fee: \$395. Call 882-7251.
MISSOURI INSTITUTE FOR EXECUTIVE DEVELOPMENT WORKSHOP: "Effective Presentation Techniques" will be held today at the Holiday Inn in Jefferson City. Call 882-6784.
OPEN FORUM: Architects studying the renovation/expansion of Brewer/Rothwell will hold a forum from 9 a.m.-noon in S4 Memorial Union. Faculty and staff are encouraged to attend. The architects will summarize morning's discussion from 4-6 p.m. in S4 Memorial Union. Call 882-2066.
MSA FILM: "Throne of Blood" will be shown at 8 p.m. in Ellis Aud. Cost: 50 cents.

13 Tuesday

Ticket or cost information _____

Is event open to the public? If not, who may attend? _____

Submitted by _____ Phone number _____

To announce an event, fill out this coupon and send it through campus mail to Mizzou Weekly, 1100 University Place. The deadline is noon June 6, however an earlier response would be greatly appreciated.

Search committee names finalists

A campus search committee named six finalists for dean of the College of Education last week.

They are: Tanis H. Bryan, associate dean for research and development and director of graduate studies at the University of Illinois-Chicago's College of Education; F. Joe Crosswhite, BS Ed '53, M Ed '58, president of the National Council of Teachers of Mathematics and formerly professor of mathematics education at The Ohio State University; J. John Harris III, professor and chairman of the educational leadership and policy studies department at Indiana University-Bloomington/Indianapolis.

Wilbur R. Miller, BS Ed '54, M Ed '55, EdD '60, Mizzou associate dean of education; Alden J. Moe, associate dean for academic affairs at Louisiana State University's College of Education; and William H. Schmidt, professor and chairman of the counseling, education, educational psychology and special education department and acting assistant dean for planning and evaluation at Michigan State University's College of Education.

Each candidate will visit campus in the coming weeks to meet with search committee members, faculty, students, staff and administrators.

The new dean will succeed Bob Woods, who will retire June 30 after 20 years as dean.
